The University of Victoria operates under the authority of the University Act (RSBC 1996 c. 468) which provides for a Convocation, Board of Governors, Senate and Faculties. The University Act describes the powers and responsibilities of those bodies, as well as the duties of the officers of the University. Copies of this Act are held in the University Library.

The official academic year begins on May 1. Changes in Calendar regulations take effect May 1, September 1, and January 1 of each academic year unless otherwise approved by the Senate. Nevertheless, the University reserves the right to revise or cancel at any time any rule or regulation published in this Calendar or its supplements. The Calendar is published three times per year in the spring (effective May 1), summer (effective September 1) and winter (effective January 1) by the Office of the Registrar, Student Affairs, under authority granted by the Senate of the University.

2015-2016 Academic Year Important Dates

In recognition of the fact that the University of Victoria is a diverse community, the Office of Equity and Human Rights has compiled a list of high holy days available at their website. Faculty and staff may wish to refer to this list in responding to requests from members of religious groups for variations in examination schedules due to religious observances.

2015–2016 Official Academic Year Begins

SUMMER SESSION—2015

See Summer Studies Calendar for complete refund and academic drop dates or visit <www.uvic.ca/summer/home/add-drop-dates>.

May 2015
1 Monday Senate meets
4 Monday May-August courses begin for all faculties
11 Monday May and May-June courses begin.
18 Monday Victoria Day
21 Thursday Senate Committee on Academic Standards meets to approve convocation lists

June 2015
3 Thursday May courses end
4 Thursday June courses begin
8-12 Mon-Fri Spring convocation
26 Friday May-June and June courses end

July 2015
1 Wednesday Canada Day
1-2 Wed-Thur Reading Break May–August sections only
6 Monday July and July-August courses begin
15 Wednesday Deadline to apply to graduate for fall convocation (all faculties)
28 Tuesday July courses end
29 Wednesday August courses begin
29-31 Wed-Fri Supplemental and deferred examinations for Winter Session 2014-2015 (except for Engineering courses)
31 Friday May-August courses end for all faculties

August 2015
3 Monday British Columbia Day
4 Tuesday May-August examinations begin for all faculties
17 Monday May-August examinations end for all faculties
21 Friday July-August and August courses end

WINTER SESSION—FIRST TERM

September 2015
7 Monday Labour Day
8 Tuesday First-year registration and opening assembly for Faculty of Law
9 Wednesday First-term classes begin for all faculties
17 Thursday Last day for course changes in Faculty of Law
22 Tuesday Last day for 100% reduction of second-term fees for standard courses. 50% of tuition fees will be assessed for courses dropped after this date.
25 Friday Last day for adding courses that begin in the first term
30 Wednesday Last day for paying first-term fees without penalty

October 2015
2 Friday Senate meets
12 Monday Thanksgiving Day
13 Tuesday Last day for 50% reduction of tuition fees for standard courses. 100% of tuition fees will be assessed for courses dropped after this date.
21 Wednesday Senate Committee on Academic Standards meets to approve convocation lists
31 Saturday Last day for withdrawing from first-term courses without penalty of failure

November 2015
6 Friday Senate meets
9-11 Mon-Wed Reading Break (except Faculty of Law)
9, 10 Mon, Tues Fall convocation
11 Wednesday Remembrance Day
15 Sunday Faculty of Graduate Studies deadline to apply to graduate for spring convocation (students completing in the fall term only)

December 2015
3 Thursday Last day of classes for Faculty of Law
4 Friday Senate meets
7 Friday Last day of classes in first term except Faculty of Law and Faculty of Human and Social Development
15 Tuesday National Day of Remembrance and Action on Violence Against Women. Classes and exams cancelled from 11:30 am to 12:30 pm.
17 Monday First-term examinations begin, except Faculty of Human and Social Development
21 Monday Undergraduate deadline to apply to graduate for spring convocation
25 Monday First-term examinations end for all faculties
26 Saturday Boxing Day
25 Dec-Jan University closed

2016-2017 Official Academic Year Begins

WINTER SESSION—SECOND TERM

January 2016
1 Friday New Year’s Day
4 Monday Second-term classes begin for all faculties
8 Friday Senate meets
14 Thursday Last day for course changes for Faculty of Law
17 Sunday Last day for 100% reduction of second-term fees for standard courses. 50% of tuition fees will be assessed for courses dropped after this date.
20 Wednesday Last day for adding courses that begin in the second term
31 Sunday Last day for paying second-term fees without penalty

February 2016
5 Friday Senate meets
7 Sunday Last day for 50% reduction of tuition fees for standard courses. 100% of tuition fees will be assessed for courses dropped after this date.
8 Monday Family Day
14 Monday Labour Day
15 Monday Senate meets
18 Thursday Last day for course changes in Faculty of Law
21 Monday Family Day
22 Tuesday Winter Session 2014-2015
26 Saturday Family Day
28 Monday Easter Monday

March 2016
4 Friday Senate meets
25 Friday Good Friday
28 Monday Easter Monday

April 2016
1 Friday Senate meets
4 Monday Last day of classes for Faculty of Law
5 Monday Last day of classes for all faculties, except Faculty of Human and Social Development and Faculty of Law
7 Thursday Examination begin for Faculty of Law
15 Monday Faculty of Graduate Studies deadline to apply to graduate for spring convocation (students completing in the Spring term only)
29 Monday Last day for withdrawing from full-year and second-term courses without penalty of failure

2016-2017 Official Academic Year Begins

SUMMER SESSION—2016

See Summer Studies website for complete dates: <www.uvic.ca/summer>.

May 2016
2 Monday May-August courses begin for all faculties
6 Friday Senate meets
9 Monday May and May-June courses begin
9, 10 Mon, Tues Fall convocation
13-17 Mon-Fri Spring convocation
24 Friday May-June and June courses end
30-1 Thur-Fri Reading Break, May-August sections only

June 2016
1 Wednesday May courses end
2 Thursday June courses begin
3 Friday Thanksgiving Day
10 Tuesday Victoria Day
17 Friday Canada Day
24 Monday Labour Day
30 Sunday Labor Day
IMPORTANT DATES

July 2016
1 Friday Canada Day 
4 Monday July and July-August courses begin
15 Friday Deadline to apply to graduate for fall convocation (all faculties)
26 Tuesday July courses end
27 Wednesday August courses begin
27-29 Wed-Fri Supplemental and deferred examinations for Winter Session 2015-2016 (except for Engineering courses)
29 Friday May-August classes end for all faculties

August 2016
1 Monday British Columbia Day 
2 Tuesday May-August examinations begin for all faculties
16 Tuesday May-August examinations end for all faculties
19 Friday July-August and August courses end

1. Classes are cancelled on all statutory holidays and during reading breaks. Administrative offices and academic departments are closed on statutory holidays. Holidays that fall on a weekend are observed on the next available weekday, normally on a Monday. The UVic Libraries are normally closed on holidays; exceptions are posted in advance.
2. Faculty of Human and Social Development dates to be announced.
3. See Faculty of Law for more details regarding Summer Session important dates.
4. For non-standard courses see <www.uvic.ca/current-students/home/academics/courses>.
Known for excellence in teaching, research, and service to the community, the University of Victoria serves over 20,000 students. It is favoured by its location on Canada’s spectacular west coast, in the capital of British Columbia.
Information for All Students

Academic Sessions
The Winter Session is divided into two terms: the first, September to December; the second, January to April. The period May through August is the Summer Session.

Credit courses offered in the Summer Session period (May-August) are listed on the Summer Session website at www.uvic.ca/summer in late February. Off-campus courses, courses offered at the Bamfield Marine Sciences Centre and summer travel study programs are also listed on the website. Academic rules and regulations published in the main University Calendar apply to students taking courses in the Summer Session period.

The University reserves the right to cancel courses when enrolment is insufficient.

For information, contact:
Manager—Curriculum and Calendar
Office of the Registrar, Student Affairs
University Centre
Phone: 250-721-8471; Fax: 250-721-6225
Email: calendar@uvic.ca
Website: www.uvic.ca/summer

Calendar Changes
The official academic year begins on May 1. Changes in calendar regulations normally take effect with the beginning of the Summer Session on May 1. Nevertheless, the University reserves the right to revise or cancel at any time any rule or regulation published in the Calendar or its supplements.

The Calendar does not include information on when courses will be offered. Up-to-date timetable information is available from individual department offices and from the Office of the Registrar (OREG) website www.uvic.ca/registrar. Amendments to the timetable are incorporated into the Web TimeTable, which is accessible at the website: www.uvic.ca/timetable.

Course Values and Hours
Each course offered for credit has a unit value. A full-year course with three lecture hours per week through the full Winter Session from September to April normally has a value of 3 units. A half-year course with three lecture hours per week from September to December or from January to April normally has a value of 1.5 units. A 3-unit course (3 hours of lectures per week throughout the Winter Session) approximates a 6 semester-hour or a 9 quarter-hour course. A course of 1.5 units approximates a 3 semester-hour or a 4.5 quarter-hour course.

Course Experience Survey (CES)
Towards the end of every course at the University of Victoria, all students will have the opportunity to complete a brief, anonymous, online survey on their experience as a student in the course. The purpose of the CES is to provide feedback to the instructor, the department and the university as a means to improve and sustain the quality of teaching, course design, and program development. The University regards it as a student’s responsibility to provide such feedback in order to support the constant improvement of programs for future students. Instructions to students will be provided for each course to obtain access to the survey via laptop, tablet, or mobile device.

Student Cards
All students require a current University of Victoria Identification Card. The card is the property of the University and must be presented upon request as proof of identity at University functions and activities. The electronic/digital records of the student card may be used for administrative functions of the University, including but not limited to, examinations, instruction, and campus security. Photo ID cards can be obtained, 24 hours following registration, at ONE-Card, University Centre Lobby.

Limit of the University’s Responsibility
The University of Victoria accepts no responsibility for the interruption or continuance of any class or course of instruction as a result of an act of God, fire, riot, strike or any cause beyond the control of the University of Victoria.

Program Planning
Students are responsible for the completeness and accuracy of their registrations and for determining the requirements of their program at UVic. Please read the Calendar for information about programs and courses. Further information about program regulations or requirements is available from the appropriate faculty advising service or department.

Protection of Privacy and Access to Information
All applicants are advised that both the information they provide and any other information placed into the student record will be protected and used in compliance with the BC Freedom of Information and Protection of Privacy Act (1992).

Notification of Disclosure of Personal Information to Statistics Canada
Statistics Canada asks all colleges and universities to provide data on students and graduates, including student identification information (student's name, student ID number, Social Insurance Number [where on file]), student contact information (address and telephone number), student demographic characteristics, enrolment information, previous education, and labour force activity. The information may be used for statistical purposes only, and the confidentiality provisions of the Statistics Act prevent the information from being released in any way that would identify a student.

Students who do not wish to have their information used can ask Statistics Canada to remove their identifying information from the national database.

Schedule of Classes (Timetable)
The schedule of graduate and undergraduate classes for the Winter Session is available from the Web TimeTable, which is accessible at the website www.uvic.ca/timetable.

University’s Right to Limit Enrolment
The University reserves the right to limit enrolment and to limit the registration in, or to cancel or revise, any of the courses listed. The curricula may also be changed, as deemed advisable by the Senate of the University.

General University Policies
Students should check the Calendar entries of individual faculties for any additional or more specific policies.

Policy on Human Rights, Equity and Fairness (GV0200)
The University of Victoria is committed to promoting, providing and protecting a positive, supportive and safe learning and working environment for all its members.

Accommodation of Religious Observance (AC1210)
The University recognizes its obligation to make reasonable accommodation for students whose observance of holy days might conflict with the academic requirements of a course or program. Students are permitted to absent themselves from classes, seminars or workshops for the purposes of religious or spiritual observance. In the case of compulsory classes or course events, students will normally be required to provide reasonable notice to their instructors of their intended absence from the class or event for reasons of religious or spiritual observance. In consultation with the student, the instructor will determine an appropriate means of accommodation. The instructor may choose to reschedule classes or provide individual assistance.

Where a student’s participation in a class event is subject to grading, every reasonable effort will be made to allow the student to make up for the missed class through alternative assignments or in subsequent classes. Students who require a rescheduled examination must give reasonable notice to their instructors. If a final exam cannot be rescheduled within the regular exam period, students may request an academic concession.

To avoid scheduling conflicts, instructors are encouraged to consider the timing of holy days when scheduling class events.

A list of days of religious observances is available at the following website: web.uvic.ca/eqhr.

Discrimination and Harassment Policy (GV0205)
The University of Victoria is committed to providing an environment that affirms and promotes the dignity of human beings of diverse backgrounds and needs. The Policy prohibits discrimination and harassment and affirms that all members of the University community—it's students, faculty, staff, and visitors—have the right to participate equally in activities at the University without fear of discrimination or harassment. Members of the University community are expected to uphold the integrity of the Policy and to invoke its provisions in a responsible manner. All persons within the University who are affected by the Policy, particularly the parties to a complaint, are expected to preserve the degree of confidentiality necessary to ensure
the integrity of the Policy, the process described in the Policy, and collegial relations among members of the University community. The Policy is to be interpreted in a way that is consistent with these goals, with the principles of fairness, and with the responsible exercise of academic freedom.

The Policy addresses discrimination, including adverse effect discrimination, and harassment, including sexual harassment, on grounds protected by the British Columbia Human Rights Code. Prohibited grounds for discrimination are race, colour, ancestry, place of origin, political belief, religion, marital status, family status, physical or mental disability, sex (including gender identity), sexual orientation, age, or conviction of a criminal offence when unrelated to employment. The Policy also addresses personal harassment.

The Discrimination and Harassment Policy and Procedures are administered by the Equity and Human Rights Office. Persons who experience or know of harassment or discrimination may contact the Office by phoning 250-721-8786 for confidential advice and information. Definitions are included in the Discrimination and Harassment Policy and Procedures (Policy GV0205) which can be found on the office website, <www.uvic.ca/ehrs>.

Creating a Respectful and Productive Learning Environment

The University of Victoria is committed to promoting critical academic discourse while providing a respectful and productive learning environment. All members of the university community have the right to experience, and the responsibility to help create, such an environment. In any course, the instructor has the primary responsibility for creating a respectful and productive learning environment in a manner consistent with other university policies and regulations. Instructors or students who have unresolved questions or concerns about a particular learning environment should bring them to the Chair or Director of the unit concerned (or Dean, in the case of undepartmentalized faculties).

Graduate students are encouraged to familiarize themselves with the Responsibility in the Supervisory Relationship Policy available at <www.uvic.ca/graduates/assets/docs/policies/SupervisoryRelationshipJun10.pdf>.

Student Discipline

A student or former student may be reported to the President for disciplinary action and may be suspended, subject to appeal to the Senate, for misconduct, including but not limited to such matters as a breach of University regulations or policy, for example, Acceptable Use of Electronic Information Resources (Policy IM7200), Discrimination and Harassment Policy (and Associated Procedures) (GV0205), Violence and Threatening Behaviour Policy (SS9105), a breach of a provision in the University Calendar, or a violation of provincial law or a law of Canada. In particular, a student may be reported for unlawfully entering a building or restricted space on University property, providing false information on an application for admission or other University document, submitting a falsified transcript or other document or participating in hazing, which is prohibited by University regulation.

Academic Services

Academic Advising

Each undergraduate faculty provides academic advising services for students contemplating studies at the undergraduate level. Contact information for the academic advising services is listed on page 4 and in the individual faculty entries in this Calendar. Students are encouraged to read the appropriate Calendar entries for the faculty, department and program they wish to enter in order to determine prerequisites and other program requirements.

Students planning graduate studies at UVic should contact the Graduate Adviser in the department they wish to enter.

Co-operative Education Program and Career Services

The Co-operative Education Program and Career Services offers an integrated career-related service to students, employers, faculty and staff. For Career Services, our mission is to support student success through career development expertise and by facilitating connections among students, alumni, employers and other community members.

Services Offered
- individual coaching and group sessions on exploring career options, connecting with career and work opportunities and managing career transitions are available to all current students, new graduates and alumni
- tips on resume, CV and cover letter preparation; interviews and work search
- online postings for part-time, summer, career and on-campus opportunities
- career resource library
- career fairs, career forums and employer information sessions
- registration in the casual job registries
- use of computers for work search purposes

Career Services’ information is also displayed on notice boards around campus and on the Career Services’ website.

Campus Services Building
Hours: Mon–Fri 8:30–4:30
Phone: 250-721-8421
Web: <www.uvic.ca/coopandcareer>

English as a Second Language

The English Language Centre offers a number of programs to assist non-native speakers to participate in an English-speaking academic setting with confidence. For details, visit <www.uwvs.uvic.ca/elc/about-elc>. Additionally, the Department of Linguistics offers a non-credit course in English for students whose native language is not English. For details, see LING 099 in the course listings of the undergraduate Calendar.

The Learning and Teaching Centre

The Learning and Teaching Centre’s mission at the University of Victoria is to inspire, support and promote excellence in learning and teaching university-wide in order to enhance the educational experience for everyone. Core activities include academic unit program curriculum design/redesign and learning outcomes development; support for instructors and faculty at all career levels; professional development for TAs and graduate students; innovative instructional methods; advocacy for fair, effective, transparent and developmentally-focused teaching assessment for instructors, and learning assessment for students; and administration of the Jamie Cassels Undergraduate Research Awards (JCURA), the Centre for Academic Communication (which includes the former Writing Centre), the Math and Stats Assistance Centre and a variety of grants for instructional improvement.

Support for student academic success includes:

The Centre for Academic Communication (CAC)

Learning Commons, McPherson Library
Phone: 250-853-3675
Web: <ctc.uvic.ca/servicesprograms/tcw.php>

The CAC, formerly the Writing Centre, supports undergraduate and graduate students in developing their academic communication skills. These skills including writing and reading in an academic environment as well as understanding the expectations of academic work and presentations in work verbally or in writing. We provide programming through one-on-one appointments, workshops, and drop-in zones. Whether you are just getting started or nearly done your assignment, paper, or award application, our staff can provide valuable guidance. We can also provide individual learning consultations to help you maximize your use of CAC supports and services. Please see our website for more information.

The Mathematics and Statistics Assistance Centres

Whether you are a Math whiz or a student struggling with a required math course for your major, the Mathematics and Statistics Assistance Centres (AC) are available to enhance and support your learning in the mathematical sciences. At the Centres you will find free, high quality, one-on-one drop-in support for all UVic first and second year Mathematics and Statistics courses. Each Centre hosts a team of skilled graduate and undergraduate student tutors ready to help you on a first-come-first-served basis. The Centres (jointly run in partnership with the Department of Math and Stats) currently have two permanent locations on campus: the McPherson Library Learning Commons, Room 129 and in the David Turpin Building, DTB A202. Schedules for each term, along with additional information about the Centres may be found at <www.math.uvic.ca/~msassist>.

UVic Libraries

UVic Libraries support teaching, learning and research at the University of Victoria by providing expert and innovative access to the world’s recorded knowledge.

The UVic Libraries website at <uvic.ca/library> provides access to print and online resources, including electronic journals, indexes and databases. UVic Libraries’ website also offers a wide range of online user services, such as renewal and recall of items, reference help and
interlibrary loans. The website is available at over 200 workstations in the libraries and can be accessed from home and the office 24 hours a day.

Facilities include individual and group study seating for over 1,500 students. Wireless Internet access is available in the Mearns Centre for Learning—McPherson Library, the Priestly Law Library and the Curriculum Library. Facilities are provided for the use of audio-visual, microform and CD-ROM materials, and a Learning Commons includes workstations with word-processing, spreadsheet and presentation software. An experienced staff is available to assist students and faculty in finding the most advantageous of UVic Libraries' resources. Individual or group instruction is available upon request. An Infoline Service is available for students enrolled in Distance Education credit courses who are located off campus.

Collectively, UVic Libraries house over 2.1 million print volumes, 1.4 million microform items, 21,000 cartographic items, 137,000 serial subscriptions, 41,000 sound recordings, 33,000 music scores, 11,000 films and videos and 1,600 linear metres of manuscripts and archival material.

Mearns Centre for Learning—McPherson Library: Contains all of the library's collections (except Law and Curriculum resources), as well as reserve materials, cartographic materials, music and media materials, microforms, Special Collections and the University Archives.

Diana M. Priestly Law Library (Fraser Building): Contains over 182,000 books, journals and federal and provincial parliamentary and legislative materials, and over 300,000 microforms of primary and secondary historical legal materials.

Curriculum Library (MacLaurin Building): Primarily serves the learning, teaching and research needs of Education students. Resources include print materials, media materials, and specialized collections.

University of Victoria Legacy Art Galleries
UVic is home to one of Canada's largest university art collections, with over 20,000 artworks including decorative and applied arts with a European emphasis and Canadian art with a West Coast emphasis. The collections are showcased at the Legacy Art Gallery, located downtown at 630 Yates Street, at the Legacy Maltwood in the Mearns Centre for Learning in the McPherson Library, and in a range of locations across campus and in the community. These collections provide a rich resource for teaching and research. Further information on Legacy Art Galleries and its collections is available online at <legacy.uvic.ca> or from the Legacy Art Gallery at 250-721-6562.

Legacy Art Gallery, Downtown
630 Yates Street
Hours: Wed-Sat 10:00-4:00
Phone: 250-721-6562
web: <legacy.uvic.ca>
email: legacy@uvic.ca

Situated off-campus in downtown Victoria, the Legacy offers a welcoming contemporary art gallery. The Legacy fulfills the vision of Victoria businessman Michael C. Williams, who bequeathed most of his estate, including more than 1,100 art works, to the University of Victoria after his death in 2000. Williams passionately believed his art collection should become a shared treasure, to be enjoyed by everyone, free of charge. The Legacy exists to share that wealth and to feature works from the University's other collections.

University of Victoria Legacy Art Galleries
630 Yates Street
Hours: Wed-Sat 10:00-4:00
Phone: 250-721-6562
web: <legacy.uvic.ca>

University Publications
Graduate Student Viewbook
Provides information about UVic graduate programs offered and the procedures to follow to apply for admission. Available at <www.uvic.ca/assets/documents/pdfs/UVicGraduateViewbook.pdf>.

Undergraduate Student Viewbook
Designed for undergraduate students both domestic and international. Provides an overview of UVic, including student profiles, international opportunities, services for students, athletics, recreation and clubs, finances, programs, admission requirements and application procedures.

Continuing Studies Calendar
Lists non-degree programs; issued in the fall and spring. Available at <www.uvcs.uvic.ca/).

Indigenous Student Handbook
Provides an overview of programs and services that may be of particular interest to Indigenous applicants, including student and faculty profiles.

Distance Learning and Immersion Course Guide for Off Campus Students
Lists credit and certificate offerings available to off campus students. Available at <www.uvic.ca> under “Academic Calendars”.

Student Health 101
A monthly e-magazine, coordinated by Health Services, that covers a variety of topics related to health and wellness. Registered students are alerted by email for access to the monthly issue.

E-News Bulletin
A bulletin announcing changes in admission regulations or procedures, new programs and items of general interest. The E-News Bulletin is distributed to Canadian schools and colleges 6 to 8 times a year.

Pre-professional Guide
A guide for students who plan to complete some studies at UVic before transferring to another institution in order to complete a professional program such as dentistry, medicine, optometry, etc.

Malahat Review
An international quarterly of contemporary poetry, short fiction, creative nonfiction, and reviews, edited by John Barton. For information about contests, submissions, and subscriptions, visit <www.malahatreview.ca>.

The Ring
The Ring is UVic's community newspaper, distributed on campus eight times each year, free of charge. The Ring website features regular updates at <ring.uvic.ca>.

UVic Torch Alumni Magazine
Published biannually by the Division of External Relations and the UVic Alumni Association, and mailed to alumni free of charge.

University Systems
University Systems (Systems) provides technology and support for UVic students. Your NetLink ID, created during your application to UVic, is your key to accessing computing services at UVic such as:
- My page: Register for courses <uvic.ca/mypage>
- Email: Your @uvic.ca email account <uvic.ca/email>
- CourseSpaces: Online learning systems <coursespaces.uvic.ca>
- Online Academic Community: Courses, clubs, and other community pages <aac.uvic.ca>
- UVic wireless network: Wireless Internet access <uvic.ca/airnet>
- Computer labs: Windows or Mac workstations <uvic.ca/systems/facilities>

If you have forgotten your NetLink password, you can reset it at <uvic.ca/accounts>.

The Computer Help Desk is your single point of contact for assistance with services offered by University Systems. There are Computer Help Desks located in the Clearihue, Business & Economics, and Human & Social Development buildings equipped with Windows and Mac workstations for student use, pay-for-printing facilities, scanners, photocopiers, and a vast software library to support your coursework. There are also Computer Help Desks in the McPherson Library, the UVic Bookstore, the Technology Solutions Centre in Clearihue C143, and in Clearihue A004. The Help Desk can help you solve technology problems including issues with UVic services such as your NetLink ID or UVic wireless, software assistance with products such as Microsoft Office, and computer hardware repair such as data recovery or in-warranty repair of Apple products by our Apple-certified technicians. See <uvic.ca/systems> for our Service Catalogue and more information.

Computer Help Desk
Phone: 250-721-7687
Toll free: 1-844-721-7687
Web: <www.uvic.ca/systems>
Twitter: @uvichelpdesk
Student Affairs
These administrative units of the university help students maintain their physical, social, emotional, spiritual and financial well-being as they pursue their academic and career goals at UVic.

Athletics and Recreation
McKinnon Building
Phone: 250-721-8406
Web: <www.athrec.uvic.ca>
Vikes Athletics and Recreation provides a comprehensive program of sports and recreation for UVic students.

Athletics
The Athletics program is available to full-time students at UVic. Through the program, athletically gifted student-athletes are provided with high quality coaching and high levels of competition that permit them to pursue athletic excellence while studying at UVic. Sports currently offered for men and women include: basketball, cross-country/track, field hockey, golf, rowing, rugby, soccer and swimming. UVic teams participate in Canadian Interuniversity Sport (CIS), Canada West University Athletic Association (CWUA), as Independents in the National Association of Intercollegiate Athletics (NAIA) and in various high-level leagues in southwest British Columbia. Visit <www.govikesgo.com> for details.

Recreation
Vikes Recreation is your campus starting point for fitness and recreation, providing specific programs and services designed to meet the needs of students throughout the year. Vikes Recreation is committed to providing a wide variety of programs and services, including: One of the largest fitness weight centres in Western Canada, convenient aquatics and fitness classes including yoga, martial arts, dance, a competitive and social intramurals program, various sports and recreation clubs and an Outdoor Recreation Resource Centre. Visit <vikesrec.uvic.ca> for more information.

Recreation Facilities
Use of the facilities and participation in the programs of Athletics and Recreation is open to students and to faculty and staff who have acquired a Vikes Recreation membership card. Faculty memberships for faculty, staff and students are also available.
The campus has several playing fields, including artificial turf fields, Centennial Stadium (4500 seats), tennis courts and miles of jogging trails through the woods and along Cadboro Bay. The Simpson Property and the Elk Lake Rowing Centre are also available.
The McKinnon Building includes a gymnasium, dance studio, weight-training room, 25-metre L-shaped pool, squash courts, and change room and shower facilities. The Ian H. Stewart Complex includes a field house, gymnasium, 18,000 square foot fitness/weight centre, 25-metre outdoor pool, tennis, squash, racquetball and badminton courts, an ice rink, and change room and shower facilities. The Outdoor Recreation Centre, located at the Ian H. Stewart Complex, has outdoor equipment available to members on a rental basis.

Physiotherapy Clinic
The Physiotherapy Clinic is available to students, staff, faculty and community. Treatment is available by appointment Mon-Fri 7:30am-2pm. Referrals are not required for treatment, but may be required by extended health care plans for reimbursement of visit charges. Treatments have a fee payable at each visit for all patients. The clinic can be reached by phone at 250-472-4057 or by email at <physio@uvic.ca>.

CARSA (Coming Soon)
In the Spring of 2015 several of UVic’s athletics and recreational services will culminate in one central location known as Centre for Athletics, Recreation and Special Abilities (CARSA). The new facility will have a new performance gymnasium, a climbing tower, state-of-the-art fitness and weight-training space as well as new a new field house, studios, sports injury clinic and a rowing centre. In addition, the building will also be home to CanAssist, who are dedicated to helping people with disabilities improve their independence in daily living and their overall quality of life. More information can be found at <uvic.ca/carsa>.

BOOKSTORE
Campus Services Building
Summer hours: (May-August)
Mon-Fri: 8:30-5:00
Saturday: 11:00-5:00
Winter hours: (Sept-April)
Mon-Fri: 8:30-5:30
Saturday: 11:00-5:00
Phone: 250-721-8311
Web: <www.uvic.ca/bookstore>
The UVic Bookstore is owned and operated by the University, operates on a break-even basis and provides a variety of items essential to academic success. All textbooks requested by faculty are stocked in the store. Textbook listings are available in-store and online, three weeks prior to the beginning of each term. At the beginning and end of each semester, the Bookstore buys back used textbooks for up to 50% of the new book retail price if they’re in demand. Textbooks in demand are listed on the Bookstore’s website.
The Bookstore’s general book department carries a comprehensive selection of both academic and general titles and can special order any book in print that is not currently stocked. The Bookstore houses Blink Print, a wide format print shop and has Print-on-Demand technology with an Espresso Book Machine that can print, bind and trim a library quality paperback book in minutes. The Bookstore also handles regalia rentals for grads.
The Bookstore offers a wide selection of contemporary UVic crest clothing and giftware, school and stationery supplies and has a unique gift section.
The Computer Store sells computer hardware and software, often with educational discounts. It is the depot for all warranty and non-warranty Apple computers repairs on campus.

Finnerty Express
Campus Services Building
Summer hours (May-August)
Mon-Fri: 7:30am-5:00pm
Saturday: 11:00-5:00
Winter hours (September-April)

UVIC CALENDAR MAY 2015
Mon-Fri: 7:30am-7:00pm
Saturday: 11:00-5:00
Phone: 250-472-4594
Located on the lower level of the Bookstore, Finnerty’s sells organic, fair-trade coffee and locally baked goods.

CHAPEL
Hours: Mon-Fri 8:00-5:30
Phone: 250-721-8338
Web: <web.uvic.ca/multifaith/chapel>
UVic’s Interfaith Chapel provides the campus community with a peaceful and scenic location for religious services, personal meditations, and special ceremonies such as weddings and memorials. The Chapel is located beside parking lot #6. For booking enquiries, please call or visit our website.

CHILD CARE SERVICES
Complex A, B, C
Hours: Mon-Fri (hours vary)
Phone: 250-721-8500
Web: <www.uvic.ca/services/childcare/>
Three full-time centres for children of students, staff and faculty are located on campus in Complex A. These centres are licensed to take children between the ages of 18 months and 5 years. Complex B houses a licensed out-of-school program for children aged 6 to 12. Complex C provides care for infants in one centre and toddlers in a second centre. The provincial government pays subsidies, based on income, toward the fees of these non-profit centres, which are staffed by trained personnel. Students who are not eligible for a government subsidy or whose subsidy does not cover child care costs should contact the office of Student Awards and Financial Aid on campus.
Spaces are limited, and there are waitlists for all programs. Where possible, application should be made up to a year in advance of the date child care services are required.

COUNSELLING SERVICES
Room B270 University Centre Building
Hours: Mon-Fri 8:30-4:30
Phone: 250-721-8341
Web: <coun.uvic.ca>
Counselling Services offers confidential counselling to students who have personal, career, learning or educational concerns. For current offerings, please visit the Counselling Services website.

Counselling for Personal Issues
Professional counsellors provide a confidential atmosphere in which students can explore any topic or situation and discuss any concerns they may have. Some of the personal problems that students bring to Counselling Services are shyness, lack of self-confidence, difficulty communicating with and relating to others, inability to speak up and express themselves, family and relationship conflicts, loneliness, grief, sexual concerns or abuse, depression, anxiety, stress, suicidal thoughts, sexual orientation issues, alcohol and drug concerns, loss of interest, difficulty in making decisions and coping with the university experience. Students are helped to work through these problems, develop self-awareness and overcome problems by using new coping strategies.
Wellness Groups and Workshops
In addition to individual counselling, counselors offer a number of group programs such as:
- Gaining Social Confidence
- Managing Stress and Anxiety
- Awareness Tools for Mood and Stress
- Body Image/Relationship with Food
- Career Exploration/Planning
- Depression Management
- Grief and Loss Support
- Yoga to Manage Mood
- Overcoming Panic Attacks
- Healthy Relationship Skill Development

See our website for the complete list of current group offerings.

Counselling for Indigenous Students
Individual and group counselling is available for Indigenous students through a collaboration with UVic’s Office of Indigenous Affairs. Support can address a wide variety of issues such as: strengthening of identity, processing of colonial trauma, navigating the university environment as an Indigenous learner, and regaining balance and harmony in all aspects of life.

Counselling for International Students
Individual and group counselling is available for currently registered UVic international students on a wide variety of issues such as culture shock, communication, navigating the academic system, and returning home.

Educational and Career Counselling
Counsellors are available to help students explore and plan their career direction.

Educational Counselling offers help to UVic students who want to choose a major suited to their interests, skills and career goals. In addition, we provide assistance in selecting other post-secondary institutions, graduate programs or professional schools. For specific course advising, students are directed to their faculty’s advising office.

Career Counselling can assist students in self-exploration to determine which careers best suit them and fit with their life goals and values. Topics for discussion and exploration include, but are not limited to: career exploration skills, short and long term goal setting, decision-making skills, career and occupational options and self-awareness (e.g., values, skills, personality and interests). We offer:
- individual counselling
- group counselling and workshops (see list below)
- interest and personality inventories (interpreted with a trained professional)

Counselling for Studying and Learning
Individual counselling is available to help students develop and refine their ways of learning, as well as to manage the difficulties that arise in adjusting to university demands.

Counselling Services offers courses and activities to help students develop the specific skills needed to succeed in their studies, including:
- Study Solutions in the C. W. Lui Learning Commons: The Learning Skills Program provides services at our satellite offices in the C. W. Lui Learning Commons on the main floor of the Meares Centre for Learning. See our website for hours of operation.
- Learning Skills Course: This non-credit course is offered in September and January. It is designed to help students develop better techniques for reading, listening, notetaking, organizing and learning material, problem solving, and writing essays and exams.
- Workshops: During the Fall and Spring terms, workshops are offered by request on topics such as Time Management, Reading Efficiency, Exam Writing, Note Making, Essay Writing and Class Participation/Public Speaking.
- Thesis/Dissertation Completion: Counselors are available to help graduate students succeed with thesis and dissertation projects through weekly group meetings focused on self-care, time management, writing and goal setting.
- University Learning Skills Course for New Students: This special version of the Learning Skills Course is offered in August. It helps new and mature students cope with the transition to university learning. Contact the Division of Continuing Studies for dates and times.

Peer Helping
Room 135E McPherson Library Commons
Hours: Mon-Fri 10:30-4:30
Phone: 250-721-8341
Web: <peerhelping.uvic.ca>

Peer helpers are trained, supervised volunteers who offer confidential support to other students. They participate in a variety of outreach programs. Contact the Peer Helpers at the Learning Commons or through the Peer Helping Coordinator at Counselling Services.

Family Centre
Student Family Housing
39208-2375 Lam Circle
Hours: email, phone or check website for updates. Regular weekly hours
Phone: 250-472-4062
Web: <web.uvic.ca/family-centre>
Email: familyc@uvic.ca

The Family Centre serves the families of UVic students living on and off campus. Conveniently located in Student Family Housing, the Family Centre co-ordinates family-initiated activities and programs, and offers support to new and experienced families. The Family Centre offers morning drop-in programs for the under-fives, an after school club for children aged six to twelve, a knitting club, book club, workshops on personal growth, including parenting, a library, clothing share, community newsletter and various community building events.

University Food Services
University Food Services
Carroll Residence Building
Hours: Mon-Fri 8:30-4:30
Sat-Sun 9:00-3:00
Phone: 250-472-4777
Web: <uvic.ca/food>

University Food Services provides a wide range of food and beverage services, from full meals to snacks and everything in between, at the following locations:
- Arts Place (Fine Arts Building)
- Cadboro Commons Dining Room (Upper Commons)
- Full-menu food facility—grill, hot entrees, soup, salad bar, sandwiches, desserts, hot and cold beverages
- Cap’s Bistro (Lower Commons)
- Deluxe coffees, pizza, pasta, custom-made sandwich deli, gourmet desserts
- Village Greens (Lower Commons)
- Vegetarian entrees, soups and chili, sushi, stir-fry bar, fruit smoothie bar, organic coffees
- Village Market (Lower Commons next to Cap’s)
- Provides grab ‘n go items as well as packaged foods and ingredients. Features specialty items such as celiac offerings and an organic section, fresh produce, bakery and coffee selections, as well as household staples from toothpaste to laundry detergent
- Mystic Market (University Centre)
- Features nine distinct dining venues, including an all-day breakfast station; West Coast BBQ grill; Chopbox stir-fry; pizza and pasta; soup, sandwich & paninis; gelato, fresh-made waffles, fruit & parfait bar; all-vegetarian kiosk and a general store.
- Macc’s (MacLaurin Building)
- Custom-made sandwiches, wraps, salads, deli, soups, sushi, baked goods, cold beverages, gourmet coffees
- Nibbles & Bytes Cafe (Engineering Lab Wing)
- Pizza, sandwiches, baked goods, hot and cold beverages
- Court Cafe (Fraser Building)
- Sandwiches, soup, hot and cold beverages
- BiblioCafe (McPherson Library)
- Organic drip and specialty coffees, gourmet sandwiches and baked goods
- SciCafe (Ocean, Earth and Atmospheric Science Building)
- Organic coffees, calzones, paninis, salads and wraps
- Check Food Services’ website <uvic.ca/food> for hours of operation.

In addition to the above, UFS operates Degrees Catering, a full service catering department on campus. Degrees is well equipped with 7 distinct dining venues in the Cadboro Commons Conference Centre. Degrees also delivers free of charge to any UVic location. Call 250-721-8603 or visit <www.degreescatering.ca>.

ONECard Dining Discount
Flex funds offer students, staff and faculty a 5% discount on all purchases at University Food Services outlets. The UVic ONECard is used much like a debit card: users pay money into an account established with Food Services and receive a discount on all purchases.

To learn more about dining card options, contact University Food Services’ office at 250-472-4777 or visit their website: <www.uvic.ca/food>.

Global Engagement
University Centre Building, room A205
Phone: 250-472-4644
Email: world@uvic.ca
Web: <www.uvic.ca/international>
As a unit in the Division of Student Affairs, Global Engagement is responsible for operationalizing and supporting the university’s internationalization objectives by collaborating with institutional stakeholders.

Responsibilities include:
- developing and managing international partnerships, networks and alliances that support the international objectives of the institution and individual Faculties;
- collaborating with university partners to develop, support and monitor strategic university-wide and faculty-specific agreements with international institutions that foster international teaching, research and learning opportunities at UVic;
- coordinating and promoting specialized international mobility programs and scholarship competitions;
- organizing inbound and outbound delegations and providing assistance to international visitors at UVic;
- providing support regarding international risk management matters in collaboration with Risk Management and Safety;
- organizing events that showcase international education and research at UVic;
- sharing best-practices and data regarding internationalization topics and global engagement with various internal and external stakeholders.

**Health Services**

Petersen Health Centre

Hours: Mon-Fri 8:30-4:30

Phone: 250-721-8492 (An on-call physician is available at this number after hours, week-ends and holidays)

Web: [www.health.uvic.ca](http://www.health.uvic.ca)

Health Services offers comprehensive health care to students and urgent care to the campus community. Our team of physicians, nurses, psychiatrists and allied practitioners address a range of student concerns including common and chronic illnesses, mental health and psychiatry, birth control and sexual health, immunization and travel medicine, sports medicine, wellness education, and referrals to specialists.

- Clinic appointments are mostly scheduled. In addition, we have same day rapid access appointments and access to urgent care. Students should have a valid Provincial Health Care Card or international health care coverage.
- Group medical visits are provided for a few specific health issues. Please see our website for information.
- Health education events and activities are coordinated throughout the year and opportunities for students to volunteer and be a student health promoter are posted on our website.
- Student Health 101 is a monthly e-magazine, coordinated by Health Services, that covers a variety of topics related to health and wellness. Registered students are alerted by email for access to the monthly issue.

**Medical Coverage and Eligibility**

**British Columbia Residents**

British Columbia students must have current enrolment in the BC Medical Services Plan. A valid medical insurance identification number (BC Care Card) must be provided for a physician visit at Health Services.

**Residents of Other Provinces**

Students from other provinces should continue their provincial medical coverage and provide their medical insurance identification number when they visit Health Services. All Canadian provincial/territorial plans (except Quebec) are accepted. Students from Quebec can either apply to BC Medical Services Plan, or can pay for services at the time of their visit then seek reimbursement from their Quebec plan.

**Non-residents of Canada**

Students without provincial core medical insurance* will be billed directly at the time of a physician visit and provided a receipt for possible reimbursement. Students who are not residents of Canada should arrange for interim medical insurance coverage for the first three months until the student is eligible for the BC Medical Services Plan. The BC Medical Services enrolment should be started upon arrival to BC as the process takes approximately three months.

Application forms for Interim private medical insurance can be found at [www.uvic.ca/](http://www.uvic.ca/).

For application to the BC Medical Services Plan go to [www.healthservices.gov.bc.ca/msp](http://www.healthservices.gov.bc.ca/msp).

* Core medical insurance (for physician and hospital directed care) is NOT the same as the GSS or UVSS extended medical coverage (that covers some paramedical and prescription costs).

**International Student Services**

University Centre Building A205

Hours: Mon-Fri 9:00-4:30.

Phone: 250-721-6361

Email: issinfo@uvic.ca

Web: [www.uvic.ca/international/students](http://www.uvic.ca/international/students)

As a unit in the Division of Student Affairs, International Student Services (ISS) provides support for international students which begins with pre-arrival services and continues throughout the duration of studies at UVic. ISS supports international degree program students, incoming exchange students and incoming visiting students with transition to UVic, personal development and academic success. We also provide information about immigration documents, health insurance, housing, social insurance numbers, income tax, identification cards, banking, etc. Further information about these services is available at [www.uvic.ca/international/students](http://www.uvic.ca/international/students).

The UVic Global Community is a program area within ISS that involves international, indigenous and domestic students, staff and faculty working together to celebrate diversity, advance intercultural competency and cultivate an inclusive and globally minded campus. Learn more about our programs at [www.uvic.ca/international/students](http://www.uvic.ca/international/students).

The ISS Student Exchange Program has partnership agreements with more than 50 partner universities in over 20 countries. Partner institutions offer courses of interest primarily to undergraduate students enrolled in the Faculties of Humanities, Science and Social Sciences, although students from other Faculties may also be eligible to apply. A limited number of courses at international partner universities are also available for graduate students. Important procedures for applying, including eligibility requirements, are available at [www.uvic.ca/international/students](http://www.uvic.ca/international/students).

Students should also refer to the UVic Calendar entry on Credits in Established International Exchange Programs for more information on the policies and procedures for evaluating course credits earned on exchanges.

Students interested in coming to UVic on an exchange program should apply through their home University.

**Judicial Affairs and Student Advocacy Initiatives**

University Centre B202

Hours: Mon-Fri 8:30am to 4:30pm

Phone: 250-721-6397

Web: [studentaffairs.uvic.ca/judicial](http://studentaffairs.uvic.ca/judicial)

Judicial Affairs and Student Advocacy Initiatives (Judicial Affairs Office) works to create and enhance a safe and inclusive campus community in support of fairness, responsibility and respect for all. The Judicial Affairs Office engages in a number of activities to reach these goals, including providing preventative and educational programs and responding to a variety student matters, including responding to non-academic student misconduct allegations.

The University’s Resolution of Non-Academic Misconduct (AC1300) policy provides students, faculty and staff with a safe way to report student conduct concerns, while protecting student rights and ensuring fair, respectful treatment through the resolution process.

Non-academic misconduct includes behaviour that interferes with the maintenance of a safe, inclusive, and respectful university community (e.g. theft or vandalism; health and safety risks; fraud or impersonation; on-campus drug or alcohol misuse; disruptive behaviour, etc.). If you have witnessed or been affected by non-academic misconduct, contact the Judicial Affairs Office for advice and direction.

For more information on Non-Academic Misconduct or the Judicial Affairs Office visit the website: [studentaffairs.uvic.ca/judicial](http://studentaffairs.uvic.ca/judicial).

**Residence Services**

Craigdarroch Office Building

Winter Hours: Mon-Fri 24 hours

Sat-Sun 10am-6am

Summer Hours: Sun-Sat 24 hours

Phone: 250-721-8395

Web: [www.housing.uvic.ca](http://www.housing.uvic.ca)

**On-Campus Accommodation**

The University offers four types of on-campus accommodation for students: Dormitory Housing, Cluster Housing, apartments and Family Housing.

**Dormitory Housing**

- Dormitory Housing provides room and board accommodation in single and double rooms for 1766 students in co-educational, non-smoking dormitories.
- All rooms are furnished with a desk, chair, wardrobe and bed for each student. Cable television, telephone and internet hook-ups are available. Washrooms are centrally located on each floor. Cable television is provided in each floor lounge. Laundry facilities are also available.
GENERAL INFORMATION

- Dormitory Housing is community oriented. A variety of programs are offered which encompass academic, personal, recreational and social development.
- A meal plan must be taken with Dormitory Housing.

Cluster Housing
- Cluster Housing provides accommodation for 476 students in 119 self-contained units.
- Each unit includes four bedrooms with individual locks. The living room, dining area, kitchen and bathroom are shared by the four occupants.
- Each bedroom is furnished with a bed, desk, chair, chest of drawers and closet. Lounge furni-
ture, a dining room table and chairs, a stove, two refrigerators, a dishwasher and a vacuum cleaner are provided. Dishes, cutlery and cooking utensils are the residents' responsibility. Cablevision, telephone and internet hook-ups are available.
- Cluster Housing is completely self-contained; meal plans are not required. Optional meal plans are available.

Bachelor and One-Bedroom apartments
UVic has 49 bachelor and one-bedroom apartments with priority given to graduate students. Apartments are furnished with a bed, desk, living room furniture, kitchen table and chairs, stove and fridge. Dishes, cutlery and cooking utensils are the resident's responsibility. Cablevision, telephone and internet hook-ups may be arranged by the resident.

Family Housing
- Family Housing provides accommodation for families in 181 self-contained units.
- Family Housing offers 48 one-bedroom apartments, 12 two-bedroom apartments, 115 two-bedroom townhouses, and 6 three-bedroom townhouses. Some accessible units are available.
- Units are unfurnished. Utilities are paid for by the tenant. Cablevision, telephone and internet hook-ups are available.
- Units are available to families with or without children; the tenant must be a full-time student at UVic.

Housing Rates
Rates for 2014/2015 were:
- Dormitory Housing
  Single room with standard meal plan.................$4183.00/term
  Double room with standard meal plan..............$3689.50/term
- Cluster Housing
  Individual rate (no meal plan)....................$2434.50/term
- Bachelor and one-bedroom apartments
  Bachelor ............................................$2444.50/term
  One-bedroom ....................................$3050.50/term
- Family Housing
  1-bedroom apartment.........................$785/month
  2-bedroom apartment.........................$921/month
  2-bedroom townhouse.........................$1080/month
  3-bedroom townhouse.........................$1186/month

Applying for Campus Housing
Students apply for campus housing through the UVic Residence Services website. The electronic application form for entry in September 2015 will be active on the Residence website March 2, 2015. To apply, a student must have a UVic Student ID number.

First-year students entering the University directly from high school are guaranteed an offer of on-campus accommodation provided they have completed all of the following steps before June 30:
- submitted an application to Residence Services
- paid the $50.00 (non-refundable) application fee
- been admitted to the University
- accepted the offer of admittance to UVic and paid the acceptance deposit to UVic

Every effort is made to meet applicants' preferences; however, because of the limited availability of campus housing, not all preferences can be met.

Wait List
Once all rooms have been assigned, a wait list is created. As vacancies occur, assignments are made from this list. It is the applicant's responsibility to inform Residence Services of any change of address.

Payment Procedure for Dormitory and Cluster Housing

Acceptance Payment
A $500 acceptance payment and a $250 security deposit are required to confirm acceptance of an offer of dormitory or cluster housing. This payment is applied to first-term fees and is due within the deadline outlined in the room offer. Refunds will be made only if the student is subsequently denied admission to UVic or is unable to attend for medical reasons.

Payment Due Dates
The remaining accommodation payments are due by the following dates:

<table>
<thead>
<tr>
<th>Date</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>August 1</td>
<td>balance of first-term fees</td>
</tr>
<tr>
<td>October 1</td>
<td>$500 second-term deposit</td>
</tr>
<tr>
<td>November 15</td>
<td>balance of second-term fees</td>
</tr>
</tbody>
</table>

A room assignment will be cancelled if the student fails to meet an acceptance or payment deadline.

Payment Procedure for Family Housing
To confirm acceptance of a family housing unit, students must sign a tenancy agreement and pay a security deposit ($500).

Rent is due on the first day of each month.

Rental rates for the various types of accommodation will be confirmed at the time an offer of accommodation is made.

Moving In
Dormitory and cluster housing rooms are available as per the date indicated in the contract. Accommodation before this date may be available under special circumstances. Written approval must be obtained from the Residence Services Office. Approved early arrivals are charged $25 per night for room only. In addition, early arrivals must accept a special contract to cover the early arrival period.

Students who are unable to move in by the first day of classes must notify Residence Services in writing before that date or their housing assignment will be cancelled.

Residence Contract
Students must choose one of three contract options: the 4-month (Sept-Dec) contract; the 8-month (Sept-April) contract; or the 4-month (Jan-April) contract. Graduate students have the option to choose a 12-month (Sept-Aug) contract. The contract must be signed and submitted with the balance of the first-term fees.

Cancellations prior to Move-in Date (from date of room acceptance until Thursday, August 27, 2015) will result in the forfeiture of the $500 room acceptance deposit. After this period, a charge of sixty days of accommodation and a $250 cancellation fee are applied to all contract cancellations, withdrawals and evictions.

Summer Housing
Dormitory accommodation is available throughout the summer months (May-August) for students, families, visitors and groups. Contact Residence Services at 250-721-8395 for rates and further details.

Accommodation for Parents and Visitors to the University
A limited number of full-service hotel-style suites are available throughout the year in Craigdarroch House. Contact the Residence Services Office at 250-721-8395 for rates and further details.

Off-Campus Housing Registry
The Residence Services Office maintains a registry of off-campus accommodation, including rooms, rooms and board, suites, shared accommodation, houses and apartments. Listings are available for viewing at the Residence Services website.

MULTI Faith SERVICES
Multifaith Services Centre
Campus Services Building, Room 151 (next to the UVic Bookstore and bus terminal)
Hours: Mon-Wed 8:30-3pm
Thurs, Fri 8:30-2pm
Phone: 250-721-8338
Web: <www.uvic.ca/multifaith>

Multifaith Services is a campus resource for UVic students interested in spiritual learning, practice, service and community. The Service is predicated on the conviction that active spirituality strengthens the student experience and contributes to wellness. We draw upon the resources of diverse spiritual traditions and foster a strong network of relationships that includes participation from Baha’is, Buddhist, Christian, Jewish, Muslim and Unitarian communities and those who do not connect to any one tradition, but are simply seeking spiritual identity, learning and support.

Learning about spiritual wisdom is facilitated through workshops, discussion circles, speaker series, special events and study groups. Developing a spiritual practice is made possible through groups on meditation, healing touch, prayer, worship and ritual. Opportunity for Service is facilitated by mentoring student volunteerism in non-profit service and social activism agencies. Community amongst students is supported through retreats, student religious clubs and social events.

Join others on the spiritual journey through Multifaith Services. Find a community for...
spiritual learning, support, fun and friendships that will last a lifetime.

**Resource Centre for Students with a Disability (RCSD)**

Campus Services Building
Phone: 250-472-4947
Web: <www.rcsd.uvic.ca>
Email: info@rcsd.uvic.ca

The RCSD (a unit within Student Services) works with the University, faculty and other departments and services to educate and consult on the implementation of universal design to increase accessibility on campus. When accessibility is lacking, the RCSD works with students and instructors to develop a plan for academic accommodations to help make courses, material (i.e. textbooks) and/or other academic activities accessible.

Academic accommodations in the classroom enable access to essential course content and class activities. The need to access lectures, labs, written assignments, fieldwork, class discussions and technology requires reasonable accommodations such as notetakers, sign language interpreters, preferential seating, more flexible attendance requirements, classes in accessible locations and adaptive technology. If you are required to write tests and exams you may need adjustments to time, the use of technology, and/or to write in a distraction-reduced environment.

The RCSD has deadlines for requesting services and for requesting test and exam bookings. Students who have recent diagnoses or require a change in their academic accommodations may still request accommodations after the deadlines:
- The deadline for requesting fall semester accommodation is October 31st
- The deadline for requesting winter semester accommodation is February 28th

Exam requests must be received a minimum of two weeks before the scheduled exam, and for finals, two weeks before the first day of the final exam session.

The University does not cover costs related to medical documentation.

A diagnosis of disability alone does not guarantee academic accommodations.

The RCSD offers programs and services to students who are registered with our Centre:
- Learning Strategist program
- Tutor Matching program
- Note taking program
- Support with academic accommodation planning and accommodated exams
- Assistive Technology consultation and use of a lab with a variety of cutting-edge software and hardware for students to explore.
- Alternate Text Support Centre produces and coordinates the acquisition of accessible and usable textbooks.
- Exam Centre coordinates more than 7000 accommodated exams per year on-site, with a variety of available technology.
- Sign language interpreters and transcribers for in-class interpreting.

There are federal and provincial grants for students who qualify that can help fund services and technology.

Applying to the University and registering with the RCSD are two separate processes. Students do not need to self-declare a disability when they are applying or being admitted to the University. Students do need medical and/or psychological documentation if they choose to register with the RCSD. Students should register with the RCSD as early as possible to avoid delay in services.

- See the FAQ section of the RCSD website <rcsd.uvic.ca/general/faq.html> for info on documentation.
- An IEP from a previous school is not sufficient documentation.

**The Welcome Centre**

University Centre
Phone: 250-721-8949
Fax: 250-721-8924
Email: welcome@uvic.ca
Web: <www.uvic.ca/services/welcome>

The Welcome Centre is your first point of contact in navigating the University of Victoria. The centre coordinates Campus Tours and is a key centre for community engagement focused events.

**Student Groups and Resources**

**Graduate Students’ Society**

Room 102, Halpern Centre for Graduate Students
Phone: 250-472-4543
Email: gsscomm@uvic.ca
Web: <gss.uvic.ca>

All graduate students at the University of Victoria are members of the Graduate Students’ Society (UVSS). The Society exists to provide advocacy, representation, services and events for its members. The Society works on issues affecting student life, such as post-secondary funding, tuition fees, accessibility, employment and housing.

The activities of the UVic Students’ Society are carried out by a Board of Directors. The Board consists of eleven volunteer directors-at-large and five full-time executive directors—the Director of External Relations, the Director of Student Affairs, the Director of Finance and Operations, the Director of Events, and the Chairperson. Elections for these positions take place in March. As well, the Women’s Centre, the Pride Collective, the Native Students’ Union, the Students of Colour Collective and the Society for Students with a Disability (SSD) each have a representative on the Board. The Board meets twice each month throughout the year and all students are welcome to attend.

Through their Students’ Society, students can participate in clubs and course unions, speakers forums, events, conferences and other activities which take place regularly in the SUB. Being an active member of the UVic Students’ Society is one of the most important ways students can contribute positively to their experiences on and off campus. Involvement may include voting in elections, attending general meetings of the Society, getting involved in one of the many committees such as campaigns Events or Finance, or running for a position on the UVic Students’ Society Board of Directors, Senate or UVic Board of Governors. By becoming an active member of the UVSS, students help create a fuller educational experience for themselves and others and a better future for students at UVic and across Canada.

The UVic Students’ Society operates the Student Union Building (SUB), run by students for students. The SUB offers a wide range of services and programs, including the following:
- UVSS Students Society Centre—Students’ Society Board offices; get information and pick up dayplanners/handbooks and Studentsaver
- Food services: Health Food Bar, International Grill, Bean There coffee shop, Munchie Bar
- Felicia’s Pub
- Cinecента movie theatre
- Zap Copy Shop
- SUBText used books
- SUB Info Booth: administers the Universal Bus Pass (U-Pass) and the Student Health and Dental Plan
- Victoria Health and Wellness Clinic
The UVic Pride Collective advocates for queer and trans students, staff, faculty, alumni and community members. The intent of UVic Pride is to promote and provide an atmosphere that celebrates sexual, gender, and sex diversity; build community; and to be fully inclusive and supportive of all members, including people of any race, culture, ethnicity, gender, sex, colour, age, ability, class, sexuality, nationality, appearance, and religious or political affiliation. UVic Pride seeks not only to end homophobia, bi-phobia, transphobia, and the oppression of intersex people, but to promote social justice and combat oppression in solidarity with all marginalized groups. The Pride Centre is open for drop-in most days during the school year. Our services include a lending library, free safer sex and harm reduction supplies, as well as an expanding array of trans specific resources. Interested people are welcome to contact us by phone, email, or in person, or visit our website for more information.

Ombudsperson
Student Union Building B205
Phone: 250-721-8357
Email: ombuddy@uvic.ca
Web: <www.uvicombudsperson.ca>

The Ombudsperson is an independent and impartial resource to assist with the fair resolution of student issues. A confidential consultation can help you understand your rights and responsibilities. The Ombudsperson can also clarify information, help navigate procedures, assist with problem-solving, facilitate communication, provide feedback on an appeal, investigate and make recommendations.

The Women's Centre
Student Union Building B107
Phone: 250-721-8353
Email: wcentre@uvic.ca
Web: <www.womenscentreuvic.com>

The UVic Women's Centre is a collectively run drop-in centre open to all self-identified women. The centre seeks to provide a space for self-identified women to organize, access resources, attend workshops and relax. The Women's Centre is committed to education and activism around racism, heterosexism, ableism and colonialism. The Centre offers many volunteer opportunities, such as office and library support and committee organizing. The Centre also publishes an anti-racist, feminist zine, Thirdspace. Collective members and volunteers are encouraged to organize around personal areas of interest, such as sex and sexuality, health, body image, environment, globalization and the practice of feminist theory. For more information, drop by the Centre, get involved, and be a part of the movement!

CFUV 101.9 FM
Student Union Building B006
Hours: Mon-Fri 10:00-5:00
Phone: 250-721-8702
Email: volcfuv@uvic.ca
Web: <www.cfvu.ca>

CFUV 101.9 FM is Victoria's Campus and Community Radio Station. CFUV's programming is diverse and focused on local content, ranging from electronic, rock, folk and jazz, to multicultural and community affairs. Programming is done by a 300+ volunteer base, composed of both students and community members. CFUV is always looking for new volunteers and no previous experience in radio is necessary. Students who are interested in volunteering can sign-up online by visiting CFUV's website <www.cfvu.ca>.

The Martlet
Student Union Building B011
Phone: 250-721-8360

Business inquiries: 250-721-8359
Email: business@martlet.ca
Web: <martlet.ca>

The Martlet is UVic's independent student newspaper, available online <martlet.ca> and in print. New issues are distributed every Thursday on campus and throughout Greater Victoria. The Martlet is written by students and is editorially and financially independent. Students interested in volunteering are invited to visit or call the Martlet Office.

Vancouver Island Public Interest Research Group (VIPIRG)
Student Union Building B120 & B122
Phone: 250-472-4386
Email: info@vipirg.ca
Web: <www.vipirg.ca>

VIPIRG is an autonomous, non-profit, non-partisan organization dedicated to research, education, and action in the public interest. All undergraduate and graduate students are members of VIPIRG.

VIPIRG provides opportunities for students and community members to effect positive social and environmental change. By becoming active members, students can be exposed to new ideas, meet new friends, learn new skills, and find an outlet for activism. VIPIRG offers an extensive alternative library with a wide selection of magazines, books, videos and dvds, and research reports. VIPIRG conducts research and undertakes action projects on a wide range of social justice and environmental issues. There are also a number of volunteer-driven, issue-based working groups working out of VIPIRG at any given time. Students interested in being part of any of these committees, or with ideas for one, are invited to visit or email the VIPIRG office.

UVic Alumni Association
Phone: 250-721-6000 or 1-800-808-6828
Web: <alumni.uvic.ca>

All graduates of UVic automatically become members of the Alumni Association. The Alumni Association strives to enhance the quality of life on campus through:
• support for student orientation and recruitment programs
• grants for student and department projects
• support for the UVic Student Ambassadors
• Excellence in Teaching Awards

After graduation, the Alumni Association encourages a lifelong relationship among alumni and the University. An engaging alumni magazine, The Torch, is published twice a year, and networking opportunities are provided through alumni branches worldwide. The Alumni Association provides a number of benefits, services and recognition to its members, including:
• Alumni Direct (online degree listings)
• special events
• Alumni Card
• Group rates on home, auto and life insurance
• Career services and programs
• UVic MasterCard from MBNA

The UVic Alumni Association is incorporated under the Society Act of British Columbia and governed by an elected board of directors. The association encourages all alumni, regardless of location, to stay connected to their Alumni...
Association, to attend events, to volunteer, and to support their university.

For more information on programs and volunteer opportunities, contact UVic Alumni Relations.

**Indigenous Student Services**

**OFFICE OF INDIGENOUS AFFAIRS**

Ruth Young, BPHE (Laurentian University), BEd (Nipissing University), CIS (UBC), Director of the Office of Indigenous Affairs

The Office of Indigenous Affairs (INAF) promotes, supports and facilitates UVic’s comprehensive Indigenous initiatives including: academic programs, student support services and protocol activities. The office also provides advice to university departments, faculty members, staff and administrators to expand UVic partnerships with First Nations, Métis and Inuit communities and organizations.

The Director works closely with the President, Vice-Presidents, Deans, Chairs, Academic and Research Units and Student Affairs and ensures a coordinated and proactive approach to Indigenous initiatives, both on and off campus. The Director has an influential role in developing policy related to Indigenous education. (ryoung@uvic.ca and 250-721-6326).

The Office of Indigenous Affairs has an expanded role and mandate in keeping with the University’s goal to be the University of choice for Indigenous students. The office is located in the First Peoples House, General Office (email: inafadm@uvic.ca and phone: 250-472-4913).

**FIRST PEOPLES HOUSE**

Ruth Young, BPHE (Laurentian University), BEd (Nipissing University), CIS (UBC), Co-Chair of the First Peoples House

Carly Cunningham, BA (UVic), First Peoples House Receptionist

The First Peoples House was built (2009) intentionally to support Indigenous students. We welcome and encourage others to come in and be a part of creating a welcoming and supportive environment for Indigenous students at the University of Victoria. It is asked that all those who enter this place do so with respect for the ancestors, the original care-takers of this land, and for each other.

The First Peoples House has spaces available for booking. All room usage in the First Peoples House must meet the objectives of Indigenous education and/or Indigenous cultural resurgence. For more information about the First Peoples House and booking inquiries please contact the First Peoples House Receptionist (fph@uvic.ca and 250-853-3601).

**INDIGENOUS COUNSELLING AND SUPPORT**

Other staff serving Indigenous students include:

- FPH Programs Manager, Samantha Etzel (inafmgr@uvic.ca and 250-853-3821)
- LE, NONET Academic Lead, Rob Hancock (rola@uvic.ca and 250-472-4231)
- LE, NONET Community Lead, Dawn Smith (dmsmith@uvic.ca and 250-472-4618)

- LE, NONET Mentorship and Bursary Coordinator, Nadita Beauchamp (lenonet@uvic.ca and 250-472-5982)

**Office of Indigenous Affairs**

- Coordinator of Indigenous Student Support, Crystal Seibold (inafco@uvic.ca and 250-853-3599)
- Cultural Protocol Liaison, Deb George (inafev@uvic.ca and 250-472-4106)
- Indigenous Community Liaison and Outreach Coordinator, Lalita Morrison (inafclo@uvic.ca and 250-853-3729)
- Indigenous Counsellor, Sylvie Cottell (inafic@uvic.ca and 250-721-8341)

**Faculty of Education**

- Indigenous Education Adviser and Coordinator, Allison Benner (iedeadvis@uvic.ca and 250-721-8389)

**Faculty of Law**

- Cultural Support coordinator, Karla Point (achiever@uvic.ca and 250-472-4761)

**Faculty of Human and Social Development**

- Indigenous Student + Support Centre
- Indigenous Adviser, Shauna Underwood (hsdia@uvic.ca and 250-472-5431)
- Academic Administrative Officer, Angela Polifroni (hsdiso@uvic.ca and 250-721-6436)

**NATIVE STUDENTS UNION**

The Native Students Union works toward empowering students to benefit from technical and academic learning available at UVic while maintaining strong cultural and spiritual ties with other Indigenous students involved in higher education. Activities include regular meetings, as well as social and cultural events.

The Native Students Union (250-472-4394) is located in the basement of the Student Union Building, B120.

Representing the Social Sciences
Eric Higgs. Term expires June 30, 2017

Representing the Graduate Students’ Society
Maral Sotoudehnia
Degrees and Programs Offered

The Faculty of Graduate Studies of the University of Victoria administers programs leading to the doctoral and master’s degrees as well as certificates and diplomas as shown in the following tables.

Details of established programs leading to a doctoral or master’s or post-graduate degree are provided within the Graduate Programs section. Graduate programs may also be taken with a co-operative education option, with interdisciplinary focus, or by special arrangement.

Faculty Admissions

GENERAL AND ACADEMIC REQUIREMENTS AND PROCEDURES FOR ALL GRADUATE STUDENTS

The minimum general and academic requirements for admission to the Faculty of Graduate Studies include:
1. a four-year baccalaureate degree (or equivalent degree from another country) from a recognized institution
2. a grade point average of 5.0 (B) in the work of the last two years (30 units) leading to the bachelor’s degree. Please note that individual academic units often set higher entrance standards.
3. satisfactory assessment reports
4. the availability of an appropriate supervisor within the academic unit concerned
5. the availability of adequate space and facilities within the academic unit concerned.
6. proof of English Language Proficiency (see “English Language Proficiency”, page 18).

In exceptional cases a student may be admitted with lower formal qualifications when there is significant experience relevant to the proposed area of scholarship (see “Other Admissions”, page 20).

Entry Points

Students may enter the Faculty in September, January, May or July; however, some programs have restricted entry points. Academic unit’s calendar entries and websites should be consulted for details.

Application for Admission

There is an application fee of $112.20 if all post-secondary transcripts come from institutions within Canada and $137.70 if any post-secondary transcripts come from institutions outside of Canada. It is non-refundable and can not be credited towards tuition fees. Applications will only be processed after the application fee has been received.

Application materials are kept on file for one year, and may be reactivated on request within that year and by submission of a new application and application fee.

Applications for admission should be submitted as early as possible through the University of Victoria website. No assurance can be given that domestic applications received after May 31 or international applications received after December 15 can be processed in time to permit...
registration in the following Winter Session (fall term). Individual academic units may have different deadlines which are posted on the program academic unit entry in this calendar. All new applicants will be considered for University of Victoria Fellowships or Graduate Awards by the academic unit they are applying to. Funds are limited so applicants wishing to be considered for Fellowships and Awards are encouraged to have all application materials submitted to the Graduate Admissions and Records Office as soon as possible, and no later than the application deadline for the academic unit.

**Important Application Information**

**Requirement to Disclose Information**

Applicants are required to provide the information necessary for the University record. This includes disclosing all post-secondary institutions where any course registrations were made, and if admitted, arranging for all final official transcripts to be sent directly to Graduate Admissions and Records. Applicants who fail to meet these requirements may lose transfer credit and/or have their admission and registration cancelled.

**University’s Right to Refuse Applicants**

The University reserves the right to refuse applicants for admission on the basis of their overall academic record, even if they technically meet the published admission requirements.

**University’s Right to Limit Enrolment**

The University does not guarantee that students who meet the minimum published requirements will be admitted to any faculty, program or course. In cases where the number of qualified applicants exceeds the number that can be accommodated, the University reserves the right to set enrolment limits in a Faculty or program and to establish admission criteria beyond the minimum published requirements set out in this section.

### Submission of Transcripts and other supporting documents

The documents required to start the evaluation of your application must be uploaded at the time of application. These include unofficial transcripts from all institutions you have attended (including UVic), a copy of your CV/Resume, and any other individual program requirements.

If you are applying to more than one graduate program, you will need a separate application, uploaded documents and application fee for each.

After completing the online application, you can check my UVic application to see if any additional documentation is required. Please ensure that all outstanding documents are submitted by the appropriate deadline by email as a PDF attachment to <graddocs@uvic.ca> for all documents (except transcripts). Upon receiving a provisional offer of admission, final copies of transcripts should be sent following the instructions for official transcript submission.

Final official documents are needed to confirm a final offer which allows registration. Applicants must arrange with all post secondary institutions attended to forward one official transcript directly to the Graduate Admissions and Records Office.

An official document bears an original university seal or stamp. It must be received in an envelope that has been clearly sealed and endorsed by the issuing institution. Unless the documents are only available in English, the official original language document accompanied by a certified literal English translation is also required. Submission of official University of Victoria transcripts is not required.

Official documents will not be returned. They become the property of the University of Victoria. If a student’s originals are irreplaceable, the student should submit copies for review purposes. Original documents will be required before a full offer of admission is given.

Documentation from applicants who are not admitted or who do not take up an offer of admission will be kept on file for one year.

Applicants must submit evidence of their ability to undertake advanced work in the area of interest in the form of two assessment reports or letters of reference, submitted as part of their document package or digitally directly to the Graduate Admissions and Records Office from qualified referees to <graddocs@uvic.ca>. For some programs Employee or other professional references may be substituted for our specific academic assessment form.

Application materials are verified on a routine basis. If the Graduate Admissions and Records Office receives evidence that any documentation submitted as part of the application has been forged or falsified in any way, the applicant will be permanently banned from the University of Victoria and a warning will also be circulated to all other Canadian universities.

### English Language Proficiency

Applicants for admission whose first language is not English and who have not resided in Canada or any exempted country (listed below) for at least three consecutive years immediately prior to the beginning of the session applied for must demonstrate competency in English. Applicants holding a recognized degree from recognized countries and territories listed below are exempted from the English Competency Requirement.

**Exempted countries include:** Anguilla, Antigua, Australia, Bahamas, Barbados, Belize (British Honduras), Bermuda, Canada, Cayman Island, Falkland Islands, Fiji, Gibraltar, Grenada, Guam, Guyana, Jamaica, Malta, Mauritius, Montserrat, New Zealand, Nigeria, Pacific Islands (American Samoa, Baker Island, Chatham Islands, Cook Islands, Line Islands, Marianas Islands, Federated States of Micronesia, Nauru, Palau, Pitcairn Islands, Solomon Islands), Panama Canal Zone, Puerto Rico (case by case), Republic of Ireland, Ryukyu Islands, Scotland, Seychelles, Singapore, South Africa (case by case), St. Helena, St. Kitts & Nevis, St. Lucia, St. Vincent, Trinidad & Tobago, Turks & Caicos Islands, United Kingdom of Great Britain and Northern Ireland (England, Scotland and Wales), United States of America, Virgin Islands.

Most applicants qualify by providing results of the Test of English as a Foreign Language (TOEFL). The minimum acceptable score is 575 on the paper-based test or an overall score of 90 on the Internet Based TOEFL (IBT), with the following minimum section requirements: Listening 20; Speaking 20; Reading 20; Writing 20.

We receive official TOEFL test score electronically from Educational Testing Service (ETS) and will accept scans of paper score records as part of the initial application upload. Official paper score records are not required.

An overall score of at least Band 6.5 with no score of less than 6.0 on each academic component of the International English Language Testing System (IELTS) or a score of 90 on the Michigan English Language Assessment Battery (MELAB) will be accepted as an alternative to a TOEFL score of 575/90.
You must ensure that you select the University of Victoria as a receiving institution so that we can receive your score directly from the testing agency. Scores from tests taken more than two years prior to application will not be reported by the testing agency. Completion of the University Admission Preparation Course offered by the University of Victoria English Language Centre with a minimum score of 80% will be accepted in lieu of the above standardized English competency tests. University Admission Preparation is the highest level in the 12-Week program (ELPI) offered in January, April and September each year. The same course is offered in a 4-week intensive format each summer. Specific admission requirements for UAP are outlined in the website for more information: <www.uvic.ca/aspnetProgramDetail/?code=ELPIUAP>.

GMAT and GRE Requirements for Graduate Studies

The Graduate Management Admission Test (GMAT) is prepared and scored by the Graduate Management Admission Council. The Graduate Record Examination (GRE) is prepared and scored by Educational Testing Services (ETS). GMAT and GRE requirements are prescribed by individual academic units. In some instances, completion of the examination is mandatory. Applicants are advised to check academic unit entries for detailed information. However, the Faculty of Graduate Studies reserves the right to require a GRE score (on Advanced and Aptitude Tests), for any applicant. We receive official GRE test scores electronically from Educational Testing Service (ETS) and will accept scans of paper score records as part of the initial application upload. Official paper score records are not required. Voluntary submission of a GRE score may facilitate the admission process. You must ensure that you select the University of Victoria as a receiving institution so that we can receive your score directly from the testing agency.

Admission to Regular Doctoral Degree Programs

Admission to a doctoral degree program normally requires a master's degree (or equivalent) from a recognized institution. Please refer to the section "General and Academic Requirements and Procedures for All Graduate Students" on page 17. Admission to a doctoral program requires evidence that the applicant is capable of undertaking substantial original research. Such capability will be judged from two assessment reports or letters of reference sent directly to the Graduate Admissions and Records Office from qualified referees and the completion of a master's thesis or other scholarly work.

Candidate Status

All doctoral students are admitted as provisional candidates until they have passed their candidacy examinations, at which time they are automatically classified as candidates for the degree of Doctor of Philosophy.

Admission Without a Master's Degree

Applicants without a master's degree must have either:

- a baccalaureate degree as defined above from a recognized institution with a cumulative grade point average of 7.0 (A-) on the final two years of the bachelor's degree (see "Minimum Degree Requirements" on page 22), or
- completed at least two terms in a master's program at UVic.

Transfer from a Master's to a Doctoral Program

A transfer from a master's to a doctoral program may be recommended to the Dean of Graduate Studies by the academic unit. Requests for transfer will normally be considered at any time after two terms in a master's program. Fee installments paid towards the minimum program fee for the master's program will be applied towards the minimum fee requirement for the PhD program. Completion is required within seven years from the date of the first registration in the master's program. Students who are recommended for transfer to the doctoral program within the same academic unit are not normally required to submit additional assessment reports.

Admission to Regular Master's Degree Programs

Please refer to the section "General and Academic Requirements and Procedures for All Graduate Students" on page 17. The minimum academic standing required is:

1. a four-year baccalaureate degree (or equivalent degree from another country) from a recognized institution
2. a grade point average of 5.0 (B or equivalent) in the work of the last two years (30 units) leading to the bachelor's degree.

In exceptional cases a student may be admitted with lower formal qualifications when there is significant experience relevant to the proposed area of scholarship (see Other Admissions). Please note that individual academic units often set higher entrance standards.

Practica, non-graded (pass/fail) courses, credit granted on the basis of life experience, or credit earned at institutions not recognized by the University will not be used in determining an applicant's admission grade point average or units completed. Any courses used in the calculation of the entering average cannot be used as credit toward a graduate degree program.

Transfer between Master's Degree Programs

Students who wish to change programs at the master's level will be required to meet all of the admission requirements for the new program. Students changing degree programs to one with a higher fee structure are required to pay all the required program and degree fees for the new program. Any outstanding fees as a result of the transfer come into effect at the end of the first month after the student has been officially transferred to the new program.

UVIC Calendar May 2015

Admission to Graduate Diploma and Certificate Programs

Students admitted to graduate diploma and certificate programs that include credit courses must satisfy all regular admissions requirements of the Faculty of Graduate Studies as well as the specific requirements of the program.

Upgrading for Admission to Graduate Studies

Applicants Who Do Not Meet Faculty Admission Requirements

1. Pre-Entry Program

Applicants who have completed a baccalaureate degree as defined above but whose academic record is such that they do not meet the Faculty of Graduate Studies' standards for admission to a master's program may be considered for a Pre-Entry program. Upon the recommendation of the academic unit concerned, the Dean of Graduate Studies may approve a pre-entry program consisting of a minimum of 6 units of undergraduate course work numbered at the 300 or 400 level to be taken by an undergraduate student prior to entry in the Faculty of Graduate Studies. This course work must be relevant to the proposed field of study, and must be completed within the time frame specified. An average of not less than 6.0 (B+) must be achieved in the course work, and no course may be completed at a level below 4.0 (B-).

Students approved by the Dean of Graduate Studies for this pre-entry option are guaranteed admission to the Faculty of Graduate Studies upon successful completion of the recommended courses. None of the courses in the pre-entry program may be considered for transfer credit towards the graduate program.

2. Independent Upgrading

Applicants with an undergraduate degree whose grade point average is below the Faculty of Graduate Studies' minimum may complete additional senior undergraduate course work to strengthen their application. If, after completion of additional courses, the applicant is admitted, those courses are not eligible for transfer credit towards the graduate program.

Applicants Who Meet the Faculty Admission Requirements But Who Are Lacking Course Background

1. Independent Upgrading

Applicants who lack prerequisite or background courses may complete additional undergraduate course work to strengthen their application. This requires submission of an application for undergraduate admission. If admitted, upon the recommendation of the student's supervisory committee, those courses may be eligible for transfer credit towards the graduate program, subject to the limitations stated under "Transfer of Academic Credit", page 33. Upon the advice of the academic unit, a provisional offer of admission may be given, subject to satisfactory completion of recommended courses.

2. Enhanced Programs

Upon the recommendation of the academic unit concerned, the Dean of Graduate Studies may approve the inclusion of the missing background or prerequisites as part of the
requirements for the master's or doctoral degree. Alternatively, upon the advice of the academic unit, a provisional offer of admission may be approved subject to satisfactory completion of a pre-entry program.

**Other Admissions**

**Admission as a Mature Student (Master's Only)**

Four years after completion of a baccalaureate degree as defined above, applicants whose grade point average is below 5.0 (B) but have four years relevant professional experience since completion of their degree may be admitted to a Master's program as mature students provided they are recommended by the academic unit. Submission of a complete resume is required to determine eligibility as a mature student. Such recommendations must be approved by the Dean of Graduate Studies.

**Admission without a Baccalaureate (Master's Only)**

In exceptional cases, applicants without a baccalaureate degree or equivalent but who can demonstrate significant (normally at least 15 years) relevant expertise, professional experience, or formal training, that would prepare them for successful study in a specific Master's program may be admitted provided they are recommended by the academic unit. Submission of a complete resume is required, along with a detailed justification from the unit of the relevance of the applicant's experience to the proposed area of study, and a plan from the unit listing additional formal course work designed to mitigate any academic deficit. Such recommendations must be approved by the Dean of Graduate Studies, who will set a quota on the number of such students permitted in any academic unit.

**Admission to Non-Degree Course Work**

Applicants wanting to take courses in the Faculty of Graduate Studies that are not for credit toward a degree at the University of Victoria may be admitted as non-degree students. Such students may be admitted under the following three categories:

1) **Visiting Students**

Visiting students are admitted on the basis of a Letter of Permission which specifies courses allowed for credit toward a graduate degree at another recognized institution. Applicants in this category must complete an application for admission and provide a Letter of Permission or equivalent from the home institution. International students will be required to provide transcripts and evidence of English Language Proficiency.

2) **Exchange Students**

Exchange students may be admitted under the provisions of the Western Deans' Agreement or other formal exchange agreements. If a student is admitted as an exchange student, all tuition fees will be waived. In some cases, course surcharges may apply. Applicants under this category must submit documentation from their home institution certifying the applicant as an exchange student under the provisions of an approved exchange agreement. Courses to be taken toward their degree must be specified in the documentation. International students will be required to provide transcripts and evidence of English competency.

The IESS Office, [International Students], provides pre-arrival support, orientation on arrival and ongoing assistance for international students after they have been accepted to study at UVic.

3) **Non-Degree Students**

Students who wish to improve their academic background may be admitted as non-degree students. Applicants must meet the same entrance requirements and follow the same application procedure as degree-seeking applicants. As there are no non-program courses in the Faculty of Graduate Studies, Non-degree students who are not Special Visiting Research Students must be associated with a program area.

**Fees for Non-Degree Course Work**

None of the fees paid as a non-degree student may be applied to the graduate degree. Fees for courses taken as a non-degree student will be charged on a per unit basis as outlined under "Tuition for Non-Degree Students", page 40.

**Visiting Research Students**

Graduate Students currently registered at their home institutions who are willing to participate in research under the supervision of professors at the University of Victoria may be admitted to UVic as research-only students. Normal admissions processes and requirements do not apply. This admission does not include the option of taking courses for credit. If visiting research students wish to take courses for credit they must be admitted as Non-Degree students.

Visiting research students will be registered in either GS 503, Canadian Visiting Research Student (3.0 Units), or in GS 504, International Visiting Research Student (3.0 Units). There are no tuition fees charged for these registrations. Visiting research students will have access to basic research services (e.g. library, e-mail access, computing). Basic student services (e.g. recreation facilities and transit passes) can be arranged provided that the applicable fees are paid by the student.

Before students can come to UVic there must be written agreements between the visiting research students, the home supervisors, and the UVic supervisors, approved by the Dean of Graduate Studies, concerning issues such as intellectual property, stipend and benefits, travel costs, access to research equipment and supplies, research ethics, space etc.

For further information regarding the process for both Canadian and International graduate students, see this online document: [Web UVic Calendar Graduate Studies Advisors Documents Visiting Students Web.pdf].

**Admission to a Second Master's or Second Doctoral Degree**

A student who has a master's or doctoral degree from the University of Victoria or the equivalent degree from a recognized institution may be allowed to pursue graduate studies leading to a second master's or doctoral degree if the following requirements are met:

- The student must meet the requirements for admission to the program.
- The principal academic emphasis of the second degree must be distinct from that of the first degree.
- At least 15 (for the master's degree) or 30 (for the doctoral degree) units of credit must be completed beyond those units required in the previous degree.
- The student must meet all program and graduation requirements for the second degree beyond those required for the first degree.
- None of the research done for the first degree may be used for the second degree; as well, the supervisor for the first degree cannot be nominated to supervise the second degree.
- None of the time spent in residence for the first doctoral degree may count toward the residency requirement for the second doctoral degree.

**Admission Appeals**

Appeals related to the admission of new students are reviewed by the Faculty of Graduate Studies on the recommendation of the appropriate academic unit, and are not subject to further appeal.

**Confirmation of Admission Offer**

Students who are offered admission to the Faculty of Graduate Studies should confirm in writing or by email within one month that they intend to accept the offered place. If this is not done, the offer may be cancelled.

International students should not make travel plans until they have been granted a full official offer of admission granting access to registration for courses (not provisional admission) and have satisfied all student authorization requirements through the Canadian Consulate in their home country.

**Individual Graduate Programs by Special Arrangement (SPARR)**

**General Information**

Programs by special arrangement are available only in cases where an academic unit does not offer an established graduate degree. Such an offering is called an Individual Degree by Special Arrangement. Since these degree programs are created on an individual basis, the Faculty of Graduate Studies requires that applicants and academic units satisfy a stringent approval process.

In order to be considered for approval to offer a doctoral degree by special arrangement, the academic unit must have a regular master's program and have graduated students from that program during each of the last three years.

In order to be considered for approval to offer a master's degree by special arrangement, the academic unit must have an active Master or Honours undergraduate program and have graduated students from that program in each of the last three years.

It is the applicant's responsibility to arrange the details of the program. The Faculty of Graduate Studies and academic units are under no
obligation to arrange or approve special arrangement programs.

The Dean of Graduate Studies will set a quota for the number of individual special arrangement degrees permitted in any academic unit.

Admission
Applicants for degrees by special arrangement must follow the admission procedures and meet the entrance criteria for the Faculty of Graduate Studies.

Potential applicants must develop the degree program and assemble the supervisory committee before making formal application.

Proposal Approval
Admission will be approved by the Dean of Graduate Studies once the proposal has been reviewed and approved by the academic unit. This proposal is jointly developed by the applicant and the proposed primary supervisor and consists of a completed Individual Special Arrangement Program for Approval form (including signatures of proposed supervisory committee) and a rationale for the program.

Primary Academic Supervisor
A member of the supervisory committee from the sponsoring academic unit must be designated as the academic supervisor.

Degree Program and Supervisory Committee
The supervisory committee must conform to regulations concerning supervisory committees. The supervisory committee for a doctoral degree by special arrangement must include at least one member from an academic unit with an active, regular PhD program, and one member must have successful PhD supervisory experience. The supervisory committee for a master's degree by special arrangement must include at least one member from an academic unit with an active, regular master's program. At least one committee member must have supervised successful candidates for graduate degrees.

Any changes to a degree program or supervisory committee must be made in writing and approved by the Dean of Graduate Studies.

Program and Course Designation
The student's official record will indicate the program as “Special Arrangement.” The degree program can consist of appropriate courses from within the academic unit as well as regular courses from other academic units. Academic units with no regular graduate courses are authorized to create the following courses for special arrangement degree students only:

<table>
<thead>
<tr>
<th>Master's Programs</th>
<th>Doctoral Programs</th>
</tr>
</thead>
<tbody>
<tr>
<td>DEPT 580 (1.5-3.0) Directed Studies</td>
<td>DEPT 680 (1.5-3.0) Directed Studies</td>

<td>DEPT 699 (15.0-30.0) Dissertation</td>
</tr>
<tr>
<td>DEPT 598 (1.5-4.5) Individual Graduating Report/Project (project-based option)</td>
<td>1. May be taken more than once for credit provided course content differs.</td>
</tr>
<tr>
<td>DEPT 599 (6.0-12.0) Thesis</td>
<td>2. Grading is INP, COM, N, F.</td>
</tr>
</tbody>
</table>

Graduate Studies Courses by Special Arrangement
Academic units without approved graduate programs may be permitted to offer up to 3 units of graduate course work under the GS designation. Proposals for these courses must include approval by the funding academic unit(s) before being submitted to the Faculty of Graduate Studies for final approval. Proposal forms and detailed instructions are available through the Dean of Graduate Studies.

Students must seek prior approval from their supervisory committee for inclusion of these courses in their graduate programs, although they will be permitted to register in them as ‘extra’ to their program.

For descriptions of graduate courses by special arrangement (GS 500 and 501), see the GS course listings.

JOINTLY-SUPERVISED INDIVIDUAL PHD PROGRAM (CO-TUTELLE)

The University of Victoria offers students the ability to enter into a co-supervised PhD arrangement with one or more other universities. Individual programs are jointly designed, supervised and examined with the partner institution(s) and lead to one PhD degree jointly awarded by each of the partner universities.

Students wishing to pursue this PhD program option should consult with academic units in the respective universities. Students must meet the admission requirements of each partner university and it is expected that students will spend significant periods of time engaged in academic work at each university.

A Memorandum of Agreement will be established between the partner institution(s) and must have final approval from the Deans of Graduate Studies in each university. The Memorandum of Agreement will outline the specific details of the academic program that the student will be required to complete. The academic program must satisfy all PhD requirements at each university. The Memorandum of Agreement must also specify agreement on details related to the assignment of supervision, required coursework, comprehensive examination(s), dissertation requirements including the language, length and format of the dissertation, oral defense, and submission of the final dissertation.

From the outset, it will be agreed that one of the partner universities will be designated the ‘home’ university. The Memorandum of Agreement must also include and outline the arrangements amongst the partners on various responsibilities and regulations including the administration of student admission, registration, monitoring of progress, graduation, funding and student support, tuition and fees guidelines, and intellectual property guidelines.

For student programs for which the University of Victoria is designated the home institution, normally, the total period of registration at UVic shall not be less than six (6) full-time terms, and the student will pay a minimum of six (6) tuition installments.

For student programs for which the University of Victoria is designated the partner institution, normally, the total period of registration at UVic shall not be less than three full-time terms, and the student will pay a minimum of three (3) tuition installments.

The Memorandum of Agreement will be established as close to the students first registration as possible, and will be approved and signed no later than by the time a student has reached candidacy.

For more information regarding the Jointly-Supervised Individual PhD Program, please visit the Faculty of Graduate Studies website.

DOCTORAL DEGREES

Doctoral degrees are awarded for the creation and interpretation of knowledge that extends the forefront of the discipline or field of study, usually through new or original research. Holders of doctorates will be able to conceptualize, design and implement projects for the generation of significant new or original contribution to knowledge and/or understanding. Holders of doctorates will have the ability to make informed judgments on complex issues in specialist fields, and innovation in tackling and solving problems. Holders of the doctorate qualification will be able to:

- make informed judgments on complex issues in specialist fields, often in the absence of complete data, and be able to communicate their ideas and conclusions clearly and effectively to specialist and non-specialist audiences; and,
- continue to undertake pure and/or applied research and development at an advanced level, contributing substantially to the development of new techniques, ideas or approaches; and will have the qualities and transferable skills requiring the exercise of personal responsibility and largely autonomous initiative in complex and unpredictable situations, in professional or equivalent environments.

Doctorates are awarded to students who have demonstrated:

- the creation and interpretation of new or original knowledge, through original research, or other advanced scholarships, of a quality to satisfy peer review, extend the forefront of the discipline or field of study, and merit publication;
- a systematic acquisition and understanding of new or original knowledge which is at the forefront of an academic discipline or field of study, or area of professional practice;
- the general ability to conceptualize, design and implement a project for the generation of new or original knowledge, applications or understanding at the forefront of the discipline or field of study, and to adjust the project design in light of unforeseen problems; and,
- a detailed understanding of applicable techniques for research and advanced academic enquiry.

UVIC CALENDAR MAY 2015

FACULTY OF GRADUATE STUDIES
**Master’s Degrees**

Master’s degrees are awarded to students who have demonstrated:

- a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline, or field of study, or area of professional practice;
- a comprehensive understanding of techniques applicable to research or advanced scholarship;
- originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline;
- the ability to deal with complex issues analytically, systematically and creatively;
- the ability to engage in decision making in complex and unpredictable situations;
- the ability to communicate clearly with various audiences;
- the ability to develop new skills and continue to advance their knowledge and understanding; and
- the independent learning ability required for continuing professional development.

**Thesis-based Master’s Degrees**

In addition to the criteria for all Master’s Degrees, graduates of a master’s degree (thesis option) will demonstrate:

- conceptual understanding that enables the student to: critically evaluate current research and advanced scholarship in the discipline; and to evaluate methodologies and develop critiques of them and, where appropriate, propose new hypotheses;
- self direction and originality in tackling and solving problems, and in planning and implementing tasks at a professional or equivalent level.

**Project-based Master’s Degrees**

In addition to the criteria for all Master’s Degrees, graduates of a master’s degree (project-based option) will demonstrate:

- a high level of achievement in the application of knowledge required in the related field; and
- mastery of the skills required to complete a complex project in the related field.

**Course-only Master’s Degrees**

In addition to the criteria for all Master’s Degrees, graduates of a course-only master’s degree will demonstrate:

- the ability to be critical consumers of the kinds of research generally produced in their discipline(s);
- an in-depth understanding of the motivating concepts, problems, and insights of their degree programs.

**Diploma and Certificate Programs**

In general, Graduate Diplomas and Certificates have a specific target audience and meet a significant and sustained educational need. The intent of these programs is to achieve specialized or advanced knowledge in a particular discipline. Credit courses completed in graduate certificate and diploma programs may be applied to concurrent or subsequent graduate degree programs as specified by academic units in their degree program descriptions.

**Program Requirements - Doctoral Degrees**

When admitted to a graduate program, the student is expected to follow the program of study as described in the Graduate Calendar current at the time of their admission. If, in subsequent years, the program requirements for the same degree are altered, the student may change the requirements of their own degree to conform to the then-current calendar. A recommendation from the student’s academic supervisor and graduate adviser must be forwarded to the Dean of Graduate Studies for approval as early as possible after the change to the program.

**Minimum Degree Requirements**

The minimum requirement for the degree of Doctor of Philosophy is 30 units of work beyond the master’s level or 45 units beyond the bachelor’s level, and satisfactory completion of the prescribed program.

No more than 3.0 units of work at the senior Bachelor’s level may be taken for credit in a doctoral program. Any senior undergraduate courses (numbered 300–499) included in a graduate program must be pertinent to the program. Courses numbered at the 100 and 200 level may be included in the program as prerequisites but will be indicated on the student’s record as FNC (For No Credit); as well, courses indicated on the record as FNC will not be included in sessional or cumulative grade point average calculations.

All doctoral programs require that a broad knowledge of the field or fields of study be demonstrated through the candidacy examination. The major portion of the doctoral program will be devoted to a research project culminating in a dissertation which satisfies the requirements and standards of the Faculty of Graduate Studies.

**Doctoral Candidacy Examinations**

The candidacy examination is a requirement of the Faculty of Graduate Studies and cannot be waived by any academic unit. However, the precise form, content, and administration of such examinations are determined by individual academic units.

Normally, within thirty six months of registration as a provisional doctoral student and at least six months before the final oral examination, a student must pass a candidacy examination. However, individual academic units may impose shorter time frames. It is the responsibility of the student to be aware of and to satisfy the time limit regulations of their academic unit.

The purpose of the candidacy examination is to test the student’s understanding of material considered essential to completion of a PhD and/or the student’s competence to do research that will culminate in the PhD dissertation. The candidacy examination may be written, oral, or both at the discretion of the academic unit.

Individual academic units or supervisory committees may also require other examinations in addition to the candidacy examination. Such examinations may include those to test competence in languages other than English, in statistics, in computing, or in other basic research skills.

While there may be wide variety in the content of candidacy examinations, all such examinations must be consistent within each academic unit. Factors that must be consistent are the manner in which the examinations are constructed, conducted and evaluated. Academic units are responsible for ensuring this consistency.

Academic units are responsible for providing the student with a written statement of procedures, requirements and regulations pertaining to all such examinations. This information must be made available to doctoral students as soon as they enter the program. A copy of these procedures must be on file with the Faculty of Graduate Studies.

The Candidacy Examination course (numbered 693) can be either a pre- or a co-requisite to the Dissertation course (numbered 699) as determined by each individual academic unit. The regulations regarding the ordering of these courses are included under the course listings for each academic unit. All doctoral students must register for and pass the course numbered 693 (Candidacy Examination) in their academic unit in the terms in which they are preparing for or sitting the candidacy examination(s).

**Doctoral dissertations**

When research is completed, and before the dissertation is written, the student should consult the Faculty of Graduate Studies’ website and their home academic unit for information regarding the structure and formatting of the dissertation to ensure acceptability of the document to the University and Library and Archives Canada.

The doctoral dissertation must embody original work and constitute a significant contribution to knowledge in the candidate’s field of study. It should contain evidence of broad knowledge of the relevant literature, and should demonstrate a critical understanding of the works of scholars closely related to the subject of the dissertation. Material embodied in the dissertation should, in the opinion of scholars in the field, merit publication.

The general form and style of dissertations may differ from academic unit to academic unit, but all dissertations shall be presented in a form which constitutes an integrated submission. The dissertation may include materials already published by the candidate, whether alone or in conjunction with others. Previously published materials must be integrated into the dissertation while at the same time distinguishing the student’s own work from the work of other researchers. At the final oral examination, the doctoral candidate is responsible for the entire content of the dissertation. This includes those portions of co-authored papers which comprise part of the dissertation.

**Program Requirements - Master’s Degrees**

When admitted to a graduate program, the student is expected to follow the program of study as described in the Graduate Calendar current at the time of their admission. If, in subsequent
years, the program requirements for the same degree are altered, the student may change the requirements of their own degree to conform to the then-current calendar. A recommendation from the student's academic supervisor and graduate adviser must be forwarded to the Dean of Graduate Studies for approval as early as possible after the change to the program.

**Minimum Degree Requirements**
The minimum requirement for a master's degree is 15 units of work, and satisfactory completion of the prescribed program.

**Course Work, Research and Thesis**
Considerable variation is permitted in the balance between research and the course work required for the master's degree.

**Minimum Graduate Component of Master's Degree**
A master's candidate must complete a minimum of 12 units of graduate credit out of the total units required for the degree. Individual academic units may require a higher number of units at the graduate level. Courses numbered at the 100 and 200 level may be included in the program as prerequisites but will be indicated on the student's record as FNC (For No Credit in the graduate program); as well, courses indicated on the record as FNC will not be included in sessional or cumulative grade point average calculations. Any senior undergraduate courses (courses numbered 300–499) included in a graduate program must be pertinent to the program and must be in addition to the minimum 12 units of graduate credits required in all master's degree programs.

**Master's Theses**
When research is completed, and before the thesis is written, the student should consult the Faculty of Graduate Studies' website and their home academic unit for information regarding the structure and formatting of the thesis to ensure acceptability of the document to the University and Library and Archives Canada.

A master's thesis is an original lengthy essay which demonstrates the student's understanding of, and capacity to, employ research methods appropriate to their discipline(s). It should normally include a general overview of relevant literature in the field of study, be well organized and academically written. The work may be based on body of original data produced by the student or it may be an original research exercise conducted using scholarly literature or data produced and made available by others.

In general, a master's candidate must demonstrate a command of the subject of the thesis. A thesis demonstrates that appropriate research methods have been used and appropriate methods of critical analysis supplied. It provides evidence of some new contribution to the field of existing knowledge or a new perspective on existing knowledge.

The general form and style of theses may differ from academic unit to academic unit, but all theses shall be presented in a form which constitutes an integrated submission. The thesis may include materials already published by the candidate, whether alone or in conjunction with others. Previously published materials must be integrated into the thesis while at the same time distinguishing the student's own work from the work of other researchers. At the final oral examination, the Master's candidate is responsible for the entire content of the thesis. This includes those portions of co-authored papers which comprise part of the thesis.

**Project-based Master's Degrees**
Not all academic units offer the option of a project-based master's degree.

1. A program form must be completed as for all other graduate degrees.
2. A supervisory committee must be formed as described under "Graduate Studies Committees, Advisers, and Supervisors" below.
3. There must be evidence of independent research work which may be in the form of a project, extended paper(s), work report, etc. The credit value for this work may range from 1.5 to 4.5 units.
4. There shall be a formal evaluation of the degree. The academic unit may require a written comprehensive examination in place of, or in addition to, an oral examination. If an oral examination is conducted, it shall be done so in accordance with the regulations under "Examiners", page 36, and "Results of Oral Examinations (Project-based Master's degrees)", page 36.

**Course-only Master's Degrees**
Not all academic units offer the option of a course-only master's degree.

1. A program form must be completed as for all other graduate degrees.
2. A faculty supervisor, faculty adviser or mentor will normally be appointed as described under "Graduate Studies Committees, Advisers, and Supervisors" below. Normally there will not be a supervisory committee.
3. Each program of study shall include an element designed to provide students with the skills to enable them to be critical consumers of the kinds of research normally used in their discipline.
4. Each program of study shall include elements to provide students with an in-depth understanding of the motivating concepts, problems, and insights of their degree programs. This might be accomplished in a variety of ways such as a capstone course, a comprehensive examination, or a literature review.
5. The academic unit may require a written or oral examination. If an oral examination is conducted, it will normally be done so in accordance with the regulations under "Examiners", page 36, and "Results of Oral Examinations (Project-based Master's degrees)", page 36.

**Program Requirements - Graduate Diplomas and Certificates**
When admitted to graduate certificate and diploma programs, students are expected to follow the program of study as described in the Graduate Calendar current at the time of their admission. If, in subsequent years, the program requirements for the same program are altered, a student may opt to change to the requirements of the then-current calendar. A recommendation from the student's graduate adviser must be forwarded to the Dean of Graduate Studies for approval.

**Program Requirements**
Graduate Certificate programs of study are normally between 6.0-7.5 units of coursework at the 500- and/or 600-level, some of which may be specially-developed non-credit graduate courses.

Graduate Diploma programs of study are normally between 9.0-12.0 units of coursework at the 500- and/or 600-level, some of which may be specially-developed non-credit graduate courses.

Certificate and diploma programs may be taken by students who are concurrently admitted to a regular graduate degree program or by students admitted only for the purposes of obtaining the certificate or diploma. They may be integrated with, or complementary to, regular degree programs of graduate study, or may stand alone.

Credit courses completed in graduate certificate and diploma programs may be applied to concurrent or subsequent graduate degree programs with approval of both the faculty and the academic unit offering the degree as specified by academic units in their degree program descriptions.

Please note that once a degree, diploma or certificate has been awarded by the University Senate, no changes can be made to the programs that constitute that credential nor can the degree, diploma or certificate be rescinded at the request of the student. For instance, a student may not undertake completion of additional course requirements to qualify for a different credential, such as but not limited to changing an awarded MA in Geography to an MSc degree in Geography, or changing an awarded degree program to a certificate or diploma.

**Graduate Studies Committees, Advisers, and Supervisors**

**Academic Unit Graduate Studies Committee**
The Faculty of Graduate Studies strongly recommends that each academic unit have a Graduate Studies Committee and that this committee be chaired by the academic unit's Graduate Studies Adviser. The responsibilities of this committee may include such tasks as admission decisions, curriculum deliberations and administration of candidacy examinations. The Faculty also strongly recommends that the academic unit's Graduate Studies Committee have a graduate student representative.

**Academic Unit Graduate Studies Advisers**
The academic unit's Graduate Studies Adviser is the formal liaison officer between the academic unit and the Faculty of Graduate Studies. The academic unit's Graduate Studies Adviser makes recommendations to the Faculty of Graduate Studies on the following matters: admission to graduate programs, awards administered by the Faculty of Graduate Studies, changes to the student record including degree program, supervisory committee and registration. A request for an oral examination must also be signed by the academic unit's Graduate Studies Adviser. The academic unit's Graduate Studies Adviser will normally chair the academic unit's Graduate Studies Committee.
Primary Academic Supervisors

Students in all doctoral and master's programs will have a member of the Faculty of Graduate Studies assigned as primary academic supervisor, faculty adviser or mentor to counsel the student in academic matters. The primary academic supervisor must be from the academic unit offering the degree program.

In particular, the primary academic supervisor must be aware of Calendar and Faculty of Graduate Studies regulations and provide guidance to the student on the nature of research, the standards expected, the adequacy of progress and the quality of work. See the document "Responsibilities in the Supervisory Relationship" on the Faculty of Graduate Studies website for more information.

The primary academic supervisor should maintain contact with the student through mutually agreed upon regular meetings, and be accessible to the student to give advice and constructive criticism. Supervisors who expect to be absent from the University for an extended period of time are responsible for making suitable arrangements with the student and the academic unit's Graduate Studies Adviser for the continued supervision of the student or for requesting the academic unit to nominate another supervisor. Such absences and the resulting arrangements must be approved by the Dean of Graduate Studies.

Co-Supervisor

One co-supervisor, in addition to the primary academic supervisor, may be designated in cases where the level of supervision and/or support to be provided by the co-supervisor is greater than normally expected from regular members of a supervisory committee. The co-supervisor is nominated by the academic unit of the student and must be a member of the Faculty of Graduate Studies. Co-supervision is limited to one primary supervisor and one additional co-supervisor.

Supervisory Committees

Students in all doctoral programs and students in thesis and project-based master's programs will have a supervisory committee nominated by the academic unit and approved by the Dean of Graduate Studies. The academic supervisor will facilitate all activities of the supervisory committee. All members of a supervisory committee must be on the Faculty of Graduate Studies membership list or be specifically approved by the Dean.

Within the first session of attendance in a graduate degree program, a primary supervisor must be nominated. Unless otherwise specified, the remainder of the prescribed supervisory committee will be nominated and named forward to the Graduate Admissions and Records Office by the graduate adviser within two sessions of the first registration in the thesis, project or dissertation.

The duties of the committee include: recommending a program of study chosen in conformity with the Faculty of Graduate Studies and academic unit's regulations; supervision of the project, thesis or dissertation; participation in a final oral examination when the program prescribes such an examination. The committee may conduct other examinations, and will recommend to the Faculty of Graduate Studies whether or not a degree be awarded to a candidate. See the document "Responsibilities in the Supervisory Relationship" on the Faculty of Graduate Studies website for more information.

Membership in the Faculty of Graduate Studies

Members of the Faculty of Graduate Studies demonstrate commitment to scholarship, professional achievement and, where appropriate, credentials or artistic achievement. As members of supervisory committees, they play a key role in guiding graduate students to success. Appointments to membership in the Faculty of Graduate Studies are made by the Dean of the Faculty of Graduate Studies in one of three categories.

- Regular membership for tenured and tenure-track faculty members who wish to teach graduate courses, supervise graduate students, chair examining committees, and vote at Faculty of Graduate Studies general meetings. Membership is typically granted for the length of the academic appointment.
- Associate membership for others who wish to serve on supervisory committees or teach graduate students. Membership is granted for fixed terms.
- Emeritus membership for retired University of Victoria faculty who have appointments as emeritus professors and wish to serve on supervisory committees or teach graduate students. Membership is granted for fixed terms.

Procedures for becoming a member of the Faculty of Graduate Studies can be found on the Faculty of Graduate Studies website.

Composition of the Supervisory Committee: Doctoral Degrees

Listed below are the minimum requirements for doctoral supervisory committees. Additional supervisory committee members who are on the Faculty of Graduate Studies membership list may be added without the approval of the Dean. All committee members must be members of the Faculty of Graduate Studies or have had specific permission from the Dean of Graduate Studies to serve as a member.

Doctoral Degrees in Regular Doctoral Degree Programs

All members of the Doctoral supervisory committee must be on the Faculty of Graduate Studies membership list or be specifically approved by the Dean of Graduate Studies. The supervisory committee must have at least two members one of whom is the primary supervisor:

- Member #1: The primary supervisor — must be from the home academic unit
- Member #2: May be a co-supervisor

Project-based Master's Degrees in Regular Master's Degree Programs

All members of the Master's supervisory committee must be on the Faculty of Graduate Studies membership list or be specifically approved by the Dean of Graduate Studies. The supervisory committee must have at least two members one of whom is the primary supervisor:

- Member #1: The primary supervisor — must be from the home academic unit
- Member #2: May be a co-supervisor

Course-only Master's Degrees in Regular Master's Degree Programs

The faculty supervisor, faculty adviser or mentor and members of the supervisory committee, if one is struck, must be on the Faculty of Graduate Studies membership list or be specifically approved by the Dean of Graduate Studies. The supervisory committee must be from the student's home academic unit.

Master's Degrees By Special Arrangement (With Theses)

As in Regular Master's Degree Programs, with the provisos that at least one member must be from an academic unit with an active PhD program and at least one member must have supervised a successful PhD candidate.

Individual Interdisciplinary Doctoral Degrees

As in Regular Doctoral Degree Programs, with the provisos that there must be co-supervisors from two relevant academic units, at least one of whom must be from an academic unit with an active PhD program and at least one member must have supervised a successful PhD candidate.

Composition of the Supervisory Committee: Master's Degrees

Listed below are the minimum requirements for master's supervisory committees. Additional supervisory committee members who are on the Faculty of Graduate Studies membership list may be added without the approval of the Dean. All committee members must be members of the Faculty of Graduate Studies or have had specific permission from the Dean of Graduate Studies to serve as a member.

Master's Degrees With Theses in Regular Master's Degree Programs

All members of the Master's supervisory committee must be on the Faculty of Graduate Studies membership list or be specifically approved by the Dean of Graduate Studies. The supervisory committee must have at least two members one of whom is the primary supervisor:

- Member #1: The primary supervisor — must be from the home academic unit
- Member #2: May be a co-supervisor

Project-based Master's Degrees in Regular Master's Degree Programs

All members of the Master's supervisory committee must be on the Faculty of Graduate Studies membership list or be specifically approved by the Dean of Graduate Studies. The supervisory committee must have at least two members one of whom is the primary supervisor:

- Member #1: The primary supervisor — must be from the home academic unit
- Member #2: May be a co-supervisor

Course-only Master's Degrees in Regular Master's Degree Programs

The faculty supervisor, faculty adviser or mentor and members of the supervisory committee, if one is struck, must be on the Faculty of Graduate Studies membership list or be specifically approved by the Dean of Graduate Studies. The supervisory committee must be from the student's home academic unit.

Master's Degrees By Special Arrangement

As in Regular Master's Degree Programs, with the provisos that at least one member must be from an academic unit with a regular graduate degree program and at least one member must have supervised a successful Master's degree candidate.
program, and must have supervised successful candidates for graduate degrees.

**Individual Interdisciplinary Master’s Degrees**

As in Regular Master’s Degree Programs, with the provisos that there must be co-supervisors from two relevant academic units, at least one of whom must be from an academic unit with a regular graduate degree program, and at least one member must have supervised successful candidates for graduate degrees.

---

**Registration**

**Definition of Full-Time Status**

Any student who is registered for a single term in Winter Session (September to December OR January to April) OR Summer Session (May to August) is defined as full-time if:

- enrolled in courses totaling a minimum of 3 units, or
- enrolled in a Candidacy Exam (693), dissertation (699), thesis (399), project (398 and some 596), Approved Exchange (502), Jointly Supervised Doctoral Program (601, 602) or co-operative education work term (800+).

**Definition of Part-Time Status**

A part-time student is defined as any student who does not fall into any of the above categories with the exception of graduate students registered with the Office of the Students with a Disability who have been granted permission by the Dean of the Faculty of Graduate Studies to pursue 693, 699, 599, 598 on a part-time basis and to be levied part-time fee instalments.

**Residency Requirement**

The Faculty of Graduate Studies has no general minimum residency requirements however academic units may require students to be in attendance on campus for all or a portion of the time period for their degree.

**Continuity of Registration**

All students admitted to the Faculty of Graduate Studies must either register for credit in every term from the time of admission until the requirements of the degree have been met, or register for a personal leave, or formally request a parental or compassionate/medical leave of absence, or formally withdraw in accordance with the regulations below. Registration instructions will be sent to all students who are authorized to register.

Students who do not:
- register for credit
- register for a personal leave of absence,
- have approval for a parental or compassionate/medical leave of absence, or
- formally withdraw from their program
are considered to have abandoned their program. That program will be terminated and they will be withdrawn from the university. The notation “Withdrawn Without Permission” will be entered on the transcript.

**Eligible to Register**

Students in good standing who were registered or on a leave of absence (see above) in the most recent session at the University will be automatically eligible for registration in the next session. Students who have withdrawn under any other circumstances and who wish to return, or students who are transferring into another degree program, are required to complete an Application to Reregister. Forms are available through the Graduate Admissions and Records Office or on the website at [www.uvic.ca/graduatestudies/admissions/registration/reregistration](http://www.uvic.ca/graduatestudies/admissions/registration/reregistration).

Students who have registered at another university or college since last in attendance at the University are required to state the names of all educational institutions of post-secondary level attended and to submit an Application to Reregister and two official transcripts of their academic records at these institutions to the Graduate Admissions and Records Office at least eight weeks prior to the start of classes.

**Curriculum Advising and Program Planning (CAPP)**

CAPP reports provide a summary of academic requirements for a student’s declared program. Graduate students who are active, temporarily inactive, or withdrawn with Dean’s permission will be able to view their CAPP online in My Page. Updates to the CAPP report will be forwarded to the Graduate Admissions and Records Office by the graduate adviser. When all program requirements are complete, students are expected to review and approve their final CAPP report before applying to graduate.

**Late Registration**

The period for late registration in the Winter Session is the first ten days of classes; in the Summer Session, it is the first two days of classes. Permission of the Dean of Graduate Studies is required for late registration beyond these dates. A late registration fee will be assessed.

**Pro Forma Registration**

Pro forma course registration requires submission of a completed pro forma form. Pro forma forms should only be submitted for those courses in the course listings section of this calendar that clearly indicate a pro forma is required. Typically these courses are numbered 590 or 690.

**Registration in Courses Outside a Graduate Program**

Students may register in courses which are not part of the formal requirements of their graduate program if:

- the courses will contribute to the research or provide background for the program, and
- the courses have been approved by the student’s supervisor.

This provision is not intended to be used to take courses for eventual transfer to a subsequent graduate program, nor to take undergraduate courses in an undergraduate degree, certificate, or diploma program. In exceptional cases and with the approval of the academic unit, the Dean of Graduate Studies may approve the concurrent registration of a graduate student in an undergraduate program. The (Faculty of Graduate Studies) Dean’s permission is required for all course work outside of the program area. For undergraduate courses that also have course surcharges in addition to the course fee, the surcharges will apply and will be extra to the cost of the graduate degree.

**Registration by Undergraduates in Graduate Courses**

Students in their final year of a bachelor’s degree program at the University of Victoria who have a grade point average of at least 6.0 (B+) in the last 15 units of course work attempted may be permitted to register in a maximum of 3 units of 500-level graduate courses on the recommendation of the academic unit concerned and with the consent of the Dean of Graduate Studies. Such courses cannot be used for credit in a subsequent undergraduate or graduate program at the University of Victoria if this work is used to satisfy the requirement for another credential.

No application for admission or supporting documentation is required; the graduate adviser of the academic unit in which the courses are to be taken must send a recommendation to the Dean of Graduate Studies, specifying the courses selected. When written permission is received from the Dean, the approved graduate courses will be added to the undergraduate record.

**Registration as an Auditor**

An individual who is either a graduate student or holds a baccalaureate degree and is recommended to the Faculty of Graduate Studies by an academic unit may be permitted to audit graduate courses.

A continuing graduate student must register in credit courses, thesis, project or dissertation, and must add the audit courses using a Graduate Course Change Form. A student who is only auditing courses should submit to Graduate Admissions and Records a completed Auditor Entry Form, as well as provide a transcript of degree. A student whose first language is not English, and who has resided in Canada or other English-speaking countries less than three consecutive years immediately prior to the beginning of the session applied for, must demonstrate competency in English (see “English Language Proficiency”, page 18).

Registration as an auditor is subject to the following conditions:

1. Admission to the course is dependent on the class size and other factors that the instructor and academic unit establish.
2. Students who are also registered in credit courses may change their registration from audit to credit, or credit to audit, up to the last day to add courses for the term or session.
3. The degree of participation in the course is at the discretion of the academic unit.
4. Audited courses will not appear on the student’s official transcript and will not be considered as meeting admission, prerequisite or course requirements for any graduate program.
5. Audit fees are payable at the end of the month in which the auditor registers, and are refundable according to University deadlines.
6. Graduate students will not be assessed audit fees for audited courses if:
• the courses will contribute to the student's research or provide background for the program, and
• the courses have been approved by the student's supervisor.

LETTER OF PERMISSION FOR STUDIES ELSEWHERE

Students currently registered in a graduate program who wish to undertake studies at another institution for transfer credit toward their graduate degree at UVic must apply in writing to the Graduate Admission and Records Office, specifying the host institution, the exact courses of interest and their unit values. The application must be supported in writing by the supervisor. Students will be required to provide supporting information such as a calendar description or course syllabus. If permission is granted, the student must either take a leave of absence or register concurrently in a comprehensive exam, project, thesis, dissertation or Co-op Work Term at the University of Victoria. Students must make arrangements for an official transcript to be sent directly to the Graduate Admissions and Records Office upon completion of the course work.

APPROVED EXCHANGE PROGRAMS

Students currently participating in a graduate program who wish to undertake studies for transfer credit toward their graduate degree at the University of Victoria may be eligible for “exchange” status under the provisions of the Western Deans' Agreement or other formal exchange agreements. Contact the Graduate Admissions and Records Office for specific details of agreements and procedures.

REGISTRATION IN DOUBLE DEGREE PROGRAMS

The University of Victoria offers double degree programs in selected fields of study. Students may apply to the relevant academic unit(s) for approval to enter in double degree options. There is no common application form or registration process. Students must apply to the Faculty of Graduate Studies and to the relevant academic unit(s) to be admitted in accordance with the existing policies of each. Once admitted, students in a double degree program must register separately in each academic unit. Students will register in both degrees concurrently and must follow the regulations of each. Students will inform the Graduate Admissions and Records Office when they have been admitted to a double degree program. Because of the wide variety of academic backgrounds of applicants, specific degree program requirements may vary from student to student.

The academic records of students in double degree programs will be maintained separately for each academic unit. Fees for double degree programs will be assessed in accordance with existing regulations. Students in approved double degree programs which span an undergraduate and a graduate program must have the permission of the Dean of Graduate Studies to register concurrently as a graduate and undergraduate student. If, at any time, a student terminates participation in a particular double degree program, permission does not extend to pursuing any other degrees concurrently with a graduate degree. Only those grades for courses that appear on the Faculty of Graduate Studies record will be used for the purposes of making Graduate Studies awards, determining adherence to the Faculty of Graduate Studies academic performance regulations and assessing graduate fees.

Separate degrees will be awarded upon completion of the requirements applicable to the particular degree.

REGISTRATION AFTER ORAL EXAMINATION OF DISSERTATION OR THESIS OR AFTER PROJECT-BASED ORAL EXAMINATION OR COMPREHENSIVE EXAMINATION

After successful completion of a dissertation or thesis final oral defense, or the final comprehensive examination (or equivalent) for a project-based master's degree, students are not permitted to be enrolled in courses in the Faculty of Graduate Studies except as indicated below:
• registration in dissertation or thesis until required revisions are complete
• Co-op work terms as required to receive the Co-op designation for the graduate degree
• Graduate Studies Internship Program placements
• registration in a course that may be required to complete degree requirements
• other registration as approved by the Dean of Graduate Studies

A student registered in courses other than those listed above will automatically be dropped from all such courses upon notification to the Graduate Admissions and Records Office of successful completion of the oral or comprehensive examination.

DEADLINES FOR DROPPING COURSES

Students may use “My page” to drop first-term courses until the last day of classes in October, and second-term and full-year courses until the last day of classes in February. Students who fail to do so will receive a failing grade (N) for the course.

Students should note that fee refund deadlines for the Faculty of Graduate Studies differ from the course drop deadlines. Students may not take or receive credit for courses in which they are not registered and may not drop courses after Faculty of Graduate Studies deadlines without permission of the Dean.

Non-degree and auditing students may cancel their registration by submitting a Graduate Course Change Form to the Graduate Admissions and Records Office by the specified deadlines for dropping courses.

TIME LIMITS

The time limits shown below are University of Victoria requirements and are in no way related to time limits established by funding agencies or loan remission programs. Contact your sponsor or student loan office for details on time limits for those purposes.

Students with permanent disabilities may apply for a time limit extension for reasons directly related to their disability. Requests for such extensions must be directed in writing to the Office of the Dean of Graduate Studies and must be accompanied by a supporting letter from the Resource Centre for Students with a Disability or from a physician. RCDs advisers will certify that the request for an extension is supported by documentation supplied by the student in accordance with the Policy on Providing Accommodation for Students with a Disability.

Where a time extension due to a disability is granted the program extension fee will not apply and students will be charged the standard re-registration fee for each term until degree completion.

For more information on applying for a time extension for reasons associated with a disability, contact the coordinator of the Resource Centre for Students with a Disability at 250-472-4947 or <inforscd@uvic.ca>.

Time Limit for Doctoral Degrees

Normally, a student proceeding toward a doctoral degree will be required to complete all the requirements within seven years (eighty-four consecutive months) from the date of first registration in the program. If a student transfers to a doctoral program after an initial period in a master's program, completion is required within seven years of the date of the first registration in the master's program. A doctoral degree will not be awarded in less than twenty-four consecutive months from the time of first registration.

Students must obtain approval for a program extension prior to the time limit expiry date. Students with course work forming part of the degree requirements that is more than 10 years old at the time of the program extension may be required to demonstrate currency within their field of study before the extension is granted. If a program extension is not approved prior to the program expiry date, the student will normally not be permitted to continue in or return to that program.

Time Limit for Master's Degrees

Normally, a student proceeding toward a master's degree will be required to complete all the requirements for the degree within five years (sixty consecutive months) from the date of the first registration in the master's degree. In no case will a degree be awarded in less than twelve consecutive months from the time of first registration.

Students must obtain approval for a program extension prior to the time limit expiry date. Students with course work forming part of the degree requirements that is more than 10 years old at the time of the program extension may be required to demonstrate currency within their field of study before the extension is granted. If a program extension is not approved prior to the program expiry date, the student will normally not be permitted to continue in or return to that program.

Time Limit for Graduate Diplomas and Certificate Programs

Normally, a student proceeding toward a Graduate Diploma or Certificate will be required to complete all program requirements in three years (Diploma) or two years (Certificate) from the date of the first registration in the program.
Students who fail to obtain permission for an extension prior to the time limit expiry date, will be considered to have abandoned their graduate program. Students who wish to have their abandoned program reactivated must have a letter of recommendation forwarded from the academic unit to the Dean of Graduate Studies. If approval is given, a reinstatement fee must be paid to the Graduate Admissions and Records Office.

**Time Limit for Students in Co-op Programs**

Students who enrol in co-operative education work terms will have additional months added to the normal completion times noted above equal to the time registered in co-op work terms, to a maximum of 12 months.

**Academic Concessions**

The Faculty of Graduate Studies is committed to the University’s policy on Academic Accommodation and Access for Students with Disabilities. Graduate Studies will work with students with disabilities to consider reasonable accommodation with respect to deadlines and time-limited regulations. If a graduate student elects not to disclose his or her disability, the University cannot ensure the appropriate evaluation or implementation of any necessary academic accommodation.

A student who is affected by illness, accident or family affliction should immediately consult with Counselling Services, University Health Services or another health professional. In such cases, the student may apply for a deferral of a course grade, withdrawal from the course due to extenuating circumstances, a drop of course(s) without academic and/or fee penalty after the published withdrawal deadline, or a leave of absence from the program due to illness, accident or family affliction.

Applications for leaves of absence from the program must be accompanied by supporting documentation.

Students may request, directly from the course instructor, deferral or substitution of work which is due during the term. Arrangements to complete such missed or late work must be made between the student and the instructor. If the request for deferral or substitution of term work is denied, the student may appeal as described in Appeals Procedures: Faculty of Graduate Studies, which is available at the Faculty of Graduate Studies website.

Students requesting consideration for a drop of courses without academic penalty after the published withdrawal deadline should submit a request for a backdated withdrawal and supporting documentation to the Office of the Faculty of Graduate Studies.

**Leaves of Absence with Permission and Withdrawal from Graduate Programs**

Leaves of absence are available to students for a variety of reasons or circumstances after completion of a minimum of one term. Normally, tuition fees are not assessed during leaves. While students are on a leave, all supervisory processes are suspended. Students can neither undertake any academic or research work nor use any of the University's facilities during the period of the leave. All leave arrangements must be discussed as early as possible with supervisors so that appropriate adjustments can be made prior to the beginning of the leave. Leaves of absence are normally granted in 4-month blocks, to coincide with the usual registration terms. Short-term leaves of less than one term should be managed with the student's academic unit.

There are four types of leaves of absence:
1. Personal Leave
2. Parental Leave
3. Medical Leave
4. Compassionate Leave

**Personal Leave**

Students who are not on approved program extensions may take leaves for personal reasons. Students planning to take personal leave must inform their supervisor in writing in advance of the planned absences, and make appropriate arrangements for care of ongoing research projects if necessary before initiating personal leaves through the UVic portal. The time taken for personal leave will be counted toward the maximum time allotted to degree completion. All program requirements, academic unit expectations and deadlines will remain the same.

- **Students in Doctoral degree programs** may take a maximum of 6 terms within the maximum 7-year period allowed.
- **Students in regular Master's degree programs** may take a maximum of three terms within the maximum 5-year period allowed.
- **Students in approved one-year master's programs** may take only one term of personal leave unless a second term of leave has been approved by the Dean of Graduate Studies.
- **Students enrolled in Diploma programs** may take a maximum of two terms of personal leave.
- **Students enrolled in Certificate programs** may take one term of personal leave.

**Parental Leave**

A graduate student who is bearing a child, and/or who has primary responsibility for the care of a child immediately prior to or following birth or an adoption is entitled to request parental leave. Parental leaves may be granted for a minimum of one term (four months) renewable to a maximum period of three terms (12 months). Requests should be made in writing by the student to the Dean of Graduate Studies and include appropriate documentation. This type of leave period is not included in the time period for completion of the degree, and deadlines will be adjusted accordingly. All other program requirements and academic unit expectations will remain the same.

Documentation required: a letter from the student outlining the circumstances, a letter from a physician or other qualified professional and written acknowledgement from the student's supervisor and the graduate adviser.

**Medical Leave**

Graduate students are entitled to request medical leave. Students should forward their requests and appropriate documentation to the Dean of Graduate Studies. This type of leave period is not included in the time period for completion of the degree, and deadlines will be adjusted accordingly. All other program requirements and academic unit expectations will remain the same.

For information on applying for a leave of absence for reasons associated with a disability, contact the coordinator of the Resource Centre for Students with a Disability at 250-472-4947 or <info@uvic.ca>.

Documentation required: a letter from the student explaining the circumstances, a letter from a physician or other qualified professional and written acknowledgement from the student's supervisor and the graduate adviser.

**Compassionate Leave**

Leaves of absence for compassionate reasons normally have a 3-term limit. Such leaves may be consecutive or cumulative (not to exceed 3 terms in total). Students requiring additional time after 3 terms will need to officially withdraw from the Faculty of Graduate Studies. Students should forward their requests and appropriate documentation to the Dean of Graduate Studies. This type of leave period is not included in the time period for completion of the degree, and deadlines will be adjusted accordingly. All other program requirements and academic unit expectations will remain the same.

Documentation required: a letter from the student outlining the circumstances and written acknowledgement from the student's supervisor and the graduate adviser. Additional documentation may be required depending upon the attendant circumstances.

Students granted parental, medical or compassionate leave will retain the full value of a University of Victoria Graduate Fellowship or other award whose terms and conditions are established by the Faculty of Graduate Studies. Such awards will be suspended at the onset of the leave and reinstated when the student registers. Other awards will be paid according to the conditions established by the donor or granting agency.

A Leave of Absence with Permission Request form is available online at: <www.uvic.ca/graduastudies/assets/docs/docs/forms/Leave_of_Absence_with_Permission.pdf>.

**Withdrawals**

There are three types of withdrawals:
1. **Official Withdrawal**
2. **Withdrawal Without Permission**
3. **Withdrawal for Failing to Meet Academic Standards**

**Official Withdrawal**

After completion of a minimum of one term, students who wish to withdraw indefinitely from their program in the Faculty of Graduate Studies must apply in writing to the Dean. A supporting memo from their supervisor (or graduate adviser if there is no supervisor) should accompany the application. The notation “Officially Withdrawn” will be placed on their permanent record. Should a student return to the program, the time spent “Officially Withdrawn” is not counted as part of the normal time allowed for completion of their program (see “Time Limits”, page 26). Students who have outstanding fees cannot be officially withdrawn.
Faculty of Graduate Studies

Readmission is not guaranteed and requires the approval of both the academic unit concerned and the Faculty of Graduate Studies. Readmission does not guarantee that any courses or fee installments from the terminated program will be transferred to the reactivated program (see “Transfer of Academic Credit” and “Tuition Credit for Academic Transfer Credits”, page 33). Upon readmission, any courses or fee installments from the abandoned program will only be transferred to the new or reactivated program on the recommendation of the academic unit and approval from the Dean of Graduate Studies.

The first step in re-establishing a program of study is to examine the work that has been done previously in order to determine whether it still provides a foundation for the research in the field at the time of re-admission and to establish what is needed to ensure currency and comprehensiveness of knowledge. Completed courses which are more than 10 years old are considered to be out of date.

Withdrawal Without Permission

Students who withdraw without permission prior to reaching the maximum time limit for their graduate degree program are considered to have abandoned their program. Students who wish to have their abandoned program reactivated must complete an application for reinstatement through the online My UVic Application System. A reinstatement application fee will be assessed.

Readmission is not guaranteed and requires the approval of both the academic unit concerned and the Faculty of Graduate Studies. Readmission does not guarantee that any courses or fee installments from the terminated program will be transferred to the reactivated program (see “Transfer of Academic Credit” and “Tuition Credit for Academic Transfer Credits”, page 33). Upon readmission, any courses or fee installments from the abandoned program will only be transferred to the new or reactivated program on the recommendation of the academic unit and approval from the Dean of Graduate Studies.

The first step in re-establishing a program of study is to examine the work that has been done previously in order to determine whether it still provides a foundation for the research in the field at the time of re-admission and to establish what is needed to ensure currency and comprehensiveness of knowledge. Completed courses which are more than 10 years old are considered to be out of date.

Withdrawal for Failing to Meet Academic Standards

A student whose dissertation, thesis or project is not progressing satisfactorily, or who otherwise fails to meet academic standards, will be withdrawn from the Faculty of Graduate Studies. Normally, such students will not be eligible for re-admission to any graduate program in the Faculty of Graduate Studies. Such withdrawals require approval by the Dean of Graduate Studies, and departments may consult with an Associate Dean of Graduate Studies where a withdrawal for failure to meet academic standards is being considered. Withdrawals may not be initiated by a department while a student is on an approved leave of absence.

Vacation for Graduate Students

Graduate students are entitled to a minimum of 10 working days of vacation per year (i.e. 10 days that do not include weekends, statutory holidays or the December university closure). Students may combine these days with weekend vacations in smaller increments or combine their vacation days with statutory holidays or the December university closure for an extended absence. In all cases the time spent in advance of the planned absences, and make appropriate arrangements for care of ongoing research projects if necessary. The time taken for vacation leave will be counted toward the maximum time allotted to degree completion. All program requirements, academic unit expectations, and deadlines will remain the same.

Faculty Academic Regulations

Students’ Responsibilities

See the document “Responsibilities in the Supervisory Relationship” on the Faculty of Graduate Studies website for more information.

Students are responsible for:

• making themselves familiar with the general Calendar regulations of the Faculty of Graduate Studies. If unsure about any aspect of the Faculty regulations, students should contact the Graduate Admissions and Records Office.

• making themselves familiar with the academic unit’s requirements and deadlines. If unsure about any aspect of the academic unit’s regulations, students should contact the Graduate Adviser in their academic unit.

• ensuring that their courses have been chosen in conformity with the Faculty of Graduate Studies and academic unit’s regulations. Students are also responsible for ensuring the completeness and accuracy of their registration. Any discrepancy between the program they are following and the Calendar regulations, or discrepancy between the program they are following and that recorded in the Graduate Admissions and Records Office must be reported promptly to the Graduate Admissions and Records Office. Students should also inform their academic supervisor, supervisory committee and academic unit’s graduate studies adviser that they have reported the matter. Discrepancies can often be detected by examining the Curriculum Advising and Program Planning (CAPP) form. If unsure about any aspect of their records, students should contact the Graduate Admissions Office.

• making themselves familiar with their fee obligations as outlined in the fee regulations section (see “Tuition and Other Fees”, page 38). If unsure about any aspect of the fee regulations, students should contact the Graduate Admissions and Records Office.

• maintaining open communication with their academic supervisor, supervisory committee, and academic unit’s graduate studies adviser through mutually agreed upon regular meetings. Any problems, real or potential, should be brought to the attention of the academic supervisor, supervisory committee and academic unit’s graduate studies adviser promptly. Students should be aware that formal routes of appeal exist. See “Appeals”, page 37.

• promptly reporting changes in address and telephone number to Graduate Admissions and Records Office or updating their records on <www.uvic.ca/mypage>. A letter mailed to a student’s address as it appears on record in the Graduate Admissions and Records Office will be deemed adequate notification to the student for all matters concerning the student’s record.

• submitting to a medical examination at any time during attendance at the University, if required by the University. This measure exists to safeguard the medical welfare of the student body as a whole. Students are required to maintain appropriate sickness and hospital insurance. See “Health Services”, page 11.

• making themselves familiar with the regulations under “Research Approval Requirement”, page 30.

Policy on Academic Integrity

Principles of Academic Integrity

Academic integrity requires commitment to the values of honesty, trust, fairness, respect, and responsibility. It is expected that students, faculty members and staff at the University of Victoria, as members of an intellectual community, will adhere to these ethical values in all activities related to learning, teaching, research and service. Any action that contravenes this standard, including misrepresentation, falsification or deception, undermines the intention and worth of scholarly work and violates the fundamental academic rights of members of our community. This policy is designed to ensure that the university’s standards are upheld in a fair and transparent fashion.

Nothing in this policy is intended to prohibit students from developing their academic skills through the exchange of ideas and the utilization of resources available at the university to support learning (e.g., The Writing Centre). Students who are in doubt as to what constitutes a violation of academic integrity in a particular instance should consult their course instructor.

Definitions

In this policy:

• “work” is defined as including the following: written material, laboratory work, computer work, computer code, assignments, research materials, research results, musical or art works, oral reports, audiovisual or recorded presentations, lesson plans, and material in any medium submitted to an instructor for grading purposes.

• “Dean” is defined as the Dean of a student’s faculty and, in the case of graduate students, is defined as the Dean of Graduate Studies.

• “Chair” is defined as including the Chair or Director of a unit or, in the case of non-departmentalized faculties, the Dean.

• “instructor” is defined to include instructors and graduate supervisors.
Academic Integrity Violations
Academic integrity violations covered by this policy can take a number of forms, including the following:

Plagiarism
A student commits plagiarism when he or she:
• submits the work of another person in whole or in part as original work
• gives inadequate attribution to an author or creator whose work is incorporated into the student's work, including failing to indicate clearly (through accepted practices within the discipline, such as footnotes, internal references and the crediting of all verbatim passages through indentations of longer passages or the use of quotation marks) the inclusion of another individual's work
• paraphrases material from a source without sufficient acknowledgement as described above

The university reserves the right to use plagiarism detection software programs to detect plagiarism in essays, term papers and other work.

Multiple Submission
Multiple submission is the resubmission of work by a student that has been used in identical or similar form to fulfill any academic requirement at UVic or another institution. Students who do so without prior permission from their instructor are subject to penalty.

Falsifying Materials Subject to Academic Evaluation
Falsifying materials subject to academic evaluation includes, but is not limited to:
• fraudulently manipulating laboratory processes, electronic data or research data in order to achieve desired results
• using work prepared in whole or in part by someone else (e.g., commercially prepared essays) and submitting it as one's own
• citing a source from which material was not obtained
• using a quoted reference from a non-original source while implying reference to the original source
• submitting false records, information or data, in writing or orally

Cheating on Work, Tests and Examinations
Cheating includes, but is not limited to:
• copying the answers or other work of another person
• sharing information or answers when doing take-home assignments, tests or examinations except where the instructor has authorized collaborative work
• having in an examination or test any materials or equipment other than those authorized by the examiners
• accessing unauthorized information when doing take-home assignments, tests or examinations
• impersonating a student on an examination or test, or being assigned the results of such impersonation
• accessing or attempting to access examinations or tests before it is permitted to do so

Aiding Others to Cheat
It is a violation to help others or attempt to help others to engage in any of the conduct described above.

Procedures for Dealing with Violations of Academic Integrity
Procedures for determining the nature of alleged violations involve primarily the course instructor and the Chair. Procedures for determining an appropriate penalty also involve Deans, the Vice-President Academic and Provost and, in the most serious cases, the President.

Allegations
Alleged violations must be documented by the instructor, who must inform the Chair. The Chair shall then inform the student in writing of the nature of the allegation and give the student a reasonable opportunity to respond to the allegation. Normally, this shall involve a meeting between the instructor, the Chair, the student and, if the student requests in advance, another party chosen by the student to act as the student's adviser. If the student refuses to provide a response to the allegation or to participate in the process, the Chair may proceed to make a determination.

Determining the Nature of the Violation
The Chair shall make a determination as to whether compelling information exists to support the allegation.

Determining Appropriate Penalties
If there is compelling information to support the allegation, the Chair shall contact the Office of the Registrar to determine if the student's record contains any other confirmed academic integrity violations.

If there is no record of prior violations, the Chair shall make a determination with respect to the appropriate penalty, in accordance with this policy.

Referral to the Dean
Where there have been one or more prior violations and the Chair has determined that compelling information exists to support the allegation, the Chair shall forward the case to the Dean (or the Dean's designate). The Chair may submit a recommendation to the Dean with respect to a proposed penalty.

Letters of Reprimand
Any penalty will be accompanied by a letter of reprimand which will be written by the authority (Chair, Dean, President) responsible for imposing the penalty. The letter of reprimand will be sent to the student and a copy shall be included in the record maintained by the Office of the Registrar.

Rights of Appeal
Students must be given the right to be heard at each stage, and have the right to appeal decisions in accordance with university policy, procedures and regulations. A student may:
• appeal a decision made by the Chair to the Dean of the faculty in which the student is registered within 21 business days of the date of the Chair's decision.
• appeal a decision made by the President under the provisions of section 61 of the University Act to the Senate Committee on Appeals in accordance with the Senate Committee on Appeals' Terms of Reference and Procedural Guidelines.

Deans who receive an appeal of the decision of a Chair should attempt to make a finding with respect to the appeal within 21 business days. In the case of a successful appeal, any penalty will be rescinded.

Penalties
Penalties for First Academic Integrity Violation
In situations where a determination is made that a student has committed a first academic integrity violation, the following penalties will normally be imposed. The penalties for violations relating to graduate dissertations, theses or final projects are different than those for other violations.

Plagiarism
Single or multiple instances of inadequate attribution of sources should result in a failing grade for the work. A largely or fully plagiarized piece of work should result in a grade of F for the course.

Multiple Submission Without Prior Permission
If a substantial part of a piece of work submitted for one course is essentially the same as part or all of a piece of work submitted for another course, this should result in a failing grade for the assignment in one of the courses. If the same piece of work is submitted for two courses, this should result in a grade of F for one of the courses. The penalty normally will be imposed in the second (i.e., later) course in which the work was submitted.

Falsifying Materials
If a substantial part of a piece of work is based on false materials, this should result in a failing grade for the work. If an entire piece of work is based on false materials (e.g., submitting a commercially prepared essay as one's own work), this should result in a grade of F for the course.

Cheating on Exams
Any instance of impersonation of a student during an exam should result in a grade of F for the course for the student being impersonated, and disciplinary probation for the impersonator (if he or she is a student). Isolated instances of copying the work of another student during an exam should result in a grade of zero for the exam. Systematic copying of the work of another student (or any other person with access to the exam questions) should result in a grade of F for the course. Any instance of bringing unauthorized equipment or material into an exam should result in a grade of zero for the exam. Sharing information or answers for take-home assignments and tests when this is clearly prohibited in written instructions should result in a grade of zero for the assignment when such sharing covers a minor part of the work, and a grade of F for the course when such sharing covers a substantial part of the work.

Collaborative Work
In cases in which an instructor has provided clear written instructions prohibiting certain kinds of collaboration on group projects (e.g., students may share research but must write up
the results individually), instances of prohibited collaboration on a substantial part of the work should result in a failing grade for the work, while instances of prohibited collaboration on the bulk of the work should result in a grade of F for the course.

In situations where collaborative work is allowed, only the student or students who commit the violation are subject to penalty.

Violations Relating to Graduate Dissertations, Theses or Final Projects
Instances of plagiarism or falsification of materials that affect a minor part of the student's dissertation, thesis or final project should result in the student being placed on disciplinary probation with a notation on the student's transcript that is removed upon graduation, and being required to rewrite the affected section of the dissertation, thesis or final project. While the determination of the nature of the offence will be made by the Chair, this penalty can only be imposed by the Dean.

Instances of plagiarism or falsification of materials that affect a major part of the student's dissertation, thesis or final project should result in the student being placed on disciplinary probation with a notation on the student's transcript that is removed upon graduation, and being required to rewrite the work in its entirety. While the determination of the nature of the offence will be made by the Chair, this penalty can only be imposed by the Dean.

The penalties for violations relating to graduate dissertations, theses or final projects may apply where a violation occurs in submitted drafts, as well as in the final version of a dissertation, thesis or final project.

Particularly Unusual or Serious Violations
In the case of a first-time violation that is particularly unusual or serious (e.g., falsification of research results), the Chair may refer the case to the Dean, with a recommendation for a penalty.

Violations Relating to Graduate Dissertations, Theses or Final Projects
Instances of plagiarism or falsification of materials that affect a minor part of the student's dissertation, thesis or final project should result in the student being placed on disciplinary probation with a notation on the student's transcript that is removed upon graduation, and being required to rewrite the affected section of the dissertation, thesis or final project. While the determination of the nature of the offence will be made by the Chair, this penalty can only be imposed by the Dean.

Instances of plagiarism or falsification of materials that affect a major part of the student's dissertation, thesis or final project should result in the student being placed on disciplinary probation with a notation on the student's transcript that is removed upon graduation, and being required to rewrite the work in its entirety. While the determination of the nature of the offence will be made by the Chair, this penalty can only be imposed by the Dean.

The penalties for violations relating to graduate dissertations, theses or final projects may apply where a violation occurs in submitted drafts, as well as in the final version of a dissertation, thesis or final project.

Particularly Unusual or Serious Violations
In the case of a first-time violation that is particularly unusual or serious (e.g., falsification of research results), the Chair may refer the case to the Dean, with a recommendation for a penalty.

Violations Relating to Graduate Dissertations, Theses or Final Projects
Instances of plagiarism or falsification of materials that affect a minor part of the student's dissertation, thesis or final project should result in the student being placed on disciplinary probation with a notation on the student's transcript that is removed upon graduation, and being required to rewrite the work in its entirety. While the determination of the nature of the offence will be made by the Chair, this penalty can only be imposed by the Dean.

Instances of plagiarism or falsification of materials that affect a major part of the student's dissertation, thesis or final project should result in the student being placed on disciplinary probation with a notation on the student's transcript that is removed upon graduation, and being required to rewrite the work in its entirety. While the determination of the nature of the offence will be made by the Chair, this penalty can only be imposed by the Dean.

The penalties for violations relating to graduate dissertations, theses or final projects may apply where a violation occurs in submitted drafts, as well as in the final version of a dissertation, thesis or final project.

Penalties for Second or Subsequent Academic Integrity Violation
Repeat Violations
Any instance of any of the violations described above committed by a student who has already committed one violation, especially if either of the violations merited a grade of F for the course, should result in the student being placed on disciplinary probation. Disciplinary probation will be recorded on the student's transcript. The decision to place a student on disciplinary probation with a notation on the student's transcript that is removed upon graduation can only be made by the Dean.

In situations where a student commits two or more major academic integrity violations, the student may be placed on disciplinary probation with a permanent notation on the student's transcript. The decision to place a student on disciplinary probation with a permanent notation can only be made by the Vice-President Academic and Provost (or delegate), upon recommendation of the Dean. In making this decision, the Vice-President Academic and Provost will consider factors such as the nature of the major violations, and whether there has been an interval between violations such that learning could have taken place.

If a student on disciplinary probation commits another violation, this should result in the student's permanent suspension. This decision can only be taken by the President, on the recommendation of the Dean.

In situations where a graduate student who has been placed on disciplinary probation after a first offence commits a second offence, the student should be subject to permanent suspension. This decision can only be taken by the President, on the recommendation of the Dean.

Non Course-Based Penalties
If a student has withdrawn from a course or the university, or is not registered in a course associated with a violation, this policy must still be followed. If a determination is made that compelling information exists to support the allegation against a student, a letter of reprimand and, if appropriate, a more serious penalty in this policy should be imposed, although no course-based penalty may be imposed.

Records Management
Violations of academic integrity are most serious when repeated. Records of violations of this policy are kept to ensure that students who have committed more than one violation can be identified and appropriately sanctioned. Access to these records is restricted to protect students' right to privacy.

Records
Records relating to academic integrity violations will be stored in the Office of the Registrar. Chairs, Directors and Deans (whichever is responsible for imposing the penalty) will report academic integrity violations and will forward all documentation relating to a violation to the Office of the Registrar once the decision regarding a violation has been made. Records will only be kept in the following cases: where it is determined that compelling information exists to support an allegation. In the case of a successful appeal, the record maintained by the Office of the Registrar will be removed.

Access to Records
Only Deans, the Registrar and the Directors of Undergraduate and Graduate Records will have access to student records regarding academic integrity violations, and normally only to check for repeat violations. Access to records will not normally be granted to instructors, Chairs, or other staff. Chairs may contact the Office of the Registrar to determine if the student's record contains any confirmed academic integrity violations.

i) In some special circumstances, there may be reasons why Deans or faculty members need to have access to this information (e.g., character attestation for purposes of professional accreditation). If a faculty intends to request access to students' records for any such purpose, that purpose must be disclosed by the faculty to students.

ii) Deans and Chairs may request aggregate information from the Office of the Registrar on numbers of violations for purposes of analysis, but in this case the information is to be provided without revealing personal information.

Records Retention
The following retention periods apply to records relating to academic integrity violations:

i) First violations - 5 years after the final decision regarding the violation has been made.

ii) Second or subsequent violations where no permanent notation has been made on a student's transcript - 5 years after the final decision regarding the violation has been made.

iii) Second or subsequent violations where a permanent notation has been made on a student's transcript – permanent retention.

Notations on a student's transcript will be removed upon graduation or maintained permanently, in accordance with the penalty imposed under this policy.

A student who has had a permanent notation imposed on his or her transcript may make an application to the Vice-President Academic and Provost to have the notation removed. This application may be made 10 years after the final decision regarding the violation has been made and must include compelling evidence to explain why the notation should be removed.

Academic Performance
Students in the Faculty of Graduate Studies must achieve a grade point average of at least 5.0 (B) for every session in which they are registered. Individual academic units may set higher standards. Students with a sessional or cumulative average below 5.0 will not be allowed to register in the next session until their academic performance has been reviewed by their supervisory committee and continuation in the Faculty is approved by the Dean of Graduate Studies.

Grades for courses designated FNC (for no credit) or used for Transfer Credit will not be used in the calculation of sessional or cumulative grade point averages.

Every grade of 4.0 (B-) or lower in a course taken for credit in the Faculty of Graduate Studies must be reviewed by the supervisory committee of the student and the academic unit graduate adviser and a recommendation made to the Dean of Graduate Studies. Such students will not be allowed to register in the next session until approved to do so by the Dean.

Conditions may be imposed by the Faculty (upon the advice of the supervisory committee) for continuation in the program; if not met within the specified time limit, the student will be withdrawn.

A student whose dissertation, thesis or project is not progressing satisfactorily, or who otherwise fails to meet academic standards, will be withdrawn from the Faculty of Graduate Studies. Normally, such students will not be eligible for re-admission to the Faculty of Graduate Studies.

Research Approval Requirement
Students are responsible for assuring that, prior to undertaking research during their program, they receive the appropriate review and approvals from the Office of Research Services. Where applicable, research should be approved by the appropriate committee(s): The Human Research...
Ethics Committee, the Animal Care Committee and the Biosafety Committee. Further information about ethics approval requirements and application forms can be found at <www.uvic.ca/research/conduct/regapproval>.

**Confidentiality of Interest**

The University of Victoria's Conflict of Interest policies apply to the Faculty of Graduate Studies. Copies of these policies are available in the academic unit's offices and on the University website.

**Evaluation of Student Course Work**

**Assessment Techniques**

Each academic unit will formally adopt the techniques for evaluating student performance which it considers appropriate for its courses and which allow instructors within the academic unit some options.

Assessment techniques may include but are not limited to: assignments; essays; oral or written tests, including midterms; participation in class discussions; seminar presentations; artistic performances; professional practice; laboratory examinations; "open book" or "take home" examinations; and examinations administered by the instructor or Registrar during formal examination periods. Graduate students may be asked to reflect critically on their own work or the work of other graduate students; however, in all courses, instructors are responsible for the determination of grades. Graduate students may not grade the work of other graduate students, except that the grading of individual assignments may be delegated, under close instructor supervision, to doctoral student teaching assistants who have completed all their coursework and passed their candidacy exams. Graduate students may not serve as the instructor of record for graduate courses.

Final examinations, other than language or laboratory examinations, will be administered during formal examination periods.

- Tests counting for more than 15% of the final grade may not be administered:
  - in any regular 13-week term, during the last two weeks of classes or in the period between the last day of classes and the first day of examinations
  - in any Summer Session course, during the three class days preceding the last day of the course.

- Neither the academic unit nor the instructor, even with the apparent consent of the class, may set aside this regulation.

- An instructor may not schedule any test that conflicts with the students' other courses or any examination that conflicts with the students' other examinations in the official examination timetable.

- An instructor may not schedule any test during the last two weeks of classes in a regular 13-week term unless students in the course have been given notice at least six weeks in advance.

- An instructor may not assign a weight of more than 60% of the overall course grade to a final examination without the consent of the Dean of Graduate Studies.

**Correction and Return of Student Work**

Instructors will normally return all student work submitted that will count toward the final grade, except final examinations.

Instructors are expected to give corrective comments on all assigned work submitted and, if requested to do so by the student, on final examinations.

Where appropriate and practical, instructors should attempt to mark students' work without first determining the student's identity.

**Course Outline Requirement**

Instructors are responsible for providing the academic unit's Chair and the students in the course with a written course outline at the beginning of the course. The outline must state the course content and/or objectives and the following information:

- a probable schedule with the due dates for important assignments and tests
- the techniques to be used to assess students' performance in the course
- how assignments, tests and other course work will be evaluated and the weight assigned to each part of the course
- the relationship between the instructor's grading method (letter, numerical) and the official University grading system

Instructors who use electronic media to publish their course outline should ensure that students who do not have access to the electronic outline are provided with a printed version. They must file printed versions of their outlines with their academic unit.

Instructors should attach the university's "Policy on Academic Integrity" (see page 28) to the course outline. In addition, instructors who plan to use a plagiarism detection software program to detect plagiarism in essays, term papers, and other assignments should include a statement to that effect in the course outline provided to students.

**Duplicate Essays and Assignments**

A student may only submit the same essay or assignment for two courses when both instructors have been informed and have given their written permission to the student.

If a student submits an essay or assignment essentially the same in content for more than one course without prior written permission of the instructors, an instructor may withhold partial or total credit for the course work.

**English Deficiency**

Term essays and examination papers in any course will be refused a passing grade if they are deficient in English. When an instructor has reasonable grounds for believing a student lacks the necessary skills in written English, the instructor, in consultation with the English department's Director of Writing, can require the student to write an English Deficiency Examination, administered by the English department, the results of which will be binding, regardless of any credit the student has accumulated at UVic or elsewhere.

**Laboratory Work**

In any science course which includes laboratory work, students will be required to achieve satisfactory standing in both parts of the course.

Results for laboratory work will be announced by the academic unit prior to the final examinations. Students who have not obtained a grade of at least D will not be permitted to write the examination and will not receive any credit for the course. If a student obtains satisfactory standing in the laboratory work only and repeats the course, the student may be exempted from the laboratory work with the consent of the academic unit. The same rules may, at the discretion of the academic unit concerned, apply to non-science courses with laboratory work.

**Term Assignments and Debarment from Examinations**

In some courses students may be assigned a final grade of N or debarred from writing final examinations if the required term work has not been completed to the satisfaction of the academic unit concerned. Instructors in such courses must advise students of the standard required in term assignments and the circumstances under which they will be assigned a final grade of N or debarred from examinations.

**Review of an Assigned Grade**

Any student wishing clarification about, or who is dissatisfied with, an assigned grade should first discuss the matter with the instructor, who will review the work in question. This discussion must take place within 10 business days of the grade being posted and the review completed within 21 business days of the start of the discussion. If the instructor agrees to change a grade before the final course grades have been submitted, a change of grade request should be made through the Chair to the Graduate Admissions and Records Office.

If the instructor confirms the original grade, then the student should appeal to the Chair/Director of the unit concerned, stating clearly the grounds on which the grade should be raised. The Chair should initiate a review of the grade, using the procedures adopted by the faculty in which the Chair's academic unit resides. If the Chair does not agree to review the grade, then the student has the right to formally request a review of the grade through the Office of the Dean of Graduate Studies. The student normally remains a member of their home academic unit during any appeal.

The grade determined by means of a review shall be recorded as the final official grade, irrespective of whether it is identical to, or higher or lower than, the original grade.

**Grading**

The table on the following page displays the official grading system used by the Faculty of Graduate Studies.

**Sessional Grade Point Average**

The sessional grade point average is based on all courses completed in a session which have a weight greater than zero. Courses bearing the grade COM, grades designated as FNC or those used for transfer credit are not included in the calculation of the grade point average.

A grade point average is found by multiplying the grade point value of each final grade by the number of units, totalling the grade points for all the grades, and dividing the total grade points by the total number of units.
### Faculty of Graduate Studies – Grading Scale

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Point Value</th>
<th>Percentage *</th>
<th>Description</th>
<th>Achievement of Assignment Objectives</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>9</td>
<td>90 – 100</td>
<td>Exceptional Work</td>
<td>Technically flawless and original work demonstrating insight, understanding and independent application or extension of course expectations; often publishable.</td>
</tr>
<tr>
<td>A</td>
<td>8</td>
<td>85 – 89</td>
<td>Outstanding Work</td>
<td>Demonstrates a very high level of integration of material demonstrating insight, understanding and independent application or extension of course expectations.</td>
</tr>
<tr>
<td>A-</td>
<td>7</td>
<td>80 – 84</td>
<td>Excellent Work</td>
<td>Represents a high level of integration, comprehensiveness and complexity, as well as mastery of relevant techniques/concepts.</td>
</tr>
<tr>
<td>B+</td>
<td>6</td>
<td>77 – 79</td>
<td>Very good work</td>
<td>Represents a satisfactory level of integration, comprehensiveness, and complexity; demonstrates a sound level of analysis with no major weaknesses.</td>
</tr>
<tr>
<td>B</td>
<td>5</td>
<td>73 – 76</td>
<td>Acceptable work that fulfills the expectations of the course</td>
<td>Represents a satisfactory level of integration of key concepts/procedures. However, comprehensiveness or technical skills may be lacking.</td>
</tr>
<tr>
<td>B-</td>
<td>4</td>
<td>70 – 72</td>
<td>Unacceptable work revealing some deficiencies in knowledge, understanding or techniques</td>
<td>Represents an unacceptable level of integration, comprehensiveness and complexity. Mastery of some relevant techniques or concepts lacking. Every grade of 4.0 (B-) or lower in a course taken for credit in the Faculty of Graduate Studies must be reviewed by the supervisory committee of the student and a recommendation made to the Dean of Graduate Studies. Such students will not be allowed to register in the next session until approved to do so by the Dean.</td>
</tr>
<tr>
<td>C+</td>
<td>3</td>
<td>65 – 69</td>
<td>Moderate Work</td>
<td>Represents a satisfactory level of integration and comprehensiveness; mastery of some relevant techniques or concepts lacking.</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
<td>60 – 64</td>
<td>Adequate Work</td>
<td>Represents an acceptable level of integration, comprehensiveness and mastery of some relevant techniques or concepts.</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
<td>50 – 59</td>
<td>Poor Work</td>
<td>Represents a basic level of integration and comprehensiveness; mastery of some relevant techniques or concepts lacking.</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
<td>0 – 49</td>
<td>Failing grade</td>
<td>Unsatisfactory performance. Wrote final examination and completed course requirements.</td>
</tr>
<tr>
<td>CTN</td>
<td>Excluded Grade</td>
<td>N/A</td>
<td>Continuing</td>
<td>Denotes the first half of a full-year course.</td>
</tr>
<tr>
<td>FNC</td>
<td>Excluded Grade</td>
<td>N/A</td>
<td>For No Credit</td>
<td>Denotes a 100-299 level undergraduate course for no credit in the Faculty of Graduate Studies.</td>
</tr>
</tbody>
</table>

Students in the Faculty of Graduate Studies must achieve a grade point average of at least 5.0 (B) for every session in which they are registered. Individual departments or schools may set higher standards. Students with a sessional or cumulative average below 5.0 will not be allowed to register in the next session until their academic performance has been reviewed by their supervisory committee and continuation in the Faculty of Graduate Studies is approved by the Dean. Some academic units may employ a percentage system for evaluating student’s work.

**Other Failing or Temporary Grades**

- **N** 0 0 – 49 Did not write examination or otherwise complete course requirements by the end of term or session. This grade is intended to be final.
- **COM** N/A N/A Used only for 0 unit courses and other graduate courses designated by the Senate. Such courses are identified in the course listings.
- **INC** N/A N/A Incomplete (requires “Request for Extension of Grade” form). Used for those graduate credit courses designated by the Senate and identified in the course listings; also used, with Dean’s permission, for those graduate credit courses with regular grading (A to F, including N) which are not complete by the end of the term or session due to exceptional circumstances beyond the control of the instructor or student. INC must be replaced by a final grade not later than the end of the next term.
- **INP** N/A N/A In Progress. Used only for work terms; dissertations; theses; projects; comprehensive examinations and seminars offered on the same basis as dissertations or theses and designated by Senate (identified in the course listings). In the case of work terms, a final grade must replace INP within two months of the end of term. For dissertations, theses, designated seminars, projects and comprehensive, a final grade must replace INP by the end of the program. If the student does not complete the degree requirements within the time limit for the degree, the final grades will be N.
- **N/X** Excluded Grade N/A Did not complete course requirements by the end of the term; no supplemental. Used only for Co-op work terms and for courses designated by Senate. Such courses are identified in the course listings. The grade is EXCLUDED from the calculation of all grade point averages.
- **F/X** Excluded Grade N/A Unsatisfactory performance. Completed course requirements; no supplemental. Used only for Co-op work terms and for courses designated by Senate. Such courses are identified in the course listings. The grade is EXCLUDED from the calculation of all grade point averages.
- **CIC** N/A N/A Co-op Interrupted Course. Temporary grade. See “General Regulations: Graduate Co-op”, page 34.
- **WE** N/A N/A Withdrawal under extenuating circumstances. The WE registration status will replace a course registration or grade when approved by the Dean following a request for academic concession from a student. This registration status is excluded from the calculation of all grade point averages; it will appear on the official transcript.

*The grading scale for the evaluation of course achievement at the University of Victoria is a percentage scale that translates to a 9 point GPA/letter grade system. The 9 point GPA system is the sole basis for the calculation of grade point averages and academic standing. Standardized percentage ranges have been established as the basis for the assignment of letter grades. The percentage grades are displayed on the official and administrative transcripts in order to provide fine grained course assessment which will be useful to students particularly in their application to graduate studies and for external scholarships and funding. Comparative grading information (average grade [mean] for the class), along with the number of students in the class, is displayed for each course section for which percentage grades are assigned.*
**Course Credit**

**Course Challenge**

Graduate course challenge is not allowed in the Faculty of Graduate Studies.

**Duplicate Courses**

In the case of duplicate courses (DUP), both grades will be used in the calculation of the sessional and cumulative grade point average, provided they are not designated as FNC (For No Credit).

Note: When a course is repeated, the original grade remains on the student's record during the session it was taken.

**Transfer of Academic Credit**

On the recommendation of the academic unit concerned, the Faculty of Graduate Studies may accept courses for which credit has been granted at other accredited and recognized post-secondary institutions or at the University of Victoria for inclusion in a graduate program. However, transfer credits may account for no more than half of the program units earned for a graduate credential at the University of Victoria.

In order to qualify for transfer credit, courses must meet all of the following conditions:
1. must be a graduate or senior-level undergraduate course;
2. courses graded Pass/Fail or equivalent are not acceptable;
3. must be completed with a grade of 5.0 (B) or equivalent, as indicated on the official transcript from the issuing institution;
4. courses taken to upgrade admissions qualification to meet the minimum admission standards of the Faculty of Graduate Studies will not be accepted for transfer credit into a graduate program;
5. must not have been used to obtain any degrees; and
6. must have been completed within the previous 10 years.

The titles and grades of courses allowed for transfer credit from another institution do not appear on the University of Victoria transcript. Grades for transferred courses will not be used in determining sessional or cumulative grade point averages. Credit granted at another institution on the basis of "life" or "work" experience is not acceptable for transfer credit.

**Tuition Credit for Academic Transfer Credits**

Tuition credit may be obtained toward a subsequent degree program only for courses taken for academic credit at the University of Victoria. Allowable fee credits are one tuition installment for each term of 3.0 units of academic credit to a maximum of three tuition installments.

Students holding a University of Victoria graduate certificate may be given a maximum fee credit of two tuition installments toward a master's or PhD degree provided that the student enrolls in the degree program within the first, second, or third immediately subsequent terms after the completion of the certificate or diploma.

Students holding a University of Victoria graduate diploma may be given a maximum fee credit of three tuition installments toward a master's or PhD degree provided that the student enrolls in the degree program within the first, second, or third immediately subsequent terms after the completion of the certificate or diploma.

Students must inform students at the beginning of term in writing of the minimum attendance required at lectures and in laboratories in order to qualify to write examinations.

Students who are absent because of illness, an accident or family affliction should report to their instructors upon their return to classes.

**Changes to Program Requirements**

1. Students' programs will normally be governed by the regulations of the Faculty of Graduate Studies in effect at the date of their first registration in the faculty.
2. Where the Faculty of Graduate Studies regulations change program requirements before the student has completed her or his degree, the student, with the approval of the disciplinary faculty1, may elect to be governed by the new regulations.
3. Where an academic unit does not propose to provide access to courses necessary to satisfy previous program requirements for at least five years2, that unit must provide a transition program for any student registered in the Faculty of Graduate Studies at the date of the program change who demonstrates that satisfying the new program requirements will extend the length of time (number of terms) that the student requires to complete her or his current program.
4. An academic unit has no obligation to provide access to courses necessary to satisfy previous program requirements to provide transitional programs for more than five years after the date of the program change.
5. Where a student believes that a program requirement change has unfairly prejudiced her or him due to special circumstances, and that these regulations do not apply to the student's situation, the student may request the Chair or Director or Associate Dean to establish a transition program. A student may appeal a negative decision to the Dean or the Dean's designate. The decision of the Dean or designate is final.3

1. In some faculties (particularly Education), accreditation requirements may not permit a change in regulations midway through a student's program.
2. The change to five years reflects the number of years some faculties allow to complete their degree program.
3. Because it is impossible to foresee all situations in which unfairness may arise (for example, a student transferring in with advanced standing from a program affiliated with a UVic program), this general regulation will allow for special circumstances.

**Co-operative Education**

Most academic units and schools at the University of Victoria participate in graduate Co-operative Education which integrates periods of full-time employment with the academic program. Some graduate programs include Co-op as a mandatory component of the program; others include Co-op as an optional component. Consult the academic unit's calendar entries for more information.

Approval to participate in graduate Co-op is at the discretion of the student's academic unit in consultation with the Faculty of Graduate Studies and the Executive Director of Co-operative Education. Where approval is granted, procedures must adhere to the regulations set out under the General Regulations below. For
information, please contact the Co-operative Education Coordinator or the Graduate Adviser in the academic unit concerned. Co-operative Education is not open to non-degree graduate students.

In academic units where a formal graduate Co-operative Education program exists, work opportunities are negotiated through the appropriate Co-operative Education coordinator.

Where no formal Co-op program exists, graduate Co-op placements are negotiated on an individual basis and may be initiated by interested employers, academic unit's representatives or graduate students. In this case, students are directed to consult with the Office of the Director, Co-operative Education Program. The work experience must be related to the student's area of study.

Special regulations apply to the MBA program

ADMISSION

Admission, retention and graduation requirements for Co-operative Education Programs are determined by the individual academic units. Consult the calendar entries in these areas for further information.

Students must apply to the appropriate academic unit for admission to the Co-op Program. All students in the Co-operative Education Program are required to read, sign, and abide by the Terms and Conditions of Participation as articulated by their Co-op Program. In general, Co-op students are required to achieve an above-average academic standing, and to demonstrate the motivation and potential to pursue a professional career.

WORK TERMS

As an integral component of Co-operative Education Programs, students are employed for a number of work terms, which are arranged and evaluated by the individual academic units. Co-op program coordinators must review all potential Co-op positions and evaluate their suitability for work term credit. Coordinators may determine some positions as unsuitable.

Work terms, normally of four months' duration, begin in January, May, and September. Normally, the expected number of weeks per work term is 15 and the expected number of hours per week is 35. The minimum number of weeks per work term is 12 and the minimum number of hours per week is 35. Work terms generally alternate with full-time academic terms on campus, and provide productive and paid, full-time work experience that is related to the student's program of studies and individual interests. In special circumstances, approval may be granted for a work term to be undertaken on a more flexible schedule, as long as it does not exceed eight months and the total time worked is equivalent to a four-month term of full-time work. Normally, students are expected to end their program on an academic term.

In limited situations, students may be admitted on a provisional basis into a co-operative education program pending formal admission into the related academic program; such students may, with special authorization by the Executive Director, Co-operative Education, on the recommendation of the academic director responsible for admission to the academic program, undertake a first Co-op work term.

In such cases, the Co-op work term will be recorded on the student's transcript as COOP 001 and the program as COOP, and, if successfully completed, will be accepted as one of the required work terms for the student's Co-op program.

Students registered for work terms are considered to be enrolled in a full-time course of studies.

Three units of academic credit are awarded for each approved work term successfully completed according to the requirements of the various faculties and their Co-op programs. These credits may only be applied to completion of the work term requirement of an approved Co-op program. These work term credits may not be applied towards requirements for any degree or program except in fulfillment of the Co-op work term requirement as noted above.

Work Term Preparation

Co-op students are expected to complete successfully a program of seminars and workshops (typically one hour per week), prior to undertaking their first work term. This program is designed to prepare students for the work term.

The following topics will be covered: Co-op program objectives/expectations, job seeking skills, competencies self-assessment, transferring skills to the workplace, learning objectives, job performance progress, competencies development and evaluation. Students should consult with their coordinator for program schedule information. This program is a corequisite for students participating in the placement process prior to their first work term.

GENERAL REGULATIONS: GRADUATE CO-OP

1. Approval to participate in graduate Co-op is at the discretion of the student's academic unit in consultation with the Faculty of Graduate Studies and the Executive Director, Co-operative Education Programs. Co-operative Education is not open to students in graduate certificates and diplomas, and non-degree graduate students.

2. Normally, some graduate course work precedes the first graduate work term; exceptions must be approved by the Faculty of Graduate Studies and the Executive Director, Co-operative Education Programs. The first work term must precede completion of program's academic requirements, and all work terms must be completed prior to completion of degree requirements. Normally, a graduate program should not end with a Co-op term unless the student is concurrently registered in 596, 598, 599, or 699.

3. Master's students must register for each work term at the 800 level, and doctoral students must register for each work term at the 811 level. Normally, work terms are of four month duration. Back-to-back work terms may be undertaken, but students must complete requirements for each work term in order to receive credit for two work terms. Students who wish to register for course work while on a work term must have prior written approval from their academic supervisor and Co-op coordinator. Students may register for a work term as required to receive the Co-op designation for their graduate degree after oral examination of dissertation or thesis, or after project-based oral examination or comprehensive examination as outlined on page 26.

4. Once the work term has been registered, students are not permitted to withdraw without penalty of failure unless specific written permission has been granted by the Executive Director, Co-operative Education Programs. Co-op students must either be registered in a work term or an academic term and are subject to continuity of registration regulations as outlined on page 25.

5. Each work term is evaluated on the basis of the student's performance of assigned work term tasks and a final work term submission as defined by the individual department. The work term period and evaluation (grading: INP, COM, F/X, or N/X) are recorded on the student's official academic record. A failing grade (F/X or N/X) will be assigned if the student fails to complete satisfactorily the requirements for the work term. The requirements for a passing grade (COM) in a work term normally include the completion of all of the following:
   • the Co-op program's satisfactory assessment of the work term,
   • the employer's satisfactory evaluation of the student,
   • the satisfactory completion of the final work term submission (such as report, performance review, log book, journal) according to the deadlines established by the individual department.

Students who are assigned a grade of F/X or N/X for a work term that carries 3.0 units will have a zero grade point assigned for that work term. The written submission may constitute a thesis proposal or report of progress on the thesis. If not thesis-related, the submission will focus on the program-related work and will be required to be of suitable quality for graduating level work as determined by the academic unit. In academic units where a formal Co-operative Education program exists, the Co-op coordinator will be responsible for ensuring the assessment of the work term and the submission of the grade; where no formal Co-op program exists, the graduate adviser will ensure the assessment of the work term and the submission of the grade.

6. A Co-op program fee is charged for each term of work term registration. This fee is in addition to any tuition fees and student fees. It is due in the first month of each work term and subject to the normal University fee regulations (see "Regulations Concerning Tuition Fees for Graduate Programs", page 39).

7. To qualify for the Co-op designation upon graduation, a Master's degree requires a minimum of two work terms (normally of four month's duration each) and a doctoral degree requires the completion of a minimum of three work terms. Specific program areas may require more work terms and some programs may, after formal assessment, provide partial exemptions for prior experience.

8. Normally, a site visit will be undertaken by the student's thesis supervisor, academic unit's Co-op coordinator, graduate adviser or other appropriate faculty member.
**Graduate Studies Work Experience Program**

The Graduate Studies Work Experience Program is intended for students in the Faculty of Graduate Studies who are enrolled in full-time studies, leading to master's or doctoral degrees. Students participating in the Graduate Studies Work Experience Program will complete one work experience term, that is, four months of full-time, discipline-related work under the supervision of the appropriate graduate Co-op Program. Approval to participate in the graduate work experience program is at the discretion of the student's academic unit, in consultation with the Faculty of Graduate Studies and the Executive Director of Co-operative Education. Where approval is granted, procedures must adhere to the regulations set out under the General Regulations for Graduate Co-op programs in the University Calendar.

In academic units where a formal graduate Co-operative Education program exists, work opportunities are negotiated through the appropriate Co-operative Education coordinator. Where no formal Co-op program exists, graduate Co-op placements are negotiated on an individual basis and may be initiated by interested employers, academic unit's representatives or graduate students. In this case, students are directed to consult with the Office of the Director, Co-operative Education Program. For information, please contact the Co-operative Education Coordinator or the Graduate Adviser in the academic unit concerned.

**Graduate Studies Internship Program**

The Graduate Studies Internship Program is intended for students in the Faculty of Graduate Studies who are enrolled in full-time studies, leading to master's or doctoral degrees. Students participating in the Graduate Studies Internship Program will complete internship placements, that is, full-time, discipline-related work under the supervision of the appropriate graduate Co-op Program. Internships occur after all academic coursework has been completed, including successful completion of a dissertation or thesis final oral defense, or the final comprehensive examination (or equivalent) for a project-based master's degree, and prior to graduation. Internships can be of any length, but will be typically four or eight or twelve months of consecutive internship placements. Not all Co-op programs participate in the Graduate Internship Program; where it is permitted, regulations are determined by the individual Co-operative Education Programs. Approval to participate in the graduate internship program is at the discretion of the student's academic unit, in consultation with the Faculty of Graduate Studies and the Executive Director of Co-operative Education. Where approval is granted, procedures must adhere to the regulations set out under the General Regulations for Graduate Co-op programs in the University Calendar where appropriate.

In academic units where a formal graduate Internship program exists, internship placements are negotiated on an individual basis and may be initiated by interested employers, academic unit's representatives or graduate students. In this case, students are directed to consult with the Office of the Director, Co-operative Education Program. For information, please contact the Co-operative Education Coordinator or the Graduate Adviser in the academic unit concerned.

**Student Appeal Procedures**

1. Students who are not satisfied with the decision of the Co-op coordinator should attempt to resolve their concerns at the Co-op program level.
2. If a student is not satisfied with a decision at the program level, the student may appeal the decision in writing to the Dean of Graduate Studies and the Executive Director of Co-operative Education, with a copy to the Co-op coordinator who made the decision or ruling being appealed. The Co-op coordinator may file a written response to the appeal to the Dean and the Executive Director, with a copy to the appellant. The Dean and the Executive Director will review the appeal.
3. The Dean and the Executive Director may request additional written submissions from the student and the coordinator and may invite the student and the coordinator to make oral submissions. The Dean and the Executive Director shall communicate their decision in writing to the student and the coordinator in a reasonable time.
4. If the student is not satisfied with this decision, the student may appeal to the Senate Committee on Appeals. This appeal process is governed by the regulations on appeals, page 37. Decisions of the Senate Committee on Appeals are final and may not be appealed to the Senate. In cases that do not fall under the jurisdiction of the Senate Committee on Appeals, the decision of the Dean and the Executive Director of Co-operative Education is final.

**Examinations**

**Final Oral Examinations**

**General Regulations**

In all doctoral programs and all master's degrees with thesis that require a final oral examination, students must be registered in dissertation (699) or thesis (599) at the time of the oral defense. For project-based master's degrees, academic units may require a written comprehensive examination, or an oral examination, or both. Students must be registered in project (598) at the time of oral defense.

Students may proceed to an oral examination when the supervisory committee is satisfied that the dissertation, thesis or project represents an examinable document for the degree requirements. The supervisory committee for 599 and 699 confirms this by signing the Request for Oral Examination form. This form must be submitted to the Dean of Graduate Studies 30 working days for PhD students and 20 working days for these master's students prior to the date of the oral examination. Instructions concerning the appropriate procedures to follow for oral examinations can be found on the web site of the Faculty of Graduate Studies.

Before proceeding to the oral examination, students should normally have a cumulative grade point average of not less than 5.0 on all courses taken for credit in the Faculty of Graduate Studies. Any language requirement must be met before the student proceeds to the oral examination.

The Dean of Graduate Studies will appoint a Chair from outside the academic unit for the 599 and 699 final oral examination. Regular and Emeritus members are eligible to serve. Oral examinations are open to the public. Notice of examination will be communicated to all faculty members involved and to each academic unit at least 5 working days prior to the date of the examination.

It is expected that all oral examinations will take place on the UVic campus. Any deviation from this policy requires permission from the Dean of Graduate Studies. The student and all supervisory committee members are normally expected to be present at the oral examination either in person, or virtually. The committee members' signature on the “Request for Oral Examination” form or “Checklist for Non-Thesis Examinations” constitutes an agreement to attend the examination at the scheduled time. In the event that a faculty member is unable to attend in person or virtually, the member is expected to provide questions for the examination, and is responsible for finding a proxy to attend the examination and ask the questions of the candidate. The proxy must be a member of the Faculty of Graduate Studies. It is advisable that the proxy have some substantive knowledge of the area or be knowledgeable in the research methodology. The proxy is expected to assess the student's responses; however, the proxy does not vote on the outcome of the examination. The presence of the student’s absent member of the committee, but merely represents the absent member at the oral examination. Therefore, the faculty member on the committee is still
oral defense is acceptable
The length of time for the revision shall be agreed upon by the committee and the candidate, but shall not exceed one year from the date of the oral examination. An explicit list of the necessary revisions that has been composed by the examining committee will be forwarded to the student. The primary supervisor shall supervise the revision of the dissertation or thesis. If the dissertation or thesis is acceptable to the primary supervisor, the primary supervisor shall distribute it to the rest of examining committee. If it is acceptable to the committee, the primary supervisor shall ensure that each committee member signs the approval documents including the Dissertation/Thesis Approval Form.

4. That the examination be “adjourned”
This result should not be confused with failure (see 5, Failure, below). Adjournment may be called for three different types of circumstances:

a) A sudden illness or emergency that does not allow for the examination to be completed; an external environmental situation arises that forces the exam to be prematurely terminated (such as fire alarm, power failure or natural disaster); or when the technology being used breaks down and cannot be repaired in time to continue the examination.

When an examination is adjourned for these types of circumstances, the chair shall make a written report to the Dean of Graduate Studies within three (3) working days of the date of the oral examination. After reviewing these reports the Dean will set a date for reconvening the examination. The date for reconvening shall be no later than six months from the date of the first examination.

b) Where the external examiner casts the lone dissenting vote.
When an examination is adjourned for this circumstance, each member of the examining committee shall make a written report to the Dean of Graduate Studies within ten (10) working days of the date of the oral examination. After reviewing these reports the Dean shall set a date for reconvening the examination. The Dean shall also determine whether or not the composition of the original committee is appropriate for the reconvened examination. The date for reconvening shall be no later than six months from the date of the first examination.

c) Where the thesis is acceptable but the student has failed the oral defense.
When an examination is adjourned for this circumstance, each member of the examining committee shall make a written report to the Dean of Graduate Studies within ten (10) working days of the date of the oral examination. After reviewing these reports the Dean will set a date for reconvening the examination. The Dean shall also determine whether or not the composition of the original committee is appropriate for the reconvened examination. The date for reconvening shall be no later than six months from the date of the first examination.

5. Failure
If two or more members of the examining committee are opposed to passing the student, the student will not be recommended for the degree. In this case, the committee shall make a written report to the Dean of Graduate Studies within 14 calendar days of the date of the oral examination outlining the reasons for this decision. A student who fails the oral examination has the right to appeal and should consult with the Dean of Graduate Studies regarding the appropriate procedures.

A candidate who is not recommended for the degree by the examining committee is ineligible for readmission to a graduate program in the same academic unit.

Results of Oral Examinations (Project-based Master’s degrees)
After the examination, the committee shall recommend one of the following results:

1. That the independent research work is acceptable and the oral defense is acceptable
In this case, the Chair of the academic unit and the student’s primary supervisor shall sign the academic unit’s Letter of Recommendation.

2. That the independent research work is acceptable subject to minor revision and the oral defense is acceptable
In this case, all members of the examining committee except the primary supervisor shall sign the letter and at the end of the examination work together to draw up a list of revisions and establish a time limit for the completion of these revisions. The primary supervisor will approve the independent research work when it has been amended to her/his satisfaction.

3. That the examination be “adjourned”
This result should not be confused with failure (see 4. Failure, below). Adjournment may be called for three different types of circumstances:

a) A sudden illness or emergency that does not allow for the examination to be completed; an external environmental situation arises that forces the exam to be prematurely terminated (such as fire alarm, power failure or natural disaster); or when the technology being used breaks down and cannot be repaired in time to continue the examination.

When an examination is adjourned for these types of circumstances, the chair shall make a written report to the Dean of Graduate Studies within three (3) working days of the date of the oral examination. After reviewing these reports the Dean will set a date for reconvening the examination. The date for reconvening shall be no later than six months from the date of the first examination.

b) Where the written work is acceptable but the student has failed the oral defense.
When an examination is adjourned for this circumstance, each member of the examining committee shall make a written report to the Dean of Graduate Studies
within 10 working days of the date of the oral examination. After reviewing these reports the Dean will set a date for reconvening the examination. The Dean shall also determine whether or not the composition of the original committee is appropriate for the reconvened examination. The date for reconvening shall be no later than six months from the date of the first examination.

4. Failure
If two members of the examining committee are opposed to passing the student, and the student fails the oral examination, the Senate, through the Dean of Graduate Studies, and may require both the academic unit and the Office of the Registrar directly to the institution or agency indicated in the request. Each transcript will include the student’s complete record at the University to date. Since academic standing is determined by the results of all final grades at the end of the session, transcripts showing the official sessional GPA, cumulative GPA and standing are not available until after the end of the session. The Winter Session takes place from September to April, the Summer Session from May to August.

Students’ records are confidential. Transcripts are issued only at the request of students. All transcript requests must be accompanied by payment (see "Other Graduate Fees", page 40). Transcripts will be issued within five working days after a request is received, unless a priority request is made. See <www.uvic.ca/registrar/undergrad/records/forms/online/transcripts.html> for more details.

Transcripts will not be issued until all financial obligations to the University have been cleared. Students who require proof of degree completion prior to convocation can request a letter from the Graduate Admissions and Records Office.

The Application for Graduation forms are available through the Graduate Admissions and Records Office or online at <www.uvic.ca/graduatestudies/assets/docs/docs/forms/appforgraduation.pdf>. A graduation fee is assessed at the time of application, and is payable by the end of the month in which application is made.

The deadline for completing all requirements for the degree is 3 pm of the final business day in the term in which the Oral Examination, Final Project or Capstone Course are completed. Details are available on the web site of the Faculty of Graduate Studies.

Students can be considered for awarding of a degree only when all of the following requirements have been satisfied:

1. For doctoral and master’s with thesis candidates, submission of the final copies of the dissertation or thesis. Regulated governing the proper submission are set out on the faculty website at <www.uvic.ca/graduatetestudies/

Degree Completion and Graduation

The University Senate grants degrees in fall and spring each year. The formal conferral of degrees takes place at a convocation ceremony in the fall and spring each year. Graduates become members of the Convocation of the University as soon as their degrees are granted by the Senate, which generally occurs several weeks before the convocation ceremony. Students who require proof of degree completion prior to convocation can obtain a letter from the Graduate Admissions and Records Office.

Each candidate for a degree, diploma or certificate must complete a formal application for graduation. The deadlines to submit completed applications are as follows:

- November 15 for students completing in December for spring graduation
- February 15 for students completing in April for spring graduation
- July 15 for students completing in August for fall graduation

The Application for Graduation forms are available through the Graduate Admissions and Records Office or online at <www.uvic.ca/graduatestudies/assets/docs/docs/forms/appforgraduation.pdf>. A graduation fee is assessed at the time of application, and is payable by the end of the month in which application is made.

The deadline for completing all requirements for the degree is 3 pm of the final business day in the term in which the Oral Examination, Final Project or Capstone Course are completed. Details are available on the web site of the Faculty of Graduate Studies.

Students can be considered for awarding of a degree only when all of the following requirements have been satisfied:

1. For doctoral and master’s with thesis candidates, submission of the final copies of the dissertation or thesis. Regulations governing the proper submission are set out on the faculty website at <www.uvic.ca/graduatetestudies/

### Tuition and Other Fees

Students, parents and sponsors are advised that the following tuition fees have been approved by the Board of Governors for the 2015-2016 academic year. Please note, however, that ancillary fees may still change.

#### General Regulations

Students should note that the University reserves the right to change fees without notice. The University will give notice of any changes as far in advance as possible by means of a Calendar Supplement.

#### Student Responsibilities

- Students become responsible for their course or program fees upon registration. These fees may be adjusted only if a student officially drops courses, withdraws, cancels registration or changes status within specified time limits.
- Students are responsible for knowing in which courses they are registered. Students are required to formally drop courses, most often by using “My page”, rather than rely upon instructors to drop them due to non-attendance.
- Students willlisted for courses are responsible for monitoring their registration status with both instructors and “My page”. The courses listed on the system are those for which the student will be assessed fees.
- Students are also responsible for knowing their fee obligations, either from the Calendar and any calendar supplements or through the UVic website. Graduate students are advised to consult the Graduate Admission and Records Office about their initial assessments and the effect of subsequent changes in registration.

#### Fee Accounts

The fees for a term may be made up of:

1. one full tuition installment if you are taking 3.0 or more units of courses, or project or thesis
2. one half tuition installment if you are taking less than 3.0 units and
3. any other fees assessed for that term.

Statements of account are not mailed to students. Students may view their account balances at [www.uvic.ca/mypage](http://www.uvic.ca/mypage). Students unable to obtain their tuition fee information from “My page” may call 250-721-7032 or 1-800-663-5260.

Overpayments and other credits in excess of term fees are applied to unpaid accounts or to the next term if a student is registered in the following term. Any remaining credit balance for a term will be refunded upon request.

Tuition fees for credit courses are exempt from the Goods and Services Tax (GST), but GST may be required on other fees.

#### Payment Due Dates

Fees are due by the following dates:

- **Summer Term**: May 31 if registered prior to May 31 or last day of the month in which you register
- **Fall Term**: September 30
- **Spring Term**: January 31

Any additional fees owing as a result of changes in a student’s registration are due by the end of the month in which the changes are made.

Payments must be received by the Accounting Services office by 4:00 pm on the due date (or on the preceding work day if the due date falls on a holiday or weekend). Students should note that web banking payments will be accepted until midnight on due dates.

Students are responsible for making their payment by the due date whether or not they received a statement of account.

Students who have not paid their full fees by October 31 in the fall term and February 28 in the spring term may have their course registrations cancelled and be denied other services.

#### Making Payments

Students are asked to make their payments by Internet, telephone banking, or debit card. Due to commission rates, tuition fee payments cannot be made by credit card.

Students paying through Internet or telephone banking should allow at least 48 hours for funds to be transferred to Accounting Services.

Students may also send their payment by mail, with a cheque or money order (do not mail cash) made payable to the University of Victoria to:

**University of Victoria**

Accounting Services, Tuition Fees

Box 3040 STN CSC

Victoria BC V8W 3N7

Students may pay in person at the Tuition Fees counter, first Floor, University Centre, but are reminded that queues will be long just before due dates.

Students should ensure that their student number is written on the face of their cheque.

#### International Students

Please submit your payments using Western Union GlobalPay for Students for tuition payments.

Once funds have been transferred to Western Union, they will be credited to your UVic account in Canadian dollars. No fees will be charged by UVic or Western Union Business Solutions when using this service, though your bank may charge a fee to make the local currency transfer. However, DO NOT SEND more than the tuition you are charged. Any overpayments will be credited to future tuition and will not be refunded to the student.

#### Overdue Accounts

A service charge of 1.5%, annualized at 19.56%, is added at each month end to accounts not paid by their due date.

Students with overdue tuition or other accounts will only be contacted by UVic at their preferred email address and preferred mailing address as shown on [www.uvic.ca/mypage](http://www.uvic.ca/mypage). Students are responsible for keeping their information on My Page up to date at all times.

Students with overdue tuition or other accounts may be denied services, including: registration; the addition of courses through web registration; the use of libraries and athletic and recreation facilities; access to classes and examinations; and receipt of loans, awards, grades, transcripts, degrees and documents certifying enrollment or registered status.

Students who have their registration cancelled for failing to pay their fees by a due date, or who withdraw or otherwise leave the University, remain liable for unpaid accounts. The University may take legal action or use collection agencies to recover unpaid accounts. Legal and collection costs incurred by the University in this process are added to a student’s account.

#### Tuition Receipts

Tuition receipts (T2202As) for income tax purposes are issued in February for the preceding calendar year. These forms are available online through [www.uvic.ca/mypage](http://www.uvic.ca/mypage).

#### Fee Reductions

To obtain fee reductions, students must drop courses through “My page” or submit written notice of changes in registration, on the Graduate Course Change Form, to the Graduate Admission and Records Office.

When fee reductions are granted, they will be based on either the date recorded in the web registration log, or the date on which written notice is received.

Students should not rely upon instructors to drop them from courses. Students are strongly encouraged to take action themselves.
Tuition for International Students
International students (those not holding Canadian citizenship or permanent residency at the beginning of the term) are required to pay international tuition for graduate programs and courses. Tuition will be adjusted to regular rates for students who show a permanent residency card before the last day of the term.

Standard Tuition Fees for Master’s Degrees
The minimum regular program fee for a master’s degree is 5.0 tuition installments which can consist of a combination of regular full and regular half tuition installments. For exceptions, see the list of non-standard tuition below. One (1.0) additional regular tuition installment will be assessed if a student remains registered after having paid 5.0 regular full tuition installments (for a total regular tuition of 6.0).

Non-Standard Tuition for Selected Master’s Programs
- The minimum regular program fee for the Health Informatics distributed stream (web-based) is 6.0 tuition installments
- The minimum regular program fee for the MACD program is 6.0 fee installments.
- The total minimum regular program fee for the MBA degree is 6.0 tuition installments for Daytime program students and 9.0 tuition installments for Evening program students, which can consist of a combination of regular full and regular half tuition installments.
- The minimum regular program fee for the MGB program is 3.0 fee installments.
- The minimum regular program fee for the MPA program is 3.0 fee installments.
- The minimum regular program fee for the NUHI program is 9.0 fee installments.
- The minimum regular program fee for the double degree MBA + MEng and MBA + MSc programs is 7.0 fee installments.
- The minimum regular program fee for the MEng in Telecommunications and Information Security is 3.0 fee installments.

If a student remains enrolled in a master’s degree after having paid the minimum regular program fee, reregistration fees will apply as described below. If a student remains enrolled beyond the five year time limit for a master’s degree, a program extension fee will apply as described above.

For students registered in a one-year master’s program (completed within 12 months), the minimum regular program fee is 3.0 tuition installments. Current programs include English, French, History, Indigenous Governance, Applied Linguistics, and Political Science. Up to 3.0 additional regular tuition installments will be assessed if a student remains registered after having paid 3.0 tuition installments (for a total regular tuition of 6.0). Terms of personal leave will not be counted as academic terms and therefore graduate tuition installments normally will not be assessed.

The minimum regular program fee for the LLM completed within 12 months is 3.0 tuition installments, which can consist of a combination of regular full and regular half tuition installments. Up to 2.0 additional regular tuition installments will be assessed if a student remains registered after having paid the minimum regular program fee (for a total regular tuition of 5.0).

Standard Tuition Fees for Doctoral Degrees
The minimum regular program fee for a PhD degree is 7.5 tuition installments which can consist of a combination of regular full and regular half tuition installments. For example, in the case of a full time student, the minimum regular program fee is assessed in seven regular full tuition installments followed by one regular half tuition installment. For exceptions, see the list of non-standard tuition below. One (1.0) additional regular full tuition installment will be assessed if a student remains registered for one additional term after 7.5 regular full tuition installments have been paid. One additional regular half (0.5) tuition installment will be assessed if a student remains registered for an additional term beyond 8.5 regular tuition installments have been paid (for a total regular tuition of 9.0).

Non-Standard Tuition for Selected Doctoral Programs
- The minimum regular program fee for the PhD in Health Informatics is 9.0 fee installments.
- The minimum regular program fee for the PhD in Business is 12.0 fee installments.
- The minimum regular program fee for the PhD degree in Law is 5.0 tuition installments, which can consist of a combination of regular full and regular half tuition installments. Up to 2.5 additional regular tuition installments will be assessed if a student remains registered after having paid 5.0 regular full tuition installments (for a total regular tuition of 7.5).

If a student remains enrolled in a PhD degree after having paid the minimum regular program fee, reregistration fees will apply as described below. If a student remains enrolled beyond the seven year time limit for a doctoral degree, a program extension fee will apply as described below.

Reregistration Fees for Degree Programs
Students who have not exceeded the time limits for degree completion and have paid the entire total regular tuition for their degree (normally 6.0 tuition installments for master’s degrees; 9.0 tuition installments for doctoral programs) but have not completed their program requirements will be charged reregistration fees for each term of attendance up to their completion date. Thereafter, program extension fees apply.

Students in the PhD in Health Informatics who have paid the entire 9.0 regular tuition installments, will be charged reregistration fees for each term of attendance up to a maximum of 3.0 additional terms. Thereafter, the regular tuition rate per term will be assessed.

Fees for Degree Program Extensions
Students who are granted a program extension and remain registered after exceeding the time limit for their degree (normally five years for a master’s degree and seven years for a doctoral degree—see “Time Limits”, page 26) will be assessed a program extension fee at the regular tuition rate per term.
### Standard Fees for Students Transferring from a Master's to a Doctoral Program

Students who transfer from a master's to a doctoral program without completing the master's degree will receive tuition credit toward their minimum doctoral program tuition requirement to a value no greater than the minimum tuition installments paid to the master's program (normally 5.0 tuition installments). Tuition installments paid beyond the minimum program requirement for the master's degree cannot be credited to the doctoral tuition requirement.

### Fees for Students Transferring to a Program with Different Fee Structure

Students transferring to a program with a different program fee will be charged the differential of full program fees (including differential balance owing for prior terms) for the new degree effective from the time of transfer into the higher cost program. This amount comes due at the end of the month in which the student transfers programs.

### Other Fees

**Graduate Students’ Society (GSS) Extended Health Care and Dental Insurance Plans**

The GSS provides a mandatory extended health plan and dental insurance plan for full-time graduate students.

To opt out of the extended health or dental plans, proof of equivalent coverage must be provided to the GSS by September 30 (January 31 for students starting in January). For more information, contact the GSS.

The University of Victoria provides students' personal information to the University of Victoria Graduate Students' Society and its health insurance provider. The information is used solely for adjudicating claims and is not used for any other purpose. Personal information is stored securely and used in accordance with regulations contained in the federal Personal Information Protection and Electronic Documents Act.

Students from Quebec can either opt out of their insurance plan and apply to BC MSP, or, they can pay for services up-front and seek reimbursement from their Quebec Plan.

Complete information about the costs and coverage provided by the plans is available from the GSS office, or at: [gss.uvic.ca](http://gss.uvic.ca).

**UVic Students’ Society (UVSS) Universal Bus Pass Plan (U-Pass)**

The UVSS provides a mandatory bus pass plan for all graduate students. U-Pass was approved by student referendum in 1999. The U-Pass fee is $81.00 per term. U-Pass gives students unlimited access to all Greater Victoria BC Transit buses and HandyDart services at all times and on all days.

Only the following students are exempt from the U-Pass plan:

- students who are registered solely in distance education programs
- students with a BC Bus Pass
- students with mobility disabilities that prevent them from using BC Transit or HandyDart services

### Tuition for Non-degree Students

Students classified as non-degree students pay for courses on a per-unit basis. Course fees paid by non-degree students cannot be counted towards the tuition installments required for a degree.

**Course Fees for non-degree graduate students (per course unit)**

- Domestic: $723.56
- International: $863.16

### Standard Tuition Fees for Domestic Students in Certificate and Diploma Programs

- Per course unit: $723.56

### Standard Tuition Fees for Domestic Students in Degree Programs

*Some of these degrees also have program fees. Please see Program Fees below.*

- Full fee installment: $1821.82
- Half fee installment: $910.91
- Graduate registration fees, per term, until maximum completion limits: $723.56
- Program extension fee: $1821.82
- Graduate Co-op work term fee (this fee does not form part of the minimum program fee described under Program Fees, above): $662.46

### Standard Tuition Fees for International Students in Certificate and Diploma Programs

- Per course unit: $863.16

### Standard Tuition Fees for International Students in Degree Programs

- Full fee installment: $2167.80
- Half fee installment: $1083.90
- Graduate registration fees, per term, until maximum completion limits: $863.16
- Program extension fee: $2167.80
- Graduate Co-op work term fee (this fee does not form part of the minimum program fee described under Program Fees, above): $786.12

### Other Fees

- Athletics/Recreation, per term (on-campus and local only): $82.10
- Graduate Students’ Society, per term: $57.73
- Graduate Students’ Society, per Co-op work term: $28.86
- GSS Extended Health Care Plan: per year (single coverage): $328.00
- 8 month pro-rated fee: $219.00
- Dental Care Plan, per year (single coverage): $214.00
- 8 month pro-rated fee: $143.00
- U-Pass Bus Pass: $81.00

### FEES FOR AUDITORS

Audit fees per unit under age 65
- Domestic: $304.52
- International: $384.60

Age 65 or over:
- Domestic: $100.06

Note: Audit fees will not be assessed for students whose supervisor approves the course as relevant toward their master’s or doctoral program.

### OTHER GRADUATE FEES

**Note:** All fees listed below are non-refundable unless stated otherwise.

- Application fee: $114.50
- if any documents originate outside Canada: $140.50
- Acceptance deposit (not required for all programs): $200.00
  (This fee is applied towards tuition owed for a student who registers but is forfeited if a student does not register.)
- Application to reregister: $26.75
- Late application for admission/registration: $35.00
- Confirmation of enrolment letter: $10.00*
- Reinstatement fee: $250.00
- Application to graduate (all students): $44.00
- Late Fee: $10.00
- Required for Master’s Thesis and PhD Dissertation:
  - UVic Archival fee: $15.00
  - National Library fee: $25.85
  - Degree completion letter (priority): $10.00*
  - Degree completion letter (standard): $17.00*
  - Returned cheque: $25.00
  - Transcripts, per copy: $10.00*
  - Transcripts (priority), per copy: $17.00*
  - Tuition Deduction and Tuition Certificate replacements and fee payment confirmations: $4.00*
  - Graduation certificate:
    - replacement: $75.00
    - certified copy: $15.00
    - Photocopy, per page: $3.00*

*Includes Goods and Services Tax (GST)

Faculty Members and Areas of Research
Alexandrines Boudreault-Fournier, PhD
(Manchester)
Visual Anthropology; visual culture and theory, anthropology of sound; cultural policy and the state; relational aesthetics; digital technologies and social media; Cuba; Canada
Leslie Butt, PhD (McGill)
Medical anthropology; HIV/AIDS; gender, sexuality and reproduction; West Papua
Melissa Gauthier, PhD (Concordia)
Economic anthropology, border studies, informal & illicit economies, cross-border trade, Mexico-U.S. Borderlands, Mexico, Yucatán
Lisa Gould, PhD (Washington U St Louis)
Biological Anthropology: primate behaviour, ecology, primate demography and life history, hormones and behavior, primate feeding, nutrition, and secondary compound consumption, lemurs, Madagascar
Helen Kurki, PhD (Toronto)
Biological Anthropology: human skeletal biology; morphological variation and functional anatomy; body size & shape; sexual dimorphism; evolution of the hominin pelvis, Bioarchaeology; Southern Africa
Yin Lam, PhD (Stony Brook)
Archaeology; zooarchaeology; palaeoanthropology; taphonomy; origins of modern human behavior; foraging economies; sub-Saharan Africa, China
Quentin Mackie, PhD (Southampton)
Archaeology; coastal archaeology; lithic & organic technologies; environmental archaeology; first peopling processes; spatial modeling; social context of archaeology; Northwest Coast, Haida Gwaii
Margo L. Matychuk, PhD (CUNY)
Sociocultural Anthropology; political economy; feminism; power, inequality, social justice; social movements; agro-industry; housing and homelessness; Brazil, Latin America, Caribbean, Canada
Erin Halstad McGuire, PhD (Glasgow)
Archaeology, Gender identities, migration, funerary ritual and material culture
Lisa M. Mitchell, PhD (Case Western Reserve U)
Sociocultural anthropology; medical anthropology; reproduction; children & youth; body & embodiment; technology & the body; ultrasound imaging participatory research; visual research methods; Philippines, Canada
April Nowell, PhD (U Penn)
Archaeology: Paleolithic, taphonomy, lithic technology, Neandertals, evolution of human cognition, Paleolithic art/Pleistocene visual cultures, origins of language and symbol use, Archaeology of children, Western Europe, Near East
Eric A. Roth, PhD (Toronto)
Biological Anthropology: demography, AIDS/HIV, growth and development, pastoralists, Africa
Daron R Rudneyckyj, PhD (UC Berkeley)
Sociocultural Anthropology, Indonesia/Southeast Asia, Globalization, religion, transnationalism, ethics, development, Islam, the state
Ann B. Stahl, PhD (UC Berkeley)
Archaeology: historical anthropology; comparative colonialisms; material culture studies; community involvement & knowledge production; dietary change & agriculture; Africa; Ghana
Brian Thom, PhD (McGill)
Cultural Anthropology; aboriginal rights, title and governance; indigenous rights; intellectual property and indigenous peoples; customary legal systems; Northwest Coast and Coast Salish peoples; applying anthropology to public policy
Andrea N. Walsh, PhD (York)
Visual anthropology: visual culture and theory, visual research methods, art, photography, film and new media, 20th Century and Contemporary First Nations Visual Culture, Canada
Margot E. Wilson, PhD (Southern Methodist U)
Cultural Anthropology; Indigenous people of South Asia; leprosy; stigmatization; gender studies; women’s narratives; abandoned women & children; international development and planned change; Bangladesh, India, South Asia

Degrees and Specializations Offered
The Department offers programs of study leading to a Master of Arts (MA) degree and to the degree of Doctor of Philosophy (PhD).

Facilities
The Department has large research labs devoted to archaeology, biological anthropology, and visual anthropology. It houses an extensive comparative faunal reference collection. Two recently opened labs are devoted to ethnographic mapping and to the study of sound. University resources of particular benefit to anthropology students include: the McPherson Library, which is the second largest research library in B.C. and the largest on Vancouver Island; the University Computing Centre; research centers in Addictions Research, Aging, Asia Pacific Initiatives, Bio-Medical Research, Global Studies, Religion and Society, Youth and Society, among others. Students interested in Northwest North America will find relevant resources among the important collections and holdings of the Royal British Columbia Museum and Provincial Archives of British Columbia.

Financial Support
Well-qualified applicants are eligible for a University Fellowship. The maximum value of this in 2013 was $18,000. Several teaching assistantships are available, usually $5000 for eight months’ work. Additional TAships are also often available for the summer term. There are also several awards that provide small numbers of exceptional or financially eligible students with additional funds. These awards include, but are not limited to, the Sara Spencer Research Award in Applied Social Science, the Mrs. Annie Grecki Graduate Award, Maritime Awards Society of Canada Graduate Fellowships, and the Martinlet Chapter Iode Graduate Scholarship for Women. Graduate Fellowships are also available on a competitive basis from federal government funding agencies (NSERC, CIHR, SSHRC).

ADMISSION REQUIREMENTS

General
In addition to transcripts, letters of recommendation and application forms required by the Faculty of Graduate Studies, the Department requires applicants to submit a recent sample of their work (term paper or Honours thesis) and a brief statement outlining the intended program and field of study. Ordinarily a B+ average (6.0 GPA) for the last two years of university work is a minimum requirement for admission to the program. Admission decisions are usually taken in mid-March.

Admission To MA Programs
The Master of Arts degree in Anthropology is a general degree requiring a candidate to have a broad knowledge of the subfields of the discipline.

Students are required to have passed undergraduate courses equivalent to those comprising the Anthropology Major Program (see University of Victoria Undergraduate Calendar). Students without this equivalent must take the appropriate courses to satisfy the Major requirements before completing their degree. The programs outlined below indicate minimal requirements. In tailoring the program to individual needs, a student’s supervisory committee may specify courses to be taken. To correct deficiencies in the student’s undergraduate program, the Graduate Committee may also increase the number of units required. For example, students who enter without at least an undergraduate Major may be required to spend the first year in upper-level undergraduate courses before beginning the core program.
Prospective students are urged to consult the department for assistance in planning a program of study and for more specific information about course offerings.

**Deadlines**
January 15th.

**Admission to PhD program**
Applicants will normally be required to have completed a baccalaureate and master’s (thesis or project-based) degree in Anthropology from recognized academic institutions.

Applicants will be expected to have achieved a minimum GPA of 7.0 (or equivalent) in their master’s program, have good letters of reference, present a clear statement of research interests, and submit an example of scholarly work. All applications will be reviewed by the Departmental Graduate Committee and students will only be accepted into the program if there is at least one faculty member able, interested, and available to supervise the proposed topic of research.

**Program Requirements**
The Department offers programs of study leading to a Master of Arts (MA) degree and to the degree of Doctor of Philosophy (PhD).

**Master’s of Arts program**
The themes which frame the MA program are 1) Inequality, Culture and Health; 2) Evolution and Ecology; 3) Indigenous Peoples; and 4) Visual Anthropology and Materiality. The program introduces students to our department’s unique thematic foci and requires them to initiate and perform a major, independent research project leading to a thesis. It requires at least 7.5 units of course work and a 7.5-unit thesis.

**Course Requirements**

**Core Courses**
A student’s program will include the following core courses:

ANTH 500 (1.5) Seminar in Anthropological Theory
ANTH 516 (1.5) Seminar in Anthropological Research Methods
and two of the following:
ANTH 511 (1.5) Advanced Research Seminar in Inequality, Culture, and Health.
ANTH 541 (1.5) Advanced Research Seminar in Indigenous Peoples in Prehistoric, Historic, and Contemporary Contexts
ANTH 551 (1.5) Advanced Research Seminar in Ecology and Evolution
ANTH 571 (1.5) Advanced Research Seminar in Visual Anthropology and Materiality

and 1.5 units of elective to be taken from within or outside the department with the permission of the student's supervisor. Core seminars offered each year but not taken by the student as part of their core course requirement may count as an internal elective. Other internal electives are listed in the Calendar under Selected Topics courses and Directed Studies. Upper-level undergraduate courses may count toward these elective units.

Core and elective courses contribute 7.5 units toward the 15-unit minimum requirement for the thesis option.

Students may choose additional courses in their program from the departmental listings of graduate courses and from courses outside the department. Students may take a maximum of 1.5 units of upper-level undergraduate courses. Students will register in ANTH 597 (Thesis Proposal Development) while preparing their thesis proposals, typically in the summer session at the end of their first year in the program.

The thesis proposal must be approved by the student’s supervisory committee before September 15th of the second year of the MA program. Once the thesis proposal has been approved, students register in ANTH 599 (Thesis).

**Thesis**
The thesis proposal and thesis are prepared under the direction of the supervisory committee. The committee consists of at least two members: a supervisor from the department and another member, normally also from the department. Both must be members of the Faculty of Graduate Studies. It is also possible, with the approval of the supervisor and the Faculty of Graduate Studies, to have additional committee members - for example, from other units of the university, from other academic institutions and from government agencies.

The thesis, carrying 7.5 units of credit, must meet the stylistic requirements of the department and must be submitted according to a time schedule set by the department. Normally a thesis will entail specialized research on a topical area chosen in consultation with the student’s supervisory committee.

**Oral Examination**
Once the thesis is judged ready to defend by the supervisory committee, then an application is made for an oral defense. There are deadlines set by the Faculty of Graduate Studies for the timing of this defense - if these are not met then the student's graduation may be delayed. The supervisor will recommend an appropriate external examiner. This member of the examining committee comes from another department or institution, normally has no input in the creation of the thesis, and, as an arm's-length knowledgeable member, is given the leading role in examining the candidate. Subsequently, the committee can choose between various options ranging from acceptance of the thesis and pass of the oral defense through various degrees of revisions to the very rare instance of outright failure. The oral examination is chaired by a neutral faculty member from a separate department, appointed directly by the Dean of Graduate Studies.

**Program Length**
Most students require 2 to 2 1/2 years to complete the program.

**PhD Program**
The themes which frame the PhD program are:
1) Inequality, Culture, Health
2) Evolution and Ecology
3) Indigenous Peoples
4) Visual Anthropology and Materiality

Students entering the program must take 30 units of graduate credit for the PhD in accordance with the following program.

**Course Requirements**
All PhD students are required to complete four 1.5 unit graduate courses during their first two years in the program. The courses will include ANTH 600 (Professional Development in Anthropology), one specialized directed study (ANTH 690A, 690B, 690C, 690D or 690F), one advanced research seminar (ANTH 611, 641, 651 or 671), and one course that satisfies the Breadth of Knowledge requirement (a course in a theme other than the one in which they have chosen to specialize, or in another academic discipline).

In addition, students are also required to register and participate in the Graduate Colloquium in both the fall and spring semesters of their two years of residency. Depending on the coursework completed during his/her MA program, a student may be required to complete ANTH 500, the department’s MA-level method and theory course.

Students must achieve at least a B- in required courses and maintain a cumulative GPA of at least 7.0.

**Summary of Requirements**

ANTH 600 .................................................. 1.5
ANTH 690A, 690B, 690C, 690D, 690E or 690F . 1.5
ANTH 611, 641, 651 or 671 ......................... 1.5
ANTH 612 (Colloquium) ........................... 1.0
Breadth of Knowledge requirement .............. 1.5
Candidacy Examination (ANTH 693) .......... 3.0
Dissertation (ANTH 699) ........................... 20.0
Total ................................................. 30.0

**Candidacy Examination**
The student, in consultation with his/her PhD committee, will craft three important original comprehensive examination questions related to his/her research area, and answer those questions in written format, drawing upon literature covered in PhD coursework and readings. These three comprehensive papers will be evaluated on a pass/fail basis by the supervisory committee. If one paper is deemed unsatisfactory, the student may revise the paper. If more than one paper is deemed unsatisfactory, the student will not advance to candidacy.

**Language Requirement**
The PhD language requirement may be met through the completion of relevant courses in the target language or through the demonstration, on the basis of a written translation exam, of competence in communication in the target language.

**Dissertation**
The dissertation research proposal will be defended orally and separately from the candidacy examination requirement. Each student will make a presentation on his/her proposal topic and answer questions posed by the supervisory committee on the theoretical foundation, methodology, and significance of the proposed research. The oral defense will be evaluated on a pass/fail basis. After passing the oral defense, a student may proceed to the dissertation. All students are required to prepare, submit and defend a dissertation worth 20 units.
Co-operative Education
Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and workplace experience – is optional for full-time graduate students. To receive the Co-op designation on their transcripts, Master’s students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op coordinator, to participate in the Co-op program. Interested students should contact the Anthropology Co-op office early in their first term. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

Art History and Visual Studies

Faculty Members and Areas of Research
Allan Antliff, PhD (Delaware)
Modern American and European art, Contemporary art, Anarchist studies
Evanthia Baboula, DPhil, (Oxford)
Material & Visual Culture, Northeast Mediterranean
Carolyn Butler-Palmer, PhD (Pittsburgh)
Modern & Contemporary Art of the Pacific Northwest
Erin Campbell, PhD (Toronto)
Early Modern European Art
Catherine Harding, PhD (London)
Late Medieval/Early Italian Renaissance art
Lianne M. McLarty, PhD (Simon Fraser)
Feminist film theory, critical theory, popular culture
Marcus Milwright, DPhil (Oxford)
Medieval Islamic art and archeology
Astri Wright, PhD (Cornell)
Southeast Asian art (including textiles, ephemeral arts), modern and contemporary arts
Victoria Wyatt, PhD (Yale)
North American Native arts and ethnohistorical photographs
Emeritus
S. Anthony Welch, PhD (Harvard)
Islamic art and architecture; Iranian paintings, architecture of Muslim India

Degrees and Specializations Offered
The Department of Art History and Visual Studies offers programs of graduate study leading to the degrees of Master of Arts and Doctor of Philosophy. The program for each student is determined by the Graduate Advisor and the appropriate supervisor in consultation with the student, and is intended to meet the student’s specific academic needs while at the same time maintaining some breadth of exposure to a wide range of topics and methodologies.

The department also participates in the Co-operative Education Program; students who are interested in the possibility of gaining discipline-related work experience while they pursue their degree are invited to contact the department’s Graduate Adviser.

Financial Support
Financial assistance: well-qualified applicants are eligible for a University Fellowship. Several teaching or research assistantships may also be available, usually ranging from $2,700 to $7,000 for eight months’ work. There are also several awards that provide small numbers of exceptional or financially needy students with additional funds. Please contact the Graduate Adviser of the department for additional details.

Admission Requirements
General
As part of the requirements of the MA and PhD programs of the Department of Art History and Visual Studies, all applicants must submit a brief statement of the reasons for their interest in a career in art history, a CV, transcripts, two reference letters and a sample of their written art-historical research. This may be a paper, publication or, where relevant, an MA thesis.

Admission to the Master’s Program
Applicants for the MA program should have a significant academic background in art history and visual studies, either through a Major or Honours degree in art history and visual studies or a closely related field, or, if their degree is in some other discipline, through substantial course work in art history and visual studies. A student who does not have sufficient course work in art history and visual studies may be asked to complete a full year of additional course work at the senior undergraduate level before their application to the graduate program will be considered.

Admission to the PhD Program
Applicants for the PhD program should have a master’s degree in art history and visual studies or a closely related field from a recognized university, and demonstrate that they are capable of undertaking advanced research. (This capability will be judged on the basis of a master’s thesis or other scholarly work, including publications, as well as from letters of reference from qualified referees.)

Deadlines
Complete applications must be received by the Graduate Admissions and Records Office by December 15 in order to be processed in time for
the department to make its decisions in spring regarding admissions and nominations for fellowships for the next academic year. Applicants should send a transcript of their fall courses directly to the department as soon as their grades are available for those courses completed in the fall.

**Program Requirements**

Except for HA 501/601 and HA 509/609, only a selection of seminars (HA 502-580) will be offered in any particular year. Except for HA 501/601 and HA 509/609, all seminar courses and directed studies may be taken more than once, in different topics.

**Program Length**

Master's degrees are normally completed in two years, doctoral degrees within 4-5 years.

**Master of Arts**

The MA in Art History and Visual Studies normally consists of 16.5 units, including a Research Paper (HA 598). In the first eight months (September-April), all students will normally complete 9 units of course work, comprising HA 501: Colloquium in Theories and Practices (3 units); HA 509: Workshop in Art Historical Writing (1.5 units), both compulsory for all students, and at least two additional seminars.

**Course Requirements**

HA 501 (Colloquium in Theories and Practices) .......................... 3.0  
HA 509 (Workshop in Art Historical Writing) 1.5  
5 additional courses (1.5 units each) ........................................ 7.5  
HA 598 (Research Paper) ..................................................... 4.5

Students may take up to 3 units in another department. These courses must be related to the student's art-historical interests. All courses must be at the graduate level.

**Other Requirements**

Before graduation, each student will be required to demonstrate a reading knowledge of a language other than English, appropriate to the area of special interest. This requirement will normally be satisfied by completion of 3 units of 200-level language or literature courses (excluding those taught in English using translations). Also acceptable are Pass 111, 131, GMS 405, 3 units of FRAN 160 and above or ITAL 300. For First Nations' languages, a minimum of 4.5 units within a single language is acceptable. A grade point average of at least 4.0 (B-) is necessary. In special circumstances, students may request permission to take a translation examination administered by the department.

**PhD Program**

The PhD program normally consists of a minimum of 39 units, with a course work component of 7.5 units (5 seminars). Those who enter the HA department as PhD students coming from other universities must take HA 601 and HA 609, with 3 units (2 seminars) as part of their required course work. Students holding a Master's from our department and entering the doctoral program with HA 501 and HA 509 as credits, will take HA 609 and 6 units (4 seminars). The seminars should be directly related to the student's particular areas of art historical interest; in some cases, courses may be taken outside of the department since art historical research is inherently interdisciplinary.

There is a required 3-unit Candidacy Exam (HA 693), which must be passed within 3 years of registration in the program. Registration in HA 699, the 28.5-unit Dissertation, is only permitted upon completion of HA 693.

**Course Requirements**

Students accepted into the doctoral program from outside universities will take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>HA 601</td>
<td>3.0</td>
</tr>
<tr>
<td>HA 609</td>
<td>1.5</td>
</tr>
<tr>
<td>2 additional courses</td>
<td>3.0</td>
</tr>
</tbody>
</table>

Students accepted into the doctoral program from within UVic, with credit for HA 501 and HA 509, will take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>HA 609</td>
<td>1.5</td>
</tr>
<tr>
<td>4 additional courses</td>
<td>6.0</td>
</tr>
</tbody>
</table>

The seminars should be directly related to the student's particular areas of art historical interest; in some cases, coursework may be taken outside of the department since art historical research is inherently interdisciplinary, with permission from the supervisor and Graduate Adviser. Students must pass their seminars with at least a B+ average; we encourage students to take HA 609 after the completion of HA 693 to support the writing of the dissertation.

Both groups of students will take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>HA 693 (Candidacy Exam)</td>
<td>3.0</td>
</tr>
<tr>
<td>HA 699 Dissertation</td>
<td>28.5</td>
</tr>
</tbody>
</table>

HA 693 must be passed within 3 years of registration in the program. Once students complete their slate of courses, they are required to register in HA 693. Readings for the comprehensive examinations will be broader than the coursework and will be determined by the student and his/her adviser. A student may repeat comprehensive examinations one time only.

The Candidacy Examination in Art History and Visual Studies consists of three parts:

- The Major Field Examination (referred to as “Comprehensive Exam or Exams”), with two sub-topics being prepared (written)
- The Secondary Field Examination (referred to as “Comprehensive Exam or Exams”), with two sub-topics being prepared (written)
- The Special Topics (dissertation proposal) Examination, in which the student presents the most recent version of their proposed dissertation topic in written form (details below), plus a detailed timeline on how the research will progress, with information on potential research trips, plans to acquire additional training, conference presentations/plans for research dissemination, and stages of writing, in advance of an oral examination with the dissertation committee (written + oral).

Registration in HA 699 is only permitted upon completion of HA 693.

**Other Requirements**

PhD candidates will be required to demonstrate a good reading knowledge of at least two languages other than English which are appropriate to their area of study. In addition, they will be required to demonstrate a working knowledge of any additional languages which may be deemed by their supervisory committee to be essential for the successful completion of the dissertation. Substantial fieldwork is expected of all PhD candidates.

**Oral Examination**

The oral examination for the dissertation may not take place until all language requirements have been satisfied.

**Program Length**

A student normally should expect to spend at least two years of academic work to obtain a master's degree and at least 3 years to obtain a PhD. A minimum of 5 full fee installments is required for a Master's degree and 7 full fee installments are required for a PhD. All requirements for a master's degree must be completed within five years (60 months) of the date of first registration. All requirements for a PhD degree must be completed within seven years (84 months) of the date of first registration.

**Co-operative Education**

Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master's and PhD students. Master's students complete two work terms, and PhD students complete three (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.
Biochemistry and Microbiology

GENERAL INFORMATION

The Department of Biochemistry and Microbiology offers students the opportunity to receive research training in a broad range of life science disciplines at the cellular, sub-cellular and molecular levels. Students have access to the facilities and faculty expertise necessary to allow them to use modern techniques such as genomics, proteomics, bioinformatics, X-ray crystallography, cell culture and microscopy in their research. Teaching assistantships in the undergraduate laboratory program give graduate students experience in teaching and mentoring. Student seminar programs at the MSc and PhD levels, the grant-style research proposal required for the PhD program and an annual research day give our graduate students the opportunity to acquire and polish their scientific presentation skills.

Further information on our graduate program is available on the departmental website.

Faculty Members and Areas of Research
Leigh Anderson, PhD (Cambridge)
Human plasma proteomics; protein biomarkers of disease and development of clinical diagnostics; quantitative mass spectrometry methods applicable to peptides; theory of biomarkers.
Juan Ausió, PhD (Barcelona)
Biophysical and biochemical studies of DNA-protein interactions involved in chromatin assembly and transcription; chromatin remodeling during spermatogenesis and chromatin determinants of Rett syndrome and prostate cancer.
Alistair Boraston, PhD (British Columbia)
Fundamental aspects of protein-carbohydrate recognition; structures and functions of carbohydrate-binding molecules; roles of carbohydrate-binding proteins in microbial pathogenesis.

Christoph Borchers, PhD (Konstanz)
The application of mass spectrometry, proteomics, photoaffinity labelling and molecular modelling to determine structure-function relationships in proteins.

Martin Boulander, PhD (British Columbia)
Structural basis of host-pathogen and vector-pathogen interactions; structure-guided design of small molecule therapeutics and vaccines.

John E. Burke, PhD (California, San Diego)
Structural and dynamic studies investigating the regulation of lipid signalling enzymes and their role in human disease.

Robert D. Burke, PhD (Alberta)
Cellular and developmental biology, cell signalling in early development, neural development, integrin signalling.

Caroline Cameron, PhD (Victoria)
Bacterial pathogenesis; Treponema pallidum; sphylii; Leptospira; extracellular matrix adhesions; infectious diseases; genomic analysis; proteomics.

Stephen Evans, PhD (British Columbia)
Antibody recognition of carbohydrate antigens; structural basis for protein-carbohydrate mimicry; glycosyltransferases; protein crystallography; scientific visualizations of macromolecules.

Caren C. Helbing, PhD (Western Ontario)
Molecular mechanisms of hormone signalling in vertebrates; amphibian metamorphosis; molecular biomarkers of environmental contaminants in wildlife.

Perry J. Howard, PhD (Toronto)
Biogenesis and function of miRNAs in stem cells, Regulation of PAX6 by miRNA, and rewiring of tyrosine pathway in cancer.

Julian J. Lum, PhD (Ottawa)
Tumor metabolism and T cell immune responses; autophagy, survival of cancer stem cells, targeting metabolic pathways for T cell adoptive immunotherapy in cancer (ovary, breast, prostate, lymphoma).

Francis E. Nano, PhD (Illinois)
Engineering microbial pathogens to temperature sensitivity through directed evolution of essential genes. Creation of genetic circuits to create temperature sensitivity using synthetic biology approaches.

Christopher Nelson, PhD (British Columbia)
Regulation of transcription by post-translational modifications of histone and non-histone proteins; application of molecular and genomic approaches to the study of novel chromatin modifying enzymes in yeast and mammalian cells.

Brad Nelson, PhD (California, Berkeley)
Cancer immunology; the development of immune-based diagnostics and therapeutics for cancer (breast, ovary, prostate and lymphoma); molecular pathology of cancer; signal transduction and cell cycle control by cytokine receptors in lymphocytes.

Terry W. Pearson, PhD (British Columbia)
Immunochemistry and biochemistry of African trypanosomes; vector-parasite interactions; disease diagnosis using the human plasma proteome and immuno-mass spectrometry.

Paul J. Romaniuk, PhD (McMaster)
Enzymology of novel DNA and RNA polymerases; mechanisms and applications of isothermal amplification; development of point of care diagnostic tests for low resource settings.

Andrew Ross, PhD (British Columbia)
Application of mass spectrometry and other analytical techniques to proteomics, metabolomics, metal biogeochemistry and environmental research.

Christopher Upton, PhD (London)

Peter Watson, MB BCHir (Cambridge)
Identification of the molecular genetic alterations underlying the development and progression of breast cancer.

John Webb, PhD (British Columbia)
Various aspects of cellular immunity, particularly (CD4 and CD8) immune responses against peptide epitopes containing the post-translational modification 3-nitrotyrosine and the role these responses play in infection, autoimmunity and cancer. Therapeutic vaccine development for cervical dysplasia and cervical cancer.

Degrees and Specializations Offered

The Department of Biochemistry and Microbiology offers courses leading to the degrees of Master of Science and Doctor of Philosophy in Biochemistry or Microbiology.

Facilities

- $13 million in research instrumentation
- In-house Technical Support Services
- Aquatics Facility (fresh and salt)
- University of Victoria/Genome B.C. Proteomics Facility <www.proteincentre.com>
- Imaging Facility (confocal, EM)
- Flow Cytometry
- Monoclonal Antibody Facility
- X-ray crystallography
- Bioinformatics
- DNA sequencing

Financial Support

$18,000 per annum minimum from a combination of TA-ships, internal and external scholarships and supervisor’s research grants.

ADMISSION REQUIREMENTS

General

Applicants whose native language is not English should submit results of the TOEFL (Test of English as a Foreign Language) or alternative proof of English competency (see “English Language Proficiency”, page 18) with their application. The departmental minimum score requirement for TOEFL is 100 for internet based. The Department’s Graduate Committee will screen applications that meet the requirements of the Faculty of Graduate Studies. Applicants without sufficient background in biochemistry and/or
microbiology may be refused admittance, or may be required to take additional undergraduate courses in these disciplines as part of their graduate degree program. Final entry into the program requires a financial and supervisory commitment from an individual faculty member.

Admission to the Master’s Program
Entrance into an MSc program requires, at a minimum, completion of an undergraduate degree with sufficient background for graduate studies in Biochemistry and Microbiology.

Admission to the PhD Program
Entry into the PhD program requires either an MSc in a cognate discipline from a recognized university, or formal transfer from the department’s MSc program. Transfer requires successful completion of all graduate courses and of the candidacy exam (see below).

Deadlines
Though there is no deadline for admission, applications must be complete (receipt of transcripts, letters of reference and TOEFL scores if required) at least a month in advance of the start date (terms start the beginning of September for fall term, January for spring, or under special circumstances, May for summer) in order for the admission decision to be made. Only applications received by February 15 are guaranteed to be considered for University of Victoria Fellowships.

Program Requirements
Thesis-based Master’s
Note: The department does not offer a Project-based Master’s degree.

Course Requirements
In addition to the following requirements, the general regulations governing the granting of advanced degrees, as stated in this calendar, are applicable.

Candidates for the MSc degree are required to successfully complete a minimum of 3 units of graduate level courses, approved by the student’s supervisory committee. Normally students are required to take BCMB 500 as part of this 3 unit requirement. Students may be required to take additional graduate level courses at the discretion of the supervisory committee.

Students must complete BCMB 580. Successful completion of the course requires that students present their own 580 seminar and receive a favourable assessment, and that they attend and participate in seminars given by other graduate students and senior scientists. Further information on the assessment of student performance for the BCMB 580 seminar can be found within the graduate handbook located at <www.uvic.ca/science/biochem/graduate>. Students must register for BIOC 599 or MICR 599 (thesis).

Other Requirements
Students must be continuously registered full-time in three terms per year in the graduate program. No part-time graduate programs are offered.

Attendance at departmental research seminars, given by scientists inside and outside the University, is mandatory.

Students are normally required to undertake a teaching assistantship, or equivalent duties, within the department for at least three terms over a two-year period.

Thesis
All students must have a supervisory committee consisting of the supervisor and a minimum of two other faculty members, one from the department and one from a related academic discipline.

Students are normally expected to publish the results of their research in refereed scientific journals and/or present them at conferences.

Oral Examination
The final, written thesis will be evaluated by an examining committee including an examiner, external to the department, chosen by the Graduate Committee in consultation with the student’s supervisor. The thesis must be publicly presented and defended in an oral exam.

Program Length
Normally two to three years.

PhD Program
Course Requirements
Candidates for the PhD degree are required to complete successfully a minimum of 3 units of graduate level courses approved by the student’s supervisory committee. Students are normally required to take BCMB 500 as part of this 3 unit requirement. Students who enter with a Master’s degree may be given credit for up to 3 units of previous graduate work. Additional graduate level courses may be required at the discretion of the supervisory committee.

Students must complete BCMB 580 and BCMB 680, which require that students present their own 580 and 680 seminars and receive favourable assessments, and that they attend and participate in seminars given by other graduate students and senior scientists. Further information on the assessment of student performance for the BCMB 580/680 seminars can be found within the graduate handbook located at <www.uvic.ca/science/biochem/graduate>. The BCMB 580 and BCMB 680 seminars must be on the student’s own research. Students must register for BIOC 699 or MICR 699 (thesis).

Candidacy
Students entering the PhD program with a Master’s degree must complete the candidacy exam within 12 months, while students transferring from the MSc to the PhD program must complete the exam within 18 months. Students must register in BCMB 693 upon provisional transfer to the PhD program and must remain registered until the candidacy requirements are complete.

The candidacy examination is an oral defense of a grant-style proposal written on the student’s research project. Students must pass both the oral and written components.

Other Requirements
Students must be continuously registered full-time in three terms per year in the graduate program. No part-time graduate programs are offered.

Attendance at departmental research seminars, given by scientists inside and outside the University, is mandatory.

Students normally undertake a teaching assistantship within the department.

Dissertation
Students must have a supervisory committee consisting of their supervisor, a minimum of two other faculty members and an external faculty member from a related academic discipline.

Students are expected to publish the results of their research in refereed scientific journals and present them at conferences.

Oral Examination
The final, written thesis will be evaluated by the supervisory committee and an external examiner (from outside the University) chosen by the Graduate Committee in consultation with the supervisor and approved by the Faculty of Graduate Studies. The thesis must be publicly presented and defended in an oral exam.

Program Length
Normally three to five years.
**Biology**

**General Information**

The Department of Biology has three core research areas in Molecular Biology, Organismal Biology, and Ecology and Evolution. Cross-disciplinary research among these areas occur in five main research themes: Marine Science, Neurobiology, Biomedical Research and Genomics, Forest Biology, and Environmental Biology.

Additional information can be found on the web at <www.uvic.ca/science/biology>.

**Faculty Members and Areas of Research**

Geraldine A. Allen, PhD (Oregon State)  
Plant evolution; flowering plant diversity, phylogeny and phylogeography; conservation biology

Bradley R. Anholt, PhD (Brit Col)  
Population and community ecology; evolutionary ecology of antipredator defenses; evolution of sex ratio variation

Gautam B. Awatramani, PhD (SUNY Buffalo)  
Synaptic physiology, Two-photon imaging, retinal circuitry

Julia K. Baum, PhD (Dalhousie)  
Population and community ecology; role of predators, trophic control in the ocean; marine conservation

Craig E. Brown, PhD (Calgary)  
Neuroscience, stroke, diabetes, synaptic plasticity, somatosensory cortex, functional brain imaging

Brian R. Christie, PhD (Otago, New Zealand)  
Neuroscience; learning and memory processes; neuroanatomy; neurophysiology; synaptic plasticity; animal behaviour; electrophysiology; neurogenetics; developmental disorders (i.e. Fetal Alcohol Syndrome, Fragile X Syndrome); Age related disorders (i.e. Alzheimer's Disease, Huntington's Disease)

Robert L. Chow, PhD (New York)  
Molecular and developmental genetics of the eye, gene-targeting and transgenic models of ocular disease, retinal circuitry, microRNA regulation

Francis Y.M. Choy, PhD (North Dakota)  
Molecular biology, human molecular and biochemical genetics, molecular evolution of the glucocerebrosidase gene among human and non-human primates, and implications in Gaucher disease

C. Peter Constabel, PhD (Montreal)  
Plant molecular biology, secondary plant metabolism, plant-plant interactions, chemical ecology

Kerry R. Delaney, PhD (Princeton)  
Neurophysiology, synaptic physiology, calcium imaging and dendritic processing; Rett Syndrome

John F. Dower, PhD (Victoria)  
Biological oceanography and marine biology, zooplankton and larval fish ecology

Juergen Ehlting, PhD (Max Planck Cologne)  
Functional genomics, molecular evolution, and biochemistry of plant natural products

Rana El-Sabaawi, PhD (Victoria)  
Food web ecology, physiological ecology, streams and river ecology, estuarine and coastal systems, eco-evolutionary dynamics, ecosystem processes

Barry W. Glickman, PhD (Leiden)  
History and philosophy of Science with a focus on how we know things and how social context influences Science. Ethical and sociological considerations of biotechnological development. Nature and mechanism of mutation, human health, cancer, aging, and molecular evolution.

Patrick T. Gregory, PhD (Manitoba)  
Population ecology, herpetology

Barbara J. Hawkins, PhD (Canterbury)  
Conifer seedling physiology; mineral nutrition, cold tolerance

William E. Hintz, PhD (Toronto)  
Molecular genetics and characterization of pathogenicity determinants of phytotrophic fungi

Perry L. Howard, PhD (Toronto)  
Cancer Biology, Cell Signaling, miRNA Biogenesis during Development

Francis Juanes, PhD (Stony Brook)  
Fisheries ecology, conservation genetics, underwater soundscapes and sound production in fishes, salmon life history and recruitment

S. Kim Juniper, PhD (Canterbury)  
Ecology of marine microorganisms; marine benthic ecology; biogeochemistry, ecology of deep-sea hydrothermal vents

Ben F. Koop, PhD (Wayne State)  
Molecular biology; evolution, fish genetics, immunology

Terri Lacourse, PhD (Simon Fraser)  
Paleoecology; palynology; Earth systems ecology

Asit Mazumder, PhD (Waterloo)  
Water and watershed ecology; environmental management of drinking water, nutrient-foodweb ecology of Atlantic and Pacific salmon, fate and transfer of chemicals in aquatic foodwebs

**Financial Support**

All students accepted into the program are guaranteed a minimum stipend made up of a combination of scholarship, fellowship, Teaching
Assistantship, and support payments from individual research grants. For this reason, students are accepted into individual laboratories as well as by the department.

All graduate students are financially supported to undertake full-time graduate studies in the Department of Biology. MSc students are guaranteed a minimum of $18,000 p.a. for two years and PhD students $18,000 p.a. for three years. This funding is made up of a variety of sources. (1) National or Provincial awards are available to those with a first-class grade point average (minimum 7.0 but in practice much higher) in the last two years of undergraduate studies. Eligibility criteria vary with agency. Currently national fellowship holders receive an additional award from the university. (2) A limited number of University of Victoria Graduate Fellowships are available to applicants with a GPA over 7.5 (A). (3) There are a limited number of awards specifically for Biology graduate students outlined in the awards section of the Calendar. Application and/or nomination for the University of Victoria awards and fellowships may only be done once the student has been admitted to the department. (4) Students can also obtain some financial support for their studies as a Graduate Teaching Assistant. These appointments are made by the Department of Biology for qualified students to work up to 2/5 time as a laboratory instructor. Normally students are also appointed as a research assistant by their faculty supervisor to meet the minimum level of support guaranteed by the department. Funding is still available in additional years of the program but the minimum is no longer enforced.

**ADMISSION REQUIREMENTS**

**General**

Initial inquiries should be made to individual faculty or the Graduate Adviser, Department of Biology. Links to the application forms can be found on the departmental website.

Applicants whose native language is not English must write the TOEFL (Test of English as a Foreign Language) and submit the scores to the Graduate Admissions and Records Office together with their application forms (see "English Language Proficiency", page 18). Even with passing TOEFL scores, students may be required to take English language courses as well as their other course work.

All MSc and PhD candidates admitted to the Department of Biology are expected to have or to make up a background knowledge of basic biology of at least equivalent to that of a BSc student graduating from this department.

Applications from students with a first class academic record will be considered for recommendation at any time. Applicants with a GPA of less than 6.5 (B+/A-) or its equivalent in their last two years of work will not normally be recommended for admission by the Department of Biology.

In addition to the documentation required by the Faculty of Graduate Studies (see "Faculty Admissions", page 17), the Department of Biology also requires a Letter of Intent outlining the applicant's research interest and relevant experience.

**Admission to the MSc Program**

Admission requires a bachelor's degree, preferably in Biology or Biochemistry, with a minimum overall average of 6.5 on the University of Victoria 9-point scale.

**Admission to the PhD Program**

Admission to the PhD program will normally require an MSc in Biology or Biochemistry, with a GPA of A- or 7.0 on the University of Victoria 9-point scale.

**Deadlines**

Students wishing to be considered for a University of Victoria Fellowship must submit their complete application by February 15 for admission in September of the same calendar year. Admission is possible for May 1, September 1, or January 1, but complete applications must arrive three months before the expected entry date into the program for Canadian applications. Because of visa requirements international students should complete the application process at least six months in advance.

**PROGRAM REQUIREMENTS**

Students entering with a BSc and intending to take a PhD program will initially be registered in a MSc program. They may be transferred to a PhD program at the end of their first year, on the recommendation of their supervisory committee and the Department of Biology and approval by the Dean of Graduate Studies.

**MSc - Thesis Option**

The MSc is a full-time research degree with thesis and with some additional required course work.

**Course Requirements**

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 560 (seminar) 1.0</td>
<td></td>
</tr>
<tr>
<td>Coursework</td>
<td>3.0</td>
</tr>
<tr>
<td>Thesis (BIOL 599)</td>
<td>12.0</td>
</tr>
</tbody>
</table>

All students are to register in BIOL 560. Students should consult the department concerning which courses will be offered in any given year. Admission to any graduate courses requires permission of the instructor.

Students must consult with their supervisor and supervisory committee on the required course work. Graduate students may be asked to complete senior undergraduate courses with additional advanced assignments for part of the course requirements.

**Forest Biology Courses**

Graduate students in Forest Biology must register in FORB 560 (1.5 units) in addition to BIOL 560.

**Thesis**

The topic and scope of the thesis research is agreed by the supervisory committee. The written thesis must meet the formatting standards of the university and the research standards of the wider scientific community.

**Oral Examination**

The thesis must be defended in an oral examination in front of the supervisory committee and an external examiner from outside the candidate's home department to ensure that the research and the thesis meet the required standard.

**Program Length**

The MSc is primarily a program of full-time independent research. Students can expect to take a minimum of two years to complete the program.

**PhD Program**

The PhD program is a full-time program of independent and original research culminating in a dissertation which is defended in an oral examination. Students must complete a candidacy examination in their general research area within 2 years of entering the program, and some additional required coursework.

**Course Requirements**

All PhD students must register in BIOL 560 and BIOL 693. Students should consult the department for other courses that will be offered in any given year. Admission to any graduate course requires permission of the instructor.

Students must consult with their supervisor and supervisory committee on the required course work. Graduate students may be asked to complete senior undergraduate courses with additional advanced assignments for part of the course requirements.

PhD students must complete 4.5 units (three one-term courses) plus BIOL 560 and BIOL 693 during the course of their PhD.

**Comprehensive Exams**

The comprehensive requirement must be satisfied within two years of registration in the doctoral program (see "Program Requirements - Doctoral Degrees", page 22).

**Candidacy**

The candidacy examination requires a candidacy paper on a topic agreed with the supervisory committee. If the paper is acceptable to the committee, the oral examination can proceed. Topics for the oral examination are based in part on the paper and other areas agreed by the committee at the time of setting the topic of the candidacy paper.

The candidacy examination must be held within 21 months of a student entering the PhD program. Students transferring from the MSc to the PhD program must complete the exam within 18 months from their entry into the PhD.

Students enroll in BIOL 693 (PhD Candidacy Examination) upon registering in the PhD program (or upon switching to the PhD program from the MSc program) and remain enrolled until all candidacy requirements are complete.

**Other Requirements**

All PhD students must give a departmental seminar on their research prior to completing the program.

**Dissertation**

The topic and scope of the dissertation research is agreed by the supervisory committee. The written dissertation must confirm to the standards of the university and the research standards of the wider scientific community.

**Oral Examination**

The dissertation must be defended in an oral examination in front of the supervisory committee and an external examiner from outside of the university to ensure that the research and the dissertation meets the required standards.
Program Length
The PhD is a full-time research degree that normally takes four years to complete.

Specialization in Forest Biology
Graduate courses in Forest Biology (FORB) are offered. Graduate students in Forest Biology must register in FORB 560 in addition to BIOL 560.

Co-operative Education
Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and workplace experience – is optional for Master's and PhD students. Master's students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op coordinator, to participate in the Co-op program. Interested students should contact the Biology Co-op office early in their first term. Students are also referred to "General Regulations: Graduate Co-op" on page 34.

Business

GENERAL INFORMATION
The Sardul S. Gill Graduate School, part of the Peter B. Gustavson School of Business, provides a dynamic and unique learning environment that develops principled managers and leaders who can drive innovation and social change. The faculty delivers innovative graduate programs that are designed to cross functional areas and provide an international perspective. The Gill Graduate School of Business specializes in Entrepreneurship, Service Management, and International Business and offers a variety of programs at the graduate certificate, graduate diploma, master, and PhD levels.

The MBA Program is designed to prepare students for business success in the global business environment. Students learn to think critically, use leading edge business knowledge and build an international business network. Our commitment to sustainability and international business underpins our program. Our two areas of MBA specialization, Entrepreneurship and Service Management, have won awards and recognition for their innovative pedagogy, alumni satisfaction and excellence.

The Master of Global Business (MGB) is a sixteen-month graduate degree that can be completed within twelve months, designed specifically for the student who holds an undergraduate degree in Business Administration or Commerce and wishes to specialize in International Business.

The MGB program is primarily located at the University of Victoria campus in Victoria, BC. Program components are also delivered by Gill Graduate School of Business faculty at partner institutions in Asia, Europe and South America. Students are normally expected to complete the program within one year (September to August, or January to December). The program aims to provide the opportunity for British Columbian and other BCom graduates to specialize in international business at a graduate level, to offer a rigorous learning experience combined with cultural experience and training that is richer than any other offered in Canada; and to build on and use the considerable international expertise and contacts within the school.

The Graduate Certificate in Entrepreneurship (GCE) and Graduate Diploma in Entrepreneurship (GDE) programs are designed to help learners develop an entrepreneurial mindset and master the concepts involved in identifying and realizing opportunities to create new value, either through new venture creation or new product development.

The GCE and GDE programs will appeal to: 1) recent graduates who have an innovative new product concept or would like to work on one; 2) working professionals who are seeking to start a new venture or create new value within an existing organization; or 3) professionals who support and provide services to entrepreneurs and seek to better understand the process of entrepreneurship and the needs of entrepreneurs.

The PhD in International Management & Organization is a challenging and stimulating program designed to develop an individual's competence in research as well as in teaching to prepare candidates for a productive academic career. The program places an emphasis on international business; it offers opportunities for international fellowships and pragmatic internships to apply and observe concepts of study. Candidates are trained in management theory and methodology to create insights that are publishable in the world's top academic management journals.

Gill Graduate School faculty are recognized worldwide for their research and teaching excellence.

Degrees and Specializations Offered

The Sardul S. Gill Graduate School of Business offers graduate programs leading to the degrees of Master of Business Administration (MBA), Master of Global Business (MGB) and Doctor of Philosophy (PhD) in International Management & Organization. Each graduate program offers a unique learning environment for success.

MBA Degree

The Gill Graduate School of Business offers MBA Daytime, Evening, International Executive programs of study, plus a Modular Option by special arrangement. This multidisciplinary program is designed to provide practicing or potential business professionals and managers with the analytical expertise and practical knowledge to distinguish themselves in the business sector. Students will gain a comprehensive understanding of the functional business disciplines underpinned by an in-depth understanding of international business and sustainability, along with the opportunity to specialize in Entrepreneurship or Service Management.

MGB Degree

The Master of Global Business Program has been designed as a rigorous program combining the fundamentals of international business and the experience of learning, living and working in the global environment. Learning outcomes have been carefully determined and by program finish, students are expected to possess: a “global mindset” that facilitates decision making and increases effectiveness in leading change in international contexts; an ability to deal with the challenges of international business; an understanding of the comparative socio-economic environments of North America, Asia, Europe and South America; a high level of cultural awareness and empathy; and foreign language proficiency.

Graduate Certificate and Diploma

The Graduate Certificate in Entrepreneurship (GCE) program focuses on the key theories, concepts, thinking and behaviours needed to be a successful entrepreneur. Delivered at the University of Victoria, the 6.0 credit certificate will help students work through the entrepreneurial process from idea generation to start-up planning. On completion of the certificate, learners will have written a viable business plan, will possess a better understanding of their own willingness to venture and will master key skills needed to be successful in their venture.

The Graduate Diploma in Entrepreneurship (GDE) builds on this classroom learning by providing an additional 3.0 unit directed entrepreneurial practicum and expertise development seminar, where learners implement their business concept (or help grow an existing organization) and develop venture specific expertise via directed study; On completion of the diploma, learners will have gained experience, additional skills and knowledge needed to be successful in their venture.

PhD Degree

The Doctor of Philosophy (PhD) Program in International Management & Organization emphasizes International Business, but allows room for significant content specific course work to enable students to attain a minor in the traditional business domains (i.e. Strategy or Organizational Theory, etc.) of particular interest to students and supervisors.
Facilities
The Sardul S. Gill Graduate School is located in the Business and Economics (BEC) Building which is the hub of the Gustavson School of Business’ activity. Its main and lower floors house the student services offices, faculty offices and the Business Co-op and Career center. For MBA students, BEC houses exclusive facilities, such as a bistro-style lounge, wireless computer lab and business boardrooms. The MBA classroom features state-of-the-art technology complete with wireless access. MGB students will have dedicated study space available to them during their time on campus at UVic. PhD students have prime office space within BEC to conduct their studies.

Other resources housed in BEC include a full-service computer lab. All students have access to a large number of major business and economics online journals available through the UVic MacPherson library and the interlibrary loans service.

Financial Support

Entrance Scholarships
All accepted students are automatically considered for any scholarships awarded through the Gill Graduate School of Business.

MBA Scholarships are awarded to selected incoming students based on work experience and prior academic performance. The awards range from $1,000 to $5,000.

MGB Scholarships will be made available to incoming students also based on their prior academic performance. The awards range from $5,000 to $10,000.

For PhD students, entrance scholarships are available from the Gill Graduate School and the Faculty of Graduate Studies. Amounts vary. The Faculty of Graduate Studies provides a list of available awards and necessary applications online at <web.uvic.ca/gradstudies/fund> and through their office in the University Centre.

Research and Teaching Assistants

Some professors hire graduate students as research, teaching and marking assistants. Students can apply for these positions once they are admitted to their program. PhD students should coordinate with the PhD Program Office.

Scholarships
All students are eligible to apply for UVic Graduate Studies fellowships and scholarships. Eligible PhD students are also strongly encouraged to apply for grants through national granting agencies such as Canada’s Social Sciences and Humanities Research Council at <www.shrc.ca>.

Student Loans
Other financial assistance is available in the form of national and provincial student loans, for those who qualify. For more information, please phone the UVic Student Financial Aid Office: 250-721-8423; fax: 250-721-8757.

Bursaries
Bursaries are non-repayable monetary awards based on financial need and reasonable academic standing. Students can apply for these through the Student Awards and Financial Aid Office at <www.uvic.ca/registrar/safa>.

Awards
MBA students are eligible for awards that range in value from $500 to $1500. The awards include: International Integrated Management Exercise Travel Award, Leadership/Citizenship Awards, Best Consulting Paper, Specialization Awards and Highest Foundation GPA Awards.

Dean’s Honour Roll Criteria
MBA and MGB students must have a graduating GPA in the top 10% of their class to be considered for the Dean’s Honour Roll.

ADMISSION REQUIREMENTS

Daytime and Evening MBA Programs

Applications are welcome from anyone who has received, or is about to receive, a baccalaureate degree from a recognized Canadian university, or foreign equivalent, with an academic standing acceptable to the Gill Graduate School of Business and the Faculty of Graduate Studies (see “Admission to Regular Master’s Degree Programs”, page 19). The program does not require any academic background in business or economics. Work experience in any professional or managerial capacity is considered a major asset. Applicants must also submit a valid Graduate Management Admission Test (GMAT) score, two letters of reference, a current résumé, and additional documentation outlined on the admissions website: <www.uvic.ca/gustavson/gill/mba/admissions>. In situations where an applicant is unable to provide a GMAT score, a valid Graduate Record Examinations (GRE) score will be accepted in its place. Applicants are advised that enrolment in this program is limited and admission is competitive.

Modular MBA Option

The program may be offered in a modular format for delivery to cohorts by special arrangement through an educational services contract. The program may be composed of different courses to provide the appropriate content emphasis. For applicants under such a modular option only, the same admission requirements as the Daytime and Evening programs apply but the GMAT score requirement may be waived.

International Executive MBA Program

This program is currently under review. At time of going to press, no date had been set for the next admission to this program.

MBA and MGB Application Deadlines

The deadline for submitting an application is March 15 for MBA, May 31 for the MGB September entry point and September 31 for MGB. Applications after that date will be considered subject to program space.

PhD Program

PhD students are admitted each year in September by the PhD Program Committee. Admission normally requires completion of a master’s degree (or equivalent) from an accredited and recognized institution. In general, applicants to the program will be expected to have a Master’s of Business Administration or another master’s-level degree (e.g., in Economics or Sociology) and as well as some experience working within an organization.

As per Graduate Studies regulations, successful applicants who enter the program without a Master’s-level program completed will be required to complete 45 units beyond the Bachelor’s level to satisfy completion of a PhD Program.

Assessment of candidates is based on their education, work and life experiences, personal statement, references, and GMAT or GRE scores.

PhD Application Process

In addition to the documentation and fees required by the Faculty of Graduate Studies, applicants need to submit additional information to apply to the PhD program at the Gill Graduate School. Please visit the website at <www.uvic.ca/gustavson/gill/phd> for more details. Admission questions and inquiries can be directed to the PhD Program Office at busiphd@uvic.ca.

PhD Application Deadlines

Please apply to the PhD program and submit all documents by January 30 to be considered for University of Victoria Graduate Fellowships.

PROGRAM REQUIREMENTS

Daytime MBA Program

The Daytime MBA Program consists of 27.5 units and may include one or two Co-op work terms. Students entering the program with less than three years of full-time, professional work experience are required to complete one four-month Co-op work term.

The Daytime program is generally completed in 17 to 21 months. All students participate in an International Integrative Management Exercise (IIME). The IIME takes place in another country
GRADUATE PROGRAMS

or countries over a two-week period. There are additional fees associated with the IIME and with other travel required as part of the program. Please see <www.uvic.ca/gustavson/gill/mba/tuition> for additional information.

The regular degree program consists of 27.5 units. Individual programs of study may differ, but in no case will the MBA degree be awarded on the basis of fewer than 21.0 units.

**Report Requirement**

Students choose one of two report options: Management Consulting Report or Research Report. Students choosing to do the Research Report will be required to take an appropriate Research Methods course of 1.5 units. Students should consult with their academic supervisor to identify a suitable course.

**Performance Requirement**

All MBA students are subject to the performance standards set by the Faculty of Graduate Studies. See “Academic Performance”, page 30.

**MBA+JD Double Degree Program Requirements**

A limited number of students (up to a maximum of five) who are accepted in both the Gill Graduate School of Business Daytime MBA program and the Faculty of Law JD program may take both degrees concurrently with modified requirements for each. The double degree may be completed in four years instead of the usual five years required to obtain both degrees separately. The Law requirements for the double degrees are described in UVic’s Undergraduate Calendar.

After completing their first year Law curriculum, students will start the MBA portion of the program, which includes the following:

**Course Requirement**

Students complete all Foundation courses with the exception of MBA 501B, 560 and 570.
Report Requirement

Students choose one of two report options: Research Report or Management Consulting Report. Students choosing to do the Research Report will be required to take an appropriate Research Methods course of 1.5 units. Students should consult with their academic supervisor to identify a suitable course. The report is normally completed in Year Three or Four of the double degree.

MBA 596 (3.0) Management Consulting Report

OR

MBA 598 (3.0) Research Report

Students requiring a mandatory Co-op, will normally complete their work term in Year Three or Four of the double degree.

Further information on the program may be obtained from either the Gill Graduate School or the Faculty of Law.

Students enrolled in the JD+MBA double degree program must submit two formal applications for graduation when registering in their final Summer or Winter Session. Graduation application forms are available from Undergraduate Records and Graduation Services for the JD degree and from Graduate Records for the MBA degree. Application deadlines are July 1 for the November convocation and December 1 for the June convocation. Both degrees must be conferred at the same Senate meeting, and be awarded at the same convocation.

Program Length

Minimum four years.

MBA+MEng Double-Degree Program

A limited number of students (up to a maximum of five) who are accepted in both the MBA program and the Masters of Engineering (project-based option) program in either of the Departments of Mechanical or Electrical and Computer Engineering may take both degrees concurrently with modified requirements for each. Both degrees may be completed within 25 months.

Double-degree students complete all MBA course work excluding the Specialization, MBA 501B and 570 in the first three terms of their program. Normally, students will then transfer to the Faculty of Engineering to complete MEng course work and Graduate Seminar requirements. The major project requirement for both programs will be satisfied with the successful completion of a single project, MBME 598, jointly supervised by the Faculty of Business and the Department of Computer Science. Completion of all required Computer Science course work will also be credited as fulfillment of the MBA specialization module requirements.

Students entering with less than three years of full-time work experience will complete a Co-op work term as a requirement of the MBA program.

EDHEC Options

EDHEC is one of the world’s top-ranked business schools. Located in France, it has two main campuses in Lille and Nice that offer, among other programs, a wide array of specialized Masters programs in Business and Finance. For more information about EDHEC, visit <www.edhec.edu>.

Double Degree Option – EDHEC MSc + UVic MBA

A limited number of MBA students nominated by the Gill Graduate School of Business who meet normal admission requirements for an EDHEC Master of Science program and who have successfully completed all MBA course work, excluding Specialization, MBA 501B and 570, may apply to complete their MBAs through one of the following EDHEC degree programs:

Business MSc Programs (Lille campus):
- MSc in Arts & NGO Management
- MSc in Entrepreneurship
- MSc in Law & Tax Management
- MSc in Marketing Management
- MSc in Strategy and Organizational Consultancy

Finance MSc Programs (Nice campus):
- MSc in Audit & Management Control
- MSc in Corporate Finance
- MSc in Finance
- MSc in Financial Markets

Upon successful completion of EDHEC MSc academic requirements (75 ECTS), a student will be awarded the EDHEC degree. UVic students who transfer 4.5 units of appropriate coursework completed within the EDHEC MSc program will also satisfy requirements for the MBA program's Specialization and MBA 598, qualifying the students for the UVic MBA. Students will be granted their degrees from each institution independently upon successfully completing the requirements for the particular degree program. Coursework must be completed within five years of starting the first degree.

MBA+MSc in Computer Science Double-Degree Program

A limited number of students (up to a maximum of five) who are accepted in both the MBA program and the Master’s of Science (project-based option) program in the Department of Computer Science may take both degrees concurrently with modified requirements for each. Both degrees may be completed within 29 months.

Double-degree students complete all MBA course work excluding the Specialization, MBA 501B and 570 in the first three terms of their program. Normally, students will then transfer to the Department of Computer Science to complete MSc course work requirements, consisting of CSC 595 and 7.5 units of other courses. The major project requirement for both programs will be satisfied with the successful completion of a single project, MBMS 598, jointly supervised by the Faculty of Business and the Department of Computer Science. Completion of all required Computer Science course work will also be credited as fulfillment of the MBA specialization module requirements.

Students entering with less than three years of full-time work experience will complete a Co-op work term as a requirement of the MBA program.

Double Degree Option – EDHEC Master of International Management (MIM) + UVic Master of Global Business (MGB)

Qualified EDHEC Master of International Management students who have completed their MIM Level 1 requirements may apply to the Gill Graduate School's MGB program. Credits earned in completing the MGB program can be transferred to EDHEC to satisfy the remaining MIM requirements, allowing students to earn both degrees within two years. Students will be granted their degrees from each institution independently upon successfully completing the requirements for the particular degree program.

Applicants must submit a formal application form after successful completion of the Master of Management (MIM) Level 1 at EDHEC with an overall GPA of 13 out of 20 on the EDHEC scale. Coursework must be completed within five years of starting the first degree.

For program details and more information about fees, the application process, and application deadlines for the EDHEC options, please contact the Gill Graduate School Program office.

Thunderbird School of Global Management Options

Thunderbird School of Global Management is a world ranked school for international management education at the graduate level. Its main campus is located in Glendale, Arizona, USA. Students from around the world attend Thunderbird for the range of international management courses, the world class faculty, and the recognition that a Thunderbird degree can give them. For more information about Thunderbird, visit <www.thunderbird.edu>.

1. Specialization Option:

A limited number of students nominated by the Gill Graduate School of Business and who meet Thunderbird’s normal admission requirements can attend Thunderbird after successfully completing the course work in the Gill Graduate School MBA Foundation Module excluding Specialization, MBA 501B and 570. At Thunderbird, Gill Graduate MBA students will complete the following courses:

- GM 4000 Global Political Economy (3.0 credits)
- GM 4210 Global Economics (3.0 credits)
- GM 4403 Global Enterprise (1.5 credits)
- GM 4800 Cross Cultural Communication (1.5 credits)
- GM 4801 Global Negotiations (1.5 credits)
- GM 5486 Global Leadership (1.5 credits)
- GF Elective (3 credits)

* 2.0 credit hours at Thunderbird equals 1.0 unit at UVic

Upon successful completion of the 15 credit hours at Thunderbird the students will be awarded a Certificate of Advanced Studies from Thunderbird. This Certificate will count as the Specialization Module for Gill Graduate MBA students. For more information about fees, the application process, and application deadlines please contact the Gill Graduate School MBA Program office.

2. Double Degree Option

A limited number of Gill Graduate MBA students nominated by the Gill Graduate School of Business and who meet Thunderbird’s normal
admission requirements and who have successfully completed the course work in the Gill Graduate School MBA Foundation Module, excluding Specialization, MBA 501B and 570, can attend Thunderbird in order to earn an MGM (Thunderbird's Master of Global Management) degree. At Thunderbird, Gill Graduate School MBA students will complete a minimum of 30 credit hours*. Please contact the Gill Graduate School MBA Program office for a complete listing of Thunderbird's requirements.

* 2.0 credit hours at Thunderbird equals 1.0 unit at UVic

A minimum of 12 credit hours from Thunderbird's MGM program will be counted as the Specialization Module for purposes of earning an MBA. Students must also complete a major project, either MBA 596 or 598 (3.0 units).

Thunderbird MGM students wishing to attend UVic in order to earn a Gill Graduate School MBA must qualify for regular admission to the MBA Program. At UVic, Thunderbird students will complete the following courses:

- MBA 500 EBL: (3.0 units)
- MBA Foundation Module courses excluding Specialization, MBA 501B and 570 (fall term and spring term) (15.0 units)
- Major project – MBA 596 or 598 (3.0 units)

UVic will recognize a minimum of 12 credit hours from Thunderbird's MGM program (equal to 6.0 UVic units) will be counted as the Specialization Module for purposes of earning a Gill Graduate School MBA.

Double Degree option students shall be granted their respective degrees (MBA and/or MGM) upon successfully meeting the respective requirements of each institution. Coursework must be completed within five years of starting the first degree.

For more information about fees, the application process, and application deadlines please contact the Gill Graduate School MBA Program office.

MGB Program

The MGB Program consists of four modules including an international research and consulting project and a global internship. The program is normally completed in 12 months. The regular degree program consists of 17.5 units plus 3.0 units of required introductory language training.

Coursework

MGB students are required to take 20.5 units of coursework, as listed below.

a) Global Business Fundamentals Module (4.0 units)

MGB 510 (1.0) The North American Business Context
MGB 512 (1.0) International Financial Management
MGB 516 (1.0) International Marketing and Global Strategy
MGB 519 (1.0) International Logistics and Supply Chain Management

b) Global Business Opportunities Module (4.5 units)

MGB 525 (1.5) Developing Business in International Entrepreneurial Environments

Two (3.0 units) of:

- MGB 520 (1.5) Industry Analysis and the Asian Business Context
- MGB 530 (1.5) The European Business Context
- MGB 540 (1.5) The South American Business Context

c) Global Business In Action Module (3.0 units)

MGB 535 (1.0) Consulting Methods and Practice
MGB 536 (3.0) International Research and Consulting Project

d) Global Business Experience Module (1.5 units)

MGB 537 (1.5) Global Internship

Additional courses, running throughout the program:

- MGB 570 (2.0) Global Leadership and Cultural Intelligence
- MGB 583 (1.5) Language, Communication and Global Business
- MGB 180 (1.0) Language Skills I
- MGB 181 (1.0) Language Skills II
- MGB 182 (1.0) Language Skills III

* Students will take two of MGB 520, 530, 540 according to the track they are assigned to by the MGB Program Director.

PhD Program

The regular PhD program consists of 33 units for students holding a master's degree. In no case will the PhD degree be awarded on the basis of fewer than 15 units of study completed at the University of Victoria.

Upon admission, the PhD Program Director, in consultation with the incoming student's PhD Supervisor, will meet with the PhD student to review requirements for graduation that will include the following:

1. Coursework (18 units)
2. Comprehensive Candidacy written and oral examinations
3. Thesis proposal and presentation
4. Dissertation and defense (15 units)
5. International Research Exchange (if determined appropriate)
6. Industry Practicum (if determined appropriate)
7. Teacher training (if determined appropriate)
8. Other requirements as determined by the PhD Program Director and the student's PhD Supervisor

1. Coursework

PhD students are required to take 18.0 units of coursework in research methods and foundation courses during their first two years in the program.

Students in the PhD Program in International Management & Organization can choose from one of three streams:

- Strategy and International Management
- Organizational Analysis and Cross Cultural Management
- Sustainability and International Management

a) Theoretical and Empirical Foundation topics (1.5 units)

Strategy and International Management

- BUS 601 – Foundations of Research in International Management & Organization (1.5 units)
- BUS 602 – Seminar in International Management (1.5 units)
- BUS 603 – Seminar in Strategy and Organization (1.5 units)
- BUS 604 – Seminar in Global Issues of Business Sustainability (1.5 units) OR BUS 606 – Seminar in Organizational Analysis (1.5 units)
- BUS 605 – Seminar in Cross-cultural Management (1.5 units)
- Two elective courses (3.0 units) at the graduate level to be approved by the PhD Program Director in consultation with the student's supervisor.
- BUS 670 – Research Seminars (3.0 units)

Organizational Analysis and Cross-Cultural Management

- BUS 601 – Foundations of Research in International Management & Organization (1.5 units)
- BUS 602 – Seminar in International Management (1.5 units)
- BUS 603 – Seminar in Strategy and Organization (1.5 units) OR BUS 604 – Seminar in Global Issues of Business Sustainability (1.5 units)
• BUS 605 – Seminar in Cross-cultural Management (1.5 units)
• BUS 606 – Seminar in Organizational Analysis (1.5 units)
• Two electives courses (3.0 units) at the graduate level to be approved by the PhD Program Director in consultation with the student’s supervisor.
• BUS 670 – Research Seminars (3.0 units)

Sustainability and International Management
• BUS 601 – Foundations of Research in International Management & Organization (1.5 units)
• BUS 602 - Seminar in International Management (1.5 units) OR BUS 605 – Seminar in Cross-cultural Management (1.5 units)
• BUS 604 – Seminar in Global Issues of Business Sustainability (1.5 units)
• BUS 606 – Seminar in Organizational Analysis (1.5 units) OR BUS 603 – Seminar in Strategy and Organization (1.5 units)
• One other BUS 600-level course (1.5 units)
• Two elective courses (3.0 units) at the graduate level to be approved by the PhD Program Director in consultation with the student’s supervisor.
• BUS 670 – Research Seminars (3.0 units)

b) Advanced Theory and Methods (4.5 units)
• BUS 640 – Research Methods Overview in Management (1.5 units)
• Two other courses (3.0 units) to be approved by the PhD Program Director, in consultation with the student’s supervisor. A list of eligible courses may be obtained from the PhD Program Office.

If a student has completed PhD-level coursework at another institution, then the Gill Graduate School of Business will evaluate the courses on a case-by-case basis to determine if some course requirements may be waived.

2. Comprehensive Candidacy Examination

Normally within two years after commencing PhD studies, students will be required to undertake written candidacy examinations that assess a mastery of the theories and methods prevalent in the field and awareness of the emerging directions in international management and organization. The candidacy examinations will be set and assessed by the PhD Examination Committee, appointed by the PhD Program Director.

3. Dissertation Proposal and Presentation

Students will normally be expected to develop a dissertation proposal within six months of passing candidacy exams, and must defend the dissertation proposal within three years of entering the program. The student will find a dissertation supervisor as per Faculty of Graduate Studies guidelines on Supervisor Relationship Policy. The student, in consultation with the supervisor, will assemble two other faculty members (usually from the Gill Graduate School of Business) to form a Dissertation Proposal Committee who will assess the oral and written presentation of the dissertation proposal.

4. Dissertation/Oral Examination

Once the Thesis Proposal Committee is satisfied that the dissertation proposal meets the standards of the Faculty of Graduate Studies and of the Gill Graduate School of Business, candidates will begin their dissertation research.

Once the dissertation is nearly ready to be defended, the candidate’s thesis supervisor will assemble a Thesis Defense Committee to assess the quality of the work. The Thesis Defense Committee will be made up of two faculty members from within the Gill Graduate School, one faculty member from outside the school but within the University of Victoria, and one faculty member from outside the University of Victoria (i.e., the External Examiner). Once the Thesis Defense Committee is satisfied with the thesis, candidates will then defend the dissertation in a public oral examination as per the requirements of the Faculty of Graduate Studies.

Candidates are expected to complete their dissertation and final oral exam by the end of their fourth year in the PhD Program.

5. International Research Exchange

To round out their research experience, PhD candidates can participate in an International Research Exchange at select research-focused universities abroad. These short-term residencies are intended to ensure that PhD candidates have direct exposure to international research issues as well as to enhance their international academic networks. An International Research Exchange is optional. The PhD Program Director, in consultation with the candidate’s supervisor, may require it as part of the candidate’s program.

If an International Research Exchange is included in the candidate’s program, the candidate will work with his/her supervisor and the International Programs Office to find an appropriate placement at a university abroad. The length of the International Research Exchange can vary, but could be up to four months and will take place after candidacy exams. A reflective exercise will be required upon completion of the International Research Exchange and requirements will be set out by the PhD Advisory Group and candidate’s PhD Supervisor.

6. Industry Practicum

PhD candidates may include work experience in their program by participating in an Industry Practicum to engage in an organization, whether that be a private business, public institution, or not-for-profit entity, to enhance their practical appreciation for the phenomena they are studying. A holistic assessment will be conducted at the time of the candidacy exams to determine a candidate’s need for industry experience. The PhD Program Director, in consultation with the candidate’s supervisor, may require a practicum for the candidate’s program.

If an Industry Practicum is included in the candidate’s program, the candidate will work with the his/her supervisor and the Business Co-op and Career Center, on a suitable Industry Practicum program—which is intended to be closely related to their emerging area of academic study. The length of the Industry Practicum can vary, but may be up to four months and will take place after candidacy exams. A reflective exercise will be required upon completion of the Industry Practicum and requirements will be set out by the PhD Program Director, the candidate’s supervisor, and the Business Co-op and Career Center.

UVIC CALENDAR MAY 2015

7. Teacher Training as determined appropriate by the PhD Program Director

Teacher training will be an essential component of the PhD program. Candidates will be given various opportunities to develop teaching skills through Teaching Assistantships and/or Sessional Teaching as well as courses available through the UVic Learning and Teaching Center (e.g., ED-D 600). Teaching activities will be coordinated through the PhD Program Office.

While teacher training is mandatory, the PhD Program Director, in consultation with the candidate’s supervisor may waive this requirement if the candidate can demonstrate a high level of teaching experience and expertise. An assessment of the candidate’s teaching experience will be completed at the time of the candidacy by the PhD Advisory Group and the candidate’s supervisor.

8. Other requirements

These will be determined by the PhD Advisory Group and the student’s PhD Supervisor.

PhD Course Prerequisites

Students who have not completed an MBA will normally be expected to complete the MBA Foundation module. Students may be waived from certain courses based on prior coursework or work experience. These requirements will be determined on a case-by-case basis and will be communicated to the prospective students prior to admission into the PhD program.

Research Seminars

Students are expected to attend BUS 670 Research Seminars as scheduled.

Assessment of Progress

A student’s progress will be reviewed periodically by the PhD Program Director in consultation with the student’s supervisor. In cases where performance is below the required standard, a plan for improvement will be developed between the PhD Program Director and the student, if there is mutual agreement that the student is to continue pursuing PhD studies. Continued financial support is contingent upon satisfactory progress as assessed by the PhD Program Director.

Residency

Students are required to attend full time on campus throughout their PhD studies (aside from their International Research Exchange, Industry Practicum). Continued financial support is contingent upon full time residency although special arrangements may be possible if agreed upon in advance by the PhD Program Director.

Program Length

PhD students should aim at completing their doctoral program in four years, including research, teacher training, international Research Exchange and industry practicum experiences. The program operates year round.

Co-operative Education

The University regulations with respect to Co-operative Education Programs and specifically the “General Regulations: Graduate Co-op”, page 34, are applicable to the Sauder S. Gill Graduate School of Business Co-op Program except to the extent that they are modified by regulations adopted by the School.
Admission to the MBA Business Co-op Program

Students entering the MBA Program with less than three years full-time relevant (or equivalent) of work experience will be required to undertake either one or two Co-op work terms. The number of work terms required will depend on the amount of relevant prior work experience, as determined by the MBA Program in conjunction with the Business Co-op and Career Centre. If required, the first Co-op work term will normally occur after completion of the eight-month Foundation Module (except for MBA 560). The second Co-op work term is scheduled thereafter.

MBA Co-op General Regulations

The following regulations apply to the Business Co-op program. General regulations found in the Co-operative Education Program section of the Calendar also apply to the Gill Graduate School of Business Co-op program. Where the school’s regulations differ from those of the Co-operative Education Program, the school’s regulations will apply.

Co-operative Education work terms are normally four months of full-time paid work. The work placement must be related to the student’s learning objectives and career goals. The placement must be supervised, and the employer willing to conduct a mid-term and final evaluation of the student in consultation with a Co-operative Education Program Coordinator (known hereafter as a Coordinator).

No MBA student is allowed to take more than 3.0 units of credit while on a full-time work term. If a student is on conditional continuation then no units of credit will be allowed during the work term. Students with a GPA below 4.0 in an academic term will not be eligible to participate in the next scheduled Co-op work term.

Students must sign a current Terms and Conditions document as provided by the Business Co-op Program in order to be eligible to participate in the placement process.

The Co-op Preparation Course is a mandatory requirement for business students. This program is a co-requisite for students participating in the placement process prior to their first work term.

Students will be provided more information regarding the Co-op Preparation Program, its curriculum, and the requirements for completion upon admission to the MBA Co-op Program. Students are expected to participate fully in the placement process. While every attempt will be made to ensure that all eligible students are placed, the Gill Graduate School of Business is under no obligation to guarantee placement.

Students are expected to participate fully in the placement process. While every attempt will be made to ensure that all eligible students are placed, the Gill Graduate School of Business is under no obligation to guarantee placement.

MBA Internships may range from two months to eight months of full-time paid or unpaid work, two months (300 hours) being the minimum. The Internship must be related to the student’s learning objectives and career goals. The Internship must be supervised, and the employer willing to conduct a mid-term and final assessment of the student in consultation with a Co-operative Education Coordinator (known hereafter as a Coordinator).

Students must sign a current Terms and Conditions document as provided by the Business Co-op Program in order to be eligible to participate in the Internship placement process.

The Internship Preparation series of sessions, an integral part of MGB 537 - Global Internship, is typically delivered during the first (Victoria) Module of the MGB program and is a mandatory requirement for University of Victoria MGB students.

Students will be provided more information regarding the MGB 537 - Global Internship, its curriculum, and the requirements for completion upon admission to the MGB Program.

Students are expected to participate fully in the placement process. While every attempt will be made to ensure that all eligible students are placed, the Gill Graduate School of Business is under no obligation to guarantee placement.

Students are only permitted to decline one valid Internship offer; more than that will result in no longer being eligible to access postings in the Co-op module of the UVic student job posting system (Learning in Motion). The Coordinator reserves the right to approve or deny internships with any employer, and to withdraw a student from any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any withdrawal and can follow the student appeal procedures as outlined in the "Student Appeal Procedures", page 35. Students may not withdraw from a placement without approval from a Coordinator.

Students must be officially registered for the work term by completing the Work Term Registration Form, which is provided by the Business Co-op office, and providing any other required documentation by the end of the first month of the work term. Students not registered by that time will not receive credit for that work term.

A Co-op program fee is charged for each term of work term registration. This fee is in addition to any tuition fees and student fees. It is due in the first month of each work term and subject to the normal University fee regulations, page 39.

While on Co-operative Education work terms, students are subject to the provisions of the Principles of Professional Behaviour and the Standards for Professional Behaviour documents developed for Gill Graduate School Students.

Assessment of Work Term Performance

The requirements for a pass grade in a Co-op Work Term include:

1. a satisfactory mid-term evaluation by the Coordinator based on discussion with the student and employer
2. the employer’s satisfactory final evaluation of the student, and
3. the satisfactory completion of a work term report as assessed by the Coordinator and submitted by the deadlines specified below:
   - **Spring Work Term Report:** due May 15 (unless May 15 falls on a University of Victoria recognized holiday or weekend, in which case the report will be due the next business day)
   - **Summer Work Term Report:** due September 15 (unless September 15 falls on a University of Victoria recognized holiday or weekend, in which case the report will be due the next business day)

Late work term reports will not be accepted without a medical certificate unless approval has been obtained from Business Co-op staff before the work term report submission deadline. Normally, pre-approval may be granted only in the event of illness, accident or family affliction.

Variances in work term report due dates resulting from irregular work term start dates may be granted with the written permission of the program manager. Permission must be requested within the first four weeks of the start of the work term.

A grade of COM, F/X or N/X will be assigned to students at the completion of each work term. Students who are not satisfied with the grade they have been assigned may launch an appeal as described in the Co-op General Regulations, “Student Appeal Procedures”, page 35.

Students who fail a work term or have not completed a work term by the end of four academic terms may be required to withdraw.

MGB Internship General Regulations

The following regulations apply to the MGB 537 Global Internship.

MGB Internships may range from two months to eight months of full-time paid or unpaid work, two months (300 hours) being the minimum. The Internship must be related to the student's learning objectives and career goals. The Internship must be supervised, and the employer willing to conduct a mid-term and final assessment of the student in consultation with a Co-operative Education Coordinator (known hereafter as a Coordinator).

Students must sign a current Terms and Conditions document as provided by the Business Co-op Program in order to be eligible to participate in the Internship placement process.

The Internship Preparation series of sessions, an integral part of MGB 537 - Global Internship, is typically delivered during the first (Victoria) Module of the MGB program and is a mandatory requirement for University of Victoria MGB students.

Students will be provided more information regarding the MGB 537 - Global Internship, its curriculum, and the requirements for completion upon admission to the MGB Program.

Students are expected to participate fully in the placement process. While every attempt will be made to ensure that all eligible students are placed, the Gill Graduate School of Business is under no obligation to guarantee placement.

Students are only permitted to decline one valid Internship offer; more than that will result in no longer being eligible to access postings in the Co-op module of the UVic student job posting system (Learning in Motion). The Coordinator reserves the right to approve or deny internships with any employer, and to withdraw a student from any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any withdrawal and can follow the “Student Appeal Procedures”, page 35. Students may not withdraw from a placement without approval from the Coordinator. Failure to obtain permission will result in the student receiving a grade of F on the internship term.

Students must be officially registered for the Internship by completing the Co-operative Education Work Term Registration for Graduate Studies Form, which is provided by the Business Co-op office, and providing any other required documentation by the end of the first month of the internship. While on Internship terms, students are subject to the provisions of the Principles of Professional Behaviour and the Standards of Professional Behaviour documents developed for Gill Graduate School Students.

Assessment of Internship Performance

The requirements for a pass grade in MGB 537 include:

1. a satisfactory mid-term assessment by the Coordinator based on discussion with the student and employer
2. the employer’s satisfactory final assessment of the student, and
3. the satisfactory completion of a work term report and the student’s final competency assessment, as assessed by the Coordinator and submitted by the deadlines specified below:
   - **Summer Work term report:** due August 15 (unless August 15 falls on a University of Victoria recognized holiday or weekend, in...
which case the report will be due the next business day).

- **Summer/fall Work term report** (for Internships that begin during the summer term and extend into the fall term): due January 15 (unless January 15 falls on a University of Victoria recognized holiday or weekend, in which case the report will be due the next business day).

- **Fall Work term report** (for January-entry students whose Internships begin in the fall term): due January 15 (unless January 15 falls on a University of Victoria recognized holiday or weekend, in which case the report will be due the next business day).

- **Fall/Spring Work term report** (for January-entry students whose Internships begin during the fall term and extend into the spring term): due April 15 (unless April 15 falls on a University of Victoria recognized holiday or weekend, in which case the report will be due the next business day).

Late work term reports will not be accepted without a medical certificate unless approval has been obtained from the Coordinator before the submission deadline. Normally, pre-approval may be granted only in the event of illness, accident or family affliction.

Variances in work term report due dates resulting from irregular work term start dates may be granted with the written permission of the Manager, Business Co-op Program. Permission must be requested within the first four weeks of the start of the internship term.

A grade of INR, COM, N or F will be assigned to students at the completion of the Internship. Students who are not satisfied with the grade they have been assigned may launch an appeal as described in the Co-op General Regulations, “Student Appeal Procedures”, page 35.

Students who fail an internship or have not completed an internship by the end of four academic terms may be required to pay a re-registration fee to retain student status while they complete the requirement.

**PhD Industry Practicum**

The intention of the PhD Industry Practicum is to provide an opportunity for PhD students to further their research goals within the PhD Program.

Students participating in the PhD Industry Practicum must complete at least one work experience term, that is, normally four months of full-time, disciplined-related work under the supervision of the Business Co-op and Career Centre delegate and/or the PhD Program delegate. These work experience terms are subject to the General Regulations: Graduate Co-op. Students should contact the PhD Program to discuss entry into the Industry Practicum.

**Faculty Members and Areas of Research**

**David Berg,** PhD (California, Berkeley)  
Inorganic synthesis, lanthanide chemistry, organometallic chemistry.

**Cornelia Bohne,** PhD (Sao Paolo)  
Supramolecular dynamics, kinetics, host-guest systems, gels, photochromism, photophysics.

**Alexander G Briggs,** PhD (Victoria)  
Chemical education, organic, physical organic chemistry.

**Alexandre G. Brolo,** PhD (Waterloo)  
Physical/analytical chemistry: surface spectroscopy, nanostructured materials, surface-enhanced Raman scattering (SERS), biosensors, plasmamics.

**Neil Burford,** PhD (Calgary)  
Synthetic, structural and spectroscopic studies of compounds featuring the p-block elements.

**Natai Frank,** PhD (California, San Diego)  
Organic synthesis and spectroscopy and coordination chemistry relevant to materials chemistry, organic electronics, organic photovoltaics, photochromism, photomagnetism, and spintronics.

**Thomas M. Fyles,** PhD (York)  
Supramolecular chemistry, bilayer membrane transport, synthetic lipids and amphiphiles, sensors.

**David A. Harrington,** PhD (Auckland)  
Electrochemistry; Electrocatalysis, adsorption and surface reactions, microfluidics, materials science, fuel cells.

**Robin G. Hicks,** PhD (Guelph)  
Synthetic main group, organic and coordination chemistry; ligand design; electronic structure, reactivity, and coordination complexes of stable radicals; redox-active ligands; organic pi conjugated materials.

**Fraser Hof,** PhD (Alberta)  
Supramolecular and medicinal chemistry. Organic synthesis and study of small molecules that inhibit protein targets relevant to cancer and epigenetics; basic studies of biomolecular recognition; bioanalytical chemistry; peptide and protein chemistry.

**Dennis K. Hore,** PhD (Queens)  
Optical properties of materials, biophysical chemistry, structural changes accompanying adsorption of biomolecules onto solid surfaces, electronic and vibrational spectroscopy, molecular simulations.

**Robert Lipson,** PhD (Toronto)  
Technique development and applications for MALDI mass spectrometry; laser spectroscopy of small polyatomics; and optical lithography for photonics.

**J. Scott McIndoe,** PhD (Waikato)  
Organometallic chemistry, catalysis, reaction mechanisms, electrospray ionization mass spectrometry, real-time analysis, catalyst discovery and synthesis, ligand design.

**Matthew Moffitt,** PhD (McGill)  

**Irina Paci,** PhD (Queens)  
Theoretical and computational chemistry, multi-scale simulations, functional materials, statistical mechanics, surface self-assembly, surface chirality.

**Lisa Rosenberg,** PhD (British Columbia)  
Catalyst design and mechanism, transition metal, silicon & phosphorus chemistry, E-H activation, new inorganic polymers.

**Frank C.J.M. van Veggel,** PhD (Tent)  
Photonic and magnetic nanomaterials, cancer diagnosis and treatment, MRI contrast agents, biolalns, lanthanide ions, quantum structures, synthesis and (photo)physical studies.

**Peter C. Wan,** PhD (Toronto)  
Mechanistic organic photochemistry, reactive intermediates, physical organic chemistry, environmental photochemistry.

**Jeremy Wulff,** PhD (Calgary)  
Synthesis and biological evaluation of complex molecules with potential medicinal properties.

**Degrees and Specializations Offered**

The department offers programs of study leading to thesis-based degrees of Master of Science (MSc) and Doctor of Philosophy (PhD). Research opportunities in nearly all modern areas of chemistry are available. Specialist expertise is recognized and developed, together with attitudes and skills essential for multi-disciplinary research. Consult the list of faculty members and their research, or visit the Department website for more information.
Facilities
The department is exceptionally well equipped. Departmental facilities exist for laser, mass spectrometry, and NMR systems, each having a variety of instrumentation capable of covering traditional through-ground-breaking techniques. In addition, there is a wide range of specialized research instrumentation belonging to our researchers and a large inventory of common instrumentation in our undergraduate laboratories, all of which is available for research use with the appropriate permissions. All equipment – in departmental facilities; in research labs; and in teaching labs – is supported by our skilled team of technical staff. Chemistry researchers also have access to instrumental facilities run by several scientific Research Centres on campus.

Financial Support
The department offers a minimum annual stipend for qualified graduate students. This stipend is normally comprised of support from the supervisor (in the form of research assistantships) and the University (teaching assistantships.) Many awards that provide additional funds are also available to exceptional entering and continuing students. Please consult the Graduate Advisor or Graduate Secretary for additional details.

Admission Requirements
General
The Chemistry department offers programs of study leading to the degrees of MSc and PhD. Complete admission requirements are supplied as part of the application package. Students accepted for admission are provided with a detailed outline of current policy and procedures for graduate study in the department. Based on past experience and performance, students may be permitted to enter either the MSc or PhD degree. For further information contact either the Graduate Admissions and Records Office or the Chemistry department at email: <chemgsec@uvic.ca>.

Applications are accepted from students who have completed a baccalaureate degree in chemistry or its equivalent. Depending on available positions, admission to the graduate school will be recommended for students who have achieved a grade point average of at least 5.0 (B average) in the last two years of senior courses leading to their undergraduate degree. In addition, students completing a baccalaureate degree at a non-Canadian institution may be required to submit Graduate Record Examination (GRE) General test scores; see the Department’s website for details.

Some international applicants may be exempt from the English language test requirement. International applicants should review the international applicant (language proficiency) area of the graduate admissions web site. Students admitted to Chemistry may still be required to complete additional English language courses in addition to their other course work.

Admission to the MSc Program
1. Normally, students with a B.Sc. in chemistry who achieved a minimum grade point of 5.0 during their last two years of senior courses will be admitted to the MSc program.
2. Applicants who already hold a Masters degree in chemistry must have their application reviewed by the Department of Chemistry and the Faculty of Graduate Studies before being considered for the MSc program. Normally, applicants already holding an MSc in chemistry will only be considered for admission to the PhD program.

Admission to the PhD Program
1. Students entering with a first class undergraduate degree or a previous MSc degree from a recognized institution may be admitted directly to PhD studies.
2. Graduate students in a Master’s program may transfer to a PhD program with the support of their supervisory committee. Students wishing to transfer to a PhD program must complete a written transfer report summarizing their progress to date and future plans and complete an oral transfer examination within 16 months of entry into the MSc program. Students who have not completed the transfer process within 16 month of first registering will normally be expected to complete an MSc degree.
3. Applicants who already hold a PhD in chemistry must have their application reviewed by the Department of Chemistry and the Faculty of Graduate Studies before being considered for the PhD program. Normally applicants already holding a PhD in chemistry will not be considered for the PhD program.

Application Deadlines
Students are admitted to the MSc and PhD programs in September, January, and April. The application deadlines for all programs are listed below:

<table>
<thead>
<tr>
<th>Entry point</th>

Program Requirements
Thesis-based Master’s
Course Requirements
Candidates for the MSc degree are required to complete at least 6 units of graduate courses in Chemistry. Substitution of appropriate courses from other departments may be made with the permission of the Chair, Supervisor, Graduate Adviser and Faculty of Graduate Studies. In addition to the course work completed early in the program, candidates are required to complete an MSc Thesis (CHEM 599). The normal course structure for an MSc program is:

Summary of Course Requirements
- Seminar (CHEM 509)................................................. 1
- Discussion (CHEM 670 or 680).......................... 3
- Graduate lecture courses.............................. 3
- Thesis (CHEM 599)................................................. 12
Total........................................................................... 19
1. Students are required to register in CHEM 509 and 599 throughout their degree. The requirements for CHEM 509 are regular attendance at departmental seminars and presentation of a research seminar in the final year of the degree.
2. A graduate lecture course may be substituted for CHEM 670 or 680 when the latter are not offered.
3. Substitution of an equivalent unit value course from another department or institution may be permitted with the permission of Chair, Supervisor, Graduate Adviser and Faculty of Graduate Studies.

Research
As part of the admissions process, graduate students will be matched with a research supervisor by mutual agreement prior to the beginning of their studies. The program must be mutually agreed upon between the professor offering a placement and the student accepting that placement.

The research supervisor must name a Supervisory Committee and complete a CAPP form for the student as soon as a choice of project has been made. For the MSc degree, the Supervisory Committee shall consist of two or three chemistry department members including the supervisor.

Assessment of Progress
The research progress of all graduate students is reviewed every term by their supervisor. In the event that the student’s progress is deemed unsatisfactory, a meeting with the student’s supervisory committee will be held at which the reasons for the unsatisfactory rating will be discussed. The expectation document for the next term should be written in consultation with the committee and should directly address the issues which were unsatisfactory in the previous term.

Transfer from MSc to PhD
Graduate students in a Master’s program who wish to transfer from the MSc to PhD program should first reach mutual agreement with their supervisor toward the end of their first year of study, after their first year’s grades are available. Students who do not transfer within 16 month of first registering will normally be expected to complete a Master’s degree.
A student planning to proceed to transfer should prepare for distribution to the Supervisory Committee a Transfer Report. This document should include an introduction to the student’s field of research, discussion of what has been achieved thus far, and a summary of future directions and goals. The report should be approximately 1,500-2,000 words in length (excluding references). The report is due to the supervisory committee two weeks prior to a scheduled Supervisory Committee meeting.
At the Supervisory Committee meeting, the student will make an oral presentation (15-20 minutes) on their Transfer Report. The Supervisory Committee will question the student (20-30 minutes) to ensure the student reasonably understands what is to be done in the program. The Supervisory Committee will then discuss the student’s academic (coursework) and research progress and immediately reach a decision regarding transfer.
If the Supervisory Committee decides that in favour of transfer, it will advise the Graduate Adviser who will recommend to the Faculty of Graduate Studies that the transfer take place.
The student and supervisor must submit an “Application to Re-register” form to the Faculty of Graduate Studies. The transfer takes effect from the start of the next academic term.

**Program Length**

Normally, completion of an MSc degree in chemistry requires 24 to 30 months.

**PhD Program**

**Course Requirements**

Candidates for the PhD degree entering the program with a BSc (or equivalent) degree or students transferring from an MSc to a PhD program are required to complete at least 9 units of graduate courses in Chemistry. Substitution of appropriate courses from other departments may be made with the permission of the Chair, Supervisor, Graduate Adviser and Faculty of Graduate Studies. In addition to the course work completed early in the program, candidates are required to complete a PhD Thesis (CHEM 699). The normal course structure for a PhD program, with the associated unit values is shown in the table below:

### Students Entering Directly from a BSc Degree Program

1. Students are required to register in CHEM 509 and 699 (or 599) throughout their degree. The requirements for CHEM 509 are regular attendance at departmental seminars and presentation of a research seminar in the final year of the degree.

2. A graduate lecture course may be substituted for CHEM 670 or 680 when the latter are not offered.

3. Substitution of an equivalent unit value course from another department or institution may be permitted with the permission of Chair, Supervisor, Graduate Adviser and Faculty of Graduate Studies.

**Research**

As in the case of MSc students, direct entry PhD students may start a program of research immediately upon arrival at the University. Graduate students will be matched with a research supervisor by mutual agreement prior to the beginning of their studies, equivalently to the process for entering MSc students. Students transferring into the PhD program normally will continue the research projects they initiated as MSc students.

**Supervisory Committee**

The research supervisor must name a Supervisory Committee and complete a Curriculum Advising and Program Planning (CAPP) form for the student as soon as a choice of project has been made. For the PhD degree, the Supervisory Committee shall consist of three or four members including the supervisor. One member of the supervisory committee must be from outside the department. For students transferring from an MSc to a PhD program, an additional committee member must be added by the research supervisor as soon after transfer as practical.

**Assessment of Progress**

The progress of PhD students is reviewed every term, as described above for MSc students.

**Candidacy**

Before being admitted to candidacy, all PhD students must pass a candidacy examination in their major field as outlined in “Doctoral Candidacy Examinations” on page 22. Chemistry department regulations stipulate that a student must pass a candidacy exam within two years of registration as a provisional doctoral student. Students who transfer from a Master’s program will be expected to pass the candidacy exam within 16 months from transfer. CHEM 693 is a co-requisite for CHEM 699. All registrations in CHEM 699 must be accompanied by registration in CHEM 693 until CHEM 693 is passed; students must be registered in CHEM 693 continuously until it is passed or they leave the program. A grade A of INP will be assigned for CHEM 693 until the examination is completed.

The PhD examination in Chemistry includes a candidacy report and an oral examination on subject areas relevant to the student’s research. The written report is a proposal based on the students own research which should include (i) pertinent background & literature survey, (ii) a summary of recent results and (iii) future directions and goals of the research, including methodology, outcomes, possible pitfalls, and impact of the work. The proposal should be approximately 4,000-5,000 words (excluding references), and contain figures and references as appropriate. The proposal should be distributed to the supervisory committee 2 weeks prior to the scheduled exam date.

Approximately 5 weeks prior to the candidacy exam date, the supervisor will provide a memo to the student (copy to the supervisory committee, departmental graduate secretary and the Graduate Studies Committee representative) outlining 3-4 topics broadly related to the students research on which the student will be questioned at the exam.

The Graduate Adviser or designate shall chair the candidacy examination; the chair of the exam shall not be a member of the supervisory committee. The student will first give a short (15 minute) oral presentation on the candidacy report. The student will then be questioned by the Supervisory Committee on the topic of the report and the agreed upon question areas. Candidacy exams should normally take approximately two hours. The examining committee, through the Graduate Adviser, will report the result of the examination to the Faculty of Graduate Studies. If the supervisory committee decides that the student has passed the candidacy exam, the Graduate Adviser will recommend to the Faculty of Graduate Studies that the exam was successfully completed. In the event of failure, the student will be given one opportunity to repeat the examination; a memo to the student will articulate the nature of the deficiencies and set a timeline for repeating the exam. A second failure would result in the student being required to withdraw from the university or, if sufficient progress has been achieved, to complete a MSc thesis.

**Program Length**

Normally, completion of a PhD degree in chemistry requires 48 to 60 months.

**Co-operative Education**

Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and workplace experience – is optional for Master’s and PhD students. Master’s students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op co-ordinator, to participate in the Co-op program. Interested students should contact the Chemistry Co-op office early in their first term. Students are also referred to “General Regulations: Graduate Co-op” on page 34.
Child and Youth Care

**General Information**

The School of Child and Youth Care, the oldest English-speaking child and youth care program, opened its doors in 1973 at the University of Victoria. The School is known internationally and nationally for its excellence in teaching, research and publication.

For further information or any updates, prospective students are invited to visit our website: [www.cyc.uvic.ca/graduate](http://www.cyc.uvic.ca/graduate)

**Faculty Members and Areas of Research**

**James P. Anglin, PhD (Leicester)**  
Assessment of education and training needs in human services, parent education and parent support, qualitative research approaches, grounded theory, international child and youth care, residential child and youth care, quality assurance in child and family services, child advocacy and youth in care

**Sibylle Artz, PhD (Victoria)**  
The theory practice relationship in human and social development, the process of reflection in action, at risk children and adolescents, adolescent females' use of violence, youth violence prevention

**Jessica Ball, PhD (California, Berkeley)**  
Cultural ecologies of child development, Indigenous children and families, early childhood care and development, father involvement, community-based research partnerships, early childhood development intercultural partnerships

**Gordon Barnes, PhD (York)**  
Substance use, families and child and youth care

**Sandra de Finney, PhD (Victoria)**  
Processes of racialization and youth identities, Aboriginal, ethnic minority and immigrant youth, youth participation in practice and research, community development and community-based practice

**Marie Hoskins, PhD (Victoria)**  
Adolescent girls’ development/eating disorders, family counselling, identity issues

**Valerie S. Kuehne, PhD (Northwestern)**  
Intergenerational caregiving, child development and human development through the life course, multidisciplinary practice with children and families

**Doug Magnuson, PhD (Minnesota)**  
Use of influence methods and mandated authority, professional judgment and decision-making, use of solution-focused methods in domestic violence cases

**Veronica Pacini-Ketchabaw, PhD (Toronto)**  
Diversity in early childhood care and development, social and educational contexts of culturally and linguistically diverse communities in Canada, historically and politically embedded discourses of childhood

**Alan R. Pence, PhD (Oregon)**  
Early childhood education, care and development (ECCD), child community and social development, Indigenous ECCD, ECCD and international development

**Daniel Scott, PhD (Victoria)**  
Children and adolescent spirituality, spiritual development and the lives of early adolescents

**Jennifer H. White, EdD (British Columbia)**  
Youth suicide prevention, early intervention/mental health promotion, program planning practice, narrative research

**Emeritus Faculty**

**Roy V. Ferguson, PhD (Alberta)**  
Children's health care and child life practice/ environmental design, children with disabilities/special needs and their families, distance education and educational collaboration

**Frances Ricks, PhD (York)**  
Ethics in child and youth care, consciousness, presencing, and ethical practice

**Adjunct and Cross-Listed Appointments**

**Olatunde Adekola, PhD (Surrey)**  
Early childhood development (ECD), ECD operational research and education

**Carol Amaratunga, PhD (Guelph)**  
Health, women's and family issues

**Jophuus Anamah-Mensah, EdD (British Columbia)**  
Teacher education, world view research, science education and cultural practices

**Anne Becker, PhD (Harvard), MD (Harvard)**  
Cultural mediation of body image and eating disorders in Fiji, social transition and risk for eating disorders in Fiji, global mental health

**Nancy Bell, PhD (Glasgow)**  
Human rights, with emphasis on child and youth rights, socio-legal research and human rights, social policy analysis, human rights monitoring and implementation, public services redress structures, non-traditional remedies and institutional responses to human rights violations, institutional ethnography

**Jeremy Berland, MSW (British Columbia)**  
Working with families where neglect is a concern, outcome measurement in child welfare, workload measurement, organizational culture

**Judith Bernhard, PhD (Toronto)**  
Issues of cultural diversity in human development, ethnographic study with communities, schooling for disadvantaged groups, design and assessment of child care centres, especially with regard to home language maintenance

**Natasha Blanchet-Cohen, PhD (Victoria)**  
Child and youth agency, participation and resiliency, children's rights, community youth development, child youth friendly cities, governance and planning, environmental action and young people, child-centred evaluation

**Larry Brendtro, PhD (Michigan)**  
Strength-based assessment, treatment, and education, building resilience in youth at risk, Indigenous youth in the dominant culture, building positive youth cultures, from coercive to restorative climates with troubled youth, the resilient brain

**Roy Brown, PhD (London) Hon. Dr. Caus (Ghent)**  
Quality of life for people with disabilities and their families, evaluation of disability service programs, mental imagery amongst persons with disabilities, applying research to practice in the disabilities field, research design in applied research

**C. Ann Cameron, PhD (London)**  
Cross-cultural studies of verbal deception: Canada/China/Japan/USA comparisons, young children's stress reactivity to a moral choice, ecological studies of development in cultural context: the early years in Canada, Thailand, Italy, UK, Peru, USA & Turkey, Day in the Life of resilient adolescents in eight locations around the globe: four communities in Canada paired with communities in India, China, Thailand and South Africa, young children's telephone discourse with family members: relationships with emergent literacy, evaluation of school-based violence prevention, especially gender-sensitive interventions, resilience during transitions: early childhood years, early adolescence, and the transition to university, teenagers' perceptions of intimate relationships

**Grant Charles, PhD (Victoria)**  
Child welfare, young carers, community partnerships, field education and supervision

**Margaret Dabor, PhD (Sierra Leone)**  
Curriculum development, training and policy in Africa, focus on early childhood development (ECD), girl-child education

**Enid Elliot, PhD (Victoria)**  
Bridging theory and practice in early childhood, research that involves children under six, under three, as researchers, the complexities of infant and toddler care,
natural play spaces in early childhood programs, the narratives of early childhood educators, children's play, learning and engagement in the outdoors

Nigel Fisher, PhD (McMaster)
International development, children affected by armed conflict, public policy, fragile states, poverty and insecurity, innovation and development, comparative development of Canada's Aboriginal communities and countries of the global South

Leslie Foster, PhD (Toronto)
Child/youth health and welfare policy development and decision making, youth health and development indicators, mapping health and development indicators, issues related to knowledge transfer for improved decision making

Thom Garfat, PhD (Victoria)
Residential CYC practice, the therapeutic use of daily life events, engagement with families in CYC practice, relational CYC practice, self in CYC, outcomes that matter in working with young people and families, the application of the circle of change

Kiaras Gharabaghi, PhD (Dalhousie)
Life-space intervention, residential care and treatment, education experiences of children and youth in care, social pedagogy models of care, community-based interventions in an international context

Rebecca Gokiert, PhD (Alberta)
Early childhood measurement and evaluation, validity of screening and assessment processes and tools, cross-cultural approaches to screening and assessment, mixed methodologies and community-based research and evaluation

Nevin Harper, PhD (Minnesota)
Outdoor and adventure-based activity, children and nature, experiential teaching and learning, mixed methods and program evaluation, leadership

John Hart, PhD (Southern California)
Gender studies/ment health issues, fathelrind, Indigenous traditional healing, meditation training for youth health and well-being

Elizabeth Jones, PhD (Southern California)
Learning through play, emergent curriculum, active learning for adults, online learning, peacemaking

Sylvia Kind, PhD (British Columbia)
Early childhood curriculum, children's artistic and expressive languages, studio research and the role of the atelier in early childhood, art practice as living inquiry

Philip C. Lancaster, PhD (Ottawa)
Child soldiers, children affected by armed conflict, sexual and gender-based violence, political philosophy, genocide

Kofi Marfo, PhD (Alberta)
Early child development, including care and education, development science and social policy, socio-cultural contexts of human development, parent-child interaction, early intervention: program efficacy, critical analysis of applied research, cognition, learning, and instruction, evaluation of educational interventions/innovations, mental retardation/developmental disabilities, international perspectives in developmental practice

Gord Miller, PhD (Victoria)
Child and youth health promotion, social welfare services and policy development, community youth development, school as a setting for health promotion, social determinants of health, adolescent health, collaborative action research, evaluation models and approaches

Wayne Mitic, EdD (State, NY)
Utilization-focused evaluation as it pertains to health promotion programs and services, health promotion planning as it relates to chronic disease prevention

Peter Moss, MA (London)
Early childhood services, relationship between early years services, schools, and free-time services, workforce in services for children and young people, leave policies for parents, relationship between care and employment

Michelle Neuman, PhD (Columbia)
International early childhood care and development, child and family policy in comparative perspective, education politics and policy, international education development, program evaluation

Bame Nsamenang, PhD (Ibadan)
Africa's future hope – children and youth

Esther Oduolowu, PhD (Ibadan)
Early childhood development (ECD), education and literacy

Carmen Rodriguez, PhD (Victoria)
Aboriginal childrearing practices, aboriginal worldviews, bilingual education, identity and child development across cultures, multicultural approaches to teaching and learning

Shlomo Romi, PhD (Toronto)
Non-formal education, qualification of workers and residential schools, psychological assessment, custody cases and psychological characteristics of dropout and delinquent youth, youth in distress, training workers and therapeutic intervention

Blythe Shepard, PhD (Victoria)
Rural youth, families and children living with Fetal Alcohol Spectrum Disorder, training/supervision of helpers, narrative methodology, child and family responses to natural disasters

Hans Skott-Myhr, PhD (Minnesota)
Globalization, radical youthwork, youth subcultures, philosophy of child and youth studies, body practices and creative force of childhood and youth, children, youth and popular culture, qualitative and ethnographic research methods, post-colonial/post-capitalist subjectivity

Victoria Smye, PhD (British Columbia)
Access to mental health and addictions care, inequities in access to mental health and addictions care with a particular focus on Aboriginal peoples and women, long term health effects for women leaving intimate partner violence, Aboriginal women's experiences of leaving intimate partner violence, suicide prevention

Carol Stuart, PhD (Victoria)
Professional practice standards, evidence based practice, youth resiliency and youth at risk, participatory research and qualitative approaches to research

Beth Blue Swadener, PhD (Wisconsin-Madison)
Decolonization of research in cross-cultural contexts, cultural diversity and an early childhood education, inclusion of children with disabilities, homelessness in international context/street children and youth, social policies affecting children and families

Bruce Tobin, PhD (Washington)
Expressive therapies, child abuse and trauma, effects of television on child development, issues in inter-cultural counselling in First Nations communities

Steve Van Bockern, EdD (South Dakota)
Youth placed at risk, strength-based classroom discipline, personal and professional development, best practice teaching and school leadership, emotional intelligence, resiliency

Emily Vargas-Baron, PhD (Stanford)
National-level policy planning for integrated early child development, children's needs and responsive programs in crisis and post-crisis nations, educational policy planning and systems development, systems for planning, coordinating, and evaluating national-level integrated early child development systems, early child development training systems, curriculum, and materials development, parent education systems

Degrees and Specializations Offered
The School of Child and Youth Care offers a Master of Arts (MA) and a Doctor of Philosophy (PhD) in Child and Youth Care. The programs have an applied focus, preparing professional practitioners in the child and youth care field for leadership in advanced practice, policy and research.

The School of Child and Youth Care has been able to respond to child and international development needs through the Early Childhood Development Virtual University (ECDVU) program. This program is only available on a distributed learning, special delivery basis in international development regions and contexts (for example, Africa, the Middle East). The students participating in these deliveries are identified on a group basis through a country or community nomination process (not through self-registration). See the ECDVU website: <www.ecdvu.org>.

Facilities
The School of Child and Youth Care houses laboratories designed for professional practice with children, youth and families. The School is affiliated with the Centre for Youth and Society and the Centre for Addictions Research. It operates special educational initiatives, including the Early Childhood Development Virtual University.

Financial Support
The School provides funding to a limited number of students in the form of fellowships, research assistantships, and teaching assistantships. University of Victoria Fellowships
to have been involved in some manner with the CYC field or be strong candidates from a related field. All application materials, except for the sample of academic writing, must be submitted to the Graduate Admissions and Records Office. Entry to the program is on a competitive basis, and enrolment may be restricted in any given year.

**Admission To Master’s Programs**

Candidates will have a baccalaureate degree from a recognized university, or equivalent qualifications, with an academic standing acceptable to the School and the Faculty of Graduate Studies. In general, this means a B standing (5.0 GPA) or better in the final two years of the undergraduate degree. Students who do not have an undergraduate degree in Child and Youth Care will be expected to have successfully completed an upper level course in developmental theory focused on children, youth and their families and to demonstrate suitability for the master's program in terms of an appropriate vocational background and future career goals. In addition, all applicants typically have two years post-baccalaureate professional employment in the child and youth care field.

Applicants must meet all of the admission requirements of the Faculty of Graduate Studies. In addition, applicants must submit a professional resume, with complete work, education, training and activity history; professional references; and a sample of academic writing. A personal statement of intent related to the program is also required.

The program admits students and accepts students for a September entry only. Completed applications submitted by these deadlines are automatically considered for University of Victoria Fellowships. The School accepts MA students annually and will be accepting PhD students every other year, with the next intake in 2014.

**Program Requirements**

All students in the School of Child and Youth Care must adhere to the Faculty of Human and Social Development's Guidelines for Professional Conduct, and will be expected to function within the terms of the code of conduct of an appropriate professional association. All travel, accommodation, meal, textbook, course reading and other expenses related to attending course sessions are in addition to the program tuition costs, and are the responsibility of the student. Students are required to have access to a computer (PC or Macintosh) with Internet capabilities.

**Master’s Program**

The School of Child and Youth Care offers a Master of Arts in Child and Youth Care in a flexible delivery format to ensure accessibility to individuals working in the field. The program has an applied focus, preparing professional practitioners in the child and youth care field for leadership in advanced practice, training, research and service support roles. Child and Youth Care practice experience is essential to the master's program; students are required to complete at least one field-work placement in a setting approved in writing by their program supervisor. A wide range of child and youth care settings and programs are suitable, and selection should be made in consultation with the student's program supervisor. Individual students are responsible for all related field work costs, including travel, criminal records checks, telephone, accommodation and other costs.

**Master’s-Thesis Option**

The program of study consists of a total of 21 units:

- 15.0 units of core courses and electives
Students are required to pass an oral examination from Graduate Admissions and Records

Guidelines for the Preparation of Master's research and practice view, an analysis of data, a presentation of findings of a research question, a thorough literature review, and a dissertation normally worth 16.5 units.

The program of study consists of a total of 30 units. PhD program students will be expected to take a minimum of 7.5 units of core courses, with additional course work if necessary as determined by their committees. The remaining units will consist of at least 3 units of elective courses, 3 units of Candidacy Examinations, and a dissertation normally worth 16.5 units.

Through research and knowledge development, and with a particular emphasis on the scholarship of practice, graduates will influence teaching, research, policy, practice, program development, and evaluation.

The School of Child and Youth Care is also committed to addressing issues related to communities or populations that have been historically oppressed or marginalized. The courses address theoretical and practical foundations for working within and across cultures.

The remaining units will consist of at least 3 units of elective courses, 3 units of Candidacy Examinations, and a dissertation normally worth 16.5 units.

Through research and knowledge development, and with a particular emphasis on the scholarship of practice, graduates will influence teaching, research, policy, practice, program development, and evaluation.

The School of Child and Youth Care is also committed to addressing issues related to communities or populations that have been historically oppressed or marginalized. The courses address theoretical and practical foundations for working within and across cultures.

The program of study consists of a total of 30 units. PhD program students will be expected to take a minimum of 7.5 units of core courses, with additional course work if necessary as determined by their committees. The remaining units will consist of at least 3 units of elective courses, 3 units of Candidacy Examinations, and a dissertation normally worth 16.5 units.

Through research and knowledge development, and with a particular emphasis on the scholarship of practice, graduates will influence teaching, research, policy, practice, program development, and evaluation.

The remaining units will consist of at least 3 units of elective courses, 3 units of Candidacy Examinations, and a dissertation normally worth 16.5 units.
PhD Proposal
Following the successful completion of candidacies, the doctoral student will produce a research proposal. The student will be expected to outline his/her research proposal and answer questions from his/her supervisory committee as part of the approval process. The committee members will then indicate by signature their support and approval of the proposed research on the proposal and the student will proceed to the ethics review process (as appropriate) and subsequent research.

Dissertation
The doctoral dissertation must be original work and constitute a significant contribution to knowledge in the candidate’s field of study. It should contain evidence of broad knowledge of the relevant literature, and should demonstrate a critical understanding of the works of scholars closely related to the subject of the dissertation. Material in the dissertation should, in the opinion of scholars in the field, merit publication.

Oral Examination
Students are required to pass an oral examination at the end of their dissertation.

Program Length
The maximum time limit for the PhD Program is 7 years. It is expected that full-time students will complete in less than 5 years.

Graduate Diploma in International Child and Youth Care for Development
The School has responded to the child and youth care needs of developing countries by creating a culturally and contextually appropriate graduate diploma program designed to advance country-identified development priorities. The program consists of six 100-level courses that form part of the School’s Master’s degree program (CYC 541, CYC 565, CYC 547, CYC 549, and two CYC 590 courses). This program is available only through specific country partnerships. Successful completion of these six courses does not automatically count towards a Master’s degree from the School, as admissions to the School’s Master’s degree program is through a separate admissions process.

Co-operative Education
Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and workplace experience – is optional for Master’s and PhD students. Master’s students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op co-ordinator, to participate in the Co-op program. Interested students should contact the Co-op office (located in HSD A366) early in their first term. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

Faculty Members and Areas of Research
Catherine Allthaus-Kaefer, PhD (Griffith University), Associate Professor
Political risk calculation, public sector leadership, policy-making processes, religion and politics
Herman Bakvis, PhD (UBC), Professor
Intergovernmental relations, government structure and organization, political parties and interest groups
Emmanuel Brunet-Jailly, PhD (U Western Ontario), Professor
Local government and politics, cross-border regions, comparative urban politics.
J. Barton Cunningham, PhD (Southern California), Professor
Quality of working life, organizational theory, decision making, stress and motivation, human research management.
Lynda Gagné, PhD (UBC), Assistant Professor
Child care policy, children outcomes, social programs, applied econometrics and microeconomics
David Good, PhD (California, Berkeley), Professor
Public sector reform, budgetary and policy-making process; social policy
Budd Hall, PhD (UCLA), Professor
International community development, community-university engagement, social movements
John Langford, PhD (McGill), Professor Emeritus
Canadian politics and government, machinery of government, administrative ethics
Evert A. Lindquist, PhD (California, Berkeley), Director of the School of Public Administration and Professor
Machinery of government and policy-making, policy communities and networks, the role of think tanks
James N. MacGregor, PhD (Victoria), Professor
Organizational behaviour, human information processing
Richard T. Marcy, PhD (Oklahoma), Assistant Professor
Public sector leadership, leadership development, adaptation and cognition in organizations, management of meaning in organizations
James C. McDavid, PhD (Indiana), Professor
Program evaluation, performance management, local government service delivery
Tara L. Ney, PhD (Southampton), Associate Professor
Conflict-related impact of policy, discourse theory and conflict, war-affected children, family law policy, health care policy processes, restorative justice
Lynne Siemens, PhD (Hertfordshire), Associate Professor
Community development; entrepreneurship and small business; rural economic development; government and business relations; organizational behaviour; academic team development
Kimberly Speers, PhD (Alberta), Assistant Teaching Professor
Policy analysis and public policy; government relations and management consulting; performance measurement and planning
Lindsay Tedds, PhD (McMaster), Associate Professor
Underground economy; tax non-compliance; economics of taxation; public economics; time use; timing of stock option awards; applied econometrics
Thea Vakil, PhD (Victoria), Associate Director of the School of Public Administration and Associate Professor
Design and maintenance of organizations; structure and functioning of government and the non-profit sector; principles and values in public administration
Rebecca N. Warburton, PhD (London), Associate Professor
Health economics, economic evaluation, evidence-based management

Adjunct Faculty Appointments
Oliver Brandes, LLB (UVic), Adjunct Professor
Leslie Brown, BSW (Regina), MPA, PhD (UVic), Adjunct Professor
John L. Fryer, BSc (London), MA (Pitt), Adjunct Professor
Laurie Jackson, BSc, MEd (UofA), PhD (UVic), Adjunct Professor
Harvey Lazar, BSc (McGill), MA (UBC), PhD (LSE), Adjunct Professor
Management Admission Test (GMAT). International students whose first language is not English are required to provide valid test results for the Test of English as a Foreign Language (TOEFL). The minimum score for the TOEFL is 610 on the paper-based test and 102 on the Internet-based test.

Applicants with a B average may be admitted as mature students, provided they have an undergraduate degree and have had four years of relevant professional experience since the completion of their degree. Complete résumés are required to determine the eligibility of mature students for admission, which must be approved by the Dean of Graduate Studies.

In addition to documents required by the Faculty of Graduate Studies, the program requires each applicant to submit the following:

- a detailed resume of background information, professional or other relevant experience
- two academic or professional references from individuals who can provide a candid assessment of the applicant’s abilities and
- a 750-1000 word statement of intent outlining why they are seeking an MA in Community Development and how the degree relates to their career plans, personal values and goals.

Students will be admitted on the basis of admission requirements established by the Faculty of Graduate Studies and on guidelines established by the Admissions Committee regarding previous academic and work experience relevant to the field of community development.

Initial inquiries should be addressed to the Administrative Assistant, MACD Program.

Applications should be sent to the Graduate Admissions and Records Office.

Deadlines
September 30 for Domestic and International applicants.

PROGRAM REQUIREMENTS

The program consists of 19.5 units of study, including 4.5 units for the Master’s Project (CD 596/598). Students are required to attend a two-week summer residency in the first and fourth terms and a one-week summer residency in the seventh term. The remaining courses are completed online.

Given the cohort nature of the program, students must complete each term successfully before proceeding further through the program.

Course Requirements

Course requirements consist of 9 core courses and one elective.

- **Core Courses**: CD 501, 504, 505, 506, 510, 512, 524, 525, 526
- **Elective Courses**: Subject to availability, choice of one elective from CD 507, 508, 509, 518, 519, 521, 522, 523, 590 as well as courses in related fields of study offered by the School of Public Administration or by other departments, with permission of the Graduate Adviser.
- **Final Requirement**: Beginning during their first summer residency, students will work on a Master’s Project (CD 596/598) addressing a management, policy or program problem for a client in the community development sector.
Computer Science

GENERAL INFORMATION

The Department of Computer Science offers a graduate program leading to the degree of Master of Science (MSc) or a degree of Doctor of Philosophy (PhD) in Computer Science. The department also participates in the Co-operative Education program at the graduate level. Research areas include strong emphases in software engineering, HCI, software requirements engineering, combinatorial algorithms, graph theory, algorithm design and complexity, music technology, numerical analysis, parallel and distributed computing and digital systems design. Further information can be found at the department’s web page at <www.csc.uvic.ca>.

Faculty Members and Areas of Research

Mantis H. M. Cheng, PhD (Waterloo)
Distributed real time systems, embedded systems, theory of concurrency

Yvonne Coady, PhD (British Columbia)
Aspect-oriented software development, scalable system infrastructures, distributed virtualization

Daniela E. Damian, PhD (Calgary)
Software engineering, requirements engineering, computer-supported collaborative work, human-computer interaction, global software development

Sudhakar N.M. Ganti, PhD (Ottawa)
Trends in data networking, traffic management, quality of service, protocols, routing, traffic engineering, network design, switching architectures, optical networks, performance evaluation, queuing theory

Daniel M. German, PhD (Waterloo)
Software engineering, software evolution, open source software development, and intellectual property

Daniel M. Hoffman, PhD (N Carolina, Chapel Hill)
Software engineering, emphasizing tools for automated testing of network protocols and firewalls

R. Nigel Horrpool, PhD (Toronto)
Compilers, virtual machines, programming language implementation, object-oriented programming

Bruce Kapron, PhD (Toronto)
Logic in computer science, cryptography, foundations of security, verification, computational complexity

Valerie King, PhD (Calif, Berkeley)
Graph algorithms and data structures, randomized algorithms and probabilistic analysis, concrete complexity, applications to computational biology and networks

D. Michael Miller, PhD (Manitoba)
Decision diagrams, reversible and quantum logic, multiple valued logic, design for testability, computer aided design for VLSI systems

Hans (Hausi) A. Müller, PhD (Rice)
Software engineering, software evolution, autonomic computing, adoption-centric software engineering, software architecture, software reverse engineering, software reengineering, program understanding, visualization, and software engineering tool evaluation

Wendy Myrvold, PhD (Waterloo)
Graph theory, graph algorithms, network reliability, embedding graphs on surfaces, Latin squares, combinatorial algorithms

Jianping Pan, PhD (Southeast, Nanjing)
Protocols for advanced networking, performance analysis of networked systems, applied network security

Frank Ruskey, PhD (Calif, San Diego)
Combinatorial algorithms

Venkatesh Srinivasan, PhD (India)
Theory of computation, computational complexity theory

Ulrike Stege, PhD (ETH Zurich)
Computational biology, parameterized complexity, design of heuristics, graph theory, and cognitive psychology

Margaret-Anne Storey, PhD (Simon Fraser)
Software engineering, human-computer interaction, information visualization, social informatics, knowledge management and computer-supported collaborative work

Alex Thomo, PhD (Montreal)
Database and knowledge-base systems (especially new data-models for the web and query processing for such models), graph theory, formal languages and their application to databases

Melanie Tory, PhD (Simon Fraser)
Human-computer interaction, visualization, computer-supported collaborative work

George Tzanetakis, PhD (Princeton)
Audio signal processing, computer music, machine learning, human computer interaction

Jens H. Weber, Dr. rer.nat (Paderborn)
Software engineering, data and knowledge engineering, health informatics, graph transformation systems, reengineering

Sue Whitesides, PhD (Wisconsin)
Algorithms, discrete and computational geometry, motion planning, discrete mathematics

Kui Wu, PhD (Alberta)
Computer networks, wireless and mobile networking, mobile computing, network security

Brian Wyvill, PhD (Bradford)
Computer graphics, solid modelling, implicit modelling, non-photorealistic rendering, sketch-based modelling

Emeritus Faculty

John A. Ellis, PhD (Northwestern)
Theoretical computer science, computational complexity, algorithms

Eric G. Manning, PhD (Illinois)
Computer networks, distributed computing, QoS for multimedia

Jon C. Muzio, PhD (Nottingham)
VLSI design and test, fault tolerant computing, design for testability, built-in self-test, multiple valued systems

D. Dale Olesky, PhD (Toronto)
Linear algebra (especially matrix theory and combinatorial matrix analysis), numerical linear algebra, graph theory

Frank D. K. Roberts, PhD (Liverpool)
Numerical analysis, approximation theory

Micaela Serra, PhD (Victoria)
Hardware/software co-design, VLSI design and test

Gholamali C. Shoja, DPhil (Sussex)
Computer communications and networks, multimedia systems, distributed and real-time systems

Maarten van Emden, PhD (Amsterdam)
Constraint processing in engineering computations, operations research, programming methods and languages

William W. Wade, PhD (Calif, Berkeley)
Logic, semantics, programming languages, dataflow computation, artificial intelligence

Adjunct and Cross-Listed Appointments

Ian Barrodale, PhD (Liverpool)
Scientific programming applications, numerical analysis, applications research, object-relational database applications

Alexandra Branzan Albu, PhD (Bucharest)
Computer vision, pattern recognition, image processing, human-computer interaction

Peter F. Driessen, PhD (British Columbia)
Audio and video signal processing, computer music, sound recording, wireless communications, radio propagation

Brian Gaines, PhD (Cambridge)
Modeling the socioeconomic infrastructure of information technology, human-computer interaction, cognitive psychology, systems theory

David G. Goodenough, PhD (Toronto)
Remote sensing, software engineering, scientific visualization, artificial intelligence, grid computing, hyperspectral analysis, Kyoto carbon systems
Maia Hoeberechts, PhD (Western Ontario)  
Ocean science technology  
Dimitrios Marinakis, PhD (McGill)  
Sensor networks  
Patrick McGee, PhD (Calif, Berkeley)  
Distributed systems and computer networking  
Morgan Price, CCFP (British Columbia)  
Informatics, health system improvements  
Sheryl Staub-French, PhD (Stanford)  
Design coordination, constructability reasoning, visualization, activity-based cost estimating  
Pauline van den Driessche, PhD (Wales)  
Mathematical models in biology, combinatorial matrix analysis

Degrees and Specializations Offered

The Department of Computer Science offers graduate programs leading to the degree of Master of Science (MSc) in Computer Science, a double-degree MBA-MSc in Computer Science or a degree of Doctor of Philosophy (PhD) in Computer Science. The department also participates in the Co-operative Education program. Faculty members in the department are pursuing research in areas/groups that include Software Engineering, Software Systems, Theory of Computing, Combinatorial Algorithms, Programming Languages, Parallel, Networked and Distributed Computing, Functional and Logic Programming, VLSI Design and Test, Human Computer Interaction, Numerical Analysis, Visualization, Graphics, and Databases.

Facilities

The department offers its graduate students a range of facilities to support study and research as well as access to office space.

Financial Support

The department believes that adequate financial support of graduate students is a crucial factor in contributing to their overall success. For this reason, we normally accept graduate students only if they can be guaranteed support during their studies. This support comes from four main sources: scholarships, research grants, teaching assistanceships, and salaries paid by employers of part-time or Co-op students.

If you are a Canadian citizen or a permanent resident of Canada, you should consider applying for an NSERC (The Natural Sciences and Engineering Research Council of Canada) post-graduate fellowship. Details are available from us, your local University or the NSERC website. Incoming students who hold NSERC post-graduate awards are awarded the President's Research Scholarship. (Note: Canada Graduate Scholarship Award holders - doctoral level are not eligible to receive the President's Research Scholarship.)

The University of Victoria awards a limited number of fellowships each year. These fellowships are for one year for MSc students. Fellowships for PhD students are renewable for one year subject to their achieving first-class results (A-) on courses and a recommendation from the department. These fellowships are awarded mainly on the basis of academic excellence to those applicants who apply for a September entry point or were admitted at the May entry point. Fellowship holders may also apply for up to 120 hours of TA employment for the first two years of their Master’s program, or for the first 4 years of their PhD program. In addition, we typically give research grant support at both the Master’s and PhD levels to fellowship holders. If you do not receive a fellowship, or other scholarship support, you may normally expect support consisting of up to 240 hours of TA employment in the first two years of your Master’s program, or in the first four years of your PhD program. You may also receive research grant support (or some alternative source funding).

Separate application forms are not required for the minimum support level funding described in the previous paragraph for University of Victoria Fellowships, or for other supplementary grants.

All these sources of financial support are renewable annually, dependent upon satisfactory performance and the availability of funds. Please note that you will be responsible for all tuition and ancillary fees associated with your program including textbooks.

Detailed information on graduate student support may be obtained from the Computer Science website at <www.csc.uvic.ca>.

Admission Requirements

General

Initial inquiries regarding graduate studies in Computer Science should be addressed to the Graduate Secretary, Department of Computer Science. The Faculty of Graduate Studies’ website contains information on how applicants will upload and submit supporting documents to their online application. The application and supporting documents are first evaluated by the Graduate Admissions and Records Office: <www.uvic.ca/graduatesudies>.

Applicants for admission whose first language is not English must meet the English Competency Requirement as specified by the Faculty of Graduate Studies. The minimum acceptable TOEFL (Test of English as a Foreign Language) score for the Department of Computer Science is 575 on the paper-based test or an overall score of 90 on the Internet-based test (the minimum score for each section is Writing: 20; Speaking: 20; Reading: 20; Listening: 20). An overall score of at least Band 6.5 with no score of less than 6.0 on each academic component of the IELTS will be accepted. Even with passing TOEFL/IELTS scores, students may be required to take English language courses in addition to their other course work. The GRE (Graduate Records Examination) test is highly recommended.

Individuals interested in the Co-operative Master’s degree or Co-operative PhD degree should contact the Computer Science/Math Co-op Office for details about these programs.

Admission To Master’s Programs

Applicants for a Master’s Program should have a Major or Honours undergraduate degree in Computer Science/Computer Engineering/Software Engineering (or equivalent) OR a Major or Honours degree in Mathematics with an emphasis on Computer Science. A minimum of B+ (6.0) is required for courses taken in the last two years. A student who does not have such a degree may be admitted to the program but normally will be required to complete additional

Graduate Programs

To complete the Master’s degree within the time limits set by the Faculty of Graduate Studies, most students complete their program in two years. Students enrolled in a co-operative education program will have additional months added to makeup courses. In doing so, the student must obtain a grade of at least B (5.0) in each makeup course, and an average B+ (6.0) overall in the makeup courses. Mature students are advised to consult the Faculty regulations regarding admittance. Final decisions on admissions are made by potential supervisors.

Admission to the PhD Program

PhD applicants must normally have completed a master’s degree in Computer Science, or the equivalent, with a first class standing. Final decisions on admissions are made by potential supervisors.

Deadlines

Applications may be submitted at any time, and students may opt to commence in any of the three terms (namely, September, January or May). However, it should be noted that most of our programs are geared toward those who start in September, and not all courses and support facilities are fully available at other times. We offer full-time, part-time and Co-op options for studies in Computer Science.

Domestic Application Deadlines

- September entry: deadline of January 15
- January entry: deadline of October 31
- May entry: deadline of January 15

International Deadlines*

- September entry: deadline of January 15
- January entry: deadline of April 15
- May entry: deadline of September 15

*Primarily for VISA applicants and permanent residents whose most recent transcripts are coming from an overseas institution.

Program Requirements

The program of study for each student is determined by the student’s supervisory committee in consultation with the student. Normally, each graduate student is required to work as a teaching and/or research assistant as part of their program.

Thesis-based Master’s Course Requirements

The Master’s Program consists of a minimum of 15 units, which include course work, a seminar course (CSC 595) and a Master’s thesis (CSC 599). All courses are valued at 1.5 units. At least 12 units of the program must be at the 500 level or higher. The remaining units must be at the 400 level or higher. A typical program would include: the seminar course, CSC 595 (1.5 units); three courses at the 500 level (4.5 units); two courses at the 400 or 500 level (3.0 units); and the Master’s thesis, CSC 599 (6.0 units). Each student must satisfy the MSc Breadth Requirements as specified in the department MSc Regulations at <www.csc.uvic.ca/grad>.

Oral Examination

The Master’s thesis must be defended in an oral examination.

Program Length

The department expects students to complete their Master’s degree within the time limits set by the Faculty of Graduate Studies. Most students complete their program within two years. Students enrolled in a co-operative education program will have additional months added to
the normal completion times equal to the time spent on Co-op work terms.

**Project-based Master’s**

**Course Requirements**

Students may register for a Master’s project (CSC 598), valued at 3 units, instead of a thesis. The Master’s Program still consists of a minimum of 15 units, which include course work, a seminar course (CSC 595) and a Master’s project (CSC 598). All courses are valued at 1.5 units. At least 12 units of the program must be at the 500 level or higher. The remaining units must be at the 400 level or higher. A typical program would include: the seminar course, CSC 595 (1.5 units); five courses at the 500 level (7.5 units); two courses at the 400 or 500 level (3.0 units); and the Master’s project, CSC 598 (3.0 units). Each student must satisfy the MSc Breadth Requirements, as specified in the department MSc Regulations at <www.csc.uvic.ca/grad>.

**Final Examination**

A student who chooses the project option will also have an oral examination. This examination will cover the project as well as material from three courses chosen by the student's supervisory committee in consultation with the student.

**Program Length**

The department expects students to complete their Master’s degree within the time limits set by the Faculty of Graduate Studies. Most students complete their program within three years. Students enrolled in a co-operative education program will have additional months added to the normal completion times equal to the time spent on Co-op work terms.

**Master’s – Industrial Option**

**Course Requirements**

Students may register for an Industrial project (CSC 597) valued at 1.5 units, instead of CSC 599 or CSC 598. This Master’s program option consists of a minimum of 15 units, which includes course work, as well as CSC 595 and CSC 597. All courses are valued at 1.5 units. At least 12 units of the program must be at the 500 level or higher. The remaining units must be at the 400 level or higher. A typical program would include: the seminar course, CSC 595 (1.5 units); six courses at the 500 level (9 units); two courses at the 400 or 500 level (3 units); and CSC 597 (1.5 units).

**Final Examination**

A student who chooses the industrial option will also have an oral examination. This examination will cover the project for CSC 597 as well as material from three courses chosen by the student's supervisory committee in consultation with the student.

**Program Length**

The department expects students to complete their Master’s degree within the time limits set by the Faculty of Graduate Studies. This Master’s option can be completed in four terms. Students enrolled in a co-operative education program will have additional months added to the normal completion times equal to the time spent on Co-op work terms.

**PhD Program**

**Program Requirements**

For students entering with a master’s degree, the PhD program consists of a minimum of 43.5 units, which include four courses at the 500 level or higher, the seminar course (CSC 595), the PhD Candidacy (CSC 693), and a dissertation (CSC 699).

For students entering with a bachelor's degree, the PhD program consists of a minimum of 49.5 units, which include eight courses, where at least six must be at the 500 level or higher and the rest at the 400 level or higher, the seminar course (CSC 595), the PhD Candidacy (CSC 693), and a dissertation (CSC 699).

The student, with the approval of the supervisor, can apply for having the seminar course CSC 595 waived if he/she has already taken an equivalent seminar course.

Each student must satisfy the PhD Breadth Requirements as specified in the department PhD Regulations at <www.csc.uvic.ca>.

**Candidacy**

Each student must pass CSC 693 within two years of first registering as a provisional doctoral student and at least six months before the PhD dissertation is defended in an oral examination. A PhD student should be registered in CSC 693 from the start of the program. After passing CSC 693, a student should register in CSC 699. At any given time in the program, a PhD student should be registered in either CSC 693 or CSC 699, but not both. Details are specified in the department PhD Regulations at <www.csc.uvic.ca/grad>.

**Oral Examination**

The student will give an oral defence of his or her dissertation in accordance with the departmental and university regulations. Upon successful completion of the defence and all other departmental and university requirements, the student will be awarded the degree of Doctor of Philosophy.

**Program Length**

The department expects students to complete their PhD degree within the time limits set by the Faculty of Graduate Studies. Most students complete their program within three years. Students enrolled in a co-operative education program will have additional months added to the normal completion times equal to the time spent on Co-op work terms.

**Co-operative Education**

Participation in the Co-operative Education program, which enables students to acquire knowledge, practical skills and workplace experience, is optional for full-time Master’s and PhD students. Graduation with a co-operative education designation requires master’s students to complete two work terms and PhD students to complete three (a work term consists of four months of full time, paid employment). Students require permission from their academic supervisor and the Co-op coordinator to participate in the Co-op program. Interested students should contact the Engineering and Computer Science/Math Co-op office during their first year. Students should also consult "Co-operative Education", page 33.
professional experience and achievements that enable the Admission Committee to assess an applicant’s ability to successfully complete the program.

To apply for the Graduate Professional Certificate if you are not also enrolled in a graduate degree program, please complete the following, and submit either online or by mail, to Graduate Admissions and Records:

• the Faculty of Graduate Studies Application for Admission, available from the Faculty of Graduate Studies website <www.uvic.ca/gradstudies>
• two Assessment Reports
• relevant transcripts
• a professional résumé
• a statement of intent

As the starting date for the program may vary from year to year, application deadlines for current students and new domestic and international students are posted on the program website.

To apply for concurrent Graduate Professional Certificate status while enrolled in a graduate degree program, please assemble the following and submit, either online or by mail by the posted deadline, to Graduate Admissions and Records:

• an application to the Faculty of Graduate Studies specifying this program
• two Assessment Reports and, if you have worked, volunteered or done project work in the cultural heritage sector, one letter of reference from a workplace referee
• a professional résumé
• a statement of intent
• a memorandum from your Graduate Adviser confirming the number of Certificate units that can be applied to your graduate degree

Graduate Professional Diploma in Cultural Heritage Management

Admission to the Graduate Professional Diploma in Cultural Heritage Management is based on completion of the Graduate Professional Certificate in Cultural Heritage Studies, the Diploma in Cultural Resource Management, the Professional Specialization Certificate in Collections Management, or the Professional Specialization Certificate in Heritage Conservation Planning within the previous six years, and with a 5.0 (B) average. Applicants holding a graduate degree or certificate in museum studies or heritage conservation may also be considered.

If you are completing, or have completed, the Graduate Professional Certificate in Cultural Heritage Studies, you can apply by completing and submitting the following by the posted deadline:

• an application to the Faculty of Graduate Studies specifying this program

If you have completed the Diploma in Cultural Resource Management, the Professional Specialization Certificate in Collections Management, the Professional Specialization Certificate in Heritage Conservation Planning within the previous six years, or a related graduate degree or certificate please assemble the following and submit, either online or by mail by the posted deadline to Graduate Admissions and Records:

• the Faculty of Graduate Studies Application for Admission, available online from the Faculty of Graduate Studies website <www.uvic.ca/gradstudies>
• two Assessment Reports from academic referees and one letter of reference from a workplace referee (e.g. current or former supervisor) in a cultural heritage workplace
• relevant transcripts
• a professional résumé

Note: CH 560 Cultural Heritage Stewardship and Sustainability is a prerequisite to Graduate Professional Diploma coursework for those students entering on the basis of a Diploma in Cultural Resource Management or the Professional Specialization Certificate in Heritage Conservation Planning or in Collections Management, or a related graduate degree or certificate.

**PROGRAM REQUIREMENTS**

**Graduate Professional Certificate in Cultural Heritage Studies**

This program is designed to be completed on a part-time basis, one course per term, to enable students to balance work or graduate study commitments. Students can focus on either a museum studies or heritage planning option by completing the following courses:

**Core Course**

Cultural Heritage Stewardship and Sustainability (CH 560) ................. 1.5

**Museum Option**

Social Engagement (CH 561) ......... 1.5
Curatorial Planning and Practices (CH 562) . . 1.5
Visitor Experiences (CH 563) ........ 1.5

**Heritage Planning Option**

Heritage Conservation in Context (CH 570) .. 1.5
Determining Significance of Heritage Resources (CH 571) ............... 1.5
Heritage Conservation Planning (CH 572) .. 1.5

**Elective**

The final 1.5 units are selected from HA 488A, HA 488M, HA 488P, HA 488Q, or other HA 488 or HA 489 courses, or CH 584 Topics in Cultural Heritage Management (1.5), with the approval of the Program Adviser.

Faculty Members and Areas of Research

Robert J. Anthony, PhD (Toronto)
Developmental language arts, applied linguistics, cross-cultural education

Laurie Rae Baxter, PhD (Ohio State)
Media and popular culture, arts and cultural policy, curriculum studies

Deborah L. Begoray, PhD (British Columbia)
Secondary English language arts, literacy, visual literacy and media, literacy and health

Donald L. Bergland, EdD (British Columbia)
Digital arts and technology, 3D interactive environments, multimedia, digital graphics, audio production, technology and art, technologethnography, creativity, studio production

David W. Blades, PhD (Alberta)
Theory and philosophy of science education curriculum, science education methodology, ethics and curriculum development, curriculum history and theory, world citizenship education, poststructuralism and curriculum change

Jillianne Code, PhD (Simon Fraser)
Educational psychology, educational technology, instructional design, measurement and assessment, agency in learning, immersive virtual environments, research design, quantitative research methods

Robert C. Dalton, PhD (Ohio State)
Middle childhood art, spontaneous drawing and multicultural art education

Michael J. Emme, EdD (British Columbia)
Creative play strategies and collaborative research with children, children’s visual experience of school, photography as an art form, photovolta as multimodal inquiry and expression, lens media and communication, visual and arts-based methodologies

Leslee G. Francis-Pelton, PhD (Brigham Young)
Secondary mathematics methodologies, elementary mathematics methodologies, mathematics curriculum, measurement and evaluation, computer applications in mathematics education

Wanda Hurren, PhD (British Columbia)
Curriculum theory, social studies and geography education, notions of identity and place, map-work and other cartographic interruptions, post-structural perspectives, poetic representation in writing and research

Valerie M. Irvine, PhD (Alberta)
Educational technology, information and communication technologies (ICT) in education, e-learning, online learning community development, research methodology and statistics

Graham P. McDonough, PhD (Toronto)
Philosophy of education, moral education; dissent and minority rights; Catholic education; religion/spirituality in schools; religious schooling; philosophy in high schools

Onowa McIvor, PhD (British Columbia)

Todd Milford, PhD (Victoria)
Teacher Preparation ~ Elementary; Science Education ~ Elementary; Educational Measurement

James L. Nahachewsky, PhD (Alberta)
Secondary and Middle language and literacy, multiliteracies, changes to reading and writing in digital times, curriculum theory

Sylvia J. Pantaleo, PhD (Alberta)
Language and literacy, children's and young adult literature, literature-based literacy programs, literary theory, elementary curriculum, teacher education

Timothy Pelton, PhD (Brigham Young)
Mathematics education, educational technologies, computer based instruction, response systems, measurement and assessment

Monica Prendergast, PhD (Victoria)
Drama/theatre education, applied drama/theatre, curriculum theory, aesthetic philosophy, performance theory, arts-based research, poetic inquiry

Jason Price, PhD (OISE)
Democratic approaches to teaching and learning, education of students constructed as “at risk”, Indigenous education, social studies education in aid of peace, economic and environmental justice

Helen Raptis, PhD (Victoria)
Educational history, sociology of education, multicultural and minority education, educational policy, school effectiveness and school improvement, Indigenous Education, community-based research

Theodore J. Riecken, EdD (British Columbia)
Participatory and community based research methodologies, digital video as a research tool, Aboriginal education, ethnography and education, youth and society

Carmen Rodriguez de France, PhD (Victoria)
Aboriginal Education, Early Childhood Education, Immigration/Multiculturalism, Race and ethnic relations

Patricia Rosborough, EdD (British Columbia)
Indigenous language revitalization, Indigenous language teacher education, Indigenous curriculum pedagogy in K-12 education

Wolf-Michael Roth, PhD (Southern Mississippi)
Workplace studies, cultural-historical activity theory, conversation analysis, semiotics, gesture studies, applied cognitive science, science education, phenomenological inquiry and hermeneutic analysis, human-computer interaction, representation in scientific practice, epistemology, discourse analysis, research design (quantitative and qualitative)

Katherine J. Sanford, EdD (Alberta)
Literacy, alternative literacies, gender, teacher education, assessment, middle school education, mentorship, teacher research, qualitative research methodology

Michele Tanaka, PhD (Victoria)
Transformative Inquiry, teacher identity, holistic education, indigenous ways of learning and teaching, cross-cultural understanding, mindfulness in education, and place-based learning

Jennifer Thom, PhD (British Columbia)
Curriculum studies and elementary mathematics education, theories of mathematical understanding, ecological/ complex/EMBODIED forms of teaching and learning

Ruthanne Tobin, PhD (Victoria)
Elementary English language arts, instructional practices for struggling literacy learners

Michelle Wiebe, EdD (Montana)
Assessment in art (studio assessment, self assessment, theory assessment), leadership in the arts, arts program reform curriculum development

Degrees and Specializations Offered

The Department of Curriculum and Instruction may offer programs leading to the Master of Education degree in the following areas:

- Art
- Curriculum Studies
- Early Childhood Education
- Language and Literacy
- Mathematics, Science, Social Studies or Educational Technology
- Social, Cultural and Foundational Studies

The Department of Curriculum and Instruction offers a Master of Arts and a Doctor of Philosophy in Educational Studies.

Facilities

MacLaurin Building: multi-media laboratories, Curriculum Laboratory.

Financial Support

All eligible graduate students are encouraged to apply for funding from provincial, federal and external sources. The Department of
Curriculum and Instruction cannot guarantee funding but encourage students to consider the following.

University Fellowships:
Students who have an A- (7.0 on the UVic grading scale) may qualify for a University Fellowship. For full-time applicants seeking this Fellowship, the application deadline is February 15th.

Sessional Lecturers:
These are unionized positions for undergraduate courses. An interested student should submit their résumé and cover letter to the Chair of Curriculum and Instruction. These positions are normally held for students who have completed at least one term of course work in the PhD program.

Research Assistants:
Individual faculty members with external research grants may employ graduate students as research assistants. The details about these appointments (salary, hours, etc.) are worked out between the individual graduate student and the faculty member.

Work Study Positions:
Please visit the Office of the Registrar website for further information: <www.uvic.ca/registrar/safa/work-study>.

Application Deadlines
Regular Student Application Deadlines for Complete Applications
February 15:
For full-time applicants seeking University Fellowships.
February 15:
For applicants seeking admission the September of that calendar year.
January 31:
For applicants seeking admission the May of that calendar year.

International Student Application Deadlines for Complete Applications
December 15:
For applicants seeking admission September of the following year.
October 15:
For applicants seeking admission for May of the following year.

Admission Requirements
For all degree programs, the following items are required to be uploaded when submitting an online application: resume, letter of intent, email contact information, personal statement or statement of purpose, official transcripts, and examples of writing are required if you are applying to the PhD program only. See "Faculty Admissions", page 17, for Graduate Studies requirements. All materials are to be sent to the Graduate Admissions and Records Office.

The selection process is based on the strength of the application file and the availability of an appropriate supervisor.

Master of Arts
In addition to the usual admission requirements of the Faculty of Graduate Studies, some programs may require relevant professional experience.

Master of Education
In addition to the usual admission requirements of the Faculty of Graduate Studies, applicants must have had at least two years of successful relevant professional experience.

PhD Programs
Admission requirements include a master's degree, good academic standing, and demonstrated research and writing ability.

Program Requirements
Master of Education
MEd programs require 15.0 units of course work, including a project. No more than 3.0 units of course work may be at the 300 and 400 level. A project in research and/or curriculum development is required, and a comprehensive final examination (written and/or oral). MEd programs are normally offered as cohort groups.

Art Education (MEd)
This degree is a career credential intended for students who wish to develop their competencies in teaching studio-based art activities at the elementary and secondary school levels as well as in community settings. For the next intake, please refer to website: <www.uvic.ca/education/curriculum/programs-courses/graduate/ae>.

Course Requirements: Total = 15 units
EDCI 510 (3.0) Research Issues & Studio Development
EDCI 511 (1.5) Drawing & Studio Development
EDCI 513 (3.0) Community Art Education either
EDCI 512A (1.5) Digital Arts and
EDCI 512B (1.5) Digital Presentation or
EDCI 591 (3.0) Selected Topics in Art Education
EDCI 597 (1.5) Comprehensive Examination
EDCI 598A (1.5) Project Proposal and Literature Review
EDCI 598B (1.5) Project

Curriculum Studies (MEd)
This program fosters critical analysis of educational discourses (for example, discourses of planning, implementation, evaluation, learning and teaching) to discern unintended as well as intended effects. This analysis is focused not only at the system level, but also and more importantly, at the level of each person’s daily professional practice, where the political and the personal are inevitably intertwined. The ethical question of how to act responsibly and appropriately is paramount.

Course Requirements: Total = 15 units
Curriculum Studies—Project-based Option (MEd)
EDCI 531 (1.5) Critical Discourses in Curriculum Studies
EDCI 532 (1.5) Emerging Trends and Topics in Curriculum Studies
EDCI 580 (1.5) Qualitative Research Methods
EDCI 598A (1.5) Project Proposal and Literature Review
EDCI 598B (1.5) Project
EDCI 597 (1.5) Comprehensive Examination (MEd program only)
Electives (6.0) Approved in consultation with student’s supervisor

Early Childhood Education—Project-based Option (MEd)
Course Requirements: Total = 15 units
EDCI 531 (1.5) Critical Discourses in Curriculum Studies
EDCI 580 (1.5) Qualitative Research Methods
EDCI 554 (1.5) Comparative ECE: Curriculum, Context and Culture
EDCI 598A (1.5) Project Proposal and Literature Review
EDCI 598B (3.0) Project
EDCI 597 (1.5) Comprehensive Examination
Electives (6.0) Approved in consultation with student’s supervisor

Social, Cultural and Foundational Studies (MEd)
The MEd provides students with the research skills and knowledge to work as master teachers, educational leaders, administrators, policy analysts, and consultants to government and other educational and community agencies. The MEd program consists of 15.0 units including a 3.0 unit project and 1.5 unit comprehensive examination. The program must be determined through consultation between the student and the supervisor.

Course Requirements: Total = 15 units
Social, Cultural and Foundational Studies—Project-based Option (MEd)
ONE Research Methodology course (1.5) (to be selected by student and supervisor) and TWO additional courses from the following list:
EDCI 520 (1.5) Seminar in Contemporary Issues in Philosophical Perspective
EDCI 521 (1.5) Contemporary Educational in Historical Perspective
EDCI 522 (1.5) Philosophy of Education Through Film and Media
EDCI 523 (1.5) Diverse Voices and Visions in Education
EDCI 525 (1.5) Planning for Effective Schools PLUS
EDCI 598A (1.5) Project Proposal and Literature Review
EDCI 598B (1.5) Project
EDCI 597 (1.5) Comprehensive Examination
Electives (6.0) Approved in consultation with student’s supervisor

Language and Literacy (MEd)
The program is intended for those wishing to further their knowledge of pedagogical issues and practices relating to the teaching of Language and Literacy in populations ranging from pre-school to adult. The program is designed to accommodate students’ individual interests and...
GRADUATE PROGRAMS

Objectives, and are undertaken with the guidance and direction of an academic supervisor.

Course Requirements: Total = 15 units

Language and Literacy – Project-based Option (MEd)
EDCI 517 (1.5) Reading Processes in the School Curriculum: Research and Processes
EDCI 556 (1.5) Language Processes in the School Curriculum: Writing and Representing
EDCI 536 (1.5) Language Processes in the School Curriculum: Oracy
EDCI 598A (1.5) Project Proposal and Literature Review
EDCI 598B (1.5) Project
EDCI 597 (1.5) Comprehensive Examination
Electives (6.0) Chosen in consultation with and the approval of the student's supervisor. Normally includes at least one research design course, one curriculum foundations course and one Language and Literacy course.

Middle Years Language and Literacy MEd Cohort – 15 units
This program may not be offered every year. Please contact the department for information on the next program offering.
EDCI 517 (1.5) Reading Processes in the School Curriculum: Research and Processes
EDCI 556 (1.5) Language Processes in the School Curriculum: Writing and Representing
EDCI 487 / 591 (1.5) Technology in Middle Years Literacy (online)
EDCI 487 / 591 (1.5) Differentiating Literacy in the Middle Years (online)
EDCI 536 (1.5) Language Processes in the School Curriculum: Oracy
EDCI 580 (1.5) Qualitative Research Methods
EDCI 591 (1.5) Literacies in Middle Years Social Studies, Science and Math (online)
EDCI 591 (1.5) Multiple Literacies in the Middle Years (online)
EDCI 598A (1.5) Project Proposal and Literature Review
EDCI 598B (1.5) Project
EDCI 597 (1.5) Comprehensive Examination

Mathematics, Science, Social Studies and Educational Technology – Project-based Option (MEd)
This four-stream combined program is designed to provide a strong content component within the 15.0-unit degree while providing a central core of professional education in curriculum and instruction courses. The following courses outline a typical program, but all programs must be determined by the supervisor at the beginning of the program.

Course Requirements: Total = 15.0 units
EDCI 532 (1.5) Emerging Trends and Topics in Curriculum Studies
EDCI 570 (1.5) Research in Curriculum and Instruction in the Elementary Grades
EDCI 571 (1.5) Research in Curriculum and Instruction in the Secondary Grades
EDCI 572 (1.5) Development and Implementation of the Curriculum in a Specific Area
Electives (4.5) Chosen in consultation with and the approval of the student's supervisor.

Master of Arts
The MA in Educational Studies is a research-based program designed to accommodate students' individual interests and is undertaken with the guidance and direction of an academic supervisor. This 15.0 unit program requires 3.0 units of core courses, 4.5 units of specialty and elective courses, and a 7.5 unit thesis. No more than 1.5 units of course work may be at the 300 and 400 level. A research-based thesis must be written and successfully defended in an oral examination.

Course Requirements: Total = 15 units
EDCI 514 (1.5) Educational Discourses
EDCI 581 (1.5) Research Methodologies in Education
Electives (4.5) Approved by the academic supervisor.
EDCI 599 (7.5) Thesis

Doctor of Philosophy (PhD)
The PhD in Educational Studies is a research-oriented program designed for students who wish to develop a comprehensive understanding and an integrated perspective of current educational theory and practice. It prepares graduates for professional, research and teaching positions in colleges and universities, or for leadership roles in school districts, provincial ministries and other public and private organizations, with regard to planning and implementation of curricula, instructional innovations and staff development programs. There are six areas of specialization within this program: Art Education; Curriculum Studies; Early Childhood Education; Language and Literacy; Mathematics, Science, Technology, and Environmental Education; Social, Cultural and Foundational Studies.

Course Requirements: Total = 39 units
EDCI 641 (3.0) Dissertation
EDCI 693 (3.0) Candidacy Examination
EDCI 699 (30) PhD Dissertation

Candidacy
Candidacy Examinations will be completed in both the core and specialization areas as set by the Supervisory Committee in conjunction with the department's Graduate Admissions and Programs Committee. Students must be within 1.5 units of completion of all course work before they may complete the candidacy requirement. The candidacy examinations will be both written and oral.

Program Length
At least two years.

Co-operative Education
Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master's and PhD students. Master's students complete two work terms, and PhD students complete three (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Students require permission from their academic adviser and graduate adviser, as well as the Co-op coordinator, to participate in the Co-op program. Interested students should contact the Co-op office (located in MCK 112) early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

**Faculty Members and Areas of Research**

**Catherine Althaus-Kaefer**, PhD (Griffith University), Associate Professor
- Political risk calculation, public sector leadership, policy-making processes, religion and politics

**Herman Bakvis**, PhD (UBC), Professor
- Intergovernmental relations, government structure and organization, political parties and interest groups

**Emmanuel Brunet-Jailly**, PhD (U Western Ontario), Professor
- Local government and politics, cross-border regions, comparative urban politics.

**J. Barton Cunningham**, PhD (Southern California), Professor
- Quality of working life, organizational theory, decision making, stress and motivation, human research management.

**Lynda Gagné**, PhD (UBC), Assistant Professor
- Child care policy, children outcomes, social programs, applied econometrics and microeconomics

**David Good**, PhD (California, Berkeley), Professor
- Public sector reform, budgetary and policy-making process; social policy

**Budd Hall**, PhD (UCLA), Professor
- International community development, community-university engagement, social movements

**John Langford**, PhD (McGill), Professor
- Canadian politics and government, machinery of government, administrative ethics

**Evert A. Lindquist**, PhD (California, Berkeley), Director of the School of Public Administration and Professor
- Machinery of government and policy-making, policy communities and networks, the role of think tanks

**James N. MacGregor**, PhD (Victoria), Professor
- Organizational behaviour, human information processing

**Richard T. Marcy**, PhD (Oklahoma), Assistant Professor
- Public sector leadership, leadership development, adaptation and cognition in organizations, management of meaning in organizations

**James C. McDavid**, PhD (Indiana), Professor
- Program evaluation, performance management, local government service delivery

**Tara L. Ney**, PhD (Southampton), Associate Professor
- Conflict-related impact of policy, discourse theory and conflict, war-affected children, family law policy, health care policy processes, restorative justice

**Lynne Siemens**, PhD (Hertfordshire), Associate Professor
- Community development; entrepreneurship and small business; rural economic development; government and business relations; organizational behaviour; academic team development

**Kimberly Speers**, PhD (Alberta), Assistant Teaching Professor
- Policy analysis and public policy; government relations and management consulting; performance measurement and planning

**Lindsay Tedds**, PhD (McMaster), Associate Professor
- Underground economy; tax non-compliance; economics of taxation; public economics; time use; timing of stock option awards; applied econometrics

**Thea Vakili**, PhD (Victoria), Associate Director of the School of Public Administration and Associate Professor
- Design and maintenance of organizations; structure and functioning of government and the non-profit sector; principles and values in public administration

**Rebecca N. Warburton**, PhD (London), Associate Professor
- Health economics, economic evaluation, evidence-based management

**Adjunct Faculty Appointments**

**Oliver Brandes**, LLB (UVic), Adjunct Professor

**Leslie Brown**, BSW (Regina), MPA, PhD (UVic), Adjunct Professor

**John L. Fryer**, BSc (London), MA (Pitt), Adjunct Professor

**Laurie Jackson**, BSc, MEd (UofA), PhD (UVic), Adjunct Professor

**Harvey Lazar**, BSc (McGill), MA (UBC), PhD (LSE), Adjunct Professor

**Michelle LeBaron**, MA (SFU), LLB (UBC), Adjunct Professor

**Catherine Morris**, JD (UofA), LLM (UBC), Adjunct Professor

**Victor Murray**, BA (Manitoba), MA (Minn), PhD (Cornell), Adjunct Professor

**Gordon Smith**, PhD (MIT), Adjunct Professor

**Jo-Anne Stolz**, PhD (UVic), Adjunct Professor

**Barry Carin**, BA (McGill), PhD (Brown), Adjunct Associate Professor

**Ryan Compton**, PhD (Washington U, St. Louis), Adjunct Associate Professor

**Evelyn (Lyn) Davis**, PhD (Florida State), Adjunct Associate Professor

**Dale Wall**, BA (SFU), MPA (UVic), Adjunct Associate Professor

**Michelle Brady**, BA (Honours) (Murdock), PhD (UofA), Adjunct Assistant Professor

**Tracy Byrne**, PhD (Glasgow), Adjunct Assistant Professor

**Peter R. Elson**, PhD (UofT), Adjunct Assistant Professor

**Allison M. Habkirk**, BA (UVic), MA (UBC), MPA (UVic), Adjunct Assistant Professor

**Yvonne Harrison**, PhD (UVic), Adjunct Assistant Professor

**Cosmo Howard**, B Comm (Honours) (Griffith University), PhD (Australian National University), Adjunct Associate Professor

**Sabine Lehr**, BA (Open University), MBA (London), PhD (UVic), Adjunct Assistant Professor

**Gordon McIntosh**, PhD (UVic) Adjunct Assistant Professor

**Dawn Nickel**, PhD (UofA), Adjunct Assistant Professor

**Brant Popp**, MPA (UVic), Adjunct Assistant Professor

**Carol-Anne Rolf**, MA (UofA), MPP (California, Berkeley), Adjunct Assistant Professor

**Diana M. Smith**, BSc (UofA), MPA (Carleton), Adjunct Assistant Professor

**Sam Weller**, CA, MBA, Adjunct Assistant Professor

**Degrees and Specializations Offered**

Master of Arts

**Financial Support**

The University of Victoria awards a limited number of Graduate Awards for full-time study. All students admitted to the Master of Arts in Dispute Resolution program are automatically considered for this financial support, with the level of support based on a student's GPA and other qualifications. As well, the MADR Program offers several awards based on students' academic interests and career plans.

**Admission Requirements**

**General**

The interdisciplinary Master of Arts in Dispute Resolution program is administered by the School of Public Administration. The focus of the program is on public sector dispute resolution, including:

- foundation content on general dispute resolution theory and practice

**GRADUATE PROGRAMS**

- application of skills and knowledge to the design and implementation of multi-party decision making processes
- applications of skills and knowledge to the design and implementation of institutionalized public dispute resolution systems
- the impact of social inequalities on conflict, including power, gender and culture.

Students come from a variety of undergraduate backgrounds and may have relevant professional experience.

The program admits only full-time students, and requirements must be completed within five years of admission to the program.

**Admission to Master's Programs**

Applicants should have a bachelor's degree in a relevant field of study. Normally, a B+ average (6.0 GPA) for the last two years of university work is a minimum requirement. Relevant post-baccalaureate professional experience is desirable but not necessary. In addition to documents required by the Faculty of Graduate Studies, the program requires applicants to submit the following:

- a detailed and up-to-date résumé of background information, professional or other relevant experience
- a 500 word statement of intent outlining reasons for applying to the program. The statement of intent should show how personal objectives relate to the program content.

Students will be admitted on the basis of admission requirements established by the Faculty of Graduate Studies and on guidelines established by the Admissions Committee regarding previous academic and work experience relevant to the field of dispute resolution.

Initial inquiries should be addressed to the Graduate Administrative Assistant, MA in Dispute Resolution Program. Applications should be sent to the Graduate Admissions and Records Office.

**GMAT and TOEFL requirement**

Applicants who do not possess a Canadian undergraduate degree will be required to write and submit official results of the Graduate Management Admission Test (GMAT). International students whose first language is not English are required to provide valid test results for one of the following:

- The Test of English as a Foreign Language (TOEFL) with a minimum score of 610 on the paper-based test and 102 on the Internet-based test, or
- The International English Language Testing System (IELTS) with an overall score of at least Band 7.0 with no score of less than 6.5 on each academic component.

**Deadlines**

- December 15 for International Students.
- January 31 for Domestic students. Applicants with a first class (A minus) average over the last two years of their undergraduate and graduate course work are automatically considered for graduate entrance awards. It is to the applicants' benefit to do their best to ensure that their file is complete as soon as possible for the Admissions Committee's consideration.

**Program Requirements**

The program consists of 21.0 (Master's Project) or 22.5 (Master's Thesis) units and two optional co-operative work term placements. Students may choose a thesis or a project-based program. Completion of the degree is by project or thesis defense in an oral examination.

**Course Requirements**

- Elective Courses: Two elective courses chosen from DR 507, 508, 510, 516 and others as available. Other elective courses may be selected, with permission of the Graduate Adviser, from approved courses in related fields of study offered by other programs in the School or in other departments. One elective may be completed (online) during co-op placements.
- PADR 589: Although co-op is optional, this Co-op preparatory course is required for all students.
- Final Requirement: Students choose to complete a Master's Project (DR 598) or a Master's Thesis (DR 599)

**Master of Arts in Dispute Resolution**

**Fall: First Academic Term (Sep-Dec)**

- DR 502 (1.5) Conflict, Culture and Diversity
- DR 503 (1.5) Public Policy, Law, and Dispute Resolution
- PADR 501 (1.5) Collaboration and Engagement
- PADR 502A (1.5) Analysis for the Public and Non-Profit Sectors
- PADR 589 (0.0) Co-op Seminar: Introduction to Professional Practice

**Spring: First Co-op Work Term (Jan-Apr)**

Elective (1.5) Co-op placement. While on co-op, students may choose to take one online elective

**Summer: Second Academic Term (May-Aug)**

- DR 506 (1.5) Mediation Processes and Skills
- DR 509 (1.5) Dispute Resolution System Design and Public Interest Disputes
- PADR 503 (1.5) Professional Integrity in the Public and Non-profit Sectors
- PADR 504 (1.5) Public Leadership and Management
- PADR 505 (1.5) Policy-making and Policy Communities

**Fall: Second Co-op Work Term (Sep-Dec)**

Elective (1.5) Co-op placement. While on co-op, students may choose to take one online elective.

**Spring: Third Academic Term (Jan-Apr)**

- DR 598 (4.5) Master's Project or DR 599 (6.0) Master's Thesis
- Elective (1.5) If electives not completed, students may opt to take an elective this term.

**Summer: Fourth Academic Term (May-Aug)**

DR 598 (4.5) Master's Project

or DR 599 (6.0) Master's Thesis

**Master's Project or Thesis**

Prior to enrolling in either the Master's Project (DR 598) or the Thesis (DR 599), students are expected to have completed their DR and PADR core courses. All program requirements, including a third Co-op term (if taken), must be completed by the same semester in which they defend their Project or Thesis.

**Master's Project Option**

The Master's Project (DR 598) requires students to complete a major project for a client in consultation with an academic supervisor. The project is expected to be a substantial analysis of a conflict situation or process, policy issue, or other relevant topic approved by the Graduate Adviser. A written project report will be prepared and submitted to an oral examination committee. Students undertaking the Master's Project option (4.5 units) will complete a program of 21.0 units.

**Master's Thesis Option**

The Master's Thesis (DR 599) requires original research on a topic chosen in consultation with the student's academic supervisor and the Graduate Adviser. Students undertaking the Master's Thesis option (6.0 units) will complete a program of 22.5 units.

**Oral Examination**

Required for both the Master's Project (DR 598) and Master's Thesis (DR 599) options.

**Program Length**

Full-time students can complete the program within two years. All students must complete the program within five years.

**Co-operative Education**

Participation in the Co-operative Education program enables students to acquire knowledge, practical skills for employment, and workplace experience. It will be strongly recommended for students to participate in this option. Students in the Co-operative Education program are normally required to undertake two Co-op work terms (a work term normally consists of four months of full-time, paid employment.) Note that as there is a presumption that students will participate in the Co-op program, the School does not offer core courses in the spring term, although students could opt to take electives.

The number of work terms required will depend on the amount of relevant prior work experience, as determined by the MADR program in conjunction with the Co-op program. To be eligible for a Co-op placement, students are required to register in PADR 589 Co-op Seminar: Introduction to Professional Practice in their first term in the program. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

Completion of a third work term is an option, with approval of the Co-op Coordinator and based on availability (students in their first or second work terms may receive priority). Third work terms must be completed in or before the same semester in which the project/thesis is defended.
Earth and Ocean Sciences

GENERAL INFORMATION

The School of Earth and Ocean Sciences (SEOS) offers a graduate research program with a focus on earth system science and special studies in marine geology and geophysics, paleoceanography, climate modeling, atmospheric modeling, air-sea interaction, ocean physics, geophysical fluid dynamics, ocean mixing, ocean acoustics, biological oceanography, tectonics, petrology, geochemistry, biogeochemical cycles, seismology, paleobiology, sedimentology and stratigraphy.

Further information on the School of Earth and Ocean Sciences can be found on the School's web page at <www.seos.uvic.ca>.

Faculty Members and Areas of Research

Dante Canil, PhD (Alta), FRSC, Professor
Experimental and igneous petrology; petrogenesis of mantle-derived rocks
Laurence Coogan, PhD (Leicester), Professor
Mid-ocean ridge processes, oceanic crust, hydrothermal fluxes, geospeedometry, experimental petrology, mantle dynamics
Jay Cullen, PhD (Rutgers), Associate Professor
Chemical oceanography, marine geochemistry, phytoplankton-trace metal interactions, marine biogeochemistry of trace metals, biogenic-organic chemistry, paleoceanography and global change, stable isotope geochemistry and development of novel techniques for trace metals
Stanley E. Dosso, PhD (UVic), Professor
Ocean and arctic acoustics, marine seismology and seismo-acoustics, geophysical inverse theory, acoustic signal analysis
John F. Dower, PhD (UVic), Associate Professor
Effects of interactions between biology and physics on the ecology of larval fish and zooplankton; the structure of pelagic marine ecosystems
Kathryn M. Gillis, PhD (Dal), Professor and Associate Dean of Science
Marine geology; fluid-rock interaction in oceanic hydrothermal systems; formation of the oceanic crust; metamorphic petrology
Colin Goldblatt, PhD (East Anglia), Assistant Professor
Earth system evolution, climate modelling, the earth Earth, evolution of planetary atmospheres.
Robert C. Hamme, PhD (Wash), Associate Professor (Canada Research Chair)
Carbon cycle, deep-water formation, ocean mixing, ocean productivity, dissolved oxygen, dissolved noble gases
Stephen Johnston, PhD (Alta), Professor and Director of the School
Tectonics and structural geology; evolution of convergent margins
S. Kim Juniper, PhD (Canterbury), Professor (BC Leadership Chair) and Director (Science & User Engagement) Ocean Networks Canada Society
Marine systems and global change.
Jody M. Klymak, PhD (Wash), Associate Professor
Physical oceanography - waves, turbulence, fronts, eddies, etc.; processes that dissipate energy from the mean ocean circulation and mediate the mixing of momentum, heat, salt, and passive tracers
Lucinda Leonard, PhD (UVic), Assistant Professor
Limited Term
Current tectonics, especially of western North America; seismic and tsunami hazard assessment
Adam Monahan, PhD (UBC), Professor
Climate physics, interaction of weather and climate, meteorology of surface winds, probabilistic and stochastic methods in climate modelling and analysis
Kristin Morell, PhD (Penn State), Assistant Professor
Tectonic geomorphology, landscape evolution, active tectonics, natural hazards
Thomas F. Pedersen, PhD (Edin), FRSC, FAGU
Professor and Director, Pacific Institute for Climate Solutions
Paleoclimatology and paleoceanography, sedimentary geochemistry, aquatic chemistry, geochemistry of submerged mine wastes
Verena F. Pospelova, PhD (McGill), Associate Professor
Quaternary geology, palynology, dinoflagellate cysts, coastal eutrophication and pollution, paleoceanography, paleoceanography
Verena Tunncliffe, PhD (Yale), FRSC, Professor (Canada Research Chair)
Evolution of marine communities, hydrothermal vents, seamounts and fjords; interaction with physical and geological processes
Eileen Van der Flier-Keller, PhD (W Ont), Associate Professor
Earth science education, teacher training and professional development, public awareness of science, sedimentary environments and geochemistry

Adjunct Faculty

Diana E. Varela, PhD (UBC), Associate Professor
Biological oceanography; biogeochemical cycles; phytoplankton physiology and ecology - variations in marine primary productivity and export production, nutrient utilization by phytoplankton, silicon isotopic fractionation by diatoms
Andrew J. Weaver, PhD (UBC), FRSC, Professor (Canada Research Chair)
The role of the oceans in climate change variability; ocean/climate modeling; paleoclimate; physical oceanography; geophysical fluid dynamics
Michael Whiticar, PhD (Christian Albrechts), Professor
Biogeochemistry and stable isotope organic geochemistry of aquatic and terrestrial systems, including investigation of biosphere-geosphere interactions with greenhouse gases, sediments, soils, ice, gas hydrates and applications with environmental, energy and forensic sciences

Adjunct Faculty

Vivek Arora, PhD (Melbourne)
Biophysical and biogeochemical interactions between the terrestrial biosphere and the atmosphere; terrestrial carbon and nitrogen cycle modelling at large spatial scales; dynamic global vegetation models; land surface parameterizations for climate models; and hydrological processes in climate models
Christopher R. Barnes, PhD (Ont), DSc (Wat), CM, FRSC, PGeo
Paleozoic paleontology, stratigraphy, paleoecology, conodont paleobiology, paleoceanography, paleoclimatology, cabled ocean observatories

J. Vaughn Barrie, PhD (Wales)
Quaternary marine geology, shelf sedimentation processes, marine geohazards, ocean management, marine placers

Melvyn Best, PhD (MIT)
Application of geophysics to groundwater, environmental and engineering problems, and hydrocarbon production monitoring

Brian D. Bornhold, PhD (MIT)
Physical sedimentology, nearshore and coastal geological hazards, paleoceanography, modern sedimentary processes

John F. Cassidy, PhD (UBC)
Earthquake hazard studies; earth structure studies with applications to earthquake hazards

N. Ross Chapman, PhD (UBC)
Ocean acoustics, acoustic signal processing, ambient noise, marine seismology, seismic inversion methods

James R. Christian, PhD (Hawaii)
The global carbon cycle, ocean biogeochemistry, ecology of aquatic microorganisms, ocean colour remote sensing

Charles Carr, PhD (St. Mary's)
Carbon cycle modelling and terrestrial processes; atmospheric transport and chemistry of trace gases; regional climate modelling and downscaling; physical and chemical parameterizations for climate models

Kenneth L. Dentman, PhD (UBC), FRSC
Biological/physical oceanographic
interactions, ocean ecosystems, biogeochemistry and climate change

Richard Dewey, PhD (UBC)
Physical oceanography, tides, mixing, boundary layers and coastal flows

Greg Plato, PhD (Dartmouth)
Numerical modelling of sea ice dynamics and thermodynamics; role of sea ice and polar oceans in climate; global climate modelling

Michael G.G. Foreman, PhD (UBC)
Numerical modelling, physical oceanography, data assimilation, satellite altimetry, tidal analysis

John C. Fyfe, PhD (McGill)
Climate modelling and analysis; coupled models of atmosphere-ocean variability in the extratropics, middle atmosphere variability, synoptic to low-frequency tropical variability, regional climate modelling

Ann Gargett, PhD (UBC)
Ocean turbulence and its parameterization in climate models, biological/physical interactions

Christopher J.R. Garrett, PhD (Cantab), FRs, FRSC
Physical oceanography, geophysical fluid dynamics and ocean mixing processes

Nathan Gillett, DPhil (Oxford)
Attribution of the causes of climate change; atmosphere circulation changes; stratosphere troposphere coupling and ozone influence on climate; carbon-climate feedbacks

Richard J. Hebda, PhD (UBC)
Quaternary stratigraphy, vegetation and climate change; Holocene palynology to decode diet, medicine and agriculture of native peoples

Philip Hill, PhD (Dal)
Sedimentological study of the Fraser River delta, forming part of the Georgia Basin Geohazards Initiative

Paul Hoffman, PhD (Johns Hopkins)
Snowball Earth, Neoproterozoic Earth history, origin and tectonic history of continents, stable isotopes, paleoceanography, paleoclimate, sedimentary geology, geological mapping

Roy D. Hyndman, PhD (ANU), FRSC
Geophysics, marine and land; active continental margin tectonics and structure; geothermal studies; seismotectonics; magnetotellurics; physical properties of rocks

Debby Ianson, PhD (UBC)
Coastal upwelling regions and the under-studied mid-water (100-1000m) region of the open ocean

Thomas S. James, PhD (Princeton)
Computer modelling focussing on glacio-isostatic adjustment for inferring ice mass history and Earth rheology; high-precision geodetic techniques for measuring crustal deformation and gravity changes; relative sea level and glacial history of British Columbia

Honn Kao, PhD (UIUC)
Earthquake seismology: earthquake source studies, velocity structure inversion, seismogenic behaviour and processes in subduction zones, moment-tensor inversion and seismotectonics

Eric Kunze, PhD (Wash)
Ocean phenomena that contribute to mixing/stirring parameterization of the impact of “subgridscale” processes on larger scales

David V. Lefebvre, PhD (Carlton)
Economic geology and Cordilleran metallogeny, with emphasis on deposit models and mineral potential assessments

Victor Levson, PhD (Alta)
Till geochemistry and glacial dispersal processes, seismic microwonation, sedimentology of coarse clastics and placer deposits, Quaternary stratigraphy, oil and gas geosciences

Robie Macdonald, PhD (Dal), FRSC
Arctic and coastal oceanography and geochemistry; ice processes, contaminant distribution and cycling in oceans, trends from dated sediment cores

David L. Mackas, PhD (Dal)
Spatial pattern in pelagic ecosystems, zooplankton feeding and swimming behaviour, interaction of physical and biological processes in the ocean, statistical analysis of plankton community patterns

Norman McFarlane, PhD (Mich)
Global climate modelling; parameterization of physical processes in atmospheric models; middle atmospheric dynamics and modelling

Katrin Meissner, PhD (Bremen)
Paleoclimate modelling: climate system; climate variability; the role of vegetation and ocean in climate change; geophysical fluid dynamics

William J. Merryfield, PhD (Colorado)
Climate forecasting, climate variability, ocean circulation models, predictability, subgrid-scale parameterization, geophysical turbulence, double diffusion, ocean mixing processes, numerical methods in fluid dynamics

Kathryn Moran, PhD (Dalhousie)
Arctic paleoclimate; ocean observational science; science and technology policy; marine geotechnics; seafloor processes; ocean technology

Leanne J. Pyle, PhD (Uvic)
Stratigraphy and sedimentology; biostratigraphy and paleontology

Michael Riedel, PhD (Uvic)
Marine geophysics and geology, gas hydrates, physical properties of sediments, logging data analyses

Garry C. Rogers, PhD (UBC)
Earthquake seismology and related tectonic processes, earth structure using earthquake generated waves, earthquake hazard

Peter Ross, PhD (Utrecht)
Marine mammals as sentinels of environmental contamination; toxicological effects of environmental contaminants on endocrine and immune systems of marine mammals; source, transport and fate of persistent organic pollutants in BC and the NE Pacific Ocean

Stephen Rowins, PhD (W Aust)
Genesis of magmatic-hydrothermal ore deposits and mineral exploration methodologies

Oleg Saenko, PhD (MHI NASU, Ukraine)
Global ocean circulation and its influence on climate; water masses; climate variability and feedbacks

John F. Scinocca, PhD (Tor)
Atmospheric/oceanic fluid dynamics, climate model development and physical parameterization

George J. Simandl, PhD (Ecole Poly Mtrl)
Industrial minerals, high technology metals, nonsulphide Zn-Pb, and gemstone deposits - exploration, evaluation and origin, applied and fundamental research

George D. Spence, PhD (UBC), Professor
Geophysics and plate tectonics at convergent margins; fluid flow and marine gas hydrates in the accretionary wedges; structural controls on earthquakes; marine seisms, sediment physical properties, and heat flow

Nadja Steiner, PhD (Inst. Meereskunde Kiell)
Modelling of ocean biogeochemistry; atmosphere-ocean-ice-biochemistry interactions; sulphur cycle; global and site specific modelling

Kevin Telmer, PhD (Ott), Adjunct Associate Professor
Artisanal and small-scale gold mining, gold and mercury science, fish microchemistry, riverine geochemistry, low temperature geochemistry, environmental geochemistry, hydrogeology

Richard Thomson, PhD (UBC), FRSC
Physical oceanography of the NE Pacific Ocean

Svein Vagle, PhD (Uvic)
Air-sea exchange processes, modelling and measurements of bubble dynamics and bubble gas transfer, observations of coastal oceanographic processes including tidal mixing, underwater ambient noise, low-power self-contained data acquisition systems, marine mammal acoustics, and new techniques in fishery acoustics

Knut von Salzen, PhD (Hamburg)
Modelling of physical and chemical processes in the troposphere; cloud and aerosol processes; global climate modelling

Kelin Wang, PhD (W Ont)
Subduction zone processes, lithospheric stresses, earthquake mechanics, crustal thermal and hydrological processes

John T. Weaver, PhD (Sask)
Signal processing, statistical characterization of underwater ambient noise, and matched-field inversion, processing and tracking

Hidekatsu Yamazaki, PhD (Texas A & M)
Chemical oceanography, particularly the role of the carbon cycle in global climate change; pathways of ocean pollution, especially metals and hydrocarbons

Kirsten Zickfeld, PhD (U Potsdam)
Climate change - climate carbon cycle feedbacks, tipping points, earth system modelling, assessment of greenhouse gas emissions pathways, integrated assessment modelling of climate change
Degrees and Specializations Offered
The School of Earth and Ocean Sciences offers programs leading to Master of Science (MSc) and Doctor of Philosophy (PhD) degrees in the general areas of geology, geophysics, oceanography and atmospheric science, with an emphasis on earth system science.

Facilities
The School offers its graduate students access to a range of equipment for study and research. In-house facilities include labs for Petrology, Geochemistry, Paleogeochmistry, Marine Geochemistry, Marine Biogeochmistry/Phytoplankton, Biological Oceanography, Marine Biology, Ocean Mixing, Ocean Acoustics, Climate Theory and Modelling, Hydrothermal Studies, Structural Geology, Sedimentology and Geophysics, as well as a departmental mass-spectrometer. Arrangements are also commonly made to use equipment at nearby government laboratories. Students have access to the 16-metre Marine Science Vessel John Strickland.

Financial Support
All MSc and PhD students receive financial support at a minimum of $18,500 for two years provided the student maintains an acceptable level of academic performance. Graduate financial support is comprised of funding from various sources including research account support, teaching assistant salary, general award support, etc.

Admission Requirements
Applicants for a graduate degree in Earth and Ocean Sciences should have a Major or Honours degree in a closely related science. A student who does not have such a degree can be admitted to the program but may be required to complete additional makeup courses. In doing so, the student must obtain a grade of at least B (5.0) in each makeup course, and an average of B+ (6.0) in the makeup courses. Mature students are advised to consult the Faculty regulations regarding conditional admittance.

Inquiries concerning the graduate program may be addressed to the SEOS Graduate Secretary, School of Earth and Ocean Sciences. Application forms for admission, which include the indication of need for financial assistance, can be obtained directly from the Graduate Admissions and Records website <registrar.uvic.ca/grad>. A statement of research interests must be submitted with the completed application.

Applicants whose native language is not English must write the TOEFL (Test of English as a Foreign Language) and submit the scores to the Graduate Admissions and Records Office (see "English Language Proficiency", page 18) together with their application forms. Even with passing TOEFL scores, students may be required to take English language courses in addition to other course work.

Deadlines
Applications to graduate studies are considered year round.

Program Requirements
The spectrum of research in the School is broad and will be attractive to students from many areas of the basic and applied sciences; cross-disciplinary research involving faculty and facilities in other departments is encouraged. As an integral part of their program, students are normally required to undertake teaching or research assistantships or equivalent duties within the School.

All graduate students in the School of Earth and Ocean Sciences are required to take EOS 525 (1.5 units). All students are also required to present at the Annual Graduate Student Workshop at least once during their degree program.

The supervisory committee, in consultation with the student, determines the content of the program and the exact division of units between coursework and thesis for each student. For example, the supervisory committee may decide that additional coursework is required depending on the student’s background. Coursework may include graduate courses in SEOS or other departments, including directed studies courses (EOS 580) and 300- or 400-level undergraduate courses.

Master’s Program
Course Requirements
The Master’s program consists of a minimum of 15 units with no fewer than 12 graduate-level credits (i.e. excluding 300- and 400-level undergraduate courses). Normally, students must complete a minimum of 4.5 units of graduate or upper-level undergraduate coursework, with a Master’s thesis (EOS 599) making up the remaining units.

Oral Examination
MSc students will be required to defend their completed thesis in a final oral examination open to the public.

Program Length
A student proceeding towards a Master’s degree will be required to complete all the requirements for the degree within five years (60 consecutive months) from the date of the first registration in the Master’s program.

PhD Program
The PhD program is a full-time program of full-time independent research. Students can expect to take a minimum of two years to complete the program.

Course Requirements
The PhD program consists of 45 units beyond the Bachelor’s level, or 30 units beyond the Master’s level. PhD students who enter the program with a Master’s are normally expected to complete a minimum of 3 graduate or upper-level undergraduate course units. Students who enter the PhD program with a Bachelor, including students who transfer from a Master’s to a PhD at UVic, are normally expected to complete a minimum of 7.5 units of coursework. Students enroll in EOS 699 upon registering in the PhD program (or upon switching to the PhD program from the MSc program) and remain enrolled until all dissertation requirements have been completed.

All PhD students are required to give a one hour seminar to the School on their research, normally within six months before the defense of their PhD dissertation. All PhD students must register in EOS 525 as part of their 3-unit graduate course requirement, unless they have previously taken this course in the MSc program. In addition to the minimum 3 graduate or upper-level undergraduate course units, all PhD students must register in EOS 693 (PhD Candidacy Examination). The PhD dissertation (EOS 699) makes up the remaining program units.

Students should consult the department for courses that will be offered in any given year. Admission to any graduate course requires permission of the instructor.

Candidacy
The Candidacy Examination is a requirement of the Faculty of Graduate Studies and cannot be waived. SEOS requires that within two years of first registration as a provisional doctoral student (or 18 months of transferring from a MSc program) and at least six months before the final oral examination, a PhD student must pass a candidacy examination (EOS 693). The purpose of the candidacy examination is to test the student’s understanding of material considered essential to completion of a PhD and the student’s competence to do research that will culminate in the PhD dissertation. If the deadline for the candidacy examination has passed, the student must request an extension from the Dean of Graduate Studies.

Students enroll in EOS 693 (PhD Candidacy Examination) upon registering in the PhD program (or upon switching to the PhD program from the MSc program) and remain enrolled until all candidacy requirements have been completed.

Oral Examination
PhD students will be required to defend their completed dissertation in a final oral examination open to the public.

Program Length
A student proceeding toward a doctoral degree will be required to complete all the requirements within seven years (84 consecutive months) from the date of first registration in the program. If the student transfers to the doctoral program after an initial period in a master’s program, completion is required within seven years of the date of the first registration in the Master’s program. A doctoral degree will not be awarded in less than twenty-four consecutive months from the time of first registration.

Co-operative Education
Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and workplace experience – is optional for Master’s and PhD students. Master’s students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op coordinator, to participate in the Co-op program. Interested students should contact the Earth and Ocean Sciences Co-op office early in their first term. Students are also referred to “General Regulations: Graduate Co-op” on page 34.
Economics

GENERAL INFORMATION

The Department of Economics is recognized for its strengths in both research and teaching. Areas of faculty research include both theoretical and applied economics and econometrics. All faculty members have active research programs and publish regularly in academic journals. In addition, faculty members have made important applied contributions to industry and governments at various levels. The department’s teaching is highly regarded, with a strong emphasis at the graduate level on econometrics and economic theory as tools for understanding economic phenomena and for developing economic policy.

Further information can be found at <www.uvic.ca/socialsciences/economics/graduate>

Faculty Members and Areas of Research

M. Christopher Auld, PhD (Queen’s)
Health economics, microeconomics

Judith A. Clarke, PhD (Canterbury)
Theoretical and applied econometrics

Pascal Courty, PhD (Chicago)
Industrial organization, personnel economics, behavioural economics

Merwan Engineer, PhD (Queen’s)
Monetary and macroeconomic theory

Martin Farnham, PhD (Michigan)
Public finance, labour economics, urban economics

Donna Feir, PhD (UBC)
Labour economics, applied econometrics, aboriginal policy

David E. Giles, PhD (Canterbury)
Econometrics

Elisabeth Gugl, PhD (Rice)
Public economics, family economics, applied microeconomic theory

Emma Hutchinson, PhD (Michigan)
Environmental economics, law & economics, microeconomics

Peter W. Kennedy, PhD (Queen’s)
Microeconomic theory, industrial organization, environmental economics

Alok Kumar, PhD (Queen’s)
Monetary economics, macroeconomics, development economics

Carl A. Mosk, PhD (Harvard)
Japanese economic development, population economics

Daniel Rondeau, PhD (Cornell)
Environmental and resource economics, microeconomics, experimental methods

Nilanjana Roy, PhD (California, Riverside)
Econometrics, development economics

Herbert J. Schuetze, PhD (McMaster)
Labour economics

Paul Schure, PhD (EU, Florence)
Financial economics, financial intermediation theory, industrial organization

David Scoones, PhD (Queen’s)
Microeconomic theory, applied microeconomics, microeconomic policy

Kenneth G. Stewart, PhD (Michigan)
Econometrics, monetary theory

G. Cornelis van Kooten, PhD (Oregon State)
Agricultural and resource economics

Graham M. Voss, PhD (Queen’s)
International economics, international economics, monetary economics

Linda A. Welling, PhD (Western)
Industrial organization, microeconomic theory, intergovernmental tax competition

Adjunct and Cross-Listed Appointments

Jen Baggs, Business, PhD (UBC) (2013-2016)
International business

Economics of the family, health economics, public finance

Economic history

Jill R. Horwitz, Adjunct Professor, PhD (Harvard) (2013-2016)
Health Policy

Alan Mehlhenbacher, Adjunct Assistant Professor, PhD (UVic) (2014-2017)
Game theory, international relations, economic growth

Bradley Stennes, Adjunct Assistant Professor, PhD (UBC) (2013-2016)
Forest economics, natural resource economics

Lili Sun, Adjunct Assistant Professor, PhD (UVic) (2015-2017)
Forest economics, natural resource economics

Applied economics, public economics, economies of taxation

Degrees and Specializations Offered

The Department of Economics offers an MA program and a PhD program. Both programs combine strong training in core economic theory and econometrics with electives in applied areas and a co-operative option. MA graduates will be well prepared for doctoral studies in economics or for research and analysis positions in the private or public sectors. The PhD program provides more advanced training in applied economics, to prepare graduate students for academic and non-academic careers.

Facilities

The department has a range of facilities to support both MA and PhD students in their studies. These include office space and a computer lab, solely for graduate students, which has the requisite software and databases for word-processing, econometric analysis and computer modeling. The Reid Elliot Reading room is also available for students.

Financial Support

All students admitted to the graduate program are automatically considered for financial support, with the level of support determined on a competitive basis. Incoming students with first-class records (A, or 7 on the University of Victoria 9-point scale) are considered for University of Victoria Fellowships. Consideration for these awards is automatic upon receipt of application by February 15 of the same calendar year. In addition, the department has a number of fellowships and scholarships available each year that are awarded on the basis of academic excellence. Further support is provided in the form of Teaching Assistantships (TA). Research Assistantships may also be available. All eligible students are encouraged to apply for provincial, federal and external funding, particularly from the Social Sciences and Humanities Research Council <www SSHRC.CA).

For students who receive funding support, funding is usually promised for one year for MA students and three years for PhD students. Students do not necessarily receive funding, though in recent years every effort has been made to provide all students with some level of funding, usually a TA position and, in many instances, additional funds in the form of fellowships or scholarships.

ADMISSION REQUIREMENTS

General

Applicants to either program must satisfy the department that they have the necessary skills in mathematics, statistics, as well as written and verbal communication to undertake the program. To this end, the department may require evidence of appropriate writing skills prior to admission.

Applicants with an undergraduate degree from a Canadian or US university are ordinarily not required to take the Graduate Record Exam (GRE), although it may be an advantage to do so. All other students must take the GRE. The Faculty of Graduate Studies and/or the Graduate Adviser may require any student to complete this aptitude exam. Applicants for admission whose first language is not English, who are not holding a recognized degree from a country where English is an official language, and who have not resided in Canada or other English
speaking countries for at least three consecutive years immediately prior to the session applied for, must meet the “English Language Proficiency”, page 18, for admission.

Applicants who have minimal undergraduate training in economics may be considered for a preliminary program. Such students typically have a cumulative GPA of 7.0 (A-) or higher from their undergraduate degree, have strong skills in mathematics and statistics and have undertaken some undergraduate courses in economics. This preliminary program, taken as a non-degree undergraduate student, requires 15 units of Economics courses, including microeconomic, macroeconomic and econometric theory, as well as electives tailored to the student’s needs and interest, chosen in consultation with the department Graduate Adviser. A minimum GPA of 7.0 (A-) in these courses will result in automatic admission to the MA program; a student with a lower GPA may enter after selection in the regular admission process. To be considered for the preliminary program, applicants must first apply to the MA program and then email the Graduate Adviser, providing a brief rationale as to why they are looking to be admitted to the preliminary program. Applicants will not be admitted to the preliminary program as a way to better their existing economics undergraduate degree.

Entry into either the MA or PhD program is in September. Availability of courses and faculty varies from year to year. The department web page should be consulted for the most up-to-date information: <www.uvic.ca/socialsciences/economics/graduate>.

Admission To Master’s Programs
Admission to the MA program requires an undergraduate degree in economics, with at least a B (5.0) average in the last two years leading to the degree. Selection is competitive, based upon undergraduate performance, nature of undergraduate training and (if relevant) GRE results.

Admission to the PhD Program
Admission to the PhD program normally requires a master’s degree (or equivalent) from a recognized academic institution. All applicants are required to provide a detailed statement of research interests as part of their application. Selection is competitive, based upon the research statement, performance in previous degrees, nature of training and (if relevant) GRE results.

An outstanding applicant may be admitted with an appropriate baccalaureate degree, or the completion of at least two terms in a master’s program at the University of Victoria. Students wishing to transfer from the MA program should normally have achieved an A- (7.0) average in their graduate courses, and may receive a waiver for up to 12 units of required course work towards their PhD program. Students wishing to transfer from another graduate program may also receive credit towards their program. The student’s supervisory committee, in consultation with the Graduate Adviser, will determine the transfer of credits.

Deadlines
The entry point to the Department of Economics is September of every year. Non-Canadian citizens and non-Canadian permanent residents must apply to the Graduate Admissions and Records Office by December 15. Applications for Canadian citizens and Canadian permanent residents must be received by the Graduate Admissions and Records Office by January 31. All documents should be submitted by these dates.

Applicants should keep in mind that substantial lead time is required to register for and take (if required) the GRE and the English language proficiency test in time for results to be received within the deadline.

Program Requirements
Thesis-based Master’s
The department offers two programs leading to the MA degree in Economics: a thesis option, and a project-based option. Both programs require a minimum of 15 units.

Course Requirements
Successful completion of the core program (4.5 units), consisting of:
- ECON 500 (1.5) Microeconomic Analysis
- ECON 501 (1.5) Macroeconomic Analysis
- ECON 545 (1.5) Econometric Analysis

Successful completion of an additional 6 units of courses subject to the approval of the student’s supervisory committee. Courses are normally chosen from the graduate course offerings of the department, but with the permission of the department may include up to 3 units of courses numbered at the 400 level as well as graduate courses in other departments. Directed Studies (ECON 595) provides the means of pursuing subject areas that are not covered in the listed courses. (Students should apply to individual instructors for Directed Studies.) Students who take the Co-operative Education Option (see below) must include ECON 516 in their course work.

Thesis
Successful completion of a formal written thesis prospectus.

Successful completion of a Master’s thesis (ECON 599). The thesis is awarded 4.5 units. The thesis is based on a major research project, the topic of which is determined by the student in consultation with his or her supervisory committee. The appropriate nature and length of the thesis is determined by the supervisory committee, with more technical theses generally being shorter than those with more literary content. Each candidate shall defend their thesis in a final oral examination, in accordance with the regulations of the Faculty of Graduate Studies.

Program Length
Students are expected to complete the requirements of the MA program, including fulfillment of the Co-operative Education requirements, if relevant, within 26 months of enrolment. This limit may be extended for up to one year with the permission of the Graduate Adviser.

PhD Program
Course Requirements
Students are required to take the six core courses (9 units) listed below as well as a minimum of three field courses (4.5 units) for a total of at least 13.5 units. A student’s supervisory committee determines the field courses required.

Core Courses
- ECON 500 (1.5) Microeconomic Analysis
- ECON 501 (1.5) Macroeconomic Analysis
- ECON 545 (1.5) Econometric Analysis
- ECON 546 (1.5) Themes in Econometrics
- ECON 551 (1.5) Information and Incentives
- ECON 552 (1.5) Macroeconomic Issues

Students who enter the PhD with an MA degree may receive a waiver for a maximum of 12 units of required course work, depending on the nature of the courses they completed as part of their MA program.
Candidacy
Successful completion of the Candidacy Examination ECON 693 (3 units), which is based on overall performance in the program as well as:
1. Successful completion of two of the three comprehensive examinations: Microeconomic Theory, Macroeconomic Theory, and Econometrics.
2. An oral examination of the student’s progress towards a dissertation research program.
A student’s supervisory committee determines the comprehensive examinations required. A student may not take a comprehensive examination more than twice. Comprehensive examinations will be offered twice a year. Each examination will be set and graded by a Comprehensive Exam Committee consisting of at least two faculty members of the department.
A student’s supervisory committee determines the requirements of the oral examination for Candidacy.
In exceptional circumstances, a student’s supervisory committee, with the approval of the Department’s Graduate Committee, may set alternative Candidacy requirements.
Dissertation
Successful completion of a dissertation (ECON 699). The dissertation is written under the supervision of a supervisory committee, nominated by the Department of Economics, and approved by the Dean of Graduate Studies. The supervisory committee shall comprise at least four members, all of whom normally will be members of the Faculty of Graduate Studies, and at least one of whom will be from a department outside the Department of Economics. The student’s academic supervisor shall be the Chair of the supervisory committee. A written proposal for the dissertation is to be approved by the supervisory committee. The appropriate nature and length of the dissertation is determined by the supervisory committee. The expected length of the dissertation will vary with the nature of the work, with more technical dissertations generally being shorter than those with more literary content.
Oral Examination
Each candidate shall defend their dissertation in a final oral examination, in accordance with the regulations of the Faculty of Graduate Studies.
Program Length
Students are expected to complete the requirements of the PhD program, including fulfillment of the Co-operative Education requirements, if relevant, within five years of enrolment.
Co-operative Education
Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master’s and PhD students. Master’s students complete two work terms, and PhD students complete three (a work term consists of four months of full-time, paid employment).
Students must maintain a B (5.0) average to be eligible for a work term. MA students must have successfully completed 9.0 units of graduate course work prior to the commencement of their first work term and ECON 516 must be included in the student’s MA program. It is highly recommended that MA students complete ECON 516 early on in their program. PhD students must normally complete ECON 693 Candidacy prior to the commencement of their first work term. Students require permission from their supervisor and graduate adviser, as well as the Co-op coordinator, to participate in the Co-op program. Interested students should contact the Economics Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.
Carolyn L. Crippen, PhD (North Dakota)
Servant-leadership, educational history, learning organizations and cultural change, senior and school administration, school board governance, chaos theory, Icelandic culture, teacher education

David de Rosenroll, PhD (Victoria)
Trauma and trauma healing, somatic approaches to counselling, indigenous healing approaches

M. Honore France, EdD (Massachusetts)
Diversity and cultural issues related to counselling, transpersonal psychology, epopsychology, spirituality, Indigenous forms of counselling, working with residential school survivors, group dynamics and international education

Tatiana Gounko, PhD (Alberta)
Globalization and educational reform, comparative higher education, educational administration and leadership, international agencies and educational policy

Allyson Hadwin, PhD (Simon Fraser)
Self-regulation, motivation and procrastination, emotion regulation, collaborative learning, classroom tasks, environments and technologies for learning, engagement, retention and transitions

Gina Harrison, PhD (British Columbia) R.Psych
Cognitive and linguistic processes of reading and writing in children and adults, applied psycholinguistics, neurodevelopmental disorders especially learning disabilities, assessment and intervention in school psychology and special education

Sarah J. Macoun, PhD (Victoria) R.Psych
Neuropsychological assessment and special education, school neuropsychology/psychology, autism spectrum disorders, attention deficit hyperactivity disorder and attention processes in learning, developmental neuropsychology, executive functions and self-regulation, intervention

E. Anne Marshall, PhD (Toronto) R. Psych.
Adolescent and emerging adult transitions and identity, counselling and research in Indigenous communities, cultural approaches to counselling, interdisciplinary and community-engaged research, qualitative inquiry, relational theory, counsellor skill development, career and life planning

Joan M. Martin, PhD (Notre Dame)
Child and adolescent development, achievement motivation, emotion and cognition, developmental psychopathology

Donna McGhie-Richmond, PhD (OISE, Tor)
Inclusive education, teacher beliefs and practices in inclusive classrooms, teacher education, teaching online, instructional and universal design for learning, assistive and learning technologies

Catherine McGregor, PhD (Simon Fraser)
Social justice leadership including democratic, distributed and teacher leadership; civic and social justice learning, including situated and/or place based learning; women in leadership; policy and politics in education; qualitative design in educational research including narrative and discourse analysis, arts based, participatory, feminist, critical, queer and post structuralist approaches to research

Natalee Popadiuk, PhD (Calgary) R. Psych.
Relational perspectives of international student adjustment; international student career decision-making and university-to-work transitions; international student strengths and successes; middle school students' cultural identity construction; internationalizing the curriculum; women's experiences of breast cancer treatment; sibling bereavement experiences during childhood; qualitative research approaches

Jillian Roberts, PhD (Calgary) R. Psych.
Medically fragile school children, concepts of quality of life, psychology of the individual, program planning, ethics and qualitative research methodology, multimedia applications in educational psychology, children's sexual education

Susan L. Tasker, PhD (McMaster) CCC
Siblings of young murder victims; psychosocial adjustment to brain injury; compassion fatigue

W. John C. Walsh, PhD (Simon Fraser) R. Psych.
Cognition and motivation, quantitative methods, multivariate techniques; school psychology, assessment of children with learning problems

**Degrees and Specializations Offered**
- Counselling Psychology — project-based MA, thesis-based MA
- Indigenous Communities Counselling — project-based MA, thesis-based MA
- Educational Psychology — MED, MA, PhD
  - Learning and Development
  - Measurement, Evaluation, and Computer Applications
  - Special Education
- Leadership Studies — MED, MA

**Counselling Psychology**
The Counselling Psychology Graduate Program assists students in developing the knowledge, skills, and understanding necessary to work as professional counsellors in a wide variety of settings. The program is characterized by relatively small classes, ongoing contact with a program supervisor, and a focus on the practicum/internship component of counsellor preparation.

**Indigenous Communities Counselling**
The Department of Educational Psychology and Leadership Studies in partnership with Indigenous Education in the Faculty of Education and community partners have collaborated to develop a unique graduate counselling program that is relevant to and consistent with the values and traditions of Indigenous communities. Seven key values and principles, developed together with Indigenous community partners, educators, and helping professionals, guide the program framework and delivery:
- The Indigenous paradigm as central
- The sacred and the spiritual dimension
- The ancestral dimension
- Stories, ceremony, culture, language, and communal healing
- The earth and our relatives
- The circle
- Counselling vocation and practice

**Educational Psychology Focus Areas**
All Educational Psychology focus areas share foundational courses in learning, development, and measurement. Each focus area builds on this foundation with additional courses, faculty supervision, and culminating theses or projects. This specialization provides externally identifiable areas of expertise as well as programs of study that can flexibly meet individual career goals.

We currently offer three Educational Psychology focus areas:
- Learning and Development
- Measurement, Evaluation and Computer Applications
- Special Education

All Educational Psychology focus areas are characterized by small classes that provide rich dialogue, development of critical thinking skills, and active integration of research and theory with practice. All students are offered individualized mentoring and supervision, and all have opportunities to gain research experience.

Please note that Educational Psychology programs are suitable for achieving advanced TQS standing for previously qualified teachers, but none of our graduate programs lead to BC Teacher Certification.

**Learning and Development** - This program integrates the psychology of learning and instruction with the psychology of human biological, cognitive, emotional, and social development. The developmental content of this focus area embraces a life-span methodological perspective, but focuses primarily on the first two decades of life. The learning portion of this focus area is applicable across the life-span.

**Indigenous Communities Counselling**
The Indigenous Communities Counselling program focuses on providing students with opportunities to develop specific research competencies and to teach effective communication of information in both research and applied educational psychology settings.

**Measurement, Evaluation and Computer Applications** - The Measurement, Evaluation and Computer Applications focus provides students with the opportunity to pursue advanced study in measurement, statistics, evaluation, and technology; and to support individual research investigation of a significant topic within these areas. Topics of interest include large-scale assessment, classroom assessment of student achievement, and educational technology.

The general objectives of the Measurement, Evaluation, and Computer Applications focus area:
- To provide students with current theoretical, research and practical knowledge as a basis for professional development in educational psychology.
Financial Support
Fellowships and Scholarships
The University of Victoria awards a limited number of Graduate Fellowships for full-time study. No duties are involved. The awards are competitive and are based on academic standing. All students admitted to the program and assessed with a 7.0 or higher GPA will be considered.

A small number of Faculty scholarships, fellowships and awards are available to students, usually in their second year of study.

Students with strong GPAs are encouraged to apply for SSHRC fellowships early in the fall semester. These awards are competitive and compare students on three main criteria: academic excellence, research potential, and communication skills. For more information about these awards see: <www.sshrc-crsh.gc.ca>.

A list of awards and financial support can be found at: <www.uvic.ca/graduatestudies/finances/financialaid>.

Paid Research Assistantships
Paid research assistantships are available with individual faculty in the department. These assistantships are usually supported through grant funding. They are available to a limited number of qualified students. Students interested in research assistantships should contact faculty members directly.

Paid Teaching Assistantships
Paid teaching assistantships are available within the Department of Educational Psychology and Leadership Studies to a limited number of qualified students. The number of teaching assistantships varies yearly. For information, contact the Graduate Secretary (ephecoop@uvic.ca) and review postings on the departmental website.

Work Study Program
The Work Study Program is funded by the University of Victoria Student Awards and Financial Aid Office. The objective of the program is to provide additional financial assistance through on-campus part-time employment opportunities for students who have documented financial need. The Work Study Program runs from September to April of each academic year and students may earn up to a maximum of $3,400 for this 8 month period. Students may only hold one work study position at one time. Additional information is available online at: <www.uvic.ca/registrar/safa/work-study>.

Co-operative Education and Work Placements
It is possible for graduate students to combine their graduate studies with Co-op education semesters in which they apply knowledge and skills in paid work placements across Canada. This usually involves extending program completion by two semesters. For more information please contact: ephecoop@uvic.ca.

ADMISSION REQUIREMENTS
General
Candidates seeking admission should normally be able to satisfy the entrance requirements of the Faculty of Graduate Studies. Further to these requirements, the Department of Educational and Leadership Studies requires an acceptable bachelor’s degree from an accredited university and normally a grade point average of 6.0 (B+) in the last two years of academic work. Entry to the program is on a competitive basis and enrollment may be restricted in any given year. All applicants should submit a current resume and a brief letter of intent. Other requirements include information on prerequisite courses, previous field experience, assessment reports, references, and personal statements.

Potential applicants may contact the Graduate Program Assistant for application information about specific programs. They may also visit our website: <www.uvic.ca/education/psychology>.

For community based programs, phone: 250-721-7875.

Admission To Master’s Programs
Counselling Psychology
Applicants are expected to have a broad understanding of psychological principles and issues as a result of their academic coursework. Thesis-based MA applicants must have at least 1.5 years of undergraduate credit in statistics that cover descriptive statistics including univariate and regression analysis. Thesis-based MA applicants must submit a one-page description of past research experience and present research interest.

Please note: Each year the Department of Educational Psychology and Leadership Studies in Education receives a considerable number of applications for entry into the graduate counseling programs, thus, the admissions process is a competitive one. Meeting admission requirements does not guarantee entry to the program. Only a limited number of places are available, typically 12-16 for on-campus programs and 18 for Community-based programs. Recommendations for admissions are for a particular program and start date, and cannot be deferred. Applicants declining an offer of admission must re-apply. See our web site at: <www.uvic.ca/education/psychology/future/masters/counselling> for more detailed information and guidelines.

1. An acceptable bachelor's degree from an accredited university and normally a grade point average of 6.0 (B+) in the last two years of academic work.

2. Applicants are expected to have a broad understanding of psychological principles and issues as a result of their academic coursework. All applicants are required to have three units of relevant 3rd or 4th year coursework in Educational Psychology, Psychology or a related helping discipline in the following two areas: Learning/Cognition and Abnormal Psychology/Psychopathology. Thesis-based MA applicants must have at least 1.5 units of undergraduate credit in statistics that covers descriptive statistics and univariate inferential statistics.

3. Completion of prerequisite courses ED-D 414, 417, and 418 with at least a B+ grade. Applicants must have completed ED-D 417 and ED-D 418 by December 31st of the year prior to program start. Applicants who have not completed ED-D 414 (or an equivalent course) prior to application submission may be granted admission to the program conditional on completing ED-D 414 (or equivalent) prior to beginning the program in...
September. ED-D 414 is usually offered several times throughout the year, including during the summer (July/August) prior to the start of the Master's program. Applicants applying for equivalency must send course outlines and other supporting information to the Graduate Adviser by November 1st prior to application.

\*Note: ED-D 414 and ED-D 417 have changed in unit value to 1.5 units from 3.0 units. ED-D 418 has been added as a prerequisite. As of December 1, 2007, applicants must have ED-D 418 for admission.

4. A significant number of counselling related hours is required that are documented in a complete résumé. Field experience is defined as working in a helping capacity in a counseling-related or teaching-related setting with children, adolescents, or adults. Such experience should involve person-to-person and/or group helping relationships in which the individual plays a facilitative role in learning, personal and emotional growth, and/or psychological development and is required to demonstrate professional and ethical behaviors, effective interpersonal skills, and personal awareness. It must also include the receiving of supervision involving evaluative feedback from a supervisor of a higher administrative position (i.e., not peer consultation) with clearly stated roles and responsibilities for the individual and the supervisor. This requirement can be met through volunteer work experience although preference will be given to applicants who have sustained, relevant paid work experience.

5. Two Assessment Reports (references) from professors and/or supervisors.

6. A minimum of two Counselling Skills Evaluations are required. One must be from an instructor of ED-D 417 (or equivalent). The other may be from a supervisor of the applicant's counselling or other applied work setting.

7. A personal statement (3 to 5 pages) detailing career plans and motivation for graduate work in Counselling.

8. For thesis-based MA applicants only, a one-page description of past research experience and present research interests.

9. Applicants reactivating their file for reconsideration must detail in a letter the actions they have taken to strengthen their new application over the previous one.

10. Applicants requesting admission consideration due to disability must put their request in writing at the time of admission, providing an explanation of their situation and appropriate medical or other documentation.

11. As a condition of admission to all Counselling Psychology programs, students must undergo a Criminal Record Check in compliance with the BC Criminal Records Review Act.

**Indigenous Communities Counselling**

The program is open to both Indigenous and non-Indigenous applicants. Consistent with University of Victoria policy on equity and access, preference will be given to Indigenous applicants and those working in a helping capacity with Indigenous Communities.

1. Applicants are required to have completed a baccalaureate degree with at least a B+ average (78%) in the last two years of course work. Applicants with less than a "B+" average (6.0 GPA) on their undergraduate degree may be eligible for admission as a Mature Student.

2. In order to be eligible for registration with provincial and national counsellor certification bodies, applicants are expected to have a broad understanding of helping principles and issues as a result of their academic course work. A minimum of 3.0 units of relevant 3rd and 4th year coursework is required, in Aboriginal or Indigenous helping/healing, educational psychology, psychology, child and youth care, or a related helping discipline. Examples include PSYC 330 Personality, ED-D 419 Introduction to Indigenous Helping and Healing, or CYC 338 Applying Developmental Theory in Child and Youth Care. Applicants should provide a list of these relevant courses and the grades obtained with their application.

3. Completion of pre-requisite courses ED-D 414 Group Processes, ED-D 417 Effective Interpersonal Communication, and ED-D 418 Introduction to Theories of Counselling with at least a B+ grade is required. Applicants requesting equivalency must send detailed course outlines (syllabi) and other supporting information to the Graduate Adviser prior to application. Applicants who have not completed all required pre-requisite courses should be registered in these courses by March 15 of application year and indicate this in their personal statement. Applicants may be offered admission to the program conditional upon completion of whatever required courses are outstanding. All courses must be completed before program start.

4. Successful, relevant field experience must be completed prior to the application deadline and documented in a complete résumé. For the Indigenous Communities Counselling program, we are particularly interested in applicants who have completed all or part of their field experience in Indigenous based settings. Field experience is defined as working in a helping capacity in a counselling, helping-related or teaching-related setting with children, adolescents, or adults. 200 hours are recommended.

5. Two Assessment Reports (references to be sent directly to Graduate Records and Admissions) from professors and/or supervisors are required.

6. Applicants are required to submit a minimum of two Counselling Skills Evaluations. One must be from an instructor of ED-D 417 (or equivalent). The other may be from a supervisor of the applicant's counselling or other applied work setting.

7. A personal statement (3 to 5 pages) describing future work plans and motivation for graduate work in Counselling is also required. Please address the following:

- Your enrolment in the ICCP at the University of Victoria might help you meet important personal and/or community goals. What background and/or experience do you have related to helping in Indigenous communities?
- What preferences do you have in terms of course content and style of teaching, skill development, and personal learning?
- What are your strengths and weaknesses as a person, learner, and counsellor?
- What personal and/or cultural values are most important to you and how do they influence your views about being a counsellor?
- In what type of setting would you like to work following graduation from a counselling program and with what client population would you like to work?
- Add any other relevant information that you think would help the admissions committee to know about you as a person, a community member and a potential counsellor.

8. Applicants reactivating their file for reconsideration must detail in a letter the actions they have taken to strengthen their new application over the previous one.

9. Applicants requesting admission consideration due to disability must put their request in writing at the time of application, providing an explanation of their situation and appropriate medical or other documentation.

10. As of September 2011, successful applicants must undergo a criminal record check in compliance with the BC Criminal Records Review Act and submit it to the Department of Educational Psychology and Leadership Studies for review before full acceptance is given.

Additional information about the Indigenous Communities Counselling program can be found at [www.uvic.ca/education/psychology/future/masters/indigenous](http://www.uvic.ca/education/psychology/future/masters/indigenous). Please contact our Program Coordinator or current Academic Adviser if you have any questions regarding the application process and/or whether you meet the above admission criteria.

**Educational Psychology Focus Areas**

**General Requirements**

- An acceptable bachelor's degree from an accredited university and normally a grade point average of 6.0 (B+) in the last two years of academic work. Senior undergraduate courses directly related to the focus area (Special Education, Learning and Development, or Measurement, Evaluation and Computer Applications).
- Two references (assessment reports) from academic or field based contexts.
GRADUATE PROGRAMS

- A letter of intent outlining research, academic and professional goals specific to the focus area for which they are applying.
- Current curriculum vitae (résumé).
- Criminal Record Check in compliance with the BC Criminal Records Review Act.

Applicants reactivating their file should detail in a letter the actions they have taken to strengthen their new application.

Prerequisite Courses
- A senior undergraduate course in educational psychology, instructional psychology, learning theory, or learning principles applied to children (e.g., ED-D 300, ED-D 401).
- A senior undergraduate course in development (life-span, childhood, and/or adolescent development) (e.g., ED-D 305, ED-D 406).
- For the Special Education focus area: A senior undergraduate course in special needs, developmental psychopathology or related course, OR 2-years of related field experience (e.g., providing services to children, youth, or adults with special needs in school or community contexts).
- For the Learning and Development, and Measurement, Evaluation and Computer Applications focus areas: A senior undergraduate course in Statistical analysis and/or classroom assessment (e.g. PSYC 300A, ED-D 337).

Leadership
Candidates seeking admission should be able to satisfy the entrance requirements of the Faculty of Graduate Studies. Further to these requirements, the Department of Educational and Leadership Studies requires an acceptable Bachelor's degree from an accredited University and normally a grade point average of 6.0 (B+) in the last two years of academic work along with a brief résumé. Entry to the program is on a competitive basis, and enrollment may be restricted in any given year. All applicants should submit a current résumé and a brief letter of intent. Recognition is given for experience in school and the community. Course work completed within the last five years, which was not part of the academic work considered for admission, may be eligible for transfer credit towards the Master's degree.

Leadership Studies' students whose course work or research involves contact with vulnerable populations will be required to undergo a Criminal Record Check in compliance with the BC Criminal Records Review Act.

Admission to the PhD Program in Educational Psychology
Admission to the doctoral degree program requires completion of a master's degree from a recognized university. The completed degree can be with or without thesis.

Applicants who have completed a project-based master's degree are required to have completed a research paper in which design principles and analytic techniques are demonstrated.

Applicants must have completed ED-D 560 (Statistical Methods in Education) and ED-D 561A (Methods in Educational Research), or their equivalents within their Master's degree program.

Applicants must submit Graduate Record Examination scores from the verbal, quantitative, and analytical writing sections of the GRE.

Applicants must submit a statement of research experience and interests, a letter of intent, and current curriculum vitae.

Applicants must provide a minimum of one single-authored published or unpublished article that is appropriate to the field of future studies. A copy of the applicant's master's thesis, a major paper, published research or a professional report may be submitted to fulfill this requirement.

Deadlines
Please consult the department website for specific deadline dates: <www.uvic.ca/education/psychology>.

PROGRAM REQUIREMENTS

Master's in Counselling Psychology
The program requirement for the project-based MA degree is a minimum of 25.5 units of study. The thesis-based MA degree is a minimum of 28.5 units of study. The following ED-D courses are restricted to graduate students who have been admitted to either the project-based MA or thesis-based MA counselling program, or by permission of the department: ED-D 514, 518, 519 (A, C, D, E, G, H, J, K, L, N, and P), 521, 522, 523, and 524.

Project-based MA Program Requirements
A minimum of 25.5 units of course work is required in the project-based MA program and a comprehensive exam. The program of study includes the following required courses:

- ED-D 503 (1.5) Program Development and Evaluation
- ED-D 514 (1.5) Assessment in Counselling
- ED-D 518 (1.5) Advanced Seminar in Theories of Counselling Psychology
- ED-D 519C (1.5) Ethics and Legal Issues in Counselling
- ED-D 519H (1.5) Career Development and Counselling Across the Life Span
- ED-D 519L (1.5) Group Counselling
- ED-D 519N (1.5) Diversity, Culture and Counselling
- ED-D 522 (3.0) Skills and Practice for Counselling
- ED-D 523 (3.0) Internship in Counselling
- ED-D 561A (1.5) Methods in Educational Research
- ED-D 597 (3.0) Comprehensive Examination
- ED-D 598 (1.5) Project
- Electives (4.5) to be chosen in consultation with student's supervisor

TOTAL: 28.5 units

Electives may be taken from several sources. Each year additional courses in counselling are taught, generally on a rotating basis from the ED-D 519 series. Graduate courses are offered by other sections of the Department of Educational Psychology and Leadership Studies (i.e., Learning and Development, Special Education, Measurement, Evaluation and Computer Applications). As well, there is a range of courses being offered in other graduate programs across campus.

Students may focus on one or more of the following four areas:
- Trauma
- School/Higher Education Counselling
- Aboriginal Counselling
- Addictions

Course approval will be granted by the student's Supervisor or Graduate Adviser.

Thesis-based MA Program Requirements
A minimum of 28.5 units of study is required in the thesis-based MA program, and includes a thesis and its oral defense. Students choosing to conduct a thesis involving qualitative methodology are required to complete ED-D 563 or equivalent in addition to ED-D 560 and ED-D 561A. The program of study includes the following required courses:

- ED-D 503 (1.5) Program Development and Evaluation
- ED-D 514 (1.5) Assessment in Counselling
- ED-D 518 (1.5) Advanced Seminar in Theories of Counselling Psychology
- ED-D 519C (1.5) Ethics and Legal Issues in Counselling
- ED-D 519H (1.5) Career Development and Counselling Across the Life Span
- ED-D 519L (1.5) Group Counselling
- ED-D 519N (1.5) Diversity, Culture and Counselling
- ED-D 522 (3.0) Skills and Practice for Counselling
- ED-D 523 (3.0) Internship in Counselling
- ED-D 560 (1.5) Statistical Methods in Education
- ED-D 561A (1.5) Methods in Educational Research
- ED-D 599 (6.0) Thesis

Electives (3.0) to be chosen in consultation with student's supervisor

TOTAL: 28.5 units

Electives may be taken from several sources. Each year additional courses in counselling are taught, generally on a rotating basis from the ED-D 519 series. Graduate courses are offered by other sections of the Department of Educational Psychology and Leadership Studies (i.e., Learning and Development, Special Education, Measurement, Evaluation and Computer Applications). As well, there is a range of courses being offered in other graduate programs across campus.

Students may focus on one or more of the following four areas:
- Trauma
- School/Higher Education Counselling
- Aboriginal Counselling
- Addictions

Course approval will be granted by the student's Supervisor or Graduate Adviser.

Program Length
The project-based MA degree generally takes two years of full-time study on campus to complete. The thesis-based MA degree also requires a minimum of two years of full-time study and
often will require at least one additional semester to complete the thesis. Community-based programs have a set time-line which varies depending on the type of delivery model.

Master's in Indigenous Communities Counselling

The program requirement for the project-based MA degree is a minimum of 24.0 units of study. The thesis-based MA degree is a minimum of 28.5 units of study. The following ED-D courses are restricted to graduate students who have been admitted to either the project-based MA or thesis-based MA counselling program, or by permission of the department: ED-D 514, 518, 519 (C, L, P, R and S), 521, 522, 523, 525 and 564A.

Project-based MA Program Requirements

A minimum of 24.0 units of course work is required in the project-based MA program and a comprehensive exam. The program of study includes the following required courses:

- ED-D 525 (1.5) Indigenous Healing and Spirituality
- ED-D 518 (1.5) Advanced Seminar in Theories of Counselling Psychology
- ED-D 519C (1.5) Ethics and Legal Issues in Counselling
- ED-D 514 (1.5) Assessment in Counselling
- ED-D 522 (3.0) Skills and Practice for Counselling
- ED-D 523 (3.0) Internship in Counselling
- ED-D 519R (1.5) Indigenous Development and Counselling across Generations
- ED-D 519L (1.5) Group Counselling
- ED-D 564 (1.5) Indigenous Research and Program Evaluation
- ED-D 519P (1.5) Trauma Counselling (or other elective)
- ED-D 521 (1.5) Theory and Practice in Family Counselling (or other elective)
- ED-D 519S (1.5) Addictions Counselling (or other elective)
- ED-D 597 (1.5) Comprehensive Examination
- ED-D 598 (1.5) Project

**TOTAL:** 24.0 units

Students in the project-based MA program may apply to transfer to the thesis-based MA program. Transfer application requires a letter of intent, a minimum 20-page thesis proposal, and a statement of support from a potential thesis supervisor. Only a very small number of transfer students can be accommodated, depending on supervisor match and availability. Transfers would normally be considered in the second year of the program.

Thesis-based MA Program Requirements

A minimum of 28.5 units of study is required in the thesis-based MA program, and includes a thesis and its oral defense. The program of study includes the following required courses:

- ED-D 525 (1.5) Indigenous Healing and Spirituality
- ED-D 518 (1.5) Advanced Seminar in Theories of Counselling Psychology
- ED-D 519C (1.5) Ethics and Legal Issues in Counselling
- ED-D 514 (1.5) Assessment in Counselling
- ED-D 522 (3.0) Skills and Practice for Counselling
- ED-D 523 (3.0) Internship in Counselling
- ED-D 519R (1.5) Indigenous Development and Counselling across Generations
- ED-D 519L (1.5) Group Counselling
- ED-D 564 (1.5) Indigenous Research and Program Evaluation
- ED-D 519P (1.5) Trauma Counselling (or other elective)
- ED-D 521 (1.5) Theory and Practice in Family Counselling (or other elective)
- ED-D 519S (1.5) Addictions Counselling (or other elective)
- ED-D 599 (6.0) Thesis

**TOTAL:** 28.5 units

Master's Degrees in Educational Psychology

Across all three Educational Psychology focus areas, the MA degree and the ME degree consist of parallel program requirements with the exception of the closing or final activity: (a) thesis for the MA degree, or (b) project for the ME degree.

A minimum of 19.5 units of study is required for the ME degree and includes a comprehensive exam. A minimum of 21.0 units of study is required for the MA and includes a thesis defense.

The MA degree is a course and thesis based research degree. The MA is most suited to students who seek a future career involving research and teaching in government, agency, or post-secondary contexts. Thesis work typically advances theory, research, and practice in the field of Educational Psychology. Persons who anticipate proceeding on to a doctoral program should apply for the MA degree. Applicants who enjoy and wish to develop the skills of conducting research, writing, and presenting and publishing academic papers frequently select this degree. Important features of the MA include:

- Minimum of 21 units (students may take more)
- Minimum of 2 years to complete
- Requires the development of quantitative and qualitative research analyses skills
- Culminates in a research based thesis
- It is a prerequisite for entry into PhD programs

The ME degree is a primarily course based applied degree that culminates in a major project or paper. The ME is useful for persons seeking employment or advancement in applied educational settings, community organizations, or the Ministry of Education. Projects and papers emphasize the application of theory and research to practice. The ME program is useful for applicants who are interested in the development and evaluation of programs and services. Please note that ME students who wish admission into doctoral programs generally require additional research method courses and must demonstrate their research and writing skill.

Important features of the ME degree include:

- Minimum of 19.5 units (students often take more)
- Normally completed within 2 years
- Primarily course-based
- Culminates in an applied project or paper
- Is normally not suitable for entry into a PhD program

Transfer between ME and MA Programs:

Persons admitted to either degree program may apply for transfer to the other. Please note that transfers are not automatic; each transfer request will be evaluated by faculty before approval. This is normally done in the spring with the new application reviews.

Program Length

The ME degree generally takes two years of full-time study on campus to complete. The MA degree also requires a minimum of two years of full-time study and often will require at least one additional semester to complete the thesis.

Learning and Development Focus Area Requirements (MA and ME)

Required Courses (12 units)

3.0 units in Learning composed of:
- ED-D 500 (1.5) Learning Principles
- ED-D 508 (1.5) Theories of Learning
3.0 units in Development composed of:
- ED-D 505 (1.5) Basic Concepts in Human Development
- ED-D 506 (1.5) Topics in Human Development (at least one of the following)
  - 506A: Cognitive Development
  - 506B: Social and Emotional Development
  - 506C: Adolescent Development
  - 506D: Early Childhood and Middle Years Development
3.0 units in Research and Statistics composed of:
- ED-D 560 (1.5) Statistical Methods in Education
- ED-D 561A (1.5) Methods in Educational Research
3.0 units in Learning and Development not previously counted above and selected from:
- ED-D 506 (1.5) Topics in Human Development
  - 506A: Cognitive Development
  - 506B: Social and Emotional Development
  - 506C: Adolescent Development
  - 506D: Early Childhood and Middle Years Development

- ED-D 570 (1.5) Instruction and Technologies to Promote Self-Regulated Learning and Strategy Use
- ED-D 509 (1.5) Psychology of Learning and Instruction
- ED-D 591 (1.5) Selected Topics in Education
- ED-D 562 (1.5) Advanced Statistical Methods in Education
Special Education Focus Area Requirements
(MA and MEd)

Required Courses (13.5 units)
1.5 units in Learning selected from:
ED-D 500 (1.5) Learning Principles
ED-D 508 (1.5) Theories of Learning
1.5 units in Development selected from:
ED-D 505 (1.5) Basic Concepts in Human Development
ED-D 506 (1.5) Topics in Human Development
(Any of the following)
- 506A: Cognitive Development
- 506B: Social and Emotional Development
- 506C: Adolescent Development
- 506D: Early Childhood and Middle Years Development
3.0 units in Research and Statistics composed of:
ED-D 560 (1.5) Statistical Methods in Education
ED-D 561A (1.5) Methods in Educational Research
7.5 units in Special Education composed of:
ED-D 515 (1.5) Advanced Assessment in Special Education
ED-D 516 (1.5) Advanced Intervention in Special Education
ED-D 568 (1.5) Inclusive Education in the 21st Century
ED-D 569 (1.5) Developmental Psychopathology and Disorders
ED-D 571 (1.5) Advanced Assistive Technology in the Inclusive Classroom
1.5 units of elective coursework chosen in consultation with the student's supervisor
Degree Completion Requirements for MEd (4.5 units)
ED-D 598 (3.0) Project: Educational Psychology and Leadership Studies (Project structure varies by area)
ED-D 597 (1.5) Comprehensive Examination: (Examination structure varies by area)
Degree Completion Requirements for MA (6.0 units)
ED-D 599 (6.0) Thesis and oral defense

Master's in Leadership Studies

MEd Program Requirements

The MEd degree requires 19.5 units of study including a research project (ED-D 598 - 3.0 units) and the comprehensive exam (ED-D 597 - 1.5 units).

Compulsory Core Courses (1.5 units): Students are required to select one of the following courses:
ED-D 531 (1.5) Concepts and Theory of Organization
ED-D 533D (1.5) Concepts and Theories of Leadership in Learning Contexts: Leadership
ED-D 538A (1.5) Community Leadership and Adult Learning
ED-D 539A (1.5) Leadership, Learning and Social Justice

The MA degree requires 19.5 units of study including a thesis (ED-D 599 - 6.0 units) and an oral examination.

Compulsory Core Courses: (1.5 units) Students are required to register in one of the following courses
ED-D 531 (1.5) Concepts and Theory of Organization
ED-D 533D (1.5) Concepts and Theories of Leadership in Learning Contexts: Leadership
ED-D 538A (1.5) Community Leadership and Adult Learning
ED-D 539A (1.5) Leadership, Learning and Social Justice

Compulsory courses:
ED-D 599 (6.0) Thesis
ED-D 531 (1.5) Comprehensive Examination
ED-D 533D (1.5) Comprehensive Examination
ED-D 538A (1.5) Comprehensive Examination
ED-D 539A (1.5) Comprehensive Examination

Two courses in qualitative and/or quantitative research design taken within any faculty at UVic. These should be completed prior to beginning the thesis.

Other Courses: (9.0 units). Students may select from among courses numbered ED-D 531, 532, 533, 534, 535, 536, 537, 538, 539, 541, 590, 591E, 610.

Up to 3.0 units can be in the form of an Independent Directed Study (ED-D 590) and the student is required to find the instructor to teach this course.

Other courses: (4.5 units). Up to 4.5 units can be taken from other departments (EDCI, EPHE) in
the Faculty of Education or other faculties across campus (permission of supervisor required).

**Program Length**
The MEd degree program can be completed over three consecutive summer sessions or 15 to 18 months of full-time study (with a May entry point).

**PhD Program in Educational Psychology**
Advanced doctoral studies in Educational Psychology with special focus in one of the following: Special Education; Counselling Psychology; Learning and Development; or Measurement, Evaluation and Computer Applications. This program prepares students to contribute to theory, research and practice in the field of Educational Psychology relevant to their chosen area of focus. Graduates of the program pursue academic, research, government, and professional careers. The flexibility of the program and breadth of faculty expertise provide students with opportunities to pursue individualized scholarly and professional goals in close collaboration with faculty supervisors. Students are encouraged to complete a research apprenticeship and an apprenticeship in teaching in higher education.

**Program requirements**
The minimum total number of units required for the PhD program is 48 units. The program requires a minimum of 15 units of coursework, a candidacy examination (3.0 units), and a dissertation (minimum 30.0 units). Of the 15 units of coursework required, all students must take ED-D 660 (Doctoral Seminar in Contemporary Issues in Educational Psychology), and a minimum of 4.5 units of advanced statistics/research methodology.

A student may transfer a maximum of 3.0 units of graduate credits to his/her doctoral program if the course(s) was completed before entering the doctoral program and not used to obtain any degrees. Courses eligible for transfer must be relevant to the program of study and completed within five years of the date of application. The transfer must be approved by the student's supervisory committee and the graduate advisor for the program area.

**Other Requirements**
PhD students write candidacy examinations in research methodology and in their area of specialization (for example, learning and development) within educational psychology. The format will consist of two written papers followed by an oral examination. In the oral examination, the candidate will be examined in both research methodology and his/her area of specialization. Normally, within thirty six months of registration as a provisional doctoral student and at least six months before the final oral examination, a student must pass the candidacy examination.

Students are required to submit a report of their progress to their supervisory committee each year by July 1. Failure to submit a report may jeopardize a student's subsequent registration. The degree requires a minimum of 24 consecutive months from the time of first registration. Students are required to register in every term from the time of admission until the requirements of the degree have been met, or formally withdraw in accordance with regulations set out in the University of Victoria Calendar.

**Program Length**
A minimum residency of one academic year is required. During the residency year, students are expected to be committed full time to their studies. Normally, a student proceeding toward a doctoral degree will be required to complete all the requirements within seven years from the date of first registration in the program.

**Note**
Students who wish to be eligible for registration as a psychologist with the B.C. College of Psychologists must consult the College of Psychologists of British Columbia.

**Graduate Certificate in Learning and Teaching in Higher Education (LATHE)**
The LATHE Graduate Certificate is a 6.0 unit program that is designed for graduate students who will be pursuing a career in post-secondary teaching or in other settings where extensive teaching of adults occurs. By completing a series of courses, workshops and guided experiences, students will acquire knowledge of current research, theory and pedagogical skills that will enable them to become effective instructors in higher-education and similar settings.

Students normally will enroll in the LATHE program concurrently with their discipline-based Master's or Doctoral studies. During the certificate, students take ED-D 600 (1.5) Learning and Teaching in Higher Education; ED-D 605 (3.0) Educational Psychology: Apprenticeship in Teaching in Higher Education; and ED-D 610 (1.5) Contemporary Issues in Higher Education.

**Contact Information**
The Department of Educational Psychology offers graduate programs leading to the degree of Master of Applied Science (MASc), or a degree of Master of Engineering (MEng), or a degree of Doctor of Philosophy (PhD) in Educational Engineering or Computer Engineering. The department also participates in the Co-operative Education program at the graduate level. Research areas include the following:
- biomedical engineering
- communication, signal processing and control
- computer engineering and networking
- computer security and forensics
- electromagnetics and photonics
- electronics and energy
- materials and devices
- software engineering

Further information can be found at the department's web page at <www. ece. uvic. ca/ researchareas. shtml>.

**Faculty Members and Areas of Research**

**Professors Emeritus**
Andreas Antoniou, PhD (London)
Analog and digital filter design, digital signal processing, electronic circuits, optimization methods

Wolfgang J.R. Hoefer, Dr-Ing (Grenoble)
Microwave, millimeter wave, optical theory and applications, computational electromagnetics and numerical field modelling, high speed circuit analysis and synthesis, metamaterials, superresolution imaging

R. Lynn Kirlin, PhD (Utah State)
Statistical signal processing, detection and estimation: speech, sonar, HF and K-band
radar, image, seismic; sensor array processing; adaptive filters; noise suppression; pattern recognition, clustering and classification; wavelet and time-frequency analysis; data compression; blind separation of signals and blind deconvolution; spectral design of randomized switching in dc/dc and dc/ac converters

Eric C. Manning, PhD (Illinois)
Computer networks, distributed computing, multimedia

Adam Zielinski, PhD (Wroclaw)
Underwater acoustic systems; acoustic communications, telemetry and navigation; application of acoustics, ocean electronic instrumentation, signal acquisition and processing, electronic circuits and sensors

Professors
Panajotis Agathoklis, Dr Sc Tech (Swiss Fed Inst of Tech)
Digital signal processing, multidimensional systems, control systems

Amirali Baniasadi, PhD (Northwestern)
Low-power design, power-aware architectures, VLSI, interconnect, high-performance processors, graphics processing unit

Ashoka K.S. Bhat, PhD (Toronto)
Power electronic controls, high-frequency link power conversion resonant and pulse with modulation, power converters for alternative energy sources, design of electronic circuits for power control

Jens Bornemann, Dr-Ing (Bremen)
RF/wireless/microwave/millimeter-wave components and feed systems, ultra-wideband and multi-band RF systems in modern integrated circuits, EM-based computer-aided antenna and component design

David W. Capson, PhD (McMaster)
Computational vision, algorithms and architectures for accelerated and embedded image analysis, vision-based applications in robotics, metrology, inspection, and servo systems

Thomas E. Darcie, PhD (Toronto) - Tier I Canada Research Chair in Optical Systems for Wireless Communications
Wireless communications, ultra-wideband systems, wireless networks, cross-layer design, optical communications, cognitive radio, OFDM and MIMO systems, source coding, algebraic coding theory, information theory, cryptography and security, software radio, communication algorithms, smart grid

Harry H. L. Kwok, PhD (Stanford)
Advanced materials, electronic devices and IC design, mixed-mode circuits

Kin Fan Li, PhD (Concordia)
Web mining, human machine interface, computer architecture

Wu-Sheng Lu, PhD (Minnesota)
Design and analysis of digital filters, wavelets and filter banks, DSP for telecommunications, numerical optimization and applications

Thomas Tiedje, PhD (British Columbia)
Epitaxial semiconductor and oxide film growth by molecular beam epitaxy; modeling of thin film growth by computational and analytic methods; electronic, optical and structural properties of epitaxial films; optical device fabrication

Issa Traoré, PhD (Institut National Polytechnique, Toulouse)
Secure information systems, distributed systems, formal methods, requirements specification, object-oriented design and programming

Hong-Chuan Yang, PhD (Minnesota)
Wireless communications and networks, diversity techniques, performance analysis, cross-layer design, and energy efficient communications

Associate Professors
Michael D. Adams, PhD (British Columbia)
Digital signal processing; image/video/audio processing and coding; digital geometry processing; wavelets, subdivision, and filter banks; algorithms; multimedia systems; data compression; computer graphics

Alexandra Branzan Albu, PhD (Bucharest)
Computer vision, pattern recognition, image processing, human computer interaction

Lin Cai, PhD (Waterloo)
Wireless networks and mobile computing, resource and mobility management, flow and congestion control, medium access control, multimedia services, cross-layer design

Michael L. McGuire, PhD (Toronto)
Model-based and adaptive filtering, digital signal processing and wireless network control

Subhasis Nandi, PhD (Texas A&M)
Electric machine control and drives, fault diagnosis of electric machines, power electronics

Stephen W. Neville, PhD (Victoria) - Director, ASPIRe Centre
Computer and network privacy and security, engineering of large-scale software systems, artificial intelligence, statistical signal processing and pattern recognition, analysis of big data, data science

Christo Papadopoulos, PhD (Brown)
Nanoelectronics, nanomaterials, nanofabrication and self-assembly

Daler N. Rakhmatov, PhD (Arizona)
Energy-efficient computing, dynamically reconfigurable systems, electronic design automation

Mihai Sima, PhD (Bucharest), PhD (Delft)
Computer architecture, reconfigurable computing, circuit design, embedded systems, digital signal processing, speech recognition

Poman P.M. So, PhD (Victoria)
Object-oriented computational electromagnetics, biomedical electromagnetics and instrumentation, computer-aided microwave circuit analysis and synthesis

Assistant Professors
Tao Lu, PhD (Waterloo)
Photonic devices, bio-photronics, nano-photons, optical device fabrication and modelling

Adjunct Professors
Mostafa I.H. Abd-El-Barr, PhD (Toronto)
Parallel processing, computer architecture, reliable and fault tolerant computer systems design, digital systems testing, networks optimization, multiple-valued logic systems design

Nainesh Agarwal, PhD (Victoria)
Architectural level power power estimation, analysis, design, and optimization, low power circuit design, system level design languages, reconfigurable computing, embedded systems and DSP architectures

Andrea Basso, PhD (Swiss Fed Inst of Tech)
Multimedia networked services, including speech and video coding, media adaptation and transcoding, multimedia delivery for broadband and wireless networks, caching, scalability and interworking aspects of multimedia

Stuart Bergen, PhD (Victoria)
Digital signal processing, time series analysis, digital filters and filter banks, optimal filtering and inversion, seismic and genomic signal processing

Leonard Bruton, PhD (Newcastle Upon Tyne)
Theory and implementation of real-time analog and digital filters; multidimensional filtering in space-time; 2D, 3D and 4D array processing for the directional filtering of wireless, audio, video and image signals

Kris Caputa, PhD (Victoria)
Electronics for astronomy, adaptive optics, control engineering, analog and digital circuits, sensor arrays, RF and microwaves
M. Wathey El-Kharashi, PhD (Victoria)  
Secure hardware, 3D-chips, Systems-on-Chip (SoC), Networks-on-Chip (NoC), Networking Processing Units (NPU’s), multi-core systems, advanced microprocessor design, computer architecture and computer networks education

Morteza Esmaeili, PhD (Carleton)  
Information theory, public-key cryptography, algebraic coding theory, graphical representation of codes, LDPC codes, iterative decoding algorithms, linear programming decoding, combinatorics (graph theory, finite geometry, design theory), combinatorial and linear optimization

Mazen O. Hasna, PhD (Minnesota)  
Digital communication theory and its application to performance evaluation of wireless communication systems over fading channels, cooperative communications, ad hoc networks, cognitive radio, network coding

Michael Horie, PhD (Victoria)  
Computer security, spam and phishing countermeasures, mobile and electronic commerce, security education, protocol validation, network traffic analysis, security testbeds and other tools

Henry Jong-Hyeon Lee, PhD (Cambridge)  
Information security, security engineering, security architecture, security governance, security risk management, security standards, network security, application security, privacy, cryptography

Atef A. Ibrahim, PhD (Cairo)  
Bioinformatics, Digital VLSI design, Systems-on-Chip design, embedded hardware systems for cryptosystems, computer arithmetics (addition, multiplication, division), hardware implementation for modular arithmetic, parallel algorithms, reconfigurable computing, parallel computing and multicore design

Wei Li, PhD (Victoria)  
Wireless communications, ultra-wideband transmission, wireless sensor network, DSP for wireless communication, dynamic spectrum allocation, smart grids

Wei Lu, PhD (Victoria)  
System and network security, pattern recognition

Wyatt H. Page, PhD (Massey)  
Acoustics, noise and human health, immersive sound - recording and reproduction, gesture capture for expressive user interfaces, motion capture and biomechanics, multimedia signal processing

Dale J. Shpak, PhD (Victoria)  
Digital filter design and implementation; digital signal processing for audio, wireless, and wireline systems; embedded, distributed, and concurrent processing; wireless remote sensing systems

Isaac Woungang, PhD (Toulon & Var)  
Network security, computer communication networks, mobile communication systems, secure information systems

Hao Zhang, PhD (Victoria)  
Wireless communications, ultra-wideband systems, wireless sensor network, cognitive radio, OFDM and MIMO systems, secure communications, internet of things, underwater communications, GPS, compass, satellite communications, 60GHz, underwater vehicle

Degrees and Specializations Offered  
Master of Applied Science, Master of Engineering and Doctor of Philosophy in Electrical Engineering and in Computer Engineering. The area of study will be determined by the supervisory committee, based on the nature of the research and courses taken.

An intensive one-year course-based program, MEng in Telecommunications and Information Security, is available to provide advanced engineering skills in the telecommunications and information security areas.

The department participates in the Co-operative Education Program in the Faculty of Graduate Studies by individual arrangement. Engineering graduate students may participate in a Co-operative Education graduate program as described in “General Regulations: Graduate Co-op”, page 34).

Facilities  
The department has excellent computing facilities and well-equipped laboratories which enable faculty and students to conduct research in communications, signal processing, acoustics, automatic control, computer engineering, software engineering, artificial intelligence, expert systems, electromagnetics, optics, optoelectronics, power electronics, modelling and fault diagnosis of electric machines, VLSI, nanoelectronics, devices and computer architecture. For further details, refer to the webpages of individual research groups on the departmental website at <www.ece.uvic.ca>.

Financial Support  
It is the intention of the department to fund MASc and PhD students from research grants, scholarships and fellowships. While there is no guarantee, additional funding may be available through Teaching Assistantships. Students with their own funding will also be considered.

ADMISSION REQUIREMENTS  
General  
Please apply online by following the steps found at <www.uvic.ca/application>. Instructions on how to submit your documents are also available from this link. To review your application status, go to “My UVic Application”.

Additional information about graduate studies in the Department of Electrical and Computer Engineering is available at <www.ece.uvic.ca>. Specific information on the MEng in Telecommunications and Information Security (MTIS) is available at <www.mtis.ece.uvic.ca>.

Admission to MTIS Program  
Applicants for admission to the MTIS program require a bachelor's degree in electrical or computer engineering, computer science, or related disciplines, normally with a first-class standing.

Admission To Master's Programs  
Applicants for admission to the master’s programs require a bachelor’s degree, preferably in Engineering. International students normally require a first-class standing.
either the ELEC 509 (master's) or ELEC 609 (PhD) Seminar course, which is mandatory for all graduate students.

Subject to the approval of the department, and
to the appropriate Faculty regulations, normally
3.0 units of the course work may consist of
400-level undergraduate courses taken in the
Department of Electrical and Computer Engineering
groups of engineering students from other departments.
The actual combination of courses is subject to
the approval of the supervisory committee and
the department.

Work as a research or teaching assistant is an inte-
gral part of the graduate program in Electrical
and Computer Engineering.

MASc Program
Course Requirements
The MASc program consists of a minimum of 9
units of course work plus the ELEC 599 MASc
Thesis of 12 units.

Thesis
The format of the MASc Thesis is according to
faculty guidelines.

Oral Examination
The MASc Thesis must be defended in an oral
examination.

Program Length
The MASc program will normally be completed in
two years.

MEng Program
Admission requirements
In addition to regular University admission re-
quirements, admission to this program requires
permission of the department.

Course Requirements
The MEng program consists of a minimum of 12
units of course work plus the ELEC 598 MEng
Project of 2 units.

Final Project
The format of the MEng Final Project is accord-
ing to faculty guidelines.

Oral Examination
The MEng Final Project must be defended in an
oral examination.

Program Length
The MEng program will normally be completed in
five terms.

MBA+MEng Double-Degree Program
Together with the School of Business, the de-
partment is offering an MBA+MEng double-de-
gree program. Additional tuition fees will apply.
For more information, please contact the Chair of
the department or the Graduate Adviser.

Fast Track Master's Option
The Department of Electrical and Computer Engi-
neering offers outstanding undergraduate stu-
dents an opportunity for a head start in a mas-
ter's program. Qualified students will be
permitted to enrol in graduate level courses dur-
ing their fourth year. These courses will be extra
to any undergraduate requirements and thus
can be transferred to the MASc or MEng degree
program. All of the admission and transfer
credit regulations of the Faculty of Graduate Stud-
ies must be met. For more information,
please contact the Chair or the Graduate Adviser
of the department.

PhD Program
Course Requirements
The PhD program consists of a minimum of 6 or
15 units of course work depending on whether
the student is admitted with an MASc degree or
is transferred to a PhD program from an MASc
program, plus the ELEC 693 Candidacy Examina-
tion of 3 units, plus the ELEC 699 PhD Disserta-
tion of 30-36 units.

Candidacy Examination (ELEC 693)
The PhD Candidacy Examination in the Depart-
ment of Electrical and Computer Engineering
will consist of an Oral Examination. The Oral
Examination should be taken and passed not
later than three years from initial PhD registra-
tion. ELEC 693 is a co-requisite. All registrations
in ELEC 699 must be accompanied by registra-
tion in ELEC 693 until ELEC 693 is passed.

Dissertation
The format of the PhD Dissertation is according to
faculty guidelines.

Oral Examination
The PhD dissertation must be defended in an
oral examination.

Program Length
The PhD program will normally be completed in
three to four years.

Co-operative Education
Participation in the Co-operative Education pro-
gram, which enables students to acquire
knowledge, practical skills and workplace ex-
perience, is optional for full-time Master's and
PhD students. Graduation with a co-operative
education designation requires master's stu-
dents to complete two work terms and PhD stu-
dents to complete three (a work term consists of
four months of full time, paid employment). Students
require permission from their aca-
demic supervisor and the Co-op coordinator to
participate in the Co-op program. Interested
students should contact the Engineering and
Computer Science/Math Co-op office during
their first year. Students should also consult
“Co-operative Education”, page 33.

Faculty Members and Areas of Research
G. Kim Blank, PhD (Southampton)
Romantic poetry; cultural studies; media;
discourse and conflict; professional writing
Nicholas P.R. Bradley, PhD (Toronto)
Literatures of the West Coast; Canadian
literature; American literature; 20th-century
poetry and poetics; literature and the
environment/ecocriticism; ethnography
Luke Carson, PhD (Calif, Los Angeles)
Modern American poetry
Lisa A. Chalykoff, PhD (British Columbia)
Modern and contemporary Canadian fiction
and poetry; Canadian literary history; literary
regionalism; literary nationalism; First
Nations literature; ethnic minority literatures
Alison Chapman, PhD (Glasgow)
Victorian literature and culture, especially
women's poetry
Miosa A. Dean, PhD (Queen's)
Canadian novel; postcolonial and gender
theory; maternal and contemporary
feminisms; whiteness theory; animals and
hunting in literature; travel and exploration
narratives, including motorcycling narratives
James A. Dopp, PhD (York)
Contemporary Canadian poetry and fiction;
critical theory; popular culture
Christopher D. Douglas, PhD (Toronto)
American literature; contemporary American
fiction; multicultural American literatures;
religion and literature; postmodernism and
modernism; critical race theory
Gordon D. Fulton, PhD (London)
Restoration and 18th-century literature;
18th-century religious literature; literary
stylistics; critical discourse analysis; history of
the English language
Joseph Grossi, PhD (Ohio State)
Anglo-Saxon literature and culture; Middle English literature; early East Anglian regional identity; medieval Italian literature
Elizabeth M. Grove-White, PhD (Trinity College, Dublin)
Literacies; electronic communication and social media; digital editions; transactional writing
Iain M. Higgins, PhD (Harvard)
Medieval and Renaissance literature, including early Scottish literature; contemporary poetry; travel and nature writing
Janelle A. Jenstad, PhD (Queen’s)
Shakespeare; Digital Humanities; early modern literature; editing and textual studies; London studies; performance criticism
Magdalena M.A. Kay, PhD (Calif, Berkeley)
20th-century British literature; Irish literature; Polish literature; comparative literature; poetry and poetics
Erin E. Kelly, PhD (Maryland)
Renaissance literature; early modern English drama; 16th- and 17th-century religious discourse; history of the book; rhetoric and composition
Gary Kuchar, PhD (McMaster)
Renaissance literature; 17th-century poetry and prose; literature and post-reformation culture; intellectual history; Shakespeare and religion; literary-critical theory
Mary Elizabeth Leighton, PhD (Alberta)
Victorian literature, especially fiction and the periodical press; Victorian book illustration; dance adaptations of Victorian literature; the disciplinary history of English
Robert Miles, PhD (Sheffield, England)
Romantic period, especially Gothic writing and prose fiction
Eric Miller, PhD (Virginia)
Restoration and 18th-century literature; contemporary poetry; nature writing
J. Allan Mitchell, PhD (Dalhousie)
Middle English poetry; rhetoric; ethics; ecology
Michael Nowlin, PhD (Calif, Los Angeles)
19th- and 20th-century American literature; European and American modernism; African-American fiction
Richard Pickard, PhD (Alberta)
Environmental Humanities; ecocriticism; nature writing; 18th-century poetry; Literatures of the West Coast; Canadian literature; teaching composition and writing
Sheila M. Rabillard, PhD (Princeton)
Modern drama; theories of drama and performance; gender studies; modern literature
Stephen Ross, PhD (Queen’s)
International modernism (especially the novel); critical theory; Digital Humanities

Postcolonialism; cultural studies; film studies; critical theory; Jewish studies; francophone and anglophone Caribbean literature
Nicole Shukin, PhD (Alberta)
Canadian literature; cultural studies; animal studies; critical theory; cultural histories of capitalism; biopolitics
Raymond G. Siemens, PhD (British Columbia)
Renaissance literature; textual culture; editorial theory; academic publishing; Humanities computing and Digital Humanities
Lisa A. Surridge, PhD (Toronto)
19th-century British fiction; Victorian book illustration; Victorian serial fiction; Victorian sensation fiction; Victorians and marital violence; judicial and legal writing
Richard van Oort, PhD (Calif, Irvine)
Shakespeare; Renaissance literature; literature and the other disciplines (especially anthropology); literary theory; generative anthropology
Adrienne S. Williams Boyarin, PhD (Calif, Berkeley)
Old and Middle English; Medieval English history and culture; Marian literature and legends; hagiography (especially women’s); paleography and codicology; Medieval anti-Jewish discourse and Christian-Jewish dialogue; law and literature

Degrees and Specializations Offered
The Department of English offers a course-only or project-based MA (thesis by special approval only) and PhD degrees in British, Canadian, American, Irish, and Postcolonial Literature, and in Critical Theory. It also offers a PhD and thesis-based MA with a concentration in Cultural, Social and Political Thought (CSPT); a course-only or project-based MA (thesis by special approval only) with a concentration in Literatures of the West Coast (IWC); a course-only or project-based MA with a concentration in Medieval and Early Modern Studies (MEMS); and a course-only or project-based MA with a concentration in Nineteenth Century Studies (NCS).

Facilities
The main research library for the Humanities is the McPherson Library. Collectively, the libraries house over 1.9 million volumes, 40,000 serials, 2.3 million items in microform, and many thousands of records, tapes, compact disks, scores, films and videos. Holdings include primary and secondary titles related to Canadian, British, American, Latine American, African, Asian, and Antipodean literatures. The Library’s special collections total approximately 75,000 volumes, of which about one half are related to the study of English literature. The rare books and valuable manuscripts material from the medieval period to the present day include collections of Herbert Read, John Betjeman, Robert Graves, T.S. Eliot, W.B. Yeats, and Wyndham Lewis.

The Library’s online subscriptions and CD-ROM holdings include several of the most notable research indices, including the MLA, the Humanities and Social Sciences, and the Periodicals Contents Indexes. The Library offers an interlibrary loans service for books it does not hold, and subscribes to a variety of electronic journals and article delivery services to provide access to articles in journals not held locally.

Full-service computer labs are available in the Clearihue Building; the library’s online subscriptions provide access to key communications and organizational journals.

Financial Support
Financial support is available to incoming students on a competitive basis. No separate application is necessary; the application for admission also serves as application for Fellowships, Teaching Assistantships, and Research Assistantships. To be eligible, students must maintain continuous full-time registration during the tenure of award, and must have an outstanding academic record (usually a minimum GPA of 7.0 on a 9-point scale). Students may not normally hold another major award (e.g., SSHRC) in conjunction with a Fellowship or Teaching Assistantship.

Students may apply for work as Research Assistants within the University by approaching faculty members directly. All eligible students are encouraged to apply for funding from provincial, federal, and external sources.

MA: The number and value of fellowships, teaching assistantships, and research assistantships awarded to new students varies from year to year, but they are currently valued at $2,500 to $15,000 for one year. Unfortunately, we are unable to fund students beyond their first year. Students applying to the CSPT concentration should approach the CSPT Director for information on fellowships specifically awarded to CSPT students.

PhD: The number and value of fellowships, teaching assistantships, and research assistantships awarded to new students varies from year to year, but they are currently valued at $15,000 to $25,000 per year for four years. In their third or subsequent years, all students may apply to teach first-year English (one section per term, to a maximum of three sections) if they are registered full-time, have maintained a minimum 7.0 GPA, and show scholarly and teaching potential. Students should have completed their Candidacy Examinations before receiving teaching appointments. Students applying to the CSPT concentration should approach the CSPT Director for information on fellowships specifically awarded to CSPT students.

Admission Requirements
General
The admission selection process is competitive. Applications are reviewed by the Graduate Admissions and Records Office and then by the English Graduate Committee, who usually makes admission decisions in February and March. Not all students who meet the minimum requirements can be admitted.

In addition to the application materials required by the Faculty of Graduate Studies (see "Faculty Admissions", page 17), the department requires a statement of intent (not to exceed 1 typed page for MA applicants or 2 typed pages for PhD applicants), a 10-15 page typed essay demonstrating advanced literary and/or critical studies ability, and a CV. GRE scores are not specifically required, but students who have taken the exam are advised to submit the results since...
a high score can only strengthen their application.

International students whose first language is not English may be required by the Faculty of Graduate Studies to demonstrate competency in English (see “English Language Proficiency”, page 18) by providing results of the Test of English as a Foreign Language/TOEFL (with a minimum 630 on the paper-based test or 101 on the internet-based test) or the International English Language Testing System/IELTS (with an overall score of at least Band 7).

Admission to the Master’s Program

September is the primary entry point. Only students who enter in September are eligible for fellowships or teaching assistantships, and a limited number of courses are offered in the summer.

Admission to the MA program requires a bachelor’s degree, preferably with an Honours or Major that includes courses in all or most areas of English literature including critical theory, with a minimum overall average of at least A- (7.0 GPA on a 9-point scale, 3.7 GPA on a 4-point scale, or a high second-class standing) in the final two full years of credit units of undergraduate work.

Admission to the PhD Program

September is the only entry point for PhD students. Admission to the program usually requires an MA degree, with a minimum average of A- in graduate courses. It may be possible for an exceptional student in the University of Victoria MA program to enter the PhD program before completing the MA, but not before the completion of one Winter Session and a superior performance in five graduate courses. A limited number of students may also be admitted each year without funding or if they arrive with fellowship funding.

Concentration in Cultural, Social, and Political Thought (CSPT)

Students applying to the Cultural, Social, and Political Thought (CSPT) concentration—an interdisciplinary graduate concentration open to selected MA and PhD students in English, History, Political Science, and Sociology—must meet the admission requirements for the MA or PhD program. MA applicants are expected to have some background in theory; PhD applicants are expected to have a strong competence in theory. Students should indicate on the application form both the program (MA or PhD) and area of study (CSPT) for which they are applying. Admission to the CSPT concentration is subject to the written approval of the CSPT Director, who acts on advice of the interdisciplinary CSPT admission committee. Only students who have already been accepted into the MA or PhD program may be admitted to CSPT; however, acceptance to the MA or PhD program does not guarantee admission to the CSPT concentration. The requirements for the concentrations in the departments of History, Political Science, and Sociology differ from those in English.

See also the entry for “Concentration in Cultural, Social and Political Thought (CSPT)”, page 120.

Concentration in Literatures of the West Coast (LWC)

The Literatures of the West Coast concentration is an innovative MA program that combines interdisciplinary study of Canadian and US literatures with topics in the local histories, environments, and aboriginal traditions of the West Coast. Students applying for admission to the general MA in English should indicate their interest in the Literatures of the West Coast concentration in their Statement of Intent.

The Literatures of the West Coast concentration is open to students from a broad range of disciplines. Applicants from a variety of undergraduate and professional backgrounds are encouraged to apply. Students who are deemed admissible by the Graduate Committee, and who have specified an interest in the Literatures of the West Coast concentration, will be admitted and considered for funding along with those pursuing the general MA degree.

Concentration in Medieval and Early Modern Studies (MEMS)

The Medieval and Early Modern Studies concentration is designed for MA students who wish to make an investigative study of medieval and early modern literature. Students may declare the concentration at any time. Graduates receive an MA in English, with a concentration in Medieval and Early Modern Studies.

The substance of the concentration will vary according to individual interests and annual course offerings.

Concentration in Nineteenth Century Studies (NCS)

The Nineteenth Century Studies concentration is designed for MA students who wish to make an intensive study of Victorian, Romantic, and nineteenth century American and Canadian literatures and cultures. Students may declare the concentration at any time. Graduates receive an MA in English, with a concentration in Nineteenth Century Studies.

The substance of the concentration will vary according to individual interests and annual course offerings; depending on course availability, this concentration can take more than 12 months to complete.

Deadlines

Students who wish to be considered for funding should apply for September entry by January 15. For applicants who hold any post-secondary documents from academic institutions outside of Canada, however, the application deadline is December 15 (applications received after this date will still be accepted, but may not be processed in time to allow registration in September). International MA applications received by April 30 and domestic MA applications received by May 31 will still be considered but may not be eligible for funding. PhD applications received after January 15 cannot be considered.

Program Requirements

The department offers three paths through the MA degree: a course-only degree; a course and research project degree; and a course and thesis degree. The thesis option is usually restricted to students participating in the CSPT concentration, who are required to complete a thesis.

Students doing a concentration in Medieval and Early Modern Studies or Nineteenth Century Studies are required to complete a course-only degree, or course and research project degree.

Students—other than those in the CSPT, MEMS or NCS concentrations—who wish to pursue a thesis program (or, for LWC students, a thesis or alternative creative, historical, or multimedia project) must find a supervisor willing to direct their thesis or project and must submit for the approval of the Graduate Committee a proposal, a rationale for pursuing the thesis option, and a letter of support from the prospective supervisor. Students in the LWC concentration must also submit a letter of support from the LWC Area Committee Chair. If a student’s proposal is denied by the Graduate Committee, the student will have one opportunity to revise and resubmit; if the proposal is denied a second time, the student will be required to complete the course-only option or the course and research project option.

In designing their programs, students may benefit from consulting the Graduate Adviser and, if applicable, the Area Committee Chairs (for students with an interest in particular fields).

Not all Graduate English courses will be offered in a particular year. Students should consult the department to determine the courses that will be offered each year.

All courses except ENGL 500, 502, 507 and 582 are variable content.

Seminars designated as Area Courses (ENGL 505, 515, 520, 530, 540, 550, 560, 570, 571, 580, 585) offer a study of representative texts (canonical and non-canonical) in light of current scholarly debate in a given field. While remaining attentive to broader interpretive issues, Area Courses will explore some of the most vital critical methodologies now practiced in the field. In any given year, the instructor will select the works and methodologies to be studied. Students must take an Area course in a given field more than once in their program of studies only with the permission of the Graduate Adviser.

Seminars designated as Special Topic courses (ENGL 503, 504, 506, 508, 510, 516, 521, 531, 541, 551, 561, 572, 581, 586) focus on specific topics designed around the current research interests of faculty members. Students may take different Special Topics courses with the same number more than once.

Thesis-based Master’s Course Requirements for MA

Students are required to complete 7.5 units of English graduate courses, 1.5 units of which will be ENGL 500 (Textual Studies and Methods of Research). ENGL 502 (Teaching Literature and Composition) may not be taken as one of the required courses; however, students are encouraged to take it as an extra course.

Summary of Course Requirements:

Textual Studies and Methods of Research (ENGL 500) ........................................ 1.5 units
Other English Graduate courses ........................................ 6.0 units
Thesis (ENGL 599) ........................................ 7.5 units
Total ........................................ 15.0 units
## Course Requirements for MA With a Concentration in CSPT

Students accepted into the CSPT concentration are required to complete 4.5 units of English graduate courses, 1.5 units of which will be ENGL 500 (Textual Studies and Methods of Research). ENGL 502 (Teaching Literature and Composition) may not be taken as one of the required courses; however, students are encouraged to take it as an extra course. Students are also required to take CSPT 501 (Contemporary Cultural Social and Political Thought I) plus another 1.5-unit CSPT course at the 500 level (with permission of the CSPT Director, a student may substitute a graduate theory seminar taught by a CSPT faculty member in another department for the 1.5-unit CSPT course at the 500 level).

### Summary of Course Requirements:

| Textual Studies and Methods of Research (ENGL 500) | 1.5 units |
| Other Graduate courses | 3.0 units |
| CSPT 501 | 1.5 units |
| One other CSPT course at the 500 level | 1.5 units |
| Thesis (ENGL 599) | 7.5 units |
| **Total** | 15.0 units |

## Course Requirements for MA With a Concentration in LWC

Students accepted into the IWC concentration are required to complete 7.5 units of graduate courses, including ENGL 500 (Textual Studies and Methods of Research) for 1.5 units, and ENGL 582 (Core Seminar in Literatures of the West Coast) for 1.5 units. Of the remaining 4.5 units, 3.0 units must be IWC-tagged courses, such as those in the 583 series or those approved by the Graduate Committee, and 1.5 units may be from a department other than English, to be chosen in consultation with the IWC Area Committee Chair and with approval of the Graduate Adviser. ENGL 502 (Teaching Literature and Composition) may not be taken as one of the required courses; however, students are encouraged to take it as an extra course.

### Summary of Course Requirements:

| Textual Studies and Methods of Research (ENGL 500) | 1.5 units |
| Core Seminar in Literatures of the West Coast (ENGL 582) | 1.5 units |
| Other Graduate courses | 4.5 units |
| Thesis (ENGL 599) | 7.5 units |
| **Total** | 15.0 units |

### Thesis

The thesis should be between 18,000 and 27,000 words, excluding notes and bibliography. For students in the CSPT concentration, the thesis must be on an approved topic within the fields of both English and CSPT, and at least two members of the supervisory committee must be drawn from the participating faculty of the CSPT program. For students in the LWC concentration, the thesis must be in the LWC area.

### Other Requirements

Students must demonstrate a reading knowledge of one appropriate language other than English. The language requirement is usually fulfilled by French, German or Italian, but any other language may be substituted, after consultation with the English Graduate Adviser.

Students in the IWC concentration may use a West Coast aboriginal language to fulfill this requirement, if a qualified examiner can be found. Students also have the option of completing this requirement with at least a “B” in LING 401 (Salish) or LING 403 (Dene-Athabaskan).

Language tests are held in mid-December, mid-March, and mid-July. Students who have a second language at third-year university level on their transcript, with a minimum grade of “B” (or a “Pass,” if the course is evaluated on a “Pass” or “Fail” basis), may apply to the Department Graduate Adviser for a waiver of the language test.

Students can satisfy the language requirement in French, German, or Italian by passing FRAN 300, GMST 405 (formerly GER 390) or ITAL 300 respectively (if offered). The minimum passing grade in these courses is “B” (or a “Pass,” if the course is evaluated on a “Pass” or “Fail” basis). Students who wish to prepare for the language requirement by taking online courses offered at other institutions are still required to write the language test.

### Oral Examination

At the final two-hour oral examination, the student gives a 15-20 minute presentation about the thesis, and then answers questions from the Examining Committee and from the general audience.

### Program Length

With a good Honours BA or a strong Major in English, a full-time student could finish the thesis MA program in 12 months; however, most students take at least 16 months.

### Course-only Master’s Course Requirements for MA

Students are required to complete 15.0 units of English graduate courses, 1.5 units of which will be ENGL 500 (Textual Studies and Methods of Research). ENGL 502 (Teaching Literature and Composition) may be taken as 1.5 units of the required courses.

### Concentration in LWC

Of the 15.0 units of English graduate courses, students doing a concentration in LWC are required to complete a minimum of 6.0 units of courses in the area of Literatures of the West Coast, including ENGL 582 (Core Seminar in Literatures of the West Coast) for 1.5 units. The remaining 4.5 units must be LWC-tagged courses, such as those in the 583 series or those approved by the Graduate Committee. 1.5 units may be from a department other than English, to be chosen in consultation with the IWC Area Committee Chair and with approval of the Graduate Adviser. ENGL 502 (Teaching Literature and Composition) may be taken as 1.5 units of the required courses.

### Concentration in MEMS

Of the 15.0 units of English graduate courses, students doing a concentration in MEMS are required to complete a minimum of 6.0 units of courses in the medieval and/or early modern areas (choosing from ENGL 510, 515, 516, 520, 521, 530, and 531; if necessary, and if the usual conditions are met, students can also obtain concentration credit through Directed Studies or by taking interdisciplinary courses in the Medieval Studies Program). Depending on course availability, the course-only MEMS concentration can take more than 12 months to complete.

## Concentration in NCS

Of the 15.0 units of English graduate courses, students doing a concentration in NCS are required to complete a minimum of 6.0 units of courses in the Nineteenth Century Studies areas, such as ENGL 550 and 551, and those approved by the Graduate Committee. Depending on course availability, the course-only NCS concentration can take more than 12 months to complete.

### Summary of Course Requirements:

| Textual Studies and Methods of Research (ENGL 500) | 1.5 units |
| Other Graduate courses | 13.5 units |
| **Total** | 15.0 units |

### Other Requirements

Students must demonstrate a reading knowledge of one appropriate language other than English. The language requirement is usually fulfilled by French, German, or Italian, but any other language may be substituted, after consultation with the English Graduate Adviser.

Students in the LWC concentration may use a West Coast aboriginal language to fulfill this requirement if a qualified examiner can be found. Students also have the option of completing this requirement with at least a “B” in LING 401 (Salish) or LING 403 (Dene-Athabaskan).

Students in the MEMS concentration will normally fulfill the language requirement by a language (Latin, French, Spanish, Italian, etc.) appropriate to both the concentration and the student’s particular interest. The language should be chosen in consultation with the Graduate Adviser or with the student’s supervisor.

Language tests are held in mid-December, mid-March, and mid-July. Students who have a second language at third-year university level on their transcript, with a minimum grade of “B” (or a “Pass,” if the course is evaluated on a “Pass” or “Fail” basis), may apply to the Department Graduate Adviser for a waiver of the language test.

Students can satisfy the language requirement in French, German, or Italian by passing FRAN 300, GMST 405 (formerly GER 390) or ITAL 300 respectively (if offered). The minimum passing grade in these courses is “B” (or a “Pass,” if the course is evaluated on a “Pass” or “Fail” basis). Students who wish to prepare for the language requirement by taking online courses offered at other institutions are still required to write the language test.

### Program Length

With a good Honours BA or a strong Major in English, a full-time student could finish the thesis MA program in 12 months; however, most students take at least 16 months.

### Project-based Master’s Course Requirements for MA

Students are required to complete 10.5 units of English graduate courses, 1.5 units of which will be ENGL 500 (Textual Studies and Methods of Research). ENGL 502 (Teaching Literature and Composition) may be taken as 1.5 units of the required courses.
Compliance may be taken as 1.5 units of the required courses.

**Concentration in LWC**
Of the 10.5 units of English graduate courses, students doing a concentration in LWC are required to complete ENGL 582 (Core Seminar in Literature of the West Coast) for 1.5 units, and 3.0 units of LWC-tagged courses, such as those in the 583 series or those approved by the Graduate Committee; 1.5 units may be from a department other than English, to be chosen in consultation with the LWC Area Committee Chair and with approval from the Graduate Adviser.

**Concentration in MEMS**
Of the 10.5 units of English graduate courses, students doing a concentration in MEMS are required to complete a minimum of 4.5 units of courses in the medieval and/or early modern areas (choosing from ENGL 510, 515, 516, 520, 521, 530, and 531; if necessary, and if the usual conditions are met, students can also obtain concentration credit through Directed Studies or by taking interdisciplinary courses in the Medieval Studies Program).

**Concentration in NCS**
Of the 10.5 units of English graduate courses, students doing a concentration in NCS are required to complete a minimum of 4.5 units of courses in the Nineteenth Century Studies areas, such as ENGL 550 and 551, and those approved by the Graduate Committee. Depending on course availability, the project-based NCS concentration can take more than 12 months to complete.

**Summary of Course Requirements:**

- **Textual Studies and Methods of Research (ENGL 500)**: 1.5 units
- Other English Graduate courses: 9.0 units
- Master's Essay (ENGL 598): 4.5 units
- **Total**: 15.0 units

**Final Project**
Students will complete a Master's Essay (not to exceed 10,000 words, excluding notes and bibliography) worth 4.5 units. The paper must present an original and cogent argument, and demonstrate the student's research and writing abilities. For students doing a concentration in LWC, MEMS, or NCS, the topic must be in the relevant concentration areas, as determined by the Graduate Adviser.

**Other Requirements**
Students must demonstrate a reading knowledge of one appropriate language other than English. The language requirement is usually fulfilled by French, German, or Italian, but any other language may be substituted after consultation with the English Graduate Adviser. Students in the LWC concentration may use a West Coast aboriginal language to fulfill this requirement, if a qualified examiner can be found. Students also have the option of completing this requirement with at least a "B" in LING 401 (Salish) or LING 403 (Dene-Alhabsak).

Students in the MEMS concentration will normally fulfill the language requirement by a language (Latin, French, Spanish, Italian, etc.) appropriate to both the concentration and the student's particular interest. The language should be chosen in consultation with the Graduate Adviser or with the student's Supervisor.

**Concentration in French, German, or Italian**
Students in the LWC concentration may use a language (Latin, French, Spanish, Italian, etc.) appropriate to both the concentration and the student's particular interest. The language should be chosen in consultation with the Graduate Adviser or with the student's Supervisor.

**Language Tests**
Language tests are held in mid-December, mid-March, and mid-July. Students who have a second language at third-year university level on their transcript, with a minimum grade of "B" (or a "Pass," if the course is evaluated on a "Pass" or "Fail" basis), may apply to the Department Graduate Adviser for a waiver of the language test.

**Oral Examination**
At the final one and a half-hour oral examination, the student gives a brief 15-minute presentation on the Master's Essay, and then answers questions from the Examining Committee and from the general audience.

**Program Length**
With a good Honours BA or a strong Major in English, a full-time student could finish the project-based MA program in 12 months; however, some students take at least 16 months.

**PhD Program**

**Course Requirements**
Students are required to complete 6.0 units of English graduate courses beyond those taken as part of an MA program. 1.5 of these units will be ENGL 500 (Textual Studies and Methods of Research), unless a student has already taken it or its equivalent. Students may be required to take courses in areas in which they are deficient. PhD students are not permitted to take ENGL 502 (Teaching Literature and Composition) as one of their required courses; however, they are encouraged to take it as an extra course.

Students accepted into the CSPT concentration must substitute CSPT 601 (Contemporary Cultural Social and Political Thought II) for 1.5 of the English graduate units. They may also substitute a CSPT or cross-listed CSPT course for another 1.5 of the English graduate units.

**Candidacy**
Within twenty four months of registration as a doctoral candidate and at least six months before the final oral examination, a student must pass a "candidacy examination." This examination consists of two sections:

1. A Major Field Examination on the area of the student's specialization, based on a reading list set by the department and reviewed annually; in consultation with the Chair of the student's Examining Committee and with the approval of the department's Graduate Committee, candidates may designate texts of particular interest and thereby minimally tailor the exam to their expertise.

2. A Focus Field Examination on a sub-field directly related to the candidate's anticipated dissertation research, based on a reading list established in consultation with the Chair of the student's Examining Committee and approved by the department's Graduate Committee.

Each examination has two components: a written paper and an oral examination. Students must pass both the written and oral components in order to pass a candidacy examination.

Students who have been accepted into the CSPT concentration must write either the Major Field or Focus Field Examination in the CSPT area, and at least two of the committee members for this examination must participate in the CSPT concentration. CSPT will set the exam format and reading list, and will handle the administration of the exam.

Students must pass the Candidacy Examination before advancing to the Dissertation Prospectus and before registering in the Dissertation (ENGL 699).

**Dissertation Prospectus**
The Dissertation Prospectus will normally be completed in the first term of the third year of registration as a doctoral candidate. The Prospectus must be written in consultation with the student's Supervisor and Supervisory Committee, and must be approved by all members of the Supervisory Committee before further work on the Dissertation begins.

The Dissertation Prospectus and approval process consists of two parts, one written and one oral:

1. A substantial essay and bibliography setting forth the nature of the dissertation project and its anticipated arguments and value.

2. An oral Prospectus Conference with the student's Supervisory Committee to identify key strengths and weaknesses of, and to gain final approval of, the proposed dissertation research as outlined in the Dissertation Prospectus. The student must provide a written summary of this Conference to the members of the Supervisory Committee, for their endorsement, prior to commencing the Dissertation.

**Other Requirements**

**Language Requirement**
Students must demonstrate a reading knowledge of two appropriate languages other than English. The language requirement is usually fulfilled by French or German, but any other language may be substituted, after consultation with the English Graduate Adviser, if it is appropriate to the student's dissertation topic. Students who are judged by the Graduate Adviser to have advanced competence in one language may have one of the second language requirements waived.

Language tests are held in mid-December, mid-March, and mid-July. Students who have a second language at third-year university level on their transcript, with a minimum grade of "B" (or a "Pass," if the course is evaluated on a "Pass" or "Fail" basis), may apply to the Department Graduate Adviser for a waiver of the language test.
Students can satisfy the language requirement in French or in German by passing FRAN 300 or GMST 405 (formerly GER 390) respectively (if offered). Students who have received permission from the Graduate Adviser to use Italian as one of their second languages can satisfy the language requirement in Italian by passing ITAL 300. The minimum passing grade in these courses is “B” (or a “Pass,” if the course is evaluated on a “Pass” or “Fail” basis). Students who wish to prepare for the language requirement by taking online courses offered at other institutions are still required to write the language test.

**Instructional Experience** - As an integral part of their program, PhD students are usually expected to undertake teaching duties within the department.

**Dissertation**
The dissertation is expected to be a sophisticated work of the highest possible caliber, and potentially publishable, and should be between 60,000-120,000 words (excluding notes and bibliography).

For students in the CSPT concentration, the dissertation must be on an approved topic within the fields of both English and CSPT, and at least two members of the supervisory committee must be drawn from the participating faculty of the CSPT program.

**Oral Examination**
At the final three-hour oral examination, the student gives a 20-minute presentation about the dissertation, and then answers questions from the Examining Committee and from the general audience.

**Program Length**
Although the University allows students a seven-year period within which to complete their PhD degree, students who wish to be competitive in the job market and in postdoctoral and other grant applications should aim at completing their doctoral program in four to five years.

**Graduate Certificate in Digital Humanities**
The Faculty of Humanities, in partnership with the Digital Humanities Summer Institute and its network, offers a Graduate Certificate in Digital Humanities. Bringing together computational methods and theories with humanities research and pedagogy, this program offers post-graduates, graduate students, academics, librarians and those in extra-academic sectors expertise in the digital dimensions of humanities research in text-, image-, and sound-based media toward proficiency in areas such as computing and information management, multimedia communication, social computing, game design, analysis and data visualization, digital remediation and curation, prototyping, encoding and data processing, and beyond.

Digital Humanities is fundamentally interdisciplinary, engaging fields such as literature, language, history, social justice and the arts. In this context, digital tools are developed, tested and used to support innovative analysis and new conventions for representation, documentation, narration, and expression.

**Certificate Requirements**
DHUM 501, 502, 503, 504, 505 7.5

---

**Environmental Studies**

**General Information**
The School of Environmental Studies has three core interdisciplinary research areas in Ecological Restoration, Ethnecology and Political Ecology. We embrace a full range of learning opportunities spanning natural and social sciences, humanities and traditional ecological knowledge.

Additional information can be found on the web at <web.uvic.ca/envweb/).

**Faculty Members and Areas of Research**
Natalie Ban, PhD (UBC)
Ethnecology, conservation biology, marine conservation planning, marine and coastal protected areas, GIS, social-ecological systems, marine global change
Jessica Dempsey, PhD (UBC)
Political ecology; economic geographies of environmental finance and neoliberal natures; politics of knowledge and science in environmental conflicts; geopolitics, global environmental governance and international finance
Eric Higgs, PhD (Waterloo)
Ecological restoration; landscape change; parks and protected areas; culture-nature relationships; technology and culture change
Trevor Lantz, PhD (UBC)
Ethnecology; ethnobotany; global change, disturbance ecology; Arctic ecology and landscape change
Michael M’Gonigle, JSD (Yale)
Political ecology; strategies for developing sustainability, with a special focus on forestry, urban and campus sustainability; green legal theory
James Rowe, PhD (U of California)
Political ecology, critical theory, social movement politics, social/solidarity
economies, mindfulness and social change
Valentin Schaefer, PhD (SFU)
Ecological restoration; biodiversity; urban ecology; Restoration of Natural Systems
Faculty Coordinator
Karen Shaw, PhD (Johns Hopkins)
Political ecology; local/global environmental governance; political theory; indigenous politics; sustainable energy systems
Brian Starzomski, PhD (UBC)
Community ecology and conservation biology; climate change and biodiversity; dispersal and spatial ecology; ecological restoration; food webs
Duncan Taylor, PhD (California-Santa Cruz)
Political ecology; history, politics and philosophy of North American conservation and environmental movements; community forestry and ecoforestry; integral systems theory
Nancy J. Turner, PhD (UBC)
Ethnoecology; ethnobotanical and environmental knowledge of Indigenous Peoples of British Columbia, and its implications and applications in conservation biology; community forest use; forest and environmental policy; parks and protected areas; and environmental and cultural health and restoration
John Volpe, PhD (UVic)
Ecological restoration; systems ecology; marine conservation and restoration; marine-based food production systems
Wendy Wickwire, PhD (Wesleyan)
Ethnoecology; oral tradition of the First Nations peoples of south central British Columbia; history of ethnography in British Columbia; ethnographic methodology

Visiting, Adjunct and Cross-Listed Appointments
Pamela Asquith, PhD (Oxford)
Anthropology of modern Japan; Japanese views of nature; science, technology and society
E. Richard Atleo, PhD (UBC)
Ethnoecology; Indigenous knowledge; Nuu-chah-nulth worldview; sustainable forestry practices
Brenda Beckwith, PhD (UVic)
Ethnoecology; cultural landscapes; Garry Oak ecosystems; ecological restoration
Wade Davis, PhD (Harvard)
Language loss and the erosion of cultural diversity, protection of the Sacred Headwaters, the Great War and the dream of Everest, the botanical wonder of the world, literary nonfiction and creative writing, photography and ethnographic filmmaking, the role of the storyteller in the modern world
Douglas Deur, PhD (Louisiana State)
Ethnoecology; traditional plant use and cultivation on the Northwest Coast
Donald Eastman, PhD (UBC)
Ecological restoration; wildlife ecology and conservation; biodiversity conservation
Jenny Feick, PhD, (U Calgary)
Effects of climate change on nature, climate change adaptation for nature, human dimensions of natural resource management, integrating natural and social sciences to solve complex natural resource management issues, environmental stewardship, communications, environmental biology and geography
Jason Fisher, PhD (UVic)
Mammal and wildlife ecology; landscape ecology and landscape change; spatial dynamics of terrestrial and marine mammals; biodiversity conservation; species restoration
Robert Gifford, PhD (UBC)
Environmental psychology; social psychology; personality psychology; design of built environments
Emily Gonzales, PhD (UBC)
Ecological restoration; conservation biology; invasive species; Garry oak ecosystems; plant community ecology; deer
Purnima Govindarajulu, PhD (UBC)
Ecological restoration; conservation ecology; invasive species
Robert Hancock, PhD (UVic)
Political ecology/ethnoecology; Indigenous-state relations (land, resources, animals); megaproject developments; Indigenous methodologies
Leif-Matthias Herborg, PhD (U. of Newcastle upon Tyne, UK)
Aquatic invasive species distribution modelling, impacts, prevention, outreach and management
Thomas Heyd, PhD (Western Ontario)
Environmental philosophy and ethics; environmental aesthetics
Richard Hobbs, PhD (Aberdeen)
Vegetation dynamics and management, fragmentation, invasive species, ecosystem rehabilitation and restoration, conservation biology, and landscape ecology
Morgan Hocking, PhD (UVic)
Community ecology; salmon ecosystem interactions; ecosystem-based management; First Nations resource management
Leslie King, PhD (London School of Economics, London University)
Protected areas and poverty reduction, environmental governance, climate change adaptation and mitigation, Arctic environmental resilience and sustainability.
Steve Kokelj, PhD (Carleton)
Permafrost degradation and impacts on geomorphology and terrestrial and aquatic ecosystems; Monitoring of cumulative impacts in the north; Community-based monitoring
Nancy Mackin, PhD (UBC)
Ethnoecology; architecture; environments and culture; traditional ecological knowledge
Gerard McLean, PhD (Waterloo)
Systems Design Engineering; PEM fuel cell systems; stack topology; manufacturing
Tomas Okey, PhD (UBC)
Marine systems; climate change and fisheries impact
Peter Ross, PhD (Utrecht)
Environmental toxicology; endangered marine animals; collaboration with First Nations communities
Trudi Smith, PhD (UVic)
Visual culture/theory; visual anthropology, ethnography of art and media, ethnographic methods, visual art, photography, social art, parks and protected areas, media practices in conservation
Angelique Tillmanns, PhD (U Ottawa)
Community ecology, freshwater ecology and conservation, integrated watershed management, social-ecological systems, ecological communication
Sandy Wylie-Echieverria, PhD (Brigham Young)
Ethnoecology; marine systems conservation and restoration; seagrass ecology and conservation

Degrees and Specializations Offered
MA, MSc and PhD in Environmental Studies.

Financial Support
We endeavour to provide significant financial support to all graduate students. This funding comprises several sources. (1) National or Provincial awards are available to those with a first-class grade point average (minimum 7.0 (A-) but in practice much higher). Eligibility criteria vary with each agency. National fellowship holders may receive an additional award from the university. (2) A limited number of University of Victoria Graduate Fellowships are available to applicants with a GPA over 7.0 (A-). (3) There are a limited number of awards specifically for Environmental Studies graduate students outlined in the awards section of the Calendar. Application and/or nomination for University of Victoria awards and fellowships may only be done once the student has been admitted to the School. (4) Students can also obtain some financial support for their studies as a Graduate Teaching Assistant. These appointments are made by the School of Environmental Studies for qualified students to work as a Teaching Assistant (generally to a maximum of approximately $4,000 per fall and spring terms; there are typically fewer Teaching Assistant resources available during Summer Session). (5) Students may also be appointed as a research assistant by their faculty supervisor, and availability will vary significantly among faculty members and from year to year.

Admission Requirements
General
Initial inquiries should be made to individual faculty or the school's graduate adviser. There are two primary criteria in determining admission: prior academic achievement, and fit with
prospective supervisors and the school in general. We encourage applicants to contact us at least a year in advance of program start to discuss research prospects, admissions, and financial support. Links to the application forms can be found on the school’s website.

Applicants whose native language is not English must write the TOEFL (Test of English as a Foreign Language) and submit the scores to the Graduate Admissions and Records Office (see “English Language Proficiency”, page 18) together with their application forms. Even with passing TOEFL scores, students may be required to take English language courses as well as their other course work.

The minimum GPA required for a master’s entry is B+ (6.5 on the University of Victoria 9-point scale) in the last two years of undergraduate study. In practice a higher GPA is typically required for admission. The minimum GPA required for a PhD entry is A- (7.0). Some exceptions may be made, in extenuating circumstances, such as with mature applicants who have achieved significant work experience, who have shown evidence of ability to complete major projects in a competent and timely manner, and who have demonstrated the knowledge, skills and abilities expected of highly accomplished undergraduate students.

In addition to the documentation required by the Faculty of Graduate Studies (see “Faculty Admissions”, page 17), the School of Environmental Studies also requires transcripts, a statement of research interest (1-2 pages), a brief essay telling us about yourself and highlighting your past accomplishments, evidence of creativity and research potential (1-2 pages) and a CV.

Admission To Master’s Programs

Admission requires a bachelor’s degree, preferably in an area of study related to your proposed graduate program, with a minimum overall average of B+, 6.5 on the University of Victoria 9-point scale. In practice a higher GPA is typically required to ensure entry.

Students will apply to enter either the MA or MSc program. The decision about which program is more appropriate will be made by the School’s Graduate Programs Committee, and will be based on several criteria: the student’s academic background; the nature of the proposed project; proposed courses; specialties of the proposed supervisor.

Typically, students entering the program with a Bachelor of Arts degree will continue with a MA degree, whereas students with a Bachelor of Science will enter the MSc program.

Students may complete the program as a full-time or part-time student.

Admission to PhD Program

Admission requires a master’s degree, preferably in an area of study related to your proposed graduate program, with a minimum overall average of A-, 7.0 on the University of Victoria 9-point scale. In practice a higher GPA may be required for admission.

All applications will be reviewed by the School’s Graduate Program Committee and students will only be accepted into the program if there is at least one faculty member able, interested, and available to supervise the proposed topic of research.

Deadlines

January 15 for admission in September of the same calendar year.

Program Requirements

MA/MSc

The MA and MSc degree programs are similar in overall program requirements but will vary in the type of elective courses and thesis research. The graduate program is primarily research based and the final outcome of the program is the presentation and defense of a thesis.

All students are required to attend a 3-day field camp at the beginning of their program (early September) as part of ES 500.

There is no formal residency requirement. However, in practice all students should be in residence in their first term of study, and residency during the first year is encouraged.

Course Requirements

A student’s program will include the following core courses:

Core Courses:

- ES 500 (1.5) Perspectives on Environmental Theories, Methods and Skills I
- ES 501 (1.5) Perspectives on Environmental Theories, Methods and Skills II
- ES 503 (3.0) MA/MSc Research Colloquium
- ES 593 (1.5) Thesis Proposal Preparation and at least 3.0 elective units to be taken from within or outside the School with the permission of the student’s supervisor. Up to 1.5 units may be taken at the 400-level.

Core and elective courses contribute 10.5 units toward the 18-unit minimum degree requirement.

Thesis

The thesis proposal and thesis are prepared under the direction of the supervisory committee. The committee normally consists of two members: a supervisor and an academic member.

All committee members must be members of the Faculty of Graduate Studies.

The thesis carries 7.5 units of credit.

Oral Examination

Once the thesis is judged ready to defend by the supervisory committee, then an application is made for an oral defense. There are deadlines set by the Faculty of Graduate Studies for the timing of this defense. The supervisor will recommend an appropriate external examiner. This member of the examining committee comes from another department or institution, normally has no input in the creation of the thesis, and is an arms-length knowledgeable member.

The oral examination is chaired by a neutral faculty member from a separate department, appointed directly by the Faculty of Graduate Studies.

PhD

The PhD degree program is primarily research based and the final outcome of the program is the presentation and defense of a dissertation. All students are required to attend a 3-day field camp at the beginning of their program (early September) as part of ES 600.

There is no formal residency requirement. However, residency during the first year is encouraged.

Course Requirements

A student’s program will include the following core courses:

Core Courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ES 600 (1.5)</td>
<td>Perspectives on Environmental Theories, Methods and Skills I</td>
</tr>
<tr>
<td>ES 601 (1.5)</td>
<td>Perspectives on Environmental Theories, Methods and Skills II</td>
</tr>
<tr>
<td>ES 603 (3.0)</td>
<td>PhD Research Colloquium</td>
</tr>
<tr>
<td>ES 693 (3.0)</td>
<td>Candidacy Examination</td>
</tr>
</tbody>
</table>

Elective courses may be taken at the discretion of the student and committee.

Core courses contribute 9.0 units toward the 30 unit minimum degree requirement.

Candidacy

To advance to candidacy, students, in consultation with their supervisory committee, will normally prepare a comprehensive reading list, a dissertation proposal, and two major papers (on topics relevant to the PhD research field and decided on by the committee with a focus on topics explored in the reading list). They will then sit for an oral examination related to the proposal and major papers. These requirements will normally be completed by the end of the second year of full-time study.

Dissertation

Students are required to prepare, submit and defend a dissertation. The dissertation is the culmination of intensive, independent and original research. Each student will have a supervisory committee, comprising three faculty members (to a maximum of four) including the supervisor and co-supervisor (where appropriate). At least one member of the committee (beyond the primary supervisor) will come from outside the School of Environmental Studies, as per the Faculty of Graduate Studies requirements. Supervisory committees will be formed no later than the end of the second term of the student’s program.

All committee members must be members of the Faculty of Graduate Studies.

The dissertation carries 21 units of credit.

Oral Examination

Once the dissertation is judged ready to defend by the supervisory committee, then an application is made for an oral defense. There are deadlines set by the Faculty of Graduate Studies for the timing of this defense. The supervisor will recommend an appropriate external examiner.
This member of the examining committee comes from another department or institution, normally has no input in the creation of the dissertation, and is an arms-length knowledgeable member. The oral examination is chaired by a neutral faculty member from a separate department, appointed directly by the Faculty of Graduate Studies.

Program Length
Most full-time students require 4 years to complete the program; part-time students will require 5-6 years to complete the program. Most full-time students require 4 years to complete the program; part-time students will require 5-6 years to complete the program. Interested students should contact the Environmental Studies Co-op office early in their first term. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

Concentration in Cultural, Social and Political Thought (CSPT)
This concentration is available to selected graduate students in English, Environmental Studies, History, Political Science, and Sociology. Students applying for an MA or PhD Program in Environmental Studies may also opt for a concentration in Cultural, Social and Political Thought (CSPT). Students must apply online, choosing the Concentration in Cultural, Social, and Political Thought option for Environmental Studies. If approved by the School, the application will be reviewed by the CSPT Admissions Committee. For full information about the program see <www.uvic.ca/interdisciplinary/cspt>. Students must meet the core graduating requirements of the individual departments as well as specific requirements of the CSPT Program. See also the entry for “Concentration in Cultural, Social and Political Thought (CSPT)”, page 120.

An approved Environmental Studies MA program with a CSPT concentration will include:
- 1.5 units of CSPT 501
- at least 1.5 units of CSPT 500
- 3.0 units of ES 500 and ES501
- 3.0 units of ES 503
- 1.5 units of ES 593
- a thesis worth from 7.5 units, on an approved topic within the field of cultural, social and political thought, under the direction of a supervisory committee including at least two participating CSPT faculty members, to a total of 18 units for the program as a whole including the thesis and CSPT course requirements.

An approved Environmental Studies PhD program with a CSPT Concentration will include:
- 1.5 units CSPT 601
- at least 1.5 units of CSPT 600
- 3.0 units of ES 600 and ES 601
- 3.0 units of ES 603
- 3.0 units of ES 693
- Successful completion of candidacy examinations with one of the two major papers in the field of CSPT.
- A dissertation worth 21 units on an approved topic within the field of cultural, social and political thought, under the direction of a supervisory committee including at least two participating CSPT faculty members.

Co-operative Education
Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and workplace experience – is optional for Master’s and PhD students. Master’s students complete two work terms, and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op co-ordinator, to participate in the Co-op program.

Exercise Science, Physical and Health Education

General Information
The School of Exercise Science, Physical and Health Education is an academic department within the Faculty of Education at the University of Victoria. Our mission is to transform and enrich the lives of individuals and communities by creating and sharing knowledge in the areas of exercise science, physical and health education. Prospective graduate students can find further information about our School and our programs on our website: <www.uvic.ca/education/exercise>.

Contact Information
School of Exercise Science, Physical and Health Education

Faculty Members and Areas of Research
Frederick I. Bell, EdD (North Carolina-Greensboro)
Teaching effectiveness in physical education, games teaching, assessment in games and gymnastics.

Catherine A. Gaul, PhD (Victoria)
Exercise physiology, pediatric sport performance, women and exercise, health benefits of exercise as medicine, occupational physiology, fitness testing and exercise prescription.

Sandra L. Gibbons, PhD (Oregon)
Team building through physical education, gender equity in physical education, affective domain in physical education, teaching effectiveness, classroom assessment in physical education.

Timothy F. Hopper, PhD (Alberta)
School integrated teaching education, teacher games for understanding and electronic portfolios. Action research and qualitative research genres. Social constructivism and
complexity theories.

Sandra R. Hunzda, PhD (Victoria)
Neural control of human movement; motor rehabilitation after injury (e.g. neurotrauma) and with disease and aging. Neural control of balance during walking and coordination of limbs and trunk during rhythmic movement (e.g., walking or cycling); assistive devices and technologies related to mobility.

Marc Klimstra, PhD (Victoria)
Biomechanics and motor control of human movement in sport, exercise and rehabilitation.

Olav E. Krigolson, PhD (Victoria)
Neuroeconomics, learning, decision-making, motor learning and control.

Lara Lauzon, PhD (Victoria)
Teacher wellness, college and university student health and wellness, organizational and workplace wellness, leadership, active health, and media and body image.

John Meldrum, PhD (Waterloo)
Sport and recreation administration, leadership and coaching, serious leisure and leisure behaviour.

Patti-Jean Naylor, PhD (Victoria)
Socio-ecological and setting-based approaches to health promotion, obesity and chronic disease prevention, dissemination, knowledge translation/exchange, implementation and organizational capacity.

Douglas R. Nichols, PhD (Oregon)
Outdoor recreation and leisure for special populations, recreation administration, environmental interpretation.

Ryan Rhodes, PhD (Alberta)
Behavioural medicine, psychology of physical activity and sedentary behaviour, social cognitive and personality theories of health behaviour, research methods, and psychometrics.

Lynne A. Stuart-Hill, PhD (British Columbia)
Exercise hematology and immunology, occupational physiology, development of pre-employment physical abilities tests, children and exercise, exercise prescription.

Vivienne A. Temple, PhD (Royal Melbourne Institute of Technology)
Physical activity for people with disabilities and disadvantaged groups; inclusive pedagogy, movement skills of children.

S. Joan Wharf Higgins, PhD (British Columbia)
Health literacy; community-based research; health promotion policy and practice; qualitative research design and methodology; social marketing; determinants of population health.

E. Paul Zehr, PhD (Alberta)
Neural control of human movement; neural mechanisms of arm and leg coordination during rhythmic movement; neuromuscular plasticity associated with training and rehabilitation.

**Degrees and Specializations Offered**
The School of Exercise Science, Physical and Health Education offers master’s programs leading to the following degrees:

- MA Physical Education
- MA Leisure Service Administration
- MA Kinesiology
- MEd Coaching Studies (Cooperative Education)
- MSc Kinesiology
- PhD Kinesiology

**Facilities**
McKinnon Building: classrooms, undergraduate anatomy and physiology teaching labs, human physiology research lab, gymnasiuims, pool, dance studio, Institute of Applied Physical Activity, Motion & Mobility Rehab and Movement Knowledge Labs.

Laurin Building: rehabilitation neuroscience lab, behavioural medicine lab.

**Financial Support**
All eligible graduate students are encouraged to apply for funding from provincial, federal and external sources. The School of Exercise Science, Physical and Health Education cannot guarantee funding although it is our intention that all graduate students in the first two years of their programs could receive some financial support. This may come in several ways.

**University Fellowships**
Students who have an A- (7.0 on the UVic grading scale) may qualify for a University Fellowship valued at approximately $12,000.

**Sessional Lecturers/Laboratory Instructors/ Academic Assistants**
These unionized positions are advertised on the notice board near the Exercise Science, Physical and Health Education General Office and listed on the Exercise Science, Physical and Health Education website at: <www.uvic.ca/education/exercise/graduate/graduate/specialist>.

**Research Assistants**
Individual faculty members with external research grants may employ graduate students as research assistants. The details about these appointments (salary, hours, etc.) are worked out between the individual graduate student and the faculty member.

**Admission Requirements**

**General**
Potential applicants may contact the Graduate Adviser of the School of Exercise Science, Physical and Health Education for application information. However, to pursue formal admission, the student must complete the application provided on the Graduate Admissions and Records Office website <registrar.uvic.ca/grad>.

**Admission To Master’s Programs**
In addition to the requirements required by the Faculty of Graduate Studies, admission to the master’s graduate programs in the School of Exercise Science, Physical and Health Education requires an undergraduate degree in Exercise Science, Physical and Health Education or related field. Applicants to all MA and MSc programs should include a Letter of Intent, which states their specific area of research interest, include a brief statement of academic and career goals, and identify a faculty member as a possible supervisor. MEd Coaching Studies applicants should include a resume of their coaching experience and certification levels. Copies of certificates are required as proof of certification.

**Admission to the Doctoral Program**
In addition to the requirements of the Faculty of Graduate Studies, admission to the doctoral program in the School of Exercise Science, Physical and Health Education includes a master’s degree in kinesiology or related field, a letter describing the proposed research topic, two academic referees and a current curriculum vitae.

**Deadlines**
Applications may be received at any time, but see specific deadlines below. Early application is appreciated.

January 15:
- For applicants to the School of Exercise Science, Physical and Health Education MEd Coaching Studies degree who are seeking admission the following September.
- For applicants to the School of Exercise Science, Physical and Health Education PhD program who are seeking admission the following September.

April 15:
- For applicants to the School of Exercise Science, Physical and Health Education MEd Coaching Studies degree who are seeking admission the following July.

**Program Requirements**

**Master of Science in Kinesiology (MSc) – Thesis Option**
This program is predicated on the "Inquiry Approach," allowing students to examine issues and questions related to the specific subdiscipline areas. The design of the program allows for considerable flexibility permitting students to pursue their area of interest under the guidance and advice of their supervisor. A thesis, subject to oral examination, is required.

**Program Requirements: Total = 18 units**

Doctor of Philosophy in Kinesiology (PhD) – Dissertation

The PhD program in Kinesiology is a research-oriented program designed for students who wish to obtain positions at colleges and universities, work in provincial and federal ministries and other public and private organizations.

Program requirements: Total = 30 units

EPHE 673 .............................................. 3.0
Electives (to be determined) ....................... 6.0
EPHE 693 (Candidacy Exam) ..................... 3.0
EPHE 699 (Dissertation) .......................... 18.0

1. Electives will normally be at the graduate level and will be identified with the approval of the supervisor and in consultation with the supervisory committee. Up to 3.0 units of upper level, undergraduate course work may be used toward the degree with the approval of the supervisor and supervisory committee.

2. The candidacy exam will be comprised of two parts: (i) a written part that will include three scholarly papers that are submitted to the supervisory committee. The topics for the papers will be determined in consultation with the supervisor and supervisory committee. (ii) an oral part in which the candidate will present and defend the three written papers to the supervisory committee.

Program Length

At least two years.

Co-operative Education

Participation in the Co-operative Education program - which is a process of education that integrates students' academic studies with knowledge, practical skills for employment, and workplace experience - is a mandatory component of the MEd Coaching Studies program.

Co-operative education is optional for Master's and PhD students in other graduate programs in Exercise Science, Physical and Health Education.

Master's students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. In the optional programs, students require permission from their academic adviser and graduate adviser, as well as the Co-op coordinator, to participate in the Co-op program. Interested students should contact the Exercise Science, Physical and Health Education Co-op office early in the term in which they are applying. Students are also referred to "General Regulations: Graduate Co-op" on page 34.

French

GENERAL INFORMATION

Faculty members in the Department of French have wide-ranging research and teaching interests in French, Quebec, French-Canadian, African and Caribbean literatures, culture and cinema, as well as in linguistics and applied linguistics.

For more information, please consult our website at <www.uvic.ca/umanities/french>.

Faculty Members and Areas of Research

Claire Carlin, PhD (Calif, Santa Barbara)
Early modern French culture, gender studies, digital humanities

Catherine Caws, PhD (British Columbia)
Second language teaching, computer-assisted language learning, lexicology

Hélène Cazes, Doctorat ès lettres (Paris)
French Medieval and Renaissance literatures and cultures, Humanism, Cultural Legacies

Emile Fromet de Rosnay, PhD (Queen's), Graduate Adviser
19th to 20th Century French and comparative literature, Romanticism, modernist poetics

Emmanuel Hérique, D de l'École cycle (Nancy)
French linguistics, translation, phonetics

Marc Lapprand, PhD (Toronto)
Literary theory, aesthetics, modernism and avant-gardes in French literature

Catherine Léger, PhD (UQAM)
Syntax, semantics, contact linguistics, French in North America

Stephen Martin, PhD (Virginia)
Second language teaching, Medieval French language and literature, editorial theory

Sada Niang, PhD (York)
African and Caribbean literatures, African cinema
Degrees and Specializations Offered

The Department of French offers a program leading to the degree of Master of Arts in French Literature, Language and Culture.

Facilities

UVic’s McPherson Library constitutes a solid resource for graduate research in all areas of French Studies. It has 1,900,000 volumes, 1,900,000 items in microfiche, over 50,000 records, tapes, compact discs; 32,000 scores and 6,500 films, videos and DVDs. There are 12,000 current periodical subscriptions including over 2,600 e-journals. There are 137 on staff, including 26 librarians, among whom one librarian for the French collection. A highly efficient inter-library loan service offers access to any materials not available locally. The department provides office space and computer facilities to its graduate students, and has a Reading Room containing reference materials and a computer.

Financial Support

Consideration for financial aid is automatic upon receipt of applications by February 15. Funding is available through the competitive University Fellowship up to a value of $15,000 and may be held for one year, subject to academic performance and full-time enrolment. All eligible applicants are encouraged to and assisted in applying for funding to provincial, federal, and external sources. Please, see the information provided by the Faculty of Graduate Studies at <www.uvic.ca/grad>. Competitive funding is also available for research and teaching assistants through the department for incoming and continuing students. The amounts may vary from year to year and students are encouraged to apply early.

Admission Requirements

General

Candidates must meet all the general requirements of the University of Victoria Faculty of Graduate Studies <registrar.uvic.ca/grad> as well as the specific requirements of the Department of French. There are three possible entry points – September, January and May – although students entering the program after September may have fewer opportunities for financial aid. FRAN 500, the compulsory course for the French MA degree program, is generally offered in the fall semester.

MA in French Literature, Language & Culture

Admission to either the thesis or the project-based program requires a BA degree in French, or equivalent, with a minimum overall average GPA of 6.5 in third- and fourth-year French courses. This qualification should consist of a minimum of 15 units of senior undergraduate course work in French which would normally include a methodology course and an advanced language course (equivalent to FRAN 390 and FRAN 402 at UVic).

Students with background deficiencies may be required to make up courses before being admitted to the MA program and will then normally require two years for the completion of the degree.

Deadlines

Applications are considered year round. However, to be considered for a UVic Fellowship for September, applications must normally be received by February 15.

Program Requirements

The department offers one MA program in French Literature, Language & Culture, comprising a minimum of 15 units of graduate credit:

- project-based option, designed to be completed in one calendar year
- thesis option, designed to be completed in two years

Project-based Option

1. FRAN 500 (1.5 units)
2. 10.5 units of course work, up to 3.0 units of which may be taken outside the department, but no more than 1.5 units at the senior undergraduate level
3. FRAN 598 (3.0 units): Reading List compiled in consultation with advisers; critical paper and oral examination.
4. A reading knowledge of English and of another appropriate language, in addition to French and English.

The Reading List will normally consist of 30 titles covering a period (e.g., a century), a genre (e.g., drama), a movement (e.g., Surrealism), or a specific topic. Originating in one or more of each student's courses, the list will offer the student the possibility of specialization in a chosen field and preparation for further study. Evaluation will be by oral examination. The examiners will assess the student's ability to express himself or herself in a literate and critical way, and to synthesize an extensive amount of reading. The critical paper will be the focus of the oral examination.

Thesis Option

The thesis option is normally by invitation of the departmental Graduate Committee:

1. FRAN 500 (1.5 units)
2. 7.5 units of course work, up to 3.0 units of which may be taken outside the department, but no more than 1.5 units at the senior undergraduate level.
3. FRAN 599 (6.0 units): thesis (25,000 word maximum) and an oral defense. The thesis topic selected by the candidate must have the approval of both the Supervisory Committee and the Graduate Committee. This regulation also applies to any substantial change from the approved topic which the candidate may wish to make in the course of his or her research.
4. A reading knowledge of English and of another appropriate language, in addition to French and English.

Co-operative Education

Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master's and PhD students. Master's students complete two work terms, and PhD students complete three (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to "General Regulations: Graduate Co-op" on page 34.

Faculty Members and Areas of Research

David Atkinson, PhD (Ottawa)
Analysis of weather data, Investigating high-latitude storm and storm track dynamics

Rosaline Canessa, PhD (Victoria)
Coastal zone management, marine protected areas, GIS decision making

Denise Cloutier, PhD (Guelph)
Health and aging, palliative care, population health, impacts of restructuring

Maycira Costa, PhD (Victoria)
Primary productivity, carbon budget, remote sensing, wetlands, coastal, Brazil

Stephen F. Cross, PhD (Stirling)
Environmental impacts and management of coastal aquaculture, marine ecology and coastal oceanography

Christopher Darimont, PhD (Victoria)
Ecological and evolutionary processes, natural and human caused, biological diversity

Philip Dearden, PhD (Victoria)
Resources, marine protected areas, conservation, Thailand

David Duffus, PhD (Victoria)
Biogeography, wildlife, marine

Mark S. Flaherty, PhD (McMaster)
Coastal zone management, mariculture, Thailand

Jutta Gutheret, PhD (Tubingen)
Development and Resources: social and environmental assessment, public policies, urban and rural development; participatory approaches, Brazil

Michael Hayes, PhD (McMaster)
Social geographies of health, health inequities and urban structure

Dennis Jelinski, PhD (Simon Fraser)
Landscape ecology, biogeography, conservation of biodiversity

C. Peter Keller, PhD (Western)
GIS, Decision making, cartography, tourism

Michele-Lee Moore, PhD (Wilfrid Laurier)
Global, national and provincial water policy networks, resilience of social-ecological systems, social innovation, environmental security

Trisaly Nelson, PhD (Wilfrid Laurier)
Geomatics, advanced spatial analysis, spatial statistics, GIS

K. Olaf Niemann, PhD (Alberta)
Remote sensing, geomorphology

Ian J. O’Connell, PhD (Victoria)
GIS, cartography, surveying

Aleck Ostry, PhD (British Columbia)
Health research in rural and northern communities, nutritional health issues

Daniel Peters, PhD (Trent)
Assessment of climate variability/change, land-use change and flow regulation impacts on hydrological systems in Canada.

Terry Prowse, PhD (Canterbury)
Climate impacts on hydrology and aquatic ecosystems

Reuben Rose-Redwood, PhD (Pennsylvania)
Urban geography, cultural landscape studies, history of geographical thought

Randall Scharien, PhD (Calgary)
Microwave remote sensing, Arctic and Antarctic

Dan J. Smith, PhD (Alberta)
Geomorphology, dendrochronology

Simon Springer, PhD (British Columbia)
Political and development geographies

Ian Walker, PhD (Guelph)
Sediment transport and erosion: coastal, desert, rivers, dunec

Frederick J. Wrona, PhD (Calgary)
Aquatic ecology and eco-toxicology, biostatistics and quantitative ecology

Adjuncts and Cross-Listed Appointments

René L. Alfaro, PhD (SFU)
Quantifying pest damage to forests of BC; genetic resistance to pests

S. Jean Birks, PhD (Waterloo)
Development and application of isotope tracer techniques to understand the hydrological cycle

Barry R. Bonsal, PhD (Saskatchewan)
Climatology, Western Canada

Charles Burnett, PhD (Turku)
Spatial modelling, remote sensing, GIS

Habib Chaudhury, PhD (Wisconsin)
Gerontology, research on personhood in dementia

John Clague, PhD (British Columbia)
Earth sciences, quaternary science

Robert Crabtree, PhD (Idaho)
Ecological forecasting; ecosystem and population ecology; predator-prey relations and behavioral ecology

Yonas Dibike, PhD (Delft)
Hydro-climatology, hydrology and water resources related environmental studies

Frank Duerrden, MA (Manitoba)
Urban geography, resource management, First Nations land allocation, planning and economic development, geography of Northern Canada

Cosmin Fillipescu, PhD (Guelph)
Ecotoxicology and aquatic food web ecology

Leslie T. Foster, PhD (Toronto)
Medical geography

Hugh French, PhD (Southampton)
Fluvial and periglacial geomorphology

James S. Gardner, PhD (McGill)
Geomorphology, natural hazards and resource management in mountain areas

John Gibson, PhD (Waterloo)
Isotope hydrology

Jim Gower, PhD (Cambridge)
Remote sensing

Ellen Hines, PhD (Victoria)
Environmental impacts and management of coastal resources

Sophia C. Johannessen, PhD (Dalhousie)
Ocean optics, carbon cycle, climate change

Leslie A. King, PhD (London School of Economics)
Natural resources and environmental studies

Gerald Kuzyk, PhD (Alberta)
Biology, research, management and conservation of ungulate species

Olay Lian, PhD (Western Ontario)
Quaternary environments, sedimentology, stratigraphy, geomorphology

Douglas G. Maynard, PhD (Saskatchewan)
Forestry, soil sustainability

Christiana Miewald, PhD (Kentucky)
Food security among vulnerable populations; rural and urban health issues; gender and economic restructuring

Grant Murray, PhD (Michigan)
Coastal communities, marine protected areas

Kurt Niquidet, PhD (Groningen)
Forestry economics

Paul Paquet, PhD (Alberta)
Interdisciplinary conservation

Christopher M. Pearce, PhD (Laval)
Coastal ecosystems and resources

Michael Phillips, PhD (West of England)
Coastal processes; coastal tourism; impacts of climate change

Clifford Robinson, PhD (British Columbia)
Marine protected areas, coastal ecosystems, ecosystem modelling

Rick Rollins, PhD (Washington)
Parks and protected areas, tourism and recreational behaviour, research methods

Mark Seemann, PhD (Victoria)
Disaster and emergency management; risk mitigation

Eleanor Setton, PhD (Victoria)
Environmental health, health geomatics

Janis Shandro, PhD (British Columbia)
International extractive sector; health impact
the above is available from the Faculty of Graduate Studies.

**Admission Requirements**

**General**
Admission to the departmental graduate program is normally granted only to students having Honours or Major degrees with first or second class standing in geography (at least a B+ average; 6.00 GPA). Students from the British Isles, for example, are expected to have obtained at least an upper second class Honours degree. A promising student lacking such qualifications may be allowed to make up this deficiency, being required to register as an unclassified student.

As part of the application requirements for graduate programs in Geography, all applicants must submit a brief letter of intent outlining their study background and areas of research interest.

Inquiries concerning the graduate program should be addressed to the Graduate Studies Adviser, Department of Geography via email at: gradadvisor@geog.uvic.ca. Further information about the department is available through the department's website: <www.geog.uvic.ca>. Application forms for admission, which include the indication of need for financial assistance, can be obtained directly from Graduate Admissions and Records website: <Registrar.uvic.ca/grad/ >.

**Deadlines**
There are three possible application dates to the Geography Graduate program: September, January and May, but completed applications must arrive three months before the expected entry date for Canadian applications. Because of visa requirements international students should complete the application process at least six months in advance. If a student is completing an undergraduate program, a letter of degree completion will be required. Applications received thereafter may be considered, providing space is available, or will be considered for admission on a following admission date.

If a student has successfully completed a core course, or one similar in topic, as part of an earlier degree requirement, that course must be replaced by another of equal unit value. The choice of course must be made in consultation with the supervisory committee. Approval for course replacement is requested via a memo from the Supervisor to the Graduate Adviser stating justification for the request, which must be approved by the Graduate Adviser.

**Program Requirements**

The graduate program is primarily research based and the final outcome of the program is the presentation and defense of a thesis or dissertation. The graduate program does require attendance at formal courses.

If a student has successfully completed a core course topic as part of an earlier degree requirement, that course must be replaced by another of equal unit value, the choice being made in consultation with the supervisory committee and approved by the Graduate Adviser.

All graduate students are expected to attend a field camp at the beginning of their studies, and to attend the department’s colloquium presentations during their residency period.

**Thesis-based Master’s Program**

**Course Requirements**
The Masters program requires a total of 19 units as follows:

1. a minimum of 7.5 units of coursework including:
   a) GEOG 500A (1.5) and 500B (1.5)
   b) one of GEOG 518, 523, 524 (1.5) or another ‘methods’ based course on recommendation of the supervisory committee as approved by the Graduate Adviser.
   c) one of GEOG 536, 537, 538, 539 (1.5)
   d) one of GEOG 591, 590 (1.5) or another special topics course on recommendation of the supervisory committee as approved by the Graduate Adviser.

Additional courses may be recommended on advice of the supervisory committee

2. GEOG 599 (11.5) Thesis

**Program Length**
The term of residency for Master’s students is normally two years.

**PhD Program**

**Course Requirements**
The Doctoral program requires a total of 31.5 units as follows:

1. a minimum of 7.5 units of coursework including:
   a) GEOG 500A (1.5) and 500B (1.5)
   b) one of GEOG 536, 537, 538, 539 (1.5) or another advanced course on recommendation of the supervisory committee and as approved by the Graduate Adviser.

Additional courses may be recommended on advice of the supervisory committee

2. GEOG 693 (3.0) (Candidacy Examination) during terms in which students are preparing for and writing their PhD Candidacy Examinations. PhD students in Geography must sit their Candidacy Exams by 18 months after entry into the program and no sooner than 6 months prior to the final oral examination

3. GEOG 699 (24.0) Dissertation

**Program Length**
The term of residency for PhD students is normally three years

**Co-operative Education**
Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and workplace experience – is optional for Master’s and PhD students. Research undertaken during the work term is intended to relate to the student’s research interest area. Master’s students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op coordinator, to participate in the Co-op program. Interested students should contact the Geography Co-op office early in their first term. Students are also referred to “General Regulations: Graduate Co-op” on page 34.
Germanic and Slavic Studies

GENERAL INFORMATION
The Department of Germanic and Slavic Studies is a small academic unit whose members bring a deep personal commitment to their work both as researchers and teachers. A graduate program in German has existed since 1991-1992. It covers the whole range of German literature from the Middle Ages to the present years, and its focus has sharpened on literary and culture studies of the last two centuries.
For further information or any updates please visit the department website.

Faculty Members and Areas of Research
Peter Götz, PhD (Queen's)
Literary theory; contemporary literature; CALL; film; vampires
Elena Pnevmonidou, PhD (McG)
Classicism and romanticism, literature of the Weimar period and expressionist film, literary theory and gender studies
Charlotte Schallie, PhD (Brit Col)
20th and 21st century German, Swiss and Austrian literature and culture; memory studies; diasporic writing; the Shoah in literature and film; ecocriticism
Ulf Schuetze, PhD (Brit Col)
Second language acquisition and pedagogy; intercultural communication; CALL; applied linguistics
Megan Swift, PhD (Toronto)
Russian modernism and postmodernism; Petersburg texts; narrative and genre theory; literature of emigration and exile
Helga Thorson, PhD (Minnesato)
Late 19th and early 20th century literature; German colonialism; women's literature; holocaust studies; foreign language pedagogy;

CALL
Serhy Telychky, PhD (Alberta)
Culture and identities in Russia and Eastern Europe; Stalinism; 20th century Ukraine

Associate Members
John Dingley, PhD (UCLA)
Russian language, Finnish language, Slavic linguistics, Nordo-Slavic contacts
Matthew Pollard, PhD (McG)
Heinrich von Kleist; cultural and film studies; expressionism; Leni Riefenstahl
Julia Rochtchina, PhD (Moscow)
Language pedagogy; information technology; e-learning

Emeritus
Nicholas Galichenko, PhD (McG)
Georgian cinema

Degrees and Specializations Offered
The department offers an MA in Germanic Studies. The department may also offer programs in Slavic Studies by Special Arrangement (see “Individual Graduate Programs by Special Arrangement (SPARR)”, page 20.)

Facilities
The University's library holdings are good and provide a solid basis for graduate research. A highly effective interlibrary loan service created by a special agreement among Western Universities offers easy access to any materials not available locally.
The department provides its graduate students with office space and computer facilities. In addition, there is a reading room well equipped with reference materials.

Financial Support
University of Victoria Fellowships ($10,000-$15,000) may be awarded annually to students of high academic standing registered full-time in the Faculty of Graduate Studies as candidates for the degree of MA.

Admission to the program normally requires a Bachelor's Degree (Major in Germanic Studies) with a minimum overall average of B+ (6.0 GPA), or a Bachelor's Degree (Major in Germanic Studies) with a minimum average of A- (7.0 GPA) in the final year's work.

PROGRAM REQUIREMENTS
Thesis-based Master's
Program Requirements
The MA program in Germanic Studies consists of a minimum of 15 units of graduate credit:
1. at least 9 units of course work, 3 of which may be drawn from courses in Germanic Studies at the senior undergraduate level, and write a thesis (minimum of 100 pages) worth 9 units. For this, the permission of both the Graduate Adviser and the Chair must be obtained.

Work as a research or teaching assistant is considered beneficial for all graduate students who wish to complete the program successfully.

Co-operative Education
Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master's and PhD students. Master's students complete two work terms, and PhD students complete three (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.
Greek and Roman Studies

GENERAL INFORMATION

The Department of Greek and Roman Studies offers programs of graduate study leading to the degrees of Master of Arts and Doctor of Philosophy. Both degrees offer specialization in Classical Languages and Literature, Ancient History, or Classical Archaeology. The two-year MA program consists of course work and the composition of a thesis. The MA thesis may be written in the areas of classical archaeology, ancient history, and Greek or Latin literature. The PhD program consists of course work in a series of reading, seminar, and topical field courses and the composition of a dissertation. The dissertation may be written in the same areas as the MA.

Additionally, the PhD program offers core focus in the following thematic areas: interconnectivity in the Mediterranean; technology in the ancient world; social and economic history; gender and identity studies. Prospective students can find further information on the department website: <web.uvic.ca/grs>.

Faculty Members and Areas of Research

Laurel M. Bowman, PhD (University of California, Los Angeles)
Greek tragedy, Hellenistic poetry, ancient religion

Brendan Burke, PhD (University of California, Los Angeles)
Aegean prehistory, Greek art and architecture, Anatolian archaeology

Ingrid E. Holmberg, PhD (Yale)
 Homer and early Greek poetry, critical theory, especially feminist

Geoffrey Kron, B.S.C., MA., PhD (Toronto)
 Greek democracy, Greek and Roman economy, agriculture and technology

Cedric A. J. Littlewood, DPhil (Oxford)
 Imperial Latin poetry, ancient literary criticism

John P. Oleson, PhD (Harvard), FRSC
 Ancient technology, maritime archaeology, Near Eastern archaeology

Gregory D. Rowe, DPhil (Oxford)
 Roman history, Greek and Latin epigraphy, Roman public and private law

Emeritus Faculty

David A. Campbell, MA (Glasgow), MA (Oxford)
 Greek lyric poetry

John G. Fitch, PhD (Cornell)
 Greek and Roman drama, esp. Seneca; Didactic poetry

Gordon S. Shrimpton, BA, MA (British Columbia), PhD (Stanford)
 Greek history and historical writing

Degrees and Specializations Offered

MA and PhD in Greek and Roman Studies, with specialization in archaeology, history, or languages and literature.

Facilities

The University's library has much material on ancient Greek and Roman culture; the department also has its own Reading Room with an excellent selection of primary and secondary texts. The department provides computing assistance to graduate students, which supplements the computing facilities available from the University. The department will frequently offer opportunities for students to participate in archaeological excavations in the Near East or Mediterranean, and the department also has a superb slide collection.

Financial Support

Consideration for financial aid is automatic upon receipt of applications for admission by February 1. Financial aid is available through the competitive University Fellowship, subject to satisfactory performance and full-time enrolment. All eligible applicants are encouraged to assist in applying for funding from provincial, federal and external sources; see the information provided by the Faculty of Graduate Studies <www.uvic.ca/grad>. Financial assistance for research assistants and teaching assistants is subject to department funding.

ADMISSION REQUIREMENTS

Admission to the Master's Program

The basic admission requirement is a four-year bachelor degree with at least a B+ (6.0) GPA in one of the several areas of ancient Greek and Roman Studies. All MA applicants must be able to demonstrate a well-rounded, comprehensive knowledge of the ancient Greek and Roman worlds. MA applicants should ideally have balanced strength in Greek and Latin, or substantial experience in one language and at least basic competence in the other. Competency in reading French, German or Italian upon admission is advantageous; students will be required to demonstrate reading knowledge of German and either French or Italian before completion of the MA degree. In addition to the documentation required by the Faculty of Graduate Studies (see "Faculty Admissions", page 17), the Department of Greek and Roman Studies also requires a statement of intent from each prospective MA student outlining the student's research interests.

Admission to the PhD Program

Applicants to the PhD program are normally required to hold a BA and MA degree in one of the several areas of ancient Greek and Roman Studies. They will be expected to have focused experience in the area relevant to their intended topic of research and appropriate command of the ancient languages of Greek and Latin. Competency in reading German and either French or Italian upon admission is advantageous; students will be required to demonstrate reading knowledge of German and either French or Italian before completion of the PhD degree. Applicants to the PhD program are normally expected to have achieved a minimum GPA of 7.0 (or equivalent) in their Master's program, to have strong letters of reference, to present a clear statement of research interests, and to submit an example of scholarly work.

September is the normal entry point; we do not normally accept students at any other time of year. Courses at the graduate level, with the exception of the MA thesis and the PhD candidacy examination and dissertation, are not normally offered in the summer.

Deadlines

The application deadline for consideration for financial aid, particularly for University of Victoria Fellowships, is February 1. MA applications received after February 1 will be considered, but applicants will not usually be eligible for funding. The application deadline is April 1 for September admission.

PROGRAM REQUIREMENTS

Thesis-based Master's

Course Requirements

The Department offers a 18-unit thesis-based program leading to the MA degree. In the first year, candidates will take a full load of course work for a total of 10.5 units. They will choose three from the following six fields of study: Greek Literature (GRS 501, 3.0 units); Greek History (GRS 502, 3.0 units); Latin Literature (GRS 503, 3.0 units); Roman History (GRS 504, 3.0 units); Ancient Art and Archaeology (GRS 505, 3.0 units); and Ancient Philosophy (GRS 506, 3.0 units). Candidates are also required to complete the Pro-seminar in Research Methods and Practices (GRS 500, 1.5 units). Candidates will be examined in their three fields at the end of the year, and achievement of a minimum grade of B+ in all three fields will be expected.

Other Requirements

Before graduation, students must demonstrate a reading knowledge of French, German or Italian. The level of proficiency will be equivalent to a B or better in the reading courses (such as GMST 405 or FRAN 300) offered by the respective language departments. Students may also fulfill the language requirement by passing the department's written translation examination. Examinations will normally be of two hours duration and may be written with the aid of a dictionary.

Thesis

In the second year, candidates will write a thesis (GRS 599), choosing their subject of research
from one of the three fields they have studied in the first year. The unit value of the thesis may range from 6 to 9 units but will normally be 7.5 units. The length of the thesis can vary considerably, but it is generally approximately 100 pages. A final oral examination of the thesis will be required.

Examination
The examination will be a combination of written and oral.

Program Length
The expected completion time for the master’s degree is two years. Part-time status may extend this completion time; funding, however, will normally not be available after the second year.

Phd program
1. All PhD students are required to take GRS 500, a requirement which can be satisfied either at the MA or the PhD level.
2. Students must complete 9 units of courses numbered 600 and above. Students are required to declare Classical Languages and Literature, Ancient History, or Classical Archaeology as their primary area of focus, and to complete the Reading Course or Courses which apply to that area of specialization: GRS 610A and 610B in literature for 1.5 units each (Greek and Latin literature respectively); 602A and 602B in history for 1.5 units each (Greek and Latin readings respectively); and 603 (readings in Greek and/or Latin) for archaeology for 1.5 units. Archaeologists will take 605, a methods and theory course, in place of a second semester of reading, for 1.5 units. Students then proceed to the seminar courses, in which they normally follow the curriculum for the areas of specialization for 3 units: 611 for literature; 612 for history; and 613 for archaeology. Students may, however, with the permission of the supervisor, take a seminar course outside their stream if it is beneficial for their research. Finally, students take a topical field course in their area of focus for 3 units: 621 for literature; 622 for history; and 623 for archaeology.
3. Students will complete a candidacy examination (GRS 693) for 3 units. As part of the candidacy examination, a dissertation prospectus must be approved by the student’s supervisory committee. Students will be required to display competence in German and either French or Italian through written exams.
4. Students write a dissertation of 18 units which they defend in an oral examination (GRS 699).

Co-operative Education
Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master’s students. Master's students complete two work terms (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to “General Regulations; Graduate Co-op” on page 34.

Health Information Science

GENERAL INFORMATION
Since 1981, the School of Health Information Science has led the way in health informatics education and research in Canada, and is considered by many a world leader in this field. The research and teaching strengths of the School include the planning, design, implementation, use and evaluation of health information systems in different healthcare settings.
For further information or any updates, please visit the School website: <uvic.ca/hsd/hisn>.

Abdul Roudsari, PhD (London), MSc (London), BSc (London), Professor and Director
Electronic Healthcare; Telecare; e-health
Omid Shabestari, PhD (London) MD (Tehran), Assistant Teaching Professor
Secondary use of health data; Business Intelligence; Health System analysis and design; Telemedicine; Health 2.0; Evaluation Research
Emeritus
Jochen R. Moehr, PhD (Hannover, Germany), MD (Marburg, Germany)
Hospital Information Systems; Medical Artificial Intelligence; Medical Records; Medical Coding; Factual Information Systems; Health Care Technology Evaluation; Preventive Medicine
Denis Protti, MSc (Manitoba), BSc (Alberta)
International Approaches to eHealth and the EHR; Health Care Information Management &Technology Strategic Planning; Chief Information Officers; Evaluation of Information Management & Technology; Physician Office EMR systems

Distributed Stream Adjunct Appointments
Jos Aarts, PhD (Rotterdam), MSc (Nijmegen), BSc (Nijmegen), Adjunct Assistant Professor
Jeff Barnett, MSc (Victoria), BSc (UBC), Adjunct Assistant Professor, UVic, Director of Clinical Informatics, Cancer Care, BC Cancer Agency, Adjunct Assistant Professor
Bruce Carleton, PharmD (Utah), BPPharm (Washington State), Director, Pharmaceutical Outcomes Programme, Children’s & Women’s Health Centre of BC, Adjunct Associate Professor
Michael Downing, MD (Western Ontario), Medical Director, Victoria Hospice Society, Adjunct Assistant Professor
Marlynnne Hebert, PhD (UBC), BSc (Alberta), Assistant Professor, Community Health Sciences, University of Calgary, Adjunct Assistant Professor
Mowafah House, BCom (Alberta), MEM (Toronto) PhD (Victoria), Adjunct Assistant Professor
Malcolm Mclure, SD (Harvard), SM (Harvard), BA (Oxford), Adjunct Professor
Morgan Price, PhD (Victoria), MD (Calgary), BSc (Victoria), Adjunct Assistant Professor

UVIC GRADUATE CALENDAR 2015-16

UVIC GRADUATE CALENDAR 2015-16
The School of Health Information Science offers courses of study leading to the degree of MSc and PhD, and, with the School of Nursing, a double-degree MN + MSc:
- On-campus Stream, MSc
- Distributed Stream (online), MSc
- Master of Nursing and Master of Science in Health Informatics (distributed), MN + MSc
- PhD in Health Informatics

Facilities
The School has excellent computer equipment, laboratories and technical support that enable faculty and students to engage in all aspects of health informatics research. The University library holdings in various subject areas of health informatics are comprehensive and up to date. In addition, the School has well established linkages to healthcare organizations within and outside of the province that allow faculty and students to conduct research in a variety of health related field settings.

Financial Support
Limited financial support is available to incoming students on a competitive basis. No separate application is necessary; the application for admission is also used for fellowship considerations. To be eligible, students must maintain continuous full-time registration during the tenure of award, and must have an outstanding academic record (usually a minimum GPA of 7.0 on a 9-point scale). Students may not hold another major award (e.g., CIHR) in conjunction with a UVic fellowship.

Students may apply for work as research assistants within the University by approaching faculty members directly. While there is no guarantee, additional funding may be available through teaching assistantships. All eligible students are encouraged to apply for funding from provincial, federal and external sources.

Professional Conduct
All students in the School of Health Information Science must follow the Faculty of Human and Social Development’s (HSD) Guidelines for Professional Conduct. The faculty supports models for professional conduct based on the following guidelines from the HSD website: [www.uvic.ca/hsd/assets/docs/pdf/policies/hsd_professional_conduct.pdf].

ADMISSION REQUIREMENTS
The admission selection process is competitive, and enrolment may be restricted in any given year. Candidates should apply directly via the Graduate Admissions and Records website at [www.uvic.ca/graduatemaster/admissions]. All applications are first reviewed by the Graduate Admissions and Records Office and then by the School Graduate Committee. Only applicants who satisfy the entrance requirements of the Faculty of Graduate Studies and the School will be considered. Not all applicants who meet the minimum requirements can be admitted. There are two entry points for the distributed (online) MSc stream and on-campus MSc stream each year: in January and September. For the Double Degree Master of Nursing and Master of Science in Health Informatics program (distributed) there is one entry point: in September of each academic year. The PhD in Health Informatics has one entry point in September of each academic year.

Admission to Master’s Programs
Provide two Assessment Reports from academic referees. To strengthen your application, we recommend that your referees attach a Letter of Reference in addition to the Assessment Report. If it has been more than five years since you last attended a post-secondary institution, we recommend that you include two Assessment Reports from current or former employers in place of academic referees.

A personal résumé should include your education background, employment history, professional/academic affiliations and other achievements such as publications or awards, up to a maximum of 4 pages.

A letter of intended study describing why you should be considered for enrolment, how you will use the knowledge learned in your workplace, and in what ways will the program improve/change your personal career.

If you are accepted into the distributed MSc stream, you will NOT be able to switch into other streams or programs. In fact, you will need to first withdraw from your program and reapply to UVic if you want to switch streams or programs.

For international students
You should plan to stay in Victoria only for the scheduled workshops; the 2-week workshop is in the summer term. We expect you to return to your country after this workshop to continue working for your current employer and not to remain in Canada.

On-Campus MSc Stream
Bachelor’s degree standing from an accredited institution in BC, other Canadian provinces and abroad will be eligible to apply for admission into the program. Those with a non-health or non-IT related bachelor’s degree will be considered, provided they have passed the 100 and 200 level undergraduate Health Information Science (HINF) courses or their equivalents, as well as have preferably completed one Co-op education work term. Those with relevant health IT work experience may have some of the undergraduate course requirements waived.

Distributed MSc Stream
This is a distance learning, online education program. It typically requires at least two years of relevant work experience as well as a bachelor’s degree standing from an accredited institution in BC, other Canadian provinces and programs. Application guidelines and links to the Faculty of Graduate Studies application form are available on the School of Nursing and School of Health Information websites.

Admission to the PhD program
Admission will be limited to students already holding a Master’s degree in health informatics or related field. Students will be expected to enter the program as a cohort in September. Doctoral students recruited will have research interests that link closely with the faculty’s areas of specialization. The program requires full-time enrolment.

In addition to the Faculty of Graduate Studies’ application requirements, the School also requires the following:
- Three letters of reference, at least two of which are from academics who can assess the applicant’s capacity to conduct independent scholarly work
- CV that summarizes education, work experience, research, publications, awards and distinctions
- Sample publications or conference proceedings (if available) – For each publication or proceeding, please include the full citation, indicate the percentage (%) contribution, your role, and an electronic copy (preferably PDF).
- Thesis (if available) – For the thesis, please provide an electronic copy (preferably PDF).
- Statement letter summarizing why the applicant is interested in earning the PhD in Health Informatics; research interests; expectations of program; and if contact has been made with any faculty member regarding possible supervisory commitment.

Deadlines
For the distributed (online) and on-campus MSc programs, the deadlines for applications are April 1 for January entry and December 1 for September entry. For the PhD in Health Informatics, the deadline is December 1 for September entry.

PROGRAM REQUIREMENTS
The MSc program is designed as an intensive 2-year program. All course requirements must be completed prior to proceeding to the final oral examination.

On-Campus MSc Stream
The MSc degree in Health Informatics requires a minimum of 16.5 units of course work, including a research project or thesis. The program of study will include graduate level health informatics courses from within the School, and may
include graduate elective courses from other departments within UVic.

Most graduate courses are offered online via distance education technologies, with no on-site class meetings scheduled.

The program of study will include the following requirements:

**MSc – Thesis option:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>HINF 580</td>
<td>1.5</td>
<td>Health Informatics Graduate Seminar</td>
</tr>
<tr>
<td>HINF 503</td>
<td>1.5</td>
<td>Research Methods in Health Informatics</td>
</tr>
<tr>
<td>HINF 599</td>
<td>6.0</td>
<td>Thesis</td>
</tr>
</tbody>
</table>

A minimum of 7.5 units from the list of HINF electives.

**MSc – Research Project Option:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>HINF 580</td>
<td>1.5</td>
<td>Health Informatics Graduate Seminar</td>

<td>Research Methods in Health Informatics</td>
</tr>
<tr>
<td>HINF 598</td>
<td>3.0</td>
<td>Research Project</td>
</tr>
</tbody>
</table>

A minimum of 10.5 units from the list of HINF electives.

**Distributed MSc Stream**

The MSc degree in Health Informatics requires a minimum of 16.5 units of course work, including� research project or thesis. Distributed stream students are also required to attend a two-week on-campus workshop in year one. The program of study will include the following requirements:

**MSc - Thesis Option:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>HINF 503</td>
<td>1.5</td>
<td>Research Methods in HI</td>
</tr>
<tr>
<td>HINF 599</td>
<td>6.0</td>
<td>Thesis</td>
</tr>
</tbody>
</table>

A minimum of 9 units from the list of HINF electives.

**MSc - Research Project Option:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>HINF 503</td>
<td>1.5</td>
<td>Research Methods in Health Informatics</td>
</tr>
<tr>
<td>HINF 598</td>
<td>3.0</td>
<td>Research Project</td>
</tr>
</tbody>
</table>

A minimum of 12 units from the list of HINF electives.

**HINF Electives:**

Electives offered vary from year to year. Students should consult with the School for details. With permission of the course instructor and the School of Health Information Science, electives may include graduate level courses relevant to your program from other UVic departments.

<table>
<thead>

**HINF 551** (1.5) Electronic Health Record
**HINF 552** (1.5) Evaluation of e-Health Initiatives
**HINF 553** (1.5) E-Health Sustainability
**HINF 554** (1.5) Critical Appraisal of the Health Sciences Literature
**HINF 560** (1.5) Health Care Quality Improvement
**HINF 561** (1.5) Project Management in Health Informatics
**HINF 562** (1.5) Procurement in Health Informatics
**HINF 570** (1.5) Epidemiology in Health Services Management
**HINF 571** (1.5) Health Systems Data Analysis
**HINF 572** (1.5) Health Informatics: An Overview
**HINF 573** (1.5) Applied Biostatistics
**HINF 575** (1.5) Human Factors in Healthcare
**HINF 580** (1.5) Health Informatics Graduate Seminar (elective for distributed students only)
**HINF 590** (1.5) Directed Studies in Health Informatics (may be taken more than once)
**HINF 591** (1.5) Topics in Health Informatics (may be taken more than once)

**On-Campus Stream Sample Model Program – Thesis Option:**

A model program is included to show the proposed course sequencing over a 2-year period:

**Year 1:**
- HINF 599; HINF 580; HINF 503; HINF Electives

**Year 2:**
- HINF 599; HINF Electives

**On-Campus Stream Sample Model Program – Research Project Option:**

**Year 1:**
- HINF 598; HINF 503; HINF 580; HINF electives

**Year 2:**
- HINF 598 cont’d; HINF electives

**Distributed Stream Sample Model Program – Thesis Option:**

**Year 1:**
- HINF 599; HINF 503; HINF electives
- Summer Workshop: 2 weeks in year 1 at UVic. The workshop is part of two 1.5 unit courses and is on-campus (subject to change)

**Year 2:**
- HINF 599 cont’d; HINF electives

**Distributed Stream Sample Model Program – Research Project Option:**

**Year 1:**
- HINF 598; HINF 503; HINF electives
- Summer Workshop: 2 weeks in year 1 at UVic. The workshop is part of two 1.5 unit courses and is on-campus (subject to change)

**Year 2:**
- HINF 598 cont’d; HINF electives

**Oral Examination**

An oral examination is required for both the thesis and project options.

**Program Length**

The MSc in Health Informatics typically takes two years to complete with a maximum 5 year time limit. Failure to complete in two years will result in re-registration fees.

**Master of Nursing and Master of Science in Health Informatics: Double Degree Option**

The Double Degree option permits nurses who are interested in health information technology to develop graduate level competencies in both Nursing and Health Informatics. The option is intended to prepare nursing leaders with a background essential for working in the rapidly expanding field of nursing and health informatics. Graduates will be prepared to take leadership roles in informatics, telehealth, implementation of electronic health care records and other areas of emerging health technology.

**Course Requirements**

Students are required to complete 31.5 program units including an onsite program orientation prior to program commencement. In addition to completing 25.5 units of course work students will complete a 6 unit thesis. An oral examination of the thesis proposal as well as the completed thesis will be required. There are also two required cooperative learning experiences in this option. Cooperative learning experiences must usually be undertaken outside of a student's current employment setting.

The requirements for the double degree program are normally met through nine terms of full-time study. Students who have not completed the program within this time will be required to pay reregistration fees.

**Required core APN courses (6.0 units)**

- NURS 506 (1.5) Philosophical Knowledge and Advanced Practice Nursing
- NURS 507 (1.5) Theoretical Knowledge and Advanced Practice Nursing
- NURS 508 (1.5) Methodological Knowledge and Advanced Practice Nursing
- NURS 565 (0.5) Trends and Issues in Advanced Practice Nursing (one)
- NURS 566 (0.5) Trends and Issues in Advanced Practice Nursing (two)
- NURS 567 (0.5) Trends and Issues in Advanced Practice Nursing (three)

**NURS Electives (3.0)**

Nursing electives are listed at the end of the Nursing section.

**Required core HINF courses (6.0 units)**

- HINF 501 (1.5) Database Design
- HINF 503 (1.5) Research Methods in Health Informatics
- HINF 550 (1.5) Health Information Systems Design
- HINF 572 (1.5) Health Informatics: An Overview

**HINF Electives (3.0)**

Electives are chosen in consultation with the supervisors. HINF electives include, but are not limited to:
HINF 510 (1.5) Information Management and Technology
HINF 511 (1.5) Clinical Decision Support Systems
HINF 531 (1.5) Ethical and Legal Aspects of Health Informatics
HINF 551 (1.5) Electronic Health Record
HINF 560 (1.5) Health Care Quality Improvement
HINF 561 (1.5) Project Management in Health Informatics
HINF 562 (1.5) Procurement in Health Informatics
HINF 573 (1.5) Applied biostatistics
HINF 575 (1.5) Human Factors in Healthcare

Required Co-operative experience (6.0 units)
COOP (NURS) (3.0) Co-operative Experience Requirement
COOP (HINF) (3.0) Co-operative Experience Requirement

Required Thesis (7.5 units)
NURS 593 (1.5) Thesis Seminar
or
HINF 580 (1.5) Thesis Seminar
NUHI 599 (6.0) Thesis

PhD Program
Graduates of the program will be trained to plan and execute high quality research publishable in major academic journals; results of their research will advance the theory and practice of international Health/Medical Informatics. PhD students develop research competencies by completing course requirements and by working closely with faculty advisors on research projects. In addition to research, the PhD program will prepare students for senior and high-level careers in industry.

Program flexibility and the block teaching delivery method of the 600-level courses allow industry professionals to continue to hold professional positions while providing an on-campus experience to connect with fellow graduate students, the School, and University community. Students are required to travel to the UVic campus to attend in-class course components.

The goal of the PhD in Health Information is to prepare scholars who will discover and extend scientific knowledge that advances the science and practice in health informatics. Graduates of the PhD program are prepared to:
1. Assume leadership roles in informatics and health care
2. Generate new knowledge through research and testing of theory
3. Contribute to solutions that advance health care in a culturally diverse society
4. Translate research findings into practice and policy at multiple levels
5. Reflect an interdisciplinary perspective in research and scholarly endeavours

The PhD program requires the completion of a minimum of 39.0 units. This includes coursework, candidacy exam, and dissertation. The PhD program will typically take 3 years to complete. Normally, students will be expected to complete coursework within the first year of study. The program of study will include the following requirements:

- HINF 500-level elective (1.5)
- HINF 580 (1.5) Health Informatics Graduate Seminar
- HINF 602* (1.5) Theories in Health Informatics
- HINF 603* (1.5) Methods in Health Informatics
- HINF 693 (3.0) Candidacy Exam
- HINF 699 (30.0) PhD Dissertation

Students may take, as an elective, the Learning and Teaching in Higher Education Certificate Program (6.0 units).

* Students will be required to travel to Victoria to complete HINF 602 and HINF 603, as these will be delivered with one week intensive in-class component; additional course requirements are completed in the following weeks.

PhD students must complete all course requirements before proceeding to the candidacy exam.

Candidacy Exam Requirements:
Students must demonstrate essential breadth and in-depth knowledge in health informatics. Assessment of a student’s research ability will be determined by the successful completion of HINF 693 Candidacy Exam at the end of the third term or 12 months of the PhD program. As part of the candidacy exam, students will be required to submit a written report, normally between 30-50 pages, which forms the preliminary thesis proposal. The supervisory committee will assess the preliminary thesis proposal and oral presentation of the proposal.

The purpose of the candidacy examination is to confirm that the student:
1. Understands the research problem;
2. Is aware of the advanced literature in Health Informatics in the area of his or her specific research topic;
3. Has demonstrated capability to conduct the research;
4. Has a realistic research plan and schedule;
5. Is of PhD calibre.

Students will be evaluated and assigned a Pass/Fail for HINF 693 and will have two opportunities to pass each component of the candidacy exam (preliminary thesis proposal and oral exam). The second attempt to pass the Candidacy Exam must be made within three months of the first attempt. Students who fail to successfully complete the candidacy requirement after the second attempt will be required to leave the program.

Once the student successfully completes the candidacy requirement, they will work extensively with their supervisory committee to prepare a full dissertation proposal, typically within 6 months. As soon as the supervisory committee and student are satisfied that the dissertation proposal meets the standards of the Faculty of Graduate Studies and the School of Health Information Science, the student will apply for ethics approval or ethics waiver and begin dissertation research.

Oral Examination
Students will defend the completed dissertation in an oral examination in accordance with the regulations of the Faculty of Graduate Studies.

Program Length
Students are expected to complete their program by the end of the third year.

Co-operative Education
Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master’s and PhD students. Master’s students complete two work terms, and PhD students complete three (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Students require permission from their academic adviser and graduate adviser, as well as the Co-op coordinator, to participate in the Co-op program. Interested students should contact the Health Information Science Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

Master’s students in the double degree option must complete two work terms (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions.

UVIC CALENDAR MAY 2015
Hispanic and Italian Studies

General Information

The Department of Hispanic and Italian Studies offers a Master of Arts program with two streams: a "Hispanic Studies" stream and one in "Hispanic and Italian Studies.

The "Hispanic Studies" stream reflects the interdisciplinary nature of the department, which comprises studies in Peninsular Spanish and Latin American Studies. The "Hispanic and Italian Studies" stream reflects the above, but also includes the Italian component of the department, particularly in the area of Medieval to Renaissance Italian literature, which strongly influenced Peninsular Spanish Literature both of the Middle Ages and the Golden Age.

Research and teaching strengths include the Italian Middle Ages, the Spanish Middle Ages, the Spanish Golden Age, Colonial and 19th Century Latin American Literature, and 20th Century Latin American Literature to the present.

Phone: 250-721-7413

Faculty Members and Areas of Research

Gregory Peter Andrachuk, PhD (Toronto)
Medieval literature, especially sentimental romance and Cancionero poetry, religion and literature, especially Auto Sacramental

Maria Bettaglio, PhD (SUNY-Buffalo)
Twentieth-century Spanish and Italian literature, women's studies, gender studies, critical theory, translation theory

Silvia Colás Cardona, PhD (Calgary)
Contemporary Cuban literature and culture, urban studies

Beatriz de Alba-Koch, PhD (Princeton)
Colonial and nineteenth-century Spanish American literature, especially Mexico

Joseph Grossi, PhD (Ohio State)
Regional identity in medieval literature of England and Italy

Lloyd H. Howard, PhD (Johs Hopkins)
Italian literature of the 13th and 14th centuries, especially Dante

Pablo Restrepo-Gautier, PhD (British Columbia)
Golden Age Spanish drama and literature, modern Peninsular Spanish narrative, modern Colombian narrative, humour studies, gender studies

Dan Russek, PhD (Chicago)
Modern and contemporary Latin American literature, literature and visual arts

Degrees and Specializations Offered

The Department of Hispanic and Italian Studies offers programs leading to the degrees of Master of Arts in Hispanic Studies and Master of Arts in Hispanic and Italian Studies, both in a thesis and project-based option.

Facilities

Department Research Library.

Financial Support

Each year, subject to available funding, entering students are eligible for University graduate funding up to $15,000 per year, tenable for two years. Qualified students entering the program may be hired as teaching assistants with funds available for up to two courses annually to be taught by graduate students at a value of approximately $5,000 per course. Eligible students are expected to apply for funding from provincial, federal and external sources, specifically SSHRC.

Admission Requirements

General

All candidates for these degrees must meet all the general requirements of the Faculty of Graduate Studies as well as the specific requirements of the Department of Hispanic and Italian Studies.

Students may be admitted commencing September only of each year. Graduate course offerings in the summer period are limited.

In addition to the documentation required by the Faculty of Graduate Studies (see "Faculty Admissions", page 17), the Department of Hispanic and Italian Studies also requires a statement of research intent.

Admission To Master's Programs

Admission to the thesis or project-based programs requires a bachelor's degree (Major in Hispanic Studies or Hispanic and Italian Studies or equivalent) with a minimum overall average of B+ (6.0 GPA) or a bachelor's degree (Major in Hispanic Studies or Hispanic and Italian Studies) with a minimum average of A- (7.0 GPA) in the final year’s work. Students with background deficiencies in Hispanic Studies or, if relevant, Italian Studies will be required to make up courses before being admitted to the MA program.

Deadlines

Applications must be received in the Graduate Admissions and Records Office by February 15. International applicants are advised to apply earlier.

Program Requirements

The department offers two options towards the MA in both Hispanic Studies and Hispanic and Italian Studies, each composed of 15 units of graduate credit.

The following core courses are required of all students: SPAN 500, Introduction to Bibliography and Methods of Research; SPAN 502, Core Reading List Course I; SPAN 503 or ITAL 503, Core Reading List Course II.

SPAN 502 will cover works taken from the general Hispanic Literature reading list; SPAN 503 or ITAL 503 will reflect the specialized area of the student's degree program and will be tailored to the specialty: Peninsular Studies; Latin American Studies; or Hispanic and Italian Studies. The other courses are variable in content and may be taken more than once, depending on the topic.

Thesis-based Master's

The thesis option is by invitation of the departmental Graduate Committee.

Course Requirements

9 units of credit to include: SPAN 500, 502 and 503 (or ITAL 503 for the MA in Hispanic and Italian Studies), 3 units of graduate-level courses within the department, and a further 1.5 unit graduate-level course from within the department or from outside (with the approval of the department).

Thesis

SPAN 599 (6 units): Master's Thesis and Oral Examination

Program Length

1.5 to 2 years.

Project-based Master's

Course Requirements

12 units of credit to include: SPAN 500, 502 and 503 (or ITAL 503 for the MA in Hispanic and Italian Studies), 6 units of graduate-level courses within the department, and a further 1.5 unit graduate-level course from within the department or from outside (with the approval of the department).

Final Project

SPAN 598 (3 units): Master's Essay and Oral Examination

Program Length

1.5 to 2 years.

Co-operative Education

Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master's students. Master's students complete two work terms (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.
**History**

**GENERAL INFORMATION**

The Department of History offers programs of graduate study leading to the degrees of Master of Arts and Doctor of Philosophy in a wide range of specialized areas. Programs require formal course work as set out in detail below. Course work is selected in consultation with the Graduate Adviser and the student’s supervisor. Attention is paid to both the specific research interests of the student and the need for exposure to diverse subjects and methodologies. Thesis MA and PhD students complete and defend a thesis or dissertation; project-based MA students complete an extended research paper.

**Faculty Members and Areas of Research**

Robert S. Alexander, PhD (Cambridge)  
Modern France; 19th century Europe; political history

Sara Beam, PhD (Berkeley)  
Francophone Europe 1450 - 1700; cultural and legal history

A. Perry Biddiscorne, PhD (London School of Economics)  
Modern Europe; nationalism

Gregory R. Blue, PhD (Cambridge)  
World history; intellectual/cultural history; pre-1949 Sino-Western relations; comparative colonialism

Paul Bramadat, PhD (McMaster)  
Religion in Canada, religion and public policy

Penny Bryden, PhD (York)  
Post-confederation Canada, political and constitutional history

Martin Bunton, DPhil (Oxford)  
World history; modern Middle East studies

Zhongping Chen, PhD (Hawaii)  
Late Imperial China, modern China, Chinese diaspora and Sino-Canadian relations

Rachel Cleves, PhD (Berkeley)  
Revolutionary and early national United States; cultural history

Jason M. Colby, PhD (Cornell)  
Post-1865 U.S. history; American foreign relations; race and empire

Peter Cook, PhD (McGill)  
Indigenous-settler relations in the early modern Atlantic world

Simon Devereaux, PhD (Toronto)  
18th and 19th century British criminal justice, political and cultural history

M.L. (Mariel) Grant, DPhil (Oxford)  
20th century Britain

Timothy S. Hackett, PhD (Toronto)  
Medieval social and legal history, medieval England

Mitchell Lewis Hammond, PhD (Virginia)  
Early modern Europe; history of medicine; urban history

John Lutz, PhD (Ottawa)  
Pacific Northwest; Aboriginal-non-Aboriginal relations, European colonialism in the Pacific; Race and Digital History

Lynne S. Marks, PhD (York)  
Canadian women’s and gender history, social history of religion, second wave feminism

Andrea McKenzie, PhD (Toronto)  
17th and 18th century English social, cultural and legal history

Christine O’Bonsawin, PhD (Western Ontario)  
Indigenous Studies; sport history

John Price, PhD (British Columbia)  
Modern Japanese; Asian history

Richard Rajala, PhD (York)  
British Columbia, environmental, labour

Eric W. Sagen, PhD (British Columbia)  
Family history, social and economic history

Thomas J. Saunders, PhD (Toronto)  
Modern Germany; 20th century European culture

Oliver Schmidtko, PhD (European University Institute)  
Modern Germany; immigration

Jordan Stanger-Ross, PhD (Pennsylvania)  
Canadian/American urban history; immigration, race/ethnicity; poverty and economic inequality in Canada

Elizabeth Vibert, DPhil (Oxford)  
British colonial history; gender, race, and poverty; South Africa

Jill Walshaw, PhD (Centre for 18th Century Studies, York, U.K.)  
17th and 18th century France; European and comparative peasant society; Cultural history; French Revolution

Wendy Wickwire, PhD (Wesleyan)  
Oral history; First Nations history

Paul Wood, PhD (Leeds)  
Early modern science; The Enlightenment in Europe

Guoguang Wu, PhD (Princeton)  
Political and diplomatic history of modern China, Hong Kong, and Taiwan

Serhy Yekelchyk, PhD (Alberta)  
Russian and Soviet history and culture; Modern Ukraine

David Zimmerman, PhD (New Brunswick)  
Military and naval history; science and technology

**Degrees and Specializations Offered**

MA, PhD

**Facilities**

Facilities are available for graduate work in Canadian, European, British, American, Middle Eastern, Japanese and Chinese history, and on a wide range of themes, among them political history, aboriginal history, military history, gender history, social history, cultural history, diplomatic history, intellectual history, comparative world history, labour history, history of science and historical demographics. Depending on geographic concentration, the department covers periods ranging from the medieval to the modern. Other areas and themes may be available; prospective students should consult the Graduate Adviser or a potential supervisor. The University’s McPherson Library has holdings in excess of one million volumes, and graduate students may also be granted access to the Provincial Library and Archives, which include notable manuscript collections relating to western Canada and the northwestern United States.

**Financial Support**

History students are eligible for University of Victoria Fellowships on a competitive basis. In addition, the department offers several scholarships of varying amounts. Teaching and research assistantships are also available on a competitive basis. Entering and continuing students are automatically considered for scholarships. Students must apply for assistantships. Because funds are limited and assistantships generally do not cover tuition costs, prospective students are encouraged to apply for external funding, most notably SSHRC (CGS) scholarships.

**ADMISSION REQUIREMENTS**

In addition to reference letters and transcripts required by the Faculty of Graduate Studies, students must send a letter to the Graduate Adviser in the History department outlining their particular area of interest within the field of History and their proposed thesis topic if they plan to do a PhD or a thesis MA. This letter need not be more than a page long. It will assist the department in determining whether or not it can provide appropriate supervision.

A minimum TOEFL (TWE included) score of 600 on the paper-based is required of all international students whose first language is not English.

**Admission to the Master’s Program**

Subject to the admission requirements of the Faculty of Graduate Studies, admission to the MA program normally requires a bachelor’s degree with a minimum overall average of B+ (6.0 GPA), or a bachelor’s degree with a minimum average of A- (7.0 GPA) in the final year’s work. Many students apply each year than can be accommodated in the program. A candidate with background deficiencies in History may be required to register for a year as a non-degree
undergraduate student before being admitted to the MA program.

Admission to the PhD Program
Admission to the PhD program normally requires a master's degree with a minimum average of A- in graduate courses.

Deadlines
Normally, students are admitted in September although in certain cases, it may be possible to enter the program in January. Most courses run from September to December and from January to April. It is not possible to do a graduate degree in History through Summer Sessions.

Students who wish to be considered for scholarships must submit their applications by February 1st. Other students should conform to the deadlines set by the Faculty of Graduate Studies. Late applications may be considered if space is available.

Admission is on a competitive basis. Not all students who meet the requirements will be admitted. The History department normally admits a total of 15-20 MA and PhD students each year.

PROGRAM REQUIREMENTS
All programs must be approved by the Graduate Adviser to insure balance and focus in the program of each student.

With the written permission of the Graduate Adviser, students may take a graduate course in another department if this is appropriate for their program.

All candidates for the MA and PhD degrees must demonstrate a reading knowledge of a second language acceptable to the department in order to qualify for graduation. This will normally be a language relevant to the student's research interests. The level of proficiency expected will be a passing grade in an approved reading course offered by the respective language departments. Students may also fulfill the language requirement by passing the department's written translation examination.

Note: Students will not be permitted to defend their theses until they have satisfied this language requirement.

Not all of the History graduate courses listed in the calendar will be offered in a particular year. All courses are variable content. With department permission, HSTR 501 to 591 may be taken more than once. Students should consult the department concerning specific content of the courses offered in any given year.

MA Program
The History department offers both a thesis-based MA and a project-based MA. In both programs, students must take HSTR 500 (Historiography) and 4.5 units of graduate History courses including at least 1.5 units in a topical field (usually HSTR 510 to 526) and 1.5 units in a geographical field (usually HSTR 501A to 509A).

Some courses may be counted as either geographical or topical fields. Please see <www.uvic.ca/history> for details or contact the Graduate Director. In both programs, at least one course must be outside the area of specialization.

Students in the thesis option will also take HSTR 599 (thesis); students in the project-based option will also complete an additional 1.5 units of course work, normally in a geographical field, plus HSTR 550 and HSTR 598 (Extended Research Paper).

Students who obtain a 5.0 grade point average but who obtain less than B standing in HSTR 500 must repeat HSTR 500. They may repeat HSTR 500 once only.

Part-time study is permitted, but the degree must be completed within five years of the initial registration.

Although there are no formal residence requirements, residence is recommended.

Thesis-based MA
Course requirements (Unit Values)
HSTR 500 ........................................ 1.5
Geographical Field Course .............. 1.5
Topical Field Course ....................... 1.5
Geographical or Topical Field Course .... 1.5
Thesis ........................................... 9.0
Total .......................................... 15.0

Other Requirements
At the end of the first month of their fourth term of registration, students must submit a short historiographical report on their thesis topic to their supervisor. This must include an explanation of how they plan to complete their research. If this report is not completed by the first month of the fifth term of registration, the student will be required to meet with his or her supervisor and the Graduate Adviser. If the report is not submitted within a week following this meeting, the student will normally be required to withdraw from the program by the end of the fifth term.

Thesis
The thesis length must be between 70 and 120 typed pages.

Program Length
The thesis MA is designed to be completed in two years.

Project-based MA
Course Requirements (Unit Values)
HSTR 500 ........................................ 1.5
HSTR 550 ........................................ 1.5
Geographical Field Courses .............. 3.0
Topical Field Course ....................... 1.5
Geographical or Topical Field Course .... 1.5
Major Research Paper .................... 6.0
Total .......................................... 15.0

At least 1.5 units must treat a geographical area outside that covered in the major research paper.

Final Project
Students will also complete a major research paper. This paper will normally be based on primary research and may emerge from a paper written for a graduate course other than HSTR 550. The major research paper must be 40-45 typed pages and will be written in the form of a journal article. It will be graded by the supervisor and an additional faculty member. This second reader will be approved by the Dean of Graduate Studies. This paper will not be subject to oral defense.

Program Length
The project-based MA is designed to be completed in one year.

PhD Program
The Doctoral degree requires credit in 7.5 units of graduate courses, including the historiographical/historical methods course (HSTR 500), comprehensive exams in one major and two minor fields, and completion of a dissertation. (Students who have completed HSTR 500 or its equivalent at the MA level will automatically be assigned credit for the course.)

PhD students are required to take enriched versions of three regular graduate courses, each worth 1.5 units of course-work, plus a 1.5 unit directed study course which will usually be organized by the student's supervisor. These enriched courses, which involve the same course work as students enrolled in the Masters version of the course plus additional assignments including an expanded list of readings, will be the basis for the "fields" in which they write comprehensive exams. Students choose three courses from the list of geographical and topical field courses and are strongly encouraged to choose from both. Geographical field courses are defined by territorial or regional boundaries. Topical field courses examine significant themes that cut across geographical or temporal boundaries, such as social, military, intellectual-cultural, family, women's, indigenous, gender, religious, colonial, world or maritime history. With the approval of the graduate adviser, students may also take a 1.5 unit course in another department.

Major and minor fields may be defined either topically or geographically. Normally students will choose one of the enriched courses and complement it with the directed study course to constitute their major field; the other two enriched courses will provide the basis for two minor fields of study. Students may also combine two linked enriched courses (i.e. Pre and Post Confederation Canada) into a major field and use the directed study course for a minor field.

Doctoral students are expected to take the three enriched courses in successive terms during the first fall, spring and second fall terms of their enrolment in the program and complete the written comprehensive exam following the conclusion of each course. The directed study course will normally be taken during the same term as the course serving as the basis for a student's major field and be examined as part of that field. In special cases, PhD students may be allowed, with the approval of the graduate adviser, to take two field courses in the same term, and write one of the comprehensive exams the following term. Students must pass all three comprehensive exams. A student failing only one comprehensive exam will be allowed to rewrite that one exam a single time.

After completing the written comprehensive exams, a doctoral student will make a presentation of his/her dissertation proposal to their supervisory committee at a meeting chaired by the graduate adviser. This process will normally occur during the spring term of a student's second year in the program. The proposal is graded on a pass/fail basis; that outcome is entered as the student's grade for HSTR 695. Students are allowed a second attempt should they fail the process on the first try. Highly motivated students who satisfy normal program...
requirements will be allowed to present their dissertation proposal before the spring of their second year, with permission of the graduate adviser.

During at least the first two years of the PhD program, students are expected to attend the Graduate Student Workshop series of presentations and departmental lectures on a regular basis.

**Concentration in Cultural, Social and Political Thought (CSPT)**

This interdisciplinary program is open to selected MA and PhD students in English, History, Political Science and Sociology. Students must meet the core graduating requirement of the individual departments. The Graduate Adviser in each department should be consulted for details.

To complete the CSPT MA program in History, a student must complete:

- 3 units of CSPT 500
- 15 units as required in the History MA program (including HSTR 500 and the master's language requirement)

The MA thesis (HSTR 599) must be in the field of CSPT.

Descriptions of CSPT 500 and CSPT 590 are found in the course listings.

Admission to the CSPT program is subject to the written approval of the Program Director. Applicants must already have been accepted into the MA program in History.

The requirements for the program in the Departments of English, Political Science and Sociology differ from those in History.

For information about the doctoral program in CSPT and History, please consult the History Graduate Adviser.

See also the entry for “Concentration in Cultural, Social and Political Thought (CSPT)”, page 120.

**Graduate Professional Certificate in Cultural Heritage Studies**

For Master’s students interested in careers in museum work, public history or historical preservation, our program will be partnering with the Division of Continuing Studies and Faculty of Fine Arts in support of the Graduate Professional Certificate in Cultural Heritage Studies. Students will get MA course credit for one of five Certificate courses that they can take in pursuit of a professional certificate in cultural heritage. One of the four remaining courses may be taken as an internship to build professional experience. For more information please consult the Graduate Adviser.

**Co-operative Education**

Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master’s and PhD students. Master’s students complete two work terms, and PhD students complete three (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.
Degrees and Specializations Offered
Indigenous Education in partnership with the Department of Linguistics offers programs leading to:
- Graduate Certificate in Indigenous Language Revitalization
- Master of Arts in Indigenous Language Revitalization
- Master of Education in Indigenous Language Revitalization.

Facilities
Multi-media laboratories and a curriculum library are housed within the MacLaurin Building. The Department of Linguistics is fully equipped for audio and video recording, editing, and analysis, and has facilities and personnel to support computer-based language learning and teaching. The First Peoples House located in the heart of the campus includes a student social gathering space, a reading room, a lunch room, and an Elders’ Lounge. Indigenous Education and the Department of Linguistics are affiliated with a number of research centres at UVIC, including the Centre for Youth and Society, the Centre for Early Childhood Research and Policy, and the provincial Indigenous Child Welfare Research Network.

Financial Support
All eligible graduate students are encouraged to apply for funding from provincial, federal and external sources. Please contact Indigenous Student Adviser for more information.

Admission Requirements
Admission to Master’s Programs
For applicants to all the Indigenous Education programs the admission requirements are:
- A baccalaureate degree (or equivalent degree from another country) from an accredited and recognized institution
- A grade point average of 5.0 (B) in the work of the last two years (30 units) leading to this baccalaureate degree
- Or, mature student category – 4 years professional experience since graduating with a baccalaureate degree
- Or, mature student admission with modified academic requirement as per the Exceptional Entry guidelines below

Applicants must submit two letters of reference (the same two letters required for admission to Faculty of Graduate Studies), provided by two referees who can be a professional colleague, professor or other academic authority, or an Indigenous Language Authority.

Applicants must submit a statement of intent describing their interest in the program and how they plan to use the program to promote community development in Indigenous language and culture revitalization.

First priority will go to applicants who are proficient/literate or semi-proficient/literate in any Indigenous language.

Admission to the Graduate Certificate
For a limited time an exceptional entry is available to applicants to the graduate programs who have extensive expertise in the language and culture of their respective communities and have shown significant leadership in language and culture revitalization projects but do not hold a baccalaureate degree. Exceptional entry applications must provide a profile or CV and portfolio indicating previous education (certificates and diplomas), related professional experience, and training, an additional letter of reference attesting to the applicant’s level of fluency from an Indigenous Language Authority, as well as the regular application requirements to Graduate Studies. The evidence provided in the form of a profile and portfolio will be holistically considered, weighing the sum total of all previous education and experience for preparedness and suitability for the program.

Guidelines for profile and portfolio will be included in the application materials as well as posted on the Indigenous Education website. For further assistance with this requirement please contact the Indigenous Student Adviser. Applicants in this category are encouraged to begin preparation of the portfolio well in advance of the application and documentation deadlines in order to receive feedback and assistance from Indigenous Education in its preparation and submission for consideration by the Program Admissions Committee.

Students who have successfully completed the coursework for the certificate program may apply to transfer the coursework to the Master’s program. Students who choose to transfer to the degree program will not receive the certificate designation. Students who do not complete the Master’s program may apply to receive the certificate as an exit credential provided they have successfully completed the first two terms of the Master’s program.

It is expected that this condition will be applied for the first 5 years of the program only, from the year the program began.

Deadlines
Please note the following application deadlines for entry in summer term
- January 15: Application Deadline
- January 31: Document Deadline

Applications and documentation received after the deadline may be accepted by the Graduate Admissions and Records Office, but there is no guarantee that the application will be processed and evaluated in time for a decision on the desired entry point. Applicants who submit application forms or documentation after the deadlines do so at their own risk. Application Fees will not be refunded.

Program Requirements
The Graduate programs in Indigenous Language Revitalization are full-time programs delivered in a flexible format. Courses are offered variously as summer institute programs, and blended formats combining face-to-face course delivery and distance learning, minimizing the on-campus requirements. As these are cohort-based programs, all candidates for the Indigenous Language Revitalization programs must move together through the sets of courses.

Graduate Certificate in Indigenous Language Revitalization
The certificate is based on 6.0 units of course work and includes a small-scale community-based project as part of a community-based research course (LING/IED 531).

Program Unit Total: 6.0

Faculty Members and Areas of Research
Taiaiake Alfred, Professor and Director,
Indigenous Governance, PhD (Cornell)
Specialization in Indigenous governance traditions, First Nations politics,
Haudenosaunee history and culture, leadership, decolonization, nationalism,
political philosophy and cultural restoration.

Jeff Corntassel, Associate Professor, Indigenous Governance, PhD (Arizona)
Specialization in Indigenous political movements, community resurgence, global
Indigenous rights discourse, and sustainable self-determination.

Heidi Kiwetinepinesiik Stark, Assistant Professor,
Cross-Listed, Indigenous Governance, PhD (Minnesota)
Specialization in Indigenous comparative politics, Indigenous diplomacy and treaty
relations, Indigenous law and governance, and US/Canadian Indigenous law and policy.

Local Indigenous Advisory Council
Charles Elliott, Tsartlip
Myrna Crossley, Lekwungen
Cheryl Bryce, Lekwungen
Fran Powless, Mohawk Nation

Degrees and Specializations Offered
Master of Arts in Indigenous Governance.

Financial Support
Well-qualified applicants are eligible for a University Fellowship. Several teaching or research
assistantships may also be available, usually ranging from $3,600 to $4,200 for eight months
work. Additional TA ships may be available for the summer term. There are also several awards
that provide small numbers of exceptional or financially needy students with additional funds.

Please contact the Graduate Adviser of the department for additional details.

ADMISSION REQUIREMENTS

General
Indigenous Governance is committed to teaching and research that respects both western and
Indigenous traditions, methods and forms of knowledge. Through these programs, students
will gain an understanding of the philosophical, administrative, and political dimensions in-
volved in governing Indigenous communities, as well as a background in the theory, methods and
tools appropriate for and useful to research among Indigenous people.

The Master of Arts in Indigenous Governance is an interdisciplinary program that provides students
with a strong foundation of basic and applied scholarly research and a path to understand-
ging and politics among Indigenous peoples, with a special emphasis on the nature and context of Indigenous govern-
ments in Canada.

Admission To Master’s Programs
Faculty of Human and Social Development offers a full-time program of studies leading to
the degree of Master of Arts in Indigenous Governance. The Program aspires to educate stu-
dents who are grounded in a diverse body of knowledge to assume leadership and policy
making roles, or to continue their academic careers in a variety of fields including social science
and history, law or native studies.

Candidates will have a baccalaureate degree from a recognized university, or equivalent
qualifications with an academic standing ac-
ceptable to Indigenous Governance and the Fac-
ulty of Graduate Studies. Admission generally
requires at minimum a very high second class
standing (B+) in the two final years of the
undergraduate degree.

Deadlines
Please note that the application and documenta-
tion deadline for September admission is Janu-
ary 15.

All applications received by the application
deadline that meet the minimum GPA require-
ments will automatically be considered for
Fellowship funding.

Applications and documentation received after
the deadline may be accepted by the Graduate
Admissions and Records Office, but there is no
guarantee that the application will be processed
and evaluated in time for a decision for the de-
sired entry point. Applicants who submit appli-
cation forms or documentation after the dead-
lines do so at their own risk. Application Fees
will not be refunded.

PROGRAM REQUIREMENTS
The Master’s is a full time program delivered in
a flexible format. Courses are offered variously
as standard academic year graduate seminars,
summer institute programs and in more inten-
sive formats. All candidates for the MA degree
must commit to a 3.0 unit Mentorship with an
academic supervisor and complete a Community
Governance Project including an internship,
a written report, and an oral defense.
Students in the program must complete the following requirements:

- Indigenous Governance Core Credits ............. 6.0
- Mentorship Course Credits ...................... 3.0
- Elective Course Credits ......................... 1.5
- Community Governance Project .............. 4.5
- Total Degree Requirements: ....................... 15.0

Course Requirements

**Indigenous Governance Core Courses (6.0 units)**

- IGOV 520 (1.5) Indigenous Governance
- IGOV 530 (1.5) Indigenous Research Methods
- IGOV 540 (1.5) Indigenous Resurgence
- IGOV 550 (1.5) Indigenous Peoples and Self-Determination

**One-year Mentorship Course Credits**

- IGOV 575 (3.0) Mentorship

All students must register in a year-long Mentorship that will include weekly meetings with a faculty member to help guide the student’s research and support professional development.

**IGOV Elective Courses (1.5 units required)**

- IGOV 560 (1.5) Indigenous Peoples and Globalization
- IGOV 570 (1.5) Indigenous Women and Resistance

Students must take an additional graduate level course selected from among IGOV electives or approved courses in related fields of study with permission on a case-by-case basis, of the relevant Faculty, the student’s supervisor and the Graduate Adviser.

**Community Governance Project (4.5 or 6.0 units*)**

Projects are geared toward providing a practical learning experience and opportunity for students to face the real world challenges of governance in an Indigenous context. They also serve a crucial function for affiliated communities in providing access to the University’s resources and expertise through the students’ participation in projects to enhance the community’s governance capacity.

Community governance project interns will work on a designated research or policy development project in an Indigenous organization, under the direction of a project management team that includes community leaders and IGOV faculty. Internship placements must be approved by the Director, and will typically involve one hundred hours of work in the community and the completion of a comprehensive report based on the internship experience. Before registering in the Community Governance Project, a student must have completed all core courses (IGOV 520, 530, 540, and 550) as well as Mentorship (IGOV 575) and their elective.

*Note: Only Students who have entered the Master's program prior to September 2009 need to register in the 6.0 unit section of IGOV 598 (requires permission of the department). Students who start their MA program on or after September 2009 need to register in the 4.5 unit section of IGOV 598.

**Oral Examination**

An oral examination is required upon completion of the internship and should encompass content from coursework, research papers, and the Community Governance Project.

**Program Length**

The Master’s is normally completed in 18-24 months although it is possible to complete in one calendar year.

**Faculty Members and Areas of Research**

All regular members of the Faculty of Graduate Studies are eligible to supervise Interdisciplinary Graduate Students.

**What is an Interdisciplinary Program?**

An interdisciplinary graduate program integrates knowledge, skills, data, ideas and insights from different domains of knowledge to examine a phenomenon that lies beyond the purview of a single area of knowledge and/or specific disciplines. Interdisciplinary research may also involve integrating research approaches from different domains or disciplines. The form of interdisciplinary graduate studies varies. Some programs focus on bringing two or more discrete disciplines together to address a research question. Other programs may focus on an interdisciplinary phenomenon or area of research that requires interdisciplinary knowledge development. The questions raised and explored by interdisciplinary research may lead to expanded knowledge about a phenomenon as well as new perspectives and/or areas of investigation for the disciplines themselves.

**Degrees and Specializations Offered**

- MA, MSc, PhD

Interdisciplinary Graduate Programs are offered through a variety of options:

1. Students may undertake interdisciplinary studies as part of a regular existing program that is interdisciplinary in nature. These programs include Dispute Resolution; Social Dimensions of Health Research; Indigenous Governance; Studies in Policy and Practice (refer to individual program listings for descriptions); interdisciplinary graduate
programs in Cultural, Social, and Political Thought (refer to calendar entry for English, History, Political Science or Sociology).

2. Students may enrol in a program within a regular disciplinary academic unit and engage in interdisciplinary research supervised by a faculty member associated with an interdisciplinary research centre. Research centres at the University of Victoria include: British Columbia Institute for Co-operative Studies; Centre for Addiction Research of British Columbia; Centre for Advanced Materials and Related Technology; Centre for Asia-Pacific Initiatives; Centre for Biomedical Research; Centre for Earth and Ocean Research; Centre for Global Studies; Centre for Forest Biology; Centre for Health Promotion; Centre for Studies in Religion and Society; Centre for Youth and Society; Centre on Aging.

3. Student may undertake an individual interdisciplinary studies program to pursue interdisciplinary research in an area that has not been formally approved as a regular graduate degree program by the University of Victoria Senate. A unique proposal can be approved by the Faculty of Graduate Studies for an Individual INTD degree supported through a combination of academic units of which one must have an established graduate degree program at the same level as the proposed interdisciplinary degree program. It is the applicant’s responsibility to arrange the details of the program. The Faculty of Graduate Studies and academic units are under no obligation to arrange or approve interdisciplinary programs.

Individual Interdisciplinary Studies Programs

Individual interdisciplinary programs are subject to all of the usual Faculty of Graduate Studies regulations. Applicants are required to make an appointment with the interdisciplinary Graduate Adviser for an information session before proceeding to the application process. The application and approval process typically takes four to six months (See the application process outlined below). The program proposal must be formulated by the applicant and prospective supervisors, permission for certain courses obtained and the program approved by the Faculty of Graduate Studies Interdisciplinary Committee. Approval is not guaranteed. Courses should not be started without formal approval of the program by the Faculty of Graduate Studies.

Admission Requirements

Applicants for interdisciplinary degree programs must follow the admission procedures and meet the minimum entrance criteria set out in the Faculty of Graduate Studies regulations in the University of Victoria Graduate Calendar. In addition to the completion of a recognized undergraduate university degree, students will normally be required to have a minimum Grade Point Average of 7.00 (A-).

Individual interdisciplinary degrees will be offered at doctoral and master’s levels. Applicants for individual interdisciplinary degree programs must follow the admission procedures and meet the entrance criteria of the Faculty of Graduate Studies in terms of grade point average and English Language Proficiency requirements.

Potential applicants must develop a degree program and assemble a supervisory committee before making formal application. (Refer to the Graduate Studies website for further information.

The student’s official record will indicate the program as Interdisciplinary (INTD); comprehensive examinations, thesis, or dissertation will carry the prefix INTD.

Application Procedures

The INTD application has four parts. Please note that all four parts must be submitted by the application deadline.

1. The INTD Program Course form
2. The Program Proposal Details
3. The program approvals and permissions. These approvals include:
   a) letters of support from the co-supervisors (see instructions below),
   b) emails from the Chair of the academic units serving as the home academic unit and the Chair of the co-supervising academic unit confirming their support (ensure one of these academic units confirms they have agreed to serve as the home administrative academic unit).
   c) emails from the Chair or Graduate Adviser of academic units confirming student will be given access to specific graduate courses
4. The general application package for UVic Graduate Studies including supporting documents. The general application and instructions are found at <registrar.uvic.ca/grad/applyonline>.

The application and approval process typically takes four to six months because the program proposal must be formulated by the applicant and prospective supervisors, permission for certain courses obtained, and the program approved by the INTD Admissions Committee. The steps outlined on the Graduate Studies INTD website must be completed prior to the official application deadline date.

Application deadlines

- May 15 for September entry
- September 30 for January entry
- January 31 for May entry
The Faculty of Graduate Studies may limit the number of Individual Interdisciplinary Graduate degrees.

Program Requirements

Proposal Approval for Individual Interdisciplinary Degrees

Before an offer of admission can be made, applicants must have an interdisciplinary degree program approved by the Faculty of Graduate Studies. This proposal is jointly developed by the applicant and the projected supervisor and includes a completed Individual Interdisciplinary Graduate Program for Approval form (including signatures of proposed supervisory committee) and a rationale for the program. The program must be genuinely interdisciplinary, and the rationale must indicate the reasons it is necessary to create an individual interdisciplinary degree rather than have the student apply to an existing program.

Academic Supervisor for Individual Interdisciplinary Degrees

Supervisory committee members from two academic units must be designated as academic co-supervisors. It is important to ascertain the specific roles of each supervisor. One of the co-supervisors will take the administrative lead. The academic unit of this administrative co-supervisor normally serves as the administrative home for the student’s program.

Degree Program and Supervisory Committee for Individual Interdisciplinary Degrees (Master’s and PhD)

The degree program may be negotiated by the members of the supervisory committee, but it must conform to all regulations of the Faculty of Graduate Studies. For both PhD and Master’s programs, there must be a supervisory committee member from two departments which are designated as academic co-supervisors. In addition to the co-supervisors, the supervisory committee normally will include at least one other member from a relevant field of study.

Any changes to a degree program or supervisory committee must be made in writing and approved by the Dean of Graduate Studies.

Program and Course Designation

The student’s official record will indicate the program as “Interdisciplinary.” The degree program can consist of appropriate INTD courses as listed below as well as regular courses from other academic units.

- INTD 580 (1.5-3.0): Directed Studies
- INTD 599 (4.5-12.0): Thesis
- INTD 680 (1.5-3.0): Directed Studies
- INTD 693 (3.0): Candidacy Examination
- INTD 699 (15.0-30.0): Dissertation
1. May be taken more than once for credit provided courses content differs.
2. Grading is INP, COM, N, F.

Candidacy Exams

The candidacy exam is intended to demonstrate a student’s knowledge of his or her field of study, the viability of the proposed dissertation topic and the student’s ability to undertake the research. All students registered in the Interdisciplinary PhD program are required to successfully complete a candidacy examination. The candidacy exam includes both a written and oral component. The format of the examination may vary based on the specific circumstances. The written component is intended to provide a foundation for the future research project. To that end, the format of the written component will include two or more papers outlining the scholarly context and relevant research methodology or a plan outlining the proposed research for the PhD dissertation that includes a summary of relevant existing research and literature and a bibliography. Alternative models for the written component of the exam, if deemed necessary, will normally be decided upon during the first semester of the student’s registration. The papers and oral component will be evaluated on a pass/fail basis by the PhD supervisory committee. In the event the student does not pass one or both of the components the student is afforded one additional opportunity to successfully pass both components within three of months of the original oral exam date.
The co-supervisors, along with the student, will determine if INTD 693 (Candidacy Examination) will be a pre- or co-requisite to INTD 699 (Dissertation). As well, the time limit for completion of candidacy will be determined at the beginning of the program. If the time limit is other than the Faculty of Graduate Studies policy of 36 months, it will be the responsibility of the home academic unit to keep track of this time limit.

**Program Length**

Master's degrees could be completed in two years, doctoral degrees within 3 to 5 years Normally, a student proceeding toward a master's degree will be required to complete all the requirements for the degree within five years (60 consecutive months) from the date of the first registration in the master's degree. In no case will a degree be awarded in less than 12 consecutive months from the time of first registration.

Normally, a student proceeding toward a doctoral degree will be required to complete all the requirements within seven years (84 consecutive months) from the date of first registration in the program. If a student transfers to a doctoral program after an initial period in a master's program, completion is required within seven years of the date of the first registration in the master's program. A doctoral degree will not be awarded in less than 24 consecutive months from the time of first registration.

Students must obtain approval for a program extension prior to the time limit expiry date. If a program extension is not approved prior to the program expiry date, the student will normally not be permitted to continue in or return to that program.

**Concentration in Cultural, Social and Political Thought (CSPT)**

*Location:* Cornett Building, Room B138

*Cultural, Social and Political Thought*

University of Victoria

PO Box 3050 STN CSC

Victoria, BC V8W 3P5

Canada

*Courrier Address:* 3800 Finnerty Road

Cornett Building B138

Victoria, BC V8P 5C2

*Phone Number:* 250-472-5185

*Website:* <www.uvic.ca/interdisciplinary/cspt>

*Director:* Dr. Peyman Vahabzadeh

Email: csptdi@uvic.ca

*Phone:* 250-721-6353

*CSPT Program Assistant:*

Email: csptsec@uvic.ca

*Phone:* 250-472-5185

This concentration is available to selected graduate students in English, Environmental Studies, History, Political Science, and Sociology. Interested students should consult the relevant departmental entries.

Students applying for an Individual Interdisciplinary MA or PhD Program may also opt for a concentration in Cultural, Social and Political Thought (CSPT). To be eligible for this concentration, students must receive approval from both the department and the CSPT Admissions Committee.

An approved Individual Interdisciplinary MA program with a CSPT concentration will include:

- CSPT 501
- at least 1.5 units of CSPT 500
- a thesis worth from 6 to 9 units, on an approved topic with field of cultural, social and political thought, under the direction of a supervisory committee including at least two participating CSPT faculty members.

3 to 6 units of other courses at the graduate level approved by the CSPT Program Director and the Interdisciplinary Special Arrangements Committee, to a total of 15 units for the program as a whole including the thesis and CSPT course requirements.

An approved Individual Interdisciplinary PhD program with a CSPT Concentration will include:

- CSPT 601
- at least 1.5 units of CSPT 600
- a candidacy examination within the field of cultural, social and political thought.
- At least 4.5 units of other courses at the doctoral level approved by the CSPT Program Director and the Interdisciplinary Special Arrangements Committee.
- A second candidacy examination in a field approved by the CSPT Program Director and the Interdisciplinary Special Arrangements Committee.
- A dissertation worth 30 units on an approved topic within the field of cultural, social and political thought, under the direction of a supervisory committee including at least two participating CSPT faculty members.
Criminal law, criminal procedure, sentencing, mental health law

J. Donald C. Galloway, LLM (Harvard)
Torts, immigration and refugee law, jurisprudence, citizenship law

Mark R. Gillen, LLM (Toronto)
Securities regulation, business associations, trusts, taxation law, competition law

Donna Greschner, BCL (Oxon)
Constitutional law, comparative constitutional law, equality rights, health-care law, legal theory

Robert G. Howell, LLM (Illinois)
Intellectual property, managing intellectual property, telecommunications, private international law (conflicts of law)

Rebecca Johnson, SJD (Michigan)
Law and society, legal discourse, culture and the humanities, law and popular culture, law and literature, feminist legal theory, statutory interpretation, criminal law, equality law

Freya Kodar, LLM (Osgoode)
Pensions (public and private), debt and credit regulation, income security, care work, feminist political economy and disability and the law

Michelle S. Lawrence, PhD Candidate (Simon Fraser)
Criminal litigation and justice policy

Hester A. Lessard, LLM (Columbia)
Director, Graduate Program in Law (spring), Constitutional law, feminist legal theory, equality rights

Carol Liao, PhD (UBC/Toronto – In Progress)
Corporate law, business ethics, law and economics, contracts, securities regulation, commercial and consumer law, corporate social responsibility, responsible investment and impact investment, social enterprise law

Colin Macleod, PhD (Cornell)
Moral, political, and legal philosophy; jurisprudence (especially the relation between law and morality); children's rights

Theodore L. McDorman, LLM (Dalhousie)
Public international law, international ocean law

M. Jerry McHale, QC, LLB (Alberta)
Mediation and dispute resolution, access to justice and justice reform, family law, procedural law, policy development and the legislative process

John McLaren, LLMD (Calgary) - Professor Emeritus
Canadian and colonial legal history, law and religion, law and discrimination, the rule of law

R. Michael M’Gonigle, JSD (Yale)
Director, Graduate Program in Law (fall). Eco Research Professor in Environmental Law and Policy. Environmental and resource management, political ecology and green legal theory, international environmental law, urban sustainability, community-based governance

Val Napoleon, PhD (UVic)
Law Foundation Professor of Aboriginal Justice and Governance. Indigenous legal traditions, indigenous legal theory, indigenous feminism, citizenship, self-determination, and governance

Andrew Newcombe, LLM (Toronto)
International investment law, international arbitration, international trade law, commercial law

Martha O’Brien, LLM (Université Libre de Bruxelles)
Taxation, European Union law

Pooja Parmar, PhD (UBC)
legal pluralism, human rights law, indigenous rights, international law, legal history, property, law and development, intersections of law and colonialism, law & society, qualitative research methods, India, South Asia,

Victor Ramraj, PhD (Toronto)
Law Chair, Centre for Asia-Pacific Initiatives (CAPI). Comparative constitutional law, legal history of state and company, theoretical and practical implications of transnational law and legal pluralism, domestic constitutional law of transnational corporations and global regulation.

Supriya Routh, PhD (UVic)
Labour and employment law, theoretical conceptualizations of work, workers' organization initiatives, international labour law, atypical and informal workers and law in the global South, human rights and human development.

Chris Tollefson, LLM (Osgoode)
Hakai Chair in Environmental Law and Sustainability. Environmental law and policy, environment and international trade, environmental/resource management and Aboriginal rights, forest law and policy, coastal zone management, clinical legal education

Jim Tully, PhD (Cambridge) - Professor Emeritus
Distinguished Professor of Political Science, Law, Indigenous Governance, and Philosophy. Contemporary legal theory, history of legal theory, Canadian constitutional theory, Aboriginal rights

Jeremy Webber, LLM (Osgoode)
Dean of Law. Law and society, cultural diversity, constitutional law and theory, Aboriginal rights

Degrees and Specializations Offered
The Faculty of Law offers programs of study leading to the degrees of Master of Laws in Law and Society and Doctor of Philosophy in Law and Society. The programs provide an opportunity for advanced research at the intersection of “Law and Society” and are rigorously interdisciplinary both in their coursework and research components. In many cases, students will be expected to have two supervisors, one from the Faculty of Law and one from another faculty. Both programs require full-time registration. The program is especially appropriate for students interested in any of the following areas of concentration:

• Aboriginal Law and Indigenous Rights
• Constitutional Law
• Environmental Law and Policy
• Legal Theory, especially Feminist and Critical Legal Theory

Graduate Programs

Admission Requirements
The normal minimum for admission to the LLM degree program will be a Bachelor of Laws (LLB), Juris Doctor (JD) or equivalent civil law degree with an average of B+ (6.0 G.P.A.) in the final two years of that law degree program. The normal minimum for admission to the PhD degree will be an average of A- (7.0 G.P.A.) in graduate courses.

For international students whose first language is not English a TOEFL minimum score of 600 (paper based) or 100 (internet based) is required.

Admission to the Master's Program
Applicants for the LLM program are required to submit a curriculum vitae and an LLM Statement of Intent (one page maximum) indicating areas of research interest. This will assist in the assessment of the application and ensure that the student's areas of interest can be accommodated by the program.

Full information on Law courses can be found on the Faculty's website: <www.uvic.ca/law/graduate/tuitionandfunding/.

In addition, seminars, colloquia, lectures, and conferences provide many special opportunities for collegiality among graduate students and between graduate students and faculty. These include the Victoria Colloquium on Political, Social, and Legal Theory which involves the interaction of theorists with international reputations and students from a variety of disciplines.

Facilities
Students in the Graduate Program in Law and Society have access to a well developed and serviced Priestley Law Library and the University's McPherson Library, which has holdings in excess of 1.9 million volumes. The Faculty of Law also has close links with the Centre for Asia-Pacific Initiatives, the Institute for Dispute Resolution, and the Centre for Studies in Religion and Society.

Financial Support
Please see the Law Graduate Program website for more information: <www.uvic.ca/law/graduate/tuitionandfunding/.

UVIC CALENDAR MAY 2015

GRADUATE PROGRAMS
Graduate Programs

Admission to the PhD Program
Applicants for the PhD program are required to submit a curriculum vitae and a full dissertation proposal (five-page maximum) for assessment in the admissions process, although this proposal may be revised during the student's candidacy in the program. Also required is a sample of the applicant's research writing, e.g., a completed segment of a master's thesis or published article.

Deadlines
The application deadline for September entry is January 31. For applicants who hold any post-secondary documents from academic institutions outside of Canada, however, the deadline is January 7. Applications are reviewed by the Graduate Admissions and Records Office and then by the Law Graduate Studies Committee. The admission selection process is competitive. Not all students who meet the minimum requirements can be admitted.

Program Requirements

LLM Program
The LLM in Law and Society is primarily a thesis-based degree. There is a small coursework and major research paper component that requires additional coursework. Both options are rigorously interdisciplinary and require full-time registration in the program for a minimum of three terms (twelve months). Please note that, in the admission process, preference is given to applications for the thesis LLM over the coursework LLM.

All students are required to enrol in the core Graduate Seminar in Law and Society (Law 501) and the Graduate Seminar in Applied Legal Methodology (Law 502). Students are also required to take at least one graduate course in a non-Law discipline germane to their research. The balance of their course requirements will be made up from Law graduate, non-Law graduate, and upper-level Law undergraduate courses (students will not, however, be permitted to take for graduate credit a course which they have already taken—either here or at another university—for undergraduate credit).

LLM - Thesis Option

Course Requirements

- Graduate Seminar in Law and Society (Law 501) ........................................ 1.5
- Graduate Seminar in Applied Legal Methodology (Law 502) .......................... 1.5
- Graduate (non-Law) seminar ..................................................... 1.5
- Other (Law courses and/or other non-Law courses, with no more than 3 units at the Undergraduate level) ........................................ 4.5
- Major Research Paper (Law 598) ........................................ 6.0
- Total ................................................................. 15.0

Other Requirements

The minimum residency period for the LLM program is three terms (twelve consecutive months).

Major Research Paper
Students' major research papers will be supervised by one Law and one non-Law Faculty member (subject to appropriate supervisory resources being available).

PhD Program
The PhD in Law and Society follows the general pattern at the University of Victoria. Students who do not already have an LLM (or equivalent) are initially admitted to the LLM. They may then apply to transfer to the PhD. If successful, they may elect to obtain the LLM before proceeding to the PhD or proceed directly to the PhD without obtaining the LLM. If they choose the latter, they will nevertheless be expected to complete the LLM coursework (at the thesis level) before proceeding to the doctoral dissertation.

Students who already possess an LLM may be admitted directly to the PhD. They are required to complete the two core Graduate Seminars and such other courses (if any) as the Director of Graduate Legal Studies determines, taking into account their academic preparation.

The PhD program requires a minimum of five terms (20 months) of full-time registration.

PhD students will be required to undergo a candidacy exam (essentially a structured defence of their research program and any completed segments of their dissertation) within two years of entering the PhD program. Students must be enrolled in Law 693 (PhD Candidacy Examination) until they pass the Candidacy Examination and are then permitted to enroll in Law 699 (PhD Dissertation). PhD students' dissertations must meet the University's standards for doctoral dissertations.

Students' dissertations will be supervised by one Law and, frequently, one non-Law supervisor with a supervisory committee of three (the co-supervisors, if applicable, and one or two other faculty members).

Course Requirements

With an LLM (or equivalent)

- Graduate Seminar in Law and Society (Law 501) ................................. 1.5
- Graduate Seminar in Applied Legal Methodology (Law 502) .................... 1.5
- 2 courses (as determined by the Director of Graduate Legal Studies) (1.5 each) ........ 3.0
- PhD Candidacy Examination (Law 693) ......... 3.0
- Dissertation ........................................ 21.0
- Total ....................................................... 30.0

* minimum

Without an LLM (or equivalent)

- Graduate Seminar in Law and Society (Law 501) ................................. 1.5
- Graduate Seminar in Applied Legal Methodology (Law 502) .................... 1.5
- Graduate (non-Law) seminar ..................................................... 1.5
- Other (Law course and/or other non-Law course) .................................. 1.5
- PhD Candidacy Examination (Law 693) ......... 3.0
- Dissertation ........................................ 36.0
- Total ....................................................... 45.0

Other Requirements

The minimum residency requirement for the PhD program is three terms (12 consecutive months).

Dissertation
The dissertation is expected to be of the highest possible calibre, potentially publishable, and should be 250–350 pages (excluding the Abstract, notes, bibliography, and appendices).

Oral Examination
The PhD dissertation must be defended in an oral examination.
Linguistics

GENERAL INFORMATION

Members of the Department of Linguistics teach and conduct research on topics in phonology, morphology and syntax; indigenous languages of North America and the Pacific Rim; applied linguistics; articulatory and acoustic phonetics; and sociolinguistics. Further information can be found on our website at: <web.uvic.ca/ling>.

Contact Information

Department of Linguistics

Courrier Address: Clearihue Building D341 3800 Finnerty Rd. Victoria, BC V8P 5C2 Canada
Telephone Number: 250-721-6634 Fax Number: 250-721-7423 Email: lingdept@uvic.ca
Website: <www.uvic.ca/ling>.
Chair: Dr. Hossein Nassaji Email: nassaji@uvic.ca Phone: 250-721-7422
Graduate Adviser: Dr. Suzanne Urbanczyk Email: linggrad@uvic.ca Phone: 250-721-7431
Graduate Secretary: Jenny Jessa Email: jessa@uvic.ca Phone: 250-721-7424

Faculty Members and Areas of Research

John Archibald, PhD (Toronto)
Second language acquisition; phonological acquisition; phonological theory

Sonya Bird, PhD (Arizona)
Phonetics and phonology interface; Salish languages; Athabaskan languages

Ewa Czykowski-Higgins, PhD (MIT)
Theoretical phonology and morphology; Salish languages; language revitalization; Slavic languages

Alexandra D’Arcy, PhD (Toronto)
Language variation and change; sociolinguistic theory; historical sociolinguistics; grammaticalization

Li-Shih Huang, PhD (Toronto)
Applied linguistics; second language acquisition; English for academic purposes; language learning and use strategies; sociocultural theory

Peter Jacobs, PhD (UBC)
Skwxwú7mesh language; Kwak’wala; Indigenous language revitalization; lexical aspect

Hua Lin, PhD (Victoria)
Second language phonetics and phonology; phonology; Chinese linguistics

Martha McGinnis-Archibald, PhD (MIT)
Syntactic theory; comparative linguistics; syntactic interfaces with morphology and semantics

Hossein Nassaji, PhD (Toronto)
Applied linguistics; second language acquisition; discourse analysis; second language literacy

Leslie Saxon, PhD (California, San Diego)
Syntax; morphology; comparative and historical linguistics; Athabaskan/Dene languages; language revitalization

Suzanne Urbanczyk, PhD (Massachusetts, Amherst)
Theoretical morphology and phonology; Coast Salish languages; language revitalization

Emirerit

John H. Eslin, PhD (Edinburgh), FRSC Articulatory and auditory phonetics; sociophonetics; second language acquisition

Thomas E. Hukari, PhD (Washington)
Grammatical theory; syntax; morphology; Salish languages

Joseph F. Kess, PhD (Hawaii), FRSC Psycholinguistics; sociolinguistics; Asian and Pacific languages

Lorna Williams, PhD (Tennessee)
First Nations ancestry; Indigenous education; languages, cultures, and traditions

Degrees and Specializations Offered

The Department of Linguistics offers programs of study and research leading to the degrees of Doctor of Philosophy and Master of Arts, especially as this applies to syntactic theory, morphological theory, phonological theory, experimental phonetics and sociolinguistics. The department has notable strengths in languages of the Pacific Rim and Indigenous languages of Western North America, including issues of language endangerment.

The department also offers a program of study and research leading to the degree of Master of Arts in Applied Linguistics in the areas of second language acquisition (SLA) and second language teaching methodologies.

Facilities

The department has an extensive phonetics laboratory as well as rooms with work stations for students and research assistants, and technical support for projects.

Financial Support

Linguistics students are eligible for University of Victoria Fellowships. In addition, the department offers several scholarships of varying amounts, as well as teaching and research assistantships. Both entering and continuing students in the program are automatically considered for scholarships. Students must apply for teaching and research assistantships.

Admission Requirements

General

Applicants whose native language is not English must consult the Faculty of Graduate Studies regulations concerning the Test of English as a Foreign Language (TOEFL) under “English Language Proficiency”, page 18. The department requires minimum scores as follows for applicants for whom the test is required. For the MA in Applied Linguistics, the department requires 600 on the paper-based test or 100 on the internet-based test. Otherwise, the department requires 580 on the paper-based test or 92 on the internet-based test. For all programs, a minimum acceptable IELTS score is 7.0.

Although it is possible to enter the program at any entry point listed under “Entry Points”, page 17, September entry is advised, as many of the courses listed for the spring term have prerequisite courses given only in the fall. Graduate courses are seldom offered in the Summer Session.

The admissions selection process is competitive. Not all students who meet the minimum requirements will be admitted. Typically, between eight and twelve students are admitted to the program each year.

Admission to the MA in Applied Linguistics

Admission to the program requires a bachelor's degree, preferably in Linguistics or Applied Linguistics, or a bachelor's degree with a Diploma in Applied Linguistics, or equivalent, with a minimum overall average of B+ (6.00 GPA) in the final year's work.

Admission to the MA Program

Admission to the program requires a bachelor's degree, preferably in Linguistics, with a minimum overall average of B+ (6.00 GPA) in the final year’s work. Students with the necessary background in Linguistics may be considered for admission upon completion of LING 311 and/or LING 312 or equivalent with First Class standing.

Admission to the PhD Program

Applicants for admission to the PhD program will normally hold a master's degree in Linguistics with an A-average (7.0 GPA) or master's level course work. Applicants should submit one representative piece of written work, often the MA thesis or part of it. See also “Faculty Academic Regulations”, page 28.

Deadlines

All domestic applications must be complete by January 15 for admission the following September. International applications must be complete by December 15, one month earlier. Applications submitted by these deadlines are considered for the Graduate Fellowships, which are awarded to incoming students each year by the University, and for other sources of funding within the department.

Program Requirements

Requirements Common to All Graduate Degrees in Linguistics

The programs of all graduate students in linguistics include course requirements, a language requirement, a requirement to present an aspect of their work at a conference or colloquium, the completion of a thesis or dissertation, and a final oral examination. In addition, all programs require that students make a major research paper/thesis/dissertation proposal to the supervisory committee and in the case of a thesis or dissertation, present it to the University in its final form.

MA in Applied Linguistics Program Requirements

The department offers two 15-unit programs, one with thesis and the other without, leading to the MA in Applied Linguistics degree. The
GRADUATE PROGRAMS

Programs are designed to provide advanced graduate training in theories and research in the areas of second language acquisition (SLA) and the practice of second language teaching methodology.

Course Requirements in both the thesis and the project-based option include the following:

**Two core courses in applied linguistics (3.0):**
LING 574 and LING 575

**Two of three core courses in linguistics (3.0):**
Syntax (one of LING 503, 508)
Morphology (LING 504)
Phonology (one of LING 505, 510)

Three units of electives in the thesis option and six in the project-based option, drawn from the following courses:
LING 500, 504, 509, 521, 570, 572, 573, 576, 577, 586, 592, 595, 596

Project-based MA students may include 1.5 units from relevant courses in other departments determined in consultation with the student's supervisor.

Project-based MA students complete LING 598 (3.0 units) Major Research Paper and thesis students complete LING 599 (6.0 units) MA Thesis.

**Language Requirement**

MA in Applied Linguistics students must satisfy the language requirement for PhD students (described below) for one language. For master's in applied linguistics students going on to the PhD at the University of Victoria, the master's requirement will satisfy one language for the PhD requirement.

**Program Length**

Students are expected to complete a project-based MA in Applied Linguistics in one to two years.

Students in the thesis program are expected to complete it in two years.

**MA Program Requirements**

The department offers a 15-unit thesis-based program leading to the MA degree. The program is designed to give students the opportunity to specialize in the area of their thesis while also providing them with the essential tools for linguistic analysis.

**Course Requirements**

The MA degree requires 9 units of course work plus thesis:
Two of LING 503 or 508, LING 504, LING 505 or 510. 3.0
Three other graduate-level courses 4.5
One other course at the 300, 400, or 500 level. 1.5
Thesis (LING 599) 6.0

**Language Requirement**

MA students must satisfy the language requirement for PhD students (described below) for one language. For master's students going on to the PhD at the University of Victoria, satisfaction of the master's requirement will count towards the PhD requirement.

**Thesis**

Students will present and defend a thesis proposal. The thesis work in LING 599 is normally awarded 6.0 units of credit. Students must defend their thesis orally as part of program requirements.

**Program Length**

Students are expected to complete the program in two years.

**PhD Program**

**Course Requirements**

The PhD program requires at least 9 units of course work, plus the dissertation, for a total of 30 units. Courses on current issues in syntax and phonology, LING 601 and LING 602, (1.5 units each) are required; other courses are determined jointly by a student and the supervisor.

Students without the equivalents of LING 503 or LING 505 in their previous program will have these courses added to their requirements.

**Candidacy Exam (LING 693)**

The candidacy requirement must be satisfied within three years of registration in the doctoral program (see “Faculty Academic Regulations”, page 28). The candidacy examination consists of two substantial, original research papers, one in the area of phonological or syntactic theory, understood broadly, and the other in an area agreed to by the student and the supervisor.

**Language Requirement**

The departmental language requirement for PhD students is intended to prepare students for their research program by ensuring that they have the ability to read linguistic literature in, or have sound knowledge of, two languages other than English. Ideally, students must choose languages relevant for their research, in consultation with their supervisor, to satisfy this requirement.

The requirement for each language is considered satisfied when the student:
1. demonstrates reading proficiency in the language (assessed by a 2-page translation);
2. speaks the language natively;
3. has been educated in the language selected;
4. has an undergraduate major in the language;
5. has successfully completed a minimum of the equivalent of 4.5 units of university level courses in the language, with a least a second class (B-) average; or
6. has passed the equivalent of a 3-unit upper-division reading course in the language.

Other mechanisms for assessing the language requirements for special cases may be established. In such cases, however, the student is responsible for submitting a proposal to the Graduate Adviser prior to fulfilling the requirement. The graduate committee is then responsible for accepting or refusing the proposal, by considering the relevance of the language chosen to the student’s research and the pertinence (and practicality) of the evaluating process suggested.

**Dissertation**

After attaining candidacy, students will present and defend a dissertation proposal typically developed in LING 699. The dissertation is normally awarded 18 units of credit. Students must defend their dissertation orally as part of program requirements (see “Faculty Academic Regulations”, page 28).
Mathematics and Statistics

Graduate Secretary: Kristina McKinnon

Faculty Members and Areas of Research

Martial Agueh, PhD (Georgia Tech)
Mass transport theory, partial differential equations, geometric inequalities, mathematical physics

Christopher J. Bose, PhD (Toronto)
Dynamical systems, ergodic theory

Richard Brewster, PhD (Simon Fraser)
Graph theory, discrete mathematics, theoretical computer science

Ryan Budney, PhD (Cornell)
Homotopy theory, knot theory

Laura Cowen, PhD (Simon Fraser)
Statistical ecology and capture-recapture models

Florin N. Diacu, PhD (Heidelberg)
Celestial mechanics, chaos, dynamical systems, mathematical physics, history and philosophy of mathematics

Peter Dukes, PhD (Caltech)
Combinatorics

Roderick Edwards, PhD (Victoria)
Ordinary differential equations, mathematical biology, neural and gene networks

Heath Emerson, PhD (Penn State)
Operator algebras, index theory, hyperbolic groups

Jing Huang, PhD (Simon Fraser)
Graph theory, algorithms and complexity

Slim Ibrahim, PhD (Tunis El-Manar)
Applied mathematics, analysis of partial differential equations, fluid dynamics and geophysical flows

Reinhard Illner, PhD (Bonn)
Mathematical physics, partial differential equations, applied mathematics

Boualem Khouider, PhD (Montréal)
Numerical analysis, partial differential equations, climate modelling

Marcelo Laca, PhD (Calif, Berkeley)
Operator algebras, noncommutative geometry

Mary L. Lesperance, PhD (Waterloo)
Statistical inference, biostatistics, industrial statistics

Junling Ma, PhD (Princeton)
Modelling

Gary MacGillivray, PhD (Simon Fraser)
Graph Theory, discrete mathematics, theoretical computer science, math education, mathematics in sports

Robert V. Moody, PhD (Toronto)
Algebra

Christina Mynhardt, PhD (Rand)
Graph theory

Farouk Nathoo, PhD (Simon Fraser)
Neuroimaging statistics, bayesian methods; statistical computing, high-dimensional data, spatial statistics

John Phillips, PhD (Oregon)
Operator algebras, noncommutative geometry

Ian F. Putnam, PhD (Calif, Berkeley)
Operator algebras, topological dynamics

Anthony N. Quas, PhD (Warwick)
Ergodic theory and dynamical systems

William J. Reed, PhD (British Columbia)
Stochastic modelling and statistics, especially in biology, economics and resource management

Ahmed R. Sourour, PhD (Illinois)
Functional analysis, operator theory, linear algebra

Hari M. Srivastava, PhD (Jodhpur)
Special Functions

Mak Trifkovic, PhD (Harvard)
Number theory, elliptic curves

Min Tsao, PhD (Simon Fraser)
Statistics

Pauline van den Driessche, PhD (Wales)
Mathematical models in biology, combinatorial matrix analysis

Jane (Juan-Juan) Ye, PhD (Dalhousie)
Optimization and optimal control via nonsmooth analysis

Julie Zhou, PhD (Alberta)
Statistics

Degrees and Specializations Offered

The Department of Mathematics and Statistics offers graduate programs leading to the degrees of Master of Arts, Master of Science and Doctor of Philosophy.

The department participates in graduate Co-operative Education, which integrates periods of full-time employment with the academic program. Approval to participate in graduate Co-op is at the discretion of the department. Work opportunities are negotiated through the Mathematics and Computer Science Co-operative Education co-coordinator.

All graduate students are governed by the departmental regulations in force at the time of the student's initial graduate registration. Students are responsible for becoming familiar with other regulations of the University and by the Faculty of Graduate Studies regulations as outlined in the Calendar.

The Department of Mathematics and Statistics emphasizes the following areas (in alphabetical order):

• Applied Mathematics, Mathematical Physics, Differential Equations
• Climate Modelling, Geophysical Fluid Dynamics, Mathematical Biology
• Combinatorics and Graph Theory
• Number Theory
• Operator Algebras, Operator Theory, Functional Analysis, Dynamical Systems, Topology
• Statistics

The Department also offers opportunities to study Mathematics Education, possibly as an interdisciplinary program.

Facilities

Located in the David Turpin building, the Department of Mathematics and Statistics offers graduate students shared office space with every student allocated their own desk. Students have access to the department’s computing facility, which includes workstations with a wide array of mathematics and statistics related software, and the McPherson Library houses a vast collection of reference material, mathematical and otherwise. Each and every student gets an account on the departmental computer system and access to the department printers and FAX machine, a PIN for the photocopier, and a mailbox with full mail privileges.

Financial Support

Every graduate student admitted to the department is considered for University and department fellowships. Financial assistance is also available from the following sources:

Natural Sciences and Engineering Research Council of Canada Postgraduate Fellowships

These are available to Canadian Citizens or Permanent Residents only.

Details can be found on NSERC’s website: www.nserc.ca. Students can apply through the University in September (or directly to NSERC by December) of the year preceding the tenure of the fellowship.

University of Victoria Fellowships

Their value is up to a maximum of $15,000 per annum (master’s) or $18,000 per annum (PhD). Students applying for admission can also apply for a fellowship on the last page of the admission application; continuing students can obtain details from the graduate adviser.

A grade point average of at least 7.0 (A-) is necessary.

Department Fellowships

Individual faculty may support graduate students from their own research grants.

Teaching Assistant Positions

Depending on budgetary considerations, there may be a limited number of marking and/or instructing positions available. These positions may not be available on a continuing basis and therefore should not be counted upon for long-term support. The number of hours and the amount of pay are regulated by the CUPE 4163 Components I and II Collective Agreement.
Admission Requirements

General
Students are normally admitted in September or January. Summer Session courses are not generally offered.

Foreign applicants are strongly encouraged to submit the scores of the Graduate Record Examination General Test (GRE) and its Subject Test in Mathematics.

Admission to Master's Programs
Students admitted to a master's program (MSc or MA) will normally have a bachelor's degree in Mathematics or Statistics. A student without the necessary background may be considered for a pre-entry program as outlined in the section “Upgrading for Admission to Graduate Studies”, page 19 or “Enhanced Programs” on page 19.

For a master's program, students whose first language is not English must achieve a score on the Test of English as a Foreign Language (TOEFL) of at least 575 on the paper-based test or an overall score of 90 on the Internet Based test, with the following minimum section requirements: Listening 20; Speaking 20; Reading 20; Writing 20.

Admission to the PhD Program
Admission into the PhD program will normally require a master's degree in Mathematics or Statistics and excellent research potential, documented by the quality of the master's thesis or letters of recommendation. In exceptional cases, students showing outstanding promise may be permitted to enrol directly in the PhD program with only a Bachelor's degree.

All PhD students are admitted to the Faculty of Graduate Studies as provisional candidates until they have passed their candidacy examinations, at which time they are automatically classified as candidates for Doctor of Philosophy.

For a PhD program, students whose first language is not English must achieve a score on the Test of English as a Foreign Language (TOEFL) of at least 575 on the paper-based test, 233 on the computer-based test or an overall score of 90 on the Internet Based test, with the following minimum section requirements: Listening 20; Speaking 20; Reading 20; Writing 20.

Application Deadlines
North American Applicants:
- September Entry: May 31
- January Entry: October 31

International Applicants:
- September Entry: December 15
- January Entry: April 15

Applicants wishing to be considered for funding must apply at earlier dates:
North American Applicants:
- September Entry: February 15
- January Entry: February 15

International Applicants:
- September Entry: December 15
- January Entry: December 15 (13 months ahead)

Program Requirements

Master's Program in Mathematics
Course Requirements
Each master's student must complete a minimum of 15 units, with the following requirements.
- MATH 585 (Graduate Seminar) ............... 1.5
- MATH 599 (Thesis) ......................... 6.0
- MATH or STAT courses at 500 level .......... 4.5
- MATH or STAT courses at 400 level or above . 3.0

The Department of Mathematics and Statistics may accept appropriate courses from other departments for credit towards a master's degree in Mathematics. Such courses should be selected in consultation with the student's supervisory committee.

Thesis
Thesis (6 units) must be defended in a final oral examination.

Other Requirements
Each master's student is under the direction of a Supervisory Committee of at least two members, including the student's academic supervisor, who also acts as chairperson of the committee.

Oral Examination
The Supervisory Committee examines the thesis and conducts a final oral examination of the candidate on the thesis. This oral examination is chaired by the Dean of Graduate Studies or the Dean's nominee.

Program Length
One to two years (generally two years); a minimum of five full fee installments is required.

Master's Program in Statistics – Thesis Option
Course Requirements
Each master's student must complete a minimum of 15 units, with the following requirements.
- MATH 585 (Graduate Seminar) ............... 1.5
- STAT 599 (Thesis) ......................... 3.0
- MATH or STAT courses at 500 level .......... 7.5
- MATH or STAT courses at 400 level or above . 3.0

The Department of Mathematics and Statistics may accept appropriate courses from other departments for credit towards a master's degree in Statistics. Such courses should be selected in consultation with the student's supervisory committee.

Final Project
Final project (3 units) must be defended in a final oral examination.

Other Requirements
Each master's student is under the direction of a Supervisory Committee chaired by the student's academic supervisor and having at least one other member.

Oral Examination
The Examining Committee examines the project and conducts a final oral examination of the candidate on the project.

Program Length
One to two years (generally two years); a minimum of five full fee installments is required.

PhD Program
Course Requirements
Students admitted into the PhD program are required to complete a minimum of four graduate courses, including at most one seminar course, totaling 6 units, and one of MATH 693 or STAT 693 (Candidacy Examination) worth 3 units. Students entering the program without a master's degree must complete a minimum of eight graduate courses, including at most one seminar course, totaling 12 units, and one of MATH 693 or STAT 693 (Candidacy Examination) worth 3 units. MATH 693 is a corequisite for MATH 699, and STAT 693 is a corequisite for STAT 699.

Candidacy
All students are required to pass a candidacy examination consisting of three parts in distinct areas within the first two years of study. Students must register for one of MATH 693 or STAT 693 (Candidacy Examination) in the first term in which they are preparing or sitting the candidacy examination, and must remain registered in this course continuously until they have passed all three parts, or until they leave the program.

Other Requirements
A PhD student's Supervisory Committee may require the student to demonstrate a reading knowledge of one foreign language (French, German or Russian). For each PhD student there shall be a Supervisory Committee of at least three members, chaired by the student's academic supervisor, with at least one committee member having at least three years of continuous full-time teaching or research experience in a department at a recognized research university.
member from outside the Department of Mathematics and Statistics. The committee members must be approved by the Dean of Graduate Studies and are normally members of the Faculty of Graduate Studies.

**Dissertation**

A dissertation of original, publishable research, normally worth 21 units (30 units for students without a master's degree) is required. Students must register for MATH 699 or STAT 699 while they are working on their dissertations. All registrations in MATH/STAT 699 must be accompanied by registration in MATH/STAT 693 until MATH/STAT 693 has been passed.

**Oral Examination**

The Examining Committee examines the dissertation and conducts a final oral examination of the candidate on the dissertation. This oral examination is chaired by the Dean of Graduate Studies or the Dean's nominee.

**Program Length**

Three to four years.

**Co-operative Education**

The department participates in graduate Co-operative Education, which integrates periods of full-time employment with the academic program. For program details please refer to the Co-operative Education Program entry for the Department of Computer Science, page 70.

---

### Mechanical Engineering

**GENERAL INFORMATION**

The Department of Mechanical Engineering offers graduate programs leading to the degrees of Master of Engineering (MEng), Master of Applied Science (MASc) and Doctor of Philosophy (PhD). Research areas include advanced materials and manufacturing, computational and continuum mechanics, computer aided design and manufacturing, integrated energy systems, optics, robotics, mechanisms and mechatronics, thermofluids and transport phenomena.

Further information about the Department of Mechanical Engineering, Adjunct and Limited Term faculty and their research interests can be found on the department's web page at [www.uvic.ca/engineering/mechanical](http://www.uvic.ca/engineering/mechanical).

All students should note that they are responsible for making themselves familiar with the general Calendar regulations of the Faculty of Graduate Studies. If unsure about any aspect of the Faculty regulations, students should contact the Graduate Admissions and Records Office. Students are also responsible for ensuring the completeness and accuracy of their registration.

**Faculty Members and Areas of Research**

**Joeeun Ahn, PhD (MIT), Assistant Professor**  
Dynamics of Human Movement, Human Motor Control, Biomechanics, Robotic Assistance

**Rustom Bhiladvala, PhD (Yale), Assistant Professor**  
Nanoscale Materials, Fabrication, Mechanics & Transport, Biomedical and Fluid Sensor Development, Fluid Mechanics

**Colin Bradley, PEng, PhD (Victoria), Professor**  
Automated Manufacturing, Optical Sensors, Industrial Machine Vision

---

**Bradley J. Buckham, PEng, PhD (Victoria), Associate Professor**  
Dynamics of Undersea Vehicles, Computational Dynamics Modeling, Kinematics

**Daniela Constantinescu, PEng, PhD (British Columbia), Associate Professor**  
Haptics, Robotics, Mechatronics, Dynamics, Control

**Curran Crawford, PEng, PhD (Cambridge), Associate Professor**  
Energy Systems, Wind and Tidal Turbines, Multi-Disciplinary Design Optimization

**Nikolai Dechev, PEng, PhD (Toronto), Associate Professor**  

**Zuomin Dong, PEng, PhD (SUNY, Buffalo), Professor**  
Computational and Experimental Fluid Dynamics, Transport Phenomena, Turbulence, Fuel Cell Technology

**Tom Gleson, PhD (Queen’s), Assistant Professor**  
Groundwater Hydrology and Sustainability, Environmental Chemistry, Structural Geology, GIS and Policy Studies

**Rishi Gupta, PEng, PhD (British Columbia), Assistant Professor**  
Structural Health Monitoring of Reinforced Concrete Structures and NDTs, Innovative Construction Technologies, Advanced Materials for Structures

**Rodney A. Herring, PEng, PhD (Birmingham), Associate Professor**  
Materials Processing, Electron Microscopy, Electron Holography, Confocal Holography

**Martin Byung-Guk Jun, PEng, PhD (Illinois), Associate Professor**  
Computer-Aided Manufacturing, Meso/Micro-Scale Manufacturing, Ultrafast Laser Machining, Advanced Materials, Biomedical Manufacturing

**Hubert W. King, PEng, PhD (Birmingham), (Limited Term) Professor**  
Residual Stress and Phase Transformations in Materials, Piezoelectric Devices and Sensors

**Phalgun Mukhopadhyaya, PEng, PhD (Sheffield), Associate Professor**  

**Ben Nadler, PEng, PhD (Cal. Berkeley), Associate Professor**  
Soft Materials and Structures, Thin Films and Theory of Evolving Material with Applications in Biomechanics and Impact Mechanics

**Peter Oshkai, PhD (Lehigh), Associate Professor**  
Unsteady Flows, Flow-Acoustic Coupling, Fluid-Structure Interactions
**GRADUATE PROGRAMS**

**Ronald R Podhorodeski, PEng, PhD (Toronto), Professor**
- Manipulator Kinematics and Design, Robot Trajectory Planning, Assistance/Therapy Aids for the Physically Challenged, Mechanisms

**Andrew M. Rowe, PEng, PhD (Victoria), Professor**
- Magnetic Refrigeration, Energy Systems, Thermodynamics

**Yang Shi, PEng, PhD (Alberta), Professor**
- Systems and Control, Mechatronics, Autonomous Vehicles

**Henning Struchtrup, PEng, Dr.-Ing (Berlin), Professor**
- Equilibrium and Non-Equilibrium Thermodynamics, Kinetic Theory of Gases, Transport Processes, Continuum Mechanics

**Afsal Saleman, PEng, PhD (British Columbia), Professor**
- Computational and Experimental Structural Dynamics, Multi-disciplinary Design Optimization, Fluid-Structure Interaction

**Yuriy A. Stepanenko, PEng, PhD (Moscow), Emeritus Faculty**

**Caterina Valeo, PEng, PhD (McMaster), Associate Professor**
- Regenerative Medicine, Neurobiology, Stem Cell Biology, Biomaterials

**Adjunct Faculty**
- David S. Scott, PEng, PhD (Northwestern)
- Yury A. Stepanenko, PEng, PhD (Moscow)
- Geoffrey W. Vickers, PEng, PhD (Manchester)
- Simon Liu, PhD (Jilin)
- Barbara Sawicki, PhD, DSc (Jagiellonian)

**Degrees and Specializations Offered**
- MEng, MASc and PhD in Mechanical Engineering

**Biomedical Research Facilities**
- Ocean energy and engineering research facilities, water channel with laser Doppler velocimetry, cryofuels laboratory, adaptive optics laboratory, fusion cell systems laboratory, and Green Vehicle Research Testing and Training Centre

**Financial Support**
- Normally MASc and PhD students are provided with financial support from faculty research funds for the first year. Subject to satisfactory performance and the availability of funding, financial support may be renewed. Graduate support can also be provided through various sources such as teaching assistantships, University of Victoria Fellowships and NSERC Postgraduate Scholarships (PGS). Refer to the Faculty of Graduate Studies website (<www.uvic.ca/graduatetudies/finances>) for additional funding information. All eligible students are encouraged to apply for funding from provincial, federal and external sources.

**Admission Requirements**

**General**
- Applicants for admission whose first language is not English must meet the English Competency Requirement as specified by the Faculty of Graduate Studies. The minimum acceptable TOEFL (Test of English as a Foreign Language) score for the Department of Mechanical Engineering is 575 on the paper-based test or 90 on the Internet-based test (the minimum score for each section is Writing: 20; Speaking: 20; Reading: 20; Listening: 20). A minimum acceptable IELTS score is 6.5. Even with passing TOEFL/IELTS scores, students may be required to take English language courses in addition to their other course work.

**Other Requirements**
- Normally MASc and PhD students are provided with financial support from faculty research funds for the first year. Subject to satisfactory performance and the availability of funding, financial support may be renewed. Graduate support can also be provided through various sources such as teaching assistantships, University of Victoria Fellowships and NSERC Postgraduate Scholarships (PGS). Refer to the Faculty of Graduate Studies website (<www.uvic.ca/graduatetudies/finances>) for additional funding information. All eligible students are encouraged to apply for funding from provincial, federal and external sources.

**Other Requirements**
- Not all students who meet the minimum requirements will be admitted. Typically, between 14 and 20 students are admitted to the program each year.
- Online applications may be submitted by following the links from <www.uvic.ca/graduatetudies/admissions>. If an applicant is unable to successfully submit an application online, they should contact the Graduate Admissions and Records Office. The Graduate Admissions and Records Office is the official depository for all applicant documentation.
- Additional information about graduate studies in the Department of Mechanical Engineering is available at: <www.uvic.ca/engineering/mechanical>

**Admission to Master's Programs**
- Applicants will normally hold an undergraduate degree in Mechanical Engineering. The minimum requirement for admission to the MEng is B and for the MASc is B (grade point average of 5.0 on the University of Victoria scale of 9.0) for the last two years of university work.

**Admission to the PhD Program**
- The minimum requirement for admission to the doctoral program is a master's degree in science or engineering. In exceptional cases, a student registered for a master's degree in the Department of Mechanical Engineering may be allowed to transfer to the doctoral program without completing the master's program.

**Deadlines**
- Entry points to the department are September, January and May. International applications received after the University's deadlines may be accepted by the department, but it may not be possible to process them in time for the desired entry point or to obtain a student visa.

**Program Requirements**
- The supervisory committee, in consultation with the student, determines the program of study for each student. The supervisory committee may decide that additional course work is required. The program may also include senior undergraduate courses after assessment of the background strengths and deficiencies of the student.

**Master of Engineering – Project-based Option**
- The MEng program is designed to provide students with an opportunity to strengthen and extend the knowledge they have gained at the undergraduate level. All MEng students will be under the supervision of a member of the department's graduate faculty.

**Course Requirements**
- The program consists of a minimum of 16.5 units, normally with not less than 12 units of graduate course work, a 1.5 unit seminar and a MEng Project Report (MECH 598).
- Required course work is subject to the approval of the department.

**Oral Examination**
- MEng students will be required to defend their completed project in a final oral examination which is open to the public.

**Program Length**
- The program for MEng is guided by time limits established by the Faculty of Graduate Studies. Typically, the Department of Mechanical Engineering MEng students are expected to complete program requirements within 24 months.
Master of Applied Science – Thesis Option

The work leading to the degree of MASc provides an opportunity for the student to pursue advanced studies and to carry out research or undertake creative design in a field of mechanical engineering under the supervision of a member of the department's graduate faculty.

Course Requirements

The program consists of a minimum of 19.5 units, normally with not less than 9.0 units of graduate course work, a 1.5 unit seminar, and a thesis (MECH 599).

Required course work is subject to the approval of the department.

Other Requirements

The program of study is determined by the supervisory committee in consultation with the student. The supervisory committee may decide that additional course work is required.

The program allows for a maximum of two Directed Studies courses (MECH 590), of which only one may be directly related to the thesis topic.

All MASc students are required to give a seminar (MECH 595) on their thesis research during the second year of the program. Normally, students will register in MECH 595 until program completion. The seminar has a unit value of 1.5. Students must attend a minimum of 6 of the seminars per term, for a total of 36 seminars over 2 years.

Thesis

The thesis (MECH 599) for the MASc program is typically equivalent to 9 units. The topic of the thesis is subject to the approval of the department.

Oral Examination

MASc students will be required to defend their completed thesis in a final oral examination which is open to the public.

Program Length

The program length is determined by the Faculty of Graduate Studies. Typically, the Department of Mechanical Engineering MASc students are expected to complete program requirements within 24 months. Normally, financial support will not be continued beyond this time limit.

Doctor of Philosophy

The objective of the PhD program is the accomplishment of independent and original research work leading to significant advancement of knowledge in the field of mechanical engineering. All PhD students will be under the supervision of a member of the department's graduate faculty.

Course Requirements

The program for a student with a master's degree is a minimum of 37.5 units, normally with not less than 6.0 units of approved course work, a 1.5 unit seminar, a 3.0 unit candidacy examination and a dissertation (MECH 699). The approved course work must include MECH 601 (1.5 units) which must be taken before the candidacy exam.

A student transferring from a master's program to the doctoral program is required to complete a program of at least 49.5 units. This program includes a minimum of 18 units of approved courses, (including MECH 601), a 1.5 unit seminar, a 3.0 unit candidacy examination, and a dissertation (MECH 699). For those students transferring from a master's program, credit will normally be given for courses already completed.

Required course work is subject to the approval of the department.

Comprehensive Exams

Department of Mechanical Engineering does not normally require comprehensive examinations.

Candidacy

Within 18 months of registration and successful completion of MECH 601, a PhD student must submit a written dissertation research proposal, defining the research topic, the goals of the research and the methodology to be used. The PhD student is required to pass an oral candidacy exam before their supervisory committee.

The PhD student must register in MECH 693 (3.0 units) from the beginning of the PhD program until the candidacy examination is successfully completed. MECH 693 is a prerequisite for MECH 699. During the candidacy examination, the supervisory committee will question the candidate to determine whether the candidate has the appropriate background knowledge and skills to undertake the proposed dissertation project, and whether the project is likely to lead to results suitable for a PhD dissertation.

Other Requirements

The program of study including all course selections is determined by the supervisory committee in consultation with the student. The supervisory committee may decide that additional course work is required.

The program allows for a maximum of one Directed Studies course (MECH 590) and one senior undergraduate course.

All PhD students are required to give two seminars (MECH 695) on their thesis research within 16 months and 34 months of registration. Normally, students will register in MECH 695 until program completion. The seminars have a total unit value of 1.5. Students must attend a minimum of 6 of the seminars per term, for a total of 54 seminars over 3 years.

Dissertation

The dissertation (MECH 699) for the PhD program is typically equivalent to 27 units. The topic of the dissertation is subject to the approval of the department.

Oral Examination

PhD candidates will be required to defend their completed dissertation in a final oral examination which is open to the public.

Program Length

The program length is determined by the Faculty of Graduate Studies. Typically, the Department of Mechanical Engineering PhD students are expected to complete program requirements within 36 months. Normally, financial support will not be continued beyond this time limit.

Co-operative Education

Participation in the Co-operative Education program, which enables students to acquire knowledge, practical skills and workplace experience, is optional for full-time Master's students.

Degrees and Specializations Offered
The School of Music of the University of Victoria offers programs leading to the degrees of Master of Music in Performance and in Composition, Master of Arts in Musicology and in Musicology (with Performance), and Doctor of Philosophy in Musicology.

Facilities
The School of Music is housed in its own building, completed in 1978. It contains 40 practice rooms plus larger rehearsal rooms and teaching studios furnished exclusively with Steinway pianos. It also contains the Phillip T. Young Recital Hall with superb acoustics, where all solo and chamber music performances are held. The School's large ensembles (Orchestra, Chorus, Wind Symphony) rehearse in the 1300-seat Farquhar Auditorium at the University Centre. Both halls have fully professional digital recording facilities. Students are encouraged to participate in School of Music performance groups, such as the University Chorus, Chamber Singers, Sonic Lab, Orchestra, Wind Symphony, and chamber ensembles. String chamber ensembles are coached by members of the Lafayette String Quartet, in residence at the School of Music. The McPherson Library has one of the major music collections in Canada. It covers a broad spectrum of areas, from the medieval period to the twentieth century, including world music and jazz. Currently there are over 70,000 volumes of scores and books and over 300 serial subscriptions, both electronic and in print. There are also over 40,000 sound recordings in the collection, spanning the recording age from 78’s to compact discs. Special areas of interest include Beethoven (books, scores, facsimiles), British music, and twentieth-century American music, with a large collection of jazz on 78’s.

In 2008 the music and audio collection moved into the new Bessie Brooks Winspear Media Commons. This centre houses the media collections (compact discs, microforms and videos), the music reference collection, and scores. This facility also includes state-of-the-art listening and media production rooms, as well as areas for study and research. Three digital music studios are housed in the School of Music building, providing state-of-the-art workspaces for students and faculty to investigate, create, and study music and music technology. The three studios have been designed to integrate completely, allowing projects to move from studio to studio depending upon the specific needs of the project.

The main Recording Studio is attached to the Phillip T. Young Recital Hall. It provides archival, audition, and production recording services for students, faculty, and the community. Twenty-eight microphone lines are available between the stage and recording booth. A Yamaha 01V96kHz console, Apogee “Big Ben” master clock, Millenium Media microphone pre-amps, a Digidesign 002 and Tascam DVRA-1000 are used for recording. Monitoring is provided by Dynaudio speakers and Bryston power amplification.

Studio Two is a post-production and editing suite that also houses the School's remote recording unit. Two editing systems, Merging Technologies Pyramix and Digidesign Pro-Tools, allow for maximum flexibility and integration with the other studios.

The Computer Music Studio has extensive facilities for digital audio exploration and creation, providing both the latest in software and computer-based digital resources and rare and iconic musical instruments and controllers. A Buchla series 200 analog synthesizer, Korg Wave Drum, and a permanently installed Max Matthews Radio Drum controller form the basic collection that is continually being added to. Pro Tools, Max/Max, Ableton Live, Kontakt, Sibelius, and other music software are installed on the main computer, a 24” G5 iMac. At the centre of the Studio is a Yamaha 01V96kHz, with monitoring provided by Mackie HR824 self-powered speakers.

In addition to the studios within the School, the Laboratory for Extended Media (LEM), which is open to all students enrolled in Fine Arts courses, provides audio-processing resources, digital video and image processing facilities.

Financial Support
The University of Victoria offers a limited number of Graduate Fellowships of up to $10,000 or $12,000 for 12 months (for Master’s and PhD students of high academic standing, respectively). Teaching Assistantships of $2,000-$6,000 are available to full-time students in exchange for help with aspects of the academic curriculum in the School, such as keyboard harmony labs, chamber music coaching, recording, directing the lecturing tutorials of the introductory music history courses, or otherwise assisting with music history and theory courses.

ADMISSION REQUIREMENTS

General
The School of Music gives priority in admissions considerations to students intending to register on a full-time basis.

Applicants to the master’s programs must hold a BMus or BA in music from a recognized university, with at least a B+ or 6.0 average in the work performed in the last two years (or last 30 units) of undergraduate study.

All applicants should submit a one to two-page statement outlining their background, their
goals as a musician and/or scholar, and their reasons for wishing to pursue their graduate degree at the University of Victoria.

Admission To Master's Programs
MA in Musicology
In addition to the standard admission forms, applicants to the Musicology programs should submit two examples of their work in the field of music history, including an honours paper or senior thesis if available, as well as a personal statement of research interests and professional goals that must demonstrate the suitability of our program to those goals.

All Musicology students are required to demonstrate a good reading knowledge of German or French. Reading knowledge of an alternate foreign language may be substituted if necessary to the candidate's intended field of specialization. The applicant's present level of ability in this language should be indicated in the admission statement. Those who do not submit such evidence will be required to pass language examinations before work on the thesis begins.

MA in Musicology (with Performance)
This program is intended for Musicology students who are proficient performers and who wish to continue serious study of their instrument while pursuing musicological research. Applicants for this program are required to submit two written examples of their work in the field of music history as well as the additional statement as described under the MA in Musicology, and either arrange for an audition or submit a tape as described under the admissions process for the MMus in Performance.

The language requirements are identical to those for the MA in Musicology.

MMus in Composition
Applicants for admission to the MMus in Composition program should submit, in addition to the regular admission forms, copies of scores and CDs or DVDs of their recent work in composition.

MMus in Performance
Acceptance to the MMus in Performance requires specialization at an advanced level in a specific performance medium (e.g., violin, piano, voice). Applicants are encouraged to audition in person. The audition repertoire should reflect a level of difficulty and variety appropriate for a graduate program, and be of at least thirty minutes in duration. Interested students are strongly encouraged to contact the School of Music Graduate Adviser or individual instructor by January 15 to discuss appropriate audition repertoire and to book an audition.

If live audition is not possible, applicants may submit a high-quality, unedited CD recording of at least thirty minutes duration, with repertoire selected as specified for live audition; in addition, these applicants are also encouraged to send a video-tape or DVD as well. Please note however that some instructors may require live audition for acceptance to their class; for additional information please contact the instructor or the Graduate Adviser. Internal candidates may either audition in person or use their BMus graduating recital as their audition, provided that the recital takes place before March 1.

MMUS in Performance — Emphasis in String Quartet
The School of Music offers an opportunity for outstanding string quartets to pursue graduate studies together within a two-year residency program. Members of the Lafayette String Quartet, Artists-in-Residence at the University of Victoria, will mentor students in the program. A quartet wishing to audition for the program should arrange for an audition through the Graduate Adviser or members of the Lafayette String Quartet. Each of the students comprising the quartet would audit both separately and as a quartet.

Admission to the PhD Program
Applicants to the PhD Program in Musicology must hold the master's degree in musicology, music history or music theory, or its equivalent, from a recognized university. They must also demonstrate potential for a career in musicology or music scholarship, and have a primary research interest compatible with the areas of specialization of the university's regular faculty.

A good reading knowledge of German, and French or Italian, is required of all applicants to this program. In addition, a reading knowledge of another foreign language may be required, if necessary to the candidate's intended field of specialization. Applicants should submit documentation of their ability in these languages with their applications (e.g., an official memo stating that language examinations were successfully completed). Those who do not submit such evidence will be required to pass language examinations before work on the dissertation prospectus begins.

Applicants are requested to submit two examples of written work, including the master's thesis or the equivalent if available, as well as a personal statement of research interests and professional goals that must demonstrate the suitability of our program to those goals.

Deadlines
Applications with supporting materials should be received by January 15 for domestic applicants or by December 15 for international applicants. Late applications will be considered if space is available; however, this is highly unlikely for applications received after March 15. Those applying after February 15 cannot be considered for a University fellowship.

PROGRAM REQUIREMENTS
Students admitted to a Master's program, and holding a Bachelor's degree from a university other than the University of Victoria, will be required to write a theory placement examination, involving the analysis of compositions from various style periods. The examination will be administered early in September, before classes begin. While the results of the examination will not affect the student's admission into the program, they will determine whether the student must take undergraduate theory courses. Theory courses numbered below 300 cannot be counted toward the course requirements of a Master's degree.

The student's work is guided by the Supervisory Committee (see the Faculty of Graduate Studies Guidelines). The supervisor chairs the committee. For Composition or Performance candidates, the supervisor is the student's major teacher; for candidates in Musicology, the academic supervisor is the person responsible for the guidance of the thesis or dissertation. The function of the supervisory committee is to assist the graduate student in all facets of the program whenever necessary; to supervise the preparation of the thesis or dissertation, composition or recital; to act as the core for the examining committee; and, generally, to supervise students' progress in the program.

Transfer credits for courses towards the master's and doctoral programs taken at other universities will be accepted only in exceptional circumstances. Transfer students should note that the Faculty of Graduate Studies will require them to pay the same number of fee installments for the degree as other students.

A student registered in the master's program may take up to 3.0 units of graduate courses at the 300 level or above; undergraduate credits must be approved by the academic supervisor and relevant to the student's program of study.

The Graduate Adviser administers the graduate program and is the faculty member responsible to the School of Music Director for the administration of graduate studies in the School of Music.

In addition to the requirements listed below, graduate students are encouraged to take an active part in the performing groups and musical life of the University, and to participate in the Graduate Colloquium.

MA in Musicology – Thesis Option
The MA in Musicology is an integrated program involving music criticism, analysis, and applied theory as well as cultural and historical study. It offers students close mentoring leading to the development of skills appropriate to a career in musicology.

Course Requirements

Bibliography (MUS 503) .................................. 1.5
Selected Problems in Theory and Analysis (MUS 500) ................................. 1.5
Graduate Forum in Musicology (MUS 533) ........................................... 1.5
Advanced Research Forum in Musicology (MUS 534) ............................... 1.5
MA Thesis (MUS 599) .............................................................................. 3.0

Four Musicology Seminars (6.0 units) to be selected from any of the following:
Topics in Musicology Before 1750 (MUS 530) .................................. 1.5
Topics in Musicology After 1750 (MUS 531) ...................................... 1.5
Comparative Topics in Musicology (MUS 532) .................................... 1.5

and a minimum of 3.0 units of electives, chosen in conjunction with the academic supervisor from the following:

MUS 500, 501, 502, 504, 506, 507, 530, 531, 532, 561, 580, 581, 590 (or approved undergraduate credit) .............................................. 3.0

Total: ............................................................................. 18.0

* Student may also select courses in other disciplines appropriate to the student’s research interests. Students are encouraged to select these electives to create a secondary area of concentration in music theory, performance, composition, ethnomusicology, or an area outside music relevant to their thesis work.
Thesis
A substantial thesis is required of all students in the MA in Musicology (MUS 599, MA Thesis), followed by an oral examination. The thesis proposal is completed in the context of MUS 534 (Advanced Research Forum in Musicology).

Other Requirements
These include the language requirement, the first-year review, and the oral comprehensive examination. In addition, students are expected to participate in Musicological Explorations, the graduate student journal in musicology and theory.

Language Requirement
Candidates are required to pass an exam in German, or another foreign language relevant to their intended field of specialization. Courses taken to prepare for this requirement are remedial. Students should discuss the administration and scheduling of this exam with their academic advisor. The language exam should be completed by Sept. 15 of the second year in the program.

First-year Review
By May 15 of the first year of study, candidates will submit a writing portfolio containing two samples of graduate work, proposed field topics for the comprehensive examinations, a preliminary draft of the thesis proposal, and a report on the status of the required language examinations. The musicology faculty will review the portfolio and provide comment on the candidate's progress in the program by May 31. At that time the student will also receive the faculty recommendation for School of Music secondary adviser for the thesis work.

Oral Comprehensive Examination
Full-time students are required to pass an Oral Comprehensive Examination in the context of MUS 534 (Advanced Research Forum in Musicology) during the fall term of their second year. The exam is designed to prepare students for doctoral work and teaching at the post-secondary level. In consultation with their academic supervisor, candidates develop a total of three topics of inquiry that address a range of approaches to musicology, theory, and analysis. The selection of these research areas takes place in the spring semester of the student’s first year, in the context of Music 533: Graduate Forum in Musicology. The selected topics are expected to represent a variety of historical periods and genres or issues that have not been addressed in his/her coursework and research experience.

Preparation for the Oral Comprehensives involves critical reading, listening and repertoire building, and evaluation of current research in each area; the student is expected to:
1. prepare a select formal bibliography of the most important "classic" and recent scholarship on each topic; this bibliography represents the student’s reading list for each area
2. prepare a repertoire list consisting of a select representative sampling of musical literature related to each area, including (where relevant) editions consulted and/or performances selected; this list represents the student’s required listening for each area
3. write a 2-3-page summary of the present state of research in each area
4. submit this material to the student’s academic supervisor one month before the scheduled Oral Comprehensive Examination

On the basis of the above, the musicology faculty will prepare a question related to each topic, which will be presented to the student two weeks before the oral examination. The Oral Comprehensive Examination will be adjudicated by the members of the musicology faculty, with the student's academic supervisor as chair, and will normally last about 60 minutes. The student will be requested to speak on the three pre-selected questions for about 30 minutes. The remaining time will be devoted to discussion of issues elicited by the research summaries, as well as additional questions related to them. The thesis proposal will also be formally presented to the supervisory committee in the course of the meeting. Unsuccessful exams may be repeated, once, no later than three months after the first test.

MA in Musicology (with Performance) – Thesis Option
This program is intended for musicology students who are proficient performers and who wish to continue serious study of their instrument. The program is modeled on the MA in Musicology, but reduces the seminar requirement in order to accommodate performance activities.

Students who already hold the MMus in Performance or the MA in Musicology are not eligible for this degree.

Course Requirements

Individual Tuition, taken each year (MUS 540) ........................................ 1.0
Bibliography (MUS 503) ............................................................................. 1.5
Graduate Forum in Musicology (MUS 533) ........................................ 1.5
Selected Problems in Theory and Analysis (MUS 500) ......................... 1.5
OR an additional 1.5 units of MUS 530, 531, or 532 .............................. 1.5
Performance Practices (MUS 504) .............................................................. 1.5
*Ensembles, taken each year (MUS 580) ................................................. 1.0
OR
*Chamber Music, taken each year (MUS 581) ........................................ 1.0
Lecture-Recital (MUS 596) ....................................................................... 1.0
Advanced Research Forum in Musicology (MUS 534) .......................... 1.5
Thesis (MUS 599) ..................................................................................... 3.0

1.5 units of the following:
Topics in Musicology Before 1750 (MUS 530) .................................... 1.5
Topics in Musicology After 1750 (MUS 531) .......................................... 1.5
Comparative Topics in Musicology (MUS 532) ...................................... 1.5
Graduate Forum in Musicology (MUS 533) ............................................. 1.5

and a minimum of 3.0 units of electives selected from the following:
MUS 501, 502, 504, 506, 507, 530, 531, 532, 533, 562B, 580, 581, 590, or approved undergraduate credit ............................................. 3.0

Total: ......................................................................................................... 18.0

Final Project
Candidates for the degree are required to complete one or more extensive original compositions (MUS 598B). These works will normally be performed during the final year of graduate study.

The candidate will also submit an analysis paper in addition to the graduating composition. The candidate's academic supervisor will approve the topic of the analysis paper and the graduating composition.

Final Examination
An oral examination will be administered by the supervisory committee a short time after the performance of the candidate's graduating composition(s). The student is required to demonstrate knowledge of the repertoire and major trends of contemporary music composition. Procedures and guidelines are available from the Graduate Adviser.

MMus in Composition – Project-based Option
The program includes private instruction in composition, and courses in musicology and theory. Opportunities are available to work in the School's electronic music studio and to take part in solo and ensemble performance.

Course Requirements

Seminar in Composition, taken each year (MUS 561) ............................... 1.5
Individual Instruction, taken in first year (MUS 555) ............................ 3.0
Grading Composition(s), taken in second year (MUS 598B) .................. 3.0
Selected Problems in Theory and Analysis, taken each year (MUS 500) 3.0
Bibliography, taken in first year (MUS 503) ............................................. 1.5

1.5 units of the following:
Topics in Musicology Before 1750 (MUS 530) .................................... 1.5
Topics in Musicology After 1750 (MUS 531) .......................................... 1.5
Comparative Topics in Musicology (MUS 532) ...................................... 1.5
Graduate Forum in Musicology (MUS 533) ............................................. 1.5

and a minimum of 3.0 units of electives selected from the following:
MUS 501, 502, 504, 506, 507, 530, 531, 532, 533, 562B, 580, 581, 590, or approved undergraduate credit ............................................. 3.0

Total: ......................................................................................................... 18.0

Graduate Adviser
Program Length
All master's programs require a minimum attendance of five terms, including two Winter Sessions, and at least 18 units of course credit. All requirements must be completed within five years (60 months) of the date of first registration.

MMus in Performance – Project-based Option
The candidate’s individual program is designed to further growth as a soloist and ensemble participant; in addition to performance-related courses, the program includes study in related areas, such as conducting, performance practices, and music history.

Course Requirements
MUS 580 - Ensembles, taken each year ........................................ 1.0
MUS 581 - Chamber Music, taken each year ................................ 1.0
MUS 545 - Major Instrument Study, taken each year ...................... 4.0
MUS 598A - Degree Recital .................................................. 1.5
MUS 503 - Bibliography, taken in first year .................................. 1.5
and a minimum of 3.0 units of electives selected from the following: MUS 500, 501, 502, 504*, 506, 507, 530, 531, 532, 533, 562A, 590, or approved undergraduate credit. 1.5
MUS 588 (optional)** .................................................... 1.0
Total .................................................................................. 18.0
* Note that one of the electives will normally be MUS 504 (Performance Practices)
** Addition to program, on recommendation of the supervisor

Final Project
All candidates will perform a final graduating recital (MUS 598A), followed by an oral examination.

Other Requirements
All graduate performance majors are expected to participate in ensembles where appropriate to their instrument, as determined by the Head of Performance and the student’s academic supervisor, in each year of their residency. Placement in large and small ensembles will be made according to the student’s needs and the needs of the School. In cases where the student’s instrument may not be appropriate to a certain ensemble type, as determined and approved by the supervisor, one ensemble yearly may be waived and the missing unit replaced by approved elective credit.

In order to qualify for MUS 545 (Individual Tuition, 4 units), the performance major must be registered as a full-time student, taking a minimum of 9 units of course work within an eight-month period.

Final Examination
An oral examination approximately one hour in duration will be administered by the student’s supervisory committee, which consists of members of the LSQ and a minimum of two non-string faculty members. The oral examination is approximately one hour in duration and takes place approximately one week after the final degree recital. Each member of the quartet will be expected to demonstrate knowledge of both the solo and chamber music literature for their instrument and to speak knowledgeably about the program choices over the course of study. The members of the quartet will be questioned individually and as a group. Procedures and guidelines are available from the Graduate Adviser.

Program Length
All master’s programs require a minimum attendance of five terms, including two Winter Sessions, and at least 18 units of course credit. All requirements must be completed within five years (60 months) of the date of first registration.

MMUS in Performance – Emphasis in String Quartet – Project-based option
This program is designed to develop growth in members of a quartet both as individuals and as an ensemble, and to develop quartet repertoire in preparation for a career in chamber music. During the two-year program the quartet will also hone their skills through various outreach programs and ensembles in the community.

Course Requirements
MUS 580 – Ensembles, taken once, in first year ................................. 1.0
MUS 540 – Individual Tuition, taken both years ............................... 1.0
MUS 545Q – Major Instrument Study – String Quartet Ensemble 4.0, taken both years .......................... 4.0
MUS 588** – MMus Practicum, completed before end of term 1 of second year ............................................. 1.0
MUS 5980** – Quartet Degree Recitals ......................................... 1.5
MUS 503 – Bibliography ................................................................ 1.5
One of MUS 531, 532, 504 .................................................. 1.5
and a minimum of 1.5 units selected from the following: MUS 500, 501, 502, 504, 506, 507, 530, 531, 532, 533, 536, 562A, 590, or approved undergraduate credit .................................................. 1.5
Total .................................................................................. 18.0
*Solo recital of the student’s principal instrument.
** Students in the MMus in Performance Emphasis in String Quartet program must complete a total of 3 recitals in their two-year residency to fulfill this requirement.

Final Project
The first two recitals are completed in conjunction with MUS 545Q; these recitals will be graded internally by the members of the Lafayette String Quartet and one additional faculty member. The third is the Degree Recital MUS 598Q, which is followed by an oral examination.

Final Examination
The oral examination will be adjudicated by the student’s supervisory committee, which consists of members of the LSQ and a minimum of two non-string faculty members. The oral examination is approximately one hour in duration and takes place approximately one week after the final degree recital. Each member of the quartet will be expected to demonstrate knowledge of both the solo and chamber music literature for their instrument and to speak knowledgeably about the program choices over the course of study. The members of the quartet will be questioned individually and as a group. Procedures and guidelines are available from the Graduate Adviser.

Program Length
All master’s programs require a minimum attendance of five terms, including two Winter Sessions, and at least 18 units of course credit. All requirements must be completed within five years (60 months) of the date of first registration.

UVIC Calendar May 2015
Program Withdrawal and Student Progression
In the event that one or more member(s) of the quartet withdraws from the program, the first priority would be to assist the remaining quartet members in finding a replacement. Another option would be to transfer the remaining members of the quartet directly into the regular MMus in Performance program. In such cases, credit in MUS 545Q would substitute for MUS 545 and the Chamber Music requirement (MUS 581) would be waived for the period that the student was registered in MUS 545Q.

PhD in Musicology
The PhD program in Musicology is small and selective, offering advanced students the opportunities for intensive, directed research in the areas of expertise of its faculty. It emphasizes professional training in research and scholarship. Given the current character of the discipline, the program encourages interdisciplinary work linking scholarship in music with related humanistic fields relevant to the student’s area of research.

Course Requirements
The School normally requires a minimum of 12 units of course work, usually taken during the first three semesters of study, successful completion of the candidacy examinations and language requirement, approval of the dissertation proposal, and the writing and defense of the dissertation. Courses will be chosen in consultation with the student’s academic supervisor and the supervisory committee.

Normally, the course work consists of 3.0 units of the following:
Graduate Forum in Musicology (MUS 533) ........................................ 1.5
Advanced Research Forum in Musicology (MUS 534) ..................... 1.5
3.0 units drawn from the following:
Topics in Musicology Before 1750 (MUS 530). 1.5
Topics in Musicology After 1750 (MUS 531) ................................ 1.5
Comparative Topics in Musicology (MUS 532) 1.5
and an additional 6.0 units of electives in music and other areas relevant to the student’s research as determined in consultation with the student’s supervisory committee. These may include a maximum of 3.0 units of undergraduate courses at the 300 level or above in a department outside the School of Music, if relevant to the student’s area of specialization. With the exception of MUS 421 (Special Topics in Musicology), no credit will be given for undergraduate courses taken in the School of Music.

In addition, students will register for MUS 689 Dissertation Proposal (1.5) in the semester in which the dissertation prospectus is developed. The Dissertation is prepared in conjunction with MUS 699 (PhD Dissertation) on successful completion of the PhD Candidacy Examinations (MUS 693) described below.

Candidacy Examinations
Students will register for MUS 693 PhD Candidacy Examinations (3.0) for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrolls in the PhD program and continues until candidacy requirements have been completed.

The candidacy examinations are normally taken before the end of the second year (but in exceptional cases no later than 36 months of first
enrolment in the program), and before registration in MUS 699 (PhD Dissertation). They consist of written and oral components. The examinations deal with ten topics selected in consultation with the academic supervisor and the supervisory committee according to the student's specific needs. Up to five of the topics may be related to his/her research area, and should represent a diversity of disciplinary approaches. The purpose of these topics is to ensure that the student has the knowledge base necessary for completion of the dissertation. The remaining field topics in music should lie outside the area of research concentration, and should represent contrasting historical periods, genres, or approaches to the field. The purpose of these topics is to ensure that the student has the disciplinary breadth essential to careers in the field. The student will submit the ten proposed topics to the musicology faculty in the first-year review portfolio.

After approval of the topics, the student will:
1. prepare a select formal bibliography of the most important "classic" and recent scholarship on each topic; this bibliography represents the student's reading list for each area
2. prepare a list of a representative sampling of musical repertoire related to each area
3. develop a mature grasp of the major musical issues, a critical perspective on the major research related to each topic, and an understanding of the cultural and intellectual context of each topic
4. formulate a question related to each topic
5. submit the bibliographies, repertoire lists, and proposed questions to the academic supervisor no less than four weeks before the scheduled oral examination

Members of the student's supervisory committee will select three of the questions, emending them as deemed appropriate, and the candidate will have two weeks to write an essay of at least 2000 words in length on each of them. The oral examination is taken in the presence of the student's supervisory committee, and is open to all School of Music teaching faculty. The examination will consist of a discussion of the three essays and the musical repertoire related to them; additional questions related to the remaining field topics and repertoire will follow. The duration of the examination is approximately two hours.

In case of failure in one portion of the candidacy examinations, the candidate may retake that portion. The requirements must be fulfilled within the calendar year and no sooner than six weeks after the original examination.

Candidacy
The student progresses to candidacy on completion of the candidacy examinations and demonstration of competency in the required languages. Two foreign languages related to the student's research are required, normally as part of the admissions process (see Admission to the PhD Program). Those who do not submit such evidence will be required to pass language examinations before work on the dissertation begins.

Other Requirements
By May 15 of the first year of study, students will submit a portfolio in order to demonstrate satisfactory progress toward the degree and in preparation for the comprehensive examinations. This portfolio should contain two samples of work completed in the course of the first-year graduate seminars, a listing of the proposed area of research concentration and the ten proposed field topics for the candidacy examinations.

The portfolio should also include a list of the proposed supervisory committee for the dissertation work and a statement regarding progress toward completion of the language requirement. Preparation of the first-year portfolio is completed in conjunction with the Graduate Forum in Musicology (MUS 533) in the spring semester of the first year. The musicology faculty will review the portfolio and provide comment on the candidate's progress in the program, supervisory committee, and the proposed comprehensive topics by May 31.

Dissertation
The student must register for MUS 689 Dissertation Proposal (1.5) in the semester in which the dissertation prospectus is developed. The prospectus is to be at least 20 pages in length, and should include:
1. a detailed summary of the topic and thesis
2. a description of the state of research in the chosen field of study, including specific references to existing published studies, their scope and limitations
3. a statement of the research problem(s) upon which the dissertation is to focus, and a summary of the proposed plan of study
4. a description of the state of the primary source materials and their immediate availability
5. a select but comprehensive bibliography of directly relevant scholarship

The prospectus is submitted for approval to all members of the student's advisory committee. The PhD dissertation must be an original contribution to knowledge. Between 20 and 30 units of credit are awarded for the dissertation.

Oral Examination
The dissertation is subject to an oral defense conducted by the supervisory committee and additional examiners, and open to the School of Music community.

Program Length
The PhD requires a minimum of three years of study, a minimum of 30 units beyond the master's degree, and the successful completion of the Course Requirements. All requirements must be completed within seven years (84 months) from the time of first registration in the doctoral program.

Co-operative Education
Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master's and PhD students. Master's students complete two work terms, and PhD students complete three (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to "General Regulations: Graduate Co-op" on page 34.

Neuroscience
GENERAL INFORMATION
The Graduate Program in Neuroscience is offered by faculty appointed in several units of the University including Biology, Biochemistry and Microbiology, Psychology, The School of Exercise Science, Physical and Health Education and the Division of Medical Sciences. It is hosted by the Division of Medical Sciences and offers specialized training in Neuroscience to students from a variety of backgrounds.

Contact information

Faculty Members and Areas of Research
Gautam Awatramani, PhD (State University New York)
- Synaptic physiology, multi-photon imaging, retina, optogenetics
Craig Brown, PhD (Calgary)
- Stroke neuroanatomy, fluorescence imaging
Robert Burke, PhD (Alberta)
- Cellular signaling and neural specification, developmental biology
Daniel Bub, PhD (Rochester)
- Cognitive neuropsychology, brain injury
Robert Chow, PhD (New York University)
- Neuronal cell type diversity, retinal development
Brian Christie, PhD (Otago)
- Learning and memory, synaptic plasticity, neurogenesis
Kerry Delaney, PhD (Princeton)
- Synaptic transmission and plasticity, neurodevelopmental disease
Josie R. Gawryluk, PhD (Dalhousie University)
- Clinical neuropsychology, neuroimaging, functional magnetic resonance imaging, changes in brain structure/function in disorder and recovery
Clay Holroyd, PhD (Illinois)
- Neurobiological mechanisms of cognitive control
Adam Krawitz, PhD (Michigan)
- Computational cognitive neuroscience of
Financial Support
All students accepted into the program are guaranteed a minimum stipend which can be comprised of a combination of scholarship, fellowship, Teaching Assistantship and support payments from individual research grants. For this reason students are accepted into individual laboratories as well as by the Program. Students admitted to the program will have as a home department the department or school in which their thesis supervisor has their primary appointment. Students will be eligible for fellowships and Teaching Assistantships administered by their supervisor’s home department. All graduate students are financially supported to undertake full-time graduate studies. MSc students deemed to be making satisfactory progress towards their degree requirements are guaranteed a minimum of $20,000 per annum for two years and PhD students $20,000 per annum for four years from the sources listed above. Funding is still available in additional years of the program but the minimum is no longer enforced.

ADMISSION REQUIREMENTS

General
Initial inquiries should be made to a prospective research adviser or the Graduate Secretary, Graduate Neuroscience Program. In addition to the documentation required by the Faculty of Graduate Studies (see page 17) students will need to supply a letter outlining the applicant’s research interests and identifying their prospective research supervisor(s).

Applicants whose native language is not English must write the TOEFL (Test of English as a Foreign Language) and submit scores to the Graduate Admissions and Records Office. A score of at least 630 on the paper based version of the test or 267 on the computer based test or an overall score of 90 on the internet based TOEFL is required.

Admission to the MSc Program
Admission requires a bachelor’s degree with course-work appropriate to the proposed thesis research concentration. Students who have achieved the minimum grade point average (GPA) of the home department during the last two years of study will be considered for direct admission to the Program. Students meeting the Faculty of Graduate Studies minimum will be conditionally considered for admission on a case-by-case basis. Students should have a Neuroscience faculty member agree to supervise them and agree to provide financial support in advance of applying to the program.

Admission to the PhD Program
Students can enter the PhD program having previously achieved a MSc degree, by transferring from the MSc program at the end of their first year upon recommendation of the supervisory committee or directly with a BSc. Students with a bachelor’s degree with course-work appropriate to the proposed thesis research concentration and a first class GPA (over 7.0 on the UVic 9.0 scale or around 80%) in their last two years of study will be considered for direct entry to the PhD program. Evidence of research experience including summer research, honors thesis work or peer reviewed publications will support application to the PhD program in the absence of a MSc degree. Admission based on a MSc qualification will normally require a graduate GPA of over 7.0 on the UVic scale. Applicants to this program will require the following to complete their application package:

- Official Transcript
- Acceptance by the Neuroscience Admissions Committee, and
- Acceptance from a faculty member willing to act as the student’s supervisor and guarantee minimum financial support requirement will be met,
- Two letters of reference.

Deadlines
To be eligible to be considered for a University of Victoria Fellowship applicants must submit their application package by February 15 for admission in September of the same calendar year. Admission is possible for September 1 or January 1 with a recommendation that applications be received a minimum of 3 months prior to the proposed entry date for Canadian applicants. Because of visa requirements international students should complete the application process at least six months in advance.

PROGRAM REQUIREMENTS

MSc – Thesis Option
The MSc is a full-time research degree with the requirement for a thesis and some additional coursework

Course Requirements
NRSC 500 .................................................. 3.0
NRSC 501A or 501B (first year) ................. 1.5
NRSC 502A or 502B (subsequent years) ....... 1.5
NRSC 595 .................................................. 1.5
NRSC 599 ................................................. 9.0–12.0
Electives ................................................. 1.5

All students must complete NRSC 500 Fundamentals of Neuroscience covering core concepts in cellular, systems and cognitive neuroscience. All students will be expected to enroll in a seminar and research presentation course in either Cellular (NRSC 501A) or Cognitive (NRSC 501B) Neuroscience for the duration of their enrollment in the program. In consultation with their supervisory committee students will complete an elective from courses offered by the Program or cross-listed with other departments. The thesis is expected to comprise a body of original experimental work which is of publishable quality defended in an oral examination in front of the supervisory committee and an external examiner from outside the candidate’s home department.

Program Length
The MSc is primarily a program of full-time independent research. Students can expect to take approximately two years to complete the program.

PhD Program
The PhD program is a full-time program of independent and original research leading to a dissertation which is defended in an oral examination. Normally, students must complete a candidacy examination within 21 months of entering the program. In addition to the courses...
listed below students may be required to take supplemental courses to address specific gaps in their preparation for their dissertation work at the advice of their supervisory committee. Students must enroll in the seminar and presentation course appropriate to their area of study for the duration of their enrolment in the program.

Electives | 3.0

Dissertation

The topic and scope of the dissertation research is determined by the supervisory committee and the candidate. The written dissertation must comprise an original work of research of a quality suitable for publication as at least one peer reviewed journal article.

Oral Examination

The dissertation must be defended in an oral examination in front of the supervisory committee and an external examiner from outside the university to ensure that the research and dissertation meet the required standard.

Program Length

The PhD is a full-time research degree that normally takes approximately four years to complete.

Nursing

GENERAL INFORMATION

The UVic School of Nursing is dedicated to excellence in accessible and innovative undergraduate and graduate nursing education, research initiatives, and professional activities. The School is committed to generating knowledge, advancing the nursing profession and discipline, and enhancing nursing practice to improve health for individuals, families, community, and society. Through collaborative partnerships among educators, students, health practitioners, researchers, and policy developers, we strive to support health and social change.

The School of Nursing Graduate Education Programs are based in a philosophical model that attends to coherence among and between ontological, epistemological, ethical, and practice dimensions. This model is fostered by values of openness, diversity, scholarship, and service related to human health.

Our School's faculty are widely recognized for their contributions to the advancement of nursing as a scientific discipline and practice profession through research, leadership, practice, teaching, publications and presentations. A comprehensive listing of nursing faculty is located at <www.nursing.uvic.ca>.

All teaching faculty, as well as students, have the benefit of working with a skilled group of professional and support staff.

Faculty Members and Areas of Research

Elizabeth Banister, PhD (Victoria)
Adolescent sexual health education; adolescent relational aggression; mentoring; knowledge translation; ethnography

Anne Bruce, PhD (British Columbia)
End of life care; contemplative practices in health and healing; mindfulness meditation; volunteerism in hospice care; interpretive inquiry

Gweneth A. Doane, PhD (Victoria)
Family and women's health; ethics, learning and teaching; interdisciplinary education and practice

Noreen Frisch, PhD (Southern Illinois)
Holistic nursing practice; nursing language and classification; and student development

Marcia Hills, PhD (Victoria)
Health promotion; curriculum development; family health; participatory action research; international health

Marjorie MacDonald, PhD (British Columbia)
Health promotion; community/public health; adolescent health; social and health policy; health program evaluation; advanced nursing practice; primary health care; qualitative research

Karen MacKinnon, PhD (Calgary)
Rural maternity care and perinatal nursing; interprofessional practice and education; the social organization of women's childbearing experiences and Institutional Ethnography

Anastasia Mallidiou, PhD (Alberta)
Health services research; organizational context (structures and processes) and its impact on patient/resident, healthcare provider, and system outcomes; quantitative research methods; structural equation modeling (SEM); systematic reviews; knowledge translation in the healthcare sector; leadership and health policy; healthcare systems; long-term care facilities (nursing homes); interdisciplinary education and collaboration

Lenora Marcellus, PhD (Alberta)
Neonatal nursing; transition of the high risk newborn to the community; creating supportive environments for neonatal development; perinatal substance use; women's health; leadership; quality improvement

Carol McDonald, PhD (Calgary)
The socio-political context of women's health, in particular the experiences of underserved groups such as older women and lesbian women; feminist hermeneutics and interpretive inquiry

Marjorie McIntyre, PhD (Colorado)
Philosophical/historical issues in nursing; feminist critique of women's healthcare practices; hermeneutics

Bernie Pauly, PhD (Victoria)
Nursing ethics; health policy ethics; harm reduction; health inequities; access to health care; homelessness; addiction; HIV/AIDS

Mary Ellen Purkis, PhD (Edinburgh)
Social accomplishment of nursing practice; effects of contemporary health care discourses (health promotion and self care) on nurses' practices; ethnography and discourse analysis

James Ronan, PhD (Arizona)
Health promotion and healing; primary care; nurse practitioner roles; health policy critique; global health in the contact of neoliberalism and globalization constructs

Esther Sangster-Gormley, PhD (c) (Dalhousie University)
Primary health care: the role and function of the nurse practitioner in the delivery of
primary health care. The acceptance role of the nurse practitioner by patients, physicians and health care administrators, and integration of the role into the health system

Debra Sheets, PhD (South California)
Gerontology; health promotion; humanities; arts and aging; family caregivers; guided autobiography; geriatric nursing education; evaluation research; end-of-life care

Rita Schreiber, DNS (State University of New York)
Women's mental health; depression; psychiatric-mental health nursing; professional misconduct; advanced nursing practice; grounded theory

Laurence Sheilds, PhD (Oregon)
Community; health promotion; empowerment; community nursing practice; life threatening illness and events; connectedness; people's experiences of health, illness and healing; narrative inquiry; feminist research; story as a metaphor of healing; spirituality

Kelli Stajduhar, PhD (British Columbia)
 Palliative and end-of-life care; family caregiving; home care; HIV/AIDS; oncology; vulnerable and marginalized populations; gerontology; health services research; qualitative and quantitative research methods; mixed method study design; collaborative, participatory research

Rosalie Starzomski, PhD (British Columbia)
Health care and nursing ethics; nephrology nursing; transplantation/organ donation; ethical issues related to biotechnology (e.g. genetic testing for polycystic kidney disease); health and social policy (e.g. consumer involvement in health care decision making); interdisciplinary collaboration; leadership and advanced nursing practice

Deborah Thouin, PhD (Texas)
Nursing theory based research; research methodologies congruent with human science perspective; exploration of lived experience such as time passing, suffering, facing the unknown

Madeline Walker, PhD (Victoria)
Online teaching, writing pedagogy, auto/biography, African American culture and literature, and literature and culture of the American South.

Lynne Young, PhD (British Columbia)
Family influence on individual response to heart-health initiatives; critical qualitative methodology conducted with research programs that include quantitative approaches

Degrees and Specializations Offered
The School of Nursing offers a number of graduate education opportunities. Students may enrol in one of four options through the School of Nursing directly and may apply for double master's degrees in Nursing and Health Information Science:
- The PhD in Nursing by Distributed Learning (even-numbered years)
- The Master of Nursing, Advanced Practice Nursing: Advanced Practice Leadership option (APL) by Distributed Learning
- The Master of Nursing, Advanced Practice Nursing: Nurse Practitioner option (NP) by Distributed Learning
- The Master of Nursing, Advanced Practice Nursing: Nurse Educator option (NUED) by Distributed Learning.

Applicants to interdisciplinary graduate programs identifying nursing as one of their disciplinary areas are welcomed and encouraged to contact the Associate Director of Graduate Programs in the School of Nursing as well as the Faculty of Graduate Studies.

Facilities
The University of Victoria School of Nursing is uniquely situated in the Faculty of Human and Social Development. This faculty consists of the Schools of Social Work, Child and Youth Care, Public Administration, Public Health and Social Policy and Health Information Sciences, as well as the Indigenous Governance Program and the Studies in Policy and Practice Graduate Program. Additionally, the School of Nursing provides the opportunity to pursue scholarly links with the University of Victoria Centre on Aging, the Centre for Youth and Society and the Centre for Studies in Religion and Society.

Off campus, we are linked with research centres at the University of British Columbia, including the Institute for Health Promotion Research, the Human Early Learning Partnership, the W. Maurice Young Centre for Applied Ethics, and the BC Centre of Excellence for Women's Health. We also have strong research and practice linkages with the Vancouver Island Health Authority, the Vancouver Coastal Health Authority, the Fraser Health Authority, the Interior Health Authority, the Provincial Health Services Authority and the Ministries of Health Planning and Health Services.

Financial Support
The UVic School of Nursing administers a number of awards to students enrolled in nursing graduate programs at the University of Victoria. Detailed information on these awards and application procedures is available from the UVic School of Nursing website: <nursing.uvic.ca>. All eligible students are encouraged to apply for funding from provincial, federal and external sources.

Faculty support will be available to students in the preparation of applications to major funding agencies. Students are not required to have funding in place when they apply to graduate programs in nursing; however, financial support may facilitate program completion.

Eligibility for nomination for scholarships administered by the School of Nursing will be determined on the basis of individual scholarship criteria, full-time registered status and Grade Point Average (GPA). The nomination for scholarship process is competitive. Nominations are reviewed by professional staff and faculty in the School on an annual basis.

Research assistantships in the School of Nursing are limited and will be publicized to all registered students should they come available.

Nursing Practice Requirements
Nursing practice experiences are essential components of the nursing program. Students may be required to travel outside their local community to complete practice experiences. Students must arrange their own transportation and accommodation. Any costs related to travel or accommodation involving nursing practice experiences are the responsibility of the individual student.

Code of Ethics and Standards of Practice
All students must adhere to the Canadian Nurses Association (CNA) Code of Ethics and to the Standards of Practice (or equivalent) of the registered nurses' licensing organization in the jurisdiction in which they are undertaking their practice experience. Students who fail to adhere to these may be required to withdraw from the program. Please refer to "Professional Conduct and Student Progression", below.

Criminal Record Reviews
While not a requirement for admissions, UVic students employed in cooperative work terms, placed in practica or enrolled as student members in professional organizations may be required to undergo criminal records reviews by legislation (e.g., BC Criminal Records Review Act), or because of the risk management policies of the organization with which the student will be associated. Students are responsible for providing authorization for the review to the employer, practice agency or professional organization upon request and/or cooperating in the conduct of the review as needed. Without this authorization or cooperation, an organization may revoke its offer of employment or placement. Usually, the student must pay for the review, although some employers will absorb the costs. Some units on campus, where students are frequently placed in situations requiring a review, may have standard information or practices regarding the procedure. However, the University has no responsibility to involve itself in this process. Students should check the administrative office in their own unit for any discipline-specific information.

Students undertaking practice experiences in a jurisdiction outside BC are responsible to ensure they have a Criminal Record Review or equivalent if required by their practice experience agency.

Applicants or students with criminal convictions are advised to contact the appropriate registered nurses’ association with regard to specific questions involving criminal convictions and ability to register as a nurse in the jurisdiction in which they are undertaking their practice experience.

Health Insurance Coverage
All students must maintain basic and extended health care coverage throughout the duration of the program.

Personal Respirator Fit Testing
Students must be fit-tested before initial use of their personal respirators and annually thereafter while in the MN program, and they must provide evidence of a personal respirator quantitative fit-test at least six weeks prior to attending any practice or Co-op placement or
provide a waiver of this requirement signed by the agency contact.

Agency Orientation/IT Access and Photo Identification

If not already completed, or as mandated by the agency prior to the start of a practice experience, students must fulfill the online and/or classroom requirements for staff orientation (see health authority website for requirements) and work with the graduate practicum coordinator to arrange for IT system access to health records, medication management, wound care, etc. Students must wear their UVic student ID as photo identification during practica.

Immunizations

Agencies require students to provide the School of Nursing with proof of current immunizations and TB status. An annual flu shot is required by health authorities, or students may be asked to wear a mask during contact with patients. All costs and responsibilities are the responsibility of the individual student and must be provided to the agency and the School of Nursing upon request.

Current Basic Life Support Certificate

All MN students must provide evidence of successful completion of basic life support level-C or higher six weeks prior to a practicum or Co-op experience or provide a waiver of this requirement signed by the agency contact. Current CPR level-C certification, or a waiver for each practicum site, must be on file in the School of Nursing to remain registered in the program.

Confidentiality Acknowledgement

Agencies require students to read a confidentiality policy and sign a confidentiality acknowledgement. Print the form from the student practice orientation webpage for the agency, sign the form and submit the acknowledgement to the agency (keeping a copy for your records).

Regulations Related to Active Practicing Registration

In addition to the above requirements, all students must have active practising registration as a Registered Nurse or the equivalent registration for the jurisdiction in which they are undertaking their practice experience. Students’ active registration status will be checked prior to practicum experience. Please note that students studying outside of BC are required to submit verification of active practising registration to the School of Nursing annually. Students studying in the US must also provide proof of current malpractice insurance, annually, for the duration of the program.

Non-Degree Student Practica Fee (CRNBC Nurse Practitioner Registration Applicants)

Non-degree students completing course work to meet eligibility requirements for NP Registration examinations with CRNBC must also pay a $750 practica fee in addition to tuition for the course(s) and any other fees associated with the student's current faculty status as assessed by the Faculty of Graduate Studies.

Electronic Log Fee – Nurse Practitioner Program

Nurse Practitioner students may be required to use an electronic log system and are responsible for paying fees associated with the purchase and maintenance of this log.

Professional Conduct and Student Progression

Within the University of Victoria School of Nursing, we are committed to open, transparent processes of evaluation. This means that we encourage students to be proactive in approaching their instructors about past progress and challenges as each new course starts. Faculty and staff at the School of Nursing work as a team to maximize learning opportunities and enhance the quality of instruction. Evaluative feedback about current and past student progress is shared by course instructors with other faculty or staff in the School of Nursing as needed in order to promote student success.

All students in the School of Nursing are subject to the provisions of the Canadian Nurses Association Code of Ethics for Registered Nurses, and the College of Registered Nurses of British Columbia (CRNBC) Professional and Practice Standards (or the equivalent in the province/territory/state in which the student practises). In addition to the above, the following School of Nursing practice regulations apply:

1. Where a student is enrolled in a nursing practice or Co-op course and there are reasonable grounds to believe that the conduct or lack of competence of a student enrolled in a nursing practice course has adversely affected, or may adversely affect, those associated with the practice placement including:
   - clients and/or their families
   - student peers, or
   - health care professionals or others in health related fields liaising with the UVic School of Nursing

OR The student has breached the Regulations Concerning Practica, the Canadian Nurses Association Code of Ethics for Registered Nurses or the CRNBC Professional or Practice Standards (or the provincial/territorial/state equivalent where the student's practicum is located), the course instructor may then:

   a) restrict activities of the student in the course in such manner as the instructor deems appropriate and/or
   b) suspend the student's continued participation in the course prior to the course end date, and/or
   c) assign a failing grade (grade F or N) to the student's performance in the course and report the failure to the Graduate Education Committee.

2. The School of Nursing Graduate Education Academic Review Committee will review a student's enrolment in a nursing practice course (including review of practice appraisals) and/or the nursing degree program where:

   a) a failing grade (grade F or N) has been assigned to the student's performance in a course,
   b) a report has been received that a student has breached the HSD Faculty Guidelines for Professional Conduct or Regulations Concerning Practica, the Canadian Nurses Association Code of Ethics for Registered Nurses or the CRNBC Professional or Practice Standards (or the provincial/territorial/state equivalent where the student's practicum is located).

After receiving a written request from the student, and giving the student an opportunity to be heard by telephone conference call, or in person, the Graduate Education Academic Review Committee (includes supervisor, interim supervisor or supervisory committee as applicable) may recommend to the Faculty of Graduate Studies that a student be permitted to retake a course in which a student has been assigned a failing grade (with or without additional requirements/conditions), OR require the student to withdraw from the graduate program in which the student is enrolled.

Admission Requirements

General

Initial enquiries regarding graduate programs should be addressed to the Graduate Adviser, School of Nursing. Application materials may be obtained from the Graduate Admissions and Records Office website <registrar.uvic.ca/grad> or the School of Nursing website <nursing.uvic.ca>. Each applicant will be assessed individually by the School of Nursing.

All applicants to the School of Nursing Masters of Nursing Graduate Programs must have completed an upper level (300 or 400) undergraduate statistics course at an accredited post-secondary educational institute with a final grade of B or above prior to admission. This course must have been completed within five years of application.

Admission to the PhD Program

All interested applicants are required to contact the PhD Program Coordinator in the School of Nursing before beginning the application process and to notify the Graduate Adviser in the School of Nursing of their intention to apply to the program.

Applicants will usually hold a baccalaureate and master’s degree in Nursing. Master’s degrees in other disciplines will be considered but students may be required to take additional courses to acquire the necessary grounding in nursing knowledge development.

Applicants will be expected to have achieved a minimum Grade Point Average (GPA) of 7 (or equivalent) on the UVic scale of 9 in their master’s program although students who have achieved a GPA of less than 7 and have appropriate work experience and additional credentials may be considered. In keeping with the current regulations of the Faculty of Graduate Studies, there will be no residency requirement per se. Nonetheless, students will be expected to maintain continuous registration throughout the program, which is structured to support them in moving through the requirements within specified time limits.

Direct Admission from UVic MN to PhD

The option of admitting directly from the MN program at UVic to the PhD program is intended for exceptional students who bring capacities and aptitude to be successful in doctoral studies and meet the recommended criteria. Please visit the website at <www.nursing.uvic.ca> or contact the PhD Program Coordinator for complete criteria and guidelines for applying for admission.
Application Requirements and Deadlines

Application information may be downloaded from the School of Nursing website <nursing.uvic.ca/graduate>. Applicants must provide two academic references. In addition, the School of Nursing requires the following:

- Evidence of your facility at scholarly writing for example, a published article, a chapter from your Master's thesis or a major paper submitted in a graduate course.
- Curriculum Vitae.
- All application materials must be submitted to the Faculty of Graduate Studies by December 1 of each year.
- Short-listed applicants will be invited to participate in a face-to-face or telephone interview.
- Applicants will be notified of admission to the program by March 15 of each year.

Please also check the School of Nursing website for ongoing program updates, <nursing.uvic.ca>.

Admission To Master's Programs

Applicants must usually hold an academic undergraduate degree in nursing. Usually a B+ average (grade point average of 6.0 on the University of Victoria scale of 9.0) for the last two years of university work is a minimum requirement for admission. Please note that practica, non-graded (pass/fail) courses, credit granted on the basis of life or work experience, or credit earned at institutions not recognized by the University will not be used in determining an applicant's admission grade point average or units completed. Any courses used in the calculation of the entering average cannot be used toward a graduate degree program. The Faculty of Graduate Studies may, therefore, be required to take nursing diploma or post secondary grades outside of the Bachelor of Science in Nursing degree into account when calculating application grade point averages in order to calculate on 30 units. Students must provide official verification of active practising registration as a Registered Nurse (or the equivalent in the jurisdiction[s] in which the student is taking the program). Active practising registration must be maintained for the duration of the program. A minimum of two years of relevant practice experience is usually required. Applicants to the Nurse Practitioner program must be residents of British Columbia. Applications from residents outside BC will not be considered.

The UVic School of Nursing holds the view that nursing is an academic discipline and a practice profession. The Canadian Association of Schools of Nursing (CASN) sets the standard for programs of nursing education in Canada. In order to ensure that applicants have the preparation to be successful at the graduate level prior to consideration for full admission, graduates from programs not accredited by the Canadian Association of Schools of Nursing (CASN) may be required to take a limited number of graduate level nursing courses as unclassified non-degree students, achieving a grade of B or above in each. These courses may be accepted for transfer credit in the MN program if the student is subsequently accepted.

Applicants must meet all of the admission requirements of the Faculty of Graduate Studies including submitting academic transcripts, assessment reports and application forms. In addition, applicants must submit a curriculum vitae outlining complete work and education history, and an employer’s reference. A letter of intent related to the program is required. Students whose first language is not English require an acceptable score on an approved English language competency test (see "English Language Proficiency", page 18). Nurse Practitioner applicants will be shortlisted and contacted for a face-to-face or telephone interview.

Recommended pre-admission criteria for applicants to the NP program:
- Recent completion (within five years) of a basic ECG interpretation course
- Recent completion (within five years) of an anatomy and physiology course at the graduate level
- Recent completion (within five years) of a physical assessment course at the graduate level

Applicants to all MN programs must provide evidence of successful completion of a basic life support level C course no more than 12 months prior to admission. A valid CPR level C certificate must be maintained for the duration of the program.

Applicants to all MN programs must complete an HSPnet form for use and disclosure of student information for practicum purposes.

Applicants to the double degree option in Nursing and Health Informatics must meet admission criteria for both programs. Application guidelines are available online at <nursing.uvic.ca>.

Applicants approved by the Faculty of Graduate Studies to take courses as non-degree graduate students may seek permission to register in graduate level courses in the Faculty of Human and Social Development, including the School of Nursing (up to two courses). The School of Nursing limits enrolment to one course prior to application to a graduate program. The course must be specified on the application for non-degree graduate studies, which must be submitted to the Graduate Admissions and Records Office. Permission to register is not guaranteed and is considered on a case-by-case basis as resources permit, pending instructor approval. Permission to take courses as a non-degree graduate student in the Faculty of Human and Social Development is not an offer of admission to any School of Nursing or Faculty of Human and Social Development graduate program, nor does it facilitate admission or unduly advantage applicants.

All students entering a graduate program in Nursing must have access to the Internet, email and Microsoft Office (i.e. Word and PowerPoint) as well as Adobe Reader or Adobe Acrobat for the duration of the program.

Synchronous learning sessions (booked online classes in real time) may be required for all MN program options. Students enrolled in the MN Nurse Practitioner Option are required to be available for weekly online synchronous learning opportunities.

Deadlines

The application deadline is December 1 of each year for APL, NUEB, and NUHI. The deadline for Nurse Practitioner applicants is November 1 of each year. Completed applications and supporting documents must be available for consideration by the School of Nursing on, or prior to, these dates.

Program Requirements

All students must achieve a GPA of at least 5.0 (B) for every session in which they are registered. Students with a sessional or cumulative average below 5.0 will not be allowed to register in the next session until their academic performance has been reviewed by the Graduate Education Committee and continuation in the Faculty is approved by the Dean of Graduate Studies.

Usually, all students registered in any nursing practice course must pass each course before proceeding further through the program. Students may, with permission of the Graduate Education Committee, repeat a failed nursing practice course and will be placed on academic probation for the remainder of the program.

The privilege to repeat a failed nursing practice course is allowed only once in the program. (See also “Professional Conduct and Student Progression”, page 138).

All students admitted to MN distance programs are required to attend an onsite orientation to their program in August, prior to program commencement in September. Failure to attend orientation could compromise admission to the MN program. Students unable to commit to the required onsite should consider applying at a later time. For Nurse Practitioner students, this orientation is in addition to the required onsite components that occur in term two to six in the NP program.

The full-time Nurse Practitioner option offers courses in a set sequence. A leave of absence up to one year is permitted. Before re-enrolment is authorized, students must demonstrate competencies at a level commensurate with their competency level prior to their leave of absence from the program. NP students withdrawn for more than one year must re-apply in competition with other applicants.

Master of Nursing programs admit full-time students only. Program core course enrolment is guaranteed for students who follow the program course sequence as identified online at <nursing.uvic.ca>. Students who fall “out of sequence” for any reason should contact the Graduate Adviser to discuss course planning in further detail. Please be advised that not all core courses are offered every term and that enrolment for out of sequence students is based on space and instructor availability.

All master's students must complete program requirements within five years of admission to the program.

Master of Nursing, Advanced Practice Nursing: Advanced Practice Leadership Option by Distributed Learning (Course-Based Masters)

The Master of Nursing degree in the Advanced Practice Nursing, Advanced Practice Leadership (APL) program offered by the University of Victoria School of Nursing, is a practice oriented and theory-based degree intended to prepare nurses for a wide variety of advanced practice roles.
Graduates of the program will be leaders in four spheres of influence: the interprofessional/intersectoral health spheres, the patient/client sphere, the nurses/nursing sphere, and the health systems/organization sphere. They will practice as Advanced Practice Nurses in a wide range of settings, including acute care, community, long-term care and primary health care.

**Course Requirements**

Students are required to complete 18.0 units of which 12 units are at the 500 level. Students consult with the Graduate Adviser in the School of Nursing to select courses aimed at meeting the students' particular academic needs.

---

**Advanced Practice Leadership**

**Course-Based Option (18.0 units):**

**Required Core APL courses (4.5 units):**

- NURS 506 (1.5) Philosophical Knowledge and Advanced Practice Nursing
- NURS 507 (1.5) Theoretical Knowledge and Advanced Practice Nursing
- NURS 508 (1.5) Methodological Knowledge and Advanced Practice Nursing

**Required APL concentration courses (13.5 units):**

- NURA 516 (1.5) Nursing Leadership I (Client and Nursing Spheres)
- NURA 517 (1.5) APL Praxis I
- NURA 518 (1.5) APL Praxis II
- NURA 519 (1.5) Nursing Leadership II (Health Systems and Policy Spheres)
- NURS 500 (1.5) Scholarly Writing for Advanced Practice Nursing
- NURS 509 (1.5) Evaluation of Health Care
- NURS 594 (1.5) Scholarly Inquiry: Integrating Knowledge and Practice
- NURA 596 (3.0) Nursing Scholarship: Integration and Dissemination

**Master of Nursing Thesis Option for Advanced Practice Nursing: Advanced Practice Leadership Option**

A thesis option is available for exceptional students who demonstrate an advanced ability to integrate theory related to advanced practice* and who meet the following criteria:

**Criteria for MN Thesis Option:**

- Confirmation of Thesis Supervisor
- Student-MN Supervisor consultation
- Recommendation of MN Supervisor
- Completion of and/or registration in all required courses prior to enrollment in NURS 599 (6.0 Units), which replaces NURS 596 (3.0 units)
- Completion of and/or enrollment in a minimum of one additional approved research course for a total of 22.5 units
- Normally an average of 85% (A) in required core courses as a minimum requirement for students wishing to pursue a thesis option. Students achieving less than this identified percentage would not be considered eligible to pursue a thesis option.

*Advanced practice can be conceptualized in relation to leadership (APL) or education (NUED).*

**Program Length**

Students studying full-time will normally complete the program within two years. Students completing a thesis will generally complete the program within three years. All students must complete the degree within five years.

---

**Master of Nursing, Advanced Practice Nursing: Nurse Educator Option - by Distributed Learning (Course-Based Option):**

The Master of Nursing degree in the Advanced Practice Nursing, Nurse Educator (NUED) option, offered by the University of Victoria, School of Nursing, is a practice oriented, theory-based degree intended to prepare nurses for advanced nurse educator roles in multisectoral settings.

Graduates of the program will have enriched capacity to work across the health care delivery sector and academic settings with the skills to influence nursing practice at the health facility level and the nursing education level.

**Course Requirements**

Students are required to complete 18.0 units of study including an onsite program orientation prior to program commencement. In addition to completing ten 1.5 unit courses, described below, students complete a 3.0 unit Capstone requirement.

**Nurse Educator Course-Based Option (18.0 units):**

**Required Core APN courses (4.5 units):**

- NURS 506 (1.5) Philosophical Knowledge and Advanced Practice Nursing
- NURS 507 (1.5) Theoretical Knowledge and Advanced Practice Nursing
- NURS 508 (1.5) Methodological Knowledge and Advanced Practice Nursing

**Required NUED concentration courses (13.5 units):**

- NUED 570 (1.5) Engaging with Pedagogy: Teaching and Learning in Nursing Education
- NUED 571 (1.5) Critical Pedagogy in Nursing Education and Evaluation
- NUED 572 (1.5) Intersectoral Course and Curriculum Design in Nursing Education
- NUED 573 (1.5) Nurse Educator Practice I
- NUED 574 (1.5) Nurse Educator Practice II
- NUED 500 (1.5) Scholarly Writing for Advanced Practice Nursing
- NUED 594 (1.5) Scholarly Inquiry: Integrating Knowledge and Practice Nursing
- NUED 596 (3.0) Nursing Scholarship: Integration and Dissemination

**Master of Nursing Thesis Option for Advanced Practice Nursing: Nurse Educator Option**

A thesis option is available for exceptional students who demonstrate an advanced ability to integrate theory related to advanced practice* and who meet the following criteria:

**Criteria for MN Thesis Option:**

- Confirmation of Thesis Supervisor
- Student-MN Supervisor consultation
- Recommendation of MN Supervisor
- Completion of and/or registration in all required courses prior to enrollment in NURS 599 (6.0 Units), which replaces NURS 596 (3.0 units)
- Completion of and/or enrollment in a minimum of one additional approved research course for a total of 22.5 units
- Normally an average of 85% (A) in required core courses as a minimum requirement for students wishing to pursue a thesis option. Students achieving less than this identified percentage would not be considered eligible to pursue a thesis option.

*Advanced practice can be conceptualized in relation to leadership (APL) or education (NUED).*

**Program Length**

Students studying full-time will normally complete the program within two years. Students completing a thesis will generally complete the program within three years. All students must complete the degree within five years.
Master of Nursing and Master of Science in Health Informatics by Distributed Learning (Double Degree Option)
The Master of Nursing and Master of Science in Health Informatics (Double Degree) option offered by the University of Victoria School of Nursing and School of Health Information Science, is a practice-oriented, theory-based degree intended to prepare nurses who are interested in health information technology to develop graduate level competencies in both Nursing and Health Informatics. The option is intended to prepare nursing leaders with a background essential for working in the rapidly expanding field of nursing and health informatics. Graduates will be prepared to take leadership roles in informatics, telehealth, implementation of electronic health care records and other areas of emerging health technology.

Course Requirements
Students are required to complete 31.5 program units including an onsite program orientation prior to program commencement. In addition to completing 25.5 units of course work students will complete a 6 unit thesis. An oral examination of the thesis proposal as well as the completed thesis will be required. There are also two required cooperative learning experiences in this option. Cooperative learning experiences must usually be undertaken outside of a student's current employment setting.

Required core APN courses (6.0 units)
NURS 506 (1.5) Philosophical Knowledge and Advanced Practice Nursing
NURS 507 (1.5) Theoretical Knowledge and Advanced Practice Nursing
NURS 508 (1.5) Methodological Knowledge and Advanced Practice Nursing
NURS 568 (1.5) Trends and Issues in Advanced Practice Nursing

NURS Electives (3.0)
Nursing electives are listed at the end of the Nursing section. Please note this is not a comprehensive list, further information about electives is available at the School of Nursing website.

Required core HINF courses (6.0 units)
HINF 501 (1.5) Database Design
HINF 503 (1.5) Research Methods in Health Informatics
HINF 550 (1.5) Health Information Systems Design
HINF 572 (1.5) Health Informatics: An Overview
HINF Electives (3.0)
Electives are chosen in consultation with the supervisors. HINF electives include, but are not limited to:
HINF 510 (1.5) Information Management and Technology
HINF 511 (1.5) Clinical Decision Support Systems
HINF 531 (1.5) Ethical and Legal Aspects of Health Informatics
HINF 551 (1.5) Electronic Health Record
HINF 560 (1.5) Health Care Quality Improvement
HINF 561 (1.5) Project Management in Health Informatics
HINF 562 (1.5) Procurement in Health Informatics
HINF 573 (1.5) Applied biostatistics
HINF 575 (1.5) Human Factors in Healthcare

Required Co-operative experience (6.0 units)
COOP (NURS) (3.0) Co-operative Experience Requirement
COOP (HINF) (3.0) Co-operative Experience Requirement

Required Thesis (7.5 units)
NURS 593 (1.5) Thesis Seminar
or
HINF 580 (1.5) Thesis Seminar
NUHI 599 (6.0) Thesis

PhD in Nursing by Distributed Learning
The PhD in Nursing Program will be delivered in a distributed – distance learning format, supplemented with two or three mandatory on-campus intensives. Generally, students will need to travel to UVic approximately once per year; however, additional visits may be required as appropriate for the student’s progress and supervision. Students will take distance courses through synchronous and asynchronous approaches. The program will require full-time enrolment.

Please contact the School of Nursing for further details.

The goal of the Doctoral Program in Nursing is to prepare nurse scholars to contribute to disciplinary knowledge, to demonstrate a critical understanding of works scholars in the field, and to conduct original research. Programmatic study involves engagement with a variety of philosophical and theoretical perspectives and methodological modes of inquiry with a view to human health. Graduates will be prepared to launch a program of research that addresses professional nursing practice, policy, or education as a way of enacting their chosen career paths.

PhD in Nursing graduates will be prepared to contribute to nursing knowledge in the following domains:
1. Research: Generating or extending disciplinary knowledge that informs and guides professional practice.
2. Teaching: Exploring processes of coming to know in relation to nursing knowledge, its influence on professional practice, and its use in research inquiry.
3. Practice: Generating, expanding, and critiquing nursing knowledge for the enhancement of professional practice.

Course Requirements
Programs of study are planned in relation to specified foci of nursing scholarship in concert with program design, supervisor expertise, and anticipated contributions to knowledge.

The PhD program requires satisfactory completion of at least 13.5 units of coursework (including a mandatory NURS 693 Candidacy Examination preparation course and Dissertation Seminars), candidacy exams, a 30-unit Dissertation, and a final oral examination for a total program requirement of a minimum 43.5 units. Students who are not enrolled in the PhD in Nursing program may take only one course in the program with the permission of the instructor in the course.

It is strongly recommended that students take a graduate level statistics course. This course is chosen in consultation with the student’s supervisor based on the student’s background and research area, and is distinct from all other required PhD courses.

The courses listed below reflect the minimum requirements for program completion, however it is generally expected that students take additional courses (including but not limited to a statistics course, NURS 620, NURS 690 and additional units of NURS 680) in order to strengthen their knowledge base for a successful dissertation.

Required courses
Nursing Science
NURS 601 (1.5) Philosophy in Nursing
NURS 602 (1.5) Epistemological Discourses in the Study of Nursing

Research
NURS 604a (1.5) Research Methodology for Nursing and Health Care: Qualitative
NURS 604b (1.5) Research Methodology for Nursing and Health Care: Quantitative
NURS 680 (1.5-4.5) Special Topics in Research Methods
NURS 693 (3.0) Candidacy Examination

Seminars
Doctoral seminars provide students with the opportunity to critique proposed, ongoing and completed research in both qualitative and quantitative research. Students will be expected to alternately lead and participate in these seminars. The seminars will be ungraded resulting in a “complete” or “incomplete” on the student’s academic record.

NURS 621 (1.5) Doctoral Seminar in Nursing Scholarship
NURS 622 (1.5) Dissertation Seminar

Candidacy
Candidacy will be held following satisfactory completion of required coursework and within three years of first registering as a doctoral student in the program. Candidacy exams will include both a written and oral component. Students will write two papers approximately 25-30 pages in length, one focused on the substantive area of interest and the other on a chosen research methodology. Following submission of the written candidacy papers, candidates will engage in an oral defense of their written papers.

Dissertation (30 units)
All doctoral students must write and publicly defend a research proposal and have it approved by their supervisory committee before continuing the research process. All doctoral students are required to prepare a dissertation upon which a public examination and defense is conducted. The dissertation must qualify as a significant and original contribution to disciplinary knowledge.

Elective Courses, Topical Seminars and Internships
In consultation with academic advisers and/or dissertation supervisors, students may seek or be required to enroll in additional, elective coursework. The number and nature of courses beyond those identified as required will vary according to the student’s academic background, research and practice experience, and career goals. Electives in the student’s substantive area and research method can be taken from the existing graduate program in the School of Nursing, courses developed by the School, in other departments or Faculties (in acknowledgement of the interdisciplinary nature of much nursing related research), by directed studies, or offered at other institutions (perhaps under the Western Dean’s Agreement). Opportunities to engage in research and teaching internships will be available. You will need to discuss the appropriateness of elective courses with a graduate academic adviser or your supervisor. The following courses may be of interest to students seeking to deepen their appreciation of research within the discipline (NURS 503, 504, NURS 620, 630, 680, 690).

Elective course options for all nursing graduate programs
The following courses may be applied by fourth year BSN (with permission), MN and PhD in Nursing students to respective BSN, MN or PhD program requirements. Students outside of the program option may choose from:
- Advanced Practice Leadership: NURS 503, 504, 509, 514
- Health Information Science: HINF 572, and one of 550, or 450. HINF 450 requires permission from department.
- Nurse Educator: NUED 570
- Nurse Practitioner: NUNP 531, 532, 540/541 (with permission from department); NURS 568 (not open to MN-NP students)

Co-operative Education
Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and work place experience – is available only in the double degree option Nursing and Health Information Science, and is required. Master’s students in the double degree option complete two work terms (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Students should contact the Health Information Science Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

Pacific and Asian Studies

General Information
The Department of Pacific and Asian Studies offers graduate programs leading to a Master of Arts degree in one of two streams: Area Studies or Literary and Textual Studies. The MA includes coursework work and the writing of a Long or Short Thesis. The department is multidisciplinary and covers China, Japan, Oceania and Southeast Asia. Particular research strengths include gender, national and ethnic identities; contemporary Asian fiction, cinema, popular culture; Chinese and Japanese linguistics; contemporary theatre (Indonesia, Japan); local societies, trade, globalization; Asian-Canadian studies; Oceania studies.

For further information, see the Pacific and Asian Studies departmental website: <web.uvic.ca/pacificasia>

Faculty Members and Areas of Research
Martin Adam, PhD (McGill)
Buddhism, with more general teaching interests in other Asian religious traditions (Hinduism, Jainism Confucianism, Taoism, Shinto)
Michael H. Bodden, PhD (Wisconsin, Madison)
Indonesian-Malay language; Southeast Asian literature, theatre, and popular culture
Katsuhiko Endo, PhD (New York)
Theory of capitalism, history of thought, modern Japan
Timothy Iles, PhD (Toronto)
Japanese cinema and contemporary fiction
Richard King, PhD (British Columbia)
Modern and contemporary Chinese fiction and popular culture
Tsung-Cheng Lin, PhD (British Columbia)
Chinese and European narrative theories; traditional Chinese poetry and narrative literature (particularly in ancient-style and yuefu poetry, Tang poetry, Qing poetry, Ming and Qing vernacular novels, and early Chinese narratives)
Andrew M. Marton, PhD (British Columbia)
Urban and regional development in China; Urbanization in Asia; Creative industries in China; Cultural politics of internationalization in Chinese higher education; Chinese business and society; Chinese urban youth culture; Social media and journalism in China; Administrative boundaries and regional governance in China

R. Christopher Morgan, PhD (Australian National)
Oceania; indigenous economies; trade and exchange; commoditization; land tenure; clan and class structures; ethnography and world history

Hiroko Noro, PhD (Toronto)
Japanese sociolinguistics; second language pedagogy; language and ethnic identity

M. Cody Poulton, PhD (Toronto)
Meiji era/contemporary literature; contemporary theatre; traditional Japanese poetry/theatre

Jun Tian, PhD (Victoria)
Chinese linguistics; applied linguistics; second language acquisition; second language writing and collaborative learning; teaching Chinese as a second language; teaching English as a second language

Adjunct Faculty Member and Areas of Research

Jordan Paper, PhD (Wisconsin, Madison)
East Asian Studies, Chinese religious traditions

Degrees and Specializations Offered

MA
Students may define their program of study by choosing to concentrate on (1) the Area Studies Stream (the social, cultural, historical, political and economic aspects of China, Japan, Oceania, or Southeast Asia); or (2) the Literary and Textual Studies Stream (the literary, artistic and cultural forms of China, Japan or Southeast Asia), Both streams emphasize the contemporary period and take an interdisciplinary approach to learning and research.

Facilities
The University of Victoria is building, within the University’s McPherson Library, a suitable collection of materials on the Asia-Pacific region. The department also makes every effort to provide students who require it modest funding for a research visit to the more extensive Asia-Pacific collections available in the University of British Columbia libraries in Vancouver. The University of Victoria is the home of the Centre for Asia-Pacific Initiatives and the Centre for the Study of Religion and Society, which offer fellowships and other programs and assistance to Pacific and Asian Studies graduate students with research plans corresponding to these centres’ respective mandates.

The University’s Humanities Computing and Media Centre and its CALL (Computer Assisted Language Learning) Facility are also excellent resources for students delving into studies and research in Pacific and Asian languages, linguistics, and computer assisted learning.

Financial Support
Pacific and Asian Studies students are eligible for University of Victoria Fellowships on a competitive basis. In addition, the department offers several top-up scholarships of varying amounts. Teaching and research assistantships are also available on a competitive basis. Eligibility for funding is based upon GPA in the last two years of undergraduate studies, suitability for teaching assignments, and continued good progress in the student’s graduate program. Students receive priority for funding during the first two years of the MA program. Prospective students are also encouraged to apply for external funding, such as SSHRC scholarships.

Admission Requirements

Admission To Master’s Programs
Candidates for admission to the MA program should have a minimum B+ (6.0) average in their last two years of undergraduate study and preferably have obtained their undergraduate degree in Asian Studies or a disciplinary field with significant Asia-Pacific-related coursework. International students whose native language is not English must provide proof of English language proficiency. Results from a TOEFL, IELTS or MELAB test are acceptable. For details please refer to “English Language Proficiency”, page 18.

Deadlines
Applicants from outside Canada must submit their application and all necessary materials by December 15. The deadline for domestic applicants is January 15. Students wishing to be considered for a University of Victoria Fellowship must apply by these deadlines.

Program Requirements
The Department of Pacific and Asian Studies offers graduate programs leading to the degree of Master of Arts. The MA includes course work and the writing of a thesis or major research paper.

Students may choose either a Long Thesis option or a Short Thesis option. Both options require 15 units of work.

Master’s – Long Thesis Option
This program requires 6 units of course work and a 9-unit thesis.

Program Requirements
Normally students must complete the following four 1.5 unit courses for the Area Studies Stream:

- PAAS 500 Theories of the Pacific Region
- PAAS 520 Special Topics in Pacific Studies
- PAAS 550 Research Methodologies
- PAAS 590 Directed Studies

Normally, students must complete the following four 1.5 unit courses for the Literary and Textual Studies Stream:

- PAAS 501 Cultural, Literary and Linguistic Theories in Asia-Pacific Studies
- PAAS 521 Special Topics in Asia-Pacific Literature, Linguistics and Culture
- PAAS 550 Research Methodologies

PAAS 590 Directed Studies

Other Requirements
In the case of students whose research topic requires them to use original language materials, supervisors may require additional language courses or a period of study overseas either before admission or during the course of the program.

Thesis
In this program, students write a thesis (PAAS 599) of 90-120 pages.

Oral Examination
There will be a final oral examination of the thesis, ideally occurring towards the end of the second year of the student’s program.

Program Length
The MA degree generally takes two years to complete, including the thesis, and normally requires the first year of study on campus as a full-time student.

No later than January 31 of the first year of study, the student will have formed her/his supervisory committee in consultation with the student’s supervisor.

The student may submit her/his thesis proposal to all members of the supervisory committee once the student has completed his/her mock proposal review no earlier than April 1st and no later than June 30th of the first year of study.

Master’s – Short Thesis Option
This program requires 9 units of course work and a 6-unit thesis.

Course Requirements
Normally students must complete the following 1.5 unit courses for the Area Studies Stream: PAAS 500, 520, 550 and 590. Normally, students must complete the following 1.5 unit courses for the Literary Textual Studies Stream: PAAS 501, 521, 550 and 590. Students may also select from among the following electives: PAAS 580 or PAAS 590 (taught by faculty member other than supervisor). Students may also take one undergraduate course numbered 300 or higher for graduate credit (subject to approval by the Graduate Adviser). Additional courses may be taken from other departments, up to a maximum of 3 units, selected in consultation with the Graduate Adviser and the student’s supervisor, and with permission of the other departments.

Other Requirements
In the case of students whose research topic requires them to use original language materials, supervisors may require additional language courses or a period of study overseas either before admission or during the course of the program.

Thesis
In this program, students write a thesis (PAAS 599) of 70-90 pages.

Oral Examination
There will be a final oral examination of the thesis, ideally occurring towards the end of the second year of the student’s program.

Program Length
The MA degree generally takes two years to complete, including the thesis, and normally
requires the first year of study on campus as a full-time student.

No later than January 31 of the first year of study, the student will have formed her/his supervisory committee in consultation with the student's supervisor.

The student may submit her/his thesis proposal to all members of the supervisory committee once the student has completed his/her mock proposal review no earlier than April 1st and no later than June 30th of the first year of study.

**Co-operative Education**

Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master's and PhD students. Master's students complete two work terms, and PhD students complete three (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

**Faculty Members and Areas of Research**

Margaret Cameron, PhD (Toronto)  
Medieval Latin philosophy, ancient philosophy, philosophy of language, logic  
Cindy L. Holder, PhD (Arizona)  
Social and political philosophy, philosophy of law, feminist philosophy  
Eike-Henner W. Kluge, PhD (Michigan)  
Medical ethics, medieval philosophy, information ethics  
Colin Macleod, PhD (Cornell)  
Contemporary political philosophy, ethics, and philosophy of law  
Michael J. Raven, PhD (New York University)  
Metaphysics, philosophy of language, epistemology, philosophy of mind  
Patrick Rysiew, PhD (Arizona)  
Epistemology, early modern philosophy, philosophy of language and philosophy of mind/cognitive science  
David Scott, PhD (Reading)  
Early modern philosophy, history of philosophy  
Scott Woodcock, PhD (Toronto)  
Ethics, philosophy of biology  
Audrey Yap, PhD (Stanford)  
Logic, philosophy of mathematics, history of mathematics and logic  
James O. Young, PhD (Boston)  
Philosophy of language, aesthetics and metaphysics

**Degrees and Specializations Offered**

The Department of Philosophy offers programs of study leading to the degrees of Master of Arts and Doctor of Philosophy.

This program has particular strengths in Aesthetics, Applied Ethics, Ethics, Epistemology, Feminist Philosophy, History of Philosophy, Logic, Metaphysics, Political Philosophy, and Philosophy of Language. Applications are particularly welcomed from students interested in these areas. Normally, applicants will have a strong undergraduate degree in Philosophy.

Please note that the department anticipates the program changing to a one-year program. Please contact the graduate adviser at <philgrad@uvic.ca> for more information.

**Facilities**

The University library holds around 25,000 Philosophy volumes. Currently we have 79 active journal subscriptions, including print and online subscriptions.

**Financial Support**

Entering students receive competitive financial packages tenable for one year. Students must apply by February 1st to be considered for a University Graduate Fellowship. Financial assistance may also be available in the form of RAs, TAs and departmental scholarships. All eligible students should apply for funding from external sources including Social Sciences and Humanities Research Council (SSHRC).

**ADMISSION REQUIREMENTS**

**Admission to the Master’s Program**

The Department of Philosophy normally accepts students for September entry only.

Admission to MA study in philosophy is normally restricted to students with a strong undergraduate degree in philosophy. Students must have a minimum B+ (6.0) average of the final 30 units of credit (or equivalent) of their Bachelor’s degree. The Department requires a minimum score of 580 on the standard TOEFL test for applicants whose native language is not English. A short sample of written work (about 10 pages) must be submitted with the application. For further information, visit <web.uvic.ca/philosophy/grad>.

**Admission to the PhD Program**

Admission to the PhD program in philosophy is restricted to students who hold an MA in philosophy or an equivalent degree. University regulations permit unusually promising MA candidates to move directly into a doctoral program. For further information, visit <web.uvic.ca/philosophy/grad>.

**Deadlines**

To be given full consideration for admission and funding, all applicants are asked to apply by February 1.

**PROGRAM REQUIREMENTS**

**Master’s Program**

**Course Requirements**

Students must fulfill three requirements:

1. Take 9 units of course work. With the permission of the Graduate Adviser, up to 1.5 units of this course work may be taken in departments other than the Department of Philosophy. The Research Methods Seminar (PHIL 591) must be taken in partial satisfaction of this requirement.

2. Students must register for and complete the Professional Development Practicum (PHIL 592) for 1.5 units.
3. Write a major research project of 4.5 units (PHIL 598).

Oral Examination
Required.

Program Length
One year.

PhD Program

Course Requirements
Students must fulfill three requirements:
1. Take 9 units of courses numbered 500 and above (except PHIL 598). With the permission of the Graduate Adviser, up to 3 units of this course work may be taken in departments other than the Department of Philosophy.
2. Complete a candidacy examination (PHIL 693). In fulfillment of this requirement, all students must satisfy a logic requirement and be examined on an area of philosophical specialization and an area of philosophical competence. A dissertation proposal must be approved by a student supervisory committee.
   A student will be required to display competence in one or more second languages when his or her supervisory committee determines that such competence is required by his or her program of research.
3. Write a dissertation of 18 units (PHIL 699).

Oral Examination
Required.

Program Length
Approximately four years.

Co-operative Education
Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master's students. Master's students complete two work terms (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to "General Regulations: Graduate Co-op" on page 34.

All MSc and PhD degrees are awarded with a major in Physics, while the department offers research specialization in the areas of study listed below. Note that the program requirements differ for research with a specific concentration in Astronomy, Medical Physics, or Ocean Physics.

**Areas of Study and Facilities**

**Astronomy and Astrophysics**: Faculty research interests include galaxy formation and evolution, clusters of galaxies, large-scale structure, computational astrophysics, galactic structure, stellar structure and evolution, gravitational lensing and stellar chemistry. The Astronomy Group benefits from close relations with the nearby Herzberg Institute of Astrophysics, its staff, telescopes (1.2m and 1.8m), and instrumentation. Faculty and students also have access to Canadian facilities such as the Canada-France-Hawaii 3.6m Telescope, the James Clerk Maxwell mm/submm Telescope, the Atacama Large Millimetre Array and the Gemini twin 8m telescopes.

**Condensed Matter Physics**: Condensed Matter Physics is the study of materials and their properties. The main focus at the University of Victoria is on nanoscale physics, in which the physical properties of magnetic, semiconductor and superconducting materials are studied on the nanometer scale, that is, a bit larger than the size of individual atoms. Nanoscale physics is a rapidly developing field that encompasses both fundamental studies and applications. Current research activities include ultrafast magnetic imaging using modern femtosecond laser techniques, in-situ studies of magnetic properties of both thin film and nanostructured magnetic materials, computational magnetic microscopy, semiconductor spintronics and quantum information, dynamics of superconducting materials on nanometer length scales, and time-resolved and spin-polarized scanning tunneling microscopy.

**Experimental Particle Physics**: The particle physics group is engaged in research at facilities around the world. As one of the designers and builders of the TRIUMF facility in Vancouver, it benefits from interactions with TRIUMF physicists and access to TRIUMF facilities. The current activities of the group include the operation of the BABAR detector at SLC and analyses of the data collected with it; detector construction and physics studies for the ATLAS experiment at CERN; detector research and development projects associated with the T2K long-baseline experiment and future e+e- linear colliders; and development and deployment of grid computing.

**Medical Physics**: Application of radiation (photons and electrons) to the treatment and diagnosis of disease. Project areas include the development and application of Monte Carlo based dose calculations, 3D radiation dosimetry, intensity modulated radiation therapy, portal imaging, radionuclide therapy, and the application of spectroscopic techniques for treatment monitoring. Work is carried out in conjunction with the Vancouver Island Cancer Centre of the BC Cancer Agency in Victoria and the life science program at TRIUMF in Vancouver.

**Ocean Physics and Geophysics**: Research is conducted in the department and also in association with the School of Earth and Ocean Sciences at UVic and at the nearby Institute of Ocean Sciences, the Pacific Geoscience Centre, and the Canadian Centre for Climate Modelling and Analysis. Current ocean physics activities include observational and theoretical studies of ocean mixing, air-sea interaction, estuarine circulation, breaking waves and bubble clouds, and the investigation of many topics related to the analysis and modelling of interannual variability of the earth’s climate. The program includes applications to programs of societal concern as well as basic research.

**Theoretical Physics**: Current areas of research focus on questions in particle and astroparticle physics: the physics of the electroweak scale, the nature of dark matter, and the role of particle physics in the early universe. Further research areas include more formal study of strongly interacting regimes of quantum field theory and fluid dynamics, using various techniques e.g. from string theory. The group has links with TRIUMF, and the Perimeter Institute.

**Financial Support**

See <www.phys.uvic.ca>.

**Admission Requirements**

See <www.phys.uvic.ca>.

**Admission To MSc Programs**

The normal prerequisite for all programs is a (UVic equivalent) Honours degree in Physics, Astronomy or related subjects. Students admitted to the MSc program, but with backgrounds judged to be less than that of a UVic Honours degree (e.g. a Major degree), are normally required to take additional undergraduate courses in Physics, Astronomy and Mathematics to satisfy the stated prerequisite.

**Admission To PhD Programs**

The normal prerequisite for all programs is a (UVic equivalent) MSc degree in Physics, Astronomy or related subjects. Students already registered in the UVic MSc program may have the opportunity to enter the PhD program directly via the MSc-to-PhD transfer process. See <www.phys.uvic.ca> for further details and requirements.

**Admission to the GCMP Program**

The normal prerequisite is a PhD in Physics (or related areas) from a recognized post-secondary institution. The CAMPEP accredited Graduate Certificate in Medical Physics is a two-semester program of study for students with a PhD in Physics wishing to transition to a clinical career in Medical Physics. Students completing this...
program will be qualified to enter CAMPEP-accredited residency programs.

**International applicants**

Applicants for MSc programs who completed their undergraduate degree at a non-Canadian university are normally expected to take the Graduate Record Examination (GRE), General and Subject exams, and submit the results to the Graduate Admissions and Records Office. Applicants for MSc, PhD or GCPM programs whose native language is not English must also satisfy the English Competency Requirement for the Faculty of Graduate Studies (see "Faculty Admissions", page 17, for details). Students with this qualification may still be required to complete English language courses along with their program-related course work.

**Program Requirements**

See <www.phys.uvic.ca>.

Students registered in the graduate program are expected to make satisfactory progress in the program of research and coursework agreed to with their supervisor and supervisory committee. Students may also apply for Teaching Assistantships (TAs) as part of their financial package.

**Grades**

Graduate students must maintain a cumulative GPA of at least 5.0 (B) for all required courses (namely those specified by the student's supervisory committee as part of the program). Individual course grades of B- or below are considered unsatisfactory and trigger a notification of Faculty of Graduate Studies grade requirements, with a subsequent review and recommendation for action by the supervisory committee.

**Candidacy Exam**

The candidacy exam (PHYS 693) is required of all PhD students and is normally taken within the first 18 months of, and no later than two years after, a student's first registration in (or transfer to) the PhD program.

**Thesis**

The thesis requirement for MSc and PhD degrees (PHYS 599 or PHYS 693) applies to all students, independent of program concentration. All registrations in PHYS 693 must be accompanied by registration in PHYS 693 until PHYS 693 has been passed.

**MSc in Physics**

**Program Requirements**

PHYS 500A, 500B and 502A plus an additional 1.5 units chosen from the PHYS graduate course list. 6.0

Additional courses as required. 3.0

Colloquium PHYS 560. 0.0

Thesis (normally 6.0 units) PHYS 599. 6.0

Final oral examination

Total (minimum). 15.0

**MSc in Physics — Concentration in Ocean Physics**

**Program Requirements**

Normally a minimum of 6 graduate course units (at least 3 units chosen from PHYS 500A, 500B, 502A). 6.0

Additional undergraduate or graduate courses as required (minimum). 3.0

(A student who has not previously taken PHYS 426 or its equivalent would normally take it as part of this requirement.)

Students (admitted to the master's program) not having at least one 1.5 unit senior undergraduate course in each of Electromagnetic Theory and Modern Physics are normally required to complete these courses in addition to the above requirement.

Colloquium PHYS 560. 0.0

Thesis (normally 6.0 units) PHYS 599. 6.0

Final oral examination

Total (minimum). 15.0

**PhD in Physics — Concentration in Medical Physics**

**Program Requirements**

1. Such other courses as required by the supervisory committee, with the total number of course units beyond the BSc level being normally at least 13 and including at least 3 units from PHYS 500A, 500B, 502A or their equivalent.

2. Colloquium PHYS 560 (0.0 units).

3. Satisfactory completion of a candidacy examination, PHYS 693 (3.0 units).

5. Final oral examination.

**PhD in Physics — Concentration in Ocean Physics**

**Program Requirements**

1. Such other courses as required by the supervisory committee to bring the total of graduate course units beyond the BSc level to at least 12, of which at least 9 units must be graduate.

2. Colloquium PHYS 560 (0.0 units).

3. Satisfactory completion of the Candidacy examination, PHYS 693 (3.0 units).

5. Final oral examination.

**Graduate Certificate in Medical Physics**

**Program Requirements**

1. PHYS 534, 535, 539, 540, 544 and 545. 7.0

2. Graduation requires completion of all required courses with a minimum grade of B.

**Co-operative Education**

Participation in the Co-operative Education program — which enables students to acquire knowledge, practical skills for employment, and workplace experience — is optional for Master's and PhD students. Master's students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op coordinator, to participate in the Co-op program. Interested students should contact the Physics and Astronomy Co-op office early in their first term. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

Faculty Members and Areas of Research

Colin J. Bennett, PhD (Illinois)
Comparative politics and public policy (advanced industrial countries); American
government and politics; information and communications policy

Michelle Bonner, PhD (Toronto)
Comparative politics; Latin American politics;
democratization; human rights; social
movements; police violence and reform;
gender and politics.

Marlea Clarke, PhD (York)
African Politics (South and Southern Africa
focus), political economy of development,
labour and social movements, employment
and labour market restructuring,
globalisation and democratisation in Africa,
gender and political, health and human rights.

A. Claire Cutler, PhD (UBC)
International relations theory; international
law and organization; private international
trade law; international political economy;
dispute resolution

Rita Kaur Dhamoon, PhD (UBC)
Identity/difference politics and power,
including multicultural policies and theories,
culture and politics, nation-building, gender
politics and feminism, intersectionality,
critical race theory, post-colonial and anti-
colonial politics, solidarity politics, citizenship
and democratic politics, with specialized
focus on Canada.

Avigail Eisenberg, PhD (Queen’s)
Democratic theory including pluralism,
feminism and minority rights; Canadian
politics including constitutional law and
politics, minority groups, human rights and
civil liberties

Simon Glezos, PhD (John Hopkins)
Contemporary Political Theory; IR Theory;
Speed and Technology; Theories of the State;
Theories of Political Violence; Globalization;
Contemporary Information Technologies;
Capitalism and Resistance

Matt James, PhD (UBC)
Canadian constitutionalism and citizenship,
Canadian politics, social movements, prestige,
political theory

Arthur Kroker, PhD (McMaster)
Technology, culture and theory; contemporary
French and German political theory; Canadian
political and social thought; ethics and
biotechnology

James (Jamie) Lawson, PhD (York)
Canadian Politics and Public Policy; natural
resource policy and politics; environmental
policy and politics; forest policy and politics;
Canadian political economy; indigenous/
newcomer relations; historical and
geographical approaches to politics;
philosophy of history.

Warren Magnusson, DPhil (Oxford)
Contemporary social and political thought;
governmentality and politics; the local and the
global; the political economy of the urban;
urbanism as a way of life

Oliver Schmidtke, PhD (European Univ. Inst.,
Florence)
Citizenship and Immigration; identity politics;
comparative politics; xenophobia and racism;
European integration

Heidi Kiivetinepinesik Stark, PhD (Minnesota)
Comparative Indigenous Politics, Aboriginal
and Treaty Rights, Federal Indian Policy, and
Indigenous Law

Reeta Tremblay, PhD (Chicago)
Her areas of research include: Comparative
Politics and Comparative Federalism, South
Asian Political Economy, Nation-State and
Secessionist Movements in India and Indian
Popular Cinema.

Amy C. Verdun, PhD (European University
Institute, Florence)
European integration studies; monetary
integration; European integration theory;
European comparative politics; international
political economy; international relations

B. J. (Rob) Walker, PhD (Queen’s)
Contemporary social and political thought;
thecies of discourse, ideology and culture;
philosophy of social science; international
political theory; concepts of space and time in
political thought; modernity/postmodernity.

Scott Watson PhD (UBC)
International relations theory; international
security; migration and refugee policy;
securitization theory.

Michael C. Webb, PhD (Stanford)
International political economy; globalization
and governance; Canadian foreign policy

Andrew Wender, PhD (U Vic)
Middle East politics; interconnectedness among
religion, politics, society, and culture within
the Middle East and globally; political thought
within historical contexts; comparative
political thought; politics in relation to world
history

Guoqiang Wu, PhD (Princeton)
Comparative politics (developing,
authoritarian, and communist countries),
liberalization and democratization, East Asian
politics, China, Hong Kong, Taiwan, Asia-
Pacific international relations, Chinese
political thought

Feng Xu, PhD (York)
Chinese politics, comparative politics (East
Asia); gender politics (especially East Asia);
migration and citizenship; national and
diaspora identities; policy ideas, translation
theory and global hegemony

Degrees and Specializations Offered
The Department of Political Science offers a
program of study leading to the degrees of Mas-
ter of Arts and Doctor of Philosophy in Political Science.
The MA program provides an opportunity for
advanced research in most areas of Political Sci-
ence. The PhD program is especially appropriate for
students interested in any of the six areas of
concentration:

A. Contemporary Political Theory
B. International and Transnational Politics
C. Democratic Constitutionalism
D. Comparative Public Policy and Governance
E. Cultural, Social and Political Thought
F. Politics of the Global South

Full information on supervisory resources and
Political Science courses can be found on the de-
partment’s website: <web.uvic.ca/polisci/
graduate>

Facilities, Research Centres and
Internships
In addition to the range of courses and faculty
expertise within the department, the program
has many interdisciplinary resources and
opportunities. Students are encouraged to take
at least one course outside of the department.
There is an extensive expertise on political
issues in other departments, including Indigen-
ous Governance, Law, Philosophy, Women’s Stud-
ies, History, Environmental Studies and Public
Administration. In addition, all six areas of
concentration in the PhD program are deeply em-
bedded in interdisciplinary perspectives. For ex-
ample, Democratic Constitutionalism involves
collaboration among the Departments of Phil-
osophy, Political Science and Law; Cultural,
Social and Political Thought combines perspec-
tives from Anthropology, English, History,
Political Science and Sociology; Comparative
Public Policy and Governance draws on resour-
ces from Political Science and Public
Administration.

A full slate of seminars, colloquia, lectures and
conferences provide many excellent opportuni-
ties for collegial interaction among graduate
students and between graduate students and
faculty. These include the Victoria Colloquium
on Political, Social and Legal Theory which stu-
dents may take for course credit. This collo-
quium involves the interaction of theorists with
international reputations and students from a
variety of disciplines.

The department also has strong ties with vari-
ous research centres on campus, including the
Centre for Pacific and Asian Initiatives, the
Centre for Global Studies, the Centre for European Studies and the Centre for Studies in Religion and Society.

The department also collaborates in the administration of British Columbia’s Legislative Internship Program. Interns may receive a two-course (3 unit) credit for a research report related to their work (POLI 380) which they are required to submit to the program committee. This program is offered only to selected graduates of British Columbia universities, who must apply to the program and will be chosen on a competitive basis. Further information is available at: <www.legis.gov.bc.ca/info/2-5.htm>.

Financial Support

Political Science students are eligible for University of Victoria Fellowships. In addition, the department offers several scholarships of varying amounts. Students are automatically considered for internal scholarships and are awarded on a competitive basis. The department also offers teaching and research assistantships, which are also awarded on a competitive basis, with priority given to incoming students. All candidates applying to our master’s program by the January 15th deadline are automatically considered for a teaching assistantship. All other students must apply. All eligible students are also strongly encouraged to apply for funding from external sources such as SSHRC.

ADMISSION REQUIREMENTS

General

Admission into the department is determined on a competitive basis. Applications are first reviewed by the Graduate Admissions and Records Office and then by the Political Science Admissions and Awards Committee. In addition to the materials required by the Graduate Admissions and Records Office (two letters from academic referees, application form and official transcripts), the department asks all master’s applicants to submit a one-to-two page statement of research interests. It requires that PhD applicants submit a two-to-five page statement of intent and a sample of their scholarly work, normally an academic paper. Not all students who meet the minimum requirements can be admitted. Typically, eight to ten MA students and two to five PhD students are admitted into the program each year.

Applicants for admission whose first language is not English, who are not holding a recognized degree from a country where English is an official language, or who have resided in Canada or other English-speaking countries for less than five years of the initial registration, must take the Test of English as a Foreign Language (TOEFL) and achieve a minimum score of 600 (paper test).

Admission to the Master’s Program

The normal minimum for admission to the MA program is a Bachelor of Arts (BA) preferably in Political Science, with an average of B+ (6.0 GPA) in the final two years of study leading to this degree. Students without a strong background in Political Science may be considered for admission upon completing a non-degree undergraduate unclassified year of course work in upper-level political science courses and attaining first-class standing.

Admission to the PhD Program

The normal minimum for admission to the PhD program is an MA in Political Science with an average of A- in all Political Science graduate courses. The department will only consider applicants who are interested in one of the six areas of concentration: Contemporary Political Theory; International and Transnational Politics; Democratic Constitutionalism; Comparative Public Policy and Governance; Cultural, Social and Political Thought; Politics of the Global South.

Concentration in Cultural, Social and Political Thought (CSPT)

This interdisciplinary program is open to selected MA and PhD students in English, Environmental Studies, History, Political Science and Sociology. Students must apply for admission to the CSPT Program Director. Only students who have already accepted into a MA or PhD program in English, Environmental Studies, History, Political Science or Sociology may be admitted to CSPT. For full information about the program see <www.uvic.ca/socialsciences/politicalscience/graduate/cspt>.

Students must meet the core graduating requirements of the individual departments as well as specific requirements of the CSPT program. See also the entry for “Concentration in Cultural, Social and Political Thought (CSPT)”, page 120.

Deadlines and Entry Points

To be given full consideration for admission and funding, all domestic applicants are asked to apply by January 15 for September admission. International applicants must apply by December 15. The admissions process closes on May 15. Both the MA and PhD programs have September entry points.

PROGRAM REQUIREMENTS

All programs must be approved by the graduate adviser to ensure balance and focus in each student’s program.

Master’s Program

The Political Science department offers only a thesis option MA program, which includes 6 units of course work and a thesis worth 9 units. The Master’s program is designed to be completed in 12 months. Part-time study is permitted, but the degree must be completed within five years of the initial registration.

Course Requirements

All MA students are required to complete four 1.5 unit courses. At least two of these courses (3 units) must be taken from the following list of field seminars: POLI 300, 308, 309, 316, 540. Students may take one course (1.5 units) that is either a senior undergraduate course (300 or 400 level), a directed readings course (POLI 390) or a graduate course offered by another department. Students may take the remaining course (1.5 units) from other graduate courses offered in the department.

Master’s Thesis

All MA students are required to write a Master’s thesis (POLI 599) worth 9 units which is no longer than 100 pages and which they defend through an oral examination conducted by their supervisory committee and an examiner chosen from outside the Political Science department. Full-time students are required to have a thesis proposal approved by their supervisory committee by May 15 of the academic year in which they entered the program.

Summary of Requirements

Field Seminars (POLI 300, 308, 309, 316, 540) ........................................ 3.0 Elective courses ........................................ 3.0 Thesis proposal complete Thesis (POLI 599) ................................. 9.0 Total .................................................. 15.0

MA Program with CSPT

CSPT Master’s students must complete 7.5 units of course work. Students must complete POLI 509 (1.5 units), a field seminar drawn from the following list: POLI 507, 508, 516, 540 (1.5 units); one additional graduate seminar in Political Science (1.5 units); and two CSPT graduate seminars (3.0 units). Students must also complete a University of Victoria Fellowship worth 9 units. All units must be within the field of CSPT. At least two members of the examining committee must be drawn from the faculty members affiliated with the CSPT program.

Summary of Requirements

POLI 509 ....................................................... 1.5 Other POLI Field Seminar .......................... 1.5 Other POLI Graduate Seminar ..................... 1.5 CSPT Graduate Seminars ............................ 3.0 Thesis proposal complete Thesis (POLI 599) ........................................ 9.0 Total .................................................. 16.5

PhD Program

PhD candidates are required to complete 42.0 units in accordance with the following program:

Course Requirements

All PhD students are required to complete six 1.5 unit graduate courses beyond the MA degree, including POLI 600 (Professional Development Seminar). Students must choose two field seminars (3 units) (POLI 607, 608, 609, 616, 640, CSPT 601), one in each of the areas in which they will be taking a candidacy examination. Students electing to take the candidacy examination in Comparative Policy and Governance (jointly administered with the School of Public Administration) must take Poli 607, Poli 610 and one field seminar. Students must also complete POLI 693 (Candidacy Examination—3.0 units). Students may be required to complete an additional course in methodology at the request of their supervisory committee. The remaining elective courses may be taken from PhD seminars offered by the department. Students may also choose to take one graduate course (1.5 units) (and no more than two graduate courses) from outside the Political Science department. Students must pass all course work with at least a B- average before proceeding to the field examinations.

Professional Development Seminar

POLI 600 is a compulsory seminar worth 1.5 units for PhD students in Political Science that runs from September until April. Students are introduced to the professional aspects of the
GRADUATE PROGRAMS

discipline including: how to write grant applications, how to teach effectively, how to design a syllabus and a CV, how to contribute to the administrative and intellectual community in their department and in political science more broadly.

Candidacy Examinations
Field seminars will help prepare students for candidacy written and oral examinations. Readings for the candidacy exams will be broader than the course work and will be determined according to reading lists drawn up by the faculty in the field being examined and in consultation with the student. Students must successfully complete candidacy examinations in two of the following fields: Canadian Politics, Comparative Politics, International Relations, Political Theory. Students may substitute one of these examinations for an interdisciplinary examination in Comparative Public Policy and Governance or Cultural and Social Political Thought.

Dissertation
Within three to six months after passing the candidacy examinations, students are required to write and orally defend a dissertation proposal before their supervisory committee. The proposal and oral defense must be considered satisfactory before the student may proceed to the dissertation. All students are required to submit and orally defend a dissertation worth 30 units of credit.

Summary of Requirements
3.0 units of field seminars (POLI 607, 608, 609, 616, 640; CSPT 601) ................. 3.0
Elective courses .................. 4.5
Professional Development
Seminar (POLI 600) ................. 1.5
POLI 693 .................................. 3.0
Completion of two Candidacy Examinations
Dissertation Proposal
Dissertation (POLI 699) ................. 30.0
Total ................................ 42.0

CO-OPERATIVE EDUCATION
Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and workplace experience – is optional for full-time Master's and PhD students. Master's students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op co-ordinator, to participate in the Co-op program. Interested students should contact the Political Science Co-op office before the second week of their first term. Students are also referred to “General Regulations: Graduate Co-op”, page 34.

PhD Program with CSPT
CSPT doctoral students must meet the core requirements of their own department as well as the specific requirements of the CSPT program. A CSPT PhD student must complete 9.0 units of course work including POLI 600 (Professional Development Seminar). Students must complete POLI 609 (1.5 units), CSPT 601 (1.5 units); two other graduate courses in Political Science (3.0 units), and one other CSPT course or a related subject approved by the CSPT program director.

Students must write a dissertation that meets the requirements of both the Department of Political Science and the CSPT program. The topic must be within the field of CSPT. At least two members of the examining committee must be affiliated with the CSPT program.

Students enrolled in the CSPT program must successfully complete a candidacy examination in CSPT.

Summary of Requirements
POLI 609 .................................. 1.5
CSPT 601 .................................. 1.5
Other POLI Graduate Seminars .......... 3.0
CSPT Graduate Seminar ................. 1.5
Professional Development
Seminar (POLI 600) ................. 1.5
POLI 693 .................................. 3.0
Completion of two Candidacy Examinations
Dissertation Proposal
Dissertation (POLI 699) ................. 30.0
Total ................................ 42.0

Psychology

GENERAL INFORMATION
The Department of Psychology offers programs leading to the degrees of Master of Science and Doctor of Philosophy. We offer training to the PhD degree in five areas of specialization: Clinical Psychology (with specialization in Neuropsycho rehabilitation and Lifespan Development), Cognition and Brain Science, Experimental Neuropsychology, Lifespan Development, and Social Psychology. In addition, individual areas of study leading to the MSc or PhD degree may be designed according to the interests of individual students and faculty members. The clinical psychology training program is fully accredited by both the Canadian and American Psychological Associations.

The programs are designed to provide students with:
• knowledge and training in their area of specialization
• the skills necessary to conduct and communicate the results of new research and to work co-operatively with others in a research environment; and
• opportunities to gain practical experiences in various aspects of professional psychology.

The PhD involves at least two years of study beyond the master’s degree, of which at least one entire Winter Session must be as a full-time student.

For more information, please see our website.

Faculty Members and Areas of Research
C. A. Elizabeth Brimacombe, PhD (Iowa State)
Eyewitness testimony, social psychology, social cognition
Daniel N. Bub, PhD (Rochester)
Normal object identification, category-specific agnosia, semantic memory, face recognition
Catherine L. Costigan, PhD (Michigan)  
Clinical psychology, children and adolescents, families, immigration, culture/ethnicity, children with disabilities  

Marion E Ehrenberg, PhD (Simon Fraser)  
Clinical psychology, parenting and adjustment in divorcing families, professional issues in child custody and access  

Mauricio A. Garcia-Barrera, PhD (U of Georgia)  
Executive functions, prefrontal cortex development, neuropsychological assessment, ADHD  

Jody Gawryluk, PhD (Dalhousie)  
Clinical neuropsychology, neuroimaging, functional magnetic resonance imaging, changes in brain structure/function in disorder and recovery  

Robert Gifford, PhD (Simon Fraser)  
Environmental, social-personality  

Frederick M.E. Grouzet, PhD (UQAM)  
Social psychology, positive psychology, human motivation and self-regulation, life goals and social values, self-determination theory, psychological well-being and happiness, pro-social and pro-environmental behaviours, cultural and life transition, posttraumatic growth.  

Scott M. Hofer, PhD (U of Southern California)  
Cognitive aging, developmental methodology, longitudinal studies, lifespan development  

Clay B. Holroyd, PhD (U of Illinois at Urbana-Champaign)  
Neurobiological mechanisms of cognitive control, error detection and correction  

Michael A. Hunter, PhD (Simon Fraser)  
Multivariate methods, theory of parametric vs. nonparametric statistical inference  

Kimberly A. Kerns, PhD (Chicago Medical School)  
Pediatric neuropsychology, clinical psychology, attention and memory disorders  

Adam Krawitz, PhD (Michigan, Ann Arbor)  
Cognitive neuroscience, working memory, executive control, decision-making, functional magnetic resonance imaging, computational modelling  

Christopher E. Lalonde, PhD (British Columbia)  
Social-cognitive development in childhood, children's theories of mind, identity development, cultural influences on development  

Bonnie J. Leadbetter, PhD (Columbia)  
Developmental psychopathology, depression, teen parenting, problem behaviours, victimization and injury prevention  

D. Stephen Lindsay, PhD (Princeton)  
Memory and cognition, subjective phenomenology of cognition, eyewitness memory  

Stuart W.S. MacDonald, PhD (UVic)  
Cognitive aging, life-span development, predictors of cognitive decline, analysis of change  

Michael E. J. Masson, PhD (Colorado)  
Cognitive psychology, memory, language comprehension, object identification, skill acquisition and computational models  

Catherine A. Mateer, PhD (Western Ontario)  
Clinical neuropsychology, cognitive rehabilitation, memory, attention and executive function, brain injury  

Ulrich Mueller, PhD (Temple)  
Development of executive function, social-communicative development, role of language in social-cognitive development, history of developmental psychology  

Andrea M. Piccinin, PhD (USC)  
Statistical methods for longitudinal data, cognitive development, aging  

Marsha G. Runtz, PhD (Manitoba)  
Clinical psychology, child maltreatment, family violence, women's health  

Ronald W. Skelton, PhD (British Columbia)  
Cognitive neuroscience, spatial cognition, recovery from brain injury, outcome measurement  

Colette Smart (Loyola, Chicago)  
Clinical neuropsychology, cognitive rehabilitation, mindfulness, attention and emotion regulation, older adults, acquired brain injury  

Danu A. Stinson, PhD (Waterloo)  
Self-esteem, relationships, health  

Timothy Stockwell, PhD (London, UK)  
Prevention of alcohol and other drug-related harm, alcohol and other drug policy, measurement of alcohol consumption and related harms  

James W. Tanaka, PhD (Oregon, Eugene)  
Face recognition, expert object recognition, human electrophysiology, autism  

Holly Tuokko, PhD (UVic)  
Clinical neuropsychology, cognitive aging, cognitive decline, competence, mental health  

Erica Woodin, PhD (Stony Brook)  
Clinical psychology, domestic violence, substance abuse, prevention  

**Degrees and Specializations Offered**  
- Master of Science in Clinical Psychology  
- Master of Science in Psychology  
- Doctor of Philosophy in Clinical Psychology  
- Doctor of Philosophy in Psychology  

**Facilities**  
Our department has the following facilities for training and research.  
- Psychology Clinic  
- The Brain and Cognition Laboratory  
- The Human Interaction Lab  

**Financial Support**  
All applicants are considered for University fellowships, but there are many more qualified applicants than there are awards. A limited number of teaching assistantships is available from the department during the Winter and Summer sessions. Some faculty members employ students as research assistants. All eligible students are encouraged to apply for funding from provincial (e.g., BC, AB), federal (e.g., NSERC, SSHRC) and external (e.g., Alzheimer’s Society) agencies. The Psychology department strives hard to provide at least some financial assistance to all graduate students in the programs. These are typically in the form of teaching and research assistantships. University of Victoria fellowships and awards are available on a competitive basis. For a summary of various sources of support available to graduate students in Psychology, please see <web.uvic.ca/psyc/grad/grad-rules/Appendix_C.htm>. Specific programs (e.g., Cognition and Brain Science) have financial “packages” for graduate students. For the most up-to-date information, please see our website. All eligible graduate students are expected to apply for funding from provincial, federal and other external sources during their tenure in the graduate program.  

**ADMISSION REQUIREMENTS**  

**General**  
An undergraduate degree in psychology or its equivalent is required (a minimum of 5 courses in psychology are required). An overall average of 80% (B+) or equivalent in psychology courses and an overall average of 70% (B) or equivalent in non-psychology courses is recommended. Applicants should have completed at least one course in applied statistics and courses in major areas of psychology such as learning/ cognition, physiological/neuropsychology, and social/personality/abnormal psychology. Students whose first language is not English must take the Test of English as a Foreign Language and receive a score of at least 600 on the paper-based test.

**Graduate Record Examination**  
Under typical circumstances, applicants must provide scores from the General Test (verbal, quantitative, and analytical writing sections) of the Graduate Record Examination (GRE) unless an exemption is sought and approved by the department Graduate Executive Committee. No specific cut-off scores are used to determine acceptability.

**Personal Letter**  
Applicant must also provide a personal letter that:  
1. identifies the primary area of specialization desired  
2. describes areas of research interest  
3. names at least two faculty members with whom the applicant wishes to work  
4. gives details of current activity (e.g., courses in progress)  
5. indicates whether financial support will be required  

Admission requires that a faculty supervisor is available.

**Clinical Psychology Applicants**  
Applicants intending to pursue clinical training with specialization in neuropsychology or lifespan development must declare their intent at the time of application under Field of Study. Such applicants will then be reviewed by the admissions committee for the clinical program based on:  
1. background, interest and experience  
2. competitiveness of transcripts with other applicants for clinical training  
3. a personal interview focusing on interests and suitability for clinical training  

The academic progress and clinical aptitude of students admitted to clinical training will be reviewed annually.
Students providing psychological services to children and other vulnerable individuals at the Psychology Clinic and at practicum settings in the community will be required to complete a Criminal Record Check.

**Deadline**

Applications are due at the Graduate Admissions and Records Office by December 1st. Students should keep in mind that substantial lead time is required to register for and take the GRE (and, if required, the TOEFL) in time for results to be received within the deadline. For students applying to the Clinical Psychology program, all documents, including GRE scores, MUST be received by the deadline. For students not applying to the Clinical Psychology program, application documents (e.g., GRE scores) received after the application deadline MAY be considered, but this is not guaranteed.

The Department of Psychology makes every effort to communicate offers of admission by April 1st.

**Program Requirements**

All degrees require that students satisfy the Psychology department's breadth requirement, called Undergraduate Competence Requirement (UCR). Students will be asked to demonstrate competence in the areas listed above (under Admission Requirements - General) by the end of the first year of graduate studies. Competence may be demonstrated in various ways such as by passing or successfully challenging undergraduate courses or by passing graduate courses.

**Master of Science in Psychology**

**Course Requirements**

PSYC 502: Research Apprenticeship (3.0 units)

**Methods and Statistics Requirements (3.0 units)**

Lifespan Development Emphasis:

Two of PSYC 518, 532, 533, 560

Neuropsychology Emphasis:

Either:

Two of PSYC 518, 532, 533;

or

One of PSYC 518, 532, 533 and one of PSYC 504 (topic must be statistics/methods related), 541, 574A, or 574B

**Clinical Courses**

PSYC 581, 582, 583, 584, 585, 589; 597 (in each of first two winter sessions in residence)

**Required Courses for the Neuropsychology Emphasis**

PSYC 502: Research Apprenticeship (minimum 1.5 units)

Graduate-level statistics (3.0 units chosen from listing in departmental Graduate Program Regulations)

**Required Courses for the Cognition and Brain Science Track**

Two of* PSYC 576A, B, C, D or E

Minimum of 1.5 units of PSYC 504

PSYC 577 each winter session in residence

**Required Courses for the Experimental Neuropsychology Track**

PSYC 540*, 550*

Minimum of 1.5 units of electives (e.g., PSYC 551, 575, 576A, B, C, or D)

**Required Courses for the Lifespan Development Track**

PSYC 560*, 561*

One of PSYC 562, 563, 568

**Required Courses for the Social Psychology Track**

PSYC 520* (1.5 units); PSYC 527* (1.5 units); 1.5 units of electives (e.g., PSYC 507, 518, 521, 522, 523, 526, 531)

* If offered during the first or second year of student's master's training.

**Thesis**

A thesis (PSYC 599) is required for all master's degree programs. The thesis should be based on original research in an established research area (typically in their supervisor's field). Prior to conducting the research, students are expected to orally present a proposal of their thesis to their supervisory committee. The supervisory committee must approve this proposal before the student can begin the proposed thesis study.

**Oral Examination**

An oral exam of the completed thesis must be satisfactorily passed.

**Program Length**

Students should expect to complete all degree requirements in two, but not more than three, years of full-time study.

**Manual for the Graduate Program in Clinical Psychology**

Students will be issued a Manual for the Graduate Program in Clinical Psychology at the beginning of their MSc programs. This manual details program requirements, rules, and procedures, relevant to the clinical psychology graduate student.

**Master of Science in Psychology**

**Course Requirements**

PSYC 502: Research Apprenticeship (minimum 1.5 units)

Graduate-level statistics (3.0 units chosen from listing in departmental Graduate Program Regulations)

**Required Courses for the Cognition and Brain Science Track**

Two of* PSYC 576A, B, C, D or E

Minimum of 1.5 units of PSYC 504

PSYC 577 each winter session in residence

**Required Courses for the Experimental Neuropsychology Track**

PSYC 540*, 550*

Minimum of 1.5 units of electives (e.g., PSYC 551, 575, 576A, B, C, or D)

**Required Courses for the Lifespan Development Track**

PSYC 560*, 561*

One of PSYC 562, 563, 568

**Required Courses for the Social Psychology Track**

PSYC 520* (1.5 units); PSYC 527* (1.5 units); 1.5 units of electives (e.g., PSYC 507, 518, 521, 522, 523, 526, 531)

* If offered during the first or second year of student's master's training.

**Thesis**

A thesis (PSYC 599) is required for all master's degree programs. The thesis should be based on original research in an established research area (typically in their supervisor's field). Prior to conducting the research, students are expected to orally present a proposal of their thesis to their supervisory committee. The supervisory committee must approve this proposal before the student can begin the proposed thesis study. The completed dissertation must be satisfactorily defended at an oral exam.

**Program Length**

Students should expect to complete all degree requirements in five to six years beyond the MSc, and one year longer for students who completed their master's training at another institution.

**Manual for the Graduate Program in Clinical Psychology**

Students will be issued a Manual for the Graduate Program in Clinical Psychology at the beginning of their PhD programs. This manual details program requirements, rules, and procedures, relevant to the clinical psychology graduate student.

**Doctor of Philosophy in Psychology**

**Course Requirements**

Graduate-level statistics or methods (3.0 units chosen from listing in departmental Graduate Program Regulations); must be different from those taken to fulfill the MSc Methods and Statistics requirements.
Required Courses for the Cognition and Brain Science Track
At least one of PSYC 576A, B, C, D or E*
Minimum of 1.5 units of PSYC 602; minimum of 1.5 units of PSYC 604
PSYC 557 each Winter session in residence
Electives approved by the student’s supervisory committee.
* Two courses required if only one taken for MSc.

Required Courses for the Experimental Neuropsychology Track
PSYC 543*
At least one of* PSYC 518, 541, 574A, 574B, 574C, STAT 563
Electives approved by the student’s supervisory committee.
* If offered in first two years of program and not already taken for MSc.

Required Courses for the Lifespan Development Track
PSYC 564 (1.5 units); two of PSYC 562 (1.5 units), PSYC 563 (1.5 units), PSYC 568 (1.5 units)
Electives approved by student’s supervisory committee.

Required Courses for the Social Psychology Track
PSYC 527* (1.5 units) and one of PSYC 519* (1.5 units), PSYC 520* (1.5 units)
Electives approved by the student’s supervisory committee.
* If offered in first three years in program and not taken in Master’s.

Candidacy Examinations
Major and Minor Exams
Students have 36 months from the time of first registration in the doctoral program to complete the exams. Students registered in PSYC 699 must also be registered in 693 concurrently until 693 is complete.

Dissertation
A dissertation is required for all doctoral degree programs. A dissertation must be based on original research and should be of publishable quality. Prior to conducting the research, students are expected to orally present a proposal of their dissertation to their supervisory committee. The completed dissertation must be satisfactorily defended at an oral exam.

Program Length
Students should expect to complete all degree requirements in two to three years of full-time study beyond the MSc.

Co-operative Education
Participation in the Co-operative Education program – which enables students to acquire knowledge, practical skills for employment, and workplace experience – is optional for full-time Master’s and PhD students. Master’s students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op co-ordinator, to participate in the Co-op program. Interested students should contact the Psychology Co-op office before the second week of their first term. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

Public Administration
GENERAL INFORMATION
Since 1974, the School of Public Administration has been offering innovative and diverse programs for current and prospective practitioners in the public and non-profit sectors. We aspire to be a leading community of students, practitioners, alumni, faculty and staff developing knowledge through teaching, research and professional development.

Faculty Members and Areas of Research
Catherine Althaus-Kafer, PhD (Griffith University), Associate Professor
Political risk calculation, public sector leadership, policy-making processes, religion and politics
Herman Bakvis, PhD (UBC), Professor
Intergovernmental relations, government structure and organization, political parties and interest groups
Emmanuel Brunet-Jailly, PhD (U Western Ontario), Professor
Local government and politics, cross-border regions, comparative urban politics.
J. Barton Cunningham, PhD (Southern California), Professor
Quality of working life, organizational theory, decision making, stress and motivation, human resource management.
Lynda Gagné, PhD (UBC), Assistant Professor
Child care policy, children outcomes, social programs, applied econometrics and microeconomics
David Good, PhD (California, Berkeley), Professor
Public sector reform, budgetary and policy-making process; social policy
Budd Hall, PhD (UCLA), Professor
International community development, community-university engagement, social movements

Adjunct Faculty Appointments
Olive Brandes, LLB (UVic), Adjunct Professor
Leslie Brown, BSW (Regina), MPA, PhD (UVic), Adjunct Professor
John L. Fryer, BSc (London), MA (Pitt), Adjunct Professor
Laurie Jackson, BSc, MEd (UofA), PhD (UVic), Adjunct Professor
Harvey Lazar, BSc (McGill), MA (UBC), PhD (LSE), Adjunct Professor

John Langford, PhD (McGill), Professor
Canadian politics and government, machinery of government, administrative ethics
Evert A. Lindquist, PhD (California, Berkeley), Director of the School of Public Administration and Professor
Machinery of government and policy-making, policy communities and networks, the role of think tanks
James N. MacGregor, PhD (Victoria), Professor
Organizational behaviour, human information processing
Richard T. Marcy, PhD (Oklahoma), Assistant Professor
Public sector leadership, leadership development, adaptation and cognition in organizations, management of meaning in organizations
James C. McDavid, PhD (Indiana), Professor
Program evaluation, performance management, local government service delivery
Tara L. Ney, PhD (Southampton), Associate Professor
Conflict-related impact of policy, discourse theory and conflict, war-affected children, family law policy, health care policy processes, restorative justice
Lynne Siemens, PhD (Hertfordshire), Associate Professor
Community development; entrepreneurship and small business; rural economic development; government and business relations; organizational behaviour; academic team development
Kimberly Speers, PhD (Alberta), Assistant Teaching Professor
Policy analysis and public policy; government relations and management consulting; performance measurement and planning
Lindsay Tedds, PhD (McMaster), Associate Professor
Underground economy; tax non-compliance; economics of taxation; public economics; time use; timing of stock option awards; applied econometrics
Thea Vakil, PhD (Victoria), Associate Director of the School of Public Administration and Associate Professor
Design and maintenance of organizations; structure and functioning of government and the non-profit sector; principles and values in public administration
Rebecca N. Warburton, PhD (London), Associate Professor
Health economics, economic evaluation, evidence-based management
**GRADUATE PROGRAMS**

Michelle LeBaron, MA (SFU), LLB (UBC), Adjunct Professor

Catherine Morris, JD (UofA), LLM (UBC), Adjunct Professor

Victor Murray, BA (Manitoba), MA (Minn), PhD (Cornell), Adjunct Professor

Gordon Smith, PhD (MIT), Adjunct Professor

Jo-Anne Stolz, PhD (UVic), Adjunct Professor

Barry Carin, BA (McGill), PhD (Brown), Adjunct Associate Professor

Ryan Compton, PhD (Washington U, St. Louis), Adjunct Associate Professor

Evelyn (Lyn) Davis, PhD (Florida State), Adjunct Associate Professor

Dale Wall, BA (SFU), MPA (UVic), Adjunct (UVic), Adjunct Associate Professor

Michelle Brady, BA (Honours) (Murdoch), PhD (UofA), Adjunct Assistant Professor

Tracy Byrne, PhD (Glasgow), Adjunct Assistant Professor

Peter R. Elson, PhD (UofT), Adjunct Assistant Professor

Allison M. Habirk, BA (UVic), MA (UBC), MPA (UVic), Adjunct Assistant Professor

Yvonne Harrison, PhD (UVic), Adjunct Assistant Professor

Cosmo Howard, B Comm (Honours) (Griffith University), PhD (Australian National University), Adjunct Associate Professor

Sabine Leh, BA (Open University), MBA (London), PhD (UVic), Adjunct Assistant Professor

Gordon McIntosh, PhD (UVic) Adjunct Assistant Professor

Dawn Nickel, PhD (UofA), Adjunct Assistant Professor

Brant Popp, MPA (UVic), Adjunct Assistant Professor

Carol-Anne Rolf, MA (UofA), MPP (California, Berkeley), Adjunct Assistant Professor

Diana M. Smith, BSc (UofA), MPA (Carleton), Adjunct Assistant Professor

Sam Weller, CA, MBA, Adjunct Assistant Professor

**Degrees and Specializations Offered**

The School of Public Administration offers the following graduate programs:

**Master of Public Administration (MPA)**

The Master of Public Administration (MPA) programs are designed for full-time students (MPA On Campus) and for part-time students (MPA Online). Also, in partnership with the Faculty of Law, the School offers a full-time double degree JD+MPA program.

**Master of Arts**

The School offers an on campus Master of Arts in Dispute Resolution for full-time students. The program provides students with the knowledge and skills to contribute to the development of diverse, peaceful societies through their work with public sector and civil society organizations. The MADR program recommends participation in Co-operative Education. For details, see “Dispute Resolution”, page 75.

**Master of Arts**

Focused on the Community Economic Development, Co-operative, and Non-profit sectors, the Master of Arts in Community Development program is designed to provide students with the opportunity to develop their capacities in transformational change, governance, leadership, analysis, and management in order to better meet the challenges and opportunities that are facing communities at various levels. The program is offered through a combination of on-campus and online learning, allowing students from across Canada and internationally to participate. For details, see “Community Development” on page 66.

**Graduate Professional Certificates and Graduate Diploma**

The School offers specialized credential programs via distance methods intended to strengthen the skills of working professionals. The program requirements drawn upon the Master of Public Administration curriculum.

**Graduate Professional Certificate in Library Sector Leadership**

This program is a 5-course, part-time program which includes an on-campus orientation course (ADMN 517A); students must also complete four specified 500-level ADMN online courses. Registering in one course per term, it is possible to complete the program in 16 months.

**Graduate Professional Certificate in Cultural Sector Leadership**

This program is intended to strengthen the capacity of cultural sector professionals to serve in management and leadership roles in museums, art galleries, the performing arts, heritage sites and heritage conservation. This program includes an on-campus orientation course (ADMN 517B); students must also complete HA 488T and four specified 500-level ADMN online courses. Students may complete the program over two years.

**Graduate Certificate in Evaluation and Graduate Diploma in Evaluation**

The Graduate Certificate and Graduate Diploma in Evaluation are designed for early- or mid-career professionals working in the evaluation field as government or non-profit employees or consultants. The Graduate Certificate in Evaluation consists of four specified 500-level ADMN courses. Upon completion of the four courses required for the Certificate, students may apply to receive the Certificate, or they may apply for admission to the Diploma program, which requires completion of a capstone project (4.5 units). Both programs are delivered entirely online and are completed on a part-time basis.

**PhD in Public Administration**

The School offers a PhD program that prepares students for scholarly and leadership roles in universities, government, non-profit organizations, research institutes and other settings where knowledge and research skills in public administration and policy are needed.

**Facilities**

The administrative office of the School of Public Administration is located in Room A302, Human and Social Development Building. Students of the School of Public Administration share a number of designated study spaces and meeting rooms.

**Financial Support**

A number of awards, scholarships and bursaries are available to full-time graduate students from the School of Public Administration and UVic. The Faculty of Graduate Studies provides a list of available awards and necessary applications online at <http://www.uvic.ca/graduateschool/financialaid/> or through their office in the University Centre.

**ADMISSION REQUIREMENTS**

**General**

Applications for admission are first received by the Graduate Admissions and Records Office which evaluates each applicant's transcripts to determine admissibility to the program. After this determination, the application is forwarded to the School of Public Administration for consideration by the school's Admissions Committee. The Admissions Committee is comprised of faculty members.

**Admission to MPA Programs**

To be eligible for admission, applicants must:

- Have an undergraduate degree with a minimum B+ (60.0) average (75–79%) in the last two years (30 units) leading to the undergraduate degree.
- Apply to the online program must have a minimum of three years of full-time public
Candidates are also strongly encouraged to apply for external funding and should indicate on their application where they have applied for such funding.

To apply for the program, applicants must:
- Follow the instructions provided through the page [www.uvic.ca/grad/apply].
- Provide two Assessment Reports from academic referees. If it has been more than five years since you last attended a post-secondary institution, we recommend that you include three Assessment Reports from current or former supervisors in place of academic referees. To strengthen your application, we recommend that your referees attach a Letter of Reference in addition to the Assessment Report.
- Submit official copies of relevant transcripts. Applicants must assemble all of the required application elements, as well as other relevant evidence of suitability for admission (e.g., academic records from non-degree courses), and submit them to the Graduate Admissions Office as a complete package.

In addition to the documentation required by the Faculty of Graduate Studies, the School of Public Administration requires that applicants submit a professional résumé, as well as a letter of intent which provides an overview (up to a total of five single-spaced pages) of:
- the two fields in which the student plans to specialize;
- a proposed area for dissertation research illustrating the problem to be studied, possible literature and the general approach;
- the names of faculty identified as possible research supervisors; and
- a list of applications submitted for external funding.

The Admissions Committee assesses an applicant’s ability to successfully complete the PhD program. Admission decisions are based on an evaluation of the applicant’s academic record, the Academic Assessment forms (included within the application package), applicable test scores, the overview, and the availability of appropriate faculty expertise to match the applicant’s chosen research area.

All short-listed candidates will be interviewed (by teleconference or in person) by a faculty admissions committee.

**Deadlines**
- December 15 for international students.
- February 15 for applicants who wish to be considered for University Graduate Awards. All applicants with a first class (A minus) average over the last two years of their undergraduate and graduate course work, as applicable, and whose applications are COMPLETE by FEBRUARY 15 are automatically considered for these awards.
- March 15 for Domestic applicants.

Admissions to the PhD program will be undertaken on a biennial basis. For the next term of entry, please consult the School’s website at [publicadmin.uvic.ca/phd].

**Admission to Graduate Professional Certificates**
To be eligible for admission, applicants must have:
1. a baccalaureate degree (or equivalent from another country) from an accredited and recognized institution. (Note that for the Graduate Professional Certificate in Library Sector Leadership, a Master’s is preferred.)
2. a grade point average of 5.0 (B) in the last two years (30 units) leading to the baccalaureate degree.

In addition, applicants must submit official transcripts, a professional résumé and a letter of intent that explains how this program relates to their career plans, and their personal and professional values and goals. Finally, applicants must have two assessment forms or letters of reference sent directly to the Graduate Admissions and Records Office.

**Application Deadline for Cultural or Library Sector Leadership programs**
Please view the information at [publicadmin.uvic.ca/gradcerts] for current information on application deadlines.

**Admission to Graduate Certificate in Evaluation –Additional Requirements**
To be eligible for admission to the Graduate Certificate in Evaluation, applicants must have:
- An undergraduate degree (or equivalent from another country) from an accredited and recognized institution.
- A grade point average of B (5.0) in the last two years (30 units) leading to the undergraduate degree.
- The equivalents of Research Design: Critical Appraisal of Information (ADMN 502A); Data Analysis & Interpretation (ADMN 502B); and Public Sector Economics (ADMN 310 or ADMN 509).

**Application Deadline for the Evaluation program**
March 1

**International Applications**
The Graduate Admissions and Records office provides a step-by-step application guide, including application forms for international students, available at: [registrar.uvic.ca/grad].

Applicants who do not possess a Canadian undergraduate degree will be required to write and submit official results for the GMAT. International applicants whose first language is not English are required to provide test results for one of the following:
- The Test of English as a Foreign Language (TOEFL) with a minimum score of 610 on the paper-based test and 102 on the Internet-based test, or
- The International English Language Testing System (IELTS) with an overall score of at least Band 7.0 with no score of less than 6.5 on each academic component.

**PROGRAM REQUIREMENTS**

**MPA Programs**
Students are admitted into either the MPA On Campus or the MPA Online program.
**GRADUATE PROGRAMS**

**Master of Public Administration On Campus**

- Core Courses
  - ADMN 502B, 504, 509 or other specified course*, 512; PADR 501, 502A, 503, 504, 505, 589
- Elective Courses: two from
  - ADMN 523, 530, 531, 537, 544, 547, 548, 553, 577, 578, 579, 580, 581, 582
  - Courses from other School of Public Administration offerings:
    - DR or CD courses: with permission of the instructor and Graduate Adviser
    - 400-level undergraduate courses (ADMN) offered by the School of Public Administration or other academic programs: with permission of the instructor and Graduate Adviser.
- Final Requirement
  - ADMN 598 or 599
* based on review of students' prior academic history, they may be streamed into an alternate course

Students may not transfer between the On Campus and Online MPA programs, or take core courses from the other program that are not specifically open to students from both programs, without the permission of the Graduate Adviser.

Students have the opportunity to focus their studies on specific areas of public policy and administration through their selection of electives, their Co-op work term placements and the topic of their final report or thesis.

At the end of their program, all MPA students choose between completing a Master's Project (ADMN 598) or a Thesis (ADMN 599).

Because ADMN 599 is 6.0 units while ADMN 598 is 4.5 units, thesis students' programs will total 22.5 units, while project students' programs will total 21.0 units. More detailed information on the thesis option requirements is included on the School of Public Administration website.

**Program Length**

The full-time MPA On Campus program can be completed in two years, including two co-operative work terms.

**MPA On Campus Program Schedule**

The MPA On Campus program consists of a minimum of five compulsory terms: two full-time, residential academic terms, two co-operative work terms, and two further academic terms spent completing the Master's Project or Thesis (which may be taken concurrently with the second work term). The terms spent completing the Project or Thesis may be completed on campus, online or through a combination of the two. Students must complete all program requirements, including a third Co-op term (if taken), by the same semester in which they defend their Project or Thesis.

**Term 1 (Fall Term, Sep–Dec)**

<td>Master's Thesis</td>
</tr>
</tbody>
</table>

Students selecting either option will be expected to review the online ADMN 598/599 resources during this term. For MPA online students, completing a project will result in a program consisting of 19.5 units, while completing a thesis will result in a program of 21.0 units.

**Capstone Project**

Students may complete a Master's Project (ADMN 598) or a Master's Thesis (ADMN 599) to complete their MPA requirements.

**MPA – Master's Project**

**ADMN 598: Master's Project (4.5 units)**

The Master's Project is expected to be a substantive analysis of a management, policy or program problem for a client in the non-profit or public sector. Students have the choice of working individually or with a partner. Team-based Master's projects must be designed and written so that each team member's contributions are clearly indicated. The Master's Project is prepared in consultation with the client and an academic supervisor in the School of Public Administration and must be both practical and academically rigorous. The academic supervisor is a member of the School faculty and is also a member of the Faculty of Graduate Studies. More detailed information about the Master's Project option is included in the school's website.

**Final Examination**

The Master's Project is defended in an oral examination, and the minimum Committee consists of the academic supervisor, the client, a second reader from the School of Public Administration and a Chair representing the Faculty of Graduate Studies.

**MPA – Master's Thesis**

**ADMN 599: Master's Thesis (6.0 units)**

The Master's Thesis is expected to be a substantial contribution to the knowledge in the field of Public Administration. An MPA thesis will demonstrate a student's mastery of a substantive body of scholarly or practice literature, as well as using appropriate and academically defensible methodologies to analyze research questions, test hypotheses or contribute new theoretical knowledge. Individual students will work
with an academic supervisor in the School of Public Administration.

Final Examination
The Master’s Thesis is defended in an oral examination, and the minimum Committee consists of the supervisor, a second member from within the School and an external member from the University of Victoria, together with a Chair and an external examiner appointed by the Faculty of Graduate Studies from outside the school. All members of the committee must be members of the Faculty of Graduate Studies.

For “Guidelines for Oral Examinations” please go to the following website: <www.uvic.ca/graduatenetutoring/resourcesfor/students/thesis.html>.

JD+MPA Double Degree Program
In partnership with the Faculty of Law, the School of Public Administration offers the JD+MPA graduate program, for students wishing to pursue double degrees. Students who apply and are accepted into both the Faculty of Law JD and the School of Public Administration MPA programs may earn both degrees concurrently with modified requirements for each. Undertaken separately, the two degrees normally require five years of study, whereas the double degree may be completed in four years. The first year of the double degree program is devoted entirely to the first year law curriculum. The second year of the program requires the completion of the required core public administration courses offered in the fall and summer terms. In consultation with the Graduate Adviser, these courses can be completed in combination with law courses, if the student wishes. The remaining two years entail the completion of all other law and public administration course requirements. Students may reduce the time in the program by enrolling in some MPA courses during the third summer term. Alternatively, students may participate in the Co-operative Education program. For information about the Faculty of Graduate Studies’ rules governing the JD+MPA double degree program, see “Registration in Double Degree Programs”, page 26.

Further information on the program may also be obtained from either the School of Public Administration or the Faculty of Law.

Students enrolled in the JD+MPA double degree program must submit two formal applications for graduation when registering in their final fall, spring and summer sessions. Students who choose comparative policy and governance as one of their fields will do coursework in two of the three fields of study. They will be expected to acquire needed language skills in addition to their PhD coursework. No PhD credit will be given for language training.

Candidacy
ADMN 693 (3.0) Candidacy Examination
During the second year of the program of study, students will complete candidacy examinations in the two fields of study they have chosen. The examinations will be set by School field committees. A student who passes the comprehensive examinations is admitted to candidacy for the PhD degree.

Dissertation
ADMN 699 (30.0) Dissertation
Upon completing the candidacy examinations, students will develop a dissertation proposal and defend the proposal in an oral presentation to their supervisory committee. Once the committee is satisfied that the dissertation proposal meets the standards of the program, students will begin their dissertation research.

Oral Examination
Students will defend the completed dissertation in an oral examination in accordance with the regulations of the Faculty of Graduate Studies.

Program Length
The entry date for the PhD program is September. The program operates year-round. Courses, faculty members and facilities are available during fall, spring and summer sessions. PhD candidates are expected to complete the program in five years.

Graduate Professional Certificates
The courses are normally taken in the following sequence. Should a student miss a course due to personal circumstances, that student can enrol in the missed course in the next academic year (or the next offering). Note that for the Cultural and Library Sector Leadership programs, the orientation courses ADMN 517A and 517B and HA 488T (Cultural Sector students only) include required attendance at on-campus intensive sessions.

Graduate Professional Certificate in Library Sector Leadership
ADMN 517A (0.5) Graduate Professional Certificate Orientation
ADMN 507A (1.5) Public Sector Leadership: Teams, Self and Organization
ADMN 530A (1.5) Increasing Organizational Effectiveness
ADMN 531A (1.5) Strategic Human Resource Management
ADMN 577A (1.5) Strategic Planning and Implementation

Graduate Professional Certificate in Cultural Sector Leadership
ADMN 517B (0.5) Graduate Professional Certificate Orientation
HA 488T (1.5) Leadership in Cultural Organizations
ADMN 507B (1.5) Public Sector Leadership: Teams, Self and Organization
ADMN 530B (1.5) Increasing Organizational Effectiveness
ADMN 531B (1.5) Strategic Human Resource Management
ADMN 577B (1.5) Strategic Planning and Implementation

Graduate Certificate in Evaluation and Graduate Diploma in Evaluation
The part-time online Graduate Certificate in Evaluation consists of four specified ADMN 500-level courses. Upon successful completion of the four courses, students can opt to apply for and receive their Graduate Certificate, or they may apply for admission to the Graduate Diploma in Evaluation.
The Diploma requires completion of a final project, ADMN 596 (4.5 units). Students who undertake the project, which will be supervised by a faculty member, will have an evaluation client, an agreed-upon project design, and a timeline to complete the project. A written project report will be prepared and submitted to an examination committee. Completed reports will be assessed by a committee consisting of academic instructors and practitioners, including the client for the project.

Required Courses
- Fall
  - ADMN 537 (1.5) Program Evaluation and Performance Measurement
- Spring
  - ADMN 580 (1.5) Qualitative Evaluation Methods and Applications
- Summer
  - ADMN 581 (1.5) Quantitative Methods for Public Policy Analysis and Program Evaluation
  - ADMN 582 (1.5) Topics in Program Evaluation, Performance Measurement, Performance Management and Knowledge Management
- Fall
  - ADMN 544 (1.5) Economic Evaluation Methods and Applications

For students who opt to enrol in the Diploma in Evaluation, they will then complete:
- Spring
  - ADMN 596 (4.5) Evaluation Project (course may take 2 terms to complete, but normally should not exceed 3 terms.)

Co-operative Education
Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, workplace experience, and an opportunity to build a network of potential employers - is mandatory for MPA On Campus students. MPA On Campus students complete two work terms (a work term normally consists of four months of full-time, paid employment) and students undertake study and work terms in alternating sessions. Completion of a third work term is optional, with approval of the Co-op Coordinator and based on availability; students in their first or second co-op terms may receive priority. Third work terms must be completed in or before the same semester in which the project/thesis is defended.

MPA On Campus students are required to register in PADR 589 Co-op Seminar: Introduction to Professional Practice, in their first term in the program. Students are also referred to “General Regulations: Graduates Co-op” on page 34.

Participation in the Co-operative Education program is optional for full-time PhD students. PhD students complete three terms; a fourth work term is an option. Students require permission from their academic adviser, graduate adviser and Co-op coordinator to participate in the Co-op program. Interested students should contact the Co-op Office (located in HSD A302) early in the term in which they are applying.

Public Health and Social Policy

General Information
The School of Public Health and Social Policy is designed to encompass interdisciplinary and inter-professional fields of study. Within this context, health is understood as a resource for everyday living emphasizing social and personal resources as well as physical capacities. The School of Public Health and Social Policy at the University of Victoria recognizes and values:
- Collaborative action across all sectors (government organizations, non-government organizations, non-profit organizations, community coalitions, and interest groups)
- Inter-professional and multi-disciplinary approaches to practice and research
- Critical analysis drawing on principles of social justice and equity
- Political awareness and political engagement as a basis for social change
- Community-based approaches to research and knowledge development
- Partnerships with people and populations served
- Diversity and cultural safety
- Indigenous knowledge and the right to self-determination

Faculty Members and Areas of Research
Lyn Davis PhD (Florida)
Scholarship of teaching and learning; social justice; social policy; housing; community organizing and development; lesbian health; feminism; research methodologies; program evaluation.
Trevor Hancock MB BS (London)
Public health systems and services research; health promotion; healthy cities and communities; health and nature; healthy public policy; community development and health
Michael Hayes PhD (McMaster)
Health inequities; disability; public policy; obesity; health literacy; population health promotion
Charlotte Reading PhD (Dalhousie)
Sexual and reproductive health across the lifespan; sexual diversity; sex trade work; HIV/AIDS; the construction of female sexuality and the cultural determinants of health
Jeff Reading PhD (Toronto)
Aboriginal health; health promotion; health policy; cardiovascular physiology; research administration; population and public health; health services; chronic disease; surveys; global Indigenous health
Laurene Shields, PhD (Oreg)
Community; health promotion; empowerment; community nursing practice; life threatening illness and events; connectedness; people’s experiences of health, illness and healing; narrative inquiry; feminist research; story as a metaphor of healing/spirituality

Adjunct and Grant Tenure Appointments
- Carol Aramatunga, BA, MSc, PhD (Toronto), Adjunct Professor (2012-2015)
- Lillian Bayne, BA, MA, MSc (Toronto), Adjunct Professor (2012-2015)
- Brenda Canitz, BSc.N, BA, MSc (Toronto), Adjunct Professor (2012-2015)
- Perry Kendall, MBBS, FRCP, MSc (UBC), Adjunct Professor (2012-2015)
- Patrick McGowan, BA, MSW, PhD (UBC), Professor, Grant Tenure (Limited Term 2012-2015)
- Debra Nanan, BSc, MPH (Johns Hopkins), Adjunct Assistant Professor (2013-2016)
- Victor Neufeld, BA, MA, MD (Saskatchewan), Adjunct Professor (2013-2016)
- Melanie Rusch, BSc, MSc, PhD (UBC), Adjunct Associate Professor (2013-2016)
- Irving Rootman, MPhil, PhD (Yale), Adjunct Professor (2012-2015)
- Franklin White, MD, CM, MSc, FRCP, FFPH (London), Adjunct Professor (2012-2015)

Public Health Advisory Board
Irving Rootman, PhD (Chair)
Perry Kendall, OBC, MBBS, MHSc, FRCP
Marjorie MacDonald, PhD
Cheryl Martin, BScN, MSc
Darlene Martin, RN, BSN
Catherine Mateer, PhD
Jeff Reading, PhD
Mary Ellen Strada, RN, MN
Shannon Turner, BA, BSc, MSc
Franklin White, MD, CM, MSc, FRCP, FFPH
Eric Young, MD, BSc, MHSc, CCFP, FRCP
Degrees and Specializations Offered
The School offers a Master’s of Public Health (MPH) degree for both full-time and part-time students and a Graduate Diploma in Public Health (GD) for part-time students. Both programs are offered via online/distance learning methods.

Students in either program have the opportunity to focus their studies by selecting one of four areas of focus during their program: Indigenous Peoples’ Health, Public Health Informatics, Public Health Nursing, Social Policy.

Facilities
The administrative office of the School of Public Health and Social Policy is located in Room B202, Human and Social Development Building. Master’s in Public Health and Graduate Diploma students have a designated computer lab in Room B241, HSD Building.

Financial Support
All new applicants are evaluated for the University Fellowship. The minimum standard required for consideration is a first-class standing (A-). Grade calculations and equivalencies are determined by the Graduate Admissions and Records Office. The process is competitive and meeting the minimum standard does not guarantee that students will be successful in the competition.

A number of awards, scholarships and bursaries are available to full-time students. The Faculty of Graduate Studies provides a list of available awards and necessary applications online at <web.uvic.ca/gradstudies/fund/funding.html> or through their office in the University Centre. Information on bursaries and scholarships can be found at the UVic Student Awards & Financial Aid Office, located in the University Centre, or through its website at <registrar.uvic.ca/safa>.

Limitation of Enrolment
Admission to UVic is not a guarantee of admission to particular Schools or programs within the Faculty. Applicants should be aware that admission to Schools and programs is competitive and subject to limited enrolment. Meeting minimum requirements is not a guarantee of admission. The Faculty of Human and Social Development recognizes that many factors contribute to a person’s chances of success in professional programs and therefore in addition to academic requirements (GPA), professional suitability for the selected program will be considered.

Professional Conduct
All students in the School of Public Health and Social Policy must follow the Faculty of Human and Social Development’s (HSD) Guidelines for Professional Conduct. The faculty supports models for professional conduct based on the following guidelines:

• submission of oneself to a professional code of ethics
• exercise of personal discipline, accountability and judgement
• acceptance of personal responsibility for continued competency and learning
• willingness to serve the public, client or patient and place them before oneself
• ability to recognize the dignity and worth of all persons in any level of society

• willingness to assist others in learning
• ability to recognize one’s own limitations
• maintenance of confidentiality of information (including all electronic communication) appropriate to the purposes and trust given when that information was acquired
• acceptance that one’s professional abilities, personal integrity and the attitudes one demonstrates in relationships with other persons are the measure of professional conduct

Unprofessional Conduct
Students in the Faculty of Human and Social Development are subject to the provisions of the code of ethics of their respective professions, and may be required to withdraw from their School for violating these provisions. Students may also be required to withdraw from their School, when ethical, medical or other reasons interfere with satisfactory practice in their respective disciplines.

UVic Email Address
All program information will be provided by email. All PHSP students are required to use their UVic email address as their primary email contact in the student records system while enrolled in programs. This is to ensure continuity and consistency of information received. PHSP is not responsible for providing missed information if students do not use the UVic email address.

General Practicum Guidelines

Criminal Record Reviews
A requirement for admission, PHSP students placed in practica must undergo a criminal record review. Students are responsible for providing authorization for the review prior to registration in their first course in the program and cooperating with the conduct of the review as needed. Usually, students must pay for the review, although some agencies will absorb the costs. Registered Nurses in BC have a Criminal Record Review completed with their CRNBC registration.

Practica Placements
The Faculty reserves the right to approve any agency or institution that provides placements for student practica, and to change any placement assigned to a student. The student, however, has the right to be informed in writing of the reasons for any change in placement.

While the Faculty accepts a responsibility to provide a sufficient number of practicum opportunities to serve the needs of all registered students, a student may be required to withdraw from a practicum course if none of the available practicum agencies will accept the student.

It is the responsibility of the course instructor to inform students of the criteria by which unprofessional conduct will be judged in the practicum setting.

Practica Dates
The dates of practica will be established by each School or program, and will be announced to the students involved at the beginning of each term.

Attendance
Attendance at practicum activities is required. Students are expected to notify the placement agency whenever practicum appointments cannot be kept, and also to inform the course instructor. Failure to do so may result in a student being withdrawn from the practicum setting.

Denial and Withdrawal

Denial
Students will be denied the practicum experience if their preparatory work is considered unsatisfactory by the Director of the School in the Faculty of Human and Social Development.

Temporary Withdrawal of Students Pending Report
The Director may require a student to withdraw temporarily from a practicum if, during the course of a term, there are reasonable grounds to believe that the conduct or lack of competence of a student enrolled in the practicum has adversely affected or may adversely affect:

• clients or pupils, or
• personnel, including students associated with the practicum

The student will be required to withdraw temporarily pending the receipt of a report on the conduct and lack of competence of the student. This written report from the course instructor will normally be provided to the student within 10 business days of the withdrawal.

Withdrawal
After giving the student an opportunity to be heard, the Director may require a student to withdraw from the practicum if the Director is satisfied that the student’s conduct or lack of competence may adversely affect members of any of the groups identified in the paragraph above.

Voluntary Withdrawal
Students seeking voluntary withdrawal from a practicum, whether permanent or temporary, must receive permission to do so from their faculty supervisor in Human and Social Development.

Termination of Practicum by Placement Agency
In situations where a practicum is terminated by the agency, the student will be informed in writing of the reasons for termination, by the School within 15 business days of the termination. After giving the student an opportunity to be heard, the Director or designate will determine appropriate action: 1) withdrawal from the School; 2) additional preparatory work; 3) placement in a different practicum setting.

Practicum Evaluation Documentation
If a student withdraws from practicum or is required to withdraw from practicum by their instructor of record, all practicum evaluation materials to date of withdrawal will remain on their student file and may be taken into account in determining whether their preparatory work is satisfactory to enter a subsequent practicum.

Notification of the Faculty of Graduate Studies
Students who withdraw temporarily from a practicum must notify the Faculty of Graduate Studies in writing. Students who are required to withdraw from a practicum will be withdrawn from any course involved by written notification from the Director to the Faculty of Graduate Studies.
Readmission

Students who have withdrawn from a practicum for whatever reason who later wish to reenter the practicum must apply for readmission to the course and should not assume that readmission is guaranteed.

Appeals

The normal avenues of final appeal are available to students who have been required to withdraw from a practicum. Students in the Faculties of Human and Social Development may follow regular appeal procedures within the faculty.

Additional Practice Requirements for Registered Nurses Registered in the Public Health Nursing Area of Focus

Active Practicing Registration and Malpractice Insurance

Registered Nurses enrolled in the Public Health Nursing area of focus must have active practicing registration as a Registered Nurse or the equivalent registration for the jurisdiction in which they are undertaking their practice experience. Periodically, information provided by students will be checked. Please note that students studying outside of BC are required to submit verification of active practicing registration to the School of Public Health and Social Policy annually. Students studying in the US must also provide proof of current malpractice insurance, annually, for the duration of the program.

Current Basic Life Support Certificate

All Registered Nurses enrolled in the Public Health Nursing area of focus must hold a current CPR level-C certification. Students studying outside of BC are required to submit verification of active practicing registration to the School of Public Health and Social Policy annually. Students studying in the US must also provide proof of current malpractice insurance, annually, for the duration of the program.

Admission Requirements

General

Initial enquiries regarding graduate programs should be addressed to the Program Manager, School of Public Health and Social Policy. Application materials may be obtained from the Graduate Admissions and Records Office website <www.uvic.ca/registrar/grad> or the School of Public Health and Social Policy website: <www.uvic.ca/publichealth>.

Applications for admission are first received by the Graduate Admissions and Records Office. This office evaluates each applicant’s transcripts to determine admissibility to the program. After this determination, the application is forwarded to the School of Public Health and Social Policy for consideration by the department’s Admissions Committee.

Applicants are required to indicate whether they are intending to study as a full-time or part-time student and their anticipated area of focus. Students selecting the Public Health Nursing area of focus will be required to show evidence of active practicing registration as a Registered Nurse or the equivalent registration for the jurisdiction in which they are undertaking their program. The School will endeavor to select the strongest candidates in each of the four areas of focus. Once admitted to the program students may change their area of focus subject to individual academic advising.

Students enrolled in the Diploma program who want to transfer to the Masters program will be required to meet with the academic adviser and put their request in writing to the Director of the School. Students wanting to move from the Diploma to the Masters program must be in good standing and hold a minimum of a B+ (6.0 GPA) in the Diploma program.

Admission to the Diploma program does not guarantee admission to the MPH program. Students who have successfully completed the Diploma program are eligible to apply for admission to the MPH program. Applications will be competitively assessed within the MPH applicant pool.

Applicants will be required to have completed an undergraduate statistics course with a minimum grade of B. Students may be provisionally accepted into either the Diploma or Master’s in Public Health program with the condition that they complete an undergraduate statistics course (with a minimum grade of B) prior to beginning the program.

Admission to the Graduate Diploma Program

To be eligible for admission, students must:

- Have an undergraduate degree with a minimum B+ (6.0) average (75-79%) in the last two years (30 units) leading to the undergraduate degree.
- Fill out an application form online <www.pas.bc.ca> or download the Faculty of Graduate Studies application form <registrar.uvic.ca/grad> and submit a hard copy by mail. To ensure that all documents are added to the application file, applicants should ensure that all online and hard copy documents submitted to the Graduate Admissions and Records Office are under the same name.
- Provide two Letters of Reference that should come from individuals who can provide a reliable assessment of the applicant’s abilities; academic or professional references are acceptable.
- Submit relevant transcripts.
- Submit a resume/curriculum vitae.
- Submit a Letter of Intent describing why they are seeking a Master’s in Public Health and how the degree relates to their experience, goals and career plans.
- Undergo a criminal record check. See “Criminal Record Reviews” on page 159.

Applicants are encouraged to submit whatever other evidence of suitability for admission they feel is relevant (e.g., academic records from non-degree courses).

The Admissions Committee assesses an applicant’s ability to successfully complete the MPH program. Application to the MPH degree program will be competitively assessed based on four criteria: 1) Grade Point Average; 2) Letter of Intent; 3) Professional Experience and Community Service; and 4) References.

Application Deadline

February 1.

Graduate Courses Prior to Admission

Students not admitted to the MPH degree may be permitted to take up to 3.0 units of graduate level Public Health and Social Policy courses. The prerequisites are admission to Graduate Studies and approval of the Graduate Adviser.

Program Requirements

Residency Requirements

All students admitted to both the MPH and GD programs are expected to attend three onsite intensives: (1) orientation (end of August) to their program prior to program commencement in September; (2) during the final area of focus course (beginning of May); (3) a culminating student conference at the end of their program (end of April) where students will demonstrate and share their project outcomes and learning.

Program Fee

Students admitted to either program may be assessed an additional program fee.
Diploma in Public Health (12.0 units)
The Graduate Diploma requires a minimum of 12.0 units. The 12.0 units are made up of 4.5 units of core courses, 3.0 units of courses from the chosen area of focus, practicum (1.5 units), culminating report (1.5 units) and 1.5 units of elective.
Graduate diploma students who complete the diploma and then wish to complete the Master of Public Health (MPH) will be required to apply to the MPH program, be accepted, and then complete remaining core and area of focus courses as well as PHSP 508B and 589 in the MPH program. See Admission Requirements, General, for more information.

Core Course Requirements (4.5 units)
PHSP 501 (1.5) Public Health Epidemiology
PHSP 503 (1.5) Public Health Practice I: Population Health and Health Promotion
PHSP 504 (1.5) Supportive Environments and Healthy Public Policy

Area of Focus
One of three Areas of Focus (3.0 units required in one area). These areas will be offered subject to adequate enrolment.

Indigenous Health Studies
INGH 520 (1.5) Community Engagement and Leadership
INGH 521 (1.5) Indigenous Public Health and Social Policy
INGH 522 (1.5) Indigenous Health Research Methodologies

Public Health Nursing
PHSP 540 (1.5) Knowledge Development in Public Health Nursing
PHSP 541 (1.5) Social Justice and Public Health Nursing
PHSP 542 (1.5) Advanced Public Health Nursing Practice

Social Policy
PHSP 550 (1.5) Perspectives in Social Policy and Public Health
PHSP 551 (1.5) Social Values, Ideologies, and Policy Analysis
PHSP 552 (1.5) Healthy Public Policy Strategies

Additional Program Requirements
PHSP 589 (1.5–3.0) Practicum (450 hours; students must complete a total of 3.0 units of 589 in the MPH program)
PHSP 580B (3.0) Culminating Report (21 unit option)
OR
PHSP 599 (6.0) Thesis (24 unit option)

Elective (1.5 units)

Program Length
The part-time Graduate Diploma program can be completed in just over 1.5 years (5 academic terms). All students, whether part-time or full-time, have four years to complete the program.

Master of Public Health (21.0 or 24.0 units)
The MPH degree requires a minimum of 21 units. The 21 units are made up of 9.0 units of core courses, 4.5 units of courses from the chosen area of focus, project (3.0 units), practicum (3.0 units) and 1.5 units of electives.

Core Course Requirements (9.0 units)
PHSP 501 (1.5) Public Health Epidemiology
PHSP 502 (1.5) Public Health Biostatistics
PHSP 503 (1.5) Public Health Practice I: Population Health and Health Promotion
PHSP 504 (1.5) Supportive Environments and Healthy Public Policy
PHSP 505 (1.5) Public Health Practice II: Public Health Interventions
PHSP 506 (1.5) Public Health Research

Area of Focus
One of three Areas of Focus (4.5 units required in one area). These areas will be offered subject to adequate enrolment.

Indigenous Health Studies
INGH 520 (1.5) Community Engagement and Leadership
INGH 521 (1.5) Indigenous Public Health and Social Policy
INGH 522 (1.5) Indigenous Health Research Methodologies

Public Health Nursing
PHSP 540 (1.5) Knowledge Development in Public Health Nursing
PHSP 541 (1.5) Social Justice and Public Health Nursing
PHSP 542 (1.5) Advanced Public Health Nursing Practice

Social Policy
PHSP 550 (1.5) Perspectives in Social Policy and Public Health
PHSP 551 (1.5) Social Values, Ideologies, and Policy Analysis
PHSP 552 (1.5) Healthy Public Policy Strategies

Additional Program Requirements
PHSP 589 (1.5–3.0) Practicum (450 hours; students must complete a total of 3.0 units of 589 in the MPH program)
PHSP 580B (3.0) Culminating Report (21 unit option)
OR
PHSP 599 (6.0) Thesis (24 unit option)

Elective (1.5 units)

Oral Examination
The projects will be evaluated through a project report and an oral examination with an examining committee including the student’s academic supervisor and a second academic member from The School of Public Health and Social Policy who is also a member of the Faculty of Graduate Studies.

Program Length
The full-time MPH program can be completed in two years. The part-time MPH program can be completed in three years. All students, whether part-time or full-time, have five years to complete the program.

UVIC CALENDAR MAY 2015

Faculty Members and Areas of Research
Over 100 full time faculty members across the 28 departments, schools, programs, institutes and research centres in the Faculties of Social Sciences, Humanities, Education and Human and Social Development are engaged in health research. All are eligible to supervise SDH Graduate Students.

Thematic Areas of Research Expertise:
• Social Determinants of Health
• Health Policy, Law and Bioethics
• Health of Populations
• History of Medicine
• Aboriginal/Indigenous People’s health
• Addictions Research
• Environmental Health
• Health Over the Life Span

Degrees and Specializations Offered
MA, MSc, PhD

The Social Dimension of Health program offers programs of study leading to the degrees of Master of Arts, Master of Science and Doctor of Philosophy.

The programs provide an opportunity for advanced research in Social Dimensions of Health. Focused specifically on interdisciplinary health research, the programs link research opportunities based in research centres on campus with the academic mandates of the Faculties of Social Sciences, Humanities, Education and Human and Social Development to provide an innovative approach that cross-cuts disciplinary affiliations, provides an academic home for graduate students with interests in health research and allows faculty researchers affiliated with research centres to support and supervise graduate students.

Planned as an interdisciplinary, research-intensive, graduate program, the Social Dimension of Health program incorporates community-based approaches, evidence-based modeling and training in research skills, knowledge and methodologies. The program allows for maximum flexibility and supports a broad range of student research interests with an emphasis on relatively few required courses, participation in a colloquium series and a focus on independent graduate research. The primary outcome is a thesis at
the master's level or dissertation at the doctoral level.

Both master's and doctoral programs centre around:

- two 1.5 unit core courses in Fundamentals of Health Research (Master's: SDH 500A, 500B; PhD: SDH 600A, 600B),
- two 1.5 unit required methodology courses,
- two 1.5 unit elective courses and
- mandatory participation in a 3.0 unit colloquium (Master's: SDH 501A, 501B; PhD: SDH 601A, 601B).

Financial Support

Potential funding sources for graduate students include (but are not limited to) SSHRC, NSERC and CIHR. Vanier Canada Graduate Scholarships recognize and support exceptional Canadian and international students who are pursuing doctoral degrees at Canadian Universities. Similarly, Bombardier Scholarships Bell Scholarships and Banting and Best Scholarships recognize high-calibre scholars who are engaged in doctoral programs.

Admission Requirements

Admission to the Master's Program

Students applying for master's level degrees will be required to hold a bachelor's degree in an appropriate discipline from a recognized university. Applicants must meet the general requirements set out by the Faculty of Graduate Studies in the Graduate Studies calendar. Ordinarily a B+ average (6.0 GPA) in the last two years of university work is a minimum requirement for admission to the program, however, students may request consideration on the basis of life or work experience equivalency.

Admission to the Doctoral Program

Students applying for doctoral degrees usually are required to hold a master's degree in an appropriate discipline from a recognized university. Applicants must meet the general requirements set out by the Faculty of Graduate Studies in the Graduate Studies calendar. Ordinarily a B+ average (6.0 GPA) in the last two years of university work is a minimum requirement for admission to the program, however, students may request consideration on the basis of life or work experience equivalency.

Applications will be reviewed by the Faculty of Graduate Studies, the SDH Director and SDH Program Committee. In cases where students have insufficient background in health research, additional coursework may be required as part of the student's program. This will be determined by the SDH Director in consultation with the SDH Program Committee and the co-supervisors, and communicated to the student in writing at the time of acceptance into the program.

Application Deadlines

Students will be admitted to the SDH program in September of each year.

- February 15 for September entry

Program Requirements

The curriculum for the SDH program is predicated on the thematic areas of research strength outlined above. Intended as research intensive degrees, the master's and doctoral programs outlined below centre around two 1.5 unit core courses in Fundamentals of Health, two 1.5 unit required methodology courses, mandatory participation in the program colloquium and two 1.5 unit elective courses.

MA, MSc and PhD students will attend the same colloquium and Fundamentals of Health core courses, although the pedagogic expectations will be different at the master's and doctoral levels.

The core courses and colloquium are intended to engender cohesiveness among the students and faculty within the program and to provide students with a basic complement of knowledge and core competencies from which to pursue their independent research. Choices of methodological approach and elective courses are intended to provide flexibility so faculty and students can tailor research programs to suit student interests and research requirements.

The importance placed on the independent research component of the program, especially in the case of the PhD program, is indicated by the number of unit credits allotted to the thesis/dissertation. The primary outcome is a thesis at the master's level or dissertation at the doctoral level. In the case of doctoral students, candidacy requires that students also pass a comprehensive examination. Three questions related to their particular research area will be crafted by the student in consultation with their supervisory committee. The questions will be answered in a written format, drawing upon pertinent literature and will be evaluated on a pass/fail basis.

Supervisory Committee

The structure of the supervisory committee must meet the requirements set out by the Faculty of Graduate Studies for interdisciplinary students. For master's students, two co-supervisors, who are members of the Faculty of Graduate Studies at least one of whom has successfully supervised candidates for graduate degrees in the past, must confirm their willingness to supervise before a student can be admitted. For doctoral students, at least one additional faculty member must be added to the supervisory committee following admission. At the time of the thesis/dissertation defense at least one additional member must be added to the examination committee.

MA and MSc Programs (18.0 units)

SDH 500A (1.5) Fundamentals of Health Research I
SDH 500B (1.5) Fundamentals of Health Research II
SDH 501A (1.5) Social Dimensions of Health Colloquium I
SDH 501B (1.5) Social Dimensions of Health Colloquium II
Methodology (3.0) Selected from the list of approved methodology courses
Electives (3.0) Selected from the list of approved elective courses
SDH 599 (6.0) Thesis

Program Length

The master's program is designed for completion within 2 years.

PhD Program (30.0 units)

SDH 600A (1.5) Fundamentals of Health Research I
SDH 600B (1.5) Fundamentals of Health Research II
SDH 601A (1.5) Social Dimensions of Health Colloquium I
SDH 601B (1.5) Social Dimensions of Health Colloquium II
Methodology (3.0) Selected from the list of approved methodology courses
Electives (3.0) Selected from the list of approved elective courses
SDH 693 (3.0) Candidacy Examination
SDH 699 (15.0) Dissertation

Program Length

The doctoral program is designed for completion within 4 years.

Approved Electives Courses

Final decisions regarding the student's selection of elective courses will be made in consultation with the academic unit where the course is offered, the course instructor and the student's supervisory committee, and will require the approval of the SDH Director and/or Advisory Committee.

GENERAL INFORMATION

Mission Statement
The emerging vision of the School of Social Work in both its undergraduate and graduate programs commits us to social justice and anti-oppressive social work practices, and to promoting critical enquiry that respects the diversity of knowing and being.

Our educational mission within the Master of Social Work Program is to prepare social workers skilled in critical self-reflection and with an advanced analytic understanding of the social, cultural, political and practical implications of their work. In particular, we emphasize structural, feminist, Indigenous and anti-oppressive analysis within a context of interdisciplinary work in an effort to link policy to practice.

Faculty Members and Areas of Research
Leslie Brown, PhD (Victoria)
Research Methods, Indigenous Governance, Social Work Education, Community Development, Child Welfare

Jeannine Carriere, PhD (Alberta)
Indigenous child and family practice and policy, Indigenous ways of knowing and being, Indigenous women and children, social work and the law

Jacquie Green, MPA, PhD (Victoria)
Indigenous and cultural knowledges that centre, inform and transform child welfare policy and practice.

Yvonne Haist, MEd (UVic)
Trauma work: affect regulation, right brain processing and social responses; embodied practice; spirituality

Donna Jeffery, PhD (OISE-Toronto)
Research interests are interdisciplinary in orientation: feminist, critical race and post-structural scholarship in the contexts of pedagogy, policy, knowledge production, professional identity and social work education

Patricia MacKenzie, PhD (Edinburgh)
Health promotion, interdisciplinary practice, disability; rural issues; aging; gay, lesbian, bisexual, transgendered issues; social work practice in health care settings; qualitative research methods

Pamela Miller, PhD "Philosophy" (Indiana), PhD "Social Work" (Ohio)
Use and impact of information technology in teaching and learning, professional development and in human services, professional ethical decision making, leadership in human services and community development

Cheryl Moor-van Iersel, MSW (British Columbia)
Feminist and group work practice; integrating play and creativity in the classroom

Meenona Moosa-Mitha, PhD (Southampton)
Citizenship rights of children and marginalized communities, child welfare policy and practice, anti-racist, feminist theory

Gayle Poyer, MSW (Carleton)
Social work education, social justice and the law, field education and participatory research.

Catherine Richardson, PhD (Victoria)
Indigenous resistance, decolonizing approaches to social work, response-based practice, safety-oriented and dignity-based child protection work, recovery from violence, and Indigenous approaches to research and scholarship centered around cultural, ecological and spiritual integrity

Susan Strega, PhD (Southampton)
Critical, feminist and post-structural analysis of sex work, violence against women and child welfare practice and policy

Robina Thomas, PhD (Victoria)
Residential schools, Indigenous ways of knowing and being, Indigenous women and children, social work education and story telling

Barbara Whittington, MSW (British Columbia)
Restorative justice, family practice, education and workplace equity issues, grandparents raising grandchildren policy and practice, emergency response, critical incident debriefing and trauma work as well as social work and the law

Emeritus Faculty
Andrew Armitage, PhD (Bristol) (Emeritus)
Family policy, social policy towards Indigenous peoples, social service administration

Marilyn Callahan, PhD (Bristol) (Emeritus)
Child welfare, employment equity, gender discrimination

Degrees and Specializations Offered
The School of Social Work offers a graduate program leading to the degree of Master of
Social Work that is fully accredited by the Canadian Association of Schools of Social Work. BSW and non-BSW graduate students may focus on child welfare, health or international work (resources permitting).

**MSW Degree**

The program is designed to provide BSW graduate students and non-BSW graduate students, who have successfully completed their foundation coursework, with the opportunity to reflect on their practice experience in the context of the School’s mission statement and to develop critical skills and their application to practice and/or research. Note: The terms Foundation Year and Advanced Year refer to a menu of courses, both required and elective, and do not specify a particular timeframe of completion. The School offers three options to complete a MSW:

**BSW entry to MSW Degree:** Qualified BSW degree holders enter the MSW Advanced program.

**Non-BSW entry to the MSW degree:** Qualified non-BSW degree holders undertake foundational coursework that prepares them for the Advanced coursework at which time they join the BSW degree holders who have entered the MSW Advanced program. Those who are qualified may also apply to complete their Advanced Year of study with the MSW Indigenous Specialization.

**MSW with an Indigenous specialization:** The School of Social Work has a specialized program of studies leading to the Master of Social Work degree for social workers working in Indigenous social settings. This program is designed to provide social workers working in Indigenous communities with the opportunity to develop their knowledge and skills within this context.

**Objectives of the MSW degree include:**

- Develop critical self-reflection and analysis of their role as social workers;
- Build on their experience and understanding of practice conditions and effective practice models;
- Analyze and critique social work theories and approaches to practice, using difference-centered theories;
- Develop skills for developing and applying critical social work theories and approaches to practice;
- Conceptualize, critique and develop their own practice framework;
- Develop and apply skills in research and critical inquiry within community contexts;
- Address the current impact of funding and program policies, organizational policies and structures and community dynamics on practice in their communities;
- Explore the challenges, opportunities and strategies for critical social work practice in inter-professional contexts;
- Cultivate practice approaches for working across differences of gender, age, race, ethnicity, class, ability and sexual orientation;
- Identify the leadership roles and distinctive contributions that social work can make to policy and practice in the human services and locate themselves as leaders in relevant practice and policy contexts within their communities.

**Additional objectives of the MSW program within the Indigenous specialization:**

- “centering” Indigenous culture, knowledge and understanding;
- Building on students’ own knowledge as experienced practitioners in Indigenous service settings;
- Developing critical awareness and capacity for analysis and applying these skills to practice and policy development in Indigenous service settings;
- Developing the capacity to conduct research and contribute to Indigenous knowledge building and transmission;
- Identifying racism, colonization and oppression and contributing to liberating policies and practices;
- Contributing to the development of culturally appropriate child welfare policies and practices;
- Contributing to the development of healthy Indigenous communities;
- Identifying international connections between Indigenous peoples and their knowledge and experience;
- Developing leadership skills in policy development and administration in the context of Indigenous governance.

The MSW Advanced program will be offered through a combination of summer institute and web-based delivery of instruction and all of the courses will be offered through the School.

The MSW Indigenous specialization program will be offered every other year through a combination of summer institute and web-based delivery of instruction. Students within the specialization will begin the program in the summer session by taking SOW 521 which has an on-campus component. The Non-BSW MSW program will be offered on campus.

Students have the option of completing a thesis or social work Advanced Practice practicum with additional coursework under the supervision of a faculty member of the School of Social Work, unless an alternate supervisor is approved by the Director. General student policies can be found on the online MSW Student Program Guide available at the School of Social Work website: <www.socialwork.uvic.ca/docs/msw/MSWprogramguide.pdf>.

**Financial Support**

All new applicants are evaluated for the University Fellowship. The minimum standard required for consideration is a first-class standing (A-). Grade calculations and equivalencies are determined by the Graduate Admissions and Records Office. The process is competitive and meeting the minimum standard for consideration does not guarantee that you will be successful in the competition.

A number of awards, scholarships and bursaries are available to full-time students. The Faculty of Graduate Studies provides a list of available awards and necessary applications online at <web.uvic.ca/gradstudies/fund/funding.html> or through their office in the University Centre.

**Admission Requirements**

**General**

Initial inquiries regarding graduate studies in social work should be made to the Graduate Secretary and Program Adviser. Application forms and supporting documents can be obtained from the School of Social Work website, at <www.uvic.ca/hsd/socialwork/prospective>. Applicants are required to provide an employer’s reference, a personal statement and a current CV as part of the application. Completed applications and supporting documents must be available for consideration by the School and faculty on, or prior to, the deadline date.

All students entering a graduate program in Social Work must have access to the Internet, email and Microsoft Office (i.e., Word and PowerPoint) as well as Adobe Reader or Adobe Acrobat for the duration of the program. Students require a UVic Netlink ID with a UVic email address.

Synchronous learning sessions (booked online classes in real time) may be required for all MSW program options. Students enrolled in the MSW program may be required to be available for weekly online synchronous learning opportunities.

**Admission to the Master’s Program**

Entry into the MSW Advanced Program or MSW Indigenous Specialization requires a BSW degree with a minimum GPA of 6.0 (B+) or higher. Admission is highly competitive. Not all students who meet the minimum requirements will be admitted. These programs are offered as resources permit.

**Specific to the MSW Advanced Program:** all applicants must have at least two years of post-BSW professional experience. (Equivalencies to this practice requirement may be considered.)

**Specific to the MSW—Indigenous Specialization:** Two years of post-BSW professional experience in an Indigenous social service setting. This requirement reflects the distinctive features of this program.

**Admission to the Master’s Program without a BSW**

All applicants will be required to satisfy normal admissions requirements for the Faculty of Graduate Studies.

Entry requires an undergraduate degree from a Canadian recognized degree-granting institution, and a graduating cumulative GPA of 6.0 or higher. References demonstrating two or more years of successful practice in one or more human service organizations.

**Deadline**

The application deadline is December 1 of each year for all MSW options, for both domestic and
may charge an administration fee and a fee to process identification badges. Cost related to these requirements and other agency costs associated with the practicum are the responsibility of the student.

All students completing a practicum in BC will be required to complete a criminal record check through the Ministry of Justice.

**Application for Practicum**

Students must submit an application for practicum approximately one term in advance of the semester when they are planning to take the course. Applications are available on the School’s web site. The due dates for applications are posted on the school website.

**Denial and Withdrawal**

**Denial**

Students will be denied the practicum experience if their preparatory work is considered unsatisfactory by the Director of the School of Social Work.

**Temporary Withdrawal of Students Pending Report**

The Director may require a student to withdraw temporarily from a practicum if, during the course of a term, there are reasonable grounds to believe that the conduct or lack of competence of a student enrolled in the practicum has adversely affected or may adversely affect:

- clients,
- personnel, including students associated with the practicum.

The student will be required to withdraw temporarily pending the receipt of a report on the conduct and lack of competence of the student. This written report from the course instructor will normally be provided to the student within 10 business days of the withdrawal.

**Withdrawal**

After giving the student an opportunity to be heard, the Director may require a student to withdraw from the practicum if the Director is satisfied that the student's conduct or lack of competence may adversely affect members of any of the groups identified in the paragraph above.

**Voluntary Withdrawal**

Students seeking voluntary withdrawal from a practicum, whether permanent or temporary, must receive permission to do so from the Graduate Advisor.

**Appeals**

The normal avenue of final appeal is available for students who feel they have been unjustly treated.

**Information Sharing**

The University of Victoria School of Social Work is committed to supporting students to become capable, professional Social Workers. Evaluative feedback about student progress may be shared amongst instructors and staff in the School in order to promote student success or address concerns about professional conduct.

---

**Program Regulations**

All students in the School of Social Work must follow the Guidelines for Professional Conduct (see below), the Regulations Concerning Practice (see below) and are subject to the provisions of the Canadian Association of Social Work (CASW) Code of Ethics [www.casw-acts.ca/en/what-social-work/casw-code-ethics].

**Guidelines for Professional Conduct**

The School of Social Work expects students to develop and adhere to a professional code of conduct. The School supports models for professional conduct based on the following guidelines:

- Adherence to a professional code of ethics;
- Exercise of personal discipline, accountability and judgement;
- Acceptance of personal responsibility for continued competency and learning;
- Willingness to serve the public, client or patient and place them before oneself;
- Ability to recognize the dignity and worth of all persons;
- Willingness to assist others in learning;
- Ability to recognize one's own limitations;
- Maintenance of confidentiality of information (including all electronic communication) appropriate to the purposes and trust given when that information was acquired;
- Acceptance that one's professional abilities, personal integrity and the attitudes one demonstrates in relationships with other persons are the measure of professional conduct.

A student who has breached any of the above guidelines or fails to follow the CASW Code of Ethics in any Social Work course may be:

- Required to engage in a course of action to address concerns; and/or
- Suspended from continued participation in the course prior to the course end date; and/or
- Assigned a failing grade (grade of F or N) for the course; and/or
- Asked to withdraw from the Social Work Program.

**Regulations Concerning Practice**

**General Practicum Policies**

The School reserves the right to approve any agency or institution that provides placements for student practica, and to change any placement assigned to a student. The student has the right to be informed in writing of the reasons for any change in placement. While the faculty strives to provide a sufficient number of practicum opportunities to serve the needs of all registered students, a student may be required to withdraw from a practicum course if none of the available practicum agencies will accept the student.

**Immunizations, Agency Fees and Other Costs**

Students may be required to complete their practica in an agency requiring proof of immunization and a criminal record check as part of its screening process. In addition, agencies
**Electives (1.5 units):**
Students must take at least 1.5 units of elective courses. MSW students may take one 400 level course as an elective with the permission of the course instructor and the Graduate Adviser. Undergraduate courses taken prior to admission to the MSW cannot be used for graduate elective credit.

**Program Length**
The maximum time limit for the MSW Program is 5 years. It is expected that full-time students will complete their programs in less than 3 years.

**MSW Advanced program**

**Course-based option**
The MSW Advanced program (course-based option) requires a minimum of 15 units. The 15 units are made up of 9.0 units of core courses, 1.5 units of electives, and 4.5 unit advanced practicum.

The Advanced program courses will be offered through a combination of summer institute and web-based instruction.

- SOCW 510 (1.5) Policy Context of Practice
- SOCW 511 (1.5) Contemporary Debates and Ethical Dilemmas in Social Work
- SOCW 512 (1.5) Knowledge and Inquiry: Re-Theorizing Social Work
- SOCW 515 (1.5) Transnational Social Work
- SOCW 516 (1.5) Research Methodologies
- SOCW 571 (1.5) MSW Capstone
- SOCW 506 (4.5) Advanced Practicum

**Electives (1.5 units):**
Students must take at least 1.5 units of elective courses. MSW students may take one 400 level course as an elective with the permission of the course instructor and the Graduate Adviser. Undergraduate courses taken prior to admission to the MSW cannot be used for graduate elective credit.

**Program Length**
The maximum time limit for the MSW Program is 5 years. It is expected that full-time students will complete their programs in less than 3 years.

**Master’s with Indigenous Specialization**

**Thesis option**
The MSW-Indigenous Specialization degree (thesis option) requires a minimum of 15 units. The 15 units are made up of 7.5 units of core courses, 3.0 units of electives, and a 4.5 unit MSWI Practicum.

- SOCW 510 (1.5) Policy Context of Practice
- SOCW 516 (1.5) Research Methodologies
- SOCW 521 (1.5) Indigenous Perspectives on Knowledge and Research
- SOCW 523 (1.5) Self-conscious Traditionalism in Indigenous Social Work Practice Seminar
- SOCW 571 (1.5) MSW Capstone
- SOCW 506A (4.5) MSWI Practicum

**Elective (3.0)**
Student must take at least 3.0 units of elective courses. MSWI students may take one 400 level course as an elective with the permission of the course instructor and the Graduate Adviser. Undergraduate courses taken prior to admission to the MSWI program cannot be used for graduate elective credit.

**Program Length**
Normally, full-time students in the Indigenous Specialization require a minimum of one and a half years to complete the MSW degree.

**Sociology**

**General Information**
At the level of graduate studies, the Department of Sociology includes among its research and teaching strengths the six core areas of concentration designated in its doctoral program: aging, gender, health, political sociology/social movements, social inequality, and cultural, social and political thought. Graduate studies in Sociology are designed to emphasize the connections between core areas and to encourage students to develop competencies in more than one area, particularly at the doctoral level. Further information is available at the department’s website (see below).

Race and racism; surveillance; moral regulation and moral panic; socio-legal studies
Karen M. Kobayashi, PhD (Simon Fraser)
Aging; family; health; ethnicity and immigrant status; research methods
Martha McMahon, PhD (McMaster)
Formal organization; social psychology; social networks; social and political thought; methodological requirements

James C. Hackler, PhD (Washington)
Deviance; social control; criminology and delinquency
Mikael Jansson, PhD (Western Ontario)
Health; substance use; youth; ethics; vulnerable populations
Sharon M. Lee, PhD (Princeton)
Social demography; immigration; race and ethnicity; social inequality
Dorothy E. Smith, PhD (UC, Berkeley)
Social organization of knowledge; institutional ethnography

Degrees and Specializations Offered
The Department of Sociology offers courses of study leading to the degrees of Master of Arts and Doctor of Philosophy.

Facilities
Facilities available exclusively for Sociology graduate students include the Roy Watson Computer Laboratory, where software is available for the analysis of both qualitative and quantitative data.

Through its affiliation with the B.C. Regional Data Centre, the University provides extensive access to Statistics Canada survey data at the university library. Graduate students have access to the B.C. Provincial Archives and to national and international data sets through the Inter-University Consortium for Political and Social Research (ICPSR).

The department participates in research centres that include the Centre on Aging (arguably the best unit of its kind in Canada), the Centre for Addiction Research of BC, and the Centre for Youth and Society, and in the highly innovative Interdisciplinary Program in Cultural, Social, and Political Thought (CSPT, see below).

Financial Support
Graduate students are supported by fellowships and scholarships, teaching and research assistantships, and (for master’s students) work placements in UVic’s Co-operative Education Program, the third largest in Canada. The Co-op option allows master’s students to gain valuable paid work experience while completing degree requirements.

Not all MA students can expect to be funded. As well, the department normally funds MA students only in the first two years of their program. To qualify for second-year funding, a student needs to make adequate progress in the first year. Generally, this means completing six courses with a GPA of 6 or better.

All doctoral students are funded at a minimum level of $12,000 for each of three years. The department strives to support its doctoral students with funds approaching $18,000 for each of these years. Sources for funds can include teaching and research assistantships, grants and fellowships from the Faculty of Graduate Studies, external grants and fellowships, and sessional teaching work for doctoral students after completion of all coursework and candidacy exams.

Admission Requirements
The department welcomes applications from Canadian and international students with strong backgrounds in sociology or closely related fields. All applications should include a full set of official transcripts, at least two letters of reference, a writing sample, and a statement of intent.

With rare exceptions, master’s and doctoral students enter their programs in September. This is mainly because funding is normally available only for students beginning their programs at that time. Graduate seminar courses are offered only in the fall and spring terms; however, graduate students may arrange with individual faculty to take Directed Studies courses (SOCi 590 and 690) in the summer term (May-August).

Admission to Master’s Programs
Admission to the master’s program requires a bachelor’s degree, with a minimum overall average of B+ (6.0) in the final two full years of credits or undergraduate work. All incoming master’s students must fulfill the requirements expected of undergraduate Honours students in this department. Students without the prerequisites for the graduate courses they need to take will be required to take the prerequisites as part of their degree program (see Sociology graduate course listings for details). The admissions selection process is competitive. Not all students who meet the minimum requirements will be admitted. Typically, between 8 and 10 master’s students are admitted to the program each year.

Admission to the PhD Program
Admission to the PhD program normally requires a master’s degree in Sociology or a related social science discipline with a minimum average of 7.0 to 7.5 (A- to A) in graduate courses. To be admitted to the program, an applicant must have excellent letters of reference, present a clear statement of research interests and submit an example of strong scholarly work. The University’s English language competency requirement applies. All eligible applications are reviewed by the departmental Graduate Committee (chaired by the Graduate Adviser).

Admission to the Concentration in Cultural, Social and Political Thought (CSPT) Program
This program is open to selected students in Sociology, English, Environmental Studies, History and Political Science. Students must meet the core graduating requirements of the individual departments.

Students must apply online, choosing the Concentration in Cultural, Social and Political Thought option for Sociology. If approved by the department, the application will be reviewed by the CSPT Admissions Committee. Applicants must already have been accepted for graduate study in Sociology. For full information about the program see <www.uvic.ca/interdisciplinary/cspt>.

The requirements for the program in the Department of English, Environmental Studies, History and Political Science differ from those in Sociology.
See also the entry for “Concentration in Cultural, Social and Political Thought (CSPT)”, page 120.
**PROGRAM REQUIREMENTS**

**Master's**

The department offers two programs leading to the MA degree. Normally, students will declare their intentions of pursuing one or the other option by the end of April of their first year in the graduate program.

The programs leading to the Master of Arts degree in Sociology, while containing a core of theory and method, are designed to provide flexibility for students as well as to reflect the diversity which characterizes the discipline. Individual programs beyond the core are designed to fit students’ interests and to supplement areas in which they may require additional work, insofar as faculty resources and specializations permit.

Normally, work as a research assistant or teaching assistant is an integral part of the master’s program in Sociology.

Students are urged to consult the most recent edition of A Guide to Graduate Studies in Sociology, which may be obtained at the departmental Office and on our website. The Guide provides further details of the program and specifies additional requirements for program completion.

**Thesis-based Master's**

This program involves 9 units of course work and a 6-unit thesis, with at least 12 of the 15 units drawn from Sociology listings in the calendar. At least 13.5 units must be at the graduate level; 1.5 units may be selected from undergraduate Sociology courses numbered 300 and higher (subject to approval by the Graduate Adviser). In this program, students write a thesis (SOCI 599) for which they receive 3 units of credit. Students are required to demonstrate competence in both sociological theory and method, are designed to provide flexibility for students as well as to reflect the diversity which characterizes the discipline. Individual programs beyond the core are designed to fit students’ interests and to supplement areas in which they may require additional work, insofar as faculty resources and specializations permit.

Normally, work as a research assistant or teaching assistant is an integral part of the master’s program in Sociology.

Students are urged to consult the most recent edition of A Guide to Graduate Studies in Sociology, which may be obtained at the departmental Office and on our website. The Guide provides further details of the program and specifies additional requirements for program completion.

**Course Requirements**

- Thesis (SOCI 599) ................. 6.0
- Statistical Analysis (SOCI 507) .... 1.5
- Qualitative Research Methods (SOCI 515) .... 1.5

**One of the following:**

- Classical Sociological Theory (SOCI 503) .... 1.5
- Contemporary Social Theory (SOCI 504) .... 1.5

**At least one of the following:**

- Linear Models (SOCI 508) ............... 1.5
- Research Design (SOCI 511) ............... 1.5
- Gender, Power and Social Justice (SOCI 525) .... 1.5
- Political Sociology (SOCI 535) ............... 1.5
- Sociology of Health (SOCI 545) ............... 1.5
- Social Inequality (SOCI 556) ............... 1.5
- Social Movements (SOCI 566) ............... 1.5
- Seminar on Aging (SOCI 585) ............... 1.5
- Topics in Cultural, Social and Political Thought (CSPT 500)* ............... 1.5
- Contemporary Cultural, Social and Political Thought I (CSPT 501) ............... 1.5

*May be taken more than once if course content differs.

**Thesis Preparation**

Before a student commences work on the thesis, a thesis proposal outlining the student’s problem (from a theoretical and methodological viewpoint) must be approved at a meeting of the student and her/his supervisory committee. A copy of the proposal and the recommendations of the supervisory committee will be placed in the student’s file. Typically, Sociology theses are between 80 and 120 pages long. Students should consult the Guide to Graduate Studies in Sociology, available at the department’s website, for details on thesis preparation.

**MA Oral Examination**

All students will undergo an oral examination upon completion of their thesis.

**MA Supervisory Committee**

Students in the thesis option will be supervised by a committee consisting of their academic supervisor and at least one other member from the home academic unit. Additional committee members may or may not be from the home academic unit.

**Program Length**

The department expects full-time students to complete the master’s degree in two years. Students who take the Co-operative Education option can expect to take close to three years to complete the master’s degree. Students who complete the master’s degree on a part-time basis can expect to take three to four years, depending on how many terms involve full-time enrollment and how many involve part-time enrollment.

**Thesis-based Master's with CSPT**

CSPT Master’s students must complete 9 units of course work and a 6-unit thesis (SOCI 599) whose topic must be within the field of CSPT. Within or in addition to the 9 units of course work, they must complete two CSPT seminars (3 units). At least 12 of the 15 units must be drawn from Sociology listings in the calendar (SOCI 500 or SOCI 597). Students are required to demonstrate competence in both sociological theory (SOCI 503 or 504) and method (SOCI 507 and 515).

In addition, normally students must complete at least one of the following: SOCI 508, 511, 525, 535, 545, 556, 566, 585, CSPT 500 or CSPT 501 or may be substituted for these courses if the CPST section is taught by a member of the Sociology department. These courses are designed to facilitate the range of interests displayed by traditional and contemporary sociological inquiry. The range of such interests is illustrated by the current areas of interest declared by the Sociology faculty.

**Course Requirements**

- Thesis (SOCI 599) ................. 6.0
- Statistical Analysis (SOCI 507) .... 1.5
- Qualitative Research Methods (SOCI 515) .... 1.5

**One of the following:**

- Classical Sociological Theory (SOCI 503) .... 1.5
- Contemporary Social Theory (SOCI 504) .... 1.5

**At least one of the following:**

- Linear Models (SOCI 508) ............... 1.5
- Research Design (SOCI 511) ............... 1.5
- Gender, Power and Social Justice (SOCI 525) .... 1.5
- Political Sociology (SOCI 535) ............... 1.5
- Sociology of Health (SOCI 545) ............... 1.5
- Social Inequality (SOCI 556) ............... 1.5
- Social Movements (SOCI 566) ............... 1.5
- Seminar on Aging (SOCI 585) ............... 1.5
- Topics in Cultural, Social and Political Thought (CSPT 500)* ............... 1.5
- Contemporary Cultural, Social and Political Thought I (CSPT 501) ............... 1.5

*May be taken more than once if course content differs.

**Project-based Master's**

This program involves 12 units of course work and a 3-unit Extended Essay, with at least 9 of the 15 units drawn from Sociology listings in the Calendar. At least 13.5 units must be at the graduate level; 1.5 units may be selected from undergraduate Sociology courses numbered 300 and higher (subject to approval by the Graduate Adviser). In this program, students write an Extended Essay (SOCI 598) for which they receive 3 units of credit. Students are required to demonstrate competence in both sociological theory (SOCI 503 or 504) and method (SOCI 507 and 515). In addition, students must complete at least two of the following: SOCI 508, 511, 525, 535, 545, 556, 566, 585, CSPT 500 or CSPT 501 may be substituted for these courses if the CPST section is taught by a member of the Sociology department.

Additional courses may be taken from other departments, up to a maximum of 4.5 units, selected in consultation with the Graduate Adviser and the student’s supervisor, and with permission of the other departments.

**Course Requirements**

- Extended Essay (SOCI 598) ............... 3.0
- Statistical Analysis (SOCI 507) .... 1.5
- Qualitative Research Methods (SOCI 515) .... 1.5

**One of the following:**

- Classical Sociological Theory (SOCI 503) .... 1.5
- Contemporary Social Theory (SOCI 504) .... 1.5

**At least two of the following:**

- Linear Models (SOCI 508) ............... 1.5
- Research Design (SOCI 511) ............... 1.5
- Gender, Power and Social Justice (SOCI 525) .... 1.5
- Political Sociology (SOCI 535) .... 1.5
- Sociology of Health (SOCI 545) .... 1.5
- Social Inequality (SOCI 556) .... 1.5
- Social Movements (SOCI 566) .... 1.5
- Seminar on Aging (SOCI 585) .... 1.5
- Topics in Cultural, Social and Political Thought (CSPT 500)* ............... 1.5
- Contemporary Cultural, Social and Political Thought I (CSPT 501) ............... 1.5

**Final Project**

In this program, students write an Extended Essay (SOCI 598) for which they receive 3 units of credit. Typically, the Extended Essay is between 40 and 60 pages long.

**Oral Examination**

Students in the project-based program will be supervised by a committee consisting of their academic supervisor and one other department.
member and will undergo an oral examination upon completion of their Extended Essay.

PhD Program

The PhD program is open to students with research interests in one or more of the following core areas and their intersections:
- aging
- gender
- health
- political sociology/social movements
- social inequality
- cultural, social and political thought (CSPT)

The PhD degree requires 33 units in accordance with the following program.

Course Requirements

All students are required to complete six 1.5 unit graduate courses beyond the MA degree. Unless taken as part of a previous graduate program in Sociology, students will, by the end of their doctoral program, be required to complete two graduate-level social theory courses (SOCI 503 and 504) as well as graduate-level courses in qualitative (SOCI 515) and quantitative (SOCI 508) method. These four courses have prerequisites at the upper-undergraduate level. To ensure mastery of theory and method, students with grades below B+ in any of the four designated courses must pass a written supplementary examination before the theory/method requirements will be deemed to have been met. Students deficient in basic social theory and methods will be asked to complete the prerequisite courses (additional to the 9 required graduate-level units) before taking SOCI 503, 504, 508 and 515. CSPT courses taught by a Sociology faculty member are considered Sociology courses. Sociology doctoral students are encouraged though not required to take graduate courses from other disciplines to enhance their studies. They may take 3.0 units from other departments, selected from a list of approved courses.

Candidacy examinations

Candidacy examinations are offered in each of the Department’s five core disciplinary areas. CSPT candidacy exams are set separately. Students must complete candidacy exams in any two of three disciplinary areas: health and aging; social inequality and political sociology; social movements. Candidacy Examination Committees provide a reading list updated on a yearly basis and set exam questions. Students have a choice of either a 7-day take-home examination or a closed-book 6-hour examination. A student may fail a candidacy examination in a given area only once and must pass both candidacy examinations in order to continue in the PhD program. Both exam formats will have an oral component no later than one month after the submission of the written part.

The oral examination is to be based on the candidate’s answers to the written exam. The oral examination will assess the student’s ability to situate his or her written answers within the broader literature on the reading list.

Dissertation

Students are required to complete and defend a dissertation proposal before their supervisory committee, normally within six months of passing the candidacy exams. The proposal and oral defense must be considered satisfactory before the student may proceed to the dissertation. All students are required to submit and defend a dissertation worth 21 units of credit.

PhD Supervisory Committee

A PhD student’s supervisory committee must have at least three members: the academic supervisor from the home academic unit, plus one other member also from the home academic unit. The third member must be from outside the home academic unit.

PhD Program - CSPT Option

CSPT doctoral students must meet the core requirements of their own department as well as the specific requirements of the CSPT program. A CSPT PhD student must complete 9.0 units of course work, subject to the same requirements that apply to other Sociology doctoral students (see ‘Course Requirements’ above). CSPT doctoral students are required to take one section of CSPT 500 plus one section of CSPT 600/601. In addition, such students write, as one of their comprehensive exams, a CSPT dissertation, written by the student. CSPT students taking the doctoral option will have as their supervisor a CSPT faculty member who is also a member of the Sociology department. A Sociology (CSPT) student’s dissertation must meet the requirements of both the CSPT Program and the Department of Sociology. The topic must be within the broad field of cultural, social and political thought.

CO-OPERATIVE EDUCATION

Participation in the Co-operative Education program—which enables students to acquire knowledge, practical skills for employment, and workplace experience—is optional for Master’s and PhD students. Master’s students complete two work terms and PhD students complete three (a work term consists of four months of full-time, paid employment). Students require permission from their academic adviser and graduate adviser, as well as the Co-op coordinator, to participate in the Co-op program. Interested students should contact the Sociology Co-op office early in their first term. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

Studies in Policy and Practice

GENERAL INFORMATION

Studies in Policy and Practice (SPP) is an innovative interdisciplinary MA graduate program of critical studies for those involved in activism, human services, and community work. The program provides graduates with a strong grounding in critical analysis for developing practice-based careers and pursuing advanced degrees in interdisciplinary studies and other disciplines.

In fostering a unique combination of analytic and methodological skills, courses and work on a thesis or extended essay facilitate an understanding of the social, cultural and political contexts of policy and practice. Objectives focus on bringing together critical interpretations of policy, critical analysis of experience and practice, and critical theories of society and polity in innovative ways—all to effect social change.

Further information about the Studies in Policy and Practice Program can be found on their website at <web.uvic.ca/spp>.

Program Assistant: Douglas Thompson

Faculty Members and Areas of Research

Susan Boyd, PhD (Simon Fraser)
Women in conflict with the law; drug law and policy, reproductive autonomy; research methodologies; film and print media representations

Pamela Moss, PhD (McMaster)
Body politics; feminist research and theory; women, space and identity; illness and disability; chronic fatigue syndrome; veterans with PTSD

Michael J. Prince, PhD (Exeter)
Aboriginal-Canada state relations; biotechnology policy and governance; disability politics and policy; public budgeting; retirement income policy

Marge Reitsma-Street, PhD (Toronto)
Poverty, unpaid work and wealth; community development; activist research; women’s organizations
GRADUATE PROGRAMS

Katherine Teghtsoonian, PhD (Stanford)
Neoliberalism and public policy; women's policy agencies; gender mainstreaming initiatives; mental health policy; workplace issues and mental health

Degrees and Specializations Offered
Students completing this program will receive a Master of Arts.

Facilities
SPP Graduate Students share an HSD Graduate Student office with a telephone and computers located in the B Wing, on the second floor of the Human and Social Development Building (room B241). Students also have access to a computer lab open seven days per week.

Financial Support
Graduate fellowships, awards and grants are available for students entering the program.

ADMISSION REQUIREMENTS

Admission to the Master’s Program
This program is only offered subject to an adequate applicant pool and resources.

SPP applicants must have a bachelor's degree in a relevant discipline and two years of relevant work experience. Usually, a B+ average (6.0 GPA) for the last two years of university work is a minimum requirement for admission to the program. The program usually requires applicants to have or to make up an undergraduate course in research methods. Students also need to have or make up background knowledge of Canadian government and policy.

In addition to transcripts, letters of recommendation and application forms required by the Faculty of Graduate Studies, the Studies in Policy and Practice Program requires applicants to provide a résumé, a personal statement of interests including a rationale for application, and a brief biography.

Deadlines
The early closing date for applications is December 1st and applications are accepted until February 15th.

PROGRAM REQUIREMENTS

Thesis-based Master’s
Students are required to complete 9.0 units of coursework (four required courses and two electives) and a 6.0 thesis, for a total of 15.0 units.

Course Requirements
SPP 510 (1.5) Policy Context of Practice
SPP 516 (1.5) Research Methodologies
SPP 519 (1.5) Theory for Policy and Practice
SPP 550 (1.5) Advanced Thesis Seminar
SPP 599 (6.0) Thesis

Electives Courses
(Usually, a B+ average (6.0 GPA) for the last two years of university work is a minimum requirement for admission to the program. The program usually requires applicants to have or to make up an undergraduate course in research methods. Students also need to have or make up background knowledge of Canadian government and policy. In addition to transcripts, letters of recommendation and application forms required by the Faculty of Graduate Studies, the Studies in Policy and Practice Program requires applicants to provide a résumé, a personal statement of interests including a rationale for application, and a brief biography.)

SPP 531 (1.5) Critical Approaches to Policy Analysis
SPP 580 (1.5 or 3.0) Special Topics
SPP 590 (1.5 or 3.0) Directed Studies
One elective must be an SPP course; usually two electives are SPP courses.

Thesis
Prior to beginning work on their thesis students must complete, and have approved by their supervisory committee, a proposal of 20-25 pages. The thesis itself is to be approximately 100 pages in length.

Program Length
Full-time students are expected to complete the program in three years or less. Part time students are given five years to complete the program.

Project-based Master’s
This option involves 12.0 units of course work and a 3.0-unit Extended Essay.

Required Courses
SPP 501 (1.5) Organizational Context of Practice
SPP 510 (1.5) Policy Context of Practice
SPP 519 (1.5) Theory for Policy and Practice
SPP 522 (1.5) Critically Engaging with Research
SPP 531 (1.5) Critical Approaches to Policy Analysis
SPP 598 (3.0) Extended Essay

Elective Courses
In addition to the required courses, students must complete 4.5 units of elective courses. One elective must be an SPP course; usually two electives are SPP courses. Students wishing to take a course offered through another academic unit as an elective need the permission of the Program.

Extended Essay
SPP 598 (3.0): Students are required to complete an extended essay and enrol in SPP 598 (3.0) while they are working on this component of their program. The extended essay will entail an in-depth examination of a topic related to policy and practice.

Oral Presentation
Students in the project-based option will be supervised by a committee consisting of their academic supervisor and one other faculty member and will make an oral presentation based on their work upon approval of the Extended Essay by committee members.

Program Length
Full-time students can be expected to complete the program in two years.

Co-operative Education
SPP offers a Co-operative Education option for students entering the program. Co-operative Education provides students with relevant work experience, either for building a career or making the transition to a different career. The Co-op option consists of two four-month work terms. The first placement begins after the student has completed two terms of coursework. At least one academic term has to be completed between placements. Prior work experience and continuing part- or full-time employment are not accepted for work term credit. Students completing two work terms and satisfying SPP academic requirements for the MA degree program will graduate with a Co-op designation on their transcript. See the Graduate Co-operative Education Entry in the Graduate Studies Calendar section of the Calendar. Students are advised that a Co-operative Education program fee is charged for each work term.
The Philosophy of the Theatre department is that the theatre should be studied in all its aspects and that it is best approached through a curriculum that leads to performance. Through all courses and productions, students are encouraged to focus on fundamental creative, interpretive, performative and technical skills as they study the historical, contemporary and educational theories and practices of the theatre arts.

Since theatre is a public art, the majority of our work is presented to the public. Our production format includes a mainstage season of shows, plus a spring festival of new and innovative work co-produced with the Department of Writing.

Faculty Members and Areas of Research
Allana Lindgren, PhD (Toronto), Chair
Dance history, theatre history, especially modernism, Canadian cultural history

Conrad Alexandrowicz, MFA (Alberta)
Acting, movement for actors, devised theatre

Sarah Blackstone, PhD (Northwestern), Dean
Theatre history, especially popular entertainments of the late 19th and early 20th centuries, and American theatre history

Warwick Dobson, PhD (Sussex)
Applied theatre, drama/theatre in education, reminiscence theatre

Fran Gebhard, MFA (Vancouver)
Acting, directing

Linda Hardy, MA (Toronto)
Acting, voice and speech for the stage, 19th century British theatre, directing

Mary Kerr, BFA (Manitoba), Doctor of Canon Law (honoris causa) (Manitoba)
Stage design (costume and set), Canadian theatre, dance, ballet, opera, musical theatre, film, television and special events design

Peter McGuire, MFA (Victoria)
Production, direction

Brian Richmond, MA (Toronto)
Directing, dramaturgy, acting

Kirsten Sadeghi-Yekta, PhD (Manchester)
Applied theatre, aesthetics of theatre, political theatre, community projects, devising for performance

Allan Stichbury, BFA (Alberta)
Stage design (scenic, costumes and lighting), Canadian theatre

Anthony Vickery, PhD (Victoria)
Theatre history, especially melodrama and British and North American theatre of the 19th and early 20th centuries

Jennifer Wise, PhD (Toronto)
Theatre history, especially Ancient Greece and the 18th century, theories of acting, opera

Jan Wood, BFA (Alberta)
Acting, voice

Adjunct, Emeritus and Visiting Faculty
Juliana Saxton, BA (Toronto)
Applied theatre

Degrees and Specializations Offered
The department offers the following graduate programs:
- MA in Theatre History
- MFA in Directing
- MFA in Design/Production

Facilities
The Phoenix Building is recognized as one of the most innovative and complete production/teaching facilities in Canada. In keeping with the academic philosophy of the teaching program, the Phoenix Building is designed and built around three distinct theatre architectural models, a thrust, a proskenium and a black box studio. Each space is provided with equipment designed to give students, actors, technicians and designers the opportunity to take part in many types of theatre: historic, modern, and experimental. Surrounding these performance spaces are fully equipped support areas: a design studio, scene, costume and properties workshops. In addition, there are rehearsal areas, makeup and dressing rooms, a movement studio, storage areas for props, scenery and costumes and of course classrooms.

In addition, the Department of Theatre has a good working relationship with the professional community, and educational theatres on Vancouver Island, providing opportunities for graduate students to do various types of practical work off-campus when time permits.

Financial Support
A few graduate students receive University of Victoria Fellowships (currently valued at approximately $13,500 over 12 months), which are awarded annually by the Faculty of Graduate Studies. The primary requirement for a fellowship is a minimum GPA average of 7.0 (Uvic scale – approximately an A- average of 80%) in each of the last two undergraduate years and each graduate year.

A limited number of assistantships (TA) are also available from the department for qualified students. The usual level of assistantships is $2,000 per term, which normally can be matched by the Faculty of Graduate Studies for a total of $4,000 per term or $8,000 per year. Numerous other awards are administered through The Faculty of Graduate Studies. Details can be found on the Faculty of Graduate Studies website: <www.uvic.ca/grad>.

Admission to the MA in Theatre History
Applicants must possess either a general knowledge of Western theatre history, or the Greeks to the present, or a strong background in dramatic literature. Applicants must also be familiar with the practicalities of theatre production: design, direction, and performance.

Normally all admissions are conditional upon a diagnostic examination in theatre history.

Admission to the MFA in Directing
One student is admitted to the MFA program in Directing every two years. The competition is rigorous and a student should not apply unless he/she has an undergraduate degree with a major in theatre and a minimum GPA of B+. The applicant should also have a strong background in dramatic literature and dramatic theory as well as substantial practical experience in acting and directing. MFA in Directing applicants must have knowledge at the BFA level of Directing, Acting, Theatre History, Lighting, Costume and Scene Design. A candidate’s knowledge may be assessed by a diagnostic examination.
Admission to the MFA in Design/Production
In addition to the above general requirements, MFA in Design/Production applicants will be required to submit a portfolio.
Applicants must have a basic knowledge and some experience in design of scenery, costume and lighting. They should also possess at least a survey knowledge of Western Theatre History and an acquaintance with the art of Directing. A candidate's knowledge may be assessed by a diagnostic examination.

Deadlines
All applications must be submitted on forms available from the Graduate Admission and Records Office website <registrar.uvic.ca/grad> by February 1.
Applicants are automatically considered for a Graduate Fellowship or Award upon application.

Program Requirements
Master of Arts
MA candidates will normally follow the project-based option as described below. For the project-based option, all candidates must complete 13.5 units of graduate course work (as described in the separate entries below) and an MA Essay of 4.5 units. In exceptional cases, a candidate may be granted permission by the graduate adviser to follow the thesis option, which requires completion of 12 units of graduate course work and an MA thesis of 6 units.
Each student will be assigned a faculty supervisor who will assist the student in the development of the final project.

MA in Theatre History – Thesis Option
Course Requirements
Theatre History (including THEA 500) ............... 6.0
Courses to be chosen from a related discipline, to be approved by the Graduate Adviser (3 units may be taken at the 300 or 400 level) ............... 6.0
MA Thesis (THEA 599) ......................... 6.0

Thesis
The candidate will submit the thesis and orally defend it as part of the requirements of the Faculty of Graduate Studies.

Program Length
The residency requirement is one year. The expected completion time is two years.

MA in Theatre History – Project-based Option
Course Requirements
Theatre History (including THEA 500) ............... 7.5
Courses chosen from a related discipline, to be approved by the Graduate Adviser (3 units may be at the 300 or 400 level) ............... 6.0
MA Essay (THEA 598) ......................... 4.5

Final Project (MA Essay)
Under the direction of the faculty supervisor, the candidate will prepare, orally defend during examination and submit a paper suitable for presentation at a recognized scholarly conference or a refereed academic journal.
Under special circumstances, the faculty supervisor may approve a student's request to pursue an MA thesis program. Information is available from the Graduate Adviser.

Program Length
The residency requirement is one year. The expected completion time is two years.

Master of Fine Arts
Applicants must have practical theatre experience and may be required to take a diagnostic examination. Any deficiencies will represent additional requirements for the student and must be eliminated before the student may enrol in the graduate level courses in that area. All courses must be taken at the graduate level unless otherwise specified. Candidates may be required to write comprehensive examinations before proceeding to the practicum.
Each student will be assigned a faculty supervisor who will assist the student in the development of the thesis or practicum.

MFA in Directing – Project-based Option
MFA Directing students will direct a number of short projects and at least one full-length play before graduation.
A practicum production is required along with a practicum report.
Members of the performance faculty supervise all projects and productions.

Course Requirements
Methods and Materials of Theatre Research (THEA 500) ......................... 3.0
Directing and Advanced Directing (THEA 512, 515, 523) ......................... 6.0
Design and Production (THEA 508, 509, 510, 520, 521, 522) ......................... 3.0
MFA Practicum (THEA 524) ......................... 6.0

Final Project THEA 524, MFA Practicum
A production to be decided upon in consultation with the student's supervisor and the department's graduate faculty.

Oral Examination
An oral defense of the practicum production is part of the requirements of the Faculty of Graduate Studies. Normally this defense must occur within two months of the close of the production.

Other requirements
A written comprehensive examination may be required. If required, it must be written no later than the spring term of the second year and prior to commencing work on the practicum production.

Program Length
Normally two calendar years of residency.

Co-operative Education
Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master's students. Master's students complete two work terms (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.

Mowry M. Baden, MFA (Stanford University)
Sculpture, Public Art

**Degrees and Specializations Offered**
MFA

**Financial Support**
Normally, work as a research assistant or teaching assistant is available to students in the graduate program.

**Admission Requirements**

**General**
The MFA program is centred around the major areas: Drawing, Painting, Sculpture, Photography and Digital Multimedia. In the tradition of contemporary practice, members of the department also recognize and encourage work that does not fit singularly into the above categories.

**Admission To Master’s Program**
Applicants to the MFA program must submit a portfolio of work (consult the Visual Arts website <finearts.uvic.ca/visualarts/prospective_students/masters> for details regarding portfolio submission.) Additionally, a Statement of Intent describing the applicant’s conceptual approach to art-making is required. Applicants should also state why they are applying to the University of Victoria MFA program.

As MFA positions are limited, applications will be reviewed in a competitive context. Students who have not previously completed the equivalent of 12 units of Art History, 6 of which must be at the 300 or 400 level, will be required to take the necessary additional courses at the University of Victoria before the granting of the MFA.

Students with a BFA from the University of Victoria will be encouraged to seek their master’s degree elsewhere.

**Deadlines**
Portfolio submissions and completed applications to the MFA program must be submitted to the Graduate Admissions and Records Office by January 15. See <finearts.uvic.ca/visualarts/prospective_students/masters> for more information.

**Program Requirements**

**Project-based Master’s**

**Course Requirements**
Notwithstanding the Art History requirement, a student must complete the following courses:
- one two-year sequence: ART 500 and 501, or ART 511 and 512, or ART 521 and 522, or ART 541 and 542, or ART 551 and 552; in addition to ART 570, 580, 581 and 598.

**Final Project**
- ART 501, 512, 522, 542 and 552 will culminate in a solo exhibition, normally at the end of the second year of study. This final exhibition (ART 598) will be the major source of evaluation for the student’s attainment of the MFA, and will therefore form the basis of the final oral examination.

**Other Requirements**
- At the end of the first year students will present an exhibition of their own work which will be evaluated by faculty members in the department in order to determine the advisability of a student continuing to the second year. Students will be expected to meet on a regular basis with their faculty supervisor(s) for constructive critiques and seminars dealing with their work.

**Program Length**
The normal length of time for the completion of the MFA is two years of full-time study, with degree requirements being completed in the spring of the second year. A student may be advised, or permitted upon departmental recommendation, to delay the final exhibition for a period of not more than twelve months.

**Co-operative Education**
Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master’s students. Master’s students complete two work terms (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.
Writing

GENERAL INFORMATION

The Department of Writing offers a Master of Fine Arts in Writing with a focus in the following genres: poetry, fiction, creative nonfiction, playwriting and screenwriting. A key component in the MFA is courses and practice in the teaching of writing. Workshops are the key to the department's teaching methods – small groups of students discuss and analyze their craft in intensive workshop and seminar sessions. In addition to its award-winning faculty, the Department hires guest instructors and visiting lecturers who are outstanding practitioners.

Faculty Members and Areas of Research

Maureen Bradley, BA, MA (Concordia), MFA (Brit Col)
Film production, experimental film, drama, documentary, feminist and queer media arts

Bill Gaston, BA, MA, MFA (Brit Col), Chair
Fiction, creative nonfiction, drama for stage and screen

Lee Henderson, BFA, MFA (Brit Col)
Fiction, creative nonfiction, graphic novel, editing

Lorna Jackson, BA, MA (Vic)
Fiction, especially the short story, literature of sport, personal essay forms, the writer as teacher, the agrarian landscape

Kevin Kerr, BA (Brit Col)
Stage, Screen, Collaborative Creation, Site-Specific Theatre, Multi-Media performance

David Leach, BA (Vic), MA (Queen's)
Creative nonfiction, literary journalism, travel writing, magazine publishing

Tim Lilburn, BA (Regina), MA (Gonzaga), PhD (McMaster)
Poetry, the philosophical essay, the ecological essay

Joan MacLeod, BA (Vic), MFA (Brit Col)
Stage drama, dramatic monologue, television drama, and contemporary Canadian theatre

Lynne Van Luven, BA (Sask), MA, PhD (Alta)
Creative nonfiction, journalism, editing, columnist, arts commentator

Financial Support

A Graduate Fellowship will be awarded to each Master's student in the first year of the program. There are a number of graduate scholarships available specifically for Writing students, along with others in the university. Students without a previous Master's degree are eligible to apply for SSHRC funding.

Students are eligible to apply for a teaching assistantship in the second year of the program.

ADMISSION REQUIREMENTS

General

The MFA program focuses on five genres: fiction, creative nonfiction, poetry, playwriting and screenwriting.

Admission to Master's Program

An undergraduate degree in any discipline and from any accredited college or university in BC as well as from accredited post-secondary institutions from outside the province. Applicants must have an undergraduate degree and a cumulative GPA of B.

There will be only one admission point: September of each year. We will accept only those prepared to make a commitment to full-time studies in the fall and spring semesters of their first year. Applicants will submit a portfolio consisting of samples of writing in the genre in which they wish to study. One of the following will be required: 10-15 pages of poetry; 20-30 pages of playwriting, screenwriting, fiction or creative nonfiction. Professional experience, screenings and publications will also be taken into account. These should be summarized in one to three pages.

Applicants must also submit a 400-word statement of purpose, which will include a description of the manuscript to be worked on and the specific area of expertise to be explored.

In addition to the letters of assessment required for admittance to Graduate Studies, the Department of Writing will require two letters of reference which will include the following: an assessment of the student's academic standing, talent as a writer, critical ability, capacity for doing self-directed work, and teaching potential.

Deadlines

Applications with supporting material must be received by December 1.

PROGRAM REQUIREMENTS

Students will be required to complete 9 units of classes and a 9-unit major writing project in a two-year period. The Writing Portfolio will be a significant body of publishable material, the basis of a manuscript of poetry or short stories, a novel, a collection of essays or a memoir, biography, travel book. It may also be a stage play or a screenplay ready for production. The program of studies includes:

Required courses:

WRIT 500 (1.5) Writing Workshop (taken twice)
WRIT 501 (1.5) Advanced Studies in Writing (taken twice)
WRIT 509 (1.5) Instructional Skills Preparation
WRIT 598 (9.0) Major Writing Portfolio

Program Electives:

WRIT 590 (1.5) Directed Studies in Instructional Skills Preparation
WRIT 591 (1.5) Directed Studies in Writing

Electives may also be taken from several other sources. Students can request admission into undergraduate courses within the Department of Writing or outside the department with approval from the student's supervisor. As well, there is a range of courses offered in other graduate programs across campus. There is, however, no guarantee that space will be available in courses in other departments.

Co-operative Education

Participation in the Co-operative Education program - which enables students to acquire knowledge, practical skills for employment, and workplace experience - is optional for Master's students. Master's students complete two work terms (a work term consists of four months of full-time, paid employment), and students undertake study and work terms in alternating sessions. Interested students should contact the Humanities, Fine Arts, and Professional Writing Co-op office early in the term in which they are applying. Students are also referred to “General Regulations: Graduate Co-op” on page 34.
**Vice-President Research**

*David Castle, Vice-President Research*

*Michael Miller, Associate Vice-President Research*

*Rachael Scarth, Associate Vice-President Research Operations*

The Office of the Vice-President Research (through the Office of Research Services) assists the University research community in obtaining funding from external agencies and administers research, conference and travel funds through internal support programs. The Office is also responsible for the regulation of research activities through the Animal Care Committee and the Human Research Ethics Board. The Office operates the Animal Care Units and the Aquatic Research Facility following the Guidelines of the Canada Council on Animal Care. Grants facilitation assistance in applications for research grants includes identifying potential funding agencies, providing information on application procedures and advising on the preparation of proposals.

The Research Partnership and Knowledge Mobilization Unit, within the Office of Research Services, supports collaboration with industry and the community, and provides a comprehensive suite of services related to intellectual property protection, commercialization, partnership development, and negotiation of research contracts and agreements.

The Office of the Vice-President Research works in close collaboration with the following groups and oversees the activities of the University’s 18 interdisciplinary research centres.

Website: [www.research.uvic.ca](http://www.research.uvic.ca).

**Ocean Networks Canada Observatory (ONC)**

*<www.oceannetworks.ca>*

Ocean Networks Canada operates the world-leading NEPTUNE and VENUS cabled ocean observatories for the advancement of science and the benefit of Canada. These observatories collect data on physical, chemical, biological, and geological aspects of the ocean over long time periods, supporting research on complex Earth processes in ways not previously possible.

The NEPTUNE regional observatory and VENUS coastal observatory provide unique scientific and technical capabilities that permit researchers to operate instruments remotely and receive data at their home laboratories anywhere on the globe in real time. The Ocean Networks Canada Innovation Centre (previously called the ONC Centre for Enterprise and Engagement)—one of Canada’s Centres of Excellence for Commercialization and research—promotes the advanced technologies developed by NEPTUNE and VENUS. Together with the Innovation Centre, ONC operates a mini-observatory in the Arctic Ocean offshore Cambridge Bay, Nunavut.

**The Pacific Climate Impacts Consortium (PCIC)**

*<www.PacificClimate.org>*

PCIC is a climate service organization that works with stakeholder organizations to quantify the impacts of climate change and variability. PCIC bridges the gap between climate research and climate applications, and makes practical information available to government, industry, and the public.

---

**Centre for Co-operative and Community-Based Economy**

*Director: TBA*

The Centre for Co-operative and Community-Based Economy is a focal point on campus for the promotion of interdisciplinary research and learning on subjects related to the co-operative economy, engaging faculty members from the University of Victoria and elsewhere, graduate and undergraduate students, and members of the wider community with an interest in co-operative enterprise.

The Centre:

1. Fosters and co-ordinates interdisciplinary research at the University of Victoria related to co-operative economy in British Columbia and throughout the world;

2. Promotes the dissemination of research related to the co-operative economy among researchers and teachers in the academic community as well as among those in the wider community who may benefit from that research; and

3. Promotes the development and offering of university courses by faculties and departments that provide an understanding of the history and role of co-operatives, co-operative theory, principles, development, structures, and legislation.

To support its commitment to reaching as many people as possible both within and outside British Columbia, the Centre maintains an extensive website devoted to a wide range of co-operative issues and themes, including research information, case studies and reports, podcasts of Speaker Series presentations, and a gallery portraying stories of the co-operative movement.

Website: [www.uvic.ca/cccbe](http://www.uvic.ca/cccbe)

**Centre for Aboriginal Health Research**

*Dr. Charlotte Lappie, MSc (Dalhousie), PhD (Dalhousie), Director*

The goal of the Centre for Aboriginal Health Research (CAHR) is to improve the health and well-being of First Nations, Inuit and Métis Peoples through community-based and community-driven research and knowledge translation, achieved by partnering with communities, facilitating research relationships and mentoring students. Since May 2008, the CAHR has provided a supportive environment for communities, students and researchers to engage in research activities, which address the urgent health needs of First Nations, Inuit and Métis peoples. Through engaging with stakeholders in Aboriginal health in BC, across Canada and internationally, we promote and facilitate ethical health research that seeks to improve Aboriginal peoples’ health.

Through increasing research capacity and facilitating community-relevant, ethical, and culturally sensitive research, the CAHR aims to support an effective research response to the needs and priorities of Aboriginal communities, students and organizations, and to facilitate awareness and better-informed decisions by policy-makers and practitioners. CAHR also strives to build strong and lasting relationships and commit to the principles/practices of Aboriginal - Ownership, Control, Access and Possession (OCAP). We also embrace Aboriginal Ways of Knowing and knowledge sharing methods, which facilitate the self-determination of Aboriginal peoples to address and control the health of their families, communities and nations. For more information on our current programs or CAHR, please email us at cahr@uvic.ca or visit our website at [cahr.uvic.ca](http://cahr.uvic.ca).
Centre for Addictions Research of B.C.
Tim Stockwell, MA (Oxford), MSc (University of Surrey), PhD (University of London), FCAHS, Director

The mission of the Centre for Addictions Research of BC (CARBC) is to create an internationally recognized centre, distributed across BC, that is dedicated to research and knowledge exchange on substance use, harm reduction and addiction.

Established at the University of Victoria in 2003 through an endowment from the BC Addiction Foundation, CARBC has developed relationships with a large network of addiction-related agencies in BC and has formal partnerships with other universities in British Columbia. CARBC sits at arms length from government while working on shared concerns with multiple government departments, including health, police, education and liquor licensing.

GUIDING PRINCIPLES
The work of CARBC will continue to be guided by the following principles:

Collaborative relationships: Dynamic, collaborative relationships are essential for maintaining relevance to the multi-faceted concerns related to substance use and addictions. Key relationships include those with policy makers, researchers from many disciplines, practitioners and people with personal experience of substance use, addictions and related problems.

Independent research: Protection from vested interests is essential to ensure that rigorous research is conducted and communicated clearly with a view only to furthering the public interest. This will be ensured through excluding representatives of alcohol, tobacco and gaming industries from membership of the Advisory Board and not accepting direct research funding from such sources.

Ethics, social equity and justice: Commitment to solid ethical principles governing internal and external relationships, financial management, the conduct of research and the communication of research findings. A commitment to the promotion of equity and fairness and the pursuit of social justice through attention to the impact of the social determinants that shape substance use and the development of health inequities.

Reducing risk and increasing protection: Attention is required to both immediate factors (e.g., behavioural patterns and contexts) and distal factors (e.g., social, economic and developmental influences) to effectively address the harms from substance use and addictions across the life course.

Harm reduction: Recognition that some people will continue to use psychoactive substances and experience addictions, so that strategies are needed to reduce harmful consequences in addition to those that aim to directly reduce or prevent high risk behaviours.

Informed public debate: Commitment to informing public debate to achieve effective public policy on substance use and addictions through the communication of research findings.

REALIZING OUR MISSION
The Centre for Addictions Research of BC will realize its mission in the following ways:

Building new capacity while complementing existing strengths:
Prior to the establishment of CARBC there were already some exceptional strengths in specific research areas relating to addictions. BC researchers were known for their work in relation to preventing problems with injection drug use in particular as well as research on the biology of dependence, on fetal alcohol syndrome and on gender issues and addiction. CARBC will strive to complement these existing strengths while filling gaps in areas such as prevention, alcohol policy, program evaluation, treatment systems research and epidemiological monitoring. During the next five-year period, CARBC will need to continue to build capacity in terms of both junior and senior faculty appointed to the University of Victoria with relevant expertise, skilled research staff and increasing numbers of graduate student and postdoctoral fellows engaged in relevant research activities.

Supporting Multidisciplinary Approaches to Substance Use and Addictions: Problematic substance use stems from a complex mix of biological, psychological and social causes. Research on substance use and addictions, on the other hand, has traditionally been conducted within separate disciplines singularly focused on either the biomedical and clinical or socio-cultural and prevention dimensions of addictions, limiting the exchange of knowledge across the disciplines and to the knowledge users. While the focus of the Centre's programs is on the psycho-social aspects of substance use and addictions, we will promote collaboration among researchers drawn from a broad range of disciplinary areas including biomedical, psychological, social, epidemiological and historical perspectives. In 2011, CARBC scientists span the disciplines of sociology, nursing, health information sciences, epidemiology, community medicine, psychology and health economics. Affiliated scientists also encompass the disciplines of anthropology, emergency medicine, public health and political science.

Networking and Partnerships: Research Centres at the University of Victoria have strong record of fostering collaboration among a variety of institutional partners and community stakeholders. To this end, the Centre, while located at the University of Victoria, is based on a model of cooperation among the key research-based stakeholders in BC. To ensure the Centre facilitates research activities throughout the Province and that stakeholders have a meaningful voice in the activities, there is a commitment to involving the stakeholders in the development of the Centre's research priorities and projects. Of particular significance to the forthcoming five-year period is the opportunity for the Centre to contribute to the province’s new 10 year plan to improve responses to mental health and substance use, Healthy Minds, Healthy People (BC Ministry of Health, 2010).

Knowledge Translation and Knowledge Brokering: CARBC is committed to facilitating linkage and exchange between researchers, policy makers, professionals and communities and to developing capacity as a knowledge broker within these relationships. This involves providing easy access to evidence based information that can be used by a range of audiences in various settings (e.g., research, policy, service system, community). In particular, the Centre seeks to ensure policy makers from all levels of government have access to practical evidence provided in a clear manner.

Centre for Advanced Materials and Related Technology (CAMTEC)
Dr. Alexandre Brolo, PhD, Director

The Centre for Advanced Materials and Related Technology (CAMTEC) at the University of Victoria is a research centre committed to interdisciplinary work on advanced materials and technology. The scope of this work covers a wide spectrum of research in theoretical and applied areas. CAMTEC coordinates related research among the Departments of Biology, Chemistry, Electrical and Computer Engineering, Mechanical Engineering and Physics. CAMTEC members work in close association with scientists and engineers from the private and public sectors to ensure technology transfer to industry.

The Centre's key research areas and areas of application include: crystal growth of semiconductors, dielectric materials characterization, magnetic and superconductive materials and their applications, microscopy and nanoprobes, microwave and optical applications of advanced materials, advanced composites, alloys, and ceramics, integrated circuit technology, infrared detectors, microsensors for environmental and medical applications, opto-electronic and micro-electronic devices, piezoelectric actuators, and chemical sensors, with recent emphasis being in nanostructures and nanotechnology.

The Centre stimulates the development of new equipment and facilities on campus and also attracts graduate students and visiting scientists interested in advanced materials. As an interdisciplinary centre, CAMTEC has an impressive array of equipment and facilities at its disposal. The knowledge and experience gained from the research into advanced materials at CAMTEC is disseminated throughout the University, to the private and public sectors, and to other Canadian universities and institutions.
Centre for Advanced Security, Privacy, and Information Systems Research (ASPIRe)

Director: TBA

The ASPIRe Centre was formally established in 2011 within the Faculty of Engineering with support from the Government of the Province of British Columbia. ASPIRe focuses on advancing research and understanding with the three core inter-related domains of cyber-security, information privacy, and the underlying information systems that have become intrinsic to modern societies.

ASPIRe has a strong focus on facilitating and being a catalyst for research collaborations within the university in these areas and with external industry, government, and academic partners regionally, nationally, and internationally. ASPIRe also serves as a focal point for the research already underway at the university in these areas. ASPIRe members are involved in numerous industry, government, and academic research projects including in: network engineering, cryptography and cryptanalysis, distributed/cloud systems, health information systems, wireless networks, the semantic web, malware analysis and classification, social networking, mobile devices and applications, etc. ASPIRe is associated with NSERC’s national cyber-security focused strategic network - the Interconnected Systems Security Network (ISSNet) and UVic’s recently established Entrepreneurial Engineering Masters Projects (EEMP) conducted in partnership with the Alacrity Foundation.

ASPIRe is open to and welcoming of extending its collaborations across the wider university community as the ASPIRe membership fully realize that developing solutions in these pressing domains will require active collaborative efforts between technically and non-technically focused researchers, i.e., across engineering and science, business, law, psychology, political science, economics, etc., as well as active collaborations with its industry and government partners. ASPIRe members have research project support through NSERC, CFI, BC KDF, MITACS, etc.

email: aspire@uvic.ca
website: <www.aspire.uvic.ca>
Centre for Forest Biology
C. Peter Constabel, BSc (Sask), MSc (UBC), PhD (Montreal), Department of Biology, Director

Scientists in the Centre for Forest Biology carry out fundamental and applied research and train graduate students and postdoctoral fellows in Forest Biology, emphasizing the adaptation of trees and their interactions with the environment. Faculty members collaborate and work in close association with scientists from Forestry Canada at the Pacific Forestry Centre (PFC) and in the Provincial Government. Research centre scientists also maintain connections to the forest industry and the BC Forest Genetics Council to provide access to research expertise and findings. Forest biology research findings are disseminated via peer-reviewed scientific publications, conferences, lectures and through the academic courses offered by the Centre.

Research areas which can be pursued within this Centre include: conifer embryogenesis and seed development; tree stress physiology; plant and fungal molecular biology and gene expression; functional genomics of natural product synthesis; biochemistry of plant-pest and plant-pathogen interactions; microbial ecology; and carbon sequestration by forests and soils.

Cooperating University departments are: Biology, and Biochemistry and Microbiology. Graduate students wishing to carry out research in association with the Centre must register with an appropriate University department, and may also conduct a large part of their thesis research working with personnel and equipment of a cooperating agency. Personnel from the agencies participate in giving appropriate course work. Both master's and doctoral research can be conducted through the Centre.

Website: <web.uvic.ca/forbiol>

Centre for Global Studies
Dr. Oliver Schmidtke, Director

Building on the University's existing base on interdisciplinary expertise, the Centre for Global Studies (CFGS) is uniquely poised to bridge academic research, and student mentoring with knowledge mobilization and effective community engagement.

CFGS strives to produce quality and practical research with tangible benefits to both the local community and internationally.

The Centre's activities in Victoria, and abroad are designed to promote critical citizenship in a complex and rapidly changing global environment. CFGS' research and public engagement build upon the University of Victoria's intellectual expertise in four core themes: governance, environmental challenges, social justice, and culture and identity.

The breadth of the Centre's activities provides fellowship, employment, and volunteer opportunities for several students and internships each year. Current projects housed at the Centre for Global Studies include:
- Borders in Globalization
- European Union Centre of Excellence
- Polis Project on Ecological Governance
- Water Innovation and Global Governance

CFGS was established in 1998 through the generosity of local community donors. The Centre continues by enhancing its already extensive network of international research and funding partners, with whom it collaborates on a project-to-project basis.

For more information, please visit our website at <www.globalcentres.org>.

Centre for Social and Sustainable Innovation (CSSI)
Monika Winn, MA (Tuebingen, Germany), MBA, PhD (UCI), Professor and Francis G. Winspear Scholar, Sustainability Champion, Director
Heather Ranson, BA (UBC), MBA (U of Guelph), Assistant Teaching Professor, Associate Director

The Centre for Social and Sustainable Innovation is an intra-faculty centre of the Gustavson School of Business. It exists to facilitate the work of Gustavson faculty, staff and students in the areas of sustainability and corporate social responsibility as they relate to business.

CSSI work focuses on three areas: research, education and operations. Faculty research ranges from climate change strategy to health and wellness to poverty and social entrepreneurship. CSSI hosts regular presentations to share faculty research and practitioner expertise within the school, on campus and with the business community.

Integrating sustainability into Gustavson's courses and specializations is the emphasis of the education arm of CSSI. In addition to an annual commitment to the United Nations Global Compact Principles for Responsible Management Education (PRME), faculty share cases, guest speakers and readings to encourage students to consider the triple bottom line in all their business decisions. Specific courses in sustainability are required in the BCom and MBA programs. Topics on sustainability are also included in Master of Global Business and PhD course offerings. The Centre supports faculty teaching as well as student activities such as Carrotmobs and MISSION Impossible, the BCom sustainability challenge.

The Gustavson School of Business is committed to sustainability in all its operations, so the CSSI operations committee undertakes an annual inventory of the school's carbon footprint. In addition, the faculty, staff and students participate in activities such as Bike to Work Week and extensive waste-reduction programs such as composting or UVic-run recycling pilot projects.

Strong links to local and international communities allow CSSI to share best practices, recruit guest speakers for the classroom, and further develop the three arms of CSSI to bring sustainability at Gustavson (one of the school's four value pillars) to life.

Website: <www.uvic.ca/gustavson/cssi>

Centre for Studies in Religion and Society
Paul Bramadat, MA (McGill), PhD (McMaster), Director

The Centre for Studies in Religion and Society (CSRS) is an interdisciplinary research centre located in the Sedgewick Building on the University of Victoria campus. Its mission is to foster the scholarly study of religion in relation to and in all aspects of society and culture, both contemporary and historical. Since its formation in 1991, the CSRS has established itself as a leading centre in Canada for the investigation of themes and issues at the intersection of religion and public policy. It has been especially engaged in discussions and research related to the environment, globalization, ethnicity, ethics, health care, culture, science and technology, and the arts. The Centre hosts collaborative research and publishing projects with Canadian and international scholars, sponsors fellowships for graduate students and visiting scholars, and hosts a dynamic annual program of lectures, seminars and conferences for the campus and local community.

Current areas of focus in the centre include research examining:
- Religious diversity
- The role of religious groups in the provision of social services
- The role of illuminated or illustrated translated sacred texts in contemporary religious groups
- Religious and cultural roots of vaccine hesitancy
- The governance of religious diversity in China, India and Canada
- Religious radicalization and securitization in Canada and beyond
- Spirituality in hospice palliative care

The CSRS has a fundamental commitment to pluralism and dialogue, encouraging participation from scholars and others from a wide range of academic perspectives.
The Centre on Aging at the University of Victoria is a multidisciplinary research centre established in 1992. Our mandate is to promote and conduct basic and applied research throughout the lifespan. Aging is a life-long process that requires attention to developmental influences and changes that occur throughout one's life rather than merely in the later years. The Centre on Aging is committed to working toward a healthy, just and productive society through outstanding interdisciplinary research across the lifespan. The goal of our research is to provide consultative leadership to generate and answer critical questions that inform policy makers, practitioners, and community and industry leaders, and facilitate positive change in individuals. Our outstanding interdisciplinary research asks questions and proposes real life solutions addressing opportunities and challenges of an aging society.

In addition to conducting research, our role is to:

• nurture a culture of mentorship in a creative environment for training and conducting research across the lifespan.
• provide a visible link with and influence the academic mandate of the University of Victoria through student engagement, faculty support and mentorship.
• actively collaborate with community partners to share knowledge and use research to inform and support service delivery that makes a difference in people's lives.

Centre for Youth and Society

E. Anne Marshall, RPsych., PhD (Toronto), Director
Tricia Roche, Manager, Research & Community Partnerships
Jessica Cumming, Research and Communications Coordinator

The Centre for Youth and Society, formally established at the University of Victoria in 2002, designs and conducts research anchored by collaborative partnerships with local, national, and international youth serving educational and youth led organizations. Research fellows of the Centre are scholars from diverse faculties united by their interest in catalyzing the well-being of youth, public interest and research impact. Our efforts are concentrated in interdisciplinary research, graduate student training and knowledge mobilization on the relationship between youth and society.

The mission of the Centre for Youth and Society is to promote the health and well-being of youth from diverse social, economic and ethnic backgrounds in evolving societal circumstances. The Center facilitates university-community partnerships to generate and mobilize knowledge regarding youth strengths, challenges, and opportunities. Current research clusters include: youth mental health, literacy, youth and new technologies, Indigenous youth, youth and the economy, youth health and recreation, community-youth engagement, youth with special needs, and knowledge mobilization tools for youth and other audiences.

Our efforts:
• Address the concerns, assets and priorities of youth, in dialogue with society as a whole, so that programs, research and training initiatives are responsive, innovative and well-designed.
• Advance inter-disciplinary community based research and training on a wide array of current issues and events affecting youth.
• Provide strong evidence based recommendations and advocate with youth to influence policy-makers.
• Facilitate research impact by taking scholarly research to places where it can foster new public programs and social innovation.
• Shape educational practice and policy frameworks in ways that harness the tremendous strengths and capacities of youth.

Institute for Integrated Energy Systems (IESVic)

Peter Wild, BASc (UBC), PhD (UVic), Director

The Institute for Integrated Energy Systems at the University of Victoria (IESVic) promotes feasible paths to sustainable energy systems. Founded in 1989, IESVic conducts original research to develop key technologies for sustainable energy systems and actively promotes the development of practical, clean energy alternatives.

Specific areas of expertise are hydrogen and fuel cell systems, renewable energy systems, sustainable transportation, energy systems analysis, energy efficiency and carbon management.

Our Activities:
• Research: We are committed to developing new technologies to make sustainable energy systems feasible. We also undertake research to investigate the effects that the choice of particular energy systems technologies can have on the world.
• Service: We collaborate with industrial partners to provide access to specialized knowledge and equipment, and with government partners to support policy and decision making processes.
• Communication: We promote energy systems education at all levels, formally and informally, to support this need for informed energy choices.

IESVic is a multidisciplinary research institute with participation from Engineering, Chemistry, Biology, Economics, Environmental Studies and Earth and Ocean Science. A fuel cell systems laboratory with hydrogen production and fuel cell testing equipment is available for research use. This lab is designed primarily for prototyping and testing new fuel cell designs. IESVic makes extensive use of students at both the undergraduate and graduate levels to assist with research, and IESVic members frequently participate in supervising students whose interests are non-technical but still related to issues surrounding the development of sustainable energy systems.

Pacific Institute for Climate Solutions

Thomas F. Pedersen, BSc Hons. (UBC), PhD (Edinburgh), FRSC, FAGU, Executive Director

The Pacific Institute for Climate Solutions (PICS) was established in April 2008 by a $90 million endowment from the BC Ministry of Environment, the single largest endowment to a university in Canadian history. Hosted and led by the University of Victoria, PICS is a unique collaboration among BC's four research-intensive universities (the University of British Columbia, the University of Northern British Columbia, Simon Fraser University, and the University of Victoria). PICS harnesses the Province's intellectual resources to develop innovative climate change solutions, seek new opportunities for positive adaptation, and lead the way to a vibrant low-carbon economy. With strong linkages to senior decision-makers in government and industry, it frames the vital questions and provides effective answers to technological, economic and public policy challenges.
Institute for Studies & Innovation in Community-University Engagement (ISICUe)

Dr. Leslie Brown, PhD (University of Victoria), Professor and Director

The Institute for Studies & Innovation in Community-University Engagement brings the university and community together for the well-being of communities, nations and the world. Using an innovative structure of community and university governance and collaboration, the Institute provides an intellectual and physical space for the study and practice of engaged scholarship and interdisciplinary innovation. Focused on engagement, the Institute harvests new knowledge that contributes to solutions for community issues focused on sustainability, public policy development and improved theory and practice. Funded by both university and community partners, daily operations of the Institute are delivered by staff in association with research affiliates, community partners and student interns.

To further research, collaborative projects, capacity building and network development, the Institute:

- Evaluates theory, methods and practices for community-university engagement and advances the best of these
- Affirms Indigenous knowledge production, partnerships and engaged research
- Demonstrates community outcomes and impacts of societal benefit locally and globally
- Co-creates and applies knowledge between UVic and multi-sector community partners
- Facilitates community-engaged research and learning experiences for students
- Enables unique faculty and student community-engagement opportunities
- Develops and supports local, national and global collaborations and networks

A diverse set of research projects are supported by the Institute, including the Pacific Housing Research Network, the UVic Community Mapping Collaboratory and the Indigenous Child Well-being Research Network. Meanwhile, the Institute's Research Affiliates program furthers the study and practice of engaged scholarship by connecting the university’s community engaged scholars and offering regular seminars and speaker series. The Institute's work extends nationally and internationally as the Secretariat of Community-Based Research Canada and a contributor to global knowledge mobilization networks, building the University of Victoria position as a leader in community-university engagement.

Victoria Subatomic Physics and Accelerator Research Centre (VISPA)

Dean Karlen, BSc (U Alberta), PhD (Stanford), Director

The Victoria Subatomic Physics and Accelerator Research Centre (VISPA) brings together an internationally recognized group of particle and accelerator physicists who work to understand the fundamental nature of our Universe. Group members develop new theoretical approaches, participate in leading particle physics experiments around the world, and advance the technology required to pursue this science. The group shares computing and laboratory resources, supports and manages technical staff, and ensures a high-quality graduate and post-doctoral training environment.

The theoretical group has gained an excellent reputation across Canada and has close ties with the Perimeter Institute, a world leading institute in theoretical physics in Waterloo, Ontario. The experimental projects include ATLAS at CERN, at the energy frontier, T2K in Japan, a world leading neutrino experiment, and BABAR at SLAC, at the precision frontier. The University of Victoria is the lead institution on the new electron linear accelerator being built at TRIUMF, thanks to substantial funding from the Canadian Foundation for Innovation and the Province of British Columbia.

Courses of Instruction

This section presents the descriptions of all courses offered at the University of Victoria. Courses are listed in alphabetical order by course abbreviation (BIOL, EDUC). The course abbreviations for all courses offered within each faculty are listed on page 182. A list of the course abbreviations and their corresponding subject areas is presented on page 183.

Please note that not all courses listed are necessarily offered every year; students should consult the department or faculty concerned for an official listing of the courses that will be offered in a given session. Registration and current timetable information is also available on the web at <registrar.uvic.ca>.

Students must ensure that they are familiar with the program requirements and restrictions noted in the entry for each academic unit.
Courses by Faculty

**Division of Medical Sciences**

- NRSC  Neuroscience

**Faculty of Education**

- ED-D  Educational Psychology and Leadership Studies
  Department of Educational Psychology and Leadership Studies
- EDCI  Curriculum and Instruction Studies
  Department of Curriculum and Instruction
- EPHE  Exercise Science, Physical and Health Education
  School of Exercise Science, Physical and Health Education
- IED  Indigenous Education

**Faculty of Engineering**

- CSC  Computer Science
  Department of Computer Science
- ELEC  Electrical Engineering
  Department of Electrical and Computer Engineering
- MECH  Mechanical Engineering
  Department of Mechanical Engineering

**Faculty of Fine Arts**

- ART  Visual Arts
  Department of Visual Arts
- CH  Cultural Heritage Management
  Department of Art History and Visual Studies and Division of Continuing Studies
- HA  History in Art
  Department of Art History and Visual Studies
- MUS  Music
  School of Music
- THEA  Theatre
  Department of Theatre
- WRIT  Writing
  Department of Writing

**Faculty of Graduate Studies**

- GS  Graduate Studies by Special Arrangement
- INTD  Interdisciplinary Program

**Faculty of Human and Social Development**

- ADMN  Public Administration
  School of Public Administration
- CD  Community Development
  School of Public Administration
- CYC  Child and Youth Care
  School of Child and Youth Care
- DR  Dispute Resolution
  School of Public Administration
- HINF  Health Information Science
  School of Health Information Science
- HSD  Human and Social Development
  Interdisciplinary Courses
- IGOV  Indigenous Governance
- INGH  Indigenous Health Studies
  School of Public Health and Social Policy
- NUED  Nursing, Advanced Practice: Nurse Educator Option
  School of Nursing
- NUHI  Nursing and Health Information Science
  School of Nursing
- NUNP  Nursing, Advanced Practice: Nurse Practitioner Option
  School of Nursing
- NURA  Nursing, Advanced Practice: Nurse Leadership Option
  School of Nursing
- NURP  Nursing Policy and Practice
  School of Nursing
- NURS  Nursing
  School of Nursing
- PADR  Public Administration Dispute Resolution
  School of Public Administration
- PHSP  Public Health and Social Policy
  School of Public Health and Social Policy
- SOCW  Social Work
  School of Social Work
- SPP  Studies in Policy and Practice

**Faculty of Humanities**

- DHUM  Digital Humanities
- ENGL  English
  Department of English
- FRAN  French
  Department of French
- GMST  Germanic Studies
  Department of Germanic and Slavic Studies
- GRS  Greek and Roman Studies
  Department of Greek and Roman Studies
- HSTR  History
  Department of History
- ITAL  Italian
  Department of Hispanic and Italian Studies
- LING  Linguistics
  Department of Linguistics
- PAAS  Pacific and Asian Studies
  Department of Pacific and Asian Studies
- PHIL  Philosophy
  Department of Philosophy
- SLST  Slavic Studies
  Department of Germanic and Slavic Studies
- SPAN  Spanish
  Department of Hispanic and Italian Studies

**Faculty of Law**

- LAW  Law

**Faculty of Science**

- ASTR  Astronomy
  Department of Physics and Astronomy
- BCMB  Biochemistry and Microbiology
  Department of Biochemistry and Microbiology
- BIOC  Biochemistry
  Department of Biochemistry and Microbiology
- BIOL  Biology
  Department of Biology
- CHEM  Chemistry
  Department of Chemistry
- EOS  Earth and Ocean Sciences
  School of Earth and Ocean Sciences
- FORB  Forest Biology
  Department of Biology
- MATH  Mathematics
  Department of Mathematics and Statistics
- MICR  Microbiology
  Department of Biochemistry and Microbiology
- MRNE  Marine Science
  Department of Biology
- PHYS  Physics
  Department of Physics and Astronomy
- STAT  Statistics
  Department of Mathematics and Statistics

**Faculty of Social Sciences**

- ANTH  Anthropology
  Department of Anthropology
- CSPT  Cultural, Social and Political Thought
  Department of Political Science

</table>
Course Abbreviation and Number
Courses are listed alphabetically by course abbreviation of up to four letters (e.g., ANTH for Anthropology) and course number (e.g., 100). Three numbers are used for course number plus a letter as appropriate. The first number indicates the year level (0 for university-level upgrading, 1 to 4 for undergraduate level, 5 and 6 for graduate level, 7 for Education Professional Year and 8 for co-op work terms). See page 183 for a list of courses offered by each faculty and page 183 for a list of course abbreviations.

Cross-listed Courses
The same course may be offered by two different departments. Such courses are listed twice, once under each department course abbreviation. Students may obtain credit for the course from either department, but not both.

Former Course Abbreviation and Number
If a course was previously offered at UVic under another abbreviation and number, the former abbreviation and number are shown here.

Prerequisites and Corequisites
Prerequisites are courses or other requirements that must be completed before a student may register in a course. Corequisites are courses or other requirements that must be completed at the same time as a specific course. For more information on how to read prerequisites, please see <www.uvic.ca/prereq>.

Units of Credit
This figure is the number of units of credit assigned to each course. Some courses are listed with a range of units (1.5-3) or with the notation “to be determined.” Further information on the unit value of the course will usually be found in the course description. Students may also contact the department or faculty offering the course for information on variable credit courses.

Hours of Instruction
The numbers refer to the hours of instruction per week:
- first digit: hours assigned for lectures or seminars
- second digit: hours assigned for laboratory or practical sessions
- third digit: hours assigned to tutorials

Notes
Notes provide information about any restrictions on the assignment of credit in cases where courses overlap, as well as the maximum allowable credit for courses that may be taken more than once. Notes may also provide special information about a course.

Grading
Courses that are not graded using standard letter grades will include the alternative classifications for evaluation. See page 31 for an explanation of grading abbreviations.

Course descriptions do not include information on when courses will be offered. That information is available online at <www.uvic.ca/timetable>.
ADMN 507B Units: 1.5
Public Sector Leadership: Teams, Self and Organization

An understanding of team dynamics and of personal capacity in a team environment are vital to public sector work. Introduces students to the internal and external challenges they may face in the work environment and equips them with the skills and strategies necessary to analyze, motivate and manage human resources in public sector organizations, with an emphasis in library sector leadership.

Notes:
- Credit will be granted for only one of 507A, 507, 507B.
- Restricted to students in the Graduate Professional Certificate in Library Sector Leadership.

Prerequisites: 517A.

ADMN 509 Units: 1.5
Microeconomics for Policy Analysis

Provides a foundation in economics, focusing on the rationale for the existence of the public sector and tools for economic policy analysis. Students will be introduced to core concepts in the economic way of thinking, including supply and demand, efficiency and equity, elasticity and pricing and will apply these concepts to such topics as specialization and trade, income redistribution, tax policy, externalities, public goods, imperfect information and cost-benefit analysis.

Prerequisites: 502A or PADR 502A or permission of the department.

ADMN 511 Units: 1.5
Resource Accountability and Management in the Public Sector

Explores the budgeting cycle: budget preparation and execution, internal and external auditing, financial statements, and performance budgeting and reporting. Examines management tools that support resource allocation decisions and accountability. Considers the rationale for alternative service and service provision arrangements. Reviews evidence-based approaches for efficient resource allocation decisions, benchmarking performance, and incentives to motivate employees and contractors. Explores public sector fiscal challenges.

Prerequisites: 517A.

ADMN 517A Units: 0.5
Graduate Professional Certificate Orientation

Orients students enrolled in the Graduate Professional Certificate in Library Sector Leadership Program.

Note: Restricted to students in the Graduate Professional Certificate in Library Sector Leadership.

Grading: INC, COM, N, F.

ADMN 517B Units: 0.5
Graduate Professional Certificate Orientation

Orients students enrolled in the Graduate Professional Certificate in Cultural Sector Leadership Program.

Note: Restricted to students in the Graduate Professional Certificate in Cultural Sector Leadership.

Grading: INC, COM, N, F.

ADMN 523 Units: 1.0-3.0, normally 1.5
Special Topics in Public Sector Management

Provides a unique chance to study selected topics drawn from the current literature in public sector management or related fields and an excellent opportunity to explore the academic theory underpinning current public sector functions.

Note: May be taken more than once for credit in different topics.

ADMN 530 Units: 1.5
Increasing Organizational Effectiveness: Working with Consultants

An introduction to the challenges of improving the effectiveness of public sector programs. The dynamics of work and consulting teams are studied, and students will review literature and participate in exercises in how to introduce lasting changes in organizations, and the complementary roles of leadership and management in ensuring more effective organizations.

Prerequisites: 504 and 507 (or PADR 504) recommended.

ADMN 530A Units: 1.5
Increasing Organizational Effectiveness

An introduction to the challenges of improving the effectiveness of public sector programs. The dynamics of work and consulting teams are studied, and students will review literature and participate in exercises in how to introduce lasting changes in organizations, and the complementary roles of leadership and management in ensuring more effective organizations, with a particular focus on the cultural sector.

Notes:
- Credit will be granted for only one of 530A, 530, 530B.
- Restricted to students in the Graduate Professional Certificate in Cultural Sector Leadership.

Prerequisites: 517A.

ADMN 530B Units: 1.5
Increasing Organizational Effectiveness

An introduction to the challenges of improving the effectiveness of public sector programs. The dynamics of work and consulting teams are studied, and students will review literature and participate in exercises in how to introduce lasting changes in organizations, and the complementary roles of leadership and management in ensuring more effective organizations, with a particular focus on the cultural sector.

Notes:
- Credit will be granted for only one of 530B, 530, 530A.
- Restricted to students in the Graduate Professional Certificate in Cultural Sector Leadership.

Prerequisites: 517B.

ADMN 531 Units: 1.5
Strategic Human Resource Management

Students will explore the vital role of human capital in organizations. Focuses on the alignment of the organization’s strategic objectives with its human capital. Students will study how to structure each of the human resource management functions, including planning, staffing, training, performance management, compensation and labour relations, in ways that optimize organizational performance. Assists students in dealing with contemporary challenges of globalization of work, demographic shifts, and information technology.

Note: Credit will be granted for only one of 531, 431.

Prerequisites: 507 or PADR 504 recommended.

ADMN 531A Units: 1.5
Strategic Human Resource Management

Students will explore the vital role of human capital in organizations, with an emphasis on the library sector. Focuses on the alignment of the organization’s
strategic objectives with its human capital. Students will study how to structure each of the human resource management functions, including planning, staffing, training, performance management, compensation and labour relations, in ways that optimize organizational performance. Assists students in dealing with contemporary challenges of globalization of work, demographic shifts, and information technology.

**Notes:**
- Credit will be granted for only one of 531A, 531, 531B.
- Restricted to students in the Graduate Professional Certificate in Library Sector Leadership.

**Prerequisites:** 517A.

**ADMN 531B** Units: 1.5  
**Strategic Human Resource Management**

Students will explore the vital role of human capital in organizations, with an emphasis on the cultural sector. Focuses on the alignment of the organization’s strategic objectives with its human capital. Students will study how to structure each of the human resource management functions, including planning, staffing, training, performance management, compensation and labour relations, in ways that optimize organizational performance. Assists students in dealing with contemporary challenges of globalization of work, demographic shifts, and information technology.

**Notes:**
- Credit will be granted for only one of 531B, 531, 531A.
- Restricted to students in the Graduate Professional Certificate in Cultural Sector Leadership.

**Prerequisites:** 517B.

**ADMN 537** Units: 1.5  
**Program Evaluation and Performance Measurement**

Examines program evaluation and performance measurement in public and nonprofit organizations. Emphasis is placed on acquiring skills needed to model programs, measure key constructs, select appropriate research designs, and conduct both quantitative and qualitative program evaluations. Issues involved in designing and implementing program performance measurement systems are introduced.

**Note:** Credit will be granted for only one of 537, 437.

**Prerequisites:** 502A (or PADR 502A) and 502B or permission of the department.

**ADMN 544** Units: 1.5  
**Economic Evaluation Methods and Applications**

A practical introduction to the theory and methods of economic evaluation, including cost-benefit analysis, cost-effectiveness analysis, and cost-utility analysis, with emphasis on public sector applications.

**Prerequisites:**
- For MPA students: 502A, (or PADR 502A), 502B, 509.
- For others: permission of the department.

**ADMN 547** Units: 1.5  
**Intergovernmental Relations in Canada**

Examines the impact on public policy of relations between governments resulting from the distribution of powers among federal, provincial, and municipal governments in Canada. Topics will include the interpretive role of the courts, the instruments of fiscal federalism, administrative relationships, and the concepts of “executive federalism” and “intergovernmental governance”. Individual and team projects will explore how policy issues are handled at different stages and in different arenas of the intergovernmental process.

**Note:** Credit will be granted for only one of 547, 462, POLI 462.

**Prerequisites:** 504 is recommended.

**ADMN 548** Units: 1.0-3.0, normally 1.5  
**Special Topics in Public Policy**

A study of selected special topics in Public Policy drawn from the current literature in Public Administration or related fields.

**Note:** May be taken more than once for credit in different topics.

**ADMN 551** Units: 1.5  
**Administrative Justice System in Canada**

Examines constitutional and administrative law structures and principles that underlie Canada’s administrative justice system. Students develop critical understanding of (1) characteristics of federal and provincial systems, (2) legal principles under which statutory decision-making is done, (3) process and principles applied to development of administrative justice system legislation, (4) breadth and influence of judicial decisions on activities of Canadians. Examples are drawn from federal and provincial levels; comparisons to US, UK and France as appropriate.

**Note:** Credit will be granted for only one of 551, 551A, 551B.

**ADMN 553** Units: 1.5  
**Understanding Cities**

Cities are a basic building block to society, and offer an interesting opportunity to study political, social and economic issues. Examines European and North American/Canadian cities using academic and government resources to analyze and compare their various aspects.

**ADMN 554** Units: 1.5  
**Responsible Public Management**

Designed to give students the opportunity to: understand the value dimensions of public management; reflect upon and enhance their own ethical reasoning skills; critically examine existing behavioural standards and guidelines for public managers; work with colleagues to establish what actions would be morally defensible in real administrative and policy making situations; and consider what steps can be taken to enhance responsible public management.

**Note:** Credit will be granted for only one of 554, 422, PADR 503.

**ADMN 555** Units: 1.5  
**The Public Policy Process**

Examines the theory and practice of public policy, emphasizing the strategic aspects of problem identification, policy design, decision making, implementation and evaluation. Designed to give students the opportunity to develop a thorough understanding of public policy and the dynamics of the policy process and to apply this knowledge to important policy issues. Policy development is examined within the context of a globalized political environment and addresses the involvement of key players such as the courts, media, and interest groups.

**Note:** Credit will be granted for only one of 556, PADR 505.

**Prerequisites:** 504 or permission of the department. 509 recommended.

**ADMN 557** Units: 1.5  
**Strategic Planning and Implementation**

Examines the concepts and practice of strategic planning and project management. Students will explore how to negotiate strategic planning initiatives, construct mandate, mission and vision statements, analyze the environment, conduct stakeholder analyses, and prepare the organization for implementation of the plan. Students will develop competencies in implementing strategic plans through the design and management of projects flowing from the strategies outlined in the plan. Familiarizes students with the key components of project management including definition of the project, its scope and life cycle, the maintenance of quality control, scheduling, critical path analysis and the management of human resources involved in project management.

**Note:** Credit will be granted for only one of 577, 477, 411.

**ADMN 577A** Units: 1.5  
**Strategic Planning and Implementation**

Examines the concepts and practice of strategic planning and project management. Students will explore how to negotiate strategic planning initiatives, construct mandate, mission and vision statements, analyze the environment, conduct stakeholder analyses, and prepare the organization for implementation of the plan. Students will develop competencies in implementing strategic plans through the design and management of projects flowing from the strategies outlined in the plan. Familiarizes students with the key components of project management including definition of the project, its scope and life cycle, the maintenance of quality control, scheduling, critical path analysis and the management of human resources involved in project management. This course will have a specific focus on the cultural sector.

**Notes:**
- Credit will be granted for only one of 577A, 411, 477, 577, 577B.
- Restricted to students in the Graduate Professional Certificate in Cultural Sector Leadership.

**Prerequisites:** 517A.

**ADMN 577B** Units: 1.5  
**Strategic Planning and Implementation**

Examines the concepts and practice of strategic planning and project management. Students will explore how to negotiate strategic planning initiatives, construct mandate, mission and vision statements, analyze the environment, conduct stakeholder analyses, and prepare the organization for implementation of the plan. Students will develop competencies in implementing strategic plans through the design and management of projects flowing from the strategies outlined in the plan. Familiarizes students with the key components of project management including definition of the project, its scope and life cycle, the maintenance of quality control, scheduling, critical path analysis and the management of human resources involved in project management. This course will have a specific focus on the cultural sector.

**Notes:**
- Credit will be granted for only one of 577B, 411, 477, 577, 577A.
- Restricted to students in the Graduate Professional Certificate in Cultural Sector Leadership.

**Prerequisites:** 517B.

**ADMN 578** Units: 1.5  
**European Union Urban Region Policies**

Examines issues associated with the politics, policy analysis, and policy environment of cities and urban regions in the European Union (EU), including integration issues and Canada. Considers ways in which the EU intervenes to improve the policy capacity of urban/regional governments, looking at broad issues of economic development and growth, equity and redistribution in comparative perspective. Focuses on the responsibilities, functions, resources, bureaucracy,
and multilevel governance issues linking the federal/state/local governments.

Note: Credit will be granted for only one of ADMN 578, 478, 548 (if taken in the same topic).

ADMN 579 Units: 1.5
European Union Border Region Policies
Introduces students to the various complexities of European Union (EU) border policy making processes. Students compare EU policy and policy-making with the Canada-US and US-Mexico borders, studying specific issues including cross border trade flows, immigration, environmental issues, government activities including security, and the activities of local and regional communities spanning borders. Studies and reflects upon complex policy-making and multi-level governance mechanisms that are increasingly typical in the EU and Canada.

Note: Credit will be granted for only one of ADMN 579, 479, 548 (if taken in the same topic).

ADMN 580 Units: 1.5
Qualitative Evaluation Methods and Applications
Explores the principles and practices of effective qualitative evaluation methods: planning; design strategies; data collection, analysis and reporting. Course work includes: selecting appropriate design strategies and sampling methods; collecting data using in-depth, open-ended interviews, fieldwork-based observations, participant observation, and documents; analyzing large volumes of qualitative data to produce clear, credible and relevant findings. The course will also examine strategies for integrating multiple lines of qualitative findings in evaluations.

ADMN 581 Units: 1.5
Quantitative Methods for Public Policy Analysis and Program Evaluation
Building on the knowledge acquired in 5028, describes the logic behind various quantitative methodologies used in conducting retrospective quantitative evaluations in public policy programs and research. Demonstrates the application of these methodologies using real-world policy applications. Topics may include: simple and multiple regression, endogeneity, limited dependent variables, panel data, and experimental methods.

Note: Credit will be granted for only one of 581, 681.
Prerequisites: 5028 or permission of the department.

ADMN 582 Units: 1.5
Topics in Program Evaluation, Performance Measurement, Performance Management and Knowledge Management
Designed to explore contemporary issues and problems in the field of evaluation and performance management. Topics will be selected for each offering of the course; examples of topics to be included are: contribution analysis; gaming of performance measurement; professionalizing evaluation; managing knowledge creation and its uses in complex organizations; understanding and influencing organization cultures to increase and sustain knowledge utilization; audit and evaluation; comparative evaluation; and evaluation in developing countries.

ADMN 590 Units: 1.0-3.0, normally 1.5
Directed Studies
Notes:
- May be taken more than once for credit in different topics with permission of the Director.
- Pro Forma required.

ADMN 596 Evaluation Project
The evaluation project is a substantial evaluation of a policy or program designed and conducted for a public sector or non-profit organization. Each evaluation project will have a client and will be supervised by a faculty member in the School of Public Administration. The completed project report will be assessed by a committee consisting of the academic supervisor, a second reader (both members of the School of Public Administration), and the client for the project.

Grading: INP, COM, N, F.

ADMN 598 Master's Project
Requires a substantial analysis of a management, policy or program problem for a client in the nonprofit or public sector. The Master's Project is completed in consultation with the client and an academic supervisor in the School of Public Administration and must be both practical and academically rigorous. A written project report is defended in an oral examination. For more information, please refer to the School of Public Administration website.

Grading: INP, COM, N, F.

ADMN 599 Master's Thesis
Requires a substantial contribution to the knowledge in the field of Public Administration. An MPA Thesis will demonstrate a student's mastery of a substantive body of scholarly or practice literature as well as using appropriate and academically defensible methodologies to analyze research questions, test hypotheses or contribute new theoretical knowledge. Individual students will work with an academic supervisor in the School of Public Administration.

Grading: INP, COM, N, F.

ADMN 600 Units: 0
Doctoral Seminar
The doctoral seminar supports the advancement of research and writing skills. Students will develop competencies in preparing and publishing research. Students are asked to register in this course each term during their PhD program.

Grading: INP, COM, N, F.

ADMN 602 Research Methods in Public Administration
An overview of the most prominent research methods employed in public administration, concentrating on procedures for collecting and analyzing empirical data. Students are introduced to key methodological issues and debates and are required to critically appraise examples of applications of methods in the literature.

ADMN 604 Units: 1.5
Also: POLI 610.
Theories of Public Management
Explores different theories and approaches to understanding public administration and reform. Considers variations in three areas: political and constitutional authority, accountability and responsibility, and the roles of elected and non-elected officials; government structures, responsibilities for policy and service delivery, and distributed governance; and patterns and trends in central decision-making, budgeting, control, transparency, and citizen engagement. Students will review seminal comparative studies on administrative practice and reform and undertake a comparative study on a selected topic.

Note: Credit will be granted for only one of 604, POLI 610.

ADMN 605 Also: POLI 607.
Comparative Policy and Governance
Focuses on the study of diverging governance practices and policy outcomes in different jurisdictions. Examines: policy determinants such as history, culture, institutions, and the economy; policy dynamics and processes such as agenda-setting and decision-making, networks and communities, and policy change; and policy styles and transfer, referring to the state’s ability to design, coordinate, implement, and learn from policy interventions. Students will review seminal studies and undertake a comparative policy project.

Note: Credit will be granted for only one of 605, POLI 507, 607.

ADMN 607 Units: 1.5
Organizational Behaviour and Analysis
A review of the origins, analytic traditions, and evolution of the study of organizations, focusing on exploring and analyzing the behavioral aspects of public organizations. Topics include goal formation, tasks, decision processes, formal structures, informal organization, motivation, perception, values, culture, information, decision making, group dynamics, conflict, leadership, empowerment, creativity, learning and innovation. Concepts and theories are complemented by reviewing seminal literature on private, public, and nonprofit organizations, and by undertaking field research.

ADMN 620 Units: 1.5
Policy and Institutional Design and Analysis
A review of the interdisciplinary foundations of the analysis and design of public policy, and the institutions and strategies for implementing them. Examines the role, comparative advantage, and combinations of government hierarchies, markets, networks, and policy instruments. Considers how to meld different disciplinary and professional perspectives and techniques for addressing design and implementation challenges, and how to draw lessons from different policy domains and jurisdictions, through case studies and projects in selected policy domains.

ADMN 621 Units: 1.5
Policy and Program Evaluation and Performance
Evaluates and compares different sources of information and methodologies that policy-makers and policy analysts use to inform policy debates and decisions, implementation and management strategies, accountabilities, and program reviews. Topics include meta-analysis, cost-benefit analysis, quasi-experiments, program evaluation, performance measurement, smart practices, and other quantitative and qualitative methodologies. Explores the challenges of securing relevant and valid data, the trade-off between high quality and timely information, and conveying complex findings. These approaches and challenges are explored through intensive assessments of existing studies, cases and projects.

ADMN 645 Units: 1.5
Organizational Change and Development
Examines the philosophy, history, and evolving approaches associated with organizational change and development, with special focus on initiating and managing change in the public sector. Reviews the diverse perspectives on change and the special roles of those who seek to change and develop organizations. Topics include planned and unplanned change, alternative interventions, resistance, leadership, and incremental versus radical change. Students will undertake case studies and assessments of organizational change initiatives.
ANTH 511 Units: 1.5
Advanced Research Seminar in Inequality, Culture and Health
In-depth and critical survey of current issues, topics, theory and method in anthropology, with particular emphasis on inequality and health.
Note: Credit will be granted for only one of 511, 501.

ANTH 516 Units: 1.5
Seminar in Anthropological Research Methods
An advanced consideration of the assumptions which lie behind various approaches to conducting research in anthropology.

ANTH 520 Units: 1.5
Specialized Themes in Anthropology
Depending on the student’s interests and the availability of an instructor, studies may be selected in one or more of the following:
520A – Themes in Sociocultural Anthropology
520B – Themes in Archaeology
520C – Themes in Biological Anthropology
Note: Students must consult the department before enrolling in this course.

ANTH 530 Units: 1.5
Ethnology of Selected Areas
Depending on the student’s interests and the availability of an instructor, studies may be selected in a geographic area of the student’s interest.
Notes:
- Students must consult the department and instructor before enrolling in this course.
- May be repeated in different topics in different geographic areas with permission of the Graduate Advisor.

ANTH 540 Units: 1.5
Formerly: 540
Advanced Research Seminar in Indigenous Peoples in Historic and Contemporary Contexts
In-depth and critical survey of current issues, topics, theory and method relating to indigenous peoples in historic (archaeological) and contemporary contexts.

ANTH 541 Units: 1.5
Formerly: 541
Advanced Research Seminar in Indigenous Peoples in Historic and Contemporary Contexts
In-depth and critical survey of current issues, topics, theory and method relating to indigenous peoples in historic (archaeological) and contemporary contexts.

ANTH 550 Units: 1.5
Ethnology of Selected Areas
Depending on the student’s interests and the availability of an instructor, studies may be selected in a geographic area of the student’s interest.
Notes:
- Students must consult the department and instructor before enrolling in this course.
- May be repeated in different topics in different geographic areas with permission of the Graduate Advisor.

ANTH 552 Units: 1.5
Selected Topics in Biological Anthropology
Depending on the student’s interests and the availability of an instructor, studies may be selected in one or more of the following:
552A – Applied Topics in Osteological Methods
552B – Primatology
552C – Advanced Topics in Biological Anthropology
Note: Students must consult the department before enrolling in this course.

ANTH 561 Units: 1.5
Also: LING 560
Selected Topics in Linguistic Anthropology

ANTH 561 Units: 1.5
Selected Topics in Linguistic Anthropology

ANTH 570 Units: 1.5
Advanced Research Seminar in Visual Anthropology and Materiality
In-depth and critical survey of current issues, topics, theory and method relating to Visual Anthropology and Materiality in historical and contemporary contexts.

ANTH 590 Units: 1.5–3.0
Directed Studies
Note: Students must consult the department before enrolling in this course.

ANTH 597 Units: 0.0–3.0
Thesis Proposal Development
Offered every term, for MA students who have completed their first two terms and are preparing their thesis proposals. After the proposal is approved, students enrol in 599.
Grading: INP, COM.

ANTH 599 Units: 7.5
Thesis
Grading: INP, COM, N, F.

ANTH 600 Units: 1.5
Professional Development in Anthropology
Addresses the responsibilities of anthropologists in communicating the results of their work to academia and the public. Topics covered include (but are not limited to): research ethics, grants and contracts, teaching, conference paper presentation and publishing. Required for students in the PhD program in Anthropology, and Interdisciplinary PhD students with Anthropology as one of their disciplines.

ANTH 611 Units: 1.5
Advanced Research Seminar in Inequality, Culture and Health
In-depth and critical survey of current issues, topics, theory and method in anthropology, with particular emphasis on inequality and health.

ANTH 612 Units: 1.0
Graduate Colloquium
A compulsory colloquium for PhD students in Anthropology that meets weekly from late September until mid-April. Papers are presented by graduate students, faculty, and visiting scholars. PhD students are required to participate during the two years they are meeting the PhD residency requirement. Participation includes attendance and at least one paper presentation by the end of the second academic year of the PhD student’s program.
Grading: INP, COM, N, F.

ANTH 641 Units: 1.5
Advanced Research Seminar in Indigenous Peoples in Historic and Contemporary Contexts
In-depth and critical survey of current issues, topics, theory and method relating to indigenous peoples in historic (archaeological) and contemporary contexts.

ANTH 651 Units: 1.5
Advanced Research Seminar in Indigenous Peoples in Historic and Contemporary Contexts
In-depth and critical survey of current issues, topics, theory and method relating to indigenous peoples in historic (archaeological) and contemporary contexts.

ANTH 651 Units: 1.5
Advanced Research Seminar in Indigenous Peoples in Historic and Contemporary Contexts
In-depth and critical survey of current issues, topics, theory and method relating to indigenous peoples in historic (archaeological) and contemporary contexts.
both morphological and behavioural adaptations and evolution.

ANTH 671 Units: 1.5
Advanced Research Seminar in Visual Anthropology and Materiality
In-depth and critical survey of current issues, topics, theory and method relating to Visual Anthropology and Materiality in historical and contemporary contexts.

ANTH 690 Units: 1.5
Specialized Directed Study
Intended to prepare students to participate in and contribute to research and knowledge development in one or more of their particular areas of specialization within the discipline.
PhD students must take any one of the following:
690A – Specialized Directed Study in Contemporary Indigenous Peoples
690B – Specialized Directed Study in Historic Indigenous Peoples
690C – Specialized Directed Study in Inequality, Culture, Health
690D – Specialized Directed Study in Evolution and Ecology
690E – Specialized Studies in Method and Theory
690F – Specialized Directed Study in Visual Anthropology and Materiality

ANTH 693 Units: 3.0
Doctoral Candidacy Examinations
Offered on an ongoing basis. Candidacy must be reached by the end of the third year in the program. Successful completion of 693 is a pre-requisite for registration in 699 (Dissertation).
Grading: INP, COM, N, F.

ANTH 699 Units: 20
PhD Dissertation
Prerequisites: ANTH 693.
Grading: INP, COM, N, F.

ART
Visual Arts
Department of Visual Arts
Faculty of Fine Arts

ART 500 Units: 9.0
First Year Drawing

ART 501 Units: 9.0
Second Year Drawing

ART 511 Units: 9.0
First Year Painting

ART 512 Units: 9.0
Second Year Painting

ART 521 Units: 9.0
First Year Sculpture

ART 522 Units: 9.0
Second Year Sculpture

ART 541 Units: 9.0
First Year Photography

ART 542 Units: 9.0
Second Year Photography

ART 551 Units: 9.0
First Year Digital Media

ART 552 Units: 9.0
Second Year Digital Media

ART 570 Units: 3.0
Directed Study
An independent study course normally taken during the semester between the student's first and second year.

ART 580 Units: 6.0
First Year Seminar

ART 581 Units: 6.0
Second Year Seminar
The seminar meets weekly, serving as a forum for active investigation of contemporary art practices as they pertain to student and faculty research areas. The seminar also serves as an occasional forum for visiting artists and critics. Students are expected to make presentations based on their work and answer questions from the examining committee. The form and method of evaluation is at the discretion of the seminar leader. This seminar is open to all graduate students.

ART 598 Units: 0
MFA Degree Exhibition
This final exhibition will be the major source of evaluation for the student's attainment of the MFA and should be regarded as the equivalent of the comprehensive or dissertation, as appropriate for the student's program. The exhibition will be evaluated by the student's committee which will submit its decision to the department for approval. Graduating students will speak to their work and answer questions from the examining committee. The committee may ask questions about the cultural, social and theoretical relations apparent in the student's work. The form and method of evaluation for the student's graduation will be as determined by the examining committee. This seminar is open to all graduate students.

ASTR
Astronomy
Department of Physics and Astronomy
Faculty of Science

ASTR 501 Units: 1.5
Stellar Interiors and Evolution
The physics of stars and stellar explosions. Structure and evolution including the origin of the elements, stellar properties and basic functions of mass and metallicity. Simulation of stars and stellar physics processes, such as mixing, and corresponding observables.

ASTR 503 Units: 1.5
The Interstellar Medium
Spectral line formation and notation. Processes in the interstellar medium including collisional excitation/ ionization, line transfer effects (e.g., resonance and fluorescence), continuum and recombination processes. The theory of photoionized regions. Dust and metals - formation, measurement and chemistry. The application of these physical processes to current research topics, including the composition of the Milky Way and Local Group galaxies and the interstellar media of high redshift galaxies.

ASTR 505 Units: 1.5
An Observational Perspective on Galaxies
The formation and evolution of galaxies from a modern observational perspective. Topics may include the observed properties of galaxies, the growth of galaxies from initial conditions, the development of galactic scaling relations, the relationship between galaxies and large-scale structure and the physical evolution of galaxies.

ASTR 506 Units: 1.5
An Observational Perspective on Galaxies
The properties of star clusters and stellar populations in the Milky Way Galaxy. Topics may include stellar chemistry and the analysis of model atmosphere, stellar and cluster kinematics, astronomical instrumentation, and big data surveys.

ASTR 507 Units: 1.5
An Observational Perspective on Galaxies
The properties of stars and stellar populations in the Milky Way Galaxy. Topics may include stellar chemistry and the analysis of model atmosphere, stellar and cluster kinematics, astronomical instrumentation, and big data surveys.

ASTR 511 Units: 1.5
Advanced Topics in Astronomy
Advanced topics covering research in the fields of extra-galactic and stellar astronomy.
Note: May be taken more than once for credit.

ASTR 512 Units: 1.5
Astronomical Instrumentation

ASTR 560 Units: 0
Colloquium
Weekly physics and astronomy colloquium.
Grading: INP, COM, N, F.

ASTR 561 Units: 1.5
Student Seminar (MSc)
Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing research. This is a continuing course that...
is taken throughout the MSc program, but credit is not granted until completion of the program.  
Grading: INP, COM, N, F.

ASTR 580  Units: 1.0-3.0
Directed Studies  
Note: May be taken more than once for credit. Pro Forma required.

ASTR 661  Units: 1.5
Student Seminar (PhD)  
Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing astronomical research. This is a continuing course that is taken throughout the PhD program, but credit is not granted until completion of the program.  
Grading: INP, COM, N, F.

BCMB 500  Units: 1.5
Critical Thinking in Biochemistry and Microbiology  
Allows students to develop their oral presentation and written communication skills and provides students with training in critical analysis of data and peer-reviewed publications.

BCMB 531  Units: 0.5
Scientific Writing for Biomedical Research  
Exploration of the techniques and strategies of effective scientific writing for knowledge dissemination, grant submission, and peer-reviewed journals. Class time will be used to discuss examples from the current literature, from the popular press and from fellow students.

BCMB 532  Units: 0.5
Regulation of Eukaryotic Gene Expression  
Detailed review of current topics in eukaryotic gene regulation with emphasis on the practical aspects of gene expression and chromatin conformation analysis using molecular biology and biophysical techniques such as DNA arrays, QPCR, ChIP, next generation sequencing, analytical ultracentrifuge, FRAP, FRET. Given in a journal club format with class discussion.

BCMB 533  Units: 0.5
Cell Signalling  
Students will develop an understanding of the tools and methods used to dissect eukaryotic signalling pathways, and learn how diverse approaches can be used to determine molecular mechanisms of signalling. Taught from the primary literature.

BCMB 534  Units: 0.5
Fundamentals of Crystallography  
An exploration of the connection between x-ray diffraction and electron density, including concepts of unit cell, scattering factor, structure factor, anomalous scattering and fluorescence. Data collection strategies will be discussed, including Bragg angles, the direct and reciprocal lattices, the Ewald sphere, single crystal x-ray diffractometers, area detectors, Laue photography, synchrotron radiation, MAD, SAD and MIR.

BCMB 535  Units: 0.5
Practical Crystallography  
Detailed review of the practical aspects of analysis of x-ray diffraction data collected from protein crystals. Includes techniques for growing and mounting crystals, data collection and reduction, and modern software packages for analysis and presentation. Hands-on experience in solving real structures will be given in a workshop atmosphere, and students are encouraged to bring their laptop computers to class.

BCMB 536  Units: 0.5
Practical Molecular Biology  
Application of modern methods to the quantitative generation of active proteins using prokaryotic and eukaryotic expression systems. Studies the identification and generation of gene constructs corresponding to potentially soluble (and active) protein subunits, and explores the optimization of their expression and purification. The use of different organisms to overcome problems of protein folding and glycosylation will be discussed.

BCMB 537  Units: 0.5
Experimental Origins of Molecular Biology  
Examination of the historical development of the guiding paradigms of modern molecular biology. Classic investigations to be examined include the Luria-Delbruck fluctuation test, the Meselson-Stahl experiment, the core structure mapping of bacteriophage T4, the Jacob and Monod elucidation of the function of the lac operon, and the deciphering of the genetic code.

BCMB 538  Units: 0.5
Bacterial Pathogen Alteration of Eukaryotic Host Cell Functions  
The mechanism of action of bacterial pathogens and their effector molecules in altering biochemical processes in host cells. Various topics will be discussed, including detailed study of the six specialized secretion systems of gram-negative bacteria and modern biological and biochemical approaches for studying bacterial pathogenesis.

BCMB 539  Units: 0.5
Practical Bioinformatics  
Aspects of bioinformatics will be reviewed, including searching for distant homologues of proteins with similarity search tools, use of modern web-based motif searching tools, gene prediction and annotation tools, dot plots of proteins and genomes. Given in a journal club format with class discussion.

BCMB 540  Units: 0.5
Cancer Immunology from Bench to Bedside  
Students are exposed to data and concepts of the immune response to cancer and clinical immunotherapy - specifically cancer vaccines and T cell therapy - with a broad perspective from basic research through to clinical practice. Includes lectures and student-led presentations of primary literature.

BCMB 541  Units: 0.5
An Introduction to Clinical Oncology for Cancer Researchers  
Intended for graduate students with an interest in cancer research. Students are exposed to concepts of modern oncology from a clinical perspective, including pathology, radiation therapy, systemic therapy, and even psychological support. The goal is to provide a “real world” view of the progress and challenges associated with cancer diagnosis and treatment. Includes lectures by practicing physicians and other clinical staff, as well as student-led presentations of primary literature.

BCMB 580  Units: 0
Formerly: BIOC and MICR 580
Research Seminar  
Requires attendance and participation at all departmental seminars, and the formal presentation of the research that comprises the major portion of the student's MSc thesis in biochemistry or microbiology, or the major portion of the currently completed and proposed research for students intending to transfer to the PhD program.  
Grading: INP, COM, N, F.

BCMB 589  Units: 0.5-1.5
Special Topics in Biochemistry or Microbiology  
Instruction in a specific or highly specialized aspect of biochemistry or microbiology not otherwise offered in the department’s graduate programs.  
Note: May be taken more than once in different topics to a maximum credit of 1.5 units.

BCMB 680  Units: 0
Formerly: BIOC and MICR 680
Advanced Research Seminar  
Requires attendance and participation at all departmental seminars, and the formal presentation of the research that comprises the major portion of the student's PhD thesis work in biochemistry or microbiology.  
Prerequisites: 580, or BIOC or MICR 580 or permission of the department.  
Grading: INP, COM, N, F.

BCMB 693  Units: 3.0
PhD Candidacy Examination  
Students enrol in BCMB 693 upon provisional transfer to the BIOC or MICR PhD program and remain enrolled until all candidacy requirements are complete.  
Grading: INP, COM, N, F.

BIOC 525  Units: 1.5
Topics in Biochemistry  
Selected topics in biochemistry as presented by members of the Faculty.

BIOC 570  Units: 0.5-3.0
Directed Studies in Biochemistry  
A wide range of biochemical topics will be available for assignments. Topics will be restricted to an analysis of recent advances. The student’s graduate adviser will not normally participate in directed studies taken for more than one unit of credit.  
Note: May be taken more than once for credit in different topics. Pro Forma required.

BIOC 599  Units: to be determined
MSc Thesis: Biochemistry  
Grading: INP, COM, N, F.

BIOC 699  Units: to be determined
PhD Dissertation: Biochemistry  
Corequisites: BCMB 693.  
Grading: INP, COM, N, F.
Electron Microscopy

BIOL 500
Selected Topics in the History and Philosophy of Biology
An epistemological introduction to the history of biological ideas, and creative scientific methodology. Brief introductory readings preface weekly evening tutorials in the first term. Evaluation is based upon student oral and written presentations on a wide range of historical and philosophical topics pertaining to biology.

BIOL 501
Principles of Genome Analysis
A series of lectures and seminars providing an overview of the structure and organization of viral, prokaryotic and eukaryotic genomes. Construction of genetic maps, the nature of repetitive DNAs and how various types of DNA sequences can be used for research in diverse disciplines such as biotechnology, medicine, forestry, agriculture, ecology and evolution. Students will prepare written reports and give oral presentations on selected topics.

BIOL 509A
Neurobiology Seminar
One hour/week seminar on topics in current research in neurobiology.

BIOL 509B
Neurobiology Lecture
See BIOL 367.

BIOL 509C
Neurobiology Laboratory
See BIOL 409B.

BIOL 509D
Ion Channels: Structure and Function
Electrical signals in neurons are produced by voltage-gated and ligand-gated ion channels. Any disturbance in the function of ion channels can lead to major neurological disorders. This course will allow students to learn the structure and function of some of the major voltage- and ligand-gated ion channels. Mechanisms of ligand binding, gating and ionic selectivity will be covered. The structure of the course will be based primarily on critical discussion of research papers.

BIOL 510
Advanced Topics in Ichthyology

BIOL 512
Advanced Benthos Ecology

BIOL 513
Topics in Developmental Biology

BIOL 514
Advanced Zooplankton Ecology

BIOL 515
Ecology Seminar

BIOL 516
Neuroethology

BIOL 518
Electron Microscopy
An introduction to the principles and basic techniques of electron microscopy emphasizing common preparative methods for transmission and scanning electron microscopy. A final report illustrated by the student’s electron micrographs is required.

Note: Enrollment is restricted to 3 students per term.
Prerequisites: 344 or 417 or equivalent, and permission of the Electron Microscopy Supervisor.

BIOL 519
Advanced Electron Microscopy

BIOL 520
Techniques in Molecular Biology
Provides participants with an intensive overview of molecular biological techniques with both theoretical background and “hands-on” experience. Techniques such as restriction endonuclease analysis; agarose, polyacrylamide, and pulsed field gel electrophoresis; molecular cloning; Southern blot analysis; mRNA extraction and Northern blot analysis; expression vectors; and polymerase chain reaction will be performed.

BIOL 521
Advanced Topics in Marine and/or Freshwater Algae

BIOL 522
Sensory Biology
Examination of how sensory systems guide the behaviour of animals. A survey of sensory systems will include: anatomical, electrophysiological and behavioural descriptions of the evolution and functional properties of sensory systems, and integrative processing. Case history examples will elucidate the importance of interactions between sensory processing and behaviour. Research papers and seminar presentations will be emphasized.
Prerequisites: 365; 409A is recommended.

BIOL 524
Anthropod Diversity and Conservation
Insects and their relatives tend to dominate terrestrial and freshwater ecosystems and contribute significantly to biodiversity. Studies of invertebrates are now included in all assessments of forest biodiversity. Provides an opportunity for students to develop, organize and participate in long-term forest anthropod biodiversity research projects.

BIOL 525
Ecological and Evolutionary Physiology
A series of lectures and seminars examining several subjects of current interest in the ecological and evolutionary physiology of animals and plants. Interdisciplinary approaches to questions of organism adaptations and interactions with their environment are emphasized. Students will prepare a critical analysis of a subject for presentation orally and in a written report.

BIOL 526
Topics in Biological Ultrastructure

BIOL 527
Advanced Topics in Cell Biology

BIOL 530
Principles of Taxonomy

BIOL 532
Topics in Endocrinology
See BIOL 432.

BIOL 535
Units: 1.5
Formerly: 555
Topics in Evolutionary Biology
A lecture and discussion course dealing with the processes of evolution. Topics vary, and may include one or more of the following: microevolutionary and macroevolutionary processes, specialization mechanisms, phylogeny reconstruction, molecular evolution, genetic basis of morphological change. Areas of current controversy will be explored.
Prerequisites: 230 and 455 or equivalent.

BIOL 536
Units: 1.5
Human Molecular Genetics
An advanced study of the supramolecular organization, structures and functions of the human genome, and their implications in genetic diseases, including cancer. Topics will include current advances in the human genome project, DNA footprinting, animal models of diseases, molecular pathology and gene therapies.

BIOL 538
Units: 1.5
Topics in Microbial Ecology
See BIOL 438.

BIOL 540
Units: 1.5
Molecular Epidemiology
Lectures will cover the principles of epidemiology from a molecular perspective. Students will make oral presentations on a chosen human gene to establish a modern view of human population genetics based upon molecular data.
Note: Offered in second term of odd-numbered years.

BIOL 541
Units: 1.5
The Molecular Basis of Mutation
Lectures and student reports on assigned topics will concentrate on the various pathways that create mutation including errors of replication, endogenous DNA damage and environmental assault. The nature of DNA damage and DNA repair will be considered.
Note: Offered in second term of even-numbered years.

BIOL 543
Units: 1.5
Critical Evaluation of Emerging Ecological Issues
Students will review controversial and current topics in ecology. A list of topics will be provided that cover freshwater, marine and terrestrial ecology. Students will be required to select two topics, at least one of which is outside their own area of research. Each student will submit thorough bibliographic searches, make two oral presentations covering the critical analysis of each topic, and actively participate during the oral presentations of the other students.

BIOL 544
Units: 1.5
Molecular Evolution
An advanced study of the evolution of genomes and macromolecules. Topics include: genome projects, macroevolution, patterns and consequences of molecular change, gene and species evolution, population genetics, polymorphism and disease prebiotic evolution and the evolution of life. Students will be expected to do considerable outside reading from books and journals. Class will involve lectures, discussion and individual presentations.

BIOL 549
Units: 1.0–6.0
Individual Study
549A – Evolution
549B – Ecology
549C – Physiology

UVIC CALENDAR MAY 2015 191

COURSE LISTINGS BIOL
## UVIC GRADUATE CALENDAR 2015-16

### 594D - Cell Biology
### 594E - Molecular Biology

Notes:
- May be taken more than once in any of the above areas under the appropriate faculty member.
- Pro Forma required.

### BIOL 599

**Thesis**

Hours: 12.0

Grading: INP, COM, N, F.

### BIOL 600

**Directed Studies**

**Units:** 1.0-6.0

**Notes:**
- May be taken more than once in any of the above areas under the appropriate faculty member.
- Pro Forma required.

### BIOL 601

**Courses**

- **550A - Evolution**
- **550B - Ecology**
- **550C - Physiology**
- **550D - Cell Biology**
- **550E - Molecular Biology**

Notes:
- May be taken more than once in any of the above areas under the appropriate faculty member.
- Pro Forma required.

### BIOL 693

**Thesis**

Units: 1.0

Grading: INP, COM, N, F.

### BUS 601

**International Management and Organization**

Sardul S. Gill Graduate School of Business

**Notes:**
- May be taken more than once for credit in different topics up to a maximum of 9.0 units.
- Pro Forma required.

### BUS 602

**Seminar in International Management**

Examines the theoretical evolution and scope of international management theory and research, both as a distinct field of inquiry and as an interdisciplinary resource.

### BUS 603

**Seminar in Strategy and Organization I**

Introduces the major theoretical approaches and empirical treatments in the field of strategic management.

### BUS 604

**Seminar in Global Issues of Business Sustainability**

Introduces the literature in the field of “Organizations and the Natural Environment” and “Social Issues in Management”, including the strategic notion of “triple bottom line” management and tensions among social, ecological, and economic dimensions of sustainability.

### BUS 605

**Seminar in Cross-cultural Management**

Concepts in organizational behaviour and human resource management in an international context with a particular focus on the influences of national or societal culture (beliefs, norms, values, institutions) on theory and practice.

### BUS 606

**Seminar in Organizational Analysis**

Focuses on organizational design and the behaviour of individuals and groups within organizations.

### BUS 607

**Research Methods Overview in Management**

An introduction to the broad range of research methodologies for organizational research, including both qualitative and quantitative methodologies. Covers the theory building and hypothesis generation phase, measurement development and data collection phase, and research design phase. Ethical considerations of research will also be covered. Students will be able to critically evaluate and review the research methodology section of academic papers and to design their own research projects.

### BUS 608

**Special Topics in Business Administration**

The content, credit value and method of evaluation must be approved by the PhD Program Director.

### BUS 609

**International Fellowship Outgoing**

Students register in this course while participating in an international residency with a university outside of Canada.

### BUS 610

**Directed Studies for Business PhD Program**

The content, credit value and method of evaluation must be approved by the PhD Program Director as well as the instructor offering the area of individual study prior to registration.

### BUS 611

**PhD Candidacy Examination**

Students enrol in BUS 611 upon registering in the PhD program from the MSc program and remain enrolled until all candidacy requirements are complete.

The candidacy examination must be held within 21 months of a student entering the PhD program. Students transferring from the MSc to the PhD program must complete the exam within 18 months from their entry into the PhD.

Grading: INP, COM, N, F.

### BUS 612

**Thesis Proposal Defence**

Grading: INP, COM, N, F.

### BUS 613

**Doctoral Candidacy Exam**

PhD students write a Candidacy Exam made up of three components including two written content exams on core subject matter and a critical review of an empirical research manuscript. These written responses will be combined with an oral examination to assess whether the student has reached a sufficient level of expertise to allow him or her to proceed to the next stage of the program.

Grading: INP, COM, N, F.

### BUS 614

**Special Topics in Business Administration**

The content, credit value and method of evaluation must be approved by the PhD Program Director.

Note: May be taken more than once for credit in different topics up to a maximum of 20 units.

### BUS 690

**Teacher Training**

Under guidance of a senior faculty member, PhD students will participate in training as teachers.

Grading: INP, COM, N, F.

### BUS 691

**International Fellowship Incoming**

Students register in this course while participating in an international residency from a university outside of Canada.

### BUS 692

**Grading:**

INP, COM, N, F.

### BUS 693

**Grading:**

INP, COM, N, F.

### BUS 694

**Grading:**

INP, COM, N, F.

### BUS 695

**Grading:**

INP, COM, N, F.

### BUS 696

**Grading:**

INP, COM, N, F.

### BUS 697

**Teacher Training**

Under guidance of a senior faculty member, PhD students will participate in training as teachers.

Grading: INP, COM, N, F.

### BUS 698

**International Fellowship Outgoing**

Students register in this course while participating in an international residency with a university outside of Canada.

### BUS 699

**Grading:**

INP, COM, N, F.

### BUS 700

**Grading:**

INP, COM, N, F.
Community Development School of Public Administration Faculty of Human and Social Development

CD 501  Anchoring a Change Agenda: Foundations  Units: 1.5
Grounds students in a solid understanding of the multiple historical, theoretical and conceptual frameworks of the role of civil society and the social economy in advancing progressive economic, political and social change, including the economics of social justice. The powerful theories and practice will be examined and critically assessed in the context of the capacity of co-operatives, non-profits and community development organizations to respond to key contemporary societal issues, global trends, and to consider implications for the future.

Prerequisites: Admission to the MACD Degree Program or with permission of the Graduate Adviser.

CD 504  Practices and Perspectives on Forging Change  Units: 1.5
The ideologies, assumptions, and practices of diverse models of change that engage citizens, organizational and institutional stakeholders for social benefit will be explored. Introduces a range of models, their strengths, limits and applications with particular focus on governance, power, influence and socioeconomic innovation. Challenges students to analyze and assess the relevance and value to their fields of interest, whether community economic development, co-operatives or non-profits. Uses a range of readings, case studies and practice experience drawing upon Canadian and international settings.

CD 505  Community-Based Research: Foundations  Units: 1.5
Explores the values, goals and assumptions of community-based research and its methodologies. Participatory action research methods and lessons learned from best practices will be introduced. Students will experience a variety of approaches and develop the capacity to evaluate appropriate methods and their application for practice settings. This course will help shape the student’s major project.

Notes: Restricted to MACDI students only.

CD 505A  Foundations of Community-Based Research: Setting a Research Agenda  Units: 0.5
Explores the values, goals and assumptions of community-based research and its methodologies. Participatory action research methods and lessons learned from best practices will be introduced. Students will experience a variety of approaches and develop the capacity to evaluate appropriate methods and their application for practice settings. This course will help shape the student’s major project.

Notes: Restricted to MACDI students only.

CD 505B  Community-Based Research: Methods and Tools  Units: 1.0
Explores the values, goals and assumptions of community-based research and its methodologies. Participatory action research methods and lessons learned from best practices will be introduced. Students will experience a variety of approaches and develop the capacity to evaluate appropriate methods and their application for practice settings. This course will help shape the student’s major project.

Notes: Restricted to MACDI students only.

CD 506  Enterprise Development for Community Benefit  Units: 1.5
Analyzes the strategy, models and processes of planning and decision making for developing enterprises that link social and economic benefit to the community. Students will develop a clear understanding of key concepts within financial, information and community technology, leadership and community capacity building elements that accompany organizational and community enterprise development. Stream-specific readings and practices will complement the core content.

CD 507  Development Finance  Units: 1.5
A review of the current conventional sources (governments, banks, credit unions, etc.) of capital: how they are accessed, obstacles and opportunities. Considers specialized investment sources that have been created, how to match funds/investments and ideas for new institutional arrangements. The field will be explored from both the point of view of those seeking investment and those who make the investment (e.g. community investment loan funds).

CD 508  Co-operatives in Global Perspective  Units: 1.5
Examines the diversity of co-operative experiences in Canada and around the world focusing on co-operative movements, organizations, and thought, and the development of co-operative economies in historical and contemporary contexts. Students will develop an understanding of how the co-op model is being adapted and reinvented to respond to traditional economic and social issues and as a means of developing an alternative economic paradigm at local, regional, and international levels.

CD 509  Developing Capacities to Lead and Manage in the Non-Profit Sector  Units: 1.5
Focuses on developing the capacities of strategic planning, strategy and program management, resource generation, financial and human resource management, performance, information and communication technology, communications management, and ensuring accountability to multiple stakeholders. Students will develop an in-depth understanding of leading edge management frameworks and examine their relevance to leading and managing in the community sector.

CD 510  Leadership, Management and Governance within Organizations  Units: 1.5
Develops the competencies required to effectively lead and manage organizations from the ‘inside’, focusing on leadership capacities, human resources (staff, boards and volunteers), governance, internal and external stakeholder relations. Through a blend of theory, practice and experiential simulations, students will integrate their learning as well as appreciate the unique dimensions of co-operatives, social enterprises and non-profit organizations.

Prerequisites: Admission to the MACD Degree Program or with permission of the Graduate Adviser.

CD 512  Program and Project Design, Management and Evaluation  Units: 1.5
Examines the various perspectives and approaches to program and project design, management and evaluation. Highlights the analytical activities and decisions involved in effective design, planning, implementation, reporting, and evaluation focusing on innovative and practical tools and processes that ensure effective outcomes and accountability. Attention will be paid to managing the complexity of multiple and collaborative projects and programs.

CD 514  The Comprehensive Development System  Units: 1.0
Explores the complexities and trade-offs that must be confronted and resolved in all community economic development activity and strategy. These include analyzing and choosing among the different tools for fulfilling key functions, integrating, staffing and managing complex programs, information management, creating multi-sectoral alliances, building community support, and a sustainable funding structure.

CD 515  Critical Issues in Co-op Governance and Management  Units: 1.0
Provides participants a deeper understanding of governance and management issues that arise throughout the development cycle of co-operatives. Students will examine a number of challenges and their potential solutions within co-operatives and co-op movements, including co-operative governance, stakeholder engagement, marketing strategies, employee relationships, capital formation, sector relationships, legislative frameworks, community responsibilities, and public policy affecting co-operative development.

CD 516  Government, Business and Non-profit Sector Relations  Units: 1.0
Examines the historical roots and the social, political, economic and legal framework that set the context for current and future organizational and sectoral influence and capacity. Explores the public policy process and its relation to leadership, management and collaborative ventures in Canada particularly. The evolving role of the private sector and inter-sectoral relations will be examined in the context of rapidly shifting attitudes and belief systems (local to global).

CD 518  Citizen Participation and Democratic Governance  Units: 1.5
Introduces students to concepts of citizenship, democracy and governance and addresses different histories and forms of democracy. The meanings of citizenship and its relationship to identity, engagement and participation are discussed. Explores different models of governance and reviews governance practices and structures at multiple levels in different jurisdictions. Also investigates the role of accountability in democratic governance, including forms and techniques of accountability.

CD 519  Strategic Communications, Engagement and Community Relations  Units: 1.5
Examines strategic communications, marketing, public/media relations, engagement approaches, the role and use of technology when community-based organizations engage others in the context of community and stakeholder relations.

CD 521  The Economics of Social Justice  Units: 1.5
Provides a conceptual grounding and the analytical tools for a critical understanding of the relationship between economic theory and policy and their effects on questions of social justice. Theoretical models and practical applications for the development of more socially equitable economic systems from various sides of the political spectrum will be examined and critiqued.
CD 522 Units: 1.5
Understanding and Mainstreaming Gender
Considers a range of conceptual and practical issues faced in the quest for a gender-just society. Topics include: definition and understanding of gender, gender based violence, gender in institutions as well as the creation of gender-sensitive environments. Course material and online discussions encourage critical analysis of diverse contemporary debates and perspectives. Also includes exercises and questions to stimulate critical thinking and reflection upon gender attitudes and perceptions.

CD 523 Units: 1.5
Adult Learning and Education for Change
Aims to build basic understandings of key issues, theories and principles of adult education and its connections to community development and social change. Draws upon intensive and extensive fieldwork enriched by the writings, analysis and research by both scholars and practitioners. Includes historical foundations, philosophical approaches, and theoretical underpinnings.

CD 524 Units: 1.5
Leadership and Organizational Development for Communities
Explores leadership beliefs, values, and attitudes, and analyzes perspectives in shaping leadership in civil society, community development and the social economy. Introduces management, assessment, concepts and tools for developing strategic priorities and planning frameworks for organizations and communities. Includes scenario based exercises set in a variety of practice contexts relevant to students' experience and systems.

Note: Credit will be granted for only one of 524, 502, 503.
Prerequisites: Admission to the MACD Degree Program or with permission of the Graduate Adviser.

CD 525 Units: 1.5
Managing Organizations, Systems and Community Transformations
Develops key competencies for personal, group, organizational and community leadership in: teamwork, facilitation, presentation skills, negotiation, conflict resolution, group dynamics and collaboration. Examines systemic factors that encourage and challenge innovation. Analysis of cases that demonstrate successful scaling, practices or particular innovations.

Note: Credit will be granted for only one 525, 511, 513.
Prerequisites: Admission to the MACD Degree Program or with permission of the Graduate Adviser.

CD 526 Units: 1.5
Agenda for Social Change: Moving Forward
Surveys the key leverage points for exercising strategic leadership for addressing key trends at the local and regional level. Exemplary practice and understanding of key policy innovations are drawn from local and international sources. Provides an opportunity for students to engage in generative dialogue to explore learning that strategically advances civil society, social economy and strengthens communities. Understanding local and international key policy innovations are linked with the formulation of recommendations for action for moving forward.

Note: Credit will be granted for only one 526, 517, 520.
Prerequisites: Admission to the MACD Degree Program or with permission of the Graduate Adviser.

CD 590 Units: 1.5
Directed Studies
An international or local exchange, a study tour, self-directed reading, or an innovative personal learning design. Must be applicable to the field of study. Primary consideration will be given to its relevance and how it links to other courses and its role in recent developments in the student's area of specialization. Note: May be taken more than once for credit in different topics with permission of the Director.

CD 591 Units: 1.5
Selected Topics Course
A study of selected topics drawn from the current literature and practices in the social economy or related fields.

Note: May be taken more than once for credit in different topics with permission of the Graduate Adviser.

CD 596 Units: 4.5
Group Project
A substantial analysis of a management, policy or program problem for a client in the community development sector. This group project is prepared in consultation with the client and an academic supervisor drawn from regular university faculty and qualified practitioners and must be both practical and academically rigorous. The group project is defended in an oral examination.

Grading: INP, COM, N, F.

CD 598 Units: 4.5
Master's Project
Expected to be a substantial analysis of a management, policy or program problem for a client in the community development sector. This major project is prepared in consultation with the client and an academic supervisor drawn from regular university faculty and qualified practitioners and must be both practical and academically rigorous. The Master's Project is defended in an oral examination.

Grading: INP, COM, N, F.

CH 562 Units: 1.5
Curatorial Planning and Practice
Considers how traditional concepts of curatorship have shifted significantly in the face of more democratic relations with community, more subjective perspectives of knowledge, and increasing emphasis on the museum's social and educative roles. Explores the nature and scope of contemporary curatorial theory and practice and focuses on the ways in which curators engage with cultural heritage resources, develop sustainable collections, and generate and share associated knowledge to meet the needs of diverse communities.

CH 563 Units: 1.5
Visitor Experiences
Explores the evolving concept and implications of an holistic approach to visitor engagement in museums and other cultural heritage institutions, and focuses on museums' relationships with their publics, their capacity to serve as social spaces, strategies for audience research, the characteristics of visitors, communications, exhibitions, formal and informal learning activities, and evaluation strategies.

CH 570 Units: 1.5
Heritage Conservation in Context
Adresses the complex range of principles and practices that influence heritage preservation and conservation planning and decision-making. The implications of international and national charters, principles, standards and guidelines, are discussed, along with legal, programmatic and financial incentives and constraints.

Notes:
- Credit will only be granted for one of 570, HA 489K.
- A combined undergraduate/graduate course.

CH 571 Units: 1.5
Determining Significance of Heritage Resources
Focuses on the definition of the heritage resource or significance of a historic place or resource as a key step in the management of cultural heritage resources. It explores the range of historical aesthetic, social and scientific values that establish the character-defining elements of historic resources, including buildings, structures, historic districts and cultural landscapes. Various methods of inventory and evaluation are discussed along with their roles in guiding subsequent conservation planning and decision-making.

Notes:
- Credit will only be granted for one of 571, HA 489C.
- A combined undergraduate/graduate course.

CH 572 Units: 1.5
Heritage Conservation Planning
Focuses on approaches to planning and heritage conservation decision-making, and discusses the components of the heritage conservation planning process, including alignment with local and regional planning priorities, community involvement and consultation, the acquisition and integration of technical and regulatory information and professional expertise, and the integration of planning in the long-term management of heritage resources.

Notes:
- Credit will only be granted for one of 572, HA 489L.
- A combined undergraduate/graduate course.

CH 560 Units: 1.5
Cultural Heritage Stewardship and Sustainability
Explores cultural heritage in all its diverse forms, along with the critical roles it plays in defining, reinforcing and contributing to a sustainable world. Discusses the scope and meaning of cultural heritage in contemporary society, and analyzes how diverse approaches to the conservation, access to and management of cultural heritage are continuing to evolve in response to philosophical changes and social, economic, cultural and environmental needs.

CH 561 Units: 1.5
Social Engagement
Explores the profound social changes that are reshaping the nature and purposes of museums and other cultural heritage organizations in a pluralistic society and considers the implications for all aspects of their specialized functions. It takes a particular focus on how such organizations serve as dynamic social spaces for community engagement and action.
CHM 582 Units: 1.5
Leadership in Cultural Heritage Management
Explores the nature and attributes of successful and visionary cultural sector leadership, and examines contemporary challenges and issues impacting leadership and management in the cultural heritage sector. Topics include leadership theory and models, the roles of leadership within organizational and community settings, building effective teams and partnerships, and resolving conflict.

CHM 583 Units: 1.5
Planning for Cultural Heritage Management
Addresses strategies for effective planning that provides both a framework and a guide for all aspects of the complex work of cultural heritage organizations. The central roles of planning in organizational and project management are explored, along with a range of planning principles and methods suited to the cultural heritage sector.

CHM 584 Units: 1.5
Topics in Cultural Heritage Management
Note: May be taken more than once for credit in different topic areas.
Prerequisites: Permission of the Program Adviser.

CHM 588 Units: 1.5
Special Studies in Museum Studies
May be taken in conjunction with a Cultural Resource Management course in the HA 488 series with permission of the Program Adviser.
Note: This course may be taken more than once for credit in different topic areas.
Prerequisites: Permission of the Program Adviser.

CHM 589 Units: 1.5
Special Studies in Heritage Conservation
May be taken in conjunction with a Cultural Resource Management course in the HA 488 series with permission of the Program Adviser.
Note: This course may be taken more than once for credit in different topic areas.
Prerequisites: Permission of the Program Adviser.

CHM 591 Units: 1.5
Cultural Heritage Internship
A placement in a cultural heritage management setting, designed to build knowledge and skills in a specialized area of practice.
Grading: INP, COM, F, N.

CHEM
Chemistry
Department of Chemistry
Faculty of Science

CHEM 509 Units: 1.0
Seminar
Grading: INP, COM, N, F.

CHEM 511 Units: 1.5
Topics in Instrumental Analysis

CHEM 521 Units: 1.5
Advanced Inorganic Chemistry
Advanced topics in inorganic chemistry from across the periodic table, building on principles established in 222, 324 and 353. Topics include: main group organometallics, novel structures and reactivity, catalysis, inorganic polymers, zeolites, fullerenes, metal-metal and metal-ligand multiple bonding, bioinorganic chemistry, metal clusters, or chemistry of the lanthanides and actinides.
Note: Credit will be granted for only one of 521, 524, 526 (if taken in the same topic).

CHEM 523 Units: 1.5
Organometallic Chemistry

CHEM 526 Units: 1.5
Topics in Advanced Inorganic Chemistry
Notes:
- May be taken more than once for credit.

CHEM 533 Units: 1.5
Organic Synthesis

CHEM 537 Units: 1.5
Biological and Medicinal Chemistry
An introduction to medically important biological systems and the small molecules that perturb them. Topics will include: chemical aspects of proteomics, biological target identification, mechanisms of action for important drugs, lead identification and development, and enzyme inhibitor design.

CHEM 555 Units: 1.5
Statistical Thermodynamics

CHEM 556 Units: 1.5
Topics in Advanced Physical Chemistry
Notes:
- May be taken more than once for credit.

CHEM 560 Units: 0.5
Research Tools and Special Topics
This course will be offered as multiple 0.5-unit modules that count as graduate lecture courses for the purposes of Chemistry graduate program requirements. Consult the course coordinator for offerings in a particular year.
Notes:
- May be repeated for credit in different topics.

CHEM 567 Units: 1.5
Polymer Science

CHEM 577 Units: 1.5
Directed Studies
Notes:
- May be taken more than once for credit.

CHEM 590 Units: 0.5-3.0
MSc Thesis
Grading: INP, COM, N, F.

CHEM 599 Units: 12.0
Reactivity, Dynamics and Spectroscopy Discussion
Note: May be taken more than once for credit.

CHEM 633 Units: 1.5
Topics in Advanced Organic Chemistry
Notes:
- May be taken more than once for credit.

CHEM 645 Units: 1.5
Advanced Electrochemistry

CHEM 647 Units: 1.5
Materials Science

CHEM 670 Units: 1.5
Property-Directed Synthesis Discussion
Note: May be taken more than once for credit.

CHEM 676 Units: 1.5
Polymer Science

CHEM 680 Units: 1.5
Reactivity, Dynamics and Spectroscopy Discussion
Note: May be taken more than once for credit.

CHEM 693 Units: 3.0
PhD Candidacy Examination
Students enrol in 693 concurrently with 699 until 693 is passed. If the candidacy examination cannot be completed until the following semester, an INP (in progress) grade will be entered.
Grading: INP, COM, N, F.

CHEM 699 Units: 33.0 - 36.0
PhD Dissertation
Pre- or corequisites: 693.
Grading: INP, COM, N, F.

CSC
Computer Science
Department of Computer Science
Faculty of Engineering

CSC 505 Units: 1.5
Computer Graphics
Provides students with a solid background in interactive, generative graphics techniques and hands-on experience programming a modern high resolution, raster display workstation. Covers the hardware and software structures of modern workstations, raster algorithms and data structures (Bresenham’s line and circle algorithms, polygon clipping, region filling, colour), transformations (two- and three-dimensional translation, scaling, and rotation as matrix operations), viewing and representation of three-dimensional shapes, approximation of curves and shapes, hidden line and hidden surface elimination algorithms.

CSC 510 Units: 1.5
Advanced Human-Computer Interaction
Topics of design methodologies, evaluation methodologies (both lab and field studies), human information processing, human movement, cognition, and perception are studied. Introduces students to research methods in HCI, and includes research topics such as: groupware and computer-supported co-operative work; customizable and adaptive systems; small screen, large screen, and tabletop displays; hypermedia and multimedia; and virtual and augmented reality.

CSC 511 Units: 1.5
Information Visualization
An introduction to visualization, or the use of interactive visual representations of data to support human cognition. Principles of visualization design are presented from a human perceptual and cognitive standpoint. Topics include: design, interaction, perception and cognition, evaluation and applications.

CSC 520 Units: 1.5
Analysis of Algorithms
General techniques for designing and analyzing algorithms; an in-depth examination of several problems
and algorithms with respect to their time and space requirements; advanced data structures; sorting and searching; graph algorithms; geometric algorithms; backtracking; NP complete problems; approximation algorithms.

CSC 522 Units: 1.5 Hours: 3-0
Graph Algorithms
Detailed study, from the algorithmic point of view, of some tractable and intractable graph problems. Some tractable problems are path problems, spanning trees, network flows, matchings, and planarity testing. Some intractable problems are clique, independent set, vertex cover, Hamiltonian cycle, and colouring problems. Various strategies for handling intractable problems are presented including intelligent backtracking, distributed and parallel computing, parameterized complexity, restrictions to graph sub-classes, randomized and approximation algorithms.

CSC 523 Units: 1.5
Randomized Algorithms
Basic techniques in design and analysis of randomized algorithms: moments and deviations, Markov chains and random walks, martingales, and algebraic techniques. Other topics include: the probabilistic method, random structures and complexity. Applications are selected from: parallel algorithm, routing networks, combinatorial optimization, data structure, approximate solutions to intractable problems, cryptography, pattern matching, and computational geometry.

CSC 524 Units: 1.5
Computational Complexity
Elements of the theory of computational complexity. Topics covered include: the distinction between tractable and intractable problems; definition of computational models and complexity classes; techniques for comparing the complexity of problems; the classes P (deterministic polynomial time); and NP (nondeterministic polynomial time); P and NP completeness; Auxiliary Pushdown Automata; Alternating Turing Machines; the polynomial time hierarchy; the classes Polynomial Space and Logarithm Space; probabilistic complexity classes; models of parallel computation; can all problems in P be effectively parallelized? Randomized parallel computation.

CSC 525 Units: 1.5
Computational Biology Algorithms
The design, analysis and implementation of algorithms used in Computational Biology. Typical topics include algorithms for sequence alignment, database searching, gene finding, phylogeny and structure analysis.

CSC 526 Units: 1.5
Computational Geometry
An introduction to algorithms and data structures which are used to solve geometrical problems. Topics include geometric searching, convex polygons and hulls, Voronoi diagrams, plane sweep algorithms, proximity and intersections. Application areas discussed include computer graphics, VLSI design and graph theory.

CSC 528 Units: 1.5
Combinatorial Algorithms
Focuses on the interfaces between combinatorics and Computer Science. Algorithms and data structures that are used to manipulate, generate, and randomly select combinatorial objects are studied. Such objects include sets, permutations, combinations, trees, graphs. Methods for analyzing combinatorial algorithms such as recurrence relations, asymptotics, and amortized complexity are presented.

CSC 529 Units: 1.5
Cryptography
Paradigms and principles of modern cryptography. Topics include: review of classical and information-theoretic cryptography; block ciphers; DES, Cryptanalysis of DES, modes of operation, AES; Cryptographic hash functions and message authentication codes; public key cryptography, RSA, ElGamal and other public key systems, signature schemes; introduction to security protocols; secret sharing schemes and zero knowledge techniques.

CSC 535 Units: 1.5
Compiler Construction
An introduction to important topics in the design and implementation of a compiler for a modern programming language such as Java. Topics include parsing, syntax directed translation, intermediate code representation, static single assignment form, dataflow analysis, simple optimizations, and code generation for a simple architecture.

CSC 540 Units: 1.5
Numerical Analysis I
Numerical Linear algebra. Topics include: Gaussian elimination and its variants; sparse positive definite linear systems; sensitivity of linear systems; condition and stability; orthogonal matrices and least squares; eigenvalues and eigenvectors; the QR algorithm; the singular value decomposition.

CSC 545 Units: 1.5
Operations Research I
Linear programming and its applications. Topics discussed include the following: the simplex method, the revised simplex method, computer implementation of linear programming, duality, dual simplex and primal dual algorithms, parametric analysis and postoptimality analysis. Applications are selected from: the transportation problem, the assignment problem, blending problems, inventory problems, activity analysis, game theory and network analysis.

CSC 546 Units: 1.5
Operations Research II
An introduction to the design of algorithms for use in queuing theory and simulation techniques. Topics covered include a brief introduction to queuing theory, basic ideas in simulation, random number generators, sampling, critical event and time slice methods, organization of a simulation study, and basic concepts of simulation programming.

CSC 551 Units: 1.5
Computer Communications and Networks I
Selected topics in computer communications and networks including: origins of computer networking, connection-based and connectionless communication, the Internet, layers above the transport level, recent developments in communications including the impact of Multimedia Theory and related protocols. Emphasizes the evolution of communications concepts from first inception to present form and considers future directions for research and development in communications.

CSC 552 Units: 1.5
Computer Communications and Networks II
Selected topics in computer communications and networks including: origins of computer networking, connection-based and connectionless communication, the Internet, layers above the transport level, recent developments in communications including the impact of multimedia theory and related protocols. Emphasizes the evolution of communications concepts from first inception to present form and considers future directions for research and development in communications.

CSC 554 Units: 1.5
Fault Tolerant Computing
Issues of fault tolerant computing are discussed, ranging from the choice of fault tolerant architectures, to expert systems for the design and test of integrated circuits. Topics include: design and test of defect free integrated circuits, fault modelling, built in self test, data compression, error correcting codes, simulation software/hardware, fault tolerant system design, CAD tools for design for testability.

CSC 560 Units: 1.5 Hours: 3-3
Design and Analysis of Real-Time Systems
Fundamental issues in the design of real-time operating systems and application software. Typical topics include: hard-real-time scheduling, interrupt driven systems, process communication and synchronization, language requirements for real-time systems, decomposition of real-time requirements into process model, and case studies. A project involving design, implementation and testing of a real-time executive and real-time application software will also be included.

Note: Not open to students registered in or with credit in 460.

CSC 561 Units: 1.5
Multimedia Systems
Introduction to multimedia systems and applications. Topics include multimedia system design issues, representation, processing and retrieval of temporal and non- temporal media types, compression techniques, JPEG and MPEG encoding, multimedia system architecture, operating systems, networking, quality of service and database system issues, object-oriented multimedia programming, user interface, virtual worlds.

CSC 562 Units: 1.5
Distributed Computing
Recent developments and advanced research topics in the area of distributed computing. Topics include: distributed operating systems, interprocess communications, remote procedure calls, network transparency, file server, execution location, and failure transparency, fault tolerant distributed systems, process replication, load balancing, task migration and performance issues, interconnection strategies, network configurations, problem decomposition, distributed updating of multiple copies, global object addressing, centralized and decentralized control mechanisms, reliability and the reconfiguration problem, and finally case studies of some of the more significant distributed systems.

CSC 563 Units: 1.5
Data Compression
Principles and concepts of lossless and lossy data compression methods, beginning with basic concepts of Information Theory, Huffman codes, dictionary-based compression methods, Ziv-Lempel methods, arithmetic coding, context modeling methods, transform-based compression methods based on discrete cosines and wavelets, and fractal compression; standard compression methods including JPEG, JPEG2000, and MPEG.

CSC 564 Units: 1.5
Concurrency
Introduction to the foundations of concurrency theory and the issues of specification and verification of concurrent systems. Topics include models of concurrency such as Petri nets, labelled transition systems, and traces; specification of concurrent systems/programs in formalisms including process algebra, statecharts, Petri nets and temporal logics; verification techniques such as bisimulation and model checking;
CSC 565  
**Units:** 1.5  
**Massive Data Sets, Scalability and Concurrency**  
A cross section of topics from computer science disciplines, including databases, operating systems, architecture, programming languages and theory, and considers challenges associated with concurrency from multiple perspectives. Students will be exposed to research involving programming paradigms and software practices for concurrent systems, algorithmic techniques for new paradigms, low level mechanisms for the implementation of practical primitives, applications including data mining and cloud computing, systems support for multicore computation, and pedagogy for concurrency in modern curriculum.

CSC 567  
**Units:** 1.5  
**Switching, Network Traffic and Quality of Service**  

CSC 569  
**Units:** 1.5  
**Wireless and Mobile Networks**  
The recent developments and advanced research topics in wireless and mobile networks. Topics include: radio propagation models, mobility models, location management, protocols particularly tailored for wireless and mobile networks, and analytical performance evaluation of wireless and mobile networks.

CSC 571  
**Units:** 1.5  
**Advanced Databases**  
Important and recent developments in databases are covered in detail. Topics include: storage technology, data structures adapted to secondary storage, query optimization, advanced transaction management, parallel or distributed databases, databases and grid computing, multidimensional data and indexes, On-Line Analytical Processing (OLAP), information integration, streaming data, SML and semistructured data, fine-grained access control and anonymization techniques.

CSC 575  
**Units:** 1.5  
**Music Retrieval Techniques**  
A comprehensive advanced overview of the emerging research area of Music Information Retrieval (MIR). Topics include techniques from signal processing, machine learning, information retrieval, human-computer interaction and software engineering that are applied in the design and development of MIR algorithms and systems. Integration of knowledge from different research areas to solve concrete problems.

CSC 578A  
**Units:** 1.5  
**Formerly: 578**  
**Topics in Software Applications**  
**Notes:**  
- Credit will be granted for only one of 578, 578A, 578B, 578C, 578D (if taken in the same topic).  
- May be taken more than once for credit in different topics.

CSC 578B  
**Units:** 1.5  
**Formerly: 578**  
**Topics in Software Applications**  
**Notes:**  
- Credit will be granted for only one of 578, 578A, 578B, 578C, 578D (if taken in the same topic).  
- May be taken more than once for credit in different topics.

CSC 578C  
**Units:** 1.5  
**Topics in Software Applications**  
**Notes:**  
- Credit will be granted for only one of 578, 578A, 578B, 578C, 578D (if taken in the same topic).  
- May be taken more than once for credit in different topics.

CSC 579  
**Units:** 1.5  
**Overlay and Peer-to-Peer Networking**  
Focuses on the recent developments and advanced research topics in Layer 3 and above and the control plane of the Internet. Topics include: overlay network architectures, peer-to-peer application models, end-to-end control mechanisms, inter- and intra-domain routing protocols, service provisioning, network measurement, and related best current practices on the Internet.

CSC 581A  
**Units:** 1.5  
**Formerly: 581**  
**Topics in Artificial Intelligence**  
**Notes:**  
- Credit will be granted for only one of 581, 581A, 581B, 581C, 581D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

CSC 581B  
**Units:** 1.5  
**Formerly: 581**  
**Topics in Artificial Intelligence**  
**Notes:**  
- Credit will be granted for only one of 581, 581A, 581B, 581C, 581D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

CSC 581C  
**Units:** 1.5  
**Formerly: 581**  
**Topics in Artificial Intelligence**  
**Notes:**  
- Credit will be granted for only one of 581, 581A, 581B, 581C, 581D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

CSC 581D  
**Units:** 1.5  
**Formerly: 581**  
**Topics in Artificial Intelligence**  
**Notes:**  
- Credit will be granted for only one of 581, 581A, 581B, 581C, 581D (if taken in the same topic).
### Course Listings CSC

**CSC 584A**  
Units: 1.5  
Formerly: 584  
Topics in Numerical Analysis and Operations Research  
**Notes:**  
- Credit will be granted for only one of 584, 584A, 584B, 584C, 584D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 584B**  
Units: 1.5  
Formerly: 584  
Topics in Numerical Analysis and Operations Research  
**Notes:**  
- Credit will be granted for only one of 584, 584A, 584B, 584C, 584D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 584C**  
Units: 1.5  
Formerly: 584  
Topics in Numerical Analysis and Operations Research  
**Notes:**  
- Credit will be granted for only one of 584, 584A, 584B, 584C, 584D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 585A**  
Units: 1.5  
Formerly: 585  
Topics in Hardware and Computer Architecture  
**Notes:**  
- Credit will be granted for only one of 585, 585A, 585B, 585C, 585D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 585B**  
Units: 1.5  
Formerly: 585  
Topics in Hardware and Computer Architecture  
**Notes:**  
- Credit will be granted for only one of 585, 585A, 585B, 585C, 585D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 585C**  
Units: 1.5  
Formerly: 585  
Topics in Hardware and Computer Architecture  
**Notes:**  
- Credit will be granted for only one of 585, 585A, 585B, 585C, 585D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 585D**  
Units: 1.5  
Formerly: 585  
Topics in Hardware and Computer Architecture  
**Notes:**  
- Credit will be granted for only one of 585, 585A, 585B, 585C, 585D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 585E**  
Units: 1.5  
Formerly: 585  
Topics in Hardware and Computer Architecture  
**Notes:**  
- Credit will be granted for only one of 585, 585A, 585B, 585C, 585D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 585F**  
Units: 1.5  
Formerly: 585  
Topics in Hardware and Computer Architecture  
**Notes:**  
- Credit will be granted for only one of 585, 585A, 585B, 585C, 585D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 586A**  
Units: 1.5  
Formerly: 586  
Topics in Computer Systems and Software  
**Notes:**  
- Credit will be granted for only one of 586, 586A, 586B, 586C, 586D, 586E, 586F (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 586B**  
Units: 1.5  
Formerly: 586  
Topics in Computer Systems and Software  
**Notes:**  
- Credit will be granted for only one of 586, 586A, 586B, 586C, 586D, 586E, 586F (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 586C**  
Units: 1.5  
Formerly: 586  
Topics in Computer Systems and Software  
**Notes:**  
- Credit will be granted for only one of 586, 586A, 586B, 586C, 586D, 586E, 586F (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 586D**  
Units: 1.5  
Formerly: 586  
Topics in Computer Systems and Software  
**Notes:**  
- Credit will be granted for only one of 586, 586A, 586B, 586C, 586D, 586E, 586F (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 586E**  
Units: 1.5  
Formerly: 586  
Topics in Computer Systems and Software  
**Notes:**  
- Credit will be granted for only one of 586, 586A, 586B, 586C, 586D, 586E, 586F (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**CSC 587**  
Units: 1.5  
**Industrial Master’s Project**  
**Grading:** INP, COM, N, F.

**CSC 591**  
Units: 1.5  
**Directed Studies**  
Individual studies under the direct supervision of a faculty member. The content and evaluation must be approved by the department.  
**Note:** May be taken more than once for credit in different topics.

**CSC 595**  
Units: 1.5  
**Research Skills**  
The main objective is to teach critical skills in order to be a successful researcher. This includes: choosing a research method, preparing for and presenting a research seminar talk, preparing a research proposal, doing literature search, and evaluating constructively research papers, proposals and/or presentations.  
**Grading:** INP, COM, N, F.

**CSC 597**  
Units: 1.5  
**Industrial Master’s Project**  
**Grading:** INP, COM, N, F.

**CSC 598**  
Units: 3.0  
**Master’s Project**  
**Grading:** INP, COM, N, F.

**CSC 599**  
Units: 6.0  
**Master’s Thesis**  
**Grading:** INP, COM, N, F.

**CSC 603**  
Units: 3.0  
PhD Candidacy  
**Grading:** INP, COM, N, F.
CSPT 690 Units: 1.5
Directed Readings
Individual study, under the direction of a participating faculty member, of a topic or topics in cultural, social and political thought.

Notes:
- A student in the Program may substitute POLI 690 or SOCI 690 for CSPT 690, with permission of the Director of the program.
- May be taken more than once for credit in different topics.

Cyc 549 Units: 1.5
Program Design and Development in Child and Youth Care
Learners will engage in exploring a range of issues relevant for program planners and implementers in contemporary human services. Issues such as managing complexity, evidence-based practices, outcome measures, budget restraints, leadership of change and creating organizational cultures will be explored.

Cyc 551 Units: 1.5
Ensuring Quality in Child and Youth Care Programs
Explores what we know about creating quality programs for children, youth and their families. Recent advances in defining quality, creating client-centred strategies for programs, developing self-renewing organizations, and involving families and communities will be examined from a child and youth care practice perspective.

Cyc 552 Units: 1.5
Ethics in Practice
The primary purpose of this course is to enable students to expand their thinking by critically reflecting on professional and applied ethics from multiple perspectives and traditions. Developing a familiarity with various conceptual resources and ethical decision-making frameworks, discerning the morally relevant features of various ethical dilemmas, appreciating the complexity, plurality and uncertainty of everyday Cyc practice, and critically appraising the adequacy of decision-making tools for responding to ethical concerns and challenges are key course objectives.

Cyc 553 Units: 1.5 or 3.0
Practicum in Child and Youth Care
The supervised field placement is designed to provide Cyc students with an opportunity to apply their skills working with children, youth, families and communities in a supervised setting. Placements which involve individual, family and/or group counseling, can only be undertaken with qualified (i.e. Master's level) supervisors, and require a minimum commitment of 300 hours (3.0 units). Those students who have not completed a practicum as part of their undergraduate degree will also be required to enrol in the 3.0 unit course. Regular contact with the course instructor and consultations between the student, placement supervisor and instructor will be required.

Students registered in the 1.5 unit course will be required to complete a minimum of 165 hours. Students registered in the 3.0 course will be required to complete a minimum of 300 hours.

Note: Students are normally required to complete 13.5 units of coursework before registering in 553.
Grading: INP, COM, N, F.

Cyc 554 Units: 1.5
Diversity in Practice
Explores the complexity of diversities that shape the contexts of professional practice with children, youth and their families who come from different communities, represent a wide range of social networks, familial structures and belief systems. The attitudes and skills necessary to equip professionals to be attentive to the socially and culturally diverse populations that they face will be the focus of this course.

Cyc 554 Units: 1.5
Diversity in Practice
Explores the complexity of diversities that shape the contexts of professional practice with children, youth and their families who come from different communities, represent a wide range of social networks, familial structures and belief systems. The attitudes and skills necessary to equip professionals to be attentive to the socially and culturally diverse populations that they face will be the focus of this course.

Cyc 554 Units: 1.5
Diversity in Practice
Explores the complexity of diversities that shape the contexts of professional practice with children, youth and their families who come from different communities, represent a wide range of social networks, familial structures and belief systems. The attitudes and skills necessary to equip professionals to be attentive to the socially and culturally diverse populations that they face will be the focus of this course.

Cyc 554 Units: 1.5
Diversity in Practice
Explores the complexity of diversities that shape the contexts of professional practice with children, youth and their families who come from different communities, represent a wide range of social networks, familial structures and belief systems. The attitudes and skills necessary to equip professionals to be attentive to the socially and culturally diverse populations that they face will be the focus of this course.

Cyc 558
Units: 1.5
Proposal Writing Seminar
Engages students in the process of proposal writing in preparation for either their master's research thesis or applied research project. Students focus on developing their own topic area through writing that includes a consideration of the Human Research Ethics Board review process, specialized information literacy training with the university library, and other issues of writing and research.

Cyc 561
Units: 1.5 or 3
Special Topics in Child and Youth Care Theory
Explores specialized areas of theoretical interest in the field of Child and Youth Care.
Note: Topics will vary. May be taken more than once for credit in different topics.

Cyc 562
Units: 1.5 or 3
Special Topics in Child and Youth Care Intervention
Students will study models of intervention in child and youth care which are specific to their area of specialization.
Note: Topics will vary. May be taken more than once for credit in different topics.

Cyc 563
Units: 1.5
Specialized Practicum in Child and Youth Care
In consultation with a faculty adviser, students will select a special setting for advanced work and training. In some settings, this may take the form of a clinical internship. Students will work under supervision and will consult regularly with both the practicum supervisor and faculty course instructor. Students may be required to complete a specialized theory or intervention course in their area of focus prior to undertaking the specialized practicum. Students are required to complete a minimum of 156 hours.
Prerequisites: 553.
Grading: INP, COM, N, F.

Cyc 569
Units: 1.5
Human and Organizational Change
Explores theories and case studies relating to the nature of change at various levels of personal and organization functioning. Developmental, therapeutic and transformational change will be examined in the contexts of the evolving national and international systems of governmental and non-governmental child, youth and family services. Strategies and dynamics related to selected topics such as the management of change, the use of teams and teamwork, program development, project management and leadership will be addressed.

Cyc 571
Units: 1.5
Youth Substance Use: Perspectives on Theory, Research and Practice
Contemporary theoretical perspectives on youth substance use will be critiqued. Students will apply research strategies used to identify prevalence and risk factors associated with youth substance use patterns, and assess effectiveness of prevention and intervention approaches. A critical review of current approaches to prevention and treatment will be undertaken to increase awareness of the limitations and strengths of these interventions and their abilities to address child and youth care needs.

Cyc 580
Units: 1.5
Child and Youth Care in the Context of International Development
A historical perspective on the relationship among various constructions and understandings of children and their identified needs, and the policies, initiatives and priorities of various governmental and non-governmental organizations and programs. The characteristics of these initiatives as they have been operationalized within specific regions and countries will be examined. Participants are expected to identify an initiative and a country or region of interest and develop a case study for presentation.

Cyc 582
Units: 1.5
Children's Survival, Health, and Development in Ecocultural Context
An exploration of the diversity of settings, goals, opportunities and challenges for children's survival and development. Expands learners' knowledge of proximal and distal determinants of children's health, in local, national and international contexts using a bio-ecocultural model. Learners will explore multiple interacting factors shaping how childhood is conceptualized, how children are cared for, and the importance of working with communities to develop actions to promote child survival and optimal development.
Prerequisites: Advanced child development course work, e.g., 2 upper-level undergraduate child development courses or 1 graduate-level child development course.

Cyc 584
Units: 1.5
Special Topics in Child and Youth Care Research
A variable content course that is focused on research in selected areas of Child and Youth Care. Topics will vary and students may take the course more than once for credit provided that the topics are different.

Cyc 585
Units: 1.5
Child and Adolescent Development in Context
This course provides a contextualized perspective of child and adolescent development highlighting the importance of culture, historical, social, economic and political contexts to human development. Texts addressing alternative understandings of human development will constitute a significant part of the course.

Cyc 586
Units: 1.5
Program Evaluation and Policy in Child and Youth Care
Drawing on knowledge and skills in program design and development, learners will learn to utilize program and personnel evaluative practices and explore strategies for ensuring transfer from program delivery and outcomes to policy formulation and development.

Cyc 589
Units: 6.0
Applied Research Project
The student will undertake an applied research project which could, for example, include: (1) program development, (2) program needs assessment, (3) development of an assessment tool/protocol for clients, (4) evaluation of an existing program, (5) cost/benefit analysis of program models, or (6) secondary analysis of existing agency data. The research project should be developed in consultation with the student's supervisory committee.
Grading: INP, COM, N, F.

Cyc 599
Units: 6.0
Thesis
Specialized research on a topic chosen in consultation with the student's supervisory committee. The thesis should be an original piece of research that would be suitable for publication in a professional journal or presentation at a professional meeting.
Grading: INP, COM, N, F.

Cyc 641
Units: 3.0
Generating Knowledge in Child and Youth Care
This doctoral seminar invites students to start “thinking with theory” when considering policy, research and practice in the field of Child and Youth Care. Students will be exposed to a range of contemporary social, political and psychological theories. Throughout the course students will be invited to explore how each theory provides different lenses, tools, and approaches, for taking action in the world.

Cyc 643
Units: 1.5
Qualitative Research in Child and Youth Care
This course examines the theoretical underpinnings and strategies commonly used in qualitative methods, with an emphasis on understanding the relationship between the research question and the methodological decisions involved in choosing approaches for data gathering and analysis. Methodologies that will be considered include but are not restricted to: grounded theory, critical theory, ethnography, phenomenology, and narrative research and their epidemiological and ontological similarities and differences.
Prerequisites: 3 units of graduate-level research course work, covering research designs, qualitative data analysis, statistical data analysis and reporting.

Cyc 645
Units: 1.5
Quantitative Research in Child and Youth Care
Students explore and apply quantitative methods for studying issues related to child and youth care such as clinical practice and program evaluation. Statistical techniques include approaches for use with small sample sizes as well as parametric and nonparametric statistical techniques.
Prerequisites: 3 units of graduate-level research course work.

Cyc 671
Units: 1.5
Social and Cultural Contexts of Child and Youth Care Policy, Practice, Research and Pedagogy
The course places contemporary CYC issues into social, historical and cultural contexts. Each student identifies a key issue in CYC policy, practice and/or pedagogy and, first, provides a critical perspective on the issue, before developing a change agenda designed to transform the issue and its implications.
Prerequisites: 641.

Cyc 680
Units: 1.5 or 3.0
Doctoral Seminar in Child and Youth Care
Builds a collegial environment to support doctoral students in the midst of their inquiry and research process by providing opportunities for participating in collaborative inquiry, for presenting and critiquing work in progress and for engaging in discourse with experienced practitioners engaged in the practice of
research. Students will engage in a practice of writing and re-writing to develop their inquiry.

**Note:** May be taken more than once for credit to a maximum of 6 units.

**Prerequisites:** Enrolment in a doctoral program.

---

**CYC 682A**

**Units:** 1.5

**Formerly:** CYC 682.

**Internship in Child and Youth Care Research**

Learners may be involved in an ongoing research project in CYC or a closely related field in which they will play an active role in some aspect(s) of conducting the research. Learners will be expected to spend a minimum of 10 hours per week in the practicum and to meet with a faculty supervisor on a regular basis for a minimum of 150 hours.

**Note:** Learners may not be paid for work on this research project during the time that they are undertaking the practicum course for university credit.

**Grading:** INP, COM, N, F.

---

**CYC 682B**

**Units:** 1.5

**Formerly:** CYC 682.

**Practice Internship in Child and Youth Care**

A practice Internship provides opportunities for the student to be actively involved and supervised in a practice setting. Practice settings may include teaching environments, face to face counselling settings, international contexts, or work in policy development with a specific Ministry. Normally students will work for 10 hours per week for a maximum of 150 hours. In addition, students will meet with the practicum co-ordinator throughout the term.

**Note:** Learners may not be paid for work on this research project during the time that they are undertaking the practicum course for university credit.

**Grading:** INP, COM, N, F.

---

**CYC 690**

**Units:** 1.5 or 3.0

**Directed Studies in Child and Youth Care**

Individual study at the doctoral level under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and School of Child and Youth Care graduate adviser prior to registration in the course.

**Notes:**
- Pro Forma is required for registration.
- May be taken more than once for credit in different topics.

---

**CYC 693**

**Units:** 3.0

**Candidacy Exams**

Students will be expected to complete two candidacy papers (one focused on the substantive area of interest including related theories, and the other on methodology related to their area and topic of interest) and an oral examination before qualifying to undertake PhD research and a dissertation. Within thirty-six months of registration as a provisional doctoral student and at least six months before the final oral examination, a student must pass a candidacy examination.

**Grading:** INP, COM, N, F.

---

**CYC 699**

**Units:** 16.5

**PhD Dissertation**

**Prerequisites:** 683.

**Grading:** INP, COM, N, F.

---

**DHUM**

**Digital Humanities**

**Faculty of Humanities**

**DHUM 501**

**Units:** 1.5 **Hours:** 3-0

**Introduction to Digital Humanities**

Surveys and explores intellectual traditions and emergent concerns associated with computing in the arts and humanities. Topics include digital representation, analysis, communication and creation, and involve theoretical considerations and pragmatic approaches.

**Notes:**
- Credit will be granted for only one of 501, ENGL 507.
- Typically offered the week before the Digital Humanities Summer Institute (see <www.dhsi.org>).

**DHUM 502**

**Units:** 1.5 **Hours:** 3-0

**Core Concepts and Skills**

Focuses on fundamental concepts and skills in the Digital Humanities, with curriculum offered by the Digital Humanities Summer Institute (see <www.dhsi.org>) or equivalent topical seminars listed annually by the Faculty of Humanities. Typical offerings include DHIS’s Textual Encoding Fundamentals, Digitisation Fundamentals, Fundamentals of Programming/Encoding for Human(s) etc.

**Note:** Credit will be granted for only one of 502, ENGL 509 (if taken in the same topic).

**DHUM 503**

**Units:** 1.5 **Hours:** 3-0

**Remediation and Curation**

Focuses on intellectual traditions, emergent concerns, and applications related to digital remediation and curation, with curriculum offered by the Digital Humanities Summer Institute (see <www.dhsi.org>) or equivalent topical seminars listed annually by the Faculty of Humanities. Examples include XSLT, Databases, Drupal, Digital Editions, Pre-Digital Book.

**Note:** Credit will be granted for only one of 503, ENGL 509 (if taken in the same topic).

**DHUM 504**

**Units:** 1.5 **Hours:** 3-0

**Creation, Communication and Dissemination**

Focuses on intellectual traditions, emergent concerns, and applications related to creation, communication, and dissemination, with curriculum offered by the Digital Humanities Summer Institute (see <www.dhsi.org>) or equivalent topical seminars listed annually by the Faculty of Humanities. Examples include Multimedia, Social Media, Mobile Computing, Physical Computing.

**Note:** Credit will be granted for only one of 504, ENGL 509 (if taken in the same topic).

**DHUM 505**

**Units:** 1.5 **Hours:** 3-0

**Analysis, Teaching, and Administration**

Focuses on intellectual traditions, emergent concerns, and applications pertinent to analysis, teaching, and administration, with curriculum offered by the Digital Humanities Summer Institute (see <www.dhsi.org>) or equivalent topical seminars listed annually by the Faculty of Humanities. Examples include GIS, Text Analysis, Augmented Reality, Computer Gaming, SEASR, Digital Pedagogy, Large Project Planning and Administration.

**Note:** Credit will be granted for only one of 505, ENGL 509 (if taken in the same topic).

---

**DR**

**Dispute Resolution**

**School of Public Administration**

**Faculty of Human and Social Development**

Students enrolled in the MA in Dispute Resolution program should also see courses listed as PADR.

**DR 502**

**Units:** 1.5

**Conflict, Culture, and Diversity**

Cross-cultural conflicts involve navigating among diverse identities, meanings and ever-changing perceptions. Uses experiential education and dialogue to explore processes, capacities, and tools to bridge cultural conflicts that draw on multiple intelligences. Develops fluency with ways of naming, framing, and taming conflict across cultural contexts; and fluency with culture as it animates and offers creative ways through conflict. Participants will apply theory and research to interpersonal, intercultural, and international conflicts.

**Note:** Credit will be granted for only one of 503, LAW 372.

---

**DR 503**

**Units:** 1.5

**Also:** LAW 372

**Public Policy, Law, and Dispute Resolution**

Looks at the nature and scale of conflict in civil society and at the primary strategies that society employs to cope with it. Examines a range of contemporary issues of governance. Focuses on the interaction of legislative, judicial, and administrative institutions around two major themes: how programs and public policy are developed and how conflict is managed.

**Note:** Credit will be granted for only one of 506 and 510 (if taken in the same topic).

**Prerequisites:** 501 or PADR 501.

---

**DR 506**

**Units:** 1.5

**Mediation Processes and Skills**

This course couples mediation processes with practice in communication skills needed for effective third party facilitative intervention. Using the paradigm of Attitude, Process and Skills, students learn and practice mediation as a dispute resolution tool, integrated with prior learning in conflict analysis and diagnosis. Through lectures, clinical exercises, demonstrations, coached role play, reflective listening skills practice, and group discussions, students connect skills with theoretical and philosophical foundations of mediation required to satisfactorily conclude mediated agreements.

**Note:** Credit will be granted for only one of 506 and 510 (if taken in the same topic).

**Prerequisites:** 501 or PADR 501.

---

**DR 507**

**Units:** 1.5

**Also:** LAW 373

**International Human Rights and Dispute Resolution**

Explores linkages between international human rights law, conflict analysis and dispute resolution. Participants explore literature from several disciplines including international law, history, philosophy, anthropology, political science and conflict studies. United Nations, regional and national human rights instruments and mechanisms are examined for their efficacy in human rights protection. Concerns of individuals, including women and children, non-state groups and indigenous peoples are addressed. Students develop skills in human rights analysis, advocacy and dialogue.

---

**DR 508**

**Units:** 1.5

**Dispute Resolution and Indigenous Peoples**

Explores the theory and practice of negotiation and mediation within the context of public issues and disputes involving indigenous peoples. Includes a comparative examination of perspectives on negotiation of dominant society and indigenous peoples in Canadian and other settings. A critical approach is taken to the
application of dominant society models of negotiation and mediation to conflict situations involving indigenous people, including the examination of historical factors, dynamics of power, and cross-cultural factors.

Prerequisites: 501 or PADR 501 and DR 502 or permission of the department

DR 509 Units: 1.5
Dispute Resolution System Design and Public Interest Disputes
Introduction to designing, assembling and implementing systems to prevent, manage and/or resolve a series or stream of disputes arising out of a single organization and/or relationships. Examines models of conflict intervention and the design process. Introduces the theory and practice of negotiating public-interest issues and managing stakeholder conflicts.

Prerequisites: Determined in consultation with the department.

DR 510 Units: 1.5
Special Topics in Dispute Resolution
A study of selected special topics in Dispute Resolution drawn from the current literature and practice.

Note: May be taken more than once for credit in different topics.

Prerequisites: Determined in consultation with the department.

DR 511 Units: 1.5
Conflict Specialists as Leaders
A role of a conflict specialist is to support organizations and/or groups to replace traditional public policy decision-making processes with collaborative governance processes. As change agents, both dispute resolution process and leadership competencies are required. Students will build and bridge these competencies by learning communication skills, design analysis, and implementation strategies for deliberation and engagement, as well as leadership skills to support change.

Prerequisites: Recommended that students take all other required DR courses before this course.

DR 516 Units: 1.5
Access to Justice
Also: LAW 325
Examine the factors of diminishing access to justice and its implications for the public, professionals, the justice system and society as a whole. Provides a theoretical framework and practical ideas to help students recognize, understand and respond to access issues. Topics include: the causes, scale and consequences of unmet legal needs; strategies and initiatives to enhance access; and how access issues are forcing the justice system to rethink professional roles, responsibilities and ethics.

Note: Credit will be granted for only one of 516, 510 (if taken in the same topic), LAW 325 or 343 (if taken in the same topic).

DR 590 Units: 1.5-3.0
Directed Studies
Individual studies under the supervision of a faculty member, with permission of the Graduate Adviser.

Note: May be taken more than once for credit in different topics.

DR 598 Units: 4.5
Master’s Project
The non-thesis option requires students to complete a major project in consultation with the student’s supervisor and the Graduate Adviser. The project is expected to be a substantial analysis of a conflict situation or process, policy issue, or other relevant topic approved by the Graduate Adviser. It will have a practical application and is generally prepared in consultation with a client, as well as the supervisor. A written project report will be prepared and submitted to an oral examination committee.

Grading: INP, COM, N, F.

DR 599 Units: 6.0
Master’s Thesis
The thesis option requires original research on a topic chosen in consultation with the student’s supervisor and the Graduate Adviser.

Grading: INP, COM, N, F.

ECON Economics
Department of Economics
Faculty of Social Sciences

ECON 500 Units: 1.5
Microeconomic Analysis
An introduction to consumer demand, production and market organization. Topics covered will generally include: consumer demand; duality; choice under uncertainty; intertemporal choice; measuring welfare change; the competitive firm; the two sector model; properties of competitive equilibrium; market structure; and externalities.

ECON 501 Units: 1.5
Macroeconomic Analysis
An introduction to macroeconomic analysis. Long-run growth, business cycles, trade, and fiscal policy are analyzed using dynamic general equilibrium models. Classical and Keynesian models are used to examine inflation, unemployment, the open economy, and monetary policy. Limitations and extensions of the models are discussed and developed.

ECON 506 Units: 1.5
Monetary Theory and Policy
The examination of selected contributions to contemporary monetary theory and policy, and their relationship to macroeconomics.

ECON 510 Units: 1.5
Industrial Organization and Public Policy
Provides a framework in which to examine policy issues with respect to industrial competition and regulation. Begins with the firm and its relation to the market, and then examines issues relating to market structure and regulation. Topics may include: durable goods monopoly; price discrimination; product differentiation; product quality; advertising; predatory pricing; mergers; and the natural monopoly.

ECON 515 Units: 1.5
Labour Economics
Introduction to contemporary empirical and applied theoretical research into labour markets. Topics may include: labour supply; labour demand; human capital; discrimination; labour market dynamics; unemployment; and behaviour of the household.

ECON 516 Units: 1.5
Cost-Benefit Analysis
Methods of cost-benefit analysis with applications to public policy. Develops a normative foundation for policy analysis, addressing issues of efficiency and wealth redistribution together with the techniques of cost-benefit analysis. Focuses on contemporary Canadian policy issues.

ECON 520 Units: 1.5
Economic Development
The processes and problems of development in the economies of the Developing World. Topics may include: theories of economic development; poverty and inequality; gender and development; nutrition and food policies; agricultural and rural development; employment and migration.

ECON 523 Units: 1.5
The Economics of Canadian Health Care
Analysis of the structure, function and performance of the medical market with emphasis on physician and hospital services.

Note: Credit will be granted for only one of 523, 517.

ECON 524 Units: 1.5
Health Economics
An overview of selected issues in contemporary health economics. Topics may include: microeconomic models of physician and patient behavior, econometric methods relevant to the analysis of health data, health insurance, social determinants of health, and the economics of health-affecting behaviors such as smoking and alcohol use.

ECON 525 Units: 1.5
Public Finance and Fiscal Policy
Seminar in selected topics in fiscal policy and public finance including the incidence and effects of taxation, government expenditure programs and public debt operations.

ECON 529 Units: 1.5
Economics of Finance
The basic theory of finance under uncertainty. Topics include expected utility maximization, state preference theory, analysis of capital asset pricing, and option pricing.

ECON 530 Units: 1.5
Economics of Natural Resources
Seminar in the economics of natural resources including a survey of relevant theoretical literature and selected topics covering problems of resource industries.

ECON 531 Units: 1.5
Environmental Economics
An introduction to environmental economics and policy. Develops a normative foundation for policy analysis, addressing issues of efficiency, intergenerational equity and sustainability. A range of policy regimes are covered, including command-and-control regulation, market-based instruments, and legal liability, with applications to a variety of domestic and international environmental issues.

ECON 545 Units: 1.5
Econometric Analysis
The basics of estimation and hypothesis testing in the classical linear regression model, with empirical exercises using economic data. Topics typically include: testing and imposing linear restrictions; dummy variables; specification error; multicollinearity; measurement error; serial correlation; heteroskedasticity; and simultaneity.

ECON 546 Units: 1.5
Themes in Econometrics
A systematic presentation of the principal themes in econometric inference, such as Maximum Likelihood, Instrumental Variables, Method of Moments, Bayesian Inference, Likelihood Ratio, Wald, and Lagrange Multiplier tests. A discussion of Nonparametric and
ECON 547  Units: 1.5
Time-Series Econometrics
Time-series theory and its application. Topics may include: ARMA modelling; detecting non-stationarity; structural breaks; multiple unit roots; seasonality; cointegration tests VAR and VECM models.

ECON 548  Units: 1.5
Applied Econometric Modelling
Explores a range of practical estimation and testing issues in the context of different types of econometric models. Topics may include: panel models; nonparametrics and semiparametrics; latent variable models; simultaneous equations models; resampling methods, and the methodology-practice gap.

ECON 549  Units: 1.5
Computational Methods in Economics and Econometrics
An introduction to numerical methods and their application in economics and econometrics. Topics will typically include: iterative fixed point methods, methods for solving problems of nonlinear equations, methods for solving initial value problems and boundary value problems, methods for solving static and dynamic optimization problems, Monte Carlo methods, resampling techniques, and Gibbs sampling.

ECON 550  Units: 1.5
Game Theory in Economics
Provides a game theoretic perspective on interactions between economic agents, covering a variety of game-theoretic modelling techniques and their applications. Topics will generally include: normal and extensive form games; Nash equilibrium and refinements; repeated and sequential games; learning and evolution in games; the Nash bargaining solution; and co-operative games.

Note: Credit will be granted for only one of 550, 540A.

ECON 551  Units: 1.5
Information and Incentives
Introduction to the incentive problems that arise from asymmetric information in a game-theoretic framework. Assumes a knowledge of basic game theory. Topics covered include moral hazard, adverse selection and mechanism design, illustrated in the context of applications drawn from a variety of areas, including industrial organization, public economics and labour.

Note: Credit will be granted for only one of 551, 540C.

ECON 552  Units: 1.5
Macroeconomic Issues
An exploration of contemporary macroeconomic issues using advanced modelling techniques. Topics may include: search and matching theory; unemployment; endogenous innovation; worker displacement due to technological change; the macroeconomic implications of imperfect competition; international macroeconomics; multiple equilibria; coordination; stability; inflation; and finance issues.

ECON 556  Units: 1.5
Experimental Economics
An introduction to the theory and practice of experimental economics using laboratory and field experiments. Topics include: state of the art methods in experimental economics including experimental design, subject sampling, laboratory techniques, and the use of financial incentives. The objectives will be pursued through the experimentation and a review of the method’s application to a number of topics of interest to economists.

ECON 557  Units: 1.5
Advanced Topics in Industrial Organization
A seminar covering contemporary topics in industrial organization.

ECON 558  Units: 1.5
Advanced Topics in Labour Economics
Applies economic theory to the study of labour market institutions. Topics covered may include: discrimination; human capital theory; the theory of contracts; efficiency wages; internal labour markets, hierarchies, and team production; search and mobility; and unions.

ECON 559  Units: 1.5
Directed Studies in Economics
Individual titles will be assigned to each lettered section A-Z. 

Note: Pro Forma required.

ECON 560  Units: 3.0
Extended Essay
Grading: INP, COM, N, F.

ECON 565  Units: 1.5
The Econometrics of Cross-Section Data
An overview of the models, estimation techniques and tests used when analyzing cross-section data. The methods studied are particularly applicable to labour and health economics and industrial organization. Theory and empirical applications are covered. Topics may include binary and multinomial logit and probit models, limited dependent variable models, count data, and duration analysis.

ECON 566  Units: 1.5
Economic Growth
An examination of determinants of long-run growth rates and income levels in different economies. Topics will typically include: neoclassical, multisectoral, and endogenous growth theories; tests of these theories; and their policy implications. Other topics may include the effects of social security, endogenous population growth, public education, research and development, resource and environmental issues, and the international flows of capital, labour and knowledge.

ECON 567  Units: 1.5
Advanced Topics in Environmental and Resource Economics
A seminar covering contemporary topics in environmental and resource economics and policy.

ECON 568  Units: 1.5
Advanced Topics in Econometrics
Advanced topics in econometric theory and practice. Topics may include: recent developments in time-series analysis; estimation and testing with panel data; the use of nonparametric and semiparametric techniques; limited and qualitative dependent variables models; modelling financial data; switching-regime models; specification analysis and model selection; and applications of Bayesian inference.

ECON 569  Units: 1.5
PhD Candidacy Examinations
Students enrol in ECON 693 for the duration of their preparation for candidacy examinations. This begins at the time a student first enrolls in the PhD program and continues until candidacy requirements have been completed.

Grading: INP, COM, N, F.
include biological bases, temperament, attachment, emotion understanding and regulation, theory of mind, and family, peer, school, and cultural influences.

**506C – Adolescent Development**
A survey of current theory, research, and societal issues in pre-adolescence through emerging adulthood. Biological, familial, social, educational, cultural, and historical influences on adolescent development are explored.

**506D – Early Childhood and Middle Years Development**
A survey of current theory, research, on development from birth through the first decade of life. Biological, familial, social, educational, cultural, and historical influences on child development are explored.

**ED-D 508 Units: 1.5**
**Theories of Learning**
A survey of psychological interpretations of learning, comparing modern Behaviourist and Cognitive approaches; historical perspective also given.

**ED-D 509 Units: 1.5**
**Psychology of Learning and Instruction**
An in-depth analysis of selected issues and contemporary research in the application of psychology to instruction including: motivation, problem solving, learning processes and strategies, and instructional interventions.

**ED-D 514 Units: 1.5**
**Assessment in Counselling**
The use of testing, diagnosis, and other aspects of assessment within a counselling perspective for adults, adolescents and children. Topics addressed include: basic concepts in assessment, the relationship between counselling and assessment, ethical issues, diversity, reliability and validity, test selection and administration, test evaluation, a variety of assessments and assessment reports.

**ED-D 515 Units: 1.5**
**Advanced Assessment in Special Education**
An intensive course specializing in Level B assessment techniques and intervention-based academic assessment methods, including curriculum-based measurement, to support the educational programming of students with special needs.

**ED-D 516 Units: 1.5**
**Advanced Intervention in Special Education**
An intensive course specializing in academic interventions for students with special needs. Intervention design, implementation, and monitoring will be involved within the context of special education service delivery.

**ED-D 518 Units: 1.5**
**Advanced Seminar in Theories of Counselling Psychology**
Contemporary theories and approaches to counselling and psychotherapy for individuals, couples, and families across the lifespan.

**ED-D 519 Units: 1.5**
**Advanced Seminars in Counselling Psychology**
A study of issues and counselling interventions with children and adolescents. Topics include developmental context; identity; assessment; counsellor roles; consultation with teachers, other professionals and parents or guardians; family issues; career/educational planning; and individual and group interventions.

**ED-D 519A – Child and Adolescent Development and Counselling**
A study of issues and counselling interventions with children and adolescents. Topics include developmental context; identity; assessment; counsellor roles; consultation with teachers, other professionals and parents or guardians; family issues; career/educational planning; and individual and group interventions.

**ED-D 519B – Creative Arts Therapy**
The study and practice of creative and artistic approaches to counselling. Specific focus may include counselling using art, movement, writing, play, drama and bibliography.

**ED-D 519C – Ethics and Legal Issues in Counselling**
An examination of professional, ethical, and legal issues related to practice and research in counselling. Personal beliefs, values, and biases will be examined, as well as the professional codes and literature of the discipline.

**ED-D 519D – Child and Adolescent Development and Counselling**
A study of issues and counselling interventions with children and adolescents. Topics include developmental context; identity; assessment; counsellor roles; consultation with teachers, other professionals and parents or guardians; family issues; career/educational planning; and individual and group interventions.

**ED-D 519E – Cognitive-Behavioural Approaches in Counselling**
The study and practice of cognitive-behavioural counselling strategies for helping individuals meet their emotional, cognitive and behavioural goals. May include self-control strategies such as relaxation training, systematic desensitization, cognitive restructuring, problem solving, stress inoculation and modelling.

**ED-D 519F – Relationship Counselling**
The study and practice of counselling methods designed to repair, build, and enhance relationships. Potential clients include couples, family members, teachers-pupils, and co-workers. Organized around, but not limited to, the Bernard Guerney model of relationship enhancement.

**ED-D 519G – Career Development and Counselling Across the Lifespan**
Lifespan and career development as a dynamic and holistic enterprise. Theories and techniques of career development, assessment, and consultation are explored. The practice of career counselling for diverse populations including work-related issues.

**ED-D 519H – Peer Helping**
Examines the use of peers in the helping/learning process. Topics include history, theory and research. Provision will be made for skill building and training experience.

**ED-D 519K – Consultation in Education and Counselling**
Examines the provision of information, support and skill development to those who provide direct services in schools and the community. Skill practice included.

**ED-D 519L – Group Counselling**
The conceptualization and practice of group counselling and therapy. Leadership skills will be examined. Particular attention will be given to leadership skills and exploring the foundation and application of experiential learning in groups.

**ED-D 519N – Diversity, Culture, and Counselling**
Theory and practice of counselling diverse clientele. Specific emphasis on awareness, knowledge and strategies for developing cultural competencies.

**ED-D 519P – Trauma Counselling**
Theoretical and practical understanding of issues related to treatment of psychological trauma. Topics typically include definitions, safety/stabilization, symptoms, disorders, assessment/diagnosis and outcomes.

**ED-D 519R – Indigenous Development and Counselling across Generations**
Indigenous concepts and theories of development and growth across the lifespan. Exploration of intergenerational models of development and identity. Topics include child, adolescent and adult growth and change in family, community, and work contexts.

**ED-D 520 Units: 1.5 or 3.0**
**Educational Research Apprenticeship**
An individualized opportunity for students to develop their research skills by assisting with faculty research or engaging in their own research. Students are expected to spend a minimum of 9 hours a week participating in research activities. Includes a range of research activities, including but not limited to: data collection, coding, and entering; management of computerized databases; completion of ethics applications; analysis of data; literature search and review; and preparation of materials for publication.

**ED-D 521 Units: 1.5**
**Theory and Practice in Family Counselling**
Theoretical approaches and intervention strategies related to family counselling with diverse clientele. Through discussion, experiential activities, and role playing, students will become familiar with current concepts and techniques.

**ED-D 522 Units: Variable**
**Skills and Practice for Counselling**
Provides basic counselling interventions with an emphasis on the therapeutic relationship. Extensive opportunity to role play and to self-reflect on role as counsellor and issues related to boundaries and power. Sequenced skill training, with extensive counselling simulation and supervision of practice in a field setting. Includes direct client contact under the
supervision of a qualified professional with diverse client populations.

Notes:
- Can be taken more than once until practicum hourly requirements are met.
- This course is open only to students who have been admitted to the MA or MEd degree program in Counselling Psychology, or by permission of the department.

Corequisites: 518 and 519N or 519C and 519L.

Grading: INP, COM, N, F.

ED-D 523 Units: Variable Internship in Counselling
Provides intensive practice in advanced counselling techniques and approaches under the supervision of a professional counsellor in community settings. Lectures focus on case presentations, models of consultation, supervisor-supervisee relationship, roles and responsibilities of health professionals, counsellor identity, professional organizations, record keeping. Two term course.

Notes:
- Can be taken more than once until practicum hourly requirements are met. Enrolment is limited due to availability of placements. Normally limited to a maximum of 3 units of credit.
- This course is open only to students who have been admitted to the MA or MEd degree program in Counselling Psychology, or by permission of the department.

Prerequisites: 522.

Grading: INP, COM, N, F.

ED-D 524 Units: 1.5 Facilitation of Counselling Practicum
Preparation for future work as trainer, facilitator, or instructor through practice in facilitating 414 or 417 under the supervision of course instructor. Integration of theory and practice of helping, development of skills through modelling, observing, and coaching, enhancement of relationship and group processes.

Note: May be taken more than once to include facilitation practicum with both a 414 and 417 instructor. This course is open only to students who have been admitted to the MA or MEd degree program in Counselling Psychology. Normally limited to a maximum of 3 units. Cannot be used to fulfill elective requirements for program.

Grading: INP, COM, N, F.

ED-D 525 Units: 1.5 Indigenous Healing and Spirituality
Indigenous values, worldviews, and spirituality as the foundation for helping and healing. Topics include traditional knowledge, holistic healing, role of elders, and Indigenous spiritual practices.

Note: Restricted to students who have been admitted to the Indigenous Communities Counselling Program, or by permission of the Department.

Grading: COM, INC, N, or F.

ED-D 531 Units: 1.5 or 3.0 Formerly: ED-B 531

Concepts and Theory of Organization
Critical examination of the classical, modern, and emerging literature of administrative studies in the organizational context, with emphasis on philosophy of leadership, decision making processes, power and authority, leadership studies, and contemporary issues and perspectives.

Note: Credit will be granted for only one of 531, ED-B 531.

ED-D 532A Units: 1.5 Formerly: part of 532

Educational Program Leadership
Models for program design and review range from external, objective-based processes to participatory action research. Examines issues of implementation, collaboration, accountability, inclusiveness and responsiveness to community. Offers practical experiences in a range of evaluative methods.

Note: Credit will be granted for only one of 532A, 532, ED-B 532.

ED-D 532B Units: 1.5 Formerly: part of 532

Advanced Theories in Educational Program Leadership
Provides an opportunity to explore educational program design, implementation and assessment through the examination of specific case studies, with a focus on BC education.

Note: Credit will be granted for only one of 532B, 532, ED-B 532.

ED-D 533 Units: 1.5

Concepts and Theories of Leadership in Learning Contexts
533A – Politics in Organizations
An examination of politics in educational and related organizations: concepts of influence, authority, power, and control; frameworks for analyzing and understanding politics and policy; actors and agendas; interest and pressure groups; conflict and conflict resolution; the interface of leadership and politics; implications for governance and administrative practice.

Note: Credit will be granted for only one of 533A, ED-B 533A.

533B – Decision-Making and the Law
Develops awareness of the legal considerations and principles which apply to decision-making in school and other workplaces. Contains introductions to the interface between law, legislation and policy; statutes and the delegation of powers to decide, and the common law principles which govern decision-making by those with statutory authority. An array of case studies is used.

Note: Credit will be granted for only one of 533B, ED-B 533B.

533C – Servant Leadership
An inquiry into the philosophy of servant-leadership as a vehicle for the development of moral literacy in democratic, caring, serving institutions with an investment in the common good.

Note: Credit will be granted for only one of 533C, 591 (if taken in the same topic).

533D – Leadership
An examination of general leadership concepts, and practices as they apply to educational institutions, other workplaces, organizations and the community.

Note: Credit will be granted for only one of 533D, ED-B 533D, ED-B 537C.

Note: May be taken once for credit in each of the areas listed above.

ED-D 534 Units: 1.5 or 3.0 Formerly: ED-B 534

Leadership for School Improvement
Surveys contemporary thinking about professional learning communities and learning teams, emphasizing how leaders can build and support collaborative and inclusive learning environments in order to effect positive school change.

Note: Credit will be granted for only one of 534, ED-B 534.

ED-D 535 Units: 1.5 Formerly: 535A and 535B

Global Comparative Perspectives on Leadership and Education
Explorations of diverse leadership and education theories and practices in school, institutions, workplaces, and/or community across Canada and around the world.

Note: Credit will be granted for only one of 535, 535A and 535B.

ED-D 536 Units: 1.5 or 3.0 Formerly: ED-B 536

Philosophy of Leadership
An examination of the relevant interaction of philosophy and leadership, with a view to clarifying philosophical concepts and theories and their application to the analysis, by individuals in leadership positions, of their own and others’ actions.

Note: Credit will be granted for only one of 536, ED-B 536.

ED-D 537 Units: 1.5 or 3.0 Formerly: ED-B 537

Functions and Processes of Leadership
537A – Educational Change
An analysis of change theory and the processes associated with change in education, with a view to assisting school leaders to facilitate reforms.

Note: Credit will be granted for only one of 537A, ED-B 537A.

537D – Instructional Supervision
Through an analysis of literature in leadership, communication, change and activation, as well as through an analysis of classroom observation techniques, the development of rational organizational patterns of supervision for educational administrators.

Note: Credit will be granted for only one of 537D, ED-B 537D.

537G – Leadership in Educational Administration
Analysis of the roles and functions of the school principal, with emphasis upon educational leadership, understanding the breadth and diversity of the position, legal status, designated administrative and managerial responsibilities, and contemporary challenges.

Note: Credit will be granted for only one of 537G, ED-B 537G.

537H – Educational Planning
A review of the concepts, approaches and actual practice of educational planning of both macro and micro levels of activity. New features of planning will be examined for improving the design or policies and the operational procedures of educational organizations.

Note: Credit will be granted for only one of 537H, ED-B 537H.

Note: May be taken once for credit in each of the areas listed above.

ED-D 538A Units: 1.5 Formerly: 538

Community Leadership and Adult Learning
Focuses on leadership and learning strategies in communities and schools that work towards educational, social, environmental, and cultural change. Topics include: inter-connections between school and community; relations of power and social inequity; just learning societies; concepts of democracy, citizenship and governance; critical pedagogy/theory; feminist
theory and leadership; aboriginal perspectives on leadership; cross-cultural and anti-racist dialogue; ethics and values in leadership; social learning, collectivity and collaboration.

Note: Credit will be granted for only one of 538A, 538, 591 (if taken in the same topic).

ED-D 538B Units: 1.5 Cultural Leadership and Social Learning through the Arts
An exploration of the historical and contemporary contributions of arts-based education activities to cultural leadership, activism, and social justice and change across Canada and world-wide.

Note: Credit will be granted for only one of 538B, 591 (if taken in the same topic).

ED-D 539A Units: 1.5 Formerly: 539 Leadership, Learning and Social Justice
Concepts of social justice and their relationship to leadership in schools, institutions and organizations and community. Focuses on issues of race/ethnicity, gender, class, social orientation and ability as enacted in everyday practice. Conceptions of democracy, privilege, power, and citizenship are central. Discussions extend to ecological and global issues of social justice.

ED-D 539B Units: 1.5 Leadership, Education and Diversity
An exploration of the social, cultural, and political complexity of contemporary education in a pluralistic society. Focuses on issues of racism, homophobia, sexism, ableism and how they affect schools, workplaces, and/or communities and society as a whole.

Note: Credit will be granted for only one of 539B, 591 (if taken in the same topic).

ED-D 540 Units: 1.5 Women, Learning and Leadership
Explores women’s leadership in diverse contexts such as the women’s movement(s), the voluntary sector, community organizations and government.

Note: Credit will be granted for only one of 540, 591 (if taken in the same topic).

ED-D 541 Units: 1.5 Leadership in Rural Education
An examination of the historical contexts, unique issues, and recent developments surrounding leadership in rural and remote education, globally, nationally, and provincially, including First Nations. Focus is on issues of equitable educational opportunities, recruitment and retention of educators, multi-grade classes, professional isolation, and demands of community-based lifestyle and the benefits of technology. The dearth of rural education research is explored.

Note: Credit will be granted for only one of 541, 591 (if taken in the same topic).

ED-D 542 Units: 3.0 A Comprehensive Investigation of Servant Leadership
An inquiry, identification and application of the servant leadership-followership philosophy in all formal educational and community organizations. Servant Leadership-followership is a vehicle for the development of moral literacy in democratic, caring institutions and an investment toward the common good.

Note: Credit will be granted for only one of 542, 533C, 591 (if taken in the same topic).

ED-D 560 Units: 1.5 Statistical Methods in Education
An introduction to descriptive and inferential statistics to provide the understanding and competence to read and interpret the statistics reported in relevant research and to be able to conduct analyses on educational research data.

ED-D 561A Units: 1.5 Formerly: 561 Methods in Educational Research
An introduction to quantitative and qualitative research designs, the research process, the selection and design of data collection instruments and methods, writing and reporting findings, and systematically evaluating and critiquing the quality of research studies. Useful for students preparing to conduct thesis research as well as students who wish to become better readers and consumers of research.

Note: Credit will be granted for only one of 561A, 561.

ED-D 561B Units: 1.5 Research Methods in Leadership
Designed to prepare students in Leadership Studies to undertake independent, scholarly research so that they might fulfill the research requirements for the MEd degree in Leadership Studies. Students will become familiar with different lines of inquiry, appropriate methodologies, proposal preparation and the ethics involved in doing research.

Other graduate level research methods courses may be substituted with permission from the Graduate Adviser.

Note: Students must complete their 598 project within the two-term 3.0 unit allotment.

Prerequisites: Students must complete 7.5 units before registering in 561B.

Corequisites: Students must take 561B and 598 concurrently.

ED-D 562 Units: 1.5 Advanced Statistical Methods in Education
To advance understanding and competence in handling multivariate data - both the manipulation of data files for use within a statistical program, and the use of statistical programs for exploratory and inferential analyses such as regression, MANOVA and factor analysis.

Prerequisites: 560 or equivalent.

ED-D 563 Units: 1.5 Qualitative Research Methods
Introduction to various modes of qualitative inquiry; identification and examination of qualitative research methods in a variety of contexts and settings.

Note: Credit will be granted for only one of 563, 519B.

ED-D 564 Units: 1.5 Indigenous Research and Program Evaluation
Indigenous worldviews, approaches to research methodologies, practices and protocols are examined within the context of Indigenous community engagement. Specific topics include community partnerships, research ownership, research process, program evaluation, methods and outcomes. Ethics, reciprocity, and culturally respectful research will be explored.

Note: Restricted to students who have been admitted to the Indigenous Communities Counselling Program, or by permission of the Department.

ED-D 567 Units: 1.5 Case Study and Mixed Method Research
Designed to provide students with an understanding of case study method and mixed method research designs and experience in critically evaluating research that has been conducted using these methodologies. Topics include single case experimental designs, data collection techniques, article and human subject application preparation, reliability and validity considerations, data evaluation procedures, and the critical review of the application of the various designs discussed.

ED-D 568 Formerly: 566A Units: 1.5 Inclusive Education in the 21st Century
A consideration of historical perspectives and present trends in Special Education theory and practice. Topics considered include the context of special education, economic and legislative issues, families, classification and other assessment issues, teaching practices, social competency, early intervention, quality of life, and ethical and policy issues.

Note: Credit will be granted for only one of 568, 566A.

ED-D 569 Units: 1.5 Formerly: 566B Developmental Psychopathology and Disorders
Empirical and theoretical approaches to childhood disorders, including issues in their classification, etiology, developmental course, and presentation within the school setting. Emphasis will be placed on thinking about childhood disorders within both a developmental and school context. Assessment profiles and intervention strategies will be discussed.

Note: Credit will be granted for only one of 569, 566B.

ED-D 570 Units: 1.5 Instruction and Technologies to Promote Self-Regulated Learning and Strategy Use
An introduction to contemporary theory and research about self-regulated learning and learning strategies. Emphasis is placed on the application of theory and research to the design of computer based instructional tools and environments.

Notes:
- Students who complete this course may be eligible to apply for a lab instructor position for ED-D 101 (Learning Strategies for University Success).
- Credit will be granted for only one of 570, 591 (if taken in the same topic).

ED-D 571 Units: 1.5 Advanced Assistive Technology in the Inclusive Classroom
Focuses on the research and application of a range of assistive technologies, assessment frameworks, instructional approaches and strategies, and resources to support active student engagement and participation in inclusive classrooms.

Note: Credit will be granted for only one of 571, 591 (if taken in the same topic).

ED-D 590 Units: to be determined Directed Studies in Educational Psychology and Leadership Studies
These individual reading and study courses are designed by students in collaboration with an instructor to provide intensive study in an area of interest to the student.

Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units, but no more than 3 units from the same instructor except under exceptional circumstances.
ED-D 591 | Units: 1.5
---
**Selected Topics in Education**
The content of these courses varies depending upon student interests and faculty areas of expertise. Courses often focus on timely issues and topics in the field.

**Prerequisites:**
- ED-D 591A – Selected Topics in Learning and Development
- ED-D 591B – Selected Topics in Measurement and Evaluation
- ED-D 591C – Selected Topics in Special Education
- ED-D 591D – Selected Topics in Counselling
- ED-D 591E – Selected Topics in Leadership Studies

**Notes:**
- May be taken more than once for credit in different topics.

ED-D 597 | Units: 1.5
---
**Comprehensive Examination – Educational Psychology and Leadership Studies**
A required element of all MEd programs. Typically held within one month of completion of all course work. Examination format may be either written or oral, as decided upon by the program supervisor in consultation with the candidate. Areas of examination and examiners are established by each program area (counselling, educational psychology, special education, leadership studies).

**Grading:**
- INP, COM, N, F.

ED-D 598 | Units: to be determined
---
**Project - Educational Psychology and Leadership Studies**
Evidence of independent research work in the form of a project, extended paper(s), work report, etc., as determined within the department. Planned and carried out by a project supervisor.

**Grading:**
- INP, COM, N, F.

ED-D 599 | Units: 6.0
---
**Thesis - Educational Psychology and Leadership Studies**

**Grading:**
- INP, COM, N, F.

ED-D 600 | Units: 1.5
---
**Learning and Teaching in Higher Education**
Explores instructional research and contemporary practices in higher education. Topics include using effective teaching strategies, developing course curriculum, and exploring various instructional models and media. Content is guided by recent research in the psychology of learning and instruction.

**Notes:**
- This course is open only to students enrolled in the Graduate Certificate in Learning and Teaching in Higher Education (LATHE). Students who are not in the LATHE Program and wish to take a course in this area may consider ED-D 614.
- With permission of the Department, students who have taken ENGL 502 or WRIT 509 may obtain credit for ED-D 600.

ED-D 605 | Units: 3.0
---
**Educational Psychology: Apprenticeship in Teaching in Higher Education**
Explores research and rhetoric associated with numerous models of instruction found frequently in post-secondary contexts such as lecture, recitation, small-group discussion and on-line learning. As each instructional model is examined, students will practice supporting instructional skills and strategies.

**Notes:**
- Restricted to students in the Graduate Certificate in Learning and Teaching in Higher Education (LATHE).

Pre- or corequisites: EDCI 560 or ED-D 600

ED-D 610 | Units: 1.5
---
**Contemporary Issues in Higher Education**
Critically examines the problems and issues that dominate current thought and discussion in higher education in Canada and internationally. Topics considered will include globalization and internationalization, university governance, teaching and learning, the nature of academic work, corporatization of postsecondary institutions, credentialism, and relations between higher education and the state.

**Prerequisites:** Permission of the Department.

ED-D 614 | Units: 1.5
---
**University Teaching**
An extensive review of research and instructional practices at the post-secondary level. Topics include models of instruction, teaching strategies, course development principles, and assessment practices.

**Notes:**
- This course is open to all Graduate Students.

ED-D 615 | Units: 1.5 or 3.0
---
**Individual Apprenticeship in University Teaching**
Students undertake an individualized apprenticeship experience with a sponsoring faculty member. The broad aim of the apprenticeship is to offer students guided practice in university instruction.

**Notes:**
- May be taken more than once for credit with approval of the student’s supervisory committee.
- This course is available to Masters and Doctoral students.

**Grading:**
- INP, COM, N, F.

ED-D 617 | Units: to be determined
---
**Internship in Counselling Psychology**
Field work and advanced practical experience under supervision for doctoral candidates specializing in counselling psychology.

**Notes:**
- May be taken more than once for credit with approval of the student’s supervisory committee.

**Grading:**
- INP, COM, N, F.

ED-D 618 | Units: to be determined
---
**Doctoral Seminars in Counselling Psychology**
The doctoral seminars are organized around professional studies in counselling; counselling theory and techniques; group procedures and processes; areas of critical life choice; professional identification; ethics; and research in counselling. The seminars may be taken more than once for credit, providing the course content differs, by doctoral candidates upon approval of the student’s supervisory committee.

**Notes:**
- May be taken more than once for credit with approval of the student’s supervisory committee.

**Grading:**
- INP, COM, N, F.

ED-D 660 | Units: 3.0
---
**Doctoral Seminar in Contemporary Issues in Educational Psychology**
A seminar for doctoral students examining contemporary issues in educational psychology. Attention is also given to guidelines for scholarly and professional practice.

ED-D 661 | Units: to be determined
---
**Advanced Directed Studies in Educational Psychology**
These individual reading and study courses are designed by students in collaboration with an instructor to provide intensive study in an area of interest to the student.

**Notes:**
- May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units, but no more than 3 units from the same instructor except under exceptional circumstances.

ED-D 662 | Units: 1.5 or 3.0
---
**Advanced Special Topics in Educational Psychology**
The content of these courses varies depending upon student interests and faculty areas of expertise. Courses often focus on timely issues and topics in the field.

**Notes:**
- May be taken more than once for credit in different topics.

ED-D 690 | Units: to be determined
---
**PhD Candidacy Exam in Educational Psychology**
PhD students write candidacy examinations in research methodology and in their area of focus within educational psychology. The format will consist of two written papers followed by an oral examination. In the oral examination, the candidate will be examined in both research methodology and his/her area of focus. Normally, within thirty six months of registration as a PhD student, a student must pass the candidacy examination.

**Grading:**
- INP, COM, N, F.

ED-D 691 | Units: 3.0
---
**Doctoral Candidacy Exam in Educational Psychology**
An extensive review of research and instructional practices at the post-secondary level. Topics include models of instruction, teaching strategies, course development principles, and assessment practices.

**Notes:**
- This course is open to all Graduate Students.

**Grading:**
- INP, COM, N, F.

ED-D 693 | Units: 3.0
---
**Doctoral Candidacy Exam in Educational Psychology**
PhD students write candidacy examinations in research methodology and in their area of focus within educational psychology. The format will consist of two written papers followed by an oral examination. In the oral examination, the candidate will be examined in both research methodology and his/her area of focus. Normally, within thirty six months of registration as a provisional doctoral student and at least six months before the final oral examination, a student must pass the candidacy examination.

**Grading:**
- INP, COM, N, F.

ED-D 699 | Units: to be determined
---
**PhD Dissertation**

**Prerequisites:**
- 693

**Grading:**
- INP, COM, N, F.
EDCI 509  
**Units:** 1.5  
Formerly: ED-A 558A  
**Development and Implementation of the Curriculum in Art**  
Application of relevant theories and models to the design and development of school curricula in art.  
**Note:** Credit will be granted for only one of 509, ED-A 558A.

EDCI 510  
**Units:** 3.0  
**Hours:** 3-0  
Formerly: ED-A 570  
**Research Issues and Studio Development in Art**  
Review of contemporary art education research issues; development of a teaching creed and proposal; studio exploration linked to current instructional practice.  
**Note:** Credit will be granted for only one of 510, ED-A 570.

EDCI 511  
**Units:** 1.5  
**Hours:** 3-0  
Formerly: ED-A 571  
**Research in Drawing and Studio Development**  
Review of literature on the development of drawing; analysis of theory and current teaching practices; an investigation of ideas and approaches through actual engagement in drawing.  
**Note:** Credit will be granted for only one of 511, ED-A 571.

EDCI 512A  
**Units:** 1.5  
Formerly: half of 512  
**Digital Arts**  
An extensive exploration of digital studio processes focusing on visual expression, graphics, and fine art. Working in the digital studio, students will learn to generate creative ideas, collect resources, produce artwork, and integrate digital and traditional processes using industry-standard software packages. Emphasis on the production and teaching of digital arts for creative, educational and studio environments. No previous computer experience is required.  
**Note:** Credit will be granted for only one of 512 and 512A.

EDCI 512B  
**Units:** 1.5  
Formerly: half of 512  
**Digital Presentation**  
An extensive exploration of the tools and processes used in presenting studio media in digital formats. Students will learn how to organize existing studio materials, processes, ideas, and resources into dynamic presentation structures using still/motion visuals, text and audio. A strong focus will be given to the production formats required for final graduate presentations.  
**Note:** Credit will be granted for only one of 512 and 512B.

EDCI 513  
**Units:** 3.0  
**Community Art Education**  
Issues related to community art programs that play a role in sociocultural development and raising awareness about aesthetics.

EDCI 514  
**Units:** 1.5  
**Educational Discourses**  
An opportunity for engagement in the research community, advancing the development of student's own capacity for research, and a critical examination of contemporary literature on functional educational concepts, research issues and implications for curriculum and instruction.

EDCI 515  
**Units:** 1.5  
Formerly: ED-B 515  
**e-Research: Harnessing and Understanding Technology in Education**  
A blended multi-media/research course that focuses on relevant issues involved in using information and communication technologies (ICT) and the Internet for research purposes. In addition to developing some foundational skills, students will learn about methods, techniques, as well as ethical and practical issues.  
**Note:** Credit will be granted for only one of 515, ED-B 515.

EDCI 516  
**Units:** 1.5  
Formerly: 542B, 542, half of ED-B 542  
**Reading Processes in the School Curriculum: Methods and Materials**  
Examines and analyzes research on methods, strategies, and materials in the teaching and learning of reading which inform current classroom practice.  
**Note:** Credit will be granted for only one of 516, 542B, 542, ED-B 542.

EDCI 517  
**Units:** 1.5  
Formerly: 542A, 542, half of ED-B 542  
**Reading Processes in the School Curriculum: Research and Processes**  
Examines and analyzes research and models of reading, and the processes of reading and reading development.  
**Note:** Credit will be granted for only one of 517, 542A, 542, ED-B 542.

EDCI 518  
**Units:** 1.5  
Formerly: 540A, 540, half of ED-B 540  
**Research in Language and Literacy: Curriculum Development**  
A critical analysis of theories and research related to curriculum development and implementation in language and literacy.  
**Note:** Credit will be granted for only one of 518, 540A, 540, ED-B 540.

EDCI 519  
**Units:** 1.5  
Formerly: 540B, 540, half of ED-B 540  
**Research in Language and Literacy: Theory into Practice**  
Review of key theorists and landmark research that have informed instructional practices in language and literacy.  
**Note:** Credit will be granted for only one of 519, 540B, 540, ED-B 540.

EDCI 520  
**Units:** 1.5 or 3.0  
Formerly: ED-B 520  
**Seminar in Contemporary Educational Issues in Philosophical Perspective**  
A survey of issues selected from leading contemporary thinkers and how they relate to the basic values, purposes and problems of education.  
**Note:** Credit will be granted for only one of 520, ED-B 520.

EDCI 521  
**Units:** 1.5  
Formerly: 521A and 521B  
**Contemporary Educational Issues in Historical Perspective**  
Historical examination of significant educational writings, the social context in which they were written, and their influence on contemporary educational issues. Special emphasis is placed on writings that illuminate themes of educational change and that illustrate the relationship between the character of a society and the nature of its educational institutions.  
**Note:** Credit will be granted for only one of 521, 521A, 521B, ED-B 521A, ED-B 521B.

EDCI 522  
**Units:** 1.5  
Formerly: ED-B 522  
**Philosophy of Education Through Film and Other Media**  
An exploration through film of various issues in the Philosophy of Education and how they relate to current educational practices and policies. Some of the issues that may be explored include: the moral dimensions of teaching; ethical problems in education; epistemology and critical thinking; aims and goals of education in a pluralistic society.  
**Note:** Credit will be granted for only one of 522, ED-B 522.

EDCI 523  
**Units:** 1.5  
**Diverse Voices and Visions in Education**  
An examination of diverse educational and cultural perspectives in education and ways of knowing not usually encompassed in other courses. Students will explore how these diverse perspectives shape, challenge, and enrich established educational methodologies.

EDCI 525  
**Units:** 1.5  
**Planning for Effective Schools**  
Today's schools require effective team-based approaches to school accountability initiatives. Surveys the growing body of school effectiveness literature and assists school professionals to prepare and implement school effectiveness projects.

EDCI 531  
**Units:** 1.5  
Formerly: 531A and 531B  
**Critical Discourses in Curriculum Studies**  
An exploration of the implications of modern thought and social trends on current concepts and practices of curriculum in formal and informal educational settings. Invites students to reflect on their own educational concepts and practices and to imagine new possibilities.  
**Note:** Credit will be granted for only one of 531, 531A, 531B, ED-B 555A, 555B.

EDCI 532  
**Units:** 1.5  
**Emerging Trends and Topics in Curriculum Studies**  
An examination of recent publications, presentations and conference proceedings to identify and discuss emerging trends and topics in the field of curriculum studies.

EDCI 533  
**Units:** 1.5  
Formerly: ED-B 556 and ED-B 557  
**Theory and Practice in Curriculum Design and Change**  
Description of traditional and alternative approaches to curriculum planning and implementation in terms of origins, underlying assumptions, utility in various settings and effects. Invites students to identify and characterize their own approaches to curriculum planning and implementation.
EDCI 536 Units: 1.5
Formerly: 543, half of ED-B 543, 543A
Language Processes in the School Curriculum: Oracy
An examination of processes through which competence in listening and speaking is developed. Includes analysis of research, methods and materials relevant to oracy.
Note: Credit will be granted for only one of 536, 543A, 543, ED-B 543.

EDCI 541 Units: 3.0
Formerly: ED-B 541
Research in Curriculum and Instruction - Secondary English
Review of the literature; critical analysis of significant research; planning curriculum research at the secondary level.
Note: Credit will be granted for only one of 541, ED-B 541.

EDCI 544 Units: 3.0
Formerly: ED-B 544
Advanced Course in Remedial Reading
Theoretical and practical issues in the causation, diagnosis, and remediation of reading difficulties as encountered in the school setting. Seminar discussions will centre on the research literature relevant to reading difficulties; the practical component will involve students in working in a clinical setting with children with reading problems.
Note: Credit will be granted for only one of 544, ED-B 544.

EDCI 545 Units: 1.5
Formerly: ED-B 545
The Reading Curriculum in the Secondary School: Theory and Practice
Issues in the definition, development and function of secondary school developmental, corrective, and remedial reading programs. Considers the role of the reading consultant in program implementation.
Note: Credit will be granted for only one of 545, ED-B 545.

EDCI 546 Units: 1.5
Formerly: ED-B 546
Interpretation and Analysis of Language Arts Research
A critical review of research methodologies used in the general area of language arts. Consideration of the appropriateness of specific methodologies to research in classroom problems.
Note: Credit will be granted for only one of 546, ED-B 546.

EDCI 547 Units: 3.0
Formerly: ED-B 547
Issues in English Education in the Secondary Grades
The extensive critical examination of issues in the learning and teaching of English in the secondary grades.
Note: Credit will be granted for only one of 547, ED-B 547.

EDCI 548 Units: 1.5
Formerly: ED-B 558
Development and Implementation of the Curriculum
Application of relevant theories and models to the design and development of school curricula in a specific area.
548A - Language
548B - Reading
548C - English
Note: Credit will be granted for only one of 548A-C, ED-B 558.

EDCI 549 Units: 1.5
Gender and Pedagogy
Draws upon historical and contemporary perspectives to provide lenses for analyzing various research issues and concerns in relation to educational policy and classroom practice. Inclusion and transformation are critical elements of the concepts developed in this course. Issues of gender influencing educational policy and practices will be examined, including areas such as curriculum development, teaching strategies, selection of curricular materials, professional interactions, and selection of teaching specialty areas.
Note: Credit will be granted for only one of 549, 591 (if taken in the same topic).

EDCI 550 Units: 1.5
Formerly: ED-B 550
Seminar: Research in Early Childhood Education
Analysis, interpretation, and evaluation of selected research in early childhood education through study of its conceptual and methodological bases.
Note: Credit will be granted for only one of 550, ED-B 550.

Prerequisites: A minimum of 1.5 graduate level units in early childhood education or permission of the department.

EDCI 551 Units: 1.5
Formerly: ED-B 551
The Young Child in Today's Society
An exploration of topics related to young children (birth through age 9) and their education in the context of Canadian society. Addresses several major questions, including: Who are today's young children? What are the issues and challenges facing Canadian children and families? How can early childhood programs address these challenges?
Note: Credit will be granted for only one of 551, ED-B 551.

EDCI 552 Units: 1.5
Formerly: ED-B 552
Contemporary Trends in Early Childhood Education
An examination of program innovations and adaptations designed to make early childhood education relevant and responsive to the expectations, challenges and needs of today's children and families. Typical topics include early intervention and outreach programs; parent involvement; multiculturalism and anti-bias curricula; the impact of technology and media; professionalism and advocacy.
Note: Credit will be granted for only one of 552, ED-B 552.

EDCI 553 Units: 1.5
Formerly: ED-B 553
International Early Childhood Education: Comparing Commonalities and Differences
Different countries approach the issues in educating young children in a rich variety of ways. Examines, from a comparative perspective, common themes and recurrent issues affecting preschool, kindergarten, and primary-aged children in selected countries, with emphasis on the Pacific Rim.
Note: Credit will be granted for only one of 553, ED-B 553.

EDCI 554 Units: 1.5
Formerly: ED-B 549
Comparative Early Childhood Education: Curriculum, Context and Culture
Analysis and evaluation of approaches to curriculum, administration, and assessment in programs for preschool, kindergarten, and primary-aged children in cross-cultural contexts.
Note: Credit will be granted for only one of 554, ED-B 549.

EDCI 555 Units: 1.5
Formerly: ED-B 548
Program Development for Early Childhood
Current issues in planning, implementing, and evaluating early childhood programs for children 0-9 years. Topics will include examination of the implications of current conceptions of developmentally appropriate practice, child-centred and play-based curricula, and efforts at inclusion.
Note: Credit will be granted for only one of 555, ED-B 548.

EDCI 556 Units: 1.5
Formerly: 543B, 543, half of ED-B 543
Language Processes in the School Curriculum: Writing and Representing
An examination of processes through which skills and competence in composition are developed. Includes analysis and evaluation of research, methods and materials relevant to instruction in composition.
Note: Credit will be granted for only one of 556, 543B, 543, ED-B 543.

EDCI 558 Units: 1.5
Formerly: 558
Differentiated Instruction: Needs of Diverse Learners
Examines research and practice of differentiated instruction across the curriculum, with an emphasis on literacy at all levels. Investigates the philosophical and theory behind differentiated instruction and exemplary practices. Focuses on flexibility in how curriculum content, processes and representations of knowledge are designed within a differentiated model. Discussion of differentiated instructional models in relation to current trends in Canadian curriculum.
Note: Credit will be granted for only one of 558, 591 (if taken in the same topic).

EDCI 559 Units: 3.0
Formerly: ED-B 559
Adult Learning in the Organizational Setting
Assists individuals and organizations to conduct and utilize research in the design, development and delivery of educational programs and services for adult learners. Contributes directly to the preparation and writing of graduate theses and projects that reflect research questions in adult education.
Note: Credit will be granted for only one of 559, ED-B 559.
EDCI 565 Units: 1.5
Research and Practice of Learning Design
An in-depth look at the research and practice of learning design and its application to technology-enabled interactive learning environments. Students will critically examine theories and principles of learning design; explore how they can maximize the effectiveness, efficiency, and appeal of learning experiences for learners; and teach for understanding.

EDCI 566 Units: 1.5
EDUCoaching for Technology Integration
An exploration of principles and models of educational change through professional development coaching within the context of technology adoption theories. Students will actively coach or be coached during this course.

EDCI 567 Units: 1.5
Interactive and Multimedia Learning Theories
An in-depth analysis of theories and applications of multimedia learning in interactive learning environments. Students will explore the latest research, compare, and critique current practices and emerging technologies such as touch input devices, for creating rich educational experiences.

EDCI 568 Discourse on Social Media for Connected and Personalized Learning
Exploration of current research on communities of learning to situate discussion on connected practices for both personalized and professional learning. Critical discourse will focus on the balance of opportunities afforded by connected learning as well as issues such as cyber bullying, safety, and privacy in online environments.

EDCI 569 Units: 1.5
The Distributed, Blended and Open Classroom
An examination of current research and models of distributed learning and the theories that drive successful learning experiences in a variety of configurations such as online, blended, multi-access, and open learning.

EDCI 570 Formerly: ED-E 540 Units: 1.5
Research in Curriculum and Instruction in the Elementary Grades
Review of the critical issues; analysis of significant research on curriculum development at the elementary school level.

570A – Mathematics
570B – Science
570C – Social Studies
570D – Environmental Education
Note: Credit will be granted for only one of 570A-D, ED-E 540.

EDCI 571 Formerly: ED-E 541 Units: 1.5
Research in Curriculum and Instruction in the Secondary Grades
Review of the critical issues; analysis of significant research on curriculum development at the secondary level.

571A – Mathematics
571B – Science
571C – Social Studies
571D – Geography

EDCI 572 Formerly: ED-E 558 Units: 1.5
Development and Implementation of the Curriculum in a Specific Area
Application of relevant theories and models to the design and development of school curricula in a specified area.

572A – Mathematics
572B – Science
572C – Social Studies
572D – Geography
572E – History
572F – Environmental Education
Note: Credit will be granted for only one of 572A-F, ED-E 558.

EDCI 574 Formerly: ED-E 574 Units: 1.5
Environmental Education Perspectives
A multi-disciplinary approach to exploring goals for environmental and outdoor education; cultural differences in perceptions of community-environment relationships; the traditional ecological knowledge and wisdom of First Nations Peoples; current issues and trends; the research related to students' environmental knowledge, attitudes and values; teaching strategies; and assessment techniques. Selected field trips.

EDCI 575 Formerly: ED-E 546 Units: 1.5
Global Education
Explores critical global issues through the strands of environment, development, peace and human rights. Pedagogical concerns vary with student interests and include values education, teaching controversial issues, and dealing with children's despair about the future.

Note: Credit will be granted for only one of 574, ED-E 574.

EDCI 576 Formerly: ED-E 546 Units: 1.5
Ecology, Pedagogy, and Practice
Theoretical examination of discourses that may include: the Deep Ecology Movement, Systems Theory, Eco-justice, and Cognitive Science to identify and discuss key issues in a variety of disciplinary areas as these relate to pedagogy and practice.

Note: Credit will be granted for only one of 576, 591.

EDCI 577 Units: 1.5
Language in Learning Mathematics Technology and Science
The small but growing literacy research base in science, mathematics and social studies clearly indicates that language is both a means and an end to contemporary content literacy. Contemporary literacy comprises the abilities and habits of mind to construct understanding, the big ideas of the disciplines, and the communications to inform and persuade other people about these big ideas. Print-based language components of science literacy, numerical literacy and the reading-writing connections will be explored.

EDCI 578 Units: 1.5
Science, Technology, Society and the Environment: Implications for Teaching
An exploration of the nature and relationships between science, technology, environment and society towards helping learners find possibilities that ensure a continuing future for humankind. Topics include a critical examination of contemporary issues of science and technology; social responsibility and environmental stewardship; how science is experienced in the schools, and expanding the notions of technology and environment encouraging an interdisciplinary STSE approach in education.

EDCI 579 Formerly: ED-E 545 Units: 1.5
Knowing and Learning in Everyday Contexts
Designed to look into the nature of knowing and learning in school and everyday settings and from a variety of perspectives. These perspectives include traditional information processing, Heideggerian cognitive science and artificial intelligence, anthropology, cognitive anthropology, sociology of scientific knowledge, ethnomethodology, and historical and philosophical approaches to the study of human knowing and learning. Reflects recent developments in the understanding of knowing and learning in real-world (non-laboratory) settings.

Note: Credit will be granted for only one of 579, ED-E 545.

EDCI 580 Formerly: ED-B 580 Units: 1.5
Qualitative Research Methods
Provides a survey of a variety of qualitative methods, and opportunities for learners to develop competencies in research practices common to qualitative inquiry.

Note: Credit will be granted for only one of 580, ED-B 580.

EDCI 581 Units: 1.5
Research Methodologies in Education
An opportunity for students to become familiar with various approaches to research, especially relevant to their inquiries with special emphasis on the intellectual, social, and cultural contexts and ethics of research.

EDCI 582 Formerly: ED-B 582 Units: 1.5
Writing as Research
Writing as a mode of inquiry, with particular emphasis on the practice of writing. Includes all forms of interpretive inquiry, especially narrative, phenomenological, hermeneutic and autobiographical inquiry.

Note: Credit will be granted for only one of 582, ED-B 582.

EDCI 583 Units: 1.5
Researching with Aboriginal Peoples: Aboriginalizing Research
Research from a First Nations positioning. Aboriginal methodologies, practices and protocols are discussed to illustrate the importance to Aboriginal Peoples and their communities of having control over every aspect of research projects involving them. Students are encouraged to reflect on their own research projects so that their work is ethical, reciprocal and culturally respectful.

EDCI 584 Units: 1.5
Analysis of Quantitative and Mixed Methods Research
An introduction to the understanding, critical analysis, and evaluation of the theoretical and practical issues
related to published quantitative or mixed methods research in the field of education.

EDCI 590 Units: to be determined
Formerly: ED-A, ED-B and ED-E 590
Directed Study - Curriculum and Instruction
Note: May be taken more than once for credit in different topics. The student must obtain consent of the chair of his or her supervisory committee and the instructor offering the area of individual study prior to registering in this course. Pro Forma is required for registration.

EDCI 591 Units: 1.5 or 3.0
Formerly: ED-A, ED-B and ED-E 591
Selected Topics in Curriculum and Instruction
A variable content course. Normally restricted to course offerings and not individual study.
Note: May be taken more than once for credit in different topics.

EDCI 597 Units: 1.5
Formerly: ED-A, ED-B and ED-E 597
Comprehensive Examination
A written and/or oral comprehensive examination, which must be passed as required for individual Master of Education programs.
Note: Credit will be granted for only one of 597, ED-A 597, ED-B 597, ED-E 597.
Grading: INP, COM, N, F.

EDCI 598 Units: 3.0
Formerly: ED-A, ED-B and ED-E 598
Project - Curriculum and Instruction
Grading: INP, COM, N, F.

EDCI 598A Units: 1.5
Project Proposal and Literature Review
Encourages discussion of alternate approaches to project topics as well as examine the components of a project proposal, especially the features of an effective literature review. The proposal and literature review for the MEd project must be accepted by the SBA course instructor and the student's program supervisor.
Note: Students who do not complete the course requirements may register a second time for the course. Incomplete course requirements in the second term will result in withdrawal from the program. There are appeal procedures for extinguishing circumstances.
Prerequisites: Open only to students admitted into selected Community-based Master's of Education Programs.
Grading: COM, INP, N, F.

EDCI 598B Units: 1.5
Project
The project proposal approved in 598A is to be completed and will include the approved literature review, an analytic and professional reflection on the contributions of the project. A project may be presented in any appropriate form – prose, performance, multimedia, or exhibition for example – but must include a written submission of moderate length. The successful completion of the project requires the approval of the course instructor and the student’s program supervisor.
Note: Students who do not complete the course requirements may register a second time for the course. Incomplete course requirements in the second term will result in withdrawal from the program. There are appeal procedures for extinguishing circumstances.
Prerequisites: 598A or suitable equivalent. Open only to students admitted into selected Community-based Master's of Education Programs.
Grading: COM, INP, N, F.

EDCI 599 Units: 7.5
Formerly: ED-A, ED-B and ED-E 599
Thesis - Curriculum and Instruction
Grading: INP, COM, N, F.

EDCI 601 Units: 1.5
Interdisciplinary Doctoral Seminar
The purpose of Doctoral Seminar is to create a community of scholars in which faculty and graduate students share and support each other's current research projects.
Note: May be taken more than once for credit, to a maximum of 6 units.
Prerequisites: Enrolment in a doctoral program.

EDCI 602 Units: 1.5
Doctoral Seminar in Arts Education
Philosophical and sociological examinations of contemporary issues in arts education.

EDCI 603 Units: 1.5
Doctoral Seminar in Curriculum Studies
The purpose of this seminar is to immerse students in a variety of discourses found in the field of Curriculum Studies, such as political, cultural, feminist, post structural, historical, spiritual, philosophical, and aesthetic discourses, with attention to their constitutive effects. Topics may include issues of social justice and eco justice, multiple ways of knowing, expanded notions of technology, social relations of cultural reproduction in education, among others.

EDCI 614 Units: 1.5
Formerly: 600
Discourses in Educational Studies
An opportunity for engagement in the research community, advancing the development of student's own capacity for research, and a critical examination of contemporary literature on functional educational concepts, research issues and implications for curriculum and instruction.
Note: Credit will be granted for only one of 614, 600.

EDCI 616 Units: 1.5
Formerly: 642B, 642, half of ED-B 642
Advanced Reading Processes: Methods and Materials
Examines and analyzes research on methods, strategies and materials in the teaching and learning of reading which inform current classroom practice.
Note: Credit will be granted for only one of 616, 642B, 642, ED-B 642.

EDCI 617 Units: 1.5
Formerly: 642A 642, half of ED-B 642
Advanced Reading Processes: Research and Process
Examines and analyzes research and models of reading, and the processes of reading and reading development.
Note: Credit will be granted for only one of 642A, 642, ED-B 642.
Prerequisites: 542; ED-B 542 or suitable equivalent.

EDCI 632 Units: 1.5
Critique of Emerging Trends and Topics in Curriculum Studies
A critical and theoretical critique of emerging trends and topics in the field of curriculum studies as they appear in recent publications, presentations, and conference proceedings.
Note: Credit will be granted for only one of 632, 532.

EDCI 633 Units: 1.5
Critical Discourses in Curriculum Design and Change
Identification, analysis and critique of current discourses of curriculum development, implementation, and change found in educational practice and in theoretical literature.
Note: Credit will be granted for only one of 633, 533.

EDCI 636 Units: 1.5
Formerly: 643A, 643, half of ED-B 643
Advanced Language Processes: Oracy
An examination of processes through which competence is developed in listening and speaking. Course will include analysis of research, methods and materials relevant to oracy.
Note: Credit will be granted for only one of 636, 643A, 643, ED-B 643.

EDCI 644 Units: 3.0
Formerly: ED-B 644
Research Foundations for Remedial Reading
Critical review and analysis of research in diagnosis, correction and remediation of reading difficulties; criteria for appraising research findings; educational implications.
Note: Credit will be granted for only one of 644, ED-B 644.

EDCI 647 Units: 3.0
Formerly: ED-B 647
Advanced Course in Secondary English Education
Advanced study of the processes of learning English language and literature in the secondary grades.
Note: Credit will be granted for only one of 647, ED-B 647.

EDCI 649 Units: 1.5
Formerly: ED-B 649
Doctoral Seminar in Language and Literacy
A seminar at the doctoral level to consider special problems in education and educational research. Seminars are organized around educational theory and practice in Language and Literacy.
Note: Credit will be granted for only one of 649, ED-B 649.

EDCI 650 Units: 1.5
Doctoral Seminar in Early Childhood Education
Doctoral seminar to consider analysis, interpretation, and evaluation of selected research in early childhood education; study of conceptual and methodological bases.

EDCI 656 Units: 1.5
Formerly: 643B, 643, half of ED-B 643
Advanced Language Processes: Writing and Representing
An examination of processes through which representational skills and competence in writing are developed. Course will include analysis of research, methods and materials relevant to instruction in composition.
Note: Credit will be granted for only one of 656, 643B, 643, ED-B 643.

EDCI 672 Units: 1.5
History and Philosophy of Math, Science, Educational Technology
Selected moments in the history of science, mathematics and technology, and aspects of the writings of philosophers such as Bacon, Pascal, Descartes,
ELEC 673  Information and Communication Technologies in Environmental Education, Mathematics, and Science Instruction
Explains the changes in information and communication technologies (ICT) that have been made on learning and instruction in environmental, mathematics, and science education. Theoretical, classroom instruction, and research implications will be considered.

ELEC 681  Advanced Research Design
Explores research methodologies appropriate to specific research problems, questions, and contexts. An examination of the purposes of research, the role of literature review, educational theories, and design of a research question considering the relationship between question and research method.

Prerequisites:
Master's level research methods course or by permission of the department.

ELEC 690  Directed Studies - Curriculum and Instruction
Under the direction of program supervisors, topics in the area of research interests of doctoral students will be examined, leading to the development of background material for a PhD dissertation.

Note:
May be taken more than once for credit in different topics. Pro Forma is required for registration.

Prerequisites:
Appropriate prerequisites to be determined in specific instances.

ELEC 691  Selected Topics in Curriculum and Instruction
Issues pertaining to students' research interests and faculty expertise will be examined.

Note:
May be taken more than once for credit in different topics. Pro Forma is required for registration.

Prerequisites:
Appropriate prerequisites to be determined in specific instances.

ELEC 693  Candidacy Examination - Curriculum and Instruction
Candidacy Examinations which must be passed as required for individual Doctor of Philosophy Programs within the Faculty of Education. Exams will be reviewed and graded by all members of the individual's Doctoral Committee.

Grading:
INP, COM, N, F.

ELEC 699  PhD Dissertation - Curriculum and Instruction

Formerly: ED-B 699

Prerequisites: EDCI 693.

Grading:
INP, COM, N, F.

ELEC 501  Linear Systems

Prerequisites:
EDCI 673 (if taken in the same topic).

Units: 1.5

Note:
Credit will be granted for only one of 503, 403.

ELEC 503  Engineering Design by Optimization I
The steepest descent and Newton methods for unconstrained optimization. Golden section, quadratic, cubic and inexact line searches. Conjugate and Quasi-Newton methods. The Fletcher-Reeves algorithm. Application to the design of circuits, control systems, filters, and mechanical systems using optimization techniques. Introduction to constrained optimization. Students are required to complete one project that applies some of the optimization techniques to be studied in the course to an engineering analysis or design problem.

Note:
Credit will be granted for only one of 503, 403.

Units: 1.5

ELEC 504  Random Signals
Review of random variables, moments and characteristic functions; random processes, noise models, stationarity, ergodicity, correlation and power spectrum, spectrum measurements; response of linear systems to random inputs, cross-spectral densities, narrow band noise; introduction to discrete time and space processes. Students are required to complete a project.

Note:
Credit will be granted for only one of 504, 400.

Units: 1.5

ELEC 509  Seminar
Expose Master's students to different areas of research through seminar participation and provide a forum for the presentation of graduate student research. Required for all Master's students every year of their program as an addition to the normal program except by departmental permission. One unit of credit shall be given upon completion.

Grading:
INP, COM, N.

ELEC 511  Error Control Coding
The channel coding problem; coding approaches and characteristics; linear block codes; bounds on codes; finite fields; cyclic, BCH and Reed-Solomon codes; convolutional codes and the Viterbi algorithm; error control in data storage and transmission systems. Students are required to complete a project.

Note:
Credit will be granted for only one of 405, 511.

Units: 1.5

ELEC 512  Digital Communications
Source and channel descriptions. Source digitization, entropy and the rate distortion tradeoff, lossless source codes (Huffman and run length codes), optimal and adaptive quantization. Digital modulation techniques, optimal coherent receivers, performance evaluation, the incoherent case. Special topics - case studies, fiber optics, satellite systems, mobile radio systems.

Note:
Credit will be granted for only one of 512, 450.

Units: 1.5

ELEC 513  Data and Computer Communications

Units: 1.5

ELEC 514  Design and Analysis of Computer Communication Networks
Markov chains and techniques for studying their transient and steady-state behaviour. Queuing theory and discrete time queues. Queuing models for media access, error control and traffic management protocols. Quality of service. Modelling of traffic and interarrival time. Self similar distributions and traffic. Analysis and design of switching fabrics. Switch design alternatives and performance modelling. Simulation of networks. Students are required to complete a project.

Note:
Credit will be granted for only one of 514, CENG 461.

Units: 1.5

ELEC 515  Information Theory
Information theory and its relationship to probability, statistics, and data compression; entropy, relative entropy and mutual information; Huffman coding, arithmetic coding and Lempel-Ziv coding; channel capacity; group codes; generator and parity check matrices; Hamming codes and bound; bounds on the dimension of a linear code; random coding bounds; code construction.

Units: 1.5

ELEC 516  Advanced Wireless Communications
Statistical fading channel models, digital communications over fading channels, diversity techniques for fading mitigation, channel adaptive transmission, multicarrier modulation/OFDM, spread spectrum techniques/CDMA, MIMO systems and space-time coding.

Note:
Credit will be granted for only one of 516 and selected topics courses in the same subject.

Prerequisites:
504 or equivalent.

Units: 1.5

ELEC 517  Software Defined Radio
Software defined radio architectures. Receiver design: radio frequency, digital signal processing, software. Application to analog and digital communications, cognitive radio, dynamic spectrum access, implementation of software radio algorithms using GNU Radio, Simulink and other platforms.

Note:
Credit will be granted for only one of 517, 539A (if taken in the same topic).

Units: 1.5

ELEC 519A  Selected Topics in Digital Communications
Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

Units: 1.5

ELEC 519B  Selected Topics in Computer Communications
Note: Variable content course. May be taken more

Units: 1.5
ELEC 519C  Units: 1.5
Formerly: 619C
Selected Topics in Secure Communications

Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

ELEC 521  Units: 1.5
Microwave and Millimeter Wave Engineering

ELEC 522  Units: 1.5
Antennas and Propagation

Antenna and propagation fundamentals. Friis transmission formula, radar equation, Maxwell's equations for radiation problems, antenna parameters, simple radiators, array theory, mutual coupling, wire and broad-band antennas, aperture radiators, scattering and diffraction, multipath propagation and fading, antenna measurement techniques, surface-wave and ionospheric propagation, microwave and millimeter wave propagation. Students are required to complete a project.

Note: Credit will be granted for only one of 522, 453.

ELEC 524  Units: 1.5
Formerly: 624
Theory and Design of Waveguide Components

Modern integrated waveguide technologies, numerical analysis aspects and design strategies; mode-matching techniques; commonly used waveguides; transformers and transformer prototypes; phase shifters; power dividers; directional couplers; waveguide filters; multiplexers; polarizers; orthomode transducers; mode converters; angle diversity systems.

Note: Credit will be granted for only one of 524, 624.

ELEC 525  Units: 1.5
Advanced Photonics

Methods to understand optical devices. Following a basic review of electromagnetics, methods for analyzing photonic devices will be provided. Among other applications, these methods will be applied to the analysis of sensors (surface plasmon resonance), high-reflectivity and anti-reflection coatings, Bragg gratings, and semiconductor lasers.

Note: Credit will be granted for only one of 526, 623.

ELEC 526  Units: 1.5
Advanced Optical Systems

Overview of the basic technologies and system design principles for modern optical communications. Component fundamentals, including optical fiber, lasers, transmitters, photodetectors, receivers, passive components, optical amplifiers. Optical modulation, demodulation, wavelength multiplexing techniques. Applications to wide-area and access networks, microwave photonics. System impairments related to noise, fiber dispersion, nonlinearity. Students work in groups to design a national-scale broadband system, combining primary course elements and commercial software.

Note: Credit will be granted for only one of 526, 623.

ELEC 529A  Units: 1.5
Formerly: 629
Selected Topics in Microwaves, Millimeter Waves and Optical Engineering

Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

ELEC 531  Units: 1.5
Digital Filters I

Note: Credit will be granted for only one of 531, 407, 458.

ELEC 532  Units: 1.5
Multidimensional Digital Signal Processing

Note: Students in this course are required to complete a project.

ELEC 534  Units: 1.5
Applications of Digital Signal Processing Techniques

Note: Credit will be granted for only one of 534, 459.

ELEC 535  Units: 1.5
Data Analysis and Pattern Recognition

Statistical data analysis and random processes, ergodicity and stationarity, Bayesian decisions procedures, feature extraction and selection, parametric and non-parametric pattern classification and clustering techniques. Applications to big data, data science, and computer security problems. Students are required to complete a project.

Note: Credit will be granted for only one of 535, 485.

ELEC 536  Units: 1.5
Computer Vision

Overview of the main concepts and methods in computer vision: geometry and physics of imaging, as related to image formation and image acquisition; low-level methods of image analysis, such as filtering, edge detection, feature detection, and segmentation; methods for extracting and representing three-dimensional scene information; motion analysis and algorithms for video understanding. Students are required to complete a project.

Note: Credit will be granted for only one of 536, CENG 421.

ELEC 539A  Units: 1.5
Formerly: 639A
Selected Topics in Digital Signal Processing

Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

ELEC 539B  Units: 1.5
Formerly: 639B
Selected Topics in Image Processing

Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

ELEC 539C  Units: 1.5
Formerly: 679
Selected Topics in Underwater Acoustic Systems

Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

ELEC 542  Units: 1.5
Analog Integrated Circuit Design

Review of IC technology, device models and feedback. Design of monolithic op amp, regulators, multipliers, oscillators, phase-locked loops and other nonlinear circuits. Study and design of filter circuits, switched-capacitor circuits, CCD and other sampled-data circuits. System applications of analog-digital LSI.

ELEC 543  Units: 1.5
Design of Digital and VLSI Systems

Advanced combinational and sequential logic design. Optimization of finite state machines; timing methodologies and synchronization issues. Hardware description languages (HDL): structural and behavioural descriptions, simulations and testbenches, coding styles, design with HDL and FPGA implementation. Design for test: testing concepts, scan-based design and built-in self-test (BIST). Design for high speed: timing analysis, pipelining and retiming. Design for low power: sources of power dissipation, design transformations. Students will be required to complete a project.

Note: Credit will be granted for only one of 543, CENG 441.

ELEC 544  Units: 1.5
Analog VLSI and Neural Systems

ELEC 545  Units: 1.5
Nanotechnology

Nanometer scale devices and materials. Techniques and tools of nanoscale tool fabrication and characterization. Properties of low-dimensional materials. Semiconductors or nanostructures, metallic nanoparticles, carbon nanotubes, organic molecules, quantum dots. Applications including nanoelectronics and molecular devices, biotechnology, nanoscale computation, nanomechanical devices and nanophotonics. Students are required to complete a project.

Note: Credit will be granted for only one of 545, 420.
ELEC 546  Units: 1.5  Formerly: 642  
Mapping DSP Algorithms onto Processor Arrays

Note: Credit will be granted for only one of 546, 642.

ELEC 547  Units: 1.5  
Electronic Devices
Study of the operation of bipolar and field-effect devices in VLSI design. Study of photonic and opto-electronic devices used in transmission, modulation, demodulation and receivers. Principles, construction and design of lasers and their applications. Study of display devices, thin-film devices, imaging devices, transducers and micromachines and their interfacing. Sensor arrays and related system design. Students are required to complete a project.

Note: Credit will be granted for only one of 547, 412.

ELEC 548  Units: 1.5  
Hardware Security
Introduction to abstract algebra and finite field arithmetic. Hardware attacks and mitigation techniques. Hardware trojans and hardware trojan detection techniques. Trusted design in FPGAs. Security in embedded systems. Design for hardware trust. Security and testing. Students will be required to complete a project.

Note: Credit will be granted for only one of 548, CENG 448.

ELEC 549A  Units: 1.5  Formerly: 688  
Selected Topics in Electronics
Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

ELEC 549B  Units: 1.5  Formerly: 649B  
Selected Topics in VLSI Design
Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

ELEC 551  Units: 1.5  Formerly: 631  
Digital Filters II

Note: Credit will be granted for only one of 551, 631. Prerequisites: 407 or 531 or equivalent.

ELEC 553  Units: 1.5  
Introduction to Parallel and Cluster Computing
Overview of massively parallel and cluster computers. Processing models (shared memory versus message passing). Processes and threads. Standard algorithms utilizing parallelism. Matrix and vector operations. N-body problems, collective communications. Parallel application environments MPI and OpenMP. Includes significant exposure to parallel applications including developing and coding of sample parallel codes. Students are required to complete a project.

Note: Credit will be granted for only one of 553, CENG 453.

ELEC 559A  Units: 1.5  Formerly: 659A  
Selected Topics in Robotics
Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

ELEC 559B  Units: 1.5  Formerly: 659B  
Selected Topics in Automatic Control
Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

ELEC 562  Units: 1.5  Formerly: 661  
Introduction to Parallel Computer Systems

Note: Credit will be granted for only one of 562, 661.

ELEC 564  Units: 1.5  
Neural Networks and Their Implementation
Biological inspiration, historical background, learning in neural nets (backpropagation, hebian, etc.), single- and multi-layer networks, associative memories, classification and clustering models, recurrent networks. Neural network technology, implementation software and hardware technologies, algorithm definitions, computational requirements, solution methods, parallel processing hardware. VLSI and optical implementations of neural networks.

ELEC 565  Units: 1.5  
Digital Integrated Circuits
Silicon logic: logic design with MOSFET, CMOS, and BiCMOS; physical structure, physical design, fabrication. Logic-electronic interface: characteristics of MOSFET, CMOS analysis and design. VLSI design: CAD tools, system components, arithmetic circuits, memory and programmable logic, system-level physical design, clocking and testing. Students are required to complete a project.

Note: Credit will be granted for only one of 565, CENG 442.

ELEC 566  Units: 1.5  
Computer Networks and Distributed Systems
Current topics in data switching and computer networking including asynchronous transfer mode (ATM), broadband integrated services digital network (B-ISDN), narrowband ISDN (N-ISDN) and the Internet. Data flow systems, switching techniques, frame relay and switched multi-megabit data service (SMDS). Applications to multimedia. Very large scale integration implementation.

Note: Credit will be granted for only one of 566, CSC 551.

ELEC 567  Units: 1.5  
Advanced Network Security
Presents, from a practical perspective, underlying principles and techniques of network security. Students will be exposed to ethical hacking, and penetration testing. Various protection methods, used in practice to detect and respond to malicious network attacks, will be presented. Students will also learn how to implement successful security policies and defense mechanisms and strategies, with a particular focus on firewalls, intrusion detection and response, virtual private networks, and biometrics technologies.

ELEC 568  Units: 1.5  Hours: 3-1.5  
System-on-Chip Engineering for Signal Processing
Design and System-on-Chip (SOC) implementation for signal processing applications. SOC design and testing methodologies, Platform-based design, Intellectual Property (IP) reuse, and built-in self-test. Controlling power consumption in SOC implementations. SOC multi-technology integration of analog and digital electronics, sensors and MEMS. Students are required to complete a project.

Note: Credit will be granted for only one of 568, 468.

ELEC 569A  Units: 1.5  Formerly: 669
Selected Topics in Computer Engineering
Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.

ELEC 570  Units: 1.5  
Computer Forensics Methodologies
Digital forensics notions and techniques used in the investigation of cybercrimes. Legal awareness of computer security and forensics, evidentiary process techniques, computer forensics methodologies with an emphasis on computer incident response and Information Technology (IT) systems' protection. Ethics, rules of evidence, effective communications, search and seizure relative to privacy legislation, threats, how they can be detected, and controls to reduce the likelihood of their occurrence.

Prerequisites: 567.

ELEC 571  Units: 1.5  
Underwater Acoustic Systems

ELEC 572  Units: 1.5  
Security, Privacy, and Data Analytics
Explores the underlying theoretical foundations of information security and privacy issues from an engineering perspective. Applications of information-theoretic concepts, techniques, and methods to the problem of quantifying achieved levels of security and privacy in larger-scale systems in the presence of adversaries.

Students are required to complete a project.

Prerequisites: 567.
ELEC 573 Units: 1.5
Formerly: 603
Engineering Design by Optimization II
Note: Credit will be granted for only one of 573, 603.
Prerequisites: 403 or 503 or equivalent.

ELEC 574 Units: 1.5
Practice of Information Security and Privacy
Aims to present a holistic view of various security engineering topics through practical case studies. Topics include enterprise security architecture, security threat and risk assessment, education and awareness, monitoring, investigation and forensics, application security, media handling and intellectual property, privacy, physical and environmental security, and business continuity planning. Also introduces information security-related certification and relevant professional associations. Students are required to complete a project.
Note: Credit will be granted for only one of ELEC 574, SENG 460.

ELEC 581 Units: 1.5
Power Electronics
Characteristics of power semiconductor switching devices, e.g., silicon controlled rectifiers, bipolar and MOS power transistors, insulated gate bipolar transistors, gate-turn-off thyristors. Basic principles of phase-controlled converters, dc to dc choppers, dc to ac inverters (square wave and pulse width modulated), switching power supplies, resonant converters. Applications to communication and computer power supplies, electric drives, induction heating, etc.

ELEC 583 Units: 1.5
Digital Video Processing
Note: Credit will be granted for only one of 583, 483.

ELEC 584 Units: 1.5
Dynamics and Control of Switched Mode Power Supplies
Introduction to switch mode power supplies. Detailed analysis of nonlinear isolated converters (Buck, Boost, Buck-boost, Cuk, etc) and isolated converters (Flyback, Forward, Push-pull, Half bridge, Full bridge, Current Source converters, etc). State space averaging technique to model converters. Design of multi-loop controllers (inner current loop and outer voltage loop). Introduction to PWM switch model as an alternative to state space averaging technique. Students will need to complete a project.
Note: Credit will be granted for only one of 584, 461, 689 if taken in the same topic.

ELEC 585 Units: 1.5
Motor Drive Dynamics
Note: Credit will be granted for only one of 585, 462, 689 if taken in the same topic.

ELEC 586 Units: 1.5
Multiresolution Signal and Geometry Processing With C++
Multirate signal processing, upsampling, downsampling, sampling rate conversion, polyphase techniques, multirate filter banks, multiresolution signal representations, wavelets, digital geometry processing, polygon meshes, subdivision surfaces/wavelets, efficient multiresolution signal processing. Applications in data compression, computer graphics/animation, geometric modeling, communications, and signal processing. C++ programming language, libraries such as OpenGL and CGAL. Students are required to complete a project.
Note: Credit will be granted for only one of 586, 486.

ELEC 589A Units: 1.5
Formerly: 689
Selected Topics in Power Electronics
Note: Variable content course. May be taken more than once for credit in different topics to a maximum of 3 units.
Prerequisites: Permission of the instructor.

ELEC 590 Units: 1.5
Directed Study
A wide range of topics will be available for assignments. Topics will be restricted to recent advances. MSc and ME students can take two Directed Study courses for credit as part of their program. PhD students can take one Directed Study course for credit when four courses are required for their program and three Directed Study courses when ten courses are required for their program.
Note: Pro Forma is required for registration. May be taken more than once for credit in different topics.

ELEC 591 Units: 0.5
Professional Practice
Note: This course will be offered by the Engineering, Computer Science/Math Co-op and Career Services.
Prerequisites: Open only to students in the MTIS program.

ELEC 592 Units: 1.0
Career Development
Introduction of professional standards and ethics for engineers. Presentation of conflict resolution strategies and development of critical thinking. Development of presentation and technical writing skills.

ELEC 597 Units: 0
MEng (Mechatronics and Embedded Systems Option) Project
Presentation and defense of the MEng (Mechatronics and Embedded Systems Option) Project.
Prerequisites: ENGR 466.
Grading: INP, COM, N, F.

ELEC 598 Units: 2.0
MEng Project
Grading: INP, COM, N, F.

ELEC 599 Units: 1.5
MASc Thesis
Grading: INP, COM, N, F.

ELEC 609 Units: 1.0
Seminar
Expose PhD students to different areas of research through seminar participation and provide a forum for the presentation of graduate student research. Required for all Doctoral students every year of their program as an addition to the normal program except by departmental permission. One unit of credit shall be given upon completion.
Grading: INP, COM, N, F.

ELEC 621 Units: 1.5
Numerical Techniques in Electromagnetics
Prerequisites: One of 521, 522, 524, 525 or equivalent.

ELEC 632 Units: 1.5
Adaptive Filters
Applications overview. Echo cancellation, noise cancellation, equalization, speech coding, and spectral estimation using Transversal and Lattice filters. Minimum mean square error, gradient algorithm, block and recursive least squares.

ELEC 633 Units: 1.5
Optimal Estimation
Prerequisites: 504 or equivalent.

ELEC 693 Units: 3.0
PhD Candidacy Examination
The PhD Candidacy Examination consists of an oral examination. This examination shall be taken and passed not later than three years from initial PhD registration. Required of all PhD students every term of their program until the oral examination is passed.
Note: 693 is a corequisite: all registrations in 699 must...

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 500</td>
<td>Textual Studies and Methods of Research</td>
<td>1.5</td>
<td>Advanced training in research skills, textual studies, disciplinary issues, and professional life. Covers bibliography (analytical, descriptive, and enumerative), methods of research, appropriate forms of citation and documentation, and the dissemination of research. Credit will be granted for only one of 507, 590 if passed. Grading: INP, COM, N, F.</td>
</tr>
<tr>
<td>ENGL 502</td>
<td>Teaching Literature and Composition</td>
<td>1.5</td>
<td>A preparation for teaching English literature and composition at universities and colleges. Includes: 1) a seminar and 2) a practicum in which students acquire practical experience in classrooms both at the University of Victoria and Camosun College. Covers a range of theoretical issues relating to teaching and learning as cultural activities such as: class, race and gender in the classroom; the politics, power dynamics and ethics of pedagogy; the influence of theory on pedagogical practice. Note: Compulsory for all graduate students, except those who can show equivalent previous credit. Grading: INP, COM, N, F.</td>

</tr>
<tr>
<td>ENGL 582</td>
<td>Core Seminar in Literatures of the West Coast</td>
<td>1.5</td>
<td>An introduction to interdisciplinary study in the literatures of the West Coast. Primary areas of investigation include: Borders and Regions; Historiographies; Pacific Diasporas, Migrations, and Nations; Identity and Place. Compulsory for students in the Literatures of the West Coast Concentration.</td>
</tr>
<tr>
<td>ENGL 583</td>
<td>Studies in Literatures of the West Coast</td>
<td>1.5</td>
<td>A variable content course focusing on topics in the Literatures of the West Coast.</td>
</tr>
<tr>
<td>ENGL 584</td>
<td>583A - (1.5) BC Literature</td>
<td>1.5</td>
<td>A survey of important BC writers from the early 20th century to the present. Regionalism; the environment, travel and nature writing; representation of First Nations in literature; Vancouver and modernism in Canada; radical politics and literary experimentation. Authors may include Carr, Grainger, and Haig-Brown; the modernists Wilson, Watson, and Lowry; self-conscious regionalists such as Jack Hodgins; and postmodernists Marilyn, Bowering and Lat. Poetry selections may include Birney, Livesay, Bowering, Wah.</td>
</tr>
<tr>
<td>ENGL 585</td>
<td>583B - (1.5) The West Coast Line by Line</td>
<td>1.5</td>
<td>Contemporary poetry and construction of the West Coast. Analysis of individual poems in relation to broader theoretical questions related to the relationship between text and place. Markers of place in poetry and their relationship to markers of place in fiction and Barth’s “reality effect.”</td>
</tr>
<tr>
<td>ENGL 586</td>
<td>583C - (1.5) The Tish group</td>
<td>1.5</td>
<td>The works and influence of George Bowering, Fred Wah, Pauline Butting, Daphne Marlatt, and Frank Davey, along with their students and followers, poets associated with “Tish” magazine in the 1960s. The Tish group’s rejection of the tradition of Canadian writing in favour of their focus on locality, iconoclastic politics, and exuberant formal experimentation. Their influence as academics and publishers as well as writers.</td>
</tr>
<tr>
<td>ENGL 587</td>
<td>583D - (1.5) Life and Death in BC: Animals and Hunting in West Coast Literatures</td>
<td>1.5</td>
<td>The representation of animals and hunting in literary works, films, environmental discourses and law. The boundary between animal and human species; animal rights; the construction of animal subjectivity historically considered; its purposes; the role of hunting in the construction of masculinity, humanity, and aboriginality; the history of laws governing hunting, discussed in relation to major literary and artistic texts in West Coast culture.</td>
</tr>
<tr>
<td>ENGL 588</td>
<td>583E - (1.5) Indigenous Laws and Literatures of the West Coast</td>
<td>1.5</td>
<td>Indigenous literature and life writing in relation to historical and legal texts. Consideration of the issues of indigenous difference/sameness, equality/inequality explored by examining the concern for historical and social differences between Native and non-Native communities in British Columbia in relation to questions of place and identity.</td>
</tr>
</tbody>
</table>
| ENGL 589   | 583F - (1.5) Forest Fetish: Reading the Nature of the West Coast | 1.5 | Literary, cultural, and material politics of West Coast nature, with an emphasis on the fetishistic currency of “the forest.” Hegemonic and counter-hegemonic representations of Pacific Northwest forests as “totemic,” “untouched,” “vanishing,” or “diseased.” Pitfalls of environmental essentialism. Efforts of writers, theorists, and artists to inscribe material histories of race, gender, and labour back into images of West Coast nature, including Eden Robinson, Brian Jungen, Jin-me Yoon, Barry
583G – (1.5) Poetry Nature Knowledge Gender
Contemporary west-coast poets such as Robert Bringhurst, Kenneth Rexroth, and Gary Snyder, whose work attempts to extend the capacities of poetry as a mode of perceiving, knowing, and being in the natural (non-human) world, contrasted with Jeannette Armstrong, George Bowering, Daphne Marlatt, and Fred Wah, whose poetics reveal the blindnesses and the insights of Romantic literary tradition. Issues to be explored include poetic form and forms of attention (poetry as ecological consciousness), language, being, nature, myth, knowledge (especially local knowledge), science, culture, and economics, all of which are linked to questions of gender and race.

583H – (1.5) American Literature on the Pacific
The American West Coast as an occasion for writers to think about migration, race, culture, nation, and the limits of politics and identity. Topics include the Frontier Hypothesis; Jesup Expedition; Pacific Survey; Japanese American Internment; Native American Relocation; Manifest Destiny; Pacific Rim imperialism; space becoming cyberspace. Authors may include Okada, Kingston, Chin, Momaday, Alexie, Anzaldúa, Valdez, Reed, Pynchon, McCarthy, Powers, Gibson, Dick, Palahniuk, Eggers.

583I – (1.5) Literary Anthropology and Anthropological Literature on the Pacific Coast
Comparative introduction to anthropological writings about Indigenous peoples of the West Coast and literary works that draw on anthropological knowledge. Genres to be studied include poetry, stories, life-writing, essays, ethnographic theory and studies; theoretical issues include formal intersections of ethnography and literature, politics of representation, cultural appropriation, ethics of translation, tensions between oral and written traditions. Authors include Barbeau, Boas, Bringhurst, Cameron, Cruikshank, Lévi-Strauss, Musgrave, Reid, Shadbolt, Skelton, Snyder, Swanton, Turner and Wilson.

ENGL 585 Units: 1.5 Studies in Canadian Literature: Area Course
ENGL 586 Units: 1.5 Studies in Canadian Literature: Special Topic
ENGL 590 Units: 1.5 Directed Reading
ENGL 598 Units: 3.0-4.5 Master’s Essay

Students are required to complete a Master’s Essay and a final oral examination based on that essay. In most cases, this essay will be a revised version of a paper written for one of the student’s seminars. Students who intend to complete the 598 essay in a given term must sign up for a preseminar in which a faculty member will lead them through a series of meetings designed to set clear expectations concerning the methodological and theoretical expectations as well as the amount of contextual research required for the Master’s Essay.

Note: Students entering the program effective September 2009, and students doing a concentration in Literatures of the West Coast, will complete a Master’s Essay (not to exceed 10,000 words) worth 4.5 units. All other students who entered the program prior to September 2009 will complete a Master’s Essay (not to exceed 6,500 words) worth 3 units.

Grading: INP, COM, N, F.

ENGL 599 Units: 7.5 MA Traditional or Alternative Thesis
Gradning: INP, COM, N, F.

ENGL 693 Units: 6.0 Formerly: 698 Candidacy Examination
Notes:
- Credit will be granted for only one of 693, 698.
- Students are required to pass two exams (Major Field and Focused Field) within 24 months of registration as a doctoral candidate, and before registering in the Dissertation (ENGL 699).

Grading: INP, COM, N, F.

ENGL 699 Units: 18.0-33.0 PhD Dissertation
Prerequisites: 693
Gradning: INP, COM, N, F.

ENTC Entrepreneurship Certificate Sardul S. Gill Graduate School of Business

ENTC 510 Units: 1.5 Entrepreneurship Searching and Screening Provides students with the tools to identify ideas for new ventures through systematic searching. Screening tools and techniques enable students to distinguish between a good idea and a good opportunity. Topics for the course include opportunity identification, opportunity analysis and proof of concept. Students will utilize criteria to successfully screen opportunities and recognize personal criteria that can be used in evaluating new ventures and innovation strategies.

Prerequisites: Open only to students in the ENT Certificate Program, except by special permission of the ENT Certificate Program Advisory Committee.

ENTC 520 Units: 1.5 Entrepreneurship Planning and Financing Develops the student’s ability to tell the “story” of a new venture idea with just enough facts and details to convince investors that the business is viable. Topics for the course include strategies for commercialization, entrepreneurial finance and securing and protecting resources. Students will study how to raise money strategically and how to work with various potential investors and asset classes.

ENTC 530 Units: 1.5 Entrepreneurship Set-up and Launch Focuses on systems and models that enable the entrepreneur to maximize the business operating environment. Operations analysis tools and methodology are presented to assist in designing, planning, and controlling operations. Topics for the course include securing commitment, entrepreneurial marketing and communications, entrepreneurial systems and exit strategies; gain strategic and tactical skills to launch and operate a new company with a limited budget for the first twelve to eighteen months of a company’s life.

ENTC 540 Units: 1.5 Entrepreneurship Growth and Context Expertise Enables students to grow their own entrepreneurial companies by emphasizing innovation and value capture in a dynamic environment. Topics for the course include managing growth and change and entrepreneurs as global citizens. Students will choose one of the following four special topics of focus for the final third of the course: (1) Technology-based ventures, (2) service-based ventures, (3) internet-based ventures, or (4) doing business in China.

Pre- or corequisites: Admission to the Graduate Certificate in Entrepreneurship; Completion or current enrolment in 530.

ENTD Entrepreneurship Diploma Sardul S. Gill Graduate School of Business

ENTD 590 Units: 3.0 Entrepreneur Practicum and Directed Studies Seminar Provides a practical opportunity to apply all student entrepreneurial knowledge and skills from the four courses that constitute the Graduate Certificate in Entrepreneurship. Students will implement a business plan for a new venture or an existing company. Through journals, reports, discussions and faculty mentoring, students will conduct both personal and situational analysis in the entrepreneurial environment in which they launch and operate their new business or existing company.

Prerequisites: Admission to the Graduate Diploma in Entrepreneurship; Completion of ENTC 510, 520, 530 and 540.

EOS Earth and Ocean Sciences School of Earth and Ocean Sciences Faculty of Science

EOS 503 Units: 1.5 Global Biogeochemical Cycles Tracks the fate of organic matter from its formation (primary production) through its transformation and destruction during transport, depositional, and diagenetic remineralization processes. Global carbon, nitrogen, phosphorus, and sulphur cycles are discussed. Emphasis is placed on describing the fluxes of nutrients and other major compounds within soils, and the sedimentary and water columns, and across their interface.

EOS 504 Units: 1.5 or 3.0 Selected Topics in Geochemistry

Pre- or corequisites: Admission to the Graduate Certificate in Entrepreneurship, Completion or current enrolment in 520.

Grading: INP, COM, N, F.
diagenesis of marine sediments. Examines a range of depositional environments: fjord and coastal, shelf, slope, and oceanic; with consideration of the data obtained from DSDP and ODP drilling.

EOS 510 | Units: 1.5 | Plate Tectonics: The Geological Record
An examination of the processes of plate tectonics as revealed by the geological record, including Precambrian evolution of cratons; rifts and passive margins; convergent margins and orogens; plate motions through time.

EOS 511 | Units: 1.5 | Plate Tectonic Processes
An overview of plate tectonic regimes with emphasis on physical processes and geophysical aspects related to the evolution of the Earth's plate system. Organized primarily as seminars and discussions, supplemented by special lectures by faculty and adjuncts.

EOS 513 | Units: 1.5 | Advanced Igneous and Metamorphic Petrology
A seminar style course focusing on advanced topics in igneous and metamorphic petrology and how the tools of petrology can be used for geodynamic reconstructions.

EOS 516A | Units: 1.5 | Ocean Acoustics I
An introduction to the ocean as an acoustic medium, sound sources in the ocean, ray theory, normal modes, reflection and refraction processes at ocean boundaries and discussion of sound propagation in deep and shallow water. The basic concepts are applied to special topics such as parabolic equation propagation models, sound propagation in bubbly fluids and ambient noise models.

EOS 519 | Units: 1.5 | Selected Topics in Geophysics
Examples of topics include geodynamics or continuum mechanics with geological applications, time series analysis with geophysical applications, seismic data processing, well log analysis, environmental and engineering geophysics, and geophysics of the continental crust.

Note: May repeat with a different content (offered as 519A, 519B, 519C and 519D).

EOS 523 | Units: 1.5 | Seismology
Theoretical and practical aspects of seismic wave propagation, earthquake seismology, and processing and interpretation of reflection and refraction data.

EOS 525 | Units: 1.5 | Research Frontiers in Earth and Ocean Science
This interdisciplinary Earth and Ocean Sciences course examines, in detail, global topics that are current, significant and which require input and integration across diverse disciplines. The specific topics change annually and the subject is team-taught by several SEOS/UVic faculty members.

EOS 526 | Units: 1.5 | Inverse Theory in Earth and Ocean Sciences
Inverse theory and its applications in Earth and Ocean Sciences. Topics include non-uniqueness, general linear least-squares, singular-value decomposition, regularization, linearization, global inversion, Bayesian inversion, and Markov-chain Monte Carlo methods. Applications will be drawn from the research literature and include topics such as inversion of seismic, acoustic and geo-electromagnetic data, tomography and matched-field inversion.

EOS 531 | Units: 1.5 | Physical Oceanography
Physical properties of seawater, equation of state, gravitational stability, large-scale ocean currents, meridional distribution of salinity and temperature, surface heat budgets, water masses, estuarine flows.

EOS 534 | Units: 1.5 | Ocean Mixing Processes
The distribution of properties in the ocean and ocean circulation are greatly influenced by small-scale processes which cannot be explicitly included in numerical models of the ocean. The physics and parameterizations of processes such as breaking internal waves, double diffusion and boundary mixing are analyzed, with discussion of observational techniques as well as theories.

EOS 538 | Units: 1.5 | Aqueous Geochemistry and the Environment
Major aspects of the global water cycle, sources, sinks of chemical elements present in aquatic systems, weathering reactions, solution geochemistry of oxic and anoxic environments in natural aquatic systems (rainwater, ground waters, rivers, lakes, estuaries and oceans). Other topics include the application of natural and anthropogenic tracers to geochemical problems with aquatic systems.

Note: Credit will be granted for only one of 538, 425.

EOS 550 | Units: 1.5 | The Climate System
Studies of the Earth's climate require an understanding of the intimate links between the hydrosphere, atmosphere, cryosphere and biosphere. Basic theories of the dynamics of ocean and atmosphere. The physics and biogeochemistry of coupled models are examined with emphasis on simple intuition-building mathematical models as well as discussion of large computer models.

Note: May repeat with a different content (offered as 550A, 550B, 550C and 550D).

EOS 551 | Units: 1.5 | Introductory Dynamic Meteorology
An introduction to the dynamics and thermodynamics of rotating atmospheres. Topics include: equations of motion, circulation theorems, geostrophy and quasi-geostrophy, boundary layer dynamics, waves in the atmosphere, barotropic and baroclinic instabilities, and the general circulation of the atmosphere.

Note: May repeated with different content (offered as 551A, 551B, 551C and 551D).

EOS 562 | Units: 1.5 | Mathematical Tools for Earth, Ocean and Atmospheric Sciences
Selected topics to provide training in mathematical techniques and tools used in ocean and earth systems data analysis and numerical modeling. Examples of topics are time-series analysis, statistical prediction and analysis, and numerical finite-difference, finite-element and spectral modeling techniques.

Note: May repeated with different content (offered as 562A, 562B, 562C, 562D).

EOS 580 | Units: 1.0 to 3.0 | Directed Studies
Designed to enable students to pursue individual interests.

Note: May be taken more than once for credit.

EOS 599 | Units: to be determined* | MSc Thesis
The thesis or dissertation requirement for advanced degrees applies to all students in the School. Students must enrol in 599 in their first semester and remain enrolled until their thesis requirements have been completed.

* Normally 9 units.

Grading: INP, COM, N, F.

EOS 693 | Units: 3.0 | PhD Candidacy Examination
Students must enrol in EOS 693 in their first semester and remain enrolled until their candidacy requirements have been completed, normally within the first two years of a PhD program. A pre-candidacy committee meeting must precede the formal candidacy exam.

Corequisites: 699

Grading: INP, COM, N, F.

EOS 699 | Units: to be determined | PhD Dissertation
The thesis or dissertation requirement for advanced degrees applies to all students in the School. Students must enrol in 699 in their first semester and remain enrolled until their dissertation requirements have been completed.

Corequisites: 699

Grading: INP, COM, N, F.

**EPHE**

Exercise Science, Physical and Health Education
School of Exercise Science, Physical and Health Education
Faculty of Education

EPHE 500 | Units: 0 | Research Seminar
An examination of contemporary research, theoretical, and practical issues in Exercise Science Physical and Health Education.

Grading: INP, COM, N, F.

EPHE 561 | Units: 1.5 | Formerly: PE 561
Current Issues in Leisure Services
Addresses the problems, challenges and opportunities facing the recreation-leisure service professional. Focus on concepts, theories and historical framework of leisure; nature and scope of the profession.

Note: Credit will be granted for only one of 561, PE 561.

EPHE 562 | Units: 1.5 | Formerly: PE 562
Administrative Planning Process
Examination of the planning process as it exists within federal, provincial, regional and municipal government recreation departments as well as not-for-profit and private sector leisure delivery organizations. Role of the recreation manager-administrator as leader, team member and facilitator.

Note: Credit will be granted for only one of 562, PE 562.

EPHE 563 | Units: 1.5 | Formerly: PE 563
Community Leisure Service Development
Exploration of the nature and function of leisure service development as a community based function. Focus on the development and use of other social service organizational models.

Note: Credit will be granted for only one of 563, PE 563.
EPHE 570  Units: 1.5  Formerly: PE 570  
Skill Acquisition in Physical Education and Sport
A review of learning theories and principles as they pertain to the acquisition and retention of motor skills; the neural mechanisms involved in the learning and control of motor patterns; information processing in human performance; detailed study of research on memory, attention, retrieval systems, and movement control.

Note: Credit will be granted for only one of 570, PE 570.

EPHE 572  Units: 1.5  Formerly: PE 572  
Physiology in Physical Education and Sport
The study of physiological basis for sport performance and fitness. The assessment of physiological status and the rationale for the prescription of exercise programs.

Note: Credit will be granted for only one of 572, PE 572.

EPHE 573  Units: 3.0  Formerly: PE 573  
Research Methods
An overview of the qualitative and quantitative research approaches specific to the various disciplinary areas in the School of Exercise Science, Physical and Health Education. Underlying assumptions of both qualitative and quantitative research are discussed and the respective research processes are reviewed. Other topics include: the role of the researcher; selecting and developing a research problem; reviewing the literature; developing research hypotheses; issues in measurement; data collection issues, writing research proposals; research ethics; and communicating the results of research.

Note: Credit will be granted for only one of 573, PE 573.

EPHE 574  Units: 1.5  Formerly: PE 574  
Administration of Physical Education, Recreation and Sport
After presenting a theoretical base for administrative and organizational theories, a link will be made to specific situations in the fields of physical education, recreation and sport.

Note: Credit will be granted for only one of 574, PE 574.

EPHE 575  Units: 1.5  Formerly: PE 575  
Applied Sport Psychology
Provides students with a further understanding of concepts and principles underlying the field of sport psychology. Provides a basis for the use of mental training techniques such as imagery, self-talk, feedback, and focusing to improve sport performance and experiences.

Note: Credit will be granted for only one of 575, PE 575.

EPHE 576  Units: 1.5  Formerly: PE 576  
Teaching and Coaching Effectiveness in Physical Education and Sport
A review of current models of effective teaching and coaching; observation and coaching systems; analysis of teaching and coaching behaviours; a review of current research.

Note: Credit will be granted for only one of 576, PE 576.

EPHE 577  Units: 1.5  Formerly: PE 577A or PE 577  
Research Methods and Techniques in Coaching Studies
The development of research skills required to interpret the literature related to coaching and sport performance and develop a project proposal as part of the requirements for the degree.

Notes:
- Credit will be granted for only one of 577, PE 577A, 577B.
- Taught in summer only.

Prerequisites: Enrolment in the MEd Coaching Studies Program.

EPHE 578  Units: 1.5  Formerly: PE 578  
Biomechanics
A study of athletic performance by way of the laws of physics and mechanics. Topics include:
2. A critical analysis of selected sport skills and techniques.

Note: Not open to students with credit in PE 578.

EPHE 579  Units: 1.5  Formerly: PE 579  
Current Issues in Coaching Studies
Identification and selection of issues in coaching and sport for presentation, discussion and resolution. As leaders in sport, students will consider issues from both a content perspective and in the context of beliefs and values.

Note: Credit will be granted for only one of 579, PE 577B, 579.

EPHE 580  Units: 1.5  Formerly: PE 580  
Physiological Issues in Physical Activity and Health
Selected issues and research examining the physiological responses and adaptations to exercise, especially as they relate to performance and/or health.

Note: Credit will be granted for only one of 580, PE 580.

EPHE 581  Units: 1.5  
Psychological Issues in Physical Activity and Health
Examines selected current psychological issues affecting individual and group involvement in the different forms of physical activity and how these interact with performance and health from childhood to the senior years. Research in the field will be examined to assist the understanding of current beliefs and practices.

Note: Credit will be granted for only one of 581, PE 581.

EPHE 582  Units: 1.5  Formerly: PE 582  
Neuroscience in Physical Activity and Health
A seminar on issues and research in neuroscience related to motor control across the lifespan and in typical and atypical populations.

Note: Credit will be granted for only one of 582, PE 582.

EPHE 583  Units: 1.5  Formerly: PE 583  
Issues in Health Promotion and Wellness
Issues, research and values in health promotion and wellness related to physical activity. Topics may include community-based research in education, health, recreation and allied social service settings; social determinants of health and physical activity; and theory and practice of programs and policies affecting health, wellness and physical activity.

Note: Credit will be granted for only one of 583, PE 583.

EPHE 584  Units: 1.5  Formerly: PE 584  
Pedagogical Issues in Physical Activity and Health
Current pedagogical research that influences national and provincial physical activity policies, school-based physical education programs and community-based physical activity programs.

Note: Credit will be granted for only one of 584, PE 584.

EPHE 585  Units: 1.5  Formerly: PE 585  
Qualitative Research Genres Applied to Education, Health and Society
Examines issues surrounding the development of research representations that inform issues in education, health and society. A core component of the course will be to develop, gather data and report on a community based inquiry project. Qualitative genres based on different modes of inquiry will be explored and applied in a student developed inquiry project.

Note: Credit will be granted for only one of 585, PE 585.

EPHE 590  Units: to be determined  Formerly: PE 590  
Directed Study

Notes:
- May be taken more than once for credit in different topics.
- The student must obtain permission of the Chair of his or her supervisory committee and the instructor offering the area of individual study prior to registering in this course. Pro Forma is required for registration.

EPHE 591  Units: 1.5 or 3.0  Formerly: PE 591  
Selected Topics in Exercise Science, Physical and Health Education
A variable content course.

Note: May be taken more than once for credit in different topics. Pro Forma may be required for registration.

EPHE 597  Units: 1.5  Formerly: PE 597  
Comprehensive Examination - Exercise Science, Physical and Health Education
Comprehensive examination which must be passed as required for individual Master of Education programs within the Faculty of Education.

Note: Credit will be granted for only one of 597, PE 597.

Grading: INP, COM, N, F.

EPHE 598  Units: 3.0 - 4.5  Formerly: PE 598  
Project - Exercise Science, Physical and Health Education
Note: Not open to students with credit in PE 598.
Grading: INP, COM, N, F.

EPHE 599 Units: to be determined
Formerly: PE 599
Thesis - Exercise Science, Physical and Health Education
Note: Not open to students with credit in PE 599.
Grading: INP, COM, N, F.

EPHE 673 Units: 3.0
Doctoral Seminar
First-year doctoral students will become engaged in the research community, advance the development of their own capacity for research, and gain a deeper understanding and appreciation of multiple approaches to the study of physical activity. Topics include: current research in Exercise Science, Physical & Health Education, critical issues in research, the need for knowledge translation and dissemination, and the critical examination of students’ emerging research questions.

EPHE 690 Units: 1.5 or 3.0
Directed Studies
Research topics will be pursued at the doctoral level under the direction of one or more faculty members.
Note: May be taken more than once for credit in different topics to a maximum of 6 units. Pro Forma required for registration.

EPHE 693 Units: 3.0
Candidacy Exam - Kinesiology
Grading: INP, COM, N, F.

EPHE 699 Units: 18.0
PhD Dissertation - Kinesiology
Prerequisites: 693
Grading: INP, COM, N, F.

ES Environmental Studies
School of Environmental Studies
Faculty of Social Sciences

ES 500 Units: 1.5
Perspectives on Environmental Theories, Methods and Skills I
An examination of contemporary theories, methods and skills that support environmental studies research. Weekly seminars will be preceded by a 3-day field camp in late August/early September (additional cost for field camp).
Note: Required core course. Normally restricted to graduate students in the School of Environmental Studies.

ES 501 Units: 1.5
Perspectives on Environmental Theories, Methods and Skills II
Builds on the foundation laid in ES 500, and continues to explore theories, methods and skills appropriate to each student’s research program. A retreat is typically scheduled in mid-March (additional cost for field retreat).
Note: Required core course. Normally restricted to graduate students in the School of Environmental Studies.

ES 503 Units: 3.0
MA/MSc Research Colloquium
The Graduate Colloquium meets weekly from September to April. Papers are presented by graduate students, faculty, and visiting scholars. The colloquium exposes students to a wide range of conceptual and substantive issues that reflect the breadth and depth of environmental research. Attendance and participation in the colloquium is strongly encouraged throughout the degree program. Students receive 3 units of pass/fail credit during their first year.
Note: Required core course.
Grading: INP, COM, N, F.

ES 570 Units: 1.5
Field Study
Supervised research or organized projects related to environmental problems, supplemented by directed individual study. A formal report is required.

ES 580 Units: 1.5
Seminar in Political Ecology
Flexible topics course offered in a seminar format.
Note: May be taken more than once in different topics up to a maximum of 3 units.

ES 581 Units: 1.5
Seminar in Ethnoecology
Flexible topics course offered in a seminar format.
Note: May be taken more than once in different topics up to a maximum of 3 units.

ES 582 Units: 1.5
Seminar in Ecological Restoration
Flexible topics course offered in a seminar format.
Note: May be taken more than once in different topics up to a maximum of 3 units.

ES 590 Units: 1.5
Directed Studies
Individual studies under the direct supervision of a faculty member. The content and evaluation must be approved by the School.

ES 593 Units: 1.5
Thesis Proposal Preparation
Students will work individually with their supervisor (or co-supervisor) and supervisory committee to develop a thesis proposal. An oral defense of the proposal shall take place no later than September 30th of the student’s second year of full-time study or third year of part-time study. An annual showcase will provide an opportunity for students to present their work in a formal setting. Credit shall be granted upon acceptance of the proposal with revisions (as necessary).
Note: Required core course.
Grading: INP, COM, N, F.

ES 599 Units: 7.5
MA, MSc Thesis
Grading: INP, COM, N, F.

ES 600 Units: 1.5
Advanced Perspectives on Environmental Theories, Methods and Skills I
An advanced examination of contemporary theory and research methods at the forefront of environmental studies research. Emphasis will be given to the intersection of scientific, humanistic, and traditional knowledge. A 3-day field camp will precede weekly seminars in late August/early September (additional cost for field camp).
Notes:
- Required core course.
- Students with credit in 500 may be required to substitute 600 with another appropriate graduate course at the discretion of the student’s PhD committee and graduate adviser.

ES 601 Units: 1.5
Advanced Perspectives on Environmental Theories, Methods and Skills II
Takes a deep approach to different research methods, including qualitative and quantitative approaches, their strengths and weaknesses, rationales for their application, and how they can be combined in interdisciplinary research at the highest levels. PhD students will develop effective written, oral and graphical communication skills and an understanding of the range of ways for gaining reliable knowledge.
Notes:
- Required core course.
- Students with credit in 501 may be required to substitute 601 with another appropriate graduate course at the discretion of the student’s PhD committee and graduate adviser.

ES 603 Units: 3.0
PhD Research Colloquium
The Graduate Colloquium meets weekly from September to April. Papers are presented by graduate students, faculty, and visiting scholars. The colloquium exposes students to a wide range of conceptual and substantive issues that reflect the breadth and depth of environmental research. Attendance and participation in the colloquium is strongly encouraged throughout the degree program. Students receive 3 units of pass/fail credit during their first year. Students will be required to make presentations of their own research.
Note: Required core course.
Grading: INP, COM, N, F.

ES 670 Units: 1.5
Field Study
Supervised field research or organized projects related to environmental problems, supplemented by directed individual study. A formal report is required.

ES 671 Units: 1.5
Seminar in Political Ecology
Note: May be taken more than once in different topics up to a maximum of 3 units.

ES 672 Units: 1.5
Seminar in Ethnoecology
Note: May be taken more than once in different topics up to a maximum of 3 units.

ES 673 Units: 1.5
Seminar in Ecological Restoration
Note: May be taken more than once in different topics up to a maximum of 3 units.

ES 680 Units: 1.5
Directed Studies
Individual studies under the direct supervision of a faculty member. The content and methods of assessment must be approved by the School.

ES 681 Units: 1.5
Seminar in Ethnoecology
Note: May be taken more than once in different topics up to a maximum of 3 units.

ES 682 Units: 1.5
Seminar in Ecological Restoration
Note: May be taken more than once in different topics up to a maximum of 3 units.

ES 690 Units: 1.5
Directed Studies
Individual studies under the direct supervision of a faculty member. The content and methods of assessment must be approved by the School.

ES 693 Units: 3.0
PhD Candidacy Examination
PhD students will prepare a comprehensive reading list, a dissertation proposal, and two major papers (on topics relevant to the PhD research field), and will sit for an oral examination related to the reading list.
Grading: INP, COM, N, F.

ES 699 Units: 21.0
PhD Dissertation
Grading: INP, COM, N, F.
FORB

Forest Biology
Department of Biology
Faculty of Science

FORB 515  Units: 1.5
Advanced Experimental Mycology

FORB 527  Units: 1.5
Advanced Plant Biochemistry and Biochemical Ecology
See BIOL 458. An additional research paper or presentation is required.

FORB 538  Units: 1.5
Topics in Microbial Ecology
See BIOL 438. A research paper on soil-plant microbial interactions is required.

FORB 549  Units: 1.5
Individual Study in Forest Biology
549A – Tree Physiology
549B – Tree Molecular Biology
549C – Trees and Fungi
549D – Forest Soils
549E – Forest Ecology
549F – Forest Genetics
Note: May be taken more than once in any of the above areas under the appropriate faculty member. Pro Forma required.

FORB 560  Units: 1.5
Forest Biology Seminar
Student and guest seminars on selected topics in forest biology and forest biotechnology and regeneration. Required of all graduate students in forest biology every year of their degree program (except by departmental permission) but will not count as part of their minimum graduate course requirement.
Grading: INP, COM, N, F.

FORB 570  Units: 1.5
Advanced Topics in Forest Biology
A series of lectures and seminars examining subjects of current interest that focus on the adaptations of trees and their interaction with the forest environment.
Note: May be taken more than once for credit in different topics. Pro Forma required.

FORB 571  Units: 0.5 - 3.0
Forest Biology Workshop
A series of advanced workshops providing intensive theoretical and practical training in three thematic areas: plant and microbial molecular biology; forest ecology, physiology and genetics; and bioinformatics and biostatistics. Workshops are designed to provide the tools for experimental design to address biological questions at all levels from the genome to the whole organism.
Note: May be taken more than once for credit in different topics. Pro Forma required.

FRAN

French
Department of French
Faculty of Humanities

FRAN 500  Units: 1.5
Formerly: FREN 500
Introduction to Bibliography and Research Methods
A review of the use of bibliographical tools, forms of citation and documentation. Instruction in the preparation of materials for publication. Weekly presentations by various faculty members demonstrating the application of varied research methodologies.
Notes:
- Compulsory for all first-year graduate students.
- Credit will be granted for only one of 500, FREN 500.

FRAN 502  Units: 1.5
Formerly: FREN 502
Studies in Applied Linguistics
Notes:
- Credit will be granted for only one of 502, FREN 502 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 503  Units: 1.5
Formerly: FREN 503
Studies in French Linguistics
Notes:
- Credit will be granted for only one of 503, FREN 503 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 504  Units: 1.5
Formerly: FREN 504
Studies in Culture and Society
Notes:
- Credit will be granted for only one of 504, FREN 504 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 505  Units: 1.5
Formerly: FREN 505
Studies in Literary Theory and Criticism
Notes:
- Credit will be granted for only one of 505, FREN 505 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 507  Units: 1.5
Formerly: FREN 507
Studies in Medieval Literature
Notes:
- Credit will be granted for only one of 507, FREN 507 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 508  Units: 1.5
Formerly: FREN 508
Studies in Renaissance Literature
Notes:
- Credit will be granted for only one of 508, FREN 508 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 509  Units: 1.5
Formerly: FREN 509
Studies in 17th-Century Literature
Notes:
- Credit will be granted for only one of 509, FREN 509 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 511  Units: 1.5
Formerly: FREN 511
Studies in 18th-Century Literature
Notes:
- Credit will be granted for only one of 511, FREN 511 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 512  Units: 1.5
Formerly: FREN 512
Studies in 19th-Century Literature
Notes:
- Credit will be granted for only one of 512, FREN 512 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 513  Units: 1.5
Formerly: FREN 513
Studies in 20th-Century Literature
Notes:
- Credit will be granted for only one of 513, FREN 513 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 514  Units: 1.5
Formerly: FREN 514
Studies in Children’s Literature
Notes:
- Credit will be granted for only one of 514, FREN 514 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.

FRAN 515  Units: 1.5
Formerly: FREN 515
Studies in French-Canadian Literature
Notes:
- Credit will be granted for only one of 515, FREN 515 (if taken in the same topic).
- Variable content course.
- May be taken more than once for credit in different topics.
### FRAN 516
Units: 1.5  
Formerly: FREN 516  
Studies in Québec Literature

**Notes:**  
- Credit will be granted for only one of 516, FREN 516 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 517
Units: 1.5  
Formerly: FREN 517  
Studies in Francophone African Literatures

**Notes:**  
- Credit will be granted for only one of 517, FREN 517 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 518
Units: 1.5  
Formerly: FREN 518  
Studies in Francophone Caribbean Literatures

**Notes:**  
- Credit will be granted for only one of 518, FREN 518 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 519
Units: 1.5  
Formerly: FREN 519  
Studies in Film Adaptation of Literary Texts

**Notes:**  
- Credit will be granted for only one of 519, FREN 519 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 520
Units: 1.5  
Formerly: FREN 520  
Studies in Diasporic Literatures in French

**Notes:**  
- Credit will be granted for only one of 520, FREN 520 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 522
Units: 1.5  
Formerly: FREN 522  
Studies in French and Francophone Cinemas

**Notes:**  
- Credit will be granted for only one of 522, FREN 522 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 523
Units: 1.5  
Formerly: FREN 523  
Studies in Writing and Gender

**Notes:**  
- Credit will be granted for only one of 523, FREN 523 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 524
Units: 1.5  
Formerly: FREN 524  
Studies in Editorial Mediations

**Notes:**  
- Credit will be granted for only one of 524, FREN 524 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 525
Units: 1.5  
Formerly: FREN 525  
Studies in Literature and Translation

**Notes:**  
- Credit will be granted for only one of 525, FREN 525 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 528
Units: 1.5  
Formerly: FREN 528  
Special Topics

**Notes:**  
- Credit will be granted for only one of 528, FREN 528 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 529
Units: 1.5 or 3.0  
Formerly: FREN 529  
Directed Studies

**Notes:**  
- Credit will be granted for only one of 529, FREN 529 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 530
Units: 1.5  
Formerly: FREN 530  
Thesis/Oral

**Notes:**  
- Credit will be granted for only one of 530, FREN 530 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### FRAN 550
Units: 1.5  
Formerly: FREN 550  
Thesis

**Notes:**  
- Credit will be granted for only one of 550, FREN 550 (if taken in the same topic).  
- Variable content course.  
- May be taken more than once for credit in different topics.

### GEOG 500A
Units: 1.5  
Formerly: part of 500  
Geographical Research Approaches

**Grading:** INP, COM, N, F.

### GEOG 500B
Units: 1.5  
Formerly: part of 500  
Research Design in Geography

**Grading:** INP, COM, N, F.

### GEOG 518
Advanced Spatial Analysis and Spatial Statistics

**Note:** Master’s Program students are required to take one of 518, 523, 524.

**Prerequisites:** 328, 329 or equivalent GIS experience.

### GEOG 523
Qualitative Methods in Human Geography

This course will explore a range of theoretical and methodological approaches in qualitative analysis as it applies to human geography. Students expect to gain expertise in understanding epistemological orientations of objectivism, constructionism and interpretivism. Identification of a range of traditional and innovative methodologies that students may consider for research projects such as: ethnography, phenomenology, discourse analysis, etc. Common interview strategies and data collection and analysis methods and approaches will be explored.

**Note:** Masters students are required to take one of 518, 523, 524 or another ‘methods’ based course on recommendation of the supervisory committee as approved by the Graduate Adviser.

### GEOG 524
Advanced Quantitative Methods

Examines the use and interpretation of selected multivariate statistics.
Note: Master’s Program students are required to take one of 518, 523, 524.

Prerequisites: An introductory level statistics course is required.

GEOG 536 Units: 1.5
Advanced Seminar in Human Geography
An advanced overview of theoretical approaches and major research paradigms in contemporary human geography.

GEOG 537 Units: 1.5
Advanced Seminar in Physical Geography
Selected research topics in biogeography, climatology, hydrology, geomorphology and soil science. Course content will vary annually, depending on graduate and faculty research interests. Seminars, faculty and guest lecturers and individual research projects will be utilized.

Note: Credit will be granted for only one of 537, 552.

GEOG 538 Units: 1.5
Advanced Seminar in Geomatics
Identifies and reviews knowledge and influential thought that have shaped and advanced the science of geomatics and associated technology through time. Students are introduced to the contemporary knowledge in geomatics, areas of application, unresolved questions and the present and future research agenda. Includes presentations by guest lecturers, readings and literature reviews.

GEOG 539 Units: 1.5
Advanced Seminar in Resource Management
A seminar dealing with resources management areas currently (or recently) being researched by members of the department. Topics will include: problem formulation, conceptual/literature background, fieldwork/data issues, analytical approaches and results/interpretation.

Note: Credit will be granted for only one of 539, 552.

GEOG 547 Units: 1.5
Advanced Topicals in Physical Geography
An examination of contemporary theoretical and/or applied research subjects in physical geography.

Note: Not offered on a regular basis. May be taken more than once for credit in different topics.

GEOG 548 Units: 1.5
Advanced Topics in Geomatics
An examination of contemporary theoretical and/or applied research subjects in geomatics.

Note: Not offered on a regular basis. May be taken more than once for credit in different topics.

GEOG 549 Units: 1.5
Advanced Topics in Resource Management
A seminar dealing with conceptual and research design issues involved with a project or problem area in resource management of interest to a faculty member.

Note: Not offered on a regular basis. May be taken more than once for credit in different topics.

GEOG 590 Units: 1.5
Directed Studies in Geography
Note: MA, MSc and PhD students may only take one 590 course as part of their minimum program requirements. If they wish to take additional 590 courses these can be added to their minimum course load. Individual titles will be assigned to each numbered section of the course arranged by supervisory committees.

GEOG 591 Units: 1.5
Advanced Topics in Geography
Various advanced special topics courses spanning the discipline of Geography.

Note: Master’s and Doctoral students may take only one 591 toward their minimum course requirements but may take additional courses in different topics beyond their minimum load on the advice of their supervisory committee.

GEOG 599 Units: to be determined
MA, MSc Thesis
Note: Credit to be determined.

Grading: INP, COM, N, F.

GEOG 693 Units: 3.0
Candace Examination
By eighteen months of registration as a provisional doctoral student, a student must register for and eventually pass a candidacy examination.

The candidacy exam format includes two take home essays (max. 30 pages each) and an oral exam (max. 2 hours). Essay 1 will focus on the development of thought in the candidate’s area of Geography (e.g., Physical, Human, Geomatics, or Resources) with an emphasis on linkages to the broader discipline. Essay 2 will focus on the candidate’s research area. An oral examination will follow within 2 to 3 weeks after the completion of Essay 2.

Grading: INP, COM, N, F.

GEOG 699 Units: to be determined
PhD Dissertation
Prerequisites: 693

Grading: INP, COM, N, F.

GMST 530 Units: 1.5
Formerly: GER 530
18th-Century Cultural Studies
Note: Credit will be granted for only one of 530, GER 530.

GMST 540 Units: 1.5
Formerly: GER 540
19th-Century Cultural Studies
Note: Credit will be granted for only one of 540, GER 540.

GMST 550 Units: 1.5
Formerly: GER 550
20th-Century Cultural Studies I
Note: Credit will be granted for only one of 550, GER 550.

GMST 551 Units: 1.5
Formerly: GER 551
20th-Century Cultural Studies II
Note: Credit will be granted for only one of 551, GER 551.

GMST 560 Units: 1.5
Formerly: GER 560
Germanic-Canadian Studies
Note: Credit will be granted for only one of 560, GER 560.

GMST 570 Units: 1.5
Hours: 3-0
Studies in New Media in Second Language Acquisition
New Media in Second Language Acquisition in both theory (Activity Theory, Dynamic Systems Theory, Speech Production, Working Memory) and praxis (Motivation, Acquisition, Assessment). Particular attention given to questions of sustainability.

GMST 590 Units: 1.5
Formerly: GER 590
Directed Studies I
Note: Pro Forma required. Credit will be given only to one 590, GER 590.

GMST 591 Units: 1.5 or 3.0
Formerly: GER 591
Directed Studies II
Note: Pro Forma required. Credit will be given only to one 591, GER 591.

GMST 599 Units: 6.0-9.0
Formerly: GER 599
Thesis
Note: Credit will be granted for only one of 599, GER 599.

Grading: INP, COM, N, F.

GRS

Greek and Roman Studies
Department of Greek and Roman Studies
Faculty of Humanities

GRS 500 Units: 1.5
Pro-seminar in Research Methods and Practices
Advanced research methods and issues including on-line research and other resources. Dissemination of research and preparation for publication, including communication skills, presentation of research results either orally or in print, critical analysis, and response to scholarly questions. Best procedures for writing and
preparing applications for grants, fellowships and employment. Approaches to professional academic life including practices of the discipline.

**Grading:** INP, COM, N, F.

**GRS 501**
Greek Literature
Units: 3.0

**GRS 502**
Formerly: 541
Greek History
Units: 3.0

**GRS 503**
Latin Literature
Units: 3.0

**GRS 504**

Topical Field in Ancient History
Units: 3.0

**GRS 623**
Topical Field in Classical Archaeology
Units: 3.0

**GRS 693**
Candidacy Exam
Units: 3.0

**GS 500**
Special Topics
Units: 1.5 or 3.0

**Notes:**
- May be taken more than once for credit in different topics.
- Students must seek prior approval from their supervisory committee and graduate adviser for inclusion of this course in their graduate program, although they will be permitted to register in it as "extra" to their program.
- Proposals for these courses must include approval by the funding academic unit(s) before being submitted to the Dean of Graduate Studies for final approval. Proposal forms and detailed instructions are available through the Faculty of Graduate Studies.

**GS 501**
Interdisciplinary Topics
Units: 1.5 or 3.0

**Notes:**
- At least one of the offering departments must have a regular graduate program. May be taken more than once for credit in different topics.
- Students must seek prior approval from their supervisory committee and graduate adviser for inclusion of this course in their graduate program, although they will be permitted to register in it as “extra” to their program.
- Proposals for these courses must include approval by the funding academic unit(s) before being submitted to the Dean of Graduate Studies for final approval. Proposal forms and detailed instructions are available through the Faculty of Graduate Studies.

**GS 502**
Approved Exchange
Units: to be determined

University of Victoria students attending courses under approved exchange agreements may register in this course to maintain their UVic registration status.

**Note:** Permission of the Dean of Graduate Studies required.

**GS 503**
Canadian Visiting Research Internship
Units: 3.0

**GS 504**
International Visiting Research Internship
Units: 3.0

**GS 505**
Multi-Disciplinary Research Internship
Units: 1.5

**GS 500**
Special Topics
Units: 1.5 or 3.0

**Notes:**
- May be taken more than once for credit in different topics.
- Students must seek prior approval from their supervisory committee and graduate adviser for inclusion of this course in their graduate program, although they will be permitted to register in it as “extra” to their program.

### Course Listings HINF

#### HA 502
**Units:** 1.5  
Special Topics in the History of Art

**Note:**

#### HA 509
**Units:** 1.5  
Workshop in Art Historical Writing  
**Note:** A compulsory workshop.  
**Prerequisites:** 501

#### HA 520
**Units:** 1.5  
Seminar in Medieval Art

#### HA 530
**Units:** 1.5  
Seminar in the Arts of South and/or Southeast Asia

#### HA 540
**Units:** 1.5  
Seminar in Renaissance Art

#### HA 545
**Units:** 1.5  
Seminar in Early Modern Art, c. 1500-1750

#### HA 549
**Units:** 1.5  
Seminar in Orientalism in Art and Architecture  
**Note:** Credit will be granted for only one of 549, 449.

#### HA 550
**Units:** 1.5  
Seminar in Islamic Art and Civilization

#### HA 552
**Units:** 1.5  
Seminar in the Arts of Mughal India

#### HA 553
**Units:** 1.5  
Seminar in the Arts of Safavi Iran

#### HA 554
**Units:** 1.5  
Seminar in 19th- and/or 20th-Century Architecture  
**Note:** Credit will be granted for only one of 554, 465.

#### HA 555
**Units:** 1.5  
Seminar in Canadian Art

#### HA 560
**Units:** 1.5  
Seminar in Modern Art I (1870-1945)

#### HA 561
**Units:** 1.5  
Seminar in Modern Art II (1945-1990)

#### HA 563
**Units:** 1.5  
Seminar in Political Art

#### HA 564
**Units:** 1.5  
Seminar in Contemporary Art

#### HA 565
**Units:** 1.5  
Seminar in 20th-Century Native North American Arts

#### HA 570
**Units:** 1.5  
Seminar in East Asian Art

#### HA 571
**Units:** 1.5  
Seminar in the Arts of China

#### HA 578
**Units:** 1.5  
Seminar in Theory & Film Culture

#### HA 580
**Units:** 1.5  
Topics in Cultural Resource Management  
**Prerequisites:** Permission of the instructor.

#### HA 582
**Units:** 1.5  
Seminar in Indigenous Arts  
**Note:** Credit will be granted for only one of 582, 482.

#### HA 584
**Units:** 1.5  
Seminar in Contemporary Art: The Pacific Northwest  
An intensive study of a selected aspect of Pacific Northwest art. Content will vary from year to year.  
**Note:** May be taken more than once with permission of the department.

#### HA 590
**Units:** 1.5  
Directed Studies MA Level  
**Note:** Pro Forma.

#### HA 593
**Units:** 1.5  
Seminar on the Williams Collection  
An intensive study of selected aspect of the Williams Collection. Topics will vary.  
**Notes:**  
- Several classes may be taught at area museums and galleries.  
- May be taken more than once with permission of the department.

#### HA 598
**Units:** 4.5  
Research Paper  
An extended research paper of approx. 10,000 words which will also be presented to a public audience.  
**Note:** Required for MA students who elect the Research Paper Option.  
**Grading:** INP, COM, N, F.

#### HA 599
**Units:** 7.5  
MA Thesis  
**Grading:** INP, COM, N, F.

#### HA 601
**Units:** 3.0  
Colloquium in Theories and Practices  
**Note:** A compulsory course for all doctoral students, except for students who have credit for HA 501.

#### HA 609
**Units:** 1.5  
Workshop in Art Historical Writing  
**Note:** A compulsory workshop.

#### HA 690
**Units:** 1.5-6.0  
Directed Studies PhD Level  
**Note:** Pro Forma.

#### HA 693
**Units:** 3.0  
Candidacy Exam  
**Note:** This is a required 3-unit Candidacy Preparation which must be passed within 3 years of registration.  
**Grading:** INP, COM, N, F.

#### HA 699
**Units:** 30.0  
PhD Dissertation  
**Prerequisites:** 693  
**Grading:** INP, COM, N, F.

#### HINF 501
**Units:** 1.5  
Database Design  
Addresses the issues facing a database designer in the development of database applications appropriate for health data of various kinds. The content includes the elements of conceptual, implementation and physical database design to support health information systems.  
**Note:** Credit will be granted for only one of 501, 591 (if taken in the same topic).

#### HINF 503
**Units:** 1.5  
Research Methods in Health Informatics  
Examines a variety of study designs used in health informatics and outcomes research. These include experimental designs, observational and predictive studies, and qualitative inquiries. For each study design, appropriate analytical approaches and use of related software will be covered.

#### HINF 510
**Units:** 1.5  
Information Management and Technology  
Critically examines the application of state-of-the-art IM&T principles and methods in the private sector and the degree to which they apply to Canadian health care organizations. Identifies the issues which chief information officers face in their attempts to provide the right information to the right people at the right time for the right price.

#### HINF 511
**Units:** 1.5  
Clinical Decision Support Systems  
An overview of clinical decision support (CDS) systems and methods. Students will be introduced to CDS tools and techniques that will help them make informed decisions within their organization and participate in strategic planning activities. Course modules include: a conceptual framework for describing and analyzing CDS, effectiveness of CDS interventions, policies affecting CDS deployments, and health information standards pertinent to CDS initiatives.

#### HINF 515
**Units:** 1.5  
Clinical Information Systems  
A thorough coverage of concepts, methodologies and techniques available to support patient care processes through the use of information technology. Includes a review of factual and patient information systems, signal and pattern processing applications, decision support, simulation, education and training applications.

#### HINF 516
**Units:** 1.5  
Telemedicine in Action  
An introduction and exposure to the scope of current opportunities, developments, and innovations in telemedicine applied to administrative, educational, clinical and research contexts. Telemedicine is generally defined as the use of telecommunication technologies to deliver medical information and services to locations at a distance from the caregiver or educator.

#### HINF 530
**Units:** 1.5  
Health Informatics Literature Review  
An in depth exploration of a health informatics topic. Students who are already part way through their degree program may select a topic that will help them with their project or thesis. Students who have just joined the program may wish to explore new topics that might lead them to a specific area of interest for their project/thesis.  
**Note:** Credit will be granted for only one of 530, 591 (if taken in the same topic).

#### HINF 531
**Units:** 1.5  
Ethical and Legal Aspects of Health Informatics  
An advanced review of legal aspects of the health care profession, including confidentiality, privacy, legal liability of software systems and contractual issues. Students will gain an appreciation for legal terminology, reasoning, and processes, as well as basic
principles of law which apply to and govern health systems in Canada.

HINF 535 Units: 1.5
Health Information Standards
The study of health information standards being deployed and used in Canada and elsewhere. The standards to be examined include data, messaging and terminology standards such as meta-data schemas, HL7v2.x, HL7v3, HL7-CDM, CCR, CCD, DICOM, ICD10, LOINC, SNOMED CT, archetypes and nursing terminologies. Topics include: the nature of standards, their historical evolution and lifecycles for standards from development and distribution to maintenance. Emphasis will be on both the strategic relevance of and practical skills in working with standards.

Note: Credit will be granted for only one of 535, 591 (if taken in the same topic).

HINF 550 Units: 1.5
Health Information Systems Design

HINF 551 Units: 1.5
Electronic Health Record
An examination of recent efforts in modelling health information and documents. A structured review of the current literature, development of a means for selecting key articles, and development of a structure for findings, including types and classes of health information, methods of health information documentation, and current status of use of XML in health information systems, including a summary of current limits and challenges.

HINF 552 Units: 1.5
Evaluation in e-Health
Practical insights and understanding of an evaluation process for e-health initiatives. Includes assessing the effectiveness of e-health programs, evaluation design, data collection and analysis, as well as recommendations to assist decision-makers.

HINF 553 Units: 1.5
e-Health Sustainability
Focuses on the issue of sustainability and how e-health applications can be planned in a manner that encourages ultimate integration and routine use.

HINF 554 Units: 1.5
Critical Appraisal of the Health Sciences Literature
An opportunity for students to improve their ability to find, appraise and use evidence about health care interventions appearing in the health sciences literature. Using an online virtual classroom format, students will gain knowledge of the criteria used to appraise the validity, importance and applicability of different types of health literature.

HINF 560 Units: 1.5
Health Care Quality Improvement
Practical insights and understanding of an evaluation process for e-health initiatives. Includes assessing the effectiveness of e-health programs, evaluation design, data collection and analysis, as well as recommendations to assist decision-makers.

HINF 561 Units: 1.5
Project Management in Health Informatics
An introduction to the essentials of project management and the project life cycle. Students will also cover information technology management and change management knowledge areas as related to healthcare information technology project management. Course topics include project lifecycle management and all project processes including: project charter, network diagramming, scope management, cost management, risk management, issue management, change management, scheduling and schedule management.

HINF 562 Units: 1.5
Procurement in Health Informatics
An introduction to the procurement process in health informatics. Covers key decision making aspects in the analysis and selection of health information systems. An important goal is to have students appreciate the dynamics and compromises which take place when a health care authority/facility selects information technology to primarily support its work practices.

HINF 563 Units: 1.5
Epidemiology in Health Services Management
An examination of the principles and methods of managerial epidemiology. Focuses on the design, implementation and evaluation of epidemiological analyses as applied to management in the health and social services, including the role of epidemiology in health services planning and policy formulation, health status indicators, outcome measurement and utilization analysis.

HINF 570 Units: 1.5
Health Systems Data Analysis
Examines the major health system databases and how, with record linkage, they can be analyzed to create pictures of system components for strategic planning, ongoing program management, monitoring and evaluation. By working with real data and real problems, students will learn basic tools and methods of health system data analysis.

HINF 571 Units: 1.5
Health Informatics: An Overview
An overview of current developments, issues and challenges in the emerging field of health informatics. Historical development of the field will be covered. Addresses basic foundations of health informatics, including the field's theoretical and methodological underpinnings. Considers a range of emerging applications in health informatics as well as approaches to understanding and evaluating these innovations.

HINF 572 Units: 1.5
Applied Biostatistics
A computer laboratory course primarily designed to provide practical experience in running SPSS software, interpreting output and presenting findings in Figures and Tables, suitable for publications or dissertations. Topics include: understanding statistics, data management and cleaning, recode and compute statements, scale development (Cronbach's alpha), t-tests, chi-square analyses, correlation and logistic regression. The skills learned are those commonly used in quantitative research for health and social sciences.

HINF 575 Units: 1.5
Human Factors in Healthcare
Introduces a framework for considering human factors in health informatics. Includes study of human-computer interaction in the design of a range of health informatics applications, user analysis, workflow modelling, consideration of methods of evaluating system usability and socio-technical aspects of successful healthcare system design. In addition, approaches to the design of systems that are safe and that reduce human error in healthcare will be emphasized.

HINF 580 Units: 1.5
Health Informatics Graduate Seminar
Key themes, issues and trends in Health Informatics. Consists of presentations by faculty and students on different Health Informatics subject areas.

HINF 590 Units: 1.5
Directed Studies in Health Informatics
An opportunity to pursue directed readings or a project under the supervision of a faculty member. Students may take this course up to a maximum of two times throughout the program.

Note: A student's supervisor can instruct only one directed studies course.

HINF 591 Units: 1.5
Topics in Health Informatics
Advanced topics in various areas of health informatics. Topics vary depending on faculty interests and availability. Students may take this course more than once.

HINF 598 Units: 3.0
Research Project
The student is required to conduct a major research project in health informatics under the supervision of a faculty member.

Grading: INP, COM, N, F.

HINF 599 Units: 6.0
Health Informatics Thesis
The thesis provides the student with the opportunity of conducting original research and interpretation of those results in Health Informatics.

Grading: INP, COM, N, F.

HINF 602 Units: 1.5
Theories in Health Informatics
Advanced course on scientific theories relevant to health informatics. Faculty will assign key readings from health informatics, information systems, computer science and related disciplines. Students will: demonstrate the principles of theory and conceptual framework development for use in research; present critical appraisals of conceptual models and theoretical frameworks used in existing research and apply them to health informatics; and may identify an appropriate theory or conceptual model to incorporate into their subsequent dissertation research.

HINF 603 Units: 1.5
Methods in Health Informatics
Advanced course on methods that are relevant to health informatics. Faculty will assign key readings drawn from health informatics, information systems, computer science and related disciplines. Students are expected to present and critique the papers and to discuss their relevance to the health informatics discipline. Through this course students may select a method for incorporation in their dissertation research.

HINF 693 Units: 3.0
Candidacy Exam
Students enroll in 693 for the duration of their preparations for their candidacy examinations. This begins at the time a student first enrolls in the PhD program and continues until candidacy requirements have been completed, normally at the end of first year of program.

Grading: INP, COM, N, F.
**HINF 699**  Units: 30.0  
**Dissertation**  
**Prerequisites:** 693  
**Grading:** INP, COM, N, F.

| **HSD**  |  
| Human and Social Development  
Interdisciplinary Courses  
Faculty of Human and Social Development  |

| **HSD 580**  Units: 1.5 or 3.0  
**Special Topics in Human and Social Development**  |

A variable content course focusing on the policy, practice and/or research interests of faculty and students in the Faculty of Human and Social Development.  
**Note:** May be taken more than once for credit in different topics.

| **HSD 590**  Units: 1.5-3.0  
**Directed Studies**  |

Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registering in this course.  
**Note:** May be taken more than once for credit in different topics. Pro Forma required.

| **HSTR**  |  
| History  
Department of History  
Faculty of Humanities  |

| **HSTR 500**  Units: 1.5  
Formerly: HIST 500  
**Historiography**  |

Surveys the diverse answers given to the question, “What is history?” Exploration of the nature of historical knowledge through examination of major changes in theory, method and practice within the discipline. Students articulate their understanding of what being an historian entails. Specific topics covered may vary with the instructor.  
**Note:** Credit will be granted for only one of 500, HIST 500.

| **HSTR 501**  Units: 1.5  
**American History**  |

New and classic readings in the history of Colonial America and the United States. Themes include indigenous societies, conquest, gender, religion, race, slavery, sexuality, politics and economy.  
**Note:** Credit will be granted for only one of 501, 501A, 501B, HIST 501A, 501B.

| **HSTR 502A**  Units: 1.5  
Formerly: HIST 502A  
**Early Modern British History**  |

Social, cultural and political history of early modern England, with an emphasis on the 17th century. Topics include crime and print culture, the British Civil Wars, the execution of Charles I, radical religion and the Interregnum, patriarchy and authority, class conflict and social hierarchy, parents and children, marriage and gender. Provides advanced students a survey of some of the main primary sources, important secondary works and historiographical issues.  
**Note:** Credit will be granted for only one of 502A, HIST 502A.

| **HSTR 502B**  Units: 1.5  
Formerly: HIST 502B  
**Modern British History**  |

Social, cultural and political history of modern England. Topics may include government and the state, war and society, crime and punishment, monarchy, and elite and popular cultures. Provides advanced students a survey of some of the main primary sources, important secondary works and historiographical issues.  
**Note:** Credit will be granted for only one of 502B, HIST 502B.

| **HSTR 503A**  Units: 1.5  
Formerly: HIST 503A  
**19th Century Canadian History**  |

Provides an in-depth look at historical writing about pre-1900 Canada. Explores a variety of historical approaches and covers a number of major topics in the field. Topics may include indigenous histories, First Nations-settler encounters, politics and war, rural and urban experiences, liberalism and the state, and issues of race, religion, gender and class. Focus on historiographical and analytical skills.  
**Note:** Credit will be granted for only one of 503A, HIST 503A.

| **HSTR 503B**  Units: 1.5  
Formerly: HIST 503B  
**20th Century Canadian History**  |

Examines historical writing about 20th century Canada, taking a chronological and thematic approach to recent literature. Topics may include: gender and the family, law and moral regulation, work, the environment, First Nations, politics and the state, nationalism and regionalism, and the experience and commemoration of war. Focus on historiographical and analytical skills.  
**Note:** Credit will be granted for only one of 503B, HIST 503B.

| **HSTR 504A**  Units: 1.5  
Formerly: HIST 504A  
**Europe, 1500-1800**  |

Advanced study of the transformation of European society and culture during the early modern period. May take a topical or temporal focus.  
**Note:** Credit will be granted for only one of 504A, HIST 504A.

| **HSTR 504B**  Units: 1.5  
Formerly: HIST 504B  
**Europe since 1800**  |

Advanced study of the transformation of European politics, society and culture in the modern era. May take a topical or temporal focus.  
**Note:** Credit will be granted for only one of 504B, HIST 504B.

| **HSTR 505**  Units: 1.5  
Formerly: HSTR 514, HIST 514  
**World History**  |

Examines recent contributions to the field of world history that allow both for focussed study of particular themes as well as the exploration of broader historiographical and theoretical debates. Students are encouraged to pursue their own particular interests in the subject.  
**Note:** Credit will be granted for only one of 505, 514, HIST 514.

| **HSTR 506**  Units: 1.5  
Formerly: HSTR 506A, 506B, HIST 506A, 506B  
**Medieval Europe**  |

The major fields, sources and approaches in medieval history and medievalism.  
**Note:** Credit will be granted for only one of 506, 506A, HIST 506A, 506B.

| **HSTR 508A**  Units: 1.5  
Formerly: HIST 508A  
**China in Local and Global History**  |

Examines the local history and global networks of Tibet, Taiwan, and Hong Kong as well as the North China Plain (around Beijing), the Yangzi River Delta (around Shanghai), and the Pearl River Delta (around Canton) in China up to the mid-20th century. Emphasis on both local and global approaches to the six regions and to modern China beyond the limits of its nation-state history.  
**Note:** Credit will be granted for only one of 508A, HIST 508A.

| **HSTR 508B**  Units: 1.5  
Formerly: HIST 508B  
**A Global History of the Chinese Overseas**  |

Examines the Chinese diaspora in Southeast Asia, North America and other regions. Emphasis on the emigration from China, transformation of Chinatowns and development of global networks and transnational identities of the Chinese overseas. May include exploration of the diasporic experiences of Korean, Indian and other Asian migrants in the global arena.  
**Note:** Credit will be granted for only one of 508B, HIST 508B.

| **HSTR 509A**  Units: 1.5  
Formerly: HIST 509A  
**Modern Japanese History**  |

A survey of historiographical issues in Japan’s history from the end of Tokugawa to the present day. Analyzes the debates regarding peasant struggles in late Tokugawa, the impact of imperial arrivals in the 1850s, the nature of the Meiji restoration, migration and the rise of Japanese imperialism, and the national polity in the interwar years. Concludes with World War II and Japan’s occupation and subsequent economic transformations.  
**Note:** Credit will be granted for only one of 509A, HIST 509A.

| **HSTR 509B**  Units: 1.5  
Formerly: HIST 509B  
**Migration, Race and Empire: Canada and the Transpacific**  |

Brings together the histories of the Pacific and British Columbia using a translocal lens to analyze critically the intersections between race, colonialism and indigeneity from 1840 to the 1950s. Specific attention to the history of Asian migration from China, Japan and Korea; the experience of Asian migrants in Vancouver Island and the impact of conflicting empires (British, American and Japanese). Utilizes critical anti-racist and feminist theory, and offers possibilities for innovative public history projects and community-based, action research.  
**Note:** Credit will be granted for only one of 509B, HIST 509B.

| **HSTR 511**  Units: 1.5  
Formerly: HIST 511  
**Military History**  |

Explores historiographical issues in military history. Themes include: technology and science and war; social and cultural history of war and society; the evolution of military organization and military technologies; intellectual and philosophical writing on war.
and armed forces; military intelligence; history of air power; and naval and maritime affairs.

**Note:** Credit will be granted for only one of 511, HIST 511.

### HSTR 512
**Units:** 1.5
**Formerly:** HIST 512

**Intelectual History**
Advanced study of intellectual history. Topics to be explored may include the history of intellectual history, the similarities and differences between intellectual history and other genres of historical analysis, the rise of atheism and unbelief in early modern Europe and Enlightenment in Europe.

**Note:** Credit will be granted for only one of 512, HIST 512.

### HSTR 513
**Units:** 1.5
**Formerly:** HIST 513

**History of Gender, Sexuality and the Body**
Explores selected topics in gender history, the history of sexuality and the history of the body and addresses current theoretical and methodological debates within these fields. Focus is primarily on American history, although Canadian and British readings may be included. Explores shifting understandings of femininity, masculinity and sexualities, as well as relationships between gender and class, race, ethnicity, religion, sexualities and the body.

**Note:** Credit will be granted for only one of 513, HIST 513.

### HSTR 515A
**Units:** 1.5
**Formerly:** HIST 515A

**Public History**
Provides an overview of the branch of the discipline that involves communicating the past to non-academic audiences and analyzing applications of history outside of the university. Students meet with practitioners of public history, making professional contacts and exploring non-academic applications of their training. Connected with these practical activities are analytical questions: as they contemplate how history can be carried outside of the academy, students also discuss its purpose, importance and meaning.

**Note:** Credit will be granted for only one of 515A, HIST 515A, 519 (if taken in the same topic).

### HSTR 516
**Units:** 1.5
**Formerly:** HIST 516

**Digital History**
Explores specific computing applications used in the field known as “digital history,” and how digital history is changing the way we think about history and the past. Emphasis on student projects, student presentations and discussions of selected readings on the big questions facing the discipline, including “Is this really a revolution?”

**Note:** Credit will be granted for only one of 516, HIST 516.

### HSTR 517
**Units:** 1.5
**Formerly:** HIST 517

**Cultural History and Theory**
Explores the theory and practice of cultural history, focusing on culture as topic and as methodology. Students examine the approaches of cultural historians who either seek out new sources, or read traditional sources against the grain to provide answers to new questions. Themes may include: ritual, symbolism and meaning; objects and representation; colonialism and difference; popular culture, storytelling and language. Time period and geographical focus vary with the research area of the instructor.

**Note:** Credit will be granted for only one of 517, HIST 517.

### HSTR 518
**Units:** 1.5
**Formerly:** HIST 518

**Political History**
Examines the evolution of the state and the negotiation of power in North America. Topics may include federalism, party and bureaucratic developments, mass media and politics, and political leadership.

**Note:** Credit will be granted for only one of 518, HIST 518.

### HSTR 519
**Units:** 1.5
**Formerly:** HIST 519

**Special Topics**
- Credit will be granted for only one of 519, HIST 519 (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

### HSTR 521A
**Units:** 1.5
**Formerly:** HIST 521A, HIST 521

**Medieval Law and Administration**
The origins and development of Western European civil, canon and common law. The history of law and jurisprudence, of the relationships of law and society and of the role of law in the growth of governance and order. Direct work on legal texts and records.

**Note:** Credit will be granted for only one of 521A, 521, HIST 521.

### HSTR 521B
**Units:** 1.5
**Formerly:** HIST 521B, HIST 521

**British Legal History**
Social, cultural and political history of the law in England. Topics include crime, policing, the administration of justice, and punishments. Intended to give advanced students a general introduction to some of the main primary sources, important secondary works and historiographical issues.

**Note:** Credit will be granted for only one of 521B, 521, HIST 521.

### HSTR 522
**Units:** 1.5
**Formerly:** HIST 522

**The Social History of Religion**
Explores selected topics in the social history of religion in the context of Canada, the United States and Britain in the nineteenth and twentieth centuries. Focuses on Christianity, but also touches on other faith traditions. Topics to be explored may include popular religion, religion and mass culture, spirituality, colonialism, secularization, immigration and assimilation, religion and health, religious conflicts and prejudices and issues of class, race, gender, sexuality and family life as they relate to religion.

**Note:** Credit will be granted for only one of 522, HIST 522.

### HSTR 523
**Units:** 1.5
**Formerly:** HIST 523

**History of Science and Technology**
Advanced study of the history of science. Topics to be explored may include the history of the history of science, the Scientific Revolution, the rise of the ‘science of man’ in early modern Europe, science and Enlightenment, science and religion, and science and society in Britain, 1600-1945. May include topics in the history of technology.

**Note:** Credit will be granted for only one of 523, HIST 523.

### HSTR 526
**Units:** 1.5
**Formerly:** HIST 526

**Ethnohistory**
Examines the major issues facing ethnohistorians generally but with an emphasis on ethnohistory with respect to Indigenous peoples.

**Note:** Credit will be granted for only one of 526, HIST 526.

### HSTR 528
**Units:** 1.5
**Formerly:** HIST 528

**Field School in Ethnohistory**
A 6-week intensive community-based course where students move to the host First Nations’ community to research.

**Note:** Credit will be granted for only one of 528, HIST 528.

### HSTR 550
**Units:** 1.5
**Formerly:** HIST 550

**Non-Thesis MA Historiography/Research Methods**

**Note:** Credit will be granted for only one of 550, HIST 550.

### HSTR 590
**Units:** 1.5 or 3.0
**Formerly:** HIST 590

**Directed Reading - Field**

**Notes:**
- Credit will be granted for only one of 590, HIST 590 (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

### HSTR 591
**Units:** 1.5 or 3.0
**Formerly:** HIST 591

**Directed Reading - Topical Field**

**Notes:**
- Credit will be granted for only one of 591, HIST 591 (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

### HSTR 598
**Units:** 6.0
**Formerly:** HIST 598

**MA Major Research Paper**

**Note:** Credit will be granted for only one of 598, HIST 598.

**Grading:** INP, COM, N, F.

### HSTR 599
**Units:** 9.0-10.5
**Formerly:** HIST 599

**MA Thesis**

**Note:** Credit will be granted for only one of 599, HIST 599.

**Grading:** INP, COM, N, F.

### HSTR 690
**Units:** 1.5

**Directed Study**

**Note:** May be taken more than once for credit in different topics with permission of the department.

### HSTR 693
**Units:** 3.0
**Formerly:** HIST 693

**PhD Candidacy Examinations**

Students enrol in 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed.

**Note:** Credit will be granted for only one of 693, HIST 693.

**Grading:** INP, COM, N, F.
HSTR 695 Units: 1.5
Dissertation Proposal
Grading: INP, COM, N, F.

HSTR 699 Units: 25.5 - 36.0
Formerly: HIST 699
PhD Thesis
Note: Credit will be granted for only one of 699, HIST 699.
Prerequisites: 693
Grading: INP, COM, N, F.

IED
Indigenous Education
Faculty of Education

IED 510 Units: 1.5
Leadership and Governance for Language Revitalization
Students will develop their understanding of leadership skills and processes necessary to implement successful language and culture programs. Topics will include: planning, proposal writing, budgeting, administration, project management, as well as the place & effect of language policies at the provincial, national, international levels, as well as tribal/Indigenous governance models.

IED 520 Units: 1.5
Program Design and Curriculum Development in Indigenous Language Revitalization
Leading practices in program design and curriculum development for Indigenous language revitalization will be examined. Processes through which competence in listening, speaking, reading and writing is developed will be explored. Analysis of program design, curriculum development and their implementation to promote language and culture revitalization will be addressed.

IED 530 Units: 1.5
Indigenous Research Methods
Indigenous methodologies, research practices and protocols are examined including specific topics such as research ownership, research process and outcomes. Approaches to research that are culturally respectful, ethical, and reciprocal will be explored.

IED 531 Units: 1.5
Also: LING 531
Researching Community-Based Initiatives in Language Revitalization
An examination of language research in Indigenous communities. This course is project-based and introduces students to a range of issues in community-based language revitalization research. The diversity of languages and of community approaches will be highlighted.
Note: Credit will be granted for only one of 531, LING 531.

IED 572 Units: 1.5
SKÁLs: Indigenous Epistemologies
An exploration of the natural laws of the world from an Indigenous perspective. Critical elements of examination will include: utilizing community stories (with permission) to enhance language learning opportunities and curriculum development; reinforcing the value of the knowledge that students bring to the classroom from their home communities; living in a bi-cultural world; and the cultural effects of language and culture loss - creating places for healing.

IED 579 Units: 1.5
Comprehensive Examination
A required element of non-thesis graduate students. Areas of examination and examination format, either written or oral, will be determined by the supervisory committee in consultation with the candidate.
Grading: INP, COM, N, F.

IED 598 Units: 3.0
Major Project
Evidence of independent research work will be presented in the form of an extended paper, project, or report as determined with the supervisory committee. Students will design their project in partnership with an Indigenous community or Indigenous organization. The project will enhance the community or organization's capacity to support language revitalization while providing an opportunity for students to approach the real world challenges of language revitalization in an Indigenous context.
Grading: INP, COM, N, F.

IED 599 Units: 4.5
Thesis
Research on a topic chosen in consultation with the student's supervisory committee.
Grading: INP, COM, N, F.

IGOV
Indigenous Governance
Faculty of Human and Social Development

IGOV 520 Units: 1.5
Indigenous Governance
A critical reading of important works in the field, an intellectual framework for understanding key questions and contemporary conflicts within Indigenous societies, and a critical perspective of the relationship between Indigenous peoples and the state.
Note: Registration open to IGOV MA students only.

IGOV 530 Units: 1.5
Indigenous Research Methods
A perspective on the methods and approaches used in the study of Indigenous issues, providing the basic tools and methods used for conducting applied research, as well as an exploration of the practical, ethical, and political issues involved in conducting research in Indigenous communities.

IGOV 540 Units: 1.5
Indigenous Resurgence
An introduction to the spiritual and cultural foundations of Indigenous governance systems, and an examination of the social and environmental impacts of Indigenous resistance to colonization.
Note: Registration open to IGOV MA students only.

IGOV 550 Units: 1.5
Indigenous Peoples and Self Determination
A focused analysis of current processes to decolonize the relationships between Indigenous peoples and states (as well as other colonial entities), with particular emphasis on questions of land tenure, sovereignty, nationhood, self-determination, and treaty-making in a comparative context.
Note: Registration open to IGOV MA students only.

IGOV 560 Units: 1.5
Indigenous Peoples and Globalization
An examination of how processes of globalization and neo-colonialism impact Indigenous peoples worldwide and strategies Indigenous peoples around the world are using to confront these economic, social, political and cultural pressures in order to regenerate their communities.
Note: Registration open to IGOV MA students or by permission of the department.

IGOV 570 Units: 1.5
Indigenous Women and Resistance
An exploration of the strategies Indigenous women engage in resistance to colonialism with particular attention paid to women who root their resistance in traditional Indigenous philosophies, governance practices and ways of being.
Note: Registration open to IGOV MA students or by permission of the department.

IGOV 575 Units: 3.0
Formerly: 580
Mentorship
Mentorship provides students with counsel and advice to support personal well-being, professional development and academic performance, and consists of regular writing assignments and small group meetings with their faculty supervisor throughout the academic year.
Notes:
- Credit will be granted for only one of 575, 580.
- Registration open to IGOV MA students only.
Corequisites: Registration in 575 will be concurrent with IGOV core courses in the student's first two semesters.

IGOV 590 Units: 1.5
Directed Readings
Individually structured reading or research seminars under the direction of a participating faculty member, allowing students to pursue their interests in topics related to Indigenous governance but not specifically covered in the seminars.
Note: May not be taken more than once for credit.

IGOV 595 Units: 1.5
Special Topics in Indigenous Governance
Seminars focusing on issues of particular interest and relevance.
Notes:
- May be taken more than once for credit in different topics.
- Registration open to IGOV MA students or by permission of the department.

IGOV 598 Units: 4.5 or 6.0
Community Governance Project
Graduate course in the Indigenous Governance program administered by the Faculty of Graduate Studies.
Projects are geared toward providing a practical learning experience and opportunity for students to face the real world challenges of governance in an Indigenous context. They also serve as a crucial function for affiliated communities in providing access to the University’s resources and expertise through the students’ participation in projects to enhance the community’s governance capacity.
Community governance project interns will work on a designated research or policy development project in an Indigenous organization, under the direction of a project management team that includes community leaders and IGOV faculty. Internship placements must
be approved by the Director, and will typically involve 100 hours of work in the community and the completion of a comprehensive report based on the internship experience.

Note: Only students who entered the MA program prior to September 2009 need to register in the 6.0 unit section of 598 (requires permission of the department). Students who start their MA program on or after September 2009 need to register in the 4.5 unit section of 598.

Prerequisites: Before registering in a Community Governance Project, a student must have completed all core courses (IGOV 520, 530, 540 and 550) as well as mentorship (575) and their elective.

Grading: INP, COM, N, F.

IGOV 599 Units: 6.0
Thesis
Grading: INP, COM, N, F.

INTD Indigenous Health Studies
School of Public Health and Social Policy
Faculty of Human and Social Development

INTD 520 Units: 1.5
Community Engagement and Leadership
The concepts of respect, trust and cultural safety and their historical significance in engaging with Indigenous communities are explored. De-colonizing practices are emphasized through the exploration of relational practice and community capacity building as methods for effective engagement of community. Topics include the implications of recognizing the communal ownership of knowledge within Indigenous culture; the value of Indigenous knowledge and mentorship in the emergence of Indigenous health leaders are explored.

INTD 521 Units: 1.5
Indigenous Public Health and Social Policy
Issues and practices associated with the governance of Indigenous Peoples’ health through consideration of past, present and future experiences are explored. Students critically analyze health and social policy and the impact of colonization on the health of Indigenous Peoples. Governance for health is explored through an analysis of jurisdictional issues, existing health agreements and organizational structures. Students focus on the development of post-colonial models of policy and governance.

INTD 522 Units: 1.5
Indigenous Health Research Methodologies
Topics include the value of being in relationship with community as a foundation for research; knowledge of indigenous life course determinants relevant to the health of Indigenous Peoples; ethical, legal and social issues related to research with Indigenous Peoples.

INTD Interdisciplinary Program
Faculty of Graduate Studies

INTD 580 Units: 1.5-3.0
Directed Studies for INTD Master’s Program
Note: May be taken more than once for credit in different topics.

INTD 599 Units: 4.5-12.0
Thesis
Grading: INP, COM, N, F.

INTD 680 Units: 1.5-3.0
Directed Studies for INTD Doctoral Program
Note: May be taken more than once for credit provided course content differs.

INTD 693 Units: 3.0
PhD Candidacy Examination
Corequisites: 699
Grading: INP, COM, N, F.

INTD 699 Units: 15.0-30.0
Dissertation
Pre- or corequisites: 693
Grading: INP, COM, N, F.

ITAL Italian
Department of Hispanic and Italian Studies
Faculty of Humanities

ITAL 503 Units: 1.5
Also: SPAN 503
Core Reading List Course II
Grading: INP, COM, N, F.

ITAL 505 Units: 1.5
Also: SPAN 505
Medieval Literature

ITAL 507 Units: 1.5
Also: SPAN 507
Renaissance and Baroque Literature

ITAL 590 Units: 1.5 or 3.0
Also: SPAN 590
Directed Studies

ITAL 598 Units: 3.0
Master’s Essay
Grading: INP, COM, N, F.

ITAL 599 Units: 6.0
MA Thesis/Oral
Grading: INP, COM, N, F.

LAW Law
Faculty of Law

LAW 501 Units: 1.5
Graduate Seminar in Law and Society
A critical introduction to theoretical perspectives on Law and Society. Designed to expose students to a range of substantive issues in advanced legal research, as a foundation for the development of each student’s thesis research.
Note: Open only to Graduate students in Law.

LAW 502 Units: 1.5
Graduate Seminar in Applied Legal Methodology
A review of methodological approaches to advanced legal research, particularly as applied to the diverse research interests of seminar participants. Intended to support each student’s implementation of their research question through presentation, commentary and refinement.

Note: Open only to Graduate students in Law.

LAW 590 Units: 1.5-3.0
Directed Studies in Law
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registering in this course.

Notes:
- May be taken more than once for credit in different topics.
- Pro Forma required.

LAW 598 Units: 6.0
Major Research Paper in Law
Grading: INP, COM, N, F.

LAW 599 Units: 9.0
LLM Thesis
Grading: INP, COM, N, F.

LAW 690 Units: 1.5-3.0
Directed Studies in Law
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registering in this course.

Notes:
- May be taken more than once for credit in different topics.
- Pro Forma required.

LAW 693 Units: 3.0
PhD Candidacy Examinations
The PhD Candidacy Examination consists of an oral examination. This examination should be taken and passed within two years of entering the PhD program.
Grading: INP, COM, N, F.

LAW 699 Units: 21.0-36.0
PhD Dissertation
Prerequisites: 693
Grading: INP, COM, N, F.

LING Linguistics
Department of Linguistics
Faculty of Humanities

LING 500 Units: 1.5
Linguistic Field Methods
An introduction to the methods of data analysis, organization, and collection required in the field situation. Language of consultant may vary from year to year. The department has a particular interest in North American Native Languages.

LING 503 Units: 1.5
Introduction to Syntax
A graduate level introduction to the major subfields of syntax, reflecting recent developments in syntactic theory.
### LING 504 Units: 1.5
**Current Issues in Morphology**
Recent developments in morphological theory.

**Note:** May be taken more than once for credit to a maximum of 3 units.

### LING 505 Units: 1.5
**Introduction to Phonology**
A graduate level introduction to the major subfields of Phonology, reflecting recent developments in phonological theory.

### LING 507 Units: 1.5
**Semantics**
Recent developments in semantic theory.

### LING 508 Units: 1.5 or 3.0
**Current Issues in Generative Grammar**
Selected topics reflecting ongoing work in generative theory.

**Note:** May be taken more than once for credit.

### LING 509 Units: 1.5
**Sociolinguistics**
Selected topics in recent research related to language variation such as bilingualism, language and gender, language attitudes, social dialects. Each registrant will select a particular topic for individual research.

**Note:** May be taken more than once for credit to a maximum of 3 units in different topics.

### LING 510 Units: 1.5-3.0
**Current Issues in Phonology**
An examination of recent developments in phonological theory.

**Note:** May be taken more than once for credit.

### LING 517 Units: 1.5
**Experimental Phonetics Laboratory**
Review of recent research in the phonetic and acoustic analysis of speech and in spoken language processing. A focus on experimental procedures designed to allow students to pursue individual topics in speech research.

**Note:** May be taken more than once for credit to a maximum of 3 units.

### LING 520 Units: 1.5-3.0
**Pacific Rim Languages**
An overview of the structure of selected Indigenous languages spoken around the Pacific Rim.

**Note:** May be taken more than once for credit to a maximum of 3 units.

### LING 527 Units: 1.5
**Topics in Historical and Comparative Linguistics**
Study of principles of historical and comparative linguistics.

**Note:** May be taken more than once for credit to a maximum of 3 units.

### LING 531 Units: 1.5
Also: IED 531
**Researching Community-Based Initiatives in Language Revitalization**
An examination of language research in Indigenous communities. This course is project-based and introduces students to a range of issues in community-based language revitalization research. The diversity of languages and of community approaches will be highlighted.

**Note:** Credit will be granted for only one of 531, IED 531.

### LING 560 Units: 1.5
Also: ANTH 561
**Linguistic Anthropology**
Selected topics in Linguistic Anthropology.

**Note:** Credit will be granted for only one of 560, ANTH 560, ANTH 561.

### LING 561 Units: 1.5
**Topics in Chinese Linguistics**
Current issues in Chinese language and linguistics.

### LING 570 Units: 1.5-3.0
Also: PSYC 570
**Psycholinguistics**
A seminar offered in collaboration with the department of Psychology. Selected topics of interest in understanding the comprehension and production of natural language are examined. The most recent topics have been word recognition and lexical access, sentence processing, discourse analysis, linguistic inference and the resolution of ambiguity, and the development of cognitive science interests in reasoning and discourse processes as well as the structure of mental representations.

### LING 571 Units: 1.5 or 3.0
Also: PSYC 571
**Developmental Psycholinguistics**
A seminar offered in collaboration with the department of Psychology. Selected topics of interest in understanding the acquisition of the child’s first language in the areas of phonological and grammatical abilities, as well as the child’s knowledge of semantic systems and discourse rules. Recent topics have been the development of conversational abilities in children, including turn taking, questioning and answering, and politeness and negotiation in speech acts.

### LING 572 Units: 1.5
**The Structure of the Lexicon**
An introduction to the study of representations of lexical forms, specifically as they relate to psycholinguistic dimensions of the mental lexicon. Issues related to the structure of both the first and second language mental lexicons will be examined.

### LING 573 Units: 1.5
**Second Language Acquisition Theory and Research**
A survey and critical examination of the research on second language acquisition (SLA). Current issues and research findings related to the teaching and learning of second languages inside second language classrooms are also discussed.

### LING 574 Units: 1.5
**Seminar in Applied Linguistics**
A seminar on issues in applied linguistics, including an overview of second language learning and teaching principles, TESL/TEFL methodology, language situation contacts and multilingualism. Each participant selects a topic area of individual interest to report to the seminar.

### LING 575 Units: 1.5
**Research Methods in Applied Linguistics**
Designed to assist graduate students in developing skills necessary to design and implement research in the field of second language (SL) acquisition and applied linguistics. Examines various methods for conducting research, types of research designs, and the steps involved in planning and executing SL research projects. Students also develop skills in reading and evaluating published research in second language acquisition and applied linguistics.

### LING 576 Units: 1.5
**Form-Focused Instruction and Second Language Development**
Through a combination of reading and critical analysis of research studies, this course examines the current theoretical perspectives and research findings on the various roles that form-focused instruction and corrective feedback plays in second language development.

### LING 577 Units: 1.5
**The Global Context of Language Revitalization**
Investigates language shift, maintenance, reclamation and revitalization. Topics may include global, social, cultural, economic, political, and historical factors involved in language use, and Indigenous and non-Indigenous language contexts around the world.

### LING 578 Units: 1.5
**Sociocultural Theory and Second Language Learning**
Designed to introduce graduate students to aspects of second language learning from the perspectives of sociocultural theory and cognitive development. Students will become familiar with key concepts and principles of sociocultural theory, such as mediation, activity theory, the genetic method, internalization, the zone of proximal development, private speech, and scaffolding; examine the growing body of research in language learning and teaching from this theoretical perspective; and consider its implications for language pedagogy.

### LING 580 Units: 1.5 or 3.0
**Linguistics Seminar**
The contents of this course will vary.

**Note:** May be taken more than once for credit.

### LING 586 Units: 1.5
**Sound Structures for Applied Linguistics**
An investigation of the relationship between sound structures (as understood through phonetic theory, phonological theory, speech analysis) and applied linguistics (especially pronunciation teaching and second language acquisition).

**Note:** May be taken more than once for credit to a maximum of 3 units.

### LING 587 Units: 1.5 or 3.0
**Directed Studies**
A course designed to enable students to pursue individual interests.

**Note:** May be taken more than once for credit.

### LING 592 Units: 1.5
Formerly: 591
**Labovian Variationist Sociolinguistics**
An examination of the foundations of language variation and change in the Labovian paradigm. Emphasis is placed on the study of phonological and grammatical features and their correlations with age, sex, ethnicity and other social variables.

**Note:** Credit will be granted for only one of 591 and 592.

### LING 595 Units: 1.5
**Studies in Language and Gender**
A study of the relationship between gender socialization and pragmatics of language use. Each participant
selects a topic of interest to research and report on as a term paper and to present as a seminar.

LING 596 Units: 1.5
Cross-Cultural Communication
An examination of pragmatic linguistic factors affecting communication between cultural groups. Each participant selects a topic of interest to research and report on as a term paper and to present as a seminar.

LING 597 Units: 0
Comprehensive Examination
Students enrolled in the non-thesis option will be examined orally on at least two previous substantial research papers or their equivalent.
Grading: INP, COM, N, F.

LING 598 Units: 3.0
Major Research Paper
A major research paper (40-45 pages) reporting independent research under the direction of a faculty member. Students meet in a seminar weekly with the course instructor to discuss research topics including research designs, data collection and analyses, reporting and presentation research results, and other research related issues.
Grading: INP, COM, N, F.

LING 599 Units: to be determined
MA Thesis
Grading: INP, COM, N, F.

LING 601 Units: 1.5
Current Directions in Syntactic Theory
Selected topics reflecting current research in syntactic theory.
Note: May be taken more than once for credit in different topics.
Prerequisites: 503 or 508 or equivalent.

LING 602 Units: 1.5-3.0
Current Directions in Phonological Theory
Selected topics reflecting current research in Phonological Theory.
Note: May be taken more than once for credit in different topics.
Prerequisites: 505 or 510 or equivalent.

LING 690 Units: 1.5 or 3.0
Directed Studies
A research topic will be pursued in depth under the direction of the student’s supervisor. Students are expected to write a research paper (or papers) and to present a colloquium based on their work.
Note: May be taken more than once for credit to a maximum of 3.0 units.

LING 693 Units: 3.0
Candidacy Examination
The candidacy requirement must be satisfied within three years of registration in the doctoral program (see Faculty of Graduate Studies regulations). The candidacy examination consists of two substantial, original research papers, one in the area of phonological or syntactic theory, understood broadly, and the other in an area agreed to by the student and the supervisor.
Grading: INP, COM, N, F.

LING 699 Units: to be determined
PhD Dissertation
Note: Credit to be determined; normally 18 units.
Prerequisites: 693.

Grading: INP, COM, N, F.

MATH

Mathematics
Department of Mathematics and Statistics
Faculty of Science

MATH 510 Units: 1.5
Abstract Algebra

MATH 511 Units: 1.5
Topics in Matrix Theory and Linear Algebra

MATH 520 Units: 1.5
Number Theory

MATH 522 Units: 1.5
Combinatorics
Prerequisites: Permission of the department.

MATH 523 Units: 1.5
Graph Theory
Prerequisites: Permission of the department.

MATH 529 Units: 1.5
Topics in Discrete Mathematics
Note: May be taken more than once for credit in different topics with permission of the Chair of the department.

MATH 530 Units: 1.5
Real Analysis
Abstract measure and integration; product measures; measures on locally compact spaces and the Riesz representation theorem; the Stone-Weierstrass theorem.

MATH 531 Units: 1.5
Functional Analysis

MATH 532 Units: 1.5
Introduction to Operator Theory

MATH 533 Units: 1.5
Topics in Operator Theory and Operator Algebras
Note: May be taken more than once for credit in different topics with permission of the Chair of the department.

MATH 535 Units: 1.5
Topics in Analysis
Topics may include some of the following: ergodic theory, dynamical systems, potential theory, harmonic analysis.
Note: May be taken more than once for credit in different topics with permission of the Chair of the department.

MATH 538 Units: 1.5
Complex Analysis
Topics chosen from: conformal mappings, the Riemann mapping theorem, the maximum principle, infinite products, Picard’s theorem, normal families, Hp-spaces, approximation by rational functions, the Riemann zeta function, analytic continuation and Riemann surfaces.
Prerequisites: 330B or 338 or 438 or equivalent.

MATH 540 Units: 1.5
Topology

MATH 549 Units: 1.5 Hours: 3-0
Also: MATH 449
Scientific Computing
Note: Credit will be granted for only one of 549, 449 if taken in the same topic.
Prerequisites: Permission of the department.

MATH 550 Units: 1.5
Topics in Applied Mathematics
Note: May be taken more than once for credit in different topics with permission of the Chair of the department.

MATH 551 Units: 1.5
Differential and Integral Equations

MATH 555 Units: 1.5
Topics in Probability
Note: May be taken more than once for credit in different topics with permission of the Chair of the department.

MATH 560 Units: 1.5
Mathematical Models
The formulation, analysis and interpretation of mathematical models of selected scientific topics.

MATH 563 Units: 1.5
Algebraic Number Theory

MATH 570 Units: 1.5
Optimal Control Theory
Formulation of calculus of variations and optimal control problems. Euler and Jacobi necessary conditions. Method of dynamic programming. Existence and regularity of optimal controls. Optional topics may include: stochastic optimal control of discrete systems; optimal control and optimal stopping of Markov diffusion processes governed by stochastic differential equations and optimal control of piecewise deterministic processes.

MATH 575 Units: 1.5
Topics in Mathematical Biology
Possible topics include population modelling, infectious disease dynamics, models of neuronal networks and models of gene regulatory networks.
Note: May be taken more than once for credit in different topics with permission of the Chair of the department.

MATH 580 Units: 1.5
Topics in Pure Mathematics
Note: May be taken more than once for credit in different topics with permission of the Chair of the department.

MATH 581 Units: 1.5
Directed Studies
Directed studies may be available in the areas of faculty interest.
Notes:
- May be taken more than once for credit in different topics with permission of the Chair of the department.
- Pro Forma required.

MATH 585 Units: 0 or 1.5
Seminar
Note: May be taken only once for credit in any degree program. The seminar leader will inform students of the requirements for credit before the seminar commences. An INP grade may be assigned.
MATH 586 Units: 0 or 1.5
Operator Theory Seminar
Note: May be taken only once for credit in any degree program. The seminar leader will inform students of the requirements for credit before the seminar commences.

MATH 587 Units: 0 or 1.5
Applied Math Seminar
Note: May be taken only once for credit in any degree program. The seminar leader will inform students of the requirements for credit before the seminar commences.

MATH 588 Units: 1.5
Discrete Mathematics Seminar
Note: May be taken more than once for credit with permission of the Chair of the department.

MATH 591E Units: 1.5
Topics in Mathematics for Secondary Teachers
Intended for students enrolled in a master’s program specializing in Mathematics Education but open to students enrolled in other master’s programs in Education. One of the four topics: Geometry, Mathematical Modelling, Data Analysis, History and Philosophy of Mathematics will be taught in a given term. Topics will be rotated each term the course is offered.
Note: May be taken more than once for credit in different topics.
Prerequisites: 3 units of mathematics courses numbered 300 or higher.

MATH 599 Units: 6.0
Master’s Thesis
Grading: INP, COM, N, F.

MATH 690 Units: 1.5 to 3.0
Directed Studies
May be available in areas of faculty interest.
Notes: - May be taken more than once for credit in different topics with permission of the Chair of the department.
- Pro Forma required.

MATH 693 Units: 3.0
Candidacy Examination
Grading: INP, COM, N, F.

MATH 699 Units: 21.0-30.0
Dissertation
Corequisites: 693.
Grading: INP, COM, N, F.

MBA

Master of Business Administration
Sardul S. Gill Graduate School of Business
PhD program in International Management and Organization is found under the BUS course code.

MBA 500 Units: 3.0
Essentials of Business and Leadership
An intensive course that constitutes the beginning of the MBA program. Provides students with a foundation on which to begin the study of business at an advanced level. Key areas of skill development include business writing, presenting, teambuilding, case analysis, cross-cultural communication and career development. Provides ethical frameworks for decision making and an exploration of issues relating to international business, sustainability and social responsibility.
Note: Attendance and participation are mandatory.

MBA 501A Units: 0
Integrative Management Exercise (IME)
One or more client-based business practice exercises which integrate program subject matter, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Takes place on campus and will focus, when possible, on one or both of the International or Socially Responsible and Sustainable value pillars of the Gustavson School of Business.
Note: Attendance and participation are mandatory. Registration in MBA 501A is for the domestic, “on campus” IME.
Grading: INP, COM, N, F.

MBA 501B Units: 0
International Integrative Management Exercise (IIME)
A client-based business practice exercise which integrates program subject material, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Takes place in an international setting.
Note: Attendance and participation are mandatory. Registration in MBA 501B is for the international, “off campus” IIME.
Grading: INP, COM, N, F.

MBA 502 Units: 0
Personal and Professional Development
A course of sessions/activities delivered throughout the MBA program providing practical knowledge and practice in areas vital for professional success in the business world. Content includes: career development, team-building, leadership development, and cross-cultural boundary spanning.
Note: Students are required to register in this course for the duration of the MBA Program.
Grading: INP, COM, N, F.

MBA 510 Units: 1.5
Marketing Management
Controllable and uncontrollable marketing variables that managers face in today’s business environment. Topics include factors affecting consumer demand (including issues of sustainability, environmental impact and ethical management) and methods of satisfying it, market structure, product selection, distribution, promotion, pricing and market research. Course structure, exercises, projects and case problems are designed to develop the students’ ability to generate effective marketing strategies in the face of uncertainty.

MBA 511 Units: 1.5
Services Marketing
Intended for those students who are interested in working in service industries and addresses the distinct needs and problems of service organizations in the area of marketing. Topics include: the difference between marketing services versus manufacturing organizations; the marketing mix for service organizations; market research in services; managing demand in services; integrated services marketing communication; services pricing; and the overlap of marketing/operations/human resource systems in service organizations.
Note: Not open for students with credit in the Service Management Specialization courses previously offered under MBA 595.

Prerequisites: 510.
Corequisites: Part of the Service Management Specialization and must be taken concurrently with 512 and 513.

MBA 512 Units: 1.5
Quality Management and Service Operations
Focuses on managing and improving service firms across industries, including: financial services, health care, hospitality, retail and professional service firms. Addresses the distinct needs and problems of service organizations in the areas of operations and quality management. A core theme is a quality management approach to providing service excellence. Topics include: service strategy, service design, service quality, process improvement, service capacity management, service innovation and technology, and sustainable and socially responsible practices in services.
Note: Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595.

Prerequisites: 510.
Corequisites: Part of the Service Management Specialization and must be taken concurrently with 511 and 513.

MBA 513 Units: 1.5
Issues in Service Technology and HR Management
Addresses the distinct needs and problems of service organizations in the areas of human resource management and IT management. Topics include: e-service and the role of technology; customer relationship management (CRM); managing the organizational culture; impact of cultural differences on customer service; management and motivation of knowledge workers; customer self-service technology; the service profit chain; and sustainable and socially responsible practices in human resource management.
Note: Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595.

Corequisites: Part of the Service Management Specialization and must be taken concurrently with 511 and 512.

MBA 514 Units: 1.0
Business and Sustainability
An introduction to the business challenges and opportunities arising from the world’s growing social and ecological issues, including climate change, poverty and corporate corruption. Students are exposed to how companies across multiple sectors have chosen to respond - or not respond - to the call for sustainable social, ecological and economic value creation. Relevant tools and frameworks are introduced, including stakeholder management/engagement, triple-bottom line, Natural Step, base-of-the-pyramid strategies and social entrepreneurship.
Note: Credit will be granted for only one of 514, 580, 595 (if taken in the same topic).

MBA 515 Units: 1.0
Applied Managerial Economics
Applies economic principles to the analysis of corporate problems. Topics include product, risk and business opportunity analysis, production costs and profit maximization, the determination of prices and output under different market structures, investment decisions, and economic forecasting.

**Notes and Prerequisites:**

- Credit will be granted for only one of MBA 525, COM 446, 450 (if taken in the same topic).
- ECON 435.
- Course is not open to students with credit in the Entrepreneurship Specialization courses previously offered under 595.
- Corequisites: Part of the Entrepreneurship.
Specialization and must be taken concurrently with 562 and 563.

**MBA 562** Units: 1.5  
New Venture Marketing  
Part of the integrated MBA Entrepreneurship program, develops the thinking skills required to: develop valued products, understand customers and markets, and gain market acceptance with limited resources.  
**Note:** Not open to students with credit in the Entrepreneurship Specialization courses previously offered under 595.  
**Corequisites:** Part of the Entrepreneurship Specialization and must be taken concurrently with 561 and 563.

**MBA 563** Units: 1.5  
Entrepreneurial Strategy  
Part of the integrated MBA Entrepreneurship program, develops skills necessary to plan a venture’s strategy, business model and competitive position, to assess a strategy’s viability, and to develop implementation plans to realize that strategy. Models for international and social entrepreneurship and venture growth will also be discussed.  
**Note:** Not open to students with credit in the Entrepreneurship Specialization courses previously offered under 595.  
**Corequisites:** Part of the Entrepreneurship Specialization and must be taken concurrently with 561 and 562.

**MBA 570** Units: 2.0  
International Business Environment  
An introduction to the international business environment. Topics include the evaluation of economic platforms, the determinates of foreign currency values, problems of adaption to different cultural, political, social, legal and economic environments, corporate social responsibility (CSR) in an international context, and an analysis of the key managerial problems encountered by firms operating in international markets.

**MBA 571** Units: 1.0  
International Financial Management  
An examination of international financial markets and the financial decision making of multinational firms. Topics include international monetary systems, balance of payments, exchange rate determination, foreign currency derivatives, risk management techniques, and financing the firm in global financial markets.  
**Note:** Credit will be granted for only one of 571, MGB 512.

**MBA 572** Units: 1.5  
International Marketing and Global Strategy  
An examination of the strategic challenges facing businesses in an international context, with a focus on marketing issues. Topics include the problems associated with controlling and coordinating activities in multiple markets, managing diverse markets, responding to consumer and competitor differences, understanding the impact of different institutional structures, and coping with market consolidation.  
**Note:** Credit will be granted for only one of 572, MGB 516.

**MBA 573** Units: 1.0  
Managing People and Relationships in a Global Context  
An examination of the issues involved in managing subordinates and partners in an international context. Particular attention will be paid to how internationalization poses additional challenges to the development of human resources management practices and how cultural values affect interpersonal relationships.

**MBA 575** Units: 2.0  
Cross-Cultural Management in Malaysia  
Examines the cross-cultural issues involved in international management. In addition to 20 hours of classroom instruction in Canada, this course includes a 6-week field study in Kuala Lumpur, Malaysia, where students will be exposed to in-class instruction on the business environment of Malaysia and the ASEAN region, and a practicum in a Malaysian organization.  
**Prerequisites:** Permission of the department.

**MBA 585** Units: 0.5  
Consulting Methods  
Designed to provide an overview of management consulting. The main objective is to help students gain an understanding of management consulting skills and competencies. These consulting skills can be used in the pursuit of a consulting career or integrated as part of general management knowledge. Designed to prepare students for 501 Integrated Management Exercises and 596 Consulting Project.

**MBA 588** Units: 1.0-7.5  
Study Abroad  
Students register in this course while participating in a formal academic exchange with a university outside of Canada.  
**Note:** May be taken more than once for credit to a maximum of 7.5 units.

**MBA 590** Units: 1.0-3.0  
Directed Study  
The content, credit value, and method of evaluation must be approved by the Director as well as the instructor offering the area of individual study prior to registration.  
**Note:** May be taken more than once for credit in different topics. Pro Forma required.

**MBA 595** Units: 0.5-5.0  
Special Topics in Business Administration  
Course content will reflect the interests of the faculty members and current issues in business and industry. Topics will vary annually.  
New specialization modules will also be introduced under 595.  
**Note:** May be taken more than once for credit in different topics.

**MBA 596** Units: 3.0  
Management Consulting Report  
An individual or group consulting report. Participating students work individually or are placed into small teams and under faculty supervision, maintain a consulting/client relationship with a corporate sponsor. The students examine a problem of current interest to the sponsor and prepare detailed oral and written recommendations.  
**Grading:** INP, COM, N, F.

**MBA 598** Research Report  
A substantial analysis of a significant management problem or policy issue, prepared individually in consultation with a faculty adviser.  
**Note:** Students choosing to take 598 Research Report, rather than 596 Management Consulting Report, will be required to take an appropriate Research Methods course of 1.5 units in lieu of or in addition to 598. Students choosing 598 should consult with their academic supervisor to identify an appropriate Research Methods course.

**MBME 598** Units: 3.0  
Major Project  
A substantial analysis of a specific issue related to both management and engineering contexts, prepared individually under the supervision of faculty advisers from both the Gustavson School of Business and the Faculty of Engineering.  
**Note:** Students, in consultation with their academic adviser, should determine if they have an adequate background in research methodology prior to enrolling in 598. This may require the student to take a research methods course. Students should consult with their academic adviser to identify an appropriate course.  
**Grading:** INP, COM, N, F.

**MBMS**  
Master of Business Administration  
+ Master of Science (CSC)  
MBA Program and Faculty of Engineering  
Sardul S. Gill Graduate School of Business  
Specifically for the MBA+MEng Double Degree Program which is jointly offered by the Sardul S. Gill Graduate School of Business and the Faculty of Engineering.  
Other courses offered by the MBA Program are found under the following course code: MBA. Other courses offered by the MEng Programs are found under the following course code: ECE and MECH.

**MBMS 598** Units: 3.0  
Major Project  
A substantial analysis of a specific issue related to both management and computer science, prepared individually under the supervision of faculty advisers from both the Gustavson School of Business and the Department of Computer Science.  
**Note:** Students, in consultation with their academic adviser, should determine if they have an adequate background in research methodology prior to enrolling in 598. This may require the student to take a research methods course. Students should consult with their academic adviser to identify an appropriate course.  
**Grading:** INP, COM, N, F.
MECH 501 Units: 1.5
Introduction to Continuum Mechanics

MECH 504 Units: 1.5
Mechanical Vibration
Multi-mass linear systems; flexibility and stiffness matrices, natural frequencies, mode shapes and orthogonal properties, coupled and uncoupled system equations, solutions for damped or undamped response to arbitrary forcing and initial conditions. Linear continuous systems; wave equation problems and lateral beam vibration with classical boundary conditions. Effects of added mass or stiffness on frequencies and modes. Forced and transient response. Transfer matrix methods for lumped parameter systems and continuous systems; application to axial and torsional vibration of rods,shafts and beams with attached mass or stiffness. Non-linear vibration; basic methods for solution. Characteristic non-linear effects. Random vibration; elements of describing random response. Fourier transforms and frequency response functions.

MECH 510 Units: 1.5
Living Cells and their Molecules: Mechanics & Thermodynamics
Note: Credit will be granted for one of 510, 580 if taken in the same topic.

MECH 512 Units: 1.5
Introductory Haptics
Note: Credit will be granted for one of 512, 580 if taken in the same topic.

MECH 515 Units: 1.5
Biomaterials and Tissue Engineering
Introduction to the types of biomaterials and their associated properties. Experimental characterization techniques including microscopy, detection of chemical compositions, protein adsorption and immunoreactivity. Methods for combining biomaterials with cells to engineer tissues.
Note: Credit will be granted for only one of 515, 580 (if taken in the same topic).

MECH 520 Units: 1.5
Computer-Aided Design CAD
Basic elements of CAD and relevance to current industrial practice. Computational geometry for design and 3D geometry. Methods for curve and surface fitting. Input and output devices for computer graphics, passive as well as active. Representation of physical surfaces and computer aided drafting. Graphical programming languages. Development of interactive 3D computer graphics.

MECH 521 Units: 1.5
Computer-Aided Manufacture (CAM)
Introduction to manufacturing operations, features of numerically controlled machine tools and types of CNC programming. Manual part programming with G-codes; canned cycles, subprograms, custom macros; simulation program. CNC machining of curved surfaces with ball-mill and end-mill cutters; matching of tool and surface geometry. Curved surface machining strategies and case studies; reverse engineering of curved surface models.
Note: Also a 3 hour laboratory requirement on alternate weeks.

MECH 522 Units: 1.5
Mechanics and Dynamics of Machining
Cutting Mechanics: orthogonal cutting, oblique cutting, cutting force modeling, mechanistic modeling, specific cutting energy formulation and identification, milling and turning, tool wear, and cutting temperatures. Cutting Dynamics: structural vibrations, damping, dimensional form errors in machining, modal analysis, and chatter vibrations in orthogonal cutting and milling.
Note: Credit will be granted for one of 522, 580 if taken in the same topic.

MECH 523 Units: 1.5
Modeling and Design of Advanced Hybrid Electric Vehicles
Background of Hybrid Electric Vehicle (HEV) powertrain technologies; vehicle power plants, electric propulsion systems, transmissions, and energy storage system; vehicle performance modeling and simulation using advanced powertrain modeling tools; design and optimization of HEV powertrain system; other key issues in HEV design and developments; HEV related research and case study.
Note: Credit will be granted for only one of 523, 580 (if taken in the same topic).

MECH 524 Units: 1.5
Planning and Control of Advanced Manufacturing Systems
Introduction to manufacturing and production systems with the basic taxonomy of manufacturing, types of production processes, components of a production system, and concept of production control. Production process planning covering the experience-based process planning, knowledge-based approach using decision tables and decision trees, process capability analysis, group technology, and Computer-Aided Process Planning. Topics of planning and control of production systems, including forecasting, inventory system, aggregate production planning, material requirements planning and operation scheduling, Case studies on the planning and control of advanced manufacturing systems.

MECH 525 Units: 1.5
Global Optimization and Quantitative Reasoning Techniques
Review of conventional engineering optimization methods, global optimization algorithms, introduction of meta-modeling and metamodel-based global optimization techniques, multi-objective and multi-disciplinary optimizations; knowledge representation and reasoning, rule-based systems, fuzzy pattern clustering and recognition, and artificial neural networks; applications of metamodel-based global optimization and quantitative reasoning for computational design and optimal control.
Note: Credit will be granted for only one of 528, 620.

MECH 531 Units: 1.5
Fluid Mechanics

MECH 533 Units: 1.5
Computational Fluid Dynamics and Heat Transfer

MECH 536 Units: 1.5
Microfluidics
Fundamentals of liquid flow, capillarity, two-phase flow, species transport, ion transport, electroosmosis, electrophoresis and other electrokinetic phenomena in microstructures. Overview of experimental, computational and microfabrication methods. Applications to lab-on-chip processing and fuel cell technologies.

MECH 537 Units: 1.5
Kinetic Theory and Microscale Flows
Distribution function of gases and its moments, Boltzmann equation, conservation laws, H-Theorem (2nd law), BGK models, continuum limit; the laws of Navier-Stokes and Fourier (NSF), temperature jump and velocity slip, beyond NSF; higher order methods and moment equations, Knudsen layers. Applications to ideal gases, flow in micro channels, electrons, energy transfer in solids, etc.

MECH 538 Units: 1.5
Advanced Aircraft Design
Note: Credit will be granted for only one of 538, 580 (if taken in the same topic).

MECH 540 Units: 1.5
Transport Phenomena
Fundamentals of thermomechanics; kinematics, motion, stress, thermodynamics, fundamental principles of thermomechanics. Constitutive equations; basic principles and axioms, linearization of constitutive equations, constitutive equations of special materials such as Newtonian fluids and binary mixtures. Field equations for binary fluid mixtures. Mass transport; diffusivity and mechanisms of mass transport, examples of concentration distributions in binary solids and fluids (lamellar flow), examples from ternary systems.
cereamics; definition of ceramics and glasses; structures of ceramics; glasses and glass ceramics; properties and applications of oxide and silicate ceramics; properties and applications of carbide, boride and nitride ceramics; ceramic processing; mechanical properties; toughening mechanisms for brittle ceramics; design concepts; ceramic capacitors; ferroelectrics; piezoelectrics and electro-optic ceramics.

MECH 576  Units: 1.5
Introduction to Electron Microscopy

Note: Credit will be granted for only one of 576, 545 (if taken in the same topic).

MECH 577  Units: 1.5
Formerly: 545
X-ray Analysis of Engineering Materials

Note: Credit will be granted for only one of 577, 545.

MECH 580  Units: 1.5
Selected Topics in Mechanical Engineering

Note: May be taken more than once for credit in different topics.

MECH 590  Units: 1.5
Directed Studies
A wide range of topics will be available.

Note: Pro Forma is required.

MECH 595  Units: 1.5
Seminar
Participation in a program of seminars by internal and external speakers on current research topics. All MASc students will be required to give a seminar on their thesis research during the second year of the program. MEng students are not required to present.

Grading: INP, COM, N, F.

MECH 598  Units: 3.0
MEng Project Report
Grading: INP, COM, N, F.

MECH 599  Units: 9.0
MASc Thesis
Grading: INP, COM, N, F.

MECH 601  Units: 1.5
Engineering Analysis
Introduction to mathematical methods used in engineering analyses with focus on the application to engineering problems rather than the rigorous proofs of mathematical concepts. Topics can include: integral transformations including Laplace and Fourier transforms; complex analysis including analytic functions, theory of residues and conformal mapping; calculus of variations as applied to optimal control, finite element methods and wave equations; linear algebra including least squares problems, eigenproblems and matrix decompositions.

Note: Credit will be granted for only one of 601, 580 (if taken in the same topic).

MECH 693  Units: 3.0
Candidacy Examination
PhD students enrol in 693 for the duration of their preparation for the candidacy examination. This begins at the time the PhD student first enrols in the PhD program and continues until the candidacy examination has been completed.

Note: 601 is required before completion of 693.

Grading: INP, COM, N, F.

MECH 695  Units: 1.5
Seminar
Participation in a program of seminars by internal and external speakers on current research topics. Normally, all PhD students are required to give two seminars on their thesis research within 16 months and 34 months of registration.

Grading: INP, COM, N, F.

MECH 699  Units: 27.0
PhD Dissertation
Prerequisites: 583
Grading: INP, COM, N, F.

MGB

Master of Global Business
Sardul S. Gill Graduate School of Business

MGB 180  Units: 1.0
Formerly: 580
Language Skills I
Provides language instruction for students to significantly advance their skill and knowledge in another language. The essential points of structure and vocabulary will be taught, giving capability to function in everyday settings. Students will learn to share information about themselves in the target language and ask basic questions of those around them.

Notes:
- Credit will be granted for only one of 180, 580.
- Restricted to students enrolled in the MGB Program.
- May not be used for credit in any other undergraduate or graduate program.

Grading: FNC.

MGB 181  Units: 1.0
Formerly: 581
Language Skills II
Further development of the language skills learned in 180.

Notes:
- Credit will be granted for only one of 181, 581.
- May not be used for credit in any other undergraduate or graduate program.

Grading: FNC.

MGB 182  Units: 1.0
Formerly: 582
Language Skills III
Further development of the language skills learned in 181.

Notes:
- Credit will be granted for only one of 182, 582.
- May not be used for credit in any other undergraduate or graduate program.

Pre- or corequisites: 180
Grading: FNC.

MGB 510  Units: 1.0
The North American Business Context
Examines the socio-economic, political and legal factors that affect business operations in Canada and the United States. Topics include the Canada/US business regulatory environments, economies, governmental and legal systems, labour markets, protection of intellectual property and international trade relationships including the North American Free Trade Agreement.

MGB 512  Units: 1.0
International Financial Management
An examination of international financial markets and the financial decision making of multinational firms. Topics include international monetary systems, exchange rate determination, foreign currency derivatives, risk management techniques, and investments, financing and operations in global markets.

Note: Credit will be granted for only one of 512, MBA 571.

MGB 516  Units: 1.0
International Marketing and Global Strategy
An examination of the strategic challenges facing businesses in an international context, with a focus on marketing issues. Topics include the problems associated with controlling and coordinating activities in multiple markets, managing diverse markets, responding to competition and competitor differences, understanding the impact of different institutional structures, and coping with market consolidation.

Note: Credit will be granted for only one of 516, MBA 572.

MGB 519  Units: 1.0
International Logistics and Supply Chain Management
Examines the issues involved in managing global supply chains and logistic flows. Topics are developed around the risks and opportunities of global sourcing. They include designing and implementing global supply chains, foreign manufacturing, inventory management, coping with security concerns, outsourcing, service standards, transportation options and performance evaluation.

Note: Credit will be granted for only one of 519, MBA 529.

MGB 520  Units: 1.5
The Asian Business Context
An overview of business operations in the Asian context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in Asia and that impact Asian firms doing business in regional and global settings.

MGB 525  Units: 1.5
Developing Business in International Entrepreneurial Environments
Examines the analyse and knowledge needed for successful new global business ventures as well as within an international environment. Emphasis will be given to the various stages in the development of a business plan, from idea development to presentation of the plan.

MGB 530  Units: 1.5
The European Business Context
An overview of corporate governance structures, legal and economic systems and environmental sustainability issues in the European Union and beyond.
Prepares students to apply their knowledge and global perspective to solving business issues and challenges.

MGB 535 Units: 1.0 Consulting Methods and Practice
Provides an overview of the process of management consulting; introduces students to consulting methods to help them gain knowledge of consulting and to highlight specific consulting and research skills. To practice the application of these methodologies, student teams will examine an issue or problem being faced by their assigned overseas organizations, and provide them with consulting advice. In addition, this course will ultimately prepare students for the MGB 536 International Research and Consulting Project.

MGB 536 Units: 3.0 International Research and Consulting Project
An individual or group consulting report. Participating students, working individually or in small teams and under faculty supervision, research issues and maintain a consulting/client relationship with a corporate sponsor. The students examine a problem of current interest to the sponsor and prepare detailed written recommendations, make in-person presentations to clients and submit a final report.

Grading: INP, COM, N, F.

MGB 537 Units: 1.5 Global Internship
A preparatory program and at least 300 hours of work with an organization that normally (1) has an international component linking two or more regions, or (2) is located in any region of the world, provided that it is not the student’s “home” region or country. Requires students to apply their learning through a reflective component that describes how the coursework and the Internship experience in particular have prepared them for global business related careers.

Note: Students who fail to complete an internship by the end of four academic terms may be required to withdraw.

Grading: INP, COM, N, F.

MGB 540 Units: 1.5 The South American Business Context
An overview of business operations in the South American context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in South America and that impact South American firms doing business in regional and global settings.

MGB 570 Units: 2.0 Global Leadership and Cultural Intelligence
An examination of the various dimensions of culture and cross-cultural leadership and management. Topics include how cultural intelligence and global mindset impact teamwork, conflict management, negotiations, motivation and overall leadership in international settings. Compares how people from the three regions of the MGB program modules (e.g., North America, Asia and Europe) are similar and how they differ along these dimensions, including the challenges resulting from these differences and how to resolve them.

MGB 583 Units: 1.5 Language, Communication and Global Business
Business research project report based on course work, research and language training. Students will conduct a research project on a specific business and management topic related to global business. Projects must be planned and approved by the instructor.

Pre- or corequisites: 180.

MUS 503 Units: 1.5 Introduction to Graduate Study and Music Bibliography
Note: All students in musicology must register for this course in their first term of graduate study.

MUS 504 Units: 1.5 Seminar in Performance Practices
Note: May be taken more than once for credit at the discretion of the School.

MUS 506A Units: 1.5 Advanced Recording Techniques
Advanced study to the theory and practice of recording audio technology, studio techniques and procedures. Study to include: advanced stereo microphone techniques, introduction to surround sound, high resolution formats including SACD, DVD-A, DSD, electroacoustic measurements and multi-track recording and theory. Practical work includes recording sessions, mixing and producing.

MUS 506B Units: 1.5 Sound Recording Seminar
Advanced study of sound recording and music production techniques using the production of a full length CD or DVD as a model. Topics will include techniques in audio post-production and editing with advanced equipment, music production, location recording, and readings of current research and technical papers. Requires the completion of a full length CD or DVD project.

Prerequisites: 506A or permission of the School.

MUS 507 Units: 3.0 Computer Music Seminar

MUS 508 Units: 1.5 Formerly: 506.
Musical Acoustics
The physics of musical sound and the acoustics of musical instruments. Timbre, scales, tuning and temperament. An introduction to psychoacoustical issues.

Note: Credit will be granted for only one of 508, 506.

MUS 530 Units: 1.5 Topics in Musicology Before 1750
Note: May be taken more than once for credit in different topics.

MUS 531 Units: 1.5 Topics in Musicology After 1750
Note: May be taken more than once for credit in different topics.

MUS 532 Units: 1.5 Comparative Topics in Musicology
Note: May be taken more than once for credit in different topics.

MUS 533 Units: 1.5 Graduate Forum in Musicology
Develops skills in professional activities in the field of musicology, including delivering an in-house conference paper, serving as a respondent to a peer paper, and editing or publishing an article in Musicological Explorations. Provides a forum for Major program requirements leading up to the first year review.

MUS 534 Units: 1.5 Advanced Research Forum in Musicology
Core seminar in advanced research skills for second-year degree candidates in Musicology that provides an interactive forum for completion of major program requirements. Students conduct research in diverse
areas of inquiry in musicology and gain professional experience through the preparation of a conference presentation. Candidates for the MA complete their Comprehensive Examinations and a formal Thesis Proposal, while PhD candidates complete their formal proposal for the Comprehensive Examinations in the context of the Forum.

Prerequisites: 533.
Grading: INC, COM, N, F.

MUS 540  Units: 0.5 or 1.0
Individual Tuition
Lessons in instrument or voice.

Notes:
- Approval of the student’s Supervisory Committee and permission of the School are required.
- May be taken more than once for credit at the discretion of the School.

MUS 545  Units: 4.0
Major Instrument Study
Individual tuition, integrated performance seminar and master class.

Notes:
- For MMus candidates in performance only.
- May be taken more than once for credit with permission of the School.
- May be taken more than once for credit at the discretion of the School.
- 545Q must be taken in each year of the program.

MUS 545Q  Units: 4.0
Major Instrument Study
For students in Master of Music (MMus) in Performance-Emphasis in String Quartet program.

Notes:
- May be taken more than once for credit with permission of the school.
- 545Q must be taken in each year of the program.

MUS 555  Units: 3.0
Individual Tuition in Composition
Note: May be taken more than once for credit at the discretion of the School.

MUS 561  Units: 1.5
Seminar in Composition
Seminar in Composition, taken each year.
Note: May be taken more than once for credit.

MUS 562A  Units: 1.5
Seminar in Performance of New Music
This seminar/workshop provides intensive professional training for performers who work together with composers in the creation, performance, and production of new music. Graduate performers will prepare new works composed specifically for them by the composers registered simultaneously in 562B. Training in contemporary notation and performance practices, extended techniques, instrumentation, analysis, conducting techniques, communication skills, and concert production. The final project will be a festival.

MUS 562B  Units: 1.5
Seminar in Contemporary Composition and Performance
This seminar/workshop provides intensive professional training for composers who work together with performers in the creation and production of new music. Composers will create new works designed for small mixed ensembles of performers registered simultaneously in 562B, and work with them to prepare the works for performance. Training in contemporary notation and performance practices, analysis, instrumentation, communication skills, and concert production. The final project will be a festival.

MUS 580  Units: 1.0
Ensembles
MMus candidates in Performance will normally register for both this course and 581 in each year of study. MA candidates in Musicology (with Performance) will normally select one of 580 or 581 each year, as determined in consultation with the supervisor.

MUS 581  Units: 1.0
Chamber Music
MMus candidates in Performance will normally register for both this course and 580 in each year of study. MA candidates in Musicology (with Performance) will normally select one of 580 or 581 each year, as determined in consultation with the supervisor.

MUS 588  Units: 1.0
MMus Practicum
Recital for performance candidates normally taken in first year.
Grading: INC, COM, N, F.

MUS 590  Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit at the discretion of the School.

MUS 596  Units: 1.5
Lecture-Recital
A lecture-recital of substantial duration, its topic likely related to the student’s thesis. For students in the MA program in Musicology with Performance.
Grading: INC, COM, N, F.

MUS 598A  Units: 1.5
MMus Practicum
Degree recital required for performance candidates in final year.
Grading: INC, COM, N, F.

MUS 598B  Units: 3.0
MMus Graduating Compositions
Grading: INC, INP, COM, F.

MUS 598Q  Units: 1.5
MMus Practicum
Students in the Master of Music (MMus) in Performance-Emphasis in String Quartet Program must complete a total of 3 recitals to fulfill this requirement.
Grading: INC, COM, N, F.

MUS 599  Units: 3.0
MA Thesis
Grading: INC, COM, N, F.

MUS 689  Units: 1.5
Dissertation Proposal
For candidates for the PhD in Musicology.
Grading: INC, COM, N, F.

MUS 690  Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit at the discretion of the School.

MUS 693  Units: 3.0
PhD Candidacy Examinations
Students enrol in MUS 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed.

Grading: INC, COM, N, F.

MUS 699  Units: to be determined
PhD Dissertation
Note: Credit to be determined.
Prerequisites: 693.
Grading: INC, COM, N, F.

NRSC
Neuroscience
Division of Medical Sciences

NRSC 500  Units: 3.0
Fundamentals of Neuroscience
This is a team-taught course that provides graduate students with a foundational basis in neuroscience. Students cover the essentials of neuroscience, and receive comprehensive instruction in cellular, molecular, systems, behavioral and cognitive neuroscience from resident experts.

Notes:
- This course is required for all students enrolled in the Neuroscience Graduate Program.
- This course runs from September to April.

NRSC 501A  Units: 1.5 Hours: 3-0
Advanced Topics in Cellular Neuroscience I
Seminar on current topics in Cellular Neuroscience.
Note: For admitted Neuroscience students, this course is required in the first year of their program. The course runs from September to April. A grade of INP (in progress) will be given until the second enrolled semester is completed.

NRSC 501B  Units: 1.5 Hours: 3-0
Advanced Topics in Cognitive Neuroscience I
Seminar on current topics in Cognitive Neuroscience.
Note: For admitted Neuroscience students, this course is required in the first year of their program. The course runs from September to April. A grade of INP (in progress) will be given until the second enrolled semester is completed.

NRSC 502A  Units: 1.5 Hours: 3-0
Advanced Topics in Cellular Neuroscience II
Seminar on current topics in Cellular Neuroscience.
Note: Registration in 502A is mandatory (after completion of 501A) every year the student is enrolled in the graduate program. The course runs from September to April.
Prerequisites: 501A or 501B.
Grading: INC, COM, N, F.

NRSC 502B  Units: 1.5 Hours: 3-0
Advanced Topics in Cognitive Neuroscience II
Seminar on current topics in Cognitive Neuroscience.
Note: Registration in 502B is mandatory (after completion of 501B) every year the student is enrolled in the graduate program. The course runs from September to April.
Prerequisites: 501A or 501B.
Grading: INC, COM, N, F.

NRSC 587  Units: 1.5 - 3.0
Advanced Topics in Neuroscience
Topics of current interest in Neuroscience.
Notes:
- May be taken more than once under the supervision of an appropriate Neuroscience faculty member.
- Pr Forma and permission from Director of the Neuroscience program required.

NRSC 590 Units: 1.5 - 3.0
Directed Studies in Neuroscience
Research projects or directed readings.
Notes:
- May be taken more than once under the supervision of an appropriate Neuroscience faculty member.
- Pr Forma and permission from Director of the Neuroscience program required.

NRSC 595 Units: 1.5
MSc Thesis Preparation
Students will be engaged in preparing a thesis proposal for presentation to their supervisory committee. This course will need to be completed by all MSc students enrolled in the Graduate Program in Neuroscience before having a thesis proposal evaluated by their supervisory committee.
Grading: INP, COM, N, F.

NRSC 599 Units: 9.0-12.0
MSc Thesis
A thesis comprising an original scientific study and/or scientific analysis of a problem germane to contemporary neuroscience.
Prerequisites: 595 or equivalent
Grading: INP, COM, N, F.

NRSC 600 Units: 3.0
Fundamentals of Neuroscience
This is a team-taught course that provides graduate students with a foundational basis in neuroscience. Students cover the essentials of neuroscience, and receive comprehensive instruction in cellular, molecular, systems, behavioral and cognitive neuroscience from resident experts.
Notes:
- This course is required for all students enrolled in the Neuroscience Graduate Program.
- This course runs from September to April.

NRSC 601A Units: 1.5
Advanced Topics in Cellular Neuroscience I
Seminar on current topics in Cellular Neuroscience.
Note: For admitted Neuroscience students, this course is required in the first year of their program. The course runs from September to April. A grade of INP (in progress) will be given until the second enrolled term is completed.

NRSC 601B Units: 1.5
Advanced Topics in Cognitive Neuroscience I
Seminar on current topics in Cognitive Neuroscience.
Note: For admitted Neuroscience students, this course is required in the first year of their program. The course runs from September to April. A grade of INP (in progress) will be given until the second enrolled term is completed.

Grading: INP, COM, N, F.

NRSC 602B Units: 1.5
Advanced Topics in Cognitive Neuroscience II
Seminar on current topics in Cognitive Neuroscience.
Note: Registration in 602B is mandatory (after completion of 601B) every year the student is enrolled in the graduate program. The course runs from September to April.
Prerequisites: 601A or 601B.
Grading: INP, COM, N, F.

NRSC 601A Units: 1.5
Advanced Topics in Cellular Neuroscience II
Seminar on current topics in Cellular Neuroscience.
Note: Registration in 602A is mandatory (after completion of 601A) every year the student is enrolled in the graduate program. The course runs from September to April.
Prerequisites: 601A or 601B.
Grading: INP, COM, N, F.

Grading: INP, COM, N, F.

NRSC 602B Units: 1.5
Advanced Topics in Cognitive Neuroscience II
Seminar on current topics in Cognitive Neuroscience.
Note: Registration in 602B is mandatory (after completion of 601B) every year the student is enrolled in the graduate program. The course runs from September to April.
Prerequisites: 601A or 601B.
Grading: INP, COM, N, F.

NRSC 687 Units: 1.5 - 3.0
Advanced Topics in Neuroscience
Topics of current interest in Neuroscience.
Notes:
- May be taken more than once under the supervision of an appropriate Neuroscience faculty member.
- Pr Forma and permission from Director of the Neuroscience program required.

Grading: INP, COM, N, F.

NRSC 690 Units: 1.5 - 3.0
Directed Studies in Neuroscience
Research projects or directed readings.
Notes:
- May be taken more than once under the supervision of an appropriate Neuroscience faculty member.
- Pr Forma and permission from Director of the Neuroscience program required.

Grading: INP, COM, N, F.

NRSC 693 Units: 3.0
Candidacy Examination
The Candidacy exam will consist of a defence of a written proposal (10 page CIHR format) on the student's proposed dissertation research project and an oral exam based on the background material and research components of the proposal. The exam committee will be composed of a chair (current director of the neuroscience program or their designate) and at least three examiners. Members of the student's supervisory committee (excluding the supervisor) may serve as examiners but at least one examiner must be from outside of the supervisory committee and at least one of the examiners must be from outside of the candidate's supervisory's department. The candidate's supervisor is permitted to be present during the exam but is not permitted to participate or aid the student in any manner. Both the oral and written components of the exam must be successfully completed to advance in the program and a student may be required by the examining committee to be re-examined on either component if performance in the first instance is not deemed satisfactory. Students are only permitted one re-test of either component, and re-tests must be undertaken within two months of the initial exam. Failure on both components of the exam initially, or one component twice, will be considered grounds for removal from the Neuroscience Program.

The candidacy examination must be held within 21 months of a student entering the PhD program. Students transferring from the MSc to the PhD program must complete the exam with 18 months from their entry into the PhD.

Note: Credit will be granted for only one of 531, NURA 532.

NRUO 570 Units: 1.5
Formerly: NURA 530
Engaging with Pedagogy: Teaching and Learning in Nursing Education
Prepares students to explore and critically examine the philosophical, theoretical and ethical perspectives informing pedagogy in nursing education.
Note: Credit will be granted for only one of 570, NURA 530.

NRUO 571 Units: 1.5
Formerly: NURA 531
Critical Pedagogy in Nursing Education and Evaluation
Students identify and critique ideologies and discourses relevant to teaching, learning and evaluation.
Note: Credit will be granted for only one of 571, NURA 531.
Prerequisites: 570.

NRUO 572 Units: 1.5
Formerly: NURA 532
Intersectoral Course and Curriculum Design in Nursing Education
Students apply theoretical and critical knowledge in the development of nursing curriculum, courses and learning activities for intersectoral nursing education practice.
Note: Credit will be granted for only one of 572, NURA 532.
Prerequisites: 570, 571.

NRUO 573 Units: 1.5 Hours: 104
Nurse Educator Practice I
Students will have opportunities to further integrate their evolving knowledge of Advanced Practice Nursing: Nurse Educator option through working with expert teachers in clinical, academic, and/or community settings.
Prerequisites: 570
Corequisites: 571
NUNP 531 Units: 1.5
Applied Pathophysiology
Provides students with the advanced knowledge of pathophysiology required to understand, diagnose and treat health and illness in primary health care contexts. Includes an overview of individual and family growth and development as well as the epidemiology of health and disease across the lifespan. Students will learn about the etiology, signs and symptoms, assessment and treatment of common acute/epidemic health conditions, diseases or disorders and chronic illnesses prevalent across the lifespan.

NUNP 532 Units: 1.5
Pharmacological Interventions in Health and Illness
An opportunity for students to gain advanced knowledge of pharmacology, including pharmacokinetics and pharmacodynamics. Students will learn about evidence informed practice in the selection, prescription and monitoring of drugs to treat diseases, disorders or conditions and injuries. By the end of the course they should know how to select drug therapy based on knowledge of pharmacology, drug interactions, client health history and client disease, disorder or condition. Students will be prepared to write prescriptions that meet both provincial and federal standards and legislative requirements, including responsibilities relevant to prescription and management of controlled substances. Further, students will examine the effects of the marketing practices of pharmaceutical companies on prescribing practices and explore the ethics and implications for practice as a family nurse practitioner.

NUNP 537 Units: 1.5
Family Nurse Practitioner Internship
Designed to assist students in integrating and consolidating their practice as family nurse practitioners. Also designed to ensure that students are prepared to meet the regulatory requirements to achieve a Family NP designation. The main focus will be on students engagement of 200 hours of direct practice under the guidance of a faculty instructor and practice mentor(s). In addition to integrating and consolidating the theory and practice they have developed in NUNP 543/544, 545/546 and 547/548 students will increasingly take on leadership roles. This will include addressing gaps in needed health services, promoting continuity of health care and fostering prevention and health promotion programs. Students will draw on their knowledge about the health impact of community or population transitions as well as their knowledge of individual and family experiences in providing such leadership. There will be a required onsite component in this course.

NUNP 540 Units: 1.5
Advanced Assessment and Diagnostic Reasoning Theory
The theoretical knowledge, judgment, skills, and abilities required by advanced practice nurses, specifically nurse practitioners, to assess individuals across the lifespan, families and communities. Includes comprehensive and holistic health assessments that integrates the psychosocial, emotional, ethnic, cultural, and spiritual dimensions of health, health promotion and disease prevention, and diagnostic reasoning. Integration of an advanced practice nursing perspective will help students critique various approaches to assessment of health and illness.

NUNP 541 Units: 1.5
Advanced Assessment and Diagnostic Reasoning Practice
An opportunity for 150 hours of practice experience through the application of theoretical knowledge required by advanced practice nurses, specifically nurse practitioners, to assess individuals across the lifespan, families and communities. The focus is on the development of students' knowledge, judgment, and skills required by the advanced practice nurse practitioner role (NP) competencies of health assessment, health promotion and disease prevention and professional roles and responsibilities. There will be a required onsite component in this course.

Notes:
- Credit will be granted for only one of 533, 541.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite course they may be required to complete both corequisites again the next time they are offered. Students may be required to demonstrate knowledge and skills obtained in 531, 532 upon enrolment in 540/541 if 12 months or more has lapsed between their completing these courses and enrolling in 540/541.

NUNP 543 Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: I (Theory) (Adult I)
Advanced practice nursing with persons who experience episodic illness conditions, chronic diseases, and complex health challenges. Particular attention is paid to theoretical perspectives and skill development related to nurse practitioner core competencies with culturally diverse young to middle-aged adults and families. Selected concepts, theories, and research associated with health promotion and illness prevention are explored within the community context. Students will receive a letter grade upon completion.

Notes:
- Credit will be granted for only one of 543, 534, 550.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered. Students may be required to demonstrate knowledge and skills obtained in 531, 532, 540 and 541 upon enrolment in 543/544 if 12 months or more have lapsed between completing prerequisite courses and enrolling in 543/544.

NUNP 544 Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: I (Practice) (Adult I)
An opportunity for 150 hours of practice experience through which students engage in advanced practice nursing under the guidance of a course instructor and clinical preceptor. Integration of philosophical, theoretical, and methodological perspectives gleaned from 543 as well as from core courses within the program is sought. There will be a required onsite component
to this course. Upon completion of the practice component, students will receive a pass/fail grade.

Notes:
- Credit will be granted for only one of 544, 534, 551.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered. Students may be required to demonstrate knowledge and skills obtained in 531, 532, 540 and 541 upon enrolment in 543/544 if 12 months or more have lapsed between completing prerequisite courses and enrolling in 543/544.

Corequisites: 531, 532, 540, 541.

Grading: INC, COM, N, F.

NUNP 547 Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: II (Theory)
(Adult II)
Advanced practice nursing with persons who experience episodic illness conditions, chronic diseases, and complex health challenges. Particular attention is paid to theoretical perspectives and skill development related to nurse practitioner core competencies with culturally diverse older adults and families. Selected concepts, theories, and research associated with health promotion and maintenance, illness prevention, chronic disease management, and end of life care are explored within the community context. Upon completion of the theory component, students will receive a letter grade.

Notes:
- Credit will be granted for only one of 547, 534, 550.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered. Students may be required to demonstrate knowledge and skills obtained in 531, 532, 540, 541, 543 and 544 upon enrolment in 547/548 if 12 months or more have lapsed between completing prerequisite courses and enrolling in 547/548.

Corequisites: 531, 532, 540, 541, 543, 544.

Grading: INC, COM, N, F.

NUNP 548 Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: III (Practice)
(Adult II)
An opportunity for 150 hours of practice experience through which students engage in advanced practice nursing under the guidance of a course instructor and clinical preceptor. Integration of philosophical, theoretical, and methodological perspectives gleaned from 547 as well as from core courses within the program is sought. There will be a required onsite component to this course. At the completion of the practice component, students will receive a pass/fail grade.

Notes:
- Credit will be granted for only one of 548, 534, 551.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered. Students may be required to demonstrate knowledge and skills obtained in 531, 532, 540, 541, 543 and 544 upon enrolment in 548 if 12 months or more have lapsed between completing prerequisite courses and enrolling in 547/548.

Corequisites: 531, 532, 540, 541, 543, 544.

Grading: INC, COM, N, F.
NURS 519 Units: 1.5
Nursing Leadership II
Exploration of the influences and effects of contemporary leadership practices related to health systems and organizations. The impact of current organizational structures and discourses on the delivery of health care, development of health policy and enactment of advanced practice nursing will be explored.

Pre- or corequisites: 516 or permission of the department.

NURS 500 Units: 1.5
Scholarly Writing for Advanced Practice Nursing
Review of academic writing fundamentals and processes. Students select topics relevant to their program focus and write a summary/critique of scholarly literature, a limited literature review, and an argument paper. Students learn to participate in peer review and revision to improve their writing.

NURS 501 Units: 1.5
Qualitative Approaches to Research in Nursing
Nursing phenomena are considered through a range of qualitative research approaches. Central to this process is an exploration of interrelationships between and among philosophical tenets and the construction of research questions, selection of methods, and theoretical influences on data interpretation and analysis for a range of qualitative approaches to research.

Prerequisites: 508 or permission of the department.

NURS 504 Units: 1.5
Phenomenological and Hermeneutic Approaches to Inquiry
An opportunity to explore assumptions and values underlying selected approaches to interpretive inquiry: hermeneutics and phenomenology. Focuses on the philosophical and methodological underpinnings of interpretive thinking/practice/research through readings/conversation of interpretive texts. The practice of developing interpretive writing/thinking is an important part of this process. Students will participate in a project that provides an experience for the generation and interpretation of text, related to their area of practice/research interest.

Prerequisites: 508 or permission of the department.

NURS 507 Units: 1.5
Theoretical Knowledge and Advanced Practice Nursing
Examines and critiques how theories inform and shape nursing and advanced practice nursing. Students will explore theories of nursing and theories influencing nursing guided by a philosophical framework that includes ontological, epistemological and ethical approaches.

Note: Credit will be granted for only one of 507, NURA 512, 513.

Prerequisites: 506.

NURS 508 Units: 1.5
Methodological Knowledge and Advanced Practice Nursing
Explores a variety of approaches to research guided by a philosophical framework that includes ontology, epistemology and ethics. Emphasis will be placed on developing student’s abilities to critically appraise and synthesize research studies with a view to clarity, consistency and coherence.

Note: Credit will be granted for only one of 508, NURA 514.

Prerequisites: 506.

NURS 509 Units: 1.5
Evaluation of Health Care
Exploration of concepts, theories and strategies for evaluating nursing care and health programs/services as applied to a range of health care settings.

Prerequisites: 508 and NURA 516 or permission of the department.

NURS 510 Units: 1.5
Applied Statistics in Nursing
Students will develop familiarity with advanced statistical methods as they are applied to nursing and health care. These will include multiple linear regression, factor analysis, and multivariate analysis of variance. A brief introduction to structural equation modelling and psychometric methods may be offered.

Prerequisites: 425 or permission of the department.

NURS 511 Units: 1.5
Health Services Research
This course introduces nurses to health services research and examines the contributions that nurses make to this field of inquiry and to the health care system. Issues of significance for nurses and the knowledge nurses need to understand and engage in nursing health services research are explored. Key concepts such as population health, health care delivery, health policy, quality of care and related research methods will be examined.

Prerequisites: 508 or permission of the department.

NURS 555 Units: 0.5
Trends and Issues in Advanced Practice Nursing I
Explores the notion of advanced practice nursing (APN) in light of the Canadian Nurses Association (CNA) Advanced Practice Nursing Framework as well as other relevant resources. Students are expected to consider the mandate, competencies, and divergent perspectives and knowledge bases related to APN as they challenge and extend the boundaries of nursing practice and advance the profession. Addresses the evolution of APN in Canada, issues related to how advanced practice nursing is defined and competencies of APN internationally, nationally and locally.

Grading: INC, COM, N, F.

NURS 556 Units: 0.5
Trends and Issues in Advanced Practice Nursing II
Explores the notion of advanced practice nursing (APN) in light of the Canadian Nurses Association (CNA) Advanced Practice Nursing Framework as well as other relevant resources. Students are expected to consider the mandate, competencies, and divergent perspectives and knowledge bases related to APN as
they challenge and extend the boundaries of nursing practice and advance the profession. Addresses health policy and issues related to APN.

**Prerequisites:** 565.

**Grading:** INC, COM, N, F.

**NURS 567**

**Units:** 0.5

**Trends and Issues in Advanced Practice Nursing III**

Explores the notion of advanced practice nursing (APN) in light of the Canadian Nurses Association (CNA) Advanced Practice Nursing Framework as well as other relevant resources. Students are expected to consider the mandate, competencies, and divergent perspectives and knowledge bases related to APN as they challenge and extend the boundaries of nursing practice and advance the profession. Addresses professional, ethical and legal issues related to APN.

**Prerequisites:** 565, 566.

**Grading:** INC, COM, N, F.

**NURS 568**

**Units:** 1.5

**Trends and Issues in Advanced Practice Nursing**

Explores the notion of advanced practice nursing (APN) in light of the Canadian Nurses Association (CNA) Advanced Practice Nursing Practice Framework as well as other relevant resources. Students have the opportunity to consider the mandate, competencies, and divergent perspectives and knowledge bases related to APN as they challenge and extend the boundaries of nursing practice and advance the profession. Students will consider the evolution of APN in Canada as well as issues related to the definitions, competencies, and legal and ethical issues related to advanced practice nursing locally, nationally and internationally.

**Notes:**
- Credit will be granted for only one of 568, 565/566/567.
- Not open to students applying to or currently registered in the Nurse Practitioner Program.

**Grading:** INC, COM, N, F.

**NURS 590**

**Units:** 1.5 or 3.0

**Directed Studies**

An opportunity for students to develop individual studies at the graduate level (e.g., directed readings, research project etc.) with the supervision of one or more faculty members. A plan of study including focus, credit value and evaluation method is developed in consultation with a faculty member and must be approved by the graduate adviser prior to registering in this course.

**Notes:**
- May be taken more than once in different topics for credit in the Nursing graduate programs with prior permission of the Graduate Supervisor and Nursing Advising.
- Pro Forma is required for registration.

**Grading:** INC, COM, N, F.

**NURS 593**

**Units:** 1.5

**Thesis/Project Seminar**

Prepares students to select either a project or thesis option in their program and to finalize membership on the supervisory committee. Students will explore options for research and begin work on the project or thesis proposal.

**Grading:** INC, COM, N, F.

**NURS 594**

**Units:** 1.5

**Scholarly Inquiry: Integrating Knowledge and Practice**

Explores how scholarly inquiry and knowledge mobilization can promote evidence-informed nursing practice. Students also explore options for and discuss the process of completing a nursing practice, leadership, or education project.

**Note:** Credit will be granted for only one of 594, 593.

**Grading:** INC, COM, N, F.

**NURS 596**

**Units:** 3.0

**Nursing Scholarship: Integration & Dissemination**

Exploration of creative ways to disseminate what students have learned from the advanced practice nursing program. Students will produce a scholarly paper, present their work and respond to questions. This final paper and presentation will be evaluated by a minimum of two faculty members from the School of Nursing who are also members of the Faculty of Graduate Studies.

**Note:** Credit will be granted for only one of 596, 598.

**Grading:** INC, COM, N, F.

**NURS 598**

**Units:** 3.0

**Practice Project**

Students will complete a project that is creative, innovative and contributes to scholarly nursing practice in an area of professional interest. The project is intended to facilitate synthesis of students’ graduate experience and contribute to their development as advanced practice nurses. The project is an alternative to the Thesis Option (NURS 599). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

**Notes:**
- Credit will be granted for only one of 598, 596.
- The examining committee of a student sitting a non-thesis oral will be comprised of a supervisor, a committee member and a Chair.

**Grading:** INC, COM, N, F.

**NURS 599**

**Units:** 6.0

**Thesis**

Students working independently, with faculty guidance, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. The thesis option is an alternative to the Practice Project (NURS 598). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

**Grading:** INC, COM, N, F.

**NURS 601**

**Units:** 1.5

**Philosophy in Nursing**

Explores the range of philosophical schools of thought and traditions that have influenced the development of the discipline of Nursing. Prepares students to participate in and contribute to knowledge development that will shape the evolution of the discipline.

**NURS 602**

**Units:** 1.5

**Epistemological Discourses in the Study of Nursing**

Explores the current state of theorizing that underpins nursing’s disciplinary and knowledge claims.

**Pre- or corequisites:** 601 or permission of the department.

**NURS 604A**

**Units:** 1.5

Formerly: NURS 604.

**Research Methodology for Nursing and Health Care: Qualitative**

Explores assumptions and claims underlying qualitative methodologies that inform research in professional nursing practice and health care.

**Note:** Credit will be granted for only one of 604, 604A.

**Grading:** INC, COM, N, F.

**NURS 604B**

**Units:** 1.5

Formerly: NURS 604.

**Research Methodology for Nursing and Health Care: Quantitative**

This portion of the course will explore assumptions and biases underlying various quantitative methodologies that inform research in professional nursing practice and health care. We will examine quantitative research designs with particular emphasis on their appropriateness for addressing nursing and health problems. Issues specific to the design of nursing health care studies are explored.

**Note:** Credit will be granted for only one of 604, 604B.

**Prerequisites:** 601, 604A is not a pre-requisite or co-require of 604B.

**NURS 620**

**Units:** 1.5 or 3.0

**Research Internship**

Research Internships are arranged with a specific faculty member and may be taken over one or several terms. During the Research Internship, a learner will have hands-on experiences with several aspects of research, for example, the conceptualization of a study, study design, applying for funding, obtaining ethical approval, accessing the field, collecting and analyzing data, writing, and knowledge translation.

**Notes:**
- The student must obtain permission of the graduate supervisor and the instructor offering the area of individual study prior to registering in this course.
- Registration is arranged by the department.

**Grading:** INC, COM, N, F.

**NURS 621**

**Units:** 1.5

**Doctoral Seminar**

Opportunities to engage in dialogue about the contribution of doctoral education to the academic discipline and professional practice of nursing. This course will take place over two semesters.

**Grading:** INC, COM, N, F.

**NURS 622**

**Units:** 1.5

**Dissertation Seminar**

Opportunities to engage in dialogue about topics that will support their preparation for doctoral candidacy exams and dissertation research. Students actively participate in the planning and process of the course, taking leadership roles and presenting their own scholarly work.

**Grading:** INC, COM, N, F.

**NURS 630**

**Units:** 1.5 or 3.0

**Teaching Internship**

Teaching Internships may be arranged with a specific faculty member and may be taken over one or several terms. During the Teaching Internship, a student will engage with several aspects of nursing education, for example, classroom or on-line teaching, educational research initiatives and/or, writing a paper for publication.

**Notes:**
- The student must obtain permission of the graduate supervisor and the instructor offering the area of individual study prior to registering in this course.
- Pro Forma is required for registration.

**Grading:** INC, COM, N, F.

**NURS 680**

**Units:** 1.5-4.5

**Special Topics in Research Methods**

Based on student demand, courses on the following focused topics will be organized for individuals or
groups of students: issues of measurement, evaluation, research, grounded theory, ethnography, hermeneutics and phenomenology, discourse analysis, historical analysis, instrument development and testing and participatory action research. This research-focused course is available to small groups of interested students and/or individuals by faculty members and/or visiting faculty.

Notes:
- Students will be required to take 1.5 units of 680 course work and can, with permission of their program supervisor, enrol in as many as 4.5 units of 680 course work. The student must obtain permission of the graduate supervisor and the instructor offering the area of individual study prior to registering in this course.
- Pro Forma is required for registration.

NURS 690 Units: 1.5 or 3.0
Directed Studies
Provides opportunities for students to develop individual studies at the doctoral level (e.g., directed readings, research project etc.) with the supervision of one or more faculty members. A plan of study including focus, credit value and evaluation method is developed in consultation with a faculty member and must be approved by the graduate adviser prior to registering in this course. We encourage students interested in a research topic to register for a NURS 680 course rather than a NURS 690.

Notes:
- The student must obtain permission of the graduate supervisor and the instructor offering the area of individual study prior to registering in this course.
- Pro Forma is required for registration.

NURS 693 Units: 3.0
Candidacy Examination
Students enrol in NURS 693 to prepare for their candidacy examination. Students are expected to work with their supervisory committees to generate a reading list and review these readings in preparation for the candidacy process. Must be completed prior to registration in NURS 699.

Grading: INP, COM, N, F.

NURS 699 Units: 30.0
Dissertation
All doctoral students must write and publicly defend a research proposal and have it approved by their supervisory committee before continuing the research process. All doctoral students are required to prepare a dissertation upon which a public examination and defense is conducted. The dissertation must qualify as a significant and original contribution to disciplinary knowledge.

Prerequisites: 683.
Grading: INP, COM, N, F.

PAAS
Pacific and Asian Studies
Department of Pacific and Asian Studies
Faculty of Humanities

PAAS 500 Units: 1.5
Theories of Pacific Region Societies
Offers a critical review of contemporary social theory pertinent to the study of Pacific and Asian societies. Drawing on various scholarly approaches from the fields of sociology, anthropology, political science and history, readings will address the institutions, mechanisms and values involved in social, cultural and political transformations. Focuses on current theory about the nature and scope of globalization, commodification, or modernization, with particular emphasis on the effect of these on local social and cultural practice.

PAAS 501 Units: 1.5
Cultural, Linguistic and Literary Theories in Asia-Pacific Studies
Offers a critical review of contemporary cultural and literary theory pertinent to the study of Pacific and Asian societies. Drawing from various scholarly approaches of Marxism, post-structuralism, semiotics, feminist psychoanalysis, and critical art history, readings will address the often implicit meanings and conceptual boundaries encoded in cultural and artistic products. Explores the consequences of modernization and global vs. local realms, with a focus on the disturbances and complexities they generate in the subjective realm, where they often form the basis of creative expressions.

PAAS 520 Units: 1.5
Special Topics in Pacific Studies
Focuses on an area of faculty specialization. The topic will vary but may include one of the following: migration studies; state and civil society; the politics of culture; global and local relations; and gender and ethnic identity.

PAAS 521 Units: 1.5
Special Topics in Asia-Pacific Literature, Linguistics and Culture
Focuses on an area of faculty specialization. The topic will vary but may include one of the following: theatre studies; postcolonial literature; linguistics; popular culture; cinema studies; and critical assessments of the works of individual authors and artists.

PAAS 550 Units: 1.5
Research Methodologies
Required of all graduate students. We will work through the mechanics of designing a thesis, from initial conceptualization through to methodologies and analysis. Students will design a full thesis proposal and participate in a mock defense.

PAAS 580 Units: 1.5
Advanced Readings in Japanese, Chinese or Indonesian
Critical reading and analysis of advanced works in the original language.

PAAS 590 Units: 1.5
Directed Studies
A directed readings course, to be taken with the thesis supervisor, which will allow students to develop in-depth understanding of their topic/area of specialization.

Note: May be taken more than once for credit in different topics to a maximum of 3 units.

PAAS 599 Units: 6.0-9.0
MA Thesis
Grading: INP, COM, N, F.

PAADR
Public Administration Dispute Resolution
School of Public Administration
Faculty of Human and Social Development

PAADR 501 Units: 1.5
Collaboration and Engagement
Prepares students for public and non-profit sector work environments by developing conflict competence skills to anticipate, identify, prevent, mitigate, and/or resolve conflict. Through case studies, students develop self-awareness around personal conflict style and interpersonal skills to work collaboratively by building consensus and problem solving. They develop communication, negotiation and facilitation skills. Conflict theory provides an understanding of the nature and sources of conflict and primary models to manage and contain disputes.

Note: For MA in Dispute Resolution and primary models to manage and contain disputes.

PAADR 502A Units: 1.5
Analysis for the Public and Non-Profit Sectors
Provides an intensive introduction to qualitative and quantitative approaches and methods for research, policy analysis, evaluation and other analytical projects in the public and non-profit sectors. Offers students opportunities to learn and apply methodologies for evidence-informed decisions in organizational and inter-organizational settings.

Notes:
- Credit will be granted for only one of 502A, ADMN 502A, DR 515.
- For MA in Dispute Resolution and Public Administration On Campus students.

PAADR 503 Units: 1.5
Professional Integrity in the Public and Non-Profit Sectors
Builds professional competencies and reflective practice skills for those working in the public and non-profit sectors. Using a case-based approach, topics include: ethical dilemmas and management of disputes, the issues of personal responsibility and accountability; loyalty to employer; political and professional neutrality and obligations to the public interest; conflict of interest; confidentiality and transparency; and privacy protection. Students study standards of conduct established in both sectors and the philosophical theories which underpin them.

Notes:
- Credit will be granted for only one of 503, ADMN 422, 554, DR 512.
- For MA in Dispute Resolution and Public Administration On Campus students.

PAADR 504 Units: 1.5
Public Leadership and Management
Introduces theories of leadership and management development and practice. Examines the role of leaders, managers and conflict specialists as agents of positive influence in complex socio-technical systems. Leadership, management and dispute resolution competencies will be introduced and developed in individual, team, organizational, and inter-organizational contexts. Through experiential learning, students will apply concepts to self, others (as team members), leaders and managers.

Notes:
- Credit will be granted for only one of 504, ADMN 507, DR 511.
- For MA in Dispute Resolution and MPA On campus students.

**PHIL 505**  
**Policy-making and Policy Communities**  
Students learn about the public policy-making process and develop skills in the art and craft of policy analysis. Introduces key concepts and theories and then builds skills and knowledge with information-gathering exercises, case studies, and preparation and presentation of decision briefs. Students review policy-making in a broad context, pulling together evidence and different analytical lenses for a variety of organizations and identify and recommend strategies and develop workable implementation and communication plans.

**Notes:**  
- Credit will be granted for only one of 505, ADMN 556.  
- For MA in Dispute Resolution and MPA On Campus students.

**PHIL 589**  
**Units:** 0  
**Hours:** 1.5  
**Formerly:** ADMN 589, DR 589  
**Co-op Seminar: Introduction to Professional Practice**  
Discusses the nature of co-operative education experiential expectations, how to bring learning into the co-op experience, and the services provided by the School of Public Administration Co-op Office. Guidance on how to succeed in co-op placements is provided: preparing résumés and covering letters, interviewing, networking, job development, managing diversity. Attendance at this non-credit course is required for all MADR and MPA On Campus students.

**Notes:**  
- Credit will be granted for only one of 589, ADMN 589, DR 589.  
- Offered in the Fall academic term only.

**Grading:** INC, COM, N, F.

**PHIL**  
**Philosophy**  
**Department of Philosophy**  
**Faculty of Humanities**

**PHIL 500**  
**Units:** 1.5 or 3.0  
**Topics in Philosophy**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 510**  
**Units:** 1.5 or 3.0  
**Topics in Cognitive Science**  
A study of the basic assumptions and methodologies of cognitive approaches to the modelling of mind. Standard topics include such things as psychofunctionalism, classical models of artificial intelligence, psychosemantics, the qualia problem and belief-desire psychology.  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 511**  
**Units:** 1.5 or 3.0  
**Topics in the History of Philosophy**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 514**  
**Units:** 1.5 or 3.0  
**Topics in Cognitivist Philosophies of Mind**  
Emphasizes cognitivist theories of consciousness and meaning (intentionality).  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 515**  
**Units:** 1.5 or 3.0  
**Topics in Contemporary European Philosophy**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 520**  
**Units:** 1.5 or 3.0  
**History and Philosophy of Science**  
Studies turning points in the history of science with particular attention to the conceptual issues underlying scientific theory and practice.

**PHIL 521**  
**Units:** 1.5 or 3.0  
**Topics in Philosophy of Science**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 530**  
**Units:** 1.5 or 3.0  
**Topics in Classical Logic**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 531**  
**Units:** 1.5 or 3.0  
**Topics in Non-Classical Logic**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 532**  
**Units:** 1.5 or 3.0  
**Topics in Inductive Logic**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 533**  
**Units:** 1.5 or 3.0  
**Topics in Applied Philosophy**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 534**  
**Units:** 1.5 or 3.0  
**Topics in Ethics**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 535**  
**Units:** 1.5 or 3.0  
**Topics in Social and Political Philosophy**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 541**  
**Units:** 1.5 or 3.0  
**Topics in Aesthetics**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 551**  
**Units:** 1.5 or 3.0  
**Topics in Epistemology and Metaphysics**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 561**  
**Units:** 1.5 or 3.0  
**Topics in Philosophy of Language**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 590**  
**Units:** 1.5 or 3.0  
**Directed Studies**  
*Note:* May be taken more than once for credit in different topics with approval of the department.

**PHIL 591**  
**Units:** 1.5  
**Research Methods Seminar**  
Exclusively for graduate students in philosophy. Aims to help students broaden their reading base and deepen their communication and critical skills by engaging with philosophical works and core issues in a variety of fields.

**PHIL 592**  
**Units:** 1.5  
**Professional Development Practicum**  
Students must attend and demonstrate participation in philosophy colloquia, including regular preseminars, throughout the year. Attendance and evidence of participation will be tracked by the Graduate Adviser and Graduate Coordinator.  
**Grading:** COM, N, F.

**PHIL 598**  
**Units:** 4.5  
**Major Research Project**  
Students must complete a Major Research Project under the guidance of a supervisor and committee. This project will normally take the form of a journal article-type submission. Normally the Major Research Project will be completed during the Summer Session following the first Winter Session. The Major Research Project is subject to Oral Examination by a committee.  
**Grading:** INP, COM, N, F.

**PHIL 693**  
**Units:** 3.0  
**Candidacy Examination**  
**Grading:** INP, COM, N, F.

**PHIL 699**  
**Units:** 18.0  
**PhD Dissertation**  
**Prerequisites:** 593.  
**Grading:** INP, COM, N, F.

**PHSP**

**Public Health and Social Policy**  
**School of Public Health and Social Policy**  
**Faculty of Human and Social Development**

**PHSP 501**  
**Units:** 1.5  
**Public Health Epidemiology**  
An applied approach grounded in population-based data. Focuses on the distributions and determinants of health, disease, disability and mortality. Topics include: characteristics and dynamics of health and disease in human populations, including epidemiological strategies in examining the natural history of disease and the impact of disease on the population; population health assessment, surveillance and emerging social epidemiological models that attend to complex models of causation.

**PHSP 502**  
**Units:** 1.5  
**Public Health Biostatistics**  
Uses an approach grounded in population-based data. Builds upon PHSP 501, and focuses on understanding health inequities across diverse settings and populations using biostatistics and epidemiological data to understand the life course determinants of health. Includes an overview of design and analysis of health-related data collection methods including survey methods. The basic concepts and methods of epidemiological biostatistical analysis are covered.  
**Prerequisites:** 501.

**PHSP 503**  
**Units:** 1.5  
**Public Health Practice I: Population Health and Health Promotion**  
Contributes to students’ theoretical and practical understanding of population health and its determinants as well as diverse constructions of health as a foundation for health promotion. Considers health promotion principles, models and approaches as well
as inequalities in health in the context of social justice and cultural safety. Fosters understanding of health and its determinants, health inequalities in Canada and globally, and a more in-depth understanding of other topics.

PHSP 504 Units: 1.5
Supportive Environments and Healthy Public Policy
Social environmental factors that impact the health of the community. Using a social-ecological model, attends to understanding the integral role of policy in the development of supportive environments. With an emphasis on critical analysis of health policy, students explore the development of healthy public policy in the management of public health concerns.

PHSP 505 Units: 1.5
Public Health Practice II: Public Health Interventions
Focuses on the range of evidence-informed public health interventions employed in public health practice. Based on the BC Core Public Health Functions Framework, examines strategies used to improve the health of a population including provision of public health prevention and improvement programs, disease and injury prevention, environmental health and emergency management; strategies for health protection, health promotion, disease surveillance; public health capacity and infrastructure; the impact of public health services on health inequity.

PHSP 506 Units: 1.5
Public Health Research and Evaluation
Emphasis on evidence-informed, and examining community-based research strategies to explain the applied knowledge within the field of public health. Topics include literature synthesis approaches; program evaluation; qualitative research methods; and mixed methods.

PHSP 507 Units: 1.5
Practicum
All graduate diploma students are required to complete a 225 hour practicum. This planned, supervised and evaluated practicum will usually be completed at the end of the student’s program of study. Graduate diploma students who complete this practicum and wish to then complete the Master of Public Health will be required to take PHSP 589.

PHSP 508A Units: 1.5
Formerly: 508
Culminating Report
As a culmination of the practicum experience all Graduate Diploma students are required to complete a report that demonstrates a synthesis and integration of coursework and other learning experiences in preparation for professional public health practice. Graduate diploma students who complete this report and wish to then complete the Master of Public Health will be required to take PHSP 508B.

PHSP 508B Units: 3.0
Culminating Report
As a culmination of the practicum experience all Master of Public Health students are required to complete a report that demonstrates a synthesis and integration of coursework and other learning experiences in preparation for professional public health practice.

Notes:
- Credit will be granted for only one of 508B, 590
- Special Topics: Culminating Report.

PHSP 540 Units: 1.5
Knowledge Development in Public Health Nursing
Examines the history of public health nursing focusing on exemplary leaders engaged in creating change in their community. The emergence of nursing knowledge and understanding public health nursing as a synthesis of public health and nursing science is emphasized. Includes a critical examination of the roles of nurses in public health as well as exploring exemplary nurse led community based programs, services and policies related to disease prevention, health promotion and primary health care.

PHSP 541 Units: 1.5
Social Justice and Public Health Nursing
Emphasis on social justice as a philosophical base for public health nursing. From a critical perspective, students explore and compare theories of social justice. Drawing on personal and professional experience and using case examples, students explore the embodiment of social justice as ethical nursing practice.

PHSP 542 Units: 1.5
Advanced Public Health Nursing Practice
Focuses on leadership and the conceptualization and application of advanced practice in public health nursing. Students engage in a critical analysis of advanced practice nursing as it relates to public health in Canadian and comparative contexts. Professional issues and advanced practice strategies are explored.

PHSP 543 Units: 1.5
Perspectives in Social Policy and Public Health
Informed by values of social justice, equity and diversity, focuses on a range of theoretical and practical perspectives that critically assess social policy and practice and public health issues in Canada in historical, contemporary and comparative contexts.

PHSP 544 Units: 1.5
Social Values, Ideologies, and Policy Analysis
Addresses how social determinants of health and well-being, including existing patterns of cultural, economic and political relations and resources, impact public policies and practices; and, in turn, how healthy public policy can positively affect social environments and determinants in Canadian communities and society. Graduate course in the Public Health and Social Policy program administered by the Faculty of Graduate Studies.

PHSP 545 Units: 1.5
Healthy Public Policy Strategies
Examines an assortment of public health approaches, including policy techniques and plans relating to health promotion, health equity, health policy analysis and advocacy, capacity building, forming partnerships and collaborations, and strengthening communities. Also considers the importance of healthy public policies for various groups facing health disparities.

PHYS 550 Units: 6.0
Thesis
Students, working independently, with faculty guidance, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. The thesis option is an alternative to the Culminating Project (PHSP 598). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

PHYS 598 Units: 1.5 or 3.0
Practicum
All MPH students are required to complete a 450 hour practicum. This planned, supervised and evaluated experience will usually be completed at the end of the student’s program of study.

Notes:
- Students must take a total of 3.0 units of 589 in their MPH program.
- Students who register in 589 for 1.5 units over two semesters may enrol in PHSP 506 concurrently.

PHYS 599 Units: 1.5
Special Topics in Public Health Studies
This is a variable content course focusing on specific interests of students and faculty members in the School of Public Health and Social Policy.

Note: May be taken more than once in different topics for credit in the graduate program with prior permission of Adviser.

PHYS 600A Units: 1.5
Formerly: part of 500
Quantum Mechanics I
Topics normally include angular momentum and symmetries, scattering theory, density operators, quantum statistical mechanics.

Note: Credit will be granted for only one of 500, 500A.

PHYS 600B Units: 1.5
Formerly: part of 500
Quantum Mechanics II
Further topics in advanced quantum theory, normally including path integral techniques, perturbation theory, many-body quantum mechanics, introduction to quantum field theory.
Notes:
- Credit will only be granted for only one of 500, 500B.
- 500A and 502A, or equivalent are recommended.

PHYS 502A Units: 1.5
Formerly: half of 502
Classical Electrodynamics
The classical theory of electrodynamics. Topics may include: electrodynamics as a relativistic field theory; static and retarded potentials; waves and their propagation in dispersive media; radiation and scattering.

Note: Credit will be granted for only one of 502A, 502.

PHYS 506A Units: 1.5
Particle Physics I
An introduction to graduate-level particle physics. Topics include symmetries and conservation laws; Hamiltonian formulation; quantization of fields; quantum mechanics of bosons and fermions; applications to high energy physics.

PHYS 506B Units: 1.5
Particle Physics II
A graduate course covering the symmetries in particle physics, and the structure of the Standard Model. Topics may include: a brief introduction to Lie groups, applications to particle multiplets and representations, spontaneous symmetry breaking, Goldstone’s theorem, and the Higgs mechanism.

PHYS 507A Units: 1.5
Solid State Physics I
First course on the quantum and classical physics of condensed matter: Electron energy band structure in crystals; ground state and quasiparticle excitations of metals and semiconductors; phonons, photons and the interactions between them.

PHYS 507B Units: 1.5
Solid State Physics II
Second course on the quantum and classical physics of condensed matter: Symmetries and group theory of states of matter; optical properties of solids; quantum coherence phenomena; magnetism.

PHYS 508 Units: 1.5
Topics in Nanophysics
Covers the physics of phenomena occurring on the nanometer length scale. Topics include semiconductor nanostructures and devices, nanomagnetism and spintronics, nanophotonics, and molecular electronics.

PHYS 511A Units: 1.5
Topics in Nuclear and Particle Physics I
A selection of advanced topics in nuclear and/or particle physics.

Note: May be taken more than once for credit.

PHYS 511B Units: 1.5
Topics in Nuclear and Particle Physics II
A selection of advanced topics in nuclear and/or particle physics.

Note: May be taken more than once for credit in different topics with permission of the department.

PHYS 513 Units: 1.5
Topics in Theoretical Physics
A graduate course covering more advanced techniques and/or topical subjects in theoretical physics. Content varies.

Note: May be taken more than once for credit.

PHYS 515 Units: 1.5
Data Analysis Techniques for Physics and Astronomy
An advanced course in data analysis for the physical sciences. Topics may include: Numerical methods, probability theory, Monte Carlo methods, statistical analysis techniques, and signal and image processing.

PHYS 521A Units: 1.5
Techniques in Nuclear and Particle Physics
Topics may include: interaction of particles in matter; particle detection techniques and technologies; principles of particle accelerators; survey of existing facilities.

Note: May be taken more than once for credit in different topics with permission of the department.

PHYS 522 Units: 1.5
Topics in Accelerator Physics

PHYS 523 Units: 1.5
Particle Cosmology
Particle physics in the early universe. Topics may include: inflation, baryogenesis, dark matter, big bang nucleosynthesis, and perturbations in the cosmic microwave background.

Note: Credit will be granted for only one of 523, 513 (if taken in the same topic).

PHYS 534 Units: 1.5
Radiotherapy Physics I
Principles of dosimetry of ionizing radiation with emphasis on applications to radiotherapy and radiobiology. Provides the basics of linear accelerator design as well as design of X-ray generating apparatus; also provides basics of electron and photon interactions with media, energy deposition in media, and radiation protection and shielding.

PHYS 535 Units: 1.5
Radiotherapy Physics II
A continuation of 534. Covers the physics and applied dosimetry of current external and internal irradiation treatment techniques.

PHYS 539 Units: 1.5
Radiation Dosimetry
The fundamentals of radiation dosimetry, ionization cavity theories and radiation dosimetry protocols. A variety of absolute and relative dosimetry techniques are also covered, with hands-on experience provided through a series of lab exercises on medical linear accelerators. Monte Carlo simulation of radiation transport for dosimetry applications is introduced.

PHYS 540 Units: 1.5
Medical Imaging
Fundamental theory and application of medical imaging, including radiology, computed tomography, magnetic resonance imaging, ultrasound, and nuclear medicine imaging. Basic principles, image formation and reconstruction, imaging instrumentation and hardware, and current trends of each imaging modality will be given.

PHYS 544 Units: 1.5
Topics in Radiation Biophysics
Topics in radiation biophysics, including DNA strand breaks, cell survival curves, fractionation and dose rate effects, oxygen effect, relative biological effectiveness, tumour radiobiology, radiation pathology, radiobiological modelling, stochastic and deterministic effects, and molecular techniques in radiobiology.

PHYS 545 Units: 0.5
Anatomy and Physiology for the Medical Physicist
WebCT based course covering basics of anatomy and physiology. Aimed at students in medical physics who are interested in clinical and/or academic careers that will require interaction with radiation oncologists and other health care professionals.

Grading: INC, COM, N, F.

PHYS 546 Units: 0.5
Clinical Shadowing
Shadowing course designed to give the student some insight into the clinical aspects of the medical physics profession. Under the guidance of a clinical physicist, students progress through a series of clinical areas. Modules illustrate the collaborative nature of the profession and the interaction with other medical professionals.

Grading: INC, COM, N, F.

PHYS 550 Units: 0
Colloquium
Weekly physics and astronomy colloquium.

Grading: INC, COM, N, F.

PHYS 559 Units: to be determined
MSC Thesis
Note: Credit to be determined, but normally 6 units.

Grading: INC, COM, N, F.

PHYS 560A Units: 1.5
Quantum Field Theory I
An introductory course in quantum field theory. Topics may include: canonical or path integral quantization of bosonic and fermionic fields, interacting fields and Feynman diagrams; elementary processes in quantum electrodynamics and other field theories.

Note: Credit will only be granted for one of 600A and 506B if 506B was taken in 2009 or 2010.

PHYS 560B Units: 1.5
Quantum Field Theory II
A selection of advanced topics in quantum field theory.

PHYS 693 Units: 3.0
PhD Candidacy Examination
Students enrol in PHYS 693 during their preparation for the candidacy examination. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed. The candidacy examination is to be completed no later than two years after the student first registers in (or transfers to) the PhD program.

Grading: INC, COM, N, F.

PHYS 699 Units: to be determined
PhD Dissertation
Note: Credit to be determined, but normally 30 units.
Political Science
Department of Political Science
Faculty of Social Sciences

POLI 505  Units: 1.5
Problems of Political Analysis
An examination of theoretical viewpoints in the study of politics.

POLI 507  Units: 1.5
Comparative Policy and Governance
The study of diverging governance practices and policy outcomes in different jurisdictions. Focuses on: policy determinants such as history, culture, institutions, and the economy; policy dynamics and processes such as agenda-setting and decision-making, networks and communities, and policy change; and policy styles and transfer, referring to the state’s ability to design, coordinate, implement and, learn from policy interventions. Students will review seminal studies and undertake a comparative policy project.

POLI 508  Units: 1.5
Comparative Politics
An examination of key issues and debates in the study of contemporary politics. The content will vary from year to year.

POLI 509  Units: 1.5
Political Theory
An examination of key issues and debates in the study of political theory. Involves a survey of the major literature in this field of political science.

POLI 514  Units: 1.5
Politics of the European Union
An examination of key issues and debates in the study of the politics of the European Union. It will involve a survey of the major literature in the field of European politics.

Note: Credit will be granted for only one of 514 or 533 (if taken in the same topic).

POLI 516  Units: 1.5
Canadian Politics
An examination of key issues and debates in the study of Canadian politics. Involves a survey of the major literature in this field of political science.

POLI 533  Units: 1.5
Themes in Contemporary Politics
A seminar dealing with an important theme or themes in contemporary politics. The content will vary from year to year.

Note: May be taken more than once for credit with permission of the Graduate Adviser.

POLI 540  Units: 1.5
International Relations
An examination of key issues and debates in the study of international relations. Involves a survey of the major literature in this field of political science.

POLI 580  Units: 3.0
Legislative Internship Report
Grading: INP, COM, N, F.

POLI 590  Units: 1.5 or 3.0
Directed Readings
590A – Political Theory
590B – Political Theory
590C – Comparative Politics
590D – Comparative Politics
590G – Contemporary Themes and Issues
590H – Contemporary Themes and Issues
590I – International Relations
590K – International Relations
590P – Canadian Federal and Provincial Politics

Note: May be taken more than once for credit in different topics to a maximum of 3 units.

POLI 599  Units: 9.0
Thesis
Grading: INP, COM, N, F.

POLI 600  Units: 1.5
Professional Development Seminar
A compulsory seminar for PhD students in Political Science that runs from September until April. Students are introduced to the professional aspects of the discipline including: how to write grant applications, how to teach effectively, how to design a syllabus and a CV, how to contribute to the administrative and intellectual community in their department and in political science more broadly.

Grading: COM, N, F.

POLI 605  Units: 1.5
Problems of Political Analysis
A further examination of theoretical viewpoints in the study of politics. Intended for doctoral candidates preparing for comprehensive examinations.

POLI 607  Units: 1.5
Also: ADMN 605
Comparative Policy and Governance
The study of diverging governance practices and policy outcomes in different jurisdictions. Focus is on: policy determinants such as history, culture, institutions, and the economy; policy dynamics and processes such as agenda-setting and decision-making, networks and communities, and policy change; and policy styles and transfer, referring to the state’s ability to design, coordinate, implement and, learn from policy interventions. Students will review seminal studies and undertake a comparative policy project. Intended for doctoral candidates preparing for a comprehensive examination in the field.

POLI 610  Units: 1.5
Also: ADMN 604
Theories of Public Management
Explores different theories and approaches to understanding public administration and reform. Considers variations in three areas: political and constitutional authority, accountability and responsibility, and the roles of elected and non-elected officials; government structures, responsibilities for policy and service delivery, and distributed governance; and patterns and trends in central decision-making, budgeting, control, transparency, and citizen engagement. Students will review seminal comparative studies on administrative practice and reform and undertake a comparative study on a selected topic.

Note: Credit will be granted for only one of 610 or ADMN 604.

POLI 614  Units: 1.5
Politics of the European Union
An examination of key issues and debates in the study of the politics of the European Union. It will involve a survey of the major literature in the field of European politics.

Note: Credit will be granted for only one of 614 or 633 (if taken in the same topic).

POLI 616  Units: 1.5
Canadian Politics
An examination of key issues and debates in the study of Canadian politics. Involves a survey of the major literature in this field of political science. Intended for doctoral candidates preparing for a comprehensive examination in the field.

POLI 633  Units: 1.5
Themes in Contemporary Politics
A seminar dealing with an important theme or themes in contemporary politics. The content will vary from year to year.

Note: May be taken more than once for credit in different topics with permission of the Graduate Adviser.

POLI 640  Units: 1.5
International Relations
An examination of key issues and debates in the study of international relations. Involves a survey of the major literature in this field of political science. It is intended for doctoral candidates preparing for a comprehensive examination in the field.

POLI 690  Units: 1.5 or 3.0
Directed Readings
690A and 690B Political Theory.
690C and 690D Comparative Politics.
690G and 690H Contemporary Themes and Issues.
690J and 690K International Relations.
690N and 690P Canadian Federal and Provincial Politics.

POLI 693  Units: 3.0
PhD Candidacy Examinations
Students enrolled in POLI 693 for the duration of their preparation or their two candidacy examinations. This begins at the time a student first enrolls in the PhD program and continues until candidacy requirements have been completed.

Grading: INP, COM, N, F.

POLI 699  Units: 30.0
Dissertation
Grading: INP, COM, N, F.
PSYC

Psychology
Department of Psychology
Faculty of Social Sciences

PSYC 500 Units: 1.5
Professional Development
Covers issues important to the academic and career success of graduate students in psychology. Topics include prerequisites to finding a job, preparing a curriculum vitae, the publication and review process, making presentations, obtaining grants, university policies (e.g., criteria and processes for tenure decisions), balancing family and career, and ethical issues in psychology.
Gradning: INP, COM, N, F.

PSYC 501 Units: 1.0-6.0
Practicum in Applied Psychology
Practicum in an applied setting. 1 unit of credit equals approximately 100 hours.
Note: May be taken more than once for credit in different topics up to a maximum of 6.0 units of 501 in any one Winter Session at the discretion of the student’s Supervisory Committee.
Gradning: INP, COM, N, F.

PSYC 502 Units: 1.5-4.5
Research Apprenticeship
Note: May be taken more than once for credit in different topics. The student must consult with the instructor about the area of study prior to registration and complete a Pro Forma. A maximum of 4.5 units of 502 may be taken in any one Winter Session at the discretion of the student’s Supervisory Committee.
Gradning: INP, COM, N, F.

PSYC 503 Units: 4.0
Practicum in Clinical Psychology
Practicum in a clinical setting. 1 unit of credit is equivalent to approximately 100 hours.
Prerequisites: Acceptance to clinical psychology graduate program and approval of clinical program coordinator.
Gradning: INP, COM, N, F.

PSYC 504 Units: 1.5-6.0
Individual Study
Note: May be taken more than once for credit in different topics. The student must consult with the instructor about the area of study prior to registration and complete a Pro Forma. A maximum of 6 units of 504 may be taken in any one Winter Session at the discretion of the student’s Supervisory Committee.
Gradning: INP, COM, N, F.

PSYC 505 Units: 4.0
Clinical Intervention Practicum
Practicum in a clinical setting with emphasis on various forms of intervention. 1 unit of credit is equivalent to approximately 100 hours.
Prerequisites: Acceptance to clinical psychology graduate program and approval of clinical program coordinator.
Gradning: INP, COM, N, F.

PSYC 506A Units: 1.5
Formerly: 506
Psychology Clinic Practice
Supervised psychological practice in the Psychology Clinic, Department of Psychology.
Note: May be taken more than once for credit.
Prerequisites: Acceptance to clinical psychology graduate program, with permission of instructor, and approval of the Director of Clinical Training.
Gradning: INP, COM, N, F.

PSYC 506B Units: 1.5
Formerly: 506
Psychology Clinic Practice: Test Mastery
Supervised test mastery in the Psychology Clinic, Department of Psychology.
Note: Credit will be granted for only one of 506B, 506.
Prerequisites: Acceptance to clinical psychology graduate program and approval of the Director of Clinical training.
Gradning: INP, COM, N, F.

PSYC 507 Units: 1.5
Personality
Note: May be taken more than once for credit in different topics to a maximum of 6 units at the discretion of the student’s Supervisory Committee. The specific content area will be designated prior to registration.
Gradning: INP, COM, N, F.

PSYC 512 Units: 1.5-4.5
Research Practicum
Practicum in a research setting with emphasis on planning, conducting, analyzing, and/or writing up research results under the supervision of faculty.
Note: May be taken more than once for credit in different topics. The student must consult with the proposed research supervisor about the content and nature of the research activity prior to registration and complete a Pro Forma. The content must differ from but may be related to 599 or 699.
Prerequisites: Approval of the student’s academic supervisor.
Gradning: INP, COM, N, F.

PSYC 513 Units: 1.5 - 6.0
Quantitative Analysis
Topical seminars on specialized issues related to quantitative analysis.
Note: May be taken more than once for credit in different topics to a maximum of 6 units at the discretion of the student’s Supervisory Committee. The specific content area will be designated prior to registration.
Gradning: INP, COM, N, F.

PSYC 517 Units: 1.5
Research Methods in Psychology
Note: May be taken more than once for credit in different topics to a maximum of 6 units at the discretion of the student’s Supervisory Committee. The specific content area will be designated prior to registration.
Gradning: INP, COM, N, F.

PSYC 518 Units: 1.5
Psychometric Methods
Topics typically include: historical background, sample descriptive statistics, norm referencing, (e.g., percentiles, Z-scores, T-scores), criterion referencing, sensitivity/specificity, classical true score test theory, item response theory (IRT), reliability, validity, standard errors, test development, standards for clinical tests, and assessment of reliable change.
Gradning: INP, COM, N, F.

PSYC 520 Units: 1.5
Survey of Social Psychology
In-depth examination of state-of-the-science research methods in social psychology. The topics may include experimental and quasi-experimental research designs, survey research, cross-cultural and longitudinal methods, event-sampling methods, psychophysiological methods, implicit measure and priming techniques, content and narrative analysis, computer simulation, data analytical strategies, ethics. Emphasis is placed on the more recent advancements in research methods in social psychology and on the research interests and expertise of the instructor.
Gradning: INP, COM, N, F.

PSYC 521 Units: 1.5
Human Motivation
Seminar review of theory and research examining human motivation. Special topics include goals, intrinsic and extrinsic motivation, social and achievement motivation, self-efficacy, self-regulation, unconscious motivation, and growth motivation. Emphasis is placed on the social and cognitive perspective on motivation.
Gradning: INP, COM, N, F.

PSYC 522 Units: 1.5
Cultural Psychology
Seminar review of theory and research on cultural influences on basic psychological processes. Special topics include culture and the self, culture and social cognition, and cultural influences on psychological well-being. Attention is also paid to culturally appropriate research methods and statistics.
Gradning: INP, COM, N, F.

PSYC 526 Units: 1.5
Special Topics in Personality and Social Psychology
Topical seminars on specialized issues related to personality and social psychology.
Note: May be taken more than once for credit in different topics to a maximum of 6 units.
Gradning: INP, COM, N, F.

PSYC 527 Units: 1.5
Research Methods in Social Psychology
In-depth examination of state-of-the-science research methods in social psychology. The topics may include experimental and quasi-experimental research designs, survey research, cross-cultural and longitudinal methods, event-sampling methods, psychophysiological methods, implicit measure and priming techniques, content and narrative analysis, computer simulation, data analytical strategies, ethics. Emphasis is placed on the more recent advancements in research methods in social psychology and on the research interests and expertise of the instructor.
Gradning: INP, COM, N, F.

PSYC 530 Units: 1.5
The Social Self
Seminar review of theory and research examining current social psychological research and theory on the self. Special topics include self-concept, self-esteem, motivation and the self, and the self in close relationships. Emphasis is placed on the more recent advancement in social and personality psychology of the self.
Gradning: INP, COM, N, F.

PSYC 531 Units: 1.5
Environmental Psychology
Seminar review of theory and research in environmental psychology. The topics may include sustainability-related behaviour, social design of buildings, human behaviour as it is related to built and natural environments, environmental perception and cognition, and person-environment transactions in nature, residences, neighbourhoods, schools, workplaces, retail stores, and public spaces.
Gradning: INP, COM, N, F.

PSYC 532 Units: 1.5
General Linear Model - Univariate
A model-comparison approach to the analysis of a single dependent variable. Topics include simple and multiple regression involving continuous independent variables, categorical independent variables (ANOVA designs), and mixtures of the two (covariance analysis). Also covered will be analysis of mediation and moderation, outlier detection, testing of model assumptions, data transformation, and repeated measures models.
PSYC 533 Units: 1.5

General Linear Model - Multivariate
Topics generally include multivariate multiple regression, principal component and factor analysis, canonical correlation analysis, multivariate analysis of variance, discriminant function analysis and logistic regression.
Prerequisites: 532.

PSYC 534 Units: 1.5

Univariate Design and Analysis
An examination of various factorial designs for univariate data from an advanced perspective. For a number of frequently used designs (e.g., completely randomized, randomized block, and repeated measures), planned comparisons, tests of the models' assumptions, expected mean squares, and interpreting interactions (e.g., simple main effects) will be covered. Students will be required to learn and use statistical software packages, such as SPSS and SAS. Time and interest permitting, a brief introduction to other modeling procedures for response time and accuracy data will be offered.

PSYC 540 Units: 1.5

Formerly: 515A

History and Theory in Neuropsychology
Survey of major topics and issues in clinical and experimental neuropsychology, including a historical introduction and recent material. Topics may include aphasia, agnosia, apraxia, agraphia, other clinical syndromes, and aphasic specialization.
Prerequisites: 315 or equivalent undergraduate human neuropsychology course.

PSYC 541 Units: 1.5

Formerly: 541/544

Research Design and Methods in Neuropsychology
Seminar on research methods and designs in studying brain/behaviour relationships, the strengths and limitations of various methods, and the populations and research questions for which they are used.

PSYC 543 Units: 1.5

Formerly: 535B

Behavioural Neuroanatomy
Introduction to human neuroanatomy, neurophysiology and neurochemistry, with an emphasis on relationships between structure, function and behaviour.
Prerequisites: Permission of the department.

PSYC 545 Units: 1.5

Neuropsychological Assessment
In depth examination of general approaches and models for neuropsychological assessment. This includes evaluation of multiple areas of cognitive functioning, including attention, memory, executive functions, language, perceptual skills and motor abilities. Test interpretation, case analysis, and report writing skills will also be emphasized.
Prerequisites: 584 and acceptance to clinical psychology graduate program.
Corequisites: 506B.

PSYC 546A Units: 1.5

Advanced Neuropsychology: Children and Adolescents
In depth examination of typical neurodevelopment and associated acquired and neurodevelopmental disorders of children and adolescents, including a discussion of cognitive and behavioural profiles and techniques of neuropsychological assessment.
Prerequisites: 540, 545, 506B, 584, acceptance to the doctoral program in clinical psychology and permission of the department. Enrolment may be limited.
Grading: INC, COM, N, F.

PSYC 546B Units: 1.5

Advanced Neuropsychology: Adults
In depth examination of typical neurodevelopment and associated acquired and neurodegenerative disorders of adults, including a discussion of cognitive and behavioural profiles and the techniques of neuropsychological assessment.
Prerequisites: 540, 545, 506B, 584, acceptance to the doctoral program in clinical psychology and permission of the department. Enrolment may be limited.
Grading: INC, COM, N, F.

PSYC 547 Units: 1.5

Formerly: 535D

Neuropsychological Intervention in Adults
Introduction to theory and techniques associated with management of neurological disorders. Topics include the relationship between impairment, disability, and handicap, current techniques in cognitive rehabilitation, and interventions with individuals and families.
Prerequisites: Permission of instructor. Enrolment may be limited.
Grading: INC, COM, N, F.

PSYC 548 Units: 1.5

Formerly: 515D

Special Topics in Neuropsychology
Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 549 Units: 1.5

Neuropsychological Intervention in Children and Adolescents
Introduction to theory, methods and techniques associated with management of neurological, neuropsychological and learning disorders in children and adolescents. Topics include the relationship among impairment, disability, and functional status, with current empirically-based approaches for remediation and/or compensation of cognitive and academic skill deficits. Interventions will focus on individual children and families within both educational and social contexts.
Prerequisites: Permission of instructor. Admission to doctoral level studies. Enrolment may be limited.
Grading: INC, COM, N, F.

PSYC 550 Units: 1.5

Formerly: 512A

Physiological Psychology: Introduction
Seminar discussing selected topics concerning fundamental neurobiological processes underlying behaviour, including synaptic transmission, motor and sensory activity, motivation, neural plasticity, and theories of neural organization.

PSYC 551 Units: 1.5

Neuropsychopharmacology
Seminar discussing the neurochemical bases of brain function and the effects of psychoactive drugs, with emphasis on the role played by chemical neurotransmitters and the system of neurons that releases them.

PSYC 561 Units: 1.5

Formerly: 560B

History and Theories in Lifespan Psychology
Seminar review of major classical and contemporary theoretical perspectives and their implications for the study of psychological development across the lifespan. Emphasis on differences among theoretical perspectives with respect to central developmental issues such as concepts of change, sources of development, and the universality of developmental laws and findings.

PSYC 562 Units: 1.5

Formerly: 560C

Infancy and Childhood
Seminar review of theory and research examining psychological development from infancy through childhood. Special topics include personality/temperament, attachment, parent-child relations, and socialization process. Emphasis is placed on the role of the context in individual development.

PSYC 563 Units: 1.5

Formerly: 560D

Adult Development and Aging
Seminar review of theory and research examining psychological processes during adulthood and aging. Specific topics include memory, intelligence, problem solving, personality, social processes, and mental health. Attention is also given to the biological and sociocultural contexts of these developments.

PSYC 564 Units: 1.5

Formerly: 561A

Advanced Analysis of Change and Variation in Lifespan Development
Focuses on the general linear mixed model for repeated measurements and other nested data structures. Multilevel and structural equation models will be examined and applied to longitudinal data. May include time invariant and time-varying covariates, evaluation of alternative time structures, change in factor-level outcomes, analysis with attrition and mortality, and joint models of change.
Note: May be taken more than once for credit in different topics to a maximum of 3 units with permission of the department.

PSYC 565 Units: 1.5

Formerly: 561B

Cognitive Development in Adulthood and Aging
Seminar review of theory and research examining gains and losses in various cognitive skills from young adulthood to old age. Traditional experimental, psychometric, and cognitive science approaches are considered. Specific topics include age-related change in memory, intelligence, problem solving, reading skills, as well as practical and social cognition.

PSYC 566 Units: 1.5

Formerly: 561C

Personality and Adjustment in Adulthood and Aging
Seminar review of theory and research examining personality change, stress, coping, and adjustment across the adult lifespan. Specific topics include the cases for and against personality change, personality as a mediator of other behaviour, stress, coping, life events, and mental health in adulthood.

PSYC 567 Units: 1.5

Dysfunctional Development in Adulthood and Aging
Seminar review of theory and research examining dysfunctional and pathological processes in later life.
Specific topics include dementia, depression, personality disorders, alcoholism and other addictions and suicide. Attention will be given to issues of etiology, diagnosis, treatment, and impact on caregivers.

**PSYC 568**  
Units: 1.5  
**Adolescence**  
Seminar review of theory and research examining psychological processes during adolescence. Specific topics include pubertal maturation, parent-adolescent relations, gender roles, sexuality, and problem behaviour. Attention will be given to the role of the context (e.g., family, school) in adolescent development.

**PSYC 569**  
Formerly: 562  
**Special Topics in Lifespan Development**  
Topical seminars on specialized issues related to lifespan development and aging.  
*Note:* May be taken more than once for credit in different topics to a maximum of 6 units.

**PSYC 570**  
Units: 1.5 or 3.0  
Also: LING 570  
**Psycholinguistics**  
A seminar offered in collaboration with the department of Linguistics. Selected topics of interest in understanding the comprehension and production of natural language are examined. Recent topics have been sentence processing, discourse analysis, linguistic inference and the resolution of ambiguity, and the development of cognitive science interests in reasoning and discourse processes as well as the structure of mental representations.

**PSYC 571**  
Units: 1.5 or 3.0  
Also: LING 571  
**Developmental Psycholinguistics**  
A seminar offered in collaboration with the department of Linguistics. Selected topics of interest in understanding the acquisition of the child's first language in the areas of phonological and grammatical abilities, as well as the child's knowledge of semantic systems and discourse rules. Recent topics have been the development of conversational abilities in children, including turn-taking, questioning and answering, and politeness and negotiation in speech acts.

**PSYC 574**  
Units: 1.5  
**Cognitive Methods: Computational Modelling**  
Exploration of methods of computational modelling of cognitive processes. Methods covered may include mathematical models, symbolic models, and neural network models. Theoretical foundations, procedures for fitting models, and applications to cognitive psychology and cognitive neuroscience will be considered.  
*Note:* Credit will be granted for only one of 574C, 576B (if taken in the same topic).

**PSYC 576A**  
Units: 1.5  
**Cognitive Processes: Human Memory**  
Exploration of current theories and research on selected aspects of human memory. One or more major topics within the domain of human memory will be studied in depth.  
*Note:* May be taken more than once for credit in different topics to a maximum of 6 units.

**PSYC 576B**  
Units: 1.5  
**Cognitive Processes: Mind and Brain**  
Discussions of neurological evidence for modular organization of cognitive processes.  
*Note:* May be taken more than once for credit in different topics to a maximum of 6 units.

**PSYC 576C**  
Units: 1.5  
**Cognitive Processes: Cognitive Control**  
Exploration of selected theories and research on cognitive psychology and/or the cognitive neuroscience of cognitive control. One or more major topics within the domain of cognitive control (e.g., working memory, attention, error detection, conflict monitoring, response inhibition, and/or decision making) will be studied in depth.  
*Note:* May be taken more than once for credit in different topics to a maximum of 6 units with permission of department.

**PSYC 576D**  
Units: 1.5  
**Cognitive Processes: Cognitive Control**  
Exploration of theories and research on selected aspects of visual perception. One or more major topics (e.g., object recognition, Gestalt perception, neuropsychology of visual perception) will be covered in depth.  
*Note:* Credit will be granted for only one of 511, 566E (if taken in the same topic). May be taken more than once for credit in different topics to a maximum of 6 units with permission of department.

**PSYC 576E**  
Units: 1.5  
**Cognitive Processes: Visual Perception**  
Exploration of current theories and research on selected aspects of visual perception. One or more major topics (e.g., object recognition, Gestalt perception, neuropsychology of visual perception) will be covered in depth.  
*Note:* Credit will be granted for only one of 511, 576E (if taken in the same topic). May be taken more than once for credit in different topics to a maximum of 6 units with permission of department.

**PSYC 577**  
Units: 1.5  
**Cognitive Seminar**  
Weekly seminar throughout the Winter session, involving faculty and graduate students in the Cognitive Psychology Program. Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing cognitive psychological research.  
*Note:* May be taken more than once for credit to a maximum of 9 units.

**PSYC 579**  
Units: 1.5  
**Special Topics in Psychology**  
Seminar on special topics in the field of psychology.  
*Note:* May be taken more than once for credit in different topics to a maximum of 6 units.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
</table>
| PSYC 586A   | 1.5   | Advanced Clinical Assessment  
Advanced theory and professional issues in the psychological assessment of social, emotional and personality functioning.  
Prerequisites: 585 and acceptance to the doctoral program in clinical psychology and permission of the department. Enrolment may be limited.  
Grading: INC, COM, N. F.  
| PSYC 586B   | 1.5   | Practice in Advanced Clinical Assessment  
Supervised practice in the psychological assessment of social, emotional and personality functioning.  
Prerequisites: 585 and acceptance to the doctoral program in clinical psychology and permission of the department. Enrolment may be limited.  
Grading: INC, COM, N. F.  
| PSYC 588    | 1.5   | Child and Adolescent Therapy  
Introduction to different theoretical approaches to child psychotherapy and a discussion of techniques; supervised experience will be offered in subsequent sections.  
Note: May be taken more than once for credit in different topics to a maximum of 4.5 units.  
Prerequisites: Acceptance to the doctoral program in clinical psychology and permission of the department. Enrolment may be limited.  
Grading: INC, COM, N. F.  
| PSYC 589    | 1.5   | Introduction to Evidence-Based Adult Psychotherapies  
Overview of theory, research, and practice in adult psychotherapy. Introduction to the major schools of psychotherapy and to the common factors present across forms of psychotherapy. Beginning therapy skills will be developed through role plays and experiential exercises. Supervised experience is offered in 588.  
Prerequisites: Acceptance to clinical psychology graduate program.  
| PSYC 590    | 1.5   | Practical Issues and Challenges in Adult Psychotherapy  
An advanced psychotherapy course that builds upon the introductory therapy skills developed in 589. Includes didactic seminar and group case consultation.  
Prerequisites: 589, acceptance to the doctoral program in clinical psychology and permission of the department. Enrolment may be limited.  
Corequisites: 506A.  
Grading: INC, COM, N. F.  
| PSYC 591    | 1.5   | Special Topics in Clinical Psychology  
Note: May be taken more than once for credit in different topics to a maximum of 6 units.  
Prerequisites: Acceptance to clinical psychology graduate program.  
| PSYC 592    | 1.5   | Clinical Psychology Colloquium  
Weekly colloquium through the Winter session, involving faculty and graduate students in the Clinical Psychology Program. Colloquium participants take turns hosting the meeting, typically presenting on current clinical practice issues, cases, or research.  
Note: May be taken more than once for credit to a maximum of 7.5 units.  
Prerequisites: Acceptance to clinical psychology graduate program.  
Grading: INC, COM, N. F.  
| PSYC 593    | 1.5   | Family Interventions  
Introduction to various theoretical approaches to family interventions. Specific techniques are explored through readings, discussions, assignments, and role-plays.  
Prerequisites: 589, acceptance to the doctoral program in clinical psychology and permission of the department. Enrolment may be limited.  
Grading: INC, COM, N. F.  
| PSYC 594    | 1.5   | Special Topics in Clinical Intervention  
Introduction to any one or more specialized therapeutic techniques for working with individuals in clinical settings.  
Note: May be taken more than once for credit in different topics to a maximum of 6 units.  
Prerequisites: Acceptance to clinical psychology graduate program.  
Grading: INC, COM, N. F.  
| PSYC 595    | 1.5   | Cognitive Behavioural Therapy  
An advanced psychotherapy course that provides students with an understanding of the theory and clinical skills associated with Cognitive-Behavioural Therapy. Theory and specific techniques are explored through readings, class discussion, class assignments and role-plays.  
Note: Credit will be granted for only one of 595, 594 (if taken in the same topic).  
Prerequisites: 589 and acceptance to the doctoral program in clinical psychology.  
Grading: INC, COM, N. F.  
| PSYC 596    | 1.5   | Interpersonal Therapies  
An advanced psychotherapy course that provides students with an understanding of the theoretical underpinnings of the major interpersonal therapies and the role of interpersonal process in therapy in general. Specific theories and techniques are explored through readings, class discussion and class assignments.  
Note: Credit will be granted for only one of 596, 594 (if taken in the same topic).  
Prerequisites: 589 and acceptance to the doctoral program in clinical psychology.  
Grading: INC, COM, N. F.  
| PSYC 597    | 1.5   | Clinical Psychology Colloquium  
Weekly colloquium through the Winter session, involving faculty and graduate students in the Clinical Psychology Program. Colloquium participants take turns hosting the meeting, typically presenting on current clinical practice issues, cases, or research.  
Note: May be taken more than once for credit to a maximum of 7.5 units.  
Prerequisites: Acceptance to clinical psychology graduate program.  
Grading: INC, COM, N. F.  
| PSYC 598    | 1.5   | Individual Study  
Note: May be taken more than once for credit in different topics. The student must consult with the instructor about the area of study prior to registration and complete a Pro Forma. A maximum of 6 units of 604 may be taken in any one Winter Session at the discretion of the student's Supervisory Committee.  
Grading: INC, COM, N. F.  
| PSYC 599    | 3.0-6.0 | Thesis  
Grading: INC, COM, N. F.  
| PSYC 601    | 1.0-6.0 | Independent Research  
Note: May be taken more than once for credit in different topics. The student must consult with the instructor about the area of study prior to registration and complete a Pro Forma. A maximum of 6 units of 602 may be taken in any one Winter Session at the discretion of the student's Supervisory Committee.  
Grading: INC, COM, N. F.  
| PSYC 602    | 1.0-6.0 | PhD Dissertation  
Grading: INC, COM, N. F.  
| PSYC 603    | 4.0   | Advanced Clinical Practicum  
Practicum in an approved clinical setting. 1 unit of credit is equivalent to approximately 100 hours.  
Prerequisites: Acceptance to clinical psychology graduate program and approval of clinical program practicum coordinator.  
Grading: INC, COM, N. F.  
| PSYC 604    | 1.5-6.0 | Individual Study  
Note: May be taken more than once for credit in different topics. The student must consult with the instructor about the area of study prior to registration and complete a Pro Forma. A maximum of 6 units of 604 may be taken in any one Winter Session at the discretion of the student's Supervisory Committee.  
Grading: INC, COM, N. F.  
| PSYC 605    | 1.5 or 3.0 | Practicum in the Teaching of Psychology  
Note: Pro Forma.  
Grading: INC, COM, N. F.  
| PSYC 606    | 15.0  | Clinical Internship  
Full-year internship with 1600 to 2000 hours of supervised practical experience in settings approved by the committee on clinical training.  
Prerequisites: Completion of clinical course sequence and approval by Committee on clinical training.  
Grading: INC, COM, N. F.  
| PSYC 612    | 1.5-4.5 | Advanced Research Practicum  
Advanced practicum in research with an emphasis on coordination of a program of research in association with a faculty supervisor. Typically involves organization and training of research assistants, developing research protocols, management of research databases, statistical analysis, and preparation and submission of materials for publication as specified in a Pro Forma.  
Note: May be taken more than once with different practicum content. The content must differ from but may be related to 699.  
Prerequisites: Approval of the student's academic supervisor.  
Grading: INC, COM, N. F.  
| PSYC 693    | 3.0   | PhD Candidacy Examinations  
Students enrol in PSYC 693 while they prepare for and complete their doctoral candidacy examinations. This begins at the time a student first enrolls in the PhD program and continues until all candidacy examination requirements have been successfully completed. Students have 36 months from the time of first registration in the doctoral program to complete the exams. Students registered in 699 must also be registered in 693 concurrently until 693 is complete.  
Grading: INC, COM, N. F.  
| PSYC 699    | 15.0-30.0 | PhD Dissertation  
Pre- or corequisites: 693.  
Grading: INC, COM, N. F.  
|
SDH
Social Dimensions of Health
Social Dimensions of Health Program
Faculty of Social Sciences

These courses are offered in collaboration with the Faculties of Humanities, Education and Human and Social Development.

SDH 500A Units: 1.5
Fundamentals of Health Research I
An interdisciplinary seminar covering fundamental topics in health research such as: basics in epidemiology, ethics, policy, health and wellness, grant and proposal writing, academic presentations, critical review for publication, knowledge transfer and developing community partnerships. Topics to be covered in the core courses are central to health research scholarship and provide core competencies preparatory to the independent research component of the program.

Prerequisites: 500A or permission of the program.

SDH 500B Units: 1.5
Fundamentals of Health Research II
A continuation of 500A, an interdisciplinary seminar covering fundamental topics in health research such as: basics in epidemiology, ethics, policy, health and wellness, grant and proposal writing, academic presentations, critical review for publication, knowledge transfer and developing community partnerships. Topics to be covered in the core courses are central to health research scholarship and provide core competencies preparatory to the independent research component of the program.

Prerequisites: 500A or permission of the program.

SDH 501A Units: 1.5
Social Dimensions of Health Colloquium I
The SDH colloquium series exposes students to a wide range of conceptual and substantive issues that reflect the breadth and depth of health research generally. Attendance and participation in the colloquium is mandatory throughout their time in the SDH program. Students receive 3 units of pass/fail credit during their first year. Students will be required to make presentations of their own research in the colloquium.

Grading: INP, COM, N, F.

SDH 501B Units: 1.5
Social Dimensions of Health Colloquium II
A continuation of 501A, a colloquium series that exposes students to a wide range of conceptual and substantive issues, which reflect the breadth and depth of health research generally. Attendance and participation in the colloquium is mandatory throughout their time in the SDH program. Students receive 3 units of pass/fail credit during their first year. Students will be required to make presentations of their own research in the colloquium.

Prerequisites: 501A or permission of the program.

Grading: INP, COM, N, F.

SDH 590 Units: 1.5
Directed Studies
Note: May be taken more than once for credit in different topics with the permission of the Director. Pro Forma is required for registration.

SDH 599 Units: 6.0
Thesis
Grading: INP, COM, N, F.

SDH 600A Units: 1.5
Fundamentals of Health Research I
An interdisciplinary seminar covering fundamental topics in health research such as: basics in epidemiology, ethics, policy, health and wellness, grant and proposal writing, academic presentations, critical review for publication, knowledge transfer and developing community partnerships. Topics to be covered in the core courses are central to health research scholarship and provide core competencies preparatory to the independent research component of the program.

SDH 600B Units: 1.5
Fundamentals of Health Research II
A continuation of 600A, an interdisciplinary seminar covering fundamental topics in health research such as: basics in epidemiology, ethics, policy, health and wellness, grant and proposal writing, academic presentations, critical review for publication, knowledge transfer and developing community partnerships. Topics to be covered in the core courses are central to health research scholarship and provide core competencies preparatory to the independent research component of the program.

Prerequisites: 600A or permission of the program.

SDH 601A Units: 1.5
Social Dimensions of Health Colloquium
The SDH colloquium series exposes students to a wide range of conceptual and substantive issues that reflect the breadth and depth of health research generally. Attendance and participation in the colloquium is mandatory throughout their time in the SDH program. Students receive 3 units of pass/fail credit during their first year. Students will be required to make presentations of their own research in the colloquium.

Grading: INP, COM, N, F.

SDH 601B Units: 1.5
Social Dimensions of Health Colloquium
A continuation of 601A, a colloquium series that exposes students to a wide range of conceptual and substantive issues that reflect the breadth and depth of health research generally. Attendance and participation in the colloquium is mandatory throughout their time in the SDH program. Students receive 3 units of pass/fail credit during their first year. Students will be required to make presentations of their own research in the colloquium.

Prerequisites: 601A or permission of the program.

Grading: INP, COM, N, F.

SDH 690 Units: 1.5
Directed Studies
Note: May be taken more than once for credit in different topics with the permission of the Director. Pro Forma is required for registration.

SDH 693 Units: 3.0
Comprehensive Exam
Three questions related to their particular research area will be crafted by the student in consultation with their supervisory committee. The questions will be answered in a written format, drawing upon pertinent literature and will be evaluated on a pass/fail basis.

Grading: INP, COM, N, F.

SDH 699 Units: 15.0
Dissertation
Prerequisites: 693 Comprehensive Exam.
Grading: INP, COM, N, F.
SOCI 510 Units: 1.5  
**Categorical Data Analysis**  
Introduction to statistical methods for analyzing categorical data. The emphasis is on practical applications rather than statistical theories.  
**Prerequisites:** 501 or equivalent.

SOCI 511 Units: 1.5  
**Research Design**  
Planning sociological inquiry: formulating a problem, relating the problem to existing theory and research, and determining appropriate empirical strategies.

SOCI 515 Units: 1.5  
**Qualitative Research Methods**  
Key issues and methods in the systematic study of the social world through qualitative sociological research. Examination of the relationship between analytical perspective and methodological decisions, methods of gathering data and analysis. Issues of language, representation, politics, social organization and participation.  
**Prerequisites:** 374 or equivalent.

SOCI 520 Units: 1.5  
**Formerly: 610**  
**Selected Topics in Contemporary Sociology**  
A seminar on topics shaped by the interests of students and instructor. Topics may include current issues in contemporary social theory, environmental sociology, racialization, mass media and social power, feminist theory, the sociology of disability.  
**Note:** Credit will be granted for only one of 520, 610 if taken in the same topic.

SOCI 525 Units: 1.5  
**Gender, Power and Social Justice**  
An exploration of the formation and transformation of gender in the contemporary world, drawing on sociological, feminist and other relevant frameworks. Themes may include the relations between gendered discourses, identities and bodies, the political economy of gender, and intersections between gender and other forms of social power.

SOCI 535 Units: 1.5  
**Political Sociology**  
Examines political behaviour, formal politics, non-conventional politics, the state and civil society in contemporary societies. The social bases for political support and contention, including the role of social class and other forms of social cleavage and solidarity, the dimensions and consequences of the distribution of power in contemporary societies, and the political role of various social groups are discussed.

SOCI 545 Units: 1.5  
**Sociology of Health**  
The social determinants of health and illness in human societies. Topics may vary from year to year and to a certain extent, will be modified to reflect student interest. Applications major theoretical perspectives in its coverage of specific topics. Topics may include: the social and cultural determinants of health with an emphasis on the health of vulnerable populations; embodiment and health; substance use and addictions; the organization and use of health services; public health; the conduct of socio-medical research; and ethical issues in health research.  
**Note:** May be taken more than once for credit in different topics.  
**Prerequisites:** 445 or equivalent; 285 strongly recommended.

SOCI 556 Units: 1.5  
**Social Inequality**  
Studies the structure of economic inequality in contemporary societies, from the perspective of theory and research in social mobility, gender inequality, occupational segregation, elite formation, race/ethnic segregation and social class. The role of the welfare state and global capitalist social organization in the distribution of income and the form and extent of poverty across societies are discussed.

SOCI 566 Units: 1.5  
**Social Movements**  
Studies the origins, strategies, ideologies and political implications of social movements in North America, Europe and beyond. Attention is given to ecology, feminist, gay/lesbian, anti-racist, and human rights movements, as well as to the formation of the New Right.

SOCI 585 Units: 1.5  
**Seminar on Aging**  
An advanced study of social gerontology. Topics may vary from year to year and may be modified to reflect student interest. Examples include: caregiving, inter-generational relations, and health care policies. Applies key theoretical perspectives to specific topics (such as examining the subjective worlds of caregivers to older adults from feminist and constructivist perspectives; critiquing neoliberal health care policies; an aging society from a political economy perspective). Not offered every year.  
**Prerequisites:** 385 or equivalent.

SOCI 590 Units: 1.5  
**Directed Studies**  
**Note:** May be repeated once for a total of 3 units.

SOCI 598 Units: 3.0  
**Extended Essay**  
**Prerequisites:** Normally, a student is expected to have completed all course work prior to registration.  
**Grading:** INP, COM, N, F.

SOCI 599 Units: 6.0  
**Thesis**  
**Prerequisites:** Normally, a student is expected to have completed all course work prior to registration. After 16 months of course work, the student is required to have an approved proposal on file to maintain registration in 599.  
**Grading:** INP, COM, N, F.

SOCI 620 Units: 1.5  
**Selected Topics in Sociological Research Methods**  
In-depth examination and/or comparison of specific research methods, such as survey research, critical discourse analysis, social network analysis, historical/comparative method, multilevel and longitudinal quantitative analysis, and institutional ethnography.

SOCI 690 Units: 1.5  
**Directed Studies**  
**Note:** May be repeated once for a total of 3 units.

SOCI 693 Units: 3.0  
**PhD Candidacy Examinations**  
Students enrol in SOCI 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed. Students are expected to complete all required course work and comprehensive exams within 25 months after entering the PhD program.  
**Grading:** INP, COM, N, F.

SOCI 699 PhD Dissertation  
**Prerequisites:** 693  
**Grading:** INP, COM, N, F.

SOCW 505 Units: 1.5  
**Advanced Child Welfare Seminar**  
Explores topics of special interest in the development of child welfare practice from a critical, anti-oppressive and social justice perspective. Students are expected to conduct an analysis on a current child welfare topic they select in conjunction with the instructor.  
**Notes:**  
- Credit will be granted for only one of 505, 525.  
- Offered as resources permit.

SOCW 506 Units: 4.5  
**Advanced Practicum**  
A minimum of 450 hours of advanced social work practice and demonstration of the application of critical analysis to practice are required. Faculty of Human and Social Development regulations concerning practica apply to the MSWI practicum.  
**Prerequisites:** Advanced Program Standing, 6 units of coursework (4.5 units of Advanced Program core course plus 1.5 units of elective).  
**Corequisites:** 571.  
**Grading:** INP, COM, N, F.

SOCW 506A Units: 4.5  
**MSWI Practicum**  
A minimum of 450 hours of social work practice and demonstration of the application of critical analysis to practice are required. Faculty of Human and Social Development regulations concerning practica apply to the MSWI practicum.  
**Prerequisites:** Advanced Program Standing, 6 units of coursework (4.5 units of Advanced Program core course plus 1.5 units of elective).  
**Corequisites:** Must be taken concurrently with 571.  
**Grading:** INP, COM, N, F.

SOCW 510 Units: 1.5  
**Also:** SPP 510.  
**Policy Context of Practice**  
Reviews and analyzes a number of explanations of the policy making process. Examines who makes policy in both governmental and voluntary human service organizations and the impact of policy on consumers and practitioners. Analyzes the policy/practice interface and uses substantive policy domains to illustrate how policy both enhances and constrains practice and how practice in turn can influence policy. Students are encouraged to develop their own understandings of the contributions of practice to policy.  
**Note:** Credit will be granted for only one of 510, SPP 510, HSD 510.  
**Prerequisites:** Advanced Program Standing.
Contemporary Debates and Ethical Dilemmas in Social Work

Examines and critiques current debates, ideas and discourses relating to social work knowledge and practice, with a specific focus on ethics. Emphasis is placed on postmodern, feminist, anti-racist and Indigenous perspectives as they challenge prevailing assumptions about individualism, meritocracy, professionalism and philanthropy. Specifically looks at the contributions of these perspectives to a critical theorizing of professional practice and ethics.

Note: Credit will be granted for only one of 511, 501 or 518.

Knowledge and Inquiry: Re-Theorizing Social Work

Takes as its starting point the idea that responsible and effective professional and scholarly practice begins with a critical examination of how relations of power shape knowledge production. Over the term, assumptions underlying the creation of knowledge and different approaches to knowing authoritatively will be investigated. Questions of ‘how we come to know’ and ‘how we go about asking’ are explored through poststructural, postcolonial and critical race lenses.

Note: Credit will be granted for only one of 512, SPP 502, HSD 502.

Prerequisites: Advanced Program Standing.

Transnational Social Work

Transnational feminist theorists argue that transnationalism links contemporary notions of nationality, gender, race and class to earlier histories of colonization and present-day imperialism. Students examine the practices of the securitized, neo-liberal Canadian welfare state towards transnational communities by: (a) understanding transnational feminist theories, (b) analyzing nation-making and global inequality, (c) reviewing practices of transnational feminist social justice activism, and (d) critiquing international social work in view of all of the above.

Note: Credit will be granted for only one of 516, SPP 516, HSD 516.

Prerequisites: Advanced Program Standing.

Research Methodologies

Critically reviews a wide range of research methodologies commonly practised in the human services. Considers the kinds of opportunities and challenges presented by each methodology. Emphasizes the link between the development of a research question and the selection of methodological approaches.

Note: Credit will be granted for only one of 516, SPP 516, HSD 516.

Prerequisites: Advanced Program Standing.

Research Seminar

Focuses on specific methodological, analytical and/or theoretical aspects of research for the thesis or project. Is intended to support graduate students in the thesis or project research and writing that they undertake following the completion of their coursework. Content varies from year to year, depending on students’ interests and needs.

Prerequisites: 516.

Grading: INP, COM, N, F.

Indigenous Perspectives on Knowledge and Research

Explores the dimensions of Indigenous ways of knowing that influence research activities in Indigenous communities. Students will explore how, and from where, their own knowing emerges as well as critically examine how knowledge is constructed within larger society. Focuses on how power, culture, ethics, protocols, language, place and spirit shape knowledge.

Critical Indigenous Analysis of Social Work Theory

Critical analysis, from an Indigenous perspective, of social work theory. Students critically examine how culture, modernism, class, race, and professionalism have shaped the development of social work practice and how these characteristics manifest themselves in practice in Indigenous communities.

Critical Indigenous Analysis of Social Welfare Policy

Critical analysis from an Indigenous perspective of social welfare policy. Students critically examine how capitalism, colonialism, race and class are embedded in social welfare policy. Examples of Indigenous policy development are also examined to explore the components of alternative visions of welfare. Students are expected to apply ideas and concepts from the policy literature to policy development in their own agency.

Seminar in Child Welfare Policy and Practice in Indigenous Communities

Examination of critical issues in family and child welfare policy and practice development in Indigenous Communities. The critical issues to be examined are determined collectively by students and faculty in the context of the literature.

Seminar in Community Health Policy and Practice in Indigenous Communities

Examination of critical issues in community health as sexual abuse, substance misuse and family violence along with the collective steps that Indigenous (and other) communities have taken to restore health. The critical issues to be examined are determined collectively by students and faculty.

Research Methods

Critically reviews the research methodologies that have proved most productive in the development of Indigenous knowledge. Emphasizes the link between the development of a research question and the selection of methodological approaches. Students are required to apply this understanding to the preparation of a draft research proposal.

Prerequisites: 521, 522, 523, 524.

Research Seminar

Provides support to students in the development of their research proposal (thesis or research project) and the conduct of their research.

Prerequisites: 527.

Corequisites: 596, 598 or 599.

Critical Indigenous Analysis of Social Work Theory

Examines and critiques current debates, ideas and discourses relating to social work knowledge and practice, with a specific focus on ethics. Emphasis is placed on postmodern, feminist, anti-racist and Indigenous perspectives as they challenge prevailing assumptions about individualism, meritocracy, professionalism and philanthropy. Specifically looks at the contributions of these perspectives to a critical theorizing of professional practice and ethics.

Note: Credit will be granted for only one of 511, 501 or 518.

Prerequisites: Advanced Program Standing.

Research Methodologies

Critically reviews a wide range of research methodologies commonly practised in the human services. Considers the kinds of opportunities and challenges presented by each methodology. Emphasizes the link between the development of a research question and the selection of methodological approaches.

Note: Credit will be granted for only one of 516, SPP 502, HSD 502.

Prerequisites: Advanced Program Standing.

Research Seminar

Focuses on specific methodological, analytical and/or theoretical aspects of research for the thesis or project. Is intended to support graduate students in the thesis or project research and writing that they undertake following the completion of their coursework. Content varies from year to year, depending on students’ interests and needs.

Prerequisites: 516.

Grading: INP, COM, N, F.

Indigenous Perspectives on Knowledge and Research

Explores the dimensions of Indigenous ways of knowing that influence research activities in Indigenous communities. Students will explore how, and from where, their own knowing emerges as well as critically examine how knowledge is constructed within larger society. Focuses on how power, culture, ethics, protocols, language, place and spirit shape knowledge.

Critical Indigenous Analysis of Social Work Theory

Critical analysis, from an Indigenous perspective, of social work theory. Students critically examine how culture, modernism, class, race, and professionalism have shaped the development of social work practice and how these characteristics manifest themselves in practice in Indigenous communities.

Critical Indigenous Analysis of Social Welfare Policy

Critical analysis from an Indigenous perspective of social welfare policy. Students critically examine how capitalism, colonialism, race and class are embedded in social welfare policy. Examples of Indigenous policy development are also examined to explore the components of alternative visions of welfare. Students are expected to apply ideas and concepts from the policy literature to policy development in their own agency.

Seminar in Child Welfare Policy and Practice in Indigenous Communities

Examination of critical issues in family and child welfare policy and practice development in Indigenous Communities. The critical issues to be examined are determined collectively by students and faculty in the context of the literature.

Seminar in Community Health Policy and Practice in Indigenous Communities

Examination of critical issues in community health as sexual abuse, substance misuse and family violence along with the collective steps that Indigenous (and other) communities have taken to restore health. The critical issues to be examined are determined collectively by students and faculty.

Research Methods

Critically reviews the research methodologies that have proved most productive in the development of Indigenous knowledge. Emphasizes the link between the development of a research question and the selection of methodological approaches. Students are required to apply this understanding to the preparation of a draft research proposal.

Prerequisites: 521, 522, 523, 524.

Research Seminar

Provides support to students in the development of their research proposal (thesis or research project) and the conduct of their research.

Prerequisites: 527.

Corequisites: 596, 598 or 599.

Critical Indigenous Analysis of Social Work Theory

Examines and critiques current debates, ideas and discourses relating to social work knowledge and practice, with a specific focus on ethics. Emphasis is placed on postmodern, feminist, anti-racist and Indigenous perspectives as they challenge prevailing assumptions about individualism, meritocracy, professionalism and philanthropy. Specifically looks at the contributions of these perspectives to a critical theorizing of professional practice and ethics.

Note: Credit will be granted for only one of 511, 501 or 518.

Prerequisites: Advanced Program Standing.

Research Methodologies

Critically reviews a wide range of research methodologies commonly practised in the human services. Considers the kinds of opportunities and challenges presented by each methodology. Emphasizes the link between the development of a research question and the selection of methodological approaches.

Note: Credit will be granted for only one of 516, SPP 502, HSD 502.

Prerequisites: Advanced Program Standing.

Research Seminar

Focuses on specific methodological, analytical and/or theoretical aspects of research for the thesis or project. Is intended to support graduate students in the thesis or project research and writing that they undertake following the completion of their coursework. Content varies from year to year, depending on students’ interests and needs.

Prerequisites: 516.

Grading: INP, COM, N, F.

Indigenous Perspectives on Knowledge and Research

Explores the dimensions of Indigenous ways of knowing that influence research activities in Indigenous communities. Students will explore how, and from where, their own knowing emerges as well as critically examine how knowledge is constructed within larger society. Focuses on how power, culture, ethics, protocols, language, place and spirit shape knowledge.

Critical Indigenous Analysis of Social Work Theory

Critical analysis, from an Indigenous perspective, of social work theory. Students critically examine how culture, modernism, class, race, and professionalism have shaped the development of social work practice and how these characteristics manifest themselves in practice in Indigenous communities.

Critical Indigenous Analysis of Social Welfare Policy

Critical analysis from an Indigenous perspective of social welfare policy. Students critically examine how capitalism, colonialism, race and class are embedded in social welfare policy. Examples of Indigenous policy development are also examined to explore the components of alternative visions of welfare. Students are expected to apply ideas and concepts from the policy literature to policy development in their own agency.

Seminar in Child Welfare Policy and Practice in Indigenous Communities

Examination of critical issues in family and child welfare policy and practice development in Indigenous Communities. The critical issues to be examined are determined collectively by students and faculty in the context of the literature.

Seminar in Community Health Policy and Practice in Indigenous Communities

Examination of critical issues in community health as sexual abuse, substance misuse and family violence along with the collective steps that Indigenous (and other) communities have taken to restore health. The critical issues to be examined are determined collectively by students and faculty.

Research Methods

Critically reviews the research methodologies that have proved most productive in the development of Indigenous knowledge. Emphasizes the link between the development of a research question and the selection of methodological approaches. Students are required to apply this understanding to the preparation of a draft research proposal.

Prerequisites: 521, 522, 523, 524.

Research Seminar

Provides support to students in the development of their research proposal (thesis or research project) and the conduct of their research.

Prerequisites: 527.

Corequisites: 596, 598 or 599.

Critical Indigenous Analysis of Social Work Theory

Examines and critiques current debates, ideas and discourses relating to social work knowledge and practice, with a specific focus on ethics. Emphasis is placed on postmodern, feminist, anti-racist and Indigenous perspectives as they challenge prevailing assumptions about individualism, meritocracy, professionalism and philanthropy. Specifically looks at the contributions of these perspectives to a critical theorizing of professional practice and ethics.

Note: Credit will be granted for only one of 511, 501 or 518.

Prerequisites: Advanced Program Standing.
to practice. The development of critical consciousness (historical, socio-cultural and political influences on professional and personal identities and experiences) is emphasized, and shifting sources and forms of professional power and authority are examined. Specific skills will include interpersonal communication, problem solving, and working in alliance and solidarity in the context of increased inequality and diminished resources.

**SOCW 543** Units: 1.5  
**Theorizing Social Difference**  
How do we come to know who we are and how is this knowledge raced, embodied, engaged and embedded in a material context? These questions underpin social work knowledge and practice. Developing an analysis of social difference is a crucial skill for social workers. In this course students will be introduced to the concepts of marginalization and dominance as they play out in (primarily) North American contexts. The course will look at social work theories and knowledge as a departure point from which to explore interdisciplinary theorizations of concepts core to the profession.

**SOCW 544** Units: 1.5  
**Social Work, the State and Citizenship**  
Taking the perspective of ‘citizenship as participation’, explores the lived realities of global citizenship as it is configured on the basis of geography, class, race, gender, and other identity locations. It will explore the role of social work and welfare states using the lens of citizenship. The course will also examine the role of civil society globally, as instances of citizenry participation against global injustices. Students will develop an understanding of the role that they can play as global citizens and in the field of international social work.

**SOCW 545** Units: 1.5  
**Networks and Communities**  
Social work practice within communities and social networks. Definitions of community are explored as experienced and conceptualized from various locations. Critical historical and theoretical analysis and ethical dilemmas posed by various approaches to community work are examined. Students have the opportunity to develop theoretical and practical understandings of anti-oppressive, antiracist and anti-colonial community practice as experiences within their own communities.

**SOCW 546** Units: 1.5  
**Collaborative Conversations**  
Focuses on developing social work practice skills with individuals and communities in ways that are both difference-centred and collaborative in nature. Students will critically analyze and develop their own, individual and community development, practice skills in relation to working in various community contexts, within a social justice framework. Students will examine ways to further difference-centred practice to become more effective, participatory and collaborative with clients, social services and civil society.

**SOCW 547** Units: 1.5  
**Historicizing Social Work: Friendly Visits to Social Justice**  
Critical examination of the constitution of social work practice and theories at different historical and contextual moments and its varying roles in regulating the boundaries between national subjects and ‘others’. Students engage in critical/reflective study of social work responses to so-called ‘problem populations’ in the context of changing political, social, economic, and moral climates and the making of citizenship and nation.

**SOCW 548** Units: 1.5  
**Community Research Methods**  
Introduces community research methods; including collaborative, community-based and action research. Emphasizes methodological questions and techniques, both qualitative and quantitative, that are relevant to community based social work practice and research.

**SOCW 549** Units: 1.5  
**Research Foundations**  
This course reviews foundational concepts and strategies of social work research with a focus on the comprehension, critique and utilization of research in social work practice settings. Students critically reflect on examples of research and examine how power shapes knowledge. Research approaches for conducting ethical, emancipatory and socially just research are examined.

**SOCW 550** Units: 1.5  
**Social Justice, Social Work and the Law**  
Explores and critiques theories and critical perspectives on law, the legal system and the legal processes that have an impact on professional social work practice. Students will critically examine the interplay between marginalization, structural inequalities, social work, social justice and the Canadian legal system.

**SOCW 551** Units: 1.5  
**Indigenous Communities: Practice and Policy**  
Critically examines the historical processes of colonization in Canada and resulting barriers embedded in past and current policy and practices that affect Indigenous peoples. Students will deconstruct colonization, race, class and capitalism as embedded in social welfare. Students will have an opportunity to examine their self location, ideas, values and beliefs about working with Indigenous peoples and to develop a practice framework, based on social justice, for working with Indigenous communities.

**SOCW 571** Units: 1.5  
**MSW Capstone**  
A culminating educational experience to consolidate learning and demonstrate preparation for advanced social work practice. Students will integrate, articulate, and evaluate from the courses and practica in the MSW program within the context of other professional activities and prior academic experiences.

Notes:  
- Students are expected to have completed all required coursework except 506/506A.  
- 506, 506A can be taken as a pre or co-requisite although it is normally taken concurrently with 571.

Grading: INP, COM, N, F.

**SOCW 580** Units: 1.5 or 3.0  
**Special Topics in Social Work and Social Welfare**  
A variable content course that deals with special issues in social welfare and approaches to social work practice.

Notes:  
- May be taken more than once for credit with different course content.  
- Offered as resources permit.

**SOCW 590** Units: 1.5 or 3.0  
**Directed Studies**  
Individual studies under the direct supervision of a social work faculty member. The content, credit value, and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registration.

Notes:  
- May be taken more than once for credit with different course content.  
- Pro Forma required.

**SOCW 596** Units: 3.0  
**Team Graduating Research Project/Report**  
Students working under social work faculty supervision complete a research project. This can include undertaking a research project for a social agency. Maximum size of team is 3 students.

Prerequisites: Students must have completed 6 units of Advanced coursework, including 516, before registering.

Grading: INP, COM, N, F.

**SOCW 598** Units: 3.0  
**Individual Graduating Research Project/Report**  
Students working under social work faculty supervision complete a research project. This can include undertaking a research project for a social agency.

Prerequisites: Students must have completed 6 units of Advanced coursework, including 516, before registering.

Grading: INP, COM, N, F.

**SPAN 500** Units: 1.5  
**Introduction to Bibliography and Methods of Research**

**SPAN 502** Units: 1.5  
**Core Reading List Course I**

**SPAN 503** Units: 1.5  
Also: ITAL 503  
**Core Reading List Course II**

**SPAN 505** Units: 1.5  
Also: ITAL 505  
**Medieval Literature**

Note: May be taken more than once for credit in different topics with permission of the department.

**SPAN 507** Units: 1.5  
Also: ITAL 507  
**Renaissance and Baroque Literature**

Note: May be taken more than once for credit in different topics with permission of the department.
SPAN 511  Units: 1.5
Peninsular Literature from the 20th Century to the Present
Note: May be taken more than once for credit in different topics with permission of the department.

SPAN 512  Units: 1.5
Formerly: 509 and 517
Spanish and Latin American Literature of the 19th Century
Notes:
- Credit will be granted for only one of 512, 509, 517.
- May be taken more than once for credit in different topics with permission of the department.

SPAN 515  Units: 1.5
Colonial Latin American Literature
Note: May be taken more than once for credit in different topics with permission of the department.

SPAN 519  Units: 1.5
Latin American Literature from the 20th Century to the Present
Note: May be taken more than once for credit in different topics with permission of the department.

SPAN 520  Units: 1.5
Advanced Methodology Seminar
An in-depth look at a particular research methodology. Issues covered include methodological links to theory, policy, practice and praxis. Seminar content varies depending on faculty and student interest.

SPAN 522  Units: 1.5
Critically Engaging with Research
Provides students with critical skills for reading and assessing a range of published research. Course readings will include both theoretical and methodological framings and examples of research with which students can be critically engaged.

SPAN 530  Units: 1.5
Advanced Policy and Practice Seminar
An in-depth theoretical and/or empirical look at a particular issue, topic or set of questions in relation to policy and practice. Links to methodology and praxis may also be examined. Seminar content varies depending on faculty and student interest.

SPP 501  Units: 1.5
Organizational Context of Policy and Practice
Presents a range of conceptual and theoretical frameworks for understanding organizational processes and their effects on work practices within both large bureaucratic institutions and community-based agencies, and on policy development and service delivery in diverse contexts. Students reflect on their own experiences and on the scholarly literature in developing an analysis of organizational discourses, policies and practices.
Note: Credit will be granted for only one of 501, HSD 501.

SPP 510  Units: 1.5
Also: SOCW 510
Policy Context of Practice
Reviews and analyzes a number of aspects of the policy-making process. Examines who makes policy in both governmental and voluntary human service organizations and the impact of policy on consumers and practitioners. Analyzes the policy/practice interface and uses substantive policy domains to illustrate how policy both enhances and constrains practice and how practice in turn can influence policy. Students are encouraged to develop their own understandings of the contributions of practice to policy.
Note: Credit will be granted for only one of 510, HSD 510, SOCW 510.

SPP 516  Units: 1.5
Also: SOCW 516
Research Methodologies
Critically reviews a wide range of research methodologies commonly practised in the human services. Considers the kinds of opportunities and challenges presented by each methodology. Emphasizes the link between the development of a research question and the selection of methodological approaches.
Note: Credit will be granted for only one of 516, HSD 516, SOCW 516.

SPP 519  Units: 1.5
Theory for Policy and Practice
Focuses on theory and the construction of knowledge. Course readings examine the act of theorizing and consider the ways that practice can inform theory, and vice versa, as well as assumptions underlying the creation of knowledge. Assignments support students to become more familiar with engaging theory.
Note: Credit will be granted for only one of 519, HSD 519.

SPP 520  Units: 1.5
Advanced Methodology Seminar
An in-depth look at a particular research methodology. Issues covered include methodological links to theory, policy, practice and praxis. Seminar content varies depending on faculty and student interest.

SPP 522  Units: 1.5
Critically Engaging with Research
Provides students with critical skills for reading and assessing a range of published research. Course readings will include both theoretical and methodological framings and examples of research with which students can be critically engaged.

SPP 530  Units: 1.5
Advanced Policy and Practice Seminar
An in-depth theoretical and/or empirical look at a particular issue, topic or set of questions in relation to policy and practice. Links to methodology and praxis may also be examined. Seminar content varies depending on faculty and student interest.

SPP 531  Units: 1.5
Critical Approaches to Policy Analysis
An opportunity for students to explore key differences between critical and mainstream approaches to policy analysis; to engage with examples of research and writing generated by scholars who use the tools of critical policy analysis to consider specific policy issues; and to assess the contribution that critical approaches to policy analysis might make to their own research and/or practice. Designed for students from a variety of disciplinary backgrounds who are interested in either public policy or policy in organizational settings.
Note: Credit will be granted for only one of 531, 580 (if taken in the same topic).
Prerequisites: 510 or the equivalent in coursework and/or practical experience with policy analysis or policy development.

SPP 550  Units: 1.5
Advanced Thesis Seminar
Focuses on methodological, analytical, and/or theoretical aspects of research for the thesis. Content varies from year to year depending on students’ interests and needs.
Note: A required full-year seminar for students who have completed their coursework.
Prerequisites: Students must have completed their coursework.

SPP 580  Units: 1.5 or 3.0
Special Topics in Studies in Policy and Practice
A variable content course which will focus on the policy, practice and/or research interests of faculty and students in the SPP Program.
Note: May be taken more than once for credit in different topics.
STAT 558  Units: 1.5  
**Design and Analysis of Experiments**
Basic principles of experimental design; factorial designs; block designs; fractional factorial designs; response surface designs; nested and split-plot designs; optimal designs; techniques of analysis of variance; fixed effects models; random effects models.

STAT 559  Units: 1.5  
**Survival Analysis**
Theory and techniques for censored and truncated data; nonparametric estimation of survival and cumulative hazard functions and associated hypothesis tests; semiparametric proportional hazards regression; survival models; regression diagnostics; inference for parametric regression models.

STAT 561  Units: 1.5  
**Theory of Inference**

STAT 562  Units: 1.5  
**Distribution Free Statistics**
Classical distribution free methods: tests based on the binomial distribution, contingency tables, methods based on ranks, statistics of the Kolmogorov-Smirnov type. Computing and intensive distribution-free methods: re-sampling methods and empirical likelihood methods.

STAT 563  Units: 1.5  
Also: BIOL 563  
**Topics in Applied Statistics**
Survival analysis, generalized linear models, multivariate normal models, resampling methods, nonparametric and robust methods, meta-analysis, miscellaneous techniques.

STAT 568  Units: 1.5  
**Generalized Linear Models**
Exponential family of distributions and generalized linear models; maximum likelihood estimation and inference; regression diagnostics; logistic regression; nominal and ordinal logistic regression; Poisson regression and log-linear models; clustered and longitudinal data.

STAT 589  Units: 1.5  
**Statistics Seminar**
Note: May be taken more than once for credit with permission of Chair of the department.

STAT 598  Units: 3.0  
**Master’s Project**
Grading: INP, COM, N, F.

STAT 599  Units: 6.0  
**Master’s Thesis**
Grading: INP, COM, N, F.

STAT 693  Units: 3.0  
**Candidacy Examination**
Grading: INP, COM, N, F.

STAT 699  Units: 21.0-30.0  
**Dissertation**
Corequisites: 693  
Grading: INP, COM, N, F.

THEA 500  Units: 1.5 or 3.0  
**Methods and Materials of Theatre Research**

THEA 501  Units: 1.5 or 3.0  
**Seminar in History and Criticism of Tragedy**

THEA 502  Units: 1.5 or 3.0  
**Seminar in History and Criticism of Comedy**

THEA 503  Units: 1.5 or 3.0  
**Seminar in European Theatre History**

THEA 504  Units: 1.5 or 3.0  
**Seminar in Modern and Contemporary Theatre History**

THEA 505  Units: 1.5 or 3.0  
**Seminar in North American Theatre History**

THEA 508  Units: 1.5 or 3.0  
**Scene Design**

THEA 509  Units: 1.5 or 3.0  
**Lighting Design**

THEA 510  Units: 1.5 or 3.0  
**Costume Design**

THEA 511  Units: 1.5 or 3.0  
**Production**

THEA 512  Units: 1.5 or 3.0  
**Directing**

THEA 513  Units: 1.5 or 3.0  
**Seminar in Theatre Aesthetics**

THEA 514  Units: 1.5 or 3.0  
**Seminar in Design**

THEA 515  Units: 1.5 or 3.0  
**Seminar in Directing**

THEA 516  Units: 1.5 or 3.0  
**Seminar in Theatre History**

THEA 520  Units: 1.5 or 3.0  
**Advanced Problems in Scene Design**

THEA 521  Units: 1.5 or 3.0  
**Advanced Problems in Lighting Design**

THEA 522  Units: 1.5 or 3.0  
**Advanced Problems in Costume Design**

THEA 523  Units: 1.5 or 3.0  
**Advanced Problems in Directing**

THEA 524  Units: 6.0  
**MFA Practicum**
Grading: INP, COM, N, F.

THEA 590  Units: 1.5 or 3.0  
**Directed Studies**
Note: May be taken more than once for credit with permission of the department.

THEA 598  Units: 4.5  
**MA Essay**
Grading: INP, COM, N, F.

THEA 599  Units: 6.0  
**MA Thesis**
Grading: INP, COM, N, F.

THEA 690  Units: 1.5-6.0  
**Directed Studies**
Note: May be taken more than once for credit at the discretion of the department.

THEA 693  Units: 3.0  
**Dissertation Proposal/Candidacy Exam**
Grading: INP, COM, N, F.

THEA 699  Units: 30.0  
**Dissertation**
Prerequisites: 693  
Grading: INP, COM, N, F.

WRIT 500  Units: 1.5  
**Graduate Writing Workshop**
A workshop in which students will focus on writing and workshop in one genre: poetry, fiction, creative nonfiction, playwriting or screenwriting.

WRIT 501  Units: 1.5  
**Special Topics in Advanced Studies in Writing**
A class that focuses on literary models, specific elements of craft, and topics of interest to writers in more than one genre.

WRIT 509  Units: 1.5  
**Instructional Skill Preparation**
A seminar which focuses on pedagogy and teacher training in creative writing.

WRIT 590  Units: 1.5  
**Directed Studies in Instructional Skills Preparation**
A course which focuses on teacher training in creative writing.

WRIT 598  Units: 9.0  
**Major Writing Portfolio**
The creation of an original creative writing portfolio in one of the following genres: poetry (30-50 pages), creative nonfiction (60-120 pages), fiction (60-120 pages), a stage play (60-100 pages), a film script (60-90 pages) or a production project with script/manuscript in one of the above genres.

Grading: INP, COM, N, F.
The University of Victoria acknowledges with respect the history, customs and culture of the Coast Salish and Straits Salish peoples on whose traditional lands the university resides.

Ceremonial Furnishings
The Chancellor’s chair and ceremonial furnishings used at Convocation are the generous gift of the late Dr. Michael C. Williams. They constitute five magnificent works of art, created through a collaboration among twelve West Coast artists. Roberta Louis, weaver, and Susan Point, carver, both Coast Salish of the Musqueam Band, with artist Glen Tallio (Nuxalk), created the kneeling stool. Carvers Art Thompson (Nuu-chah-nulth), Calvin Hunt (Kwagiulth), Norman Tait (Nisga’a), John Livingston (adopted Kwagiulth), and Don Yeomans (Haida) collaborated with weavers Ann Smith (Tutchone-Tlingit) and Cheryl Samuel (adopted Tlingit) on the Chancellor’s chair itself. The Chief Speaker’s staff was designed and carved by Kwagiulth artist, Richard Hunt. The kneeling figure mace stand was sculpted by Tom Hunt (Kwagiulth). The raven lectern is also the work of John Livingston. The furnishings were completed in 1994. Their style and imagery draw on the myths and artistic traditions of the Northwest Coast Aboriginal nations, home communities to many University of Victoria students.
University of Victoria Learning Outcomes

Society requires that people with diverse backgrounds come together and work toward resolving complex environmental, ethical, scientific and social problems. In addition to substantive content knowledge in students’ specific fields of study, all students at the University of Victoria are encouraged to take advantage of opportunities they will be given to achieve the following learning outcomes.

**Intellectual, academic and practical skills in:**
- Inquiry, analysis, and problem solving
- Critical, innovative, and creative thinking
- Effective written, visual, and oral communication
- Numerical literacy
- Critical evaluation of qualitative and quantitative information
- Critical management of information, including in digital environments
- Collaboration and the ability to work in teams

**Personal and social responsibility capacities:**
- Informed civic engagement and understanding – from local to global
- Intercultural knowledge and sensitivity
- Ethical and professional reasoning and action
- Life-long learning

**These outcomes are achieved through:**
- Academic and co-curricular programs of the highest quality
- Integration of research and teaching across the curriculum
- Practice and support of relevant skills through progressively more challenging problems, assignments, projects, and standards for performance
- Opportunities for research, experiential, and work-integrated learning
- Active engagement with diverse communities, societal issues and meaningful intellectual challenges

Faculties, units and programs will interpret these outcomes in ways that are discipline-specific, using the university-wide learning outcomes as guideposts for developing program-specific and course-specific learning outcomes. Students in different programs will therefore achieve these outcomes in different ways according to the appropriate standards of their respective fields of study.

### Historical Outline

The University of Victoria came into being on July 1, 1963, but it had enjoyed a prior tradition as Victoria College of sixty years distinguished teaching at the university level. This sixty years of history may be viewed conveniently in three distinct stages.

Between the years 1903 and 1915, Victoria College was affiliated with McGill University, offering first- and second-year McGill courses in Arts and Science. Administered locally by the Victoria School Board, the College was an adjunct to Victoria High School and shared its facilities. Both institutions were under the direction of a single Principal: E.B. Paul, 1903-1908; and S.J. Willis, 1908-1915. The opening in 1915 of the University of British Columbia, established by Act of Legislature in 1908, obliged the College to suspend operations in higher education in Victoria.

In 1920, as a result of local demands, Victoria College began the second stage of its development, reborn in affiliation with the University of British Columbia. Though still administered by the Victoria School Board, the College was now completely separated from Victoria High School, moving in 1921 into the magnificent Dunsmuir mansion known as Craigdarroch. Here, under Principals E.B. Paul and P.H. Elliott, Victoria College built a reputation over the next two decades for thorough and scholarly instruction in first- and second-year Arts and Science.

The final stage, between the years 1945 and 1963, saw the transition from two year college to university, under Principals J.M. Ewing and W.H. Hickman. During this period, the College was governed by the Victoria College Council, representative of the parent University of British Columbia, the Greater Victoria School Board, and the provincial Department of Education. Physical changes were many. In 1946 the College was forced by post-war enrolment to move from Craigdarroch to the Lansdowne campus of the Provincial Normal School. The Normal School, itself an institution with a long and honourable history, joined Victoria College in 1956 as its Faculty of Education. Late in this transitional period (through the co-operation of the Department of National Defence and the Hudson's Bay Company) the 284 (now 385) acre campus at Gordon Head was acquired. Academic expansion was rapid after 1956, until in 1961 the College, still in affiliation with UBC awarded its first bachelor’s degrees.

In granting autonomy to the University of Victoria, the University Act of 1963 vested administrative authority in a Chancellor elected by the Convocation of the University, a Board of Governors, and a President appointed by the Board; academic authority was given to a Senate which was representative both of the faculties and of the Convocation.

The historical traditions of the University are reflected in the Arms of the University, its academic regalia and its house flag. The BA hood is of solid red, a colour that recalls the early affiliation with McGill. The BSc hood, of gold, and the BEd hood, of blue, show the colours of the University of British Columbia. Blue and gold have been retained as the official colours of the University of Victoria. The motto at the top of the Armes of the University, in Hebrew characters, is “Let there be Light”; the motto at the bottom, in Latin, is “A Multitude of the Wise is the Health of the World.”

### Principal Officers and Governing Bodies

The following were the university’s principal officers and members of its governing bodies as of January 27, 2015.

**Chancellor**
- Shelagh Rogers, OC, BA

**President and Vice-Chancellor**
- Jamie Cassels, QC, BA, LLB, LLM

**Vice-President Academic and Provost**
- Valerie Kuehne, BScN, MED, MA, PhD

**Vice-President Research**
- David Castle, BA, BSc, MA, PhD

**Vice-President Finance and Operations**
- Gayle Gorrill, BBA, CA, CBV

**Vice-President External Relations**
- Carmen Charette, BSc, BBA

**University Secretary**
- Julia Eastman, BA, MA, PhD

**Board of Governors**

**Ex Officio Members**
- Chancellor Shelagh Rogers, OC, BA
- President and Vice-Chancellor Jamie Cassels, QC, BA, LLB, LLM

**Members Appointed by the Lieutenant Governor in Council**
- Ida Chong, CPA, FCGBA
- Peter Gustavson, BCom (Hons.), CA, FCA, CPA
- Michael Kennedy, BSc
- Lindsay LeBlanc, BCom (Hons.), LLB
- Isobel Mackenzie, BA, MBA
- Erich Mohr, PhD, RPsych
- Tracy Redies, BA, MSc
- Beverly Van Ruyven, BA

**Members Elected by the Faculty Members**
- Hélène Cazes, BA, MA, DEA, PhD (ENS Paris)
- Ana Maria Peredo, BS, MA, PhD

**Members Elected by the Student Associations**
- Bradley Cranwell
- Kayleigh Erickson

**Members Elected by and from full-time Employees of the University who are not Faculty Members**
- Nav Bassi, BSc, MBA, PMP
Secretary
Julia Eastman, BA, MA, PhD, University Secretary

Senate
Ex Officio Members
Chancellor, Shelagh Rogers, OC, BA
President and Vice-Chancellor (Chair), Jamie Cassels, QC, BA, LLB, LLM
Vice-President Academic and Provost, Valerie Kuehn, BScN, MEd, MA, PhD
Vice-President Research, David Castle, BA, BSc, MA, PhD
Dean of Peter B. Gustavson School of Business, Saul Klein, BA, MBA, PhD
Dean of Education, Ralf St. Clair, Dipl, MSc, PhD
Dean of Engineering, Thomas Tiedje, BAsc, MSc, PhD, PEng, FRSC
Dean of Continuing Studies, Maureen MacDonald, BA, LLB, MBA, PhD
Acting Dean of Fine Arts, Lynne van Luven, BA, MA, PhD
Dean of Graduate Studies, David Capson, BSc, MEng, PhD, PEng
Dean of Humanities, John Archibald, BA, MA, TESL Cert., ARCT, ATCL, PhD
Dean of Human and Social Development, Mary Ellen Purkis, BSN, MSc, PhD (Vice-Chair)
Dean of Law, Jeremy Webber, BA, LLB, LLM
Dean of Science, Robert Lipson, BSc, MSc, PhD
Dean of Social Sciences, Catherine Krull, BA, MA, PhD
University Librarian, Jonathan Bengtson, BA, MPhil, MA

Members Elected by the Individual Faculties
Business
Rebecca Grant, BS, MBA, PhD
Brock Smith, BCom, MBA, PhD

Education
Carolyn Crippen, BA, MEd, PhD
John Walsh, BGS, MA, PhD

Engineering
Peter Driessen, BSc, PhD, PEng
Nikolai Dechev, BASc, MASc, PhD, PEng

Fine Arts
Patricia Kostek, BSc, MM

Graduate Studies
Sara Beam, BA, MA, PhD
Charlotte Schallie, BA, MA, PhD

Human and Social Development
Abdul Roudsari, BSc, MSc, PhD
Esther Sangster-Gormely, BSN, MS, PhD

Humanities
Annalee Lepp, BA, MA, PhD
Laura Parisi, BA MA, PhD

Law
Gillian Calder, BA, LLB, LLM
Mark Gillen, BComm, MBA, LLB, LLM

Science
Florin Diacu, MMath, PhD
Diana Varela, BSc, MA, PhD

Social Sciences
Doug Baer, BES, MA, PhD
Rosaline Canessa, BSc, MSc, PhD

Members Elected by the Faculty Members
Janni Aragon, BA, MA, PhD
Sikata Banerjee, BA, MA, PhD
Alexandra Branzan Albu, BSc, MSc, PhD
Catherine Caws, BA, MA, PhD
Alison Chapman, MA, PhD
Aaron Devor, BA, MA, PhD
Kathryn Gillis, BSc, PhD
Tim Haskett, BA, MA, PhD
Susan Lewis, BA, BMus, MMus, MFA, PhD
Leslee Francis Pelton, BSc, MA PhD

Members Elected by the Student Societies
Lee Brekstad
Jordan Crocker
Kayleigh Erickson
Karthik Gopalakrishnan
Susan Karim, BA
Ivelina Ivanova
Ben Lukenchuk
Dakota Mellin
Roy Nam
Alex Neiman
Cory Shankman, BSc, MSc
Gabrielle Sutherland, BA
Kaylee Szakacs
Nick Tang
Lindsey Willis

Members Elected by the Convocation
Nav Bassi, BSc, MBA, PMP
Linda Hannah, MA, PhD
Robbyn Lanning, BA, MA
Cathy McIntyre, MBA

Additional Members
Bruce Wright, BA, MA, MD, Head, Division of Medical Sciences
Tracie Smith, BA, MLIS, Elected by the Professional Librarians
Alicia Ulysses, BA, MA, Continuing Sessional

Secretary of Senate
Julia Eastman, BA, MA, PhD, University Secretary

By Invitation with Speaking Rights
James Dunsdon, BEd, MBA, Associate Vice-President Student Affairs
Catherine Mateer, BA, MSc, PhD, Associate Vice-President Academic Planning
Lauren Charlton, BA, DipED, Registrar
Cassbreea Dewis, BA, Acting Associate University Secretary

Foundation for the University of Victoria

Members of the Board
Carolyn Thoms, CA, CFA (Chair)
Fiona Hunter, BA, LLB, LLM
Andrew Turner, BComm
Duncan Webster, CFA
Richard Weech, CA, CFA

Officers
President: Gayle Gorill, BBA, CA, CBV
Treasurer: Murray Griffith, BA, CMA
Secretary: Julia Eastman, BA, MA, PhD

University of Victoria Foundation

Members of the Board
Carolyn Thoms, CA, CFA (Chair)
Gayle Gorill, BBA, CA, CBV (ex officio)
Lisa Hill
Fiona Hunter, BA, LLB, LLM
Robert Miller, CA, BA
Michael Mills, FIA, FCIA
Paul Siluch, BSc
Andrew Turner, BComm
President Jamie Cassels, QC, BA, LLB, LLM (ex officio)
Duncan Webster, CFA
Richard Weech, CA, CFA (Vice-Chair)

Officers
President: Tamas Zsolnay, BA, MBA
Treasurer: Andrew Coward, BComm, CFA
Secretary: Julia Eastman, BA, MA, PhD
Assistant Secretary: Kathy MacDonald
Faculty and Staff Emeritus and Honorary Degree Recipients

Chancellors Emeritus
Murray Farmer, BA
Ronald Lou-Poy, CM, QC, BCom, LLB, Hon LLD
Norma Mickelson, CM, OBC, BEd, MA, PhD

Presidents Emeritus
Howard E. Petch, BSc, MSc, PhD, DSc, LLD, FRSC
David Strong, BSc, MSc, PhD, FRSC
David H. Turpin, CM, BSc, PhD, FRSC

Faculty, Senior Instructors and Librarians Emeritus and Emerita 2014–2015
Salvatore Aquila, BA (Simon Fraser), MLS (UBC)
Gregory Blue, BA (St Vincent de Paul), BPhil (U Catholique Louvain), PhD (Cantab)
Neil Campbell, BA Honours (UBC), LLB (UVic), MLS (UBC)
Evelyn Colby, BA (BYU), MA, PhD (Dartmouth)
Cheryl Crane, BA, LLB (Sask), LLM (Cambridge)
Eugene Dowling, BM (Michigan St), MM (Northwestern)
C. John Duder, BA (UVic), PhD (Aberdeen)
Hamar Foster, QC, BA (Queen's), MA (Sussex), LLB (UBC), MJur (Auckland), FRHist
Barry Glickman, BSc, MSc (McGill), PhD (Leiden)
Michael Hunter, BA (S Fraser), MA (Wat), PhD (S Fraser)
Reinhard Illner, Dip (Heidelberg), PhD (Bonn)
Mary Kennedy, BMus, MEd (UVic), PhD (Wash)
John Langford, BA (Carleton), MA (Oxford), PhD (McGill)
Hester Lessard, LLB (Dalhousie), LLM (Columbia)
Jon Muzio, BSc, PhD (Nott)
John Oleson, BA, MA, PhD (Harvard), FRSC
Andrew Pirie, BA (Waterloo), LLB (Dalhousie), LLM (Wellington)
Malcolm Rutherford, BA (Heriot-Watt), MA (SFU), PhD (Durham)
Mary Sanseverino, BSc, MSc (UVic)
Micaela Serra, BSc (Man), MSc, PhD (UVic)
Ronald Skelton, BSc (Bishop's), MA (Concordia), PhD (UBC)
Christopher Thomas, BA (York), MA (Tor), PhD (Yale)
William Wadge, BA (Brit Col), PhD (Calif, Berk)
Anthony Welch, BA (Swarth), MA, PhD (Harv)
Barbara Whittington, BA, MSW (British Columbia)
Margaret Wyeth, MA, Dip in Ed (Edinburgh), MA, PhD (UVic)
Andrew Pirie, BA (Waterloo), LLB (Dalhousie), LLM (Wellington)

Honorary Degree Recipients 2014–2015
Stephanie Jane Nolen, LL, November 2014
Dr. Irving Rootman, LL, November 2014

University Regalia

Chancellor
Gown purple corded silk, trimmed with purple velvet and gold braid
Headdress Tudor style in purple velvet with gold cord trim

President
Gown royal blue corded silk, trimmed with blue velvet and gold braid
Headdress Tudor style in blue velvet with gold cord trim

Chancellor Emeritus
Gown purple corded silk, with gold velvet panels and trimmed with purple velvet strips edged with gold piping
Headdress Tudor style in purple velvet with gold cord trim

President Emeritus
Gown royal blue corded silk, with gold velvet panels and trimmed with blue velvet strips edged with red piping
Headdress Tudor style in blue velvet with gold cord trim

Board of Governors
Chair Gown traditional (Canadian) bachelor’s style in black wool blend with front facings and sleeve linings in gold silk
Headdress Black cloth mortarboard with black silk tassel or Tudor style in black velvet with gold cord

Member
Headdress and gown as above, but with front facings in black

Honorary Doctorate of Laws (Hon LLD)
Gown Cambridge (Doctor of Music) pattern, scarlet wool broadcloth, trimmed with blue-purple silk taffeta
Hood Aberdeen pattern, outside shell of scarlet wool broadcloth, lined with blue-purple silk taffeta
Headdress Tudor style in black velvet with red cord trim

Honorary Doctorate
Gown Cambridge (Doctor of Music) pattern, scarlet wool, front facings and sleeve lining of black silk taffeta
Hood Aberdeen pattern, outside shell of black wool, lined with silk taffeta in a solid colour with a one inch band of black velvet on the outside edge
- HonDLitt: white
- HonDMus: pink
- HonDEd: blue
- HonDSc: gold
- HonDEng: orange
- HonDNS: apricot
- HonDDFA: green
Headdress Tudor style in black velvet with red cord trim

Bachelor
Gown traditional (Canadian) bachelor’s style, in black
Hood Aberdeen pattern (BA, BSc, and BEd, without neckband and finished with two cord rosettes; all others with mitred neckpiece), outside shell of silk taffeta in a solid colour, lined with identical material. Faculty colours are as follows:
- BA: scarlet
- BFA: green
- BCom: burgundy
- BMus: pink
- BSc: gold
- BSN: apricot
- BEd: blue
- BSW: citron
- BCYC: turquoise
- BEng: orange
- BEng: pale yellow
- JD/LLB: blue-purple
Headdress standard black cloth mortarboard with black silk tassel

Master
Gown traditional (Canadian) Master’s style in black.
Hood similar in design and colour to the respective bachelor’s hoods, but with mitred neckpiece and a narrow band of black velvet one inch from edge of hood on the outside only. Others are:
- MASc: orange
- MPA: russet
- MPH: pumpkin
- MBA: burgundy
- MGB: burgundy with a white band
Headdress standard black cloth mortarboard with black silk tassel

Doctor
Gown Cambridge style, black silk, front facings and sleeve linings of scarlet silk
Hood Oxford Doctor’s Burgon shape, shell of scarlet silk, lined with blue silk, border of gold silk
Headdress black velvet mortarboard with red tassel fastened on left side

NOTE: On ceremonial occasions, participants without degrees wear the standard black undergraduate cap and gown as described above for bachelors.

Parking Information

- Campus-wide, 24 hours per day, Monday to Saturday.
- 24 hours per day, every day at Stewart Complex and the University Centre Parkade.
- Excluding statutory holidays.

Parking Lots & Areas:
- "Numbered" lots outside of Ring Road, for use of students and visitors. Must display valid "General parking permit" or purchase daily/hourly permits.
- "Lettered" lots inside Ring Road, as designated above in various "Numbered" lots, for use of faculty or staff with "Reserved" permits only.
- Reserved exclusively for "Campus" permit holders, 7 a.m. to 6 p.m. Monday to Friday. Violators are subject to immediate tow-away at owner's expense.
- Reserved for "Student Resident" (SR) permit holders, 7 a.m. to 4:30 p.m. Monday to Friday, from September 1 to April 31st.
- Reserved for "Ridershare" permit holders, arriving at 3 or more people until 10:00 a.m., Monday to Friday. After that time, the site is open to regular parking general.

Limited parking is provided in most lots for the exclusive use of persons with a disability, who display a valid approved disability permit.

Limited short term metered parking is provided exclusively for visitors use in most lots.

Dispenser Permits:
- Hourly/daily permits may be purchased at any automated dispenser located in every numbered parking lot outside Ring Rd, as well as the Stewart Complex.
- Permits are not valid in metered spaces.
- Permits must be purchased from the dispenser in the parkade.

Long term or special parking needs:
- Visit Campus Security Services in parking lot 2 or call 250-721-6683.

In the event of a permit dispenser malfunction or for further parking information call Campus Security Services at 250-721-6683.
