General Registration Information
1st column – insert new bullet before the final paragraph
• A student who registers in and then drops courses repeatedly over several consecutive terms may have access to course registration blocked. When a registration block is to be instituted, the Registrar will issue an email notice to the student and will copy the Dean, or designate, of her or his Faculty of registration offering an opportunity for the student to respond, in writing and within 14 calendar days, to explain this registration history. The Registrar and the Dean or designate will review the student's explanation and will determine if the registration block should be imposed. If upon review of the explanation, a registration block is imposed, the student may submit an appeal to the Senate Committee on Admission, Re-registration and Transfer (c/o Undergraduate Admissions and Records).
