

Lab Rules **8simple rules**

- 1) Labs are held once per week.
- 2) Labs start during week 3.
- 3) Please take identification, a calculator, and be prepared to print at the computing facility.
- 4) Please be on time. The instructors will shut the door when class begins.
- 5) No food or drink during the lab.
- 6) Respect other students. The classes are unfortunately large, so if the need to socialize overwhelms you, leave until it passes.
- 7) Otherwise you will be asked to leave and lose your lab grade for the class.
- 8) The lab exercise is distributed after the instructor's demonstration is finished. The exercise is to be completed in class and handed in BEFORE you leave. Give yourself enough time to finish and print up results.
