University of Victoria

Supplement

To the 2011-2012 Graduate Calendar

This Supplement contains corrections to the 2011-2012 Graduate Calendar (obvious typographical errors excluded), as well as amendments and new programs approved by Senate and the Board of Governors since publishing. Specific revisions are underlined.

Page 3 – 2011-2012 Important Dates

1st column - correction to listing
Student Awards and Financial Aid
Provides information for new students about funding sources, expected costs and strategies for balancing their budget. Available from Undergraduate Admissions.

Page 9 – Counselling Services
2nd column – delete the following two sections:
International Student Counselling &
Adanced Educational Testing/Computer-Based Testing Centre
Replace with the following two new sections:
Counselling for Indigenous Students
Individual, couples and group counseling is available for Indigenous students through a collaboration with UVic’s Office of Indigenous Affairs. Support can address a wide variety of issues such as: strengthening of identity, processing of colonial trauma, navigating the university environment as an Indigenous learner, and regaining balance and harmony in all aspect of life.

Counselling for International Students
Individual, couples and group counseling is available for currently registered UVic international students on a wide variety of issues such as culture shock, communication, navigating the academic system, and returning home.

Julia Munk

Page 16 – Degrees and Programs Offered
1st column
The Faculty of Graduate Studies of the University of Victoria administers programs leading to the doctoral and master’s degrees, as well as certificates and diplomas as shown at right in the following tables.

Details of established programs leading to a doctoral or master's or post-graduate degree are provided within the Graduate Programs section. Degrees Graduate programs may also be taken with a co-operative education option, with an interdisciplinary focus, or by special arrangement.

Faculty Admissions
General Requirements and Procedures for All Graduate Students
The minimum general and academic requirements for admission to the Faculty of Graduate Studies include:

1. an academic standing acceptable to the Faculty of Graduate Studies and the academic unit concerned
2. a baccalaureate degree (or equivalent degree from another country) from an accredited and recognized institution
3. a grade point average of 5.0 (B) in the work of the last two years (30 units) leading to the bachelor’s degree. (Please note that individual academic units often set higher entrance standards.)
4. satisfactory assessment reports
5. the availability of an appropriate supervisor within the academic unit concerned
6. the availability of adequate space and facilities within the academic unit concerned.

Application for Admission
There is an application fee of $100 102 if all postsecondary transcripts come from institutions within Canada and $125 127 if any post-secondary transcripts come from institutions outside of Canada. It is non-refundable and can not be credited towards tuition fees. Applications will only be processed after the application fee has been received. Application materials are kept on file for one year, and may be reactivated on request within that year and by
Page 35 - Tuition and Other Fees

UVic Students' Society Universal Bus Pass Plan (U-Pass)
The UVSS provides a mandatory bus pass plan for all graduate students. U-Pass was approved by student referendum in 1999. The U-Pass fee is $78.50 per term. U-Pass gives students unlimited access to all Greater Victoria BC Transit buses and HandyDart services at all times and on all days.

Fees for International Students
International students (those not holding Canadian citizenship or permanent residency at the beginning of the session) are required to pay international tuition fees for graduate programs and courses. Fees will be adjusted to regular rates for students who show a permanent residency card before the last day of each term - the deadline for dropping courses for each session (October 31, February 28 and June 30).

Under Domestic Tuition
Athletics/Recreation-per term (on-campus and local only) $76.00 71.50
Graduate Students’ Society-per term $55.63 52.94
Graduate Students’ Society-per co-op work term $27.82 26.97
GSS Extended Health Care Plan:
per year (single coverage) $328.00 255.00
Family opt-in, $260.00
8 month pro-rated fee. $219.00 170.00
Family opt-in, $190.00
Dental Care Plan-per year (single coverage) $214.00 185.00
8 month pro-rated fee. $143.00 125.00
U-Pass Bus Pass $78.50 62.50

International Tuition
Full fee installment $2002.72
Half fee installment $1001.36
Non-degree, per unit $797.42
Graduate reregistration fees, per term until maximum completion limits $797.42
Program extension fee $2002.72
Graduate co-op work term fee (this fee does not form part of the minimum program fee described under Program Fees, above) $726.24
Athletics/Recreation-per term (on-campus and local only) $76.00 71.50
Graduate Students’ Society-per term $55.63 52.94
Graduate Students’ Society-per co-op work term $27.82 26.97
GSS Extended Health Care Plan:
per year (single coverage) $328.00 255.00
Family opt-in, $260.00

**NEW** Centre for Advanced Security, Privacy, and Information Systems Research (ASPIRe)

Stephen W. Neville, PhD (Victoria), PEng (BC), Faculty of Engineering, Director

The ASPIRe Centre was formally established in 2011 within the Faculty of Engineering with support from the Government of the Province of British Columbia. ASPIRe focuses on advancing research and understanding with the three core inter-related domains of cyber-security, information privacy, and the underlying information systems that have become intrinsic to modern societies.

ASPIRe has a strong focus on facilitating and being a catalyst for research collaborations within the university in these areas and with external industry, government, and academic partners regionally, nationally, and internationally. ASPIRe also serves as a focal point for the research already underway at the university in these areas. ASPIRe members are involved in numerous industry, government, and academic research projects including in: network engineering, cryptography and cryptanalysis, distributed/cloud systems, health information systems, wireless networks, the semantic web, malware analysis and classification, social networking, mobile devices and applications, etc. ASPIRe is associated...
with NSERC’s national cyber-security focused strategic network - the Interconnected Systems Security Network (ISSNet) and UVic’s recently established Entrepreneurial Engineering Masters Projects (EEMP) conducted in partnership with the Alacrity Foundation.

ASPIRe is open to and welcoming of extending its collaborations across the wider university community as the ASPIRe membership fully realize that developing solutions in these pressing domains will require active collaborative efforts between technically and non-technically focused researchers, i.e., across engineering and science, business, law, psychology, political science, economics, etc., as well as active collaborations with its industry and government partners. ASPIRe members have research project support through NSERC, CFI, BC KDF, MITACS, etc.

**NEW** Victoria Subatomic Physics and Accelerator Research Centre (VISPA)

Deborah Karlen, BSc (U Alberta), PhD (Stanford), Director

The Victoria Subatomic Physics and Accelerator Research Centre (VISPA) brings together an internationally recognized group of particle and accelerator physicists who work to understand the fundamental nature of our Universe. Group members develop new theoretical approaches, participate in leading particle physics experiments around the world, and advance the technology required to pursue this science. The group shares computing and laboratory resources, supports and manages technical staff, and ensures a high-quality graduate and post-doctoral training environment.

The theoretical group has gained an excellent reputation across Canada and has close ties with the Perimeter Institute, a world leading institute in theoretical physics in Waterloo, Ontario. The experimental projects include ATLAS at CERN, at the energy frontier, T2K in Japan, a world leading neutrino experiment, and BABAR at SLAC, at the precision frontier. The University of Victoria is the lead institution on the new electron linear accelerator being built at TRIUMF, thanks to substantial funding from the Canadian Foundation for Innovation and the Province of British Columbia.

Certificate and Diploma Offerings

The Cultural Heritage Management Program offers a
Graduate Professional Certificate in Cultural Heritage
Studies that can be completed on its own or laddered to a
Graduate Professional Diploma in Cultural Heritage
Management. Both programs address issues and practices
involved in the fields of cultural heritage, and are designed
for individuals working with cultural heritage in settings
such as museums, cultural centres, galleries, historic sites,
parks and landscapes, urban revitalization and public
service. The Graduate Professional Certificate is also
designed to enable students engaged in graduate degree
studies in related fields at UVic to undertake concurrent
degree/certificate programs in which selected certificate
courses are transferrable to the degree with the approval of
the academic unit. Concurrent degree/certificate students
can receive both a graduate degree and a graduate
professional certificate upon completion of program
requirements.

Admission Requirements

Graduate Professional Certificate in Cultural Heritage
Studies

To be eligible for admission, students must have an
undergraduate degree with a minimum B (5.0) average in
their last two years (30) units leading to the undergraduate
degree. Applicants with four or more years of relevant
professional experience whose grade point average in their
undergraduate degree is below B may be considered for
admission as a mature student.

Applications for admission are first received by the
Graduate Admissions and Records Office. This office
 evaluates each applicant’s transcripts to determine
admissibility to the program. After this determination, the
application is forwarded to the Program Admissions
Committee for consideration. Admission is a competitive
process, based on both grades from prior studies, and
evidence of professional experience and achievements that
enable the Admission Committee to assess an applicant’s
ability to successfully complete the program.

To apply for the Graduate Professional Certificate if you
are not enrolled in a graduate degree program, please
complete the following, and submit either online or by
mail, to Graduate Admissions and Records:

• the Faculty of Graduate Studies Application for
  Admission, available online at <www.pas.bc.ca> or
downloadable from the Faculty of Graduate Studies
  <www.uvic.ca/gradstudies>

• two Assessment Reports from academic referees and one
  Assessment Report from a workplace referee (e.g. current
  or former supervisor) in a cultural heritage workplace. To
  strengthen your application, we recommend that your
  workplace referee attach a letter of reference to the
  Assessment Report.

• relevant transcripts

• a professional resume

• the Graduate Professional Certificate in Cultural Heritage
  Studies Program Application, available on the Cultural
  Heritage Management website

Deadlines

As the starting date for the program may vary from year to
year, application deadlines for current students and new
domestic and international students are posted on the
program website.

To apply for concurrent Graduate Professional Certificate
status while enrolled in a graduate degree program, please
assemble the following and submit, either online or by
mail by the posted deadline, to Graduate Admissions and
Records:

• the online Graduate Professional Certificate in Cultural
  Heritage Studies Program Application on the Cultural
  Heritage Management website or download from the
  website.
• an application to reregister in the Faculty of Graduate Studies

• two Assessment Reports. While both can be from academic referees, if you have worked in the cultural heritage sector we encourage you to seek an assessment report from a current or former supervisor that comments on your experience.

• a memorandum from your Graduate Advisor confirming the number of Certificate units that can be applied to your graduate degree.

Graduate Professional Diploma in Cultural Heritage Management

Admission to the Graduate Professional Diploma in Cultural Heritage Management is based on completion of the Graduate Professional Certificate in Cultural Heritage Studies, the Diploma in Cultural Resource Management, or the Professional Specialization Certificate in Heritage Conservation Planning within the previous six years, and with a 5.0 (B) average.

If you are completing, or have completed, the Graduate Professional Certificate in Cultural Heritage Studies, you can apply by completing and submitting the following by the posted deadline:

• an application to reregister in the Faculty of Graduate Studies

• the online Graduate Professional Diploma in Cultural Heritage Management Program Application on the CHMP website or download from the website.

If you have completed the Diploma in Cultural Resource Management or the Professional Specialization Certificate in Heritage Conservation Planning within the previous six years, please assemble the following and submit, either online or by mail, to Graduate Admissions and Records, by the posted deadline:

• the Faculty of Graduate Studies Application for Admission, available online at <www.pas.bc.ca> or downloadable from the Faculty of Graduate Studies <www.uvic.ca/gradstudies>

• two Assessment Reports from academic referees and one Assessment Report from a workplace referee (e.g. current or former supervisor) in a cultural heritage workplace. To strengthen your application, we recommend that your referee attach a letter of reference to the Assessment Report.

• relevant transcripts

• a professional resume

• the Graduate Professional Certificate in Cultural Heritage Studies Program Application, available as an online or downloadable form on the Cultural Heritage Management website

Note: CH 560 Cultural Heritage Stewardship and Sustainability is a prerequisite to Graduate Professional Diploma coursework for those students entering on the basis of a Diploma in Cultural Resource Management or a Professional Specialization Certificate in Heritage Conservation Planning

Program Requirements

Graduate Professional Certificate in Cultural Heritage Studies

This program is designed to be completed on a part-time basis, one course per term, to enable students to balance work or graduate study commitments. You are expected to participate as part of a cohort, beginning with CH 560 Cultural Heritage Stewardship and Sustainability and then taking the following online courses sequentially over a period of four to five terms depending upon your selection of a final course.

Students can focus on either a museum studies or heritage planning option by completing the following courses:

Core Courses

Cultural Heritage Stewardship and Sustainability (CH 560) 1.5

Museum Option

Social Engagement (CH 561) 1.5
Curatorial Principles and Practices (CH 562) 1.5
Visitor Experiences (CH 563) 1.5

Heritage Planning Option

Heritage Conservation in Context (CH 570) 1.5

Determining Significance of Heritage Resources (CH 571) 1.5
Planning for Heritage Places (CH 572) 1.5

Elective

The final 1.5 units are selected from the HA 488A-U or HA 489A-L series of courses, or from CH 591 Internship (1.5) or CH 582 Special Topics in Cultural Heritage Management (1.5). When 400-level courses are identified as electives, they will be offered as either CH 588 Special

Students currently enrolled in the Diploma in Cultural Resource Management or the Professional Specialization Certificate in Heritage Conservation Planning may transfer 1.5 units of HA 488 or HA 489 credit to the Graduate Professional Certificate with the approval of the Graduate Advisor.

Graduate Professional Diploma in Cultural Heritage Management

This program is designed to be completed on a part-time basis, one course per term, to enable students to balance work commitments. You are expected to take the two core courses sequentially over two terms. You are able to complete diploma requirements in two to three terms, depending upon your selection of a final course. Note: CH 560 Cultural Heritage Stewardship and Sustainability is a prerequisite to Graduate Professional Diploma coursework for those students entering on the basis of a Diploma in Cultural Resource Management or a Professional Specialization Certificate in Heritage Conservation Planning.

Core Courses

Leadership in Cultural Heritage Management (CH 580) 1.5

Planning for Cultural Heritage Management (CH 581) 1.5

Elective

The final 1.5 units are selected from HA 488A, HA 488M, HA 488P, HA 488Q, or other HA 488 or HA 489 courses, or CH 582 Special Topics in Cultural Heritage Management (1.5), with the approval of the Graduate Adviser. When 400-level courses are identified as electives, they will be offered as either CH 588 Special Studies in Museum Principles and Practices or CH 589 Special Studies in Heritage Conservation.

Program Courses

CH Cultural Heritage Management

Department of History in Art and Division of Continuing Studies Faculty of Fine Arts

All Cultural Heritage Management courses are subject to differential fees.

CH 560 Units: 1.5

Cultural Heritage Stewardship and Sustainability

This course explores cultural heritage in all its diverse forms, along with the critical roles it plays in defining, reinforcing and contributing to a sustainable world. It discusses the scope and meaning of cultural heritage resources in contemporary society, and analyzes how diverse approaches to the conservation, access to and management of cultural heritage are continuing to evolve in response to philosophical changes and social, economic, cultural and environmental needs.

CH 561 Units: 1.5

Social Engagement

This course explores the profound social changes that are reshaping the nature and purposes of museums and other cultural heritage organizations in a pluralistic society and considers the implications for all aspects of their specialized functions. It takes a particular focus on how such organizations serve as dynamic social spaces for community engagement and action.

CH 562 Units: 1.5

Curatorial Principles and Practices

The course considers how traditional concepts of curatorship have shifted significantly in the face of more democratic relations with community, more subjective perspectives of knowledge, and increasing emphasis on the museum’s social and educational roles. It explores the nature and scope of contemporary curatorial practice and focuses on the ways in which curators engage with cultural heritage resources, develop collections, and generate and share associated knowledge to meet the needs of diverse communities.

CH 563 Units: 1.5

Visitor Experiences

This course explores the evolving concept and implications of an holistic approach to visitor engagement in museums and other cultural heritage institutions, and focuses on museums’ relationships with their publics, their capacity to serve as social spaces, strategies for audience research, the characteristics of visitors, communications, exhibitions, formal and informal learning activities, and evaluation strategies.

Note: A combined undergraduate/graduate course; credit will only be granted for one of 570, HA 489.

CH 570 Units: 1.5

Heritage Conservation In Context

This course addresses the complex range of principles and practices that influence heritage preservation and conservation planning and decision-making. The implications of international and national charters, principles, standards and guidelines, are discussed, along with legal, programmatic and financial incentives and constraints.
CH 571 Units: 1.5
Determining Significance of Heritage Resources
This course focuses on the definition of the heritage value or significance of a historic place or resource as a key step in the management of cultural heritage resources. It explores the range of historical aesthetic, social and scientific values that establish the character-defining elements of historic resources, including buildings, structures, historic districts and cultural landscapes. Various methods of inventory and evaluation are discussed along with their roles in guiding subsequent conservation planning and decision-making.
Note: A combined undergraduate/graduate course; credit will only be granted for one of 571, HA 489C.

CH 572 Units: 1.5
Planning for Heritage Places
This course focuses on approaches to planning and heritage conservation decision-making, and discusses the components of the heritage conservation planning process, including alignment with local and regional planning priorities, community involvement and consultation, the acquisition and integration of technical and regulatory information and professional expertise, and the integration of planning in the long term management of heritage resources.
Note: A combined undergraduate/graduate course; credit will only be granted for one of 572, HA 489.

CH 582 Units: 1.5
Leadership in Cultural Heritage Management
This course explores the nature and attributes of successful and visionary cultural sector leadership, and examines contemporary challenges and issues impacting leadership and management in the cultural heritage sector. Topics include leadership theory and models, the roles of leadership within organizational and community settings, building effective teams and partnerships, and resolving conflict.

CH 583 Units: 1.5
Planning for Cultural Heritage Management
This course addresses strategies for effective planning that provides both a framework and a guide for all aspects of the complex work of cultural heritage organizations. The central roles of planning in organizational and project management are explored, along with a range of planning principles and methods suited to the cultural heritage sector.

CH 584 Units: 1.5
Topics in Cultural Heritage Management
Note: This course may be taken more than once for credit in different topic areas.
Prerequisites: Permission of the Program Adviser.

CH 588 Units: 1.5
Special Studies in Museum Principles and Practices
May be taken in conjunction with a Cultural Resource Management course in the HA 488 series with permission of the Program Adviser.

Note: This course may be taken more than once for credit in different topic areas.
Prerequisites: Permission of the Program Adviser.

CH 591 Units: 1.5
Cultural Heritage Internship
A placement in a cultural heritage management setting, designed to build knowledge and skills in a specialized area of practice.
Grading: INP, COM, F, N.

Visual object and face recognition
John Taylor, PhD (Simon Fraser Univ.)
Comparative genomics, gene and gene duplication
Stephanie Willerth, PhD (Washington)
Tissue engineered scaffolds for promoting stem cell differentiation, novel drug delivery systems, and analysis of stem cell differentiation using next generation sequencing
E. Paul Zehr, PhD (Alberta)
Neuromuscular plasticity and motor recovery after injury
Associated Faculty
C.A. Elizabeth Brimacombe PhD (Iowa State)
Eyewitness testimony, social cognition
Mauricio A. Garcia-Barrera PhD, (Univ. of Georgia)
Clinical neuropsychology
David F. Hultsch, PhD Syracuse
Life-span development
Kimberly A. Kerns, PhD (Chicago Medical School)
Pediatric neuropsychology, clinical psychology, attention and memory disorders
Catherine A. Mateer, PhD (Univ. of Western Ontario)
Clinical neuropsychology, neuropsychological and cognitive rehabilitation, traumatic brain injury
Stuart MacDonald PhD (Univ. of Victoria)
Life-span development
Ulrich Mueller, PhD (Temple)
Development of self-regulation, executive function, social development in infancy and early childhood
J. Don Read PhD (Kansas State)
Memory and cognition
Nancy Sherwood PhD (California-Berkeley)
Neuropeptides in the control of reproduction and growth; evolution of neuropeptides, mainly in fish
Degrees and Specializations Offered
MSc and PhD in Neuroscience

Financial Support
All students accepted into the program are guaranteed a minimum stipend which can be comprised of a combination of scholarship, fellowship, Teaching Assistantship and support payments from individual research grants. For this reason students are accepted into individual laboratories as well as by the Program. Students admitted to the program will have as a home department the department or school in which their thesis supervisor has their primary appointment. Students will be eligible for fellowships and Teaching Assistantships administered by their home department.

All graduate students are financially supported to undertake full-time graduate studies. MSc students deemed to be making satisfactory progress towards their degree requirements are guaranteed a minimum of $20,000 per annum for two years and PhD students $20,000 per annum for four years from the sources listed above. Funding is still available in additional years of the program but the minimum is no longer enforced.

Admission Requirements

General
Initial inquiries should be made to individual faculty or the Graduate Adviser, Graduate Neuroscience Program. In addition to the documentation required by the Faculty of Graduate Studies (see page 16) students will need to supply a letter outlining the applicant’s research interests and identifying prospective research supervisors.

Applicants whose native language is not English must write the TOEFL (Test of English as a Foreign Language) and submit scores to the Graduate Admissions and Records Office. A score of at least 630 on the paper based version of the test or 267 on the computer based test or an overall score of 90 on the internet based TOEFL is required.

Admission to the MSc Program

Admission requires a bachelor’s degree with course-work appropriate to the proposed thesis research concentration. Students who have achieved the minimum grade point average (GPA) of the home department during the last two years of study will be considered for direct admission to the Program. Students meeting the Faculty of Graduate Studies minimum will be conditionally considered for admission on a case-by-case basis.

Admission to the PhD Program

Students can enter the PhD program having previously achieved a MSc degree, by transferring from the MSc program at the end of their first year upon recommendation of the supervisory committee or directly with a BSc. Students with a bachelor’s degree with course-work appropriate to the proposed thesis research concentration and a first class GPA (over 7.0 on the UVic 9.0 scale or around 80%) in their last two years of study will be considered for direct entry to the PhD program. Evidence of research experience including summer research, honours thesis work or peer reviewed publications will support application to the PhD program in the absence of a MSc degree. Admission based on a MSc qualification will normally require a graduate GPA of over 7.0 on the UVic scale. Applicants to this program will require the following to complete their application package:

- Official Transcript
- Acceptance by the Neuroscience Admissions Committee, and
- Acceptance from a faculty member willing to act as the student’s supervisor and guarantee minimum financial support requirement will be met,
- Two letters of reference.

Deadlines
To be eligible to be considered for a University of Victoria Fellowship applicants must submit their application package by February 15 for admission in September of the same calendar year. Admission is possible for September 1 or January 1 with a recommendation that applications be received a minimum of 3 months prior to the proposed entry date for Canadian applicants. Because of visa requirements international students should complete the application process at least six months in advance.

Program Requirements

MSc – Thesis Option

The MSc is a full-time research degree with the requirement for a thesis and some additional coursework

Course Requirements

All students must complete NRSC 500 Fundamentals of Neuroscience covering core concepts in cellular, systems and cognitive neuroscience. All students will be expected to enrol in a seminar and research presentation course in either Cellular (NRSC 501A) or Cognitive (NRSC 501B) Neuroscience for at least four terms while in the program.

Program Length

The MSc is primarily a program of full-time independent research. Students can expect to take a minimum of two years to complete the program.

PhD Program

The PhD program is a full-time program of independent and original research leading to a dissertation which is defended in an oral examination. Normally, students must complete a candidacy examination within 21 months of entering the program. In addition to the courses listed below students may be required to take supplemental courses to address specific gaps in their preparation for their dissertation work at the advice of their supervisory committee. Students must enroll in the seminar and
presentation course appropriate to their area of study for at least eight terms during the course of their degree.

*21 units for candidates with an MSc, 30 for candidates with a BSc

**Dissertation**

The topic and scope of the dissertation research is determined by the supervisory committee and the candidate. The written dissertation must comprise an original work of research of a quality suitable for publication as at least one peer reviewed journal article.

**Oral Examination**

The dissertation must be defended in an oral examination in front of the supervisory committee and an external examiner from outside the university to ensure that the research and dissertation meet the required standard.

**Program Length**

The PhD is a full-time research degree that normally takes a minimum of four years to complete.

---

**NRSC**

**Neuroscience**

**Division of Medical Sciences**

**NRSC 500 Units: 1.5**

**Fundamentals of Neuroscience**

This is a breadth course that is team-taught by Cellular and Cognitive Neuroscience faculty. The course covers the essential basics of current neuroscience and introduces students to specific faculty research interests.

Note: This course is required for all students enrolled in the Neuroscience Graduate Program.

**NRSC 501A Units: 1.0**

**Advanced Topics in Cellular Neuroscience**

Seminar on current topics in Cellular Neuroscience.

**NRSC 501B Units: 1.0**

**Advanced Topics in Cognitive Neuroscience**

Seminar on current topics in Cognitive Neuroscience.

Note: Course participation in NRSC 501(A or B) is mandatory every year the student is enrolled in the Neuroscience Graduate Program up to a maximum of four terms for MSc and eight terms for PhD students.

**NRSC 595 Units: 1.5**

**MSc Thesis Preparation**

Students will be engaged in preparing a thesis proposal for presentation to their supervisory committee. This course will need to be completed by all MSc students enrolled in the Graduate Program in Neuroscience before having a thesis proposal evaluated by their supervisory committee.

Grading: INP, COM, N, F.

**NRSC 599 Units: 9.0**

**MSc Thesis**

A thesis comprising an original scientific study and/or scientific analysis of a problem germane to contemporary neuroscience.

Prerequisites: NRSC 595 or equivalent

Grading: INP, COM, N, F.

**NRSC 693 Units: 3.0**

**Candidacy Examination**

Required by all PhD students enrolled in the Graduate Program in Neuroscience until they pass their candidacy examination.

Grading: INP, COM, N, F.

**NRSC 699 Units: 21-30**

**PhD Dissertation**

A dissertation containing an original scientific study which adds new knowledge to the field of neuroscience.

Note: MSc students require 21 units to fulfill the program requirements. BSc students will receive 30 units to fulfill the program requirements.

Prerequisites: NRSC 693 or equivalent

Grading: INP, COM, N, F.
