

Postdoctoral or Research Fellowship Position in Watershed Hydrology

The Water and Aquatic Sciences Research Program at the University of Victoria is seeking applications for a Postdoctoral or Research Fellowship in Watershed Hydrology. This fellow will have the opportunity to conduct research in a world-class laboratory for research in water and aquatic sciences, and participate in our ongoing projects on climate and land-use impacts on chemical and microbial quality of water.

Candidates should have a PhD in Ecology, Environment Science, Hydrology, Soil Science, or other relevant discipline, with the experience in developing, applying and validating water quantity/quality-related ecosystem models. Also required is an attractive record of publication, written and oral communication skills. Candidates with excellent abilities in quantitation (mathematics and statistics), GIS (VBA, AML), remote sensing, and computer programming languages (VB, C++) will be given preference. Please send your CV with the names and contact information for three referees to Dr. John Zhu (zzhu@uvic.ca) with email cc to Jocelyn Gile (jgile@uvic.ca). The salary ranges from \$40K to \$60K plus benefits.

Application deadline: November 30th 2010

Starting date: ASAP
