

NOWCAM 1999 — Program
University of Victoria, May 27-29, 1999

THURSDAY, 27 May

8:00-10:00 PM Registration, welcome, and reception (Don Read's residence)

FRIDAY, 28 May

09:00-09:15 Opening remarks (Begbie Room 157)

09:15-10:30 Paper Session I: Memory and Cognition I (Begbie Room 157)

09:15-9:40 Woodward & Bub: *Cognitive control operations involved in switching attention between stimulus attributes*

09:40-10:05 Williams: *Component transfer: Positive and negative priming on categorization*

10:05-10:30 Visser, Bischof, & Di Lollo: *Integrating the attentional-blink deficit and flanker interference*

10:30-11:00 Coffee etc. (Begbie Common Room)

11:00-12:15 Paper Session II: Memory and Cognition II (Begbie Room 157)

11:00-11:25 Bodner & Lindsay: *Shifting and grifting: Decision criteria influences on remember/know judgments*

11:25-11:50 Price & Whittlesea: *Approaching an understanding of the mere exposure effect: An examination of analytic and non-analytic processing on test items*

11:50-12:15 Gruppuso & Lindsay: *I'd know that face anywhere!*

12:15-01:30 Lunch (Felicita's, UVic Student Union Building)

01:30-03:10 Paper Session III: Brain and Cognition (Begbie Room 157)

01:30-01:55 Bernstein: *Subtle long-term cognitive impairment after mild head injury*

01:55-02:20 Kondzialeski: *The laminate model of lateral brain differences between left- and right-handed writers*

02:20-02:45 Peters, Graf, Hayden, & Uttl: *Global slowing in Cognitive-Impaired-Not-Demented (CIND) individuals*

02:45-03:10 Newman, Izvorski, Davis, Neville, & Ullman: *A distinction between inflectional rules and memorized words: ERP evidence*

03:10-03:40 Coffee Break (Begbie Common Room)

03:40-05:00 Keynote Address, Elizabeth F. Loftus (Begbie Room 157)

05:30 Gala Dinner (Wharfside Eatery - downtown, inner harbour)

SATURDAY, 29 May

09:30-10:45 Paper Session IV: Social Cognition (Begbie Room 157)

09:30-09:55 Baggenstos, Khan, & Ottaway: *Affective and cognitive components of racial attitudes*

9:55-10:20 Davis, Lesbo, & Thoroughgood: *The role of sexuality stereotypes in judgments of*

rapes of women of four races

10:20-10:45 Pickrell, Mazzoni, Memon, & Loftus: *Multiple examples can change beliefs about the past*

10:45-11:15 Coffee etc. (Begbie Common Room)

11:15-12:05 Paper Session V: Child Memory (Begbie Room 157)

11:15-11:40 Connolly & Lindsay: *Scripts and suggestibility: A developmental investigation*

11:40-12:05 Cohen, Lalonde, & Leadbeater: *Dual representation and children's emerging theory of mind*

12:05-01:30 Lunch and Poster Session (Begbie Common Room)

1. Boden & Giaschi: *Flicker adaptation elevates motion coherence thresholds*
2. Farivar & Lindsay: *Aware and unaware uses of postevent information*
3. Martin, Hutchins, Ottaway, & Hyman: *Retrieval inhibition: The effect of sub-threshold repetition on memory*
4. Nilsen & Lindsay: *Perceptions of eyewitnesses' identification accuracy and confidence*
5. Scott, Byrne, Hyman, & Johnson: *Differences between trauma memories and memories of other experiences*
6. Stark & Ottaway: *Implicit and explicit learning: The role of working memory in complex sequence learning*
7. Tata & Giaschi: *Selective attention to the mask modulates object substitution masking*

01:30-02:20 Paper Session VI: Aging and Memory (Begbie Room 157)

01:30-01:55 Billings: *Sources of feelings of familiarity in young and elderly adults*

01:55-02:20 MacDonald, Maitland, Hultsch, & Dixon: *Age-related performance and structural features of processing speed*

02:20-02:30 Coffee etc. pickup (Begbie Common Room)

02:30-03:30 Discussion Activities (Begbie Common Room)

05:30 Dinner (Spinnakers)
