02 Z: [Smile]

03 B: [Smile]

04 M: Recommendation? I think we can just be true, be open to everything, Jill will not say or criticize anyone.

05 J: oh, no, no, I am not going to criticize. I want to ask to be better because we have thirty-two students [Pointing to the name lists on her table] coming this year.

06 Z: When Kurt and Christie class come together. It is very horrible because too much homework for us. Lots of readings, papers and presentations for us.

07 B: [Laugh]

08 J: umm... And next year students will not be taking those at the same time, so that will help.

09 Z: Yeh, they are separate, are very good. They are all very good teacher. But when they together...

10 J: It is a little overwhelming?

11 M: But, just one time each week for Christie class, it is a longer one.

12 J: It is a longer time. And I will be in your class tomorrow.

13 Z: Oh, yes, I know that. It is a kind of interview, right?

14 J: umm...

15 Z: We will do a speech on leadership.

16 J: oh, yes

17 M: tomorrow's class?

18 Z: I can't come up with my topic

((Everyone laugh))

19 M: You need to prepare that [laugh]

20 J: How about you Bubu, any recommendations?

21 B: Yeah...

22 J: to be honest, I am not mean, I am not

23 B: I am quite honest, I...have to say, I quite like the classes here.

24 M: How about your team group members?

25 B: Team? They are really good.

26 J: helpful?

27 B: Yeah, they are really helpful. Last night, another group they work with American Caners Society, two of them, two girls of them from my leadership 418 class last semester, I still feel very proud of them.

28 J: good

29 B: Yeah

30 J: good [Big smile]

31 B: We greeting each other when we watched each other, and just Ellison said good job to me last night.

32 M: Yeah, I see, too. They performed good. Well-done!

33 J: Yeah, that is hard to get up in front of groups of people and speak aloud.

34 M: Yeah, even American people, they will feel nervous about that.

35 J: Oh, sure, sure. I think everybody last night was nervous.

36 B: Yeh, and maybe one of my recommendations is, you should encourage, really encourage Chinese students to really get involved. You know, not do that

37 J: [nodding]

38 M: But someone, they just kind of like, someone quite be familiar with, they encourage each other most. So, I am so happy to see, I mean, the big group, everybody with a smile on their face, yes, not be so serious, at that time.

39 [Everyone laugh]

40 J: anything else?
