# Lansdowne Lecture

---

The University of Victoria's Public Lecture Series features the words and work of distinguished men and women, across a vast array of academic and research endeavours. As host of this lecture series, UVic continues its mission of enriching the human mind and heart.

## Lise Crevier- Buchman, MD, PhD, HDR

**Georges-Pompidou European Hospital  
(HEGP) and National Centre for Scientific  
Research (CNRS)**

### Clinical Phonetics: Atypical Voice and Speech

**Wednesday September 17, 7 – 8:30 p.m.  
David Turpin Building, Room A110**

Presented by the Department of Linguistics

---

Dr. Lise Crevier-Buchman is a research professor of Phonetics as well as a medical doctor and laryngologist. Her research focuses on voice quality in normal and pathological speech; it aims to test the functional efficiency of certain surgical techniques, to understand compensation mechanisms used by speakers post-surgery, and to adapt voice rehabilitation protocols to improve quality of life. Her talk will provide an overview of her current research in this area, including her contributions to developing experimental protocols for perceptual, acoustic, and physiological evaluation of atypical voice behaviour.

---

Travel Green: UVic is accessible by many modes of sustainable transportation including Regional Transit, cycling, walking and taxi. Should you choose to drive, pay parking is in effect for a \$2.50 evening rate.

**Free and open to the public | Seating is limited | Visit our online events calendar at [www.uvic.ca/events](http://www.uvic.ca/events)**
