The University of Victoria operates under the authority of the University Act (RSBC 1996 c. 468) which provides for a Convocation, Board of Governors, Senate and Faculties. The University Act describes the powers and responsibilities of those bodies, as well as the duties of the officers of the University. Copies of this Act are held in the University Library.

The official academic year begins on May 1. Changes in Calendar regulations normally take effect May 1 each year unless otherwise approved by the Senate. Nevertheless, the University reserves the right to revise or cancel at any time any rule or regulation published in this Calendar or its supplements. The Calendar is published annually in the Spring by the Office of the Registrar, Student Affairs, under authority granted by the Senate of the University.

Welcome to UVic!

The University of Victoria is a great place for learning. It's not surprising that Maclean's magazine consistently ranks UVic as one of the top comprehensive universities in Canada. With over 19,000 students, UVic combines the best features of both small and large universities.

If you are a new student, you probably have a lot of questions about student life at UVic. Here are some answers to get you started.

**How Do I Apply for Admission?**

The easiest way to apply is through our website at [www.uvic.ca/apply](http://www.uvic.ca/apply). You can complete a web application or download an application for printing. You can also link to other information you'll need, like program requirements, deadlines and course descriptions, and to all the other services at UVic. If you don't have Internet access, please contact Undergraduate Admissions.

Keep in mind that as well as completing an application form, you'll have to arrange to send official transcripts of your marks from secondary school and any post-secondary institutions you've attended, and pay application fees. You'll find more details about admission requirements starting on page 21.

**How Do I Choose What to Study?**

Your choice of courses will depend on your academic goal. Most programs at UVic lead to a degree, but there are also many diploma and certificate programs. You'll find a list of these on page 21.

If you're planning to begin a degree at UVic, you'll first have to qualify for admission to a faculty or school offering that degree; these include the Peter B. Gustavson School of Business, the faculties of Education, Engineering, Fine Arts, Human and Social Development, Humanities, Law, Science, Social Sciences and Graduate Studies. You'll find a list of the degrees offerings on page 21. Specific minimum admission requirements are listed in the table on page 24.

In most faculties, you will also enter a department. Departments specialize in different fields of study. (The Faculty of Science, for example, includes the Departments of Biology and Chemistry, as well as others.) Use the table of contents to locate information about the faculty, school or department you plan to enter. Use the index to find information about a particular field of study (for example, nursing or computer science).

Each faculty and department entry in the Calendar includes information on the degree programs available and their course requirements. To learn more about particular courses, check the individual course descriptions in the second half of the Calendar. You'll find a list of the faculties and the courses they offer on page 85.

Where Can I Get Advice About My Studies?

If you are still trying to settle on your academic goal or decide what you want to do after university, UVic Counselling Services can help. Visit their website at <www.coun.uvic.ca/career/> to get an idea of the services available, or drop by their office in the University Centre, room B270.

For help with choosing a program of studies, contact the advising service in the faculty or program you’re planning to enter. Academic advisers are a great resource for students. Advisers can help you plan your program, decide which courses to take and find out which courses you can transfer to UVic. Advising services for each faculty and program are listed in the table at left.

How Do I Register for Courses?

Once you have received an offer of admission and paid your acceptance deposit, you will register online for courses through “My page” at <www.uvic.ca/mypage>. You can also visit <web.uvic.ca/reg101> for registration tips and tutorials.

How Much Will It Cost?

The answer depends on your faculty or program, how many courses you take, your transportation costs, and your living arrangements. Here are the typical costs for the 2012-2013 academic year for a student taking 15 units of courses.

- Domestic Tuition fees ...................................... $4959
- International Tuition fees ................................ $16045
- Student society fees ........................................ $139
- Athletics and recreation fee ................................. $155
- UVSS health plan ........................................... $144
- UVSS dental plan ............................................ $144
- UPass bus pass ................................................ $157
- Books and supplies, up to ................................ $1700
- Board and room for 8 months
  - on-campus, single (average) ............................ $7412
  - on-campus, double (average) ......................... $6508
  - off-campus ................................................. $5630-6840

Of course, your costs may be higher or lower than this, depending on the program you’re taking and your living costs.

What Financial Help Can I Get?

For most students, a university education requires considerable financial planning. The Student Awards and Financial Aid office is the place to get information and advice about funding your studies. Visit their website at <registrar.uvic.ca/safa/>.

Here are some of the options worth exploring.

Student loans:
The provincial and federal governments offer loans to students who need help funding their education. To qualify for a loan, you must be taking at least 4.5 units of courses (usually, three courses) for credit each term and show that you need financial assistance. Students with a permanent disability must be taking 3.0 units of courses for credit each term.

Work study:
This program provides jobs on campus to students requiring financial assistance.

Scholarships:
Scholarships, medals and prizes are awarded to students for excellence in their academic studies. They do not have to be repaid. The scholarships website is <registrar.uvic.ca/safa/>.

Bursaries:
Bursaries provide assistance to students who need financial help. They do not have to be repaid. There are bursaries for students entering UVic from secondary school or college, and for students who are already attending UVic.

You’ll find complete information on all of these sources of financial help at the Student Awards and Financial Aid website at <registrar.uvic.ca/safa/>.

What Is Co-op Education?

Co-op education allows students to combine their academic studies with paid work experience related to their field of study. Co-op is one of the best ways of gaining competencies (skills, knowledge and attributes) and experience so that you’re well prepared for the job market after graduation.

UVic’s Co-op Education Program is one the largest in Canada. Co-op programs are available in all faculties and offer everything from Chemistry to Women’s Studies. Visit the Co-op Programs website at <www.uvic.ca/coopandcareer> for a list of all the co-op programs at UVic and for information on becoming a co-op student.

How Do I Get My Student Card?

You must wait at least 24 hours after you register, then visit the Photo ID and Information Centre in the University Centre to have your photo taken for your student ID card. For information, go to <www.uvic.ca/photoid>.

How Do I Find My Way Around Campus?

UVic’s new Welcome Centre is the best place to get directions, information or take a tour of our stunning campus. Friendly staff and student guides provide an overview of UVic’s student support services, share their experience and answer your questions about everything “UVic.” To find out more about our services and campus visits, please visit <www.uvic.ca/welcome>.

The New Student Orientation Program is another great way to prepare for life at UVic. The program gives you exclusive access to important UVic services before classes begin. Tour the campus, meet friendly people and find out about UVic’s many student services. For more information about the New Student Orientation Program, please visit our website: <www.uvic.ca/orientation>.

During the first week of September, look for the ASK ME sign in the lobby of the University Centre where you can get answers to any questions you have about UVic.

Get a free handbook/calendar from the UVic Students’ Society (UVSS) in the Student Union Building (SUB). The handbook contains a daily planner to help you get organized, a guide to services at UVic and a phone directory.

The UVSS also sponsors Weeks of Welcome (WOW) during September. This is a fun way to make friends, join clubs and find out about services available in the SUB. Find out more about WOW events at <www.uvss.uvic.ca> or <web.uvic.ca/gss>.

Good luck with your studies.
And again, welcome to UVic!

August 2013
2  Friday  Classes end for Faculty of Law
5  Monday  British Columbia Day
6  Tuesday  Examinations begin for Faculty of Law
7  Wednesday  May-August classes end for all faculties except Faculty of Law
12  Monday  May-August examinations begin for all faculties except Faculty of Law
22  Thursday  May-August examinations end for all faculties except Faculty of Law

1. Classes are cancelled on all statutory holidays and during reading breaks. Administrative offices and academic departments are closed on statutory holidays. Holidays that fall on a weekend are observed on the next available weekday, normally on a Monday. The UVic Libraries are normally closed on holidays; exceptions are posted in advance.
2. Faculty of Human and Social Development dates to be announced.
3. See Faculty of Law for more details regarding Summer Session important dates.
4. For non-standard courses see <www.registrar.uvic.ca>.

Summer Session
Credit courses offered in the Summer Session period (May-August) are listed on the Summer Session website at <registrar.uvic.ca/summer> in late February. Off-campus courses, courses offered at the Bamfield Marine Sciences Centre and summer travel study programs are also listed on the website. Academic rules and regulations published in the main University Calendar, except as described in any Program Supplement to the Calendar, apply to students taking courses in the Summer Session period.

The University reserves the right to cancel courses when enrolment is insufficient.

For information, contact:
Coordinator—Curriculum, Calendar and Summer Services
Office of the Registrar, Student Affairs
University Centre
Phone: 250-721-8471; Fax: 250-721-6225
Email: lmorgan@uvic.ca
Website: <registrar.uvic.ca/summer>
The deadlines below are fixed dates. If a fixed date falls on a holiday, a Saturday or a Sunday, the nearest following day of business will be considered the deadline. The University reserves the right to make changes as necessary.

Change

The one address to which selected communications Normally, a laboratory or tutorial that accompanies a lecture. Also called Linked Section.

Auditor: A student who pays a fee to sit in on a course without the right to participate in any way. Auditors are not entitled to credit.

Award: See list of definitions under Scholarships and Awards.

CAPP: (Curriculum Advising and Program Planning) a degree audit which outlines the program requirements needed for degree completion and matches a student's course record against those requirements (formerly PADRE).

Confirmation of Registration: A confirmation of registered courses, including courses that are wait-listed, is available via "My page".

Co-operative Education: A program of education which integrates academic study with work experience.

Corequisite: A specific course or requirement that must be undertaken prior to or at the same time as a prescribed course, or a course required by a department for a degree program but offered by another department.

Course: A particular part of a subject, such as English 135.

Department: In academic regulations, this covers any academic administrative unit, including a department, school, centre or faculty as the context requires.

Discipline: A subject of study within a department.

Full-Time Student: An Undergraduate registered in 12 or more units of study in the Winter Session (September to April) or 6 or more units in Summer Session (May to August).

General Program: A program which requires 9 units at the 300 or 400 level in each of two disciplines.

Grade Point: A numerical value given to an alphabetical letter grade used in assessment of academic performance.

Graduate Student: A student who has received a Bachelor's degree or equivalent and who is enrolled in a program leading to a Master's or Doctoral degree.

Honours: A program which involves a high level of specialization in a discipline and requires 18 or more units in that discipline at the 300 or 400 level.

Letter Grade: Any of the letters used in the grading system.

Linked Section: Normally, a laboratory or tutorial that accompanies a lecture. Also called Associated Section.

Lower Level Courses: Courses numbered from 100 to 299.

Mailing Address: The one address to which selected communications from the Office of the Registrar (OREG) or other University offices will be sent. This address should be updated by the student through "My page" (Address Change).

Major Program: A program that involves specialization in a discipline and requires 15 or more units in that discipline at the 300 or 400 level.

Minor Program: An optional program that allows students to study in an area outside of their Honours, Major or General Program areas; requirements vary and are prescribed by each department.

Mutually Exclusive Courses: Courses with a different course number and the same course content. Students will not receive credit for courses identified as mutually exclusive.

“My page”: Web access to student records online at <www.uvic.ca/mypage>.

NetLink-ID: A unique personal identifier which is used as your “username” for various services provided by the University of Victoria.

Non-Standard Course Dates: Fee reduction and drop deadlines are based upon a percentage of the duration of a course. The duration of a course is end date minus start date plus 1 (i.e. the first day counts as 1). A table of non-standard date courses for Winter Session can be found under Non-Standard Course Dates, page 42. All tuition fee reductions are subject to retention of the acceptance deposit (new students). Please see <finance.uvic.ca/tuition>.

Non-Standard Course Table: The start and end dates are different than standard course dates for a section offered in the current Winter Session. The fee reduction and academic drop dates are calculated based on this variation of dates. Check <registrar.uvic.ca> or the appropriate registration guide for the "non-standard courses" list.

Online Registration: Registration via <www.uvic.ca/mypage>.

Online Timetable: Provides students with current course timetable information via the Web, including current information on open sections and the number of wait-listed students: <www.uvic.ca/timetable>.

Part-Time Student: An undergraduate student undertaking fewer than 12 units of study in the Winter Session or fewer than 6 units in Summer Session.

Permission: Registration in some courses requires permission from the Department. Registration is done through the Department. See also: Registration Restriction.

Plagiarism: A form of cheating by means of the unacknowledged, literal reproduction of ideas and material of other persons in the guise of new and original work.

Prerequisite: A preliminary requirement which must be met before registration is permitted in a prescribed course.

Primary Section: Normally a lecture section.

Probation: An academic standing assigned when minimum GPA requirements are not met and academic conditions apply.

Program: The courses of study organized to fulfill an academic objective, such as a BSc Major Chemistry program.

Registered Student: A person enrolled in at least one credit course at this university.

Regular Student: A student who is registered as a candidate for a University of Victoria degree, or in credit courses leading to a University of Victoria diploma or certificate.

Section: The division of a course, e.g., Section A01 of History 101.

Session: The designated period of time during which courses of study are offered (Winter Session, September to April; Summer Session, May to August).

Special Status: A status assigned to a student who is admitted to register in credit courses but who is not a candidate for a University degree, diploma, or certificate program. This status includes Non-degree, Qualifying, and Visiting (students attending on the basis of a Letter of Permission from another institution).

Standard Course Dates: The start and end dates correspond to the published first and last day of classes for a section offered in the Winter Session or Summer Session.

Student: A person who is enrolled in at least one credit course at this University.

Term: A period of time within an academic session. The Winter Session is divided into two terms: the first, September to December; the second, January to April.

Transcript: A copy of a student's permanent academic record.

Transfer Credit: Credit assigned to the academic record for courses successfully completed at another recognized institution.

Unclassified: Refers to the year in which certain students are registered. Normally applied to non-degree, visiting or diploma students.

Undergraduate Student: A student registered in an undergraduate faculty or in a program leading to a Bachelor's degree or an undergraduate diploma.

Unit: Positive numerical value used in assigning the value of a course, such as English 135 (1.5 units). See also: Term.

Upper Level Courses: Courses numbered from 300-499.

Visiting Status: A student who is not formally admitted to a UVic degree program but is permitted to enrol in credit courses for a specified period on the basis of a Letter of Permission from another institution.

Year: The level within a program of study, or the level of the course. For example, First-year student, First-year course (Physics 102).

Year Level Determination: Below 12 units First Year
12 to 26.5 units Second Year
27 to 41.5 units Third Year
42 units or above Fourth Year (4-year programs)
42 to 56.5 units Fourth Year (5-year programs)
57 units or above Fifth Year (5-year programs)

Special Students are unclassified as to year.
Known for excellence in teaching, research, and service to the community, the University of Victoria serves over 19,000 students. It is favoured by its location on Canada’s spectacular west coast, in the capital of British Columbia.
Information for All Students

Academic Sessions
The Winter Session is divided into two terms: the first, September to December; the second, January to April. The period May through August is the Summer Session. The Summer Session Guide is published separately (see page 7 for information).

Calendar Changes
The official academic year begins on May 1. Changes in calendar regulations normally take effect with the beginning of the Summer Session on May 1. Nevertheless, the University reserves the right to revise or cancel at any time any rule or regulation published in the Calendar or its supplements. The Calendar does not include information on when courses will be offered. Up-to-date timetable information is available from individual department offices and from the Office of the Registrar (OREG) website <registrar.uvic.ca>. Amendments to the timetable are incorporated into the Web Timetable, which is accessible at the website: <www.uvic.ca/timetable>.

Categories of Students
Each student who has been authorized to register in a faculty or program is designated as one of the following:
• Regular student: A student admitted to credit courses as a candidate for a degree, diploma, or certificate.
• Special student: A student admitted to credit courses but not a candidate for a degree, diploma, or certificate.
• IEX: A visiting student who is attending UVic on an International Exchange Program
• OEX: A UVic student who is attending another institution on an International Exchange Program

For categories of graduate students, see the UVic Graduate Calendar.

Classification of Undergraduates by Year
Classification of regular students by year is normally based on the number of units awarded, as follows:
- Below 12 units: First Year
- 12 to 26.5 units: Second Year
- 27 to 41.5 units: Third Year
- 42 units or above: Fourth Year (4-year programs)
- 42 to 56.5 units: Fourth Year*
- 57 units or above: Fifth Year*

* Five year programs only

Special students are not classified by year.

Course Values and Hours
Each course offered for credit has a unit value. A full-year course with three lecture hours per week through the full Winter Session from September to April normally has a value of 3 units. A half-year course with three lecture hours per week from September to December or from January to April normally has a value of 1.5 units. A 3-unit course (3 hours of lectures per week throughout the Winter Session) approximates a 6 semester-hour or a 9 quarter-hour course. A course of 1.5 units approximates a 3 semester-hour or a 4.5 quarter-hour course.

Student Cards
All students require a current University of Victoria Identification Card. The card is the property of the University and must be presented upon request as proof of identity at University functions and activities. The electronic/digital records of the student card may be used for administrative functions of the University, including but not limited to, examinations, instruction, and campus security. Photo ID cards can be obtained, 24 hours following registration, at the Photo ID Centre, University Centre Lobby.

Limit of the University’s Responsibility
The University of Victoria accepts no responsibility for the interruption or continuance of any class or course of instruction as a result of an act of God, fire, riot, strike or any cause beyond the control of the University of Victoria.

Program Planning
Students are responsible for the completeness and accuracy of their registrations and for determining the requirements of their program at UVic. Please read the Calendar for information about programs and courses. Further information about program regulations or requirements is available from the appropriate faculty advising service or department.

Students who intend to complete a year or two of studies and then transfer to another university are urged to design their program so that they will meet the requirements of the other institutions they plan to attend. Suggested first-year courses for students planning to enroll in professional studies at another institution are presented on page 30.

Protection of Privacy and Access to Information
All applicants are advised that both the information they provide and any other information placed into the student record will be protected and used in compliance with the BC Freedom of Information and Protection of Privacy Act (1992).

Notification of Disclosure of Personal Information to Statistics Canada
Statistics Canada asks all colleges and universities to provide data on students and graduates, including student identification information (student’s name, student ID number, Social Insurance Number), student contact information (address and telephone number), student demographic characteristics, enrolment information, previous education, and labour force activity. The information may be used for statistical purposes only, and the confidentiality provisions of the Statistics Act prevent the information from being released in any way that would identify a student.

Students who do not wish to have their information used can ask Statistics Canada to remove their identifying information from the national database.

Schedule of Classes (Timetable)
The schedule of undergraduate classes for the Winter Session is available from the Web Timetable, which is accessible at the website <www.uvic.ca/timetable>.

University’s Right to Limit Enrolment
The University reserves the right to limit enrolment and to limit the registration in, or to cancel or revise, any of the courses listed. The curricula may also be changed, as deemed advisable by the Senate of the University.

General University Policies
Students should check the Calendar entries of individual faculties for any additional or more specific policies.

Policy on Inclusivity and Diversity
The University of Victoria is committed to promoting, providing and protecting a positive, supportive and safe learning and working environment for all its members.

Accommodation of Religious Observance
The University recognizes its obligation to make reasonable accommodation for students whose observance of holy days might conflict with the academic requirements of a course or program. Students are permitted to absent themselves from classes, seminars or workshops for the purposes of religious or spiritual observance. In the case of compulsory classes or course events, students will normally be required to provide reasonable notice to their instructors of their intended absence from the class or event for reasons of religious or spiritual observance. In consultation with the student, the instructor will determine an appropriate means of accommodation. The instructor may choose to reschedule classes or provide individual assistance.

Where a student’s participation in a class event is subject to grading, every reasonable effort will be made to allow the student to make up for the missed class through alternative assignments or in subsequent classes. Students who require a rescheduled examination must give reasonable notice to their instructors. If a final exam cannot be rescheduled within the regular exam period, students may contact Undergraduate Records to apply for a Request for Academic Concession. To avoid scheduling conflicts, instructors are encouraged to consider the timing of holy days when scheduling class events.

A list of days of religious observances is available at the following website: <web.uvic.ca/eqhr>.

Elimination and Harassment Policy
The University of Victoria is committed to providing an environment that affirms and promotes the dignity of human beings of diverse backgrounds and needs. The Policy prohibits discrimination and harassment and affirms that all members of the University community—its students, faculty, staff, and visitors—have the right to participate equally in activities at the University without fear of discrimination or harassment. Members of the University community are expected to uphold the integrity of the Policy and to invoke its provisions in a responsible manner. All persons within the University who are affected by the Policy, particularly the parties to a complaint, are expected to preserve the degree of confidentiality necessary to ensure the integrity of the Policy, the process described in the Policy, and collegial relations among members of the University community. The Pol-
icy is to be interpreted in a way that is consistent with these goals, with the principles of fairness, and with the responsible exercise of academic freedom.

The Policy addresses discrimination, including adverse effect discrimination, and harassment, including sexual harassment, on grounds protected by the British Columbia Human Rights Code. Prohibited grounds for discrimination are race, colour, ancestry, place of origin, political belief, religion, marital status, family status, physical or mental disability, sex (including gender identity), sexual orientation, age, or conviction of a criminal offence when unrelated to employment. It also addresses personal harassment, sometimes called workplace harassment.

The Discrimination and Harassment Policy and Procedures are administered by the Equity and Human Rights Office. Persons who experience or know of harassment or discrimination may contact the Office by phoning 250-721-8766 for confidential advice and information. Definitions are included in the Discrimination and Harassment Policy and Procedures (Policy GV0205) which can be found on the website, <www.uvic.ca/eqrh>.

Creating a Respectful and Productive Learning Environment

The University of Victoria is committed to promoting critical academic discourse while providing a respectful and productive learning environment. All members of the university community have the right to experience and the responsibility to help create such an environment. In any course, the instructor has the primary responsibility for creating a respectful and productive learning environment in a manner consistent with other university policies and regulations. Instructors or students who have unresolved questions or concerns about a particular learning environment should bring them to the Chair or Director of the unit concerned (or Dean, in the case of undepartmentalized faculties).

For more information on creating a respectful and productive learning environment or to share ideas, please visit <www.ltc.uvic.ca/initiatives/respect.php>.

Student Discipline

A student may be reported to the President for disciplinary action and may be suspended, subject to appeal to the Senate, for misconduct, including such matters as a breach of University regulations or policy (for example, Harassment Policy and Procedures, Violence and Threatening Behaviour Policy, Computing and Telecommunications User Responsibilities Policy), a breach of a provision in the University Calendar, or a violation of provincial law or a law of Canada. In particular, a student may be reported for unlawfully entering a building or restricted space on University property, providing false information on an application for admission or other University document, or participating in hazing, which is prohibited by University regulation.

Academic Services

ACADEMIC ADVISING

Each undergraduate faculty provides academic advising services for students contemplating studies at the undergraduate level. Contact information for the academic advising services is listed on page 4 and in the individual faculty entries in this Calendar. Students are encouraged to read the appropriate Calendar entries for the faculty, department and program they wish to enter in order to determine prerequisites and other program requirements.

Students planning graduate studies at UVic should contact the Graduate Adviser in the department they wish to enter.

CO-OPERATIVE EDUCATION PROGRAM AND CAREER SERVICES

The Co-operative Education Program and Career Services offers an integrated career-related service to students, employers, faculty and staff. See "Undergraduate Co-operative Education" on page 45 for details.

For Career Services, our mission is to support students success through career development expertise and by facilitating connections among students, alumni, employers and other community members.

Services Offered

- individual coaching and group sessions on exploring career options, connecting with career and work opportunities and managing career transitions are available to all current students, new graduates and alumni
- tips on resume, CV and cover letter preparation
- interviews and work search
- online postings for part-time, summer, career and on-campus opportunities
- career resource library
- career fairs, career forums and employer information sessions
- registration in the casual job registries
- use of computers for work search purposes
- Career Services' information is also displayed on notice boards around campus and on the Career Services' website.

Campus Services Building

Hours: Mon-Fri 8:30-4:30
Phone: 250-721-8421
Web: <www.uvic.ca/coopandcareer>

UNIVERSITY SYSTEMS

University Systems (Systems) provides computing and networking support to UVic students' learning and research needs. Students may use Systems-supported PC and Macintosh workstations in our four computing facilities (in CLE, HSD, BEC). There, students will also find pay-for- printing facilities, extensive technical assistance and basic instruction for email, conferencing, online learning, Microsoft Word, Powerpoint, Excel. Check our website at <uvic.ca/systems>.

Students must create a NetLink ID, your online identification at the University of Victoria. Your NetLink ID is your key to accessing all computing services at UVic. The following are some of the important computing services that require a NetLink ID:

- "My page" - the campus portal
- The Student Registration System
- Email
- Library resources
- Online learning systems - Moodle and other course material
- Wireless Internet access

More information on how to get an account can be found on the NetLink web page at <https://netlink.uvic.ca>. For assistance creating a NetLink ID contact the Computer Help Desk at <helpdesk@uvic.ca>.

Systems supports many academic applications, including email, database management, graphics, printing, Web tools, statistical simulation, a comprehensive range of programming languages and scientific applications, and text processing. Newsletters, documentation, consulting and assistance with software are also available.

Systems provides audiovisual, portable computing and multimedia support for teaching and learning activities. For users with special media requirements, consulting services are available for complex integrated video, audio, and control systems, and non-credit training in the use of media technology.

In order to facilitate online access, Systems operates wired and wireless networks on campus, with high-speed connections to the internet, BCNET/CanNet and international research and education networks.

Systems also supports the information processing requirements of the University administration (e.g., library administration and circulation controls, payroll, budgets, accounts payable, and student records).

Computer Help Desk

Clearihue A004
Phone: 250-721-7687
Web: <www.uvic.ca/systems>

ENGLISH AS A SECOND LANGUAGE COURSE

The Department of Linguistics offers a non-credit course in English for students whose native language is not English. For details, see LING 099 in the course listings of the Calendar.

THE LEARNING AND TEACHING CENTRE

The Learning and Teaching Centre at the University of Victoria supports and enhances the teaching improvement efforts of those who instruct at UVic through increased awareness of current research and teaching strategies in higher education. Our goal is to offer consultation and instructors and academic units, as well as foster an exchange of ideas to improve instructors' ability to provide an optimal learning experience for all students.

LIBRARIES

The Libraries support teaching, learning and research at the University of Victoria by providing expert and innovative access to the world's recorded knowledge.

The Libraries website at <library.uvic.ca> provides access to the Libraries' print and online resources, including electronic journals, indexes and databases. The Libraries website also offers a wide range of online user services, such as renewal and recall of items, reference help and interlibrary loans. The Libraries website is available at over 200 workstations in the libraries and
can be accessed from home and the office 24 hours a day.
Facilities include individual and group study seating for over 1,500 students. Wireless Internet access is available in the McPherson Library and the Priestly Law Library. Facilities are provided for the use of audio-visual, microform and CD-ROM materials, and a Learning Commons includes workstations with word-processing, spreadsheet and presentation software. An experienced staff is available to assist students and faculty in taking fullest advantage of the Libraries’ resources. Individual or group instruction is available upon request. An INFORLINE Service is available for students enrolled in Distance Education credit courses who are located off campus.
Collectively, the libraries house over 1.9 million print volumes, 2.3 million microform items, 199,000 cartographic items, 40,000 serials including 7,400 current print journals and 20,700 current electronic journals, 66,000 sound recordings, 36,000 music scores, 8,600 films and videos and 1,173 linear metres of manuscripts and archival material.
**McPherson Library** (Mears Centre for Learning) Contains all of the library collections (except Law and Curriculum resources), as well as reserve materials, cartographic materials, music and media materials, microforms, Special Collections and the University Archives.
**Diana M. Priestly Law Library** (Fraser Building) Contains over 182,000 books, journals and federal and provincial parliamentary and legislative materials, and over 300,000 microforms of primary and secondary historical legal materials. The Law Library’s catalogue is available online at <voyager.law.uvic.ca>.
**Curriculum Library** (MacLaurin Building) Primarily serves the learning, teaching and research needs of Education students.

**University of Victoria Art Collections**
UVic is home to one of Canada’s largest university art collections, with over 27,000 artworks including decorative and applied arts with a European emphasis and Canadian art with a western emphasis. The collections are cared for by University of Victoria Art Collections (UVAC) which showcases them at the Legacy Art Gallery, located downtown at 604 Yates Street, at the Maltwood Prints and Drawings Gallery at the McPherson Library, and in a range of locations across campus and in the community. These collections provide a rich resource for teaching and research. Further information on UVAC and its collections is available online at <uvac.uvic.ca> or from the Legacy Art Gallery at 250-721-8298.

**University Publications**

**Undergraduate Student Viewbook**
Designed for undergraduate students both domestic and international. Provides an overview of UVic, including student profiles, international opportunities, services for students, athletics, recreation and clubs, finances, programs, admission requirements and application procedures.

**Indigenous Student Handbook**
Provides an overview of programs and services that may be of particular interest to Indigenous applicants, including student and faculty profiles.

**Pre-professional Guide**
A guide for students who plan to complete some studies at UVic before transferring to another institution in order to complete a professional program such as dentistry, medicine, optometry, etc.

**Continuing Studies Calendar**
Lists non-degree programs; issued in the fall and spring. Available from Continuing Studies.

**Graduate Student Viewbook**
Provides information about UVic graduate programs offered and the procedures to follow to apply for admission. Available from the Graduate Admissions and Records Office.

**Malahat Review**
An internationally quarterly of contemporary poetry, short fiction, creative nonfiction, and reviews, edited by John Barton. For information about contests, submissions, and subscriptions, visit <www.malahatreview.ca>.

**E-News Bulletin**
A bulletin announcing changes in admission regulations or procedures, new programs and items of general interest. The E-News Bulletin is distributed to Canadian schools and colleges 6 to 8 times a year.

**The Ring**
A newspaper published by UVic Communications monthly except August, and distributed on campus free of charge. It is available on the web at <ring.uvic.ca>.

**Summer Session Guide**
Lists course and program offerings available in the May through August period. Available online at <registrar.uvic.ca/summer>.

**Distance Learning and Immersion Course Guide for Off Campus Students**
Lists credit and certificate offerings available to off campus students. Available at <www.uvic.ca> under “Academic Calendars”.

**The UVic Torch Alumni Magazine**
Published biannually by the Division of External Relations and the UVic Alumni Association, and mailed to alumni free of charge.

**Student Services**
Student Services comprise the administrative units of the university that help students maintain their physical, social, emotional, spiritual and financial health while they pursue their academic and career goals at UVic.

**Athletics and Recreation**
McKinnon Building
Phone: 250-721-8406
Web: <www.athrec.uvic.ca>

Vikes Athletics and Recreation provides a comprehensive program of sports and recreation for UVic students.

**Athletics**
The Athletics program is available to full-time students at UVic. Through the program, athletically gifted student-athletes are provided with high quality coaching and high levels of competition that permit them to pursue athletic excellence while studying at UVic. Sports currently offered for men and women include: basketball, cross-country/track, field hockey, golf, rowing, rugby, soccer and swimming. UVic teams participate in Canadian Interuniversity Sport (CIS), Canada West University Athletic Association (CWUAA), as Independents in the National Association of Intercollegiate Athletics (NAIA) and in various high-level leagues in southwest British Columbia. Visit <www.govikesgo.com> for details.

**Recreation**
Vikes Recreation is your campus starting point for fitness and recreation, providing specific programming designed to meet the needs of students throughout the year. Vikes Recreation is committed to providing a wide variety of programs and services, including: One of the largest fitness weight centres in Western Canada, convenient aqua-fit and fitness classes including yoga, martial arts and dance, a competitive and social intramurals program and various sports and recreation clubs. Visit <vikesrec.uvic.ca> for more information.

**Recreation Facilities**
Use of the facilities and participation in the programs of Athletics and Recreation is open to students and to faculty and staff who have acquired a Vikes Recreation membership card. Family memberships for faculty, staff and students are also available.

The campus has several playing fields, including a double-wide artificial turf, Centennial Stadium (4500 seats), tennis courts and miles of jogging trails through the woods and along Cadboro Bay. A sailing compound, the Simpson Property and the Elk Lake Rowing Centre are also available. The McKinnon Building includes a gymnasium, dance studio, weight-training room, 25-metre L-shaped pool, squash courts, and change room and shower facilities. The Ian H. Stewart Complex includes a field house, gymnasium, 18,000 square foot fitness/weight centre, 25-metre outdoor pool, tennis, squash, racquetball and badminton courts, an ice rink, and change room and shower facilities. The Outdoor Recreation Centre, located at the Ian H. Stewart Complex, has outdoor equipment available to members on a rental basis.

**Bookstore**
Campus Services Building
Summer hours: (May-August)
Mon-Fri: 8:30-5:00
Saturday: 11:00-5:00
Winter hours: (Sept-April)
Mon-Fri: 8:30-5:30
Wed: 8:30-7:00
Saturday: 11:00-5:00
Phone: 250-721-8311
Web: <www.uvicbookstore.ca>

The UVic Bookstore is owned and operated by the University, operates on a break-even basis and provides a variety of items essential to academic success. All textbooks requested by faculty are stocked in the store. Textbook listings are available in-store and online, three weeks prior to the beginning of each term. At the beginning and end of each semester, the Bookstore buys back used textbooks for up to 50% of the new book retail price if they’re in demand. Texts in demand are listed on the Bookstore’s website.

The Bookstore’s general book department carries a comprehensive selection of both academic and general titles and can special order any
book in print that is not currently stocked. The bookstore has Print-on-Demand technology with an Espresso Book Machine which can print, bind and trim a library quality paperback book in minutes. The Bookstore also distributes academic calendars and handles regalia rentals for grades.

The Bookstore offers a wide selection of contemporary UVic Crested clothing and giftware, school and stationery supplies and has a unique gift section.

The Computer Store sells Mac and PC computer hardware and software, often with educational discounts. It is the depot for all warranty and non-warranty Apple computers repairs on campus.

Finnerty Express
Campus Services Building
Summer (May-August) and Winter hours (Sept.-April)
Mon-Fri: 7:30am-8:00pm
Saturday: 11:00-5:00
Phone: 250-472-4594

Located on the lower level of the Bookstore, Finnerty’s sells organic, fairly-traded coffee and locally baked goods.

CHAPEL
Hours: Mon-Fri 8:00-5:30
Phone: 250-721-8338
Web: <www.uvic.ca/chapel>

UVic’s Interfaith Chapel provides the campus community with a peaceful and scenic location for religious services, personal meditations, and special ceremonies such as weddings and memorials. The Chapel is located beside parking lot #6. For booking enquiries, please call or visit our website.

CHILD CARE SERVICES
Complex A, B, C
Hours: Mon-Fri (hours vary)
Phone: 250-721-8500
Web: <www.uvic.ca/services/childcare>

Three full-time centres for children of students, staff and faculty are located on campus in Complex A. These centres are licensed to take children between the ages of 18 months and 5 years. Complex B houses a licensed out-of-school program for children aged 6 to 12. Complex C opened in September 2001 to care for infants in one centre and toddlers in a second centre. The provincial government pays subsidies, based on income, toward the fees of these non-profit centres, which are staffed by trained personnel. Students who are not eligible for a government subsidy or whose subsidy does not cover child care costs should contact the Office of Student Awards and Financial Aid on campus.

Spaces are limited, and there are waitlists for all programs. Where possible, application should be made up to a year in advance of the date child care services are required.

COUNSELLING SERVICES
Room B270 University Centre Building
Hours: Mon-Fri 8:30-4:30
Phone: 250-721-8341
Web: <coun.uvic.ca>

Counselling Services offers confidential counselling to students who have personal, career, learning or educational concerns. For current offering, please visit the Counselling Services website.

EDUCATIONAL AND CAREER COUNSELLING
Counsellors are available to help students explore and plan their career direction.

EDUCATIONAL COUNSELLING offers help to UVic students who want to choose a major suited to their interests, skills and career goals. In addition, we provide assistance in selecting other post-secondary institutions, graduate programs or professional schools. For specific course advising, students are directed to their faculty’s advising office.

CAREER COUNSELLING can assist students in self-exploration to determine which careers best suit them and fit with their life goals and values. Topics for discussion and exploration include, but are not limited to: career exploration skills, short and long term goal setting, decision-making skills, career and occupational options and self-awareness (e.g., values, skills, personality and interests).

We offer:
- individual counselling
- group counselling and workshops (see list below)
- interest and personality inventories (interpreted with a trained professional)

Counselling for Studying and Learning
Individual counselling is available to help students develop and refine their ways of learning, as well as to manage the difficulties that arise in adjusting to university demands.

Counselling Services offers courses and activities to help students develop the specific skills needed to succeed in their studies, including:
- Study Solutions in the C. W. Lui Learning Commons: The Learning Skills Program provides services at our satellite offices in the C. W. Lui Learning Commons on the main floor of the Mearns Centre for Learning. See our website for hours of operation.
- Learning Skills Course: This non-credit course is offered in September and January. It is designed to help students develop better techniques for reading, listening, notemaking, organizing and learning material, problem solving, and writing essays and exams.
- Study Groups: On request, Counselling Services will arrange a regular meeting place on campus for a Study Group and/or show students how to use group study to enhance learning.
- Workshops: During the Fall and Spring semesters, workshops are offered by request on topics such as Time Management, Reading Efficiency, Exam Writing, Note Making, Essay Writing and Class Participation/Public Speaking.
- Thesis/Dissertation Completion: Counsellors are available to help graduate students succeed with thesis and dissertation projects through weekly group meetings focused on self-care, time management, writing and goal setting.
- University Learning Skills Course for New Students: This special version of the Learning Skills Course is offered in August. It helps new and mature students cope with the transition to university learning. Contact the Division of Continuing Studies for dates and times.

Counselling for Personal Issues
Professional counsellors provide a confidential atmosphere in which students can explore any topic or situation and discuss any concerns they may have. Some of the personal problems that students bring to Counselling Services are shyness, lack of self-confidence, difficulty communicating with and relating to others, inability to speak up and express themselves, family and relationship conflicts, loneliness, grief, sexual concerns or abuse, depression, anxiety, stress, suicidal thoughts, sexual orientation issues, alcohol and drug concerns, loss of interest, difficulty in making decisions and coping with the university experience. Students are helped to work through their problems, develop self-awareness and overcome problems by using new coping strategies.

Wellness Groups and Workshops
In addition to individual counselling, counsellors offer a number of group programs such as:
- Creating Self (Identity)
- Managing Anxiety and Panic Attacks
- Awareness Tools for Mood and Stress
- Body Image/Relationship with Food
- Career Exploration/Planning
- Depression Management
- Grief and Loss Support
- Yoga to Manage Mood
- Gaining Social Confidence
- Healthy Relationship Support

See our website for the complete list of current group offerings.

Counselling for Indigenous Students
Individual and group counselling is available for Indigenous students through a collaboration with UVic’s Office of Indigenous Affairs. Support can address a wide variety of issues such as: strengthening of identity, processing of colonial trauma, navigating the university environment as an Indigenous learner, and regaining balance and harmony in all aspects of life.

Counselling for International Students
Individual and group counselling is available for currently registered UVic international students on a wide variety of issues such as culture shock, communication, navigating the academic system, and returning home.

Peer Helping
Phone: 250-721-8341
Room 135H McPherson Library Commons
Hours: Mon-Fri 10:30-4:30
Phone: 250-853-3664
Web: <peerhelping.uvic.ca>

Peer helper are trained, supervised volunteers who offer confidential support to other students. They participate in a variety of outreach programs. Contact the Peer Helpers at the Learning Commons or through the Peer Helping Coordinator at Counselling Services.

FAMILY CENTRE
Student Family Housing
39208-2375 Lam Circle
Hours: email, phone or check website for updates. Regular weekly hours
Phone: 250-472-4062
Web: <web.uvic.ca/family-centre>
Email: familyc@uvic.ca
The Family Centre serves the families of UVic students living on and off campus. Conveniently located in Student Family Housing, the Family Centre co-ordinates family-initiated activities and programs, and offers support to new and experienced families. The Family Centre also offers morning drop-in programs for the under-fives, a toy lending library, a culture club, workshops on personal growth, including parenting, a library, youth programming, a community newsletter and various community building events.

**UNIVERSITY FOOD SERVICES**

University Food Services  
Carroll Residence Building  
Hours: Mon-Fri 8:30-4:30  
Phone: 250-472-4777  
Web: <uvic.ca/food>

University Food Services provides a wide range of food and beverage services, from full meals to snacks and everything in between, at the following locations:

- **Arts Place (Fine Arts Building)**
  - Features specialty coffees and teas, alternate beverages, salads, sandwiches and wraps, pastries, cakes and other sweets

- **Cadboro Commons Dining Room (Upper Commons)**
  - Full-menu food facility—grill, hot entrees, soup, salad bar, sandwiches, desserts, hot and cold beverages

- **Cap's Bistro (Lower Commons)**
  - Deluxe coffees, pizza, pasta, custom-made sandwich deli, gourmet desserts

- **Village Greens (Lower Commons)**
  - Vegetarian entrees, soups and chili, sushi, stir-fry bar, fruit smoothie bar, organic coffees

- **Village Market (Lower Commons next to Cap's)**
  - Provides grab 'n go items as well as packaged foods and ingredients. Features specialty items such as celiac offerings and an organic section, fresh produce, bakery and coffee selections, as well as household staples from toothpaste to laundry detergent.

- **University Centre Dining Facility**
  - Full-menu food facility—hot entrees, grill, soup, salad bar, sandwiches, pizza, desserts, hot and cold beverages

- **Mac's (MacLaurin Building)**
  - Custom-made sandwich and wrap deli, soup, baked goods, cold beverages, gourmet coffees

- **Nibbles & Bytes Café (Engineering Lab Wing)**
  - Pizza, sandwiches, baked goods, hot and cold beverages

- **Court Café (Fraser Building)**
  - Sandwiches, soup, hot and cold beverages

- **BiblioCafé (McPherson Library)**
  - Organic drip and specialty coffees, gourmet sandwiches and baked goods

- **SciCafé (Ocean, Earth and Atmospheric Science Building)**
  - Organic coffees, calzones, paninis, salads and wraps

Check Food Services’ website <uvic.ca/food> for hours of operation.

In addition to the above, University Food Services offers pickup service in the University Centre. Full catering and bar services are available upon request at 250-721-8603.

**Bonus Dining Card Program**

Any member of the UVic community may purchase a dining food card to use in any of Food Services’ 11 outlets. The UVic ID card is used much like a debit card; users pay money into an account established with Food Services and receive a discount on all purchases. To learn more about the four dining card options, contact University Food Services’ office at 250-472-4777 or visit their website: <www.uvic.ca/services/food/mealplans/diningcards>.

**HEALTH SERVICES**

Jack Petersen Health Centre  
Hours: Mon-Wed-Fri 8:30-4:30  
Tues 9:30-4:30  
Phone: 250-721-8492  
Web: <www.health.uvic.ca>

* An on-call physician is available at this number during off-hour periods.

Health Services offers confidential medical care, including emergency first aid, mental health, birth control, sexually transmitted infection testing and treatment, travel health and immunizations, sports medicine, psychiatric services and wellness information. Services are offered to all registered visiting students. Students must have a valid Provincial Health Care Card or international health care coverage.

**British Columbia Residents**

British Columbia students must have current enrolment in the BC Medical Services Plan. A valid medical insurance identification number (BC Care Card) to be provided when they visit Health Services.

**Residents of Other Provinces**

Students from other provinces should continue their provincial medical coverage and provide their medical insurance identification number when they visit Health Services. All Canadian provincial plans and those of the Yukon and Northwest Territories are acceptable to Health Services but may not be acceptable to private physician's offices, clinics, hospitals, or laboratories. Students from Quebec can opt out of their insurance plan and apply to BC Medical Services Plan, or they can pay for services at the time of their visit then seek reimbursement from their Quebec plan.

**Non-residents of Canada**

Students will be billed directly at time of visit to see a physician. Reimbursement from their private medical plan can be done with receipt provided. Students who are not residents of Canada must arrange for interim medical insurance coverage prior to their arrival in BC. Interim medical insurance provides coverage for three months until the student is eligible to enrol in the BC Medical Services Plan. Once eligible, students must continue their enrolment in the BC Medical Services Plan for the duration of their stay in Canada. The enrolment process for the BC Medical Services Plan can be started on arrival to BC as the process does take approximately three months. Application forms for interim medical insurance can be found at <www.aon.ca>. For application to the BC Medical Services Plan go to <www.healthservices.gov.bc.ca/msp>.

*Interim medical insurance is not the same as the extended medical coverage offered by the UVSS.*

Extended medical coverage is in addition to basic coverage offered by interim medical insurance or the BC Medical Services Plan.

**Physiotherapy Clinic**

Gordon Head Complex  
Phone: 250-472-4057  

The Physiotherapy Clinic is available to students, staff, faculty and friends. Treatment is available by appointment. Referrals are not required for treatment, but may be required by extended health care plans for reimbursement of visit charges. Physiotherapy treatments have a user fee payable at each visit. Students with out-of-province medical coverage are responsible for payment of each visit; a receipt will be issued for reimbursement. ICBC and WCB claimants are welcome.

**Academic Concessions Due to Illness**

Academic Concession for work that will be completed before course grades are submitted by the instructor.

Notes for missed classes, late assignments, missed labs and missed quizzes are normally provided by Health Services only when required of students by their instructors.

Academic Concession for work that will be completed after course grades are submitted by the instructor.

A formal Request for Academic Concession (RAC) form may be completed in support of:

- a Deferral of a final examination, test or other course work;
- an Extended Deferral of this work;
- an Aegrotat (AEG) notation added to a course grade (see “Grading”, page 37);
- a Drop of courses without academic penalty after the published Last Day for Withdrawing.

The completed RAC must then be submitted to Undergraduate Records, which will forward it to the appropriate office or individual for assessment. See “Academic Concessions”, page 35.

**Illness During Examinations**

For information on the academic regulations governing illness at the time of examination, see “Academic Concessions”, page 35.

**RESIDENCE SERVICES**

Craigdarroch Office Building  
Winter Hours: Mon-Fri 8am-10pm  
Sat-Sun 10am-6pm  
Summer Hours: Sun-Sat 24 hours  
Phone: 250-721-8395  
Web: <www.housing.uvic.ca/>

**On-Campus Accommodation**

The University offers four types of on-campus accommodation for students: Dormitory Housing, Cluster Housing, apartments and Family Housing.

**Dormitory Housing**

- Dormitory Housing provides room and board accommodation in single and double rooms for 1770 students in co-educational, non-smoking dormitories.
  - All rooms are furnished with a desk, chair, wardrobe and bed for each student. Cable television, telephone and internet hook-ups are available. Washrooms are centrally located on each floor. Cable television is provided in each floor lounge. Laundry facilities are also available.

**2012-13 UVIC CALENDAR**

**GENERAL INFORMATION**
UVIC UNDERGRADUATE CALENDAR 2012-13

GENERAL INFORMATION

- Dormitory Housing is community oriented. A variety of programs are offered which encompass academic, personal, recreational and social development.
- A meal plan must be taken with Dormitory Housing.

Cluster Housing
- Cluster Housing provides accommodation for 480 students in 123 self-contained units.
- Each unit includes four bedrooms with individual locks. The living room, dining area, kitchen and bathroom are shared by the four occupants.
- Each bedroom is furnished with a bed, desk, chair, chest of drawers and closet. Lounge furniture, a dining room table and chairs, a stove, two fridges, a dishwasher and a vacuum cleaner are provided. Dishes, cutlery and cooking utensils are the residents’ responsibility. Cablevision, telephone and internet hook-ups are available.
- Cluster Housing is completely self-contained; meal plans are not required. Optional meal plans are available.

Bachelor and One-Bedroom apartments
UVic has 46 bachelor and one-bedroom apartments with priority given to graduate students. Apartments are furnished with a bed, desk, living-room furniture, kitchen table and chairs, stove and fridge. Dishes, cutlery and cooking utensils are the residents’ responsibility. Cablevision, telephone and internet hook-ups may be arranged by the resident.

Family Housing
- Family Housing provides accommodation for families in 181 self-contained units.
- Family Housing offers 48 one-bedroom apartments, 12 two-bedroom apartments, 115 two-bedroom townhouses, and 6 three-bedroom townhouses. Some accessible units are available.
- Units are unfurnished. Utilities are paid for by the tenant. Cablevision, telephone and internet hook-ups are available.
- Units are available to families with or without children; the tenant must be a full-time student at UVic.

Housing Rates
Rates for 2010/2011 were:

Dormitory Housing
- Single room with starter* meal plan. $3817.00/term
- Double room with starter* meal plan. $3351.50/term

Cluster Housing
- Individual rate (no meal plan). $2294.50/term
- Bachelor and one-bedroom apartments
  - Bachelor. $2304.50/term
  - One-bedroom. $2877.00/term

Family Housing
- 1-bedroom apartment $772/month
- 2-bedroom apartment $907/month
- 2-bedroom townhouse $1029/month
- 3-bedroom townhouse $1151/month

Applying for Campus Housing
Students apply for campus housing through the UVic Residence Services website. The electronic application form for entry in September 2012 will be active on the Residence website in early 2012. To apply, a student must have a UVic Student ID number.

First-year students entering the University directly from high school are guaranteed an offer of on-campus accommodation provided they have completed all of the following steps before June 30:
- submitted an application to Residence Services
- paid the $50.00 residence application fee
- been admitted to the University

Every effort is made to meet applicants’ preferences; however, because of the limited availability of campus housing, not all preferences can be met.

Wait List
Once all rooms have been assigned, a wait list is created. As vacancies occur, assignments are made from this list. It is the applicant’s responsibility to inform Residence Services of any change of address.

Payment Procedure for Dormitory and Cluster Housing
Acceptance Payment
A $500 acceptance payment and a $250 security deposit are required to confirm acceptance of an offer of dormitory or cluster housing. This payment is applied to first-term fees and is due within the deadline outlined in the room offer. Refunds will be made only if the student is subsequently denied admission to UVic or is unable to attend for medical reasons.

Payment Due Dates
The remaining accommodation payments are due by the following dates:

| August 1 | balance of first-term fees |
| November 1 | $500 second-term deposit |
| December 1 | balance of second-term fees |

A room assignment will be cancelled if the student fails to meet an acceptance or payment deadline.

Payment Procedure for Family Housing
To confirm acceptance of a family housing unit, students must sign a tenancy agreement and pay a security deposit ($500). Rent is due on the first day of each month.

Moving In
Dormitory and cluster housing rooms are available as per the date indicated in the contract. Accommodation before this date may be available under special circumstances. Written approval must be obtained from the Residence Services Office. Approved early arrivals are charged $25 per night for room only. In addition, early arrivals must accept a special contract to cover the early arrival period.

Students who are unable to move in by the first day of classes must notify Residence Services in writing before that date or their housing assignment will be cancelled.

Residence Contract
Students must choose one of three contract options: the 4-month (Sept-Dec) contract; the 8-month (Sept-April) contract or the 4-month (Jan-April) contract.

Thirty days written notice is required to cancel an accommodation contract. The contract must be signed and submitted with the balance of the first-term fees. A $250 cancellation fee is applied to all contract cancellations and withdrawals.

Summer Housing
Dormitory accommodation is available throughout the summer months (May-August) for students, families and visitors. Contact Residence Services at 250-721-8395 for rates and further details.

Accommodation for Parents and Visitors to the University
A limited number of full-service hotel-style suites are available throughout the year in Craigdarroch House. Contact the Residence Services Office at 250-721-8395 for further details.

Off-Campus Housing Registry
The Residence Services Office maintains a registry of off-campus accommodation, including rooms, rooms with meals, suites, shared accommodation, houses and apartments. Listings are available for viewing at the Residence Services website.

MULTIPOWER SERVICES

Multifaith Services Centre
Campus Services Building, Room 151
Hours: Mon-Thu 8:30-3pm
Phone: 250-721-8338
Web: <www.uvic.ca/multifaith>

Multifaith Services is a campus resource for UVic students interested in spiritual learning, practice, service and community. The Service is predicated on the conviction that active spirituality strengthens the student experience and contributes to wellness. We draw upon the resources of diverse spiritual traditions and foster a strong network of relationships that includes participation from Bahá’í, Buddhist, Christian, Jewish and Muslim communities and those who do not connect to any one tradition, but are simply seeking spiritual identity, learning and support.

Learning about spiritual wisdom is facilitated through workshops, discussion circles, speaker series, special events and study groups. Developing a spiritual practice is made possible through groups on meditation, healing touch, prayer, worship and ritual. Opportunity for Service is facilitated by mentoring student volunteerism in non-profit service and social activism agencies. Community amongst students is supported through retreats, student religious clubs, a Multifaith Student Council, and social events.

Join others on the spiritual journey through Multifaith Services. Find a community for spiritual learning, support, fun and friendships that will last a lifetime.

INTERNATIONAL AND EXCHANGE STUDENT SERVICES

University Centre, second floor
Hours: Mon-Fri 9:00-4:30
Phone: 250-721-6361
Web: <www.iess.uvic.ca>
Email: iess@uvic.ca

The International and Exchange Student Services Office provides assistance and support to international students at UVic as well as to students wishing to study abroad.
Services for international students include an orientation program for all newcomers as well as workshops, information sessions and ongoing support from Student Advisers throughout the year. The IESS Office also offers a Buddy Program that matches new international students with returning UVic students for mentorship, friendship and cultural exchange. More information about services for international students is available at [www.iesss.uvic.ca](http://www.iesss.uvic.ca).

Students wanting information on study abroad and exchange opportunities should check the IESS website. Students are also welcome to drop in to the IESS office with further questions.

**Student Exchange Programs**

More than 100 exchange opportunities in over 30 countries exist at UVic through various faculties and departments, including International and Exchange Student Services (IESS). The IESS Exchange Program has partner universities offering undergraduate courses of interest primarily to students enrolled in the areas of humanities, social sciences and science, although students from other faculties may also be eligible to apply. Application for an exchange through the IESS office is open to full-time UVic students who are currently registered in courses and who have completed at least one term. Important procedures for applying, including eligibility requirements, are available at [www.iesss.uvic.ca](http://www.iesss.uvic.ca). Students should also refer to Credits in Established International Exchange Programs, page 32, for more information on credit recognition from international exchange programs.

Students interested in coming to UVic on an exchange program should apply through their home university. Further information for incoming exchange students is available at [www.iesss.uvic.ca](http://www.iesss.uvic.ca).

**Legacy Art Gallery**

630 Yates Street
Hours: Wed-Sat 10:00-4:00
Phone: 250-721-8298
web: [uvac.uvic.ca](http://uvac.uvic.ca)
email: legacy@uvic.ca

Situated off-campus in downtown Victoria, the Legacy offers a welcoming contemporary art gallery. The Legacy fulfills the vision of Victoria businessman Michael C. Williams, who bequeathed most of his estate, including more than 1,100 art works, to the University of Victoria after his death in 2000. Williams passionately believed his art collection should become a shared treasure, to be enjoyed by everyone, free of charge. The Legacy exists to share that wealth and to feature works from the University’s other collections.

**Resource Centre for Students with a Disability**

Campus Services Building
Phone: 250-472-4947
Web: [www.rcsd.uvic.ca](http://www.rcsd.uvic.ca)
Email: info.rcsd@uvic.ca

The Resource Centre for Students with a Disability (RCSD) is a student service within Student Affairs. We can assist you in arranging for academic accommodations. These may include accommodated exams, alternate text formats, assistive technology, a limited course load or other accommodations within the classroom. The RCSD also offers a Learning Strategist program for eligible students and Visual Language interpreting. As soon as you have been admitted to UVic (or before if you require advice or information) you need to:

- Make an appointment to see an adviser to register.
- Bring appropriate documentation attesting to your disability if you require accommodations, a reduced course load, or wish to apply for grants.

**The Writing Centre (TWC)**

Learning Commons, McPherson Library
Phone: 250-853-3675
Web: [twc.uvic.ca/servicesprograms/twc.php](http://twc.uvic.ca/servicesprograms/twc.php)

TWC supports all UVic graduate and undergraduate students with writing in English. Our tutors are experienced writers trained to assist students with all aspects of academic writing (pre-writing, revision, thesis construction, grant applications, and so on). In order to help students develop these skills, tutors do not edit or proofread papers. Instead, TWC focuses on the writer not the writing. We provide one-on-one tutorials and workshops that address common issues in academic writing.

**Student Affairs**

**University of Victoria Students’ Society – Canadian Federation of Students Local 44**

Student Union Building
Phone: 250-721-8355
Web: [www.uvss.uvic.ca](http://www.uvss.uvic.ca)

All undergraduate students at the University of Victoria are members of the UVic Students’ Society (UVSS). Local 44 of the Canadian Federation of Students. The Students’ Society exists to provide advocacy, representation, services and events for its members. The Society works on issues affecting student life, such as post-secondary funding, tuition fees, accessibility, employment and housing.

The UVic Students’ Society is an active member (Local 44) in the Canadian Federation of Students (CFS), Canada’s national students organization. The CFS provides students with a united voice at both the provincial and national levels. The CFS advocates for a high-quality and accessible system of public post-secondary education by conducting research, mobilizing members and lobbying provincial and federal governments. As well, the Federation provides a series of services designed to save students money while supporting their everyday needs. These include the International Student Identity Card (ISIC), Studentsaver, the National Student Health Network, Homes4students.ca, the Student Work Adapted Program (SWAP) and Travel CUTS.

The activities of the UVic Students’ Society are carried out by a Board of Directors. The Board consists of eleven volunteer directors—six elected by, and four at-large and four full-time executive directors—the Director of Services, the Director of Academics, the Director of Finance and the Chairperson. Elections for these positions take place in March. As well, the Women’s Centre, the Pride Collective, the Native Students’ Union, the Students of Colour Collective and Access UVic each have a representative on the Board. The Board meets twice each month throughout the year and all students are welcome to attend.

Through their Students’ Society, students can participate in clubs and course unions, speakers forums, events, conferences and other activities which take place regularly in the SUB. Being an active member of the UVic Students’ Society is one of the most important ways students can contribute positively to their experiences on and off campus. Involvement may include voting in elections, attending general meetings of the Society, getting involved in one of the many committees such as Political Action, Special Events or Finance, or running for a position on the UVic Students’ Society Board of Directors, Senate or UVic Board of Governors. By becoming an active member of the UVSS, students help create a fuller educational experience for themselves and others and a better future for students at UVic and across Canada.

The UVic Students’ Society operates the Student Union Building (SUB), run by students for students. The SUB offers a wide range of services and programs, including the following:

- UVSS Resource Centre—Students’ Society Board offices; get information and pick up dayplanners/handbooks and Studentsaver
- Food services: Health Food Bar, International Grill, Bean There coffee shop, Munchie Bar
- Felicita’s Pub
- Cinecenta movie theatre
- Zap Copy Shop
- SUBText used books
- SUB Info Booth: administers the Universal Bus Pass (U-Pass) and the Student Health and Dental Plan

Also located in the SUB are the following important services:

**Native Students Union**

Student Union Building B023
Phone: 250-472-4394
Email: nsu@uvss.uvic.ca
Web: [www.uvss.uvic.ca/ns](http://www.uvss.uvic.ca/ns)

The Native Students Union (NSU) works towards empowering aboriginal students to benefit from their education, while at the same time providing an outlet to maintain strong cultural and spiritual ties with other aboriginal students involved in higher education. The NSU offers support and encouragement in the form of regular meetings and social events. Students interested in participating should contact the NSU for more information.

**Society for Students with a Disability (SSD)**

Student Union Building B106
Phone: 250-472-5397
Email: uvicssd@uvica.ca
Web: [www.uvicssd.com](http://www.uvicssd.com)

The SSD is the UVSS constituency group that represents the interests of students with disabilities to the UVic community. Our purpose is to advocate for the full and equal participation of students with a disability in all aspects of the UVic community; raise awareness of the barri-
ers and challenges faced by students with a disability and make recommendations to the UVic community on how to remove these barriers; actively collaborate with all stakeholders of the UVic community to further the interests of students with disabilities on campus prevent, expose, and eliminate institutional discrimination; and work to create anti-oppressive spaces where students with disabilities can relax, socialize and share experiences. All are Welcome!

**Students of Colour Collective**
Student Union Building B020  
Phone: 250-472-4697  
Email: socc@uvss.uvic.ca  
Web: <www.uvss.uvic.ca/socc>

All students of colour are invited to become active in the Students of Colour Collective. The constituency group represents all self-identified students of colour within the UVic community and is committed to the elimination of racial discrimination, anti-racist education and activism on campus while also providing support and resources. All students are welcome to drop by the office and find out how they can get involved.

**UVic Pride Collective**
Student Union Building B118  
Phone: 250-472-4393  
Email: pride@uvss.uvic.ca  
Web: <www.uvss.uvic.ca/pride>

Queer people may identify as lesbian, gay, bisexual, two-spirited, intersexed, transgendered, are questioning, or choose not to embrace a label. UVic Pride advocates on behalf of queer and queer-friendly undergraduate students, graduate students, staff, faculty, alumni and community members. UVic Pride is a political and social group offering many programs throughout the year. The Pride office is open for drop-in most days during the school year. Our lending-library collection includes books, videos, and back-issue magazines from our variety of subscriptions. The mandate of UVic Pride is to raise awareness on campus and in the community about queer-specific issues and heterosexism, and to provide a safe and welcoming space to all queer and queer-friendly people. Interested people are welcome to contact us by phone or email, drop by the office, or visit our website for more information.

**Ombudsperson**
Student Union Building B205  
Phone: 250-721-8357  
Email: ombuddy@uvic.ca  
Web: <www.uvss.uvic.ca/ombudsperson>

The Ombudsperson is an independent and impartial investigator equipped to help students with appeals, complaints, referrals and questions. The Office of the Ombudsperson seeks to ensure that people are treated with fairness and that on-campus decisions are made in an open manner. The Ombudsperson can give students valuable information and assist in a variety of confidential matters.

**The Women's Centre**
Student Union Building B107  
Phone: 250-721-8353  
Email: wcentre@uvss.ca  
Web: <www.uvss.uvic.ca/wcentre>

The UVSS Women's Centre is a collectively run drop-in centre open to all self-identified women. The centre seeks to provide a space for self-identified women to organize, access resources, attend workshops and relax. The Women's Centre is committed to education and activism around racism, heterosexism, ableism and colonialism.

The Centre offers many volunteer opportunities, such as office and library assistance and committee organizing. The Women's Centre also publishes an anti-racist, feminist zine, *Thirdspace*. Collective members and volunteers are encouraged to organize around personal areas of interest, such as sex and sexuality, health, body image, environment, globalization and the practice of feminist theory. For more information, drop by the Centre, get involved, and be a part of the movement!

**CFUV 101.9 FM**
Student Union Building B006  
Hours: Mon-Fri 10:00-6:00  
Phone: 250-721-8702  
Email: vol4cfuv@uvic.ca  
Web: <cfuv.uvic.ca>

CFUV is UVic's campus/community radio station. CFUV programming ranges from rock, hip-hop and electronic to folk, jazz, multicultural and public affairs. CFUV is funded through a student levy and community fund-raising. A large body of volunteers comprised of UVic students and community members help run the station, along with staff and work-studies. Students interested in volunteering are invited to visit or phone the station during office hours. Previous radio experience is not necessary.

**The Martlet**
Student Union Building B011  
Phone: 250-721-8361  
Email: maned@martlet.ca  
Web: <martlet.ca>

The Martlet is UVic's independent student newspaper, available online <martlet.ca> and in print. New issues are distributed every Thursday on campus and throughout Greater Victoria. The Martlet is written by students and is editorially and financially independent. Students interested in volunteering are invited to visit or call the Martlet Office.

**Vancouver Island Public Interest Research Group (VIPIRG)**
Student Union Building B120 & B122  
Phone: 250-721-8629  
Email: info@vipirg.ca  
Web: <www.vipirg.ca>

VIPIRG is an autonomous, non-profit, non-partisan organization dedicated to research, education, and action in the public interest. All undergraduate and graduate students are members of VIPIRG.

VIPIRG provides opportunities for students and community members to effect positive social and environmental change. By becoming active members, students can be exposed to new ideas, meet new friends, learn new skills, and find an outlet for activism. VIPIRG offers an extensive alternative library with a wide selection of magazines, books, video, folk and duds, and research reports. VIPIRG conducts research and undertakes action projects on a wide range of social justice and environmental issues. There are also a number of volunteer-driven, issue-based working groups working out of VIPIRG at any given time. Students interested in being part of any of these committees, or with ideas for one, are invited to visit or call the VIPIRG office.

**Graduate Students' Society**
Room 102, Halpenny Centre for Graduate Students  
Phone: 250-472-4543  
Email: gsscomm@uvic.ca  
Web: <gss.uvic.ca>

All graduate students at the University of Victoria are members of the Graduate Students' Society, which exists to represent the interests of the 2500 plus graduate students and to address issues in the larger community that concern students.

Grad students democratically elect a five-member executive that works on a daily basis with the staff to advocate for and provide services to students. Grad students also select departmental representatives to sit on Grad Council, which meets monthly to discuss current events and provide direction to the executive. The Society strives to ensure graduate student representation on all university decision-making bodies. The services of the Society include the Extended Health and Dental Plan, Universal Bus Pass, the Grad Centre and its facilities, child care bursaries (administered through Financial Aid), the annual handbook/daytimer, the bulletin listserve and special events planning, in addition to other services. These services are funded by membership fees, collected by the university on behalf of the Society. Grad students are eligible to use rooms in the Grad Centre free of charge for academic-related meetings and events. The Society, in collaboration with the Faculty of Graduate Studies, funds travel grants, administered by the faculty, to assist graduate students wishing to attend professional meetings and conferences. Grad students are encouraged to enjoy the excellent food at the Grad House Restaurant in the Grad Centre. For more information, visit the General Office in the Grad Centre, or call 250-472-4543.

Being an active member of the Society is one way to ensure that students' interests are represented and to work towards a better future for students in Canada.

**Canadian Forces University Training Plans**
Canadian Forces Recruiting Centre  
827 Fort Street, Ground Floor  
Victoria BC V8W 1H6  
Phone: 1-800-856-8488  
Web: <www.forces.ca>

The Canadian Forces provide opportunities for young Canadians to obtain a bachelor's degree while training for the career of a military officer. The Regular Officer Training Plan (ROTP) is based on four components of success: Academic, Leadership and Management Skills, Second Language Training, and Fitness. The plan is fully subsidized for up to five years of university leading to undergraduate degrees in Engineering, Sciences, Arts or Administration. Specialist degrees in Physiotherapy, Pharmacy and Nursing are also subsidized. Medicine and Dentistry are subsidized under separate plans called MOTP and DOTP respectively. Because of its full subsidization, the plan includes an obligation to serve in the Canadian Forces as an officer for a fixed period after graduation.
The Reserve Entry Training Plan (RETP) is similar, but applicants attend Canadian Forces Military Colleges, paying their own tuition. Current tuition fees are approximately $6000 a year, but students are offered summer employment with the military to assist them in meeting tuition fees. RETP graduates have an obligation (moral) to serve on a part-time basis with the Canadian Forces Primary Reserve if there is a unit available in their geographical area.

UVic Alumni Association
Phone: 250-721-6000 or 1-800-808-6828
Web: <alumni.uvic.ca>

All graduates of UVic automatically become members of the alumni association. The alumni association strives to enhance the quality of life on campus through:

- scholarship and bursary awards
- support for student orientation and recruitment programs
- grants for student and department projects
- support for the UVic Student Ambassadors
- Excellence in Teaching Awards

After graduation, the alumni association encourages a lifelong relationship among alumni and the University. An engaging alumni magazine, The Torch, is published twice a year, and networking opportunities are provided through alumni branches worldwide. The alumni association provides a number of benefits, services and recognition to its members, including:

- Alumni Direct (online degree listings)
- special events
- Alumni Benefits Card
- affinity programs
- career services and programs
- Distinguished Alumni Awards

The UVic Alumni Association is incorporated under the Society Act of British Columbia and governed by an elected board of directors. The association encourages all alumni, regardless of location, to stay connected to their alumni association, to attend events, to volunteer, and to support their university.

For more information on programs and volunteer opportunities, contact UVic Alumni Relations.

Indigenous Student Services

Office of Indigenous Affairs
Ruth Young, BPHE (Laurentian University), BEd (Nipissing University), CIS (UBC), Acting Director of the Office of Indigenous Affairs

Veronica Lefebvre, BA (Concordia), Director's Assistant

The Office of Indigenous Affairs (INAF) promotes, supports and facilitates UVic's comprehensive Indigenous initiatives including: academic programs, student support services and protocol activities.

The office also provides advice to university departments, faculty members, staff and administrators to expand UVic partnerships with First Nations, Métis and Inuit communities and organizations. The Director works closely with the President, Vice-Presidents, Deans, Chairs, Academic and Research Units and Student Affairs and ensures a coordinated and proactive approach to Indigenous initiatives, both on and off campus. The Director has an influential role in developing policy related to Indigenous Education. (ryoung@uvic.ca and 250-721-6326).

The Office of Indigenous Affairs has an expanded role and mandate in keeping with the University's goal to be the University of choice for Indigenous Students. The office is located in the First Peoples House, General Office (email: inafadm@uvic.ca and phone: 250-472-4913).

First Peoples House

Ruth Young, BPHE (Laurentian University), BEd (Nipissing University), CIS (UBC), Acting Manager of the First Peoples House

Carly Cunningham, BA (UVic), First Peoples House Receptionist

The First Peoples House was built (2009) intentionally to support Indigenous students. We welcome and encourage others to come in and be a part of creating a welcoming and supportive environment for Indigenous students at the University of Victoria. It is asked that all those who enter this place do so with respect for the ancestors, the original care-takers of this land, and for each other.

The First Peoples House does have spaces available for booking. All room usage in the First Peoples House must meet the objectives of Indigenous Education and/or Indigenous Cultural Resurgence. For more information about the First Peoples House and booking inquiries please contact the First Peoples House Receptionist (fph@uvic.ca and 250-853-3601).

Indigenous Counselling and Support

Other staff serving Indigenous students include:

Office of Indigenous Affairs

- Coordinator of Indigenous Student Support, Crystal Seibold (inafs@uvic.ca and 250-853-3599)
- Cultural Protocol Liaison, Deb George (inafl@uvic.ca and 250-472-4105)
- Indigenous Community Liaison and Outreach Coordinator, Lalita Morrison (inaflco@uvic.ca and 250-853-3729)
- Indigenous Counsellor, Sylvie Cottell (inafc@uvic.ca and 250-721-8341)

Faculty of Education

- Indigenous Education Adviser and Coordinator, Nick Claxton (iiedadv@uvic.ca and 250-721-8389)

Faculty of Law

- Director, Academic and Cultural Support Program, Maxine Matilpi (mmatilpi@uvic.ca and 250-721-8171)

Native Students Union

The Native Students Union works toward empowering students to benefit from technical and academic learning available at UVic while maintaining strong cultural and spiritual ties with other Indigenous students involved in higher education. Activities include regular meetings, as well as social and cultural events.

The Native Students Union (250-472-4394) is located in the basement of the Student Union Building, B120.
Undergraduate Information

| Faculty of Education | 48 |
| Faculty of Engineering | 70 |
| Faculty of Fine Arts | 92 |
| Faculty of Human & Social Development | 106 |
| Faculty of Humanities | 131 |
| Faculty of Law | 154 |
| Faculty of Science | 162 |
| Faculty of Social Sciences | 191 |
| Peter B. Gustavson School of Business | 212 |
| Interdisciplinary Programs | 221 |
| Division of Continuing Studies | 225 |
| Division of Medical Sciences | 227 |
Programs Offered

The University offers the following degrees, diplomas and certificates. Descriptions of the programs and degree requirements are included in the faculty and department entries of the Calendar.

Most students complete only one degree program at a time. With a careful choice in course selection, it is possible, however, for an undergraduate student to complete a program of study that will result in the awarding of a double degree, a joint degree, or a major/minor degree at convocation.

Degrees Awarded

Faculty of Education
- Bachelor of Education
- Bachelor of Arts
- Bachelor of Science
- Master of Education
- Master of Science
- Master of Arts
- Doctor of Philosophy

Faculty of Engineering
- Bachelor of Arts
- Bachelor of Engineering
- Bachelor of Science
- Bachelor of Software Engineering
- Master of Engineering
- Master of Science
- Master of Applied Science
- Master of Arts
- Doctor of Philosophy

Faculty of Fine Arts
- Bachelor of Arts
- Bachelor of Fine Arts
- Bachelor of Music
- Bachelor of Science
- Master of Arts
- Master of Fine Arts
- Master of Music
- Doctor of Philosophy

Faculty of Graduate Studies
- The Faculty of Graduate Studies administers all programs leading to master's or doctoral degrees

Faculty of Human and Social Development
- Bachelor of Arts
- Bachelor of Arts in Health and Community Services
- Bachelor of Child and Youth Care
- Bachelor of Science
- Bachelor of Science in Nursing
- Bachelor of Social Work
- Master of Arts
- Master of Nursing
- Master of Public Administration
- Master of Social Work
- Doctor of Philosophy in Nursing

Faculty of Humanities
- Bachelor of Arts
- Bachelor of Science
- Master of Arts
- Doctor of Philosophy

Faculty of Law
- Juris Doctor
- Master of Laws
- Doctor of Philosophy

Faculty of Science
- Bachelor of Science
- Master of Science
- Doctor of Philosophy

Peter B. Gustavson School of Business
- Bachelor of Commerce
- Master of Business Administration
- Concurrent LLB/Master of Business Administration

Diploma Programs
- Applied Linguistics
- Business Administration*
- Canadian Studies*
- Cultural Heritage Management*
- Cultural Resource Management*
- Fine Arts*
- French Language*
- Humanities*
- Indigenous Language Revitalization
- Intercultural Education and Training*
- Local Government Management**
- Public Relations*
- Public Sector Management**
- Restoration of Natural Systems*
- Secondary Teacher Education
- Social Justice Studies*
- Special Education

Certificate Programs
- Aboriginal Language Revitalization*
- Adult and Continuing Education*
- Business Administration*
- Business Studies for International Students*
- Canadian Studies*

- Cultural Heritage Studies*
- Cultural Sector Leadership*
- Heritage Conservation Planning*
- Information and Communication Technology in Education
- Local Government Management**
- Middle Years Language and Literacy
- Native Species and Natural Processes*
- Performance Management**
- Population Health Data Analysis*
- Public Policy**
- Public Services Management**

Undergraduate Admission

The University welcomes applications from Canadian and international students. The application for admission is available online at registrar.uvic.ca. New students must apply for admission, receive an offer of admission to the University and pay the acceptance deposit before registering in courses.

Undergraduate Admissions
Main Floor, University Centre
Hours: Monday-Friday, 8:30-4:00
Phone 250-721-8121
Fax: 250-721-6225
Web: registrar.uvic.ca

IMPORTANT APPLICATION INFORMATION

Requirement to Disclose Information

Applicants are required to provide the information necessary for the University record. This includes disclosing all secondary and post-secondary (if applicable) institutions where any course registrations were made, and arranging for all official transcripts to be sent directly to Undergraduate Admissions. Applicants who fail to meet these requirements may lose transfer credit and/or have their admission and registration cancelled.

University’s Right to Refuse Applicants

The University reserves the right to refuse applicants for admission on the basis of their overall academic record, even if they technically meet the published minimum admission requirements.

University’s Right to Limit Enrolment

The University does not guarantee that students who meet the published minimum requirements will be admitted to any faculty, program or course. In cases where the number of qualified applicants exceeds the number that can be accommodated, the University reserves the right to set enrolment limits in a faculty or program and to establish admission criteria beyond the minimum published requirements set out in this section.

Except in special circumstances, students must be at least 16 years of age to be admitted to first year, and at least 17 to be admitted to second year.

For more information, contact Undergraduate Admissions, visit registrar.uvic.ca or Ask UVic <www.askuvic.ca>.

Documentation Required for First Admission

In addition to the documentation requirements shown in the table on page 22, applicants may be required to submit additional documentation or meet additional requirements as specified in
the faculty and departmental regulations. Refer to individual faculty or department entries in the Calendar or their website for more information.

Official Transcripts
An official transcript is one which is issued directly to Undergraduate Admissions from the institution previously attended. The student's copy, a photocopy or an unsealed transcript is considered unofficial and may not be used when making an admission decision. No final decisions regarding admission will be made until final official transcripts have been sent from the institution directly to Undergraduate Admissions.

Applicants submitting falsified documentation or failing to declare attendance elsewhere will have their applications cancelled and no further applications will be considered; if they are registered in courses, appropriate disciplinary action will be recommended to the President by the Senate Committee on Admission, Reregistration and Transfer. Normally, failure to disclose attendance at another post-secondary institution and to submit, in a timely manner, a transcript of courses taken will result in suspension for a minimum of one year.

Transcripts in languages other than English or French must be submitted together with notarized translations into English.

Appealing Admission/Reregistration Decisions
Applicants who have been denied admission or reregistration to the University and who can prove extenuating circumstances or provide information that was not presented initially should forward a completed Notice of Appeal Form and supporting documentation to the Senate Committee on Admission, Reregistration and Transfer, c/o Admission Officer (new students), or Records Officer (returning students), Office of the Registrar, University Centre. Note that there are no personal appearances before the Committee. Should the Office of the Registrar deem that the appeal lacks sufficient supporting documentation, the appellant will be notified and provided the opportunity to supplement the appeal before it goes to the Committee.

Normally, grounds for appeal are limited to:

- significant physical affliction or psychological distress documented by a physician or other health care professional
- evidence of incorrect advice or errors of administration by authorized University personnel, with evidence that the applicant's studies were adversely affected
- documented significant distress, or documented significant responsibility as a caregiver, as a result of an immediate member of the family suffering from a serious trauma or illness

Dis satisfaction with University regulations, or disagreements concerning the evaluation of admissibility (for example, calculation of grade point average, evaluation of English proficiency) or failure to meet published deadlines will not be considered grounds for appeal.

The Senate Committee on Admission, Reregistration and Transfer will consider all the documentation presented and will make a final decision on the application. The decision may be appealed to the Senate Committee on Appeals on the grounds of specific procedural error (see "Appeals" on page 40).

A student who has a marginal record upon admission may be placed on probation by the Senate Committee on Admission, Reregistration and Transfer.

Applicants Whose First Language is Not English
As English is the primary language of instruction at University of Victoria, all applicants, regardless of country of origin or citizenship status, will be required to demonstrate competence in the English language prior to admission in one of the following ways:

- completion of four years of secondary and/or post-secondary education in which the primary language of instruction is English, in one of the following countries: Angola, Antigua, Australia, Bahamas, Barbados, Belize, Bermuda, Botswana, British Virgin Islands, Cameroon, Canada, Cayman Islands, Dominica, Gambia, Ghana, Grenada, Guyana, Ireland, Kenya, Jamaica, Lesotho, Liberia, Malawi, Mauritius, Montserrat, Namibia, Nigeria, New Zealand, Singapore, South Africa, Swaziland, St. Kitts and Nevis, St. Lucia, St. Vincent, Tanzania, Trinidad and Tobago, Turks and Caicos Islands, Uganda, United Kingdom, United States, U.S. Virgin Islands, Zambia, Zimbabwe
- completion of a recognized degree program from an accredited university in which the pri-
mary language of instruction is English, in one of the countries listed in the paragraph above
- completion of Grade 12 English or its equivalent in Canada with a final grade of 86% or higher within the last three years prior to admission
- a score of 86% or higher on the BC Provincial Grade 12 English Examination within the last three years prior to admission
- completion of 1.5 or more units of transfer credit for university-level English courses (excluding ENGL 181 and 182)
- Test of English as a Foreign Language (TOEFL)* with a score of 575 or higher on the paper-based test, or a score of 90 or higher on the internet-based test — with no less than 20 out of 30 in any of the reading, listening, writing, or speaking sections
- Michigan English Language Assessment Battery (MELAB)* with a score of 90 or higher
- International English Language Testing System (Academic IELTS)* with a score of 6.5 or higher (with no part less than 6.0)
- Canadian Academic English Language Assessment (CAEL)* with a score of 70, with no subtest result below 60
- University of Victoria University Admission Preparation (UAP) course with a score of 80% or higher
- a score of Level 6 on the BC Language Proficiency Index (LPI)
- a score of 4 or higher on the Advanced Placement Exam in English Language and Composition
- a score of 4 or higher on IB Higher Level English
* Tests taken more than two years prior to application will not be considered.

**English Proficiency: Exchange Students**

Applicants participating in a formal exchange program must demonstrate English language proficiency adequate for successful participation in the program. The level of proficiency and the manner in which it will be demonstrated will be stated in the exchange agreement approved by the University.

Students in exchange programs who later apply for regular admission to the University must at that time meet all admission requirements and demonstrate English language proficiency as defined above.

**English Proficiency: Visiting Students**

Visiting students whose first language is not English and who have not studied in Canada or another English-speaking country for four recent academic years in an acceptable program from an approved secondary or post-secondary institution must demonstrate English language proficiency as outlined above.

**APPLYING FOR ADMISSION**

- **Step 1:** Apply online at [registrar.uvic.ca](http://registrar.uvic.ca). If you are applying for on-campus housing, entrance scholarships or bursaries, please note that these require SEPARATE applications. Visit [www.housing.uvic.ca](http://www.housing.uvic.ca) and/or [registrar.uvic.ca](http://registrar.uvic.ca) respectively for more information.
- **Step 2:** Pay application fees:
  - $67 if any transcripts come from institutions within Canada
  - $110 if any transcripts come from institutions outside Canada
  - $35 Late Application Fee
  - DO NOT SUBMIT CASH OR CHEQUES. Our online application form accepts credit cards only.
  - Fees are subject to change without notice.
  - Application fees are NON-REFUNDABLE and are not applicable to tuition fees.
  - These fees are effective September 1, 2012
- **Step 3:** Check “Application and Documentation Deadlines” on page 8, for programs of interest.
- **Step 4:** If your first language is not English, check to see how you can demonstrate English language proficiency (refer to “Applicants Whose First Language is Not English” on page 22). Submission of test scores may be required.
- **Step 5:** If you are applying to the Faculty of Business, Education, Fine Arts or Human and Social Development, there may be additional forms and procedures. Contact the program area directly. Visit [www.uvic.ca/directories](http://www.uvic.ca/directories) for contact information.
- **Step 6:** Check to see what documentation will be required. Refer to the table “Documentation Required for Admission” on page 22.
- **Step 7:** When the application and fees have been received, you will be assigned your UVic student number. You will then be notified of any documents still required to complete your file.
- **Step 8:** Once your file is complete, an Admissions Officer will evaluate the documentation to determine admissibility and possible transfer credit for any post-secondary courses completed. You will be advised of the decision as soon as possible.

**PLEASE NOTE:** Possession of the minimum admission requirements does not guarantee admission to any faculty, program or courses at the University. In those instances where the number of qualified applicants exceeds the number that can be accommodated, the admission cutoffs will be higher than the published minimum requirements.

**ADMISSION REQUIREMENTS**

The requirements in this section are the minimum requirements for admission to the University. Individual programs may have set higher standards for entry than the minimum stated here; students should consult the individual faculty and department descriptions or Undergraduate Admissions for their regulations.

**Applicants from Secondary School**

**1. British Columbia/Yukon**

The table on page 24 shows the requirements for admission to Year 1 for each faculty. These are the minimum requirements for graduates of secondary schools in British Columbia. Graduates of secondary schools in other provinces require equivalent qualifications to those specified in the table.

Students must have written provincial examinations in any subject where it is mandatory in order to meet BC Graduation Program requirements. When a student elects to write an optional grade 12 provincial exam, the higher of the school mark or the blended grade (school mark and provincial exam result combined) will be used in the admission average calculation.

**Approved Grade 11 and 12 Courses**

The following are courses currently offered by the BC Ministry of Education. All are 4-credit courses. Previously approved academic courses that have been discontinued by the Ministry of Education will continue to be accepted. The equivalency of courses offered by other provinces is determined by Undergraduate Admissions. For further information, visit [registrar.uvic.ca](http://registrar.uvic.ca).

**Approved Academic 12 Courses**

- Applied Digital Communication 12
- Arabic 12
- BC First Nations Studies 12
- Biology 12
- Calculus 12
- Chemistry 12
- Comparative Civilizations 12
- Computer Programming 12
- Economics 12
- English 12
- English 12 First Peoples

**Approved Science 12 Courses**

- Biology 12
- Chemistry 12
- Geography 12
- Geology 12
- Physics 12
## Year 1 Admission Requirements: BC/Yukon Secondary School Graduates

Due to limits on enrolment and the competitiveness of certain programs, the cutoffs in a given year are usually higher than the minimum academic qualifications for consideration of secondary school graduation with an average of at least 67% (70% for Bachelor of Engineering/Software Engineering, and 80% for business) calculated on all required grade 12 courses. See <registrar.uvic.ca/undergrad/cutoffs.html> for the previous year’s required averages.

- Social Studies 11
- English 12 or English 12 First Peoples
- Principles of Mathematics 12 or Pre-calculus 12 with at least 73%
- Physics 12
- one approved academic 12 course (Chemistry 12 recommended)

### Computer Science

- English 11
- Principles of Mathematics 11 or Pre-calculus 11
- one approved science 11 course
- Social Studies 11
- English 12 or English 12 First Peoples
- Principles of Mathematics 12 or Pre-calculus 12
- one approved science 12 course
- one approved academic 12 course

### Fine Arts

- English 11
- three courses chosen from Principles of Mathematics 11, Foundations of Math 11, or Pre-calculus 11 (or equivalent); an approved science 11; an approved language 11; an approved fine arts 11
- Social Studies 11
- English 12 or English 12 First Peoples
- an additional three approved academic 12 courses OR two approved academic 12 courses and an approved fine arts 12 course

### Human and Social Development

**Health Information Science**

- No required grade 11 courses.
- English 12 or English 12 First Peoples
- Principles of Mathematics 12, Foundations of Math 12 or Pre-calculus 12*
- two approved academic 12 courses
- Principles of Math 12 or Pre-calculus 12 is required for students wishing to complete the Combined Major in Computer Science and Health Information Science.

### Humanities

- English 11
- Principles of Mathematics 11, Pre-calculus 11 or Foundations of Mathematics 11
- one approved science 11 course
- one approved second language 11 course
- Social Studies 11
- English 12 or English 12 First Peoples
- three approved academic 12 courses

### Law

No Year 1 entry. See Faculty of Law.

### Science

- English 11
- Principles of Mathematics 11 or Pre-calculus 11
- Chemistry 11
- Physics 11
- Social Studies 11
- English 12 or English 12 First Peoples
- Principles of Mathematics 12 or Pre-calculus 12
- two approved science 12 courses

### Social Sciences

- English 11
- Principles of Mathematics 11, Pre-calculus 11 or Foundations of Mathematics 11
- one approved science 11 course
- Social Studies 11
- English 12 or English 12 First Peoples
- three approved academic 12 courses

Note: Students who are considering a degree program that requires university-level math courses (which include all Economics and some Geography and Psychology programs) are strongly advised to take Principles of Mathematics 12 or Pre-calculus 12. See the department websites for further details on Math requirements.

* Equivalent courses may be considered.
Approved Fine Arts 11 Courses

2. Expanded Qualifications

Academic performance is the main criterion for admission and is used exclusively in the majority of cases.
However, the University recognizes that some candidates have other attributes that demonstrate an ability to succeed at university.
To be considered for admission under this policy, applicants must complete the personal information profile for the faculty to which they are applying.
This admission category is currently available in the Faculties of Humanities, Social Sciences, Human and Social Development (Child and Youth Care only), and Engineering.

2. Expanded Qualifications

Academic performance is the main criterion for admission and is used exclusively in the majority of cases.
However, the University recognizes that some candidates have other attributes that demonstrate an ability to succeed at university.
To be considered for admission under this policy, applicants must complete the personal information profile for the faculty to which they are applying.
This admission category is currently available in the Faculties of Humanities, Social Sciences, Human and Social Development (Child and Youth Care only), and Engineering.

3. Other Provinces/Territories Except Ontario and Quebec

Applicants from secondary schools in Alberta, Saskatchewan, Manitoba, New Brunswick, Prince Edward Island, Nova Scotia, Newfoundland and Labrador, Northwest Territories and Nunavut must meet the same admission requirements, present the same number of subjects and present equivalent secondary courses at the appropriate level as those prescribed by each UVic faculty for graduates of BC secondary schools.

4. Ontario

Applicants from Ontario must have completed the Ontario Secondary School Diploma (OSSD), including a minimum of six 4U/4M courses with an overall average of at least 67%, calculated on English 4U and five additional 4U/4M courses.
Applicants from Ontario who entered Grade 11 prior to September 2001 must have completed the Ontario Secondary School Diploma (OSSD), including a minimum of six Ontario Academic Courses (or grade 13 courses) with an overall average of at least 67% calculated on OAC English and five additional OACs. Transfer credit will not be awarded for OAC or Grade 13 courses.

All applicants from Ontario require qualifications equivalent to those subjects shown in the table for students from British Columbia secondary schools.

5. Quebec

Applicants must have completed at least one full year of an approved program at a CEGEP with an overall grade average of at least B. No transfer credit will be granted for courses used to qualify for admission to Year 1. Completion of grade 11 (Secondaire V) is not sufficient for admission. Applicants require qualifications equivalent to those shown in the table for students from British Columbia secondary schools.
Applicants who have completed more than one year of a CEGEP program should refer to “CEGEPs” on page 27.

6. General Education Diploma (GED)

Applicants with a GED are considered for admission on an individual basis. Applicants must have a minimum standard score of 58.5 on the GED to be considered for admission.

7. International Baccalaureate Diploma

Applicants may be considered for admission on the basis of a completed International Baccalaureate Diploma with a minimum of 24 points. For transfer credit, see “International Baccalaurate Credits” on page 27.

8. Accelerated Entry for Distinguished Secondary School Students

Distinguished senior secondary school students may apply for special admission to the University before they graduate if they meet the following criteria:

1. The student is recommended for admission by the secondary school principal.
2. The student has normally completed grade 10 and is maintaining a minimum 80% average in all academic subjects and a minimum 90% average in the field of study the student plans to undertake at the University. If the student is not currently able to take courses needed to prepare for the planned field of study, the school principal must make a special recommendation, in writing, stating the student’s particular aptitudes.
3. The University department(s) concerned supports the student’s application, which requires a personal interview with the department Chair(s).
4. The student is completing the full range of grade 11 and grade 12 courses required to gain normal admission to the University. If the student is currently in grade 10, then a list of expected grade 11 and 12 courses is required. Except in special circumstances, students must be at least 16 years of age to be admitted to first year, and at least 17 to be admitted to second year.

Students who meet the above criteria are admitted to the University as “special students” and may register in no more than 6 units of courses in any given academic session.

The University will grant credit towards a degree for courses successfully completed when the student is authorized to register in a degree program.
9. BC Adult Graduation Diploma

Applicants with a BC Adult Graduation Diploma (the Adult Dogwood) may apply for admission if the following minimum requirements are met:

1. The applicant is at least 19 years of age.
2. Successful completion of English, Mathematics (academic), a Laboratory Science, and Social Studies 11 or equivalent at the advanced or grade 11 level. Courses done through the secondary system must each be worth 4 credits.
3. Successful completion of English plus three approved academic subjects at the grade 12 level. Courses done through the secondary system must each be worth 4 credits, and provincial examinations must be written if mandatory in the subject taken. All courses presented for admission must be graded. A minimum average of 67% is required for consideration.

All applicants must have the appropriate prerequisites for the program to which they have applied. Admission requirements for the Faculty of Engineering, the Faculty of Science and the Health Information Science program parallel those for BC secondary school graduates.

10. Applicants with Credit for Secondary School Calculus

All prospective UVic students who have completed or are registered in a secondary school calculus course are eligible to write a Calculus Challenge Examination. Students who pass this examination will be able to obtain credit for MATH 100 at UVic.

Application must be made to the Mathematics department hosting the Calculus Challenge Examination. (Each year one of BC's four universities hosts the examination.) Only one attempt is permitted. After completing the Calculus Challenge Exam and registering at UVic, a student may contact Undergraduate Records to receive credit for MATH 100. The student’s transcript will then show challenge credit for MATH 100 and the grade obtained.

Enquiries regarding application deadlines, fees, course syllabus, sample examinations with solutions and related matters should be directed to:
Math Challenge 151
Department of Mathematics
Simon Fraser University
Burnaby BC V5A 1S6
Telephone: (778) 782-3332
Fax: (778) 782-4947

Students already eligible for transfer credit because of high AP or IB scores will keep this eligibility regardless of their examination score, and can waive the examination score and/or credit.

11. Applicants with College Board Advanced Placement Credits

Applicants who have passed the Advanced Placement examination in 1989 or later in selected subjects, with a grade of 4 or 5, will receive transfer credit. Refer to the BC Transfer Guide at <www.bctransferguide.ca> for further information.

Applicants who pass the AP examination with a grade of 3 will be granted advanced standing for the purpose of meeting a prerequisite but no transfer credit. Applicants should consult with the department concerned for course advice.

12. Applicants to the Canadian University International Study Abroad Program

The University of Victoria, along with Queen's University, Dalhousie University, the University of Toronto, the University of Western Ontario and McGill University, offers a program at the International Study Centre located at Herstmonceux Castle in East Sussex, UK.

The Canadian University International Study Abroad Program allows UVic students to study abroad while receiving credit toward their UVic program. A first-year program is available so students may enter directly from high school. The course offerings cover a wide range and include Fine Arts, Languages, Humanities, Social Sciences, Business and Law.

Information about the program and the first-year application form are available at <http://uvic.ca/cusap>.

13. Home-Schooled Applicants

UVic welcomes applications from individuals with varying academic backgrounds. Home-schooled applicants should be aware of the following:

- It is an admission requirement to be a secondary school graduate. Therefore, home-schooled applicants must be able to present proof of completion of a program that has met graduation requirements from a recognized educational jurisdiction and also faculty-specific minimum subject and academic average requirements.
- All applicants are required to take provincial exams, or equivalent, for all courses in which they are mandatory. Therefore, if a home-schooled student is participating in a program with provincial examinations, or equivalent, those courses with mandatory examinations must be taken.
- In cases where applicants do not meet the above-mentioned requirements, they must submit an appeal letter documenting the reasons for not being able to meet these requirements and provide SAT scores and/or any other relevant documentation for consideration by the Senate Committee on Admission, Reregistration and Transfer.

OTHER APPLICANT CATEGORIES

Special Access

The University of Victoria is interested in extending university-level learning opportunities to residents of British Columbia who are at least 23 years of age and may not qualify under the regular categories of admission.

The number of applicants admitted under this category is limited by the availability of University resources. Admission under the Special Category is not automatic.

An applicant for admission under the Special Category must meet the following criteria:

- the applicant is at least 23 years of age by the beginning of the session applied for, and
- the applicant's academic achievements have been significantly and adversely affected by health, disability, or family or similar responsibilities.

The Senate Committee on Admission, Reregistration and Transfer selects candidates for admission in the Special category on the basis of:

- their educational history
- non-educational achievements that indicate an ability to succeed at university

Applicants in this category must submit two Special Access Reference forms from persons specifically able to assess the applicant's potential for academic success. References from relatives will not be accepted. Applicants must be able to document the nature and extent of their circumstances, and demonstrate the impact these have had on their educational achievements.

Note: Applicants who have attempted a full year or equivalent of university-level courses are not eligible to apply under this category.

Applicants under this category must also meet the prerequisites for the program they wish to enter.

First Nations, Métis and Inuit

The University welcomes applications from Aboriginal peoples of Canada, including those of First Nations, Métis and Inuit ancestry (including Non-Status Aboriginal).

During the admission application process, students are given the opportunity to self-declare their Aboriginal status. The voluntary declaration will NOT be used for admission decisions. Documentation of Indigenous ancestry is not required. You are encouraged to self-identify in order to receive announcements of special events organized by the Office of Indigenous Affairs (INAF) as well as information on academic, personal and cultural support services offered at the First Peoples House. For more information, see the Office of Indigenous Affairs website or contact Ruth Young, Acting Director of INAF, at ryoung@uvic.ca.

Applications from Aboriginal peoples of Canada who do not qualify under the other categories of admission will be considered on an individual basis by the Senate Committee on Admission, Reregistration and Transfer.

The committee will consider each applicant’s:

- educational history
- non-educational achievements that indicate an ability to succeed at university

Applicants who choose to apply under the “Special Access – First Nations, Métis and Inuit” category must submit two reference forms from persons specifically able to assess the applicant’s potential for academic success. If possible, one reference should be from a recognized Aboriginal organization. References from relatives will not be accepted. Applicants must also submit a personal letter outlining their academic objectives.

Exploratory Studies

Students who wish to take individual credit courses for personal or professional interest, and will be at least 21 years of age prior to the first day of classes, may apply for admission to Exploratory Studies. Exploratory Studies students may take up to 3 units of courses per term, normally to a maximum of 12 units attempted overall, and will be classified as “non-degree” students.
Courses open to exploratory students are listed on the Exploratory Studies website. Students requesting courses other than those approved for Exploratory Studies may be required to present official transcripts to demonstrate satisfaction of the prerequisites listed. Exploratory Students are assigned a registration date after regular degree students have had the opportunity to register first. Note that some courses are only available to those students who have been accepted into a specific degree program.

The University reserves the right to limit the number of students admitted under this category. Students who have been required to withdraw from any post-secondary institution during the previous three years are not eligible for consideration.

No transcripts or other documentation are required, except to establish English Language Proficiency or to satisfy specific course prerequisites when necessary. For further information and application procedures, please see the Exploratory Studies website at <www.uvic.ca/exploratorystudies>.

Should students in Exploratory Studies wish to change their status from non-degree to regular upon or prior to reaching 12 units, they must provide all relevant documentation and meet all requirements for admission to the degree program requested. After completion of 12 units, students who wish to take further courses will usually apply to be admitted as a regular degree student or, in some circumstances, may submit a request to continue in Exploratory Studies.

(Please note that this category is not currently available for admission to the Faculties of Education, Fine Arts and Law.)

Auditor
See “Registration as an Auditor”, page 30, for instructions on how to audit courses.

Applicants for Transfer
The general requirements listed below apply to transfer applicants wishing to enter the Faculties of Humanities, Science, and Social Sciences. Admission requirements for other faculties are stated in the appropriate faculty section in the Calendar.

Note that applicants who have failed their previous year or who have a weak overall academic record may be refused permission to transfer, even if they meet the minimum admission requirements. See “University’s Right to Limit Enrolment”, page 11.

Note: Transfer Applicants to the Faculty of Science
In addition to the requirements set out below, transfer applicants to the Faculty of Science must:
• meet the Year 1 requirements for admission to the Faculty of Science directly from secondary school,
• have transfer credit for at least 9 units of science courses including at least 3 units of Mathematics selected from MATH 100, 101, 102, 151.

Limitations on Transfer Credit
Students who plan to begin their studies at another institution and transfer to UVic should ensure that the courses they take are eligible for transfer credit in their planned program at UVic.

Transfer credit granted in a degree program is limited and may not normally be applied to the final 30 units of the program. Exceptions to this regulation require the approval of the Dean of the faculty concerned.

If a student’s performance warrants a review of transfer credit granted on admission, the University reserves the right to require the student to make up any deficiencies (without additional credit) before proceeding to studies at a higher level. These decisions are normally made at the department level.

Applicants to the School of Nursing must contact the Admission/Liaison Officer regarding regulations specific to the School (see “Minimum Degree Requirements”, page 120.)

Transfer Credit
Transfer credit from BC colleges will be assigned according to the equivalencies set out on the BC-CAT website at <www.bctransferguide.ca> for the year in which the courses were completed.

Transfer credit from other recognized institutions is determined by the relevant academic department and Undergraduate Admissions. Visiting and non-degree students are not assigned transfer credit.

Universities and Colleges
Applicants require successful completion of at least 12 units of transferable courses with a minimum overall average equivalent to C at UVic; the average is calculated from the grades for the most recent 12 units of university-level courses attempted and includes repeated and failed courses. Applicants with less than 12 transferable units must have a minimum GPA of C on any post-secondary record and also meet the minimum requirements for admission to Year 1 (see page 24).

Associate of Arts or Science Degree from a BC Post-secondary Institution
Applicants who have been granted an Associate of Arts or Associate of Science degree from a recognized BC post-secondary institution will be granted 30 units of transfer credit if admitted to a degree program. Note that students receiving 30 units of transfer credit for completion of the associate degree are still obliged to fulfill all prerequisites in the degree program to which they are admitted.

Institutes of Technology
Applicants who have completed one full year of a diploma program at an institute of technology with a cumulative average of A- are eligible for admission. Credit is considered on a course-by-course and case-by-case basis.*

Applicants who have completed in excess of one full year at an institute of technology with a minimum cumulative average of B are eligible for consideration. Credit is considered on a course-by-course and case-by-case basis.*

*Block credit agreements have been established for some specific diploma programs to transfer to specific UVic degree programs. Normally, 30.0 units of block credit is granted to those admitted under such agreements.

Ontario Colleges of Applied Arts and Technology (CAAT)
Applicants who have completed one full year of a diploma program at a CAAT with a cumulative average of A- are eligible for admission but no transfer credit.

Applicants who have completed a two-year diploma program (or two years of a three-year diploma program) with a minimum cumulative average of B are eligible for consideration. Normally, up to 7.5 units of credit is granted upon admission.*

Applicants who have completed a three-year diploma program, with a minimum cumulative average of B, are eligible for consideration. Normally, up to 15.0 units of credit is granted upon admission.*

Certificate programs are not considered for admission or transfer credit.

*Credit is determined on a case-by-case basis, but where block credit agreements have been established for specific diploma programs to transfer to specific UVic degree programs, credit may exceed the amounts indicated, but may not exceed a maximum of 30.0 units.

CEGEPs
Applicants with more than one full year completed of an approved CEGEP program, with a minimum overall average of 70%, may be granted up to 15 units of transfer credit at the first- or second-year level.

Canadian Bible Colleges
Courses can be considered for admission and transfer credit if the institution where they were taken is chartered as a degree or diploma granting institution in its home province, appears in the British Columbia or Alberta Transfer Guide or is a member of one of the following: the Association of Universities and Colleges of Canada, the Association of Canadian Community Colleges, the Association for Biblical Higher Education or a U.S. regional accrediting body. For more information contact Undergraduate Admissions.

International Baccalaureate Credits
Applicants who have been granted admission based on the International Baccalaureate Diploma are normally eligible for up to 15 units (one academic year) of transfer credit. The diploma must contain at least three subjects at the Higher Level and three subjects at the Standard Level. Subjects completed with a score of less than 4 are not eligible for transfer credit.

Applicants who have completed Higher Level subjects without completing the full diploma are eligible for 3 units of transfer credit for each Higher Level subject completed with a grade of at least 4. Individual Standard Level subjects are not eligible for transfer credit.

*Some subjects require a higher grade; refer to the BC Transfer Guide <www.bctransferguide.ca> for further information.

Second Bachelor’s Degree
Students with a bachelor’s degree from UVic or another recognized institution may be admitted to a second bachelor’s degree program if they meet the following conditions:
1. The student must meet the admission requirements for the program of the second degree.
2. The principal areas of study or academic emphasis of the second degree must be distinct from that of the first degree.
Initially, students will be admitted as unclassified. Once approved for a specific degree program, students should contact their advising centre to confirm what courses from their first degree they will be able to include in their second degree program.

Students must apply for admission to a second bachelor's degree by the usual procedure for admission as appropriate.

The University may limit the number of students admitted to complete a second bachelor's degree.

**Visiting Students**

Applicants who wish to take courses for credit at their home university or college may be admitted on the basis of a Letter of Permission issued by their home institution. Such study is normally limited to a total of 15 units at UVic.

The Letter of Permission must be sent directly by the home institution to Undergraduate Admissions. The letter must include the session for which permission is given. Transcripts may be required as determined by Undergraduate Admissions.

Visiting students whose first language is not English must meet the requirements on page 22.

Visiting students who wish to reregister for a future session must submit an up-to-date Letter of Permission to Undergraduate Records.

Visiting students who later wish to apply for regular degree status at UVic must submit an application for status change to Undergraduate Records.

**International Applicants**

The University of Victoria invites academically qualified students from around the world to study in any one of its nine outstanding undergraduate faculties.

International applicants can find detailed information on application procedures at <www.uvic.ca/apply>.

**International Applicants: Admission Requirements**

The minimum admission requirements for consideration for undergraduate admission to Year 1 in the Faculty of Humanities and the Faculty of Social Sciences can be found online at: <registrar.uvic.ca/internationalreq.html>.

Additional requirements and specific subject requirements may be needed, depending on the specific faculty and department.

Students who have completed university-level work at an accredited post-secondary institution may be eligible for admission at the Year 2 level or above, depending upon the published general/specific faculty and department requirements and the transferability of courses.

Please note that only those applicants who have attained a high level of academic achievement will be offered admission, regardless of year level.

The international application fee is $102 (Canadian). This fee applies to any student whose transcripts come from institutions outside of Canada.

**International Exchange**

International Exchange students should contact the International and Exchange Student Services Office directly by phone at 250-721-6361; email: iess@uvic.ca or visit <www.iess.uvic.ca>.

**English Language Centre Programs**

As English is the primary language of instruction at University of Victoria, all applicants, regardless of country of origin or citizenship status, are required to demonstrate competence in the English language prior to admission. Consult the section “Applicants Whose First Language is Not English” on page 22 for further details. International applicants who are unable to demonstrate minimum language proficiency, but meet all other current admission requirements for their faculty, may still be considered for entrance to UVic once they complete the University Admission Preparation (UAP) course with a grade of at least 80%. This course is offered a number of times during the year by the University of Victoria's English Language Centre.

Information on the application, program dates and cost can be obtained by contacting the English Language Centre: <continuingstudies.uvic.ca/elc/about-elc>

Phone: 250-721-8469
Email: elc@uvic.ca
Web: <continuingstudies.uvic.ca/elc>

**Returning Students Reregistration**

Students who are returning to UVic may be automatically eligible to reregister or may be required to complete an application to reregister.

Students who have questions about their reregistration status in undergraduate studies should contact Undergraduate Records. Applications for reregistration are available from the Undergraduate Records website.

Undergraduate Admissions and Records
Main Floor, University Centre - Hours: Monday to Friday 8:30-4:00
Phone: 250-721-8121
Fax: 250-721-6225
Web: <registrar.uvic.ca>

**Continuing Students**

**Winter Session:** All eligible students who were registered in the most recent Winter Session at the University will be authorized automatically for reregistration.

**Summer Session:** All eligible students who were registered in the most recent Summer Session will be authorized automatically for reregistration.

**Other Returning Students**

Students who were not registered in the most recent winter or summer session must submit an application for reregistration. A $16.00 fee is required with the application to reregister from all students (including off-campus) not registered in the most recent winter or summer session. Applications received after the published deadline will be charged a $35 late fee. Applications to reregister are available from the Undergraduate Records website: <registrar.uvic.ca>.

Students who have registered at another university or college since attending UVic are required to state the names of all post-secondary educational institutions attended (including withdrawals, incomplete and failed studies) and to submit official transcripts of their academic records at these institutions by the due date shown on page 8. Failure to disclose attendance or to submit a transcript in a timely manner will result in a penalty (see “Official Transcripts”, page 22). Eligibility to register will be based on performance in studies elsewhere, in association with the student's latest status at UVic (e.g., probation). See “Minimum Sessional Grade Point Average and Academic Standing”, page 39.

Applicants for reregistration who have completed studies at another post-secondary institution since they last attended UVic must submit a document evaluation fee of $40 with their application. This fee is not required from visiting students or from students who obtained a Letter of Permission from UVic to study elsewhere. The fee is not refundable and cannot be applied to tuition.

**Reregistration Following Required Withdrawal**

Students who have been required to withdraw from UVic in the past because of unsatisfactory progress or standing and who wish to be considered for reregistration must submit an Application for Reregistration. Students who are required to withdraw or denied reregistration will not be permitted to register until they have met the conditions outlined under “Minimum Sessional Grade Point Average and Academic Standing”, page 39. Students who have not met the conditions for reregistration but who do meet the criteria to appeal (see “Appealing Admission/Reregistration Decisions”, page 22) may submit a letter of appeal to the Senate Committee on Admission, Reregistration and Transfer.

Grounds for appeal to the Committee are limited. Letters should be sent to the Senate Committee on Admission, Reregistration and Transfer, c/o Records Officer, Undergraduate Records. The Committee's decision regarding the student's application is subject to review by the Senate Committee on Appeals only on the grounds of specific procedural error (see “Appealing Admission/Reregistration Decisions”, page 22).

**Students Writing Deferred Examinations**

Students who are assigned a deferred (DEF) standing in one or more courses will have their sessional standing withheld until their final grade(s) is available. Depending upon academic status, i.e. probation, and projected GPA, the Authorization for Reregistration may be blocked until a sessional average has been determined to be satisfactory.

**Appealing Reregistration Decisions**

Applicants who are denied permission to reregister and who can prove extenuating circumstances or provide information that was not presented initially have recourse under “Appealing Admission/Reregistration Decisions”, page 22. Appeals from returning students should be directed to the Senate Committee on Admission, Reregistration and Transfer, c/o Records Officer, Undergraduate Records.
Undergraduate Registration

Information on how to register as well as the day, time, place and instructor for courses is provided at the Office of the Registrar's website: <registrar.uvic.ca> or through “My Page” at <www.uvic.ca/mypage>.

General Registration Information

- Students must receive notification of admission or authorization to reregister before registering.
- Admission to the University or authorization to reregister does not guarantee entry to a particular course or program. Because enrolment in all courses is limited, admitted students may not be able to register in their chosen courses or sections.
- Each new student, by Letter of Admission, and each returning student, by accessing “My Page” <www.uvic.ca/mypage>, will be informed about the procedures for registration.
- Letters of Admission or Authorizations to Register are valid only for the term and session to which they apply.
- Students who are required to withdraw or denied reregistration will not be permitted to register until they have met the conditions outlined in the section "Minimum Sessional Grade Point Average and Academic Standing", page 39.
- A department may cancel the registration of a student who cannot demonstrate that all course prerequisites have been met or who fails to attend a course within the following period:
  * Winter Session courses
    - first 7 calendar days from the start of the course
  * May-August courses
    - first 7 calendar days from the start of the course
  * May-June courses
    - first 2 class meetings
  * July-August courses
    - first 2 class meetings
  * Not all department instructors will choose to exercise the option to drop classes. If you do not attend classes, do not assume that you have been dropped from a course by a department or instructor.

Courses that are not formally dropped will be given a failing grade. You may be required to withdraw, and you will be required to pay the tuition fee for the course.

- A student who registers in and then drops courses repeatedly over several consecutive terms may have access to course registration blocked. When a registration block is imposed, the Registrar will issue an email notice to the student and will copy the Dean, or designate, of her or his Faculty of registration offering an opportunity for the student to respond, in writing and within 14 calendar days, to explain this registration history. The Registrar and the Dean or designee will review the student's explanation and will determine if the registration block should be imposed. If upon review of the explanation, a registration block is imposed, the student may submit an appeal to the Senate Committee on Admission, Re-registration and Transfer (c/o Undergraduate Admissions and Records).

A student who for medical or compassionate reasons is unable to attend a course during the required period should contact the department within that time to confirm registration in the course.

Course Selection Responsibility

Students are responsible for:
- choosing courses that conform to their individual program requirements and University regulations
- ensuring there is no discrepancy between the program they are following and that recorded in Undergraduate Records
- taking only those courses in which they are registered
- checking the calendar description for prerequisites, restrictions and references to duplicate, mutually-exclusive or cross-listed courses
- Credit will not be assigned more than once unless it is specifically noted that the course may be taken more than once for credit.

Students who have credit for courses taken at UVic must consult the calendar course descriptions to ensure they do not duplicate courses that now have a different number. See also “Duplicate and Mutually Exclusive Courses”, page 32, “Credit Limit — Beginning Level Statistics Courses”, page 32, and “Repeating Courses”, page 32.

Registration for Both Terms in Winter Session

Students planning to undertake studies in both terms of the Winter Session are advised to register for all courses they intend to take, including single-term courses beginning in January.

Registration for One Term Only

If suitable single-term courses are available, students may register for a program of courses to be taken in the first or second term.

Adding and Dropping Courses

The regulations for adding and dropping courses are stated in the appropriate Registration Guide or at <registrar.uvic.ca>.

You may add “standard date” courses by using online registration until the last day to add courses for each term. After the last day to add courses a request to add a course must be submitted on an Undergraduate Course Change Form to Undergraduate Records; approval is not automatic. An Undergraduate Course Change Form must be accompanied by a written explanation of the circumstances that prevented registration prior to the last day for adding courses and a memo from the course instructor stating that you have attended classes. Approval is determined by the dean or designee of the faculty of the program in which you are registered.

Please note that the deadlines and timetable for adding and dropping courses are not the same as those for fee reductions (see page 6).

- Students may drop first-term courses until the last day in October and full-year and second-term courses until the last day in February without receiving a failing grade.
- A student who has a grade of E or F in a first-term course may reregister in the course if it is offered in the second term, provided that the student will be registered in not more than 9 units in the second term. A student who has an E in a first-term course may take a second-term course which lists the first-term course as a prerequisite only with the permission of the department concerned.
- An undergraduate student who drops all courses and does not intend to register in any other credit course in the session is withdrawing from the University and must notify Undergraduate Records. (See “Withdrawal”, page 39.)

Concurrent Registration at Another Institution

Normally a student may not be registered concurrently in courses offered at UVic and in university-level courses offered at another institution. New students must notify Undergraduate Admissions of their plan to attend another institution. Returning students must obtain a Letter of Permission from the Dean or designee of their faculty if they plan to enrol concurrently at another institution to ensure that transfer credit is recognized.

Letters of Permission for UVic Students to Undertake Studies Elsewhere

A student who wishes to take courses at other approved post-secondary institutions must receive prior approval in the form of a Letter of Permission (LOP) from the appropriate faculty advising service. For information about other specific requirements, contact the faculty advising service.

A student must have completed, or be registered in, at least 6 units of course work at UVic to be eligible for a Letter of Permission to take courses elsewhere. Note: Transfer credit is assigned upon receipt of an official transcript from the institution visited and once an evaluation has been completed; no letter grades are recognized or assigned for transfer credit course work, but they may be considered if necessary to meet a specific grade requirement.

Some faculties require a minimum grade in courses taken elsewhere before transfer credit will be granted. Check the faculty sections in this calendar for regulations.

Applications for Letters of Permission by students must be accompanied by payment (see “Miscellaneous Fees”, page 44). If a continuing or returning student did not obtain the required Letter of Permission to undertake studies elsewhere, a document evaluation fee of $40 will be assessed for the review of transfer credit. The $40 fee is not required from students who obtain a Letter of Permission prior to their attendance.

Registration in Graduate Courses by Undergraduates

Students in their final year of a bachelor’s degree program at the University of Victoria who have a grade point average of at least 6.0 (B+) in the last 15 units of course work attempted, or who would otherwise be admissible as a non-degree graduate student, may be permitted to register in a maximum of 3 units of graduate courses on the recommendation of the department concerned and with the consent of the Dean of Graduate Studies. Such courses cannot be used for credit in a subsequent undergradu-
ate or graduate program at the University of Victoria if this work is used to satisfy the requirement for another credential.

No application for admission or supporting documentation is required; the graduate adviser of the department in which the courses are to be taken must send a recommendation to the Dean of Graduate Studies, specifying the courses selected. When written permission is received from the Dean, the approved graduate courses will be added to the undergraduate record.

**REGISTRATION AS AN AUDITOR**

Registered students and members of the community may be permitted to audit up to 3 units of undergraduate courses in a session. Registration as an auditor is subject to the following conditions:

- The individual must receive permission from the department concerned.
- Permission to audit a course is dependent upon the class size and other factors that the instructor and the department establish.
- The degree of an auditor's participation in the course is at the discretion of the department.
- Attendance as an auditor does not grant entitlement to an academic record of such attendance and will not be considered as meeting admission, prerequisite or course requirements for any University credit program.
- Graduate courses are normally open only to students who are registered in the Faculty of Graduate Studies; see the faculty regulations in the UVic Graduate Calendar.

Auditor class entry forms are available from Undergraduate Records.

**INDIVIDUALLY SUPERVISED STUDIES**

Individually supervised studies may be undertaken during the Winter Session; such studies will normally consist of Directed Studies courses. Students interested in pursuing such studies should contact the Teacher Education Advising Office in the Faculty of Education or the appropriate department Chair in the other faculties. The availability of such courses will be determined by the department concerned.

For individually supervised studies in the Summer Session, see the *Summer Session Calendar*, available online late February at <registrar.uvic.ca/summer>.

**PREPARING FOR FUTURE STUDIES OUTSIDE UVic**

Students who plan to complete a year or two of studies at Uvic and then transfer to another institution should design their program at Uvic so that they will meet the requirements of the other institution.

The University offers first-year courses in Humanities, Science and Social Sciences that will prepare students to enter the first year of Forestry, and the second year of Agriculture, Physical Education or Pharmacy at certain other universities. Students can also prepare for studies elsewhere in Medicine, Dentistry, Architecture, and other professions.

The list of suggested first-year courses given below is a general guide only. Students planning professional studies at other institutions should contact the institutions for information about admission requirements before their first year at the University of Victoria. Students wanting advice about professional education should consult the Academic Advising Centre, servicing the Faculties of Humanities, Science and Social Sciences, for specific information on prerequisites.

1. Please note that suggested courses for first-year students only are presented, although it may be possible to complete one or more additional years of study at the University of Victoria.
Undergraduate Academic Regulations

Students should check the Calendar entries of individual faculties for any additional or more specific regulations.

ACADEMIC WRITING REQUIREMENT

Strong reading, writing, and research skills are essential to academic success. Regardless of whether they are native speakers of English or have learned English as an additional language, all students need to develop these skills so that they are able to meet the expectations of advanced literacy associated with university-level academic studies.

To ensure that students are prepared to meet these expectations, the university requires all undergraduate students enrolled in a degree program to satisfy one of the following two requirements.

1. Successful completion of a 1.5 unit AWR-designated course (ENGL 135, 146, 147, ENGR 110).

2. One of the following qualifications.
   - A score of at least 86% on the B.C. English 12 Provincial Examination, or English 12 First Peoples Provincial Examination, within the three years immediately prior to admission.
   - A final grade of at least 86% in an approved English 12 equivalent course from other Canadian provinces within the three years immediately prior to admission.
   - 1.5 units of transfer credit for ENGL 135, 146 or 147, ENGR 110, or AWR-designated level credit.
   - A degree from a recognized English-speaking university.

Selecting an AWR-Designated Course

All students who have been admitted to the university may register in the first-year English course of their choice. The English department offers four courses that satisfy the AWR.

- ENGL 135 Academic Reading and Writing (1.5 units).
- ENGL 146 Introduction to Literary Genres, Themes and Styles (1.5 units).
- ENGL 147 Introduction to Literary Traditions and Transformations (1.5 units).
- ENGR 110 Design and Communication I (2.5 units), for Engineering students only.

To increase their proficiency, students may also benefit from registering in one or both of the following preparatory courses prior to receiving credit for an AWR-designated course.

- ENGL 099 Remedial English Composition (0.0 units).
- ENGL 101 Fundamentals of Academic Literacy (1.5 units).

Note that these two courses do not satisfy the Academic Writing Requirement.

An on-line self-placement questionnaire is available at [www.registrar.uvic.ca/awr](http://www.registrar.uvic.ca/awr) to help assist students in determining the course that best matches their level of proficiency.

Timeline for Completing the AWR

To gain the greatest benefit to their degree studies, students who have not yet satisfied the AWR are expected to register in a 1.5-unit, AWR-designated course as soon as possible. For most students, this will be before the end of the third term of registration or prior to completing 30 units of credit. Please note that many faculties require students to satisfy the AWR before they can declare their degree program with an academic advisor.

Transfers who are admitted to UVic for the first time as third-year students must complete the AWR during their first Winter Session. Nursing and block-transfer students should consult their academic advisors for information about their deadline for completing the requirement.

The Former Undergraduate English Requirement

Students who satisfied the former Undergraduate English Requirement prior to 1 May 2012 (through UVic courses, transfer credit, or by exemption) are considered to have satisfied the Academic Writing Requirement.

ATTENDANCE

Students are expected to attend all classes in which they are enrolled. An academic unit may require a student to withdraw from a course if the student is registered in another course that occurs at the same time.

In some courses students may be assigned a final grade of N or debarred from writing final examinations if they have failed to satisfy a minimum attendance requirement set by an instructor for lectures, laboratories, online course discussions or learning activities, tutorials, or other learning activities set out in the course outline. Instructors in such courses must inform students in the course outline of any minimum attendance requirement and the circumstances under which they will be assigned a final grade of N or debarred from final examinations. Students who are absent, late or cannot attend an entire class because of illness, an accident or family affiliation should report to their instructors as soon as possible. (For more information, refer to “Academic Concessions” on page 35.)

An instructor may refuse a student admission to a lecture, laboratory, online course discussion or learning activity, tutorial or other learning activity set out in the course outline because of lateness, misconduct, inattention or failure to meet the responsibilities of the course set out in the course outline. Students who neglect their academic work may be assigned a final grade of N or debarred from final examinations.

Students who do not attend classes must not assume that they have been dropped from a course by an academic unit or an instructor. Courses that are not formally dropped will be given a failing grade, students may be required to withdraw and will be required to pay the tuition fee for the course.

COURSE LOAD

Minimum Course Load

Some programs require students to be enrolled in a minimum number of units during the Winter Session. Students should refer to the calendar entries of individual faculties for information.

Students should note that Canada Student Loans require enrolment in at least 4.5 units for credit (3 units for students with a permanent disability), excluding duplicate and/or mutually exclusive course work, in each term of the Winter Session.

Course load requirements for scholarships are outlined under “Scholarships, medals and prizes” on page 44.

Maximum Course Load

Except with the written approval of the Dean, the following maximum course loads apply to individual sessions and terms and do include studies taken elsewhere.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Final Year Studies

Normally, a student should complete the final 15 units of courses at the University of Victoria. A student may, however, take the final year of study at another university, subject to the regulations mentioned under “Graduation”, page 39, and with the prior consent of the Dean of the faculty concerned.

A student authorized to attend another institution who accepts a degree from that institution gives up any right to a UVic degree until the student has satisfied the University’s requirements for a second bachelor’s degree, page 40.

COURSE CREDIT

Accumulation of Credit

All course credits earned are recorded on the student’s academic record. Whether credit for a course applies toward a degree or diploma is determined by the regulations governing the program. In the case of a course taken more than once, the unit value will be shown on the student’s record in each instance, but units are awarded only once unless the course is designated as one that may be repeated for additional credit.

Advanced Placement or Exemption Without Unit Credit

In exceptional circumstances, undergraduate students may qualify for an exemption from a required course or for advanced placement in a program through independent study or other experience. Students requesting advanced placement or exemption should apply to the department offering the course or program.

Advanced placement or exemption from a required course carries no unit credit.

Completing Program Requirements

A student who has not met the course requirements for the lower years of a program may only proceed to courses in a higher year if the student concurrently takes all courses required to clear any requirements.
Credit by Course Challenge

Course challenge is intended to allow registered undergraduate students to receive credit in undergraduate courses on the basis of knowledge or experience acquired outside the University. A student challenging a course must undertake a special examination or other form of assessment administered by the department in which the course is offered.

Course challenge is not offered by all departments. Where not specifically referenced in the departmental calendar entry, a student should consult the department directly to determine if course challenge is permitted. Where it is offered, the following regulations apply:

• Students who are unclassified or have non-degree status may not challenge a course.

• A course challenge examination/evaluation normally must be completed before the end of the period for adding courses in both Winter Session and Summer Session, at a time determined by the department.

• Credit by course challenge is limited to 15 units or, for students in a diploma program, a maximum of 3 units.

• A student may not challenge any course whose equivalent appears on the student's secondary school, college or university transcript, whether or not the student successfully completed the course.

• A student who receives credit in a course at one level may not challenge its prerequisite in the same subject.

• A specific course may be challenged only once with the exception of variable-content courses approved by the department for challenge.

• The result of the course challenge examination or assessment will be entered on the student's academic record whether or not the challenge is successful. The grade received will be used in determining the student's sessional standing.

For more information, or a course challenge application form, contact Undergraduate Records.

Students are urged to complete challenge examinations before the end of the period for adding courses, so that they can make any course changes needed for that session.

Duplicate and Mutually Exclusive Courses

A course may be taken only once for credit unless the course description states that it may be taken more than once for credit.

Students are solely responsible for checking calendar descriptions, including those for assigned transfer credit, prior to and after registration, for any reference to duplicate, mutually-exclusive or cross-listed relationships.

Duplicate (DUP-same course) or mutually exclusive courses (M/X-different course/number, same content as another course) will be identified and recorded on a student's academic record. Students should note that for Canada Student Loan purposes, courses identified as duplicate/mutually exclusive will not be counted toward the minimum required course load of 4.5 units per term. Students should contact Student Awards and Financial Aid for information about their student loan status.

The grade received for a duplicate or mutually exclusive course will be used in calculating a student's sessional grade point average, but credit for the course will not be granted a second time.

In the case where a course registration has been partially duplicated by transfer credit, the partial transfer credit will be deleted from the student's record on completion of the "duplicate" course. The student will be assigned full credit for the course at UVic. Transfer credit that is a DUP or M/X of course work previously awarded by UVic will be reduced to 0.0 units on the student's record.

Credits in Established International Exchange Programs

UVic students may receive exchange credit to a maximum of 15 units, or other limit as approved by a faculty and the Senate, for course work completed on an exchange program established by a signed agreement between the University and another institution. The exchange credits are treated as UVic course credits in determining whether the student has met the minimum requirements for graduation and the student's standing at graduation. Students who participate in an exchange program should be aware that normally 18 units of the required minimum 21 senior units should be completed at UVic.

Courses completed on approved exchange programs are entered on the student's academic record as exchange credit. Letter grades are not assigned; a Com/Fail is recorded for each recognized exchange course. In instances where no direct equivalent course exists, non-specific level credit will be assigned and recorded on the transcript. The transcript will also indicate that the courses were completed on an exchange program at another institution. Exchange credit may not be recognized for all courses.

Students interested in applying for a UVic International Exchange program should complete both the UVic International Exchange Program application and the Proposed Study Plan form, which are available from the International and Exchange Student Services Office. An information session is held in the fall each year prior to the January application deadlines (see IESS for dates).

Before leaving on an exchange program, each student must complete the Official Exchange Contract and Liability Waiver. Students should be aware that they could be unable to register in some or all of the exchange courses they plan to take at the exchange institution due to timetable conflicts or course cancellation.

On completion of the exchange, students must request the host institution to forward an official transcript directly to Undergraduate Records at UVic. It is the student's responsibility to obtain all course descriptions, course outlines and syllabuses, including the contact hours per course. In addition, a notarized translation of documents issued in a language other than English will be required for all but language courses. Students should NOT submit additional supplementary documentation (such as completed assignments, course texts, etc.) unless specifically requested to do so by Undergraduate Records. The determination of course equivalencies cannot proceed until the above-noted official transcript and documentation are received. Exchange credit may not be recognized for all courses.

Policies and procedures may differ for exchange programs administered by individual academic units. Students in the Faculty of Business and the Faculty of Law should consult their faculty. Please see "Student Exchange Programs", page 17 for more information.

Bader International Study Centre (BISC)

BISC is offered at the Bader International Study Centre, located at Herstmonceux Castle in East Sussex, UK (for more information, see note 12 on page 26). The program allows UVic students to study abroad while receiving credit toward their UVic program. Upper-year students may choose from a number of interdisciplinary programs, including Fine Arts, Languages, Humanities, Social Sciences, Business and Law.

All current UVic students are eligible to apply. Information about the program and the upper-year application form are available at <uvic.ca/cusps>.

Credit Limit—Beginning Level Statistics Courses

Students may receive credit for a maximum of 3 units of beginning level statistics courses chosen from the following: ECON 245 (or 240); GEOG 226 (or 321); PSYC 300A; SOCI 271 (or 371A or 371); Statistics 100-level or 200-level transfer credit; one of STAT 252, 254, 255, 260 (or 250).

Repeating Courses

This regulation applies to students in all courses except Law.

A student who fails a required course must repeat the course or complete an acceptable substitute within the next two sessions the student attends the University. A student who fails to do so will normally be refused permission to register again in the required course.

A student may not attempt a course a third time without the prior approval of the Dean of the faculty and the Chair of the department in which the course is offered unless the calendar course entry states that the course may be repeated for additional credit. A student who has not received this approval may be deregistered from the course at any point and may be asked to withdraw from his or her declared or intended program.

Note: When a course is repeated, both the original grade and the grade assigned for the repeated course will remain on the student's record.

Program Requirement Change

1. Subject to paragraphs 3 and 4, students’ programs will normally be governed by the regulations of the faculty in effect at the date of their first registration in the faculty.

2. Where faculty regulations change program requirements before the student has completed her or his degree, diploma or certificate, the student, with the approval of the faculty, may elect to be governed by the new regulations.

3. Where an academic unit does not propose to provide access to courses necessary to satisfy previous program requirements for at least
five\textsuperscript{2} years, that unit must provide a transition program for any student registered in the faculty at the date of the program change who demonstrates that satisfying the new program requirements will extend the length of time (number of terms) that the student requires to complete her or his current program within the faculty.

4. An academic unit has no obligation to provide access to courses necessary to satisfy previous program requirements or to provide transitional programs for more than five years after the date of the program change.

5. Where a student believes that a program requirement change has unfairly prejudiced her or him due to special circumstances, and that these regulations do not apply to the student’s situation, the student may request the Chair or Director or Associate Dean (in a faculty without schools or departments) to establish a transition program. A student may appeal a negative decision to the Dean or the Dean’s designate. The decision of the Dean or designate is final.\textsuperscript{3}

1. In some faculties (particularly Education), accreditation requirements may not permit a change in regulations midway through a student’s program.

2. The change to five years reflects the number of years some faculties allow to complete their degree program.

3. Because it is impossible to foresee all situations in which unfairness may arise (for example, a student transferring in with advanced standing from a program affiliated with a UVic program), this general regulation will allow for special circumstances.

**POLICY ON ACADEMIC INTEGRITY**

Academic integrity requires commitment to the values of honesty, trust, fairness, respect, and responsibility. It is expected that students, faculty members and staff at the University of Victoria, as members of an intellectual community, will adhere to these ethical values in all activities related to learning, teaching, research and service. Any action that contravenes this standard, including misrepresentation, falsification or deception, undermines the intention and worth of scholarly work and violates the fundamental academic rights of members of our community. The following policies and procedures are designed to ensure that the University’s standards are upheld in a fair and transparent fashion.

In this regulation, “work” is defined as including the following: written material, laboratory and computer work, musical or art works, oral reports, audiovisual or taped presentations, lesson plans and material in any medium submitted to an instructor for grading purposes.

Violations of academic integrity covered by this policy can take a number of forms, including the following:

**Plagiarism**

A student commits plagiarism when he or she:

- submits the work of another person as original work
- gives inadequate attribution to an author or creator whose work is incorporated into the student’s work, including failing to indicate clearly (through accepted practices within the discipline, such as footnotes, internal references and the crediting of all verbatim passages through indentations of longer passages or the use of quotation marks) the inclusion of another individual’s work
- paraphrases material from a source without sufficient acknowledgement as described above

Students who are in doubt as to what constitutes plagiarism in a particular instance should consult their course instructor.

The University reserves the right to use plagiarism detection software programs to detect plagiarism in exams, essays, term papers and other assignments.

**Multiple Submission**

Multiple submission is the resubmission of work by a student that has been used in identical or similar form to fulfill any academic requirement at UVic or another institution. Students who do so without prior permission from their instructors are subject to penalty.

**Falsifying Materials Subject to Academic Evaluation**

Falsifying materials subject to academic evaluation includes, but is not limited to:

- fraudulently manipulating laboratory processes, electronic data or research data in order to achieve desired results
- using work prepared by someone else (e.g., commercially prepared essays) and submitting it as one’s own
- citing a source from which material was not obtained
- using a quoted reference from a non-original source while implying reference to the original source
- submitting false records, information or data, in writing or orally

**Cheating on Assignments, Tests and Examinations**

Cheating includes, but is not limited to:

- copying the answers or other work of another person
- sharing information or answers when doing take-home assignments, tests and examinations except where the instructor has authorized collaborative work
- having in an examination or test any materials or equipment other than those authorized by the examiners
- impersonating a candidate on an examination or test, or being assigned the results of such impersonation

Candidates found communicating with one another in any way or having unauthorized books, papers, or communication devices such as cell phones and PDAs in their possession, will be considered to be in violation of the University Policy on Academic Integrity.

**Aiding Others to Cheat**

It is an offence to help others or attempt to help others to engage in any of the conduct described above.

**Procedures for Dealing with Violations of Academic Integrity**

Procedures for determining the nature of alleged violations involve primarily the course instructor and the Chair or Director of the unit concerned (or, in the case of undepartmentalized faculties, the Dean). Procedures for determining an appropriate penalty also involve Deans and, in the most serious cases, the President. The Chair, Director or Dean (in the case of undepartmentalized faculties) may designate an experienced faculty member (e.g., the course coordinator in multiple-section courses) to fulfill his or her responsibilities in relation to this policy.

**Allegations**

Alleged offences must be documented by the instructor, who must inform the Chair. The Chair shall then inform the student in writing of the nature of the allegation and give the student a reasonable opportunity to respond to the allegation. Normally, this shall involve a meeting between the instructor, the Chair, the student and, if the student requests in advance, another party chosen by the student to act as the student’s adviser.

**Determining the Nature of the Violation**

The Chair shall make a determination as to whether convincing evidence exists to support the allegation.

**Determining Appropriate Penalties**

If there is convincing evidence, the Chair shall inform the Dean of the faculty in which the course is offered (or the Dean of Graduate Studies, in the case of graduate students), who shall then inform the Chair whether the student’s record contains any other confirmed instances of plagiarism or cheating. If there is no record of prior offences, the Chair shall make a determination with respect to the appropriate penalty, using the guidelines provided below.

**Referral to the Dean**

Where there has been a prior offence, the Chair shall forward the case to the Dean (or the Dean’s designate) of the student’s faculty, after having first determined that convincing evidence exists to support the allegation. The Chair may submit a recommendation to the Dean with respect to a proposed sanction. In the case of a first-time offence that is particularly unusual or serious, the Chair may refer the case to the Dean, with a recommendation for a penalty more severe than those outlined below.

**Letters of Reprimand**

Any penalty will be accompanied by a letter of reprimand which shall be written by the authority (Chair, Dean, President) responsible for imposing the penalty. The letter of reprimand shall be sent to the student and copied to Undergraduate or Graduate Records, where it shall be kept until four (4) years after graduation.

**Rights of Appeal**

Students must be given the right to be heard at each stage, and have the right to appeal decisions in accordance with University policy. A student may:

- appeal a decision made by an instructor to the Chair of the department in which the student is registered
- appeal a decision made by the department Chair to the Dean of the faculty in which the student is registered
- appeal a decision made by the Dean or by the President under the provisions of section 61 of the University Act to the Senate Committee on Appeals
In the case of a successful appeal, any penalty will be rescinded and the letter of reprimand shall be withdrawn from Undergraduate or Graduate Records.

Guidelines for Penalties
These guidelines distinguish between minor and serious violations of university policy, and between first and subsequent offences.

Violations Relating to Undergraduate or Graduate Course Work
The following guidelines apply to undergraduate and graduate students.

Plagiarism
Multiple instances of inadequate attribution of sources should result in a grade of zero for the assignment. A largely or fully plagiarized assignment should result in a grade of \( F \) for the course.

Multiple Submission Without Prior Permission
If a substantial part of an assignment submitted for one course is essentially the same as part or all of an assignment submitted for another course, this should result in a grade of zero for the assignment in one of the courses. If the same assignment is submitted for two courses, this should result in a grade of \( F \) for one of the courses. The penalty normally will be imposed in the second (i.e., later) course in which the assignment was submitted.

Falsifying Materials
If a substantial part of an assignment is based on false materials, this should result in a grade of zero for the assignment. If an entire assignment is based on false materials (e.g., submitting a commercially prepared essay as one’s own work), this should result in a grade of \( F \) for the course.

Cheating on Exams
Any instance of impersonation of a candidate during an exam should result in a grade of \( F \) for the course for the student being impersonated, and disciplinary probation for the impersonator (if he or she is a student). Isolated instances of copying the work of another student during an exam should result in a grade of zero for the exam. Systematic copying of the work of another student (or any other person with access to the exam questions) should result in a grade of \( F \) for the course. Any instance of bringing unauthorized material (e.g., crib sheets, written notes on body or clothing) into an exam should result in a grade of \( F \) for the course. Sharing information or answers for take-home assignments and tests when this is clearly prohibited in written instructions should result in a grade of zero for the assignment when such sharing covers a minor part of the work, and a grade of \( F \) for the course when such sharing covers the bulk of the work.

Collaborative Work
In cases in which an instructor has provided clear written instructions prohibiting certain kinds of collaboration on group projects (e.g., students may share research but must write up the results individually), instances of prohibited collaboration on a substantial part of the assignment should result in a grade of zero for the assignment, while instances of prohibited collaboration on the bulk of the assignment should result in a grade of \( F \) for the course.

Repeat Violations
Any instance of any of the violations described above committed by a student who has already committed one offence, especially if either of the offences merited the assignment of a grade of \( F \) for the course, should result in the student’s being placed on disciplinary probation. This decision can only be taken by the Dean of the student’s faculty. Disciplinary probation will be recorded on the student’s transcript. If a student on disciplinary probation commits another offence, this should result in the student’s permanent suspension. This decision can only be taken by the President, on the recommendation of a Dean.

Keeping Records
Violations of academic integrity are most serious when repeated. Records of violations of university policy are kept to ensure that repeat offenders can be identified and appropriately sanctioned. Access to these records is restricted to protect students’ right to privacy.

a) Chairs, Directors and Deans (whichever is responsible for imposing the penalty) will report instances of plagiarism and cheating to Undergraduate or Graduate Records. The student’s file will be marked to indicate that a violation has occurred and the faculty in which the violation occurred, and to note the penalty imposed (i.e., zero for the assignment, \( F \) for the course).

b) Only Deans (or their designates) will have access to information on individual students, and only to check for repeat offences. This information will not be available to instructors, Chairs, or other staff. Administration officers may have access to aggregate information on numbers of offences for purposes of analysis, but in this case the information is to be provided without revealing the names of students.

c) Disciplinary probation will be recorded on the transcripts of students who have committed two or more offences. (Academic probation is a separate status; for details, see “Minimum Sessional Grade Point Average and Academic Standing”, page 39.)

d) Files detailing the nature of the offence are to be retained in either the Dean’s office or the Chair’s office until four years after the student’s graduation.

e) Ordinarily, information on cases of plagiarism and cheating is to be available only to the Dean and only for the purpose of checking for repeat offences. However, in some special circumstances, there may be reasons why faculty members need to have access to this information (e.g., character attestation for purposes of professional accreditation). If a faculty intends to use the files kept by the Dean or Chair for any such purpose, that purpose must be publicly identified by the faculty.

Assessment Techniques
Each department will formally adopt the techniques for evaluating student performance which it considers appropriate for its courses and which allow instructors within the department some options.

Assessment techniques include: assignments; essays; oral or written tests, including midterms; participation in class discussions; seminar presentations; artistic performances; professional practice; laboratory examinations; “open book” or “take home” examinations; and examinations administered by the instructor or Undergraduate Records during final examination periods. Students may be asked to reflect critically on their own work or the work of other students; however, in all courses, instructors are responsible for the determination of grades. Instructors may not assign this responsibility, in whole or in part, to students, other than students appointed as teaching assistants or laboratory assistants under the terms of their appointments.

• Final examinations, other than language orals or laboratory examinations, will be administered during final examination periods.
• Tests counting for more than 15% of the final grade may not be administered:
  • in any regular 13-week term, during the last two weeks of classes or in the period between the last day of classes and the first day of examinations;
  • in any Summer Session course, during the three class days preceding the last day of the course.
• Neither the department nor the instructor, even with the apparent consent of the class, may set aside this regulation.
• An instructor may not schedule any test that conflicts with the students’ other courses or any examination that conflicts with the students’ other examinations in the official examination timetable.
• An instructor may not schedule any test during the last two weeks of classes in a regular 13-week term unless students in the course have been given notice at least six weeks in advance.
• An instructor may not assign a weight of more than 60% of the overall course grade to a final examination without the consent of the Dean of the faculty.

Correction and Return of Student Work
Instructors will normally return all student work submitted that will count toward the final grade, except final examinations.

Instructors are expected to give corrective comments on all assigned work submitted and, if requested to do so by the student, on final examinations.

Where appropriate and practical, instructors should attempt to mark students’ work without first determining the student’s identity.

Course Outline Requirement
Instructors are responsible for providing the departmental Chair and the students in the course with a written course outline at the beginning of the course. The outline must state the course...
content and/or objectives and the following information:
• a probable schedule with the due dates for important assignments and tests
• the techniques to be used to assess students’ performance in the course
• how assignments, tests and other course work will be evaluated and the weight assigned to each part of the course
• the relationship between the instructor’s grading method (letter, numerical) and the official University grading system

Instructors who use electronic media to publish their course outlines should ensure that students who do not have access to the electronic outlines are provided with a printed version. They must file printed versions of their outlines with their department or school.

Instructors who plan to use a plagiarism detection software program to detect plagiarism in essays, term papers and other assignments should include a statement to that effect in the course outline provided to students.

Duplicate Essays and Assignments
A student may submit the same essay or assignment for two courses when both instructors have been informed and have given their written permission to the student.

If a student submits an essay or assignment essentially the same in content for more than one course without prior written permission of the instructors, an instructor may withhold partial or total credit for the course work.

English Deficiency
Term essays and examination papers in any course will be refused a passing grade if they are deficient in English. When an instructor has reasonable grounds for believing a student lacks the necessary skills in written English, the instructor, in consultation with the English department’s Director of Writing, can require the student to write an English Deficiency Examination, if the required term work has not normally been done within ten working days of the due date for the work is after course grades are submitted by the instructor, must submit a formal Request for Academic Concession (RAC). A RAC must always be accompanied by supporting documentation.

An academic concession may be:
• a Deferral of a final examination, test, or other course work;
• an Extended Deferral of this work;
• an Aegrotat (AEG) notation added to a course grade in cases where injury, affliction, or illness affected performance in a completed course, or prevent completion of a course, and a Deferral is not viable;
• a Drop of courses without academic penalty — and possibly without fee penalty — after the published Last Day for Withdrawing.

All RACs, along with supporting documentation, must be submitted to Undergraduate Records. For Deferrals, Aegrotats and Drops this must normally be done within ten working days of the end of the examination period of the term in which the course is taken. For Extended Deferral this must normally be done no later than the deadline set for completion in the initial Deferral.

If a Deferral is granted, any required course work (including exams) must be completed at the latest by the end of the term immediately following the course:
• courses ending in December: completion by the end of the following April;
• courses ending in April: completion by the end of the following August;
• Summer Session courses: completion by the end of the following December.

If deferred work is not completed by the deadline, the final grade for the course reverts to the grade calculated and submitted originally by the instructor on the basis of the work that was completed. A Deferral may be extended beyond the above deadlines only in exceptional circumstances and only with the written permission of the Dean (or designate) of the student’s Faculty of Registration. An additional RAC is required, asking for an Extended Deferral.

If a Request for Academic Concession is denied, a student may appeal as described under “Appeals” on page 40.

A student who completes all course requirements is not eligible for an academic concession. Exceptions will only be considered by the Dean (or designate) of the student’s Faculty of Registration if there is supporting documentation that the student was not medically or otherwise fit to make a decision on whether or not to complete the work. The RAC must be submitted to Undergraduate Records as soon as possible after completion of the work and before the results are known.

Examinations in the Winter Session are held in December and April. Timetables are posted at the Undergraduate Records website <registrar.uvic.ca> by the end of October for first-term exams (December), and by the end of February for second-term exams (April). Students should wait until the final examination timetable is posted before making travel or work plans.

Regulations Governing Administration of University Examinations
Identification, entering and exiting the examination
• Candidates may not enter the examination room until invited to do so by the invigilator in charge.
• Candidates may not enter the examination room after the expiration of one half hour, nor leave during the first half hour of an examination.
• Candidates may not leave the examination room without delivering their examination booklets to the invigilator.
• Candidates leaving or entering examination rooms should do so quietly in order not to disturb others and are asked not to gather in adjacent corridors, lest they disturb candidates who are still writing.
• Invigilators may require candidates to remain quietly in their seats for the last 15 minutes of the examination.
• Candidates may be called upon by an invigilator to produce a UVic Student Identity Card.

Permitted/Restricted materials
• Candidates may not have any materials or equipment that are not provided by the invigilators or authorized by the instructor in charge of the course, or have communication devices such as cell phones and PDAs in their possession.
• Candidates are advised not to write extraneous material in examination booklets.
**Communication during the examination**

- Candidates may not communicate in any way with each other.
- Candidates who wish to speak to the invigilator should raise their hand or rise in their place.
- Candidates are not permitted to ask questions of the invigilator, except in cases of supposed errors in the papers.
- A candidate who believes that an error has been made in a paper should report it immediately to the invigilator and, after the examination, report the error in writing to Undergraduate Records. If there are other reasons for complaint, the candidate should communicate with that office within 24 hours.
- Candidates are responsible for reporting distractions, such as repetitive or excessive noise, to the invigilators without delay.
- In cases of extreme misconduct, invigilators are empowered to expel candidates from an examination room. Under such circumstances, candidates may be required to withdraw from the University following an investigation of circumstances surrounding the misconduct.

**Illness or family affliction**

- Candidates who fall ill during an examination should report at once to the invigilator.
- Candidates who fall ill or suffer an accident or family affliction before an examination should report the circumstances immediately to Undergraduate Records and submit a request for Academic Concession.

**Deferred Status**

A student who becomes ill during a final examination, or misses a final examination because of injury, family or personal affliction, or illness may be eligible for an Academic Concession resulting in a Deferral of the examination, or an Augrotest (AEG) notation. (For Academic Concessions relating to coursework other than final examinations, see “Academic Concessions”, page 35.)

A student should immediately consult University Counselling Services, University Health Services, or another health professional, and must apply for a Deferral of the examination, or an Augrotest (AEG) notation, by completing a formal Request for Academic Concession (RAC). The RAC must be accompanied by supporting documentation, and must be submitted to Undergraduate Records, normally within ten working days of the end of the examination period of the term in which the course is taken.

Undergraduate Records will ask the instructor to consider the request. If a Deferral is not approved, the instructor will submit a final grade. A student may appeal as described under “Appeals” on page 40.

Where the instructor does not give a deferred examination but assigns a final grade based on an assessment of the student's performance on the completed course work, the grade will appear on the student's record with an Augrotest (AEG) notation (see "Grading", page 37).

If a Deferral is granted, the final examination must be completed at the latest by the end of the term immediately following the course:
- courses ending in December: completion by the end of the following April;
- courses ending in April: completion by the end of the following August;
- Summer Session courses completion by the end of the following December.

Deferred Exams for courses in the Bachelor of Engineering or Bachelor of Software Engineering programs will be written approximately four months following the deferral of the exam.

For courses that finish in December and are prerequisite to courses starting in January, deferred final examinations are normally held by the end of the first two weeks in January.

For courses that finish in April, deferred final examination may be scheduled either by the department or by Undergraduate Records. Deferred final examinations scheduled by Undergraduate Records are normally held the last three (3) working days of July. Undergraduate Records will send an email regarding deferred examinations, with a link to the Application to Write Undergraduate Deferred Examinations. The student must fill out the application and return it to Undergraduate Records, accompanied by the necessary fees, by the end of the third week in June. Deferred final examinations organized through Undergraduate Records may be written at the University as well as at various centres inside and outside British Columbia (locations are normally restricted to universities or colleges). The fee for each off-campus deferred exam is $60.00. There is no fee for deferred exams written on-campus.

If deferred work is not completed by the deadline, the final grade for the course reverts to the grade calculated and submitted originally by the instructor on the basis of the work that was completed.

A Deferral may be extended beyond the above deadlines only in exceptional circumstances and only with the written permission of the Dean (or designate) of the student's Faculty of Registration. An additional RAC is required, asking for an Extended Deferral (see “Academic Concessions”, page 35).

Students in the BEng program should consult the Faculty of Engineering regulations with respect to the timing of deferred exams.

Students in their graduating year must, upon approval of a Deferral for a final examination, contact the Records Officer for their Faculty of Registration (c/o Undergraduate Records) immediately to discuss the timing of the final grade submissions in relation to the dates of Faculty degree approval and their graduation eligibility.

**Student Access to Final Examinations**

All final examinations are stored in the departmental office or in Undergraduate Records for 12 months after the official release of grades, except when a review of an assigned grade or an appeal to the Senate Committee on Appeals is in progress. In the case of a review of an assigned grade, the relevant material will be kept for a further six months. In the case of an appeal to the Senate, the relevant material will be kept for six months after a final decision has been reached.

Students are permitted access to final examination questions and their own answers on request to their instructor or departmental Chair after the grades have been submitted to Undergraduate Records by the department. This access to the final examinations does not constitute a request for a review of an assigned grade. Students wishing to have grades reviewed should follow the procedure outlined under “Review of an Assigned Grade”, page 37. Students are allowed to purchase a photocopy of their own final examination answer papers and, unless withheld by the instructor with the agreement of the departmental Chair, of the final examination questions.

**Undergraduate Supplemental Examinations**

The following regulations apply to students in all programs except BCom, BEng, BSEng, JD, master’s and doctoral programs (see regulations of the Faculties of Engineering, Law or Graduate Studies, as appropriate).

Supplemental examinations are not offered by all departments. Students will be advised whether a supplemental examination will be offered when assessment techniques are announced at the beginning of a course.

Where supplemental examinations are permitted by a department, they are governed by the following regulations:
- Students may apply to write a supplemental examination in a course only if they have written a final examination and have received a final grade of E in the course.
- Students taking 15 or more units in the Winter Session will be granted supplemental examinations only if they have passed at least 12 units of courses in that session. The maximum number of units of supplemental examinations allowed is normally 3. However, the Dean of the student's faculty may authorize supplemental examinations in an additional 3 units if the student will complete a degree by passing all the supplemental examinations granted.
- Students enrolled in Summer Session courses or taking fewer than 15 units in the Winter Session may be granted supplemental examinations for no more than 3 units; each case will be judged on the basis of the student's overall standing by the Dean of the student's faculty.
- A student in the final year of a degree program who obtains a failing grade in a supplemental examination may be granted a second such examination, at the discretion of the Dean of the student's faculty, if a passing grade in the second examination will complete the student's degree requirements.
- A student who obtains a grade of E in a course completed in December may, if eligible, either repeat the course in the second term if it is offered or write a supplemental examination in late July.
- Any passing grade obtained on a supplemental examination will be shown in the student's academic record with a grade point value of 1, corresponding to a D, and will be taken into account in determining the student's graduating average and standing at graduation, but will not affect the student's sessional grade point average.
- Supplemental examinations cover only the course work covered by written final examinations. If there was no written final examination in the course, or if a passing grade in a supplemental examination will not yield an overall
passing grade in the course, a supplemental examination will not be provided.

- Supplemental examinations for Summer Session courses and for courses taken by students who are in attendance only during the first term of the Winter Session are arranged in consultation with the department or school that grants them. Supplemental examinations for all other courses taken in the Winter Session are written about the end of July.

- Students who fail to write a supplemental examination at the scheduled time forfeit both their eligibility and any fees paid for the examination.

- Supplemental examinations for courses taken during the first term of the Winter Session or during the Summer Session are scheduled by arrangement through the department.

- If the supplemental examination is not to be handled through the department, arrangements will be made through Undergraduate Records.

The student will be notified by email regarding the supplemental exam, with a link to the supplemental examination application. The student must fill out the application online and return it to Undergraduate Records, accompanied by the necessary fees, by the end of the third week in June. Also, the application to write a supplemental exam is accessible online at <registrar.uvic.ca/undergrad/records/forms/forms.html>.

- Supplemental exams organized through Undergraduate Records are held on the last three working days of July each summer.

- Supplemental examinations organized through Undergraduate Records may be written at the University as well as at various centres inside and outside British Columbia (locations are restricted to universities or colleges).

- The fee for each supplemental examination is $50 on campus and $60 off campus.

**Grading**

A primary purpose of evaluation and grading is to further effective teaching and learning. Any practices which assign a predetermined percentage of students a specific grade, that is, a certain percentage get A, another percentage get B and so on, without regard to individual achievement are prohibited.

The table on the next page shows the official grading system used by instructors in arriving at final assessments of student performance. For letter grades authorized for use in the Faculty of Law, see the entry under that faculty.

**Numerical Scores**

A department may allow instructors to use numerical scores, where appropriate, but each numerical score or mark must in the end be converted to a letter grade. Where a department authorizes the use of a numerical system in its courses, instructors are responsible for informing students of the relationship between the departmental numerical system and the University letter grade system.

**Grade Submission Deadlines**

Excluding the University Christmas closure period and the Easter closure period (if applicable)

- Seven (7) calendar days after the end of classes for courses that do not have a final examination as noted in the calendar.

**Seven (7) calendar days after the examination is written for those courses that have a final examination.**

In cases where there is no final examination and the due date for the last assignment is after the last day of classes, the grades should be submitted seven (7) calendar days after the due date for the assignment.

**Release of Grades**

Instructors are permitted to release final grades informally to students in their classes, on request, as soon as the grades have been forwarded to Undergraduate Records by the school or department.

Student records are confidential. Instructors may release grades only to the student concerned, unless they have the student’s permission to release the grades to a third party. Where grades are posted, only student numbers will be shown. Students are given the option at the beginning of a course to not have their grades posted.

- Students’ grades are available through “My page” <www.uvic.ca/mypage>.

First-term results for full-year courses are released by instructors, not by Undergraduate Records.

**Review of an Assigned Grade**

Reviews of assigned grades, for either part of or all of a course, are governed by the following regulations, subject to any specific procedures established by individual faculties. Students should visit their faculty website or their faculty Dean’s office to obtain those procedures concerning grade reviews.

Please refer to “Evaluation of Student Achievement”, page 34; “Student Access to Final Examinations”, page 36; and Release of Grades, above.

- Before applying for a formal review of a grade as outlined below, students should make every effort to discuss and/or submit a written appeal about the assigned grade with the instructor (see individual faculty procedures).

- If the instructor or Chair/Director does not agree to a review of the grade, then a formal request for review of a grade, including the grade review fee of $25, may be submitted to Undergraduate Records, normally within 21 days of the release of grades.

- Students must keep all written work returned to them by the instructor during the term and make any work available that forms part of the grade to be reviewed. Undergraduate Records will make available completed final examinations when necessary.

- Undergraduate Records will send all materials involved in the grade review to the department Chair/Director, who will then arrange an independent evaluation of the grade (see individual faculty procedures).

- The grade determined by means of a review will be recorded as the final official grade, regardless of whether it is the same as, higher than or lower than the original grade.

- Students considering a review request should note that examination papers graded E or F (and D in some faculties) are automatically read at least a second time before the grades are recorded. For that reason, an applicant who is eligible for a supplemental examination should prepare for the examination in case a change in grade is not available before the time of the supplemental examination.

- Requests for review or other consideration based on compassionate grounds such as illness are governed by separate regulations (see the entry “Academic Concessions”, pages 35 and the entry “Deferred Status”, page 36).

**Grades for Term Work**

During the session, students who believe that a grade awarded for term work is unfair should discuss the matter informally with the instructor concerned. If discussion with the instructor fails to resolve the matter, the student may appeal directly to the Chair/Director or designate of the department or school.

**Transcript of Academic Record**

On request of the student, a certified transcript of the student’s academic record can be sent by Undergraduate Records directly to the institution or agency indicated in the request. Each transcript will include the student’s complete record at the University to date. Since standing is determined by the results of all final grades in the session, transcripts showing official first-term grades are not available until the end of the session, unless the student has attended the first term only.

Students’ records are confidential. Transcripts are issued only at the request of students. All transcript requests must be accompanied by payment (see “Miscellaneous Fees”, page 44). Transcripts will be issued within five working days after a request is received by Undergraduate Records, unless a priority request is made. For more information and to order a transcript, access <registrar.uvic.ca>.

Transcripts will not be issued until all financial obligations to the University have been cleared. Students who require proof of degree completion prior to convocation can request a letter from Undergraduate Records.

**Standing**

**Sessional Grade Point Average**

The sessional grade point average is based on all courses completed in a session which have a unit value. Courses bearing the grade COM, N/X, or F/X are not included in the calculation of the grade point average.

A grade point average is found by multiplying the grade point value of each final grade by the number of units, totalling the grade points for all the grades, and dividing the total grade points by the total number of units.

**Cumulative Grade Point Average**

*Undergraduate, excluding Law:*

Since September 1992 the cumulative grade point average, which normally appears at the end of a transcript, is based on courses taken or challenged in session(s) where a final sessional grade point average has been determined. Excluded courses are those with grades of COM, F/X, N/X; courses taken on exchange since 2003 Summer; undergraduate supplemental grades.

*Law:*

The Law cumulative grade point average, which normally appears at the end of a transcript, is

<td>Aegrotat. Transcript notation accompanying a letter grade, assigned where documented illness or similar affliction affected the student’s performance or prevented completion of all course work.</td>
</tr>
</tbody>
</table>

* These percentage ranges are standardized and will be used by all instructors in determining letter grades effective May 2012.

The percentage is not recorded on the student academic record or displayed on the student official transcript; the official 9 point grading system and letter grades are displayed on the academic record and official transcript.

The University Senate has approved transition from the 9 point grading system to a percentage grading system and the implementation is planned to take effect May 2014.
based on courses taken in sessions where a final sessional grade point average has been determined except where a revised grade point average exists. In these cases the revised GPA is used. Excluded courses are those with grades of COM, F/X, N/X.

**Undergraduate, including Law:**
If a student takes courses beyond a first undergraduate degree, or transfers to the JD program, a further cumulative grade point average will be calculated excluding those courses completed prior to the granting of the first degree or entry to the JD program.

**Minimum Sessional Grade Point Average and Academic Standing**
The following regulations apply in all faculties and all sessions, including the Summer Session. Undergraduates must maintain a sessional grade point average of at least 2.0 (or equivalent if a UVic student takes courses elsewhere for credit towards a UVic program).

**University Probationary Status**
Students whose sessional grade point average is 1.00 to 1.99 (regardless of registered course load) are considered to have unsatisfactory standing and will be placed on academic probation for the next session attended. Students should note that individual faculties may require a higher sessional grade point average. Failure to achieve the faculty grade point average requirement will result in the student being placed on faculty probation.

Undergraduate Records will notify students that they have been placed on probation through the addition of a notation to their academic record. Students on probation should contact the appropriate Advising Centre or Counselling Services for assistance, or take the Learning Skills Course or other workshops offered by Counselling Services.

Students who are on academic probation and who achieve a sessional grade point average of 2.0 or above at UVic will clear their probation status at the end of the session, except as noted below.

Students registered in less than 4.5 units in a session whose grade point average is less than 1.0 (or equivalent if a UVic student takes courses elsewhere for credit towards a UVic program) will be placed on “Dean’s” probation. The Dean of the faculty concerned will review the student’s record for the next session attended rather than being required to withdraw. The student will be informed of the Dean’s decision.

**Under these circumstances, a student who is placed on probation and who then obtains a grade point average of 2.0 or greater in the next session will not be taken off probation automatically.** Students who are on probation, or whose standing is withheld in their most recent session because of deferred status, are not eligible for reregistration until their sessional grade point average for the latest deferred session has been determined as satisfactory, except as noted below.

If a student’s projected sessional grade point average for the latest deferred session, including a grade of 0 for all deferred courses or outstanding grades, was determined to be above the minimum by the faculty concerned, the student will be authorized to register. The projected grade point average is calculated at the end of the session when the deferred standing is assigned. The projected grade point average does not appear on a student’s academic record.

Depending upon a student’s performance during the period of probation, the Dean may at any time either remove the student from probation for the remainder of the session or, acting on a decision of the faculty, require that the student withdraw from the University (see “Withdrawal”, page 39.)

**Requirement to Withdraw from the University**
A student who is on academic probation, including both University and Dean’s Probation, and whose Winter sessional or Summer sessional grade point average falls below 2.0 (or equivalent if a UVic student takes courses elsewhere for credit towards a UVic program) will have failed to clear their probation status. These students will be required to withdraw regardless of the registered unit total, normally for one academic year.

Students registered in 4.5 units or more in a session whose grade point average is less than 1.0 (or equivalent if a UVic student takes courses elsewhere for credit towards a UVic program) will be required to withdraw, normally for one academic year. If a student has started courses in the current session before receiving notice of unsatisfactory standing in the most recent session, registration for courses in the current session will remain on the student’s record, but the student will be required to withdraw following completion of the course(s), normally for one academic year. Registration in courses that have not started by the time the required to withdraw standing is determined will be dropped automatically.

A student who is required to withdraw a second time will not normally be permitted to register for credit courses at the University for at least three academic years.

All students who have been required to withdraw must apply to reregister if they wish to resume studies at the University. Permission to reregister will normally be granted to students who have:

1. completed the required withdrawal period; and
2. since their last registration at UVic, completed a minimum of 6.0 units of transferable non-duplicate course work with a C+ (3.0) average in ALL transferable courses attempted, including currently in-progress course work. All students returning after a requirement to withdraw will be placed on probation for the next session attended.

Students who have grounds for appeal as noted under “Appealing Admission/Reregistration Decisions”, page 22, may appeal to the Senate Committee on Admission, Reregistration, and Transfer, stating why they should be considered for reregistration.

A student who is permitted to reregister following a requirement to withdraw will be on academic probation for the duration of the session in which UVic studies are resumed.

**Withdrawal for Unsatisfactory Progress**
Undergraduate students who have been placed on probation and whose progress is considered unsatisfactory may be required by their faculty to withdraw from the University for the remainder of the session. Students required to withdraw for unsatisfactory progress will be notified by Undergraduate Records. Students may request a review by the Senate Committee on Admission, Reregistration and Transfer by lodging a written appeal with the Committee, c/o Records Officer, Undergraduate Records.

**Voluntary Withdrawal**
An undergraduate student who after registration decides to withdraw from the University must notify Undergraduate Records. Students are encouraged to visit Counselling Services to discuss their decision and their Faculty Advising Centre to discuss their academic status and prospects before going to Undergraduate Records. Also, see “Academic Concessions”, page 35. Students in the Faculty of Law should speak with the Dean. Students who are unable to withdraw in person must do so by letter addressed to Undergraduate Records.

Note: A sessional grade point average and academic standing are assigned at the end of the session and are based on final grades awarded (including N grades) in the session or term attended. Please see the calendar entry “Minimum Sessional Grade Point Average and Academic Standing”, page 39, for information regarding minimum sessional grade point average standards.

Students must obtain clearance from the University, to the satisfaction of Undergraduate Records, before being recommended, where applicable, for a fee refund. Summer Session students should refer to the Summer Session Calendar.

**Graduation**

**Application for Graduation**
The University Senate grants degrees in October and May each year prior to the awarding of degrees at convocation ceremonies in November and June, respectively. Candidates for a degree, diploma or certificate must submit a formal application for graduation when registering in the final Summer or Winter Session before their anticipated graduation. The application deadlines are July 1 for November convocation and December 1 for June convocation. Application forms for graduation are available from Undergraduate Records or can be requested at their website <registrar.uvic.ca>.
Because of the delay in obtaining official transcripts, students completing their degree requirements at another institution during the second term of the Winter Session (January-April) are not eligible to graduate at June convocation. They must apply for a succeeding convocation.

Please note that once a degree, diploma or certificate has been awarded by the University Senate, no changes can be made to the programs that constitute that credential nor can the degree, diploma or certificate be rescinded at the request of the student. For instance, a student may not undertake completion of additional course requirements to qualify for a different credential, such as adding a Minor program to an awarded degree or changing an awarded BA in Geography to a BSc degree in Geography, or changing an awarded BA Major to a BA Honours.

Minimum Degree Requirements for Graduation

Each candidate for a first bachelor's degree (in a faculty other than Law) is required:

- to have satisfied the "Academic Writing Requirement", page 31
- to present credit in a minimum of 60 units of university level courses numbered 100 and above; at least 21 of the units must be numbered at the 300 or 400 level; at least 18 of the 300 or 400 level units must be UVic courses, and at least 30 of the units must normally be UVic courses. (Post-diploma nursing students are advised to refer to the regulations specific to the School of Nursing; see "Minimum Degree Requirements", page 120.)
- to meet the specific degree and program requirements prescribed by the undergraduate faculty in which the candidate is registered
- to have a graduating grade point average of at least 2.0

*Important:* Credit awarded for a co-op work term cannot be used in satisfaction of the minimum degree requirements of 60 overall/30 UVic/21 senior units. Co-op work term credit is recognized ONLY in fulfillment of the co-op program work term requirement.

Standing at Graduation

Graduating Average

The graduating average of a student in a bachelor's degree program (other than BEng, BSEng, and Law) will be determined as the weighted average of the grade values assigned to 300 and 400 level (and in Education 700 level) courses (other than COM-graded courses) taken or challenged at UVic. Courses at the 500 level may be included in the graduating average if they are accepted as credit towards the undergraduate degree.

A course which has been used to satisfy the requirements for one degree, or which has been used in the calculation of the student's graduating average for one degree, cannot be used for credit towards another degree.

With Distinction

The notation “With Distinction” will appear on the degree parchment, the conviction program and the transcript for each student whose graduating average GPA is in the top 20% of those graduating in her or his academic unit (“the 20% threshold GPA”).

The “With Distinction” designation is not available in the Faculty of Law, the Faculty of Graduate Studies or the Division of Continuing Studies.

All graduating students in each academic unit – those graduating in Honours, Major and General programs only – are included in a single pool from which the 20% threshold GPA is calculated, and all are eligible for the “With Distinction” designation.

Calculation of the 20% threshold GPA is made at the time that conviction lists are generated for the Spring convocation, except in the Faculty of Business where Fall Convocation is the basis for the 20% threshold GPA calculation.

- Students who graduate in a Fall convocation will be given the “With Distinction” designation if their graduating average GPA meets the 20% threshold GPA calculated for the previous Spring convocation; a separate 20% calculation is not normally performed, but the University reserves the right to conduct a separate calculation for Fall convocations.

- In the Faculty of Business, calculations for the 20% threshold GPA are made at the time that conviction lists are generated for the Fall convocation, and the same graduating average GPA shall normally be used for the subsequent Spring convocation.

- Students whose names are added to the conviction lists after they are generated will be given the “With Distinction” designation if their graduating average GPA is equal to or exceeds the 20% threshold GPA calculated either at the time of generation or (in the case of Fall convocations in faculties other than the Faculty of Business and Spring convocations in the Faculty of Business) carried forward from the previous convocation.

In the Faculty of Education, calculations are performed separately for each of the following programs:

- BA Recreation and Health Education;
- BSc Kinesiology;
- BED (Elementary Curriculum);
- BED Elementary Post-Degree Professional Program;
- BED (Secondary Curriculum);
- BED Post-Degree Professional Program (Secondary);
- BED Post-Degree Professional Program (Middle Years).

Where the total number of students graduating in an academic unit (and, where applicable, in a degree type) in the Spring convocation is less than 20, the “With Distinction” designation is awarded on the basis of a 20% threshold GPA calculated including all units in the faculty. For students enrolled in a general, double or combined program (Honours and Major, Double Major, Combined Major, Joint Programs), the achievement of “With Distinction” in one program shall be sufficient for the award of the designation.

Graduation Ceremonies

The formal conferral of degrees takes place at a convocation ceremony in the fall and spring each year.

To qualify as candidates for graduation in the fall (November) convocation, students must have finished their UVic course work by the end of August. Students completing final requirements considered for fall convocation.

To qualify as candidates for graduation in the spring (June) convocation, students must have completed their UVic course work by the end of April. Students completing final requirements in the May sequence of the Summer Session cannot be considered for spring convocation.

Graduates receive a full diploma and their degree parchment, the convocation program and the transcript for each student whose graduating average GPA is in the top 20% of those graduating in her or his academic unit (“the 20% threshold GPA”).

The “With Distinction” designation is not available in the Faculty of Law, the Faculty of Graduate Studies or the Division of Continuing Studies.

All graduating students in each academic unit – those graduating in Honours, Major and General programs only – are included in a single pool from which the 20% threshold GPA is calculated, and all are eligible for the “With Distinction” designation.

Calculation of the 20% threshold GPA is made at the time that conviction lists are generated for the Spring convocation, except in the Faculty of Business where Fall Convocation is the basis for the 20% threshold GPA calculation.

- Students who graduate in a Fall convocation will be given the “With Distinction” designation if their graduating average GPA meets the 20% threshold GPA calculated for the previous Spring convocation; a separate 20% calculation is not normally performed, but the University reserves the right to conduct a separate calculation for Fall convocations.

- In the Faculty of Business, calculations for the 20% threshold GPA are made at the time that conviction lists are generated for the Fall convocation, and the same graduating average GPA shall normally be used for the subsequent Spring convocation.

- Students whose names are added to the conviction lists after they are generated will be given the “With Distinction” designation if their graduating average GPA is equal to or exceeds the 20% threshold GPA calculated either at the time of generation or (in the case of Fall convocations in faculties other than the Faculty of Business and Spring convocations in the Faculty of Business) carried forward from the previous convocation.

In the Faculty of Education, calculations are performed separately for each of the following programs:

- BA Recreation and Health Education;
- BSc Kinesiology;
- BED (Elementary Curriculum);
- BED Elementary Post-Degree Professional Program;
- BED (Secondary Curriculum);
- BED Post-Degree Professional Program (Secondary);
- BED Post-Degree Professional Program (Middle Years).

Where the total number of students graduating in an academic unit (and, where applicable, in a degree type) in the Spring convocation is less than 20, the “With Distinction” designation is awarded on the basis of a 20% threshold GPA calculated including all units in the faculty. For students enrolled in a general, double or combined program (Honours and Major, Double Major, Combined Major, Joint Programs), the achievement of “With Distinction” in one program shall be sufficient for the award of the designation.

Surplus Credit Allocation with Dean’s Permission

Students who have completed or plan to complete more than the minimum upper-level requirements for their first degree with the intention of applying the additional course work towards the requirements of a second degree, must seek the permission of the Dean of their faculty or their faculty advising centre at least two months before graduating from their first degree program to confirm that they will be able to include these courses in their second degree program.

Second Bachelor’s Degrees

Students with a bachelor's degree from UVic or another recognized institution may be admitted to a second bachelor's degree program if they meet the admission requirements (see “Second Bachelor’s Degrees”, page 40), and the following conditions:

- At least 30 units of credit must be completed in addition to the units required for the first degree; normally, 21 of these 30 must be UVic courses at the 300 or 400 level. If the first degree was completed elsewhere, all 30 units must be completed at UVic.

- The student must meet all program and graduation requirements for the second degree beyond those required for the first degree.

Students who expect to apply courses towards a second degree should check with the Dean or advising centre of the faculty at least two months before graduating from their first degree program to confirm that they will be able to include these courses in their second degree program.

Appeals

Students who have grounds for believing themselves unjustly treated within the University are encouraged to seek all appropriate avenues of redress or appeal open to them.
Academic Matters

Academic matters are the responsibility of course instructors, departments, faculties and the Senate.

Depending on the nature of the academic matter of concern to the student, the order in which the student should normally try to resolve the matter is: first, the course instructor; second, the Chair of the department; third, the Dean of the faculty; and finally, the Senate. In addition, the student may wish to consult the UVSS Ombuds-person (see page 18). A student seeking a formal review of an assigned grade should consult the regulations under “Review of an Assigned Grade” page 37.

Appeals to the Senate

Once all the appropriate recourses have been exhausted, a student may have the right of final appeal to the Senate Committee on Appeals.

The Senate Committee on Appeals is an impartial final appeal body for students at the University of Victoria. In accordance with the University Act, the Senate has delegated to the Senate Committee on Appeals the authority and responsibility to decide, on behalf of the Senate, all final appeals from students involving the application of academic regulations and requirements. The Senate Committee on Appeals has no jurisdiction to consider a decision where the sole question in a student’s appeal turns on a question of academic judgment. Prior to filing an appeal with the committee, a student must have pursued and exhausted all other reviews, appeals or remedies provided by the University of Victoria's undergraduate and graduate calendars or by the policies or regulations of the student's faculty.

The deadline for filing an appeal before the Senate Committee on Appeals is two months from the final decision, action or treatment being appealed. Students who wish to file an appeal with the Senate Committee on Appeals must complete a Notice of Appeal form available from the Office of the University Secretary or online at <www.uvic.ca/universitysecretary/ senate/appeals>.

For more information on submitting or responding to a student’s appeal to Senate, please refer to the Senate Committee on Appeals’ Terms of Reference and the Procedural Guidelines available at <www.uvic.ca/universitysecretary/senate/appeals> or contact the Office of the University Secretary at this address:

Office of the University Secretary
Room A138, Administrative Services Building
Phone: 250-721-8101
Email: usec3@uvic.ca
Website: <www.uvic.ca/universitysecretary>

Petitions

Students whose circumstances are such that an academic regulation appears to cause them undue hardship are encouraged to consult their university advising centre or departmental Chair to determine whether the regulation is subject to waiver by the Dean of the faculty on petition by a student. The Dean’s decision in such matters is final, subject to review by the Senate Committee on Appeals on grounds of specific procedural error (see above).

Undergraduate Tuition and Other Fees

Students, parents and sponsors are advised that the following tuition fees have been approved by the Board of Governors for the 2012-2013 academic year. Please note, however, that ancillary fees may still change.

General Regulations

Students should note that the University reserves the right to change fees without notice. The University will give notice of any changes as far in advance as possible by means of a Calendar Supplement.

Student Responsibilities

- Students become responsible for their course or program fees upon registration. These fees may be adjusted only if a student officially drops courses, withdraws, cancels registration or changes status.
- Students are responsible for knowing in which courses they are registered. Students are required to formally drop courses, most often by using <www.uvic.ca/mypage>, rather than rely upon instructors to drop them due to non-attendance.
- Students waitlisted for courses are responsible for monitoring their registration status with both instructors and “My page”. Using “My page”, students should recheck their registration. The courses listed on the system are those for which the student will be assessed fees.
- Students are also responsible for determining their fees, either from the Calendar and any

3. Nine courses x 1.5 fee units plus one course.
4. For Law students, full time is defined as 6 or more units per term.
5. Half of these fees are charged in each term.
6. Full year Health Plan fees are charged in the first term.
7. The $200.00 acceptance deposit paid by new students is applied towards the amount due September 30.
calendar supplements or through the UVic website (see address below).
- See also “Duplicate and Mutually Exclusive Courses”, page 32.

Fee Accounts
The fees for a term comprise:
1. full tuition for term courses taken that term
2. one half tuition for full year courses/programs taken that term
3. any other fees assessed for that term

Statements of account are not mailed to students. Students may view their account balances at <www.uvic.ca/mypage>

Students unable to obtain their tuition fee information from “My page” may call 250-721-7032 or 1-800-663-5260

Proceeds of undergraduate awards received or granted by the University are credited to fee accounts.

First-term overpayments and other credits in excess of term fees are applied to unpaid accounts or to the next term if a student is registered in the following term. Any remaining credit balance for a term is refunded on request.

Tuition fees for credit courses are exempt from the Harmonized Sales Tax (HST), but HST may be required on other fees.

Payment Due Dates
Fees are due by the following dates:
- First term: September 30
- Second term: January 31

Any additional fees owing as a result of changes in a student’s registration are due by the end of the month in which the changes are made.

Payments must be received by the Accounting Services office by 4:00 pm on the due dates (or on the preceding work day if the due date falls on a holiday or weekend). Students should note that web banking payments will be accepted until midnight on due dates.

Students are responsible for making their payment by the due date whether or not they received a statement of account.

Students who have not paid their full fees by October 31 in the first term and February 28 in the second term may have their course registrations cancelled and be denied other services.

Making Payments
Students are asked to make their payments by Internet or telephone banking, or debit card. Due to commission rates, tuition fee payments cannot be made by credit card.

Students paying through Internet or telephone banking should allow at least 48 hours for funds to be transferred to Accounting Services.

Students may also send their payment by mail, with the cheque or money order (do not mail cash) made payable to the University of Victoria to: University of Victoria Accounting Services, Tuition Fees Box 3040 STN CSC Victoria BC V8W 3N7

Students may pay in person at the Tuition Fees Counter, first Floor, University Centre, but are reminded that queues will be long just before due dates.

Students should ensure that their student number and the term (e.g., 201209) are written on the face of their cheque.

Overdue accounts
A service charge of 1.5%, annualized at 19.56% is added to accounts not paid by their due date, at each month end.

Students with overdue tuition or other accounts may be denied services, including: registration; the addition of courses through “My page”; the use of libraries and athletic and recreation facilities; access to classes and examinations; and receipt of loans, awards, grades, transcripts, degrees and documents certifying enrolment or registered status.

Students who have their registration cancelled for failing to pay their fees by a due date, or who withdraw or otherwise leave the University, remain liable for unpaid accounts. The University may take legal action or use collection agencies to recover unpaid accounts. Legal and collection costs incurred by the University in this process are added to a student’s account.

Tuition receipts
Tuition receipts (T2202As) are issued in February for the preceding calendar year. These forms are available on-line through <www.uvic.ca/mypage>.

Fee Reductions
To obtain fee reductions, students must drop courses through “My page” or by submitting written notice of changes in registration to Undergraduate Records when they take place.

Where fee reductions are granted, they will be based on either the date recorded in the "My page" registration log, or the date on which written notice is received.

Students should not rely upon instructors to drop them from courses. Students are strongly urged to recheck their course registration status at the registration site <registrar.uvic.ca> before the full fee reduction deadlines, particularly if they have made course changes or been waitlisted.

Please note that deadlines for obtaining fee reductions are different from course drop deadlines for academic purposes.

Standard Course Drop Dates
The following fee reductions apply to undergraduate students and auditors enrolled in undergraduate courses. Please note that acceptance deposits are not refundable.

For first-term courses and the first half of full-year courses:
- On or before:
  - September 18: 100%
  - October 9: 50%
For second-term courses and second half of full-year courses
- On or before:
  - January 16: 100%
  - February 6: 50%

Non-Standard Course Dates
Check Online Timetable: <www.uvic.ca/timetable>

NOTE: The table below is used in calculating refund dates for non-standard date courses.

<table>
<thead>
<tr>
<th>100% Reduction Deadline and Add Deadline</th>
<th>50% Reduction Deadline</th>
<th>Academic Drop Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>15% of duration of course</td>
<td>38% of duration of course</td>
<td>66% of duration of course</td>
</tr>
</tbody>
</table>

After the Add Deadline (same date as the 100% Reduction Deadline) a request to add a course must be submitted on an Undergraduate Course Change Form to Undergraduate Records; approval is not automatic.

After the Academic Drop Deadline, to drop a course a Request for Academic Concession (RAC) form must be submitted to Undergraduate Records; approval is not automatic.

Failing grade will be assigned to any course that is not formally dropped by the date specified and a standing of Required to Withdraw will be assigned if the sessional GPA falls below the minimum.

Undergraduate tuition fee reduction deadlines - fee reductions are NOT the same as academic drop deadlines.

Other Fee Reductions
Please note that Ancillary Fees are not reversed when courses are dropped in the 50% drop period.

Fee Reduction Appeals
Students who believe a course drop has not been properly entered in their student record should contact Undergraduate Records. Students who believe a fee reduction has not been correctly entered in their fee account should contact Accounting Services. In extenuating circumstances involving Academic Concessions, such as illness, family affliction or accident, appeals should be made at the appropriate Advising Centre. If, following such action, a fee reduction issue remains unresolved, the student may submit an appeal, with appropriate documentation, to the Fee Reduction Appeals Committee, c/o Manager, Tuition Fee Assessments, Accounting Services, 1st Floor, University Centre.

Fees for Undergraduate Programs
The “Sample Fees” table shows examples of the fees for first-year students who are taking five on-campus courses in each term of the Winter Session.

Acceptance Deposit
Undergraduate students admitted for the first time to take credit courses must pay an acceptance deposit of $200.00 to Accounting Services 24 hours before gaining access to “My page”. This deposit is payable regardless of any loan, scholarship or sponsorship arrangements. It is applied to the student’s fee account, but is forfeited if the student withdraws. If the deposit payment is returned NSF, the student’s registration will be cancelled.

Faculty of Education: Teacher Education Programs (Elementary and Secondary)
An acceptance fee of $150.00 is required from all students upon their acceptance of a place in the teacher education programs. This fee will be
credited towards student fees at the beginning of the program. A student who withdraws from the program more than 30 days before the start date of the program will be refunded $100.00 of the acceptance deposit. A student who withdraws from the program within 30 days of the start date of the program will receive no refund.

**Co-op Work Term Challenge (1 term fee payment)**

- Domestic $156.06
- International $260.10

Note: BEng/Bseng students admitted prior to September 2012 are exempt from the Co-op fee installment plan and will be assessed the work term upon registration in each work term. Students who opt to complete extra work terms outside of the co-op fee installment structure should refer to “Undergraduate Tuition—Co-op program, per work term” above.

**International Students**

The Bachelor of Commerce International Academic Program for all international students has an additional program fee of $1200 per year, which is assessed in three installments of $400 per term.

**Engineering Tuition**

BME, CENG, CSC, ELEC, MECH, SENG courses (1.5 credit units)...

- Domestic $548.68
- International $1731.24

CSC 390 (6.0-7.5 credit units)

- Domestic $2138.54
- International $6753.08

**All Other ENGR courses**

- Domestic $495.87
- International $1604.49

**Co-op fee installment per term for 8 terms**

- Domestic $312.12
- International $520.20

**Co-op Work Term Challenge (1 term fee payment)**

- Domestic $156.06
- International $260.10

Note: BEng/Bseng students admitted prior to September 2012 are exempt from the Co-op fee installment plan and will be assessed the work term upon registration in each work term. Students who opt to complete extra work terms outside of the co-op fee installment structure should refer to “Undergraduate Tuition—Co-op program, per work term” above.

**UVic Undergraduate Students’ Society Universal Bus Pass Plan (U-Pass)**

The UVSS provides a mandatory bus pass plan for all undergraduate and graduate students. The U-Pass was approved by student referendum in 1999. The U-Pass fee is $78.50 per term. The U-Pass provides students unlimited access to all Greater Victoria BC Transit buses and HandyDart services.

Only the following students may opt-out from the U-Pass plan:

- students with a BC Bus Pass
- students with mobility disabilities which prevent them from using BC Transit or HandyDart services
- students taking both Camosun College and UVic courses

The deadline for opting-out is Sept 30 (for first term) and Jan 31 (for second term). New students can obtain their UVic ID cards at the University Centre. Returning students can validate their student card and receive a new U-Pass sticker at the University Centre, Student Union Building or Graduate Student Society.

More information about the plan is available at the SUB Info Booth (250-721-8355).

**Other Undergraduate Fees**

**Students taking on-campus courses**

- Athletics and Recreation fees
  - Less than 4.5 units $38.00
  - 4.5 units or more $76.00
- U-Pass $78.50

**Students applying to graduate**

- Graduation fee (includes $10.00 for UVSS graduating class fee) $50.00
- Late Graduation fee (includes $10.00 for UVSS graduating class fee) $60.00

All graduation application fees are non-refundable and non-transferable.

1. Students may request a refund of the EdSA fee by applying to the EdSA Executive during the first two weeks of classes of each term.
2. Students may request a refund of the ESS fee in November and March by applying directly to the appropriate professional development union.
FEES FOR INTERNATIONAL STUDENTS

International students (those not holding Canadian citizenship or permanent residency at the beginning of the session) are required to pay international tuition fees for undergraduate and graduate programs and courses. Fees will be adjusted for the term in which documentation is submitted for students who show official documentation of citizenship or permanent resident status before the last day of the term.

Undergraduate international students are required to pay an international student application fee of $100.00.

FEES FOR AUDITORS

Audit fees per credit unit:

Under age 65
- Domestic...........................................$165.29
- International....................................$534.83

Age 65 or over
- Undergraduate....................................$56.00
- Graduate...........................................$94.28

MISCELLANEOUS FEES

Note: All fees listed below are non-refundable unless stated otherwise.

Undergraduate application fee
- if all transcripts come from institutions in Canada * ............$67.50
- if any transcripts come from institutions outside Canada * ......$110.00

Document evaluation (applies to transfer credit assessment for returning/continuing students only) ............$40.00

Late application/registration ......................................$35.00

Application to reregister ............................................$17.50

Returned cheque ......................................................$25.00

Supplemental examination, per paper
- on campus .............................................$50.00
- off campus ............................................$60.00

Transcripts, per copy ................................................$10.00

Transcripts (priority), per copy .....................................$17.00

Language 11 Equivalency Test....................................$162.00

Graduation certificate - replacement ..............................$75.00

- certified copy ...........................................$15.00

Photocopy - per page ................................................$3.00

Final grade review fee (refundable if grade review successful) .......$25.00

Application for second degree or
for change of degree status ....................................$8.00

Degree completion letter ...........................................$10.00

Degree completion letter (priority) ...............................$17.00

Miscellaneous letters ...............................................$10.00

Letters of Permission to undertake studies elsewhere, per application, per institution ...........................................$10.00

* These fees are effective September 1, 2012

Undergraduate Financial Aid

All UVic undergraduate scholarships, bursaries, medals and prizes adjudicated by the University of Victoria are administered by the Senate Committee on Awards.

Financial aid in the form of bursaries, grants, loans and work-study positions is available to students based on financial need.

Detailed information on financial aid awards and application procedures is available through the Student Awards and Financial Aid website at <registrar.uvic.ca/safa>.

GENERAL REGULATIONS

- Except where a donor directs otherwise, the proceeds of awards issued by or through the University are applied towards a student's total fees for the academic year. If the financial aid a student receives exceeds this amount, the balance will be paid to the student. Proceeds from government loans and work study positions are paid directly to the student.

- An award of financial aid may be withheld or cancelled if there is a lack of suitable candidates or a donor withdraws the award, or if the student receiving the award withdraws from UVic or fails to meet the terms and conditions of the award.

- If for any reason the original recipient becomes ineligible for an award, the funds may be reassigned to other students.

- Unless otherwise noted, all financial aid available through the University is limited to Canadian citizens and permanent residents.

Undergraduate Bursaries

Bursaries are non-repayable awards based on financial need and reasonable academic standing, as determined by the Senate Committee on Awards. Bursaries are available both for students entering UVic and for undergraduates already attending the University. Bursary applications are available from the Student Awards and Financial Aid website: <registrar.uvic.ca/safa>.

- Entrance bursary awarded by UVic require application by October 15, unless otherwise indicated in the award description. Entrance bursaries for students planning to study at UVic are also available through the University of British Columbia and other external organizations.

- Bursaries for undergraduates attending UVic require application by October 15. A number of bursaries are awarded on the recommendation of Student Awards and Financial Aid. The number of bursaries is limited to a total of 12 or more units of study, of which 10.5 units are graded using the standard nine point scale, in two academic terms in the 12 month period (May to April) immediately preceding the adjudication of awards.

- To be eligible for any scholarship offered by UVic, an undergraduate student must be a full-time student registered in a total of 12 or more units of study, of which 10.5 units are graded using the standard nine point scale, in two academic terms in the 12 month period (May to April) immediately preceding the adjudication of awards.

- Students with a disability, including those who are on a reduced course load, are eligible to be considered for scholarships. Students must identify themselves to the Student Awards and Financial Aid office and have documentation of the disability filed with the Resource Centre for Students with a Disability.

- Except where the terms and conditions of an undergraduate award specifically state otherwise, award winners must normally return to UVic in the next Winter Session and enroll as a full-time student to receive the award.

- Students who enroll as a full-time student and subsequently withdraw from courses, so that they fall below 12 units may have the value of Loans.

Students must submit their loan applications by August 1 in order to have their loans processed in time to meet fee payment deadlines. To qualify for Canada Student Loans and most provincial student loans, students must be enrolled in at least 4.5 units for credit (3 units for students with a permanent disability), excludingduplicate and/or mutually exclusive course work, in each term of the Winter Session.

Work Study

Work-study positions are subsidized jobs on campus, which are allocated on the basis of financial need. Work-study positions are administered by Student Awards and Financial Aid.

To qualify for work-study, students apply to Student Awards and Financial Aid for a work-study authorization.

The number of work-study positions is limited; eligible students are not guaranteed a placement. Final decisions on hiring are made by the project supervisors.

Undergraduate Scholarships, Medals and Prizes

Scholarships, medals and prizes are awarded to students on the basis of academic merit or excellence. Awards for undergraduate study are administered by Student Awards and Financial Aid.

Detailed information on undergraduate awards and application procedures is available through the Student Awards and Financial Aid website at <registrar.uvic.ca/safa>.

GENERAL REGULATIONS: UNDERGRADUATE AWARDS

Recipients of all undergraduate awards adjudicated by the University of Victoria are approved by the Senate Committee on Awards.

- To be eligible for any scholarship offered by UVic, an undergraduate student must be a full-time student registered in a total of 12 or more units of study, of which 10.5 units are graded using the standard nine point scale, in two academic terms in the 12 month period (May to April) immediately preceding the adjudication of awards.

- Students with a disability, including those who are on a reduced course load, are eligible to be considered for scholarships. Students must identify themselves to the Student Awards and Financial Aid office and have documentation of the disability filed with the Resource Centre for Students with a Disability.

- Except where the terms and conditions of an undergraduate award specifically state otherwise, award winners must normally return to UVic in the next Winter Session and enroll as a full-time student to receive the award.

- Students who enroll as a full-time student and subsequently withdraw from courses, so that they fall below 12 units may have the value of Loans.

An online application for StudentAid BC is available at <www.studentaidbc.ca>.

Loans

Loans are repayable and are based on financial need. Both the federal and provincial governments offer student loans. Only one application is needed to be considered for both types of loans. BC students apply to StudentAid BC both for BC student loans and for Canada Student Loans. An online application for StudentAid BC is available at <www.studentaidbc.ca>.
of their award reduced accordingly if the value of the award exceeds their assessed fees.

- The University reserves the right to limit the amount of money awarded to any student, and, if necessary, to reassign awards to other students by reversion.

- Except where the donor directs otherwise, the proceeds of awards issued by or through the University will be applied towards the student’s assessed fees for the academic year. If the award a student receives exceeds this amount, the balance will be paid to the student if the student maintains full time registration.

- Other awards, such as medals or book prizes, if not presented directly by the donors or their agents, will be forwarded to the winners upon receipt.

- An award may be withheld or cancelled if there is a lack of suitable candidates or a donor withdraws the award, or if the student receiving the award withdraws from Uvic or fails to meet the terms and conditions of the award.

Entrance Scholarships

A large number of entrance scholarships, with yearly values of between $250 and $6500, are offered to students entering Uvic from secondary schools, colleges and universities. Detailed information about entrance awards and application procedures are available at the Student Awards and Financial Aid website: <registrar.uvic.ca/safa>.

Undergraduate Awards

Undergraduate students who attend Uvic in the regular Winter Session are eligible for a number of awards made available through contributions from corporate and individual donors as well as from the University operating budget. The majority of these awards do not require applications; they are assigned on the basis of merit or on nomination by departments. Others require application. Except where the terms and conditions of an undergraduate award specifically state otherwise, award winners must normally return to Uvic in the next Winter Session and enrol as a full-time student.

Undergraduate Co-operative Education

Co-operative Education is a process of education which formally integrates students’ academic and career studies on campus with relevant and productive work experience in industry, business, and government.

The accumulation of up to two years of varied and program related work experience enhances students’ intellectual, professional, and personal development, by providing opportunities for applying academic theories and knowledge, evaluating and adjusting career directions, and developing confidence and skills in working with people.

Co-operative Education Programs Offered

Undergraduate Co-operative Education programs are currently offered in the following faculties and departments:

- Faculty of Education
- School of Exercise Science, Physical and Health Education: Recreation and Health Education, Kinesiology
- Faculty of Engineering
  - Computer Engineering
  - Computer Science
- Electrical Engineering
- Mechanical Engineering
- Software Engineering
- Faculty of Fine Arts
  - Humanities, Fine Arts and Professional Writing Co-operative Education Program (available in all programs)
- Faculty of Human and Social Development
  - Health Information Science
- Minor in Public Administration
- Faculty of Humanities
  - Humanities, Fine Arts and Professional Writing Co-operative Education Program (available in all programs)
- Faculty of Law
- Faculty of Science
  - Biochemistry/Microbiology
  - Biology
  - Chemistry
  - Earth and Ocean Sciences
  - Mathematics and Statistics
  - Physics and Astronomy
- Faculty of Social Sciences
  - Anthropology
  - Economics
  - Environmental Studies
  - Geography
  - Political Science
  - Psychology
  - Restoration of Natural Systems
  - Sociology
- Peter B. Gustavson School of Business
  - Commerce
  - Minor in Business
- Continuing Studies
  - Cultural Resource Management
  - Intercultural Education and Training

Combined, minor and interdisciplinary Co-operative Education Programs are available. Please see calendar entries in these areas for further information.

Admission

Admission, retention, and graduation requirements for Co-operative Education Programs are determined by the individual departments. Consult the calendar entries in these areas for further information.

Students must apply to the appropriate department for admission to the Co-op Program. All students in the Co-operative Education Program are required to read, sign, and abide by the Terms and Conditions of Participation as articulated by their Co-op Program. In general, co-op students are required to achieve an above-average academic standing, and to demonstrate the motivation and potential to pursue a professional career.

Work Terms

As an integral component of Co-operative Education Programs, students are employed for a number of work terms, which are arranged and evaluated by the individual departments. Co-op program coordinators must review all potential Co-op positions and evaluate their suitability for work term credit. Coordinators may determine some positions as unsuitable.

Work terms, normally of four months’ duration, begin in January, May, and September. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35. Work terms generally alternate with full-time academic terms on campus, and provide productive and paid, full-time work experience that is related to the student’s program of study and individual interests. In special circumstances, approval may be granted for a work term to be undertaken on a more flexible schedule, as long as it does not exceed eight months and the total time worked is equivalent to a four-month term of full-time work. Normally, students are expected to end their program on an academic term.

In limited situations, students may be admitted on a provisional basis into a co-operative education program pending formal admission into the related academic program; such students may, with special authorization by the Executive Director, Co-operative Education, on the recommendation of the academic director responsible for admission to the academic program, undertake a first Co-op work term.

In such cases, the Co-op work term will be recorded on the student’s transcript as COOP 001 and the program as COOP; and, if successfully completed, will be accepted as one of the required work terms for the student’s Co-op program.

Students registered for work terms are considered to be enrolled in a full-time course of studies.

4.5 units of academic credit are awarded for each approved work term successfully completed according to the requirements of the various faculties and their co-op programs. These credits may only be applied to completion of the work term requirement of an approved co-op program. These work term credits may not be applied towards the graduation requirements for any degree or program except in fulfillment of the co-op work term requirement as noted above.

Work Term Preparation

Co-op students are expected to complete successfully a program of seminars and workshops (typically one hour per week), prior to undertaking their first work term. This program is designed to prepare students for the work term. The following topics will be covered: Co-op program objectives/expectations, job seeking skills, competencies self-assessment, transferring skills to the workplace, learning objectives, job performance progress, competencies development and evaluation. Students should consult with their coordinator for program schedule information. This program is a co-requisite for students participating in the placement process prior to their first work term.
Work Term Credit By Challenge

Certain Co-op programs allow students to challenge a work term on the basis of relevant work experience undertaken prior to their first work term. Normally a work term challenge should be made prior to commencing the first work term. Students should discuss any potential challenge with the Co-op Coordinator for their program. Not all programs permit Work Term Challenge; where it is permitted, it is subject to the following regulations:

1. Students must be registered in the session in which the work term challenge is to be recorded.
2. Application forms for Work Term Challenge may be obtained from and submitted to the Co-op Program Coordinator for approval to challenge, after which the Challenge fee is assessed.
3. Normally, work term credit by Challenge is limited to one work term; exceptions require recommendation by the Program Coordinator and the approval of the Executive Director of the Co-operative Education Program.
4. Assessment of Work Term Challenge will be carried out by the appropriate Co-op Program, based on the following:
   a) an aggregate of relevant work experience that is similar in length and scope to that of a registered work term and not previously counted toward work term credit. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35
   b) where possible, written confirmation of employment and evaluation of performance from the employer
   c) an outline by the student of the prior work experience, providing evidence that he/she has acquired professional and personal knowledge, skills and attributes appropriate to the discipline or interdisciplinary field
   d) a work term submission appropriate to the discipline or interdisciplinary field
5. Once the assessment has been administered, the result will be entered on the student's academic record.

General Regulations: Undergraduate Co-op

1. Students must register for each work term by completing the Work Term Registration form, which is provided by the Co-op Coordinator and which is normally completed when the student accepts an offer of employment for the work term and must be completed prior to start date. Students must be registered for the entire duration of the work term employment and, once registered, are not permitted to withdraw from the work placement without penalty of failure, unless specific written permission has been granted by the department/Director. Where permission is granted, an entry of WNF (Withdrawn No Fault) will be entered on the transcript. Students must contact the appropriate Coordinator for recommendation on procedure.
2. Undergraduate students must successfully complete the Academic Writing Requirement prior to undertaking their first work term; BEng or BEng students in the Faculty of Engineering should refer to "Work Term Prerequisites", page 90. This regulation does not apply to students enrolled in the Faculty of Law.
3. Each work term is evaluated on the basis of the student's performance of assigned work term tasks and a final work term submission as defined by the individual department. The work term period and evaluation (grading: COM, F/X, or N/X) are recorded on the student's official academic record. A failing grade (F/X or N/X) will be assigned if a student fails to complete satisfactorily the requirements for the work term. The requirements for a passing grade (COM) in a work term normally include the completion of all of the following:
   a) the Co-op program's satisfactory assessment of the work term,
   b) the employer's satisfactory evaluation of the student,
   c) the satisfactory completion of the final work term submission (such as report, performance review, log book, journal) as submitted according to the deadlines defined by the individual department.
Students who are assigned a grade of F/X or N/X for a work term that carries 4.5 units will have a zero grade point assigned for that work term; however, the grade is excluded from the calculations of all grade point averages (see "Minimum Sessional Grade Point Average and Academic Standing" on page 39).
4. A failed work term will normally result in the student being required to withdraw from the Co-op Program, subject to review by the department.
5. A Co-op Program fee, which is nonrefundable, is due in the first month of each work term and is subject to the Fees regulations on page 41.
6. In the undergraduate programs, students are required to complete satisfactorily the number of work terms specified by the academic program; normally at least four work terms are required, and in the Faculty of Business, the Faculty of Law, the Faculty of Social Sciences, the School of Health Information Science and the BEC: Music in Kinesiology, no less than three. After admission to the program, students are required to register for all Co-op work terms.
7. Work terms are normally of four months duration and alternate with academic terms. For continuous co-op work experience of eight months or longer with the same employer, credit for more than one work term will only be granted if the requirements for an equivalent number of individual work terms are met. For example, the student must register for a second work term, pay additional fee assessments, complete a second work term report and receive a second performance evaluation. Normally the second work term should also incorporate an increase in the student's responsibilities at the work place. For programs requiring a minimum of four work terms, normally at least three of the required work experiences must be separated from each other by at least one academic term.
8. Work term reports are normally due during the first month following each work term, at a time established by the department, for evaluation as part of the assessment of the work term.
9. In the event of a work stoppage (e.g., strike, lay-off) within the first nine weeks of a work term, an attempt will be made to arrange an alternative work placement, to enable the student to complete the work term. If the work stoppage occurs after nine weeks, the work term will be accepted for credit providing all other work term requirements are met.
10. The transferability of work terms from other institutions which offer Co-op programs is determined by individual Co-op departments on the merits of each completed work term. The number of work terms accepted for transfer or combined transfer and challenge must be no more than 50% of the total number required for completion of the Co-op Program. Students enrolled in combined major degrees where a minimum of three work terms are required must complete at most two work terms in one department.
11. Students who are taking double or combined major degrees, or a major and the Professional Writing Minor (where each area offers a Co-op program) may, if eligible, enrol in and undertake work terms in both Co-op programs or may, if eligible, enrol in and undertake work terms in only one Co-op program. Students who complete at least two work terms in each area will have the combined nature of their program noted as part of the Co-op designation on their official records. Students enrolled in combined major degrees where a minimum of three work terms are required must complete no more than two work terms in one department.
12. To graduate from a Co-operative Education Program, students must complete satisfactorily the minimum number of work terms and maintain the academic standing required by individual departments.
13. Students registered for work terms are considered to be enrolled in a full-time course of studies and may not take university level credit courses without the permission of the appropriate department. Co-op students on a work term who wish to enrol in a course should contact their Co-op Coordinator.
14. Students enrolled in Co-op programs may be allowed to complete a 3 unit course commencing in September over a 16 or 20 month period, provided the minimum number of work terms and maintain the academic standing required by individual departments. Each student must refer to "W ork Term Prerequisites", page 39. Without this prior registration, the student will be required to withdraw from the Co-op Program, unless the student withdraws during the first month of the work term and submits an official leave of absence from the department prior to undertaking the work term, an attempt will be made to arrange an alternative work placement, to enable the student to complete the work term. If the work stoppage occurs after nine weeks, the work term will be accepted for credit providing all other work term requirements are met.
15. Students employed in co-operative work terms, placed in practica or enrolled as student members in their professional organizations may be required to undergo criminal records reviews by legislation (e.g., BC Criminal Records Review Act), or because of the risk management policies of the organization with which the student will be associated. Students are responsible for providing authorization for the review to the employer, practice agency or professional organization upon request and cooperating in the conduct of the review as needed. Without this...
authorization or cooperation, an organization may revoke its offer of employment or placement. Usually, the student must pay for the review, although some employers will absorb the costs. Some units on campus, where students are frequently placed in situations requiring a review, may have standard information or practices regarding the procedure. However, the University has no responsibility to involve itself in this process. Students should check the administrative office in their own unit for any discipline-specific information.

**Student Appeal Procedures**

1. Students who are not satisfied with the decision of the Co-op coordinator should attempt to resolve their concerns at the Co-op program level.

2. If a student is not satisfied with a decision at the program level, the student may appeal the decision in writing to the Dean of the relevant faculty and the Executive Director of Co-operative Education, with a copy to the Co-op coordinator who made the decision or ruling being appealed. The Co-op Coordinator may file a written response to the appeal to the Dean and the Executive Director, with a copy to the appellant. The Dean and the Executive Director will consider the appeal. The Dean and the Executive Director may request additional written submissions from the student and the coordinator and may invite the student and the coordinator to make oral submissions. The Dean and the Executive Director shall communicate their decision in writing to the student and the coordinator in a reasonable time.

3. If the student is not satisfied with this decision, the student may appeal to the Senate Committee on Appeals. This appeal process is governed by the Regulations on Appeals, page 40. Decisions of the Senate Committee on Appeals are final and may not be appealed to the Senate. In cases that do not fall under the jurisdiction of the Senate Committee on Appeals, the decision of the Dean and the Executive Director of Co-operative Education is final.
Studies in Education lead students toward an understanding of the nature of knowledge, its interpretations and how it is shared. Through individual and group work, instruction, and supervised experiences in the field, students in the Faculty develop their professional knowledge and skills as well as their ability to share their knowledge and experience. In this way, students learn how to be leaders not only in the classroom but in the community as well. Students in the Faculty may pursue bachelor programs in elementary or secondary education, Indigenous Language Revitalization, kinesiology or recreation and health education. The Faculty also offers graduate programs at the master’s and doctoral levels.
Faculty Members
Theodore (Ted) J. Riecken, BA, MEd (Sask), EdD (UBC), Dean of the Faculty

Natalee Popadiuk, BEd, MA, PhD (Brit Col), PhD (Calgary), RPsych, Assistant Professor
Kevin C. Rumions, BSc (Trent), BEd (Queen’s), MA, PhD (OISE Tor), Assistant Professor
Susan L. Tasker, BSc, PhD (McMaster), CCC, Assistant Professor
Emeritus
Daniel G. Bachor, BEd, MSc (Calgary), PhD (Tor), Professor Emeritus
Lily L. Dyson, BA (Taiwan), MEd, MA (Kansas), PhD (Washington), Professor Emeritus

Visiting, Adjunct and Cross-listed Appointments
Paul Begley, BA (Tor), BEd (York), MEd, EdD (OISE Tor), Adjunct Professor
Sally Brenton-Haden, BMus, BEd (Mount Allison), MEd (New Brunswick), PhD (Alt), Adjunct Assistant Professor
Terri Cohen, BA (Hons) (Simon Fraser), LLB (Brit Col), PhD (Simon Fraser), Adjunct Assistant Professor
Keven Elder, BEd, MEd (UVic), EdD (Brigham Young), Adjunct Assistant Professor
Edward Hickox, BA (Middlebury College), MAT (Wesleyan), EdD (Cornell), Adjunct Professor
Bryan Hiebert, BEd (Calgary), PhD (Alt), Adjunct Professor
Myer Horowitz, BA (Sir George Williams), MEd (Alt), EdD (Stanford), Adjunct Professor
Valerie Irvine, BA, BEd (Brit Col), PhD (Alt), (Cross-listed Member), Assistant Professor
Rita Knodel, BA (Alt), MA (Brit Col), PhD (Alt), Adjunct Assistant Professor
Todd Milford, BSc, BEd, MA, PhD (UVic), Adjunct Assistant Professor
Nancy Reeves, ECE Dip (Camosun College), BA, MA, PhD (Alt), Adjunct Assistant Professor
Jo-Anne Stoltz, BA (Hons), MA, PhD (UVic), Adjunct Assistant Professor
Martin Wall, AB (Harvard College), PhD (Pennsylvania), Adjunct Professor
Philip Winne, AA (Dutchess Community College), BSEd, MSEd (Bucknell), PhD (Stanford), Adjunct Professor

School of Exercise Science, Physical and Health Education
Frederick I. Bell, BA, BEd (Sask), MEd (Alt), EdD (N Car), Associate Professor and Director
Sandra L. Gibbons, BEd (Alt), MSc (Wash St), PhD (Ore), Professor
Douglas R. Nichols, BA (Hope Coll), MS (Ore), MA (Mich St), PhD (Ore), Professor
Ryan E. Rhodes, BA, MA (UBC), PhD (Alt), Professor
Vivienne A. Temple, BEd (Victoria Coll-Rusden), Grad Dip (Melbourne), PhD (RMIT), Professor
Geraldine H. Van Gyn, BA (W Ont), MSc, PhD (Alt), Professor
S. Joan Wharf Higgins, BA, MA (UVic), PhD (UBC), Professor and Canada Research Chair
1.0 General Information

1.1 Undergraduate Degree Programs

The Faculty of Education comprises the Department of Curriculum and Instruction, the Department of Educational Psychology and Leadership Studies and the School of Exercise Science, Physical and Health Education. The faculty offers programs leading to the degrees of Bachelor of Arts in Recreation and Health Education, Bachelor of Education (Elementary Curriculum), Bachelor of Education Post-Degree Professional Program (Elementary), Bachelor of Education Post-Degree Professional Program (Middle Years), Bachelor of Education (Secondary Curriculum), Bachelor of Education Post-Degree Professional Program (Secondary) and Bachelor of Science in Kinesiology.

Indigenous Education contributes courses to the teacher education programs, offers university-wide electives and prepares students to qualify for the Developmental Standard Term Certificate (DSTC) in First Nations Language and Culture through the Bachelor of Education Indigenous Language and Culture program option.

1.2 Co-operative Education Programs

Please refer to page 45 for information about Undergraduate Co-operative Education at the University of Victoria.

In the Faculty of Education, the School of Exercise Science, Physical and Health Education offers Co-operative Education Programs in Kinesiology and Recreation and Health Education. Admission to and completion of co-operative education programs are governed by the individual program requirements. Refer to section 17.0 for more information.

1.3 Joint Programs

Bachelor of Science (Mathematics Education)

A program offered by the Department of Mathematics and Statistics in the Faculty of Science, in cooperation with the Faculty of Education, is under development.

1.4 Interfaculty Programs

In the Faculty of Education, students in the School of Exercise Science, Physical and Health Education have the option to complete courses for a program in another faculty. Students in a teacher education program do not have this option.

Recreation and Health Education Program (BA)

An undergraduate student enrolled in this program may complete courses prescribed in the UVic calendar for a minor program in another faculty. A major or honors program in another faculty is not an option. Students interested in completing an interfaculty minor should refer to section 17.2.2 and consult the adviser in the Exercise Science, Physical and Health Education Advising Office.

Kinesiology Program (BSc)

An undergraduate student enrolled in this program may also complete courses prescribed in the UVic calendar for a minor, major or honors program in another faculty. Students interested in completing an interfaculty minor, double honors or major should refer to section 17.3.7, and consult the adviser in the Exercise Science, Physical and Health Education Advising Office.

### Certificate and Diploma Programs

- Professional Specialization Certificate in Information Communication Technology
- Professional Specialization Certificate in Teaching French Immersion
- Professional Specialization Certificate in Special Education
- Diploma in Special Education
- Diploma in Intercultural Education and Training
- Diploma in Indigenous Language Revitalization
- Diploma in Secondary Teacher Education
1.5 Certificate and Diploma Programs

Professional Specialization Certificate in Information Communication Technology
This Professional Specialist Certificate provides important background and training for teachers and other educational professionals to gain knowledge, skills, and experience in incorporating new communication technologies for instructional purposes. The certificate will be delivered through a combination of face-to-face and distance delivery.

Professional Specialization Certificate in Teaching French Immersion
Teachers will gain the methodology and fluency to be highly effective in the French immersion environment. This new credit certificate consists of four courses – two offered online and two offered face to face. Courses to complete the certificate are EDCI 475, 476, 477, and FRAN 475. Students interested in this program should contact the Division of Continuing Studies.

Professional Specialization Certificate in Special Education
The Department of Educational Psychology and Leadership Studies offers a Professional Specialization Certificate (PSC) in Special Education. This 7.5 unit program is designed for teachers who have an undergraduate degree and teacher certification. Normally, students entering the program will also have two years teaching or equivalent experience. Using a variety of course delivery methods, the certificate courses are designed and scheduled to be completed part-time. The general foci of the certificate program are: high and low incidence special needs and their effect on development, learning, and behaviour; legal and ethical issues in the delivery of services to students with special needs; BC Ministry of Education Policies and Procedures; collaboration and consultation in special education; special education assessment (level B) and identification of learning needs; and individualized education program (IEP) design, delivery and evaluation.

Diploma in Special Education
The Department of Educational Psychology and Leadership Studies offers a Diploma in Special Education. This is a 15-unit program that combines the first 7.5 units found in the Professional Specialization Certificate Program in Special Education with coursework in the advanced treatment of developmental disabilities, behaviour problems, assistive technologies, inclusive education and effective consultation skills.

Diploma in Intercultural Education and Training
This 15-unit program is designed for students and professionals working or planning to work in a multicultural or cross-cultural environment. It may be taken on a part-time or full-time basis. Students interested in this program should contact the Division of Continuing Studies.

Diploma in Indigenous Language Revitalization
The Diploma in Indigenous Language Revitalization aims to assist people who want to build on their Indigenous language skills, better understand the contexts in which Indigenous languages can be successfully taught and gain some basic teaching skills. This may include people who are interested in a credential that will allow them to teach a First Nations language in a First Nations administered school or a BC public school. (A First Nations Language Certificate must be sought from the BC Ministry of Education through the support of the student’s local Language Authority).

Diploma in Secondary Teacher Education
This program is designed for degree holders interested in working as a secondary school teacher. The diploma ladders into the Bachelor of Education Post-Degree Professional Program (Secondary).

1.6 Graduate Programs
Graduate degrees in education are offered through the Faculty of Graduate Studies. Inquiries about graduate programs should be directed to the Dean of the Faculty of Graduate Studies or the education departmental graduate advisor. Students seeking teacher certification should refer to the descriptions of the post-degree professional programs.

2.0 Academic Advice
Students needing advice about the teacher education courses or programs offered in the Faculty of Education (including the post-degree professional programs) should consult an academic adviser in-person at the Teacher Education Advising Office, Room A250 MacLaurin Building or by telephone at 250-721-7877.

Students needing advice about the Kinesiology and Recreation and Health Education programs offered by the School of Exercise Science, Physical and Health Education (EPHE) should consult the EPHE Academic Adviser, Room 115, McKinnon Building, 250-721-6554, or email <epheadv@uvic.ca>.

3.0 Indigenous Advisory Board
Programs in the Faculty of Education have the benefit of advice and guidance from the Indigenous Education Advisory Board whose members are stakeholders in the field of Indigenous Education. The members are from the local First Nations, urban Aboriginal, and Métis communities as well as the Faculty of Education and university community. Further information is available from the Indigenous Education Office.

4.0 Availability of Courses to Students in Other Faculties
Faculty of Education courses required for an undergraduate degree program offered by the faculty are normally restricted to students admitted to one of these programs.

A student who is not enrolled in the Faculty of Education may register for any course or section of a course that is not restricted to Faculty of Education students provided that the student has the prerequisites for the course and there are places available in the course when the student attempts to register.

Students in other faculties who propose to take courses in the Faculty of Education are responsible for determining if the courses can be used in their degree program.

In certain cases, other students may be registered as non-degree students to provide them with the opportunity to establish their qualifications for entry or re-entry to a program offered by the faculty or to re-establish their qualifications with the BC Ministry of Education.

5.0 Limitation of Enrolment
The University of Victoria reserves the right to limit enrolment in the Faculty of Education and to refuse admission to the various programs of the faculty. Such factors as available space and facilities, teaching positions available in the schools, academic qualifications, general suitability of the applicant for teaching, physical abilities and fluency in English will be taken into account.

6.0 Faculty Admissions
New applicants to the University of Victoria should read the regulations regarding undergraduate admission starting on page 21. Applicants for admission to the Faculty of Education must meet general faculty and specific program admission requirements.

Application and Document Submission Deadlines
Applications for admission to the faculty, transcripts and all other related documentation must be received by the dates displayed in the table on page 8 under the Faculty of Education heading.

For application deadlines for other degree programs and diploma programs offered by the faculty, please check with Undergraduate Admissions.

6.1 General Faculty Admission Requirements
The specific admission requirements for individual programs within the Faculty of Education are given under each program’s description. The general requirements for admission to the Faculty of Education are:

1. at least 12 units of credit, including 3 units of English*
2. a sessional grade-point average of at least 3.0 on the most recent session, and if that session is less than 12 units, a grade-point average of at least 3.0 on the most recent 12 units**
3. an admission interview, if required by program (see 6.3)

* Diploma in Indigenous Language Revitalization applicants may apply with 1.5 units of English.
** This requirement will be waived for certified teachers from the Province of British Columbia.

All requirements for admission must be completed by April 30 and documented by May 31, except where otherwise specified.
Recommended Pre-Admission Courses

Admission to the Faculty of Education does not require specific secondary school prerequisites but many of the courses in its programs do.

Kinesiology

The following secondary school courses are required:
- at least Biology 11,
- Chemistry 11 (Chemistry 12 recommended),
- Pre-calculus 12, and
- Physics 12.

Teacher Education (Elementary)

The following secondary school courses are recommended:
- English Literature 12,
- at least French 11,
- one of Principles of Math 11, Pre-calculus 11, Foundations of Mathematics 12, and
- two grade 11 science courses.

Teacher Education (Secondary)

The following secondary school courses are recommended:
- English Literature 12 and
- for those wishing to become secondary art education teachers, Art 12
- for those wishing to become secondary music education teachers, Choral Music 12, Instrumental Music 12, Music Composition and Technology 12
- for those wishing to become physical education teachers, Biology 11, Biology 12, Chemistry 11, Physical Education 11 and Physics 11

6.1.1 Indigenous Admissions

The Faculty of Education is committed to increasing the number of students with First Nations, Inuit and Métis ancestry in our programs and therefore encourages applications from Indigenous people. In recognition of the BC Ministry of Education's mandate to increase access for Indigenous students, the Faculty of Education has developed distinct access initiatives:

1. Reserved Seats: 5% of the positions in all the faculty's undergraduate programs will be held for Indigenous applicants who meet the Faculty of Education's minimum program entrance requirements and Indigenous application requirements.

2. Exceptional Admission: Exceptional students who do not meet the standard faculty requirements may be eligible for admission through a case-by-case review process.

Eligibility for Distinct Access

To be eligible for a reserved seat and/or exceptional admission, an applicant will need to submit the admissions application form for Indigenous students (available from teacher education advising or the School of Exercise Science, Physical and Health Education) in addition to the general admissions application or application to the School of Exercise Science, Physical and Health Education. Applicants will be considered for placement in the programs on an individual basis, taking into account such factors as Indigenous identity, academic performance, employment history, relevant experience with young people, evidence of participation within an Indigenous community and a letter of reference.

Admission Interview Requirement

Following the review of an application, an interview (in addition to the program interview) may be required. This interview will be conducted by the Indigenous Education Coordinator and Adviser. The interview process will take into account geographic distance of the applicant from the campus, and an alternative interview process may be considered.

Appealing Admission Decisions

A candidate who is not recommended for admission may appeal to the dean of education or to the Senate Committee on Admission, Registration and Transfer. See the university's first-year admission requirements pertaining to First Nations, Métis and Inuit applicants, page 26.

1. For the purpose of application and admission to the Faculty of Education, and in accordance with the Constitution Act of 1982, Part II Section 35(2), "Aboriginal peoples of Canada" refers to the Indian, Inuit and Métis peoples of Canada.

2. If the 5% quota of seats is not filled by July 1, the seats will first be offered to Indigenous students from outside of Canada, then be offered to general students on the waiting list.

6.2 Quota Restrictions

Admission to all programs in the Faculty of Education is restricted by quotas. Qualified applicants may not necessarily be admitted.

6.3 Admission Interview Requirement

An interview may be required prior to admission for some programs within the Faculty of Education. For information about interviews, applicants should consult an academic adviser in the Faculty of Education.

7.0 Faculty Academic Regulations

7.1 Student Responsibility

Students are responsible for ensuring that their courses have been selected to satisfy the requirements of their chosen program within the Faculty of Education. Students are advised to review the university's academic regulations starting on page 31 as well as the academic regulations that apply to their chosen program within the Faculty of Education.

7.2 Professional Conduct

Students enrolled in a Faculty of Education program are expected to behave in an ethical and professional manner. Faculty members, students and staff of the Faculty of Education work together to promote professionalism and integrity. These are attributes that prepare our students for leadership roles and create an environment of professionalism in the faculty.

Students in a teacher education program will find the guidelines for professional conduct in section 9.1.

Students in the kinesiology and recreation and health education programs should refer to section 17.0 regarding professional conduct for students in the School of Exercise Science, Physical and Health Education.

Academic Integrity

Students should refer to the university policy regarding academic integrity starting on page 33. The penalties for violating the university policy are listed on page 34.

7.3 Course Regulations

Practicum Courses

All courses that have a practicum component are governed by the practica regulations, section 9.3. No course containing field experience practica may be challenged. Students who wish to repeat any practica courses must obtain permission from the manager of field experience.

Prerequisites

It is the responsibility of all registrants to ensure that all prerequisites for the courses in which they register have been met. Prerequisites may be waived if the student has completed equivalent work, or in other exceptional cases. Consult an academic adviser in the Faculty of Education for more information.

Registration Restrictions

Registration in all 300-level courses is restricted to students having second-year standing or higher. Courses numbered 400 or above are reserved for students registered in third or following years. These regulations do not apply to ME 307, 309A, 309B, 409, and the following performance-oriented courses: ME 318, 418, 320, 321, 402, 420, 421. These courses may be taken by first- or second-year students with appropriate backgrounds.

7.4 Credit Regulations

Credit for Courses Undertaken at Other Institutions

A student who has been admitted to the Faculty of Education may not take courses at another institution without the prior written approval, in the form of a letter of permission. A student must have completed, or be registered in, at least 6 units of course work at UVic to be eligible for a letter of permission. Students may request a letter of permission from an academic adviser in the Faculty of Education.

Students are responsible for ensuring that official transcripts for all attempted course work undertaken at other institutions are submitted to Undergraduate Records. See page 39 for the minimum sessional grade-point average regulations that apply to all UVic students. See also Faculty of Education minimum sessional grade-point average regulations, below.

Transfer credit is assigned upon receipt of an official transcript from the institution visited; letter grades are not included on the UVic transcript.

Credit for Skill Performance and Analysis Courses

Skill Performance and Analysis course credit is limited as indicated below:

BEd Degrees (Secondary Curricula)

- physical education secondary teaching area program: units specified in the degree...
• non-physical education teaching area: 3 units

7.5 STANDING

7.5.1 Sessional Grade-Point Average
An explanation of how a grade-point average is calculated can be found on page 39.

7.5.2 Minimum Sessional Grade-Point Average and Academic Standing
Students should refer to page 39 for the minimum sessional grade-point average and academic standing regulations that apply to all UVic students.

Elementary and Middle Years Teacher Education

Probationary Status and Requirement to Withdraw: Students whose sessional grade-point average is 3.00 to 3.99 on 4.5 units or more will be required to have their academic performance reviewed and may be placed on faculty probation for the next session attended or required to withdraw.

If the GPA is less than 3.0 on 4.5 units or more, the student will be required to withdraw from the faculty. If the GPA is less than 2.0, further sanctions will be imposed by the university.

Students registered in fewer than 4.5 units and whose sessional GPA is less than 4.0, but whose cumulative GPA is above 4.0 will be placed on faculty probation for the next session attended.

Students who are on faculty probation and achieve a sessional grade-point average of 4.0 or better on a minimum of 6 units will clear their probation status at the end of the session.

Re-admission: To re-enter the faculty, students must complete a minimum of 6 units of approved course work outside the Faculty of Education and meet the admission requirements prevailing at the time of their re-application.

In programs with quotas, this may mean considerable course work will be necessary to raise the GPA sufficiently. In programs not subject to quotas, the application for readmission is subject to approval by the manager of teacher education programs.

Students who have been readmitted to a secondary teacher education program after having been required to withdraw and whose sessional GPA again falls below 3.0 will be required to withdraw from the program and the Faculty of Education for a period of five years.

An appeal process is available to address student concerns about the application of any of the above procedures. Please refer to 7.9.

Kinesiology and Recreation and Health Education Programs

Probationary Status: Students registered in fewer than 4.5 units and whose sessional GPA is less than 3.0 but whose cumulative GPA is above 3.0 will be placed on faculty probation for the next session attended.

Students who are on faculty probation and achieve a sessional grade-point average of 3.0 or better on a minimum of 6 units will clear their probation status at the end of the session.

Re-admission: To re-enter the faculty, students must complete a minimum of 6 units of approved course work outside the Faculty of Education and meet the admission requirements prevailing at the time of their re-application.

In programs with quotas, this may mean considerable course work will be necessary to raise the GPA sufficiently.

Students who have been readmitted to Recreation and Health Education or Kinesiology after having been required to withdraw and whose sessional GPA again falls below 3.0 will be required to withdraw from the program and the Faculty of Education for a period of five years.

An appeal process is available to address student concerns about the application of any of the above procedures. Please refer to 7.9.

Non-degree students

Probationary Status: Students registered in fewer than 4.5 units and whose sessional GPA is less than 3.0 but whose cumulative GPA is above 3.0 will be placed on faculty probation for the next session attended.

Students who are on faculty probation and achieve a sessional grade-point average of 3.00 or better (regardless of registered course load) will clear their probation status at the end of the session.

Re-admission: To re-enter the faculty, students must complete a minimum of 6 units of course work with grade-point average of 3.00 or better.

7.6 Currency Requirement for Degree and Program Completion
The Faculty of Education reserves the right to impose currency requirements for degree/program completion. Course work more than 10 years old will be subject to a review to determine whether its content is outdated. Students whose course work is considered outdated by the manager of teacher education programs, in consultation with the departments or the school, or by the director of the School of Exercise Science, Physical and Health Education, will be required to replace or update the course work concerned.

7.7 Declaring a Program
All undergraduate students registered in the faculty are required to make a commitment to a particular program. Students may request a record of degree program (CAPP) from a Faculty of Education academic adviser following admission to the faculty. The purpose of the CAPP report (Curriculum Advising and Program Planning) is to ensure that proposed courses will meet the requirements for the degree program selected.

CAPP reports will be based on current faculty regulations. All previously completed course work will be considered in relation to the student's choice of program and, in the case of students in a secondary teacher education program, teaching areas. The faculty reserves the right to review any program or course work that is deemed to be outdated.

Students may confirm program requirements with an academic adviser before registering in any session.

7.8 Graduation

7.8.1 Minimum Degree Requirements for Graduation
Students should refer to page 39 for the graduation regulations that apply to all UVic students.

Students registered in a teacher education program should also refer to Section 9.5.
7.8.2 Standing at Graduation

Graduating Average

The graduating average of a student in the Faculty of Education will be determined as the weighted average of the grade point values of the letter grades (other than COM) assigned to 300-, 400- and 700-level courses taken at the university and acceptable within the degree program.

7.9 Appeals

Students should refer to the university regulations regarding appeals starting on page 40.

Academic Matters

The first level of appeal concerning a course is normally the instructor of the course; the second level is the director or chairperson of the academic unit concerned; and the third level is the dean of the faculty concerned.

Admission Decisions

Applicants who are denied admission to a program offered within the Faculty of Education, and who can prove extenuating circumstances, may submit a written request to have their application re-considered by the faculty appeals and adjudication committee (FAAC). Appeals addressed to this committee should be submitted to the kinesiology and recreation and health education programs adviser or to a teacher education program adviser as applicable.

Fee Reduction

The first level of appeal should be made to an academic adviser in the Faculty of Education. The adviser will determine the next step in the process; i.e., program manager, associate dean, chair, director or fee reduction appeals committee (FRAC).

Required Withdrawal from Program

A student whose sessional grade-point average falls below his/her program's minimum requirement and is required to withdraw from his/her program and the Faculty of Education may appeal to the manager of teacher education programs or the director of the School of Exercise Science, Physical and Health Education. Appeals of the manager's or director's decision are taken to the kinesiology and recreation and health education programs adviser or to a teacher education program adviser as applicable.

8.0 Teacher Education Admissions

The admission requirements specific to each undergraduate teacher education program are listed under each program's description. Application and document submission deadlines are listed on page 8.

8.1 Written English Competency Requirement

All students must satisfy the written English competency requirement prior to admission, except for students applying to the Bachelor of Education (Secondary Curriculum) Degree program, who must satisfy the written English competency requirement before acceptance into their professional year (5th year).

The requirement is normally satisfied in one of the following ways:
1. Completion of ENGL 135, 215, 225, or 400 with a grade of 4.0 or better.
2. Completion of 3.0 units of approved English literature with a grade-point average of 4.0 or better. Notwithstanding, a student who receives a grade of 3.0 or less in any composition course will have his or her record individually reviewed by the manager of teacher education.

Students who wish to have other work considered may appeal to the faculty appeals and adjudication committee (FAAC).

8.2 Acceptance Deposit

An acceptance fee of $150.00 is required from all students upon their acceptance of a place in a teacher education program. This fee will be credited towards student fees at the beginning of the program. A student who withdraws from the program at least 30 days before the start date of the program will be refunded $100.00 of the acceptance deposit. A student who withdraws from the program within 30 days of the start date of the program will receive no refund.

8.3 Teacher Applicants

Qualified teachers, whose initial preparation led to teacher certification but not to an undergraduate degree, who now wish to complete a Bachelor of Education degree at the University of Victoria should consult an academic adviser. Existing programs can be modified on the basis of previous university-level course work and experience. The manager of teacher education programs will determine what credit, from UVic or other institutions, may be applied to the degree program. Those whose studies commenced more than 10 years ago are also referred to Limitations of Credit for Certificated Teachers. Applications must be made in the normal manner to UVic Undergraduate Admissions or Records.

8.4 Criminal Record Check

While not a requirement for admission, students must complete a Criminal Record Check in compliance with the BC Criminal Record Review Act before they can be placed in a field experience. Students are responsible for providing authorization for the review to the Field Experience Office upon request. Students who do not complete the review will not be permitted to undertake field experience. Costs related to the review are the responsibility of the individual student. Contact the Field Experience Office for more information.

Students with criminal convictions are advised to contact the manager of field experience and the BC Ministry of Education for clarification of their status before undertaking a teacher education program.

9.0 Teacher Education Program Regulations

9.1 Guidelines for Professional Conduct

Students in the faculty are expected to adhere to the Faculty of Education's Code of Professional Conduct as the basis of their relationship with peers, faculty members, teachers and the students they serve. In a field setting, students are subject to the provisions of the Faculty of Education's Code of Professional Conduct.

The Faculty of Education's Code of Professional Conduct requires:

- The exercise of self-discipline, accountability and judgement in academic and professional relationships;
- Acceptance of personal responsibility for continued academic and professional competency and learning;
- Acceptance that one's professional abilities and personal integrity, and the attitudes one demonstrates in relationships with others, are measures of professional conduct;
- Ability to communicate effectively with members of faculty, peers, practising professionals, parents and students;
- Ability to write, speak and present well.

9.1.1 Unprofessional Conduct

Students enrolled in a teacher education program are responsible for understanding the provisions of the BC School Act, the BC Teachers' Federation's Code of Ethics (BCTF), as well as the Faculty of Education's Code of Professional Conduct. A student may be required to withdraw for violation of any part of these.

9.2 Withdrawal from Teacher Education

The Faculty of Education reserves the right at any time to require any student to withdraw from the faculty when, after consideration of scholarship and/or professional conduct, it concludes that the student is unsuitable for the teaching profession.

a) The faculty expects students to complete satisfactorily all required courses and practica as evidence of scholarship.

b) Students in the faculty are expected to adhere to the Faculty of Education's Code of Professional Conduct. Students should refer to 9.1.

Concerns about a student's suitability for the profession should be brought to the attention of the manager of teacher education programs and/or field experience. The manager(s) shall review the information and, if warranted, make a recommendation to the associate dean of teacher education that the student be required to withdraw from the faculty.

The associate dean of teacher education shall notify (in-person and in writing) a student whom he/she considers unsuitable for the profession of the reasons for that decision and the case against him/her. The student shall be informed of the right of appeal to the faculty appeals and adjudication committee (FAAC) and that he/she may wish to consult the UVSS Ombudsperson to prepare the appeal. The appeal should be written and delivered to the manager.
of teacher education programs within two weeks of the decision.

Upon appeal the FAAC shall inform the student of the date, time and place of the hearing. Students will have the option to appear in-person to support their case.

The FAAC shall make a decision in a fair and unbiased manner. It may:

- approve the recommendation for withdrawal
- deny the recommendation

Where it approves withdrawal, FAAC shall inform the student of the right to appeal to the dean of the Faculty of Education who shall make an independent decision. The appeal should be written and submitted to the dean's office within two weeks of the FAAC decision.

Where the dean of the faculty denies the appeal he/she shall inform the student of the right of an appeal to the UVic senate.

9.3 Practica Regulations

9.3.1 General

Field experience, student teaching and seminars form an integral part of the elementary and secondary teacher education programs.

Students should be aware that all arrangements for field experience and student teaching are made through the Field Experience Office, located in the MacLaurin Building.

Through the Faculty of Education, the university reserves the right to approve any agency or school that provides placements for student practica, and to change any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any change in placement.

While the university accepts a responsibility to provide a sufficient number of practicum opportunities to serve the needs of all registered students, a student may be required to withdraw from a practicum course if none of the available practicum agencies will accept the student, or the student refuses to accept the assigned placement.

Students must successfully complete all required course work before they will be allowed to undertake a practicum. Students will be denied the practicum experience if their preparatory work is considered unsatisfactory by the manager of field experience.

Students undertaking field experience must be prepared to travel. Extra expenses will be involved; students should budget accordingly.

9.3.2 Practica Dates

The dates of practica will be established for each program and will be announced to the students involved at the beginning of each term.

9.3.3 Attendance

Full-time attendance is required during a practicum. Students are expected to notify the school and their faculty supervisor whenever practicum appointments cannot be kept.

9.3.4 Unethical or Unprofessional Behaviour

Students should refer to the guidelines for Professional Conduct in 9.1.

Students in the Faculty of Education's teacher education programs are responsible for understanding the provisions of the BC School Act.

Students who are placed in schools for teaching practica are required to observe the Faculty of Education's Code of Professional Conduct as well as the BC Teachers' Federation's (BCTF) Code of Ethics. A student may be required to withdraw from a practicum at any stage of the experience for violation of any part of these codes or upon a written order from the school principal or the board of school trustees of the district in which the student is placed.

Teachers or administrators who refuse a student's continued participation in a practicum for misconduct or repeated absences, or where the educational progress of the school students is in jeopardy, must immediately discuss the matter with the manager of field experience. The manager will then either inform the student of the conditions under which he or she may resume participation in the practicum or require the student to withdraw from the practicum and inform the student in writing of the reasons.

9.3.5 Practicum Denial and Withdrawal

a) Practicum Denial

Students will be denied the practicum experience if their preparation in required course work and/or practicum planning is deemed unsatisfactory by their instructor(s) and/or the manager of field experience.

b) Required Withdrawal

Students may be required to withdraw from the practicum with a failing grade if their performance in the practicum or their practicum preparation is considered unsatisfactory by one of: course instructor, mentor teacher, supervisor, or the manager of field experience.

c) Voluntary Withdrawal

Students seeking voluntary withdrawal during a practicum, whether permanent or temporary, must receive permission to do so from the manager of field experience. Their request must be in writing and contain the reasons for the request. Students whose performance is deemed unsatisfactory at the time of withdrawal may receive a failing grade depending on the circumstances.

9.3.6 Re-admission to a Practicum

Students who have withdrawn from a practicum for any reason who later wish to re-enter the practicum must apply in writing to the manager of field experience for readmission. Please note that readmission is not guaranteed.

A student who fails a practicum may be granted permission to re-take the practicum. If the student subsequently fails on the second attempt, he/she may be required to withdraw from the teacher education program and the Faculty of Education. A student will not normally be permitted to attempt the practicum a third time.

9.4 Limitations of Credit for Certificated Teachers

Applicants for admission or acceptance in a degree program who have completed basic professional training may be granted up to 18 units of credit for that professional training towards the Bachelor of Education degree. This is granted at the discretion of the manager of teacher education programs, in consultation with the departments or school of the faculty.

All accepted candidates are referred to the regulation concerning currency of course work at 7.6.

Teachers who have not taken any courses applicable to their programs in the last 10 years must submit the following for consideration:

1. a resume of all teaching experience including dates, locations and grade levels, and indicating whether full time, part time, or substitution. A resume of teaching experience form is available at room A250, MacLaurin Building.
2. copies of the most recent superintendent's and/or principal's reports
3. letter(s) from principal(s) attesting to teaching effectiveness in substitution roles if applicable
4. a copy of their teaching certificate

9.5 Graduation Requirements for Bachelor of Education Degree Programs

Students should refer to the university regulations concerning graduation on page 39.

To be eligible for a Bachelor of Education degree, the candidate must normally have earned:

1. a passing grade in each of the courses in the degree program
2. 21 units of courses at the 300 and 400 levels*

Elementary Programs

Candidates having completed an elementary program must have a grade-point average of at least 4.0 on each session. Failed courses will be counted in computing the grade-point average. COM grades will not.

Secondary Programs

Candidates having completed a secondary program must have a grade-point average of at least 4.0 in each of the teaching areas and a grade-point average of at least 3.0 on each session attempted. Failed courses will be counted in computing the grade-point average. COM grades will not.

* In exceptional cases, when candidates do not include enough 300- or 400-level courses to satisfy 21 units in the degree, the dean may approve the inclusion of courses at the 700 level.

9.6 Teacher Certification

Students must fulfill all program requirements and meet minimum GPA program standards before they will be reported as eligible for certification.

9.6.1 The BC Ministry of Education

Current legislation requires that every person appointed or retained as a teacher in a public school in British Columbia hold a valid certificate of qualification from the Ministry of Education issued through the Teacher Regulation Branch.

It is the responsibility of the teacher to make application to the Teacher Regulation Branch for initial certification, or for a change in certification, and to provide all necessary documents.

Credentials are issued only to qualified people who have established residence in British Columbia. Applicants who are otherwise eligible for certification but who are not Canadian citi-
zens are required by the Teacher Regulation Branch to provide evidence of permanent resident status or to hold a valid work authorization to teach in Canada before they may be issued a BC teaching credential.

Persons convicted of a criminal offense and considering a teaching career should write to the Teacher Regulation Branch for clarification of their status before undertaking a teacher education program.

9.6.2 The Teacher Qualification Service (TQS)

Salary categories for teachers are established by the Teacher Qualification Service upon application, and only when a BC teaching credential has already been granted by the BC Ministry of Education. Categories are assigned on the basis of completed years of academic and professional preparation. Partial years are not considered.

9.6.3 Applications and Documentation

Application forms for the Teacher Regulation Branch and the Teacher Qualification Service are available from Undergraduate Records or from the Field Experience Office, as well as directly from the agencies. Transcripts in support of applications to these bodies should be ordered from Undergraduate Records.

10.0 Bachelor of Education in Indigenous Language Revitalization

10.1 General Information

The Bachelor of Education in Indigenous Language Revitalization is a community-based, cohort-driven program that is designed for BC Indigenous community members who want to learn their language and become teachers of their language, and would like to study in their home community. The Bachelor of Education in Indigenous Language Revitalization is targeted towards those who want to become professional K-12 teachers in hopes of teaching in either a First Nations administrated or public school. Students will continue building their language capacity to ensure they are qualified to teach in an immersion context if desirable.

10.2 Laddered Structure of Program

The Bachelor of Education in Indigenous Language Revitalization is a laddered program:

1. Provides successful exit opportunities for students at key points throughout the program;
2. Provides an opportunity to learn about how to revitalize language, as well as the opportunity to increase fluency through language coursework;
3. Designed to be delivered in the language community setting, either in full, or in part.
4. Results in language skills and professional teacher certification that will allow graduates to teach in immersion language schools.

10.2.1 Admission Requirements

Students will begin in the Certificate in Aboriginal Language Revitalization (CALR) program, categorized as Humanities certificate students. Upon successful successful completion of the CALR program (or equivalent) students will apply for entry to the Diploma in Indigenous Language Revitalization program in the Faculty of Education.

Normally, students will go through the admission process as a cohort. When a new cohort is ready to be admitted, Indigenous Education will work with the Indigenous community sponsoring the program, the Certificate in Aboriginal Language Revitalization and UVIC Undergraduate Admissions and Records to admit the students to the program. Initially, most students would apply to UVIC as mature students, and if necessary, through special access. Certain students, however, may need special accommodation as they work towards regular admission requirements such as English 12 or Math 11. Students will complete any outstanding prerequisites in the first and second year of the program in order to admitted to the Bachelor of Education, including 3.0 units of English. Once in the Faculty of Education, a C average must be maintained to remain in the program.

Due to the multiple laddered steps in the degree path, there are two other points of admission in addition to the initial admission to the program. Students will complete re-registration forms on completion of year one to register in the Diploma in the Faculty of Education, and on completion of year two to continue onto the Bachelor of Education. Each student will fill out a form and the forms will be submitted to Records. There will be no fee associated with this re-registration form. UVIC Records will ensure students in the program have their status changed, and are categorized as Bachelor of Education students within the Faculty of Education.

Transfer possibilities will be unusual, and will be dealt with on a case by case basis, however certain courses, such as the language courses will be submitted to the BC Transfer Guide in hopes they will be transferable to other programs with language requirements in the province.

10.2.2 Application and Document Submission Deadlines

Application process and timelines will be determined when the partnership is formed between Indigenous Education and the partner Indigenous community.

10.3 Program Curriculum

The majority of the course work in the proposed program will be consistent with existing courses, but will be adapted slightly to the needs of each cultural and linguistic cohort. The Indigenous language courses will have to be adapted more extremely than other courses, due to the varied nature of each language in BC. The ability to take multiple sections of the same language course number already exists in the calendar. The students in the program must move through the program together in the pre-determined set of courses to be offered in their community.

The core requirements of the Certificate in Aboriginal Language Revitalization currently are: LING 180A, LING 180B, LING 181, LING 182, LING 183A, LING 183B. The required 4.5 units of electives are satisfied by the language courses (three sections of LING 159).

The core requirements of the Diploma program are: 4.5 units of LING 259, 3.0 units of LING 359, IED 371, ED-302, ED-D 301, and ED-P 251 (Practice), 3.0 units of English.

The opportunities for electives are:

• In their first two years, students who are not wishing to continue into the BEd can choose not to take the required prerequisite science and math courses.
• Year three, one of either LING 405, 401, 403 or 450, will be offered.
• There are no elective courses in the final (fourth) year of the BEd.

Academic requirements, such as English, Math and Science must be satisfied according to the requirements of the Faculty of Education, and BC Ministry of Education.

Program exceptions may be considered for the Certificate and Diploma language courses. Academic considerations for the CALR will be approved by the Academic Adviser to the Certificate in Aboriginal Language Revitalization. Program exceptions for the Diploma program will be made by the Director of Indigenous Education.

11.0 Bachelor of Education (Elementary Curriculum)

11.1 GENERAL INFORMATION

This elementary degree program provides course work and practicum experience designed to produce a well-qualified elementary school teacher. The program has been designed as a coordinated, sequenced balance of course work, integrated school observations, and three practica experiences. Students are eligible for a professional teaching certificate and the Bachelor of Education (BED) degree upon successful completion of this program.

11.1.1 Off-Campus Programs

East Kootenay Teacher Education Programs

The Bachelor of Education (Elementary Curriculum) degree program is also offered at the College of the Rockies in Cranbrook, BC. Consult an academic adviser for more information.

11.2 PROGRAM ADMISSION

Initial admission to the Bachelor of Education (Elementary Curriculum) degree program may be granted after completion of at least one year of university-level studies acceptable to the Faculty of Education.

11.2.1 Admission Requirements

The requirements for admission to the elementary program are:

1. admissibility to the university
2. at least 15 units of credit that include:
   a. 3.0 units of approved English
   b. 3.0 units of approved Canadian studies
   c. 3.0 units of approved laboratory science
   d. 3.0 units of approved mathematics with a minimum grade-point average of 3.0 (C+)
   e. 3.0 units of approved introductory academic elective
3. demonstrated competency in written English (see 8.1)
4. a sessional grade-point average of at least 4.0 (B-) on the most recent session and, if that session is less than 12 units, a grade-point average of at least 4.0 on the most recent 12 units. Grades for duplicate course work taken during the most recent session are not normally included.
5. successful participation in an interview usually held in April may be required.

Additional information about the admission requirements can be found online at <www.uvic.ca/education>.

All requirements for admission must be completed by April 30 and documented by May 31. Maximum enrolments have been established, therefore, the faculty cannot guarantee that all qualified candidates will be accepted. Accepted candidates will be notified as early as possible, but final acceptance may not be until late June.

Notes:

Approved courses include:

1. Two of ENGL 135, 146, 147.
2. Select from CS 102, ECON 100, HIST 130, 131, 132, POLI 101, 201, SOCI 103.
3. Select from ASTR 101, 102, BIOL 190A, 190B, EOS 110, 120 and PHYS 102. EOS 120 is recommended. Courses completed more than ten years ago are not normally accepted.

5. Choose course work related to subjects taught in BC schools. For example, computer science, environmental studies, French, Indigenous Studies. Consult an academic adviser if you have completed English, Canadian studies, laboratory science or mathematics courses other than those listed above.

11.2.2 Application and Document Submission Deadlines

An application package is available online at <www.uvic.ca/education> by mid-October. The application(s) and any applicable application fees must be received at Undergraduate Admissions and Records by January 2. Transcripts showing course work completed to December 31 must be submitted by January 31. Transcripts showing course work completed to April 30 must be submitted by May 31.

11.3 ELEMENTARY PROGRAM FORMATS

Year One

at UVic or another recognized post-secondary institution

Approved English ...................................... 3.0
Approved Canadian studies .......................... 3.0
Approved mathematics ................................ 3.0
Approved laboratory science ...................... 3.0
Approved introductory academic electives .... 3.0
Total .................................................. 15.0

Year Two

ED-D 301 Learners and Learning Environment ......................................................... 1.5
ED-P 250 Elementary Field Experience Seminar I .................................................. 1.5
ED-P 251 Three-Week Practicum (Elementary Education) .................................. 1.5

EDCI 302 Literacy and Language in the Elementary or Middle School ................. 1.5
EDCI 303 Historical & Philosophical Foundations of Canadian Education ........... 1.5
EDCI 305A Drama Education: A Medium for Learning I .................................. 1.5
EDCI 306A Music in the Elementary Classroom I ............................................. 1.5
EDCI 307A Art in the Elementary or Middle School Classroom I ..................... 1.5
EDCI 336 Technology Innovation in Education .................................................. 1.5
EPHE 310 Physical Education for General Classroom Teachers (A) .................. 1.5
EPHE 311 Physical Education for General Classroom Teachers (B) ................. 1.5
Total .................................................. 18.0

Year Three

ED-D 407 Evaluating and Reporting Student Progress .................................................. 1.5
ED-D 408 Promoting Prosocial Behaviour ...................... 1.5
ED-D 420 Learning Support: Context and Key Issues ............................................. 1.5
ED-P 350 Elementary Field Experience Seminar II .................................................. 1.5
ED-P 351 Six-Week Practicum (Elementary Education) .................................. 1.5
may be granted only after completion of an undergraduate degree at an accredited university and 3.0 units of approved course work in each of English, Canadian studies, laboratory science and mathematics.

12.2.1 Admission Requirements
The requirements for admission to this program are:
1. admissibility to the university
2. a degree from an accredited university
3. 3.0 units of approved English
4. demonstrated competency in written English
5. 3.0 units of approved Canadian studies
6. 3.0 units of approved mathematics with a minimum grade-point average of 3.0 (C+)
7. 3.0 units of approved laboratory science
8. a sessional grade-point average of at least 4.0 (UVic B-) on the most recent session (if that session is less than 12 units, a grade-point average of at least 4.0 on the most recent 12 units) and on the most recent two years (30 units) attempted to December 31. Grades for duplicate course work are not normally included.
9. Successful participation in an interview normally held in April.

Additional information about the admission requirements can be found online at <www.uvic.ca/education>.

All requirements for admission must be completed by April 30 and documented by May 31. Maximum enrollments have been established; therefore the faculty cannot guarantee that all qualified candidates will be accepted. Accepted candidates will be notified as early as possible, but final acceptance may not be until late June.

Notes:
Consult an academic adviser if you have completed English, Canadian studies, mathematics and laboratory science courses other than those listed here. Mathematics and laboratory science courses completed more than ten years ago are not normally accepted.

1. Approved courses include ENGL 135, 146, 147. At least 1.5 units of literature must be included. Teacher Certification regulations do not allow us to accept creative writing, journalism or technical writing courses. The faculty requires students to demonstrate competency in written English. For full information, see 8.1.
2. Acceptable courses include CS 102, ECON 100, HIST 130, 131, 132, POLI 101, 201, SOCI 103.
3. Acceptable courses include MATH 100 or 102, 101, 151, 161, 162. MATH 161 and 162 are recommended. A C+ average is required to demonstrate competency in mathematics.
4. Acceptable courses include ASTR 101, 102, BIOL 190A, 190B, ENS 110, 120 and PHYS 102. ENS 120 is recommended. Other science courses, with an average of at least 11/2 lab hours each week, may also be accepted. Geography (including physical geography), human anatomy, kinesiology and physiology courses are not accepted.

12.2.2 Application and Document Submission Deadlines
An application package is available online at <www.uvic.ca/education> by mid-October. The application(s), applicable application fees and all supporting documents must be received at Undergraduate Admissions and Records by January 2. Transcripts showing completion of course work taken in the January to April period must be received by May 31.

12.2.3 Conditional Offers of Admission
Students offered admission prior to April 30 who drop required courses or whose grade-point average during the January to April term subsequently drops below the minimum will lose their eligibility and the offer will be withdrawn.

12.3 Program Format
BEd Post-Degree Professional Program (Elementary)

This program is designed to be taken over 16 consecutive months: normally September to December; January to May; July and August; and September to December.

Terms One and Two

Eligible for CERTIFICATION and DEGREE
Total Units for Degree......................................................................................... 30.0
13.0 Bachelor of Education Post-Degree Professional Program (Middle Years)

13.1 General Information

This second degree program provides course work and practicum experiences designed to produce a well-qualified middle years school teacher. The program has been designed as a coordinated, sequenced balance of course work and integrated school observational and practical experiences. In addition to school visits, there is a six-week practicum at the end of the first year and an eight-week practicum in the final term.

The program is designed to be taken over four terms. Normally this takes place over 16 months. Students are eligible for a BC teaching certificate and the Bachelor of Education (BEd) degree upon successful completion of this program.

13.2 Program Admission

Initial admission to the Bachelor of Education Post-Degree Professional Program (Middle Years) may be granted only after completion of an undergraduate degree at an accredited university.

13.2.1 Admission Requirements

The requirements for admission to this program are:

1. admissibility to the university
2. a degree from an accredited university
3. 3.0 units of approved English
4. demonstrated competency in written English
5. 3.0 units of approved Canadian studies
6. 3.0 units of approved mathematics with a minimum grade-point average of 3.0 (C+ or B-)
7. 3.0 units of approved laboratory science
8. a sessional grade-point average of at least 4.0 (UVic B-) on the most recent session (if that session is less than 12 units, a grade-point average of at least 4.0 on the most recent 12 units) and on the most recent two years (30 units) attempted to December 31. Grades for duplicate course work are not normally included.
9. Successful participation in an interview normally held in April.

Additional information about the admission requirements can be found online at <www.uvic.ca/education>.

All requirements for admission must be completed by April 30 and documented by May 31. Maximum enrolments have been established; therefore, the faculty cannot guarantee that all qualified candidates will be accepted. Accepted candidates will be notified as early as possible, but final acceptance may not be until late June.

Notes:
Consult an academic adviser if you have completed English, Canadian studies, mathematics and laboratory science courses other than those listed here. Mathematics and laboratory science courses completed more than ten years ago are not normally accepted.

1. Approved courses include ENGL 135, 146, 147. At least 1.5 units of literature must be included.
2. Teacher Certification regulations do not allow us to accept creative writing, journalism or technical writing courses. The faculty requires students to demonstrate competency in written English. For full information, see 8.1.
3. Acceptable courses include CS 102, ECON 100, HIST 130, 131, 132, POLI 101, 201, SOCI 103.
4. Acceptable courses include MATH 100 or 102, 101, 151, 161, 162. MATH 161 and 162 are recommended. A C+ average is required to demonstrate competency in mathematics.
5. Acceptable courses include ASTR 101, 102, BIOL 190A, 190B, EOS 110, 120 and PHYS 120. EOS 120 is recommended. Other science courses, with an average of at least 111/2 lab hours each week, may also be accepted. Geography (including physical geography), human anatomy, kinesiology and physiology courses are not accepted.

13.2.2 Application and Document Submission Deadlines

An application package is available online at <www.uvic.ca/education> by mid-October. The application(s) and any applicable application fees must be received at Undergraduate Admissions and Records by January 2. Transcripts showing course work completed to December 31 must be submitted by January 31. Transcripts showing course work completed to April 30 must be submitted by May 31.

13.2.3 Conditional Offers of Admission

Students offered admission prior to April 30 who drop required courses or whose grade-point average during the January to April term subsequently drops below the minimum will lose their eligibility and the offer will be withdrawn.

13.3 Program Format

BEd Post-Degree Professional Program (Middle Years)

This program is designed to be taken over 16 consecutive months: normally September to December; January to May; July and August; and September to December.

Terms One and Two

ED-D 501 Learners and Learning Environments 1.5
ED-D 420 Learning Support: Context & Key Issues 1.5

Total 18.0

Terms Three and Four

Approved education elective 1.5

14.0 Bachelor of Education (Secondary Curriculum)

14.1 General Information

This is a five-year program for students who wish to teach art, music or physical education in a secondary school.

Students preparing to teach art may enter this program in year two or may first complete a degree in visual arts before applying for the Bachelor of Education Post-Degree Professional Program (Secondary). Refer to 15.0 for information about the secondary PDPP.

Students preparing to teach music may enter this program in year two or may first complete a music degree before entering a teacher education program. Students preparing to teach music normally complete the Bachelor of Music (Secondary Music Education) degree within the Faculty of Fine Arts before applying for the secondary PDPP. Refer to 15.0 for information about the secondary PDPP and to page 99 for information about the Bachelor of Music degree.

Students preparing to teach physical education may enter this program in year two. This is the only program available to prospective secondary physical education teachers.

Those who wish to teach other subjects will take a degree in another faculty and apply for the Bachelor of Education Post-Degree Professional Program (Secondary). Information about the secondary PDPP can be found at 15.0.

14.1.1 Program Details

The first four years of the program are mainly concerned with academic preparation in the teaching subjects. The fifth year, professional year, prepares students for teaching these subjects.

Students are eligible for a professional teaching certificate and the BEd degree upon successful completion of this program.

Teaching Areas

Art
Students may take art as a single teaching area (expanded art) or in combination with another approved teaching area.

Music
Students may take music as a single teaching area (music expanded) or may take choral music or instrumental music in combination with another approved teaching area.
14.2 Program Admission

Initial admission to this program may be granted only after completion of at least one year of university-level studies acceptable to the Faculty of Education and acceptance into at least one of the teaching areas of art, music or physical education.

14.2.1 Admission Requirements

Art Teaching Area

The requirements for admission to the secondary program with an art teaching area are:
1. admisibility to the university
2. at least 12 units of credit that include
   a. 3.0 units from ENGL 135, 146, 147
   b. AE 103A and 103B with a minimum grade point average of 5.0 (UVic B)
3. a sessional grade-point average of at least 3.0 on the most recent session and, if that session is less than 12 units, a grade-point average of at least 3.0 on the most recent 12 units.
4. Approval of the Department of Curriculum and Instruction following an interview with the faculty art education adviser conducted in conjunction with student participation in AE 103A and 103B.

Music Teaching Area

The requirements for admission to the secondary program with a music teaching area are:
1. admisibility to the university
2. at least 12 units of credit that include
   a. 3.0 units from ENGL 135, 146, 147
   b. ME 101 with a minimum grade point average of 5.0 (UVic B)
3. a sessional grade-point average of at least 3.0 on the most recent session and, if that session is less than 12 units, a grade-point average of at least 3.0 on the most recent 12 units.
4. Approval of the Department of Curriculum and Instruction following a successful interview with music education faculty members. Interviews are normally held in March.

Physical Education Teaching Area

The requirements for admission to the secondary program with a physical education teaching area are:
1. admisibility to the university
2. at least 12 units of credit that include
   a. 3.0 units from ENGL 135, 146, 147
   b. EPHE 143
   c. EPHE 143
3. a sessional grade-point average of at least 3.0 on the most recent session and, if that session is less than 12 units, a grade-point average of at least 3.0 on the most recent 12 units.
4. Approval of the School of Exercise Science, Physical and Health Education. Note that an admission score, based 30% on an interview and 70% on GPA, is used when admitting students to this teaching area.

All requirements for admission must be completed by April 30 and documented by May 31.

Maximum enrolments have been established for each of the teaching areas of art, music or physical education; therefore, the faculty cannot guarantee that all qualified candidates will be accepted. Accepted candidates will be notified as early as possible, but final acceptance may not be until mid-June. Students are selected for entry into the program for the following September.

14.2.2 Application and Document Submission Deadlines

New UVic applicants will apply online using the University of Victoria Undergraduate Admissions Application. The application must be submitted to Undergraduate Admissions no later than January 31. Students should refer to information about undergraduate admissions starting on page 21.

Continuing and returning UVic applicants will apply online using the Undergraduate Re-registration Application. This application must be submitted to Undergraduate Records no later than January 31.

Students applying for a physical education teaching area should also refer to the School of Exercise Science, Physical and Health Education’s website for application instructions. <www.uvic.ca/education/phed/pebe_dprg.htm>

14.3 Secondary Program Requirements and Format

Students normally attend this program over five winter sessions. The first year may be taken at UVic in another faculty or at another post-secondary institution, planning for future course work elsewhere should consult an education advisor to ensure that courses taken will carry credit to this program.

Years One to Five

During the first four years, students will take course work related to their teaching areas. Students will also take a two-week school-based practicum.

ENGL 135; 146, 147
ED-D 401
ED-D 406
IED 373
ED-P 498

Approved academic elective
Teaching area(s)
Professional year (year five)

Total

1. Other English courses may be acceptable. Consult an academic adviser. At least 1.5 units of English literature must be taken.
2. Faculty of Education courses cannot be accepted.
3. Students must achieve a grade-point average of at least 3.0 on all upper-level course work required for their teaching areas. In some cases, 200-level course work will be accepted. Refer to regulation 14.3.3 professional year admission requirements.
4. Professional year admission requirements are specified in 14.3.2.

14.3.1 Art, Music and Physical Education Area Requirements

Art

</tr>
</tbody>
</table>

* EDCI 494A and 495A are also acceptable.

A second teaching area is not required. Students with an art expanded teaching area will take 10.5 units of additional electives.

Upper-level visual arts courses may be substituted in the area with the approval of the art adviser.

Up to 3 units of additional work may be required if a student’s background is considered to be inadequate for teaching art in the public school system.

Not all art education courses can be offered each year. Students may complete courses in a sequence of their own choice since there are no prerequisites. Students should consult with the art adviser.

Total: 37.5 units

In addition to the 7.5 units second teaching area courses, 3.0 units of elective in any subject are required.

Physical Education

To avoid timetable conflicts in years three and four, students should follow the recommended sequence of courses shown below.

Year 1
Four of EPHE 104-1371 | 2.0 |
EPHE 141                | 1.5 |
EPHE 143                | 1.5 |

Year 2
Four of EPHE 104-1371 | 2.0 |
EPHE 201                | 1.5 |
EPHE 241B               | 1.5 |
EPHE 245                | 1.5 |
EPHE 246                | 1.5 |

Year 3
Three of EPHE 104-1371 | 1.5 |
EPHE 344                | 1.5 |
EPHE 346                | 1.5 |
EPHE 352                | 1.5 |
EPHE 360                | 1.5 |
One of EPHE 461A-M      | 0.5  |

Year 4
EPHE 361               | 1.5 |
EPHE 443               | 1.5 |
EPHE 452               | 1.5 |
One of EPHE 342, 347, 348, 351, 355, 357, 441, 445, 449, 455. | 1.5 |

Total: 27.0 units

1. Students should note that each skill performance and analysis course (EPHE 104-137) is scheduled for 24 hours of instruction. Students should also refer to Credit for Skill Performance and Analysis Courses. Students should make every effort to take EPHE 106, 107, 120 and 122 before third year.

Students must take:

- One of EPHE 109 or 114, and
- One of EPHE 116 or 117, and
- One of EPHE 121, 123, 124, 125, and
- Two of EPHE 113, 119, 126, 134, 135, 137, and
- Two course from EPHE 104-1372

2. Students must possess their Bronze Medallion Certificate or take CHEM 105. Bronze Medallion Certificate must be provided to the teacher education advising office.

The recommended sequence of EPHE courses can also be found under section 17.1.

A second teaching area is required. PE may not be combined with theatre.

The number of units required for each teaching area varies from 15 to 30.5 units. If the combined units of the chosen teaching areas total less than 48, the student will take additional electives to make up the difference.

Approved Second Teaching Areas

The teaching areas must be taken in conjunction with art, music or physical education.
the Faculty of Education, or admission to professional year will be denied.

**Geography**

see Social Studies (Geography Emphasis)

**History**

see Social Studies (History Emphasis)

**Mathematics**

Two of CSC 106, 110, 115 ......................... 3.0
MATH 100, 101, 122 .............................. 4.5
MATH 211, 212 .................................... 3.0
MATH 362, 366 .................................... 3.0
One of STAT 252, 255, 260 ......................... 1.5
One of STAT 256, 261 .............................. 1.5
Total ................................................. 16.5

In addition to the 16.5 units listed above, MATH 311 and 312 are recommended.

**Music (Choral)**

Restricted admission; see section 14.2. The course work required for this teaching area is listed at the beginning of this section.

**Music (Instrumental)**

Restricted admission; see section 14.2. The course work required for this teaching area is listed at the beginning of this section.

**Physical Education**

Restricted admission; see section 14.2. The course work required for this teaching area is listed at the beginning of this section.

**Physics**

HIST 260 or PHIL 220 ............................ 1.5
MATH 100, 101 ...................................... 3.0
MATH 110 or 211 ................................... 1.5
MATH 200, 201 ...................................... 3.0
MATH 300, 342 ...................................... 3.0
PHYS 112 or (120 and 130) ......................... 3.0
PHYS 214, 215 and 216 ............................ 4.5
PHYS 317, 325 and 326 ............................ 4.5
Total ................................................. 24.0

Changes to this teaching area are expected over the next three years. Consult an academic adviser each year to confirm teaching area requirements.

**Social Studies**

Social studies is a multidisciplinary subject that examines human interaction and natural and social environments. When selecting courses to satisfy the requirements for a social studies teaching concentration or major, keep in mind that the BC secondary social studies curriculum focuses on Europe and North America 1500 – 1815 and Canada, 1815 – present.

**Social Studies (with Geography Emphasis)**

Canadian History (any level)¹ ........................ 1.5
GEOG 101A, 101B ................................. 3.0
200-level GEOG ................................... 3.0
Upper-level GEOG .................................. 6.0
Upper-level approved humanities and/or social science courses (not geography)² ........................... 4.5
Total ................................................. 18.0

¹ Acceptable Canadian History courses include
HIST 131, 132, 343A, 345, 358A, 358D. If an upper-level course is taken, the upper-level humanities and/or social science requirement will be reduced by 1.5 units.

² Choose from economics, environmental studies, history, Indigenous studies, political science, regional studies (e.g., Pacific and Asian studies), sociology, urban studies and/or women’s studies. Other course work may be approved by the social studies adviser.

**Social Studies (with History Emphasis)**

Geography (any level)³ .............................. 1.5
Any-level history ................................... 4.5
Upper-level history .................................. 6.0
Upper-level approved humanities and/or social science courses (not history)² ........................... 6.0
Total ................................................. 18.0

Note: At least 1.5 units of Canadian history must be included.

1. If an upper-level geography course is taken, the upper-level humanities and/or social science requirement will be reduced by 1.5 units.

2. Choose from economics, environmental studies, history, Indigenous studies, political science, regional studies (e.g., Pacific and Asian studies), sociology, urban studies and/or women’s studies. Other course work may be approved by the social studies adviser.

**Theatre/Drama in Education**

EDCI 487 (theatre, drama)* .......................... 1.5
THEA 101 ............................................ 3.0
THEA 102, 122 ....................................... 3.0
THEA 132 ............................................. 3.0
THEA 331, 332 ....................................... 3.0
THEA 335 ............................................. 3.0
Total ................................................. 19.5

* The drama institute EDCI 487 is offered in summer session.

This teaching area may not be combined with physical education.

Students must obtain permission to take THEA 335 from the theatre department.

**14.3.2 Professional Year**

Starting in September, students will take courses on-campus that are directly related to their professional preparation. Normally, all courses required for this year are taken as a co-ordinated program during one full winter session. Because of the professional involvement off-campus during this year, students are not normally permitted to take courses in addition to those specified. Any exceptions must be approved by the manager of teacher education programs. During January students will observe classes in their assigned school. With the start of the school’s second semester students will begin a 12-week practicum. This practicum concludes at the end of April.

Students must be prepared to travel anywhere in British Columbia to take the practicum.

**Professional Year Admission Requirements**

The requirements for admission are:

1. All courses specified for years one through four of the program must be complete.

2. Candidates presenting a second language teaching area must pass an oral competency examination.

3. Successful completion of the faculty’s written English competency requirement. Students should refer to 8.1.

4. The candidate must have obtained either:

- a grade-point average of at least 4.0 (UVic B-) on the upper-level courses required for each of the two teaching areas. Where fewer than 9 units of upper-level work have been completed in any one area, the grade-point average will be calculated on the upper-level courses plus one or more of the 200-level courses in that area, to a total of 9 units; or

- a grade-point average of at least 4.0 (UVic B-) on the upper-level courses of any single expanded teaching area (Note: where fewer than 18 units of upper-level work have been completed in the area, the calculation will include area courses at the 200-level to a total of 18 units) and if the area is music expanded, a grade-point average of at least 4.0 is required on the 7.5 units of other area work.

5. A grade-point average of at least 3.0 (UVic C+) must have been obtained on:

- the most recently completed session; and

- the most recent two years of at least 30 units

Normally all of the above requirements must be complete by April 30 of the year in which an applicant wishes to begin the professional year. Any applicants unable to meet this deadline who wish to complete course requirements during the summer session must apply to the manager of teacher education programs, indicating why they believe their circumstances to be unusual, and requesting permission to be considered for admission on the basis of the results of their work during the summer period.

Applicants for the professional year should be aware that the Faculty of Education has maximum enrollment limits and that therefore all qualified applicants are not guaranteed acceptance. Applicants will be notified regarding their admissibility as soon as possible.

Details regarding start and end dates are available on the Faculty of Education's website at <www.uvic.ca/education>.

**Professional Year Application and Document Submission Deadlines**

An application is available online at <www.uvic.ca/education> normally by the end of October. The application must be completed and submitted to the Teacher Education Advising Office no later than January 2.

Students taking course work elsewhere during the September to December term must submit official transcripts, showing final grades to December 31, to Undergraduate Records no later than January 31. Students taking course work elsewhere during the January to April term must submit official transcripts, showing final grades to April 30, to Undergraduate Records no later than May 31.

15.0 Bachelor of Education Post-Degree Professional Program (Secondary)

15.1 General Information
This program is designed for students registered in the Diploma in Secondary Teacher Education program. Diploma students may transfer to the BEd program before or after qualifying for a BC teaching certificate. Information about the diploma program can be found in section 16.6. The courses needed to obtain the Bachelor of Education degree must be completed within a ten year period following completion of the diploma.

To qualify for the BEd, students with non-music teaching areas will take 6 units of thematically related course work relevant to the BC secondary curriculum. To facilitate degree completion within a sixteen-month period, courses are normally scheduled during the summer session. Students wishing to complete the BEd on a part-time basis must consult an academic adviser. Students admitted with a music teaching area will take 15 units of approved course work in addition to the courses required for the diploma to qualify for the BEd. This course work is determined in consultation with an academic adviser. It is strongly recommended that students choose thematically related courses in order to develop a second area of expertise relevant to the school curriculum.

15.2 Program Admission
Admission to this BEd program is restricted to those students enrolled in the Diploma in Secondary Teacher Education program. Refer to section 16.6 for information regarding admission to the Diploma in Secondary Teacher Education.

15.3 Program Formats
Refer to section 16.6 to view the courses required for the Diploma in Secondary Teacher Education.

16.0 Certificate and Diploma Programs

16.1 Professional Specialization Certificate in Information Communication Technology
This Professional Specialist Certificate provides important background and training for teachers and other educational professionals to gain knowledge, skills, and experience in incorporating new communication technologies for instructional purposes.

The certificate will be delivered through a combination of face-to-face and distance delivery.

16.3 Certificate and Diploma Programs in Special Education

16.3.1 Professional Specialization Certificate in Special Education
The department of Educational Psychology and Leadership Studies offers a Professional Specialization Certificate (PSC) in Special Education. This 7.5 unit program is designed for teachers who have an undergraduate degree and teacher certification. Normally, students entering the program will also have two years teaching or equivalent experience. As a condition of admission to all Special Education programs, students must undergo a Criminal Record Check in compliance with the BC Criminal Records Review Act. Using a variety of course delivery methods, the certificate courses are designed and scheduled to be completed part-time. The general focus of the certificate program are: high and low incidence special needs and their effect on development, learning, and behaviour; legal and ethical issues in the delivery of services to students with special needs; BC Ministry of Education Policies and Procedures; collaboration and consultation in special education; special education assessment (level B) and identification of learning needs; and individualized education program (IEP) design, delivery, and evaluation.

16.3.2 Diploma in Special Education
The Department of Educational Psychology and Leadership Studies offers a Diploma in Special Education. This is a 15-unit program that combines the first 7.5 units found in the Professional Specialization Certificate Program in Special Education with coursework in advanced intervention of developmental disabilities and behaviour challenges; the application of assistive technologies, inclusive instruction and effective consultation skills. Students can only enter the Diploma following the completion of the Professional Specialization Certificate in Special Education. All certificate credits are eligible to be transferable into the Diploma. Up to 1.5 units of approved transfer credit will be accepted to the Diploma in Special Education, providing prior approval has been received from the departmental Special Education Committee.

</table>

* Students wishing to pursue an M.A. or M.Ed. following completion of the certificate may, subject to approval, apply 3 units of their certificate course work toward their graduate degree in Special Education.

No transfer credit from outside institutions can be used for credit in the Professional Specialization Certificate in Special Education. ED-D 402, 405 or 415 can be used for credit when taken outside the requirements of a previous degree, certificate or diploma, and completed within 5 years of the date of application to the Certificate program.

**Program Fee**
Upon entry, students in the PSC in Special Education pay a non-refundable fee of $350.00.

16.4 Diploma in Intercultural Education and Training
This is a 15.0 unit interdisciplinary program for students and professionals working or planning to work in a multicultural or cross-cultural environment. Students should refer to page 223 for more information. Students should consult the Division of Continuing Studies regarding program details and regulations. Information is also available online at <www.uvic.ca/edcations>.

16.5 Diploma in Indigenous Language Revitalization
The Diploma in Indigenous Language Revitalization aims to assist people who want to build on their Indigenous language skills, better understand the contexts in which Indigenous languages can be successfully taught and gain some basic teaching skills. This may include people who are interested in a credential that will allow them to teach a First Nations language in a First Nation administered school or a BC public school. (A First Nations Language Certificate must be sought from the BC Ministry of Education through the support of the student’s local Language Authority).

Normally students entering into the program will have completed the Certificate in Aboriginal Language Revitalization. Once they complete this certificate, and 1.5 units of English (or equivalent) they will be admissible to the Diploma in Indigenous Language Revitalization.

This program is available in a partnership format only and therefore, generally, students would go through the program a cohort. Course transfer possibilities will be dealt with on a case-by-case basis.

16.6 Diploma in Secondary Teacher Education
16.6.1 General Information
The diploma program, designed for degree holders, provides the education courses needed to obtain a teaching certificate in British Columbia. Courses taken for the diploma may be applied towards the Bachelor of Education degree. See section 15.0.

Students with a music teaching area take 15 units of specified courses over two academic terms. An extended practicum takes place in the second term.

Students with other teaching areas take 24 units of specified courses offered in three terms over a 16-month period. A six-week practicum takes place at the end of the second term and an eight-week practicum takes place in the final term. All students must be prepared to travel anywhere in British Columbia for the practicum.

Upon satisfactory completion of the diploma program, a student will be eligible to apply to the BC Ministry of Education for a teaching certificate. Satisfactory completion means achieving a grade-point average of at least 3.00 (UVic C+) on the required course work and successful completion of all practicum requirements.

16.6.2 Program Details
Because of the professional demands of this program, students are not normally permitted to take courses in addition to those specified. Usually all specified course work must be taken in the order assigned. The practicum will be denied or delayed if the requisite course work is not completed to satisfactory standard.

16.6.3 Program Admission
Initial admission to the Diploma in Secondary Teacher Education may be granted only after completion of an undergraduate degree and academic preparation in two teaching concentrations or in one teaching major.

Additional information about the admission requirements can be found online at <www.uvic.ca/edcations>.

There is a quota on each of the teaching subject areas of this program.

16.6.4 Admission Requirements
The requirements for admission are:
1. a degree from an accredited university
2. a sessional grade-point average of at least 3.0 on the most recent session, and, if that session is less than 12 units, a grade-point average of at least 3.0 on the most recent 12 units, and on the most recent two years (30 units) (to December 31)
3. three units of approved English
4. demonstration of written English competency; for full information see 8.1
5. academic preparation in two teaching concentrations or in one teaching major listed below
6. successful participation in an interview normally held in April.

Approved courses include UVic’s ENGL 135, 146, 147. At least 1.5 units of English literature must be included. Teacher Certification regulations do not allow us to accept creative writing, journalism or technical writing courses.

2. Normally, 9 units (18 semester hours) of approved upper-level credit with a minimum B-average (UVic 4.0). See specific teaching concentrations for details.
3. Normally, 15 units (30 semester hours) of approved upper-level credit with a minimum B-average (UVic 4.0). See specific teaching majors for details.

Information and communication technology integration, theatre and second languages other than French are not available as teaching majors nor may they be combined with one another.

4. The interview is waived for students applying with a music teaching area as these students are interviewed for admission to the Bachelor of Music program.

Teaching Subject Areas
Students with any one of the following teaching subjects: Information and Communication Technology Integration, Japanese, Mandarin, Russian, Spanish or Theatre must meet the requirements. A second approved teaching major from outside this list is available.

Additional information about the course work required for the teaching areas described below can be found on the Faculty of Education website: <www.uvic.ca/education>.

a) Art: Major or Concentration
Content is approved by the faculty art education advisor.

b) Biology: Major or Concentration
- 1.5 units approved mathematics or logic; 1.5 units history or philosophy of science, medicine or technology; and 1.5 units organic chemistry.
- at least one course in at least 4 of the following 5 areas: cell biology, genetics, botany, zoology, environmental studies.
- at least 12 units of biological sciences course work of which at least 9 units are upper-level.

c) Chemistry: Major or Concentration
- 1.5 units approved mathematics or logic; 1.5 units history or philosophy of science, medicine or technology; and 1.5 units of astronomy, biology, earth science or physics.
- at least one course in at least 3 of the following 4 areas: organic chemistry, chemical analysis, reaction chemistry, applications of chemistry.
- at least 12 units of chemistry of which at least 9 units are upper-level.

d) Computer Science:
Major: A computer science or related degree with at least 12 units of upper-level computer science, software engineering or computer engineering course work.

Concentration: 12 units of course work that include: AE 322; 1 of CSC 100, 105 or HUMA 150; CSC 110 or 111; CSC 152; 2 of CSC 106, 167; CSC 230 or CENG 255; CENG 460, SENG 265; EDCI 337; SENG 130.

e) English:
Major: A four-year English major or honours degree or UVic’s Combined English and French (Canadian Literature) degree. Three-year degrees will be reviewed by the faculty advisor.

Concentration: 15 units of course work that include: 3 units of 200, 300 or 400-level business, creative, expository, or technical writing; 1.5 units of upper-level Shakespeare; 3.0 units of upper-level English literature before 1900 (not Canadian); 3.0 units of upper-level English literature after 1900 (not Canadian); 3.0 units any level Canadian literature; 1.5 units any level adolescent literature.

f) French: Major or Concentration
- 15 units of upper-level French language and/or literature courses are required for a teaching major; 9 units for a teaching concentration. Courses taught in English are not normally accepted.
- Applicants must pass an oral competency examination unless FRAN 350 has been completed with a grade of A- or better.

g) **General Science:** Major or Concentration
- 15 units approved mathematics or logic; 15 units history or philosophy of science, medicine or technology.
- at least 13.5 units of approved science course work of which at least 10.5 units are upper-level. Approved science include astronomy, biochemistry, biology, chemistry, earth and ocean sciences, microbiology, microchemistry, physics.

h) **Japanese:** Concentration only
- 9 units of upper-level Japanese language and/or literature courses. Courses taught in English are not normally accepted. Applicants must pass an oral competency examination. An approved teaching major must be combined with Japanese.

i) **Information and Communication Technology Integration:** Concentration only
- 12 units of course work that include: AE 322; one of CSC 100, 105 or HUMA 150; EDCI 337; 339; EDCI 355; ENGL 401; two of AE 422, ENGL 305, 407, 408, 412, 416. Other course work may be approved by the faculty educational technology adviser.

j) **Mandarin:** Concentration only
- 9 units of upper-level Mandarin language and/or literature courses. Courses taught in English are not normally accepted. Applicants must pass an oral competency examination. An approved teaching major must be combined with Mandarin.

k) **Mathematics:**
- Major: A degree with a math major or honours or 15 units of upper-level mathematics.
- Concentration: A degree with a math minor, major or honours, 9 units of upper-level mathematics or the Mathematics Teaching Concentration as outlined on page 62.

l) **Music:** Major or Concentration
UVic Bachelor of Music with a major in music education (secondary) or an equivalent degree from elsewhere determined by the faculty music education adviser.

m) **Physics:** Major or Concentration
- 15 units approved mathematics or logic; 15 units history or philosophy of science, medicine or technology; and 1.5 units of astronomy, biology, chemistry or earth science.
- at least one course in at least 4 of the following 5 areas: optics, quantum mechanics, mechanics, electromagnetic theory, applications of physics.
- at least 12 units of physics of which at least 9 units are upper-level.

n) **Russian:** Concentration only
- 9 units of upper-level Russian language and/or literature courses. Courses taught in English are not normally accepted. Applicants must pass an oral competency examination. An approved teaching major must be combined with Russian.

o) **Social Studies:**
Social studies is a multidisciplinary subject that examines human interaction and natural and social environments. When selecting courses to satisfy the requirements for a social studies teaching concentration or major, keep in mind that the secondary social studies curriculum focuses on Europe and North America 1500 – 1815; Canada 1815 – present.

Major: 1.5 units geography; 1.5 units history; 1.5 units Canadian studies; 15 units upper-level social studies-related courses Concentration: 1.5 units geography; 1.5 units history; 1.5 units Canadian studies; 12 units of social studies-related courses. At least 9 units must be upper-level.

1. A 1.5 unit Canadian history course will satisfy both the Canadian studies and history requirements; a 1.5 unit Canadian geography will satisfy both the Canadian studies and geography requirements.

2. Social Studies related courses from economics, geography, history, political science and sociology will be accepted. Courses from Asian studies, Canadian studies, environmental studies, Indigenous studies, urban studies and women’s studies may be accepted if related to economics, geography, history, political science and sociology.

Anthropology, criminology, Greek and Roman studies, international relations, law and religious studies courses will be considered on a case-by-case basis. Normally, no more than 1.5 units from any one of these disciplines will be accepted.

Students wishing to teach grade 12 geography or history should complete a degree with a major or minor in geography or history.

p) **Spanish:** Concentration only
- 9 units of upper-level Spanish language and/or literature courses. Courses taught in English are not normally accepted. Applicants must pass an oral competency examination. An approved teaching major must be combined with Spanish.

q) **Theatre:** Concentration only
- A degree in applied theatre or 16.5 units of course work that include: THEA 101, 102, 122, 132, 331, 332, 335 and EDCI 487 (Spécial Topics in Education: Drama Education).

1. Because these languages are not taught in every BC secondary school, it may not be possible to find a suitable practicum placement. In that event, the practicum placement will be made based on the teaching major.

**16.6.5 Application and Document Submission Deadlines**
An application package is available online at [www.uvic.ca/education](http://www.uvic.ca/education) after October 15. Applications and all applicable fees are to be submitted to Undergraduate Admissions and Records no later than January 2. Transcripts showing course work completed to December 31 must be submitted by January 31. Transcripts showing course work completed to April 30 must be submitted by May 31.

**16.6.6 Conditional Offers of Admission**
Students offered admission prior to April 30 who drop required courses or whose session grade-point average at April 30 falls below the minimum of 3.00 will lose their eligibility and the offer will be withdrawn.

**16.6.7 Program Formats**
Students with a music teaching area will take the program shown at (b). All others will take the program shown at (a).

a) **Diploma in Secondary Teacher Education**
On completion of this program, students are eligible to receive a Diploma in Secondary Teacher Education and a BC teaching certificate.

**17.0 School of Exercise Science, Physical and Health Education**

The School of Exercise Science, Physical and Health Education does not permit students to gain EPHE course credit by course challenge and does not normally grant permission to officially audit EPHE courses.
### 17.1 Bachelor of Education (Secondary Curriculum) Program (BEd) – Physical Education Teaching Area

For detailed information about the five year Bachelor of Education (secondary curriculum) Program - Physical Education teaching area, please refer to 14.0.

#### Admission Requirements

The requirements for admission to the secondary program with a physical education teaching area are:

1. admisibility to the university
2. at least 12 units of credit that include:
   a. 3.0 units from ENGL 135, 146, 147
   b. EPHE 141
c. EPHE 143

3. a sessional grade-point average (GPA) of at least 3.0 on the most recent session and, if that session is less than 12 units, a grade-point average of at least 3.0 on the most recent 12 units (determined by using a combination of the GPA achieved in the current session and the GPA from the previous session applied to the number of units required to reach the 12 unit minimum. Achieving the minimum GPA for the program does not ensure acceptance.

4. Approval of the School of Exercise Science, Physical and Health Education. Note that an admission score, based 30% on an interview and 70% on GPA, is used when admitting students to this teaching area.

All requirements for admission must be completed by April 30 and documented by May 31.

The quota established for the teaching areas of physical education is 40, therefore, the faculty cannot guarantee that all qualified candidates will be accepted. Accepted candidates will be notified as early as possible, but final acceptance may not be until mid-June. Students are selected for entry into the program for the following September.

#### Recommended Sequence of EPHE courses

(Refer to 14.3 for other program requirements) – to avoid timetable conflicts in years three and four, students should follow the recommended sequence of courses shown below:

<table>
<thead>
<tr>

1. Students should note that each skill performance and analysis course (EPHE 104-137) is scheduled for 24 hours of instruction. Students should also refer to Credit for Skill Performance and Analysis Courses. Students should make every effort to take EPHE 106, 107, 120 and 122 before third year.

Students must take:
- EPHE 106, 107, 120, 122
- One of EPHE 109 or 114
- One of EPHE 116 or 117
- One of EPHE 121, 122, 124, 125
- Two of EPHE 113, 119, 126, 134, 135, 137
- Two courses from EPHE 104-137³.

2. Must have the prerequisites for course selected.

3. Students must possess their Bronze Medallion Certificate or take EPHE 105. Bronze Medallion Certificates must be provided to the teacher education advising office.

A second teaching area is required (see Approved Second Teaching Areas Requirements). PE may not be combined with theatre.

The number of units required for each teaching area varies from 15 to 30.5 units. If the combined units of the chosen teaching area's total is less than 48, the student will take additional electives to make up the difference.

### 17.2 Bachelor of Arts (BA) - Major in Recreation and Health Education Co-operative Education Program

The Recreation and Health Education (RHED) program is an interdisciplinary program and prepares students to enter the fields of recreation, wellness and health promotion, leadership and administration primarily in the public and not-for-profit sectors. It provides preparation in practice, implementation, evaluation and supervision of recreation, leisure, fitness, wellness and health promotion policies and programs that support social changes.

The Recreation and Health Education program is a minimum of a 4.5 year degree leading to the degree of Bachelor of Arts. It is available only on a co-operative model basis. Please refer to the general description of the Co-operative Education concept and general regulations governing all co-operative education students.

The School of Exercise Science, Physical and Health Education accepts approximately 30 students each year into the BA Recreation and Health Education Major program.

Students transferring from college and universities should complete an Application for Admission form available from Undergraduate Admissions or online at [register.uc.vic.ca/undergrad](http://register.uc.vic.ca/undergrad). Reregistering UVic students may download, print and complete an application at the School of Exercise Science, Physical and Health Education form available on the School's website: <www.uvic.ca/education/phed/selprocs.htm>.

Students are selected for entry into the program for the following September.

The deadline for receipt of application forms is January 31. New student applications must be sent to Admission Services. Reregistering UVic student applications must be sent to Records Services.

Applications will be considered from those who meet the following:

1. at least 12 units of credit, including 3 units of English (ENGL 135 and one of 146, 147, 225)
2. an interview by the School of Exercise Science, Physical and Health Education
3. academic preparation which includes the following:
   - EPHE 143 (1.5)
   - a minimum grade point average of 4.0 (on a 9-point scale) on the most recent session. For students currently registered in less than 12 units, the GPA will be determined by using a combination of the GPA achieved in the current session and the GPA from the previous session applied to the number of units required to reach the 12 unit minimum. Achieving the minimum GPA for the program does not ensure acceptance.
4. all requirements for admission must be completed by April 30 and documented by May 31.

All students should follow the academic guidelines described in section 17.2.1. With a high grade point average, applicants to the co-op program in Recreation and Health Education may be provisionally admitted into a Co-operative Education work term prior to formal admission into the RHED program. Such students, with authorization from the Office of the Executive Director, Co-operative Education, may undertake a first co-op work term. In such cases, the co-op work term will be recorded on the transcript as COOP 001 and, if successfully completed, will be accepted as one of the required work terms for the student's co-op program. Subsequent work terms must be done as part of the Recreation and Health Education program. Authorization to take a co-op work term does not guarantee admission to the School of Exercise Science, Physical and Health Education.

In order to continue in this program, a grade point average of at least 3.5 is required in every session attended. If a student is on probation, then no units of credit will be allowed during the work term. Students are reminded of their responsibility to maintain the minimum academic performance required by the Faculty of Education (see Section 7.5.2). Students with a GPA below 3.0 in an academic term will not be eligible to participate in the next scheduled co-op work term.

Students must complete four work terms. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35. Each work term is noted on the student's academic record (grading: COM, F/X or N/X). A student who does not complete a work term satisfactorily will normally be required to withdraw from the program, but the Recreation and Health Education Committee may, upon review, authorize a further work term.

- [www.uvic.ca/education/phed/selprocs.htm](http://www.uvic.ca/education/phed/selprocs.htm)
Students registered for work terms are considered to be enrolled in a full-time course of studies and may not take university-level credit courses while on a work term. Under extraordinary circumstances, students may submit, in writing, to the Co-operative Education Coordinator, School of Exercise Science, Physical and Health Education, a request to register in a maximum of 1.5 units of university level course credit. Students should not expect to complete all their work terms in the summer months, nor should they expect to complete their program on a work term or series of work terms.

Students must sign a current Terms and Conditions document as provided by the Co-operative Education Coordinator, School of Exercise Science, Physical and Health Education in order to be eligible to participate in the placement process.

Participation in EPHE 200 Co-op Seminar is a mandatory requirement for all School of Exercise Science, Physical and Health Education co-op students. This course is a co-requisite for students participating in the placement process prior to their first work term. EPHE 200 is offered in the September to December academic term. Students will be provided more information regarding the content and requirements for completion of this seminar upon admission to the RHED program.

Students are expected to participate fully in the placement process. While every attempt will be made to ensure that all eligible students are placed, the School of Exercise Science, Physical and Health Education is under no obligation to guarantee placement. Students are only permitted to decline one valid co-op job offer, any more than that and they will be deemed ineligible to participate in the placement process for the remainder of that term. Students should be prepared to spend at least one work term outside the Greater Victoria area.

The Co-op Program Coordinator, School of Exercise Science, Physical and Health Education reserves the right to approve any employer that provides placements for students and to withdraw a student from any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any withdrawal and can follow the student appeal procedures as outlined in the Co-operative Education Program section of the calendar. Students may not withdraw from a placement without approval from the Co-op Coordinator. Failure to obtain permission will result in the student receiving a grade of F/X on the work term.

Students must be officially registered for the work term by completing the Work Term Registration Form, which is provided by the School of Exercise Science, Physical and Health Education Co-op office, and provide any other required documentation prior to the start of the work term. A Co-op Program Fee, which is non-refundable, is due in the first month of each work term and is subject to the University’s general fee regulations.

Ethical and Professional Behaviour:
While on co-operative education work terms students are responsible for acting in an ethical and professional manner.

### Attendance:
While on co-operative education work terms students are expected to have regular attendance, be punctual at the work place and to notify their co-operative education coordinator whenever work term requirements cannot be kept.

### Denial of co-operative education placement:
Students will be denied a co-operative education placement if their preparation in required course work and/or EPHE 200 is deemed unsatisfactory by their instructor(s) and/or the Director of the School of Exercise Science, Physical and Health Education.

### Withdrawal from co-operative education placement:
Students may be required to withdraw from the co-operative education placement with a failing grade if their performance in the workplace or their workplace preparation is considered unsatisfactory by the work site supervisor, co-operative education coordinator and the academic program coordinator.

### Voluntary Placement Withdrawal:
Students seeking voluntary withdrawal during a placement must receive permission to do so from the co-operative education coordinator and program coordinator. Their request must be in writing and contain the reasons for the request. Students whose performance is deemed unsatisfactory at the time of withdrawal will receive a failing grade.

The performance of students in the Recreation and Health Education Co-operative Education Program will be reviewed after each campus term and each work term. Students whose performance is deemed unsatisfactory by the Recreation and Health Education Committee will be so informed and will be advised by the Committee of the conditions they are to satisfy in order to remain in the program.

**Work Term I**

### 2012-13 UVIC CALENDAR

#### Year Four

**September-December:**
- One of EPHE 104-137\(^1\)                      | 0.5   |
- EPHE 351                                    | 1.5   |
- EPHE 358                                    | 1.5   |
- EPHE 360                                    | 1.5   |
- One Elective\(^2\)                           | 1.5   |

**January-April:**
- Work Term II

**May-August:**
- ENGL 225                                   | 1.5   |
- EPHE 359                                   | 1.5   |
- EPHE 356                                   | 1.5   |
- ED-D 417                                   | 1.5   |
- ED-D 418                                   | 1.5   |
- One Elective\(^2\)                          | 1.5   |
- **Total**                                   | **15.5**

#### Year Five

**September -April:**
- EPHE 454                                   | 1.5   |
- EPHE 445                                   | 1.5   |
- Three Electives\(^2\)                       | 4.5   |
- **Total**                                   | **7.5**

**Total Units for Degree**                  | **60.0**

1. Students must complete three skill performance and analysis courses from EPHE 104-137.
2. Of the 18.0 units of electives, normally 7.5 units must be approved upper-level courses from outside the Faculty of Education. As an option, 1.5 units of the 7.5 may be any EPHE 300- or 400-level course for which you have the prerequisites.

#### 17.2.2 Interfaculty Minor

A student who completes the requirements for the RHED program, and also completes the courses prescribed for one of the academic units listed under the General Program or the courses prescribed in the Calendar for a Minor program offered in another faculty, will receive a Minor in that academic unit. The Minor will be added to the student’s academic record only if the courses taken for the Minor are not part of the core requirements for the RHED program, and only if the student formally declares the Minor program through the EPHE Adviser. Only one Minor may be declared. Students interested in pursuing an Interfaculty Minor should discuss this program with the EPHE Adviser. Note that a Minor in Kinesiology is not available.

#### 17.3 Bachelor of Science (BSc) Kinesiology

The School of Exercise Science, Physical and Health Education offers Major programs in the area of Kinesiology, which include the option of
studying under a co-operative education model. An Honours degree is also available to those students seeking research experience. The Major program requires a degree of specialization in the last two years of study. This degree may permit students to proceed to a professional position in the various fields associated with Kinesiology, or to proceed towards graduate study, or medical or paramedical studies (including chiropractic, physiotherapy, occupational therapy).

Students should note that many of the course requirements of the BSc degree have secondary school prerequisites, including a minimum of Biology 11, Chemistry 11 (Chemistry 12 recommended), Pre-calculus 12 and Physics 12. See Note 2 in 17.3.2.

The School of Exercise Science, Physical and Health Education accepts a total of 30 students each year into the BSc Kinesiology Major and Major Co-operative programs.

### 17.3.1 BSc Kinesiology Major and Major Co-op Admission Requirements

The deadline for receipt of application forms is January 31. New student applications must be sent to Admission Services. Reregistering UVic student applications must be sent to Records Services. Students are selected for entry into the program for the following September.

Students transferring from colleges and universities should complete an Application for Admission available from [registrar.uvic.ca/undergrad](http://registrar.uvic.ca/undergrad). Reregistering UVic students may download, print and complete an Application to the School of Exercise Science, Physical and Health Education form available on the School’s website: [www.uvic.ca/education/PHED/selfprocs.htm](http://www.uvic.ca/education/PHED/selfprocs.htm).

The requirements for admission to the BSc Kinesiology Major and Major Co-op programs are:

1. at least 12 units of credit including:
   - a minimum of 6 units of science (from BIOL, CHEM, MATH, PHYS, STAT 255, EPHE 141, 241A, 241B)
   - 3 units of English (ENGL 135, and one from 146, 147, 225)
   - EPHE 143

2. a minimum grade point average of 5.0 ("B" average) on the most recent session. For students currently registered in less than 12 units, the GPA will be determined by using a combination of the GPA achieved in the current session and the GPA from the previous session applied to the number of units required to reach the 12 units. Achieving the minimum GPA for the program does not ensure acceptance.

3. all requirements for admission must be completed by April 30 and documented by May 31.

In order to continue in the program, students require a grade point average of at least 3.0 (3.5 for Co-op) in every session.

**Total for year** | **15.0**

**Total Units for Degree** | **60.0**

1. Science designated course. The Bachelor of Science Kinesiology degree requires 33 science-designated units (see also note 3 regarding electives).
2. Students who do not have the prerequisite second-year school courses (Pre-Calculus 12 and Physics 12) OR who do not have the required grade of "B" in these courses may take MATH 102 (1.5 units) and PHYS 102 (3.0 units). Students who take this option will add an additional 1.5 units, which will not be utilized in the 60 unit Kinesiology degree.
3. At least 12 units of electives must be selected from courses offered by the following science departments, and at least 9 of these must be at the 300 or 400 level: Biochemistry and Microbiology, Biology, Chemistry, Computer Science, Mathematics and Statistics, and Physics and Astronomy.

In addition, approved courses offered by the Departments of Psychology and Anthropology, and the School of Earth and Ocean Sciences may be used as science electives; a complete list of approved courses can be obtained from Exercise Science, Physical and Health Education Advising or our website [www.uvic.ca/education/phed/BScKinesiologyScienceElectives.htm](http://www.uvic.ca/education/phed/BScKinesiologyScienceElectives.htm). Courses in these departments designated for non-science students will NOT be accepted as part of the 12 units of required sciences in the BSc Kinesiology programs.

### 17.3.3 BSc Major in Kinesiology – Co-operative Education Program

The Kinesiology Co-operative Education program is a year-round program, which enables students to integrate their academic experiences with workplace learning. Please refer to the general description of the Co-operative Education concept and general regulations governing all co-operative education students, starting page 45.

All students should follow the academic guidelines described in section 17.3.4. With permission of the Program Coordinator, Kinesiology co-op students may voluntarily withdraw from Co-operative Education and remain enrolled in the Kinesiology degree program.

With a high grade point average, applicants to the co-op program in Kinesiology may be provisionally admitted into a Co-operative Education work term prior to formal admission into the Kinesiology co-op program. Such students, with authorization from the Office of the Executive Director, Co-operative Education, may undertake a first co-op work term. In such cases, the co-op work term will be recorded on the transcript as COOP 001 and, if successfully completed, will be accepted as one of the required work terms for the student's co-op program. Subsequent work terms must be done as part of the Kinesiology program. Authorization to take a co-op work term does not guarantee admission to the School of Exercise Science, Physical and Health Education.

Work term credit by challenge is not permitted in the BSc Kinesiology Co-op program.

In order to continue in this program, a grade point average of at least 3.5 is required in every session attended. If a student is on probation, then no units of credit will be allowed during the work term. Students are reminded of their responsibility to maintain the minimum academic performance required by the Faculty of Education (see Review of Academic Performance). Students with a GPA below 3.0 in an academic term will not be eligible to participate in the next scheduled co-op work term.

Students must complete three work terms. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35. Please note that participation in the co-operative education program adds to the length of time required for successful degree completion.

Each work term is noted on the student's academic record (grading: COM, N/X or F/X). A student who does not complete a work term satisfactorily will normally be required to withdraw from the program but the Kinesiology Committee may, upon review, authorize a further work term.

Students registered for work terms are considered to be enrolled in a full-time course of studies and may not take university level credit courses while on a work term. Under extraordinary circumstances, students may submit, in writing to the Co-operative Education Coordinator, School of Exercise Science, Physical and Health Education, a request to register in a maximum of 1.5 units of university level course credit. Students should not expect to complete all their work terms in the summer months, nor should they expect to complete their program on a work term or series of work terms.
Students must sign a current Terms and Conditions document as provided by the Co-operative Education Coordinator, School of Exercise Science, Physical and Health Education in order to be eligible to participate in the placement process.

Participation in EPHE 200 Co-op Seminar is a mandatory requirement for all School of Exercise Science, Physical and Health Education co-op students. This course is a co-requisite for students participating in the placement process prior to their first work term. EPHE 200 is offered in the September to December academic term. Students will be provided more information regarding the content and requirements for completion of this seminar upon admission to the KINE program.

Students are expected to participate fully in the placement process. While every attempt will be made to ensure that all eligible students are placed, the School of Exercise Science, Physical and Health Education is under no obligation to guarantee placement. Students are only permitted to decline one valid co-op job offer, any more than that and they will be deemed ineligible to participate in the placement process for the remainder of that term. Students should be prepared to spend at least one work term outside the Greater Victoria area.

The Co-op Program Coordinator, School of Exercise Science, Physical and Health Education reserves the right to approve any employer that provides placements for students and to withdraw a student from any placement assigned to a student. The student, however, has the rights to be informed in writing of the reasons for any withdrawal and may appeal procedures as outlined in the Co-operative Education Program section of the calendar. Students may not withdraw from a placement without approval from the Co-op Coordinator. Failure to obtain permission will result in the student receiving a grade of F/X on the work term.

Students must be officially registered for the work term by completing the Work Term Registration Form, which is provided by the School of Exercise Science, Physical and Health Education Co-op office, and provide any other required documentation prior to the start of the work term. A Co-op Program Fee, which is non-refundable, is due in the first month of each work term and is subject to the University’s general fee regulations.

Ethical and Professional Behaviour:
While on co-operative education work terms students are responsible for acting in an ethical and professional manner.

Attendance:
While on co-operative education work terms students are expected to have regular attendance, be punctual at the work place and to notify their co-operative education coordinator whenever work term requirements cannot be kept.

Denial of co-operative education placement:
Students will be denied a co-operative education placement if their preparation in required course work and/or EPHE 200 is deemed unsatisfactory by their instructor(s) and/or the Director of the School of Exercise Science, Physical and Health Education.

Withdrawal from co-operative education placement:
Students may be required to withdraw from the co-operative education placement with a failing grade if their performance in the workplace or their workplace preparation is considered unsatisfactory by the work site supervisor, co-operative education coordinator and the academic program coordinator.

Voluntary Withdrawal:
Students seeking voluntary withdrawal during a placement must receive permission to do so from the co-operative education coordinator and program coordinator. Their request must be in writing and contain the reasons for the request. Students whose performance is deemed unsatisfactory at the time of withdrawal will receive a failing grade.

The performance of students in this program will be reviewed after each campus term and each work term. Students whose performance is deemed unsatisfactory will be so informed and will be advised of the conditions they are to satisfy in order to remain in the program.

17.3.4 Recommended Sequence of Required Courses BSc Kinesiology Major - Co-operative Education
Years 1 and 2 are the same as for the non-co-op Major. See 17.3.2 and notes 1, 2, and 3.
At the end of Year Two:
Work Term #1

Year Three
Work Term #2 and possibly #3
EPHE 3411 ........................... 1.5
EPHE 3441 ........................... 1.5
EPHE 359 (summer) ............... 1.5
EPHE 3601 ................................ 1.5
EPHE 3801 ........................... 1.5
EPHE 300-400 level .................. 3.0
Electives3 .............................. 4.5
Total for year .......................... 15.0

Year Four
Work Term #3
EPHE 4411 ........................... 1.5
EPHE 4441 ........................... 1.5
One of EPHE 355 or 456 .......... 1.5
EPHE 300-400 level ................. 4.5
Electives3 .............................. 6.0
Total for year .......................... 15.0
Total Units for Degree .............. 60.0

17.3.5 BSc Kinesiology Honours
Students in the Kinesiology Major program seeking an Honours degree should apply to the Kinesiology program coordinator before the start of the third year of the program. Applicants require a minimum 6.0 grade point average in all EPHE courses (excluding EPHE 100 level courses) and a grade point average of 5.0 in non-EPHE courses.

If accepted, honours students are responsible for finding a supervisor for their honours thesis. All requirements should be completed within five academic years. The completed thesis will be examined by a three-person committee including the supervisor. To graduate with an honours degree, a student must have a minimum 5.0 grade point average for all work outside the School. An Honours degree will be awarded to students who obtain:
1. a graduating average of at least 5.0
2. a grade point average of at least 5.5 for 300 and 400-level School of Exercise Science, Physical and Health Education courses
3. a grade of at least B in EPHE 499

A student who achieves a grade lower than B- in EPHE 499 will graduate under the Major program, providing all other requirements for the degree are fulfilled. The submission date for the thesis in EPHE 499 is the last day of classes. BSc Kinesiology Major and Co-op students accepted into the Honours program follow the same course sequence requirements for the Major and Co-op degrees, with the following modifications:

17.3.6 Recommended Sequence of Required Courses BSc Kinesiology Honours
Years 1 and 2 are the same as for the Major. See 17.3.2 and notes 1, 2, and 3.

Year Three
EPHE 3411 ........................... 1.5
EPHE 3441 ........................... 1.5
EPHE 357 ................................ 1.5
EPHE 360 ................................ 1.5
EPHE 380 ................................ 1.5
One of EPHE 355 or 456 .......... 1.5
EPHE 300-400 level .................. 1.5
Electives3 .............................. 4.5
Total for year .......................... 15.0

Year Four
EPHE 4411 ........................... 1.5
EPHE 4441 ........................... 1.5
EPHE 447 (full-year course) ........ 1.5
EPHE 499 (full-year course) ...... 3.0
EPHE 300-400 level .................. 4.5
Electives3 .............................. 4.5
Total for year .......................... 16.5
Total Units for Degree .............. 61.5

17.3.7 Interfaculty Minor, Double Honours or Major
Students interested in pursuing an Interfaculty Minor or an Interfaculty Double Honours or Major should discuss this program with both the Program Coordinator and the EPHE Adviser.

2012-13 UVIC CALENDAR

69

FACULTY OF EDUCATION
Faculty of Engineering

The Faculty of Engineering offers undergraduate programs in the fields of Engineering and Computer Science. Programs leading to the degree of BEng are offered through the Departments of Electrical and Computer Engineering, and Mechanical Engineering, including the jointly offered program in Biomedical Engineering. Programs leading to the degree of Bachelor of Science are offered through the Department of Computer Science. A Bachelor of Software Engineering (BSEng) degree is offered jointly by the Departments of Computer Science, and Electrical and Computer Engineering. Co-operative Education is mandatory for students in the BEng and BSEng programs and for one of the BSc programs and optional for the others.

Student Information:
Bachelor of Engineering ............. 250-472-5322
Bachelor of Science ................. 250-472-5700
Bachelor of Software Engineering . 250-721-6023

Website: www.uvic.ca/engineering
# General Information

**DEGREES AND PROGRAMS OFFERED**

See the table below for a listing of the Faculty of Engineering undergraduate degree offerings.

The Co-operative Education Program is mandatory for all BEng and BSEng programs and the Combined BSc Major in Health Information Science and Computer Science program. All students in these programs graduate with the Co-op designation on their academic documents.

Co-operative Education is optional for the other BSc programs in Computer Science.

The Co-operative Education Programs within the Faculty of Engineering are described on page 89.

1. Students wishing to complete one of the combined degrees in Computer Science and Mathematics, Computer Science and Statistics, or Computer Science and Physics offered jointly by the Department of Computer Science and departments in the Faculty of Science will normally register in the Faculty of Science for their first year. Students wishing to complete a combined major degree in Health Information Science and Computer Science will normally register in the Faculty of Human and Social Development. Students wishing to complete a combined major degree in Visual Arts and Computer Science will normally register in the Faculty of Fine Arts.

2. Students wishing to complete a General degree in Computer Science will normally register in the faculty offering the second specialization area for their General degree in their first year.
AVAILABILITY OF COURSES

Generally, courses offered in the Faculty of Engineering are open to students in other faculties who have satisfied any prerequisite courses. However, some courses or sections are open only to students in the Faculty of Engineering or to students in specific programs. Faculty of Engineering program students are given registration priority in some courses. Courses and applicable restrictions are listed at <www.uvic.ca/engineering/courseaccess.php>.

Students in other faculties who propose to take courses offered in the Faculty of Engineering are responsible for determining if the courses can be used for credit in their degree program.

MINORS

Minor degree programs are offered by all three departments within the Faculty of Engineering. The student should refer to the specific departmental entry for further details - Computer Science, page 79, Electrical and Computer Systems, page 84 and Mechanical Systems, page 87.

Any UVic student who wishes to pursue a Minor in discipline outside their program area may do so with the approval of that department/faculty. Students should consult the appropriate advising centre for the development and approval of the minor. Courses that fulfill requirements for a Minor cannot form part of the requirements for the degree.

LIMITATION OF ENROLMENT

Enrolment in any course or degree program may be limited by the availability of staff and resources. Applicants who meet the minimum academic requirements are not guaranteed admission to any program.

Bachelor of Science Programs

ADMISSION REQUIREMENTS

All applicants are advised to carefully review the section on Undergraduate Admission, page 21.

Graduates of Secondary Schools

Applicants who are seeking admission to the Faculty of Engineering to follow a BSc in Computer Science program based on graduation from a BC/Yukon secondary school should refer to the admission requirements on page 24.

Applicants seeking admission based on graduation from secondary schools elsewhere in Canada or abroad require equivalent qualifications to those specified as admission requirements for BC/Yukon secondary school graduates (see pages 24 and 26). Applicants are advised to contact Admission Services for further information regarding requirements.

Transfers from Other Faculties

A student in another faculty who wishes to transfer into a BSc program in the Faculty of Engineering must have been eligible for admission to the Faculty of Engineering when they applied to the University or have completed 6 units of courses including MATH 100 and CSC 110 while registered in another faculty of the University. A student in another faculty who has completed one or more sessions at the University must also have satisfactory standing as defined by the University at the time of transfer.

Transfers from Other Institutions

To be eligible for admission to a BSc program in the Faculty of Engineering on the basis of work completed at another post-secondary institution, a student must be eligible for transfer credit for at least 12 units of courses and have at least a C average on their most recent 12 units of courses. The student must also have been eligible for admission to the Faculty of Engineering had they applied to the University directly from secondary school.

Students may also arrange to undertake a Minor offered in an engineering program at another college or university which are equivalent to CSC 110 and MATH 100.

On successful completion of the Computer Science Bridge program offered at Camosun College, students with a two-year diploma in Computer Technology may be admitted to the third year of a BSc Major program. Students admitted based on completion of the Computer Science Bridge program may receive credit for courses normally taken in third and fourth year and in that case must take an equivalent number of electives in addition to the normal year 3 and year 4 degree requirements. Acceptance into the Bridge and BSc programs must be obtained from the Faculty of Engineering before registration in any of the Bridge program courses.

Admission to Specific Computer Science Programs

On admission, students are normally placed in the BSc Major Program.

Applications for admission to Computer Science Co-op programs are normally completed at the end of the student’s first term of studies but are accepted until the beginning of a student’s third year. Application deadlines are September 15 and January 15. Detailed information is available at the Computer Science Advising Office.

Applications for admission to the Honours Program in Computer Science are normally made at the end of the student’s second year of studies.

On admission to a Major or Honours Program in Computer Science, a student from outside the faculty must register in the Faculty of Engineering.

Credit for Courses Offered by Other Faculties or Institutions

All courses in other faculties are acceptable for use as elective credit for Major and Honours Programs in Computer Science, if the regulations of the department offering the courses permit and prerequisites are met.

Students already enrolled in a BSc degree program who plan to undertake work at another institution must receive prior written approval from the department of Computer Science if they wish such courses to be credited towards the BSc degree. A Letter of Permission to take courses elsewhere is provided by the Computer Science Advising Office. Credit for courses completed elsewhere will only be granted for courses in which a grade of C- or higher, or the equivalent, was awarded. For some courses a higher minimum grade may be required as specified in the letter of permission.

Students authorized to attend another university who accept a degree from that institution give up the right to a University of Victoria degree until they have satisfied the University’s requirements for a second bachelor’s degree, page 40.

Interfaculty Programs

Students planning to complete a Double Major or Double Honours Program in Computer Science and another discipline may choose to register in the Faculty of Engineering or the faculty of the other discipline. Students can arrange for an Interfaculty Double Honours or Major program through the Computer Science Advising Office. Such programs involve satisfying the Honours or Major requirements of two disciplines in two different faculties. Agreement to design such an Interfaculty program may be signed by the student and by representatives of the academic units involved. Students undertaking an Interfaculty program will be subject to the regulations of the faculty in which they are registered.

Only one BSc degree with a Double Major or a Double Honours or a Joint Major/Honours will be awarded on the recommendation of the faculty in which the student is registered.

Students in a Major or Honours Program may also arrange to undertake a Minor offered in another discipline.

ACADEMIC REGULATIONS

Academic Performance

Students in a BSc degree program are subject to the University regulations on academic performance (see “Standing”, page 37). In addition, a student graduating from any program offered by the Department of Computer Science in the Faculty of Engineering must present 60 units of credit that:

• satisfy the degree requirements
• contain no more than eight D grades (a maximum of 12 units) in those courses that have been completed at the University of Victoria. If such a course is repeated and a grade higher than D is achieved, the course does not count toward the eight D grade limit, but all attempts are used in GPA calculations.

Graduation Standing

The graduation standing for students in a BSc Major or Honours Program is determined in accordance with University regulations (see “Standing”, page 37).

BSc PROGRAM REQUIREMENTS

Requirements Common to All BSc Degrees

Each candidate for a BSc degree is required:

1. to have satisfied the “Academic Writing Requirement”, page 31
2. to include in the first 15 units presented for the degree not more than 9 units in Computer Science and at least 3 units from each of two other departments
3. to include in the next 15 units presented for the degree at least 5 units of courses other than Computer Science and Software Engineering
4. to include in the remaining units presented for the degree at least 21 units of courses numbered at the 300 or 400 level (this is a general University regulation); 18 of these units must be taken at UVic including
• at least 13.5 of the 19.5 units at the 300 or 400 level required for the Honours Program; or
• at least 12 of the 15 units at the 300 or 400 level required for the Major Program
5. to satisfy the requirements of a Major or Honours program in Computer Science as specified below
6. to present credit in a minimum of 60 units of university-level courses numbered 100 and above; at least 30 of these 60 units must normally be completed at UVic.

Department of Computer Science

Professors Emeritus
Byron L. Ehle, BA (Whitman), MS (Stan), PhD (Wat)
John A. Ellis, BSc, MSc (Lond), MS (III Inst of Tech), PhD (Northw), PEng
Eric G. Manning, BSc, MSc (Wat), PhD (III), FIEEE, PEng
Frank D.K. Roberts, MA (Cantab), MSc, PhD (Liv)
Gholamali C. Shoja, BSEE (Kan St), MSEE (Northw), D Phil (Sus), PEng
Maarten van Emden, MSc (T. H. Delft), PhD (Northw)

Professors
Daniel M. Hoffmann, BA (SUNY), MS, PhD, (N Car, Chapel Hill), PEng
R. Nigel Horspool, BA (Cantab), MSc, PhD (Tor)
Bruce Kapron, BMath (Wat), MSc (Simon Fraser), PhD (Tor)
Valerie King, AB (Prin), JD, PhD (Calif, Berk)
D. Michael Miller, BSc (Winn), MSc, PhD (Man), PEng
Hauss A. Muller, Dipl El Eng (ETH Zürich), MS, PhD (Rice), Associate Dean Research, Faculty of Engineering
Jon C. Muzio, BSc, PhD (Nott)
Wendy J. Myrvold, BSc (McG), MMath, PhD (Wat)
D. Dale Olesky, BSc, MSc (Alta), PhD (Tor)
Frank Ruskey, BA, MA, PhD (Calif, San Diego)
Micaela Serra, BSc (Man), MSc, PhD (UVic)
Margaret-Anne Storey, BSc (UVic), PhD (Simon Fraser), Canada Research Chair in Human Computer Interaction for Software (Tier 2)
William W. Wadge, BA (Brit Col), PhD (Calif, Berk)
Ian Barrodale, BSc (Wales), MA (Brit Col), PhD (Liv), Adjunct Professor (2011-14)
Alexandra Branzan Albu, BSc, MSc, PhD (Bucharest), Cross-Listed Assistant Professor, Dept. of Computer & Electrical Engineering (2010-12)
Peter Driessen, BSc, PhD (Brit Col), Cross-Listed Professor, Dept. of Computer & Electrical Engineering (2010-12)
Brian Gaines BA, MA, PhD (Cambridge), Adjunct Professor (2010-13)
Yong Gao BSc, MSc (Xi’an Jiatong), MSc (Alberta), Adjunct Professor (2010-13)
David G. Goodenough, BSc (Brit Col), MSc, PhD (Tor), FIEEE, Adjunct Professor (2011-14)
Aaron Gulliver, BSc, MSc (University of New Brunswick), Cross Listed Professor, Dept. of Computer & Electrical Engineering (2010-12)
Aiyaj Kapur, BSc (Princeton), PhD (UVic), Adjunct Professor (2011-14)
Paul Lalande, BSc (Dalhousie), MSc (Queens), PhD (UBC), Adjunct Professor (2010-13)

Assistant Professors
Mantis H. M. Cheng, BMath, MMath, PhD (Wat)
Amy Gooch, BSc, MSc (Utah), PhD (Northwestern)

Senior Instructors
Jason Corless, BSc, MSc (UVic)
Paul Lalonde, BSc (Dalhousie), MSc, PhD (Bradford), Chair
Sue Whitesides, MSc (Stanford), MSc, PhD (Calif, Berk)

Professional Staff
Heather Croft, BSc, MSc (UVic), Acting Administrative Officer
Jane Guy, BSc (London), MSc (Zimbabwe), Undergraduate Academic Advisor, BSc (Mac), MSc, PhD (Zimbabwe)
Duncan Hogg, BSc, MSc, PhD (UVic), Co-operative Education Co-ordinator, (Engineering & Computer Science/Math Co-op and Career Services)

Adjunct Appointments and Cross Listed Professors
Ian Barrodale, BSc (Wales), MA (Brit Col), PhD (Liv), Adjunct Professor (2011-14)
Alexandra Branzan Albu, BSc, MSc, PhD (Bucharest), Cross-Listed Assistant Professor, Dept. of Computer & Electrical Engineering (2010-12)
Peter Driessen, BSc, PhD (Brit Col), Cross-Listed Professor, Dept. of Computer & Electrical Engineering (2010-12)
Brian Gaines BA, MA, PhD (Cambridge), Adjunct Professor (2010-13)
Yong Gao BSc, MSc (Xi’an Jiatong), MSc (Alberta), Adjunct Professor (2010-13)
David G. Goodenough, BSc (Brit Col), MSc, PhD (Tor), FIEEE, Adjunct Professor (2011-14)
Aaron Gulliver, BSc, MSc (University of New Brunswick), Cross Listed Professor, Dept. of Computer & Electrical Engineering (2010-12)
Aiyaj Kapur, BSc (Princeton), PhD (UVic), Adjunct Professor (2011-14)
Paul Lalande, BSc (Dalhousie), MSc (Queens), PhD (UBC), Adjunct Professor (2010-13)

2012-13 UVIC CALENDAR

Undergraduate Programs

The Department of Computer Science offers the following programs leading to the degree of Bachelor of Science:
• Major and Honours in Computer Science
• Major in Computer Science (Bioinformatics Option)
• Major in Computer Science (Computer Communications & Networks Option)
• Major in Computer Science (Computer Graphics and Gaming Option)
• Major in Computer Science (Theory Option)

Students who plan to pursue one of these programs and who meet the qualifications set out below should apply to the Undergraduate Admissions Office and should indicate that they wish to register in the Faculty of Engineering for their first year of study.

Students may complete a combined degree program in the following areas offered by the faculties indicated:
• Faculty of Fine Arts
  • Music and Computer Science
  • Visual Arts and Computer Science
• Faculty of Human and Social Development
  • Health Information Science and Computer Science
• Faculty of Science
  • Computer Science and Mathematics
  • Computer Science and Statistics
  • Physics and Computer Science
• Faculty of Social Sciences
  • Geography and Computer Science (Geomatics)
  • Psychology and Computer Science

Students undertaking a combined degree program normally register in the faculty offering the degree as indicated above. Students are advised to consult the specific degree requirements for the combined program, particularly regarding admission requirements, application and possible enrolment limitations.

Students may also undertake a BSc or BA General degree program.

Students undertaking a General degree in Computer Science normally register in the faculty of-
Students may also complete a Minor in Computer Science.

**Computer Science Co-operative Education Programs**

Please refer to the Faculty of Engineering Co-operative Education Programs General Regulations, page 89.

**Computer Science/Mathematics Work Experience Program**

Please refer to the Faculty of Engineering Co-operative Education Programs General Regulations, page 89.

**Graduate Programs**

The Department of Computer Science offers the following graduate degrees: MA, MSc, PhD. For information, please see the UVic Graduate Calendar.

**Academic Advice**

Students considering or enrolled in a Major or Honours Program in Computer Science should seek academic advice through the Computer Science Advising Office. Students considering or enrolled in a combined BSc in Computer Science should seek academic advice from the Computer Science Advising Office and advisers for the second discipline.

**Availability of Courses to Students in Other Faculties**

All undergraduate courses offered by the department of Computer Science are open to all undergraduate students at the university if the regulations of their degree program permit and prerequisites are met.

**Academic Writing Requirement**

Students taking a Major, Honours or combined degree program in Computer Science (except for a combined degree with Visual Arts, or a combined degree with Music) take ENGL 135. See "Academic Writing Requirement" on page 31, for further information.

**Limitation of Enrolment**

Enrolment in certain Computer Science courses may be limited. Enrolment in CSC 100, 105, 106, 110 and 115 is on a first-come-first-served basis.

**Advanced Placement**

Students who demonstrate to the department that they have mastered the material of a course may be granted advanced placement.

**Course Credit Restriction**

Students may obtain credit for only one Computer Science course in each of the following pairs:

- 110 or 111
- 106 or 212
- 115 or 160
- 250 or 355
- 370 or 470
- 425 or 420
- 448A or 448B
- 448C or 446

**Program Requirements**

**Major and Honours Programs**

Students planning to complete a Major or Honours program in Computer Science register in the Faculty of Engineering. Students registered in another faculty may transfer into a BSc program in the Faculty of Engineering (see "Transfers from Other Faculties", page 72).

All students planning to complete a Major or Honours Program in Computer Science must file a Record of Degree Program form before registering for third year in the Faculty of Engineering. Computer Science Degree Programs are submitted to the Computer Science Advising Office.

**Admission to the Honours Program**

Students who wish to be admitted to the Honours Program should apply to the Honours Adviser on completion of their second year. Entry requires a minimum GPA of 6.0 in all required second-year CSC, SENG, MATH and STAT courses.

Students may be admitted to the Honours Program upon completion of their third year provided they have a GPA of at least 6.0 in all CSC, SENG, MATH and STAT courses taken in their third year based on a minimum of 12 units of course work for that year.

A GPA of 6.0 in third year is needed to progress to fourth year in the Honours Program. Students who do not achieve this GPA will be required to transfer to the Major Program.

4. A Co-op work term in the area of Bioinformatics.
Major in Computer Science (Computer Communications & Networks Option)

This program is for students who wish to acquire a strong background in Communications and Networks. The Co-op option or the work experience option is strongly recommended.

**Year 1**
- CSC 106, 110, 115 .................................................. 4.5
- ENGL 115 or 135 .................................................. 1.5
- MATH 100, 101, 122 .................................................. 4.5
- Electives ........................................................... 4.5
- Total ................................................................. 15.0

**Year 2**
- CSC 225, 230 .................................................. 3.0
- SENG 265 .................................................. 1.5
- MATH 201 or 202 .................................................. 1.5
- MATH 211, 222 .................................................. 3.0
- ENGR 240 .................................................. 1.5
- STAT 252 or 255 or 260 .................................................. 1.5
- Electives ........................................................... 3.0
- Total ................................................................. 15.0

**Year 3**
- CSC 320, 360, 370 .................................................. 4.5
- CSC 361 .................................................. 1.5
- 6.0 units of CSC 300-level (1.5 units may be SENG) .................................................. 6.0
- Electives ........................................................... 3.0
- Total ................................................................. 15.0

**Year 4**
- 3.0 units of CSC 471, 472, 473, 486 .................................................. 3.0
- 1.5 units of CSC or SENG 400-level .................................................. 1.5
- Electives ........................................................... 10.5
- Total ................................................................. 15.0

1. Strongly recommend CSC 167. Recommend PSYC 100A and B or PHYS 120 and ART 100-level.
2. ENGL 225 can be substituted for ENGR 240.
3. Strongly recommend CSC 205.
4. The statistics course can be taken as early as the second term of the first year.
5. Recommend SENG 310, CSC 326, CSC 349A, CSC 350.
6. Recommend CSC 490 courses with the Graphics Faculty and CSC 426.

Major in Computer Science (Software Engineering Option)

**Year 1**
- CSC 106, 110, 115 .................................................. 4.5
- MATH 100, 101, 122 .................................................. 4.5
- ENGL 115 or 135 .................................................. 1.5
- Electives ........................................................... 4.5
- Total ................................................................. 15.0

**Year 2**
- CSC 225, 230 .................................................. 3.0
- SENG 265 .................................................. 1.5
- MATH 201 or 202 .................................................. 1.5
- MATH 211, 222 .................................................. 3.0
- ENGR 240 .................................................. 1.5
- STAT 252 or 255 or 260 .................................................. 1.5
- Electives ........................................................... 3.0
- Total ................................................................. 15.0

**Year 3**
- CSC 320, 360, 370 .................................................. 4.5
- SENG 310 or 321 .................................................. 1.5
- 6.0 units of CSC 300-level (1.5 units may be SENG) .................................................. 6.0
- Electives ........................................................... 3.0
- Total ................................................................. 15.0

1. ENGL 225 can be substituted for ENGR 240.
2. The statistics course can be taken as early as the second term of the first year.

Combined Programs in Computer Science and Mathematics, and Computer Science and Statistics

For a Combined BSc degree in Computer Science and Mathematics, or Computer Science and Statistics, students may take a Major or Honours Program. These programs are not joint degrees in Computer Science and Mathematics, but a single degree program composed of a selected combination of courses from each of the departments. Students opting for any of these combined programs are registered in the Faculty of Science and must contact the Computer Science and Mathematics and Statistics departments.

**Admission to the Combined Programs in Computer Science and Mathematics or Computer Science and Statistics**

Students who wish to be admitted to one of the Combined Honours Programs should apply in writing to the Honours Advisers of both departments on completion of their second year. Normally a student will be admitted to the Combined Honours program only if the student has:
1. completed CSC 110, 115, 106 or 212, 225, 230, and SENG 265
2. completed at least 10.5 units of the Mathematics and Statistics courses required for the degree
3. attained a grade of at least B+ in all 200-level Computer Science and SENG courses
4. attained a GPA of at least 6.5 in all 200-level Mathematics and Statistics courses

Students may also be admitted to one of the Combined Honours Programs upon completion of their third year providing they have at least 4.5 units of 300/400 level credit from each department with a minimum GPA of 6.0 in all
courses completed at the 300/400 level in the two departments.
Combined Honours students are expected to maintain a GPA of at least 5.0 in their third year
to remain in the program.

**BSc Honours: Combined Program in Computer Science and Mathematics**

**Year 1**
- CSC 106 or 212; 110, 115 .......................... 4.5
- MATH 100, 101, 122 ................................. 4.5
- ENGL 115 or 135 ................................. 1.5
- MATH 211 or STAT 260 ............................ 1.5
- Electives1 ........................................... 3.0
- Total .................................................. 15.0

**Year 2**
- CSC 225, 230, SENG 265 .......................... 4.5
- MATH 200, 201, 212, 222, 236 .................. 7.5
- MATH 211 or STAT 260 ............................ 1.5
- ENGR 2401 ........................................... 1.5
- Total .................................................. 15.0

**Year 3**
- CSC 320, 322, 326, 349A .......................... 6.0
- One of CSC 305, 330, 350, 360, 361, 370 .... 1.5
- MATH 301, 322 ...................................... 3.0
- Two of MATH 312, 342, 352, 362, 377 .... 3.0
- STAT 359 ... ........................................... 1.5
- Total .................................................. 15.0

**Year 4**
- Completion of one of the following requirements2: .......................... 3.0
  - Discrete Mathematics: Two of MATH 413, 422, 423
  - Logic: Two of CSC 322, 355, 421, MATH 375, PHIL 370, 371, 403
  - Numerical Analysis and Applications: Two of CSC 449, 472, 473, MATH 449
  - Optimization and Simulation: Two of CSC 445, 446, MATH 447
- Electives3 ........................................... 12.0
- Total .................................................. 15.0

1. ENGR 240 can be taken in first year provided the prerequisite has been met. ENGR 225 can be substituted for ENGR 240.
2. A CSC or MATH topics or directed studies course can be used in fulfillment of these requirements with permission of the department offering the course.
3. These 7.5 units of electives must include at least 1.5 units at the 300 level or above from the Department of Mathematics and Statistics, and at least 1.5 units at the 400 level from the Departments of Computer Science or Mathematics and Statistics or CENG 420 or a 400 level SENG course.
4. These 15.0 units of electives must include at least 6 units from the Departments of Computer Science and/or Mathematics and Statistics at the 300 level or above. These 6 units may also include CENG 420 and a maximum of two SENG courses with at least one at the 400 level.
5. These 30 units must include at least 21 units at the 300 level or higher including at least 6 units at the 400 level with at least 3 of those units in each of the two departments.

**BSc Major: Combined Program in Computer Science and Mathematics**

**Year 1**
- CSC 106 or 212; 110, 115 .......................... 4.5
- MATH 100, 101, 122 ................................. 4.5
- ENGL 115 or 135 ................................. 1.5
- Electives ............................................. 1.5
- Total .................................................. 10.5

**Year 2**
- CSC 225, 230, SENG 265 .......................... 4.5
- MATH 200 (or 205), 201, 211 ..................... 4.5
- STAT 260, 261 ........................................ 3.0
- ENGR 2401 ........................................... 1.5
- Total .................................................. 15.0

**Year 3**
- CSC 320, 322, 326, 349A .......................... 6.0
- MATH 222 ............................................. 1.5
- STAT 350, 353 ........................................ 3.0
- Electives ............................................. 4.5
- Total .................................................. 15.0

**Year 4**
- Two of CSC 425, 445, 446, 449, 484 ............. 3.0
- CSC 499 or STAT 498 ................................ 1.5
- STAT 450 ............................................. 1.5
- Three of MATH 452, STAT 354, 355, 357, 453, 454, 455, 456, 457, 458, 459 ........ 4.5
- Electives ............................................. 4.5
- Total .................................................. 15.0

**BSc Honours: Combined Program in Computer Science and Statistics**

**Year 1**
- CSC 106 or 212; 110, 115 .......................... 4.5
- MATH 100, 101, 122 ................................. 4.5
- ENGL 115 or 135 ................................. 1.5
- Electives ............................................. 1.5
- Total .................................................. 15.0

**Year 2**
- CSC 225, 230, SENG 265 .......................... 4.5
- MATH 200 (or 205), 201, 211 ..................... 4.5
- STAT 260, 261 ........................................ 3.0
- ENGR 2401 ........................................... 1.5
- Electives ............................................. 1.5
- Total .................................................. 15.0

**Year 3**
- CSC 320, 322, 326, 349A .......................... 6.0
- MATH 222 ............................................. 1.5
- STAT 350, 353 ........................................ 3.0
- Electives ............................................. 4.5
- Total .................................................. 15.0

**Year 4**
- Three of STAT 354, 355, 357, 450, 453, 454, 455, 456, 457, 458, 459 ............ 4.5
- Electives ............................................. 10.5
- Total .................................................. 15.0

1. ENGR 225 can be substituted for ENGR 240.
2. These 16.5 units of electives must include at least 1.5 units of Computer Science at the 300 level or higher, at least 3 units of Computer Science at the 400 level and at least 4.5 additional units of Computer Science, Mathematics or Statistics at the 300 level or higher. In selecting these latter 4.5 units, students are encouraged to take at least one course from each of the two Departments. CENG 420 and a maximum of two SENG courses with at least one at the 400 level may be substituted for these Computer Science courses.
3. STAT 454 can be taken more than once in different topics.
4. These 9 units of electives must include at least 4.5 units of Computer Science, Mathematics or Statistics at the 300 level or higher. These 4.5 units may also include CENG 420 and a maximum of two SENG courses with at least one at the 400 level. In selecting these courses, students are encouraged to take at least one course from each of the two Departments.

**Combined Program in Geography and Computer Science (Geomatics)**

The Department of Geography and the Department of Computer Science have designed a program leading to a combined BSc Major Degree. The Geomatics program is aimed at students whose interests span the fields of cartography, Computer Science, Geographic Information Sys-
tems, remote sensing, spatial analysis and surveying.

Students intending to pursue this combined program must consult the Undergraduate Adviser in either Geography or Computer Science after completing all of the first-year requirements.

Geography and Computer Science (Geomatics) Program Requirements

Year 1
CSC 106 or 212; 110, 115 ........................................ 4.5
ENGL 115 or 135 ......................................................... 1.5
GEOG 101A, 101B .......................................................... 3.0
MATH 100 and 101, or MATH 102 and 151 .................. 3.0
MATH 122 ................................................................. 1.5
Elective .............................................................. 1.5
Total ................................................................. 15.0

Year 2
CSC 225, 230 ................................................................. 3.0
ENGR 2401 ................................................................. 1.5
GEOG 222, 226, 228 .................................................. 4.5
SENG 265 ................................................................. 1.5
Electives .......................................................... 4.5
Total ................................................................. 15.0

Year 3
CSC 360, 370 ................................................................. 3.0
GEOG 319 or 322 ...................................................... 1.5
GEOG 328 or 329 ...................................................... 1.5
GEOG 323, 325 ................................................................. 3.0
SENG 310 ................................................................. 1.5
1.5 units of CSC at the 300 level ................................ 1.5
Electives .......................................................... 3.0
Total ................................................................. 15.0

Year 4
GEOG 422, 428 ................................................................. 3.0
CSC 305 or 426 ................................................................. 1.5
Two of GEOG 418, 420 ........................................... 3.0
3.0 units of CSC at the 400 level1 ................................ 3.0
Electives .......................................................... 4.5
Total ................................................................. 15.0

1. ENGL 225 can be substituted for ENGR 240.
2. Students interested in remote sensing wishing to advance to GEOG 422 are encouraged to take both GEOG 319 and GEOG 322.
3. GEOG 305 requires MATH 211 as prerequisite.
4. These 3 units of CSC courses at the 400 level may include CENG 420 and/or 1.5 units of SENG at the 400 level.

Combined Major Program in Health Information Science and Computer Science

Enrolment in this program is limited. Students must contact either the School of Health Information Science or the Department of Computer Science before registering in any courses. This is a mandatory Co-op program. Students with a previous degree in Computer Science or a related degree are not eligible for this combined program. Students who have failed a work term or do not maintain a GPA of 3.5 or better in each academic term will normally be required to withdraw from the School for at least one calendar year. This is a full-time program only.

Year 1
HINF 130, 140 .......................................................... 3.0

MATH 100, 101, 122 ...................................................... 4.5
CSC 106 or 212; 110, 115 ........................................ 4.5
ENGL 115 or 135 .................................................. 1.5
Elective2 ........................................................... 1.5
Total ............................................................... 15.0

Year 2
HINF 200, 201, 280 .................................................. 4.5
1 HINF course at the 200 level ................................ 1.5
MATH 222 ................................................................. 1.5
STAT 255 or 260 ...................................................... 1.5
CSC 225, 230 ................................................................. 3.0
SENG 265 ................................................................. 1.5
ENGR 240 ................................................................. 1.5
Total ............................................................... 15.0

Year 3
3 HINF courses at the 300 level .................................. 4.5
CSC 375 ................................................................. 1.5
2 of CSC 320, 322, 330, 355, 360, SENG 321 .................................................. 3.0
Electives .......................................................... 6.0
Total ............................................................... 15.0

Year 4
2 HINF courses at the 400 level .................................. 3.0
3 CSC courses at the 400 level2 ................................ 4.5
Other courses3 .......................................................... 7.5
Total ............................................................... 15.0

1. Students without grade 12 Biology must replace this elective by one of EPHE 141, BIOL 102, BIOL 150A or BIOL 190A.
2. One of these courses may be SENG at the 400 level.
3. These 7.5 units of other courses must be at the 300 level or higher, and must include at least 3 units chosen from Health Information Science, Computer Science or SENG.

Combined Major in Music and Computer Science

The School of Music and the Department of Computer Science have designed a combined program leading to either a Bachelor of Fine Arts or a Bachelor of Computer Science degree.

Students are advised that because of restricted facilities and staff, it may be necessary to limit the offering of this Program. The application date for the first year of this program for entry in September is May 31, however applications received before May 15 will be considered if places are still available. Applicants must make separate application for acceptance into the first year of the Combined Program. See <finearts.uvic.ca/music/csmusic/form/>. Students will be admitted to the program at the end of first year. When all first year requirements have been met, the application date for September entry to the second year of this program is May 1 and the deadline is July 1.

Enrolment in this program is limited. Since students wishing to complete a combined degree program in Music and Computer Science are admitted at the end of first year into this program in the Faculty of Fine Arts, applicants will normally register in first year in one of the following faculties/programs for which they meet the admission requirements: Humanities, Science, Social Sciences, Engineering or Fine Arts.
### Third and Fourth Years: Honours Program

Admission to the third and fourth years of the Honours Program requires permission of both departments.

1. It is recommended that students consider the upper-level PHYS courses they will take when choosing the order in which to take PHYS 321A, 321B, 323, 325, 326.
2. These Physics electives must be at the 300 level or higher. These electives must be chosen in consultation with the Department of Physics and Astronomy. One of PHYS 460 and ASTR 460 is recommended for third and fourth year students.
3. These 4.5 units of Computer Science electives must be at the 400 level and may include CSC 420 or 1.5 units of SENG courses.
4. At least 3 of these 4.5 units of Computer Science electives must be at the 400 level. A maximum of 3 of these units can be SENG courses at a similar level.

### Combined Major in Psychology and Computer Science

The Department of Psychology and the Department of Computer Science have designed a combined program leading to a combined BSc Major Degree. This is a single degree program composed of a selected combination of courses from each of the departments. Students intending to pursue this combined program must consult the Undergraduate Adviser in either Psychology or Computer Science at the latest after completing all of the first-year requirements.

#### Year 1

<tr>
<td><strong>Total</strong></td>
<td><strong>15.0</strong></td>
</tr>
</tbody>
</table>

1. Students can replace MATH 151 and 102 with MATH 100 and 101.
2. Minimum grade requirements:
   - PSYC 100A and 100B with a grade of at least C+ in each
   - PSYC 201, 215A with a grade of at least C in each
   - PSYC 300A, 300B with a grade of at least C in each
3. These 7.5 units of 300 and 400 level PSYC must include at least one 400 level PSYC course other than PSYC 400A, 401, 490, or 499. The following upper-level courses are suggested according to student interests:
   **Artificial Intelligence:**
   - PSYC 311B, 317A, 317B, 323 (215A is a prerequisite), and related 400-level courses
   **Human Factors and Computer-Human Interfaces:**
   - PSYC 311B, 317A, 317B, 334, 350 and related 400-level courses
   **Game Programming:**
   - PSYC 311B, 335, 336, 339, 340 and related 400-level courses
4. One of these CSC 400 level courses may be replaced by a SENG 400 level course.
5. Students in this combined program who wish to participate in the Co-op Program must be accepted by the Co-op Programs of both the Computer Science and Psychology. They must complete two work terms in each Co-op program in order to complete their Co-op degree requirements. Should the admission and graduation requirements vary in the two program areas, students must meet the lower GPA requirement.
6. Students choosing Computer-Human Interface courses in Psychology should enrol in SENG 310. All other students should enrol in CSC 320.
7. Students who take PSYC 300A and 300B need an additional 7.5 units of upper-level psychology courses; students who take STAT 255 and 256 need an additional 10.5 units of upper-level psychology courses.

### Combined Major Program in Visual Arts and Computer Science

The Department of Visual Arts and the Department of Computer Science have designed a combined program leading to either a Bachelor of Fine Arts or a Bachelor of Science degree. Enrolment in this program is limited. Students are admitted to the program at the end of first year.

1. Students who need to fulfill the UVic Academic Writing Requirement should use this elective option to do so.
2. One of these courses may be SENG at the 400 level.

### General Degree (BA or BSc - Faculties of Humanities, Science and Social Sciences)

#### Admission to the General Program

Students intending to complete a General degree in Computer Science will normally register in the faculty of the second area of specialization required in the degree.

Completion of the following set of courses satisfies the requirements for a BA or BSc General Degree in Computer Science as offered by the Faculties of Humanities, Social Sciences and Science. Students wishing to complete a General Program should register in whichever of these three faculties is appropriate based on their second area of specialization.

#### Year 1

<table>
<thead>
<tr>
<th>Course Code</th>

**Year 3 and 4**

3 additional CSC courses numbered 300 or higher (one of these can be replaced by a SENG course at a similar level) ................................. 4.5

Note that 200 level and higher courses that fulfill requirements for a Minor cannot form part of the requirements for the Major or Honours degree. Any such course in the Minor program may be replaced by another Computer Science course at the same level or higher.

---

**Bachelor of Engineering and Bachelor of Software Engineering Academic Regulations**

**Program Admissions**

Students admitted to the BEng or BSEng degree program normally begin first-year Engineering courses in the September-December term each year. Students who wish extended time to complete first year can begin in the May to August term.

Completed applications must be submitted to Undergraduate Admissions and Records Services. For September admission, the application must be submitted by the preceding April 30 and all documentation must be received by May 31. For May admission, the application must be submitted by the preceding December 31 and all documentation must be received by January 31. Applicants will receive written acknowledgement that their application for admission to the BEng or BSEng degree program has been received by Undergraduate Admissions and Records Services and confirmation that their admission file is complete.

**Admission Requirements**

**Graduates of BC Secondary Schools**

Requirements for admission to the BEng and BSEng degree program for graduates of BC Secondary Schools are presented on page 24.

**Graduates from Secondary Schools Outside BC/Yukon**

Graduates of secondary schools other than British Columbia's and Yukon's require qualifications in mathematics, physics and chemistry equivalent to those specified as admission requirements for BC and Yukon secondary school graduates (see page 24). Applicants are advised to contact Undergraduate Admissions and Records Services for further information regarding requirements.

**Transfer Applicants**

**College Transfer**

Colleges throughout British Columbia offer first-year university transfer programs in engineering. Students who successfully complete one of these programs are eligible for admission to second year engineering at UVic if they have attained an overall standing of at least 65%.

**Applicants Transferring from First-Year Science**

Applicants who have completed first-year Science at a university or college are eligible to be considered for admission. Applicants will be evaluated on a course-by-course and student-by-student basis. Applicants in this category should normally have taken at least 12 units of courses which transfer to the University of Victoria as CSC 110, MATH 100, 101, PHYS 120, 130; or 112, ENGL 115 or 135, 4.5 units of other electives.

The following courses are recommended as electives: CSC 115, CHEM 101, MATH 211 and a technical writing course. Students admitted with less than 15 units of credit that are applicable to the program may be required to adjust the normal schedule.

**Applicants Transferring from a Two-Year Diploma Program**

On successful completion of the appropriate six-month Engineering Bridge Program offered at Camosun College, students with two-year diplomas in Electronics or Mechanical or Computer Engineering Technology may be admitted to the third year of a BEng program. Acceptance into the Bridge and BEng Programs is decided on an individual basis and must be obtained from the Faculty of Engineering before registration in any of the bridge courses or senior-level courses will be approved.

**Approved Substitutions for Courses Taken at UVic**

Substitutions may be permitted, on a course-by-course basis, for students in the BEng and BSEng program, when the substitute course is taken at the University of Victoria. See the table "Substitutions for BEng and BSEng Program Courses."

**Readmission to the BEng or BSEng Program**

Students who have withdrawn from the BEng or BSEng degree programs must reapply for admission by the deadlines on page 8 and will be considered in competition with all other applicants at the time of re-application.

---

**2012-13 UVIC CALENDAR**

Applications from students who were required to withdraw for academic reasons will not be considered until at least 12 months following the date of the required withdrawal. It is expected that those students will successfully complete transferable courses that demonstrate improved academics (with all grades C+ or higher) in relevant subject areas during the withdrawal period and prior to seeking re-admission. A student who is required to withdraw will be placed on probation (see page 80) upon re-admission to the BEng or BSEng program and must obtain Satisfactory Standing (see page 80) at the next standing review.

**Academic Regulations**

**Academic Terms and Academic Years**

The academic schedule for the BEng and BSEng degree programs consists of eight academic terms (two per academic year) and six work/other terms.

The academic terms are scheduled from September to December, January to April, and May to August. The schedule for academic terms and work/other terms is shown in the table "Academic and Work/Other Term Schedule." Four of the six work/other terms are normally used to satisfy the co-operative education requirements of the particular degree program being completed by the student. The remaining two terms (8 months) may be used for other academic work (completion of an option or a Minor), gaining additional work experience, or any other activity. Please refer to the appropriate program entry for the course schedule for each academic term in a specific program.

Any deviation from the academic and work/other term schedule requires the written approval of the Dean of the Faculty. Each student in a BEng or BSEng degree program will be assigned to a graduating class, which at any point in time will determine the student's current academic term or work/other term for the purposes of other regulations.

**Co-op Work Term Requirement**

Non-participation in the regular Co-op placement process does not relieve a student of the responsibility to complete at least four work terms (as defined by the student's registered program) in order to graduate from the program.

Program Change Requests

Students who have completed at least one term (two terms for first-year students) of full-time studies in the BEng or BSEng programs at UVic who wish to alter the prescribed program must file a Modified Program Application form with their respective departmental office.

Program change requests, including requests for leaves of absence, will be forwarded to the Dean, who will either approve or deny them, based in part on input received from the department concerned. Students must submit their requests before actually dropping or adding courses. Although every effort will be made to detect problems during this review process, students are solely responsible for difficulties resulting from prerequisite and timetable conflicts.

If program changes result in time away from the program, readmission to the program will depend on space being available at the time of re-entry and the student's academic status at the time of the readmission request. Approval of a leave of absence does not guarantee the absence of timetable conflicts upon the student's reregistration into the program. The faculty reserves the right to require that relevant course work be repeated if deemed necessary by the Dean and the department concerned.

Maximum Time for Degree Completion

Students not completing their programs within the specified time limits must have their program extension approved by the Dean. The starting month in determining the length of a student's program is the first month in which courses are taken in the BEng or BSEng programs at UVic.

Academic and Work/Other Term Schedule

Review of an Assigned Grade in BEng and BSEng Program Courses, Work Terms, and Work Term Modules

- Any request for a review of a final grade must normally reach the Dean's office within 21 days after the release of assigned grades.
- The review of a final grade is restricted to grade components contributed by a final examination and to any other grade components released to the student within the last 21 days before the end of classes.
- In the case of a work term or work term module evaluation, the review will be restricted to the component on which a failing grade was assigned.
- The grade determined by means of a review will be recorded as the final official grade, regardless of whether it is identical to or higher or lower than the original grade.
- Before requesting a review, students should make every reasonable effort to discuss the assigned grade with the instructor. Mathematical marking errors will be rectified without recourse to the review procedures.

Reviews of Academic Performance

Grading

The grading system used for the BEng and BSEng degree programs is the same as that specified by the University (see Grading, page 37).

Academic Concessions

A student whose academic performance is affected by injury, family or personal affliction, or illness may qualify for Academic Concessions (see “Academic Concessions”, page 35).

Requests for academic concessions for Extended Deferred Exams should normally be submitted prior to the scheduled Deferred Exam and in no instance later than 10 working days after that date.

Successful Standing

Students must maintain a sessional grade point average of at least 3.0 to be in Satisfactory Standing. A student with Satisfactory Standing may proceed in the program.

Probationary Standing

Students whose sessional grade point average is 2.00 to 2.99 (regardless of registered course load) are considered to have unsatisfactory standing and will be placed on probation in the program for the next session attended.

Students who are on probation and who achieve a sessional grade point average of 3.0 or above will clear their probation status at the end of the session.

Students registered in less than 4.5 units in a session whose grade point average is less than 2.0 and above 1.00, will be placed on probation.

Students who are on probation, or whose standing is withheld in their most recent session because of deferred status, are not normally eligible for reregistration until their sessional grade point average for the latest/deferred session has been determined as satisfactory, except as noted immediately below.

If a student’s projected sessional grade point average for the latest/deferred session, including a grade of 0 for all deferred courses or outstanding grades, was determined to be above the minimum, the student will be authorized to register. The projected grade point average is calculated at the end of the session when the deferred standing is assigned. The projected grade point average does not appear on a student’s academic record.

Students will be notified that they have been placed on probation through the addition of a notation to their academic record (See- Unofficial transcript on Self Service Banner (SSB) online). Students on probation should contact an Academic Adviser. Students are also advised to contact Counselling Services for assistance and take the Learning Skills Course or other workshops offered by Counselling Services.

Failed Standing

A student who is on probation, and whose sessional grade point average falls below 3.0, regardless of registered course load, will have failed to clear their probation status. These students will be required to withdraw from the program, normally for one academic year.

Students registered in 4.5 units or more in a session whose grade point average is less than 2.0 will be placed in failed standing in the program and will be notified by a notation to their academic record.

All students who have been required to withdraw from the program or university must apply to reregister if they wish to resume studies in the Bachelor of Engineering and Software Engineering programs. Permission to reregister will normally be granted to students who have completed the required withdrawal period and in the period of withdrawal, have increased their GPA to a competitive level, consistent with the admission GPA required for the program for the entry point for which they reapplied (see “Readmission to the BEng or BSEng program” on page 79).

A student who is permitted to reregister following a requirement to withdraw will be on probation for the session in which UVic studies are resumed.

A student who is required to withdraw from the Bachelor of Engineering or Software Engineering program a second time will be permanently required to withdraw from the program.
Course Equivalents and Course Withdrawals

Approval may be given, at the discretion of the Dean, for a student to replace one or more BEng or BSEng degree program courses with other acceptable courses. Written approval must be obtained in advance. Normally, such replacement courses will be taken at UVic. When a replacement course is to be taken at another institution, the student must obtain a Letter of Permission from the BEng or BSEng Office prior to undertaking the studies. See “Letters of Permission for UVic Students to Undertake Studies Elsewhere”, page 29.

Students will not be permitted to withdraw from a given course more than once.

Examinations

Deferred Examinations
- Where a student has been unable to write an examination owing to illness, family crisis or other similar circumstances, the faculty may authorize a deferred examination.

- For academic regulations regarding deferred status, please see page 56 of the Calendar.

- Requests for Academic Concessions for Extended Deferred Exams should normally be submitted prior to the scheduled exam and in no instance later than 10 working days after the scheduled date of the Deferred Exam.

Supplemental Examinations
- Students are eligible to write a supplemental examination in a course only if they have written a final examination and have received a final grade of E in the course. Students will be permitted to write the supplemental exam regardless of their academic standing in the BEng or BSEng program.

- Supplemental examinations cover only the course work covered by written final examinations.

- The supplemental examination grade replaces the grade of the course final examination and has the same weight as that of the final examination. A course with no final examination will have no supplemental examination.

- Any passing grade in a course obtained as a result of a supplemental examination will be shown in the student's academic record with a grade point value of 1, corresponding to a D, and will be taken into account in determining the student’s graduating average and in the calculation of the student's sessional grade-point average.

- Applications for supplemental examinations, accompanied by the required fees, must be received by the BEng Office by the dates indicated in table “Supplemental Examination Dates and Deadlines.”

- Students will normally be notified whether their application has been accepted or refused within four weeks of the appropriate application deadline. Fee payments for rejected applications will be returned.

- Supplemental examinations are scheduled by the faculty and only include CENG, ELEC, ENGR, MECH; and SENG courses offered by the Electrical and Computer Engineering department.

- Apply for supplemental examinations at the Engineering Undergraduate Office (EULO).

Credit for Courses Offered by Other Faculties or Institutions
The Faculty of Engineering may grant credit to applicants to the BEng or BSEng degree program for courses taken at UVic or at other post-secondary educational institutions. A Letter of Permission must be obtained from the BEng or BSEng Office prior to undertaking studies at another institution for credit towards the UVic degree program. See “Letters of Permission for UVic Students to Undertake Studies Elsewhere”, page 29. Credit will be considered only for courses that are equivalent to courses in the BEng or BSEng degree program and in which satisfactory performance has been achieved. For courses with prefixes CENG, ELEC, ENGR, MECH and SENG, detailed documentation supporting the credit request may be required; students should contact the EULO or BSEng Office for specific instructions before beginning studies in the faculty. Credit for courses completed while outside the faculty of Engineering will only be granted for courses in which a grade of C- or higher, or the equivalent, was awarded. For some courses a higher minimum grade may be required. The student must initiate all requests for course credit in the first term (four months) of registration in the BEng or BSEng program.

Course Challenges
The Faculty of Engineering does not offer course challenges.

Graduation Requirements
Students must meet the normal University “Minimum Degree Requirements for Graduation” on page 40, including a graduating average of at least 2.0, as well as:

1. Successful completion of the full set of courses specified for the degree program.

2. Successful completion of four work terms (as defined by the student's registered program) as specified below.

The graduating average of a student in the BEng or BSEng program will be the weighted average of the grade values (other than COM, N, F and E) assigned to 300- and 400-level courses taken or challenged at UVic and used within the student's degree program. Courses taken at the 500 level may be included in the graduating average if they are used to meet degree requirements. If the total unit value of such courses does not exceed 30 units, then all such courses will be included in the average. If the total exceeds 30 units, then the average will be taken on a maximum of 30 units of such courses, chosen so as to give the highest average. In the case where those 30 units include a fraction of a course, then the calculation will be based on the 30 units plus the remaining fraction of that same course. A course that has been used to satisfy the requirements for one degree or in the calculation of the student's graduating average for one degree cannot be used for credit towards another degree. Senior level courses used to complete a Minor in some other area are excluded from the graduating average computation.

BEng and BSEng Program Requirements
Courses Common to BEng and BSEng Programs (Engineering Core)
Students in all BEng and BSEng degree programs must complete the Engineering Core courses listed below. Courses common to all BEng programs, but not required in the BSEng program, are also given in a second table. Additional requirements for each specific program are given under Program Requirements in the departmental and BSEng Program entries.

Courses Common to all BEng and BSEng Programs
CHEM 150 Engineering Chemistry
CSC 111 Fundamentals of Programming With Engineering Applications
CSC 115 Fundamentals of Programming II
ENGR 020 Introduction to Professional Practice
ENGR 110 Design and Communication I
ENGR 120 Design and Communication II
ENGR 141 Engineering Mechanics
ENGR 280 Engineering Economics
MATH 100 Calculus I
MATH 101 Calculus II
MATH 110 Matrix Algebra for Engineers
PHYS 122 Mechanics for Engineers
PHYS 125 Fundamentals of Physics
1 Complementary Studies Course
1.5 units of approved electives from Humanities and Social Sciences

Additional Courses Common to all BEng Programs
CSC 349A Numerical Analysis I
ELEC 216 Electricity and Magnetism
ELEC 250 Linear Circuits I
ENGR 297 Technology and Society
MATH 200 Calculus of Several Variables
MATH 201 Introduction to Differential Equations
STAT 254 Probability and Statistics for Engineers

1. Students must normally complete ENGR 020 (Introduction to Professional Practice) before undertaking their first Work Term.

### Supplemental Examination Dates and Deadlines

</tbody>
</table>
2. A current list of acceptable courses may be obtained from <www.uvic.ca/engineering/current/undergrad/index.php#section0-25> (documents & forms).
3. May be replaced by STAT 260.

First Year Schedule
The first year course requirements are typically completed in Terms 1A (September to December) and 1B (January to April) as specified for each degree program. Alternate schedules allowing students to complete the requirements in three terms, 1A, 1B and 1C (May – August) may be available. Consult the Faculty of Engineering web site and the Engineering Undergraduate Office for information on the alternatives available and for academic advice.

Department of Electrical and Computer Engineering

Professors Emeritus
Andreas Antoniou, BSc, PhD (Lond), Doctor Honoris Causa (Metsovio, Greece), LFIEEE, FIET, CEng, PEng
Wolfgang J.R. Hoefner, Dipl-Ing (Aachen), Dr-Ing (Grenoble), Dr-Ing. h.c. (Munich), LFIEEE, FRSC, CEng, FIEEE
R. Lynn Kirlin, BS, MS (Wyo), PhD (Utah State), FIEEE
Eric G. Manning, BSc, MSc, PhD (Ill), FIET, FIEEE, ISB, PEng
Maria A. Stuchly, BSc, MSc (Warsaw Tech U), PhD (Polish Acad of Sciences), FIEEE

Professors
Panajotis Agathoklis, DiplEIEng, Dr Sc Tech (Swiss Fed Inst of Tech), FeC, PEng
Ashoka K.S. Bhat, BSc (Mys), BE, ME (Indian Inst of Sci), MSc, PhD (Torr), FIEEE, PEng
Jens Bornemann, Ing (Hamburg), Dipl-Ing, Dr-Ing (Bremen), FIEEE, FCAE, PEng
Thomas E. Darcie, BSc (Wat), MSc, PhD (Torr), FIEEE, FOSA, PEng, Tier I Canada Research Chair in Optical Systems for Communications, Imaging and Sensing
Nikitas J. Dimopoulos, BSc (National and Kapodistrian U of Athens), MSc, PhD (Maryland), FEIC, PEng, Lansdowne Chair in Computer Engineering
Peter F. Driessen, BSc, PhD (Brit Col), PEng
Fayez Gebali, BSc (Cairo), BSc (Ain Shams), PhD (Brit Col), PEng, Chair
T. Aaron Gulliver, BSc, MSc (New Brunswick), PhD (UVic), FEIC, PEng, Tier I Canada Research Chair in Advanced Wireless Communications
Harry H. L. Kwok, BSc (Calif, LA), PhD (Stan), PEng
Wu-Sheng Lu, BSc (Fudan), MSc (E China Normal), MSc, PhD (Minn), FIEEE, FEIC
Thomas Tiedje, BASc (Torr), MSc, PhD (UBC), FRSC, PEng
Adam Zielinski, BEng, MSc, PhD (Wrocław), PEng

Associate Professors Emeritus
Warren D. Little, BASc, MSc, PhD (Brit Col), PEng

Associate Professors
Michael D. Adams, BASc (Wat), MASc (UVic), PhD (Brit Col), PEng
Amirali Baniasadi, BS (Tehran), MS (Sharif), PhD (Northwestern), PEng
Alexandra Branzan Albu, BSc, MSc, PhD (Bucharest), PEng
Lin Cai, BEng (Nanjing U. of Sci. & Tech.), MSc, PhD (Wat)
Xiaodai Dong, BSc (Xian Jiaotong), MSc (Nat’l U of Singapore), PhD (Queens), PEng, Tier II Canada Research Chair in Ultra-wideband Communications
Reuven Gordon, BASc, MASc (Torr), PhD (Cambridge), PEng, Tier II Canada Research Chair in Nanoplasmonics
Kin Fun Li, BEng (Concordia), MBA (UVic), PhD (Concordia), PEng, Computer Engineering Program Director
Subhasis Nandi, BEng (Jadavpur), MEng (Indian Inst of Sci), PhD (Texas A&M), PEng
Christo Papadopoulos, BASc, MASc (Torr), PhD (Brown), PEng
Daler N. Rakhmatov, BSc (Rochester), MSc, PhD (Arizona), PEng
Mihai Sima, BEng, MEng, PhD (Bucharest), PEng, Tier II Canada Research Chair in Nanoplasmonics

Assistant Professors
Tao Lu, BSc (Man), MSc (Queen’s), PhD (Wat), PEng, Electronic Engineering Program Director
Stephen W. Neville, BEng, MASc, PhD (UVic), PEng

Professional Staff
Meeta Khurana, MSc (West), Co-operative Education Coordinator
Rhonda Korol, BSc (Torr), MSc (UVic), Co-operative Education Coordinator
Dan Mai, BSc (Man), Administrative Officer
Ana-Maria Scevenco, BE (Bucharest), MASc, PhD (UVic), Advising Assistant

Adjunct and Cross-listed Appointments
Mostafa I.H. Abd-El-Barr, BSc, MSc, MSc (Cairo), PhD (Torr), Adjunct Professor (2011-14)
Nainesh Agarwal, BEng (UVic) MSc, PhD (Wat), PhD (UVic), Adjunct Professor (2012-15)
Andrea Basso, MSc, MS (Trieste), PhD (Swiss Fed Inst of Tech), Adjunct Associate Professor (2011-14)
Stuart Bergen, BSc (Calgary), PhD (UVic), Adjunct Assistant Professor (2012-15)
Leonard Bruton, BSc (Lond), MEng (Carleton), PhD (Newcastle Upon Tyne), FRSC, FIEEE, PEng, Adjunct Professor (2011-14)
Kris Caputa, MSc (Nicolaus Copernicus), MSc, PhD (UVic), Adjunct Professor (2011-14)
Stéphane Claude, DEUG (Le Havre), Ecole Nationale Supérieure d’Ingénieurs de Caen (Caen), DEA (Caen), PhD (Lond), Adjunct Professor (2011-14)
James S. Collins, BSc (Dal), BEng, MEng (Dal/NSTC), PhD (Wash), PEng, Adjunct Professor (2012-15)
M. Watheq El-Kharashi, BSc, MSc (Ain Shams), PhD (UVic), Adjunct Associate Professor (2012-15)
Morteza Esmaeli, MSc (Teacher Training University, Tehran), PhD (Carleton), Adjunct Professor (2012-15)
Peter A. Fox, BSc (Pretoria), Graduate Diploma in Engineering, PhD (Cape Town), Adjunct Professor (2011-14)
Sudhakar N.M. Ganti, BTEch (JNTU), MTEch (IIT), PhD (Ottawa), Cross-listed Associate Professor, Dept. of Computer Science (2010-13)
Mazen O. Hasna, BSc (Qatar), MSc (USC), PhD (Minn), Adjunct Assistant Professor (2010-13)
Jeremiah E. Hayes, BEE (Manhattan Coll), MS (NYU), PhD (Calif, Berk), LFIEEE, Adjunct Professor (2011-14)
Michael Horie, BSc, PhD (UVic), Adjunct Assistant Professor (2012-15)
Atef A. Ibrahim, BSc (Mansoura), MSc, PhD (Cairo), Adjunct Professor (2011-14)
Frank Nan-Hua Jiang, BEng, MEng (U. of Electronics Science and Technology, Chengdu), PhD (Tohoku), Adjunct Assistant Professor (2012-15)
Paul H. Krueutzer, BASc (Brit Col), MSc (Rhode Is), PhD (Simon Fraser), Adjunct Assistant Professor (2011-14)
Henry Jongs-Hyeon Lee, BS (Sogang), MS (Pohang), PhD (Cambridge), Adjunct Assistant Professor (2010-13)
Wei Li, BEng, MEng (Beijing U of Posts and Telecom), PhD (UVic), Adjunct Associate Professor (2011-14)
Wei Lu, BASc, MSc (HUST), PhD (UVic), Adjunct Assistant Professor (2012-15)
Rajeev C. Nongpiur, BTech (IIT, Kharagpur), PhD (UVic), Adjunct Assistant Professor (2011-14)
Rafael Parra-Hernandez, BEng (Instituto Tecnologico de Veracruz), MSc (Centro Nacional de Investigacion y Desarrollo Tecnologico, Cuenavaca, Mexico), PhD (UVic), Adjunct Assistant Professor (2010-13)
Hari C. Reddy, BE (Sri Venkateswara), ME (Baroda), PhD (Osmania), Adjunct Professor (2010-13)
Dale J. Shpak, BSc, MEng (Calg), PhD (UVic), PEng, Adjunct Professor (2011-14)
Andrew Truman, BSc (East Lond), PhD (Southampton), Adjunct Assistant Professor (2010-13)
George Tzanetakis, BSc (Crete), MA, PhD (Princeton), Cross-listed Associate Professor, Dept. of Computer Science (2011-14)
Isaac Wongwang, MSc in Mathematics (Aix-Marseille II), MSc in Telecommunications (Quebec at Montreal), PhD (Toulon & Var, Toulon, France), Adjunct Associate Professor (2010-2013)
**Programs in Electrical and Computer Engineering**

**Undergraduate Programs**

The Department of Electrical and Computer Engineering offers programs leading to the BEng degree in Electrical Engineering, the BEng degree in Computer Engineering, and, jointly with the Department of Computer Science, the BSEng degree (Bachelor of Software Engineering). The BEng degree in Biomedical Engineering is also offered jointly with the Department of Mechanical Engineering. Further information on interdepartmental programs can be found on page 87. The BEng program in Electrical and Computer Engineering and the BSEng program are accredited by the Canadian Engineering Accreditation Board (CEAB) of the Canadian Council of Professional Engineers. Accreditation will be sought for the Biomedical Engineering program at the earliest opportunity. Accreditation ensures that graduates of the programs satisfy the academic requirements for registration with the provincial Associations of Professional Engineers.

**Biomedical Engineering Option**

Students are admitted to the Biomedical Engineering option at the completion of their 1B term. Enrolment is limited and students are cautioned that they must apply for admission and be admitted before registering in any of the option-required courses.

For further details on the Biomedical Engineering Option, please see “BEng Program in Computer Engineering (Biomedical Engineering Option)”, page 83, and “BEng Program in Electrical Engineering (Biomedical Engineering Option)”, page 83.

**Computer Music Option**

Enrolment in the Computer Music Option is limited. Students must apply for admission before registering in any of its required courses.

For further details about the Computer Music Option, see “BEng Program in Electrical Engineering (Computer Music Option)”, page 84, or “BEng Program in Computer Engineering (Computer Music Option)”, page 83.

**Fast Track Master’s Option**

The Department of Electrical and Computer Engineering offers outstanding undergraduate students an opportunity for a head start in a master’s program. Qualified students will be permitted to enrol in graduate-level courses during their fourth year. These courses will be in addition to any undergraduate requirements and thus can be transferred to the MASc or MEng degree program. All of the admission and transfer credit regulations of the Faculty of Graduate Studies must be met. For more information, please contact the Chair or the Graduate Adviser of the department.

**Business Minor**

A Business Minor develops business skills that are frequently required by practicing Engineers. See “Business Minor Program”, page 219 for requirements.

**Graduate Programs**

For information on studies leading to the MEng, MASc and PhD degrees, see the UVic Graduate Calendar.

**Program Requirements**

**BEng Program in Computer Engineering**

The BEng program in Computer Engineering requires completion of the following courses. Many courses are offered only one time per year. Refer to the Department website for course scheduling information. Consult with the program adviser for schedule planning advice.

**BEng Program in Electrical Engineering (Biomedical Engineering Option)**

In addition to the standard Computer Engineering program courses, the Biomedical Engineering Option requires completion of an additional 6.0 units of courses as follows:

- Principles of Cell Biology
- Introductory Human Anatomy
- Biosensors and Instrumentation
- Biophotonics
- Medical Physics

Notes: - Students in this option must take BIOL 190A as their Science Elective and ELEC 435 as a Technical Elective.
- Students must apply to be accepted into this option normally during Term 1B.
- Admission to this option requires completion of Biology 11 and is subject to enrolment limitations.
ing Option requires completion of an additional 6.0 units of courses as follows:

- **Biol 225** Principles of Cell Biology
- **EPHE 141** Introductory Human Anatomy
- **ELEC 335** Biosensors and Instrumentation
- **ELEC 434, or** Biophotonics
- **PHYS 432** Medical Physics

Notes: - Students in this option must take BIOL 190A as their Science Elective and ELEC 435 as a Technical Elective. 
- Students must apply to be accepted into this option normally during Term 1B. 
- Admission to this option requires completion of Biology 11 and is subject to enrolment limitations. 
- This option is offered subject to resources.

**BEng Program in Electrical Engineering (Computer Music Option)**

In addition to the standard Electrical Engineering program courses, the Computer Music Option requires completion of the following courses:

- **MUS 306** Recording Techniques
- **MUS 307** Introduction to Computer Music

Plus a total of 3.0 units from the following list:

- **CSC 475 (1.5)** Music Retrieval Techniques
- **ELEC 484 (1.5)** Audio Signal Processing
- **MUS 406 (1.5)** Acoustics
- **MUS 406A (1.5)** Advanced Sound Recording Techniques
- **MUS 406B (1.5)** Sound Recording Seminar
- **MUS 407 (3.0)** Computer Music Seminar

**Electrical and Computer Engineering Technical Electives**

The Department of Electrical and Computer Engineering offers a large number of technical electives; the program requires completion of seven technical electives (10.5 units) to be chosen from the lists below. Students who complete three courses (4.5 units) in one of the specialization areas listed below can request a letter from the Electrical and Computer Engineering office confirming this; the area will not be shown on the transcript.

Student who entered the program via a bridge program, and students who transferred from other programs, must choose their electives in consultation with the Electrical and Computer Engineering Undergraduate Adviser. Their choice of electives requires pre-approval.

Note that some courses appear under more than one category. Not all technical elective courses will be offered every year. Please check the department course schedule website for planning.

**Communications**

- **CENG 460** Communication Networks
- **ELEC 404** Microwaves and Fiber Optics
- **ELEC 405** Error Control Coding and Sequences
- **ELEC 450** Communications Theory and Systems II
- **ELEC 456** Mobile Communications

**Digital and Embedded Systems**

- **CENG 441** Design of Digital and VLSI Systems
- **CENG 450** Computer Systems and Architecture
- **CENG 455** Real Time Computer Systems Design Project
- **ELEC 466** System-on-Chip Engineering for Signal Processing
- **SENG 440** Embedded Systems

**Digital Signal Processing**

- **ELEC 403** Engineering Design by Optimization
- **ELEC 407** Digital Signal Processing II
- **ELEC 435** Medical Image Processing
- **ELEC 459** Applications of Digital Signal Processing Techniques
- **ELEC 483** Digital Video Processing: Algorithms and Applications in Media
- **ELEC 484** Audio Signal Processing
- **ELEC 486** Multiresolution Signal and Geometry Processing

**Electrical Energy Systems**

- **ELEC 410** Power Electronics
- **ELEC 482** Electrical Drive Systems
- **ELEC 488** Electrical Power Systems

**Electromagnetics and Photonics**

- **ELEC 404** Microwaves and Fiber Optics
- **ELEC 434** Biophotonics
- **ELEC 452** Optical Communication Technology
- **ELEC 453** Antennas and Propagation

**Electronics**

- **CENG 441** Design of Digital and VLSI Systems
- **ELEC 410** Power Electronics
- **ELEC 412** Electronic Devices II

**Mechatronics**

- **ELEC 426** Robotics
- **ELEC 460** Control Theory and Systems II
- **MECH 464** Integrated Mechatronics and Embedded Systems Project
- **MECH 458** Mechatronics
- **MECH 466** Microelectromechanical Systems
- **SENG 466** Software for Embedded and Mechatronics Systems

**Networks, Security, and Privacy**

- **CENG 461** Design and Analysis of Computer Networks
- **ELEC 456** Mobile Communications
- **SENG 460** Practice of Information Security and Privacy
- **SENG 461** Network Security
- **SENG 462** Distributed Systems and the Internet

**Others**

- **CENG 412** Human Factors in Engineering
- **CENG 420** Artificial Intelligence
- **CENG 421** Computer Vision
- **CENG 453** Parallel and Cluster Computing
- **CENG 496** Selected Topics in Computer Engineering
- **ELEC 420** Nanotechnology
- **ELEC 454** Engineering Components for Wireless Systems
- **ELEC 481** Analog VLSI Systems
- **ELEC 485** Pattern Recognition
- **ELEC 496** Selected Topics in Electrical Engineering
- **MECH 410** Computer Aided Design
- **MECH 460** Computer Aided Manufacture
- **SENG 410** Media Applications
- **SENG 422** Software Architecture
- **SENG 426** Software Quality Engineering

*Not all technical electives will be offered every year. Please check the department course schedule website for planning.

**Minors in Electrical Systems and Computer Systems**

An Electrical Systems Minor or a Computer Systems Minor is open to students outside of the programs in Electrical Engineering and Computer Engineering. Permission from the department is required and students must have a minimum cumulative GPA of 5. The minor requires 9 units of ELEC and CENG designated courses with a minimum of 4.5 units at the 300 level or above. For an Electrical Systems Minor, or more of these units at the 300 level or above must be ELEC. For a Computer Systems Minor, or more of the units at the 300 level or above must be CENG.

Courses that fulfill requirements for a Minor cannot form part of the requirements of the other program.

**Academic Schedule: BEng in Computer Engineering**

ACADEMIC SCHEDULE: BENG in Computer Engineering (Biomedical Engineering Option)

**Academic Schedule Notes**

1. A Complementary Studies Elective course dealing with central issues in humanities or social sciences, as required by CEAB guidelines for complementary studies, and as approved by the Faculty of Engineering. A current list of acceptable replacement courses may be obtained from the Engineering Undergraduate Office.

2. CENG/ELEC 499 to be taken only once either in Term 4A or 4B. CENG/ELEC 499 may be replaced by ENGR 400, with the permission of the department.

3. Or acceptable replacement.

4. Students normally must successfully complete ENGR 020 (Introduction to Professional Practice) before undertaking their first work term.

5. MUS 407 is a two-term course taken in the summer.

6. A course in natural science as required by CEAB guidelines. A current list of acceptable courses may be obtained from the ECE Office.

7. Alternate first year schedules for spreading the first year course load over three terms may be available. See "First Year Schedule", page 82.

### Mechanical Engineering Technical Electives

The Department of Mechanical Engineering offers a large number of technical electives; the program requires completion of seven technical electives (10.5 units) to be chosen from the lists below. Students who complete 6 units in one of the areas listed below can request a letter from the Mechanical Engineering undergraduate office confirming this; the area will not be shown on the transcript.

Note that some courses appear under more than one category.

#### Advanced Manufacture

**MECH 493** Design of Thermo-Fluid Systems
**MECH 497** Green Vehicle Technology Project

**Fluids and Aerodynamics**
**MECH 475** Aircraft Design
**MECH 492** Transport Phenomena
**MECH 493** Design of Thermo-Fluid Systems
**MECH 495** Computational Fluid Dynamics and Heat Transfer

**Topics, Thesis or Projects Courses**

**Mechatronics**
**MECH 464** Mechatronics Design Project (1.5 units, required for mechatronics certificate)
**MECH 421** Mechanical Vibrations
**MECH 430** Robotics
**MECH 458** Mechatronics
**MECH 459** Fundamentals of Hybrid Vehicles
**MECH 465** Machine Vision and Sensors
**MECH 466** Microelectromechanical Systems
**MECH 485** Mechanism and Manipulator Synthesis

**Courses from Other Departments**
With the permission of the involved departments, students may take a limited number of upper-level courses as technical electives from other departments.

**MECH 500-level Courses**
With the permission of the department, students may select courses as technical electives, from the list of 500-level Mechanical Engineering graduate courses.

**Minor in Mechanical Systems**
A Mechanical Systems Minor is open to all students outside the Mechanical Engineering program. It requires 9 units of MECH-designated courses, with a minimum of 4.5 units at the 300 level or above. Permission of the department is required. Courses that fulfill requirements for a Minor cannot form part of the requirements for the degree. In order to accommodate students from different backgrounds, as much flexibility as possible is given in course selection (consistent with course prerequisites). A suitable choice of second-year courses can lead to any areas of specialization given above in the Mechanical Engineering Technical Elective list.

3 Technical Electives 4 Technical electives

**Technical Elective Courses**
Technical Electives are offered as follows:

**May-August Term**

| MECH 420 | MECH 421 | MECH 423 |
| MECH 430 | MECH 445 | MECH 447 |
| MECH 450 | MECH 460 | MECH 462 |
| MECH 466 | MECH 497 | MECH 498 |
| MECH 499 | |

**January-April Term**

| MECH 410 | MECH 411 | MECH 443 |
| MECH 449 | MECH 450 | MECH 458 |
| MECH 465 | MECH 471 | MECH 473 |
| MECH 475 | MECH 485 | MECH 493 |
| MECH 495 | MECH 497 | MECH 498 |
| MECH 499 | |

**September-December Term**

| MECH 459 | MECH 497 | MECH 498 |
| MECH 499 | |

**Academic Schedules Notes**
1. Deviation from the standard program schedule requires submission of a Program Change Form and approval by the Department before commencement of term. Students with third- and fourth-year standing will have registration priority for 300- and 400-level courses.
2. Alternate first year schedules for spreading the first year course load over three terms may be available. See "First Year Schedule", page 82.
3. ENGR 020 (Introduction to Professional Practice) is mandatory for BEng students. Students normally must successfully complete ENGR 020 before undertaking their first work term.

**Interdepartment Programs**

**Programs in Biomedical Engineering**
Program offering is subject to approval

**Undergraduate Programs**
The Faculty of Engineering offers a program leading to the BEng degree in Biomedical Engineering. The new program is designed to be accredited by the Canadian Engineering Accreditation Board of the Canadian Council of Professional Engineers. Accreditation ensures that graduates of the programs satisfy the academic requirements for registration with the provincial Associations of Professional Engineers.

Consistent with all BEng programs, the curriculum consists of the common set of first year courses, six terms unique to the degree and four Co-operative Education terms.

**Business Minor**
An optional Business Minor develops business skills that are frequently required by practicing Engineers. See page 221 for requirements.

**Program Requirements**
Many courses are offered only one time per year. Refer to the Faculty web site for course scheduling information. Consult with a program adviser for schedule planning advice.

### Course Requirements

#### MECH 494
- Thermofluids and Introduction to Mass Transfer
- Computational Fluid Dynamics and Heat Transfer
- Honours Thesis
- Technical Project
- *One of these electives may be replaced by a 300-level CENG, CSC, ELEC, MECH, SENG course. Additional BME electives can be used to replace technical electives from this list.
- **Additional prerequisites required**

#### Bachelors of Software Engineering (BSEng) Program

**Program Director:** Jens H. Weber, Dr rer nat (Paderborn), PEng, Associate Professor

**Belinda de Jong, BA (UVic), Administrative Officer**

**Meeta Khurana, BSc (DePaul), MSc (Western), Co-operative Education Coordinator**

**Lynn Palmer, Dipl Computer Eng Tech, Programmer Analyst**

Seann Wagner, BSc (UVic), Programmer Analyst

The Bachelor of Software Engineering (BSEng) degree is offered jointly by the Department of Computer Science and the Department of Electrical and Computer Engineering. The Software Engineering Program Board is responsible for overseeing the quality and operation of the BSEng program. This board is chaired by the BSEng Program Director and has representation from both the Department of Computer Science and the Department of Electrical and Computer Engineering. The Program Director is responsible for the day-to-day leadership and administration of the program.

#### BSEng Academic Advice

Students wishing to obtain more information about the BSEng program should contact the Program Director. Students in the program may also find it helpful to discuss questions with the assigned faculty advisers in Computer Science and Electrical and Computer Engineering.

#### BSEng Co-op Requirements

Co-operative Education is mandatory in the BSEng degree program. Please refer to the Faculty of Engineering Co-operative Education Programs General Regulations, page 89.

#### BSEng Program Requirements

Please refer to the table under "Academic Terms and Academic Years", page 79, for information on standard academic term and work term sequencing.

ENGR 446 (1.0) Technical Report
SENG 401 (1.5) Social and Professional Issues
SENG 499* (1.5) Technical Project
3 technical electives (4.5)

1. Alternate first year schedules for spreading the first year course load over three terms may be available. See "First Year Schedule", page 82.
2. Students normally must successfully complete ENGR 020 (Introduction to Professional Practice) before undertaking their first work term.
3. Students must successfully complete the Academic Writing Requirement before undertaking their second work term.
4. When both courses are offered in the same term, only one of them may be open to BSEng students.
5. CHEM 150 can be substituted for CHEM 101.
6. A complementary studies elective course dealing with central issues in humanities or social sciences, and as approved by the Faculty of Engineering’s BEng/BSEng Student Programs Committee. A current list of acceptable courses may be obtained from the BSEng Program Office.
7. A course in natural science as required by CEAB Committee. A current list of acceptable courses is published by the Faculty of Engineering with central issues in humanities or social sciences, and as approved by the Faculty of Engineering. Other courses that may qualify as technical electives are topic courses, directed studies, technical projects and other courses offered by the Engineering and Software Engineering Program Office.
8. On the recommendation of the BSEng Program Office and the permission of the ECE Department, credit for ENGR 400 may be applied in lieu of SENG 499 as the term 4B program requirement.

BSEng 4th Year Technical Electives

The Software Engineering Program offers a large number of technical electives; the program requires completion of five technical electives (7.5 units) normally chosen from the set of 400-level courses offered within the Faculty. Students who transferred from other programs or post-secondary institutions must choose their electives in consultation with the Software Engineering Program Office. Their choice of electives requires pre-approval by that office. Students who complete 3 courses (4.5 units) in one of the specialization areas listed below can optionally request a letter from the Software Engineering Program Office confirming this; the area will not be shown on the transcript.

Specialization Areas

Biomedical
CSC 428 Computational Biology
CSC 498 Bioinformatics Project
ELEC 435 Medical Image Processing
ELEC 486 Multiresolution Signal and Geometry Processing
SENG 466 Software for Embedded and Mechatronic Systems

Communication and Networks
CENG 461 Design and Analysis of Computer Networks
CSC 463 Wireless and Mobile Networks
CSC 466 Overlay and Peer-to-Peer Networking
CSC 467 Switching, Network Traffic and Quality Service
SENG 461 Network Security

Computational Intelligence
CENG 420 Artificial Intelligence

Embedded Systems
CENG 450 Computer Systems and Architecture
CENG 455 Real-Time Computer Systems
ELEC 407 Design Project
ELEC 426 Robotics
ELEC 466 System-on-Chip Engineering for Signal Processing
ELEC 486 Multiresolution Signal and Geometry Processing
SENG 466 Software for Embedded and Mechatronic Systems

Graphics and Gaming
CENG 420 Artificial Intelligence or CSC 421 Introduction to Artificial Intelligence
CSC 305 Introduction to Computer Graphics
CSC 461 Multimedia Systems
CSC 471 Fundamentals of Computer Rendering
CSC 472 Fundamentals of Computer Modeling
CSC 473 Fundamentals of Computer Animation
CSC 475 Music Retrieval Techniques
CSC 486 Topics in Graphics
ELEC 483 Digital Video Processing: Algorithms and Applications in Media
ELEC 484 Audio Signal Processing
ELEC 486 Multiresolution Signal and Geometry Processing

High Performance Computing
CENG 453 Parallel and Cluster Computing
CSC 454 Fault Tolerant Computing
CSC 462 Distributed Computing or SENG 462 Distributed Systems and the Internet
CSC 464 Concurrency
SENG 424 Reliability Engineering
SENG 450 Network-centric Computing

Human Computer Interaction
CENG 412 Human Factors in Engineering
CENG 420 Artificial Intelligence or CSC 421 Introduction to Artificial Intelligence
CENG 421 Computer Vision
SENG 410 Media Applications
SENG 411 Advanced Human Computer Interaction
SENG 435 Computer Supported Collaborative Work

Mechatronics
ELEC 460 Control Theory and Systems II

MECH 458 Mechatronics
MECH 459 Fundamentals of Hybrid Vehicles
MECH 466 Microelectromechanical Systems
MECH 497 Green Vehicle Technology Project
SENG 466 Software for Embedded and Mechatronic Systems

Programming Languages and Architectures
CSC 322 Logic and Programming
CSC 330 Programming Languages
CSC 435 Compiler Construction
SENG 422 Software Architecture

Security and Privacy
CSC 429 Cryptography
CSC 454 Fault Tolerant Computing
SENG 460 Practice of Information Security and Privacy
SENG 461 Network Security

Theory of Computation
CSC 326 Algorithms and Data Structures II
CSC 349A Numerical Analysis
CSC 422 Graph Algorithms
CSC 423 Randomized Algorithms
CSC 425 Analysis of Algorithms
CSC 426 Computational Geometry
CSC 428 Computational Biology Algorithms
CSC 428A Combinatorial Algorithms
CSC 429 Cryptography
CSC 445 Operations Research: Linear Programming
CSC 446 Operations Research: Simulation
CSC 449 Numerical Linear Algebra

Other courses that may qualify as technical electives are topic courses, directed studies, technical projects and other courses offered by the Faculty of Engineering. Students interested in such courses must seek pre-approval with the Software Engineering Program Office.

1. Subject to approval by BSEng Program Office

Engineering and Computer Science/Math Co-operative Education Programs

Professional Staff
Manfred Bultmann, MA (Cologne), Engineering and Computer Science/Math Co-op and Career Services, Program Manager
Susan Fiddler, BMus (UVic), Mechanical Engineering Co-operative Education Coordinator
Jonathan Fowler, BSc (York), MS (Bath), PhD (Cambridge), Computer Engineering Co-operative Education Coordinator
Duncan Hogg, BSc, MSc (UVic), Computer Science Co-operative Education Coordinator
Meeta Khurana, MSc (West), Electrical Engineering and Software Engineering Co-operative Education Coordinator
General Regulations

Co-operative Education is mandatory in the BEng and BSEng degree programs.

The University regulations with respect to Co-operative Education Programs, page 46, are applicable to the BEng, BSEng and Computer Science/Math degree program students except to the extent that they are modified by regulations adopted by the BEng, BSEng or Computer Science/Math Co-op programs.

The faculty and departments will endeavour to inform students who appear to be at risk of violating any of these requirements. Failure to do so, however, in no way obligates the faculty or the departments to waive a requirement at a later date.

The Engineering and Computer Science/Math Co-op office is responsible for overseeing and evaluating work placements, and the assignment of the work term grades.

Students must sign a current Terms and Conditions document as provided by the Engineering and Computer Science/Math Co-op Program in order to be eligible to participate in the placement process.

Admission and Retention Regulations for CSC/Math Co-op Students

The normal requirements for admission of students to a Computer Science/Mathematics Co-op Program are the completion of CSC 110, MATH 100 and the following:

1. the completion of at least 4.5 units on their last academic term
2. a minimum grade of B- in any Computer Science courses and a minimum grade of C+ in any Mathematics or Statistics courses taken on their last academic term
3. no grades of F, E or N in courses taken on their last academic term

Students are normally admitted to a program in January after their first term on campus; application for admission should be made before the end of the first term. However, a student may be admitted to a program up to the end of his or her second year. A student will be admitted to a Co-op Program only if there is a satisfactory schedule of academic terms and work terms that will enable the student to complete all co-op requirements.

For students who have completed all of CSC 110 and 115 and MATH 100, 101, 122, the normal requirements for admission to a Computer Science/Mathematics Co-op Program are:

1. the completion of at least 4.5 units on their last academic term
2. a minimum grade of B- in any of CSC 115, 225, 230 and SENG 265 taken on their last academic term; a minimum grade of C+ in any other Computer Science courses taken on their last academic term; and a minimum grade of C in any Mathematics or Statistics courses taken on their last academic term
3. no grades of F, E or N in courses taken on their last academic term

Students registered in a Co-op Program must normally be enrolled in at least 6 units of course work during each academic term. The performance of students will be reviewed after each academic term and each work term. Students who fail to achieve satisfactory standing on an academic or satisfactory completion of a work term (see General Co-op Regulations in UVIC Calendar) may be required to withdraw from the program. Each work term is recorded on the student’s academic record and transcript.

Work Term Sequence

BEng/BSEng and CSC/Math students’ work terms are normally of four months’ duration and alternate with academic terms. Upon approval, work terms of 4 months can be combined to 8-, 12-, or 16-month periods of employment. BEng/BSEng students need to submit a modified program request to their respective departmental office for approval of work terms longer than 4 months.

Work Term Prerequisites

BEng and BSEng Students

ENGR 020 (Introduction to Professional Practice) and ENGR 240 (Technical Writing) or ENGR 120 (Design and Communication II) are mandatory requirements for BEng and BSEng students.

Computer Science/Math Students

The CSC Work Placement Preparatory Course is a mandatory requirement for Computer Science/Math Co-op students. Students normally must have completed the preparatory course before undertaking their first work term but in all cases must complete it before taking the second work term.

Students with significant work experience may complete a “Prior Learning Assessment”. Advance placements or waivers for this course may be considered on this basis only.

Students normally must complete the University Academic Writing Requirement before undertaking their first work term but in all cases must complete this requirement before their second work term.

Work Term Credits/Reductions

Students must pass four work terms in order to qualify for the BEng, BSEng and CSC/MATH Co-op degree.

There are, however, several clearly defined situations where this requirement may be reduced by one or at most two work terms. Please note that the total work term credits/reductions that can be accumulated under this section is limited to a maximum of two.

1. A student with extensive technical work experience completed prior to admission to the program may apply to challenge for credit one or two work terms. No challenge credit will be granted in the combined CSC/Health Information Science programs.
2. A student with co-op work terms from another post-secondary institution may apply for transfer credit (to a maximum of two) toward the four required work terms if they have at least 12 units of academic credit which transfers from that institution towards the BEng, BSEng or CSC/MATH co-op degree. Detailed documentation supporting the credit request may be required.

A student with at least four months related work experience may apply for Work term credit by challenge, page 46. Students must apply in writing to the Engineering and Computer Science/Math Co-op office for challenges and transfer credits. Applications must be made within the first four months of attendance in the BEng, BSEng or CSC/Math programs at the University of Victoria. Complete documentation in accordance with University of Victoria guidelines must be submitted within four months after making the application.

A student undertaking continuous co-op work experience longer than four months must be registered in a separate work term for each 4 month period and may be granted credit for additional work terms provided the basic requirements for each individual work term are met. Additional work terms should incorporate increased responsibility. For any period of work beyond 4 months for which there are no additional registrations, the student will lose co-op status and full-time standing at UVic.

Work Term Application and Registration

Students must be registered for the work term by completing the Work Term Registration Form.

Students are expected to participate fully in the placement process. While every attempt will be made to ensure that all eligible students are placed, the Engineering and Computer Science/Math Co-op office is under no obligation to guarantee placement.

Students should be aware that they may be required to spend work terms outside the greater Victoria area.

The Engineering and Computer Science/Math Co-op Program reserves the right to approve any employer that provides placements for students and to withdraw a student from any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any withdrawal and can follow the student appeal procedures as outlined in the Co-operative Education Program section.

Students must be registered for the entire duration of the work term placement and, once registered, are not permitted to withdraw from the placement without penalty of failure, unless specific written permission has been granted by the Dean. Where permission is granted, an entry of WNF (Withdraw No Fault) will be entered on the transcript.

Work Term Assessment

Students are required to write a report for each four-month work term. The report is expected to follow the guidelines as outlined on the Engineering and Computer Science/Math Co-op web site.

Students must mail or hand-deliver a hard copy of the report directly to the Engineering and Computer Science/Math Co-op office. Due dates and other administrative details are stipulated in the course outline for each work term. Failing grades are submitted for work term reports not handed in by the due date.

The requirements for a pass grade in a Co-op work term include:

- the employer’s satisfactory final evaluation of the student,
the satisfactory completion of a work term report as assessed by an approved marker as designated by the Engineering and Computer Science/Math Co-op Office and for BEng and BSEng students a log of the student's work activities.

Note: Receiving an unsatisfactory grade in either the final evaluation or work term report or not handing in the log (BEng and BSEng students) will result in a failing grade for the work term.

A grade of COM, F/X, or N/X will be assigned to students at the completion of each work term; COM is the passing grade. Students should be aware that an N/X or F/X grade in a work term may result in a change in their university standing. An appeal of an F/X or N/X grade awarded for a work term will only be considered if it is submitted within six months of completion of the work experience. Students who fail a work term or who have not completed a work term by the end of four academic terms may be required to withdraw.

An evaluation of the work term will be based on the student’s performance of assigned work term tasks, as indicated in the employer’s evaluation of the student, a written work term report evaluated by an approved marker, and for BEng and BSEng students a log of the student’s work activities in a form that conforms to the requirements for log books set out in the Faculty of Engineering guidelines.

**Co-op Program Fee**

The university assesses a Co-op Program Fee for each work term, which is non-refundable, that is due in the first month of each term for eight (8) terms and is subject to the University’s general fee regulations.

Note: students admitted to BEng/BSEng programs prior to September 2012 will be assessed a work term fee upon registration in each work term as per tuition regulations under “Co-op Program Fee”, page 91.

**Status of Students on Work Terms**

Students registered for work terms are considered to be enrolled in a full-time course of studies and may not take university-level credit courses without the permission of the Program Manager of the Engineering/CSC/Math Co-op program for BEng/BSEng and CSC/Math students.

Students who are not registered in academic terms or in work terms should make themselves aware of the implications of their lack of full-time status.

**Computer Science, Computer Science (Software Engineering Option), Computer Science (Bioinformatics Option), Computer Science (Theory Option), Computer Science/Mathematics and Computer Science/Statistics**

Students admitted to one of these programs who wish to participate in Co-op must successfully complete four work terms in order to complete their Co-op degree requirements, and satisfy the course requirements of their specific degree program.

**Health Information Science/Computer Science**

Students admitted to the Combined Program in Health Information Science and Computer Science are required to take part in the Co-op Education Program. In addition to completing their degree requirements, they must successfully complete a minimum of three work terms with at most two in one department, and be enrolled in a minimum of six units of course work each campus term in order to graduate in this program. The granting of work term credit by challenge is not permitted in this program.

**Geography/Computer Science, Music/Computer Science, Physics/Computer Science, Psychology/Computer Science, Visual Arts/Computer Science**

Students in one of these Combined Programs who wish to participate in Co-op may, if eligible, enrol in and undertake work terms in both Co-op programs or may, if eligible, enrol and undertake work terms in only one Co-op program. They must successfully complete four work terms in order to complete their Co-op degree requirements. Students who complete at least two work terms in each area will have the combined nature of their program noted as part of the Co-op designation on their official records.

**Computer Science/Mathematics Work Experience Program**

The Computer Science/Mathematics Work Experience program is intended for students who are enrolled in, or have completed, at least 3 units of 300- or 400-level courses in Computer Science, Software Engineering, Mathematics or Statistics in any Major, Honours or Option degree program in either the Department of Computer Science or the Department of Mathematics and Statistics, or in any combined degree program offered entirely within these two departments.

Students participating in the Work Experience program must pass two co-op work experience terms, that is, a total of eight months of full-time, discipline-related work under the supervision of the Engineering and Computer Science/ Mathematics Co-op Program. These work experience terms are subject to the General Regulations: Undergraduate Co-op, with the exception that work experience credit by challenge is not permitted. Students passing the required two work experience terms will receive a designation of Work Experience on their academic record and transcript.

Students should contact the Engineering and Computer Science/ Mathematics Co-op Office to discuss entry into this program.
The Faculty of Fine Arts offers students a wide range of courses in writing, theatre, music, visual arts and history in art.

Applied and theoretical instruction enables students to acquire a sound foundation of knowledge and skills while they explore their own creativity.
General Information

DEGREES AND PROGRAMS OFFERED

The Faculty of Fine Arts comprises the Departments of History in Art, Theatre, Visual Arts, Writing and the School of Music. The faculty offers programs leading to the degrees of Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music and Bachelor of Science. The faculty also offers interdisciplinary programs in Film Studies and Arts of Canada, as well as diploma and certificate programs in several subdisciplines of Fine Arts.

Graduate Programs

Graduate studies are offered in Music, History in Art, Theatre, Visual Arts and Writing. For information on graduate programs, please refer to the UVic Graduate Calendar.

Co-operative Education Programs

Please refer to page 45 for a general description of Co-operative Education.

In the Faculty of Fine Arts, the Humanities, Fine Arts and Professional Writing Co-operative Education program is offered. For information, please see page 94. Details of the program in the Department of Writing are outlined on page 105.

Admission to and completion of co-operative education programs are governed by individual departmental requirements. As a required part of the program, students are employed for specific work terms. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35. This employment is related as closely as possible to the student’s course of studies and individual interest.

Students may withdraw from the Co-operative Education Program at any time during an academic term and remain enrolled in a degree program offered by their department.

ACADEMIC ADVICE AND PROGRAM PLANNING

Students entering the faculty for the first time should consult the Faculty of Fine Arts Advising Centre in Room 119 of the Fine Arts Building for advice about course planning.

Students entering the School of Music should consult the School of Music for advice about course planning. If possible, this should be done before registration.

Students registered in the Faculty of Fine Arts who intend eventually to enter the teaching profession should note the admission requirements of the programs of the Faculty of Education. These requirements should be kept in mind when choosing academic electives in undergraduate degree programs.

Pre-Architecture Planning

Since Canadian Architectural programs vary widely in their prerequisites for admission, undergraduates interested in future careers in architecture, urban planning or landscape architecture are urged to request this essential information from the School of Architecture they are interested in entering.

For advice on course selection, students planning an architectural degree should consult the Fine Arts Advising Centre or the Advising Centre for the Faculties of Humanities, Science and Social Sciences.

AvAILABILITY OF COURSES TO STUDENTS IN OTHER FACULTIES

All courses in the Faculty of Fine Arts carry unrestricted credit in the Faculties of Humanities, Science and Social Sciences.

Students in the Faculty of Education may register for credit in any course offered by the Faculty of Fine Arts, provided space is available and they have the prior approval of the Teacher Education Advising Centre.

LIMITATION OF ENROLMENT

Because of limited space and resources in some programs, not all qualified candidates can be admitted; early application is therefore highly recommended.

Students from other faculties should note that enrolment in certain courses may be limited and preference given to students registered in the Faculty of Fine Arts. Consult the department or school concerned for specific information.

Faculty Admissions

ADMISSION REQUIREMENTS

Applicants seeking admission to the Faculty of Fine Arts should refer to the admission requirements on page 24. Additional requirements for admission to the Departments of Music, Theatre, Visual Arts and Writing are included in each department’s entry.

1. Offered by the Faculties of Fine Arts and Humanities
2. Offered in cooperation with the En’owkin Centre in Penticton, BC
3. Offered through UVic Continuing Studies
4. Offered by the Faculties of Fine Arts, Humanities, and Social Sciences
Admission to a Second Bachelor’s Degree

Students wishing to complete a second bachelor’s degree should proceed as outlined on page 40.

Credit for Courses Offered by Other Institutions

Students who plan to undertake work at other universities must receive prior approval from the Fine Arts Advising Centre. To be eligible for a Letter of Permission to take courses elsewhere, the student must have completed, or be registered in, no less than 6 units at UVic. Upon successful completion of such work, the student must request the registrar of the other university to send an official transcript of record to Records Services at UVic.

Candidates for a bachelor’s degree must normally complete at UVic a minimum of 30 units at the 100 level or above, including at least 18 of the minimum 21 upper-level units required for all degree programs. Students may take at another institution:

- no more than 6 of the upper-level units required for the Honours Program
- no more than 3 of the 15 upper-level units required for the Major Program
- no more than 3 of the 9 upper-level units required for the Minor Program

Applications for Letters of Permission to undertake studies elsewhere must be accompanied by $10.00 payment per application, per institution.

Faculty Academic Regulations

General Regulations

Calendar regulations governing registration, fees, and academic advancement apply to all students registered in the Faculty of Fine Arts. Special regulations are set out under the department entries.

Faculty of Fine Arts Degree Requirements

Each candidate for a Bachelor’s degree in the Faculty of Fine Arts is required:
1. to have satisfied the “Academic Writing Requirement”, page 31
2. to present credit in a minimum of 60 units of university-level courses numbered 100 and above; at least 30 of these 60 units must normally be UVic courses
3. to include in these 60 units a minimum of 21 units of courses numbered at the 300 and 400 level; at least 18 of the 21 upper-level units should normally be UVic courses
4. to meet the specific program requirements prescribed by the faculty for the student’s declared degree program (see individual department and school listings for details).

Record of Degree Program

All students in the Faculty of Fine Arts are required to complete a Record of Degree Program form in consultation with the Fine Arts Advising Centre (or, in the case of Music students, with the School of Music office) preferably near the beginning of their third year of studies. The purpose of this form is to ensure that proposed courses will meet the requirements for the degree program selected.

Faculty Degree Programs

Honours and Major Programs

Details of Honours and Major programs in the faculty are presented under the entries of the individual departments offering the programs.

Interfaculty Programs

It may be possible for students to arrange for an Interfaculty Double Honours, Joint Honours and Major or Double Major Program. Students must contact the Advising Centre for the Faculties of Humanities, Science and Social Sciences for further information and are strongly urged to do so before registering in courses which they wish to count for credit on an Interfaculty Program.

Such programs involve satisfying the Honours and/or Major requirements of two disciplines, both leading to the same degree, in two different faculties. Agreement to details of all such programs must be signed by the student and by representatives of the academic units involved. Students in an Interfaculty Program will be subject to the regulations of the faculty in which they are registered.

Only one Bachelor’s degree with a Double Honours or a Joint Honours/Major or a Double Major will be awarded on the recommendation of the faculty in which the student is registered.

It may be possible for students to arrange to undertake an Interfaculty Minor in the Faculties of Humanities, Science and Social Sciences. Students must contact the Advising Centre for the Faculties of Humanities, Science and Social Sciences for further information, and are strongly urged to do so prior to registering in courses which they wish to count for credit on an Interfaculty Minor.

Interdepartmental Double Honours or Major

A student in one department in the Faculty of Fine Arts may concurrently satisfy the requirements of a program in a second department by completing the program requirements in the second area with the permission of both departments. Only one degree will be awarded. For example, a student majoring in History in Art may concurrently satisfy the requirements for the program in Visual Arts and thereby qualify for a BA with a Double Major in History in Art and Visual Arts. Conversely, a student majoring in Visual Arts may concurrently satisfy the requirements for the program in History in Art and thereby qualify for a BFA with a Double Major in Visual Arts and History in Art. Students interested in taking a Double Honours or Major Program should consult the Fine Arts Advising Centre.

In any case where two different classes of degree result, each class will be tied to the respective discipline instead of the degree, and will be shown in the student’s academic record.

Minors

The Faculty of Fine Arts offers Minors in:
- Arts of Canada (offered jointly with the Faculty of Humanities; see page 221)
- European Studies (offered jointly with the Faculties of Humanities and Social Sciences; see page 222)
- Film Studies (offered jointly with the Faculty of Humanities; see page 221)
- Music (see page 100)
- Professional Writing in Journalism and Publishing (see page 105)

Humanities, Fine Arts and Professional Writing Co-operative Education Program

Jen Kyffin, BA (UVic), MEd (UVic), Co-operative Education Coordinator

The Humanities, Fine Arts and Professional Writing Co-operative Education Program is a year-round program which, through work terms of employment in a variety of organizations, enables students to combine work experience with an education in the Fine Arts and/or Humanities.

Applications and further information about the Humanities, Fine Arts and Professional Writing Co-operative Education Program are available from the Co-op Coordinator, Room D128, Clearihue or at <www.uvic.ca/hfpcoop>.

Program Requirements

Any student registered in a BA, BFA, BSc, BMus, MA, MFA or PhD degree in the Faculty of Fine Arts or the Faculty of Humanities or registered in the Cultural Resource Management Program, the English Minor in Professional Writing, the Minor in Professional Writing in Journalism and Publishing or the Diploma Program in Intercultural Education and Training will be admitted to the Humanities, Fine Arts and Professional Writing Co-operative Education Program.

Prior to seeking their first co-op work term, students must:
1. be registered in a full course load (at least 6 units of course work per term)
2. have achieved at least a 5.0 GPA in a full course load in the previous term
3. complete satisfactorily the Work Term Preparation Seminars
4. submit an acceptable résumé and cover letter stating their co-op goals

To continue in the program, a student must:
1. be enrolled full time in a program leading to a BA, BFA, BSc, BMus, MA, MFA or PhD degree in a discipline offered in the Faculty of Humanities or the Faculty of Fine Arts or a Diploma in the Cultural Resource Management Program, the English Minor in Professional Writing, the Minor in Professional Writing in Journalism and Publishing or the Diploma Program in Intercultural Education and Training
2. maintain a GPA of at least 5.5 in the courses in the degree area
3. maintain a GPA of at least 5.0 overall

To receive the Co-op designation upon graduation, undergraduate students must perform satisfactorily in each of the required work terms.
The Humanities, Fine Arts and Professional Writing Co-op Program is designed to provide students with an academic background and certain skills appropriate to a wide range of careers. In particular, students will be required to select a program of studies intended to ensure they are:

- capable of using appropriate computer technology
- capable of conducting project-based research
- capable of clear and precise oral and written communication in English and, where appropriate, a second language
- aware of the cultural, historical, social, political or economic context pertaining to their course of study

Students who are taking double or combined major degrees, or a major and the Professional Writing Minor (where each area offers a Co-op program) may, if eligible, enrol in and undertake work terms in both Co-op programs or may, if eligible, enrol in and undertake work terms in only one Co-op program. Students who complete at least two work terms in each area will have the combined nature of their program noted as part of the Co-op designation on their official records. Students enrolled in combined major degrees where a minimum of three work terms are required must complete at most two work terms in one department.

General regulations pertaining to Co-operative Education Programs of the University of Victoria are found on page 46. Students are advised that a Co-op Education Program fee is charged.

**FINE ARTS WORK EXPERIENCE PROGRAM**

The Fine Arts Work Experience Program is intended for students in the Faculty of Fine Arts who are enrolled in at least 3 units of courses in the Fine Arts. Students who are not in the Faculty of Fine Arts, but are in interdisciplinary studies with the Faculty of Fine Arts, and enrolled in at least 3 units of courses in the Faculty of Fine Arts, may be considered for the Work Experience Program. Students participating in the Fine Arts Work Experience Program will complete one or two work experience terms, that is, four to eight months of full-time, discipline-related work under the supervision of the Humanities, Fine Arts & Professional Writing Co-op Program. These work experience terms are subject to the general regulations for Undergraduate Co-op programs in the University Calendar, with the exception that work term credit by challenge, page 45, is not permitted. Work experience students may transfer to a regular Co-op program, subject to approval from the Co-op Coordinator. Participation in this program is limited. Students should contact the Humanities, Fine Arts & Professional Writing Co-op office to discuss entry into this program.

**Diplomas and Certificates**

The faculty offers the following diploma and certificate programs:

- Diploma in Fine Arts (see below)
- Diploma in Cultural Resource Management (see page 96)
- Certificate Program in Foundations in Indigenous Fine Arts (see below)
- Professional Specialization Certificate in Heritage Conservation Planning (see page 97)
- Professional Specialization Certificate in Collections Management (see page 97)

**DIPLOMA IN FINE ARTS**

The Fine Arts Diploma Program is designed for persons who wish to pursue a personal interest in the fine arts through part-time study. Its focus, structure, content, and flexibility are well suited to active people who may also be balancing jobs, families, and community responsibilities. While the diploma program may have some career benefits, its primary purpose affirms the traditional university value of learning for its own sake. Applicants must be admissible to the University of Victoria and have demonstrated interest in the fine arts.

The Program offers students the opportunity to take selected courses from the Departments of History in Art, Music, Theatre, Visual Arts, and Writing, based on themes of study that are selected and approved at the time of application. A total of 15.0 units, made up of the core course FA 101 Creative Being (1.5 units), and elective courses from the Faculty of Fine Arts that enable the student to pursue themes of particular interest, are required for the Diploma. Up to 3.0 units of credit may be taken outside the Faculty of Fine Arts with the approval of the Associate Dean. As this program is primarily intended for students pursuing a personal rather than a professional interest in the arts, studio or performance courses are not normally emphasized.

Students may apply to obtain up to 6.0 units of transfer credit to be used towards their Diploma equivalent UVic courses, as long as the credits have not been used in a previous credential. Credit obtained within the Fine Arts Diploma Program may be transferable to a regular undergraduate degree program. However, such transferability of credit is always subject to the specific requirements of the degree program.

The Fine Arts Diploma Program is offered by the Faculty of Fine Arts in cooperation with the Division of Continuing Studies. Admission is subject to the approval of the Associate Dean of Fine Arts. For further information about the Program, please contact Joy Davis in Continuing Studies at 250-721-8462 or by email at <joydavis@uvic.ca>.

**CERTIFICATE PROGRAM IN FOUNDATIONS IN INDIGENOUS FINE ARTS**

In co-operation with the En’owkin International School of Writing and Visual Arts in Penticton, BC, the faculty offers a Certificate in Foundations in Indigenous Fine Arts. This Certificate is only available for students who complete course requirements at the En’owkin Centre. All courses meet the academic standards of the University of Victoria, but emphasize Indigenous peoples’ perspectives and cultural content.

Students take a total of 13.5 units of courses, including 3 units of core courses and 10.5 units of electives in visual arts and/or writing. Course work completed at the En’owkin Centre will be identified by the letter E following the course number; e.g., CW 150E, ART 101E.

The Certificate Program is designed primarily for mature Indigenous students who wish to develop specialized skills in creative writing and/or visual arts in an Indigenous context. Students may complete the program on a part-time basis but must successfully complete at least 13.5 units of course work over a period of two to six years.

**Admission Requirements**

Students wishing to be admitted to the Certificate Program in Foundations in Indigenous Fine Arts should contact:

- Director, En’owkin Centre
- RR#2, Site 50, Comp. 8
- Penticton BC V2A 6J7
- Phone: 250-493-7181
- Email: enowkin@vip.net
- Web: www.enowkincentre.ca

Admissions to the Certificate Program are made through the En’owkin International School of Writing and Visual Arts. As part of the En’owkin admission process, students complete a University of Victoria application form which will be forwarded to the University of Victoria Undergraduate Admissions by the En’owkin School no later than September 30 for entry into the Winter Session. Transcripts will be required at this point only to identify course credits that satisfy the University of Victoria Academic Writing Requirement.

Please note that students will be admitted through the En’owkin School for the Certificate Program only. Students who wish to continue their studies in any other University of Victoria courses or programs must apply to reregister through UVic Undergraduate Records and provide complete transcripts of all prior academic work. Credit obtained within the Certificate Program may be transferable to a regular UVic degree program. Transferability of credit is, however, subject to the specific requirements of the degree program. Students who wish to pursue a BA or BFA in Visual Arts or Writing at the University of Victoria must re-apply to UVic Undergraduate Records and fulfill all normal admission, program and course requirements. Students are strongly advised to consult the Chair of the appropriate department as early as possible.

**University of Victoria Academic Writing Requirement**

All students wishing to complete the Certificate must satisfy the "Academic Writing Requirement", page 31. The En’owkin Centre normally provides the English Placement Essay and required course work to satisfy this requirement.

**Core Courses**

Students must choose 3.0 units of core courses from the following:

- ART 100E (1.5) Studio Foundation
- ART 150E (1.5) Introduction to Contemporary Art Theory
- CW 100E (3.0) Introduction to Creative Writing

**Elective Courses**

Students may select either Creative Writing or Visual Arts courses to complete the required 13.5 units.

- ART 100E (1.5) Studio Foundation
- ART 101E (1.5) Drawing
- ART 130E (1.5) Printmaking
- ART 150E (1.5) Introduction to Contemporary Art Theory
**Department of History in Art**

CW 150E (1.5) Writing for Children from a First Nations’ Perspective
CW 155E (1.5) Critical Process and World View
CW 156E (1.5) Critical Process, Symbolism and Oral Tradition
CW 160E (1.5) First Nations’ Non-Fiction
CW 212E (1.5) Structure in Cinema and Television Drama

Note: Students wishing to apply to a degree program in Visual Arts at the University of Victoria must complete both ART 100E and ART 101E.

**En’owkin Centre Courses**

Descriptions for most En’owkin courses are in the Calendar under the departments that offer equivalent courses on campus. The following courses are offered only through the En’owkin Certificate Program: ART 100E, 101E, 130E, CW 150E, 155E, 156E, 160E, 212E.

**HISTORY IN ART PROGRAMS**

For Humanities, Fine Arts and Professional Writing Co-operative Education Information, please see page 94. For Cultural Resource Management Co-op Option information, please see page 97.

**Major Program**

In addition to the general “Minimum Degree Requirements for Graduation” on page 40, students taking a Major in History in Art must satisfy the following requirements:

1. Successful completion of HA 120, HA 121, and 18 more units of History in Art courses, of which at least 3 units must be at the 200-level and at least 15 units must be at the 300- or 400-level.

2. The 15 upper-level units must include 3 units in each of the following three areas of study which encompass ancient through to contemporary unless otherwise stated:
   
   - Europe, Mediterranean before the modern period
   - Islam, Asia
   - Arts of the Americas, Modern and Contemporary art and architecture.

These 15 upper-level units must also include at least 1.5 units of a 400-level seminar. The seminar requirement may be satisfied by HA 492. The seminar is usually to be taken in the fourth year. The seminar may be taken in third year only when approved by the Fine Arts Adviser and the Chair.

3. FA 101, preferably in the first year.

Students wishing to declare a Major in History in Art should contact the adviser at the Fine Arts Advising Centre at the end of their second year. Students interested in the History in Art program are welcome to consult with this adviser before they declare their Major.

**Honours Program**

Admission

The Honours Program provides the possibility for more intensive study in the field of History in Art, and is intended for those who wish to continue on to graduate studies in History in Art or related professional disciplines.

Students may apply to enter the Honours Program after completion of a minimum of 9 units of course work in History in Art with a GPA in these courses of 6.0 (B+) or better. Normally this is done at the end of the second year.

**Program Requirements**

Graduation with a BA Honours in History in Art requires:

1. Successful completion of HA 120, HA 121, and a minimum of 27 more units of credit in the department, of which at least 3 units must be at the 200-level and at least 21 units must be at the 300- or 400-level (out of a total degree program of 60 units)

2. The 21 units at the 300 or 400 level must include:
   
   a) 3 units in each of the following four areas of study which encompass ancient through to contemporary unless otherwise stated:
   
   - Europe, Mediterranean before the modern period
   - Islam, Asia
   - Arts of the Americas, Modern and Contemporary art and architecture
   - Indigenous arts, Pacific Northwest Coast

   These 21 upper-level units must also include at least 1.5 units of a 400-level seminar other than HA 499. The seminar may be satisfied by HA 492. The seminar is usually to be taken in the fourth year. The seminar may be taken in third year only when approved by the Fine Arts Adviser and the Chair.

**Honours Language Requirement**

Before graduation, each student will be required to demonstrate a reading knowledge of a language other than English, appropriate to the area of special interest. This requirement will be satisfied by completion of 3 units of 200-level language or literature courses (excluding those taught in English using translations).

Also acceptable are PAAS 111 and 131, GER 390, 3 units of FRAN 160 and above (excluding FRAN 160, 161, or 165), or ITAL 300. A grade point average of at least 4.0 (B+) is necessary.

For First Nations languages, a minimum of 4.5 units within a single language is acceptable. In special circumstances, students may request permission to take a translation examination administered by the department.

**Standing at Graduation**

Third-year students whose performance in the Honours Program falls below a GPA of 3.5 will be required to transfer to the Major Program at the beginning of their fourth year. Fourth-year students whose graduating average, or whose average in courses taken in the department at the 300 and 400 level, is below 3.5, but who otherwise meet the University requirements for graduation, will receive a BA with a Major in History in Art.

**Cultural Resource Management Program**

Program Description

The Cultural Resource Management Program offers a Diploma in Cultural Resource Management and Professional Specialization Certificates in Heritage Conservation Planning and Collections Management. The program serves those who are currently involved professionally in museums, art galleries, historic sites, building conservation and related cultural stewardship activities. Students in related disciplines may also participate in program courses.

**Diploma in Cultural Resource Management**

The curriculum of the Diploma Program in Cultural Resource Management features three areas of specialization: museum studies, cultural management and heritage conservation. Candidates may register for courses in one or more areas for credit towards the diploma.

Courses are offered at the third- and fourth-year undergraduate level. Applicants who do not hold a bachelor’s degree will normally be expected to have completed a minimum equivalent of two years of post-secondary education. In addition to academic background, applicants should nor-
mally have prior involvement in the cultural heritage sector to provide a context for studies. The diploma program may be completed in a minimum of one calendar year. The normal period of completion is two to three years of part-time study.

Credit obtained within the Diploma Program may be transferable to a regular undergraduate degree program, subject to the specific requirements of the degree program. Students may apply course credit to both a degree and the Diploma when the programs are completed concurrently, or when the diploma is completed first.

The program requires completion of 15.0 units through the following courses:

1. **Core courses:** HA 486A, HA 486B, HA 487. Note that students with credit in HA 486 cannot earn credit in HA 486A or HA 486B; those with credit in HA 487 cannot earn credit in HA 487A or HA 487B.

2. **Elective courses:** 10.5 units selected from HA386, HA 488A-U, HA 489A-L, HA 486A, HA 486B, HA 487A, HA 487B, HA 491A and/or HA 491B.

Applicants who have previously received credit in a degree program for any of these core courses will be allowed to substitute up to 4.5 units of courses with the approval of the Academic Adviser.

Students may apply to obtain up to 4.5 units of transfer credit for equivalent courses.

Diploma students who fail to maintain a GPA of at least 5.0 may be asked to withdraw from the program.

Students enrolled in the Diploma in Cultural Resource Management may not normally apply credit for any course towards a degree program (e.g., BA, BFA, MA). Other students may register in individual courses in the diploma program as enrolment allows.

**Cultural Resource Management Co-op Option**

Diploma candidates who complete one or more work terms through the Co-operative Education Program will receive Co-op notation on graduation.

Students who participate in the Co-operative Education Option are normally required to complete one work term after the completion of core courses and a minimum of three special topic courses. They are normally required to complete an HA 488 or HA 489 elective or HA 491A Directed Studies in Cultural Resource Management (1.5) instead of HA 491B Internship in Cultural Resource Management (1.5).

Co-operative education students within the Diploma Program in Cultural Resource Management will normally be required to complete all their program requirements within a 24-month period in order to maintain the full-time status required for participation in the Co-operative Education Program. General regulations pertaining to Co-operative Education Programs of the University of Victoria are found on page 46. For further information on the Co-operative Education Option and to apply for the Co-op program, visit the Co-op website at: [www.uvic.ca/hfpwoop](http://www.uvic.ca/hfpwoop).

**Professional Specialization Certificate in Heritage Conservation Planning**

This four-course (6.0 unit) Professional Specialization Certificate provides heritage specialists and other professionals with skills and knowledge to support conservation planning and decision making. To be considered for this certificate program, applicants must have completed a University of Victoria bachelor's degree or its equivalent and have a minimum of two years' work experience in the heritage sector. The program requires the completion of the following:

- Core courses: HA 489C, 489K, 489L
- An elective course selected from HA 489A, 489D, 489E, 489F, 489G, 489H, 489J

Students who complete a Professional Specialization Certificate in Conservation Planning are able to transfer four courses (6.0 units) upon admission to the Diploma in Cultural Resource Management.

**Professional Specialization Certificate in Collections Management**

This four-course (6.0 unit) Professional Specialization Certificate provides museum, heritage site and art gallery specialists with the knowledge and skills required to manage and care for collections of objects, specimens and other tangible and intangible heritage resources. To be considered for this certificate program, applicants must have completed a University of Victoria bachelor's degree or its equivalent and have a minimum of two years' work experience in the museum or heritage sector. The program requires the completion of the following:

- Core courses: HA 488B, 488D, 488J
- An elective course selected from the HA 488 A-U series in consultation with the Academic Adviser

Students who complete a Professional Specialization Certificate in Collections Management are able to transfer four courses (6.0 units) upon admission to the Diploma in Cultural Resource Management.

**Inquiries**

Please direct inquiries regarding the Diploma in Cultural Resource Management or the Professional Specialization Certificates in Heritage Conservation Planning and Collections Management to:

Cultural Resource Management Program

**UNIVERSITY OF VICTORIA ART COLLECTIONS**

An important resource for the Department of History in Art is the University of Victoria Art Collections. The UVAC administers the Maltwood Collection (an international collection of decorative arts including special emphasis on the Arts and Crafts movement from William Morris to the 1920s) and the University Collection (an extensive collection of western Canadian contemporary art in all media).

The specialized museological library, study gallery and varied exhibition programs give students a chance to work directly with materials and gain first-hand experience in the operations of a university museum. The primary exhibition and teaching spaces are located at the Legacy Art Gallery, downtown Victoria, 604 Yates Street, [www.uvic.ca](http://www.uvic.ca). The Maltwood Prints and Drawings Gallery in the MacPherson Library also provided exhibition and teaching spaces.

**School of Music**

Gerald King, BM (Brit Col), MM (W Wash), EdD (BYU), Professor and Director of the School (conducting, Wind Symphony)

John A. Celona, BM, MA (San Fran St), PhD (Calif, San Diego), Professor (composition)

Patricia Kostek, BSc (Mansfield St Coll), MM (Mich St), Professor (clarinet, chamber music)

Harald M. Krebs, BM (Brit Col), MPhil, PhD (Yale), Professor (theory)

Louis D. Ranger, BM (Juilliard), Professor (trumpet, chamber music)

Arthur Rowe, BM (W Ont), MM (Indiana), Professor (piano)

W. Andrew Schloss, BA (Bennington Coll), PhD (Stanford), Professor (electronic and computer music, musical acoustics, ethnomusicology)

Bruce Vogt, ARCT (Toronto), BM (W Ont), MM (Toronto), Professor (piano)

Daniel Peter Bird, MFA (Würzburg), MFA (Frankfurt), PhD (Princeton), Associate Professor (com-position, theory)

Christopher Butterfield, BM (Uvic), MA (SUNY, Stony Brook), Associate Professor (composition, theory)

Michelle Fillion, BA (Montreal), BM (McGill), MA, PhD (Cornell), Associate Professor (music history, musicology, theory)

Kurt Kellan, Associate Professor (horn, chamber music)

Susan Lewis Hammond, BA, BM (Queen's), MM (Arizona), MFA, PhD (Princeton), Associate Professor (music history, musicology)

Alexandra Pohran Dawkins, BM (Toronto), Associate Professor (oboe, chamber music, improvisation)

Patrick Boyle, BM (Memorial), MA (York), DMA (Toronto), Assistant Professor (Jazz Orchestra, Theory, Jazz History, Improvisation)

Benjamin Butterfield, Assistant Professor (voice, lyric diction, vocal pedagogy)

Ajtony Csaba, MA (Vienna), Assistant Professor (University Orchestra, Conducting)

Jonathan Goldman, BA (McGill), MA, PhD (Montreal), Assistant Professor (music history, musicology, theory)

Eugene Dowling, BM (Mich St), MM (Northwestern), Senior Instructor (tuba, euphonium, trombone, aural skills)

Susan Young, BA (BYU), MM (Calg), Senior Instructor (voice, University Chorus)

Kristy Farkas, BM (Wilfrid Laurier), MM (Uvic), Concert Manager

Kirk McNally, BM, MSc (McGill), Senior Scientific Assistant (Recording Technician, computer music)

Jill Michalski, Administrative Officer

**Artists-in-Residence**

Lafayette String Quartet:
leading to the degree of Bachelor of Fine Arts or Bachelor of Science. The School also offers a Minor in Music.

**ADMISSION REQUIREMENTS**

Enrolment in the Bachelor of Music program is limited at the present time to approximately 200 students.

**Applicants from Secondary School**

Applicants must apply to Undergraduate Admissions for acceptance to the University and in addition must make separate application for acceptance to the School of Music. The School requires that all prospective students demonstrate ability in an accepted performance area (instrument or voice). For this purpose a personal audition is recommended; if an in-person audition is not possible, a high-quality recording may be submitted instead. All applicants must submit two letters of recommendation from qualified musicians. Auditions are held each year beginning in March. Students are urged to apply as early as possible, places cannot be guaranteed for qualified applicants once positions are filled. Current high school students should apply by February 28 for early admission. See registrar.uvic.ca/undergrad.

Audition appointments and further information may be obtained from:

- School of Music University of Victoria PO Box 1700 STN CSC Victoria BC V8W 2Y2 Phone: 250-721-7904 Fax: 250-721-6597 Email: michalsk@uvic.ca Web: <www.finearts.uvic.ca/music>

**Transfers from Other Institutions**

Students transferring from other institutions follow the application procedure described in the preceding paragraph. Applicants from BC colleges may consult the BC Transfer Guide (online at <www.bctransferguide.ca>) for information on the transferability of specific courses to UVic. Credit earned outside BC will be evaluated on a course-by-course basis when the student is admitted. This credit and School admission procedures will determine into which year of studies the student will be accepted. No students are admitted into the final (fourth) year. For information on undergraduate admissions procedures and deadlines, see page 21 or registrar.uvic.ca/undergrad.

**PROGRAM REQUIREMENTS**

**Requirements Common to All BMus Degrees**

All BMus students, regardless of their eventual choice of Major, are required to take a common first-year program.

**Year 1**

1. First-year students are required to sing in the University Chorus or University Chamber Singers in addition to any instrumental ensembles to which they may be assigned.
2. Not required for students whose principal instrument is voice.
3. Students intending to major in Music Education should take an additional 1.5 units of English. Students entering a Music Education major require a minimum average of B- in 3.0 units of English selected from ENGL 135, 146 or 147. ENGL 101 does not satisfy this requirement.
4. Students wishing to major in Music Education must register in ME 101. Music Education courses may function as music electives or non-music electives in all BMus programs.
5. Students enrolled in MUS 140 as pianists may take MUS 172 in their first year in addition to the above course. These students will take non-music electives aside from FA 101 in the first year. In year 2, 3 or 4, 1.5 units of music electives will be replaced by a non-music elective.
6. In addition to the courses listed above, students intending to major in Composition must enrol in MUS 105 and may also be advised to take MUS 207 in their first year.

All BMus students are required to demonstrate proficiency at the keyboard, to be evidenced by Conservatory documentation or evaluation by examiner. The level required is similar to the Royal Conservatory grade level 5 or 6. Those who are inexperienced at the keyboard may prepare for the exam by taking instruction. This may take the form of private lessons or piano classes. A complete description of the keyboard proficiency requirement is available from the School of Music.

At the end of the common first year, each student will declare a choice of Major and will be assigned a faculty adviser who will assist in selecting appropriate elective courses, ensure that program requirements are satisfied and oversee year-to-year progress by means of consultation with their instrumental instructors (aided by auditions in certain sections). All students are assigned to ensembles according to each student's educational needs and the needs of the School.

**Major Program Requirements**

Acceptance into the Major Program of the student's choice and continuation in that Major must be approved by the appropriate division of the School. A student whose progress is judged to be unsatisfactory may be refused permission to continue in the chosen original Major. A student who fails to achieve a grade of C+ or better in individual tuition (MUS 140-440) or Seminar in Performance (MUS 245-445) will have his or her status re-evaluated by a committee consisting of the student's teacher, the student's adviser, the head of the performance section, and the Director of the School. In some cases the commit-tee may determine that the student should be required to withdraw from the BMus program.

Students who intend to declare Music Education as their Major must be formally interviewed at
Major in History and Literature

Year 2
- MUS 201A and 201B.................. 3.0
- MUS 205.............................. 3.0

1. Ensemble requirements in Music Education Secondary program:
   a) Orchestral Instruments, Keyboard Instruments and Guitar
      - Year 3: MUS 281 and 380
      - Year 4: MUS 381 and 480
   b) Voice
      - Year 3: MUS 380
      - Year 4: MUS 480

### Combined Major Program in Music and Computer Science

The School of Music and the Department of Computer Science have designed a combined program leading to either a Bachelor of Fine Arts or a Bachelor of Science degree.

Students are advised that because of restricted facilities and staff, it may be necessary to limit the offering of this Program. The initial application date for the first year of this program is entry in September is March 31; however, applications received before May 15 will be considered if places are still available. Applicants must make separate application for acceptance into the first year of the Combined Program. See <finearts.uvic.ca/music/csmusic/form/>. Students will be admitted to the program at the end of first year. When all first year requirements have been met, the application date for September entry to the second year of this program is May 1 and the document deadline is July 1.

Enrolment in this program is limited. Since students wishing to complete a combined degree program in Music and Computer Science are admitted at the end of first year into this program in the Faculty of Fine Arts, applicants will normally register in first year in one of the following faculties/programs for which they meet the admission requirements: Humanities, Science, Social Sciences, Engineering or Fine Arts.

### Minor in Music

The Minor Program consists of 20 units in Music, and will normally include:
- MUS 101A ......................................................... 1.5
- MUS 101B ......................................................... 1.5
- MUS 120A ......................................................... 1.5
- MUS 120B ......................................................... 1.5
- MUS 170A ......................................................... 0.5
- MUS 170B ......................................................... 0.5
- MUS 180 (by audition) ....................................... 1.0
- MUS 220A ......................................................... 1.5
- MUS 220B ......................................................... 1.5
- 300/400 MUS electives ..................................... 9.0

Substitutions to the above can be made only with the approval of the School. Students must declare the Minor through the Advising Centres of their own faculties.

### Computer Music Option

A Computer Music Option is offered by the Department of Electrical and Computer Engineering (see page 83).

### Department of Theatre

Warwick Dobson, BEd (Newcastle-upon-Tyne), MA (Lancaster), MA (Ed), PhD (Sussex), Associate Professor, Chair
Sarah Blackstone, BA Honors (Wyoming), MA (Kansas State), PhD (Northwestern), Professor, Dean
Brian Richmond, MA (Tor), Professor
Allan Stichbury, BFA (Alta), Professor
Mary Kerr, BFA (Man), Doctor of Canon Law (honoris causa) (Man), Professor
Jennifer Wise, BA, MA, PhD (Tor), Associate Professor
Conrad Alexandrowicz, BA (York), MFA (Alta), Assistant Professor
Linda Hardy, BA (Brock), MA (Tor), Assistant Professor
Allana Lindgren, BA (Uvic), MA (York), PhD (Tor), Associate Professor
Jan Wood, BFA (Alta), Assistant Professor
Fran Gehbard, MFA (UBC), Senior Instructor
Peter McGuire, MFA (Uvic), Senior Instructor
Anthony Vickery, BA (Uvic), MA (Tor), PhD (Uvic), Senior Instructor
N. Bindon Kinghorn, Senior Academic Assistant and Part-time Lecturer
Gysbertus A. Timmermans, BFA, MFA (Uvic), Senior Academic Assistant and Part-time Lecturer
The philosophy of the Theatre department is that the theatre should be studied in all its aspects and that it is best approached through a curriculum that leads to performance. Through all courses and productions, students are encouraged to focus on fundamental creative, interpretive, performative and technical skills as they study the historical, contemporary and educational theories and practices of the theatre arts.

The department offers undergraduate students a choice between an Honours Program in Theatre History and a Theatre Major Program. In the latter program, students may select either a Specialist or a Comprehensive Option. A Co-op program is also available.

Students will be required to take part in rehearsals and performances. No student may register in an evening course without the permission of the department.

**Theatre Major Program**

Theatre students must select one of two program options:
- Comprehensive Option, or
- Specialist Option in Acting, Applied Theatre, Design, Directing, Production and Management, Theatre History, or Theatre/Writing.

Acceptance and continuance in a Major Program is subject to approval by the department.

**Comprehensive Option**

Students who wish to combine their Theatre studies with a wide range of other liberal arts disciplines should select the Comprehensive Option. A minimum of 30 units in Theatre core courses are required for Comprehensive Option students to graduate with a BFA in Theatre.

**Specialist Options**

Students wishing to emphasize a particular aspect of Theatre should choose one of the seven Specialist Options below:
- Acting
- Applied Theatre
- Design
- Directing
- Production and Management

**Theatre History**

Normally, students must have a cumulative GPA of 5.0 (B) and a GPA of 6.0 (B+) in Theatre Courses to be admitted and advanced in any Specialist Option.

Students are strongly advised to follow the prescribed course requirements for their year and chosen Specialist Option. Failure to complete electives and register for all co-requisites in any given year may jeopardize students’ ability to complete their Specialist Option within four years.

**Specialist Option in Acting**

Students may enter the Option in Acting at the beginning of second year. Enrolment is limited. Admission is by audition only. Students are advanced into third and fourth year subject to an annual review. Students in this Option are required to complete 4.5 units of performance credit in THEA 229, 329 and 429. Normally, eligibility for performance credits will commence as students enter the Acting Specialist Option in Second Year.

**Specialist Option in Applied Theatre**

Students may indicate their intention to enter the Option in Applied Theatre in first year. The Applied Theatre program allies the art of the theatre with effective pedagogy to build upon the growing recognition of theatre as an educational methodology in matters of social, political, economic and therapeutic concerns. The program provides the theoretical and experiential foundations that will serve those who wish to examine the use of theatre forms as they apply to teaching and/or non-theatrical settings, such as cultural, recreation and community centres, historic and environmental sites, museums, prisons, hospitals, social service and health agencies.

Students considering careers in elementary, middle or secondary schools are urged to consult with the Teacher Education Advising Centre early to plan their undergraduate programs.

**Specialist Option in Design**

Students may enter the Option in Design at the beginning of the third year.

**Specialist Option in Directing**

The Option in Directing is a preparatory program only. The foundation of its philosophy is that emerging directors must first secure a strong liberal arts education, as well as experience in all aspects of theatre production, before moving on to an in-depth study of directing. Students seeking entry into this option should secure the advice of the department on all required and elective courses before the end of their first year of study.

**Specialist Option in Production and Management**

Students may enter the Option in Production and Management at the beginning of the third year. Enrolment is limited; selection is by interview. Permission of the department is required.

**Specialist Option in Theatre History**

Students may enter the Option in Theatre History at the beginning of the third year.

**BA Honours in Theatre History**

The Honours Program normally begins in a student’s third year. Students may apply to enter the Honours Program after the completion of a minimum of 6 units of course work in Theatre with a GPA in these courses of 6.0 (B+) or better.

A third-year Honours student whose GPA falls below 3.5 in that year, or below 5.0 in designated Theatre History courses, will normally be required to withdraw from the Honours Program.

A fourth-year student whose graduating GPA is lower than 3.5, but who otherwise meets the University’s requirements for graduation, will receive a BFA in the Specialist Option in Theatre History if the BFA requirements have been met.

**Work Outside the department**

All Theatre students must consult the Chair before accepting any theatre, film, television or other media work outside the department.

**Program Admissions**

**Applicants from Secondary School**

Students must apply separately to the Department of Theatre and to Undergraduate Admissions for acceptance to the University. The deadline for applications to the Department of Theatre and to Undergraduate Admissions is February 28. There is a Questionnaire and Admissions Package to be submitted as part of the Theatre application. Details can be obtained on the website at <finearts.uvic.ca/theatre/admission>.

Transcripts in progress should be sent to Undergraduate Admissions as soon as possible. Final transcripts are due in Undergraduate Admissions by May 31. Details may be obtained from the Secretary of the Department of Theatre.

Deferred enrolment is not permitted. Any student who declines admission and wishes to enter the department at a later date must re-apply following the above-stated admission procedures.

**Transfers from Other Universities and Colleges**

Applicants transferring from other institutions should follow the admission procedure described in the preceding paragraph. Transfer students may be requested to attend an interview and/or audition (and therefore make a campus visit). These visits usually take place during a weekend in March or April.

Transfer credit from BC community colleges will be assigned according to the equivalencies set out on the BCCAT website at www.bccat.bc.ca for the year in which the courses were completed. Transfer credit for Theatre courses completed at other accredited institutions is determined by the department and Undergraduate Admissions. This credit and the department admission procedures will determine into which year of studies the student will be accepted.

Acceptance into the Department of Theatre by either of the above routes is subject to an annual review of the student’s progress by the department Chair in consultation with the appropriate advisory committee.

**Program Requirements**

**Requirements Common to All Programs (Comprehensive and Specialist)**

To graduate with a BFA in Theatre, students must complete 60 units of course work, of which at least 30 units must be in Theatre and no fewer
Specialist Option in Acting

Second Year (Audition required)
THEA 205 .................................. 3.0

| **Total:** | 30.0 |

## Second Year

**BA Honours in Theatre History**

To graduate with a BA Honours in Theatre History, students require a minimum of 30 units of Theatre; at least 15 units must be in designated Theatre History courses at the 300 and 400 level, listed below, and 6 units in approved, related disciplines.

### DIRECTED STUDIES

Directed Studies may, with permission of the department, be taken more than once.

Students wishing to pursue a course of directed studies must, with a faculty member who is willing to supervise such a course, formulate a proposal accurately describing the course content, the intended method and extent of supervision, and the method by which work will be evaluated. The proposal must then receive the approval of the Chair of the department.

Proposals will normally be subject to the following limitations:

1. The student must achieve a minimum GPA of 7.0 (A-) in courses directly related to the proposed directed studies.
2. No more than 9 units of directed studies credit will count for credit towards the BFA.
3. No more than 6 units of directed studies will be approved in any single winter session.

## Department of Visual Arts

**Daniel L. Laskarin**, BA (S Fraser), MFA (UCLA), Associate Professor (Sculpture), Chair

**Vikky Alexander**, BFA (NSCAD), Professor (Photography)

**Sandra Meigs**, BFA (NSCAD), MA (Dal), Professor (Painting, Drawing)

**Robert Youds**, BFA (UVic), MFA (York), Professor (Painting)

**Lynda Gammon**, BA (S Fraser), MFA (York), Associate Professor (Sculpture, Drawing, Installation)

Lucy Pullen, BFA (NSCAD), MFA (Tyler School of Art, NYC), Assistant Professor (Film)

Jennifer Stillwell, BFA (Manitoba), MFA (The School of the Art Institute of Chicago), Assistant Professor (Sculpture, Video)

Paul Walde, BFA (Western Ontario), MA (New York University), Associate Professor (Painting, Extended Media Practices)

Daniel Wilkin, Facilities and Production Manager

**Emeritus**

Mowry M. Baden, BA (Pomona College), MFA (Stanford University), (Sculpture, Public Art)

## Visual Arts Programs

For Humanities, Fine Arts and Professional Writing Co-operative Education information, please see page 94.

The department offers an undergraduate program leading to the degree of BFA, Visual Arts Major, and a two-year graduate program leading to an MFA. In addition, students may complete a combined degree program in Visual Arts and Computer Science.

The academic emphasis of the department is on contemporary art practices, rather than applied or craft training. The program is designed to provide intensive studio experience in a critical setting pertinent to the pursuit of art in our culture. Studies are enriched by visiting artists and critics, and the presence of graduate students from Canada and abroad. In addition to the regular program, the department may offer courses each summer which are staffed by notable visiting artists.

## Program Admissions

### Applicants from Secondary School

Applicants from secondary schools must complete the usual procedures for admission to the University (see page 21) and must select the BFA, Visual Arts degree program option. Application deadline is February 28. The department further requires that the following materials be submitted directly to the Visual Arts department (deadline March 9) for review by the selection committee:

- A Visual Arts questionnaire (downloadable from the application site) completed by hand
- A portfolio of still images or a combination of images and video. (Consult the Visual Arts website for details regarding portfolio submission.)

Transcripts in progress should be sent to Undergraduate Admissions on application. Final transcripts are due by May 31.

### Transfers from Other Institutions

The application procedure is generally the same as that specified for applicants from secondary school (see above).

Transfer credit will be assessed as listed in the BC Transfer Guide, or evaluated as necessary. Final transcripts for transfer students are due in Undergrad Admissions by May 31.

Note: Students will normally not be admitted into third- and fourth-year studio courses until their out-of-department elective requirements for the first and second year have been met.
Combined Major Program in Visual Arts and Computer Science

The Department of Visual Arts and the Department of Computer Science have designed a combined program leading to either a Bachelor of Fine Arts or a Bachelor of Science degree. Enrolment in this program is limited. Students are admitted to the program at the end of first year.

Joan MacLeod, BA (Vic), MFA (Brut Col), Associate Professor

Lynne Van Luenen, BA (Sask), MA, PhD (Alta), Associate Professor and Associate Dean

---

**Writing Programs**

For Humanities, Fine Arts and Professional Writing Co-operative Education information, please see page 94. For the Writing Program Co-op Option information, please see page 105.

The Department of Writing offers the following program options:

- Major (in playwriting, screenwriting, fiction, poetry, creative nonfiction)
- Professional Writing Minor in Journalism and Publishing
- Film Studies Minor (interdisciplinary, various departments; see description on page 221)

---

**Program Admissions**

Applicants from Other Institutions

Transfer credit in writing courses does not necessarily satisfy Uvic's Writing requirements. The prerequisite for all second-year workshops is WRIT 100 with a minimum of B+ (75-79). Few are given permission to bypass this course, but students with a minimum of 12 post-secondary units may apply for Advanced Standing by submitting a portfolio of written work, a list of relevant courses completed, and a letter outlining their suitability. Only portfolios received between January 15 and March 31 will be considered. (See the Department of Writing website <finearts.uvic.ca/writing/admission.html> or contact the departmental office for more details.) Recipients of Advanced Standing are advised that they must meet all the University’s admission requirements. Advanced Standing does not guarantee acceptance to the University or to any of the department’s classes.

Transfer credit for courses expressed in the BC Transfer Guide as WRIT 100-level does not satisfy WRIT 100.

Applicants for a Second Degree

Each year, a limited number of students are permitted to enter the program to work towards a second degree: BFA or BA. A minimum of two years of further study is required. Applicants who cannot produce a manuscript of sufficient quality to allow them entry into a third-year workshop may require three or four years to complete their program (see “Second Bachelor’s Degrees”, page 40). Only portfolios received between January 15 and March 31 each year will be considered.

Admission to Specific Courses

Although the programs offered by the Writing department are mainly intended for students who have shown some ability as writers, a number of lecture courses are also included which may be of interest and value to all students. Since the number of candidates who meet the minimum requirements for eligibility exceeds the places available, students should understand that eligibility does not guarantee them admission into specific courses or programs in Writing. To gain entry into courses, students must be prepared to meet departmental attendance regulations, must not be overenrolled and must pay any fees or fines that may affect university standing. Students must attend all classes, including the first. If they do not attend the second class in a course with a limited enrolment (e.g., all workshops), they will be deregistered.
Second, Third and Fourth Year Workshops

Students require a grade of B+ or higher in WRIT 100 to advance into second year workshops. These are minimal standards and do not guarantee admission.

No student will be permitted to take more than 1.5 units of workshops in a single genre per term, or more than 3.0 units of workshops in any given term. Special and Directed Studies courses are designed for those teaching situations which cannot be covered in regular workshops. No writing projects which might be covered in a regular workshop will be permitted within such special courses.

Program Requirements

Major Program

Students in the Writing Major program are required to take:

1. WRIT 100 with a grade of B+ or better
2. FA 101
3. 6.0 units from WRIT 201, 202, 203, 204 or 218
4. 15.0 units of 300- or 400-level Writing, including 4.5 units of workshops in a single genre. Only 1.5 units of WRIT 320 or 325 can be used towards the workshop requirement.

WRIT 215 may not be counted as part of a Writing Major.

WRIT 306, 307, 308, 309, 310, 311, 312, 314, 315, 316, 320, 321, 322, 329, 330, 335, 336, 340, 410, 412, 416, 420 and 440 may count toward either a Major in Writing or a Professional Writing Minor in Journalism and Publishing, but not both.

Students are advised to work toward a Double Major, since enrolment in workshops is limited, and spaces are not guaranteed. Without a concentration of courses in a separate discipline, students may find themselves delayed in graduating.

If at least 9 units of electives are chosen from courses offered by other departments within the Faculty of Fine Arts, the degree awarded may be either the BFA or the BA of the Faculty of Fine Arts. If fewer than 9 units of electives from the Faculty of Fine Arts are chosen, the degree awarded will be the BA of the Faculty of Fine Arts.

Minor in Professional Writing in Journalism and Publishing

The Department of Writing offers a Minor in Professional Writing emphasizing journalism, media studies and publishing.

Please note that the Minor in Professional Writing in Journalism and Publishing is a separate program from the Minor in Professional Writing offered by the English Department.

Prerequisite Courses

Before declaring a Professional Writing Minor, students must take 3.0 units from the following options, with a grade of B or better in each course: WRIT 100, 102, 140, ENGL 135, 146, 147, ECON 225, ENGR 240.

Program Requirements

To obtain a Professional Writing Minor in Journalism and Publishing, students are required to take:

1. WRIT 215
2. WRIT 315
3. 4.5 units from WRIT 306, 314, 316, 320, 321, 322, 330, 335, 336, 340, 416, 417, 420, 440

Students who intend to use Professional Writing courses from the English Department as electives must ensure that they acquire the necessary ENGL prerequisites.

Courses taken for the Minor cannot be used to complete requirements for a Major or Honours Program.

While participation in the Professional Writing Co-op (see below) is not mandatory, it is highly recommended.

Writing/Theatre Focus

Students wishing to pursue a double major in Writing and Theatre must be accepted into both departments. Students must apply to Writing by March 31 and to Theatre by February 28 for a September start. Please visit each department’s website to determine what is required for admission. Students should contact Fine Arts Advising to obtain assistance with planning their program.

Writing Programs Co-op Option

General regulations pertaining to Co-operative Education Programs of the University of Victoria are found on page 46.

The Humanities, Fine Arts and Professional Writing Co-operative Education Program offers paid employment to students who are working towards a career in journalism, publishing or communications. The Co-op is open to students who are:

• undertaking a Major in Writing, or
• undertaking the Professional Writing Minor in Journalism and Publishing, or
• undertaking an interfaculty General program where the Professional Writing Minor in Journalism and Publishing is one of the two programs which forms the General program.

Students undertaking the Professional Writing Minor must follow the guidelines specific to their program and the Professional Writing Minor in Journalism and Publishing (see at left). Professional Writing Minors must satisfactorily complete four work terms to receive a Co-op notation upon graduation.

For further information about the Humanities, Fine Arts and Professional Writing Co-operative Education program, see page 94 or visit www.uvic.ca/hfpwcoop.
The Faculty of Human and Social Development has six different professional schools under the auspices of one faculty. The Faculty of Human and Social Development is unique both at UVic and in Canada. It includes the Schools of Child and Youth Care, Health Information Science, Nursing, Public Administration, Public Health and Social Policy, Social Work and a program in Indigenous Governance.

The Faculty of Human and Social Development focuses on the health and social well-being of children, families and communities. In addition to high quality teaching, the Faculty has a reputation for excellence in innovative programs of research that are responsive to community needs. Additional features of our Faculty are equitable working and learning environments, with a strong emphasis on social responsibility.
## General Information

### DEGREES AND PROGRAMS OFFERED

#### Undergraduate Programs

The Faculty of Human and Social Development offers undergraduate studies in Child and Youth Care, Health Information Science, Nursing, Public Health and Social Policy, and Social Work. The faculty also offers diploma and certificate programs as shown in the table below.

#### Graduate Programs

The faculty offers graduate studies in Child and Youth Care, Health Information Science, Indigenous Governance, Nursing, Public Administration (including Dispute Resolution), Public Health and Social Policy, Social Work, and Studies in Policy and Practice. For information, please refer to the UVic Graduate Calendar.

#### Co-operative Education Program

Please refer to page 45 for a general description of Co-operative Education at UVic.

In the Faculty of Human and Social Development, a Co-operative Education Program is offered by the School of Public Administration at both the undergraduate (minor) and graduate level, by the School of Health Information Science at both the undergraduate and graduate level, and by the School of Child and Youth Care and the School of Nursing at the graduate level. Admission to and completion of Co-operative Education Programs are governed by individual School requirements.

As a required part of the program, students are employed for specific work terms. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35. This employment is related as closely as possible to the student's course of studies and individual interest.

Students in the undergraduate (minor) program in Public Administration may withdraw from the Co-operative Education Program at any time during an academic term and remain enrolled in a degree program offered by the School. For details of the undergraduate (minor) program in Public Administration, please see page 124. For details of the undergraduate program in Health Information Science, please see page 114. For details of the graduate program(s) in Public Administration, Health Information Science, Nursing, and Child and Youth Care, please see the UVic Graduate Calendar.

### Academic Advice

Academic advice about the professional schools in the Faculty of Human and Social Development is available from advisers or faculty members of individual Schools on an appointment basis.

### Advisory Committees

Programs in the Faculty of Human and Social Development have the benefit of advice and guidance from advisory committees whose members are professionals engaged in various private agencies or government departments. Further information is available from individual Schools.

### Collaborative Approach

All of the Schools have developed a distinctive curriculum in response to the needs of their respective professions. However, some clients of the human services cannot be neatly classified by professional boundaries, and hence a major objective of the Faculty of Human and Social Development is to develop opportunities for students who will work together as professionals to learn together while in university. Such opportu-

¹. Available only through specific Indigenous community partnerships.
Credit for Courses Offered by Other Institutions

Students who plan to undertake upper-level course work at another university must normally receive prior approval from the Dean and the Director of the School in which the student is registered if they wish such course work to be credited toward a degree program or diploma program in the Faculty of Human and Social Development. Upon successful completion of such course work, it is the student's responsibility to request the Registrar of the other university to send an official transcript of record to the Records Office of the University of Victoria.

Regulations Concerning Practica

General Practicum Policies

The faculty reserves the right to approve any agency or institution that provides placements for student practica, and to change any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any change in placement.

While the faculty accepts a responsibility to provide a sufficient number of practicum opportunities to serve the needs of all registered students, a student may be required to withdraw from a practicum course if none of the available practicum agencies will accept the student.

It is the responsibility of the course instructor to inform students of the criteria by which unprofessional conduct will be judged in the practicum setting.

Practica Dates

The dates of practica will be established by each School or program, and will be announced to the students involved at the beginning of each term.

Attendance

Attendance at practicum activities is required. Students are expected to notify the placement agency whenever practicum appointments cannot be kept, and also to inform the course instructor. Failure to do so may result in a student being withdrawn from the practicum setting.

Denial and Withdrawal

Denial

Students will be denied the practicum experience if their preparatory work is considered unsatisfactory by the Director of the School in the Faculty of Human and Social Development.

Temporary Withdrawal of Students Pending Report

The Director may require a student to withdraw temporarily from a practicum if, during the course of a term, there are reasonable grounds to believe that the conduct or lack of competence of a student enrolled in the practicum has adversely affected or may adversely affect:

- clients or pupils, or
- personnel, including students associated with the practicum.

The student will be required to withdraw temporarily pending the receipt of a report on the conduct and lack of competence of the student. This written report from the course instructor will normally be provided to the student within 10 business days of the withdrawal.

Withdrawal

After giving the student an opportunity to be heard, the Director may require a student to withdraw from the practicum if the Director is satisfied that the student's conduct or lack of competence may adversely affect members of any of the groups identified in the paragraph above.

Voluntary Withdrawal

Students seeking voluntary withdrawal from a practicum, whether permanent or temporary, must receive permission to do so from their faculty supervisor in Human and Social Development.
Indigenous Governance

Web site: <web.uvic.ca/igov>

Taiaiake Alfred, BA (Concordia), MA, PhD (Cornell), Professor and Chair
Jeff Corntassel, BA (UC, Irvine), MA, PhD (Arizona), Associate Professor
Waziyatwin, BA (Minnesota) MA, PhD (Cornell), Associate Professor and Indigenous Peoples Research Chair
Heidi Kiwetinepinesik Stark, BA (Minnesota), MA, PhD (Minnesota), Assistant Professor, Cross-listed
Angela Polifroni, BA, MA (UVic), Program Manager
Mick Scow, BA (U of C), MA (UVic), Program Assistant

Program Philosophy

Indigenous Governance is committed to teaching and research that respects both western and Indigenous traditions, methods and forms of knowledge. Through these programs, students will gain an understanding of the philosophical, administrative, and political dimensions involved in governing Indigenous communities, as well as a background in the theory, methods and tools appropriate for and useful to research among Indigenous people. The program aspires to educate students who are grounded in a diverse body of knowledge to assume leadership and policy-making roles, or to continue their academic careers in a variety of fields including Social Science and History, Law or Native Studies.

 Master’s of Arts in Indigenous Governance

The Master of Arts in Indigenous Governance is an interdisciplinary program that provides students with a strong foundation of basic and applied scholarly research and a path to understanding government and politics among Indigenous peoples, with a special emphasis on the nature and context of Indigenous governments in Canada. For more information on the MA in Indigenous Governance, please see the UVic Graduate Calendar.

Certificate in the Administration of Indigenous Governments

IGOV course offerings in the Certificate Program are subject to adequate enrolment. Please note that at this time, no new students will be admitted to the Certificate Program.

This Faculty of Human and Social Development program is a unique part-time university credit program. The courses focus on topics such as critical thinking, leadership and management in Indigenous organizations, as well as the legal, political, economic and public policy dimensions of governance in Indigenous communities. The entire certificate program is offered by distance through a combination of distributed learning options and on-campus seminars.

Upon completion of eight credit courses, a Certificate in the Administration of Indigenous Governments is granted. Students may also enroll in related programs at UVic, such as the School of Public Administration’s Diploma in Public Sector Management (DPSM) program, in which all of the CAIG courses are eligible for credit towards the Diploma. The program is also committed to meeting the urgent training and educational needs of Indigenous communities and organizations, and single courses or various combinations of courses may be delivered in intensive one or two day or two days of expert seminars (credit or professional development only) by special arrangement.

The program is inherently flexible and is delivered in a variety of formats and modes according to community and student needs and priorities. The program has been offered on campus in Victoria, in a delivery format designed so that students attend the courses in a series of one or more multi-day seminars. With a renewed commitment to making the program relevant to community needs, the program may also be offered on location in Indigenous communities, with the course delivery mode designed to accommodate the scheduling needs of the students and preferences of the organization.

Program Admission

Successful applicants will be expected to meet the University Academic Writing Requirement and to have completed Grade 12.

Mature applicants will be considered, as detailed in University policy. Courses will be taught at a level which is consistent with other third- and fourth-year undergraduate courses offered at UVic, and applicants will be required to demonstrate that they possess the academic proficiency necessary to benefit fully from the program. Candidates without formal post-secondary qualifications but with demonstrable experience may be admitted, with continuation in the program subject to performance in the first two to three courses with a grade of C+ or better. A limited number of students not formally admitted to the program may register for individual courses, with the permission of the Program Administrator.

Students wishing to enrol in this program or wanting more information should contact:

Program Manager

Indigenous Governance

Faculty of Human and Social Development

University of Victoria, Box 1700 STN CSC

Victoria BC V8W 2Y2

Email: igov@uvic.ca

Program Requirements

IGOV course offerings in the Certificate Program are subject to adequate enrolment. Students must complete eight required courses to receive a certificate. Successful completion of IGOV 381, 382, 383 and 384 are prerequisites for progression through the program.

The required courses are:

- IGOV 381
- IGOV 382
- IGOV 383
- IGOV 384
- ADMN 311
- ADMN 312
- ADMN 316
- ADMN 421

Program Academic Regulations

Students will be permitted to present up to 6 units of non-credit course work chosen from the
School of Child and Youth Care

GENERAL INFORMATION

School Mission Statement
The School of Child and Youth Care provides education, training, professional development and research for the care and support of children, youth, families and their communities. The work of the School of Child and Youth Care is grounded in the principles of inclusion, social justice and ethical practice.

A Professional Education Program for Practicing Professionals
The School of Child and Youth Care at UVic offers professional education to human services practitioners working with children, youth and their families. Graduates of the program are employed in front-line, supervisory and leadership positions in ministries and agencies throughout British Columbia and across North America. Employment opportunities exist in child welfare and child protection, social and mental health services, child day care centres, hospitals, schools, youth corrections agencies, infant development programs, child and youth advocacy programs, and a range of other community-based settings.

CHILD AND YOUTH CARE PROGRAMS

Students in the degree program in Child and Youth Care will integrate theoretical perspectives on human growth and development, behavioural change, and understanding and use of self and relationships with applied practice skills. Field-based practicum placements are a requirement during the second, third and fourth years of the program.

At the undergraduate level, the School of Child and Youth Care offers the degree of Bachelor of Child and Youth Care (BCYC) and, through partnerships with Indigenous communities, can also offer a Diploma in Child and Youth Care in Indigenous Communities.

Graduate Program
The School offers an MA and PhD in Child and Youth Care. For more information about this program, see the UVic Graduate Calendar.

Program Options for Students
The School of Child and Youth Care offers distance, blended and/or campus-based course delivery options for the BCYC degree program. Our distance and distributed education option supports learners to remain in their home communities and continue their employment while participating in interactive distance courses. Our courses blend web-classrooms with video and other communications technologies to create effective learning environments that allow students to work both collaboratively and independently. Some courses will require scheduled online sessions.
In addition to the collegial virtual classroom environment, students may also choose to participate in the SCYC web-community. This community provides all students with the opportunity to build new relationships and understandings outside the walls of the classroom.

Students participating in the CYC degree program through distance education are required to attend one 10-day seminar on campus. Distance delivery is available throughout Canada and may be available to students in other locations by special arrangement.

**School of Child and Youth Care Admissions**

Students are selected on the basis of personal and professional suitability as well as academic standing. An interview may be required as part of the application process. Paid or volunteer experience with children and/or youth is considered in the admission decision. Application information and forms are available on the SCYC website: <www.cyc.uvic.ca>. Application deadline is February 28.

**School Admission Requirements**

**Secondary School Graduates**

Admission requirements for applicants from secondary school are the same as those outlined for the Faculty of Social Sciences (see page 24).

All Secondary School applicants must submit an Application for Admission to the University to Undergraduate Admissions and a Child and Youth Care application to the School.

**Applicants Transferring from Other Institutions**

Students wishing to apply to the School of Child and Youth Care from other colleges or universities must either have completed a minimum of 12 units of university transfer courses or have completed a human services diploma from an accredited institution with an overall GPA of B.

All transfer applicants must submit an Application for Admission to the University to Undergraduate Admissions and a Child and Youth Care application to the School.

**Applicants Transferring from other University of Victoria Faculties**

Students wishing to transfer from other faculties at the University of Victoria must submit an Application for Re-registration to Records Services and a Child and Youth Care Application to the School.

Successful applicants must satisfy the program requirements as stated in the calendar of the year they enter the program and may be required to complete 100 and 200 level courses.

**Special Category Applicants (Distributed Learning Only)**

The School of Child and Youth Care is interested in extending university-level learning opportunities to residents of BC and other regions who wish to do their courses by distributed learning and who may not qualify under the normal categories of admission.

“Special Access” applicants (see page 26) admitted in the PRE CYC admissions category are advised to complete 12 units of coursework before applying to the degree program. Upon successful completion of these courses, students may apply to the Child and Youth Care degree program.

Those who qualify for consideration in the Special Category will be selected by the School of Child and Youth Care for admission in the Special Category on the basis of educational history and non-educational achievements that indicate an ability to succeed at university.

**Exploratory Studies**

Students who wish to take individual credit courses for personal or professional interest, and will be at least 21 years of age prior to the first day of classes, may apply for admission to Exploratory Studies. Exploratory Studies students may take up to 3 units of courses per term, normally to a maximum of 12 units attempted overall, and will be classified as “non-degree” students. See also “Other Applicant Categories” in Undergraduate Admissions (page 26).

**Transfer Credit**

Students who have completed a human services professional academic program at an accredited institution with an overall GPA of B (3.0) or higher may be eligible to receive block credit upon admission to the SCYC (15 units for a one-year certificate and 30 units for a two-year diploma). This does not include vocational or continuing studies certificates or diplomas. For further information on transfer credit, consult the BC Child and Youth Care Educators’ website: <www.cycec.bc.ca>. While every effort is made to keep the website updated, the UVic calendar content takes precedence in the event of errors or discrepancies on the website.

**School Academic Regulations**

**Overview**

In addition to the regulations described below, the School of Child and Youth care follows the UVic and HSD faculty academic regulations including those concerning practica.

**Criminal Record Checks**

Criminal record checks are required of students before they commence practicum placements. Students are responsible for completing this process.

**Leave of Absence**

Upon completion of one or more years in the School of Child and Youth Care, students may apply in writing to the School for a one-year leave of absence. The deadline for such a request is normally March 31.

**Prior Learning Assessment**

Prior Learning Assessment (PLA) uses a range of flexible assessment procedures, including course challenge, to evaluate for credit within the Child and Youth Care program learning that is gained through non-credit education, training or experience.

Learners may receive recognition for demonstrated learning that is consistent with the achievement levels and learning outcomes appropriate to selected courses. The assessment of prior learning will be completed within a special course section dedicated specifically to this function.

A maximum of 10.5 units of academic credit may be obtained through PLA. No course whose equivalent already appears on a student’s transcript may be completed by PLA.

Normally only students who have been admitted to the School of Child and Youth Care can apply for PLA. Initial inquiries should be directed to the Undergraduate Adviser, who can provide PLA application forms and information on deadlines. Access to flexible assessment in any particular year is dependent upon the availability of resources within the School.

No fourth-year courses may be completed by prior learning assessment.

**Standing**

Students whose sessional GPA falls below 3.0 or who fail to receive a C+ in any core CYC or other required course may be required to withdraw from the program.

**Program Requirements**

**Child and Youth Care Course Information**

The following requirements apply to students entering the School of Child and Youth Care degree program in the year governed by this calendar. If students previously admitted to the program, please refer to the calendar for the year of their initial admission.

- Students require a minimum of 60 units of university credit to graduate; a minimum of 30 of these must be granted by UVic. Students granted the BCYC must complete 46.5 units of CYC required courses and an additional 3.0 units of university English or 1.5 units of university English and CYC 130 or 140 with a minimum grade of C+. Students must ensure they meet the university academic writing requirement.

- The following courses are normally restricted to BCYC students: CYC 210, 310, 338, 370, 410 and 475. Required courses may be waived if equivalent courses are completed prior to admission to the degree program.

- Elective course requirements vary depending on transfer credit or previous UVic course work. Most UVic or UVic-transferable courses may be used towards electives. See CYC course offerings.

CYC 370 (1.5) Applying Assessment and Case Planning in Child and Youth Care Practice
CYC 410 (4.5) Advanced Supervised Practicum or CYC 410A (4.5) Advanced Supervised Block Practicum

Specialization Streams
The School of Child and Youth Care offers a number of specialization streams that students may choose as part of their degree.

Child Protection Stream
The following course must be completed to meet the requirements for the Child Protection stream:
CYC 410A* (4.5) Advanced Supervised Block Practicum

* Must be completed in a Ministry of Children and Family Development or delegated First Nations child welfare setting.

Early Years Stream
The following courses must be completed to meet the requirements for the Early Years stream:
CYC 380 (1.5) Practices for Young Children and Families: Historical and Contemporary Perspectives
CYC 381 (1.5) Leadership, Advocacy and Policy for the Early Years

CYC 480 (1.5) Advanced Applied Capacity Building for the Early Years
CYC 481 (1.5) Issues of Assessment and Evaluation with Young Children and Families
CYC 410* (4.5) Advanced Supervised Practicum or CYC 410A* (4.5) Advanced Supervised Block Practicum

* Must be completed in a relevant setting.

Professional specialization certificate in international child and youth care
The School of Child and Youth Care has been able to respond to child and international development needs through a 9.0 unit, post-degree Early Childhood Development Virtual University (ECDVU) program. This one-year program is only available on a distributed learning, special delivery basis in international development regions and contexts (for example Africa and Middle East). The students participating in these deliveries are identified on a group basis through a country nomination process (not through self-application). Typically, students have a minimum of seven or more years of leadership experience in the field and have completed an initial professional diploma or degree. Upon successful completion of the 9.0 unit program, a Professional Specialization Certificate in International Child and Youth Care for Development is awarded. See the ECDVU website: <www.ecdvu.org>.

Students wishing to complete the BCYC degree following completion of the Professional Specialization Certificate must apply to the degree program. Students who hold a Professional Specialization Certificate in International Child and Youth Care for Development may, with the approval of the Director, transfer the six courses (9.0 units) from the Certificate into the BCYC degree program upon admission to the program.

Certificate Course Requirements:
CYC 484 (1.5) Historical and Contemporary Theoretical Perspectives in Early Childhood Care and Development
CYC 485 (1.5) Child and Adolescent Development in Context
CYC 486 (1.5) Professional Leadership in Early Childhood Care and Development
CYC 487 (1.5) Models, Programs and Strategies for Intervention in Early Childhood Care and Development
CYC 460 (2 x 1.5) Special topics courses in Child and Youth Care

Total Credits: 9.0 units

Diploma in Child and Youth Care in Indigenous Communities
The School has responded to the child and youth care needs of specific cultural groups through the development of community-based, culturally sensitive course work. Certain specific admission criteria apply to applicants in this program. The School recognizes the successful completion of the 30-unit program with a Diploma in Child and Youth Care. The Diploma ladders into the 60-unit degree program in CYC. Students wishing to complete the CYC degree following diploma completion must apply to the degree program. Students may follow one of two options to complete their diploma: Option One: 30 CYC require 100- and 200-level units and CYC 101, 130, 131, 132, 260 (x 2), CYC 356 OR Option Two: 30 CYC units. Note: Option Two is only available through specific agreement with sponsoring communities.

Option One (Distance Learning)
Students pursuing their diploma through the first option must be recommended by the appropriate Indigenous community review body for admission. The course work will normally include:

CYC 100A (1.5) Introduction to Professional Child and Youth Care Practice Part One
CYC 100B (1.5) Introduction to Professional Child and Youth Care Practice Part Two
CYC 101 (1.5) Introduction to Child and Youth Care Practice and Communications Technology
Under the restricted admission procedure, students will be admitted to the Child and Youth Care Indigenous community-based course work only, and students wishing to pursue or to continue their studies in any other UVic programs must apply to reregister through UVic Undergraduate Admissions & Records.

Credit obtained from the Child and Youth Care Indigenous community-based course work may be transferable to a UVic degree program. Students who wish to pursue a Bachelor of Child and Youth Care at UVic must reapply to UVic Undergraduate Admissions and fulfill all normal admission and program requirements of the School of Child and Youth Care.

School of Health Information Science

Abdul Roudsari, BSc, MSc, PhD (London, UK), Professor and Director
Andrzej Kushniruk, BA (Brock), BSc (Brock), MSc (McMaster), PhD (McGill), Professor
Francis Lau, BSc (Alberta), MSc (Alberta), PhD (Alberta), Professor
Scott MacDonald, BSc (UVic), MA (Toronto), PhD (Western Ontario), Professor
Jochen R. Moehr, Staatssexamen, DrMed (Marburg), Habilitation Medizinische Informatik (Hanover Med School), Professor Emeritus
Denis J. Protti, BSc (Alberta), MSc (Man), Professor Emeritus
Gerhard W. Brauer, BA (UVic), MA (UBC), EdD (UBC), Associate Professor Emeritus
Elizabeth Borycki, RN, HBScN (Lakehead), MN (Manitoba), PhD (Toronto), Assistant Professor
Alex M.H. Kuo, BSc (Taiwan), MSc (Manitoba), Assistant Professor
Karen Courtine, MSN (North Carolina), PhD (Missouri), Assistant Professor
Omid Shabestari, MD (Tehran), PhD (London, UK), Senior Instructor
Dave Hutchinson, BSc (Calgary), MSc (Otago), Co-operative Education Coordinator

Visiting, Adjunct and Cross-listed Appointments

David Birnbaum, BA (Berkley), MPH (Minnesota), PhD (UBC), Adjunct Professor
Malcolm MacInnes, BA (Oxford), SM (Harvard), SD (Harvard), Adjunct Professor
Richard Stansfeld, MSc (McGill), MSc (Alberta), BScN (Toronto), Adjunct Professor

Patricia M. Coward, PhD (Case Western Reserve), MN (Alberta), BScN (Toronto), Adjunct Associate Professor
Paul D. Fisher, BSc (UVic), MSc(Alberta), PhD (Alberta), Adjunct Associate Professor
Larry Frisch, BA (Reed), MA (Harvard), MPh (Washington), Adjunct Associate Professor
Michael R.J. Guerriere, MD (Toronto), Adjunct Associate Professor
Donald W. Jazwinski, BA, MHSA (Alberta), PhD (Alberta), Adjunct Associate Professor
Yuri Quintana, BA (Waterloo), MA (Waterloo), PhD (Waterloo), Adjunct Associate Professor

Health Information Science Programs

Health Information Science is the study of the nature of information and its processing, application and impact within a health care system. Health Information Science integrates organizational studies, computing and communications technologies, and information systems within the formal study of health care systems.

The School of Health Information Science offers programs leading to a Bachelor of Science in Health Information Science, a four-year Co-operation Education program. Students have the option of choosing either part-time or full-time studies.

The program is normally full-time but under special circumstances with special permission of the director part-time entry may be possible. Typically, to be considered for the part-time option an applicant will have a minimum of one year experience working in a related field. This part-time option is not available through the Combined Major in Computer Science and Health Information Science.

Students are required to apply for either the full-time program or the part-time option. Students in the full-time program will normally be allowed to move to the part-time option. Students in the part-time option will be required to be registered for courses or a work term in every
FACULTY OF HUMAN & SOCIAL DEVELOPMENT

114

term and will be required to complete the degree within eight years from the date of admission.

The admission criteria for the part-time option will be the same as listed below. Students who have failed a work term or do not maintain a GPA of 3.5 or better in each academic term, both overall and in Health Information Science courses, will normally be required to withdraw from the School for at least one calendar year. Unless stipulated otherwise, all students in the part-time option will be bound by the School’s academic regulations and program requirements.

School Admission Requirements

Admission to the School of Health Information Science is limited. Students are selected on the basis of grades and a personal written submission. All students upon admission to the School are required to attend a one-hour orientation seminar.

The School of Health Information Science has two entry dates for admission. Deadlines for the submission of applications are:

- For September entry: April 30
- For January entry: November 30

Applications may be accepted past deadlines at the discretion of the School.

Possession of the minimum admission requirements does not guarantee admission to the School of Health Information Science. Where the number of qualified applicants exceeds the number that can be accommodated, the admission cut-offs will be higher than the minimum published requirements.

Secondary School Graduates

Admission requirements for applicants from secondary school are presented on page 24 of the Calendar.

Applicants Transferring from Other Faculties or Institutions

Students wishing to transfer to the School of Health Information Science from other faculties at the University of Victoria or other colleges or universities, must either:

- meet the admission requirements for secondary school graduates (see page 24), or
- have completed a minimum of 12 units of university-level courses and have a GPA of at least 4.0.

Credit for previous post-secondary studies may be granted as appropriate. Applicants seeking advanced placement are advised to read the minimum degree requirements on page 31.

All new applicants must submit an Application for Admission to the University to Undergraduate Admissions and a Health Information Science Application to the School.

UVic students (those seeking admission from another faculty and those previously enrolled in the program) must submit an Application for Reregistration to Records Services and a Health Information Science Application Form to the School.

Academic Regulations

Course Regulations

Health Information Science students must normally have successfully completed all courses listed under First Year, below, prior to taking 300-level HINF courses.

Students from other schools or departments may take 300- and 400-level courses with the permission of the Director and their respective Director or Chair. If enrolment restrictions are necessary, preference will be given to students registered in the Faculty of Human and Social Development.

Leave of Absence

Students must apply in writing to the Director for a leave of absence. Unless given written permission by the School of Health Information Science to take a leave of absence, students who do not reregister will be considered to have withdrawn. Students on leave of absence are considered outside the program and will not be granted work term credit for experience gained during the leave.

Program Completion Limit

The Health Information Science Full-Time Program must normally be completed within five years from the date of admission. The Health Information Science Part-Time Option must normally be completed within eight years from the date of admission. The School may require students to reapply for admission and stipulate conditions if the program is not completed within the designated time limits.

Readmission

Students required to withdraw will be considered for readmission only after achieving a GPA of 3.5 or higher on a minimum of four courses in one academic term. The School of Health Information Science is under no obligation to readmit students who have been required to withdraw.

To be readmitted to the School, students may be required to repeat Health Information Science courses previously completed if, in the judgement of the Director, curriculum changes or the length of interruption is sufficient to render the applicant inadequately prepared for the subsequent courses.

Standing

Students who have failed a work term or do not maintain a GPA of 3.5 or better in each academic term, both overall and in Health Information Science courses, will normally be required to withdraw from the School for at least one calendar year.

A graduating GPA of 3.5 or higher is required for graduation. Students who do not meet this requirement will be placed on probation and must take additional, appropriate, 300- or 400-level courses in order to raise their graduating GPA to 3.5 or higher.

All students in the School of Health Information Science are required to follow the “Guidelines for Professional Conduct”, page 108, and may be required to withdraw from the School for violating these provisions.

Program Requirements

To meet the requirements of the degree in Health Information Science, students must complete:

1. 60 units comprising:
   - a core of 43.5 units
   - a minimum of 7.5 units selected from the Area of Concentration courses
   - 9 units of other electives

2. a minimum of three Co-op work terms. The granting of work term credit by challenge is not normally permitted.

Work term placements are across Canada and students must be prepared to accept placements outside Victoria. All students are expected to attend the weekly health informatics seminars scheduled by the School.

Course Requirements

For elective courses, it is strongly suggested that students take at least:

a) one elective from the Departments of History, Philosophy or Linguistics AND

b) one elective from the Departments of Sociology, Political Science or Anthropology AND

c) one or more of the following courses, which provide useful background for HINF courses:

- COM 220 (1.5) Organizational Behaviour
- COM 270 (1.5) Financial and Management Accounting for Specialists
- ECON 103 (1.5) Principles of Microeconomics
- THEA 150 (1.5) Public Speaking

Note: Students who have not taken BIOL 12 will be required to take a Biology course before proceeding to second-year HINF courses. See Requirements under First Year.

First Year

- CSC 110 (1.5) Fundamentals of Programming I
- CSC 115 (1.5) Fundamentals of Programming II
- ENGL 115 (1.5) University Writing
- OR
- ENGL 135 (1.5) Academic Reading and Writing
- ENGL elective (1.5)
- HINF 130 (1.5) Introduction to Health Information Technology
- HINF 140 (1.5) Introduction to the Canadian Health Care Systems
- MATH 151 (1.5) Finite Mathematics Electives (3.0 or 4.5)1

1. Students without Biology 12 are required to take one of the following:
- EPHE 141 (1.5) Introductory Human Anatomy
- BIOL 102 (1.5) Biochemistry and Human Health
- BIOL 150A or 150B (1.5) Modern Biology
- BIOL 190A (1.5) General Biology I

Students with credit for Biology 12 will take 4.5 units of electives.

Second Year: First Term

- HINF 200 (1.5) Principles of Health Database Design
- HINF 230 (1.5) Organizational Behaviour and Change Management
- STAT 252 (1.5) Statistics for Business
- Electives (3.0)

Second Year: Second Term

- HINF 201 (1.5) Database Management and Development for Health Care Systems
- HINF 265 (1.5) Health Care Delivery Organization
List of Approved Senior Electives

- Students are noted below their degree units from the following courses to complete.
- Students are required to select a minimum of 7 Senior Electives (7.5).

**Co-op work term**

**Second Year: May-August**

**Third Year: First Term**

- CSC 375 (1.5) Introduction to Systems Analysis
- HINF 320 (1.5) Project Management
- HINF 335 (1.5) Health Information Standards
- HINF 350 (1.5) Human Aspects of Healthcare Information Systems
- HINF 381 (1.5) Epidemiology, Population Health and Public Health

**Third Year: Second Term**

**Co-op work term**

**Third Year: May-August**

- HINF 310 (1.5) Electronic Records and Decision Support Systems
- HINF 330 (1.5) Legal Issues in Health Informatics
- HINF 345 (1.5) Networks, Interoperability and Systems Security
- HINF 351 (1.5) Information Technology Procurement
- HINF 371 (1.5) Clinical Methodologies

**Fourth Year: First Term**

**Co-op work term**

**Fourth Year: Second Term**

- HINF 410 (1.5) Information Management and Technology
- HINF 420 (1.5) Societal and Ethical Implications of Information Technology
- HINF 450 (1.5) Health Information System Design
- HINF 461 (1.5) System Evaluation and Quality Improvement
- HINF 470 (1.5) Trends in Health Informatics

**Fourth Year: May-August**

**Electives (7.5)**

**Senior Electives**

- Students are required to select a minimum of 7.5 units from the following courses to complete their degree. The restrictions in course selection are noted below.
  - Students wishing to take 300- and 400-level courses not listed below must receive prior written permission from the Director.
  - Health Information Science students require permission of the Dean of Engineering to take Engineering courses.
  - ADMN 424 may not be taken for credit by students of Health Information Science.

**List of Approved Senior Electives**

Please note that some of these courses may require prerequisites.

- ADMN 311 Introduction to Public Administration
- ADMN 312 Managing in Public and Non-Profit Organizations
- ADMN 316 Written Communications in the Public and Non-Profit Sectors
- ADMN 407 Managing Service Delivery
- ADMN 411 Public Sector Project Management
- ADMN 420 The Public Policy Process
- ADMN 431 A Public Sector Human Resource Management
- ADMN 437 Program Evaluation and Performance Measurement
- ADMN 452 Local Government Law
- ADMN 470 Contemporary Topics in Administration: Project Management in Public Sector Organizations
- AE 322 Strategic Planning and Implementation
- ANTH 302 Digital Arts
- ANTH 309 Geography of Environment and Health
- ENGR 301 Medical Anthropology
- ENGR 302 Selected Problems in Anthropology: Cultural Anthropology
- ENGR 303 Biotechnology
- ENGR 304 Artificial Intelligence
- ENGR 310 Introduction to Operating Systems

**Combined Major Program in Computer Science and Health Information Science**

Enrolment in this program is limited. Students must contact either the School of Health Information Science or the Department of Computer Science before registering in any courses. This is a mandatory Co-op program.

Students with a previous degree in Computer Science or a related degree are not eligible for this combined program (see “Second Bachelor’s Degrees”, page 40). Students who have failed a work term or do not maintain a GPA of 3.5 or better in each academic term will normally be required to withdraw from the School for at least one calendar year. This is a full-time program only.

**Year 1**

- HINF 130, 140
- MATH 100, 101, 122
- CSC 106, 110, 115
- ENGL 115 or 135
- Elective

**Year 2**

- HINF 200, 201, 280
- 1 HINF 200 level
- MATH 222
- STAT 255 or 260
- CSC 225, 230
- SENG 265
- ENGR 240

**Year 3**

- 3 HINF 300 level
- CSC 375
- 2 of CSC 320, 322, 330, 355, 360, SENG 321
- Electives

**Year 4**

- 2 HINF 400 level
- 3 CSC 400 level
- Other courses

1. Students without grade 12 Biology must replace this elective with one of EPH 141, BIOC 102, BIOI 150A, BIOI 190A.
2. One of these courses may be SENG at the 400 level.
3. These 7.5 units of other courses must be at the 300 level or higher and include at least 3 units chosen from Health Information Science, Computer Science or SENG.

**Co-operative Education**

Please refer to page 45 of the Calendar for the general description of Co-operative Education.

The distinguishing feature of the Co-operative Education approach is the inclusion, as an integral part of the degree, of three work terms. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35. These work terms begin after the student’s second year (all courses listed under first and second year must normally be completed before a student goes on a work term) and normally alternate with formal academic

**2012-13 UVIC CALENDAR**

**FACULTY OF HUMAN & SOCIAL DEVELOPMENT**

**PSYC 332** Health Psychology
**PSYC 334** Organizational Psychology
terms in Health Information Science. The granting of work term credit by challenge is not usually permitted.

Students with a GPA below 3.5 in an academic term will not be eligible to participate in the next scheduled co-op work term.

Students must be officially registered for the work term by completing the Work Term Registration Form, provided by the School of Health Information Science office, by the end of the first month of the work term. Students not registered by that time will not receive credit for that work term.

Students are expected to participate fully in the placement process. While every attempt will be made to ensure that all eligible students are placed, the School of Health Information Science is under no obligation to guarantee placement.

Students who decline a valid co-op job offer are ineligible to participate in the placement process for the remainder of that term. Work terms in Victoria are not guaranteed.

Work Term Assessment

The work term performance of each student will be assessed on the basis of:
1. the employer's evaluation of the student
2. the submission of a work term report by the student on discussion with the student and the employer.
3. an evaluation made by the coordinator based on the student's Official Transcript of Academic Record (as COM, N/X or F/X).

If the due date falls on a holiday or weekend, the report will be due the next business day.

During work terms, students are employed in full-time, health care related jobs in either the school or in Victoria. For all practical purposes, Co-operative Education students on work terms are regular employees and receive salary and benefits in accordance with the employer's policy. Both the employer and the University evaluate the student's performance on each work term. Each work term is recorded on the student's Official Transcript of Academic Record (as COM, N/X or F/X).

Students registered for work terms are considered to be enrolled in a full-time course of studies and may not take university-level credit courses without the prior written approval of the Director.

Computer Science and Health Information Science Co-op

Students admitted to the Combined Major Program in Health Information Science and Computer Science are required to take part in the Co-operative Education Program. In addition to completing their degree requirements, they must complete a minimum of three work terms with at most two in one department, and be enrolled in a minimum of six units of course work each campus term in order to graduate in this program. Work terms are to be distributed between the two programs, with no more than two work terms being taken in one program.
**THE COLLABORATION FOR ACADEMIC EDUCATION IN NURSING (CAEN)**

The School of Nursing offers a program of studies leading to a BSN for registered nurses and for students continuing in the Collaboration for Academic Education in Nursing (CAEN). A current list of partner institutions is available from the University of Victoria School of Nursing website: [http://nursing.uvic.ca](http://nursing.uvic.ca).

The School of Nursing has three campuses:
- Victoria campus, located at the University of Victoria, Victoria, BC
- Castlegar campus, located at Selkirk College, Castlegar, BC
- Yellowknife campus, located at Aurora College, Yellowknife, NT

All three campuses offer CAEN continuing students the opportunity to complete the BSN through full-time, on-campus study. The Victoria campus is also the administrative centre for the Post-Diploma Distance Program through which post-diploma students residing in Canada or the USA may complete the BSN degree program by distance education.

The purpose of these programs is to educate nurses to work with individuals, families, groups or communities from a health promotion perspective and an ethic of caring. The CAEN curriculum is based on a philosophy which reflects a commitment to implement a phenomenological and socially critical curriculum which considers the changing health care needs of our society. The philosophy is considered to be alive and evolving. Emerging from the philosophy is the metacognition of caring. Caring is understood as the attitude and activity of nursing, and is considered in every nursing course.

Emerging from this philosophical orientation is a health promotion perspective that has been used as a conceptual framework to organize the curriculum. This framework acknowledges the need for a socio-ecological perspective with a multidisciplinary focus. This shift in focus from illness to health represents a deliberate move away from a medical model to an understanding of nurses’ work as focusing on people and their experiences with health and healing. Inherent in this orientation is the use of innovative teaching methodologies which encourage the development of critical thinking, discovery of personal meaning and empowerment.

Another unique feature of this curriculum is the emphasis on practice experience as the foundation of nursing theory and the recognition that nurses’ work requires thoughtful, reflective action as defined by the concept of praxis. To assist in actualizing the concept of praxis, nursing practice experiences have been planned and integrated throughout the program of studies.

The University of Victoria School of Nursing offers students two learning options, described below.

**Continuing Program (Victoria, Castlegar and Yellowknife Campuses)**

This option requires completion of the program of studies in its entirety, leading to the degree of BSN. Students choosing this option enter the program at a designated CAEN partner institution. On completion of five semesters and two consolidated practice experiences, students, if admitted, may transfer to the University of Victoria School of Nursing in order to complete four additional semesters to graduate with a BSN degree.

Continuing students are not usually permitted to register in condensed on-site nursing electives due to scheduling conflicts with other on-campus required nursing courses or consolidated practice experiences. Registration priority in distance courses is usually granted to distance students.

If there is a discrepancy between the scheduled dates for reading break in the UVic, Selkirk and Aurora calendars, the Selkirk and Aurora dates will be considered correct for students attending on those campuses only.

**Post-Diploma Program (Distance Education)**

The entire BSN program is available to post-diploma students in Canada and the USA by distance learning. Distance education courses are offered according to a pre-planned schedule. Most core courses are offered three times per year, and advanced nursing electives are usually offered once a year.

Courses are delivered over a 13 week period using print, CD-ROM, online course management systems and onsite workshops. Students are required to participate throughout the course in individual and group learning activities and discussion groups.

Registration priority in on-campus core nursing courses and nursing elective courses (except condensed on-site electives for distance students) is granted to on-campus Continuing students. Post-diploma students may apply to register in on-campus courses, space permitting, on a case-by-case basis.

**SCHOOL ADMISSION REQUIREMENTS**

**Entry Dates**

The School of Nursing has two entry dates for admission (dependent upon the student’s program of study). Deadlines for the submission of applications are:
- For September entry: March 31
- For January entry: September 30

**Continuing Program Admission Requirements (Victoria, Castlegar, and Yellowknife campuses)**

Please note that acceptance to and completion of the college portion of the program does not ensure a place in the University of Victoria School of Nursing; students are admitted to the program as resources permit in accordance with a selection process developed by the School of Nursing.

Students continuing from partner institutions in the Collaboration for Academic Education in Nursing must:

1. Meet UVic admission requirements (including the UVic Academic Writing Requirement) when entering the School of Nursing at UVic.
2. Successfully complete all courses in the CAEN Terms 1-5, and the two consolidated practice experiences, with a cumulative GPA equivalent to 3.0 on the UVic 9.0 point scale. (Please note that college and UVic GPAs may not be equivalent. UVic includes repeated and failed courses in the GPA calculation for all required CAEN courses, including the required English, Biology and elective courses). Students who fail any required CAEN course must successfully repeat that course prior to acceptance to UVic. Students who fail a nursing practice course in Term 1 will be placed on nursing practice probation for the duration of their program at UVic. The privilege to repeat a failed nursing practice course is allowed only once in the program (Years 1 to 4). Admission to the BSN program is provisional pending receipt of an official transcript indicating satisfactory completion of Term 5. For students applying mid-program from a partner institution, please see the entry Additional Requirements.
3. Complete a University of Victoria application form.
4. Complete a School of Nursing application form.
5. Victoria on-campus students provide evidence of successful completion of a basic life support level-C course or higher. The certificate must be valid through completion of term six. (CPR certification is valid for two years beginning from the date of issue.) A valid CPR level-C certificate or higher must be maintained for the duration of the Nursing program. *Please note: Online certification or recertification will not be accepted for continuing students.*
6. Victoria on-campus students must be fit-tested before initial use of their personal respirators and annually thereafter while in the BSN program, and they must provide evidence of a personal respirator quantitative fit-test prior to attending any practice placement.*
7. All students entering the continuing program must have access to the Internet, email and the World Wide Web for the duration of the program.
8. Victoria on-campus students complete a HSPNet consent form for use and disclosure of student information for practicum purposes.*

* Students at Selkirk College and Aurora College please contact the faculty member responsible for practice placements regarding local practice regulations and requirements.

**Post-Diploma Program Admission Requirements**

Each applicant is assessed individually by the School of Nursing. For post-diploma entry to the University of Victoria and the Bachelor of Science in Nursing program, an applicant must:
1. Normally be a resident in Canada or the USA throughout the duration of the program.

Note: Students applying from the USA have
additional admission requirements. Please contact an adviser for further information.
2. Complete a University of Victoria undergraduate application form.
3. Complete a School of Nursing application form.
4. Provide official verification of active practicing registration as a Registered Nurse (or the equivalent in the jurisdiction(s) in which the student is taking the program). Active practicing registration must be maintained for the duration of the program.
5. Provide two official transcripts of all other post-secondary education.
6. All students entering the BSN Distance Education program must have access to the Internet, email and the World Wide Web for the duration of the program.

**Additional Requirements for All Programs**

1. It is recommended that applicants provide evidence of complete current immunizations upon admission to the program. All students must keep immunizations updated and provide documentation to practice agencies when required.
2. It is the responsibility of students transferring from a CAEN partner to UVic part-way through year 3 or 4 to contact an Admissions/Liaison Officer for information regarding admission procedures, residency requirements and course sequencing. Students transferring mid-program may be required to repeat course work to meet graduation requirements.
3. Visiting students from CAEN continuing programs who are completing courses on a letter of permission at UVic must also complete a School of Nursing application form, and provide official copies of all post secondary transcripts and practice appraisal forms.

*Note: All Students must maintain basic and extended health care insurance coverage throughout the program.*

**REGISTERED NURSE TO MASTER OF NURSING**

**Application Guidelines (Please note that this is a two-step application process.)** The first step is the application to the BSN program and the second step is the application to the Graduate Program.

The three year full-time distance education RN to MN program is specifically designed for Registered Nurses intending to complete a Bachelor of Science in Nursing degree (BSN) and continue to the Master of Nursing degree (MN-Advanced Practice Leadership or MN-Nurse Education Options only) immediately upon completion. Applicants eligible to enroll in this program must be residents in Canada or the USA. This program is not open to International applicants residing outside of North America. You must be a registered nurse to be admitted to this program.

**Criteria For Selection of Applicants**

The following admission criteria have been established to ensure that applicants to the RN to MN program are prepared to successfully satisfy the nursing and education schedule of this three year full-time distance education program.

- Minimum overall grade point average (GPA) of 6.0 (B+) on the UVic scale of 9.0
- Minimum of 3 years work experience as a Registered Nurse in Canada or the USA
- Portfolio which includes evidence of significant accomplishments in the nursing profession and an indication of your ability to be successful in this program.
- Statement of Intent which reflects your commitment to lifelong learning, reflective practice and critical thinking.
- An employer’s letter of reference.
- Interview.

**Application Guidelines & Deadlines**

The application deadline for this program option which begins in September is March 31st. Please contact the Coordinator Student Affairs or nursing@uvic.ca for further information.

**SCHOOL ACADEMIC REGULATIONS**

**Prior Learning Assessment**

Prior learning assessment (PLA) is assessment by a qualified faculty member of what has been learned through non-credit education, training, and/or experience, that is comparable to, at the level of, and worthy of credit for a specific course in the program.

In the School of Nursing, the assessment of prior learning will be completed by a faculty member teaching the course or a faculty member with expertise in the content area under study in the course, in consultation with appropriate external advice if necessary. Normally, only students who have been admitted to the BSN program can apply for PLA.

Prior learning must be documented in a portfolio. Students are responsible for articulating their knowledge, skills, abilities and values based on documentation that provides evidence of learning. The portfolio should include:

- past work experience, volunteer experience, and non-formal learning activities
- a description of competencies, knowledge and skills in narrative form that will convey to the faculty member conducting the assessment that the student has the knowledge described in the course description
- documentation of competencies, knowledge and skills through materials as transcripts, job descriptions, performance appraisals, samples of work, testimonials, awards, previous credentials, or other materials that document the learning that has occurred

Initial inquiries should be directed to the School of Nursing, where application forms may be obtained. The PLA fee must be paid prior to the assessment. Once the application has been approved, the PLA fee is not refundable. Students who are requesting prior learning assessment are advised to consult with the Coordinator, Student Affairs, who will refer them to an appropriate faculty member.

Students who successfully demonstrate prior learning will receive credit for the course specified, as well as a grade, using the same grading scheme that is used in similar courses offered on campus. The student’s academic record will reflect that the grade was obtained through PLA.

No course whose equivalent already appears on a student's transcript may be completed by PLA. A maximum of three units of academic credit may be obtained through PLA. Credit by PLA is specific to the School of Nursing BSN program and is not necessarily transferable to other programs or universities.

**Access to the assessment of prior learning is dependent upon availability of resources.**

**Professional Conduct and Student Progression**

**Student Progress and Information Sharing**

Within the University of Victoria School of Nursing, we are committed to open, transparent processes of evaluation. This means that we encourage students to be proactive in approaching their instructors about past progress and challenges as each new course starts. Faculty and staff at the School of Nursing work as a team to maximize learning opportunities and enhance the quality of instruction. Evaluative feedback about current and past student progress is shared by course instructors with other faculty or staff in the School of Nursing as needed in order to promote student success.

All students in the School of Nursing must follow the faculty’s “Guidelines for Professional Conduct” and “Regulations Concerning Practice”, page 108, and be aware of the consequences of unprofessional conduct, and are subject to the provisions of the Canadian Nurses’ Association (CNA) Code of Ethics for Registered Nurses and the College of Registered Nurses of British Columbia (CRNBC) professional and/or practice standards (or the equivalent in the province/territory/state in which the student practices). In addition to the above, the following School of Nursing practice regulations apply:

1. Where a student is enrolled in a Nursing Practice course (including NURS 345, 351, 370, 431, 470, 475, 491, 495) and there are reasonable grounds to believe that the conduct or lack of competence of a student enrolled in a nursing practice course has adversely affected or may adversely affect, those associated with the practice placement including:

   a) clients and/or their families;
   b) student peers; or
   c) health care professionals, agency volunteers or others in health related fields liaising with the UVic BSN program

   OR

   The student has breached the HSD Faculty Guidelines for Professional Conduct and Regulations Concerning Practice, the Canadian Nurses’ Association (CNA) Code of Ethics for Registered Nurses or the College of Registered Nurses of British Columbia (CRNBC) professional and/or practice standards (or the equivalent in the province/territory/state in which the student practices), the course instructor may then:

   a) restrict activities of the student in the course in such a manner as the instructor deems appropriate and/or
   b) suspend the student’s continued participation in the course prior to the course end date and/or
c) assign a failing grade (grade of F or N) to the student's performance in the course and report the failure to the designated committee.

2. The School of Nursing designated committee will review a student's enrolment in a nursing practice course (including review of practice appraisals) and/or the nursing degree program where:
   a) a failing grade (F or N) has been assigned to the student's performance in a course;
   b) a report has been received that a student has breached the HSD Faculty Guidelines for Professional Conduct and the Regulations Concerning Practica, the Canadian Nurses' Association (CNA) Code of Ethics for Registered Nurses or the College of Registered Nurses of British Columbia (CRNBC) professional and/or practice standards (or the provincial/territorial or state equivalent where the student's program is taking place).

After receiving a written request from the student and giving the student an opportunity to be heard by telephone conference call, or in person, the designated committee may permit a student to retake a course in which a student has been assigned a failing grade (with or without additional requirements/conditions) or require the student to withdraw from a nursing program in which the student is enrolled.

Practice courses, and the corequisite theory course where applicable, in deferred status must be completed prior to starting a subsequent practice course.

Program Completion Limit
The nursing program at the University of Victoria must normally be completed:

• Continuing Program: within seven years from the date of admission to the School of Nursing at the designated CAEN partner institution

• Post-Diploma Program: within six years

The School may require students to reapply for admission and stipulate conditions if the program is not completed within the designated time limits. Students seeking readmission to the School may be required to repeat nursing courses previously completed if, in the judgement of the Director or designate, curriculum changes or the length of interruption are sufficient to render the applicant inadequately prepared for the courses.

Standing
All students must maintain a cumulative GPA of 3.0 and a grade of C+ or higher in any core nursing course or other required course to proceed through the program and graduate. Students who fall below this level will be required to discuss their program with the Director of the School or designate, and may be required to withdraw.

Normally, all students registered in any nursing practice course must pass each course before proceeding further through the program. Students may, with permission of the designated committee, repeat a failed nursing practice course and will be placed on nursing practice probation for the remainder of the program. The privilege to repeat a failed nursing practice course is allowed only once in the program (Years 1 to 4 for continuing students and years 3 and 4 for post-diploma students). (See also Professional Conduct and Student Progression, above).

Students who have failed two practice courses in the program will be required to withdraw. All failed or incomplete course grades are permanently recorded on official transcripts, including notations of probationary status and required-to-withdraw status. Students may follow the UVic appeal procedures regarding failed grades and required-to-withdraw status. The first step in any appeal is the Director, followed by the Dean of the Faculty, followed by Senate.

Nursing Practice Requirements
Nursing practice experiences in health agencies are essential in the nursing program. It may not be possible to arrange nursing practice experiences in the location and at the time preferred by students. Students must arrange their own transportation. Travel and accommodation arrangements and costs associated with practice experiences are the responsibility of the student. Students are not permitted to transport clients, field guides, instructors, etc. when using their own vehicles for practice.

Agency Orientation/Instruction
If not already completed, or as mandated by the agency prior to or at the start of a practice experience, students must fulfill the requirements for staff orientation, and health records and medication management instruction.

Code of Ethics and Standards of Practice
All students must adhere to the Canadian Nurses' Association (CNA) Code of Ethics for Registered Nurses and/or to the professional and practice standards (or equivalent) of the Registered Nurses' licensing organization in the jurisdiction in which they are undertaking their practice experience. Students who fail to adhere to these codes and standards may be required to withdraw from the program.

Please refer to the faculty's "Guidelines for Professional Conduct" and "Regulations Concerning Practica" on page 108.

Regulations Concerning Practica
General Practicum Policies
The faculty reserves the right to approve any agency or institution that provides placements for student practica, and to change any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any change in placement. While the faculty accepts a responsibility to provide a sufficient number of practicum opportunities to serve the needs of all registered students, a student may be required to withdraw from a practicum course if none of the available practicum agencies will accept the student. It is the responsibility of the course instructor to inform students of the criteria by which unprofessional conduct will be judged in the practicum setting.

Practica Dates
The dates of practica will be established by each School or program, and will be announced to the students involved at the beginning of each term.

Attendance
Attendance at practicum activities is required. Students are expected to notify the placement agency whenever practicum appointments cannot be kept, and also to inform the course instructor. Failure to do so may result in a student being withdrawn from the practicum setting.

Denial and Withdrawal

Denial
Students will be denied the practicum experience if their preparatory work is considered unsatisfactory.

Temporary Withdrawal of Students Pending Report
A student may be required to withdraw temporarily from a practicum if, during the course of a term, there are reasonable grounds to believe that the conduct or lack of competence of a student enrolled in the practicum has adversely affected or may adversely affect:

• clients or pupils, or
• personnel, including students associated with the practicum

The student will be required to withdraw temporarily pending the receipt of a report on the conduct and lack of competence of the student. This written report from the course instructor will normally be provided to the student within 10 business days of the withdrawal.

Withdrawal
After giving the student an opportunity to be heard, the Instructor may require a student to withdraw from the practicum if the Instructor is satisfied that the student's conduct or lack of competence may adversely affect members of any of the groups identified in the paragraph above.

Voluntary Withdrawal
Students seeking voluntary withdrawal from a practicum whether permanent or temporary, must first speak with the academic adviser.

Termination of Practicum by Placement Agency
In situations where a practicum is terminated by the agency, the student will be informed in writing of the reasons for termination, by the Instructor of record within 15 business days of the termination. After giving the student an opportunity to be heard, the Director or designate will determine appropriate action: 1) withdrawal from the School; 2) additional preparatory work; 3) placement in a different practicum setting.

Practicum Evaluation Documentation
If a student withdraws from practicum or is required to withdraw from practicum by their School, all practicum evaluation materials to date of withdrawal will remain on their student file and may be taken into account in determining whether their preparatory work is satisfactory to enter a subsequent practicum.

Readmission
Students who have withdrawn from a practicum for whatever reason who later wish to reenter the practicum must apply for readmission to the course and should not assume that readmission is guaranteed.

Appeals
The normal avenues of final appeal, page 40, are available to students who have been required
to withdraw from a practicum. Students in the Faculty of Human and Social Development may follow regular appeal procedures within the faculty.

**Criminal Record Reviews**
Most practice agencies require the completion of a Criminal Record Review/Check prior to accepting the student's placement in the agency. Any costs related to this are the responsibility of the individual student. Students who do not complete the Criminal Record Review are usually unable to obtain a practice placement.

Registered nurses in BC have a Criminal Record Review completed with their CRNBC registration. Registered nurses undertaking practice experiences in a jurisdiction outside BC are responsible to ensure they have a Criminal Record Review or equivalent if required by their practice experience agency.

Registered nurses applying to, or registered in, the program with criminal convictions are advised to contact the appropriate registered nurses' association with regard to specific questions involving criminal convictions and ability to register as a nurse in the jurisdiction in which they are undertaking their practice experience. Continuing unlicensed on-campus students should contact the Student Adviser about the current process to follow, and are required to provide documentation upon application to the BSN program.

**Current Basic Life Support Certificate**
All students must provide evidence of successful completion of a basic life support level-C course or higher. Current CPR level-C certification or higher must be on file in the School of Nursing for students to remain registered in the program. CPR certification is valid for two years beginning from the date of issue. All costs and responsibilities associated with this are the responsibility of the individual student. Continuing unlicensed on-campus students must ensure that the CPR certificate is valid through completion of term six.

**Health Insurance Coverage**
All students must maintain basic and extended health care insurance coverage throughout the duration of the program.

**Immunizations**
Many agencies require proof of current immunizations. All costs and responsibilities associated with this are the responsibility of the individual student. Continuing unlicensed on-campus students must ensure that the CPR certificate is valid through completion of term six.

**Personal Respirator Fit Testing**
Students must be fit-tested before initial use of their personal respirators and annually thereafter while in the BSN program, and they must provide evidence of a personal respirator quantitative fit-test prior to attending any practice placement and to remain registered in the program.

**Practicing Registration (Post-Diploma students only) and Malpractice Insurance (Post-Diploma USA students only)**
In addition to the above requirements, all post-diploma students must have active practising registration as a Registered Nurse or the equivalent registration for the jurisdiction in which they are undertaking their practice experience. Periodically, information provided by students will be checked. Please note that students studying outside of BC are required to submit verification of active practising registration to the School of Nursing annually. Students studying in the US must also provide proof of current malpractice insurance, annually, for the duration of the program.

Post-diploma students may complete practice requirements in their place of work during paid working hours if arrangements have been negotiated with the workplace according to School of Nursing guidelines. Appropriate documentation must be submitted to the School of Nursing prior to practice commencement. Contact the Practica Coordinator for further information and guidelines.

**BSN Graduation Requirements**

- **Minimum Degree Requirements**
  - A minimum of 21 units of course work must be done through the University of Victoria by all students, although students are encouraged to complete as much of their course work as possible from the University of Victoria.
  - To meet University of Victoria graduation requirements, at least 21 units must be numbered at the 300 or 400 level (see "Minimum Degree Requirements for Graduation", page 40).
  - Continuing students must complete 31.5 units of course work of which no more than 3.0 units may be transfer credit.
  - Post-diploma students must complete 24 units of course work of which no more than 3.0 units may be transfer credit.

- **Transfer Credit**
  - Students may be permitted, with the approval of the Director or designate, to present up to 3 units of transfer credit from institutions other than the University of Victoria. Course work can be completed college or university level post-basic certificate/diploma programs and/or approved university-level nursing and/or non-nursing courses. Students are advised to ensure the acceptability of such courses by the School of Nursing before enrolling in them.

**University Academic Writing Requirement**
All students must meet the “Academic Writing Requirement”, page 31.

Post-diploma students who do not meet the University of Victoria’s Academic Writing Requirement (AWR) upon admission to the program are advised to register in ENGL 101* during their first or second term of study in the program. Please consult the appropriate online timetable for registration information, or contact the School of Nursing Adviser.

Early completion of the Academic Writing Requirement (AWR) will facilitate writing academic papers. Students who have not satisfied the AWR by the time they have completed their second term of study will be ineligible for reauthorizing and registration in future sessions until the requirement is satisfied.

Completion of ENGL 135* will satisfy the non-nursing elective requirement in the program, if needed.

* Or UVic ENGL 146, 147 or transferable equivalent course. ENGL 115 completed prior to May 1, 2012 will also satisfy the Academic Writing Requirement.

It is strongly recommended that all students admitted to the UVic post-diploma BSN program enroll in NURS 300 (Academic Writing for Nurses) within the first academic year of their program.

**Continuing Students: CAEN Curriculum Course Sequence**

**Term 6**
- NURS 341 (1.5) Professional Practice IV: Nursing Inquiry
- NURS 342 (1.5) Health and Healing VI: Global Health Issues
- NURS 350 (1.5) Health and Healing VII: Promoting Community and Societal Health
- NURS 351 (1.5) Nursing Practice VI: Promoting Health of Communities and Society

**Term 7**
- NURS 370 (4.5) Consolidated Practice Experience III
- NURS 470 (4.5) Consolidated Practice Experience IV

**Term 8**
- NURS 360 (1.5) Professional Practice VI: Nursing Research
- NURS 430 (1.5) Professional Practice V: Leadership in Nursing
- NURS 431 (1.5) Nursing Practice VII: Engaging in Leadership

**Nursing elective (1.5) chosen from the list of electives below**

**Term 9**
- NURS 475 (4.5) Consolidated Practice Experience V
- NURS 491 (4.5) Nursing Practice VIII: Transitions

Note: Practice Course and Co-requisite Theory Course Section Changes—Continuing students only. For all required practice courses and co-requisite theory courses (NURS 350, 351, 430, 431, 370, 470, 475 and 491) all continuing on campus students will register in a single section for each course. The School of Nursing will then register students into multiple sections of the course at a later date, prior to the beginning of the term. The following factors are taken into consideration when students are placed in their section of the course:

- Students working in pairs and/or the same agency/unit will usually be in the same section.
- Usually an agency/unit will have the same instructor for all students placed there; instructor
assignments are made by the School of Nursing in consultation with instructors.

- The School of Nursing also considers the variety of placements in seminar groups so that there is representation from different agencies in each group in order to enrich the learning environment.

* Nursing elective courses may not be offered each year

Credit for a non-University of Victoria nursing elective requires permission of the department.

1. The intent is for students to select an elective that enhances their BSN course work. The elective can be a course at UVic or transferable to UVic, at the 100 level or above, outside the School.

2. May be taken more than once for credit to a maximum of 3.0 units.

3. May be used to satisfy either a nursing or non-nursing elective requirement and is a required prerequisite for admission to all School of Nursing graduate program options.

4. May be used to satisfy either a nursing or non-nursing elective.

**PUBLIC ADMINISTRATION PROGRAMS**

**Academic Writing Requirement**

Diploma and Professional Specialization Certificate students are not required to meet the UVic Academic Writing Requirement unless they subsequently enter a degree program. However, students enrolled in the Diploma in Public Sector Management and Diploma in Local Government Management should enroll in ADMN 316 early in their program.
Diploma in Public Sector Management

The School of Public Administration offers a part-time, off-campus program of studies leading to the Diploma in Public Sector Management, which is available via distance education plus (in some courses) workshops. The program is intended for practicing or prospective managers in the public and non-profit sectors who wish to acquire the skills and background necessary for effective and responsible management, and who are interested in broadening their understanding of the administrative process. The Diploma will be awarded upon successful completion of 11 courses or 16.5 units, with an overall GPA of at least 2.0.

Admission

Courses are taught at a level which is consistent with other third- and fourth-year undergraduate courses offered at the University of Victoria; applicants will be required to demonstrate that they possess the academic proficiency necessary to benefit fully from the program.

Students without a bachelor's degree will normally be expected to have completed the equivalent of at least the first two years of post-secondary study at a university or at institutions such as BCIT, community colleges or recognized professional associations.

Candidates without formal post-secondary qualifications but with demonstrable appropriate experience may be admitted as conditional students, with continuation in the program subject to performance in the first three courses with a grade of C+ or better.

In addition to academic background, all applicants should have a minimum of three years' experience in dealing with issues characteristic of the public sector and/or non-profit sector. A limited number of students not formally admitted to the program may register for individual courses with the permission of the Director of the School of Public Administration. Inquiries about the program should be forwarded to:

Program Manager

Diploma in Public Sector Management
School of Public Administration
University of Victoria, Box 1700 STN CSC
Victoria BC V8W 2Y2
Phone: 250-721-8074
Email: hkirkham@uvic.ca

Admission to the Diploma in Public Sector Management from UVic's Certificate in the Administration of Indigenous Governments

Students who have completed the CAAG may apply for admission to the Diploma in Public Sector Management. To meet the DPSM requirements, students must complete ADMN 310, 314, 420 and 431A. The Diploma's requirement of ADMN 316 will be waived if a student has credit for IG0V 380.

Note: Students who completed the (former) Certificate in Administration of Aboriginal Governments (CAAG) must, upon admission to the DPSM, complete ADMN 310, 311, 312, and one of ADMN 314, 420 or 431A.

Transfer Credit and Waivers

Students may be permitted to complete up to 4.5 units of credit towards the Diploma in Public Sector Management by taking appropriate courses offered through other Departments of the University of Victoria or at other universities. Prior approval must be obtained from the Director of the School of Public Administration. If a Diploma student holds a UVic degree that included ADMN courses, up to 4.5 units (three courses) of credit may be waived towards a DPSM.

Students may be granted approval to exceed 4.5 units of transfer credit in cases where the credit has been (or will be) obtained for graduate-level courses taught through the School of Public Administration at the University.

At the discretion of the Director, block transfer credit of up to 4.5 units may be allowed for other post-secondary certificates or diplomas if the program covers appropriate topics.

Some courses in this program may be applied to a Diploma in Local Government Management (see below).

Transfer from UVic's Certificate in Public Management

Upon completion of UVic's eight-course Certificate in Public Management, students may be admitted to the DPSM Program with advanced standing in five courses (7.5 units). Students must complete ADMN 310, 312, 316, 420, 431A and one other ADMN course. The following courses are waived towards their DPSM requirements and students are not permitted to take these courses for further credit towards the DPSM: ADMN 311, 314, 421, 422 and 437.

Transfer Credit from the School's Professional Specialization Certificates

Upon admission to the Diploma in Public Sector Management Program, students who hold a Professional Specialization Certificate from the School may transfer four courses (6 units) into the DPSM. Students will be required to meet the Diploma requirements by completing at least seven 1.5 unit ADMN courses (not duplicating courses already taken in the Certificate). The combination of the PSC and Diploma must include ADMN 310, 311, 312, 314, 316, 420, 421 and 431A.

Transfer Credit from Capilano University and Camosun College

Students who have successfully completed (with grade averages of C+ or better) Capilano University's (formerly Capilano College) Professional Certificate Program in Local Government Administration or either Camosun College's Diploma in Public Administration or Certificate in Local Government Administration may apply for block transfer credit to the DPSM. Students will be allowed transfer credit of three courses (4.5 units), which will be counted towards their Diploma in Public Sector Management elective requirements.

Transfer to UVic Degree Programs

Credit obtained within the Diploma in Public Sector Management program, less any credit transferred to the DPSM from a Certificate or Certificates in Administration of Indigenous Governments, Public Management, or Professional Specialization may be transferable to a regular undergraduate degree program. However, such transferability of credit, including transfer credit recognized from another institution, is always subject to the specific requirements of the degree program.

Program Requirements

The Diploma in Public Sector Management program is available on a part-time study basis. The course delivery methods include study guides and readings (texts and/or selected articles), plus the following methods:

- computer-mediated instruction and conferencing
- intensive workshops
- tutoring by phone or email

Completion of the 11 courses will normally take three to four years. Some courses will be run as intensive summer institutes in residence at UVic.

The following is a typical program of studies:

1. 12 units of required core courses from
   - ADMN 310 (1.5)
   - ADMN 311 (1.5)
   - ADMN 312 (1.5)
   - ADMN 314 (1.5)
   - ADMN 316 (1.5)
   - ADMN 420 (1.5)
   - ADMN 421 (1.5)
   - ADMN 431A (1.5)

2. 4.5 units chosen from the following areas as appropriate to the students' needs and interests:

   Managerial Theory and Practice
   - ADMN 407
   - ADMN 409
   - ADMN 411
   - ADMN 422
   - ADMN 437
   - ADMN 477

   Policy Areas
   - ADMN 423
   - ADMN 445
   - ADMN 446
   - ADMN 452
   - ADMN 470
   - ADMN 490

Courses in this program will be available as enrolment warrants.

Program Requirements for Students Enrolled Prior to Fall 2004

Students enrolled in the Diploma in Public Sector Management program prior to Fall 2004 may opt into the new program by declaring their intention in writing to the Program Manager. They must meet the new program requirements (see above) to qualify for the DPSM.

Local Government Option

The Local Government Option within the Diploma in Public Sector Management program requires the completion of four courses: ADMN 312, ADMN 445, ADMN 452, and ADMN 465.

The Local Government Option has been identified by the Provincial Board of Examiners, in consultation with the Local Government Management Association of BC, as a mandatory educational requirement for the following credentials:

- Certificate in Local Government Administration
Diploma in Local Government Management

Students employed or seeking employment in local governments may opt to enrol in the Diploma in Local Government Management. This is a part-time, off-campus program of studies leading to the Diploma in Local Government Management and is offered via distance education plus (in some courses) workshops. The program is intended for practicing or prospective managers in local government who wish to acquire the skills and background needed for effective and responsible management, and who are interested in broadening their understanding of the administrative process.

The Diploma will be awarded upon successful completion of 11 courses or 16.5 units, with an overall GPA of at least 2.0. Courses in this program are applicable towards professional certificates awarded by the Board of Examiners, Ministry of Community Services (see Local Government Option, above).

Admission

Courses are taught at a level which is consistent with other third- and fourth-year undergraduate courses offered at the University of Victoria; applicants will be required to demonstrate that they possess the academic proficiency necessary to benefit fully from the program.

Students without a bachelor's degree will normally be expected to have obtained the equivalent of at least the first two years of post-secondary education at university or at institutions such as BCIT, community colleges or recognized professional associations.

Candidates without formal post-secondary qualifications but with demonstrable appropriate experience may be admitted as conditional students, with continuation in the program subject to performance in the first three courses with a grade of C+ or better.

In addition to academic background, all applicants should have a minimum of three years experience working in local (municipal or regional) government. (Experience in other levels of government and/or the non-profit sector may be considered.)

A limited number of students not formally admitted to the program may register for individual courses, with the permission of the Director of the School of Public Administration.

Inquiries about the program should be forwarded to:

Program Manager,
Diploma in Local Government Management
School of Public Administration
University of Victoria, Box 1700 STN CSC
Victoria BC V8W 2Y2
Phone: 250-721-8074
Email: hkirkham@uvic.ca

Transfer Credit and Waivers

Students may be permitted to complete up to three courses (4.5 units of credit) towards the Diploma in Local Government Management by taking appropriate courses offered through other Departments of the University of Victoria, other universities or university colleges. Prior approval must be obtained from the Director of the School of Public Administration. If a Diploma student holds a UVic degree that included ADMN courses, up to 4.5 units (three courses) of credit may be waived towards a DLGM.

Students may be granted approval to exceed 6 units of transfer credit in cases where the credit has been (or will be) obtained for graduate-level courses taught through the School of Public Administration at the University.

At the discretion of the Director, block transfer credit of up to 4.5 units may be allowed for other post-secondary certificates or diplomas if the program covers appropriate topics.

Transfer Credit from the School's Professional Specialization Certificates

Upon admission to the Diploma in Local Government Management Program, students who hold a Professional Specialization Certificate from the School may transfer four courses (6 units) into the DLGM. Students will be required to meet the Diploma requirements by completing ADMN 316 (1.5 units), plus at least six 1.5 unit ADMN courses (not duplicating courses already taken in the Certificate). The combination of the PSC and Diploma must include ADMN 310, 312, 316, 420, 445, 448 (or 421), 452 and 465.

Transfer Credit from Capilano University and Camosun College

Students who have successfully completed (with grade averages of C+ or better) Capilano University's (formerly Capilano College) Professional Certificate Program in Local Government Administration or Camosun College's Diploma in Public Administration may apply for block transfer credit to the DLGM. Students will be allowed transfer credit of three courses (4.5 units), which will be counted towards their Diploma in Local Government Management elective requirements.

Transfer to UVic Degree Programs

Credit obtained within the Local Government Management program, less any credit transferred to the DLGM from a Certificate or Certificate in Administration of Indigenous Governments, Public Management, or Professional Specialization may be transferable to a regular undergraduate degree program. However, such transferability of credit, including transfer credit recognized from another institution, is also subject to the specific requirements of the degree program.

Program Requirements

The Diploma in Local Government Management program is available on a part-time study basis. The course delivery methods include study guides and readings (texts and/or selected articles), plus the following methods:

- computer-mediated instruction and conferencing
- intensive workshops
- tutoring by phone or email

Completion of the 11 courses will normally take three to four years. Some courses may include intensive workshops at the University of Victoria or, if enrolment permits, at other BC locations.

The following is a typical program of studies:

1. 12 units of required courses or the equivalent in transfer credit (note: ADMN 448 preferred, but ADMN 421 permitted):
   - ADMN 310 (1.5)
   - ADMN 312 (1.5)
   - ADMN 316 (1.5)
   - ADMN 423 (1.5)
   - ADMN 445 (1.5)
   - ADMN 448 or ADMN 421 (1.5)
   - ADMN 452 (1.5)
   - ADMN 465 (1.5)

2. 4.5 units (three courses) chosen from other School of Public Administration undergraduate courses:

   Social/Applied Sciences
   - ADMN 314

   Managerial Theory and Practice
   - ADMN 407
   - ADMN 409
   - ADMN 411
   - ADMN 422
   - ADMN 431A
   - ADMN 431B
   - ADMN 437
   - ADMN 477

   Policy Areas
   - ADMN 311
   - ADMN 446
   - ADMN 470
   - ADMN 490

Courses in this program will be available as enrollment warrants.

Local Government Option

For a description of the Local Government Option, see the Diploma in Public Sector Management, above. The option is also available to Diploma in Local Government Management students.

Program Requirements for Students Enrolled Prior to Fall 2004

Students enrolled in the Diploma in Local Government Management program prior to Fall 2004 may opt into the new program by declaring their intention in writing to the Program Manager. They must meet the new program requirements (see above) to qualify for the DLGM.

Professional Specialization Certificates

The School of Public Administration offers the following Professional Specialization Certificates:

- Cultural Sector Leadership
- Local Government Management
- Performance Management
- Public Policy and Governance
FACULTY OF HUMAN & SOCIAL DEVELOPMENT

- Public Sector Management
- Voluntary and Non-profit Sector Management

Admission Requirements
The Professional Specialization Certificates are intended for students who already hold a bachelor's degree and have at least two years' work-related experience. In exceptional circumstances, students may be admitted to a Professional Specialization Certificate if the School finds they have sufficient academic background equivalent to a bachelor's degree.

Admission Procedure
These are credit certificates, so students would:
1. Apply for admission to the University (or permission to register if they are former UVic students); and
2. Apply for admission to the Certificate Program through the School of Public Administration.

Program Requirements
The requirements for each Professional Specialization Certificate are:
1. Four ADMN 300- or 400-level courses (1.5 units each).
2. No transfer credit will be allowed, but course substitutions will be permitted if a student already has a required course (or equivalent). A course may not be counted towards more than one Professional Specialization Certificate.

The following are the required courses for Professional Specialization Certificates. Course substitutions at the ADMN 300 and 400 level may be allowed by the School. In addition to the courses listed below, the following courses may be used towards any Professional Specialization Certificate if the topic is relevant to the particular specialization:
- ADMN 470: Contemporary Topics in Administration
- ADMN 490: Directed Studies

Cultural Sector Leadership
An on-campus orientation session may be required, in addition to the following courses:
ADMN 409 .................................................. 1.5
ADMN 437 .................................................. 1.5
ADMN 477 .................................................. 1.5
Plus, choice of one of:
ADMN 421 .................................................. 1.5
ADMN 431A ............................................... 1.5
HA 488A .................................................... 1.5
HA 488P .................................................... 1.5
HA 488Q .................................................... 1.5
HA 488R .................................................... 1.5
HA 488M .................................................... 1.5
or other 300- or 400-level course with approval of adviser.

Local Government Management
Required: one of:
ADMN 312 .................................................. 1.5
or
ADMN 423 .................................................. 1.5
Plus, choice of three of:
ADMN 312 (if ADMN 423 chosen as required) 1.5
ADMN 422 .................................................. 1.5
ADMN 445 .................................................. 1.5
ADMN 446 .................................................. 1.5
ADMN 448 .................................................. 1.5
ADMN 452 .................................................. 1.5
ADMN 465 .................................................. 1.5
Note: to meet the Provincial Board of Examiners requirements for the Certificates in Local Government Administration and Local Government Statutory Administration, students should take: ADMN 312, 445, 452, 465. ADMN 422 is also required for the Certificate in Local Government Executive Management.

Performance Management
Required:
ADMN 437 .................................................. 1.5
Plus, choice of three of:
ADMN 314 .................................................. 1.5
ADMN 407 .................................................. 1.5
ADMN 411 .................................................. 1.5
ADMN 421 .................................................. 1.5
ADMN 477 .................................................. 1.5

Public Policy and Governance
Required:
ADMN 311 .................................................. 1.5
ADMN 420 .................................................. 1.5
or
ADMN 465 .................................................. 1.5
Plus two of:
ADMN 314 .................................................. 1.5
ADMN 422 .................................................. 1.5
ADMN 437 .................................................. 1.5
ADMN 477 .................................................. 1.5

Public Sector Management
Choice of four of:
ADMN 407 .................................................. 1.5
ADMN 411 .................................................. 1.5
ADMN 421 .................................................. 1.5
ADMN 422 .................................................. 1.5
ADMN 437 .................................................. 1.5
ADMN 477 .................................................. 1.5

Voluntary and Non-Profit Sector Management
Required:
ADMN 409 .................................................. 1.5
ADMN 437 .................................................. 1.5
Plus, choice of two of:
ADMN 407 .................................................. 1.5
ADMN 411 .................................................. 1.5
ADMN 421 .................................................. 1.5
ADMN 477 .................................................. 1.5

Transfer Credit to the School's Diploma Programs
Upon admission to either the Diploma in Public Sector Management or the Diploma in Local Government Management Program, students who hold a Professional Specialization Certificate from the School may transfer up to four courses (6 units) into the DPSM or DLGM. Students may not duplicate courses already taken in the Certificate. The combined courses in a student's PSC and Diploma program must include all the required courses in the Diploma program.

Minor in Public Administration
The School of Public Administration offers a Minor in Public Administration to students enrolled in other undergraduate programs at UVic. The Minor in Public Administration will be awarded upon completion of six 1.5 unit courses (9 units). The minor will give students a range of topics relevant to the public and/or non-profit sectors, including applied policy and public sector management. The program can be completed via distributed (distance) learning methods, but some courses are available on campus.

Program Requirements:
1. Three required courses (4.5 units):
   - ADMN 311 .................................................. 1.5
   - ADMN 312 .................................................. 1.5
   - ADMN 420 .................................................. 1.5
   and one of
   - ADMN 425 .................................................. 1.5
   - ADMN 465 .................................................. 1.5
   - POLI 351 .................................................. 1.5
   - POLI 364 .................................................. 1.5

Note: An ADMN elective may be substituted for a policy course if a student uses POLI 351 or 364 towards a Political Science major.

Three elective courses (4.5 units), selected from:
- ADMN 310 .................................................. 1.5
- ADMN 314 .................................................. 1.5
- ADMN 316 .................................................. 1.5
- ADMN 407 .................................................. 1.5
- ADMN 409 .................................................. 1.5
- ADMN 411 .................................................. 1.5
- ADMN 421 .................................................. 1.5
- ADMN 422 .................................................. 1.5
- ADMN 423 .................................................. 1.5
- ADMN 431A ............................................... 1.5
- ADMN 431B ............................................... 1.5
- ADMN 437 .................................................. 1.5
- ADMN 445 .................................................. 1.5
- ADMN 446 .................................................. 1.5
- ADMN 462 .................................................. 1.5
- ADMN 470 .................................................. 1.5
- ADMN 477 .................................................. 1.5
- ADMN 478 .................................................. 1.5
- ADMN 479 .................................................. 1.5
- POLI 365 .................................................. 1.5
- POLI 462 .................................................. 1.5

Co-operative Education Option
Students registered in a Major that allows for a Public Administration Minor, and undertaking a Public Administration Minor, and also registered in the UVic Co-operative Education Program in their originating department, may, with permission from their originating Co-op program, elect to complete ONE work term through the School of Public Administration Co-op program. Students in this situation must have completed one of the following in order to be eligible for a Public Administration work term:
1. Successful completion of a registered Co-op work term in their originating Co-op program, or
2. Completion of the UVic co-curriculum, through either their originating Co-op program or the School of Public Administration Co-op program.
The Diploma in Aboriginal Health Leadership is designed at the third and fourth year level and focuses on professional development and career development opportunities for community members already in the workforce, or who are considering a career in health administration or a related field. The program will develop community capacity in health administration and social service sectors and will provide excellent access to flexible post-secondary community based education that may be accessed on a part-time basis. The Diploma will enhance working students’ professional skills, while preparing other students to enter the workforce directly or pursue further educational opportunities such as the BA in Health and Community Services.

**PUBLIC HEALTH AND SOCIAL POLICY PROGRAMS**

**Bachelor of Arts (BA) in Health and Community Services**

The Bachelor of Arts in Health and Community Services is a two-year applied degree program consisting of 34.5 units of course work offered at 3rd and 4th year level. Within the program, students select one of four applied areas of focus: Disability Studies; Indigenous Peoples’ Health; International and Global Health Development; Gerontology.

The Health and Community Services Program is offered using a blended learning approach. All courses are offered by distance education using online learning technologies. Students are required to attend three onsite components at UVic: a gateway onsite provides an introduction to the program, and learning strategies (online learning). The second onsite coincides with the applied area of focus to enhance application of health-related knowledge and further awareness and understanding of population specific needs. The third onsite coincides with a conferencing opportunity where undergraduates as well as graduate students will present their final paper/project.

**Diploma in Aboriginal Health Leadership**

The Diploma in Aboriginal Health Leadership is a two-year, part-time, community-based program consisting of 18 units of course work offered at third and fourth year level. The program is offered using a blended learning approach, including distance education and in community course offerings. Students are required to attend one onsite component at UVic; a gateway onsite provides an introduction to the program, and learning strategies (online learning) and two course based on sites in the community, one in year one and one in year two.

**Graduate Programs**

The School offers a Master in Public Health and a Graduate Diploma in Public Health. For more information about these programs, see the UVic Graduate Calendar.

**SCHOOL ADMISSION REQUIREMENTS**

**BA in Health and Community Services**

Students entering the Program will usually have completed 27 units of 1st and 2nd year course work, the equivalent of just under two years full-time study at UVic. Students enter through a competitive application process. An overall GPA of B- (4.0) is usually required. Students who have completed 27 units will be required to complete one area of focus. Students who have completed only 21 units will be eligible to apply to the program at the second-year level and would be required to complete two areas of focus.

Admission of transfer students who have completed transferable coursework at another faculty must submit an Application for Admission to the University to Undergraduate Admissions; a Bachelor of Health and Community Services Application to the School, resume of work and volunteer experience, as well as a personal statement of intent.

All applicants will enter a competitive admissions process (GPA, work experience). Application information and forms are available on the PHSP website: [www.uvic.ca/publichealth]. Application deadline is March 1.

Possession of the minimum admission requirements does not guarantee admission to the School of Public Health and Social Policy. Where the number of qualified applicants exceeds the number that can be accommodated, the admission cut-offs will be higher than the minimum published requirements.

**Diploma in Aboriginal Health Leadership**

Applicants will be expected to have completed Grade 12 or equivalent. Ideally applicants will have some post-secondary experience, however all applicants will be considered based on educational preparation and work experience.

**Required Documentation**

In addition to the application to UVic Undergraduate Admissions, applicants should submit to the Program Coordinator an application to the School, along with a letter of intent and a resume. Special admission categories outlined below may also require specific documentation, such as references.

**Admission Criteria**

Applicants will usually meet general admission criteria as set out by the University. However, the following principles will be considered: maximizing accessibility and the willingness to review applications on a case-by-case basis. Two additional distinct processes exist to facilitate entrance for those who do not meet the regular admission criteria.

Potential applicants are encouraged to meet with the Program Coordinator to determine which admission category (general, special access or Aboriginal) best applies.

1. **Special Access**

The University of Victoria is interested in extending university-level learning opportunities to residents of British Columbia who may not qualify under the regular categories of admission.
The number of applicants admitted under this category is limited by the availability of University resources. Admission under the Special Category is not automatic.

An applicant for admission under the Special Category must meet the following criteria:
- The applicant is at least 23 years of age by the beginning of the session applied, for and
- The applicant's academic achievements have been significantly and adversely affected by health, disability, or family or similar responsibilities.

The Senate Committee on Admission, Reregistration and Transfer selects candidates for admission on the basis of:
- Their educational history
- Non-educational achievement that indicate an ability to succeed at university

Applicants in this category must submit two Special Access Reference forms from persons specifically able to assess the applicant's potential for academic success. References from relatives will not be accepted. Applicants must be able to document the nature and extent of their circumstances, and demonstrate the impact these have had on their educational achievements.

Note: Applicants who have attempted a full year or equivalent of university-level courses are not eligible to apply under this category.

Applicants under this category must also meet the prerequisites for the program they wish to enter.

2. First Nations, Metis and Inuit

The University welcomes applications from Aboriginal peoples of Canada, including those of First Nations, Metis and Inuit ancestry (including Non-status Aboriginal).

Applications from Aboriginal peoples of Canada who do not qualify under the other categories admission will be considered on an individual basis by the Senate Committee on Admissions, Reregistration and Transfer.

The committee will consider each applicant's:
- Educational history
- Non-educational achievements that indicate an ability to succeed at university

Applicants who choose to apply under the "Special Access" or "First Nations, Metis and Inuit" category must submit two reference forms from persons specifically able to assess the applicant's potential for academic success. If possible, one reference should be from a recognized Aboriginal organization. References from relatives will not be accepted. Applicants must also submit a personal letter outlining their academic objectives.

A limited number of students not formally admitted to the program may register for individual courses (if enrolment permits), with the permission of the Program Coordinator.

**ACADEMIC REGULATIONS**

**Academic Performance**

Students in the School of Public Health and Social Policy must maintain a sessional GPA of 3.0 (C+) and receive a minimum of 2.0 (C) in any core PHSP or other required courses; otherwise they may be required to withdraw from the School.

**Limitation of Enrolment**

Admission to UVic is not a guarantee of admission to particular Schools or programs within the Faculty. Applicants should be aware that admission to Schools and programs is competitive and subject to limited enrolment. Meeting minimum requirements is not a guarantee of admission. The Faculty of Human and Social Development recognizes that many factors contribute to a person's chances of success in professional programs and therefore in addition to academic requirements (GPA), professional suitability for the selected program will be considered.

**Professional Conduct**

All students in the School of Public Health and Social Policy must follow the Faculty of Human and Social Development's (HSD) Guidelines for Professional Conduct. Please refer to the faculty's "Guidelines for Professional Conduct" on page 108.

**General Practicum Guidelines**

Many agencies have specific requirements for students prior to practicum placement (ie. oath of confidentiality, current immunization and basic life support certification, extended health care insurance coverage). All costs and responsibilities associated with these requirements are the responsibility of the individual student.

**Criminal Record Reviews**

While not a requirement for admission, UVic students placed in practica may be required to undergo criminal records reviews by legislation or because of the risk management policies of the organization with which the student will be associated. Students are responsible for providing authorization for the review to the practice agency upon request and/or cooperating with the conduct of the review as needed. Usually, students must pay for the review, although some agencies will absorb the costs. Students undertaking practice experiences jurisdiction outside of BC are responsible to ensure they have a criminal records review or equivalent if required by their practice experience agency.

**Practica Placements**

The Faculty reserves the right to approve any agency or institution that provides placements for student practica, and to change any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any change in placement.

While the Faculty accepts a responsibility to provide a sufficient number of practicum opportunities to serve the needs of all registered students, a student may be required to withdraw from a practicum course if none of the available practicum agencies will accept the student.

It is the responsibility of the course instructor to inform students of the criteria by which unprofessional conduct will be judged in the practicum setting.

**Practica Dates**

The dates of practica will be established by each School or program, and will be announced to the students involved at the beginning of each term.

**Attendance**

Attendance at practicum activities is required. Students are expected to notify the placement agency whenever practicum appointments cannot be kept, and also to inform the course instructor. Do not result in a student being withdrawn from the practicum.

**Denial and Withdrawal**

**Denial**

Students will be denied the practicum experience if their preparatory work is considered unsatisfactory by the Director of the School in the Faculty of Human and Social Development.

**Temporary Withdrawal of Students Pending Report**

The Director may require a student to withdraw temporarily from a practicum if, during the course of a term, there are reasonable grounds to believe that the conduct or lack of competence of a student enrolled in the practicum has adversely affected or may adversely affect:
- clients or pupils, or
- personnel, including students associated with the practicum

The student will be required to withdraw temporarily pending the receipt of a report on the conduct and lack of competence of the student. This written report from the course instructor will normally be provided to the student within 10 business days of the withdrawal.

**Withdrawal**

After giving the student an opportunity to be heard, the Director may require a student to withdraw from the practicum if the Director is satisfied that the student's conduct or lack of competence may adversely affect members of any of the groups identified in the paragraph above.

**Voluntary Withdrawal**

Students seeking voluntary withdrawal from a practicum, whether permanent or temporary, must receive permission to seek withdrawal from their faculty supervisor in Human and Social Development.

**Termination of Practicum by Placement Agency**

In situations where a practicum is terminated by the agency, the student will be informed in writing of the reasons for termination, by the instructor of record within 15 business days of the termination. After giving the student an opportunity to be heard, the Director or designate will determine appropriate action: 1) withdrawal from the School; 2) additional preparatory work; 3) placement in a different practicum setting.

**Practicum Evaluation Documentation**

If a student withdraws from practicum or is required to withdraw from practicum by their School, all practicum evaluation materials to date of withdrawal will remain on their student file and may be taken into account in determining whether their preparatory work is satisfactory to enter a subsequent practicum.

**Notification to Undergraduate Records**

Students who withdraw temporarily from a practicum must notify Undergraduate Records in writing. Students who are required to withdraw from a practicum will be withdrawn from any course involved by written notification from the Director to Undergraduate Records.
Readmission
Students who have withdrawn from a practicum for whatever reason who later wish to reenter the practicum must apply for readmission to the course and should not assume that readmission is guaranteed.

Appeals
The normal avenues of final appeal are available to students who have been required to withdraw from a practicum. Students in the Faculty of Human and Social Development may follow regular appeal procedures within the faculty.

Program Completion Limit
The Health and Community Services full-time program must normally be completed within five years from the date of admission. Upon completion of one or more years in the School of Public Health and Social Policy, students may apply in writing to the School for a one-year leave of absence. The deadline for such a request is normally March 31.

The intent is for students to select electives that enhance their Bachelor of Health and Community Services course work. The electives can be courses at Uvic or transferable to Uvic, at the 300-level or above.

Applied Areas of Focus (6.0 units)

Students select one of the following four areas:

- Disability Studies
  - DSST 440 (1.5) Introduction to Disability Studies
  - DSST 441 (1.5) Enabling Technologies
  - DSST 442 (1.5) Living with Disability
  - DSST 443 (1.5) Activism and Advocacy

- Indigenous Peoples’ Health
  - INGH 450 (1.5) Culture and Context of Indigenous Health
  - INGH 451 (1.5) Indigenous Health Trends and Social Determinants of Health
  - INGH 452 (1.5) Traditional Healing in Indigenous Communities
  - INGH 453 (1.5) Wise Practices in Indigenous Community Health

- International and Global Health and Human Development
  - INTS 460 (1.5) Foundations in International and Global Health and Human Development
  - INTS 461 (1.5) Engaging in International and Global Health Development Work
  - INTS 462 (1.5) Issues and Challenges in International and Global Health Development Studies
  - INTS 463 (1.5) Special Topics in International and Global Health and Human Development

- Ageing
  - AGEI 470 (1.5) Health and Community Care Systems in Aging
  - AGEI 471 (1.5) Elder Care and Family Care Giving
  - AGEI 472 (1.5) Healthy Ageing
  - AGEI 473 (1.5) Chronic Disease and Ageing

2012-13 UVIC CALENDAR

School of Social Work

Pamela Miller, BA (Maryhurst), MSW, PhD “Philosophy” (Indiana), PhD “Social Work” (Ohio), Professor and Director of the School of Social Work

Leslie Brown, BSW (Regina), MPA, PhD (Victoria), Associate Professor

Jeanne Carriere, BA (Alberta), BSW (Manitoba), MSW (UBC), PhD (Alberta), Associate Professor

Jacqueline Green, BSW, MPA, PhD (Victoria), Associate Professor

Donna Jeffery, BSc (Calgary), BSc (Calgary), MA, PhD (OISE/Toronto), Associate Professor

Teresa Macias, BSW, PhD (OISE/Toronto), Assistant Professor

Patricia MacKenzie, BSc (Oklahoma Christian), MSW (British Columbia), PhD (Edinburgh), Associate Professor

Susan Strega, BSW (Manitoba), MSW (Victoria), PhD (Southampton), Associate Professor

Sara Thompson, BSW, PhD (Victoria), Associate Professor

Barbara Whittington, BA, MSW, PhD (British Columbia), Associate Professor

Catherine Richardson, BA, PDPP, Med, PhD (Victoria), Assistant Professor

Yvonne Haist, BSW, Med (Victoria), DipAdEd (British Columbia), Senior Instructor

Cheryl Moir-van Iersel, BSW (Calgary), MSW (British Columbia), Senior Instructor

Roberta Taylor, BSW, MSW (Victoria), DipAdEd (British Columbia), Senior Instructor

Emeritus

Andrew Armitage, BSc (London), BA (Canterbury), BA (British Columbia), PhD (Bristol), Professor Emeritus

Marilyn J. Callahan, BA, BSW, MSW (British Columbia), PhD (Bristol), Professor Emeritus

John Cosom, BA (Western Ontario), BHSc, MSW, PhD (Toronto), Associate Professor Emeritus
FACULTY OF HUMAN & SOCIAL DEVELOPMENT

Andrew Farquharson, BA (Bishop's), MSW (McGill), MED, EdD (Toronto), Professor Emeritus
Marjorie D. Martin, BA, BSW, MSW (British Columbia), Associate Professor Emeritus
David T. Turner, LLB (Sheffield), DipSW and Admin (Oxford), Associate Professor Emeritus

Visiting, Adjunct and Cross-listed Appointments
Lyn Davis, BA (Florida Atlantic), MA, PhD (Florida State) Adjunct Associate Professor
Barbara M. Herringer, BA (Alberta), BSW, MSW (British Columbia), PhD (Victoria), Adjunct Associate Professor
Margaret Kovach, BA (Regina), MSW (Carleton), PhD (Victoria), Adjunct Assistant Professor
June Preston, BA, MSW (Calgary), Adjunct Assistant Professor
Lena Dominelli, BA (Simon Fraser), MA, PhD (Sask): Visiting Scholar

Sessional Instructors
Cheryl Aro, BSW, MSW (Victoria)
Caroleh Anderson, MSW, PhD (Calgary)
Tracey Banks, BA (York), BSW (McMaster), MSW (Calgary)
Kim Brown, BSW (Carroll College), MSW (Montana)
Janette Champagne, BSW (Victoria), MSW (Dalhousie)
Michele Fairbairn, BSW, MSW (Manitoba)
Fred Ford, BA (Alberta), MRA (San Francisco), PhD Candidate (Victoria)
Maxine Gibson, BSW, MSW (Victoria)
Sharon Hobenfield, BSW (Victoria), MED (Simon Fraser)
Tracey Lavoie, BA, BSW, MSW (Manitoba)
Sui-May Lai, BA (Concordia), MSW (Brigham Young)
Hillary Cormack Lais, BSW, MSW (Victoria)
Penny MacCourt, BSW, MSW (Manitoba), PhD (Victoria)
Kirsten Mikkelsen, BSW, MA-IGOV (Victoria)
Rena Miller, BSW, MSW (Victoria)
Peter Monk, BSW (Victoria), MSW (British Columbia)
Lindsay Neufeld, BA (Concordia), BSW (British Columbia), MSW (Dalhousie)
Susan Noakes, BA, BSW, MSW (Victoria)
Todd Ormiston, BSW, MPA (Victoria), PhD Candidate (British Columbia)
Melvin Peters, BSW (Calgary), MSW (Carleton)
Nancy Pike, BSW (Victoria), MSW (Dalhousie)
Gayle Poyer, BA (PEI), BSW (Windsor), MSW (Carleton)
Karen L. Potts, BA (Saskatchewan), BSW (Carleton), PhD Candidate (Victoria)
Glen Tadson, BA (Simon Fraser), MSW (British Columbia)
Betty Taylor, BSW (Calgary), MSW (Carleton)
Kathleen Towne, BSc (Antioch, Ohio), MSW (Michigan)
Walene Whitaker, BA, MSW (UBC)
Fonda Willis, BA, MA (Saskatchewan)

Administrative Staff
Cheryl Aro, BSW, MSW (Victoria), Indigenous Practicum Coordinator
Dora Leigh Bjornson, Program Director, Distance Education
Maxine Gibson, BSW, MSW (Victoria), Practicum Coordinator
Dan Kong, BA (NENU/China), MED (Victoria), Program Assistant, Distance Education
Trevor Good, BSW, MSW Candidate (Victoria), Indigenous Specialization Program Assistant
Michelle Osborne, BSW (Victoria), Admissions Coordinator
Nancy Pike, BSW (Victoria), MSW (Dalhousie), Practicum Coordinator
Wendy Seager, BA, MPA (Victoria), Academic Administrative Coordinator
Betty Taylor, BSW (Calgary), MSW (Carleton), Academic Adviser

GENERAL INFORMATION

Mission Statement
The emerging vision of the School of Social Work commits us to social justice and anti-racist, anti-oppressive social work practices, and to promoting critical enquiry that respects the diversity of knowing and being.

Our educational mission is to prepare generalist social work practitioners skilled in critical self-reflection and in working with individuals, families, groups and communities. In particular, we endeavour to prepare Indigenous social workers and child welfare practitioners and we emphasize structural, feminist, Indigenous and anti-oppressive analyses.

Our scholarly mission is to share and create collective knowledge and understanding through engaging in critical enquiry and by supporting research and innovative curriculum development at the undergraduate and graduate levels.

Our practice mission is to act on social justice issues through community change initiatives and anti-oppressive social work. Our political and social responsibility is to participate in and reflect community experiences in all our efforts to challenge oppressive societal structures.

In all our activities, we aspire to create a supportive environment that promotes equity, respect, responsibility, curiosity, collaboration, flexibility, risk taking and creativity. We support interdisciplinary collaboration. We seek to provide accessible and flexible social work education and we are committed to working across differences such as gender, age, race, ethnicity, class, ability and sexual orientation.

SOCIAL WORK PROGRAMS

Bachelor of Social Work
The School of Social Work offers a program of studies leading to the degree of Bachelor of Social Work (BSW) that is fully accredited by the Canadian Association for Social Work Education. Graduates are employed in a wide range of government and voluntary organizations such as family and children's services, residential care facilities, community centres, mental health clinics, home health care, hospitals, women's services, corrections and Indigenous social services.

Blended learning is the dominant approach to learning used at the School, which means that courses are taught through both web based delivery and face-to-face contact with students. Within this approach, students may elect to have most of their learning take place through a more traditional distance model where courses are accessed through web based delivery. Many students choose this model of delivery for the flexibility and cost effectiveness it affords them. Please note that all Distance Education students must attend a five day face-to-face component as part of SOCW 312 and that online/distance courses are available only to students residing in Canada.

Alternatively, students may elect to come to campus for a more traditional campus based approach to learning, comprised of face-to-face sessions with some web based delivery. The School works with students to facilitate completion of field placements in geographic areas of their choice, where feasible.

All students admitted to the BSW program or taking social work courses must have computer and internet access for the duration of their program of studies in order to participate in web based learning, and for program administration purposes. Students require a UVic Netlink ID with a UVic e-mail address. A high speed internet connection is highly recommended for students participating in web-mediated courses.

The School has the same expectation for participation in web based learning activities as they have for participation in face-to-face learning activities. An 80% attendance level is required for a student's "presence" in web based learning, as it is for a student's presence in face-to-face based learning.

BSW Specializations
Students may elect to choose one of the Specializations offered in the Social Work program. All students receive BSW degrees, and, for those students who complete a Specialization, the Specialization will be noted on the student's transcript only.

Indigenous Social Work Specialization
This specialization is a concentration within the BSW program and provides opportunities for Indigenous BSW students to focus their undergraduate program on preparing for leadership roles as helpers and healers in Indigenous communities and various Indigenous organizations. Students will co-create learning environments with other Indigenous students and faculty in the School.

The intent of this specialization is to provide Indigenous students an opportunity to develop helping and healing practice frameworks that centralize Indigenous knowledge, peoples, nations and communities. All courses are offered on campus and by distance education. Admission to the specialization is limited to Indigenous students of North America.

Child Welfare Specialization
This specialization is intended to prepare students for child welfare work, with an emphasis on protection work in government and other mandated child welfare settings. A non-child
protection option is available for students who do not intend to practise in mandated settings after graduation.

Indigenous (Child Welfare) Specialization
The intent of this specialization is similar to the Indigenous Specialization with an emphasis on the well-being of Indigenous children, families and communities. Admission to the specialization is limited to Indigenous students of North America.

School Admission Requirements
Application packages are available on the School of Social Work website in mid-November each year. The deadline for application submission is January 31st for both the May and September entry points. Official transcripts, UVic Undergraduate Admissions applications or Undergraduate Records re-registration forms must be received by the January 31st document deadline.

In addition to choosing either the May or September entry points, applicants must also select how they would like to complete their studies: on-campus blended learning or by distance education. Those students applying to distance education must attend a mandatory five day face-to-face component as part of SOCW 312.

Admission to the BSW program requires:
1. Completion of a minimum of the first two years (30 units) of an undergraduate program at UVic, with an overall average of at least 3.5 (on the UVic 9.0 point scale) or better, or the equivalent at another university or college community on the last 12 units of university-transfer course work at the time of application (up to and including December).
2. Within the required 30 units, completion of SOCW 200A and 200B or their equivalents. 24 units should be completed from within general education liberal arts subject areas.
3. For the May entry point only, applicants will be considered for admission with 27 units of credit in order to then complete SOCW 200A and 200B in this session.

Students are also required to meet UVic's "Academic Writing Requirement", page 31.

The number of applicants admitted will depend on the resources available to the School and the number of qualified applicants. An initial screening for admission will be based on sufficient number of units and grade point average as stated above. Provided applicants meet these criteria, they will be evaluated for admission to the School of Social Work based on grade point average, and a written submission.

Transfer Credit for Social Service Certificate or Diploma Students
Students who have completed a social services certificate or diploma program at a college may be eligible to receive discretionary credit from the School. This is normally 3 units for a completed certificate (1 year in length with at least 1 practicum), and 6 units for a completed diploma (2 or 3 years in length with at least 2 practicums). University transfer courses will be calculated separately.

School Academic Regulations
Academic Performance
Students in the School of Social Work must maintain a sessional GPA of 3.5 in both third and fourth years; otherwise they may be required to withdraw from the School. Students are required to follow the "Guidelines for Professional Conduct", page 108, and may be required to withdraw from the School for violating these provisions.

Availability of Courses to Students Outside the School
Some third- and fourth-year courses may be taken by students not admitted to the School, with the permission of the Director, if space permits. Students are required to make a written request to the BSW Admissions Coordinator to be considered for such courses. Students may be permitted to take up to 3 units of Social Work courses. Prerequisites are completion of 30 units of credit including SOCW 200A and 200B.

Practica
Students are referred to page 108 for regulations concerning practica. The School requires that students adhere to the BCASW Code of Ethics.

Students may be required to complete their practica in an agency requiring a criminal record check as part of its screening process.

All students completing a practicum in BC will be required to complete a criminal record check through the Ministry of Public Safety and Solicitor General.

Prior Learning Assessment
Students admitted to the program who have significant social work or social justice experience may be eligible for Prior Learning Assessment for the first practicum. Initial inquiries about eligibility for PLA should be directed to the Field Education Co-ordinators at the School of Social Work. The Director will make the final decision regarding eligibility.

Minor
Students registered in a degree program in the Faculty of Human and Social Development may declare a Minor program in another faculty with written permission from their school and the department offering the Minor, and the Deans of the respective faculties. The Minor will be added to the student's academic record upon completion of program requirements in Human and Social Development and the general degree requirements in the other faculty.

Program Requirements
Minimum Degree Requirements
Candidates for the BSW degree must meet the minimum degree requirements for a bachelor's degree outlined on page 40. Students should note in particular the "Academic Writing Requirement", page 31. Students entering the BSW program can transfer in up to 33 units of previous credit, of which a maximum of 6.0 units can be senior Social Work and HSD courses.

BSW degree students should have a minimum of 24 units of liberal arts/social sciences/humanities courses to fulfill program requirements.

Practicum Requirement
Students should be aware that two practicum courses are required in order to complete the course of study for a BSW.

Students in the Child Welfare Specialization should note they must contact the School of Social Work at least one term in advance of registration for their practicum placement (SOCW 404) in order to meet Ministry guidelines. Exceptions may be granted with permission from the Director.

Course Requirements: First and Second Years
SOCW 200A and 200B are required for entry into the BSW program. It is recommended that potential BSW applicants complete SOCW 200A and 200B prior to applying to the program; however, SOCW 200A and 200B are not required to be completed or in progress at the time of BSW application.

In addition to SOCW 200A and 200B, students are advised to take a variety of courses in the liberal arts, social sciences and humanities.

Course Requirements: Third and Fourth Years
A minimum of 27 units must be third- or fourth-year Social Work courses (includes HSD electives, except HSD 425).

Non-Social Work electives may include any UVic courses at any year level, including English, if required.

Prerequisites for all Social Work courses: 30 units including SOCW 200A and 200B. See the course descriptions for pre- or corequisites of Social Work courses.

* Students admitted to the School of Social Work prior to September 2009 may use SOCW 323 in lieu of SOCW 311, 312, and 413. Students who take SOCW 323 cannot receive credit for SOCW 311 and 312.
1. General elective (if required).
Faculty of Humanities

The Faculty of Humanities comprises the Departments of English, French, Germanic and Slavic Studies, Greek and Roman Studies, Hispanic and Italian Studies, Latin American Studies, History, Linguistics, Medieval Studies, Pacific and Asian Studies, Philosophy and Women’s Studies. The many disciplines in the Humanities foster knowledge of history, philosophy, language, literature, culture, society and the arts, often in international contexts. By developing students’ skills in critical enquiry, research and communication, programs in the Humanities provide excellent preparation for many careers as well as advanced academic study.

Faculty Administrative Officers:
John Archibald, BA, MA, PhD (Toronto), Dean of Humanities
Sikata Banerjee, BA (Dartmouth), MA (Drew), PhD (Wash), Associate Dean
Amelia Santos, Administrative Officer
General Information

DEGREES AND PROGRAMS OFFERED
The Faculty of Humanities offers programs of varying levels of specialization leading to the degree of Bachelor of Arts (BA).

The faculty also offers programs leading to the degree of Bachelor of Science (BSc) through the Department of Linguistics.

- The Honours Program involves a high level of specialization in one discipline, and requires from 18 to 24 units of credit in that discipline at the 300 or 400 level.
- The Major Program requires 15 units at the 300 or 400 level.
- The General Program requires 9 units of 300 or 400 level credits in each of two disciplines.

The faculty also offers Double Honours, the Joint Honours and Major program, and the Double Major program.

A student may also combine a program offered in the Faculty of Humanities with a program offered in another faculty. See “Interfaculty Program”, page 135.

ACADEMIC ADVICE AND PROGRAM PLANNING
Advice about the Faculty of Humanities is available through the Academic Advising Centre, A203, University Centre.

Interim Director
Susan Corner

Administrative Officer
Kelly Colby, BA (Whitman), MSc (Ithaca)

Advising Officers
Gillian M. Chamberlin, BA (UVic)
Denise J. Chan
Beth Christopher, BA (UVic)
Kelly Colby, BA (Whitman), MSc (Ithaca), acting Joyce Gutensohn, BA (Hons), MA (UVic)
Lori S. Olson, BSc, MPA (UVic)
Patricia Perkins, BSc (UVic), on leave

Advising Assistants
Lara Hannaford
Eleanor Lagrosa
Judy Macquarrie

In addition, each department has one or more advisers who can provide information about courses and programs in that department.

Students who require advice during the summer months should contact the department concerned for an appointment with an adviser.

Students who may eventually go on to graduate studies should consult faculty members in their department before deciding whether to pursue an Honours or Major program.

Students who plan to enter the Faculty of Education from the Faculty of Humanities should seek advice from the Education Advising Centre.

AVAILABILITY OF COURSES TO STUDENTS IN OTHER FACULTIES
Students in other faculties may register in any section of any course offered in the Faculty of Humanities, so long as prerequisites have been met. Individual departments may limit enrolment in required courses to those taking Honours or Major Programs, or to students who require them to complete their programs.

LIMITATION OF ENROLMENT
Admission to UVic and the Faculty of Humanities is not a guarantee of placement in particular programs or courses. Departments may limit enrolment for a variety of reasons, and admission requirements may be raised.

Academic Regulations

ADMISSION TO THE FACULTY
The requirements for admission to the Faculty of Humanities are presented on page 24.

CREDIT FOR COURSES OFFERED BY OTHER FACULTIES OR INSTITUTIONS
Courses Offered by Other UVic Faculties
All courses in other faculties are acceptable for elective credit in the Faculty of Humanities, if the regulations of the department offering the courses permit and prerequisites are met.

Substitution of Elective Credit for Required Courses
With the consent of the department offering the student’s degree and with the permission of the Associate Dean of Academic Advising, students may substitute up to 3 units of 300 or 400 level elective credit for required courses at the 300 or 400 level in Faculty of Humanities degree programs.

Students should review individual department entries for information on the use or substitution of elective credit.

Courses in Other Institutions
A student who has been admitted to the faculty may not take courses at another institution without the prior written approval, in the form of a Letter of Permission, of the Associate Dean of Academic Advising. To be eligible for a Letter of Permission, a student must have completed or be registered in no fewer than 6.0 units at the University of Victoria.

Students are solely responsible for checking the University of Victoria credit for courses to be earned.

1. Offered jointly with the Faculty of Human and Social Development.
2. Offered jointly with the Faculty of Fine Arts.
3. Offered jointly with the Faculties of Fine Arts and Social Sciences.
4. Offered jointly with the Faculty of Social Sciences.
5. Offered jointly with the Faculties of Human and Social Development and Social Sciences.
6. Offered jointly with the Faculties of Fine Arts and Social Sciences, and the Division of Continuing Studies.
7. Offered jointly with the Division of Continuing Studies.
8. Offered jointly with the Faculties of Education and the Division of Continuing Studies.
taken elsewhere, prior to registration, to make sure that there will be no duplication of course credit already received (see also “Duplicate and Mutually Exclusive Courses”, page 32).

Students are responsible for ensuring that the transcripts for all course work undertaken at other institutions are sent to Undergraduate Records at UVic.

Candidates for a bachelor's degree must normally complete at UVic a minimum of 30 units at the 100 level or above, including at least 18 of the minimum 21 upper-level units required for all degree programs. Students may take at another institution:

- no more than 6 of the 18 to 24 upper-level units required for the Honours Program
- no more than 3 of the 15 upper-level units required for the Major Program
- no more than 3 of the 9 upper-level units required in each area of the General program
- no more than 3 of the 9 upper-level units required for a Minor

**LIMIT ON THE NUMBER OF DEGREES AWARDED**

A student proceeding towards a BA or BSc degree in a Double Honours, Joint Honours and Major, Double Major, Combined Major, Interfaculty or General Program may receive no more than one degree upon completion of any of these programs. Students seeking a second bachelor's degree should refer to “Second Bachelor's Degrees”, page 40.

**GRADUATION**

Once a degree, diploma or certificate has been awarded by the University Senate, no change can be made to the programs that constitute that credential (see “Application for Graduation”, page 39).

**DECLARING A PROGRAM**

All students continuing in the faculty must declare a program by filling a Record of Degree Program (RDP) with the Academic Advising Centre prior to graduation. If a degree program has been chosen and program entry requirements satisfied, students may file an RDP once they have attained second-year standing (credit for at least 12 units of course work) and should do so once they have attained third-year standing (credit for at least 27 units of course work). The purpose of this RDP is to ensure that proposed courses will meet the requirements of the selected program. Any subsequent change to a declared program also must be filed with the Academic Advising Centre.

Students who have not satisfied the “Academic Writing Requirement”, page 31, must do so before they declare their program.

The RDP is approved in writing by the Academic Advising Centre and, in the case of students who wish to pursue an Honours Program, by the department(s) concerned. Students who satisfactorily complete the program of courses set out in the RDP with the required grades are normally recommended for the degree.

Students who do not have an RDP approved, or who follow a program different from that set out in the approved RDP, may not be eligible to graduate.

Note: Students should be aware that limitations may apply to proposed combinations of the following: concurrent degree programs, degree/ diploma combinations and degree/minor options.

**GUIDELINES FOR ETHICAL CONDUCT**

The Faculty of Humanities expects students to adhere to a code of ethical conduct. The faculty supports models of ethical conduct based on the following guidelines:

- exercise of personal discipline, accountability and judgement
- acceptance of personal responsibility for continued competency and learning
- the duty to recognize the dignity and worth of all persons in any level of society
- the duty to recognize one's own limitations
- maintenance of confidentiality of information appropriate to the purposes and trust given when that information was acquired

**REGULATIONS CONCERNING PRACTICA**

**General**

The faculty reserves the right to approve any institution that provides placements for student practica, and to change any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any change in placement.

**Attendance**

Attendance at practicum activities is required. Students are expected to notify the host institution whenever practicum appointments cannot be kept, and also to inform the course instructor.

**Denial and Withdrawal**

**Practicum Denial**

Teachers or administrators who refuse a student's continued participation in a practicum for misconduct or repeated absences, or where the educational progress of the institution's students is in jeopardy, must immediately discuss the matter with the Chair of the department. The Chair will then either inform the student of the conditions under which he or she may resume participation in the practicum or require the student to withdraw from the practicum and inform the student in writing of the reasons. Students will be denied the practicum experience if their preparatory work is considered unsatisfactory by their instructors and by the Chair of the department in the Faculty of Humanities.

**Temporary Withdrawal of Students Pending Report**

The Chair may require a student to withdraw temporarily from a practicum if, during the course of a term, there are reasonable grounds to believe that the conduct or lack of competence of a student enrolled in the practicum has adversely affected or may adversely affect:

- students or clients, or
- personnel, including students associated with the practicum.

The student will be required to withdraw temporarily pending the receipt of a report on the conduct and lack of competence of the student.

**Required Withdrawal**

After giving the student an opportunity to be heard, the Chair may require a student to withdraw from the practicum if the Chair is satisfied that the student's conduct or lack of competence may adversely affect members of any of the groups identified in the paragraph above.

**Voluntary Withdrawal**

Students seeking voluntary withdrawal from a practicum, whether permanent or temporary, must receive permission to do so from their faculty supervisor in the department.

**Notification of Records Services**

Students who withdraw temporarily from a practicum will be withdrawn from any course involved by written notification from the Chair to Records Services.

**Appeals**

The normal avenues of final appeal, page 40, are available to students who have been required to withdraw from a practicum, at every stage of the process. Students in the Faculty of Humanities may follow regular appeal procedures within the faculty.

**Faculty Program Requirements**

**Requirements Common to All Bachelor's Degrees**

Each candidate for a bachelor's degree must complete:

1. the “Academic Writing Requirement”, page 31;
2. at least 1.5 units from each of three areas of study in the following list:
   - Applied Linguistics
   - Arts of Canada
   - Canadian Studies
   - Chinese Studies
   - English
   - European Studies
   - French
   - Germanic Studies
   - Greek and Latin Language and Literature
   - Greek and Roman Studies
   - Hispanic Studies
   - History
   - Indigenous Studies
   - Italian Studies
   - Japanese Studies
   - Latin American Studies
   - Linguistics
   - Mathematics
   - Medieval Studies
   - Mediterranean Studies
   - Pacific and Asian Studies
   - Philosophy
   - Religious Studies
   - Russian
   - Social Justice Studies
   - Southeast Asian Studies
   - Statistics
2. at least 6 units from areas of study outside the Faculty of Humanities;
4. at least 21 units of courses numbered at the 300 or 400 level, at least 18 of which must be taken at UVic;
5. a minimum of 60 units of courses, at least 30 of which must normally be completed at UVic.

Students must also attain a graduating grade point average of at least 2.0 (see page 40, Standing at Graduation/Graduating Average, for details).

1. See "BA in Mathematics or Statistics", page 135.

Honours Program

The Honours Program requires specialization in one or more disciplines in the last two or three years of a degree program and is intended for students of higher academic achievement. Students who plan to undertake graduate studies are strongly advised to follow an Honours Program.

Admission to an Honours Program

Admission to an Honours Program is restricted to students who have satisfied the prerequisites and met the minimum GPAs specified by the department(s) concerned, and who are judged by the department(s) to have the ability to complete the Honours Program. A student who wishes to be considered for admission to an Honours Program should apply to the Chair or Honours Adviser of the department (approval from both departments is required for admission to Combined Honours programs).

Requirements of the Honours Program

A student in an Honours Program must satisfy the requirements common to all bachelor’s degrees in the Faculty of Humanities, listed above. Each department has its own requirements for its Honours Programs, which are specified in individual department entries elsewhere in the Calendar. Of the 300- and 400-level course units specified by the department concerned, not more than 6 may be taken at another acceptable post-secondary institution, and then only with the prior approval of the department’s Honours Adviser.

Continuation in an Honours Program requires satisfactory performance as dictated by the department. If, in the opinion of the department, a student’s work at any time is not ofHonours standard, the student may be required to transfer to a Major or General program.

Normally, a student should complete the requirements for an Honours Program in four academic years (five years for those students enrolled in the Co-operative Education Program), Students who are undertaking a degree on a part-time basis, and who wish to be considered for admission to an Honours Program, must wish to be considered for admission to an Honours Program, must

History
Latin American Studies (Language and Literature or multi-disciplinary)
Linguistics (BA and BSc)
Mathematics
Medieval Studies
Pacific and Asian Studies
Philosophy
Statistics
Women's Studies

Combined Honours Programs

Combined English Honours and Medieval Studies Minor

Double Honours Program

With the joint approval of the departments concerned, a student may be permitted to meet the requirements for an Honours Program in each of two departments in the Faculty of Humanities.

The degree received will be a BA, unless one of the two programs followed leads to a BSc in Linguistics, in which case the student will have the option of receiving a BA or a BSc degree, depending on which of the two programs is listed first.

Interfaculty Double Honours Program

If a student elects to complete an Honours Program in the Faculty of Humanities and a second Honours Program in another faculty, with one program leading to a BA and the other leading to a BSc, the program leading to the degree selected (BA or BSc) must be listed first on the student’s Curriculum Advising and Program Planning (CAPP) form. If the second department listed offers both a BA Honours Program and a BSc Honours Program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

Students completing an Interfaculty program will be subject to the regulations of the faculty in which they are registered.

Joint Honours and Major Program

A student may elect to complete an Honours Program in one area of study together with a Major Program in another area of study, both within the Faculty of Humanities. The Honours Program will be listed first on the student’s Curriculum Advising and Program Planning (CAPP) form.

The degree received will be a BA, unless the Honours Program followed leads to a BSc in Linguistics, in which case the degree will be a BSc.

Interfaculty Joint Honours and Major Program

A student may elect to complete an Honours Program in one faculty together with a Major Program in another faculty. The Honours Program will be listed first on the student’s Curriculum Advising and Program Planning (CAPP) form, and students will be subject to the regulations of the faculty in which they are registered.

If one of the two departments concerned offers a BA Program while the other offers a BSc Program, the student will receive either a BA or a BSc, depending on which is specified by the Honours Program. If the department offering the Major Program offers both a BA and a BSc program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

Major Program

The Major Program requires specialization in one discipline in the last two years of a degree program and may permit a student to proceed to graduate study if sufficiently high standing is obtained. The Major Program generally is also a good preparation for a professional or business career.

Requirements of the Major Program

A student in a Major Program must satisfy the requirements common to all bachelor’s degrees in the Faculty of Humanities, listed above.

Each department has its own requirements for its Major Programs, which include the specification of 15 units, and not more than 15 units, of 300- and 400-level course work. At least 12 of these 15 units must be completed at UVic. A department may also specify and require up to 9 units of courses offered by other departments at the 300 or 400 level.

Major Programs

Applied Linguistics
English
French
Germanic Studies
Greek and Latin Language and Literature
Greek and Roman Studies
Hispanic Studies
History
Italian Studies
Latin American Studies (Language and Literature or multi-disciplinary)
Linguistics (BA and BSc)
Mathematics
Medieval Studies
Mediterranean Studies
Pacific and Asian Studies
Philosophy
Religious Studies
Russian
Statistics
Women's Studies

Combined Major Programs

Combined Major in English and French (Canadian Literature)
Combined Major in Hispanic and Italian Studies

Double Major Program

A student may complete the requirements for a Major Program in each of two disciplines in the Faculty of Humanities.

The degree received will be a BA, unless one of the two programs followed leads to a BSc in Linguistics, in which case the student will have the option of receiving a BA or a BSc degree, depending on which of the two programs is listed first.

Combined Major with a Major Program

A student can complete one of the Combined Major Programs listed above with another Major Program (in this faculty or in another faculty), but the discipline of the Major Program must not be either of the disciplines of the Combined Major Program.
Interfaculty Program

A student may elect to complete an Interfaculty Double Major or a Joint Honours and Major Program. In a Double Major Program, if one of the two departments concerned offers both a BA Major Program and a BSc Major Program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

In a Joint Honours and Major Program, the Honours Program will be listed first on the student’s Curriculum Advising and Program Planning (CAPP) form, and students will be subject to the regulations of the faculty in which they are registered. If one of the two departments concerned offers a BA Program while the other offers a BSc Program, the student will receive either a BA or a BSc depending on which is specified by the Honours Program. If the department offering the Major Program offers both a BA and a BSc program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

BA or BSc Major in Environmental Studies

A Major Program in Environmental Studies can only be taken as the second component of a Double Major or Joint Honours and Major Program.

BA in Mathematics or Statistics

Students who wish to obtain a BA in Mathematics or Statistics should register in either the Faculty of Humanities or the Faculty of Social Sciences, and complete the requirements common to all bachelor's degrees in that faculty.

General Program

The General Program provides students with the opportunity to study broadly in two disciplines in the last two years of a degree program. It is not intended to prepare students for graduate study, although some graduate schools may accept graduates of a General Program if they have achieved sufficiently high standing.

Requirements of the General Program

A student in a General Program must satisfy the requirements common to all bachelor's degrees in the designated faculty determined by the first subject area listed on the Curriculum Advising and Program Planning (CAPP) form.

The General Program requires:

- Completion of 9 units of course work at the 300 and 400 level in each of the two disciplines, as specified in the General Program requirements of the departments concerned.
- At least 6 of the 9 units in each discipline must be completed at UVic. A student may complete a General Program in any two of the following or by completing one of the following and one of the Generals offered in another faculty. The degree awarded will be a BA.

- Chinese Studies
- English
- French
- Germanic Studies
- Greek and Roman Studies
- Hispanic Studies
- History
- Italian Studies

Japanese Studies
Latin American Studies
Linguistics
Medieval Studies
Mediterranean Studies
Pacific and Asian Studies
Philosophy
Religious Studies
Russian
Southeast Asian Studies
Women's Studies

A student may also complete a General Program that combines one of the above disciplines/areas of study with one of the following. The degree awarded will be a BA.

Arts of Canada Program (see page 221)
European Studies (see page 222)
Film Studies Program (see page 221)
Indigenous Studies Program (see page 222)
Minor in Music (see page 100)
Minor in Professional Writing in Journalism and Publishing (see page 105)
Social Justice Studies (see page 223)

Minor Program

A Minor is an optional program that allows students to study in an area outside their Honours, Major or General Program areas. Requirements vary and are specified in the Minor requirements of the department concerned. Where not specified, the requirements for a Minor follow the requirements for the department General Program in one area only.

- No more than 3 units of the 300- and 400-level course work required for the Minor can be taken elsewhere, and at least 6 of the units required for the Minor must be completed at UVic.
- If the Minor requires 9 units of 300- and 400-level course work, these 9 units cannot form part of the 300- and 400-level department requirements for a student's Honours or Major Program. Corequisite courses in other programs may be counted toward the Minor.
- If the Minor requires less than 9 units of 300- and 400-level course work, no courses at the 300 or 400 level can form part of the requirements for a student's Honours, Major or General Program or Option. Required or corequisite courses at the 200 level or higher in other programs or options may not be counted toward the Minor.

Only one Minor can be declared on a student's program.

In addition to department Minors, the following Minors are offered:

Interdisciplinary Minors

Applied Ethics (see page 223)
Arts of Canada Program (see page 221)
European Studies (see page 222)
Film Studies Program (see page 221)
Human Dimensions of Climate Change (see page 224)
Indigenous Studies Program (see page 222)
Social Justice Studies (see page 223)
Technology and Society (see page 224)

Student-Designed Minor

Students may undertake an interdisciplinary Minor that is not listed in the Calendar. In addition to the requirements of the Minors listed above, this student-designed Minor must:

- include courses from at least two departments, with a minimum of 3 units from each department
- consist of courses taken only at UVic
- have structure, coherence and theme; it cannot consist of unrelated courses
- be approved by the Chair/Adviser of the departments concerned
- be approved by the Associate Dean of Academic Advising
- be declared by the end of the student's third year

Students must discuss their proposed Student-Designed Minor with department Chairs/Advisers before submitting their request to the Associate Dean of Academic Advising. The Student-Designed Interdisciplinary Minor form is available from the Academic Advising Centre, A205, University Centre.

Humanities, Fine Arts and Professional Writing Co-operative Education Program

Jen Kyffin, BA (UVic), MEd (UVic), Co-operative Education Coordinator

The Humanities, Fine Arts and Professional Writing Co-operative Education Program is a year-round program which, through work terms of employment in a variety of organizations, enables students to combine work experience with an education in the Fine Arts and/or Humanities.

Applications and further information about the Humanities, Fine Arts and Professional Writing Co-operative Education Program are available from the Co-op Coordinator, Room D128, Clearihue building or <www.uvic.ca/hfpwcoop>.

Program Requirements

Any student registered in a BA, BFA, BSc, BMus, MA, MFA or PhD degree in the Faculty of Fine Arts or the Faculty of Humanities or registered in the Cultural Resource Management Program, the Intercultural Education and Training Program, the English Minor in Professional Writing, the Minor in Professional Writing in Journalism and Publishing, or the Diploma Program in Intercultural Education and Training will be admitted to the Humanities, Fine Arts and Professional Writing Co-operative Education Program.

Prior to seeking their first co-op work term, students must:

1. be registered in a full course load (at least 6 units of course work per term)
2. have achieved at least a 5.0 GPA in a full course load in the previous term
3. complete satisfactorily the Work Term Preparation Seminars
4. submit an acceptable résumé and cover letter stating their co-op goals

To continue in the program, a student must:

1. be enrolled full time in a program leading to a BA, BFA, BSc, BMus, MA, MFA or PhD degree in a discipline offered in the Faculty of Humanities or the Faculty of Fine Arts or a

ENGLISH PROGRAMS
The Department of English offers Honours, Major and General programs leading to the degree of Bachelor of Arts. The department also offers a Combined Major in English and French (Canadian Literature) and a Minor in Professional Writing.

Additional detailed information on programs and courses is published annually in the department’s Programs and Upper-level Course Guide, available from the department, and at the department’s website.

Co-operative Education Programs
Please, see page 139.

ACADEMIC REGULATIONS
Admission to English Courses
All students registering for an English course must satisfy the “Academic Writing Requirement”, page 31. Courses that satisfy the AWR are ENGL 135, 146, 147, and ENGR 110. The department also offers two preparatory courses for students who need to gain proficiency in written English before attempting a course that meets the AWR: ENGL 099, a non-credit course, and
ENGL 101, a credit course. Neither of these courses meets the Academic Writing Requirement.

Students who wish to take ENGL courses at the 200 level or higher require at least 3 units of credit in English from the following courses: ENGL 101, 135, 146, 147, ENGR 110, or equivalent transfer credit.

**Advanced Placement**

Students taking Advanced Placement examinations should speak to the Literature Program Adviser about placement in 200-level courses by the beginning of the registration period for the Winter Session.

**Course Challenge**

The English department does not permit students to gain credit by course challenge; students may, however, apply to the appropriate Adviser (Literature or Honours) for a waiver of prerequisites in special cases.

**Requests for Special Admission**

Requests for special admission to courses must be in writing to the appropriate Adviser (Writing, Literature, Honours). Please allow a minimum of five working days for processing.

**Program Requirements**

Students considering a degree program in English are invited to see the department secretaries, who will arrange consultation with departmental advisers about their choice of courses. Every student should own a good dictionary; e.g., The Concise Oxford Dictionary, The American College Dictionary, Webster's Collegiate Dictionary, The Random House Dictionary of the English Language (College Edition).

**Course Prerequisites**

The prerequisite for all English courses numbered 200 and above is 3 units of English. This prerequisite is normally satisfied by two of: ENGL 101, 115, 135, 146, 147; or by 3 units of appropriate transfer credit in English. However, with permission of the department, some students may take 200-level courses in their first year. Second-year students may take courses numbered 300 and above, but will be required to meet the normal standards of senior courses.

**Course Exclusions**

Courses in Professional Writing may not be counted toward upper-level requirements in Honours, Major, General or Minor Literature Programs in English.

**Suggested Electives**

The department encourages its students to take elective courses that support their General, Major or Honours Program. In making their choice of electives, students may wish to give special consideration to relevant courses in:

- Anthropology (e.g., ANTH 200)
- Courses in the literature of other languages
- Greek and Roman Studies (e.g., GRS 100, 200)
- History (e.g., HIST 120, 130)
- History in Art (e.g., HA 120, 221)
- Linguistics
- Music (e.g., MUS 120A, 120B)
- Philosophy (e.g., PHIL 100, 238)
- Political Science
- Psychology
- Sociology
- Theatre (e.g., THEA 100)
- Writing

**Directed Reading Courses**

ENGL 490 and 491 (Directed Reading) are tutorials intended primarily for students in the Honours Program, and must be approved by the Honours Adviser and the Chair of the department.

**Variable Content Courses**

The English department offers a number of variable content courses, with topics advertised annually (ENGL 353, 360, 362, 372, 385, 388, 391, 392, 393, 394, 395, 400, 404, 406, 413, 415, 425, 426, 438, 439B, 448, 449, 462, 463, 470, 471, 473). Where content differs, such courses may be taken more than once for credit, to a maximum of 3 units.

**Preparation for Graduate School**

Major and Honours students planning graduate study are reminded that graduate schools generally require competence in at least one other language than English, and some schools require credits in Old English and/or History of the Language.

**Honours Program**

The Honours Program allows students of proven ability to study English language and literature more intensively than is possible in the Major or General Programs. While enjoying a comprehensive course structure, Honours students also participate in special seminars and receive the guidance of individual faculty members in connection with ENGL 490 and 499. Students who take a special interest in English language or literature, or who are contemplating graduate work in English, are strongly advised to enrol in Honours rather than in the General or Major Program.

An Honours degree requires a graduating GPA of at least 3.5 with at least B- in ENGL 499.

**Program Approval**

The programs of Honours students are subject to the approval of the Honours Program Adviser, and the choice of electives is subject to modification in light of the student's entire program. Special counselling for students entering the Honours Program, as well as for those already enrolled in it, is available from the Adviser, who should be consulted as early as possible.

**Second Language Requirement**

English Honours students must demonstrate a basic knowledge of a language other than English (normally Greek, Latin, French, German, Italian, Spanish or Russian; a student may petition, however, to substitute another language). Students will normally fulfill the requirement by successfully completing any 6 units of credit in a language course (or the equivalent) or by successfully completing 3.0 units of FRAN courses numbered 160 or higher, or one of GER 149, 390, ITAL 300, PORT 300.

In certain instances students already fluent in a language may request a translation examination, which will be arranged by the Honours Program Adviser.

---

**Honours Program Course Sequence**

Normally, Honours students will follow this pattern:

**First Year**

ENGL 146 and 147.

**Second Year**

ENGL 200A, 200B; ENGL 310; plus some electives (e.g., Greek and Roman Studies, History, Philosophy) and/or upper-level English courses, with reference to the course structure below.

Students may take ENGL 310 in their third year, but this option tends to limit their choice of electives in third and fourth years. For the same reason, it is to a student's advantage to begin work on the second language requirement by the beginning of the second year.

**Third and Fourth Years**

For admission to Third Year, Honours students are required to maintain an average of at least B+ in their English courses. The approval of the department is also required. Honours students must present at least 24 units of English courses numbered 300 and above, to be distributed according to the following course structure:

- ENGL 310 (Practical Criticism, 3.0 units) (if not already completed)
- ENGL 467 and either 468 or 469 (1.5 units each)
- ENGL 499 (Fourth-year Honours course, 1.5 units)
- ENGL 344A or 344B (1.5 units)
- 1.5 units from ENGL 360, 366B, 366C, 366D, 366E
- at least 1.5 units from the period 1660-1800: ENGL 372, 373, 374, 375, 376A, 376B
- at least 1.5 units of American or British literature from the period 1800-1900: ENGL 379, 380, 381, 382, 383, 385, 386, 387, 427, 428A, 428B, 474
- at least 1.5 units of Canadian literature: ENGL 448, 450, 451, 452, 453, 455, 456, 457, 458, 459
- electives to make up 24 units of senior English courses

At the end of the fourth year, there will be an interview at which students will defend their project undertaken for ENGL 499.

**Combined English Honours and Medieval Studies Minor**

Students in the Medieval Studies Program who are also enrolled in the English Honours Program may earn a Combined English Honours
and Medieval Studies Minor degree. To do so they must complete:
• Three units of MEDI 301, 302, 303, or 304
• MEDI 401 or 402 or 451 or 452
• 1.5 units selected from the courses (apart from English courses) in the list of eligible courses for the Medieval Studies Program (see page 149).
• 1.5 units of electives from the following list: ENGL 337, 338, 339, 340, 341, 342, 343, 344B, 348, 350, 353

English Honours (Professional Writing Option)
This program is designed for students completing an English Honours program and who wish to combine their study of literature with courses that teach the writing skills valuable in the high-technology workplace, including the ability to use new media to solve the problems of professional communication.

Students who wish formally to declare this program must submit a Record of Degree Program form to the Advising Centre after the minimum grades in the 4.5 units of first- and second-year English courses have been obtained.

The following requirements are in addition to those of the Honours Program Course Sequence, above.

First Year
• 3 units chosen from ENGL 101, 115, 135, 146, 147, with a minimum grade of B in each

Second Year
• 1.5 units chosen from ENGL 215, 225, ECON 225, ENGR 240, with a minimum grade of B

Third and Fourth Years
• ENGL 303
• 4.5 units chosen from ENGL 301, 302, 304, 305, 401, 406, 407, 408, 412, 416, 492

NOTE: Students who have credit for courses in English not included in the current Calendar should see the Literature or Professional Writing Adviser for information.

Major Program
The department strongly recommends that students undertaking a Major in English have a reading knowledge of a second language or take courses in literature in translation of another culture.

Students who have credit for English courses no longer included in the Calendar should see the Literature Program Adviser for advice in following the course structure.

First Year
English majors are required to take 3 units from ENGL 101, 115, 135, 146, 147.

Second Year
English majors require at least 3 units from the following courses:
ENGL 200A
ENGL 200B
ENGL 200C
ENGL 201
ENGL 202
ENGL 203
ENGL 207
ENGL 208
ENGL 209

The department suggests 4.5 units from this list for breadth of coverage.

Students planning a Major in English are strongly advised to take ENGL 200A and 200B, as well as 209.

Third and Fourth Years
Majors are required to take a total of 15 units of English (excluding Professional Writing courses) at the senior level:
1. 7.5 units chosen from the following Course Structure:
   • At least 3 units from literature 1660-1900: ENGL 372, 373, 374, 375, 376A, 376B, 379, 380, 381, 382, 383, 385, 386, 387, 427, 428A, 428B, 459, 474
   • 7.5 additional units of courses numbered 300 and above

At least 12 of these 15 units must be completed at the University of Victoria.

Combined Major in English and French (Canadian Literature)
The Combined Major in English and French (Canadian Literature) is not a Double Major in English and French, but a single BA degree program composed of selected courses from each department. The term “Canadian Literature” will be formally recognized on the transcript. Students should consult either department about their choice of courses.

First and Second Years
Two of ENGL 101, 115, 135, 146, 147 …………….. 3.0
Two of ENGL 200A, 200B, 201, 202, 203 ……….. 3.0
FRAN 280 and 290 …………….. 3.0
FRAN 275 with a minimum grade of C+ or equivalent language skill …………….. 1.5
HIST 130, or HIST 131 and 132 (may be taken in a later year) …………….. 3.0

Third and Fourth Years
FRAN 3751 or one of FREN 302, 302A, 302B, 302C3 …………….. 1.5
1.5 units of FRAN courses numbered 325 to 340 …………….. 1.5
3.0 units of FRAN courses numbered 420 to 4702 …………….. 1.5
Courses selected as specified under the English Major Program Course Structure …………….. 7.5
FRAN 417 (ENGL 458) …………….. 1.5
10.5 units of Canadian Literature courses (a minimum of 4.5 units must be taken in each department):
ENGL 448, 450, 451, 452, 453, 455, 456, 457, 459, 476; FRAN 410, 419 4 ……….. 10.5
1. Students with a DEC from a francophone CEGEP a baccaulaureat from France, or equivalent may substitute 1.5 units of courses numbered 390 or above for FRAN 375.

2. For students with 3 units of FREN 302, 302A, 302B, 302C, only 6 units numbered 325 and above are required.
3. Students with credit for FREN courses numbered 400 and above should consult the department in order to apply them to this requirement.
4. FRAN 325, 335, 340 or 470 may also be counted as Canadian Literature courses with permission of the department if the topic is appropriate.
5. For students with 3 units of FREN 302, 302A, 302B, 302C, only 1.5 units numbered 325 and above are required.

General and Minor Programs
Students wishing to take English as one of the fields of concentration in their General program or as a Minor must take:
• 3 units chosen from ENGL 101, 115, 135, 146, 147;
• at least 3 units chosen from ENGL 200A, 200B, 201, 202, 203, 207, 208, 209;
• 9 units of English numbered 300 and above (excluding Professional Writing courses).

Minor in Professional Writing
The Department of English offers a Minor in Professional Writing. The goal of the program is to provide students from all disciplines with the high level of skills required to succeed as professional writers and Web professionals in the high-technology sectors of science, business, industry, government and the professions. The emphasis in the program is on using new media to solve problems of professional communication. Graduates of the program will be able to produce documents in both printed and Web-based form, using the latest and most appropriate new media technologies. The program is open only to students who concurrently pursue a Major or Honours degree.

More information about the Professional Writing Minor is available at <web.uvic.ca/pweng>. Application to the Program
Admission to the program will normally be after the student’s second year of study; students who plan to apply should take the appropriate prerequisites. Students applying for the Minor must have:
• an average grade of B or better in the prerequisite writing courses (see below) and a B average overall, or
• permission of the Director of Professional Writing

Prerequisite Courses
Before declaring the Professional Writing Minor, students must take 3 units from the following courses, with a grade of B or better in each course: ENGL 101, 115, 135, 146, 147, 181, 182, 215, 225; ECON 225; ENGR 240.

Program Requirements
Students must complete ENGL 303: Copy Editing for Professional Writers (1.5 units) and an additional 7.5 units of courses from those listed below for a Minor in Professional Writing.

ENGL 301 Report Writing
ENGL 302 Writing for Government
ENGL 304 Writing Popular Science
ENGL 305 Visual Rhetoric for Professional Writers
ENGL 401 Web Design
ENGL 406  Special Topics in Professional Writing
ENGL 407  Computer-mediated Communication
ENGL 408  Electronic Documentation
ENGL 412  Research for Professional Writers
ENGL 416  Electronic Expression
ENGL 492  Directed Reading: Advanced Topics in Professional Writing

Humanities, Fine Arts and Professional Writing Co-operative Education Program

Students accepted into the Professional Writing Minor Program may apply to enter the Humanities, Fine Arts and Professional Writing Co-op Program.

The Humanities, Fine Arts and Professional Writing Co-op Program offers paid employment to students who are working towards careers as professional writers in high-technology sectors. The Co-op is open to students admitted to the Minor in Professional Writing.

General regulations pertaining to Co-operative Education Programs of the University of Victoria are found on page 46. For information on the Humanities, Fine Arts and Professional Writing Co-op, please see the Faculty of Humanities entry, on page 135.

Department of French

Catherine Caws, BA, MA (Nantes), PhD (BritCol), Associate Professor and Chair
Claire Carlin, BA (San Diego St), MA, PhD (Calif-Santa Barb), Professor and Graduate Adviser
Yvonne Hsieh, BA (BritCol), MA, PhD (Stan), Professor
Marc Lapprand, BA, MA (Besançon), PhD (Tor), Professor
Sada Niang, MA (Tor), PhD (York), Professor
Hélène Cazes, ENS (Paris), MA-DEA (Paris, Sorbonne), PhD (Paris X), Post-Doc (Mont), Associate Professor
Marie Vautier, BA (Ott), MA (Laval), PhD (Tor), Associate Professor
Emile Fromet de Rosnay, BA (York), MA, PhD (Queen's), Assistant Professor
Emmanuel Hérique, MA, D de IIIe cycle (Nancy), Assistant Professor
Catherine Léger, MA, PhD (UQAM), Assistant Professor
Annye Castonguay, BA, MA (UVic), Sessional Lecturer
Danielle Shepherd, BA (Poitiers), MA, PhD (Sherbrooke), Sessional Lecturer
Christine Wadge, BA (Warwick), Sessional Lecturer

French Programs

The Department of French offers Honours, Major and General and Minor programs leading to the degree of Bachelor of Arts. The department also offers a Combined Major in English and French (Canadian Literature).

Students interested in pursuing a program in French should consult with a departmental adviser as early as possible (see the department’s website).

Co-operative Education Programs

Please, see page 135.

Academic Regulations

Entry Levels

Students must consult the department website for information about placement, and contact the department for further information and testing, if necessary.

Language Course Exclusion

Once the language skills program requirement has been satisfied, no student may receive credit for courses numbered FRAN 100 to 275 (220 excluded) except with permission of the department.

Course Challenge

The department does not offer course challenges.

Francophone Students

A francophone is defined for the purposes of these regulations as a person who has spoken French since childhood and who has received sufficient secondary instruction in French to be literate in French.

Francophone students may not obtain credit for FRAN 100, 120, 160, 180, 300 or 350. They should consult the department about placement.

Limitation on First-Year Credit (Including Transfer Credit)

The department places the following limitations on first-year credit:

- 12 units for students with no knowledge of French
- 10.5 units for students with less than French 12
- 7.5 units for students with French 12
- 4.5 units for students with Français 12

Transfer Credit

Students are encouraged to study at Francophone universities; the department recognizes a broad variety of courses in language, literature, cultural studies and French linguistics for transfer credit. The faculty regulation for the Major Program that at least 12 of the 15 units numbered 300 or 400 are required to be taken at UVic may be lowered to 9 units for students who complete at least 12 units at a Francophone university, or to 10.5 units for students who complete at least 7.5 units at a Francophone university, and who in each case have completed 3 units of 200-level courses at UVic.

Students must obtain a Letter of Permission (see page 29) before undertaking studies at a Francophone university or elsewhere. To ensure that the correct transfer credit is granted for courses taken elsewhere, students also MUST consult with the department’s transfer credit adviser (see the department’s website) BEFORE applying for a Letter of Permission.

Program Requirements

Language Skills

Access to courses numbered 350 and above and offered in French is restricted to students who have C+ or higher in 275, or equivalent skill in the French language.

Literature Requirement

One of the following qualifications or the equivalent is required for all programs in French, and is also the prerequisite for FRAN 390 and all 400-level literature courses:

- completion of FRAN 280 and 290, or two of FRANC 286, 287, 288;
- DEC from a francophone CEGEP;
- French baccalauréat or equivalent.

Experience Requirement for Honours and Major Programs

One of the following is required for all Honours and Major programs in French:

- a minimum of 1.5 transferrable units from a francophone university obtained through a UVic International Exchange program;
- a minimum of 1.5 transferrable units from a francophone university obtained through a Letter of Permission;
- a minimum of one Co-op work term in a francophone environment through the Humanities Co-operative Education Program;
- completion of FRAN 250 or 360.

Students for whom this requirement would be an undue hardship may apply to the department for a waiver.

Honours Program

First and Second Years

See Program Requirements, above.

3 units of a language other than English or French (Latin recommended); may be taken in a later year.

All FRAN courses must be completed with a minimum GPA of 6.0 before admission to the Honours Program.

Third and Fourth Years

Admission to the third-year Honours program requires the approval of the Chair of the department. The programs of Honours students are subject to the approval of the Honours Adviser. Admission to the fourth-year Honours Tutorial (FRAN 499) requires a minimum grade of B in FRAN 390.

FRAN 391 or one of FREN 302, 302A, 302B, 302C ........................................... 1.5
FRAN 390 or FREN 390 .......................................................... 1.5
FRAN 499 or FREN 499 .......................................................... 1.5

Walter E. Riedel, MA (Alta), PhD (McG)

Günter H. Schaarschmidt, MA (Alta), PhD (Indiana)

Rodney T. K. Symington, PhD (McG)

GERMANIC STUDIES PROGRAMS

The Department of Germanic and Slavic Studies offers a full complement of courses leading to a Bachelor of Arts degree in Germanic Studies in the General, Major or Minor Programs. Undergraduate work is done at two successive levels: introductory at the 100/200 level, and advanced at the 300/400 level. Students may not enrol in introductory courses after having completed an advanced course in the same area. They may, however, enrol concurrently in both introductory and advanced courses with departmental permission.

Language of Instruction

Unless indicated in the course listing, GMST courses are offered in English.

Course Challenge

The Department of Germanic and Slavic Studies does not permit students to gain credit by course challenge. Students with prior knowledge of German may, however, apply to the Chair of the department for a waiver of lower-level program requirements.

Native Speakers

Native speakers of German may not obtain credit for first- or second-year language courses. A native speaker is defined in this context as a person who has spoken German since childhood and/or has received sufficient instruction in the language to be literate in it. The department will assign students with previous knowledge to the appropriate level.

Transfer Credit

Students are encouraged to take courses at universities in German-speaking countries; the department recognizes a broad variety of courses in German language, literature and cultural studies for transfer credit. The faculty regulation for the Major Program that at least 12 of the 15 units numbered 300 or 400 are to be taken at Uvic may be lowered to 9 units for students who complete at least 12 units of German courses at a university in a German-speaking country, or to 10.5 units for students who complete at least 7.5 units of German courses at a university in a German-speaking country, and who in either case have completed 3 units of 200-level courses at Uvic.

Students must obtain a Letter of Permission (see page 29) before undertaking studies at universities in German-speaking countries. To ensure that the transfer credit is granted for courses taken elsewhere, students MUST consult with the Advising Centre for the Faculties of Humanities, Science and Social Science BEFORE applying for a Letter of Permission.

Co-operative Education Programs

Please, see page 135.

Honours Program

The Honours Program provides qualified students of German the opportunity to study German Language, Literature and Culture more intensively than in other programs, develop advanced analytical competence and deepen their understanding. It also prepares students for graduate studies.

Admission to the Honours Program requires a GPA of at least 5.5 in a minimum of 7.5 units of introductory courses (must include either GMST 260 or 261 with a minimum B+) and the permission of the department. Applications for admission are usually made at the end of the second year of studies; students interested in pursuing an Honours program in Germanic Studies should consult the department at an early stage in their undergraduate studies.

The Honours Program requires a minimum of 21 units of upper-level courses, including either GMST 301 or 302, and 499. An Honours degree requires a graduating GPA of at least 3.5 and at least a B- in 499.

Major Program

Admission to the Major Program requires a GPA of at least 3.0 in a minimum of 7.5 units of introductory courses (must include either GMST 260 or 261 with a minimum C+). The Major program consists of 15 units of upper-level course, including either GMST 301 or 302. Students interested in pursuing a Major in Germanic Studies are advised to consult the department very yearly during their undergraduate...
ate studies, preferably in their first year of studies.

**General and Minor Programs**

Students wishing to take Germanic Studies in one of these programs must take 7.5 units of introductory courses (must include either GMST 260 or 261) and 9 units of upper-level courses, including either GMST 301 or 302.

**Course Index**

**Courses in German language**

| GMST 101 | Beginning German I |
| GMST 102 | Beginning German II |
| GMST 105 | Business German |
| GMST 201 | Intermediate German I |
| GMST 202 | Intermediate German II |
| GMST 301 | Intercultural Explorations (in German) |
| GMST 302 | Intercultural Diversity (in German) |
| GMST 401 | Popular Culture (in German) |
| GMST 402 | Film (in German) |
| GMST 405 | Reading German |
| GMST 499 | Honours Thesis |

**Courses open to all students: No knowledge of German required**

| GMST 100 | Introduction to Germanic Cultures |
| GMST 165 | Major Figures of German-Speaking Cultures |
| GMST 180 | Myths, Fairy Tales, and Fantasy Fiction |
| GMST 210 | Special Topics |
| GMST 260 | The Development of Modern German-Speaking Cultures |
| GMST 261 | Trends in Contemporary Germany, Switzerland, and Austria |
| GMST 262 | Vienna Around 1900 |
| GMST 265 | German Rebels |
| GMST 280 | Masterpieces of Literature |
| GMST 350 | A Short History of German Film |
| GMST 351 | New German Cinema |
| GMST 352 | Recent Film |
| GMST 353 | Literature and Film of the Holocaust and “Third Reich” |
| GMST 355 | German Expressionism |
| GMST 360 | Cultural Studies Approaches to Literature and Film |
| GMST 362 | The Two Germanies |
| GMST 365 | Marx, Nietzsche, Freud |
| GMST 369 | Special Topics in Scandinavian Literature and Film |

| GMST 462 | Recent Literature |
| GMST 480 | Major Writers |
| GMST 481 | The Age of Goethe |
| GMST 482 | Romanticism |
| GMST 483 | Madness in Literature and Culture |
| GMST 488 | Performing German Drama |
| GMST 489 | Holocaust Field School |

**SLAVIC STUDIES PROGRAMS**

The Department of Germanic and Slavic Studies offers a full complement of courses in Russian and in Slavic Studies, leading to the Bachelor of Arts degree in Major and General Programs in Slavic Studies.

All students planning a program in the Department of Germanic and Slavic Studies should consult the departmental adviser concerning their selection of courses both within and outside the department. Students specializing in particular programs will find that they have sufficient electives to enable them to concentrate (Double Major) in a second field. A wise selection of courses is therefore important, particularly to those students who may wish to enter graduate school, teaching, library work or government service.

**Language of Instruction**

Unless indicated in the course listing, SLST courses are offered in English.

**Course Challenge**

The Department of Germanic and Slavic Studies does not permit students to gain credit by course challenge. Students with prior knowledge of Russian may, however, apply to the Chair of the department for a waiver of lower-level program requirements.

**Native Speakers**

Native speakers of Russian may not obtain credit for first- or second-year language courses. A native speaker is defined in this context as a person who has spoken Russian since childhood and/or has received sufficient instruction in the language to be literate in it. The department will assign students with previous knowledge to the appropriate level.

**Transfer Credit**

Students are encouraged to take courses in Russian at universities in the former Soviet Union; the department recognizes a broad variety of courses in Russian language, literature and cultural studies for transfer credit. The faculty regulation for the Major Program is that at least 12 of the 15 units numbered 300 or 400 are required to be taken at UVic. This regulation may be modified in the following circumstances:

- Where a student takes at least 12 units abroad, 6 units of courses taken at universities of the former Soviet Union may count towards the Major Program; 9 of the 15 units must be UVic.
- Where a student takes at least 7.5 units abroad, 4.5 units taken at universities of the former Soviet Union may count towards the Major Program; 10.5 of the 15 units must be UVic.

**Programs in Slavic Studies**

**Major**

To be admitted to a Major Program, a student must have at least a C+ average in a minimum of 7.5 units of introductory courses. In the third and fourth years, the Major program consists of a minimum of 15 units at the 300 and 400 levels and must include at least one of SLST 301 or 303. Students interested in pursuing a major in Slavic Studies are advised to consult the department very early during their undergraduate studies.

**General and Minor Programs**

Students wishing to take a General or Minor in Slavic Studies must take 7.5 units of introductory courses and 9 units at the 300 or 400 level, including at least one of SLST 301 or 303.

**Course Index**

**Language Courses**

| SLST 101 | Beginning Russian I |
| SLST 102 | Beginning Russian II |
| SLST 111 | Beginning Ukrainian I |
| SLST 112 | Beginning Ukrainian II |
| SLST 201 | Intermediate Russian I |

Department of Greek and Roman Studies

John P. Oleson, BA, MA, PhD (Harvard), FRSC, Professor
Brendan Burke, BA (Florida), MA, PhD (California, Los Angeles), Associate Professor
Ingrid E. Holmberg, BA (Vermont), MA, PhD (Yale), Associate Professor
Cedric A. J. Littlewood, BA, MA, DPhil (Oxford), Associate Professor
Gregory D. Rowe, BA (Michigan), DPhil (Oxford), Associate Professor
Laurel M. Bowman, BA (Toronto), MA (British Columbia), PhD (California, Los Angeles), Assistant Professor
Josiah E. Davis, BA (Brown), MPhil (Cambridge), PhD (Pennsylvania), Assistant Professor
Geoffrey Kron, BSc, MA, PhD (Toronto), Assistant Professor

Greek and Roman Studies Programs

The Department of Greek and Roman Studies (formerly the Department of Classics) offers the student an opportunity to study Greek and Roman language, literature, history, archaeology, and philosophical thought at any of three levels of concentration in the original languages or through English translations. The department offers the following programs leading to the degree of Bachelor of Arts:

- Greek and Roman Studies: General, Major and Honours programs
- Greek and Latin Language and Literature: Major and Honours programs

While a degree in Greek and Roman Studies can be focused to some extent on ancient art and archaeology, history, social history or literature in translation, the department strongly recommends that some courses in Greek or Latin language be taken for the Greek and Roman Studies degrees.

Study towards the degrees in Greek and Latin Language and Literature may be focused to some extent on either Greek or Latin, but the department strongly recommends that at least 6 units be taken in the second language.

It is assumed that students following the General or Major Programs will be taking advanced courses in other departments. Students following an Honours Program with the Department of Greek and Roman Studies should note that it may be possible for them to complete an Honours program in another field if they have the joint consent of that department and the Department of Greek and Roman Studies.

Students are welcome at any time to discuss their program with members of the department and are encouraged to do so in the first or second years of their studies.

Many of the advanced courses in Greek and Roman Studies are open to second-year students, and a Major in Greek and Roman Studies may be completed in two years. Nevertheless, students are encouraged to plan their programs, since the lack of prerequisites may limit their choice of courses. Greek and Latin courses above the 100 level require prerequisites.

Co-operative Education Programs

Please, see page 135.

Program Requirements

Course Regulations

- GRS 100 may not normally be taken for credit by students who have already received credit for any courses in Greek and Roman Studies at the 300 level.
- First-year students may take Greek and Roman Studies courses above the 200 level only with departmental permission. Any student in second year may register for courses in Greek and Roman Studies at the 300 level.
- Appropriate credit in the Department of History may be given for GRS 331, 332, 333, 341, 342, 345, 346, 347, 480A or 480C. PHIL 301 and 303 are acceptable for credit in all programs in the Department of Greek and Roman Studies in lieu of any 300-level course in Greek and Roman Studies.

Course Requirements

Honours in Greek and Roman Studies

- 6 units of departmental offerings at the 100 or 200 level
- 24 units of departmental offerings at the 300 or 400 level, including GRS 499

Total 30 units

Honours in Greek and Latin Language and Literature

- 21 units of Greek and/or Latin
- 9 units of departmental offerings, including GRS 499

Total 30 units

Of these 30 units, at least 21 units must be at the 300 or 400 level.

Students applying to enter the Honours Program should have a GPA of at least 6.0 in departmental courses, and should normally have completed at least 6 units of departmental offerings. Students accepted into the Honours Program whose GPA in departmental courses falls below 6.0 may be required to transfer to the Major Program.

Major in Greek and Roman Studies

- 6 units of departmental offerings at the 100 or 200 level
- 15 units of departmental offerings at the 300 or 400 level

Total 21 units

Major in Greek and Latin Language and Literature

- 15 units of Greek and/or Latin
- 6 units of departmental offerings

Total 21 units

Of these 21 units, at least 15 units must be at the 300 or 400 level.

General and Minor Programs

- 3 units of departmental offerings normally at the 100 or 200 level
- 9 units of departmental offerings at the 300 or 400 level

Total 12 units

Department of Hispanic and Italian Studies

Lloyd H. Howard, BA (Brit Col), MA, PhD (Johns H), Professor and Chair of the Department
Gregory Peter Andrachuk, BA, MA, PhD (Tor), Associate Professor

Adjunct Appointments

Peter Fothergill-Payne, BA, MA (Oxford), Adjunct Associate Professor

Emeritus

Caroline Monahan, BA, MA (Brit Col), PhD (Lond)
Judith A. Payne, BA (Spalding), MA (U of Louisville), PhD (Penn St)
Elena Rossi, BA (Vassar), MA, PhD (Tor)

Hispanic and Italian Studies Programs

The Department of Hispanic and Italian Studies offers Honours, Major and General programs in Hispanic Studies, a Combined Major in Hispanic and Italian Studies, and Major and General programs in Italian Studies and in Mediterranean Studies (Spain Concentration or Italy Concentration).

Upper-level courses used in one Honours, Major, or General Program cannot be counted toward any other Honours, Major, or General Program within or without the department.

The department now offers a graduate program. The program offers two streams leading to a Master’s degree: Hispanic Studies and Hispanic and Italian Studies. For more information, please contact the department.
Native Speakers
For all programs, native speakers may not obtain credit for 100- or 200-level courses. A native speaker is defined as a person who has spoken Spanish, Italian, or Portuguese since childhood and/or has received sufficient instruction in the language to be literate in it. The department will assign students with previous knowledge to the appropriate level.

Course Challenge
The Department of Hispanic and Italian Studies does not permit students to gain credit by course challenge; students may, however, apply to the department for advanced placement to a higher language level.

Co-operative Education Programs
Please, see page 135.

Hispanic Studies Programs
The Department of Hispanic and Italian Studies offers Honours, Major, General and Minor Programs in Hispanic Studies, as well as a Combined Major in Hispanic and Italian Studies. Students pursuing an Honours or Major in Hispanic Studies will find that they have sufficient electives to enable them to concentrate in a second field (for example, Italian or another language, Greek and Roman Studies, English, History or Linguistics).

Prerequisites
Students wishing to take 300- and 400-level courses in Spanish must:
• complete SPAN 250A and 250B with a minimum average grade of B- and a minimum grade of C+ in each;
• complete SPAN 270, or be completing SPAN 275;
• complete SPAN 350A as a pre- or corequisite, or have permission of the department.

SPAN 370, 375, 380, 385
• Students continuing to 400-level literature courses must complete one of these courses as a pre- or corequisite.
• Students pursuing a General or Minor Program in Hispanic Studies must take two of these courses.
• Students pursuing a Major or Honours Program must take three of these courses. Exceptions may be made under certain circumstances, after consultation with the department.

Hispanic Courses in English
Hispanic Studies courses conducted in English may be credited to an Honours, Major or General Degree in Hispanic Studies to a maximum of 3 units.

Transfer Credit
Students are encouraged to take courses at universities in Spanish-speaking countries. The department recognizes a broad variety of courses in Spanish language, literature and cultural studies for transfer credit. Students must obtain a Letter of Permission (see page 29) before undertaking studies at universities in Spanish-speaking countries. To ensure that the transfer credit is granted for courses taken elsewhere, students must consult with the department chair before applying for a Letter of Permission.

Study Abroad Program
The department also offers a Study Abroad Program.

Program Requirements
Students are advised to consult with the department in the selection of their courses.

Honours Program
Students wishing to enrol in the Honours Program must first obtain the approval of the department chair. Admission to the Honours Program normally requires a minimum GPA of 7.0 in upper-level Hispanic Studies courses.

First Year
• SPAN 100A and 100B

Second Year
• SPAN 250A and 250B
• SPAN 270 or 275

Third and Fourth Years
• SPAN 350A and 350B
• SPAN 499
• 4.5 units from SPAN 370, 375, 380, 385
• 10.5 additional units of 400-level Hispanic Studies courses which may include no more than 1.5 units of LAS 300

Graduation from the Honours Program requires a minimum graduating GPA of 6.0 in upper-level Hispanic Studies courses, and a minimum B+ in SPAN 499.

Major
First Year
• SPAN 100A and 100B

Second Year
• SPAN 250A and 250B
• SPAN 270 or 275

Third and Fourth Years
• SPAN 350A and 350B
• 4.5 units from SPAN 370, 375, 380, 385
• 7.5 additional units of 400-level Hispanic Studies courses which may include no more than 1.5 units of LAS 300

General (Minor)
First Year
• SPAN 100A and 100B

Second Year
• SPAN 250A and 250B
• SPAN 270 or 275

Third and Fourth Years
• SPAN 350A and 350B
• 3.0 units from SPAN 370, 375, 380, 385
• 3.0 additional units of 400-level Hispanic Studies courses which may include no more than 1.5 units of LAS 300

Italian Studies Programs
The Department of Hispanic and Italian Studies offers Major, General and Minor Programs in Italian Studies, as well as a Combined Major in Hispanic and Italian Studies. Students pursuing a Major in Italian Studies will find that they have sufficient electives to enable them to concentrate in a second field.

Prerequisites
Students wishing to take courses in Italian Studies at the third- and fourth-year levels taught in Italian are reminded that they must have the prerequisites of the first two years, including ITAL 250A and 250B, with a minimum average GPA of 4.0 and a minimum grade of C+ in each. Exceptions may be made under certain circumstances after consultation with the department.

Transfer Credit
Students are encouraged to take courses at universities in Italy, particularly at the University of Urbino. The department recognizes a broad variety of courses in Italian language, literature and cultural studies for transfer credit. Students must obtain a Letter of Permission (see page 29) before undertaking studies at universities in Italy. To ensure that the transfer credit is granted for courses taken elsewhere, students must consult with the department chair before applying for a Letter of Permission.

Program Requirements
Students are advised to consult with the department in the selection of their courses.

Major
First Year
• ITAL 100A, 100B

Second Year
• ITAL 250A, 250B

Third and Fourth Years
• ITAL 350 (1.5)
• ITAL 351 (1.5)
• 12 units of ITAL courses numbered 300 and above*

*Up to 4.5 units may be substituted from the supporting course list below. ITAL 265 is a strongly recommended optional course.

General (Minor)
First Year
• ITAL 100A, 100B

Second Year
• ITAL 250A, 250B

Third and Fourth Years
• ITAL 350 (1.5)
• ITAL 351 (1.5)
• 6 units of ITAL courses numbered 300 and above*

*Up to 3 units may be substituted from the supporting course list below.

Supporting Course List
Students combining an Italian Minor or Major with a second concentration may not count the same course for both concentrations.

**COMBINED HISPANIC AND ITALIAN STUDIES PROGRAM**

Combined Major in Hispanic and Italian Studies

First Year
- ITAL 100A and 100B (3.0)
- SPAN 100A and 100B (3.0)

Second Year*
- ITAL 250A and 250B (3.0)
- SPAN 250A and 250B (3.0)
- SPAN 270 or 275 (1.5)

Third and Fourth Years
- ITAL 350 (1.5)
- SPAN 350A (1.5)
- 6 units of ITAL courses numbered 300 and above
- 1.5 units from SPAN 370, 375, 380, 385
- 4.5 units of SPAN courses numbered 400 and above conducted in Spanish

*ITAL 265 strongly recommended

**MEDITERRANEAN STUDIES PROGRAMS**

The Mediterranean Studies Program offers insight into Mediterranean culture from the perspective of two key cultures: those of Spain and Italy. Students may opt for one of the two streams: Mediterranean Studies: Spain Concentration or Mediterranean Studies: Italy Concentration.

**Programs in Mediterranean Studies: Spain Concentration**

**Major**

Prerequisite
- SPAN 250A and 250B or equivalent

Required Courses
- MEST 300 (1.5)
- MEST 308 (1.5)
- MEST 310 (1.5)
- 4.5 units of 300- or 400-level courses from outside the department*

*SPAN 208A and 408A are strongly recommended.

**Programs in Mediterranean Studies: Italy Concentration**

**Major**

Prerequisite
- ITAL 250A and 250B or equivalent

Required Courses
- MEST 300 (1.5)
- MEST 308 (1.5)
- MEST 310 (1.5)
- ITAL 350 (1.5)
- ITAL 306 (1.5)
- 4.5 units of ITAL 400-level courses
- 3.0 units of 300- or 400-level courses from outside the department*

*ITAL 203 is strongly recommended.

*Chosen from an approved list of courses offered by other departments in the Faculties of Humanities, Fine Arts and Social Sciences.

**General (Minor)**

Prerequisite
- 3 units of ITAL language courses at the 100 or 200 level (further language study is strongly recommended)

Required Courses
- MEST 300 (1.5)
- MEST 308 (1.5)
- MEST 310 (1.5)
- 4.5 units of 300- or 400-level courses from outside the department*

*Chosen from an approved list of courses offered by other departments in the Faculties of Humanities, Fine Arts and Social Sciences.

**General (Minor)**

Prerequisite
- 3 units of ITAL language courses at the 100 or 200 level (further language study is strongly recommended)

Required Courses
- MEST 300 (1.5)
- MEST 308 (1.5)
- MEST 310 (1.5)
- ITAL 350 (1.5)
- ITAL 306 (1.5)
- 3.0 units of 300- or 400-level courses from outside the department*

*With the approval of the department and chosen from an approved list of courses offered by other departments in Humanities, Fine Arts and Social Sciences.

E. Patricia Tsurumi, BA (UBC), AM, PhD (Harvard)

**History Programs**
The department offers undergraduate course work at two levels. Introductory courses at the 100-200 level are intended especially for students new to the general discipline of History, or to its specific areas. Advanced courses at the 300-400 level are intended for students with some background in History. A brochure is available through the department office at the start of the advance registration period that includes any changes in scheduling made after publication of the Calendar, as well as additional information not available at that time.

**Co-operative Education Programs**
Please, see page 135.

**Course Regulations**
Students are strongly advised to complete introductory courses in a given area before undertaking advanced courses in the same area. However, in specific areas students may not be allowed to register in an introductory course if they have credit in or are concurrently registered in an advanced course in the same area. Such prohibitions are noted in individual course descriptions.

History courses are organized by area: American history, British history, Canadian history, European history, Asian history, world and comparative history, and specialized courses. Please note that enrollment in seminars is limited. All students are strongly encouraged to take at least one course in pre-1800 history.

All History courses require substantial written and reading assignments. Information about textbooks in all courses is available from the bookstore. Students are advised to consult the Faculty of Humanities’ regulations governing undergraduate degree programs, on page 132.

**Three-Unit Courses Over Two Terms.**
In any 3-unit course that is offered over the First Term and the Second Term of Winter Session, students must register in and complete successfully both terms in order to receive credit.

**Program Requirements**

**Honours Program**
In the Honours Program, students have the opportunity to study history more independently and intensively than is normally possible in the Major and General Programs. Through the Honours Seminar that explores historical methodology (HIST 480) and the Honours Thesis, a research project normally based on primary sources (HIST 497), the Honours Program encourages students to think critically and to deepen their understanding of both the content and craft of history. A Third-Year Honours Essay (HIST 398) is optional. While the primary intent of the Honours Program is to help any interested and talented student of history achieve an excellent education in the liberal arts, the program should be especially useful for students contemplating graduate work in history or careers in senior secondary teaching, journalism, law, library science or government service.

Admission to the Honours Program normally requires a minimum overall GPA of 6.0 as well as a minimum of 6.0 in 6 units of History courses, of which at least 3 units should be at the 100 or 200 level. These 6 units are not counted towards the 18 units of upper-level History required within the Honours Program.

Application for admission to the Honours Program should normally be made in the spring, during the student’s second year, although a small number of third-year applications may also be accepted. In certain cases, applications may be accepted any time up to the beginning of a student’s fourth year.

Honours candidates are required to have their program of courses approved by the Honours Adviser. To avoid over-specialization, Honours students must study more than one area of History and are strongly encouraged to take at least one course in pre-1800 history.

An Honours degree requires a graduating GPA of at least 5.0 and a GPA of at least 5.0 in Honours courses (HIST 398 if taken, 480, 497).

Candidates whose performance is unsatisfactory may be required to transfer from the Honours Program to the Major Program. Admission to the fourth-year Honours Program is conditional upon satisfactory performance in the third year.

**General and Minor Programs**
History may be taken as one field of concentration in a General Program, or as a Minor. Normally, a student should complete:

1. 6 units of Introductory History courses at the 100 or 200 level
2. 9 units of History courses at the 300 or 400 level

Students are strongly encouraged to take at least one course in pre-1800 history.

A maximum of 1.5 units taken from GRS 332, 333, 336, 337, 342, 344, 346, 348, 349, 350, 461, 480A, 480C, MEDI 451 and MEST 308 may be accepted in lieu of a course in European history.

**Third- and Fourth-year Requirements**
Students in the Honours Program must take 18 units of history courses numbered 300 or above:

HIST 480 .................. 3.0
HIST 497 .................. 3.0
History courses numbered 300 and above (may include HIST 398) .................. 12.0

A maximum of 3.0 units from GRS 332, 333, 336, 337, 342, 344, 346, 348, 349, 350, 461, 480A, 480C, MEDI 451 and MEST 308 may be accepted in lieu of a course in European history.*

1. Usually completed by the end of third year
2. As part of HIST 497 an oral examination will be conducted by a committee comprising the faculty supervisor of the paper, the second reader and the departmental Honours Adviser. The examination will be open to other interested members of the department.
3. Of these 12.0 units, a maximum of 9 units may be selected from one area of interest.

Students are also required to demonstrate a reading knowledge of a language other than English by passing, with a grade of C or higher in each course, 3.0 units of 200-level language courses (FRAN 180 is also acceptable), or by passing a special translation examination administered by the Department of History.

**Major Program**
To be admitted to the Major Program, students require a minimum GPA of 2.0 in 6 units of introductory History courses.

Students interested in pursuing a Major in History are advised to consult a Majors’ Adviser in their first year if possible, and History Majors are strongly encouraged to consult a Majors’ Adviser regarding their third- and fourth-year programs.

Students in the Major Program must complete 15 units of History courses numbered 300 and above. Of these 15 units, a minimum of 6 and a maximum of 12 units should be selected from one area of interest. Students are strongly encouraged to take at least one course in pre-1800 history.

A maximum of 3.0 units taken from GRS 332, 333, 336, 337, 342, 344, 346, 348, 349, 350, 461, 480A, 480C, MEDI 451 and MEST 308 may be accepted in lieu of a course in European history.*

* Other than these, courses in the various studies programs (CS, ES, EUS, GER, GRS, JIS, MEDI, MEST, PAAS, RS, RUSS, WS) cannot be counted towards the General and Minor, the Major or the Honours degrees (exception: Special Topics courses may be considered on an ad hoc basis).
Graduation from the Honours Program requires a minimum graduation GPA of 6.0 in upper-level Hispanic Studies courses, and a minimum grade of B+ in LAS 499.

### Major

Graduation from the Honours Program requires a minimum graduation GPA of 6.0 in upper-level Hispanic Studies courses, and a minimum grade of B+ in LAS 499.

### Interdisciplinary Courses on Latin America

Students must take at least one course from a minimum of two departments or programs. Variable content courses require the permission of the program in advance.

- **ANTH 325**: If focusing on Latin America: ANTH 391, 392, 393, 394, 395 (permission of the program)
- **GEOG 347B**: If focusing on Latin America: GEOG 347B
- **IED 572**: (permission of the program)
- **HA 375A, 375B**: HIST 470, 471; 468, 469 (permission of the program)
- **MEST 308**: If focusing on Latin America: MUS 319, 320 (permission of the program)
- **POLI 372, 372B, 436**: (permission of the program)
- **SPAN 380, 385, 408B, 482, 483A, 483B, 483C, 484A, 484C, 484D, 485B, 486, 495**
- **Total**

Applications are encouraged to develop specialized knowledge of Latin American and Caribbean Studies, to a maximum of 3.0 units from the interdisciplinary courses below.

Barbara P. Harris, BA (Carleton), MA (UVic), PhD (UVic)
LINGUISTICS PROGRAMS
The Department of Linguistics offers the following degree and diploma programs:
• General, Major and Honours BA in Linguistics
• Major and Honours BA in Applied Linguistics (emphasis on teaching English as a Second Language)
• Major and Honours BSc in Linguistics
• Diploma in Applied Linguistics (emphasis on teaching English as a Second Language)
• Certificate Program in Aboriginal Language Revitalization (CALR)

Co-operative Education Programs
Please, see page 135.

PROGRAM REQUIREMENTS
Practicum Requirement
Students should be aware that a practicum is required in order to complete the course of study for a BA or Diploma in Applied Linguistics and is an elective in the Certificate Program in Aboriginal Language Revitalization.

Please refer to “Guidelines for Ethical Conduct” and “Regulations Concerning Practica”, page 133.

BA in Linguistics
Honours Program
Students who wish to take an Honours degree in Linguistics begin the program in the third year with the permission of the department. Honours students must:
1. achieve at least a B+ (6.0) average in all Linguistics courses taken in each of third and fourth years;
2. in addition to the requirements for the Major, students intending to pursue an Honours degree in Linguistics must complete successfully LING 411, 412 and 499, for a total of 21 units of upper-level courses;
3. achieve a letter grade of at least B+ in 499.
All Honours students are required to submit their proposals for Honours thesis research at the beginning of their final year.

Students who meet the above requirements and successfully complete all prescribed courses will be recommended for an Honours degree.

Major Program
Required Courses: First and Second Years
LING 100A or 181 ........................................... 1.5
LING 200 .................................................. 1.5
LING 203 .................................................. 1.5
LING 204 .................................................. 1.5

Required Courses: Third and Fourth Years
LING 309 .................................................. 1.5
LING 311 .................................................. 1.5
LING 312 .................................................. 1.5
Research focus: One of 370B, 386, 411, 412, 431, 461, 486, 495 ......................................... 1.5

Language focus: One of 341, 372, 378, 401, 403, 405, 450 .................................................. 1.5
LING courses numbered 300 and above ..... 7.5

Concentrations
The Department of Linguistics offers concentrations in the BA in Linguistics in the following areas: Language and Society; Language and Speech; Indigenous Languages. Students complete the required courses noted below within the Major and Honours program requirements in Third and Fourth Years.

Concentration in Language and Society:
• LING 395, 495.
• Two of 377, 390, 392, 396, 398, 420.

Concentration in Language and Speech:
• LING 380, 381, 486.
• One of 300, 370A, 370B, 370C, 386.

Concentration in Indigenous Languages:
• LING 431, 461.
• Two of 372, 377, 401, 403, 405.

General and Minor Programs
Students following a General or Minor Program in Linguistics are required to take LING 100A and at least 9 units of courses in Linguistics at the 300 or 400 level.

BA in Applied Linguistics
The BA in Applied Linguistics prepares students for teaching English as a second language in many foreign countries and in Canadian programs outside the public school system.

The BA in Applied Linguistics does not qualify students to teach in the schools of British Columbia. Those who wish to be teachers in the British Columbia school system must either hold an Education degree or have successfully completed the professional program for graduates offered by Education faculties in BC. For information, contact Education Advising.

Honours Program
In addition to the requirements for the Major, students intending to pursue an Honours degree in Applied Linguistics must complete successfully LING 411, 412 and 499 for a total of 21 units of upper-level courses. The regulations regarding the required level of achievement are the same as those stated above for the BA in Linguistics.

Note: LING 312 is a prerequisite for LING 412.

Major Program
Required Courses: First and Second Years
• LING 100A or 181
• LING 200
• LING 203
• 3 units of first- and second-year English courses
• 3 units from LING 204, PSYC 100A, 100B
• 4.5 units of modern second language courses, of which at least 1.5 units are at the second-year level or higher, or equivalent

Required Courses: Third and Fourth Years
15 units:
• LING 309
• LING 311
• LING 312 or 338
• LING 373
• LING 374
• LING 375
• LING 376
• LING 388
• 3 units selected from LING 325 or 326, 370A, 377, 386, 387, 389, 390 or 392, 395, 397 or 398, 495 (1.5 of these 3 units may also be selected from LING 396, 401, 403, 405, 450)

Corequisite Courses:
• 3 units selected from upper-level English or Writing

BSc in Linguistics
The BSc in Linguistics is a suitable preparation for post-graduate study in the Speech and Hearing Sciences and for advanced studies in Psycholinguistics and the Phonetic Sciences.

General and Minor programs leading to a BSc degree are not available.

Honours Program
Students intending to pursue a BSc Honours degree in Linguistics should ensure that they have completed LING 311 and 312 as part of the 15 units required for the Major degree. In addition to the requirements for the Major, Honours students must present LING 411, 412 and 499 for a total of 21 units of upper-level courses. The regulations regarding the required level of achievement and the class of Honours awarded are the same as those stated above for the BA in Linguistics.

Major Program
Required Courses: First and Second Years
• LING 100A or 181
• LING 200
• LING 203
• LING 204
• BIOL 150A or 190A
• BIOL 150B or 190B or EPHE 141
• MATH 100 or 102
• 3 units from PHYS 102, 112, 120, 130, 220
• PSYC 100A, 100B and 201

Recommended Electives
• CSC 100, 110, 115
• EPHE 241A and 241B (prerequisite 141)
• PHYS 214
• PSYC 215A, 340
• MUS 306, 307
• Course(s) in a second language.

Required Courses: Third and Fourth Years
• LING 370A
• LING 370B
• LING 380
• LING 381
• LING 486
• 4.5 units selected from LING 300, 309, 311, 312, 411, 412
• 3 additional units of upper-level Linguistics courses, selected from the following: LING 370C, 373, 386, 482, 495 and from the following not already selected: LING 300, 309, 311, 312, 411, 412

Corequisite Courses
• PSYC 300A
• 4.5 units selected from PSYC 300B, 313, 315, 317A, 317B, 323, 335, 413, 415A, 415B, 450.

Diploma in Applied Linguistics
Program Admission and Regulations
Applicants must have completed a University of Victoria Bachelor’s degree or its equivalent before admission to the program. Applicants must also complete at least 6 units of courses in English and 6 units of modern second language courses, either upon admission or concurrently with the Diploma program.
Applicants whose previous instruction was given in a language other than English will be required to have a major in English or permission of the Applied Linguistics Adviser.

Students who have completed the University of Victoria degree in Applied Linguistics or its equivalent may not register in the Diploma Program.

The program may be completed within one year of full-time study, but can also be taken part-time. It must be completed within five years. For part-time students, LING 376 will normally be taken in the final year of study.

Courses taken for the Diploma program cannot be applied towards another degree.

Students who wish to be teachers in the British Columbia school system must either hold an Education degree or have successfully completed the professional program for graduates offered by Education faculties in the province. (For information, contact Education Advising.)

Diploma Requirements
The Diploma requires a minimum of 15 units of coursework in addition to those credited towards a degree. Applicants who have received credit for some of these courses (or equivalent) previously will be allowed to substitute up to 6 units of courses recommended by the department. Students whose degrees are from universities other than the University of Victoria must complete the entire 15 units at UVic. Students with a UVic degree may negotiate to have transfer credit from other universities apply to the Diploma program.

Required Courses (15 units)
- LING 100A or 181
- LING 200 or 203
- LING 373
- LING 374
- LING 375
- LING 376
- LING 388
- 4.5 units from LING 338, 370A, 377, 386, 387, 389, 390 or 392, 395, 397 or 398

Note: Diploma students who wish to pursue the MA in Applied Linguistics should complete both LING 200 and 203.

Certificate in Aboriginal Language Revitalization (CALR)
This program is offered by the Department of Linguistics in partnership with the Division of Continuing Studies and the En'owkin Centre of the Okanagan Nation. Admission is open to all those committed to the revitalization of Indigenous languages in Canada or anywhere on the globe.

It is possible to undertake coursework on the Certificate concurrently with progress toward a degree program (Bachelor’s, Master’s, or PhD). Please consult with program staff regarding this articulation.

The goal of the Certificate Program is to develop understanding of the complex dynamics of language loss, maintenance, and recovery while also providing practical strategies for work in Aboriginal communities to preserve and revitalize threatened languages. This program is designed to honour traditional knowledge and practices, to recognize and accommodate the realities and needs of diverse communities, and to provide a foundation for both language revitalization activities and for further study in linguistics, education, and/or cultural resource management.

Certificate Requirements
Participants in the Certificate Program in Aboriginal Language Revitalization must complete six core courses (9 units) and three elective courses (4.5 units). To ensure that students are themselves actively engaged in the process of learning an Aboriginal language, students must take an elective course in an Aboriginal language or demonstrate other comparable experience. Please see below under “Aboriginal Language Requirement.”

The core courses are offered in Summer Institutes at the En’owkin Centre in Penticton or at the University of Victoria, and at varying times during the year in other locations. Elective courses are offered at the En’owkin Centre, at the University of Victoria, or in community settings. It is possible to arrange transfer credits for elective courses from other programs or other colleges and universities; please consult program staff for details.

Core Courses (9.0 units)
- LING 180A (1.5 units)
- LING 180B (1.5 units)
- LING 181 (1.5 units)
- LING 182 (1.5 units)
- LING 183A (1.5 units)
- LING 183B (1.5 units)

Elective Courses (4.5 units to be chosen)
- LING 158 Indigenous Language I: Mentorship
- LING 159 Indigenous Language I
- LING 172 Introduction to the Languages of BC
- LING 184 Indigenous Language Materials Development
- LING 185 Indigenous Language Revitalization Practicum
- LING 186 Language in Indigenous Culture
- LING 187 Special Topics in Language Revitalization
- LING 258 Indigenous Language II: Mentorship
- LING 259 Indigenous Language II
- LING 358 Indigenous Language III: Mentorship
- LING 359 Indigenous Language III
- LING 379 Language and Land
- LING 458 Indigenous Language IV: Mentorship
- LING 459 Indigenous Language IV

For students who choose LING 158, 185, 258, 358, 458, please consult program staff for procedures and requirements of these practicum courses. Also, please refer to “Guidelines for Ethical Conduct” and “Regulations Concerning Practicum,” page 133.

Indigenous Language Requirement
Students must complete at least one course offered under LING 158, 159, 258, 259, 358, 359, 458, or 459, or take a course in an Indigenous language at a college or university for transfer credit, in order to strengthen knowledge of processes associated with learning an Indigenous language.

For students who have already successfully completed a college or university course in an Indigenous language and/or are fluent speakers of an Indigenous language, consult with the Academic Adviser of the CALR program to transfer the credit or challenge this elective course requirement.

For more information, please contact:
Certificate Program in Aboriginal Language Revitalization
Cultural Management Programs, Division of Continuing Studies

Fax: 250-721-8774
Website: <continuingstudies.uvic.ca/calr>

Indigenous Language Course Challenge
The course challenge process is intended to allow you to receive up to 3 units of elective credit, based on your proficiency in an Indigenous language. If that proficiency has been gained through the completion of coursework at a local college or university, you can apply to transfer that credit to the University of Victoria. However, if your proficiency has been gained through life experience, you can apply to challenge LING 159 and/or 259 as described below.

To challenge a course, you are required to provide a letter from a local language authority certifying that you have achieved a degree of proficiency in that language. As well, you will be required to complete a course challenge application form and submit a fee equivalent to 50% of the tuition assessed for a 1.5 unit course.

Based on this application, the academic advisers to the Certificate in Aboriginal Language Revitalization will determine if the course challenge is successful, establish the equivalency to LING 159 and/or 259 and arrange for the credit to be entered on your academic record.

Please have your language authority complete and sign the LING 159 and/or 259 challenge forms and return it to us with the course challenge application fee.

You are urged to complete the course challenge process prior to admission to the Certificate Program so that you can plan your elective requirements accordingly.

Please mail your course challenge materials to:
Academic Adviser

Medieval Studies Program
Director: Marcus Milwright, DPhil (Oxford), Associate Professor, History in Art

Medieval Studies Program Committee
Hélène Cazes, PhD (Paris), Associate Professor, Department of French. Term expires July 1, 2013
Joseph Grossi, B.A. (Providence College), M.A. (Ohio State), Ph.D. (Ohio State) Term expires July 1, 2013
Iain MacLeod Higgins, BA, MA (UBC), AM, PhD (Harvard), Associate Professor, Department of English. Term expires July 1, 2014
**Medieval Studies Programs**

Medieval culture, which flourished in Europe from about CE 300-1500, and has analogues in many non-European cultures, lends itself well to interdisciplinary study. This Program seeks to train students in the principles, methods, and problems of Medieval Studies and to introduce them to the written, visual, and material sources required for a thoughtful, critical study of the medieval world.

Medieval Studies offers Honours, Major, General and Minor programs leading to the degree of Bachelor of Arts. Students may also undertake the Major in Medieval Studies together with a Major Program in another department (see "Double Major Program", page 134), or with a Major in another faculty (see "Interfaculty Program", page 135). By completing the requirements for the General Program together with a Major or Honours Program in another department or faculty, students may obtain a Minor (see "Minor Program", page 135).

Students interested in pursuing a program in Medieval Studies should consult with the Program Director.

**Course Work By Education Students**

Students applying to the Post-Degree Professional Program in the Faculty of Education may use up to 3 units of credit from the following Medieval Studies courses to fulfill a portion of the Social Studies (see History emphasis) teaching area requirements: MEDI 303, 304, 305, 360 and 401, 402 (MEDI 360 and 401, 402 with the approval of the Faculty of Education only). Students who wish to pursue this option should contact the Director of Medieval Studies.

**Co-operative Education Programs**

Please, see page 135.

**Program Requirements**

**Honours Program**

In the Honours Program in Medieval Studies, students have the opportunity to work more independently and intensively on a special research essay. The graduating essay will be done under the guidance of an individual tutor assigned in the final year of the degree.

**Admission**

Admission to the Honours Program normally requires a minimum overall GPA of 6.0 in 3.0 units of Program courses at the 300 and 400 level. Normally a student applies for Honours at the end of the second year. Honours candidates are required to have their program of courses approved by the Director of Medieval Studies.

**Third- and Fourth-year Requirements**

MEDI 303 The Medieval World .................. 1.5  
MEDI 304 Encountering the Middle Ages .... 1.5  
MEDI 451 Reading, Writing and the Book in the Medieval World .................. 1.5  
MEDI 499 Honours Graduating Essay ...... 1.5  

15.0 units of courses numbered 300 or above selected from MEDI offerings and the list of Eligible Courses (with no more than 4.5 units selected from any one department) ......... 15.0  

**Total ........................................ 21.0**

Students whose GPA in MEDI courses numbered 300 and above falls below 3.5 at the end of any session will be required to transfer to the Major Program. Students whose graduating average, or whose average in Program courses taken in MEDI at the 300 and 400 level, is below 3.5, but who otherwise meet the University requirements for graduation, will receive a BA with a Major in Medieval Studies.

**Language Requirement for Honours**

Students are required to demonstrate a reading knowledge of a language other than English. Latin and Greek are particularly recommended although students may also choose French, German, Italian, or Spanish. A student may apply to the Program to substitute another language. Students will normally fulfill this requirement by completing successfully 3.0 units of 200-level language courses with a grade of C or higher in each course. This requirement may also be fulfilled by completing successfully FRAN 180, or GREE 101 and 102, or LATI 101 and 102, with a grade of C or higher in each course. In special circumstances, students already fluent in a language may request a translation examination administered by the Program.

**Major Program**

**Admission**

The Program strongly recommends that students undertaking a Major in Medieval Studies achieve a reading knowledge of a second language. Introductory courses in Latin (LATI 101 and 102) and Greek (GREE 101 and 102) are particularly recommended for the study of Medieval culture.

To be admitted to the Major Program, students require at least second-year standing or permission of the Director of Medieval Studies; HIST 236 Medieval Europe (3.0) is suggested.

**Requirements for the Major**

MEDI 303 The Medieval World .................. 1.5  
MEDI 304 Encountering the Middle Ages .... 1.5  
3 units of the following: ....................... 3.0  
MEDI 360 Selected Topics in Medieval Culture  
MEDI 401 Seminar in Medieval Culture  
MEDI 402 Cross-Cultural Encounters and Exchanges  
MEDI 451 Reading, Writing and the Book in the Medieval World  
MEDI 452 Special Topics in Medieval Manuscript Studies  
9.0 units of courses, selected from MEDI offerings and the list of Eligible Courses numbered 300 or above (with no more than 3.0 units selected from any one department) ................. 9.0  

**Total ........................................ 15.0**

**Double Major**

Student pursuing a Double Major may select courses on the Eligible Courses list from their second field of concentration, but the same units cannot be used for both Majors.

**General and Minor Programs**

MEDI 303................................. 1.5

MEDI 304................................. 1.5
MEDI 360 or 401 or 451 or 452 ............. 1.5

4.5 units of course offerings numbered 300 or above, selected from MEDI offerings and the list of Eligible Courses list, to be approved by the Director of Medieval Studies ............. 4.5

**Combined English Honours with Medieval Studies Minor**

Students in the Medieval Studies Program who are also enrolled in the English Honours Program may earn a Combined English Honours and Medieval Studies Minor degree. To do so they must complete:

- 3.0 units from MEDI 301, 302, 303, or 304
- 1.5 units from MEDI 401, 402, 451, or 452
- 1.5 units selected from the courses (apart from English courses) in the list of Eligible Courses for the Medieval Studies Program.
- 1.5 units selected from the following list: ENGL 340, 341, 346, 347, 352, 353, 354, 357

**Eligible Courses**

ENGL 337 (1.5) Medieval British Literature in Translation
ENGL 338 (1.5) Introduction to Old Icelandic  
ENGL 339 (1.5) Old Icelandic Literature  
ENGL 340 (1.5) Introduction to Old English  
ENGL 341 (1.5) Old English Literature  
ENGL 342 (1.5) Early Middle English Literature  
ENGL 343 (1.5) Later Middle English Literature  
ENGL 344A (1.5) Chaucer: Canterbury Tales  
ENGL 344B (1.5) Chaucer: Troilus and Minor Works  
ENGL 348 (1.5) Alliterative Traditions  
ENGL 350 (1.5) Medieval and Renaissance Scottish Literature  
ENGL 353 (1.5) Studies in Medieval English Literature  
ENGL 464 (1.5) The Bible and Literature in English  
ENGL 473 (1.5) Women Writers in English from the Medieval to the Augustan Age  
FRAN 404 (1.5) History of French Language  
FRAN 430* (1.5) Studies in French Literature before 1800  
FRAN 431 (1.5-3.0) Medieval Literature  
FRAN 432 (1.5) (also MEDI 442) Common Grounds in European Medieval Literature  
FRAN 434 (1.5) Medieval and Renaissance Theatre  
HIST 320 (1.5-3.0) Seminar in Medieval England  
HIST 320A (1.5-3.0) Crime and Criminality in Medieval England  
HIST 380A (1.5-3.0) Seminar in Medieval Europe  
HIST 380D (1.5-3.0) Individual, Family and Community in Medieval Society  
HIST 380E (1.5-3.0) Medieval Foundations of the Western Legal Tradition
## Background and Comparative Courses

Students, especially those considering graduate studies in the field of Medieval Studies, are urged to take advantage of the Latin courses offered by the Department of Greek and Roman Studies. Since the study of ancient Greece and Rome provides an excellent background for Medieval Studies, and because medieval culture has a number of analogues in non-European cultures, the following background and comparative courses are useful electives. HIST 236 (Medieval Europe) is also suggested.

### ANTH 304 (1.5)
Technology in Culture

### ANTH 305 (1.5)
Anthropology of the Arts

### ANTH 306 (1.5)
Folklore in Contemporary Society

### ANTH 310 (1.5)
Anthropological Approaches to Comparative Religion

### ANTH 332 (1.5)
Ethnology of Europe

### ENGL 410 (3.0)
Backgrounds to English Literary Traditions

### GRS 300 (1.5)
Greek Epic

### GRS 323 (1.5)
Ancient Comedy and Satire

### GRS 335 (1.5)
Women in the Greek and Roman World

### GRS 342 (1.5)
Roman Society

### GRS 372 (1.5)
Art and Architecture of the Roman World

### GRS 376 (1.5)
Ancient Technology

### GRS 381 (1.5)
Greek and Roman Religion

### GRS 442 (1.5)
Roman Law and Society

### HA 348 (1.5)
Introduction to Islamic Archaeology

### HA 351A (1.5)
Painting in Medieval Islam

### HA 358 (1.5)
Islam and Asia

### HA 371 (1.5)
Early Chinese Art

### LATL 301 (1.5)
Vergil

### PHIL 301 (1.5)
Plato

### PHIL 303 (1.5)
Aristotle

### SPAN 471A (1.5)
The Female Voice in Medieval Poetry

### SPAN 471B (1.5)
Miracle Stories in the Marian Tradition

### SPAN 471C (1.5)
Special Topics in Medieval Literature (in English)

---

### Department of Pacific and Asian Studies

**Hiroko Noro, BA, MA (Aoyama Gakuin), PhD (U of T), Associate Professor and Chair of the Department**

**Michael H. Bodden, BA, MA, PhD (Wis, Madison), Professor**

**Richard King, BA, MA (Cantab), PhD (UBC), Professor**

**Andrew Marton, BSc (UBC), PhD (UBC), Professor**

**M. Cody Poullon, BA, MA, PhD (U of T), Professor**

**Martin Adam, BA (Calgary), MA (Waterloo), PhD (McGill), Associate Professor**

**Leslie Butt, BA (Trent), MA (SFU), PhD (McGill), Associate Professor**

**Timothy Iles, BA, MA (UBC), PhD (U of T), Associate Professor**

**Daromir Rudnyckyj, BA (UChicago), MA, PhD (UC Berkeley), Associate Professor**

**Katsuhiko Endo, BA (SUNY Binghamton), MA (Cornell), PhD (NYU), Assistant Professor**

**Tsung-Cheng Lin, BA (FU, Taiwan), MA (U Bloomington), PhD (UBC), Assistant Professor**

**R. Christopher Morgan, BA, MA (Uvic), PhD (ANU), Assistant Professor**

**Yasuko France, BA (Tokyo), MEd (Umass), Senior Instructor**

**Mika Kimura, BA, MA (Uvic), Senior Instructor**

**Naozumi Riddington, BA (Tokyo Women's Christian), MA, MFA (Umass), MA (UBC), Senior Instructor**

**Karen Kai-Ying P. Tang, BA (National Taiwan Normal U), MA (UBC), Senior Instructor**

**Jun Tian, BA (Shanxi Normal U, China), MA (NW Polytechnical U, China), MA (York), PhD (Uvic), Senior Instructor**

### Adjunct, Emeritus, Visiting and Cross-listed Appointments

- **James A. Boutillier, BA (Dal), MA (McM), PhD (Lond), Adjunct Professor**
- **Daniel J. Bryant, BA, PhD (UBC), Professor Emeritus**
- **Harry Hsin-i Hsiao, BA (Tunghai), MA, PhD (Harv), Associate Professor Emeritus**
- **David Chuenyan Lai, BA, MA (HK), PhD (Lond), Adjunct Professor**
- **Joe B. Moore, BA (Wyo), MA (UC Berkeley), PhD (Wis), Associate Professor Emeritus**
- **Jordan Paper, AB (Chicago), MA, PhD (Wis, Madison), Adjunct Professor**
- **Yuen-fong Woon, BA (HK), PhD (UBC), Professor Emeritus**

### PACIFIC AND ASIAN STUDIES PROGRAMS

The Department of Pacific and Asian Studies offers BA programs that address a cross-regional, multi-disciplinary and multi-cultural approach to the study of the Asia-Pacific, with courses in three languages (Chinese, Japanese and Indonesian-Malay), four regions (China, Japan, Southeast Asia and Oceania) and a wide range of academic disciplines in both the Humanities and the Social Sciences.

The department offers the following programs leading to the degree of Bachelor of Arts:

- Chinese Studies (General/Minor)
- Japanese Studies (General/Minor)
- Pacific and Asian Studies (Honours, Major, General/Minor)
- Southeast Asian Studies (General/Minor)

For courses on China, Japan, Oceania, and Southeast Asia, please refer to PAAS in the course listings.

---

**Co-operative Education Programs**

Please, see page 135.

---

### Admission to Courses

Students are advised that because of limited staff and facilities it may be necessary to restrict enrolment in some courses.

Students proceeding toward a Major or General degree in Pacific and Asian Studies will be given priority over students in other programs. Students who wish to repeat a course at any level will be given lower priority than students taking the course for the first time.

For admission to most language courses numbered 111, 121, or 131 or above, a minimum grade of B, or in some cases higher, in the prerequisite course is required. As language courses are limited to 25 students per section, the department reserves the right to rank students according to their grades for the prerequisite course. Students are warned that all Pacific and Asian Studies degree programs include a language requirement; students who fail to complete the language requirement will not be permitted to graduate in the program.

Students who have completed any given level of courses in a language at UVic or though transfer credit will not be granted credit for subsequent courses at a lower level in the same language.

Satisfaction of the Academic Writing Requirement is prerequisite to registration in all courses numbered 300 or higher.

### Placement Tests of Transfer Students

Although transfer students may be given credit for language courses taken at their previous institution, they will not be guaranteed admittance to more advanced language courses in this department.

Students who may be considered native speakers of Indonesian, Japanese or any form of Chinese should consult the statements on “native speakers” at the head of the course listings.

Students who wish to continue their language studies should consult the department before
Transfer Credit

Students are encouraged to study at Universities in the Asia Pacific region; the department recognizes a range of courses in language and other topics from these institutions for transfer credit. In specific circumstances, the faculty regulation for the Major Program that at least 12 of the 15 units numbered 300 or above are required to be taken at UVic may be lowered to 9 for students who complete at least 9 units at a university in the Asia-Pacific region.

Pacific and Asian Studies Program Requirements

Honours Program

Students interested in the Honours Program should consult with the Pacific and Asian Studies Honours Adviser. Program requirements are the same as for the Major, with the addition of:

- 1.5 units of PAAS courses numbered 300 or above
- PAAS 499 (1.5)

Students may apply for admission to the Honours Program in the spring term of their second year or in the fall term of their third year.

Admission requires:

1. PAAS 100 (PACI 210 or 200A and 200B), PAAS 200 (PACI 290), any one of 300 (PACI 325), 301 (PACI 390), 302 (PACI 392), 400 (PACI 490A). A grade of at least B+ must be achieved in each course;
2. Written permission from a Pacific and Asian Studies faculty member willing to act as research adviser for the PAAS 499 essay;
3. Approval of the proposed program of courses by the Honours Adviser.

Continuation in the Honours Program requires maintenance of a GPA of at least 6.0 in all upper-level courses.

Major Program

The Major Program includes core courses required for all students, as well as courses of both an integrative and specialized nature, from which students may choose. The requirements provide for both breadth and specialization in terms of geographical or linguistic interest.

- PAAS 100 (1.5)
- PAAS 200 (1.5)
- One of PAAS 300, 301, 302 (1.5)
- PAAS 400 (1.5)
- 12 units of PAAS courses numbered 300 or higher
- 9.0 units of Chinese or Japanese language; or 6 units of study in Indonesian/Malay language
- Plus 3.0 units of lower-level courses related to Southeast Asia chosen from PAAS 170, 171, 205, 295.

General and Minor Program

Chinese Studies

- PAAS 100 (1.5)
- 9 units of PAAS courses chosen from 310 to 313, 350 to 359, 410, 450 to 459, 497

Language Requirement for Native Speakers of Chinese:

- 6.0 units of Chinese language chosen from PAAS 212, 312, 313, 353, 410, 459, 497

Language Requirement for non-Native Speakers of Chinese:

- 6.0 units of Chinese language chosen from PAAS 110, 111, 210, 211, 310, 311

PAAS 310 to 313, 410 and 497 may not be counted toward both the required 9 units and the Language Requirement.

Japanese Studies

- PAAS 100 (1.5)
- 9.0 units of PAAS courses numbered 300 or higher chosen from PAAS 330, 331, 332, 333, 334, 380-399, 480-488
- 6.0 units of Japanese language courses chosen from PAAS 130, 131, 230, 330, 331, 332, 333, 334 (Native speakers may substitute other Japan-related courses chosen in consultation with the program adviser.)

Pacific and Asian Studies

- PAAS 100 (1.5)
- PAAS 200 (1.5)
- 4.5 units of 100-200 level PAAS courses
- 9.0 units of PAAS courses numbered 300 or higher chosen from PAAS 303, 307, 308, 364, 365, 401, 403, 405, 406, 409, 464, 465, 466

Southeast Asian Studies

- PAAS 100 (1.5)
- 9.0 units of PAAS courses numbered 300 or higher chosen from PAAS 368 to 373; 467, 468
- 6.0 units of Indonesian/Malay language courses chosen from PAAS 120, 121, 220, 221 (Native speakers may substitute other Southeast-Asia-related courses chosen in consultation with the program adviser.)

Department of Philosophy

Colin Macleod, BA (Queen’s), MA (Dalhousie), PhD (Cornell), Associate Professor and Chair
Jeffrey E. Foss, BA (Alta), MA, PhD (W Ont), Professor

Cindy L Holder, BA (McGill), MA (Dal), PhD (Arizona), Associate Professor
Patrick W. Rynev, BA (S Fraser), MA (Dal), PhD (Arizona), Associate Professor
David Scott, BA, MA (Memorial), PhD (Reading), Associate Professor
Scott Woodcock, BA (UBC), MA, PhD (Tor), Associate Professor

Philosophy Programs

The Department of Philosophy offers Honours, Major and General programs leading to the Bachelor of Arts degree. The department also offers courses toward an interdisciplinary Minor in Applied Ethics. See page 223 for further information.

Program Planning

Although PHIL 100 is not required for a Major or Honours degree in Philosophy, students planning to take a Philosophy degree are advised to take this course in their first year. They are strongly advised to satisfy the logic requirement (at least two of PHIL 201, 203, 370) by the end of their second year of study. Students are advised that some 200-level courses (PHIL 201, 203, 211, 220, 230, 240, 260) are prerequisites for advanced courses. Courses numbered 300 and above normally require 4.5 units of Philosophy courses. Students are advised to take, in their second year of study, the 200-level courses which are the prerequisites for the advanced courses they plan to take. Students intending to take a Major or Honours degree are strongly advised to discuss their plans with the department's undergraduate adviser.

See the Department Handbook at <web.uvic.ca/philosophy/home/handbook.pdf>.

Co-operative Education Programs

Please, see page 135.

Program Requirements

Honours Program

30 units of courses in Philosophy, including at least 21 units numbered 300 and above.

At least two of PHIL 201, 203, 370 (if selected, 370 cannot count towards upper-level requirements) .......................... 3.0
One of PHIL 301, 303 .................................................. 1.5
One of PHIL 306, 308, 309 .......................................... 1.5
One of PHIL 301, 303, 306, 308, 309 not selected above ................................................................. 1.5
One of PHIL 352, 354, 362 .......................................... 1.5
One of PHIL 351, 356, 358 .......................................... 1.5
One of PHIL 335, 338, 339 .......................................... 1.5
9.0 units of Philosophy courses numbered 300 and above (excluding PHIL 321, 330, 331, 333) .......................... 9.0
3.0 units of Philosophy courses numbered 400 and above ................................................................. 3.0
6.0 units of Philosophy at any level ........ 6.0
To obtain an Honours degree, a student must have a minimum 5.0 graduating GPA and have a minimum 6.0 GPA in all credit courses taken in Philosophy.

Major Program
21 units of courses in Philosophy, including at least 15 numbered 300 and above.
At least two of PHIL 201, 203, 370 (if selected, 370 cannot count towards upper-level requirements) ........................................ 3.0
One of PHIL 301, 303 ........................................ 1.5
One of PHIL 306, 308, 309 ........................................ 1.5
One of PHIL 301, 303, 306, 308, 309 not selected above ........................................ 1.5
One of PHIL 352, 354, 362 ........................................ 1.5
One of PHIL 351, 356, 358 ........................................ 1.5
One of PHIL 353, 338, 339 ........................................ 1.5
6.0 units of Philosophy courses numbered 300 and above (excluding 321, 330, 331, 333) . . . . 6.0
3.0 units of Philosophy courses (any level) ...... 3.0

General and Minor Programs
13.5 units of courses in Philosophy. Of these, at least 9.0 must be numbered 300 or higher.
4.5 units selected from PHIL 100, 201, 203, 207, 210, 232, 251, 252, 260 ........................................ 4.5
9.0 units of courses in Philosophy numbered 300 or above ........................................ 9.0

Religious Studies Program
Director: Martin Adam, BA (Calgary), MA (Waterloo), PhD (McGill), Associate Professor, Department of Pacific and Asian Studies

The program introduces students to the academic discipline of Religious Studies with a particular focus on the place and function of religions in society both today and in the past. Formal study of the religious traditions that one finds throughout the world and throughout history is widely considered to be an integral part of humanistic studies. The program reflects the growing diversity of belief systems within Canada and emphasizes the need to understand differences between religions in our increasingly interconnected world. Students will be introduced to the major world religions and contemporary religious issues, learn ways of understanding religion and develop their knowledge of specific religious subjects.

Religious Studies offers Major, General and Minor programs leading to the degree of Bachelor of Arts. Students may also undertake the Major in Religious Studies together with a Major Program in another department (see “Double Major Program”, page 134), or with a Major in another faculty (see “Interfaculty Program”, page 135). By completing the requirements for the General Program together with a Major or Honours Program in another department or faculty, students may obtain a Minor (see “Minor Program”, page 135).

Students interested in pursuing a program in Religious Studies should consult with the Program Director, c/o Faculty of Humanities Interdisciplinary Office, Clearihue D264.
Website: <web.uvic.ca/rels>

CO-OPERATIVE EDUCATION PROGRAMS
Please, see page 135.

PROGRAM REQUIREMENTS

Major Program
The Religious Studies Major requires 6 units of courses at the 100 or 200 level and 15 units at the 300 or 400 level.

Required Courses
Lower-Level:
RS 200A Introduction to Judaism, Christianity and Islam ........................................ 1.5
RS 200B / PAAS 204 Introduction to Asian Religions ........................................ 1.5
6 units of courses, selected from the list of Eligible Courses at the 100 or 200 level .......... 3.0

Upper-Level:
RS 301 Contemporary Religious Issues ........................................ 1.5
RS 302 Ways of Understanding Religion ........................................ 1.5
RS 401 Topics in Religious Studies or RS 403 Studies in Religion and Society ........................................ 1.5
9 units of courses numbered 300 and above selected from RS offerings and from the list of Eligible Courses (no more than 4.5 units may be selected from any one department) .. 9.0

General and Minor Programs
Religious Studies may be taken as part of a General Program or, as a Minor, together with an Honours or Major program in another department or faculty. If any upper-level course forms part of the student’s Honours, Major, or General program, it cannot be used to fulfill the requirements for the Minor in Religious Studies.

Required Courses
Lower-Level:
RS 200A Introduction to Judaism, Christianity and Islam ........................................ 1.5
RS 200B / PAAS 204 Introduction to Asian Religions ........................................ 1.5
6 units of courses at the 100 or 200 level and 15 units at the 300 or 400 level ........... 6.0

Eligible Courses
See <web.uvic.ca/rels/electivedepartments.htm> for a list of courses that are available each year.

Additional Eligible Courses:
“Topics” courses (especially in English, History and Medieval Studies) will be accepted for credit at the Program Director’s discretion, dependent upon the applicability of the material covered in the course, the approach of the course, and the assignments completed by the student.

Department of Women’s Studies
Annalee Lepp, BA (Winnipeg), MA (Manitoba), PhD (Queens), Associate Professor and Chair of the Department
Sikata Banerjee, BA (Dartmouth), MA (Denv), PhD (Wash), Professor
Jo-Anne Lee, BA (S Fraser), MA (Brit Col), PhD (Sask), Associate Professor
Christine Welsh, BA (Regina), Associate Professor
Thea Bacchion, BA (UBC), MA, PhD (Warwick), Assistant Professor
Laura Parisi, BA (Vermont), MA, PhD (Arizona), Assistant Professor
Heather Topley, BA, MA (Valdosta State), PhD (Alberta), Assistant Professor

Adjunct Appointments
Joan Coldwell, BA, MA (Lond), PhD (Harvard), Adjunct Professor
Britshk Lund, BA (San Diego), MA, ABD (Wash), Adjunct Assistant Professor Emerita
Christine St. Peter, BA (Tor), MA (York), PhD (Tor), Professor Emerita
Jennifer Waeliti-Walters, BA (Lond), L.-és-L. (Lille), PhD (Lond), Professor Emerita
Deborah R. Yaffe, BA (Calif, Los Angeles), BEd (Lond), MA (UVic), Senior Instructor Emerita

Student Information: 250-721-7378

Co-operative Education Programs
Please, see page 135.

Graduate Program
While the Women's Studies department does not have a graduate program, it occasionally offers courses under the auspices of the Faculty of Graduate Studies. See the UVic Graduate Calendar for details, or contact Women's Studies, 250-721-7378.

Program Requirements
Admission to Courses
Women's Studies courses are open to all University of Victoria students. In all required courses, registration priority will be given to students with:
1. A declared Major or Honours in Women's Studies
2. A declared Minor or General Program in Women's Studies
3. Previous courses in Women's Studies

Honours Program
Students interested in the Honours Program should consult with the Honours Adviser during their third year. All terms of acceptance must be met no later than June 30 of the term preceding their enrolment in WS 499.

Terms of acceptance for the Honours Program:
• A GPA of at least 6.5 in five upper-level Women's Studies courses
• A minimum GPA of 4.5 in all other courses
• Written permission of their proposed WS 499 supervisor

Honours Program Requirements
• WS 104
  • One of WS 203, 204, 205, 206, 207, 208, 209, 211, 219
  • 21 units of WS courses numbered 300 and above, which must include one of WS 321A, 334, 336, 337, 338, 430; 400A; 499
  • May NOT include WS 400B

Students may take more than the required units of Women's Studies courses as electives.

Major Program
Students may combine the requirements of a Major Program in Women's Studies and a Major in another discipline to obtain a Double Major.

Major Program Requirements
• WS 104
  • One of WS 203, 204, 205, 206, 207, 208, 209, 211, 219
  • 15 units of WS courses numbered 300 and above, which must include one of WS 321A, 334, 336, 337, 338, 430; 400A, 400B

Students may take more than the required units of Women's Studies courses as electives.

General and Minor Programs
A General Program leading to a BA is also offered. Students may obtain a Minor degree in Women's Studies by combining the General Program requirements in Women's Studies with a Major or Honours in another department or faculty.

General Program Requirements
• WS 104
  • One of WS 203, 204, 205, 206, 207, 208, 209, 211, 219
  • 9 units of WS courses numbered 300 and above

Students may take more than the required units of Women's Studies courses as electives.

Course Index
Course prerequisites are specified under individual course descriptions.

First Year
WS 104 (1.5) Gender and Social Justice

Second Year
WS 203 (1.5) Popular Culture
WS 204 (1.5) Fast Feminisms: Past and Present
WS 205 (1.5) Gender, Food and Culture
WS 206 (1.5) Globalization and Resistance
WS 207 (1.5) Indigenous Women in Canada
WS 208 (1.5) Sex in Space

WS 209 (1.5) Gender and Health, Power and Resistance
WS 211 (1.5) Contested Girlhoods
WS 219 (1.5) Topics in Women's Studies

Third Year

Economies, States and Global Issues
WS 311 (1.5) Sex Work, Trafficking and Human Rights
WS 313 (1.5) Gender, Globalization and the Love Industry
WS 314 (1.5) Imagining India from Empire to Bollywood
WS 315 (1.5) Gender and International Human Rights
WS 316 (1.5) Gender and International Development
WS 317 (1.5) Sexuality and the Body in International Development
WS 319 (1.5) Topics in Economies, States and Global Issues

Power, Identities and Difference
WS 321A (1.5) Topics in Queer Theory
WS 322 (1.5) Gender, Law and Resistance in Historical Perspective
WS 323A (1.5) The Medicalization of Sex
WS 324A (1.5) Girl Power and Feminisms
WS 325 (1.5) Women in Contemporary India
WS 326 (1.5) Gender, Nation and War
WS 329 (1.5) Topics in Power, Identities and Difference

Feminist Theories and Activism
WS 322A (1.5) Monstrous Women
WS 334 (1.5) What's Race Got to Do with It?
WS 335A (1.5) Feminist Participatory Action Research (FPAR)
WS 336 (1.5) Anti-Racist Feminisms and Democratic Futures
WS 337 (1.5) Bodies Out of Bounds
WS 338 (1.5) Transnationalism, Migration and Gender
WS 339 (1.5) Topics in Feminist Theories and Activism

Film, Literature and Cultural Production
WS 340 (1.5) Indigenous Cinema
WS 341 (1.5) Indigenous Women's Narrated Lives
WS 344 (1.5) Reimagining History in Contemporary Women's Fiction
WS 345 (1.5) Lesbian and Queer Literature
WS 349 (1.5) Topics in Film, Literature and Cultural Production

Fourth Year
WS 400A (1.5) Feminist Research Practices
WS 400B (1.5) Research Seminar for Independent Project
WS 430 (1.5) Theorizing Feminisms
WS 450 (3.0) Practising Feminism in the Field
WS 480 (1.5) Advanced Seminar in Women's Studies
WS 490 (1.5) Directed Studies
WS 499 (3.0) Honours Graduating Essay
The Faculty of Law is committed to teaching law within its wider social, political, historical and economic contexts. Our students are equipped with a foundation of knowledge and skills needed for the practice of law as well as for the many professional roles in which legal training is invaluable. Our program provides opportunities to explore a variety of specialities and to gain practical experience within a collegial learning environment that is progressive, intellectually challenging and personally enriching.
Faculty and Other Officers

Elizabeth Adjin-Tettey, LLB (Ghana), LLM (Queen's), LLB (Calgary), DJur (Osgoode), Associate Dean Administration and Research, Professor

Gillian Calder, BA, LLB (UBC), Diploma in University Teaching (UNB), LLM (Osgoode), of the Bar of British Columbia, Associate Professor

Neil A. Campbell, BA Honours (UBC), LLB (Uvic), MLS (UBC), of the Bar of British Columbia, Law Librarian, Associate Professor

James L. Cassels, QC, BA (Carleton), LLB (Western), LLM (Osgoode), of the Bar of British Columbia, Professor

M. Cheryl Crane, BA, LLB (Saskatchewan), LLM (Cambridge), of the Bar of Saskatchewan, Associate Professor

Deborah L. Curran, BA Honours (Trent), LLB (Uvic), LLM (California at Berkeley), Hakai Professor in Environmental Law and Sustainability, Assistant Professor

Maneesha Deckha, BA (McGill), LLB (Toronto), LLM (Osgoode), Associate Professor

Gerard A. Ferguson, BA (St Patrick's), LLB (Ottawa), LLM (NY), of the Bar of Ontario, University of Victoria Distinguished Professor, Professor

Hamar Foster, QC, BA (Queen's), MA (Sussex), LLB (UBC), MJur (Auckland), FR Hist S, of the Bar of British Columbia, Professor

Judy Fudge, BA Honours (McGill), MA (York), LLB (Osgoode), DPhil (Oxford), Lansdowne Chair in Law, Professor

Glenn Gallins, QC, BA (Wisconsin, MS (Wisconsin), LLB (UBC), LLM (London), of the Bar of British Columbia, Director of the Law Centre Clinical Legal Education Program, Associate Professor

J. Donald Galloway, LLB (Edinburgh), LLB (Harvard), Professor

Mark R. Gillen, BComm (Toronto), MBA (York), LLB (Osgoode), LLB (Toronto), Professor

Calvin Sandborn, of the Bar of British Columbia, Adjunct Assistant Professor and Legal Director of the Environmental Law Centre

Judith Sayers, LLB (UBC), of the Bars of Alberta and British Columbia, Adjunct Professor

Qianfan Zhang, BSc (Nanjing), MSc, Ph.D. (Carnegie-Mellon), MA, Ph.D. (Texas), Adjunct Professor
General Information

The Faculty of Law offers a three-year program leading to the Juris Doctor (JD) degree. The faculty’s JD program qualifies students for articles and the practice of law in all provinces and territories except Quebec.

The faculty also offers the following programs:
• JD+MBA Double Degree Program
• JD+MPA Double Degree Program
• JD/BCL (Civil Law Degree Graduates)
• Concentration in Environmental Law and Sustainability

Co-operative Education Programs
Please, see page 161.

Limitation of Enrollment

Applicants for admission to the Faculty of Law should be aware that the number of applicants who meet the minimum requirements for eligibility far exceeds the number of places available. Candidates who meet admission requirements are not guaranteed admission to the faculty.

Faculty Admissions

Application for Admission

Information concerning admission is available from the Law Admissions Office or our website at <law.uvic.ca>. The on-line application form is available on the website.

The application period opens September 1 and ends December 1. However, applicants in the Regular category are strongly encouraged to submit applications as early as possible, as offers will be made on a continual basis beginning in November.

Admission inquiries should be addressed to the Law Admissions Office:
Faculty of Law
University of Victoria
PO Box 2400 STN CSC
Victoria BC V8W 3H7
Phone: 250-721-8151
Fax: 250-721-6390
Email: lawadmissions@uvic.ca
Web: <law.uvic.ca>

Admission to the First-Year Program

Regular Applicants

To be considered for admission to the Faculty of Law, Regular applicants must:
• submit a completed application; and
• submit a Law School Admission Test (LSAT) score that is not more than five years old; and
• present proof of having received, with standing satisfactory to the Faculty of Law, a degree from the University of Victoria or an equivalent degree from a recognized college or university; or
• present proof of having completed, with standing satisfactory to the Faculty of Law, at least the first three years (45 units) of a program leading to a degree at the University of Victoria, or the equivalent at a recognized institution.

In addition, each applicant may be required to satisfy other requirements that may be prescribed from time to time.

Determination of Admissibility

Admission decisions are primarily determined by an applicant's pre-law academic record and Law School Admission Test (LSAT) score. Extra-curricular activities, community involvement, work experience and personal characteristics may be taken into account as well.

Special Access Applicants

To qualify under the Special Access category, an applicant's academic achievements or LSAT score must have been adversely affected by:
• cultural background, economic circumstances, physical, medical or learning disability or other relevant factors; or
• family or similar responsibilities and the consequent need to attend to these responsibilities or to maintain employment.

Selection from qualified Special Access applicants will be made on the basis of the applicant's:
• achievements in occupational endeavours, and community, public service and cultural activities that indicate an ability to succeed in law school;
• academic performance in any educational or training courses; and
• LSAT score.

An applicant who has not completed the minimum academic requirements for admission in the Regular category should demonstrate why it would be unreasonable to expect the applicant to complete the minimum academic requirements prior to entering law school.

Applicants who have less than three years of post-secondary education at the university or college level are very rarely admitted. Any such applicant must demonstrate the ability to perform at a level that meets the academic standards of the law school.

Aboriginal Applicants

The Faculty of Law desires that the number of First Nations, Metis and Inuit peoples in the legal profession increase substantially and, accordingly, encourages inquiries and applications from Aboriginal people.

Applications from Canadian Aboriginal people will be considered on an individual basis, taking into account such factors as academic performance, results of the LSAT, employment history, letters of reference, and past, present and future connection with the Aboriginal community. Applicants with less than three academic years of post-secondary education are rarely offered admission.

If an applicant's academic background makes it appropriate, the Admissions Committee may make an offer of admission conditional upon successful completion of the Program of Legal Studies for Native People, conducted by the Native Law Centre at the University of Saskatchewan. The faculty fully endorses this program, and considerable weight is placed upon the evaluation submitted by its director. For more complete information concerning the Program of Legal Studies for Native People, please contact:

The Director
Program of Legal Studies for Native People
Native Law Centre
University of Saskatchewan
101 Diefenbaker Place

Admission as an Upper-Level Student

Applications are considered from students in other law schools or with foreign law degrees who wish to transfer the Faculty of Law as upper-level students. The number of applicants accepted is determined each year by the number of available places in upper-year courses.

Applications for upper-level positions commencing in September should be submitted by April 30 (date subject to change). Where appropriate, the faculty may consider applications for entry in January of the Winter Session or May of the Summer Session.

Transfer Student Applications

Applications who wish to transfer to the Faculty of Law must complete a minimum of two years of legal education in the faculty in order to obtain a Juris Doctor (JD) degree from the University of Victoria. Applications must be accompanied by the following:
1. the applicant's academic record from law school and post-secondary studies; and
2. the applicant's reasons for seeking to transfer to the Faculty of Law.

Applications will be considered if:
1. the applicant meets all of the eligibility requirements for admission to the first-year program of the Faculty of Law (including the LSAT); and
2. the law courses which have been completed by the applicant are compatible with the curriculum of the Faculty of Law.
Preference is given to students who are academically outstanding and who have the potential to make a unique contribution to the academic program of the Faculty of Law. While consideration is given to an applicant’s reasons for wanting to transfer, compassionate grounds for transferring will not compensate for less competitive law school grades. Students who have undertaken their previous legal education at a Canadian law school will be given preference over applicants whose previous legal training was undertaken outside Canada.

Visiting Students
Applications from law students currently attending another university who wish to visit the faculty for one or two terms will be considered. A letter of permission from the student’s current law school is required prior to enrolment in UVic’s regular fall or spring terms as well as the summer session. If accepted, a visiting student’s course program must be approved by the Deans of both law schools or their designates.

Applicants with Canadian Civil Law Degrees
Please see section “JD for Civil Law Graduates” on page 160.

Applicants with Foreign Law Degrees
The Faculty of Law will consider applicants who have credentials in law from universities outside Canada. Such applicants should arrange to have their academic record evaluated by the National Committee on Accreditation before applying to the faculty. The National Committee is responsible for granting Certificates of Qualification, which are recognized by the various Canadian Law Societies for admission to the Bar. Decisions of the National Committee regarding requirements for the Certificate do not guarantee admission to the Faculty of Law. Admission to the faculty is competitive and subject to the availability of space. Normally the Law Faculty will not accept NCA applicants who are required to take the first year of the JD program. Information about the Certificate may be obtained by writing to:

- National Committee on Accreditation
- c/o Federation of Law Societies of Canada
- World Exchange Plaza
- 45 O’Connor, Suite 1810
- Ottawa ON, Canada K1P 1A4
- Email: nca@flsc.ca

Registration Information

Completion of Registration
In addition to completing the requirements for admission (see page 156), all students are required to register at the times announced by the Faculty of Law. All new students will be informed of the procedures for registration. Course registration for first year is handled by the faculty administration. First-year students are required to attend the opening assembly in September when they will receive their course schedules and other information.

All Letters of Admission or Authorizations to Reregister that are not used to register in the term or session to which they apply have no further validity.

Registration in any course is not confirmed until:
1. all course prerequisites have been met;
2. the required registration procedures have been completed;
3. all required fees have been paid (see “Payment Due Dates”, page 42); and
4. classes in the course have begun and the student is in attendance.

The faculty reserves the right to cancel the registration in a course of any student who fails to attend that course within seven calendar days of the commencement of the term, or of any student who is not able to demonstrate that all course prerequisites have been met.

A student who for medical or compassionate reasons is unable to attend a course during the first seven calendar days of the term may apply to the Associate Dean Academic and Student Relations within that time to confirm registration in that course, and the Associate Dean may confirm the registration. The exceptions are LAW 106 and LAW 350A where, for pedagogical reasons, students must be in attendance for the entire course.

Student Responsibility
Students are responsible for ensuring that:
- their courses have been chosen in conformity with Calendar regulations;
- their registration is complete and accurate;
- there is no discrepancy between the program they are following and the approved program recorded in the Associate Dean’s Office of the Faculty of Law; and
- any changes to their mailing address, email address or telephone number are promptly updated on their student record through “My page”.

Students may attend courses in which they are not registered, only with the express permission of the Associate Dean. Students may not register in a course for which they have previously received credit without the consent of the Associate Dean Academic and Student Relations.

A letter or email sent to a student’s address as currently on record in the Associate Dean’s Office of the Faculty of Law or on the student’s record in “My page” will be deemed adequate notification to the student for all matters concerning the University.

Registration For Both Terms in Winter Session
Students planning to undertake studies in both terms of the Winter Session must register by September for all courses they intend to take, including single-term courses beginning in January.

Changes in Registration
Courses may not be changed after the designated add/drop period at the start of each term without permission of the Associate Dean Academic and Student Relations. Failure to drop a course which a student does not intend to take will result in a failing grade.

Please refer to the information under “Fee Reductions”, page 42, for dropped courses.

Any student who after registration decides to drop all courses is withdrawing from the University and must notify the Associate Dean’s Office of the Faculty of Law in writing, which will in turn notify Records Services.

Temporary Withdrawal and Reregistration
Upon successful completion of first year, a student may, with the permission of the Associate Dean Academic and Student Relations, stop out of the JD program for a single period not exceeding two academic years, or on more than one occasion not exceeding a cumulative total of two years.

When a student stops out part way through an academic year or session, the regulations that are normally applicable to an academic year, including regulations for achieving standing in a year, will be applied to a program consisting of the term completed prior to stopping out and the next term that the student completed after re-enrolment.

When a student stops out after the completion of an academic year and the student re-enrolls in the second term of Winter Session, regulations that are normally applicable to an academic year, including regulations for achieving standing in a year, will be applied to a program consisting of the next two academic terms completed by the student.

In no case may a student retain partial credit for a full-year course that has not been fully completed.

Faculty Academic Regulations
In addition to the specific regulations stated below, students registered in the Faculty of Law are subject to the general academic regulations of the University.

Notwithstanding anything contained in the following regulations, the faculty shall exercise an equitable discretion in a particular case so as to achieve a fair and reasonable result.

Grading
Review of an Assigned Grade
Students are referred to the general University regulations (see page 31) and to the regulations adopted by the Faculty of Law. The following specific regulations apply to students in the Faculty of Law:
1. Any request for a review of a final grade must normally reach the office of the Associate Dean Academic and Student Relations within 21 days after the release of grades by the Associate Dean’s Office.
2. Where a final grade is based wholly or in part on any written materials other than an examination paper, such materials will, for the purpose of these procedures, be treated as if they are examination papers.

Graduation Requirements for the JD
To be awarded a JD, students must successfully complete the 15.0 units in the compulsory first year curriculum and a minimum of 29.0 upper year units. They must achieve standing in each of the three years of the law program, and must achieve standing in the program.
To be granted standing in first, second or third year, a student must:

1. Pass all of the courses in the student's approved program for the year without any N, F, or DEF grades in any course; and
2. Obtain a GPA of at least 3.00 in the courses not graded on a pass/fail basis.

Standing in the program will be granted when a student:

1. Achieves standing in each of the first, second and third years; and
2. Completes a research paper of not less than 7,500 words (exclusive of footnotes, endnotes, bibliography and appendices) on an approved subject with a grade of C+ or better during the second or third year. The requirement may be satisfied within an existing course or through directed research, upon approval of the supervising faculty member.
3. Students who commenced first year of the JD program in September 2009 or earlier must successfully complete the two upper level courses that were compulsory for students at that time: LAW 307 Civil Procedure, and LAW 309 The Law of Evidence.
4. Students who commence the JD program in September 2012 or later, or complete the JD requirements in 2015 or later must successfully complete the compulsory upper-level courses: Law 301 The Administrative Law Process, Law 315 Business Associations, and Law 360 Legal Ethics and Professionalism, or equivalent courses approved by the Associate Dean Academic and Student Relations in advance of students enrolling in the course as a means of satisfying the Federation of Law Societies of Canada's requirements.

The graduating GPA for law students will be calculated on all courses taken in the JD degree, including non-law electives and supplementals, regardless of course level.

**Part-time Students**

In addition to satisfying the above requirements, part-time students in second year or third year must satisfy the following requirements at the end of each academic session. In order to pro-

<td>N/A</td>
<td>Deferred examination granted. Used only for courses in which a deferral of course work has been granted because of illness, or other circumstances.</td>
</tr>
</tbody>
</table>

* These percentage ranges are standardized and will be used by all instructors in determining letter grades effective May 2012.

The percentage is not recorded on the student academic record or displayed on the student official transcript; the official 9 point grading system and letter grades are displayed on the academic record and official transcript.

The University Senate has approved transition from the 9 point grading system to a percentage grading system and the implementation is planned to take effect May 2014.
ceed to the next academic session, a part-time student must pass all of the courses in the student's approved program for the academic session and attain a grade point average of at least 3.00 in the courses for the academic session.

**Supplemental Examinations**

a) A full-time student who does not achieve standing as specified above, but attains a GPA of at least 2.00 will be permitted to write supplemental examinations in not more than two courses.

b) For the purpose of determining a student's eligibility to write supplemental examinations, a grade of COM in Law 350A: Clinical Law Term, or in any approved exchange term graded on a COM/F basis will be deemed to have a grade point value of 3.00.

c) Where a student enrolled in a clinical program or other course exclusively for a term (15 weeks) fails to meet the grade required to be granted standing, the matter will be referred to the faculty or a committee thereof. The faculty, after considering the recommendation of any committee to which the matter has been referred may confirm the failing grade or may permit the student to undertake any one or more of the following:

- supplemental examinations;
- the completion of such assignments, papers or tests as may be appropriate; and
- remedial work designated by the faculty.

Where, in the opinion of the faculty, the student's conduct or lack of competence in the clinical program or course may adversely affect members of the public or personnel including students associated with the program or course, the faculty may prohibit the student from re-enrolling in the program or courses, or the faculty may require the student to withdraw from the faculty.

d) Supplemental examinations may not be written in courses in which a student has attained a grade of C+ or better.

e) Supplemental examinations for the year are normally written in July.

f) The grade point value for supplemental examinations will be determined in accordance with the faculty grading scale (see table). The original sessional grade point average, original letter grade and a revised sessional grade point average, taking into account the supplemental examination results, will be recorded on a student's transcript.

**Special Examinations**

a) Subject to subsections (b) and (c), the faculty may authorize a student to write Special Examinations in order to achieve standing, where the faculty determines that a student's ability to write or to complete an examination or other academic requirement has been affected by illness, family affliction or other special circumstances.

b) A request for a Special Examination under subsection (a) must be made in writing to the Associate Dean Academic and Student Relations within five days after the date on which the original examination was written or was to be written, or within five days after the date on which the other academic requirement was due, and the student must provide a physician's report or other substantiating documentation as soon as possible.

c) For the purposes of providing evidence to the faculty as to the nature of the illness and the effect of that illness upon the student's ability to complete an examination or other academic requirement, the physician's medical report should be made on the form approved by the Faculty of Law for that purpose wherever possible. Where the form provided by the Faculty of Law is not used, the medical report should contain the kinds of information sought on that form.

d) Where a student has written an examination, a request for a Special Examination under (b) shall be confirmed or withdrawn by the student within 10 days after grades have been released by the Associate Dean's Office. Where the request is not confirmed within that 10-day period, it will be deemed to have been withdrawn.

e) Special Examinations for the year are normally written in July.

f) Students will be advised in writing with respect to procedures to be followed in such cases.

g) The mark obtained on a Special Examination or other academic requirement written pursuant to this regulation will replace only the mark the student had or would have had on that component of the course.

**Credit for Courses Outside the Faculty**

Students may, in their second and third years, take courses in other departments and schools in the University of Victoria for credit in the Faculty of Law. Students may not take Summer Session courses for credit unless they are enrolled full-time in the Law Faculty academic summer term, in which case faculty regulations respecting approval and unit limit for those courses will apply as if the course were taken in a fall or winter term of the JD Program.

Students may take up to 3 units of such courses over the two academic years.

Students must obtain the approval of the Associate Dean Academic and Student Relations and the outside instructor in advance of registration for any such course. The approval of the Associate Dean is based upon criteria set out in faculty regulations.

Students enrolled in the JD+MPA Double Degree program may take an additional 3 units of MPA 598 in lieu of 3 units of LAW 399. Please refer to “JD+MPA Double Degree Program” on page 160, for more information.

Students enrolled in the JD+MBA Double Degree program may take an additional 3 units of MBA 598 or MBA 596 in lieu of 3 units of LAW 399. Please refer to “JD+MBA Double Degree Program” on page 160, for more information.

**Repetition of a Year**

A student who fails to achieve standing in any year may apply to the faculty, through the Associate Dean Academic and Student Relations, for permission to repeat the year.

**Part-time Students**

A student who is admitted as a part-time student may not become a full-time student until the student has achieved standing in first year.

In order to continue as a part-time student after achieving standing in first year, a student must demonstrate to the faculty at the beginning of each academic session that he or she continues to be able to attend on a full-time basis because of health reasons or physical disability, or exceptional family or financial hardship.

A student who achieved standing in first year as a full-time student may apply to continue his or her studies as a part-time student. The faculty may allow a limited number of these students to enrol as part-time students upon being satisfied that a student is unable to continue as a full-time student because of health reasons, physical disability, family or financial hardship.

**Regulations Concerning Student Conduct and Competence in Clinical Programs**

For the purposes of these regulations, clinical programs include:

- LAW 349 Business Law Clinic
- LAW 350A Law Centre Clinical Program
- LAW 353 Environmental Law Centre Clinic
- LAW 353A Environmental Law Centre Clinic - Intensive Stream

Where, during the course of a term, there are reasonable grounds to believe that the conduct or lack of competence of a student enrolled in a clinical program has adversely affected or may adversely affect:

- clients of the program;
- personnel, including students, associated with the program; or
- the program's relationship with the judiciary, members of the bar or other persons involved with or affected by the activities of the program;

the Director of that program may restrict the activities of the student as he or she deems advisable, and the Dean, upon the request of the Director, may require the student to withdraw temporarily from the program pending the receipt of a report on the conduct or lack of competence of the student.

After giving the student an opportunity to be heard, the faculty may re-instate a student who has been obliged to withdraw temporarily from a program or require the student to withdraw permanently from the program if the faculty is satisfied that the student's conduct or lack of competence may affect members of any of the groups identified in the preceding paragraph.

Where the faculty requires a student to withdraw from a clinical program, a grade of N will be entered on the student's academic record and transcript.

**Law Program Requirements**

**First Year Program**

All courses in the first-year program are compulsory. Full-time students must enrol in all courses in the first-year program.

In the first academic year of attendance, part-time students must enrol in courses amounting to not fewer than 7 units of courses including:

- LAW 104 (1.5) Law, Legislation and Policy
- LAW 106 (1.0) The Legal Process
- LAW 110 (1.5) Legal Research and Writing
Part-time students must complete the remainder of the compulsory first-year program in the second academic year of attendance.

**SECOND- AND THIRD-YEAR PROGRAMS**

The Faculty of Law may designate courses as compulsory, prerequisite or recommended courses.

In each of the second and third years of the program, a student will enrol in a course program which has been approved by the Dean or the Dean's nominee.

- An approved program for a full-time student is one in which a student is enrolled in courses totalling not fewer than 14.5 units and not more than 16.5 units over the academic session (that is, during the 30-week period).
- An approved program for a part-time student is one in which a student is enrolled in courses totalling not fewer than 7 units and not more than 14.5 units, over the academic session (that is, during the 30-week period).

Without the permission of the Dean or the Dean's nominee, a full-time student may not carry fewer than 7 units or more than 8.5 units in one term per session (that is, during the 15-week period). Without the permission of the Dean or the Dean's nominee, a part-time student may not carry fewer than 3 units or more than 7 units in one term per session (that is, during the 15-week period).

In order to complete the program requirements, a student must enrol in approved programs for the second and third years which amount to a total of not fewer than 29 units.

**JD+MBA Double Degree Program**

Students who apply and are accepted into both the Law Faculty JD and Business Faculty MBA programs may earn both degrees concurrently with modified requirements for each. The two degrees normally require five years of study, whereas double degrees may be completed in four years. For information on the MBA program requirements, please see the UVic Graduate Calendar.

To complete the JD portion of the program, a student must complete the entire first-year law curriculum. After that, the JD portion of the program requires a student to complete 29 units of law upper year courses, or law-approved courses as follows:

- 6 Units of MBA courses (MBA Foundation Courses - 3 units; and MBA 596 or MBA 598 – 3 units) in lieu of Law Faculty’s 3-unit non-law course option in other faculties and Law 399 Supervised Research and Writing – 3 Units). See the UVic MBA Calendar for details
- 23 Units Law Upper Year Courses including:
  - All Compulsory JD Courses, including the major paper requirement
  - LAW 315 Business Associations
  - LAW 345 Taxation
  - Plus 3 of the following courses:
    - LAW 312 Debtor and Creditor Relations
    - LAW 313 Securities Regulation
    - LAW 314 Commercial and Consumer Law
    - LAW 316 Secured Transactions and Negotiable Instruments
    - LAW 317 Real Property Transactions
    - LAW 326A The Individual Employment Relationship
    - LAW 326B Labour Law
    - LAW 346A Advanced Taxation: Corporations
    - LAW 346B Advanced Taxation: International Taxation
    - LAW 347 Intellectual Property
    - LAW 349 Business Law Clinic (once)
    - LAW 332 International Trade Law
  - Other courses with approval of the Associate Dean, Academic and Student Relations

Students intending to enrol in the double degree program should be aware that scheduling of the program will ordinarily preclude the student's participation in Law Co-op.

Students enrolled in the JD+MBA double degree program are subject to the Law Faculty regulations (modified where necessary) in regard to their JD course requirements. Grade point averages for the purposes of awarding Law Faculty prizes and scholarships will be calculated only on Faculty of Law courses.

Students enrolled in the JD+MPA double degree program must submit two formal applications for graduation when registering in their final Summer or Winter session. Graduation application forms are available from Undergraduate Records for the JD degree and from Graduate Records for the MPA degree. Application deadlines are July 1 for the November convocation and December 1 for the June convocation. Both degrees must be conferred at the same Senate meeting, and be awarded at the same convocation.

**JD for Civil Law Graduates**

The Faculty of Law at the University of Victoria offers a program under which a limited number of Civil Law graduates from Quebec may, through subsequent studies, be awarded the JD degree.

Applicants for this program must commence their studies at the University of Victoria within two years of completing their Civil Law degree. Students will be admitted at the discretion of the Admissions Committee. The following are the academic requirements:

- A student who has completed the requirements of a Civil Law degree at a Canadian law school may obtain a JD from the University of Victoria by successfully completing an aggregate total of 22.5 units of courses at the University of Victoria Faculty of Law.
- Courses previously taken by the student at the University of Victoria as part of an Exchange Term Program may be included in this total.
- Students in the program must complete, or establish that they have taken the equivalent as part of their Civil Law degree, the following courses:
  - Contracts;
  - Property;
  - Torts;
  - Criminal Law;
  - Constitutional Law; and
  - Law Legislation and Policy.
- Students in the program must also complete, or establish that they have taken the equivalent as part of their Civil Law degree, any upper-year courses that are designated as compulsory.
- Students in the program must complete the faculty's major research paper requirement.
- Students in the program must not take courses towards their JD that substantially duplicate courses that they have taken towards their Civil Law degree.
- Students in the program may not (as part of their program) take courses at the University of Victoria outside the Faculty of Law and are not eligible for exchange terms outside the faculty.
- Students in the program must otherwise comply with all of the University of Victoria academic regulations and requirements (mutatis mutandis).

**Concentration in Environmental Law and Sustainability**

The Concentration provides students opportunity to take more courses in environmental law and sustainability.
Admission Requirements and Procedures

The Concentration is open to all UVic JD students who have obtained an average of C+ or better in their previous year of legal studies. Students must apply for admission to the Concentration. See the Associate Dean's website for details.

Concentration Requirements

Students accepted into the Concentration must fulfill requirements of the Concentration and also requirements of the JD Program. Students must obtain a grade of C+ or better in all required and elective courses for the Concentration. Students who successfully complete the Concentration requirements will receive a notation on their transcripts.

Required Courses

</tbody>
</table>

Other elective courses approved in writing by the Associate Dean, Academic and Student Relations, in advance of students enrolling in the course.

1. For students registered in Law 353A ELC Intensive, Law 353 ELC is a co-requisite in both terms in which the student is enrolled in Law 353A. For the purposes of the Concentration, Law 353, taken twice, may count as one elective course as well as a required course.
2. Students are required to enroll in Law 353A twice, in both fall and spring terms of a single academic year, for a total of 4.0 units. For the purposes of the Concentration, this course, at 4.0 units may count as two elective courses.

Co-operative Education Program

The University regulations with respect to Co-operative Education Programs (see page 46) are applicable to the Faculty of Law Co-op Program except to the extent that they are modified by regulations adopted by the Faculty of Law and approved by the Senate.

Admission to the Law Co-op Program

Students who are currently registered in first-year Law at the University of Victoria can apply to the Law Co-op Program. Admission to the faculty does not guarantee admission to the Law Co-op Program. Demand for Co-op consistently exceeds the number of available spaces. As a result, students who apply for admission to the program are selected through a lottery.

Program Requirements

A student who enrolls in the Law Co-op Program must satisfactorily complete a minimum of three Co-op work terms in order to receive a "Co-op" designation on their transcript.

Co-op work terms will normally alternate with academic terms. With the permission of the Associate Dean Academic and Student Relations, a student may be permitted to enrol in a maximum of two consecutive Co-op work terms or two consecutive academic terms.

With the permission of the Associate Dean, a student who has completed all degree requirements but who has not yet convocated may be permitted to enrol in a Law Co-op work term. A student who engages in such a work term is not eligible to convocate until after the work term has been completed.

Students may not obtain credit for any of their Co-op work terms on the basis of work experience obtained prior to their enrolment in the Law Faculty.

The performance of students registered in a Law Co-op work term will be graded as COM, N/X, or F/X.

The requirements for a pass grade in a Co-op work term include:
1. completion of at least 12 weeks of employment. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35;
2. a satisfactory evaluation of the student's performance in the Co-op work term by the Law Co-op Coordinator; and
3. submission by the student of a satisfactory Co-op work term report.

A student who does not fulfill these requirements will be given an F/X or N/X grade.

Students who fail a work term will normally be required to withdraw from the Co-op Program.

Regulations Concerning Student Conduct and Competence on Co-op Work Terms

Where there are reasonable grounds to believe that the conduct or lack of competence of a law student enrolled in the Law Co-op Program has adversely affected, or may adversely affect, the interests of an employer or the Law Co-op Program, the Dean or Coordinator may require a student to withdraw temporarily from a work term, or from the Law Co-op Program, pending the receipt of a report on the conduct or lack of competence of the student.

Where the Dean or the Coordinator has required a student to temporarily withdraw and has not reinstituted the student within a reasonable period of time, the faculty members of the Co-op Committee, after giving the student an opportunity to be heard, shall consider whether the temporary withdrawal should be lifted or made permanent.

The faculty members of the Co-op Committee may reinstate the student or, if they are satisfied that the student's conduct or lack of competence has adversely affected or may adversely affect the interests of an employer or the Law Co-op Program, they may require the student to withdraw permanently from a work term or from the Law Co-op Program.

Where a student is required to permanently withdraw from the Law Co-op work term, a grade of N/X will be entered on the student's academic record and transcript.

Voluntary Withdrawals from Law Co-op

A student may withdraw from Law Co-op before the first work term registration without a withdrawal appearing on the student's transcript. If a student withdraws from Law Co-op at any other time after registration in the first work term, a withdrawal will be entered on the student's transcript.

Where a student is registered in a Law Co-op work term and the student has commenced employment with an employer, the student will only be permitted to withdraw from the work term with the consent of the Coordinator. Withdrawal from such a work term without the Coordinator's consent, may result in the student being required to permanently withdraw from the Law Co-op Program. If the Coordinator consents to the withdrawal, the registration in that work term shall appear as a Withdrawal No Fault (WNF) on the transcript. If the cause of the withdrawal is not attributable to the student, the Coordinator may recommend a refund to the student of the fee for that Co-op work term.

Appeals

Students with concerns related to the Law Co-op Program or requests for authorization to change their program must first consult with the Coordinator.

If a student is not satisfied with a decision of the Coordinator, the student may appeal the decision in writing to the faculty members of the Co-op Committee. The faculty members of the Co-op Committee shall consider appeals from students. The faculty members shall request written submissions from the student and the Coordinator and may invite the student and the Coordinator to make oral submissions to the Committee. The Committee will communicate their decision in writing to the student and the Coordinator in a timely fashion.

If a student or the Coordinator is not satisfied with the decision of the Co-op Committee, the student or the Coordinator may appeal the decision of the Committee to the Executive Director, Co-operative Education Program and Career Services.

If the student is not satisfied with the decision of the Executive Director, Co-operative Education Program and Career Services, the student may appeal to the Senate Standing Committee on Appeals, where the matter under appeal falls within that Committee's jurisdiction. This appeal process is governed by the regulations outlined in "Appeals to the Senate" on page 41. Decisions of the Senate Committee on Appeals are final and may not be appealed to the Senate.
The Sciences encompass the various disciplines concerned with the study of the terrestrial and cosmic worlds and their phenomena. The study of science introduces students to methods of enquiry and approaches to learning that emphasize systematic observation, experimentation and critical thinking. Through the disciplines of Astronomy, Biochemistry, Biology, Chemistry, Earth and Ocean Sciences, Mathematics, Microbiology, Physics and Statistics, students have opportunities to engage in scientific discovery, to enhance their knowledge and comprehension of the universe, and to prepare themselves for a diverse range of stimulating careers.
General Information

Degrees and Programs Offered
The Faculty of Science comprises the Departments of Biochemistry and Microbiology, Biology, Chemistry, Mathematics and Statistics, and Physics and Astronomy, and the School of Earth and Ocean Sciences.

Each department in the faculty offers programs of varying levels of specialization in one or more disciplines leading to the degree of Bachelor of Science (BSc):

- an Honours Program which involves a high level of specialization in a discipline and requires 18 to 36 units in that discipline at the 300 or 400 level
- a Major Program which requires less specialization, usually 15 units in a discipline at the 300 or 400 level
- a General Program which requires 9 units at the 300 or 400 level in each of two disciplines

The disciplines in the faculty and the programs leading to the BSc are shown in the table below.

Several of the disciplines may be taken in combination with each other. Details of the combinations offered are presented under the entries for the individual departments.

Students can also combine a program in the Faculty of Science with a program offered in another faculty (see “Interfaculty Program”, page 166).

The Faculty of Science does not offer a Bachelor of Arts degree. However, students may combine a Science program with a non-Science program in an Interfaculty BA. This interfaculty BA degree is awarded by the non-Science faculty.

In most cases, it is possible for students to choose their courses for the first two years so that they can postpone to the end of second year their choice of the program they wish to follow.

Academic Advice and Program Planning

Interim Director
Susan Corner

Administrative Officer
Kelly Colby, BA (Whitman), MSc (Ithaca)

Advising Officers
Gillian M. Chamberlin, BA (UVic)
Denise J. Chan
Beth Christopher, BA (UVic)
Kelly Colby, BA (Whitman), MSc (Ithaca), acting
Joyce Gutenson, BA (Hons), MA (UVic)
Lori S. Olson, BSc, MPA (UVic)
Patricia Perkins, BSc (UVic), on leave

Advising Assistants
Lara Hannaford
Eleanor Lagrosa
Judy Macquarrie

Academic Advising Centre
Students who have been admitted to or plan to enter the Faculty of Science can seek academic advice or information about the programs in the faculty from the Academic Advising Centre, A203, University Centre.

Departmental Advising
Each academic department has advisers generally available throughout the year who can give advice about the courses and programs offered by their department.

Students who are not in attendance at the University when they want advice from a department should contact the Chair of the department for an appointment before coming to the campus.

Transfer Advising
Students planning to transfer to another faculty or university from the UVic Faculty of Science should consult with advisers in the other faculty or university before they make their choice of courses in the Faculty of Science.

Students planning to enter the Faculty of Education from the Faculty of Science should seek advice from the Education Advising Centre.

Students planning to transfer to the Faculty of Engineering to complete a degree in Computer Science should seek advice from the Department of Computer Science.

Record of Degree Program
All students continuing in the Faculty of Science must file a Record of Degree Program with the Academic Advising Centre. Please see “Declaring a Program”, page 164, for details.

Availability of Courses to Students in Other Faculties
Generally, courses offered in the Faculty of Science are open to students in other faculties who have satisfied any prerequisite courses. However, some courses or sections are open only to students in the Faculty of Science or to students in specific programs. Restrictions on enrollment are included under individual course descriptions.

Students in other faculties who propose to take courses offered in the Faculty of Science are responsible for determining if the courses can be used for credit in their degree program.

Definition of a Science Course
A science course is any one of the following:

- a course offered in the Faculty of Science, except:
  - a course designated as not being for credit in the Faculty of Science
  - a course designated as being for credit only in a non-science program

Note: All Honours and Major programs may be taken with a Co-operative Education Option.

2012-13 UVIC CALENDAR

- any course offered by the Department of Computer Science (CSC), all Software Engineering courses (SENG) and Medical Science (MEDS) courses
- a course that a student has taken at another institution for which the student has received transfer credit applicable to the categories defined above or for which the student has received transfer credit for a specified number of science units that are not equated to specific science courses

Limitation on Enrolment
Admission to UVic and the Faculty of Science is not a guarantee of placement in particular programs or courses. Departments may limit enrolment for a variety of reasons, and admission requirements may be raised.

Student Responsibility
Students are referred to the section “Course Selection Responsibility”, page 29.

Faculty Admissions
The requirements for admission to the Faculty of Science are presented on page 24. Applicants should note the following recommended courses for entry to faculty programs:

- Secondary school students who wish to study Biochemistry, Biology or Microbiology are strongly advised to include Biology 12 in their secondary school programs.
- All secondary school students planning to enter the Faculty of Science are advised to include Chemistry 12 in their secondary school programs and to achieve a score of at least 73% in Mathematics 12.
- Secondary school students who wish to study Astronomy, Chemistry, Earth and Ocean Sciences, or Physics are strongly advised to include Physics 12 in their secondary school programs.
- An approved Language 11 course (see page 24) is strongly recommended.
- Other prerequisites may be required for entry into courses and programs in particular disciplines. Students should take note of individual program requirements listed under each departmental entry as well as course prerequisites, listed at the end of individual course descriptions. Some Science departments offer courses to help students meet requirements
they may not have fulfilled prior to application to the Faculty of Science.

**Transfers from Other Faculties**

- Students in other faculties who wish to transfer into the Faculty of Science during their first session at UVic must have been eligible for admission to the Faculty of Science when they applied for admission to UVic.
- A student who wishes to transfer into the Faculty of Science after completing one or more sessions at UVic should have satisfactory standing as defined in the University regulations (see “Standing”, page 37), and must either:
  - have been eligible for admission to the Faculty of Science from secondary school; or
  - have credit for at least 9 units of Science courses including credit for at least 3 units of Mathematics selected from MATH 100, 101, 102, 151.

**Transfers from Colleges and Universities**

To be eligible for admission to the Faculty of Science from a college or another university, a student must have transfer credit for at least 12 units of courses with an average, as determined by UVic, of at least 60% calculated on courses taken most recently (to a maximum of 15 units). This requirement includes repeated and failed courses.

The student should also:
- have been eligible for admission to the Faculty of Science from secondary school; or
- be eligible for transfer credit for at least 9 units of Science courses including credit for at least 3 units of Mathematics selected from MATH 100, 101, 102, 151.

**Other Applicants**

Applicants from institutions other than colleges and universities must satisfy the faculty admission requirements on page 24 and present work they have completed that is equivalent to that specified for transfers from other faculties, colleges and universities, above.

---

**Faculty Academic Regulations**

**Course Credit**

**Credit for Courses at Other Institutions**

Normally, to be recommended for a degree by the faculty, a student must complete a minimum of 30 units of courses at UVic, including at least 18 of the minimum 21 units at the 300 or 400 level required for all degree programs and including:
- at least 12 of the 15 units at the 300 or 400 level required for the Major Program; or
- at least 6 of the 9 units at the 300 or 400 level required in each discipline of the General program; or
- if the student is in an Honours Program, not more than 6 units at the 300 or 400 level in the discipline of the Honours Program taken at another institution with the prior approval of the Chair of the relevant department.

Except as permitted by the regulations above, a student who has been admitted to the faculty may not take courses at another institution without the prior written approval, in the form of a Letter of Permission, of the Associate Dean of Academic Advising. To be eligible for a Letter of Permission, a student must have completed or been registered with at least 6.0 units at the University of Victoria.

Students are solely responsible for checking the University of Victoria credit for courses to be taken elsewhere, prior to registration, to make sure that there will be no duplication of course credit already received (see also "Duplicate and Mutually Exclusive Courses", page 32.)

Upon successful completion of such work, the student must request the other institution to send an official transcript to Undergraduate Records at UVic.

Students who are considering completing their degree requirements at another institution should note that generally other institutions cannot send transcripts of their academic records to Records Services at UVic in time for Records Services to be able to determine a student's eligibility to graduate at the earliest convocation. Such students who complete their degree requirements in the Spring will generally graduate in the Fall and those who complete their degree requirements in the Fall will generally graduate in the Spring.

Students authorized to attend another institution who accept a degree from that institution surrender the right to a UVic degree until they have satisfied UVic's requirements for a second bachelor's degree, page 40.

**Credit for Courses in Other Faculties**

All courses in other faculties are acceptable for use as elective credit in the Faculty of Science, if the regulations of the department offering the courses permit and prerequisites are met.

**Substitution of Elective Credit for Required Courses:**

With the consent of the department offering the student's degree, and with the permission of the Associate Dean of Academic Advising, a student may substitute up to 3 units of 300 or 400 level credit for required courses at the 300 and 400 level in a Faculty of Science degree program; such permission is invalidated if a student withdraws from the degree program of the department that provided the consent.

Students should review individual department entries for information on the use or substitution of elective credit.

**Graduation Standing**

The graduation standing of a student in the Faculty of Science is determined in accordance with the University regulations on page 37 and, for a student enrolled in an Honours Program, in conjunction with any Honours requirements specified by the departments concerned.

In cases of plagiarism and cheating, the Faculty of Science reserves the right to recommend to Senate the withdrawal of the "With Distinction" (see page 40) designation in addition to the penalties outlined in the University Policy on Academic Integrity, page 33.

Once a degree, diploma or certificate has been awarded by the University Senate, no change can be made to the programs that constitute that credential (see “Application for Graduation”, page 39).

**Declaring a Program**

All students continuing in the faculty must declare a program by filing a Record of Degree Program (RDP) with the Academic Advising Centre prior to graduation. If a degree program has been chosen and program entry requirements satisfied, students may file an RDP once they have attained second-year standing (credit for at least 12 units of course work) and should do so once they have attained third-year standing (credit for at least 27 units of course work). The purpose of this RDP is to ensure that proposed courses will meet the requirements of the selected program. Any subsequent change to a declared program also must be filed with the Academic Advising Centre.

Students who have not satisfied the University Academic Writing Requirement must do so before they declare their program.

The RDP is approved in writing by the Academic Advising Centre and, in the case of students who wish to pursue an Honours Program, by the department(s) concerned. Students who satisfactorily complete the program of courses set out in the RDP with the required grades are normally recommended for the degree.

Students who do not have an RDP approved, or who follow a program different from that set out in the approved RDP, may not be eligible to graduate.

Note: Students should be aware that limitations may apply to proposed combinations of the following: concurrent degree programs, degree/diploma combinations and degree/minor options.

**Time Limit for Degree Completion**

Although the Faculty of Science imposes no time limit for the completion of a General or Major program, a department in the faculty may, with the approval of the faculty, impose stated time limits for a General or Major program that it offers. Normally, students who have not completed their degree programs within five calendar years of first registration will be required to satisfy any revisions that may have been made to the program requirements since they first registered.

A student in an Honours Program is expected to complete the program in four years or, for a student in the Co-operative Education Program, in five years. A student who wishes to take longer to complete an Honours Program should seek prior approval from the Chair of the department concerned. Approval is not automatic.

---

**Faculty Program Requirements**

**Requirements Common to All Bachelor’s Degrees**

A student may proceed to a BSc degree, normally in one of three programs: Honours, Major or General. Combined Honours and Major programs are also offered (see below).

Each candidate for a Bachelor’s degree must:

1. include in the first 15 units presented for the degree not more than 9 units from any single
department, and at least 3 units from each of two other departments.
2. include in the next 15 units presented for the degree not more than 12 units from any single department, and at least 3 units from one other department.
3. have satisfied the “Academic Writing Requirement”, page 31.
4. have received credit for at least 21 units of courses at the 300 or 400 level, of which at least 18 units must have been taken at UVic.
5. have received credit for at least 60 units of university-level courses numbered 100 and above, of which normally at least 30 units have been taken at UVic.
6. have received credit for at least 33 units of science courses (see “Definition of a Science Course” on page 163).
7. have satisfied the requirements specified in this Calendar by the department whose program the student has taken.
8. have a graduating grade point average of at least 2.0 (see “Graduating Average” under “Standing at Graduation”, page 40, for details).

Honours Program
The Honours Program requires specialization in one or more disciplines in the last two or three years of a degree program and is intended for students of higher academic achievement. Students who plan to undertake graduate studies are strongly advised to follow an Honours Program.

Admission to an Honours Program
Admission to an Honours Program is restricted to students who have satisfied the prerequisites and met the minimum GPA's specified by the department(s) concerned, and who are judged by the department(s) to have the ability to complete the Honours Program. A student who wishes to be considered for admission to an Honours Program should apply to the Chair or Honours Adviser of the department (approval from both departments is required for admission to Combined Honours programs).

Requirements of the Honours Program
A student in an Honours Program must satisfy the requirements common to all bachelor's degrees in the Faculty of Science, listed above. Each department has its own requirements for its Honours Programs, which are specified in individual department entries elsewhere in the Calendar. Of the 300- and 400-level course units specified by the department concerned, not more than 6 may be taken at another acceptable post-secondary institution, and then only with the prior approval of the department's Honours Adviser.

Continuation in an Honours Program requires satisfactory performance as dictated by the department. If, in the opinion of the department, a student's work at any time is not of Honours standard, the student may be required to transfer to a Major or General program.

Normally, a student should complete the requirements for an Honours Program in four academic years (five years for those students enrolled in the Co-operative Education Program). Students who are undertaking a degree on a part-time basis, and who wish to be considered as candidates for Honours, should discuss the options with the department(s) concerned.

Mathematics and Statistics
Physical Geography and Earth and Ocean Sciences
Physics and Astronomy
Physics and Biochemistry
Physics and Computer Science
Physics and Earth Sciences (Geophysics)
Physics and Mathematics
Physics and Ocean Sciences (Ocean-Atmosphere Dynamics)

Double Honours Program
With the joint approval of the departments concerned, a student may be permitted to meet the requirements for an Honours Program in each of two departments in the Faculty of Science, both leading to the BSc degree.

Interfaculty Double Honours Program
If a student elects to complete an Honours Program in the Faculty of Science and a second Honours Program in another faculty, with one program leading to a BA and the other leading to a BSc, the program leading to the degree selected (BA or BSc) must be listed first on the student's Record of Degree form. If the second department listed offers both a BA Honours Program and a BSc Honours Program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

Students completing an Interfaculty program will be subject to the regulations of the faculty in which they are registered.

Joint Honours and Major Program
A student may elect to complete an Honours Program in one area of study together with a Major Program in another area of study, both within the Faculty of Science and both leading to the BSc degree. The Honours Program will be listed first on the student's Curriculum Advising and Program Planning (CAPP) form.

Interfaculty Joint Honours and Major Program
A student may elect to complete an Honours Program in one faculty together with a Major Program in another faculty. The Honours Program will be listed first on the student's Curriculum Advising and Program Planning (CAPP) form, and students will be subject to the regulations of the faculty in which they are registered.

If one of the two departments concerned offers a BA Program while the other offers a BSc Program, the student will receive either a BA or a BSc, depending on which is specified by the Honours Program. If the department offering the Major Program offers both a BA and a BSc program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

Major Program
The Major Program requires specialization in one discipline in the last two years of a degree program and may permit a student to proceed to graduate study if sufficiently high standing is obtained. The Major Program is also a good preparation for a professional or business career.

Requirements of the Major Program
A student in a Major Program must satisfy the requirements common to all bachelor's degrees in the Faculty of Science, listed above.

Each department has its own requirements for its Major Programs, which usually include the specification of 15 units, and not more than 15 units, of 300- and 400-level course work. At least 12 of these 15 units must be completed at UVic. A department may also specify and require up to 9 units of courses offered by other departments at the 300 or 400 level.

Major Programs
Astronomy
Biochemistry
Biology
Chemistry
Earth Sciences
Mathematics
Microbiology
Physics
Statistics

Combined Major Programs
Biochemistry and Chemistry
Biology and Earth and Ocean Sciences
Biology and Psychology
Chemistry and Earth and Ocean Sciences
Chemistry and Mathematics

Computer Science and Mathematics
Computer Science and Statistics
Financial Mathematics and Economics
Mathematics and Statistics
Physical Geography and Earth and Ocean Sciences
Physics and Astronomy
Physics and Biochemistry
Physics and Computer Science
Physics and Earth Sciences (Geophysics)
Physics and Ocean Sciences (Ocean-Atmosphere Dynamics)

Double Major Program
A student may complete the requirements for a Major Program in each of two disciplines in the Faculty of Science, both leading to the BSc degree, except for the following combinations: Bio-
chemistry with Microbiology; Astronomy with Physics; and Mathematics with Statistics.

**Combined Major with a Major Program**
A student can complete one of the Combined Major Programs listed above with another Major Program (in this faculty or in another faculty), but the discipline of the Major Program must not be either of the disciplines of the Combined Major Program.

**Interfaculty Program**
A student may elect to complete an Interfaculty Double Major or a Joint Honours and Major Program. In a Double Major Program, if one of the two departments concerned offers both a BA Major Program and a BSc Major Program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

In a Joint Honours and Major Program, the Honours Program is listed first on the student’s Curriculum Advising and Program Planning (CAPP) form, and students will be subject to the regulations of the faculty they are registered in. If one of the two departments concerned offers a BA Program while the other offers a BSc Program, the student will receive either a BA or a BSc depending on which is specified by the Honours Program. If the department offering the Major Program offers both a BA and a BSc program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

**BA or BSc Major in Environmental Studies**
A Major Program in Environmental Studies can only be taken as the second component of a Double Major or Joint Honours and Major Program.

**BA in Mathematics or Statistics**
Students who wish to obtain a BA in Mathematics or Statistics should register in either the Faculty of Humanities or the Faculty of Social Sciences, and complete the requirements common to all bachelor’s degrees in that faculty.

**General Program**
The General Program provides students with the opportunity to study broadly in two disciplines in the last two years of a degree program. It is not intended to prepare students for graduate study, although some graduate schools may accept graduates of a General Program if they have achieved sufficiently high standing.

**Requirements of the General Program**
A student in a General Program must satisfy the requirements common to all bachelor’s degrees in the designated faculty determined by the first subject area listed on the Curriculum Advising and Program Planning (CAPP) form.

The General Program requires:
- Completion of 9 units of course work at the 300 and 400 level in each of the two disciplines, as specified in the General Program requirements of the departments concerned.
- At least 6 of the 9 units in each discipline must be completed at UVic.

A student may complete a General Program in any two of the following or by completing one of the following and one of the Generals offered in another faculty. The degree will be a BA awarded by either the Faculty of Humanities or the Faculty of Social Sciences unless two Generals in the Faculty of Science are chosen, or one of the BSc Generals in Computer Science, Geography, or Psychology is combined with a second BSc General in the Faculty of Science.

**Biochemistry or Microbiology**
**Chemistry**
**Earth Sciences**
**Mathematics or Statistics**
**Physics**

A student may also complete a General Program that combines one of the above disciplines/areas of study with one of the following. The degree will be a BA awarded by either the Faculty of Humanities or the Faculty of Social Sciences.

- Arts of Canada Program (see page 221)
- European Studies (see page 222)
- Film Studies Program (see page 221)
- Indigenous Studies Program (see page 222)
- Social Justice Studies (see page 223)

**Minor Program**
A Minor is an optional program that allows students to study in an area outside their Honours, Major or General Program areas. Requirements vary and are specified in the Minor requirements of the department concerned. Where not specified, the requirements for a Minor follow the requirements for the department General Program in one area only.

- No more than 3 units of the 300- and 400-level course work required for the Minor can be taken elsewhere, and at least 6 of the units required for the Minor must be completed at UVic.

- If the Minor requires 9 units of 300- and 400-level course work, these 9 units cannot form part of the 300- and 400-level department requirements for a student’s Honours or Major Program. Corequisite courses in other programs may be counted towards the Minor.

- If the Minor requires less than 9 units of 300- and 400-level course work, no courses at the 300- or 400-level can form part of the requirements for a student’s Honours, Major or General Program or Option. Required or corequisite courses at the 200 level or higher in other programs or options may not be counted toward the Minor.

- Only one Minor can be declared on a student’s program.

In addition to department Minors, the following Minors are offered:

**Interdisciplinary Minors**
- Applied Ethics (see page 223)
- Arts of Canada Program (see page 221)
- European Studies (see page 222)
- Film Studies Program (see page 221)
- Indigenous Studies Program (see page 222)
- Social Justice Studies (see page 223)
- Technology and Society (see page 224)

**Student-Designed Minor**
Students may undertake an interdisciplinary Minor that is not listed in the Calendar. In addition to the requirements of the Minors listed above, this student-designed Minor must:
- Include courses from at least two departments, with a minimum of 3 units from each department
- Consist of courses taken only at UVic
- Have structure, coherence and theme; it cannot consist of unrelated courses
- Be approved by the Chair/Adviser of the departments concerned
- Be approved by the Associate Dean of Academic Advising
- Be declared by the end of the student’s third year

Students must discuss their proposed Student-Designed Minor with department Chairs/Advisers before submitting their request to the Associate Dean of Academic Advising. The Student-Designed Interdisciplinary Minor form is available from the Academic Advising Centre, A205, University Centre.

**Co-operative Education Programs**
Refer to page 45 of the Calendar for a general description of Co-operative Education.

Admission to and completion of Co-operative Education Programs are governed by individual departmental regulations. In general, students participating in the Co-operative Education Program must maintain a GPA of at least 3.5 overall. As a required part of the program, students are employed for specific Work Terms. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35. This employment is related as closely as possible to the student’s course of studies and individual interest.

Students who are taking double or combined major degrees, (where each area offers a Co-op program) may, if eligible, enrol in and undertake work terms in both Co-op programs or may, if eligible, enrol in and undertake work terms in only one Co-op program. Students who complete at least two work terms in each area will have the combined nature of their program noted as part of the Co-op designation on their official records. Students enrolled in combined major degrees where a minimum of three work terms are required must complete at most two work terms in one department.

In addition to the graduation requirements outlined on page 164, a student must have a graduating GPA of at least 3.5 in order to graduate with Co-operative Education notation.

Students may withdraw from the Co-operative Education Program at any time during an academic term and remain enrolled in a Major or an Honours Program.

The Faculty of Science offers Co-operative Education Programs in Biochemistry and Microbiology, Biology, Chemistry, Earth and Ocean Sciences, Mathematics and Statistics, and Physics and Astronomy. The details of the programs are provided under individual department entries.
Biochemistry and Microbiology Programs

The department offers Honours, Major, General and Minor Programs in Biochemistry or Microbiology, a Combined Major in Biochemistry or Microbiology and Chemistry, and a Combined Honours and Major in Biochemistry and Physics.

Co-operative Education Programs

Please, see page 169.

Program Requirements

Notes on Course Requirements

- Courses may be taken in different sequences and in different years from those indicated provided the corequisite and prerequisite requirements are satisfied. However, students must be extremely careful in planning programs that differ from the normal sequence and pay close attention to scheduling conflicts.

- Failure to take courses in the years indicated may delay graduation.

- Directed studies courses are normally only available to students with a minimum cumulative GPA of 3.0 and fourth-year standing in the Biochemistry or Microbiology programs.

- Students should consult the department concerning courses offered in a particular year.

- The department does not offer the E grade and supplemental examinations.

Honours Programs

Students who wish to be admitted to one of the Honours programs should apply to the department on completion of their third year. The general requirement for admission to the Honours Program is a GPA of at least 6.0 in the preceding 15 units of course work.

The Biochemistry and Microbiology Honours program offers students an intensive, advanced experience in academic studies and research. Students normally begin their Honours program in the fall term and are expected to complete the final year requirements of the Honours program in two consecutive academic terms. However, students in the Honours Biochemistry and Microbiology Co-operative Education Program may begin in the spring term, undertake a work term during the summer months, and complete in the fall term to fulfill the final year requirements in three consecutive terms.

An Honours degree will be awarded to students obtaining a minimum GPA of 5.5 in 300- and 400-level department courses, which must include a minimum grade of A- in BCMB 499A and B. If a student fails to meet the standards for the Honours degree, but does meet the Major degree requirements, the department may recommend the appropriate class of Major degree.

PHYS 325, 326 .................. 3.0
Total ......................................................... 15.0

Fourth Year

Two of BIOC 401, 403, 404, 407, 408 .................. 3.0
PHYS 214; 313 or 314; 321A, 323 .................. 6.0
PHYS electives .................. 2.0
Electives ................................................. 3.0
Total ......................................................... 15.0

1. Must have credit for Biology 11/12 or BIOL 150A and 150B or equivalent.
2. Chosen from Physics and Astronomy courses (or other approved courses) numbered 300 or higher.
3. One of PHYS 460 and ASTR 460 is recommended for third- and fourth-year students.

Biochemistry and Microbiology

Co-operative Education Program

The Co-operative Education Program at UVic is described in general on page 45 and specifically on the Faculty of Science on page 166.

Co-op/Internship Program Requirements

Entry into the Biochemistry and Microbiology Co-operative Program is restricted to students who are enrolled in an Honours or Major Program offered by the department. To qualify for entry and continuation in the Co-operative Education Program, students must be enrolled on a full-time basis and must normally maintain a B average (4.5) in Biochemistry and Microbiology courses, and overall. Students are also required to satisfactorily complete four work terms. The first work term is undertaken in the Summer following the second academic year. After the first work term, academic and work terms alternate. Each work term will be recorded on the student’s academic record and transcript (as COM, N/X, or F/X).

Students who are taking double or combined major degrees, programs, who wish to participate in a combined Co-op program, should refer to the Faculty of Science Co-operative Education Program regulations found on page 166. A student may at any time during an academic term transfer from the Biochemistry and Microbiology Co-operative Education Program to a regular Biochemistry and Microbiology program.

The department also offers an optional Internship Education Program. Students are required to satisfactorily complete 12 or 16 months of consecutive work term placements, beginning in the Spring or Summer of the third academic year. The Internship Education Program may be combined with an Honours Program.

Applications and further information about the Co-operative Education Program in Biochemistry and Microbiology are available from the department or at <www.uvic.ca/biocoop>.

Biology Programs

Students have the opportunity to study Biology at one of the following levels of concentration: General, Minor, Major or Honours. BSc Honours and Major Programs are intended for those planning to become professional biologists. Both require a core of Biology courses, corequisite courses in the other sciences and a selection of upper-level courses suited to the interests of individual students. The Honours Program requires undergraduates to undertake a research project including the writing and defense of an Honours thesis. Students intending to pursue research or continue their studies for MSc or PhD degrees should consider the Honours Program. The distinctive character of BSc or BA General Programs is the variety of course options possible. Students in these programs may wish to combine a concentration in Biology with one in another science area (BSc) or an arts area (BA). Such interdisciplinary programs may be advantageous to students considering a postgraduate degree in the Health Sciences or Education.

Biology Courses for Non-Majors
The Biology department offers several courses for students not undertaking an undergraduate program in Biology. These courses cover areas of Biology of general interest and relevance. Courses in this category include BIOL 150A, 150B, 334, and 400. Certain other courses may be taken with the permission of the instructor.

Biology Courses Offered Through the Bamfield Marine Sciences Centre
Marine Science courses (MRNE courses in the course listings) are offered at the Bamfield Marine Sciences Centre, the majority during the summer months. Registration information for the Summer Program is available from the Biology department and our website: <www.bms.bc.ca>.

Bamfield Marine Science Centre also offers a 7.5 unit Fall Program. Students accepted into this program will have at least third-year standing in Biology. Contact the Biology department for further information.

Bamfield courses taken by students at the University of Victoria will be treated as if they had been offered by the Biology department at the University of Victoria in determining the student's grade point averages, and in satisfying University, faculty, and departmental program requirements.

Co-operative Education Programs
Please, see page 173.

Program Requirements

Notes on Course Requirements
- Biology 12 is normally required for entry into Major, Honours, General or Minor Programs. Students with Biology 11 only are required to take BIOL 150B to enter Majors, Honours or General Programs.
- Major and Honours students are expected to participate fully in all aspects of laboratory work including handling live and preserved organisms. Laboratory work using animals is reviewed annually by the UVic Animal Care Committee and complies with guidelines established by the Canadian Council on Animal Care. Students who are unwilling to use animals and plants for educational purposes will not normally be able to complete a Major or Honours Program. The General Program provides an alternative for students in such a position. Stu-
The student should write to the Chair of the Biology department if students have ethical or health concerns that interfere with normal program requirements. Students may be required to meet part of the expenses involved in required field trips.

- Students must complete 61 units of course work, including at least 15 units of required courses.
- Students must maintain a minimum GPA of 5.5.
- Students who obtain a minimum GPA of 5.5 and a minimum grade of A- in BIOL 499, will receive an Honours in Biology. A student with a GPA of less than 5.5 will receive a Major in Biology, regardless of the grade obtained in BIOL 499. The submission date for the thesis is the last day of lectures.

Proficiency in more than one language is often required in graduate studies. Students planning graduate work are encouraged to elect one or two language courses.

### Notes on Biology Upper Level Electives

Biology upper level electives should be chosen with the student's full program in mind. Students cannot expect to be admitted to courses without the prerequisites.

### Honours Program

Honours students complete the program of required courses shown below and the Biology electives as described for the Major, and in addition take BIOL 460 (1.0) and BIOL 499 (3.0) in their fourth year. Of the remaining 9 units to complete the 61 unit requirement, at least 3 units must be from an additional course(s) in Biology chosen in consultation with the department.

Any prospective Honours students should first discuss proposed thesis research with a faculty member and obtain the member's consent to serve as thesis supervisor. The student should then apply to the departmental Honours Adviser for admission to the Honours Program by May 1 in the third year of studies. However, applications will be accepted up to the end of fall registration in the fourth year of studies. The completed thesis will be examined by a small committee including the supervisor. Applicants should have and maintain a GPA of at least 6.0 in all department courses.

A student who obtains a minimum GPA of 5.5 and a minimum grade of A- in BIOL 499, will receive an Honours in Biology. A student with a GPA of less than 5.5 will receive a Major in Biology, regardless of the grade obtained in BIOL 499. The submission date for the thesis is the last day of lectures.

Proficiency in more than one language is often required in graduate studies. Students planning graduate work are encouraged to elect one or two language courses.
program. Students with Biology 11 only are required to take BIOL 150B.
2. Students should note that EOS 240 is a prerequisite for several upper-level EOS courses (EOS 316, 335, 403, 408, 416, 420, 425, 440, 450, 460).
3. EOS 300 is strongly recommended for all students.

Combined Honours Program in Biology and Earth and Ocean Sciences

Admission to the Combined Honours Biology and Earth Sciences Program requires the permission of both the Department of Biology and the School of Earth and Ocean Sciences. To receive an Honours degree, a student must obtain:
1. (a) a minimum grade of 5.5 overall;
2. (b) a minimum GPA of 6.0 in SEOS or Biology courses at the 300 and 400 level; and a minimum grade of A- in BIOL 499A and 499B.

3. Recommended courses include EOS 403, 425, 440, 480.

Combined Biology and Psychology Program Requirements

Both Major and Honours BSc degrees are offered in the Combined Biology and Psychology Program. These are not joint degrees in Biology and Psychology, but single degree programs composed of a selected combination of courses from each of the departments. These programs are intended for students with interests and career goals in any area of neuroscience, including neuroethology, human biology, medicine, dentistry, or nursing. Students should consult with undergraduate advisors in both departments when planning their course schedules.

Other Requirements

1. Three units of ENGL courses, including 1.5 units of English composition chosen from ENGL 115, 135, 146, 147, 215, ENGR 240.
2. Three units of Statistics courses chosen from one of the following pairs: PSYC 300A and 300B; STAT 255 and 256; STAT 260 and 261.
3. MATH 100 or 102 or 151.
4. CHEM 101 and 102.
5. CHEM 231 and either 232 or 235.
6. BIOL 299.
7. PHYS 102 or 112; or 120 and 130.
8. Any CSC course.

Other Courses of Potential Interest (Electives)7

- BIOL 215, 230, 307, 321, 322, 335, 360 (required for BIOL 309), 361, 400
The Co-operative Education Program at UVic is described in general on page 45 and specifically for the Faculty of Science on page 166.

**Biology Co-operative Education Program**

The Co-operative Education Program at UVic is open to students who are enrolled in an Honours or Major Program offered by the Biology department. To qualify for entry and continuation in the Co-operative Education Program, students must be enrolled on a full-time basis and must maintain a B average (5.0) in Biology courses and overall. A minimum of four work terms is required to graduate with Co-op designation. The first work term is undertaken in the Winter or Summer of the second academic year. After the first work term, academic terms and work terms normally alternate. Each work term will be recorded on the student's academic record and transcript (as COM, N/X or F/X).

Students who are taking double or combined major degrees programs, who wish to participate in a combined Co-op program, should refer to the Faculty of Science Co-operative Education Program regulations found on page 166.

A student may transfer from the Biology Co-operative Education Program to a regular Biology program at any time during an academic term.

Applications and further information may be obtained from the UVic website (Biology Co-operative Education Program: <www.chemistry.uvic.ca/co-op> or by contacting the office directly at: 250-721-8637.

**Chemistry Programs**

The Department of Chemistry offers a variety of programs leading to the BSc degree. These are intended to provide students with the opportunity of undertaking either specialized studies in Chemistry, or a broader program with Chemistry as a focal point supplemented by other disciplines. These programs provide preparation for a wide range of careers requiring a background in Chemistry.

The Honours and Major Programs are designed for those students wishing to embark on careers as professional chemists. In the Honours degree,
a student undertakes an in-depth study of Chemistry with other supporting physical sciences. Each student will participate in a short research project in the final year of study. The Honours Program normally requires 39 units of Chemistry courses within a total of 60 units for the degree. Six units of Mathematics, 3 units of Physics, 1.5 units of Biochemistry, and 1.5 units of another science are corequisites. On graduation as a chemist, the candidate may either enter employment in a variety of industries or proceed to graduate school and the higher qualifications of MSc and PhD.

The Major Program provides the student with somewhat more flexibility in the choice of courses. The program requires 27 units of Chemistry, together with 6 units of Mathematics, 3 units of Physics, 1.5 units of Biochemistry, and 1.5 units of another science as corequisites. The degree is sufficiently specialized to present an attractive background in Chemistry to a prospective employer and to provide the opportunity for students maintaining high averages to continue to graduate school. Both the Honours and Major programs are suitable for students intending to enter a career in teaching at the secondary level.

A student may complete a Minor in Chemistry by completing the first- and second-year requirements and the third-year Chemistry courses required for the General Program in Chemistry in conjunction with the requirements for an Honours or Major Program offered by another department (which need not be in the Faculty of Science).

The department also offers considerable scope for students wishing to include Chemistry as part of a BSc or BA General Program. Students with this training will frequently find career opportunities in industry, at both the technical and managerial levels, as well as in business, teaching and many other occupations. The influence of Chemistry in modern society is considered in CHEM 300A, a course intended for non-scientists who have successfully completed at least 15 units of university credit.

Co-operative Education Programs
Please, see page 176.

PROGRAM REQUIREMENTS

Notes on Course Requirements

- Courses may be taken in different sequences and in different years than those indicated provided the corequisite and prerequisite requirements are satisfied. However, students must be extremely careful in planning programs that differ from the normal sequence. Students who do not take CHEM 213 in the second year might find it difficult to complete their program in the normal time period.

- Safety glasses or goggles must be worn by all students in laboratories. Chemistry department laboratory notebooks may be purchased in the University Bookstore.

Credit for Previously Offered Courses

Students with credit in the following courses which are no longer offered may make the specified substitutions in any undergraduate program:

- CHEM 100 for CHEM 091 and 101
- CHEM 124 for CHEM 101 and 102
- CHEM 140 with at least B standing for CHEM 101 and 102
- CHEM 140 with less than B standing for CHEM 101
- CHEM 145 for CHEM 245
- CHEM 224 for CHEM 222 and 245
- CHEM 230 for CHEM 231 and 232
- CHEM 323 for CHEM 231 and 235
- CHEM 316 and 317 for CHEM 312 and 318
- CHEM 325 and 422 for CHEM 424 and 425
- CHEM 345 for CHEM 347
- CHEM 423 for CHEM 323
- CHEM 446 for CHEM 347

Fourth-year Course Selection

Lecture courses offered every year: CHEM 421, 432, 432, 458.

Laboratory courses offered every year: CHEM 461, 462, 463, 464.

Thesis/research courses offered every year: CHEM 498, 499A, 499B.

Offered in alternate years:

The following courses are offered, when possible, once every two years. To aid students in planning, they are listed below in their usual sequence. For up-to-date information on fourth-year course offerings, please see the Chemistry department's website at <www.chemistry.uvic.ca>.

One year: CHEM 300A, 411, 434, 459, 478.
Alternate year: CHEM 303, 400A, 437, 476.

Offered in response to student demand:

The following courses will be offered in response to student demand. Students should express their interest in these courses to the department as early in their program as possible to allow scheduling.

CHEM 473, 477.

Honours Programs

The general requirements for admission to an Honours Program after the second year are shown below.

Students require the permission of the department to enter an Honours Program and should consult the department, by interview or letter, no later than one month before the last day for submission of applications for admission or re-admission to UVic.

To graduate with an Honours degree in Chemistry, students must achieve a graduating GPA of at least 5.5.

1. For students with Chemistry 11 and Mathematics 12 or equivalents.
2. For students with Chemistry 12 and Mathematics 12 or equivalents.
3. Physics requirement may also be satisfied by PHYS 120 and 130 or PHYS 102 and 120.

4. CHEM 231 may also be taken in the second term of first year, and 1.5 units of these electives postponed.

5. Some 300 level courses may satisfy this requirement; students should check with the department in advance that the course they are proposing will be accepted.

6. This 0.75 unit laboratory course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units.

1. For students with Chemistry 11 and Mathematics 12 or equivalents.
2. For students with Chemistry 12 and Mathematics 12 or equivalents.
3. Physics requirement may also be satisfied by PHYS 120 and 130 or PHYS 102 and 120.

4. CHEM 231 may also be taken in the second term of first year, and 1.5 units of these electives postponed.
General and Minor Programs

First Year
CHEM 091 and 1011, or 1012 .......................... 1.5
CHEM 102 ................................................. 1.5
PHYS 1121 .............................................. 3.0
Electives4 .............................................. 6.0

Second Year
CHEM 212, 213, 221, 231, 235, 245 .................. 9.0
Electives .............................................. 6.0

Third and Fourth Years
6 units of additional Chemistry lecture courses numbered above 300, plus two of 3615, 3626, 363, 3646, .......................... 9.0
Electives5 .............................................. 21.0
1. For students with Chemistry 11 and Mathematics 12 or equivalents.
2. For students with Chemistry 12 and Mathematics 12 or equivalents.
3. Physics requirement may also be satisfied by PHY 120 and 130 or PHY 102 and 120.
4. CHEM 231 may also be taken in the second term of first year, and 1.5 units of these electives postponed.
5. Must include 9.0 units of 300 level or above in a second area of concentration for the General program.
6. This 0.75 unit laboratory course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units.

Combined Chemistry and Biochemistry or Microbiology Program Requirements
Students may obtain a Combined Major in Chemistry and Biochemistry or Chemistry and Microbiology.

Combined Major in Chemistry and Microbiology

First Year
BIOL 190 ................................................. 1.5
CHEM 091 and 1011, or 1012 ......................... 1.5
CHEM 102 ................................................. 1.5
ENG 115 (or 135) ......................................... 1.5
MATH 100, 101 ........................................... 3.0
PHYS 1121 .............................................. 3.0

Two of MICR 402, 405, 408 ................................ 3.0

Combined Major in Chemistry and Microbiology

First Year
BIOL 190A ................................................. 1.5
CHEM 091 and 1011, or 1012 ......................... 1.5
CHEM 102 ................................................. 1.5
ENG 115 or 135 ......................................... 1.5
MATH 100, 101 ........................................... 3.0
PHYS 1121 .............................................. 3.0
Electives4 .............................................. 3.0

Second Year
BIOL 2255 .............................................. 1.5
CHEM 212, 213, 221, 231, 235, 2456 .................. 9.0
One of MATH 122, 200, 201, 205, 211, 212 .................. 1.5
MICR 200A and 200B .................................. 1.5

Third Year
BCMB 301A, 301B ....................................... 3.0
BIOL 300A, 300B ....................................... 3.0
CHEM 324, 352, 353, 3626, 3636 ..................... 7.5
MICR 302, 303 ........................................... 3.0

Fourth Year
BCMB 406A, 406B ....................................... 3.0
Two of BIOC 401, 403, 404, 407, 408 .................. 3.0
CHEM 335 ................................................. 1.5
Three of CHEM 318, 347, 3616, 3646 ................. 4.5
Two of MICR 402, 405, 408 ................................ 3.0

Honours Program in Chemistry and Mathematics

First and Second Years
CHEM 091 and 1011, or 1012 .......................... 1.5
CHEM 102, 212, 213, 221, 231, 235, 245 ............. 10.5
CSC 110, 115 ............................................ 3.0
MATH 100, 101, 122, 200, 201, 211, 212, 236 ........... 12.0
PHYS 112 ................................................. 3.0
STAT 260 ................................................. 1.5

Third and Fourth Years
BIOC 299 ................................................. 1.5
CHEM 347, 352, 353, 3646 ............................ 6.0
CHEM 318 and 3616, or 324 and 3626, or 335 and 3636 .............................................. 3.0
CHEM 499A, 499B ....................................... 3.0
MATH 300 or 3356, 301, 312 ......................... 4.5
Three of MATH 322, 342, 346, 352, 365, 377, 379, 401, 412, 435, 442, 444, 451, 452, at least two of which must be numbered 400 or higher .............................................. 4.5
MATH or STAT course numbered 300 or higher .............. 1.5
Electives .............................................. 4.5
1. For students with Chemistry 11 and Mathematics 12 or equivalents.
2. For students with Chemistry 12 and Mathematics 12 or equivalents.
3. Physics requirement may also be satisfied by PHY 120 and 130 or PHY 102 and 120.
4. This 0.75 unit laboratory course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units.
5. Students wishing to take MATH 401, 435 or 446 must take 335.

Major Program in Chemistry and Mathematics

First and Second Years
CHEM 091 and 1011, or 1012 .......................... 1.5
CHEM 102, 212, 213, 221, 231, 235, 245 ............. 10.5
CSC 110, 115 ............................................ 3.0
MATH 100, 101, 122, 200, 201, 211, 212, 236 ........... 12.0
PHYS 112 ................................................. 3.0
STAT 260 ................................................. 1.5

Third and Fourth Years
BIOC 299 ................................................. 1.5
CHEM 347, 352, 353, 3646 ............................ 6.0
CHEM 318 and 3616, or 324 and 3626, or 335 and 3636 .............................................. 3.0
MATH 300 or 3356, 301, 312 ......................... 4.5
Two of MATH 322, 342, 346, 352, 377, 379, 381, 401, 412, 435, 442, 444, 451, 452, at least two of which must be numbered 400 or higher .............................................. 4.5
MATH or STAT courses numbered 300 or higher .............. 1.5
Electives .............................................. 7.5
1. For students with Chemistry 11 and Mathematics 12 or equivalents.
2. For students with Chemistry 12 and Mathematics 12 or equivalents.
3. Physics requirement may also be satisfied by PHY 120 and 130 or PHY 102 and 120.
4. This 0.75 unit laboratory course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units.
5. Students wishing to take MATH 401, 435 or 446 must take 335.
Combined Chemistry and Earth and Ocean Sciences Program Requirements

Both Majors and Honours BSc degrees are offered in the Combined Chemistry and Earth and Ocean Sciences Program. This program exposes students to the fields of geochemistry and chemical oceanography while providing a firm basis in the principles of chemistry. Students considering this program must contact the Chemistry department and the School of Earth and Ocean Sciences where an adviser from each discipline will be assigned. Students considering graduate studies in either Chemistry or Earth and Ocean Sciences must consult with their adviser from the appropriate discipline before making their final choices of courses.

Honours Program in Chemistry and Earth and Ocean Sciences

**First Year**
- CHEM 091, 101, 102; or 101, 102 [3.0]
- EOS 110, 120 [3.0]
- MATH 100, 101 [3.0]
- PHYS 112 [3.0]
- Electives [3.0]

**Second Year**
- CHEM 212, 213, 222, 221, 245 [7.5]
- EOS 201, 205, 240 [4.5]
- EOS 202 or 260 [1.5]
- MATH 200 or 205 [1.5]

**Third and Fourth Years**

**Third Year**
- BIOC 299 [1.5]
- CHEM 235, 318, 324, 347, 352, 353 [9.0]
- Two of CHEM 361, 362, 363, 364 [3.0]
- One of CHEM 335, 361, 362, 363, 364, or any CHEM course numbered 411 or higher [1.5]
- EOS 300 or 460 [1.5]
- EOS 316, 335, 403, 425, 440 [7.5]
- EOS 340 or 410 [1.5]
- CHEM 499A, 499B; or EOS 499A, 499B [3.0]
- MATH 201 [1.5]

**Fourth Year**

**Total 3rd & 4th** [30.0]

1. For students with Chemistry 11 and Mathematics 12 or equivalents.
2. For students with Chemistry 12 and Mathematics 12 or equivalents.
3. Physics requirement may also be satisfied by PHYS 102 and 120; or PHYS 120 and 130.
4. EOS 202 and 300 are recommended for students interested in geologic field studies. EOS 202 is required for EOS 300.
5. This 0.75 unit laboratory course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units

**Major Program in Chemistry and Earth and Ocean Sciences**

**First Year**
- CHEM 091, 101, 102; or 101, 102 [3.0]
- EOS 110, 120 [3.0]
- MATH 100, 101 [3.0]
- PHYS 112 [3.0]
- Electives [3.0]

**Second Year**
- CHEM 212, 213, 222, 231, 245 [7.5]

**Third Year**
- BIOL 195, 299 [3.0]
- CHEM 235, 318, 324, 347, 352, 353 [9.0]
- Two of CHEM 361, 362, 363, 364 [3.0]
- One of CHEM 335, 361, 362, 363, 364, or any CHEM course numbered 411 or higher [1.5]
- EOS 300 or 460 [1.5]
- EOS 316, 335, 403, 425, 440 [7.5]
- EOS 340 or 410 [1.5]
- CHEM 499A, 499B; or EOS 499A, 499B [3.0]
- MATH 201 [1.5]

**Total 3rd & 4th** [30.0]

- EOS 201, 205, 240 [4.5]
- EOS 202 or 260 [1.5]
- MATH 200 or 205 [1.5]

**Third and Fourth Years**

**Third Year**
- BIOL 299 [1.5]
- CHEM 235, 318, 324, 352, 353 [7.5]
- Three of CHEM 347, 361, 362, 363, 364 [4.5]
- EOS 300 or 460 [1.5]
- EOS 316, 335, 403, 425, 440 [7.5]
- EOS 340 or 410 [1.5]
- MATH 201 [1.5]
- Electives [4.5]

**Total 3rd & 4th** [30.0]

1. For students with Chemistry 11 and Mathematics 12 or equivalents.
2. For students with Chemistry 12 and Mathematics 12 or equivalents.
3. Physics requirement may also be satisfied by PHYS 102 and 120; or PHYS 120 and 130.
4. EOS 202 and 300 are recommended for students interested in geologic field studies. EOS 202 is required for EOS 300.
5. This 0.75 unit laboratory course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units

Chemistry Co-operative Education Program

The Co-operative Education Program at UVic is described in general on page 45 and specifically for the Faculty of Science on page 166.

Chemistry Co-op Program Requirements

To enter and remain in the Chemistry Co-operative Education Program, students must normally maintain a GPA of 4.5 in Chemistry courses and overall. Students are also required to complete satisfactorily a minimum of four work terms. A student may at any time during an academic term transfer from the Chemistry Co-operative Education Program to a regular Chemistry program.

Students in the Co-op program may commence work terms after one full year of course work, and normally will alternate terms of academic study and work experience, with the following conditions:

1. Students' work terms should include work with at least three different employers.
2. Two consecutive work terms (totalling 8 months) may be included with permission.
3. Two of the work terms must be subsequent to the student passing all required 100- and 200-level chemistry courses and 3.0 units of third-year chemistry courses.

Students who do not take CHEM 213 in the second year might find it difficult to complete their program in the normal time period.

Each work term is recorded on the student's academic record and transcript (as COM, N/X or F/X). Some employers keep work term reports confidential, but at least two work term reports must be evaluated as satisfactory by the department in order to complete the program.

Students who are taking double or combined major degrees programs, who wish to participate in a combined Co-op program, should refer to the Faculty of Science Co-operative Education Program regulations found on page 166.

Applications and further information about the Co-operative Education Program in Chemistry are available from the department or at <www.uvic.ca/chemcoop>.

School of Earth and Ocean Sciences

Dante Canil, BSc (Windsor), PhD (Alta), FRSC, Professor
Stanley E. Dozzo, BSc, MSc (UVic), PhD (UBC), Professor
Kathryn M. Gillis, BSc (Queen's), PhD (Dal), Professor and Associate Dean of Science
Stephen Johnston, BSc (McGill), MSc, PhD (Alta), Professor (Director of the School)
S. Kim Juniper, BSc (Alta), PhD (Canterbury), Professor (BC Leadership Chair) and Associate Director (Science) NEPTUNE Canada
Thomas F. Pedersen, BSc (UBC), PhD (Edin), FRSC, FAGU, Professor and Director, Pacific Institute for Climate Solutions
George D. Spence, BSc (Calg), MSc, PhD (UBC), Professor
Verena J. Tunncliffe, BSc (McM), M Phil, PhD (Yale), FRSC, Professor (Canada Research Chair) and Project Director, VENUS
Andrew J. Weaver, BSc (UVic), PhD (UBC), FRSC, Professor (Canada Research Chair)
Michael J. Whiticar, BSc (UBC), PhD (Christian Albrechts), Professor
Laurence Coogan, BSc (Liverpool), PhD (Leicester), Associate Professor
Jay Cullen, BSc (McGill), PhD (Rutgers), Associate Professor
John F. Dower, BSc (Memorial), PhD (UVic), Associate Professor
Jody M. Klymak, BSc (UVic), MSc, PhD (Wash), Associate Professor
Adam Monahan, BSc (Calg), MSc, PhD (UBC), Associate Professor
Vera Pospelova, PhD (McGill), Associate Professor
Eileen Van der Flier-Keller, BA (Dublin), PhD (W Ont), Associate Professor
Diana E. Varela, BSc (UNS, Arg), MA (Boston), PhD (UBC), Associate Professor
Robert C. Hamme, BA (Pomona), MSc, PhD (Wash), Assistant Professor
Colin Goldblatt, BSc, PhD (East Anglia), Assistant Professor

Professional Staff

Peter M. Cross, BSc (UVic), Coordinator, Co-operative Education Program
Duncan Johannesen, BSc (UBC), MSc (Dalhousie), Senior Laboratory Instructor
David Nelles, BSc (UBC), Senior Laboratory Instructor
Terry Russell, BA (UVic), Administrative Officer
Joseph Spence, BSc, PhD (UVic), Senior Scientific Assistant - ICP-MS and Geochemistry Facilities
Sarah Thornton, BSc (UBC), MSc (Alaska), Senior Laboratory Instructor
Visiting, Adjunct and Limited Term Appointments

Vivek Arora, BEng (Delhi), MSc (Ireland), PhD (Melbourne), Adjunct Assistant Professor

Christopher R. Barnes, BSc (Birm), PhD (Ott), DSc (Wat) CM, FRSC, PGeo, Emeritus Professor

J. Vaughn Barrie, BSc, MSc, PhD (Wales), Adjunct Professor

Mairi Best, BSc (Laurentian), PhD (Chicago), Adjunct Assistant Professor

Melvin E. Best, BSc, MSc (UBC), PhD (MIT), Adjunct Professor

George J. Boer, BSc (UBC), MA (Tor), PhD (MIT), Adjunct Professor

Brian Bornhold, BSc (Wat), MA (Duke), PhD (MIT), Adjunct Professor

John E. Cassidy, BSc (UVic), MSc, PhD (UBC), Adjunct Associate Professor

N. Ross Chapman, BSc (McM), PhD (UBC), Emeritus Professor

James R. Christian, BSc, MSc (UBC), PhD (Hawaii), Adjunct Assistant Professor

William R. Crawford, BSc, MSc (Wat), PhD (UBC), Adjunct Professor

Charles Curry, BSc (St. Mary’s), MSc (Queen’s), PhD (St. Mary’s), Adjunct Assistant Professor

Kenneth L. Denman, BSc (Calg), PhD (UBC), FRSC, Adjunct Professor and Professor, Limited Term

Richard Dewey, BSc (UVic), PhD (UBC), Adjunct Associate Professor

Herbert Dragnet, BSc (Tor), MSc, PhD (UBC), Adjunct Professor

Gregory M. Flato, BSc, MSc (Alta), PhD (Dartmouth), Adjunct Professor

Michael G.G. Foreman, BSc (Queen’s) MSc (UVic), PhD (UBC), Adjunct Professor

John C. Fyfe, BSc (Regina), PhD (McGill), Adjunct Professor

Christopher J.R. Garrett, BA, PhD (Canrab), FRSC, FRSC, Emeritus Professor

Nathan Gillet, MPhys (Oxford), DPhil (Oxford), Adjunct Assistant Professor

Richard J. Hebdia, BSc (McM), PhD (UBC), Adjunct Professor

Philip Hill, BA (Oxford), PhD (Dal), Adjunct Associate Professor

Paul Hoffman, BSc (McM), MSc, PhD (Johns Hopkins), Adjunct Professor

Roy D. Hyndman, BASc, MASC (UBC), PhD (ANU), FRSC, Adjunct Professor

Debby Ianson, BSc (Queen’s), MSc, PhD (UBC), Adjunct Assistant Professor

Thomas James, BSc (Queen’s), PhD (Princeton), Adjunct Associate Professor

Honnie Kao, BSc (Taiwan), MSc, PhD (UIUC), Adjunct Associate Professor

Jed Kaplan, BSc (Dartmouth), PhD (Lund), Adjunct Associate Professor

Eric Kunze, BSc (UBC), MSc, PhD (Wash), Adjunct Professor

David Lefebvre, BSc (Queen’s), MSc, PhD (Carl), Adjunct Professor

Victor Levens, BSc (Calg), MSc, PhD (Alta), Adjunct Associate Professor

Robie W. Macdonald, BSc, PhD (Dal), FRSC, Adjunct Professor

David L. Mackas, BS, MS (Wash), PhD (Dal), Adjunct Professor

Stephane Mazzotti, BSc (Paris XI), MSc, PhD (Ecole Norm. Sup., Paris), Adjunct Associate Professor

Norman McFarlane, BSc (Alta), MSc (McGill), PhD (Mich), Adjunct Professor

Fiona McLaughlin, BSc, MSc, PhD (UVic), Adjunct Assistant Professor

Katrin Meissner, Bacc (France), PhD (Bremen), Adjunct Assistant Professor

William J. Merryfield, BSc (Stanford), PhD (Colorado), Adjunct Associate Professor

Kathryn Moran, BSc (Pittsburgh), MSc (Rhode Is.), PhD (Dal), Adjunct Professor and Director of NEPTUNE Canada

Suzanne Paradis, BSc (UQM), MSc (MTRL), PhD (Carl), Adjunct Professor

Jonathan M. Preston, BSc (McM), PhD (UBC), Adjunct Professor

Leanne J. Pyle, BSc (Sask), PhD (UVic), Adjunct Assistant Professor

Michael Riedel, BSc (TU Clausthal), MSc (U of Kiel), PhD (UVic), Adjunct Associate Professor

Garry C. Rogers, BSc (UBC), MSc (Hawaii), PhD (UBC), Adjunct Professor

Kristin M. Rohr, BA (Brown), PhD (MIT/WHOI), Adjunct Associate Professor

Peter Ross, BSc (Trent), MSc (Dalhousie), PhD (Utrecht), Adjunct Associate Professor

Stephen Rowins, BSc (Queen’s), MSc (OTT), PhD (W Aust), Adjunct Assistant Professor

Oleg Saenko, BSc (OSEE, Ukraine), PhD (MIH NASU, Ukraine), Adjunct Assistant Professor

John F. Scinocca, BSc, MSc, PhD (Tor), Adjunct Professor

George J. Simandl, BSc (Concordia), MSc (Carl), PhD (Ecole Poly. MTRL), Adjunct Associate Professor

Nadja Steiner, BSc (Konstanz), MSc (Kiel), PhD (Inst. Meereskunde Kiel), Adjunct Assistant Professor

Richard Thomson, BSc (UBC), PhD (UBC), FRSC, Adjunct Professor

Svein Vagle, BSc (Bath), PhD (UVic), Adjunct Associate Professor

Knut von Salzen, BSc (Munich), MSc, PhD (Hamburg), Adjunct Associate Professor

Kelin Wang, BSc (Peking), PhD (W Ont), Adjunct Professor

John T. Weaver, BSc (Brist), MSc, PhD (Sask), Emeritus Professor

Michael J. Wilmot, BSc (Concordia), MA, PhD (Queen’s), Adjunct Professor

Hidenäki Yamazaki, BE (Tokai), PhD (Texas A & M), Adjunct Professor

Kirsten Zickfeld, BSc, MSc (FU Berlin), PhD (U Potsdam), Adjunct Assistant Professor

School of Earth and Ocean Sciences

Earth and Ocean Sciences Programs

The School offers the following BSc degree programs:

• General, Minor, Major and Honours in Earth Sciences

• Combined Major and Honours in Physics and Earth Sciences (Geophysics)

• Combined Major and Honours in Physics and Ocean Sciences (Ocean-Atmosphere Dynamics)

• Combined Major and Honours in Chemistry and Earth and Ocean Sciences

• Combined Major and Honours in Physical Geography and Earth and Ocean Sciences

• Combined Major and Honours in Biology and Earth and Ocean Sciences

• Minor in Ocean Sciences

The Earth Sciences programs require a core of earth sciences courses, corequisite courses in the other sciences, and a selection of electives suited to the interests of individual students.

Combined Honours and Major programs offered in collaboration with the Department of Physics and Astronomy provide specialization in either Geophysics or Ocean-Atmosphere Dynamics and allow students to apply basic principles of physics and mathematics to fundamental global processes affecting the earth and oceans.

Combined Honours and Major programs offered in collaboration with the Department of Chemistry expose students to the fields of geochemistry while providing a firm basis in the principles of chemistry.

Combined Honours and Major programs offered in collaboration with the Department of Geography are aimed at students whose interests span the fields of physical geography and earth sciences.

Combined Honours and Major programs offered in collaboration with the Department of Biology offer students the opportunity to combine interests in both disciplines.

Students may take a Minor Program in Earth and Ocean Sciences along with a Major or Honours Program in another discipline. Such interdisciplinary programs may be advantageous to students considering a postgraduate degree in Environmental Studies, Geophysics, Geography, Oceanography, Atmospheric Sciences or Education. Students intending to pursue research or continue their studies for MSc or PhD degrees should consider the Honours Programs.

The distinctive character of the BSc General Program is the breadth of course options possible. Students in this program combine a concentration in earth sciences with one in another science area (BSc) or an arts area (BA).

The Minor in Ocean Sciences is intended to provide students with a broad overview of oceanography, focusing on its essentially interdisciplinary nature.

Professional Registration

Completion of the Earth Science Honours or Major program, with an appropriate selection of courses (including a geomorphology elective), is intended to fulfill the academic requirements for designation as a Professional Geoscientist (PGeos) under the discipline of Geology from the Association of Professional Engineers and Geoscientists of BC (APEGBC). The Combined
Physical Geography and Earth and Ocean Science program, with an appropriate selection of courses, is intended to fulfill the APEGBC academic requirements for PGeo designation under the discipline of Environmental Geoscientist. APEGBC has requirements of students beyond course work, and reserves the right to set standards and change requirements at any time. Therefore, the School of Earth and Ocean Sciences, Department of Geography, and University of Victoria assume no responsibility for students’ acceptance into APEGBC during or after completion of their program. For more information, see the SEOS website <www.seos.uvic.ca/aPEG.htm> and the APEGBC website <www.aPEG.bC.ca>.

Co-operative Education Programs

Please, see page 181.

PROGRAM REQUIREMENTS

Course Availability and Information

Students should consult the School concerning courses offered in any particular year. Some fourth-year courses are offered in alternate years. The names of course instructors, together with the required and recommended texts for each course, are available from the School.

Field Courses

Earth Sciences 300 and 400 are scheduled outside of the normal term time at off-campus locations on dates specified by the School. Students are required to meet part of the expenses involved and will be advised of such expenses during the Fall term. Students should contact the School for further information.

Honours Programs

Students will normally apply for admission to the SEOS Honours Program at the end of the third year of their undergraduate Earth Sciences Program, although they may apply as early as the end of their second year and as late as the beginning of their last year. The general requirement for admission to the Honours Program is a cumulative GPA of 5.5 in the Earth Sciences Program at the time of application. While enrolled in the Honours Program, students must maintain a sessional GPA of 5.5. Honours students must also maintain a course load of at least 6.0 units per term in the final year, except by approval of the department.

Honours Graduation Standing

An Honours degree requires:

• a graduating GPA of at least 5.5

• a GPA of at least 5.5 in 300- and 400-level EOS courses, including a minimum grade of B+ in EOS 499

If a student fails to meet the standards for the Honours degree, while meeting the Major degree requirements, the student may graduate with the appropriate Major degree.

Minor in Ocean Sciences

A student may declare a Minor in Ocean Sciences when enrolled in an Honours, Major, or General Program offered by SEOS or another department or school (which need not be in the Faculty of Science), along with the following courses:

• EOS/GEOG 120 and one of EOS/GEOG 110, EOS 340, 365

• EOS 311, 312, 313, 314

• Two of EOS 315, 403, 408, 410, 425, 431, 433; BIOL 319, 322, 335, 446; PHYS 426; EOS 490 or BIOL 490D may be taken provided an appropriate oceans-related topic is chosen (with permission of department).

Four of these courses (311, 312, 313, and 314) will be taken during an intensive summer term, involving a substantial sea-going component. Students normally consult the School’s Ocean Science Adviser before admission to the Ocean Science Minor Program at the end of the first or second year of their undergraduate program.

1. Students who have completed Biology 11 and 12 should take BIOL 190A.
2. Physics requirement may also be satisfied by PHYS 102 and 120; or PHYS 120 and 130.
3. Students should consider taking BIOL 215 as one of their electives.

General and Minor in Earth Sciences

The School of Earth and Ocean Sciences General and Minor Program is designed to offer a flexible program with maximum choice for students with a general interest in Earth Sciences. Students interested in a professional career or graduate studies in the field are strongly advised to take the Honours or Major Program.

1. In choosing electives, it is recommended that students consider the prerequisite requirements for EOS electives in Years 3 and 4.
2. Chosen from any EOS course numbered 300 or above, except for 312, 313, 314, 350, 360, 370.
3. Must include 9.0 units of 300 level or above in a second area of concentration for the General Program.

Combined Physics and Earth Sciences (Geophysics) Program Requirements

Admission to the Combined Physics and Earth Sciences (Geophysics) Program requires the permission of both the Department of Physics and Astronomy and the School of Earth and Ocean Sciences.
## Combined Honours in Physics and Earth Sciences (Geophysics)

### First Year
- **CHEM 101, 102** ........................................... 3.0
- **CSC 110 or 111** ........................................ 1.5
- **EOS 110, 120** ........................................... 3.0
- **MATH 100, 101** ........................................... 3.0
- **PHYS 120 and 130; or 112** ........................................... 3.0
- **Electives** ........................................... 1.5
- **Total** ........................................... 15.0

### Second Year
- **EOS 201, 202, 205** ........................................... 4.5
- **EOS 210 or PHYS 210** ........................................... 1.5
- **MATH 200, 211, 211** ........................................... 4.5
- **PHYS 215, 216, 217** ........................................... 4.5
- **Total** ........................................... 15.0

### Third Year
- **EOS 300** ........................................... 1.5
- **EOS 427 or PHYS 427 or electives** ........................................... 1.5
- **MATH 300, 301, 324, 346** ........................................... 6.0
- **PHYS 321A, 321B, 325, 326** ........................................... 4.5
- **Electives** ........................................... 1.5
- **Total** ........................................... 16.5

### Fourth Year
- **EOS 410, 480** ........................................... 3.0
- **EOS 427 or PHYS 427 or electives** ........................................... 1.5
- **PHYS 499A, 499B; or PHYS 429A, 429B** ........................................... 3.0
- **PHYS 460** ........................................... 0.0
- **PHYS 214, 323, 411** ........................................... 4.5
- **EOS or PHYS electives** ........................................... 6.0
- **Total** ........................................... 18.0

1. In choosing these electives, it is recommended that students consider the prerequisite requirements for EOS or PHYS electives in Year 4.
2. One of EOS 427 or PHYS 427 is required in the program, and may be taken in either third or fourth year (normally offered in alternate years).
3. Chosen from EOS and PHYS courses numbered 300 and above.

## Combined Physics and Ocean Sciences (Ocean-Atmosphere Dynamics) Program Requirements

Admission to the Combined Physics and Ocean Sciences (Ocean-Atmosphere Dynamics) Program requires the permission of both the Department of Physics and Astronomy and the School of Earth and Ocean Sciences.

## Combined Honours in Physics and Ocean Sciences (Ocean-Atmosphere Dynamics)

### First Year
- **CHEM 101, 102** ........................................... 3.0
- **CSC 110 or 111** ........................................... 1.5
- **EOS 110, 120** ........................................... 3.0
- **MATH 100, 101** ........................................... 3.0
- **PHYS 120 and 130; or 112** ........................................... 3.0
- **Electives** ........................................... 1.5
- **Total** ........................................... 15.0

### Second Year
- **EOS 340** ........................................... 1.5
- **MATH 200, 211, 211** ........................................... 4.5
- **PHYS 214, 215, 216, 217** ........................................... 6.0
- **Electives** ........................................... 3.0
- **Total** ........................................... 15.0

### Third Year
- **MATH 300, 301, 324, 346** ........................................... 6.0
- **PHYS 321A, 321B, 325, 326** ........................................... 7.5
- **EOS electives** ........................................... 1.5
- **PHYS electives** ........................................... 1.5
- **Total** ........................................... 16.5

### Fourth Year
- **EOS 431, 433** ........................................... 3.0
- **PHYS 499A, 499B; or PHYS 429A, 429B** ........................................... 3.0
- **PHYS 460** ........................................... 0.0
- **PHYS 410, 411, 422, 426** ........................................... 6.0
- **EOS electives** ........................................... 1.5
- **PHYS electives** ........................................... 3.0
- **Total** ........................................... 16.5

1. EOS 210 or PHYS 210, and CSC 115, 225 and 230 are recommended.
2. Chosen from PHYS courses numbered 300 and above, in consultation with the Department of Physics and Astronomy.

## Combined Major in Physics and Ocean Sciences

### First Year
- **CHEM 101, 102** ........................................... 3.0
- **CSC 110 or 111** ........................................... 1.5
- **EOS 110, 120** ........................................... 3.0
- **MATH 100, 101** ........................................... 3.0
- **PHYS 120 and 130; or 112** ........................................... 3.0
- **Electives** ........................................... 1.5
- **Total** ........................................... 15.0

### Second Year
- **EOS 201, 202, 205** ........................................... 4.5
- **EOS 210 or PHYS 210** ........................................... 1.5
- **MATH 200, 211, 211** ........................................... 4.5
- **PHYS 215, 216, 217** ........................................... 4.5
- **Total** ........................................... 15.0

### Third Year
- **EOS 300** ........................................... 1.5
- **EOS 427 or PHYS 427 or electives** ........................................... 1.5
- **MATH 300, 301, 324, 346** ........................................... 6.0
- **PHYS 321A, 325, 326** ........................................... 4.5
- **Total** ........................................... 15.0

### Fourth Year
- **EOS 410, 480** ........................................... 3.0
- **EOS 427 or PHYS 427 or electives** ........................................... 1.5
- **PHYS 214, 323, 411** ........................................... 4.5
- **EOS or PHYS electives** ........................................... 4.5
- **Total** ........................................... 15.0

1. In choosing these electives, it is recommended that students consider the prerequisite requirements for EOS or PHYS electives in Year 4.
2. One of EOS 427 or PHYS 427 is required in the program, and may be taken in either third or fourth year (normally offered in alternate years).
3. Chosen from EOS and PHYS courses numbered 300 and above.

## Combined Chemistry and Earth and Ocean Sciences Program Requirements

Combined Honours in Chemistry and Earth and Ocean Sciences

Admission into the Combined Honours Chemistry and Earth and Ocean Sciences Program requires the permission of both the Department of Chemistry and the School of Earth and Ocean Sciences.

### First Year
- **CHEM 091, 101, 102** or 101, 102 ........................................... 3.0
- **EOS 110, 120** ........................................... 3.0
- **MATH 100, 101** ........................................... 3.0
- **PHYS 112** ........................................... 3.0
- **Electives** ........................................... 3.0
- **Total** ........................................... 15.0

### Second Year
- **CHEM 212, 213, 222, 231, 245** ........................................... 7.5
- **EOS 201, 205, 240** ........................................... 4.5
- **EOS 202 or 260** ........................................... 1.5
- **MATH 200 or 205** ........................................... 1.5
- **Total** ........................................... 15.0

### Third and Fourth Years
- **BIOC 299** ........................................... 1.5
- **CHEM 235, 318, 324, 347, 352, 353** ........................................... 9.0
- **Two of CHEM 361, 362, 363, 364** ........................................... 3.0
- **One of CHEM 335, 361, 362, 363, 364, or any CHEM course numbered 411 or higher** ........................................... 1.5
- **EOS 300 or 460** ........................................... 1.5
Combined Honours in Physical Geography and Earth and Ocean Sciences

Admission to the Combined Honours Geography and Earth and Ocean Sciences Program requires the permission of both the Department of Geography and the School of Earth and Ocean Sciences.

First Year

CHEM 101, 102................................................. 3.0
EOS 110, 120................................................. 3.0
GEOG 101A.................................................. 1.5
MATH 100, 101................................................. 3.0
PHYS 112.................................................. 3.0
Electives................................................ 1.5
Total ...................................................... 15.0

Second Year

CHEM 245.................................................. 1.5
EOS 201, 202, 205, 210, 240............................ 7.5
GEOG 222.................................................. 1.5
MATH 202.................................................. 1.5
STAT 260 or GEOG 226................................. 1.5
Electives................................................ 1.5
Total ...................................................... 15.0

Third and Fourth Years

EOS 225, 316, 340........................................... 4.5
EOS 300 or GEOG 477..................................... 1.5
EOS 440 or GEOG 370..................................... 1.5
EOS 450 or GEOG 476..................................... 1.5
EOS 499A, 499B or GEOG 499A, 499B................ 3.0
Two of EOS 335, 410, 425, 480........................ 3.0
GEOG 228, 376................................................. 3.0
Two of GEOG 319, 322, 325, 328......................... 3.0
Upper-level EOS or GEOG electives.................... 3.0
Electives................................................ 6.0
Total ...................................................... 30.0

Fourth Year

BIOL 190A, 190B............................................. 3.0
CHEM 101, 102............................................. 3.0
EOS 110, 120............................................. 3.0
MATH 100, 101............................................. 3.0
PHYS 102 or 112; or 120 and 130..................... 3.0
Total ...................................................... 15.0
STAT 255 or 260.  ........................................  1.5
BIOL upper-level electives  ..................................  7.5
EOS upper-level electives  .................................  6.0
Science upper-level electives  ............................  1.5
Electives  ..................................................  1.5
Total  .................  30.0 or 31.0  

1. EOS 202 and 300 are recommended for students interested in geologic field studies (202 is prerequisite for 300); EOS 260 and 460 are recommended for students interested in biosphere evolution (260 is prerequisite for 460).
2. Students registering for BIOL 499A/B must also take BIOL 460 (Honours Seminar).
3. Recommended courses include EOS 311 or BIOL 311, BIOL 319, 321, 322, 335, 418, 427, 435, 438, 446.
4. Recommended courses include EOS 403, 425, 440, 480.

Combined Major in Biology and Earth and Ocean Sciences

First Year

BIOL 190A, 190B ........................................  3.0

Electives  ................................................  4.5
Total ..................................  30.0

1. EOS 202 and 300 are recommended for students interested in geologic field studies (202 is prerequisite for 300); EOS 260 and 460 are recommended for students interested in biosphere evolution (260 is prerequisite for 460).
2. Recommended courses include EOS 311 or BIOL 311, BIOL 319, 321, 322, 335, 418, 427, 435, 438, 446.
3. Recommended courses include EOS 403, 425, 440, 480.

School of Earth and Ocean Sciences Co-operative Education Program

Students intending to register in Earth Sciences Major or Honours Programs may wish to combine their academic programs with relevant and productive work experience in industry, business and government. The general concept and requirements of the Co-operative Education Program are given on page 45 and specifics for the Faculty of Science are described on page 166.

Co-op Program Requirements

Entry into the SEOS Co-op Program is restricted to students enrolled in a Major or Honours Program in SEOS and attending UVic on a full-time basis. To qualify for entry and continuation in the Co-op Program a student must normally maintain a GPA of 5.0 in SEOS courses and a GPA of 4.5 overall. In addition to academic grades, acceptance will be based on individual interest, abilities and aptitudes, and a formal interview. A student is required to satisfactorily complete at least four Work Terms, each of which will be recorded on the student’s academic record and transcript (as COM, N/X or F/X).

Students who are taking double or combined major degrees programs, who wish to participate in a combined Co-op program, should refer to the Faculty of Science Co-operative Education Program regulations found on page 166.

A student may at any time during an academic term transfer from the SEOS Co-operative Program to a regular SEOS program. Work term credit by challenge, page 46, is permitted in the SEOS Co-op Program.

Students transferring from other post-secondary institutions may apply to enter the Co-op Program when applying for admission to UVic. Co-op students interrupting their academic or work term program may apply for reinstatement in the Co-op Program upon return to UVic, but readmission is not guaranteed.

Applications and further information concerning the Co-op Program in SEOS may be obtained from the School or at <www.uvic.ca/eoscoop>.

Department of Mathematics and Statistics

Christopher J. Bose, BSc (UBC), MSc, PhD (Tor), Associate Professor and Chair of the Department
Florenci N. Dicau, MMath (Bucharest), PhD (Heidelberg), Professor

Web: <www.math.uvic.ca/>

Mathematics and Statistics Programs
The department offers the following BSc degree programs:
• General, Major or Honours in Mathematics
• General, Major or Honours in Statistics
• Major or Honours in Mathematics and Statistics
• Major or Honours in Chemistry and Mathematics
• Major or Honours in Computer Science and Mathematics
• Major or Honours in Computer Science and Statistics
• Honours in Physics and Mathematics
• Major in Financial Mathematics and Economics

Honours Programs allow specialization in one or more disciplines in the last two or three years and are intended for students of above-average ability. Students who plan to undertake graduate studies are strongly advised to follow an Honours Program.

The Major in Mathematics is a program broadly based in the mathematical sciences requiring courses in each of pure mathematics, applied mathematics, discrete mathematics, and statistics, and having enough elective choice to permit emphasis in any of these four areas.

The General Program emphasizes breadth of education and requires concentration in two different fields. For more details on a BSc degree in a General Program combining Mathematics or Statistics with another field in Science (or with Geography or Psychology), see page 166. For more details on a BA degree in a General Program combining Mathematics or Statistics with a field in Humanities or Social Sciences, see page 135 or page 195, respectively.

The department also offers the following BA degree programs through the Faculty of Humanities and the Faculty of Social Sciences:
• General, Major or Honours in Mathematics
• General, Major or Honours in Statistics

Students interested in a Bachelor of Arts degree should register in the Faculty of Humanities or the Faculty of Social Sciences, complete the requirements common to all bachelor's degrees in that faculty, and satisfy the requirements for the General, Major or Honours Program in Mathematics or the General, Major or Honours Program in Statistics described below.

Students may also complete a Minor in Mathematics or Statistics.

Co-operative Education Programs
Please, see page 185.

Program Requirements
Notes on Course Requirements
1. Any student who has been awarded a UBC-SFU-UVIC-UNBC Calculus Examination Certificate can receive credit for MATH 100 with the letter grade corresponding to the examination score.
2. Credit by course challenge is not offered. Any students who demonstrate to the department that they have mastered the material of a course may be granted advanced placement. For this purpose a score of 4 or 5 on the AP Calculus test will constitute mastery of MATH 100.
3. The prerequisite for MATH 100 is a minimum grade of B (72%) in one of Principles of Mathematics 12, Pre-calculus 12, or equivalent; or credit in MATH 120; or a PASS on the MATH 100 pretest. The pretest will be given in the first week of classes each term.
4. All courses within the Department of Mathematics and Statistics which require a calculator will permit only the use of a specific department-selected calculator. Detailed information about calculator restrictions will be given at the beginning of these courses.
5. Students from outside British Columbia, transfer students from community colleges and students who have obtained credit for Grade XIII Mathematics must consult the department before enrolling in any Mathematics course.
6. All students taking a Major or Honours in Mathematics are strongly advised to take at least one University course in Physics.

Honours Programs
Students who wish to be admitted to an Honours Program in the department should apply in writing to the Chair of the department on completion of their second year. Normally a student will be admitted to the third year of an Honours Program in the department only if the student has achieved a GPA of at least 6.5 in the second-year courses taken in the department. A student whose third-year work is not of Honours caliber may be required to withdraw from the program.

Mathematics Program Requirements
Honours in Mathematics
MATH 100, 101, 122 4.5
CSC 110, 115 3.0
MATH 200, 201, 211, 212, 222, 236 9.0
STAT 260, 261 3.0
MATH 301, 312 3.0
Three of MATH 342, 362, 365, 366, 367 4.5
Completion of two of the following emphasis streams: 6.0
• Algebra: Two of MATH 311, 412, 413

Program Requirements
Notes on Course Requirements
1. Students intending to take MATH 401, 435 or 446 must take 335
2. Students must make course selections such that their program contains at least 9.0 units of MATH and/or STAT courses numbered 400 or higher.

Honours in Mathematics
MATH 100, 101, 122 4.5
CSC 110, 115 3.0
MATH 200, 201, 211, 212, 222, 236 9.0
STAT 260, 261 3.0
MATH 301, 312 3.0
Three of MATH 342, 362, 365, 366, 367 4.5
Completion of one of the following emphasis streams: 4.5
• Analysis: Two of MATH 335, 401, 435
• Differential Equations: Two of MATH 346, 442, 446
• Discrete: Two of MATH 322, 422, 423
• Probability: Two of MATH 352, 451, 452
• Geometry/Topology: Two of MATH 436, 465, 467

4.5 additional units of MATH and/or STAT courses numbered 300 or higher 4.5
1. Students intending to take MATH 401, 435 or 446 must take 335

General in Mathematics
MATH 100, 101, 122 4.5
MATH 205 (or 200), 201, 211 4.5
9.0 additional units of MATH and/or STAT courses numbered 300 or higher 9.0

Minor in Mathematics
A student may declare a Minor in Mathematics by completing the requirements for an Honours Program or a Major Program offered by another department or school (which need not be in the Faculty of Science) in conjunction with either the Mathematics course requirements for the General in Mathematics or the following set of courses:

MATH 100, 101, 122 3.0
One of MATH 200, 202, 205 1.5
Two of MATH 201, 211, 212, 222, STAT 260 3.0
4.5 additional units of MATH courses numbered 300 or higher 4.5

The selected courses must include at least 9.0 unit numbers 200 or higher that do not form part of the requirements of the Honours or Major or General or Option Program. Any course disqualified from the Minor Program by overlap with the requirements of the Honours or Major or General or Option Program may be replaced by another MATH or STAT course at the same level or higher. See Faculty of Science regulations for Minor programs, page 166. Only one Minor may be declared on any degree program.
Statistics Program Requirements
Honours in Statistics
MATH 100, 101, 122 .................. 4.5
CSC 110, 115 .......................... 3.0
MATH 200, 201, 211, 212 ............... 6.0
STAT 260, 261 ........................ 3.0
Two of MATH 322, 342, 377 ............. 3.0
MATH 300, 301, 311, 352 .............. 6.0
STAT 350, 353, 450 .................... 4.5
Two of MATH 451, 452, STAT 354, 453, 454, 455, 456, 457, 458, 459 (454 can be taken more than once in different topics) ............... 3.0
6.0 additional units made up of MATH courses numbered 300 or higher, and/or STAT courses numbered 400 or higher* ............... 6.0
1. Students must make course selections such that their program contains at least 6.0 units of MATH and/or STAT courses numbered 400 or higher.

Major in Statistics
MATH 100, 101 .................. 3.0
CSC 110 .......................... 1.5
MATH 202, 201, 211 ............... 4.5
STAT 260, 261 ........................ 3.0
MATH 300, 301, 377 .............. 3.0
STAT 350, 353, 354, 453 .............. 6.0
4.5 additional units made up of MATH courses numbered 300 or higher, and/or STAT courses numbered 400 or higher. Recommended courses include STAT 450, 454, 455, 456, 457, 458, 459 (454 can be taken more than once in different topics), MATH 352, 452 .................. 4.5

Combined Mathematics and Statistics Program Requirements
Honours: Mathematics and Statistics
MATH 100, 101, 122 .................. 4.5
CSC 110, 115 .......................... 3.0
MATH 200, 201, 211, 212, 236 ...... 7.5
STAT 260, 261 ........................ 3.0
Two of MATH 322, 342, 377 ............. 3.0
STAT 300 or 335, 301, 311, 312, 352 ...... 7.5
STAT 350, 353, 450 .................... 4.5
Three of MATH 451, 452, STAT 354, 453, 454, 455, 456, 457, 458, 459 (454 can be taken more than once in different topics) ............... 4.5
1.5 additional units of MATH and/or STAT courses numbered 300 or higher .................. 1.5
1. Students intending to take MATH 401, 435 or 446 must take 335
Major: Mathematics and Statistics
MATH 100, 101, 122 .................. 4.5
CSC 110, 115 .......................... 3.0
MATH 200, 201, 211, 212, 236 ...... 7.5
STAT 260, 261 ........................ 3.0
Two of MATH 322, 342 ............. 1.5
MATH 300 or 335, 301, 312, 377 ......... 6.0
STAT 350, 353, 354, 453 .............. 6.0
One of MATH 352, STAT 450, 454, 455, 456, 457, 458, 459 .................. 1.5
1. Students intending to take MATH 401, 435 or 446 must take 335

Combined Chemistry and Mathematics Program Requirements
For a BSc degree in Combined Chemistry and Mathematics, students may take a Major or Honours program. These programs are not joint degrees in Chemistry and Mathematics, but a single degree program composed of a selected combination of courses from each of the departments. Students opting for either of these combined programs must contact the Chemistry and Mathematics and Statistics departments. Each student will be assigned an adviser from each of these departments. Students considering proceeding to graduate work in either Chemistry or Mathematics must consult with their advisers prior to making their final choice of courses.

Honours: Chemistry and Mathematics

First and Second Years
CHEM 091 and 101, or 101 .......................... 1.5
CHEM 102, 212, 213, 222, 231, 235, 245 ...... 10.5
CSC 110, 115 .......................... 3.0
MATH 100, 101, 122, 200, 201, 211, 212, 236 ...... 12.0
PHYS 112 .......................... 3.0
STAT 260 .......................... 1.5

Third and Fourth Years
BIOC 299 .......................... 1.5
CHEM 347, 352, 353, 364 .................. 6.0
CHEM 318 and 361, or 324 and 362, or 335 and 363 .................. 3.0
MATH 300 or 335, 301, 312 .................. 4.5
Three of MATH 322, 342, 346, 352, 365, 377, 379, 401, 412, 435, 442, 446, 451, 452, at least two of which must be numbered 400 or higher .................. 4.5
MATH or STAT course numbered 300 or higher .................. 1.5

Electives: .......................... 4.5
1. For students with Chemistry 11 and Mathematics 12 or equivalents.
2. For students with Chemistry 12 and Mathematics 12 or equivalents.
3. Physics requirement may also be satisfied by PHYS 120 and 130, or PHYS 102 and 120.
4. This 0.75 unit laboratory course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units.
5. Students intending to take MATH 401, 435 or 446 must take 335

Major: Chemistry and Mathematics

First and Second Years
CHEM 091 and 101, or 101 .......................... 1.5
CHEM 102, 212, 213, 222, 231, 235, 245 ...... 10.5
CSC 110, 115 .......................... 3.0
MATH 100, 101, 122, 200, 201, 211, 212, 236 ...... 12.0
PHYS 112 .......................... 3.0
STAT 260 .......................... 1.5

Third and Fourth Years
BIOC 299 .......................... 1.5
CHEM 347, 352, 353, 364 .................. 6.0

MATH 300 or 335, 301, 312 .................. 4.5
Three of MATH 322, 342, 346, 352, 365, 377, 379, 401, 412, 435, 442, 446, 451, 452, at least two of which must be numbered 400 or higher .................. 4.5
MATH or STAT course numbered 300 or higher .................. 1.5

Computer Science and Mathematics, and Computer Science and Statistics Program Requirements
For a BSc degree in Combined Computer Science and Mathematics or Computer Science and Statistics, students may take a Major or Honours program. These programs are not joint degrees in Computer Science and Mathematics or Computer Science and Statistics, but a single degree program composed of selected courses from each of the departments. Students opting for any of these combined programs must contact the Computer Science and Mathematics and Statistics departments, and will be assigned an adviser from each of these departments. Students considering proceeding to graduate work in Computer Science, Mathematics or Statistics must consult with their advisers prior to making their final choice of courses.

Students who wish to be admitted to one of the Combined Honours programs should apply in writing to the Honours Advisers of the departments on completion of their second year. Normally a student will be admitted to the Com-
bined Honours program only if the student meets the following conditions:
1. completion of CSC 106 (formerly 112, 212), 110, 115, 225, 230, and SENG 265
2. completion of at least 10.5 units of the Mathematics and Statistics courses required for the degree
3. a grade of at least B+ in all 200-level CSC courses
4. a GPA of at least 6.5 in all 200-level Mathematics and Statistics courses.

Students may also enter one of the Combined Honours programs upon completion of their third year provided they have at least 4.5 units of 300- or 400-level credit from each department with a minimum GPA of 6.0. This minimum GPA of 6.0 is in all courses completed at the 300- or 400-level in the two departments.

Honours students are expected to maintain a GPA of at least 5.0 in their third year to remain in the program.

Honours: Computer Science and Mathematics

First Year
CSC 106 or 212; 110, 115 .......................... 4.5
MATH 100, 101, 122 .......................... 4.5
ENGL 115 or 135 .......................... 1.5
MATH 211 or STAT 260 ..................................... 1.5
Electives .......................... 3.0
Total .................................. 15.0

Second Year
CSC 225, 230, SENG 265 .......................... 4.5
MATH 200, 201, 212, 222, 236 ................. 7.5
MATH 211 or STAT 260 .......................... 1.5
ENGR 2401 .......................... 1.5
Total .................................. 15.0

Third Year
CSC 320, 326, 349A .......................... 4.5
One of CSC 305, 330, 350, 360, 361, 370 ..................................... 1.5
MATH 322 .................................. 1.5
Two of MATH 301, 312, 342, 352, 362, 377 ..................................... 3.0
STAT 359 .................................. 1.5
Electives .......................... 3.0
Total .......................... 15.0

Fourth Year
CSC 499 or MATH 498 .......................... 1.5
Completion of two of the following requirements2: .......................... 6.0
• Algorithms: Two of CSC 422, 423, 425, 426, 428, 428A, 429
• Discrete Mathematics: Two of MATH 413, 422, 423
• Logic: Two of CSC 355, 421, MATH 375, PHIL 370, 371, 403
• Numerical Analysis and Applications: Two of CSC 449, 472, 473, MATH 449
• Optimization and Simulation: Two of CSC 445, 446, MATH 447
Electives .......................... 7.5
Total .................................. 15.0

Major: Computer Science and Mathematics

First Year
CSC 106, 110, 115 .......................... 4.5
MATH 100, 101, 122 .......................... 4.5
ENGL 115 or 135 .......................... 1.5

Total .................................. 15.0

Third Year
CSC 320, 326, 349A .......................... 4.5
One of CSC 305, 330, 350, 360, 361, 370 ..................................... 1.5
MATH 322 .................................. 1.5
Two of MATH 301, 312, 342, 352, 362, 377 ..................................... 3.0
STAT 359 .................................. 1.5
Electives .......................... 3.0
Total .......................... 15.0

Fourth Year
Completion of one of the following requirements2: .......................... 3.0
• Algorithms: Two of CSC 422, 423, 425, 426, 428, 428A, 429
• Discrete Mathematics: Two of MATH 413, 422, 423
• Logic: Two of CSC 322, 355, 421, MATH 375, PHIL 370, 371, 403
• Numerical Analysis and Applications: Two of CSC 449, 472, 473, MATH 449
• Optimization and Simulation: Two of CSC 445, 446, MATH 447
Electives .......................... 12.0
Total .......................... 15.0

1. ENGR 240 can be taken in first year provided the prerequisite has been met. ENGL 225 can replace ENGR 240.
2. A CSC or MATH topics or directed studies course can be used in fulfillment of these requirements with permission of the department offering the course.
3. These 7.5 units of electives must include at least 1.5 units at the 300 level or above from the Department of Mathematics and Statistics, and at least 1.5 units at the 400 level from the Departments of Computer Science or Mathematics and Statistics or CENG 420 or a 400 level SENG course.
4. These 15.0 units of electives must include at least 6 units from the Departments of Computer Science, Mathematics and Statistics at the 300 level or above. These 6 units may also include CENG 420 and a maximum of two SENG courses with at least one at the 400 level.
5. These 30 units must include at least 21 units at the 300 level or above including at least 6 units at the 400 level with at least 3 of those units in each of the two departments.

Honours: Computer Science and Statistics

First and Second Years
CSC 106, 110, 115 .......................... 4.5

Two of CSC 425, 445, 446, 449, 484 ..................................... 3.0
STAT 330, 353, 450 .......................... 4.5
Three of MATH 452, STAT 354, 355, 357, 453, 454, 455, 456, 457, 458, 459 (454 can be taken more than once in different topics) ..................................... 4.5
Courses numbered 300 or higher from the Departments of Computer Science or Mathematics and Statistics. In selecting these courses, students are urged to choose at least 1.5 units from each of the two departments.2
Electives .......................... 6.0
1. ENGL 225 can replace ENGR 240 but requires 3 units of prerequisite first-year English.
2. These courses may also include CENG 420 and a maximum of two SENG courses with at least one at the 400 level.

Major: Computer Science and Mathematics

First and Second Years
CSC 106, 110, 115 .......................... 4.5
CSC 225, 230 .......................... 3.0
ENGL 115 or 135 .......................... 1.5
ENGR 2401 .......................... 1.5
MATH 100, 101, 122 .......................... 4.5
MATH 200 (or 205), 201, 211, 222 ..................................... 6.0
ENG 265 .................................. 1.5
STAT 260, 261 ..................................... 3.0
Electives .......................... 4.5

Third and Fourth Years
CSC 320, 326, 349A .......................... 4.5
One course numbered 300 or higher from the Department of Computer Science ..................................... 1.5
STAT 350, 353 .......................... 3.0
Three of STAT 354, 355, 357, 450, 453, 454, 455, 456, 457, 458, 459 (454 can be taken more than once in different topics) ..................................... 4.5
Courses numbered 400 or higher from the Department of Computer Science2 ..................................... 3.0
Courses numbered 300 or higher from the Departments of Computer Science or Mathematics and Statistics. In selecting these courses, students are urged to choose at least 1.5 units from each of the two departments.2
Electives .......................... 9.0
1. ENGL 225 can replace ENGR 240 but requires 3 units of prerequisite first-year English.
2. These courses may also include CENG 420 and a maximum of two SENG courses with at least one at the 400 level.

Physics and Mathematics Program Requirements

Honours: Physics and Mathematics

Admission to the third and fourth years of the Honours Program in Physics and Mathematics requires the permission of both the Department of Physics and Astronomy and the Department of Mathematics and Statistics.

First and Second Years
CHEM electives .......................... 3.0
CSC 110 or 111 .......................... 1.5
MATH 100, 101, 122 .......................... 4.5
MATH 200, 201, 211, 212, 236 .................. 7.5
PHYS 120 and 130, or 112 ......................... 3.0
PHYS 214, 215, 216, 217 ........................ 6.0
Electives3 ................................. 4.5
Total .............................................. 30.0

Third and Fourth Years
MATH 300 or 335, 301, 311, 3122, 324, 346 .... 9.0
MATH 442 or 446 .............................. 1.5
MATH electives4 .............................. 6.0
PHYS 313 or 314 ................................ 1.5
PHYS 321A, 321B, 323, 325, 326 .................... 7.5
PHYS 410, 421, 422, 423 .......................... 6.0
PHYS 460 ........................................... 0.0
PHYS elective5 ................................. 1.5
Electives ........................................ 3.0
Total .............................................. 36.0

1. Electives chosen from first-year Chemistry courses.
2. Some students may take MATH 211 and 212 in first year, and MATH 311 and 312 in second year. Recommended.
3. PHYS 210, CSC 115, 225 and 230 are recommended.
4. Electives chosen from MATH courses numbered 300 or higher. These electives must be chosen in consultation with the Department of Mathematics and Statistics. The upper-level courses taken must include one of the following: one of MATH 412, 413 (Algebra); two of MATH 335, 401, 435 (Analysis); two of MATH 322, 422, 423 (Discrete); two of MATH 436, 465, 467 (Geometry/Topology); or two of MATH 352, 451, 452 (Probability).
5. Elective chosen from Physics and Astronomy courses numbered 300 or higher. This elective must be chosen in consultation with the Department of Physics and Astronomy.
6. Students wishing to take MATH 401, 435 or 446 must take 335.

Combined Major: Financial Mathematics and Economics

This is a single degree program leading to a BSc in Financial Mathematics and Economics. Only a Major program is offered. Students are required to take a selected combination of courses from the Department of Mathematics and Statistics and the Department of Economics.

First Year
CSC 110, 115 .............................. 3.0
ECON 103, 104 ............................... 3.0
MATH 100, 101, 122 ......................... 4.5
First year English ......................... 1.5
Electives ........................................ 3.0

Second Year
COM 240, 270 .............................. 3.0
ECON 203, 204, 225 ......................... 4.5
MATH 200, 201, 211 .......................... 4.5
STAT 260, 261 .................................. 3.0

Third Year
ECON 305, 313, 365, 366, 435 ............ 7.5
MATH 348, 352, 377 ......................... 4.5
STAT 350, 450 .................................. 3.0

Fourth Year
ECON 454, 468 .............................. 3.0
MATH 452, 477 ................................ 3.0

STAT 457 ................................. 1.5
Electives ........................................ 7.5

Mathematics and Statistics
Co-operative Education Program

The Co-operative Education Program in the Faculty of Science is described on page 166. Students in a Major or Honours Program offered by the department who are admitted to the Co-operative Education Program participate in a combined Computer Science/Mathematics Program during their first two years. In their third year, students may opt to complete either a Computer Science degree program or a Mathematics and Statistics degree program, and will then enter the Co-op Program in the relevant department. Students who opt for a combined or joint degree program involving both departments will remain in the combined Computer Science/Mathematics Co-op Program.

Co-op Program Requirements

The normal requirements for admission to the Computer Science/Mathematics Co-op Program are given in the Computer Science Co-operative Education Programs section, on page 89. Students are normally admitted to the program in January, after their first term on campus, and application for admission should be made before the end of the first term. However, a student may be admitted to the program up to the end of his or her second year. A student will be admitted to a co-op program only if there is a satisfactory schedule of academic terms and work terms that will enable the student to complete all co-op requirements.

Students registered in the Co-op Program normally must be enrolled in at least 6 units of course work during each academic term. The performance of students will be reviewed after each academic term and each work term. Students who fail to achieve satisfactory standing on an academic term or satisfactory completion of a work term may be required to withdraw from the program.

Each work term is recorded on the student’s academic record and transcript. The granting of Work term credit by challenge, page 46, is permitted and is governed by the co-op regulations. Students must pass four work terms in order to complete their Co-op degree requirements, and satisfy the course requirements of their specific degree program.

Further information concerning the Co-operative Education Program may be obtained from the department.

Computer Science/Mathematics
Work Experience

The Computer Science/Mathematics Work Experience program is intended for students who are enrolled in at least 3 units of 300- or 400-level courses in Computer Science, Software Engineering, Mathematics or Statistics in any Major, Honours or Option degree program in either the Department of Computer Science or the Department of Mathematics and Statistics, or in any combined degree program offered entirely within these two departments. Students participating in the Work Experience program must pass two co-op work terms, that is, a total of eight months of full-time, discipline-related work under the supervision of the Computer Science/Mathematics Co-op Program. These work terms are subject to the General Regulations: Undergraduate Co-op, page 46, with the exception that work term credit by challenge is not permitted. Students passing the required two co-op work terms will receive a designation of Work Experience on their academic record and transcript.

Participation in this program is limited. Students should contact the Computer Science/Mathematics Co-op Office to discuss entry into this program.

Department of Physics and Astronomy

Robert V. Kowalewski, BS (Rochester), PhD (Cornell), Professor and Chair
Arif Babul, BA (Toronto), PhD (Princeton), Professor
Dean Karlen, BSc (Alma), PhD (Stanford), R. M. Pearce Professor of Physics
Richard K. Keeler, BSc (McGill), MSc, PhD (UBC), Professor
Michel Lefebvre, BSc (Laval), PhD (McMaster), Professor
Julio Navarro, BSc, PhD (Universidad Nacional de Cordoba), CIFAR Scholar and Professor
Maxim Pospelov, MSc (Novosibirsk), PhD (Budker), Professor
Christopher J. Pritchett, BSc (Sask), MSc, PhD (Toronto), Professor
J. Michael Roney, BSc (Car), MSc (McG), PhD (Car), Professor
Arthur Watton, BSc (Imp Coll, London), PhD (McMaster), Professor
Byoung-Chul Choi, Diplom (Aachen), PhD (Freie Universität), Associate Professor
Sara L. Ellison, MPhys (Kent), PhD (Canterbury), Associate Professor and Canada Research Chair
David H. Herwig, BSc (Kiel), MSc (Edinburgh), PhD (Potsdam), Associate Professor
Andrew J. Jirasek, BSc (Calgary), MSc (Guelph), PhD (UBC), Associate Professor
Jody M. Klymacheski, BSc (UVic), MSc, PhD (Washington), Associate Professor
Adam Ritz, BSc (Tasmania), MSc (Melbourne), PhD (Imperial College), Associate Professor
Kimberley A. Venn, BSc (Toronto), MSc, PhD (Texas-Austin), Associate Professor
Justin Albert, AB (Harvard), MSc, PhD (Princeton), Assistant Professor
Rogério de Sousa, BS, MS (Campinas, Brazil), PhD (Maryland), Assistant Professor
Pavel Kovtun, MSc (Kharkov Natl. University, Ukraine), PhD (Washington), Assistant Professor
Geoffrey M. Steeves, BSc, PhD (Alta), Assistant Professor
Jon R. Willis, BSc (Glasgow), PhD (Canterbury), Assistant Professor
Mark C.A. Laidlaw, BSc (UVic), MSc, PhD (UBC), Senior Instructor

Research Faculty

Werner Israel, OC, BSc (Dublin), Scholar (Dublin), PhD (Trinity), FRS, FRSC, CIAR Fellow and Adjunct Professor

2012-13 UVIC Calendar
The courses ASTR 101, 102, 201 and PHYS 303 are intended for students who wish to increase their understanding of science and the physical world as part of their cultural development.

Co-operative Education Programs
Please, see page 190.

Program Requirements
Notes on Course Requirements
- The course sequences below are designed for a four-year program. Students who anticipate taking longer than four years should consult the undergraduate adviser. Students in the Co-op program will take longer than four years and should consult the Co-op coordinator.
- Physics 12 and Mathematics 12 are required for entry into the Physics and Astronomy undergraduate programs. For all sequences, PHYS 120 is intended for students planning a career in Physics or Astronomy and who have attained at least a B standing in each of Physics 12 and Mathematics 12.
- Those with less than a B standing and planning a career in Physics or Astronomy, or those planning a career in some other Physical Sciences (such as Chemistry or Earth and Ocean Sciences), should take PHYS 112.
- Students planning to take Honours programs should normally also have completed Chemistry 11 and 12. Advanced placement is available for students with high standing in both Mathematics 12 and Physics 12.
- Students should consult the timetable or the department to confirm which courses are offered in any particular term.
- Where consent of the department is specified as a course prerequisite, this consent must be obtained from the department Chair or the Chair’s nominee.

Honours Programs: General Regulations
- Admission to the third and fourth years of the Honours programs requires the permission of the department.
- Admission to the Combined Honours Physics and Mathematics program requires the permission of both the Department of Physics and Astronomy and the Department of Mathematics and Statistics.
- Admission to the Combined Honours Physics and Earth Sciences (Geophysics) Program, and the Combined Honours Physics and Ocean Sc...

**Combined Physics and Astronomy Program Requirements**

**Combined Honours in Physics and Astronomy**

**Year 1**
- ASTR 150 ........................................... 1.5
- CHEM 101, 102 ................................ 3.0
- CSC 110 or 111 ................................ 1.5
- MATH 100, 101 .................................. 3.0
- PHYS 120 and 130; or 112 .................. 3.0
- Electives$^1$ ........................................ 3.0
- Total ............................................. 15.0

**Year 2**
- ASTR 250, 255 .................................. 3.0
- MATH 200, 201, 211 .......................... 4.5
- PHYS 214, 215, 216, 217 ................. 6.0
- Electives$^1$ ........................................ 1.5
- Total ............................................. 15.0

**Year 3**
- ASTR 303, 329 .................................. 3.0
- MATH 300, 301, 342, 346 ................. 6.0
- PHYS 321A, 321B, 323, 325, 326 ........ 7.5
- Electives$^1$ ........................................ 1.5
- Total ............................................. 15.0

**Year 4**
- Three of ASTR 402, 403, 404, 405 ........ 4.5
- ASTR 429 or PHYS 429B ..................... 1.5
- PHYS 460 .......................... 0.0
- PHYS 313 or 314; 410, 421, 422, 423, 429A .... 9.0
- Electives$^2$ ........................................ 3.0
- Total ............................................. 18.0

1. Three units of Chemistry are recommended in this program. PHYS 210, CSC 115, 225, 230 are also recommended.  
2. Electives chosen from Physics and Astronomy courses (or other approved courses) numbered 300 or higher. These electives must be chosen in consultation with the Department.

**Combined Major in Physics and Astronomy**

**Year 1**
- ASTR 150 ........................................... 1.5
- CSC 110 or 111 ................................ 1.5
- MATH 100, 101 .................................. 3.0
- PHYS 120 and 130; or 112 .................. 3.0

- PHYS 313 or 314; 410, 421, 422, 423, 429A .... 9.0
- Electives$^2$ ........................................ 3.0
- Total ............................................. 18.0

1. Electives chosen from first-year Chemistry courses.  
2. Some students may take MATH 211 and 212 in first year, and MATH 311 and 312 in second year.  
3. PHYS 210, CSC 115, 225, 230 are recommended.  
4. Students wishing to take MATH 401, 435 or 446 must take 335.  
5. Electives chosen from MATH courses numbered 300 or higher. These electives must be chosen in consultation with the Department of Mathematics and Statistics. The upper level courses taken must include one of the following combinations: one of MATH 412, 413 (Algebra); two of MATH 322, 422, 423 (Discrete); two of MATH 436, 466, 467 (Geometry/Topology); two of MATH 335, 401, 435 (Analysis); or two of MATH 352, 451, 452 (Probability).  
6. Electives chosen from Physics and Astronomy courses numbered 300 or higher. These electives must be chosen in consultation with the Department of Physics and Astronomy.

**Combined Physics and Earth Sciences (Geophysics) Program Requirements**

**Combined Honours in Physics and Earth Sciences (Geophysics)**

**Year 1**
- CHEM 101, 102 ................................ 3.0
- CSC 110 or 111 ................................ 1.5
- EOS 110, 120 ................................ 3.0
- MATH 100, 101 .................................. 3.0
- PHYS 120 and 130; or 112 .................. 3.0
- Electives$^2$ ........................................ 1.5
- Total ............................................. 15.0

**Year 2**
- EOS 201, 202, 205 .......................... 4.5
- PHYS 210 .......................... 1.5
- MATH 200, 201, 211 .......................... 4.5
- PHYS 215, 216, 217 ......................... 4.5
- Total ............................................. 15.0

**Year 3**
- EOS 300 ........................................... 1.5
- EOS 427 or PHYS 427 or electives$^1$, 2 .... 1.5
- MATH 300, 301, 342, 346 ................. 6.0
- PHYS 321A, 321B, 325, 326 ................. 6.0
- Electives$^1$ ........................................ 1.5
- Total ............................................. 16.5

**Year 4**
- EOS 410, 480 .......................... 3.0
- EOS 427 or PHYS 427 or electives$^1$, 2 .... 1.5
- EOS 499A, 499B; or PHYS 429A, 429B ....... 3.0
- PHYS 214, 323, 411 ......................... 4.5
- PHYS 460 ........................................... 0.0
PHYS or EOS electives$^{1,3}$ .......................... 6.0
Total .............................................. 18.0

1. In choosing these electives, it is recommended that students consider the prerequisite requirements for PHYS or EOS electives in Year 4.
2. One of EOS 427 or PHYS 427 is required in the program, and may be taken in either third or fourth year (normally offered in alternate years).
3. Chosen from EOS and PHYS courses numbered 300 and above. PHYS electives must be chosen in consultation with the Department of Physics and Astronomy.

**Combined Major in Physics and Earth Sciences (Geophysics)**

| Year 1 | | | | | |
|--------|--------|--------|--------|--------|
| CHEM 101, 102 | 3.0 | | | |
| CSC 110 or 111 | 1.5 | | | |
| EOS 110, 120 | 3.0 | | | |
| MATH 100, 101 | 3.0 | | | |
| PHYS 120 and 130; or 112 | 3.0 | | | |
| Electives | 1.5 | | | |
| Total | 15.0 | | | |

| Year 2 | | | | | |

| EOS 201, 202, 205 | 4.5 | | | |
| EOS 210 or PHYS 210 | 1.5 | | | |
| MATH 200, 201, 211 | 4.5 | | | |
| PHYS 215, 216, 217 | 4.5 | | | |
| Total | 15.0 | | | |

| Year 3 | | | | | |
|--------|--------|--------|--------|--------|
| EOS 300 | 1.5 | | | |
| EOS 427 or PHYS 427 or electives$^{1,2}$ | 1.5 | | | |
| MATH 300, 301, 342, 346 | 6.0 | | | |
| PHYS 321A, 325, 326 | 4.5 | | | |
| Electives$^3$ | 1.5 | | | |
| Total | 15.0 | | | |

1. In choosing these electives, it is recommended that students consider the prerequisite requirements for PHYS or EOS electives in Year 4.
2. One of EOS 427 or PHYS 427 is required in the program, and may be taken in either third or fourth year (normally offered in alternate years).
3. Chosen from EOS and PHYS courses numbered 300 and above.

**Combined Physics and Ocean Sciences (Ocean-Atmosphere Dynamics) Program Requirements**

**Combined Honours in Physics and Ocean Sciences (Ocean-Atmosphere Dynamics)**

| Year 1 | | | | | |
|--------|--------|--------|--------|--------|
| CHEM 101, 102 | 3.0 | | | |
| CSC 110 or 111 | 1.5 | | | |
| EOS 110, 120 | 3.0 | | | |
| MATH 100, 101 | 3.0 | | | |
| PHYS 120 and 130; or 112 | 3.0 | | | |
| Electives | 1.5 | | | |
| Total | 15.0 | | | |

1. It is recommended that students consider the upper-level PHYS courses they wish to take when choosing the order in which to take PHYS 321A, 321B, 323, 325, 326.
2. 4.5 units of other Computer Science courses must be at the 400 level and may include CENG 420 or 1.5 units of SENG courses; they must be chosen in consultation with the Department of Computer Science.
3. Physics electives must be at the 300 or higher level and must be chosen in consultation with the Department of Physics and Astronomy.

| Year 2 | | | | | |
|--------|--------|--------|--------|--------|
| EOS 340 | 1.5 | | | |
| MATH 200, 201, 211 | 4.5 | | | |
| PHYS 214, 215, 216, 217 | 6.0 | | | |
| Electives$^3$ | 1.5 | | | |
| Total | 15.0 | | | |

1. EOS 210 or PHYS 210, and CSC 115, 225 and 230 are recommended.
2. Chosen from PHYS courses numbered 300 and above, in consultation with the Department of Physics and Astronomy.

| Year 3 | | | | | |
|--------|--------|--------|--------|--------|
| MATH 300, 301, 342, 346 | 6.0 | | | |
| PHYS 321A, 325, 326 | 4.5 | | | |
| PHYS electives$^3$ | 1.5 | | | |
| Electives | 3.0 | | | |
| Total | 15.0 | | | |

1. EOS 210 or PHYS 210, and CSC 115, 225 and 230 are recommended.
2. Chosen from PHYS courses numbered 300 and above, in consultation with the Department of Physics and Astronomy.

| Year 4 | | | | | |
|--------|--------|--------|--------|--------|
| EOS 431, 433 | 3.0 | | | |
| PHYS 323, 341, 426 | 4.5 | | | |
| Electives | 7.5 | | | |
| Total | 15.0 | | | |

1. EOS 210 or PHYS 210, and CSC 115, 225 and 230 are recommended.
2. Chosen from PHYS courses numbered 300 and above, in consultation with the Department of Physics and Astronomy.
Combined Major in Physics and Biochemistry

**Year 1**
- BIOL 150A or 190A .................. 1.5
- CHEM 101, 102 ...................... 3.0
- CSC 110 or 111 ...................... 1.5
- ENGL 115 or 135 .................. 1.5
- MATH 100, 101 ..................... 3.0
- PHYS 120 and 130; or 112 ....... 3.0

- Total .............................. 15.0

**Year 4**
- Two of BIOC 401, 403, 404, 407, 408 .... 3.0
- BCMB 499A, 499B; or PHYS 429A, 429B .... 3.0
- PHYS 214; 313 or 314; 321A, 321B, 323 .... 7.5
- PHYS 460 ......................... 0.0
- Electives2 .......................... 3.0
- Total .............................. 15.0

**Year 5**
- One of PHYS 460 and ASTR 460 is recommended for third- and fourth-year students.

**Combined Honours in Physics and Biochemistry**

**Year 1**
- BIOL 150A or 190A .................. 1.5
- CHEM 101, 102 ...................... 3.0
- CSC 110 or 111 ...................... 1.5
- ENGL 115 or 135 .................. 1.5
- MATH 100, 101 ..................... 3.0
- PHYS 120 and 130; or 112 ....... 3.0
- Electives1 .......................... 1.5
- Total .............................. 15.0

**Year 2**
- BIOL 225 ............................. 1.5
- CHEM 231, 235 ..................... 3.0
- MATH 200, 201, 211 ............... 4.5
- MICR 200A .......................... 1.5
- PHYS 215, 216, 217 ............... 4.5
- Total .............................. 15.0

**Year 3**
- BCMB 301A ......................... 1.5
- BIOC 300A, 300B .................. 3.0
- CHEM 213, 245 ..................... 3.0
- MATH 300, 301, 342, 346 ..... 6.0
- PHYS 325, 326 ..................... 3.0
- Total .............................. 15.0

**Year 4**
- Two of BIOC 401, 403, 404, 407, 408 .... 3.0
- BCMB 499A, 499B; or PHYS 429A, 429B .... 3.0
- PHYS 214; 313 or 314; 321A, 321B, 323 .... 7.5
- PHYS 460 ......................... 0.0
- Electives2 .......................... 3.0
- Total .............................. 15.0

1. Must have credit for Biology 11/12 or BIOL 150A and 150B or equivalent.

Co-op Program Requirements

To qualify for entry to the Physics and Astronomy Co-op Program, a student must have satisfied the Academic Writing Requirement, be enrolled full time, be proceeding to an Honours or Major degree in the department of Physics and Astronomy, have at least a 4.5 GPA and have at least a B in each Physics or Astronomy course taken. To remain in the program, a student must be enrolled full time and maintain an average of at least 3.5. A minimum of four Work Terms is required to graduate with Co-op designation.
The Social Sciences encompass the systematic study of individual and group behaviour as people interact in and with their cultural, social, economic, political and biophysical environments. The disciplines in the Faculty, namely Anthropology, Economics, Environmental Studies, Geography, Political Science, Psychology and Sociology, enlarge their students’ understanding of themselves and the world.

Peter Keller, BA (Dub), MA, PhD (WOnt), Dean of Social Sciences
Michael Webb, BA (UBC), MA (LSE), PhD (Stan), Associate Dean Academic
Wendy L.M. Major, Administrative Officer
General Information

DEGREES AND PROGRAMS OFFERED

The Faculty of Social Sciences offers programs leading to the degrees of Bachelor of Arts (BA) and Bachelor of Science (BSc). BA Honours, Major and General programs are offered by the Departments of Anthropology, Economics, Geography, Political Science, Psychology and Sociology. The Departments of Geography and Psychology also offer BSc Honours, Major and General programs. The Department of Economics offers BSc Honours and Major programs. See chart below.

The School of Environmental Studies offers a BA or BSc degree in either the Major or General Programs when the degree is taken concurrently with a BA Honours, Major or General Program, or a BSc Honours or Major Program, from another academic unit. (See “School of Environmental Studies”, page 199.)

Students may obtain a BA in Mathematics or Statistics through the Faculty of Social Sciences. For information, please see page 195.

ACADEMIC ADVICE AND PROGRAM PLANNING

Interim Director
Susan Corner

Administrative Officer
Kelly Colby, BA (Whitman), MSc (Ithaca)

Advising Officers
Gillian M. Chamberlin, BA (UVic)
Denise J. Chan
Beth Christopher, BA (UVic)
Kelly Colby, BA (Whitman), MSc (Ithaca), acting
Joyce Gutensohn, BA (Hons), MA (UVic)
Lori S. Olson, BSc, MPA (UVic)
Patricia Perkins, BSc (UVic), on leave

Advising Assistants
Lara Hannafor
Eleanor Lagrosa
Judy Macquarrie

All students should discuss their proposed programs with the Academic Advising Centre and/or with departmental advisers well in advance of registration.

Academic Advising Centre

Academic advice for the Faculty of Social Sciences is available through the Academic Advising Centre serving the Faculties of Humanities, Science and Social Sciences, A203, University Centre. Students proposing to enter the faculty, or who have been admitted to the faculty, may seek information or advice regarding programs, courses or University and faculty regulations through the Advising Centre.

Departmental Advising

Each academic department has advisers generally available throughout the Winter Session who can give detailed information regarding courses and programs. During the summer months, students should contact the department concerned for an appointment. Students wishing to transfer into the faculty from other programs should consult the department they plan to enter regarding their transfer credit.

Faculty Transfer Advising

Students who wish to transfer into another faculty should contact that faculty’s advisers as early as possible regarding the proposed transfer.

University Transfer Advising

Students who wish to complete their degree at another university should contact that institution regarding courses and transfer equivalencies. Students who wish to complete courses at other institutions for transfer credit to the University of Victoria should refer to the section entitled “Applicants for Transfer”, page 27.

AVAILABILITY OF COURSES TO STUDENTS IN OTHER FACULTIES

Normally, a student who is not in the Faculty of Social Sciences may register for any section of a course offered in the faculty, provided that the student has the prerequisites for the course, there are places available in the course when the student attempts to register and the Calendar does not state that the registration in the course or in some sections of the course is restricted to students registered in the Faculty of Social Sciences.

Limitation of Enrolment

Admission to the University and faculty is not a guarantee of placement in particular programs and/or courses. Departments may limit enrolment for a variety of reasons.

Faculty Academic Regulations

ADMISSION REQUIREMENTS

The admission requirements for the Faculty of Social Sciences are presented on page 24.

CREDIT AND COURSES

Credit for Summer Session Courses

Credit obtained in May-August courses may be combined with that obtained in Winter Session to complete degree requirements. The maximum credit for May-August work in any calendar year is 9 units. Further information about the Summer Session is published in the Summer Session Supplement to the Calendar, available in January.

1. Offered jointly with the Faculties of Fine Arts and Humanities.
2. Offered jointly with the Faculties of Humanities, Law and Business.
3. Offered jointly with the Faculty of Humanities.
4. Offered jointly with the Faculties of Human and Social Development and Humanities.
5. Offered jointly with the Faculties of Humanities, Fine Arts, Engineering, Human and Social Development and Education.
6. Offered jointly with the Faculties of Fine Arts and Humanities, and the Division of Continuing Studies.
7. Offered jointly with the Division of Continuing Studies. May be taken with Co-op option.
8. Offered jointly with the Faculties of Human and Social Development and Humanities, and the Division of Continuing Studies.
Credit for Courses Offered by Other Faculties

Courses Acceptable for Elective Credit
All courses in other faculties are acceptable for use as elective credit in the Faculty of Social Sciences, if the regulations of the department offering the courses permit and prerequisites are met.

Substitution of Elective Credit for Required Courses
With the consent of the department offering the student’s degree, and with the permission of the Associate Dean of Academic Advising, students may substitute up to 3 units of 300- and 400-level elective credit for required courses at the 300 and 400 level in a Faculty of Social Sciences degree program. Such permission is invalid if a student withdraws from the degree program of the department that provided the consent.

Students should review individual department entries in the Calendar for information on the use or substitution of elective credit.

Credit for Studies at Other Universities
Students who wish to take courses at other universities (including universities with which the University of Victoria has formal student exchange agreements) must receive prior written approval, in the form of a Letter of Permission, from the Associate Dean of Academic Advising. This applies particularly to courses at the 300 and 400 level and to courses which are included in the last 15 units of a degree program. To be eligible for a Letter of Permission to take courses elsewhere, the student must have completed, or be registered in, no less than 6 units at the University of Victoria.

Students are solely responsible for checking the University of Victoria credit for courses to be taken elsewhere, prior to registration, to make sure that there will be no duplication of course credit already received (see also “Duplicate and Mutually Exclusive Courses”, page 32).

Upon successful completion of such courses, the student must request the Registrar of the other institution to send an official transcript of records to Undergraduate Records at the University of Victoria.

Due to the delay in obtaining official transcripts from other universities, students completing their degree requirements at another institution during the second term of the Winter Session (January-April) are not eligible to graduate at May convocation. This regulation does not apply to students completing degree requirements in a program offered in partnership between the University of Victoria and a regional college.

Students attending another institution who accept a degree from that institution abrogate their right to a University of Victoria degree until they have satisfied the University’s requirements for a second bachelor’s degree, page 40.

Normally, the faculty requires all students qualifying for a University of Victoria degree to complete at UVic at least 12 upper-level units of the 15 required for a Major Program, or at least 6 of the 9 upper-level units required in each area of the General Program.

Students in Honours programs normally may take at another university no more than 6 upper-level units in the discipline in which they are taking Honours, and only with the approval of the department’s Honours Adviser. In addition, students should complete at UVic at least 18 of the 21 upper-level units required for all degree programs.

Graduation Standing
The graduation standing of students in the Faculty of Social Sciences is determined in accordance with the University regulations under “Standing at Graduation”, page 40.

In cases of plagiarism and cheating, the Faculty of Social Sciences reserves the right to recommend to the Senate the withdrawal of the “With Distinction” (see page 40) designation in addition to the penalties outlined in the University policy on academic integrity, page 33.

Once a degree, diploma or certificate has been awarded by the University Senate, no change can be made to the programs that constitute that credential (see “Application for Graduation”, page 39).

Limit on Degrees Awarded
A student proceeding towards a BA or BSc degree in a Double Honours, Joint Honours and Major, Double Major or Interfaculty program is entitled to no more than one bachelor’s degree upon completion of any of these programs. Students seeking a second bachelor’s degree should consult the regulations on page 40.

Declaring a Program
All students continuing in the faculty must declare a program by filing a Record of Degree Program (RDP) with the Academic Advising Centre prior to graduation. If a degree program has been chosen and program entry requirements satisfied, students may file an RDP once they have attained second-year standing (credit for at least 12 units of course work) and should do so once they have attained third-year standing (credit for at least 27 units of course work). The purpose of this RDP is to ensure that proposed courses will meet the requirements of the selected program. Any subsequent change to a declared program also must be filed with the Academic Advising Centre.

Students who have not satisfied the University Academic Writing Requirement must do so before they declare their program.

The RDP is approved in writing by the Academic Advising Centre and, in the case of students who wish to pursue an Honours Program, by the department(s) concerned. Students who satisfactorily complete the program of courses set out in the RDP with the required grades are normally recommended for the degree.

Students who do not have an RDP approved, or who follow a program different from that set out in the approved RDP, may not be eligible to graduate.

Note: Students should be aware that limitations may apply to proposed combinations of the following: concurrent degree programs, degree/diploma combinations and degree/minor options.

Time Limit for Degree Completion
The Faculty of Social Sciences imposes no time limit for the completion of a General or Major BA or BSc. However, a department in the faculty may, with the approval of the faculty, impose stated time limits for a General or Major program that it offers. Students who have not completed their degree programs within five years of being classified as a third-year student must complete the program requirements specified five years or less prior to the completion of their degree.

Honours degrees are normally completed within four years or, for students in the Co-operative Education Program, within five years. A student who wishes to take longer to complete an Honours Program should seek prior approval from the Chair(s) of the department(s) concerned. Approval is not automatic.

Faculty Program Requirements

Requirements Common to All Bachelor’s Degrees
A student may proceed to either a BA or BSc degree, normally in one of three programs: Honours, Major or General. Joint Honours and Major programs are also offered (see below).

All degree programs have the following requirements:
1. The “Academic Writing Requirement”, page 31
2. A minimum of 60 units of courses numbered 100 and above, of which:
   - at least 30 must normally be completed at UVic
   - at least 21 units are numbered at the 300 or 400 level; 18 of these units must be taken at UVic
3. Years One and Two: Students must take a variety of courses across departments or schools at the University. In the first 15 units (representing Year One):
   - at least 9 units may be taken from any single department
   - a minimum of 3 units must be taken from at least two other departments
   - in the next 15 units (representing Year Two):
     - at least 12 units may be taken from a single department
     - at least 3 units must be taken from one other department
4. have a graduating grade point average of at least 2.0 (see “Graduating Average” under “Standing at Graduation”, page 40, for details).

For additional requirements for Honours, Major and General Degree Programs, refer to the individual program descriptions, below.

Departmental requirements for the degree program selected are specified under individual departments and schools.

Honours Program
The Honours Program requires specialization in one or more disciplines in the last two or three years of a degree program and is intended for students of higher academic achievement. In some Social Science disciplines, an Honours Program is an excellent preparation for graduate studies. Students who plan to undertake graduate studies are strongly advised to follow an Honours Program.
Admission to an Honours Program

Admission to an Honours Program is restricted to students who have satisfied the prerequisites and met the minimum GPA specified by the department(s) concerned, and who are judged by the department(s) to have the ability to complete the Honours Program. A student who wishes to be considered for admission to an Honours Program should apply to the Chair or Honours Adviser of the department (approval from both departments is required for admission to Combined Honours programs).

Requirements of the Honours Program

A student in an Honours Program must satisfy the requirements common to all bachelor's degrees in the Faculty of Social Sciences, listed above.

Each department has its own requirements for its Honours Programs, which are specified in individual department entries elsewhere in the Calendar. Of the 300- and 400-level course units specified by the department concerned, not more than 6 may be taken at another acceptable post-secondary institution, and then only with the prior approval of the department's Honours Adviser.

Continuation in an Honours Program requires satisfactory performance as dictated by the department. If, in the opinion of the department, a student's work at any time is not of Honours standard, the student may be required to transfer to a Major or General program.

Normally, a student should complete the requirements for an Honours Program in four academic years (five years for those students enrolled in the Co-operative Education Program). Students who are undertaking a degree on a part-time basis, and who wish to be considered as candidates for Honours, should discuss the options with the department(s) concerned.

Honours Programs

Bachelor of Arts
- Anthropology
- Economics
- Geography
- Mathematics
- Political Science
- Psychology
- Sociology
- Statistics

Bachelor of Science
- Economics
- Geography
- Psychology

Combined Honours Programs
- Biology and Psychology
- Geography and Earth and Ocean Sciences

Double Honours Program

With the joint approval of the departments concerned, a student may be permitted to meet the requirements for an Honours Program in each of two departments in the Faculty of Social Sciences, both leading to the same degree (BA or BSc).

Interfaculty Double Honours Program

If a student elects to complete an Honours Program in the Faculty of Social Sciences and a second Honours Program in another faculty, with one program leading to a BA and the other leading to a BSc, the program leading to the degree selected (BA or BSc) must be listed first on the student's Curriculum Advising and Program Planning (CAPP) form. If the second department listed offers both a BA Honours Program and a BSc Honours Program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

Students completing an Interfaculty program will be subject to the regulations of the faculty in which they are registered.

Joint Honours and Major Program

A student may elect to complete an Honours Program in one area of study together with a Major Program in another area of study, both within the Faculty of Social Sciences and both leading to the same degree (BA or BSc). The Honours Program will be listed first on the student's Curriculum Advising and Program Planning (CAPP) form.

If one of the two departments concerned offers a BA Program while the other offers a BSc Program, the student will receive either a BA or a BSc, depending on which is specified by the Honours Program. If the department offering the Major Program offers both a BA and a BSc program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

Interfaculty Joint Honours and Major Program

A student may elect to complete an Honours Program in one faculty together with a Major Program in another faculty. The Honours Program will be listed first on the student's Curriculum Advising and Program Planning (CAPP) form, and students will be subject to the regulations of the faculty in which they are registered.

If one of the two departments concerned offers a BA Program while the other offers a BSc Program, the student will receive either a BA or a BSc, depending on which is specified by the Honours Program. If the department offering the Major Program offers both a BA and a BSc program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

Major Program

The Major Program requires specialization in one discipline in the last two years of a degree program and may permit a student to proceed to graduate study if sufficiently high standing is obtained. The Major Program generally is also a good preparation for a professional or business career.

Requirements of the Major Program

A student in a Major Program must satisfy the requirements common to all bachelor's degrees in the faculty, listed above.

Each department has its own requirements for its Major Programs, which include the specification of 15 units, and not more than 15 units, of 300- and 400-level course work. At least 12 of these 15 units must be completed at UVic. A department may also specify and require up to 9 units of courses offered by other departments at the 300 or 400 level.

Major Programs

Bachelor of Arts
- Anthropology
- Economics
- Geography
- Mathematics
- Political Science
- Psychology
- Sociology
- Statistics

Bachelor of Science
- Economics
- Geography
- Psychology

Combined Major Programs
- Financial Mathematics and Economics
- Geography and Computer Science (Geomatics)
- Geography and Earth and Ocean Sciences
- Psychology and Biology
- Psychology and Computer Science

Double Major Program

A student may complete the requirements for a Major Program in each of two disciplines in the Faculty of Social Sciences, both leading to the same degree (BA or BSc).

If one of the two departments concerned offers both a BA Major Program and a BSc Major Program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

Combined Major with a Major Program

A student can complete one of the Combined Major Programs listed above with another Major Program (in this faculty or in another faculty), but the discipline of the Major Program must not be either of the disciplines of the Combined Major Program.

Interfaculty Program

A student may elect to complete an Interfaculty Double Major or a Joint Honours and Major Program. In a Double Major Program, if one of the two departments concerned offers both a BA Major Program and a BSc Major Program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

In a Joint Honours and Major Program, the Honours Program will be listed first on the student's Curriculum Advising and Program Planning (CAPP) form, and students will be subject to the regulations of the faculty in which they are registered. If one of the two departments concerned offers a BA Program while the other offers a BSc Program, the student will receive either a BA or a BSc, depending on which is specified by the Honours Program. If the department offering the Major Program offers both a BA and a BSc program, the requirements of the program leading to the degree selected (BA or BSc) must be met in the department offering the option.

BA or BSc Major in Environmental Studies

A Major Program in Environmental Studies can only be taken as the second component of a Double Major or Joint Honours and Major Program.
BA in Mathematics or Statistics
Students who wish to obtain a BA in Mathematics or Statistics and are registered in the Faculty of Social Sciences, must complete the requirements common to all bachelor’s degrees in the Faculty of Social Sciences.

GENERAL PROGRAM
The General Program provides students with the opportunity to study broadly in two disciplines in the last two years of a degree program. It is not intended to prepare students for graduate study, although some graduate schools may accept graduates of a General Program if they have achieved sufficiently high standing.

Requirements of the General Program
A student in a General Program must satisfy the requirements common to all bachelor’s degrees in the designated faculty determined by the first subject area listed on the Curriculum Advising and Program Planning (CAPP) form.

The General Program requires:
• Completion of 9 units of course work at the 300 and 400 level in each of the two disciplines, as specified in the General Program requirements of the departments concerned
• At least 6 of the 9 units in each discipline must be completed at UVic

A student may complete a General Program in any two of the following or by completing one of the following and one of the Generals offered in another faculty. The degree awarded will be a BA unless two Generals in the Faculty of Science are chosen, or one of the BSc Generals in Computer Science, Geography or Psychology is combined with a second BSc General in the Faculty of Science.

Anthropology
Economics
Environmental Studies
Geography
Political Science
Psychology
Sociology

A student may also complete a General Program that combines one of the above disciplines/areas of study with one of the following. The degree awarded will be a BA.

Arts of Canada Program (see page 221)
European Studies (see page 222)
Film Studies Program (see page 221)
Indigenous Studies Program (see page 222)
Minor in Music (see page 100)
Minor in Professional Writing in Journalism and Publishing (see page 105)
Social Justice Studies (see page 223)

MINOR PROGRAM
A Minor is an optional program that allows students to study in an area outside their Honours, Major or General Program areas. Requirements vary and are specified in the Minor requirements of the department concerned. Where not specified, the requirements for a Minor follow the requirements for the department General Program in one area only.
• No more than 3 units of the 300- and 400-level course work required for the Minor can be taken elsewhere, and at least 6 of the units required for the Minor must be completed at UVic.
• If the Minor requires 9 units of 300- and 400-level course work, these 9 units cannot form part of the 300- and 400-level department requirements for a student's Honours or Major Program. Corequisite courses in other programs may be counted toward the Minor.
• If the Minor requires less than 9 units of 300- and 400-level course work, no courses at the 300- or 400-level can form part of the requirements for a student’s Honours, Major or General Program or Option. Required or corequisite courses at the 200-level or higher in other programs or options may not be counted toward the Minor.

Only one Minor can be declared on a student’s program.

In addition to department Minors, the following Minors are offered:

Interdisciplinary Minors
Applied Ethics (see page 223)
Arts of Canada Program (see page 221)
European Studies (see page 222)
Film Studies Program (see page 221)
Human Dimensions of Climate Change (see page 224)
Indigenous Studies Program (see page 222)
Social Justice Studies (see page 223)
Technology and Society (see page 224)

Student-Designed Minor
Students may undertake an interdisciplinary Minor that is not listed in the Calendar. In addition to the requirements of the Minors listed above, this student-designed Minor must:
• Include courses from at least two departments, with a minimum of 3 units from each department
• Consist of courses taken only at UVic
• Have structure, coherence and theme; it cannot consist of unrelated courses
• Be approved by the Chair/Adviser of the departments concerned
• Be approved by the Associate Dean of Academic Advising
• Be declared by the end of the student’s third year

Students must discuss their proposed Student-Designed Minor with department Chairs/Advisers before submitting their request to the Associate Dean of Academic Advising. The Student-Designed Interdisciplinary Minor form is available from the Academic Advising Centre, A205, University Centre.

SOCIAL SCIENCES CO-OPERATIVE EDUCATION PROGRAMS
Barbara Fisher, MA (UVic), Coordinator
Helen Kobrc, BCom, MA (UVic), Coordinator

The Faculty of Social Sciences Co-operative Education Programs are a year-round programs that formally integrate an education in the social sciences with relevant work experience. Students will complete a minimum of three, normally four, work terms of employment in appropriate fields of business, industry, government, social services and the professions.

Admission to the Faculty of Social Sciences Co-operative Education Programs
To qualify for admission into the undergraduate Co-operative Education Programs in Anthropology, Economics, Environmental Studies, Geography, Political Science, Psychology or Sociology, a student must be proceeding to an Honours or Major BA or BSc degree in one or two of these disciplines. Students should refer to the Co-op entry under the appropriate department entry and to the “General Regulations: Undergraduate Co-op” on page 46.

For Graduate Co-op, students are referred to the UVic Graduate Calendar.

Applicants to the Co-op in the Social Sciences must be registered in at least 6 units of course work per term. Specific GPA requirements of individual departments may vary; refer to the entries of individual departments.

To continue in the program, students must continue to be enrolled full time in a program leading to an Honours or Major BA or BSc degree in one of the Social Science disciplines and must maintain the GPA set by the department.

To receive the Co-op designation upon graduation, students must complete satisfactorily the Work Term Preparation program, and successfully complete a minimum of three work terms. Details of Co-op work terms are recorded on the transcript.

A student may transfer from the Co-op program to the regular degree program at any time during an academic term.

Admission for Social Sciences Students in Double or Combined Majors
Students who are taking double or combined major degrees, or a major and the Professional Writing Minor (where each area offers a Co-op program) may, if eligible, enrol in and undertake work terms in both Co-op programs or may, if eligible, enrol in and undertake work terms in only one Co-op program. Students who complete at least two work terms in each area will have the combined nature of their program noted as part of the Co-op designation on their official records. Students enrolled in combined major degrees where a minimum of three work terms are required must complete no more than two work terms in one department.

Social Sciences Work Experience Program
The Social Sciences Work Experience Program is intended for students in the Faculty of Social Sciences who are enrolled in at least 3 units of courses in the Faculty of Social Sciences. Students who are not in the Faculty of Social Sciences, but are in interdisciplinary studies with the Faculty of Social Sciences, and enrolled in at least 3 units of courses in the Faculty of Social Sciences, may be considered for the Work Experience Program. Students participating in the Social Sciences Work Experience Program will complete one or two work experience terms, that is, four to eight months of full-time, discipline-related work under the supervision of the Social Sciences Co-op Program. These work experience terms are subject to the general regulations for Undergraduate Co-op programs in the University Calendar, with the exception that Work term credit by challenge, page 46, is not permitted. Participation in this program is limited. Stu-
dents should contact the Social Sciences Co-op office to discuss entry into this program.

Department of Anthropology

Ann B. Stahl, BA (Miami), MA (Calgary), PhD (Berkeley), Professor and Chair
Lisa Gould, BA, MA (Alberta), PhD (Wash U, St. Louis), Associate Professor
Heather Botting, BA, MA, PhD (Alberta), MA (Calgary) Senior Instructor
Alexandrine Boudreault-Fournier, BA (Carleton), MA (Concordia), PhD (Manchester) Assistant Professor
Helen Kurki, BSc, (Lakehead), MSc, PhD (Toronto), Assistant Professor
Yin Lam, AB (Harvard), MA (Alberta), MA (Stony Brook), PhD (Stony Brook), Associate Professor and Graduate Adviser
Quentin Mackie, BA, MA (UVic), PhD (Southampton), Associate Professor
Margo L. Matwyuchuk, BA (Winnipeg), MPhil, PhD (CUNY), Assistant Professor
Erin Halstad McGuire, BA (UVic), MPhil, PhD (Glasgow), Senior Instructor
Lisa M. Mitchell, BA (Alberta), MA (McMaster), PhD (CWRU), Associate Professor & Honours Adviser
April Nowell, BA, (McGill), PhD (Pennsylvania), Associate Professor & Co-undergraduate Adviser
Christine O’Bonsawin, BA (Brock), MA, PhD (U of Alberta), Assistant Professor & Director of Indigenous Studies Program
Eric A. Roth, BA (Missouri), MA, PhD (Toronto), Professor
Peter H. Stephenson, BA (Arizona), MA (Calgary), PhD (Toronto), Professor & Director of Environmental Studies
Brian Thom, BA, MA (UBC), PhD (McGill), Assistant Professor
Andrea Walsh, BFA (UVic), MA, PhD (York), Associate Professor
Rebecca (Becky) Wigen, BA (Washington), MA (UVic) Senior Lab Instructor & Co-undergraduate Adviser
Margot E. Wilson, BA, MA (Toronto), MA (Southern Methodist), Associate Professor & Associate Dean of Research and Outreach

Visiting, Adjunct and Cross-listed Appointments

Michael L. Asch, BA, PhD (Columbia), Limited Term Faculty (2007-2011)
Susan Crockford, BSc, PhD (UVic), Adjunct Assistant Professor (2007-2011)
Ronald R. Donaldson, BSc (UVic), MSc, MD (UBC), Sessional Instructor (2001-2011)
Budd Hall, BA, MA, (Michigan), PhD (UCLA), Cross-listed Professor, School of Public Administration (2010-2013)
Robert L. A. Hancock, BA (McGill), MA, PhD (UVic), Adjunct Assistant Professor (2008-2011)
Steig Johnson, BA, MA, PhD (UT-Austin), Adjunct Assistant Professor (2007-2011)
Duncan McLaren, BA (SFU), MA, PhD (UVic), Adjunct Assistant Professor (2009-2011)

Christine O’Bonsawin, BA (Brock), MA, PhD (U of Western Ontario), Assistant Professor (2007-2011)
Peter W. Stahl, BA (Toronto), MA (Calgary), PhD (Illinois), Limited Term Professor (2011-2014)

Emeritus Faculty

William H. Alkire (Professor Emeritus; PhD, Illinois 1965)
Kathleen A. Berthiaume (Assistant Professor Emeritus; PhD, Michigan 1974)
N. Ross Cruirmine (Professor Emeritus; PhD, Arizona 1965)
Leland H. Donald (Professor Emeritus; PhD, Oregon 1968)
Orville S. Elliott (Assistant Professor Emeritus; PhD, Harvard 1969)
Donald H. Mitchell (Professor Emeritus; PhD, Oregon 1968)
Nicholas Rolland (Professor Emeritus; PhD, Cambridge 1976)

Anthropology Programs

The Department of Anthropology offers General, Minor, Major and Honours Programs leading to the degree of Bachelor of Arts.

Program Requirements

Honours Program

Students normally apply for entry into the Honours Program at the end of their second year. Applications are made directly to the departmental Honours Adviser.

First Year

• ANTH 100

Second Year

• ANTH 200, 240 and 250, with a minimum combined GPA of 6.5 in these three courses
• Permission of the department for entry into the third-year Honours program

Third and Fourth Years

Students must:
• secure a GPA of at least 6.0 in upper-level Anthropology courses and maintain a cumulative GPA of 5.5 to continue in the program in the fourth year
• fulfill the requirements of the Major Program as listed below, plus an additional 7.5 units as follows:
  - ANTH 316, and 400A or 400B, and 499; and
  - 1.5 units of courses in data analysis techniques, approved by the department; and
  - an additional 1.5 units of 300- or 400-level courses offered by the department.

Honours Graduating Standing

An Honours degree requires:
• a graduating GPA of at least 5.0
• a GPA of at least 5.5 in 300- and 400-level Anthropology courses

Students who do not meet these requirements may opt to receive the Major degree.

Major Program

First Year

- ANTH 100

Second Year

- ANTH 200, 240 and 250

Third and Fourth Years

- Ethnology: 1.5 units from ANTH 323, 325, 329, 330, 332, 336, 337, 338, 391, 433, 491
- Archaeology: 3 units from ANTH 315, 340, 341, 342, 343, 344, 346, 347, 348, 349, 360, 365, 392, 397, 398, 449, 492
- Physical Anthropology: 3 units from ANTH 350, 351, 352, 355, 394, 450, 452, 453, 455, 494
- Method and Theory: 3 units from ANTH 309, 311, 316, 317, 318, 335, 395, 400A, 400B, 401, 402, 405, 409, 441, 450, 454, 495

- Plus 1.5 additional units from the above courses, or ANTH 396 if not used to satisfy the linguistics requirements

- Plus 1.5 units of Linguistics as offered by the Linguistics department or 1.5 units of ANTH 396

General and Minor Programs

First Year

- ANTH 100

Second Year

- ANTH 200, 240 and 250

Third and Fourth Years

- 9 additional units of Anthropology chosen from courses numbered 300 and above

Anthropology Co-operative Education Program

The Co-operative Education Programs in the Faculty of Social Sciences are described on page 195. Additional general regulations pertaining to co-operative education programs at the University of Victoria are found on page 46.

The Anthropology Co-operative Education option provides students with an opportunity to combine their academic studies with alternating periods of paid employment in Anthropology-related positions in the public, private or non-profit sectors. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35.

Admission to the Anthropology Co-op

Entry into the Anthropology co-op program is open to full-time students who are proceeding to an Honours or Major program offered by the department. Those who are taking fewer than 6 units per term should consult with the co-op office. To be considered eligible for the program, students must normally have and maintain a minimum GPA of 5.0 in Anthropology and 5.0 overall.

Students interested in participating in the co-op program should normally apply at the beginning of their second year of studies. Applications must be submitted to the Social Sciences Co-op office by the advertised deadlines in September and January. The first work term will normally start eight months after the application deadline. Work terms will normally alternate with study terms thereafter.

Students who are taking double or combined major degrees, who wish to participate in a combined Co-op, should refer to the Social Sciences
Co-operative Education Programs (see page 195).

To continue with the program, students must maintain a minimum GPA of 5.0 in Anthropology and 5.0 overall. To graduate with a Co-operative Education designation, students must satisfactorily complete three work terms. Each work term is recorded on the student's official transcript of academic record (as COM, N/X or F/X). A student may withdraw from the Anthropology co-op program and graduate with the Anthropology BA degree without the co-op designation at any time during an academic term. Work term credit by challenge, page 46, is permitted in the Anthropology co-op program.

Further information concerning the Anthropology co-op program is available from the department and from the Co-operative Education office and at <www.uvic.ca/anthcoop>.

**Department of Economics**

David Scoones, BSc (UVic), MA, PhD (Queen's), Associate Professor and Chair of the Department

Merwan H. Engineer, BA (UBC), MA, PhD (Queen's), Professor

David E. A. Giles, BSc, MCom, PhD (Canterbury), Professor

Carl A. Mosk, AB (Calif-Berkeley), MS (MIT), PhD (Harvard), Professor

Malcolm Rutherford, BA (Heriot-Watt), MA (SFU), PhD (Durham), Professor

G. Cornelis van Kooten, BSc, MA (Alberta), PhD (Oregon State), Professor and Canada Research Chair Tier 1

M. Christopher Auld, BSc, MA (UVic), PhD (Queen's), Associate Professor

Judith A. Clarke, BEc, MEc (Monash), PhD (Canterbury), Associate Professor

Pascal Coutry, BA, MA (Paris), MA, PhD (Chicago), Associate Professor

Martin Farnham, BA (Swathmore), MA, PhD (Michigan), Associate Professor

Peter W. Kennedy, BCom (NSW), MA, PhD (Queen's), Associate Professor

Alok Kuman, MA, MPhil (Delhi), PhD (Queen's), Associate Professor

Daniel Rondeau, BA (Sherbrooke), MA (Guelph), MA, PhD (Cornell), Associate Professor

Nilanjana Roy, BA, MA (Jadavpur), PhD (California-Riverside), Associate Professor

Herbert J. Schuetze, BA, MA, PhD (McMaster), Associate Professor

Paul Schure, MA (Groningen), PhD (EUI), Associate Professor

Kenneth G. Stewart, BA (Dalhousie), MSc (London), MA, PhD (Michigan), Associate Professor

Graham M. Voss, BA (UVic), MA (McMaster), PhD (Queen's), Associate Professor

Linda A. Welling, BA (Mt Allison), MA (Queen's), PhD (UWO), Associate Professor

Elisabeth Gugl, MA (Karl-Franzens Graz), MA, PhD (Rice), Assistant Professor

Emma Hutchinson, BEd (La Trobe), MA, MS, PhD (Michigan), Assistant Professor

Stephen Hume, BA (Trinity, Connecticut), MA (Toronto), Senior Instructor

G. Lief Black, BSc (UVic), Senior Analyst

Lori Cretney, BA (UBC), Administrative Officer

Nicholas Karlson, BA (Earlham), MA (Arizona), MA, PhD (Minnesota), Senior Lab Instructor

**Visiting, Adjunct and Cross-listed Appointments**

Jen Baggs, BA (Alberta), MA, PhD (UBC), Associate Professor, Cross-listed with Business (2010-2013)

Lynda Gagné, BA, MA (SFU), PhD (UBC), Assistant Professor, Cross-listed with Public Administration (2011-2014)

Lyndsay Teds, BA, MA, (UVic), PhD (McMaster), Assistant Professor, Cross-listed with Public Administration (2011-2014)

Charles K. Harley, BA (Woolster), MA, PhD (Harvard), Adjunct Professor (2011-14)

Jill R. Horwitz, BA (Northwestern) MPP, JD, PhD (Harvard) Adjunct Associate Professor (2011-2014)

Bradley K. Stennes, BSc, MSc, PhD (UBC), Research Economist, Canadian Forest Service, Adjunct Associate Professor (2010-2013)

**Emeritus**

Kenneth L. Arivo, BSc (Oregon), MS, PhD (Purdue)

Robert Cherneff, BA (UVic), MA, PhD (Washington)

Donald G. Ferguson, BA, MA, PhD (Toronto)

J. Colin H. Jones, BA (Wales), MA (Montana), PhD (Queen's)

J. Schaafsma, BA, MA, (McMaster), PhD (Toronto)

John Schofield, BA (Durham), MBA (Indiana), MA, PhD (SFU)

Gerald Walter, BA (California-Santa Barbara), MA, PhD (California-Berkley)

**Economics Programs**

The Department of Economics offers General, Minor, Major and Honours programs leading to a Bachelor of Arts, and Major and Honours programs leading to a Bachelor of Science. Both the BA and BSc Programs also offer a Business Option and a Finance Option. Information about current course offerings is available from the department's web page <web.uvic.ca/econ>.

**Limitation of Enrolment**

Students are advised that because of limited staff and facilities, it may be necessary to limit enrolment in certain courses. Course enrolment limits will be listed during registration. Students will be admitted on a first come, first served basis.

**Program Requirements**

**Notes on Course Requirements**

1. Mathematics requirements for Major and Honours programs should normally be completed by the end of the second year. Students who are considering the Financial Math and Economics program should take MATH 100 rather than 102.

2. The statistics requirements, ECON 245 and 246, or equivalent, for Major or Honours programs must be completed by the end of third year. Completing these courses in the second year allows for a wider choice of courses in subsequent years.

Although the department prefers and recommends ECON 245, STAT 260 can be substituted, provided the minimum grade requirements specified for ECON 245 are satisfied in STAT 260. Although the departments prefers and recommends ECON 246, STAT 261 can be substituted, provided the minimum grade requirements specified for ECON 246 are satisfied in STAT 261. Students seeking admission to the BCom program should be aware that ECON 245 and 246 may be substituted for STAT 252 in satisfying the entry requirements for that program. Applicants to the BCom program who may be considering a major in Economics should take ECON 245 and 246 rather than STAT 252. STAT 252 cannot be used to satisfy the program requirements for Economics. Students should note “Credit Limit—Beginning Level Statistics Courses” on page 32.

3. In the Honours BSc program, a maximum of 6 units of upper-level courses in Mathematics, Computer Science or Statistics may be substituted for upper-level Economics courses with permission of the department.

4. Students wishing to proceed to graduate studies in Economics are advised to include ECON 350, 351, 365, 366, 400, and 401 in their undergraduate program.

5. CSC 105 is intended primarily for students in Economics or the Business School. Students who have completed or are currently registered in ECON 103 and ECON 104 will be given priority; other students will be admitted on an availability basis. Although the department prefers and recommends CSC 105, CSC 110 may be substituted for CSC 105.

6. ECON 225 is required for all programs in Economics. It should normally be completed by the end of the second year and is a pre- or co-requisite for some 300 and all 400 level courses. No more than 7.5 credit units (5 courses) of upper level Economics courses, completed before 225 is passed, will be counted towards an economics degree. Students are advised that a comprehension and writing test will be given during the first seven calendar days from the start of ECON 225. Students who fail the test will be required to attend supplementary language/writing tutorials that will run parallel with the course. Students satisfy the ECON 225 course requirement if they have: i) received a minimum grade of B+ in ENGL 135, 146 or 147; or ii) passed ENGR 240.

7. ECON 203 and 204 may be repeated once in order to satisfy minimum grade requirements or to pass these courses.

**BA Program Requirements**

**BA Honours**

1. ECON 103 and 104, with normally a GPA of at least 5.5 in the two courses and at least a B in each course

2. MATH 100 or 102 (see Note 1)

3. CSC 105 (see Note 5)

4. 1.5 units of first-year English

5. 1.5 units of a Social Sciences course (other than a course in statistics or quantitative methods or ES 312) outside Economics; or PHIL 220 or PHIL 223
6. ECON 203, 204, and 225, with normally at least a B+ in each course (see Note 6).
7. ECON 245 and 246, with at least a B in 245 and at least a B- in 246.
8. ECON 313 or 400, normally at least a B+.
9. One of ECON 314, 333, 401
10. One of ECON 321, 327, 328, 337, 338, 407, 421
11. ECON 345 or 365
12. ECON 499
13. An additional 12 units of Economics courses numbered 300 and above.
14. 3.0 units of senior-level coursework in a subject or subjects other than Economics.

Also see Other Requirements for BA and BSc Honours Programs, below.

**BA Major**
1. ECON 103 and 104
2. MATH 100 or 102 (see Note 1)
3. 1.5 units of first-year English
4. 1.5 units of a Social Sciences course (other than a course in statistics or quantitative methods or ES 312) outside Economics; or PHIL 220 or PHIL 223
5. ECON 203 and 204, with a GPA of at least 3.0 in the two courses and at least a C in each course, and 225 (see Note 6).
6. ECON 245 and 246, with at least a C+ in 245 (see Note 2)
7. ECON 313
8. One of ECON 321, 327, 328, 337, 338, 407, 421
9. ECON 345 or 365
10. An additional 10.5 units of Economics courses numbered 300 and above.

**BA General or Minor**
ECON 103 and 104, ECON 225 (see note 6), and 9 units of Economics courses numbered 300 and above. Students completing a Major in a writing-intensive field may apply to the Economics Adviser to have the ECON 225 program requirement waived.

**BSc Program Requirements**

**BSc Honours**
1. ECON 103 and 104, with normally a GPA of at least 5.5 in the two courses and at least a B in each course
2. MATH 100, and 208 or 140; or MATH 102, and 208 or 140; or MATH 100, 101, 200, and 110 or 211 (see Note 1)
3. 1.5 units of first-year English
4. 1.5 units of a Social Sciences course (other than a course in statistics or quantitative methods, or ES 312) outside Economics; or PHIL 220 or PHIL 223
5. ECON 203, 204, and 225, with normally at least a B+ in each course
6. CSC 105 (see Note 5)
7. Econ 245 and 246, with normally at least a B in 245 and at least a B- in 246
8. ECON 350 and 313, with normally at least a B+ in each course
9. ECON 351
10. ECON 365 and 366
11. ECON 400 and 401
12. Three of ECON 435, 450, 451, 452, 453, 454, 456, 457 or 468
13. ECON 499
14. An additional 3.0 units of Economics courses numbered 300 and above
15. 3.0 units of senior level coursework in a subject or subjects other than Economics.

**BSc Major**
1. ECON 103 and 104
2. MATH 100, and 208 or 140; or MATH 102 and 208 or 140; or MATH 100, 101, 200, and 110 or 211 (see Note 1)
3. CSC 105
4. 1.5 units of first-year English
5. 1.5 units of a Social Sciences course (other than a course in statistics or quantitative methods, or ES 312) outside Economics; or PHIL 220 or PHIL 223
6. ECON 203 and 204, with a GPA of at least 3.0 in the two courses and at least a C in each course, and 313
7. ECON 245 and 246, with at least a C+ in 245 (see Note 2)
8. ECON 225 (see Note 6).
9. ECON 350 and 351, with at least a C+ in 350.
10. ECON 345 or 365
11. At least two of ECON 435, 450, 451, 452, 453, 454, 456, 457 or 468
12. An additional 6.0 units of Economics courses numbered 300 and above

**Double Major Programs**
Students seeking a Double Major with another discipline in which a BSc designation is offered will receive a BSc only if the Economics BSc requirements have been satisfied.

**Other Requirements for BA and BSc Honours Programs**
Admission to an Honours program is determined at the end of the third year and normally requires at least a B+ in each of ECON 203, 204, 225, 313, and for the BSc, 350 and 365. Application is to the Honours Adviser. Honours students should complete all required 300-level courses by the end of their third year. Honours students are required to:
1. maintain a GPA of at least 6.0 in upper level courses taken within the department;
2. complete ECON 499 and an Honours thesis in their fourth year.

**Minors**
The rules governing minors are determined by the faculty; those relating to the Faculty of Social Sciences are given on page 195.

**Minor in Economic Policy**
The program comprises four required courses (6.0 units) and six elective courses (9.0 units) drawn from a specified set of policy-oriented courses.

The program is described by the required and elective courses which are listed below according to the year in which it is recommended that students take them. The only other requirements are the general University requirements.

Note that required or corequisite courses at the 200 level or higher in other programs or options may not be counted towards the minor. Students completing an Honours or Major degree in Economics may not also complete a Minor in Economic Policy.

**Year 1 (2 courses)**
- ECON 113

**Year 2 (3 courses)**
- ECON 103
- ECON 104
- ECON 225

**Year 3 or 4 (5 courses)**
At least four courses drawn from
- ECON 305
- ECON 306
- ECON 310A
- ECON 310B
- ECON 311A
- ECON 311B
- ECON 312
- ECON 317
- ECON 320
- ECON 325
- ECON 339
- ECON 381
- ECON 382
- ECON 410A*

plus one further course drawn from the list above, or one of
- ANTH 405
- POLI 344
- POLI 350 (cross-listed as ADMN 311)
- POLI 351
- POLI 364
- POLI 365
- POLI 366
- ADMN 311 (cross-listed as POLI 350)
- ADMN 420

or one other policy-oriented course in another department, subject to the approval of the Department of Economics.

* This course is highly recommended, but students should be aware that it has prerequisites beyond those included in the Minor. Consult the ECON 410A calendar entry for the details.

**BA or BSc Major and Honours (Business Option) Requirements**
This program is intended for students who wish to supplement studies in Economics with studies in Business. Students must satisfy the requirements of their BA or BSc program, and take the following program:
- COM 220
- COM 240
- COM 250
- COM 270*

* COM 202 may be substituted for COM 270 if space is available in COM 202.

Students may take additional courses in the Faculty of Business by single course application to the Business Student Services Office, subject to the availability of courses.

**BA or BSc Major and Honours (Finance Option) Requirements**
This program is intended for students who wish to supplement studies in Economics with studies having a focus on Finance. Students must satisfy...
the requirements of their BA or BSc program, and include five of the following courses.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 305</td>
<td>Money and Banking</td>
</tr>
<tr>
<td>ECON 405B</td>

</tr>
<tr>
<td>MATH 348</td>
<td>Numerical Methods with Applications to Finance and Economics</td>
</tr>
<tr>
<td>MATH 477</td>
<td>Stochastic Financial Modelling</td>
</tr>
</tbody>
</table>

Students must take at least one of ECON 435 and 445.

Students can complete both the Business and Finance Options. COM 240 can be used towards both options, although students should note that COM 240 has pre- or corequisites.

**Combined Major: Financial Mathematics and Economics**

This is a single degree program leading to a BSc in Financial Mathematics and Economics. Only a Major program is offered. Students are required to take a selected combination of courses from the Department of Mathematics and Statistics and the Department of Economics. Students may complete this program in either the Faculty of Social Sciences or the Faculty of Science. Those choosing a Social Science degree should consult the Faculty of Social Sciences degree requirements, page 193; those choosing a Science degree should consult the Faculty of Science degree requirements, page 164.

**Term Abroad**

Students have the opportunity to spend a term, or a full academic year, abroad through an exchange program. The Department of Economics has student exchange arrangements with the City University of Hong Kong, Bocconi University (Italy), the University of Exeter (UK) and Nanyang Technology University (Singapore). At NTU in Singapore, students can do a Co-op work term, as well as courses.

These exchanges are restricted to students who have declared a degree program in Economics. The university has additional exchange agreements with institutions in 20 countries that are open to Economics students. For more information please see [web.uvic.ca/econ/undergraduate/international_exchange.php](http://web.uvic.ca/econ/undergraduate/international_exchange.php).

Applications for all exchange programs are made through the International and Exchange Student Services Office [iess.uvic.ca](http://iess.uvic.ca). The application deadline is mid-January of each year for an exchange to take place in the subsequent academic year. Interested students must contact the department's exchange coordinator as well as the International and Exchange Student Services before applying for an exchange.

**ECONOMICS CO-operative Education Program**

The Co-operative Education Programs in the Faculty of Social Sciences are described on page 195. Additional general regulations pertaining to co-operative education programs at the University of Victoria are found on page 46.

The Economics Co-operative Education option provides students with an opportunity to combine their academic studies with four 4-month periods of paid employment in Economics-related positions in the public, private or non-profit sectors. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35.

**Admissions to the Economics Co-op**

Entry into the Economics co-op program is open to full-time students (those taking 6 or more units per term) who are proceeding to an Honours or Major program offered by the department. To be considered for admission to the program, students must normally have a minimum GPA of 4.5 overall as well as a minimum GPA of 4.5 in ECON 103, ECON 104, ECON 225, and ECON 245 with a grade of not less than B- in any one of these courses. A grade of not less than B- is required in ECON 103. A student who has taken ECON 203 and/or 204 must meet the grade requirements on these courses rather than on the corresponding introductory courses ECON 103 and/or 104.

Students interested in participating in the co-op program should normally apply at the beginning of their second year of studies. Students planning to select the co-op education option should plan to complete the prerequisite courses outlined above by no later than their third full-time academic semester. Applications must be submitted to the Social Sciences Co-op office by the advertised deadlines in September and January. The first work term will normally start eight months after the application deadline. Work terms will alternate with study terms thereafter. To continue with the program, students must maintain a minimum GPA of 4.5 in Economics and 4.5 overall. To graduate with a Co-operative Education designation, students must satisfactorily complete three work terms. Each work term is recorded on the student's official transcript of academic record (as COM, NFX or FX). A student may withdraw from the Economics co-op program and graduate with the Economics BA or BSc degree without the co-op designation at any time during an academic term.

Students who are taking double or combined major degrees, who wish to participate in a combined Co-op, should refer to the Social Sciences Co-operative Education Programs (see page 195).

Work term credit by challenge, page 46, is permitted in the Economics co-op program.

Further information concerning the Economics co-op program is available from the department and from the Co-operative Education office and at [www.uvic.ca/econcoop](http://www.uvic.ca/econcoop).

**School of Environmental Studies**

Brenda Beckwith, BA (Calif State), PhD (UVic), Senior Laboratory Instructor

Jessica Dempsey, MA (UVic), MA (UBC), PhD (UBC), Assistant Professor

Eric S. Higgs, BIS, MA (Waterloo), PhD (Waterloo), Professor

Trevor Lantz, BA (Alberta), MA (UVic), PhD (UBC), Assistant Professor

Michael M’Gonigle, MSc (London School Econ), LLB (Tor), LLM, JSD (Yale), Professor

Rowe, James, BA (UVic), MA (U of California), PhD (U of California), Assistant Professor

Valentin Schaefler, BSc (McGill), MSc (Tor), PhD (SFU), Academic Administrator, Restoration of Natural Systems

Nancy Mackin, BA (Western ON), BArch, MArch, PhD (UBC), Adjunct Assistant Professor
Thomas Okey, BSc (St. Lawrence), MSc (Moss Landing), PhD (UBC), Adjunct Assistant Professor
Peter Stephenson, PhD (Toronto), Cross-Listed Professor
Angeline Tillmanns, BSc (UVic), PhD (Ottawa), Adjunct Assistant Professor
Linda Wilson, BA (UBC), MA (U of Idaho), PhD (Idaho), Adjunct Assistant Professor

ENVIRONMENTAL STUDIES PROGRAMS

Degree Programs

The School of Environmental Studies offers an interdisciplinary program, with courses that examine systemic aspects of environmental issues and explore solutions that cut across the boundaries of traditional disciplines. There is also the recognition that many aspects of local, national and international environmental problems are inextricably connected to our dominant cultural values, and attendant political, social, economic and educational institutions.

The intellectual strength of the School is supported by three distinctive, interdisciplinary research specialties: ethnoecology, ecological restoration and political ecology. Each professor in the School typically has a primary and at least one secondary specialty, which creates an even richer interdisciplinary setting. These specialties infuse the undergraduate curriculum, provide the primary subject areas for graduate studies and define the research activities of the School's academic staff. Each of these three specialties corresponds to a theme, and together these form the motto of the School: Respect, Restore, Sustain (matching ethnoecology, restoration and political ecology, respectively).

Students are required to combine studies in a traditional discipline with their Environmental Studies program in order to obtain a degree notation that includes Environmental Studies. Students undertake the Major in Environmental Studies together with a Major in another department (a Double Major, see “Major Program”, page 194) or a Major with an Honours Program (Honours/Major, see “Honours Program”, page 193) or a Major in another faculty (see “Inter-faculty Joint Honours and Major Program”, page 194). These programs lead to either a BA or a BSc degree. A General Program leading to a BA is also offered. By completing the requirements for the General Program together with a Major or Honours Program in another department or faculty, students may obtain a Minor in Environmental Studies (see “Minor Program”, page 195).

Students considering a Major, Minor or General Program in Environmental Studies must take the introductory course, ES 200 (Introduction to Environmental Studies), unless they have already completed ES 300A. It is suggested that students declare their intention to enroll in Environmental Studies by the end of their second year of study.

Many eligible courses in Environmental Studies are 300 and 400 level with prerequisites; students should therefore plan early to incorporate these prerequisites into their schedule and should be aware of the minimum grade requirement for the programs: a B- in ES 200.

When choosing electives, students are also encouraged to include courses in languages and in areas other than those in which the student is majoring; e.g., a student majoring in Sciences, should choose electives from the Social Sciences or Humanities.

Diploma in the Restoration of Natural Systems

A Diploma in the Restoration of Natural Systems is also offered in co-operation with the Division of Continuing Studies. Students are admitted to the Diploma Program on the recommendation of the faculty Coordinator and/or Chair of the Program Steering Committee. Contact Continuing Studies for details. For a description of the Diploma program, see page 201.

Limitation of Enrolment

Students are advised that because of restricted facilities and staff, it may be necessary to limit enrolment in certain Environmental Studies courses. Access will be determined in the first instance by strict adherence to prerequisites. Preference is given to students completing Major and Minor degree programs in Environmental Studies. Academic standing may be taken into account in determining enrolment in third- and fourth-year courses.

PROGRAM REQUIREMENTS

Course Prerequisites

Students are advised of the following prerequisites:

- ES 200 or 300A is a prerequisite for all other ES courses
- ES 240 or BIOL 215 is a prerequisite for ES 341
- ES 301, 321 and 341 are prerequisites for many fourth-year courses
- BIOL 190A and 190B are prerequisites for BIOL 215, ES 344 (BIOL 330) and ES 348
- STAT 255 or 260 is a prerequisite for ES 344 (BIOL 310)
- ECON 103 is a prerequisite for ES 312 (ECON 381)

Major Program

The Major program requires:

1. Completion of another Major or Honours program in the Faculties of Social Sciences, Science, or Humanities (only a Double Major or Honours/Major program is available). In consultation with the Director, students may apply for the Interfaculty Double Major (see page 194) which involves completing the Major in Environmental Studies and the appropriate degree program in another faculty.

2. A minimum grade of B- in ES 200 or 300A, or permission of Director, is required for entry to the Major program in Environmental Studies.

3. 1.5 units in quantitative concepts and methods will be required. To fulfill this requirement, both Majors and Minors need to take ES 240 or BIOL 215.

4. A minimum of 15 upper-level Environmental Studies units selected as follows:

   i) 4.5 units of upper-level core courses to be taken in the third and fourth years, including:

   - ES 301 (1.5)
   - ES 321 (1.5)
   - ES 341 (1.5)

   ii) 10.5 additional units chosen by the student

   - Although they are no longer offered, the following courses can also be used: ES 300B, 350, 352, 353, 400A-D, 410, 416, 420, 422, 424, 426, 432, 450.

Up to 4.5 units of upper-level courses from other departments and schools may be chosen. The following are examples of approved courses:

- Sciences
  - BIOL 300A and 300B (3.0) General Biochemistry
  - EOS 311 (1.5) Biological Oceanography
  - BIOL 408 (1.5) The Biology of Pollution
  - CHEM 302 (1.5) Industrial Chemistry with Special Reference to Air Pollution
  - CHEM 303 (1.5) Industrial Chemistry with Special Reference to Water Pollution
  - PHYS 310A (1.5) Physics and Technology of Energy
- Social Sciences
  - ANTH 304 (1.5) Technology in Culture
  - ECON 430A (1.5) Natural Resource Economics
  - ECON 430B (1.5) Topics in Natural Resource Economics
  - GEOG 450 (1.5) Decision Making in Resource Management
  - GEOG 457 (1.5) (formerly 459A and B) Protected Areas Management Challenges
  - POLI 357 (1.5) The Politics of Environmental and Natural Resource Policy
  - PSYC 350 (1.5) Environmental Psychology
  - SOCI 465 (1.5) Environmental Sociology
- Humanities
  - GRS 376 (1.5) Ancient Science and Technology
  - HIST 396 (1.5) Special Topics in the History of Science
  - PHIL 332 (1.5) Philosophy and Technology
- Education
  - EDCI 468 (1.5) Environmental Issues Education
• SNSC 373 (1.5) Environmental Education
Note: None of the courses selected in 4(i) and 4(ii) will be counted toward the Environmental Studies Major if they are declared as part of the outside Major or Honours requirements.

General and Minor Programs
1. A minimum grade of B– in ES 200 or 300A, or permission of Director, is required for entry to the General program in Environmental Studies.
2. ES 200 and ES 240 are requirements for this program.
3. 4.5 units of upper-level Environmental Studies core courses:
   - ES 301 (1.5)
   - ES 321 (1.5)
   - ES 341 (1.5)
4. 4.5 units of upper-level Environmental Studies courses chosen by the student
   - Although they are no longer offered, the following courses may be used to meet this requirement: ES 300B, 310, 350, 352, 353, 400A-D, 410, 416, 420, 422, 424, 426, 432, 450.

Environmental Studies Co-operative Education Program
The Co-operative Education Programs in the Faculty of Social Sciences are described on page 195. Additional general regulations pertaining to co-operative education programs at the University of Victoria are found on page 46.

The Environmental Studies Co-operative Education Program provides students with an opportunity to combine their academic studies with alternating periods of paid employment in Environmental Studies-related positions in the public, private or non-profit sectors. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35.

Admissions to the Environmental Studies Co-op Program
Entry into the Environmental Studies co-op program is open only to full-time students (those taking 6 or more units per term) who are proceeding to the Major program offered by the School of Environmental Studies. To be considered for admission to the program, students normally require a minimum cumulative GPA of 5.0.

Students interested in participating in the co-op program should normally apply in their second year of studies. Applications must be submitted to the Co-op office by the advertised deadlines in September and January. The first work term will normally start eight months after the application deadline. Work terms will normally alternate with study terms thereafter.

Students who are taking double or combined major degrees, who wish to participate in a combined Co-op, should refer to the Social Sciences Co-operative Education Programs (see page 195).

To continue with the program, students must maintain a minimum GPA of 5.0 in Environmental Studies and 5.0 overall. To graduate with a Co-operative Education designation, students must satisfactorily complete three work terms.

Each work term is recorded on the student’s official transcript of academic record (as COM, N/X or F/X). A student may withdraw from the Environmental Studies co-op program at any time during an academic term and proceed to graduate with a regular Environmental Studies Major or Minor program without the co-op designation.

Work term credit by challenge, page 46, is permitted in the Environmental Studies co-op program.

Further information concerning the Environmental Studies co-op program is available from the School of Environmental Studies or the Co-operative Education office and at <www.uvic.ca/envicoop>.

Diploma in the Restoration of Natural Systems
The Restoration of Natural Systems is a diploma program offered by the School of Environmental Studies in co-operation with the Division of Continuing Studies.

The Diploma requires 18 units of course work. It may be taken on a full-time basis (two years required for completion) or on a part-time basis (with a limit of six years). Students are admitted to the Diploma Program on the recommendation of the Academic Administrator.

Normally, admission to the Diploma program will require completion of a minimum of two years of university transfer credit with the required standing for University admission, and is also available to post-baccalaureate students. Background preparation that includes basic sciences (biology, chemistry and physical geography) is strongly recommended, and may be considered in competitive admission. The preparation of each student is assessed on entry, and additional lower-level courses may be required.

Courses are offered at the third-year level and include offerings cross-listed with regular third-year UVic courses. Students should anticipate standards of written work and examinable material at this level. To remain in the program, and to graduate, diploma candidates must maintain a GPA of 4.0.

Credit obtained within the Restoration of Natural Systems Diploma may be transferable to a regular degree program. However, such transferability of credit is always subject to the specific requirements of the degree program.

Up to 4.5 units of ER courses (in addition to the ES and RNS cross-listed courses) may be applied to an Environmental Studies Major.

Please see the Continuing Studies Calendar for information on the Certificate option in the Restoration of Natural Systems.

Enrolment in the Diploma Program is limited.

Diploma Program Requirements
ER = Environmental Restoration; ES = Environmental Studies
1. 7.5 units of required courses:
   - ER 311 (ES 352 or 341) .......................... 1.5
   - ER 312A ............................................ 1.5
   - ER 312B ............................................ 1.5
   - ER 313 (ES 318 or 348) .......................... 1.5
   - ER 314 ............................................. 1.5

2. 9.0 units selected from the following courses:
   - ER 325, 326, 327, 328, 329, 331, 332, 334, 335A, 335B, 336, 338, 352, 411, 490 and other courses including transfer credit, if not previously used towards a degree, subject to the approval of the Academic Administrator.
3. The following courses:
   - ER 390 (1.5) Environmental Restoration Project
   - ER 400 (0) Seminar in Environmental Restoration

Co-operative Education Option
Diploma candidates who complete one or more work terms through the Co-operative Education Program will receive Co-op notation on graduation.

Students who participate in the Co-operative Education Option are normally required to complete one work term after the completion of core courses and a minimum of three elective courses.

Co-operative Education students within the Restoration of Natural Systems Diploma Program will normally be required to complete all their program requirements within a 24-month period in order to maintain the full-time status required for participation in the Co-operative Education Program. For further information on the Co-operative Education Option and to apply for the Co-op program, visit the Co-op website at: <www.uvic.ca/envicoop>.

Department of Geography
Philip Dearden, BA (Birm), MSc (MUN), PhD (UVic), Professor and Chair of the Department
Mark S. Flaherty, BES (Wat), MA (Guelph), PhD (McMaster), Professor
Michael Hayes, BA, MSc, PhD (McMaster), Professor and Director, Health Education and Research Centre
C. Peter Keller, BA (Dub), MA, PhD (WOnit), Professor and Dean of Social Sciences
K. Olaf Niemann, BSc (Queen’s), MSc, PhD (Alta), Professor
Aleck S. Ostry, BSc, MSc (UBC), MA (SEU), PhD (UBC), Professor (Canada Research Chair)
Dan J. Smith, BES, MA (Wat), PhD (Alta), Professor
S. Martin Taylor, BA (Bristol), GCE (Leeds), MA, PhD (UBC), Professor
Roseline Canessa, BSc (McGill), MSc (Herriot-Watt), PhD (UVic), Associate Professor
Denise S. Cloutier-Fisher, BSc (Calg), MA, PhD (Guelph), Associate Professor
Maycara Costa, HBSc (Rio Grande), MSc (Nat Inst for Space Research), PhD (UVic), Associate Professor
David Duffus, BSc, MSc (Regina), PhD (UVic), Associate Professor
Jutta Gutberlet, BA (Estadual de Sao Paulo), MA, PhD (Tubingen), Associate Professor
Dennis E. Jelinski, BSc (Brandon), MSc (Calg), PhD (SEU), Associate Professor
Trisalyn Nelson, BSc, MSc (UVic), PhD (WLU), Associate Professor
Reuben Rose-Redwood, BA (U of Virginia), MS, PhD (Penn), Associate Professor

2012-13 UVIC CALENDAR
Ian Walker, BSc (Tor), PhD (Guelph), Associate Professor
David Atkinson, BSc, MA (Carleton), PhD (Ottawa), Assistant Professor
Christopher Darimont, BSc, PhD (UVic), Assistant Professor
Michele-Lee Moore, BSc, (Wont), MSc (UVic), PhD (W Laurier), Assistant Professor
Simon Springer, BA (UNBC), MA (Queen’s), PhD (UBC), Assistant Professor
Teresa Dawson, BA, MA (Oxford), MA (McMaster), Senior Instructor and Director, Learning & Teaching Centre
Ian J. O’Connell, BA, MA (Cork), PhD (UVic), Senior Instructor
Cameron Owens, BA, MA (Calg), PhD (SFU), Senior Instructor
John Fowler, BSc (Nfld), MSc (UVic), Senior Laboratory Instructor
Kinga Menu, BA (UVic), Senior Laboratory Instructor
Allan L. Carroll, BSc (SFU), PhD (UNB), Adjunct Professor, Limited Term (2007-2016)

Limited Term Appointments
James S. Gardner, BSc (Alta), MSc, PhD (McGill), Adjunct Assistant Professor (2012-2015)
Mark Zacharias, BSc, MSc (UVic), PhD (Guelph), Adjunct Assistant Professor (2012-2015)
S. Jean Birks, BSc (McMaster), MSc (Queen’s), PhD (Wat), Adjunct Assistant Professor (2011-2014)
Barrie R. Bonsal, BSc (UBC), PhD (Dal), Adjunct Assistant Professor (2012-2015)
Charles Burnett, BSc (U of A), MSc (UVic), PhD (Turku), Adjunct Assistant Professor (2010-2013)
Yonas Dhibe, BSc (AWTI), MSc (IHE), PhD (Delft), Adjunct Assistant Professor (2010-2013)
Cosmin Filipescu, BSc, Dip Adv Studies (Turku), Adjunct Assistant Professor (2010-2013)
Nikolaus Gantner, MSc (Innsbruck), PhD (Dal), Adjunct Assistant Professor (2012-2015)
Trudy A. Kavanagh, BA (York), MSc (Tor), BEd (Ottawa), PhD (UBO), Adjunct Assistant Professor (2010-2014)

Academic Advising
Students with questions specific to their involvement in any of the departmental programs or courses may arrange to meet with a Geography Undergraduate Adviser through the Geography General Office in the Social Sciences and Math Building, Room B203. Arrangements to meet with the Geography Honours Adviser may also be made through the Geography General Office. Arrangements to meet with an Academic Adviser may be made through the Advising Centre for Humanities, Social Sciences and Science, A203, University Centre.

Limitation of Enrolment
Students are advised that because of limited faculties and staff it may be necessary to limit enrolment in certain Geography courses.

Program Requirements
Notes on Course Requirements
1. Students who do not have the stated prerequisite(s) but believe they possess knowledge and background sufficient to succeed in a course may apply to the instructor for a departmental prerequisite waiver, explaining the basis for the request. If a student is granted a waiver, the instructor may require the student to complete additional coursework. Any such additional coursework will be described in writing at the time the waiver is granted.
2. Both STAT 255 or STAT 260 are suitable substitutes for GEOG 226. Students who already
have credit for an introductory statistics course numbered 200 or above from another academic unit must consult with a Geography Undergraduate Adviser before registering in GEOG 226 (see "Credit Limit — Beginning Level Statistics Courses", page 32).

3. Credit by Course Challenge is not offered.

4. The "E" grade and supplemental examinations are not offered.

**Honours Program (BA and BSc)**

Graduating with Honours entails meeting more stringent GPA requirements than the Major degree as well as successfully completing a thesis project in the form of two 1.5 unit courses, (GEOG 499A and 499B) supervised by a faculty member in the Department of Geography and presented and defended in an oral examination. Students interested in the Honours program should contact potential thesis supervisors well before the deadline for applying to the program. Students must complete the requirements for either the BA Major or the BSc Major Program as well as GEOG 499A and 499B.

Application to the Honours program must be made by March 15 preceding the student's final full year of undergraduate studies. Prospective Honours students must submit an application form available from the General Office of the Department of Geography (SSM B203). Successful applications include a written agreement from a faculty member in the department to serve as thesis supervisor, and an overall GPA of at least 6.0 and a GPA of 6.0 for all courses taken in third-year based on a minimum of 12 units of course work for that year.

**Honours Graduation Standing**

An Honours degree requires:

1. a graduating GPA of at least 3.5
2. a GPA of at least 3.5 in 300- and 400-level Geography courses.
3. a grade of at least B- in GEOG 499B

Students who do not meet these requirements may opt to receive the Major degree.

**Major Program**

**BA Major Program**

**First Year**

GEOG 101A, 101B, 103 .......................... 4.5
Courses from the Faculty of Social Sciences other than Geography ........................ 3.0
Electives ................................................................ 7.5
Total .................................................................. 15.0

**Second Year**

GEOG 226 (see Note 2 under Course Requirements) ............................................. 1.5
At least 2 courses from GEOG 209, 211, 218 ... 3.0
At least 1 course from GEOG 272, 274, 276 ... 1.5
GEOG 222 .................................................. 1.5
Course from the Faculty of Social Sciences other than Geography ........................ 1.5
Electives .......................................................... 6.0
Total .............................................................. 15.0

**Third and Fourth Years**

Eight upper-level Geography courses ....... 12.0
Two 400-level Geography courses ........... 3.0
Electives ......................................................... 15.0
Total .............................................................. 30.0

**Concentrations**

The Department of Geography offers concentrations in the following areas: Coastal Studies, Earth Systems, Environmental Sustainability, and Geomatics. Students complete the required courses noted below within the Bachelor of Arts, Major and Honours programs:

**Concentration in Coastal Studies:**

GEOG 209, 325, 353, 355; and three of 303, 420, 424, 430, 438, 453, 457, 474.

**Concentration in Environmental Sustainability:**

GEOG 209; four courses from 301, 314, 352, 353, 357, 371; and one course from 438, 450, 453, 456, 457.

**Concentration in Geomatics:**

Four courses from GEOG 319, 322, 323, 325, 328, 329; and two courses from 418, 420, 422, 428.

**BA General and Minor Programs**

**First Year**

GEOG 101A, 101B ................................. 3.0
Electives ..................................................... 12.0
Total ......................................................... 15.0

**Second Year**

GEOG 222 .................................................. 1.5
At least 2 courses from GEOG 209, 211, 218 ... 3.0
Electives ..................................................... 10.5
Total ......................................................... 15.0

**Third and Fourth Years**

Six upper-level Geography courses ........... 9.0
Electives ..................................................... 21.0
Total ......................................................... 30.0

**BSc General and Minor Programs**

**First Year**

GEOG 101A, 103 ................................. 3.0
Electives ..................................................... 12.0
Total ......................................................... 15.0

**Second Year**

GEOG 222, 228 ........................................ 3.0
At least 2 courses from GEOG 272, 274, 276 ... 3.0
Electives ..................................................... 9.0
Total ......................................................... 15.0

**Third and Fourth Years**

At least four courses from GEOG 358, 370, 373, 376, 424, 474, 476, 477, 484 ............. 6.0
Two upper-level Geography courses ........... 3.0
Electives ..................................................... 21.0
Total ......................................................... 30.0

**General and Minor Program in Coastal Studies**

The Department of Geography offers a General and Minor program in Coastal Studies (BA and BSc). The goal of the program is to provide students from all disciplines with the skills required to better anticipate, mitigate and manage societal and environmental change in coastal areas. Graduates of this program will be well positioned to be the agents of change, influencing policy, connecting local needs to international
circumstances, watersheds to coastal oceans, living resources to environments, human well being to environmental quality, economic prosperity to environmental sustainability, all of which may be pursued through graduate school or employment with government, the private sector or NGOs.

First and Second Year

**GEOG 101A, 101B** ...................................... 3.0
**Electives** ............................................. 27.0
**Total Units** ........................................... 30.0

Third and Fourth Year

**GEOG 352, 353, 355** .................................. 4.5
At least three courses from **GEOG 303, 370, 373, 376, 420, 424, 430, 438, 453, 457, 474**. .................................................. 4.5
**Electives** ............................................. 21.0
**Total** .................................................. 30.0

1. Students interested in a more science-oriented program are particularly encouraged to take **GEOG 103**.
2. Students may substitute 2 courses from the following: **ANTH 338, 449, BIOL 311, 319, 322, ECON 382, EOS 350, 408, 431, ES 446 ER 335B**.

**COMBINED PROGRAMS IN PHYSICAL GEOGRAPHY AND EARTH AND OCEAN SCIENCES**

The Department of Geography and the School of Earth and Ocean Sciences have designed two programs leading to a BSc Combined Major or Honours Degree.

The Department of Geography, the School of Earth and Ocean Sciences and the University of Victoria assume no responsibility for students’ acceptance into the Association of Professional Engineers and Geoscientists of BC (APEGBC) during or after completing the program. APEGBC has more requirements beyond course work, and reserves the right to set standards and change their requirements at any time. For information, see their website at <www.apec.bc.ca>.

Students intending to pursue the combined programs must consult with the Undergraduate Adviser in either Geography or the School of Earth and Ocean Sciences after completing all of the first-year requirements.

Admission to the Combined Honours in Geography and Earth Sciences Program requires the permission of both the Department of Geography and the School of Earth and Ocean Sciences.

**BSc Combined Honours/Major Program Requirements**

**First Year**

**CHEM 101, 102** ........................................ 3.0
**EOS 110, EOS 120** ...................................... 3.0
**GEOG 101A** ............................................... 1.5
**MATH 100, 101** .......................................... 3.0
**PHYS 112; or 102 and 120; or 120 and 130**. ............... 3.0
**Electives** ............................................. 1.5
**Total** .................................................. 15.0

**Second Year**

**CHEM 245** .............................................. 1.5
**EOS 201, 202, 205, 210, 240** ............................ 7.5
**GEOG 222** ............................................... 1.5
**GEOG 226 or STAT 260** (see Note 2 under Course Requirements) ........................................ 1.5
**MATH 202** ............................................... 1.5
**Electives** ............................................. 1.5
**Total** .................................................. 15.0

**Third and Fourth Years (BSc Combined Honours)**

**EOS 225, 316, 340** .................................... 4.5
**EOS 300 or GEOG 477** .................................. 1.5
**EOS 440 or GEOG 370** .................................. 1.5
**EOS 450 or GEOG 476** .................................. 1.5
**EOS 499A, 499B or GEOG 499A, 499B** ............... 3.0

**CSC 400-level electives** (see Note 4 below) ............. 3.0
**Electives** ............................................. 4.5
**Total** .................................................. 15.0

1. **ENGL 225 can be substituted for ENGR 240**.
2. Students interested in remote sensing wishing to advance to GEOG 422 are encouraged to take both GEOG 319 and 322.
3. **CSC 305 requires MATH 211 or 233A as a prerequisite**.
4. These 3 units of CSC courses at the 400 level may include CENG 420 and/or 1.5 units of SENG at the 400 level.

**GEOPGRAPHY CO-OPERATIVE EDUCATION PROGRAM**

The Co-operative Education Programs in the Faculty of Social Sciences are described on page 195. Additional regulations pertaining to co-operative education programs at the University of Victoria are found on page 46.

The Geography Co-operative Education option provides students with an opportunity to combine their academic studies with alternating periods of paid employment in Geography-related positions in the public, private or non-profit sectors. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35.

**Admissions to the Geography Co-op Program**

Entry into the Geography co-op program is open to full-time students (those taking 6 or more units per term) who are proceeding to an Honours or Major program offered by the department. To be considered for admission to the program, students normally require a minimum GPA of 5.5 in Geography courses as well as an overall GPA of 5.5. Admission will also be based on a student's interests and abilities.

Students who are taking double or combined major degrees, who wish to participate in a combined Co-op, should refer to the Social Sciences Co-operative Education Programs (see page 195).

Students interested in participating in the co-op program should normally apply at the beginning of their second year of studies. Applications must be submitted to the Social Sciences Co-op office by the advertised deadlines in September and January. The first work term will normally start eight months after the application deadline. Work terms will alternate with study terms thereafter.

To continue with the program, students must maintain a minimum GPA of 6.0 in Geography and 5.0 overall. To graduate with a Co-operative Education designation, students must satisfacto-

POLITICAL SCIENCE PROGRAMS

The Department of Political Science offers General, Minor, Major and Honours programs leading to the BA degree. The department also offers courses toward an interdisciplinary Minor in European Studies. See page 222 for further information.

Third- and fourth-year students not enrolled in the General, Minor, Major or Honours programs may take any third- or fourth-year course in Political Science for which no prerequisite or other restriction is specified.

Information about current course offerings is available from the departmental Office (Room A316, Social Studies and Math Building; 250-472-5458) or from the department’s web page <web.uvic.ca/polisci>. Students intending to major in Political Science should consult the department’s undergraduate Adviser when planning their programs for the third and fourth years.

PROGRAM REQUIREMENTS

Honours Program

Students will be admitted to the Honours Program in Political Science, at the discretion of the department, at the beginning of the third year. Students must have a minimum GPA of 6.0 in at least 6 units of Political Science courses numbered at the 100 or 200 level. To continue in the program in the fourth year, students must secure a GPA of at least 6.5 in Political Science courses taken during the third year, and maintain an overall sessional GPA of 6.0.

Students wishing to be admitted to the Honours program must contact the Political Science Honours adviser in writing no later than May 31 preceding the year in which they wish to take POLI 338 and 339, and be admitted to third-year Honours. Admission decisions will be made by the Honours adviser no later than the beginning of winter-session registration (in late June). POLI 338 and 339 normally are taken in the student’s third year, and 499 in the fourth year. Students are advised that because of limited staff and facilities, it may be necessary to limit enrolment in the Honours program.

The Honours program requires completion of:
1. 21 units of Political Science courses numbered at the 300 and 400 level and that include:
   - POLI 338
   - POLI 339
   - POLI 499
2. Either 6 units in one of the Groups I-IV or 6 units organized around a program of specialized study approved by the Honours Adviser and the student’s supervisor.

Honours Graduation Standing

Graduation with Honours in Political Science requires:
1. a graduating average of 5.5 or higher
2. an average of 5.5 or higher in the best 21 units of Political Science at the 300 and 400 levels
3. at least a grade of B in POLI 499

Honours students are required to consult the Honours Adviser in the department when planning their programs for the third and fourth years.

Major Program

Students intending to major in Political Science are required to complete:
1. 6 units of Political Science courses at the 100 and 200 levels, 4.5 of which must be chosen from POLI 101, 103, 201, 202, 210 and 240, including at least one of 101 and 201, and with a grade of at least C+ in each of these three courses. It is strongly recommended that these courses be taken during the first two years of a student’s program.
2. 15 units of Political Science courses at the 300 or 400 level, including at least one of the core courses (marked * in the course index below) from each of the Groups I-IV, and at least one fourth-year seminar course (POLI 401, 402, 412, 413, 414, 420, 422, 431, 432, 433, 434, 436, 442, 443, 444, 456, 458, 461, 462, or 465).

Major students are also strongly encouraged to take POLI 321, “Introduction to Research Methods in Politics”.

Seminar courses are open only to students registered as Political Science Majors or Honours, or to non-Majors having the permission of the instructor. Enrolment in seminar courses is limited to 20 students, while in other upper-level courses the limit is 50 students.
General and Minor Programs
A concentration in Political Science under the General or Minor Program requires:
1. 6 units of courses at the 100 or 200 level
2. 9 units of courses at the 300 or 400 level

Major and Honours Programs (European Studies Concentration)
The Department of Political Science offers an interdisciplinary concentration in European Studies for Major and Honours students in Political Science. The concentration provides students with a specialized training in European politics, history, culture and languages as well as an educational or work experience in a European country. Students wishing to concentrate in European Studies must plan their program in consultation with the Director of European Studies.

Major and Honours students in Political Science who wish to graduate with a concentration in European Politics must complete:
1. POLI 211 and 311 with a grade of at least B in each
2. 4.5 units of approved courses on European Politics chosen from: POLI 300A, 300B, 300C, 340, 379, 414, 431 and any of POLI 319, 349 or 433 on (approved) European topics. For other courses, students need permission from the Director of European Studies
3. 6 units of courses on European History or Culture, including at least 3 units at the 300 level or above, to be approved by the Director of European Studies
4. 9 units of courses in a modern European Language (e.g., French, German, Italian, Russian or Spanish)
5. Either a or b:
   a. One of the following:
      • EUS 390 (1.5)
      • a minimum of 1.5 transferable units from a European university obtained through a UVic International Exchange program;
      • a minimum of 1.5 transferable units from a European university through a Letter of Permission;
   b. A minimum of one Co-op work term in a European country through the Social Sciences Co-operative Education Program.

Admissions to the Political Science Co-op Program
Entry into the Political Science co-op program is open to full-time students (those taking 6 or more units per term) who are proceeding to an Honours or Major program offered by the department. To be considered for admission to the program, students normally require a minimum GPA of 5.0 in 100 and 200 level Political Science courses. In addition to these grade and course requirements, admission will also be based on a student's interests and abilities.

Students interested in participating in the co-op program should normally apply at the beginning of their second year of studies. Students should complete POLI 351 before commencement of their first work term, and must complete it before commencement of their second work term. Applications must be submitted to the Social Sciences Co-op office by the advertised deadlines in September and January. The first work term will normally start eight months after the application deadline. Work terms will normally alternate with study terms thereafter.

Students who are taking double or combined major degrees, who wish to participate in a combined Co-op, should refer to the Social Sciences Co-operative Education Programs (see page 195).

To continue with the program, students must maintain a minimum GPA of 5.0 in Political Science and 5.0 overall. To graduate with a Co-operative Education designation, students must satisfactorily complete three work terms and attain a grade of at least B in POLI 351. Each work term is recorded on the student's official transcript of academic record (as COM, N/X or F/X). A student may withdraw at any time during an academic term from the Political Science co-op program and graduate with a Political Science BA degree without the co-op designation.

Work term credit by challenge, page 46, is permitted in the Political Science co-op program.

Further information concerning the Political Science co-op program is available from the department or the Co-operative Education office and at <www.uvic.ca/polisci coop>.

POLITICAL SCIENCE UNDERGRADUATE COURSE INDEX
For details of courses to be offered, the terms in which classes will be given, and the names of course instructors, prospective students should consult “My page” or the department’s website: <web.uvic.ca/polisci/).

Claire Sira, BA (UVic), MA (Queen's), PhD (UVic), Adjunct Assistant Professor (2010-2013)
Joshua Slatkoff, BA (McGill), MA (Lakehead), PhD (UVic), Adjunct Assistant Professor (2010-2013)

Psychology Programs

The Department of Psychology offers the following undergraduate programs of study: Honours, Major, General, Minor, Combined Biology and Psychology, and Combined Computer Science and Psychology. Students in the Honours and Major Programs may proceed to either a BA or BSc degree in Psychology.

The Honours program is recommended for students planning to do graduate work in scientific or professional psychology. Graduation in the Honours program requires that students be admitted to the program at the end of the third year of study.

The Major program requires specialization in Psychology in the last two years of the program, and is designed to permit students to pursue a variety of professional and business career options requiring baccalaureate-level training.

The General program is available for students who seek a broad background in Psychology to prepare for entry into other fields.

Please note: The Bachelor's degree in Psychology is intended primarily to prepare the student for further advanced study in psychology or related fields (education, social work, etc.), and in no way implies professional competence as a psychologist without such advanced training. Although students may find employment of a psychological nature with an undergraduate degree, it is expected that further preparation, perhaps in the form of in-service training, will normally be required by employers.

Limitation of Enrolment

Students are advised that because of limited staff and facilities, it may be necessary to limit enrolment in certain courses. Course enrolment limits will be imposed during registration. Students will be admitted to Psychology courses on the basis of stated prerequisites and priorities. Students who have declared a psychology Honours or major program may be granted preferential enrolment in 300- and 400-level psychology courses.

Program Requirements

Notes on Course Requirements

1. First- and second-year students are encouraged to schedule courses required for their program (Core Requirements and Requirements Outside Psychology) prior to scheduling electives.

2. Students interested in the Major or General program should consult the Academic Advising Centre (University Centre A205) as early as possible. Once the Core Requirements are completed, and no later than their final term before achieving fourth-year standing (42 units completed), students must declare their Major in Psychology by filing a Record of Degree Program form with the Advising Centre.

3. Until the Core Requirements are satisfied, a student will be unable to register in PSYC 300A or 300B.

4. It is strongly recommended that students take PSYC 300A and 300B in consecutive terms and with the same instructor if possible.

5. The following guidelines for course selection are suggested:

- Students planning to enter social services, including mental health, school psychology, social work, parole, child care: PSYC 311B or 313, 315, 330, 331, 360 and 361, 365, 450 and at least 1.5 units from PSYC 335, 336, 338 and 339.

- Students planning careers in business and industry, civil service, government, personnel work: PSYC 311B, 330, 331, 333, 334, 365, 401, as well as courses in other social sciences such as ECON 100, POLI 101, 201, SOCI 319, 321.

- Students planning to pursue advanced degrees in Psychology are advised to take PSYC 400A and 401.
Many careers demand some form of oral presentation. We strongly recommend that all students enroll in a public-speaking course, such as THEA 150.

6. The Department of Psychology may give permission for individual studies and directed readings to be taken under the course numbers PSYC 390 and 490 primarily to allow students and a faculty supervisor to pursue a topic of mutual interest. These courses are available only to students with credit in PSYC 201 and a GPA of at least 5.5 in the last 15 units attempted. Other courses are not offered as individual studies or directed readings at any time. Students seeking an exemption from these restrictions must make a formal application to the department undergraduate adviser.

7. Students planning to apply for graduate studies immediately following their graduation should plan to write the Graduate Record Examination at the end of their third year of undergraduate work or during the fall term of their fourth year. Applications must be received in Princeton, NJ at least six weeks prior to the time of writing. More information about the GRE, including examination schedules, can be found in the GRE Registration Bulletin (available from Counselling Services).

Requirements Common to BA and BSc

1. Core requirements for Honours and Major programs (9.0 units):
   - PSYC 100A and 100B, with a grade of at least C+ in each
   - PSYC 201, 210 and 215A, with a grade of at least C in each and a combined GPA of at least 3.0 in the 4.5 units
   - 1.5 units of English composition chosen from ENGL 115, 135, 146, 147, 225, ENGR 240, WRIT 100 or 102

2. Requirements Outside Psychology for Honours and Major Programs (7.5 units):
   - 1.5 units of Computer Science 100- or 200-level
   - 1.5 units of English, any level
   - 1.5 units of Philosophy, any level
   - 3.0 units of Social Sciences (Anthropology, Economics, Environmental Studies, Geography, Political Science, Sociology), any level

3. Breadth Requirements for Honours, Major, General and Minor Programs (7.5 units). Students must include at least 1.5 units from each of the groups listed below:
   - Biological/Neuropsychology: PSYC 315, 323, 324, 345A, 415A, 415B

Honours Programs (BA and BSc)

Graduating with Honours entails meeting more stringent GPA and course requirements than the Major degree, as well as successfully completing a year-long thesis project supervised by a regular faculty member in the Department of Psychology (sessional instructors and adjunct faculty can co-supervise with a regular faculty member). Students interested in the Honours program should talk to potential thesis supervisors well before the deadline for applying to the program.

Admission to the Honours program must be sought by May 31 preceding the student’s final full year of undergraduate studies. Prospective Honours students must apply online. See <http://web.uvic.ca/psych/undergraduate/honours.php> for details on applying to the honours program. In addition to the permission of the Honours Adviser, applicants must obtain agreement from a regular faculty member in the department to serve as thesis supervisor.

Admission to the Honours program requires:
   - a minimum GPA of 6.5 in all Psychology courses taken at post-secondary institutions within the last 5 years;
   - a minimum GPA of 5.0 in all non-Psychology courses taken at post-secondary institutions within the last 5 years;
   - Declaration of Major as BA or BSc in Psychology or BSc in the combined Biology-Psychology program by the time of application to the Honours program.

The Honours program requires completion of 63 units.

BA Honours

Core Requirements (above) .................. 9.0
Requirements Outside Psychology (above) .. 7.5
One of BIOL 150A, 190A, 215 .......... 1.5
BIOL 150B or 190B .................. 1.5
One of MATH 100, 102, 151, PHIL 201, .. 1.5
203, 370 ............................ 1.5
Humanities and/or Fine Arts electives .......... 9.0
PSYC 300A and 300B with a grade of at least C in each ........ 3.0
Breadth Requirements (above) ............... 7.5
300- or 400-level Psychology electives ..... 3.0
400-level Psychology elective other than PSYC 400A, 401, 490, 499 ................ 1.5
Electives* .................................. 15.0
Total ........................................ 60.0

BSc Honours

Core Requirements (above) .................. 9.0
Requirements Outside Psychology (above) .. 7.5
One of BIOL 190A, 215 .......... 1.5
BIOL 190B .................. 1.5
One of MATH 100, 102, 151, ........................ 1.5
Faculty of Science electives (may include EPHE 141, 241A, 241B). At least 6 of these 9 units must come from a single department (not EPHE) ............... 9.0
PSYC 300A and 300B with a grade of at least C in each ........ 3.0
Breadth Requirements (above) ............... 7.5
300- or 400-level Psychology electives ..... 3.0
400-level Psychology elective other than PSYC 400A, 401, 490, 499 ................ 1.5
Electives* .................................. 15.0
Total ........................................ 60.0

* Students must ensure that their programs contain at least 21.0 units of 300- and 400-level coursework to meet faculty requirements.

General and Minor Programs (BA and BSc)

Students interested in the General Program should file a Record of Degree Program form with the Advising Centre before attaining fourth-year standing (42 units completed). A General degree requires completion of the General Program requirements in two disciplines (see page 195). Students wishing to add a Minor in Psychology to their program must ensure that it is included on their Record of Degree Program form.

General Program (BA and BSc)

PSYC 100A*, 100B* .................. 3.0
PSYC 210* ........................ 1.5
PSYC 215A* .................. 1.5
Breadth Requirements (above) ............... 7.5
300- or 400-level Psychology elective ..... 1.5
300- or 400-level requirements for second General Program area .... 9.0
300- or 400-level electives ........ 3.0
100- and 200-level requirements for second General Program area (will vary from program to program)
Electives, any level (will vary depending on second General Program area requirements)
Total ........................................ 60.0

* Students must attain a minimum C (2.0) average in these 4 core courses to declare a General program in Psychology.

Combined Biology and Psychology Program Requirements
Both Major and Honours BSc degrees are offered in the Combined Biology and Psychology Program. These are not joint degrees in Biology and Psychology, but single degree programs composed of a selected combination of courses from each of the departments. These programs are intended for students with interests and career goals in any area of neuroscience, including neuroethology, human biology, medicine, dentistry, or nursing. Students must consult with undergraduate advisers in both departments when planning their course schedules.

Combined Major in Biology and Psychology

Core Course Requirements
BIOL 190A, 190B ........................................ 3.0
PSYC 100A, 100B ........................................ 3.0
BIOL 225 .................................................. 1.5
PSYC 201 .................................................. 1.5
PSYC 210 .................................................. 1.5
PSYC 215A ................................................ 1.5
Total core .............................................. 12.0

Upper-level Biology and Psychology Courses
BIOL 365 ............................................... 1.5
BIOL 367 ............................................... 1.5
Three of BIOL 309, 345, 404, 409B, 432, 448 .... 4.5
PSYC 323 ............................................... 1.5
PSYC 345A ............................................ 1.5
PSYC 315 or 415B ..................................... 1.5
Upper-level BIOL or PSYC elective ............ 1.5
Either Biology or Psychology thesis
BIOL 499A, 499B and BIOL 460 ........................ 4.0 or
PSYC 499 .................................................. 3.0
Total BIOL and PSYC units .................. 16.0 or 17.5
Minimum BIOL and PSYC units ........ 28.5 or 29.5

Other Requirements
3 units of ENGL courses, including 1.5 units of English composition chosen from ENG 115, 135, 146, 147, 215, ENGR 240 .... 3.0
3 units of Statistics courses chosen from one of the following pairs: PSYC 300A and 300B; STAT 255 and 256; STAT 260 and 261 ........ 3.0
MATH 100 or 102 or 151* ...................... 1.5
CHEM 101 and 102 .................................. 3.0
CHEM 231 and either 232 or 235 ............... 3.0
BIOC 299 .................................................. 1.5
PHYS 201 or 112 .................................... 3.0
CSC 100 or 105 ....................................... 1.5
Total Other Requirements .................. 19.5

Combined Honours in Biology and Psychology

Core Course Requirements
BIOL 190A, 190B ........................................ 3.0
PSYC 100A, 100B ........................................ 3.0
BIOL 225 .................................................. 1.5
PSYC 201 .................................................. 1.5
PSYC 210 .................................................. 1.5
PSYC 215A ................................................ 1.5
Total core .............................................. 12.0

Upper-level Biology and Psychology Courses
BIOL 365 ............................................... 1.5
BIOL 367 ............................................... 1.5
Three of BIOL 309, 345, 404, 409B, 432, 448 .... 4.5
PSYC 323 ............................................... 1.5
PSYC 345A ............................................ 1.5
PSYC 315 or 415B ..................................... 1.5
Upper-level BIOL or PSYC elective ............ 1.5
Either Biology or Psychology thesis
BIOL 499A, 499B and BIOL 460 ........................ 4.0 or
PSYC 499 .................................................. 3.0
Total BIOL and PSYC units .................. 16.0 or 17.5
Minimum BIOL and PSYC units ........ 28.5 or 29.5

Other Requirements
3 units of ENGL courses, including 1.5 units of English composition chosen from ENG 115, 135, 146, 147, 215, ENGR 240 .... 3.0
3 units of Statistics courses chosen from one of the following pairs: PSYC 300A and 300B; STAT 255 and 256; STAT 260 and 261 ........ 3.0
MATH 100 or 102 or 151* ...................... 1.5
CHEM 101 and 102 .................................. 3.0
CHEM 231 and either 232 or 235 ............... 3.0
BIOC 299 .................................................. 1.5
PHYS 201 or 112 .................................... 3.0
CSC 100 or 105 ....................................... 1.5
Total Other Requirements .................. 19.5

Electives ............................................. 13.5
Total units ......................................... 60.0

Combined Major in Psychology and Computer Science
The Department of Psychology and the Department of Computer Science have designed a program leading to a combined BSc Major Degree. Students intending to pursue this combined program must consult the Undergraduate Adviser in either Psychology or Computer Science at the latest after completing all of the first-year requirements (Note 5).

Year 1
BIOL 190A or 215, 190B ................................ 3.0
CSC 110, 115 .......................................... 3.0
PSYC 100A, 100B ...................................... 3.0
ENGL 115 or 135 ..................................... 1.5
MATH 151, 122 ....................................... 3.0
PSYC 201, 215A ....................................... 3.0
Elective .................................................. 1.5
Total ............................................... 15.0

Year 2
CSC 106, 225, 230 .................................... 4.5
ENGR 240 .............................................. 1.5
MATH 102, 222 ....................................... 3.0
PSYC 201, 215A ....................................... 3.0
SENG 265 ............................................ 1.5
Electives ............................................... 1.5
Total ............................................... 15.0

Year 3
1 of CSC 322, 326, 360, 370 ................... 1.5
PSYC 300A and 300B or STAT 255 and 256 ........ 3.0
PSYC 300 level ........................................ 3.0
SENG 310 or CSC 320* .......................... 1.5
Electives ............................................... 6.0
Total ............................................... 15.0

Year 4
CSC 421 or CENG 420 ................................ 1.5
CSC 400 level* ........................................ 4.5
CSC 497 .................................................. 1.5
PSYC 300/400 level* ............................ 4.5
Electives ............................................... 3.0
Total ............................................... 15.0

1. Students can replace MATH 151 and 102 with MATH 100 and 101.
2. Minimum grade requirements:
   - PSYC 100A and 100B with a grade of at least C+ in each
   - PSYC 201, 215A with a grade of at least C in each
   - PSYC 300A, 300B with a grade of at least C in each
3. These 7.5 units of 300- and 400-level PSYC must include at least one 400-level PSYC course other than PSYC 400A, 401, 409, or 499. Students who take PSYC 300A and 300B need an additional 7.5 units of upper-level psychology courses; students who take STAT 255 and 256 need a total of 10.5

the regulations for the department in which the Honours thesis is taken.
5. Students registering for BIOL 499A, 499B must also take BIOL 460 (Honours Seminar).
6. Students planning to do an Honours thesis or a graduate degree in Psychology are advised to take PSYC 300A and 300B
7. Majors students planning to undertake graduate studies in biopsychology are advised to acquire experience in a research laboratory through paid, volunteer, or Directed Studies positions.
units of upper-level Psychology courses. The following upper-level courses are suggested according to student interests:

Artificial Intelligence:
PSYC 311B, 317A, 317B, 323 (215A is a prerequisite), and related 400-level courses

Human Factors and Computer-Human Interfaces:
PSYC 311B, 317A, 317B, 334, 350 and related 400-level courses

Video-Game Development:
PSYC 311B, 335, 336, 339, 340 and related 400-level courses

4. One of these CSC 400 level courses may be replaced by a SENG 400 level course.

5. Students in this combined program who wish to participate in the Co-op Program must be accepted by the Co-op Programs of both Computer Science and Psychology. They must complete two work terms in each Co-op program in order to complete their Co-op degree requirements. Should the admission and graduation requirements vary in the two program areas, students must meet the lower GPA requirement.

6. Students choosing Computer-Human Interface courses in Psychology should enroll in SENG 310. All other students should enroll in CSC 320.

PSYCHOLOGY CO-OPERATIVE EDUCATION PROGRAM

The Co-operative Education Programs in the Faculty of Social Sciences are described on page 195. Additional general regulations pertaining to co-operative education programs at the University of Victoria are found on page 46.

The Psychology Co-operative Education option provides students with an opportunity to combine their academic studies with alternating periods of paid employment in Psychology-related positions in the public, private or non-profit sectors. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35.

Admissions to the Psychology Co-op Program

Entry into the Psychology co-op program is open to full-time students (those taking 6 or more units per term) who are proceeding to an Honours or Major program offered by the department. To be considered for admission to the program, students normally require a minimum GPA of 6.0 in Psychology courses and 5.0 overall.

Students interested in participating in the co-op program should normally apply in their second year of studies. Applications must be submitted to the Social Sciences Co-op office by the advertised deadlines in September and January. The first work term will normally start eight months after the application deadline. Work terms will normally alternate with study terms thereafter.

Students who are taking double or combined major degrees, who wish to participate in a combined Co-op, should refer to the Social Sciences Co-operative Education Programs (see page 195).

To continue with the program, students must maintain a minimum GPA of 5.0 in Psychology and 5.0 overall. To graduate with a Co-operative Education designation, students must satisfactorily complete three work terms. Each work term is recorded on the student's official transcript of academic record (as COM, N/X or F/X). A student may withdraw from the Psychology co-op program at any time during an academic term and graduate with a BA or BSc degree in Psychology without the co-op designation.

Work term credit by challenge, page 46, is permitted in the Psychology co-op program.

Further information about the Psychology co-op program is available from the department or the Co-operative Education office and at <coop.uvic.ca/psychcoop>.

Ken Hatt, BA (Redlands), MA (LA), PhD (Alberta), Adjunct Associate Professor
Mikael Jansson, BA, MA (Alberta), PhD (Western Ontario), Adjunct Assistant Professor

Sociology Programs

The department offers Honours, Major, General and Minor programs leading to the degree of Bachelor of Arts. Students interested in any of these programs are urged to consult the departmental Undergraduate Adviser as early as possible.

The Honours program is recommended for students planning to do graduate work in Sociology. The Major program permits students to pursue a variety of career options requiring baccalaureate-level training that require a specialization in Sociology. The General and Minor programs provide maximum flexibility in selection of courses in Sociology, but do not provide extensive coursework in methodology and theory. Students in the Major or Honours programs may also elect to add a concentration in either Health and Aging, or Social Justice and Social Change.

Students with questions about the department's programs or courses may arrange to meet with a Sociology Undergraduate Adviser through the Sociology General Office in Corbett A333. Arrangements to meet with the Sociology Honours Adviser may also be made through the Sociology General Office.

Students seeking general academic advice may arrange to meet with an Academic Adviser at the Advising Centre for Humanities, Social Sciences and Sciences, A205, University Centre. Detailed information on programs, faculty and courses can be found on the departmental web page: <web.uvic.ca/soci>.

Program Requirements

Requirements Common to all Sociology Programs

Students should read carefully all the information for the Faculty of Social Sciences, especially the faculty Program Requirements, SOCI 100A and SOCI 100B are required for all programs and should normally be taken in the first year; they may be taken in any order, or concurrently. SOCI 210 and 211 are also required in all programs, and are normally taken in the second year. All students must also complete 3.0 units of University-level English or Writing courses other than ENGL 101, with a GPA of 4.5 or better, before they are allowed to declare a program in Sociology.
Prerequisites for Third- and Fourth-year Courses
SOCI 100A and SOCI 100B (as pre- or co-requisites), or at least third-year standing with a GPA in the last session attended of 5.0 or better.
NOTE: while SOCI 100A and SOCI 100B are not formal prerequisites for third or fourth-year students with a GPA of 5.0 or higher, all upper-level courses require at minimum a basic knowledge of sociological concepts; these courses are therefore strongly recommended for these students.

Honours Program Requirements
Normally, the Honours program has the following requirements:
1. students apply for entry into the Honours Program at the end of their second year;
2. entry requires a GPA of at least 6.75 in Sociology courses completed and a GPA of at least 6.0 in all courses completed;
3. students must maintain a cumulative GPA of at least 6.0 to remain in the Honours Program.
Applications are made directly to the departmental Honours Adviser. Note that students are strongly advised to take additional statistical courses (SOCI 471, SOCI 472) if they intend to pursue graduate studies in Sociology.

The Honours Program offers students the opportunity to write a Graduating Essay (SOCI 499) under the supervision of a faculty member. The essay is usually either a library-research based review of literature on a sociological topic, including analytical comments and suggestions for future research, or a report of a piece of empirical research.

Students are referred to the Faculty of Social Sciences Honours Program Requirements, page 193
- SOCI 100A, 100B
- SOCI 210, 211, 271
- SOCI 309*, 374, 376
- TWO of SOCI 402*, 412*, and 481
- SOCI 499
- Plus 9.0 additional units in Sociology numbered 300 and above
* SOCI 210 or 308 is a prerequisite for SOCI 309, 402 and 412. SOCI 309 is a prerequisite for SOCI 402.

Graduation Standing
An Honours degree requires:
1. a grade of at least A- in SOCI 499
2. a minimum GPA of 7.0 for all Sociology courses numbered 300 and above
Honours students who do not meet the above requirements, but complete those for a Major in Sociology, may opt to receive a Major degree.

Major Program Requirements
- SOCI 100A, 100B
- SOCI 210, 211, 271
- SOCI 309*, 374, 376
- TWO of SOCI 402*, 412*, and 481
- Plus 7.5 additional units in Sociology numbered 300 and above.
* SOCI 210 or 308 is a prerequisite for SOCI 309, 402 and 412. SOCI 309 is a prerequisite for SOCI 402.

General and Minor Program Requirements
- SOCI 100A, 100B
- SOCI 210, 211
- Plus 9.0 additional units in Sociology numbered 300 and above.

Concentration in Health and Aging
The sociology of health and aging incorporates the sociology of health and health care (including medical sociology), the sociology of aging, and the intersection of these areas. It includes topics such as changing population characteristics; health practices and the lived experiences of wellness, illness, and dying; health policies and health care systems. It considers particular age groups as well as the whole life course, and is not exclusively focused on old age. Inequalities of age, class, gender, and race/ethnicity are addressed in all topical areas.

Doing a concentration in Health and Aging requires the same number of total units as for a Major or Honours Degree in Sociology. Students must also complete the core course, SOCI 285, Health over the Life course, and choose 3 electives from the following courses:
- SOCI 327: Inequalities in Health and Health Care
- SOCI 343: Population Dynamics
- SOCI 345: Sociology of Mental Health
- SOCI 385: Sociology of Aging
- SOCI 443: Population Problems and Policies
- SOCI 445: Sociology of Health and Illness
- SOCI 488: Sociology of Death and Dying

Concentration in Social Justice and Social Change
This concentration highlights a family of approaches to sociology that view the discipline as engaged with the issues, problems, and struggles of our times. It is critical of social inequality, emphasizes the power that social actors have to change these social inequities, and is engaged in developing solutions to social inequity. Topics include social injustice, social inequality, the transformative potential of social movements, the relationship between sociological research and social policy, and historical perspectives on the ways in which sociology has been engaged with social control, social reform, and social activism.

Doing a concentration in Social Justice and Social Change requires the same number of total units as for a Major or Honours Degree in Sociology. Students must also complete the core courses, SOCI 450, Sociology and Social Justice, and SOCI 373, Critical Research Strategies, and choose 2 electives from the following courses:
- SOCI 307: Regulation and Social Control
- SOCI 315: Class, Status, and Power
- SOCI 316: Social Movements
- SOCI 328: Diversity and Equity
- SOCI 335: Racialization and Ethnicity
- SOCI 381: Sociology of Gender
- SOCI 401: Sociology of Law
- SOCI 418: Social Change
- SOCI 481: Feminist Theory

Admissions to the Sociology Co-op
Entry into the Sociology Co-op Program is open to full-time students (those taking 6 or more units per term) who are proceeding to an Honours or Major program offered by the department. To be considered for admission to the Sociology Co-op Program, students must have completed, by the end of their second year, SOCI 100, 210 and 211 (or their equivalents) with a GPA of at least 5.0. In addition to these grade and course requirements, admission will be based on a student's interests and abilities.

Students interested in participating in the Co-op Program should normally apply at the beginning of their second year of study. Applications must be submitted to the Co-op office by the advertised deadlines in September and January. The first work term will normally start eight months after the application deadline. Work terms will normally alternate with study terms thereafter.

Students who are taking double or combined major degrees, who wish to participate in a combined Co-op, should refer to the Social Sciences Co-operative Education Programs (see page 195).

To continue with the program, students must maintain a minimum GPA of 5.0 in Sociology and 5.0 overall. To graduate with a Co-operative Education designation, students must satisfactorily complete three work terms. Each work term is recorded on the student's official transcript of academic record (as COM, N/X or F/X). A student may withdraw from the Sociology Co-op Program at any time during an academic term and graduate with a Sociology BA degree without the Co-operative Education designation.

Further information concerning the Sociology Co-op Program may be obtained from the department and from the Co-operative Education office and at <www.uvic.ca/socioop>.
Peter B. Gustavson School of Business

Our Vision

We produce outstanding research and develop global business leaders to create a better world.

We provide an experiential education that is international, integrative, innovative and socially responsible and is anchored in excellence in scholarship.

We are open, fair, engaged and passionate in all we do.

General Information

Programs Offered

The Peter B. Gustavson School of Business offers a full-time program leading to the degree of Bachelor of Commerce (BCom). A Master of Business Administration (MBA) and other graduate programs are also offered (see UVic Graduate Calendar).

The BCom program provides students with a broad education in business, together with exposure to the liberal arts and specialization in one of the following areas: International Business, Entrepreneurship or Service Management. The opportunity to pursue a degree without a specialization in any particular area is also available. The BCom program is a mandatory co-operative education program which requires students to complete three co-operative education work terms. The Gustavson School of Business Bachelor of Commerce degree program consists of two years (30 academic units) of liberal arts course work, including required and elective courses, followed by two years (30 academic units) of core, specialization and elective courses offered by Gustavson and three co-operative education work terms. Students must apply to be admitted to the BCom program. There are several admission

Charlene Zietsma, MBA (Simon Fraser University), PhD (UBC), Associate Professor, Francis G. Winspear Scholar, Champion Research, Director PhD Program
points that students may select to apply to the BCom program.

**Limitation of Enrolment**

Applicants should be aware that admission to the Bachelor of Commerce Program is highly competitive and subject to limited enrolment. Meeting minimum requirements is not a guarantee of admission.

**Joint Programs**

BA or BSc Major and Honours in Economics (Business Option)

This program is offered by the Department of Economics in co-operation with the Gustavson School of Business. For program details, refer to the Calendar entry for “Combined Major: Financial Mathematics and Economics”, page 199.

**Business Minor**

Students pursuing a non-Business degree may elect to take a Business Minor. The Business Minor program consists of 9 units including COM 220, 240, 250, 270 with a minimum grade of C+ in each course, plus at least 3.0 units of 300- or 400-level COM, ENT or IB courses. Students must declare the Minor with the advising centre of their originating faculty. Required courses at the 200-level or higher in the Business Minor Program cannot form part of the requirements towards other programs or options.

Permission to register in courses and related prerequisites will be considered on a case-by-case basis and is at the discretion of Gustavson.

Students registered in a Major that allows for a Business Minor, and undertaking a Business Minor, and also registered in the UVic Co-operative Education Program in their originating department, may, with permission from their originating Co-op program, elect to complete ONE work term through the School of Business Co-op and Career Centre. Students in this situation must have completed one of the following in order to be eligible for a Business work term:

1. Successful completion of a registered Co-op work term in their originating Co-op program, OR
2. Completion of the UVic co-op curriculum, through either their originating Co-op program or the Business Co-op and Career Centre

Further to the above criteria, eligible Business Minor students applying for co-op positions through the Business Co-op and Career Centre must sign and agree to abide by the “Terms and Conditions” of the Business Co-op program, for their business work term.

**Academic Advice**

Information about admission to the Gustavson School of Business is available through UVic Admission Services and the Business Student Services Office. Students with questions about undergraduate programs and courses within the faculty should inquire at the Business Student Services Office, Room 283, Business and Economics Building.

Students can contact the program by email: bcom@uvic.ca, or by phone: 250-472-4728

Students transferring to UVic from other institutions may wish to contact Gustavson for informal assistance and recommendations.

**Faculty Admissions**

The Gustavson School of Business Bachelor of Commerce program admits students into the first, second and third year. Each admission point has specific admission criteria that applicants must meet; see entry under Admission Categories and Deadlines. Because of the international nature of the program, a portion of the available positions is intended for international students. Gustavson recognizes the unique needs of international students and offers many services and program enhancements to address those needs.

Entry to the Bachelor of Commerce program is in September only for each year. The program commences with the BCom program core, a full-time, cohort-based set of required courses in the third year. Normally, about 240 students are admitted to the BCom program core every year.

The structure of the program requires that students have completed 30 units of Pre-Commerce course work, including the required courses listed below, to standards as outlined below before they will be registered in the Bachelor of Commerce Program core courses.

Students should be aware that they will be required to complete a total of 60 units of course work to obtain a UVic degree, including 30 units of Pre-Commerce course work. Any outstanding Pre-Commerce course work must be completed as a condition for entering the BCom program core.

Graduates of Hospitality Management diploma programs should refer to the admission requirements described under “Admission Requirements for Graduates of Hospitality Management programs.”

**Admission to UVic from High School**

Applicants from High School must be admissible to UVic (see page 24). Applicants from High School must follow the admission procedures as outlined in the Admission Categories and Deadlines section.

**Admission to UVic from BC Community Colleges and Other Universities**

Applicants from BC community colleges and universities must first be admitted to UVic. Students must have a minimum of 12 units of transferable credit to be considered for admission to UVic and the BCom program. Transfer credit should address the admission requirements as described under the admission section entitled Year 2 Entry (First Year College or University Students) or the section entitled Year 3 (Direct Entry) Admission.

Transfer credit will be limited to 4.5 units of Commerce credit for the purposes of calculating the cumulative Pre-Commerce grade point average and calculating the applicant’s Pre-Commerce course units. Students transferring from BC community colleges or university colleges should consult the BC Transfer Credit Guide at <www.bccat.bc.ca> for assistance in determining the transferability of courses.

Additional information regarding areas of study and program updates is available through the Gustavson School of Business website at <www.gustavson.uvic.ca>.

Students attending any business, commerce, or business administration diploma or degree program will be considered along with all other applicants and must have completed the requirements for admission as outlined below.

**Current and Returning UVic Students**

Current and returning UVic students who apply but are not admitted to the Gustavson BCom program will normally, if eligible, be authorized for study in their previous faculty. New applicants to UVic who are not admitted to the program and who wish to be considered for any other faculty should contact Admissions or Records Services.

**Admission Requirements**

**Pre-Commerce Courses Including Required Courses**

All students entering the BCom program must complete the required courses shown in the table below prior to entry into the BCom program core. All students are encouraged to consult the University Calendar to meet the prerequisites for the required courses.

**Co-op Work Term Requirements for Admission**

Gustavson requires that students complete three co-op work terms to meet the Bachelor of Commerce program requirements.

Students are normally required to complete one co-op work term (Pre-Commerce co-op) prior to commencing the BCom program core and two more co-op work terms as part of their academic and work term sequencing as prescribed by the area of specialization.

- Students will normally complete the Pre-Commerce co-op work term during the May to August period immediately prior to entering the BCom program core. This option is only open to those students who are admitted to the BCom program through the Year 1 or Year 2 admission category.
- Year 3 (Direct Entry) students will have the ability to challenge one co-op work term if they have sufficient relevant work experience. See details regarding criteria and regulations for co-op challenges under the Business Co-op Program section or consult the Business Co-op and Career Centre.
- Students can transfer in a successfully completed work term through an accredited co-op program and receive credit for one of the BCom Co-op work terms.

Credit for only the first work term will be permitted through transfer or challenge. Students must register in and complete at least two work terms through the Business Co-op and Career Centre as part of their BCom program. Students who do not complete a Pre-Commerce co-op work term will be expected to complete this requirement following the BCom program core, which will normally extend the time needed to complete their program. Normally, students must complete their programs on an academic term.
### Admission Categories and Deadlines

**Year 1, Year 2 and Year 3 Admission**

The Gustavson School of Business will offer Year 1 admission to high school students and Year 2 and Year 3 admission to UVic students and college/university transfer students who demonstrate a high level of academic achievement and other qualitative considerations such as leadership, school and community involvement, participation in extra-curricular activities, and work experience and career aspirations.

Admission from high school or first year to Gustavson guarantees access to the BCom program if the student maintains the level of academic and co-op performance prescribed in any conditions set out by the BCom Program Director and BCom Admissions Officer as part of the admissions process. Students admitted into Year 1 or 2 will normally register in their pre-commerce co-op work term during the summer term immediately prior to starting the BCom program core. High school and first year admission students who are not registering in a pre-commerce co-op during that summer term are not permitted to register in any courses that are considered part of the BCom degree program.

**Year 1 Admission – from High School (Grade 12)**

**Application Deadline: February 28**

Students applying to Year 1 are required to submit the following documents by February 28:

- University Application for Admission
- Bachelor of Commerce Supplemental Application Form

In addition, applicants must ensure that the following documentation is submitted by March 15:

- Two official copies of interim High School Transcript, if not reported to the BC and Yukon Ministry of Education - minimum 80% GPA
- Letter of Recommendation - principal or vice-principal or designate

Upon receipt of grades from Undergraduate Admissions (as reported in BC and the Yukon by the BC Ministry of Education or as an interim high school transcript elsewhere), conditional offers will be made. Upon receipt of final grades, conditional offers will be confirmed.

**Evaluation:** Students who wish to be considered for admission must have a minimum GPA of 80% on required high school courses. Meeting the minimum GPA requirement does not guarantee admission to the BCom program. Admission is based on academic performance (60%) and on the applicant's other attributes (40%) derived from the assessment of the other submitted material.

**Conditions for entry into the BCom program core courses:**

- Students must meet UVic admission requirements for Business. For Undergraduate Admission requirements please see page 24 of the Calendar.
- Students must complete required Pre-Commerce courses at UVic (Year 1 and Year 2). Students are required to complete at least 2 of the required courses in Year 1.
- Students must obtain a minimum GPA of B-(4.0) on their required courses, with a minimum grade of C+ in each of them.

<table>
<thead>
<tr>
<th>Pre-Commerce Courses Including Required Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Economics:</strong> 1.5 units</td>
</tr>
<tr>
<td>Math: 1.5 units</td>
</tr>
<tr>
<td>Math: 1.5 units</td>
</tr>
<tr>
<td>Statistics: 1.5 units</td>
</tr>
</tbody>
</table>

**Notes about Math Requirement**

Math 12 is a prerequisite to the above mentioned courses. If Math 120 is taken at UVic as a Math 12 equivalent, it will not be counted as 1.5 units of Other Math as described below.

It is recognized that students transferring from other institutions may have different combinations of Math and Statistics courses. At a minimum, students must have 3.0 units of courses in the Math and Statistics area. The following are acceptable:

One course in Business Statistics (1.5 units), and one other Math course (1.5 units) which may not include Pre-Calculus, Pre-Calculus Math or Pre-Calculus Algebra, or Math for Elementary Education. Acceptable topics for other Math courses include Linear Algebra, Business Math, Math for Economics, among others. A minimum transfer credit of 100-level Math must be awarded for the other Math courses.

Students who select the ECON 245 and ECON 246 or the STAT 255 and STAT 256 combinations can satisfy both the statistics requirements (1.5 units) and the other math requirement (1.5 units).

**Decisions regarding the appropriateness of Math and Statistics courses are at the discretion of the Faculty.**

**Additional Course Requirements for International Students**

- COM 206C: Business English and Communications (or equivalent)
- COM 290: Introduction to Canadian Business

Note that decisions regarding the appropriateness of equivalent courses are at the discretion of the Faculty.

**Computer Literacy:**

- Non-Business courses in other disciplines to make up 30 units of Pre-Commerce work

**Courses in other disciplines to make up 30 units of Pre-Commerce work**

**One Co-op work term**

- Applicants will need to have completed (or be able to challenge) one co-op work term before entering the program or complete a third co-op term during the program. For details, please see "Co-op Work Term Requirements for Admission".
• Students must have an overall GPA of 5.0 on their most recent 30 units.
• Students must undertake the Pre-Commerce co-op work term immediately prior to entry into the BCom program core.

Year 2 Admission – First-year College or University Students

Application Deadline: February 28

Students applying to Year 2 are required to submit the following documents by February 28:
• University of Victoria Application Form (non-UVic students) or UVic Reregistration Form (UVic students)
• Bachelor of Commerce Supplemental Application Form

In addition, applicants must ensure that the following documentation is submitted by March 15:
• Two official copies of secondary and post-secondary education transcripts directly from issuing institution

Evaluation: Applicants will be assessed on their most recent 15 units of course work. As well, students must have completed at least three of the required courses with minimum GPA 4.0 among these courses, with a minimum grade of C+ in each of them, by the application deadline. Admission is based 60% on quantitative (GPA) and 40% on qualitative considerations assessed from the submitted supplemental material.

Conditions for entry into the BCom program core courses:
• Students must complete 30 units of Pre-Commerce course work, including all required courses, by the conclusion of the Winter Session prior to commencement of the BCom program.
• Students must achieve an overall most-recent 30-unit GPA of 5.0 to be eligible to enter the BCom core program.

Admission Requirements for Graduates of Hospitality Management Programs

Application Deadline: February 28

Students applying from Hospitality Management diploma programs are required to submit the following documents by February 28:
• University of Victoria Application Form (non-UVic students) or UVic Reregistration Form (UVic students)
• Bachelor of Commerce Supplemental Application Form

In addition, applicants must ensure that the following documentation is received by March 15:
• Two official copies of secondary and post-secondary education transcripts directly from issuing institution

Applications from two-year Hospitality Management/Hotel and Restaurant Administration diploma programs may be eligible for entry to the BCom program if they meet the following criteria:
1. The diploma is completed with a minimum B (5.0) average, as determined by Undergraduate Admissions and Records. The average as calculated by Undergraduate Admissions is a cumulative GPA, which includes all course attempts.
2. Except for pre-admitted students, the diploma is granted by August 31 of the year for which the student is applying for admission. Final official documentation will be required.
3. The diploma is awarded by a college that offers the BC Provincial Hospitality Management Diploma Program, or its equivalent.
4. Completion of a microeconomics course (equivalent to UVic ECON 103) and an acceptable statistics course (equivalent to STAT 252).
5. Completion of the Academic Writing Requirement.

BC Institutions Currently Delivering the BC Provincial Hospitality Management Diploma Program
• Camosun College
• College of New Caledonia
• Douglas College
• North Island College
• Selkirk College
• Thompson Rivers University
• Vancouver Community College
• Vancouver Island University

Alberta and other Institutions
• Southern Alberta Institute of Technology (Calgary)

Students who have completed two or three year of recognized Hospitality diploma programs may also be eligible. Please contact the Gustavson School of Business for eligibility information on other programs.

Admission Criteria for Graduates of Hospitality Management Programs

Admission decisions for the Bachelor of Commerce program will be made based on the GPA achieved in the diploma program (60% weight) and on an evaluation of the applicant's Supplemental Application Form (40% weight). See description of Quantitative and Qualitative considerations below.

Please note that applicants must be admissible to the University of Victoria to be considered for the Bachelor of Commerce program. Students who have completed additional credit courses after their diploma programs should contact Admissions Services to determine how these courses may affect their admissibility to the University.

If the diploma has not been granted by the documentation deadline, the student must still submit an official transcript outlining completed courses and courses that are still in progress. Students should also provide letters from their institutions that indicate that they are expected to have been granted their diplomas by August 31 of the year for which they are applying for admission. Two official copies of the final transcript indicating the granting of the diploma will be required by Undergraduate Admissions.

Admissions Process for All Admission Categories

Minimum GPA

Applicants other than those to Year 1 must have a GPA of at least 4.0 (B-) on the UVic 9-point scale, or equivalent as calculated by Undergraduate Admissions and Records, in their last 12 units of course work to be considered for admission to the Gustavson School of Business.

Quantitative Considerations

For applicants in each admission category, the GPA evaluation will form 60% of the admission decision. Applicants to Year 2 and Year 3 who meet the minimum requirements will be rated within their applicant groups on this criterion based on weighting equally their most recent 15-unit GPA as calculated by Gustavson with their GPA in Pre-Commerce required course work.

Qualitative Considerations

An evaluation of qualitative considerations will form 40% of the admission decision. Gustavson recognizes that many different factors contribute to a person's chances of success in business. Applicants are therefore required to submit information on their application/resume forms outlining experiences and attributes which they feel indicate their suitability for the Bachelor of Commerce program.

Assessment for Admission

Admission decisions within each admission category will be based on applicants' overall rankings based on scores that proportionately combine their quantitative and qualitative assessments. Admission to the Bachelor of Commerce program is subject to limited enrolment.
The calculated score required for admission can fluctuate, depending upon the number and quality of the applications received in a given year. Successful applicants will be admitted on the condition they complete 30 units of course work, including all required and elective Pre-Commerce course work, and will normally have satisfied the Pre-Commerce co-op requirement before commencing the BCom program core courses.

In certain cases, applicants will be considered for admission with no fewer than 27 units of credit. Students should be aware, however, that they will be required to complete a total of 30 units of Pre-Commerce courses to be eligible to enter the BCom program core (Year 3). All applicants must complete the Pre-Commerce required courses by the end of the Winter Session prior to commencement of the BCom program core (Year 3).

Final acceptances and scholarships will be based on the complete Pre-Commerce 30-unit (or more) student record after the Spring term (May 30).

Limitation of Commerce Credit and Course Waivers

Applicants are required to take courses in other disciplines as part of their 30 units of Pre-Commerce coursework. Students intending to transfer to the BCom program from other institutions should be aware that a maximum of 4.5 units of Commerce courses may be used as part of the 30 units of Pre-Commerce courses.

All students will be expected to complete all of their Commerce courses within the BCom program. Students will not be granted waivers from any courses in the BCom program based on any previous credit.

Application Materials

All forms are available from:

- Business Student Service Office
- Bachelor of Commerce Program
  University of Victoria
  PO Box 1700 STN CSC
  Victoria BC, Canada V8W 2Y2
  Phone: 250-472-4728
  Fax: 250-721-7066
  Email: bcom@uvic.ca

The Bachelor of Commerce Supplemental Application Form can also be obtained from the Gustavson website at: <www.gustavson.uvic.ca/undergraduate>.

University of Victoria undergraduate application forms for students new to UVic and registration forms for returning students are available at the Undergraduate Admissions and Records website: <registrar.uvic.ca/undergrad>.

Current and returning UVic students must submit:

1. Bachelor of Commerce Supplemental Application Form
2. UVic Reregistration Form

Documents must be submitted to:
- Undergraduate Records
  University of Victoria
  PO Box 3025 STN CSC
  Victoria BC V8W 3P2

The Bachelor of Commerce Supplemental Application Form may also be returned directly to the Business Student Services Office.

New Students to UVic must submit:

1. Bachelor of Commerce Supplemental Application Form
2. UVic Application for Undergraduate Admission

Documents must be submitted to:
- Undergraduate Admissions
  University of Victoria
  PO Box 3025 STN CSC
  Victoria BC V8W 3P2

The Bachelor of Commerce Supplemental Application Form may also be returned directly to the Business Student Services Office.

Admission Decisions for Entry in September

Students who are admitted to the BCom program will receive written information regarding registration in appropriate course work for the following academic year.

Faculty Academic Regulations

Student Responsibility

Students are responsible for ensuring that their courses have been chosen in conformity with the requirements of the BCom program. The Gustavson School of Business and the Business Co-operative Education (Co-op) Program will consider the sessional address given to UVic Records Services as the proper contact address.

Students are directed to Co-operative Education Programs General Regulations on page 46 of the Calendar to review the guiding principles of the University’s Co-operative Education Programs.

Students are advised to review the University of Victoria academic regulations starting on page 31 of the Calendar.

The faculty, students and staff of Gustavson work together to promote professionalism and integrity. These are attributes that prepare our students for real leadership roles and create an environment of professionalism in the faculty. The faculty has developed two documents: a general guide, Principles of Professional Behaviour, and a more detailed guide, Standards for Professional Behaviour. All students are subject to the provisions of these documents. Students who are found not to meet these standards may be withdrawn from the program. Copies are available from the Business Student Services Office (BEC 283).

Letters of Permission

Students in Gustavson who are planning to take a course at another institution are required to contact the Business Student Services Office for letters of permission before enrolling in the course. If permission is granted by the School of Business, a minimum grade of C in Commerce courses is required for transfer credit. Students may take a maximum of two 1.5 unit open commerce elective courses by letter of permission for credit in the Bachelor of Commerce degree program.

Course Registration

Students are admitted to the BCom program, not to particular areas of specialization. Space may be limited in specific areas of specialization outside the Commerce core. Students will be required to declare their specialization by the end of the first academic term in the BCom core.

Students are expected to have met all prerequisites for Commerce courses. A passing grade is acceptable for prerequisite purposes, unless a higher grade is called for in the course description. It is expected that students will complete a full course load each academic term (7.5 units). It is intended that students will progress through the BCom program core in a designated cohort group.

Students who withdraw from or receive a failing grade of F in a course listed within the Commerce core or a course required for their chosen specialization must repeat that course during the next academic term in which it is offered. Students who receive a failing grade of E in a core course may apply for a supplemental exam (see Supplemental Exam regulations under the appropriate section below). Students who do not apply for a supplemental exam by the published deadline will be considered to have failed the course, the opportunity to apply for a supplemental exam is rescinded, and the student must repeat the course in the next academic term that the course is offered.

Supplemental Exams

Supplemental examination privileges in Bachelor of Commerce core courses are granted to students who have a satisfactory standing in the program. Satisfactory standing for the purpose of supplemental examinations is defined as achieving the minimum academic standard of 3.0 in their most recent academic term. The maximum number of units of supplemental examinations allowed for any one student is normally three during their Bachelor of Commerce degree program. In addition, students may not apply for more than one supplemental examination during a given academic term.

Students must apply in writing for permission to write a supplemental examination. Students are eligible to take the supplemental examination in a course only if they have completed all the course work, written the final examination and received a grade of E in the course. Supplemental examinations cover only the course work covered by the written final examinations - they will not compensate for, or replace, project or assignment grades. If there was no written final examination in the course, or if a student did not have a passing grade on the course elements exclusive of the final exam, the student will not be eligible for the supplemental examination.

A passing grade obtained on a supplemental examination will be shown on the student’s academic record with a grade point value of 1, corresponding to a D, and will be included as such in the calculation of the GPA for review of academic performance at the University and in determining the student’s graduating average and standing at graduation. However, for the purpose of academic review and standing within the faculty, the actual grade received on the supplemental examination, together with the E grade that gave rise to the supplemental exami-
nation, will be used. A student who fails to pass a specific course after a supplemental examination must repeat the course or replace it with an alternative course approved by the Director of the Bachelor of Commerce program.

The fee for each supplemental examination is $45.00. In certain unique situations, students may apply for an off-campus supplemental examination. The testing locations for off-campus supplemental examinations outside British Columbia are restricted to universities and colleges, and the fee for an off-campus supplemental examination is $55.00. The Bachelor of Commerce program office must receive applications for supplemental examinations, accompanied by the necessary fees, by the following dates:

- for courses taken during the September-December term: January 15
- for courses taken during the January-April term: May 15
- for courses taken during the May-August term: September 15

No applications for supplemental exams will be accepted past these deadlines. Students will normally be notified of whether their application has been accepted or refused within approximately three weeks of the appropriate application deadline. Fee payments will normally be returned to students only in the case of rejected applications. The Gustavson School of Business schedules supplemental examinations.

**Withdrawal From the BCom Program**

A student who does not register for any courses during the first academic term after admission, or during any subsequent academic terms while not on a co-op work term or a leave of absence, will be considered to have withdrawn. Any student who is considered withdrawn must re-apply for admission and will be considered in competition with all other applicants. A student who has started the BCom program core and subsequently registers for courses applicable only to another department during an academic term must have the written permission of the Gustavson School of Business.

Students who voluntarily withdraw from the BCom program and later re-apply for admission must do so by the standard deadlines and will be considered in competition with all other applicants. Gustavson is under no obligation to re-admit any student who has withdrawn.

**Leave of Absence**

Students must apply in writing to their academic adviser for a leave of absence. Unless given written permission by Gustavson to take a leave of absence, students who do not re-register will be considered to have withdrawn. Students on leave of absence are considered outside the program and will not be granted work term credit or academic course credit for experience gained during the leave.

**Course Challenges**

The Gustavson School of Business does not accept course challenges.

**Review of Academic Performance**

Students who have failed a work term required in the mandatory Business Co-op program, or have a GPA below 3.0 in any academic session, will be ranked as unsatisfactory and may be required to withdraw for at least one calendar year. Gustavson is under no obligation to re-admit students who have been required to withdraw, regardless of the cut-off GPA in the year in which they re-apply.

**Examinations**

The final exam period for each academic term is available on-line. Students are advised to consult the on-line exam schedules before making arrangements for their personal schedules. It is the responsibility of all students to be present for the exam period for both midterms and finals. Gustavson is not responsible for conflicts between the final exam schedule and personal schedules of students. Requests to write an exam on a day other than the date designated by the official exam schedule will not be entertained. For academic regulations regarding deferred exams, please see page 36 of the Calendar.

Commerce courses with more than one section may have a common midterm exam scheduled by Gustavson. Students will be advised of the times and dates of the exams by Gustavson and may be expected to attend midterm exams outside the regular class schedule which may include Saturdays.

**Required Commerce Courses (18 units)**

**Program Requirements**

The Bachelor of Commerce program combines learning in the classroom with work experience, an internationally diverse cohort group, and the opportunity for international work and study. Students start the BCom program core in the Fall term upon completion of their Pre-Commerce course work (30 units). Students are expected to follow the schedule of academic and work term sequencing outlined for each area of specialization to complete the remaining two years of study (30 units) in the Bachelor of Commerce program.

**Specializations**

There are three specializations:

- International Business Management
- Entrepreneurship
- Service Management

**International Business**

Within their pre-Commerce course work, students interested in specializing in International Business must complete a minimum of 3 units of a foreign language, or demonstrate equivalent competence.

The International Business specialization requires that students have direct international experience outside North America. This requirement may be satisfied by participating in the international exchange program or in an international work study (IB 418) in the Fall term (at an additional cost). The requirement will be waived for international students and those who have
completed at least one year of high school or university studies in a country in which English is not the primary language.

International Business is a three-course specialization.
IB 415 (1.5) Cross-national Management
IB 416 (1.5) International Marketing
IB 417 (1.5) International Finance

Entrepreneurship
Entrepreneurship is a five-course specialization, including COM 400.
ENT 410 (1.5) Venture Marketing Expertise
ENT 411 (1.5) Venture Planning/Finance Expertise
ENT 412 (1.5) Acquiring Expert Venture Cognitions
ENT 413 (1.5) Portfolio Practicum

Service Management
Service Management is a three-course specialization.
SMGT 415 (1.5) Hospitality/Service Marketing Management
SMGT 416 (1.5) Hospitality/Service Operations and Quality Management
SMGT 417 (1.5) Hospitality/Service Human Resource Management

Open Commerce Electives
Please note that in addition to the 18 units of core courses and the required courses within the chosen specialization (4.5-6.0 units), students are required to complete an additional 6.0-7.5 units of open Commerce electives (prerequisites and corequisites still apply). Note that students who have entered the BCom program with a Hospitality Management Diploma block transfer are required to complete 3.0 units of non-business electives and 3.0 to 4.5 units of open Commerce electives.

Non-specialized
Students may elect not to complete a specialization.

In addition to the 18 units of program core courses, students can select courses of interest from the specialization and open Commerce elective courses to make a total of 12 units (prerequisites/corequisites still apply). Priority registration in specialization courses goes to students in that specialization.

International Exchange Program
The International Exchange Program (INTEP) provides the opportunity for eligible Commerce students, regardless of their specialization, to spend approximately four months studying at an overseas institution and receive full course credits for one term. Normally, studies overseas are conducted in the English language; however, some exceptions do apply. Participation in INTEP is equivalent to 7.5 units:
COM 460 (1.5)
COM 480 (2 x 1.5)
COM 499 (1.5)
and normally
COM 470 (1.5)

INTEP Requirements
To be eligible for international academic placements, student must meet the following requirements:
1. Completion of 300-level BCom program core.
2. A minimum GPA of 4.0 in all academic terms following entry to the BCom program core.
3. 3.0 units of a foreign language are strongly recommended. Note that students who have completed the language requirement will have priority in exchange placements.
4. Evidence the student has actively participated in international activities and events.
5. Permission of the Associate Director, International Programs.

Contact the International Programs Office for more details.

Business Minor Program
Students following a Minor program in Business must complete the Business Minor core, consisting of COM 220, 240, 250, and 270 with a minimum grade of C+ in each course, plus a least 3 units of 300- or 400-level COM, ENT or IB courses.

Required courses at the 200-level or higher in the Business Minor Program cannot form part of the requirements towards other programs or options.

Business Co-op Program
The University regulations with respect to Co-operative Education Programs (see page 46) are applicable to the Business Co-op Program except to the extent that they are modified by regulations adopted by the Gustavson School of Business.

Admission to the Business Co-op Program
Co-operative education is mandatory in the Bachelor of Commerce program and forms an integral part of the academic requirements of the BCom degree. As such, admission to the Bachelor of Commerce program automatically results in admission to the Business Co-op Program.

Business Co-op General Regulations
The following regulations apply to the Business Co-op program. General regulations found in the Co-operative Education Program section of the Calendar also apply to the Business Co-op program. Where Gustavson regulations differ from those of the Co-operative Education Program, Gustavson regulations will apply.

Co-operative Education work terms are four months of full-time paid work. The work placement must be related to the student’s learning objectives and career goals. The placement must be supervised, and the employer willing to conduct a mid-term and final evaluation of the student in consultation with a Co-operative Education Program Coordinator (known hereafter as a Coordinator).

Students must receive credit for three co-op work terms. As per the general regulations for co-op, 4.5 units of academic credit are awarded for each approved work term successfully completed. These work term credits may not be applied towards the graduation requirements for any degree or program except in fulfillment of the co-op work term requirement. Students are required to complete at least two of these work terms through the University of Victoria Business Co-op Program as part of their degree program. Students may be granted credit for the first of these three work terms as follows:
• Through the Work Term Challenge process, following the guidelines outlined in the Work Term Credit by Challenge heading in the Undergraduate Co-operative Education section (page 46), credit will be granted where work experience is considered satisfactory and the requirements for a challenge are complete.
• A student with a recognized co-op work term from another accredited post-secondary institution may apply for transfer credit. Students must apply in writing for work term transfer credit within the first 60 days of their initial academic term within the BCom program, identifying the program and work term for which they would like credit. A transcript may be required.

Business students may be admitted into the Business Co-operative Education Program in their second year and complete their first co-op work term in the summer before commencing third year Commerce courses.

Students registered for work terms are considered to be enrolled in a full-time course of studies and may not take university level credit courses while on a work term. Under extraordinary circumstances, students may submit, in writing to the BCom Director, Undergraduate Programs, a request to register in a maximum of 1.5 units of university level course credit. If a student is on probation then no units of credit will be awarded during the work term. Students are reminded of their responsibility to maintain the minimum academic performance required by Gustavson (see “Review of Academic Performance”, page 218). Students with a GPA below 3.0 in an academic term will not be eligible to participate in the next scheduled co-op work term.

Students should not expect to complete all their work terms in the summer months, nor should they expect to complete their BCom program on a work term or series of work terms. In certain cases, a student will be permitted to end the program on a co-op work-term to satisfy the BCom co-op work term requirements if the Program scheduling would otherwise unduly prolong a student's program completion. All decisions regarding the eligibility of a student to complete their program on a co-op term will be made at the discretion of the Gustavson School of Business.

Students must sign a current Terms and Conditions document as provided by the Business Co-op Program in order to be eligible to participate in the placement process.

The Co-op Preparation Course is a mandatory requirement for business students. This program is a co-requisite for students participating in the placement process prior to their first work term.

Students will be provided more information regarding the Co-op Preparation Program, its curriculum, and the requirements for completion upon admission to the BCom program.

Students are expected to participate fully in the placement process. While every attempt will be made to ensure that all eligible students are
placed, Gustavson is under no obligation to guarantee placement. Students are only permitted to decline one valid co-op job offer per co-op term, any more than that and they will be deemed ineligible to participate in the placement process for the remainder of that term. Students should be prepared to spend at least one work term outside the greater Victoria area. The Business Co-op Program reserves the right to approve any employer that provides placements for students and to withdraw a student from any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any withdrawal and can follow the student appeal procedures as outlined in the Co-operative Education Program section, page 46. Students may not withdraw from a placement without approval from a Coordinator. Failure to obtain permission will result in the student receiving a grade of N/X on the work term.

Students must be officially registered for the work term by completing the Work Term Registration Form, which is provided by the Business Co-op office, and providing any other required documentation by the end of the first month of the work term. Students not registered by that time may not receive credit for that work term. A Co-op Program Fee, which is non-refundable, is due in the first month of each term for six (6) terms and is subject to the University’s general fee regulations, page 41.

Note: students admitted to BCom program prior to September 2012 will be assessed a work term fee upon registration in each work term as per tuition regulations on page 41.

While on Co-operative Education work terms students are subject to the provisions of the Principles of Professional Behaviour and the Standards for Professional Behaviour documents developed for Gustavson students.

Academic and Work Term Sequencing
Work terms are normally of four months duration and should be integrated within the student’s academic program such that they alternate with academic terms, as designated by their area of specialization, until graduation. The Gustavson School of Business may make amendments to a student’s academic and work term sequencing during the course of the program.

Students are expected to remain in the prescribed academic and work term sequencing. Priority will be given to placing students who are scheduled to go on a work term, as defined by their area of specialization. Students not scheduled to go on a work term will not be eligible to participate in the placement process.

Assessment of Work Term Performance
The requirements for a pass grade in a Co-op Work Term include the satisfactory completion of the following items:
- the student’s work term expectation form
- Work Site Visit by the Co-op Coordinator
- the student’s work term final evaluation
- the employer’s work term evaluation
- a work term report as assessed by the Coordinator and submitted by the deadlines specified below:

- Fall Work Term Report: due January 15 (unless it falls on a holiday or weekend in which case the report will be due the next business day)
- Spring Work Term Report: due May 15 (unless it falls on a holiday or weekend in which case it will be due the next business day)
- Summer Work Term Report: due September 15 (unless it falls on a holiday or weekend in which case, the report will be due the next business day)

Late work term reports will only be accepted (in the event of illness, accident or family affliction) with legitimate substantiation for academic concession. Otherwise, late reports will result in remedial requirements.

A grade of COM, F/X, or N/X will be assigned to students at the completion of each work term. Students who are assigned a grade of F/X or N/X for a work term that carries 4.5 units will have a 0 grade point assigned for that work term. Students who fail a work term or who have not completed a work term by the end of four academic terms may be required to withdraw from the faculty.
Interdisciplinary Programs

The University of Victoria offers a number of interdisciplinary degree and diploma programs at the undergraduate level that do not reside in a single academic unit. These programs allow students to undertake course work from more than one discipline.

In addition to the programs described in this section, some faculties at UVic offer interdepartmental or interfaculty degree programs. For details, consult specific faculty or department entries.

Arts of Canada Program

The Faculty of Humanities and the Faculty of Fine Arts jointly offer an interdisciplinary program in the Arts of Canada, intended to give students the opportunity to gain a broad knowledge of Canada's artistic diversity. This is a General Program leading to the BA degree (see "General Program", page 135). Students may obtain a Minor by completing the requirements for the General Program together with a Major or Honours program or other degree program in another department or faculty (see "Minor Program", page 135).

ARTS OF CANADA MINOR PROGRAM REQUIREMENTS

Students wishing to declare a Minor in Arts of Canada should contact the advising centre for their faculty. Students in this program are required to take:

1. the 3-unit introductory course FA 225 (ACAND 225)
2. 9 units of 300- and 400-level courses representing at least three different areas selected from the following list:

**English**

**Film Studies Program**

The Faculties of Humanities and Fine Arts jointly offer a General Program in Film Studies. This program leads to the BA degree (see “General Program", page 135). Students may obtain a Minor by completing the requirements for the General Program together with a Major or Honours program or other degree program in another department or faculty (see “Minor Program", page 135). Priority for admission to courses in Film Studies will go to students registered in the Film Studies Program or majoring in one of the departments offering courses in the Program.

**Film Studies Minor Requirements**

Students wishing to declare a Minor in Film Studies should contact the Advising Centre for their faculty after completing HA 295 (Introduction to Film Studies) with a grade of B- or better. Students in this program are required to take 9 units of courses (except HA 295) selected from the following list:

**English**

## Indigenous Studies Program
The Faculty of Humanities and the Faculty of Social Sciences jointly offer an interdisciplinary program in Indigenous Studies intended to provide both Indigenous and non-Indigenous students with a core program incorporating Indigenous world views and ways of knowing. This is a General Program leading to the BA degree (see “General Program”, on page 135 and on page 195). Students may obtain a Minor by completing the requirements for the General Program together with a Major or Honours program, or other degree program, in another department or faculty (see “Minor Program”, on page 135 and on page 195; “Interfaculty Programs”, on page 135 and on page 194).

The core program will prepare any student intending to enter a vocation jointly serving Indigenous and non-Indigenous peoples. It will further prepare Indigenous students who are planning to serve in Indigenous communities and are enrolled in professional programs at the University of Victoria.

Students in the program are required to take the 3.0 unit introductory course (IS 200) and the 1.5 unit capstone course (IS 400), plus 7.5 units of approved 300- and 400-level courses. If any of these upper-level courses form part of the student’s Major, Honours or General Program in another department, it cannot be used to fulfill the requirements for the Indigenous Studies Program. Queries about courses and course requirements should be directed to the Indigenous Studies Program Director (isminor@uvic.ca) or to the Interdisciplinary Program Assistant (idpassis@uvic.ca). Further information can be found at [web.uvic.ca/isminor].

## European Studies
The Faculties of Fine Arts, Humanities and Social Sciences jointly offer an interdisciplinary General and Minor Program in European Studies. The principal aim is to provide students with a thorough understanding of Europe's multifaceted history, cultures and fast-changing political realities. Important changes that the process of European integration has provoked regarding Europe’s internal political, social, cultural and economic structures and their relationship to the rest of the world will be examined.

By completing the requirements for the General Program together with an Honours, Major, or General program, students may obtain a Minor.

### General and Minor Requirements
- EUS 100 with a grade of at least B;
- EUS 300 and 301 with a grade of at least B in each (3.0);
- Elective courses chosen from the list of Eligible Courses. No more than 3 units may be taken from any single department except with the permission of the Program (6.0);
- Second-year standing in a European language other than English. Normally this requirement will be satisfied by completion of 3 units of 200-level language courses with a minimum GPA of 4.0.

Students are strongly encouraged to plan their program in consultation with the Program Coordinator for European Studies (eusprog@uvic.ca). Further information can be found at [web.uvic.ca/europe].

## Diploma Program in Canadian Studies
This interdisciplinary program leading to a Diploma in Canadian Studies is offered co-operatively by the Faculty of Humanities, the Faculty of Social Sciences, the Faculty of Fine Arts and the Division of Continuing Studies. The program is especially designed to provide short, integrated academic programs for international and Canadian students. For information on the Certificate in Canadian Studies, see the Division of Continuing Studies calendar.

The program objectives are to:
- introduce students to the study of Canada from different perspectives
- provide an opportunity for Canadian students to study Canada with international students
- provide a supportive academic environment to assist international students in making the transition to a Canadian university
- assist international students in developing their English (French) language skills
- encourage dialogue between Canadian and non-Canadian students at the University of Victoria

Students are admitted to the diploma program on the recommendation of the faculty coordinator and/or the chair of the program steering committee. Proficiency in English will be a major criterion for admission of international students; therefore, an enriched program for language skill development such as the University Admission Preparation Course (UAPC) is essential. To remain in the program, students must maintain a grade point average of at least 4.0.

The diploma requires admission to the university and completion of a minimum of 18 credit units. The diploma requires the completion of the three core credit courses (CS 101, 102 and 200) and 13.5 units of elective courses. Priority for enrolment in these courses will be given to students in the diploma and certificate programs in Canadian Studies. Students in other programs may enrol in these courses by permission of the chair of the program steering committee. Students may choose elective courses from appropriate existing credit courses offered at the University of Victoria, subject to the faculty coordinator’s approval. Diploma students may transfer a maximum of 4.5 units of appropriate credit courses completed at other institutions. Credit obtained within the diploma program may be transferable to a regular undergraduate degree program. However, such transferability of credit is always subject to the specific requirements of the degree program.

The Canadian Studies diploma program will normally require a minimum of three semesters of residency at the University of Victoria. The diploma program must be completed within the first four years of initial registration. All inquiries concerning details and regulations of the program should be addressed to Maxine
The interdisciplinary Diploma Program in Intercultural Education and Training (IET) has been designed for part-time or full-time study for students and professionals working or planning to work in a multicultural or cross-cultural environment. Participants can expect to acquire:

- a clearer understanding of the problems connected with intercultural relations and cross-cultural communication, and the various approaches to their explication;
- a clearer understanding of issues concerning cultural conflicts, racism, power and equity;
- skills which will facilitate intercultural relations and cross-cultural communication in the workplace, in the local community and in international settings;
- skills which will assist in reducing conflict and inequality based on racism and ethnocentrism.

The curriculum is designed to develop both knowledge and skills, and consists of interdisciplinary credit courses totalling 15 units, appportioned as follows:

- Core courses ........................................ 6.0
- Electives ............................................. 6.0

**Either**

Practicum ................................................... 3.0

or Final Project ........................................... 3.0

**Or**

Practicum ................................................... 1.5

and Final Project ........................................... 1.5

**Core Courses**

Either HIST 358D or HIST 358G .......................... 1.5

IET 430 ......................................................... 1.5

LING 397 or LING 395 ...................................... 1.5

Either SOCI 335 or ANTH 335 ............................ 1.5

Up to 3.0 units of transfer credits may be approved as elective credits. Subject to the specific requirements of the degree program, credit obtained within the Diploma Program in Intercultural Education and Training may be transferable to a regular undergraduate degree program. Students may apply course credit to both a degree and the IET diploma.

The program is administered jointly by the Intercultural Education and Training Diploma Program Steering Committee and by the Division of Continuing Studies. All inquiries concerning details and regulations of the program should be addressed to Maxine Reitsma, Program Coordinator, Division of Continuing Studies; email: maxiner@uvic.ca.

---

**Diploma Program in Intercultural Education and Training**

**Chair, Program Steering Committee:** Dr. Alison Preece

The interdisciplinary Diploma Program in Intercultural Education and Training (IET) has been designed for part-time or full-time study for students and professionals working or planning to work in a multicultural or cross-cultural environment. Participants can expect to acquire:

- a clearer understanding of the problems connected with intercultural relations and cross-cultural communication, and the various approaches to their explication;

- skills which will facilitate intercultural relations and cross-cultural communication in the workplace, in the local community and in international settings;
- skills which will assist in reducing conflict and inequality based on racism and ethnocentrism.

The curriculum is designed to develop both knowledge and skills, and consists of interdisciplinary credit courses totalling 15 units, appportioned as follows:

- Core courses ........................................... 6.0
- Electives ............................................... 6.0

**Either**

Practicum .................................................. 3.0

or Final Project ......................................... 3.0

**Or**

Practicum .................................................. 1.5

and Final Project ........................................... 1.5

**Core Courses**

Either HIST 358D or HIST 358G .......................... 1.5

IET 430 ......................................................... 1.5

LING 397 or LING 395 ...................................... 1.5

Either SOCI 335 or ANTH 335 ............................ 1.5

Up to 3.0 units of transfer credits may be approved as elective credits. Subject to the specific requirements of the degree program, credit obtained within the Diploma Program in Intercultural Education and Training may be transferable to a regular undergraduate degree program. Students may apply course credit to both a degree and the IET diploma.

The program is administered jointly by the Intercultural Education and Training Diploma Program Steering Committee and by the Division of Continuing Studies. All inquiries concerning details and regulations of the program should be addressed to Maxine Reitsma, Program Coordinator, Division of Continuing Studies; email: maxiner@uvic.ca.

---

**2012-13 UVIC CALENDAR**

**HUMANITIES DIPLOMA PROGRAM**

**Faculty Coordinator, TBA**

The diploma program in the humanities is designed primarily for mature students who wish to explore possibilities for study in the humanities without committing themselves to a full degree program. Candidates must have sought and obtained admission to the university. Students are admitted to the diploma program on the recommendation of the faculty coordinator and/or the chair of the program steering committee.

Students may complete the program on a part-time basis, but must complete successfully at least 18 units of course work over a period of two to six years. Diploma students, with the guidance and assistance of a faculty coordinator, will arrange a program of courses organized around a particular theme or period. Students may select courses from faculties and divisions other than the Faculty of Humanities, but such selection will be subject to the permissions of the departments involved and to the approval of the faculty coordinator.

In the first year of their program students must take HUMA 100, a credit seminar, and HUMA 010, a brief non-credit orientation seminar. To remain in the program and to graduate in the program, diploma candidates must maintain a grade point average of at least 4.0.

Credit obtained within the Humanities Diploma Program may be transferable to a regular undergraduate degree program. However, such transferability of credit is always subject to the specific requirements of the degree program. The program is administered jointly by the Faculty of Humanities and by the Division of Continuing Studies. All inquiries concerning details and regulations of the program should be addressed to Maxine Reitsma, Program Coordinator, Division of Continuing Studies; email: maxiner@uvic.ca.

---

**MINOR IN APPLIED ETHICS PROGRAM REQUIREMENTS**

PHIL 232 and PHIL 337 ..................................... 3.0

A further 6.0 units from a list of electives available on the Minor in Applied Ethics webpage <web.uvic.ca/philosophy/web_pages/applied_ethics.php> ........................................... 6.0

At least 3.0 units must be at the 300 or 400 level. No more than 6.0 units from any one department may count toward the Minor.

Any course that constitutes part of a student’s Honours, Major, General, or Minor program cannot be used to fulfill the requirements of the Minor in Applied Ethics.

Queries about the list of electives should be directed to the Advising Centre for Humanities, Social Sciences and Sciences or the Applied Ethics Minor Coordinator, c/o Department of Philosophy.

---

**Social Justice Studies**

The faculties of Human and Social Development, Humanities and Social Sciences jointly offer an interdisciplinary General and Minor Program in Social Justice Studies. The program is also available as a Diploma, through the Division of Continuing Studies (see below). The aim of the program is to provide students with a thorough understanding of the range of ways to address and engage with issues of social inequality and injustice in the contemporary world from a variety of disciplinary perspectives.

By completing the requirements for the General Program together with an Honours, Major, or General program, students may obtain a Minor.

**General and Minor Requirements**

SJS 100, 200, 400A. Normally, students take 100 first, but 100 and 200 may be taken in either order, or concurrently. 100 and 200 are interdisciplinary team-taught courses . . . . . . 4.5

Courses selected from the list of Theory and Method Electives ........................................... 3.0

Courses selected from the list of Substantive Electives ..................................................... 3.0

SJS 400B, or a further 1.5 units selected from either list of eligible courses ............... 1.5

No more than 3 units of electives may be taken from any single department, program, or school.

**Diploma Program Requirements**

SJS 100, 200, 400A .......................................... 4.5

Courses selected from the list of Theory and Method Electives and list of Substantive Electives (A minimum of 3 units must be selected from each of these two lists) ........................................... 9.0

SJS 400B, or a further 1.5 units selected from either list of eligible courses ............... 1.5

No more than 3 units of electives may be taken from any single department, program, or school.

---

**INTERDISCIPLINARY PROGRAMS**
Students are strongly encouraged to plan their program in consultation with the Director of Social Justice Studies (sjs@uvic.ca) or the Interdisciplinary Program Assistant (idpasis@uvic.ca). Further information can be found at <web.uvic.ca/socialjustice>. For queries about the Diploma Program, please phone 250-721-8462 or visit <www.uvcs.uvic.ca/socialjustice>.

Human Dimensions of Climate Change

The Faculty of Social Sciences, in collaboration with other relevant faculties, offers an interdisciplinary Minor in the Human Dimensions of Climate Change. The program provides students with a thorough understanding of the human aspects of climate change, including its political, economic, geographic, psychological, and sociological dimensions, together with an introduction to its physical aspects. Students may obtain this Minor by completing the requirements below, together with an Honours, Major, or General program.

Any course at the 200-level or above that constitutes part of a student’s Honours, Major, or General program, or option, cannot be used to fulfill the requirements for the HDCC Minor.

The Minor program requires 13.5 units of coursework:

- HDCC 200 ............................................. 1.5
- HDCC 400 ............................................. 1.5
- One of GEOG 101A, 103, EOS 110 ............. 1.5
- GEOG 314 ............................................. 1.5
- EOS 365 ............................................. 1.5
- 6.0 units from the list of approved electives ... 6.0

Queries about the program, its prerequisites, or its list of approved electives should be directed to the Director of the Human Dimensions of Climate Change program (hdcc@uvic.ca) or to the Interdisciplinary Program Assistant (idpasis@uvic.ca). Students are encouraged to inquire about and to plan their HDCC program. Further information can be found at <web.uvic.ca/hdcc>.

Technology and Society

Director: Dr. Bradley Bryan, BA (Hons), MA, LLB (Victoria), PhD (Berkeley)

The Faculties of Social Sciences, Humanities, Fine Arts, Engineering, Human and Social Development and Education jointly offer an interdisciplinary program in technology and society.

The program is intended to be a forum for engagement with technological change and its rapid transformation of contemporary society. In a global culture driven forward by dramatic developments in technology, no aspect of politics, culture and society is left undisturbed. The Minor in Technology and Society is designed to provide students with the opportunity to critically engage in the exploration, understanding and critical assessment of technological change in a wired and wireless world.

Students may obtain this Minor by completing the requirements given below, together with an Honours or Major program or other degree program in another department or faculty. Students in the program are required to take 4.5 units of core courses (TS 200, 300, 400) as well as 7.5 units of electives chosen from approved courses, for a total of 12 units. If any of these courses form part of the student’s Honours, Major or General program, they cannot be used to fulfill the requirements for the Minor in Technology and Society.

Queries about this program can be directed to the Technology and Society Minor Program Director, (techsoc@uvic.ca), or to the Interdisciplinary Program Assistant (idpasis@uvic.ca). Further information can be found at <web.uvic.ca/techsoc>.
Division of Continuing Studies

Office of the Dean
Maureen M. MacDonald, BA, LLB (Manitoba), MBA (McGill), PhD (North Dakota), Dean

Administration
Wayne Brunsdon, CA, BCom (Sask), Manager, Administrative Services

Arts and Science Programs
Program Director: TBA
Didier Bergeret, BEd (Alberta), BA, MA (Besoançon), Program Coordinator
Janet King, BA (UVic), Program Coordinator
Janet Pivnick, PhD (Calgary), Program Coordinator
Maxine Reitsma, BA (UVic), Program Coordinator

Business, Management and Technology Programs
Nancy Aubut, BGS (Brandon), Program Coordinator
Richard Mimick, BSBA (Creighton), CPA (US), MBA (Nebraska), Program Director
Marloue Morrison, BA (UVic), Program Coordinator (on leave)
Patricia Webster, Program Coordinator
Rhordon Wikramatilake, BA, MPA, PhD (UVic), Instructor and Curriculum Developer

Continuing Studies in Education
Alison Brophy, BA (Western), BEd (Nipissing), Program Coordinator
Hayley Hewson, BA (UVic), Program Coordinator
Roger Howden, BA (San Jose), MA (SFU), Program Director
Beverly Smith, BSc, MSc (UVic), PhD (Oxford), Program Coordinator (on leave)

Continuing Studies Library Service
Carol Gordon, BA (Brock), MA (McMaster), MLibSc (UBC), PhD (McMaster), Head Librarian

Cultural Management Programs
Bobbiele Capeland, BA (Lethbridge), MA (Sask), Program Coordinator
Joyo Davis, BA (UVic), MA (Toronto), PhD (UVic), Program Director
Anissa J. Paulsen, BA (Northwestern), MA (San Francisco State), Program Coordinator
Brenda Weatherston, BA, MA (UVic), Senior Program Coordinator

Distance Education Services
Manesh Bhathella, Online Help Desk Consultant
Katy Chan, BFA (UVic), Online Course Developer and Administrator/Distance Education Consultant
Susan Doner, BA (McGill), MA (UVic), Online Course Developer and Administrator/Distance Education Consultant
Trevar Pearce, BA (UVic), Online Course Developer/Onlinehelp Desk Consultant
Emily Schudel, BFA (Regina), BA honours (Regina), MA (Regina), PhD candidate (Manitoba), Online Course Developer and Administrator/Distance Education Consultant
Katherine Seaborne, BA, MEd (UVic), MA (Northwestern), EdD (Deakin), Manager
Judith Somers, BA (Wash State), Multimedia Designer and Producer/Distance Education Consultant
Keith Webster, BA (UVic), MA (UVic), Online Course Developer and Administrator/Distance Education Consultant

English Language Centre
Cathria Allsopp, BA (UVic), Program Coordinator
Cathy Aquart, BA (UVic), Program Coordinator
Curriculum Development
Paula Ceroni, BSc (Trent), Senior Program Coordinator, UVic Homestay
Ramona Cook, BA (Carleton), Program Coordinator
Lily Chow, BEd, MEd (UVic), Program Coordinator
Byron Crossley, BA (UVic), Web Developer, ELC
Cathy Ebert, BA (UVic), MA Applied Linguistics (University of New England, New South Wales)
Program Coordinator Curriculum Development
Christina Gambrell, Marketing Manager - English Language Centre
Kyla Jardin BA (UBC), Marketing Assistant (on leave)
Paula Leahy, BA (Western), Med (OISE - Toronto), Associate Director
Don Mellings, Program Coordinator
Jacqueline Prowse, BA (UVic), MEd (Temple), EdD (Calgary), Director
Deborah Shepherd, BA (Malaspina), Program Coordinator

Health Sciences and Public Relations Programs
Faith Collins, BSc (Mt St Vincent), BA, MEd, EdD (Seattle), Program Director
Julia Liska, RN, BEd (Brock), Program Coordinator
Laura Vizina, BSc (UBC), MEd (Calgary), Program Coordinator

IT Services
Gaetano Mazzucca, BA (Alberta), Director
Robert Newans, Technical Manager, Infrastructure and Desktop Support
Dean Crawford, BSc, BComm (UVic), Technical Manager, Applications and Data

Marketing Services
Levent Batur, BA (Marmara University), MBA (St. Mary’s), Director
Joan Kew, PGCertEdit (Macquarie University, Australia), Program Coordinator
Matt Salik, Website Developer
Michael Turner, BA honours (Middlesex), Manager - Promotion and Publications

Credit Courses and Programs
The Division of Continuing Studies provides courses and programs for credit in the Faculties of Education, Humanities and Social Sciences. These include courses offered off campus as well as evening courses and programs offered on campus at UVic.

Information on credit courses and programs is available as follows:
• Credit courses offered off campus:
  • Distance Learning and Immersion Course Guide for Off-Campus Students (see Distance Education, below)
• On-campus evening courses and off-campus courses starting in September and January:
  • Consult the Web Timetable at <www.uvic.ca/timetable>.

Credit Courses and Programs
The Division of Continuing Studies provides courses and programs for credit in the Faculties of Education, Humanities and Social Sciences. These include courses offered off campus as well as evening courses and programs offered on campus at UVic.

Information on credit courses and programs is available as follows:
• Credit courses offered off campus:
  • Distance Learning and Immersion Course Guide for Off-Campus Students (see Distance Education, below)
• On-campus evening courses and off-campus courses starting in September and January:
  • Consult the Web Timetable at <www.uvic.ca/timetable>.

Academic Regulations
Academic rules and regulations published in this Calendar, except as described in any Program Supplement to the Calendar, apply to students taking courses under this section. The Division of Continuing Studies reserves the right to cancel or reschedule courses or other offerings without notice, and to establish special regulations for admission to non-degree programs or courses. If a course or offering is cancelled or rescheduled, the liability of the Division of Continuing Studies is limited to a refund of the course fee, or, if desired, transfer to another offering. The relevant law for all matters concerning these programs shall be the law of the Province of British Columbia, Canada.

Students are responsible for ensuring their course selection conforms to the requirements of their degree program. Students seeking academic advice regarding degree programs should consult the appropriate academic advising centre:

To ensure access to the academic resources of the University of Victoria by a broad and diverse community of adult learners, the Division of Continuing Studies provides a broad range of on- and off-campus professional and personal development programs that complement and supplement degree programs offered at the university.

For further information on any program offered by the Division of Continuing Studies, please call or write:
Division of Continuing Studies
University of Victoria
PO Box 1700 STN CSC
Victoria BC V8W 2Y2
Phone: 250-747-4747
Fax: 250-721-8774
Web: <www.uvic.ca>
DIVISION OF CONTINUING STUDIES

- Advising Centre, Faculties of Humanities, Science and Social Sciences, A205, University Centre. Telephone: 250-721-7567
- Advising Centre, Faculty of Education, Room 250, MacLaurin Building. Telephone: 250-721-7877

Students in the Faculty of Fine Arts or the Faculty of Human and Social Development should contact the specific department or school.

Regulations governing application and registration procedures and fees are detailed in the appropriate supplement. Late afternoon and evening courses, which would be of particular appeal to part-time students, are located in the Undergraduate Registration Guide and Timetable, available from Records Services. The late afternoon and evening credit courses are identified with a double asterisk (**).

Professional Development Programs

For information phone 250-472-4747

These programs are planned to meet the specific continuing education needs of persons working in the professions. Courses and workshops are offered throughout the province in co-operation with regional colleges and professional organizations.

Programs for professionals leading to certificates and diplomas are offered in the following areas:
- Aboriginal Language Revitalization (Certificate)
- Adult and Continuing Education (Certificate)
- Business Administration (Certificate and Diploma)
- Business Studies for International Students (Certificate)
- Canadian Studies (Certificate and Diploma)
- Collections Management (Professional Specialization Certificate)
- Computer Based Information Systems (Certificate)
- Cultural Heritage Management (Graduate Professional Diploma)
- Cultural Heritage Studies (Graduate Professional Certificate)
- Cultural Resource Management (Diploma)
- Cultural Sector Leadership (Professional Specialization Certificate)
- Environmental and Occupational Health (Certificate)
- Fine Arts (Diploma)
- Foundations in Indigenous Fine Arts (Certificate Program)
- French Language (Diploma)
- Heritage Conservation Planning (Professional Specialization Certificate)
- Humanities (Diploma)
- Intercultural Education and Training (Diploma)
- Native Species and Natural Processes (Professional Specialization Certificate)
- Population Health Data Analysis (Professional Specialization Certificate)
- Public Relations (Diploma)
- Restoration of Natural Systems (Certificate and Diploma)
- Social Justice Studies (Diploma)
- Teaching English as a Foreign Language (Professional Specialization Certificate)
- Teaching French Immersion (Professional Specialization Certificate)

Online and Distance Education Programs

For information phone 250-721-8454 or visit <www.distance.uvic.ca/>

In collaboration with various faculties, Continuing Studies offers credit courses, professional development and community education programs which permit students throughout the province to study on a part-time basis. Programs use a variety of instructional delivery methods including web-based instruction, online instruction, audio conferencing, videotapes, audiocassettes, CD-ROMs, and print and face-to-face instruction through workshops and seminars. Regular contact with the instructor is an important component of all distance education courses.

The University of Victoria’s online and distance education offerings are listed in the Distance Learning and Immersion Course Guide for Off-Campus Students which can be obtained by calling 250-721-8471 or by email to <lmorgan@uvic.ca>. The guide is also available at the above web address. Summer distance courses are listed in the Summer Session Calendar.

Community Education Programs

For information phone 250-472-4747

Community Education Programs use a variety of educational formats, such as courses, lecture series, workshops, conferences, residential seminars, travel study and symposia. The curriculum is developed in co-operation with departments from all faculties of the University. Areas include:
- Adult Education
- Arts and Science
- Business, Management and Technology
- Career Planning
- Cultural Studies
- Education
- Fine Arts
- Health Sciences
- Languages
- Public Relations
- Travel and Residential Study

Successful completion of the course enables students to enrol at UVic without writing a TOEFL exam.

English Language Programs

The English Language Centre provides English language programs for international and Canadian students from beginning levels to University Admission Preparation. Three-month intensive programs are offered beginning in September, January and April. Short-term immersion programs are scheduled throughout the year. Specialized programs, such as English for Teachers, Business English, Canadian Studies and University Admission Preparation, and TOEFL courses are also offered, in addition to customized programs of language and culture for corporations and institutions from various countries.

A series of CD-ROMs is also produced by the English Language Centre:
- Business English: Meetings
- North American Idioms
- North American Culture and Etiquette
- Jason’s World/Fjury’s World

Online courses available at <www.englishworld.ca> include Beginner’s Writing, Intermediate Writing, Advanced Writing, Introduction to Information Technology English, Beginner Listening, Intermediate Listening, and Advanced Listening.

Please visit our website <www.uvcs.uvic.ca/elc> for more information about the programs offered at the English Language Centre. You may also contact us by email elc@uvcs.uvic.ca, phone 250-721-8469, or fax 250-721-8774.

University Admission Preparation Course

For information phone 250-721-8469

The University Admission Preparation Course is a twelve-week course for students whose first language is not English, which prepares students to attend university in an English-speaking country.

Successful completion of the course enables students to enrol at UVic without writing a TOEFL exam.

Conference Management

For information phone 250-721-8473

Conference Management offers a conference registration service to assist University and other groups and organizations with delegate registrations for meetings, seminars and conferences, both on and off campus.
Division of Medical Sciences

Dr. Oscar G. Casiro, MD, FRCPC, Head, Division of Medical Sciences (UVic),
Regional Associate Dean, Vancouver Island,
Faculty of Medicine (UBC)
Bruce Crawford, BSc (UVic), PhD (Wash), MD (UBC), Professor
Brian Christie, BSc (Calgary), MSc (Calgary), PhD (Otago), Associate Professor
Craig Brown, BA (Man), MSc (Calgary), PhD (Calgary), Assistant Professor
Patricia Nafrinney, BSc (Wash.St.), MSc, PhD (UBC), Assistant Professor
Leigh Anne Swayne, BSc (Guelph), PhD (Calgary), Assistant Professor
Stan Bardal, BA, BSc (Pharm), MBA, PhD (U of S), Senior Instructor
Jane Gair, BSc (McMaster), BSc (UBC), PhD (UBC), Senior Instructor
Kurt McBurney, B Ed (Malaspina University), M.A. (UVic), Senior Instructor

Cross-Listed Faculty
Robert Burke, BSc, PhD (Alta), Professor
Michael Hayes, BA (McMaster), MSc (McMaster), PhD (McMaster), Professor
Paul Zehr, BSc (McMaster), MSc (McMaster), PhD (U of A), Professor
Michele Martin, DVM (Guelph), B.Com (U of T), Associate Professor
Stephanie Willerth, BSc (MIT), MSc, PhD (Wash. Univ St. Louis), Assistant Professor

Website: <medsci.uvic.ca>

The Division of Medical Sciences is a newly established and rapidly growing program at the University of Victoria that promotes scholarship and innovation in research and medical education to address societal health needs. With a strong emphasis on neuroscience based research, faculty members within the Division, working with the Departments of Biology, Psychology, Biochemistry and Microbiology, and the Faculty of Graduate Studies, developed the University of Victoria’s first graduate program in Neuroscience (see <medsci.uvic.ca/neuroscience>). The goal of the program is to create an environment with superior training in Neuroscience that will position graduate students to become future leaders in this field of research, in addition to being well-trained medical educators. A select number of Division Courses are available to UVic students. Please see the MEDS course listings for details.

Island Medical Program
Website: <www.imp.uvic.ca>
The Island Medical Program is an integral part of the University of British Columbia’s medical school expansion aimed at increasing the number of medical students, in collaboration with the University of Victoria (UVic) and the University of Northern British Columbia (UNBC), through an innovative model of distributed education. All students will be fully registered at UBC and will receive UBC degrees. Each year, 288 students are admitted to the UBC MD Undergraduate Program: 32 to the Island Medical Program (IMP) at UVic, 32 to the Northern Medical Program (NMP) at UNBC, 32 to the Southern Medical Program (SMP) at UBC-0, and 192 to the Vancouver-Fraser Medical Program (VFMP) at UBC.

Students in the IMP spend the first four months of their undergraduate medical program in Vancouver and the remainder of the first two years at UVic. During the clinical third and fourth years of the program, students will have the opportunity to spend a significant amount of time in hospital and community-based clinical settings as a result of partnerships with the Vancouver Island Health Authority and many island-based physicians. After successfully completing the four-year MD undergraduate program, graduates enter residency training across Canada in one of over 50 specialty areas. Post-graduate training ranges from two to six years.

Admission
Applications for admission are considered from candidates who are citizens or permanent residents of Canada and who have completed all other application requirements, as outlined on the UBC Faculty of Medicine Admissions website: <www.med.ubc.ca/admissionsmd/>. Applications are submitted to the Faculty of Medicine at UBC. Advising is available at UVic through <imp.uvic.ca/admissions/>.

Registration
Island Medical Program students will be fully registered at UBC and will be subject to the academic regulations of UBC’s Faculty of Medicine, including regulations concerning course content, grading, progression and graduation. Official transcripts will be issued by UBC.

Students studying in the Island Medical Program will have full access to student support services at the University of British Columbia, including awards and financial aid. Further information is available at <www.med.ubc.ca/md/>.

Affiliate Status
Students in the Island Medical Program will be granted “Affiliate” status at UVic. Affiliate status allows IMP students to access UVic libraries and the following UVic-based campus services: Athletics and Recreation, Health, Counselling, Child Care, Chaplains, the Resource Centre for Students with a Disability (by arrangement with the UBC centre) and Housing.

UVic non-academic policies and procedures will govern IMP student conduct on the UVic campus.
Research Centres

Vice-President Research
Howard Brunt, BA (Florida), ADN (Vermont), MScN (Yale), PhD (Calgary), Vice-President, Research
Dr. Michael Miller, Associate Vice-President, Research
Dr. Rachael Scarth, MA, PhD (Cambridge), Associate Vice-President, Research Operations

The Office of the Vice-President Research (through the Office of Research Services) assists the University research community in obtaining funding from external agencies and administers research, conference and travel funds through internal support programs. The Office is also responsible for the regulation of research activities through the Animal Care Committee and the Human Research Ethics Board. The Office operates the Animal Care Units and the Aquatic Research Facility following the Guidelines of the Canada Council on Animal Care. Grants facilitation assistance in applications for research grants and contracts includes identifying potential funding agencies, providing information on application procedures and advising on the preparation of proposals. Assistance with negotiating research contracts and agreements is provided in the Office.

The Office of the Vice-President Research works in close collaboration with the following groups and oversees the activities of the University's 17 interdisciplinary research centres.

Website: <www.research.uvic.ca>
UVic Industry Partnership (IP) <web.uvic.ca/industry>

IP is the University Industry Liaison Office and provides faculty and students with a comprehensive suite of services related to intellectual property protection, product commercialization, business development and industry collaboration.

Ocean Networks Canada Observatory (ONC) <www.oceannetworks.ca>
ONC is a not-for-profit society created by UVic in 2007 to oversee the development and operation of the UVic-owned Ocean Networks Canada Observatory, made up of the NEPTUNE Canada ocean network and the VENUS coastal network. ONC is also responsible for the ONC Centre for Enterprise and Engagement (ONCCEE), a federal centre of excellence in commercialization and research which promotes commercial applications and public outreach based on the observatory programs.

Office of Community Based Research (OCBR) <web.uvic.ca/ocbr/>
OCBR provides support and leadership for assisting community stakeholders and university researchers to collaborate on research related to addressing social and economic challenges facing society.

The Pacific Climate Impacts Consortium (PCIC) <www.PacificClimate.org>
PCIC is a consortium of research and stakeholder organizations that quantifies the impacts of climate change and variability on the physical environment of Pacific North America. PCIC bridges the gap between climate research and climate applications, and makes practical information available to government, industry, and the public.

Centre for Co-operative and Community-Based Economy
Dr. Ana Maria Peredo, BA, (Inca Garcilazo de la Vega, University of Peru), MA, PhD (Calgary), Director

The Centre for Co-operative and Community-Based Economy is a focal point on campus for the promotion of interdisciplinary research and learning on subjects related to the co-operative economy, engaging faculty members from the University of Victoria and elsewhere, graduate and undergraduate students, and members of the wider community with an interest in co-operative enterprise.

The Centre:
1. Fosters and co-ordinates interdisciplinary research at the University of Victoria related to co-operative economy in British Columbia and throughout the world.
2. Promotes the dissemination of research related to the co-operative economy among researchers and teachers in the academic community as well as among those in the wider community who may benefit from that research; and
3. Promotes the development and offering of university courses by faculties and departments that provide an understanding of the history and role of co-operatives, co-operative theory, principles, development, structures, and legislation.

To support its commitment to reaching as many people as possible both within and outside British Columbia, the Centre maintains an extensive website devoted to a wide range of co-operative issues and themes, including resource information, case studies and reports, podcasts of Speaker Series presentations, and a gallery portraying stories of the co-operative movement.

Website: <www.uvic.ca/ccbe>

Centre for Aboriginal Health Research
Dr. Jeff L. Reading, MSc, PhD, FCAHS, Director

The goal of the Center for Aboriginal Health Research is to improve the health and well-being of Aboriginal peoples living in Canada and abroad. We recognize that research must be undertaken in partnership with communities and that research should meet the highest standards of community ethics and scientific rigor. Many ways of knowing can be connected for Aboriginal health research to create advanced knowledge to address complex health disparities from different community and academic perspectives.

The Centre provides a supportive environment for students, researchers and communities to engage respectfully in research activities that aim to address the urgent health disparities experienced by First Nations, Inuit and Métis peoples in Canada. Through engaging with stakeholders in Aboriginal health in British Columbia, across Canada, and internationally, the Centre seeks to assume an active advocacy role in promoting relevant and ethical health research that seeks to improve Aboriginal peoples’ health.

The CAHR encourages a broad multi-, cross- and inter-disciplinary team approach to health research that integrates programs of research across communities, academic institutions, regions, nations and globally. Our programs include Cultural Safety in Education and Healthcare, Community-Based Research, Global Indigenous Health, Knowledge Translation & Ethics, NEARBC (Aboriginal Health Resource Site), Open Door, Seniors Fall Prevention, Student Mentorship and Water. For more information on our current programs or CAHR, please visit our website at <www.cahr.uvic.ca>.

Centre for Addictions Research of B.C.
Tim Stockwell, MA (Oxford), MSc (University of Surrey), PhD (University of London), Director

The mission of the Centre for Addictions Research of B.C. (CARBC) is to create an internationally recognized centre, distributed across B.C., that is dedicated to research and knowledge exchange on substance use, harm reduction, and addiction.

Established at the University of Victoria in 2003 through an endowment from the B.C. Addiction Foundation, CARBC has developed relationships with a large network of addictions-related agencies in B.C. and has formal partnerships with other universities in British Columbia. CARBC
sits at arms length from government while working on shared concerns with multiple government departments, including health, police, education, and liquor licensing.

Guided by a comprehensive five year strategic plan, CARBC tracks performance results in four key areas:

- Build research infrastructure and capacity across B.C. for the conduct of research that will increase understanding and support more effective responses to substance use
- Conduct high-quality research that increases understanding of substance use and addiction, and informs effective responses
- Disseminate research findings that increase understanding of substance use and addiction, to increase awareness of related harms, and to identify effective responses
- Contribute to the implementation of evidence-based policy and practice

CARBC maintains a research and administration office at the University of Victoria, and a communication and resource unit in Vancouver, B.C.

Website: <www.carbc.ca>
Email: carbc@uvic.ca

Centre for Advanced Materials and Related Technology (CAMTEC)

Dr. Byoung C. Choi, PhD (Free University Berlin), Director

The Centre for Advanced Materials and Related Technology (CAMTEC) at the University of Victoria is a research centre committed to interdisciplinary work on advanced materials and technology. The scope of this work covers a wide spectrum of research in theoretical and applied areas. CAMTEC coordinates related research among the Departments of Biology, Chemistry, Electrical and Computer Engineering, Mechanical Engineering and Physics. CAMTEC members work in close association with scientists and engineers from the private and public sectors to ensure technology transfer to industry.

The Centre's key research areas and areas of application include: crystal growth of semiconductors, dielectric materials characterization, magnetic and superconductive materials and their applications, microscopy and nanoprobes, microwave and optical applications of advanced materials, advanced composites, alloys, and ceramics, integrated circuit technology, infrared detectors, microsensors for environmental and medical applications, opto-electronic and micro-electronic devices, piezoelectric actuators, and chemical sensors, with recent emphasis being in nanostructures and nanotechnology.

The Centre stimulates the development of new equipment and facilities on campus and also attracts graduate students and visiting scientists interested in advanced materials. As an interdisciplinary centre, CAMTEC has an impressive array of equipment and facilities at its disposal.

The knowledge and experience gained from the research into advanced materials at CAMTEC is disseminated throughout the University, to the private and public sectors, and to other Canadian universities and institutions. The Centre accomplishes this through scientific publications, conferences, workshops and seminars, as well as through courses offered by the members.

Website: <www.camtec.uvic.ca>
Email: CAMTEC@uvic.ca
Telephone: 250-721-7736

Centre for Advanced Security, Privacy, and Information Systems Research (ASPIRe)

Stephen W. Neville, PhD (Victoria), Peng (BC), Faculty of Engineering, Director

The ASPIRe Centre was formally established in 2011 within the Faculty of Engineering with support from the Government of the Province of British Columbia. ASPIRe focuses on advancing research and understanding with the three core inter-related domains of cyber-security, information privacy, and the underlying information systems that have become intrinsic to modern societies.

ASPIRe has a strong focus on facilitating and being a catalyst for research collaborations within the university in these areas and with external industry, government, and academic partners regionally, nationally, and internationally. ASPIRe also serves as a focal point for the research already underway at the university in these areas. ASPIRe members are involved in numerous industry, government, and academic research projects including in: network engineering, cryptography and cryptanalysis, distributed/cloud systems, health information systems, wireless networks, the semantic web, malware analysis and classification, social networking, mobile devices and applications, etc.

ASPIRe is associated with NSERC's national cyber-security focused strategic network - the Interconnected Systems Security Network (ISSNet) and UVic's recently established Entrepreneurial Engineering Masters Projects (EEMP) conducted in partnership with the Alacrity Foundation.

ASPIRe is open to and welcoming of extending its collaborations across the wider university community as the ASPIRe membership fully realize that developing solutions in these pressing domains will require active collaborative efforts between technically and non-technically focused researchers, i.e., across engineering and science, business, law, psychology, political science, economics, etc., as well as active collaborations with its industry and government partners. ASPIRe members have research project support through NSERC, CFI, BC KDF, MITACS, etc.

Centre for Asia-Pacific Initiatives (CAPI)

Helen Lansdowne, MA (UVic), Associate Director
Robyn Fila, MA (Linkoping), Program Manager
Guoguang Wu, MA, PhD (Princeton), China Program Chair

The purpose of the Centre is to conduct and support the University of Victoria's Asia Pacific research and related initiatives, and to encourage the development of the University's Asia-Pacific programs and resources. The Centre's current research interests include: Southeast Asian law and development, Japan and Asia-Pacific relations, and China and Asia-Pacific relations. Associates and Research Fellows who share research interests are attached to the Centre.

Linkages are established with other units on campus for purposes of collaborative research, as well as with individuals and institutions across Canada and in the Asia-Pacific. In addition to the research activities undertaken by CAPI, a wider role is taken on campus in disseminating information through conferences, workshops, symposiums and publications. The Centre manages an internship program that offers 8-month internships in the Asia-Pacific region for recent graduates. The Centre is not a teaching unit, and the faculty associated with the Centre teach in their respective departments or faculties.

For further information on CAPI programs and events, visit the centre's website at <www.capi.uvic.ca>

Centre for Biomedical Research

E. Paul Zehr, PhD (University of Alberta), Professor (Neuroscience & Kinesiology), Director

The Centre for Biomedical Research (CBR) is a collaborative group of scientists and clinicians investigating important biomedical problems.

The CBR is a multidisciplinary unit with members from many faculties, departments, schools, and divisions across campus, as well as the Island Medical Program. There are seven research clusters within CBR: biological technology; neuroscience; developmental biology; cell signaling; cardiovascular; genetics; infection and immunity. CBR promotes interdisciplinary basic and translational biomedical research targeted at generating cures or restoring function in pathology and disease. Researchers in CBR have programs aimed at cancer, Rhett's Syndrome, stroke, African Sleeping Sickness, fetal alcohol syndrome, and spinal cord injury, amongst others. Some members also work in collaboration with the B.C. Cancer Agency, the Vancouver Island Health Authority, the International Collaboration on Repair Discoveries (ICORD), as well as other local, national, and international agencies and foundations. Members of CBR are also involved in relating the importance of biomedical research through community engagement activities such as Cafe Scientifique. The Centre also hosts the "Let's Talk Science" public outreach initiative at UVic.

Graduate students wishing to study in the centre must be registered with an appropriate university department. Personnel from the CBR and cooperating agencies participate in giving appropriate coursework. MSc, PhD and Post-Doctoral work can be conducted through the Centre.

Centre for Biomedical Research

2012-13 UVIC CALENDAR
Centre for Early Childhood Research and Policy

Myer Horowitz, Acting Director
Beverly Smith, D.Phil (Oxford University), Associate Director

The Centre for Early Childhood Research and Policy (CECRP) became a multi-faculty centre in March 2011. The Centre’s interdisciplinary research, policy work, and educational activities aim to generate fresh insights, consolidate understandings, and improve policies and programs to support optimal child health and development within diverse socio-political and cultural contexts. The centre works collaboratively with communities and organizations on various initiatives. In addition the Centre offers an annual speaker series, graduate student research day, seminars, symposia, professional development institutes, and for-credit courses.

Centre for Global Studies

Director: TBA

The Centre for Global Studies (CGFS) is engaged in research and public awareness that promotes informed policy responses to the challenges of global governance, security and sustainability. CGFS is a unique “centre of centres,” creating a dynamic, multidisciplinary environment. Currently there are four core focus areas:

- Division of Globalization and Governance
- International Institute for Child Rights and Development
- Division of Technology and International Development
- International Women’s Rights Project (IWRP)

The Centre is strongly committed to public awareness and outreach to the academic, policy and public communities, allowing CGFS members to share their collective knowledge and promote debate on important issues and events.

The breadth of the Centre’s activities provides employment and volunteer opportunities for several students and interns each year.

CGFS was established in 1998 through the generosity of local community donors. The Centre continues by enhancing its already extensive network of international research and funding partners, with whom it collaborates on a project-to-project basis.

For more information, please visit our website at <www.globalcentres.org>.

Centre for Social and Sustainable Innovation (CSSI)

Monika Winn MA, (Eberhard-Karls Universitaet Tuebingen, Germany), MBA, PhD (University of California), Director

The Centre for Social and Sustainable Innovation is an intra-faculty centre of the Gustavson School of Business. It exists to facilitate the work of Gustavson faculty, staff and students in the areas of sustainability and corporate social responsibility as they relate to business.

CSSI work focuses on three areas: research, education and operations. Faculty research ranges from climate change strategy to health and wellness to poverty and social entrepreneurship.

CSSI hosts regular presentations to encourage faculty to share their research within the school, on campus and with the business community. Integrating sustainability into Gustavson’s courses and specializations is the emphasis of the education arm of CSSI. In addition to an annual commitment to the United Nations Global Compact Principles of Responsible Management Education (PRME), faculty share cases, guest speakers and readings to encourage students to consider the triple bottom line in all their business decisions. Specific courses in sustainability are required in the BCom, MBA, MGB, and PhD course offerings. The Centre supports faculty teaching as well as student activities such as Carrotmobs and the BCom Sustainability Challenge.

The Gustavson School of Business is committed to sustainability in all its operations, so the CSSI operations committee undertakes an annual inventory of the school’s carbon footprint. In addition, the faculty, staff and students participate in activities such as Bike to Work Week, and a UVic-sponsored energy-reduction competition. This committee also initiated the move to low-energy copiers and double-sided printing.

Strong links to local and international communities allow CSSI to share best practices, recruit guest speakers for the classroom, and further develop the three arms of CSSI.

Centre for Studies in Religion and Society

Paul Bramadat, MA (McGill), PhD (McMaster), Director

The Centre for Studies in Religion and Society (CSRS) is an interdisciplinary research centre located in the Sedgwick Building on the University of Victoria campus. Its mission is to foster the scholarly study of religion in relation to any and all aspects of society and culture, both contemporary and historical. Since its formation in 1991, the CSRS has established itself as a leading centre in Canada for the investigation of themes and issues at the intersection of religion and public policy. It has been especially engaged in discussions and research related to the environment, globalization, ethnicity, ethics, health care, culture, science and technology, and the arts.

The centre hosts collaborative research and publishing projects with Canadian and international scholars, sponsors fellowships for graduate students and visiting scholars, and hosts a dynamic annual program of lectures, seminars and conferences for the campus and local community.

Current areas of focus in the centre include research examining:

- Religion in a “securitized” environment post-9/11
- Religion and hospice care
- Religion and ethnicity in Canada
- Religion and cultural reasons for resistance to immunization
- Comparative approaches to religious diversity in India, Canada and China

The CSRS has a fundamental commitment to pluralism and dialogue, encouraging participation from scholars and others from any religious, academic, or secular perspective.

The CSRS is neither a teaching nor degree or diploma-granting unit. For further information please visit <www.crsr.uvic.ca> or contact the centre at 250-721-6325.
Centre for Youth and Society

E. Anne Marshall, RPsych, PhD (Toronto), Director
Tricia Roche, Manager, Research & Community Partnerships
Stephanie Poje, Research and Communications Coordinator

The Centre for Youth and Society, formally established at the University of Victoria in 2002, designs and conducts research anchored by collaborative partnerships with local, national, and international youth serving educational and youth led organizations. Research fellows of the Centre are scholars from diverse faculties united by their interest in catalyzing the well-being of youth, public interest and research impact. Our efforts are concentrated in interdisciplinary research, graduate student training and knowledge mobilization on the relationship between youth and society.

The mission of the Center for Youth and Society is to promote the health and well-being of youth from diverse social, economic and ethnic backgrounds in evolving societal circumstances. The Center facilitates university-community partnerships to generate and mobilize knowledge regarding youth strengths, challenges, and opportunities. Current research clusters include: youth mental health, literacy, youth and new technologies, Indigenous youth, youth and the economy, youth health and recreation, community-youth engagement, youth with special needs, and knowledge mobilization tools for youth and other audiences.

Our efforts:
- **Address** the concerns, assets and priorities of youth, in dialogue with society as a whole, so that programs, research and training initiatives are responsive, innovative and well-designed.
- **Advance** inter-disciplinary community based research and training on a wide array of current issues and events affecting youth.
- **Provide** strong evidence based recommendations and advocate with youth to influence policy-makers.
- **Facilitate** research impact by taking scholarly research to places where it can foster new public programs and social innovation.
- **Shape** educational practice and policy frameworks in ways that harness the tremendous strengths and capacities of youth.

Website: <www.youth.society.uvic.ca>

Phone: (250) 472-5414
Location: University House 3
Facebook: Centre for Youth and Society

Research Areas: health care services, health care systems and policy, caregiving for older adults in Canada, caregiving among Chinese families in Canada, Hong Kong and mainland China, care for those with dementia in long-term care institutions, assessments of drug effectiveness for those with dementia.

Denise Cloutier, BSc (Calg), MA, PhD (Guelph), (Associate Professor, Geography)

Research Areas: strategies for successful aging, effective models of health and social service delivery, qualitative and quantitative methods and vulnerable older populations (e.g., socially isolated, stroke survivors, rural populations and palliative care clients).

Scott M. Hofer, AB (San Diego State Univ), PhD (Univ Southern California), Harald Mohr, MD and Wilhelma Mohr, MD Research Chair in Adult Development and Aging, (Professor, Psychology)

Research Areas: cognitive aging, longitudinal design and analysis, measurement, personality, lifespan development.

Patrick McGowan, BA, MSW, PhD (UBC), (Professor, Social Sciences)

Research Areas: chronic conditions, quality of life and self-help or self-management, individual and population health, participatory research, aboriginal health, coping skills, health system performance and integrated service delivery, project and program evaluation.

Kelli I. Stajduhar, BSN (UVic), MSN, PhD (UBC), (Associate Professor, Nursing)

Research Areas: palliative care, family caregiving, HIV/AIDS, vulnerable and marginalized populations, home care, cancer, mixed method research, qualitative and quantitative research.

Vincenza Gruppura, BSc (UoT), Diploma (UoT), BA (McMaster), MSc (UVic), PhD (UVic,) Research Coordinator

Leah Potter, Diploma (UVic), Secretary
Lois Edgar, BA (Alta), Administrator

Cara Pearson, BA (UVic), Administrative Assistant
Arlene Senft, BA (SFU), Administrative Assistant

The Centre on Aging at the University of Victoria is a multidisciplinary research centre established in 1992. Our mandate is to promote and conduct basic and applied research throughout the lifespan. Centre researchers are drawn from many faculties, departments, and schools, including Anthropology, Child and Youth Care, Economics, Engineering, Exercise Science, Fine Arts, Geography, Human and Social Development, Health and Information Science, Law, Medical Sciences, Nursing, Public Administration, Philosophy, Psychology, Social Work, and Sociology.

Research is conducted in partnership with seniors, their families, organizations, health care providers, and the government. It is also undertaken in collaboration with the community, government, and academics across disciplines. The research conducted includes needs assessments and social surveys, longitudinal research, experimental research, program evaluations, development of clinical diagnostic tools, and social policy research; some of which is conducted using the Survey Research Centre (SRC).

Centre on Aging

Holly Tuokko, BA(Hons), MA (Lakehead), PhD (UVic), R Psych, (Professor, Psychology), Director

Research Areas: mental health and aging, competency, older driver safety, geriatric assessment, dementia.

Neena L. Chappell, BA (Car), MA, PhD (McM), FRSC, CRC in Social Gerontology, (Professor, Sociology)

The SRC provides survey data collection services to researchers at the University of Victoria as well as researchers at other institutions and organizations. The SRC performs telephone research using computer assisted technology and skilled data entry staff. The SRC also hosts survey data collection using web-based, e-mail, or postal mail techniques.

Dialogue with community partners is an important aspect of the Centre’s mandate. Knowledge generated as a result of research is distributed through academic publications, seminars, lectures, conferences, Centre publications, and the work of liaison groups.

The Centre is financially supported through contributions from the University, granting councils, contract work, and donations from individuals, foundations, and business. For further information, contact the Centre at 250-721-6369 or visit the Centre’s website at: <www.coag.uvic.ca>.

Institute for Integrated Energy Systems (IESVic)

Peter Wild, BSc (UBC), PhD (UVic), Director

The Institute for Integrated Energy Systems at the University of Victoria (IESVic) promotes feasible paths to sustainable energy systems. Founded in 1989, IESVic conducts original research to develop key technologies for sustainable energy systems and actively promotes the development of sensible, clean energy alternatives.

Our specific areas of expertise are fuel cells, cryofuels, energy systems analysis and energy policy development.

Our Activities:
- **Research:** We are committed to developing new technologies to make sustainable energy systems feasible. We also undertake research to investigate the effects that the choice of particular energy systems technologies can have on the world.
- **Service:** We will collaborate with any other organization that shares our vision. In particular, we work with industrial partners to provide access to specialized knowledge and equipment, and with government partners to support policy and decision making processes.
- **Communication:** We promote energy systems education at all levels, formally and informally, to convince the world of the critical need for new and sustainable energy systems.

IESVic is a multidisciplinary research institute with participation from Engineering, Chemistry, Biology and Economics. A fuel cell systems laboratory with hydrogen production and fuel cell testing equipment is available for research use. This lab is designed primarily for prototyping and testing new fuel cell designs. IESVic makes extensive use of students at both the undergraduate and graduate levels to assist with research, and IESVic members frequently participate in supervising students whose interests are non-technical but still related to issues surrounding the development of sustainable energy systems.

Website: <www.iesvic.uvic.ca>
Pacific Institute for Climate Solutions
Thomas F. Pedersen, BSc Hons. (UBC), PhD (Edinburgh), FRSC, FAGU, Executive Director

The Pacific Institute for Climate Solutions (PICS) was established in April 2008 by a $90 million endowment from the BC Ministry of Environment, the single largest endowment to a university in Canadian history. Hosted and led by the University of Victoria, PICS is a unique collaboration among BC’s four research-intensive universities (the University of British Columbia, the University of Northern British Columbia, Simon Fraser University, and the University of Victoria). PICS harnesses the Province’s intellectual resources to develop innovative climate change solutions, seek new opportunities for positive adaptation, and lead the way to a vibrant low-carbon economy. With strong linkages to senior decision-makers in government and industry, it frames the vital questions and provides effective answers to technological, economic and public policy challenges.

Victoria Subatomic Physics and Accelerator Research Centre (VISPA)
Dean Karlen, BSc (U Alberta), PhD (Stanford), Director

The Victoria Subatomic Physics and Accelerator Research Centre (VISPA) brings together an internationally recognized group of particle and accelerator physicists who work to understand the fundamental nature of our Universe. Group members develop new theoretical approaches, participate in leading particle physics experiments around the world, and advance the technology required to pursue this science. The group shares computing and laboratory resources, supports and manages technical staff, and ensures a high-quality graduate and postdoctoral training environment.

The theoretical group has gained an excellent reputation across Canada and has close ties with the Perimeter Institute, a world leading institute in theoretical physics in Waterloo, Ontario. The experimental projects include ATLAS at CERN, at the energy frontier, T2K in Japan, a world leading neutrino experiment, and BABAR at SLAC, at the precision frontier. The University of Victoria is the lead institution on the new electron linear accelerator being built at TRIUMF, thanks to substantial funding from the Canadian Foundation for Innovation and the Province of British Columbia.

Courses of Instruction

This section presents the descriptions of all courses offered at the University of Victoria. Courses are listed in alphabetical order by course abbreviation (BIOL, EDUC). The course abbreviations for all courses offered within each faculty are listed on page 234. A list of the course abbreviations and their corresponding subject areas is presented on page 235.

Please note that not all courses listed are necessarily offered every year; students should consult the department or faculty concerned for an official listing of the courses that will be offered in a given session. Registration and current timetable information is also available on the web at <registrar.uvic.ca>.

Students must ensure that they are familiar with the program requirements and restrictions noted in the entry for each academic unit.
## Courses by Faculty

### Division of Medical Sciences

**MEDS** Medical Science

### Faculty of Education

**AE** Art Education  
Department of Curriculum and Instruction

**ED-D** Educational Psychology and Leadership Studies  
Department of Educational Psychology and Leadership Studies

**ED-P** Teacher Education - Professional Studies

**EDCI** Curriculum and Instruction Studies  
Department of Curriculum and Instruction

**EPHE** Exercise Science, Physical and Health Education  
School of Exercise Science, Physical and Health Education

**IA** Interdisciplinary Arts  
Department of Curriculum and Instruction

**IED** Indigenous Education

**ME** Music Education  
Department of Curriculum and Instruction

### Faculty of Engineering

**BME** Biomedical Engineering

**CENG** Computer Engineering  
Department of Electrical and Computer Engineering

**CSC** Computer Science

**ELEC** Electrical Engineering  
Department of Electrical and Computer Engineering

**ENGR** Engineering

**MECH** Mechanical Engineering  
Department of Mechanical Engineering

**SENG** Software Engineering  
Software Engineering

### Faculty of Fine Arts

**ART** Visual Arts  
Department of Visual Arts

**CW** Creative Writing (En'owkin Centre)  
Certificate Program in Foundations in Indigenous Fine Arts

**FA** Fine Arts  
Interdisciplinary Courses

**HA** History in Art  
Department of History in Art

**MUS** Music  
School of Music

**THEA** Theatre  
Department of Theatre

**WRIT** Writing  
Department of Writing

### Faculty of Human and Social Development

**ADMN** Public Administration  
School of Public Administration

**AGEI** Ageing  
School of Public Health and Social Policy

**CYC** Child and Youth Care  
School of Child and Youth Care

**CYCB** Indigenous Community-based Child and Youth Care  
School of Child and Youth Care

**CYCI** Child and Youth Care International  
School of Child and Youth Care

**DSST** Disability Studies  
School of Public Health and Social Policy

**HINF** Health Information Science  
School of Health Information Science

**HLTH** Health  
School of Public Health and Social Policy

**HSD** Human and Social Development  
Interdisciplinary Courses

**IGOV** Indigenous Governance  
MA in Indigenous Governance

**INGH** Indigenous Health Studies  
School of Public Health and Social Policy

**INTS** International Studies  
School of Public Health and Social Policy

**NURS** Nursing  
School of Nursing

**SOCW** Social Work  
School of Social Work

### Faculty of Humanities

**ARTS** Arts

**ASL** American Sign Language  
Department of Linguistics

**ENGL** English  
Department of English

**FRAN** French  
Department of French

**GMST** Germanic Studies  
Department of Germanic and Slavic Studies

**GREE** Greek  
Department of Greek and Roman Studies

**GRS** Greek and Roman Studies  
Department of Greek and Roman Studies

**HIST** History  
Department of History

**HUMA** Humanities

**ITAL** Italian  
Department of Hispanic and Italian Studies

**LAS** Latin American Studies  
Latin American Studies Program

**LATI** Latin  
Department of Greek and Roman Studies

**LING** Linguistics  
Department of Linguistics

**MEDI** Medieval Studies  
Medieval Studies Program

**MEST** Mediterranean Studies  
Department of Hispanic and Italian Studies

**PAAS** Pacific and Asian Studies  
Department of Pacific and Asian Studies

**PHIL** Philosophy  
Department of Philosophy

**PORT** Portuguese  
Department of Hispanic and Italian Studies

**RS** Religious Studies  
Religious Studies Program

**SLST** Slavic Studies  
Department of Germanic and Slavic Studies

**SPAN** Spanish  
Department of Hispanic and Italian Studies

**WS** Women's Studies  
Department of Women's Studies

### Faculty of Law

**LAW** Law

### Faculty of Science

**ASTR** Astronomy  
Department of Physics and Astronomy

**BCMB** Biochemistry and Microbiology  
Department of Biochemistry and Microbiology

**BIOC** Biochemistry  
Department of Biochemistry and Microbiology

</table>
Course Abbreviation and Number
Courses are listed alphabetically by course abbreviation of up to four letters (e.g., ANTH for Anthropology) and course number (e.g., 100). Three numbers are used for course number plus a letter as appropriate. The first number indicates the year level (0 for university-level upgrading, 1 to 4 for undergraduate level, 5 and 6 for graduate level, 7 for Education Professional Year and 8 for co-op work terms). See page 235 for the subject area corresponding to the course abbreviation.

Cross-listed Courses
The same course may be offered by two different departments. Such courses are listed twice, once under each department course abbreviation. Students may obtain credit for the course from either department, but not both.

Former Course Abbreviation and Number
If a course was previously offered at UVic under another abbreviation and number, the former abbreviation and number are shown here.

Prerequisites and Corequisites
Prerequisites are courses or other requirements that must be completed before a student may register in a course. Corequisites are courses or other requirements that must be completed at the same time as a specific course.

Course descriptions do not include information on when courses will be offered. That information is available online at <www.uvic.ca/timetable>.

See page 234 for a list of courses offered by each faculty and page 235 for a list of course abbreviations.

Units of Credit
This figure is the number of units of credit assigned to each course. Some courses are listed with a range of units (1.5-3) or with the notation "to be determined." Further information on the unit value of the course will usually be found in the course description. Students may also contact the department or faculty offering the course for information on variable credit courses.

Hours of Instruction
The numbers refer to the hours of instruction per week:
- first digit: hours assigned for lectures or seminars
- second digit: hours assigned for laboratory or practical sessions
- third digit: hours assigned to tutorials

Notes
Notes provide information about any restrictions on the assignment of credit in cases where courses overlap, as well as the maximum allowable credit for courses that may be taken more than once. Notes may also provide special information about a course.

Grading
Courses that are not graded using standard letter grades will include the alternative classifications for evaluation. See page 37 for an explanation of grading abbreviations.
ACAN
Arts of Canada
Program in the Arts of Canada
Interdisciplinary Programs
ACAN 225  Units: 3.0  Hours: 3-0
Also: FA 225
Introduction to the Arts of Canada
An interdisciplinary examination of Canada's cultural identity and of current issues facing the arts in both French and English speaking Canada. Topics to be considered include aboriginal arts, theatre, history in art, visual and literary arts, music, multiculturalism, broadcasting and cultural policies.
Note: Credit will be granted for only one of 225, FA 225.

ADMN
Public Administration
School of Public Administration
Faculty of Human and Social Development
ADMN 310  Units: 1.5
Formerly: 403
Public Sector Economics
An introduction to the principles of microeconomics for public sector policy analysis and management. Students are introduced to economic principles, including supply and demand; household behaviour and consumer choice; production, labour and capital markets; competition policy and regulation; market failures and government intervention; income distribution and taxation. Topics include the national income and expenditure accounts, unemployment and inflation.
Note: Credit will be granted for only one of 310, 403, ECON 103, 201, ENGR 280 taken before May 2012.

ADMN 311  Units: 1.5
Also: POLI 350
Introduction to Public Administration
An exploration of the external factors affecting contemporary public sector management in Canada, the changing structural and value context within which public servants work, the key processes in which they are engaged and how those processes are changing. Focus is critically on the federal and provincial governments, but references will also be made to public administration at other levels.
Note: Credit will be granted for only one of 311, HSD 404, POLI 350.

ADMN 312  Units: 1.5
Managing in Public and Non-Profit Organizations
An examination of the skills of an effective manager in public and non-profit sector organizations and the interplay between management and key organizational processes such as planning, organizing, implementing and evaluating policies, programs and services. Management topics include: managerial work, interpersonal and leadership skills, power and influence, conflict resolution, formal and informal communications, motivation and teamwork. A project on managing organizational change is used as a way to connect manager behaviours and organizational processes.
Note: Credit will be granted for only one of 312, 406. Students may select an elective in lieu of 312.

ADMN 314  Units: 1.5
Public Sector Research and Analysis
An introduction to research methods in public and non-profit sector settings. Students learn to become informed consumers and critics of research and more effective managers of research-related projects. Data analysis skills are also strengthened with the use of spreadsheet software. Topics include definition and types of research; research design; measurement; methods of data collection; data coding; descriptive and inferential statistics; relationships between variables; ethical and organizational issues; and the research proposal and report.

ADMN 316  Units: 1.5
Written Communications in the Public and Non-Profit Sectors
Topics include how to: analyze a communication task; identify the topic, purpose and audience; write and edit professionally with a good command of standard written English and principles of plain language; gather, paraphrase, summarize, analyze or interpret complex information from print and electronic sources; describe complex policies and procedures; apply the principles of document structure and design; write proposals; and design and develop the types of documents required in the public and non-profit sectors.
Note: Credit will be granted for only one of 316, ENGL 302. Students should take this course early in their Diploma program.

ADMN 407  Units: 1.5
Managing Service Delivery
Explores challenges facing public sector managers who develop or transform public services with a strong focus on service recipients. Examines the drivers of the service transformation movement, surveys the ways that public services can be reformed and then works through a framework for assessing service needs, engaging service recipients and stakeholders, making a business case for transformation, implementing new delivery arrangements (including networks and partnerships), managing across boundaries, and building in performance measurement and accountability.
Prerequisites: 311 or equivalent.

ADMN 409  Units: 1.5
Leading and Managing in the Non-Profit Sector
An overview of management in Canada's non-profit and voluntary sector. Students will examine the size, scope, structure, functions, value bases, and uniqueness of the non-profit sector, plus the differences among the non-profit, public and private sectors. Topics include: leadership, board governance, strategic analysis, volunteer management and partnering. Students will analyze how management concepts, models, principles and techniques have validity as applied in the context of non-profit and voluntary sector organizations.

ADMN 411  Units: 1.5
Public Sector Project Management
Provides an understanding of project management; differences between private, non-profit and public sector project management; and how the dynamics of change and leadership impact project success. Topics include: what project management is and is not; project leadership; risk management; project planning; scheduling and critical path; problem solving; project governance, accountability and transparency; project sponsor role; change management including assessing readiness for change; setting up change governance structures to sustain change; best practices; and project evaluation.
Note: Credit will be granted for only one of 411 and 470 (if taken in the same topic).

ADMN 420  Units: 1.5
The Public Policy Process
An introduction to the policy process in the public sector. Includes analysis of current theories of policy-making and examines case studies from Canadian contexts. Topics include: policy formation; the policy communication process; the structural aspects of policy execution; and the human dimensions of implementation and coordination of policies in public sector organizations.
Note: Credit will be granted for only one of 420, 465.
Prerequisites: 311; 310 and/or 314 are recommended.

ADMN 421  Units: 1.5
Financial Management
Provides students a financial management foundation focused on the needs of the public sector. Topics include: public sector financial management and budgeting, including capital budgeting and infrastructure investment; financial statements and their analysis; public sector accounting standards and financial reporting; cost management and control; and accountability and performance measurement. The emphasis will be on provincial and federal planning and reporting structures. Includes tutorials for the Excel spreadsheet program.
Note: Credit will be granted for only one of 421, 448.

ADMN 422  Units: 1.5
Ethical Public Management
An exploration of value and ethical dilemmas which confront public and quasi-public sector officials in the workplace. Focuses on process dilemmas related to political neutrality, confidentiality, privacy, fairness and accountability, as well as issues related to good, just and legitimate public policy. Students will have an opportunity to develop their own moral reasoning skills and apply them in case studies.
Note: Credit will be granted for only one of 422, 554.

ADMN 423  Units: 1.5
Local Government in British Columbia
An examination of the legislative framework, organization, operation and finance of local government service delivery and regulation in British Columbia.
Note: Credit will be granted for only one of 423, 545.

ADMN 431A  Units: 1.5
Public Sector Human Resource Management
Examines various aspects of the human resource function within public sector organizations and compares current theory and practice in: human resource planning; job analysis and design; recruitment and selection; performance management; career planning; staff development; and occupational health and safety.
Note: Credit will be granted for only one of 431, 431A, 447, 531.

ADMN 431B  Units: 1.5
Compensation and Labour Relations
Compensation issues include: determining equitable and fair pay; external equity in job evaluation; measuring and rewarding performance; employee health and time off; benefits in compensating employees; and pension and retirement benefits. Labour relations issues include: negotiating compensation issues; discipline and grievance, and developing a collective agreement.
Note: Credit will be granted for only one of 431, 431B.

ADMN 437  Units: 1.5
Program Evaluation and Performance Measurement
Intensive introduction to organizational, methodological and professional issues involved in evaluating programs and measuring performance in public and
non-profit organizations. Offers a practical understanding of the evaluation process, including identification of key evaluation questions, program logics, measurement, research design, and qualitative evaluation. Performance measurement is treated as a complementary set of skills for measuring and reporting program and organizational results. Includes modules on conceptual issues, implementation requirements and uses of performance measurement.

ADMN 445  Units: 1.5
Urban and Regional Economics
Examines economic forces influencing settlement patterns, growth and other characteristics of towns, cities and regions. Course provides a theoretical and historical basis for understanding the political and social factors that determine how urban areas evolve and how public policies may affect patterns of growth and change. Topics include: regional economics; economic development; growth policy; urban land use patterns; how land and housing markets function; how land use regulation affects these markets; urban environmental problems; urban transportation; and emerging spatial patterns.

Note: Credit will be granted for only one of 437, 537.

ADMN 446  Units: 1.5
Local Government Land Use Planning
Provides an overview of land use planning principles and regulations to local government administrators and staff, focusing on small and mid-sized communities. Topics include: history; regulatory framework in BC; rural and small town planning; growth management and regional planning; neighborhood, local area and community planning; zoning; mainstreet; strip and commercial planning; residential planning; permits and other regulatory mechanisms; public information and participation; and environmental and heritage planning.

Note: Credit will be granted for only one of 446, 470 (if taken in the same topic).

ADMN 448  Units: 1.5
Local Government Financial Management
Provides a financial management foundation focused on the needs of local governments. Topics include: public sector financial management and budgeting, including capital budgeting and infrastructure investment; financial statements and their analysis; public sector accounting standards and financial reporting; cost management and control; and accountability and performance measurement. Emphasis will be on local planning and reporting structures. Includes tutorials for a spreadsheet program.

Note: Credit will be granted for only one of 448, 421.

ADMN 452  Units: 1.5
Local Government Law
Analysis of legislation and court decisions applicable to local governments in British Columbia, including the Community Charter. Designed to familiarize non-lawyers with local government law and legal issues which arise in relation to local government activities and how to read case law and legislation.

ADMN 462  Units: 1.5
Also: POLI 462, ADMN 547
Intergovernmental Relations in Canada
Examines the nature of relations among federal, provincial, and municipal governments, and the impact of those relations on public policy. Includes discussion of topics such as the modalities of fiscal federalism and the concepts of executive federalism and intergovernmental governance.

Note: Credit will be granted for only one of 462 or 470 (if taken in the same topic), POLI 462, 490 (if taken in the same topic), ADMN 547.

ADMN 465  Units: 1.5
Local Government Policy
An integrated analysis of selected local government policy problems drawing on urban and regional economics, local government law and the understanding of local government structure and operations. Includes how to analyze problems, assess response options and prepare policy recommendations within the political and administrative framework of local government. Topics selected for examination will vary.

Note: Credit will be granted for only one of 465, 420.
Prerequisites: 423 or equivalent, 445, 452.

ADMN 470  Units: 1.5-3.0
Contemporary Topics in Administration
A study of selected topics drawn from the current literature and practices in public administration or related fields.

Note: May be taken more than once for credit in different topics.

ADMN 477  Units: 1.5
Strategic Planning and Implementation
Examines strategic planning processes and how strategic goals can be implemented in public sector organizations. Strategic planning topics include stakeholder analysis; developing mission, value and vision statements; environmental scanning; transforming strategic plans into policies and programs; management tactics; and assessing organizational performance. Implementation topics include: deploying resources; quality control; strategic communication; budgeting; team building; problem solving; progress assessment; completion; and evaluation.

Note: Credit will be granted for only one of 477, 411, 412, 470 (if taken in the same topic), 577.

ADMN 478  Units: 1.5
Also: ADMN 578
European Union Urban Region Policies
Compares the main issues associated with the policies, policy analysis, and policy environment of European cities and urban regions with North American regions; considers ways in which the capacity of urban / regional government might be improved.

Note: Credit will be granted for only one of 478 and 578 or 548 (if taken in the same topic).

ADMN 479  Units: 1.5
Also: ADMN 579
European Border Region Policies
Introduces students to the various complexities of European Union (EU) public policy making in an increasingly borderless world, comparing EU policy and policy-making with the Canada-US and US-Mexican borders. Examines effects of intergovernmental and international relations on production of policies.

Note: Credit will be granted for only one of 479 and 579 or 548 (if taken in the same topic).

ADMN 490  Units: 1.5
Directed Studies
Directed reading and/or a research project under the supervision of a Faculty Member.

Note: Open to students only with permission of the Director.

AE 103A  Units: 1.5
Formerly: part of 103
Introduction to Art Education I
A foundation course for those interested in teaching art in school or community settings. Working in various studio activities, students will build knowledge and skill in studio art while considering how these experiences may be adapted for young learners. Art education topics include artistic development, critical and cultural perspectives on art, and teaching methodologies.

Note: Credit will be granted for only one of 103, 103A, 100, 101, 204, EDUC 307, EDI 307, EDI 307A, EDI 307B, ED-A 701. Students planning to emphasize art in their degree program should register in this course.

Prerequisites: 103A

AE 200  Units: 1.5
Design
Creative problem solving through art. A studio exploration of the elements and principles of art, media and processes, and the development of ideas in fine and applied art. Consideration is given to the ways in which this theory and practical experience can be applied in a variety of teaching and learning contexts.

AE 201  Units: 1.5
Image Development
A survey of methods and practices of innovative image transformation and development of skills and techniques through studio exploration. Instructional applications in various learning environments are considered.

AE 208  Units: 1.5
Three-Dimensional Art
Studio investigation into the concepts, materials, and techniques of sculpture, connecting these to the requirements of students. Relevant curriculum, assessment, and critiquing strategies will also be addressed.

AE 303A  Units: 1.5
Formerly: part of 303
Ceramics I
Fundamental ceramics skills of hand-building, wheel throwing and glazing. The history of clay and study of the principles of form. A projects-based studio course.

Note: Credit will be granted for only one of 303A, 303.
AE 303B  Units: 1.5  Hours: 3-0
Formerly: part of 303
Ceramics II
Continued skill development in ceramics techniques/ aesthetics through historical, political and environmental based projects.
Note: Credit will be granted for only one of 303B, 303.
Prerequisites: 303A

AE 305  Units: 1.5  Hours: 3-1
Drawing
Development of skills and teaching methods in drawing through studio exploration. Instructional applications in various learning environments are considered.
Note: Credit will be granted for only one of 305, 302.

AE 306  Units: 1.5  Hours: 3-1
Painting
Development of skills and teaching methods in painting through studio exploration. Instructional applications in various learning environments are considered.
Note: Credit will be granted for only one of 306, 302.

AE 307  Units: 1.5  Hours: 3-1
Printmaking
An introduction to printmaking including its history, related concepts, and selected studio techniques. Exploration and experimentation are emphasized as a means of skill development. Instructional applications in various learning environments are considered.
Note: Credit will be granted for only one of 307, 300.

AE 308  Units: 1.5  Hours: 3-1
Sculpture
Development of skills and teaching methods in sculpture through studio exploration. Instructional applications in various learning environments are considered.
Note: Credit will be granted for only one of 308, 301.

AE 309  Units: 1.5  Hours: 3-1
Ceramics: Hand Building
Studio experience in the methods and techniques of hand-built ceramics and their application to different levels of student development; appropriate curricula, assessment, and critiquing strategies.

AE 310  Units: 1.5  Hours: 3-1
Introduction to Applied Design
Introduction to skills and teaching methods in selected applied design areas through studio exploration.
Note: Credit will be granted for only one of 310, 304.

AE 315  Units: 1.5  Hours: 3-1
Curriculum Planning in Art Education
Study of art education curriculum guides and methods of planning programs for the classroom.

AE 316  Units: 1.5  Hours: 3-1
Art Criticism
The development of skills in the process and practice of criticism. Writing, discussions, and presentations are components of this course as students learn to elicit meaning from contemporary and historical works of art. Instructional applications in various learning environments are provided.

AE 317  Units: 1.5  Hours: 3-1
Art Appreciation
Methods of teaching art appreciation with an emphasis on Canadian art. An investigation of art from the perspectives of aesthetics, art history, and art criticism. Students will prepare educational materials.

AE 319  Units: 1.5  Hours: 3-1
Photography
Basic approaches to photography as an art medium. An exploration of concepts and methods appropriate to elementary and secondary classrooms and other educational settings from simple technologies such as photo programs and pinhole photography to digital cameras and darkroom procedures.

AE 320  Units: 1.5  Hours: 3-1
Art and the Young Child
Study of characteristics and development of early childhood art through teaching and practical work and survey of evaluation methods for effective instruction.

AE 321  Units: 1.5  Hours: 3-1
Art in the Intermediate Grades
The development of a program specifically for students in the intermediate grades; investigating curricula and media relevant and meaningful to this age group.

AE 322  Units: 1.5  Hours: 3-1
Digital Arts
An introductory survey of digital media production focusing on graphics, 2D animation, 3D modelling and animation, audio, video, and website construction. Students will learn to generate media ideas, collect resources, construct and edit concepts using industry-standard software packages. Emphasizes the production and teaching of digital media for creative, educational, and commercial environments. No previous computer experience is required.

AE 401  Units: 1.5  Hours: 3-1
Special Studies
Studies of selected topics in the theory and practice of art education.
Note: May be taken more than once for credit normally to a maximum of 6 units with permission of an adviser in the department of Arts in Education.

AE 402  Units: 1.5  Hours: 3-1
Specific Methodologies, Materials and Techniques in Art Education
402A - Drawing
402B - Painting
402C - Printmaking
402D - Sculpture
402E - Applied Design
402F - Photography
402G - Reasoned Criticism
Prerequisites: 316 or 317.

402H - Ceramics
Prerequisites: 303A or 309.

Note: A student may take up to a maximum of 6 units of the above areas; however, the maximum number of units accepted for credit on the student's degree program will be at the discretion of the department. Letter designations identify discrete areas for advanced study. In the interest of gaining breadth experiences, students taking more than 1.5 units of 402 should not repeat an area.

Prerequisites: Appropriate introductory course for the selected art area.

AE 422  Units: 1.5  Hours: 3-1
Advanced Digital Arts
An advanced exploration of digital media production using graphics, animation, 3D modelling, audio, video, and website construction. Students will choose individual media projects related to areas of interest and construct them using standard media software tools and professional models of project management. Students will also have the opportunity to explore advanced industry-based software programs. Emphasizes advanced digital media theory and practice within creative, educational, and commercial environments.

Note: Credit will be granted for only one of 422, 402J in a degree program.
Prerequisites: 322.

AGEI

Ageing
School of Public Health and Social Policy
Faculty of Human and Social Development

AGEI 470  Units: 1.5
Health and Community Care Systems in Aging
Students explore the concepts of home, dependence and ageing. Historical shifts in values related to the place of elders within communities will be examined alongside implications for the care and support of elders. Emphasis will be given to contemporary challenges for families, communities as well as health and social service agencies as they engage in collaborative work to meet the complex and continuously changing health and social care needs of ageing populations.

AGEI 471  Units: 1.5
Elder Care and Family Care Giving
Family care giving will be explored as an integral aspect of providing necessary and effective care to ageing adults. The trends, issues and needs of family care giving will be examined within the context of available community resources and services, including an examination of the impact of costs and responsibilities associated with family care giving. The ethical, legal and social issues involved in family care giving will be explored.

AGEI 472  Units: 1.5
Healthy Ageing
Adopting a life-course perspective, this course will explore the determinants of good health in old age. Those determinants range from biology to the urban environment, from early childhood experience to the availability of supportive services in the community, from education and health literacy to clinical prevention and self-care. Policies and programs from Canada and around the world that support healthy ageing will be examined.

AGEI 473  Units: 1.5
Chronic Disease and Ageing
Chronic diseases are very prevalent among the elderly, and their management has a major influence on the health, functionality and quality of life of older people. The growing body of evidence and experience in the delivery of high quality, safe, effective care will be examined and the design of systems that encourage and support high quality care will be explored. The role of chronic disease self-management and social support networks will be an important focus.
ANTH

Anthropology

Department of Anthropology

Faculty of Social Sciences

ANTH 100  Units: 1.5  Hours: 3-0  
Formerly: 100A, 100B
Introduction to Anthropology

An introductory survey of the sub-fields of anthropology: biological anthropology, archaeology, cultural and social anthropology, and linguistic anthropology. Topics include the human fossil record, the archaeological record from Paleolithic cultures to urban civilizations, and examination of contemporary human societies, drawn from various levels of complexity.

Note: Credit will be granted for only one of 100, 100A, 100B.

ANTH 200  Units: 1.5  Hours: 2-0-2  
Formerly: 200A, 200B
Cultural and Social Anthropology

Introduction to the analysis of sociocultural systems. Major topics include subsistence, production and distribution, social organization, politics, religion, kinship, symbolic systems, and cultural change from an international perspective.

Note: Credit will be granted for only one of 200, 200A, 200B.

Prerequisites: Second-year standing or permission of the department.

ANTH 240  Units: 1.5  Hours: 2-2
Archaeology

An introduction to archaeological research and problems of interpretation. Laboratories will provide an opportunity to become familiar with archaeological materials and with some basic techniques of analysis.

Prerequisites: Second-year standing or permission of the department.

ANTH 250  Units: 1.5  Hours: 2-2
Physical Anthropology

An introduction to human biological evolution. Topics include the study of non-human primates, investigation of the human fossil record, human skeletal variation, population genetics, growth and development and morphological variation.

Prerequisites: Second-year standing or permission of the department.

ANTH 302  Units: 1.5  Hours: 3-0
Globalization, Health, and the Environment

A comparative framework for understanding the relationship between global processes, the environment, and health. Topics include social and economic inequalities, violence, gender, diet, health policies, technologies, pandemics, climate change, and health care industries. Emphasis on how local experiences of health are linked to global processes via the environment.

Prerequisites: Second-year standing.

ANTH 304  Units: 1.5  Hours: 3-0
Technology and Culture

Critical approaches to the anthropological study of technology. The focus may be on prehistoric or contemporary technology.

Prerequisites: 100 or 200.

ANTH 305  Units: 1.5  Hours: 3-0
Anthropology of the Arts

Critical approaches to the anthropological study of the visual arts of the 19th and 20th centuries using case study examples from a variety of geographical areas.

Prerequisites: 100 or 200.

ANTH 306  Units: 1.5  Hours: 3-0
Folklore in Contemporary Society

Anthropological analysis of oral traditions from a range of societies. The structure and functions of specific types of material. The relation of the study of folklore to other interests in anthropology.

Prerequisites: 100 or 200.

ANTH 307  Units: 1.5  Hours: 3-0
Anthropology of Children and Youth

An examination of current anthropological research on infants, children, and youth, with particular emphasis on young people as social actors and cultural producers.

Note: Credit will be granted for only one of 307, 390A, 393 (if taken in the same topic).

Prerequisites: 200.

ANTH 308  Units: 1.5  Hours: 3-0
Legality and Social Justice in Global Perspective

A cross-cultural analysis of concepts of justice and the construction of legality in a range of societies with varying degrees of complexity. Topics include contemporary initiatives aimed at achieving social justice internationally by drawing on indigenous concepts and structures in the restructuring of legality as it is practiced in industrial and post-industrial societies.

Note: Credit will be granted for only one of 308, 390A, 393 (if taken in the same topic).

Prerequisites: 100 or 200 or permission of the department.

ANTH 309  Units: 1.5  Hours: 3-0
Visual Anthropology

Examination of theoretical and methodological approaches to visual anthropological research. Focus on film, photography and new media.

Note: Credit will be granted for only one of 309, 409, 390 (if taken in the same topic).

Prerequisites: 200.

ANTH 310  Units: 1.5  Hours: 3-0
Anthropological Approaches to Comparative Religion

Consideration of the various approaches to the study of religion and religious behaviour used by anthropologists. Comparative analysis of belief and ritual systems.

Prerequisites: 100 or 200 or 321.

ANTH 311  Units: 1.5  Hours: 3-0
Formerly: 211
Introduction to Applied Anthropology

An introduction to the acquisition of culturally appropriate data for the solution of practical problems arising in the context of social change. Surveys applications of anthropological research to various fields such as agricultural development, population planning, the impact of technological change, education, law, medicine, and heritage resource management.

Note: Credit will be granted for only one of 311, 211.

Prerequisites: 100 or 200.

ANTH 312  Units: 1.5  Hours: 3-0
Formerly: 412
Introduction to Medical Anthropology

An introduction to the main themes and theoretical frameworks in medical anthropology, including applied medical anthropology, cultural construction of illness, and critical medical anthropology. Topics may include the origin and evolution of infectious diseases with human societies, epidemics, pandemics, medicalization, nutrition, public health campaigns, and the comparative study of medical systems.

Note: Credit will be granted for only one of 312, 412.

Prerequisites: 100 or 250 or 200.

ANTH 315  Units: 1.5  Hours: 3-0
Formerly: 416
Living Technologies

Students interact with expert craftspersons to learn about the constraints and possibilities of various media (stone, clay and fibre) as well as the dimensions of choice and cultural significance that define technology styles. Emphasis is placed on material culture's active role in the production of culture and in the making of human life experience.

ANTH 316  Units: 1.5  Hours: 3-0
Formerly: 417
Introduction to Anthropological Research

Designed to introduce students to research methods suitable for anthropological problems. Emphasis is placed on formulation of researchable anthropological propositions, research design, and elementary techniques of data analysis.

Note: Credit will be granted for only one of 316, 416.

Prerequisites: One of 200, 240, 250.

ANTH 317  Units: 1.5  Hours: 3-0
Formerly: 417
Introduction to Quantitative Methods in Anthropological Research

Formal methods of statistical analysis in Anthropology.

Note: Credit will be granted for only one of 317, 417.

Prerequisites: One of 200, 240, 250.

ANTH 318  Units: 1.5  Hours: 3-0
Formerly: 393 (if taken in the same topic)
Introduction to Ethnographic Methods

Review of ethnographic methods used in the field by cultural anthropologists. Topics include the relationship between field methods and theory in anthropology, field experiences and techniques, and qualitative data analysis.

Note: Credit will be granted for only one of 318, 390, 395 (if taken in the same topic).

Prerequisites: 200.

ANTH 323  Units: 1.5  Hours: 3-0
Ethnology of the Circumpolar Region

The peoples and cultures of Arctic and sub-Arctic Eurasia and North America.

Prerequisites: 200 or permission of the department.

ANTH 325  Units: 1.5  Hours: 3-0
Ethnology of South America

Ethnological description and analysis of the peoples and cultures of South America.

Prerequisites: 200 or permission of the department.

ANTH 329  Units: 1.5  Hours: 3-0
Ethnology of Southeast Asia

An integrated description and analysis of the peoples and cultures of Mainland and Island Southeast Asia.

Prerequisites: 200 or permission of the department.

ANTH 330  Units: 1.5  Hours: 3-0
Ethnology of South Asia

Ethnological description and analysis of the peoples and cultures of the Indian subcontinent.

Prerequisites: 200 or permission of the department.
### ANTH 332
**Ethnology of Europe**
Ethnological description and analysis of the peoples of Europe. Topics may include folk cultures, migration, urbanization, industrialization, and the emergence of ethnicity and of nationalist movements.

**Prerequisites:** 200 or permission of the department.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 335
**Ethnology of Europe**
An examination of anthropological perspectives on the cultural construction of ethnicity, race and nationalism as well as the historical processes which influenced the formation of ethnic groups and nations, with illustration from various regions of the world including Canada.

**Note:** Students who took 335 prior to 2006-07 may repeat 335 for credit only with departmental permission.

**Prerequisites:** 200 or permission of the department.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 336
**Contemporary Aboriginal Peoples of Canada**
Introduction to and survey of contemporary social, political, economic and cultural issues in contemporary aboriginal communities in Canada.

**Prerequisites:** 200 or permission of the department.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 337
**Ethnology of Eurasia**
An exploration of the socialist experience and its aftermath in Eurasia. Analysis of the historical and political processes that shape this region, of cultural and social trends in selected countries and an overview of anthropological approaches to Eurasia.

**Note:** Credit will be granted for only one of 337, 391 (if taken in the same topic).

**Prerequisites:** 200 or permission of the department.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 338
**Ethnography of The Indigenous Peoples of British Columbia**
An integrated description and analysis of the cultural history and current issues surrounding aboriginal peoples in British Columbia.

**Note:** Credit will be granted for only one of 338, 390, 390A, and 390B.

**Prerequisites:** 200 or permission of the department.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 340
**Archaeology of British Columbia**
Reviews the archaeological evidence of 14,000 years of First Nations occupation of British Columbia. Emphasizes continuity and change in subsistence, settlement, technology, and the environment from the last Ice Age through the arrival of Europeans.

**Prerequisites:** Second-year standing.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 341
**Paleolithic Archaeology**
A review of the formative phases in the development of prehistoric cultures and societies during the Pleistocene in Africa, Eurasia and Australasia. Archaeological evidence on social and cultural beginnings, ecology, subsistence systems, technology and social life of early human kind.

**Note:** Credit will be granted for only one of 341, 341A.

**Prerequisites:** 240.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 342
**Archaeology of Precolombian America**
A survey of the archaeological record for the development of aboriginal cultures and societies of the New World prior to European colonization, from late Ice Age settlement of North and South America through the appearance of farming villages up to the growth of urban civilizations of middle America and the Andes.

**Prerequisites:** 240.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 343
**Archaeological Field Techniques**
Training in the methods and techniques of archaeology through participation in a field project. Complements the regional topics of 344, with which it will normally be combined to form the archaeological field school.

**Note:** Credit will be granted for only one of 343, 390 (if taken in the same topic).

**Prerequisites:** 240 and permission of the department.

**Units:** 1.5  
**Hours:** 0-3

### ANTH 344
**Regional Topics in Archaeology**
Intensive study of topics in archaeological method and theory relevant to the interpretation of a single site or region. Complements the applied archaeological research of 343, with which it will normally be combined to form the archaeological field school.

**Note:** Credit will be granted for only one of 344, 390 (if taken in the same topic).

**Prerequisites:** 240 and permission of the department.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 346
**Archaeology of Holocene Africa**
Explores the diverse lifeways that have characterized African societies of the last 10,000 years. Topics include the emergence of agriculture, complex societies, and the effects of global connections. Emphasizes how archaeologists approach reconstruction of the African past, and critical evaluation of archaeological interpretation.

**Prerequisites:** 240.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 347
**Stone Age of Africa**
An overview of the Stone Age prehistory of Africa, from the earliest stone tools to the beginnings of agriculture, involving an in-depth examination of a number of important archaeological sites.

**Note:** Credit will be granted for only one of 347, 390, 392 (if taken in the same topic).

**Prerequisites:** 240.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 348
**Peopling of New Territories**
Current reconstructions show humans initially evolved in Africa, and subsequently expanded their range to the extent that, by the time of European voyages of world exploration, people were already almost everywhere. Focuses on the processes by which humans discovered and adapted to previously unsettled lands. Emphasis will be on archaeological data and interpretation via selected case studies, particularly the first people of Australia, the Pacific, and the Americas.

**Note:** Credit will be granted for only one of 348, 390, 392 (if taken in the same topic).

**Prerequisites:** 240.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 349
**Paleolithic Art**
Explores the evidence for the origins and development of cave art, personal adornment and symbol use in the Paleolithic and their role in the evolution of human cognition. Specific topics include the definition of art in an anthropological context, dating and analysis techniques, contemporary examples of rock art, and possible meanings and functions of art and personal adornment during the Paleolithic.

**Note:** Credit will be granted for only one of 349, 390, 392 (if taken in the same topic).

**Prerequisites:** 240.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 350
**Formerly: ANTH 350A**
**Primate Behavioural Ecology**
Fundamentals of primate behavioural ecology, including theoretical approaches, history of the discipline within anthropology, taxonomy, zoogeography, ecology, behaviour, communication, and natural history of non-human primates.

**Note:** Credit will be granted for only one of 350, 350A.

**Prerequisites:** 250 or BIOL 215 and 345.

**Units:** 1.5  
**Hours:** 2-2

### ANTH 351
**Formerly: ANTH 451**
**Human Origins**
Examination of the fossil evidence for human evolution emphasizing the interpretation and reconstruction of the human lineage.

**Note:** Credit will be granted for only one of 351, 351B.

**Prerequisites:** 250.

**Units:** 1.5  
**Hours:** 2-2

### ANTH 352
**Formerly: ANTH 452**
**Human Osteology**
Theoretical and methodological approaches to the study of human skeletal remains.

**Note:** Credit will be granted for only one of 352, 451.

**Prerequisites:** 250.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 355
**AIDS in the World**
Survey and analysis of the biological and social issues arising from the Acquired Immune Deficiency Syndrome pandemic.

**Note:** Credit will be granted for only one of 355, 390 (if taken in the same topic).

**Prerequisites:** 250.

**Units:** 1.5  
**Hours:** 1-2

### ANTH 360
**Zoarchaeology**
An introduction to the study of animal bones from archaeological sites, with a lecture component emphasizing general methodology and case studies from different regions and a laboratory component focusing on the analysis of Northwest Coast fauna.

**Note:** Credit will be granted for only one of 360, 390, 392 (if taken in the same topic).

**Prerequisites:** 240.

**Units:** 1.5  
**Hours:** 3-0

### ANTH 365
**Colonialism and Daily Life**
Comparative analysis of how daily life was transformed through colonial processes in different regional and temporal contexts. Draws on studies in archaeology and historical anthropology from Africa, Europe, and North America to explore processes and consequences of colonial entanglements for both colonizers and the colonized. Emphasizes importance of material culture as an active component of cultural transformations.

**Prerequisites:** Second-year standing.

**Units:** 1.5  
**Hours:** 3-0
ANTH 391  Units: 1.5  Hours: 3-0
Formerly: 390
Selected Problems in Anthropology: Ethnology
Presentation of selected problems in anthropology.
Note: Credit will be granted for only one of 391, 390 (if taken in the same topic). May be repeated under different topics. Topics and prerequisite information will be provided by the departmental office.
Prerequisites: Prerequisites may vary depending upon topic; permission of the department for non-Anthropology Majors.

ANTH 392  Units: 1.5  Hours: 3-0
Formerly: 390
Selected Problems in Anthropology: Archaeology
Presentation of selected problems in archaeology.
Note: Credit will be granted for only one of 392, 390, 390C (if taken in the same topic). May be repeated under different topics. Topics and prerequisite information will be provided by the departmental office.
Prerequisites: Prerequisites may vary depending upon topic; permission of the department for non-Anthropology Majors.

ANTH 393  Units: 1.5  Hours: 3-0
Formerly: 390
Selected Problems in Anthropology: Cultural Anthropology
Presentation of selected problems in anthropology.
Note: Credit will be granted for only one of 393, 390, 390A (if taken in the same topic). May be repeated under different topics. Topics and prerequisite information will be provided by the departmental office.
Prerequisites: Prerequisites may vary depending upon topic; permission of the department for non-Anthropology Majors.

ANTH 394  Units: 1.5  Hours: 3-0
Formerly: 390
Selected Problems in Anthropology: Physical Anthropology
Presentation of selected problems in anthropology.
Note: Credit will be granted for only one of 394, 390, 390B (if taken in the same topic). May be repeated under different topics. Topics and prerequisite information will be provided by the departmental office.
Prerequisites: Prerequisites may vary depending upon topic; permission of the department for non-Anthropology Majors.

ANTH 395  Units: 1.5  Hours: 3-0
Formerly: 390
Selected Problems in Anthropology: Method and Theory
Presentation of selected problems in anthropology.
Note: Credit will be granted for only one of 395, 390, 390A, 390B, 390C, 390D (if taken in the same topic). May be repeated under different topics. Topics and prerequisite information will be provided by the departmental office.
Prerequisites: Prerequisites may vary depending upon topic; permission of the department for non-Anthropology Majors.

ANTH 396  Units: 1.5  Hours: 3-0
Formerly: 390
Selected Problems in Anthropology: Linguistic Anthropology
Note: Credit will be granted for only one of 396, 390, 390D (if taken in the same topic). May be repeated under different topics. Topics and prerequisite information will be provided by the departmental office.
Prerequisites: Prerequisites may vary depending upon topic; permission of the department for non-Anthropology Majors.

ANTH 397  Units: 1.5  Hours: 3-0
The Archaeology of Death
Explores themes and issues in the study of mortuary practices including ethical issues, gender and identity, social organization and structure, and spirituality from the Neolithic to the early 20th century, and in numerous cultures from various parts of the globe.
Note: Credit will be granted for only one of 397, 392, (if taken in the same topic).
Prerequisites: 240

ANTH 398  Units: 1.5  Hours: 3-0
Life and Death in the Viking World
A detailed look at the nature and impact of the Viking expansion in the North Atlantic (including the British Isles, the Faroes, Iceland, Greenland and North America) in the period defined rather broadly from c.800-1300 AD. The social and ecological consequences of migration are explored, drawing on a variety of sources including archaeological data, saga literature, and historical sources.
Note: Credit will be granted for only one of 398, 392, (if taken in the same topic).
Prerequisites: 240

ANTH 400A  Units: 1.5  Hours: 3-0
Formerly: part of 400
History of Anthropological Theory
History and development of the major trends in anthropological theory until the mid-20th century.
Note: Credit will be granted for only one of 400A, 400B.
Prerequisites: Fourth-year standing and a minimum GPA of 4.0 in 200, 240 and 250.

ANTH 400B  Units: 1.5  Hours: 3-0
Formerly: part of 400
Current Trends in Anthropological Theory
Survey of recent developments in anthropological theory.
Note: Credit will be granted for only one of 400B, 400.
Prerequisites: Fourth-year standing and a minimum GPA of 4.0 in 200, 240 and 250.

ANTH 401  Units: 1.5  Hours: 3-0
Also: ES 430
Environmental Anthropology
Investigates key themes at the intersection of anthropology and the environment, including issues like theories of place, nature/culture, local knowledge, globalization, indigeneity, power, and cultural change.
Note: Credit will be granted for only one of 401, ES 430.
Prerequisites: 200; or ES 200 or 300A and one of ES 301 or 321; or permission of the department.

ANTH 402  Units: 1.5  Hours: 3-0
Feminist Theory and Method in Anthropology
The history and development of feminist anthropology; contemporary debates. Emphasis on the contribution of anthropology to feminist theory and of feminist critiques to the development of anthropology.
Note: Credit will be granted for only one of 402, 390 (if taken in the same topic).
Prerequisites: A minimum grade of B+ in 200, or permission of the department.

ANTH 405  Units: 1.5  Hours: 3-0
Economic Anthropology
A comparative analysis of the social context of production, distribution and exchange systems.
Prerequisites: 200.

ANTH 406  Units: 1.5  Hours: 3-0
Political Anthropology
Examination of the theoretical and methodological approaches to power and politics, based on anthropological research.
Prerequisites: 200.

ANTH 409  Units: 1.5  Hours: 3-0
Applied Ethnographic Film
Seminar-based course focused on visual research and production of ethnographic film. Student teams produce original ethnographic videos using the Visual Media Lab digital cameras and computer editing software and equipment.
Prerequisites: 200, 309. Pre- or corequisites: 305.

ANTH 410  Units: 1.5  Hours: 3-0
Advanced Topics in Medical Anthropology
Examination of one or more research themes in medical anthropology.
Prerequisites: 312.

ANTH 433  Units: 1.5  Hours: 3-0
Coast Salish Culture and Contemporary Life
Explores, through ethnographies, how culture is at the heart of debates over land claims, self-government, legal and human rights, and relationships with the environment in contemporary Coast Salish communities.
Note: Credit will be granted for only one of 433, 391, 393 (if taken in the same topic).
Prerequisites: 200 or permission of the department.

ANTH 441  Units: 1.5  Hours: 3-0
Archaeological Method and Theory
The strategy of research in archaeology; archaeology as a subdiscipline and its comparison with related fields. Emphasizes theories of research methodology in archaeology as well as the contribution of archaeology to theories of cultural process.
Prerequisites: 240.

ANTH 449  Units: 1.5  Hours: 3-3
Archaeology of the Northwest Coast
Study of problems of interpreting Northwest Coast archaeological data. Field trips will be scheduled.
Prerequisites: 240.

ANTH 450  Units: 1.5  Hours: 3-0
Advanced Topics in Primate Behavioural Ecology
Seminar-based course focused on in-depth exploration of topics related to primate behavioural ecology such as method and theory in behavioural ecology, feeding ecology, socio-ecology, reproductive ecology. Multi-species comparative approaches will be used.
Note: Credit will be granted for only one of 450, 394 (if taken in the same topic).
Prerequisites: 350 or 350A.

ANTH 452  Units: 1.5  Hours: 3-0
Advanced Topics in Human Osteology
Detailed examination of topics relating to the analysis of human skeletal remains. Topics may include: bioarchaeology, evolutionary anatomy and forensic osteology.
Note: May be repeated under different topics.
COUR
UVIC UNDERGRADUATE CALENDAR 2012-13

Prerequisites: 352

ANTH 453 Units: 1.5 Hours: 3-0 Human Evolutionary Ecology
Theories, data and analyses of the adaptiveness of human behaviour assessed via modern evolutionary theory in ecological context.
Prerequisites: 250.

ANTH 454 Units: 1.5 Hours: 3-0 Method and Theory in Bioarchaeology
A seminar course that discusses, in archaeological contexts, the methodological, theoretical and ethical issues involved in the study of human skeletal remains to reconstruct life histories of past populations and individuals.
Note: Credit will be granted for only one of 454, 452, (if taken in the same topic).
Prerequisites: 352.

ANTH 455 Units: 1.5 Hours: 3-0 Advanced Topics in the Anthropology of HIV/AIDS
Reading in and analysis of specific topics of HIV/AIDS social epidemiology within Canada and internationally including biocultural issues specific to Men Who Have Sex With Men, People Who Use Injection Drugs, Female and Male Sex Workers and their clients, risk compensation, risk perception, treatment optimism, and sexual altruism.
Note: Credit will be granted for only one of 455, 394, (if taken in the same topic).
Prerequisites: 355.

ANTH 491 Units: 1.5 Hours: 3-0 Directed Studies in Anthropology: Ethnology
Individual study of specific research topics in ethnology with close collaboration and consent of the department and individual instructor.
Note: Credit will be granted for only one of 491, 490 (if taken in the same topic). A student may receive credit to a maximum of 3 units of 490-495 courses.
Prerequisites: Only open to Honours or Major students with fourth-year standing, a minimum GPA of 6.5 in upper-level Anthropology courses and a minimum overall cumulative GPA of 5.5.

ANTH 492 Units: 1.5 Hours: 3-0 Directed Studies in Anthropology: Archaeology
Individual study of specific research topics in archaeology with close collaboration and consent of the department and individual instructor.
Note: Credit will be granted for only one of 492, 490 (if taken in the same topic). A student may receive credit to a maximum of 3 units of 490-495 courses.
Prerequisites: Only open to Honours or Major students with fourth-year standing, a minimum GPA of 6.5 in upper-level Anthropology courses and a minimum overall cumulative GPA of 5.5.

ANTH 493 Units: 1.5 Hours: 3-0 Directed Studies in Anthropology: Cultural Anthropology
Individual study of specific research topics in cultural anthropology with close collaboration and consent of the department and individual instructor.
Note: Credit will be granted for only one of 493, 490 (if taken in the same topic). A student may receive credit to a maximum of 3 units of 490-495 courses.
Prerequisites: Only open to Honours or Major students with fourth-year standing, a minimum GPA of 6.5 in upper-level Anthropology courses and a minimum overall cumulative GPA of 5.5.

ANTH 494 Units: 1.5 Hours: 3-0 Directed Studies in Anthropology: Physical Anthropology
Individual study of specific research topics in physical anthropology with close collaboration and consent of the department and individual instructor.
Note: Credit will be granted for only one of 494, 490 (if taken in the same topic). A student may receive credit to a maximum of 3 units of 490-495 courses.
Prerequisites: Only open to Honours or Major students with fourth-year standing, a minimum GPA of 6.5 in upper-level Anthropology courses and a minimum overall cumulative GPA of 5.5.

ANTH 495 Units: 1.5 Hours: 3-0 Directed Studies in Anthropology: Method and Theory
Individual study of specific research topics in method and theory with close collaboration and consent of the department and individual instructor.
Note: Credit will be granted for only one of 495, 490 (if taken in the same topic). A student may receive credit to a maximum of 3 units of 490-495 courses.
Prerequisites: Only open to Honours or Major students with fourth-year standing, a minimum GPA of 6.5 in upper-level Anthropology courses and a minimum overall cumulative GPA of 5.5.

ANTH 499 Units: 1.5 formerly 3.0 Honours Seminar
Integration of current research in physical, social and cultural, linguistic and archaeological anthropology.
Prerequisites: Enrolment in departmental Honours Program and fourth-year standing.

ART
Visual Arts
Department of Visual Arts
Faculty of Fine Arts
Before admission to any 300-level art course, Visual Arts students should have completed a minimum of 12 units of out-of-department electives and their program requirements of 100- and 200-level art courses. Registration in upper-level courses is restricted to students majoring in Visual Arts.

ART 100E Units: 1.5, formerly 3.0 Hours: 0-3 Studio Foundation
The processes and ideas associated with contemporary art. Students will explore a range of studio practices and theoretical issues.
Note: ART (E) courses are offered only through the En’owkin Certificate Program in Indigenous Fine Arts.

ART 101E Units: 1.5 Hours: 0-3 Drawing
An introduction to concerns and methods in contemporary drawing. Students will gain experience in a range of studio practices as well as theoretical issues through projects and critiques.
Note: ART (E) courses are offered only through the En’owkin Certificate Program in Indigenous Fine Arts.
Pre- or corequisites: 100E.

ART 102 Units: 0.5 Hours: 0-1 Introduction to Shop Practices
Designed to provide students with knowledge and appreciation of safe practice in the shop area. Students will each participate in four labs of 3 hours in duration. Items covered will include basic WHMIS training, safe operation of power tools, and hand tools. Attendance at all labs and completion of projects is required.

Note: Transfer students may take this course concurrently with courses above the 100 level, but must complete the course in their first year in the Visual Arts department.

Grading: COM, N, F.

ART 103 Units: 1.5 Hours: 0-3 Foundation Drawing and Painting
One of the four courses forming the foundation year for studies in Visual Arts, this course is divided into two modules. The drawing module introduces the methods, materials and concerns in contemporary drawing through studio exercises and projects. The painting module introduces contemporary painting through studio projects exploring fundamental elements, materials and concepts.
Note: Priority is given to students registered in the BFA program in Visual Arts. Normally class size is limited.

ART 104 Units: 1.5 Hours: 0-3 Foundation Sculpture and Material Methods
One of the four courses forming the foundation year for studies in Visual Arts, this course focuses on the processes and ideas associated with material technologies in the visual arts and with the practices of contemporary sculpture. Students will explore a range of workshop and studio practices and theoretical issues.
Note: Priority is given to students registered in the BFA program in Visual Arts. Normally class size is limited.

ART 105 Units: 1.5 Hours: 0-3 Foundation Photography and Video Art
One of the four courses forming the foundation year for studies in Visual Arts, this course focuses on the processes and ideas associated with the practices of contemporary photography and video art. Students will explore a range of studio practices and theoretical issues.
Note: Priority is given to students registered in the BFA program in Visual Arts. Normally class size is limited.
Pre- or corequisites: 106.

ART 106 Units: 1.5 Hours: 0-3 Foundation Core Media Technologies and Arts
One of four courses forming the foundation year for studies in Visual Arts, this course focuses on the core digital technologies applicable to the visual arts.
Note: Priority is given to students registered in the BFA program in Visual Arts. Normally class size is limited.

ART 130E Units: 1.5 Hours: 0-3 Printmaking
An introductory course in printmaking techniques which will prepare the student for more advanced printmaking courses.
Note: ART (E) courses are offered only through the En’owkin Certificate Program in Indigenous Fine Arts.
Pre- or corequisites: 100E, 101E.

ART 141 Units: 1.5 Hours: 3-0 An Introduction to Contemporary Art Photography
An introductory lecture and practical course focusing on the ideas associated with contemporary art photography. Through lectures which will introduce students to various practices of contemporary photographers and photography assignments, students will gain insight into photography as an art practice within the field of contemporary art.
Note: Open for non-visual art students and available as an elective for Visual Arts students.
ART 150  Units: 1.5  Hours: 3-0  
Introduction to Contemporary Art Theory: Practice and Criticism  
A lecture course introducing the terms and concepts necessary for an understanding of contemporary art.  
Note: Normally class size is limited.

ART 151  Units: 1.5  Hours: 3-0  
An Introduction to Contemporary Visual Art  
A lecture course open to all students. Introduces some of the pertinent subjects and issues within contemporary art today. Uses examples of contemporary art and provides a critical context in which to approach current art practices.  
Note: Recommended for all Visual Arts students.

ART 201  Units: 1.5  Hours: 0-3  
Formerly: 101  
Drawing  
An introduction to concerns and methods in contemporary drawing. Students will gain experience in a range of studio practices as well as theoretical issues through projects and critiques.  
Note: Credit will be granted for only one of 201, 101. Normally class size is limited.  
Prerequisites: 100 or 103.

ART 202  Units: 1.5  Hours: 0-3  
Formerly: 200  
Drawing  
A continuation of 201. Students will move towards a more independent way of working.  
Note: Credit will be granted for only one of 202, 200. Normally class size is limited.  
Prerequisites: 101 or 201.

ART 211  Units: 1.5  Hours: 0-3  
Formerly: 110  
Painting  
A studio introduction to painting and related areas.  
Note: Credit will be granted for only one of 211, 110. Normally class size is limited.  
Prerequisites: 101 or 201.

ART 212  Units: 1.5  Hours: 0-3  
Formerly: 210  
Painting  
An extension of 211.  
Note: Credit will be granted for only one of 212, 210. Normally class size is limited.  
Prerequisites: 110 or 211.

ART 221  Units: 1.5  Hours: 0-3  
Formerly: 120  
Sculpture  
An introduction to concerns and methods in contemporary sculpture. Students will experience a broad range of studio practices as well as explore theoretical issues. Short projects and critiques are the standard format for this class.  
Note: Credit will be granted for only one of 221, 120. Normally class size is limited.  
Prerequisites: 100 or 103.

ART 222  Units: 1.5  Hours: 0-3  
Formerly: 220  
Sculpture  
A continuation of 221; students will continue to develop their study of contemporary sculptural practices, with an increasing focus on their ability to undertake independent work.  
Note: Credit will be granted for only one of 222, 220. Normally class size is limited.  
Prerequisites: 120 or 221.

ART 241  Units: 1.5  Hours: 0-3  
Formerly: 140  
Photography  
An introduction to analog black and white photography. Students will learn basic camera techniques and darkroom procedures as well as being given projects that explore contemporary issues in art photography.  
Notes: - Students must supply their own SLR manual camera with a 50 mm lens. Digital cameras are not accepted for this course.  
- Credit will be granted for only one of 241, 140. Normally class size is limited.  
Prerequisites: 100 or 105.

ART 242  Units: 1.5  Hours: 0-3  
Formerly: 240  
Photography  
A continuation of 241, including both practical and theoretical aspects of digital and film-based contemporary art photography.  
Notes: - Students must supply their own digital or analogue camera.  
- Credit will be granted for only one of 242, 240. Normally class size is limited.  
Prerequisites: 140 or 241.

ART 250  Units: 1.5  Hours: 3-0  
Modernism and Postmodernism  
A lecture course that will survey some conditions that distinguish modernism from postmodernism and consider pertinent theoretical positions.

ART 261  Units: 1.5  Hours: 0-3  
Formerly: 160  
Digital Media Arts  
An introduction to concerns and methods in the contemporary practice of digital media in a computer lab environment including web development, audio and computer assisted design.  
Note: Credit will be granted for only one of 261, 160. Normally class size is limited.  
Prerequisites: 100 or 106.

ART 262  Units: 1.5  Hours: 0-3  
Formerly: 260  
Digital Media Arts  
An extension of 261. Exploration of digital arts will be extended to animation, artist book design and 2 and 3D rendering. Computer programs relevant to the above will be introduced.  
Note: Credit will be granted for only one of 262, 260. Normally class size is limited.  
Prerequisites: 160 or 261.

ART 271  Units: 1.5  Hours: 0-3  
Formerly: 170  
Video Art  
An introduction to the basic technical and aesthetic concepts in video production. The film and video works of contemporary artists will be explored.  
Note: Credit will be granted for only one of 271, 170. Normally class size is limited.  
Prerequisites: 100 or 105.

ART 272  Units: 1.5  Hours: 0-3  
Formerly: 270  
Video Art  
A continuation of 271; alternative imaging concepts, projection systems, computer displays and installation techniques will be discussed. Video will be dealt with as an extension of a contemporary art practice.  
Note: Credit will be granted for only one of 272, 270. Normally class size is limited.
ART 351 Units: 1.5 or 3.0 Hours: 0-3
Special Studies
The study of a specialized topic or area and its relationship to practice.
Note: May be taken more than once for credit in different topics. Class size is limited.
Prerequisites: Minimum of 12 units in 100- and 200-level courses, or permission of the department.

ART 360 Units: 3.0 Hours: 0-3
Digital Media Installation
A special topics advanced course in digitally-based art practice.
Notes: - Concurrent registration in two sections of 360 is permitted, normally with two different instructors.
- May be taken more than once for credit in different topics with permission of the department to a maximum of 9 units.
- Normally class size is limited.
Prerequisites: 150, (260 or 262).

ART 370 Units: 3.0 Hours: 0-3
Digital Video Art
An advanced course in digital video art. Relevant computer programs to capture and manipulate video will be used.
Notes: - Concurrent registration in two sections of 370 is permitted, normally with two different instructors.
- May be repeated up to 9 units of credit.
- Normally class size is limited.
Prerequisites: 150, (270 or 272).

ART 380 Units: 1.5, formerly 3 Hours: 0-3
Curatorial Direction
Using the resources of the Visual Arts Department, students will learn to develop ideas around the exhibition of works of art. This may include organizing thematic group shows, solo exhibitions, promotion, cataloguing, presentation and fund-raising.
Notes: - May be taken more than once for credit to a maximum of 3 units.
- Normally class size is limited.
Prerequisites: 150 and 9 units of 200 level Visual Art.

ART 390 Units: 1.5 to 4.5
Directed Studies in Visual Arts
This course will be developed in consultation with the instructor and the Chair of the department.
Note: May be taken more than once in different topics to a maximum credit of 9 units.
Prerequisites: Third-year standing and permission of the department.

ART 395 Units: 6.0 Hours: 1.5 - 4.5
Visual Structures in the Imaginative Realm I
Enhanced education for the creation of objects and images within a studio-centred context. Sculpture, painting and installation form core areas for creative research within a broad experimental approach. Cross-disciplinary knowledge and the relationship of studio production to the built environment will guide students towards working independently. Team taught by faculty from Visual Arts and other disciplines; includes seminar component.
Prerequisites: 9 units of 200-level Visual Art courses.

ART 406 Units: 9.0 Hours: 1.5-7.5
Studies in Drawing, Photo, Media and Interdisciplinary Practices II
Advanced application of conceptual, technical and creative skills in the independent research and production of self directed projects in the areas of drawing, photo, digital media and interdisciplinary practices. Understanding that academic explorations are linked with art practice, students will explore the contextualization of their work in relation to significant areas of contemporary thought. Team taught by faculty from Visual Arts and other disciplines; includes seminar component.
Note: 395 recommended.
Prerequisites: 9 units of 300-level Visual Arts courses.

American Sign Language
Department of Linguistics
Faculty of Humanities

ASL 100A Units: 1.5 Hours: 2-2
American Sign Language I
Introduction to language used by the Deaf community in North America; no prior knowledge required. Covers essentials of grammar, basic vocabulary and fundamental structures for everyday interaction; provides insight into the Deaf community and Deaf culture.

ASL 100B Units: 1.5 Hours: 2-2
American Sign Language II
Emphasis on increasing vocabulary, skills applying grammatical features, facial expression and receptive and expressive signing.
Prerequisites: 100A or permission of the department.

ASL 200A Units: 1.5 Hours: 2-2
American Sign Language III
Essentials of fundamental structures for everyday interaction. Develops appropriate grammatical features and facial grammar including non-manual signals in addition to receptive and expressive signing skills. Presents insight into the Deaf community and Deaf culture.
Prerequisites: 100B or permission of the department.

ASL 200B Units: 1.5 Hours: 2-2
American Sign Language IV
Develops vocabulary and appropriate signing registers as well as skills for role-shifting and point of view when narrating in sign language, including the use of three-dimensional space and placement. Builds knowledge and understanding of Deaf culture.
Astronomy

Department of Physics and Astronomy
Faculty of Science

Courses offered by the Department of Physics and Astronomy are also found under the following course code: PHYS (Physics).

ASTR 101 Units: 1.5  Hours: 3-3
Formerly: part of ASTR 120
Exploring the Night Sky
A general course designed for non-science students. A tour of the solar system: the nature and origins of planets and moons, comets, asteroids, and the sun. Discoveries of recent space exploration and the history of our changing views of our place in the universe. Eclipses, seasons, climatic cycles, dangers posed by meteorite impacts. The possibility of extraterrestrial life. Practical work includes observations with campus telescopes.

Note: Credit will be granted for only one of 101, 120.

ASTR 102 Units: 1.5  Hours: 3-3
Formerly: part of ASTR 120
Exploring the Cosmos
A general course designed for non-science students. An exploration of how astronomical observations guide and challenge our understanding of the fundamental laws of nature. Cosmology, and the elusive dark matter and dark energy that determine the universe's fate. Stars, galaxies, and relics left over by the Big Bang. Black holes and relativity; supernovae and neutron stars. Practical work includes observations with campus telescopes.

Note: Credit will be granted for only one of 102, 120.

ASTR 103 Units: 1.5  Hours: 3-3
Concepts in Modern Astronomy
Introduces some of the great ideas and concepts in modern astronomy, as well as the basic physical principles required to understand these concepts. Topics include: properties of the solar system, extrasolar planets, galaxies, expanding universe, big bang, origin of the elements, dark matter, dark energy, black holes, neutron stars.

Note: Credit will be granted for only one of 150, 200A.
Pre- or corequisites: One of PHYS 112, 120, or 122; MATH 100; or permission of the department.

ASTR 201 Units: 1.5  Hours: 3-3
The Search for Life in the Universe
A general science course designed to be accessible to students not majoring in science. An overview of modern scientific thought on the possibility of life beyond Earth and the current research being done to find it: the likeliest locations of life in our Solar System; the hunt for planets around other stars; the search for extraterrestrial intelligence (SETI). Laboratories on alternate weeks; practical work includes observations with campus telescopes.

Prequisites: Second-year standing.

ASTR 250 Units: 1.5  Hours: 3-3
Introduction to Astrophysics
Provides the physical foundation and introduction of astronomical terminology that is used in subsequent courses. Topics include: astronomical coordinate systems, telescopes, stellar distances and magnitudes, binary stars, spectral classification, stellar evolution, variable stars, stellar motions, star clusters, interstellar medium, structure and rotation of the galaxy, external galaxies.

Note: Credit will be granted for only one of 250, 200B. 150 is recommended prior to 250.
Prequisites: One of PHYS 112, 120 or 122; MATH 100 and 101; or permission of the department.

ASTR 255 Units: 1.5  Hours: 3-0
Introduction to Planetary Science
An overview of the study of planetary systems. The main focus is on our Solar System, but the course includes the study of planets outside the Solar System. Topics covered include: basic planet formation, planetary orbits, measurements of the properties of planets, study of extrasolar planets, the Earth-Moon system.

Note: Credit will be granted for only one of 255, 304.
Pre- or corequisites: 200B or 250, PHYS 215 and 216.

ASTR 303 Units: 1.5  Hours: 3-0
Introductory Extragalactic Astronomy
Kinematics and morphology of spiral (including the Milky Way), elliptical and irregular galaxies. Introduction to current theory for the formation and evolution of galaxies and the large-scale structure. Observations of active galactic nuclei, jets and quasi-stellar objects.

Prequisites: 200B or 250; PHYS 215, 216; PHYS 217 or 317; or permission of the department.

ASTR 329 Units: 1.5  Hours: 0-6
Formerly: 429A
Introduction to Observational Astronomy
Introduction to observational and data analysis techniques in Astronomy. Observational and practical work, directed reading.

Note: Credit will be granted for only one of 329, 429A.
Prequisites: 250.

ASTR 400 Units: 1.5  Hours: 3-0
Radio Astronomy
The detection of cosmic radio waves; mechanisms for production of radio noise; the sources of radio waves; the contribution of radio astronomy to our knowledge of the universe.

Prequisites: 200B or 250; PHYS 215 and 216.
PHYS 325 is recommended.
Pre- or corequisites: MATH 326.

ASTR 402 Units: 1.5  Hours: 3-0
Introduction to Galaxies and Galactic Dynamics
Overview of the Milky Way, galaxy morphology, galaxy evolution, morphology-density relation, scaling relations, galactic dynamics, gravitational potential theory applied to galaxies, and stellar orbits in galaxies, active galaxies, gravitational lensing.

Prequisites: 200B or 250; 303.
Pre- or corequisites: MATH 326 or 346; ASTR 303 is strongly recommended.

ASTR 403 Units: 1.5  Hours: 3-0
Introduction to Astrophysical Processes
Topics may include: fundamentals of radiative transfer; radiation processes (e.g., bremsstrahlung, synchrotron radiation, Compton scattering), atomic and molecular spectra; the basics of plasma physics, gas dynamics (e.g., shocks, accretion flows and winds), collisional processes (ionization, excitation); photionization; line transfer effects (e.g., fluorescence, charge exchange).

Note: ASTR 303 is strongly recommended.
Prequisites: 200B or 250; PHYS 217 or 317, 323, 326.
Pre- or corequisites: MATH 326 or 346

ASTR 490 Units: 1.0-3.0
Directed Studies
Note: Students must obtain permission of the department before registering.

Biochemistry and Microbiology

Department of Biochemistry and Microbiology
Faculty of Science

BCMB 301A Units: 1.5  Hours: 0-6
Formerly: part of BIOC 301, MICR 301
Intermediate Laboratory I
An intermediate course in biochemical, microbiological and molecular biological laboratory techniques.

Note: Credit will be granted for only one of 301A, BIOC 301. Limited enrolment. Open to Biochemistry and Microbiology majors only, or by permission of the department.

Prequisites: MICR 200A and 200B, or 200.
Pre- or corequisites: One of BIOC 300A, 300B, 300C; or permission of the department.

BCMB 301B Units: 1.5  Hours: 0-6
Formerly: part of BIOC 301, MICR 302
Intermediate Laboratory II
An intermediate course in biochemical, microbiological and molecular biological laboratory techniques.

Note: Credit will be granted for only one of 301B, BIOC 301.

Prequisites: 301A.
Pre- or corequisites: One of BIOC 300A, 300B, 300C; or permission of the department.
COUR

BCMB 406A Units: 1.5 Hours: 0-7
Formerly: part of BCMB 406, MICR 406
Advanced Laboratory I
An advanced course in biochemical, microbiological and molecular biological laboratory techniques.
Note: Credit will be granted for only one of 406A, BCMB 406, MICR 406. Limited enrolment. Open to Biochemistry and Microbiology majors only, or by permission of the department.
Prerequisites: 301A and 301B, or BCMB 301 and MICR 301, 302; or permission of the department.

BCMB 406B Units: 1.5 Hours: 0-7
Formerly: part of BCMB 406, MICR 406
Advanced Laboratory II
An advanced course in biochemical, microbiological and molecular biological laboratory techniques.
Note: Credit will be granted for only one of 406B, BCMB 406, MICR 406. Limited enrolment. Open to Biochemistry and Microbiology majors only, or by permission of the department.
Prerequisites: 301A and 301B, or BCMB 301 and MICR 301, 302; or permission of the department.

BCMB 489 Units: 1.5 Hours: 3-0
Special Topics in Biochemistry or Microbiology
Occasional offerings dealing with a specific aspect of biochemistry or microbiology.
Note: Normally only available to students with fourth-year standing in a BCMB/MICR program. May be taken more than once in different topics to a maximum credit of 3 units.

BCMB 499A Units: 1.5 Hours: 1-0
Formerly: BCMB 499A or MICR 499A, part of BCMB 499 or MICR 499
Undergraduate Thesis I
The first stage of a research project conducted under the direction of a faculty member. Open to Honours students only.
Notes: - Credit will be granted for only one of 499A and 499B, BCMB 499A and 499B, BCMB 499, MICR 499A and 499B, MICR 499.
- 499A and 499B are "tied" courses and must be taken in consecutive terms except with permission of the department.
- Credit for 499A will be assigned only upon successful completion of 499B.
- Students are required to attend departmental seminars.
Prerequisites: Permission of the department.
Grading: INP; letter grade (assigned upon completion of 499B; if 499B is not completed, a grade of N will be assigned to 499A).

BCMB 499B Units: 1.5 Hours: 1-0
Formerly: BCMB 499B or MICR 499B, part of BCMB 499 or MICR 499
Undergraduate Thesis II
Continuation of a research project conducted under the direction of a faculty member. Open to Honours students only.
Notes: - Credit will be granted for only one of 499A and 499B, BCMB 499A and 499B, BCMB 499, MICR 499A and 499B, MICR 499.
- 499A and 499B are "tied" courses and must be taken in consecutive terms except with permission of the department.
- Credit for 499A will be assigned only upon successful completion of both courses.
- Students are required to attend departmental seminars.
Prerequisites: 499A.

BIOC 102 Units: 1.5 Hours: 3-0
Biochemistry and Human Health
An introduction to current issues related to human health and disease and approaches taken by biomedical scientists in response to them. Cancer, autoimmune diseases, and coronary heart disease; the concept of risk factors; infectious diseases, e.g., AIDS, dysentery, tuberculosis, and parasitic infections; human nutrition, food safety and preservation, and their relation to health and world food shortages. Strategies for disease treatment, e.g., animal cloning, gene therapy, genetic engineering, vaccination, and the development of new pharmaceuticals such as human hormones; controversies associated with each strategy.
Note: Not open for credit to students registered in BIOC 300A or 300B, or with credit in a third-year BIOC or BIOL course.

BIOC 299 Units: 1.5 Hours: 3-0
Biochemistry for Non-Majors
An introduction to the concepts of biochemistry intended for students not majoring in biochemistry or microbiology. Properties of bio-molecules, basic enzymology and metabolism. Bioenergetics, nucleic acid structure and synthesis. Protein synthesis. Structure and properties of membranes.
Note: Not open for credit to students registered in, or with credit in any third-year BIOC course. Credit will be granted for only one of BIOC 299, 200. Students without a background in cell biology may find they are required to do additional reading to fully understand some aspects of this course.
Prerequisites: CHEM 231.

BIOC 300A Units: 1.5 Hours: 3-0
Formerly: part of 300
General Biochemistry I
BIOC 300A and 300B are intended to provide detailed coverage of foundation topics for students majoring in biochemistry or microbiology and must be taken sequentially. Protein structure and function, enzymes and enzyme kinetics, carbohydrates, lipids, biological membranes and bioenergetics.
Note: Credit will be granted for only one of 300A, 300.
Prerequisites: BIOL 225, CHEM 231; and CHEM 232 or 235. CHEM 213 is recommended. At least a C+ standing in prerequisites is recommended.

BIOC 300B Units: 1.5 Hours: 3-0
Formerly: part of 300
General Biochemistry II
BIOC 300A and 300B are intended to provide detailed coverage of foundation topics for students majoring in biochemistry or microbiology. Metabolic processes and their control, as well as structure and function of DNA, RNA, and genes.
Note: Credit will be granted for only one of 300B, 300.
Prerequisites: 300A, BIOL 225, CHEM 231; and CHEM 232 or 235. CHEM 213 is recommended. At least a C+ standing in prerequisites is recommended.

BIOC 401 Units: 1.5 Hours: 3-0
Gene Expression in Eukaryotes
An advanced study of gene expression in eukaryotes. Topics will include gene structure, transcription systems, post-transcriptional processing, and regulation of transcription, post-transcription, and translation.

BIOC 403 Units: 1.5 Hours: 3-0
Biochemistry of Signal Transduction
The biochemical basis of the transmission of molecular signals from a cell’s exterior to its interior to bring about changes in cellular behavior and gene expression. Topics will include membrane lipids, signal protein modularity and cell migration.
Prerequisites: 300A and 300B, or 300; CHEM 213; or permission of the department.

BIOC 404 Units: 1.5 Hours: 3-0
Proteins
Detailed examination of protein structure and function emphasizing techniques for the determination of protein structure and the study of protein interactions in binding and catalysis. Consists of formal lectures in addition to required readings.
Prerequisites: 300A and 300B, or 300; CHEM 213; or permission of the department.

BIOC 407 Units: 1.5 Hours: 3-0
Plant Molecular Biology and Biochemistry
An advanced study of the molecular biology and biochemistry of higher plants with specific examples. Topics will include: seed biochemistry and embryogenesis, si RNA, chromatin remodelling, structure and function of hormone receptors and photoreceptors, cell signalling pathways during development and abiotic stress, plant-microbe interactions, innate immune responses and defense signalling, applied biochemistry.
Prerequisites: 300A and 300B, or 300; permission of the department.

BIOC 408 Units: 1.5 Hours: 3-0
Epigenetic Regulation of Chromatin
An advanced study of chemical modifications of the chromatin fibre. Topics will include chromatin organization, histone post-translational modifications, histone variants, and DNA methylation. A special emphasis on epigenetics in gene regulation and nuclear metabolism with a discussion of current literature highlighting the role of epigenetics in human disease.
Prerequisites: 300A and 300B, or 300; CHEM 213; or permission of the department.

BIOC 470 Units: 1.5
Directed Studies in Biochemistry
Normally only available to students with a minimum cumulative GPA of 5.00 and fourth-year standing in a Biochemistry/Microbiology program.
Note: May be taken more than once in different topic areas to a maximum of 3 units.

BIOL

Biology
Department of Biology
Faculty of Science
Courses offered by the Department of Biology are also found under the following course code: MRNE (Marine Science).

BIOL 150A Units: 1.5 Hours: 3-0
Modern Biology
An introduction to biological science, emphasizing the diversity of living organisms and the evolutionary and ecological principles underlying this diversity. Topics include the history of life on earth, mechanisms of evolution, and the ecology of populations, communities and ecosystems (including human ecology).
BIOL 150B Units: 1.5 Hours: 3-0
Modern Biology
An introduction to biological science, emphasizing cellular and physiological processes. Topics include principles of genetics, cell biology, plant physiology and animal physiology.

Note: Not open to students with credit in 150A, 190A, 190B. 150A and 150B may be taken in any order.
BIOL 150B cannot be taken concurrently with BIOL 190A or 190B. Major and Honours students, see "Notes on Course Requirements".

BIOL 190A Units: 1.5 Hours: 3-3
General Biology I
The first of two courses introducing the biological sciences. Biological chemistry, cellular diversity, membrane structure and function, energy transduction, DNA replication, mitosis and the cell cycle, meiosis and sexual life cycles, Mendelian genetics, gene expression, evolutionary theory, and diversity of prokaryotes, protists, plants, and fungi.

Note: Credit will be granted for only one of 190A, 210. Pre-requisites: Biology 12, or Biology 11 and 150B, or 150A and B; Chemistry 11 or 12 strongly recommended.

BIOL 190B Units: 1.5 Hours: 3-3
General Biology II
The second of two courses introducing the biological sciences. Structure, growth, nutrition, and development of plants; animal diversity; principles of animal physiology including homeostatic mechanisms, circulation, gas exchange, osmoregulation, thermoregulation, defense systems, chemical signalling, reproduction, and development.

Note: Credit will be granted for only one of 190B, 220. Pre-requisites: 190A or 210.

BIOL 215 Units: 1.5 Hours: 3-3
Principles of Ecology
An introduction to factors controlling the distribution and abundance of plants and animals. Physical environments of organisms; biotic environments and interactions among species; factors influencing population growth; behavioural ecology; community ecology; succession; trophic levels and energy flow, island biogeography; biodiversity; human impact on global ecology; conservation ecology.

Note: Credit will be granted for only one of 215, 306. Pre-requisites: 190A or 210; 190B or 220; or equivalent.

BIOL 225 Units: 1.5 Hours: 3-3
Principles of Cell Biology
An introduction to cellular, subcellular, and molecular structure/function relationships in eukaryotic cells. Membrane structure and dynamics, membrane transport, protein sorting, vesicular transport, endocytic pathways, extracellular matrices, interactions with the cellular and acellular environments, endomembrane system, cytoskeleton and motility, cellular reproduction, mechanisms of cell signalling, techniques in cell biology.

Note: Credit will be granted for only one of 225, 200. Pre-requisites: 190A or 210 or equivalent. Pre- or corequisites: 190B or 220 or MICR 200 or 200A or equivalent.

BIOL 230 Units: 1.5 Hours: 3-3
Principles of Genetics
Introduction to principles of inheritance. Classical genetic theory; meiosis, mitosis, recombination, population genetics and evolution, genotype, phenotype, random assortment, dominance, DNA structure, function, replication and molecular basis of inheritance. RNA and protein synthesis, regulation of transcription and gene organization. Introduction to DNA technologies.

Note: Credit will be granted for only one of 230, 300. Pre-requisites: 225. Pre- or corequisites: CHEM 231; BIOC 299 recommended.

BIOL 248 Units: 1.5 Hours: 3-0-1
Topics in Organismal Biology
Special topics demonstrating how the functioning of whole organisms can be understood by integrating multiple levels of biological organization. Tutorials will incorporate group work and discussion of selected problems.

Note: Not open to students with third- or fourth-year standing. Pre-requisites: A minimum grade of C+ in 190A; 190B or MICR 200A.

BIOL 307 Units: 1.5 Hours: 3-3
Chordate Zoology
Chordates: evolutionary history and adaptations. Major taxonomic groups, with emphasis on derived and defining characteristics; locomotion, feeding, sensory systems and reproduction. Laboratory exercises include observations of prepared specimens, dissections, written assignments and oral presentations.

Note: Credit will be granted for only one of 307, 207. Pre-requisites: 190A, 190B.

BIOL 309 Units: 1.5 Hours: 3-3
Developmental Biology
The development processes of animals, emphasizing the principles and major mechanisms regulating morphogenesis and cellular differentiation. Laboratories will introduce students to observations and manipulations of embryos of a range of organisms.

Pre-requisites: 360.

BIOL 311 Units: 1.5 Hours: 3-3
Also: EOS 311
Formerly: 311B
Biological Oceanography
An introduction to the ways in which physical, chemical and biological processes interact to regulate structure and productivity of marine ecosystems. Lectures will focus primarily on planktonic ecosystems. Participation in a one-day oceanographic cruise is required (except in summer term).

Note: - Credit will be granted for only one of 311, 311B, EOS 311. - BIOL 215 and EOS 110 recommended. Pre-requisites: MATH 100 or 102; PHYS 102 or 112; CHEM 101, 102.

BIOL 312 Units: 1.5 Hours: 3-3
Entomology
The study of insects, focusing on phylogenetics, ecology and evolution. Topics include: medical entomology, plant-insect interactions, and social insects. The lab focuses on insect identification and collection techniques.

Pre-requisites: 190B, 215.
Biol 329 units: 1.5 hours: 3-3 Biology of the Vertebrates of British Columbia Factors that influence the organization, distribution, and diversity of vertebrates in BC. Topics include: natural history, systematics, sample design, biodiversity, and conservation initiatives. Course goals are to appreciate the diversity of vertebrates and understand life histories and species-at-risk issues. The lab will focus on identification of over 400 species of vertebrates by using calls, digital images, and study skins. Optional field trips. Attendance at the Annual Vertebrate Symposium is mandatory. Prerequisites: 215; third-year standing.

Biol 330 units: 1.5 hours: 3-3 Study Design and Data Analysis An introduction to the statistical analysis of biological data, experimental design, and sampling design. Laboratories emphasize computer-based analysis of selected data sets and report writing, as well as a major project. Note: Credit will be granted for only one of 330, ES 310, 344. Prerequisites: STAT 255; third-year standing. STAT 256 recommended. Pre- or corequisites: 215.

Biol 334 units: 1.5 hours: 3-0 Plants and People Plants as sources of food, fibre, drugs, and industrial raw materials from historical and contemporary perspectives. Aspects of plant growth, development, physiology, genetics and pathology, particularly as they relate to the economic uses of plants. Note: Credit for this course will not be counted toward degree programs in Biology, but Biology students may take this course as an elective. Prerequisites: Third-year standing.

Biol 335 units: 1.5 hours: 3-3 Ichthyology The evolution and diversity of fishes. Emphasis on form and function, ecology, behaviour, sensory modes, fishery management, global crises in fisheries, and marine protected areas. Laboratories include identification of major groups of fishes, methodology and experimental approaches to the study of fishes. Note: Credit will be granted for only one of 335, 431A, MRNE 412 if taken before 201105. Prerequisites: 215 and third-year standing; 307 recommended.

Biol 345 units: 1.5 hours: 3-3 Animal Behaviour Evolutionary and comparative analyses of behaviour. Topics include taxonomic diversity of nervous systems, proximate and ultimate mechanisms, nature/nurture controversies, communication and sensory modes, foraging behaviours, mate choice, sociality, and warfare. Laboratory includes observational and experimental approaches to behaviour of representative invertebrate and vertebrate taxa. Note: Students with credit in MRNE 446 may take this course for credit. Prerequisites: 190A or 210; 190B or 220; 215 or declared program in ANTH or combined BIOL/PSYC; third-year standing.

Biol 355 units: 1.5 hours: 3-0 Formerly: 455 Evolution Evolutionary processes and the spatial and temporal patterns they produce. Natural selection and other microevolutionary processes; the basis of morphological and molecular change; species and speciation, macroevolution; phylogeny reconstruction; the origin of life. Note: Credit will be granted for only one of 355, 455.

Biol 360 units: 1.5 hours: 3-0 Cell Biology Structure and function of animal and plant cells and tissues, membrane structure, transport, cellular compartments, cytoskeleton, cell growth and division, cell adhesion, extracellular matrix, tissue organization and renewal. Prerequisites: 220; BIOC 200 or 299 or pre or corequisite 300A or 300B.

Biol 361 units: 1.5 hours: 3-0 Molecular Genetics and Genomics Naturally occurring and induced genetic mutations leading to phenotypic variation within and among species in a diversity of eukaryotic taxa. Regulation of transcription and translation (including small regulatory RNAs), protein-protein interactions, molecular mechanisms of tumor formation, genome structure and mobile genetic elements, and functional genomics. Prerequisites: 230; one of BIOC 200, 299, 300A, 300B (300A or 300B may be taken as corequisites).

Biol 362 units: 1.5 hours: 1-3 Techniques in Molecular Biology An introduction to basic techniques in molecular biology. Nucleic acid (DNA and RNA) extractions; RT-PCR; molecular cloning; gel electrophoresis; radio-labeling and non-isotopic labeling of DNA probes; Northern Blots, Southern Blots and Western Blots; computer based analyses of nucleotide sequence data. Students will undertake laboratory safety assignments on WHMIS, BioSafety and Radiation Safety. Prerequisites: 230.

Biol 365 units: 1.5 hours: 3-3 Animal Physiology Fundamentals of animal physiological systems: principles of cellular and organismic homeostasis, nutrition, digestion, salt/water balance, respiration, circulation, muscle contraction, excitable membranes, sensory systems, brain functions, hormones, reproduction. Laboratory includes study of live animals. Note: Credit will be granted for only one of 365, 305A, 305B. Prerequisites: 190B or 220; 225; BIOC 200 or 299 or 300A or 300B; third-year standing.

Biol 366 units: 1.5 hours: 3-3 Plant Physiology Principles of plant physiology: photosynthesis, water relations, ion uptake, translocation, carbohydrates, nitrogen and lipid metabolism, phenolics, phytohormones, tropisms, phytochromes. Note: Credit will be granted for only one of 366, 331A, 331B.

Biol 367 units: 1.5 hours: 3-0 Formerly: 409A Neurobiology: Molecules to Behaviour Cellular and molecular biology of excitable cells and mechanisms of intercellular communication. Evolution and functional organization of central nervous systems. Motor systems and mechanisms of coordination. Sensory biology. Interactions of genes, development, and experience in molding nervous systems and behaviour. Note: Credit will be granted for only one of 367, 409A.

Biol 370 units: 1.5 hours: 3-0 Conservation Biology Also: ES 320 Diversity of organisms, functioning of ecosystems, and the impact of human activities on these. Topics include the nature of biological diversity; extinction and its cause; habitat alteration and fragmentation; effects of exotic species; economic and ethical considerations; practical applications and analytical tools; and legal frameworks for conserving species and habitats. Note: Credit will be granted for only one of 370, ER 313, ES 318, 320, 348. Prerequisites: 190A or 210; 215, 230, and STAT 255 or 260.

Biol 400 units: 1.5 hours: 3-0 History of Biology The historical development of the major techniques and ideas of biology, including the significance of the important historical contributors to biology. Note: Only one of 400 and 489 may be counted as an upper-level credit toward degree programs in Biology. Prerequisites: Third-year standing.

Biol 401A units: 1.5 hours: 3-0 Biotechnology The tools of molecular biology and biotechnology (including the enzymes, cloning vectors and cloning strategies used in recombinant DNA technology, as well as the origins of these tools), and the application of genetic engineering to medicine, agriculture, forestry, forensic science and related areas. Lectures will also include bioethics and the impact of biotechnology on society. Pre- or corequisites: 360 or 361 or BIOC 300 or 300B.

Biol 404 units: 1.5 hours: 3-0 Sensory Biology Cellular and molecular mechanisms underlying sensory systems: sensory receptor coding logic, signal transduction, neuronal circuitry, developmental biology, comparative analysis of model organisms, related clinical disorders and therapeutic strategies. Focus placed on recent advances in the primary literature and on promoting skills for developing hypotheses and designing experiments. Prerequisites: 360 or 367 or 409A.

Biol 409B units: 1.5 hours: 2-4 Experimental Neurobiology Laboratory investigations of the neural basis of behaviour. Selected sensory and motor systems studied in the cellular, neuronal circuit, and whole animal levels. Techniques include extracellular and intracellular recording and stimulation; anatomical tracing of neuronal pathways; computerized acquisition and analyses of electrophysiological data. Note: Enrolment limited to 10. Offered in spring of even-numbered years. Prerequisites: 365 or permission of the department.

Biol 410 units: 1.5 hours: 3-3 Herpetology The biology of amphibians and reptiles, particularly evolutionary relationships, systematics, ecology, and
physiology. Presentations required. Laboratory involves mainly taxonomic identifications. Field trips when possible.

**Prerequisites:** 307 or 207.

**Pre- or corequisites:** 355 or 455, and 330 or ES 310 or 344.

**BIOL 418**  
**Units:** 1.5  
**Hours:** 3-3  
**Plant Ecology**
Factors controlling the abundance and distribution of terrestrial plants: environmental effects on plants; population dynamics; competition; plant-plant interactions; community composition, structure, and function; succession; invasive species; plant conservation and restoration. Costs of field trips will be borne by the students.

**Note:** 449 recommended.

**Prerequisites:** One of 324, 330, ES 310, 344 or permission of the department.

**BIOL 427**  
**Units:** 1.5  
**Hours:** 3-3  
**Population Ecology**
Theories of population growth and regulation, life history strategies, and population interactions. Considerable outside reading and presentation of a class seminar required. Laboratory experiments to demonstrate basic principles of population ecology and relevant quantitative techniques. Quantitative aspects of population ecology are stressed.

**Prerequisites:** 300 or ES 310 or 344.

**BIOL 432**  
**Units:** 1.5  
**Hours:** 3-0  
**Molecular Endocrinology**
Basic and molecular aspects of endocrinology. Brain hormones and their precursors, insulin and its receptor, gene-associated peptides, new glycoprotein hormones, growth factors, steroids, the superfamily of steroid and thyroid receptors, pheromones, oncogenes, and immunoenodocrinology. Lectures and presentations of scientific papers.

**Prerequisites:** One of 360, 365, 305A, BIOC 300, 300A, 300B.

**BIOL 435**  
**Units:** 1.5  
**Hours:** 3-0  
**Molecular Evolution**

**Prerequisites:** 230.

**Pre- or corequisites:** One of 330, 355, 455, BIOC 300, 300A, 300B, CSC 428, ES 310, 344.

**BIOL 436**  
**Units:** 1.5  
**Hours:** 3-0  
**Human Molecular Genetics**
Survey of the organization, structure/function, and mapping of the human genome; the biochemical and molecular basis, screening, prevention, and treatment of various human diseases, including cancer.

**Prerequisites:** 225, 230; 361 or BIOC 300 or 300A or 300B, or permission of the department.

**BIOL 437**  
**Units:** 1.5  
**Hours:** 3-0  
**DNA Repair, Mutation and Human Health**
A survey of mechanisms of DNA repair and mutagenesis across a range of organisms, and an examination of how defects in DNA repair impact human health. Topics include germ cell mutation, somatic mutation leading to aging, changes in neurological and immunological capacity, individual predisposition to cancer, and the role of the environment.

**Prerequisites:** 215, 225, 230, 360.

**BIOL 438**  
**Units:** 1.5  
**Hours:** 3-0  
**Ecology of Prokaryotes**
An introduction to the ecology of prokaryotes (bacteria and archaea). Diversity and evolution of populations and communities of prokaryotes and their role in the major biogeochemical cycles: carbon, nitrogen, sulfur. Genetic, biochemical, physiological and ecological aspects of processes such as nitrogen fixation and methanogenesis; design of experimental approaches to assess cycling of elements in forests, lakes and oceans by prokaryotes.

**Prerequisites:** 330 or ES 310 or 344 or MICR 200, or 200A and 200B, or permission of the department.

**BIOL 439**  
**Units:** 1.5  
**Molecular Epidemiology**
Basic principles and applications of molecular epidemiology in epidemiological research. An overview of terminology and definitions, the use of statistics, and ethical consideration.

**Prerequisites:** 215, 225, 230, STAT 255 or 260.

**BIOL 446**  
**Units:** 1.5  
**Hours:** 3-0  
**Advanced Aquatic Ecology**
Introduction to fundamental concepts, theories and models in aquatic ecology and their application to sustainable protection and management of aquatic (freshwater and marine) ecosystems and resources. Emphasis on integrated approaches to water quality, nutrient-food web dynamics, aquatic biodiversity, fisheries productivity, and contaminant transport. Critical review of recent journal articles. Written and oral presentations required.

**Prerequisites:** Fourth-year standing and one of: 215, 311, 311B, 330, EOS 311, ES 310, 344, GEOG 371.

**BIOL 447**  
**Units:** 1.5  
**Hours:** 3-0  
**Ion Channels and Disease**
Structure and function of major voltage- and ligand-gated ion channels in neurons. Channel-related diseases and how alterations in ion channel function can contribute to nervous system disorders such as nicotine addiction and epilepsy. Mechanisms of ligand binding, gating and ion selectivity. Bioinformatic tools to analyze ion channel sequence, functional domains and structure, and electrophysiological, fluorescence and crystallography techniques to study channel structure and function. Critical discussions of the primary literature will be emphasized.

**Prerequisites:** 365.

**Pre- or corequisites:** 367.

**BIOL 448**  
**Units:** 1.5  
**Hours:** 3-0-2  
**Neuroethology**
Examination of the neural basis of behaviour. Insights into the neuronal organization of behaviour through examination of neural solutions that have evolved in animals to solve problems encountered in their particular environments. Examples in individual species will be used to illustrate how neuronal systems integrate information to shape behaviour in a real-world context. Research papers and seminar presentations based on the primary literature will be emphasized.

**Prerequisites:** One of 345, 365, 305A or 305B.

**BIOL 449**  
**Units:** 1.5  
**Hours:** 3-3  
**Also:** ES 425
**Formerly:** 318
**Flowering Plant Diversity**
A survey of flowering plants, including morphological diversity and adaptations; plant evolution and species concepts; modern classification; nomenclature; identification and keys; and experimental approaches to the study of plant diversity. Lab projects include at least 1 collection of 10 properly prepared and identified plants, preferably made during the previous summer. Contact instructor for details and collecting equipment.

**Notes:** - Credit will be granted for only one of 449, 318, ES 425.
- 324 recommended.

**Prerequisites:** 410A, 190B, third- or fourth-year standing.

**BIOL 453**  
**Units:** 1.5  
**Hours:** 3-0  
**Plant Stress Responses**
An advanced study of the adaptation and acclimation of plants to abiotic stresses (heat, cold, drought, salinity, radiation) and biotic stresses (pathogens, herbivores). Responses will be addressed at whole plant, physiological and molecular genetic levels.

**Pre- or corequisites:** 366.

**BIOL 458**  
**Units:** 1.5  
**Hours:** 3-0  
**Plant Biochemistry and Biochemical Ecology**
An introduction to plant biochemistry, plant metabolism, and the biochemical basis of plant adaptation, with emphasis on plant-specific biochemical pathways and processes, and their regulation and molecular biology. Storage carbohydrates, cell wall biosynthesis, lipid metabolism, nitrogen fixation and assimilation, and photosynthesis; biochemical ecology of secondary plant metabolites including isoprenoids, phenolics and alkaloids.

**Note:** Not open to students with credit in 490A in this topic.

**Prerequisites:** BIOC 200 or 299 or 300 or 300A, or 300B. BIOC 300A or 300B is the recommended prerequisite.

**BIOL 460**  
**Units:** 1.0  
**Honours Seminar**
Participation in seminars as arranged by the department and the Honours Coordinator. Required of all Honours students in their fourth-year of studies, as an addition to the normal 15 units.

**Grading:** COM, N, F.

**BIOL 465**  
**Units:** 1.5  
**Hours:** 3-0  
**The Molecular Basis of Cancer**
Clinical terminology, concepts of cancer epidemiology, DNA mutation and repair, molecular basis of cell cycle regulation, cell proliferation and apoptosis. Special emphasis on chemotherapy, gene therapy, diet and cancer, and the immunology of cancer.

**Prerequisites:** 225, 230, 360.

**BIOL 470**  
**Units:** 1.5 - 3.0  
**Hours:** 3-0  
**Advanced Topics in Biology**
Examination of a specific topic in biology.

**Note:** May be taken more than once in different topics.

**Prerequisites:** Permission of the department.

**BIOL 489**  
**Units:** 1.5  
**Hours:** 3-0  
**Conceptual Foundations of Biosciences**
An examination of the technology and theory that comprise the conceptual foundations of modern biology. Explores how we know what we know through critical analysis of selected original publications and review of theoretical foundations. Examines how this knowledge is used in decision making, how gender, political, philosophical and religious views impact interpretation, and how advances in technology and conceptual foundations may influence future biological research.

**Note:** Only one of 400, 489 may be counted as an upper-level credit toward degree programs in Biology.

**Prerequisites:** Fourth-year standing.
BIOl 490A Units: 1.5
Directed Studies and Research in Botany
Departmental permission may be given for supervised research projects, individual study, or directed readings.
Note: 490A-G may be taken more than once, normally to a maximum of 3 units.
Prerequisites: Cumulative GPA of 5.0 on last 15 units of course work and fourth-year standing.
Grading: INP; letter grade.

BIOl 490B Units: 1.5
Directed Studies and Research in Ecology
Departmental permission may be given for supervised research projects, individual study, or directed readings.
Note: 490A-G may be taken more than once, normally to a maximum of 3 units.
Prerequisites: Cumulative GPA of 5.0 on last 15 units of course work and fourth-year standing.
Grading: INP; letter grade.

BIOl 490D Units: 1.5
Directed Studies and Research in Marine Biology
Departmental permission may be given for supervised research projects, individual study, or directed readings.
Note: 490A-G may be taken more than once, normally to a maximum of 3 units.
Prerequisites: Cumulative GPA of 5.0 on last 15 units of course work and fourth-year standing.
Grading: INP; letter grade.

BIOl 490E Units: 1.5
Directed Studies and Research in Zoology
Departmental permission may be given for supervised research projects, individual study, or directed readings.
Note: 490A-G may be taken more than once, normally to a maximum of 3 units.
Prerequisites: Cumulative GPA of 5.0 on last 15 units of course work and fourth-year standing.
Grading: INP; letter grade.

BIOl 490F Units: 1.5
Directed Studies and Research in Cell and Molecular Biology
Departmental permission may be given for supervised research projects, individual study, or directed readings.
Note: 490A-G may be taken more than once, normally to a maximum of 3 units.
Prerequisites: Cumulative GPA of 5.0 on last 15 units of course work and fourth-year standing.
Grading: INP; letter grade.

BIOl 490G Units: 1.5
Directed Studies and Research in Evolution
Departmental permission may be given for supervised research projects, individual study, or directed readings.
Note: 490A-G may be taken more than once, normally to a maximum of 3 units.
Prerequisites: Cumulative GPA of 5.0 on last 15 units of course work and fourth-year standing.
Grading: INP; letter grade.

BIOl 492 Units: 3.0
Malaysia Tropical Field Ecology
A six week field course introducing students to the biodiversity of Malaysia. Studies of diverse tropical habitats and biological communities including rain forests, mangrove swamps, coral reefs, wetlands and agroecosystems. Normally held from early May to late June.
Prerequisites: 215, permission of the department.

BIOl 499A Units: 1.5
Formerly: part of 499 Honours Thesis I
The first stage of a research project conducted under the direction of a faculty member. Open to Honours students only.
Notes: - Credit will be granted for only one of 499A and 499B, 499.
- 499A and 499B are "tied" courses and must be taken in consecutive terms except with permission of the department.
- Credit for 499A will be assigned only upon successful completion of 499B.
Prerequisites: Permission of the department.
Grading: INP; letter grade (assigned upon completion of 499B); if 499B is not completed, a grade of N will be assigned to 499A).

BIOl 499B Units: 1.5
Formerly: part of 499 Honours Thesis II
Continuation of a research project conducted under the direction of a faculty member. Open to Honours students only.
Notes: - Credit will be granted for only one of 499A and 499B, 499.
- 499A and 499B are "tied" courses and must be taken in consecutive terms except with permission of the department.
- Credit for 499A will be assigned only upon successful completion of both courses.
Prerequisites: 499A.

BME 255 Units: 1.5
Introduction to Computer Architecture
The architecture of computer systems including concepts such as processor, memory, buses, input/output, instruction sets, interrupt processing, pipelining, performance. Families of processors, CISC, RISC. Memory organization and management including cache, virtual memory, protection. Computer arithmetic, Assembly language programming, assemblers, linkers, and loaders. Hardware/Software interaction.
Note: Credit will be granted for only one of 255, CSC 230.
Prerequisites: CSC 111. Corequisites: CSC 115.
CENG 355 Units: 1.5 Hours: 3-1.5
Microprocessor-Based Systems
Processor organization: general-purpose and application-specific processors, datapath and control implementation, pipelining concepts. Memory organization: static and dynamic semiconductor memory, optical and magnetic memory, memory hierarchy and caches. I/O organization: physical and logic interfaces, interrupts and interrupt services routines, direct memory access (DMA), device drivers. Buses and protocols; bus signalling and arbitration, examples of modern buses, communications protocol concepts. Computer networking: network topology, protocol stack, examples of modern networks.
Prerequisites: 255, or CSC 230, or MECH 405.

CENG 356 Units: 1.5 Hours: 3-0
Engineering System Software
System software principles, components, usage, protection, and their relation to hardware and engineering systems. Modern operating systems characteristics and engineering applications; portable operating system interface standard. Requirements, design, development, and maintenance of complex software for portable devices, real-time systems, and multi-processor systems.
Note: May not be counted for credit towards a Computer Science degree.
Prerequisites: CENG 255.

CENG 399 Units: 1.5 Hours: 1-6
Design Project I
A team-based technical project completed under the supervision of a faculty member, with focus on Engineering design requirements and specification processes. Expected learning outcome is based on the knowledge and skills acquired by the student in earlier courses and Professional Engineers' awareness with respect to the environment, ethics, equity, public and worker safety and health. Projects may have a diverse nature serving societal needs. Multi-disciplinary projects are encouraged.
Prerequisites: Third-year standing in the Computer Engineering Program or permission of the department.

CENG 412 Units: 1.5 Hours: 3-0
Human Factors in Engineering
Accidents associated with "human error" often reflect the failure to recognize human factors in the design stage. Reviews sensory, motor, and cognitive performance characteristics and derives human engineering design criteria. Principles of displays, controls and ergonomics are discussed.
Note: Credit will be granted for only one of 412, SENG 412.
Prerequisites: STAT 254 or 260.

CENG 420 Units: 1.5 Hours: 3-0
Formerly: 490
Artificial Intelligence
Philosophy of artificial intelligence. AI programs and languages, representations and descriptions, exploiting constraints. Rule-based and heuristic systems. Applications to engineering.
Note: Credit will be granted for only one of 420, 490. Credit will not be granted for both 420 and CSC 421 without permission of the Chair or Director responsible for the student's degree program.
Prerequisites: Fourth-year standing in the Faculty.

CENG 421 Units: 1.5 Hours: 3-1.5
Computer Vision
Overview of the main concepts and methods in computer vision; geometry and physics of imaging, as related to image formation and image acquisition; low-level methods of image analysis, such as filtering, edge detection, feature detection, and segmentation; methods for extracting and representing three-dimensional scene information; visual pattern recognition; motion analysis and algorithms for video understanding.
Prerequisites: ELEC 310.

CENG 441 Units: 1.5 Hours: 3-1.5
Design of Digital and VLSI Systems
Note: Credit will be granted for only one of 441, 440, or 441, 465.
Prerequisites: 241 or 290.

CENG 450 Units: 1.5 Hours: 3-3
Computer Systems and Architecture
Architecture and performance of modern processors, performance metrics; instruction set architectures and their impact on performance; instruction and arithmetic pipelines; pipeline hazards; exception handling; caches. Integral to the course is a Project Laboratory. Working in teams, students are expected to design and implement a processor based on a given specification of a simple instruction set. Student's progress is determined through a preliminary design review, a presentation, demonstration of the implementation and a final report.
Prerequisites: 355 or CSC 355.

CENG 453 Units: 1.5 Hours: 3-0
Parallel and Cluster Computing
Overview of massively parallel and cluster computers. Processing models (shared memory versus message passing). Processes and threads. Standard algorithms utilizing parallelism. Matrix and vector operations, N-body problems, collective communications. Parallel application environments MPI and OpenMP. Includes significant exposure to parallel applications including developing and coding parallel codes.
Prerequisites: Fourth-year standing in the Faculty or permission of the department.

CENG 455 Units: 1.5 Hours: 3-3
Real Time Computer Systems Design Project
Techniques to guarantee the completion of computations by their deadline. Scheduling for periodic and non-periodic tasks. Organization and functionality of real-time system software and hardware. Working in teams, students must complete a project involving substantial real-time design and implementation, partly based on the knowledge and skills acquired in earlier course work. Learning outcomes are based on a progress review, presentation, demonstration, and final report of the prototype design.
Prerequisites: 355 or CSC 355.

CENG 460 Units: 1.5 Hours: 3-1.5
Communication Networks
Introduction to computer network networking principles and engineering including resource management, error control, flow control, congestion control, TCP/IP model, algorithm and protocol design for wireless and wired communication networks.
Note: Credit will be granted for only one of 460, CSC 361, 450.
Prerequisites: 255 or CSC 230.

CENG 461 Units: 1.5 Hours: 3-0
Design and Analysis of Computer Networks
Prerequisites: STAT 254 or 260.

CENG 496 Units: 1.5
Selected Topics in Computer Engineering
Note: May be taken more than once for credit in different topics to a maximum of 3 units with permission of the department.
Prerequisites: The student must be registered in term 4A or 4B.

CENG 498 Units: 3.0 Hours: 2-18
Honours Thesis
Selected students undertake a major engineering design and research project under the supervision of a faculty member. The work involves independent study of the current literature and independent research and design. At the end of the term, each student submits a report and discusses the findings in an oral presentation.
Note: This course may only be taken once replacing two technical electives, one of which can be CENG 499.
Prerequisites: Completion of all third-year courses with a minimum cumulative GPA of 5.0 and approval by the Department.
Grading: INP, letter grade.

CENG 499 Units: 1.5 Hours: 1-9
Formerly: 499A and 499B
Design Project II
A significant technical design project in Computer Engineering completed under the supervision of a faculty member. This design experience is based on the knowledge and skills acquired in earlier course work. Projects may originate from faculty members, students, or external entity, in a topic may have a diverse nature and serve diverse needs. Multi-disciplinary projects are encouraged.
Note: Credit will be granted for only one of 499, 499A, or 499B.
Prerequisites: 399 or MECH 350, and fourth-year standing in the Computer Engineering Program or permission of the department.

CHEM

Chemistry
Department of Chemistry
Faculty of Science

CHEM 091 Units: 0 Hours: 0-1-0
Introduction to Chemistry I
Special tutorial course for students who do not have Chemistry 12, which is designed to provide background for students who intend to enroll, either simultaneously or subsequently, in a university-level introductory general chemistry course. This course will be delivered via the Internet. There are no set class times; a unit should be completed roughly every two weeks during the term. Achievement of the learning objectives will be assessed by timed on-line quizzes taken upon completion of the activities of each unit.
It is strongly recommended that students take this course prior to registering in 101, or take a reduced course load if taking 091 and 101 simultaneously. Students without Chemistry 12 require this course (and CHEM 101 or CHEM 150) for entry to CHEM 102.

Note: 0.5 fee unit.

Prerequisites: Mathematics 12 and Chemistry 11 or their equivalents.

Grading: COM, N, F.

CHEM 101 Units: 1.5 Hours: 3-3
Fundamentals of Chemistry I
Introduction to the modern theory of atomic structure and its relation to chemical bonding. Introduction to organic chemistry and modern materials, including polymer chemistry. Laboratory emphasizes skills typically needed in a scientific environment including observing, recording and discussing experimental data. Basic chemical techniques are introduced using a variety of different types of experiments.

Note: Credit will be granted for only one of 101, 102, 124, 140, 150. Students without Chemistry 12 must also enrol in 091 if they wish to take CHEM 102.

Prerequisites: Mathematics 12 and Chemistry 11 or 12 or their equivalents.

CHEM 102 Units: 1.5 Hours: 3-3
Fundamentals of Chemistry II
Basic physical chemistry of the environment including thermodynamics, states of matter, chemical equilibria, kinetics, the atmosphere, and water chemistry. Laboratory builds on the experience of CHEM 101, with practice in developing routine skills. Continued emphasis is given to reporting data accurately.

Prerequisites: Chemistry 12 or CHEM 091; 101 or 150.

CHEM 150 Units: 1.5 Hours: 3-3
Engineering Chemistry
Thermochemistry: atomic and molecular structure; chemical bonding; gases, liquids, and solids; solutions and phase equilibria; equilibrium; chemical thermodynamics; electrochemistry.

Note: Credit will be granted for only one of 150, 100, 101.

Prerequisites: Admission to BENG or BSENG program, Mathematics 12 and Chemistry 11 or their equivalents; Chemistry 12 is recommended.

CHEM 212 Units: 1.5 Hours: 3-4
Introductory Quantitative Analysis
Introduction to the basis of quantitative analytical chemistry, treatment of data and chemical equilibria. Sampling technique, data analysis. Analytical applications of chemical separations, potentiometry, ultraviolet/visible spectroscopy, titrimetry.

Note: Credit will be granted for only one of 212, 312.

Prerequisites: 102.

CHEM 213 Units: 1.5 Hours: 3-4
Practical Spectroscopy
Elementary theory and applications of infrared, UV-visible, mass, and nuclear magnetic resonance spectroscopy to inorganic and organic compounds.

Prerequisites: 102.

CHEM 222 Units: 1.5 Hours: 3-4
Introduction to Inorganic Chemistry
Fundamental concepts of inorganic chemistry, with emphasis on periodicity, structure, bonding and reactivity; principles will be illustrated using the chemistry of selected groups of elements.
CHEM 352 Units: 1.5 Hours: 3-0
Reaction Mechanisms and Dynamics
Predicting the kinetic behavior of different types of mechanisms. Deduction of mechanisms and interpretation of activation parameters from experimental data. Predicting and controlling rate by varying solvents, substituents, catalysts, etc. Use of a wide range of examples from inorganic and organic chemistry to illustrate these ideas.
Prerequisites: 222, 245, and 232 or 235.

CHEM 353 Units: 1.5 Hours: 3-0
Structure, Reactivity and Bonding
Prerequisites: 222, and 232 or 235.

CHEM 360 Units: 0.75 Hours: 0-3
Formerly: part of 312 and 318 (prior to 2001W session)
Analytical Chemistry Laboratory
This laboratory course will build on expertise acquired in CHEM 212, with greater emphasis on instrumental analysis and more advanced techniques.
Notes: A total of 1.5 units of credit will be granted for only one of 361, 312, 318 (if taken prior to Winter 2001).
- Offered in fall and spring terms.
- To count toward any Chemistry program, this course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units.
Prerequisites: 212.

CHEM 361 Units: 0.75 Hours: 0-3
Formerly: part of 323 and 324 (prior to 2001W session)
Inorganic Chemistry Laboratory
This laboratory course will emphasize synthetic techniques and manipulations in organometallic and coordination chemistry; spectroscopic characterization of sensitive compounds; principles of transition metal chemistry.
Notes: A total of 1.5 units of credit will be granted for only one of 362, 323, 324 (if taken prior to Winter 2001).
- Offered in fall and spring terms.
- To count toward any Chemistry program, this course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units.
Prerequisites: 213, 222.

CHEM 362 Units: 0.75 Hours: 0-3
Formerly: part of 333 and 338 (prior to 2001W session)
Organic Chemistry Laboratory
This laboratory course will emphasize organic synthesis and the relationship between spectra and structure of synthesized materials; analysis of synthesized compounds will be shown to relate structure with reactivity and stereochemistry.
Notes: A total of 1.5 units of credit will be granted for only one of 363, 335, 338 (if taken prior to Winter 2001).
- Offered in fall and spring terms.
- To count toward any Chemistry program, this course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units.
Prerequisites: 213, and 232 or 235.

CHEM 364 Units: 0.75 Hours: 0-3
Formerly: part of 346 and 347 (prior to 2001W session)
Physical Chemistry Laboratory
This laboratory course builds on expertise acquired in CHEM 245 and presents a variety of physical chemistry experiments at an intermediate level.
Notes: A total of 1.5 units of credit will be granted for only one of 364, 346, 347 (if taken prior to Winter 2001).
- Offered in fall, spring and summer terms.
- To count toward any Chemistry program, this course must be taken twice, over two terms in which the course content differs, for a total of 1.5 units.
Prerequisites: 245.

CHEM 398 Units: 0 Hours: 0-6
Research Experience
Experimental research under the direction of department members. For third-year students who wish to gain some experience in chemical research. Interested students should contact the course coordinator by the first week of classes.
Prerequisites: Permission of the department.
Grading: COM, N, F.

CHEM 400A Units: 1.5 Hours: 3-0
Applications of Chemistry
Intended for students who have completed at least two years of chemistry. Covers issues in the chemistry that surrounds us. Topics of current interest will be covered with an emphasis on how the chemistry works, and advantages and disadvantages of their application. Topics may include the chemistry of food, drugs, household products, agrichemicals, petrochemicals, pollution, energy (generation/conversion) and materials.
Prerequisites: 222 and either 232 or 235.

CHEM 411 Units: 1.5 Hours: 2-0-1
Advanced Instrumental Analysis
A discussion of electronic data acquisition and manipulation as used in modern chemical instrumentation. Included will be some of the following: mass spectrometry, x-ray spectroscopy, NMR, EPR, etc.
Prerequisites: 318.

CHEM 421 Units: 1.5 Hours: 3-0-0
Advanced Inorganic Chemistry
Advanced topics in inorganic chemistry from across the periodic table, building on principles established in 222, 353 and 324. Topics may include main group organometallics, novel structures and reactivity, catalysis, inorganic polymers, zeolites, fullerenes, metal-metal and metal-ligand multiple bonding, bioinorganic chemistry, metal clusters, or chemistry of the lanthanides and actinides.
Note: Credit will be granted for only one of 421, 424, 426.
Prerequisites: 324, 353.

CHEM 423 Units: 1.5 Hours: 2-0-1
Organometallic Chemistry
A detailed look at transition metal organometallic chemistry. Bonding theory, synthesis and reactivity of sigma-bonded alkyls and aroyls, metal carbonyls and pi-bonded organic liquids such as alkenes, alkenes, allyls, and arenes. Applications of organometallic complexes in organic synthesis and industrial catalysis.
Prerequisites: 324.

CHEM 432 Units: 1.5 Hours: 3-0
Advanced Organic Synthesis
Building on the methodology learned in 335, this course focuses on the art and science of total synthesis, including modern asymmetric transformations, organometallic coupling strategies (e.g., Pd- and Rh-mediated reactions), and considerations of synthetic efficiency. Students will learn to evaluate and propose syntheses of complex natural products.
Prerequisites: 335.

CHEM 434 Units: 1.5 Hours: 2-0-1
Structure-Property Relationships in Organic Chemistry
Influence of bonding and structure on chemical, physical, and electronic properties of organic molecules, within a biological and materials chemistry context. Topics covered may include substituent effects, noncovalent interactions, solvation, packing motifs, bonding theory, redox processes, electronic effects in closed shell vs. organic open shell molecules, molecular orbital theory, semiempirical calculations, photochemistry, absorption and emission processes, and electron transfer theory.
Prerequisites: 353.

CHEM 437 Units: 1.5 Hours: 3-0
Biological and Medicinal Chemistry
An introduction to medicinally important biological systems and the small molecules that perturb them. Topics will include chemical aspects of proteomics, biological target identification, mechanisms of action for important drugs, lead identification and development, and enzyme inhibitor design.
Prerequisites: Any biochemistry or biology course numbered 200 or higher, or permission of the department.
Pre- or corequisites: 335.

CHEM 458 Units: 1.5 Hours: 2-0-1
Statistical Thermodynamics
Ensembles, partition functions, distinguishable and indistinguishable molecules, statistical mechanical expressions for thermodynamic functions; application to ideal monatomic, diatomic and polyatomic gases, monatomic crystals and chemical equilibrium; classical and quantum statistics.
Prerequisites: 213, 245, 347.

CHEM 459 Units: 1.5 Hours: 2-0-1
Materials Science
Introduction to properties of materials from a chemical perspective, including the principles behind modern materials and their technological applications. Electronic structure of solids. Electrical conductivity, types of conducting materials: metals, semiconductors, polymeric conductors. Other topics may include magnetic, optical, mechanical, or interfacial properties.
Prerequisites: 353.

CHEM 461 Units: 0.75 Hours: 0-3
Formerly: Part of 465 or 466
Advanced Analytical Chemistry Laboratory
This laboratory course will build on expertise acquired in CHEM 212 and 361, with emphasis on one project in instrumental analysis.
Note: Credit will be granted for only one of 461, 465, 466 if 465 or 466 taken as the analytical component. Offered in summer, fall and spring.
Prerequisites: 361
## COURSE LISTINGS

### CHEM 462 Units: 0.75 Hours: 0-3
Formerly: Part of 465 or 466
**Advanced Inorganic Chemistry Laboratory**
This laboratory course will build on expertise acquired in CHEM 222 and 362, with emphasis on more difficult techniques or concepts encountered in inorganic synthesis.
**Note:** Credit will only be granted for only one of 462, 465, 466 if 465 or 466 taken as the inorganic component. Offered in summer, fall and spring.
**Prerequisites:** 362

### CHEM 463 Units: 0.75 Hours: 0-3
Formerly: Part of 465 or 466
**Advanced Organic Chemistry Laboratory**
This laboratory course will build on expertise acquired in CHEM 223 and 363, with emphasis on more difficult techniques or concepts encountered in organic synthesis and physical organic chemistry.
**Note:** Credit will only be granted for only one of 463, 465, 466 if 465 or 466 taken as the organic component. Offered in summer, fall and spring.
**Prerequisites:** 363

### CHEM 464 Units: 0.75 Hours: 0-3
Formerly: Part of 465 or 466
**Advanced Physical Chemistry Laboratory**
This laboratory course will build on expertise acquired in CHEM 245 and 364, with emphasis on larger projects studied at greater depth.
**Note:** Credit will be granted for only one of 464, 465, 466 if 465 or 466 taken as the physical component. Offered in summer, fall and spring.
**Prerequisites:** 364

### CHEM 473 Units: 1.5 Hours: 3-0
**Organic Photochemistry/Reactive Intermediates**
Introduction to organic photochemistry and photophysics. Reactivity and mechanics of organic functional groups on electronic excitation. Structure and reactivity of organic reactive intermediates such as radicals, biradicals, carbenes, nitrenes, carbocations, and carbanions. Fast kinetic methods for study of the above topics will be emphasized.
**Prerequisites:** 352.

### CHEM 476 Units: 1.5 Hours: 3-0
Formerly: 336
**Introductory Polymer Chemistry**
Kinetics and mechanisms of polymer and copolymer synthesis, characterization of polymers and molecular weight distributions. Thermodynamics of polymer solutions, the crystalline and amorphous states, rubber elasticity, structure-property relationships. Special topics in polymer materials.
**Note:** Credit will be granted for only one of 476, 336.
**Prerequisites:** 245.

### CHEM 477 Units: 1.5 Hours: 2-0-1
**Computational Chemistry**
Introduction to the theory and application of computer-based methods in chemistry. Approximate approaches to the solution of the Schrödinger equation, with an emphasis on areas of applicability and limitations. Simulations of macroscopic chemical and physical systems and processes using statistical mechanics: mean field theories, molecular dynamics and Monte Carlo methods.
**Prerequisites:** 347 or 446.

### CHEM 478 Units: 1.5 Hours: 3-0
Formerly: 306
**Introduction to the Chemical Process Industries**
A comparative discussion of a number of chemical industries and the details of their processes.

Includes unit operations, unit processes and economics.
**Note:** Credit will be granted for only one of 478, 302, 303, 306. Primarily designed for students taking a Chemistry program.
**Prerequisites:** 222, 245, and 232 or 235.

### CHEM 490 Units: 1.5 Hours: 0-6
**Directed Studies in Chemistry**
In special cases the department of Chemistry may give permission for individual studies and directed readings to be taken as 490. Students should consult a potential supervisor before requesting permission of the Chair to register.
**Note:** May be repeated for credit in different topics.

### CHEM 498 Units: 1.5 Hours: 0-6
**Research Experience**
Experimental research under the direction of department members. For fourth-year Chemistry Major students who wish to gain some experience in chemical research. Students are advised to make arrangements for 498 projects as early as possible. Ideally, projects should be discussed with potential supervisors before the semester in which the research will be undertaken. Interested students should contact the course coordinator by the first week of classes.
**Note:** Credit will be granted for only one of 498, 499.
**Prerequisites:** Permission of the department.

### CHEM 499A Units: 1.5 Hours: 0-6
Formerly: part of 499
**Honours Thesis I**
The first stage of a research project conducted under the direction of a faculty member. Normally open to Honours students only. Students are advised to make arrangements for 499 projects as early as possible. Ideally, projects should be discussed with potential supervisors before the semester in which the research will be undertaken. Interested students should contact the course coordinator by the first week of classes.
**Notes:** Credit will be granted for only one of 499A and 499B, 498, 499.
- 499A and 499B are “tied” courses and must be taken in consecutive terms except with permission of the department. Credit for 499A will be assigned only upon successful completion of 499B. Both 499A and 499B are offered in all three terms.
- Chemistry Majors may take 499A and 499B as electives.
**Prerequisites:** Permission of the department.

### CHEM 499B Units: 1.5 Hours: 0-6
Formerly: part of 499
**Honours Thesis II**
Continuation of a research project conducted under the direction of a faculty member. Normally open to Honours students only.
**Notes:** Credit will be granted for only one of 499A and 499B, 498, 499.
- 499A and 499B are “tied” courses and must be taken in consecutive terms except with permission of the department. Credit for 499A will be assigned only upon successful completion of both courses. Both 499A and 499B are offered in all three terms.
- Chemistry Majors may take 499A and 499B as electives.
**Prerequisites:** 499A.

### COM 100 Units: 1.5 Hours: 3-0
**Introduction to Business Decision Making**
Overview course designed to introduce fundamentals of business in Canada. Topics covered will include business principles such as accounting, finance and marketing as well as a discussion of the political and social realities facing commercial ventures in Canada.
**Note:** Credit will be granted for only one of 100, 290, 390.

### COM 204 Units: 0 Hours: 3-0
**Co-op Preparation**
Preparation and training to undertake Commerce co-op work terms. Includes preparation of cover letters and resumes, skills assessment and analysis, networking and interview skill development and career planning.
**Prerequisites:** Second-year standing in the BCom program or permission of the Program Director.
**Grading:** INP, COM, N, F.

### COM 205 Units: 0 Hours: 3-0
**Professional Skills Development**
Designed to ensure all Commerce students develop foundation, communication, personal and professional skills. The foundation skills include those necessary to complete the program of studies in the Gustavson School of Business. Other topics will include presentations, public speaking, teamwork, time management, networking, business etiquette and community involvement. Students also develop methods to help establish a career mission. This is a non-credit but mandatory course for all Bachelor of Commerce students.
**Prerequisites:** Third-year standing in the BCom program.
**Grading:** INP, COM, N, F.

### COM 206A Units: 3.0 Hours: 3-0
**Business English and Communications - Level I**
Development and enhancement of skills in written business communication, oral business communication, and non-verbal communication. Students will learn how to develop efficient use of verbal and non-verbal skills in business situations; be able to use language to convey specific messages to intended audiences; develop and use techniques for information management.
**Note:** Open only to international students and incoming Gustavson School of Business exchange program students and international students in the Bachelor of Commerce program; enrolment is based on comprehension level as determined by the instructor.

### COM 206B Units: 1.5 Hours: 3-0
**Business English and Communications - Level II**
Development and enhancement of skills in written business communication, oral business communication, and non-verbal communication. Students will learn how to develop efficient use of verbal and non-verbal skills in business situations; be able to use language to convey specific messages to intended audiences; develop and use techniques for information management. Perfection of grammar, written communication and increasing vocabulary.

### COM 498 Units: 1.5 Hours: 0-6
**Research Experience**
Experimental research under the direction of department members. For fourth-year Chemistry Major students who wish to gain some experience in chemical research. Students are advised to make arrangements for 498 projects as early as possible. Ideally, projects should be discussed with potential supervisors before the semester in which the research will be undertaken. Interested students should contact the course coordinator by the first week of classes.
**Notes:** Credit will be granted for only one of 499A and 499B, 498, 499.
- 499A and 499B are “tied” courses and must be taken in consecutive terms except with permission of the department. Credit for 499A will be assigned only upon successful completion of 499B. Both 499A and 499B are offered in all three terms.
- Chemistry Majors may take 499A and 499B as electives.
**Prerequisites:** Permission of the department.

### CHEM 499A Units: 1.5 Hours: 0-6
Formerly: part of 499
**Honours Thesis I**
The first stage of a research project conducted under the direction of a faculty member. Normally open to Honours students only. Students are advised to make arrangements for 499 projects as early as possible. Ideally, projects should be discussed with potential supervisors before the semester in which the research will be undertaken. Interested students should contact the course coordinator by the first week of classes.
**Notes:** Credit will be granted for only one of 499A and 499B, 498, 499.
- 499A and 499B are “tied” courses and must be taken in consecutive terms except with permission of the department. Credit for 499A will be assigned only upon successful completion of 499B. Both 499A and 499B are offered in all three terms.
- Chemistry Majors may take 499A and 499B as electives.
**Prerequisites:** Permission of the department.

### CHEM 499B Units: 1.5 Hours: 0-6
Formerly: part of 499
**Honours Thesis II**
Continuation of a research project conducted under the direction of a faculty member. Normally open to Honours students only.
**Notes:** Credit will be granted for only one of 499A and 499B, 498, 499.
- 499A and 499B are “tied” courses and must be taken in consecutive terms except with permission of the department. Credit for 499A will be assigned only upon successful completion of both courses. Both 499A and 499B are offered in all three terms.
- Chemistry Majors may take 499A and 499B as electives.
**Prerequisites:** 499A.
COM 206C  Units: 1.5  Hours: 3-0
Business English and Communications - Level I
Development and enhancement of skills in written business communication, oral business communication, and non-verbal communication. Students will learn how to develop efficient use of verbal and non-verbal skills in business situations; be able to use language to convey specific messages to intended audiences; develop and use techniques for information management. Concentration is on pronunciation, building vocabulary and comprehension of complex literature.

Note: Open only to international students and incoming Gustavson School of Business exchange program students and international students in the Bachelor of Commerce program; enrolment is based on comprehension level as determined by the instructor.

COM 220  Units: 1.5  Hours: 3-0
Organizational Behaviour
Introduction to behavioural concepts and tools that will assist the manager in both understanding behaviour in organizations and improving organizational effectiveness. Topics include individual motivation, perception and communication, managerial roles, schools of management theories, group processes and team work, leadership, supervision, and introduction to organizational structure, processes, and culture.

Notes:
- Credit will be granted for only one of 220, 120, PSYC 334, PSYC 334A, SOCI 323, SOCI 324. Not available for supplemental.
- Not open to BCom students; not intended for students seeking entry to Bachelor of Commerce program. Credit will not be granted toward the Bachelor of Commerce program.

Prerequisites: Second-year standing.

COM 240  Units: 1.5  Hours: 3-0
Management Finance
An introduction to corporate financial management. Provides a framework, concepts, and tools for analyzing financial decisions. Main topics include discounted cash flow techniques, financial statement analysis, capital budgeting, valuation of stocks and bonds, tax environments, risk and return tradeoffs, diversification, capital market efficiency, and an introduction to international finance issues.

Notes:
- Not open to BCom students; not intended for students seeking entry to Bachelor of Commerce program. Credit will not be granted toward the Bachelor of Commerce program. Not available for supplemental.

Pre- or corequisites: 202 or 253 or 270 and second-year standing.

COM 250  Units: 1.5  Hours: 3-0
Fundamentals of Marketing
Product design and management, distribution channels, and marketing communications are examined as key elements of the marketing mix. Consumer buyer behaviour, sales force management, and marketing research are other topics to be reviewed.

Note: Not open to BCom students; not intended for students seeking entry to Bachelor of Commerce program. Credit will not be granted toward the Bachelor of Commerce program. Not available for supplemental.

Prerequisites: Second-year standing.

COM 270  Units: 1.5  Hours: 3-0
Financial and Management Accounting For Specialists
Introduction to the construction and interpretation of financial statements and the development and use of accounting information for management planning and control, including the development of cost information.

Note: Credit will be granted for only one of 270 or 210. Not open to BCom students; not intended for students seeking entry to Bachelor of Commerce program. Credit will not be granted toward the Bachelor of Commerce program. Not available for supplemental.

Prerequisites: Second-year standing.

COM 290  Units: 1.5  Hours: 3-0
Introduction to Canadian Business
An overview of the Canadian business system. An examination of the economic, geographical, historical, legal, and political factors. Examples may include the business functions of production, marketing, finance and human resources. Emphasis on management case studies, oral presentations and working in groups.

Notes:
- Credit will be granted for only one of 290, 100, 390.
- Open only to international students and pre-Commerce Business students.

COM 295  Units: 1.5  Hours: 3-0
Canadian Business Studies
Provides an overview for international students of the Canadian business environment, examining the economic, geopolitical, and historic context. Intended to be experiential, bringing the student into contact with Canadian businesses and their managers.

Note: Open only to international students in the Gustavson School of Business.

Prerequisites: 290 or 390.

COM 302  Units: 1.5  Hours: 3-0
Business Law
Examines a number of legal principles that affect businesses and other organizations (e.g. non-profit organizations) in our society. Topics include the law of tort, contract, business organizations and property. Focuses on specialized areas such as the law of negligence, international business transactions, employment contracts, intellectual property and fiduciary obligations.

Note: Not open to BCom students; not intended for students seeking entry to Bachelor of Commerce program.

Prerequisites: Second-year standing.

COM 315  Units: 1.5  Hours: 3-0
Financial Accounting
Introduces financial accounting concepts in a manner that prepares managers to use information presented in Balance Sheets, Income Statements, and Cash Flow statements for making relevant financial decisions in a global environment. In addition to a review of the above financial statements, topics include understanding financial statement analysis.

Prerequisites: Restricted to students admitted to the BCom Program core.

COM 316  Units: 1.5  Hours: 3-0
Management Accounting
Presents an introduction to the managerial accounting tools and models available to managers for use in their planning, controlling, and global decision-making functions. Topics include the behaviour of costs, the differential concept, short-run choice decisions, cost-volume-profit relationships, variance analysis, and the management control process.

Prerequisites: BCom Program core.

COM 321  Units: 1.5  Hours: 3-0
Organizational Behaviour and Design
Examines individual behaviours, group processes, and structural characteristics that influence organization effectiveness. Topics include: personality, perception, individual values and work attitudes, decision making, work motivation, intra- and inter-group dynamics, leadership, power and politics, and organizational structure and culture.

Prerequisites: Restricted to students admitted to the BCom Program core.

COM 322  Units: 1.5  Hours: 3-0
Management of Employment Relations
Examines issues faced by managers when recruiting, hiring, training, appraising and compensating employees, along with the techniques required to perform these human resource functions. Particular attention will also be given to how human rights legislation and labour unions affect the management of human resources.

Prerequisites: Restricted to students admitted to the BCom Program core.

COM 323  Units: 1.5  Hours: 3-0
Introduction to Management Information Systems
The use of computer-based information systems in achieving the information objectives of the organization. Fundamentals of hardware, software, networks, electronic commerce and business applications. Focus is on the responsible use of information systems and technology to support business strategy, operations and decision making. Includes the use of but not instruction in, computer-based productivity tools.

Prerequisites: Restricted to students admitted to the BCom Program core.

COM 341  Units: 1.5  Hours: 3-0
Operations Management
Introduction to both the broad strategic and tactical decisions of operations management. Topics covered include project planning/management, process choice, process flow analysis, location and layout of facilities, capacity and resource planning, job design, inventory control, scheduling, supply chain management, quality management and quality control. The link between operations management and other functional areas of business are evaluated.

Prerequisites: Restricted to students admitted to the BCom Program core.

COM 351  Units: 1.5  Hours: 3-0
Marketing Principles and Management
Students will learn and apply basic marketing theory, concepts, and tools to make and defend key marketing decisions relating to: market segmentation, positioning, product development and management, pricing, distribution management, and marketing communications. Emphasis will be placed on both the fundamental principles of marketing and their application in a variety of industry and international contexts.

Prerequisites: Restricted to students admitted to the BCom Program core.

COM 361  Units: 1.5  Hours: 3-0
International Business
Focuses on key aspects of doing business globally, including: the forces of globalization; how business conditions and practices differ from country to country; free trade and protectionism; exporting, licensing, and foreign direct investment; exchange rates and the complications that arise when dealing with

Prerequisites: Restricted to students admitted to the BCom Program core.
multiple currencies; and strategic and organizational issues for firms operating in international markets.

Prerequisites: Restricted to students admitted to the BCom Program core.

COM 362 Units: 1.5 Hours: 3-0
Formerly: 305 and part of 361 (prior to 2006W Session)

Business and Sustainability
Introduces the changing role of business as managers face many social, political, economic, and ecological forces. Examines how these forces pressure businesses to question existing traditional operating approaches. Introduces key concepts of corporate social responsibility, business and sustainability, sustainable development, and social entrepreneurship. Examines how firms respond to calls for more sustainable economic, social, and ecological operating approaches. Introduces concepts, tools and frameworks that assist businesses to effect transition to more sustainable practices.

Note: Credit will be granted for only one of 362 or (305 and 361 if taken prior to the 2006 Winter Session).

Prerequisites: Restricted to students admitted to the BCom Program core.

COM 371 Units: 1.5 Hours: 3-0

Management Finance
Serves as an introduction to corporate financial management. The primary objective is to provide a framework, concepts, and tools for analyzing financial decisions. Main topics include discounted cash flow techniques, the valuation of financial assets, financial statement analysis, capital budgeting decisions, risk and return tradeoffs, diversification, capital market efficiency, and the cost of capital to the firm.

Prerequisites: Restricted to students admitted to the BCom Program core.

COM 390 Units: 1.5 Hours: 3-0

Canadian Business Environment
An examination of the cultural, economic, geographical, historical, legal, and political factors influencing the environment of doing business in Canada.

Note: Credit will be granted for only one of 100, 290, 390. Open only to incoming Gustavson School of Business Exchange students, or by permission of Program Director.

Prerequisites: Third-year Commerce core.

COM 400 Units: 1.5 Hours: 3-0

Strategic Management
A series of integrative management case studies that illustrate the application and integration of management functions. Focuses on organizational strategy and strategic management including the process of choosing and defining goals, formulating and implementing strategies, and monitoring strategic performance. Normally students are required to take this course in their final academic term.

Prerequisites: Third-year Commerce core or permission of the Program Director.

COM 402 Units: 1.5 Hours: 3-0

Legal Issues in Management
An examination of several aspects of commercial law that are particularly relevant to those who own, manage, or are employed by a business enterprise. Subjects that will be addressed include common law doctrines (such as contract and negligence), legislation (such as the Business Corporations Act) and other legal principles that affect business decision making in a global environment.

Note: Credit will be granted for only one of 402, 302.

Prerequisites: Third-year Commerce core or permission of the Program Director.

COM 403 Units: 1.5
Also: MBA 558

Employment and Labour Law
Examines the constitutional, legislative and common law rules that govern the employment relationship in both unionized and nonunion workplaces. Examines the entire employment relationship including pre-hire issues, employer/ee rights and obligations, termination of employment and post-termination obligations.

Note: Credit will be granted for only one of 403, MBA 558, 450 (if taken in the same topic).

Prerequisites: 302 or 402 and fourth-year standing or permission of the Program Director.

COM 405 Units: 0 Hours: 3-0

Career Preparation
Designed to ensure that all Commerce students develop career preparation skills, including portfolio presentation, career planning and preparation skills. Intended to complement each student’s career goals as identified in COM 205. Content will vary and may include: skills training, portfolio development, career assessment, networking events. This is a non-credit but mandatory course for all Bachelor of Commerce students.

Prerequisites: 205 and fourth-year standing.

Grading: INP, COM, N, F.

COM 410 Units: 1.5 Hours: 3-0
Also: MBA 521

Leadership Strategies
An examination of leadership in a variety of environments: corporate, the military, and the public sector. Identifies the characteristics of a leader and instills an interest in and awareness of this vital organizational skill. Includes a review of leadership research from a historical perspective as well as current theory on transformational leadership. Experiential exercises, case studies and role playing techniques are employed to demonstrate leadership skills.

Note: Credit will be granted for only one of 410, MBA 521.

Prerequisites: 220 or 321 and fourth-year standing or permission of the Program Director.

COM 415 Units: 1.5 Hours: 3-0
Also: MBA 522

Business and the Internet
Business is going global, and traditional markets are rapidly giving way to the electronic marketplace. Combines hands-on experience creating an Internet presence for an existing organization with seminar style classes and invited panels. Covers competitive advantages of electronic communications technologies; fundamentals of data communications; the technical elements of effective use of the Internet for business; and security, privacy, and intellectual property issues related to online business.

Note: Credit will be granted for only one of 415, MBA 522.

Prerequisites: 230 or 331 and fourth-year standing or permission of the Program Director.

COM 420 Units: 1.5 Hours: 3-0

Managing in a Unionized Environment
An overview of the employment relationship and the labour relations process in unionized settings. The development of the Canadian Labour Movement, functions of trade unions, labour legislation, interest and rights disputes, and dispute resolutions are examined.

Prerequisites: 220 and 310; or 321 and 322 and fourth-year standing; or permission of the Program Director.

COM 425 Units: 1.5 Hours: 3-0
Also: MBA 531

Taxation for Managers
Reviews the fundamentals of the income tax system for all taxpayers. It then examines tax planning techniques that maximize cash flow and return on investment. While the course emphasizes business decisions, it also includes personal financial planning issues.

Note: Credit will be granted for only one of 425, MBA 531.

Prerequisites: 270 or 315, with a minimum grade of B- in fourth-year standing or permission of the Program Director.

COM 426 Units: 1.5 Hours: 3-0

Management Accounting II
Focuses on the key tools that management accounting brings to decision making. It covers both the quantitative and qualitative aspects in an effective management control system including such topics as cost behaviour, cost allocation, activity based costing, flexible budgeting and variance analysis. In addition, the balanced scorecard, variable and absorption costing models, and alternative inventory management systems are examined.

Note: Credit will be granted for only one of 426, 450 (if taken in the same topic).

Prerequisites: A minimum grade of B- in 270 or 316 and fourth-year standing or permission of the Program Director.

COM 430 Units: 1.5 Hours: 3-0

Marketing Strategy
Analysis of marketing problems and opportunities and the determination and implementation of marketing plans. Core concepts will be reinforced by such methods as case studies, field projects, and/or a computer simulation where students manage the marketing function of a business in a competitive environment.

Prerequisites: 250 or 351 and fourth-year standing or permission of the Program Director.

COM 435 Units: 1.5 Hours: 3-0

Corporate Relations and Responsibilities
Examines the relations of a corporation to its stakeholders - customers, stockholders, government, unions and society at large. Especially important are a firm’s code of ethics and conduct, written and unwritten, which governs its relationships and spells out its responsibilities to its various publics. Students will study and discuss a number of cases which illustrate how a variety of organizations have responded to this challenge.

Note: Credit will be granted for only one of 435, 450 (if taken in the same topic).

Prerequisites: 220 or 321 and fourth-year standing or permission of the Program Director.

COM 440 Units: 1.5 Hours: 3-0
Formerly: 410

Business and Government Relations
Management of the interface between business and government is examined through an analysis of decision-making processes of government and business. The impact of government measures on business will be discussed and various resolutions and current developments will be stressed.

Note: Credit will be granted for only one of 440, 410 (if taken prior to 2001).

Prerequisites: 220 or 321 and fourth-year standing or permission of the Program Director.
COM 445 Units: 1.5 Hours: 3-0
Selected Topics in Management
Covers the dynamics of interpersonal and intergroup negotiations in business. Exercises, videos, lectures, and discussions will be used to address a broad spectrum of conflict situations with an emphasis on negotiation as a conflict management approach. Focus on major concepts and theories of psychology of negotiation as well as developing negotiating skills. Issues of power, personality, strategy, ethics and culture with regard to negotiation will also be addressed.
Prerequisites: 220 and 300; or 321 and 322 and fourth-year standing; or permission of the Program Director.

COM 455 Units: 1.5 Hours: 3-0
Conflict and Negotiations in Organizations
The dynamics of interpersonal and intergroup negotiations in business. Exercises, videos, lectures, and discussions will be used to address a broad spectrum of conflict situations with an emphasis on negotiation as a conflict management approach. Focus on major concepts and theories of psychology of negotiation as well as developing negotiating skills. Issues of power, personality, strategy, ethics and culture with regard to negotiation will also be addressed.
Prerequisites: Participation in International Exchange Program.

COM 460 Units: 1.5 Hours: 3-0
Managing in Diverse Environments
Conducted overseas as part of INTEP. An examination in an overseas setting of the development and trends in various business practices.
Prerequisites: Participation in International Exchange Program.
Grading: INP, N, F, letter grade.

COM 470 Units: 1.5 Hours: 3-0
Business Research
Business research project for students participating in INTEP. While overseas on exchange, students will conduct a research project on a specific business and management topic related to the country they are visiting. Projects must be planned and approved by the instructor prior to departure. Upon return, a written report is required.
Prerequisites: Participation in International Exchange Program.
Grading: INP, N, F, letter grade.

COM 480 Units: 1.5 Hours: 3-0
International Study
Conducted overseas as part of INTEP. An overseas immersion in cultural orientation, cultural sensitivity, on-site company visits with intensive foreign language training.
Note: May be taken more than once to a maximum of 4.5 units with permission of the Program Director.
Prerequisites: Participation in International Exchange Program.
Grading: INP, N, F, letter grade.

COM 490 Units: 1.5
Directed Studies in Management
A specialized course which is a guided study under the supervision of a faculty member. Students interested in completing a directed studies course are responsible for selecting their topic and finding a faculty member willing to act as their supervisor. When agreement has been reached between the student and faculty member, a Directed Studies Proposal, outlining the project and the paper, must be completed, signed by both the student and faculty member, and submitted to the BCom office for final approval.
Note: Registration is by permission only.
Prerequisites: Permission of the Program Director.

COM 495 Units: 1.5 Hours: 3-0
Marketing Communications
Analysis of approaches to advertising, personal selling and sales management. Based on relevant concepts of communication theory and current business practice. The course will alternate periodically in emphasis on advertising and personal selling and sales management.
Prerequisites: 250 or 351 and fourth-year standing or permission of the Program Director.

COM 499 Units: 1.5 Hours: 3-0
International Management and Environment
Conducted overseas as part of INTEP. Provides students with an opportunity to understand how a country’s unique cultural, economic, geographical, historical, legal and political environments affect the way business is done in that country.
Note: Credit will be granted for only one of 499, IB 410, 499, ENT 499, HOS 499.
Prerequisites: Participation in International Exchange Program.
Grading: INP, N, F, letter grade.

CS Computer Science
Department of Computer Science
Faculty of Engineering
Courses offered by the Faculty of Engineering are also found under the following course codes: BME (Biomedical Engineering), CENG (Computer Engineering), ELEC (Electrical Engineering), ENGR (Engineering), MECH (Mechanical Engineering) and SENG (Software Engineering).

CS 101 Units: 1.5 Hours: 3-0
Introduction to Canadian Culture
An introduction to the multidisciplinary study of cultural structures and expressions in Canada, including such forms as literature, the fine arts, mass media, and communications.
Note: Credit will be granted for only one of 101, 100A.
A required course for the Diploma/Certificate programs in Canadian Studies.

CS 102 Units: 1.5 Hours: 3-0
Introduction to Canadian Contemporary Issues
An introduction to contemporary issues in Canadian society including politics, economic and social structures, cultural and arts policy, science and technology, multiculturalism, bilingualism, First Nations, and women’s issues.
Note: Credit will be granted for only one of 102, 100B.
A required course for the Diploma/Certificate programs in Canadian Studies.

CS 200 Units: 1.5 Hours: 3-0
Topics in Canadian Studies
Topics of current interest including Canadian art, film, culture and social, political and environmental issues.
Note: May be taken more than once for credit in different topics with permission of the Program. A required course for the Diploma/Certificate program in Canadian Studies.

CS 201 Units: 1.5 Hours: 3-0
Issues and Ideas in Canadian Environmentalism
An exploration of the connections between Canadian culture and environment including an examination of our cultural worldview both past and present. Investigates how our sense of nation, national destiny and religious, cultural and ethnic inheritance has shaped and continues to shape our ideas of the wilderness, the Canadian environment and environmental issues.

CS Canadian Studies
Diploma Program in Canadian Studies
Interdisciplinary Programs

CS 001 Units: 0
Introduction to the Place: the Geography and History of Canada
This non-credit course must be taken by all students in the Program prior to 101 and 102.
Grading: COM, INC.
CSC 105  Units: 1.5  Hours: 3-1

Computers and Information Processing
An introduction to business computing. Topics covered include the basic structure of digital computer systems, microcomputers, word processing, spreadsheets, database systems, communications, networks and introductory programming. In the laboratory, students will receive hands-on experience with microcomputers and software packages for business applications.

Notes: Not open for credit to students registered in or with credit in 106, 110, 111 or 212 or HINF 130, 171 or 172.

- Intended primarily for students undertaking a degree in Business or Economics; students considering a Major in Computer Science should enrol in 106 or 110 rather than 105. Students who have completed or are currently registered in ECON 103 and 104 will be given priority.

CSC 110  Units: 1.5  Hours: 3-2

Fundamentals of Programming 1
Introduction to designing, implementing, and understanding computer programs using an object-oriented programming language. Topics include an introduction to computing and problem solving, selection and iteration, arrays and collections, objects and classes, top-down design and incremental development.

Note: Credit will be granted for only one of 110, 111.

Prerequisites: Mathematics 12 or Precalculus 12 or Foundations of Math 12 or MATH 120.

CSC 115  Units: 1.5  Hours: 3-2

Fundamentals of Programming II
Techniques, methods, and tools for systematic development and maintenance of software systems and documentation; basic algorithms and data structures; and fundamental concepts of object-oriented programming. Topics include control and data abstraction, modularization, abstract data types, layers of abstraction, information hiding, separation of concerns, type checking, program design, separate compilation, software libraries, techniques for the development of high-quality software components, program understanding.

Note: Credit will be granted for only one of 110, 115.

Prerequisites: 110 or 111.

CSC 130  Units: 1.5  Hours: 3-1

World Wide Web and Mobile Applications
An introduction to the Internet, the World Wide Web (WWW) and mobile communications technologies. Topics include: HTML; web-page design tools; development of simple mobile applications. Additional topics selected from: location-aware e-commerce; multimedia chat services; mobile social networking; software development for smartphone and tablets. Emphasis is on relating Internet technologies to the role they play enabling mobile computing.

Note: Credit will be granted for only one of 130, SENG 130.

- Not open to third- or fourth-year students in a Computer Science program without permission of the department.

CSC 167  Units: 1.5  Hours: 3-1

Game Strategy, Interaction and Design
This multi-disciplinary course explores computer games and their applications through design exercises and game playing. Topics include: game console architectures, entertainment media, history of academic and application-based simulations, role of artificial intelligence research, history of computer graphics, history of sound technologies, evolution of computer game design, networked games, virtual reality, and history of video and computer game industries.

Note: Not open to students with credit in 205 or 305.

CSC 205  Units: 1.5  Hours: 3-1

2D Computer Graphics and Image Processing
Vectors, parametric/implicit, RGB colours, lines, circles, barycentric coordinates, rasterization, image filtering, sampling, aliasing and antialiasing, compression, UI for image processing.

Pre-requisites: MATH 211, SENG 265.

CSC 225  Units: 1.5  Hours: 3-1

Algorithms and Data Structures I

Prerequisites: 115 or 160, and MATH 122 or CENG 245.

CSC 230  Units: 1.5  Hours: 3-1.5

Introduction to Computer Architecture
The architecture of computer systems including concepts such as CPU, memory, buses, I/O, cache, instruction sets, interrupt processing, pipelining, performance. Families of processors, CISC, RISC. Memory organization and management (including virtual memory, protection, segmentation and paging). Computer arithmetic. The use of assemblers, linkers and loaders. Assembly language programming and its interface with a high-level language (C).

Note: Credit will be granted for only one of 230, CENG 255.

Prerequisites: 115 or 160.

CSC 299  Units: 1.5  Hours: 0-6

Undergraduate Directed Project
Under the supervision of faculty, students will participate in projects that will include both their particular areas of interest and other aspects of Computer Science.

Note: Students must consult the department before registering.

Prerequisites: Permission of the instructor and grade of B+ or higher in two of 115, 225, 230, SENG 265.

CSC 305  Units: 1.5  Hours: 3-1

Formerly: 405

Introduction to Computer Graphics
Introduction to computer graphics. Principals of raster image generation. Example of a graphics API. Graphics primitives, data structures. Coordinate systems, affine transformations and viewing of graphical objects. Introduction to rendering including shading models and ray tracing. Introduction to modelling including polygon meshes, subdivision, and parametric curves and surfaces, colour.

Note: Credit will be granted for only one of 305, 405.

Prerequisites: 225, MATH 100, 110 or 211.

CSC 320  Units: 1.5  Hours: 3-0

Foundations of Computer Science
Survey of formal models and results that form the theoretical foundations of computer science: typical topics include finite automata, Turing machines, undecidable problems, context free languages and computational complexity.

Prerequisites: 225, MATH 222 or PHYS 242.

CSC 322  Units: 1.5  Hours: 3-0

Logic and Programming
Practical applications of logic in computer science and its relevance in such areas as software engineering, artificial intelligence and circuit design theory. Topics include: propositional expressions and circuits, reading and writing first order logic, predicate logic as a relational query language, knowledge representation, PROLOG, and other related topics.

Prerequisites: 115 or 160, and MATH 122, 224, CENG 245, PHIL 203, or 304A.

CSC 326  Units: 1.5  Hours: 3-0

Algorithms and Data Structures II

Prerequisites: 225, MATH 222.

CSC 330  Units: 1.5  Hours: 3-0

Programming Languages
The fundamental concepts of imperative and applicative programming languages. Topics include the description of data types, variable assignment and sharing; sequencing; iteration and recursion; parameter passing mechanisms; and type checking. Students will develop interpreters which implement some of the language features listed above.

Prerequisites: 225, 230, and SENG 265.

CSC 349A  Units: 1.5  Hours: 3-0

Numerical Analysis
An introduction to selected topics in Numerical Analysis. Typical areas covered: error analysis, roots of equations, systems of linear equations, linear pro-
gramming, interpolation, numerical integration, and ordinary differential equations.

Note: Credit will be granted for only one of 349A, 340, MATH 348 or equivalent.

Prerequisites: 115 or 160, MATH 200, and 110 or 211.

Pre- or corequisites: MATH 201.

CSC 350 Units: 1.5 Hours: 3-0

Computer Architecture
Introduces the basic building blocks of a general purpose computer with emphasis on techniques for speed and performance enhancement. Topics will include: central processor organization, arithmetic algorithms, lookahead and parallelism, memory hierarchy, control unit and microprogramming, input output devices, case studies of some recent micro, mini, and mainframe computers.

Prerequisites: 225, 230.

CSC 355 Units: 1.5 Hours: 3-2
Formerly: 250

Digital Logic and Computer Organization
Fundamentals of logic design, computer organization and hardware components of computers and embedded systems and the development of a structured design methodology. The use of ASIC and field programmable devices. An introduction to Hardware Description Languages and their implementation, finite state machines, the use of CAD algorithms and tools for system design, and the testing of digital systems. Topics include Boolean algebra, combinational and sequential circuits, memory organization, buses and arithmetic units, basic microprocessor design.

Note: Credit will be granted for only one of 355, 250.

Prerequisites: 230, MATH 122.

CSC 360 Units: 1.5 Hours: 3-1

Operating Systems
The major concepts of operating systems and study of the interrelationships between the operating system and the architecture of computer systems. Topics discussed include operating system structures, concurrent programming techniques, CPU scheduling, deadlocks, memory management, file systems and protection.

Prerequisites: 225; 230 or CENG 255; SENG 265 or CENG 241.

CSC 361 Units: 1.5 Hours: 3-2

Computer Communications and Networks
An introduction to concepts in computer communication and networks. Topics will include layered network architectures, packet switching networks, local area networks, protocol design, and network security.

Note: Credit will be granted for only one of 361, 450, CENG 460.

Prerequisites: 225, 230, SENG 265.

CSC 370 Units: 1.5 Hours: 3-0
Formerly: 470

Database Systems
The use and operating principles of database management systems. Topics include: data entities and relationships; data modelling using Entity-Relation Diagrams: hierarchical, network and relational models of databases; query languages; physical representation of data in secondary storage; relational algebra and calculus as applied to the design of databases; security and integrity in the context of concurrent use; and basic ethical issues associated with database design and use.

Note: Credit will be granted for only one of 370, 470, HINF 200, 300.

Prerequisites: 225, SENG 265 or CENG 241.

CSC 371 Units: 1.5 Hours: 3-0

Data Management and Visualization
This course is intended for non-computer science students who are interested in data management, analysis and visualization. Topics include database design; Structured Query Language (SQL); data analysis with SQL, the R language, and advanced spreadsheets; data visualization; information retrieval; the semantic web. Databases and tools will be reviewed and compared.

Note: May not be counted for credit towards a Computer Science degree or Bachelor of Software Engineering degree.

Prerequisites: Math 11 and third-year standing.

CSC 375 Units: 1.5 Hours: 3-0

Introduction to Systems Analysis
The methods and methodologies used in analyzing and designing various types of systems. Topics include: project definition; CASE tools; data gathering; structured analysis and design; man-machine interface; database design; system controls; hardware selection; and system testing, implementation and operation. Students will be assigned to a project team involved in a system study as part of the course.

Prerequisites: SENG 265; or HINF 130 or 172, and either 140 or 240.
Pre- or corequisites: HINF 140 may be taken as a corequisite.

CSC 390 Units: 1.5 Hours: 3-5

Exchange Term
Where the department has entered into an exchange agreement with another Department in Canada or elsewhere, students may register in this course for up to 10 years per term towards their degree at the University of Victoria. The terms and conditions of a student’s enrollment in an exchange term, the number of units of credit authorized and the requirements for successful completion of the term are governed by the regulations adopted by the department.

Note: May be taken twice.

Prerequisites: Permission of the Chair.

Grading: COM, F.

CSC 421 Units: 1.5 Hours: 3-0

Introduction to Artificial Intelligence
An introduction to the basic concepts and techniques of Artificial Intelligence. The main successes and challenges throughout history will be covered. Topics include heuristics, searching, rule based programming (in Lisp and/or Prolog), knowledge representation in standard and nonstandard logics, neural networks and feature spaces. Applications to game playing, natural language processing, and recognition/classification.

Note: Credit will be granted for only one of 421, CENG 420 unless permission is granted by the Chair or Director responsible for the student’s degree program.

Prerequisites: 225 and fourth-year standing.

CSC 422 Units: 1.5 Hours: 3-0

Graph Algorithms
Detailed study, from the algorithmic point of view, of some tractable and intractable graph problems. Tractable problems covered include: path problems, spanning trees, network flows, matchings, planarity testing.

The theory of NP completeness is reviewed and applied to graph problems which are apparently intractable, e.g., the clique, independent set, vertex cover, Hamiltonian circuit, Travelling Salesman and colouring problems. Approximation and probabilistic solutions to the intractable problems are discussed.

CSC 423 Units: 1.5 Hours: 3-0

Randomized Algorithms
Basic techniques in design and analysis of randomized algorithms: moments and deviations, Markov chains and random walks, martingales, and algebraic techniques. Other topics include: the probabilistic method, random structures, and complexity. Applications are selected from: parallel algorithm, routing networks, combinatorial optimization, data structure, approximate solutions to intractable problems, cryptography, pattern matching, and computational geometry.

Note: Credit will be granted for only one of 423 and a topics course with similar content.

Prerequisites: A minimum grade of B+ in 225, a minimum grade of B+ in MATH 222 and third- or fourth-year standing.

CSC 425 Units: 1.5 Hours: 3-0
Formerly: 420

Analysis of Algorithms
General techniques for designing and analyzing algorithms; an in-depth examination of several problems and algorithms with respect to their time and space requirements; advanced data structures; sorting and searching; graph algorithms; backtracking; NP-complete problems; approximation algorithms.

Note: Credit will be granted for only one of 425, 420.

Prerequisites: 320, 326.

CSC 426 Units: 1.5 Hours: 3-0

Computational Geometry
Algorithms and data structures that are used to solve geometrical problems. Topics include geometric searching, convex polygons and hulls, Voronoi diagrams, plane sweep algorithms, proximity, and intersections. Application areas which are discussed include: computer graphics, VLSI design, and graph theory.

Prerequisites: 225, third- or fourth-year standing.

CSC 428 Units: 1.5 Hours: 3-0

Computational Biology Algorithms
The design, analysis and implementation of algorithms used in Computational Biology. Typical topics include algorithms for sequence alignment, database searching, gene finding, phylogeny and structure analysis.

Prerequisites: 225, third- or fourth-year standing.

CSC 428A Units: 1.5 Hours: 3-0

Combinatorial Algorithms
Exploration of the interfaces between combinatorics and Computer Science. Algorithms and data structures that are used to manipulate, generate, and randomly select combinatorial objects, including sets, permutations, combinations, trees, graphs. Methods for analyzing combinatorial algorithms such as recurrence relations, asymptotics, and amortized complexity.

Note: Credit will be granted for only one of 428A and a topics course with similar content.

Prerequisites: A minimum grade of B+ in 225, a minimum grade of B+ in MATH 222 and third- or fourth-year standing.
COURSE LISTINGS

CSC 429  Units: 1.5  Hours: 3-0
Cryptography
Fundamentals of modern cryptography. Topics include: review of classical and information-theoretic cryptography; block ciphers, DES, cryptanalysis of DES, modes of operation, AES; cryptographic hash functions and message authentication codes; public key cryptography, RSA, ElGamal and other public key systems, signature schemes; introduction to security protocols.
Prerequisites: MATH 222; or CENG 245; or MATH 133 and STAT 254. CSC 225 recommended.

CSC 435  Units: 1.5  Hours: 3-1
Compiler Construction
Compilation, including: lexical analysis, syntax analysis, semantic analysis, code optimization, and simple code generation. Students will implement a compiler for a simple language.
Prerequisites: 225, 320, 330.

CSC 445  Units: 1.5  Hours: 3-0
Formerly: 448A
Operations Research: Linear Programming
An introduction to linear programming and its applications. Topics include: the simplex method, the revised simplex method, computer implementations, duality. Optional topics include: parametric and sensitivity analysis, primal-dual algorithm, network simplex method, the network flow problem, and game theory. Typical applications include: fitting curves to data, the transportation problem, inventory problems and blending problems.
Note: Credit will be granted for only one of 445, 448A.
Prerequisites: 225, MATH 110 or MATH 211.

CSC 446  Units: 1.5  Hours: 3-0
Formerly: 448B
Operations Research: Simulation
An introduction to discrete event simulation. Topics include: elementary queueing theory, basic techniques of discrete event simulation, generating random numbers, sampling from non-uniform distributions, simulation programming using general purpose languages and also special purpose simulation languages.
Note: Credit will be granted for only one of 446, 448B.
Prerequisites: 115 or 160, STAT 252 or 254 or 260 or PHYS 242, and any 300 level Mathematics or Computer Science course.

CSC 449  Units: 1.5  Hours: 3-0
Numerical Linear Algebra
Gaussian elimination and its variants; sparse positive definite linear systems; sensitivity of linear systems; norms, condition, stability, scaling, iterative refinement; orthogonal matrices and least squares; eigenvalues and eigenvectors; the QR algorithm; the singular value decomposition.
Prerequisites: 349A or a minimum grade of B in 340.

CSC 454  Units: 1.5  Hours: 3-0
Fault Tolerant Computing
An introduction to selected issues in fault tolerant computing. Topics include: definitions of reliability, availability, safety, maintainability, testability and dependability; system protection through both hardware and information redundancy; quantitative methods for the evaluation of reliability; the design and test of integrated circuits; software fault tolerance and software testing. Includes a number of case studies of practical fault tolerant systems.
Prerequisites: 360.

CSC 460  Units: 1.5  Hours: 3-3
Design and Analysis of Real-time Systems
Fundamental issues in design of real-time operating systems and application software. Typical topics include: hard real-time scheduling, interrupt driven systems, process communication and synchronization, language requirements for real-time systems, decomposition of real-time requirements into process models, and case studies. A project involving design, implementation and testing of a real-time executive and real-time application software will also be included.
Prerequisites: 355, 360, and either SENG 321 or 365.

CSC 461  Units: 1.5  Hours: 3-3
Multimedia Systems
Introduction to multimedia systems and applications. Topics include multimedia system design issues, representation, processing and retrieval of temporal and non-temporal media types, data compression techniques, multimedia system architecture, operating systems, networking, quality of service and database system issues, object-oriented multimedia programming, user interface, virtual worlds. Completion of a minor lab project is required.
Prerequisites: 360 and either 361, 450 or CENG 460.

CSC 462  Units: 1.5  Hours: 3-3
Distributed Computing
Review of computer networking. Mechanisms including interprocess communication and remote procedure call. Distributed operating system design problems: kernels and microkernels, process models, virtual memory, naming and protecting. Distributed file systems. Fundamental problems in distributed computing; naming, ordering of events, replication and atomicity. Case studies.
Note: Credit will be granted for only one of 462, SENG.
Prerequisites: 360 and either 361, 450, or CENG 460.

CSC 463  Units: 1.5  Hours: 3-0
Wireless and Mobile Networks
An introduction to selected issues in wireless and mobile networks. Topics include: radio basics, mobility models, location management, handoff, QoS (Quality of Service), MAC (Medium Access Control), routing, and transport protocols over different types of wireless and mobile networks.
Prerequisites: 361 or 450 or CENG 460.

CSC 464  Units: 1.5  Hours: 3-0
Concurrency
Introduction to the foundations of concurrency theory and the issues of specification and verification of concurrent systems. Topics will include models of concurrency such as Petri nets, labelled transition systems, and traces; specification of concurrent systems/programs in formalisms including process algebras, statecharts, Petri nets and temporal logics; verification techniques such as bisimulation and model checking. Case studies will be taken from coordination problems, controller design, communication protocols, hardware and user interface design.
Prerequisites: 320, 360.

CSC 466  Units: 1.5  Hours: 3-0
Overlay and Peer-to-Peer Networking
Focuses on Layer 3 and above and the control plane of the Internet. Topics will include: overlay network architectures, peer-to-peer application models, end-to-end control mechanisms, inter- and intra-domain routing protocols, service provisioning, network measurement, and related best current practices on the Internet.
Prerequisites: 361 or 450 or CENG 460.

CSC 467  Units: 1.5  Hours: 3-0
Switching, Network Traffic and Quality of Service
Prerequisites: 361 or 450 or CENG 460.

CSC 471  Units: 1.5  Hours: 3-1
Fundamentals of Computer Rendering
Physical foundations of illumination techniques. Colour, radiometry, photometry and reflection models. The rendering equation and rendering methods including ray tracing and radiosity. Sampling and anti-aliasing theory and methods such as photon tracing, Monte Carlo techniques and texturing methods. Volume rendering and point based rendering methods, image-based rendering, real-time shading and novel photorealistic rendering techniques.
Prerequisites: 305.

CSC 472  Units: 1.5  Hours: 3-1
Fundamentals of Computer Modelling
Theory and practice of implicit and parametric modelling B-splines including NURBS and tensor product surfaces. Subdivision schemes and multi-resolution. Applications of wavelets to modelling. Solid modelling including constructive solid modelling, volume models, implicit and point based modelling. Blending, deformation, polygonization, the Blobtree and precise contact modelling. Meshing techniques such as mesh reduction. Procedural modelling methods such as L-systems, and sketch based modelling.
Prerequisites: 305.

CSC 473  Units: 1.5  Hours: 3-1
Fundamentals of Computer Animation
Principles of traditional animation, key framing, parametric and track animation, free form deformation, inverse kinematics, dynamics, spring mass systems, particle systems, numerical integration, Lagrangian constraints, space time constraints, collisions, human animation, behavioural animation, metamorphosis, implicit animation techniques, animating liquids, gases and cloth, motion capture. Animation interfaces (such as Maya) and introducing MEL scripting.
Prerequisites: 305.

CSC 475  Units: 1.5  Hours: 3-0
Music Retrieval Techniques
A comprehensive introduction to the emerging research area of Music Information Retrieval (MIR). Topics include techniques from signal processing, machine learning, information retrieval, human-computer interaction, and software engineering are applied in the design and development of MIR algorithms and systems.
Note: Credit will be granted for only one of 475, 484 (if taken in the same topic).
Prerequisites: Two of 330, 340, 360, 370, ELEC 260, 310, SENG 310, 330.

CSC 482  Units: 1.5  Hours: 3-0
Formerly: 482A, 482B, 482C, 482D
Topics in Algorithms
Topics depend primarily on the interests of the instructor. Entrance will be restricted to third- and fourth-year students who meet the prerequisites specified for the topic to be offered.
Notes: - Credit will be granted for only one of 482, 482A, 482B, 482C, 482D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.
CSC 483 Units: 1.5 Hours: 3-0
Formerly: 483A, 483B, 483C, 483D
Topics in Programming Methodology
Topics depend primarily on the interests of the instructor. Entrance will be restricted to third- and fourth-year students who meet the prerequisites specified for the topic to be offered.
Notes: - Credit will be granted for only one of 483A, 483B, 483C, 483D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 484 Units: 1.5 Hours: 3-0
Formerly: 484A, 484B, 484C, 484D
Topics in Scientific Computing
Topics depend primarily on the interests of the instructor. Entrance will be restricted to third- and fourth-year students who meet the prerequisite specified for the topic to be offered.
Notes: - Credit will be granted for only one of 484A, 484B, 484C, 484D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 485 Units: 1.5 Hours: 3-0
Topics in Systems
Topics depend primarily on the interests of the instructor. Entrance will be restricted to third- and fourth-year students who meet the prerequisite specified for the topic to be offered.
Notes: - Credit will be granted for only one of 485A, 485B, 485C, 485D, 485E, 485F, 485G, 485H (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 486 Units: 1.5 Hours: 3-0
Formerly: 486A, 486B, 486C, 486D
Topics in Graphics
Topics depend primarily on the interests of the instructor. Entrance will be restricted to third- and fourth-year students who meet the prerequisite specified for the topic to be offered.
Notes: - Credit will be granted for only one of 486A, 486B, 486C, 486D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 490 Units: 1.5 or 3.0
Directed Studies
Note: Students must consult the department before registering. May be taken more than once for credit in different topics with permission of the department.

CSC 497 Units: 1.5 Hours: 0-0-6
Interdisciplinary Project
Research under the direction of a faculty member. The student is required to pursue an interdisciplinary project, prepare a written report and to present a seminar describing the work.
Prerequisites: Fourth-year standing in a Computer Science Combined Program.

CSC 498 Units: 1.5 Hours: 0-6
Bioinformatics Project
Research under the direction of a faculty member. The student is required to pursue a project, prepare a written report and to present a seminar describing the work.
Prerequisites: Fourth-year standing in the Bioinformatics Option or permission of the department.

CSC 499 Units: 1.5 Hours: 1.5-4.5
Honours Seminar and Project
Seminar and research project under the direction of a faculty member. The student is required to pursue an independent project, to prepare a written report and to present a seminar describing the work.
Note: Open to fourth-year Computer Science, Computer Science/Mathematics, Computer Science/Physics and Computer Science/Statistics Honours students only.

CW Creative Writing (En’owkin Centre)
Certificate Program in Foundations in Indigenous Fine Arts
Faculty of Fine Arts
CW (E) courses are offered only through the En’owkin Certificate Program in Indigenous Fine Arts.

CW 150E Units: 1.5
Writing for Children from a First Nations’ Perspective
The techniques used in writing for children. An examination of Native Indian legends and stories and the imagery contained therein as well as the importance of uniting illustrations to story line will take place. Contemporary story writing, as well as traditional, will be emphasized.

CW 155E Units: 1.5
Critical Process and World View
A critical examination of Aboriginal literature, including oral story-telling methods and techniques, enabling students to apply that critical process to their own writing.

CW 156E Units: 1.5
Critical Process, Symbolism and Oral Tradition
Focuses on and encourages the use of archetypes in poetry, prose and drama. Native literature archetypes such as coyote, the Thunderbird, eagle, owl and horse will be discussed, and the nature of their use by Native authors will be examined. Students will examine the literary forms that have been developed by indigenous peoples everywhere with a view to using some of these forms as models for their own creative efforts. Oratory, legends and stories, songs, music, dance, Native humour, metaphor, symbolism, rhythm, and the use of sign language will be studied.

CW 160E Units: 1.5
First Nations’ Nonfiction
An examination of First Nations’ nonfiction writing such as essays, autobiographies, biography, and political oratory, both in the modern and historic context.

CYC 212E Units: 1.5
Structure in Cinema and Television Drama
A lecture course surveying the structural characteristics of screen drama, making use of published Aboriginal film and television scripts as well as indigenous film from other countries.

CYC 100A Units: 1.5 Hours: 3-0
Formerly: part of 100, 200
Introduction to Professional Child and Youth Care Practice: Part One
Historical and contemporary conversations about the professional field of child and youth care and its diverse practices and contexts. Introduction to strength-based practice, inclusiveness, caring in context, normative development, and critical reflection. Emphasis on socially locating oneself, building relationships, processes of change, enhancing ethical discernment, promoting cultural competencies and a commitment to social justice, cultivating a professional orientation, and understanding theory in everyday practice.
Note: Credit will be granted for only one of 100A, 100B, 200A, 251.

CYC 100B Units: 1.5 Hours: 3-0
Formerly: part of 100, 200
Introduction to Professional Child and Youth Care Practice: Part Two
Continuation of 100A
Note: Credit will be granted for only one of 100B, 100A, 200A, 251.
Prerequisites: 100A.

CYC 101 Units: 1.5 Hours: 3-0
Introduction to Child and Youth Care Practice and Communications Technology
A communications technology-based introduction to the fundamental concepts, relationships and professions associated with the field of Child and Youth Care. Introduces key skill areas that will facilitate learner/practitioner success. Students will be introduced to the role and function of technology to support both life-long learning and child and youth care practice.

CYC 130 Units: 1.5
Professional Communications in Indigenous Child and Youth Care
Facilitates development of professional communication skills for practice in Indigenous child and youth care settings. Emphasis is on written expressions and career relevant assignments.

CYC 131 Units: 1.5
Child and Youth Care Practice in Indigenous Settings
Structured opportunities for learners to identify, visit and examine examples of child and youth care practice in their own locale and within their own cultural frame of reference. They will identify, describe and explore the significance of various forms of practice within the field. Students will identify mentors in their locale, network and do a survey of relevant services and sites in their community.

CYC 132 Units: 1.5
Indigenous Leadership in Child and Youth Care
An online course that develops the learner’s understandings of various forms of leadership that can contribute to achieving Indigenous goals for children, youth, families and their communities. Learners will study historical and contemporary Indigenous leaders in fields related to children and youth with an emphasis on strategies, attributes, skills and achievements within their own cultural frame of reference and in broader contexts. Learners will concep-
### COURSE LISTINGS

- **CVC 140**  
  Units: 1.5  
  Hours: 3-0  
  **Written Communications in Child and Youth Care**  
  Fosters the development of written academic communication skills through critical inquiry, thinking, reading and writing. Students will explore current issues and context within CVC practice, as they demonstrate an understanding of effective writing process from planning through research and editing. Students will identify their strengths and address the gaps in their written communication skills.  
  **Note:** This course should only be taken on the recommendation of an Undergraduate Advisor or Instructor.

- **CVC 152**  
  Units: 1.5  
  Hours: 3-0  
  Formerly: 252  
  **Introduction to Helping Skills in Child and Youth Care Practice**  
  Focuses on introducing foundational helping and communication skills using video recording. The students explore the use of interpersonal and communication skills, helping strategies, and the development of therapeutic relationships within the context of the core elements of child and youth care practice.  
  **Note:** Credit will be granted for only one of 152, 252.

- **CVC 166A**  
  Units: 1.5  
  **Introduction to Helping Skills in Child and Youth Care Practice**  
  Focuses on introducing foundational helping and communication skills using video recording. The students explore the use of interpersonal and communication skills, helping strategies, and the development of therapeutic relationships within the context of the core elements of child and youth care practice.  
  **Note:** Credit will be granted for only one of 166A, 366A, 366.

- **CVC 166B**  
  Units: 1.5  
  Hours: 3-0  
  Formerly: 366B  
  **Lifespan Development (Conception to Late Childhood)**  
  Introduces students to concepts and models of how human behaviour is acquired, maintained, and modified. Focuses on human development from conception to late childhood as a knowledge base for practice with children, youth, and families.  
  **Note:** Credit will be granted for only one of 166B, 366B, 366.

- **CVC 171**  
  Units: 1.5  
  Hours: 3-0  
  Formerly: 373  
  **Introduction to Families: Issues, Patterns, and Processes**  
  Introduces frameworks and theories for conceptualizing Child and Youth Care practice with families who are experiencing a variety of challenges and difficulties. Taking an international perspective, family issues are explored in terms of diversity (sexual orientation, ethnic affiliation/identity, gender, and socio-economic status). The ultimate goal is to help students understand the complexity and diversity of family issues, patterns and processes in local and international contexts in order to engage intentionally in practice.  
  **Note:** Credit will be granted for only one of 171, 373.

- **CVC 205**  
  Units: 3.0  
  Hours: 3-0  
  Formerly: 301  
  **Applying Change Theory in CVC Practice**  
  An introduction for students to various orientations towards planned change. How change occurs and how helping professionals can facilitate such change is the main focus. By critically reflecting on fundamental assumptions embedded in certain theories students can learn to integrate and synthesize knowledge into their counselling perspectives.  
  **Note:** Credit will be granted for only one of 205, 301, 351.

- **CVC 210**  
  Units: 1.5  
  Hours: 1-10  
  **Supervised Practicum I**  
  An opportunity to practice evolving CVC skills in an applied setting. Students work directly with children/youth in a supervised practice situation in order to promote professional skill acquisition and integrate the knowledge obtained through coursework. Students are required to complete 120 hours.  
  **Prerequisites:** Year 1 required CVC courses or equivalent.

- **CVC 220**  
  Units: 1.5  
  Hours: 3-0  
  **Introduction to CYC Practice in Indigenous Contexts**  
  An exploration of Indigenous perspectives and contexts, both historical and contemporary, in relation to practice with Indigenous children, youth, families, and communities. Readings, activities, and assignments provide an historical overview of colonization and describe various strategies for supporting decolonization and culturally relevant practice.  
  **Prerequisites:** Second-year standing or permission of the department.

- **CVC 230**  
  Units: 1.5  
  Hours: 3-0  
  **Introduction to CYC Practice in Indigenous Contexts**  
  An introduction to historical theoretical perspectives in the western philosophy of ethics, an overview of decision-making models and current professional perspectives on ethics in Child and Youth Care and human service practice. Taught using experiential learning and critical thinking strategies designed to develop personal approaches to ethical choice making and a commitment to ethical practice and social justice. Students will develop an ethical decision-making framework for application to their current and future practice.  
  **Note:** Credit will be granted for only one of 230, 340.  
  **Prerequisites:** Second-year standing.

- **CVC 240**  
  Units: 1.5  
  Formerly: 340  
  Hours: 3-0  
  **Ethical Decision-Making in Child and Youth Care Practice**  
  An introduction to ethical theoretical perspectives in the western philosophy of ethics, an overview of decision-making models and current professional perspectives on ethics in Child and Youth Care and human service practice. Taught using experiential learning and critical thinking strategies designed to develop personal approaches to ethical choice making and a commitment to ethical practice and social justice. Students will develop an ethical decision-making framework for application to their current and future practice.  
  **Note:** Credit will be granted for only one of 240, 340.  
  **Prerequisites:** Second-year standing.

- **CVC 250**  
  Units: 1.5  
  Hours: 3-0  
  **Introduction to Law in Child and Youth Care Contexts**  
  The Law as an expression of social policy, and the processes by which laws are developed, enacted and changed; Family Law and the Family Courts; special reference to laws affecting children; human rights as they apply to social services; the organization of legal services and the legal accountability and responsibilities of child and youth care workers, and others in the social service field.  
  **Note:** Credit will be granted for only one of 250, 350A, SOCW 350A.  
  **Prerequisites:** Second-year standing or permission of the department.

- **CVC 251**  
  Units: 1.5  
  Hours: 3-0  
  **An Introduction to Child and Youth Care for Human Services Diploma Students - Bridging Course One**  
  An introduction to the field of CVC for students who are entering the BCYC program following successful completion of a human services diploma. Readings, practice scenarios, activities and assignments will encourage learners to integrate their existing knowledge and skills in the broader CVC field.  
  **Note:** Credit will be granted for only one of 251 or (100A, 100B).

- **CVC 260**  
  Units: 0.5, 1.0, 1.5 or 3  
  Hours: 3-0  
  **Special Topics in Child and Youth Care**  
  An opportunity to examine selected current issues in child and youth care.  
  **Note:** With approval of a faculty advisor, may be taken more than once for credit.

- **CVC 265**  
  Units: 1.5  
  Hours: 3-0  
  Formerly: 465  
  **Introduction to Group Work in Child and Youth Care Practice**  
  A presentation, in an experiential format, of theoretical approaches and techniques related to the planning and facilitation of groups for children and youth. Students will explore how to plan for, and to facilitate groups in a participatory, skill building, experiential learning format.  
  **Note:** Credit will be granted for only one of 265, 465.  
  **Prerequisites:** Year 1 required CVC courses or equivalent.

- **CVC 270**  
  Units: 1.5  
  Hours: 3-0  
  **Creating Programs and Environment for Young Children**  
  Is intended for students who do not already have an Early Childhood Education certificate. This course is designed to take students through planning, development and implementation of early childhood education programs. Students will develop an understanding of the legal and ethical issues related to early childhood education programming.  
  **Prerequisites:** 205, 310, 311, 1.5 or 3.0  
  **Corequisites:** 205, 338.

- **CVC 280**  
  Units: 4.5  
  Hours: 3-0  
  **Supervised Practicum II**  
  Students work directly with children/youth in a supervised practice situation in order to promote professional skill acquisition and integration. Emphasis is placed on observation and recording skills, understanding the structure and functioning of a service agency, and fostering the student's awareness of his or her functioning in relation to children, youth and agency workers. Attention is also given to developing beginning level case planning, intervention, and case presentation skills with both a one-to-one and a group focus. Students are required to complete 286 hours.  
  **Prerequisites:** 210, 3 units of development theory; third-year standing; restricted to Child and Youth Care students.  
  **Corequisites:** 205, 338.

- **CVC 310**  
  Units: 4.5  
  Hours: 3-0  
  **Directed Studies in Child and Youth Care**  
  Research projects, additional course work or directed readings in a specified area.

- **CVC 310A**  
  Units: 4.5  
  Hours: 3-0  
  **Child and Youth Care Practicum by Prior Learning Assessment (PLA)**  
  Students with significant work or volunteer experience in Child and Youth Care may complete the first CVC practicum by Prior Learning Assessment. Students will present evidence of their prior learning and practice experience in the form of a portfolio which specifically demonstrates the learning objectives and outcomes required in CVC 310.  
  **Note:** Restricted to Child and Youth Care students. 5 years of paid CVC experience is strongly recommended.  
  **Prerequisites:** Permission of the department.

- **CVC 330**  
  Units: 1.5  
  Hours: 3-0  
  **Applied Practice in Indigenous Contexts**  
  Examines systems of working in meaningful and reciprocal relationships with Indigenous communi-
Applying Change Theory in CYC Practice with
Applying Law in Child Protection and Child and
Youth Care Practice

Prerequisites: 230.

CYC 338
Units: 3.0
Hours: 3-0
Applying Developmental Theory in Child and Youth Care Practice
Focuses on the application of contemporary child developmental theories and research, as well as cultural and social class theories, to child and youth care practice. These developmental theories will be applied using a multidimensional, culturally situated, developmental perspective to a wide variety of child and youth care situations, including a variety of biologically-based atypical developmental conditions. The interrelationships between applied child development and a variety of contexts such as family, peer group, school, community, domestic and global conditions will also be explored.

Prerequisites: 166A and 166B or equivalent.
Corequisites: 210 or equivalent.

CYC 350
Units: 1.5
Hours: 3-0
Formerly: 350B
Applying Law in Child Protection and Child and Youth Care Practice
An opportunity to put into practice the theoretical and legal foundation gained from the prerequisite course. Students will explore issues of diversity and the dynamics of law, Child and Youth Care practice in legal contexts, and ethical considerations within a legal framework. Students will practice specific skills in Child Protection Work such as interviewing, documentation, context analysis, applying practice standards, interpreting law, critical analysis and reflective reviewing.

Note: Credit will be granted for only one of 350, 350B.
Prerequisites: 250 or equivalent.

CYC 351
Units: 3.0
Hours: 3-0
Applying Change Theory in CYC Practice with Contemporary Families
Integrates theory and practice in the application of change theories in CYC work with contemporary families. Focuses on issues and techniques in assessment; case planning and intervention, while studying major therapeutic approaches, associated philosophies, goals, strategies and techniques. Practical models for case consultation, presentation and evaluation will also be covered. Upon completion, students demonstrate competency in these professional practice areas, real and simulated, and analyze the relationship between professional knowledge, skills, values and individual styles.

Note: Credit will be granted for only one of 351, 205, 286, 356.
Prerequisites: Permission of the department.

CYC 356
Units: 1.5
Hours: 3-0
Formerly: 266
Child and Youth Care Practice with Families
Focuses on the various kinds of strategies used when working with families in a variety of settings. Using a strengths based approach, it covers interventions that promote positive ways of improving family patterns when difficulties are presented. Students will be introduced to a variety of interventions used to work collaboratively with family when changes are needed.

Note: Credit will be granted for only one of 356, 266, 351, 486.
Prerequisites: Year 1 required CYC courses completed or equivalent and 205.

CYC 360
Units: 0.5, 1.0, 1.5 or 3 hours: 3-0
Special Topics in Child and Youth Care
An opportunity to examine selected current issues in child and youth care.

Note: With approval of a faculty adviser, may be taken more than once for credit. Also available for professional development.

CYC 361
Units: 1.5
Hours: 3-0
Supervision in the Human Services
Course content includes a range of supervisory roles and responsibilities, the stages through which each supervisory relationship passes, the obligations and limits related to the supervisory relationship, relevant communication skills, documentation formats, performance appraisal strategies, professional development strategies, personal leadership and supervisory styles, and contemporary issues related to the practice of supervision.

Note: Also available for professional development non-credit.
Prerequisites: Second-year standing, college diploma or permission of the instructor.

CYC 364
Units: 1.5
Hours: 3-0
Disability and Child and Youth Care Practice
An introduction to disabilities for child and youth care practitioners. It includes an historic perspective on disability, demographics, definitions and conceptual models of disability and service delivery. Quality of life, inclusion, culture, legislation, public policy and ethical issues relating to persons with disabilities and their families are examined in this course.

Note: Credit will be granted for only one of 364, HSD 464, SOCW 469 (if taken prior to 2010).
Prerequisites: Second-year standing.

CYC 365
Units: 1.5
Hours: 3-0
Theory and Practice of the UN Convention on the Rights of the Child
Participants will increase their knowledge, skills, and self-awareness on the Theory and application of the UN Convention on the Rights of the Child. Students use a “hands on” approach to understand and apply the Convention. Students learn about the Convention and its relation to the Canadian Human Rights Framework, understand the role of international agencies, national, provincial, municipal, and treaty bodies in implementing the convention, and synthesize and apply this understanding through practice with children, families, cultures, and communities. A case study approach is used to critically examine the impact of this document across a range of program settings for children and families.

Note: Also available for professional development.
Prerequisites: Second-year standing, college diploma or permission of the department.

CYC 370
Units: 1.5
Hours: 3-0
Formerly: 474
Applying Assessment and Case Planning in Child and Youth Care Practice
Focuses on the skills necessary to working professionally with individuals, groups and families; intake interviewing needs and risk assessment, intervention planning and implementation, case management and reporting. Knowledge and skill in issues of abuse and neglect will be developed. Students will be required to apply change theory in a laboratory learning setting and produce professional documentation of their work. Feedback on skill application is provided in class and through video recordings.

Note: Credit will be granted for only one of 370, 474.
Prerequisites: 210 and 205 or 351.

CYC 374
Units: 1.5
Hours: 3-0
Promoting Positive Outcomes in Children’s Environments
Designed for all practitioners who work with young children, an exploration of the relationships between risks, opportunities, and change in their environments. The key premise is the belief that practitioners can respond to situations of risk and promote positive outcomes for young children and their families by supporting healthy development and applying knowledge ethically and skillfully, within the children’s environmental contexts.

Note: Also available for professional development.
Prerequisites: Second-year standing, college diploma or permission of the department.

CYC 379
Units: 1.5
Hours: 3-0
Also: HSD 470
Interdisciplinary Perspectives on Sub-Saharan Africa
An overview of key African issues, through presentations by University of Victoria professors with research and development interests in Africa. Topics include pre-historic and paleo-anthropology, literature, and the arts, colonial and post-colonial histories, and contemporary issues such as governance, HIV-AIDS and human rights.

Note: Credit will be granted for only one of 379, HSD 470.

CYC 385
Units: 1.5
Hours: 3-0
Practices for Young Children and Families: Historical and Contemporary Perspectives
In this foundational course for the Early Years Specialization, the historical and philosophical trends that influence and shape services and policies for young children and their families will be examined. Students will investigate the roots of some of the current issues in the area of the early years through an applied analysis of local, national and international approaches to services and policies for young children and their families. This analysis will be framed within a social justice approach.

Prerequisites: Third-year standing.

CYC 387
Units: 1.5
Hours: 3-0
Leadership, Advocacy and Policy for the Early Years
Explores leadership, advocacy and policy within the context of key political debates and controversies affecting early years services. Key areas of study will include: creation of networks and relationships with governmental and non-governmental organizations; roles of advocacy groups concerned with services and decision-making processes within particular social, cultural, economic and cultural contexts; policy development; and the role practitioners play as advocates engaged in a global context.

Prerequisites: Third-year standing.

CYC 390
Units: 0.5, 1.0, 1.5 or 3.0
Directed Studies in Child and Youth Care
Research projects, directed readings, or additional course work in a specified area.

Note: May be taken more than once for credit in different topics.

CYC 410
Units: 4.5
Hours: 1-10
Advanced Supervised Practicum
This supervised practicum focuses on the student’s chosen professional area of interest and provides an opportunity to apply case planning, intervention, and evaluation skills at an advanced level. Professional consultation, clinical functioning, and the integration of theory and practice are emphasized. Students are required to complete 280 hours.

</table>
specific community. Elders and helping professionals address the service needs and current responses within the community. Students will also learn and practice methods of obtaining information about children’s development through direct observation in formal and informal settings and will be supervised in making informed interpretations.

**CYCB 111**  
Units: 1.5  
Hours: 1.5-11  
**Practicum II: The Whole Child**  
Opportunities to begin participating with young children in early childhood care and education settings. Students will focus on observing young children across physical, emotional, social, cognitive and spiritual areas of development. While observing children, students will begin to develop an understanding of how to respond to children’s needs and interests by planning and implementing activities that are developmentally and culturally appropriate. Students will become familiar with the roles and responsibilities of the early childhood practitioner by participating as a team member with staff and interacting with children and their families in communities under supervision.  
Prerequisites: 110.

**CYCB 112**  
Units: 1.5  
Hours: 1.5-11  
**Practicum III: The Child in the Curriculum**  
Further opportunities to learn about early childhood care and education settings. Students take increasing initiative and develop self-evaluative skills in planning and conducting activities and creating effective learning environments. Students will gain understanding of the methods and responsibilities of professional work by planning and implementing programs. The objectives also include developing awareness of practice in a variety of settings, learning appropriate care routines and developing good interpersonal skills for working with children.  
Prerequisites: 111.

**CYCB 120**  
Units: 1.5  
Hours: 4-0  
**Introduction to Play (ECCE)**  
Program planning for young children and the concept of learning through play. Explores the relationship between play and child development, the stages of children’s play and factors that influence play. Encourages students to incorporate theories and research findings about play into a description of appropriate practice. In addition to text information, throughout the course Elders and students generate insights about play from the perspective of their own First Nation’s culture.

**CYCB 121**  
Units: 1.5  
Hours: 4-0  
**Foundations of Curriculum Planning (ECCE)**  
Builds on the knowledge students acquired in Introduction to Play (CYCB 120). Provides students with the foundation knowledge and skills needed to plan culturally and developmentally appropriate programs for young children in their communities. Students are introduced to the guidelines for curriculum planning. Students explore the concept of program planning with an introduction to specific contact areas while discussing the role of the child, the educator and the parent. Throughout the course Elders and students generate insights into program planning from the perspective of their own community and culture.  
Prerequisites: 120.

**CYCB 122**  
Units: 1.5  
Hours: 4-0  
**Curriculum Design and Implementation (ECCE)**  
Builds on the knowledge students acquired in Introduction to Play (CYCB 120) and Foundations of Curriculum Planning (CYCB 121). Provides students with expanded experiences in designing and implementing programs for preschool children. Specific curriculum content areas of art, music, math, science and social studies are further developed in the context of refining program planning developed in the two previous courses. Throughout the course Elders and students generate insights into planning for children from their own community and culture.  
Prerequisites: 120, 121.

**CYCB 123**  
Units: 1.5  
Hours: 4-0  
**The Caring and Learning Environment (ECCE)**  
Taken either concurrently or after Curriculum Design and Implementation (CYCB 122), studies the total environment of a child care facility and the integration of these environmental elements. Students investigate theories of building environments that nurture and educate, design and plan such environments, and examine ways of administering and managing these environments. Acknowledges and builds on the knowledge of environmental and content areas that students have previously studied, and includes activities intended to elicit from them the perspectives of their own experience. Throughout the course Elders and students generate insights into learning environments from the perspective of First Nations cultures.

Pre- or corequisites: 122.

**CYCB 140**  
Units: 1.5  
Hours: 4-0  
**Introduction to Human Behaviour**  
An overview of the principles that guide the scientific study of human behaviour. The child and youth care profession rests on a large and constantly expanding base of research. Introduces students to some of that research. Students learn the terminology and theories that serve as a foundation for future coursework in child and youth care. Throughout the course Elders and students generate insights into human behaviour from the perspective of their own culture.

**CYCB 141**  
Units: 1.5  
Hours: 4-0  
**Child Development I**  
Introduces students to normative child development from conception to toddlerhood. Includes an overview of the major themes and theories in child development addressing research in the areas of physical, intellectual, and psychosocial development. As well as including insights from major researchers and theorists whose roots lie in western traditions, builds on traditional practices and theories of the First Nations community by including Elders’ teachings and experiences of the students.

**CYCB 142**  
Units: 1.5  
Hours: 4-0  
**Child Development II**  
A continuation of the study of child development from early childhood to late adolescence addressing perspectives on physical, intellectual, psychosocial, and moral development of children and youth. Acknowledges and builds on the knowledge of child development that students already possess, and it includes activities intended to elicit from them the perspectives of their own experience. Throughout the course Elders and students generate insights into child development from the perspective of their own community and culture.  
Prerequisites: 141.

**CYCB 150**  
Units: 1.5  
Hours: 4-0  
**Interpersonal Communications**  
Introduces students to the characteristics and dynamics of interpersonal communications. Provides an opportunity for students to consider different communication practices, and gain personal awareness. They also improve their skills in the areas of self-concept, personal learning styles, perception, verbal and nonverbal communication, active listening, understanding of relationships, and the expression of feelings. Throughout the course, Elders and students give insights into interpersonal communications from the perspective of their own culture. Students also produce a portfolio that represents their reflection on and integration of the course material.
already possess, and includes activities intended to elicit students’ perspectives of their experience. Throughout the course, Elders and students will work from the perspective of their own community and culture to generate knowledge about supporting adolescents.

**Note:** Elective.

**CYCB 222 Units:** 1.5 **Hours:** 4-0

**Program Development for Infants and Toddlers**

Developing child care programs for children (0-2 years). Theories of caring and attachment as a foundation to care routines will be studied. Students will explore culturally specific approaches through consultation with respected community members. Using an ecological model that situates child care within social systems, students will develop partnerships with families and community networks and explore ways to access resources within and beyond their communities.

**Note:** Elective.

**CYCB 230 Units:** 1.5 **Hours:** 4-0

**The Ecology of Health, Safety and Nutrition for Children**

Methods of meeting children’s needs for health, safety and nutrition vary according to culture and environment, so this course will explore the needs of children in the communities where learners plan to work. Traditional ways of ensuring health and safety will be considered alongside strategies for educating and working with parents, families and community members. Students will identify a community health issue, identify health indicators, and explore community-based solutions.

**Note:** Elective.

**CYCB 231 Units:** 1.5 **Hours:** 4-0

**Administration of Child Care Facilities**

The essentials of administering a child care facility on and off reserve will be explored including: staffing management; program development; budget management; implementing statutory regulations and meeting regional health standards. Students will be required to plan and design a new childcare facility, including identifying and meeting all appropriate regulations and standards for quality. Students will formulate an illustrative set of policies to establish practice principles appropriate to the context of their community.

**Note:** Elective.

**CYCB 240 Units:** 1.5 **Hours:** 4-0

**Introduction to Supported Child Care for Children with Special Needs**

An exploration of a range of methods for meeting the needs of children who require additional supports. Focuses on planning for inclusive child care while incorporating environmental and contextual supports, including the family. Students will examine the principles of inclusive child care within the current policy and statutory environment. Students will locate resources within the context of rural practice and critically examine the principle of cultural responsiveness in inclusive child care.

**Note:** Elective.

**CYCB 250 Units:** 1.5 **Hours:** 4-0

**Introduction to Planned Change**

Introduces students to the components of helping relationships and models of helping used by professional child and youth care practitioners and provides opportunities to understand planned interventions within historical First Nations contexts. Students will explore the interpersonal dimensions of child and youth care practice in relation to supporting children, youth and families. Throughout the course Elders and students will generate insights into professional helping skills from the perspectives of their First Nations culture(s).

**CYCB 251 Units:** 1.5 **Hours:** 4-0

**Communication Skills for Professional Helpers**

Acknowledges and builds on prior knowledge of communication skills and includes activities that elicit perspectives emerging from their own experience. Designed to provide students with opportunities to learn and practice helping skills used by professional child and youth care workers in situations requiring interventions. Throughout the course the perspectives of the Indigenous community re: communication skills for professional helpers will be elicited from Elders and students.

**CYCB 260 Units:** 0.5, 1.0, 1.5 or 3 **Hours:** 3-0

**Special Topics in Child and Youth Care**

An opportunity to examine selected current issues in child and youth care.

**Note:** With approval of a faculty adviser, may be taken more than once for credit.

**CYCI**

**Child and Youth Care International School of Child and Youth Care Faculty of Human and Social Development**

**CYCI 460 Units:** 1.5 **Hours:** 3.0

**Special Topics**

Topics vary according to learner priorities and context. Topics have included (and may include in future): Studies of Early Childhood Development (ECD) Policy Analysis, Development and Implementation; Quality in ECD Programming; Networking; and Information Technology Skills for ECD.

**Note:** Two special topics courses in Child and Youth care are required for completion of the Professional Specialization Certificate in International Child and Youth Care.

**CYCI 484 Units:** 1.5 **Hours:** 3-0

**Historical and Contemporary Theoretical Perspectives in Early Childhood Care and Development**

Commencing with activities focusing on data collection and critical analysis, the student will: 1) gather data regarding a key Early Childhood Development issue in the country; 2) critically analyze those data in terms of the social, cultural, historical and philosophical forces that have impacted and shaped the issue, 3) develop an Action Plan designed to effectively address the issue, and 4) evaluate the effectiveness of the implemented Action Plan.

**CYCI 485 Units:** 1.5 **Hours:** 3-0

**Child and Adolescent Development in Context**

Supports learners in furthering their understandings of the holistic development of children in different contexts. Focus is on inputs to child development including biology, health, nutrition, gender, socialization, formal and informal schooling, physical environment, culture, religion, politics, and economics. A bio-ecocultural model will be used as a template for understanding determinants of development in various contexts.

**CYCI 486 Units:** 1.5 **Hours:** 3-0

**Professional Leadership in Early Childhood Care and Development**

Effective leadership in organizations and an examination of leadership in the context of managerial work. Consistent with a holistic perspective, participants will begin exploring leadership from the personal perspective before moving out to investigate organizational, community and global contexts. Participants will centre on their own leadership or management style and identify areas of strength and growth to focus in a stronger way, their learning experience throughout the program.

**CYCI 487 Units:** 1.5 **Hours:** 3-0

**Models, Programs and Strategies for Intervention in Early Childhood Care and Development**

An international holistic, ecological approach to Early Childhood Care and Development (ECCD) programming models. Learners will gain an understanding of ECCD programming principles, assessment techniques, processes for setting project goals and making programming choices, as well as what is required for program implementation, evaluation and financing, by completing an in-depth analysis of an existing program.

**DSST**

**Disability Studies**

School of Public Health and Social Policy Faculty of Human and Social Development

**DSST 440 Units:** 1.5

**Introduction to Disability Studies**

Provides a broad overview of the models and theories that have traditionally guided professional approaches to working with people with disabilities. The implications of these constructions are explored in relation to the development of theory, policy and practice locally and globally.

**DSST 441 Units:** 1.5

**Enabling Technologies**

Focuses on innovations that enhance quality of life by enabling people with disabilities to participate in everyday life. Students will be encouraged to think through challenges relating to function to support innovations that enable people to be more independent.

**DSST 442 Units:** 1.5

**Living with Disability**

Invites students to explore disability and identify as it relates to the everyday lives of people with disabilities. From a social justice perspective, students examine the impacts of power inequities, inclusion/exclusion and marginalization. Through first person accounts, students will have opportunities to explore the realities of living with disability and critically examine the intersection of illness, disability and identity including an exploration of the strengths, capacities and contributions of people living with disability.

**DSST 443 Units:** 1.5

**Activism and Advocacy**

Focuses on activism and advocacy as crucial processes in the creation of social change to ensure the participation of people with disability as full and equal citizens in society. The processes and strategies of activism and advocacy will be examined. Students are encouraged to develop a critical ethical perspective in which to ground their activism and advocacy work.
ECON
Economics
Department of Economics
Faculty of Social Sciences

ECON 100  Units: 1.5, formerly 3  Hours: 3-0
The Canadian Economy - Problems and Policies
A discussion of some of the important issues in economic decision making in both private and public sectors of the Canadian economy with an introduction to the basic concepts of economic analysis.

Notes: - Not open for credit to students registered in or with credit in 103 or 104.
- Students wishing to proceed into the Commerce program at the University of British Columbia are advised to take 103 or 104 in their first year.

ECON 103  Units: 1.5  Hours: 3-1
Formerly: 201
Principles of Microeconomics
The principles of microeconomic analysis with special reference to the theory of demand, the theory of the firm and the theory of distribution.

Note: Credit will be granted for only one of 103, 201, ENGR 280 taken before May 2012, ADMN 310.
ECON 100 and 103 cannot be taken concurrently.

Prerequisites: Mathematics 12 or MATH 120 is recommended.

ECON 104  Units: 1.5  Hours: 3-1
Formerly: 202
Principles of Macroeconomics
The principles of macroeconomic analysis with special reference to fluctuations in income and prices, monetary and fiscal policies for economic stabilization.

Note: Credit will be granted for only one of 104, 202, ECON 100 and 104 cannot be taken concurrently.

Prerequisites: Mathematics 12 or MATH 120 is recommended.

ECON 111  Units: 1.5  Hours: 3-0
The Economy and the Environment
Investigates the linkages between economic activity and the environment. Studies the relationships between economic growth, trade, urbanization and the global environment, with a particular focus on urban air pollution, water pollution, hazardous waste, solid waste management and climate change. Environmental policy design, in both developed and developing countries, is the central unifying theme of the course. The course is non-technical in nature and does not require any background in economics or environmental studies.

Note: Credit will not be granted for 111 if 381 or ES 312 have already been completed. ECON 111 and 381 or ES 312 cannot be taken concurrently.

ECON 112  Units: 1.5  Hours: 3-0
Strategy, Conflict and Co-operation
A non-technical introduction to the study of interactive decision making. Key concepts of formal game theory are developed. Presented by illustrations drawn variously from economics, politics, law, history, biology, psychology and current affairs.

Note: Principles of Math 12 or Pre-calculus 12 recommended.

ECON 113  Units: 1.5  Hours: 3-0
Introduction to Economics for Policy Analysis
A non-technical introduction to key concepts in economics and their application to the design of public policy. Begins by examining the role of markets in the allocation of resources in society, and circumstances under which policy intervention may be justified. Examines a variety of contemporary policy issues from an economic perspective. Issues may include health care, education, environmental policy, industry regulation, urban development, welfare reform and child care provision. Requires no prior knowledge of economics.

ECON 185  Units: 1.5  Hours: 3-0
Introductory Topics in Economics
Note: May be taken more than once in different topics with permission of the department.

ECON 203  Units: 1.5  Hours: 3-1
Intermediate Microeconomics I
An examination of the theories of consumer demand; production and cost; the firm and market under conditions of perfect competition, monopoly, monopsonistic competition and oligopoly; factor markets and distribution; and welfare economics.

Note: Credit will be granted for only one of 203, 300, 302, 304A. ECON 203 and 205 cannot be taken concurrently.

Prerequisites: 103 or ENGR 280; MATH 102 or 100.

ECON 204  Units: 1.5  Hours: 3-0
Intermediate Microeconomics II
Theories of aggregate economic behaviour: the determination of national income and employment; consumption, investment, inflation, growth and fluctuations, economic policy.

Note: Credit will be granted for only one of 204, 301, 303, 304B.

Prerequisites: 103 and 104; MATH 102 or 100.

ECON 205  Units: 1.5  Hours: 3-0
Managerial Economics
Basic microeconomic theory and optimization techniques and their application to managerial decision making. Topics include demand, production, and cost analysis; market structure and pricing practices; and regulation. Course also examines estimation, forecasting, international implications, and case studies.

Note: Credit will not be granted for 205 if 203 or 302 has already been completed. ECON 203 and 205 cannot be taken concurrently.

Prerequisites: 103 or equivalent.

ECON 225  Units: 1.5  Hours: 3-0
Writing for Economists
Extensive practice in written technical and non-technical composition. Basic grammar will be reviewed, including sentence syntax, punctuation, and paragraph construction. Students will be exposed to the correct style for the various documents they are likely to encounter.

Notes: - A comprehension and writing test will be given in the first seven calendar days of the course.
- Students will fail the test will be required to attend supplementary language/writing tutorials that will run parallel with the course.
- Students who fail the test will be required to attend supplementary language/writing tutorials that will run parallel with the course.

Prerequisites: 103, 104; satisfaction of the Academic Writing Requirement.

ECON 245  Units: 1.5  Hours: 3-1
Formerly: 240
Descriptive Statistics and Probability

Note: Credit will be granted for only one of 245, 240. See Credit Limit.

Prerequisites: MATH 100 or 102; or permission of the department.

Pre- or corequisites: Prerequisite: 100, or corequisite: 103 or 104.

ECON 246  Units: 1.5  Hours: 3-1
Formerly: 340
Statistical Inference
Estimation, confidence intervals and hypotheses tests. Simple regression and correlation. Multiple regression; t and F tests.

Note: Credit will be granted for only one of 246, 340, STAT 251, STAT 261, STAT 256 (if taken prior to September 2004). See Credit Limit.

Prerequisites: 245 or STAT 260; MATH 100 or 102.

ECON 305  Units: 1.5  Hours: 3-0
Money and Banking
The principles of money, credit creation and banking; organization, operation and control of the banking system; and the relationship between the quantity of money and the level of economic activity.

Prerequisites: 103, 104.

ECON 306  Units: 1.5  Hours: 3-0
International Economics
An introduction to international trade and finance. Topics include determinants of trade, balance of payments, and policy issues of current interest. The latter may include the political economy of tariffs, bilateral and multilateral trade negotiations, trade and development.

Note: Credit will not be granted for 306 if 405A has already been completed.

Prerequisites: 103, 104; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 310A  Units: 1.5  Hours: 3-0
Competition Economics I
Economic models and empirical examples of industrial competition. Topics may include perfect competition, monopoly, game theory, oligopoly, mergers, collusion, deterrence, technological change, price discrimination, tying, bundling, resale price maintenance, exclusive dealing.

Note: Credit will be granted for only one of 310A, 310.

Prerequisites: 103.

ECON 310B  Units: 1.5  Hours: 3-0
Competition Policy
Applications of economic analysis to government competition policies in Canada; may also include the United States, Europe, and other countries for a global perspective. Topics may include competition policy and enforcement for mergers, cartels, bid-rigging, predatory pricing, tying and bundling, exclusive dealing, and resale price maintenance.

Note: Credit will be granted for only one of 310B, 310.

Prerequisites: 310A.

ECON 311A  Units: 1.5  Hours: 3-0
The Economic Analysis of Property and Contract
An introduction to the economic analysis of law and related topics.

Note: Credit will be granted for only one of 311A, 308, 408, 408A, 408B.

Prerequisites: 103, 104; 203 recommended.

2012-13 UVIC CALENDAR

COURSE LISTINGS

269
ECON 311B Units: 1.5 Hours: 3-0
The Economic Analysis of Tort and Crime
An introduction to the economic analysis of law and legal institutions as applied to tort and crime, and related topics.
Note: Credit will be granted for only one of 311B, 308, 408A, 408B.
Prerequisites: 103, 104, 311A; or permission of the instructor; 203 recommended.

ECON 312 Units: 1.5 Hours: 3-0
Urban Land Economics
Applications of economic principles to the economic role of cities and the spatial structure of urban areas. Topics include land use and the built environment, urban external effects and land use, land use planning and the urban land market, and the role of cities as centres of consumption and production.
Note: Credit will be granted for only one of 312, 412, ADMN 445.
Prerequisites: 103.

ECON 313 Units: 1.5 Hours: 3-1
Intermediate Microeconomics II
Selected topics may include intertemporal choice, the organization of the firm, imperfect competition in product markets, discrimination in labour markets, basic game theory, “lemons” models, and additional topics in distribution and welfare economics not included in 203 or 302.
Note: Credit will be granted for only one of 313, 300.
Prerequisites: 203; MATH 102 or 100.

ECON 314 Units: 1.5 Hours: 3-0
Formerly: half of 301
Topics in Macroeconomics
Selected topics may include the theory of stabilization policy, government deficits and debt, wage and price adjustment, growth and cycles, theories of consumption, investment, money demand and money supply, and international macroeconomics.
Note: Credit will be granted for only one of 314, 301.
Prerequisites: 204.

ECON 317 Units: 1.5 Hours: 3-0
The Economics of Canadian Health Care
An analysis of resource allocation in the Canadian health care sector. Topics include the special characteristics of health care goods and services, market failures in the health care sector, economic modeling of the consumption and production of health care, and current issues in the economics of health care.
Prerequisites: 103.

ECON 318 Units: 1.5 Hours: 3-0
Health Economics
Economic analysis of health-affecting behaviours and of actors within the health care system. Topics may include: health insurance and its private and public provision, physician behaviour, social determinants of health, equity and efficiency in health care, and the economics of behaviors such as smoking, alcohol use, and risky sex.
Prerequisites: 103.

ECON 320 Units: 1.5 Hours: 3-0
Economic Development
An introduction to issues and policy problems faced by developing countries. Covers key principles, concepts and measurement issues, empirical facts, and analytical perspectives associated with economic development. Topics will include human development, inequality and poverty, population growth, education, health, and agriculture and rural development. Topics may also include urbanization and migration, role of credit markets, globalization, environment, and other current issues in development.
Prerequisites: 103, 104; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 321 Units: 1.5 Hours: 3-0
The Economic History of Canada
The story of long-run economic growth and welfare in the Canadian economy, with the aid of economic analysis, quantitative data and other historical materials. Emphasis on the development of the Canadian economy from a resource-based economy to a developed industrial economy within an international setting.
Prerequisites: 103, 104; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 325 Units: 1.5 Hours: 3-0
Public Economics
Introduction to the role of government in the economy. Topics include: examination of public goods, externalities, and information asymmetries; market failures resulting from these conditions and policies to address those market failures; taxes, expenditure and collective decision-making under majority voting. Policy applications include welfare, education, healthcare spending, and tax policies such as income taxes, consumption taxes, and taxes on carbon emissions.
Prerequisites: 103.

ECON 327 Units: 1.5 Hours: 3-0
Economic History of North America
The economic history of the United States, Canada, and Mexico over the period 1750-1950. Topics to be covered include the settling of the frontier and the development of farming; water and rail borne infrastructure, especially sail and steam shipping and the impact of the railroads; slavery and the cotton South; mercantilism, protectionism and industrialization; and immigration and population growth.
Prerequisites: 103, 104; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 328 Units: 1.5 Hours: 3-0
Economic History of the Pacific Rim
The economic history of the countries of Asia and Latin America having a Pacific Ocean coastline. The main focus is the period 1500 to 1940, namely when European exploration and colonialism dominated the region. Topics include trade, including the slave trade, mercantilism, the impact of European industrialization on economic relations, and the emergence of Japan as an industrial power.
Prerequisites: 100 or 104 or permission of the department; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 329 Units: 1.5 Hours: 3-0
Development and Economics
Introduction to non-economic student to issues faced by developing countries. Topics include poverty alleviation, health and education, child and gender issues, urbanization, and globalization. Roles of international aid, non-governmental organizations (e.g., micro credit), and social institutions in development may also be examined.
Note: Credit for this course will not be counted toward degree programs in Economics.
Prerequisites: Second-year standing.

ECON 333 Units: 1.5 Hours: 3-0
Introduction to Economic Growth
Prerequisites: 204.

ECON 337 Units: 1.5 Hours: 3-0
History of Economic Thought to 1870
Economics from Mercantilism up until the Marginal Revolution. Most attention will be devoted to the “Classical” contributions of Smith, Malthus, Ricardo, J.S. Mill and Marx.
Note: Credit will be granted for only one of 337, 307.
Prerequisites: 103, 104; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 338 Units: 1.5 Hours: 3-0
History of Economic Thought Since 1870
Economics from the Marginal Revolution of the 1870s until recent times. Most attention will be devoted to Marshall, Walras, and Keynes.
Note: Credit will be granted for only one of 338, 307, 337 recommended.
Prerequisites: 103, 104; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.
Pre- or corequisites: 203 or 205.

ECON 339 Units: 1.5 Hours: 3-0
Formerly: 439
Economics of the Family
An introduction to the theoretical and empirical literature on the allocation of labour and resources within households, and its relation to labour force outcomes. Topics may include: human capital decisions; gender roles; household production; labour force participation; the economics of marriage and divorce; the valuation of unpaid work in national income accounting; child care; gender and development.
Note: Credit will be granted for only one of 339, 439.
Prerequisites: 103 and 104; or permission of the department.

ECON 345 Units: 1.5 Hours: 3-1
Applied Econometrics
An intuitive development of the basic concepts and techniques in econometrics. The emphasis is on the application of econometric concepts and techniques in analyzing economic phenomena.
Notes:
- Credit will be granted for 345 if credit has already been received for either one of 365, 445. Cannot be taken concurrently with 365 or 366.
- Students wishing to proceed to graduate studies in Economics are advised to include ECON 365 and 366 in their undergraduate program instead of 345.
Prerequisites: 103 and 104; 245 and 246 or equivalents; MATH 102 or 100; ECON 203 and 204 recommended.

ECON 350 Units: 1.5 Hours: 3-1
Formerly: 250
Mathematical Economics I: An Introduction to Static Methods
An introduction to the application of calculus and linear algebra to selected problems in microeconomic and macroeconomic theory.
Note: Credit will be granted for only one of 350, 250.
Prerequisites: MATH 208 or 140 or 103.
Pre- or corequisites: 203.

ECON 351 Units: 1.5 Hours: 3-0
Formerly: 251
Mathematical Economics II: An Introduction to Dynamic Methods
Difference equations, differential equations, and dynamic optimization with applications to economics.
Note: Credit will be granted for only one of 351, 251.
Prerequisites: 350 or 250.

ECON 365 Units: 1.5 Hours: 3-1-1
Econometrics: Part I
Principles of econometrics with applied examples. Estimation of the regression model; sampling properties of estimators; testing restrictions; restricted least squares. Topics may also include: generalized least squares and the maximum likelihood estimation principle.

Notes: Credit will be granted for only one of 365, 466.

Prerequisites: 365.

ECON 366 Units: 1.5 Hours: 3-0
Econometrics: Part II
Principles of econometrics with applied examples. Dummy variables; multicollinearity; stochastic regressors; instrumental variables estimation; seemingly unrelated regressions. Topics may also include: generalized least squares; maximum likelihood; aspects of specification analysis; dynamic models; simultaneous equation models.

Notes: Credit will be granted for only one of 366, 466.

Prerequisites: 365.

ECON 370 Units: 1.5 Hours: 3-0
Labour Economics
Aspects of labour supply and demand, and wage structures. Topics may include: the allocation of time, retirement, unemployment insurance, education and training, male-female wage differentials.

Note: Credit will be granted for only one of 370, 315.

Prerequisites: 203 or 205.

ECON 371 Units: 1.5 Hours: 3-0
Formerly: half of 315
Economics of Work and Pay
Selected topics may include design of optimal compensation systems, labour markets internal to the firm, trade unions, unemployment insurance, personnel economics, discrimination, and labor mobility.

Note: Credit will be granted for only one of 371, 315.

Prerequisites: 370 or permission of the department.

ECON 380 Units: 1.5 Hours: 3-0
Also: ES 312
Formerly: 330
Environmental Economics I
An introduction to the economic analysis of environmental problems. In particular, an examination of policy interventions in cases where market activities result in socially undesirable impacts on the environment. Topics typically include: externalities; pollution control policy; climate change; public goods; time, uncertainty and the environment; and trade and the environment.

Note: Credit will be granted for only one of 381, 330, ES 312.

ECON 382 Units: 1.5 Hours: 3-0
Formerly: part of 430A
Natural Resource Economics I
Introduces students to economic issues and public policies specific to the use and management of natural resources. Explores economic principles for the efficient allocation of renewable and nonrenewable natural resources over time. Topics typically include a review of current natural resource issues affecting Canada, with particular focus on British Columbia, and policies for the management of forests, water, mineral, petroleum and marine resources, and the conservation of biological diversity.

Note: Credit will be granted for only one of 382, 430A.

Prerequisites: 103.

ECON 383 Units: 1.5 Hours: 3-0
Climate Economics
Introduces complex issues related to the interaction between the economy and climate, and simple tools of economics used to analyze climate-related problems. Role of energy and governance in economic development. Use of economic principles to quantify human influence on climate, evaluate the IPCC’s emissions scenarios, develop instruments for addressing greenhouse gas emissions reductions, compare competing policies for addressing climatic change, and analyze the prospects of proposed solutions to global warming.

Note: Credit for this course will not be counted toward degree programs in Economics, but Economics students may take this course as an elective.

Prerequisites: Second-year standing.

ECON 390 Units: 1.5 Hours: 3-0
Advanced Topics in Microeconomic Theory
Note: Credit will be granted for only one of 400, 440.

Prerequisites: 203, 313: 350 or 250. Open only to students admitted to the BSc Honours Program, or with permission of the department.

ECON 401 Units: 1.5 Hours: 3-0
Advanced Topics in Macroeconomic Theory
Prerequisites: 204, 313: 350 or 250; 351 or 251. Open only to students admitted to the BSc Honours Program, or with permission of the department.

ECON 405A Units: 1.5 Hours: 3-0
International Trade Theory
The study of international trade theory and policy with emphasis on general equilibrium analysis. Topics include the factor proportions theory of trade, technological determinants of trade, the theory of tariffs and trade policy, models of strategic interaction between countries.

Prerequisites: 203 or 302; 350 or 250.

Pre- or corequisites: 306; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 405B Units: 1.5 Hours: 3-0
International Monetary Theory and Policy
A study of international macro economics, covering exchange rates, determinants of balance of payments, alternate exchange rate systems, capital mobility, the international monetary system, and open economy macro economic policies.

Prerequisites: 203, 204, 345 or 365.

Pre- or corequisites: 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 406 Units: 1.5 Hours: 3-0
Monetary Economics
Monetary economics studied in the context of overlapping generations models. Barter and commodity money; fiat money and inflation; international monetary systems. Financial intermediation, banking, and the money supply. Deficits and the national debt; saving and investment.

Note: 305 recommended.

Prerequisites: 204, 313.

Pre- or corequisites: 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 410A Units: 1.5 Hours: 3-0
Problems of Canadian Macroeconomic Policy
Selected topics including the application of macroeconomic analysis to Canadian problems and policies; topics vary but generally include education, health care, regulation and competition policy with an emphasis on current affairs.

Note: Credit will be granted for only one of 410A, 410.

Prerequisites: 203, 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 411 Units: 1.5 Hours: 3-0
Topics in the Economic Analysis of Law
A seminar course investigating selected topics chosen from property law, contract law, tort law, family law and constitutional law.

Prerequisites: 203, 311A or 311B; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147; or permission of the department.

ECON 413 Units: 1.5 Hours: 3-0
Economics of Firm Strategy
Analysis of market competition and business strategy. Topics may include market analysis, competitive advantage, strategic positioning, industry dynamics, strategic commitment, organizational structure, and firm boundaries.

Note: Credit will be granted for only one of 413, 485 (if taken in the same topic).

Prerequisites: 313; B+ grade in one of 310A, 310B or 313 or permission of the department; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 414 Units: 1.5 Hours: 3-0
Regional Economics
Consideration of the problem of regional economic disparities. Theories of migration, location and regional economic growth. Techniques for analyzing aspects of the regional problem, including cost-benefit analysis, regional accounting, shift share analysis, multiplier analysis, policy issues relating to the problem.

Prerequisites: 203, 204.

Pre- or corequisites: 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 415 Units: 1.5 Hours: 3-0
Topics in Labour Economics
Selected issues in labour economics will be studied using both theoretical and econometric tools. Topics may include the economics of education, the worker-employer matching process, the economics of discrimination, and the unemployment insurance system.

Prerequisites: 203; 345 or 365.
### Pre- or corequisites:
225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 416**
**Units:** 1.5  
**Hours:** 3-0

**Cost Benefit Analysis: Principles and Application**
Principles of cost-benefit analysis including consideration of welfare economics, the treatment of intangibles, non-efficiency considerations, time discounting, evaluation criteria, uncertainty and risk, selected applications in such areas as human resource economics, natural resource and recreation economics, economic development and urban planning.

**Prerequisites:** 203.

**ECON 420**
**Units:** 1.5  
**Hours:** 3-0

**Theory of Economic Development**
An advanced course in the economics of development with reference to developing countries. Students will learn to analyze issues and policy problems faced by developing countries using formal economic models. Topics may include: theories of growth, agriculture, demography and labour markets, education and health, rural credit markets, globalization, and market and non-market institutions.

**Prerequisites:** 204, 313, 320.

**ECON 421**
**Units:** 1.5  
**Hours:** 3-0

**European and International Economic History**
The rise of capitalism and the Industrial Revolution especially in Western Europe. The British experience and comparative rates of growth in European countries, with some attention to the transferance of industrialization techniques to non-European countries.

**Prerequisites:** 203, 204, 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 422**
**Units:** 1.5  
**Hours:** 3-0

**Issues in European Economic Integration**
Various aspects of the economics of European integration are covered in this course, including agricultural, forestry and environmental issues; the development of macroeconomic institutions; competition and industrial policy; tax policy and social choice. The course will be team taught.

**Prerequisites:** 203, 204, 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 425**
**Units:** 1.5  
**Hours:** 3-0

**Economic Growth in Early Modern and Modern Japan**
Focuses on three paradigms for analyzing economic growth: the neoclassical paradigm (emphasizing exogenous or endogenous growth, and the theory of implicit contracts), the political economy model (emphasizing government intervention and policy), and the evolutionary approach. These three models are developed and each is used to shed light on economic growth in Japan between 1600 and the present.

**Prerequisites:** 204, 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 426**
**Units:** 1.5  
**Hours:** 3-0

**Institutional Economics**
A discussion and comparison of the two major traditions of institutional economics: the American Institutionalism of Veblen, Commons and Mitchell and the “New” Institutionalism associated with Austrian and neoclassical approaches. Topics covered will include the evolution and economic functioning of social norms and conventions, common and statute law, and economic organizations.

**Prerequisites:** 203; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 428**
**Units:** 1.5  
**Hours:** 3-0

**Economic Development of the Postwar Pacific Rim**
The economic development of Japan, Korea, Taiwan, Hong Kong, China, Indonesia, Malaysia, Philippines, Guatemala, Honduras, El Salvador, Colombia, Peru, and Chile over the post-1950 period. Topics to be covered include: geopolitics and the political economy of growth; the expansion of global trade and global city networks; international migration and the demography of economic development; the Japanese model of growth and the Tigers of Asia; and human development in the Asia Pacific Region.

**Prerequisites:** 204; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 429**
**Units:** 1.5  
**Hours:** 3-0

**Population Economics**
Commences with a discussion of basic demographic methods and then takes up topics in population analysis of interest to economists. Topics include: Markovian theory; the economic consequences of population growth; the economics of fertility, mortality and migration; aging and intergenerational transfers. Applications to development, labour, public finance, and other fields of economics may be included.

**Prerequisites:** 203; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 435**
**Units:** 1.5  
**Hours:** 3-0

**Financial Economics**
An introduction to the application of economics to finance, with an emphasis on the theory of asset pricing. Topics include mean-variance portfolio analysis; the capital asset pricing model and arbitrage pricing theory; equity and fixed income securities; options and the Black-Scholes pricing formula; and futures contracts.

**Note:** Credit will be granted for only one of 435, COM 446, MBA 525.

**Prerequisites:** 305, 313; 246 or equivalent; one of COM 240 or A- in ECON 305 or permission of the department.

**Pre- or corequisites:** 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 437**
**Units:** 1.5  
**Hours:** 3-0

**Philosophical Problems in Contemporary Economics**
Selected problems with the neoclassical paradigm, with emphasis on the relationship of happiness and well-being to economics. Topics may include rational choice and human agency, cognition and neuroeconomics, gender, social institutions, economic development, and economic justice. In this largely seminar course, prominent non-mainstream views of economics will be read.

**Note:** Fourth-year standing recommended.

**Prerequisites:** 313; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147; or permission of the department.

**Pre- or corequisites:** 345 or 365.

**ECON 450**
**Units:** 1.5  
**Hours:** 3-1

**Game Theory in Economics**
Game theory, including dynamic games. Applications to the study of the strategic interaction between economic agents. Topics include standard oligopoly models, entry deterrence and predation, R and D rivalry.

**Prerequisites:** 203, MATH 208.

**Pre- or corequisites:** 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 451**
**Units:** 1.5  
**Hours:** 3-0

**General Equilibrium and Welfare Economics**
Selected topics in general equilibrium theory and welfare economics.

**Prerequisites:** 313; 350 or 250.

**Pre- or corequisites:** 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147; 351 or 251.

**ECON 452**
**Units:** 1.5  
**Hours:** 3-0

**Information and Incentives**
Theory and applications of the principal agent model to moral hazard, adverse selection and signalling problems.

**Prerequisites:** 313; 350 or 250.

**Pre- or corequisites:** 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 453**
**Units:** 1.5  
**Hours:** 3-0

**Economic Growth**
Models of economic growth and fluctuations in the medium to long run. Neoclassical and endogenous growth theories and tests of these theories. Roles of capital, human capital, resources and technology in determining growth rates and income levels in different countries. Additional topics may include: the environment and limits to growth, welfare, theories of the business cycle, effects of demography and social security, international flows of capital, labour and knowledge.

**Pre- or corequisites:** 345 or 365; 351 or 251; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 454**
**Units:** 1.5  
**Hours:** 3-0

**Theory of Corporate Finance**
Corporate finance is the study of how firms attract capital to finance their operations. Surveys some corporate finance topics that are of particular interest to economists. Topics may include the determinants of capital structure, dividend policy, capital budgeting, the relation between firm finance and product market behaviour, contracting and firm incentives, the role of financial intermediaries, and mergers and takeovers.

**Prerequisites:** 313; one of COM 240 or A- in ECON 305 or permission of the department.

**Pre- or corequisites:** 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 456**
**Units:** 1.5  
**Hours:** 3-0

**Experimental Economics**
Introduction to the theory and practice of experimental economics using laboratory and field experiments. Students will become acquainted with state-of-the-art methods in experimental economics, including experimental design, subject sampling, laboratory techniques, and the use of financial incentives. The objectives will be pursued through the development of experiments and a review of the methods’ application to a number of topics of interest to economists.

**Notes:** Credit will be granted for only one of 456, 485 (if taken in the same topic).  
- 450 recommended.

**Prerequisites:** Permission of the department.

**Pre- or corequisites:** 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

**ECON 457**
**Units:** 1.5  
**Hours:** 3-1

**Formerly: 353**

**Computational Economics**
An introduction to numerical methods and their application in economics.

**Notes:** Credit will be granted for only one of 457, 353.
ECON 458 Units: 1.5 Hours: 3-0
Competition Economics II
Applies modern tools from industrial organization and game theory to analyze specific industries, and reviews evidence from empirical studies of firm conduct. Discusses research methods used to conduct empirical analysis of the models of imperfect competition studied in 310A (Competition Economics I). Additional topics may include pricing strategies, market power, collusion, entry, innovation, and advertising.
Note: Credit will be granted for only one of 458, 485 (if taken in the same topic).
Pre- or corequisites: 310A, 313, 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 468 Units: 1.5 Hours: 3-1
Financial Econometrics
The application of econometric methods to asset pricing models and financial data. Topics may include: stylized facts for financial returns, forecasting returns, volatility modelling and forecasting, tests of the random walk hypothesis, option pricing, extreme values and value at risk, asset portfolios, modelling with ultra-high frequency data.
Note: 366, 435 recommended.
Pre- or corequisites: 305 or COM 240; one of 365, STAT 350, STAT 353, or permission of the department.
Pre- or corequisites: 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 481 Units: 1.5 Hours: 3-0
Environmental Economics II
A detailed treatment of advanced topics in environmental economics. Topics covered will vary from year to year, but will typically include a selection from the following: property rights and the Coase theorem, risk and uncertainty, sustainability, policy design under asymmetric information, monitoring and enforcement, green consumerism and corporate environmentalism, trade and the environment, climate change and transboundary pollution, mobile source pollution, non-point source pollution, solid waste management, technological change, and non-market valuation.
Pre- or corequisites: 313; one of 330, 381, ES 312; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 482 Units: 1.5 Hours: 3-0
Formerly: part of 430A
Natural Resource Economics II
Dynamic optimization as it applies to renewable and non-renewable resources, focusing in particular on dynamic problems related to fishing, logging, and mining. Economic principles relating to the governance/regulation of natural resource use will also be examined.
Note: Credit will be granted for only one of 482, 430A.
Pre- or corequisites: 313, 382; 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 486 Units: 1.5 Hours: 3-0
Topics in Econometrics
The topics in this course depend primarily on the interests of the instructor. Entry to this course will be restricted to third- and fourth-year students who meet the prerequisites for the topics to be offered.
Note: May be taken more than once for credit in different topics with permission of the department.
Pre- or corequisites: 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 486 Units: 1.5 Hours: 3-0
Topi es in Econometrics
The topics in this course depend primarily on the interests of the instructor. Entry to this course will be restricted to third- and fourth-year students who meet the prerequisites for the topic to be offered.
Note: May be taken more than once for credit in different topics with permission of the department.
Pre- or corequisites: 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 495 Units: 1.5 or 3.0
Directed Studies
Directed reading and/or research for Major and Honours students with first class standing in Economics under the supervision of a faculty member willing to supervise such a course.
Note: May be taken more than once for credit in different topics to a maximum of 3 units.
Pre- or corequisites: 225 or ENGR 240 or a minimum grade of B+ in ENGL 135, 146 or 147.

ECON 499 Units: 3.0
Fourth Year Honours Thesis and Seminar
Seminar for Honours students only. Includes oral presentations related to the student's proposed thesis research, which is carried out under the direction of a faculty supervisor.
Note: Credit will be granted for only one of 499, 470.

ED-D Educational Psychology and Leadership Studies
Department of Educational Psychology and Leadership Studies
Faculty of Education
Courses offered by the Faculty of Education are also found under the following course codes: AE, ED-D, ED-P, EDSC, EPHE, IA, IED, IET, ME.

ED-D 101 Units: 1.5 Hours: 1.5-1.5
Learning Strategies for University Success
Study skills and strategies for success in university courses. Emphasis on applied assignments that help students to master reading, note taking, studying, time management, and assignment work in their current undergraduate courses. Students will apply theory to examine their own learning and experiment with new strategies for learning. Students will be required to use computers for course work and group projects.
Note: - Enrolment is restricted to undergraduate students who are concurrently enrolled in at least one other university course.
- Students must enrol in both the lecture and one of the labs in the same semester.

ED-D 300 Units: 1.5
Educational Psychology
The application of psychological principles to elementary classroom practice.
Note: Credit will be granted for only one of 300, 200.
Pre- or corequisites: Authorization to register in the Faculty of Education.

ED-D 301 Units: 1.5 Hours: 3-0
Formerly: EDUC 301
Leaders and Learning Environments
An integrated approach to planning for effective learning based on an understanding of the developmental and individual needs of children. The implications for teaching of learning characteristics, gender, and multicultural factors will be addressed.
Note: Credit will be granted for only one of 301, 305, EDUC 301.
Pre- or corequisites: Acceptance in either the Bachelor of Education Elementary program or the Post-Degree Professional Program (Elementary).

ED-D 305 Units: 1.5 Hours: 3-0
Psychology of Childhood
The study of human growth and development and the way in which biological and environmental factors influence the child over time.
Pre- or corequisites: Authorization to register in the Faculty of Education.

ED-D 306 Units: 1.5 Hours: 3-0
Advanced Educational Psychology: Child Development During the Preschool Years
An advanced course with special emphasis on early education; consideration of language, motor skills, and cognitive development, from birth to six years. Observation techniques, the interview, and other approaches to child study will be stressed.
Pre- or corequisites: 305 or equivalent.

ED-D 316 Units: 1.5 Hours: 3-0
Study of Communication in Interpersonal Relationships
The study of verbal and nonverbal behaviours that lead to more effective interpersonal relationships. Includes the examination of self-concept, perceptions, emotions, language and behaviour that influence the climate in interpersonal relationships. Assertive communication and resolving interpersonal conflict will also be studied. This course will be of interest to persons interested in learning about increasing communication competence in family, social relationships, teaching, business, counselling and mental health.
Note: Students should take 316 before 417.

ED-D 337A Units: 1.5 Hours: 3-0
Evaluation of Student Achievement in the Arts
The construction of classroom measures, including rating scales, self reports, check lists, performance tests, essay and objective tests; organization, use and reporting of assessment data.

ED-D 337B Units: 1.5 Hours: 3-0
Evaluation of Student Achievement in the Humanities and Modern Languages
The construction of classroom measures, including rating scales, self reports, check lists, performance tests, essay and objective tests; organization, use and reporting of assessment data.

ED-D 337C Units: 1.5 Hours: 3-0
Evaluation of Student Achievement in Physical Education
The construction of classroom measures, including rating scales, self reports, check lists, performance tests, essay and objective tests; organization, use and reporting of assessment data.

ED-D 337E Units: 1.5 Hours: 3-0
Evaluation of Student Achievement in the Sciences, Mathematics and Social Sciences
The construction of classroom measures, including rating scales, self reports, check lists, performance
tests, essay and objective tests; organization, use and reporting of assessment data.

ED-D 400 Units: 1.5 Hours: 3-0
Learning Difficulties in the Elementary Classroom
An introduction to the nature, scope and recognition of learning difficulties commonly encountered in the elementary classroom.

ED-D 401 Units: 1.5 Hours: 3-0
Introduction to Psychology of Classroom Learning
An introduction to the psychology of learning in the secondary school.

Note: Credit will be granted for only one of 401, 403.

ED-D 402 Units: 1.5 Hours: 3-0
Assessment For Special Education
An in-depth study of the area of formal and informal assessment of the exceptional learner. Topics include techniques, methods and purposes of assessment; factors important in selecting and administering standardized tests for the purpose of planning educational alternatives, technical information required to interpret tests adequately, and limitations on interpretation.

Note: Restricted to students registered in the Professional Specialization Certificate in Special Education.

Prerequisites: 405.

ED-D 403 Units: 4.5 Hours: 4.5-0
Educating the Developing Learner
An integrated approach to planning for effective learning and managing ineffective learning patterns in children. The developmental needs of children, their learning characteristics and the cultural and multiculturals in the modern classroom will be considered.

Note: Credit will be granted for only one of 403, 300, 305, 400, 401. Restricted to Elementary PDPP students, or by permission of the Teacher Education Advising Office.

ED-D 404 Units: 1.5 Hours: 3-0
Learning Difficulties in the Secondary Classroom
An introduction to the nature, scope, and recognition of learning difficulties encountered in the secondary classroom. Some attention will be given to integration (streamlining) of students with severe problems of learning and behavior.

Pre- or corequisites: Professional year.

ED-D 405 Units: 1.5 Hours: 3-0
Advanced Educational Exceptionality
An advanced course intended to familiarize students with the needs of children and adolescents with varying exceptionalities. Topics include history of special education services, legal/ethical issues in the delivery of service to students with special needs; special education policies and procedures, parents and families of children with special needs, intellectual disabilities, learning disabilities, emotional disturbance, giftedness, children with speech and language problems, complex developmental disorders, hearing and vision loss, physical impairments, and chronic health problems.

Note: Restricted to students registered in the Professional Specialization Certificate in Special Education.

ED-D 406 Units: 1.5 Hours: 3-0
Psychology of Adolescence
The physiological, psychological, social and educational aspects of adolescence.

ED-D 407 Units: 1.5 Hours: 3-0
Formerly: EDUC 407
Evaluating and Reporting Student Progress
An examination of the principles and procedures associated with the evaluation of student achievement, emphasizing connections between theory and practice, assessment and instruction, and BC Ministry of Education requirements. Topics include: planning and development of classroom assessment procedures, communication of results to students and parents, and current policies and practices. Focuses on developing the ability of the pre-service teachers to critically assess and effectively develop their own assessment practices and resources.

Prerequisites: Registration in a Faculty of Education Teacher Education Program.

ED-D 408 Units: 1.5 Hours: 3-0
Formerly: EDUC 408
Promoting Prosocial Behaviour: Strategies and Management
Designed to provide beginning teachers with insights and concrete strategies that will assist them in preventing and/or effectively intervening in situations involving discipline, conflict, aggression, and bullying. Peacemaking programs and peer conflict management initiatives will be discussed.

Note: Credit will be granted for only one of 408, EDUC 408.

Prerequisites: Registration in a Faculty of Education Teacher Education Program.

ED-D 410 Units: 1.5 Hours: 3-0
Formerly: EDUC 410
Teacher as Leader: The Professional Role
A seminar in contemporary professional issues, including structures and governance within the BC School system, school law, and legal requirements for the teaching professional. The role of the professional as an ethical, reflective and critically engaged practitioner is emphasized. Themes include teacher leadership, professional growth and collaboration, and maintaining professional relationships in schools and communities. Authentic assessment tools, including rubrics, portfolios, and professional benchmarks will be used for assessing professional growth.

Note: Credit will be granted for only one of 410, 430, EDUC 410, ED-D 430.

Prerequisites: Registration in a Faculty of Education Teacher Education Program.

ED-D 411 Units: 1.5 Hours: 3-0
Teaching Students with Behavioural, Social and Emotional Difficulties
An introduction to behaviour, social, emotional and related mental health issues in childhood and adolescence. Causes, diagnosis, and identification will be examined along with contemporary approaches to program planning and intervention within inclusive schools and classrooms.

ED-D 414 Units: 1.5 Hours: 3-0
Group Processes
Analysis, theory, and research related to group processes, decision-making, and leadership in a variety of settings. Awareness and understanding of self in group contexts. Includes skills practice and development related to group membership and facilitation.

Note: 414 is a prerequisite course for the Master's program in Counselling Psychology and must be completed within seven years of the date of application.

ED-D 415 Units: 3.0 Hours: 3-3
Learning Difficulties: Assessment and Intervention
A consideration of assessment strategies and instructional methods and materials appropriate for the identification and intervention of learning difficulties. Topics include: the application of knowledge and ethics in the assessment of students with special needs; the administration, scoring, and interpretation of norm-referenced, criterion-referenced, and curriculum-based assessment to Level B; task analysis, observation, portfolio, and environmental assessments; the synthesis and interpretation of assessment findings for individualized education program (IEP) planning and evaluation.

Note: Restricted to students registered in the Professional Specialization Certificate in Special Education.

Prerequisites: 405 and 402.

ED-D 416 Units: 1.5 Hours: 3-0
Effective Interpersonal Communication Skills for Special Education
Basic interpersonal communication skills for active listening and empathetic communication emphasizing the development and maintenance of positive, helping relationships in professional settings. The content and skills focus on professionals working in inclusive and special education.

Note: Credit will be granted for only one of 416, 417 (if taken online in the Diploma in Special Education) - Restricted to students in the Diploma in Special Education.

ED-D 417 Units: 1.5 Hours: 3-0
Skills for Effective Interpersonal Communication
Basic interpersonal communication skills for active listening, empathetic understanding and communication of empathy. Includes analysis of effective interpersonal skills and skill building laboratory experience. The content and skills are transferable to a variety of settings, including counselling, education, human development, management, healthcare, psychology and recreation.

Note: 417 is a prerequisite course for the Master's program in Counselling Psychology and must be completed within seven years of the date of application.

ED-D 418 Units: 1.5 Hours: 3-0
Formerly: part of ED-D 417
Introduction to Theories of Counselling
Major theoretical approaches to counselling. Includes philosophical assumptions, key concepts, the process of change, and interventions. Designed for those interested in counselling, psychotherapy, and helping relationships.

Note: 418 is a prerequisite course for the Master's program in Counselling Psychology and must be completed within seven years of the date of application.

ED-D 419 Units: 1.5 Hours: 3-0
Introduction to Indigenous Approaches to Helping and Healing
Introduction to Indigenous worldviews and perspectives related to helping and healing practices. Awareness of the history and the impact of oppression in Canadian Indigenous contexts. Exploration of the relevance of both Western and Indigenous paradigms in the helping profession. Students will reflect on their own beliefs and learn to enhance the cultural relevance and sensitivity of their own helping approaches.

Note: Credit will be granted for only one of 419, 487 (if taken in the same topic).
ED-D 420 Units: 1.5 Hours: 3-0
Formerly: EDUC 420
Learning Support: Context and Key Issues
An introductory overview of key issues in learning support. Topics will include the organization, administration and management of classrooms in which students with special educational needs are found; the referral process; teacher responsibilities for students with special educational needs in the context of regular classrooms; and the utility and limitations of various assessment techniques.

Note: Credit will be granted for only one of 420, EDUC 420.

ED-D 421 Units: 1.5 Hours: 3-0
Formerly: EDUC 421
Recognition and Assessment of Learning Needs
Topics will include administering and interpreting teacher directed/prepared assessment techniques and commercial tests; reading and writing reports; and developing various individualized educational plans.

Note: Credit will be granted for only one of 421, EDUC 421.
Prerequisites: 420 (formerly EDUC 420).

ED-D 422 Units: 1.5 Hours: 3-0
Formerly: EDUC 423
Management and Adaptation of the Classroom Environment
Strategies for adapting the classroom environment to support children with a range of special needs. Topics will include ADHD/ASD; abuse and neglect; medication/treatments; social competences and emotional adjustment; issues related to low/high incidence classifications; collaboration between professionals/paraprofessionals.

Note: Credit will be granted for only one of 422, EDUC 423.
Prerequisites: 420 (formerly EDUC 420).

ED-D 423 Units: 1.5
Approaches to Cross-Cultural Education
Prepared for those working or planning to work in a multicultural environment. Specific emphasis will be on cross-cultural awareness and the role of counseling in cross-cultural settings. Students will examine the concept of identity development and minority experiences in Canada; explore the psychological and sociological impacts of race; be introduced to theories of multicultural counseling; and engage in cross-cultural sensitivity and anti-racism training.

ED-D 424 Units: 1.5 Hours: 3-0
Teaching Students with Developmental Disabilities
An introduction to designing, implementing, and monitoring programs within inclusive settings for children and adolescents with developmental disabilities such as intellectual disabilities, autism, cerebral palsy, and fetal alcohol spectrum disorder.

ED-D 425 Units: 1.5 Hours: 3-0
Assistive Technology in the Inclusive Classroom
The application of a range of assistive technologies and instructional strategies to support active student participation in inclusive classrooms. Study and application of functional assessment processes, team principles, and a range of technologies and resources.

ED-D 426 Units: 1.5 Hours: 3-0
Differentiating Instruction in the Inclusive Classroom
The theoretical foundations and practical applications of Differentiated Instruction (Di), an approach to meet the needs of all students in today's diverse classrooms. Students will learn strategies for determining what to teach (Content), how to teach (Process), and the evaluation of student learning (Product).

ED-D 427 Units: 1.5 Hours: 3-0
Collaboration and Consultation in Special Education
A theoretical and practical framework for developing the knowledge and skill in school-based consultation and collaboration that is required to meet the diverse needs of students.

Notes:
- Credit will be granted for only one of 427, 499 if taken as Professional Development: Collaboration and Consultation in Special Education.
- Restricted to students in the Professional Specialization Certificate in Special Education.

ED-D 435A Units: 1.5 Hours: 3-0
Peer Helping: Training Issues
An examination of the use of peers in the helping/learning process in a variety of populations and settings. Topics include the theory and research in peer helping, peer tutoring, peer mentoring and peer counseling. Emphasis will be placed on skill building and training expertise necessary to organize and train a variety of peer groups in educational and community settings. Experiential learning cycles will be emphasized.

Note: Participants are strongly urged to take this course concurrently with 435B.

ED-D 435B Units: 1.5 Hours: 3-0
Peer Helping: Program Implementation Issues
An exploration of the variety of strategies used to develop, implement and evaluate a peer program. Topics include initiating change, consulting with decision makers, organizing action teams, selecting peer helpers, and creating an effective training curriculum. Approaches to supervision and evaluation will be examined.

Note: Participants are strongly urged to take this course concurrently with 435A.

ED-D 446A Units: 1.5 Hours: 3-0
Career Awareness and Exploration
The foundations of lifelong career education and awareness, skills development, and the planning process. Approaches to facilitate career exploration with youth, issues of personal responsibility, and current perspectives in the labour market will be presented.

ED-D 446B Units: 1.5 Hours: 3-0
Career Development and Planning
Practical aspects of providing programs for career and life planning. Developmental issues and applications will be presented. Preparation for employment, work search strategies, work experience, and career technologies will also be covered.

ED-D 480 Units: 1.5 or 3.0 Hours: 3-0
Contemporary Issues in Education - Educational Psychology and Leadership Studies
Current topics and developments in education, with particular consideration of their relevance to the schools of British Columbia. Taught from an interdisciplinary approach.

Note: May be taken more than once for credit with permission of the Teacher Education Advising Office.

ED-D 487 Units: 1.5 or 3.0 Hours: 3-0
Special Topics in Education - Educational Psychology and Leadership Studies
Topics of current interest or concern to groups of students.

Note: May be taken more than once for credit with permission of the Teacher Education Advising Office.
travel anywhere in British Columbia for the practicum.

Note: Credit will be granted for only one of 351, 300A, 300B.

Pre- or corequisites: 350.

Grading: INP, COM, N, F.

ED-P 496 Units: 0.5-1.5
Mentoring in Teaching
An exploration, analysis and application of supervisory and support models and techniques for mentoring pre-service and beginning teachers. This course is for certified teachers and includes school-based experiences.

Note: Credit will be granted for only one of 496, EDUC 496.

Grading: INP, COM, N, F.

ED-P 497 Units: 1.5 or 3.0
Professional Seminar - Practicum
A seminar or supervised practicum for persons wishing to update teaching skills and to gain or validate teaching certificates. Practicum only students will be on an individualized study/practice program.

Grading: Consent of the Manager of Field Experience.

ED-P 498 Units: 1.5
Seminar and Two-Week Practicum for BEd (Secondary Curriculum)
A series of seminars to orient students to the culture of secondary schools. A required two week practicum follows final examinations in April.

Grading: INP, COM, N, F.

ED-P 499 Units: 0.5-3.0
Professional Development Professional Studies
A variable content course directed at improving specific teacher and/or administrator competencies. Normally offered off campus.

Note: Not more than 3 units of credit for any 499 courses may be approved as electives on an Education degree program. Approval must be obtained from the Director.

Grading: COM, N, F.

ED-P 500 Units: 0.5-1.5
Final Practicum (Secondary)
Practicum only students will be permitted to travel anywhere in British Columbia for the practicum.

Grading: INP, COM, N, F.

ED-P 502 Units: 0.5-3.0
Professional Development Inquiry Project
Structured as a professional development opportunity for students to further explore areas that they have identified as important for their readiness as beginning teachers. Students will work with instructors who have expertise in curriculum areas and/or methods of inquiry. There may be alternative modes of delivery for this course, e.g. off-campus experiences and self-directed learning projects. Students will be expected to draw on their electronic portfolio to inform their choice of inquiry focus and to present their final projects at the end of the program.

Grading: INP, COM, N, F.

ED-P 503 Units: 1.5
Historical and Philosophical Foundations of Canadian Education
Focuses on historical events and philosophical ideas that have impacted learners and teachers in Canadian schools.

Note: Credit will be granted for only one of 303, EDUC 303, ED-B 420, ED-B 423.

Grading: INP, COM, N, F.

ED-P 507 Units: 3.0
Eight-Week Practicum (Secondary Post-Degree)
Practical teaching experience in the schools under the guidance and supervision of faculty members, supervisors and mentoring teachers. The practicum will be closely integrated with the study of curriculum and instruction course work in one or two secondary teaching subjects. This practicum normally takes place in the final term of the program.

Pre- or corequisites: 781.

Grading: INP, COM, N, F.

ED-P 789 Units: 0.5-1.5
Mentoring in Teaching
An exploration, analysis and application of supervisory and support models and techniques for mentoring pre-service and beginning teachers. This course is for certified teachers and includes school-based experiences.

Note: Credit will be granted for only one of 496, EDUC 496.

Grading: INP, COM, N, F.

ED-P 780 Units: 1.5
Secondary Field Experience Seminar
A series of seminars providing assistance in planning for practicum, discussion of topics of common concern for student teachers, and current issues related to instruction.

Students will begin their electronic portfolio.

Grading: INP, COM, N, F.

ED-P 781 Units: 1.5
Six-Week Practicum (Secondary Post-Degree)
Practical teaching experience in the schools under the guidance and supervision of faculty members, supervisory and mentoring teachers. The practicum will be closely integrated with the study of curriculum and instruction course work in one or two secondary teaching subjects. This practicum normally takes place in the final term of the program.

Pre- or corequisites: 780.

Grading: INP, COM, N, F.

ED-P 782 Units: 3.0
Secondary Teaching Skills Seminar
The study, performance and evaluation of teaching skills essential to teacher performance at the secondary level. Skills will be practised and evaluated through peer interaction.

Pre- or corequisites: Acceptance in the Secondary Post Degree Professional Program.

Grading: INP, COM, N, F.

ED-P 790 Units: 1.5
Final Practicum (Secondary)
Placement from January through April in one or more secondary schools for supervised teaching practice.

Pre- or corequisites: Successful completion of pre-practicum term.

Grading: INP, COM, N, F.

EDC1 Curriculum and Instruction Studies
Department of Curriculum and Instruction
Faculty of Education

Courses offered by the Faculty of Education are also found under the following course codes: AE, ED-D, ED-P, EDCI, EPHE, IA, IED, IET, ME.

EDC1 300 Units: 1.5
Mathematical Processes
The application of mathematical processes (Problem Solving, Reasoning and Proof, Representation, Communication, Connections, Technology, Mental Mathematics and Visualization) and a survey of mathematical knowledge for teaching.

EDC1 302 Units: 1.5
Literacy and Language in Elementary or Middle School
An overview of the teaching of language arts and the development of oral language and literacy in the elementary or middle school. An introduction to strategies for addressing the diverse needs of learners will be included.

Note: Credit will be granted for only one of 302, EDUC 302, ED-B 748.

Pre- or corequisites: Acceptance in a Teacher Education Program.

EDC1 303 Units: 1.5
Historical and Philosophical Foundations of Canadian Education
Focuses on historical events and philosophical ideas that have impacted learners and teachers in Canadian schools.

Note: Credit will be granted for only one of 303, EDUC 303, ED-B 420, ED-B 423.

Pre- or corequisites: Acceptance in a Teacher Education Program.
E DCI 305A  Units: 1.5  Hours: 3-0
Formerly: part of 305
Drama Education: A Medium for Learning I
An overview of the theory and practice of drama in education based on the current curriculum in elementary and middle school. Through a workshop format, students will explore the principles and methods of instruction for initial classroom implementation.
Note: Credit will be granted for only one of 305A, 305, EDUC 305, DE 204, 304.
Prerequisites: Acceptance in a Teacher Education Program.

E DCI 305B  Units: 1.5  Hours: 3-0
Formerly: part of 305
Drama Education: A Medium for Learning II
The integration of drama as a learning medium across the curriculum with a focus on language arts. Through the examination and progression of instructional strategies, students will broaden their understanding of educational drama and its role in the development of multiple literacies.
Note: Credit will be granted for only one of 305B, 305, EDUC 305, DE 204, 304.
Prerequisites: 305A and acceptance into a Teacher Education Program.

E DCI 306A  Units: 1.5  Hours: 3-0
Formerly: part of 306
Music in the Elementary Classroom I
An introduction to music education, designed to give students with little or no music background a foundation for teaching music and evaluating musical learning in the elementary classroom. An understanding of musical concepts will be developed through singing, listening, playing, moving, dramatizing, composing, improvising, reading and writing. Music reading skills will be developed through the playing of classroom instruments.
Note: Credit will be granted for only one of 306A, 306, EDUC 306, ME 204, 206, 304.
Prerequisites: Acceptance in either the Bachelor of Education Elementary program or the Post-Degree Professional Program (Elementary).

E DCI 306B  Units: 1.5  Hours: 3-0
Formerly: part of 306
Music in the Elementary Classroom II
A continued development of the musical skills and concepts learned in 306A with a focus on music teaching and learning strategies for the intermediate grades. Students will have the opportunity to work in ensemble settings using classroom instruments such as recorders, Orff instruments, guitars and ukuleles to arrange accompaniments, improvise, and compose. Students will plan units around selected topics.
Note: Credit will be granted for only one of 306B, 306, EDUC 306, ME 204, 206, 304.
Prerequisites: 306A and acceptance in a Teacher Education Program.

E DCI 307A  Units: 1.5  Hours: 3-1
Formerly: part of 307
Art in the Elementary or Middle Classroom I
The purpose of this methods course is to understand the place and practice of art in the elementary or middle school curriculum. Topics include a rationale for art education, theory about developmental stages, sensitivity to individual and cultural diversity, as well as lesson planning, assessment strategies, and integration of art with other core subjects. Aims to develop students' own understandings, skills, and confidence in creating art and in building general knowledge about art.
Note: Credit will be granted for only one of 307A, 307, EDUC 307, AE 103, 204.
Prerequisites: Acceptance in a Teacher Education Program.

E DCI 307B  Units: 1.5  Hours: 3-1
Formerly: part of 307
Art in the Elementary Classroom II
A further investigation of new concepts and methods of instruction that are appropriate for elementary students in classroom settings. Involved continues work in developing student competence and confidence in studio art and building general knowledge, both cultural/historical and contemporary art and art practice.
Note: Credit will be granted for only one of 307B, 307, EDUC 307, AE 103, 204.
Prerequisites: 307A and acceptance into a Teacher Education Program.

E DCI 321  Units: 1.5  Hours: 3-0
Formerly: ED-B 339
Quality Programs for Young Children
An overview of early childhood education programs designed as an introduction for those considering working with young children in a variety of settings. Emphasizes active learning, the role of play, physical settings, resources, and criteria for creating and evaluating quality learning environments responsive to the diverse needs of today's children and families.
Note: Credit will be granted for only one of 321, ED-B 339.

E DCI 335  Units: 1.5  Hours: 3-0
Innovative Learning Design
An introduction to the practice of learning design and its application to interactive learning environments. Students will explore the principles of learning design; examine how they can maximize the effectiveness, efficiency and appeal of learning experiences for learners; and teach for understanding. Students will have the opportunity to plan, design, and develop an interactive learning environment using the latest technology tools specifically for teaching and learning.

E DCI 336  Units: 1.5  Hours: 3-0
Formerly: ED-B 359
Teaching Technological Innovation in Education
A foundation for using technology in the teaching and learning process and for the development of personal learning networks to support ongoing professional development. Students will explore how to design and develop learning experiences intended to improve learning, enrich professional practice, and provide positive models for students, colleagues, and the community.
Note: Credit will be granted for only one of 336, ED-B 359, EDUC 406, EDCI 406, ED-B 360.
Grading: INC, COM, N, F.

E DCI 337  Units: 1.5  Hours: 3-0
Formerly: ED-B 360
Interactive & Multimedia Learning
An introduction to the theory and application of multimedia learning in interactive learning environments. Students will explore the latest research and discover some best practices for creating rich educational experiences. Students will have the opportunity to design and develop interactive learning experiences using such technologies as touch input devices and interactive whiteboards.
Note: Credit will be granted for only one of 337, ED-B 360.

E DCI 338  Units: 1.5  Hours: 3-0
Formerly: ED-B 362
The Mass Media and Education
The history and development of mass media globally; the effects of radio, television, film and new world wide web and digital multimedia communications and broadcasting technologies on children's home, life and school experience; the institutional and personal educational uses of the mass media; and possible benefits, problems and future developments in mass media education.
Note: Credit will be granted for only one of 338, ED-B 362.

E DCI 339  Units: 1.5  Hours: 3-0
Formerly: ED-B 363
Distributed and Open Learning
This course provides learners with an opportunity to gain direct experience with current technologies that enable various forms of online and mobile learning, including social media tools and lecture capture and streaming. This course will also look critically at access to learning in the 21st century and introduce students to the concept of open learning and the development of personalized learning networks.
Note: Credit will be granted for only one of 339, ED-B 363.

E DCI 347  Units: 1.5  Hours: 3-0
Formerly: 347A, ED-B 341A
Children's and Young Adult Literature
The study of a selection of Canadian and international children's and young adult literature drawn from various genres, including realistic fiction, fantasy, traditional literature, poetry and nonfiction. Explores how various literary theories influence the interpretation and analysis of children's and young adult literature.
Note: Credit will be granted for only one of 347, 347A, ENGL 402, ED-B 341A.
Prerequisites: 3 units of English.

E DCI 350  Units: 1.5  Hours: 3-0
Formerly: ED-B 350
Foundations of Reading and Writing in the Secondary Grades
A study of the nature and development of reading and writing abilities in the secondary grades with specific reference to the linguistic and psychological bases of the reading and writing processes. Emphasis will be placed on the integrative nature of language processes and the place of speaking and listening in the development of reading and writing.
Note: Credit will be granted for only one of 350, ED-B 350.

E DCI 352  Units: 1.5  Hours: 3-0
Formerly: ED-B 344
Multiliteracies Curriculum
Prepares prospective secondary school teachers to develop understandings and approaches to integrating literacy processes and products into the subject disciplines. Examines multiple literacies and contemporary understandings of texts as they apply to learning across the curriculum.
Note: Credit will be granted for only one of 352, 343C, ED-B 344.
Corequisites: Professional year.

E DCI 353  Units: 1.5  Hours: 3.0
Formerly: 353A ED-B 371, half of EDCI 353
Literature for Young Adults
A survey of young adult literature with attention to the adolescent response, a critical examination of the literature and the stimulation of reading.
Note: Credit will be granted for only one of 353, 353A, 353, ED-B 351, 371, 471. Restricted to students with third or fourth-year standing.

Curriculum and Instruction in Elementary or
Middle School Social Studies
A study of the curriculum organization and tech-
niques of instruction in elementary or middle school
social studies. Examples are drawn from a variety of
content areas: history, geography, anthropology,
sociology, political science, and/or economics, with
emphasis on participatory citizenship, culture and
traditions in a pluralistic society.
Note:
Credit will be granted for only one of 404, EDUC
404, ED-E 746.
Prerequisites: Acceptance in a Teacher Education
Program.

EDCI 405
Units: 1.5
Hours: 3-0
Formerly: EDUC 405
Curriculum and Instruction in Elementary or
Middle School Mathematics
General and specific goals of mathematics teaching
and learning; examination of all components of the
mathematics curriculum; teaching strategies; learning
activities; classroom settings; and assessment techniques.
Note:
Credit will be granted for only one of 405, EDUC
405, ED-E 743.
Prerequisites: Acceptance in a Teacher Education
Program.

EDCI 409
Units: 1.5
Hours: 3-0
Formerly: EDUC 409
Fostering and Assessing Mathematical
Understanding
Further examination of recent issues and trends
related to fostering and assessing the major compo-
nents of mathematical literacy, mathematical thinking
and numeracy.
Note:
Credit will be granted for only one of 409, EDUC
409, ED-E 743.
Prerequisites: 405 (formerly EDUC 405).

EDCI 410
Units: 1.5
Hours: 3-0
Literacy in the Digital Age
An exploration of how new digital technologies have
changed reading and writing for adolescents, and
how these changing practices influence language
and literacy teaching and learning.

EDCI 421
Units: 1.5
Hours: 3-0
Formerly: ED-B 440
Origins, Influences and Trends in Early
Education Programs
An examination of how historical, philosophical,
developmental, political and sociological factors
determine today's programs for preschool, daycare,
kindergartens and primary. Addresses the questions:
Where do early childhood programs come from?
Why is there such variety in programs for children
and families? And What can we learn from other pro-
grams and other countries?
Note:
Credit will be granted for only one of 421, ED-B
440.
Pre- or corequisites: 321 or ED-B 339 or permission of
the instructor.

EDCI 422
Units: 1.5
Formerly: ED-B 441
Curriculum and Program Design in Early
Childhood Education
Practical strategies for the development of early
childhood curricula and the planning and administra-
tion of programs for preschool, daycare, and kinder-
garten. Examines current topics such as integration,
multiculturalism, family involvement, and program
evaluation.
Note:
Credit will be granted for only one of 422, ED-B
441.

EDCI 423
Units: 1.5
Hours: 3-0
Formerly: ED-B 448
Seminar and Practicum in Early Childhood
Education
Observation and supervised practice teaching in
preschools, daycare centers, and kindergartens. Course
activities include weekly half-day observations and a
seminar. Completion of a successful practicum will
be required.
Note:
Credit will be granted for only one of 423, ED-B
448.
Pre- or corequisites: 422, ED-B 441 or permission of
the instructor.

EDCI 424
Units: 1.5
Hours: 3-0
Formerly: 424A, EDUC 422, EDUC 422A
Adaptation of Curriculum and Instructional
Strategies (Literacy)
Introduction to in-class assessment of students' liter-
acy learning as well as the principles and strategies
they effectively respond to elementary students of
wide-ranging abilities and diverse backgrounds. Stu-
dents will learn how to make appropriate changes
and choices regarding: literacy materials; literacy
learning processes and strategies; and varied repre-
sentations of literacy learning.
Note:
Credit will be granted for only one of 424, 424A,
EDUC 422, 422A.
Prerequisites: ED-D 420.

EDCI 428
Units: 1.5
Hours: 3-0
Formerly: 428B, EDUC 422, EDUC 422B
Adaptation of Curriculum and Instructional
Strategies (Mathematical)
Development and use of instructional methods and
materials appropriate for children with learning diffi-
culties in mathematics. Ways of adapting curricula
and instruction in other content areas and technolog-
support for children with special education needs
will also be considered.
Note:
Credit will be granted for only one of 428, 428B,
EDUC 422, 422B.
Prerequisites: ED-D 420.

EDCI 431
Units: 1.5
Hours: 3-0
Formerly: ED-B 420
Philosophical Foundations of Education
The origins and meaning of social and philosophical
ideas and how these ideas influence the lives of chil-
dren and teachers in schools. The major philosop-
cal systems and ideologies that have shaped and
continue to shape educational thought and practice
are the focus of this course.
Note:
Credit will be granted for only one of 431, ED-B
420.

EDCI 432
Units: 1.5
Hours: 3-0
Formerly: ED-B 423
Historical Foundations of Education
The historical foundations of contemporary Canadian
schooling and the forces that regulate educational
change, reform and the nature of the teacher's work.
Note:
Credit will be granted for only one of 432, ED-B
423.

EDCI 433
Units: 1.5
Hours: 3-0
Formerly: ED-B 425
Anthropology and Education
Theory and perspectives from cultural anthropology
relevant to the processes of education and opera-
tions of schools.
Note:
Credit will be granted for only one of 433, ED-B
425.

EDCI 434
Units: 1.5
Hours: 3-0
Formerly: ED-B 427
Sociological Foundations of Education
The impact of sociological variables—such as pover-
ity, ethnicity, culture, gender, and social diversity on
classroom teaching and life in contemporary Canadi-
an schools.
Note:
Credit will be granted for only one of 434, ED-B
427.

EDCI 437
Units: 1.5
Hours: 2-2
Formerly: ED-B 463
Visual Literacy
The theory and forms of contemporary visual com-
munication in education: composition and analysis
of design principles, television, film, video and photo-
graphy.
and incorporation of these media into instructional design. The effects of mass media on children.

Note: Credit will be granted for only one of 437, ED-B 463.

EDCI 441 Units: 1.5 Hours: 3-0
Formerly: Part of 446; ED-B 442
Literacy Strategies for Supporting Struggling Learners I
Focus on assessment and instructional issues, practices and strategies for students who struggle with reading and writing. A practical component involves administering and interpreting an informal reading assessment to a student who struggles with literacy, and planning an appropriate instructional intervention.

Note: Credit will be granted for only one of 441, 446, ED-B 442.

Prerequisites: Completed or enrolled in the professional year of a teacher education program that includes 1.5 units of reading instruction course or permission of the department.

EDCI 442 Units: 1.5 Hours: 3-0
Formerly: Part of 446; ED-B 442
Literacy Strategies for Supporting Struggling Learners II
Continues the exploration of assessment and instructional practices for elementary, middle and high school students who experience difficulties with reading and writing. A practical component involves creating and delivering a series of intervention lessons to a student who experiences challenges with literacy learning.

Note: Credit will be granted for only one of 442, 446, ED-B 442.

Prerequisites: EDCI 441 or permission of the department.

EDCI 447 Units: 1.5 Hours: 3-0
Formerly: ED-B 491
Principles of Teaching English to Second Language Learners
A survey of principles and theories for, and the teaching of English to second language learners. The examination of curriculum and methodology for use with ESL learners in the elementary and secondary schools.

Note: Credit will be granted for only one of 447, ED-B 490, ED-B 491.

Prerequisites: Registration in the Faculty of Education, Diploma in Applied Linguistics or major in Applied Linguistics.

EDCI 448 Units: 1.5
Formerly: ED-B 492
Organization and Procedures for Instruction of English to Second Language Learners
The examination of current models for the organization and instruction of ESL students at the elementary and secondary levels. The integration of language and content instruction within the regular classroom is emphasized.

Note: Credit will be granted for only one of 448, ED-B 490, 492.

Prerequisites: Registration in the Faculty of Education, Diploma in Applied Linguistics or major in Applied Linguistics or by permission of instructor.

EDCI 451 Units: 1.5 Hours: 3-0
Formerly: EDUC 431
Community and Culture
Designed to provide students with an appreciation of the utility of culture as a framework for understanding teaching and learning. Students will explore the roles and impacts they have as teachers and community members in the transmission and transformation of culture. Investigates the implications and challenges of teaching in a multicultural society.

Note: Credit will be granted for only one of 451, EDUC 431.

EDCI 452 Units: 1.5 Hours: 3-0
Formerly: EDUC 432
Cultural Studies in Education
Focuses on the school both as a community of learners and as a part of a larger community in a changing world. Topics of study will include different conceptions of community as they relate to education and learning, relations of power in school and community settings, gender roles, ethnicity, spirituality, traditions of conflict resolution, human rights, and the effects of global systems on local communities.

Note: Credit will be granted for only one of 452, EDUC 432.

EDCI 453 Units: 1.5 Hours: 3-0
Formerly: EDUC 433
Ecology for Teachers
Labs, field trips and inquiry activities will explore the major ecosystems in British Columbia as a focus for instruction. Topics include the natural history of plants and animals, the ecology of communities and ecosystems, and human impacts emphasizing the Pacific Northwest. Intended to provide teachers with information and skills to explore the outdoor environment as a focus for instruction: to plan and organize field trips, teach nature appreciation, inquiry techniques, ecology concepts and stewardship.

Note: Credit will be granted for only one of 453, EDUC 433.

EDCI 454 Units: 1.5 Hours: 3-0
Formerly: EDUC 434
Environmental Education
This multidisciplinary course is designed to familiarize the educator with a range of issues and teaching methods related to environmental education. Topics include goals for environmental and outdoor education; environmental ethics; current issues and trends; multicultural perspectives towards the land; local, national and global issues, teaching strategies for understanding and resolving environmental issues; program and unit planning. Selected field trips to locations emphasizing current environmental issues.

Note: Credit will be granted for only one of 454, EDUC 434.

EDCI 455 Units: 1.5 Hours: 3-0
Formerly: EDUC 436
The Evolution of Educational Ideas: Philosophy, History and the Classroom
The impact of educational philosophy and the history of education on the culture of the schools. Topics will include the evolution and implications of educational ideas, and the changing role of the school in society.

Note: Credit will be granted for only one of 455, EDUC 436.

EDCI 456 Units: 1.5
Formerly: EDUC 437
Community Development Project
Designed to provide students an opportunity to develop and implement a school-based community development project. Working in groups, with a faculty mentor, students will design projects that reflect the principles and themes of community action and positive social change. Sample projects could include environmental protection and restoration initiatives, community based violence prevention programs, home- and school-based media literacy campaigns or multicultural and cultural sensitivity programs.

Note: Credit will be granted for only one of 456, EDUC 437.

2012-13 UVIC CALENDAR

Grading: INC, COM, N, F.

EDCI 457 Units: 1.5
 Formerly: EDUC 438
English as a Second Language
A survey of curriculum and instruction designed to develop beginning competence for teaching English as a second language. There are three main themes: language instruction techniques, evaluation of the language and educational needs of ESL students, and developing sensitivity for the prior educational and cultural experiences of ESL students.

Note: Credit will be granted for only one of 457, EDUC 438, ED-B 491.

EDCI 458 Units: 1.5 Hours: 3-0
Formerly: ED-E 444
Mathematics Instruction in the Elementary School
Teaching strategies; classroom organization; learning activities and settings; evaluation procedures; instructional materials, their function and use.

Note: Credit will be granted for only one of 458, ED-E 444.

Prerequisites: Professional Year.

EDCI 459 Units: 1.5 Hours: 3-0
Formerly: ED-E 484
Diagnosis and Intervention in Mathematics
Identification of strengths and weaknesses; interview strategies, procedures and settings; interpretation of error patterns; intervention objectives and strategies.

Note: Credit will be granted for only one of 459, ED-E 484.

Prerequisites: Professional Year.

EDCI 461 Units: 1.5 Hours: 3-0
Formerly: EDUC 441
Language for Higher Thought
An examination of instructional practices to develop higher levels of thinking through engagement with literature and through writing in selected genres. Focuses on strategies designed to foster divergent, sustained engagement and interpretation of literature and for developing and representing ideas in expressive, poetic and transactional modes.

Note: Credit will be granted for only one of 461, EDUC 441.

EDCI 462 Units: 1.5 Hours: 3-0
Formerly: EDUC 442
Creative Thought and Expression Through Music
Production, perception, and reflection as the basis for music-making. Opportunities to enhance personal musicianship and develop teaching strategies to encourage creativity and critical thinking in elementary students.

Note: Credit will be granted for only one of 462, EDUC 442.

EDCI 463 Units: 1.5 Hours: 3-0
Formerly: EDUC 443
Visual Thinking
Visual artists use a variety of strategies to develop original imagery, find creative solutions to problems, and express ideas that cannot be conveyed in any other medium. Students will explore the methods artists use to create and communicate. Though they arise from art, the methods can be applied to many other areas of learning. Developmentally appropriate classroom activities and teaching methods are recommended as ways of engaging elementary students in visual thinking.

Note: Credit will be granted for only one of 463, EDUC 443.
EDCI 464 Units: 1.5 Hours: 3-0
Formerly: EDUC 444
Learning Through Drama
Explores the role of drama to enrich language/literacy education. Emphasis will be placed on children’s literature and the exploration of a variety of dramatic forms that promote increased understanding within the discipline of drama as well as serving as methodology across the curriculum.
Note: Credit will be granted for only one of 464, EDUC 444.

EDCI 465 Units: 1.5 Hours: 3-0
Formerly: EDUC 446
The Art of Mathematics
Mathematics is often erroneously viewed as the application of rote formulas to contrived exercises: a more informed view would see it as a language to describe the universe (Galileo), or as an art form to express abstract thought. This course will provide students with opportunities to explore the creative underpinnings of mathematics and its ubiquitous nature. Students will engage in non-routine problem-solving activities and develop an understanding and appreciation of alternate heuristics and ways of communicating mathematical thought.
Note: Credit will be granted for only one of 465, EDUC 446.

EDCI 466 Units: 1.5 Hours: 3-0
Formerly: EDUC 447
Scientific and Technological Literacy
Science as inquiry and technology as design have been significant influences on North American society. Examines the nature of science and technology; explores curricula, instruction and assessment that encourage students to acquire abilities and habits of mind to construct an understanding of science and technology; focuses on big ideas in science technology, and the communications to inform and persuade others to take action on science and technology issues.
Note: Credit will be granted for only one of 466, EDUC 447.

EDCI 468 Units: 1.5 Hours: 2-2
Formerly: ED-E 473
Environmental Issues Education
Designed to familiarize the educator with a range of environmental issues of both local and global proportions as a focus for program planning and curriculum development. Takes an interdisciplinary approach and includes teaching strategies for helping students clarify and resolve environmental issues. Selected field trips.
Note: Credit will be granted for only one of 468, ED-E 473.

EDCI 469 Units: 1.5 Hours: 2-2
Formerly: EDUC 448
Teaching Oral French
Theoretical and practical elements of teaching French as a second language for the general classroom teacher. Students will be introduced to the BC French Integrated Resource Package, recommended materials and methods of presentation and use of aids. The language of instruction will include both French and English.
Note: Credit will be granted for only one of 469, EDUC 448, ED-B 391.

EDCI 470 Units: 1.5 Hours: 3-0
Formerly: EDUC 449
Literacies and Expression: Professional Integration
Designed to provide opportunities for prospective teachers to forge links between the other courses in the strand and their own interests, skills, experiences, and styles related to teaching. Portfolios might be selected as a vehicle for a multi-dimensional documentation of ideas, insights, and learnings. Students are encouraged to engage in creative thought and explore and refine multiple forms of expression and representation.
Note: Credit will be granted for only one of 470, EDUC 449.

Grading: INP, COM, N, F.

EDCI 472 Units: 1.5 Hours: 3-0
Formerly: ED-E 447
Mathematics, Science and Social Studies in Early Childhood Education
A survey of mathematics, science and social studies content, materials, methods suitable for children from ages three to six.
Note: Credit will be granted for only one of 472, ED-E 447.
Prerequisites: ED-B 440, EDCI 421 or consent of the instructor; Professional Year.

EDCI 475 Units: 1.5 Hours: 3-0
Principles in Teaching French Immersion
The basic curricula and evaluation as required of the French Immersion program, and an understanding of the similarities and differences between teaching in Immersion and the English program. Emphasizes how students develop literacy and numeracy in French Immersion while mastering the skills and concepts laid out in all subject areas as required by the BC curriculum. This course is taught in French.

EDCI 476 Units: 1.5 Hours: 3-0
Organization and Instruction in French Immersion
An examination of current models for the organization and instruction of French Immersion students at the elementary and secondary level. Participants will define and articulate those critical factors that ensure lessons and units of study will enable students to learn language as well as concepts/skills. This course is taught in French.

EDCI 477 Units: 1.5 Hours: 3-0
Designs for Learning in French Immersion
Assessment and evaluation within the context of French Immersion’s language and content methodology. Emphasis is on planning, analysis and evaluation. Canadian and International models of language learning and assessment will be examined. This course is taught in French.

EDCI 487 Units: 1.5 or 3.0 Hours: 3-0
Formerly: ED-A 487, ED-B 487, ED-E 487
Special Topics in Education
Topics of current interest or concern to groups of students.
Note: May be taken more than once for credit in a degree program with permission of the Teacher Education Advising Office.

EDCI 494 Units: 1.5 each
Formerly: ED-A, ED-B, ED-E 494; ED-A, ED-B, ED-E 495
Directed Studies
Research project, directed reading, or additional course work in a specific area.

494A - Art Education
494D - Drama Education
494G - Educational Technology
494K - Language and Literacy
494M - Music Education
494N - Teaching of History
494O - Teaching of Geography

494P - Social Studies
494R - Mathematics Education
494X - Science Education
Notes: Credit will be granted for only one of 494, ED-A, ED-B, ED-E 494, 495, ED-A, ED-B, ED-E 495.
- Permission will not normally be given for more than 3 units of directed studies.

EDCI 495 Units: 1.5 each
Formerly: ED-A, ED-B, ED-E 494; ED-A, ED-B, ED-E 495
Directed Studies
Research project, directed reading, or additional course work in a specific area.

495A - Art Education
495D - Drama Education
495G - Educational Technology
495K - Language and Literacy
495M - Music Education
495N - Teaching of History
495O - Teaching of Geography
495P - Social Studies
495R - Mathematics Education
495X - Science Education
Notes: Credit will be granted for only one of 494, ED-A, ED-B, ED-E 494, 495, ED-A, ED-B, ED-E 495.
- Permission will not normally be given for more than 3 units of directed studies.

EDCI 499 Units: 0.5-3.0
Formerly: ED-A, ED-B, ED-E 499
Professional Development - Curriculum and Instruction
A variable content course directed at improving specific teacher and/or administrator competencies. Normally offered off campus.
Note: Not more than 3 units of credit for any 499 courses may be approved as electives in an education degree program. Approval must be obtained from the Teacher Education Advising Office.

Grading: COM, N, F.

Professional Studies

EDCI 706 Units: 1.5 Hours: 3-0
Formerly: ED-A 750
Curriculum and Instruction in Secondary School Art
As the last formal stage in becoming an art teacher, this course prepares students for their practicum experience. It examines relationships between the practical and theoretical aspects of art education. Students will be introduced to various teaching methodologies appropriate for implementing the curriculum, teaching styles will be discussed and explored, and students will design lessons and develop learning activities around specific concepts.
Note: Credit will be granted for only one of 706, ED-A 750. Open to students who have completed the prescribed teaching area and are admitted to professional year or Post Degree Professional Program, or who have special permission of the Manager, Teacher Education.

EDCI 716 Units: 1.5 Hours: 3-0
Formerly: ED-A 767
Curriculum and Instruction in Secondary School Theatre
Designed to prepare theatre/drama education students for the teaching profession. Provides students with one of the many bridges connecting their university theatre and drama experiences to the world of the secondary school. The focus will be on the how, what, and why of classroom drama.
EDCI 764  Units: 1.5  Hours: 3-0
Formerly: ED-B 754
Curriculum and Instruction in Secondary School French
An opportunity to develop abilities in teaching and testing the language features (pronunciation, vocabulary, grammar, and cultural component) and the language skills (listening, speaking, reading, and writing) and to familiarize students with current French language teaching approaches through the study of representative materials and techniques. Emphasis will be placed on practical classroom techniques and the challenges particular to teaching French in the secondary school.

Note: Credit will be granted for only one of 746, ED-B 754. Open to students who have completed the prescribed teaching area and are admitted to professional year or Post Degree Professional Program, or who have special permission of the Manager, Teacher Education.

EDCI 767  Units: 1.5  Hours: 3-0
Formerly: ED-E 761
Curriculum and Instruction in Secondary School Mathematics
Helps students develop the pedagogical content knowledge needed to teach secondary school mathematics. This includes knowledge about: the goals, content and sequence of the 8-12 mathematics curriculum, how students learn mathematics, how to plan instructional activities, lessons and units that are meaningful and mathematically correct, teaching strategies that instill in all students enthusiasm and satisfaction in learning and using mathematics, and how to develop and apply appropriate assessment and evaluation techniques. Explores how to establish classroom environments that facilitate problem solving, conceptual understanding, autonomy and issues related to equity and multi-culturalism in teaching mathematics.

Note: Credit will be granted for only one of 757, ED-E 743. Open to students who have completed the prescribed teaching area and are admitted to professional year or Post Degree Professional Program, or who have special permission of the Manager, Teacher Education.

EDCI 768  Units: 3.0  Hours: 3-0
Formerly: ED-B 748
Language and Literacy in the Elementary School (Primary or Intermediate Grade Emphasis)
A study of the elementary language arts curriculum emphasizing selection and application of materials, resources, and methods for teaching reading, writing, speaking, and listening.

Note: Credit will be granted for only one of 748, ED-B 748.

Prerequisites: Acceptance in professional year.

EDCI 773  Units: 1.5  Hours: 3-0
Formerly: ED-E 757
Curriculum and Instruction in Secondary School Social Sciences
Explores the area of Social Studies as a multidisciplinary subject that draws from the social sciences and humanities to study human interaction with natural and social environments. While there will be a theoretical component to the course, the learning of best practices in social studies education will dominate.

Note: Credit will be granted for only one of 773, ED-E 757. Open to students who have completed the prescribed teaching area and are admitted to professional year or Post Degree Professional Program, or who have special permission of the Manager, Teacher Education.

EDCI 777  Units: 1.5  Hours: 3-0
Formerly: ED-E 775
Curriculum and Instruction in Secondary School Information and Communication Technology
A focus on the current curriculum, the development of pedagogical content knowledge, lessons and units, and the design and maintenance of technology-based learning environments. Topics may include security and safety in a networked world; development of design, reasoning, problem solving, and algorithmic thinking skills; strategies for dealing with the diversity of abilities, understanding the role of anxiety and motivation in technology instruction, approaches to assessment and evaluation unique to the teaching of computer studies, and the teachers' role in school technology leadership.

Note: Open to students who have completed the prescribed teaching area and are admitted to professional year or Post Degree Professional Program, or who have special permission of the Manager, Teacher Education.

ELEC 731  Units: 1.5  Hours: 3-0
Formerly: ED-A 762
Curriculum and Instruction in Secondary School Music
Designed to provide students with practical strategies that will inform and enhance professional practice in the secondary music classroom. Through teaching opportunities, presentations, readings, and discussion, this course will develop personal knowledge related to pedagogical issues in music, curriculum design and implementation, program management, assessment strategies, and professional portfolio building.

Note: Credit will be granted for only one of 761, ED-A 762. Open to students who have completed the prescribed teaching area and are admitted to professional year or Post Degree Professional Program, or who have special permission of the Manager, Teacher Education.

ELEC 733  Units: 1.5  Hours: 3-0
Formerly: ED-E 769
Curriculum and Instruction in Secondary School Science
A study of the curriculum organization, instructional strategies, and assessment practices in secondary sciences. Includes consideration of the nature of science, the interactions of science, technology, society and environment, the development of science literacy through constructivist approaches to teaching, and selected current trends and issues in science education such as meeting the needs of diverse students and the use of technology in the science classroom.

Note: Credit will be granted for only one of 767, ED-E 769. Open to students who have completed the prescribed teaching area and are admitted to professional year or Post Degree Professional Program, or who have special permission of the Manager, Secondary Teacher Education.
ELEC 200  Units: 1.5  Hours: 3-1.5
Formerly: ENGR 150
Engineering Graphics
Basic principles of engineering drawing using Computer Aided Design and Drafting; orthographic projections; multiple view drawings; sectional views; electrical schematics; theory of projections for isometric, oblique and perspective pictorial views; computer representation of physical shapes; algorithms for 2D and 3D transformations; data visualization software.
Note: Credit will be granted for only one of 200, ENGR 150, MECH 200.
Pre- or corequisites: MATH 110, 133, 211.

ELEC 216  Units: 1.5  Hours: 3-3-1
Electricity and Magnetism
Electric charge, Coulomb’s Law, electrostatic forces, electric field, Gauss’s Law, electric potential, stored energy. Electric current, conduction in a vacuum and in material media, displacement current, magnetic field of a current, force on a current carrying wire, magnetic induction, electromagnetic force, energy stored in a magnetic field. Magnetism and magnetic circuits. Time varying fields. Capacitance, resistance, inductance, and their characterization.
Note: Credit will be granted for only one of 216, PHYS 216.
Prerequisites: PHYS 122, 125; or 112.
Pre- or corequisites: MATH 200.

ELEC 220  Units: 1.5  Hours: 3-0-1
Electrical Properties of Materials
Materials for engineering, atomic bondings, crystaline structures, properties of metals, glasses, semiconductors, insulators and magnetic materials.
Electroconduction in solids and simple devices.
Materials in engineering design and environmental effects.
Prerequisites: PHYS 125 or PHYS 112; 216 or PHYS 216 which may be taken concurrently, and MATH 200.

ELEC 250  Units: 1.5  Hours: 3-1.5-1
Linear Circuits I
Prerequisites: 216 or PHYS 216 and MATH 201 which may be taken concurrently.

ELEC 260  Units: 1.5  Hours: 3-0-1
Continuous-Time Signals and Systems
Prerequisites: MATH 101; 110 or 211 (211 may be taken as a corequisite)
Prerequisites: Completion of term 1B and one work term.

Grading: COM, N, F.

ELEC 399 Units: 1.5 Hours: 1-6
Design Project I
A team-based technical project completed under the supervision of a faculty member, with a focus on Engineering design requirements and specification processes. Expected learning experience and outcome are based on the knowledge and skills acquired by the student in earlier and concurrent course work, and Professional Engineers’ awareness and consideration with respect to the environment, ethics, equity, public and worker safety and health. Projects may have a diverse nature serving societal needs. Multi-disciplinary projects are encouraged.

Prerequisites: Third-year standing in the Electrical Engineering Program or permission of the department.

ELEC 403 Units: 1.5 Hours: 3-1.5
Engineering Design by Optimization
The steepest descent and Newton methods for unconstrained optimization. Golden section, quadratic, cubic and inexact line searches. Conjugate and quasi-Newton methods. The Fletcher-Reeves algorithm. Application to the design of circuits, control systems, filters, and mechanical systems using optimization techniques. Introduction to constrained optimization. Includes laboratory sessions to program various optimization algorithms and to apply them to several modelling and engineering design problems.

Prerequisites: 310 or CSC 349A.

ELEC 404 Units: 1.5 Hours: 3-1.5
Microwaves and Fiber Optics
Transmission line theory, Smith chart and design examples, transmission lines and waveguides, network analysis, design of impedance matching and tuning networks, aspects of coupled lines, radiation and amplification, optical fibers, numerical aperture, single mode and multimode fibers, chromatic dispersion, fiber optic components.

Prerequisites: 300, 340.

ELEC 405 Units: 1.5 Hours: 3-0
Error Control Coding and Sequences
Coding approaches and characteristics; linear block codes, convolutional code structure and Viterbi decoding; automatic repeat request techniques; trellis coded signalling; sequence design, error control in data storage systems and in information transmission.

Prerequisites: Fourth-year standing in the faculty or permission of the department.

ELEC 407 Units: 1.5 Hours: 3-0
Digital Signal Processing II

Note: Credit will be granted for only one of 407, 458.

Prerequisites: 310.

ELEC 410 Units: 1.5 Hours: 3-1.5
Power Electronics
Electronics in energy conversion and control. Circuits with switches and diodes. Electrical and thermal characteristics of power semiconductor devices: diodes and thyristors; bipolar, field effect and insulated gate transistors. Phase controlled converters: ac-to-dc and ac-to-ac. Dc-to-dc converters including switching regulators. Voltage source inverters. Pulse-width modulation and harmonic elimination techniques. Emphasis on device limitations, computer aided analysis and system control. Application examples including solar power conversion and battery chargers.

Prerequisites: 370, 380.

ELEC 412 Units: 1.5 Hours: 3-0
Electronic Devices II

Prerequisites: 320.

ELEC 420 Units: 1.5 Hours: 3-0
Nanotechnology

Prerequisites: 320, or permission of the department.

ELEC 426 Units: 1.5 Hours: 3-1.5
Robotics

Prerequisites: 426, 425, 475.

ELEC 434 Units: 1.5 Hours: 3-0
Biophotonics
An overview of basic optics (including the principles of lasers), biology and photobiology will be given. Practical applications will be presented including bioimaging, biosensing and microarray technologies, flow cytometry, photodynamic therapy, tissue engineering (including laser surgery), and laser scissors and tweezers.

Prerequisites: 216 or PHY 216.

ELEC 435 Units: 1.5 Hours: 3-0
Medical Image Processing
Image processing and understanding techniques applied in medical imaging technologies such as CT, MRI, ultrasound, X-ray. Design of computer aided diagnosis systems. Topics include algorithms for filtering, edge detection, segmentation, registration and 3D visualization of medical data.

Prerequisites: 310.

ELEC 450 Units: 1.5 Hours: 3-1.5
Communications Theory and Systems II
Transmission and filtering of random signals, analysis of modulation systems, in particular pulse code modulation, phase shift keying, frequency shift keying, etc., design of modems and of CODECs, introduction to noise analysis, information theory and coding.

Prerequisites: 450.

ELEC 452 Units: 1.5 Hours: 3-1.5
Optical Communication Technology
Modern photonic devices, principles and applications. Topics include optical waveguides and fibers, attenuation, chromatic and polarization mode dispersion, light emitting diodes, laser diodes, laser noises and reduction techniques, photo detectors, noises, passive optical polarizers, couplers, isolators and circulators, Mach-Zehnder interferometer, fiber Bragg gratings, optical filters, optical multiplexer and demultiplexer, arrayed waveguide gratings and Echelle gratings, optical amplifiers, optical microcavities and plasmonic devices. Nonlinear effects and devices.

Prerequisites: 320.

ELEC 453 Units: 1.5 Hours: 3-0
Antennas and Propagation
Fundamental parameters of antennas and propagation; propagation in macro to pico cells, fading, diffraction, scattering, surface waves and ionospheric propagation; potential functions; wire antennas; antenna arrays; aperture and horn antennas; printed circuit antennas; reflector antennas; ultra-wideband antennas; corrugated horns; antenna measurements.

Prerequisites: 340.

ELEC 454 Units: 1.5 Hours: 3-1.5
Engineering Components for Wireless Systems
Circuit theory for waveguiding systems, scattering parameters, waveguide discontinuities, couplers, resonators, microwave filters, nonreciprocal devices, computer-aided design of active microwave circuits for wireless communication systems.

Prerequisites: 404.

ELEC 456 Units: 1.5 Hours: 3-0
Mobile Communications
Fading and shadowing, noise and interference effects; source coding, modulation, error control coding, spread spectrum and multiplexing techniques for mobile communications; capacity estimation and comparative (FDMA/TDMA/CDMA) analysis of PCN and Cellular Systems; capacity estimation for wireless PABX and LAN systems.

Prerequisites: 350.

ELEC 459 Units: 1.5 Hours: 3-1.5
Applications of Digital Signal Processing Techniques

Prerequisites: 310.

ELEC 460 Units: 1.5 Hours: 3-0
Control Theory and Systems II
Sampling in control systems. The z transform and responses between sampling instants. Analysis of sampled data systems and stability testing. State-space analysis and design of continuous and discrete systems. Controllability, observability and zero input stability analysis. Pole placement techniques.

Prerequisites: 360 or MECH 435.

ELEC 466 Units: 1.5 Hours: 3-1.5
System-on-Chip Engineering for Signal Processing
Design and System-on-Chip (SOC) implementation for signal processing applications. SOC design and
testing methodologies, Platform-based design, Intellectual Property (IP) reuse, and built-in self-test.
Controlling power consumption in SOC implementations. SOC multiscale integration of analog and digital electronics, sensors and MEMS.
Prerequisites: CENG 355 or MECH 405 or 458 or CSC 355; ELEC 310 or MECH 435 and 445.

ELEC 481 Units: 1.5 Hours: 3-0
Analog VLSI Systems
Review of IC technologies, device models and design concepts. Design of monolithic op amps, regulators, multipliers, oscillators, PLLs, A/D and D/A converters and other non-linear and high-speed ICs. Study and design of integrated filters, switched-capacitor circuits, CCDs and other sampled-data circuits. Design and applications of analog neural network and other analog-digital LSI.
Prerequisites: 320, 360.

ELEC 482 Units: 1.5 Hours: 3-0
Electrical Drive Systems
Elements of drive systems, characterizing of mechanical loads, requirements of electrical drive systems, dynamic equations and modelling of electrical machines, drive drives with various drive power sources, induction motor drives, ac controller, slip-energy recovery, constant air-gap flux, synchronous motor drives, permanent magnet motors, reluctance motors.
Prerequisites: 365 or 370.

ELEC 483 Units: 1.5 Hours: 3-0
Digital Video Processing: Algorithms and Applications in Media
Prerequisites: 310.

ELEC 484 Units: 1.5 Hours: 3-0
Audio Signal Processing
Introduction to digital audio effects and applications. Parametric filters, shelving filters, time-varying filters. Delay structures, delay-based audio effects. Dynamic processing, non-linear processing. Spatial effects, 3D audio, reverberation. Time segment processing, pitch shifting, time stretching. Time-frequency processing, phase vocoder.
Prerequisites: 310.

ELEC 485 Units: 1.5 Hours: 3-0
Formerly: CENG 485
Pattern Recognition
Parallel and sequential recognition methods. Bayesian decision procedures, perceptrons, statistical and syntactic approaches, recognition grammars. Feature extraction and selection, scene analysis, and optical character recognition.
Note: Credit will be granted for only one of 485, CENG 485.
Prerequisites: STAT 254 or 260.

ELEC 486 Units: 1.5 Hours: 3-0-1.5
Multiresolution Signal and Geometry Processing
Multirate signal processing, upsampling, downsampling, sampling-rate conversion, polynomials techniques, multirate filter banks, multiresolution signal representations, wavelets, digital geometry processing, polygon meshes, subdivision surfaces/wavelets, efficient multiresolution signal processing. Applications in data compression, computer graphics/animation, geometric modeling, communications, and signal processing. Use of programming languages and libraries such as C, C++, Open GL, and CGAL.
Prerequisites: 310.

ELEC 488 Units: 1.5 Hours: 3-0
Electrical Power Systems
Principles of electric power systems, three-phase salient and round rotor synchronous machines, three-phase transformer, transmission line parameters, admittance model, impedance model, network calculations, power-flow solution, symmetrical faults, symmetrical components and sequence networks, unsymmetrical faults, economic dispatch. Basics of power systems stability and protection, load frequency control, HVDC transmission, design projects using power system simulator package.
Prerequisites: 365 or 370.

ELEC 496 Units: 1.5
Selected Topics in Electrical Engineering
Note: May be taken more than once for credit in different topics to a maximum of 3 units with permission of the department.
Prerequisites: The student must be registered in term 4A or 4B.

ELEC 498 Units: 3.0 Hours: 2-18
Honours Thesis
Selected students undertake a major engineering design and research project under the supervision of a faculty member. The work involves independent study of the current literature and independent research and design. At the end of the term, each student submits a report and discusses the findings in an oral presentation.
Note: This course may only be taken once replacing two technical electives, one of which can be ELEC 499.
Prerequisites: Completion of all third-year courses with a minimum cumulative GPA of 5.0 and approval by the Department.
Grading: INP, letter grade.

ELEC 499 Units: 1.5 Hours: 1-9
Formerly: ELEC 499A and 499B
Design Project II
A significant technical design project in Electrical Engineering completed under the supervision of a faculty member. This design experience is based on the knowledge and skills acquired in earlier course work. Projects may originate from faculty members, students, or external sources. They may have a diverse nature and serve diverse needs. Multi-disciplinary projects are encouraged.
Note: Credit will be granted for only one of 499, 499A, 499B.
Prerequisites: 399 or MECH 350, and fourth-year standing in the Electrical Engineering Program or permission of the department.

ENGL

English

Department of English
Faculty of Humanities
The prerequisite for all English courses numbered 200 and above is 3 units of English, normally satisfied by two of ENGL 101, 115, 135, 146, 147 or by appropriate transfer credit in English.

ENGL 099 Units: 0 Hours: 3-0
Developing English Writing Skills
Intended for students who are still developing fluency and proficiency in written and spoken English (previously equivalent to LPI 3). Provides intensive practice in building well-constructed sentences and paragraphs, while building fluency and preparing students for longer written assignments.
Note: Normally taken before ENGL 101. 3 fee units.
Grading: COM, N, F.

ENGL 101 Units: 1.5 Hours: 3-0
Fundamentals of Academic Literacy
Introduction to the reading and writing skills needed to meet the expectations of university-level academic study. Emphasis is on building proficiency in academic reading and writing through extensive practice. Suitable for students who need to strengthen their reading and writing skills before attempting a course that meets the Academic Writing Requirement.
Note: - Restricted to students who have not satisfied the Academic Writing Requirement.
- This course does not satisfy the Academic Writing Requirement.

ENGL 115 Units: 1.5 Hours: 3-0
University Writing
Writing, research, and organizational skills appropriate for university-level writing. Written assignments designed to improve the student’s ability to write clearly and correctly, to organize material, and to carry out basic library research.
Note: - Credit will be granted for only one of 115, ENGR 110.
- Offered for the last time in 201205 (May-June) and satisfies the Academic Writing Requirement.
Prerequisites: A score of level 4 on LPI, or completion of ENGL 099: University English Requirement not satisfied.

ENGL 135 Units: 1.5 Hours: 3-0
Academic Reading and Writing
Practice of skills needed for successful academic writing in a variety of subject areas. Analysis of rhetorical, stylistic, research and documentation techniques; development of these techniques through practical writing assignments. Balance of lectures and discussion.
Note: - Credit will be granted for only one of 135, ENGR 110.
- This course satisfies the Academic Writing Requirement.

ENGL 146 Units: 1.5 Hours: 3-3
Introduction to Literary Genres, Themes and Styles
Introduction to literary studies in English with particular emphasis on acquisition of skills necessary to analyze and write about literature (including close reading, development of literary-critical vocabulary, review of grammar and punctuation, and academic essay writing). Focus primarily on 20th and 21st century literary texts representing four literary genres.
Note: - Credit will be granted for only one of 146, 116, 121, 122, 125.
- This course satisfies the Academic Writing Requirement.

ENGL 147 Units: 1.5 Hours: 2-1
Introduction to Literary Traditions and Transformations
Study of influential texts and authors that have shaped English literary history and continue to engage broader cultural issues. Includes works from
a variety of genres and periods, ranging from medi-
eval to contemporary. Assignments aim to develop
the writing, critical reading and argumentation skills
necessary for persuasive, university-level essay writ-
ing. Recommend for prospective English and other
Humanities majors.

Notes: - Credit will be granted for only one of 147, 116, 121, 122, 145.
- This course satisfies the Academic Writing
Requirement.

ENGL 200A Units: 1.5 Hours: 3-0
Formerly: part of 200
English Literature to 1660
Surveys major works from the Middle Ages and
Renaissance. May include Old and Middle English
texts in translation: Beowulf or Sir Gawain and the
Green Knight, alongside works by major authors
including Chaucer, Shakespeare, Marlowe, Sidney,
Spenser, Donne and Milton.

Note: Credit will be granted for only one of 200A, 150, 200.

ENGL 200B Units: 1.5 Hours: 3-0
Formerly: part of 200
English Literature, 1660-1900
Surveys major works from the late 17th, the 18th and
the 19th centuries. Covers important genres (satire,
romantic, drama, novel, lyric), aesthetic paradigms (neo-classi-

cial, Romantic) and periods (Augustan, Romantic,
Victorian). Authors may include Defoe, Swift, Pope,
Goldsmith, Blake, Wordsworth, Coleridge, Keats,
Austen, Tennyson, the Brownings, the Brontës, Dick-
ens, Hardy and Wilde.

Note: Credit will be granted for only one of 200B, 200C (if taken 201009 or earlier), 151, 200.

ENGL 201 Units: 1.5, formerly 3 Hours: 3-0
Introduction to Modernist Literature
Surveys major works of fiction, poetry and drama
from the modernist period (roughly 1900-45), with
emphasis on the dynamic relation between revolu-
tions in aesthetic form and social, psychological and
intellectual developments that marked the early 20th
century. Authors may include Yeats, Conrad, Forster,
Joyce, Woolf, Pound, Eliot, Stein, Moore, Stevens,
Faulkner and Beckett, as well as some literature in
translation.

ENGL 202 Units: 1.5, formerly 3 Hours: 3-0
Introduction to Canadian Literature
A general introduction to Canadian literature, placing
selected 19th- and 20th-century works within the
contexts of an interdisciplinary study of Canada;
important themes in the study of Canadian literature,
using novels, poems, stories, songs, movies and
essays. Topics may include the representation of his-
torical events in literature, gender and nationality,
the construction of individual identity in relation to
community and nation, and First Nations and ethnic
issues.

ENGL 203 Units: 1.5, formerly 3 Hours: 3-0
Introduction to American Literature
Poetry, fiction, and nonfiction literature of the United
States from the 17th century to the present; issues
such as the American Dream, gender and minority
issues, or the nation’s understanding of itself as a
continuing experiment in democracy. Readings may
include works by R.W. Emerson, E.A. Poe, Walt
Whitman, Emily Dickinson, Mark Twain, William
Faulkner, Ezra Pound, Robert Frost, Langston
Hughes, or Toni Morrison.

ENGL 207 Units: 1.5 Hours: 3-0
Introduction to Cultural Studies
An introduction to Cultural Studies as the theory and
practice of reading “texts” from a variety of sources,
including popular culture, literature and electronic
media; themes such as definitions of “culture” and
the roles it plays in forming personal and social iden-
tities. Readings may include literary texts as well as
“texts” drawn from other disciplines and from popular
and commercial sources such as magazines, post-
ers, the Internet, video or audio presentations.

ENGL 208 Units: 1.5 Hours: 3-0
Introduction to Women’s Writing
A study of feminist issues in women’s literature; cov-
erage of various periods, genres, and theoretical
approaches. Readings may include authors such as
Margery Kempe, Aphra Behn, Jane Austen, Emily
Dickinson, Margaret Atwood, and Angela Carter.

ENGL 209 Units: 1.5 Hours: 3-0
Foundations of Literary Criticism
Introduces basic categories and problems of literary
criticism, with an emphasis on the development of
close reading skills and a vocabulary for writing con-
fidently about literature. Offers training in the use of
textual evidence and contextual information (biogra-
phy, authoritative statements, formal conventions, socio-
historical background) to develop and support
interpretations.

ENGL 215 Units: 1.5 Hours: 3-0
The Writing of Expository Prose
This course pays attention to the styles and methods of
nonfiction prose writing. It focuses on the develop-
ment and critical analysis of the student’s own writing
through numerous and extensive written assign-
ments and through the study of the techniques
employed by other writers. Open to all students, but
of special relevance to those going into the teaching
profession.

Prerequisites: A minimum average grade of B- in 3
units of first-year English.

ENGL 225 Units: 1.5 Hours: 3-0
Technical Communications: Written and Verbal
Intended to assist students who plan careers in busi-
ness, government, public service and research institu-
tions. Designed to improve written and verbal
communication skills in a work environment. Its prac-
tical basis, which requires the preparation of busi-
ness letters, internal memoranda and reports, is
supplemented by a theoretical outline of basic com-

munication within an organizational structure. Offers
experience of both individual and group
problem-solving.

Note: Credit will be granted for only one of 225, 228.

ENGL 250 Units: 1.5 Hours: 3-0
Contexts of Literature
An introduction to the relationships between litera-

ture and other aspects of our culture.

A01-Fall: Literature and Hockey in Canada
An introduction to the study of literature about
hockey in Canada. Examines novels, poetry, non-
fiction, and one film. Texts will be studied in rela-
tion to the myth of hockey in Canada and the
relationship between this myth and Canadian
national identity.

Notes: - May be taken more than one for credit in dif-
ferent topics with permission of the department to a
maximum of 3 units.
- May not be counted toward second-year require-
ments in Honour, Major, General or Minor Literature
Programs in English.

ENGL 260 Units: 1.5 Hours: 3-0
Formerly: part of 409
The Bible as Literature
Surveys basic stories and books in the Old and New
Testaments (including Genesis, Exodus, 1 and 2
Kings, Job, Song of Songs, Psalms, Isaiah, select
minor prophets, the Gospels, Acts, select Pauline
epistles, Hebrews and Revelations). Focus on the
intrinsick literary features of the biblical books them-
selves. Aims to familiarize students with important
biblical stories, genres, and references in literature
and religious discourse.

Note: Credit will be granted for only one of 260, 365 (if
taken prior to 1983), 409.

ENGL 301 Units: 1.5 Hours: 3-0
Report Writing
Essential skills of modern technical and business
writing, particularly usability, style and structure.
Technology as part of the research, writing and
presentation processes. Proposals, reports,
descriptions, writing for general audiences.

Note: May not be counted toward upper-level require-
ments in Honours, Major, General or Minor Literature
Programs in English.

Prerequisites: 3 units from the following list with a min-
imum grade of B in each course: 101, 115, 125, 135,
145, 146, 147, 181, 215, ENGR 240.

ENGL 302 Units: 1.5 Hours: 3-0
Government Writing
Essential skills of government writing, particularly
usability, style and structure. Technology as part of
the research, writing, revision and presentation pro-
cesses. Policy, operation manuals, reports, writing
for the general public, media releases.

Note: Credit will be granted for only one of 302, 303.
ADMN 316. May not be counted toward upper-level
requirements in Honours, Major, General or Minor
Literature Programs in English.

Prerequisites: 3 units from the following list with a min-
imum grade of B in each course: 101, 115, 125, 135,
145, 146, 147, 181, 182, 215, 225, ENGR 240.

ENGL 303 Units: 1.5 Hours: 3-0
Formerly: 216
Copy Editing for Professional Writers
Intermediate copy editing and preparing print and
electronic manuscripts. Topics include editing of
style, grammar, mechanics, graphics and document
design. Manuscripts on a range of topics, including
natural and social sciences, the arts and humanities,
and business and technology; use of computer
applications.

Notes: - Credit will be granted for only one of 303, 216
(if taken in 2000W or 2001W).
- May not be counted toward upper-level requirements
in Honours, Major, General or Minor Literature
Programs in English.

Prerequisites: 3 units from the following list with a min-
imum grade of B in each course: ENGL 101, 125,
135, 145, 146, 147, 150, 151, 182, 215, ENGR 240.

ENGL 304 Units: 1.5 Hours: 3-0
Writing Popular Science
The writing of relevant, entertaining, accurate sci-
ence pieces for the general reader. Explores science
as a cultural construct and examines science writing
from the 18th century to the present, with an empha-
sis on contemporary topics.

Notes: - Credit will be granted for only one of 304, 406
(if taken in the same topic).
- May not be counted toward upper-level requirements
in Honours, Major, General or Minor Literature
Programs in English.

Prerequisites: 3 units from the following list with a min-
imum grade of B in each course: 101, 115, 125, 135,
145, 146, 147, 181, 182, 215, 225, ENGR 240.
ENGL 305 Units: 1.5 Hours: 3-0
**Visual Rhetoric for Professional Writers**
Recognition and analysis of visual design to deliver effective professional writing documents for both print and electronic media. Hands-on work using the elements and syntax of visual design. Topics include: working with the practical constraints imposed on visual design by various media; conveying the underlying structure of written documents through visual design; displaying quantitative data; selecting, editing and using photos and illustrations to sustain a document's message(s).

**Note:** May not be counted toward upper-level requirements in Honours, Major, General or Minor Literature Programs in English.

**Prerequisites:** 3 units from the following list with a minimum grade of B in each course: 101, 115, 125, 135, 145, 146, 147, 181, 182, 215, 225, ENGR 240.

---

ENGL 310 Units: 3.0 Hours: 3-0
Formerly: 345
**Practical Criticism**
A seminar designed to extend awareness of how style and form contribute to meaning in literary works; poetic, narrative and dramatic technique; representative theoretical approaches and their application; the interdependency of literary technique and critical interpretation. Prospective Honours students are strongly advised to take this course in their second year. Students will be allowed to select this course only if they have the approval of the Honours Adviser.

**Note:** Credit will be granted for only one of 310, 345.

---

ENGL 337 Units: 1.5 Hours: 3-0
Formerly: 354
**Medieval British Literature in Translation**
An introduction to the literatures of medieval Britain to c.1500, including English, Anglo-Latin, Anglo-Norman, Celtic or Icelandic works. Major genres may include lyric, epic, history, romance and drama.

**Note:** Credit will be granted for only one of 337, 354.

---

ENGL 338 Units: 1.5 Hours: 3-0
Formerly: 355, 346
**Introduction to Old Icelandic**
An introduction to the Old Icelandic language and to the poems and stories, the Eddas and the Sagas, that it preserves.

**Note:** Credit will be granted for only one of 338, 346, 355.

---

ENGL 339 Units: 1.5 Hours: 3-0
Formerly: 356, 347
**Old Icelandic Literature**
A study of Hrafnkel Saga, Bandamanna Saga, Hervarar Saga and Heidreks, and selected Eddic poems.

**Note:** Credit will be granted for only one of 339, 347, 356.

**Prerequisites:** 338 or permission of the instructor.

---

ENGL 340 Units: 1.5 Hours: 3-0
Formerly: 442 and part of 441
**Introduction to Old English**
An introduction to the language, culture, and literature of Anglo-Saxon England, including the study of prose texts and poetry.

**Note:** Credit will be granted for only one of 340, 441, 442.

---

ENGL 341 Units: 1.5 Hours: 3-0
Formerly: 443 and part of 441
**Old English Literature**
A study of Beowulf and other Old English texts.

**Note:** Credit will be granted for only one of 341, 441, 443.

**Prerequisites:** 340.

---

ENGL 342 Units: 1.5 Hours: 3-0
**Early Middle English Literature**
An introduction to English language, culture and literature from the 11th to the 13th century. Emphasis on post-Conquest literary politics and textual production.

---

ENGL 343 Units: 1.5 Hours: 3-0
**Later Middle English Literature**
An introduction to English language, culture and literature in the 14th and 15th centuries. Emphasis on language politics, rhetorical culture, ideas of authorship and religious reform.

---

ENGL 344A Units: 1.5 Hours: 3-0
Formerly: 351
**Chaucer: Canterbury Tales**
A study of Chaucer’s Canterbury Tales.

**Note:** Credit will be granted for only one of 344A, 351.

---

ENGL 344B Units: 1.5 Hours: 3-0
Formerly: 352
**Chaucer: Troilus and Minor Works**
An introduction to the important works of Chaucer outside the Canterbury Tales, primarily Troilus and Criseyde, and a selection from his dream visions and lyrics.

**Note:** Credit will be granted for only one of 344B, 352.

---

ENGL 348 Units: 1.5 Hours: 3-0
Formerly: 357
**Alliterative Traditions**
An introduction to and selective study of works in alliterative verse and prose between the late Anglo-Saxon period and the late 15th century. May include Piers Plowman, Sir Gawain and the Green Knight, Pearl, The Alliterative Morte Arthur, and Scottish alliterative poems.

**Note:** Credit will be granted for only one of 348, 357.

---

ENGL 350 Units: 1.5 Hours: 3-0
**Medieval and Renaissance Scottish Literature**
An introduction to language, culture and literature of Scotland from the 14th to the early 17th century.

---

ENGL 353 Units: 1.5 Hours: 3-0
**Studies in Medieval English Literature**
A study of major literary works and genres of the medieval period (excluding Chaucer), Centres on specific genres (romance, chronicle, drama, lyric, etc.), at the discretion of the instructor, with annual advertisement.

**Note:** Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.

---

ENGL 359 Units: 1.5 Hours: 3-0
**16th-Century Poetry and Prose**
Major non-dramatic texts of the period, such as More’s Utopia, Sidney’s Defense of Poetry, Bacon’s Essaye; lyrics by Sidney, Shakespeare, and other Elizabethans; and a substantial selection from Spenser’s Faerie Queene.

**Note:** Credit will be granted for only one of 359, 419.

---

ENGL 360 Units: 1.5 Hours: 3-0
**Special Studies in Shakespeare**
This is a variable content course. Study of topics based in popular and/or high culture: may include popular fictions, films and a variety of texts, linking them to wider social signifying practices.

**Note:** Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.

---

ENGL 362 Units: 1.5 Hours: 3-0
**Special Studies in Renaissance Literature**
A study of major literary works, genres, or themes of the English Renaissance chosen by the instructor, with annual advertisement. Emphasis will be on non-dramatic works.

---

ENGL 363 Units: 1.5 Hours: 3-0

ENGL 388 Units: 1.5 Hours: 3-0
Special Studies in 20th-Century British Literature
A study of a specific theme, problem or author of the period. The specific topic will be determined by the instructor and advertised annually.
A01-Fall: The Ethics of Modernism
The modernist novel and issues of ethics; ethical theory from early twentieth century; post-modernist ethical theory; the links between modernist aesthetics and ethical orientations; continuities and discontinuities between modernist and post-modernist ethics; problems of ethical articulation in a rapidly changing world; problems of war, technology, empire, gender and sexuality.
Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.
ENGL 391 Units: 1.5 Hours: 3-0
Special Studies in Literary Genre
A variable content course which focuses on a specific Literary Genre irrespective of geographic and political boundaries.
A01-Spring: Literature of Mountains and Mountaineering
Introduction to the literature in English of mountaineering; historical contexts and contemporary examples; emphasis on essays and reportage, but significant attention to poetry as well.
Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.
ENGL 392 Units: 1.5 Hours: 3-0
Studies in a Major Figure
A study of the works of a single literary figure.
Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.
ENGL 393 Units: 1.5 Hours: 3-0
Myth and Literature
A variable content course which studies texts that develop ideas of myth.
Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.
ENGL 394 Units: 1.5 Hours: 3-0
Thematic Approaches to Literature
A variable content course which focuses on a specific literary theme in a variety of texts.
Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.
ENGL 395 Units: 1.5 Hours: 3-0
Special Topics in Cultural Studies
Study of topics based in popular and/or high culture; may include popular fictions, films, and a variety of texts, linking them to wider social signifying practices.
Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.
ENGL 400 Units: 1.5 Hours: 3-0
Advanced Workshop in Composition
Workshops in general and specialized kinds of writing. Different sections will concentrate on such problems as stylistics, modern theories of grammar, technical writing, business writing, preparation of briefs and reports. The topic for each section will be announced annually.
Note: Classes will be limited to 18 students. Topic is
announced each year. May be taken more than once for credit in different topics to a maximum of 3 units with departmental permission. However, only 1.5 units may be used to complete the requirements for an Honours, Major, General or Minor Literature program in English.

**Prerequisites:** A minimum average grade of B- in 3 units of first-year English, or permission of the instructor.

**ENGL 401 Units: 1.5 Hours: 3-0**

**Web Design**
Writing delivered via the World Wide Web with emphasis on usability testing, utilizing contemporary technology.

**Note:** May not be counted toward upper-level requirements in Honours, Major, General or Minor Literature Programs in English.

**ENGL 402 Units: 1.5 Hours: 3-0**

**Children’s Literature**
The study of a selection of works drawn from various genres and periods of children’s literature, including novel, folk tale, myth, fantasy and picture book.

**Note:** Credit will be granted for only one of 402, EDCl 347A.

**ENGL 404 Units: 1.5 Hours: 3-0**

**Special Studies in Children’s Literature**
A study of a special topic in children’s literature. The specific topic will be determined by the instructor and advertised appropriately.

**Note:** Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 5 units.

**ENGL 406 Units: 1.5 Hours: 3-0**

**Special Studies in Professional Writing**
This year: Video Production for Professional Writers
Video delivered via the Web (screencasts, blogs, instructional and promotional content). Techniques for creating video, including pre-and post-production (writing, shooting, editing, encoding and streaming).

**Notes:** - May be taken more than once for credit in different topics to a maximum of 3 units with permission of the department.

- May not be counted toward upper-level requirements in Honours, Major, General or Minor Literature Programs in English.

**ENGL 407 Units: 1.5 Hours: 3-0**

**Computer-Mediated Communication**
Examines cultural, social and economic processes underlying Computer Mediated Communication (CMC). Assessment of CMC applications such as e-mail, Intranets, personal and commercial PCS systems, and a range of WWW applications and uses. Production and management and critical evaluation of informative, persuasive and interactive websites.

**Notes:** - Credit will be granted for only one of 407, 406 (if taken in the same topic).

- May not be counted toward upper-level requirements in Honours, Major, General or Minor Literature Programs in English.

**ENGL 408 Units: 1.5 Hours: 3-0**

**Electronic Documentation**
Basic principles of creating electronic documentation, including task and audience analysis, usability, interactivity and rich media. Topics include: documentation via text and graphics; animated screen capture; live action video.

**Notes:** - Credit will be granted for only one of 408, 406 (if taken in the same topic).

- May not be counted toward upper-level requirements in Honours, Major, General or Minor Literature Programs in English.

**ENGL 410 Units: 3-0 Hours: 3-0**

**Backgrounds to English Literary Traditions**
A study of intellectual backgrounds to Medieval and Renaissance literature; the contribution of Greek and Biblical materials in the formation of literary commonplaces and critical vocabularies. Among authors and topics that may be studied are Homer, Plato, Aristotle, Biblical writers, Vergil, Patristic theology, and the impact of Renaissance Humanism on the deployment of literary commonplaces and literary critical practice.

**Note:** Credit will be granted for only one of 410, 410A, 410B.

**ENGL 412 Units: 1.5 Hours: 3-0**

**Research for Professional Writers**
An introduction to the research skills, tasks and tools of professional writers. Practice in developing research questions and identifying and evaluating information sources; using search engines, databases, indexes and other electronic sources to gather information; developing research proposals; creating electronic research notebooks and annotated bibliographies; interpreting and reporting data.

**Notes:** - May not be counted toward upper-level requirements in Honours, Major, General or Minor Literature Programs in English.

**ENGL 413 Units: 1.5 Hours: 3-0**

**Studies in Film and Literature**
A study of various relationships between the art of film and relevant literary works. Topics will vary and will be announced annually.

**Note:** Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.

**ENGL 414A Units: 1.5 Hours: 3-0**

Formerly: part of 414

**American Film to 1945**
A study of major accomplishments in American film concentrating primarily on films to 1945. Considers film as both a narrative form and a means of reflecting social concerns.

**Note:** Credit will be granted for only one of 414A, 414.

**ENGL 414B Units: 1.5 Hours: 3-0**

Formerly: part of 414

**American Film Since 1945**
A study of major accomplishments in American film concentrating primarily on films since 1945. Considers film as both a narrative form and a means of reflecting social concerns.

**Note:** Credit will be granted for only one of 414B, 414.

**ENGL 415 Units: 1.5 Hours: 3-0**

**Special Studies in Film**
Variable content course.

**Note:** Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.

**ENGL 416 Units: 1.5 Hours: 3-0**

**Electronic Expression**
Investigates the ideas and techniques of electronic expression with the aim of rethinking the traditional, two-dimensional static versions that professional and technical writers routinely produce, and responding more usefully to the shifting needs of readers.

**Notes:** - Credit will be granted for only one of 416, 406 (if taken in the same topic).

- May not be counted toward upper-level requirements in Honours, Major, General or Minor Literature Programs in English.

**ENGL 417 Units: 1.5 Hours: 3-0**

**Introduction to Multimedia for Professional Writers**
The skills and techniques associated with contemporary digital audio and video documentary production, and the history of documentary in the electronic media. The legal and ethical issues associated with digital documentary production and dissemination.

**Notes:** - Credit will be granted for only one of 417, 406 if taken in the same topic.

- May not be counted toward upper-level requirements in Honours, Major or Minor Literature Programs in English.

**ENGL 418 Units: 1.5 Hours: 3-0**

**Print Media Genres and Techniques for Professional Writers**
Introduction to print-based genres associated with professional writing, including media kits, news releases, bios, speeches, op-ed writing and organizational newsletters.

**Notes:** - Credit will be granted for only one of 418, 406 if taken in the same topic.

- May not be counted toward upper-level requirements in Honours, Major or Minor Literature Programs in English.

**ENGL 419 Units: 1.5 Hours: 3-0**

**Professional Writers**
The skills and techniques associated with contemporary digital audio and video documentary production, and the history of documentary in the electronic media. The legal and ethical issues associated with digital documentary production and dissemination.

**Notes:** - Credit will be granted for only one of 417, 406 if taken in the same topic.

- May not be counted toward upper-level requirements in Honours, Major or Minor Literature Programs in English.

**ENGL 425 Units: 1.5 Hours: 3-0**

Formerly: 380

**Special Studies in the Literature of the United States**
Specific themes, problems, genres or authors in American literature.

**Note:** Credit will be granted for only one of 425, 380 (if taken prior to 1998W). May be taken more than once for credit in different topics to a maximum of 3 units with permission of the department.

**ENGL 426 Units: 1.5 Hours: 3-0**

**Studies in North American Literature**
A variable content course which examines comparable themes, periods or authors in both Canadian and American Literature.

**Note:** Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.
ENGL 427 Units: 1.5 Hours: 3-0
19th-Century American Prose and Poetry
A study of the 19th-century prose and poetry which led to the full maturity of a distinctive social, political and intellectual literature, with particular emphasis on American transcendentalism. Authors may include Emerson, Fuller, Poe, Thoreau, Douglas, Jacobs, Whitman, Dickinson, William James and Du Bois.

ENGL 428A Units: 1.5 Hours: 3-0
Formerly: part of 428
19th-Century American Fiction I
A study of American fiction up to the Civil War. Authors to be covered may include Irving, Cooper, Poe, Hawthorne, Melville, Stowe.
Note: Credit will be granted for only one of 428A, 428.

ENGL 428B Units: 1.5 Hours: 3-0
Formerly: part of 428
19th-Century American Fiction II
American fiction from the Civil War to 1900; authors may include Alcott, Howells, Twain, James, Crane, Gilman, Jewett, Chopin, Chesnutt.
Note: Credit will be granted for only one of 428B, 428.

ENGL 429A Units: 1.5 Hours: 3-0
Formerly: part of 429
20th-Century American Fiction to World War II
The American novel and short story from the first 40 years of the 20th century; authors may include James, Stein, Dreiser, Wharton, Cather, Hemingway, Fitzgerald, Larsen, Dos Passos, Faulkner, Steinbeck, West, Hurston, Wright.
Note: Credit will be granted for only one of 429A, 429.

ENGL 429B Units: 1.5 Hours: 3-0
Formerly: part of 429
Mid-20th-Century American Fiction
The American novel and short story from the 1940s through the 1970s; authors may include Mailer, Ellison, O'Connor, Nabokov, Pynchon, Plath, Updike, Vonnegut, Bellow, Malamud, Roth, Doctorow, Kingston, Momaday, Reed, Morrison.
Note: Credit will be granted for only one of 429B, 429.

ENGL 429C Units: 1.5 Hours: 3-0
Formerly: part of 429
Contemporary American Fiction
The American novel and short story from the 1980s to the present; authors may include Morrison, Alice Walker, Tim O'Brien, John Updike, Philip Roth, Marilynne Robinson, Raymond Carver, Don DeLillo, Cormac McCarthy, Barbara Kingsolver, William Gibson, Art Spiegelman, Louise Erdrich, Sandra Cisneros, Richard Powers, Sherman Alexie.
Note: Credit will be granted for only one of 429C, 429.

ENGL 431A Units: 1.5 Hours: 3-0
Formerly: part of 431
Modern American Poetry I
Focuses on the first generation of American modernist poets whose major work begins to be written before the mid-1920s. Poets may include Ezra Pound, Marianne Moore, T.S. Eliot, Gertrude Stein, Robert Frost, Wallace Stevens, William Carlos Williams, Mina Loy and H.D.
Note: Credit will be granted for only one of 431A, 431.

ENGL 431B Units: 1.5 Hours: 3-0
Formerly: part of 431
Modern American Poetry II
Focuses on poets whose major work begins to be written in the 1920s and 1930s, the period in which Modernism in the arts was establishing its cultural authority. Poets may include Hart Crane, Langston Hughes, Muriel Rukeyser, Louis Zukofsky, Laura Riding, Jean Toomer, George Oppen and Lorine Niedecker.
Note: Credit will be granted for only one of 431B, 431.

ENGL 432A Units: 1.5 Hours: 3-0
Formerly: part of 432
American Poetry: 1950-1975
Detailed study of American poetry from 1950 to 1975. The main poets studied may include: Charles Olson, Robert Duncan, Robert Creeley, Denise Levertov, Frank O'Hara, John Ashbery, Audre Lorde, Adrienne Rich, Elizabeth Bishop, James Merrill.
Note: Credit will be granted for only one of 432A, 432.

ENGL 432B Units: 1.5 Hours: 3-0
Formerly: part of 432
American Poetry: from 1975 to the Present Day
Detailed study of American poetry from 1975 to the present. The main poets studied may include: Jorie Graham, Audre Lorde, Rita Dove, Ai, Lyn Hejinian, Susan Howe, Michael Palmer, Charles Bernstein, Kathleen Fraser, Bob Perlman.
Note: Credit will be granted for only one of 432B, 432.

ENGL 433A Units: 1.5 Hours: 3-0
Formerly: part of 433
Modern Irish Literature
Focuses on the area of study that responded to Ireland's turbulent socio-political history from roughly 1890 to World War II. Includes the Irish literary revival and responses to various movements associated with modernism. Comparative treatment of Irish literature in dialogue with English, American and continental European literature. Authors may include Wilde, Shaw, O'Casey, George Moore, Yeats, Gregory, Joyce, Bowen and Beckett.
Note: Credit will be granted for only one of 433A, 433.

ENGL 435 Units: 1.5 Hours: 3-0
Formerly: part of 437
British Poetry 1914-1950
Focuses on the proliferation of coteries and schools in the wake of the modernist revolution of the earlier period and the legacies of its major poets. Poets may include Larkin, Hughes, Raine, Harrison, Hill, Tomlinson, Jennings, Heaney, Mahon and Boland.
Note: Credit will be granted for only one of 435B, 435.

ENGL 435B Units: 1.5 Hours: 3-0
Formerly: part of 437
Modern Drama Since World War II
A study of a major aspect of post-colonial literature and/or theory. The specific focus of the course will be determined by the instructor and advertised annually.
Note: Credit will be granted for only one of 435B, 437.

ENGL 436A Units: 1.5 Hours: 3-0
Formerly: part of 436
20th-Century British Drama to World War II
Fiction of the British Isles in the first half of the 20th century. Emphasis is both critical and historical. Students are urged to form their own judgments with little reference to the works of critics. Authors may include Joseph Conrad, E.M. Forster, James Joyce, Virginia Woolf, D.H. Lawrence, Evelyn Waugh, Samuel Beckett, and Graham Greene.
Note: Credit will be granted for only one of 436A, 436.

ENGL 436B Units: 1.5 Hours: 3-0
Formerly: part of 436
20th-Century British Drama After World War II
Fiction of the British Isles in the second half of the 20th century. Emphasis is both critical and historical. Students are urged to form their own judgments with little reference to the works of critics. Authors may include Joseph Conrad, E.M. Forster, James Joyce, Virginia Woolf, D.H. Lawrence, Evelyn Waugh, Samuel Beckett, and Graham Greene.
Note: Credit will be granted for only one of 436B, 436.

ENGL 437A Units: 1.5 Hours: 3-0
Formerly: part of 437
Modern Drama to World War II
The play as a literary form; examination of styles, techniques, themes and modes in drama from the 19th century through to the Second World War; theories and techniques of acting, theatre design, and audience requirements. Emphasis on British and American theatre, with consideration of influential European playwrights and movements.
Note: Credit will be granted for only one of 437A, 437.

ENGL 437B Units: 1.5 Hours: 3-0
Formerly: part of 437
Modern Drama Since World War II
An examination of styles, techniques, themes and modes in drama from the Second World War to the present; theories and techniques of performance, production, and reception, particularly as these affect both the writing and the reading of the play as text. Emphasis on British and American theatre, but with consideration of influential European playwrights and movements, and of post-colonial developments.
Note: Credit will be granted for only one of 437B, 437.

ENGL 438 Units: 1.5 Hours: 3-0
Special Studies in Post-Colonial Literature and Theory
A study of a major aspect of post-colonial literature and/or theory. The specific focus of the course will be determined by the instructor and advertised annually.
Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.

ENGL 439A Units: 1.5 Hours: 3-0
Formerly: part of 439
Colonial Discourse and Postcolonial Studies
An introduction to the major debates of colonial and postcolonial studies; notions of “colonialism” in such areas as Africa, India, Latin America, Australia, and
the Caribbean; concepts such as nationhood, community, diaspora, exile, and home; recent political, ecological, gender, and subaltern movements; works by such authors as Conrad, Rushdie, Head and Said.

Note: Credit will be granted for only one of 439A, 439.

**ENGL 439B**
- **Units:** 1.5
- **Hours:** 3-0
- **Formerly: part of 439**

**Special Studies in Postcolonial Literatures**
A study of major writers and/or literatures to emerge from a formerly colonized area, such as India, Africa, Australia, or the Caribbean.

Note: Credit will be granted for only one of 439B, 439. Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.

**ENGL 440**
- **Units:** 1.5
- **Hours:** 3-0

**The History of the English Language**
The development of the English Language from its Germanic origins to the 19th century, with particular reference to semantic, etymological, phonetic, morphological and syntactic modifications of primary importance to an understanding of English literature.

Note: Credit will be granted for only one of 440, 390; LING 390.

**ENGL 448**
- **Units:** 1.5
- **Hours:** 3-0

**Special Studies in Canadian Literature**
A study of a major theme, problem, genre or author in Canadian Literature, determined by the instructor and advertised annually.

Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 5 units.

**ENGL 449**
- **Units:** 1.5
- **Hours:** 3-0

**Special Studies in Contemporary Literature**
A study of significant literary works published during the past 15 years. Focuses on themes and issues engaged by authors from throughout the English-speaking world.

A01-Fall: Activist Fiction
This course will introduce students to important contemporary novelists and to the genre of the political novel. It will also encourage them to think about the relationships between novels and bourgeois subjectivity, and thus to consider the novel as form, as theorised in both neo-marxist and poststructuralist theories of modern ideologies.

Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 5 units.

**ENGL 450**
- **Units:** 1.5
- **Hours:** 3-0

**Modern Canadian Fiction**
A study of modern realist Canadian fiction of the early and mid-20th century addressing questions of nationalism and regionalism, the representation of gender and ethnicity. May include fiction by writers such as MacLennan, Wiseman, Marilyn, Grove, Wilson, Watson and Ross.

**ENGL 451**
- **Units:** 1.5
- **Hours:** 3-0

**Contemporary Canadian Fiction**
A study of contemporary realist and other forms of recent Canadian fiction, including historiographic and experimental metafiction. Post-structuralist critique of representation and challenges to the canon by ethno minority, aboriginal, and feminist writing. Writers may include Marliatt, Bowering, Lai, Ondaatje, Brand and King.

**ENGL 452**
- **Units:** 1.5
- **Hours:** 3-0

**Modern Canadian Poetry**
A study of forms and historical contexts of modern Canadian poetry. The modernist reaction against Victorian poetic diction; poetry and nationalism; the importance of women and ethnic poets; the role of the poet and the professionalization of poetry; some attention to the long poem. Writers may include Bimney, Scott, Livesay, Purdy and Klein.

Note: Credit will be granted for only one of 452, 397.

**ENGL 453**
- **Units:** 1.5
- **Hours:** 3-0

**Contemporary Canadian Poetry**
Canadian poetry since 1970, with an emphasis on recently-published works. Environmental and social and political voices, as well as writing based in post-structuralist theories of language. May include works by Scotchford, Kroetsch, Moure, Carson, McKay and Zwicky.

Note: Credit will be granted for only one of 453, 397.

**ENGL 455**
- **Units:** 1.5
- **Hours:** 3-0

**Canadian Literature in Transnational Times**
Canadian literature read in contexts of globalization past and present; the cosmopolitan character of Canadian writing reflecting migration across diverse cultures and geographies; questioning of what counts as Canadian literature, and of national citizenship and identity. Writers may include Jenn Martel, Rohinton Mistry, Anita Badami, Jaspreet Singh and Larissa Lai.

**ENGL 456**
- **Units:** 1.5
- **Hours:** 3-0

**Literature of British Columbia**
A study of the ways in which British Columbia is represented in literature. Includes such authors as Ethel Wilson, Howard O’Hagan, George Bowering, Jack Hodgins, Daphne Marlatt, Martin Allardale, Grainger, Emily Carr.

**ENGL 457**
- **Units:** 1.5
- **Hours:** 3-0

**Literary and Cultural Criticism in Canada**
Readings in the history of Canadian criticism, covering a range of feminist, poststructuralist, postcolonial, Marxist, diasporic, queer, and ecocritical approaches to issues in literature and culture. Writers may include E.K. Brown, Northrop Frye, George Grant, Linda Hutcheon, Frank Davey, Thomas King, Richard Ford, Terry Grant, Linda Hutcheon, Frank Davey, Thomas King, Nicole Brossard, Terry Goldie, Diana Brydon, Len Findlay, Daniel Coleman and Pamela Bunting.

**ENGL 458**
- **Units:** 1.5
- **Hours:** 3-0

Also: FRAN 417

**Comparative Studies in Contemporary French and English Canadian Literature**
An introduction to the comparative study of contemporary Canadian Literature in both official languages. Classes will be conducted in English; readings and assignments can be done in either language. However, students taking a Combined Major in Canadian Literature must read the texts in the original. May include works by George Bowering, Daphne Marllatt, Lola Lemire Tostevin, Jacques Poulin, Tomson Highway and Nicolas Dickner.

Note: Credit will be granted for only one of 458, FRAN 417, FREN 487.

**ENGL 459**
- **Units:** 1.5
- **Hours:** 3-0

**Early Canadian Literature**
A survey of early texts and their influences on the development of Canadian literature before the 20th century. Genres may include exploration and settler writing, short fiction, poetry, historical narratives, cultural documents, and the novel. Writers may include Richardson, Haliburton, Kirby, Moodie, Duncan, and Roberts.

**ENGL 460**
- **Units:** 1.5
- **Hours:** 3-0

**Major Issues in Literary Criticism**
Explores recurring problems and issues central to the discipline of literary studies, such as the nature of literary genres and literary language, the category of the author, the evolution of the social and aesthetic functions of literature, literary history, the problem of judgment and the relationship between world literature and various forms of literary nationalism. May include foundational writings by Plato, Aristotle, Sidney, Johnson, Kant and Arnold, and more recent essays.

Note: Credit will be granted for only one of 460, 446.

**ENGL 461**
- **Units:** 1.5
- **Hours:** 3-0

**Introduction to Contemporary Literary Theory**
Literary theory studies what literature is, how it functions, and how it produces meaning. On the one hand, literary theory illuminates the norms, conventions, and rules that make literature possible. On the other hand, literary theory reflects on the function and meaning of criticism itself. Students will become familiar with such theories as New Criticism, Structuralism, Poststructuralism, Deconstruction, Marxist Criticism, and Feminist Criticism; they will then be able to work with theoretical concepts, issues, and terminology.

Note: Credit will be granted for only one of 461, and any of 447, 467, 468.

**ENGL 462**
- **Units:** 1.5
- **Hours:** 3-0

**Studies in Modern Critical Theory**
A study of selected topics in modern literary theory and criticism. The specific topic will be advertised annually.

Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.

**ENGL 463**
- **Units:** 1.5
- **Hours:** 3-0

**Studies of Women and Critical Theory**
A variable content course on issues relating to women in the context of different theoretical approaches.

Note: Topic is announced each year. May be taken more than once for credit in different topics to a maximum of 3 units.

**ENGL 464**
- **Units:** 1.5
- **Hours:** 3-0

**The Bible and Literature in English**
The relationship between the Bible and the canon of literature in English, and especially intertextual relationships between biblical and literary texts. Topics include the history of biblical translation, the Bible and popular culture, the combination of biblical and classical mythologies in the creation of Western cultural ideals, the impact of biblical interpretation on literary theory. May include literary works by Shakespeare, Milton, Melville, Faulkner, Atwood.

Note: Credit will be granted for only one of 464, 365 (if taken prior to 1983), 408.

**ENGL 466**
- **Units:** 1.5
- **Hours:** 3-0

**Cultural Studies**
An interdisciplinary study of issues in contemporary culture, especially the impact of popular culture on postmodern self-understanding; individual instructors may focus on various cultural manifestations, ranging from print media (novels, magazines, posters, newspapers) to visual media (film, TV, art, architecture), electronic media (Internet) to music; themes may include commodification, the construction of identity, ideological manipulation, hyperreality.

**ENGL 467**
- **Units:** 1.5
- **Hours:** 3-0

**Seminar in Early 20th-Century Literary Theory**
Varieties of literary and critical theory from the first half of the 20th century. Examines the theories in themselves and how they emerged from their historical matrices and philosophical contexts; may also consider their reinterpretation in later theory. Emphasizes theoretical and relevant intellectual developments in continental Europe, such as Russian
ENGL 467  Units: 1.5  Hours: 3-0  Women's Literary Traditions
A variable content course which explores the role of
women writers in any area of literary history; it may
examine specific genres or themes used by women
authors.

Note: Topic is announced each year. May be taken
more than once for credit in different topics to a max-
imum of 3 units.

ENGL 470  Units: 1.5  Hours: 3-0  Women and Literature
A variable content course involving texts by and
about women, and examining feminist perspectives
on literature.

A01-Spring: Scottish Women's Writing
This course focuses on a series of key Scottish
women poets from the eighteenth to the twenty-
first centuries (especially) Joanna Baillie, Meg
Bateman, Carol Anne Duffy, Janet Hamilton, Jack-
ie Kay, Janet Little, Liz Lochhead. Central issues:
orality, folklore, class (aristocratic poetry, nine-
teenth-century working-class and rural-class poet-
ry), poets' self-representations (in memoirs, prefaces,
frontispieces), the urban and the country.

Note: Topic is announced each year. May be taken
more than once for credit in different topics to a max-
imum of 3 units.

ENGL 472  Units: 1.5  Hours: 3-0  Gender Issues in Literature
A variable content course on a range of theories
about the construction of sexual and gender identi-
ties (such as masculinity and femininity).

Note: Topic is announced each year. May be taken
more than once for credit in different topics to a max-
imum of 3 units.

ENGL 473  Units: 1.5  Hours: 3-0  Women Writers in English from the Medieval
to the Augustan Age
An examination of early women writers' responses to
major literary genres; social, political, and spiri-
tual issues; interaction with male writers; formation of
distinctive literary traditions and relationships.

Prerequisites: Strongly recommended: 150/151, 200
or 200A/200C; students without these courses should
obtain the instructor’s advice about background read-
ing before the course begins.

ENGL 474  Units: 1.5  Hours: 3-0  Women Writers from the Age of Sensibility to
the Victorian Era
An examination of women writers from Burney to
Eliot; major literary genres; social, political, and spiri-
tual issues; interaction with male writers; formation of
distinctive literary traditions and relationships.

Prerequisites: Strongly recommended: 150/151, 200
or 200A/200C; students without these courses should
obtain the instructor’s advice about background read-
ing before the course begins.

ENGL 475  Units: 1.5  Hours: 3-0  Special Studies in Ethnic American Literature
A study of one or more 20th-century minority Ameri-
can literary traditions, including African American,
Asian American, Latino/a, Native American, Jewish
American, Arab American and others.
A01-Fall: Beyond “Reality”: Graphic Novels and
Multicultural Mythologies
Welcome to worlds inhabited by mountain spirits,
the Dream Lord, post-apocalyptic survivors, multi-
cultural tricksters and the time-traveling descen-
dants of slaves. Considers the ways writers
grounded in traditional belief systems - African,
Native American and Chinese - push the boundar-
ies of reality to create a fascinating new type of
multicultural literature and hybrid viewpoints.
Our mixed media approach includes reading cutting-
edge multicultural narratives and immersing our-
selves in the wildly popular genre of graphic
novels.

Note: Topic is announced each year. May be taken
more than once for credit in different topics to a max-
imum of 3 units.

ENGL 476  Units: 1.5  Hours: 3-0  Indigenous and Diaspora Literatures in Canada
Comparative analysis of indigenous and diasporic
writing emerging out of colonialism and migra-
tion. Writers may include Thomas King, Tomson
Highway, Eden Robinson, M.G. Vassanji, Shani Mootoo and
Madeline Thein.

ENGL 477  Units: 1.5  Hours: 3-0  Indigenous Literature in English
A study of writing by established and emergent Indig-
enuous writers. Approaches may be comparative or
international in perspective. Readings will consider
the devices, tropes, narratives, discourses and
genes that have been used to represent and give voice
to indigenous perspectives. May include
authors from a particular region or be more broadly
global in reach. The approach to texts will be dialogic
and historically-informed.

ENGL 478  Units: 1.5  Hours: 3-0  Special Studies in Literature and Environment
A study of topics in the field of ecocriticism, includ-
ing how human relationships to natural landscapes
and animals are mediated through literature; literature
in relation to imperial, colonial and capitalist ecologies;
literary production as shaping and shaped by global
relation to imperial, colonial and capitalist ecologies;
literary production as shaping and shaped by global
ecologies.

Note: Topic is announced each year. May be taken
more than once for credit in different topics to a max-
imum of 3 units.

ENGL 490  Units: 1.5  Hours: 3-0  Directed Reading in English
A specified reading project for Honours students to be
determined by the student and the instructor; written
assignments will be required.

Note: ENGL 490 is a tutorial intended primarily for
students in the Honours Program, and must be approved
by individual instructor, the Director of Honours and the
Chair of the department. Please consult Department policy on “Directed Reading” in the
General Information section.

ENGL 491  Units: 1.5  Hours: 3-0  Directed Reading: Advanced Topics in
Professional Writing
A specific writing project in some area of Profession-
al Writing to be determined by the student and the
instructor. Students must have the approval of the
instructor, the Director of the Professional Writing
Program, and the department Chair.

Notes: - May be taken more than once for credit in dif-
ferent topics to a maximum of 3 units. Students must
have the approval of the instructor, the Director of
the Professional Writing Program, and the department
Chair.

- May not be counted toward upper-level requirements
in Honours, Major, General or Minor Literature
Programs in English.

Prerequisites: 3 units from 401, 406, 407, 408, 412.

ENGL 499  Units: 1.5  Hours: 0-0-2  Graduating Essay in Honours
The graduating essay will be done under the guid-
ance of an individual tutor assigned in third-
and fourth-years.

Prerequisites: Honours standing in fourth-year.

ENGR 001  Units: 4.5  Hours: 0-0-0  Work Term 1
Students are employed for a work term, normally of
four months’ duration. Competencies typically
addressed include personal management and work
place behaviour. Provides an introduction to a pro-
ductive work experience that is related to the stu-
dent’s program of studies and individual interests.

Note: This is a Co-operative Education work term as
defined on this page applies.

Prerequisites: 020 and approval of the Faculty.

ENGR 002  Units: 4.5  Hours: 3-0  Work Term 2
Students are employed for a work term, normally of
four months’ duration. Competencies typically
addressed include communication and teamwork.
Should generally provide an increased level of
responsibility in an area that is related to the stu-
dent’s program of studies and individual interests.
### COURSE LISTINGS

**ENGR 003**  
**Units:** 4.5  
**Work Term 3**  
Students are employed for a work term, normally of four months' duration. Competencies typically addressed include managing information, research and problem solving, and commitment to quality. Should generally provide an increased level of responsibility in an area that is related to the area of specialization in the student's program of studies.  
**Note:** This is a Co-operative Education work term as defined on page 45 and thus the Co-op work term tuition fee on page 42 applies.  
**Prerequisites:** 001, 020, Academic Writing Requirement satisfied; 120 or 240; and approval of the Faculty.

**ENGR 004**  
**Units:** 4.5  
**Work Term 4**  
Students are employed for a work term, normally of four months' duration. Competencies typically addressed include project and task management, social responsibility and continuous learning. Should generally provide a path to a career choice in the student's anticipated degree.  
**Note:** This is a Co-operative Education work term as defined on page 45 and thus the Co-op work term tuition fee on page 42 applies.  
**Prerequisites:** 003 and approval of the Faculty.

**ENGR 020**  
**Units:** 2.5  
**Design and Communication I**  
Introductory principles of engineering design processes through practical projects to be undertaken by teams of students; integrated development and demonstration of writing, research, design and presentation skills through research and design projects. Writing, research and organizational skills appropriate for University level writing.  
**Note:** Credit will be granted for only one of 110, 111, (112 or ELEC 199, ENGL 115 or 135). Not open to students with credit in ENGL 115 or 135.  
**Prerequisites:** Successful completion of ENGR 110 diagnostic or ENGL 099.

**ENGR 110**  
**Units:** 2.5  
**Design and Communication I**  
Introductory principles of engineering design processes through practical projects to be undertaken by teams of students.  
**Note:** Credit will be granted for only one of 110, 111, 112, ELEC 199.  
**Prerequisites:** ENGL 115 or 135.

**ENGR 112**  
**Units:** 1.0  
**Design I**  
Introductory principles of engineering design processes through practical projects to be undertaken by teams of students.  
**Note:** Credit will be granted for only one of 112, 110, 111, ELEC 199.  
**Prerequisites:** ENGL 115 or 135.

**ENGR 120**  
**Units:** 2.5  
**Design and Communication II**  
Principles of engineering design with application to computer, electrical, mechanical and software engineering through practical projects to be undertaken by teams of students; integrated development and demonstration of writing, research, design and presentation skills through research and design projects. Searching and referencing methods used in dealing with scientific and technical literature and the characteristics of effective technical and scientific style. The emphasis throughout will be on clarity, precision, and consistency. Students will acquire practical experience in the writing of short technical documents such as memoranda, letters and abstracts, longer forms such as reports, papers, and theses, and instructional forms such as manuals, brochures, and specifications.  
**Note:** Credit will be granted for only one of 120, 121. Not open to students with credit in 240 or ENGL 225.  
**Prerequisites:** 110 or 111 or (112 or ELEC 199, ENGL 115 or 135).

**ENGR 121**  
**Units:** 1.0  
**Design II**  
Principles of engineering design with application to computer, electrical, mechanical and software engineering through practical projects to be undertaken by teams of students.  
**Note:** Credit will be granted for only one of 121, 120.  
**Prerequisites:** 110 or 111 or (112 or ELEC 199, ENGL 115 or 135), 240 or ENGL 225.

**ENGR 141**  
**Units:** 1.5  
**Engineering Mechanics**  
Forces, moments of forces, couples, resultants of force systems; distributed loads; hydrostatics; conditions of equilibrium and applications to particles and rigid bodies in two dimensions; analysis of statically determinate structures including beams, trusses and arches; bending moment and shear force diagrams; dry friction.  
**Note:** Credit will be granted for only one of 141, MECH 141, 241, 245.

**ENGR 240**  
**Units:** 1.5  
**Technical Writing**  
Searching and referencing methods used in dealing with scientific and technical literature and on the characteristics of effective technical and scientific style. The emphasis throughout will be on clarity, precision, and consistency. Students will acquire practical experience in the writing of short technical documents such as memoranda, letters and abstracts, longer forms such as reports, papers, and theses, and instructional forms such as manuals, brochures, and specifications.  
**Note:** Credit will be granted for only one of 240, ENGL 225, 226, 240.  
**Prerequisites:** 110 or 111 or ENGL 115 or 135.

**ENGR 280**  
**Units:** 1.5  
**Engineering Economics**  
**Note:** Credit will be granted for only one of 280 taken before May 2012, ADMN 310, ECON 103, ECON 201.  
**Prerequisites:** MATH 110, 133, 211 or 233A.  
**Pre-or corequisites:** STAT 254 or 260.
Entrepreneurship
Peter B. Gustavson School of Business

Courses offered by the Peter B. Gustavson School of Business are also found under the following course codes: COM (Commerce), SMGT (Service Management), IB (International Business), MBA (Master's of Business Administration).

ENT 402 Units: 1.5 Hours: 3-0
Formerly: 302
Entrepreneurship and Small Business for the Non-Specialist
The impact of entrepreneurship and the function of the entrepreneur in new venture creation. A framework is developed which incorporates marketing feasibility studies and financial analysis into a comprehensive business plan. The business venture is examined with respect to financial planning, marketing, management, and tax decisions at the various stages of the business life cycle.

Note: Credit will be granted for only one of 402, 302. Enrolment limited to students outside the Entrepreneurship area of specialization.

Prerequisites: COM 220 and COM 250, or COM 321 and COM 351, and fourth-year standing or permission of the Program Director.

ENT 410 Units: 1.5 Hours: 3-0
Venture Marketing Expertise (Promise Skills)
As part of the integrated Entrepreneurship Core Semester, this course helps students to further integrate into practice the concepts experienced within the entrepreneurship specialization. Students participate in industry tours, networking sessions, start-up experiences, visits from guest speakers, case studies and industry immersions. From these experiences, students create a portfolio that demonstrates to instructors, investors and other stakeholders their mastery of new venture skills and abilities, and the practical integration of knowledge sets acquired in the Entrepreneurship Specialization.

Prerequisites: Third-year Commerce core or permission of the Program Director.

Corequisites: 410, 411, 413 and registration in the special entrepreneurship section of COM 400.

ENT 411 Units: 1.5 Hours: 3-0
Venture Planning/Finance Expertise (Planning Skills)
As part of the integrated Entrepreneurship Core Semester, this course helps students to further integrate into practice the concepts experienced within the entrepreneurship specialization. Students participate in industry tours, networking sessions, start-up experiences, visits from guest speakers, case studies and industry immersions. From these experiences, students create a portfolio that demonstrates to instructors, investors and other stakeholders their mastery of new venture skills and abilities, and the practical integration of knowledge sets acquired in the Entrepreneurship Specialization.

Prerequisites: Third-year Commerce core or permission of the Program Director.

Corequisites: 410, 411, 413 and registration in the special entrepreneurship section of COM 400.

ENT 412 Units: 1.5 Hours: 3-0
Acquiring Expert Venture Cognitions
As part of the integrated Entrepreneurship Core Semester, this course helps students to further integrate into practice the concepts experienced within the entrepreneurship specialization. Students participate in industry tours, networking sessions, start-up experiences, visits from guest speakers, case studies and industry immersions. From these experiences, students create a portfolio that demonstrates to instructors, investors and other stakeholders their mastery of new venture skills and abilities, and the practical integration of knowledge sets acquired in the Entrepreneurship Specialization.

Prerequisites: Third-year Commerce core or permission of the Program Director.

Corequisites: 410, 411, 413 and registration in the special entrepreneurship section of COM 400.

ENT 413 Units: 1.5 Hours: 3-0
Portfolio Practicum
As part of the integrated Entrepreneurship Core Semester, this course helps students to further integrate into practice the concepts experienced within the entrepreneurship specialization. Students participate in industry tours, networking sessions, start-up experiences, visits from guest speakers, case studies and industry immersions. From these experiences, students create a portfolio that demonstrates to instructors, investors and other stakeholders their mastery of new venture skills and abilities, and the practical integration of knowledge sets acquired in the Entrepreneurship Specialization.

Prerequisites: Third-year Commerce core or permission of the Program Director.

Corequisites: 410, 411, 413 and registration in the special entrepreneurship section of COM 400.

EOC 110 Units: 1.5 Hours: 3-3
Oceans and Atmosphere
Formerly: also GEOG 110
Oceans and Atmosphere
Origin and structure of the ocean and atmosphere. Dynamic processes that drive ocean and atmospheric circulation, waves and currents, and climate change. The coastal ocean, marine ecosystems, nutrient and carbon cycles, human influences on ocean environments, marine resources, and sustainability.

Notes: Credit will be granted for only one of 110, GEOG 110, 203B, 213, 216, EOS 350 (if 350 taken before 201105).

Credit will be granted for only two of the following courses with no more than one course from a particular group.
Group 1: EOC 100, 101; Group 2: EOC 110, GEOG 110, 216; Group 3: EOC 120, GEOG 120, 217.

EOC 120 Units: 1.5 Hours: 3-3
The Dynamic Earth

Notes: Credit will be granted for only two of the following courses with no more than one course from a particular group.
Group 1: EOC 100, 101; Group 2: EOC 110, GEOG 110, 216; Group 3: EOC 120, GEOG 120, 217.

EOC 170 Units: 1.5 Hours: 3-0
Formerly: part of 370
Natural Hazards
An overview of natural hazards including earthquakes, volcanoes, tsunami, landslides, flooding, extreme weather, and meteor impacts. Particular attention is given to hazards related to climate change, hazards affecting southwestern British Columbia, and important historic natural disasters. This is an introductory-level course that does not require a science/math background.

Note: Credit will be granted for only one of 170, 370.

EOC 201 Units: 1.5 Hours: 3-3
Sedimentary Geology
The physical, chemical and biological nature of sediments at sea and on land. The process of sediment transport, deposition and diagenesis. The origin and internal stratigraphy of sedimentary basins in the context of plate tectonics. The sedimentary record as used to reconstruct past climates, geographies, and earth and ocean dynamics. The geological evolution of western Canada as deduced from its stratigraphic record.

Prerequisites: 110 or GEOG 103; 120, 205.

EOC 202 Units: 1.5 Hours: 3-3
Structural Geology
Geometric, kinematic and dynamic analysis of deformation structures in rock bodies at different scales, in both brittle and ductile regimes. Stress and strain in rocks and their relationship to geologic structures. Interpretation of the physical mechanisms of folding and faulting in rocks with structural data and geologic maps. The origin of crustal deformation in the context of plate tectonics.

Prerequisites: 110 or GEOG 103; 120.

EOC 205 Units: 1.5 Hours: 3-3
Mineralogy
Introduction to the fundamental principles and concepts of mineralogy and optical mineralogy. A practical and systematic treatment of the common rock-forming minerals and mineral groups. Emphasis will be placed on understanding the behaviour of minerals in relation to changing physical and chemical conditions, hydrothermal and metamorphic, and sedimentary environments.

Prerequisites: 110 or GEOG 103; 120, CHEM 101, 102.

EOC 210 Units: 1.5 Hours: 3-0
Also: PHYS 210
Introductory Geophysics
Introduction to seismology, gravity, geomagnetism, paleomagnetism and heat flow, and how they contribute to our understanding of whole Earth structure and plate tectonics.

Note: Credit will be granted for only one of 210, PHYS 210.

Prerequisites: Any one of PHYS 112, 120 or 122; MATH 100 and 101.

EOC 225 Units: 1.5 Hours: 3-2
Earth System Modelling
An introduction to the construction, analysis, and interpretation of quantitative models of the Earth System and its components, with a particular...
emphasize the use of computers in scientific problem solving. Both process models and statistical models will be discussed. Topics may include simple models of mountain building, reaction kinetics, global energy balance, ecosystem dynamics, the geothermal gradient, and ocean tides.

Prerequisites: 202 or 260; MATH 202 or two of 200, 201, 205; PHYS 102 or 112 and 120 or 130

Pre- or corequisites: One of STAT 255, 260, GEGO 226; or permission of the department.

EOS 240 Units: 1.5 Hours: 3-3
Geochemy
Thermodynamic and kinetic approaches to understanding the Earth system. Application of theory to practical questions such as mineral formation, weathering, water quality, and petroleum formation. Also covered is short-term ocean and atmospheric geochemistry and long-term Earth history geochemistry.

Note: Credit will be granted for only one of 240, 360 (if taken prior to 1993).

Prerequisites: 110, 120, 205; CHEM 245.

EOS 260 Units: 1.5 Hours: 3-0
Earth System Evolution through Deep Time
Earth evolution has involved long periods of stability punctuated by catastrophic irreversible crises. Focuses on multidisciplinary research into the causes and consequences of key evolutionary crises including: birthing of the moon, the great oxidation event, the Neoproterozoic snowball Earth, the great Permian extinction, and the Cretaceous superplume. Implications for the future evolution of the Earth System are investigated.

Prerequisites: 110, 120.

EOS 300 Units: 1.5
Earth Science Field School
An up to two-week field course in and around southern Vancouver Island during which the students will be introduced to geological fieldwork (mapping, traversing, drawing sedimentary logs, sampling, recording field notes) and the regional geology and tectonics of Vancouver Island. Normally held in late April - early May after examinations for Year 2.

Prerequisites: 201, 202, 205.

EOS 311 Units: 1.5 Hours: 3-3
Also: BIOL 311 (formerly BIOL 311B)
Biological Oceanography
An introduction to the ways in which physical, chemical and biological processes interact to regulate structure and productivity of marine ecosystems. Lectures focus primarily on planktonic ecosystems. Participation in a one-day oceanographic cruise is required (except in summer term).

Notes: Credit will be granted for only one of 311, BIOL 311B.
- BIOL 215 and EOS 110 recommended

Prerequisites: MATH 100 or 102; PHYS 102 or 112; CHEM 101, 102.

EOS 312 Units: 1.5 Hours: 3-3
Introductory Chemical Oceanography
An introduction to the sources, distribution, and transformations of chemical constituents of the ocean, and their relation to biological, chemical, geological, and physical processes. Topics include: controls on average concentration of chemicals in the ocean; vertical and horizontal distributions of ocean constituents; air-sea interactions; production, export, and remineralization of organic matter; the ocean carbon cycle; human-induced changes; stable isotopes and trace elements.

Prerequisites: One of 110, 314, 431; CHEM 101 or 150, and 102; MATH 100 or 102.

EOS 313 Units: 1.5 Hours: 3-3
Geological Oceanography
An introduction to the geological processes that shape the ocean basins, oceanic plate creation and structure, hydrothermal circulation at mid-ocean ridges, bathymetry, ocean islands, different types of ocean margins, ocean sediments, the sedimentary record of past ocean circulation, coastal geology.

Prerequisites: 120; CHEM 101 or 150.

EOS 314 Units: 1.5 Hours: 3-3
Descriptive Physical Oceanography
An introduction to the geography of Earth’s fluid ocean and the physics that govern it. Topics include fundamental physical variables and their distribution, air-sea interaction, water masses and their formation, large-scale ocean dynamics, equatorial and coastal physical oceanography, and interactions between physical, chemical, and biological processes in the ocean. Participation in a single-day oceanographic cruise is expected.

Prerequisites: Two of MATH 100, 101, 102, 151; one of PHYS 102, 112, 120.

EOS 315 Units: 1.5 Hours: 3-0
Acoustical Oceanography
An introduction to ocean science through the window of underwater sound, with applications to physical, biological and geological processes in the ocean. The role of subjects that are the effects of boundaries (sea surface and bottom) and the water-column sound speed profile, sound sources in the ocean, transducers and hydrophones, and basic sound propagation models (ray theory and the sonar equations). Applications include ocean acoustic tomography, fisheries science, marine mammal acoustics, sea-floor mapping, and marine seismic exploration and surveying.

Note: Normally offered in alternate years. Students are advised to consult with the department to determine when this is offered.

Prerequisites: 110, 120; two of MATH 100, 101, 102, 151; one of PHYS 102, 112, or 120.

EOS 316 Units: 1.5 Hours: 3-3
Formerly: two of 310 and 320
Igneous and Metamorphic Geology
The physical and chemical processes governing changes that rocks undergo as they equilibrate at different pressure and temperature conditions within the Earth. Melting, crystalization and sub-solidus reaction as a function of bulk composition. The role of different plate tectonic settings in controlling the pressure-temperature-composition conditions of formation of different igneous and metamorphic rocks.

Note: Credit will be granted for only one of 316, 310, 320.

Prerequisites: 205, 240.

EOS 330 Units: 1.5 Hours: 3-3
Paleobiology
Processes and patterns in the evolution of life through time: extinction, evolution and diversification as recognized from the fossil record. Major events in the history of life. The relationship of biotas to depositional systems: paleoecology, biostratigraphy and paleobiogeography. The major groups of microfossils and invertebrates will be studied with emphasis on their applications in Earth Sciences. Laboratories and field trips will provide illustrative fossil examples.

Note: Credit will be granted for only one of 330, 360.

Prerequisites: 201, and BIOL 12 or BIOL 150A, or permission of the department.

EOS 335 Units: 1.5 Hours: 3-3
Formerly: part of 430
Isotopes in Natural Sciences
Basic principles controlling isotope distribution, including natural abundances, radiogenic decay, equilibrium and kinetic isotope effects. Applications of the principles in the fields of: Earth history—global processes and chronology; mineralization—diagenesis, catagenesis, hydrogeology and characterization of water and air masses; and biogeochemistry and biological fractionation isotopes.

Note: Credit will be granted for only one of 335, 430.

Prerequisites: 240 or permission of the department.

EOS 340 Units: 1.5 Hours: 3-0-1
Atmospheric Sciences
Introduction to the dynamic and thermodynamic processes governing the Earth’s weather and climate. Emphasis on energy and temperature; cloud and precipitation processes; winds and weather systems; ocean-atmosphere interaction; El Niño; and past, present and future climates.

Prerequisites: One of PHYS 102, 112, 120; or permission of the department.

Pre- or corequisites: 225 or two of MATH 200, 201, 205.

EOS 350 Units: 1.5 Hours: 3-0
Understanding the Oceans
Focuses on a small set of ocean topics involving human impacts on the ocean that are rare of particular relevance to society. Topics considered may include pollution, overfishing, ocean acidification, marine conservation, and coastal modification.

Note: Credit will be granted for only one of 350, EOS 110, GEGO 110 if 350 taken before 2011.

Prerequisites: Second-year standing.

EOS 355 Units: 1.5 Hours: 3-0
Climate and Society
A survey of the climate system and its interaction with past, present, and future societies. Topics include: climate change and the onset of agriculture/domestication, climate change and the rise and fall of early civilizations, the anthropocene and global warming. The interplay between science, media, public relations and public policy will also be addressed.

Prerequisites: Third-year standing.

EOS 400 Units: 1.5 Advanced Field Geology
A field trip of up to two week’s duration consisting of a transect of a major geological belt (usually the Canadian Cordillera). The focus varies with location, with the Cordilleran trip focusing on the tectonic interpretation of rock packages; the processes responsible for orogenies; the role of orogens in the construction, growth, and evolution of continents; and how orogens affect and are affected by climate and the Earth system. Normally held in late August to early September, immediately prior to the commencement of the fall term.

Note: 330 strongly recommended.

Prerequisites: 300, 316 or 310 and 320; permission of the department.

EOS 403 Units: 1.5 Hours: 3-0
Global Biogeochemical Cycles
Organic matter is studied from its formation (primary production) through its transformation and destruction during transport, depositional, and diagenetic remineralization processes. Global carbon, nitrogen, phosphorus, and sulphur cycles are discussed. Emphasis is placed on describing the fluxes of nutrients and other major compounds within and across...
the interface of soils, and the sedimentary and water columns.

Note: Normally offered in alternate years. Students are advised to consult with the department to determine when this is offered.

Prerequisites: 240, 335 or 430; or permission of the department.

EOS 408 Units: 1.5 Hours: 3-0
Marine Geology
A combined lecture and seminar course covering modern marine geological processes in a wide range of ocean environments: mid-ocean ridges, mid-plate volcanoes and hot spots, continental margins and abyssal plains. Modern methods of data collection and analysis, including the Ocean Drilling Program.

Note: Normally offered in alternate years. Students are advised to consult with the department to determine when this is offered.

Prerequisites: 201, 316 or 310; or permission of the department.

EOS 410 Units: 1.5 Hours: 3-0
Global Tectonics
A study of global tectonic processes including geological, geophysical, geochemical and geographical perspectives on major tectonic environments. A wide range of examples from different continents will be used. Vancouver Island will also be examined.

Note: Credit will be granted for only one of 427, PHYS 427; or permission of the department.

Prerequisites: 202 or permission of the department.

EOS 416 Units: 1.5 Hours: 3-3
Formerly: part of 310 and 320
High Temperature Petrology
The thermodynamic and kinetic principles controlling the origin and behaviour of rocks at high temperatures and pressures. Thermodynamic and kinetic relations in igneous and metamorphic systems applied to understanding the petrogenesis of magmatic and metamorphic rock suites. Applications to the geodynamic, hydrothermal and tectonic evolution of the Earth and terrestrial planets.

Pre- or corequisites: 316 or 310 or 320, 335 or 430.

EOS 420 Units: 1.5 Hours: 3-3
Resource Geology
A geological study of the major types of economically important metallic and nonmetallic minerals and other earth resources, basic processes of ore formation, exploration and mining techniques. The impacts of these activities on the environment are also considered.

Note: Normally alternates with EOS 422. Students are advised to consult with the department to determine when this is offered.

Pre- or corequisites: 201.

EOS 422 Units: 1.5 Hours: 3-0
Formerly: part of 420
Energy Resources
Discusses the Earth’s major economic natural energy resources. Focuses on conventional oil and gas, coal, CBM and tar sands, including modes of formation, accumulation and recovery, along with the mechanisms of migration and trapping. Canadian examples of petroleum systems and basin modelling augment the material. To a lesser degree, other energy sources are looked at, such as nuclear fuels, solar, hydrogen, geothermal, biogas, wind and tidal, as well as related socio-economic-environmental issues.

Note: Credit will be granted for only one of 422, 420 if 420 taken prior to Winter 2004. Normally offered in alternate years. Students are advised to consult with the department to determine when this is offered.

Prerequisites: 201, 202.

EOS 425 Units: 1.5 Hours: 3-3
Aqueous Chemistry in the Earth and Ocean
What controls the concentrations of aqueous species in the hydrosphere? Principles of chemical equilibria and kinetics are applied to the major aspects of the global hydrochemical cycle. Investigates reactions and sources and sinks of elements in oxic and anoxic aquatic systems such as rainwater, rivers, lakes, groundwater, estuaries, and oceans; also the application of natural and anthropogenic tracers to geochemical problems within aquatic systems.

Note: Normally offered in alternate years. Students are advised to consult with the department to determine when this is offered.

Prerequisites: 240 and 335 or 430; or third-year Chemistry; or permission of the department.

EOS 427 Units: 1.5 Hours: 3-0
Also: PHYS 427
Geophysics
Principles of seismology, gravity, geomagnetism, heat flow, and how they contribute to our understanding of whole Earth structure and plate tectonics.

Note: Credit will be granted for only one of 427, PHYS 427; Normally offered in alternate years. Students are advised to consult with the department to determine when this course is offered.

Prerequisites: PHYS 220 or 321A; 326.

Pre- or corequisites: One of MATH 301, 330B, 438; MATH 326 or 346.

EOS 430 Units: 1.5 Hours: 3-0
Physical Oceanography
Observations and theories explaining the wind- and buoyancy-driven circulations of the ocean. Topics include wind-forced currents; ocean-scale gyres; coastal circulation; conservation of dynamical tracers; mixing, potential energy and the resulting basin-scale overturning circulations; waves.

Pre- or corequisites: 225 or two of MATH 200, 201, 205; PHYS 112 or 120; or permission of the department.

EOS 433 Units: 1.5 Hours: 3-0
The Climate System
Studies of the Earth’s climate require an understanding of the intimate links between the hydrosphere, atmosphere, cryosphere and biosphere. Basic theories of the dynamics of ocean and atmosphere. The physics and biogeochemistry of coupled models are examined with emphasis on simple intuition-building mathematical models as well as discussion of large computer models.

Note: Normally offered in alternate years. Students are advised to consult with the department to determine when this is offered.

Pre- or corequisites: 340, 431; MATH 326 or 346; PHYS 217 or 317; or permission of the department.

EOS 435 Units: 1.5 Hours: 3-0
Waves in the Ocean
The mathematical theories and physics of surface gravity waves, internal waves, Rossby waves and other wave motions in the ocean are introduced, with an emphasis on general results that describe the effects on the waves of variable properties of the medium, and the back effects of the waves on the mean flow.

Pre- or corequisites: 431; MATH 301 or 330B; MATH 326 or 346; PHYS 317, 321A, 325, 426; or permission of the department.

EOS 440 Units: 1.5 Hours: 3-3
Hydrogeology
Interdisciplinary and quantitative approaches to the nature and migration of fluids in the Earth’s crust. Theory of groundwater flow in fractured and porous media. Surface-groundwater interactions and changes in water quality; well flow; waste disposal; groundwater contamination.

Prerequisites: 240; 225 or two of MATH 200, 201, 205; or permission of the department.

EOS 450 Units: 1.5 Hours: 3-0
Quaternary Geology
The methods and theory of Quaternary research, stressing the processes of interaction between the geosphere and biosphere. Topics include dating methods, paleoenvironmental studies, glaciation and global change, geological hazards, interdisciplinary research and applied studies, particularly the influence for engineering design.

Prerequisites: 201, 240; or permission of the department.

EOS 460 Units: 1.5 Hours: 3-3
Earth System Science
An examination of the interrelationships between the complex systems operating in the solid Earth, hydrosphere, atmosphere and biosphere; methods of systems analysis for the planet; modelling of global processes discussed in EOS 433.

Prerequisites: 260, 335 or 430, and completion of at least two other EOS courses numbered 300 or above (excluding 350, 360, 365, 370).

EOS 480 Units: 1.5 Hours: 3-3
Applied Geophysics
An introduction to geophysical methods used in resource exploration and in investigations of crustal structure. Topics include principles and applications of seismic, gravity, magnetic, electrical and electromagnetic methods. Emphasis will be placed on interpretation of geophysical data for Earth structure.

Prerequisites: Fourth-year standing in SEOS or PHYS; or permission of the department.

EOS 490 Units: 1.5 or 3.0
Directed Studies in Earth and Ocean Sciences
With the consent of the School and the faculty member concerned, a student may be permitted to pursue a course of directed studies.

Note: Students may not take more than 3 units of 490 studies.

EOS 491 Units: 1.5-3.0 Hours: 3-0
Advanced Topics in Earth and Ocean Sciences
Examination of a specific topic in Earth and Ocean Sciences.

Note: May be taken more than once in different topics.

Prerequisites: Permission of the department.

EOS 499A Units: 1.5
Formerly: part of 499
Honours Thesis I
The first stage of a research project conducted under the direction of a faculty member. Open to Honours students only.

Notes: - Credit will be granted for only one of 499A and 499B, 499.
- 499A and 499B are "tied" courses and must be taken in consecutive terms except with permission of the department.
- Credit for 499A will be assigned only upon successful completion of 499B.

Prerequisites: Permission of the department.

Grading: INP, letter grade (assigned upon completion
COURSE LISTINGS

EPHE
Exercise Science, Physical and Health Education
School of Exercise Science, Physical and Health Education
Faculty of Education
Courses offered by the Faculty of Education are also found under the following course codes: AE, ED-D, ED-P, EDCI, EPHE, IA, IED, IET, ME.
* The following courses, EPHE 104-137, are intended for students pursuing degrees in Exercise Science, Physical and Health Education (BA, BEd, and BSc). They are designed to develop each participant’s level of performance, ability to analyze skills, and understanding of strategies or concepts within the particular activity. Maximum credit for EPHE 104-137 courses in degree programs offered by the Faculty of Education is specified in section 7.4. Students in Exercise Science, Physical and Health Education programs are expected to complete most of the required EPHE 104-137 courses in the first two years.

EPHE 104* Units: 0.5 Hours: 2-0
Formerly: PE 104
Special Activity
Note: With special permission, may be taken more than once for credit in a degree program.

EPHE 105* Units: 0.5 Hours: 2-0
Formerly: PE 105
Swimming
Note: Credit will be granted for only one of 105, PE 105.

EPHE 106* Units: 0.5 Hours: 2-0
Formerly: PE 106
Track and Field
Note: Credit will be granted for only one of 106, PE 106.

EPHE 107* Units: 0.5 Hours: 2-0
Formerly: PE 107
Gymnastics I
Note: Credit will be granted for only one of 107, PE 107.

EPHE 109* Units: 0.5 Hours: 2-0
Formerly: PE 109
Recreational Dance
Note: Credit will be granted for only one of 109, PE 109.

EPHE 113* Units: 0.5 Hours: 2-0
Formerly: PE 113
Golf
Note: Credit will be granted for only one of 113, PE 113.

EPHE 114* Units: 0.5 Hours: 2-0
Formerly: PE 114
Creative Dance
Note: Credit will be granted for only one of 114, PE 114. Not offered every year.

EPHE 116* Units: 0.5 Hours: 2-0
Formerly: PE 116
Badminton
Note: Credit will be granted for only one of 116, PE 116.

EPHE 117* Units: 0.5 Hours: 2-0
Formerly: PE 117
Tennis
Note: Credit will be granted for only one of 117, PE 117.

EPHE 119* Units: 0.5 Hours: 2-0
Formerly: PE 119
Contemporary Dance
Note: Credit will be granted for only one of 119, PE 119. Not offered every year.

EPHE 120* Units: 0.5 Hours: 2-0
Formerly: PE 120
Basketball
Note: Credit will be granted for only one of 120, PE 120.

EPHE 121* Units: 0.5 Hours: 2-0
Formerly: PE 121
Soccer
Note: Credit will be granted for only one of 121, PE 121.

EPHE 122* Units: 0.5 Hours: 2-0
Formerly: PE 122
Volleyball
Note: Credit will be granted for only one of 122, PE 122.

EPHE 123* Units: 0.5 Hours: 2-0
Formerly: PE 123
Rugby
Note: Credit will be granted for only one of 123, PE 123. Offered in alternate years.

EPHE 124* Units: 0.5 Hours: 2-0
Formerly: PE 124
Field Hockey
Note: Credit will be granted for only one of 124, PE 124. Offered in alternate years.

EPHE 125* Units: 0.5 Hours: 2-0
Formerly: PE 125
Softball
Note: Credit will be granted for only one of 125, PE 125. Offered in alternate years.

EPHE 126* Units: 0.5 Hours: 2-0
Formerly: PE 126
Orienteering
Note: Credit will be granted for only one of 126, PE 126.

EPHE 133* Units: 0.5 Hours: 2-0
Formerly: PE 133
Strength Training
Note: Credit will be granted for only one of 133, PE 133.

EPHE 134* Units: 0.5 Hours: 2-0
Formerly: PE 134
Yoga
Note: Credit will be granted for only one of 134, PE 134.

EPHE 135* Units: 0.5 Hours: 2-0
Formerly: PE 135
Martial Arts
Note: Credit will be granted for only one of 135, PE 135. Offered in alternate years.

EPHE 136* Units: 0.5 Hours: 2-0
Lacrosse
Note: Credit will be granted for only one of 136, PE 104 Special Activity: Lacrosse.

EPHE 137 Units: 0.5 Hours: 2-0
Experiential Outdoor Education
Note: Credit will be granted for only one of 137, EPHE 104 Special Activity: Experiential Outdoor Education

EPHE 141 Units: 1.5 Hours: 3-2
Formerly: PE 141
Human Anatomy
Systematic study of human anatomy emphasizing the relationship between structure and anatomical function. Involves detailed examination of human tissues, organs, and structural components of all physiological systems (neural, muscular, skeletal, integument, cardiovascular, respiratory, digestive, renal, lymphatic, endocrine, reproductive) emphasizing those involved in human movement. Mandatory system-focused weekly laboratories using human skeletons, fresh tissue dissections, computer graphics, anatomical charts, and plastinated models complement lectures to provide an understanding of the structural organization of the human body.
Note: Credit will be granted for only one of 141, PE 141.

EPHE 142 Units: 1.5 Hours: 3-0
Formerly: PE 142
Personal Health, Wellness and Potential
An examination of lifestyle behaviours, which have the power to enhance or diminish personal potential. Current wellness models and motivational theories will be reviewed and applied to wellness planning as related to personal and professional performance. Topics will include physical activity and health; nutrition; stress management; substance use/abuse; environmental awareness; goal setting; and the process of decision-making.
Note: Credit will be granted for only one of 142, PE 142.

EPHE 143 Units: 1.5 Hours: 3-0
Formerly: PE 143
Multidisciplinary Foundations of Physical Activity
The relationship of physical activity to education, kinesiology, athletics, health, recreation, and leisure. The contributions made by the sciences of physiology, motor learning and biomechanics are discussed. Students gain an understanding of the historical, philosophical and psycho-sociological foundations of physical education and discuss a wide range of contemporary issues as they affect physical activity and active living.
Note: Credit will be granted for only one of 143, PE 143.

EPHE 155 Units: 1.5 Hours: 3-0
Formerly: PE 155
Introduction to Nutrition: Concepts and Controversies
The basics of diet planning, dietary guidelines and weight management will be covered through the
application and demonstration of nutritional principles and their relationship to physical activity and health. Controversial topics such as ergogenic aids, vitamin and mineral supplementation, alcohol, diets and organic foods will be discussed using a balanced view of scientific evidence.

Note: Credit will be granted for only one of 155, PE 155.

EPHE 155 Units: 1.5 Hours: 3-0
The Science of Batman
The extreme range of adaptability of the human body explored through the life of the Caped Crusader; examines human potential using Batman as a metaphor for the ultimate in human conditioning; evaluates the concepts of adaptation to exercise and injury from the perspective of science and exercise training; examines the multiple sciences behind exercise adaptation, musculoskeletal injury and concussion, and limitations of the human body and mind.

Note: Offered alternate years.

EPHE 200 Units: 0 Hours: 1.5-0
Co-op Seminar: Introduction to Professional Practice
Discusses the nature of co-operative education experiential education expectations, how to bring learning into the co-op experience, and the services provided by the EPHE Co-op Office. Advice on how to apply for and succeed in co-op placements, write about the experience and assist in job development.

Note: Offered in the September to December academic term.

Grading: COM, N, F.

EPHE 201 Units: 1.5 Hours: 3-2
Qualitative Analysis of Human Movement
Current theories, principles and practice related to the qualitative analysis of motor skills including basic mechanical principles (stability, force, lever, leverage, and linear and rotary motion).

EPHE 241A Units: 1.5 Hours: 3-2
Formerly: PE 241A
Introduction to Human Cellular Physiology
The study of the molecular and cellular functions in humans with emphasis on homeostasis, cellular transport, protein synthesis, energy metabolism, cellular control, and blood as a tissue.

Note: Credit will be granted for only one of 241A, PE 241A.

EPHE 241B Units: 1.5 Hours: 3-2
Formerly: PE 241B
Introduction to Human Systemic Physiology
The study of the integrated functions of physiological systems with emphasis on the nervous, endocrine, muscular, cardiovascular and respiratory systems.

Note: Credit will be granted for only one of 241B, PE 241B.

Prerequisites: 141 or PE 141.

EPHE 243 Units: 1.5 Hours: 3-0
Formerly: PE 243
Foundations of Recreation and Leisure
An introduction to the nature and scope of recreation; a consideration of past influences and future trends; the role of the recreational professional.

Note: Credit will be granted for only one of 243, PE 243.

EPHE 244 Units: 1.5 Hours: 3-0
Formerly: PE 244
Canadian Recreation Delivery Systems
An overview of the development and delivery of recreational programs in Canada. Canadian federal, provincial, municipal, private and volunteer agencies are described and analyzed.

Note: Credit will be granted for only one of 244, PE 244.

EPHE 245 Units: 1.5 Hours: 3-2
Formerly: PE 245
Motor Learning
Neural and cognitive processes underlying human skilled action and the factors that influence learning and control of these actions. Ways in which the human motor system enables the acquisition and retention of complex movement skills and implications for the design of instructional situations to support retention and optimal performance of skilled actions.

Note: Credit will be granted for only one of 245, PE 245.

EPHE 246 Units: 1.5 Hours: 3-0
Formerly: PE 144, PE 246
Active Health
Reviews health topics outlined in the BC Ministry of Education's IRPs for Physical Education and Career and Health and Career Education. Focuses on how physical education teachers can use student-centred learning approaches to encourage students to become active advocates for their own health. Topics include Quality Daily Physical Education, Active Living, eating disorders, stress management, nutrition, and personal and school health planning.

Note: Credit will be granted for only one of 246, PE 246, PE 144.

EPHE 252 Units: 1.5 Hours: 3-0
Formerly: PE 252
Leadership Methods for Recreation and Health Education
Theoretical and practical introduction to leadership, teaching, communication, and decision making skills in recreation/leisure services, sport, and fitness. Field experience is required as part of this course.

Note: Credit will be granted for only one of 252, PE 252.

EPHE 253 Units: 1.5 Hours: 3-0
Formerly: PE 253
Program Planning
An analysis and application of theoretical and practical approaches for developing effective recreation/leisure services, sport, fitness, wellness, and health promotion programs.

Note: Credit will be granted for only one of 253, PE 253.

EPHE 270 Units: 1.5 Hours: 3-0
Formerly: PE 270
Foundations of Outdoor Recreation
Exploration of the outdoor environment as a venue for leisure and educational experiences. Leadership roles in environmental protection, influence on participant behaviour and quality of experience are examined. Other topics include survey and investigation of theoretical and common definitions of outdoor recreation, outdoor education and interpretation; delivery systems, populations and special interest groups; planning; environmental ethics, safety, and health; ecotourism.

Note: This course does NOT include an experiential component. Credit will be granted for only one of 270, PE 270.

EPHE 310 Units: 1.5 Hours: 3-0
Formerly: PE 310, part of PE 304
Physical Education for General Classroom Teachers: A
Assists generalist teachers in planning and implementing physical education programs for the elementary grades. Students will develop the knowledge and pedagogical skills necessary to help children incorporate physical activity as part of a healthy lifestyle. Overall focus is on the learning of movement skills and on the developing child as a learner. Includes a variety of teaching experiences with elementary school-age children.

Note: Credit will be granted for only one of 310, PE 247, 304, 310, EDUC 304. Students with credit for 310 and/or 311 may not receive credit for 312.

Prerequisites: Acceptance in the Bachelor of Education Elementary Education program.

EPHE 311 Units: 1.5 Hours: 3-0
Formerly: PE 311, part of PE 304
Physical Education for General Classroom Teachers: B
Extends and refines the knowledge and pedagogical skills included in EPHE 310. Overall focus is on broadening their application to a variety of different movement categories in the elementary physical education curriculum. Students learn to create inclusive and yearly plans that encourage children to incorporate physical activity as a part of a healthy lifestyle. Includes a variety of teaching experiences with elementary school-age children.

Note: Credit will be granted for only one of 311, PE 247, 304, 311, EDUC 304. Students with credit for 310 and/or 311 may not receive credit for 312.

Prerequisites: 310 or PE 310 and acceptance in the Bachelor of Education Elementary Education program.

EPHE 341 Units: 1.5 Hours: 3-2
Formerly: PE 341
Biomechanics
Focuses on the fundamental physical and mechanical laws that control human movement and relates these laws to the techniques used in a variety of motor skills. Teaches how optimal performances in motor skills are based on the best use of these laws.

Note: Credit will be granted for only one of 341, PE 341.

Prerequisites: 201, MATH 100 or 102, PHYS 102 or 120.

EPHE 342 Units: 1.5 Hours: 3-0
Formerly: PE 342
History of Physical Education
Interpretative study and analysis of physical education and sport through their historical development; current trends, social and cultural implications; relationship to education.

Note: Credit will be granted for only one of 342, PE 342. Offered in alternate years.

2012-13 UVIC CALENDAR
297

COURSE LISTINGS

156
EPHE 344  Units: 1.5  Hours: 2-1
Formerly: PE 344
Care and Prevention of Athletic Injuries
An introduction to general athletic training practices. Topics to be covered include safe environments, identifying risk factors associated with specific sports, legal responsibilities and documentation, developing and implementing emergency protocols for crisis procedures, and basic taping and strapping techniques. Also includes a 40-hour practical experience with a local sport team.
Note: Credit will be granted for only one of 344, PE 344.
Prerequisites: 241B or PE 241B or equivalent.

EPHE 346  Units: 1.5  Hours: 3-0
Formerly: PE 346
Motor Development and Physical Maturation
An overview of motor development and maturation from the neonate to adulthood and old age. Special attention will be given to the growth and motor development characteristics of children and adolescents.
No prerequisite required but a background in anatomy is recommended. Credit will be granted for only one of 346, PE 346.

EPHE 347  Units: 1.5  Hours: 3-0
Formerly: PE 347
Sport in Society
Exploration of the historical use of sport as an expression of culture, ideology, and political philosophy. Comparison of the way in which sport is used as a means of developing national pride and international prestige. Considers how the commercialization of sport has made it a money-making vehicle for countries, cities, multi-national corporations, and television networks.
Note: Credit will be granted for only one of 347, PE 347. Offered in alternate years.

EPHE 348  Units: 1.5  Hours: 3-2
Formerly: PE 348
Psychology of Physical Activity
An examination of the psychological concepts related to human physical activity behaviour, which includes engagement in exercise and sport.
Note: Credit will be granted for only one of 348, PE 348.
Prerequisites: PSYC 100A/B.

EPHE 351  Units: 1.5  Hours: 3-0
Formerly: PE 351
Community and Population Health
Builds on students’ knowledge of individual wellness and lifestyle behaviours by exploring the concepts of community and population health. Topics will include: the evolution of health promotion and population health; the determinants of health; epidemiology of health behaviours; understanding and enhancing the health of children, youth, adults, seniors; principles of ecology and environmental health.
Note: Credit will be granted for only one of 351, PE 351.

EPHE 352  Units: 1.5  Hours: 3-0
Formerly: PE 352
Instructional Techniques in Individual Activities Secondary
Methods of teaching individual activities to secondary school and related groups. Field experience may be required as part of this course.
Note: Reserved for BEd secondary students in the physical education teaching area. Credit will be granted for only one of 352, PE 352.

EPHE 355  Units: 1.5  Hours: 3-0
Formerly: PE 355
Functional Anatomy
The study of neural and musculoskeletal structures with focus on functional applications. Emphasis is placed on the relationship between human movement, and the anatomical organization and stability of the extremities and trunk. Some application to causes and prevention of activity-related musculo-skeletal disorders (injury and/or disease related), and exercise prescription for rehabilitation is also included.
Note: Credit will be granted for only one of 355, PE 355.
Prerequisites: 241B, PE 241B.

EPHE 356  Units: 1.5  Hours: 3-0
Formerly: PE 356
Principles of Facility Administration
Study of the concepts and processes of management as they apply to leisure service, recreation, fitness and health facilities. Emphasis on problem-solving techniques used by administrators and managers in the planning, designing, controlling, financing, renovating and maintaining of such facilities.
Note: Credit will be granted for only one of 356, PE 356.

EPHE 357  Units: 1.5  Hours: 3-0
Formerly: PE 357
Introduction to Research
An introduction of quantitative and qualitative research approaches to disciplinary areas in the School of Exercise Science, Physical and Health Education. Topics include methods and design, measurement issues, analysis and interpretation of literature and analytical procedures used in research.
Note: Credit will be granted for only one of 357, PE 357. Offered in alternate years.

EPHE 358  Units: 1.5  Hours: 3-0
Formerly: EPHE 354A
Management in Recreation and Health
A review of general administrative and organizational theories with particular reference to their application in recreation and health related service agencies. Topics include the nature of administration, structures of organizations, policy making, human resource development, change management, meetings, strategic planning and the advancement of partnerships.
Note: Credit will be granted for only one of 358, 354A, PE 354A.
Prerequisites: COOP 001 or RHED 001 or KINE 1001 completed or in progress.

EPHE 359  Units: 1.5  Hours: 3-0
Formerly: EPPE 354B
Fiscal and Legal Management in Recreation and Health
A detailed look at the budgeting process, financial control, goal setting, risk management and legal liability in recreation and health related service agencies. Although 358 is not a prerequisite, 359 is best taken in conjunction with 358.
Note: Credit will be granted for only one of 358, 354B, PE 354B.
Prerequisites: Completion of COOP 001 or RHED 001 or KINE 001.

EPHE 360  Units: 1.5  Hours: 3-2
Exercise Prescription
Principles of fitness and the development of exercise programs to enhance health and/or performance of children, adults and special populations including athletes, the elderly and disabled; application of programs in a variety of settings; methods of evaluating physiological adaptation to exercise using laboratory and field experiences.
Note: Credit will be granted for only one of 360, PE 360.
Prerequisites: 241B or PE 241B or equivalents.

EPHE 361  Units: 1.5  Hours: 3-3
Formerly: PE 361
Coaching Studies
An in-depth study of coaching theory. Students who successfully complete the course will receive the Coaching Association of Canada’s Level 1 and 2 theory certification. Requires a practical coaching experience in a sport of the student’s choice.
Note: Credit will be granted for only one of 361, PE 361, PE 463.
Grading: INP; letter grade.

EPHE 380  Units: 1.5  Hours: 3-2
Formerly: PE 380
Motor Control
An examination of the neural processes involved in the maintenance of posture, the control of movement, and issues related to understanding the cerebral organization of goal-directed movement. Includes discussion of certain movement disorders and the relationship of the disturbances to stages in the sequence of information processing.
Note: Credit will be granted for only one of 380, PE 380, 442.

EPHE 435  Units: 1.5  Hours: 3-0
Formerly: PE 435, EDUC 435
Cultural and Outdoor Physical Activity
Provides the opportunity for students to develop an understanding and appreciation of a variety of outdoor physical activities and cultural movement forms suitable for elementary school children. Movement forms are drawn primarily from the alternative-environment, dance, and games movement categories in the Physical Education K-7 Integrated Resource Package. A school-based experience may be included.
Note: Credit will be granted for only one of 435, PE 435, EDUC 435.

EPHE 439  Units: 1.5  Hours: 3-0
Formerly: PE 439, EDUC 445
Creative Movement
Laban’s four elements of movement (space awareness, body awareness, qualities and relationships) for analyzing and teaching creative movement activities. Instructional strategies will stress exploratory methods and techniques. Practical applications to dance, gymastics and games.
Note: Credit will be granted for only one of 439, PE 439, EDUC 445.

EPHE 441  Units: 1.5  Hours: 3-2
Formerly: PE 441
Exercise Physiology
The physiological adaptation of the human body to acute and chronic exercise; nutrition for exercise and recovery.
Note: Credit will be granted for only one of 441, PE 441.
Prerequisites: 241A and PE 241A and 241B or PE 241B.

EPHE 443  Units: 1.5  Hours: 3-0
Formerly: PE 443
Organization and Administration of Physical Education
Nature and function of administration; management of equipment and facilities; organization and management of programs of physical education and ath-
EPHE 444  Units: 1.5  Hours: 3-2
Measurement and Evaluation in Physical Education
Use of laboratory and field tests in the assessment of physical performance and physique. Test administration and interpretation of results.
Note: A background in physiology recommended. Credit will be granted for only one of 444, PE 444.

EPHE 445  Units: 1.5  Hours: 2-0
Formerly: PE 445
Developmental and Adaptive Physical Activity
Examination of physical education and recreation activities for atypical individuals. Methods of assessing physical performance, adapting equipment and facilities and applying programming techniques are explored. Field experience is required as part of this course.
Note: Credit will be granted for only one of 445, PE 445.

EPHE 447  Units: 1.5  Hours: 3-0
Formerly: PE 447
Kinesiology Seminar and Practicum
Addresses topics pertinent to the Kinesiology field. The practicum involves aspects of program planning and, where possible, direct leadership responsibilities.
Note: Credit will be granted for only one of 447, PE 447.
Prerequisites: 253 or PE 253.

EPHE 449  Units: 1.5  Hours: 3-0
Formerly: PE 449
Physical Parameters of Aging
The anatomical and physiological changes associated with human aging and the relationships between hypokinetic (inactivity induced) disease, stress, and nutritional habits to aging and the merits of various intervention strategies.
Note: Credit will be granted for only one of 449, PE 449. Offered in alternate years.
Prerequisites: 241B or PE 241B or equivalent.

EPHE 451  Units: 1.5  Hours: 3-0
Formerly: PE 451
Leadership Issues in Fitness, Health and Wellness
This inquiry-based learning course examines current and emergent leadership issues in the fitness, health and wellness fields. Topics include national fitness leadership certification and registration programs in Canada and the United States, trends in fitness and lifestyle programming, alternative health and wellness programs and services and leadership and management models in the not-for-profit, public and private enterprise systems.
Note: Credit will be granted for only one of 451, PE 451. Offered in alternate years.

EPHE 452  Units: 1.5  Hours: 3-0
Formerly: PE 452
Teaching Strategies for Games in Physical Education
Methods of teaching game activities to students in secondary schools and related groups. Field experience is required as part of this course.
Note: Reserved for BEd Secondary students in the Physical Education teaching area. Credit will be granted for only one of 452, PE 452.

EPHE 454  Units: 1.5  Hours: 2-0
Formerly: PE 454
Marketing for Health and Social Change
The study and application of social marketing concepts and strategies to address the health and social change opportunities for, and challenges facing, the recreation profession and provide a synthesis for the graduating student.
Note: Credit will be granted for only one of 454, PE 454.
Prerequisites: Completion of at least 2 co-operative work terms: COOP 001 and RHED 001 or RHED 002.

EPHE 455  Units: 1.5  Hours: 3-0
Formerly: PE 455
Nutrition for Exercise and Health
The study of nutrition in the applied context of physical activity, exercise and sport performance. The role of macro- and micro-nutrient consumption, the effects of nutritional supplements and hydration strategies, and the use of specialized diets for performance enhancement will be examined.
Note: Credit will be granted for only one of 455, PE 455.
Prerequisites: 155 or PE 155 and 241B or PE 241B.

EPHE 456  Units: 1.5  Hours: 3-0
Formerly: PE 456
Occupational Ergonomics
The application of ergonomic principles to industrial settings, work site job analysis, assessing biomechanical risk factors and the development of risk prevention programs. Specific emphasis will be placed on understanding the relevant Canadian occupational health and safety legislation and ergonomic standards.
Note: Credit will be granted for only one of 456, PE 456. Offered alternate years.
Prerequisites: 201 and 241B or PE 241B.

EPHE 461A  Units: 0.5  Hours: 2-0
Formerly: PE 461A
Advanced Skills and Officiating - Badminton
In-depth study of badminton including advanced skill performance and officiating to an approved level.
Note: Not offered every year, check the timetable. Students in the BEd (Secondary Curriculum) program with Physical Education as a teaching area must register in one of EPHE 461A-M for 0.5 units. Credit will be granted for only one of 461A, PE 461A.
Prerequisites: 116

EPHE 461B  Units: 0.5  Hours: 2-0
Formerly: PE 461B
Advanced Skills and Officiating - Basketball
In-depth study of basketball including advanced skill performance and officiating to an approved level.
Note: Not offered every year, check the timetable. Students in the BEd (Secondary Curriculum) program with Physical Education as a teaching area must register in one of EPHE 461A-M for 0.5 units. Credit will be granted for only one of 461B, PE 461B.
Prerequisites: 120

EPHE 461C  Units: 0.5  Hours: 2-0
Formerly: PE 461C
Advanced Skills and Officiating - Dance
In-depth study of dance including advanced skill performance and officiating to an approved level.
Note: Not offered every year, check the timetable. Students in the BEd (Secondary Curriculum) program with Physical Education as a teaching area must register in one of EPHE 461A-M for 0.5 units. Credit will be granted for only one of 461C, PE 461C.

EPHE 461D  Units: 0.5  Hours: 2-0
Formerly: PE 461D
Advanced Skills and Officiating - Field Hockey
In-depth study of field hockey including advanced skill performance and officiating to an approved level.
Note: Not offered every year, check the timetable. Students in the BEd (Secondary Curriculum) program with Physical Education as a teaching area must register in one of EPHE 461A-M for 0.5 units. Credit will be granted for only one of 461D, PE 461D.
Prerequisites: 107

EPHE 461E  Units: 0.5  Hours: 2-0
Formerly: PE 461E
Advanced Skills and Officiating - Gymnastics
In-depth study of gymnastics including advanced skill performance and officiating to an approved level.
Note: Not offered every year, check the timetable. Students in the BEd (Secondary Curriculum) program with Physical Education as a teaching area must register in one of EPHE 461A-M for 0.5 units. Credit will be granted for only one of 461E, PE 461E.
Prerequisites: 123

EPHE 461F  Units: 0.5  Hours: 2-0
Formerly: PE 461F
Advanced Skills and Officiating - Rugby
In-depth study of rugby including advanced skill performance and officiating to an approved level.
Note: Not offered every year, check the timetable. Students in the BEd (Secondary Curriculum) program with Physical Education as a teaching area must register in one of EPHE 461A-M for 0.5 units. Credit will be granted for only one of 461F, PE 461F.
Prerequisites: 129

EPHE 461G  Units: 0.5  Hours: 2-0
Formerly: PE 461G
Advanced Skills and Officiating - Soccer
In-depth study of soccer including advanced skill performance and officiating to an approved level.
Note: Not offered every year, check the timetable. Students in the BEd (Secondary Curriculum) program with Physical Education as a teaching area must register in one of EPHE 461A-M for 0.5 units. Credit will be granted for only one of 461G, PE 461G.
Prerequisites: 121

EPHE 461H  Units: 0.5  Hours: 2-0
Formerly: PE 461H
Advanced Skills and Officiating - Swimming
In-depth study of swimming including advanced skill performance and officiating to an approved level.
Note: Not offered every year, check the timetable. Students in the BEd (Secondary Curriculum) program with Physical Education as a teaching area must register in one of EPHE 461A-M for 0.5 units. Credit will be granted for only one of 461H, PE 461H.
Prerequisites: 105

EPHE 461I  Units: 0.5  Hours: 2-0
Formerly: PE 461I
Advanced Skills and Officiating - Tennis
In-depth study of tennis including advanced skill performance and officiating to an approved level.
Note: Not offered every year, check the timetable. Students in the BEd (Secondary Curriculum) program with Physical Education as a teaching area must register in one of EPHE 461A-M for 0.5 units. Credit will be granted for only one of 461I, PE 461I.
Prerequisites: 117
Environmental Restoration
School of Environmental Studies
Faculty of Social Sciences

**ER 200 Units: 0.5 per module**

**Scientific Principles and Concepts for Environmental Restoration**

An opportunity to gain background knowledge in selected scientific disciplines relevant to environmental restoration. Possible topics may include ground water, quantitative ecology, statistics, marine biology, and others. Students take modules of existing courses at the University of Victoria.

**Notes:**
- A module consists of the first third of a scheduled course.
- Registration is limited and open only to Diploma students registered in the FNS program. Please contact the program coordinator in the Division of Continuing Studies for information about course availability and registration procedures.

**ER 311 Units: 1.5**

**Principles and Concepts of Ecological Restoration**

Discussion of physical and biological characteristics of ecosystems and processes with emphasis on British Columbia. Examines natural and human-caused changes at ecosystem to species level; discussion of ecosystems and biodiversity; consideration of philosophy and ethics of restoration and an introduction to legal and policy frameworks. Introduction to assessing the stated ecosystems and developing recommendations through field visits. Combines factual scientific analysis of ecosystems in the context of human values and needs.

**Notes:**
- Credit will be granted for only one of 311, ES 341, ES 400D (if taken in 1995-96). Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.
- Prerequisites: If taken as ES 341, ES 200 or 300A, 240 or BIOL 215, and second-year standing.

**ER 312A Units: 1.5**

**Field Study in Ecological Restoration I**

Introduces basic field methodologies for assessment and restoration of local sites; includes individual and group field research, and involves field surveys, observation and background study on specific ecosystem types.

**Notes:**
- Credit will be granted for only one of 312A, ES 339, ES 400D if taken in 1995-96. Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.
- Prerequisites: If taken as ES 341, ES 200 or 300A, and 321 or permission of the Director.

**ER 312B Units: 1.5**

**Field Study in Ecological Restoration II**

An advanced field study course involving detailed site evaluation (prescription). May involve participation in a restoration project. Will involve the practicum can be undertaken at locations outside the province or internationally.

**Notes:**
- Credit will be granted for only one of 312A, ES 339, ES 400D if taken in 1995-96. Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.
- Prerequisites: ER 312A.

**ER 313 Units: 1.5**

**Biodiversity and Conservation Biology**

Study of biological organisms and ecosystems with particular reference to mechanisms of change and human impacts on the environment. Focuses on: biodiversity (definition, assessment methods, loss, and evaluation); population biology (concepts and research methods); habitat loss; species extinction; exotic species and their impacts; and possibilities for human intervention in alleviating trends in species loss and ecosystem degradation.

**Notes:**
- Credit will be granted for only one of 313, ES 318, ES 320, ES 348, BIOL 370. Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.
- Prerequisites: BIOL 150A and B or equivalent, or permission of the program’s Academic Administrator. If taken as ES 348, ES 200 and BIOL 190A or B or equivalent.

**ER 314 Units: 1.5**

**Ethical, Legal and Policy Aspects of Environmental Restoration**

Addresses the relationship of environmental values to legislative and legal systems. Includes: ethical considerations in land management; future economic benefit and ecological cost; the land ethic; policy and legal considerations in restoration; and ecorestoration in research and natural resource management programs.

**Notes:**
- Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.

**ER 325 Units: 1.5**

**Ecosystems of British Columbia, Canada and the World**

A survey of the major ecozones of Canada and the world, their characteristics, and their current status. Classification systems in Canada and British Columbia. Major types of ecosystems, from marine and aquatic to forest, grassland, and desert systems will be discussed including the significant threats to each, and core causes of change. Consideration given to biodiversity; fragmentation; ecological resilience; succession.

**Notes:**
- Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.

**ER 326 Units: 1.5**

**Also: ES 423**

**Traditional Systems of Land and Resource Management**

The role of traditional ecological knowledge in the understanding and documentation of the biodiversity of natural systems and their restoration. Examination of how restoration strategies can benefit from the close relationship of Indigenous Peoples to their local environments, and from their knowledge of plants and animals, their habitats and ecological interrelationships, as well as from traditional land and resource management strategies.

**Notes:**
- Credit will be granted for only one of 326, ES 353, 423.
- Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.
- Prerequisites: If taken as ES 425, ES 200 or 300A and 321 or permission of the Director.

**ER 327 Units: 1.5**

**Ecorestoration Strategies: Case Studies**

Examination of specific sites illustrating restoration problems and solutions. Examples include mine reclamation projects, highway and rail right-of-way stabilization, urban ravine and stream rehabilitation.

**Notes:**
- Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.
ER 328 Units: 1.5
Forest Restoration and Sustainable Forestry
Note: Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.

ER 329 Units: 1.5
Mining Restoration
Impact of mines and mining practices on natural systems and landscapes; physical and chemical characteristics of mine sites and debris; restoration vs. reclamation; pre- and post-disturbance restoration strategies; engineering issues; revegetation and remediation of soil and mine sites; long-term problems such as slope stability and acid mine drainage; legislation, policies and regulations.
Note: Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator. Background in physical geography such as GEOG 213 or equivalent strongly recommended.

ER 331 Units: 1.5
Urban Restoration and Sustainable Agricultural Systems
The role of restoration of natural systems in the populated landscape; structural characteristics of the landscape and its natural ecological potential; sustainable intensive human use. Planning and design, role of green space, natural corridors, recreation, soil and water conservation and restoration, ecological landscape architecture, integrated pest management, organic agriculture, urban agriculture, permaculture, British Columbia and world examples.
Note: Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.

ER 332 Units: 1.5
Selection and Propagation of Native Plants for Ecological Restoration
An introduction to the principles of native plant selection and propagation to meet site-specific objectives for ecosystem restoration. Topics include native plant propagation techniques; the role of artificial propagation in ecosystem rehabilitation and restoration; criteria for species selection; scientific and ethical principles for the collection of propagation materials; site stabilization; site preparation; out-planting; and bio-engineering.
Note: Credit will be granted for only one of 332, 338 (if taken in the same topic). Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.

ER 334 Units: 1.5
Soil Conservation and Restoration
Physical, chemical and biological characteristics of soils and their relationship to restoration. Soil fertility; importance of soil flora and fauna, especially mycorrhizae. Comparison of characteristics of undisturbed soils. Types of soil disturbance in agriculture, forestry, mining and urban environments; soil restoration strategies; planning pre- and post-disturbance.
Note: Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator. Background in physical geography such as GEOG 103 or equivalent strongly recommended.

ER 335A Units: 1.5
Restoration of Fresh Water Aquatic Systems
Theory and case studies of disturbances and restoration; character and processes of aquatic systems; types of natural aquatic systems; types of disturbance and their impact; restoration strategies for watersheds and riparian zones, streams, rivers, lakes, and wetlands.
Note: Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.

ER 335B Units: 1.5
Restoration of Marine Aquatic Systems
Proves students with an understanding of marine coastal systems and their restoration potential with a focus on ecological perspectives, with particular emphasis on the British Columbia/Washington coasts. Lectures that focus on broader scale marine ecosystem impacts and restoration issues will be supplemented by hands-on field exercises and research activities focusing on local issues.
Note: Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.

ER 336 Units: 1.5
Education, Communication and Dispute Resolution in Restoration of Natural Systems
Role of communication and education in the restoration of natural systems, emphasizing the importance of clear communication: principles and techniques of effective communication, survey of communication and educational methods, social and cultural frameworks of the message defining issues, techniques of dialogue, recognizing and resolving conflict, organizing data and message. Emphasis on oral presentations.
Note: Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.

ER 338 Units: 0.5 to 1.5
Special Topics in Environmental Restoration
Selected topics in environmental restoration that address particular issues, industrial sectors or biogeoclimatic variation.
Note: Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator. May be taken more than once for credit in different topics with permission of the program’s Academic Administrator.

ER 352 Units: 1.5
Non-Timber Forest Management and Sustainable Use in Major Forest Zones of BC
An introduction to biogeoclimatic zones and natural disturbance regimes in relation to the occurrence of important NTFP species and the ecosystems that sustain them. Topics include the impacts of current land use and resource extraction on NTFP occurrence and productivity; and the influence of disturbance classes, biogeoclimatic zones, and current ecological condition on the selection of appropriate NTFP management practices.
Note: Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.

ER 390 Units: 1.5
Environmental Restoration Project
In consultation with the Academic Administrator, students select a restoration project in an area of intended specialization. May involve a field research component. Final report required. Normally taken in the second or subsequent years of study.

ER 400 Units: 0
Seminar in Environmental Restoration
Seminar presentation in the final year, normally in the field of intended specialization.
Prerequisites: 390.
Grading: INC, COM.

ER 411 Units: 1.5
Also: ES 441
Advanced Principles and Concepts of Ecological Restoration
An advanced investigation into the meaning, limits, and significance of ecological restoration, including: how restoration is defined and why clear definitions are important; the role of historical knowledge in restoration; the changing character of restoration in a technological culture; ethical issues in restoration practice; participation and political process; cultural inclusion and the significance of restoration as a cultural mode; the international scope of restoration; and the paradox of design.
Note: Credit will be granted for only one of 411, ES 441, ES 482 (if taken in the same topic). Open only to students in the Restoration of Natural Systems Program or with permission of the Program’s Academic Administrator.
Prerequisites: 311. If taken as ES 411, ES 341 or permission of the School.

ER 490 Units: 1.5
Directed Studies
Individual studies on approved topics in ecological restoration undertaken in consultation with one or more faculty members.
Note: Requires acceptance into the Restoration of Natural Systems Diploma Program or permission of the Program’s Academic Administrator. May be taken more than once for credit in different topics to a maximum of 3 units.
Prerequisites: ER 311 or permission of the RNS Program Academic Administrator; a sessional GPA of 6.5; and permission of the Director of the School of Environmental Studies.

ES 300 Units: 1.5
Hours: 3-1
Formerly: 300A
Introduction to Environmental Studies
Introduction to the symptoms and sources of environmental problems and approaches to resolving them. Students will apply their understanding through a distinctive interdisciplinary exploration of three main themes: ecological restoration (the process of assisting the recovery of an ecosystem that has been degraded, damaged or destroyed), political ecology (the theory and practice behind sustainability) and ethnoscience (the study of the relationship between people and their habitats).
Note: Credit will be granted for only one of 200, 300A.

ES 240 Units: 1.5
Hours: 3-0
Ecological Processes
An introduction to the discipline of ecology with a focus on understanding biotic processes as they relate to contemporary environmental challenges.
ES 270
Units: 1.5
Hours: 1-2
Introductory Field Study
A field-based introduction to environmental problems and solutions, such as assessing stream function and proposing enhancements to improve water quality and riparian areas. Typically offered in a compressed format. Additional fees may be necessary to support field expenses.

Pre- or corequisites: 200 or 300A.

ES 301
Units: 1.5
Hours: 3-1
Political Ecology
An introduction to the various socio-political and philosophical issues associated with the concept of a sustainable society. Emphasis is placed on the analysis of the complex relationships between social and biological systems. Examines how communities and environments are being impacted by the globalization of economics and cultures, technologies and ideologies, as well as responses from a variety of local, non-governmental and international agencies.

Prerequisites: 200 or 300A, and second-year standing.

Also: ECON 381
Formerly: ECON 330

ES 312
Units: 1.5
Hours: 3-0
Environmental Economics
An introduction to the economic analysis of environmental problems. In particular, an examination of policy interventions in cases where market activities result in socially undesirable impacts on the environment. Topics typically include: externalities; pollution control policies; climate change; public goods; time, uncertainty and the environment; and trade and the environment.

Note: Credit will be granted for only one of 312, ECON 330, 381.

Prerequisites: ECON 103.

ES 314
Units: 1.5
Hours: 3-0
Philosophy and the Environment
A philosophical investigation of the moral and conceptual dimensions of environmental problems. Different philosophies of the relation between humans and nature will be compared. Some of the topics to be examined are: human wants and human satisfactions; nature and spiritual values; community; human obligations to other animals; defining quality of life.

Note: Credit will be granted for only one of 314, PHIL 333.

Prerequisites: Third- or fourth-year standing, or permission of the instructor.

ES 320
Units: 1.5
Hours: 3-0
Conservation Biology
Diversity of organisms, functioning of ecosystems, and the consequential impact of human activities. Topics include the nature of biological diversity; extinction and its causes; habitat alteration and fragmentation; effects of exotic species; economic and ethical considerations; practical applications and analytical tools; and legal frameworks for conserving species and habitats.

Note: Credit will be granted for only one of 320, 318, 348, ER 313, BIOL 370.

Prerequisites: Completion of Biology core including STAT corequisites, or for students other than Biology majors BIOL 190A (or 210), 215, 230 and STAT 255 or 260.

ES 321
Units: 1.5
Hours: 3-0
Ethnoecology
Environmental knowledge systems of indigenous and other local peoples are increasingly recognized as having relevance in understanding and documenting biological diversity and conservation and in understanding ecological restoration. The different aspects of local and traditional ecological knowledge and their relationships to western academic knowledge are reviewed and the issues and requirements for applying local knowledge in environmental sustainability are explored.

Prerequisites: 200 or 300A, and second-year standing.

ES 341
Units: 1.5
Hours: 3-1
Also: ER 311
Formerly: 352
Ecological Restoration
An examination of how effective restoration depends on both ecological and cultural awareness, including the physical, chemical and biological characteristics of ecosystems from local to global scales; the impacts of human-induced change; the philosophical and ethical context for good restoration; the need for and significance of community involvement; the legal and policy frameworks that direct and influence restoration activities; and the importance of understanding essential ecosystem characteristics in restoration.

Note: Credit will be granted for only one of 341, 352, ER 311, ES 400D (if taken in 1995-96).

Prerequisites: 200 or 300A, 240 or BIOL 215, and second-year standing.

ES 344
Units: 1.5
Hours: 3-3
Also: BIOL 330
Formerly: 310
Study Design and Data Analysis
An introduction to the statistical analysis of biological data, experimental design, and sampling design. Laboratories emphasize computer-based analysis of selected data sets and report writing, as well as a major project.

Note: Credit will be granted for only one of 344, 310, BIOL 330.

Prerequisites: STAT 255; third-year standing.

STAT 256 recommended.

Pre- or corequisites: BIOL 215.

ES 348
Units: 1.5
Hours: 3-0
Also: ER 313
Formerly: 318
Biodiversity and Conservation Biology
Study of biological organisms and ecosystems with particular reference to mechanisms of change and human impacts on the environment. Focuses on: biodiversity (definition, assessment methods, loss, and evaluation); population biology (concepts and research methods); habitat loss; species extinction; exotic species and their impacts; and possibilities for human intervention in alleviating trends in species loss and ecosystem degradation.

Note: Credit will be granted for only one of 348, 318, 320, ER 313, BIOL 370.

Prerequisites: BIOL 190A and 190B or equivalent, ES 200 or 300A.

ES 370
Units: 1.5
Hours: 1-2
Intermediate Field Study
Further field-based study of environmental problems and solutions, such as integrating watershed scale analysis and enhancements. Typically offered in a compressed format. Additional fees may be necessary to support field expenses.

Pre- or corequisites: 200 or 300A, 270.

ES 380
Units: 1.5
Hours: 3-0
Formerly: 300B
Environmental Topics: Topics in Ethnoecology
An in-depth systematic examination of specific environmental areas through seminars and projects; the development of appropriate responses to questions and problems within the selected areas; modes of interaction and communication with professional and community groups; application of theory to practice; qualitative vs. quantitative research methods. This course will be conducted as a seminar and may include a field trip for which a fee will be charged.

Note: Credit will be granted for only one of 380, 300B unless approved by the Director. May be taken more than once for credit in different topics to a maximum of 3 units.

Prerequisites: 200 or 300A.

ES 381
Units: 1.5
Hours: 3-0
Formerly: 300B
Environmental Topics: Topics in Ecological Restoration
An in-depth systematic examination of specific environmental areas through seminars and projects; the development of appropriate responses to questions and problems within the selected areas; modes of interaction and communication with professional and community groups; application of theory to practice; qualitative vs. quantitative research methods. This course will be conducted as a seminar and may include a field trip for which a fee will be charged.

Note: Credit will be granted for only one of 381, 300B unless approved by the Director. May be taken more than once for credit in different topics to a maximum of 3 units.

Prerequisites: 200 or 300A.

ES 382
Units: 1.5
Hours: 3-0
Formerly: 300B
Environmental Topics: Topics in Ecological Restoration
An in-depth systematic examination of specific environmental areas through seminars and projects; the development of appropriate responses to questions and problems within the selected areas; modes of interaction and communication with professional and community groups; application of theory to practice; qualitative vs. quantitative research methods. This course will be conducted as a seminar and may include a field trip for which a fee will be charged.

Note: Credit will be granted for only one of 382, 300B unless approved by the Director. May be taken more than once for credit in different topics to a maximum of 3 units.

Prerequisites: 200 or 300A.

ES 384
Units: 1.5
Hours: 3-0
Formerly: 414
Systems Theory: An Introduction to Natural and Social Systems
Enables each participant to grasp the fundamental principles of systems theory, and provides a foundation for further exploration and application of systems concepts. Examines concepts such as cybernetics, holism, boundaries, negative and positive feedback, self-organization, and transformation. Students will learn to apply these principles to both natural and social systems.

Note: Credit will be granted for only one of 384, 414, 4900 (if 4900 taken prior to 1988-90).

Prerequisites: 200, one of 301, 321, 341.

ES 402
Units: 1.5
Hours: 3-0
Formerly: 420
Global Issues in Sustainability
Concepts of sustainability, development and security and their global dimensions; global environmental
threats and their sociopolitical implications. Sustainability and development strategies in a north-south context; the role of international agencies in development; global issues of population, energy and resources; international regimes for environmental conservation; war and environment.

Note: Credit will be granted for only one of 402, 420, 400A (if taken in 1989-94).

Prerequisites: 200 or 300A, and 301.

ES 403  Units: 1.5  Hours: 3-0
Also: LAW 384
Field Course in Environmental Law and Sustainability
Analyzes the structure of law, policy, and sustainability in a particular geographic region. Review of overlapping jurisdictional and governance systems that shape a region.

Note: Credit will be granted for only one of 403, LAW 384, LAW 343 if taken in the same topic.

ES 404  Units: 1.5  Hours: 3-0
Formerly: 424
Discourses of Environmentalism
A seminar examining classic works and persistent themes in North American environmental thought. A study of primary source material and texts by writers such as Thoreau, Austin, Muir, Pinchot, Leopold, Carson, Ellul, Schumacher, Berry, and Shiva.

Note: Credit will be granted for only one of 404, 424, 400D (if taken in 1993-95).

Prerequisites: 200 or 300A, and 301.

ES 405  Units: 1.5  Hours: 3-0
Climate, Energy and Politics
Focuses on developing the knowledge and skills necessary to evaluate how we might reshape energy systems to address the dual challenges of climate change and sustainability.

Note: Credit will be granted for only one of 450, 408 (if 480 taken Spring 2005, Spring 2006, Fall 2008).

Prerequisites: 200, 301.

ES 415  Units: 1.5  Hours: 3-0
Integral Systems Theory: Philosophy and Practice
The history and philosophy of integral systems theory and its application at the individual and community level. Recent trends in light of panarchy theory and integral ecology.

Prerequisites: 200, 301; 384 or 414.

ES 417  Units: 1.5  Hours: 3-0
Formerly: ES 422
Women and Environments
An exploration of the developing interactions between feminism and environmentalism. Topics to be covered include the construction of relationships between women and nature, ecofeminism, women and sustainable development, and women’s historical and contemporary environmental activism.

Note: Credit will be granted for only one of 417, 422, 400A (if taken in 1994-95).

Prerequisites: 200 or 300A, and 301.

ES 418  Units: 1.5  Hours: 3-0
Environmental Law: Policy and Legislation
Examination of legal procedures including traditional common law remedies and promising new legislative innovations, consideration of the expression of public values and environmental policies, and government decision making processes.

Note: Credit will be granted for only one of 418, 400D (if taken in 1990-92).

Prerequisites: 200 or 300A, and 301.

ES 419  Units: 1.5  Hours: 3-0
Also: LAW 328
Formerly: ES 450
Green Legal Theory
Develops critical theoretical basis for extending the understanding of social/natural regulation beyond mainstream environmental law and policy; individual research, presentation and contribution to a developing new ‘naturalist’ understanding of law in its political economy and cultural context.

Note: Credit will be granted for only one of 419, 450, LAW 328.

Prerequisites: 200, 301.

ES 421  Units: 1.5  Hours: 3-0
Formerly: ES 416
Ethnobotany: Plants and Human Cultures
An introduction to the study of the relationship between plants and human cultures, with a focus on the indigenous peoples and environments of northwestern North America. Use of plants as foods, materials and medicines, plant nomenclature and folk classification, and the role of plants in religion and mythology are topics covered. There will be one or more field trips.

Note: Credit will be granted for only one of 421, 416.

Prerequisites: 300A or 200 and 321.

ES 423  Units: 1.5  Hours: 3-0
Also: ER 326
Formerly: ES 353
Traditional Systems of Land and Resource Management
The role of traditional ecological knowledge in the understanding and documentation of the biodiversity of natural systems and their restoration. Examination of how restoration strategies can benefit from the close relationship of Indigenous Peoples to their local environments, and from their knowledge of plants and animals, their habitats and ecological interrelationships, as well as from traditional land and resource management strategies.

Note: Credit will be granted for only one of 423, 353, ER 326.

Prerequisites: 200 or 300A, and 321.

ES 425  Units: 1.5  Hours: 3-3
Formerly: BIOL 449
Flowering Plant Diversity
A survey of flowering plants, including morphological diversity and adaptations; plant evolution and species concepts; modern classification; nomenclature; identification and keys; and experimental approaches to the study of plant diversity. Lab projects include at least 1 collection of 10 properly prepared and identified plants, preferably made during the previous summer. Contact instructor for details and collecting equipment.

Notes: - Credit will be granted for only one of 425, BIOL 449, 318.
- BIOL 324 recommended.

Prerequisites: BIOL 190A, 190B, third- or fourth-year standing.

ES 427  Units: 1.5  Hours: 3-0
Colonization, Nature, and the Making of British Columbia
Introduces students to the essential concepts and methods used by historians, archaeologists, anthropologists, geographers and others to analyze environmental change from prehistoric to modern times. Explores how cultural encounters between Euro-Americans and the Indigenous peoples of British Columbia played out on the physical landscape, focusing on the processes of dispossession and repossession that led to the creation of the space that became British Columbia.

Note: Credit will be granted for only one of 427, 481 (if 481 taken in Spring 2005, Spring 2006, Fall 2007, Fall 2009, Fall 2010).

Prerequisites: 200, 321.

ES 428  Units: 1.5  Hours: 3-0
Formerly: Also ANTH 428
Ethnographic Methods in Environmental Research
Methods of ethnography (research design, observation, interviewing, textual recording and data retrieval) designed to provide students from a range of disciplines with the skills necessary to study the layers of socially-held knowledge which infuse all fields of environmental endeavour. Ethnographic exercises in the community are a course requirement.

Note: Credit will be granted for only one of 428, ANTH 428. Not open to students with credit in 400A if taken in 1996-98.

Prerequisites: 200 or 300A, and one of 301 or 321.

ES 430  Units: 1.5  Hours: 3-0
Also: ANTH 401
Environmental Anthropology
Investigates key themes at the intersection of anthropology and the environment, including issues like theories of place, nature/culture, local knowledge, globalization, indigeneity, power, and cultural change.

Note: Credit will be granted for only one of 430, ANTH 401.

Prerequisites: 200 or 300A, and one of 301 or 321; if taken as ANTH 401, ANTH 200; or permission of the department.

ES 441  Units: 1.5  Hours: 3-0
Also: ER 411
Advanced Principles and Concepts in Ecological Restoration
An advanced investigation into the meaning, limits, and significance of ecological restoration, including: how restoration is defined and why clear definitions are important; the role of historical knowledge in restoration; the changing character of restoration in a technological culture; ethical issues in restoration practice; participation and political process; cultural inclusion and the significance of restoration as a cultural mode; the international scope of restoration; and the paradox of design.

Note: Credit will be granted for only one of 441, 482 (if taken in the same topic), ER 411.

Prerequisites: 341, ER 311; or permission of the School.

ES 443  Units: 1.5  Hours: 3-0
Climate Change and Biodiversity
Examines the challenges a changing climate poses for ecology and conservation biology research and management, including ecological restoration. Particular attention is given to reading scientific papers, both those that present biodiversity pattern and process changes, as well as those that present management solutions to climate-driven biodiversity loss.

Note: Credit will be granted for only one of 443, 482 if 482 taken in same topic.

Prerequisites: 200, 240, 341.

ES 446  Units: 1.5  Hours: 3-0
Formerly: ES 426
Sustainable Fisheries
A practical examination of sustainable fisheries from a variety of interdisciplinary perspectives. Examines sustainability issues for fisheries and aquaculture through an integrated study of fish biology/ecology, oceanography, hydrology, environmental impact
ES 461 Units: 1.5 Hours: 3-0
Also: GEOG 301
Formerly: ES 410
Environmental Impact Assessment
An introduction to the objectives, philosophy, concepts, methods and social implications of environmental impact assessment (EIA). A critical examination of EIA as an analytical tool in the context of resource management and public policy is undertaken. Examples will be drawn from B.C., Canada and other countries.

Note: Credit will be granted for only one of 461, 410, 400A (if taken prior to 1989-90), GEOG 301, 391 if 391 offered in the same topic.

Prerequisites: 200 or 300A, and one of 321 or 341.

ES 462 Units: 1.5 Hours: 3-0
Formerly: ES 432
Environmental Protection

Note: Credit will be granted for only one of 462, 432, 400A (if taken prior to 1990-98), GEOG 301, 391 if 391 offered in the same topic.

Prerequisites: 200 or 300A, and 341.

ES 470 Units: 1.5 Hours: 1-2
Formerly: ES 350
Advanced Field Study
Advanced field-based study of environmental problems and solutions. Intended to be a more self-directed course where the student identifies a problem and designs the process to implement solutions. Typically offered in a compressed format. Additional fees may be necessary to support field expenses.

Note: May be repeated once for credit.

Prerequisites: 200 or 300A, and one of 301, 321 or 341.

ES 480 Units: 1.5 Hours: 3-0
Formerly: 400A-D
Advanced Environmental Topics in Political Ecology
A focused, in-depth systematic examination of specific environmental areas through seminars and projects; the development of appropriate responses to questions and problems within the selected areas; modes of interaction and communication with professional and community groups; application of theory to practice; and qualitative vs. quantitative research methods. These courses will be conducted as seminars and may include a field trip for which a fee will be charged.

Note: May be taken more than once for credit in different topics.

Prerequisites: 200 or 300A, and 301.

ES 481 Units: 1.5 Hours: 3-0
Formerly: 400A-D
Advanced Environmental Topics in Ethnoecology
A focused, in-depth systematic examination of specific environmental areas through seminars and projects; the development of appropriate responses to questions and problems within the selected areas; modes of interaction and communication with professional and community groups; application of theory to practice; and qualitative vs. quantitative research methods. These courses will be conducted as seminars and may include a field trip for which a fee will be charged.

Note: May be taken more than once for credit in different topics.

Prerequisites: 200 or 300A, and 301.

ES 490 Units: 1.5-3.0
Directed Studies
Individual studies on approved environmental topics undertaken by students in consultation with faculty members. Projects will be supervised by one or more faculty members designated by the Director.

Note: Restricted to students taking a major or minor in Environmental Studies. May be taken more than once for credit to a maximum of 3 credits.

Prerequisites: 200 or 300A, fourth-year standing with a sessional GPA of 6.5, and permission of the Director.

EUS 100 Units: 1.5 Hours: 3-0
Introduction to European Studies
An interdisciplinary, team-taught study focusing on the central issues of contemporary European Integration. Introduces key issues and thinkers associated with the study of European Integration.

EUS 300 Units: 1.5 Hours: 3-0
European Integration: Socio-Economic and Political Developments
A historical background to and a contemporary account of modern European politics and society. The approach is comparative, concentrating on similarities and differences between selected European countries. Crucial social cleavages, selected policy fields, traditions in political culture and institutional settings are studied from a comparative and genuinely European perspective.

Note: May be taken more than once for credit in different topics with permission of the Director of European Studies.

EUS 301 Units: 1.5 Hours: 3-0
Cultural and Intellectual Systems and Developments in Europe
Critical aspects of European intellectual and cultural traditions both in a historic and contemporary perspective. Covers a wide range of issues related to the rich European history of ideas and artistic production encompassing the fields of philosophy, literature and arts.

Note: May be taken more than once for credit in different topics with permission of the Director of European Studies.

EUS 390 Units: 1.5 Hours: 0-3
Directed Studies in Europe
Constitutes the academic element of either the EU Study Tour offered through Capilano University, or another European Study tour approved by the Program. The Session and Term will normally follow immediately upon the Tour, and the course content must be determined in advance of the Tour in consultation with the Director of the Program.

Note: Satisfies the experiential requirement for students completing a Major or Honours in Political Science with a Concentration in European Studies.

Prerequisites: Completion of the Capilano University EU Study Tour > or other Study Tour approved by the Program.

FA

Fine Arts Interdisciplinary Courses
Faculty of Fine Arts

Fine Arts Interdisciplinary courses focus on the study and creation of art and ideas that cross the traditional departmental areas within the Fine Arts. For information, contact the Associate Dean of Fine Arts.

FA 100 Units: 1.5 Hours: 2-1
Special Topics in Fine Arts
A multi-disciplinary investigation into various aspects of the arts. Focus may vary from year to year.

Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.

FA 101 Units: 1.5 Hours: 2-1
Creative Being
An exploration of the diversity within creative practice and theory that builds bridges across disciplines and challenges students’ understanding of the creative process.

Note: A required course for all Faculty of Fine Arts students. Credit will be granted for only one of 101, 100 (if taken in the same topic).

FA 200 Units: 1.5 Hours: 2-1
Special Topics in Fine Arts
A multi-disciplinary investigation into various aspects of the arts. Focus may vary from year to year.

Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 3.0 units.

FA 225 Units: 3.0 Hours: 3-0
Also: ACAN 225
Introduction to the Arts of Canada
An interdisciplinary examination of Canada’s cultural identity and of current issues facing the arts in both French- and English-speaking Canada. Topics to be considered include aboriginal arts, theatre, history in art, visual and literary arts, music, multiculturalism, broadcasting and cultural policies.

Note: Credit will be granted for only one of 225, ACAN 225.
FA 245 Units: 1.5 or 3.0 Hours: 3-0
The Arts and Technology I
An introductory course focusing on ideas central to the interrelationship between various arts and technologies.

Note: May be taken twice in different topics.

FA 300 Units: 1.5 Hours: 3-0
Interdisciplinary Studies
Emphasizes an interdisciplinary approach to contemporary artistic concerns. In each year, course work will focus on a particular issue.

Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 3.0 units.

Prerequisites: Second-year standing. Additional prerequisites may be required for some topics.

FA 305 Units: 1.5 or 3.0 Hours: 3-0
Theory and Practice of Film and Video Direction
Introduction to basic narrative patterns in film and video with an emphasis on system images, plot and character, sound, and scene construction. Development and translation of a script into pictures using digital cameras and video editing software.

Prerequisites: Second-year standing.

FA 315 Units: 1.5 or 3.0 Hours: 3-0
Introduction to Canadian Cultural Policy
An examination of Canadian cultural policy since the 1940s, in the context of international practice, with emphasis on its relationship to Canadian national identity. Topics to be considered will include the controversial role of governments in pursuit of cultural policies, the significance of Federal granting councils, the changing role of corporate patronage, and the economic impact of the arts.

Prerequisites: Second-year standing.

FA 335 Units: 1.5 or 3.0 Hours: 3-0
Popular Culture
An interdisciplinary examination of the popular arts and their place in society. The topics for examination will vary in different years and sections.

Note: May be taken more than once for credit in different topics.

Prerequisites: Second-year standing.

FA 346 Units: 1.5 or 3.0 Hours: 3-0
The Arts and Technology II
A practice-oriented seminar, focusing on the use of computer technology in the arts. Areas for consideration may vary from year to year.

Note: May be taken more than once in different topics with permission of the department to a maximum of 6.0 units.

Prerequisites: Second-year standing.

FA 350 Units: 1.5 Hours: 3-0
Introduction to Architecture, Theory and Practice
Architecture from an experiential perspective. Theory and some hands-on experience will supplement frequent field trips and occasional visits with practicing architects. Useful preparation for students considering application to architecture schools.

FA 356 Units: 1.5 or 3.0 Hours: 3-0
Management Skills for the Artist
This is a practical course designed to instruct students in fundamental management skills which will be of use for those anticipating careers as artists. Topics will include presentation techniques, fundraising methods, accounting procedures, grant applications, media relations and event planning.

Prerequisites: Second-year standing in Fine Arts.

FA 360 Units: 1.5 or 3.0 Hours: 3-0
Theoretical and Critical Issues in the Arts
A special topics course that examines critical and theoretical issues as they relate to the visual, literary and performing arts. Areas for consideration will vary from year to year.

Note: May be taken more than once for credit in different topics to a maximum of 3 units.

FA 365 Units: 1.5 Hours: 0-3
Dance Workshop I
This introduction to modern dance is a physically intensive course including components of modern dance, dance technique, improvisation and floor barre. Students will learn dance combinations, terminology and choreography.

Note: May be taken more than once in different topics with permission of the department to a maximum of 3.0 units. Audition may be held the first day of class.

FA 366 Units: 1.5 Hours: 0-3
Dance Workshop II
An advanced continuation of FA 365.

Notes: - May be taken more than once for credit in different topics with permission of the department to a maximum of 3.0 units.
- Auditions may be held first day of class.

FA 399 Units: 1.5 or 3.0 Hours: 3-0
Directed Studies in Fine Arts
Individual research in Fine Arts taken under the supervision of a faculty member. Permission of faculty member supervising the project and approval of the Associate Dean.

Note: May be taken more than once for credit to a maximum of 4.5 units.

FRAN 150 Units: 1.5 Hours: 3-1
Formerly: FREN 150
Elementary Oral French
Develops listening comprehension. Oral expression practiced in lab. Introduces students to varied oral discourses.

Notes: - Intended for students with French 12, 120 or equivalent. May be taken concurrently with 150.
- Credit will be granted for only one of 150, FREN 150.
- Not open to students with three years of French immersion at any time, francophone students, or students who have spent at least one year in a francophone environment.

FRAN 160 Units: 1.5 Hours: 3-1
Formerly: part of FREN 155, 181 and 182
Words in Context
Expands vocabulary through the exploration of authentic oral and written texts, dictionaries and electronic resource materials. Oral practice in class and extra practice online.

Note: Normal entry point for students with French 12. Not open for credit to students with FREN 155, 181, 182, or immersion beyond Grade 9.

Prerequisites: 120, FREN 107, or permission of the department.

FRAN 165 Units: 1.5 Hours: 3-0
French Connections
Various aspects of French today as seen through such media as television, comics, song, radio and the Internet.

Note: French Immersion to Grade 10 or the ability to understand spoken and written French.

FRAN 180 Units: 3.0 Hours: 3-2
Intermediate French (Intensive)
Development of skills in French with emphasis on writing. Hybrid delivery composed of in-class writing workshops and online follow-up exercises.

Notes: - Normal entry point for student with French Immersion to Grade 10 or higher.
- Credit will be granted for only one of 180, FREN 175, 180, 181, 182, 190, 195.

Prerequisites: 160 or permission of the department.

FRAN 200 Units: 1.5 Hours: 3-0
Introduction to French Linguistics
The subject matter of linguistics as it relates to the French language. Overview of word and sentence structures and meaning.

Notes: - Credit will be granted for only one of 200, FREN 202, 202A, 202B.
- Previous course in sequence: 180. Next course in sequence: 275. May be taken concurrently with other 200-level courses including 275.

Prerequisites: 180 or equivalent, or placement by the department.

FRAN 220 Units: 1.5 Hours: 3-0
Formerly: FREN 220
French Phonetics
The theory and practice of French pronunciation, corrective phonetics, phonetic transcription, intonation, accentuation, syllabification, elision and liaison; training in reading aloud. Individual practice in the CALL Centre will be assigned. For francophone students, a research paper will be substituted for the oral examination.

Note: Credit will be granted for only one of 220, FREN 220. Enrolment limited.

Prerequisites: One of 180, FREN 175, 181, 182, 185, 190, 195.
COURSE LISTINGS

FRAN 250  Units: 1.5  Experiential Learning
The student will present a portfolio, in a form approved in advance, based on the experience of living in a francophone environment for a period of approximately six months.
Prerequisites: Permission of the department. Open only to students who are completing the experience requirement for a degree in French.
Grading: COM, N, F.

FRAN 275  Units: 1.5  Hours: 3-0
Formerly: part of FREN 292, 295
Writing in French I
Practice of writing in a variety of forms and the study of relevant models.
Note: Credit will be granted for only one of 275, FREN 292, 295.
Pre- or corequisites: 200

FRAN 280  Units: 1.5  Hours: 3-0
Literary Texts I
A selection of major texts written in French from different traditions, times and genres, illustrating the changing notion of literariness.
Note: Credit will be granted for only one of 280 and any of FREN 286, 287, 288. Students with one of these FREN courses should take 290.
Prerequisites: 180 or equivalent.

FRAN 290  Units: 1.5  Hours: 3-0
Literary Texts II
A close reading of literary texts written in French. Analytical and critical approaches to texts will vary.
Prerequisites: 280.

FRAN 300  Units: 3.0  Hours: 3-0
Formerly: FREN 300
French Reading Course
Presentation of basic sentence structures and vocabulary, and reading of texts in order to prepare students to acquire a reasonable reading comprehension of scientific and scholarly works in French. Primarily intended for students who have little knowledge of French and are enrolled in university departments requiring a reading knowledge of a second language.
Notes: - Credit will be granted for only one of 300, FREN 300.
- Not open to students with credit in, or registered in, 180 or higher. Limited normally to students in third- or fourth-year or in graduate studies. Students with no previous French should take at least 100 before undertaking 300. Credit may be obtained for both 300 and any other FRAN course.
Grading: COM, N, F.

FRAN 325  Units: 1.5  Hours: 3-0
Studies in the Cultures of the French-speaking World (in English)
Study of cultures in the French-speaking world using a variety of sources.
A01: Catholicism, Culture, Québec; Religion in Québécois Literature and Society
Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.

FRAN 335  Units: 1.5  Hours: 3-0
Studies in Cinema and Literature of the French-Speaking World (in English)
Cinema and the relationship of cinema with literature and culture in the French-speaking world.
Notes: - Credit will be granted for only one of 335, FREN 389A, 389B, 389C, 389D, 389E (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.
Prerequisites: HA 285 or third-year standing. Students writing their assignments in French must have a minimum of C+ in 275 or equivalent skill in French.

FRAN 340  Units: 1.5  Hours: 3-0
Formerly: FREN 350
Advanced Oral French
Increase of oral proficiency in French and development of comprehension of oral and written French.
Notes: - Credit will be granted for only one of 350, FREN 350.
- Required for a concentration in French in the Faculty of Education.
- Not open to francophone students and normally not open to students who have spent at least one year in a francophone environment. Enrolment limited.
Prerequisites: A minimum grade of C+ in 275 or equivalent skill in French.

FRAN 360  Units: 1.5-3.0
French Field Seminar
An advanced, field-based exploration of the literatures, cultures and expressive forms in the French-speaking world. Areas of investigation may, depending on the year, be selected in Europe, North America, Africa or the Caribbean. An additional field trip fee may be applied.
Note: May be taken more than once in different topics with permission of the department to a maximum of 6 units.
Prerequisites: Permission of the department.
Grading: COM, N, F.

FRAN 375  Units: 1.5  Hours: 3-0
Formerly: FREN 302A
Writing in French II
Written exercises in vocabulary and grammar, comparative stylistics, compositions.
Note: Credit will be granted for only one of 375, FREN 302, 302A. Students with the FREN courses are directed to 385 or 400.
Prerequisites: A minimum grade of C+ in 275 or equivalent skill in French.

FRAN 380  Units: 1.5  Hours: 3-0
Formerly: FREN 372
French Morphology
Word formation and word markers, etymology, prefixes and suffixes, gender, number, person; grammatical categories.
Note: Credit will be granted for only one of 380, FREN 372.
Prerequisites: A minimum grade of C+ in 275 (or equivalent skill in French), and 200 or 220 or an introductory course in Linguistics.

FRAN 385  Units: 1.5  Hours: 3-0
Formerly: FREN 374
French Syntax and Semantics
Verbal and phrase constructions, the question of agreement; shifts in meaning; grammatical exceptions.
Note: Credit will be granted for only one of 385, FREN 374.
Prerequisites: A minimum grade of C+ in 275 (or equivalent skill in French), and 200 or 220 or an introductory course in Linguistics.

FRAN 390  Units: 1.5  Hours: 3-0
Formerly: FREN 390
Critical Methods
Discovering meaning in literature; how to read a literary text. Practical introduction to various methods of analyzing literary texts; a survey of modern literary theory.
Note: Credit will be granted for only one of 390, FREN 390.
Prerequisites: A minimum grade of C+ in 275, 290; or permission of the department.

FRAN 395  Units: 1.5  Hours: 1.5-1.5
Formerly: part of FREN 302, 302C
Advanced French Writing Workshop
Writing in French of creative texts, editing, using technology. Includes an online component.
Note: Credit will be granted for only one of 395, FREN 302, 302C.
Prerequisites: A minimum grade of C+ in 275, or equivalent skill in French.

FRAN 400  Units: 1.5  Hours: 3-0
Formerly: FREN 420, 429
Advanced Studies in French Linguistics
Intensive study of a selected topic in French linguistics or applied linguistics.
Notes: - Credit will be granted for only one of 400, FREN 420, 429 (if taken in the same topic).
- May be taken more than once in different topics with permission of the department to a maximum of 4.5 units.
Pre- or corequisites: 380, 385, or permission of the department.

FRAN 402  Units: 1.5  Hours: 3-0
Formerly: FREN 402
An Advanced Language Course in Modern French Usage
Focus on written expression through composition, textual analysis and commentaire composé, with attention paid to both literary and informal usage.
Note: Credit will be granted for only one of 402, FREN 402.
Prerequisites: 290, 375, or permission of the department.

FRAN 404  Units: 1.5  Hours: 3-0
Formerly: FREN 425A
History of the French Language I
The evolution of the language from the eighth to the 18th century. Through the study of representative literary and non-literary texts in the original, in relation to historical circumstances, students will acquire familiarity with major social and cultural events and become aware of the diversity and the mobility of the language.
Note: Credit will be granted for only one of 404, FREN 425A.
Prerequisites: 375 or equivalent.
FRAN 405 Units: 1.5 Hours: 3-0
Formerly: FREN 425B
History of the French Language II
The French language from the 15th to the 20th century. The elaboration of linguistic norms and the creation of institutions devoted to linguistic purity. Evolution and variety of the language through the study of representative documents such as dictionaries, laws, travel literature, descriptions of the Americas and novels.
Note: Credit will be granted for only one of 405, FREN 425B.
Prerequisites: 375 or equivalent.

FRAN 406 Units: 1.5 Hours: 3-0
Formerly: FREN 426, 426A, 426B
Studies in Translation
A comparative study of the characteristics of French and English expression and how they pertain to the problems of translation; practice in translation from either English to French or French to English.
Note: - Credit will be granted for only one of 406, FREN 426, 426A, 426B (if taken in the same topic).
- May be taken for credit more than once in different topics with permission of the department to a maximum of 3 units.
Prerequisites: A grade of B or higher in 375 or equivalent. Satisfaction of the University English requirement.

FRAN 410 Units: 1.5 Hours: 3-0
Studies in Québec or French-Canadian Literature
Study of major texts: genres, periods, gender studies, theoretical approaches, cultural and historical contexts.
A01: Aboriginal, Métis and Migrant Writing in Quebec
Notes: - Credit will be granted for only one of 410, FREN 480, 482, 484, 485 (if taken in the same topic).
- May be taken for credit more than once in different topics with permission of the department to a maximum of 4.5 units.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 411 Units: 1.5 Hours: 3-0
Formerly: FREN 480
The French-Canadian Novel from the Origins to the Modern Period
A survey of the French-Canadian novel with special emphasis on the first half of the 20th century.
Note: Credit will be granted for only one of 411, FREN 480.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 412 Units: 1.5 Hours: 3-0
Formerly: FREN 482
Contemporary French-Canadian Novel
The French-Canadian novel in the second half of the 20th century, in particular la nouvelle écriture since 1960.
Note: Credit will be granted for only one of 412, FREN 482.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 415 Units: 1.5 Hours: 3-0
Formerly: FREN 485
French-Canadian Poetry
French-Canadian poetry from Emile Nelligan to the present. Emphasis on Alain Grandbois, St-Dennyse-Garneau, Anne-Marie, Roland Giguère, Michel Beaulieu, Nicole Brossard.
Note: Credit will be granted for only one of 415, FREN 485.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 417 Units: 1.5 Hours: 3-0
Also: ENGL 458
Formerly: FREN 487
Comparative Studies in Contemporary French and English Canadian Literature
An introduction to the comparative study of contemporary Canadian literature in both official languages. Classes will be conducted in English; readings and assignments can be done in either language. However, students taking a Combined Major in English and French (Canadian Literature) must read the texts in the original. May include works by George Bowering, Daphne Marlatt, Lola Lemire Tostevin, Jacques Poulin, Tomson Highway and Nicolas Dickner. Students enrolled in FRAN 417 must submit all written assignments in French.
Note: Credit will be granted for only one of 417, FREN 487, ENGL 458.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 420 Units: 1.5 Hours: 3-0
Studies in Francophone Literatures and Cultures
Topics in francophone African, Caribbean and Indian Ocean novels, poetry and drama.
A01: Contemporary Francophone Women Writing
Notes: - Credit will be granted for only one of 420, FREN 477, 477A, 477B (if taken in the same topic).
- May be taken for credit more than once in different topics with permission of the department to a maximum of 4.5 units.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 422 Units: 1.5 Hours: 3-0
Formerly: FREN 477A, part of FREN 477
Contemporary Francophone African Novel
Note: Credit will be granted for only one of 422, FREN 477A, 477.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 423 Units: 1.5 Hours: 3-0
Formerly: FREN 477B, part of FREN 477
Contemporary Francophone Caribbean Novel
The Francophone Caribbean novel in the second half of the 20th century and the first part of the 21st century. Screening of Caribbean films to highlight issues in the novels selected.
Note: Credit will be granted for only one of 423, FREN 477B, 477.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 430 Units: 1.5 Hours: 3-0
Studies in French Literatures and Culture before 1800
The studies of texts and traditions linked by genre, period, movement or theme, within their historical and cultural contexts.
Notes: - Credit will be granted for only one of 430, FREN 440, 441, 444, 446B, 446E, 448, 450A, 450B, 451, 452, 455B (if taken in the same topic).
- May be taken for credit more than once in different topics with permission of the department to a maximum of 4.5 units.

FRAN 442, 444, 446B, 446E, 448, 450A, 450B, 451, 452, 455B

FRAN 443 Units: 1.5 Hours: 3-0
Formerly: FREN 450
Medieval Literature
Study of a number of medieval literary works in the original. Students will acquire some familiarity with medieval French and of the principal literary genres of the period. History and art will be used to give a context to the literary works.
Note: Credit will be granted for only one of 431, FREN 440, 441.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 445 Units: 1.5 Hours: 3-0
Formerly: FREN 452
Common Grounds in European Medieval Literature (in English)
Transcendence of national boundaries in literature and scholarship; Latin and French as universal languages. Readings: modern English translations of Latin, Old French and Old English texts representing common foundations in various genres. Students enrolled in FRAN 445 must submit all written assignments in French; students enrolled in MEDI 442 must submit all written assignments in English.
Note: Credit will be granted for only one of 432, FREN 442, MEDI 442.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 446A
Renaissance Poetry
Through a selection of dramatic texts, students will explore the conditions of theatrical representations before theatres were built in stone. Farces, miracles, scotties and comedies will be placed in the context of religious holidays, Carnival, or school plays.
Note: Credit will be granted for only one of 434, FREN 444.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 447 Units: 1.5 Hours: 3-0
Formerly: FREN 444
Medieval and Renaissance Theatre
Medieval and Renaissance plays in the original. Through a selection of dramatic texts, students will explore the conditions of theatrical representations before theatres were built in stone. Farces, miracles, scotties and comedies will be placed in the context of religious holidays, Carnival, or school plays.
Note: Credit will be granted for only one of 434, FREN 444.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.

FRAN 448 Units: 1.5 Hours: 3-0
Formerly: FREN 446B
Renaissance Prose
Love, betrayal, justice, humour and humanism: through a selection of short stories, chapters from novels and essays, students will study the emergence of new ideas about the world and about the humanity of mankind.
Note: Credit will be granted for only one of 436, FREN 448.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 441 Units: 1.5 Hours: 3-0
Formerly: FREN 455B
Comedy in the 17th and 18th Centuries
The study of texts and images of the age of Louis XIII and Louis XIV, with emphasis on the changing roles of women, social class and family dynamics under the influence of developments in language, art, religion and politics.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 443 Units: 1.5 Hours: 3-0
Representations of 17th-Century French Society
The study of texts and images of the age of Louis XIV, with emphasis on the changing roles of women, social class and family dynamics under the influence of developments in language, art, religion and politics.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 444 Units: 1.5 Hours: 3-0
18th-Century French Literature and Culture
The study of texts and images of 18th-century France, with emphasis on the changing roles of women, social class and family dynamics under the influence of developments in philosophy, art and politics.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 446 Units: 1.5 Hours: 3-0
The Enlightenment
Principal literary works of the philosophes of the 18th century.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 450 Units: 1.5 Hours: 3-0
Studies in French Literature and Culture after 1800
A selection of major texts linked by genre, period, movement, or theme, studied within their historical and cultural context.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 452 Units: 1.5 Hours: 3-0
French Romanticism
A survey of texts from different literary and artistic genres from the key post-revolutionary French artistic movement known as Romanticism.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 453 Units: 1.5 Hours: 3-0
Decadence and Symbolism
A look at the new aesthetical sensibilities in different literary and artistic genres after the Second Republic (1848), including movements such as Decadence and Symbolism.
Notes: - Credit will be granted for only one of 453, FREN 446D, 460A, 460B, 466.
- Students with credit for FREN 446D, 460A, 460B, 466 must consult the department to determine whether they may obtain a waiver to take this course for credit.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 455 Units: 1.5 Hours: 3-0
Dada and Surrealism: the End of the Novel
The rise of the greatest artistic movements of the 1920s and 1930s in France and Europe out of the ashes of WWI.
Notes: - Credit will be granted for only one of 455, FREN 462A, 462B, 462C, 470.
- Students with credit for FREN 462A, 462B, 462C, 470 must consult the department to determine whether they may obtain a waiver to take this course for credit.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 456 Units: 1.5 Hours: 3-0
formerly: FREN 470
20th-Century French Theatre
The distinctive characteristics of modern theatre and of major theatrical movements; plays illustrating different themes and theatrical styles.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 457 Units: 1.5 Hours: 3-0
Breaking New Ground after Existentialism
The various faces of fiction, from the "New Novel" to postmodernism in French contemporary literature (1945 to today).
Notes: - Credit will be granted for only one of 457, FREN 462A, 462B, 462C, 470.
- Students with credit for FREN 462A, 462B, 462C, 470 must consult the department to determine whether they may obtain a waiver to take this course for credit.
Prerequisites: A minimum grade of C+ in 275; 290; or permission of the department.
FRAN 460 Units: 1.5 Hours: 3-0
Environment, Society and Sustainability
Introduction to the functioning of the biosphere, the ways in which humans alter natural processes, environmental consequences of these alterations and the implications for sustainability. Topics include: energy flows, biogeochemical cycles, ecosystem structure and dynamics, pollution, global change, water resources, biodiversity, endangered species, protected areas, agriculture and food, forestry, marine resources, poverty and development and different worldviews. Potential for a sustainable society is discussed.
Note: Credit will be granted for only one of 101A, ES 101, or 102.
GEOG 101B Units: 1.5 Hours: 3-0
Introduction to Human Geography
Perspectives on the scope and purpose of human geography, emphasizing approaches, concepts and scales of geographical analysis. Topics include: social geography of cities; interpretation of regional; cultural and economic landscapes; urbanization and industrialization of regions; and economic development and social change in the world system.
tems. The interrelationship between these systems as well as the role of human agency will be discussed.

Note: Not open to students with credit in both 110 (EOS 110) and 120 (EOS 120). Not open to students with credit in any of 110 (EOS 110), 120 (EOS 120) if taken prior to term 201105.

GEOG 209 Units: 1.5 Hours: 3-2
Formerly: 350, 350A, 350B, ES 316
Introduction to Environmental Management
Introduces students to the conceptual foundations of resource and environmental management by emphasizing geographic aspects of resource systems within environmental, social, economic, and policy frameworks. Using a variety of examples, it examines strategies and tools such as adaptive management approaches, ecosystem-based management, impact assessment, and conflict resolution.

Note: Credit will be granted for only one of 209, 350, 350A, 350B, ES 316.
Prerequisites: 101A, 101B.

GEOG 211 Units: 1.5 Hours: 3-2
Formerly: 201A, 201B
Economic Geography
An examination of how economic forces, operating in a cultural and political context, shape the location of economic activity in cities, regions, and developed/developing areas of the world system.

Note: Credit will not be granted for only one of 211, 201A, 201B.
Prerequisites: 101B.

GEOG 218 Units: 1.5 Hours: 3-2
Cultural Geography
Introduction to cultural geography with a focus on the interpretation of cultural landscapes and the spatial expression of cultural identity. Lab assignments involve fieldwork and critical reflection on the relationship between culture and landscape.

Prerequisites: 101B.

GEOG 219 Units: 1.5 Hours: 3-0
Geography of British Columbia
An examination of the physical, economic, and cultural landscapes that distinguish the cities and rural regions of Canada's West Coast province.

GEOG 222 Units: 1.5 Hours: 3-2
Introduction to Maps and GIS
Introduces techniques and fundamentals of spatial data and analysis. Topics include: scale, map interpretation, GPS and Geographic Information Systems.

Note: Open to students with credit in 202.
Prerequisites: Second-year standing.

GEOG 226 Units: 1.5 Hours: 3-2
Formerly: 321
Introduction to Quantitative Methods in Geography
Application of statistical techniques to geographic problems. Topics include hypothesis formulation, sampling strategies, parametric and nonparametric statistical tests, statistical models. All laboratory exercises are computer based.

Notes: - Credit will be granted for only one of 226, 321.
- See Credit Limit.
Prerequisites: 3 units of 100- or 200-level Geography or 3 units of 100- or 200-level EOS.

GEOG 228 Units: 1.5 Hours: 2-2
Introduction to Remote Sensing
Introduces the use of remotely sensed images to address information issues related to both physical and human geography. Students will be exposed to a range of image types and resolutions, as well as methods and tools used for their analysis.

Prerequisites: Second-year standing.

GEOG 227 Units: 1.5 Hours: 2-2
Introduction to Climatology and Hydrology
An investigation of the fundamental processes controlling climate and hydrology. Explores various factors and interactions that determine the spatial and temporal variations of individual climate elements. Special attention is given to the mutual interaction of climate with the Earth's surface and the role that ground surface type or cover plays in moderating local climate and hydrology.

Prerequisites: one of 103, 110, EOS 110.

GEOG 274 Units: 1.5 Hours: 2-2
Introduction to Biogeography
Examines the relationships among organisms - principally plants and animals - and their environment, emphasizing their distributions across a range of spatial and temporal scales. Examines basic ecological and evolutionary concepts affecting biogeographic processes of dispersal, speciation and extinction; how patterns of biodiversity change over space and time from early earth history to the contemporary environment; the nature of changing biotic distributions with increasing human impacts and global change.

Note: Biology 12 or BIOL 150B recommended.
Prerequisites: 101A or 103.

GEOG 276 Units: 1.5 Hours: 2-2
Introduction to Geomorphology
Introduction to Earth surface process and landforms including riverine, desert, coastal, glacial, hillslope and permafrost environments. Focus on regional and Canadian landscapes. Involves a field trip.

Prerequisites: one of 103, 120, EOS 120.

GEOG 301 Units: 1.5 Hours: 3-0
Also: ES 461
Formerly: ES 410
Environmental Impact Assessment
An introduction to the objectives, philosophy, concepts, methods and social implications of environmental impact assessment (EIA). A critical examination of EIA as an analytical tool in the context of resource management and public policy is undertaken. Examples will be drawn from B.C., Canada and other countries.

Note: Credit will be granted for only one of 301, 391 if 391 taken in the same topic, ES461, ES410, ES400A (if taken prior to 1999-90).
Prerequisites: 209. If taken as ES 461, ES 200 or 300A, and one of 301, 321 or 341.

GEOG 303 Units: 1.5 Hours: 3-0
Conservation and Ecology of Whales
Examines the fundamental biology, evolution, and ecology of the modern whale species. The history and the spectrum of the human relationships with whales will be discussed, and current topics in the marine mammal sphere will be critically examined.

Note: Credit will be granted for only one of 303, 391 if 391 offered in the same topic.
Prerequisites: One of 274, BIOL 150A or BIOL 190B.

GEOG 306 Units: 1.5 Hours: 3-0
Geography of Canada
An examination of the physical, economic, and cultural landscapes that distinguish the geographical character of major regions in Canada. Issues surrounding Canada's identity and expressions of regionalism are considered.

GEOG 308 Units: 1.5 Hours: 2-2
Introduction to Geographic Information Systems
Fundamentals and sources of geographic information, basic skills in geographic data processing, query, and analysis. Laboratory component introduces GIS and commercial geographic information software solutions.

Notes: - Credit for this course will not be counted toward degree programs in Geography.
- Students with credit in 222 or 228 are not permitted to register in 308. This service course is intended for students with a general interest in the field of geomatics.

GEOG 314 Units: 1.5 Hours: 3-0
Formerly: 214
Global Environment Change and Human Response
Based on four components: global environmental change; sustainable development; biodiversity; and population, impoverishment and environmental degradation. Lectures and discussions emphasize the causes of global change, the present and expected impacts on natural and social systems, and response strategies that have been proposed or enacted.

Note: Credit will be granted for only one of 314, 214 (if taken prior to 2006).
Prerequisites: Second-year standing.

GEOG 319 Units: 1.5 Hours: 2-2
Remote Sensing of the Environment
Focuses on physical principles underlying remote sensing and electromagnetic propagation in free space and matter; attenuation, absorption and scattering mechanisms; interaction of energy with the atmosphere and Earth materials such as vegetation, soil, rock, water and urban structures; and microwave/LIDAR interaction with Earth materials.

Prerequisites: 222, 228.

GEOG 322 Units: 1.5 Hours: 2-2
Digital Remote Sensing
Processing and analysis of digital remotely sensed data. Data from various sources will be discussed and analyzed with respect to their applicability in geographical sciences. Laboratory assignments will use image analysis software in a variety of applications.

Prerequisites: 222, 228.
Pre- or corequisites: 226.

GEOG 323 Units: 1.5 Hours: 2-2
Cartography
Introduces topographic and thematic cartography. Emphasis on cartographic data manipulation, generalization, and symbolization; map design, visualization and communication. Laboratory assignments will provide practical experience in designing and drafting maps.

Prerequisites: 222.

GEOG 324 Units: 1.5 Hours: 3-0
Directions in Geography
An intellectual history of geographical thought, concentrating on trends, ideologies and controversies since 1960. Idiographic, nomothetic, quantitative, behavioural, applied radical, humanistic and recent
Geography of the City

Overview of urban geography from a global perspective including an examination of the key concepts, methods, and contemporary debates in urban geographic scholarship. Various case studies will be considered, along with first-hand fieldwork training, to foster a deeper appreciation for the geographic dimensions of the urban experience.

Note: Credit will be granted for only one of 340, 340B, 349.

Prerequisites: 211, 218.

Coastal and Marine Resources

An introduction to the Geography of the Coastal Zone. Explores a wide variety of coastal topics from biophysical, ecological, and social-economic perspectives. Topics focus on coastal landscapes and communities that may include fundamentals of coastal oceanography, climate, biodiversity, water quality, fisheries, indigenous people, tourism, and implications for management.

Note: Second-year standing.

Prerequisites: 452

Coastal and Marine Resources

A systematic integration of the biophysical, socioeconomic and policy dimensions of threats and opportunities in coastal areas framed within integrated coastal management. Topics include: fisheries, aquaculture, energy, transportation, recreation and tourism, urban development and marine protected areas. Coastal planning and zoning approaches to balance threats, opportunities and conflicts are discussed.

Note: Credit will be granted for only one of 353, 452.

Prerequisites: 101A, 101B.

Coastal Communities

A systems approach to the study of contemporary issues relating to the geography of coastal communities. Topics focus on the social, political, cultural and economic forces that shape coastal communities and community life at the individual, community and macro scales.

Prerequisites: 211, 218.

GEOG 337

Units: 1.5

Hours: 3-0

Formerly: 455; 459A and 459B

Parks and Protected Areas

An investigation of the principles and concepts underlying the designation, planning and management of protected areas such as national and provincial parks. Topics include: the history and philosophy of protected areas; international classifications and examples; role of native peoples; carrying capacity; visitor management, interpretation; ecosystem integrity; ecosystem management; and a variety of case studies. Students should be prepared to undertake one or more weekend field trips; a fee for each field trip may be applied.

Note: Credit will be granted for only one of 357, 455, 459A, 459B.

Prerequisites: 209.

GEOG 358

Units: 1.5

Hours: 3-0

Landscape Ecology

Landscape ecology emphasizes the interaction between spatial pattern and ecological processes. Focuses on the role of spatial heterogeneity across a range of scales. Focus is on the role of spatial heterogeneity in affecting the distribution and abundance of organisms, mass and energy transfers, and alterations of this structure by natural or anthropogenic forces. Implications for resource management and conservation are discussed.

Note: 274 recommended.

Prerequisites: One of 272, 274, 276.

GEOG 366

Units: 1.5

Formerly: 473

Medical Geography

Investigates the major research themes in medical geography, including the social and environmental contexts of disease, epidemiological data delivery systems, and health and the pollution syndrome. Involves lectures, seminars, and research projects.

Note: Credit will be granted for only one of 366, 473.

Prerequisites: Second-year standing.

GEOG 370

Units: 1.5

Hours: 3-2

Hydrology

An overview of hydrological processes, measurement techniques and data analysis. The movement of water in the hydrologic cycle via precipitation, interception, evapotranspiration, surface runoff, infiltration, soil moisture, groundwater flow and streamflow generation are examined. Applied aspects and local examples will be discussed. Involves laboratory assignments and a field trip.

Note: 1.5 units of 100-level MATH recommended.

Prerequisites: 272 or

Pre- or corequisites: EOS 340.

GEOG 371

Units: 1.5

Hours: 3-0

Water Resources Management

A study of water resources management in different parts of the world, examining the influence of various physical, economic, social, political and technological factors. The alternative ways in which such problems as water scarcity, floods and declining water quality are handled will be discussed. A number of major water development schemes will be examined in detail. Students will be expected to undertake a modest research project and report upon it.

Prerequisites: 209.
GEOG 373 Units: 1.5 Hours: 2-2
Applied Climatology
A study of the application of physical principles to practical problems in climatology and the reciprocal interaction between climate and human activities. Topics include: urban effects on climate; air pollution; human bioclimateology; agricultural climatology; and methods of microclimatic modification.
Prerequisites: 272

GEOG 376 Units: 1.5 Hours: 3-2
Process Geomorphology
An investigation of the physical processes that create and maintain landforms. Focus on measurement and analysis of morphodynamic processes in fluvial, aeolian, coastal, glacial, hillslope, and/or periglacial landscapes (e.g., sediment transport, erosion, wind/ wave energy, river discharge, glacial dynamics, weathering rates). Involves a field trip and/or a group project.
Prerequisites: 276, or EOS 120 and 201.

GEOG 382 Units: 1.5 Hours: 3-0
Formerly: 367, 467, 463A
Geography of Southeast Asia
A systematic geography of the countries of Southeast Asia. Topics include physical and cultural landscapes, regional variations, and problems associated with modernization and underdevelopment, such as settlement, land reform, urbanization and environment.
Note: Credit will be granted for only one of 382, 367, 463A, 467.
Prerequisites: Second-year standing.

GEOG 383 Units: 1.5 Hours: 3-0
Formerly: 364, 464A, PAAS 359
Physical and Cultural Geography of China
A study of the physical environment of China and the role of the Chinese people in moulding and changing the landscape over the past four thousand years. The subject matter will deal primarily with conditions pertaining to the Chinese earth and the Chinese people in the period up to the present, and provide an essential basis for appreciation to the transformation of China since 1949.
Note: Credit will be granted for only one of 383 (PAAS 359, PACI 383) 364, 464A.
Prerequisites: One of PAAS 100, 200; or 4.5 units of 100- or 200-level Geography.

GEOG 386 Units: 1.5 Hours: 3-0
World Political Geography
An overview of global geopolitics and the transformation of the world political map. Examination of key concepts and approaches to contemporary political geography through a series of regional case studies.
Note: Credit will be granted for only one of 386, 348.
Prerequisites: 4.5 units of 100- or 200-level Geography.

GEOG 388 Units: 1.5 Hours: 3-0
Formerly: 466
Regional Studies
Geography of a selected region of the world from a systematic perspective. Topics include: the physical and human landscape; settlement; economic, political and social geography; spatial variation in modernization and economic growth.
Note: Not open to students with credit in 466 without permission of the department. May be taken more than once for credit in different topics with permission of the department.
Prerequisites: Second-year standing.

GEOG 391 Units: 1.5 Hours: 3-0
Topics in Geography
Examination of a specific topic or area in Geography. Topic(s) will be provided in advance of registration.
Note: May be taken more than once for credit in different topics.

GEOG 418 Units: 1.5 Hours: 2-3
Advanced Spatial Analysis and Geo-statistics
Explores advanced topics in the numerical analysis of points, lines, areas, and surfaces in discrete and continuous space, drawing on methodologies from geography, statistical analysis, regional sciences and landscape ecology. Includes coverage of spatial systems modelling and simulation, spatio-temporal analysis, exploratory spatial analysis and spatial data mining.
Prerequisites: 328 or 329.

GEOG 420 Units: 1.5 Hours: 3-0
Field Studies in Coastal Geomatics
An integrated approach for using geomatics (remote sensing, GIS, spatial analysis) for data acquisition, processing and analysis to improve our understanding of marine and coastal areas. Topics focus on applications of geomatics for environmental and social lab work and seminar discussions. Students should be prepared to undertake one or more weekend field trips; a fee for each field trip may be applied.
Prerequisites: 319 or 322, and 328 or 329.

GEOG 422 Units: 1.5 Hours: 2-3
Advanced Topics in Digital Remote Sensing
Aspects of remote sensing including processing and classification of digital satellite and airborne data and digital elevation modelling. Emphasis will be placed on the processes of interpreting remotely sensed data, the enhancement of digital data for visual analysis and the integration of remotely sensed data with other spatial data.
Note: Students are encouraged to take both 319 and 322.
Prerequisites: 319 or 322.

GEOG 424 Units: 1.5 Hours: 3-0
Field Studies in Coastal Geomorphology
An advanced, field-based exploration of coastal geomorphic processes and landforms. Involves a week-long field trip to local coastal sites where students apply geomorphic concepts and methods towards a series of independent research assignments and/or group projects. Areas of investigation will span near-shore to backshore environments and wave, tidal, fluvial/estuarine, and aeolian processes. A field trip fee may be applied.
Prerequisites: 376 and one of 370, 372, 373, 374; permission of the department by 15 March of previous Winter Session.

GEOG 428 Units: 1.5 Hours: 2-3
Advanced Topics in Geographic Information Sciences
Contemporary research topics in the geographic information sciences. Topic will vary annually, but will be selected from one of the following: spatial decision support; visualization; business demographics; environmental modeling; or spatial analysis. Students are advised to consult the department for an outline of the specific topic covered any year.
Note: Credit will be granted for only one of 428, 423.
Prerequisites: 328 or 329.

GEOG 430 Units: 1.5 Hours: 3-0
Seminar in Coastal Studies
Provides students with an opportunity to synthesize and consolidate their knowledge of coastal studies in order to apply that knowledge effectively to the challenges of coastal zone management. Students should be prepared to undertake one or more weekend field trips; a fee for each field trip may be applied.
Pre- or corequisites: Two of 420, 438, 453, 457, 458, 474.

GEOG 438 Units: 1.5 Hours: 3-0
Aquaculture in British Columbia
An introduction to the aquaculture industry within British Columbia, review of the history, culture, species, production methods (hatchery through seafood processing), technological innovations, economics, marketing, environmental impacts/management, social issues (including First Nations), and the regulatory framework for this agri-food industry. Includes a field trip to aquaculture sites. Students should be prepared to undertake one or more weekend field trips, or a week-long field trip; a fee for each field trip may be applied.
Prerequisites: 353.

GEOG 440 Units: 1.5 Hours: 3-0
Interpreting the Suburban Landscape
A seminar and fieldwork course focusing on the historical and contemporary development of the suburban landscape of the North American city.
Prerequisites: One of 340, 340A, 340B, 343 or 363.

GEOG 441 Units: 1.5 Hours: 3-0
The Design and Planning of Cities
A seminar and fieldwork course focusing on influential planners, developers, architects and politicians who have shaped the design and planning of the modern European and North American city since the mid-19th century.
Prerequisites: One of 340, 343, 355.

GEOG 448 Units: 1.5 Hours: 3-0
Urban Social Geography and Planning
An advanced seminar on the social geographies of the contemporary city. A critical examination of the geographical dimensions of urban social life, community planning, and the politics of public space.
Prerequisites: One of 340, 340A, 340B, 343, 363.

GEOG 450 Units: 1.5 Hours: 3-0
Formerly: 450A and 450B
Decision Making in Resources Management
Examines the decision making theory and real world processes associated with resources management at the policy and field levels. Case studies used to illustrate decision making behaviour, from conflict to co-operation. Simulation sessions, field trip and field methods review.
Note: Credit will be granted for only one of 450, 450A.
Prerequisites: One of 209, 350, 350A, 350B, ES 316.

GEOG 453 Units: 1.5 Hours: 3-0
Field Studies in Coastal and Marine Resources
Integrated coastal management is applied through community-based research. Based on a week-long field camp, discussions, projects and presentations, students gain first-hand experience in both biophysical and socio-economic perspectives of coastal areas. A field trip fee may be applied.
Prerequisites: 353 or 452.
COURSE LISTINGS

GEOG 456  Units: 1.5  Hours: 3-0
Formerly: 356
Wildlife Conservation
An examination of conservation policies, programs, and management plans for wildlife. Reviews biophysical foundations and social aspects of wildlife use, endangernment, range reduction and extinction. International, national, regional and local wildlife management initiatives will be examined.
Note: Credit will be granted for only one of 456, 356.
Prerequisites: one of 274, 358, 374.

GEOG 457  Units: 1.5  Hours: 3-0
Formerly: 455; 459A and 459B
Marine Protected Areas
An in-depth look at the challenges facing designation and management of marine protected areas in Canada and internationally. Includes topics such as network design, governance, zoning, conflicts, ecotourism and fisheries. Students should be prepared to undertake one or more field trips; a fee for each field trip may be applied.
Note: Credit will be granted for only one of 457, 455, 459A, 459B.
Prerequisites: 352 or 357.

GEOG 474  Units: 1.5  Hours: 3-0
Formerly: 471A
Field Studies in Biogeography
A field-research course in biogeography based on a combination of reading, discussion, and data analysis. Involves a week-long field trip; a field trip fee may be applied.
Note: Credit will be granted for only one of 474, 471A.
Prerequisites: permission of the instructor by 15 March of previous Winter Session.

GEOG 476  Units: 1.5  Hours: 3-0
Formerly: part of 471C
Advanced Studies in Geomorphology
Focusing on various geomorphologic themes, students will complete a major research project based on field work to supplement lectures, seminars and field/lab projects.
Note: Credit will be granted for only one of 476, 471C.
Prerequisites: 376.

GEOG 477  Units: 1.5  Hours: 3-0
Formerly: 471D
Field Studies in Physical Geography
The nature of scientific research in physical geography is examined through field and laboratory techniques. Includes a week-long field camp where basic approaches, methodologies and techniques are used to prepare a series of reports based on field data and collected samples. A field trip fee may be applied.
Note: Credit will be granted for only one of 477, 471D.
Prerequisites: One of 274, 358, 370, 373, 376; permission of the department by 15 March of previous Winter Session.

GEOG 484  Units: 1.5  Hours: 3-0
Advanced Studies in Weather and Climate
Detailed examination of atmospheric structures and processes underlying weather and climate. Practical work focuses on analysis of vertical stability and utilizing computer weather model data.
Prerequisites: 373.

GEOG 490  Units: 1.5 or 3.0
Directed Studies in Geography
In special cases, with the consent of the department and the individual instructor concerned, a student may be permitted to pursue a course of directed studies.
Note: Courses of 1.5 or 3 units may be arranged, but no student is permitted to take more than 3 units of directed studies. In order to qualify for a 490 course a student must have a GPA of at least 6.0 in the previous 15 units of university work.

GEOG 491  Units: 1.5  Hours: 3-0
Advanced Topics in Geography
Examination of a specific topic or area in Geography. Topics vary depending on faculty interests and availability. The seminar format of this course requires students to participate orally in class and to submit a term paper.
Note: May be taken more than once for credit in different topics.
Prerequisites: One of 101A, 101B, 110, 120, EOS 110, 120; and third-year standing.

GEOG 499A  Units: 1.5  Hours: 3-0
Formerly: part of 499
Honours Thesis
Students will prepare the first part of an honours thesis under the direction of a faculty member from the department.
Notes: - Credit will be granted for only one of 499A and B, 499.
- 499A and B are "tied" courses and must be taken in consecutive terms except with permission of the department. Credit for 499B will be assigned only upon completion of both courses.
Prerequisites: Admission to the Geography Honours program, and fourth-year standing.
Grading: INP, letter grade (assigned upon completion of 499B; if 499B is not completed, a grade of N will be assigned to 499A).

GEOG 499B  Units: 1.5  Hours: 3-0
Formerly: part of 499
Honours Thesis
Students will complete their honours thesis under the direction of a faculty member from the department. After acceptance of the thesis by the supervising faculty member, an oral presentation and defence will be scheduled during the exam period.
Notes: - Credit will be granted for only one of 499A and B, 499.
- 499A and B are "tied" courses and must be taken in consecutive terms except with permission of the department. Credit for 499B will be assigned only upon completion of both courses.
Prerequisites: 499A.

GMST 101  Units: 1.5  Hours: 3-0
Formerly: GER 100A
Beginning German I
Introduction for students with no previous knowledge of German. Facilitates learning and retention of vocabulary, effective communication in everyday interaction and the use of fundamental structures of grammar. Acquisition of a basic understanding of German and ability to read, write, speak and comprehend German at the beginner’s level. Provides an introduction to the culture of German-speaking countries.
Note: Credit will be granted for only one of 101, GER 100, 100A.

GMST 102  Units: 1.5  Hours: 3-0
Formerly: GER 100B
Beginning German II
For students with limited previous knowledge of German who wish to acquire a better command of the spoken and written language. Learn about German-speaking culture and acquire more advanced skills in daily interactions. Acquisition of a basic understanding of German and ability to read, write, speak and comprehend German at the advanced beginner's level.
Note: Credit will be granted for only one of 102, GER 100, 100B.
Prerequisites: 101, or GER 100A, or permission of the department.

GMST 105  Units: 1.5  Hours: 3-0
Business German
An introduction covering topics such as business travel, the workplace, cultural conventions of German-speaking people and written and oral communication conventions in the business context.
Note: Not open to students with credit in any of 201, 202, 301, 302, 401, 402; GER 200, 252, 300, 352, 400, 452.
Prerequisites: 101, or permission of the department.

GMST 165  Units: 1.5  Hours: 3-0
Formerly: GER 160
Major Figures of German-Speaking Cultures
An introduction to and overview of German-speaking figures from past and present, and an investigation into their role in shaping the arts and culture of their respective nations. Figures may include Hermann, Siegfried, Hildegard von Bingen, the Grimm, Nietzsche, Marx, Freud, Riefenstahl, Brecht, Wolff and Grass.
Note: Credit will be granted for only one of 165, GER 160, GER 160. No knowledge of German required.

GMST 180  Units: 1.5  Hours: 3-0
Myths, Fairy Tales and Fantasy Fiction
An introductory survey of Germanic mythology, Medieval heroic epics, Romantic gothic tales, the fairy tales of the Brothers Grimm and contemporary fantasy fiction and their adaptations in opera and film. Topics include the heroic quest, the fantastic and the sorcery and witches. Emphasis on the mythical narrative structure and on the cultural significance of specific myths and tales.
Note: No knowledge of German required.

GMST 201  Units: 1.5  Hours: 3-0
Formerly: GER 200
Intermediate German I
Grammatical features and vocabulary and how to use them in sentences and texts. Further insights into the culture of German-speaking countries. Acquisition of an understanding of German that enables reading, writing, speaking and comprehension of German at the intermediate level.
Note: Credit will be granted for only one of 201, GER 149, 200.

Prerequisites: 102, or GER 100, or GER 100B, or permission of the department.

GMST 202 Units: 1.5 Hours: 3-0
Formerly: GER 252
Intermediate German II
Grammatical features and vocabulary and how to use them in sentences and texts. Exploration of the culture of German-speaking countries. Acquisition of an understanding of German that enables reading, writing, speaking and comprehension of German at the advanced intermediate level.
Note: Credit will be granted for only one of 202, GER 252.
Prerequisites: 201, or GER 200, or permission of the department.

GMST 210 Units: 1.5 Hours: 3-0
Special Topics
Note: May be taken more than once in different topics with permission of the department to a maximum of 4.5 units.

GMST 260 Units: 1.5 Hours: 3-0
Formerly: GERS 261
The Development of Modern German-Speaking Cultures
An overview of Germany from its consolidation as a modern nation-state in 1871 to today through the prism of artistic and cultural movements, with an emphasis on German national identity and the need to come to terms with the past. Drawing from art, literature, music and film, consideration of the role artists played in shaping the culture of Wilhelminian Germany and Austria, WWI, the Weimar Republic, Fascism, the divided Germany, Austria, Switzerland and post-reunification Germany.
Note: Credit will be granted for only one of 260, GERS 261, GER 261. No knowledge of German required.

GMST 261 Units: 1.5 Hours: 3-0
Trends in Contemporary Germany, Switzerland and Austria
Explores political, social and cultural developments in Germany, Switzerland and Austria after 1989. Topics may include the East-West divide in post-unification Germany, Berlin’s memorial landscape, the future of multiculturalism in Switzerland and Austria’s national identity in the New Europe.
Note: No knowledge of German required.

GMST 262 Units: 1.5 Hours: 3-0
Fin-de-Siècle Vienna (1890-1914)
An examination of art, architecture, music, literature, philosophy and scientific thought in Vienna around 1900 with a special focus on gender, sexuality, ethnic diversity and Jewish culture.
Note: No knowledge of German required.

GMST 265 Units: 1.5 Hours: 3-0
German Rebels
An exploration of the German figures who resisted and rebelled against social, political and cultural repression from the Weimar period to the present.
Note: 1 No knowledge of German required.

GMST 280 Units: 1.5 Hours: 3-0
Masterpieces of Literature
A study of representative works of poetry, drama and prose by renowned German-speaking authors.
Note: No knowledge of German required.

GMST 301 Units: 1.5 Hours: 3-0
Formerly: GERS 300
Intercultural Explorations (in German)
An intercultural approach to more complex syntactic structures. Emphasizes the four main skills of reading, writing, speaking and listening in order to produce and understand written and oral texts.
Note: Credit will be granted for only one of 301, GER 300.
Prerequisites: 202, or GER 252, or permission of the department.

GMST 302 Units: 1.5 Hours: 3-0
Formerly: GERS 352
Intercultural Diversity (in German)
Uses an intercultural approach to learn more complex semantic structures. Emphasizes the use of synonyms, idioms, phrases and dialects and using them effectively in written and oral texts. Exploration of differences and cultural diversities in German-speaking regions and countries.
Note: Credit will be granted for only one of 302, GER 352.
Prerequisites: 202, or GER 252, or permission of the department.

GMST 350 Units: 1.5 Hours: 3-0
Formerly: GERS 356
A Short History of German Film
An overview of German film-making from the early days of expressionism up to the New German Cinema. Films may include: The Cabinet of Dr. Caligari, Metropolis, M, The Murderers Are Among Us, All: Fear Eats the Soul.
Note: Credit will be granted for only one of 350, GER 356. May count toward a Minor in Film Studies. No knowledge of German required.

GMST 351 Units: 1.5 Hours: 3-0
Formerly: GERS 439
The New German Cinema
Note: Credit will be granted for only one of 351, GER 439, GER 439. May count toward a Minor in Film Studies. No knowledge of German required.

GMST 352 Units: 1.5 Hours: 3-0
Formerly: GERS 483
Recent Film
An introduction to German films after unification, dealing with topics such as the two Germanies, literature and film, the role of history, and (re)presentation in a postmodern world.
Notes: - Credit will be granted for only one of 352, GER 483.
- May count towards a Minor in Film Studies. No knowledge of German required.

GMST 353 Units: 1.5 Hours: 3-0
Formerly: GERS 333
Literature and Film of the Holocaust and “Third Reich”
Focus on Nazi popular culture and entertainment films and an exploration of a variety of Holocaust narratives that emerged during the Second World War and its aftermath.
Note: Credit will be granted for only one of 353, GERS 333. No knowledge of German required.

GMST 355 Units: 1.5 Hours: 3-0
Formerly: GERS 260
German Expressionism (1910-1933)
A multi-media exploration of a pivotal cultural movement that spanned the visual arts, filmmaking, architecture, music and literature.
Note: Credit will be granted for only one of 355, GERS 260. No knowledge of German required.

GMST 360 Units: 1.5 Hours: 3-0
Cultural Studies Approaches to Literature and Film
An overview of cultural studies approaches to literature and film in the German-speaking countries. Students will analyze 20th- and 21st-century literature and film from a broad range of historical and cultural contexts.
Note: No knowledge of German required. 260 recommended.

GMST 362 Units: 1.5 Hours: 3-0
The Two Germanies
A comparative study of daily life and culture in the formerly divided Germany (1949-1989) and how art, literature, music and film defined and distinguished the two countries.
Note: No knowledge of German required.

GMST 365 Units: 1.5 Hours: 3-0
Marx, Nietzsche, Freud
An introduction to three of the most significant German-speaking figures to shape the twentieth century in the realms of politics, philosophy and psychoanalysis, and how their thoughts influenced developments in art and literature.
Note: No knowledge of German required.

GMST 369 Units: 1.5 Hours: 3-0
Special Topics in Scandinavian Literature and Film
Notes: - May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.
- No knowledge of Scandinavian languages required.

GMST 380 Units: 1.5 Hours: 3-0
Heroism and Romance from the Middle Ages to Romanticism
A survey of heroic narratives and tales with an emphasis on the link between the heroic and romance. Focus on the hero, the quest, love, gender and heroism and the prominence of anti-heroes in modern narratives. May include such texts as The Song of the Nibelungs, Parcour, Tristan, Kudrun, Wilhelm Meister, Hyperion.
Note: No knowledge of German required.

GMST 381 Units: 1.5 Hours: 3-0
The Roaring 20s
A study of cultural and intellectual thought during the Weimar Republic in Germany and the First Austrian Republic, with a special emphasis on the newly-emerging medium of film.
Note: No knowledge of German required. May count towards a Minor in Film Studies.

GMST 382 Units: 1.5 Hours: 3-0
Modern Crime Fiction
An exploration of major works of modern and contemporary German, Austrian and Swiss crime fiction. Emphasis on crime and mystery novels as a critical commentary on society and politics.
Note: No knowledge of German required.
### GMST 401
**Units:** 1.5  
**Hours:** 3-0  
Formerly: GER 400

**Topics in Popular Culture (in German)**  
Explores popular cultural trends in German-speaking countries with emphasis on music, film, television and cultural traditions in terms of their historical development and contemporary significance. All four language skills are developed and practiced so that students can effectively discuss and analyze the material in German.

**Notes:**  
- Credit will be granted for only one of 401, GER 400 (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

**Prerequisites:** 202, or GER 252, or permission of the department.

### GMST 402
**Units:** 1.5  
**Hours:** 3-0  
Formerly: GER 452

**Film (in German)**  
Explores the cinematic representation of social, political and cultural issues and the social and cultural impact of film in a given historical context. All four language skills are developed and practiced so that students can effectively discuss and analyze the material in German.

**Notes:**  
- Credit will be granted for only one of 402, GER 452 (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

**Prerequisites:** 202, or GER 252, or permission of the department.

### GMST 405
**Units:** 1.5  
**Hours:** 3-0  
Formerly: GER 390

**Reading German**  
An introduction to German language and culture by means of comprehension through a process of deciphering texts. Understanding of the grammatical structures underlying German language in order to be able to read texts in German. Texts are examples of the cultural history of Germany from the 1950s to the present.

**Notes:**  
- Credit will be granted for only one of 405, 101, 102, 105, GER 100, 100A and 100B, 390.
- Not open to students with credit in any of 201, 202, 301, 302, 401, 402; GER 200, 252, 300, 352, 400, 452.
- Online delivery.

### GMST 410
**Units:** 1.5  
**Hours:** 3-0  
Formerly: GERS 438A

**Special Topics**  

**Notes:**  
- Credit will be granted for only one of 410, GERS 438A, GER 438 if taken in the same topic.
- May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units.

### GMST 450
**Units:** 1.5  
**Hours:** 3-0  
Formerly: GER 437

**Major Filmmakers**  
A study of the films of one major filmmaker from a German-speaking country, whose impact on cinema as an art form has been wide-ranging and international in scope. Directors may include Fritz Lang, Leni Riefenstahl and contemporary directors.

**Notes:**  
- Credit will be granted for only one of 450, GERS 437.
- May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units. No knowledge of German required.
- May count towards a Minor in Film Studies.

### GMST 453
**Units:** 1.5  
**Hours:** 3-0  
Formerly: GERS 433

**After-Images of the Holocaust in Text and Film**  
Examines how writers, filmmakers and visual artists attempt to come to terms with the legacy of the National socialist regime while portraying the after-effects of the Holocaust for the second and third generations in Germany, Israel, the United States and Canada.

**Note:** Credit will be granted for only one of 433, GERS 433, GER 433. No knowledge of German required.

### GMST 454
**Units:** 1.5  
**Hours:** 3-0  
Formerly: GERS 487

**A Cultural History of Vampires in Literature and Film**  
A study of literary and cinematic vampires in historical context. Without focusing exclusively on German literature and film, follows the vampire myth and its various guises from classicism to postmodernism in novels and films.

**Note:** Credit will only be granted for one of 454, GERS 487. May count towards a Major in Film Studies. No knowledge of German required.

### GMST 460
**Units:** 1.5  
**Hours:** 3-0

**Multi-Cultural and Transnational Studies**  
An examination of contemporary German, Austrian and Swiss writers and filmmakers with a so-called “migratory background.” Addresses current political debates on multiculturalism and citizenship laws.

**Note:** No knowledge of German required.

### GMST 461
**Units:** 1.5  
**Hours:** 3-0

**Metropolis Berlin**  
A multi-media investigation into how the cultural and artistic landscape of the capital Berlin is represented in and through the literature and film from the 19th to the 21st century.

**Note:** No knowledge of German required.

### GMST 462
**Units:** 1.5  
**Hours:** 3-0

**Contemporary Literature**  
A study of contemporary German-speaking authors who have achieved international recognition. Addresses the role of writers as public intellectuals in society.

**Note:** No knowledge of German required.

### GMST 480
**Units:** 1.5  
**Hours:** 3-0

**Major Writers**  
Study of one or more German-speaking authors in terms of theme, genre, or cultural context. May include Lessing, Goethe, Schiller, Kleist, Mann, Kafka, Weiss, Wolf and Grass.

**Note:** No knowledge of German required.

### GMST 481
**Units:** 1.5  
**Hours:** 3-0

**The Age of Goethe**  
An exploration of the rich literary and cultural diversity of the period from the 1750s to the 1830s. Examines major works by Goethe, Schiller and the Romantics, the rise of women’s literature and the notion of the dilettante author, the salon culture of Weimar and Berlin and hybrid genres such as the diary, the letter, and the fragment.

**Note:** No knowledge of German required.

### GMST 482
**Units:** 1.5  
**Hours:** 3-0  
Formerly: GERS 422

**Romanticism**  
Rooted firmly in German Idealism, this artistic movement spanned the four decades from the 1790s to the 1830s. It explored new realms of the imagination, turning to myth, folklore, fairy-tale, fantasy and dream. Giving due attention to philosophy, art and music, studies works by authors such as Tieck, Novalis, Brentano, E.T.A. Hoffmann and the Schlegels, and probes the diversity of their poetry and prose.

**Note:** Credit will be granted for only one of 482, GERS 422, GER 422. No knowledge of German required.

### GMST 483
**Units:** 1.5  
**Hours:** 3-0  
Formerly: GERS 427

**Madness in Literature and Culture**  
Representations of madness in 19th and 20th century German literature against the backdrop of the Enlightenment ideals of rationality, science, human nature, art and civilization. Examines both the glorification of madness as an artistic ideal as well as the social forces at play in different periods to generate normative ideas of gender, sexuality, culture and morality by way of labeling marginal social elements as mad.

**Note:** Credit will be granted for only one of 483, GERS 427. No knowledge of German required.

### GMST 488
**Units:** 1.5  
**Hours:** 3-0

**Performing German Drama**  
Combining theatre history with performance, develops a dramaturgical concept for a German play and mounts a German-language production at the end of the semester. Instruction, including production elements, is in English; the play is performed in German using a dual-language script and language and dialect coaches. Some background in German is required only for the student actors.

**Notes:**  
- Credit will be granted for only one of 488, GERS 438A (201109), if 488 taken in the same topic.
- May be taken more than once for credit in different topics with permission of the department.

### GMST 489
**Units:** 3.0  
**Hours:** 6-0

**Holocaust Field School Project**  
Exploration and analysis of the ways in which the Holocaust has become memorialized in Central Europe, focusing on memorial sites, museums and monuments of the Holocaust. The course will begin at the University of Victoria and will require three weeks of study and travel in Central Europe.

**Note:** Credit will be granted for only one of 489, GERS 435. No knowledge of German required.

**Prerequisites:** Permission of the department.

### GMST 499
**Units:** 1.5

**Honours Graduating Essay**  
During either semester of the final year of their Honours program, students will write a graduating essay in German of approximately 7,500 words under the direction of a member of the department. The essay must conform to acceptable standards of style and format and be submitted before the end of classes. An oral examination covering the topic of the essay will be given by a departmental committee.

**Note:** Credit will be granted for only one of 499, GER 499.

### GREE

**Greek**  
Department of Greek and Roman Studies  
Faculty of Humanities  

Students without previous knowledge of ancient Greek will register for GREE 101. GREE 202 is the prerequisite for GREE 301, 302, 303, 304, 305 and 306, three of which will be offered annually, circumstances permitting. Courses at the 400-level have a prerequisite of 3 units of Greek at the 300-level or above, or permission of the department.
GREE 101  Units: 1.5  Hours: 3-1
Formerly: part of 100
Introductory Ancient Greek I
A basic introduction to Ancient Attic Greek. Based on reading and translating progressively more challenging passages in ancient Greek, with emphasis on acquiring basic vocabulary and rules of grammar. In addition to in-class hours students will practice forms and grammar one hour per week in the Language Centre.

Note: Credit will be granted for only one of 101, 100.

GREE 102  Units: 1.5  Hours: 3-1
Formerly: part of 100
Introductory Ancient Greek II
A continuation of 101. Reading and translation of progressively more challenging passages in ancient Greek, with emphasis on acquiring basic vocabulary and rules of grammar. In addition to in-class hours students will practice forms and grammar one hour per week in the Language Centre.

Note: Credit will be granted for only one of 102, 100.

Prerequisites: 101.

GREE 201  Units: 1.5  Hours: 3-1
Formerly: part of 200
Advanced Greek Grammar
Review of grammar covered in 101 and 102, followed by study of more advanced grammatical constructions. Readings will provide a transition from simplified language to unmodified literary Greek.

Note: Credit will be granted for only one of 201, 200.

Prerequisites: 102 or permission of the department.

GREE 202  Units: 1.5  Hours: 3-1
Formerly: part of 200
Introduction to Greek Literature
Includes select, elementary passages from a variety of major classical authors such as Euripides, Herodotus, Homer, Sophocles and Xenophon in combination with a review of grammar.

Note: Credit will be granted for only one of 202, 200.

Prerequisites: 201 or permission of the department.

GREE 250  Units: 1.5  Hours: 3-0
The Greek New Testament

Prerequisites: 102 or permission of the department.

GREE 301  Units: 1.5  Hours: 3-0
Greek Epic
Intensive reading of selections from the Iliad, the Odyssey and/or the hexameter corpus. Intended to facilitate reading ability in ancient Greek by building upon foundations of the first- and second-year courses.

Note: Credit will be granted for only one of 301, 390A, 401 if taken in the same topic. May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 202 or permission of the department.

GREE 302  Units: 1.5  Hours: 3-0
Greek Tragedy
Reading and analysis of one or more plays of Euripides, Sophocles and/or Aeschylus. Readings will typically include one play by each of two authors.

Note: Credit will be granted for only one of 302, 390B, 407 if taken in the same topic. May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 202 or permission of the department.

GREE 303  Units: 1.5  Hours: 3-0
Greek Historians
Selected readings from the Greek historians, particularly Xenophon, Herodotus and Thucydides.

Note: Credit will be granted for only one of 303, 390E, 404 if taken in the same topic. May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 202 or permission of the department.

GREE 304  Units: 1.5  Hours: 3-0
Plato
Reading and grammatical and literary analysis of one or more dialogues or other texts of Plato.

Note: Credit will be granted for only one of 304, 390F if taken in the same topic. May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 202 or permission of the department.

GREE 305  Units: 1.5  Hours: 3-0
Greek Orators
Readings from select orators of the fourth century. Selections may include Demosthenes, Lysias, Isocrates and Antisthenes.

Note: Credit will be granted for only one of 305, 405, 490E if taken in the same topic. May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 202 or permission of the department.

GREE 306  Units: 1.5  Hours: 3-0
Greek Comedy
Examination of the Greek comic tradition through selected readings of the plays of Aristophanes and/or Menander.

Note: Credit will be granted for only one of 306, 406 if taken in the same topic. May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 202 or permission of the department.

GREE 481  Units: 1.5  Hours: 3-0
Seminar in Greek Literature
Notes: - Credit will be granted for only one of 481, and any of 401, 402, 404, 406, 407, 408, 490B, GRS 481A, 481B, 481C if taken in the same topic.
- May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 3 units of GREE courses numbered 300 and above, or permission of the department.

GREE 309  Units: 1.5  Hours: 3-0
Greek Historians
Selected readings from the Greek historians, particularly Xenophon, Herodotus and Thucydides.

Note: Credit will be granted for only one of 309, 390E, 404 if taken in the same topic. May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 202 or permission of the department.

GREE 310  Units: 1.5  Hours: 3-0
Greek Historians
Selected readings from the Greek historians, particularly Xenophon, Herodotus and Thucydides.

Note: Credit will be granted for only one of 310, 390A, 401 if taken in the same topic. May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 202 or permission of the department.

GREE 315  Units: 1.5  Hours: 3-0
Greek and Roman Civilization
An approach to the civilization of Greece and Rome through the evidence of literature, history, and archaeology. Attention will be focused upon those aspects of ancient cultural and intellectual growth that are of significance in the western tradition. Emphasis will be placed upon the Minoan and Mycenaean civilizations, fifth century Athens and Augustan Rome. Essays will be required and there will be a written examination.

Note: Credit will be granted for only one of 100, 101, 102, CLAS 100.

GREE 482  Units: 1.5  Hours: 3-0
Greeks and Romans
An introduction to all of the major fields of classical studies with regard to ancient Greece: literature, history, philosophy and art and architecture. Emphasis is placed on the integration of primary sources from the four most important literary genres: epic, history, drama and philosophy. A basic timeline of principal eras and events, and general aspects of material culture from the Bronze Age to the coming of Rome.

Note: Credit will be granted for only one of 101, 100.

GREE 483  Units: 1.5  Hours: 3-0
Greek and Roman Mythology
A study of Greek and Roman myths, in the context of the culture and thought of Greece and Rome. Literary and artistic sources will be used to establish and analyze the nature and function of myths in these cultures. Topics include the gods, heroes, local myths political and cultural uses of myths and the origins of the influence of Greek and Roman myths on European culture.

Note: Credit will be granted for only one of 200, CLAS 200.

Prerequisites: None; 100 recommended.

GREE 201  Units: 1.5  Hours: 3-0
Greek History from the Bronze Age to Alexander
A survey of Greek history from the emergence of Minoan-Mycenaean civilization until the death of Alexander the Great. Emphasis on the relationship of the Greeks to other Mediterranean and Near Eastern civilizations, the nature of the Greek polis, Greek colonization, the rise of democracy and Athenian, Spartan, Theban and Macedonian bids for leadership in Greece.

Note: Credit will be granted for only one of 201, 331, CLAS 330.

GREE 202  Units: 1.5  Hours: 3-0
Roman History
A survey of Roman history from the earliest settlement on the Banks of the Tiber at the end of second millennium BCE to the reign of emperor Justinian in the sixth century CE. Emphasis on his-

| Nero, the last of the Julio-Claudian emperors, promoted an artistic golden age to rival that of the first emperor, Augustus. Topics may include: literary authors such as Seneca, Lucan, Persius and Petronius; Nero's extravagant building projects in Rome; his reputation, ancient and modern, as an artist-emperor. 

*Note:* Credit will be granted for only one of 314, 325 (if taken in the same topic).

*Prerequisites:* One of 100, 102, 202, 341, or permission of the department.

| GRS 315     |            |           |
| Age of Augustus |            |           |
| Life and letters under the first Roman emperor. Topics may include: writers such as Virgil, Livy, Horace and Ovid; social and political reforms and the institution of the principate; the monuments of the city that Augustus said he inherited in brick and left in marble. 

*Prerequisites:* One of 100, 102, 202, 341, or permission of the department.

| GRS 316     | Units: 1.5 | Hours: 3-0 |
| Greek and Roman Novels and Romances | An introduction to fictional prose literature in Greco-Roman antiquity and its social context. Principal works studied will include Petronius' *Satyricon*, Apuleius' *Golden Ass*, Longus' *Daphnis and Chloe* and other Greek romances of the Roman imperial period. 

*Prerequisites:* One of 100, 101, 102, or permission of the department.

| GRS 320     | Units: 1.5 | Hours: 3-0 |
| Greek Tragedy | The origins and developments of tragic drama in ancient Greece. Representative plays of Aeschylus, Sophocles and Euripides. 

*Note:* Credit will be granted for only one of 320, CLAS 320.

| GRS 323     | Units: 1.5 | Hours: 3-0 |
| Ancient Comedy and Satire | The origins and development of comedy, satire and invective in ancient Greece and Rome. 

*Note:* Credit will be granted for only one of 322, 323, 343.

| GRS 325     | Units: 1.5 | Hours: 3-0 |
| Greek Epic | An examination of epic genre in Greek literature through reading Homer’s *Iliad* and *Odyssey* and Apollonius’ *Jason and the Argonauts*. Themes may include the definition of the genre of epic, the nature of heroism, mortality and the construction of gender. 

*Note:* Credit will be granted for only one of 300, CLAS 300.

| GRS 326     | Units: 1.5 | Hours: 3-0 |
| Topics in Greek Civilization | Credit will be granted for only one of 326A, 326, CLAS 326. May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units. 

*Prerequisites:* One of 100, 102, 202, 341, or permission of the department.

| GRS 328     | Units: 1.5 | Hours: 3-0 |
| Myth and Theory | An introduction to the major approaches to the interpretation of classical myth, from ritualist to structuralist to feminist and beyond. 

*Prerequisites:* 200.
The Fall of the Republic
Study of the best-attested and most eventful period of Roman history: the collapse of the Republic and the emergence of monarchy between 146 BCE and 14 CE. Attention to the voluminous and varied writings of Cicero and to documentary sources for the period, such as coins and inscriptions.

Prerequisites: 441

Also: 201, 202, 203, 331, or permission of the department.

GCR 344
Units: 1.5
Hours: 3-0

The City of Rome
An introduction to art and architecture in Greece and the Aegean Art and Architecture of Ancient Greece and the Near East

Prerequisites: 341 or 202 or permission of the department.

GRS 348
Units: 1.5
Hours: 3-0

The City of Rome
An introduction to art and architecture in Greece and the Aegean from the Early Bronze Age through the Hellenistic period. Architecture, sculpture and the minor arts as evidence for cultural attitudes towards humankind, the gods, the physical world and the exploration of form, colour and movement. Emphasis on the careful discussion of selected monuments illustrated through slides, casts and photographs.

Prerequisites: One of 100, 101, 201, 203, 331, or permission of the department.

GSC 371
Units: 1.5
Hours: 3-0

Art and Architecture of Ancient Greece and the Aegean
An introduction to art and architecture in Greece and the Aegean from the Early Bronze Age through the Hellenistic period. Architecture, sculpture and the minor arts as evidence for cultural attitudes towards humankind, the gods, the physical world and the exploration of form, colour and movement. Emphasis on the careful discussion of selected monuments illustrated through slides, casts and photographs.

Note: Credit will be granted for only one of 371, CLAS 371, HA 316.

Prerequisites: One of 100, 101, 201, 203, 331, or permission of the department.

GRC 372
Units: 1.5
Hours: 3-0

Art and Architecture of the Roman World
A survey of Roman art and architecture relating the political and social development of the Roman people to their artistic expression. Examination of Etruscan art and architecture for its formative influence on Roman attitudes; Republican and Imperial Roman art in the context of historical events. Topics include the special character of Roman art, Hellenized and Italic modes of expression, portraiture, historical reliefs, function in art and architectural space and city planning.

Note: Credit will be granted for only one of 372, CLAS 372, HA 317.

Prerequisites: One of 100, 102, 202, 303, 341, or permission of the department.

GRC 376
Units: 1.5
Hours: 3-0

Ancient Technology
An introduction to the applied technologies of the Greek and Roman cultures. Presents both ancient written sources and archaeological remains from the Late Bronze Age through the Late Roman Empire. Topics include machinery and gadgets, mass production, engineering, nautical technology and labour.

Prerequisites: 202 or 341 or permission of the department.

GRC 377
Units: 1.5
Hours: 3-0

Ships and Seashipmanship in the Ancient World
An introduction to the maritime archaeology and marine technology of the Bronze Age Near Eastern, Greek and Roman cultures, using the evidence presented by architectural remains of ships and harbours, and ancient visual representations and literary texts. Topics will include harbour and ship design and construction, equipment, sailing techniques, navigation and underwater archaeology.

Prerequisites: None; 371 or 372 recommended.

GRC 379
Units: 1.5
Hours: 3-0

Early Greek Thought
An examination of early Greek thought as embodied in Hesiod and Presocratics such as Parmenides, Heraclitus, Anaxagoras, and Democritus. These figures may be considered in the context of historical and literary writings of their society (e.g., works by Aeschylus, Herodotus, Thucydides). Topics may include: distinctions among myth, science and philosophy, notions of law, morality, and causality; the influence of early Greek thought on later thinkers.

Note: Credit will be granted for only one of 379, CLAS 379, PHIL 381.

GRC 380
Units: 1.5
Hours: 3-0

The Life and Times of Socrates
An examination of a critical moment in Greek intellectual and political life, as seen from various points of view. Topics include: Socrates’ trial and its background; the rise of the Socratic conception of philosophy and its relation to the methods of the Sophists; perceived Socratic challenges to religious and social mores; written vs. unwritten philosophy; types of Socratic literature.

Also: PHIL 383

Prerequisites: At least third-year standing or permission of the department.

GRC 381
Units: 1.5
Hours: 3-0

Greek and Roman Religion
A survey of Greek and Roman religious thought and practices. Focuses on conventional religious rituals and their social value, and on the success of Greek and Roman polytheism in adapting to changing historical and social circumstances. Particular attention is paid to mystery religions, including Christianity, and their relationship to conventional forms of religious behaviour.

Note: Credit will be granted for only one of 381, CLAS 381.

Prerequisites: One of 100, 101, 102, 201, 202, 331, 341, or permission of the department.

GRC 382
Units: 1.5
Hours: 3-0

The Ancient Economy
Examines of the literary, documentary and archaeological evidence for the economic development of the Greco-Roman Mediterranean. Topics may include the primitivist-modernist controversy, and the relative influence of urbanization, social equality, capital accumulation, technology, education and legal and political institutions on economic development.

Note: 332 or 342 recommended.

Prerequisites: At least third-year standing.

GRC 383
Units: 1.5
Hours: 3-0

Roman Law and Society
An introduction to Roman law through primary sources. Emphasis will vary from year to year, and may include private law in its social context, advocacy and judicial procedure and administrative law, and Roman jurisprudence in its intellectual context.

Note: Credit will be granted for only one of 442, 346, CLAS 346.

Prerequisites: At least third-year standing and one of 202, 341, 342, or permission of the department.

GRC 443
Units: 1.5
Hours: 3-0

The Athenian Empire
Study of Athenian history from the Persian Wars until the end of the Peloponnesian War, focusing on her hegemony in the Eastern Mediterranean and rivalry with Sparta. Topics include the nature of the Athenian Empire, the Pentekontaetia, the social, economic, and cultural importance of Athenian democracy, the Periclean building program, the Athenian theatrical festivals and the conduct of the Peloponnesian war.

Prerequisites: 331 or permission of the department.

GRC 461
Units: 1.5
Hours: 3-0

Greece and the Near East
Focuses on Greek relations with the cultures of the wider Near East, including the Phrygians, Lydians and Hittites in Anatolia, the people of Mesopotamia

Note: Credit will be granted for only one of 342, CLAS 380, PHIL 383.

Prerequisites: At least third-year standing or permission of the department.

GRC 481
Units: 1.5
Hours: 3-0

Classical Studies Abroad
An extensive overview of monuments and material culture through participation in an on-site study trip abroad. Emphasis is placed on archaeology, history and art.

Note: May be taken more than once for credit in different topics with permission of the department.

Interested students should contact the department during the Fall Term.

Prerequisites: Permission of the department.

GRC 482
Units: 1.5
Hours: 3-0

The Theoretical Economy
Examinations of the literary, documentary and archaeological evidence for the economic development of the Greco-Roman Mediterranean. Topics may include the primitivist-modernist controversy, and the relative influence of urbanization, social equality, capital accumulation, technology, education and legal and political institutions on economic development.

Note: 332 or 342 recommended.

Prerequisites: At least third-year standing.

GRC 483
Units: 1.5
Hours: 3-0

Roman Law and Society
An introduction to Roman law through primary sources. Emphasis will vary from year to year, and may include private law in its social context, advocacy and judicial procedure and administrative law, and Roman jurisprudence in its intellectual context.

Note: Credit will be granted for only one of 442, 346, CLAS 346.

Prerequisites: At least third-year standing and one of 202, 341, 342, or permission of the department.

GRC 484
Units: 1.5
Hours: 3-0

The Athenian Empire
Study of Athenian history from the Persian Wars until the end of the Peloponnesian War, focusing on her hegemony in the Eastern Mediterranean and rivalry with Sparta. Topics include the nature of the Athenian Empire, the Pentekontaetia, the social, economic, and cultural importance of Athenian democracy, the Periclean building program, the Athenian theatrical festivals and the conduct of the Peloponnesian war.

Prerequisites: 331 or permission of the department.

GRC 485
Units: 1.5
Hours: 3-0

Greece and the Near East
Focuses on Greek relations with the cultures of the wider Near East, including the Phrygians, Lydians and Hittites in Anatolia, the people of Mesopotamia
and the Egyptians. Examines the role of these groups in forming Greek identity and discusses the topics of multi-culturalism and diversity in the ancient world.

Prerequisites: 371 or permission of the department.

GRS 462 Units: 1.5 Hours: 3-0
Archaeology of Athens
Examine the topography and monuments of Athens from the Neolithic to the Roman period. Examines primarily the physical remains of the city and countryside to trace the development of one of the most important city-states in the Greek world and to understand its impact on western civilization.

Prerequisites: 371 or permission of the department.

GRS 480A Units: 1.5 Hours: 2-0
Seminar in Greek History
Notes: - Credit will be granted for only one of 480A, CLAS 480A if taken in the same topic.
- May be taken more than once for credit in different topics with permission of the department.

Prerequisites: At least third-year standing and one of 201, 331, or permission of department.

GRS 480C Units: 1.5 Hours: 2-0
Seminar in Roman History
Notes: - Credit will be granted for only one of 480C, CLAS 480C if taken in the same topic.
- May be taken more than once for credit in different topics with permission of the department.

Prerequisites: At least third-year standing and one of 202, 341, or permission of department.

GRS 482A Units: 1.5 Hours: 3-0
Formerly: 480B
Seminar in Greek Archaeology
Notes: - Credit will be granted for only one of 482A, 480B, CLAS 480B if taken in the same topic.
- May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 371 or permission of the department.

GRS 482B Units: 1.5 Hours: 3-0
Formerly: 480D
Seminar in Roman Archaeology
Notes: - Credit will be granted for only one of 482B, 480D, CLAS 480D if taken in the same topic.
- May be taken more than once for credit in different topics with permission of the instructor.

Prerequisites: 372 or permission of the department.

GRS 493 Units: 1.5 Hours: 2-0
Directed Study in Greek or Roman Civilization
Intensive study of selected programs in Greek or Roman history, society, art, or archaeology. Students will prepare an extended research paper, drawing on both primary and secondary sources. Introduction to epigraphy, numismatics, papyrology, where appropriate.

Notes: - May be taken more than once for credit in different topics to a maximum of 3 units.
- Students should attempt to make arrangements with the instructor before the start of term.

Prerequisites: Permission of the department.

GRS 495 Units: 3.0 Hours: 3-3
Archaeology Field Work Seminar
An introduction to the methods and techniques of Classical Archaeology through participation in an excavation; introductory lectures will be arranged.

Note: Credit will be granted for only one of 495, CLAS 495 if taken in the same topic. May be taken more than once for credit in different topics with permission of the department. Interested students should contact the department during the Fall Term.

Prerequisites: Permission of the department.

GRS 499 Units: 3.0 Hours: 3-0
Graduating Essay in Honours
A graduating essay, written under the supervision of a faculty member, is required of fourth-year Honours students in Greek and Latin Language and Literature, and Greek and Roman Studies.

Note: Credit will be granted for only one of 499, CLAS 499.

Prerequisites: Honours standing in fourth-year.

HA History in Art
Department of History in Art
Faculty of Fine Arts
Courses numbered 200 generally consist of introductory level surveys of broad, thematic areas within history in art. Courses numbered 300 (not normally recommended for first-year students) are usually lecture courses covering a particular region or time period, with a more extensive research requirement for the student. Courses at the 400 level generally involve an in-depth examination of a specific body of material, and assume a certain level of intellectual sophistication and commitment on the part of the student.

HA 120 Units: 1.5, formerly 3 Hours: 2-0-1
Introduction to History in Art
An introductory survey of the visual remains of some of the world’s cultures from prehistory to the present day.

Note: Not open to History in Art Majors and Honours students in their fourth-year.

HA 121 Units: 1.5 Hours: 2-0-1
Art Matters
An examination of the impact of visual arts on the lives of individuals and communities. Topics include cultural diversity, globalization, ownership, gender and sexuality, politics, advertising and the Internet.

HA 200 Units: 1.5 or 3.0 Hours: 3-0
Formerly: 310
Media and Methods
An examination of the techniques used by artists throughout history, in western and non-western cultures. The development of art technology is considered in its historical and social contexts. Period or area of emphasis may vary.

Note: Credit will be granted for only one of 200, 310.

HA 201 Units: 1.5 or 3.0 Hours: 3-0
Arts, Artisans and Patrons in Europe, 313-1500 CE
Selected case studies dealing with the material culture of the European Middle Ages and Renaissance. Topics may include the role of patrons in the making of objects, training and guild structures, copying, making masterpieces, collaboration, social status, the court artist, career patterns for artists and artisans, gender and art production, and art and market economies.

HA 210 Units: 1.5 Hours: 3-0
Introduction to Research in History in Art
An introduction to the range of research methods, tools, and resources as well as some of the theoretical and historiographical perspectives that inform world-minded art-historical studies.

HA 220 Units: 1.5 Hours: 3-0
Visual Arts, Religion and Spirituality
An investigation of the relationship between the visual arts, beliefs and practices of religious communities across different traditions. Examines the main historical, theological, sociological and aesthetic dimensions of art and religion.

Note: May be taken more than once for credit in different topics, with permission of department.

HA 221 Units: 1.5 Hours: 3-0
The Christian Tradition in Western Art and Architecture
An exploration of the social production of art and architecture in relation to the Christian systems of thought. Although the specific periods and topics covered may vary depending on the instructor, this course covers issues such as: the relationship of word and representation; the study of Christian iconography; the role of the liturgy; art forms as instruments and expressions of religious change.

HA 222 Units: 1.5 Hours: 3-0
The Classical Tradition in Western Art
An introduction to the influence of Greco-Roman artistic traditions on subsequent periods of European civilization. The classical inheritance in terms of both style and iconography will be examined in a variety of selected monuments from the Middle Ages through to the 20th century.

HA 223 Units: 1.5 or 3.0 Hours: 3-0
Introduction to Western Architecture
An introduction to the aims and methods of architectural history using case-studies of monuments from the history of Western architecture from archaic Greece to the present. Issues considered can include: changing patterns of patronage; shifts in building-types, features, and structural systems; and influential theories of design.

HA 230 Units: 1.5 Hours: 3-0
Monuments of South and Southeast Asia
An introduction to Indigenous, Hindu, Buddhist and Islamic world views through the study of religious monuments and ideas in South and Southeast Asia, including philosophical and religious principles underlying architecture, painting, sculpture and textiles. Emphasizes the learning of analytical and writing skills essential to these areas of Asian art history.

HA 232 Units: 1.5 Hours: 3-0
Sacred Form in South / Southeast Asian Art
An introduction to select forms and symbols in Buddhist and Hindu art in South and/or Southeast Asia. Focus may include figurative, geometric, informal and formal arts, in lasting and ephemeral materials. Will give students the basic skills to describe and analyze arts of the region created in religious or spiritual contexts.

HA 233 Units: 1.5 Hours: 3-0
The Art of the Medieval Mediterranean
A survey of the visual and material cultures of the Mediterranean basin from the 5th to the 15th century. Introduces the artistic production of and interactions between Christian, Jewish and Islamic communities. Areas of interest will include the role of Roman cultural inheritance and the art and architecture of Byzantium, Italy, Spain, the Middle East and North Africa.

HA 234 Units: 1.5 Hours: 3-0
Encountering Renaissance Art
An examination of key works of art and architecture by major creative minds in Europe during the Renaissance (1400-1550), such as Donatello, Albere, Leonardo, Michelangelo, Bosch and Sophonisba Anguissola.
HA 330B Units: 1.5 Hours: 3-0
Formerly: part of 330
Later Arts of South Asia
A survey of the arts of South Asia, including the Himalayan region and Tibet, from the eighth century up to the 20th. Emphasis will be on regional variations in Buddhist and Hindu art, the introduction of new ideas, art forms and styles with the establishment of Islamic rule, and the role of colonialism and nationalism in the formation of the region's modern visual culture.

Note: Credit will be granted for only one of 330B, 330.

HA 332A Units: 1.5 Hours: 3-0
Bollywood Bound: Popular Visual Culture in India, 1950s to the Present
Through the media of photography and film, popular contemporary visual cultures of India are examined. Against a backdrop of Indian classical, folk, modern and contemporary, rural and urban art histories, select Bollywood films from the 1950s to the present are examined in class lectures, film screenings and readings. Styles featured range from historical, social realist and nationalist to stylized, idealist and moral narratives.

Note: Credit will be granted for only one of 332A, 337 (if taken in the same topic).

HA 332B Units: 1.5 Hours: 3-0
Bollywood Global: Popular Visual Culture in the Indian Diaspora, 1980s to the Present
An examination of popular visual culture of India from classical, modern and contemporary art-historical and cultural perspectives. Themes of gender, identity, postcoloniality and national/global dynamics are addressed through screenings of select Bollywood films from the 1980s to today. Films made in India alternate with films which move into diasporic spaces in the UK, Canada and USA.

Note: Credit will be granted for only one of 332B, 337 (if taken in the same topic).

HA 333A Units: 1.5 Hours: 3-0
Formerly: part of 333
Early Arts of Southeast Asia
A survey of the arts of Southeast Asia, starting with prehistoric and contemporary tribal/indigenous cultures, up to the arrival of Islam. Discussion will include the majority of countries in the region, with emphasis on Indonesian, Cambodian and personal arts relating to Hinduism, Buddhism and Primitivist religious communities will be discussed with attention to gender and historiography. Indigenous texts and film will be used as source materials and basis for discussion.

Note: Credit will be granted for only one of 333A, 333. Normally to be offered in alternate years with 330 A, B.

HA 333B Units: 1.5 Hours: 3-0
Formerly: part of 333
Later Arts of Southeast Asia
Case studies in the arts of Southeast Asia, from the arrival of Islam through the colonial and up through the modern period. Local definitions of art, the role of the artist in society and issues of patronage will be discussed against a background of continuity and change. Indigenous texts and film will be used as sources.

Note: Credit will be granted for only one of 333B, 333.

HA 336 Units: 1.5 Hours: 3-0
Art and Architecture of Modern India
A study of Indian art and architecture since the arrival of Western powers and Western religions in the early 16th century to the present. Examines material relating to Christian missions, the British presence, the revivalist movement, and contemporary art.

Note: Credit will be granted for only one of 336B, 333.

HA 337 Units: 1.5 Hours: 3-0
Special Topics in Contemporary Asian Art
An examination of themes and issues in contemporary Asian art through case-studies in specific regional and/or global contexts. Analyzes artists' careers, art institutions and art discourses, including the arrival of contemporary Asian art into western art historical consciousness.

Note: May be taken more than once for credit in different topics.

HA 338 Units: 1.5 Hours: 3-0
Special Topics in Premodern Asian Art
An examination of themes and issues in premodern Asian art through case-studies in specific regional and/or temporal contexts.

HA 339 Units: 1.5 Hours: 3-0
The 16th Century in Europe
A thematic examination of selected aspects of the visual arts in 16th-century Europe.

Note: Credit will be granted for only one of 339, 341B.

HA 340A Units: 1.5 Hours: 3-0
Formerly: half of 441
The 15th Century in Northern Europe
A consideration of aspects of 15th century art and architecture in Northern Europe.

Note: Credit will be granted for only one of 340A, 441.

HA 340B Units: 1.5 Hours: 3-0
Formerly: half of 441
Renaissance and Reformation in Northern Europe
A consideration of aspects of 16th-century art and architecture in Northern Europe.

Note: Credit will be granted for only one of 340B, 441.

HA 341A Units: 1.5 Hours: 3-0
The 15th Century in Italy
The art and architecture of Italy during the Early Renaissance of the 15th century. Works of art and artists' careers will be examined within the context of themes such as: patronage; materials and methods; function and setting; changes in style and taste.

Note: Credit will be granted for only one of 341A, 341.

HA 341C Units: 1.5 Hours: 3-0
Michelangelo and Leonardo
An investigation of the art and times of the two Renaissance artists. Topics will include the creative process, the role of drawings, artist-patron relations, materials and methods of their art production and biographical constructions.

HA 342A Units: 1.5 Hours: 3-0
Art and Material Culture of Italy 1550-1700
Analysis of the means by which objects, buildings, and space contribute to the social processes of cultural exchange and identity formation at the local, regional, and global level in the context of international trade, exploration and colonialism.

Note: Credit will be granted for only one of 342A, 342.

HA 342B Units: 1.5 Hours: 3-0
Art and Material Culture of Holland in the 17th century
Critical analysis of the role of cultural and artistic exchange in the making of the Dutch Republic in the context of the emerging globalism of the 17th century.

Note: Credit will be granted for only one of 342B, 342.

HA 343A Units: 1.5 Hours: 3-0
The 18th Century in Italy
A study of developments in Italian art and architecture during the 18th century. Particular attention will be paid to Venice as an artistic centre, and the works of individual artists will be considered within contexts such as: the aims and effects of church, state and private patronage; foreign markets and influences; attitudes of art critics and collectors.

Note: Credit will be granted for only one of 343A, 343.

HA 343B Units: 1.5 Hours: 3-0
The 18th Century in Northern Europe
A consideration of art and architecture in northern Europe, especially France and Britain, during the 18th century. Emphasis will be placed upon examining works of art within the contexts of political ideologies, social roles, and theoretical debate.

Note: Credit will be granted for only one of 343B, 343.

HA 344 Units: 1.5 Hours: 3-0
Art Theory and Criticism in Early Modern Europe
A study of selected texts from the period c. 1480-1780, when a body of literature emerged in which the aims and evaluation criteria of the visual arts were systematically articulated and debated. Texts will be discussed in relationship to changing artistic practices, and to relevant aspects of European social and intellectual history.

HA 345 Units: 1.5 Hours: 3-0
People and Things in the Early Modern Domestic Interior
A critical investigation of the material culture of the home in Early Modern Europe (1400-1800) in the context of world trade and exploration. Examines the means by which household objects shape the dynamic social processes of cultural exchange and identity formation at the local, regional, and global level. Media to be considered may include jewelry, textiles, clothing, ceramics, furniture, prints, maps, portraits, paintings, and sculptures.

HA 346C Units: 1.5 Hours: 3-0
Visual Culture in Jane Austen's World
Examines the visual culture of late Georgian and Regency England (c. 1780-1837), including painting, architecture, gardens, fashion, textile production, print culture, spectacle, professional and amateur arts. Considers the broader global context and assesses modern film and video interpretations of the period.

HA 348 Units: 1.5 Hours: 3-0
Introduction to Islamic Archeology
An introduction to the archaeological investigation of the Islamic world. Covering a period from the seventh to the 19th century, the course employs case studies to examine urban life, religious identity, agriculture, trade and communications in the Middle East, North Africa, and the Iberian Peninsula.

HA 349 Units: 1.5 Hours: 3-0
Islam and the West: Artistic Contacts, 1500-1900
An examination of the different modes of artistic contact between the Islamic world and the West from the 16th to the end of the 19th century. The develop-
ing artistic dialogue will be examined in the context of the political and cultural history of this period. Traces the changing representations of the Islamic world in European painting and book illustration; the growth of Orientalist aesthetics in Europe; and the introduction of Western themes into the arts of Turkey, Syria, Iran and India.

**HA 351A** Units: 1.5 Hours: 3-0

**Painting in Medieval Islam**

**HA 351B** Units: 1.5 Hours: 3-0

**Painting in Iran**
A survey of painting in Iran from the 15th to the 19th century. The course concentrates on the arts of the book.

**HA 352** Units: 1.5 Hours: 3-0

Formerly: half of 351

**The Genesis of Islamic Art and Architecture**
An examination of the background, origins, and evolution of early Islamic art and architecture from the seventh century to the 15th century. Investigates the fundamentals of Islamic art as a faith, Islam’s relationship to the pre-Islamic past and the theoretical problem of creating a new visual culture to serve a new religion and society.

**Note:** Credit will be granted for only one of 352, 351.

**HA 354** Units: 1.5 Hours: 3-0

Formerly: half of 351

**Medieval Islamic Art and Architecture**
The high medieval art and architecture of Islam from the 10th century to the Mongol invasions of the mid-13th century. Focuses on the medieval ideal of Islamic unity and the historic fragmentation of Islam into different, often opposed, regional and cultural entities. Major themes will be the emergence of Turkish peoples as the dominant political rulers of the Near East and the impact of Latin and Byzantine Christendom on Islamic visual culture.

**Note:** Credit will be granted for only one of 354, 351.

**HA 355A** Units: 1.5 Hours: 3-0

**The Art and Architecture of Ancient Egypt: Old and Middle Kingdom**
A thorough survey of Dynastic Egypt from 3200 BCE to about 1750 BCE. Through the examination of artifacts, monuments and texts, investigates the influence of social and religious thought upon Egyptian art.

**Note:** Credit will be given for only one of HA 355, 355A, 392 (if taken in the same topic).

**HA 355B** Units: 1.5 Hours: 3-0

**The Art and Architecture of Ancient Egypt: New Kingdom and Late Period**
A thorough survey of Dynastic Egypt from about 1550 BCE to 30 BCE. Through the examination of artifacts, monuments and texts, investigates the influence of social and religious thought upon Egyptian art.

**Note:** Credit will be given for only one of HA 355, 355B, 392 (if taken in the same topic).

**HA 357** Units: 1.5 Hours: 3-0

Formerly: half of 352

**Amirates and Sultanates of the Muslim Mediterranean**
The art and architecture of Islam in the lands bordering the Mediterranean (Spain, North Africa, Egypt, Palestine, Syria and Turkey) from the mid-13th to the 20th century. Major areas of emphasis will be the Nasrid dynasty of Spain, the Mamluk dynasty of Egypt, and the Ottoman sultanate of Turkey. Particular attention will be paid to the art of calligraphy and to cross cultural connections between Islam and Western Europe and Byzantium.

**Note:** Credit will be granted for only one of 357, 353.

**HA 358** Units: 1.5 Hours: 3-0

Formerly: half of 353

**Islam and Asia**
Art and architecture of the Islamic lands and peoples of South and Central Asia from the 12th to the 19th century. Begins with the Turvic invasions of northern India and focuses on the development and wider diffusion of Islamic visual and literary culture in India, Pakistan and Bangladesh.

**Note:** Credit will be granted for only one of 358, 353.

**HA 359** Units: 1.5 Hours: 3-0

**Islamic Arts from the Mongol Conquests to the Dawn of the Modern Period**
Art and architecture of the central Islamic lands in the period from the mid-13th until the 18th century, emphasizing the Ilkhanid, Timurid, and Safavi dynasties in Iran and Central Asia and the Ottoman dynasty in Turkey.

**HA 362A** Units: 1.5 Hours: 3-0

**Modern Art in Europe and North America: 1900 to 1945**
Beginning with a brief examination of the European avant-garde in the late 19th century, the course analyzes in depth such 20th century movements as Cubism, Expressionism, Futurism, Constructivism, Social Realism, and Surrealism. The European impact on modernist practices in America is also investigated.

**HA 362B** Units: 1.5 Hours: 3-0

**Art in Europe and North America: 1945 to Today**
An examination of directions taken in postwar art. Emphasis will be placed on the demise of the Modernist movement and the emergence of Postmodernism. Singled out for investigation will be such areas as Abstract Expressionism, Minimalism, Pop Art, conceptual and performance art, environmental art and photo-based practices.

**HA 363** Units: 1.5 Hours: 3-0

**The Cinema and Modern Art Movements**
An examination of the history of film in relationship to the major art movements of the 20th century. Students will view and analyze films by such directors as Lang, Eisenstein, Bunuel, Brakhage, and Snow; these films will be discussed in the light of their connection to such influential modern art movements as German Expressionism, Russian Constructivism, Surrealism, Abstract Expressionism and Conceptual Art.

**HA 364** Units: 1.5 Hours: 3-0

**Documentary Film**
An intensive study of film as document of time, place and action. Influence of social and artistic context will be considered. Attention will be largely directed to Canadian documentary films, a leader in this genre today. Films studied may include works by Flaherty, Grierson, Lorentz, Riefenstahl, Wiseman, National Film Board.

**HA 365** Units: 1.5 Hours: 3-0

**Experimental Film**
Film as art. Investigates a wide variety of experimental forms and covers a range of historical periods and contexts. Emphasis will be placed on analyses of key films and on theories of films developed by both artists and critics. Particular attention will be paid to the Canadian experimental tradition.

**Note:** Credit will be given for only one of 370, 392 (if taken in the same topic).

**HA 370** Units: 1.5 Hours: 3-0

**Popular Film and Cultural Theory**
A study of popular film and its social and political function. Special attention will be paid to mainstream films, especially Hollywood genre films, in the interest of exploring the ideological significance of popular film. An exploration of divergent views on the role of popular film within cultural theory will provide the context for the analysis of selected films.

**Note:** Credit will be granted for only one of 370, 392 (if taken in the same topic).

**HA 371** Units: 1.5 Hours: 3-0

**Early Chinese Art**
An introductory survey of Chinese art from the Neolithic period through the Tang dynasty. Topics include the ritual vessels of the Bronze age, the impact of the Indian religion of Buddhism on Chinese arts, the rise of landscape painting, and the classic era of figure painting. Chinese histories and theories of the arts will be read in translation.

**Note:** Credit will be granted for only one of 371, PACI 371.

**HA 372A** Units: 1.5 Hours: 3-0

**Later Chinese Art: Part I**
An introductory survey of Chinese art covering the period of the Five Dynasties, Sung, and Yuan dynasties (10th-14th centuries). The emphasis is on the
various ways the educated elite influenced the arts and key artistic traditions that inspired later artists and patrons.

Note: Credit will be granted for only one of 372A, 372, PACI 372. 371 is helpful preparation for this course but not a prerequisite.

HA 372B Units: 1.5 Hours: 3-0
Later Chinese Art: Part II
An introductory survey of Chinese art covering the late imperial and modern periods (15th-20th centuries). Topics include the role of the arts in an increasingly commercialized society prior to the communist revolution and the impact of state communism on modern Chinese art.

Note: Credit will be granted for only one of 372B, 372, PACI 372. 371 and 372A are useful preparation for this course but not a prerequisite.

HA 375A Units: 1.5 Hours: 3-0
Formerly: half of 375
Pre-Columbian Art
The art of central and southern Mexico and northern Central America before 1492. This culture area called Mesoamerica was characterized by high civilization.

Note: Credit will be granted for only one of 375A, 373, 375.

HA 375B Units: 1.5 Hours: 3-0
Formerly: half of 375
Pre-Columbian Art
The art of South America before 1492 in the Andean area characterized by high civilization.

Note: Credit will be granted for only one of 375B, 375.

HA 381A Units: 1.5 Hours: 3-0
Modernism and Modern Art: The Arts of the Pacific Northwest
A survey of the arts of Alaska, British Columbia, Washington, and Oregon from the 19th century to 1945. Investigates the relationship between "art" and issues such as colonialism, travel and tourism, the potlatch, the prohibition of the potlatch, ethnography, immigration, moral improvement, the Great Depression and modernity.

Note: Credit will be granted for only one of 381A, 381B, 381C.

HA 381B Units: 1.5 Hours: 3-0
Contemporary Art: The Pacific Northwest
A thematic examination of the arts of the Pacific Northwest from 1945 to the present. Issues examined may include primitivism, the Northwest School, the Totemland Studio, modern architecture, public art, feminism, postmodernism, the Vancouver school of photography, commemorations of Japanese internment, environmentalism and indigeneity.

Note: Credit will be granted for only one of 381B, 381C, 381D.

HA 382A Units: 1.5 Hours: 3-0
Native North American Arts
An introduction to arts of the indigenous peoples of the North American Arctic and Subarctic. Examines artistic expression from the earliest known art works to the present. Explores types and styles of art works, cultural contexts; relationships between artistic expression and environment; spirituality; and responses of artists to contact with non-native peoples.

Note: Credit will be granted for only one of 382A, 382.

HA 382B Units: 1.5 Hours: 3-0
Native North American Arts
An introduction to arts of the indigenous peoples of the Southwest, California, and the Great Basin. Examines artistic expression from earliest known art works to the present. Explores types and styles of art works; cultural contexts; relationships between artistic expression and environment; spirituality; and responses of artists to contact with non-native peoples.

Note: Credit will be granted for only one of 382B, 382.

HA 382C Units: 1.5 Hours: 3-0
Native North American Arts
An introduction to arts of the indigenous peoples of the Plains, Plateau, Woodlands and Southeast. Examines artistic expression from earliest known art works to the present. Explores types and styles of art works; cultural contexts; relationships between artistic expression and environment; spirituality; and responses of artists to contact with non-native peoples.

Note: Credit will be granted for only one of 382C, 382.

HA 383 Units: 1.5 Hours: 3-0
Special Topics in North American Indigenous Art
An in-depth investigation of a special aspect of, or area in, indigenous arts. Specific topics may vary from year to year.

Note: May be taken more than once for credit in different topics.

HA 384 Units: 1.5 Hours: 3-0
Indigenous Arts of the Northwest Coast II
Focuses on artists' responses to historical developments from 1700 to present. Topics include creative responses to early contact with non-native peoples, artistic developments in the 19th and 20th centuries, artists' responses to non-native attitudes and activities, and changes and continuities in artistic expression.

Note: Credit will be granted for only one of 384, 384A.

HA 386 Units: 1.5 Hours: 3-0
Approaches to Collections Research
An intensive study of the nature of selected museum and gallery collections and the ways in which they contribute to knowledge. Approaches to researching aspects of museum collections will be highlighted through study visits and assignment work in local museums.

Note: May be taken more than once for credit in different topics with permission of the department.

HA 387A Units: 1.5 Hours: 3-0
European and North American Architecture, 1750 to 1900
A survey of key figures and movements in Western architecture from the beginnings of Neoclassicism to the appearance of radically novel forms of design in Europe before World War I.

Note: Credit will be granted for only one of 387A, 387. 223 would be helpful preparation for this course.

HA 387B Units: 1.5 Hours: 3-0
20th-Century Architecture in Europe and North America
A survey of key figures and movements in Western architecture between 1900 and today. The work of "modern masters" such as Wright, Le Corbusier, and Mies van der Rohe will be considered, along with that of more traditional architects culminating in the appearance of "postmodernism" in the 1970s.

Note: Credit will be granted for only one of 387B, 387.

HA 392 Units: 1.5 or 3.0 Hours: 3-0
Special Topics in History in Art
An investigation of a special aspect or area of History in Art. Specific topics may vary from year to year.

Note: May be taken more than once for credit in different topics with permission of the Chair of the department, to a maximum of 6 units.
HA 430 Units: 1.5 Hours: 3-0
Advanced Seminar in the Arts of South and/or Southeast Asia
An intensive study of a selected theme or area of the arts of South and/or Southeast Asia.
Notes: - May be taken more than once for credit in different topics.
- A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 220, 330A, 330B, 333A, 333B, 337.

HA 445 Units: 1.5 Hours: 3-0
Advanced Seminar in Renaissance Art
An intensive study of a selected aspect of Renaissance art.
Notes: - May be taken more than once for credit in different topics.
- A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 240, 340A, 340B, 341A, 341B, 344.

HA 447 Units: 1.5 Hours: 3-0
Advanced Seminar in Early Modern Art, c. 1500-1750
An intensive study of a selected aspect of Early Modern art.
Enrolment will be limited to permit seminar format.
Notes: - May be taken more than once for credit in different topics. Enrolment will be limited to permit seminar format.
- A combined undergraduate/graduate seminar.

HA 449 Units: 1.5 Hours: 3-0
Advanced Seminar in Orientalism in Art and Architecture
Intensive study of aspects of the European and North American encounter with the Islamic world in the period after 1700.
Note: A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 349, 352, 354, 357, 358, 359.

HA 450 Units: 1.5 Hours: 3-0
Advanced Seminar in Islamic Art and Civilization
An intensive study of some special aspect or area of Islamic civilization.
Notes: - May be taken more than once for credit in different topics.
- A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 251, 321, 323, 324, 352, 354, 357, 358, 359, HIST 455, MEDI 301, 302.

HA 451 Units: 1.5 Hours: 3-0
Advanced Seminar in the Arts of Mughal India
An intensive study of an aspect of the art and architecture of Mughal India from the 16th-19th century. Topics will vary.
Note: A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 349, 352, 354, 357, 358, 359.

HA 453 Units: 1.5 Hours: 3-0
Advanced Seminar in the Arts of Safavid Iran
Intensive study of the art and architecture of Safavid Iran from the 16th to the 18th century. Topics will vary.
Note: A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 349, 351B, 352, 354, 357, 358, 359.

HA 460 Units: 1.5 or 3.0 Hours: 3-0
Advanced Seminar in Modern Art I (1870-1945)
Intensive study of artistic practice in the modern period. Geographical and cultural area and choice of issue may vary depending on instructor.
Notes: - May be taken more than once for credit in different topics.
- A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 336, 362A, 362B, 363, 368B, 369, 384, 387A, 387B.

HA 461 Units: 1.5 or 3.0 Hours: 3-0
Advanced Seminar in Modern Art II (1945-present)
Intensive study of artistic practice in the modern period. Geographical and cultural area and choice of issue may vary depending on instructor.
Note: A combined undergraduate and graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 336, 362A, 362B, 363, 368B, 369, 384, 387A, 387B.

HA 462 Units: 1.5 Hours: 3-0
Formerly: also HIST 462
Advanced Seminar in Art and Revolution
Examines the role of art in the major social and political revolutions of the 19th and 20th centuries.
Notes: - Credit will be granted for only one of 462, HIST 462.
- A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 336, 362A, 362B, 363, 368B, 369, 384, 387A, 387B.

HA 463 Units: 1.5 or 3.0 Hours: 3-0
Advanced Seminar in Political Art
Studies in political art: art which directly refers to social and political issues, rather than the question of art (as culture) operating since World War II. Cultural area may vary depending on instructor.
Note: A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 336, 362A, 362B, 363, 368B, 369, 384, 387A, 387B.

HA 464 Units: 1.5 Hours: 3-0
Advanced Seminar in Contemporary Art
An intensive examination of artistic practices (including but not necessarily limited to painting and sculpture) operating since World War II. Cultural area may vary depending on the instructor.
Note: A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 336, 362A, 362B, 363, 368B, 369, 384, 387A, 387B.

HA 465 Units: 1.5 Hours: 3-0
Advanced Seminar in 19th- and/or 20th-Century Architecture
An intensive study of a selected aspect of modern architecture (for example, the development of a particular building type, the work of a certain architect or group of architects, the emergence of certain theme or issue in architecture). Topics will vary.
Notes: - May be taken more than once for credit in different topics.
- A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 387A, 387B, 223.

HA 468 Units: 1.5 Hours: 3-0
Advanced Seminar in Canadian Art
An intensive study of a selected aspect of Canadian art or architecture. Topics will vary.
Notes: - May be taken more than once for credit in different topics.
- A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 368A, 368B, 268.

HA 470 Units: 1.5 Hours: 3-0
Advanced Seminar in East Asian Art
Intensive studies of special aspects of Chinese and/or Japanese art. Course content will vary.
Notes: - May be taken more than once for credit in different topics.
- A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 270, 337, 338, 371, 372A, 372B, 471.

HA 471 Units: 1.5 Hours: 3-0
Advanced Seminar in the Arts of China
Topics will vary but will address such issues as the ways the relationship of humans to their natural environment have been represented in the arts; the roles of the arts in defining social status, gender relations, and political viewpoints; and interconnections of elite and popular arts.
Note: A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 270, 337, 338, 371, 372A, 372B, 470.

HA 477 Units: 1.5 Hours: 3-0
Advanced Seminar in Film Studies
An intensive study of a selected topic in Film Studies. Content may vary each year.
Notes: - May be taken more than once for credit in different topics.
- A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 312, 363, 364, 365, 366, 367.

HA 478 Units: 1.5 Hours: 3-0
Advanced Seminar in Popular Culture
A study of popular culture and the critical theories which have emerged to explain the relationships among commercial forms (such as mainstream film and television), the socio-historical context, and audiences.
Note: A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 312, 363, 364, 365, 366, 367.

HA 480 Units: 1.5 or 3.0 Hours: 3-0
Advanced Seminar in 20th-Century Native North American Arts
An intensive study of selected aspects of 20th-century Native North American arts. Artists, regions and styles discussed will vary.
Topic: TBA.
Notes: - May be taken more than once for credit in different topics.
- A combined undergraduate/graduate seminar.
Prerequisites: Fourth-year standing and one of the following courses: 382A, 382B, 382C, 384, IS 372, EDCI 372, ANTH 322, 335, 336, 338.

HA 482 Units: 1.5 or 3.0 Hours: 3-0
Advanced Seminar in Indigenous Arts
An intensive study of a selected aspect of Native North American, Pre-Columbian, African or Oceanic arts, or a comparative examination of a theme perti-
HA 484 Units: 1.5 Hours: 3-0
Advanced Seminar in Contemporary Art: The Pacific Northwest
An intensive study of a selected aspect of Pacific Northwest art. Content will vary from year to year. May be taken more than once with permission of the department.

Notes: - May be taken more than once for credit in different topics.

- A combined undergraduate/graduate seminar.

Prerequisites: Fourth-year standing and one of the following courses: 382A, 382B, 382C, 384, IS 372, EDCI 372, ANTH 322, 335, 336, 338.

HA 486A Units: 1.5 Hours: 3-0
Museum Principles and Practices I: Communities, Curatorship, and Collections
Museums, their collections, and the knowledge they convey play a unique role in contemporary society. Explores the purpose and functions of museums with particular emphasis on relationships with communities and on the ways in which knowledge is created and preserved through collections and research. Topics include history and organization of museums and collections curatorship, research, documentation and care.

Note: Credit will be granted for only one of 486A, 486.

HA 486B Units: 1.5 Hours: 3-0
Museum Principles and Practices II: Programming, Exhibitions, and Management
Exhibitions and public programs are the primary means by which museums share their collections and knowledge with communities. Explores the role and development of exhibitions and programs, with particular emphasis on public partnerships, audience development, and principles of design, implementation and evaluation. When offered in the distance format, the course will also address topics in museum management.

Note: Credit will be granted for only one of 486B, 486.

HA 487A Units: 1.5 Hours: 3-0
Heritage Resource Management
An intensive study of the nature and value of heritage resources worldwide, and of management approaches that support their preservation and presentation. Topics include principles of heritage conservation, identification of heritage value and significance, inventory and documentation of heritage resources, organizational and legal frameworks for conservation, planning for conservation, approaches to revitalization and cultural tourism.

Note: Credit will be granted for only one of 487A, 487.

HA 488 Units: 1.5 Hours: 3-0
Special Studies in Museology
A series of special topics courses in museum studies and management with the course number HA 488A through HA 488U are offered in either a distance education or on-campus immersion format.

Note: Subject to differential fees; consult Fees for Undergraduate Programs.

HA 488A Units: 1.5 Hours: 3-0
Managing Cultural Organizations
An intensive study of the application of management theory and practice in cultural organizations, with particular emphasis on: characteristics of non-profit cultural organizations; governance and leadership; establishing mission goals and objectives; roles of executive and artistic directors; policy development and implementation; personnel management and team building; financial management; strategic and operational planning; information management; public relations; marketing; volunteer development; and ethical and legal issues.

Notes: - May be taken more than once for credit in different topics with permission of the department.

- A combined undergraduate/graduate seminar.

Prerequisites: Fourth-year standing required.

HA 488B Units: 1.5 Hours: 3-0
Collections Management
An examination of the development and contemporary roles of museum collections, with an emphasis on the principles and practices involved in their management, including policy development, legal and ethical considerations, documentation and information management, acquisitions, accessioning, deaccessioning, loans, risk management, care and handling. Issues of ownership, access and collections planning will also be addressed. Content may address specialized collections areas.

Notes: - May be taken more than once for credit in different topics.

- Subject to differential fees; consult Fees for Undergraduate Programs.

HA 488C Units: 1.5 Hours: 3-0
Communicating Through Exhibitions
Topics include the history, functions and purpose of exhibitions; communicating through artifacts, specimens and intangible heritage; frames of reference for communication; developing storylines; methodologies for planning; roles of the curator, educator, registrar, conservator, and other staff; project management; funding and sponsorship; temporary and travelling exhibitions; ethical considerations; and evaluation techniques.

Note: Subject to differential fees; consult Fees for Undergraduate Programs.

HA 488D Units: 1.5 Hours: 3-0
Caring for Museum Collections
An examination of the physical characteristics of museum collections, the ways they are affected by a range of factors in their physical and social environments, and the risk assessment, preventive conservation, and treatment guidelines that are utilized to ensure safekeeping of artifacts and specimens in storage, on exhibit, and in use for research or programming purposes. A specialized focus on a collections type may be taken.

Notes: - May be taken more than once for credit in different topics with permission from the department.

- Subject to differential fees; consult "Fees for Undergraduate Programs", page 42.

HA 488G Units: 1.5 Hours: 3-0
Public Programming
Examines the central role of public programming and interpretation in museums, galleries, heritage programs/sites and related agencies, and the relationship with learning and education. Emphasizes approaches which respond to community interests and reflect curatorial priorities. Planning, delivery, management and evaluation strategies for a range of programming approaches are covered.

Notes: - May be taken more than once for credit in different topics with permission of the department.

- Subject to differential fees; consult "Fees for Undergraduate Programs", page 42.

HA 488H Units: 1.5 Hours: 3-0
Topics in Museum Studies
An intensive study of some special aspect or area of museum studies. Content may vary each year.

Notes: - May be taken more than once for credit in different topics with permission of the department.

- Subject to differential fees; consult "Fees for Undergraduate Programs", page 42.

HA 488J Units: 1.5 Hours: 3-0
Curatorship
Examines the core curatorial concepts of collections planning, management, research, analysis, documentation, and exhibition development, and relates them to the evolving roles of museums in society. Topics include collections and acquisition policies, object oriented research methods, curatorial approaches to intangible heritage, documentation, information management, access, copyright, curatorial collaborations, and the communication of research through exhibitions, public programming, and print and electronic media.

Notes: - May be taken more than once for credit in different topics with permission of the department.

- Subject to differential fees; consult "Fees for Undergraduate Programs", page 42.

HA 488K Units: 1.5 Hours: 3-0
Exhibition Design and Installation
An examination of the exhibition design process with a special focus on the design and museological elements which are considered in the creation of effective exhibitions. Topics include the roles of exhibitions; communicating with the visitor; roles of the object; conservation considerations; visitor flow; lighting; colour; storylines; project planning and management; temporary and travelling exhibitions; show cases; exhibition exports; temporary exhibitions; installation, and maintenance. Field work, study visits, and the development of a scale model are featured.

Note: Subject to differential fees; consult Fees for Undergraduate Programs.

HA 488M Units: 1.5 Hours: 3-0
Topics in Cultural Management
An intensive study in some special aspect of cultural management. Content may vary each year.

Notes: - May be taken more than once for credit in different topics with permission of the department.

- Subject to differential fees; consult "Fees for Undergraduate Programs", page 42.

HA 488N Units: 1.5 Hours: 3-0
Museum Information Management
Museums hold a wealth of diverse information that is increasingly recognized as a key institutional and community resource. Explores the dimensions, value, and potential uses of museum information, and focuses on strategic integration and management approaches that utilize computer and Web-based information systems to organize, process, and access information for collections management, curatorial, research, programming, and administrative purposes.

Note: Subject to differential fees; consult Fees for Undergraduate Programs.

HA 488P Units: 1.5 Hours: 3-0
Human Resource Management in Cultural Organizations
An intensive examination of the ways in which staff and volunteers are managed in cultural organizations, with particular emphasis on museum and heritage agencies, and stresses integrated, planned approaches to human resource development. Topics include organizational dynamics; leadership and decision-making; board/staff relations; policy development; position descriptions; recruitment; performance planning; communications; legal considerations; and ethics and professionalism.
Leadership in Cultural Organizations

Building Community Relationships

Planning in Cultural Organizations

Exhibits and Programs
- A combined undergraduate/graduate course.

HA 489L Units: 1.5 Hours: 3-0
Heritage Conservation Planning
Focuses on approaches to planning and heritage conservation decision-making, and discusses the components of the conservation planning process including community involvement and consultation, the acquisition and integration of technical information and professional expertise, and the integration of conservation planning in the long-term management of heritage resources.

Notes: - Subject to differential fees; consult “Fees for Undergraduate Programs, p. 42”.
- A combined undergraduate/graduate course.

HA 490 Units: 1.5 or 3.0
Directed Studies
A course of directed readings and written assignments taken under the supervision of a faculty member. Approval must be granted by the Chair of the department.
Note: May be taken more than once in different areas, up to a total of 3 units. Normally available to History in Art major and honours students only. Pro Forma.

HA 491A Units: 1.5 or 3.0
Directed Studies in Cultural Resource Management
A course of directed readings and written assignments taken under the supervision of a faculty member. Approval must be granted by the Chair of the department.
Note: Normally available to Cultural Resource Management Program students only. Pro Forma.
Grading: May be INP, letter grade.

HA 492 Units: 1.5 or 3.0 Hours: 3-0
Advanced Studies in History in Art
An opportunity for highly qualified undergraduate students to take a graduate seminar in the department for undergraduate credit.
Note: Approval must be granted by the Chair of the department. May be taken more than once for credit in different topics to a maximum of 3 units. Normally available to History in Art major, honors, and diploma program students only. Pro Forma.

HA 493 Units: 1.5 Hours: 3-0
Advanced Seminar on the Williams Collection
An intensive study of selected aspects of the Williams Collection.
Note: A combined undergraduate/graduate seminar. Several classes may be taught at area museums and galleries. May be taken more than once with permission of the department.
Prerequisites: Fourth-year standing required for undergraduates.

HA 499 Units: 1.5, formerly 3 Hours: 3-0
Honours Seminar
Intended to instruct fourth-year honours students in problems and methodology of advanced research.

### HDCC

#### Human Dimensions of Climate Change

**Interdisciplinary Programs**
Faculty of Social Sciences

- **HDCC 200** Units: 1.5 Hours: 3-0
  **Introduction to Human Dimensions of Climate Change**
  An introduction to understanding and mitigating the impacts of climate change. After a basic introduction to the physical nature of climate change, the focus turns to impacts on humans in political, economic, sociological, and psychological terms, including possible mitigation and public policy strategies.

- **HDCC 400** Units: 1.5 Hours: 3-0
  **Seminar on Human Dimensions of Climate Change**
  Presentations by instructors, guest lecturers, and students will reinforce and extend knowledge of, and perspectives on, the impacts of climate change on humans. Strategies for mitigating the impacts are also considered.
  **Prerequisites:** 200, ECON 383 or GEOG 314, EOS 365 and 6 units of electives within the Minor, or permission of the instructor.

#### Health Information Science

**School of Health Information Science**
Faculty of Human and Social Development

- **HINF 130** Units: 1.5 Hours: 3-2
  **Introduction to Health Information Technology**
  Health information systems are comprised of computer programs generated using a variety of data manipulation and management techniques. Covers the general application of spreadsheets and databases to health information management. In addition, many specific health care applications such as medical graphics, multi-media medical information systems, acute care physiological signal processing, diagnostic expert system design, community health information systems, health information networks, and bioinformatics will be addressed.
  **Note:** Credit will be granted for only one of 130, 172.

- **HINF 140** Units: 1.5 Hours: 3-0
  **Formerly: 240**
  **Introduction to the Canadian Health Care Systems**
  The business of health care is a significant portion of the gross national product of all industrialized countries and emerging nations. Policy development, administration and management are, consequently, critical activities in the efficient delivery of effective health care. Provides an examination of the principles of health care governance at the local, provincial, national and international levels. Focuses on the Canadian health care system but provides a comprehensive comparison of the Canadian system with that of the United States and Great Britain. Additionally, the course deals with emerging aspects of international health care policy development, administration and management.
  **Note:** Credit will be granted for only one of 140, 240.

- **HINF 200** Units: 1.5 Hours: 3-2
  **Formerly: 300**
  **Principles of Health Database Design**
  Addresses the issues facing a database designer in the development of database applications appropriate for health data of various kinds. Includes the elements of conceptual, implementation and physical database design to support health information systems.
  **Note:** Credit will be granted for only one of 200, 300, CSC 370.
  **Corequisites:** 172 or 130, CSC 110 and either MATH 151 or 122.

- **HINF 230** Units: 1.5 Hours: 3-0
  **Organizational Behaviour and Change Management**
  Techniques for the management of individual, group and intergroup behaviour in health care organizations. Topics include: decision making and problem solving, work groups, leadership, power and influence, labour relations, process engineering and risk management.

- **HINF 265** Units: 1.5 Hours: 3-2
  **Health Care Delivery Organization**
  An introduction to the ways in which health organizations are managed and financed to deliver health care. Topics include: organization theory, power and culture, division of labour, command and control in health care versus other industries, governance and integrated delivery system models.
  **Prerequisites:** 140, 230.

- **HINF 280** Units: 1.5 Hours: 3-0
  **Formerly: 180**
  **Biomedical Fundamentals**
  Presents the principles of biochemistry, cell biology, organ physiology and selected examples of pathology in order to provide the fundamentals required for understanding in future studies. The study of the integrated functions of physiological systems is covered, with emphasis on the nervous, endocrine, muscular, cardiovascular and respiratory systems. Emerging topics in health informatics including bioinformatics are discussed.
  **Note:** Credit will be granted for only one of 280, 180.
  **Prerequisites:** Biology 12 or one of EPHE 141, PE 141, BIOC 102, BIOL 150A or B, or 190A.

- **HINF 310** Units: 1.5 Hours: 3-2
  **Electronic Records and Decision Support Systems**
  A critical analysis of the automation of clinical data acquisition, processing and storage in health care settings. Topics include: electronic health records, departmental systems (e.g., lab, pharmacy, intensive care), PACS, computerized physician order entry (CPOE), clinical data repositories, health plans, personal health records and data warehouses.
  **Prerequisites:** 200.
HINF 320  Units: 1.5  Hours: 3-2
Project Management
Introduction to the essentials of health project management and the project life cycle in health care. Topics include: project charter, network diagramming, scope management, stakeholder identification, cost management, scheduling and schedule management.
Prerequisites: 230.

HINF 330  Units: 1.5  Hours: 3-0
Legal Issues in Health Informatics
Introduces students to legal aspects of their profession, including aspects of confidentiality, privacy, legal liability of software systems and contractual issues. Students will gain an appreciation for legal terminology, reasoning, and processes as well as basic principles of law which apply to and govern health systems in Canada.
Note: Credit will be granted for only one of 330, NURS 487.

HINF 335  Units: 1.5  Hours: 3-0
Health Information Standards
A study of health information standards being deployed and used in Canada and elsewhere. The standards to be examined include data, messaging and terminology standards such as meta-data schemas, HL7v2.X, HL7v3, HL7-CDA, CCR, CCD, DICOM, ICD10, LOINC, SNOMED CT, archetypes and nursing terminologies. Topics include the nature of standards, their historical evolution and lifecycles for standards from initial development, distribution to maintenance. Emphasis will be on practical knowledge and skills in how to work with standards.
Prerequisites: 130 or 172 and 280.

HINF 345  Units: 1.5  Hours: 3-2
Formerly: 445
Networks, Interoperability and Systems Security
A management perspective to data communications technology, networks, and distributed processing. Emphasis is on examining the impact of emerging communications technology on health information systems in varying sectors of the health care delivery system. Topics also include: telehealth, home health care monitoring and pervasive computing in healthcare.
Note: Credit will be granted for only one of 345, 445.
Prerequisites: 201.

HINF 350  Units: 1.5  Hours: 3-0
Human Aspects of Healthcare Information Systems
Human aspects of health informatics. Includes discussion of the use of technology to support clinical decision making and decrease the incidence of errors in healthcare. Topics include: information retrieval and cognitive processes, decision making and reasoning, human-computer interaction and usability engineering, patient safety and error reduction, evidence-based medicine and workflow analysis.
Corequisites: 130.

HINF 351  Units: 1.5  Hours: 3-0
Formerly: 451
Information Technology Procurement
The methodologies and processes used to select Information Technology (IT) will be investigated, primarily as they apply to Regional Health Authorities (RHA). The primary goal is to appreciate the dynamics and compromises that take place, particularly when a RHA procures IT to support patient care. Students will be encouraged to think from a clinical point of view, as opposed to taking a more technical perspective.
Note: Credit will be granted for only one of 351, 451.
Prerequisites: 320.

HINF 371  Units: 1.5  Hours: 3-0
Clinical Methodologies
The process of clinical decision making in diagnosis, treatment, planning and prognosis will be covered. Topics include: alternate models for clinical decision making using subjective and objective data and information, case based reasoning, and the role of clinical practice guidelines.
Note: Credit will be granted for only one of 371, 270.
Prerequisites: 280.

HINF 381  Units: 1.5  Hours: 3-2
Epidemiology, Population Health and Public Health
An introduction to the principles and methods of epidemiology particularly as they apply to population health. Topics include: measurements of disease occurrence, study designs (cohort, case-control, randomized clinical trials), surveillance systems of infectious diseases, population health, health promotion and disease prevention issues.
Note: Credit will be granted for only one of 381, 380.
Prerequisites: 1.5 units of Statistics.

HINF 410  Units: 1.5  Hours: 3-0
Information Management and Technology
Critically examines the application of state-of-the-art IM&T principles and methods in the private sector and the degree to which they apply to Canadian health care organizations. Identifies the issues which Chief Information Officers face in their attempts to provide the right information to the right people, at the right time, and for the right price.
Prerequisites: 310, 351.

HINF 420  Units: 1.5  Hours: 3-0
Societal Implications of Information Technology
This readings-based course relies primarily on group work and seminars, during which the societal implications of computer-based information technologies (IT) will be discussed. The goal of this course is to allow HINF students (as future IT professionals) to achieve a balanced understanding of how IT affects the human condition - as seen from individual, regional and global perspectives. Only open to fourth-year HINF students.
Prerequisites: 320, 310, 371 and completion of two work terms.

HINF 450  Units: 1.5  Hours: 3-2
Health Information System Design
Provides thorough coverage of the specific requirements of the development of contemporary and future information systems in health care. Covers the technical principles underlying such systems. Knowledge and skills required for the design, implementation, maintenance and replacement of complex information systems in health care are developed in lectures and exercises including contemporary computer-based aids.
Prerequisites: 200, CSC 375.

HINF 461  Units: 1.5  Hours: 3-0
System Evaluation and Quality Improvement
Examination of key concepts, methods, and approaches in the field of evaluation. Topics include: formative and summative evaluation, quantitative and qualitative methods, developing performance metrics, total quality management (TQM), core principles of clinical quality improvement (CQI), balanced scorecards and dashboards.

Note: Credit will be granted for only one of 461, 460.
Prerequisites: 381.

HINF 470  Units: 1.5  Hours: 3-0
Trends in Health Informatics
Explores students to the changing role of the consumer and in particular their increasing use of Internet technologies. Topics include: consumer empowerment and consumer health informatics, efficiency of medical information available from websites, changing the relationship between consumers and providers, and ergonomics.

HINF 490  Units: 1.5 or 3.0  Hours: 3-0 or 6-0
Directed Study
Students wishing to pursue a course of directed readings or of a directed project should consult with a faculty member willing to supervise such a course. Formulate a proposal describing both the content of the course and a suitable means of evaluating the student’s work. The proposal must then receive the approval of the Director.
Note: May be taken more than once for credit in different topics, normally to a maximum of 3 units.

HINF 491  Units: 1.5 or 3.0  Hours: 3-0 or 6-0
Topics in Health Informatics
Advanced topics in various areas of health informatics. Information on the topics available in any given year will be available from the Director. Entry to this course will be restricted to third- and fourth-year students who meet the prerequisite specified for the topic to be offered.
Note: May be taken more than once for credit in different topics.

HIST 101  Units: 1.5  Hours: 3-0
Formerly: 198
Discovering the Past
An introduction to topics and themes in history.
A01-Fall: A Multilayered World: Global Society since 1500
A01-Spring: The Great Outdoors: Leisure, Tourism and Sport in North America
A02-Spring: Ten Days That Shook the World
Notes: - May be taken for credit only once.
- Credit will be granted for only one of 101, 198.

HIST 105  Units: 3.0  Hours: 3-0
Formerly: 242
Introduction to 20th-Century World History
A broad interpretive survey of the major forces that have shaped the contemporary world from the end of World War I to the present. Particular emphasis is placed on the global spread of Western ideas and institutions, on the rise of the Third World, and on growing interdependence among nations. A lecture course with audio-visual presentations and optional discussion sections.
Note: Credit will be granted for only one of 105, 242.

HIST 110  Units: 3.0  Hours: 3-0
History of the United States
A survey of U.S. history from the pre-Columbian period to the present. Includes the colonial origins and institutional development of the United States and an
examination of the role of race, gender and class in shaping American understandings of freedom, equality and democracy.

**HIST 120**  
Units: 3.0  
Hours: 3-0  
Formerly: 220  
**History of England**  
A survey of British history since the Norman Conquest.  
**Notes:**  
- Credit will be granted for only one of 120, 220.  
- Strongly recommended for students wishing to take advanced courses in British history.

**HIST 220**  
Units: 3.0  
Hours: 3-0  
Formerly: 230  
**History of Canada**  
A survey of Canadian development from the beginning of the French regime to the present.  
**Notes:**  
- Credit will be granted for only one of 130, 131, 132, 230, 231, 232.  
- Strongly recommended to students wishing to take advanced courses in Canadian history.

**HIST 328**  
Units: 1.5  
Hours: 3-0  
**History of Science**  
A general survey of some of the major developments of Western science from antiquity to the early 20th century. Topics to be explored include: the relations between science and religion; the social foundations of scientific activity; the philosophical assumptions of scientific practice.  
**Note:** No scientific background is required.

**HIST 260**  
Units: 1.5  
Hours: 3-0  
**History of Technology**  
A general survey of the consequences of technological change on society since the beginning of the Industrial Revolution. Topics include: transportation, communications, military, industrial and domestic technology.

**HIST 262**  
Units: 1.5  
Hours: 3-0  
**Technology and Society from the Renaissance to the Industrial Revolution**  
A general survey of the historical change and its social impact. Topics include rural and urban life, food production and preservation, early manufacturing and trades, hygiene and medical knowledge, science and society, printing and communications, transportation and early engineering, the military revolution, mining and industry, material culture and the birth of consumerism.

**HIST 329**  
Units: 1.5  
Hours: 3-0  
**Introduction to African History**  
All geographical regions will be surveyed, with an emphasis on the pre-colonial, colonial and post-colonial eras.  
**Note:** Credit will be granted for only one of 259, 468 (if taken in the same topic).
HIST 271 Units: 1.5 Hours: 3-0
Modern Latin America
Considers how Latin Americans have struggled to create stable polities since the Wars of Independence of the early 19th century. Explores anticlericalism, banditry, antislavery, racism and the assault on communal institutions, as well as the influence of key Latin American artists such as Frida Kahlo, revolutionaries such as Emiliano Zapata and “Pancho” Villa, guerrillas such as Fidel Castro and “Che” Guevara and populists such as Getulio Vargas and Eva Peron.
Note: Credit will be granted for only one of 271, 265 (if taken in the same topic).

HIST 301B Units: 1.5 Hours: 3-0
Formerly: part of 301
Revolutionary America and the Early Republic , 1763-1815
Examines the years 1763-1815 from the multiple perspectives of political elites, slaves, ordinary farmers, women and indigenous peoples in order to assess the aspirations and limitations of American democracy.
Note: Credit will be granted for only one of 301B, 301.

HIST 302A Units: 1.5 Hours: 3-0
American Women to 1900
An introduction to the history of women in early America, covering indigenous women, free settlers and slaves. Themes include women’s roles in conquest, patterns of women’s work, women in American politics and the history of sexuality. Examines how the category of gender has intersected with structures of power in American history including race and class.
Note: Credit will be granted for only one of 302A, 318 (if taken in the same topic).

HIST 302B Units: 1.5 Hours: 3-0
American Women from 1900 to the Present
An introduction to the history of American women from the turn of the twentieth century to the modern day. Themes include women and popular culture, race and femininity, women’s work, the women’s rights movement and the sexual revolution. Examines the role of gender as a primary axis of power in modern American history.
Note: Credit will be granted for only one of 302B, 318 (if taken in the same topic).

HIST 304A Units: 1.5 Hours: 3-0
Formerly: part of 304
The Emergence of Modern America, 1890-1945
Explores the transformation of domestic U.S. society from the 1890s to the end of World War II. Topics include the rise of corporate capitalism, the Progressive Movement, immigration, race and gender relations, the development of mass consumerism, and the impact of the Great Depression and two world wars on state power and labour relations.
Note: Credit will be granted for only one of 304A, 304.
COUR
UVIC UNDERGRADUATE CALENDAR 2012-13

HIST 327A Units: 1.5 Hours: 3-0
Formerly: Part of 327
Britain’s Short Twentieth Century (1901-1951)
Major themes in British history focusing on the social, cultural, political and economic consequences of Britain’s involvement in two world wars.
Notes: - Credit will be granted for only one of 327A, 327, 339 if taken in this topic.
- 120 strongly recommended.

HIST 327B Units: 1.5 Hours: 3-0
Formerly: Part of 327
Modern Britain 1951-the present
Major developments in British history focusing on the debate over the “decline” of Britain, the rise and fall of the welfare state, the devolution of Empire and the emergence of a culturally and ethnically diverse society.
Notes: - Credit will be granted for only one of 327B, 327, 339 if taken on this topic.
- 120 strongly recommended.

HIST 328A Units: 1.5 Hours: 3-0
Formerly: part of 328
Death and the Afterlife in England, 1200-1750
Examines death and attitudes toward the afterlife and the supernatural from the late Middle Ages to the beginning of the modern era. Themes include the late-medieval ars moriendi and ghost stories; martyrdom of Protestants and Catholics under “Bloody Mary” and Elizabeth I; murder; attitudes toward providence and the supernatural; crime and public execution in 17th- and 18th-century London; the rise of “rational religion” and the “secularization of suicide”.
Note: Credit will be granted for only one of 328A, 328, 120 or 321 recommended.

HIST 328B Units: 1.5 Hours: 3-0
Formerly: part of 328
Death and the Afterlife in England, 1750 to the Present
Examines death and attitudes toward the afterlife and the supernatural. Themes include popular and elite attitudes toward death and dissection; grief and mourning in Victorian England; the emergence of the modern cemetery and the rise of cremation; spiritualism, the First World War and the role of modern media in shaping responses to the death of celebrities.
Note: Credit will be granted for only one of 328B, 328, 120 or 321 recommended.

HIST 329 Units: 1.5 Hours: 3-0
Power and Popular Culture in England, 1500-1900
Explores the ways in which authority was exercised, legitimated and/or resisted from the 14th through the 19th centuries with topics ranging from the late medieval outlaw Robin Hood and early modern cross-dressing pirates and “highwaywomen” to industrial saboteurs such as the Luddites. Emphasis is on class, gender, and popular politics and protest, seeking to reconstruct the mental world of ordinary Englishmen and women who left no written record of their lives.
Note: Credit will be granted for only one of 329, 339 (if taken as section S01 of 2004W or 2005W).

HIST 330 Units: 1.5 Hours: 3-0
The Bloody Code: Crime in England, 1660-1800
Deals with crime, society and the administration of criminal justice in early modern England. Themes include the political and social backdrop to the “Bloody Code” and contemporary views of criminality, gender and class. Charts the emergence of modern criminal administration - policing, prosecution, trial and punishment - with particular attention to the interrelationship between the law and its social context.
Note: Credit will be granted for only one of 330, 339 (if taken as section F01 of 2005W).

HIST 338 Units: 1.5 or 3.0 Hours: 3-0
Seminar in British History
Selected topics in British history.
A01-Fall: Punishment in the Age of Enlightenment
A01-Spring: War and Social Change 1914-1945
A02-Spring: Magicians, Witches, and Gypsies in Early Modern England
Note: May be taken more than once for credit in different topics with permission of the department. 120 recommended.

HIST 339 Units: 1.5 or 3.0 Hours: 3-0
Topics in British History
An intensive study of selected aspects of British History. Students are advised to consult the department for an outline of the topics to be considered.
A01-Fall: Blood Feud, Politics and Culture in the Celtic World, 1485-1746
A01-Spring: The British Monarchy since 1689
Note: May be taken more than once for credit in different topics with permission of the department. 120 recommended.

HIST 342 Units: 3.0 Hours: 3-0
British North America, Conquest to Confederation
A combination of lectures and seminars examining the development of the economy, society, and culture of the area comprising present day Ontario, Quebec, and the Maritimes. Particular emphasis will be placed upon the emergence of distinct social and cultural entities in each of these areas.

HIST 343A Units: 1.5 Hours: 3-0
Formerly: part of 343
Labouring Lives: Work and Workers in Canada to 1907
Examines how people made a living in the past, exploring patterns of work in farming, fishing, the fur trade, canal building, crafts and factories. Topics include family and work, gender and work, working-class culture, trade unions, labour politics and the emerging industrial relations system to 1907.
Note: Credit will be granted for only one of 343A, 343.

HIST 343B Units: 1.5 Hours: 3-0
Formerly: part of 343
Labouring Lives: Work and Workers in Canada since 1907
Explores workplace relationships, workers and their families, labour politics and workers’ organizations from 1907 to the present, focusing on factory work, the labour revolt of 1919, the depression of the 1930s, the industrial relations system, changes in work and occupations in the 20th century, labour and the state, gender and work, and the labour movement.
Note: Credit will be granted for only one of 343B, 343.

HIST 344A Units: 1.5 Hours: 3-0
Formerly: Part of 344
Canadian Political History Since 1867
Examines the political history of Canada since Confederation with an emphasis on individuals and the role they have played in institutional development and policy outcomes.
Note: Credit will be granted for only one of 344A, 344.

HIST 344B Units: 1.5 Hours: 3-0
Formerly: Part of 344
Canadian Constitutional History
Examines the origins of the BCN Act 1867 and the subsequent interpretation and amendment of the Constitution through both the courts and the political process.
Note: Credit will be granted for only one of 344B, 344.

HIST 345 Units: 1.5 Hours: 3-0
Canadian-American Relations
An exploration of selected issues in the economic, cultural, political, and diplomatic aspects of Canadian-American relations.

HIST 348A Units: 1.5 Hours: 3-0
Northwest America to 1849
Surveys early history and literature of the region west of the Rocky Mountains and north of California prior to the establishment of the colony of Vancouver Island in 1849. Topics include maritime and overland exploration, European rivalries and claims, the development of the maritime and overland fur trade, and Indian-white relations.

HIST 354B Units: 1.5 Hours: 3-0
British Columbia, 1849-1900
A study of the foundations of modern British Columbia, beginning with the founding of the colony of Vancouver Island to the emergence of provincial political parties about the end of the 19th century; topics to be considered will include the colonies of Vancouver Island and British Columbia, the gold rush, settlement patterns, the origins of institutional life, Indian policy and Indian-white relations, and early federal-provincial relations.
Note: 130, or 131 and 132, or 354A strongly recommended.

HIST 354C Units: 1.5 Hours: 3-0
Environmental History of British Columbia
Examines the cultural, social and political interactions between humans and the environment in British Columbia from the pre-contact period to the present.
Note: Credit will be granted for only one of 354C, 358 (if taken in the same topic).

HIST 354D Units: 1.5 Hours: 3-0
Cultural Encounters on the Northwest Coast, 1880-1940
Examines the early anthropological quest to document the cultures and languages of the Indigenous Peoples of the North Pacific Coast through artifacts, texts, photographs and museum exhibits.
Notes: - Credit will be granted for only one of 354D, 358 (if taken as “Observers Observed”).
- 130, or 131 and 132, or 354A strongly recommended.

HIST 355 Units: 3.0, formerly 1.5 Hours: 3-0
British Columbia Since 1885
The emphasis will be on social, economic, and political developments within the province. Written assignments will be required.

HIST 357A Units: 1.5 Hours: 3-0
Seminar in Canadian Defence Policy
A study of selected aspects of Canadian defence policy since 1867. Emphasis on the military policies and strategic role of Canada in the 20th century.
Note: 130 or 132 strongly recommended.
HIST 357B Units: 1.5 Hours: 3-0
Seminar in Canadian External Policy
A study of selected aspects of Canadian external policy since 1867, with emphasis on Canada’s position as a middle power.
Note: 130 or 132 strongly recommended.

HIST 358* Units: 1.5 or 3.0 Hours: 3-0
Topics in Canadian History
An intensive study of selected aspects of Canadian history.
A01-Fall: Drink and Social Control in Canada, 1828-1928
A01-Spring: Leisure, Work and War: A Social History of Modern Canada
A02-Fall: Power Protest and Resistance in the 20th Century
A02-Spring: Tragedy and Transformation: Colonial North America, 1500-1800
A03-Fall: Canada, War and Empire
A04-Fall: Hockey Night in Canada: Sports and Canadian Identity
Note: May be taken more than once for credit in different topics with permission of the department.

HIST 358A Units: 1.5 or 3.0 Hours: 3-0
Women in Canada
A history of women in Canada from the era of New France to the present.
Note: Credit will be granted for only one of 358A, 358 (if taken in the same topic).

HIST 358C Units: 1.5 Hours: 3-0
Natives and Newcomers: Historical Encounters in Canada to 1867
An exploration of shifting relations between Aboriginal peoples and settlers from early contacts to 1867.
Note: Credit will be granted for only one of 358C, 358, 359 (if taken in the same topic).

HIST 358D Units: 1.5 Hours: 3-0
Race and Ethnicity in Canada to 1900
An examination of the way race and ethnicity emerged as pivotal fault lines in Canada and in North American society.
Note: Credit will be granted for only one of 358D, 358, 359 (if taken in the same topic).

HIST 358F Units: 1.5 Hours: 3-0
Natives and Newcomers: Historical Encounters in Canada Since 1867
An exploration of shifting relations between Aboriginal peoples and settlers from 1867 to the social and political struggles of the present day.
Note: Credit will be granted for only one of 358F, 358, 359 (if taken in the same topic).

HIST 358G Units: 1.5 Hours: 3-0
Race and Ethnicity in Canada since 1900
A comparative examination of race and ethnicity in Canada and in North American society since 1900.
Note: Credit will be granted for only one of 358G, 358, 358D (1989-2000), 359 (if taken in the same topic).

HIST 359* Units: 1.5 or 3.0 Hours: 3-0
Seminar in Canadian History
Selected topics in Canadian history.
Note: May be taken more than once for credit in different topics with permission of the department.

HIST 360 Units: 1.5 Hours: 3-0
The Renaissance
A study of the conditions, ideas, and people involved in the intellectual quickening that ushered in the early modern period of European history.

HIST 361 Units: 1.5 Hours: 3-0
The Reformation
A history of the people and the political and religious factors involved in the upheavals of the Protestant and Roman Catholic reformations.

HIST 362 Units: 1.5 Hours: 3-0
Europe from Louis XIV to the French Revolution
The Europe of the Ancien Régime of kings and peasants, of dynastic wars and peasant rebellions, and of new thinking in science, society and politics. Topics include: the idea of “absolutism”; social, political and military structures; poverty, living conditions and crime; technology and science; economic changes; the Enlightenment.
Note: Credit will be granted for only one of 362, 388 (if taken in 201001, A01).

HIST 363 Units: 1.5 Hours: 3-0
Revolutionary and Napoleonic Europe, 1789-1815
Examination of French implementation of the ideas and values of the Enlightenment and a study of European reaction to revolutionary change in political and social structures.
Note: 140 recommended.

HIST 364A Units: 1.5 Hours: 3-0
France and International Relations, 1814-1914
A study of France in terms of European Great Power politics and imperialism/colonialism. Particular attention to the relation between foreign affairs and domestic politics.
Note: 140 recommended.

HIST 364B Units: 1.5 Hours: 3-0
France and International Relations, 1914-92
A study of France in terms of European Great Power politics and imperialism/colonialism. Particular attention to the relation between foreign affairs and domestic politics.
Note: 140 recommended.

HIST 365A Units: 1.5 Hours: 3-0
Social and Cultural History of Modern Europe: 1770-1848
An examination of cultural changes in Europe under the impact of the French and industrial revolutions.
Note: 140 strongly recommended.

HIST 365B Units: 1.5 Hours: 3-0
Social, Cultural, and Political History of Modern Europe: 1848-1914
An examination of the cultural preoccupations of bourgeois Europe towards the fin-de-siècle.
Note: 140 strongly recommended.

HIST 366 Units: 1.5 Hours: 3-0
Europe Between Two World Wars
Examination of the impact of the First World War on European society through its effect on the international order and the rise of totalitarian ideologies such as communism and fascism.
Note: 105 or 140 recommended.

HIST 367 Units: 1.5 Hours: 3-0
The Second World War and the Recovery of Western Europe
An examination of the effects of the Second World War on Europe, and the recovery of the Western European states in the postwar period.
Note: 105 or 140 recommended.

HIST 369 Units: 1.5 Hours: 3-0
France from the Renaissance to Louis XIV
France (1500-1715). Culture, religion and state-building are major themes.
Note: 140 strongly recommended.

HIST 370A Units: 1.5 Hours: 3-0
Formerly: 370
Reaction, Reform and Revolution in France, 1814-1914
A study of the dynamic between revolution and reform as France struggled to implement democracy. Political culture, gender relations and social welfare are major themes.
Notes: Credit will be granted for only one of 370A, 370.
- 140 recommended.

HIST 370B Units: 1.5 Hours: 3-0
Formerly: 371
Reaction, Reform and Revolution in France, 1914-1982
A study of the dynamic between revolution and reform as France struggled to implement democracy. Political culture, gender relations and social welfare are major themes.
Notes: Credit will be granted for only one of 370B, 371.
- 140 recommended.

HIST 371A Units: 1.5 Hours: 3-0
Image and Reality: Scandals in France, 1785-1870
A seminar exploring notorious political, economic and sexual scandals and evaluating contemporary values and political accountability.
Note: 363 or 370A recommended.

HIST 371B Units: 1.5 Hours: 3-0
Image and Reality: Scandals in France, 1870-1982
A seminar exploring notorious political, economic and sexual scandals and evaluating contemporary values and political accountability.
Note: 363 or 370A recommended.

HIST 372 Units: 1.5 Hours: 3-0
Imperial Germany
An examination of the principal themes in German history between the formation of the united state in 1871 and the German revolution of 1918-1919.
Note: 140 recommended.

HIST 373 Units: 1.5 Hours: 3-0
Weimar and Nazi Germany
An examination of the principal themes and developments in German history between the end of World War I and the collapse of the Third Reich in 1945.
Note: 105 or 140 recommended.

HIST 374 Units: 1.5 Hours: 3-0
Also: SLST 361
Formerly: SLAV 374
Imperial Russia, 1689-1917
A history of Russian Empire from Peter the Great to the fall of the monarchy. Traces Russia’s response to the challenge of the West, with special attention to political reforms, social transformation and cultural change. Discussion of whether Late Imperial Russia was history’s dead end or a promise cut short by revolutionary violence.
Note: Credit will be granted for only one of 374, SLST 361, SLAV 374. An introductory course in history strongly recommended. No knowledge of Russian required.
**HIST 376** Units: 1.5 or 3.0 Hours: 3-0
Also: SLST 362
Formerly: SLAV 376
**The Soviet Union and its Successor States, 1917-2000**
A history of the Soviet Union and its aftermath. Examines political, economic, social and cultural transformations that shaped the Soviet socialist experiment, as well as the causes of its collapse and the difficulties of post-communist transition in Russia and non-Russian republics. Emphasis on social history, gender and everyday life.

Note: Credit will be granted for only one of 376, SLST 382, SLAV 376. No knowledge of Russian required.

**HIST 377** Units: 1.5 Hours: 3-0
Also: SLST 363
Formerly: SLAV 377
**Modern Ukraine**

Note: Credit will be granted for only one of 377, SLST 383, SLAV 377. No knowledge of Russian required.

**HIST 378** Units: 1.5 Hours: 3-0
**Germany After 1945**
Focuses on political, social and cultural developments in both German states from re-organization of Germany after 1945 through reunification in 1990, particularly on how Germany overcame militarism and authoritarianism to become a stable liberal democracy.

Note: Credit will be granted for only one of 378, 388 (if taken in the same topic).

**HIST 380A** Units: 1.5 or 3.0 Hours: 3-0
Formerly: 380
**Studies in Medieval Europe**
A detailed study of selected problems in the history of Medieval Europe.

Note: Credit will be granted for only one of 380A, 380 if taken in the same topic. May be taken more than once for credit in different topics with permission of the department.

**HIST 380D** Units: 1.5 or 3.0 Hours: 3-0
**Individual, Family and Community in Medieval Society**
A seminar in medieval European social history, concentrating on the role of the individual in society, and especially the place of children, women and the aged in the community. The nature and function of marriage and the family receive particular emphasis.

Note: 236 strongly recommended.

**HIST 380G** Units: 1.5 Hours: 3-0
**Medieval Law and Literacy**
An examination of the history of writing, literacy and literate modes in the European manuscript tradition of law and legal records, from the sixth through the 15th centuries. Emphasis is placed on the central role of law and literacy in the development of societies in the Middle Ages, at the level both of government and of private individuals. Students will work directly with late medieval manuscript records in English.

Note: Credit will be granted for only one of 380G, 380A, F01 (2004-05), MEDI 452 F01 (2004-05).

- 236 strongly recommended.

**HIST 382A** Units: 1.5 Hours: 3-0
Formerly: part of 382
**The Scientific Revolution**
An examination of the rise of the ‘new science’ of the 17th century. Topics include: the interaction between scientific, religious, and philosophical thought; the birth of the experimental method; science and the occult; and the social relations of science.

Note: Credit will be granted for only one of 382A, 382.
- 260 strongly recommended.

**HIST 382B** Units: 1.5 Hours: 3-0
Formerly: part of 382
**The Origins of Modernity**
An examination of the new views of human nature and society which emerged in the 17th century. Topics include: the revival of ancient scepticism; the intellectual implications of European contact with other civilizations; the impact of the ‘new science’ on philosophical thought; the birth of the ‘science of man’; and the critique of orthodox Christianity.

Note: Credit will be granted for only one of 382B, 382.
- 260 and 382A strongly recommended.

**HIST 383A** Units: 1.5 Hours: 3-0
Formerly: part of 383
**The Enlightenment in Britain**
An examination of Enlightenment thought and culture in 18th-century England and Scotland. Topics to be explored include: the rise of political economy; the development of the ‘science of man’; the emergence of philosophical history; and the critique of religion.

Note: Credit will be granted for only one of 383A, 383.
- 260, 382A and/or 382B strongly recommended.

**HIST 383B** Units: 1.5 Hours: 3-0
**The Enlightenment in Europe**
An examination of Enlightenment thought and culture in 18th-century Europe. Topics include: the birth of the ‘science of man’; the social world of the French philosophes; the impact of the South Sea voyages on European conceptions of human nature; the debate over the possibility of human progress; new forms of historical analysis; human sexuality; the rise of Deistic and secular understandings of natural law and morality.

Note: Credit will be granted for only one of 383B, 383.
- 260, 382A and/or 382B, 383A strongly recommended.

**HIST 383C** Units: 1.5 Hours: 3-0
**Topics in Enlightenment Thought and Culture**
An intensive study of selected aspects of Enlightenment thought and culture. Topics may include: the moral, religious and philosophical debates sparked by the rise of commercial capitalism; Enlightenment responses to religion; the social history of Enlightenment; Enlightenment in Scotland.

Note: May be taken more than once for credit in different topics with permission of the department.

**HIST 386** Units: 1.5 Hours: 3-0
**Criminology and Violence in Europe, 1400-1800**
A seminar on criminal justice and cultural dimensions of violence in early modern Europe. Topics will include torture, changing execution rates, gender and the rise of the prison.

Prerequisites: 140 or permission of the department.

**HIST 387** Units: 1.5 Hours: 3-0
**The Holocaust**
Seminar examining the origins, progression, central characters and legacies of the Nazi genocide. Focuses on Jewish experiences of Nazi terror and investigates how Nazi racial policy targeted other social and ethnic groups. Considers the post-1945 representation of the Holocaust in film, museum exhibits and memorials.

Note: Credit will be granted for only one of 387, 389 (if taken in the same topic).

Prerequisites: Third-year standing and one of 140, 366 or 373.

**HIST 388** Units: 1.5 or 3.0 Hours: 3-0
**Topics in European History**
An intensive study of selected aspects of European history. Students are advised to consult the department for an outline of the topics to be considered.

A01-Spring: Immigration and Ethnic Tensions in Post-1945 Europe

Note: May be taken more than once for credit in different topics with permission of the department.

**HIST 389** Units: 1.5 or 3.0 Hours: 3-0
**Seminar in European History**
Selected topics in European history.

A01-Spring: Guilt Loss, Impotence and Dead Cats: Exploring the Cultural History of Early Modern France

Note: May be taken more than once for credit in different topics with permission of the department.

**HIST 390** Units: 3.0 Hours: 3-0
**War in the Modern World, 1755 to the Present**
A survey of European military history since the Seven Years’ War to the present day. It covers the change from the warfare of the early 18th century to the unlimited warfare of the 20th century. Emphasis is placed on the causes of war, the impact of new inventions on tactics and strategy, and the social, political, and economic results of wars on society up to and including the atomic age.

**HIST 391** Units: 1.5 Hours: 3-0
**Historiography of the Second World War**
Seminar examining current historiographical issues of the Second World War.

Note: Credit will be granted for only one of 391, 392 if taken in the same topic. 245 and/or 367 strongly recommended.

**HIST 392** Units: 1.5 or 3.0 Hours: 3-0
**Seminar in the History of the Second World War**
Selected topics in the history of the Second World War.

Note: May be taken more than once for credit in different topics with permission of the department. Open to students with credit in 245.

British Columbia and the American Pacific Northwest
A comparative examination of one or more topics that are representative of the social, political, or economic histories of British Columbia and the American Pacific Northwest.

Note: May be taken more than once for credit in different topics with permission of the department.

HIST 466 Units: 1.5 or 3.0 Hours: 3-0
20th-Century Decolonization in Global Perspective
A comparative treatment of the end of empire. Topics include: changes in conditions globally with special reference to the imperial powers and colonies; strategies of colonial rule; characteristics of distinct independence movements; the superpowers’ roles in decolonization; contrasting transitions to independence.

Note: 105 or 140 recommended.

HIST 468* Units: 1.5 or 3.0 Hours: 3-0
Topics in World and Comparative History
Selected topics in world history and comparative history.

A01-Fall: Pirates and Piracy since 1500
A01-Spring: 20th Century Latin America: A Century of Revolutions and Dictators
A02-Fall: Witchcraft and Its Persecution in the Early Modern Atlantic World
A02-Spring: Secret Life of Empire: Making Diverse Identities in the British World, 1800s-1900
A03-Fall: Colonial Empires: The Long 19th Century
A03-Spring: Global Crises in Historical Perspective

Note: May be taken more than once for credit in different topics with permission of the department.

HIST 469 Units: 1.5 or 3.0 Hours: 0
History of the Modern Olympic Games
Focuses on the Games since 1896, the philosophy of Olympism and the cultural, social, political and economic impact of the Games and their media dimensions.

HIST 470 Units: 1.5 Hours: 3-0
Colonial Spanish America 1492-1767
Spanish America from the Conquest to the Bourbon reforms. Special focus on territorial expansion, indigenous resistance and accommodation, the establishment of the viceroyalties, social diversity, racial intermingling, racism and cultural hybridity.

Note: Credit will be granted for only one of 470, SPAN 484C.

HIST 471 Units: 1.5 Hours: 3-0
From Colony to Republic: Spanish America 1767-1867
Spanish America from the expulsion of the Jesuits to the reestablishment of a republic in Mexico. Special attention to the causes of independence as well as the struggle between liberals and conservatives in the newly-formed nations.

Note: Credit will be granted for only one of 471, SPAN 484D.

HIST 479 Units: 1.5 Hours: 3-0
History of the Modern Olympic Games
Focuses on the Games since 1896, the philosophy of Olympism and the cultural, social, political and economic impact of the Games and their media dimensions.

HIST 480 Units: 3.0 Hours: 3-0
Approaches to History
The history of history and the nature of history as an intellectual discipline.

Prerequisites: Student must be in the Honours program or have permission of the department.

HIST 481 Units: 1.5 or 3.0 Hours: 3-0
Doing Digital History: Creating Microhistories for the Internet
A workshop-oriented introduction to the methodology of microhistory, including an orientation to the different archives in Victoria and a research project based on the history of Victoria in the Vicotian era. Research skills and basic website creation skills will be taught and the final research product will be a website.

Note: Credit will be granted for only one of 481, 358 (if taken in the same topic), 359 (if taken in the same topic). Preference given to students with at least third-year standing or approval of the department. No prior archival research or website creation skills are necessary.

HIST 490 Units: 1.5 or 3.0 Hours: 0
Directed Reading
Students wishing to pursue a course of directed reading should, together with a faculty member willing to supervise such a course, formulate a proposal describing both the content of the course and a suitable means of evaluating the student’s work. The proposal must then receive the approval of the Chair of the department.

Note: Students may take this course normally for a total of 6 units, and not more than 3 units in any given year.

HIST 497 Units: 3.0
Honours Thesis
Under the direction of a member of the department, students will prepare an honours thesis, a research essay normally based on primary sources. After acceptance of the thesis by the supervising faculty member, the student will defend it in an oral examination. The thesis will be 7,500-10,000 words in length unless it is an expansion of a third-year honours essay (398) in which case it will be 15,000-20,000 words in length.

Note: Credit will be granted for only one of 497, 496.

HIST 498 Units: 3.0
Approaches to History
The history of history and the nature of history as an intellectual discipline.

Prerequisites: Student must be in the Honours program or have permission of the department.

Note: Credit will be granted for only one of 481, 358 (if taken in the same topic), 359 (if taken in the same topic). Preference given to students with at least third-year standing or approval of the department. No prior archival research or website creation skills are necessary.

HIST 499 Units: 0
Directed Reading
Students wishing to pursue a course of directed reading should, together with a faculty member willing to supervise such a course, formulate a proposal describing both the content of the course and a suitable means of evaluating the student’s work. The proposal must then receive the approval of the Chair of the department.

Note: Students may take this course normally for a total of 6 units, and not more than 3 units in any given year.

HIST 497 Units: 3.0
Honours Thesis
Under the direction of a member of the department, students will prepare an honours thesis, a research essay normally based on primary sources. After acceptance of the thesis by the supervising faculty member, the student will defend it in an oral examination. The thesis will be 7,500-10,000 words in length unless it is an expansion of a third-year honours essay (398) in which case it will be 15,000-20,000 words in length.

Note: Credit will be granted for only one of 497, 496.

HLTH
Health
School of Public Health and Social Policy
Faculty of Human and Social Development

HLTH 250 Units: 1.5
Current Issues in Health and Community Services
Explores major contemporary issues in Canadian health and social services delivery, using a life course and social determinants perspective. Students will be introduced to a variety of issues in health care and social services, and develop an understanding of different perspectives on complex social issues that are addressed through our health, social and other public and private service delivery systems.

Note: Credit will be granted for only one of HLTH 250, HLTH 480 Current Issues in Health and Community Services.

HLTH 251 Units: 1.5
Healthy Sexuality
Human sexuality is a multi-faceted concept, influenced by biological, cultural, environmental, historical, psychological, and societal contexts. Students will explore the dynamic role sexuality plays in human experience and the mechanisms by which individuals can achieve healthy sexuality. Course readings, assignments and class activities will encourage students to explore the complexities of human sexuality from a number of perspectives.

Note: Credit will be granted for only one of HLTH 251, HSD 460 Healthy Sexuality.

HLTH 300 Units: 1.5
Determinants of Health and Population Health Promotion
Focuses on the history and context of health systems. Students critically examine the Canadian health care system, with some comparative analysis from international and global contexts. The policy context in the evolution of the health care system is examined in the context of health and community. The current system of care is explored including an examination of various aspects of care (e.g. acute, primary, public, private, non-governmental).

HLTH 320 Units: 1.5
Health Program Planning and Project Management
Provides an introduction to health program planning and project management within the health sector. Included in the course is an exploration of health planning within the context of primary health care; health promotion and disease prevention as well as the management of chronic illness. Project planning and management as well as an examination of project cycles; effective project design, implementation and evaluation are explored. Project team building and leadership are examined.

HLTH 321 Units: 1.5
Human Resource and Fiscal Management in Community Health Systems
Human resource and fiscal management within the context of health systems delivery is the focus of this course. Health services planning including human resource planning, recruitment, determination of skills and competencies; staff development and evaluation, conflict management are explored. The financial context of health service delivery and an introduction to the principles and practices of unit based finance and budgeting are explored. Students examine budget funding requests and justifications within the context of proposal development.
HLTH 322 Units: 1.5
Health Systems Navigation and Communication
Health systems navigation and communication is the emphasis of this course. Evidence-based practice and knowledge transfer including the identification, management and implementation of existing and new knowledge is critically examined. Health literacy, the ability to understand and use health related knowledge, is examined. The emerging role of the health systems navigator in coordination of primary and community care will be explored.

HLTH 350 Units: 1.5
Introduction to Critical Appraisal of Health Research
Reviews basic research practices in health research, examines research questions in relation to health, provides an overview of research methodologies and introduces current ethical debates in health research. Epidemiology, including distribution and determinants of disease, surveillance and social epidemiological approaches that focus on complex causation will be emphasized.

HLTH 351 Units: 1.5
Practice of Evaluation Research
This applied course explores the use of evaluation research within health contexts and settings. Evaluation as a systematic approach to assess effectiveness of health care and health care strategies will be examined. Students will acquire skills in the effective utilization of existing health evaluation research as well as in the basic design of evaluation frameworks.

HLTH 360 Units: 1.5
Health Literacy and Self-care
Health literacy in Canada is low and has important implications for peoples’ ability to learn about health, make healthy decisions and play a role in managing their own health conditions. Examines ways to improve the health literacy of Canadians and to improve the health communications skills of health professionals including an examination of the important role of the internet and ways to enhance e-health literacy.

HLTH 401 Units: 1.5
Health Policy and Health Governance
Reviews historical and contemporary health policy as a context for understanding current health governance practices. The role of legislation, governance and regulation as essential strategies to ensure the health of the population will be explicated. The intersections of policy, health law and ethics will be explored.

HLTH 402 Units: 1.5
Health and Community Supportive Technologies
Explores technologies that support people to live in their communities; from the general, such as universal design principles for architecture, ageing-friendly communities, and multi-modal transportation to the specific, such as smart home technologies that adapt quickly to changes in function and communication systems for people with very limited use of hands and limbs. Includes a critical review of various types of health technologies and information systems, their effective use and impact.

Note: Credit will be granted for only one of 402 or HINF 130.

HLTH 403 Units: 1.5
Community Development and Capacity Building
Focuses on developing fundamental knowledge of community engagement, community development, community asset mapping, and capacity building. Connecting, collaborating and advocacy will be explored as foundational skills in the promotion of community well-being.

HLTH 404 Units: 1.5
Inter-Professional Practice
Critically examines the issues inherent in professional practice within the health sector. The emphasis will be on health care ethics as well as inter-professional practice. Benefits and challenges to the enactment of inter-professional teams will be explored. Ethical dilemmas inherent in the delivery of health and community services will be explored using a case-based approach.

HLTH 425 Units: 1.5
Quantitative and Qualitative Methods
Explores applied methods and strategies commonly used in quantitative and qualitative analysis. A range of descriptive and inferential statistical approaches are examined using computer based technology. Qualitative methods of analysis are examined including data coding and thematic analysis.

Note: Credit will be granted for only one of 425 or NURS 425.

HLTH 430 Units: 1.5
Practicum
All degree students are required to complete a 150 hour practicum. This planned, supervised and evaluated experience will usually be completed at the end of the student’s program of study.

Grading: COM, F or N.

HLTH 435 Units: 1.5
Culminating Major Paper
As a culmination of their practice experience students are required to complete a project that demonstrates a synthesis and integration of coursework and other learning experiences.

HLTH 480 Units: 1.5
Special Topics in Health Studies
This is a variable content course focusing on specific interests of students and faculty members in the School of Public Health and Social Policy.

Note: May be taken more than once in different topics for credit in the BA program with prior permission of Advisor.

HLTH 490 Units: 1.5
Directed Readings in Health Studies
Comprises individual studies involving directed readings, projects or special studies under the direction of a faculty member. A proposal is developed in consultation with a faculty member and includes a plan for the evaluation of the student’s work. The proposal must be approved by the Director before students are allowed to register.

Note: May be taken more than once in different topics for credit in the BA program with prior permission of Advisor, to a maximum of 4.5 units.

HSD 390 Units: 1.5 or 3.0
Directed Studies
Individual studies involving directed readings, projects, or special studies under the direction of a faculty member. A proposal is developed in consultation with a faculty member and includes a plan for the evaluation of the student’s work. The proposal must be approved by the Dean before students are allowed to register.

Note: Offered as resources permit. May be taken more than once for credit in different topics.

HSD 400 Units: 1.5
Hours: 3-0
Policy in the Human Services
The objectives of this course are to provide an introduction to the main organizational structures of, and stages in, the social policy making process in Canada; to strengthen skills in the analysis of policies and programs in Canadian human services; to critically examine different ideologies and theories through which the welfare state has been examined in various countries, and to develop an appreciation of the interdisciplinary nature of social policy as a field of academic and applied activity.

HSD 401 Units: 1.5
Hours: 3-0
Women in the Human Services
An opportunity to reflect critically on the experiences of women in their various connections to the human services: as recipients, providers, advocates and policymakers. Explores the social, economic and political influences which have shaped the experiences for diverse groups of women. Attention is given to the gendered aspects of programs and policies in the human services, and to the interconnections between the private and public dimensions of women’s lives.

Note: Course is not currently offered.

HSD 425 Units: 1.5
Qualitative and Quantitative Analysis
Provides students with a grounding in the techniques commonly used in the analysis of both quantitative and qualitative data. Students will engage in the process of qualitative analysis through examining qualitative data, data coding and thematic construction. A range of descriptive and inferential statistical approaches to qualitative analysis are examined using a computer-based system.

Notes: - Course is not currently offered.
- Credit will be granted for only one of 425, NURS 425.
- Normally, this course is available only to students registered in the Schools of Child and Youth Care, Nursing, and Social Work. All students must have basic computing and word processing skills prior to enrolling in the course. Students taking the course off-campus must have access to a computer with a CD-ROM.

HSD 460 Units: 1.5
Hours: 3-0
Topics in Human and Social Development
A variable content course which will focus on current and emerging issues in the human services. Examples of appropriate content include the prevention and treatment of alcohol and drug abuse and cross-cultural issues in the human services.

Note: Restricted to students in the Faculty of Human and Social Development in the third- or fourth-year of study. May be taken more than once for credit to a maximum of 3 credits. Offered as resources permit.

HSD 464 Units: 1.5
Introduction to Disability Studies
A mandatory course for students enrolled in the Child Welfare Specialization and focuses on issues afflicting people with disabilities. Current issues in human rights, ethics, and attitudes about disability are examined within a framework of human rights, citizenship and inclusion. Highlights the skills and knowledge required for anti-ableist practice and includes a critical analysis of theory, policy and practice. Various approaches to the planning and delivery of services are examined with an emphasis on those
approaches that facilitate consumer choice and decision-making.

Notes: - Course is not currently offered.
- Credit will be granted for only one of 464, CYC 364, SOCW 469.

HSD 470 Units: 1.5 Hours: 3-0
Also: CYC 379
Interdisciplinary Perspectives on Sub-Saharan Africa
An overview of key African issues, through presentations by University of Victoria professors with research and development interests in Africa. Topics include: pre-history and paleo-anthropology, literature and the arts, colonial and post-colonial histories, and contemporary issues such as governance, HIV/AIDS and human rights.

Notes: - Credit will be granted for only one of 470, CYC 379.
- Offered as resources permit.

HSD 490 Units: 1.5 or 3.0
Directed Studies
Individual studies involving directed readings, projects, or special studies under the direction of a faculty member. A proposal is developed in consultation with a faculty member and includes a plan for the evaluation of the student's work. The proposal must be approved by the Dean before students are allowed to register.

Note: Offered as resources permit. May be taken more than once for credit in different topics.

HUMA Humanities
Faculty of Humanities

HUMA 010 Units: 0
Diploma Orientation Seminar
This seminar will be taken prior to or in conjunction with Humanities 100 by all students in the Diploma Program.

Grading: COM, INC.

HUMA 100 Units: 1.5 Hours: 3-0
An Introduction to Humanities
An introduction to the various ways in which scholars from different disciplines in the Humanities interpret, analyze and evaluate texts.

Notes: - Credit will be granted for only one of 100, 120.
- 100 is a variable content course and may be taken more than once for credit to a maximum of 3 units.
Restricted to students in the Humanities Diploma Program.

HUMA 120 Units: 3.0 Hours: 2-0-1
Communities of Learning
An introduction to humanistic inquiry that examines the nature, role, and value of the intellectual life from ancient times to the postmodern world. Scholars from a number of disciplines will contribute to the course.

Notes: - Credit will be granted for only one of 120, 100.
- Restricted to first-year students registered in the Faculty of Humanities.

HUMA 150 Units: 1.5 Hours: 1-2
Tools, Techniques, and Culture of the Digital Humanities
A survey of the tools, techniques and culture of humanities computing. Topics include: impact of computing on society and academia; strategies for online research; evaluating digital academic resources; digitizing materials and converting analog materials to digital (text, image, and sound); using communicative, word-processing, spreadsheet, database, and image-, sound-, and text-manipulation software; building websites; the Portfolio system.

HUMA 250 Units: 1.5 Hours: 1-2
Digital Representation and Creation in a Humanities Context
Examines the impact of computing on society and academia, through electronic modelling and creation strategies for materials that comprise the focus of the humanities. Topics include: exploration of the traditions of humanistic representational strategies; implications of modelling/representing this information digitally; basic textual encoding; design and use of relational database systems; use of multimedia tools for creative and representational endeavours; computer-mediated communicative techniques and immersive environments.

Prerequisites: 150 or permission of the Associate Dean of the Faculty of Humanities.

HUMA 350 Units: 1.5 Hours: 1-2
Key Applications: Electronic Publishing and Computer-Assisted Analysis
Examination of key applications for digital humanities work in electronic publishing and the analysis of electronic objects within traditional, and new, frameworks of humanistic inquiry. Topics include: a survey of ways of knowing and ways of expressing knowledge in the humanities; advanced text encoding (TEI-XML); the generation of textual corpora; numerical and graphical analysis with relational databases, spreadsheets, and purpose-built software; and publication tools (such as XSLT) and systems.

Prerequisites: 250 or permission of the Associate Dean of the Faculty of Humanities.

HUMA 450 Units: 1.5 Hours: 1-2
Digital Humanities Project Seminar
Seminar culminating in the completion of a large individual student project integrating digital humanities concerns with those at the core of the student's disciplines. Topics include: implications of a digital approach to disciplinary work; project planning and management; tools and techniques. Meetings also include consultation sessions. Projects are carried out in conjunction with the department of the student's program.

Prerequisites: 350 or permission of the Associate Dean of the Faculty of Humanities.

HUMA 491 Units: 1.5 Hours: 3-0
Directed Studies in Digital Humanities
A directed studies course in an area of the digital humanities. May be combined with curriculum of the student's disciplines. Course is not currently offered.

Note: May be taken more than once for credit in different topics.

Prerequisites: Permission of the Associate Dean of the Faculty of Humanities.

IA Interdisciplinary Arts
Department of Curriculum and Instruction
Faculty of Education

Note: May be taken more than once for credit with permission of the Gustavson School of Business.

IA 400 Units: 1.5 Hours: 3-0
Fine Arts in Education
The nature of the visual and performing arts; the arts in education; commonalities and differences; informed advocacy.

Prerequisites: 3 units from approved Fine Arts or Art Education courses.

IB International Business
Peter B. Gustavson School of Business

Courses offered by the Peter B. Gustavson School of Business are also found under the following course codes: COM (Commerce), ENT (Entrepreneurship), SMGT (Service Management), MBA (Master’s of Business Administration).

IB 218 Units: 1.5
International Field Study
Introduces students to the international business environment. Provides a classroom-based introduction to international business issues and culminates in a short instructor-guided field trip to an offshore locale.

Note: Open only to Business students with second-year standing. Travel fees apply for this course.

IB 301 Units: 1.5 Hours: 3-0
The International Environment of Business
Aspects of the global business environment with emphasis on the reasons for international trade, economic structure of the world marketplace, and the important trading relations among nations.

Note: Not open to students registered in or with credit in COM 361.

Prerequisites: Third-year standing.

IB 405 Units: 1.5 Hours: 3-0
Sustainable Communities
Critically examines the global landscape in which business operates, with attention paid to social, political, economic and cultural issues, and considers the role that might be played by business in developing sustainable local societies.

Note: Credit will be granted for only one of 405, COM 450 (if taken in the same topic).

Prerequisites: 301 or COM 361 and fourth-year standing, or permission of the Program Director.

IB 408 Units: 1.5 Hours: 3-0
International Legal Relations
The legal aspects of various international economic organizations including the World Bank, the International Monetary Fund, and the General Agreement on Tariffs and Trade (GATT). Canadian administrative law aspects relating to regulation of trade will be analyzed in the economic and political setting of the world community.

Prerequisites: 301 or COM 361 and fourth-year standing or permission of the Program Director.

IB 409 Units: 1.5 Hours: 3-0
Selected Topics in International Business Management
An analysis of international business as it relates to specialized fields with specific topics added on a regular basis to reflect changing issues and faculty availability. Topics vary on a yearly basis, and thus students should consult with the Gustavson School of Business for current offerings.

Note: May be taken more than once for credit with permission of the Gustavson School of Business.
Prerequisites: 301 or COM 361 and fourth-year standing or permission of the Program Director.

IB 415 Units: 1.5 Hours: 3-0
Cross-National Management
An analysis of the influence of national culture on managerial practices, including the issues surrounding the transferability of such managerial practices.
Note: Credit will be granted for only one of 415, 302.
Prerequisites: COM 321, 361; or IB 301, COM 220; and fourth-year standing.

IB 416 Units: 1.5 Hours: 3-0
International Marketing
Opportunities, characteristics, and trends in foreign markets as well as strategies and problems of adapting marketing concepts and methods in international settings.
Note: Credit will be granted for only one of 416, 401.
Prerequisites: COM 351, 361; or COM 250, IB 301; and fourth-year standing.

IB 417 Units: 1.5 Hours: 3-0
International Finance
Financial problems of multinational business; international financial environment; long-term capital commitment to an international venture; financial techniques for firm operation.
Note: Credit will be granted for only one of 417, 403.
Prerequisites: COM 371, 361; or COM 240, IB 301; and fourth-year standing.

IB 418 Units: 1.5 Hours: 3-0
International Work Study
A project-based work study carried out for organizations located outside Canada. Students will conduct research and complete projects assigned by the host organization.
Note: Travel fees apply for this course.
Prerequisites: Third-year Commerce core.

IED
Indigenous Education
Faculty of Education
Courses offered by the Faculty of Education are also found under the following course codes: AE, ED-D, ED-P, EDCI, EPHE, IA, IED, IET, ME.

IED 187 Units: 1.5 Hours: 3-0
Special Topics in Indigenous Education
Note: May be taken more than once for credit in different topics with the permission of the program.

IED 199 Units: 1.5 Hours: 3-0
Special Studies in Indigenous Education
Note: May be taken more than once for credit in different topics with the permission of the program.
Grading: COM, N, F.

IED 287 Units: 1.5 Hours: 3-0
Special Topics in Indigenous Education
Note: May be taken more than once for credit in different topics with the permission of the program.

IED 299 Units: 1.5 Hours: 3-0
Special Studies in Indigenous Education
Note: May be taken more than once for credit in different topics with the permission of the program.
Grading: COM, N, F.

IED 371 Units: 1.5 Hours: 3-0
Formerly: EDCI 371, IS 371
The History of Indigenous Education in Canada
A broad overview of the history of First Nations, Métis, and Inuit education in Canada. Various eras in the history of K-12 Indigenous Education in Canada will be examined. Pre-contact forms of Indigenous knowledge and pedagogy are emphasized. The purpose of education from both historical and contemporary Indigenous perspectives will be explored as well as the current situation and future directions in both public schools and Indigenous-controlled schools in BC.
Note: Credit will be granted for only one of 371, EDCI 371, IS 371.
Grading: COM, N, F.

IED 372 Units: 1.5 Hours: 3-0
Formerly: EDCI 372, IS 371
Indigenous Epistemologies
An exploration of Indigenous knowledge and practices of First Nations, Métis, and Inuit people. Discussion topics include: Indigenous worldviews, frameworks, methodologies, and protocols that validate Indigenous ways of being and living, and the appreciation of the mental, spiritual, physical, and emotional aspects of Indigenous knowledge.
Note: Credit will be granted for only one of 372, EDCI 372, IS 372.
Grading: COM, N or F.

IED 373 Units: 1.5 Hours: 3-0
Formerly: EDCI 373, IS 373
EL TELNIWT and Indigenous Education
An exploration of learning and teaching approaches to better address the educational requirements of Indigenous children, youth, and adults through understanding Indigenous peoples’ relationship with land, language, and community. Topics include: study of who Indigenous peoples are, diversity amongst Indigenous peoples, ways to Indigenize the learning and educational environment, and of the systems that impact teachers and learners.
Note: Credit will be granted for only one of 373, EDCI 373, IS 373.

IED 387 Units: 1.5 Hours: 3-0
Special Topics in Indigenous Education
Note: May be taken more than once for credit in different topics with the permission of the program.

IED 399 Units: 1.5 Hours: 3-0
Special Studies in Indigenous Education
Note: May be taken more than once for credit in different topics with the permission of the program.
Grading: COM, N, F.

IED 473 Units: 1.5 Hours: 3-0
CENENITEL TW TOLNEW: Helping each other to learn
Introduction to an Indigenous world of learning and teaching through hands-on practical activities integrated with theoretical and academic goals. Experiences in the principles of traditional Indigenous ways of teaching and learning such as mentorship and apprenticeship. Respectful practice, community engagement and personal responsibility help learners develop insight into Indigenous pedagogy while working alongside community knowledge keepers, elders, and artists.
Note: Credit will be granted for only one of 473, EDCI 473, 487, 499 (if taken on the same topic). May be taken more than once for credit in different topics with the permission of the program.
Grading: COM, N, F.

IED 487 Units: 1.5 Hours: 3-0
Special Topics in Indigenous Education
Note: May be taken more than once for credit in different topics with the permission of the program.

IED 499 Units: 1.5 or 3.0 Hours: 3-0
Professional Development - Indigenous Education
Directed at improving specific teacher and/or administrator competencies.
Note: May be taken more than once for credit in different topics with the permission of the program.
Grading: COM, N, F.

IET
Intercultural Education and Training
Diploma in Intercultural Education and Training
Interdisciplinary Programs
Courses offered by the Faculty of Education are also found under the following course codes: AE, ED-D, ED-P, EDCI, EPHE, IA, IED, IET, ME.

IET 400 Units: 1.5 or 3.0
Practicum in Intercultural Education and Training
Students may choose to undertake a 1.5 or 3.0 unit practicum toward the end of their program. A practicum focuses on an area of professional interest and provides an opportunity to consider intercultural principles and issues in a practical setting. Placements are arranged through the program office with an approved institution or organization. A 1.5 unit practicum consists of at least 50 hours of activity; a 3.0 unit practicum involves a minimum of 100 hours.
Note: May be taken more than once for credit to a maximum of 3 units.
Grading: INP, COM, N, F.

IET 410 Units: 1.5 or 3.0
Final Project in Intercultural Education and Training
Students may choose to undertake a 1.5 or 3.0 unit final project toward the end of the Intercultural Education and Training Program. The final project provides an opportunity to demonstrate knowledge of both theory and practice in a selected area of intercultural studies.
Grading: INP, COM, N, F.

IET 420 Units: 1.5 Hours: 3-0
Topics in Intercultural Education
Selected major topics and issues in intercultural education and training. Students are advised to consult with the Program Office for information on the subject and course schedule.
Note: May be taken more than once for credit in different topics to a maximum of 3 units toward the Diploma in Intercultural Education and Training; open to other students with third- or fourth-year standing.

IET 430 Units: 1.5 Hours: 3-0
Facilitating Intercultural Relationships
Develops a range of interpersonal and organizational skills that build positive intercultural relationships and strengthen communication. Focuses on strategies such as equity policy development, analysis of social justice issues, promotion of anti-racism, facilitation meetings and workshops, dispute resolution, sensitivity building, and advocacy and management of change in intercultural settings.
Course Listings

Indigenous Governance
MA in Indigenous Governance
Faculty of Human and Social Development
Courses offered subject to adequate enrolment.

IGOV 381 Units: 1.5
Indigenous Leadership and Governance
Explores the political, social and intellectual dynamics of leadership in contemporary Indigenous communities. Focuses on locating the current issues and problems within a historical framework of understanding based on colonization. From a perspective rooted in traditional values and a commitment to Indigenous nationhood, considers the organizing processes, goals, structure, culture, and power issues that affect Indigenous peoples' struggle to achieve self-determination.

IGOV 382 Units: 1.5
Indigenous Resurgence
An introduction to the spiritual and cultural foundations of Indigenous governance systems, and an examination of how traditional values, principles and worldviews shape Indigenous thought and action in resistance to colonialism.

IGOV 383 Units: 1.5
The Indigenous-State Relationship
Considers the traditional nature and contemporary evolution of the relationship between Indigenous people and the state in a global context, with a special emphasis on local dynamics and the situation of Indigenous governments in relation to the Canadian federal system. Focuses on contrasting Indigenous perspectives with an understanding of the current status of the relationship in legal, political and economic terms. The various processes and concepts used in the discussion of self-government and self-determination will be examined and compared to Indigenous notions of nationhood, power and justice.

IGOV 384 Units: 1.5-3.0
Special Issues in Indigenous Governance
An opportunity to examine and discuss the most relevant of contemporary issues facing Indigenous peoples.
Note: May be taken more than once for credit in different topics.

IGOV 400 Units: 1.5 Hours: 3-0
Indigenous Research Methods
A perspective on the methods and approaches used in the study of Indigenous issues, providing the basic tools and methods used for conducting applied research, as well as an exploration of the practical, ethical, and political issues involved in conducting research in Indigenous communities.

INGH
Indigenous Health Studies
School of Public Health and Social Policy
Faculty of Human and Social Development

INGH 450 Units: 1.5
Culture and Context of Indigenous Health
Situates the health of Indigenous peoples within a broader global context, with particular emphasis on the diverse Indigenous peoples of Canada. Students will explore a variety of disciplinary and cultural models used in the study of Indigenous health as well as historical and contemporary socio-political structures and systems that influence the health of Indigenous peoples.

INGH 451 Units: 1.5
Indigenous Health Trends and Social Determinants of Health
Employ life-course epidemiological and social determinants models to examine health trends within Indigenous populations. Within a holistic framework of health, students will consider health trends among children, youth, adults and elders within First Nations, Métis and Inuit populations. An integrated model will be used to link social determinants with current Indigenous health trends.

INGH 452 Units: 1.5
Traditional Healing in Indigenous Communities
Explores traditional healing and medicine within Indigenous models of health. Particular emphasis is placed on the role of spirituality and ceremony as well as that of elders and traditional healers. Students will become familiar with the function of natural medicines and healing practices with diverse Indigenous cultures.

INGH 453 Units: 1.5
Wise Practices in Indigenous Community Health
Focuses on population and public health models to examine the current state of Indigenous health policies, programs and services in Canada, with particular emphasis on those that function to improve Indigenous community health. Students will also explore jurisdictional barriers to optimal health as well as community-based interventions that promote health. Within this framework, the concept and utility of cultural safety within mainstream health care systems will be examined.

INGH 454 Units: 1.5
Leadership in First Nation Communities
Focuses on the development of leadership skills through coursework that examines team building, strategic planning, project management, conflict resolution, negotiation and managing change. Students will become familiar with various leadership styles that exist within First Nations governments.

INGH 455 Units: 1.5
Community Development and Capacity Building in First Nation Communities
Focuses on developing fundamental knowledge of First Nations community engagement, community development, community asset mapping and capacity building. Connecting, collaborating and advocacy will be explored as foundational skills in the promotion of First Nations community well-being.

INTS
International Studies
School of Public Health and Social Policy
Faculty of Human and Social Development

INTS 460 Units: 1.5
Foundations in International and Global Health and Human Development
Focuses on the history and context of international and global work in health and human development sectors. Students will critically examine various models and frameworks that have traditionally been used in providing international aid. The impact of colonization and globalization on health and human development will be explored including an examination of factors such as economics, politics, and technology.

INTS 461 Units: 1.5
Engaging in International and Global Health Development Work
Focuses on a critical examination of the relationships between international human rights, socio-cultural contexts and health. Students will be expected to examine their own values, assumptions and motivations when engaging in international and global work. The intent of the course will be to increase students' awareness and abilities to work sensitively within a variety of contexts.

INTS 462 Units: 1.5
Issues and Challenges in International and Global Health Development Studies
Focuses on issues and challenges in international and global work in the fields of health and human development. Using case studies students will critically examine various factors influencing an integrated and sustainable approach to international work promoting health and human development.

INTS 463 Units: 1.5
Special Topics in International and Global Health and Human Development
This is a variable content course that will focus on current and emerging issues in international health and human development.
Note: May be taken more than once for credit in the BA program with prior permission of Advisor.

IS
Indigenous Studies
Program in Indigenous Studies
Interdisciplinary Programs

IS 200 Units: 3.0 Hours: 2-0-1
Introduction to Indigenous Studies
An interdisciplinary, introductory course taught from Indigenous perspectives focused on worldviews, history, land, governance, spirituality and the arts of Indigenous peoples around the world.

IS 310 Units: 1.5 Hours: 4-0
Preparation Seminar for Indigenous Research Apprenticeships and Community Internships
Weekly seminar to provide students with knowledge and skills for working in First Nations communities, Aboriginal organizations, or within campus-based academic research teams through a Research Apprenticeship (320) or Community Internship (321). Includes a basic overview of historical and contemporary issues facing First Nations, Métis and Inuit peoples and an introduction to western and Indigenous research methodologies, and presentations by representatives from First Nations communities, Aboriginal organizations and campus-based researchers.
Note: Credit will be granted for only one of 310, 220. Students must contact the LE NONET Office at 250-472-4287 to discuss their eligibility for the Program.
Prerequisites: Registration is limited to students who have been authorized to participate in the LE NONET Program.

IS 320 Units: 1.5
Indigenous Research Apprenticeship
Students will gain practical experience within a university research setting. In consultation with the Apprenticeship Coordinator, the student will identify an area of research interest and will undertake 200 hours of research under the supervision of a faculty advisor.
member from any department. Students will prepare and submit a final project report.

**Note:** Registration is limited to students in the LE.NONET program.

**Prerequisites:** 220, 310, and permission of instructor.

**Grading:** INP; letter grade.

**IS 321**

Units: 1.5

Indigenous Community Internship

Students will gain practical experience within an Indigenous community or organization setting. In consultation with the Internship Coordinator, the student will identify an area of interest and will undertake 200 hours of research under the supervision of a community advisor from an Indigenous community or organization. Students will prepare and submit a final project report.

**Note:** Registration is limited to students in the LE.NONET program.

**Prerequisites:** 220, 310 and permission of instructor.

**Grading:** INP; letter grade.

**IS 400**

Units: 1.5 Hours: 3-0

Special Topics Seminar in Indigenous Studies

An interdisciplinary investigation of a selected Indigenous subject approached from Indigenous perspectives. Seminar to be taken as capstone course for Indigenous Studies Minor. Variable topics will be traditional and/or contemporary in their focus.

**Note:** May be taken more than once for credit in different topics to a maximum of 3 units with permission of the Director.

**Prerequisites:** 200.

**IS 490**

Units: 1.5

Directed Reading

Students wishing to pursue a course of directed reading should, together with a faculty member willing to supervise such a course, formulate a proposal describing both the content of the course and a suitable means of evaluating the student’s work. The proposal must then receive the approval of the Director of the Program.

**Note:** May be taken more than once for credit in different topics with permission of the program, but only 1.5 units may be counted towards an IS program.

**Prerequisites:** 200 or permission of the program, at least third-year standing.

**ITAL**

**Italian**

Department of Hispanic and Italian Studies

Faculty of Humanities

Native speakers of Italian may not obtain credit for 100- or 200-level courses. A native speaker is defined in this context as a person who has spoken Italian since childhood and/or has received sufficient instruction in the language to be literate in it. The department will assign students with previous knowledge to the appropriate level.

**ITAL 100A**

Units: 1.5 Hours: 3-0

Formerly: first half of 100

Beginners’ Italian I

Focuses on the acquisition of basic skills of pronunciation, reading, writing, and conversation. Includes instruction in essential points of grammar, basic syntax, and vocabulary for daily interaction.

**Note:** Credit will be granted for only one of 100A, 100, 149. Priority will be given to students in first- and second-year.

**ITAL 100B**

Units: 1.5 Hours: 3-0

Formerly: second half of 100

Beginners’ Italian II

A continuation of 100A. Emphasis will continue to be placed on the acquisition of basic skills. Vocabulary and grammatical concepts will be expanded.

**Note:** Credit will be granted for only one of 100B, 100, 149.

**Prerequisites:** 100A or permission of the department.

**ITAL 149**

Units: 3.0 Hours: 6-0

Beginners’ Italian

Intensive Italian language instruction for beginning language students. Equivalent to 100A/100B.

**Note:** Credit will be granted for only one of 149, 100, 100A, 100B.

**ITAL 203**

Units: 1.5 Hours: 3-0

Italy: Fact and Fiction (in English)

Explores the appeal of Italy worldwide by analyzing images of Italian culture in novels, travel writing, journalism, autobiography and films. Italian as well as non-Italian writers and filmmakers to be considered; emphasis on 20th and 21st centuries.

**ITAL 250A**

Units: 1.5 Hours: 3-0

Formerly: first half of 200

Review of Grammar and Conversation I

Intensive review of grammatical concepts and structural patures presented in 100A and 100B and acquisition of composition and translation skills. Readings will be taken from significant Italian authors.

**Note:** Credit will be granted for only one of 250A, 200.

**Prerequisites:** 100B, or 149, or permission of the department.

**ITAL 250B**

Units: 1.5 Hours: 3-0

Formerly: second half of 200

Review of Grammar and Conversation II

A continuation of 250A. Review of grammatical concepts and structures introduced in 100A and 100B as well as on the expansion and consolidation of skills acquired in 250A. Readings will be taken from significant Italian authors.

**Note:** Credit will be granted for only one of 250B, 200.

**Prerequisites:** 250A.

**ITAL 265**

Units: 1.5 Hours: 3-0

Introductory Written Italian

Expands the student’s ability to communicate in Italian in various written forms (compositions, book and film reviews, newspaper articles, creative writing). Explores and uses a variety of texts that will serve as examples for the written assignments.

**Note:** Not open to students with credit in 365.

**Prerequisites:** 250A or permission of the department.

**ITAL 273**

Units: 1.5 Hours: 3-0

Italian Renaissance (in English)

An interdisciplinary approach to the Italian Renaissance, including such key figures as Lorenzo de’Medici, Leonardo da Vinci, Niccolò Machiavelli, Lucrezia Borgia, Michelangelo Buonarroti, and Vittoria Colonna.

**Note:** Credit will be granted for only one of 273, 370B, 473.

**ITAL 279B**

Units: 1.5 Hours: 3-0

Formerly: 479B

The Early Modern Period in Italy (in English)

A study of the culture of Italy in the period 1350-1550. Consideration of the artistic, literary, intellectual, social and political trends of the period.

**Note:** Credit will be granted for only one of 279B, 479B.

**ITAL 470**

Units: 1.5, formerly 3 Hours: 3-0

Formerly: 403

Dante’s Divine Comedy (in English)

A study of all three parts of the Divine Comedy: the Inferno, the Purgatorio, and the Paradiso, and their relationship to Courtly Love, mythology, theology, and medieval thought in general.

**Note:** Credit will be granted for only one of 470, 403.

**Prerequisites:** Second-year standing.

**ITAL 472A**

Units: 1.5 Hours: 3-0

Formerly: half of 472

Boccaccio’s Decameron (in English)

A study of the human comedy Boccaccio creates in his Decameron and its relationship with the changing world of late medieval Italy.

**Note:** Credit will be granted for only one of 472A, 472.

**Prerequisites:** Second-year standing.

**ITAL 472B**

Units: 1.5 Hours: 3-0

Formerly: half of 472

Francis Petrarach: His Life as Literature (in English)

The life of Petrarch seen through his literary works. The primary focus will be on Petrarch’s Canzoniere and his Letters, within the context of political turbulence in Italy and Avignon.
Note: Credit will be granted for only one of 472B, 472.

Prerequisites: Second-year standing.

ITAL 474  Units: 1.5  Hours: 3-0
Formerly: 370D

Italian Comic Theatre
The development of the Italian comedy, from the Mandragola of Niccolò Machiavelli to the comedies of Carlo Goldoni, with particular emphasis given to the influence of the Commedia dell’Arte and of the hedonistic atmosphere of 18th century Venice on Goldoni and the role of women in his comedies.

Note: Credit will be granted for only one of 474, 370D. May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.

Pre-or corequisites: 350 or 351.

ITAL 478  Units: 1.5  Hours: 3-0
Formerly: 370C

Topics in Modern Italian Literature
Major literary works of 20th century Italy. Authors to be studied may include Tozzi, Svevo, Pirandello, Pavese, Moravia, and Maraini.

Note: Credit will be granted for only one of 478, 370C. May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units.

Pre-or corequisites: 350 or 351.

ITAL 479A  Units: 1.5  Hours: 3-0
Also: SPAN 479A

Women in the Hispanic and Italian World
A study of major women authors, characters and themes relevant to women’s issues in Hispanic and Italian literature.

Topic: “Contemporary Women’s Writing for Children”.

Note: Credit will be granted for both 479A and SPAN 479A only if taken in different topics. ITAL 479A may be taken twice in different topics with permission of the department.

Pre-or corequisites: 350 or 351 if given in Italian; second-year standing if given in English.

ITAL 485  Units: 1.5  Hours: 3-1

Topics in Italian Film
An introduction to major accomplishments in Italian film, from the start of the talkies during Fascist times to contemporary cinema with special emphasis on directors such as De Sica, Rossellini, Fellini and Wertmüller. May be given in Italian or English.

Notes: - Students should contact the department to determine the language of instruction.
- May be taken twice for credit in different topics with permission of the department.

Pre-or corequisites: 350 or 351 if given in Italian; second-year standing if given in English.

ITAL 495  Units: 1.5 or 3.0  Hours: 3-0

Directed Reading Course
A specified reading project for fourth-year students to be determined by the student and the instructor, and the Chair of the department; written assignments will be required.

Note: May be taken more than once for credit in different topics with permission of the department.

LAS Latin American Studies
Latin American Studies Program
Faculty of Humanities

The following courses are open to all students: no knowledge of Spanish is required.

LAS 300  Units: 1.5  Hours: 3-0

Special Topics in Latin American Studies (in English)
Offers a multidisciplinary perspective on Latin America by focusing on a particular topic. Students will have the opportunity to pursue a related interest. Readings, discussions, and work submitted will be in English.

Topic: “A Multidisciplinary Study of Community Empowerment”.

Note: May be taken more than once for credit in different topics.

Prerequisites: Second-year standing.

LAS 499  Units: 1.5

Honours Graduating Essay
Directed readings and research for Honours students conducive to writing a research essay of 7,500 to 10,000 words in English or Spanish. This essay can be an expansion of the essay written for LAS 300.

Prerequisites: 499A only if taken in different topics. ITAL 479A may be taken more than once for credit in different topics with permission of the instructor.

Prerequisites: 202 or permission of the department.

LATI Latin
Department of Greek and Roman Studies
Faculty of Humanities

Students without previous knowledge of Latin will register for LATI 101. Those students who have taken high school Latin should consult the department before enrolling in any Latin course. LATI 202 is the prerequisite for LATI 301, 307, 308, 309, 310 and 350, three of which will be offered annually, circumstances permitting. Courses at the 400 level have a prerequisite of at least 3 units of Latin at the 300 level or above, or permission of the department.

Lat 101  Units: 1.5  Hours: 3-1
Formerly: part of 100

Introductory Latin I
No previous knowledge of Latin is required. An introduction to the basic grammatical patterns of the language, reading of simple passages of Latin.

Note: Credit will be granted for only one of 101, 100.

Lat 102  Units: 1.5  Hours: 3-1
Formerly: part of 100

Introductory Latin II
A continuation of 101, completing the survey of basic Latin grammar, and designed to improve students’ ability to read the language.

Note: Credit will be granted for only one of 102, 100.

Prerequisites: 101.

Lat 201  Units: 1.5  Hours: 3-1
Formerly: part of 200

Advanced Latin Grammar
Review of grammar covered in 101 and 102, followed by study of more advanced grammatical constructions. Readings will provide a transition from simplified language to genuine literary Latin.

Note: Credit will be granted for only one of 201, 200.

Prerequisites: 102 or permission of the department.
any of 306, 402, 404, 406, 407, 408, 410 if taken in the same topic.

- May be taken more than once for credit in different topics with permission of the department.

Prerequisites: 3 units of LATI numbered 300 and above or permission of the department.

LAW
Faculty of Law

LAW 100
Units: 3.0
The Constitutional Law Process
The basic framework of the Canadian constitutional system. Illustrates that the constitution is the skeletal framework within which the legal system functions. The function of a constitution, the main characteristics of constitutions and Constitutional Law, entrenchment, amendment, the nature and structure of the BNA Act, the division of powers, concurrency in a federal state, the sources of Canadian Constitutional Law, executive power, legislative authority, delegation, the role of the judiciary, civil liberties, developing issues in Constitutional Law.

Note: Full year course: 75 hours.

LAW 102
Units: 2.0
The Criminal Law Process
An introduction to Criminal Law and its process as a means of sanctioning prohibited conduct. Attention is directed to the following matters:
1. The reporting of crime including some discussion of the common characteristics of offenders and offences.
2. The role of the police and the prosecutor in the pretrial portion of the process including such matters as arrest, search and seizure, and the discovery of evidence.
3. The aims and purposes of the Criminal Law and the role of the lawyer in the Criminal Law process.
4. The substantive Criminal Law including the ingredients of criminal offences and the application of the various defences which are available.
5. Theories of punishment and practices of dispossession and sentencing of offenders.

Note: Full year course: 60 hours.

LAW 104
Units: 1.5
Law, Legislation and Policy
Considers the development and interpretation of legislation. The former includes an introduction to institutions, players and procedures involved in the creation and enactment of legislation. The second and the most significant part of the course involves an examination of judicial approaches to interpretation of statutes and subordinate legislation including principles and presumptions of legislative interpretation and judicial challenges to the validity of subordinate legislation.

LAW 106
Units: 1.0
The Legal Process
The Legal Process seeks a perspective of the processes of decision making throughout the legal system by examining its major institutions and the function of substantive and procedural law within them. Attempts to provide first-year students with a transactional "overview" of their new discipline in its totality. Provides a background for courses in the second- and third-year program. Introduces students to the institutional structure of the Canadian legal system and, at the same time, provides an analysis of the role of law in society. Presents a variety of components, namely historical, institutional, procedural and philosophical. Topics include the role of law in society, the function of the legal profession, the development of the legal system, the reception of English Law in Canada, the contemporary legal system in British Columbia, the structure of the courts, problems of fact finding and evidence stare decisis, sources of law, the legislative process, administrative tribunals, an introduction to jurisprudential concepts, future trends with respect to the role of law in society, including law reform, legal services, the legal profession, access to the law.

Note: Full year course: 30 hours.

Grading: COM, N, F.

LAW 108A
Units: 2.0
Contracts
An introduction to the legal principles regarding the enforcement of promises. Focuses on the development of common law rules regarding formation of contract, third parties, interpretation and the scope of contractual obligations, control of contractual power, mistake, frustration and remedies for breach.

Note: Full year course: 60 hours.

LAW 108B
Units: 2.0
Property
Examines the concept of "property", legally categorized as real, personal and aboriginal in the context of common law and equity inherited from England and (for aboriginal property) section 35 of the Constitution Act, 1982. Considers selected features of provincial legislation pertaining to non-aboriginal property. Tangible and intangible interests may be included with respect to both realty (land) and personalty, including doctrine of estates (present and future), bailment, finders, and gifts.

Note: Full year course: 60 hours.

LAW 108C
Units: 2.0
Torts
Examines legal principles that govern the ascription of civil liability for interference with legally protected interests of others. Canvasses protection of bodily space, emotional distress, economic and proprietary interests through specific causes of actions such as trespass, negligence, liability of public authorities, vicarious liability and nuisance.

Note: Full year course: 60 hours.

LAW 110
Units: 1.5
Legal Research and Writing
Acquaints the first-year student with the variety of materials in the Law Library and provides a knowledge of legal research techniques. The use of various research tools, including the computer, is considered. Through a variety of written assignments, students will become familiar with accepted principles pertaining to proper citation in legal writing and will develop a degree of proficiency in legal writing and research.

Note: Full year course: 45 hours.

LAW 301
Units: 2.0
The Administrative Law Process
An investigation of the nature and function of the administrative process with particular reference to the development of tribunals and agencies with a wide variety of disparate functions and interactions with private life. Similarly, investigates the way in which tribunals and courts interact, with specific reference to the judicial arsenal available for the control of administrative behaviour.

LAW 302
Units: 1.5
Criminal Law II
Builds naturally upon the first-year course in the Criminal Law Process with specific reference to defences and offences. In-depth study of such matters as conspiracy, attempts, counselling, as well as the substantive offences of homicide, fraud, and contempt of court. Major defences, including double jeopardy, insanity, automatism and self-defence will be scrutinized.

LAW 303
Units: 1.5
Criminal Procedure
The criminal law is highly procedural in nature; it is frequently in this realm that cases are lost or won. Focus is on the strategy and tactics of criminal procedure, and with its underlying values and goals. Topics considered include arrest and detention, search and seizure, jurisdiction, elections, pretrial motions, jury trials and ethics. Particular attention is paid to how both the Charter of Rights and Freedoms and Parliament continue to reshape this evolving area of law.

LAW 304
Units: 3.0-7.5
Criminal Law Term
Provides students with a comprehensive understanding of the criminal process from its inception through the trial process and the corrections system. An intensive immersion program which will consider criminal procedure, sentencing and corrections, substantive criminal law, trial process and the law of evidence. Through a flexibly-designed program, students will consider all the major issues confronting the administration of criminal law.

Note: Only part-time students may enrol for less than 5.5 units. Part-time students are required to consult with the professor before registration in LAW 304 in order to make necessary accommodation arrangements and they are encouraged to complete LAW 302 Criminal Law II and LAW 303 Criminal Procedure before enrolment in LAW 304.

Prerequisites: 309.

LAW 305
Units: 1.5
Law, Theory and Practices of Sentencing
Introduces students to the law, theory and practices of sentencing. Provides a brief overview of the historical development of punishment and sentencing, followed by an analysis of the theoretical basis for understanding the aims, purposes and justifications for punishment. Involves a detailed examination of the various sentencing options and the basic principles and rules of sentencing, including the rules governing sentencing hearings.

LAW 307
Units: 1.5 or 2.0
Civil Procedure
An inquiry into the functions of a modern procedural system with specific reference to the development of a process which considers the extent to which the specific system under study aids in the achievement of just, speedy and economic resolutions of justiciable conflicts on their merits. Students will be introduced to the basic structure of a civil action and major items for consideration throughout the development of civil litigation. In the result, such matters as the expenses of litigation, jurisdiction, initial process, pleadings, amendment, joinder, discovery, disposition without trial and alternatives to adjudication will be discussed.

LAW 307B
Concentration in Drafting
Note: 1.5 units or 2 units depending upon whether the course includes a concentration in drafting.

acquire an overview of recent developments and debates within this area. Topics addressed include federalism and the environment, common law rights and remedies, public participation and judicial review, market mechanisms for environmental protection, endangered species, and trade and the environment. A key focus concerns the extent to which environmental law reflects, or fails to reflect, evolving social and other values.

**LAW 330** Units: 1.5 Hours: 3-0

**International Law**

Public International Law is concerned with the legal relations of states and the individuals who compose them. Explores the way in which sovereign powers choose to govern their interrelationships and analyzes problems which confront them. Topics will include an examination of the international legal system, modes of international law creation and law enforcement as well as the process of international adjudication.

**LAW 331** Units: 1.0 or 1.5 Hours: 2-0 or 3-0

**International Ocean Law**

Introduction to UN Convention on the Law of the Sea as a “constitution of the seas.” Canadian perspective of how States regulate, enforce and manage uses of the oceans, including vessel navigation, marine resource exploitation and conservation. Contemporary topics include piracy, high seas drift net fishing, the Northwest Passage and the “Line of Death.”

**LAW 332** Units: 1.5 Hours: 3-0

**International Trade Law**

Explores the major legal and policy aspects of the international trade regime in which the Canadian economy operates. Emphasis is upon core principles of international economic law applicable to the regulation of international trade. Particular attention is paid to the World Trade Organization and Canada’s free trade agreements.

**LAW 333** Units: 1.5 Hours: 3-0

**Social Welfare Law**

Helps students develop an understanding of the role of law, lawyers, and the legal system in addressing the problem of economic disadvantage. Topics include the origin and development of the Canadian welfare state, case studies of the issues of work, housing and income security, and the practice of poverty law as a strategy for change.

**LAW 336** Units: 1.0 or 1.5 Hours: 2-0 or 3-0

**Collective Agreements: Negotiation and Arbitration**

A study of the negotiation and administration of collective agreements in the private sector. Topics will include labor negotiation theory, bargaining structure, grievance resolution, contract interpretation, individual rights and the role of the Labour Relations Board.

Prerequisites: 326B.

**LAW 337** Units: 1.0 or 1.5 Hours: 2-0 or 3-0

**Dispute Resolution: Theory and Practice**

Examines the forms and functions of major dispute processes - mediation, negotiation and adjudication. These are the processes which are critical to lawyers and other persons concerned with preventing or resolving disputes. Both court adjudication and alternative dispute resolution (ADR) will be studied from theoretical, critical and practical perspectives. Examines and develops the skills used in various dispute resolution procedures.

**LAW 338** Units: 1.5 Hours: 3-0

**Mediation and Lawyers**

An in-depth and critical examination of the use of the mediation process to resolve a wide variety of substantive disputes involving business, family, criminal, environmental, international, and public policy issues. Provides students with an opportunity to review and evaluate contemporary perspectives on the mediation process and to develop skills that successful mediators employ in helping parties resolve their disputes. Builds on the concepts studied in LAW 337.

Prerequisites: 337.

**LAW 339** Units: 1.5 Hours: 3-0

**Legal Theory Workshop**

An exploration of the interdisciplinary nature of legal studies, considering the contributions of 20th century social theory to legal thought. Topics include analyses of law and legal systems from sociological, economic and philosophical perspectives.

**LAW 340** Units: 1.5 Hours: 3-0

**Indigenous Lands, Rights and Governance**

The major legal issues concerning Indigenous peoples (Indian, Inuit and Métis) in Canada. Explores the development of Canadian case law relative to these groups and its simultaneous preservation and dispossession of Indigenous people’s rights. Comparisons will be drawn from other countries dealing with Indigenous Rights. Examines aspects of legal pluralism, and assesses a variety of normative and political justifications for aboriginal rights.

**LAW 341** Units: 1.5 Hours: 3-0

**Historical Foundations of Aboriginal Title and Government**

An introduction to the issues of aboriginal title and self-government in their historical context. The focus is upon common law, constitutional and statutory law in relation to aboriginal title and rights, but reference is also made to the treaty process, reserve lands and hunting and fishing. Although the course deals with all parts of Canada, the emphasis is upon British Columbia.

**LAW 342** Units: 1.5 Hours: 3-0

**Immigration and Citizenship Law**

The laws regulating the admission and removal of foreign nationals to and from Canada; gaining access to Canada permanently - family class, skilled workers, business classes, humanitarian classes; the various Provincial Nominee Programs and the Canada-Québec Accord; temporary admission as a visitor or student and temporary worker; the impact of NAFTA; the processes for excluding and removing foreign nationals on grounds of health, security or criminality; the procedural and substantive criteria that determine citizenship.

**LAW 343** Units: 0.5-2.0 Hours: 1.0-4.0

**Contemporary Issues in Law**

Contemporary and problematic legal issues will be examined in the light of existing legal rules, social and related implications, the legal process, and possible reform.

Note: Unit value may vary from 0.5 to 2 units per term. May be taken more than once for credit.

**LAW 344** Units: 1.5 Hours: 3-0

**Insurance Law**

The theory and elements of the practice of insurance law, with reference to the most common forms of both first party and third party insurance: property, life and motor vehicle insurance.

**LAW 345** Units: 2.0 Hours: 4-0

**Taxation**

The basic principles of income tax law including such issues as taxable income, residence income from employment, business or property, and capital gains. Deals in a general way with policy underlying certain aspects of the Income Tax Act and provides an introduction to certain specific provisions of that Act, concentrating primarily on personal income tax law.

**LAW 346A** Units: 1.0 or 1.5 Hours: 2-0 or 3-0

Advanced Taxation: Corporations

Builds upon the concepts studied in Taxation (345) and is concerned primarily with the Canadian income tax treatment of Canadian corporations and their shareholders.

Note: Credit will be granted for only one of 346A, 346.

Prerequisites: 315, 345.

**LAW 346B** Units: 1.0 or 1.5 Hours: 2-0 or 3-0

Advanced Taxation: International Taxation

Builds upon the concepts studied in Taxation (345) and is concerned primarily with the international tax system as it functions in respect of Canadian income tax treatment of non-residents (both individuals and corporations) on Canadian source income and tax treatment of foreign source income of Canadian residents. Includes the study of Canada’s tax treaties, taxation of Canadian corporations on income of foreign subsidiaries and branches, and other aspects of international taxation.

Prerequisites: 345.

**LAW 347** Units: 1.5 Hours: 3-0

**Intellectual Property**

A study of the concept of intellectual property and the principles and policies of selected areas of intellectual property law, primarily: (a) registered trade marks and related common law provisions and (b) copyright in its categories of “literary,” “dramatic,” “musical,” and “artistic” works and with a focus upon new technologies such as photocopying, videotaping and computer programming. Includes a brief introduction to the law and policies of patents, industrial designs and confidential information. Where appropriate, attention is drawn to the interrelationship and boundary issues between the categories that together comprise the subject of intellectual property.

**LAW 348** Units: 1.5 Hours: 3-0

**Managing Intellectual Property**

A consideration of legal and business strategies in protecting, managing and marketing of technologies of global significance under the rubric of intellectual property. Primary attention is given to computer software in the context of patent, copyright and trade secret law, including confidentiality and non-competition agreements in the market place. General patent law and its application to pharmaceutical and biotechnological commodities is included.

**LAW 349** Units: 1.5-3.0 Hours: 3-0

**Business Law Clinic**

Using a clinical approach, students will apply knowledge gained in LAW 315 Business Associations as they assist small business owners and those who are considering going into business to assess their legal requirements. By working with the Clinic Counsel and with the mentors from the Victoria Bar, students develop practical legal skills and examine the role of the legal profession in the small business environment.

Note: May be taken twice for credit to a maximum of 3.0 units with the prior approval of the Associate Dean Academic and Student Relations and the instructor.

**Comprehensive Assessment:**
- Comprises a project, and a written examination or essay based on the major written product prepared for the designated clinic client.

**Course Description:**
- LAW 350: Clinical Term
  - Clinical legal education is predicated upon the assumption of a recognized role within the legal system by the law student. The experience gained from the participation in the role becomes the focus for reflection and examinations of substantive legal rules, procedural and strategic positions, and introspective critical analysis of the role of the lawyer in the legal process. This requires a carefully supervised program with manifold opportunities for one to one instructor student supervision and regular group sessions. Programs envisaged would take place in a community law office.
  - LAW 353A: Community Law-Legal Aid Clinic
    - Only part-time students may enrol for less than 7.5 units. Part-time students are required to consult with the professor before registering for LAW 350 in order to make necessary accommodation arrangements.
  - LAW 352: Exchange Law Term
    - With the permission of the Dean, or his or her designee, the Faculty of Law has entered into an exchange program or agreement with another law faculty in Canada or elsewhere, a student may be allowed to enrol in this term, for up to 8 units towards his or her LLB degree at the University of Victoria.

**Course Content:**
- LAW 350: Clinical Term
  - The terms and conditions of a student’s enrolment in an exchange term, the number of credits for which the student may be enrolled, and the requirements for successful completion of term are governed by the regulations adopted by the Faculty for this program.

**Learning Outcomes:**
- Students are required to enrol in this course twice, in both fall and spring terms of a single academic year.

**Priorities:**
- Legal Ethics and Professionalism
  - Examines ethical and professional dimensions of the practice of law in Canada and other jurisdictions including the meanings of ethics and the nature of professionalism. Covers the knowledge and skills needed to identify and address ethical dilemmas arising in a legal context. Considers topics such as the nature and scope of a lawyer’s duties; admission to, governance of, and critical issues affecting the legal profession; critical thinking about legal ethics and professionalism.

**Final Exam:**
- The development of English legal systems have had a profound impact on Canada as well. Beginning with 11th century European developments, considers a number of topics, such as Anglo-Saxon England and the Norman Conquest, the development of common law and equity, criminal law and 19th century developments, ending with some analysis of the “reception of English law in the colonies.”
### LAW 366 Units: 1.0 or 1.5 Hours: 2-0 or 3-0

**Patent Law**
A study of the principles and practical implications of patent protection in Canada. Discussions will include the fundamental concepts of patentability, validity, infringement and commercial exploitation of patentable technology, ultimately leading to a focus on the Canadian patent growth area of pharmaceutical and biotechnological product and process protection. There will also be a brief comparative view of the United States' and Japanese systems in contrast to the Canadian patent system.

### LAW 367 Units: 1.5 Hours: 3-0

**Telecommunications, Entertainment and Media**
A consideration of Canadian telecommunications, entertainment and media law and policy including constitutional and regulatory issues from historical and current perspectives. A number of selected topics will be examined including the convergence of the traditionally distinct “broadcast” and “non-broadcast” functions with each other and with the Internet, promotion of competition as opposed to regulation, the relationship with international trade and globalization and the application of intellectual property, particularly copyright, to the media of communication.

### LAW 368 Units: 1.5 Hours: 3-0

**Indigenous Women and the Law**
Examines the unique historical and contemporary place of Indigenous women within the constructs of Canadian law and society. Takes an interdisciplinary approach. Topics canvassed are marital property, colonialism, government, membership, human rights, criminal justice, sexuality, employment and children.

### LAW 369 Units: 1.5 Hours: 3-0

**Feminist Legal Theories**
Explores critiques of law and legal reasoning from several feminist perspectives. Topics include feminist critiques of liberal legal theory, anti-racist feminism and legal analysis, feminist epistemologies and legal reasoning, and feminist theories regarding women’s relationships to law and to the state.

### LAW 370 Units: 1.5 Hours: 3-0

**Law and Society in Southeast Asia**
Introduces, in comparative and socio-legal perspective, the laws and legal systems of SE Asia. The main emphasis is on Indonesia, Malaysia, Singapore, Thailand and Vietnam. Deals comparatively with the principal legal issues of interest in the region, namely legal sources, traditions and institutions; legal pluralism and family law; constitutional reform; and the use of law for economic development.

### LAW 371 Units: 1.5 Hours: 3-0

**Global Issues**
Designed to help students develop an understanding of what constitutes a global issue, and how such issues change the nature of state borders. Examines the interrelationships between, and the global significance of, such subjects as democracy, human rights, the rule of law, peace, environmental integrity, trade, economic development and human security. 

**Note:** Open to Law and eligible Dispute Resolution Program students.

### LAW 372 Units: 1.5 Hours: 3-0

**Public Policy, Law and Dispute Resolution**
Examines a range of issues of governance and justice. Focuses on the interaction of political, legal and administrative institutions and processes as they respond to such pressures as the demand for enhanced representation, public participation and direct democracy, access to justice and alternative dispute resolution, aboriginal self-government, fiscal restraint, public accountability and ethics.

**Note:** Credit will be granted for only one of 372, DR 503.

### LAW 373 Units: 1.5 Hours: 3-0

**International Human Rights and Dispute Resolution**
Examines linkages between international human rights law, conflict analysis and dispute resolution. Participants explore literature from several disciplines including international law, history, philosophy, anthropology, political science and conflict studies. United Nations, regional and national human rights instruments and mechanisms are examined for their efficacy in human rights protection. Concerns of individuals, including women and children, non-state groups and indigenous peoples are addressed. Students develop skills in human rights analysis, advocacy and dialogue.

**Note:** Credit will be granted for only one of 373, DR 507.

### LAW 374 Units: 1.5 Hours: 3-0

**Law of the European Union**
Introduces students to the legal system of the European Union, the law making and judicial process, and a number of discrete areas where European Union law is particularly advanced, including external relations, competition, human and social rights, environment, law, and the management of goods and services, capital and persons. While historical and political context will be reviewed, emphasis will be on the founding Treaties, legal structure and instruments, case law, and process.

### LAW 375 Units: 1.5 Hours: 3-0

**Law, Constitutionalism and Cultural Difference**
Explores the justifications and institutional options for cultural accommodation in law, legal interpretation, and constitutional structure. Theoretical arguments for and against cultural accommodation, and an examination of how those arguments might be translated into institutional form will be considered. Contexts include the constitutions of culturally diverse societies, Indigenous self-government, separate schools, and the international protection of human rights.

### LAW 376 Units: 1.5 Hours: 3-0

**International Environmental Law**
Develops a practical and theoretical understanding of the development and current state of international environmental law (IEL). Treats IEL as a diverse form of regime-based global governance that embodies both regulations and a complex array of institutional arrangements. Provides a general background to the field, an understanding of diverse sectoral regimes, and a theoretical approach that can inform and crosscut these regimes.

### LAW 377 Units: 1.5 Hours: 3-0

**International Arbitration**
Introduces students to international arbitration, including arbitral agreements, applicable law, the enforcement of arbitral awards and arbitrations involving state parties. Particular attention is paid to investment treaty arbitration and the role international arbitration plays in the process of globalization.

### LAW 378 Units: 1.5 Hours: 3-0

**Equality, Human Rights, and Social Justice Law**
Examines the role of law and of legal conceptions of equality in struggles by equity seeking groups and individuals for social justice in Canada. Topics covered include the relation of social movements to law and social change. Charter equality rights and strategic litigation, the institutional and jurisprudential frameworks of domestic human rights law, and critical theoretical debates pertaining to anti-discrimination law.

### LAW 379 Units: 1.5 Hours: 3-0

**Law and Religion**
Explores historical, contemporary, and conceptual relationships between law and religion. Takes an interdisciplinary approach, engaging legal, theoretical, and historical sources. Considers topics such as the role of religion in the development of the Western legal tradition, constitutional protection of religion, religion and equality, religion and legal pluralism, religion and public decision-making, and contemporary controversies in law and religion. Primary focus on Canadian legislation with some attention to other national traditions and international issues.

**Note:** Credit will be granted for only one of 379, 343 if taken in the same topic.

### LAW 380 Units: 1.5 Hours: 3-0

**Bioethics, Personhood and the Law**
Introduction to posthumanist studies and their legal applications. Canvasses multiple theoretical approaches supporting animal advocacy and investigates their application to a number of current legal and cultural controversies regarding human-animal relations. Examines the cultural meanings of the terms “human”, “animal” and “species”. Links with differences such as race, gender, culture and class are explored. Current legal proposals to change animals’ property status also considered.

**Note:** Credit will be granted for only one of 380, 343 if taken in the same topic.

### LAW 381 Units: 1.5 Hours: 3-0

**Animals, Culture and the Law**
Introduction to posthumanist studies and their legal applications. Canvasses multiple theoretical approaches supporting animal advocacy and investi- gates their application to a number of current legal and cultural controversies regarding human-animal relations. Examines the cultural meanings of the terms “human”, “animal” and “species”. Links with differences such as race, gender, culture and class are explored. Current legal proposals to change animals’ property status also considered.

**Note:** Credit will be granted for only one of 381, 343 if taken in the same topic.

### LAW 382 Units: 1.5 Hours: 3-0

**Pension Law and Policy**
Introduction to Canadian pension law and policy. Explores the pension system, its historical development and the regulatory schemes that govern it. Canvasses influence of demographics, the changing labour market, privatization, neo-liberalism and globalization on pension coverage and inclusion. Considers law reform and policy debates.

**Note:** Credit will be granted for only one of 382, 343 if taken in the same topic.

### LAW 383 Units: 1.5 Hours: 3-0

**Municipal Law and Sustainability**
Introduction to the principles of municipal law in Canada, including judicial review, service and regulatory powers, taxation, and public liability. Particular attention will be given to land use planning and its role in community sustainability.

**Note:** Credit will be granted for only one of 383, 343 if taken in the same topic.

### LAW 384 Units: 1.5 Hours: 3-0

**Field Course in Environmental Law and Sustainability**
Analyzes the structure of law, policy, and sustainability in a particular geographic region. Review of over-
lapping jurisdictional and governance systems that shape a region.

Notes: - Credit will be granted for only one of 384, 343 if taken in the same topic, ES 403
- Undergraduate course in Law and Environmental Studies offered by the Faculty of Law and School of Environmental Studies in the Faculty of Social Sciences

LAW 385 Units: 1.0 or 1.5 Hours: 2-0 or 3-0
Comparative Copyright Law
Analyze copyright law and policy in the United States and Canada. Comparison is also made between “copyright” in Anglo-American common law jurisdictions and droit d’auteur (“author’s rights”) in civil law jurisdictions, with France as the example. Legal theories and the relationship of both systems with “traditional knowledge” or cultural property are considered.

Note: Credit will be granted for only one of 385, 343 if taken in the same topic.

LAW 388 Units: 1.5 Hours: 3-0
Advanced Legal Research and Writing
Builds upon the research and writing skills learned in the first year. Students will explore a wide range of research sources, both legal and nonlegal, including computer-assisted legal research. Students will analyze various types of legal writing. The importance of context, organization and audience in legal writing will be stressed. Parts, sections or clauses of written documents will be analyzed, evaluated, criticized, edited and rewritten to improve and develop the students’ analytical and writing skills.

LAW 389 Units: 1.0-2.0
Appeal - Review of Current Law and Law Reform
Uvic Law's legal journal offers students the opportunity to participate, as members of the editorial board, in the production of a legal review. Students involved are responsible for running all aspects of the journal. In addition, each student is to prepare and submit a paper for possible publication. The editorial board is chosen by a committee. Applications for editorial board membership are accepted during the spring ballot period. Despite the absence of formal prerequisites, Appeal encourages interested students in their first year to become involved with the journal through volunteer work.

Note: With the approval of the Dean or the Dean’s nominee: (1) a student may be given credit for this course twice to a maximum of 4 units, and (2) in exceptional circumstances the course may be taken for only 1 unit. Maximum enrolment: 10.

Grading: COM, N, F.

LAW 390 Units: 0
Major Paper Requirement
In order to complete the Major Research Paper requirement for the LLB degree, a student must enrol in LAW 390 and must obtain (written) permission of a full-time faculty member who has agreed to supervise the student’s Major Research Paper in the context of an existing course within the Faculty. The grade assigned to the Major Research Paper will be the grade of record for LAW 390. However, LAW 390 is a non-credit course. Credit for the Major Research Paper is given only in the context of the course in which the Major Research Paper is completed.

LAW 391 Units: 1.0-2.0 Hours: 2-0-4.0
Supervised Group Project
Upper-year students may undertake a program of supervised group study as a basis for working through some common interest in law. Groups will ordinarily have a maximum of twelve members. They will be formed on the students’ initiative but will require the agreement of a faculty member to act as the project supervisor. Students who are contemplating the formation of a group are responsible for designing a project proposal and securing a faculty supervisor. They should discuss their plans with the Dean or Associate Dean as early as possible in the academic year prior to the year in which the project will be undertaken so that the necessary planning can be done and approval secured. All group projects require the written approval of the Dean and may be allowed to extend over two terms. In exceptional circumstances and with the written approval of the Dean, group members may enrol in the course for differing credit values depending on the level of their participation in the project provided that the unit value for each student is determined prior to his or her enrolment in the course.

Note: May be taken more than once for credit to a maximum of 4 units with permission of the Associate Dean.

LAW 399 Units: 1.0-4.0
Supervised Research and Writing
During either of the second or third years of a student’s program, a student may undertake a substantial research and writing project on a legal subject approved by a member of the Faculty of Law who agrees to supervise the project. With the approval of the Dean or the Dean’s nominee: (1) a student may be awarded credit for two separate supervised research papers provided that the total credit does not exceed 4 units and each paper is started and completed in separate terms; (2) this course may be extended over two terms; and (3) this course is to be taken for 1 unit only.

LING 110 Units: 1.5 Hours: 3-0
Language and Thought
Does the language we speak control or influence the way we think? Explores the nature and origins of language; the psycholinguistic evidence for relationships between cognitive and linguistic structures; possible interactions between language processes and thought processes; the role of perceptual categories and folk science in cognitive mapping.

LING 158 Units: 1.5
Indigenous Language Mentorship I
A 100-hour mentorship with a fluent speaker or speakers to build oral fluency in an Indigenous language at the introductory level.

Note: May be taken more than once for credit with permission of the Academic Adviser of the Certificate Program in Aboriginal Language Revitalization.

- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization, or the Certificate Program in Aboriginal Language Revitalization.
- May not be counted toward any degree program in Linguistics or Applied Linguistics, or a Diploma in Applied Linguistics.
- Satisfies the second language requirement of the BA in Applied Linguistics.
- Subject to the “ Guidelines for Ethical Conduct” and “Regulations Concerning Practice”.

Prerequisites: Permission of the Academic Adviser of the Certificate Program in Aboriginal Language Revitalization.

Grading: INP, COM, N, F.

LING 159 Units: 1.5 Hours: 3-0
Indigenous Language I
Teaching and learning of an Indigenous language at the first-year level.

Note: - May be taken more than once for credit with permission of the Academic Adviser of the Certificate Program in Aboriginal Language Revitalization.
- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization, or the Certificate Program in Aboriginal Language Revitalization.
- May not be counted toward any degree program in Linguistics or Applied Linguistics, or a Diploma in Applied Linguistics.
- Satisfies the second language requirement of the BA in Applied Linguistics.

Grading: INP, COM, N, F.

LING 172 Units: 1.5 Hours: 3-0
Introduction to the Languages of British Columbia
An examination of the Indigenous languages of British Columbia, focusing on unique features. Also considers techniques for language study from written materials and with elders, and the revitalization of local languages.

Note: Credit will be granted for only one of 100A, 100, 360, 362.

Grading: INP, COM, N, F.

LING 180A Units: 1.5
Formerly: half of 180
Introduction to Linguistics I
An introduction to the subject matter of language and linguistics. Topics studied will include the nature of language through an overview of sound systems, word structures, writing systems, meaning and lexical sets and sentence structure.

Note: Credit will be granted for only one of 100A, 100, 181, 360, 362. Knowledge of a language other than English not necessary.

LING 180B Units: 1.5
Formerly: half of 180
Introduction to Linguistics II
A more detailed examination of the topics covered in 100A as applied to the study of language in society, and language and mind. Ancillary topics may include trade languages, languages of British Columbia, dialectology, language evolution, deaf communication and language acquisition.
Revitalization may be explored as a source of healing and empowerment.

Notes: - Credit will be granted for only one of 180A, 180B.
- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization or Certificate Program in Aboriginal Language Revitalization.

LING 180B
Units: 1.5
Hours: 3-0
Formerly: part of 180
Issues, Principles and Best Practices in Language Revitalization
Introduces contemporary issues, principles and practice models in the revival, maintenance and revitalization of Indigenous languages in Canada and around the world. Participants identify community assets supporting individual, family and community language revitalization.

Notes: - Credit will be granted for only one of 180A, 180B.
- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization or Certificate Program in Aboriginal Language Revitalization.

LING 181
Units: 1.5
Hours: 3-0
Introductory Linguistics for Language Revitalization
Introduces topics in the study of language and linguistics, providing a foundation for understanding language revitalization. Topics include the nature of sound systems and how they relate to orthographies, literacy, word structures and dictionaries, sentence structures and understanding texts, meaning and vocabulary, linguistic aspects of language acquisition and historical change. Develops understanding of the languages targeted for revitalization and provides an introduction to linguistic concepts and reference materials.

Notes: - Credit will be granted for only one of 181, 100, 100A, 360, 362.
- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization or Certificate Program in Aboriginal Language Revitalization.

LING 182
Units: 1.5
Hours: 3-0
Language Learning, Language Revitalization and Social Action
Examination of formal and informal approaches to language teaching and learning in Indigenous community settings. Topics include forms of language acquisition, Indigenous teaching and learning strategies, how strategies are related to community needs and goals and the role of community and community members in teaching and learning. Emphasis on strategies for mobilizing social and political forces for language maintenance and revival.

Note: Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization or Certificate Program in Aboriginal Language Revitalization.

LING 183A
Units: 1.5
Hours: 3-0
Formerly: part of 183
Field Methods for Language Preservation and Revitalization: Documentation and Recording
An examination of planning strategies, protocols and methods of data collection, analysis and organization appropriate for field activities associated with language preservation and revitalization. Focus on elicitation methodologies; audio recording; digital file management; strategies for community involvement, protocols, ethical and intellectual property issues.

Notes: - Credit will be granted for only one of 183A, 183B.
- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization or Certificate Program in Aboriginal Language Revitalization.

LING 183B
Units: 1.5
Hours: 3-0
Formerly: part of 183
Field Methods for Language Preservation and Revitalization: Project Development
An examination of project planning and development appropriate for field activities associated with language preservation and revitalization. Topics include interview and language-data recording methods, language documentation and database development, building an archive, approaches to sharing information, media production, publishing and media production models. Strategies for community involvement, project planning, protocols and ethical intellectual property issues are implemented through projects.

Notes: - Credit will be granted for only one of 183A, 183B.
- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization or Certificate Program in Aboriginal Language Revitalization.

LING 184
Units: 1.5
Indigenous Language Materials Development
Preparation and evaluation of curriculum and classroom materials for teaching Indigenous languages. Theory and application of curriculum development to immersion/language programs: designs, organizational patterns, materials, and media, change strategies and evaluation. Micro-teaching will provide practice in the teaching methods under study.

Note: Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization or Certificate Program in Aboriginal Language Revitalization.

LING 185
Units: 1.5 or 3.0
Indigenous Language Revitalization Practicum
A 70 or 140 hour work-study under the mentorship of an Elder or fluent speaker to develop understanding of local language preservation and revitalization issues and strategies. Focus on local language revitalization program planning and collaboration with local language workers.

Notes: - Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization or Certificate Program in Aboriginal Language Revitalization.
- Subject to the “Guidelines for Ethical Conduct” and “Regulations Concerning Practice”.

Prerequisites: Permission of the Academic Adviser of the Certificate Program in Aboriginal Language Revitalization.

Grading: INP, COM, N, F.

LING 186
Units: 1.5
Language in Indigenous Culture
An intensive examination of the ways in which language is embedded in the cultural heritage and social context of a selected community, with a focus on oral history, including legends, song, dance, and cultural practices, methods and protocols, along with the impacts and implications of social change on language.

Notes: - Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization or Certificate Program in Aboriginal Language Revitalization.
- May not be counted toward any degree program in...
Linguistics or Applied Linguistics, or a Diploma in Applied Linguistics.

- Satisfies the second language requirement of the BA in Applied Linguistics.
- Subject to the “Guidelines for Ethical Conduct” and “Regulations Concerning Pracica”.

**Prerequisites:** 158 or 159 or permission of the department.

**Grading:** INP, COM, N, F.

**LING 259**  
**Units:** 1.5  
**Hours:** 3-0  
**Indigenous Language II**  
Teaching and learning of an Indigenous language at the second-year level.

**Notes:**  
- May be taken more than once for credit with permission of the Academic Adviser of the Certificate Program in Aboriginal Language Revitalization.
- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization, or the Certificate Program in Aboriginal Language Revitalization.
- May not be counted toward any degree program in Linguistics or Applied Linguistics, or a Diploma in Applied Linguistics.
- Satisfies the second language requirement of the BA in Applied Linguistics.

**Prerequisites:** 158 or 159 or permission of the department.

**Grading:** INP, COM, N, F.

**LING 260**  
**Units:** 1.5  
**Hours:** 3-0  
Also: PAAS 289  
Formerly: JAPA 260  
**Introduction to the Japanese Language and Linguistics**  
Introduces the synchronic and diachronic descriptions of Japanese. Subjects covered may include: phonology, morphology, syntax, semantics, historical changes, poetics, dialectology, orthography, the sociolinguistic and psycholinguistic aspects of Japanese, the relationship between Japanese language, thought, and culture, and the history of Japanese linguistics.

**Notes:**  
- Credit will be granted for only one of 260, JAPA 260, PAAS 289.
- Previous knowledge of Japanese not necessary.

**LING 261**  
**Units:** 1.5  
**Hours:** 3-0  
Also: CHIN 261  
Formerly: CHIN 261  
**Introduction to Chinese Language and Linguistics**  
Introduces the synchronic and diachronic descriptions of Chinese. Subjects covered may include: phonology, morphology, syntax, semantics, historical changes, poetics, dialectology, orthography, the sociolinguistic and psycholinguistic aspects of Chinese, the relationship between the Chinese language, thought, and culture, and the history of Chinese linguistics.

**Notes:**  
- Credit will be granted for only one of 261, CHIN 261, PAAS 279.
- Previous knowledge of Chinese not necessary.

**LING 290**  
**Units:** 1.5  
**Hours:** 3-0  
**Writing Systems of the World**  
Concerns the four origins of writing and subsequent evolution, the differences among logographic, syllabic and alphabetic systems, and the characteristics of a good writing system. Brief consideration is given to spelling conventions and calligraphy.

**LING 297**  
**Units:** 1.5  
**Hours:** 3-0  
**Introduction to Selected Topics in Linguistics**  
**Note:** May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.

**LING 300**  
**Units:** 1.5  
**Hours:** 3-0  
Formerly: part of 383  
**Auditory and Perceptual Phonetics**  
A study of the perception of speech sounds from an auditory, articulatory, and acoustic point of view. Expands on the phonetic content of LING 200 to cover advanced speech sound recognition and production, and introduces students to topics from the speech perception and neurophonetics research literature.

**Note:** Credit will be granted for only one of 300, 383.

**Prerequisites:** 200.

**LING 309**  
**Units:** 1.5  
**Hours:** 3-0  
Formerly: 407, 408, 409  
**Topics in Morphology**  
Issues and current theoretical models used to account for the generation of words. Topics will include identification and classification of morphemes, inflectional and derivational morphology, the nature of lexical representations and other components of grammar. Topics focus on morphophonology or morphosyntax depending on the instructor.

**Notes:**  
- Credit will be granted for only one of 309, 407, 408, 409, if taken in the same topic.
- May be taken more than once for credit in different topics with permission of the department.

**Prerequisites:** 200 and 203; or 251 and 252.

**LING 311**  
**Units:** 1.5  
**Hours:** 3-0  
Formerly: 410A  
**Syntax**  
Study of sentence grammar using analysis, argumentation and theoretical bases of generative syntax.

**Note:** Credit will be granted for only one of 311, 410A.

**Prerequisites:** 203; or 200, 251 and 252.

**LING 312**  
**Units:** 1.5  
**Hours:** 3-0  
Formerly: 440  
**Generative Phonology**  
Description of sound systems using procedures and theoretical bases of generative phonology, including formalism and study of distinctive features systems. Intended for students who have had an introduction to phonology.

**Note:** Credit will be granted for only one of 312, 440.

**Prerequisites:** 200.

**LING 325**  
**Units:** 1.5  
**Hours:** 3-0  
**Lexical Semantics**  
An introduction to the linguistic analysis of word meaning, its representation, and its effects on syntax. Topics may include sense relations among words (antonymy, hyponymy, synonymy), lexicalization patterns, lexical aspect, thematic roles and argument structure.

**Prerequisites:** 100A or 181.

**LING 326**  
**Units:** 1.5  
**Hours:** 3-0  
Formerly: part of 226 and 426  
**Meaning in Language**  
Investigates topics in linguistic theories of sentence meaning, including relations between sentences (entailment, presupposition, conversational implicature), tense, aspect, modality, quantification and pronoun/pronominialization.

**Note:** Credit will be granted for only one of 326, 226, 426.

**LING 330**  
**Units:** 1.5  
**Hours:** 3-0  
**Linguistic Typology**  
A cross-linguistic survey of syntactic and morphological structures and current approaches to language universals and typology.

**Note:** Credit will be granted for only one of 330, 230.

**Prerequisites:** 200, 203.

**LING 338**  
**Units:** 1.5  
**Hours:** 3-0  
Formerly: 438  
**Second Language Phonology**  
Examines the phonetic and phonological systems of interlanguage; explores contemporary theories of L2 phonological acquisition; develops skills in phonological description and analysis.

**Note:** Credit will be granted for only one of 338, 438, 440 (if taken prior to 2010 Winter).

**Prerequisites:** 200.

**LING 341**  
**Units:** 1.5  
**Hours:** 3-0  
Formerly: also SLAV 341  
**Seminar in a Slavic Language**  
An exploration of the history and structure of a Slavic language not offered otherwise in the Department of Germanic and Slavic Studies. Depending upon demand, a different language will be treated in each given year. Languages offered at present are: Polish and Ukrainian.

**Notes:**  
- Credit will be granted for only one of 341, SLAV 341.
- May be taken more than once for credit (in different languages) for a maximum of 3 units.

**Prerequisites:** A previous course in Linguistics or permission of the department.

**LING 345**  
**Units:** 1.5  
**Hours:** 3-0  
**Sign Language as Language**  
Explores some common misconceptions about sign language that this course aims to dispel. Overview of linguistic research of sign language, which may include origins, structure and acquisition. An introduction to issues in Deaf culture and Deaf rights.

**Note:** No knowledge of ASL or Linguistics required.

**LING 358**  
**Units:** 1.5  
**Indigenous Language Mentorship III**  
A 100-hour mentorship with a fluent speaker or speakers to build oral fluency in an Indigenous language at the third-year level.

**Notes:**  
- May be taken more than once for credit with permission of the Academic Adviser of the Certificate Program in Aboriginal Language Revitalization.
- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization, or the Certificate Program in Aboriginal Language Revitalization.
- May not be counted toward any degree program in Linguistics or Applied Linguistics, or a Diploma in Applied Linguistics.
- Satisfies the second language requirement of the BA in Applied Linguistics.
- Subject to the “Guidelines for Ethical Conduct” and “Regulations Concerning Practice”.

**Prerequisites:** 258 or 259 or permission of the department.

**Grading:** INP, COM, N, F.

**LING 359**  
**Units:** 1.5  
**Hours:** 3-0  
**Indigenous Language III**  
Teaching and learning of an Indigenous language at the third-year level.
Notes: May be taken more than once for credit with permission of the Academic Adviser of the Certificate Program in Aboriginal Language Revitalization.
- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization, or the Certificate Program in Aboriginal Language Revitalization.
- May not be counted toward any degree program in Linguistics or Applied Linguistics, or a Diploma in Applied Linguistics.
- Satisfies the second language requirement of the BA in Applied Linguistics.
Prerequisites: 258 or 259 or equivalent.

LING 361 Units: 1.5, formerly 3 Hours: 3-0
Anthropological Linguistics
An exploration of the relationship between language and culture including the use of language as an ethnographic tool. Topics may be examined through the study of sign language, pop culture, and electronic representations of language such as texting.

LING 370A Units: 1.5 Hours: 3-0
Also: PSYC 370A
Psycholinguistics
The psychology of language, examining the process of comprehension and production, including language and cognition, conversational discourse and inference and semantics, among other topics.
Note: Credit will be granted for only one of 370A, 370, PSYC 370, 370A.

LING 370B Units: 1.5 Hours: 3-0
Also: PSYC 370B
Child Language Acquisition
The biological bases of language; the stage by stage acquisition of the phonology, morphology, syntax, and semantics of the child’s first language; the child’s developing metalinguistic abilities; the child’s growing awareness of the form and function of speech acts, as well as the discourse rules governing conversations.
Note: Credit will be granted for only one of 370B, 369, PSYC 369, 370B.

LING 370C Units: 1.5 Hours: 3-0
Also: PSYC 370C
Topics in Psycholinguistics
Notes: Credit will be granted for only one of 370C, PSYC 370C.
- May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units.

LING 372 Units: 1.5 Hours: 3-0
Native Languages of British Columbia
Survey of the semantic, phonological, morphological, and syntactic structure of languages belonging to five different language families of British Columbia, and hypotheses of the history.
Prerequisites: 200 and 203; or 251 and 252.

LING 373 Units: 1.5 Hours: 3-0
Second Language Acquisition
An examination of the process of acquiring a second or additional language. Topics include the nature of learner language, individual differences in language acquisition, the role of input and interaction, similarities and differences in L1 and L2 acquisition, instructed acquisition and the relationship between acquisition research and second language teaching.
Prerequisites: A previous course in Linguistics or registration in the Diploma in Applied Linguistics.

LING 374 Units: 1.5 Hours: 3-0
Approaches and Methods in Language Teaching
An introduction to approaches, methods, and techniques in language teaching. Addresses issues such as curriculum development, lesson planning, instructional strategies for teaching different language skills including listening, speaking, reading, writing, grammar and vocabulary, and the use of classroom materials for language teaching. Active classroom observation is a required component of this course. Contains an element of Practicum and is thus subject to the “Regulations Concerning Practice”.
Prerequisites: A previous course in Linguistics or registration in the Diploma in Applied Linguistics.

LING 375 Units: 1.5 Hours: 3-0
Issues in Applied Linguistics
Current issues in applied linguistics with theoretical and practical significance for second and foreign language teaching. Topics will vary, but will normally include language assessment, interactive and sociocultural approaches to language teaching and learning, form-focused instruction and computer-assisted language learning, classroom discourse and pragmatics.
Prerequisites: 373, 374.

LING 376 Units: 1.5 Hours: 2-1
Seminar and Practicum in Applied Linguistics
Contemporary issues in second language teaching and acquisition. Participation in seminars and successful completion of the practicum, including assignments by the sponsor teacher and the supervising instructor, and the student’s practicum report, is required. Subject to the “Regulations Concerning Practica”.
Note: Registration is limited to Applied Linguistics students or by permission of the department. Students with credit in 376 prior to 2004-2005 must consult the instructor to arrange for second language classroom observation.
Prerequisites: 373; 375.
Pre- or corequisites: 375.
Grading: INP; letter grade.

LING 377 Units: 1.5 Hours: 3-0
Minority Language Issues
Political, social, economic, and historical issues involved in loss of ancestral languages, for immigrants and for aboriginal societies around the globe. Language revitalization and language planning are addressed through the study of historical and contemporary programs for language revitalization among First Nations of the Americas, the Pacific, Europe and Africa. The influences of contemporary language policy and educational concerns are also examined.
Note: Open to students who have credit in LING 377 taken between 1979-81.

LING 378 Units: 1.5 Hours: 3-0
Contrastive Linguistics
An introduction to the contrastive study of languages with respect to their phonological, morphological, syntactic and semantic systems. Special attention is also given to factors related to language learning situations, with reference to transfer and interference from the mother tongue. The language selected to be compared with English will vary from year to year.
Note: May be taken more than once for credit in different target languages.
Prerequisites: A previous course in Linguistics.

LING 379 Units: 1.5 Hours: 3-0
Language and Land
Introduces and explores the links between Indigenous languages and land.
Note: Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization, or Certificate Program in Aboriginal Language Revitalization.

LING 380 Units: 1.5 Hours: 2-2
Acoustic Phonetics
A study of the acoustical properties of speech sounds including the basic physical principles involved in the generation and propagation of sound energy and the phenomenon of resonance; students are introduced to experimental instruments and trained in the use of the sound spectrograph for the analysis of speech sounds.
Prerequisites: 200, 250 or equivalent.

LING 381 Units: 1.5 Hours: 3-0
Physiology of Speech Production
The physiology of the human speech production and hearing mechanisms including aspects of the respiratory, laryngeal, pharyngeal, and supralaryngeal articulatory systems, speech-sound processing by the ear, and neurological control systems.
Prerequisites: 200, 250 or equivalent.

LING 386 Units: 1.5 Hours: 3-0
Intonation, Rhythm, Stress and Tone
Detailed analysis of the stress and intonation patterns of English and their relationship to grammatical functions; phonetic descriptions of rhythm and voice quality are practised and used to analyze speech in various languages.
Pre- or corequisites: 200 or 250.

LING 387 Units: 1.5 Hours: 3-0
Task-based Second Language Instruction
Introduces task-based language instruction in second language learning. Examines recent theory and research and considers key issues relevant to this approach. Emphasis will be on the pedagogical implications and implementation of task-based instruction in the classroom.

LING 388 Units: 1.5 Hours: 3-0
An Introduction to the Grammar of English Usage
A basic functional treatment of the grammar of English, with special emphasis on standard Canadian English usage. The parts of speech and their functional relations will be examined.

LING 389 Units: 1.5 Hours: 3-0
Issues in Second Language Reading and Writing
Examines key issues related to the acquisition of second language reading and writing and the application of theory to classroom practice as it relates to the teaching of these skills.
Prerequisites: 373.

LING 390 Units: 1.5 Hours: 3-0
The Growth of Modern English
The linguistic history of the English language from its Proto-Indo-European origins to the 18th century. Topics include the causes of language change, the development of the phonological, morphosyntactic and lexical systems of English, and the significance of social and regional dialects.
Note: Credit will be granted for only one of 390, ENGL 390, ENGL 440.

LING 349
Course Listings
2012-13 UVIC Calendar
**Course Listings**

**Prerequisites:** A previous course in Linguistics or registration in the Diploma in Applied Linguistics.

**LING 392**
- Units: 1.5
- Hours: 3-0
- Canadian English and Dialectology
  
  An examination of the methods used to research and analyze regional and social dialects, with a focus on research on Canadian English. The distinctive features of Canadian English vocabulary, grammar and pronunciation will be examined along with an overview of the historical factors that have given rise to those features.

**Prerequisites:** A previous course in Linguistics or registration in the Diploma in Applied Linguistics.

**LING 395**
- Units: 1.5
- Hours: 3-0
- Sociolinguistics
  
  A study of language in its social context, covering aspects of linguistic variation within and across speech communities. Topics may include language and class, gender, age, situation and ethnicity; languages in contact (pidgin and creole languages), code-switching and standardization; rules of conversation and respectful address; societal features of language change.

**Prerequisites:** A previous course in Linguistics.

**LING 396**
- Units: 1.5
- Hours: 3-0
- Also: PAAS 399
- Formerly: JAPA 396
- Sociolinguistic Issues in Japanese
  
  Examines a wide range of sociolinguistic topics, including non-verbal communication and types of Japanese spoken outside of Japan. Attention will be given to linguistic, dialectal, and stylistic variation in speech communities, and to sociolinguistic considerations as class, gender, and social setting.

**Note:** Credit will be granted for only one of 396, JAPA 396, PAAS 399.

**LING 397**
- Units: 1.5
- Hours: 3-0
- Issues in Cross-Cultural Communication
  
  Explores how “we” view ourselves and others, as well as how others view us, enabling students to develop understanding of principles and problems involved in entering into communication with individuals from different backgrounds. Students develop an appreciation of linguistic interactions and the skills necessary to eliminate the barriers created by linguistic and supra-linguistic misunderstandings.

**LING 398**
- Units: 1.5
- Hours: 3-0
- Language, Gender and Sexuality
  
  Examination of the concepts of gender, sexuality and language use and the relations among them. Explores differences between women’s and men’s speech styles including non-English speaking cultures, sexuality and language use, the pragmatics of “politically correct” language and gender socialization.

**Note:** A previous course in Linguistics is desirable.

**LING 401**
- Units: 1.5
- Hours: 3-0
- Formerly: 201
- Salish
  
  An introduction to the linguistic structures of the Salish family of languages, one of the major language families in British Columbia. May focus on a particular Salish language, and will include discussion of oral and written literature and related cultural topics. Language revitalization among Salish language communities will be discussed.

**Note:** Credit will be granted for only one of 401, 201. May be taken more than once for credit to a maximum of 3 units, with permission of the department.

**Prerequisites:** Third-year standing.

**LING 403**
- Units: 1.5
- Hours: 3-0
- Dene (Athabaskan)
  
  An introduction to the linguistic structures of the Dene (Athabaskan) family of languages, one of the major language families of British Columbia. Offers a survey of Dene language structures, and includes discussion of oral and written literature and related cultural topics. Language revitalization among Dene language communities will be discussed.

**Note:** May be taken more than once for credit to a maximum of 3 units, with permission of the department.

**Prerequisites:** Third-year standing.

**LING 405**
- Units: 1.5
- Hours: 3-0
- Wakashan
  
  An introduction to the linguistic structures of the Wakashan family of languages, one of the major language families in British Columbia. May focus on a particular Wakashan language, and will include discussion of oral and written literature and related cultural topics. Language revitalization among Wakashan language communities will be discussed.

**Note:** May be taken more than once for credit to a maximum of 3 units, with permission of the department.

**Prerequisites:** Third-year standing.

**LING 411**
- Units: 1.5
- Hours: 3-0
- Formerly: 410B
- Advanced Syntactic Analysis
  
  Surveys current issues in syntactic theory with particular emphasis on contemporary theories and cross-linguistic analysis.

**Note:** Credit will be granted for only one of 411, 410B.

**Prerequisites:** 204; 311 or 410A

**LING 412**
- Units: 1.5
- Hours: 3-0
- Formerly: 441
- Advanced Phonological Analysis
  
  Surveys current issues in the analysis of phonological phenomena with particular emphasis on contemporary theories and cross-linguistic perspectives.

**Note:** Credit will be granted for only one of 412, 441.

**Prerequisites:** 204; 312 or 440

**LING 420**
- Units: 1.5
- Hours: 3-0
- Historical and Comparative Linguistics
  
  Introduces historical and comparative linguistics with a focus on the principles of language change through time, and the methods used to study it. Examples are taken from both Indo-European and non-Indo-European languages.

**Prerequisites:** 200 and 203, or 230 and 251.

**LING 431**
- Units: 1.5
- Hours: 3-0
- Community-based Initiatives in Language Revitalization
  
  Perspectives on research concerning Indigenous languages. A project-driven approach is taken and will focus on community-based initiatives in the context of the impact of church, government, and university policies and personnel.

**Prerequisites:** A previous course in Linguistics and third-year standing.

**LING 449**
- Units: 1.5
- Hours: 3-0
- Directed Readings in Linguistics
  
  Note: Open only to Major and Honours students with a minimum GPA of 6.5 in Linguistics courses, or by permission of the department.

**LING 450**
- Units: 1.5
- Hours: 3-0
- Seminar in Languages
  
  Grammatical investigation of a language other than English. The language focus and approach will vary depending on the instructor, and may involve contrastive analysis with another language.

**Note:** May be taken more than once for credit in different topics to a maximum of 3 units, with permission of the department.

**Prerequisites:** 200 and 203; or 230, 251 and 252; or permission of the department.

**LING 458**
- Units: 1.5
- Indigenous Language Mentorship IV
  
  A 100-hour mentorship with a fluent speaker or speakers to build oral fluency in an Indigenous language at the fourth-year level.

**Notes:** - Subject to the “Guidelines for May be taken more than once for credit with permission of the Academic Adviser of the Certificate Program in Aboriginal Language Revitalization.

- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization, or the Certificate Program in Aboriginal Language Revitalization.

- May not be counted toward any degree program in Linguistics or Applied Linguistics, or a Diploma in Applied Linguistics.

- Satisfies the second language requirement of the BA in Applied Linguistics.

- Ethical Conduct” and “Regulations Concerning Practice.

**Prerequisites:** 358, 359 or permission of the department.

**Grading:** INP, COM, N, F.

**LING 459**
- Units: 1.5
- Hours: 3-0
- Indigenous Language IV
  
  Teaching and learning of an Indigenous language at the fourth-year level.

**Notes:** - May be taken more than once for credit with permission of the Academic Adviser of the Certificate Program in Aboriginal Language Revitalization.

- Registration is normally limited to students in the B.Ed. in Indigenous Language Revitalization, Diploma in Indigenous Language Revitalization, or the Certificate Program in Aboriginal Language Revitalization.

- May not be counted toward any degree program in Linguistics or Applied Linguistics, or a Diploma in Applied Linguistics.

- Satisfies the second language requirement of the BA in Applied Linguistics.

**Prerequisites:** 358, 359 or permission of the department.

**LING 461**
- Units: 1.5
- Hours: 2-2
- Linguistic Field Methods
  
  An introduction to the methods of data analysis, organization and collection required in the field situation. Language chosen for illustration may vary from year to year. The department has a particular interest in North American Indigenous languages.

**Note:** May be taken more than once for credit in different language, with permission of the department.

**Prerequisites:** 204.

**Pre- or corequisites:** 311, 312 or 410A, 440.

**LING 482**
- Units: 1.5
- Hours: 3-0
- Formerly: part of 481
- Computational Linguistics: An Introduction
  
  An introduction to computational methods and concepts in natural language processing and analysis. The primary objective is to develop the knowledge to apply these methods and concepts in the area of linguistics.

**Note:** Credit will be granted for only one of 482, 481.
LING 495 Units: 1.5 Hours: 3-0
Language Variation and Change
An introduction to linguistic variation and its social significance, especially the quantitative study of phonological and grammatical features and their correlations with age, sex, ethnicity and other social variables. Includes field methods, quantitative methods for correlating linguistic and social variables and practice in dialect analysis based on data from the speech community.
Prerequisites: 200, 203.

LING 497 Units: 1.5 Hours: 3-0
Advanced Topics in Linguistics
A variable content course in which selected topics in linguistics are pursued.
Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
Prerequisites: 200, 203, 204.

LING 499 Units: 3.0 Hours: 3-0
Honours Thesis
The Honours thesis is to be based on supervised research carried out by the student during the final year. The recommended style and format of the Honours thesis are the same as those stipulated for graduate theses.

MATH
Mathematics
Department of Mathematics and Statistics
Faculty of Science

MATH 100 Units: 1.5 Hours: 3-0-1
Calculus I
Review of analytic geometry; functions and graphs; limits; derivatives; techniques and applications of differentiation; antiderivatives; the definite integral and area; logarithmic and exponential functions; trigonometric functions; Newton’s, Simpson’s and trapezoidal methods.
Notes: - Credit will be granted for only one of 100, 102. See notes 1, 2, 3, and 4 on this page.
- MATH 100 requires a greater facility with algebra and trigonometry than does MATH 102, an entry-level calculus course for students requiring no further calculus courses.
Prerequisites: Minimum grade of 73 in one of Principles of Mathematics 12, Pre-calc 12 or equivalent; or minimum grade of B in 120; or a PASS on the MATH 100 pretest.

MATH 101 Units: 1.5 Hours: 3-0-1
Calculus II
Volumes; arc length and surface area; techniques of integration with applications; polar coordinates and area; l’Hopital’s rule; Taylor’s formula; improper integrals; series and tests for convergence; power series and Taylor series; complex numbers.
Note: See note 4 on this page.
Prerequisites: 100 or equivalent.

MATH 102 Units: 1.5 Hours: 3-0
Calculus for Students in the Social and Biological Sciences
Calculus of one variable with applications to the social and biological sciences.
Notes: - Credit will be granted for only one of 102, 100. See note 4 on this page.
- MATH 102 does not prepare students for further study of calculus and will restrict future options by ruling out a range of courses which require MATH 100.
Prerequisites: Principles of Mathematics 12 or Pre-calc 12 or equivalent; or 120.

MATH 110 Units: 1.5 Hours: 3-0
Formerly: 133
Matrix Algebra for Engineers
Complex numbers, matrices and basic matrix operations, vectors, linear equations, determinants, eigenvalues and eigenvectors, linear dependence and independence, orthogonality.
Note: Credit will be granted for only one of 110, 133, 211, 233A.
Prerequisites: Admission to BEng or BSENG program.

MATH 120 Units: 1.5 Hours: 3-0-1
Formerly: MATH 012
Precalculus Mathematics
The essential topics prerequisite for calculus. Elementary functions with emphasis on the general nature of functions; polynomial, rational, exponential, logarithmic, and trigonometric functions. Conic sections, plane analytic geometry.
Notes: - Not open for credit to students with credit in any of 012, 100 or 102, and not intended for students who are proficient with the topics covered in Principles of Mathematics 12 or Pre-calculus 12.
- See note 4 on this page.
Prerequisites: Principles of Mathematics 11 or Pre-calc 11 or equivalent.

MATH 122 Units: 1.5 Hours: 3-0
Formerly: 224
Logic and Foundations
Logic and quantifiers, basic set theory, mathematical induction and recursive definitions, divide and conquer recurrence relations, properties of integers, counting, functions and relations, countable and uncountable sets, asymptotic notation.
Notes: - Credit will be granted for only one of 122, 224, CENG 245.
- Not open for credit to students with credit in any of 222, 422 or 423.
- Students with 90% or higher in Principles of Mathematics 12 or Pre-calculus 12 are encouraged to request permission to register.
Prerequisites: 102 or 151 or permission of the department.

MATH 151 Units: 1.5 Hours: 3-0
Finite Mathematics
Geometric approach to linear programming, linear systems, Gauss-Jordan elimination, matrices, compound interest and annuities, permutations and combinations, basic laws of probability, conditional probability, independence, tree diagrams and Bayes formula, random variables and their probability distributions (including binomial and hypergeometric), expectation, applications of discrete probability and Markov chains.
Note: Not open for credit to students with credit in 352.
Prerequisites: One of Principles of Mathematics 11 or 12, Pre-calculus 11 or 12, Foundations of Mathematics 11 or 12, or 1.5 units of credit in MATH courses numbered 100 or higher.

MATH 161 Units: 1.5 Hours: 3-0
Formerly: 160A
Mathematics for Elementary School Teachers I
Number systems and their properties, the set of real numbers and its subsets, the interpretation of numerical operations with applications including combinations and permutations, standard computation algorithms. Problem solving is emphasized throughout.
Notes: - Credit will be granted for only one of 161, 160, 160A.
- Intended for prospective Elementary Education students only.
- Not open for credit to students with more than 1.5 units of credit in MATH courses numbered 100 or higher (excluding 120) without prior permission of the department.
Prerequisites: One of Principles of Mathematics 11 or 12, Pre-calculus 11 or 12, Foundations of Mathematics 11 or 12.

MATH 162 Units: 1.5 Hours: 3-0
Formerly: 160B
Mathematics for Elementary School Teachers II
Mental computation and estimation, non-standard computation algorithms, basic set theory, probability, basic algebra and functions, two- and three-dimensional objects, symmetry, similarity, compass and straight-edge constructions, transformational geometry, measurement topics, including length, area and volume. Problem solving is emphasized throughout.
Notes: - Credit will be granted for only one of 162, 160, 160B.
- Intended for prospective Elementary Education students only.
- Not open for credit to students with more than 3.0 units of credit in MATH courses numbered 100 or higher (excluding 120) without prior permission of the department.
Prerequisites: 161 (or 160A) or permission of the department.

MATH 199 Units: 1.5 Hours: 3-0
Formerly: 299
Problem-Solving Seminar
A seminar on solving non-routine challenging mathematical problems that require insight, creativity and ingenuity. Strongly recommended to students who wish to participate in Putnam Mathematics Competitions.
Note: Credit will be granted for only one of 199, 299.
Prerequisites: Permission of the department.

MATH 200 Units: 1.5 Hours: 3-0-1
Calculus of Several Variables
Vectors and vector functions; solid analytic geometry; partial differentiation; directional derivatives and the gradient vector; Lagrange multipliers; multiple integration with applications; cylindrical and spherical coordinates; surface area; line integrals; Green’s Theorem. The section of this course for engineering students will also cover the following topics: surface integrals and the divergence theorem.
Note: Credit will be granted for only one of 200, 202, 205. If all of 200, 202, and 201 are taken, credit will be granted for only 200 and 201.
Prerequisites: 101.

MATH 201 Units: 1.5 Hours: 3-0-1
Introduction to Differential Equations
First order equations, linear second order equations and 2-dimensional systems of linear equations with constant coefficients, elementary qualitative methods, numerical Euler and Runge-Kutta methods, Laplace transform, applications.
COURSE LISTINGS

Note: Credit will be granted for only one of 201, 202. If all of 200, 201, and 202 are taken, credit will be granted for only 200 and 201.

Prerequisites: 101.

**MATH 202**  Units: 1.5  Hours: 3-0-1
Intermediate Calculus for CSC and EOS
Vectors, curves, and surfaces in space; partial differentiation; directional derivatives and the gradient vector; Taylor's theorem for a function of two variables; introduction to differential equations.

Note: Credit will be granted for only one of 202 and any of 200, 201, or 205. If all of 202, 200, and 201 are taken, credit will be granted for only 200 and 201.

Prerequisites: 101.

**MATH 205**  Units: 1.5  Hours: 3-0-1
Multivariable Calculus
Vectors in two and three dimensions, vector-valued functions, functions of several variables, multivariate differential calculus, multiple integrals.

Note: Credit will be granted for only one of 205, 200, 202.

Prerequisites: 101.

**MATH 208**  Units: 1.5  Hours: 3-0
Mathematics for Economics and Econometrics
Topics in linear algebra: basic matrix algebra, solutions and existence of solutions of linear systems, determinants and their properties, linear independence, the rank of a matrix, quadratic forms, definiteness of matrices; Topics in optimization: multivariable calculus, convex sets, convex and concave functions, quasi-convex and quasi-concave functions, unconstrained and constrained optimization, the first order necessary optimality condition, the second order sufficient optimality condition, the meaning of Lagrange multiplier; applications to economics and econometrics.

Note: Credit will be granted for only one of 208, 103, 140, 240. Credit will not be granted for 208 if students have credit for both one of 200, 202, or 205 and one of 110, 133, 211, 233A.

Prerequisites: 100 or 102; and ECON 103, 104; or permission of the department.

**MATH 211**  Units: 1.5  Hours: 3-0
Formerly: 233A
Matrix Algebra I
Matrices: simultaneous equations; determinants; vectors in 2-, 3- and n-tuple space; inner product; linear independence and rank; change of coordinates; rotation of axes in 2- and 3-dimensional Euclidean space; orthogonal matrices; eigenvalues and eigenvectors.

Note: Credit will be granted for only one of 211, 110, 133, 233A.

Prerequisites: At least 3.0 units of MATH courses; or a minimum grade of A in one of 120, Principles of Mathematics 12, Pre-calculus 12, or equivalent.

**MATH 212**  Units: 1.5  Hours: 3-0
Formerly: 233C
Introduction to Algebra
Definitions and examples of groups, rings, fields, and integral domains; rational numbers, real numbers, and complex numbers; polynomials and their factorization; permutations. Additional topics chosen from Boolean algebras and lattices, and transfinite arithmetic.

Note: Credit will be granted for only one of 212, 233C.

Prerequisites: 122.

**MATH 222**  Units: 1.5  Hours: 3-0
Formerly: 324
Discrete and Combinatorial Mathematics
Graph theory, counting, combinatorial arguments and proofs, inclusion-exclusion, partial orders and equivalence relations, deriving and solving recurrence relations, generating functions.

Note: Not open for credit to students registered in or with credit in any of 324, 422, or 423.

Prerequisites: 122 or permission of the department.

**MATH 236**  Units: 1.5  Hours: 3-0
Introduction to Real Analysis

Note: Not open for credit to students with credit in any of 334, 335, 336.

Prerequisites: 101 and 122; or permission of the department.

**MATH 242**  Units: 1.5  Hours: 3-0
Mathematics of Finance
Simple interest; compound interest; simple discount; annuities; general and other annuities; amortization methods; Canadian mortgages; sinking funds; bond prices and bond yields; net present value; capitalized cost; contingent payments; introduction to the basic concept of life annuities and life insurance.

Note: Credit will be granted for only one of 242, 152.

Prerequisites: 102 and 151, or 101 and some knowledge of probability.

**MATH 300**  Units: 1.5  Hours: 3-0
Formerly: 330A
Advanced Calculus

Note: Credit will be granted for only one of 300, 330A, 334. Not open for credit to students registered in or with credit in any of 335, 336, 434.

Prerequisites: 200 or 205; one of 110, 133, 211, 233A.

**MATH 301**  Units: 1.5  Hours: 3-0
Formerly: 330B
Complex Variables
Theory of functions of a complex variable, analytic functions, elementary functions, integration, power series, residue theory.

Note: Credit will be granted for only one of 301, 330B, 338, 438.

Prerequisites: One of 236, 300, 330A, 335, 336.

**MATH 311**  Units: 1.5  Hours: 3-0
Formerly: 333C
Linear Algebra
Vector spaces and linear transformations, the canonical forms, inner product spaces and the spectral theorem.

Note: Credit will be granted for only one of 311, 333C.

Prerequisites: 212 or 233C; one of 110, 133, 211, 233A.

**MATH 312**  Units: 1.5  Hours: 3-0
Formerly: 333A
Abstract Algebra I
Groups, rings and fields, including quotient structures.

Note: Credit will be granted for only one of 312, 333A.

Prerequisites: One of 110, 133, 211, 233A; one of 151, 352, ECON 245 or 1.5 units of STAT credit; or permission of the department.

**MATH 322**  Units: 1.5  Hours: 3-0
Combinatorial Design
A study of combinatorial objects, with topics chosen from: representations and generation of permutations and combinations; Gray codes, Latin squares, factorizations of graphs, block designs and finite geometries, partially ordered sets and lattices, Boolean algebras, introduction to error correcting codes.

Prerequisites: 222; or one of 211, 233A, and one of 122, 151; or permission of the department.

**MATH 335**  Units: 1.5  Hours: 3-0
Real Analysis

Note: Credit will be granted for only one of 335, 336, 434.

Prerequisites: 200, 211, 236 or both 122 and 300.

**MATH 342**  Units: 1.5  Hours: 3-0
Formerly: 325
Intermediate Ordinary Differential Equations
Informal discussion of the Picard-Lindelof and Peano existence theorems, series solutions near ordinary and singular points, Frobenius method, systems of first order linear equations, complex and repeated eigenvalues, nonhomogeneous linear systems, advanced numerical methods (implicit, multistep), stability and bifurcation theory, other qualitative methods.

Note: Credit will be granted for only one of 342, 323, 323A, 325.

Prerequisites: 200 and 201; one of 110, 133, 211, 233A; or equivalent.

Pre- or corequisites: One of 300, 330A, 334, 335, 336.

**MATH 346**  Units: 1.5  Hours: 3-0
Formerly: 326
Introduction to Partial Differential Equations
Partial differential equations in physics (wave, heat and Laplace equations), solution by separation of variables, method of characteristics for first-order partial differential equations, boundary value problems, orthogonal functions, Fourier series, transform methods (Laplace and Fourier transforms), numerical methods.

Note: Credit will be granted for only one of 346, 323B, 326.

Prerequisites: One of 323, 323A, 325, 342.

**MATH 348**  Units: 1.5  Hours: 3-0
Numerical Methods with Applications to Finance and Economics
Selected topics in numerical analysis, with applications to finance and economics. Topics chosen from: rounding errors, root finding, systems of linear equations (direct and iterative methods), interpolation and approximation, numerical integration and differentiation, Monte Carlo methods, finite difference methods, binomial methods, convex optimization, dynamic and stochastic optimization.

Note: Credit will be granted for only one of 348, CSC 340, CSC 349A.

Prerequisites: 200 and 201; one of 110, 133, 211, 233A; one of 151, 352, ECON 245 or 1.5 units of STAT credit; or permission of the department.
MATH 362 Units: 1.5 Hours: 3-0
Elementary Number Theory
Divisibility, primes, congruences, arithmetic functions, primitive roots, quadratic residues, basic representation and decimals, and a selection from the following topics: Pythagorean triples, representation as sums of squares, infinite descent, rational and irrational numbers, distribution of primes.
Note: For Mathematics Majors and Honours students, and for students planning to teach mathematics in secondary schools.
Prerequisites: 122 or 212 or 233C; 3.0 units of 200-level courses offered by the Department of Mathematics and Statistics.

MATH 365 Units: 1.5 Hours: 3-0
Introduction to Topology
Basic concepts in topology, including examples in Euclidean space, metric spaces, and topological spaces. Additional topics in geometric or differential topology.
Prerequisites: 212 or 233C; one of 236, 300, 330A, 334, 335, 336.

MATH 366 Units: 1.5 Hours: 3-0
Geometry
Theorems on triangles and circles, Euclidean constructions, tiling and polyhedra, isometries, similarities, inversion, projective lines and points, axiomatic approach.
Note: Credit will be granted for only one of 366, 368A.
Prerequisites: At least 6 units of MATH courses or permission of the department.

MATH 367 Units: 1.5 Hours: 3-0
Non-Euclidean Geometry
The parallel postulate and consequences, geometric transformations, the Erlanger programme, hyperbolic geometry and its various models, elliptic geometry, absolute geometry.
Note: Credit will be granted for only one of 367, 368B.

MATH 375 Units: 1.5 Hours: 3-0
Philosophy of Mathematics
An introduction to problems in the philosophy of mathematics. Topics may include the nature of mathematical objects, the status of the infinite in mathematics, the relationship between mathematics and natural science/physical reality.
Note: Credit will be granted for only one of PHIL 375, PHIL 376.

Prerequisites: One of 122, 360, PHIL 203, 304A, 370.

MATH 377 Units: 1.5 Hours: 3-0
Mathematical Modelling
The formulation, analysis and interpretation of mathematical models in various areas of application. Both continuous and discrete deterministic and stochastic models will be employed. Mathematical techniques used may include: differential and difference equations, matrix analysis, optimization, simple stochastic processes, decision theory, game theory and numerical methods. The phenomena modelled may vary from year to year.
Prerequisites: 200 or 205; 211 or 133, 211, 233A; one of STAT 252, 254, 255, 260.

MATH 379 Units: 1.5 Hours: 3-0
Nonlinear Dynamical Systems and Chaos
An introduction to dynamical systems aimed at mathematicians and mathematically-inclined students from the sciences and engineering. Topics include: existence theory, geometric analysis, stability theory, bifurcation theory and chaos for differential equations with emphasis directed to applications in science. Assignments may involve the use of simple mathematical software.
Prerequisites: 200 or 205; one of 110, 133, 211, 233A, either with a grade of B or higher, or with credit also for one of 236, 300, 330A or 334.

MATH 399 Units: 1.5 Hours: 3-0
Advanced Problem-Solving Seminar
A second seminar course on solving non-routine mathematical problems. Strongly recommended to students who wish to participate in Putnam Mathematics Competitions.
Prerequisites: 199, 299 or permission of the department.

MATH 401 Units: 1.5 Hours: 3-0
Complex Analysis
Topics chosen from: conformal mappings, the Riemann mapping theorem, the maximum principle, infinite products, Picard’s theorem, normal families, Hp-spaces, approximation by rational functions, the Riemann theta function, analytic continuation and Riemann surfaces.
Prerequisites: 335 or 336; one of 301, 330B, 338, 438.

MATH 412 Units: 1.5 Hours: 3-0
Field theory, composition series of groups, Galois theory.
Note: Credit will be granted for only one of 412, 433C.

Prerequisites: 311 or 333C; 312 or 333A.

MATH 413 Units: 1.5 Hours: 3-0
Presently: 433D
Applied Algebra
A survey of the applications of algebraic structures in various areas of application. Both continuous and discrete deterministic and stochastic models will be employed. Mathematical techniques used may include: differential and difference equations, matrix analysis, optimization, simple stochastic processes, decision theory, game theory and numerical methods. The phenomena modelled may vary from year to year.
Prerequisites: 200 or 205; one of 110, 133, 211, 233A; one of STAT 252, 254, 255, 260.

MATH 415 Units: 1.5 Hours: 3-0
History of Mathematics
Survey of the development of Mathematics from its earliest beginnings through to the present.

MATH 422 Units: 1.5 Hours: 3-0
Combinatorial Mathematics

Prerequisites: 212 or 233C; 222; and at least 1.5 units of MATH courses numbered 300 or higher; or permission of the department.

MATH 423 Units: 1.5 Hours: 3-0
Graph Theory
An introduction to the combinatorial, algorithmic and algebraic aspects of graph theory.

Prerequisites: 222 and at least 3 units of 300-level MATH courses, or permission of the department.

MATH 435 Units: 1.5 Hours: 3-0
Real Analysis II

Prerequisites: One of 335, 336, 434, or permission of the department.

MATH 436 Units: 1.5 Hours: 3-0
Calculus on Manifolds
Differentiable manifolds. Differential forms. Stokes theorem and a selection of results from classical vector calculus.

Prerequisites: 211, 212; 335 or 336 or both 236 and 300.

MATH 442 Units: 1.5 Hours: 3-0
Formerly: 445A
Advanced Ordinary Differential Equations
Rigorous existence and uniqueness theory; qualitative theory of systems of ordinary differential equations including Poincaré and Liapunov stability; periodic orbits; Poincaré-Bendixson theory; bifurcations; stable, unstable and centre manifold theorems. Additional topics may include: averaging and perturbation methods, chaos, Melnikov method, Hamiltonian systems.

Note: Credit will be granted for only one of 442, 445A.

Prerequisites: 300 or 334; and 325 or 442; or permission of the department.

MATH 446 Units: 1.5 Hours: 3-0
Formerly: 445B
Advanced Partial Differential Equations

Note: Credit will be granted for only one of 446, 445B.

Prerequisites: One of 335, 336, 434, or permission of the department.

MATH 447 Units: 1.5 Hours: 3-0
Nonlinear Programming
Introduction to theory and algorithm of nonlinear programming. Topics may include: unconstrained optimization theory and iterative methods; Lagrange multipliers and Karush-Kuhn-Tucker theorem for constrained optimization problems; convex programming and duality, penalty function methods.
**COUR**

**Uvic Undergraduate Calendar 2012-13**

354  

**Topics in Topology**  
Algebraic Number Theory

**Note:** homology theory, and homotopy theory.

**Prerequisites:** One of 110, 133, 211, 233A; one of 236, 300, 330A, 334, 335, 336; or permission of the department.

**MATH 449** Units: 1.5 Hours: 3-0  
**Scientific Computing**  
A comprehensive introduction to the techniques and mathematical foundations of modern methods in scientific computing for science, engineering and numerical analysis. Topics include linear and non-linear systems, eigenvalue problems, approximation of functions, initial value and boundary value problems, finite volumes, finite elements, multigrid methods, convex optimization, Monte Carlo simulations, and data assimilation.

**Prerequisites:** 348 or CSC 349A or permission of the department.

**MATH 451** Units: 1.5 Hours: 3-0  
**Probability**  
Language of formal probability, laws of large numbers and applications (Weierstrass approximation), central limit theorem, Borel-Cantelli laws, large deviations estimates, Chernoff bounds, number-theoretic applications, coupling of random variables, the probabilistic method (first and second moment methods), combinatorial applications. Additional topics may include: Martingales in discrete probability and applications.

**Prerequisites:** One of 236, 300, 330A, 334; 352 or STAT 350.

**MATH 452** Units: 1.5 Hours: 3-0  
**Stochastic Processes**  
Introduction to the branch of probability theory which deals with the mathematical analysis of systems that evolve in time while undergoing chance fluctuations. Main topics include random walks, Markov chains, Poisson processes, birth and death processes, renewal theory. Examples illustrate wide applicability of stochastic processes in many branches of science and technology.

**Prerequisites:** 352 or STAT 350.

**MATH 455** Units: 1.5 Hours: 3-0  
**Topics in Number Theory**  
A selection of topics which may include compositions and partitions, geometry of numbers, rational approximation, distribution of primes, order of magnitude of arithmetic functions, proofs of the Prime Number Theorem and of Dirichlet’s Theorem on primes in arithmetic progressions, continued fractions.

**Prerequisites:** 362.

**MATH 461** Units: 1.5 Hours: 3-0  
**Algebraic Number Theory**  
An introduction to algebraic number theory: rings of integers, prime factorization, finiteness of ideal class group, Dirichlet unit theorem, splitting of primes, structure of inertia groups, elliptic curves.

**Note:** Credit will be granted for only one of 447, 491A, 492 if either 491A or 492 were taken in this topic.

**Prerequisites:** One of 110, 133, 211, 233A; one of 236, 300, 330A, 334, 335, 336; or permission of the department.

**MATH 467** Units: 1.5 Hours: 3-0  
**Differential Geometry**  
Local theory: curvature, torsion, geodesics, vector fields, intrinsic geometry, spaces of constant curvature. Elements of global theory.

**Note:** Credit will be granted for only one of 467, 491B (if taken in the same topic).

**Prerequisites:** 211, 212, 335 or 336 or both 236 and 300; or permission of the department.

**MATH 475** Units: 1.5 Hours: 3-0  
**Topics in Mathematical Biology**  
Possible topics include population modelling, infectious disease dynamics, models of neuronal networks and models of gene regulatory networks.

**Notes:**  
- Primarily for third- and fourth-year students in mathematics, statistics or biology.  
- Credit will be granted for only one of 475, 575. May be taken more than once in different topics with permission of the department.

**Prerequisites:** Permission of the department.

**MATH 477** Units: 1.5 Hours: 3-0  
**Stochastic Financial Modelling**  
Brief review of financial concepts (hedging, arbitrage, options etc.), Martingales, drift and volatility, the binomial model, Brownian motion, the Black-Scholes option pricing formula and some of its extensions.

**Prerequisites:** 452.

**Pre- or corequisites:** ECON 435 or permission of the department.

**MATH 490** Units: 1.5 or 3.0  
**Directed Studies in Mathematics**  
**Note:** Students must consult the department before registering. May be taken more than once for credit in different topics with permission of the department.

**MATH 492** Units: 1.5 Hours: 3-0  
Formerly: 491A  
**Topics in Applied Mathematics**  
Possible topics include population modelling, neural networks, stochastic processes, discrete optimization, actuarial mathematics, calculus of variations, and fluid mechanics.

**Notes:**  
- Restricted to third- or fourth-year students who meet the prerequisites specified for the topic to be offered. May be taken more than once for credit in different topics with permission of the department.  
- Credit will be granted for only one of 492, 491A (if taken in the same topic).

**MATH 493** Units: 1.5 Hours: 3-0  
Formerly: 491B  
**Topics in Pure Mathematics**  
Possible topics include advanced complex analysis, functional analysis, introduction to manifolds, and mathematical logic.

**Notes:**  
- Restricted to third- or fourth-year students who meet the prerequisites specified for the topic to be offered. May be taken more than once for credit in different topics with permission of the department.  
- Credit will be granted for only one of 493, 491B (if taken in the same topic).

**MATH 498** Units: 1.5 Hours: 1.5 - 4.5  
**Seminar and Independent Project**  
Seminar and research project under the direction of a faculty member. The student is required to pursue an independent project, to prepare a written report and to present a seminar describing the work. The seminar is open to attendance by all students, faculty and academic visitors of the department. Only available in areas of faculty interest.

**Prerequisites:** Permission of the department.

---

**ME**

**Music Education**  
**Department of Curriculum and Instruction**  
**Faculty of Education**

Instrumental courses are normally subject to enrolment limits because of space and equipment needs. Departmental permission is required for non-education students. Courses offered by the Faculty of Education are also found under the following course codes: AE, ED-D, ED-P, EDCl, EPHE, IA, IET, ME.

**ME 101** Units: 1.5 Hours: 3-0  
**Introduction to Music Education**  
Orientation to the profession; introduction to the role of music in education and society. For students who are considering pursuing a BMus in Secondary Music Education or a BEd with a teaching area in Secondary Music Education.

**ME 120** Units: 1.0 Hours: 3-0  
**Instrumental Jazz I**  
A study of techniques for teaching instrumental jazz through performance, beginning improvisation, and listening.

**ME 121** Units: 1.0 Hours: 2-0  
**Vocal Jazz I**  
A study of techniques for teaching vocal jazz through performance and experience. A survey course covering repertoire, history, conducting, style, sound systems, rhythm sections, national standards. Emphasis is on participation and listening.

**ME 122** Units: 1.0 Hours: 1-1  
**World Music Workshop**  
A study of aural techniques in a selection of world music styles through performance, improvisation, and listening.

**ME 180** Units: 1.0 Hours: 0-3  
**Ensembles**  
Large Ensembles, including Don Wright University of Victoria Symphonic Winds.

**Note:** May be taken more than once for credit to a maximum of 4 units.

**ME 201** Units: 1.5 Hours: 3-0  
**Music Education Seminar I**  
A study of the historical, philosophical, sociological, psychological and curricular foundations of music education.

**Pre- or corequisites:** 101.

**ME 205** Units: 1.5 Hours: 3-0  
Formerly: 105  
**Music Fundamentals**  
Introduction to the language of music including sight reading, ear training and analysis. Normally followed by 206.

**Note:** Credit will be granted for only one of 205, 105, MUS 100, 101A, 101B. Students with exceptionally strong music backgrounds may not be required to take this course.

**ME 206** Units: 1.5 Hours: 3-0  
Formerly: 106  
**Music in the Elementary School Introductory**  
An introduction to the foundations of music education, the elementary music curriculum, and methods currently used in BC elementary schools.

**Note:** Credit will be granted for only one of 206, 104, 106, 204, 304, ED-A 705, ED-A 706.
Pre- or corequisites: 205 or MUS 101A, B, and 170.

ME 207 Units: 1.5 Hours: 3-0
Music in the Elementary School Curriculum
A study of programs and materials for elementary schools. Some school experience will be required.
Note: Credit will be granted for only one of 207, 403.
Prerequisites: 101.
Grading: INC; letter grade.

ME 208 Units: 1.5 Hours: 1.5-1.5
Studio Piano Class I
Development of piano keyboard skills: technique, simple harmonic analysis, sight reading, transposition and accompanying patterns. For those with little or no piano background.
Note: Those with basic piano skills should register in ME 308.

ME 209A Units: 1.5 Hours: 3-0
Music Education Special Topics I
Students will be exposed to jazz pedagogy in music education. Topics will include instrumental and vocal jazz pedagogy. Emphasis will be on practical experience.
Prerequisites: 101.

ME 209B Units: 1.5 Hours: 3-0
Music Education Special Topics II
Students will be exposed to a variety of topics within music education. Topics may include: world music ensemble, multicultural music, musical theatre, music for exceptional learners, creativity in the music classroom, and technology in music education. Emphasis will be on practical experience.
Prerequisites: 101.

ME 216 Units: 2.0 Hours: 3-0
Instrumental/Choral Techniques
Practical ensemble experience for introductory level band and secondary choral with emphasis on beginning band methods and choral literature for the junior/senior secondary school choir.

ME 219 Units: 1.5 Hours: 3-0
Choral Techniques
Practical choral techniques and literature for elementary schools conducting and methodology. A piano component may be included.

ME 220 Units: 1.0 Hours: 3-0
Instrumental Jazz II
Expanding the skills and knowledge acquired in 120.
Prerequisites: 120.

ME 221 Units: 1.0 Hours: 1-1
Vocal Jazz II
Practical experience through participation. Emphasis is on repertoire, conducting, improvisation in the large and small vocal jazz ensemble.
Prerequisites: 121.

ME 303 Units: 1.5 Hours: 1.5-1.5
Instrumental Techniques and Repertoire
303A - Studio Guitar Class: I
303B - Studio Recorder Class
303C - Studio Ukulele Class
303E - Studio Guitar Class: II
Note: A student may take up to a maximum of 6 units in the above areas; however, the maximum number of units accepted for credit on the student's degree program will be at the discretion of the department.

ME 306 Units: 3.0 Hours: 3-0
Music in the Elementary School Advanced
A survey of texts and materials and methods of instruction for use in the elementary classroom. Sequential planning involving listening, singing, instrumental playing, and movement activities. A school experience component is normally included.
Prerequisites: 206.

ME 307 Units: 1.5 Hours: 3-0
Music in the Middle School Curriculum
A study of programs and materials for middle schools. Some school experience will be required.
Note: Credit will be granted for only one of 307, 301.
Prerequisites: 201 and 207 and admission to the Music Teaching Area or Bachelor of Music in Secondary Education.
Grading: INC; letter grade.

ME 308 Units: 1.5 Hours: 1.5-1.5
Studio Piano Class II
Continuation of development of piano keyboard skills: technique, harmonic analysis, sight reading, transposition, accompaniments, composition and improvisation.
Note: For those with some piano background (e.g., 208 or equivalent).

ME 309A Units: 1.5 Hours: 3-0
Instrumental Techniques
Practical ensemble experience for introductory level instrumental (band/strings) in middle and secondary school classes. Emphasis will be on beginning instrumental methods and techniques.
Note: Credit will be granted for only one of 309A, 216.
Prerequisites: 201 and admission to the Music Teaching Area or Bachelor of Music in Secondary Education.

ME 309B Units: 1.5 Hours: 3-0
Choral Techniques for Middle and Secondary Schools
Practical ensemble experience for introductory level choral in middle and secondary school classes. Emphasis will be on beginning choral methods and techniques.
Note: Credit will be granted for only one of 309B, 216.
Prerequisites: 201 and admission to the Music Teaching Area or Bachelor of Music in Secondary Education.

ME 310 Units: 1.5 Hours: 3-0
Learning to Listen to Music
What to listen for and how to listen to music of diverse styles and genres.
Note: Credit will be granted for only one of 310, 207 (if taken before 2007).

ME 316 Units: 1.0 Hours: 2-0
Instrumental Clinic
Practical ensemble experience; teaching techniques; conducting, ensemble evaluation procedures and materials at the middle/secondary level.

ME 319 Units: 1.5 Hours: 3-0
Vocal Techniques
Vocal production and care of the vocal instrument; development of healthy singing techniques; relevant repertoire.

ME 350 Units: 1.5 Hours: 3-0
Kodály - Pedagogy I
An overview of the Kodály concept, strategies and techniques for developing rhythmic and tonal skills, concepts, and musical attitudes; includes study of early childhood repertoire; songs, games, and dances related to the primary curriculum (years K-3).
Note: Credit will be granted for only one of 350, 400A.

ME 400 Units: 1.5 Hours: 3-0
Study of Specific Methodology
Advanced courses for those in the teaching area or concentration.

ME 402 Units: 1.5 Hours: 1-3
Technology in Music Education
Using computers, audio recording equipment, and a variety of professional music software, students will develop skills and techniques in composing, songwriting, audio manipulation, film soundtrack design, and audio production. Examines possibilities for using music technology in educational settings.
Note: Credit will be granted for only one of 402, 400D in a degree program.

ME 409 Units: 1.5 Hours: 3-0
Instruments and Choral Clinic
Practical ensemble experience in secondary instrumental (band/strings), and choir. Teaching techniques, conducting, repertoire, and evaluation procedures will be addressed.
Note: Credit will be granted for only one of 409, 316.
Prerequisites: 309A, 309B, and admission to the Music Teaching Area or Bachelor of Music in Secondary Education.

MECH
Mechanical Engineering
Department of Mechanical Engineering
Faculty of Engineering
Some Faculty of Engineering courses are only open to students in the faculty or in specific programs. Courses and applicable restrictions are listed at www.uvic.ca/engineering/courseaccess.php
Courses offered by the Faculty of Engineering are also found under the following course codes: BME (Biomedical Engineering), CENG (Computer Engineering), CSC (Computer Science), ELEC (Electrical Engineering), ENGR (Engineering) and SENG (Software Engineering).

MECH 200 Units: 1.5 Hours: 3-1.5
Engineering Drawing
Notes: *Indicates a 3 hour laboratory taken by students on alternate weeks.
*Credit will be granted for only one of 200, ELEC 200.
Prerequisites: CSC 110 or 111, and MATH 110 or 133 or 211 or 233A.

</tbody>
</table>

**Mechanics of Solids I**

**Mechanics of Solids II**
Theory of stress and infinitesimal strain in three dimensions, stress and strain tensors and equilibrium equations. Theory of elasticity in Cartesian polar coordinates and its application to curved beams; torsion of prismatic bars, thick walled cylinders, axisymmetrical loaded disks, and plate theory. Introduction to fracture mechanics and to finite element analysis of frames and trusses.

**Thermodynamics**
Properties and states of simple substances, P-v-T processes, equations of state, ideal gas law, first law of thermodynamics, control volume and control mass analyses, first law thermal efficiency, simple steady flow devices, heat engines, refrigerators, heat pumps, Carnot cycle, entropy, principle of increase of entropy, second law of thermodynamics, reversibility.

**Dynamics**
Kinematics and dynamics of rigid bodies; analysis of planar rigid body motion using translating and rotating axes; two-dimensional rigid body dynamics using force/acceleration, work/energy and impulse/momentum methods; applications to one degree of freedom planar mechanisms and vibrations; introduction to three-dimensional rigid body dynamics.

**Properties of Engineering Materials**
Atomic structure, arrangement and movement; microstructural development and heat treatments; physical properties of ferrous and nonferrous metals, semiconductors, ceramics, polymers and composites; corrosion and mechanical properties.

**Engineering Fundamentals**
Ideal gas laws; work and heat; conservation of energy; thermodynamic properties of pure substances; equations of state; applications to open and closed systems; second law of thermodynamics; non-conservation of entropy; energy conversion systems; heat transfer by conduction, convection and radiation.

**Mechanics of Fluids**

**Computer Aided Design**
Basic elements of CAD and relevance to current industrial practice. Input and output devices for geometric modelling systems. Representation of curves and curved surfaces. Graphical programming languages, and development of interactive 3D computer graphics programs. Numerical optimization and its application to parameter design.

**Planning and Control of Production Systems**
Introduction to manufacture and production systems; process engineering and process planning; group technology; forecasting; inventory control; aggregate production planning; material requirements planning; production scheduling; applications of linear programming and artificial intelligence in production process organization.

**Finite Element Applications**
Formulation and application of the finite element method for modelling mechanical systems, including stress and vibration problems; stiffness method, stability, mass and mass matrices, generalized force, numeri-

---

**Notes:**
- *Indicates a 3 hour laboratory taken by students on alternate weeks.
- Credit will be granted for only one of the following courses: 260, 350, 360, 380.
MECH 421 Units: 1.5 Hours: 3-0
Mechanical Vibrations
Multi-mass linear systems; flexibility and stiffness matrices, natural frequencies, mode shapes and orthogonal properties, damped or undamped response to arbitrary force. Linear continuous systems; axial and torsional vibration of rods, shafts and beams with attached mass or stiffness. Non-linear vibrations; basic methods for solution. Random vibration; elements for describing random response, Fourier transforms and frequency response functions.
Prerequisites: 330.

MECH 423 Units: 1.5 Hours: 3-0
Engineering Ceramics
Structures of ceramics, glasses and glass ceramics; properties and applications of oxides, silicates, carbides, borides and nitriles; powder processing, shape forming and sintering; mechanical properties and toughening mechanisms; design concepts for brittle ceramics and Weibull analysis; ceramic reinforcements and ferroelectrics; piezoelectric and electrooptic sensors; ceramic matrix composites; ceramic fiber reinforcements for composites.
Prerequisites: 285.

MECH 430 Units: 1.5 Hours: 3-1
Robotics
Structure and specifications of robot manipulators; homogeneous transformations; kinematic equations and motion trajectories; dynamic models of robotic manipulators; position and force control; use of robots in industrial applications.
Prerequisites: 335.

MECH 443 Units: 1.5 Hours: 3-0
Advanced Thermodynamics
Prerequisites: 390.

MECH 445 Units: 1.5 Hours: 3-0
Cryogenic Engineering
Prerequisites: 390, 395.

MECH 494 Units: 1.5 Hours: 3-0
Fuel Cell Technology
Prerequisites: 240, 345.

MECH 450 Units: 1.5 Hours: 3-0
Special Topics
Presents material in an emerging field or one not covered in regular offerings. Some topics may require laboratory work as well as lectures.
Note: May be taken more than once for credit in different topics with permission of the department. Credit will be given for only one of MECH 450, 450 A-F if taken in the same topic.
Prerequisites: Set by department depending upon topic.

MECH 455 Units: 1.5 Hours: 3-1.5-1
Instrumentation
Overview of fundamental issues associated with measurement systems; response of 0th, 1st and 2nd order systems. Components in a measurement system: effects of digitization, sampling, aliasing, noise, quantization error. Frequency Response Function, voltage conversion, loading effects, and filtering. Sensors and transducers for common physical measurements, including optical techniques and sensors. Laboratory incorporates all elements of the lectures, with students designing and building complete measurement systems with digital acquisition.
Prerequisites: ELEC 365.

MECH 458 Units: 1.5 Hours: 3-1*
Mechatronics
Introduction to mechatronic systems; modelling of mixed mechatronic systems; microcontroller programming and interfacing; data acquisition; sensors and actuators; control architectures and case studies in mechatronics systems.
Notes: *Indicates a 2 hour laboratory taken by students on alternate weeks.
- Credit will be granted for only one of 458, 365, 486/405.
Prerequisites: ELEC 110 or 111; ELEC 216 or PHYS 216.

MECH 459 Units: 1.5 Hours: 3-0
Fundamentals of Hybrid Vehicles
Advance of hybrid electric vehicle (HEV) technology; power plants, electric propulsion systems, transmissions, and onboard energy storage systems; fuel cell vehicles; vehicle performance modelling and simulation using advanced vehicle powertrain modelling tools; design and optimization of HEV powertrain systems; and HEV design case studies.
Note: Credit will be granted for only one of MECH 459, 450E if taken in the same topic.
Prerequisites: Set by department depending upon topic.

MECH 460 Units: 1.5 Hours: 3-1.5*-1
Computer Aided Manufacture
Introduction to machining operations, features of numerically controlled machine tools, and types of CNC programming. Manual part programming with G-codes, canned cycles, subprograms, custom macros, and simulation program. NC machine tools and control and machine tool kinematics. CNC machining of curved surfaces with ball-end and end mill cutters; handling of tool and surface geometry. Curved surface machining strategies and case studies. Rapid prototyping. Machining mechanics and dynamics.

MECH 499 Units: 1.5 Hours: 3-0
Small Business Organization
Finance, accounting, auditing, taxation, marketing, market research; organizational psychology, personnel selection; engineering economy, equivalent uniform annual cash flow, present worth, cost benefit ratio.
Prerequisites: EGR 280.

MECH 460A Units: 1.5 Hours: 1-3
Formerly: EGR 466
Mechatronics Design Project
Complete design of a mechatronic product or a system that consists of mechanical, electronic and software components. Through modeling, simulation, and/or development and testing of a prototype; preparation of design documents, cost analyses and tenders, preparation of final design report and symposium presentation of final design. Weekly seminar series featuring topics related to electronics, software and integrated mechatronics design, IP, project management.
Note: Credit will be granted for only one of 464, EGR 466.
Prerequisites: 350, 360, 380, 458 or permission of the department.

MECH 465 Units: 1.5 Hours: 3-1
Machine Vision and Sensors
Theory and application of a wide range of sensors currently employed in modern industrial environments. General sensor technologies examined include laser, optical, inductive, piezoelectric and ultrasonic. In-depth coverage of machine vision, particularly software for part recognition, inspection and measurement that utilize grey scale image processing algorithms. Also examined are the roles of sensors in computer-integrated and flexible manufacturing, transportation and smart structures in aeronautical and civil applications.
Prerequisites: 200 or ENGR 150 or ELEC 200, and MATH 200.

MECH 466 Units: 1.5 Hours: 3-3
Microelectromechanical Systems
Principles of MEMS theory, design and fabrication. Topics include: scaling law principles; micro-mechanical structures for sensing and actuating; electrostatic, magnetic, piezoelectric and micro-magnetic devices; micro-fluidics; micro-optics; microassembly and packaging. Case studies of MEMS device operation and micro-fabrication.
*Indicates four 3-hour labs.
Prerequisites: PHYS 216 or ELEC 216.

MECH 471 Units: 1.5 Hours: 3-0
Fracture, Fatigue and Mechanical Reliability
Prerequisites: 320.

MECH 473 Units: 1.5 Hours: 3-0
Ferrous and Non-Ferrous Metals
Mechanical, thermal, electrical, photonic and magnetic properties of materials, the iron-carbon and

</thead>
<tbody>
<tr>
<td>MECH 495</td>
<td>1.5</td>
<td>3-1</td>
<td>Methods of predicting and historical perspective; governing differential equations of heat transfer and fluid flow; finite difference methods; discretization schemes; application to heat conduction problems; introduction to control volume formulation for fluid flow and to turbulence modelling; accuracy and convergence considerations. Individual term projects using a CFD program.</td>
</tr>
<tr>
<td>MECH 493</td>
<td>1.5</td>
<td>3-0</td>
<td>An advanced design course in thermofluids systems. Groups of three or four students select project topics that involve the design of thermofluids systems such as power generation and refrigeration cycles, pump and piping systems, heat exchangers and heat exchanger networks, and air-conditioning and heating systems. Alternatively, students can propose their own projects in other areas of thermofluids systems.</td>
</tr>
<tr>
<td>MECH 494</td>
<td>1.5</td>
<td>3-1.5*</td>
<td>Thermofluids and Introduction to Mass Transfer</td>
</tr>
<tr>
<td>MECH 497</td>
<td>3.0</td>
<td>2-18</td>
<td>Green Vehicle Technology Project General background of Hybrid Electric Vehicle (HEV) technologies; green vehicle technology training by industry experts; design using advanced modelling and simulation tools; design, analysis, prototyping and testing of vehicle subsystems or key components for green vehicle technology development. Each student will present a complete report at the end of the term, and make an oral presentation of the findings.</td>
</tr>
<tr>
<td>MECH 498</td>
<td>3.0</td>
<td>2-10</td>
<td>Honours Thesis The honours thesis provides an opportunity for selected students to carry out a major design or research project under the supervision of a faculty member. The project will require independent study of the current technical literature, and independent research or design work. Each student will present a complete report at the end of the term, and make an oral presentation of the findings.</td>
</tr>
<tr>
<td>MECH 499</td>
<td>1.5</td>
<td>1-9</td>
<td>Technical Project The technical project provides an opportunity for each student to carry out a design or research project associated with one or more of the higher level courses, under the supervision of a faculty member. The nature of the project selected should be such as to require independent study of current technical literature. When feasible, the design should be assessed in the laboratory. Each student must present a complete report at the end of the term.</td>
</tr>
<tr>
<td>MEDI 210</td>
<td>1.5</td>
<td>3-0</td>
<td>Voices from the Middle Ages Medieval writers speak to us in many voices, and in many modes: male and female, ecclesiastical and secular, serious and comic or fantastic, prose and verse. A selection of medieval texts will be studied in English translation.</td>
</tr>
<tr>
<td>MEDI 303</td>
<td>1.5</td>
<td>3-0</td>
<td>The Medieval World An interdisciplinary introduction to the Middle Ages through a comparative overview of medieval cultures and civilizations until about CE 1500, with a focus on the formation of medieval Christian Europe and its relations with Judaism, Byzantine Christianity, and Islam. Both material and intellectual culture (e.g., architecture, art, music, literature) will be studied.</td>
</tr>
<tr>
<td>MEDI 304</td>
<td>1.5</td>
<td>3-0</td>
<td>Encountering the Middle Ages An introduction to the interdisciplinary study of the medieval world and thus to Medieval Studies, through direct encounters with primary sources (objects, images, texts, music). Emphasizes the question of evidence in relation to interdisciplinary principles, methods and problems, involving where possible cross-cultural comparison.</td>
</tr>
<tr>
<td>MEDI 350</td>
<td>1.5</td>
<td>3-0</td>
<td>Also: LATI 350 Formerly: MEDI 250 Medieval Latin Readings will be structured around a topic in pre-classical Latin literature. Possible topics include: Latin literature of Late Antiquity, medieval epic, Latin lyric of the 12th century, medieval Latin comedy.</td>
</tr>
<tr>
<td>MEDI 360</td>
<td>1.5</td>
<td>3-0</td>
<td>Selected Topics in Medieval Culture An interdisciplinary investigation of a selected topic in the evolution of medieval culture, with an emphasis to be placed on artistic, intellectual, or spiritual life of the time.</td>
</tr>
</tbody>
</table>
| MEDI 401   | 1.5   | 3-0   | Seminar in Medieval Culture An interdisciplinary investigation of a selected topic in the evolution of medieval culture, with an empha-
sis to be placed on the artistic, intellectual, or spiritual life of the time.

**Note:** May be taken more than once for credit in different topics to a maximum of 6 units. 303 and 304 suggested.

**Prerequisites:** Second-year standing or permission of the Program.

### MEDI 402 Units: 1.5 Hours: 3-0
**Cross-Cultural Encounters and Exchanges**
An interdisciplinary investigation of significant cross-cultural encounters and exchanges in the medieval world, especially between East and West or between European and Mediterranean cultures. Possible topics include: the Crusades; the Viking expansions; multi-culturalism in Spain or Sicily; relations between eastern and western Christendoms; international trading relations; inter-relations of the medieval world and the Mongol Empire; the transmission of Arabic science and learning.

**Note:** May be taken more than once for credit in different topics to a maximum of 6 units.

**Prerequisites:** Second-year standing or permission of the Program.

### MEDI 441 Units: 1.5 Hours: 3-0
**Formerly: Also FREN 441**
**Medieval Arthurian Romance**
Origins and evolution of Medieval Arthurian romance through an examination of representative texts. History and art will be used to give a context to the literary works.

**Note:** Credit will be granted for only one of 441, FREN 441.

### MEDI 442 Units: 1.5 Hours: 3-0
**Also: FRAN 432**
**Common Grounds in European Medieval Literature (in English)**
Transcendence of national boundaries in literature and scholarship: Latin and French as universal languages. Readings: modern English translations of Latin, Old French and Old/Middle English texts representing common foundations in various genres. Students enrolled in MEDI 442 must submit all written assignments in English; students enrolled in FRAN 432 must submit all written assignments in French.

**Note:** Credit will be granted for only one of 442, FRAN 432, FREN 442.

### MEDI 451 Units: 1.5 Hours: 3-0
**Formerly: part of 450**
**Reading, Writing and the Book in the Medieval World**
A selective overview of the historical development of medieval media and communications practices and technology focusing especially on the manuscript book. Topics will normally include some of the following: the spread and consequences of literacy, orality and literacy, text and image, the formation of textual communities, the processes and sites of manuscript production, transmission and dissemination (monastic scriptoria, universities, workshops, libraries), paleography, codicology and the shift from script to print.

**Note:** Credit will be granted for only one of 451, 450.

**Prerequisites:** Third-year standing or permission of the Program.

### MEDI 452 Units: 1.5 Hours: 3-0
**Special Topics in Medieval Manuscript Studies**
A variable content course in which special topics relating to medieval manuscripts are pursued.

**Note:** May be taken more than once for credit in different topics to a maximum of 6 units with permission of the Director of Medieval Studies.

**Prerequisites:** Third-year standing or permission of the Program.

### MEDI 490 Units: 1.5 Hours: 3-0
**Directed Studies**
Not available to Medieval Studies majors in their final year. May be taken more than once for credit to a maximum of 3 units.

**Prerequisites:** Permission of the Program.

### MEDI 499 Units: 1.5 Hours: 3-0
**Honours Graduating Essay**
The graduating essay or project will be completed under the guidance of a faculty member.

**Prerequisites:** Honours standing in fourth-year.

### MEDS

#### Medical Science

**Division of Medical Sciences**

### MEDS 301 Units: 1.5 Hours: 3-0
**Introduction to Pharmacology**
A general survey of the mechanisms of action and therapeutic application of drugs in the management of human disease. Topics will include how drugs work in the systems of the body, the actions of herbs and evidence for their use and future directions in pharmacology.

**Note:** Students enrolled in the Island Medical Program must receive permission of the Division Head before registering for this course.

**Prerequisites:** One of BIOL 150B, 190B, PSYC 215A, EPHE 241B; or permission of the division.

### MEDS 410 Units: 1.5 Hours: 3-3
**Functional Human Neuroanatomy**
Examines the neuroanatomy of the brain and spinal cord, using specific case studies to elucidate our current understanding of brain-function relationships. The coursework is supplemented by an intensive laboratory component.

**Prerequisites:** Permission of the division.

### MEDS 478 Units: 1.5 or 3.0 Hours: 3-0
**Special Topics in Medical Sciences**
Topics of current interest in medical science. This year: Neurogenesis, Sensory Processing, Histology and Neuroanatomy.

**Note:** May be taken more than once for credit in different topics with permission of the division. There may be prerequisites depending on the special topic offered.

**Prerequisites:** Permission of the division.

### MEDS 490 Units: 1.5 or 3.0 Hours: 3-0
**Directed Studies in Medical Sciences**
Research projects or directed readings.

**Note:** May be taken more than once for credit in different topics up to a maximum of 3 units.

**Prerequisites:** Permission of the division.

### MICR

#### Microbiology

**Department of Biochemistry and Microbiology**

**Faculty of Science**

### MICR 200A Units: 1.5 Hours: 3-2
**Introductory Microbiology I**
A broad introduction to the field of microbiology. Prokaryotic and eukaryotic cell structure and function; physiology and growth of microorganisms; control of microbial growth; viruses; molecular taxonomy of microorganisms.

**Note:** Credit will be granted for only one of 200A, 200.

**Prerequisites:** Second-year standing or permission of the department.

### MICR 200B Units: 1.5 Hours: 3-2
**Introductory Microbiology II**
A broad introduction to the field of microbiology. Microbial genetics and genomics; genetic engineering, biotechnology, and industrial microbiology; environmental and applied microbiology; immunology; infectious diseases.

**Note:** Credit will be granted for only one of 200B, 200.

**Prerequisites:** 200A.
MICR 302  Units: 1.5  Hours: 3-0  
Molecular Microbiology  
Genetic, genomic, biochemical and molecular approaches to studying the structure and function of microbial cells. Use of microbial systems as laboratory tools, and as model organisms for investigating biological processes. Emphasis on the application of experimental techniques to scientific problem solving.  
Prerequisites: 200A and 200B, or 200; one of BIOC 200, 299, 300A; or permission of the department.  

MICR 303  Units: 1.5  Hours: 3-0  
Immunology  
The generation of antibody diversity; immune effector mechanisms and their regulation; immunological principles as applied to research and medicine.  
Note: Credit will be granted for only one of 303, 403.  
Prerequisites: 200A and 200B, or 200.  
Pre- or corequisites: one of BIOC 200, 299, 300A; or permission of the department.  

MICR 402  Units: 1.5  Hours: 3-0  
Virology  
An advanced consideration of the molecular aspects of viruses. Emphasis will be placed on the animal viruses with respect to: infection process; replication cycle; interactions with the host cell; mechanisms of pathogenicity; vaccines. The course consists of lectures with additional literature reading and brief seminars by students.  
Prerequisites: 200A and 200B, or 200; BIOC 300A and 300B, or 300; or permission of the department.  

MICR 405  Units: 1.5  Hours: 3-0  
Biototechnology, Proteomics and Synthetic Biology  
Covers laboratory-based research and applications of biotechnology. Core topics include recombinant DNA technologies, next generation sequencing, bioinformatics, vaccine development, bio-prospecting, ocean microbiology, directed evolution, fermentation processes and biofuel productions. A substantial portion of the course is dedicated to proteomics.  
Note: Credit will be granted for only one of 405, BIOC 405.  
Prerequisites: 200A and 200B, or 200; BIOC 300A and 300B, or 300.  

MICR 408  Units: 1.5  Hours: 3-0  
Microbial Pathogenesis  
Bacterial pathogens; emphasis on molecular mechanisms of pathogenesis including antigenic variation, host cell parasitism, evasion of host immune defences, and mimicry of eukaryotic structures.  
Note: Credit will be granted for only one of 408, 301.  
Prerequisites: 302 or BIOL 361; 303 or BIOL 360; BIOC 300A and 300B, or BIOC 300; or permission of the department.  

MICR 470  Units: 1.5  
Directed Studies in Microbiology  
Normally only available to students with a minimum cumulative GPA of 5.00 and fourth-year standing in a Biochemistry/Microbiology program.  
Note: May be taken more than once in different topic areas to a maximum of 3 units.  

MRNE 400  Units: 1.5 or 3.0  
Directed Studies  
Directed studies under the supervision of a member of faculty. Involves a research project approved by the supervisor in the field of interest of the student, and will be designed to take maximum advantage of the laboratory and/or field opportunities offered by the Bamfield Marine Sciences Centre.  
Notes: - May be taken more than once for credit with permission of the department.  
- This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.  

MRNE 401  Units: 3.0  
Special Topics in Marine Biology  
Offered, as opportunities arise, by distinguished scientists who are working at the Bamfield Marine Sciences Centre. It is expected that the course will generally be of a specialized nature and be at a level appropriate to graduate or senior undergraduate students. Please visit www.bms.bc.ca for a current list of Special Topics courses.  
Notes: - May be taken more than once for credit with permission of the department.  
- This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.  

MRNE 402  Units: 1.5  
Special Topics in Marine Biology  
Offered, as opportunities arise, by distinguished scientists who are working at the Bamfield Marine Sciences Centre and are prepared to offer a course extending over a three week period. This course will generally be of a specialized nature. Please visit www.bms.bc.ca for a current list of Special Topics courses.  
Notes: - May be taken more than once for credit with permission of the department.  
- This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.  

MRNE 410  Units: 3.0  
Marine Invertebrate Zoology  
A survey of marine invertebrate phyla, with emphasis on the benthic fauna in the vicinity of the Bamfield Marine Sciences Centre. Includes lectures, laboratory periods, field collection, identification, and observation. Emphasis is placed on the study of living specimens in the laboratory and in the field.  
Note: This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.  

MRNE 412  Units: 3.0  
Biology of Marine Fishes  
The taxonomic diversity, evolution, ecology and conservation of North Pacific fishes. Laboratory and field topics include fish identification, stable isotope methodologies, database design and statistical analyses, and collecting/fishing techniques. A student field research project is required.  
Note: Credit will be granted for only one of 412, BIOL 335, 431, 431A, if taken before 201105.  
Prerequisites: BIOL 215. BIOL 307 recommended.  

MRNE 415  Units: 1.5  
Structure and Function in Animals  
Structure of marine animals, and their adaptations to the marine environment. Neurobiology, developmental biology, functional morphology and other topics.  
Note: This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.  
Prerequisites: BIOL 215, 225, 230.  

MRNE 420  Units: 3.0  
Marine Physiology  
A survey of the marine algae, with emphasis on the benthic forms, in the vicinity of the Bamfield Marine Sciences Centre. Includes lectures, laboratory periods, field collection, identification, and observation. Emphasis is placed on the study of living specimens in the laboratory and in the field.  
Note: This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.  
Prerequisites: BIOL 215, 225, 230.  

MRNE 425  Units: 1.5  
Ecological Adaptations of Seaweeds  
Morphological, physiological, genetic and reproductive adaptations of seaweeds to their natural and human-altered environments.  
Note: This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.  
Prerequisites: BIOL 215, 225, 230.  

MRNE 430  Units: 3.0  
Marine Ecology  
An analytical approach to biotic associations in the marine environment. Opportunities will be provided for study of the intertidal realm in exposed and protected areas and of beaches and estuaries in the vicinity of the Bamfield Marine Sciences Centre; plankton studies and investigations of the subtidal and benthic environments by diving and dredging are envisaged.  
Notes: - Credit will be granted for only one of 430, BIOL 406.  
- This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.  

MRNE 435  Units: 3.0  
Introduction to Biological Oceanography  
An introduction to the biology of the oceans, with supporting coverage of relevant physics and chemistry. Emphasis will be placed on plankton biology, community structure and life histories, and influencing environmental factors. Collections will be made from sheltered inlets, through Barkley Sound to offshore waters. Involves both field and laboratory studies of plankton organisms.  
Note: This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.  

MRNE 436  Units: 3.0  
Ecology and Evolution of Intertidal Organisms  
Intertidal ecology and emerging topics in evolutionary theory. Field surveys and projects will focus on form and function of intertidal taxa and application of multivariate statistical techniques to large data sets.  
Notes: - Credit will be granted for only one of 436, 401 (if taken in the same topic).  
- This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.
Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.

**Prerequisites:** BIOL 215, 307 recommended.

**MRNE 437** Units: 1.5

**Marine Population Ecology and Dynamics**
An analytical approach to the study of marine ecology and marine populations. Intertidal and subtidal communities will be examined, with emphasis on the biota of the Barkley Sound region.

**Note:** This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.

**Prerequisites:** BIOL 215, 225, 230.

**MRNE 440** Units: 3.0

**Biology of Marine Birds**
A study of the interrelationship of birds and the marine environment; the systematics and ecological relationships, behaviour, life histories, movement and conservation of marine birds; census techniques and methods of studying marine birds in the field will be treated utilizing seabirds and marine-associated birds in the Barkley Sound region. Seabird identification, classification, morphology, plumage and molt will be examined in the laboratory.

**Note:** This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.

**Prerequisites:** A course in Vertebrate Zoology or permission of the instructor.

**MRNE 445** Units: 3.0

**Biology of Marine Mammals**
A survey course covering systematics and distribution of marine mammals, their sensory capabilities and physiology, with special emphasis on the Cetacea; includes lectures, laboratory periods and numerous field trips in the Barkley Sound region. Involves an independent field study.

**Note:** This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.

**Prerequisites:** A course in Vertebrate Zoology.

**MRNE 450** Units: 1.5

**Principles of Aquaculture**
An interdisciplinary introduction to the principles underlying the commercial cultivation of aquatic plants and animals emphasizing marine systems. Includes working site-visits to a range of commercial farms and research and development facilities.

**Notes:**
- Credit will be granted for only one of 450, BIOL 407.
- This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.

**MRNE 454** Units: 1.5

**Special Topics in Aquaculture**
An examination of the culture techniques for select ed groups of aquatic plants, animals or micro-organisms. Participants will be expected to complete a project which examines some aspect of applied science relevant to commercial culture.

**Notes:**
- Credit will be granted for only one of 454, BIOL 407.
- This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.

**MRNE 480** Units: 1.5

**Seminars and Papers in Marine Science**
A weekly seminar covering current topics of interest in the marine sciences. Seminars will be presented by BMSC researchers, graduate students, visiting scientists and students.

**Note:** This is a field course offered at the Bamfield Marine Sciences Centre for upper level Biology credit. Please visit www.bms.bc.ca for more information.

**Prerequisites:** BIOL 215, 225, 230.

### MUS (Music)

#### Music School of Music

**Faculty of Fine Arts**

Courses that include instrumental or vocal instruction are available only to students registered in the BMus program. Instruction for these courses will be provided by the faculty of the School of Music.

**BMus students who fail to maintain a course load of at least 9 units (12 in the case of performance majors) will be required to withdraw from any course in the MUS 140-440 (or 145-445) series in which they are registered.**

**MUS 101A** Units: 1.5 Hours: 3-0

**Language of Music**
An introduction to tonal music, including two-part species counterpoint and the basics of four-part harmony and voice leading.

**Prerequisites:** Knowledge of the rudiments of music at a level equivalent to that of Royal Conservatory Advanced Rudiments.

**MUS 101B** Units: 1.5 Hours: 3-0

**Language of Music**
A continuation of 101A, focusing on four-part harmony and voice leading, and on the analysis of simple tonal compositions.

**Prerequisites:** 101A or permission of the School.

**MUS 105** Units: 2.0 Hours: 2-0

**Introduction to Composition**
Designed to enhance one's understanding of and development in compositional systems, processes and techniques through written exercises and assignments related to 20th century musical idioms.

**Note:** Open to all music students; non-Music students by permission of the School.

**MUS 111** Units: 1.5 Hours: 3-0

**Elementary Materials of Music**
An introduction to the rudiments of music, including pitch and rhythm notation, basic harmonic language, and a study of the elementary principles of melodic writing and harmony.

**Note:** Credit will be granted for only one of 111, 100, 100A, 101A, 101B. Not for credit in the BMus program.

**MUS 115** Units: 3.0 Hours: 3-0

**Listening to Music**
A course for the non-professional, designed to enhance understanding and appreciation of Western music. Assignments include listening to recordings and attendance at selected University concerts.

**Note:** Not open for credit to students registered in or with credit in any one of 110, 110A, 110B, 120A, 120B, 220A, 220B. Not open to BMus students and cannot be used as a music elective.

**MUS 120A** Units: 1.5 Hours: 3-1

**History of Music I**
An introductory survey of music and musical values in society through humanistic, cultural, historical and musical-analytical perspectives. These issues will be explored in the context of music from Antiquity to circa 1580.

**2012-13 UVIC CALENDAR**

**Note:** Credit will be granted for only one of 120A, 110, 110A.

**MUS 120B** Units: 1.5 Hours: 3-1

**History of Music II**
The development of Western art music from circa 1580 to circa 1770.

**Note:** Credit will be granted for only one of 120B, 110, 110A.

**MUS 140** Units: 2.0 Hours: 0-1

**Individual Tuition**
Lessons in instrument or voice.

**Prerequisites:** Evidence of marked musical ability demonstrated by audition.

**MUS 141A** Units: 1.0 Hours: 0-5

**Individual Tuition Strings**
Lessons in strings as a secondary instrument for exceptional students.

**Note:** May be taken more than once for credit in 1 unit per year to a maximum credit of 3 units. Available only with permission of the School.

**MUS 141B** Units: 1.0 Hours: 0-5

**Individual Tuition Woodwinds**
Lessons in woodwinds as a secondary instrument for exceptional students.

**Note:** May be taken more than once for credit in 1 unit per year to a maximum credit of 3 units. Available only with permission of the School.

**MUS 141C** Units: 1.0 Hours: 0-5

**Individual Tuition Brasses**
Lessons in brasses as a secondary instrument for exceptional students.

**Note:** May be taken more than once for credit in 1 unit per year to a maximum credit of 3 units. Available only with permission of the School.

**MUS 141D** Units: 1.0 Hours: 0-5

**Individual Tuition Percussion**
Lessons in percussion as a secondary instrument for exceptional students.

**Note:** May be taken more than once for credit in 1 unit per year to a maximum credit of 3 units. Available only with permission of the School.

**MUS 141E** Units: 1.0 Hours: 0-5

**Individual Tuition Voice**
Lessons in voice as a secondary instrument for exceptional students.

**Note:** May be taken more than once for credit in 1 unit per year to a maximum credit of 3 units. Available only with permission of the School.

**MUS 141F** Units: 1.0 Hours: 0-5

**Individual Tuition Keyboards**
Lessons in keyboards as a secondary instrument for exceptional students.

**Note:** May be taken more than once for credit in 1 unit per year to a maximum credit of 3 units. Available only with permission of the School.

**MUS 142** Units: 1.5 Hours: 3-0

**Lyric Diction**
A study of the basic phonetics and accepted principles of lyric diction of the most commonly used languages in concert and operatic repertoire: Italian, French, German, English. Emphasis on performance.

**MUS 170A** Units: 0.5 Hours: 2-1

**Formerly: MUS 170**

**Basic Musicianship IA**
Beginning sightreading, dictation and corresponding keyboard skills.
MUS 170B  Units: 0.5  Hours: 2-1
Formerly: MUS 170
Basic Musicianship I
Continuation of MUS 170A.
Corequisites: 101A.

MUS 172  Units: 1.5  Hours: 1.5-0
Fundamentals of Collaborative Piano
Principles of ensemble playing for pianists.
Note: This course is for pianists in the School of Music only.

MUS 180  Units: 1.0  Hours: 0-4
Ensembles
Large Ensembles including University Orchestra, University Wind Symphony, University Chorus, Chamber Singers, Jazz Orchestra, and Jazz Ensemble.

MUS 181  Units: 1.0  Hours: 0-3
Chamber Music
Ensembles include the standard chamber groups as well as New Music Ensemble (Sonic Lab), Opera Ensemble, Brass Choir, Vocal Jazz Ensemble and Accompanying.

MUS 188  Units: 1.0  Hours: 0-3
Philomela Women’s Choir
A choral ensemble open to all university students including School of Music students. Subject to limited enrolment.
Prerequisites: Placement by audition with the instructor before the first class.

MUS 201A  Units: 1.5  Hours: 3-0
Language of Music
The structural principles, harmonic and contrapuntal practices of tonal music of the late 18th century explored through analysis and composition.
Prerequisites: 101B or permission of the School.

MUS 201B  Units: 1.5  Hours: 3-0
Language of Music
A continuation of 201A. The structural principles, harmonic and contrapuntal practices of tonal music of the 19th century explored through analysis and composition.
Prerequisites: 201A or permission of the School.

MUS 204  Units: 2.0  Hours: 1-1
Music Composition for Non-Majors I
Composition class for non-Majors.
Note: Attendance at the Master Class Seminar required.
Prerequisites: 105 or permission of the School.

MUS 205  Units: 3.0  Hours: 2-1
Music Composition I
Individual and class lessons with members of the Music Composition faculty. Compositions for solo and small ensembles. Attendance required at Composition Master Class Seminar.
Note: For Music Composition Majors.
Prerequisites: Admission to Music Composition Major.

MUS 207  Units: 1.5  Hours: 3-0
Music, Science and Computers
An investigation into the historical relationships among music, science and technology, leading to current possibilities in computers and music. Focuses on the use of computers in music composition, analysis and synthesis of sound. Open to all students.
Note: No prerequisites, though some musical and/or mathematical background is extremely helpful.

MUS 208  Units: 1.5  Hours: 3-0
Popular Music and Society I
The topic of the course will vary in different years, and may include music for the cinema, folk music, rock music, the blues, or a specific performer or group.
Note: May take more than one course for credit in different topics with permission of the School to a maximum of 3 units. Not for credit in the BMus program.

MUS 209  Units: 1.5  Hours: 3-0
Topics in Applied Music I
Topics will vary and may include recording and production techniques, the art of performing, commercial music and other related subjects.
Note: May take more than one course for credit. Not for credit in the BMus program.

MUS 217  Units: 1.5  Hours: 3-0
Understanding Music in Concert
Intended for the general listener. Designed to enhance the experience of live concert music. Preparation for attendance at selected School of Music concerts will include live presentation of specific works to be performed as well as information regarding historical context and ideas about style and interpretation.
Note: May take more than one course for credit. Not for credit in the BMus program.

MUS 220A  Units: 1.5  Hours: 3-0
History of Music III
The development of Western music from circa 1770 to circa 1880.
Note: Credit will be granted for only one of BMus 220A, 313A, 313B, 110, 110B.

MUS 220B  Units: 1.5  Hours: 3-0
History of Music IV
The development of Western music from circa 1880 to present.
Note: Credit will be granted for only one of BMus 220B, 313A, 313B, 110, 110B.

MUS 236  Units: 1.5  Hours: 1-1
Keyboard
Group instruction in piano. Students who already possess adequate keyboard skills are not permitted to register for this course.
Note: One or two terms: 2-2 or 1-1.

MUS 240  Units: 2.0  Hours: 0-1
Individual Tuition
Lessons in instrument or voice.

MUS 245  Units: 4.0  Hours: 1-1
Seminar in Performance
Individual tuition and weekly class including discussion of repertoire, pedagogy, and techniques of ensemble performance.
Note: For Performance Majors only.
Prerequisites: Recommendation of the School.

MUS 270A  Units: 0.5  Hours: 2-1
Formerly: MUS 270
Basic Musicianship IIA
A continuation of 170B.
Note: - All components must be completed in order to pass the course.
- Credit will be granted for only one of 270A, 270B.
Prerequisites: 170 A and B (or 170), and 101A and B.
Corequisites: 201A.

MUS 270B  Units: 0.5  Hours: 2-1
Formerly: MUS 270
Basic Musicianship IIB
A continuation of 270A.
Note: - All components must be completed in order to pass the course.
- Credit will be granted for only one of 270A, 270B.
Prerequisites: 270A.
Corequisites: 201B.

MUS 280  Units: 1.0  Hours: 0-4
Ensembles
Large Ensembles including University Orchestra, University Wind Symphony, University Chorus, Chamber Singers, Jazz Orchestra, and Jazz Ensemble.

MUS 281  Units: 1.0  Hours: 0-3
Chamber Music
Ensembles include standard chamber groups as well as New Music Ensemble (Sonic Lab), Opera Ensemble, Brass Choir, Vocal Jazz Ensemble and Accompanying.

MUS 288  Units: 1.0  Hours: 0-3
Philomela Women’s Choir
A choral ensemble open to all university students including School of Music students. Subject to limited enrolment.
Prerequisites: 188 and placement by audition with the instructor before the first class.

MUS 301A  Units: 1.5  Hours: 3-0
Language of Music
Prerequisites: 101B and 220B, or permission of the School.

MUS 301B  Units: 1.5  Hours: 3-0
Language of Music
Prerequisites: 301A or permission of the School.

MUS 304  Units: 2.0  Hours: 1-1
Music Composition for Non-Majors II
Composition class for non-Majors.
Note: Attendance at the Master Class Seminar required.
Prerequisites: 204 or 205 or permission of the School.

MUS 305  Units: 3.0  Hours: 2-1
Music Composition II
Individual and class lessons with members of the Music Composition faculty. Compositions for solo, small and large ensembles.
Note: Attendance required at Master Class Seminar. For Music Composition majors.
Prerequisites: 205 or permission of the School.
MUS 306 Units: 1.5 Hours: 2-4
Sound Recording Techniques
Introduction to the theory and practice of sound recording and audio technology, including microphones, mixers and other studio components. Also introduces the use of computers in modern studio recording and processing. Practical work includes recording sessions and work in a studio.
Prerequisites: 207 or permission of the School.

MUS 307 Units: 1.5 Hours: 3-0
Introduction to Computer Music
Introduction to electroacoustic and computer music. Practical experience in a computer music studio, with synthesizers, samplers, MIDI, digital audio, and other computer music techniques.
Prerequisites: 207 or permission of the School.

MUS 308 Units: 1.5 Hours: 3-0
Popular Music and Society II
The topic of the course will vary in different years, and may include intensive studies of music for the cinema, folk music, rock music, the blues, or a specific performer or genre.
Note: May be taken more than once for credit in different topics with permission of the School to a maximum of 3 units. Not for credit in the BMus program.

MUS 309 Units: 1.5 Hours: 3-0
Topics in Applied Music II
A continuation of 209. Topics may include song writing, film scoring, making and selling your own music and other related subjects.
Note: May be taken more than once for credit in different topics. Some topics may be eligible for credit in the BMus program. Students should consult the School.

MUS 310 Units: 1.5 Hours: 3-0
Introduction to Jazz Improvisation
Formerly: MUS 347
This is an introductory course, it is not a beginner’s course. A background in theatre is recommended.
Note: Students in the BMus program whose principal instrument is voice must consult with their voice instructors before registering in this course.

MUS 311 Units: 1.5 Hours: 3-0
Music and Culture of Cuba
An introduction to the field of ethnomusicology as well as to Cuban music. This is a study of Cuba’s folkloric, popular and religious music. Because Cuba’s history and culture are so varied, the course includes a study of Spain, Europe and West Africa. In addition, it surveys the profound and far-reaching influence that Cuba has had on popular music around the world and examines the recent political and social history of Cuba.
Note: Credit will be granted for only one of 319 and 320 (if taken in the same topic).
Prerequisites: 101B or permission of the School.

MUS 312 Units: 1.5 Hours: 3-0
A Composer’s Style and Music
A study of works of a major composer in the period from the 15th to 20th centuries. Emphasis will be placed on analysis, style and performance practice.

Note: May be taken more than once for credit in different topics.
Prerequisites: 101B and 120A or permission of the School.

MUS 313 Units: 1.5 or 3.0 Hours: 3-0
Forms and Genres in Music
The study of a single musical form or genre; for example, opera, symphony, sonata.
Note: May be taken more than once for credit in different topics.
Prerequisites: 101B and 120A or permission of the School.

MUS 314 Units: 1.5 or 3.0 Hours: 3-0
Music in Canada
The history of music in Canada from the time of Cartier (1534) to the present.
Prerequisites: 101B and 120A or permission of the School.

MUS 315 Units: 1.5 Hours: 3-0
Topics in Music and the Cinema
Note: Students should consult the School for the specific topic to be considered. May be taken more than once for credit in different topics with permission of the School.
Prerequisites: 120A or permission of the School.

MUS 316 Units: 1.5 Hours: 3-0
Popular Music and Society I
The study of a single musical form or genre; for example, opera, symphony, sonata.
Note: May be taken more than once for credit in different topics with permission of the School to a maximum of 3 units.
Prerequisites: 120A or permission of the School.

MUS 317 Units: 1.5 Hours: 3-0
Music Criticism and Aesthetics
Study of selected topics dealing with the aesthetics and the criticism of music.
Note: May be taken more than once for credit in different topics with permission of the School.
Prerequisites: 120A and 1201B or permission of the School.

MUS 318 Units: 1.5 Hours: 3-0
Keyboard Literature: 1820 to the Present
A survey of the development and growth of jazz with emphasis on the major stylistic periods, the principal soloists and composers, and the great recorded performances.

Note: Credit will be granted for only one of 325, 325A.

MUS 319 Units: 1.5 Hours: 3-0
The History of Jazz
A survey of the development and growth of jazz with emphasis on the major stylistic periods, the principal soloists and composers, and the great recorded performances.

Note: Credit will be granted for only one of 325, 325A.

MUS 320 Units: 1.5 Hours: 3-0
Women and Music
Study of the role of women in the field of music.
Prerequisites: 101B and 120A or permission of the School.

MUS 321 Units: 1.5 Hours: 1-1
Strings
Group instruction in playing orchestral string instruments.

MUS 322 Units: 1.5 or 3.0 Hours: 3-0
A Composer’s Style and Music
A study of works of a major composer in the period from the 15th to 20th centuries. Emphasis will be placed on analysis, style and performance practice.

</table>
Such students may be required to participate in ensembles.

**Prerequisites:** 340.

**MUS 445**  
Units: 6.0  
Hours: 1-2

**Seminar in Performance**  
Individual tuition, integrated performance seminar and weekly class including discussion of repertoire, pedagogy, and techniques of ensemble performance.

**Note:** For Performance Majors only.

**Prerequisites:** 345.

**MUS 447**  
Units: 1.5  
Hours: 3-0

**Jazz Improvisation**  
This one term course is an advanced improvisation course which follows MUS 347A. Performance based, participants will explore advanced improvisation including tonal, bi-tonal and free harmonic models, odd meters, contemporary performance practice, and World Music models. Work will include transcriptions and regular concert attendance.

**Prerequisites:** 347 or 347A.

**MUS 448**  
Units: 1.0  
Graduating Recital

**Note:** For Performance Majors only.

**Prerequisites:** 345.

**Grading:** INC, COM, N. F.

**MUS 456A**  
Units: 1.5  
Hours: 3-0

**Choral Conducting**  
Prerequisites: 356B or permission of the School.

**MUS 456B**  
Units: 1.5  
Hours: 3-0

**Instrumental Conducting**  
Prerequisites: 356B or permission of the School.

**MUS 462A**  
Units: 1.5  
Hours: 0-3

**Seminar in Performance of New Music**  
This seminar/workshop provides intensive professional training for performers who work together with composers in the creation, performance and production of new music. Performers will prepare new works composed specifically for them by the composers registered simultaneously in MUS 462B. Training in contemporary notation and performance practices, extended techniques, instrumentations, analysis, conducting techniques, communication skills and concert production. The final project is a festival. Open to third- and fourth-year music students.

**Note:** Taught together with 562A (Graduate Seminar in Performance of New Music).

**Prerequisites:** Third-year standing and 201B, or permission of the instructor.

**MUS 480**  
Units: 1.0  
Hours: 0-4

**Ensembles**  
Large Ensembles including University Orchestra, University Wind Symphony, University Chorus, Chamber Singers, Jazz Orchestra, and Jazz Ensemble.

**Note:** May be taken a second time by students in a fifth year of study with permission of the Dean of Fine Arts.

**MUS 481**  
Units: 1.0  
Hours: 0-3

**Chamber Music**  
Ensembles include the standard chamber groups as well as New Music Ensemble (Sonic Lab), Opera Ensemble, Brass Choir, Vocal Jazz Ensemble and Accompanying.

**Note:** May be taken a second time by students in a fifth year of study with permission of the Dean of Fine Arts.

**MUS 488**  
Units: 1.0  
Hours: 0-3

**Philoemla Women’s Choir**  
A choral ensemble open to all university students including School of Music students. Subject to limited enrolment.

**Prerequisites:** 388 and placement by audition with the instructor before the first class.

**MUS 490**  
Units: 1.5  
Hours: 3-0

**Special Studies**  
With the consent of the School, a student who has demonstrated a capacity for independent work may undertake an individual project.

**Note:** May be taken more than once for credit.

**MUS 499**  
Units: 3.0  
Hours: 3-0

**Graduating Projects in Music History**  
A graduating project consisting of a major essay, study of selected readings, and an oral defence.

**Note:** For Music History Majors only.

**NURS**

**Nursing**

**School of Nursing**

**Faculty of Human and Social Development**

All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

**NURS 300**  
Units: 1.5

**Academic Writing for Nurses**  
This elective online credit course, offered to both continuing and post-RN students, gives students practice writing academic genres: summaries, analyses, arguments, abstracts and literature reviews. Students brush up on grammar and APA skills and share and improve their writing through peer review and revision. Scaffolded assignments, drafting, revision, and self-reflective exercises assist students to develop writing voice and build confidence. This course will appeal to undergraduate nursing students eager to improve academic writing.

**Note:** Credit will be granted for only one of 300, 390, (Introduction to Academic Writing), 480 (Academic Writing for Nurses).

**NURS 325**  
Units: 1.5

**Explorations of Nursing Knowledge and Practice**  
An introduction to socio-historical context and philosophical underpinnings informing nursing practice.

**NURS 341**  
Units: 1.5

**Professional Practice IV: Nursing Inquiry**  
Builds on Professional Practice I, II, and III. Knowledge for the discipline of nursing is explored as well as various modes of inquiry. Relationships between practice, theory, and research are explored.

**Prerequisites:** Continuing Students: Professional Practice III.

**NURS 342**  
Units: 1.5

**Health and Healing VI: Global Health Issues**  
Study of complex chronic and episodic global health challenges and issues. Emphasis is placed on the role of the nurse as care provider, community organizer/educator, advocate and advocate within the context of the global society and the changing health care environment. Participants examine emerging health issues and trends further to develop their understanding of nursing practice.

**NURS 345**  
Units: 3.0

**Family Nursing**  
Building on existing knowledge of registered nurses, students have the opportunity to develop an understanding of health-promoting family nursing. Four major domains are explored theoretically and empirically: health, family, relational nursing practice and ethics.

**Note:** Credit will be granted for only one of 345, 330, 331.

**NURS 350**  
Units: 1.5

**Health and Healing VII: Promoting Community and Societal Health**  
The role of the nurse in promoting community and societal health. A companion course with Health and Healing VI. Participants will continue to develop competencies in relational practice with a focus on community and society as client. Topics include the political role of the nurse in working with communities explored from a social justice and equity perspective; community development and capacity building for community health promotion; transformative and emancipatory approaches to teaching and learning.

**Note:** A student must pass both theory and practice corequisites in the same term to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they will be required to complete both corequisites again the next time they are offered.

**Prerequisites:** Continuing Students: Health and Healing VI.

**Corequisites:** Post-diploma and Continuing Students: 345.

**NURS 351**  
Units: 1.5

**Nursing Practice VI: Promoting Health of Communities and Society**  
This nursing practice experience provides opportunities to develop caring relationships with families, groups and communities and/or populations with an emphasis on health promotion and community empowerment. Participants have opportunities to work with a community on an identified health issue.

**Note:** A student must pass both theory and practice corequisites in the same term to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they will be required to complete both corequisites again the next time they are offered.

**Prerequisites:** Health and Healing VI.

**Post-diploma students:** 345.

**Corequisites:** Post-diploma and Continuing Students: 351.
Prerequisites: Continuing Students: Health and Healing VI.
Post-diploma students: 345.
Corequisites: Post-diploma and Continuing Students: 350.
Grading: COM, F.

NURS 360 Units: 1.5
Professional Practice VI: Nursing Research
Building on Professional Practice II, III, and IV, participants will enhance their understanding of nursing scholarship and their abilities to comprehend, critique, and utilize nursing research. Participants critically reflect on various scholarly works and research methodologies. Participants examine ways to critically examine their practice in relation to nursing research and to pose research questions for evidence-informed practice.  

Note: CPE Workshops are required for continuing students.

Prerequisites: 341, 342, 350, 351.
Grading: COM, F.

NURS 370 Units: 4.5
Consolidated Practice Experience III
This consolidated practice experience is designed to provide opportunities for participants to integrate learning from previous semesters, and to advance their professional nursing practice. Participants have opportunities to consolidate learning and advance their clinical decision making in a variety of settings. Nursing practice experiences consist of a six week practice placement.

Note: Offered as resources permit.

NURS 390 Units: 1.5 or 3.0
Directed Studies
Directed readings, research projects or special studies in a specified area of interest. A proposal is developed in consultation with a faculty member and includes a plan for the evaluation of the student’s work. The proposal must receive the approval of the Director or designate before students are permitted to register.

Note: Offered as resources permit.

NURS 425 Units: 1.5
Qualitative and Quantitative Analysis
A grounding in the techniques commonly used in the analysis of both quantitative and qualitative data. Students will engage in the process of qualitative analysis through examining qualitative data, data coding and thematic construction. A range of descriptive and inferential statistical approaches to quantitative analysis are examined using a computer-based system.

Notes: Credit will be granted for only one of 425, HSD 425.
- Strongly recommended for those applying to Nursing graduate programs. All students must have basic computing and word processing skills prior to enrolling in the course. Students taking the course off-campus must have access to a PC computer with a CD-Drive.

NURS 430 Units: 1.5
Professional Practice V: Leadership in Nursing
A study of nursing leadership in the promotion of health for individuals, families, groups and communities in a global context. Topics include the role of the nurse in the Canadian health care system; the impact of global trends and issues; the issues facing nurses in the current work environment; collaborative and ethical approaches for working within institutional philosophies and frameworks.

Note: A student must pass both theory and practice corequisites in the same term to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they will be required to complete both corequisites again the next time they are offered.

Prerequisites: Continuing Students: 350, 351.
Post-diploma students: 345, 350, 351.
Corequisites: Post-diploma and Continuing Students: 431.

NURS 431 Units: 1.5
Nursing Practice VII: Engaging in Leadership
Opportunities to further develop competencies in the areas of leadership, influencing and managing change, and using research to promote the health of individuals, families, communities and society within the context of the Canadian health care system. Focus on participants’ growth as nursing professionals; opportunities to explore interprofessional practices and nursing leadership in the context of emerging Canadian and global health issues and trends.

Note: A student must pass both theory and practice corequisites in the same term to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they will be required to complete both corequisites again the next time they are offered.

Prerequisites: Continuing Students: 350, 351.
Post-diploma students: 345, 350, 351.
Corequisites: Post-diploma and Continuing Students: 430.
Grading: COM, F.

NURS 440 Units: 1.5
Pharmacological Knowledge for Nursing Practice
A systematic approach to develop knowledge of pharmacological, herbal and homeopathic interventions. Students will have opportunities to explore populations of interest and local, national, and/or global issues related to pharmacological interventions and marketing. Students will work collaboratively to develop and disseminate nursing knowledge.

Note: In the on-campus course, online work complements in-classroom instruction. In the online course, conferencing tools will be used to augment required learning activities, readings and assignments.

NURS 450 Units: 1.5
Nursing Leadership and Management
Enhances participants’ understanding of the meaning of leadership and the tasks of management. Worldviews that influence perceptions of health care and health organizations, and current approaches to managing health care will be studied. Nursing leadership in establishing a climate in which quality of care and quality work environments can become a reality are emphasized.

NURS 470 Units: 4.5
Consolidated Practice Experience IV
This consolidated practice experience is designed to provide opportunities for participants to integrate learning from previous semesters, and to advance their professional nursing practice. Participants have opportunities to consolidate learning and advance their clinical decision making in a variety of settings. Nursing practice experiences consist of a six week practice placement.

Note: CPE Workshops are required for continuing students.

Prerequisites: 370.
Grading: COM, F.

NURS 475 Units: 4.5
Consolidated Practice Experience V
This final consolidated practice experience is designed to provide opportunities for participants to integrate learning from previous semesters, and to advance their professional nursing practice. In a variety of settings, participants have opportunities to consolidate learning, and advance their clinical decision making. Nursing practice experiences consist of a six week practice placement.

Note: CPE Workshops are required for continuing students.

Prerequisites: 360, 370, 430, 431.
Pre- or corequisites: 470.
Grading: COM, F.

NURS 480 Units: 1.5 or 3.0
Special Topics
Topics of current interest or concern to groups of students.

Note: May be taken more than once in different topics for credit in the BSN program with prior permission of Nursing Advising, and will usually fulfill credit toward nursing elective(s).

NURS 481C Units: 1.5
Nursing Practice in Hospice Palliative Care
Explores nursing practice in hospice palliative care. Historical, theoretical, personal, and professional perspectives are presented for ongoing examination and discussion in relation to their impact on and guidance for nursing practice. Central to this exploration is a growing understanding of the human experience of persons living their dying and how we as nurses choose to engage with and serve hospice palliative care patients. It is our goal that, through examination of these various dimensions, students will be guided to practice with persons living their dying in ways that uphold human dignity and honour human uniqueness.

NURS 482 Units: 1.5
Teaching and Learning in Nursing Practice
Considers pedagogies that are consistent with a human science paradigm and health promotion perspective. In addition, students are expected to develop their unique approaches to teaching and learning within these perspectives. Focuses on pedagogical considerations involved in health promotion nursing practice.

NURS 484 Units: 1.5
Nursing with Aboriginal Peoples in Canada
An introduction to nursing with Aboriginal peoples in Canada. Through the use of storytelling, self-reflection, and a critical framework, learners are invited to enter into a “dialogue” with Aboriginal and non-Aboriginal individuals, community members and nurses. Together, as a community of learners, we will explore the essential concepts of relationship and power related to working with Aboriginal people and communities. Major themes covered in the course materials and through course interactions are: an examination of colonialism in Canada and its impacts, particularly on Aboriginal people, cultural safety, ethical relationships, and the responsibilities of nurses working in this context. While primarily focused on nursing, all human service professionals are invited to participate in this course.

NURS 486 Units: 1.5
Mental Health Challenges in Later Life
Designed to assist frontline professionals to work with persons who experience mental health problems. Studies will include: stressors affecting emotional health in the elderly, mental health assessment, interventions useful in the management of problematic behaviours in the elderly, environmental strategies for increasing functioning in older people,
and community resources for meeting mental health needs. Provides multiple opportunities to apply theory in practice and to develop attitudes conducive to effecting positive changes in the workplace.

NURS 487  Units: 1.5  Health Care Law
Designed to allow students to develop an understanding of the origin and sources of the law as it applies to the Canadian health care system. Stimulates an appreciation for legal terminology, reasoning, and processes as well as the basic principles of law which apply to and govern the delivery of health care services in Canada. Designed to develop an ability to identify the legal aspects of health care practice, information systems and management as well as an ability to determine when and how to use legal counsel effectively.

Note: Credit will be granted for only one of 487, HINF 330, HINF 491 (if taken in the same topic).

NURS 488  Units: 1.5  Gendering Health Care Practices in Nursing
An examination of how societal constructions of women's and men's characteristics, roles, and positions produce taken-for-granted notions about femininities and masculinities in health care. We move beyond biomedical knowledge to analysis of how social, political, and economic conditions shape people's lives and their experiences of health, exploring the interrelationships of power, knowledge, and society to better understand gendering health care practices in nursing.

NURS 489  Units: 1.5  Culture and Health
A critical examination of the relationship between culture and health, and the impact of immigration, colonialism and racialization. Approaches to working within diversity to foster cultural safety are explored with a particular emphasis on health care for First Nations and immigrant people.

NURS 490  Units: 1.5 or 3.0  Directed Studies
Directed readings, research projects or special studies in a specified area of interest. A proposal is developed in consultation with a faculty member and includes a plan for the evaluation of the student's work. The proposal must receive the approval of the Director or designate before students are permitted to register.

Note: Offered as resources permit.

NURS 491  Units: 4.5  Nursing Practice VIII: Transitions
The nursing practice experience provides opportunities for participants to consolidate their learning and explore the transition to professional nursing as a BSN graduate. Participants also explore transitions in the health care system and the workplace that affect nurses. Participants may develop their practice within a specific area, e.g., particular setting of practice, a certain client population, or a specific health challenge.

Note: CPE Workshops are required for continuing students.
Prerequisites: 470.
Pre- or corequisites: 475.
Grading: COM, F.

NURS 493A  Units: 1.5  Community Health Nursing
The theoretical and conceptual foundations of community health nursing practice. Students will explore and critique nurses' roles in community health nursing, particularly in public health and in primary health care settings. Provides opportunities to advance and/or to add to your nursing knowledge and experience. Community health assessment, individual health assessment, population-focused practice, epidemiology, communicable disease control, and health-promoting practice with specific populations and in relation to specific health issues are explored and critiqued.

Prerequisites: Continuing students: completion of Term 6, or permission of the department.

NURS 493C  Units: 1.5  Lived Experience of Health in Aging
The complex nature of aging and health. Students will explore the determinants of health, as well as the common chronic and episodic challenges of health and healing in later life. Changing demographics and societal forces influencing present and future health care of older persons will be analyzed and critiqued. In addition, nursing theory and issues related to the delivery of care with older persons will be examined. Health promotion and nursing practice, and environments that support healthy aging are integral to this course.

Prerequisites: Continuing students: completion of Term 6, or permission of the department.

NURS 494  Units: 1.5  Nursing Practice in Cancer Care
Begins from the premise that the person who is living with cancer is the expert in his or her own experience and life. This approach offers the student complex, life-encompassing experiences in relation to cancer diagnosis and treatment, examines the role of the cancer care team, and offers the opportunity to explore the power relations informing expert practices.

NURS 495  Units: 1.5-4.5  Nursing Practice Synthesis
This final practice course is designed to foster integration and synthesis of prior course work. The focus is on research and theory-based nursing practice.

Note: Post-diploma students may take 495 more than once for credit to a maximum of 4.5 units. Students who wish to condense their practice hours will not be able to do so until after six weeks of the course.
Prerequisites: Post-diploma students: 345, 350, 351.
Grading: COM, F.

NURS 496  Units: 1.5  Nursing with Childbearing Families
A woman and family-centered approach that attends to health inequities, material, social, and discursive conditions, and the experiences of all family members will be used to explore nursing care for childbearing families from preconception through the childbearing year. Nursing students will develop the knowledge and clinical judgement needed for working with common perinatal, neonatal, and public health nursing situations.

PAAS

Pacific and Asian Studies

Department of Pacific and Asian Studies

Faculty of Humanities

Language Course Restriction

Students who have completed courses in a language at UVic or through transfer credit will not be granted credit for subsequent courses at a lower level in the same language.

Chinese Language Courses:
The department takes two criteria into account in considering advanced placement for students entering Chinese language courses at the University. One of these is competence in spoken Modern Standard Chinese (Mandarin); the other is ability to read and write the Chinese script.

For purposes of course placement, the department normally defines "native speakers" as those who are native speakers of any of these languages and who are also able to read at least simple materials (i.e., at the middle school level) written in the Chinese script. "Native speakers" who lack a good foundation in spoken Mandarin or whose reading ability in Chinese is not equivalent to that of a high school graduate should register in PAAS 212 or 313; others should register in PAAS 410.

Students whose ability to read and write Chinese is limited but who have some experience in spoken Mandarin, including those with high school credit in Mandarin, should consult the department about advanced placement. Students who register in Chinese language courses without such consultation may be required to transfer to different courses at the department's discretion. Note that students who have passed the provincial examination in Mandarin 12 may not register in PAAS 110 or 111.

Indonesian and Japanese Language Courses:
Courses marked * are not available to native speakers of Indonesian and Japanese. A native speaker is normally defined in this context as a person who has received sufficient instruction to be literate in the language. Students who are not native speakers, but who do have some knowledge of the language, will be placed at an appropriate level; however, such students may, at the instructor's discretion, be required to withdraw or to transfer to a higher level course should their language proficiency prove greater than was initially supposed.

PAAS 100  Units: 1.5  Hours: 3-0  Introduction to Pacific and Asian Studies

Central themes and various aspects of Asian and Pacific Studies from the early-modern period to the present day. Studies of film, literature, religion, politics and economics.

PAAS 101  Units: 1.5  Hours: 3-0  Introduction to Textual Analysis

The process of textual analysis, covering the written word, film and theatre from different genres, eras and countries.

PAAS 105  Units: 1.5  Hours: 3-0  Pacific and Asia Today

Introduces peoples and countries across the region through a study of contemporary events and issues reported in the public media. Provides students with the foundations of a historical and theoretical context, exercising critical skills in encountering media reports of environmental disasters, political crises, social movements and new technological developments.

PAAS 110  Units: 3.0  Hours: 6-1  Formerly: CHIN 149

Intensive Beginner Modern Chinese I

Intensive Chinese language instruction for beginning students. Limited to 25 students per section.

PAAS 111  Units: 3.0  Hours: 6-1  Formerly: CHIN 150

Intensive Beginner Modern Chinese II

Continuation of 110 for those students who intend to practise their listening comprehension, speaking and reading abilities, and writing skills on a more advanced level.

Note: Credit will be granted for only one of 111, CHIN
Aspects of Chinese Culture II

Formerly: SEA 100A

Introduction to Indonesian-Malay I

Indonesian-Malay for students with no previous knowledge of the language with emphasis on developing listening comprehension and speaking ability; common conversational patterns, as well as some of the cultural reasoning behind them. Reading and writing will also be introduced.

Note: Credit will be granted for only one of 120, SEA 100A. Limited to 25 students per section.

PAAS 120*

Units: 1.5

Formerly: SEA 100B

Introduction to Indonesian-Malay II

Basic conversations and grammar in Indonesian-Malay and readings of a variety of elementary textual materials.

Note: Credit will be granted for only one of 121, SEA 100B. Limited to 25 students per section.

PAAS 121*

Units: 1.5

Formerly: JAPA 149

Introductory Japanese I

Japanese language instruction for beginning language students. Development of basic language skills, including listening comprehension, speaking, reading and writing, through lectures, class discussions, tutorials for conversation practice, laboratory sessions, and other activities.

Note: Credit will be granted for only one of 130, JAPA 149, 100A, 100B, or equivalent.

PAAS 130*

Units: 3.0

Formerly: JAPA 150

Introductory Japanese II

Continuation of 130 for those students who intend to practise their listening comprehension, speaking and reading abilities, and writing skills on a more advanced level.

Note: Credit will be granted for only one of 131, JAPA 150, 200.

PAAS 131*

Units: 3.0

Formerly: CHIN 201A

Aspects of Chinese Culture I

An introduction to the history and culture of China from earliest times to the mid-19th century. Philosophy, religion, art and literature will be the most important areas of discussion. Relevant political, economic, social and educational traditions will be introduced as well.

Note: Credit will be granted for only one of 150, CHIN 201A, 201. No knowledge of Chinese language is required.

PAAS 150

Units: 1.5

Formerly: CHIN 201B

Aspects of Chinese Culture II

A survey of Chinese culture from the mid-19th century to the present. Contemporary culture patterns will be placed in traditional perspective, while relevant political, economic and social contexts will also be considered. Emphasizing the effects of modern events on cultural life, particularly literature, the arts, religion and education system.

Note: Credit will be granted for only one of 151, CHIN 201B, 201.

PAAS 170

Units: 1.5

Formerly: SEA 201A, half of 201

Southeast Asian Cultures and Societies I

A survey of cultural developments in Southeast Asia from earliest times to the 19th century.

Note: Credit will be granted for only one of 170, SEA 201A, 201.

PAAS 171

Units: 1.5

Formerly: SEA 201B, half of 201

Southeast Asian Cultures and Societies II

Examines the development of modern Southeast Asian cultures, paying particular attention to media, film, fashion, music, theatre, and political and economic processes in the Pacific.

Note: Credit will be granted for only one of 171, SEA 201B, 201.

PAAS 180

Units: 1.5

Formerly: JAPA 201A

Premodern Japanese Culture

Surveys Japan’s cultural past from earliest times to the mid-19th century. Emphasizes the outstanding developments of each epoch, especially in the areas of literature, drama, philosophy and religion, and the visual arts. No knowledge of Japanese language is required.

Note: Credit will be granted for only one of 180, JAPA 201A, 201.

PAAS 181

Units: 1.5

Formerly: JAPA 201B

Modern Japanese Culture

Survey of Japanese culture from the mid-19th century to the present. Developments in literature, film, art, technology, ethnicity, religion, consumerism, manga and anime will be considered in their historical and social contexts. No knowledge of Japanese language is required.

Note: Credit will be granted for only one of 181, JAPA 201B, 201.

PAAS 182

Units: 1.5

Formerly: JAPA 201C

Aspects of Japanese Culture III

An intensive, three-week course to introduce features of Japanese culture to students involved in an immersion Japanese language and culture program. Enrollment requires full participation in that program (including intensive language study). Covers Japan since 1455 with an emphasis on practical cultural issues such as education, government, workplace issues, Japanese social structure, gender relations and family problems, as well as literature, and popular and consumer culture.

Note: Credit will be granted for only one of 182, JAPA 201C.

Prerequisites: Registration in the immersion Japanese language and culture program.

PAAS 200

Units: 1.5

Formerly: PACI 281

Introduction to Theories and Methods in Pacific and Asian Studies

A variety of theoretical approaches and perspectives applicable to the study of the Pacific and Asian region.

Prereq- or corequisites: 100 or PACI 210.

PAAS 201

Units: 1.5

Formerly: PACI 280

Cultural Politics and Popular Culture in Asia and the Pacific

Introduces popular culture theory and various forms of popular culture in selected areas of Asia and the Pacific. Emphasis will be historical/comparative with the intent to place Asia-Pacific developments in a wider world context. Topics and areas variable according to instructor.

Note: Credit will be granted for only one of 201, PACI 280.

PAAS 202

Units: 1.5

Topics in Asian Cinema

The analysis of thematic issues, variations, stylistic considerations and mechanics of meaning production in Asian cinema. Looks at both contemporary and classic films from Japan, China, Taiwan and Indonesia.

PAAS 203

Units: 1.5

Imagining the Asia-Pacific

Representations of the Asia-Pacific and its people by Western writers and artists. Examines the processes whereby political, economic and other factors have changed popular perceptions of the Asia-Pacific.

Prerequisites: Second-year standing or permission of the department.

PAAS 204

Units: 1.5

Also: RS 200B

Introduction to Asian Religions

A survey of the sources, beliefs and practices of Hinduism, Buddhism, Sikhism and the Chinese religions. The traditions will be studied in their cultural and political contexts from both historical and contemporary perspectives.

Note: Credit will be granted for only one of 204, RS 200B.

PAAS 205

Units: 1.5

Indigenous Peoples of the Indo-Pacific Region

Introduces the societies, cultures and life conditions of local populations on the fringes of the great traditions.

PAAS 206

Units: 1.5

Comics and Graphic Novels in Asia and the Pacific

Introduces theories of graphic narratives and visual storytelling. Focus on works from Asia and North America representing experiences of life in Asia or in the global Asian Diaspora. Special emphasis on the development of the form, and of particular styles and themes within their local and global contexts.

PAAS 207

Units: 1.5

Ghosts and Spirits

Examines the myriad roles ghosts and spirits play in the lives of the living in the Asia-Pacific. Introduces the cultural, political, economic and social significance of ghosts and spirits situated within philosophical, theoretical and intellectual debates.

PAAS 208

Units: 1.5

Family and Gender in the Pacific

Introduces domestic relationships, constructs of gender and their interactions with broader political and economic processes in the Pacific.

PAAS 209

Units: 1.5 or 3.0

Formerly: PACI 281

Introductory Special Topics in Pacific and Asian Studies

Introduces selected problems in Pacific Studies.

Note: Credit will be granted for only one of 209, PACI 281 (if taken in the same topic). May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.

PAAS 210

Units: 1.5

Formerly: CHIN 249A, half of 249

Intermediate Modern Chinese I

A sequel to 111. Primary emphasis on reading and translation of texts in modern Chinese in both stan-
Intermediate Indonesian-Malay II

Formerly: Intermediate Indonesian-Malay I

SEA 200A, half of 200

Chinese Languages

Elementary Mandarin for Speakers of Other Chinese Languages

A continuation of 121 for students who wish to continue the focus of 220 with increasingly advanced language work. Prerequisites: 100B or permission of the department. Normally a minimum final grade of B in 210 or CHIN 249A.

PAAS 211 Units: 1.5 Hours: 3-1
Formerly: CHIN 249B, half of 249
Intermediate Modern Chinese II

A continuation of 210, with increasing emphasis placed on acquiring new vocabulary and developing reading skills. Students will also have the opportunity to make more advanced classroom presentations and present longer written assignments in Chinese. Note: Credit will be granted for only one of 211, CHIN 249B, 249, 300. Not open to native speakers. Limited to 25 students per section.

Prerequisites: Normally a minimum final grade of B in 111 or CHIN 150 or equivalent.

PAAS 212 Units: 1.5 Hours: 3-0
Formerly: CHIN 220
Elementary Mandarin for Speakers of Other Chinese Languages

Trains speakers of non-Mandarin forms of Chinese (e.g., Cantonese) in the sounds of Mandarin Chinese. Students will learn the pinyin romanization system; concentration will be on listening and speaking. Characters will be introduced in both full and simplified variants. Note: Credit will be granted for only one of 212, CHIN 220, 410. Not open to native speakers. Limited to 35 students per section.

Prerequisites: Knowledge of a non-Mandarin form of Chinese and permission of the department.

PAAS 220* Units: 1.5 Hours: 3-1
Formerly: SEA 200A, half of 200
Intermediate Indonesian-Malay I

A continuation of 121 for students who wish to improve their skills in Indonesian-Malay. Includes advanced grammar and use of simple newspaper materials to stimulate students’ ability to read and discuss a variety of topics. Note: Credit will be granted for only one of 220, SEA 200A, 200. Limited to 25 students per section.

Prerequisites: A minimum grade of B in 121 or SEA 100B or permission of the department.

PAAS 221* Units: 1.5 Hours: 3-1
Formerly: SEA 200B, half of 200
Intermediate Indonesian-Malay II

Continues the focus of 220 with increasingly advanced readings, schema exercises to facilitate vocabulary building and longer written assignments. Emphasis on speaking, reading, writing and listening prepares students for immersion experiences and advanced language work. Note: Credit will be granted for only one of 221, SEA 200B, 200. Limited to 25 students per section.

Prerequisites: 220 or SEA 200A or permission of the department.

PAAS 230* Units: 3.0 Hours: 6-0-1
Formerly: JAPA 249
Intermediate Japanese I

A continuation of 131, aimed at a balanced development of listening, speaking, reading, and writing skills. Classes offer practice in listening comprehension, conversation, reading, translation, and composition.

Note: Credit will be granted for only one of 230, JAPA 249, JAPA 300.

PAAS 235* Units: 1.5 Hours: 3-0
Supplementary Japanese

Intended for students who require supplementary practice in grammar, speaking, listening, reading and writing before going on to 300-level and higher Japanese language courses. Note: Credit will be granted for only one of 230, JAPA 249, 249, or permission of the department.

PAAS 250 Units: 1.5 Hours: 3-0
Engendering China

Examines the history of China through gender roles and ideologies in the late imperial and modern periods, exploring women’s experiences in the family, education, labour and revolution. Analyzes how gendered notions of identity and morality helped create and shape important social and political structures.

PAAS 279 Also: LING 261
Formerly: CHIN 261
Introduction to the Chinese Language and Linguistics

The synchronic and diachronic descriptions of Chinese. Subjects covered may include phonology, morphology, syntax, semantics, historical changes, poetics, dialectology, orthography, the sociolinguistic and psycholinguistic aspects of Chinese, the relationship between Chinese language, thought, culture, and the history of Chinese linguistics.

PAAS 279 Also: LING 261

Introduction to the Chinese Language and Linguistics

The synchronic and diachronic descriptions of Chinese. Subjects covered may include phonology, morphology, syntax, semantics, historical changes, poetics, dialectology, orthography, the sociolinguistic and psycholinguistic aspects of Chinese, the relationship between Chinese language, thought, culture, and the history of Chinese linguistics.

PAAS 289 Also: LING 260
Formerly: JAPA 260
Introduction to the Japanese Language and Linguistics

Introduces the synchronic and diachronic descriptions of Japanese; subjects covered may include: phonology, morphology, syntax, semantics, historical changes, poetics, dialectology, orthography, the sociolinguistic and psycholinguistic aspects of Japanese; the relationship between Japanese language, thought, culture, and the history of Japanese linguistics. Previous knowledge of Japanese not necessary. Note: Credit will be granted for only one of 289, CHIN 261, LING 261.

PAAS 289 Also: LING 260
Formerly: JAPA 260
Introduction to the Japanese Language and Linguistics

Introduces the synchronic and diachronic descriptions of Japanese; subjects covered may include: phonology, morphology, syntax, semantics, historical changes, poetics, dialectology, orthography, the sociolinguistic and psycholinguistic aspects of Japanese; the relationship between Japanese language, thought, culture, and the history of Japanese linguistics. Previous knowledge of Japanese not necessary. Note: Credit will be granted for only one of 289, CHIN 261, LING 260.

PAAS 294 Units: 1.5 Hours: 3-0
Formerly: PACI 270
Ethical Issues in Contemporary Asian Societies

Introduces contemporary moral issues in societies of selected areas of modern Asia. Emphasis will be on religious traditions and worldviews in relation to current social and ethical problems. Note: Credit will be granted for only one of 294, PACI 270.

PAAS 295 Units: 1.5 Hours: 3-0
Islam in the Asia-Pacific

Examines debates within Islamic communities and representations of Islam by non-Muslims.

PAAS 295 Units: 1.5 Hours: 3-0
Islam in the Asia-Pacific

Examines debates within Islamic communities and representations of Islam by non-Muslims.

PAAS 300 Units: 1.5 Hours: 3-0
Formerly: PACI 325
Social and Economic Change in the Pacific Region

Studies theories of long-term social and economic change. Particular focus is on political economy and world-systems theories and how models represent and explain change in the region. Case material is drawn from Southeast Asia, Oceania and East Asia.

Note: Credit will be granted for only one of 300, PACI 326.

PAAS 301 Units: 1.5 Hours: 3-0
Formerly: PACI 390
Social Theory and Analysis in Pacific and Asian Area Studies

Theoretical perspectives applicable to the field of Pacific Area Studies. Note: Credit will be granted for only one of 301, PACI 390.

PAAS 302 Units: 1.5 Hours: 3-0
Formerly: PACI 392
Literary and Cultural Theory in Pacific and Asian Languages and Literature Studies

Introduces key literary and cultural theories pertinent to the study and understanding of Pacific and Asian literary texts.

Note: Credit will be granted for only one of 302, PACI 392.

PAAS 303 Units: 1.5 Hours: 3-0
Fieldwork Methods for the Study of Asia-Pacific Communities

Reviews and applies field methods used to describe and analyze social patterns and experiences of people in or from the Asia-Pacific region.

PAAS 304 Units: 1.5 Hours: 3-0
Religions of East Asia

A survey of the religious literature and systematic thought of the traditions of China and Japan, including Confucianism, Daoism, Buddhism and Shinto.

Prerequisites: 204 or RS 200B.

PAAS 306 Units: 1.5 Hours: 3-0
Indo-Tibetan Religious Traditions

A survey of the main systems of Indo-Tibetan religious thought, with reference to primary sources. Traditions covered may include the six orthodox Hindu schools, the various Indian heterodox systems, Bon and the main branches of Tibetan Buddhism.

Prerequisites: 204 or RS 200B.

PAAS 307 Units: 1.5 Hours: 3-0
Globalization and Religion

Examines how scholars account for simultaneous worldwide religious resurgence and economic globalization.

Prerequisites: Third-year standing or permission of the department.

PAAS 308 Units: 1.5 Hours: 3-0
Religion and Political Power

Addresses recent scholarly debates over the relationship between religion and political power in the Asia-Pacific. Specific content varies from year to year, but topics may include gender, terrorism, globalization, democracy, the state, secularism, freedom.

Prerequisites: Third-year standing or permission of the department.

Special Topics in Pacific and Asian Studies

Seminar in Buddhism in English

Formerly: JAPA 324B
Modern Japanese Theatre

Surveys Japanese theatre history from the nineteenth century until the present day. Covers the reform of kabuki and emergence of such modern theatre genres as shikosa, shingeki, angura and butô. Drama, dance and other performance arts are discussed.

Note: Credit will be granted for only one of 486, THEA 412, 394 or THEA 312 if taken prior to 201105, JAPA 320A.

Prerequisites: Third-year standing or permission of the department.

PAAS 487 Units: 1.5 Hours: 3-0
Trends in Japanese Cinema, 1960 to Present

Topics in cinema.

Note: Credit will be granted for only one of 487, JAPA 324B.

Prerequisites: Third-year standing or permission of the department.

PAAS 488 Units: 1.5 Hours: 3-0
Japanese Fantasy

Studies the role that fantasy has played in Japanese culture, from religious beliefs in spirits and the afterlife, to contemporary anime and science fiction.

Note: 302 or PACI 392 recommended.

Prerequisites: Third-year standing.

PAAS 493 Units: 1.5 Hours: 3-0
Seminar in Buddhism in English

Buddhist literature from a variety of primary sources. Students will engage in a close reading of selected texts, with additional secondary literature and commentaries.

Prerequisites: 204 or RS 200B or permission of the department.

PAAS 495 Units: 1.5 Hours: 3-0
Special Topics in Pacific and Asian Studies

Offered in English.

Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.

Prerequisites: Third-year standing or permission of the department.

PAAS 496 Units: 1.5 Hours: 3-0
Directed Studies in Pacific and Asian Studies

Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.

Prerequisites: Third-year standing or permission of the department.

PAAS 497 Units: 1.5 Hours: 3-0
Special Topics in Asian Languages

Offered in Chinese, Japanese or Indonesian. Consult members of the faculty for subjects and availability.

Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.

Prerequisites: Third-year standing or permission of the department.

PAAS 499 Units: 1.5 Hours: 3-0
Honours Thesis

The writing of an Honours Thesis of at least 10,000 words.

Note: Credit will be granted for only one of 499, PACI 490B, 490A.

Prerequisites: 400 or PACI 490A and registration in the PAAS Honours program.

PHIL Philosophy

Department of Philosophy

Faculty of Humanities

Courses in the 100 series are broader in scope than those in the 200 series, but neither type should present any difficulty for the beginner. Both types are recommended for students in any program, whether they plan to continue in Philosophy or not, and may be taken in any year; e.g., courses in the 200 series may be taken in the first as well as in later years. Other courses in Philosophy may be taken by satisfying the listed prerequisites or with permission of the department.

PHIL 100 Units: 3.0 Hours: 3-0
Introduction to Philosophy

Central works in the history of Western philosophy, with a principal goal of fostering the capacity to think logically and critically. Questions will include: Does God exist? Is knowledge possible? Do humans have free will? What is justice? Figures studied may include: Plato, Aristotle, Descartes, Leibniz, Berkeley, Hume, Kant, Mill and Nietzsche.

PHIL 173 Units: 1.5 Hours: 3-0
Reasoning in the Sciences and Engineering

Develops critical thinking skills needed for understanding and evaluating arguments in the natural sciences and engineering. Topics covered will include: assessing the worth of causal and statistical hypotheses; evaluating evidence; appraising the value of conclusions; examining the development of knowledge in the sciences and engineering.

PHIL 201 Units: 1.5 Hours: 3-0
Critical Thinking

An analysis of simple argument forms in natural language with close attention to the different uses of language in an argumentative context. A treatment of elementary principles of inductive logic, decision making, syllogistic reasoning, and informal fallacies.

Note: Designed as a first course in logic for students with little or no symbolic orientation; it may be taken before or after 203.

PHIL 203 Units: 1.5 Hours: 3-0
Elementary Formal Logic

Explores the fundamentals of good reasoning by means of symbolic techniques in both propositional and predicate logic. Students will learn to translate English sentences into logical notation, as well as how to use truth tables and derivations to demonstrate the validity of arguments.

Note: Designed as a first course in logic for students with little or no symbolic orientation. May be taken before or after 201.

PHIL 204 Units: 1.5 Hours: 3-0
Non-Western Philosophy

An introductory study of selected philosophical texts from the Chinese, Japanese, or Indian tradition.

PHIL 207A Units: 1.5 Hours: 3-0 or 2-1
Introduction to Ancient Philosophy

Central thinkers, topics and concepts in ancient Greek and Roman philosophy. Topics and figures may include: the teachings of the pre-Socratics (Parmenides, Heracletus, and others), Plato and Aristotle; doctrines of the Hellenistic period such as Stoicism, Epicureanism and Skepticism; Neo-Platonic schools of thought; the ways these ancient philosophers and theories have continued to influence philosophy through medieval, modern and contemporary periods.

PHIL 208 Units: 1.5 Hours: 3-0
Introduction to Arabic Philosophy

An introduction to philosophical issues raised in and by First Nations thought. Topics may include: the nature and scope of First Nations wisdoms; relations between First Nations thought and Western philosophy.

PHIL 210 Units: 1.5 Hours: 3.0 or 2-0-1
Introduction to Early Modern Philosophy

Central thinkers, topics and concept in the early modern period of philosophy (1500-1799). Topics and figures covered may include Descartes, Malebranche, Locke, Hume, Berkeley, Spinoza, Leibniz; universals, space and time, knowledge, abstraction, concepts and substance.

PHIL 211 Units: 1.5 Hours: 3-0
Introduction to Existentialism

The themes and method of existentialism. Surveys the writings of a number of existentialists. Questions to be addressed include: Can the individual realize an authentic form of existence in a technological society dedicated to the ideals of comfort, efficiency, and security? Why have existentialists been so vehemently attacked and how have they responded?

PHIL 220 Units: 1.5 Hours: 3-0
Introduction to Philosophy of Science

The epistemological and ethical issues concerning science as a method of gaining knowledge about the world. Epistemological issues may include the distinction between science and non-science, the logic of explanation and the logic of confirmation. Ethical issues may include the ethics of experimentation with humans, animals, or the environment, the social consequences of scientific knowledge or technology and the community control of research.

Note: Credit will be granted for only one of 220, 222A, 222B.

PHIL 223 Units: 1.5 Hours: 3-0
Introduction to Philosophy of the Social Sciences

Philosophical issues in and raised by research in the social sciences. Topics may include: What is supposed to be scientific about the social sciences? How do the social sciences differ from the natural sciences? What makes a phenomenon “social”? Are some approaches and methodologies more suited to social investigation.
than others? Is objectivity possible or desirable in the study of social phenomena?

PHIL 232  Units: 1.5  Hours: 3-0  
Moral Problems of Contemporary Society  
Philo""
PHIL 330 Units: 1.5 Hours: 3-0
Professional and Business Ethics
An examination of ethical issues arising in the contemporary professional and business setting; emphasis is on the mastery of representative ethical systems and concepts and their application to actual situations.
Note: May not be counted towards upper-level requirements in Honours or Major programs in Philosophy.

PHIL 331 Units: 1.5 Hours: 3-0
Biomedical Ethics
An investigation into various ethical issues that arise in the delivery of health care. Lectures and discussions on topics such as informed consent, abortion, human experimentation, euthanasia, reproductive technologies, the medical profession/client relationship. Emphasis on the ability to apply theoretical concepts to actual situations.
Note: May not be counted towards upper-level requirements in Honours or Major programs in Philosophy.

PHIL 332 Units: 1.5 Hours: 3-0
Philosophy and Technology
An inquiry into technology, its values and relevance to the human condition. What are the conceptual implications of the technological order? Some topics discussed: the distinction between tools and technology; technological development and values; engineering ethics and technology transfer; technology, interpersonal relationships, and alienation; technological domination of nature; art and technology; comparative examination of different philosophies of technology; appropriate technology; mastery of design of technology practices.
Prerequisites: Third-year standing or permission of the department.

PHIL 333 Units: 1.5 Hours: 3-0
Also: ES 314
Philosophy and the Environment
A philosophical investigation of the moral and conceptual dimensions of environmental problems. Different philosophies of the relation between humans and nature will be compared.
Notes: - Credit will be granted for only one of 333, ES 314.
- May not be counted towards upper-level requirements in Honours or Major programs in Philosophy.
Prerequisites: Third- or fourth-year standing, or permission of the department.

PHIL 335 Units: 1.5, formerly 3.0 Hours: 3-0
Contemporary Moral Philosophy
An inquiry into basic issues and theoretical perspectives in moral philosophy. Some classic texts in moral philosophy will be studied but emphasis will be on contemporary literature and debates. Topics may include consequentialism, Kantianism, contractarianism and contractualism.
Note: Credit will be granted for only one of 335, 302.
Prerequisites: 4.5 units of Philosophy or permission of the department.

PHIL 336 Units: 1.5 Hours: 3-0
Philosophy of Law
An examination of relationships among law, politics and morality. Topics may include: the nature and foundations of law; how legal reasoning relates to moral and other reasoning; civil disobedience; the nature and foundation of legal obligations; theories of punishment; the nature and justification of individual and group rights; the nature and justification of international legal institutions.
Note: Credit will be granted for only one of 336, 328.
Prerequisites: 4.5 units of Philosophy or permission of the department.

PHIL 337 Units: 1.5 Hours: 3-0
Ethics: Theory and Practice
A survey of the foundations of moral reasoning and judgment that examines the origins of contemporary normative theories and their relevance to practical ethical issues. Intended primarily for students pursuing the Minor in Applied Ethics, but is open to other students.
Prerequisites: 4.5 units of Philosophy or permission of the department.

PHIL 338 Units: 1.5 Hours: 3-0
Meta-ethics
An examination of philosophical issues and theories arising from consideration of the epistemic, metaphysical and semantic features of value judgments. Topics may include moral relativism, moral skepticism, non-cognitivism, nihilism, constructivism, moral realism and moral anti-realism.
Prerequisites: 4.5 units of Philosophy or permission of the department.

PHIL 339 Units: 1.5 Hours: 3-0
Theories of Justice
An examination of problems in and approaches to contemporary political philosophy. Topics may include equality, freedom, structural injustice, the interrelationship between racial, gender, class and cultural oppression, injustices across borders and the coherence and cross-cultural justification of human rights.
Prerequisites: 236 or 4.5 units of Philosophy or permission of the department.

PHIL 340 Units: 1.5 Hours: 3-0
Epistemology
An examination of current issues and theories in epistemology. Topics may include: theories of justification; internalism/externalism; foundationalism; coherentism; naturalism; epistemic virtue; the goal of truth; relativism; social epistemology.
Prerequisites: 4.5 units of Philosophy or permission of the department.

PHIL 352 Units: 1.5 Hours: 3-0
Metaphysics
Metaphysics concerns the ultimate nature of reality. This course is an intermediate survey of some central issues in metaphysics, including: existence, matter, space, time, causation, emergence, universals, and possibility and necessity.
Prerequisites: 203; 3 units of Philosophy or permission of the department.

PHIL 354 Units: 1.5 Hours: 3-0
Philosophy of Language
An examination of topics in philosophy of language. Topics may include theories of reference and theories of meaning and theories of truth.
Prerequisites: 203; 3 units of Philosophy or permission of the department.

PHIL 356 Units: 1.5 Hours: 3-0
Philosophy of Science
An examination of problems in and approaches to science as a method of gaining knowledge about the world. Topics may include: the logic of explanation and the logic of confirmation; the ethics of experimentation; the social consequences of scientific knowledge or technology; community control of research.
Prerequisites: 4.5 units of Philosophy courses or permission of the department.

PHIL 358 Units: 1.5 Hours: 3-0
Theory of Perception
A study of philosophical issues that pertain to both the psychology of perception and the theory of knowledge. Includes the respective merits of realist, representationalist and phenomenalist theories of perception.
Note: Credit will be granted for only one of 358, 418, 453.
Prerequisites: 4.5 units of Philosophy or permission of the department.

PHIL 362 Units: 1.5 Hours: 3-0
Formerly: 342A
Philosophy of Mind
An intermediate survey of philosophy of mind, focusing on two broad questions: what are the natures of various mental (especially conscious) states (such as beliefs, perceptual experiences, and emotions)? and what is the relationship between mind and body (or, is the mental part of the physical world)?
Note: Credit will be granted for only one of 362, 342A.
Prerequisites: 4.5 units of Philosophy or permission of the department.

PHIL 370 Units: 1.5 Hours: 3-0
Formerly: 304A
Theoretical Logic
Treatment and justification of formal logic from a theoretical point of view: Ideal formal languages developed, and their relationship to natural languages discussed. Syntactic and semantic theories formalized for the analysis of complex deductive arguments. The metatheory of formal logic, relating the syntactic theories and the semantic theories, developed. Topics may include consistency, compactness, soundness and completeness.
Note: Credit will be granted for only one of 370, 304A.
Prerequisites: 203 or MATH 122 or permission of the department.

PHIL 371 Units: 1.5 Hours: 3-0
Formerly: part of 304B
Logic
Studies a particular branch of formal logic. Topics may include set theory, incompleteness and undecidability, modal or other non-classical logics.
Note: Credit will be granted for only one of 371, 304B.
Prerequisites: 370 or permission of the department.

PHIL 375 Units: 1.5 Hours: 3-0
Also: MATH 375
Philosophy of Mathematics
Introduces problems in the philosophy of mathematics. Topics may include the nature of mathematical objects, the status of the infinite in mathematics, the relationship between mathematics and natural science/physical reality.
Note: Credit will be granted for only one of 375, MATH 375.
Prerequisites: One of 203, 304A, 370, MATH 122, 360.

<td></td>
<td></td>
</tr>
<tr>
<td>PHIL 403</td>
<td>1.5</td>
<td>3-0</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Advanced Philosophical Logic</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>An investigation of the philosophical limitations of classical logic. Questions to be addressed include: Is there a philosophically satisfactory motivation for many-valued logic? Does reflection on reference or meaning lead to the rejection of bivalence? Does classical first order logic inhibit a philosophical understanding of existence, identity and predication? Prerequisites: 203 or MATH 122; 3 additional units of Philosophy, or permission of the department.</td>

<td>1.5</td>
<td>3-0</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Advanced Social and Political Philosophy</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Investigation of problems in contemporary social and political philosophy. Topics may include: theories of distributive justice, the relationship between law and morality, theories of democracy, the nature of rights, liberty, political legitimacy, community and culture, interrelationships among forms of economic, class, racial and gender oppression. Prerequisites: One of 333, 336, 339, or permission of the department.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>PHIL 434</td>
<td>1.5</td>
<td>3-0</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Technology and Environment</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>An inquiry into the nature of technology and its moral implications for human and non-human environments. Questions to be addressed include: What is technology? Are humans ‘essentially’ technological? What factors have given rise to the perceived dominance of the non-human environment by human technology? Figures studied may include: Diderot, Ellul, Ursula Franklin, George Grant, Heidegger and Naess. Prerequisites: 9 units of Philosophy or permission of the department.</td>
<td></td>
<td></td>
<td></td>
<td></td>

</tbody>
</table>
PHIL 451
Units: 1.5
Hours: 3-0
Formerly: 416
Advanced Epistemology
An advanced philosophical investigation of human knowledge and its relation to reality.
Note: Credit will be granted for only one of 451, 416.
Prerequisites: 351 or permission of the department.

PHIL 453
Units: 1.5
Hours: 3-0
Formerly: 418
Theory of Perception
A study of philosophical issues that pertain both to the psychology of perception and the theory of knowledge. The respective merits of realist, representationalist and phenomenalist theories of perception will come under examination.
Note: Credit will be granted for only one of 453, 418.
Prerequisites: 9 units of Philosophy or permission of the department.

PHIL 460
Units: 1.5
Hours: 3-0
Advanced Philosophy of Mind
Study of contemporary metaphysics, epistemology and methodology in the philosophy of mind.
Note: Credit will be granted for only one of 460, 414.
Prerequisites: One of 342A, 358, 362, or permission of the department.

PHIL 462
Units: 1.5, formerly 3
Hours: 3-0
Formerly: part of 461
Advanced Philosophy of Language
Investigation of contemporary issues in philosophy of language. Topics may include truth, meaning and reference. Authors may include Frege, Wittgenstein, Quine, Davidson, Dummett, Kripke, Putnam and Tarski.
Note: Credit will be granted for only one of 462, 334, 461.
Prerequisites: 316 or 354 or permission of the department.

PHIL 490
Units: 1.5 or 3.0
Hours: 3-0
Advanced Topics in Philosophy
Advanced investigations of a selected philosophical topic.
Note: May be taken more than once for credit in different topics with permission of the department.
Prerequisites: 3 units of Philosophy numbered 300 and above or permission of the department.

PHIL 491
Units: 1.5 or 3.0
Hours: 3-0
Directed Studies in Philosophical Topics
Under the supervision of a faculty member and with the approval of the Chair of the department.
Note: Credit will be granted for only one of 491, 448 (if taken in the same topic). May be taken more than once for credit in different topics with permission of the department.
Prerequisites: 3 units of Philosophy numbered 300 and above or permission of the department.

PHYS 102
Units: 3.0
Hours: 3-3
General Physics
Mechanics, heat, sound, wave motion, light, electricity, magnetism, and modern physics.
Notes: - Students intending to take further courses in Physics should consider 112 or 120 and 130 rather than 102 and must take MATH 100 and 101.
- Students with credit for 112, 120, 122, 125, or 130 may not take 102 for credit.
- Students are encouraged to take MATH 100 or 102 prior to or concurrently with this course.
Pre- or corequisites: 1.5 units of MATH.

PHYS 112
Units: 3.0
Hours: 3-3
Basic Physics
Particle dynamics and curvilinear motion; force and momentum; kinetic and potential energy; rotational motion; oscillatory and wave motion; heat and thermal physics; optics; electricity and magnetism; fluids; modern physics.
Notes: - A basic course in physics for students planning a program of study in the physical sciences such as Physics, Astronomy, Chemistry, and Earth and Ocean Sciences.
- Credit will be granted for only 3.0 units from 112, 120, 122, 125, 130.
- Students with a minimum grade of B in both Physics 12 and Mathematics 12 should consider enrolling in PHYS 120 and 130 instead of PHYS 112.
Prerequisites: BC Secondary School Physics 12 and Mathematics 12, or PHYS 102, or permission of department.
Pre- or corequisites: MATH 100, 101.

PHYS 120
Units: 1.5
Hours: 3-3
Physics I
Particle dynamics and curvilinear motion; force and momentum; rotational dynamics and angular momentum; kinetic and potential energy; special relativity.
Notes: - Credit will be granted for only one of 120, 122.
- Credit will be granted for only 3.0 units from 112, 120, 122, 125, 130.
- An enriched course in physics primarily intended for students who are planning a career in Physics or Astronomy.
- This course may include tours of local physics research institutions.
Prerequisites: A minimum grade of B in BC Secondary School Physics 12 and Mathematics 12, or PHYS 102.
Pre- or corequisites: MATH 100.

PHYS 122
Units: 1.5
Hours: 3-3
Mechanics for Engineers
Kinematics, particle dynamics, curvilinear motion, momentum, angular momentum, energy.
Notes: - Credit will be granted for only one of 122, 120.
- Credit will be granted for only 3.0 units from 112, 120, 122, 125, 130.
Prerequisites: BC Secondary School Physics 12 and Mathematics 12, or PHYS 102; Admission to BEng or BSEng program.
Pre- or corequisites: MATH 100.

PHYS 125
Units: 1.5
Hours: 3-3
Fundamentals of Physics
Simple harmonic motion; wave motion, sinusoidal waves, phase velocity, Huygens’ Principle, resonance, reflection, refraction and interference; sound; the classic Doppler effect; ray and first order matrix optics, total internal reflection and dispersion; the electromagnetic spectrum; optical spectra and electronic structure; de Broglie waves; principles and applications of nuclear structure, nuclear reactions and ionizing radiation.
Notes: - Credit will be granted for only one of 125, 130.
- Credit will be granted for only 3.0 units from 112, 120, 122, 125, 130.
Prerequisites: 120 or 122; Admission to BEng or BSEng program.
Pre- or corequisites: MATH 101.

PHYS 130
Units: 1.5
Hours: 3-3
Physics II
Rotational and simple harmonic motion; wave motion and sinusoidal waves; reflection, refraction, and interference; optics; sound and the Doppler effect; de Broglie waves and the hydrogen atom; radioactivity and principles of quantum mechanics.
Notes: - Credit will be granted for only one of 125, 130.
- Credit will be granted for only 3.0 units from 112, 120, 122, 125, 130.
- An enriched course in physics primarily intended for students who are planning a career in Physics or Astronomy.
- This course may include tours of local physics research institutions.
Prerequisites: 120 or 122.
Pre- or corequisites: MATH 101.

PHYS 201
Units: 1.5
Hours: 3-0
Also: EOS 210
Introductory Geophysics
An introduction to seismology, gravity, geomagnetism, paleomagnetism and heat flow, and how they contribute to our understanding of whole Earth structure and plate tectonics.
Note: Credit will be granted for only one of 210, EOS 210.
Prerequisites: Any one of 112, 120, or 122; MATH 100 and 101.

PHYS 204
Units: 1.5
Hours: 2-4
An Introduction to Laboratory Electronics
Introduction to standard laboratory equipment including a survey of linear circuits, digital electronics and non-linear devices such as diodes, transistors and operational amplifiers.
Prerequisites: Any one of 112, 120, 122; MATH 100 or 102.

PHYS 210
Units: 1.5
Hours: 3-3
Introductory Quantum Physics
Prerequisites: 112; 120 and 130; or 122 and 125.
Pre- or corequisites: MATH 200, 201.

PHYS 215
Units: 1.5
Hours: 3-3
Introductory Electricity and Magnetism
Electric and magnetic fields, Gauss’ law, electric potential, capacitance, dielectrics, current and resistance, resistivity, magnetic inductance. Faraday’s law of induction, Ampere’s law, energy stored in electric and magnetic fields.
Note: Credit will be granted for only one of 216, ELEC 216.
Prerequisites: 112; or 120 and 130; or 122 and 125.
Pre- or corequisites: MATH 200.
<table>
<thead>
<tr>
<th>COURSE LISTINGS</th>
</tr>
</thead>
</table>

**PHYS 217**  
Units: 1.5  
Hours: 3-1-1  
**Thermodynamics**  
Ideal gas laws. Laws of Thermodynamics. Temperature and entropy. Thermodynamic potentials such as free energy and their use. Heat engines and Carnot cycles. Introductory statistical physics: Maxwell and Boltzmann distributions. Microscopic derivations of thermodynamic properties such as heat capacities.  
**Note:** Credit will be granted for only one of 217, 317.  
**Prerequisites:** 112; or 120 and 130; or 122 and 125.  
**Pre- or corequisites:** MATH 200, 201.  

**PHYS 280**  
Units: 1.5  
Hours: 3-0  
**Special Topics in Physics**  
Occasional offerings dealing with a specific topic in Physics.  
**Note:** May be taken more than once for credit in different topics, normally to a maximum of 3.0 units.  
**Prerequisites:** 3.0 units of PHYS.  

**PHYS 290**  
Units: 1.0-3.0  
**Directed Studies**  
This course is intended primarily to aid students who have transfer credit in physics to satisfy their first-year physics requirements.  
**Note:** Students must obtain the consent of the department before registering.  

**PHYS 303**  
Units: 1.5  
Hours: 3-0  
**Origin of Space, Time and Matter in the Universe**  
For non-science students interested in expanding their understanding of the physical world. The aim is to combine topics in earth physics, particle physics, astronomy, and cosmology to study the nature and origin of space-time and matter, and the chemical composition of the earth, planets, and stars. Highlights of larger issues, such as the nature of scientific knowledge, and the validity of science and the scientific method. A non-mathematical approach.  
**Note:** Not available for credit in Physics and Astronomy Programs.  
**Prerequisites:** BC Secondary School Mathematics 11 or equivalent, third-year standing or higher.  

**PHYS 313**  
Units: 1.5  
Hours: 3-0  
**Atomic and Molecular Physics**  
**Note:** Credit will be granted for only one of 313, 413A, 413B. Normally offered in alternate years. Students are advised to consult the department to determine when the course is offered.  
**Pre- or corequisites:** 323; one of MATH 300, 330A, 334, 335, 336; one of MATH 323, 325, 342.  

**PHYS 321A**  
Units: 1.5  
Hours: 3-1-1  
**Classical Mechanics I**  
Oscillatory motion, motion under a central force, dynamics of a system of particles, gravitational potential theory.  
**Prerequisites:** 112; or 120 and 130; or 122 and 125; or 220.  
**Pre- or corequisites:** One of MATH 300, 330A, 334, 335, 336; one of MATH 323, 325, 342.  

**PHYS 321B**  
Units: 1.5  
Hours: 3-1  
**Classical Mechanics II**  
Rigid body dynamics, an introduction to analytical mechanics including Lagrange’s and Hamilton’s equations, theory of small oscillations.  
**Prerequisites:** 321A.  
**Pre- or corequisites:** One of MATH 301, 330B, 438; MATH 326 or 346.  

**PHYS 323**  
Units: 1.5  
Hours: 3-1-1  
**Formerly: part of 413A**  
**Quantum Mechanics I**  
Introduction to quantum mechanics, historical review, postulates, development of the theory, and applications.  
**Note:** Credit will be granted for only one of 323, 413A.  
**Prerequisites:** 215, 216.  
**Pre- or corequisites:** One of MATH 300, 330A, 334, 335, 336; one of MATH 323, 325, 342.  

**PHYS 325**  
Units: 1.5  
Hours: 3-3  
**Optics**  
Reflection and refraction at plane and spherical surfaces, thin lenses, lens aberrations, optical instruments, interference, diffraction, polarization.  
**Prerequisites:** 216 or equivalent; MATH 200, 201, 211.  

**PHYS 326**  
Units: 1.5  
Hours: 3-1-1  
**Electricity and Magnetism**  
Properties of electromagnetic fields using vector calculus, displacement current, Maxwell's equations, plane electromagnetic waves with applications, transmission lines, and transients in LRC circuits.  
**Prerequisites:** 216.  
**Pre- or corequisites:** One of MATH 300, 330A, 334, 335, 336; one of MATH 323, 325, 342.  

**PHYS 327**  
Units: 1.5  
Hours: 3-0  
**Fluid Mechanics**  
Flow kinematics, vorticity, the Navier-Stokes equation, boundary layer theory, potential flow, dynamic similarity, applications to aerodynamics, wave motion, vortex flow.  
**Prerequisites:** 220 or 321A; 217 or 317.  
**Pre- or corequisites:** One of MATH 301, 330B, 438; MATH 326 or 346.  

**PHYS 411**  
Units: 1.5  
Hours: 3-0  
**Time Series Analysis**  
Continuous and discrete Fourier transforms, convolution and correlation, autocorrelation, spectral density estimation, deconvolution, linear filtering, frequency domain and two-dimensional filtering. Digital signal processing and computer analysis are stressed.  
**Prerequisites:** One of MATH 301, 330B, 438; MATH 326 or 346.  

**PHYS 415**  
Units: 1.5  
Hours: 3-0  
**General Relativity and Cosmology**  
Introduction to Einstein’s theory of gravitation and its experimental verification. Applications within the realms of astrophysics and cosmology.  
**Prerequisites:** 321B; one of MATH 301, 330B, 438; or permission of the department.  

**PHYS 421**  
Units: 1.5  
Hours: 3-0  
**Statistical Mechanics**  
Boltzmann, Bose-Einstein and Fermi-Dirac statistics.  
**Note:** Normally open to Honours students only, others by permission of the department.  
**Prerequisites:** 217 or 317; 321B, 323; One of MATH 301, 330B, 438; MATH 326 or 346.  

**PHYS 422**  
Units: 1.5  
Hours: 3-0  
**Electromagnetic Theory**  
Potential theory, Maxwell’s equations, electromagnetic waves.  
**Note:** Normally open to Honours students only, others by permission of the department.  
**Prerequisites:** 326; one of MATH 301, 330B, 438; MATH 326 or 346.  

**PHYS 423**  
Units: 1.5  
Hours: 3-0  
**Quantum Mechanics II**  
Further development of the theory and applications, angular momentum, linear vector spaces, perturbation theory, scattering.  
**Note:** Normally open to Honours students only, others by permission of the department.  
**Prerequisites:** 321A and 323; one of MATH 301, 330B, 438; MATH 326 or 346.  

**PHYS 424**  
Units: 1.5  
Hours: 3-0  
**Particle Physics**  
Topics in particle physics.  
**Note:** Normally offered in alternate years. Students are advised to consult the department to determine when the course is offered.  
**Prerequisites:** 423 or permission of the department.  

**PHYS 425**  
Units: 1.5  
Hours: 2-3  
**Topics in Electronics Instrumentation**  
Applications of electronics in physics instrumentation.  
**Prerequisites:** 214 and 216; one of MATH 301, 330B, 438.  

**PHYS 426**  
Units: 1.5  
Hours: 3-1  
**Fluid Mechanics**  
Flow kinematics, vorticity, the Navier-Stokes equation, Bernoulli’s theorem, irrotational flow, viscous flow, dynamic similarity. Application to aerodynamics, water waves, low Reynolds number (very viscous) flow and other selected topics.  
**Prerequisites:** 220 or 321A; 217 or 317.  
**Pre- or corequisites:** One of MATH 301, 330B, 438; MATH 326 or 346.
PHYS 427  Units: 1.5  Hours: 3-0
Geophysics
Principles of seismology, gravity, geomagnetism, heat flow, and how they contribute to our understand- ing of whole Earth structure and plate tectonics.
Note: Credit will be granted for only one of 427, EOS 427. Normally offered in alternate years. Students are advised to consult with the department to determine when the course is offered.
Pre-requisites: 220 or 321A; 326.
PHYS 428  Units: 1.5  Hours: 3-0
Introductory Solid State Physics
An account of the central aspects of the physics of solids including crystal structure and symmetry; thermal, electrical, magnetic, elastic, and optical properties of solids.
Note: Normally offered in alternate years. Students are advised to consult the department to determine when the course is offered.
Pre-requisites: 326; one of MATH 301, 330B, 438; MATH 326 or 346.

PHYS 429A  Units: 1.5  Hours: 0-3
Honours Laboratory
Introduction to research, with several research-oriented experiments and with instruction on experimental techniques and theory of measurement.
Note: Normally open only to fourth-year Honours students, others by permission of the department.

PHYS 429B  Units: 1.5  Hours: 0-3
Honours Project
A research project conducted under the direction of faculty.
Note: Normally open only to fourth-year Honours students, others by permission of the department. The research project is normally experimental in nature.
Pre-requisites: 429A.

PHYS 431  Units: 1.5  Hours: 3-0
Continuum Mechanics
Tensor calculus with the properties of a continuum are developed, leading to a study of wave propagation in elastic media with application to seismology. Concludes with a brief introduction to the basic equations of fluid mechanics.
Note: Normally offered in alternate years. Students are advised to consult with the department to determine when the course is offered.
Pre-requisites: 220 or 321A; MATH 326 or 346.

PHYS 432  Units: 1.5  Hours: 3-0
Medical Physics
Introduction to medical physics: production and measurement of x-rays and charged particles for nuclear medicine, interaction of radiation with biological materials, radiation dosimetry, radiation safety, physics of medical imaging, magnetic resonance imaging.
Pre-requisites: 313 or 314.

PHYS 460  Units: 0  Hours: 2-0
Colloquium
Weekly physics and astronomy colloquium.
Gradings: COM, N, F.

PHYS 480  Units: 1.5  Hours: 3-0
Advanced Special Topics in Physics
Occasional offerings dealing with a specific topic in physics.

Note: May be taken more than once for credit in different topics, normally to a maximum of 3.0 units.
Pre-requisites: Permission of the department.

PHYS 490  Units: 1.0-3.0
Directed Studies
Note: Students must obtain the consent of the department before registering.

POLI 101  Units: 1.5  Hours: 3-0-1
Formerly: half of 100
Canadian Politics
An introduction to the social bases of Canadian politics focusing on the distribution and exercise of political power. Topics include: regionalism, Quebec nationalism, and economic inequality; political parties, voting, interest groups and the mass media; the policy process.
Note: Credit will be granted for only one of 101, 100, 470.

POLI 103  Units: 1.5  Hours: 3-0-1
The Worlds of Politics
Introduces students to the study of politics in three fields (comparative politics, international politics, and political theory). Each term will focus on a particular theme of broad interest to the three fields such as democracy, power, and violence.

POLI 201  Units: 1.5  Hours: 3-0-1
Formerly: 102
Canadian Institutions of Government
Introduction to the Canadian system of government; the constitutional framework; parliamentary and federal political structures; institutional change and major constitutional developments and debates.
Note: Credit will be granted for only one of 201, 100, 102, 470.

POLI 202  Units: 1.5  Hours: 3-0-1
An Introduction to Political Theory
Focuses on one or more topics in contemporary political theory such as the nature of democracy, the role of ideology, or the functions of the state. Different analyses will be compared, and students will be introduced to various models and techniques of theoretical inquiry.

POLI 210  Units: 1.5  Hours: 3-0-1
Comparative Politics
An introduction to the comparative study of politics and the basic structures and processes of modern political systems, including an examination of selected foreign governments.

POLI 211  Units: 1.5  Hours: 3-0-1
European Integration and the European Union
An introduction to the study of the European integration process and the basic structures and processes of the European Union, including an examination of selected policies.

POLI 300A  Units: 1.5  Hours: 3-0
Formerly: 301
Ancient and Medieval Political Thought
A survey of the main themes and assumptions of political theory in ancient Greece and medieval Europe, including study of Plato’s Republic and Aristotle’s Politics.
Note: Credit will be granted for only one of 300A, 301, 300 (if taken prior to 1982-83).

POLI 300B  Units: 1.5  Hours: 3-0
Formerly: half of 300
Early Modern Political Thought
An examination of basic texts and persistent themes in Western political thought from the Renaissance to the Enlightenment, including study of texts by such key thinkers as Machiavelli, Hobbes, Locke, Hume, and Kant.
Note: Credit will be granted for only one of 300B, 300.

POLI 300C  Units: 1.5  Hours: 3-0
Formerly: half of 300
Post-Enlightenment Political Thought
An examination of basic texts and persistent themes in Western political thought from the Enlightenment to the late 19th century, including study of texts by such key thinkers as Rousseau, Hegel, Marx and J.S. Mill.
Note: Credit will be granted for only one of 300C, 300.

POLI 305  Units: 1.5  Hours: 3-0
Democracy and Diversity
Examines the challenges that cultural and national diversity pose to liberal democracy. The analytical focus will be on both the normative desirability of recognizing cultural or national differences and on the political and legal ramifications of granting group and minority rights.

POLI 306  Units: 1.5  Hours: 3-0
Introduction to Marxism
An overview of the thought of Karl Marx and Frederic Engels, focusing on its philosophical origins, key concepts and ideas of their historical materialism, critique of political economy, political theory and philosophy. The development of Marxism after Marx and Engels, particularly in the tradition of Western Marxism, will be traced in the case of each concept and idea.
Note: Credit will be granted for only one of 306, 406.

POLI 308  Units: 1.5  Hours: 3-0
Nationalism and Citizenship
Debates about the role of nationalism and citizenship in contemporary political theory, in state-building, and in relation to other forms of identity politics (e.g. gender, class, sexual orientation, race, culture, religion).

POLI 311  Units: 1.5, formerly 3
Hours: 3-0
Governments and Politics in Europe
Historical backgrounds to, institutional framework for, and players involved in, political conflict in European countries. Consideration will be given to contemporary policy issues and the process of European integration.

POLI 313A  Units: 1.5  Hours: 3-0
Formerly: half of 313
American Politics
An introduction to the political system of the United States. Areas of study will include the Constitutional framework, Congress, Presidency and Supreme Court, political parties and the electoral system.
Note: Credit will be granted for only one of 313A, 313.
POLI 313B Units: 1.5 Hours: 3-0
Formerly: half of 313
American Public Policy
An analysis of the policy-making process of the American federal government. Examines empirical and critical theories of policy formation and implementation.
Note: Credit will be granted for only one of 313B, 313.
Prerequisites: 313A.

POLI 317 Units: 1.5 Hours: 3-0
Politics of Development
An introduction to some of the principal issues and problems facing the countries of Asia, Africa and Latin America. Examines the various themes which have influenced policies and concepts of development.

POLI 318 Units: 1.5 Hours: 3-0
Government and Politics in East Asia
Government and politics in China, Japan, North and South Korea, and Taiwan, with special attention to state formation, political reform, institutions and ideology.
Note: 317 is recommended.

POLI 319 Units: 1.5 Hours: 3-0
Issues in Comparative Politics
An analysis of contemporary issues in comparative politics.
Note: May be taken more than once for credit in different topics with permission of the department.

POLI 320 Units: 1.5 Hours: 3-0
The Canadian Constitution
An analysis of the Canadian Constitutional framework, including the Constitution acts of 1867 and 1982, the shaping of the federal system and the impact on Canadian society of the Charter of Rights and Freedoms.
Note: Credit will be granted for only one of 320, 320A, 320B.

POLI 321 Units: 1.5 Hours: 3-0
Introduction to Research Methods in Politics
Advanced introduction to the key empirical research methods used in the study of politics, including interpretive, historical, participatory, quantitative, case study and comparative.
Note: Not open to students registered in or with credit in 339.

POLI 325 Units: 1.5 Hours: 3-0
Issues in Politics
A lecture class in selected contemporary political issues.
Note: May be taken more than once for credit in different topics with permission of the department.

POLI 328 Units: 1.5 Hours: 3-0
Gender and International Relations
Examines gender inequalities from the standpoint of feminist international relations theories and through the study of key international relations concepts such as violence, globalization, democratization, transnational politics and ethnic nationalism.
Note: Credit will be granted for only one of 328, 349 (if taken in the same topic).

POLI 329 Units: 1.5 Hours: 3-0
The Political Foundations of International Law
An advanced introduction to the political nature of international law. Reviews the conceptual and analytical foundations of the field, as well as conventional and critical theoretical approaches to the study of international law. Also examines the main substantive areas of international law and practice.

POLI 332 Units: 1.5 Hours: 3-0
Formerly: 332B
Urban Politics
An analysis of urban social movements, the politics of planning and development, and the political economy of cities in the era of globalization.
Note: Credit will be granted for only one of 332, 332B, 450.

POLI 333 Units: 1.5 Hours: 3-0
Representation and Electoral Systems
A cross-national review of the design of electoral systems, their determinants and components, and quantitative analysis of their consequences for political representation. The primary focus will be on Western democracies.

POLI 334 Units: 1.5 Hours: 3-0
Culture(s), Knowledge and Power
The role of cultural practices and identities, ideologies, and claims to knowledge in the legitimation of authority and violence.

POLI 335 Units: 1.5 Hours: 3-0
Gender and Politics
An introduction to key debates about the relation between gender and politics in the Western political tradition. Explores how gender has shaped and been shaped by key political ideas (including the public/private distinction, the idea of contract, political representation, rights, justice, identity and equality), as well as connections between conceptual debates and practical policy-oriented problems in law and politics.

POLI 336 Units: 1.5 Hours: 3-0
The Modern State
An exploration of the modern state as a form of government and a mode of political organization. Contemporary changes in the organization of the state will be considered in relation to earlier developments. The focus will be on North America and Western Europe, and particular attention will be given to the problematic relation between disciplinary governments, social movements and local communities.
Note: Credit will be granted for only one of 336, 404.

POLI 338 Units: 1.5 Hours: 3-0
Approaches to Political Analysis (Seminar Course)
An examination of the ways in which political analysts generalize about politics. Addresses types of theory in the discipline (normative, empirical, public choice, critical discourse) and the assumptions that underpin them.
Note: Required for Honours students in their third year; recommended for Major students; but not recommended as a general elective.

POLI 339 Units: 1.5 Hours: 3-0
The Empirical Analysis of Politics (Seminar Course)
Survey of empirical research methods used in political science, focusing on the practical application of qualitative and quantitative methods. Includes the operationalization and measurement of variables; case studies and comparative case studies; interview research; univariate and bivariate statistics; sampling and surveys; and regression.
Note: Credit will be granted for only one of 339, 337.
Required for Honours students, preferably in their third year; recommended for students considering graduate studies in Political Science or Public Administration.

POLI 340 Units: 1.5, formerly 3 Hours: 3-0
International Studies
The historical development of the modern states system with reference to its changing social, economic, and political environments, and to related theoretical developments.

POLI 341 Units: 1.5 Hours: 3-0
The United Nations and Global Issues
Examines the structure and functioning of the United Nations and its agencies as they address key contemporary global issues. Attention will be paid to the practice of diplomacy in the UN, the secretariat, and the roles of states and non-state actors: Issues may include human rights and humanitarian intervention, economic globalization and human development, climate change and other environmental problems, disarmament, and health.

POLI 343 Units: 1.5 Hours: 3-0
International Organization
The nature and function of international and regional governmental and non-governmental organizations.

POLI 344 Units: 1.5, formerly 3 Hours: 3-0
International Political Economy
The politics of international economic relations in trade, investment, finance and macroeconomic policies from a variety of theoretical perspectives.

POLI 345 Units: 1.5 Hours: 3-0
Ethics in International Relations
An exploration of the application of moral judgment to international politics. Introduces different moral theories and applies them to topical issues to help make reasoned judgments about important international issues. Topics include: just war, foreign aid, immigration control, spreading human rights, withdrawing humanitarian aid, and the use of torture.

POLI 346 Units: 1.5 Hours: 3-0
Formerly: 446
Canadian Foreign Policy
The foreign policy-making process in Canada, including alternative explanations of specific policies.
Note: Credit will be granted for only one of 346, 446.

POLI 347 Units: 1.5 Hours: 3-0
Discourses of World Politics
Contemporary debates about the nature and location of political community in relation to both the historical practices of state sovereignty and claims about the increasingly global context of political life.

POLI 348 Units: 1.5 Hours: 3-0
International Security
Conceptual and practical issues of security in international politics, including such topics as: the causes of violent international conflict, maritime security, non-military threats to security, national security policies, cooperative international security, and alternatives to state-centred security.

POLI 349 Units: 1.5 Hours: 3-0
Issues in International Politics
An analysis of contemporary issues in international politics.
Note: May be taken more than once for credit in different topics with permission of the department.

POLI 350 Units: 1.5 Hours: 3-0
Also: ADMN 311
Introduction to Public Administration
An exploration of the external factors affecting contemporary public sector management in Canada, the changing structural and value context within which public servants work, the key processes in which...
they are engaged and how those processes are changing. Focuses primarily on the federal and provincial governments, but references will also be made to public administration at other levels.

**Note:** Credit will be granted for only one of 350, ADMN 311, HSD 404.

**POLI 351**

Units: 1.5  
Hours: 3-0  
Public Policy Analysis  
A practical approach to the concepts and conduct of public policy analysis, including problem definition and policy design, the application of analytical techniques and issues in public policy implementation.

**POLI 355**

Units: 1.5  
Hours: 3-0  
Elections  
Overview of elections as partisan political events and highly technical electoral processes in Canada and other western democracies. Topics include elections and democracy; electoral rules and administration; voting systems; money and elections; and the role of the media.

**POLI 357**

Units: 1.5  
Hours: 3-0  
Formerly: 457  
Canadian Environmental Politics  
An examination of political factors shaping development and implementation of Canadian environmental policy.  
**Note:** Credit will be granted for only one of 357, 457.

**POLI 360**

Units: 1.5  
Hours: 3-0  
Canadian Federalism and Public Policy  
An examination of the constitutional, political, social, economic, and cultural bases of Canadian federalism, the dynamics of contemporary intergovernmental relations, and the impact of the federal system on public policy.

**POLI 361**

Units: 1.5  
Hours: 3-0  
Parties and Pressure Groups in Canada  
An examination of political parties, pressure groups, and theories of representation in the Canadian context, with emphasis on the development, structure and ideologies of the major parties.

**POLI 363**

Units: 1.5  
Hours: 3-0  
Indigenous Politics in Canada  
An examination of various political issues affecting the peoples of Canada’s First Nations with particular attention to land claims, self-government and the political organization of Canada’s indigenous peoples. Relevant comparisons with other countries and international perspectives will also be included.

**POLI 364**

Units: 1.5  
Hours: 3-0  
Canadian Public Policy  
An analysis of the Canadian policy-making process, using case studies to examine alternative theoretical perspectives.

**POLI 365**

Units: 1.5  
Hours: 3-0  
British Columbia Political Economy  
An examination of the political and economic development of the province, its political orientations and social cleavages, and party system.

**POLI 366**

Units: 1.5  
Hours: 3-0  
Canadian Political Economy  
An advanced introduction to the distinctive debates and problems of Canadian Political Economy, in historical analysis and in contemporary policy concerns. Topics covered include state formation and the role of the state; staples; capital and class analyses; theories of economic development, trade, and dependency; gender, aboriginal, and anti-racist analyses; and political ecology.

**POLI 369**

Units: 1.5  
Hours: 3-0  
Issues in Canadian Politics  
An analysis of contemporary issues in Canadian politics.  
**Note:** May be taken more than once for credit in different topics with permission of the department.

**POLI 371**

Units: 1.5  
Hours: 3-0  
Chinese Politics  
An exploration of the political, economic and social transformations in China, with focus on China’s ongoing reform efforts away from state socialism and toward a capitalist market economy. Topics include political institutions, the role of the state in the economy, social stratification including gender relations, resistance, civil society and democracy.

**POLI 372**

Units: 1.5  
Hours: 3-0  
Latin American Politics  
Comparative study of Latin America through an examination of the region’s history, politics, and society. Themes may include development, revolution, militarism, social movements, and democratization.  
**Note:** Credit will be granted for only one of 372, 319 (if taken in the same topic).

**POLI 373**

Units: 1.5  
Hours: 3-0  
African Politics  
Survey of contemporary African politics. Broad overview of political developments in Africa, analyzing political conflict and change in terms of the economic, social and historical contexts of select African countries and regions.

**POLI 374**

Units: 1.5  
Hours: 3-0  
Urban Politics in China  
Transition and transformation of post-Mao China through the lens of urban politics. A historical and multi-disciplinary approach used to analyze problems of power, governance, and socio-cultural change. Topics may include: the modern history of Chinese cities (imperial, republican, socialist), space economies (regionalism), migration, urban governance, urban inequality, land; urban society and culture, and urban social movements.

**POLI 375**

Units: 1.5  
Hours: 3-0  
Gender Politics in China  
A multidisciplinary approach to gender dynamics in China. Helps students appreciate and understand the politics of representation of Chinese women over time and space; the change in Chinese women’s roles and status amidst modern socioeconomic development; and the recent emergence of women’s NGOs in the context of China’s transition to a market economy and the growth of a UN-based international women’s movement.

**POLI 376**

Units: 1.5  
Hours: 3-0  
Formerly: 419  
Politics in India  
An examination of the major themes in the political and economic development of independent India, including the fate of the Nehruvian development model, the contemporary crisis of the state and secularism, the transition to globalization, and the politics of caste, class and gender.  
**Note:** Credit will be granted for only one of 376, 419, 433 (if taken in the same topic).

**POLI 377**

Units: 1.5  
Hours: 3-0  
Comparative Environmental Politics  
Comparative analysis of different nations’ responses to environmental problems such as climate change and biodiversity loss, including examination of the development and implementation of international environmental agreements.

**POLI 378**

Units: 1.5  
Hours: 3-0  
Comparative Federalism  
Examines a variety of developed and developing federations with a view to improving our understanding of the relationship between formal federal arrangements and their underlying political communities. The factors affecting the governance, administration and policy performance of federations will be examined. The broad objective is to use comparative experience to improve our understanding of Canadian federalism.

**POLI 379**

Units: 1.5  
Hours: 3-0  
Topics in Contemporary European Politics  
Analysis of contemporary issues in European politics in comparative perspective, with a strong emphasis on the European Union and the process of European integration.  
**Note:** May be taken more than once for credit in different topics with permission of the department.

**POLI 401**

Units: 1.5  
Hours: 3-0  
Advanced Topics in Political Theory  
An advanced seminar on contemporary issues and problems in political theory.  
**Note:** May be taken more than once for credit in different topics with permission of the department.  
**Prerequisites:** Two courses from 300A, 300B, or 300C or permission of the instructor.

**POLI 402**

Units: 1.5  
Hours: 3-0  
Formerly: 302  
Contemporary Themes in Political Thought  
Major themes in contemporary political thought focusing especially on the interplay between theories of modernity and concepts of political identity and community.  
**Note:** Credit will be granted for only one of 402, 302.  
**Prerequisites:** Two courses from 300A, 300B, or 300C, or permission of the instructor.

**POLI 412**

Units: 1.5  
Hours: 3-0  
Migration, Nationalism and Identity in Asia  
Migration has greatly complicated and unsettled the post- WWII associations between people, places, and identity. The seemingly simple question, “Who is Chinese?” or, “Who is Japanese?” is fraught with nuance and complexity. Aims to help students critically analyze the complex political, economic, and cultural dynamics of migration, nationalism, and identity in Asia.  
**Note:** Credit will be granted for only one of 412, 433 (if taken in the same topic).

**POLI 413**

Units: 1.5  
Hours: 3-0  
Feminist Political Thought (Seminar Course)  
An examination of feminist critiques of contemporary political theory and feminist social criticism and political thought, with particular attention to debates about knowledge, subjectivity and difference.  
**Prerequisites:** Two courses from 300A, 300B or 300C, or permission of the instructor.

**POLI 414**

Units: 1.5  
Hours: 3-0  
Politics in the European Union (Seminar Course)  
The politics, institutions, policy-making process, and the role of various nation-states in the European Union, in historical and contemporary contexts. Attention will also be given to theories of European integration.  
**Prerequisites:** 311 or permission of the instructor.
POLI 420
Constitutional Law and Politics in Canada (Seminar Course)
 explores how the courts and the Constitution play a role in social change. Includes an examination of judicial review in Canadian politics, mostly in the post-Charter era.
Prerequisites: 320 or permission of the instructor.

POLI 422
Youth Politics
An examination of youth politics and its history and political implications. Topics include voting, political participation, civic engagement, education, activism, technology and working youth.

POLI 430
Media, Technology and Politics
A critical examination of the impact of new electronic technologies of communication upon contemporary politics. Focuses on the social impact of digital futures. Explores the meaning of power, information and identity in the 21st century. Particular attention is paid to both theoretical and multimedia approaches to understanding politics in the age of interactivity.

POLI 431
Comparative Political Analysis (Seminar Course)
Critical perspectives on the politics of advanced industrial societies with a focus on evolving state-society relations. Topics include the role of social democracy, political parties, social movements, structures of class, race and gender and their evolution in a changing global economy.
Note: Credit will be granted for only one of 431, 459.

POLI 432
The Politics of Social Movements
Drawing on the fields of political science, sociology, social movement studies, critical theory, and political philosophy, focuses on the relationship between themes of cultural recognition and economic equality in contemporary social movements. Key concepts include ideology, new social movements, recognition, and redistribution.
Note: Credit will be granted for only one of 432, 433 (if taken in the topic “Issues in Politics: Politics and the Charter”).

POLI 433
Issues in Politics (Seminar Course)
A seminar in selected contemporary political issues.
Note: May be taken more than once for credit in different topics with permission of the department.

POLI 434
The Politics of Class
An exploration of how social and economic class affects politics and becomes a political issue in Canada and other western countries. Drawing from political history, sociology and political economy, topics will include debates over the conceptualization of class and classes, the historical trajectory of working class political parties, the formation and decline of working class identity, and the class-structured aspects of contemporary politics and social movements (e.g., the women’s movement, anti-racism, gay and lesbian politics, etc.).

POLI 436
Politics of Human Rights in New Democracies
Comparative study of the politics of human rights in new democracies. Issues may include the meaning and history of human rights, human rights organizations, transitional justice, and institutional reform.

POLI 442
International Law (Seminar Course)
An exploration of a number of selected areas and issues of international law and practice. Content varies from year to year, and may include international laws governing human rights, the use of force, the environment, indigenous peoples, criminality, economic relations, and transactions.
Note: Credit will be granted for only one of 442, 432.

POLI 443
Ethnicity, Nationalism and Violent Conflict (Seminar Course)
A critical examination of some of the major theories of ethno-nationalism and identity-based conflict. Discussion of the particular challenges that ethno-nationalism poses for multi-ethnic states and for the international community; and consider institutional arrangements designed to manage ethnic diversity and reduce the potential for conflict. Examining relevant case studies, students will explore a variety of topics, including: the origin of nationalism, sources of conflict, institutional management of conflict, the role of the international community and gendered aspects of ethno-nationalist conflict.
Note: Credit will be granted for only one of 443, 433 (if taken in the topic “Issues in Politics: Security and Ethnic Conflict”).

POLI 444
Globalization, Autonomy, and Co-operation (Seminar Course)
Problems of national economic policy and international economic co-operation in the contemporary context of internationally-mobile capital, extensive trade in goods and services, and transnational production structures. Attention to multilateral institutions and regional institutions such as NAFTA and the European Union.
Prerequisites: 344 or permission of the instructor.

POLI 456
The Politics of the Internet (Seminar Course)
A comparative analysis of some of the most prominent political issues shaping the character and governance of the Internet, including privacy, censorship and intellectual property.

POLI 458
Topics in Environmental Politics (Seminar Course)
An examination of political factors shaping responses to selected global environmental issues.

PORT
Portuguese
Department of Hispanic and Italian Studies
Faculty of Humanities
Native speakers of Portuguese may not obtain credit for 100- or 200-level courses. A native speaker is defined as a person who has spoken Portuguese since childhood and/or has received sufficient instruction in the language to be literate in it. The department will assign students with previous knowledge to the appropriate level.
PORT 100B Units: 1.5 Hours: 3-0  
Beginners’ Portuguese II  
A continuation of 100A, with emphasis on the acquisition of basic skills. Vocabulary and grammatical concepts will be expanded.  
Prerequisites: 100A or permission of the department.

PORT 250A Units: 1.5 Hours: 3-0  
Review of Grammar and Conversation I  
Intensive review of grammatical concepts and structures presented in 100A and 100B and the acquisition of composition and translation skills. Readings may be taken from significant Portuguese authors.  
Prerequisites: 100B or permission of the department.

PORT 250B Units: 1.5 Hours: 3-0  
Review of Grammar and Conversation II  
A continuation of 250A. Review of grammatical concepts and structures introduced in 100A and 100B as well as on the expansion and consolidation of skills acquired in 250A. Readings may be taken from significant Portuguese authors.  
Prerequisites: 250A.

PORT 300 Units: 1.5 Hours: 3-0  
Reading Portuguese  
Designed for the attainment of reading proficiency in Portuguese. Basic Portuguese grammar taught in conjunction with texts of progressive complexity.  
Note: Recommended particularly for third- and fourth-year undergraduate and graduate students. Not open to students who have previously taken Portuguese language courses unless permission is granted by the department.

PSYC 192 Units: 1.5 Hours: 3-0  
Introduction to Positive Psychology  
An examination of the major concepts and principles of positive psychology, defined as the science of discovering meaning and happiness, fulfilling one’s potential in spite of personal limitations and adverse circumstances, and flourishing life.  
Prerequisites: 100A or permission of the department.

PSYC 201 Units: 1.5 Hours: 3-1  
Research Methods in Psychology I  
Introduction to basic research techniques in psychology: emphasis on the conceptual rather than the statistical rationale underlying various research strategies. Areas include the nature of variables, types of measurement, how to generate and test hypotheses, types of validity, and how to interpret and report results. Laboratory exercises and class demonstrations on the processes involved in conducting empirical research.  
Note: Credit will be granted for only one of 201, 200. See Note 1 on this page.  
Prerequisites: 100A and 100B, with a minimum GPA of 3.0 for both.

PSYC 202 Units: 1.5 Hours: 3-0  
Applied Research Methods in Psychology  
An introduction to research methods often used for psychological studies outside the lab. These include field experiments and quasi-experiments; correlational studies; surveys, sampling and questionnaires; descriptive and qualitative methods; case studies and single-case designs.  
Prerequisites: 100A and 100B with a minimum grade of C+ in each; 201 with a minimum grade of C.

| PSYC 317B   | 1.5   | 3-0   | Formerly: half of 317 Human Perception  
An introduction to how our perceptual world is constructed from the input provided by our physical sensory structures. Topics include the construction of spatial percepts, the perception of form and art, and individual differences in perceptual experience. The emphasis is on the hypothesis testing aspects of our perceptual experience.  
Note: Credit will be granted for only one of 317B, 317. |
| PSYC 320   | 1.5   | 3-0   | Formerly: 424 Evolutionary Psychology  
Provides an overview and history of the field of evolutionary psychology and includes evolutionary perspectives on psychological topics such as learning, cognition, consciousness, social behavior, families and culture. |
| PSYC 323   | 1.5   | 3-0   | Formerly: 424 Advanced Biopsychology  
An advanced course on the physiological basis of behavior. Covers the fundamentals of neurophysiology and neuroanatomy from a functional perspective, with an emphasis on the anatomy of the human nervous system. Examines the physiological basis of behaviors through review of contemporary research in areas such as sleep, reproduction, aggression, ingestion, learning and memory, motivation, and mental disorders.  
Prerequisites: 100A, 100B, 210, 210, 215A. |
| PSYC 330   | 1.5   | 3-0   | Formerly: 334 Personality  
An introduction to personality theory and its applications. A survey of several major theories followed in conceptualizing personality, e.g., psychoanalytic, dispositional plus emphasis on measurement of personality, current research, and approaches to personality change.  
Prerequisites: 100A, 100B, and either 201 or third-year standing. |
| PSYC 331   | 1.5   | 3-0   | Formerly: 334 Social Psychology  
A survey of theories and findings: social perception, socialization, social motivation, attitude development and change, interpersonal interaction, and group processes.  
Prerequisites: 100A, 100B. |
| PSYC 332   | 1.5   | 3-0   | Health Psychology  
A study of health issues from the standpoint of biological, psychological, and social factors acting together. Topics include health promotion, approaches to health-behavior change, stress and coping, patient-practitioner interaction, pain, psychological issues in chronic and terminal illness, death and bereavement, the role of psychological factors in disease and treatment.  
Prerequisites: 100A, 100B.  
Formerly: 334B Consumer Psychology  
Psychological processes in consumers: marketing strategies and behaviour, cognition, comprehension, learning, perception, motivation, attitudes, values, and decision making; environmental, cultural, and subcultural influences; ethical issues.  
Note: Credit will be granted for only one of 333, 334B, 334 (if taken in 1970-72). |
| PSYC 334   | 1.5   | 3-0   | Formerly: 334A Physiological correlates of behaviour in the intact organism plus emphasis on measurement of personality and interrelationships.  
Not: Credit will be granted for only one of 333, 334A, COM 120, 220. |
| PSYC 335   | 1.5   | 3-0   | Infant and Child Development  
Psychological processes from conception through about 12 years of age: prenatal development, physical growth, perceptual and cognitive processes, language acquisition, personality development, and social processes.  
Prerequisites: 100A, 100B. |
| PSYC 336   | 1.5   | 3-0   | Adolescent Development  
Psychological processes during adolescence: physical development, cognitive processes, emotional development, social processes, and psychopathology.  
Note: Credit will be granted for only one of 335, 333A. |
| PSYC 338   | 1.5   | 3-0   | Behavioural Modification in Children and Adults  
Consideration of behavioural procedures for assessing and changing problem behaviors, with examples from both children (primarily) and adults. Provides students with a rudimentary ability to apply behavioral techniques in their own lives, as well as to appreciate some of the potential problems involved.  
Prerequisites: 100A, 100B.  
Formerly: 441C Drugs and Behaviour: Basic Principles  
An introductory course designed to review the scientific literature on drugs, behavior, and the central nervous system. Topics include introductions to pharmacology, neuropharmacology, the experimental analysis of behavior, and the behavioral determinants of drug action.  
Note: Credit will be granted for only one of 345A, 345.  
Prerequisites: 100A, 100B, 201, 210. |
| PSYC 340   | 1.5   | 3-0   | Interpersonal Communication  
An examination of human communication, with particular emphasis on face-to-face interaction. Topics include: verbal communication, nonverbal communication, interpersonal systems, and systemic approaches to psychopathology. This is a theory and research course using primary sources; it does not teach communication skills, mass communication, or applied communication.  
Prerequisites: 100A, 100B, 201, third- or fourth-year standing. |
| PSYC 341   | 1.5   | 3-0   | Formerly: 441 Women and Psychology  
Examines social-historical changes in psychological theories and research concerning girls and women. Major theorists including Freud, Thompson, Erickson, Chodorow, Gilligan, Baker-Miller and others are studied in the context of cultural norms for women that existed when these authors were writing. Considers the implications of women’s changing roles for research in developmental and clinical psychology and for the treatment of women’s mental health concerns. Examines current directions of research and practice in the psychology of women’s development.  
Note: Credit will be granted for only one of 341, 441, 441C. |
| PSYC 342   | 1.5   | 3-0   | Formerly: 235 Theories and Methods in Lifespan Developmental Psychology  
A survey of the issues, theories and methods in the study of human psychological development across the entire span of life. Theories include organismic, mechanistic, contextual, and humanistic approaches. Methods appropriate for the study of psychological change are discussed.  
Note: Credit will be granted for only one of 342, 235. |
| PSYC 345A  | 1.5   | 3-0   | Formerly: half of 345 Drugs and Behaviour: Basic Principles  
An introductory course designed to review the scientific literature on drugs, behavior, and the central nervous system. Topics include introductions to pharmacology, neuropharmacology, the experimental analysis of behavior, and the behavioral determinants of drug action.  
Note: Credit will be granted for only one of 345A, 345.  
Prerequisites: 100A, 100B, 201, 215A. |
| PSYC 350   | 1.5   | 3-0   | Environmental Psychology  
Human interaction with the physical environment from a psychological perspective. Topics include environmental perception, cognition, and assessment; personality and environment; the dynamics of social space; the effects of temperature, sound, light and spatial arrangements in neighbourhoods, homes, schools and workplaces; mutual influences of individuals and the natural environment, the design of buildings, and resource management.  
Prerequisites: 201 or registration in Environmental Studies.  
Formerly: 430 Psychological Disorders of Adulthood  
Examines the history and research related to an understanding of psychological disorders of adulthood. Topics include mood and anxiety related disorders, personality disorders, substance abuse and dependence, schizophrenia and other psychotic disorders, and cognitively based disorders. Topics will be dis-
cussed in terms of biological, learning, developmental, humanistic, and cross-cultural perspectives.

**Note:** Credit will be granted for only one of 360, 430.

**Prerequisites:** 100A, 100B, 201, 215A.

**Pre- or corequisites:** Recommended: 361 or volunteer experience with a community agency.

**PSYC 361**

**Units:** 1.5

**Hours:** 1.5-0

Formerly: 430

**Field Placement in Psychology**

Provides first-hand experience with individuals who are challenged by physical, cognitive, emotional, and/or psychological disorders. Successful completion of the course requires approximately 65 hours of participation in a volunteer field placement with a community agency (spread over at least 4 months), class attendance and preparation of assignments pertaining to the volunteer experience. Students will be responsible for obtaining the field placement site, with assistance and coordination of the instructor. Meets September to April.

**Note:** Credit will be granted for only one of 361, 430.

**Pre- or corequisites:** 360 or 366.

**Grading:** COM, N, F.

**PSYC 365**

**Units:** 1.5

**Hours:** 3-0

Formerly: 430

**Fundamentals of Clinical Psychology**

Concepts, methods, and professional issues; the historical development of the profession, the scientist/practitioner model of training and practice; current research and clinical methods, professional/ethical issues; may include other current topics.

**Note:** Credit will be granted for only one of 365, 432.

**Prerequisites:** 100A, 100B.

**Pre- or corequisites:** 330, 360 or 430.

**PSYC 366**

**Units:** 1.5

**Hours:** 3-0

Formerly: 430

**Psychological Disorders of Childhood and Adolescence**

A detailed study of theoretical and research approaches to the understanding of developmentally-related disorders of childhood and adolescence. Emphasis will be on etiology, description and treatment of these disorders which are in specific developmental “stages,” although other disorders which frequently occur during childhood/adolescence will also be considered.

**Note:** Credit will be granted for only one of 366, 436.

**Prerequisites:** 100A, 100B and either 201 or third-year standing.

**Pre- or corequisites:** Recommended: Course in developmental or child psychology and 361 or volunteer experience with a community agency.

**PSYC 370A**

**Units:** 1.5

**Hours:** 3-0

Also: LING 370A

**Psycholinguistics**

The psycholinguistics of language, examining the process of comprehension and production, including language and cognition, conversational discourse, and inference and semantics, among other topics.

**Note:** Credit will be granted for only one of 370A, 370, LING 370, 370A.

**Prerequisites:** 100A, 100B; or permission of the instructor.

**PSYC 370B**

**Units:** 1.5

**Hours:** 3-0

Also: LING 370B

**Child Language Acquisition**

The biological bases of language; the stage by stage acquisition of the phonology, morphology, syntax, and semantics of the child’s first language; the child’s developing metalinguistic abilities; and the child’s growing awareness of the form and function of speech acts, as well as the discourse rules governing conversations.

**Note:** Credit will be granted for only one of 370B, 369, LING 369, 370B.

**Prerequisites:** 100A, 100B; or permission of the instructor.

**PSYC 370C**

**Units:** 1.5

**Hours:** 3-0

Also: LING 370C

**Topics in Psycholinguistics**

**Note:** Credit will be granted for only one of 370C, LING 370C if taken in same topic. May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units.

**PSYC 375**

**Units:** 1.5

**Hours:** 3-0

**Interpersonal Relations**

An introduction to social psychological research and theory on close relationships with a focus on adult romantic relationships. Topics include relationship formation, maintenance and dissolution.

**Prerequisites:** 100A, 100B, 201.

**PSYC 380**

**Units:** 1.5

**Hours:** 3-0

**Psychology and Law**

Consideration of the contributions of psychological theory and research to the understanding of crime investigation, courtroom dynamics, and the legal system. Specific topics will vary from year to year but may include eyewitness testimony, police practices, judge and jury decision making, lie detection and confessions, expert testimony. Topics will be discussed from the perspectives of social and cognitive psychology.

**Prerequisites:** 100A, 100B, 201.

**PSYC 385**

**Units:** 1.5

**Hours:** 3-0

**Motivation and Emotion**

Contemporary theoretical, conceptual and methodological issues regarding the psychological forces that activate, organize and direct human feelings and behaviours. Emphasis on cognitive and social perspectives on motivation and emotion.

**Prerequisites:** 100A, 100B.

**PSYC 390**

**Units:** 1.5 or 3.0

**Independent Study in Psychology**

Directed independent study intended primarily to allow students and a faculty supervisor to pursue a topic of mutual interest. Complete Pro Forma arrangements must be made with an instructor in the department before registering.

**Note:** May be taken more than once for credit in different topics.

- The maximum credit for 390 and 490 together must not exceed 6 units without permission of the Chair of the department.

**Prerequisites:** 100A, 100B, 201, third-year standing and a minimum GPA of 3.5 in the last 15 units attempted.

**PSYC 391**

**Units:** 1.5

**Hours:** 3-0

**Special Topics in Psychology**

Intensive examination of a specific topic or area in Psychology. Topic(s) and information will be provided in advance of registration.

- A01: Psychology of Criminal Justice Processes

**Note:** May be taken more than once in different topics.

**Prerequisites:** 201, third-year standing.

**PSYC 400A**

**Units:** 1.5

**Hours:** 3-0

Advanced Statistical Methods: The General Linear Model

An introduction to advanced research designs and their underlying rationale. Experimental design and statistical techniques will be applied to problems in psychology. Extensive treatment will be applied to the use of the general linear model. Examines designs having multiple independent variables and a single dependent variable. Topics covered include correlation, multiple regression, analysis of variance and sampling.

**Prerequisites:** 100A, 100B, 201, and a minimum grade of B+ in 300B

**Corequisites:** 499 or permission of department.

**PSYC 401**

**Units:** 1.5

**Hours:** 3-0

**Measurement of Psychological Processes**

The measurement of individual differences, especially personality and ability traits. The focus will be on reliability and validity - how do we know whether, and to what degree, a psychological measure is reliable and valid? Topics include designs for estimating reliability and validity, advanced correlation, and current problems and issues in the field.

**Note:** The course does not teach psychological tests.

**Prerequisites:** 100A, 100B, 201, and a minimum grade of B+ in 300A.

**Corequisites:** 499 or permission of department.

**PSYC 412A**

**Units:** 1.5

**Hours:** 3-0

**Behaviour Analysis: Complex Behaviour**

Interpretative analyses of complex human behaviour from a behaviour-analytical perspective. Topics may include attending, thinking, remembering, and verbal behaviour.

**Note:** Credit will be granted for only one of 412A, 312.

**Prerequisites:** 100A, 100B and either 338 or permission of the instructor.

**PSYC 412B**

**Units:** 1.5

**Hours:** 3-0

**Behaviour Analysis: Applied Research**

Survey and critical evaluation of recent research in applied behaviour analysis. Topics may include applications to children, developmental disabilities, community, sports, business, and substance abuse.

**Prerequisites:** 100A, 100B and either 338 or permission of the instructor.

**PSYC 412C**

**Units:** 1.5

**Hours:** 3-0

**Behaviour Analysis: Basic Research**

Survey of recent research in the experimental analysis of behaviour. Focus is on complex human behaviour. Topics may include stimulus equivalence, verbal behaviour, rule-governed behaviour, fluency, problem solving, and novelty.

**Prerequisites:** 100A, 100B and either 311B or permission of the instructor.

**PSYC 413A**

**Units:** 1.5

**Hours:** 3-0

**Memory**

Detailed analysis of selected issues in the cognitive psychology and/or cognitive neuroscience of human memory. Assigned readings will be drawn primarily from the primary research literature, with an emphasis on areas of inquiry in which the instructor has particular expertise and interest.

**Prerequisites:** 100A, 100B, 313.

**PSYC 413B**

**Units:** 1.5

**Hours:** 3-0

**Consciousness**

Detailed analysis of selected issues in the cognitive psychology and/or cognitive neuroscience of consciousness. Assigned readings will be drawn primarily from the primary research literature, with an emphasis on areas of inquiry in which the instructor has particular expertise and interest.

**Prerequisites:** 100A, 100B, 313.
PSYC 413C Units: 1.5 Hours: 3-0
Vision
Detailed analysis of selected issues in the cognitive psychology and/or cognitive neuroscience of human vision. Assigned readings will be drawn primarily from the primary research literature, with an emphasis on areas of inquiry in which the instructor has particular expertise and interest.
Prerequisites: 100A, 100B, 313.

PSYC 413D Units: 1.5 Hours: 3-0
Cognitive Control
Detailed analysis of selected issues in the cognitive psychology and/or cognitive neuroscience of cognitive control (i.e., how people regulate their attention, thoughts, and actions in accord with their goals). Assigned readings will be drawn primarily from the primary research literature, with an emphasis on areas of inquiry in which the instructor has particular expertise and interest.
Prerequisites: 100A, 100B, 313.

PSYC 413E Units: 1.5 Hours: 3-0
Decision Making
Detailed analysis of selected issues in the cognitive psychology and/or cognitive neuroscience of decision making. Assigned readings will be drawn primarily from the primary research literature, with an emphasis on areas of inquiry in which the instructor has particular expertise and interest.
Prerequisites: 100A, 100B, and 313.

PSYC 415 Units: 1.5 Hours: 3-0
Formerly: 415
Human Neuropsychology
Examines brain-behavior relationships by studying qualitative changes in cognitive performance following focal brain damage. The historical approach provides readings from both classical (e.g., Wernicke, Liepmann) and contemporary sources. Topics include localization of function, aphasia, agnosia, apraxia, and amnesia. Methods of clinical testing and diagnosis will be presented.
Note: Credit will be granted for only one of 415E, 415 if 391 taken in the same topic.
Prerequisites: 100A, 100B, and 313.

PSYC 415B Units: 1.5 Hours: 3-0
Formerly: 423
Biological Psychology
Extensive, research-oriented examination of contemporary topics in biological psychology. Topics may include the biopsychology of motivation, memory, neural plasticity and changes in function after brain injury. The seminar format of this course requires students to make an oral presentation and write a term paper about an area of current research.
Note: Credit will be granted for only one of 415B, 423.
Prerequisites: 100A, 100B, 215A and one of 323, BIOL 345, BIOL 365.
Pre-or corequisites: 300A/B or STAT 255/256 recommended.

PSYC 415C Units: 1.5 Hours: 3-0
Social Psychology: Social Cognition
Intensive examination of the social psychological literature emphasizing how people think about and make sense of their social experience. Topics may include how people create and maintain a sense of identity, close relationships, attitudes, persuasion, applications of social psychology.
Prerequisites: 100A, 100B, 331.

PSYC 413D Units: 1.5 Hours: 3-0
Social Psychology: Face-to-Face Interaction
Intensive examination of human communication in face-to-face dialogue. Topics will be drawn from the realm of theory and research concerning communication within interpersonal relationships.
Prerequisites: 100A, 100B, 340.

PSYC 413E Units: 1.5 Hours: 3-0
Social Psychology: Environmental Psychology
An in-depth analysis of how people's thoughts, feelings, and interactions influence and are influenced by the built and natural environment.
Prerequisites: 100A, 100B, 350.

PSYC 413G Units: 1.5 Hours: 3-0
Social Psychology: Self-Regulation and Goals
An examination of the ways people select and prioritize goals; how they are pursued; factors that lead to success or failure in achieving particular aims; and consequences for individual functioning and well-being. Contemporary theoretical, conceptual and methodological issues. Emphasis on social-cognitive approaches to goals and self-regulation.
Note: Credit will be granted for only one of 413G, 491 if taken in the topic “Motivation”.
Prerequisites: 201, 210, 385 and third-year standing.

PSYC 413H Units: 1.5 Hours: 3-0
Advanced Interpersonal Relations Seminar
An in-depth examination of social psychological research, methods, and theory on close relationships with a focus on adult romantic relationships. Topics include the self and close relationships, commitment and interdependence, and attachment theory.
Note: Credit will be granted for only one of 413H, 491 if taken in this topic.
Prerequisites: 100A, 100B, 201, 331, 375.

PSYC 435A Units: 1.5 Hours: 3-0
Infant Development
Intensive examination of specific processes in infant development. Possible topics will include social-emotional and cognitive development, parenting and attachment, perception, motor development, neurological development.
Prerequisites: 100A, 100B, 201 and one of the 300-level developmental courses: 335, 336, 339, 342.

PSYC 435B Units: 1.5 Hours: 3-0
Child and Adolescent Social and Personality Development
Intensive examination of specific processes in child and adolescent social and personality development. Possible topics will include identity, peer influences, schooling, aggression, deviance, sexuality, cultural influences, social development, moral development, developmental psychopathology.
Prerequisites: 100A, 100B, 201 and one of the 300-level developmental courses: 335, 336, 339, 342.

PSYC 435C Units: 1.5 Hours: 3-0
Child and Adolescent Cognitive Development
Intensive examination of specific processes in child and adolescent cognitive development. Possible topics will include decision making, reasoning, neurophysiological changes, memory, language, learning problems, problem solving.
Prerequisites: 100A, 100B, 201 and one of the 300-level developmental courses: 335, 336, 339, 342.

PSYC 435D Units: 1.5 Hours: 3-0
Adult Social and Personality Development
Intensive examination of specific processes in adult social and personality development. Possible topics will include personality traits, identity, goals and motives, emotions, social interaction, beliefs and values, successful aging, compensatory mechanisms, cultural context.
Prerequisites: 100A, 100B, 201 and one of the 300-level developmental courses: 335, 336, 339, 342.

PSYC 435E Units: 1.5 Hours: 3-0
Adult Cognitive Development
Intensive examination of specific processes in adult cognitive development. Possible topics will include neurological changes, memory, attention, intelligence, expertise, problem solving, wisdom, dementia.
Prerequisites: 100A, 100B, 201 and one of the 300-level developmental courses: 335, 336, 339, 342.

PSYC 435G Units: 1.5 Hours: 3-0
Autism: Theory and Practice
An academic and practical introduction to the social, biological and cognitive aspects of autism spectrum disorder (ASD). The first half of the course will introduce core theories and behaviours of autism. In the second half of the course, students will have an opportunity to apply this knowledge by working individually with children and young adults with autism spectrum disorder (ASD).
Prerequisites: 100A, 100B, 201 and one of 335, 336, 342.

PSYC 450 Units: 1.5 Hours: 3-0
Developmental Handicaps and Learning Disabilities
Survey of a number of learning and developmental disabilities. Discussion of etiologies, assessment procedures, current education/treatment approaches, and in-depth examination of underlying brain function. Emphasis on learning disabilities, and education of children with developmental handicaps. It is recommended that no-psychology students have a strong background in the biological sciences.
Prerequisites: 100A, 100B, 215A, 315 or 335, and third-year standing.

PSYC 460 Units: 1.5 Hours: 3-0
Family Violence across the Lifespan
In-depth examination in a seminar format of violence within the family including child abuse and neglect, intimate partner violence, dating violence, and elder abuse. Theory and research on causes and effects of family violence are examined. Special topics include definitional issues, case studies, research methods, prevention, treatment, and cultural, legal, and social issues.
Note: Credit will be granted for only one of 460, 391 if 391 taken in the same topic, 491 if 491 taken in the same topic.
Prerequisites: 100A, 100B, 201 and one of 335, 336, 360, 366, 435A, 435B.

PSYC 490 Units: 1.5 or 3.0
Advanced Independent Study in Psychology
Directed independent study for the advanced student intended primarily to allow students and a faculty supervisor to pursue a topic of mutual interest. Complete Pro Forma arrangements must be made with an instructor in the department before registering.
Notes: - May be taken more than once in different topics.
- The maximum credit for 390 and 490 together must not exceed 6 units without permission of the department.
Prerequisites: 100A, 100B, 390, fourth-year standing and a minimum GPA of 5.5 in the last 15 units attempted.
PSYC 491 Units: 1.5 Hours: 3-0
Advanced Special Topics in Psychology

Note: May be taken more than once for credit in different topics.

Prerequisites: 201 and third-year standing. Additional pre-requisites dependent upon topic being offered.

PSYC 492 Units: 1.5 Hours: 2-1
Research Seminar in Psychology

A seminar and laboratory research course for Psychology Honours and Majors. Course content will vary with instructor.

Note: May be taken more than once for credit in different topics.

Prerequisites: Completion of core requirements for Psychology Honours or Majors and permission of the department.

PSYC 499 Units: 3.0 Hours: 1-2-1
Honours Thesis and Seminar

Students will attend a weekly seminar which includes oral presentation of their proposed thesis research in the first term and a progress report of the research in the second term. For the remainder of the program, the students will work closely with a faculty supervisor regarding details of the written thesis which is submitted in April.

Prerequisites: Admission to the Honours Program.

RS 200A Units: 1.5 Hours: 3-0
Introduction to Judaism, Christianity and Islam

An introductory survey of the sources, beliefs and practices of Judaism, Christianity and Islam. The traditions will be studied in their cultural and political contexts from both historical and contemporary perspectives.

RS 200B Units: 1.5 Hours: 3-0
Also: PAAS 204

Introduction to Asian Religions

A survey of the sources, beliefs and practices of Hinduism, Buddhism, Sikhism and the Chinese religions. The traditions will be studied in their cultural and political contexts from both historical and contemporary perspectives.

Note: Credit will be granted for only one of 200A, PAAS 204.

RS 301 Units: 1.5 Hours: 3-0
Contemporary Religious Issues

The major religious traditions and their relationship to contemporary social, cultural, political and economic issues such as gender, death, ecology, work and the market economy.

Notes: - May be taken more than once for credit in different topics with permission of the program to a maximum of 4.5 units.
- 200A and 200B recommended.

Prerequisites: Second-year standing.

RS 302 Units: 1.5 Hours: 3-0
Ways of Understanding Religion

An examination of how the methods and understanding of disciplines such as Anthropology, History, Philosophy, Psychology and Sociology contribute to the study of religion.

Notes: - May be taken more than once for credit in different topics with permission of the program to a maximum of 4.5 units.
- 200A and 200B recommended.

Prerequisites: Second-year standing.

RS 303 Units: 1.5 Hours: 3-0
Religious Traditions I

An examination of the origins and early development of a major world religion (e.g. Hinduism, Buddhism, Confucianism, Judaism, Christianity, Islam).

Note: May be taken more than once for credit in different topics with permission of the program to a maximum of 4.5 units.

Prerequisites: 200A or 200B, and permission of the program.

RS 304 Units: 1.5 Hours: 3-0
Religious Traditions II

A survey of the development and contemporary manifestation of a major world religion (e.g. Hinduism, Buddhism, Confucianism, Judaism, Christianity, Islam)

Notes: - May be taken more than once for credit in different topics with permission of the program to a maximum of 4.5 units.
- 303 strongly recommended.

Prerequisites: 200A or 200B, and permission of the program.

RS 401 Units: 1.5 Hours: 3-0
Selected Topics in Religious Studies

An examination of critical and analytic methods in Religious Studies to a particular religious topic. Topics may include: religion and death; religion and environment.

Note: May be taken more than once for credit in different topics with permission of the program to a maximum of 6 units.

Prerequisites: 200A, 200B, and 301 or 302; or permission of the program.

RS 403 Units: 1.5 Hours: 3-0
Studies in Religion and Society

Course study based on events at or organized by the Centre for Studies in Religion and Society, including weekly lectures by Centre Fellows, daily discussions, distinguished speaker series, faculty symposia and interdisciplinary research projects.

Note: May be taken more than once for credit in different topics with permission of the program to a maximum of 6 units.

Prerequisites: 200A, 200B, and 301 or 302; or permission of the program.

RS 450 Units: 1.5 Hours: 3-0
Capstone Seminar

Graduating Major’s research project consisting of readings and assignments based on what has been learned from the academic study of religion in the program and focused on the relationship of religion and society. Designed to develop as well as measure the student's integration of the various aspects of the discipline of Religious Studies.

Prerequisites: 200A, 200B, 301, 302, formal declaration of the RS Major, fourth-year standing; or permission of the program.

RS 490 Units: 1.5 Hours: 3-0
Directed Reading

Students wishing to pursue a course of directed readings should, together with a faculty member willing to supervise such a course, formulate a proposal describing both the content of the course and a suitable means of evaluating the student's work.

Note: May be taken more than once for credit in different topics with permission of the program to a maximum of 4.5 units.

- 200A and 200B recommended.

Prerequisites: Second-year standing.

S12-13 UVIC CALENDAR 387

SCIE

Science
Faculty of Science

SCIE 190 Units: 1.5
Individual Study

Granted only by special permission of the Dean of Science, on recommendation of the department and only in situations involving extenuating circumstances, illness, accident or family affliction.

SCIE 290 Units: 1.5
Individual Study

Granted only by special permission of the Dean of Science, on recommendation of the department and only in situations involving extenuating circumstances, illness, accident or family affliction.

SCIE 390 Units: 1.5
Individual Study

Granted only by special permission of the Dean of Science, on recommendation of the department and only in situations involving extenuating circumstances, illness, accident or family affliction.

SENG

Software Engineering

Software Engineering

Faculty of Engineering

Some Faculty of Engineering courses are only open to students in the faculty or in specific programs. Courses and applicable restrictions are listed at www.uvic.ca/engineering/courseaccess.php

Courses offered by the Faculty of Engineering are also found under the following course codes: BME (Biomedical Engineering), CENG (Computer Engineering), CSC (Computer Science), ELEC (Electrical Engineering), ENGR (Engineering) and MECH (Mechanical Engineering).

SENG 130 Units: 1.5 Hours: 3-1
Engineering Software Systems

Introduces students to the world of computing, communications, and different types of software systems, including information systems, database systems, operating systems, network-centric systems, Web-based systems and applications. Students will be exposed to fundamentals of software engineering design, ethics and problem-solving methods. Topics include network management, Web services, electronic commerce, security, privacy, markup and scripting languages, hypermedia and Web integration.

Note: Credit will be granted for only one of 130, CSC 130.

SENG 265 Units: 1.5 Hours: 3-1.5
Software Development Methods

Systematic methods for designing, coding, testing and documenting medium-sized programs. Tools and techniques to promote programming productivity and software quality. Topics include specifications, coding review and inspection techniques, testing and debugging methods and tools, reusable software components and templates, file system navigation, scripting languages, software tools, environments, instrumenting and profiling, and the fundamentals of software configuration management.
COURSE LISTINGS

Note: Credit will be granted for only one of 265, CSC 265.
Prerequisites: CSC 115 or 160.

SENG 271 Units: 1.5 Hours: 3-1
Software Model Engineering
An introduction to analysis and design of software architectures with UML (Unified Modelling Language) and their subsequent synthesis at the program level. Topics include use-case driven requirements analysis, analysis and design of static and dynamic view points of software architectures and model driven code engineering. Design patterns are introduced and applied as reusable solutions to recurring design problems. Students are familiarized with framework-based component reuse, event-driven programming and computer-aided software engineering (CASE) tools.

Note: Credit will be granted for only one of 271, 221. Pre- or corequisites: 265.

SENG 310 Units: 1.5 Hours: 3-2
Human Computer Interaction
Understanding human behaviour as it applies to user interfaces: work activity analysis, observational techniques, questionnaire administration and unobtrusive measures. Operating parameters of the human cognitive system, task analysis and cognitive models and design techniques and their application to designing interfaces. Interface representation and prototyping tools. Cognitive walkthroughs, usability studies and verbal protocol analysis. Case studies of specific user interfaces.

Prerequisites: 221 or 265 or CENG 241.

SENG 321 Units: 1.5 Hours: 3-3
Requirements Engineering and Formal Specifications
Combines a range of topics integral to the analysis of requirements, design, implementation, and testing of a medium-scale software system with the practical experience of implementing such a project as a member of a software engineering team. Introduces requirements engineering, specifications, software life cycle models and formal methods for requirements engineering.

Prerequisites: 265 and MATH 222 or CENG 241 and 245.

SENG 330 Units: 1.5 Hours: 3-0
Object-Oriented Software Development

Prerequisites: 265 or CENG 241.

SENG 360 Units: 1.5 Hours: 3-2
Security Engineering
Topics include basic cryptography, security protocols, access control, multilevel security, physical and environmental security, network security, application security, e-services security, human aspects and business continuity planning. Discusses applications which need various combinations of confidentiality, availability, integrity and covertness properties; mechanisms to incorporate and test these properties in systems. Policy and legal issues are also covered.

Prerequisites: 265, third-year standing in SEng or CEng or CSc.

SENG 371 Units: 1.5 Hours: 3-2
Software Evolution
Introduces problems and solutions of long-term software maintenance/evolution and large-scale, long-lived software systems. Topics include software engineering techniques for programming-in-the-large, program development for legacy software systems, software architecture, software evolution, software maintenance, reverse engineering, program understanding, software visualization, advanced issues in object-oriented programming, design patterns, antipatterns, and client-server computing. Culminates in a team project.

Note: Credit will be granted for only one of 371, 420 or equivalent.
Prerequisites: 271 or 321.

SENG 380 Units: 1.5 Hours: 3-0
Software Process and Management

Prerequisites: ENGR 280 and third-year standing in the Faculty or permission of the department.

SENG 401 Units: 1.5 Hours: 3-0
Social and Professional Issues
Introduces students to the social and professional issues arising in the context of Software Engineering. Topics include: the impact of software systems on privacy and handling of personal information; the roles of encryption and interception of communications; trust in computers; free speech and civil discourse on the Internet; intellectual property such as copyright and patents in the age of digital systems; computer crime; computers in the workplace; professional ethics and responsibilities; sustainable development and environmental stewardship.

Prerequisites: Fourth-year standing.

SENG 410 Units: 1.5 Hours: 3-0
Media Applications
The influence of technology, especially digital technology, on how we express ourselves, how we communicate with each other, and how we perceive, think about, and interact with our world. The invention and creative use of enabling technologies for understanding and expression by people and machines. Topics include: digital video representations; three-dimensional images; physical interfaces; computational tools and media that help people learn new things in new ways (tele-learning); knowledge representation; machine interpretation of sensory data.

Prerequisites: Fourth-year standing in the Faculty.

SENG 440 Units: 1.5 Hours: 3-1
Embedded Systems

Prerequisites: CENG 355 or CSC 355.

SENG 450 Units: 1.5 Hours: 3-0
Network-centric Computing
Trends in conducting business electronically and currently available products to support electronic commerce. Technologies necessary for electronic commerce to achieve its potential. Standards to improve the inte-
Seng 460
Units: 1.5
Hours: 3-0
Practice of Information Security and Privacy
Aims to present a holistic view of various security engineering topics through practical case studies. Topics include enterprise security architecture, security threat and risk assessment, education and awareness, monitoring, investigation and forensics, application security, media handling and intellectual property, privacy, physical and environmental security, and business continuity planning. Also introduces information security-related certification and relevant professional associations.
Prerequisites: 271 or 330; CSC 360.

Seng 461
Units: 1.5
Hours: 3-1
Network Security
Surveys the challenges, principles and practice of modern network security. Topics covered include network security vulnerabilities and threats; network security risk analysis techniques and countermeasures; design and implementation of secure network architecture; intrusion detection and prevention models and technologies; firewall architectures and technologies; network security protocols; Virtual Private Networks (VPNs); principles, techniques and practice of network forensics.
Prerequisites: CENG 460 or CSC 361.

Seng 462
Units: 1.5
Hours: 3-0-1
Distributed Systems and the Internet
Note: Credit will be granted for only one of 462, CSC 462.
Prerequisites: 271 or 330 or CENG 356, CENG 460 or CSC 361.

Seng 466
Units: 1.5
Hours: 3-1
Software for Embedded and Mechatronics Systems
Software engineering methods and techniques for systematic development and maintenance of embedded and mechatronics systems. Topics include requirements of software that drives mechatronics systems, specifications of mechatronics, real-time and reactive systems, validation, verification, simulation and testing of mechatronics software. Building product-line software architectures of mechatronic systems is also addressed.
Prerequisites: One of 265, 321 or 365 or CENG 355.

Seng 474
Units: 1.5
Hours: 3-1
Data Mining
An introduction to data mining. Data preparation, model building, and data mining techniques such as clustering, decision trees and neural networks will be discussed and applied to case studies. Data-mining software tools will be reviewed and compared.
Prerequisites: 265.

Seng 480
Units: 1.5
Hours: 3-0
Topics in Software Engineering
Topics depend primarily on the interests of the instructor. Entrance will be restricted to third- and fourth-year students who meet the prerequisites specified for the topic to be offered. Some topics may require laboratory work as well as lectures.
Notes: - Credit will be granted for only one of 480A, 480B, 480C, 480D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

Seng 490
Units: 1.5 or 3.0
Directed Studies
Note: Students must consult their Program Department before registering. May be taken more than once for credit in different topics with permission of the department.

Seng 499
Units: 1.5
Hours: 1-9
Technical Project
The student is required to pursue an independent project under the supervision of a faculty member, to prepare a written report and present a seminar describing the work. Projects will normally focus on large software systems, and collaboration with an industrial sponsor is encouraged.
Prerequisites: Fourth-year standing in the Faculty.

SJS 100
Units: 1.5
Hours: 3-0
Introduction to Theories of Social Justice
An interdisciplinary, team-taught study focusing on the central theoretical frameworks utilized by scholars. Introduces key thinkers associated with social justice studies.

SJS 200
Units: 1.5
Hours: 3-0
Introduction to the Practice of Social Justice
An interdisciplinary, team-taught approach to the practice of social justice. Focuses on understanding the application of social justice concepts and theories to effect social and political change, including the social and political movements and processes that have been mobilized to address issues of social injustice.

SJS 400A
Units: 1.5
Hours: 3-0
Seminar in Social Justice Studies
Interdisciplinary exploration of theories and methodological approaches that bear on key questions of social justice.
Prerequisites: 100, 200, fourth-year standing; or permission of the Program.

Practising Social Justice in the Field
Application of social justice theories to field-based practice through placement with an organization, community group, or service.
Note: Enrolment normally limited to students registered in the SJS Minor.
Prerequisites: 100, 200, permission of the Program.

SLST 100
Units: 1.5
Hours: 3-0
Introduction to Russian Society and Culture
Introduction to Russian society and culture from earliest times to the present. Explores Russian historical ties to other Slavic cultures, Asia and Europe. Discussion of the Russian national character as a cultural phenomenon by examining its geographical, historical and political sources.
Note: No knowledge of Russian required.

SLST 101
Units: 1.5
Hours: 3-0
Formerly: RUSS 100A
Beginning Russian I
For students with no previous knowledge of Russian. Covers the basics of Russian grammar, reading and conversational at the beginner's level resulting in an ability to communicate in selected typical situations. Introduction to various aspects of everyday Russian life and culture through the language.
Note: Credit will be granted for only one of 101, RUSS 100, 100A.

SLST 102
Units: 1.5
Hours: 3-0
Formerly: RUSS 100B
Beginning Russian II
Continuation of the development of basic reading, writing and conversational skills. Introduction to various aspects of everyday Russian life and culture through the language.
Note: Credit will be granted for only one of 102, RUSS 100, 100B.

SLST 111
Units: 1.5
Hours: 3-0
Formerly: UKR 100A
Beginning Ukrainian I
Introduction to the essential points of grammar and basic vocabulary for everyday interaction, as well as reading and writing.
Note: Credit will be granted for only one of 111, UKR 100A.

SLST 112
Units: 1.5
Hours: 3-0
Formerly: UKR 100B
Beginning Ukrainian II
Expands knowledge and skills acquired in SLST 111. Progress toward command of the spoken and written language.
Note: Credit will be granted for only one of 112, UKR 100B.

SLST 160
Units: 1.5
Hours: 3-0
Formerly: RUSS 161
The Culture of the Russian Revolution
An exploration of the literature, film and art produced by the revolution that shook the world. Introduction to Russia's rich contribution to modern world culture and an investigation of the experiments of the Russian avant-garde.
Note: Credit will be granted for only one of 160, RUSS 161. No knowledge of Russian required.

SLST 201
Units: 1.5
Hours: 3-0
Formerly: RUSS 200A
Intermediate Russian I
Expands and enhances spoken and written knowledge and skills. Grammatical features, vocabulary, sentence structure and insight into Russian life and culture.
Note: Credit will be granted for only one of 201, RUSS 200, 200A.

SLST 202
Units: 1.5
Hours: 3-0
Formerly: RUSS 200B
Advanced Russian I
Further develops speaking and listening skills. Orientation to various aspects of modern Russian life and culture.
Note: Credit will be granted for only one of 202, RUSS 200, 200B.

SLST 300
Units: 1.5
Hours: 3-0
Formerly: RUSS 300A
Intermediate Russian II
Expands and enhances written and oral comprehension, speaking and listening skills. Discussion of various aspects of modern Russia and the Russian diaspora.
Note: Credit will be granted for only one of 300, RUSS 300, 300A.

SLST 301
Units: 1.5
Hours: 3-0
Formerly: RUSS 300B
Advanced Russian II
Further develops interpretation of modern Russian settings and cultural phenomena.
Note: Credit will be granted for only one of 301, RUSS 300, 300B.

SLST 400
Units: 1.5
Hours: 3-0
Course Title: 400
Course Description: 400
Prerequisites: 400

SLST 490
Units: 1.5
Hours: 3-0
Directed Studies
Note: Students must consult their Program Department before registering. May be taken more than once for credit in different topics with permission of the department.

Practising Social Justice in the Field
Application of social justice theories to field-based practice through placement with an organization, community group, or service.
Note: Enrolment normally limited to students registered in the SJS Minor.
Prerequisites: 100, 200, permission of the Program.

SLST 499
Units: 1.5
Hours: 1-9
Technical Project
The student is required to pursue an independent project under the supervision of a faculty member, to prepare a written report and present a seminar describing the work. Projects will normally focus on large software systems, and collaboration with an industrial sponsor is encouraged.
Prerequisites: Fourth-year standing in the Faculty.

SLST 810
Units: 1.5
Hours: 3-0
Course Title: 810
Course Description: 810
Prerequisites: 810

SLST 890
Units: 1.5
Hours: 3-0
Directed Studies
Note: Students must consult their Program Department before registering. May be taken more than once for credit in different topics with permission of the department.

Practising Social Justice in the Field
Application of social justice theories to field-based practice through placement with an organization, community group, or service.
Note: Enrolment normally limited to students registered in the SJS Minor.
Prerequisites: 100, 200, permission of the Program.

SLST 899
Units: 1.5
Hours: 1-9
Technical Project
The student is required to pursue an independent project under the supervision of a faculty member, to prepare a written report and present a seminar describing the work. Projects will normally focus on large software systems, and collaboration with an industrial sponsor is encouraged.
Prerequisites: Fourth-year standing in the Faculty.

SLST 900
Units: 1.5
Hours: 3-0
Course Title: 900
Course Description: 900
Prerequisites: 900

SLST 990
Units: 1.5
Hours: 3-0
Directed Studies
Note: Students must consult their Program Department before registering. May be taken more than once for credit in different topics with permission of the department.

Practising Social Justice in the Field
Application of social justice theories to field-based practice through placement with an organization, community group, or service.
Note: Enrolment normally limited to students registered in the SJS Minor.
Prerequisites: 100, 200, permission of the Program.

SLST 999
Units: 1.5
Hours: 1-9
Technical Project
The student is required to pursue an independent project under the supervision of a faculty member, to prepare a written report and present a seminar describing the work. Projects will normally focus on large software systems, and collaboration with an industrial sponsor is encouraged.
Prerequisites: Fourth-year standing in the Faculty.
## SLST 202  Units: 1.5  Hours: 3-0
**Formerly: RUSS 200B**
**Intermediate Russian II**
Furthers knowledge of grammar and vocabulary at the intermediate level with continued reading, writing, listening and speaking in Russian while learning about Russian life and culture.

**Note:** Credit will be granted for only one of 202, RUSS 200, 200B.

**Prerequisites:** 201, or RUSS 200A, or permission of the department.

## SLST 203  Units: 1.5  Hours: 3-0
**Formerly: RUSS 203**
**Pronunciation and Colloquial Russian**
Focuses on Russian pronunciation, phonetics and intonation as well as colloquial language. Aims to build a foundation for confidence in spoken Russian. Proverbs and sayings, tongue-twisters, nursery rhymes, songs and cartoons provide an insight into Russian popular culture.

**Note:** Credit will be granted for only one of 203, RUSS 203.

**Prerequisites:** 101, or RUSS 100, or RUSS 100A, or permission of the department.

## SLST 210  Units: 1.5  Hours: 3-0
**Special Topics**
Note: May be taken more than once in a different topic with permission of the department to a maximum of 4.5 units.

## SLST 262  Units: 1.5  Hours: 3-0
**Formerly: RUSS 261**
**Stalinism**
A survey of social processes and cultural life in the Soviet Union under Stalin (1922-1953). Combines a historical study of Stalinism with an introduction to the literature, films and visual art of the period.

**Notes:** - Credit will be granted for only one of 262, RUSS 261.
- No knowledge of Russian required.

## SLST 301  Units: 1.5  Hours: 3-0
**Formerly: RUSS 300A**
**Advanced Russian**
For advanced-to-intermediate students of Russian. Focus on understanding advanced grammar features and developing communication skills while learning about Russian literature and culture.

**Note:** Credit will be granted for only one of 301, RUSS 300A, 302.

**Prerequisites:** 201 and 202, or RUSS 200A and 200B, or RUSS 200, or permission of the department.

## SLST 303  Units: 1.5  Hours: 3-0
**Formerly: RUSS 303**
**Russian Popular Culture (in Russian)**
For advanced to intermediate students of Russian. Focus on improving mastery of the spoken language and comprehension and study of Russian popular culture in the original language.

**Note:** Credit will be granted for only one of 303, RUSS 300B, 302, 303.

**Prerequisites:** 201 and 202, or RUSS 200A and 200B, or RUSS 200, or permission of the department.

## SLST 350  Units: 1.5  Hours: 3-0
**Formerly: part of RUSS 304A, 304B**
**Introduction to Russian Film**
An introduction to Russian Film Art of the 20th century.

**Notes:** - Credit will be granted for only one of 350, RUSS 304A, 304B. No knowledge of Russian required.
- May count towards a Minor in Film Studies.

## SLST 351  Units: 1.5  Hours: 3-0
**Formerly: RUSS 460**
**Forbidden Books, Forbidden Films**
A study of selected works of Russian literature and cinema which have been banned, censored and prohibited, from the Imperial to the Soviet period.

**Note:** Credit will be granted for only one of 350, RUSS 460. No knowledge of Russian required.

## SLST 360  Units: 1.5  Hours: 3-0
**Major Figures of Russian Culture and History**
An overview of the most influential people in Russian culture and history, such as Peter the Great, Catherine the Great, Lenin, Gorbachev, Putin, Lomonosov, Tchaikovsky, Pushkin, Tolstoy and Solzhenitsyn. Discussion of the role of the individual in the development of a nation.

**Note:** No knowledge of Russian required.

## SLST 361  Units: 1.5  Hours: 3-0
Also: HIST 374, 376
**Formerly: SLAV 374, 376**
**Imperial Russia, 1689-1917**
A history of Russian Empire from Peter the Great to the fall of the monarchy. Traces Russia’s response to the challenge of the West, with special attention to political reforms, social transformation and cultural change. Discussion of whether Late Imperial Russia was history’s dead end or a promise cut short by revolutionary violence.

**Note:** Credit will be granted for only one of 361, SLAV 374, 376. An introductory course in history strongly recommended. No knowledge of Russian required.

## SLST 362  Units: 1.5  Hours: 3-0
Also: HIST 376
**Formerly: SLAV 376**
**The Soviet Union and its Successor States, 1917-2000**
A history of the Soviet Union and its aftermath. Examines political, economic, social and cultural transformations that shaped the Soviet socialist experiment, as well as the causes of its collapse and the difficulties of post-communist transition in Russia and non-Russian republics. Emphasis on social history, gender and everyday life.

**Note:** Credit will be granted for only one of 362, SLAV 376, HIST 376. No knowledge of Russian required.

## SLST 363  Units: 1.5  Hours: 3-0
Also: HIST 377
**Formerly: SLAV 377**
**Modern Ukraine**
A history of the Ukrainian people from the 17th-century Cossack uprising to the emergence of independent Ukraine in 1991. Emphasis of nation-building and the construction of Cold War animosity from 1945 to the recent renewal of geopolitical rivalry between Russia and the West.

**Note:** May count towards a Minor in Film Studies. No knowledge of Russian required.

## SLST 380  Units: 1.5  Hours: 3-0
**Formerly: RUSS 400A**
**Advanced Russian Practice**
For advanced students of Russian. Stresses written composition, translation and stylistic analysis, and focuses on enhancing reading skills.

**Note:** Credit will be granted for only one of 401, RUSS 400A, 408.

**Prerequisites:** 301, or RUSS 300A and 300B, or RUSS 302, or permission of the department.

## SLST 403  Units: 1.5  Hours: 3-0
**Formerly: RUSS 403**
**Topics in Russian Culture, Literature, Film (in Russian)**
For advanced students of Russian. Focus on conversational fluency, comprehension and written composition.

**Note:** Credit will be granted for only one of 403, RUSS 403, 427. May be taken more than once for credit in different topic with permission of the department to a maximum of 4.5 units.

**Prerequisites:** 301, or RUSS 300A and 300B, or RUSS 302, or permission of the department.

## SLST 410  Units: 1.5  Hours: 3-0
**Formerly: RUSS 434**
**Special Topics**
**Notes:** - Credit will be granted for only one of 410, RUSS 434 if taken in the same topic.
- May be taken more than once for credit in different topics with permission of department to a maximum of 4.5 units.

## SLST 450  Units: 1.5  Hours: 3-0
**Cold War on Film**
A study of the enemy’s image in Soviet and Western films of the Cold War era. Analysis of films and related literary and political texts tracing the cultural construction of Cold War animosity from 1945 to the recent renewal of geopolitical rivalry between Russia and the West.

**Note:** May count towards a Minor in Film Studies. No knowledge of Russian required.

## SLST 451  Units: 1.5  Hours: 3-0
**Formerly: RUSS 416**
**Stalinist Cinema**
Focuses on the interaction of art, mass entertainment and socialist propaganda in the Stalinist film industry. Major films of the time will be analyzed against the background of contemporary political and social developments.

**Note:** Credit will be granted for only one of 451, RUSS 416. May count towards a Minor in Film Studies. No knowledge of Russian required.

## SLST 452  Units: 1.5  Hours: 3-0
**Fantasy and Science Fiction in Russia**
A survey of Russian fantasy and science fiction. Introduction to the best Russian authors of the genre, their works and to films that foreground Science Fiction and fantasy plots. Discussion of the historical background of twentieth-century Russia in relation to the development of the genre.
SMGT 416 Units: 1.5 Hours: 3-0
Formerly: HSM 416
Service Operations and Quality Management
Explores the key challenge in managing specific service processes and also considers quality management frameworks and principles. Topics to be examined are: defining and measuring service quality, quality economics and customer worth, designing and planning for service quality, QFD and the House of Quality, service capacity planning and waiting line management, service control and service quality improvement.
Note: Credit will be granted for only one of 416, HSM 416.
Prerequisites: Third-year Commerce core or permission of the Program Director.
Corequisites: 415, 417.

SMGT 417 Units: 1.5 Hours: 3-0
Formerly: HSM 417
Service Human Resource Management
In services companies, the interaction between the customer and the employee is both an opportunity and a challenge for management. An examination of the unique aspects of building an excellent human resource management system in hospitality and services. Topics include: the role of the servant leader, creating a service culture, attracting, developing and retaining high performers, reward systems in service organizations and designing systems to support service delivery.
Note: Credit will be granted for only one of 417, HSM 417.
Prerequisites: Third-year Commerce core or permission of the Program Director.
Corequisites: 415, 417.

SOCI 100A Units: 1.5 Hours: 3-0-1
Formerly: part of 100
Introduction to Sociology: Culture and Socialization
Introduces students to the discipline, beginning with an overview of sociological theory and methods. Substantive topics include culture, socialization, interaction in groups and organizations, deviance and crime, sexuality, and social stratification.
Note: Credit will be granted for only one of 100A, 100B.

SOCI 100B Units: 1.5 Hours: 3-0-1
Formerly: part of 100
Introduction to Sociology: Institutions and Social Change
An introduction to sociological perspectives on stratification, issues of race and ethnicity, economic and political institutions, families, religion, education, health and medicine, population, urbanization, the environment, and social change.
Note: Credit will be granted for only one of 100B, 100.

Pre- or corequisites: 100A.

SOCI 103 Units: 1.5 Hours: 3-0
Formerly: half of 200
Canadian Society
The origins, development, and structure of Canadian society analyzed in terms of the new Canadian political economy. Examples of questions which may be addressed are: what kind of society exists in Canada? How did it come to acquire its unique features? What role has immigration played in Canada’s development? What kinds of social inequality exist in Canada and why?
Note: Credit will be granted for only one of 103, 200.

SOCI 202 Units: 1.5 Hours: 3-0
Social Problems
Analysis of the construction of social problems such as crime, drug use, welfare reform, rapes, identity theft, pedophilia, homelessness and sex work. Examination of the framing of problems through multiple media sources and activities (e.g., political debate, social movements, victims’ families). The course reflects on the gap between what objective evidence suggests we should worry about and what actually attracts our worries.
Note: Students are strongly encouraged but not required to take 100A and 100B before registering in this course.
Prerequisites: 100A, 100B, or second-year standing with a GPA in the last session attended of at least 5.0.

SOCI 210 Units: 1.5 Hours: 3-0
Foundations of Sociological Theory
Survey of major sociological theories from the foundation of sociology in the early 1800s until early 1900s. The course outlines the main ideas and concepts of the principal schools of thought in the formative era of sociology, and the socio-historical context in which these ideas developed.
Note: Credit will be granted for only one of 210, 209, 300, 308.
Pre- or corequisites: 100A, 100B.

SOCI 211 Units: 1.5 Hours: 3-0
Introduction to Sociological Research
Introduction to important concepts and strategies of social research, including conceptualization and measurement, research design, sampling, the collection and analysis of qualitative and quantitative data.
Note: Credit will be granted for only one of 211, 209, 375, 375A, 375B.
Pre- or corequisites: 100A, 100B.

SOCI 215 Units: 1.5 Hours: 3-0
Social Inequality
An introductory examination of the shifting patterns, determinants, and consequences of social inequality, with an emphasis on the contributions of occupation, education, gender, ethnicity, income, region and power. The course also surveys key theories of class and stratification in contemporary societies and globally.
Note: Students are strongly encouraged but not required to take 100A and 100B before registering in this course.
Pre- or corequisites: 100A, 100B, or second-year standing with a GPA in the last session attended of at least 5.0.

SOCI 271 Units: 1.5 Hours: 3-1
Formerly: 371, 371A
Introduction to Statistical Analysis in Sociology
Descriptive statistics, probability distributions, statistical inference, including estimation and significance testing, and an introduction to bivariate analysis. Computer assisted analysis of sociological data.
Note: Credit will be granted for only one of 271, 371, 371A. See Credit Limit.
Pre- or corequisites: 100A, 100B
COUR

UVIC UNDERGRADUATE CALENDAR 2012-13

392

305A

Units: 1.5

Formerly: part of 305

Sociological Perspectives on Family Relationships

Exploration of theory and research on the dynamics of family relationships over family life-cycles. Topics include the formation of couple relationships; becoming a parent; parent-child relationships and their influence on children's social and emotional development; and the ways in which families respond to tension and conflict within relationships, focusing on the effects of separation and divorce.

Note: Credit will be granted for only one of 305A, 305B, 305A and 305B may be taken in either order.

305B

Units: 1.5

Formerly: part of 305

Sociological Perspectives on Family Relationships

an introduction to the sociology of health from childhood to old age. a general survey of the area rather than an in-depth examination of any one aspect. includes a variety of theoretical perspectives from micro, meso and macro approaches as well as topics such as the experience of being healthy and of having different illnesses; distributions of different diseases and conditions; health and illness beliefs and behaviours; structural influences on health and illness; inequalities in health and illness; the role of individual agency; self, informal and formal care; and health care policy, all using a life course lens.

Note: Students are strongly encouraged but not required to take SOCI 100A and 100B before registering in this course.

Pre- or corequisites: 100A, 100B, or second year standing with a GPA in the last session attended of at least 5.0.

306

Units: 1.5

Formerly: part of 301

Crime and Deviance

Examines processes relating to the social construction of crime and deviance, ranging from ‘victimless crimes’ and street crimes to corporate crimes and relocation and contestation of multiple paradigms and their connections back to classical formulations and to broad cultural and political currents.

Prerequisites: 210

307

Units: 1.5

Formerly: part of 301

Social and Moral Regulation

Examines how moral judgements about proper character and conduct are promoted within and beyond the state. Emphasizes how claims about risk, harm and normality shape issues such as health, consumption, sexuality, and citizenship.

Note: Credit will be granted for only one of 307, 301.

309

Units: 1.5

Modern Social Theory

Survey of substantive theoretical perspectives in sociology since the 1930s, including the consolidation and contestation of multiple paradigms and their connections back to classical formulations and to broad cultural and political currents.

Prerequisites: 210

310

Units: 1.5

Religion in Society

Cultural, social, and institutional impacts of religion in modern societies. Foundational and classical approaches to religion are considered, along with contemporary phenomena pertaining to the social role of religious institutions and beliefs. These may include millenarian and evangelical movements, denominational religion in the Anglo-American context, popular religious movements, liberation theology, cults, and the process of secularization.

311

Units: 1.5

Ideology and Society

A discussion of ideology and related concepts including reification, hegemony, doxa, power/knowledge and Orientalism, as they figure in sociological analyses of everyday life, contemporary institutions and global processes. Topics include the role of ideology in the market place and the workplace, in education and socialization, in gender relations and family, in politics and law, and in North-South relations.

Note: Students are strongly encouraged but not required to take SOCI 215 before registering in this course.

312

Units: 1.5

Social Movements

A study of social movements in the making of modernity and its ongoing transformations. Exploration of how movements arise and are maintained, of why certain kinds of movements emerge in specific contexts, and of what impact they have upon socio-political relations and cultural discourses, both globally and locally. Specific social movements such as feminism, ecology, gay and lesbian liberation, Aboriginal activism, the peace movement, labour, socialism, and religious fundamentalism will be examined.

315

Units: 1.5

Class, Status and Power

Sources and consequences of economic, social and political inequality, drawing on classic and contemporary sociological formulations.

Note: Students are strongly encouraged but not required to take SOCI 215 before registering in this course.

316

Units: 1.5

Social Networks

The major models, methods, and findings of network analysis. The following areas may be discussed: friendship, social influence and status, small groups, communication and diffusion of information, corporate and community organization, social and economic mobility, and computer analysis of network data.

Prerequisites: 211.

322

Units: 1.5

International Perspectives on Inequalities in Health and Health Care

A critical appraisal of the institutional economic, and political determinants of health and illness from a cross-national perspective. In particular, the course explores the unequal distribution of diseases and injuries between and within countries in the context of poverty and economic marginalization. The course draws on case studies from around the world to examine the consequences of health inequity.

Note: Credit will be granted for only one of 322, 323, 325.

326

Units: 1.5

Social Networks

The major models, methods, and findings of network analysis. The following areas may be discussed: friendship, social influence and status, small groups, communication and diffusion of information, corporate and community organization, social and economic mobility, and computer analysis of network data.

Prerequisites: 211.

327

Units: 1.5

Political Sociology

A survey of political contention and political power, viewed through the lens of their social bases in regional, class, religious, ethnic, linguistic, and cultural differences.

Note: Credit will be granted for only one of 331, 330.

330

Units: 1.5

Elites and Society

Study of institutional elites (e.g., business, labour, state, media, church, educational, military) and their roles in society.

Note: Credit will be granted for only one of 332, 330.

335

Units: 1.5

Racialization and Ethnicity

Using mainly Canadian examples, examines theories and research on racialization, racism, and ethnic identities with special emphasis on their relationship to social inequalities.

343

Units: 1.5

Population Dynamics

An introduction to demography, the scientific study of human populations. The core demographic variables...
- marriage, fertility, mortality, migration, population growth and age structure. Emphasis on interrelations among these variables, and on their social-behavioural causes. Practical exercises in demographic calculation using spreadsheets, including elementary population forecasting.

Note: Credit will be granted for only one of 343, 340.

SOCI 345 Units: 1.5 Hours: 3-0
Sociology of Mental Health
Topics may include: theoretical foundations of the sociology of mental health; the social conditions that influence mental well-being; the experience and social meaning of mental illness and its treatment; the social construction of mental disorders; and the processes of institutionalization and deinstitutionalization.

Note: Students are encouraged to take 285 before registering in this course.

SOCI 355 Units: 1.5 Hours: 3-0
The Corporation in a Globalizing World
The corporation as a basic institution of modern capitalism; its development in Canada and elsewhere; its impact on other institutions and on culture and subjectivity; its role in technological change, globalization, economic polarization, ecological degradation, and the commodification of everyday life.

SOCI 365 Units: 1.5 Hours: 3-0
Leisure and Society
The social production, consumption and distribution of leisure with attention to the ways in which class, gender and other social differences shape what counts as leisure. The social history and ecology of leisure, focusing on the role of consumer capitalism and the development of such forms of leisure as entertainment and popular culture, tourism, and self-improvement.

SOCI 373 Units: 1.5 Hours: 3-0
Critical Research Strategies
An examination both of how power shapes social knowledge and of strategies and techniques for conducting social research in the context of social justice initiatives. Approaches examined may include dialectical analysis, participatory action research, institutional ethnography, feminist methods, critical discourse analysis and the pursuit of public sociology.

SOCI 374 Units: 1.5 Hours: 3-0
Formerly: half of 375, 375A
Qualitative Research Methods
Strategies of qualitative research design. Possible topics include: indepth interviews, narrative analysis, field work, evaluation, historical research, and textual analysis.

Note: Credit will be granted for only one of 374, 375, 375A.

Prerequisites: 211.

SOCI 376 Units: 1.5 Hours: 3-1
Formerly: half of 375, 375B
Quantitative Research Methods
Strategies of quantitative research design. Possible topics include: experimental designs, survey research, questionnaire construction and secondary data analysis.

Note: Credit will be granted for only one of 376, 375, 375B.

Prerequisites: 211, 271.

SOCI 381 Units: 1.5 Hours: 3-0
Sociology of Gender
An examination of sociological, theoretical, and historical perspectives on gender as a major organizing force in contemporary societies. Topics include the relation of sex to gender, gendered bodies, cultural differences, and the relation of gender to areas of social life such as sexuality, family, work, the media, education, politics, violence, and social inequality.

SOCI 382 Units: 1.5 Hours: 3-0
Sociology of Sexuality
Examination of sociological, theoretical and historical perspectives on sexuality in society. Topics covered may include sexual identities and social inequality, sex education, pornography, sex in popular culture, sexualized bodies, diversity in sexual cultures, HIV/AIDS, sexual violence, new productive technologies, the globalization of sexuality, and the relation of gender to sexuality.

SOCI 385 Units: 1.5 Hours: 3-0
Sociology of Aging
An overview of the sociology of aging, including theoretical perspectives, methodological challenges, and substantive topic areas such as the gendered nature of aging, cultural comparisons, families and intergenerational relations, and health and healthcare.

SOCI 387 Units: 1.5 Hours: 3-0
Technology, Science and the Information Society
An examination of the role of technology and science in shaping contemporary society. Topics may include: the social construction of technology and scientific knowledge; the internet and new communication technologies; biotechnology and the genetic modification of life; popular representations of science and technology; and the role of digital information-based technologies in economic, political, and social relations.

Note: Credit will be granted for only one of 387, 390, if taken in this topic.

SOCI 388 Units: 1.5 Hours: 3-0
Food and Society
Are You What You Eat? Analysis of the social organization of food production and consumption in the contexts of the globalization of food relationships and the social production of hunger.

Note: Credit will be granted for only one of 388, 390, if taken in this topic.

SOCI 390 Units: 1.5 Hours: 3-0
Selected Problems in Sociology
Presentation of current interests of various faculty members.

Note: Students interested in this course should inquire at registration when the course is to be offered and what the substantive presentation will involve. Students may enrol in this course in different areas for a maximum of 3 units.

SOCI 401 Units: 1.5 Hours: 3-0
Sociology of Law
The interrelationships of law and other social institutions, socio-economic origins and class interests of legal functionaries, and law as social conflict are analyzed in Canadian and cross-cultural contexts.

SOCI 402 Units: 1.5 Hours: 3-0
Current Issues in Sociological Theory
Detailed study of particular recent developments or ongoing issues in sociological theory. Topics may vary from year to year to include particular theoretical orientations or issues in the discipline.

Note: Credit will be granted for only one of 402, 300.

Prerequisites: 210, 309.

SOCI 404 Units: 1.5 Hours: 3-0
The Consuming Self in a Social World
Examination of the consumption of both material and symbolic goods as a critical site for understanding the relationship between self and society in late modernity. The course emphasizes relations between identity, consumption, and the body.

Note: Students are strongly encouraged to take 304 before registering in this course.

SOCI 412 Units: 1.5 Hours: 3-0
Sociological Explanations
In-depth examination of foundational works in sociology. Tracing them to their historical and philosophical roots to show how theories and methods are closely linked. Students examined may include positivist, interpretive, phenomenological, critical, structural-functional, feminist and deconstructive and/or postmodern.

Note: Credit will be granted for only one of 412, 300, 302.

Prerequisites: 210.

SOCI 418 Units: 1.5 Hours: 3-0
Social Change
An inquiry into the social structures, cultural practices, and political economic transitions associated with social change, emphasizing ethical-political underpinnings and implications. Topics may include reform and revolution, globalization ‘from above’ and ‘from below’, and changing conceptions of social justice, community and identity.

SOCI 419 Units: 1.5 Hours: 3-0
Formerly: Also ANTH 419
Globalization and Sustainability
An in-depth study of the various aspects and ramifications of globalization of capital and labour, focusing on how globalization has created the critical issue of environmental sustainability. Topics may include: modernization and industrialization; state and government; environmental degradation; non-governmental organizations; labour migration; free-trade agreements and zones; population displacement; developmental packages and aid; and the movements of women, indigenous, youth, workers, and immigrants against exclusion.

Note: Not open to students with credit in ANTH 419 prior to the 2005-6 Winter Session.

SOCI 443 Units: 1.5 Hours: 3-0
Formerly: 342, 340
Population Problems and Policies
A review of contemporary population trends, their effects on human well-being, and social policy responses. Topics include: population growth, sustainable development, and the environment; population aging; marriage, cohabitation and divorce; new reproductive technology; population and gender; immigration; urbanization and human crowding.

Note: Credit will be granted for only one of 443, 340, 342.

SOCI 445 Units: 1.5 Hours: 3-0
Sociology of Health and Illness
In-depth examination of contemporary issues and debates in the sociology of health and illness. Specific topics may vary from year to year. Intended for students wishing to pursue advanced sociological study in health and illness.

Prerequisites: 285.

SOCI 450 Units: 1.5 Hours: 3-0
Sociology and Social Justice
An examination of sociology’s relationship with social control, social reform and social activism, beginning with Comte and including various strands of critical
and applied sociology. Much of the course focuses on recent developments and debates on sociology and social policy, sociology and social movements, and “public sociology.” Serves as a capstone for students pursuing the Social Justice and Social Change concentration, enabling them to integrate lessons they have learned from previous work.

**SOCW 394 Honours Seminar and Graduating Essay**
- **Feminist Theory/feminist theorizing**
- **Environmental Sociology**

**Notes:** in the fourth year of the Honours Program with permission.

**Sociological approaches to the topic, emphasizing critically reflective in the everyday world.**

**Sociological perspectives. Feminism is approached as ways of seeing, thinking, interacting and being critically reflective in the everyday world.**

**Pre-requisites:** 271 or 371A.

**SOCI 481 Units:** 1.5 **Hours:** 3-0

**Multivariate Statistical Analysis**
An introduction to multivariate relationships, including multiple regression and correlation, analysis of variance and covariance and other topics of the general linear model. Computer-assisted analysis of sociological data.

**Note:** Credit will be granted for only one of 471, 371B, 372. Course restricted to students in a sociology program or Leisure Service Administration. If space permits, other students may be permitted to register.

**Pre-requisites:** 210.

**SOCI 488 Units:** 1.5 **Hours:** 3-0

**Sociology of Death and Dying**
Sociological approaches to the topic, emphasizing cross-cultural differences in the construction of the meaning of death and dying, the rituals accompanying these processes, and their legal, economic and political aspects.

**SOCI 490 Units:** 1.0-3.0

**Directed Studies**
May be submitted for an elective course in Sociology in the fourth year of the Honours Program with permission of the department.

**Note:** May be taken more than once for credit in different topics with permission of the department, to a maximum of 3 units.

**SOCI 499 Units:** 3.0

**Honours Seminar and Graduating Essay**
Honours students are permitted to audit this seminar in the third year and are required to take the seminar for credit in the fourth year.

**SOCW 200A Units:** 1.5 **Hours:** 3-0

**An Introduction to Social Work Practice**
An introduction to the practice of social work beginning with a critical examination of the ethics, values and historical development of the profession. Students will become familiar with several critical social theories that inform anti-oppressive social work practice. The relationship between private troubles and public issues as well as the concepts of power, oppression, privilege, identity and social justice will be explored. Emphasis on self-reflection which will assist students in examining their identities and their interest, motivation and capacity for social work practice.

**SOCW 200B Units:** 1.5 **Hours:** 3-0

**Introduction to the Critical Analysis of Social Welfare in Canada**
Students critically analyze the current and historical development of Canadian social welfare policy, and explore the impact of economic and social restructuring on trends of exclusion, structural inequalities and increased needs for social protection. Students will become familiar with the ways that systems of oppression have intersected to produce a particular focus on some social problems and not others.

**SOCW 304 Units:** 3.0 or 4.5

**Social Work Practicum I**
In the first BSW practicum (350 hours) students: practice social work under supervision in an agency setting; apply, integrate and translate theories into practice; and experience the economic, political and policy constraints on practice.

**Notes:** - Credit will be granted for only one of 304, 304A.
- 3.0 unit practicum is 315 hours.
- 4.5 unit practicum is 350 hours.
- A concurrent seminar may be required.

**Pre-requisites:** 323 or 311 and 312.

**SOCW 319 Formerly: part of 318**

**Research for Social Change**
An introduction to research as social justice work. Students will learn about a range of qualitative and quantitative methodologies, with an emphasis on Indigenous, critical and anti-oppressive approaches. Students will be engaged in critical analyzing what counts as knowledge, developing alternative ways of understanding social issues, redefining the relationship between researchers and participants, and developing skills in data collection, data analysis and proposal writing.

**Note:** Credit will be granted for only one of 319, 318.

**Pre-requisites:** 323, or 311 and 312.

**SOCW 350A Units:** 1.5 **Hours:** 1.5-1.5

**Social Work, Social Justice and the Law**
Provides an overview of critical perspectives on social justice, law, the legal system, and the legal processes that impact on social work practice. Students will critically examine and self-reflect on the interplay between marginalization and structural inequalities and law. Areas examined may include child welfare, mental health, human rights, youth justice, poverty and restorative practices.

**Note:** Credit will be granted for only one of 350A, 350, CYC 350A. Open to third- and fourth-year students with permission of the department.

**SOCW 350B Units:** 1.5 **Hours:** 3-0

**Legal Skills for Social Workers**
A skill-based course focusing on the development of legal skills in an anti-oppressive framework. Emphasis is given to a critical analysis of the skills necessary to practice in statutory settings such as child welfare, and may include dispute resolution, advocacy, mediation, investigation, evidence-giving and report writing.

**Note:** Credit will be granted for only one of 350B, 350, CYC 350B. Open to third- and fourth-year students with permission of the department.

**Pre-requisites:** 350A or CYC 350A.

**SOCW 354 Units:** 1.5 **Hours:** 3-0

**Indigenous Perspectives on Practice Issues**
Critically examines the historical process of colonization in Canada, the resulting barriers embedded in policy and practice, and alternative ways of viewing the social-psychological position of Indigenous people in Canadian Society. Contemporary issues and the movement toward self-determination will be discussed in relation to social work theory and practice.

**Note:** Credit will be granted for only one of 354, 454.

**Pre-requisites:** 323, or 311 and 312.
SOCW 356 Units: 1.5
Human Development and the Social Environment within a Global Context
An overview of human development within a global context with a focus on social justice and diversity related to gender, race, class, ethnicity, culture, sexual orientation, and disability. In particular, focuses on the impact of the cultural, global, spiritual and natural worlds people inhabit on understanding lifespan development with the implications of this understanding for social work practice.
Note: This course meets the Child Welfare Specialization requirements for a development course.
Pre- or corequisites: 200A and 200B. Open to 3rd and 4th year students with permission of the department.

SOCW 390 Units: 1.5 or 3.0
Directed Studies
Students must consult with the Director prior to registration. The intent is to allow students the opportunity to concentrate in a particular field of social welfare such as corrections, gerontology or mental health.

SOCW 391 Units: 1.5 Hours: 3-0
Indigenous Approaches to Healing and Helping
Through direct interaction with Indigenous elders, political leaders and human service workers, students will explore traditional and contemporary approaches used by Indigenous peoples to help and heal in their communities. Students will be challenged to integrate these approaches into their own lives and social work practices.
Note: Limited to Indigenous students of North America or with permission of the department.
Pre- or corequisites: 323, or 311 and 312.

SOCW 400 Units: 1.5
Introduction to Social Work in the Health Care Sector
Examines the knowledge and skills required for social workers to be effective advocates while carrying out a range of responsibilities in the health sector within the context of a practice framework that focuses on the social determinants of health. The challenges and opportunities provided by the cultural and organizational contexts of practice in health care will be an important focus while examining the inter-professional nature of practice. Particular aspects of practice such as appropriate documentation, informed consent and community development will be included.
Prerequisites: 323, or 311 and 312.

SOCW 402 Units: 4.5
Social Work Practicum II
In the second BSW practicum (350 hours) students have a further opportunity to develop, refine and apply generalist practice knowledge, skills, values and ethics under supervision in an agency setting. Generalist practice can include individual, family, group and community work, organizational development and policy change.
Notes: Credit will be granted for only one of 402, 404, 404A.
- Students completing a 3.0 unit SOCW 304 practicum must complete a 420 hour SOWC 402.
- A concurrent seminar may be required.
Prerequisites: 323, or 311 and 312; 301 or 318 or 319; 311 and 312; 304 or 304A; 350A, 354, 356, 475, and two of 350B, 469, 471.
For Indigenous Child Welfare placements: SOCW 301 or 318 or 319, or SOCW 311 and 312; 304 or 304A; 350A, 350B, 354, 356, 391, 491, 492
Pre- or corequisites: 413, 451, 476.
For Indigenous Child Welfare placements: SOCW 323 or 413; 451.
Grading: INP, COM, N, F.

SOCW 404 Units: 4.5
Child Welfare Specialization: Child Protection Practicum
In this second BSW practicum (350 hours), students will have further opportunity to develop, refine and apply generalist practice knowledge, skills, values and ethics. Under supervision in a mandated child protection setting, students will apply child welfare law and policy to direct practice in child protection investigation, interviewing, assessment and court procedures; guardianship and care plans; and various aspects of case management.
Notes: Credit will be granted for only one of 404, 404A, 404B. A concurrent seminar may be required.
- Students completing a 3.0 unit SOCW 304 practicum must complete a 420 hour SOCW 404.
- BC students may be required to complete a Ministry of Children and Family Development or Indigenous Delegated Authority Partial Delegation Exam prior to or during their practicum placement. Non-BC students may be required to meet the requirements applicable in other jurisdictions.
- Students must contact the School of Social Work at least one term in advance of registration for their practicum placement, in order to meet Ministry guidelines. Exceptions may be granted with permission of the department.
Prerequisites: 301 or 318 or 319; 323, or 311 and 312; 304 or 304A; 350A, 354, 356, 475, and two of 350B, 469, 471.
For Indigenous Child Welfare placements: SOCW 301 or 318; 323, or 311 and 312; 304 or 304A; 350A, 350B, 354, 356, 391, 491, 492
Pre- or corequisites: 413, 451, 476.
For Indigenous Child Welfare placements: SOCW 323 or 413; 451.
Grading: INP, COM, N, F.

SOCW 404A Units: 4.5
Child Welfare Specialization: Child Welfare Practicum
In this second BSW practicum (350 hours), students have a further opportunity to develop, refine and apply generalist practice knowledge, skills, values and ethics while working under supervision in a child and/or youth and/or family serving agency with those who are affected by child welfare law, policy and practice.
Notes: Credit will be granted for only one of 404A, 404, 404B.
- Students completing a 3.0 unit SOCW 304 practicum must complete a 420 hour SOCW 404A.
- A concurrent seminar may be required.
Prerequisites: 301 or 318 or 319, or 323, or 311 and 312; 304 or 304A; 350A, 354, 356, 475, and two of 350B, 469, 471.
For Indigenous Child Welfare placements: SOCW 301 or 318; 323, or 311 and 312; 304 or 304A; 350A, 350B, 354, 356, 391, 491, 492
Pre- or corequisites: 413, 451, 476.
For Indigenous Child Welfare placements: SOCW 323 or 413; 451.
Grading: INP, COM, N, F.

SOCW 413 Units: 1.5
Critical Social Work Practice
Introduction on how to apply particular practice approaches, including narrative, solution-oriented, and embodied practice, which are considered to be examples of critical social work in action with individuals, groups, children and families, and communities. Provides students with an opportunity to critically analyze the limitations and strengths of these practices when working with issues of marginalization and difference. The assumptions of professionalism and the wider context within which these particular types of interventions are practiced will also be interrogated.
Prerequisites: 323, or 311 and 312.

SOCW 433 Units: 1.5
Working with Trauma
An examination of current theories and practices regarding trauma work will be explored. This includes the neurobiological impact as well as the intrapsychic, interpersonal, and the socio-political/cultural dimensions of traumatic experiences. Emphasis will be placed on concrete skills and strategies that apply to a wide variety of contexts. As well, students will explore how to reduce the prevalence of secondary traumatization on themselves, colleagues, agencies and communities.
Note: Credit will be granted for only one of 433, 460 (if taken prior to 2012-13 Calendar).
Pre- or corequisites: 323, or 311 and 312.

SOCW 435 Units: 1.5 Hours: 3-0
Critical Perspectives in Mental Health Practice
An examination of the concepts of mental health and mental illness from a critical perspective. Provides an overview of key areas in knowledge and theory, as well as practical information about how to work within various service contexts. Particular attention is given to the historical, socio-cultural, and political connections to mental illness and addictions—this information is presented in a way that reflects a diversity of paradigms and standpoints.
Prerequisites: 323, or 311 and 312.

SOCW 451 Units: 1.5 Hours: 3-0
Indigenous Policy Analysis in Social Work
Builds on the structural theories and perspectives of social work practice introduced in 354. Focuses on in-depth exploration and critical analysis of past and present policies of Canadian governments that affect the lives of Indigenous peoples. Contemporary responses and initiatives of Indigenous peoples through their own policies and practices will also be discussed.
Prerequisites: 354.

SOCW 452 Units: 1.5 Hours: 3-0
Teaching and Learning for Social Change
What does it mean to think of social workers as educators for social justice? Students will develop a conceptual and experiential understanding of education, teaching and learning. Knowledge and power will be explored from multiple perspectives, including critical, Indigenous, and anti-oppressive perspectives. Opportunities for hands-on application will be an integral part of the course.
Note: Open to 3rd and 4th year students with permission of department.

SOCW 460 Units: 1.5 or 3.0 Hours: 3-0
Special Topics in Social Work and Social Welfare
Special issues in social welfare and approaches to social work practice.
Notes: May be taken more than once for credit to a maximum of 3.0 units.
- Offered as resources permit.

SOCW 465 Units: 1.5 Hours: 3-0
Interdisciplinary Practice with Children and Families
Opportunities for applying the skills, knowledge and beliefs essential for effective interdisciplinary practice with children and families. Explores the rationale for and a critical analysis of interdisciplinary practice.
SOCW 472  Units: 1.5  Hours: 3-0  Social Work Practice in the Field of Addictions
Critically examines current practice models in the Addictions field. Differing models of change including policies, programs, and practice in the field of Addictions. Addiction and recovery will be examined in transactional processes that take place within larger socio-cultural contexts. Places particular emphasis on the historical, social, and political contexts of Addictions among women, youth, seniors, Indigenous peoples, and members of other marginalized social groups. Examines issues in the regulation and control of substances and relevant trends in policy and program development. Students are expected to use critical reflection to articulate their own perspectives on addiction.

SOCW 474  Units: 1.5  Hours: 3-0  An Introduction to Community Work
An introduction to the transformative work possible in communities. Students personal experiences of social connection and working with others will be located and challenged through theoretical and critical analysis from a ‘community perspective’. Key tools and skills for building just, healthy, sustainable communities will be presented. Students will be able to choose specific issues (for example Indigenous, child and family) for in-depth study and reflection.

SOCW 475  Units: 1.5  Hours: 3-0  Child Welfare Practice
An opportunity to explore all aspects of child welfare practice with a particular focus on balancing the issues of power and authority with helping approaches, identifying and resolving ethical dilemmas, and developing community-based approaches to serving children and families. Students will explore their own conceptual and philosophical orientation to child welfare practice.

SOCW 476  Units: 1.5  Hours: 3-0  Family and Child Welfare Policy
Critiques of family and child welfare policy and practice such as the feminist and Indigenous perspectives are challenging the social work profession. Provides an opportunity to critically examine assumptions in family and child welfare policy including notions of family, substitute care, conceptions about violence and neglect, how family and child welfare policy is developed and administered, and the political role of social work.

SOCW 477  Units: 1.5  Hours: 3-0  Developing Skills and Knowledge in Family Practice
Explores interdisciplinary theoretical perspectives and practice approaches that are relevant for working with the contemporary family in all its forms. Collaborative approaches to helping work, grounded in theories of anti-oppression, provide the base from which students will begin to develop their own family practice skills and integrate theory and practice through discussion and experiential exercises.

SOCW 479  Units: 1.5  Hours: 3-0  Protecting Indigenous Children
An opportunity to explore the unique policy and practice considerations to providing child and family services in Indigenous communities in British Columbia. Students will be challenged to synthesize the demands of provincial child welfare legislation with emerging Indigenous practices and policies in a way that protects the identity, cultures, and social structures of Indigenous children and families.

SOCW 490  Units: 1.5 or 3.0  Directed Studies
Students must consult with the Director prior to registration. The intent is to allow students the opportunity to concentrate in a particular field of social work practice such as corrections, gerontology or mental health.

SOCW 491  Units: 1.5  Hours: 3-0  Integration of Indigenous Approaches to Healing and Helping
Students will continue to explore traditional and contemporary approaches to helping and healing in their communities that they began in 391. Indigenous elders, political leaders and human service workers will again play a central role in this course. Students will also be challenged to critically and holistically integrate these approaches into an examination, articulation and development of their own ethical perspectives.

SOCW 492  Units: 1.5  Hours: 3-0  Protecting Indigenous Children
An opportunity to explore the unique policy and practice considerations to providing child and family services in Indigenous communities in British Columbia. Students will be challenged to synthesize the demands of provincial child welfare legislation with emerging Indigenous practices and policies in a way that protects the identity, cultures, and social structures of Indigenous children and families.

SOCW 493  Units: 1.5  Hours: 3-0  Working in the Community
An interdisciplinary community service learning course combining classroom study of community organizations, civic engagement, and related philosophical and ethical issues; the development of professional competencies needed to work effectively in the community; a practicum consisting of a minimum of 40 hours of voluntary work with a community organization or on a community project; and critical reflection from social science perspectives on the practicum experience.

SPAN 100A  Units: 1.5  Hours: 3-0  Formerly: first half of 100
Beginners' Spanish I
Focuses on the acquisition of basic skills of pronunciation, reading, writing and conversation. Includes instruction in essential points of grammar, basic syntax, and vocabulary for daily interaction.

SPAN 100B  Units: 1.5  Hours: 3-0  Formerly: second half of 100
Beginners' Spanish II
A continuation of 100A. Emphasis on the acquisition of basic skills. Vocabulary and grammatical concepts will be expanded.

SPAN 100  Units: 1.5  Hours: 3-0  Open to 3rd and 4th year students with permission of the department.

SPAN 149  Units: 3.0  Hours: 6-0  Beginners' Spanish
Intensive Spanish language instruction for beginning language students. Equivalent to 100A/B.

Note: Credit will be granted for only one of 100A, 100B, 100A, 100B. Not open to students with credit in Spanish 12.

Note: Priority will be given to first- or second-year students.
Communicating in Spanish
An introductory study of Spanish and Latin American film and its relationship to social and historical contexts.

SPAN 208A Units: 1.5 Hours: 3-0
Formerly: 306
Spanish Culture (in English)
An overview of the culture of Spain. Consideration of the artistic, literary, intellectual, social and political trends in Spain from pre-Roman times to the present.
Note: Credit will be granted for only one of 208A, 306.

SPAN 208B Units: 1.5 Hours: 3-0
Formerly: 307
Latin American Culture (in English)
An overview of the cultures of Spanish America and Brazil. Consideration of the artistic, literary, intellectual, social and political trends in Latin America from pre-Columbian times to the present.
Note: Credit will be granted for only one of 208B, 307. Not open to students with credit in 280.

SPAN 249 Units: 3.0 Hours: 6-0
Review of Grammar and Conversation
Intensive Spanish language instruction for intermediate language students. Equivalent to 250A/B.
Note: Credit will be granted for only one of 249, 250, 250A, 250B.
Prerequisites: 100B or 149 or Spanish 12; or permission of the department.

SPAN 250A Units: 1.5 Hours: 3-0
Formerly: first half of 250
Review of Grammar and Conversation I
Intensive review of grammatical concepts and structures presented in 100A and 100B and the acquisition of composition and translation skills. Readings may be taken from significant Spanish and Spanish American authors.
Note: Credit will be granted for only one of 250A, 249, 250. Students who intend to do Major or Honours work in Hispanic Studies should take this course in the second year; may also be taken as an elective.
Prerequisites: 100B or 149, or Spanish 12, or permission of the department.

SPAN 250B Units: 1.5 Hours: 3-0
Formerly: second half of 250
Review of Grammar and Conversation II
A continuation of 250A. Review of grammatical concepts and structures introduced in 100A and 100B as well as on the expansion and consolidation of skills acquired in 250A. Readings may be taken from significant Spanish and Spanish American authors.
Note: Credit will be granted for only one of 250B, 249, 250. Students who intend to do Major or Honours work in Hispanic Studies should take this course in the second year. May also be taken as an elective.
Prerequisites: 250A.

SPAN 255 Units: 1.5 Hours: 3-0
Communicating in Spanish
This optional companion course to 250A will focus on reading and speaking Spanish. Short literary and journalistic texts will be used for oral practice to develop reading skills, and also for brief written assignments and film and media reports.
Note: Must be taken in conjunction with 250A.
Prerequisites: 100A and 100B, or Spanish 12, or permission of the department.

SPAN 265 Units: 1.5 Hours: 3-0
Introductory Written Spanish (Year Abroad Program)
Taken in conjunction with 340 as part of the Year Abroad Program. Expands the student's ability to communicate in Spanish in various written forms (essays and close textual analyses). Explores and uses a variety of texts that will serve as examples for the written assignments.
Note: Credit will be granted for only one of 265, 280 (if 280 taken for 6 units).
Prerequisites: 250A, 250B.

SPAN 270 Units: 1.5 Hours: 3-0
Formerly: part of 260
Introduction to the Literature of Spain and Spanish America
A study of selections from major authors of Spain and Spanish America in the genre of narrative, drama and poetry. Introduction to basic techniques of literary criticism.
Note: Credit will be granted for only one of 270, 260, 280 (if 280 taken for 6 units).
Corequisites: 250B.

SPAN 275 Units: 1.5 Hours: 3-0
Formerly: part of 260
Introductory Written Spanish
Expands ability to communicate in Spanish in various written forms (essays and close textual analyses). Explores and uses a variety of texts that will serve as examples for the written assignments.
Note: Credit will be granted for only one of 275, 260, 280 (if 280 taken for 6 units).
Prerequisites: 249 or 250B.

SPAN 280 Units: 4.5, formerly 6.0 Hours: 6-0
Spanish Immersion
Taken in conjunction with 250A/B and/or 350A/B as part of the Year Abroad Program. Combines conversation with an introduction to the culture of Latin America.
Note: Open to students with credit in 307.
Prerequisites: 100A and 100B, or permission of the department.

SPAN 340 Units: 3.0 Hours: 6-0
Spanish Immersion Literature
This course, to be taken in conjunction with 340, is the second part of the Year Abroad Program, and combines conversation with an introduction to the culture and literature of Spain and Latin America.
Prerequisites: 280.

SPAN 350A Units: 1.5 Hours: 3-0
Formerly: first half of 350
Advanced Composition, Translation and Stylistics I
Emphasis on the mastery of Spanish grammar and syntax through translation, composition and readings.
Note: Credit will be granted for only one of 350A, 350.
Prerequisites: 249, or 250A and 250B, with a minimum GPA of 4.0, or advanced placement by the department.

SPAN 350B Units: 1.5 Hours: 3-0
Formerly: second half of 350
Advanced Composition, Translation and Stylistics II
A continuation of 350A, with continued emphasis on the mastery of Spanish grammar and syntax through translation, composition and readings.
Note: Credit will be granted for only one of 350B, 350.

SPAN 370 Units: 1.5 Hours: 3-0
Survey of Spanish Literature from Origins to 1700
Works of major Spanish authors in the genres of narrative, drama and poetry from origins to 1700. Techniques of literary criticism will be reviewed and expanded.
Note: Normally taken in conjunction with 350B.
Prerequisites: 249, or 250A and 250B; with a minimum GPA of 4.0, and a minimum grade of C+ in each.
Pre- or corequisites: 270 or 275, 350A or permission of the department.

SPAN 375 Units: 1.5 Hours: 3-0
Survey of Spanish Literature Since 1700
Works of major Spanish authors in the genres of narrative, drama, and poetry from 1700 to the present. Techniques of literary criticism will be reviewed and expanded.
Note: Normally taken in conjunction with 350A.
Prerequisites: 249, or 250A and 250B; with a minimum GPA of 4.0, and a minimum grade of C+ in each.
Pre- or corequisites: 270 or 275, 350A or permission of the department.

SPAN 380 Units: 1.5 Hours: 3-0
Survey of Spanish American Literature from 1492 to 1900
Works of major Spanish American authors in the genres of narrative, drama and poetry from 1492 to 1900. Techniques of literary criticism will be reviewed and expanded.
Note: Normally taken in conjunction with 350B.
Prerequisites: 249, or 250A and 250B; with a minimum GPA of 4.0, and a minimum grade of C+ in each.
Pre- or corequisites: 270 or 275, 350A or permission of the department.

SPAN 385 Units: 1.5 Hours: 3-0
Survey of Spanish American Literature Since 1900
Works of major Spanish American authors in the genres of narrative, drama and poetry from 1900 to the present. Techniques of literary criticism will be reviewed and expanded.
Note: Normally taken in conjunction with 350A.
Prerequisites: 249, or 250A and 250B; with a minimum GPA of 4.0, and a minimum grade of C+ in each.
Pre- or corequisites: 270 or 275, 350A or permission of the department.

SPAN 408A Units: 1.5 Hours: 3-0
Topics in Spanish Culture
Explores the artistic, literary, intellectual, social and political trends in Spain from the Middle Ages to the present.
Note: May be taken more than once for credit in different topics with permission of the department.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 408B Units: 1.5 Hours: 3-0
Topics in Latin American Culture
Explores the artistic, literary, intellectual, social and political trends in Latin America.
Note: May be taken more than once for credit in different topics with permission of the department.
Pre- or corequisites: One of 370, 375, 380, 385.
SPAN 450A Units: 1.5 Hours: 3-0
Formerly: half of 450
Advanced Grammar and Syntax
Advanced study of the intricacies and problems of Spanish grammar and syntax.
Note: Credit will be granted for only one of 450A, 450.
Pre-requisites: 350A and 350B.

SPAN 460 Units: 1.5 Hours: 3-0
Hispanic Poetry
A chronological study of the development of poetry in Spain and other Hispanic countries chosen at the discretion of the instructor. Emphasis will be on cultural, political, and social impact of poetry.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 469 Units: 1.5 Hours: 3-0
Special Topics in Hispanic Literature
Variable content course which will focus attention on themes, literary and cultural trends, countries or authors.
Note: May be taken more than once for credit in different topics.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 470 Units: 1.5 Hours: 3-0
Medieval Literature
A study of topics in the literature of medieval Spain, ranging from the turbulent formative period of the Reconquista to the time of the voyages of discovery. Themes may include: the epic, anti- and pro-feminism, courtly love, miracle stories and political satire.
Note: Credit will be granted for only one of 470, 470A, 470B. May be taken twice for credit in different topics.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 471B Units: 1.5 Hours: 3-0
Miracle Stories of the Marian Tradition
A study of the miracle stories of King Alfonso X and Gonzalo de Berceo in the social and theological context of the Middle Ages.
Note: Credit will be granted for only two of 471B, 471, 470, 470A, 470B if taken in different topics.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 472 Units: 1.5 Hours: 3-0
Cervantes’ Don Quixote
A study of Don Quixote in the context of Cervantes’ life and times. Generally given in Spanish.
Pre- or corequisites: One of 370, 375, 380, or 385 if 472 given in Spanish, second-year standing if 472 given in English.

SPAN 473A Units: 1.5 Hours: 3-0
Formerly: 473
Prose of the Golden Age
Study of representative authors, themes, and genres. Authors may include Montemayor, Vélez de Guevara, Delicado and Gracián.
Note: Open to students with credit in 473 if taken in different topics. May be taken twice for credit in different topics.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 473B Units: 1.5 Hours: 3-0
Formerly: 473
Poetry of the Golden Age
Study of representative authors, themes and genres. Authors may include Garcilaso de la Vega, Santa Teresa, Fray Luis de León, San Juan de la Cruz, Góngora, and Quevedo.
Note: Open to students with credit in 473 if taken in different topics. May be taken twice for credit in different topics.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 473C Units: 1.5 Hours: 3-0
Formerly: 473
Drama of the Golden Age
Study of representative authors, themes, and genres.
Note: Credit will be granted for only one of 473C, 474A, 474B.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 475 Units: 1.5 Hours: 3-0
Landscapes of Desire: Visions of Self and Country
Heroes, love, and death in Renaissance and Golden Age Spain. This study of poetry as the mirror of culture will focus on the major poets. Special reference will be made to poets who also practised another art, profession, or belonged to the Church.
Pre- or corequisites: One of 370, 375, 380, 385 if 475 given in Spanish, second-year standing if 475 given in English.

SPAN 476A Units: 1.5 Hours: 3-0
Spanish Literature of the 19th Century
The development of the Romantic and Realist movements in Spanish drama, poetry and novel of the last century. Selected works of major authors such as Bécquer, Pardo Bazán and Galdós will be studied in the context of the social and ideological climate of the period.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 476C Units: 1.5 Hours: 3-0
Literature of Renewal: Prose and Poetry of Spanish Fin De Siglo
Selected works of Unamuno, Baroja, “Azorín” and the poet Antonio Machado will be studied in the context of the social and ideological climate precipitated by the events of 1898.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 478A Units: 1.5 Hours: 3-0
The Spanish Novel From the Civil War to the Present
A study of the main currents of the modern novel in Spain, with special emphasis on individual responses to the Civil War of 1936-39 and on the developments of the novel as a vehicle for social criticism. Recent trends will be examined in the light of the continuing search for new values.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 478B Units: 1.5 Hours: 3-0
Formerly: 412
20th-Century Drama and Poetry
A study of the drama and poetry of modern Spain, covering the works of such writers as Juan Ramón Jiménez, García Lorca, Pedro Salinas and Alfonso Sastre.
Note: Credit will be granted for only one of 478B, 412.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 478C Units: 1.5 Hours: 3-0
Special Topics in Modern Spanish Literature
Studies in the literature of modern Spain with special emphasis on the post-Franco period. Although primarily a study of fiction, some attention may be given to poetry and drama at the discretion of the instructor.
Note: May be taken twice for credit in different topics.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 479A Units: 1.5 Hours: 3-0
Also: ITAL 479A
Women in the Hispanic and Italian World
A study of major women authors, characters and themes relevant to women’s issues in Hispanic and Italian literature. May be given in English, Spanish or Italian.
Topic: “Contemporary Women’s Writing for Children”
Note: Credit will be granted for both 479A and ITAL 479A only if taken in different topics. May be taken twice for credit in different topics.
Pre- or corequisites: One of 370, 375, 380, 385 if 479A readings in Spanish, second-year standing if 479A readings in English.

SPAN 482 Units: 1.5 Hours: 3-0
Formerly: 481, 480, 480A, 480A1, 481B
The Theatre, Prose and Poetry of Sor Juana
Study of the prose, poetry and drama of Sor Juana Inés de la Cruz (1648-95), one of the most important Hispanic writers of the Golden Age. Her works will be discussed in the context of artistic and intellectual movements in New Spain, focusing on issues including but not limited to genre, gender, religion, ethnicity and creole patriotism.
Note: Credit will be granted for only one of 482, 480, 480A, 481 (if taken in the same topic), 481A, 481B.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 483A Units: 1.5 Hours: 3-0
Formerly: 480C
Spanish American Literature of the 19th Century
Representative novels and short stories from the 19th century. Discussion of each work within its national and/or regional context.
Note: Credit will be granted for only one of 483A, 480C.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 483B Units: 1.5 Hours: 3-0
Formerly: 480D
Fiction from the “Boom” to the Present
Novels and short stories from the 1950s to the present. Discussion of each work within the national and/ or regional context.
Note: Credit will be granted for only one of 483B, 480D.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 483C Units: 1.5 Hours: 3-0
Modern Latin American Literature and the Visual Arts
An exploration of the links between literary works and painting, photography, and cinema in 20th century Latin America.
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 484A Units: 1.5 Hours: 3-0
Latin American Women’s Writing
A selection of women’s writing in Spanish America and Brazil from the 19th century up to the present. Discussion of the relevance of each writer within her national and/or regional literature. Given in Spanish or English.
Pre- or corequisites: One of 370, 375, 380, 385 if 484A given in Spanish; second-year standing if 484A given in English.
SPAN 484C  
Units: 1.5  
Hours: 3-0  
Also: HIST 470  
Colonial Spanish America 1492-1767  
Spanish America from the Conquest to the Bourbon reforms. Special focus on territorial expansion, indigenous resistance and accommodation, the establishment of the viceroyalties, social diversity, racial intermingling, racism and cultural hybridity.  
Note: Credit will be granted for only one of 484C, HIST 470.

SPAN 484D  
Units: 1.5  
Hours: 3-0  
Also: HIST 471  
From Colony to Republic: Spanish America 1767-1867  
Spanish America from the expulsion of the Jesuits to the reestablishment of a republic in Mexico. Special attention to the causes of independence as well as the struggle between liberals and conservatives in the newly-formed nations.  
Note: Credit will be granted for only one of 484D, HIST 471.

SPAN 485A  
Units: 1.5  
Hours: 3-1  
Spanish Film  
A selection of major accomplishments in Spanish-language film, from the experimental cinema of Buiuel to post-Franco director Almodóvar. May be given in Spanish or English.  
Note: May be taken twice for credit in different topics.  
Pre- or corequisites: 350A if given in Spanish; second-year standing if given in English.

SPAN 485B  
Units: 1.5  
Hours: 3-1  
Latin American Film  
A selection of major accomplishments in Spanish-language film in Latin America. Course content will vary to include recent trends in Mexico, Argentina, Cuba and other Latin American countries. May be given in Spanish or English.  
Note: May be taken twice for credit in different topics.  
Pre- or corequisites: 350A if given in Spanish; second-year standing if given in English.

SPAN 486  
Units: 1.5  
Hours: 3-0  
Special Topics in Hispanic American Literature  
Variable content course which will focus attention on themes, literary and cultural trends, countries or authors.  
Note: May be taken twice for credit in different topics.  
Pre- or corequisites: One of 370, 375, 380, 385.

SPAN 490A  
Units: 1.5  
Hours: 3-0  
Formerly: 425  
History of the Spanish Language  
A study of the development of the Spanish language from its origins in Vulgar Latin to its stabilization in Cervantes' time.  
Note: Credit will be granted for only one of 490A, 425.  
Prerequisites: 250B.

SPAN 490B  
Units: 1.5  
Hours: 3-0  
Formerly: 426  
Translation Theory and Practice  
A review of basic linguistic and cultural patterns and the problems of translation; emphasis on the acquisition of practical experience in translating materials drawn from a large variety of fields.  
Note: Credit will be granted for only one of 490B, 426.  
Prerequisites: 350B.

SPAN 490C  
Units: 1.5  
Hours: 3-0  
Advanced Written Spanish  
Practice in composition, translation and stylistic analysis. Attention will be given to both the formal and informal use of language.  
Prerequisites: 350B.

SPAN 495  
Units: 1.5 or 3.0  
Formerly: 430  
Directed Reading Course  
A specified reading project for fourth-year students to be determined by the student, the instructor, and the Chair of the department; written assignments will be required.  
Note: Credit will be granted for only one of 495, 430.  
May be taken more than once in different topics. For Honours and Major students.

SPAN 499  
Units: 1.5  
Honours Graduating Essay  
Honours students will write a graduating essay of 7,500 - 10,000 words, in Spanish and on an approved topic, under the direction of a member of the department. The essay must conform to acceptable standards of style and format, and be submitted before the end of Second Term classes.

2012-13 UVIC CALENDAR  
399  
COURSE LISTINGS  

STAT

Statistics  
Department of Mathematics and Statistics  
Faculty of Science  

STAT 252  
Units: 1.5  
Hours: 3-0  
Statistics for Business  
Descriptive statistics, probability, random variables, discrete and continuous probability distributions, random sampling and sampling distributions, point and interval estimation, hypothesis testing, statistical inference for comparing samples from two populations, simple linear regression, contingency tables. Examples will be taken from business applications. Students will be expected to analyze data using computing facilities.  
Note: Credit will be granted for only one of 252, 250, 254, 255, 260. See Credit Limit.  
Intended primarily for Business students.  
Prerequisites: MATH 122 or 151.

STAT 254  
Units: 1.5  
Hours: 3-0-1  
Probability and Statistics for Engineers  
Probability axioms, properties of probability, counting techniques, conditional probability, independence, random variables, discrete and continuous probability distributions, expectation, variance; binomial, hypergeometric, negative binomial, Poisson, uniform, normal, gamma and exponential distributions; discrete and continuous joint distributions, independence; random variables, expectation of functions of random vectors, covariance, random samples and sampling distributions, central limit theorem; point and interval estimation; hypothesis testing; linear regression and correlation.  
Note: Credit will be granted for only one of 254, 250, 252, 255, 260. See Credit Limit.  
Prerequisites: Admission to a BEng program.
Corequisites: MATH 200.

STAT 255  
Units: 1.5  
Hours: 3-0  
Statistics for Life Sciences I  
Descriptive statistics; probability; random variables and probability distributions; expectation; binomial, Poisson, and normal distributions; random sampling and sampling distributions; point and interval estimation; classical hypothesis testing and significance testing. Statistical examples and applications from life sciences will be emphasized.  
Notes: - Credit will be granted for only one of 255, 250, 252, 254, 260. See Credit Limit.  
- Intended primarily for students in Biochemistry, Microbiology, Biology, Environmental Studies combined with a Science discipline, Kinesiology, and Combined Computer Science and Health Information Science.  
Prerequisites: 1.5 units of MATH courses numbered 100 or higher.

STAT 256  
Units: 1.5  
Hours: 3-1-0  
Statistics for Life Sciences II  
Estimation and hypothesis testing; analysis of variance and the design of experiments; regression and correlation; analysis of categorical data; distribution-free procedures. Statistical examples and applications from life sciences will be emphasized.  
Notes: - Credit will be granted for only one of 256, 251, 251.  
- Intended primarily for students in Biochemistry, Microbiology, Biology, and Environmental Studies.  
Prerequisites: One of 252, 254, 255, 260.

STAT 260  
Units: 1.5  
Hours: 3-0  
Introduction to Probability and Statistics I  
Descriptive statistics; elementary probability theory; random variables, discrete and continuous probability distributions, expectation, joint, marginal and conditional distributions; linear functions of random variables; random sampling and sampling distributions; point and interval estimation; classical hypothesis testing and significance testing. The mathematical foundations of statistical inference will be introduced and illustrated with examples from a variety of disciplines.  
Note: Credit will be granted for only one of 260, 250, 252, 254, 255. See Credit Limit.  
Pre- or corequisites: One of MATH 101, 103, 140, 208.

STAT 261  
Units: 1.5  
Hours: 3-1-0  
Introduction to Probability and Statistics II  
Estimation and hypothesis testing; normal sampling distribution theory; analysis of variance and the design of experiments; regression and correlation; analysis of categorical data; distribution-free procedures. The mathematical foundations of statistical inference will be introduced and illustrated with examples from a variety of disciplines.  
Note: Credit will be granted for only one of 261, 251, 256.  
Prerequisites: 254 or 260.

STAT 350  
Units: 1.5  
Hours: 3-0  
Mathematical Statistics I  
Discrete and continuous probability models, random variables and their distributions, mathematical expectation, moment generating functions, sums of random variables, limit theory, and sampling distributions. Emphasis on the probability theory needed for 400.  
Prerequisites: One of 256 or 261; MATH 200 or 205.

STAT 353  
Units: 1.5  
Hours: 3-0  
Applied Regression Analysis  
An outline of linear regression theory with applications; multiple linear regression, polynomial regression, model adequacy checking, variable transformation, variable selection, indicator variable, diagnostics for leverage and influential observations, multicollinearity problem, model selection, stepwise regression, prediction and inference  
Prerequisites: 256 or 261, and one of MATH 110, 133, 211, 235A, or permission of the department.
STAT 354 Units: 1.5 Hours: 3-0
Sampling Techniques
Principal steps in planning and conducting a sample survey. Sampling techniques including stratification, systematic sampling and multistage sampling. Practical survey designs with illustrations. Nonsampling errors.
Prerequisites: 256 or 261, or permission of the department.

STAT 355 Units: 1.5 Hours: 3-0
Statistical Methods in Biology and Medicine
Rates and comparison of rates: case-control studies; odds ratios; regression models; Poisson and logistic regression; dose-response models; Cox's regression analysis.
Prerequisites: 256 or 261.

STAT 357 Units: 1.5 Hours: 3-0
Statistical Methods in Quality Assurance
Univariate control charts for measurements and attributes; multivariate control charts for measurements; process capability analysis; regression, sampling and experimental design methods.
Prerequisites: One of 252, 254, 255 or 260.

STAT 359 Units: 1.5 Hours: 3-1
Data Analysis
An introductory data analysis course for students who had an introduction to descriptive statistics, probability distributions, estimation, hypothesis testing and confidence intervals. Emphasis is placed on proper use of computer software, interpretation of output and assumptions required for use of each statistical method. Topics may include: linear and non-linear regression, time series analysis, analysis of variance, design of experiments, generalization of linear models, repeated measures analysis, survival analysis, methods for multivariate data, and nonparametric methods.
Prerequisites: One of 252, 254, 255, 260, ECON 246, GEOG 226, PSYC 300A, SOCI 371A, or equivalent.

STAT 450 Units: 1.5 Hours: 3-0
Mathematical Statistics II
Brief introduction to decision theory, point and interval estimation, hypothesis testing; regression and correlation, analysis of variance. Emphasis on the mathematics of statistics.
Note: Credit will be granted for only one of 450, 351.
Prerequisites: 350.

STAT 453 Units: 1.5 Hours: 3-0
The Design and Analysis of Experiments
An introduction to the principles of experimental design and the techniques of analysis of variance. A discussion of experimental error, randomization, replication, and local control. Analysis of variance is developed for single factor and multifactor experiments. The use of concomitant observations. Multiple comparisons and orthogonal contrasts.
Prerequisites: One of 251, 256, 261, and 353 or some experience or familiarity with experimentation.

STAT 454 Units: 1.5 Hours: 3-0
Topics in Applied Statistics
Possible topics include: Bayesian statistics, bioinformatics, biostatistics, clustering methods, longitudinal data analysis, mixture models, robust statistics, spatial statistics, sampling theory and methods, statistics for imaging, and statistical computing. Information on the topics available in any given year may be obtained from the department.
Note: May be taken more than once for credit in different topics with permission of the department.

Prerequisites: Permission of the department.

STAT 455 Units: 1.5 Hours: 3-0
Distribution-Free Statistics
Tests based on the binomial distribution; contingency tables; methods based on ranks; statistics of the Kolmogorov-Smirnov type; resampling methods; empirical likelihood methods.
Note: Students with credit for 454 require permission of the department.
Prerequisites: 350.

STAT 456 Units: 1.5 Hours: 3-0
Multivariate Analysis
Multivariate normal distribution; multivariate analysis of variance; regression; discriminant analysis; classification analysis; principal component analysis; cluster analysis; and factor analysis.
Note: Students with credit for 454 require permission of the department.
Prerequisites: 350, 353.

STAT 457 Units: 1.5 Hours: 3-0
Time Series Analysis
Stationary time series; Box-Jenkins methodology; autoregressive, moving-average and ARIMA models; smoothing; time series regression; spectral analysis and linear filters.
Note: Students with credit for 454 require permission of the department.
Prerequisites: 350 and 353; or 350 and ECON 366 and a declared program in the Financial Mathematics and Economics program.

STAT 458 Units: 1.5 Hours: 3-0
Generalized Linear Models
Nonlinear regression models; logit and probit models for binomial responses; log-linear models for counts; quasi-likelihoods and generalized estimating equations for non-normal data.
Note: Students with credit for 454 require permission of the department.
Prerequisites: 350, 353.

STAT 459 Units: 1.5 Hours: 3-0
Survival Analysis
Analysis of time-to-failure data; censoring; survival, hazard rate and mean residual life functions; non-parametric estimation and comparisons of survival functions; covariates; parametric models; semi-parametric (Cox) regression model; time-dependent covariates.
Note: Students with credit for 454 require permission of the department.
Prerequisites: 350, 353 and 450 or permission of the department.

THEA 101 Units: 3.0 Hours: 3-0
An Introduction to Theatre
A practical and theoretical introduction to play analysis, to dramatic criticism, to theatrical form, and to the principles of stage production. Attendance at live performances is required.
Note: Credit will be granted for only one of 101, 100. Not open to Theatre Majors.

THEA 102 Units: 1.5 Hours: 3-0
Theatre Appreciation: From Page to Stage
A course designed to enhance understanding and appreciation of today's theatre. Assignments include watching plays on video and attendance at live theatre performances.
Note: Credit will be granted for only one of 102, 100. Not open to Theatre Majors.

THEA 105 Units: 3.0 Hours: 1-3
An Introduction to Stagecraft and Technical Practice
The intensive study and application of the principles of scenery and costume construction, stage lighting, and theatre organization and practice. Practical assignments will include the preparation and crewing of department productions. Due to changing production schedules, labs may not always meet as timetabled.
Note: Restricted to Theatre students.

THEA 111 Units: 1.5 Hours: 3-0
Introduction to the History and Language of the Theatre I
A survey of the history of western theatre from its beginnings to the Middle Ages. Early forms, conventions and styles are compared with those of the contemporary theatre.
Note: Credit will be granted for only one of 111, 100, 110.

THEA 112 Units: 1.5 Hours: 3-0
Introduction to the History and Language of the Theatre II
A survey of the history of western theatre from the Middle Ages to the closing of the English playhouses in 1642. Early forms, conventions and styles are compared with those of the contemporary theatre.
Note: Credit will be granted for only one of 112, 100, 110.
Prerequisites: 111.

THEA 120 Units: 3.0 Hours: 0-3
Introduction to the Art of Acting
An orientation to the art of acting and an introduction to the actor's creative process.
Note: Restricted to Theatre students.

THEA 122 Units: 1.5 Hours: 0-3
The Acting Experience
An examination of the fundamentals of the art of acting through self-exploration, improvisation, character and scene study.
Note: Not open for credit to students registered in or with credit in 120 or 121.

THEA 132 Units: 3.0 Hours: 0-3
Exploring Theatre Through Dramatic Process
A course designed for students interested in the improvisational nature of theatre as it applies to working spontaneously or through text with an
emphasis on collective creation. Recommended for students considering careers in alternative theatre practices, theatre for social change, health education, museum education and young audiences, teaching, recreation, counselling, child and youth care.

THEA 150 Units: 1.5 Hours: 3-0 Public Speaking
An overview of the theoretical bases of speech communication; development of the vocal, verbal, and non-verbal skills of organization and presentation essential to effective communication.

THEA 205 Units: 3.0 Hours: 0-4 An Introduction to Production and Management Areas of the Theatre
Students are instructed in the basic principles and procedures of the major production and management areas of the theatre. Students will be required to successfully complete a practical assignment in a department or other designated production(s).
Notes: - Students enrolled in this course must consult the instructor before making evening or lunchtime engagements which might interfere with the schedule of practical assignments. Due to changing production assignments labs may not always meet as timetabled.
- Restricted to Theatre students.
Prerequisites: 105.

THEA 210 Units: 1.5 Hours: 3-0 Theatre from French Classicism to the End of the 19th Century
A survey of western theatre history from Corneille to the Victorians. Introduction to library research methods in theatre history.
Note: Credit will be granted for only one of 210, 200.
Prerequisites: 112.

THEA 211 Units: 1.5 Hours: 3-0 Modern Theatre
A continuation of Theatre 210 from the late 19th century to the present day.
Note: Credit will be granted for only one of 211, 200.
Prerequisites: 210.

THEA 218 Units: 1.5 Hours: 0-4.5-0 Acting I (for Theatre Students who are Non-Acting Specialists)
Work in characterization and scene study designed for Theatre students who are pursuing programs other than the Acting Specialist Option.
Note: Credit will be granted for only one of 218, 220, 221. Enrolment limited.
Prerequisites: 105, 112, 120 and permission of the department.

THEA 220 Units: 1.5 Hours: 0-4.5 Acting II (for Theatre Students who are Non-Acting Specialists)
A continuation of Theatre 218. Work in characterization and scene study designed for Theatre students who are pursuing programs other than the Acting Specialist Option.
Note: Credit will be granted for only one of 218, 220, 222. Enrolment limited.
Prerequisites: 218.

THEA 221 Units: 1.5 Hours: 0-4.5 Acting I
Work in characterization and scene study.
Note: Credit will be granted for only one of 221, 220. Enrolment limited.
Prerequisites: 105, 112, 120; audition and/or interview; permission of the department.

THEA 222 Units: 1.5 Hours: 0-4.5-0 Acting II
A continuation of Theatre 221. Work in characterization and scene study.
Note: Credit will be granted for only one of 222, 220. Enrolment limited.
Prerequisites: 221.

THEA 223 Units: 1.5 Hours: 0-4.5-0 Introduction to Voice
Basic development of the voice to prepare for speech on the stage.
Note: Enrolment limited.
Prerequisites: 105, 112, 120; audition and/or interview; permission of the department.

THEA 225 Units: 1.5 Hours: 0-4.5-0 Introduction to Stage Movement
Development of a basic movement vocabulary for the stage.
Note: Credit will be granted for only one of 225, 260. Enrolment limited.
Prerequisites: 105, 112, 120; audition and/or interview; permission of the department.

THEA 229 Units: 1.5 Hours: 0-4.5 Theatre Performance
Supervised performance in department productions.
Note: Credit will be granted for no more than 4.5 units of any combination of 229, 329, 429. Of those 4.5 units, only 1.5 units of 229 will normally be given.
Prerequisites: Permission of the department.
Grading: COM, N, F.

THEA 235 Units: 3.0 Hours: 3-0 Introduction to Applied Theatre
A broad interpretive examination of the uses of theatre in a variety of educational and non-traditional settings.
Prerequisites: 105, 111, 112, 120 and 132 or 181, or permission of the department.

THEA 251 Units: 1.5 Hours: 1-3 Introduction to Design I
Developing a graphic vocabulary in the free hand idiom for the Theatre Designer.
Note: Credit will be granted for only one of 251, 240.
Prerequisites: Permission of the department.

THEA 252 Units: 1.5 Hours: 1-3 Introduction to Design II
Development of drawing skills in the mechanical idiom. Drafting of ground plans, sections, elevations, orthographics, and isometrics. Mechanical perspective drawing will be explored.
Note: Credit will be granted for only one of 252, 240.
Prerequisites: Permission of the department.

THEA 261 Units: 1.5 Hours: 3-1 Costume Design I
An introduction to the design principles, drawing techniques, and materials of costume design for the stage and other media.
Prerequisites: Permission of the department.

THEA 299 Units: 1.5 or 3.0 Theatre Laboratory
Under the supervision of faculty, students will participate in projects that will include both their particular areas of interest and other aspects of the theatre.
Note: May be taken more than once for credit to a maximum of 3 units.
Prerequisites: Permission of the department.

THEA 305 Units: 1.5 or 3.0 Hours: 0-6-2 Advanced Production and Management
Students are instructed and given practical experience in one or more of the major production and management areas of the theatre. These may include: costume, stage management, technical direction, sound design, lighting operation, stage carpentry, audience services and marketing and communications.
Note: Enrolment limited. May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
Prerequisites: 205 and permission of the department.

THEA 309A Units: 1.5 Hours: 4-0 Formerly: 309 History of Opera to the Late 19th Century
Survey course designed to introduce students to the history of opera as a theatrical genre. Emphasis will be placed upon composers and librettists who were major influences in the development of opera from the Renaissance through to the end of the Romantic age. Dramatic style and theory will be addressed.
Note: Credit will be granted for only one of 309A, 309.
Prerequisites: 211 or MUS 110.

THEA 309B Units: 1.5 Hours: 4-0 Modern Opera
A continuation of 309A, investigating the history of Western opera as a theatrical genre from the late 19th century to the present.
Note: Credit will be granted for only one of 309B, 309.
Prerequisites: 309A or permission of the department.

THEA 310 Units: 1.5 Hours: 3-0 Seminar in Theatre History III
Intensive study of a specific period or genre. The topics for consideration will change each year.
Note: Students may take this course in different topics for credit more than once to a maximum of 4.5 units of credit.
Prerequisites: 211 or permission of the department.

THEA 311 Units: 1.5 Hours: 3-0 Seminar in Theatre History II
Intensive study of a specific period or genre. The topics for consideration will change each year.
Note: May be taken more than once for credit in different topics to a maximum of 4.5 units.
Prerequisites: 211 or permission of the department.

THEA 324 Units: 1.5 Hours: 3-0 Studies in Theatre of the Ancient World
Theatre in ancient Greece or Rome.
Note: Credit will be granted for only one of 312, JAPA 320A, PAAS 394.
Prerequisites: Second-year standing or permission of the department.

THEA 314 Units: 1.5 Hours: 3-0 Pre-modern Japanese Theatre
Surveys Japanese theatre history from earliest times until the nineteenth century. Introduction to the major forms, styles and theory of traditional Japanese theatre, including no, kyogen, bunraku and kabuki.
Note: Credit will be granted for only one of 312, JAPA 320A, PAAS 394.
Prerequisites: Second-year standing or permission of the department.
### COURSE LISTINGS

**THEA 315**  
Units: 1.5  
Hours: 3-0

**Studies in Medieval Theatre**  
Theatre of the Middle Ages.  
**Note:** Credit will be granted for only one of 315, 307.  
Students should consult the department for the topic to be considered. May be taken more than once for credit in different topics to a maximum of 4.5 units of credit.  
**Prerequisites:** 211 or permission of the department.

**THEA 316**  
Units: 1.5  
Hours: 3-0

**Studies in Baroque, Rococo and Neoclassical Theatre**  
Theatre in the 17th and 18th centuries.  
**Note:** Students should consult the department for the topic to be considered. May be taken more than once for credit in different topics to a maximum of 4.5 units of credit.  
**Prerequisites:** 211 or permission of the department.

**THEA 317**  
Units: 1.5  
Hours: 3-0

**Studies in 19th-Century Theatre**  
Theatre in the 19th century.  
**Note:** Students should consult the department for the topic to be considered. May be taken more than once for credit in different topics to a maximum of 4.5 units.  
**Prerequisites:** 211 or permission of the department.

**THEA 318**  
Units: 1.5  
Hours: 3-0

**Studies in 20th-Century Theatre**  
Modern theatre.  
**Note:** Students should consult the department for the topic to be considered. May be taken more than once for credit in different topics to a maximum of 4.5 units.  
**Prerequisites:** 211 or permission of the department.

**THEA 319**  
Units: 1.5  
Hours: 3-0

**Studies in Renaissance Theatre**  
The Renaissance in the theatre of Italy, France and England.  
**Note:** Credit will be granted for only one of 319, 308. Students should consult the department for the topic to be considered. May be taken more than once for credit in different topics to a maximum of 4.5 units.  
**Prerequisites:** 211 or permission of the department.

**THEA 321**  
Units: 1.5  
Hours: 0-4.5

**Acting III**  
The study of acting as related to specific theatrical genres, styles or periods.  
**Note:** Credit will be granted for only one of 321, 320.  
**Prerequisites:** 205, 211, 221, 222, 223, 225; audition and/or interview; permission of the department.

**THEA 322**  
Units: 1.5  
Hours: 0-4.5

**Acting IV**  
A continuation of 321. The study of acting as related to specific theatrical genres, styles or periods.  
**Note:** Credit will be granted for only one of 322, 320.  
**Prerequisites:** 321.

**THEA 323**  
Units: 1.5  
Hours: 0-4.5

**Speech in the Theatre I**  
Work in voice and speech as related to specific theatrical genres, styles or periods.  
**Note:** Credit will be granted for only one of 323, 350.  
**Prerequisites:** 205, 211, 221, 222, 223, 225; audition and/or interview; permission of the department.

**THEA 324**  
Units: 1.5  
Hours: 0-4.5

**Speech in the Theatre II**  
A continuation of 323. Work in voice and speech as related to specific theatrical genres, styles or periods.  
**Note:** Credit will be granted for only one of 324, 350.  
**Prerequisites:** 323.

**THEA 325**  
Units: 1.5  
Hours: 0-4.5-0

**Stage Movement I**  
Intermediate stage movement.  
**Note:** Credit will be granted for only one of 325, 360.  
**Prerequisites:** 205, 211, 221, 222, 223, 225; audition and/or interview; permission of the department.

**THEA 326**  
Units: 1.5  
Hours: 0-4.5-0

**Stage Movement II**  
A continuation of 325. Intermediate stage movement.  
**Note:** Credit will be granted for only one of 326, 360.  
**Prerequisites:** 325.

**THEA 327**  
Units: 1.5  
Hours: 3-0

**The Art of Movement**  
A practical course designed for non-Acting Majors who wish to learn about the art of movement. Focuses on the body as an instrument of expression. Recommended for students interested in Directing, Education, Design; for musicians, including singers, instrumentalists, and conductors; and for visual and performance artists.  
**Note:** Not open to Acting specialists.  
**Prerequisites:** 105, 112, 120 and permission of the department.

**THEA 328**  
Units: 1.5  
Hours: 3-0

Also: PAAS 373  
**The Theatre of Indonesia**  
A survey of the theatre of Indonesia. Examines trance dances, traditional puppet theatres of Java and Bali, folk theatres of Java, Bali, and Sumatra and national Indonesian language-art theatre and drama. Readings of plays in translation will be supplemented by videos, films, and slides of performances.  
**Note:** Credit will be granted for only one of 328, PAAS 373, SEA 320.  
**Prerequisites:** Second-year standing or permission of the department.

**THEA 329**  
Units: 1.5  
Hours: 3-0

**Theatre Performance**  
Supervised performance in department productions.  
**Note:** Credit will be granted for no more than 4.5 units of any combination of 329, 229, 429. May be taken more than once for credit with permission of the department to a maximum of 3 units.  
**Prerequisites:** Permission of the department.  
**Grading:** COM, N, F.

**THEA 331**  
Units: 1.5  
Hours: 1-2

**Formerly: half of 330**  
**Directing I**  
Fundamental textual analysis; stage composition, movement and rhythm, methods of rehearsal procedure and basic techniques of working with the actor.  
**Note:** Credit will be granted for only one of 331, 330.  
**Prerequisites:** 205, 210, 211 and permission of the department.

**THEA 332**  
Units: 1.5  
Hours: 1-2

**Formerly: half of 330**  
**Directing II**  
A continuation of 331. Fundamental textual analysis; stage composition, movement and rhythm, methods of rehearsal procedure and basic techniques of working with the actor.  
**Note:** Credit will be granted for only one of 332, 330.  
**Prerequisites:** 331 and permission of the department.

**THEA 335**  
Units: 3.0  
Hours: 0-4.5

**Applied Theatre I**  
Advanced study of the theory and practice of Applied Theatre.  
**Prerequisites:** 205, 210, 211, 235, or permission of the department.

**THEA 338**  
Units: 1.5  
Hours: 3-0

**Lighting for the Theatre I**  
Lighting design, its theory and practice.  
**Note:** Credit will be granted for only one of 338, 342.  
**Prerequisites:** 105 and permission of the department.

**THEA 339**  
Units: 1.5  
Hours: 3-0

**Lighting for the Theatre II**  
A continuation of 338. Lighting design, its theory and practice.  
**Note:** Credit will be granted for only one of 339, 342.  
**Prerequisites:** 348 and permission of the department.

**THEA 351**  
Units: 1.5  
Hours: 2-2

**Introduction to Scenic Design**  
Fundamentals of three dimensional design communication and aesthetics. Model making and other graphic techniques for planning, analyzing and describing plastic space for the stage.  
**Note:** Credit will be granted for only one of 351, 340.  
**Prerequisites:** 205, 210, 211, 251, 252 and permission of the department.

**THEA 352**  
Units: 1.5  
Hours: 0-4

**Scenic Design**  
Paper projects in the design of stage settings.  
**Note:** Credit will be granted for only one of 352, 340.  
**Prerequisites:** 351 and permission of the department.

**THEA 353**  
Units: 1.5 or 3.0  
Hours: 0-3

**Assisting the Scenic Designer**  
Assisting the scenic designer of a mainstage production.  
**Note:** May be taken more than once for credit to a maximum of 6 units.  
**Pre- or corequisites:** 351, 352 and permission of the department.

**THEA 354**  
Units: 1.5 or 3.0  
Hours: 0-3

**Assisting the Lighting Designer**  
Assisting the lighting designer of a mainstage production.  
**Note:** May be taken more than once for credit to a maximum of 6 units.  
**Pre- or corequisites:** 348, 349 and permission of the department.

**THEA 355**  
Units: 1.5  
Hours: 3-0

**Design Aesthetics I**  
An introduction to the language of creativity and visual expression. A study of elements of design and how we apply them in the theatre. The class will consist of theoretical discussion, historical analysis and practical design assignments.  
**Note:** Not intended for students choosing the Specialist Options in Production and Management.  
**Prerequisites:** Permission of the department.

</tbody>
</table>
### THEA 426 Stage Movement IV
**Units:** 1.5  
**Hours:** 0-4.5-0  
A continuation of 425. Advanced technique and improvisation in stage movement.  
**Note:** Credit will be granted for only one of 426, 460.  
**Prerequisites:** 425.

### THEA 429 Theatre Performance
**Units:** 1.5  
**Note:** Credit will be granted for no more than 4.5 units of any combination of 429, 229, 329. May be taken more than once for credit with permission of the department to a maximum of 3 units.  
**Prerequisites:** Permission of the department.  
**Grading:** COM, N, F.

### THEA 431 Directing III
**Units:** 1.5  
**Hours:** 3-0  
Advanced work in stage direction.  
**Note:** Credit will be granted for only one of 431, 430.  
**Prerequisites:** 332 and permission of the department.

### THEA 432 Directing IV
**Units:** 1.5 or 3.0  
**Hours:** 3-0  
A continuation of 431.  
**Note:** Credit will be granted for only one of 432, 430.  
**Prerequisites:** 431 and permission of the department.

### THEA 433 Directing for Production
**Units:** 1.5 or 3.0  
**Hours:** 0-3  
Directing for department productions.  
**Note:** May be taken more than once for credit to a maximum of 6 units.  
**Prerequisites:** 332 and permission of the department.

### THEA 434 Applied Theatre II
**Units:** 3.0  
**Hours:** 3-0  
Advanced study of the theory and practice of Applied Theatre.  
**Prerequisites:** 332, 335 and 355 or permission of the department.

### THEA 435 Scenic Design for Production
**Units:** 1.5 or 3.0  
**Hours:** 0-3  
Design for department productions.  
**Note:** May be taken more than once for credit to a maximum of 6 units.  
**Prerequisites:** 351, 352 and permission of the department.

### THEA 445 Lighting Design for Production
**Units:** 1.5 or 3.0  
**Hours:** 0-3  
Design for department productions.  
**Note:** May be taken more than once for credit to a maximum of 6 units.  
**Prerequisites:** 348, 349 and permission of the department.

### THEA 464 Special Pursuits in Costume Design
**Units:** 1.5  
**Hours:** 0-3  
Special topics in costume design including costume accessories and fabric dyeing.  
**Note:** Credit will be granted for only one of 464, 441.  
**Pre- or corequisites:** 261, 361 and permission of the department.

### THEA 465 Costume Design for Production
**Units:** 1.5 or 3.0  
**Hours:** 0-4  
Supervised design and production in the execution of costumes for theatre production. Students will work with directors on design concepts, and carry out research. They will then prepare designs and see them through the construction process and unto the stage.  
**Note:** May be taken more than once for credit to a maximum of 6 units.  
**Pre- or corequisites:** 361, 362, 363, 365 and permission of the department.

### THEA 490 Graduating Project
**Units:** 1.5 or 3.0  
**Note:** May be taken more than once for credit to a maximum of 6 units.  
**Prerequisites:** Permission of the department.  
**Grading:** COM, N, F.

### THEA 499 Theatre Laboratory
**Units:** 1.5 or 3.0  
**Note:** May be taken more than once for credit to a maximum of 6 units.  
**Prerequisites:** Permission of the department.

### WRIT 409 Technology and Society
**Interdisciplinary Programs**

#### TS 200 Introduction to the Human Uses of Technology
**Units:** 1.5  
**Hours:** 3-0  
Explores approaches to understanding media, communication, and technology with an emphasis on the critical appreciation of social, cultural, and political impacts of technology on contemporary society. Focuses on what current events teach us about the human uses of technology, and the influence of technology on humans.  
**Prerequisites:** 100 with a minimum of B+ and second-year standing.

#### TS 300 Networking, New Media and Social Practices
**Units:** 1.5  
**Hours:** 3-0  
Explores the hands-on application of social networking and personal technological devices, and their consequences for society. Engages virtual and mobile technologies for their contributions to personal, social, and cultural understanding. Requires written and practical engagement with social networking and communications technologies.  
**Prerequisites:** 100 with a minimum of B+ and second-year standing.

#### TS 400 Technologies of the Future
**Units:** 1.5  
**Hours:** 3-0  
Seminar on cutting-edge research in technology and society. Explores current thoughts on technological change, visualization trends, and political and social uses of technology.  
**Prerequisites:** 100 with a minimum of B+ and second-year standing.

### WRIT 100 Introduction to Writing
**Units:** 3.0  
**Hours:** 3-0  
A non-historical survey of some of the basic structures in poetry, drama, creative nonfiction, and fiction and involves the students in the writing and criticism of compositions in all four genres.  
**Note:** Credit will be granted for only one of 100, 215.  
**Credit will be granted for only one of 102, 101, 103, 104.

### WRIT 109 The Writer’s World in Books and Film
**Units:** 1.5  
**Hours:** 3-0  
This lecture course, which is open to students in all faculties, explores a selection of authors through an analysis of their writing in various genres and a study of films that show us their working methods and details of their lives. Students will meet guest authors who will read from their publications and discuss the writing process.  
**Note:** This course is not a prerequisite for entry into any other writing course. Open to all students.

### WRIT 140 Elements of Style in Creative Writing
**Units:** 1.5  
**Hours:** 3-0  
Introduction to grammatical analysis and the norms of standard written English, designed to support the writing of poetry, prose and scripts.  
**Note:** This course does not satisfy the University’s English requirement.

### WRIT 201 Poetry Workshop
**Units:** 3.0  
**Hours:** 0-3  
A workshop in the writing of poetry.  
**Note:** Credit will be granted for only one of 201, CW 201. Class size is limited.

### WRIT 202 Fiction Workshop
**Units:** 3.0  
**Hours:** 0-3  
A workshop in the writing of fiction.  
**Note:** Credit will be granted for only one of 202, CW 202. Class size is limited.

### WRIT 203 Playwriting Workshop
**Units:** 3.0  
**Hours:** 0-3  
A workshop in writing for the stage.  
**Note:** Credit will be granted for only one of 203, CW 203. Class size is limited.

### WRIT 204 Creative Nonfiction Workshop
**Units:** 3.0  
**Hours:** 0-3  
A workshop in the writing of creative nonfiction.  
**Note:** Class size is limited.  
**Prerequisites:** 100 with a minimum of B+ and second-year standing.

### WRIT 215 Journalism
**Units:** 1.5  
**Hours:** 3-0  
A lecture course in the theory and practice of journalism in Canada with an emphasis on local news beat writing.  
**Note:** Credit will be granted for only one of 215, 205.  
**Prerequisites:** 3.0 units from the following with a minimum grade of B in each course: WRIT 100, 102, 140, ENGL 135, 146, 147, 215, ECON 225, ENGR 240.

### WRIT 218 Screenwriting Workshop
**Units:** 3.0  
**Hours:** 0-3  
A workshop in writing for the screen.  
**Prerequisites:** 100 with a minimum of B+ and second-year standing.

### WRIT 300 Narrative and Mythic Structure in Film Writing
**Units:** 1.5  
**Hours:** 3-0  
A survey course of global cinema examining archetypal and mythic structure in classical narrative film writing.
**WRIT 302** Units: 1.5 Hours: 1-2
Special Study in Craft
A workshop/seminar in which students will focus on particular elements of writing applicable to more than one genre.
Note: May be repeated once in different topics.
Prerequisites: Second-year standing.

**WRIT 303** Units: 1.5 Hours: 0-3
Poetry Workshop
A workshop in the writing of poetry.
Note: May be repeated once. Class size is limited.
Prerequisites: 201 or equivalent.

**WRIT 304** Units: 1.5 Hours: 0-3
Fiction Workshop
A workshop in the writing of fiction.
Note: May be repeated once. Class size is limited.
Prerequisites: 202 or equivalent.

**WRIT 305** Units: 1.5 Hours: 0-3
Playwriting Workshop
A workshop in the writing of drama for the stage.
Note: May be taken more than once for credit to a maximum of 3.0 units. Class size is limited.
Prerequisites: 203 or equivalent.

**WRIT 306** Units: 1.5 Hours: 2-0-1
Formerly: 306B
Digital Publishing
A lecture and laboratory course in the theory and practice of digital publishing.
Note: Credit will be granted for only one of 306, 306B, CW 306B.
Prerequisites: Second-year standing.

**WRIT 307** Units: 1.5 Hours: 3-0
Basic Forms and Techniques in Poetry
A lecture course surveying the functions of specific poetic techniques in a representative group of poems. Aspects of poetics discussed will include prosody, sound patterns, diction and figurative language.
Note: Credit will be granted for only one of 307, CW 307.
Prerequisites: Second-year standing.

**WRIT 308** Units: 1.5 Hours: 3-0
Advanced Forms and Techniques in Poetry
A lecture course surveying formal structures in poetry in a representative group of poems. Topics discussed include poetic closure, the sonnet, sestina, villanelle and ghazal, and the influence of early 20th century poetic movements such as imagism on contemporary poetic forms.
Note: Credit will be granted for only one of 308, CW 308.
Prerequisites: Second-year standing.

**WRIT 309** Units: 1.5 Hours: 3-0
Basic Forms and Techniques in Short Fiction
A lecture course surveying the structural composition and the function of technique in a representative group of narrative prose works. Aspects of narrative discussed will include: theme, point of view, scenic structure, role of narrator, metaphor, diction, plot and dialogue.
Note: Credit will be granted for only one of 309, CW 309.
Prerequisites: Second-year standing.

**WRIT 310** Units: 1.5 Hours: 3-0
Basic Forms and Techniques in the Novel
A lecture course surveying the structural composition and the function of techniques in a representative group of novels and novellas. Emphasis will be placed upon form and voice, as well as upon their relationship with such other elements of narrative as plot, character development, scene development and theme.
Note: Credit will be granted for only one of 310, CW 310.
Prerequisites: Second-year standing.

**WRIT 311** Units: 1.5 Hours: 3-0
Structure in Stage Drama
A lecture course surveying the structural characteristics of stage drama.
Note: Credit will be granted for only one of 311, CW 311.
Prerequisites: Second-year standing.

**WRIT 312** Units: 1.5 Hours: 3-0
Structure in Cinema and Television Drama
A lecture course surveying the structural characteristics of screen drama, making use of published film and television scripts, and of actual films.
Note: Credit will be granted for only one of 312, CW 312.
Prerequisites: Second-year standing.

**WRIT 313** Units: 1.5 Hours: 3-0
Recurrent Themes
A lecture course surveying recurring themes in film and/or English literature and in other literatures in translation.
Note: Credit will be granted for only one of 313, CW 313. May be repeated once in different content.
Prerequisites: Second-year standing.

**WRIT 314** Units: 1.5 Hours: 3-0
Changing Perspectives
A lecture course surveying the different ways in which writers have tackled similar subject matter, taking its material from film scripts and/or English literature and other literature in translation.
Note: Credit will be granted for only one of 314, CW 314. May be repeated once in different content.
Prerequisites: Second-year standing.

**WRIT 315** Units: 1.5 Hours: 2-1
Advanced Journalism
A lecture/seminar course in the techniques of investigative news-gathering and feature writing.
Note: Credit will be granted for only one of 315, CW 315A, 315B.
Prerequisites: 215.

**WRIT 316** Units: 1.5 Hours: 0-3
Creative Nonfiction Workshop
A workshop in the writing of creative nonfiction.
Note: Credit will be granted for only one of 316, CW 316A, 316B. May be repeated once. May count either toward a Major in Writing or toward a Professional Writing Minor, not both. Class size is limited.
Prerequisites: 204.

**WRIT 317** Units: 1.5 Hours: 0-3
Screenwriting Workshop
A workshop in writing for the screen.
Note: May be taken more than once for credit to a maximum of 3.0 units. Class size is limited.
Prerequisites: 218 or equivalent.

**WRIT 320** Units: 1.5 Hours: 3-0-1
Writing and Film Production Workshop
A workshop/seminar, focusing on teamwork in the development of screenplays into short motion pictures.
Note: May be taken more than once for credit to a maximum of 3.0 units.
Prerequisites: 203 or equivalent.

**WRIT 321** Units: 1.5 Hours: 3-0
Issues in Journalism
An exploration of contemporary topics and techniques in journalism and the media.
Notes: Credit will be granted for only one of 321, 317, if taken in 1998W or 1999W.
- May be taken more than once for credit in different topics.
Prerequisites: Second-year standing.

**WRIT 322** Units: 1.5 Hours: 3-0-1
Magazine Publishing
An introduction to the theory, craft and business of writing, editing and designing magazine stories for print and electronic publication.
Note: Credit will be granted for only one of 322, 216.
Prerequisites: Second-year standing.

**WRIT 325** Units: 1.5 Hours: 3-0-1
Writing for Theatrical Production Workshop
A workshop/seminar focusing on bringing a script from the page to the stage and including a staged reading by students.
Note: May be taken more than once for credit to a maximum of 3.0 units.
Prerequisites: 203 or equivalent.

**WRIT 329** Units: 1.5 Hours: 3-0
International Film Writing
A lecture course surveying film writing in a representative group of films.
Prerequisites: Second-year standing.

**WRIT 330** Units: 1.5 Hours: 3-0
Media and Culture
A lecture course surveying theories and controversies in mass media and popular culture from a writer’s perspective.
Note: May be repeated once with different content and permission of the department.
Prerequisites: Second-year standing.

**WRIT 331** Units: 1.5 Hours: 3-0
Formerly: 231
A Study of Narrative
A lecture course that studies the elements of narrative and how it can play an essential role not only in fiction and drama, but also in poetry and creative nonfiction.
Note: Credit will be granted for only one of 331, 231.
Prerequisites: Second-year standing.

**WRIT 335** Units: 1.5 Hours: 3-0
Forms and Techniques in Short Creative Nonfiction
A lecture course surveying short forms of creative nonfiction.
Prerequisites: Second-year standing.

**WRIT 336** Units: 1.5 Hours: 3-0
Forms and Techniques in Long Creative Nonfiction
A lecture course surveying long forms of creative nonfiction.
Directed Studies in Writing

WRIT 406
Units: 1.5  Hours: 0-3
A workshop in which the students are instructed in the writing of fiction.

Note: May be repeated once. Normally class size is limited.

Prerequisites: 3 units of 304 or equivalent.

WRIT 403
Units: 1.5  Hours: 0-3
Advanced Playwriting Workshop
A workshop in writing for the stage.

Note: May be taken more than once for credit to a maximum of 3.0 units. Normally class size is limited.

Prerequisites: 3 units of 305 or 1.5 units of 305 and 1.5 units of 325 or equivalent.

WRIT 405
Units: 1.5  Hours: 1-2
Multi-Genre Workshop
A seminar and workshop concentrating on the prose poem, dramatic monologue, the personal essay and short-short fiction.

Prerequisites: 3 units from any 300-level workshop.

WRIT 406
Units: 1.5  Hours: 1-2
Writing for Children and Young Adults
This workshop/seminar course will familiarize students with writing for children and young adults.

Prerequisites: Third-year standing.

WRIT 410
Units: 1.5  Hours: 3-0
Special Genres Lecture
An examination of craft in a particular genre, such as nature writing, travel narrative, the prose poem or children’s literature.

Note: May be repeated once in different topics.

Prerequisites: Second-year standing.

WRIT 412
Units: 1.5  Hours: 2-1
Recurrent Themes in Film
A lecture/seminar teaching the craft of writing about film through study of selected directors, film trends, and national cinemas.

Note: May be repeated once in different topics.

Prerequisites: Second-year standing.

WRIT 416
Units: 1.5  Hours: 0-3
Advanced Creative Nonfiction Workshop
A workshop in which the students are instructed in the writing of creative nonfiction.

Note: May be repeated once. Normally class size is limited.

Prerequisites: 3 units of 316.

WRIT 418
Units: 1.5  Hours: 0-3
Advanced Screenwriting Workshop
A workshop in writing for the screen.

Note: May be taken more than once for credit to a maximum of 3.0 units. Normally class size is limited.

Prerequisites: 3 units of 318 or 1.5 units of 318 and 1.5 units of 325 or equivalent.

WRIT 420
Units: 1.5  Hours: 0-3
Film Writing and Production Workshop
An advanced workshop in narrative film writing and the techniques of film production. Focuses on script analysis, screen-directing technique and film production.

Prerequisites: 320.

WRIT 440
Units: 1.5  Hours: 3-0
The Writing Business
A lecture course that prepares students for careers as writers.

Prerequisites: Second-year standing.

WS 104
Units: 1.5  Hours: 3-0
Gender and Social Justice
Considers the way gender (i.e., our idea of what it is to be a “real” woman or man) is constructed across class, race/ethnicity, sexualities, (dis)ability, age and geographical location. Examines diverse spaces of human experience including popular culture, language and work. Also focuses on ways in which feminist activism has empowered individuals to fight for social justice.

Note: Not open to fourth-year students without permission of the department.

WS 203
Units: 1.5  Hours: 3-0
Popular Culture
Introduces North American popular culture. Variable topics include theories and practices of representation, anti-feminist productions of “woman” and popular culture as a site of feminist resistance.

Note: 104 recommended

WS 204
Units: 1.5  Hours: 3-0
Fast Feminisms: Past and Present
Introduces feminist theory. Highlights predominant historical and philosophical influences on and debates within feminism from the mid-20th century to the contemporary.

Note: 104 recommended

WS 205
Units: 1.5  Hours: 3-0
Gender, Food and Culture
A feminist study of gender and foodways - the beliefs and behaviors associated with the production, distribution, preparation and consumption of food. Topics may include: the symbolism and uses of food in particular cultural settings; connections between gender and food in a globalized, North American food system; representations of gendered foodways in literature and film; health, food and disordered eating; the place of commensality in community-building.

Note: 104 recommended
Prerequisites: One of 102, 103, 104, 110; or permission of the department.

WS 206 Units: 1.5 Hours: 3-0
Globalization and Resistance
Inquiry into the implications of the complicated spread of global interdependence in political, economic, and cultural arenas for women’s lived experiences. Also explores women’s challenges to economic re-structuring, poverty, militarization, human rights abuses, and the rise of rigid, masculinized ideas of national sovereignty.
Note: Credit will be granted for only one of 206, 312.
Prerequisites: One of 102, 103, 104, 110; or permission of the department.

WS 207 Units: 1.5 Hours: 3-0
Formerly: 102
Indigenous Women in Canada
Examines the ways in which Indigenous women have experienced and resisted the process of colonization in the past and present.
Notes: - Credit will be granted for only one of 207, 102.
- 104 recommended.

WS 208 Units: 1.5 Hours: 3-0
Sex in Space
Introduces students to the relationship between sexuality and space. The course examines the differences between place and space; connections between sexual practice, race, gender, and class; and the interface of discourses of sexuality and spatialization.
Note: 104 recommended.

WS 209 Units: 1.5 Hours: 3-0
Gender and Health, Power and Resistance
Examines gender and health from a feminist intersectional perspective, noting power and resistance. Addresses topics such as the sexual division of health care, the feminization and racialization of health inequalities, environmental racism and the identity politics of health movements.
Note: 104 recommended.

WS 211 Units: 1.5 Hours: 3-0
Contested Girlhoods
Examines changing social constructions of girls and girlhoods in the West as a reflection of tensions in dominant social norms, moral concerns and political economy. Explores debates in feminist girlhood studies about contemporary girlhood cultures and discourses.
Note: 104 recommended.

WS 219 Units: 1.5 Hours: 3-0
Topics in Women’s Studies
Variable content course on aspects of Women’s Studies.
Notes: - May be taken more than once in different topics.
- 104 recommended

WS 311 Units: 1.5 Hours: 3-0
Sex Work, Trafficking and Human Rights
Within the context of the global economy, examines current debates about sex work as well as transnational migration and trafficking of women into various sites, including the sex industry. Two foci are the complex interface of race, class, gender and sexuality in the international division of labour, as well as policy and grassroots responses to these phenomena at the national and international levels.
Prerequisites: One of 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 219; or permission of the department.

WS 313 Units: 1.5 Hours: 3-0
Gender, Globalization and the Love Industry
Examines the evolution of the romance industry through the highly symbolic commodities chocolate, diamonds and flowers. Topics include the gendered and imperial relationship between consumers and producers and the role of advertising in shaping desire.
Note: 104 and/or 205 recommended.
Prerequisites: Second-year standing or permission of the department.

WS 314 Units: 1.5 Hours: 3-0
Imagining India from Empire to Bollywood
Introduction to the complex and often problematic relationship between women, race, and colonialism. Examines issues such as the implications of race and sex in European imperialism, the problematic positioning of white women in empires and the possibility of creating a post-colonial space for feminism. Although the broad sweep of European imperial power will be acknowledged, there will be a special focus on British imperialism in India. Considers political, literary, and filmic perspectives.
Prerequisites: Second-year standing or permission of the department.

WS 315 Units: 1.5 Hours: 3-0
Gender and International Human Rights
An interdisciplinary examination of the ways in which international human rights theories, organizations, laws, and practice are gendered, racialized, sexualized, and class based, and their effects on freedom, equality, and dignity in the international system. Analyzes the history and development of ideas/definitions of “rights” and how feminists have challenged these definitions. Emphasizes the interconnectedness of the global and local through a multitude of topics, including culture, human security, civil and political liberties, and labour rights.
Note: Credit will be granted for only one of 315, 319 (if taken in the same topic).
Prerequisites: Second-year standing or permission of the department.

WS 316 Units: 1.5 Hours: 3-0
Gender and International Development
Examines the evolution of feminist responses to and critiques of mainstream development policies and theories of international development as practiced by international organizations such as the World Bank, the International Monetary Fund, and the United Nations. Topics may include the environment, health, education, poverty, and empowerment strategies.
Note: Credit will be granted for only one of 316, 319 (if taken in the same topic).
Prerequisites: Second-year standing or permission of the department.

WS 317 Units: 1.5 Hours: 3-0
Sexuality and the Body in International Development
Examines the variety of ways that bodies are positioned in international development discourse and policy. Topics include HIV/AIDS, reproductive rights, maternal health, disabled bodies, violated bodies, sexualities, techno-bodies and care labour.
Note: 315 and/or 316 recommended.
Prerequisites: Second-year standing or permission of the department.

WS 319 Units: 1.5 Hours: 3-0
Topics in Economies, States and Global Issues
Variable content course on aspects of economies, states and global issues as they pertain to women’s lives.
Note: May be taken more than once for credit in different topics with permission of the department.
Prerequisites: Second-year standing or permission of the department.

WS 321A Units: 1.5 Hours: 3-0
Topics in Queer Theory
Introduces queer theory. Topics may include identity politics, practice, class and culture.
Note: May be taken more than once for credit in different topics with permission of the department.
Prerequisites: Second-year standing or permission of the department.

WS 322 Units: 1.5 Hours: 3-0
Gender, Law and Resistance in Historical Perspective
Focusing mainly on North America, examines the historical relationship between women and the changing regulatory practices of the state and the criminal justice system. Places special emphasis on exploring how these regulatory practices and women’s resistances to them were shaped by gender, class, race, ethnicity and sexuality.
Prerequisites: Second-year standing or permission of the department.

WS 323A Units: 1.5 Hours: 3-0
The Medicalization of Sex
Examines the history of the medicalization of sex and gender, and the construction of gender identities and sexualities in the context of medical and social discourse.
Prerequisites: Second-year standing or permission of the department.

WS 324A Units: 1.5 Hours: 3-0
Girl Power and Feminisms
What is at stake in girl power? Examines girl power in film, music, video, the internet, fiction, spoken word poetry, magazines and everyday popular culture. Explores diverse girl cultures as a source for new feminisms and activism, girl power as resistance and regulation and the construction of girl subjectivities through girl power.
Prerequisites: Second-year standing or permission of the department.

WS 325 Units: 1.5 Hours: 3-0
Women in Contemporary India
Examines the history of the Indian women’s movement (with emphasis on women’s participation in the Indian national liberation struggle) and contemporary issues that define Indian feminism. Cultural critique of the manner in which Indian women have been represented in the West will form the context of such exploration.
Prerequisites: Second-year standing or permission of the department.

WS 326 Units: 1.5 Hours: 3-0
Gender, Nation and War
Examines how the social construction of gender has influenced ideas of nation. Focuses on two main issues. One, the relations between culturally endorsed concepts of masculinity and femininity, nation, and female participation in nationalist politics. Two, the manner in which the link between gender

**Prerequisites:**
- Second-year standing or permission of the department.
- Third-year standing or permission of the department.
- Second-year standing or permission of the department.
- Credit will be granted for only one of 339, 336, 335A or 339 (if taken in the same topic).
- Second-year standing or permission of the department.
- Third-year standing or permission of the department.
- Any one of 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 219, or permission of the department.
- Credit will be granted for only one of 330A, 339, 336, 331.
- One of 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 219; or permission of the department.
- One of 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 219, plus any three upper-level WS courses; or permission of the department.
- May be taken more than once for credit in different topics with permission of the department.
- May be taken more than once for credit in different topics with permission of the department.
- Open to Women's Studies Honours or majors with permission of the department.
- Open only to Women's Studies Major or Honours students. Admission by permission of the department. Students must notify the department by April 30 in the previous academic year of their intention to register.
- A survey of lesbian and queer literature. Particular focus on intersections of sexuality, gender and class.
WS 499 Units: 3.0 Hours: 3-0
Honours Graduating Essay
During the final year of the Honours Program, students will write a graduating essay of approximately 15,000 words under the direction of a member of the Women's Studies Department. Between September and April students are required to meet periodically as a group to discuss research challenges.

Note: Students must have their topic approved by the thesis adviser by June 30 prior to the fall term of their 499 registration. See regulations for acceptance into Women's Studies Honours Program.
The University of Victoria
Generic Goals of a University Education

Higher Learning
Higher learning develops comprehension and appreciation of human knowledge and creative expression in their diverse manifestations and cultural contexts. Such development takes place both within and across specific disciplines.

Habits of Thought
Higher learning encourages habits of analytical, critical and strategic thought. These habits are characterized by respect for facts, ethical awareness and wise judgement in human affairs.

Discovery and Creativity
Higher learning stimulates discovery and creativity in scholarly, scientific, artistic and professional activity. This stimulus drives the acquisition of knowledge and its dissemination to others.

Forms of Communication
Transmission of knowledge to others assumes lucid and coherent communication, in both traditional and innovative forms, in an atmosphere of mutual respect. Modes of expression may include the written, oral, auditory, visual and digital.

Extended Learning
Learning is the work of a lifetime. University education generates the desire for further growth while providing a field of intellectual and practical opportunities for later fulfillment.

Historical Outline
The University of Victoria came into being on July 1, 1963, but it had enjoyed a prior tradition as Victoria College of sixty years distinguished teaching at the university level. This sixty years of history may be viewed conveniently in three distinct stages.

Between the years 1903 and 1915, Victoria College was affiliated with McGill University, offering first- and second-year McGill courses in Arts and Science. Administered locally by the Victoria School Board, the College was an adjunct to Victoria High School and shared its facilities. Both institutions were under the direction of a single Principal: E.B. Paul, 1903-1908; and S.J. Willis, 1908-1915. The opening in 1915 of the University of British Columbia, established by Act of Legislature in 1908, obliged the College to suspend operations in higher education in Victoria.

In 1920, as a result of local demands, Victoria College began the second stage of its development, reborn in affiliation with the University of British Columbia. Though still administered by the Victoria School Board, the College was now completely separated from Victoria High School, moving in 1921 into the magnificent Dunsmuir mansion known as Craigdarroch. Here, under Principals E.B. Paul and P.H. Elliott, Victoria College built a reputation over the next two decades for thorough and scholarly instruction in first- and second-year Arts and Science.

The final stage, between the years 1945 and 1963, saw the transition from two year college to university, under Principals J.M. Ewing and W.H. Hickman. During this period, the College was governed by the Victoria College Council, representative of the parent University of British Columbia, the Greater Victoria School Board, and the provincial Department of Education. Physical changes were many. In 1946 the College was forced by post-war enrolment to move from Craigdarroch to the Lansdowne campus of the Provincial Normal School. The Normal School, itself an institution with a long and honourable history, joined Victoria College in 1956 as its Faculty of Education. Late in this transitional period (through the co-operation of the Department of National Defence and the Hudson’s Bay Company) the 284 (now 385) acre campus at Gordon Head was acquired. Academic expansion was rapid after 1956, until in 1961 the College, still in affiliation with UBC awarded its first bachelor’s degrees.

In granting autonomy to the University of Victoria, the University Act of 1963 vested administrative authority in a Chancellor elected by the Convocation of the University, a Board of Governors, and a President appointed by the Board; academic authority was given to a Senate which was representative both of the faculties and of the Convocation.

The historical traditions of the University are reflected in the Arms of the University, its academic regalia and its house flag. The BA hood is of solid red, a colour that recalls the early affiliation with McGill. The BSc hood, of gold, and the BEd hood, of blue, show the colours of the University of British Columbia. Blue and gold have been retained as the official colours of the University of Victoria. The motto at the top of the Arms of the University, in Hebrew characters, is “Let there be Light”; the motto at the bottom, in Latin, is “A Multitude of the Wise is the Health of the World.”

Principal Officers and Governing Bodies
The following were the university’s principal officers and members of its governing bodies as of January 1, 2012.

Chancellor
Murray Farmer, BA

President and Vice-Chancellor
David H. Turpin, CM, BSc, PhD, FRSC

Vice-President Academic and Provost
Reeta Tremblay, BA, MA, MPhil, PhD

Vice-President Research
J. Howard Brunt, BA, ADN, MScN, PhD

Vice-President Finance and Operations
Gayle Gorrill, BBA, CA, CBV

Vice-President External Relations
Valerie Kuehne, BScN, MEd, MA, PhD

University Secretary
Julia Eastman, BA, MA, PhD

Board of Governors

Ex Officio Members
Chancellor Murray Farmer, BA
President and Vice-Chancellor David H. Turpin, CM, BSc, PhD, FRSC

Members Appointed by the Lieutenant Governor in Council
Jane Butler McGregor, BA
Anthony Gage, BA, MBA, CFA, C. Dir
Michael Kennedy, BSc
Lindsay LeBlanc, BComm, LLB
Susan Mehnigic, BCom, LLB, FCA
Erich Mohr, PhD, RPsych
Raymond Pratt, BA, MA
Beverly Van Ruyven, BA

Members Elected by the Faculty Members
Peter Driessen, BSc, PhD, PEng
Barbara Whittington, BA, MSW

Members Elected by the Student Associations
Jenn Bowie, BA
Tara Patterson

Members Elected by and from full-time Employees of the University who are not Faculty Members
Nav Bassi, BSc, MBA, PMP

Secretary
Julia Eastman, BA, MA, PhD, University Secretary

Senate

Ex Officio Members
Chancellor, Murray Farmer, BA
President and Vice-Chancellor (Chair), David Turpin, CM, BSc, PhD, FRSC
Vice-President Academic and Provost, Reeta Tremblay, BA, MA, MPhil, PhD
Vice-President Research, Howard Brunt, BA, ADN, MScN, PhD
Dean of Peter B. Gustavson School of Business, Ali Dastmalchian, BSc, MSc, PhD

Principal Officers and Governing Bodies

Ex Officio Members
Chancellor Murray Farmer, BA
President and Vice-Chancellor David H. Turpin, CM, BSc, PhD, FRSC
Vice-President Academic and Provost Reeta Tremblay, BA, MA, MPhil, PhD
Vice-President Research J. Howard Brunt, BA, ADN, MScN, PhD
Vice-President Finance and Operations Gayle Gorrill, BBA, CA, CBV
Vice-President External Relations Valerie Kuehne, BScN, MEd, MA, PhD
University Secretary Julia Eastman, BA, MA, PhD
Board of Governors
Ex Officio Members
Chancellor Murray Farmer, BA

President and Vice-Chancellor (Chair), David Turpin, CM, BSc, PhD, FRSC
Vice-President Academic and Provost, Reeta Tremblay, BA, MA, MPhil, PhD
Vice-President Research, Howard Brunt, BA, ADN, MScN, PhD
Dean of Peter B. Gustavson School of Business, Ali Dastmalchian, BSc, MSc, PhD
Dean of Education, Ted Riecken, BA, MEd, PhD
Dean of Engineering, Thomas Tiedje, BASc, MSc, PhD, PEng, FRSC
Dean of Continuing Studies, Maureen MacDonald, BA, LLB, MBA, PhD
Dean of Fine Arts, Sarah Blackstone, BA, MA, PhD
Dean of Graduate Studies, Aaron Devor, BA, MA, PhD
Dean of Humanities, John Archibald, BA, MA, TESL Cert., ARCT, ATCL, PhD
Dean of Human and Social Development, Mary Ellen Purkis, BSN, MSc, PhD
Dean of Law, Donna Greschner, BCom, LLB, BCL
Dean of Science, Robert Lipson, BSc, MSc, PhD
Dean of Social Sciences, Peter Keller, BA, MA, PhD (Vice-Chair)
University Librarian, Jonathan Bengtson, BA, MPhil, MA

Members Elected by the Individual Faculties

Business
Kenneth Thornicroft, LLB, PhD
Richard Wolfe, BA, MBA, MA, PhD

Education
Mary Kennedy, BMus, Med, PhD
Geraldine Van Gyn, BA, MSc, PhD

Engineering
Micaela Serra, BSc, MSc, PhD
Yang Shi, BSc, MSc, PhD, PEng

Fine Arts
Patricia Kostek, BSc, MM
Jan Wood, BFA

Graduate Studies
Annalee Lepp, BA, MA, PhD
John Walsh, BGS, MA PhD

Human and Social Development
Abdul Roudsari, BSc, MSc, PhD
Debra Sheets, BA, BSN, MSN, PhD

Humanities
Jamie Dopp, BA, MA, PhD
Cedric Littlewood, BA, MA, DPhil

Law
Gillian Calder, BA, LLB, LLM
Robert Howell, LLB, LLM

Science
Robert Burke, BSc, PhD
Florin Diaconu, MMath, PhD

Social Sciences
Michael Webb, BA, MSc, PhD
Margot Wilson, BA, MA, PhD

Members Elected by the Faculty Members
Doug Baer, BES, MA, PhD
Sikata Banerjee, BA, MA, PhD
Sara Beam, BA, PhD
Gordon Fulton, BA, MA, PhD
Lynda Gammon, BA, MFA
Kathy Gillis, BSc, PhD
Reuven Gordon, BASc, MAsc, PhD
David Harrington, BSc, PhD
Tim Haskett, BA, MA, PhD
Susan Lewis Hammond, BA, BM, MM, MFA, PhD
Adam Monahan, BSc, MSc, PhD
Leslee Francis Pelton, BSc, MA PhD

Members Elected by the Student Societies
Hafeez Ali Dhalla
Chandra Beaveridge
Param Bhatti
Carley Coccola
David Foster
Chris Hackett
Marc Labelle
Melissa Manuel
Jaraad Marani
Yianni Pappas-Acreman
Emily Rogers
Dylan Sherlock
Ali Tehranchi
Ariel Tseng

Members Elected by the Convocation
Nav Bassi, BSc, MBA, PMP
Linda Hannah, MA, PhD
Robyn Lanning, BA, MA
Cathy McIntyre, MBA

Additional Members
Oscar Casiro, MD, Head, Division of Medical Sciences
Rebecca Raworth, BA, ML, Elected by the Professional Librarians
Alicia Ulysses, BA, MA, Continuing Sessional

Secretary of Senate
Julia Eastman, BA, MA, PhD, University Secretary

By Invitation with Speaking Rights
James Dunsdon, BEd, MBA, Associate Vice-President Student Affairs
Catherine Mateer, BA, MSc, PhD, Associate Vice-President Academic Planning
Lauren Charlton, BA, DipED, Registrar
Carrie Andersen, LLB, Associate University Secretary

Foundation for the University of Victoria

Members of the Board
Gayle Gorill, BBA, CA, CBV
Lisa Hill (Chair)
Robert Miller, CA, BA
Carolyn Thoms, CA, CFA

Officers
President: David H. Turpin, CM, BSc, PhD, FRSC
Treasurer: Murray Griffith, BA, CMA
Secretary: Julia Eastman, BA, MA, PhD

University of Victoria Foundation

Members of the Board
Gayle Gorill, BBA, CA, CBV (ex officio)
Lisa Hill (Chair)
Fiona Hunter, BA, LLB, LLM
Tim McElvaine, BComm, CA, CFA
Robert Miller, CA, BA
Michael Mills, FIA, FCIA
Andrew Turner, BComm
Carolyn Thoms, CA, CFA
President David H. Turpin, CM, BSc, PhD, FRSC (ex officio)
Richard Weech, CA, CFA (Vice-Chair)

Officers
President: Ibrahim Inayatali, BEng, MBA
Treasurer: Andrew Coward, BComm, CFA
Secretary: Julia Eastman, BA, MA, PhD

Faculty and Staff Emeritus and Honorary Degree Recipients

Chancellors Emeritus
Ronald Lou-Poy, CM, QC, BCom, LLB, Hon LLD
Norma Mickelson, CM, OBC, BEd, MA, PhD

Presidents Emeritus
Howard E. Petch, BSc, MSc, PhD, DSc, LLD, FRSC
University Regalia

Chancellor
Gown  purple corded silk, trimmed with purple velvet and gold braid
Headdress  Tudor style in purple velvet with gold cord trim

President
Gown  royal blue corded silk, trimmed with blue velvet and gold braid
Headdress  Tudor style in blue velvet with gold cord trim

Chancellor Emeritus
Gown  purple corded silk, with gold velvet panels and trimmed with purple velvet strips edged with gold piping
Headdress  Tudor style in purple velvet with gold cord trim

President Emeritus
Gown  royal blue corded silk, with gold velvet panels and trimmed with blue velvet strips edged with red piping
Headdress  Tudor style in blue velvet with gold cord trim

Board of Governors
Chair
Gown  traditional (Canadian) bachelor's style in black wool blend with front facings and sleeve linings in gold silk
Headdress  Black cloth mortarboard with black silk taffeta or Tudor style in black velvet with gold cord

Member
Headdress and gown as above, but with front facings in black

Honorary Doctorate of Laws (Hon LLD)
Gown  Cambridge (Doctor of Music) pattern, scarlet wool broadcloth, trimmed with blue-purple silk taffeta
Hood  Aberdeen pattern, outside shell of black wool, lined with silk taffeta in a solid colour with a one inch band of black velvet on the outside edge
Headdress  Tudor style in black velvet with red cord trim

Honorary Degree Recipients 2011
Florian, Mary-Lou, DSc, June 2011
Furlong, John, LLD, June 2011
Heuer, Rolf-Dieter, DSc, June 2011
Naxaxalhts'i, McHalsie, Albert (Sonny), LLD, June 2011
Bjerring, Andrew, DSc, November 2011
Gotlieb, Calvin, DEng, November 2011
Tupman, Dennis, LLD, November 2011

Honorary Doctorate
Gown  Cambridge (Doctor of Music) pattern, scarlet wool, front facings and sleeve lining of black silk taffeta
Hood  Aberdeen pattern, outside shell of black wool, lined with silk taffeta in a solid colour with a one inch band of black velvet on the outside edge
- HonDLitt: white
- HonDMus: pink
- HonDEd: blue
- HonDSc: gold
- HonDEng: orange
- HonDSN: apricot
- HonDFA: green

Headdress  Tudor style in black velvet with red cord trim

Bachelors
Gown  traditional (Canadian) bachelor's style, in black
Hood  Aberdeen pattern (BA, BSc, and BEd, without neckband and finished with two cord rosettes; all others with mitred neckpiece), outside shell of silk taffeta in a solid colour, lined with identical material. Faculty colours are as follows:
  - BA: scarlet
  - BFA: green
  - BCom: burgundy
  - BMus: pink
  - BSc: gold
  - BSN: apricot
  - BEd: blue
  - BSW: citron
  - BCYC: turquoise
  - BEng: orange
  - BSEng: pale yellow
  - JD/LLB: blue-purple

Headdress  standard black cloth mortarboard with black silk tassel

Masters
Gown  traditional (Canadian) Master's style in black
Hood  similar in design and colour to the respective bachelor's hoods, but with mitred neckpiece and a narrow band of black velvet one inch from edge of hood on the outside only. Others are:
  - MASC: orange
  - MPA: russet
  - MBA: burgundy
  - MGB: burgundy with a white band

Headdress  standard black cloth mortarboard with black silk tassel

Doctors
Gown  Cambridge style, black silk, front facings and sleeve linings of scarlet silk
Hood  Oxford Doctor's Burgon shape, shell of scarlet silk, lined with blue silk, border of gold silk
Headdress  black velvet mortarboard with red tassel fastened on left side

NOTE: On ceremonial occasions, participants without degrees wear the standard black undergraduate cap and gown as described above for bachelors.
