Government Agencies with Roles in Human Health

GOVERNMENT AGENCIES WITH ROLES IN HUMAN HEALTH

First Nation communities fall within a complex and multi-jurisdictional health care system. The responsibility for the protection of human health is shared between federal and provincial governments. According to the Health Canada website, the following outlines the delivery of health care services:

Provinces deliver hospital, physician and public health programs to all Canadians, including First Nations and Inuit, but, generally do not operate direct health services on-reserve.

Health Canada funds primary care in 85 remote/isolated First Nations communities, as well as public health nursing, health promotion/disease prevention programming and environmental health service, and home and community care in well over 600 communities.

Health Canada also provides eligible First Nations and Inuit, regardless of where they live with supplementary health benefits for certain medically required services where these individuals do not have coverage from other public or private programs (prescription drugs, medical supplies and equipment, dental care, vision care, short-term mental health crisis counselling and medical transportation).

First Nations and Inuit have taken on various levels of responsibility to direct, manage and deliver a range of federally funded health services.

Territories deliver insured health services and programs to all their citizens, including First Nations and Inuit. However, the First Nations and Inuit Health Branch (FNIHB) provides additional funding for home and community care, health promotion, and disease prevention programs to First Nations (including those that are self-governing) and Inuit in the Territories. In the Yukon, FNIHB delivers the full FNIHB program to eligible First Nations, whereas in the Northwest Territories and Nunavut, the program is delivered in partnership with the Territorial Governments. (First Nation and Inuit Health Branch website: <http://www.hc-sc.gc.ca/fniah-spnia/pubs/strat-plan-2012/index-eng.php>)

Environmental health protection is provided through the Manitoba Conservation and Water Stewardship department for all Manitobans. For First Nation communities, jurisdiction and responsibility lies with Environmental Public Health Services, Health Canada. Environmental Health Officers (EHO's) "provide advice, guidance, education, public health inspections and recommendations to First Nations and their leadership to help them manage public health risks associated with the environment. They gather data required to analyze what steps can be taken to promote public health in First Nations communities".

Aboriginal Affairs and Northern Development Canada (AANDC) also plays a role in the protection of human health through the provision of funding and technical services in the areas of housing, infrastructure, maintenance management, emergency management and water and wastewater. Tribal Councils and/or larger independent First Nations receive funding for fire safety, housing and maintenance management.

FEDERAL AND PROVINCIAL GOVERNMENT AGENCIES

Manitoba Health Protection Unit	http://www.gov.mb.ca/health/publichealth/environmentalhealth/protection/index.html
Manitoba Conservation and Water Stewardship – Environmental Programs & Strategies	<p>Administers The Contaminated Sites Remediation Act and the Contaminated Sites Remediation Regulation. The program is primarily administered by Environment Officers within the Environmental Programs and Strategies Branch. Regional Environment Officers with the Environmental Compliance and Enforcement Branch are active in site inspection and enforcement.</p> <p>Enquiries contact: contaminatedsites@gov.mb.ca 1000 Century Street, Winnipeg, MB R3H 0W4 Phone: 204-330-2685 or 204-795-9519</p> <p>Emergency Response Program – provides information about emergency procedures and the potential dangers with the product(s) involved. An environmental emergency is any release or imminent release of a contaminant that may pose a risk to public health or the environment. Call: 1-204-944-4888 (24 hours)</p> <p>Livestock Program Onsite Wastewater Management Systems Program Petroleum Storage Program</p>
Environmental Health Branch	<p>Under Public Health Division responds to chemical, microbiological and social public health issues. Monitors and participates in a coordinated response to environmental health issues to Manitobans. Mandate is environmental health risk assessment, food protection, environmentally infectious diseases and dental/oral health.</p> <p>Website: http://www.gov.mb.ca/health/publichealth/environmentalhealth/index.html</p>
Environmental Health Risk Assessment	<p>Provides leadership to identify, assess, and address important and emerging environmental health issues to reduce environmental risks to public health.</p> <p>Website: http://www.gov.mb.ca/health/publichealth/environmentalhealth/risk.html</p>

FEDERAL AND PROVINCIAL GOVERNMENT AGENCIES

<p>Health Canada Environmental and Workplace Health</p>	<p>Works to protect the health of Canadians from environmental risks: air, noise, soil and water pollution, climate change, environmental contaminants, occupational health and safety, pest control and radiation. Website: http://www.hc-sc.gc.ca/ewh-semt/index-eng.php</p> <p>Contact Information for: can be found at: http://www.hc-sc.gc.ca/contact/ewh-semt/index-eng.php</p>
<p>Environmental Public Health Services, First Nation and Inuit Health, Health Canada 300-391 York Avenue Winnipeg, MB R3C 4W1</p> <p>Manager: Rick Orto Phone: 204-983-6324 Fax: 204-983-1579 rick.orto@hc-sc.gc.ca</p>	<p>The Environmental Public Health Program in First Nations communities works to identify and prevent public health risks that could adversely impact the health of community residents. Some EHOs are employed by Health Canada and others are employed directly by First Nations or Tribal Councils. Programming includes public health inspections, monitoring environmental conditions such as drinking water quality, delivering training and raising awareness about potential environmental public health risks and steps people can take to protect themselves and their families.</p>

Manitoba Government Departments and Branches

Industrial Permits and Licensing

MANITOBA GOVERNMENT DEPARTMENTS AND BRANCHES – INDUSTRIAL PERMITS AND LICENSING

Manitoba – Mines Branch

Mineral Resources
Unit 360-1395 Ellice Avenue
Winnipeg, MB R3G 3P2
Phone: 204-945-6505

The branch administers [The Mines and Minerals Act](#) governing the disposition of mineral rights (permits, claims and leases), exploration, development, and production of the province's non-fuel mineral resources and the rehabilitation of mines and quarries.

Mines Inspection Branch

The main focus of this branch is the safety and health of the people on the project. Its activities are based on the [Workplace Safety and Health Act](#) and regulations thereunder. This, for example, is where you would apply for a blaster's licence. If you're conducting advanced exploration or are planning a new mine project, then you'll need to file a mining report with the department. This report is typically done in conjunction with the filing of an Environmental Impact Statement. Once you begin work on your exploration property, contact the Mines Inspections Branch.

A **Mines Inspector** will be assigned to help ensure that all the required codes and regulations are met.

Contact: Dennis Fontaine, Acting Director, Mine Safety Branch, (204) 677-6821

Manitoba – Petroleum Branch

Keith Lowdon, Director
Manitoba Mineral Resources
360-1395 Ellice Avenue
Winnipeg, MB R3G 3P2
Phone: 204-945-6577
Toll Free: 1-800-223-5215

Email: keith.lowdon@gov.mb.ca

The branch is comprised of three sections: Administration & Geology, Engineering & Inspection and Digital Information. The branch administers [The Oil and Gas Act](#) and related regulations governing the exploration, development, production, transportation and storage of crude oil and natural gas. It is also responsible for [The Oil and Gas Production Tax Act](#). The branch administers the Manitoba Drilling Incentive Program and maintains a comprehensive public database of technical well and reservoir information. It also prepares reports on the province's petroleum geology and hydrocarbon potential to encourage and assist in the exploration and development of Manitoba's oil and gas resources.

MANITOBA GOVERNMENT DEPARTMENTS AND BRANCHES – INDUSTRIAL PERMITS AND LICENSING

Indian Oil and Gas Canada

Suite 100
9911 Chiila Boulevard
Tsuu T'ina, AB T2W 6H6
Phone: 403-292-5625
Fax: 403-292-5618
E-mail: ContactIOGC@aandc-aadnc.gc.ca

Indian Oil and Gas Canada (IOGC) is an organization committed to managing and regulating oil and gas resources on First Nation reserve lands. It is a special operating agency within Aboriginal Affairs and Northern Development Canada (AANDC).

IOGC is responsible for oil and gas on First Nation reserve lands across Canada, but only a handful of reserves exist north of the 60th parallel. Therefore, practically all of IOGC's work is south of the 60th parallel, with most of that in the Western Canada Sedimentary Basin.

IOGC's general responsibilities are to:

- identify and evaluate oil and gas resource potential on Indian reserve lands;
- encourage companies to explore for, drill and produce these resources through leasing activity;
- ensure equitable production, fair prices and proper collection of royalties on behalf of First Nations; and
- secure compliance with and administer the regulatory framework in a fair manner.

IOGC operates pursuant to the [Indian Oil and Gas Act](#) and [Indian Oil and Gas Regulations, 1995](#), as well as other relevant legislation and guidelines (see [Acts and Regulations](#)). Oil and gas activity on First Nation reserve lands depends on agreements involving First Nation band councils, oil and gas companies, and Indian Oil and Gas Canada.

MANITOBA GOVERNMENT DEPARTMENTS AND BRANCHES – INDUSTRIAL PERMITS AND LICENSING

Manitoba – Department of Conservation and Water Stewardship

For exploration and mining projects, there are several relevant permitting branches within the Department of Conservation. Together these branches are responsible for acts such as;

- [The Fires Prevention and Emergency Response Act](#),
- [The Crown Lands Act](#),
- [The Provincial Parks Act](#) and
- [The Environment Act](#).

Headquarters Operations plus Conservation regional and district offices are the main contacts responsible for issuing appropriate permits authorizing activities within these designated areas.

Contact: Director, Headquarters Operations 204-945-6647

Lands and Geomatics Branch handles all applications for Crown land lease/permits and amendments or assignments of a lease/permit.

Contact: Director, Lands and Geomatics Branch 204-476-3441

Forestry Branch is responsible for: issuing general permits for all work carried out within provincial forests; issuing timber permits authorizing the cutting and clearing of timber from project sites located on all provincial Crown lands.

Contact: Director, Forestry Branch 204-945-7998

Parks and Natural Areas Branch issues work permits/licences for exploration and development in Manitoba's provincial parks.

Contact: Director, Parks and Natural Areas Branch 204-945-4362

Wildlife and Ecosystem Protection Branch issues wildlife management area (WMA) use permits for exploration work to be conducted in WMAs throughout the province.

Contact: Wildlife Lands Specialist, Wildlife and Ecosystem Protection Branch 204-945-7763

Manitoba Water Stewardship issues the Water Rights licence required once a production decision has been made. The licence addresses such issues as the use of water for milling and tailings.

Contact: Water Licensing Section, Manitoba Water Stewardship 204-945-6488

The Forestry Branch is one of several resource branches responsible for ensuring sustainable resource management for present and future generations of Manitobans. Under the authority of [The Forest Act](#), the Forestry Branch manages provincial Crown forests by setting forest harvest levels, monitoring [forest management activities](#), ensuring forests are [regenerated](#), providing protection from [insects and diseases](#) and [collecting revenues](#) for use of Crown timber.

Forestry Permits and Licences:

Aboriginal/Treaty Domestic Use Timber Harvesting Policy

In October 2010, Manitoba Conservation – Forestry Branch updated the existing policy [Domestic Use Timber Harvesting for Aboriginal/Treaty Rights Holders](#) to reflect Manitoba Conservation's current understanding of aboriginal harvesting rights including Métis rights.

The Forest Act

The Forest Act received Royal Assent in 2009 and was proclaimed on March 1, 2011 with accompanying regulations. The Act emphasizes: timber administration and pricing; timber tracking and scaling; and enforcement, penalties and offences.

[The Forest Act](#) and the [Forest Use and Management Regulations](#) can be found on-line.

Manitoba Conservation Forestry Branch staff held annual meetings to present an overview of the Forest Act and the Forest Use and Management Regulation changes to Quota Holders and Timber Dealers throughout the province in the fall of 2011.

October 2011 - [Forest Act and Forest Use and Management Regulation Amendments Presentation](#)

The *Manitoba Environment Act* outlines an environmental assessment and licensing process for developments that may have potential for significant environmental effects. Some developments may require both provincial and federal environmental approval prior to proceeding. Under agreement, Manitoba and Canada have agreed to co-operate and co-ordinate respective environmental assessment processes, in order to promote an effective and consistent environmental assessment process in Manitoba. Early consultation with Manitoba Conservation will help determine whether both federal and provincial environmental approvals are required.

The *Canadian Environmental Assessment Act* (CEAA) 2012 includes provisions for cooperation and coordinated action between the federal and provincial governments in situations where projects require a provincial/territorial environmental assessment. To deal with these circumstances, CEAA 2012 includes provisions for cooperation and coordinated action between the two orders of government. CEAA 2012 aims to achieve the goal of "one project-one review."

Substitution and equivalency provisions do not apply if a project is being assessed by the Canadian Nuclear Safety Commission, the National Energy Board, or if the project has been referred to a review panel.

MANITOBA GOVERNMENT DEPARTMENTS AND BRANCHES – INDUSTRIAL PERMITS AND LICENSING

Manitoba - Environmental Approvals Branch

2nd Floor 123 Main Street (Box 80)
Winnipeg, MB R3C 1A5

Director:

Tracey Braun, M. Sc.

Phone No.: (204) 945-7071

Email: Tracey.Braun@gov.mb.ca

You may contact the Environmental Approvals Branch when there is a potential project that requires a review and approval pursuant to the Acts listed above, or for general information on the Act and the environmental assessment and licensing process.

<http://www.gov.mb.ca/conservation/eal/contact.html#elu>

MISSION: The Environmental Approvals Branch will ensure that developments are regulated in a manner that protects the environment and public health, and sustains a high quality of life for present and future Manitobans.

The Environmental Approvals carries out its mission by:

- administering development approval requirements of *The Environment Act*, *The Dangerous Goods Handling and Transportation Act*, *The Public Health Act*, and regulations under these acts including *The Livestock Manure and Mortalities Management Regulation*, *The Pesticides Regulation*, *The Storage and Handling of Petroleum Products and Allied Products Regulation*, and *The Waste Disposal Grounds Regulation*;
- controlling municipal, industrial and hazardous waste sources of pollutants;
- minimizing environmental impact of development proposals;
- minimizing adverse effects to the environment and public health from pesticide use; and
- administering the *Water and Wastewater Facility Operators Regulation*.

MANITOBA GOVERNMENT DEPARTMENTS AND BRANCHES – INDUSTRIAL PERMITS AND LICENSING

Canadian Environmental Assessment Agency

<https://www.ceaa-acee.gc.ca/default.asp?lang=en&n=B053F859-1#ceaa01>

The *Canadian Environmental Assessment Act, 2012*(CEAA2012) and its regulations establish the legislative basis for the federal practice of environmental assessment in most regions of Canada.

The purpose of CEAA 2012 is to:

- Protect components of the environment that are within federal legislative authority from significant adverse environmental effects caused by a designated project;
- Ensure that designated projects are considered and carried out in a careful and precautionary manner in order to avoid significant adverse environmental effects when a federal authority is exercising a power or performing a duty or function required for the project to proceed;
- Promote cooperation and coordination between federal and provincial governments;
- Promote communication and cooperation with Aboriginal peoples;
- Ensure that opportunities are provided for meaningful public participation;
- Ensure that environmental assessments are completed in a timely manner;
- Ensure that proposed projects on federal lands or that are outside Canada and carried out or financially supported by a federal authority, are considered in a careful and precautionary manner in order to avoid significant adverse environmental effects;
- Encourage federal authorities to take actions in a manner that promotes sustainable development in order to achieve or maintain a healthy environment and a healthy economy; and
- Encourage further studies of **the cumulative effects of physical activities in a region** and the consideration of the study results in environmental assessments.

When does the *Canadian Environmental Assessment Act, 2012* apply?

CEAA2012 applies to projects described in the [Regulations Designating Physical Activities](#) and to projects designated by the Minister of the Environment.

When the Canadian Environmental Assessment Agency (the Agency) is the responsible authority for a designated project that is described in the [Regulations Designating Physical Activities](#), upon acceptance of a project description, an analysis is undertaken by the Agency to decide if a federal environmental assessment is required. This step does not apply to designated projects regulated by the National Energy Board and the Canadian Nuclear Safety Commission for which conducting an environmental assessment is mandatory.

Agricultural Organizations

AGRICULTURAL ASSOCIATIONS

Dairy Farmers of Manitoba

Established in 1974, Dairy Farmers of Manitoba is responsible for:

- managing the supply of milk in the province;
- selling milk from Manitoba dairy farms to processors and scheduling its transportation;
- representing the interests of Manitoba dairy farmers at the provincial and national level;
- developing and implementing advertising and promotional programs for fluid milk and real cream; and
- delivering nutrition and dairy agriculture education programs.

All dairy farms in the province are family-owned and operated. Manitoba dairy farmers finance the organization and elect a nine-member board of directors composed of dairy farmers. The board determines the direction and policies of the organization.

www.milk.mb.ca

Keystone Agricultural Producers

- KAP is a general farm policy organization that takes direction from its members – including farmers and farm commodity organizations.
- Our mandate is to ensure primary production in Manitoba remains profitable, sustainable and globally competitive.
- We work with governments, industry and stakeholders on overarching issues that affect all farmers.
- We act as spokespersons for Manitoba's farmers, engaging media and other stakeholders in understanding the issues facing primary producers.
- We promote agriculture and its contributions to the Manitoba and Canadian economies.

KAP is member funded and member directed.

www.kap.mb.ca

Keystone Potato Producers Association

KPPA is the processing potato producer organization for Manitoba. KPPA negotiates contracts for members with major companies including McCain Foods, Simplot Canada and Cavendish Farms.

www.pmana.org/kvpa.htm

AGRICULTURAL ASSOCIATIONS

Manitoba Beef Producers

Manitoba Beef Producers (MBP) is the exclusive voice of the beef industry in Manitoba.

MBP represents roughly 7,000 beef producers across the province. MBP is a non-profit organization with a producer-elected board that consists of 14 directors, each representing cattle producers in a specific region or district of the province, along with four full-time staff.

The mission of MBP is to represent all beef producers through communication, advocacy, research, and education—within the industry and to governments, consumers and others, to improve prosperity and ensure a sustainable future.

www.mcpa.net

Manitoba Beekeepers' Association

The goals of this Association are to represent and promote the welfare of the entire Manitoba honey bee industry through; presentations to the federal and provincial governments as required; participation on the Canadian Honey Council and other organizations with similar goals and interests, and to promote a better understanding of beekeeping and honey to the general public.

www.manitobabee.org

Manitoba Canola Growers Association

The Manitoba Canola Growers Association represents farmers in our province that grow canola. MCGA was incorporated on July 8, 1982 under the *Manitoba Corporations Act*. At this time the organization was funded by a membership. In 1996, MCGA was granted a check off of 50 cents per tonne for every tonne of Manitoba canola sold. MCGA continued to be funded in this manner until 2008 when the check off was increased to \$1.00 per tonne.

MCGA represents approximately 9,000 members. MCGA uses the canola check off dollars for “seed money” to grow the future. Every dollar spent is leveraged at the local, national, and international levels, and studies show that every dollar invested by growers results in an impressive return on investment.

Through the strategic, thoughtful investments of grower check off contributions, MCGA ensures that our members are well positioned to take advantage of opportunities to maximize their net income from growing canola.

www.mcgacanola.org

AGRICULTURAL ASSOCIATIONS

Manitoba Chicken Producers

Manitoba Chicken Producers (MCP) is dedicated to representing the needs of hatching egg and chicken producers of Manitoba by providing leadership in maintaining a viable and stable chicken production industry.

We are a provincial, farmer-run, organization whose main responsibility is to ensure that Manitoba farmers produce enough hatching eggs and meat chickens to meet the needs of the marketplace. The system we operate under is commonly known as [supply management](#) or orderly marketing.

Our organization is completely funded through levies paid by registered farmers according to the number of eggs and kilograms of chicken marketed. We do not receive any government subsidies, grants, or other taxpayer monies.

www.chicken.mb.ca

Manitoba Corn Growers

Headquartered in Carman, MB the Manitoba Corn Growers Association (MCGA) is a not-for-profit organization representing over 1,500 farmers who grow corn in the province of Manitoba. The MCGA is directed by a twelve-member grower [Board of Directors](#) dedicated to advancing the corn industry in Manitoba in the areas of market development, promotion, research and education.

For over 35 years, the MCGA has been helping farmers with their cash flow needs by administering the financially guaranteed Advanced Payments Program (APP) offering cash advance loans on corn and other special crops. Over the years, the MCGA has added crops as needed. With the recent approval of Bill C-18, *the Agricultural Growth Act*, we have added 15 additional crops including canola, wheat, barley and other small grains.

AGRICULTURAL ASSOCIATIONS

Manitoba Organic Alliance

MOA is a membership driven, non-profit association which unites and represents organic farmers, processors, buyers, retailers and researchers in Manitoba. Founded in March 2009, the Alliance supports organics through leadership, networking, and development.

Our VISION is to foster healthy, viable farms – the foundation of a vibrant organic sector – and to work for a diversified organic production system in Manitoba, which provides for local food security, enhances export opportunities and contributes to sustainable economic development.

<http://www.organicfoodcouncil.org/index.php/24-site-content/moa/the-manitoba-organic-alliance/126-the-manitoba-organic-alliance>

Manitoba Pork Council

Manitoba Pork is the association of the province’s pig producers. As a membership association, Manitoba Pork delivers a wide range of programs and activities designed to benefit its farmer members and promote the industry as a whole. Manitoba Pork in its current form was created in 1999.

Today, all producers have the option to market hogs through brokers or directly to processing plants. They must also pay a levy of \$0.80 per market hog and \$0.19 per weanling to Manitoba Pork.

Manitoba Pork’s mission is to foster the sustainability and prosperity of the pork industry for the good of all hog farmers and all Manitobans. Our vision is to become a centre of excellence for pork production in Canada.

www.manitobapork.com

Manitoba Pulse & Soybean Growers

Manitoba Pulse & Soybean Growers (MPSG) is a not-for-profit organization that represents 3,500 farmers in Manitoba who grow edible beans, peas, lentils, chickpeas, fava beans, and soybeans.

Vision: Vibrant profitable farms sustainability producing a variety of quality pulse crops to feed a healthy growing world.

Mission: To provide Manitoba pulse grower members with production knowledge and market development support, through focused research, advocacy and linkages with industry partners.

MPSG Focus Areas:

- Research
- Market Development
- Advocacy
- Communication

AGRICULTURAL ASSOCIATIONS

Manitoba Seed Growers Association

Our mission is to represent Manitoba seed growers within the professional seed system for the benefit of agriculture in Manitoba.

Objectives:

1. To promote the value of our seed quality assurance system to producers and end users.
2. To develop linkages with all levels of government and agriculture industry.
3. To educate customers on the role of the pedigreed seed system in the development and transfer of advanced genetics.
4. To develop programs to provide production, processing, and marketing information for Manitoba Seed Growers' Association members to expand their knowledge and profitability to their pedigreed seed enterprises.
5. To facilitate the responsible transfer of plant genetics and seed technologies from the plant breeder to the commercial farmer.

www.seedmanitoba.ca

Manitoba Sheep Association

The Manitoba Sheep Association (MSA) is proud to represent over 400 sheep and lamb producers (both commercial and purebred producers) across the province. We actively initiate, support and conduct programs and activities designed to stimulate and improve the well-being of all segments of the sheep industry. We also present producer concerns and issues to government and other agricultural organizations. The MSA is a member of the Keystone Agricultural Producers (KAP), the Manitoba Forage Council and the Canadian Sheep Federation.

www.mbsheep.com

Manitoba Turkey Producers

Manitoba Turkey Producers (MTP) represents 58 farm families in the province of Manitoba. Turkeys are raised year-round in Manitoba with an average farm producing 7,000 turkeys, three times a year. In total, turkey producers raise approximately 1.4 million turkeys annually. This represents approximately 11 million kilograms of fresh turkey available for consumer enjoyment.

Manitoba Turkey Producers marketing board was established in 1968 under the Natural Products Marketing Act. The province is divided into three production districts.

AGRICULTURAL ASSOCIATIONS

National Farmers Union

The National Farmers Union is a direct-membership organization made up of Canadian farm families who share common goals. Every member of the farm family - including children ages 14 to 21 - are full voting members of the Union. This structure recognizes that every family member contributes to the farm by working on it directly, or indirectly through off-farm employment.

Member families of the Union believe that through an organization that represents all commodities produced in Canada, it is possible to promote the family farm as the most appropriate and efficient means of agricultural production. Our goal is to work together to achieve agricultural policies which will ensure dignity and security of income for farm families while enhancing the land for future generations.

www.nfu.ca

National Sunflower Association of Canada

The National Sunflower Association of Canada (NSAC) is a national, not-for-profit, producer-funded organization that works on behalf of the sunflower growers of Canada to promote and expand the industry, both internationally and domestically. The NSAC represents approximately 350 producers of both confectionary and oilseed sunflowers throughout the Prairie provinces.

www.canadasunflower.com

Organic Producers Association of Manitoba

Is a not-for-profit organization that offers professional organic certification services to Canadian clients wishing to market products in Canada, the United States of America and Europe. OPAM is accredited by the Canadian Food Inspection Agency as recommended by the Standards Council of Canada in order to provide organic certification services. Membership numbers have increased, and the area served has expanded to include Alberta, Saskatchewan, and Ontario. OPAM has not lost sight of the most valuable resource in organic agriculture – the individual committed to the organic ‘way of life’.

www.opam-mb.com

Prairie Fruit Growers Association

The Prairie Fruit Growers Association (PFGA) is a voluntary non-profit organization representing all Manitoba fruit crop growers since 1974. The Association is represented by seven elected member directors and three advisors; one each from Manitoba Agriculture, Food and Rural Initiatives, Agriculture and Agri-Food Canada and Manitoba post-secondary educational institution. The PFGA work with On-Farm Food Safety and Environmental Farm Plan programs to ensure that the public values Manitoba grown fruit not only for taste but as safe food products.

www.pfga.com

AGRICULTURAL ASSOCIATIONS

Prairie Oat Growers Association

Prairie Oat Growers Association (POGA) is a voluntary organization of prairie oat growers established to promote the interests of oat growers and oat marketing. POGA was formed in 1998 out of the former Alberta Oat Growers Association. It consists of producers, and associate members from the handling, milling and supply sectors.

The overall objective of the organization is reflected in its mission statement: Our mission is to develop and support partnerships in the agricultural industry that will enhance the profitability of oats for the grower and increase its value to the customer.

www.poga.ca

Vegetable Growers Association of Manitoba

The VGAM works towards the advancement of Manitoba's vegetable growing industry by providing a voice to Manitoba's commercial growers.

Members of the VGAM enjoy the following benefits:

- Networking opportunities with other growers and industry stakeholders
- Educational workshops and meetings
- Reduced registration fees for annual conference
- Free listing on the VGAM website Grower Directory
- Annual newsletters
