

# The Politics and Economics of a Changing Climate

# CLIMATE CHANGE

The Department of Economics and the School of Environmental Studies at UVic invite you to the Climate Change Symposium on

**Wednesday, April 6, 2011**

*Where:* Lobby outside the **David Lam Auditorium**  
in the MacLaurin Building

*When:* **1:00 to 2:30 PM**

The climate challenge will be one of the defining issues for today's young generation. Renewable energy alternatives are available, but scaling them up to replace fossil fuels involves huge technological, political, and economic challenges. How do we proceed in the years to come?

250 local High School students, guided by UVic undergraduate and graduate students, will showcase posters they researched and created to illustrate what they found out about the above question.
