SONG SPARROW SPOTTING - DATA SHEETS

Your name: _____

E-mail: _____ Phone: _____

Your birding experience (circle): Beginner Competant Confidant Knowledgeable Expert

Please refer to the instructions accompanying any of the lists of banded birds for details on how to read colour bands. Please refer to the examples (e.g. 1, e.g. 2). Enter a number for each new bird in the # box, then mark that number on the appropriate map at the spot where you saw the bird, and put a 'Y' in the 'Map' box to confirm you have done so. Enter the band combination you saw, the most likely combination from the list for that Section (leave blank if no match), the date and time. If you see a band but can't make it out, put a dash (----). On the second line for each bird, enter your best guess about an alternate band colour if you're not entirely certain, a '?' if you have no idea, and provide any brief notes you think might be useul.

#	Left leg body ⇒ foot			Right leg body ⇒ foot			Most likely combination	Date	Time	Map
e.g. 1		*m*	*r*	*y*	*r*	*y*	*mr.yry*	*May 25*	*11:29 AM*	*Y*
							got a good view - very sure			
e.g. 2	*db*	----	*r*	*w*	*r*			*May 25*	*12:35 PM*	*Y*
	dg	*?*		*m*			*pretty sure m on right leg*
