This section presents the descriptions of all courses offered at the University of Victoria. Courses are listed in alphabetical order by course abbreviation (BIOL, EDUC). The course abbreviations for all courses offered within each faculty are listed on page 248. A list of the course abbreviations and their corresponding subject areas is presented on page 249.

Please note that not all courses listed are necessarily offered every year; students should consult the department or faculty concerned for an official listing of the courses that will be offered in a given session. Registration and current timetable information is also available on the web at <uvic.ca/course-registration>.

Students must ensure that they are familiar with the program requirements and restrictions noted in the entry for each academic unit.
Courses by Faculty

Division of Medical Sciences
NRSC  Neuroscience

Faculty of Education
ED-D  Educational Psychology and Leadership Studies
EDCI  Curriculum and Instruction Studies
EPHE  Exercise Science, Physical and Health Education
IED  Indigenous Education

Faculty of Engineering
CIVE  Civil Engineering
CSC  Computer Science
ELEC  Electrical Engineering
MECH  Mechanical Engineering

Faculty of Fine Arts
AHVS  Art History and Visual Studies
ART  Visual Arts
CH  Cultural Heritage Management
MUS  Music
THEA  Theatre
WRIT  Writing

Faculty of Graduate Studies
GS  Graduate Studies by Special Arrangement
IN  Indigenous Nationhood
INTD  Interdisciplinary Program

Faculty of Human and Social Development
ADMN  Public Administration
CD  Community Development
CYC  Child and Youth Care
DR  Dispute Resolution
HINF  Health Information Science
HSD  Human and Social Development

Faculty of Law
IN  Indigenous Nationhood
LAW  Law

Faculty of Science
ICDG  Indigenous Community Development and Governance
IGOV  Indigenous Governance
IN  Indigenous Nationhood
INGH  Indigenous Health Studies
NUED  Nursing, Advanced Practice: Nurse Educator Option
NUHI  Nursing and Health Information Science
NUNP  Nursing, Advanced Practice: Nurse Practitioner Option
NURA  Nursing, Advanced Practice: Nurse Leadership Option
NURP  Nursing Policy and Practice
PADR  Public Administration Dispute Resolution
PHSP  Public Health and Social Policy
SOCW  Social Work

Faculty of Humanities
DHUM  Digital Humanities
ENGL  English
FRAN  French
GMST  Germanic Studies
GRS  Greek and Roman Studies
HSTR  History
ITAL  Italian
LING  Linguistics
PAAS  Pacific and Asian Studies
PHIL  Philosophy
SLST  Slavic Studies
SPAN  Spanish

Course Abbreviation and Number
Courses are listed alphabetically by course abbreviation of up to four letters (e.g., ANTH for Anthropology) and course number (e.g., 100). Three numbers are used for course number plus a letter as appropriate. The first number indicates the year level (0 for university-level upgrading, 1 to 4 for undergraduate level, 5 and 6 for graduate level, 7 for Education Professional Year and 8 for co-op work terms). See page 249 for the subject area corresponding to the course abbreviation.

Cross-listed Courses
The same course may be offered by two different departments. Such courses are listed twice, once under each department course abbreviation. Students may obtain credit for the course from either department, but not both.

Former Course Abbreviation and Number
If a course was previously offered at UVic under another abbreviation and number, the former abbreviation and number are shown here.

Prerequisites and Corequisites
Prerequisites are courses or other requirements that must be completed before a student may register in a course. Corequisites are courses or other requirements that must be completed at the same time as a specific course.

For more information on how to read prerequisites, please see <www.uvic.ca/prereq>.

Course descriptions do not include information on when courses will be offered. That information is available online at <www.uvic.ca/timetable>.
### ADMN 502A - ADMN 547

#### ADMN 502A - ADMN 547

**ADMN 502A - ADMN 547**

<tbody>
<tr>
<td>ADMN 502A</td>
<td>Surveying, Appraising and Commissioning Information</td>
<td>1.5</td>
<td>Understanding research structured and conducted to be a vital skill in the public sector. Introduces students to essential skills and components of the research process, weaknesses and strengths. Key issues in research ethics and design are explored, including research design, data collection, and ethical considerations.</td>
</tr>
</tbody>
</table>
ADMN 548  Units: to be determined
Special Topics in Public Policy
A study of selected special topics in Public Policy drawn from the current literature in Public Administration or related fields.
Note: May be taken more than once for credit in different topics.

ADMN 550  Units: 1.5
Strategic Communication and Engagement
Communicating with and engaging stakeholders about policy priorities, problems, the design of policy and services, and implementation are crucial features of modern public and non-profit sector governance. Reviews theories, research, and practical strategies for identifying, analyzing and involving diverse groups in policy and program development, and developing multi-faceted communications strategies in the digital era. Students will also develop engagement and communications strategies.
Note: Credit will be granted for only one of ADMN 550, ADMN 470 (if taken with same topic).

ADMN 551  Units: 1.5
Formerly: 551A and 551B.
Administrative Justice System in Canada
Examines constitutional and administrative law structures and principles that underlie Canada's administrative justice system. Students develop critical understanding of (1) characteristics of federal and provincial systems, (2) legal principles under which statutory decision-making is done, (3) process and principles applied to development of administrative justice system legislation, (4) breadth and influence of tribunal decisions on activities of Canadians. Examples are drawn from federal and provincial levels; comparisons to US, UK and France as appropriate.
Note: Credit will be granted for only one of ADMN 551, ADMN 551A, ADMN 551B.

ADMN 553  Units: 1.5
Understanding Cities
Cities are a basic building block to society, and offer an interesting opportunity to study political, social and economic issues. Examines European and North American/Canadian cities using academic and government resources to analyze and compare their various aspects.

ADMN 554  Units: 1.5
Responsible Public Management
Designed to give students the opportunity to: understand the value dimensions of public management; reflect upon and enhance their own ethical reasoning skills; critically examine existing behavioral standards and guidelines for public managers; work with colleagues to establish what actions would be morally defensible in real administrative and policy making situations; and consider what steps can be taken to enhance responsible public management.
Note: Credit will be granted for only one of ADMN 554, ADMN 422, PADR 503.

ADMN 556  Units: 1.5
Managing Public Policy
Examines the theory and practice of public policy emphasizing the strategic aspects of problem identification, policy design, decision making, implementation and evaluation. Designed to provide students a thorough understanding of public policy and dynamics of the policy process and to apply this knowledge to important policy issues. Policy development is examined within the context of multi-level and multi-sector governance, and addresses the involvement of key players such as the courts, media, and other prominent stakeholders.
Note: Credit will be granted for only one of ADMN 556, PADR 505.
Prerequisite(s):
• All of ADMN 502A, ADMN 504, ADMN 509, ADMN 512, ADMN 550; or
• permission of the department.

ADMN 557  Units: 1.5
Strategic Planning and Implementation
Examines the concepts and practice of strategic planning and project management. Students will explore how to negotiate strategic planning initiatives, construct mandate, mission and vision statements, analyze the environment, conduct stakeholder analyses, and prepare the organization for implementation of the plan. Students will develop competencies in implementing strategic plans through the design and management of projects flowing from the strategies outlined in the plan. Familiarizes students with the key components of project management including definition of the project, its scope and life cycle, the maintenance of quality control, scheduling, critical path analysis and the management of human resources involved in project management.
Note: Credit will be granted for only one of ADMN 557, ADMN 477, ADMN 411.

ADMN 578  Units: 1.5
European Union Urban Region Policies
Compares issues associated with the politics, policy analysis, and policy environment of cities and urban regions in the European Union (EU), including integration issues and Canada. Considers ways in which the EU intervenes to improve the policy capacity of urban/regional governments, looking at broad issues of economic development and growth, equity and redistribution in comparative perspective. Focuses on the responsibilities, functions, resources, bureaucracy, and multilevel governance issues linking the federal/state/local governments.
Note: Credit will be granted for only one of ADMN 578, ADMN 478, ADMN 548 (if taken in the same topic).

ADMN 579  Units: 1.5
European Union Border Region Policies
Introduces students to the various complexities of European Union (EU) border policy making processes. Students compare EU policy and policy-making with the Canada-US and US-Mexico borders, studying specific issues including cross border trade flows, immigration, environmental issues, government activities including security, and the activities of local and regional communities spanning borderlands. Studies and reflects upon complex policy-making and multilevel governance mechanisms that are increasingly typical in the EU and Canada.
Note: Credit will be granted for only one of ADMN 579, ADMN 479, ADMN 548 (if taken in the same topic).

ADMN 580  Units: 1.5
Qualitative Evaluation Methods and Applications
Explores the principles and practices of effective qualitative evaluation methods: planning; design strategies; data collection, analysis and reporting. coursework includes: selecting appropriate design strategies and sampling methods; collecting data using in-depth, open-ended interviews, fieldwork-based observations, participant observation, and documents; analyzing large volumes of qualitative data to produce clear, credible and relevant findings. The course will also examine strategies for integrating multiple lines of qualitative findings in evaluations.

ADMN 581  Units: 1.5
Quantitative Methods for Public Policy Analysis and Program Evaluation
Building on the knowledge acquired in 502B, describes the logic behind various quantitative methodologies used in conducting retrospective quantitative evaluations in public policy programs and research. Demonstrates the application of these methodologies using real world policy applications. Topics may include: simple and multiple regression, endogeneity, limited dependent variables, panel data, and experimental methods.
Note: Credit will be granted for only one of ADMN 581, ADMN 681.
Prerequisite(s):
• ADMN 502B; or
• permission of the school.

ADMN 582  Units: 1.5
Topics in Program Evaluation, Performance Measurement, Performance Management and Knowledge Management
Designed to explore contemporary issues and problems in the field of evaluation and performance management. Topics will be selected for each offering of the course; examples of topics to be included are: contribution analysis; gaming of performance measurement; professionalizing evaluation; managing knowledge creation and its uses in complex organizations; understanding and influencing organization cultures to increase and sustain knowledge utilization; audit and evaluation; comparative evaluation; and evaluation in developing countries.

ADMN 590  Units: to be determined
Directed Studies
Notes:
• May be taken more than once for credit in different topics with permission of the school.
• Pro Forma required.

ADMN 596  Units: 4.5
Evaluation Project
The evaluation project is a substantial evaluation of a policy or program designed and conducted for a public sector or non-profit organization. Each evaluation project will have a client and will be supervised by a faculty member in the School of Public Administration. The completed project report will be assessed by a committee consisting of the academic supervisor, a second reader (both members of the School of Public Administration), and the client for the project.
Grading: INP, COM, N.F.
ADMN 598 - Master's Project
Units: 4.5
Requires a substantial analysis of a management, policy or program problem for a client in the nonprofit or public sector. The Master's Project is completed in consultation with the client and an academic supervisor in the School of Public Administration and must be both practical and academically rigorous. A written project report is defended in an oral examination. For more information, please refer to the School of Public Administration website.
Grading: INP, COM, N, F

ADMN 599 - Master's Thesis
Units: 6.0
Requires a substantial contribution to the knowledge in the field of Public Administration. An MPA Thesis will demonstrate a student's mastery of a substantive body of scholarly or practice literature as well as using appropriate and academically defensible methodologies to analyze research questions, test hypotheses or contribute new theoretical knowledge. Individual students will work with an academic supervisor in the School of Public Administration.
Grading: INP, COM, N, F

ADMN 600 - Doctoral Seminar
Units: 0
The doctoral seminar supports the advancement of research and writing skills. Students will develop competencies in preparing and publishing research. Students are asked to register in this course each term during their PhD program.
Grading: INP, COM, N, F

ADMN 602 - Research Methods in Public Administration
Units: 1.5
An overview of the most prominent research methods employed in public administration, concentrating on procedures for collecting and analyzing empirical data. Students are introduced to key methodological issues and debates and are required to critically appraise examples of applications of methods in the literature.

ADMN 604 - Theories of Public Management
Units: 1.5
Also: POLI 610
Explores different theories and approaches to understanding public administration and reform. Considers variations in three areas: political and constitutional authority, accountability and responsibility, and the roles of elected and non-elected officials; government structures, responsibilities for policy and service delivery, and distributed governance; and patterns and trends in central decision-making, budgeting, control, transparency, and citizen engagement. Students will review seminal comparative studies on administrative practice and reform and undertake a comparative study on a selected topic.
Note: Credit will be granted for only one of ADMN 604, POLI 610.

ADMN 605 - Comparative Policy and Governance
Units: 1.5
Also: POLI 607
Focuses on the study of diverging governance practices and policy outcomes in different jurisdictions. Examines policy determinants such as history, culture, institutions, and the economy; policy dynamics and processes such as agenda-setting and decision-making; networks and communities, and policy change; and policy styles and transfer, referring to the state's ability to design, coordinate, implement, and learn from policy interventions. Students will review seminal studies and undertake a comparative policy project.
Note: Credit will be granted for only one of ADMN 605, POLI 507, POLI 607.

ADMN 607 - Organizational Behaviour and Analysis
Units: 1.5
A review of the origins, analytic traditions, and evolution of the study of organizations, focusing on exploring and analyzing the behaviour of public organizations. Topics include goal formation, tasks, technology, formal structure, informal organization, motivation, perception, values, culture, information, decision making, group dynamics, conflict, leadership, empowerment, creativity, learning and innovation. Concepts and theories are complemented by reviewing seminal literature on private, public, and nonprofit organizations, and by undertaking field research.

ADMN 620 - Policy and Institutional Design and Analysis
Units: 1.5
A review of the interdisciplinary foundations of the analysis and design of public policy, and the institutions and strategies for implementing them. Examines the rationale, comparative advantage, and combinations of government hierarchies, markets, networks, and policy instruments. Considers how to meld different disciplinary and professional perspectives and techniques for addressing design and implementation challenges, and how to draw lessons from different policy domains and jurisdictions, through case studies and projects in selected policy domains.

ADMN 621 - Policy and Program Evaluation and Performance
Units: 1.5
Evaluates and compares different sources of information and methodologies that policy-makers and policy analysts use to inform policy debates and decisions, implementation and management strategies, accountabilities, and program reviews. Topics include meta-analysis, cost-benefit analysis, quasi-experiments, program evaluation, performance measurement, smart practices, and other quantitative and qualitative methodologies. Explores the challenges of securing reliable and valid data, the trade-off between high quality and timely information, and conveying complex findings. These approaches and challenges are explored through intensive assessments of existing studies, cases and projects.

ADMN 645 - Organizational Change and Development
Units: 1.5
Organizational Change and Development
Examines the history, philosophy, and evolving approaches associated with organizational change and development, with special focus on initiating and managing change in the public sector. Reviews the diverse perspectives on change and the special roles of those who seek to change and develop organizations. Includes topics such as planned and unplanned change, alternative interventions, resistance, leadership, and incremental versus radical change. Students will undertake case studies and assessments of organizational change initiatives.

ADMN 681 - Quantitative Methods for Public Policy Analysis and Program Evaluation
Units: 1.5
Quantitative Methods for Public Policy Analysis and Program Evaluation
Describes the logic behind various quantitative methodologies used in conducting retrospective quantitative evaluations in public policy programs and research. Demonstrates the application of these methodologies using real-world policy applications. Topics may include: simple and multiple regression, endogeneity, limited dependent variables, panel data and experimental methods.
Note: Credit will be granted for only one of ADMN 681, ADMN 581.

ADMN 690 - Directed Studies
Units: 1.0-3.0
Directed Studies
Notes:
• May be taken more than once for credit in different topics with permission of the school.
• Pro Forma required.

ADMN 693 - PhD Candidacy Examination
Units: 3.0
PhD Candidacy Examination
Students enrol in ADMN 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed.
Grading: INP, COM, N, F

ADMN 699 - Dissertation
Units: 30.0
Dissertation
Prerequisite(s): ADMN 693.
Grading: INP, COM, N, F

AHVS - Art History and Visual Studies
Department of Art History and Visual Studies
Faculty of Fine Arts

AHVS 501 - Art History and Visual Studies
Units: 1.5
Formerly: HA 501
Colloquium in Theories and Practices
Notes:
• Credit will be granted for only one of AHVS 501, HA 501.
• A compulsory seminar for all master's students.

AHVS 502 - Special Topics in Art History and Visual Studies
Units: 1.5
Formerly: HA 502
Special Topics in Art History and Visual Studies
Note: Credit will be granted for only one of AHVS 502, HA 502.

| AHVS 578    | 1.5   | Seminar in Theory & Film Culture | Formerly: HA 578 | Credit will be granted for only one of AHVS 578, HA 578. |
| AHVS 580    | 1.5   | Topics in Cultural Resource Management | Formerly: HA 580 | Credit will be granted for only one of AHVS 580, HA 580.  
Prerequisite(s): Permission of the department. |
| AHVS 582    | 1.5   | Seminar in Indigenous Arts | Formerly: HA 582 | Credit will be granted for only one of AHVS 582, HA 482, HA 582. |
| AHVS 584    | 1.5   | Seminar in Contemporary Art: The Pacific Northwest | Formerly: HA 584 | An intensive study of a selected aspect of Pacific Northwest art. Content will vary from year to year.  
Notes:  
• Credit will be granted for only one of AHVS 584, HA 584.  
• May be taken more than once with permission of the department. |
| AHVS 590    | 1.5   | Directed Studies MA Level | Formerly: HA 590 |  
Notes:  
• Credit will be granted for only one of AHVS 590, HA 590.  
• Pro Forma required. |
| AHVS 593    | 1.5   | Seminar on the Williams Collection | Formerly: HA 593 | An intensive study of selected aspect of the Williams Collection. Topics will vary.  
Notes:  
• Credit will be granted for only one of AHVS 593, HA 593.  
• May be taken more than once with permission of the department.  
• Several classes may be taught at area museums and galleries. |
| AHVS 598    | 4.5   | Research Paper | Formerly: HA 598 | An extended research paper of approx. 10,000 words which will also be presented to a public audience.  
Notes:  
• Credit will be granted for only one of AHVS 598, HA 598.  
• Required for MA students who elect the Research Paper Option.  
Grading: INP, COM, N, F |
| AHVS 599    | 7.5   | MA Thesis | Formerly: HA 599 | Credit will be granted for only one of AHVS 599, HA 599.  
Grading: INP, COM, N, F |
| AHVS 601    | 1.5   | Colloquium in Theories and Practices | Formerly: HA 601 |  
Notes:  
• Credit will be granted for only one of AHVS 601, HA 601.  
• A compulsory course for all doctoral students, except for students who have credit for AHVS 301. |
| AHVS 609    | 1.5   | Workshop in Art Historical Writing | Formerly: HA 609 |  
Notes:  
• Credit will be granted for only one of AHVS 601, HA 601.  
• A compulsory workshop. |
AHVS 690  Units: 1.5-6.0  
Formerly: HA 690  
Directed Studies PhD Level  
Notes:
  • Credit will be granted for only one of AHVS 690, HA 690.  
  • Pro Forma required.

AHVS 693  Units: 3.0  
Formerly: HA 693  
Candidacy Exam  
Notes:
  • Credit will be granted for only one of AHVS 693, HA 693.  
  • This is a required 3-unit Candidacy Preparation which must be passed within 3 years of registration.  
Grading: INP, COM, N, F

ANTH 500  Units: 1.5  
Seminar in Anthropological Theory  
Diverse perspectives in anthropological thought, focusing on epistemological issues, integrative practice among anthropology’s subfields, the collaborative dimensions of anthropological research, and implications for ethically engaged community-based research.
Prerequisite(s): Permission of the program.

ANTH 510H  Units: 1.5  
Medical Anthropology  
Prerequisite(s): Permission of the program.

ANTH 511  Units: 1.5  
Formerly: 501  
Advanced Research Seminar in Inequality, Culture and Health  
In-depth and critical survey of current issues, topics, theory and method in anthropology, with particular emphasis on inequality and health.
Note: Credit will be granted for only one of ANTH 511, ANTH 501.

ANTH 516  Units: 1.5  
Seminar in Anthropological Research Methods  
An advanced consideration of the assumptions which lie behind various approaches to conducting research in anthropology.

ANTH 520A  Units: 1.5  
Themes in Sociocultural Anthropology

ANTH 520B  Units: 1.5  
Themes in Archaeology

ANTH 520C  Units: 1.5  
Themes in Biological Anthropology

ANTH 530  Units: 1.5  
Ethnology of Selected Areas  
Depending on the student’s interests and the availability of an instructor, studies may be selected in a geographic area of the student’s interest.
Note: May be taken more than once for credit in different topics with permission of the department.
Prerequisite(s): Permission of the program.

ANTH 542  Units: 1.5  
Archaeology of a Selected Area  
Prerequisite(s): Permission of the program.

ANTH 551  Units: 1.5  
Formerly: 550  
Advanced Research Seminar in Ecology and Evolution  
In-depth and critical surveys of current issues, topics, theory and method in topics related to both human and non-human primate ecology and evolution, including both morphological and behavioural adaptations and evolution.
Note: Credit will be granted for only one of ANTH 550, ANTH 551.

ANTH 552  Units: 1.5  
Selected Topics in Biological Anthropology  
Depending on the student’s interests and the availability of an instructor, studies may be selected in one or more of the following:
Prerequisite(s): Permission of the program.

ANTH 552A  Units: 1.5  
Applied Topics in Osteological Methods  
Prerequisite(s): Permission of the program.

ANTH 552D  Units: 1.5  
Primatology  
Prerequisite(s): Permission of the program.

ANTH 552E  Units: 1.5  
Advanced Topics in Biological Anthropology  
Prerequisite(s): Permission of the program.

ANTH 571  Units: 1.5  
Advanced Research Seminar in Visual Anthropology and Materiality  
In-depth and critical survey of current issues, topics, theory and method relating to visual anthropology and materiality in historical and contemporary contexts.

ANTH 585  Units: 1.5  
Advanced Research Seminar in Space, Place, Knowledge And Power  
Critical survey of contemporary theory and method in anthropology, with specific emphasis on space, place, knowledge, and power. Course content varies at discretion of instructor.

ANTH 590  Units: 1.5-3.0  
Directed Studies  
Note: Pro Forma required.
Prerequisite(s): Permission of the program.

ANTH 597  Units: 0.0-3.0  
Thesis Proposal Development  
Offered every term, for MA students who are preparing their thesis proposals. After the proposal is approved, students enrol in 599.
Grading: INP, COM, N, F

ANTH 598  Units: 0  
Comprehensive Examinations  
Note: Enrollment restricted to non-thesis MAs only.
Grading: INP, COM, N, F

ANTH 599  Units: 7.5  
Thesis  
Grading: INP, COM, N, F

ANTH 600  Units: 1.5  
Professional Development in Anthropology  
Addresses the responsibilities of anthropologists in communicating the results of their work to academia and the public. Topics covered include (but are not limited to): research ethics, grants and contracts, teaching, conference paper presentation and publishing. Required for students in the PhD program in Anthropology, and Interdisciplinary PhD students with Anthropology as one of their disciplines.

ANTH 611  Units: 1.5  
Advanced Research Seminar in Inequality, Culture and Health  
In-depth and critical survey of current issues, topics, theory and method in anthropology, with particular emphasis on inequality and health.

ANTH 612  Units: 1.0  
Graduate Colloquium  
A compulsory colloquium for PhD students in Anthropology that meets weekly from late September until mid-April. Papers are presented by graduate students, faculty, and visiting scholars. PhD students are required to participate during the two years they are meeting the PhD residency requirement. Participation includes attendance, assistance with the organization of the colloquia and at least one paper presentation by the end of the second academic year of the PhD student’s program.
Grading: INP, COM, N, F

ANTH 651  Units: 1.5  
Advanced Research Seminar in Ecology and Evolution  
In-depth and critical survey of current issues, topics, theory and method in topics related to both human and non-human primate ecology and evolution, including both morphological and behavioural adaptations and evolution.

ANTH 671  Units: 1.5  
Advanced Research Seminar in Visual Anthropology and Materiality  
In-depth and critical survey of current issues, topics, theory and method relating to visual anthropology and materiality in historical and contemporary contexts.
**ANTH 685 - ASTR 505**

**ANTH 685**  
Units: 1.5  
Advanced Research Seminar in Space, Place, Knowledge and Power  
Critical survey of contemporary theory and method in anthropology, with specific emphasis on space, place, knowledge, and power. Course content varies at discretion of instructor.

**ANTH 690**  
Units: 1.5  
Specialized Directed Study  
Intended to prepare students to participate in and contribute to research and knowledge development in one or more of their particular areas of specialization within the discipline. PhD students must take any one of the following:

- **ANTH 690A**  
  Units: 1.5  
  Specialized Directed Study in Contemporary Indigenous Peoples

- **ANTH 690C**  
  Units: 1.5  
  Specialized Directed Study in Inequality, Culture, Health

- **ANTH 690D**  
  Units: 1.5  
  Specialized Directed Study in Evolution and Ecology

- **ANTH 690E**  
  Units: 1.5  
  Specialized Studies in Method and Theory

- **ANTH 690F**  
  Units: 1.5  
  Specialized Directed Study in Visual Anthropology and Materiality

**ANTH 693**  
Units: 3.0  
PhD Candidacy Examinations  
Students enroll in ANTH 693 while completing their candidacy requirements. In addition to completing their coursework, PhD students must fulfill the language requirement, pass their comprehensive examinations, and defend their dissertation proposal in order to advance to candidacy.  
Grading: INP, COM, N, F

**ANTH 699**  
Units: 20  
PhD Dissertation  
Prerequisite(s): ANTH 693.  
Grading: INP, COM, N, F

**ART**

**Visual Arts**  
Department of Visual Arts  
Faculty of Fine Arts

**ART 500**  
Units: 9.0  
First Year Drawing

**ART 501**  
Units: 9.0  
Second Year Drawing

**ART 511**  
Units: 9.0  
First Year Painting

**ART 512**  
Units: 9.0  
Second Year Painting

**ART 521**  
Units: 9.0  
First Year Sculpture

**ART 522**  
Units: 9.0  
Second Year Sculpture

**ART 541**  
Units: 9.0  
First Year Photography

**ART 542**  
Units: 9.0  
Second Year Photography

**ART 551**  
Units: 9.0  
First Year Digital Media

**ART 552**  
Units: 9.0  
Second Year Digital Media

**ART 570**  
Units: 3.0  
Directed Study  
An independent study course normally taken during the term between the student's first and second year.

**ART 580**  
Units: 6.0  
First Year Seminar

**ART 581**  
Units: 6.0  
Second Year Seminar  
The graduate seminar meets weekly, serving as a forum for active investigation of contemporary art practices as they pertain to student and faculty research areas. The seminar also serves as an occasional forum for visiting artists and critics. Students are expected to make presentations based on their work and research, to participate actively in discussion and to demonstrate their critical and analytical abilities in dealing with the material presented.

**ART 598**  
Units: 0  
MFA Degree Exhibition  
This final exhibition will be the major source of evaluation for the student's attainment of the MFA and should be regarded as the equivalent of the scholarly thesis of an academic discipline. The degree exhibition will be evaluated by the student's committee which will submit its decision to the department for approval. Graduating students will speak to their work and answer questions from the examining committee. The committee may ask questions about the cultural, social and theoretical relations apparent in the student's work. Students are required to provide documentation of their graduating exhibition which will be on file in the department. This documentation will take the form of slides, photographs, videotapes or other forms appropriate to the student's production.  
Grading: INP, COM, N, F

**ASTR**

**Astronomy**  
Department of Physics and Astronomy  
Faculty of Science

**ASTR 501**  
Units: 1.5  
Stellar Interiors and Evolution  
The physics of stars and stellar explosions. Interior structure and evolution including the origin of the elements. Stellar properties as a function of mass and metallicity. Computational simulations of stars and stellar physics processes, such as mixing, and corresponding observables.

**ASTR 503**  
Units: 1.5  
The Interstellar Medium  
Spectral line formation and notation. Processes in the interstellar medium including collisional excitation/ionization, line transfer effects (e.g., resonance and fluorescence), continuum and recombination processes. The theory of photoionized regions. Dust and metals - formation, measurement and chemistry. The application of these physical processes to current research topics, including the composition of the Milky Way and Local Group galaxies and the interstellar media of high redshift galaxies.

**ASTR 504**  
Units: 1.5  
A Theoretical Perspective on Galaxies  
The current theoretical framework for understanding the formation and evolution of galaxies and galaxy systems. Topics may include the origin of the initial density perturbations during inflation, the hierarchical clustering paradigm, the physics driving the evolution of cosmic baryons, and the latest tools used by theorists to study structure formation.

**ASTR 505**  
Units: 1.5  
An Observational Perspective on Galaxies  
The formation and evolution of galaxies from a modern research perspective. Topics may include the observed properties of galaxies, the growth of galaxies from initial conditions, the development of galactic scaling relations, the relationship between galaxies and large-scale structure and the physical evolution of galaxies.
ASTR 506 Units: 1.5
Stellar Populations
The properties of star clusters and their use in improving our understanding of stellar evolutionary theory. The use of star clusters and theoretical stellar models to study the formation of galaxies in the early Universe in addition to the chemical and dynamical evolution of galactic systems.

ASTR 507 Units: 1.5
Stellar Archaeology
The properties of stars and stellar populations in the Milky Way Galaxy. Topics may include stellar chemistry and the analysis of model atmosphere, stellar and cluster kinematics, astronomical instrumentation, and big data surveys.

ASTR 508 Units: 1.5
Cosmology
Modern research problems in cosmology. Topics may include the measurement of cosmological parameters, universal expansion, large-scale structure, big bang nucleosynthesis and the cosmic microwave background.

ASTR 511 Units: 1.5
Advanced Topics in Astronomy
Advanced topics covering research in the fields of extragalactic and stellar astronomy.
Note: May be taken more than once for credit in different topics.

ASTR 512 Units: 1.5
Astronomical Instrumentation
A multi-wavelength overview of astronomical instrumentation. Practical optics and signal processing (e.g., spread functions, resolution, aberrations, sampling, sources of noise, calibrations). Multispectral techniques, including interferometry and adaptive optics. Astronomical detectors. Spectroscopy (long and multi-slit, echelle, Fabry-Perot and integral field units). An overview of current and future ground and space facilities, their design and objectives. Application of theory to practice: designing your own observations and writing telescope proposals.

ASTR 561 Units: 1.5
Student Seminar (MSc)
Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing astronomical research. This is a continuing course that is taken throughout the MSc program, but credit is not granted until completion of the program.
Grading: INP, COM, N, F

ASTR 580 Units: 1.0-3.0
Directed Studies
Notes:
• May be taken more than once for credit in different topics
• Pro Forma required

ASTR 661 Units: 1.5
Student Seminar (PhD)
Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing astronomical research. This is a continuing course that is taken throughout the PhD program, but credit is not granted until completion of the program.
Grading: INP, COM, N, F

BCMB

Biochemistry and Microbiology
Department of Biochemistry and Microbiology
Faculty of Science

BCMB 500 Units: 1.0
Critical Thinking in Biochemistry and Microbiology
Allows students to develop their oral presentation and written communication skills and provides students with training in critical analysis of data and peer-reviewed publications.

BCMB 501 Units: 1.0
Essentials of Scientific Writing
Exploration of the techniques and strategies of effective scientific writing for knowledge dissemination, grant submission, and peer-reviewed journals.
Note: Credit will be granted to only one of BCMB 501, BCMB 531.

BCMB 502 Units: 1.0
Journal Club I
Journal club designed to introduce students to relevant biochemical and microbiological research literature. Selected papers will encompass the following research themes: (1) molecular pathogenesis; (2) gene expression and signaling; (3) diagnostics, therapeutics and vaccines; (4) protein chemistry, structure and function; and (5) proteomics.

BCMB 511 Units: 1.5
Advanced Topics in Biochemistry
Formerly: BCMB 531

BCMB 512 Units: 1.5
Astronomical Instrumentation

BCMB 520 Units: 1.0
Regulation of Eukaryotic Gene Expression
Detailed review of current topics in eukaryotic gene regulation with emphasis on the practical aspects of gene expression and chromatin conformation analysis using molecular biology and biophysical techniques such as DNA arrays, QPCR, ChIP, next generation sequencing, analytical ultracentrifuge, FRAP, FRET. Given in a journal club format with class discussion.

BCMB 521 Units: 0.5
Cell Signalling
Students will develop an understanding of the tools and methods used to dissect eukaryotic signalling pathways, and learn how diverse approaches can be used to determine molecular mechanisms of signalling. Taught from the primary literature.

BCMB 522 Units: 0.5
Regulation of Eukaryotic Gene Expression

BCMB 523 Units: 0.5
Cell Signalling

BCMB 524 Units: 0.5
Fundamentals of Crystallography
An exploration of the connection between x-ray diffraction and electron density, including concepts of unit cell, scattering factor, structure factor, anomalous scattering and fluorescence. Data collection strategies will be discussed, including Bragg angles, the direct and reciprocal lattices, the Ewald sphere, single crystal x-ray diffractometers, area detectors, Laue photography, synchrotron radiation, MAD, SAD and MIR.

BCMB 531 Units: 1.0
Essentials of Scientific Writing

BCMB 532 Units: 0.5
Regulation of Eukaryotic Gene Expression

BCMB 533 Units: 0.5
Cell Signalling

BCMB 534 Units: 0.5
Fundamentals of Crystallography

BCMB 535 Units: 0.5
Practical Crystallography
Detailed review of the practical aspects of analysis of x-ray diffraction data collected from protein crystals. Includes techniques for growing and mounting crystals, data collection and reduction, and modern software packages for analysis and presentation. Hands-on experience in solving real structures will be given in a workshop atmosphere, and students are encouraged to bring their laptop computers to class.

BCMB 536 Units: 0.5
Experimental Origins of Molecular Biology
Examination of the historical development of the guiding paradigms of modern molecular biology. Classic investigations to be examined include the Luria-Delbruck fluctuation test, the Meselson-Stahl experiment, the fine structure mapping of bacteriophage T4, the Jacob and Monod elucidation of the function of the lac operon, and the deciphering of the genetic code.

BCMB 537 Units: 0.5
Bacterial Pathogen Alteration of Eukaryotic Host Cell Functions
The mechanism of action of bacterial pathogens and their effector molecules in altering biochemical processes in host cells. Various topics will be discussed, including detailed study of the six specialized secretion systems of gram-negative bacteria and modern biological and biochemical approaches for studying bacterial pathogenesis.

BCMB 538 Units: 0.5
Practical Bioinformatics
Aspects of bioinformatics will be reviewed, including searching for distant homologues of proteins with similarity search tools, use of modern web-based motif searching tools, gene prediction and annotation tools, dot plots of proteins and genomes. Given in a journal club format with class discussion.

BCMB 539 Units: 0.5
Cancer Immunology from Bench to Bedside
Students are exposed to data and concepts of the immune response to cancer and clinical immunotherapy - specifically cancer vaccines and T cell therapy - with a broad perspective from basic research through to clinical practice. Includes lectures and student-led presentations of primary literature.

BCMB 540 Units: 0.5
An Introduction to Clinical Oncology for Cancer Researchers
Intended for graduate students with an interest in cancer research. Students are exposed to concepts of modern oncology from a clinical perspective, including pathology, radiation therapy, systemic therapy, and even psychological support. The goal is to provide a “real world” view of the progress and challenges associated with cancer diagnosis and treatment. Includes lectures by practicing physicians and other clinical staff, as well as student-led presentations of primary literature.
BCMB 580 - Units: 0
Formerly: BIOC and MICR 580
Research Seminar
Requires attendance and participation at all departmental seminars, and the formal presentation of the research that comprises the major portion of the student’s MSc thesis in biochemistry or microbiology, or the major portion of the currently completed and proposed research for students intending to transfer to the PhD program.
Grading: INP, COM, N, F.

BCMB 589 - Units: 0.5-1.5
Special Topics in Biochemistry or Microbiology
Instruction in a specific or highly specialized aspect of biochemistry or microbiology not otherwise offered in the department's graduate programs.
Note: May be taken more than once for credit in different topics to a maximum of 1.5 units.

Journal Club II - Units: 0
Journal club designed to introduce students to relevant biochemical and microbiological research literature. Selected papers will encompass the following research themes: (1) molecular pathogenesis; (2) gene expression and signaling; (3) diagnostics, therapeutics and vaccines; (4) protein chemistry, structure and function; and (5) proteomics.
Prerequisite(s): BCMB 502.
Grading: INP, COM, N, F.

BIOL 500 - Units: 1.5
History of Biology
The historical development of the major techniques and ideas of biology, including the significance of the important historical contributors to biology.
Notes:
• Credit will be granted for only one of BIOL 500, BIOL 400.
• A combined undergraduate and graduate course.
Please contact instructor for more information.

BCMB 680 - Units: 0
Formerly: BIOC and MICR 680
Advanced Research Seminar
Requires attendance and participation at all departmental seminars, and the formal presentation of the research that comprises the major portion of the student’s PhD thesis work in biochemistry or microbiology.
Prerequisite(s):
• One of BCMB 580, BIOC 580, MICR 580; or
• permission of the department.
Grading: INP, COM, N, F.

BIOL 516 - Units: 1.5
Neuroethology
Examination of the neural basis of behaviour. Insights into the neuronal organization of behaviour through examination of neural solutions that have evolved in animals to solve problems encountered in their particular environments. Examples in individual species will be used to illustrate how neuronal systems integrate information to shape behaviour in a real-world context. Critical evaluation of research papers and seminar presentations based on the primary literature will be emphasized.
Notes:
• Credit will be granted for only one of BIOL 516, BIOL 448.
• A combined undergraduate and graduate course.
Please contact instructor for more information.

BCMB 693 - Units: 3.0
PhD Candidacy Examination
Students enrol in BCMB 693 upon provisional transfer to the BIOC or MICR PhD program and remain enrolled until all candidacy requirements are complete.
Grading: INP, COM, N, F.

BIOL 590D - Units: 1.5
Ion Channels: Structure and Function
Electrical signals in neurons are produced by voltage-gated and ligand-gated ion channels. Any disturbance in the function of ion channels can lead to major neurological disorders. This course will allow students to learn the structure and function of some of the major voltage- and ligand-gated ion channels. Mechanisms of ligand binding, gating and ion selectivity will be covered. The structure of the course will be based primarily on critical discussion of research papers.

BIOL 513 - Units: 1.5
Developmental Biology
Cellular and molecular mechanisms underlying animal development: fertilization, gastrulation, body axis formation and patterning, formation of the eye, nervous system, neural crest, limb, germ cells and gonads. Emphasis on human developmental disorders, experimental design and hypothesis testing.
Notes:
• Credit will be granted for only one of BIOL 513, BIOL 309.
• A combined undergraduate and graduate course.
Please contact instructor for more information.

BCMB 509D - Units: 1.5
Directed Studies in Biochemistry
A wide range of biochemical topics will be available for assignments. Topics will be restricted to an analysis of recent advances. The student's graduate adviser will not normally participate in directed studies taken for more than one unit of credit.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

BCMB 599 - Units: to be determined
MSc Thesis: Biochemistry
Graduating INP, COM, N, F

BIOL 699 - Units: to be determined
PhD Dissertation: Biochemistry
Corequisite(s): BCMB 693.
Grading: INP, COM, N, F.

BIOL 570 - Units: 0.5-3.0
Directed Studies in Biochemistry
A wide range of biochemical topics will be available for assignments. Topics will be restricted to an analysis of recent advances. The student’s graduate adviser will not normally participate in directed studies taken for more than one unit of credit.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

BCMB 580 - BIOL 521
Electron Microscopy for the Biological Sciences
An introduction to the principles and basic techniques of biological electron microscopy emphasizing common preparative methods for transmission and scanning electron microscopy of biological samples. A final report illustrated by the student’s electron photomicrographs is required.
Prerequisite(s): Permission of the department.

BIOL 518 - Units: 1.5
Electron Microscopy for the Biological Sciences
An introduction to the principles and basic techniques of biological electron microscopy emphasizing common preparative methods for transmission and scanning electron microscopy of biological samples. A final report illustrated by the student's electron photomicrographs is required.
Prerequisite(s): Permission of the department.

BIOL 521 - Units: 1.5
Advanced Topics in Marine and/or Freshwater Algae
Phytoplankton eco-physiology, and connections between phytoplankton physiology and broad oceanographic issues, such as the dynamics of nutrient cycling, carbon export, paleoceanographic proxies, ocean warming and marine ecosystem changes.
BIOL 522  Units: 1.5

Sensory Biology
Cellular and molecular mechanisms underlying sensory systems: sensory receptor coding logic, signal transduction, neuronal circuitry, developmental biology, comparative analysis of model organisms, related clinical disorders and therapeutic strategies. Focus placed on recent advances in the primary literature and on promoting skills for developing hypotheses and designing experiments.

Notes:
• Credit will be granted for only one of BIOL 522, BIOL 404.
• A combined undergraduate and graduate course.
  Please contact instructor for more information.

BIOL 532  Units: 1.5

Molecular Endocrinology
Basic and molecular aspects of endocrinology. Brain hormones and their precursors, insulin and its receptor, gene-associated peptides, new glycoprotein hormones, growth factors, steroids, the superfamill of steroid and thyroid receptors, phenornones, oncogenes, immunonecirdiology and environmental endocrinology.

Notes:
• Credit will be granted for only one of BIOL 532, BIOL 432.
• A combined undergraduate and graduate course.
  Please contact instructor for more information.

BIOL 535  Units: 1.5

Formerly: BIOL 555

Topics in Evolutionary Biology
A lecture and discussion course dealing with the processes of evolution. Topics vary, and may include one or more of the following: microevolutionary and macroevolutionary processes, speciation mechanisms, phylogeny reconstruction, molecular evolution, genetic basis of morphological change. Areas of current controversy will be explored.

Note: Credit will be granted for only one of BIOL 535, BIOL 555.

BIOL 536  Units: 1.5

Human Molecular Genetics
An advanced study of the supramolecular organization, structures and functions of the human genome, and their implications in genetic diseases, including cancer. Topics will include current advances in genomics, animal models of diseases, molecular pathology and gene therapies.

Notes:
• Credit will be granted for only one of BIOL 536, BIOL 436.
• A combined undergraduate and graduate course.
  Please contact instructor for more information.

BIOL 538  Units: 1.5

Also: FORB 538

Nutrient Cycling and Prokaryotes
An introduction to prokaryotes (bacteria and archaea) and their role in nutrient cycling in forests, lakes and oceans. Diversity and evolution of populations and communities of prokaryotes and their role in the major biogeochemical cycles: carbon, nitrogen, sulfur. Genetic, biochemical, physiological and ecological aspects of processes such as nitrogen fixation and methanogenesis, design of experimental approaches to assess cycling of elements in forests, lakes and oceans by prokaryotes.

Notes:
• Credit will be granted for only one of BIOL 538, BIOL 438, FORB 538.
• A combined undergraduate and graduate course.
  Please contact instructor for more information.

BIOL 540  Units: 1.5

Molecular Epidemiology
Basic principles and applications of molecular epidemiology in epidemiological research on infectious and chronic diseases as well as risk factors in human populations. An overview of terminology and definitions, the use of statistics, and ethical consideration.

Notes:
• Credit will be granted for only one of BIOL 540, BIOL 439.
• A combined undergraduate and graduate course.
  Please contact instructor for more information.

BIOL 544  Units: 1.5

Molecular Evolution
Using population genetic and evolutionary principles to understand how and why genes and genomes change, and to reconstruct the evolutionary history of genes, genomes, and organisms.

Notes:
• Credit will be granted for only one of BIOL 544, BIOL 435.
• A combined undergraduate and graduate course.
  Please contact instructor for more information.

BIOL 550  Units: 1.0-6.0

Directed Studies

Notes:
• May be taken more than once in any of the below areas under the appropriate faculty member.
• Pro Forma required.

BIOL 550A  Units: 1.0-6.0

Evolution

Notes:
• May be taken more than once for credit in different topics with permission of the department.
• Pro Forma required.

BIOL 550B  Units: 1.0-6.0

Ecology

Notes:
• May be taken more than once for credit in different topics with permission of the department.
• Pro Forma required.

BIOL 550C  Units: 1.0-6.0

Physiology

Notes:
• May be taken more than once for credit in different topics with permission of the department.
• Pro Forma required.

BIOL 550D  Units: 1.0-6.0

Cell Biology

Notes:
• May be taken more than once for credit in different topics with permission of the department.
• Pro Forma required.

BIOL 550E  Units: 1.0-6.0

Molecular Biology

Notes:
• May be taken more than once for credit in different topics with permission of the department.
• Pro Forma required.

BIOL 560  Units: 1.0

Annual Biology Graduate Symposium

Required of all graduate students every year of their degree program except by permission of the department. Shall be treated, in its grading, as the thesis or the dissertation and shall be given one unit of credit upon completion.

Grading: INP, COM, N, F

BIOL 561  Units: 1.5 Hours: 3-0-1

Fisheries Ecology and Management

An examination of the basic principles of fisheries ecology and population dynamics and how they are used as the basis for stock assessment and fisheries management. Topics include: current issues in BC, Canadian and global fisheries, growth, mortality, reproduction and recruitment, stock-recruitment and age-structured fisheries models, fisheries management tactics and strategies.

Prerequisite(s): Permission of the department.

BIOL 563  Units: 1.5

Also: STAT 563

Topics in Applied Statistics

Survival analysis, generalized linear models, multivariate normal models, resampling methods, nonparametric and robust methods, meta-analysis, miscellaneous techniques.

Note: Joint with STAT 563.

BIOL 564  Units: 0.5-1.5

Biography Workshop

Advanced workshops providing intensive theoretical and practical training in thematic areas of biology. Workshops are designed to provide the tools for experimental design to address biological questions at all levels from the genome to the whole organism.

Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

BIOL 565  Units: 1.5

Research and Communication Skills in Biology

Scientific writing and grant development. Presentation skills. Introduction to issues in research ethics and professionalism.

BIOL 567  Units: 1.5

Neural Development

Neural induction, patterning, cell fate determination, axon guidance, synaptic development, circuit formation, neural stem cells, adult neurogenesis. Emphasis on molecular mechanisms, analysis of primary literature.

Notes:
• Credit will be granted for only one of BIOL 567, BIOL 467.
• A combined undergraduate and graduate course.
BIOL 599 - BUS 695

**BIOL 599**  
*Units: 12.0*  
*Thesis*  
*Grading: INP, COM, N, F*

**BUS 601**  
*Units: 1.5*  
*Research Foundations*  
Builds a strong foundation for PhD studies in the field of international management and organization. Covers what the academy is and the academic's role in the Academy as well as in the greater societal context, the role of the academy with respect to international business practice, philosophy of science with respect to the management literature, the historical development of the management literature, what constitutes good management research.

**BUS 603**  
*Units: 1.5*  
*Strategy*  
Examines the current state of knowledge in strategic management. Topics may include the sources of competitive advantage, the role of industry evolution and technology, the organization of top management, and managerial decision-making and cognition. Introduces alternative theoretical perspectives and available empirical evidence related to these topics.

**BUS 604**  
*Units: 1.5*  
*Business and Sustainability*  
Changing societal and ecological dynamics, from global to local levels, are rapidly shaping new landscapes for the management of organizations - affecting their institutional contexts, interactions with an expanding range of stakeholders, strategic priorities and operational realities. Rethinking the role of business in society has added new concepts to organization theory, including corporate social responsibility, ecological sustainability and resilience, triple-bottom line management, natural capital, shared or sustainable value creation and social entrepreneurship.

**BUS 605**  
*Units: 1.5*  
*Comparative Human Resource Management*  
Focuses on human resource management (HRM) practices and outcomes in international organizations, as well as identifies causal factors accounting for differences across nations in HRM structures, practices and outcomes.

**BUS 606**  
*Units: 1.5*  
*Micro Organizational Behaviour*  
Focuses on the behaviour of individuals and groups in organizations. Introduces several key topics in the field and aims for a critical analysis of each topic to develop a framework for understanding the breadth and depth of the research done to date in each topic and to identify the gaps in the literature. Covers the major theories and empirical research, including conceptual and methodological issues.

**BUS 607**  
*Units: 1.5*  
*Macro Organizational Theory*  
Introduces the major schools of thought in organization and management theory. Considers the development of the field, major and foundational works in these schools of thought, and provides a cognitive map with which to evaluate contemporary research and debates. Provides understanding of the strengths and weaknesses of each major perspective.

**BUS 640**  
*Units: 1.5*  
*Research Methods Fundamentals*  
Builds methodological foundation for organizational research and provides an overview of a broad range of research methodologies for organizational research. Topics include an overview of quantitative and qualitative research methods, theory building process, reliability and validity, mediation and moderation, survey research design, and a brief introduction to Structural Equation Modeling and Experimental Design.

**BUS 641**  
*Units: 1.5*  
*Mixed Methods Research Design*  
Provides a conceptual and practical understanding of combining traditional quantitative research methods with ethnographic, qualitative and other non-traditional research methodologies to advance theory in management research. Develops skills in evaluating the appropriateness of the research design to the research question, the adequacy of the methodology and evidence used to support claims made, and the persuasiveness of the arguments.  
*Prerequisite(s): BUS 640 or permission of the program.*

**BUS 642**  
*Units: 0.5-4.5*  
*Selected Topics in Research Methods and Analysis*  
Course content will reflect faculty members' research expertise and current Management research methodological approaches. Topics may include advanced statistical techniques and research methodologies. The content, credit value and method of evaluation must be approved by the PhD Program Director.  
*Note: May be taken more than once for credit in different topics.*  
*Grading: INP, COM, N, F*

**BUS 650**  
*Units: 1.5*  
*Global Management and Society I*  
Provides an overview of international business and management with special emphasis on the environmental and societal impact of global organizations over two semesters. Covers a team-taught, integrative survey of selected topics introducing students to a variety of theoretical and disciplinary perspectives laying down a strong foundation for understanding today's complex global organizational realities.

**BUS 655**  
*Units: 1.5*  
*Global Management and Society II*  
Further develops topics covered in BUS 650.  
*Prerequisite(s): BUS 655 or permission of the program.*

**BUS 656**  
*Units: 1.5*  
*Global Management and Society III*  
Examines the current state of knowledge in strategic management. Topics may include the sources of competitive advantage, the role of industry evolution and technology, the organization of top management, and managerial decision-making and cognition. Introduces alternative theoretical perspectives and available empirical evidence related to these topics.

**BUS 657**  
*Units: 1.5*  
*Research Methods Fundamentals*  
Builds methodological foundation for organizational research and provides an overview of a broad range of research methodologies for organizational research. Topics include an overview of quantitative and qualitative research methods, theory building process, reliability and validity, mediation and moderation, survey research design, and a brief introduction to Structural Equation Modeling and Experimental Design.

**BUS 658**  
*Units: 0*  
*International Fellowship Outgoing*  
Students register in this course while participating in an international residency with a university outside of Canada.  
*Grading: INP, COM, N, F*

**BUS 659**  
*Units: 1.5-4.5*  
*International Fellowship Incoming*  
Students register in this course while participating in an international residency from a university outside of Canada.  
*Grading: INP, COM, N, F*

**BUS 660**  
*Units: 0.5-4.5*  
*Directed Studies for Business PhD Program*  
The content, credit value and method of evaluation must be approved by the PhD Program Director as well as the instructor offering the area of individual study prior to registration.  
*Notes: May be taken more than once for credit in different topics.  
Pro Forma required.*

**BUS 661**  
*Units: 1.5*  
*Academic Career Development*  
Provides a holistic viewpoint on the life and work of a management professor towards a fulfilling academic career. Focuses on professional development skills and understandings, including research, teaching, presenting, and being a positive contributing member of the academic community.  
*Grading: INP, COM, N, F*

**BUS 662**  
*Units: 0*  
*Teacher Training*  
Under guidance of a senior faculty member, PhD students will participate in training as teachers.  
*Grading: INP, COM, N, F*

**BUS 663**  
*Units: 1.5*  
*Global Management and Society IV*  
Examines the current state of knowledge in strategic management. Topics may include the sources of competitive advantage, the role of industry evolution and technology, the organization of top management, and managerial decision-making and cognition. Introduces alternative theoretical perspectives and available empirical evidence related to these topics.

**BUS 664**  
*Units: 0*  
*International Fellowship Outgoing*  
Students register in this course while participating in an international residency with a university outside of Canada.  
*Grading: INP, COM, N, F*

**BUS 665**  
*Units: 1.5*  
*International Fellowship Incoming*  
Students register in this course while participating in an international residency from a university outside of Canada.  
*Grading: INP, COM, N, F*

**BUS 666**  
*Units: 0.5-4.5*  
*Special Topics in Business Administration*  
The content, credit value and method of evaluation must be approved by the PhD Program Director.  
*Note: May be taken more than once for credit in different topics to a maximum of 20 units.*  
*Grading: INP, COM, N, F*
BUS 699 Units: 1.5
PhD Dissertation
Prerequisite(s): BUS 693.
Grading: INP, COM, N, F.

CD Community Development
School of Public Administration
Faculty of Human and Social Development

CD 501 Units: 1.5
Anchoring a Change Agenda: Foundations
Grounds students in a solid understanding of the multiple historical, theoretical, and conceptual frameworks of the role of civil society and the social economy in advancing progressive economic, political, and social change, including the economics of social justice. The powerful intersection of theory and practice will be examined and critically assessed in the context of the capacity of co-operatives, non-profits, and community development organizations to respond to key contemporary societal issues, global trends, and to consider implications for the future.
Prerequisite(s):
• Admission to MA program in Community Development;
or
• permission of the program.

CD 504 Units: 1.5
Practices and Perspectives on Forging Change
The ideologies, assumptions, and practices of diverse models of change that engage citizens, organizational and institutional stakeholders for social benefit will be explored. Introduces a range of models, their strengths, limits, and applications with particular focus on governance, power, influence, and socioeconomic innovation. Challenges students to analyze and assess the relevance and value to their fields of interest, whether community economic development, co-operatives or non-profits. Uses a range of readings, case studies, and practice experience drawing students to analyze and assess the relevance and value to development. Stream-specific readings and practices will accompany organizational and community enterprise leadership and community capacity building elements that financial, information, and community technologies, and decision making for developing enterprises that link analyses.

CD 507 Units: 1.5
Development Finance
A review of the current conventional sources (governments, banks, credit unions, etc.) of capital: how they are accessed, obstacles and opportunities. Considers specialized investment sources that have been created, how to match funds/investments and ideas for new institutional arrangements. The field will be explored from both the point of view of those seeking investment and those who make the investment (e.g., community investment loan funds).

CD 509 Units: 1.5
Developing Capacities to Lead and Manage in the Non-Profit Sector
Focuses on developing the capacities of strategic planning, strategy, and program management, resource generation, financial, and human resource management, performance, information and communication technology, communications management, and ensuring accountability to multiple stakeholders. Students will develop an in-depth understanding of leading edge management frameworks and examine their relevance to leading and managing in the community sector.

CD 510 Units: 1.5
Leadership, Management and Governance within Organizations
Develops the competencies required to effectively lead and manage organizations from the inside, focusing on leadership capacities, human resources (staff, boards, and volunteers), governance, internal and external stakeholder relationships. Through a blend of theory, practice, and experiential simulations, students will integrate their learning as well as appreciate the unique dimensions of co-operatives, social enterprises, and non-profit organizations.
Prerequisite(s):
• Admission to MA program in Community Development;
or
• permission of the program.

CD 512 Units: 1.5
Program and Project Design, Management and Evaluation
Examines the various perspectives and approaches to program and project design, management and evaluation. Highlights the analytical activities and decisions involved in effective design, planning, implementation, reporting, and evaluation focusing on innovative and practical tools and processes that ensure effective outcomes and accountability. Attention will be paid to managing the complexity of multiple and collaborative projects and programs.

CD 518 Units: 1.5
Citizen Participation and Democratic Governance
Introduces students to concepts of citizenship, democracy, and governance and addresses different histories and forms of democracy. The meanings of citizenship and its relationship to identity, engagement, and participation are discussed. Explores different models of governance and reviews governance practices and structures at multiple levels in different jurisdictions. Also investigates the role of accountability in democratic governance, including forms and techniques of accountability.

CD 522 Units: 1.5
Understanding and Mainstreaming Gender
Considers a range of conceptual and practical issues faced in the quest for a gender-just society. Topics include: definition and understanding of gender, gender based violence, gender in institutions as well as the creation of gender-sensitive environments. Course material and online discussions encourage critical analysis of diverse contemporary debates and perspectives. Also includes exercises and questions to stimulate critical thinking and reflection upon gender attitudes and perceptions.

CD 524 Units: 1.5
Leadership and Organizational Development for Communities
Explores leadership beliefs, values, and attitudes, and analyzes perspectives in shaping leadership in civil society, community development and the social economy. Introduces management, assessment, concepts and tools for developing strategic priorities and planning frameworks for organizations and communities. Includes scenario based exercises set in a variety of practice contexts relevant to students’ experience and systems.
Note: Credit will be granted for only one of CD 524, CD 502, CD 503.
Prerequisite(s):
• Admission to MA program in Community Development;
or
• permission of the program.

CD 525 Units: 1.5
Managing Organizations, Systems and Community Transformations
Develops key competencies for personal, group, organizational, and community leadership in: teamwork, facilitation, presentation skills, negotiation, conflict resolution, group dynamics and collaboration. Examines systemic factors that encourage and capture influencing. Analysis of cases that demonstrate successful scaling, practices or particular innovations.
Note: Credit will be granted for only one of CD 525, CD 511, CD 513.
Prerequisite(s):
• Admission to MA program in Community Development;
or
• permission of the program.

CD 526 Units: 1.5
Agenda for Social Change: Moving Forward
Surveys the key leverage points for engaging in social change at the local and regional level. Exemplary practice and understanding of key policy innovations are drawn from local and international sources. Provides an opportunity for students to engage in a generative dialogue to explore framing that strategically advances civil society, social economy and strengthens communities. Understanding local and international key policy innovations are linked with the formulation of recommendations for action for moving forward.
Note: Credit will be granted for only one of CD 526, CD 517, CD 520.
Prerequisite(s):
• Admission to MA program in Community Development;
or
• permission of the program.
CD 590 Units: 1.5
Directed Studies
An international or local exchange, a study tour, self-directed reading, or an innovative personal learning design. Must be applicable to the field of study. Primary consideration will be given to its role and relevance in deepening skills and knowledge to strengthen the capacity of the student to provide leadership in the future.
Note: May be taken more than once for credit in different topics with permission of the faculty.

CD 591 Units: 1.5
Selected Topics Course
A study of selected topics drawn from the current literature and practices in the social economy or related fields.
Note: May be taken more than once for credit in different topics with permission of the faculty.

CD 596 Units: 4.5
Group Project
A substantial analysis of a management, policy or program problem for a client in the community development sector. This group project is prepared in consultation with the client and an academic supervisor drawn from regular university faculty and qualified practitioners and must be both practical and academically rigorous. The group project is defended in an oral examination.
Grading: INP, COM, N, F

CD 598 Units: 4.5
Master’s Project
Expected to be a substantial analysis of a management, policy or program problem for a client in the community development sector. This major project is prepared in consultation with the client and an academic supervisor drawn from regular university faculty and qualified practitioners and must be both practical and academically rigorous. The Master’s Project is defended in an oral examination.
Grading: INP, COM, N, F

CH Cultural Heritage Management
Department of Art History and Visual Studies and Division of Continuing Studies
Faculty of Fine Arts
All Cultural Heritage Management courses are subject to differential fees, Consult Fees for Graduate Programs.

CH 560 Units: 1.5
Cultural Heritage Stewardship and Sustainability
Explores cultural heritage in all its diverse forms, along with the critical roles it plays in defining, reinforcing and contributing to a sustainable world. Discusses the scope and meaning of cultural heritage in contemporary society, and analyzes how diverse approaches to the conservation, access to and management of cultural heritage are continuing to evolve in response to philosophical changes and social, economic, cultural and environmental needs.

CH 561 Units: 1.5
Social Engagement
Explores the profound social changes that are reshaping the nature and purposes of museums and other cultural heritage organizations in a pluralistic society. Considers the implications for all aspects of their specialized functions with a particular focus on how such organizations serve as dynamic social spaces for community engagement and action.
Notes:
• Credit will be granted for only one of CH 561, AHVS 488W.
• A combined undergraduate and graduate course.

CH 562 Units: 1.5
Curatorial Planning and Practice
Considers how traditional concepts of curatorship have shifted significantly in the face of more democratic relations with community, more subjective perspectives of knowledge, and increasing emphasis on the museum’s social and educational roles. Explores the nature and scope of contemporary critical curatorial theory and practice and focuses on the ways in which curators engage with cultural heritage resources, develop sustainable collections, and generate and share associated knowledge to meet the needs of diverse communities.
Notes:
• Credit will be granted for only one of CH 562, AHVS 488X.
• A combined undergraduate and graduate course.

CH 563 Units: 1.5
Visitor Experiences
Explores the evolving concept and implications of an holistic approach to visitor engagement in museums and other cultural heritage institutions, and focuses on museums’ relationships with their publics, their capacity to serve as social spaces, strategies for audience research, the characteristics of visitors, communications, exhibitions, formal and informal learning activities, and evaluation strategies.
Notes:
• Credit will be granted for only one of CH 563, AHVS 488Y.
• A combined undergraduate and graduate course.

CH 570 Units: 1.5
Heritage Conservation in Context
Addresses the complex range of principles and practices that influence heritage preservation and conservation planning and decision-making. The implications of international and national charters, principles, standards and guidelines, are discussed, along with legal, programmatic and financial incentives and constraints.
Notes:
• Credit will only be granted for one of CH 570, AHVS 489K, HA 489K.
• A combined undergraduate and graduate course.

CH 571 Units: 1.5
Determining Significance of Heritage Resources
Focuses on the definition of the heritage value or significance of a historic place or resource as a key step in the management of cultural heritage resources. It explores the range of historical aesthetic, social and scientific values that establish the character-defining elements of historic resources, including buildings, structures, historic districts and cultural landscapes. Various methods of inventory and evaluation are discussed along with their roles in guiding subsequent conservation planning and decision-making.
Notes:
• Credit will only be granted for one of CH 571, AHVS 489C, HA 489C.
• A combined undergraduate and graduate course.

CH 572 Units: 1.5
Heritage Conservation Planning
Focuses on approaches to planning and heritage conservation decision-making, and discusses the components of the heritage conservation planning process, including alignment with local and regional planning priorities, community involvement and consultation, the acquisition and integration of technical and regulatory information and professional expertise, and the integration of planning in the long-term management of heritage resources.
Notes:
• Credit will only be granted for one of CH 572, AHVS 489L, HA 489L.
• A combined undergraduate and graduate course.

CH 588 Units: 1.5
Special Studies in Museum Studies
May be taken in conjunction with a Cultural Resource Management course in the AHVS 488 series with permission of the Program Adviser.
Note: This course may be taken more than once for credit in different topic areas.
Prerequisite(s): Permission of the program.

CH 589 Units: 1.5
Special Studies in Heritage Conservation
May be taken in conjunction with a Cultural Resource Management course in the AHVS 489 series with permission of the Program Adviser.
Note: This course may be taken more than once for credit in different topic areas.
Prerequisite(s): Permission of the program.

CH 591 Units: 1.5
Practicum in Cultural Heritage
A placement in a cultural heritage setting, designed to build knowledge and skills in a specialized area of practice.
Grading: INP, COM, F, N
CHEM

Chemistry
Department of Chemistry
Faculty of Science

CHEM 505  Units: 0.5  Hours: 1-0
Research Methods and Professional Development in Chemistry
Introduction to professional development and best practices in research. Topics may include writing, ethics, the publication and review process, intellectual property, time and data management, record keeping, the chemical literature.
Grading: COM, N, F

CHEM 509  Units: 1.0
Seminar
Grading: INP, COM, N, F

CHEM 511  Units: 1.5
Topics in Instrumental Analysis

CHEM 521  Units: 1.5
Advanced Inorganic Chemistry
Advanced topics in inorganic chemistry from across the periodic table, building on principles established in 222, 324 and 353. Topics may include: main group organometallics, novel structures and reactivity, catalysis, inorganic polymers, zeolites, fullerenes, metal-metal and metal-ligand multiple bonding, bioinorganic chemistry, metal clusters, or chemistry of the lanthanides and actinides.
Note: Credit will be granted for only one of CHEM 521, CHEM 524, CHEM 526 (if taken in the same topic).

CHEM 523  Units: 1.5
Organometallic Chemistry

CHEM 526  Units: 1.5
Topics in Advanced Inorganic Chemistry
Topics in Advanced Inorganic Chemistry
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

CHEM 533  Units: 1.5
Organic Synthesis

CHEM 537  Units: 1.5
Biological and Medicinal Chemistry
An introduction to medically important biological systems and the small molecules that perturb them. Topics will include: chemical aspects of proteomics, biological target identification, mechanisms of action for important drugs, lead identification and development, and enzyme inhibitor design.

CHEM 555  Units: 1.5
Statistical Thermodynamics

CHEM 556  Units: 1.5
Topics in Advanced Physical Chemistry
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

CHEM 560  Units: 0.5
Research Tools and Special Topics
This course will be offered as multiple 0.5-unit modules that count as graduate lecture courses for the purposes of Chemistry graduate program requirements. Consult the course coordinator for offerings in a particular year.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

CHEM 590  Units: 0.5-3.0
Directed Studies
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

CHEM 599  Units: 1.5
MSc Thesis
Grading: INP, COM, N, F

CHEM 633  Units: 1.5
Topics in Advanced Organic Chemistry
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

CHEM 647  Units: 1.5
Materials Science

CHEM 660  Units: 1.5
Reactivity, Dynamics and Spectroscopy Discussion
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

CHEM 670  Units: 1.5
Property-Directed Synthesis Discussion
Note: May be taken more than once for credit in different modules.

CHEM 676  Units: 1.5
Polymer Science

CHEM 693  Units: 3.0
PhD Candidacy Examination
Students enroll in 693 concurrently with 699 until 693 is passed. If the candidacy examination cannot be completed until the following term, an INP (in progress) grade will be entered.
Grading: INP, COM, N, F

CHEM 699  Units: 37.5 - 39.0
PhD Dissertation
Pre- or Corequisite(s): CHEM 693.
Grading: INP, COM, N, F

CIV3

Civil Engineering
Faculty of Engineering

CIV 510  Units: 1.5
Industrial Metabolism
Methods of material and substance flow analysis in the context of technology and environmental change. Topics include: evolution of technology; environmental footprints, impacts and boundaries; industrial / societal use of dominant elements and compounds; critical metals; resource decoupling; transformation of global infrastructure systems.

CIV 511  Units: 1.5
Methods in Life Cycle Assessment
A variety of methods and applications of life cycle assessment (LCA) including process-based methods and input-output (IO) techniques. Topics include: consequential and attributional LCA; streamlined LCA; life cycle sustainability assessment; environmentally extended IO analysis; multi-regional and multi-scale IO analysis; applications of environmental LCA in product design and policy.

CIV 512  Units: 1.5
Industrial Symbiosis and Recycling
Reducing costs, adding value and improving the environment through the sharing of services, utility, and by-products between industries. The historical development and future prospects of industrial symbiosis at the eco-park, municipal and regional scales. Advances in waste management, recycling technologies and limits to the circular economy.

CIV 513  Units: 1.5
Sustainable Cities
Urban metabolism and sustainable infrastructure development. Design of the built environment based on energy and material flows through cities. Sustainable transportation, green buildings, urban climatology, vegetation, water systems and energy supply in urban neighbourhood designs. Measuring urban metabolism to account for greenhouse gas emissions and other environmental impacts of cities.

CIV 540  Units: 1.5
Uncertainty in Water Resources
Basic and advanced methods in uncertainty analysis in water resources modelling. Bayesian statistics, fuzzy sets and fuzzy numbers are used with applications to water resources. Typical methods used in physically-based modelling including GLUE.

CIV 541  Units: 1.5
Hydrologic Modeling
Analytical, numerical, statistical and physical approaches from local to global scales including surface water - groundwater interactions; analysis and prediction; discuss different approximations of hydrologic process equations and limitations and uncertainty associated with different process representations.
CIVE 542 - Units: 1.5
Environmental Modeling
Basic and advanced methods in spatial statistics for point, area and continuous variables. All the levels (from visual to analytical) of possible spatial analysis techniques for each type of variable and applications in environmental modelling are used to illustrate the concepts.

CIVE 545 - Units: 1.5
Groundwater Hydrology

CIVE 546 - Units: 1.5
Urban Water Systems
The planning and management of urban water systems; handling of wastewaters, drainage and flood prevention; urban agriculture and nutrient recycling; and recreational water uses. All elements of urban water infrastructure from water source, pumping, storage, transmission and distribution, to the hydraulics and network design of sewerage and drainage. Maintenance and repair of pipe networks, adaptation to climate change and sustainable approaches such as low impact development, grey-water systems, rainwater harvesting.

CIVE 547 - Units: 1.5
Water Treatment Processes
Theory and application of physical, chemical and biological processes for the treatment of water and wastewater. Topics include sedimentation, coagulation, filtration, and disinfection, activated sludge, biological nutrient removal, and anaerobic processes for waste treatment. Lecture material is supported by laboratory experiments.

CIVE 550 - Units: 1.5
Green Building Design
Definition of green building, design and construction concepts, site selection, materials and origin, water resource, energy use and generation, retrofit and recycling, indoor environment, occupant behaviour, durability, life cycle analysis, net-zero buildings, green building rating systems.

CIVE 551 - Units: 1.5
Advanced Building Science
Scope and definition, heat-air-moisture transport mechanisms, hygrothermal properties, test methods, climate characterization, moisture management, durability index, energy efficient building envelopes, whole building energy performance, application of numerical simulation tools, forensic investigations.

CIVE 552 - Units: 1.5
Sustainable Construction
Sustainability in urban and remote communities, case studies to highlight some of the recent trends in sustainable construction in North America and around the globe. Topics for case studies will include (but not limited to): light gauge steel technology for mass construction, insulated stay-in-place formwork technology for mass construction, shotcrete, precast and prestressed construction, and rammed earth construction. Will also include an introduction to use of BIM for managing construction projects.

CIVE 553 - Units: 1.5
Advanced Mechanics of Materials
This mechanics of materials course covers advanced topics including beams on elastic foundations, unsymmetrical bending, curved beams, shear flow and torsion in closed and open sections, elastic stability and shells of revolution.

CIVE 554 - Units: 1.5
Advanced Concrete Technology
Microstructure of hydration products and its effect on properties of concrete. Mechanisms and interaction of chemical admixtures and industrial wastes to produce sustainable and durable concrete. Evaluation of fresh and hardened properties of conventional and cement-based composites. Will include a project component focussing on specialized concretes not limited to Fiber Reinforced Concrete, Self-consolidating concrete, High Strength Concrete, Light Weight Concrete, and Carbon Negative Concrete.

CIVE 555 - Units: 1.5
Urban Transportation Planning
The full suite of skills required in urban transportation planning including travel demand modelling, analysis of transportation land-use interactions, quantification of social and environmental impacts, and project evaluation in the context of broader planning issues and policies. Focus is primarily given to passenger transportation, including walking and cycling, with introduction to freight transport. Theoretical foundations of disaggregate choice models and other techniques in travel demand modeling are introduced.

CIVE 556 - Units: 1.5
Urban Transit
Focuses on the planning and operation of public transit systems, covering the hierarchy of modes from buses and bus-rapid transit through streetcars and light-rail to subways and heavy rail. Topics include: factors affecting transit performance and demand; design of networks and mode interchanges; station design; vehicle operations and scheduling; design of transit priority; use of information technology and other innovations in transit planning; project evaluation.

CIVE 557 - Units: 1.5
Sustainability Seminars
Definitions, practices and approaches to sustainability in local to global civil engineering problems with a focus on case studies and integration across diverse disciplines in this seminar-based class. The specific topics change annually and the course is team-taught by several civil engineering faculty members.

CIVE 558 - Units: 1.5
Sustainability Seminars
A wide range of topics will be available.

CIVE 559 - Units: 9.0
MASt Thesis
Grading: INP, COM, N, F.

CIVE 560 - Units: 1.5
Research Methods
The laboratory, numerical and analytical methodologies of the various Civil Engineering research groups.

CIVE 561 - Units: 1.5
PhD Dissertation
Prerequisite(s): CIVE 693
Grading: INP, COM, N, F.

CIVE 562 - Units: 1.5
Candidacy Examination
Grading: INP, COM, N, F.

CSC 505 - Units: 1.5
Computer Graphics
Provides students with a solid background in interactive, generative graphics techniques and hands-on experience programming a modern high resolution, raster display workstation. Covers the hardware and software structures of modern workstations, raster algorithms and data structures (Bresenham’s line and circle algorithms, polygon clipping, region filling, colour), transformations (two- and three-dimensional translation, scaling, and rotation as matrix operations), viewing and representation of three-dimensional shapes, approximation of curves and shapes, hidden line and hidden surface elimination algorithms.
CSC 510 Units: 1.5
Advanced Human-Computer Interaction
Topics of design methodologies, evaluation methodologies (both lab and field studies), human information processing, human movement, cognition, and perception are studied. Introduces students to research methods in HCI, and includes research topics such as: groupware and computer-supported co-operative work; customizable and adaptive systems; small screen, large screen, and tabletop displays; hyperlink and multimedia; and virtual and augmented reality.

CSC 511 Units: 1.5
Information Visualization
An introduction to visualization, or the use of interactive visual representations of data to support human cognition. Principles of visualization design are presented from a human perceptual and cognitive standpoint. Topics include: design, interaction, perception and cognition, evaluation and applications.

CSC 520 Units: 1.5
Analysis of Algorithms
General techniques for designing and analyzing algorithms; an in-depth examination of several problems and algorithms with respect to their time and space requirements; advanced data structures; sorting and searching; graph algorithms; geometric algorithms; backtracking; NP complete problems; approximation algorithms.

CSC 522 Units: 1.5
Graph Algorithms
Detailed study, from the algorithmic point of view, of some tractable and intractable graph problems. Some tractable problems are path problems, spanning trees, network flows, matchings, and planarity testing. Some intractable problems are clique, independent set, vertex cover, Hamiltonian cycle, and colouring problems. Various strategies for handling intractable problems are presented including intelligent backtracking, distributed and parallel computing, parameterized complexity, restrictions to graph sub-classes, randomized and approximation algorithms.

CSC 523 Units: 1.5
Randomized Algorithms
Basic techniques in design and analysis of randomized algorithms: moments and deviations, Markov chains and random walks, martingales, and algebraic techniques. Other topics include: the probabilistic method, random structures and complexity. Applications are selected from: parallel algorithm, routing networks, combinatorial optimization, data structure, approximate solutions to intractable problems, cryptography, pattern matching, and computational geometry.

CSC 524 Units: 1.5
Computational Complexity
Elements of the theory of computational complexity. Topics covered include: the distinction between tractable and intractable problems; definition of computational models and complexity classes; techniques for comparing the complexity of problems; the classes P and NP; completeness; auxiliary pushdown automata, alternating Turing machines; the polynomial time hierarchy; the classes Polynomial Space and Logarithm Space; probabilistic complexity classes; models of parallel computation; randomized computation.

CSC 525 Units: 1.5
Computational Biology Algorithms
The design, analysis and implementation of algorithms used in Computational Biology. Typical topics include algorithms for sequence alignment, database searching, gene finding, phylogeny and structure analysis.

CSC 526 Units: 1.5
Computational Geometry
An introduction to algorithms and data structures which are used to solve geometrical problems. Topics include: geometric searching, convex polygons and hulls, Voronoi diagrams, plane sweep algorithms, proximity and intersections. Application areas discussed include computer graphics, VLSI design and graph theory.

CSC 528 Units: 1.5
Combinatorial Algorithms
Focuses on the interfaces between combinatorics and Computer Science. Algorithms and data structures that are used to manipulate, generate, and randomly select combinatorial objects are studied. Such objects include sets, permutations, combinations, trees, graphs. Methods for analyzing combinatorial algorithms such as recurrence relations, asymptotics, and amortized complexity are presented.

CSC 529 Units: 1.5
Cryptography
Paradigms and principles of modern cryptography. Topics include: review of classical and information-theoretic cryptography; block ciphers; DES, Cryptanalysis of DES, modes of operation, AES, Cryptographic hash functions and message authentication codes; public key cryptography, RSA, ElGamal and other public key systems, signature schemes; introduction to security protocols; secret sharing schemes and zero knowledge techniques.

CSC 530 Units: 1.5
Advanced Switching Theory
A selection of topics in switching theory and their application to the design of digital systems. The emphasis is on techniques suited to computer aided design (CAD). Topics to be covered are selected from: formal aspects of switching theory; spectral logic; combinational and sequential circuit synthesis; algorithmic state machines; and the software aspects of hardware design such as hardware description languages.

CSC 540 Units: 1.5
Numerical Analysis I
Numerical Linear algebra. Topics include: Gaussian elimination and its variants; sparse positive definite linear systems; sensitivity of linear systems; condition and stability; orthogonal matrices and least squares; eigenvalues and eigenvectors; the QR algorithm; the singular value decomposition.

CSC 545 Units: 1.5
Operations Research I
Linear programming and its applications. Topics discussed include the following: the simplex method, the revised simplex method, computer implementation of linear programming, duality, dual simplex and primal dual algorithms, parametric analysis and postoptimality analysis. Applications are selected from: the transportation problem, the assignment problem, blending problems, inventory problems, activity analysis, game theory and network analysis.

CSC 546 Units: 1.5
Operations Research II
An introduction to model design using queuing theory and simulation techniques. Topics covered include a brief introduction to queuing theory, basic ideas in simulation, random number generators, sampling, critical event and time slice methods, organization of a simulation study, and basic concepts of simulation programming.

CSC 552 Units: 1.5
Fault Tolerant Computing
Issues of fault tolerant computing are discussed, ranging from the choice of fault tolerant architectures, to expert systems for the design and test of integrated circuits. Topics include: design and test of defect free integrated circuits, fault modelling, built in self test, data compression, error correcting codes, simulation software/hardware, fault tolerant system design, CAD tools for design for testability.

CSC 560 Units: 1.5
Design and Analysis of Real-Time Systems
Fundamental issues in the design of real-time operating systems and application software. Typical topics include: real-time scheduling, interrupt driven systems, process communication and synchronization, language requirements for real-time systems, decomosition of real-time requirements into process model, and case studies. A project involving design, implementation and testing of a real-time executive and real-time application software will also be included.
Note: Not open to students registered in or with credit in CSC 460.

CSC 561 Units: 1.5
Multimedia Systems
Introduction to multimedia systems and applications. Topics include multimedia system design issues, representation, processing and retrieval of temporal and non-temporal media types, compression techniques, JPEG and MPEG encoding, multimedia system architecture, operating systems, networking, quality of service and database system issues, object-oriented multimedia programming, user interface, virtual worlds.
CSC 562 - CSC 582A

CSC 562  Units: 1.5
**Distributed Computing**
Recent developments and advanced research topics in the area of distributed computing. Topics include: distributed operating systems, interprocess communications, remote procedure calls, network transparency, file server, execution location, and failure transparency, fault tolerant distributed systems, process replication, load balancing, task migration and performance issues, interconnection strategies, network configurations, problem decomposition, distributed updating of multiple copies, global object addressing, centralized and decentralized control mechanisms, reliability and the reconnection problem, and finally case studies of some of the more significant distributed systems.

CSC 564  Units: 1.5
**Concurrency**
Introduction to the foundations of concurrency theory and the issues of specification and verification of concurrent systems. Topics include models of concurrency such as Petri nets, labelled transition systems, and traces; specification of concurrent systems/programs in formalisms including process algebras, statecharts, Petri nets and temporal logics; verification techniques such as bisimulation and model checking; verification using existing research tools. Case studies will be taken from coordination problems, controller design, communication and security protocols, hardware and user interface design.

CSC 565  Units: 1.5
**Massive Data Sets, Scalability and Concurrency**
A cross section of topics from computer science disciplines, including databases, operating systems, architecture, programming languages and theory, and considers challenges associated with concurrency from multiple perspectives. Students will be exposed to research involving programming paradigms and software practices for concurrent systems, algorithmic techniques for new paradigms, low level mechanisms for the implementation of practical primitives, applications including data mining and cloud computing, systems support for multicore computation, and pedagogy for concurrency in modern curriculum.

CSC 567  Units: 1.5
**Switching, Network Traffic and Quality of Service**

CSC 569  Units: 1.5
**Wireless and Mobile Networks**
The recent developments and advanced research topics in wireless and mobile networks. Topics include: radio propagation models, mobility models, location management, protocols particularly tailored for wireless and mobile networks, and analytical performance evaluation of wireless and mobile networks.

CSC 571  Units: 1.5
**Advanced Databases**
Important and recent developments in databases are covered in detail. Topics include: storage technology, data structures adapted to secondary storage, query optimization, advanced transaction management, parallel or distributed databases, databases and grid computing, multidimensional data and indexes, On-Line Analytic Processing (OLAP), information integration, streaming data, XML and semistructured data, fine-grained access control and anonymization techniques.

CSC 575  Units: 1.5
**Music Retrieval Techniques**
A comprehensive advanced overview of the emerging research area of Music Information Retrieval (MIR). Topics include techniques from signal processing, machine learning, information retrieval, human-computer interaction and software engineering that are applied in the design and development of MIR algorithms and systems. Integration of knowledge from different research areas to solve concrete problems.

CSC 577  Units: 1.5
**Overlay and Peer-to-Peer Networking**
Focuses on the recent developments and advanced research topics in Layer 3 and above and the control plane of the Internet. Topics include: overlay network architectures, peer-to-peer application models, end-to-end control mechanisms, inter- and intra-domain routing protocols, service provisioning, network measurement, and related best current practices on the Internet.

CSC 579  Units: 1.5
**Topics in Artificial Intelligence**
Notes:
- Credit will be granted for only one of CSC 579A, CSC 579B (if taken in the same topic), CSC 579C (if taken in the same topic), CSC 579D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

Topics in Numerical Analysis and Operations Research
Notes:
- Credit will be granted for only one of CSC 584C, CSC 584 (if taken in the same topic), CSC 584A (if taken in the same topic), CSC 584B (if taken in the same topic), CSC 584D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 584D  Units: 1.5
Formerly: 584
Topics in Numerical Analysis and Operations Research
Notes:
- Credit will be granted for only one of CSC 584D, CSC 584 (if taken in the same topic), CSC 584A (if taken in the same topic), CSC 584B (if taken in the same topic), CSC 584C (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 585A  Units: 1.5
Formerly: 585
Topics in Hardware and Computer Architecture
Notes:
- Credit will be granted for only one of CSC 585A, CSC 585 (if taken in the same topic), CSC 585B (if taken in the same topic), CSC 585C (if taken in the same topic), CSC 585D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 585B  Units: 1.5
Formerly: 585
Topics in Hardware and Computer Architecture
Notes:
- Credit will be granted for only one of CSC 585B, CSC 585 (if taken in the same topic), CSC 585A (if taken in the same topic), CSC 585C (if taken in the same topic), CSC 585D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 585C  Units: 1.5
Formerly: 585
Topics in Hardware and Computer Architecture
Notes:
- Credit will be granted for only one of CSC 585C, CSC 585 (if taken in the same topic), CSC 585A (if taken in the same topic), CSC 585B (if taken in the same topic), CSC 585D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 585D  Units: 1.5
Formerly: 585
Topics in Hardware and Computer Architecture
Notes:
- Credit will be granted for only one of CSC 585D, CSC 585 (if taken in the same topic), CSC 585A (if taken in the same topic), CSC 585B (if taken in the same topic), CSC 585C (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 586A  Units: 1.5
Formerly: 586
Topics in Computer Systems and Software
Notes:
- Credit will be granted for only one of CSC 586A, CSC 586 (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586E (if taken in the same topic), CSC 586F (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 586B  Units: 1.5
Formerly: 586
Topics in Computer Systems and Software
Notes:
- Credit will be granted for only one of CSC 586B, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586E (if taken in the same topic), CSC 586F (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 586C  Units: 1.5
Formerly: 586
Topics in Computer Systems and Software
Notes:
- Credit will be granted for only one of CSC 586C, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586E (if taken in the same topic), CSC 586F (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.
CSC 586D  Units: 1.5
Formerly: 586
Topics in Computer Systems and Software
Notes:
• Credit will be granted for only one of CSC 586D, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586E (if taken in the same topic), CSC 586F (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 586E  Units: 1.5
Formerly: 586
Topics in Computer Systems and Software
Notes:
• Credit will be granted for only one of CSC 586E, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586F (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 589A  Units: 1.5
Formerly: 589
General Topics in Computer Science
Notes:
• Credit will be granted for only one of CSC 589A, CSC 589 (if taken in the same topic), CSC 589B (if taken in the same topic), CSC 589C (if taken in the same topic), CSC 589D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 589B  Units: 1.5
Formerly: 589
General Topics in Computer Science
Notes:
• Credit will be granted for only one of CSC 589B, CSC 589 (if taken in the same topic), CSC 589A (if taken in the same topic), CSC 589C (if taken in the same topic), CSC 589D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 589C  Units: 1.5
Formerly: 589
General Topics in Computer Science
Notes:
• Credit will be granted for only one of CSC 589C, CSC 589 (if taken in the same topic), CSC 589A (if taken in the same topic), CSC 589B (if taken in the same topic), CSC 589D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 589D  Units: 1.5
Formerly: 589
General Topics in Computer Science
Notes:
• Credit will be granted for only one of CSC 589D, CSC 589 (if taken in the same topic), CSC 589A (if taken in the same topic), CSC 589B (if taken in the same topic), CSC 589C (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 591  Units: 1.5
Directed Studies
Individual studies under the direct supervision of a faculty member. The content and evaluation must be approved by the department. Note: May be taken more than once for credit in different topics.

CSC 595  Units: 1.5
Research Skills
The main objective is to teach critical skills in order to be a successful researcher. This includes: choosing a research method, preparing for and presenting a research seminar talk, preparing a research proposal, doing literature search, and evaluating constructively research papers, proposals and/or presentations.

CSC 597  Units: 1.5
Industrial Master’s Project
Grading: INP, COM, N, F

CSC 598  Units: 3.0
Master’s Project
Grading: INP, COM, N, F

CSC 599  Units: 6.0
Master’s Thesis
Grading: INP, COM, N, F

CSC 693  Units: 3.0
PhD Candidacy
Grading: INP, COM, N, F

CSC 699  Units: 33.0-34.5
PhD Dissertation
Prerequisite(s): CSC 693
Grading: INP, COM, N, F
Directed Readings
Individual study, under the direction of a participating faculty member, of a topic or topics in cultural, social and political thought.

Notes:
- May be taken more than once for credit in different topics.
- A student in the Program may substitute POLI 690 or SOCI 690 for CSPT 690, with permission of the Director of the program.

Child and Youth Care
School of Child and Youth Care
Faculty of Human and Social Development

CYC 541
Units: 1.5
Historical and Contemporary Theoretical Perspectives in Child and Youth Care
An exploration of historical and contemporary perspectives in child and youth care, including selected works of international pioneers across a range of child and youth care areas of practice. The theoretical and applied elements of the child and youth care perspective will be examined in relation to direct practice. Significant issues and trends will be investigated. All analyses will include critiques informed by cross-cultural and gender sensitive perspectives.

CYC 543
Units: 1.5
Qualitative Research Methods in Child and Youth Care
An overview of approaches to qualitative research that are applicable to child and youth care practice. Students will explore the underlying theoretical assumptions of qualitative research design, compare and apply a range of methodological and conceptual approaches, and practice techniques for generating, analyzing and engaging with various forms of qualitative data.

CYC 545
Units: 1.5
Quantitative Research Methods in Child and Youth Care
Students will be expected to learn and be able to apply the techniques of quantitative research methodology to the field of child and youth care. Topics will include: research design and problem formulation, sampling, measurement and scaling, research ethics, and data analysis.

CYC 546
Units: 1.5
Human Change Processes: From Theory to Practice
A practice based course that requires students to work with individuals and families in simulated role play scenarios. It begins with the micro contexts of families and moves outward to understand how change occurs in communities and organizations. Human change theory and processes form the foundation of the course in order to explore traditional and contemporary theories of change that highlight gendered and cultural differences and similarities.

CYC 547
Units: 1.5
Professional Leadership in Child and Youth Care
Aspects of professional leadership, including ethical practice, teams and teamwork, change management and managing transitions, diversity and cultural competence, transformational learning, learning organizations and environments, strategic thinking and participative management will be explored with special emphasis on the multidisciplinary evolution and transformation of child and youth care settings and programs.

CYC 549
Units: 1.5
Program Design and Development in Child and Youth Care
Learners will engage in exploring a range of issues relevant for program planners and implementers in contemporary human services. Issues such as managing complexity, evidence-based practices, outcome measures, budget restraints, leadership of change and creating organizational cultures will be explored.

CYC 552
Units: 1.5
Ethics in Practice
The primary purpose of this course is to enable students to expand their thinking by critically reflecting on professional and applied ethics from multiple perspectives and traditions. Developing a familiarity with various conceptual resources and ethical decision-making frameworks, discerning the morally relevant features of various ethical dilemmas, appreciating the complexity, plurality and uncertainty of everyday CYC practice, and critically appraising the adequacy of decision-making tools for responding to ethical concerns and challenges are key course objectives.

CYC 553
Units: 1.5 or 3.0
Practicum in Child and Youth Care
The supervised field placement is designed to provide CYC students with an opportunity to apply their skills working with children, youth, families and communities in a supervised setting. Placements which involve individual, family and/or group counseling, can only be undertaken with qualified (i.e. Master’s level) supervisors, and require a minimum commitment of 300 hours (3.0 units).
Note: Those students who have not completed a practicum as part of their undergraduate degree will also be required to enrol in the 3.0 unit course. Regular contact with the course instructor and consultations between the student, placement supervisor and instructor will be required.
Students registered in the 1.5 unit course will be required to complete a minimum of 165 hours. Students registered in the 3.0 course will be required to complete a minimum of 300 hours.
Prerequisite(s):
- 10.5 units of 500-level CYC courses, or
- permission of the school.
Grading: INP, COM, N, F

CYC 554
Units: 1.5
Diversity in Practice
Explores the complexity of diversities that shape the contexts of professional practice with children, youth and their families who come from different communities, represent a wide range of social networks, familial structures and belief systems. The attitudes and skills necessary to equip professionals to be attentive to the socially and culturally diverse populations that they face will be the focus of this course.

CYC 558
Units: 1.5
Applied Research Seminar
Engages students in the process of proposal writing in preparation for either their master’s research thesis or applied research project. Students focus on developing their own topic in conjunction with their supervisor and supervisory committee, through writing that includes a consideration of the Human Research Ethics application, specialized information literacy training, and other issues of writing and research. Students are expected to produce a draft of their research or project proposal.
Note: CYC 553 Practicum in CYC can be taken concurrently.
Prerequisite(s): All of program core courses.

CYC 561
Units: 1.5 or 3
Special Topics in Child and Youth Care Theory
Explores specialized areas of theoretical interest in the field of Child and Youth Care.
Notes:
- May be taken more than once for credit in different topics.
- Topics will vary.

CYC 562
Units: 1.5 or 3
Special Topics in Child and Youth Care Intervention
Students will study models of intervention in child and youth care which are specific to their area of specialization.
Notes:
- May be taken more than once for credit in different topics.
- Topics will vary.

CYC 563
Units: 1.5
Specialized Practicum in Child and Youth Care
In consultation with a faculty adviser, students will select a special setting for advanced work and training. In some settings, this may take the form of a clinical internship. Students will work under supervision and will consult regularly with both the practicum supervisor and faculty course instructor. Students may be required to complete a specialized theory or intervention course in their area of focus prior to undertaking the specialized practicum. Students are required to complete a minimum of 165 hours.
Prerequisite(s): CYC 553.
Grading: INP, COM, N, F

CYC 565
Units: 1.5
Child and Adolescent Development in Context
This course provides a contextualized perspective of child and adolescent development highlighting the importance of culture, historical, social, economic and political contexts to human development. Texts addressing alternative understandings of human development will constitute a significant part of the course.
CYC 590 - Units: 1.5 or 3
Directed Studies in Child and Youth Care
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and School of Child and Youth Care graduate adviser prior to registering in the course.
Note: May be taken more than once for credit in different topics.

CYC 598 - Units: 4.5
Applied Research Project
The student will undertake an applied research project which could, for example, include: (1) program development, (2) program needs assessment, (3) development of an assessment tool/protocol for clients, (4) evaluation of an existing program, (5) cost/benefit analysis of program models, or (6) secondary analysis of existing agency data. The research project should be developed in consultation with the student’s supervisory committee.
Note: Students who have completed CYC 590 may request permission to register in the course.
Prerequisite(s):
- CYC 558, or
- permission of the school
Grading: INP, COM, N, F

CYC 599 - Units: 4.5
Thesis
Specialized research on a topic chosen in consultation with the student’s supervisory committee. The thesis should be an original piece of research that would be suitable for publication in a professional journal or presentation at a professional meeting.
Note: Students who have completed CYC 590 may request permission to register in the course.
Prerequisite(s):
- CYC 558, or
- permission of the school
Grading: INP, COM, N, F

CYC 641 - Units: 3.0
Generating Knowledge in Child and Youth Care
This doctoral seminar invites students to start “thinking with theory” when considering policy, research and practice in the field of Child and Youth Care. Students will be exposed to a range of contemporary social, political and psychological theories. Throughout the course students will be invited to explore how each theory provides different lenses, tools, and approaches, for taking action in the world.

CYC 643 - Units: 1.5
Qualitative Research in Child and Youth Care
This course examines the theoretical underpinnings and strategies commonly used in qualitative methods, with an emphasis on understanding the relationship between the research question and the methodological decisions involved in choosing approaches for data gathering and analysis. Methodologies that will be considered include but are not restricted to: grounded theory, critical theory, ethnography, phenomenology, and narrative research and their epistemological and ontological similarities and differences.
Note: Students who have completed 3 units of graduate-level research coursework (covering research designs, qualitative data analysis, statistical data analysis and reporting) may request permission to register in the course.
Prerequisite(s): Permission of the school

CYC 645 - Units: 1.5
Quantitative Research in Child and Youth Care
Students explore and apply quantitative methods for studying issues related to child and youth care such as clinical practice and program evaluation. Statistical techniques include approaches for use with small sample sizes as well as parametric and nonparametric statistical techniques.
Note: Students who have completed 3 units of graduate-level research coursework may request permission to register in the course.
Prerequisite(s): Permission of the school

CYC 671 - Units: 1.5
Social and Cultural Contexts of Child and Youth Care Policy, Practice, Research and Pedagogy
The course places contemporary CYC issues into social, historical and cultural contexts. Each student identifies a key issue in CYC policy, practice and/or pedagogy and, first, provides a critical perspective on the issue, before developing a change agenda designed to transform the issue and its implications.
Prerequisite(s): CYC 641

CYC 682A - Units: 1.5
Formerly: CYC 682.
Internship in Child and Youth Care Research
Learners may be involved in an ongoing research project in CYC or a closely related field in which they will play an active role in some aspect(s) of conducting the research. Learners will be expected to spend a minimum of 10 hours per week in the practicum and to meet with a faculty supervisor on a regular basis for a minimum of 150 hours.
Note: Learners may not be paid for work on this research project during the time that they are undertaking the practicum course for university credit.
Grading: INP, COM, N, F

CYC 682B - Units: 1.5
Formerly: CYC 682.
Practice Internship in Child and Youth Care
A practice Internship provides opportunities for the student to be actively involved and supervised in a practice setting. Practice settings may include teaching environments, face to face counselling settings, international contexts, or work in policy development with a specific Ministry. Normally students will work for 10 hours per week for a maximum of 150 hours. In addition, students will meet with the practicum co-ordinator throughout the term.
Note: Learners may not be paid for work on this research project during the time that they are undertaking the practicum course for university credit.
Grading: INP, COM, N, F

CYC 690 - Units: 1.5 or 3.0
Directed Studies in Child and Youth Care
Individual study at the doctoral level under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and School of Child and Youth Care graduate adviser prior to registration in the course.
Note:
- May be taken more than once for credit in different topics.
- Pro Forma required.

CYC 693 - Units: 3.0
Candidacy Exams
Students will be expected to complete two candidacy papers (one focused on the substantive area of interest including related theories, and the other on methodology related to their area and topic of interest) and an oral examination before qualifying to undertake PhD research and a dissertation. Within thirty-six months of registration as a provisional doctoral student and at least six months before the final oral examination, a student must pass a candidacy examination.
Grading: INP, COM, N, F

CYC 699 - Units: 16.5
PhD Dissertation
Prerequisite(s): CYC 693.
Grading: INP, COM, N, F

DHUM
Digital Humanities
Faculty of Humanities

DHUM 501 - Units: 1.5
Hours: 3-0
Introduction to Digital Humanities
Surveys and explores intellectual traditions and emergent concerns associated with computing in the arts and humanities. Topics include digital representation, analysis, communication and creation, and involve theoretical considerations and pragmatic approaches.
Notes:
- Credit will be granted for only one of DHUM 501, ENGL 507.
- Typically offered the week before the Digital Humanities Summer Institute (see www.dhisi.org).
**DHUM 502**  
Units: **1.5**  
Hours: **3-0**  
**Core Concepts and Skills**  
Focuses on fundamental concepts and skills in the Digital Humanities, with curriculum offered by the Digital Humanities Summer Institute (see www.dhsi.org) or equivalent topical seminars listed annually by the Faculty of Humanities. Typical offerings include DHI$’s Textual Encoding Fundamentals, Digitisation Fundamentals, Fundamentals of Programming/Coding for Humanities.  
**Note:** Credit will be granted for only one of DHUM 502, ENGL 509 (if taken in the same topic).

**DHUM 503**  
Units: **1.5**  
Hours: **3-0**  
**Remediation and Curation**  
Focuses on intellectual traditions, emergent concerns, and applications related to digital remediation and curation, with curriculum offered by the Digital Humanities Summer Institute (see www.dhsi.org) or equivalent topical seminars listed annually by the Faculty of Humanities. Examples include XSLT, Databases, Drupal, Digital Editions, Pre-Digital Book.  
**Note:** Credit will be granted for only one of DHUM 503, ENGL 509 (if taken in the same topic).

**DHUM 504**  
Units: **1.5**  
Hours: **3-0**  
**Creation, Communication and Dissemination**  
Focuses on intellectual traditions, emergent concerns, and applications related to creation, communication, and dissemination, with curriculum offered by the Digital Humanities Summer Institute (see www.dhsi.org) or equivalent topical seminars listed annually by the Faculty of Humanities. Examples include Multimedia, Social Media, Mobile Computing, Physical Computing.  
**Note:** Credit will be granted for only one of DHUM 504, ENGL 509 (if taken in the same topic).

**DHUM 505**  
Units: **1.5**  
Hours: **3-0**  
**Analysis, Teaching, and Administration**  
Focuses on intellectual traditions, emergent concerns, and applications pertinent to analysis, teaching, and administration, with curriculum offered by the Digital Humanities Summer Institute (see www.dhsi.org) or equivalent topical seminars listed annually by the Faculty of Humanities. Examples include GIS, Text Analysis, Augmented Reality, Computer Gaming, SEASR, Digital Pedagogy, Large Project Planning and Administration.  
**Note:** Credit will be granted for only one of DHUM 505, ENGL 509 (if taken in the same topic).

**DHUM 590**  
Units: **1.5**  
**Directed Reading**

**DR Dispute Resolution**

**School of Public Administration**

**Faculty of Human and Social Development**

Students enrolled in the MA in Dispute Resolution program should also see courses listed as PADR.

**DR 502**  
Units: **1.5**  
**Conflict, Culture, and Diversity**  
Cross-cultural conflicts involve navigating among diverse identities, meanings and ever-changing perceptions. Uses experiential education and dialogue to explore processes, capacities, and tools to bridge cultural conflicts that draw on multiple intelligences. Develops fluency with ways of naming, framing, and taming conflict across cultural contexts; and fluency with culture as it animates and offers creative ways through conflict. Participants will apply theory and research to interpersonal, intercommunal, and international conflicts.

**DR 503**  
Units: **1.5**  
Also: LAW 372  
**Public Policy, Law, and Dispute Resolution**  
Looks at the nature and scale of conflict in civil society and at the primary strategies that society employs to cope with it. Examines a range of contemporary issues of governance. Focuses on the interaction of legislative, judicial, and administrative institutions around two major themes: how programs and public policy are developed and how conflict is managed.  
**Note:** Credit will be granted for only one of DR 503, LAW 372.

**DR 506**  
Units: **1.5**  
**Mediation Processes and Skills**  
This course couples mediation processes with practice in communication skills needed for effective third party facilitative intervention. Using the paradigm of Attitude, Process and Skills, students learn and practice mediation as a dispute resolution tool, integrated with prior learning in conflict analysis and diagnosis. Through lectures, clinical exercises, demonstrations, coached role play, reflective listening skills practice, and group discussions, students connect skills with theoretical and philosophical foundations of mediation required to satisfactorily conclude mediated agreements.  
**Note:** Credit will be granted for only one of DR 506, DR 510 (if taken in the same topic).  
**Prerequisite(s):** DR 501 or PADR 501.

**DR 507**  
Units: **1.5**  
Also: LAW 373  
**International Human Rights and Dispute Resolution**  
Explores linkages between international human rights law, conflict analysis and dispute resolution. Participants explore law from several disciplines including international law, history, philosophy, anthropology, political science and conflict studies. United Nations, national and regional human rights instruments and mechanisms are examined for their efficacy in human rights protection. Concerns of individuals, including women and children, non-state groups and indigenous peoples are addressed. Students develop skills in human rights analysis, advocacy and dialogue.

**DR 508**  
Units: **1.5**  
**Dispute Resolution and Indigenous Peoples**  
Explores the theory and practice of negotiation and mediation within the context of public issues and disputes involving indigenous peoples. Includes a comparative examination of perspectives on negotiation of dominant society and indigenous peoples in Canadian and other settings. A critical approach is taken to the application of dominant society models of negotiation and mediation to conflict situations involving indigenous people, including the examination of historical factors, dynamics of power, and cross-cultural factors.

**Prerequisite(s):**  
• DR 501 or PADR 501; and  
• DR 502; or  
• Permission of the department.

**DR 509**  
Units: **1.5**  
**Dispute Resolution System Design and Public Interest Disputes**  
Introduction to designing, assembling and implementing systems to prevent, manage and/or resolve a series or stream of disputes arising out of a single organization and/or relationships. Examines models of conflict intervention and the design process within organizations. Introduces the theory and practice of negotiating public-interest issues and managing stakeholder conflicts.

**DR 510**  
Units: **1.5**  
**Special Topics in Dispute Resolution**  
A study of selected special topics in Dispute Resolution drawn from the current literature and practice.  
**Note:** May be taken more than once for credit in different topics.

**Prerequisite(s):** Set by department depending upon topic.

**DR 511**  
Units: **1.5**  
**Conflict Specialists as Leaders**  
A role of a conflict specialist is to support organizations and/or groups to replace traditional public policy decision-making processes with collaborative governance processes. As change agents, both dispute resolution process and leadership competencies are required. Students will build and bridge these competencies by learning communication skills, design analysis, and implementation strategies for deliberation and engagement, as well as leadership skills to support change.

**Recommendation(s):** All of DR 502, DR 503, DR 506, DR 509 recommended prior to DR 511.
ECON

Economics

Department of Economics
Faculty of Social Sciences

ECON 500  Units: 1.5
Microeconomic Analysis
An introduction to consumer demand, production and market organization. Topics covered will generally include: consumer demand; duality; choice under uncertainty; intertemporal choice; measuring welfare change; the competitive firm; the two sector model; properties of competitive equilibrium; market structure; and externalities.

ECON 501  Units: 1.5
Macroeconomic Analysis
An introduction to macroeconomic analysis. Long-run growth, business cycles, trade, and fiscal policy are analyzed using dynamic general equilibrium models. Classical and Keynesian models are used to examine inflation, unemployment, the open economy, and monetary policy. Limitations and extensions of the models are discussed and developed.

ECON 506  Units: 1.5
Monetary Theory and Policy
The examination of selected contributions to contemporary monetary theory and policy, and their relationship to macroeconomics.

ECON 510  Units: 1.5
Industrial Organization and Public Policy
Provides a framework in which to examine policy issues with respect to industrial competition and regulation. Begins with the firm and its relation to the market, and then examines issues relating to market structure and regulation. Topics may include: durable goods monopoly; price discrimination; product differentiation; product quality; advertising; predatory pricing; mergers; and the natural monopoly.

ECON 515  Units: 1.5
Labour Economics
Introduction to contemporary empirical and applied theoretical research into labour markets. Topics may include: labour supply; labour demand; human capital; discrimination; labour market dynamics; unemployment; and behaviour of the household.

ECON 516  Units: 1.5
Cost-Benefit Analysis
Methods of cost-benefit analysis with applications to public policy. Develops a normative foundation for policy analysis, addressing issues of efficiency and wealth redistribution together with the techniques of cost-benefit analysis. Focuses on contemporary Canadian policy issues.

ECON 520  Units: 1.5
Economic Development
The processes and problems of development in the economies of the Developing World. Topics may include: theories of economic development; poverty and inequality; gender and development; nutrition and food policies; agricultural and rural development; employment and migration.

ECON 523  Units: 1.5
Formerly 517
The Economics of Canadian Health Care
Analysis of the structure, function and performance of the medical market with emphasis on physician and hospital services.

ECON 524  Units: 1.5
Health Economics
An overview of selected issues in contemporary health economics. Topics may include: microeconomic models of physician and patient behavior, econometric methods relevant to the analysis of health data, health insurance, social determinants of health, and the economics of health-affecting behaviors such as smoking and alcohol use.

ECON 525  Units: 1.5
Public Finance and Fiscal Policy
Seminar in selected topics in fiscal policy and public finance including the incidence and effects of taxation, government expenditure programs and public debt operations.

ECON 529  Units: 1.5
Economics of Finance
The basic theory of finance under uncertainty. Topics include expected utility maximization, state preference theory, analysis of capital asset pricing, and option pricing.

ECON 530  Units: 1.5
Economics of Natural Resources
Seminar in the economics of natural resources including a survey of relevant theoretical literature and selected topics covering problems of resource industries.

ECON 531  Units: 1.5
Environmental Economics
An introduction to environmental economics and policy. Develops a normative foundation for policy analysis, addressing issues of efficiency, intergenerational equity and sustainability. A range of policy regimes are covered, including command-and-control regulation, market-based instruments, and legal liability, with applications to a variety of domestic and international environmental issues.

ECON 545  Units: 1.5
Econometric Analysis
The basics of estimation and hypothesis testing in the classical linear regression model, with empirical exercises using economic data. Topics typically include: testing and imposing linear restrictions; dummy variables; specification error; multicollinearity; measurement error; serial correlation; heteroskedasticity; and simultaneity.

ECON 546  Units: 1.5
Themes in Econometrics
A systematic presentation of the principal themes in econometric inference, such as Maximum Likelihood, Instrumental Variables, Method of Moments, Bayesian Inference, Likelihood Ratio, Wald, and Lagrange Multiplier tests. A discussion of Nonparametric and Semiparametric inference, asymptotic distribution theory and Monte Carlo simulation methods. Application of these methods in empirical projects.
**ECON 547**  
**Units:** 1.5  
**Time-Series Econometrics**  
Time-series theory and its application. Topics may include: ARMA modelling; detecting non-stationarity, structural breaks; multiple unit roots; seasonality; cointegration tests VAR and VECM models.

**ECON 548**  
**Units:** 1.5  
**Applied Econometric Modelling**  
Explores a range of practical estimation and testing issues in the context of different types of econometric models. Topics may include: panel models; nonparametrics and semiparametrics; latent variable models; simultaneous equations models; resampling methods, and the methodology-practice gap.

**ECON 549**  
**Units:** 1.5  
**Computational Methods in Economics and Econometrics**  
An introduction to numerical methods and their application in economics and econometrics. Topics will typically include: iterative fixed point methods, methods for solving problems of nonlinear equations; methods for solving initial value problems and boundary value problems; methods for solving static and dynamic optimization problems; Monte Carlo methods, resampling techniques, and Gibbs sampling.

**ECON 550**  
**Units:** 1.5  
**Game Theory in Economics**  
Provides a game theoretic perspective on interactions between economic agents, covering a variety of game-theoretic modelling techniques and their applications. Topics will generally include: normal and extensive form games; Nash equilibrium and refinements; repeated and sequential games; learning and evolution in games; the Nash bargaining solution; and co-operative games.  
**Note:** Credit will be granted for only one of ECON 550, ECON 540A.

**ECON 551**  
**Units:** 1.5  
**Information and Incentives**  
Introduction to the incentive problems that arise from asymmetric information in a game-theoretic framework. Assumes a knowledge of basic game theory. Topics covered include moral hazard, adverse selection and mechanism design, illustrated in the context of applications drawn from a variety of areas, including industrial organization, public economics and labour.  
**Note:** Credit will be granted for only one of ECON 551, ECON 540C.

**ECON 552**  
**Units:** 1.5  
**Macroeconomic Issues**  
An exploration of contemporary macroeconomic issues using advanced modelling techniques. Topics may include: search and matching theory, unemployment; endogenous innovation; worker displacement due to technological change; the macroeconomic implications of imperfect competition; international macroeconomics; multiple equilibria; coordination; stability; inflation; and finance issues.

**ECON 556**  
**Units:** 1.5  
**Experimental Economics**  
An introduction to the theory and practice of experimental economics using laboratory and field experiments. Topics include: state of the art methods in experimental economics including experimental design, subject sampling, laboratory techniques, and the use of financial incentives. The objectives will be pursued through the development of experiments and a review of the method's application to a number of topics of interest to economists.

**ECON 557**  
**Units:** 1.5  
**Advanced Topics in Econometrics**  
Advanced topics in econometric theory and practice. Topics may include: recent developments in time-series analysis; estimation and testing with panel data; the use of nonparametric and semiparametric techniques; limited and qualitative dependent variables models; modelling financial data; switching-regimes models; specification analysis and model selection; and applications of Bayesian inference.

**ECON 559**  
**Units:** 1.5  
**Directed Studies in Economics**  
Individual titles will be assigned to each lettered section A-Z.  
**Note:** Pro Forma required.

**ECON 598**  
**Units:** 3.0  
**Extended Essay**  
**Grading:** INP, COM, N, F

**ECON 599**  
**Units:** 4.5  
**Thesis**  
**Grading:** INP, COM, N, F

**ECON 693**  
**Units:** 3.0  
**PhD Candidacy Examinations**  
Students enrol in ECON 693 for the duration of their candidature. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed.  
**Grading:** INP, COM, N, F

**ED-D 501**  
**Units:** 1.5  
**Theory of Measurement**  
A study of the main psychometric theories, concepts and procedures associated with the development and analysis of educational and psychological measurement, and the application of these to the development and use of tests in educational and research situations.

**ED-D 503**  
**Units:** 1.5  
**Program Development and Evaluation**  
An examination of the issues, practices, and methods of program evaluation at the institutional, organizational, and classroom levels.

**ED-D 505**  
**Units:** 1.5  
**Advanced Concepts in Human Development**  
A seminar on the science of human development from early childhood through emerging adulthood.

**ED-D 506**  
**Units:** 1.5  
**Topics in Human Development**  
This rotating series of courses expands on content areas and developmental periods introduced in 505.

**ED-D 506A**  
**Units:** 1.5  
**Cognitive Development**  
A seminar with an in-depth focus on cognitive development in the first two decades of life. Topics may include biological bases of cognition, perception, memory, conceptual thought, social cognition, language, reading, mathematics, scientific thinking and intelligence.

**ED-D 506B**  
**Units:** 1.5  
**Social and Emotional Development**  
A seminar with an in-depth focus on social-emotional development and learning. Topics covered may include neurobiological bases, temperament, attachment, theory of mind, self and emotion regulation, family, peer, school, and cultural influences.

**ED-D 506C**  
**Units:** 1.5  
**Adolescent Development**  
A seminar with an in-depth focus on adolescence. Pubertal, neurobiological, familial, social, educational, cultural, and historical influences are explored.
ED-D 506D Units: 1.5  
Early Childhood and Middle Years Development  
A survey of current theory, research, on development from birth through the first decade of life. Biological, familial, social, educational, cultural, and historical influences on child development are explored.

ED-D 508 Units: 1.5  
Theories of Learning in Educational Psychology  
An examination of psychological interpretations of learning from modern behaviourist and cognitive approaches to contemporary conceptions of learning.

ED-D 509 Units: 1.5  
Psychology of Learning and Instruction  
An in-depth analysis of selected issues and contemporary research in the application of psychology to instruction including problem solving, learning processes and strategies, and instructional interventions.

ED-D 514 Units: 1.5  
Assessment in Counselling  
The use of testing, diagnosis, and other aspects of assessment within a counselling perspective for adults, adolescents and children. Topics addressed include: basic concepts in assessment, the relationship between counselling and assessment, ethical issues, diversity, reliability and validity, test selection and administration, test evaluation, a variety of assessments and assessment reports.

Notes:  
- Credit will be granted for only one of ED-D 514, ED-D 591 (if taken in the same topic).
- Students who have Counselling or related background may request permission to register in the course.

Prerequisite(s):  
- Admission to MA program in Counselling Psychology; or  
- permission of the department.

ED-D 515 Units: 1.5  
Advanced Assessment in Special Education  
An intensive course specializing in Level B assessment techniques and intervention-based academic assessment methods, including curriculum-based measurement, to support the educational programming of students with special needs.

Prerequisite(s):  
- ED-D 420 or ED-D 422; and  
- ED-D 402 or ED-D 415; or  
- permission of the department.

ED-D 516 Units: 1.5  
Advanced Intervention in Special Education  
An intensive course specializing in academic interventions for students with special needs. Intervention design, implementation, and monitoring will be involved within the context of special education service delivery.

Prerequisite(s):  
- ED-D 515; or  
- permission of the department.

ED-D 518 Units: 1.5  
Advanced Seminar in Theories of Counselling Psychology  
Contemporary theories and approaches to counselling and psychotherapy for individuals, couples, and families across the lifespan.

Prerequisite(s):  
- Admission to MA program in Counselling Psychology; or  
- permission of the department.

ED-D 519 Units: 1.5  
Advanced Seminars in Counselling Psychology  
Note: Credit will be granted for only one of the following ED-D 519's, ED-D 591 (if taken in the same topic).

Prerequisite(s):  
- Admission to MA program in Counselling Psychology; or  
- permission of the department.

ED-D 519A Units: 1.5  
Child and Adolescent Development and Counselling  
A study of issues and counselling interventions with children and adolescents. Topics include developmental context; identity; assessment; counsellor roles; consultation with teachers, other professionals and parents or guardians; family issues; career/educational planning; and individual and group interventions.

Note: Credit will be granted for only one of ED-D 519A, ED-D 519C, ED-D 519L, ED-D 519R, ED-D 519S, ED-D 519T, ED-D 519U, ED-D 519V, ED-D 519W, ED-D 519X, ED-D 519Y, ED-D 519Z, ED-D 591 (if taken in the same topic).

Prerequisite(s):  
- Admission to MA program in Counselling Psychology; or  
- permission of the department.

ED-D 519C Units: 1.5  
Ethics and Legal Issues in Counselling  
An examination of professional, ethical, and legal issues related to practice and research in counselling. Personal beliefs, values, and biases will be examined, as well as the professional codes and literature of the discipline.

Note: Credit will be granted for only one of ED-D 519C, ED-D 519N, ED-D 519P, ED-D 519R, ED-D 519S, ED-D 519T, ED-D 519U, ED-D 519V, ED-D 519W, ED-D 519X, ED-D 519Y, ED-D 519Z, ED-D 591 (if taken in the same topic).

Prerequisite(s):  
- Admission to MA program in Counselling Psychology; or  
- permission of the department.

ED-D 519H Units: 1.5  
Career Development and Counselling Across the Lifespan  
Lifespan and career development as a dynamic and holistic enterprise. Theories and techniques of career development, assessment, and consultation are explored. The practice of career counselling for diverse populations including work-related issues.

Prerequisite(s):  
- Admission to MA program in Counselling Psychology; or  
- permission of the department.

ED-D 519L Units: 1.5  
Group Counselling  
The conceptualization and practice of group counselling and therapy. Leadership skills will be examined. Particular attention will be given to leadership skills and the foundation and application of experiential learning in groups.

Prerequisite(s):  
- Admission to MA program in Counselling Psychology; or  
- permission of the department.

ED-D 519N Units: 1.5  
Diversity, Culture, and Counselling  
Theoretical and practical understanding of issues related to treatment of psychological trauma. Topics typically include definitions, safety/stabilization, symptoms, disorders, assessment/diagnosis and outcomes.

Prerequisite(s):  
- Admission to MA program in Counselling Psychology; or  
- permission of the department.

ED-D 519P Units: 1.5  
Trauma Counselling  
The study and practice of creative and artistic approaches to counselling. Specific focus may include counselling using art, movement, writing, play, drama and bibliotherapy.

Prerequisite(s):  
- Admission to MA program in Counselling Psychology; or  
- permission of the department.
ED-D 519R Units: 1.5
Indigenous Development and Counselling across Generations
Indigenous concepts and theories of development and growth across the lifespan. Exploration of intergenerational models of development and identity. Topics include child, adolescent and adult growth and change in family, community, and work contexts.
Note: Credit will be granted for only one of ED-D 519R, ED-D 519A, ED-D 519C, ED-D 519D, ED-D 519H, ED-D 519L, ED-D 519N, ED-D 519P, ED-D 519R, ED-D 591 (if taken in the same topic).
Prerequisite(s):
• Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 519S Units: 1.5
Addictions Counselling
A study of addictive behaviour and the change process to understand how addictions develop and how addicted people recover. Topics include concepts and theories of addiction, brain physiology, specific substance and process addictions, controversies, challenges, interventions and treatments for addiction in counselling contexts.
Note: Credit will be granted for only one of ED-D 519S, ED-D 519A, ED-D 519C, ED-D 519D, ED-D 519H, ED-D 519L, ED-D 519N, ED-D 519P, ED-D 519R, ED-D 591 (if taken in the same topic).
Prerequisite(s):
• Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 520 Units: 1.5
Educational Research Apprenticeship
An individualized opportunity for students to develop their research skills by assisting with faculty research or engaging in their own research. Students are expected to spend a minimum of 9 hours a week participating in research activities. Includes a range of potential activities, including but not limited to: data collection, coding, and entering; management of computerized databases; completion of ethics applications; analysis of data; literature search and review; and preparation of materials for publication.
Note: Students may repeat this course, but credit will be granted only once.
Prerequisite(s): Admission to MA program in Counselling Psychology.
Grading: INP, COM, N, F

ED-D 521 Units: 1.5
Theory and Practice in Family Counselling
Theoretical approaches and intervention strategies related to family counselling with diverse clientele. Through discussion, experiential activities, and role playing, students will become familiar with current concepts and techniques.
Prerequisite(s):
• ED-D 522 or permission of the department; and
• admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 522 Units: 3.0
Skills and Practice for Counselling
Provides basic counselling interventions with an emphasis on the therapeutic relationship. Extensive opportunity to role play and to self-reflect on role as counsellor and issues related to boundaries and power. Sequenced skill training, with extensive counselling simulation and supervision of practice in a field setting. Includes direct client contact under the supervision of a qualified professional with diverse client populations.
Note: Students may repeat this course until practicum hourly requirements are met but credit will be granted only once.
Prerequisite(s): Admission to MA program in Counselling Psychology.
Corequisite(s): Either ED-D 518 and ED-D 519N, or ED-D 519C, and ED-D 519L
Grading: INP, COM, N, F

ED-D 523 Units: 3.0
Internship in Counselling
Provides intensive practice in advanced counselling techniques and approaches under the supervision of a professional counsellor in community settings. Lectures focus on case presentations, models of consultation, supervisor-supervisee relationship, roles and responsibilities of health professionals, counsellor identity, professional organizations, record keeping. Two term course.
Note: Students may repeat this course until practicum hourly requirements are met but credit will be granted only once. Enrollment is limited due to availability of placements.
Prerequisite(s):
• ED-D 522; and
• admission to MA program in Counselling Psychology.
Grading: INP, COM, N, F

ED-D 524 Units: 1.5
Facilitation of Counselling Practicum
Preparation for future work as trainer, facilitator, or instructor through practice in facilitating 414 or 417 under the supervision of course instructor. Integration of theory and practice of helping, development of skills through modelling, observing, and coaching, enhancement of relationship and group processes.
Notes:
• May be taken more than once to include facilitation practicum with both a ED-D 414 and ED-D 417 instructor normally to a maximum of 3 units.
• Cannot be used to fulfill elective requirements for program.
Prerequisite(s): Admission to MA program in Counselling Psychology.
Grading: COM, N, F

ED-D 525 Units: 1.5
Indigenous Healing and Spirituality
Indigenous values, worldviews, and spirituality as the foundation for helping and healing. Topics include traditional knowledge, holistic healing, role of elders, and Indigenous spiritual practices.
Prerequisite(s):
• Admission to a master's program in Indigenous Communities Counselling; or
• permission of the department.
Grading: COM, N, F

ED-D 531 Units: 1.5 or 3.0
Formerly: ED-D 531
Concepts and Theory of Organization
Critical examination of the classical, modern, and emerging literature of administrative studies in the organizational context, with emphasis on philosophy of leadership, decision making processes, power and authority, leadership studies, and contemporary issues and perspectives.
Note: Credit will be granted for only one of ED-D 531, ED-D 533.

ED-D 532A Units: 1.5
Former part of 532
Educational Program Leadership
Models for program design and review range from external, objective-based processes to participatory action research. Examines issues of implementation, collaboration, accountability, inclusiveness and responsiveness to community. Offers practical experiences in a range of evaluative methods.
Note: Credit will be granted for only one of ED-D 532A, ED-D 532B, ED-D 532.

ED-D 533 Units: 1.5
Concepts and Theories of Leadership in Learning Contexts
Note: May be taken once for credit in each of the areas listed below.

ED-D 533A Units: 1.5
Politics in Organizations
An examination of politics in educational and related organizations: concepts of influence, authority, power, and control; frameworks for analyzing and understanding politics and policy; actors and agendas; interest and pressure groups; conflict and conflict resolution; the interface of leadership and politics; implications for governance and administrative practice.
Note: Credit will be granted for only one of ED-D 533A, ED-D 533B.

ED-D 533B Units: 1.5
Decision-Making and the Law
Develops awareness of the legal considerations and principles which apply to decision-making in school and other workplaces. Contains introductions to the interface between law, legislation and policy, statutes and the delegation of powers to decide, and the common law principles which govern decision-making by those with statutory authority. An array of case studies is used.
Note: Credit will be granted for only one of ED-D 533B, ED-D 533C.

ED-D 533C Units: 1.5
Servant Leadership
An inquiry into the philosophy of servant-leadership as a vehicle for the development of moral literacy in democratic, caring, serving institutions with an investment in the common good.
Note: Credit will be granted for only one of ED-D 533C, ED-D 591 (if taken in the same topic).
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
</table>
| ED-D 533D   | 1.5   | Leadership  
An examination of general leadership concepts, and practices as they apply to educational institutions, other workplaces, organizations and the community.  
**Note:** Credit will be granted for only one of ED-D 533D, ED-B 533D, ED-B 537C. |
| ED-D 534    | 1.5 or 3.0 | Leadership for School Improvement  
Surveys contemporary thinking about professional learning communities and learning teams, emphasizing how leaders can build and support collaborative and inclusive learning environments in order to effect positive school change.  
**Note:** Credit will be granted for only one of ED-D 534, ED-B 534. |
| ED-D 535    | 1.5   | Formerly: ED-B 535A and 535B  
Global Comparative Perspectives on Leadership and Education  
Explorations of diverse leadership and education theories and practices in school, institutions, workplaces, and/or community across Canada and around the world.  
**Note:** Credit will be granted for only one of ED-D 535, ED-D 535A, ED-D 535B. |
| ED-D 536    | 1.5 or 3.0 | Formerly: ED-B 536  
Philosophy of Leadership  
An examination of the relevant interaction of philosophy and leadership, with a view to clarifying philosophical concepts and theories and their application to the analysis, by individuals in leadership positions, of their own and others’ actions.  
**Note:** Credit will be granted for only one of ED-D 536, ED-B 536. |
| ED-D 537    | 1.5 or 3.0 | Formerly: ED-B 537  
Functions and Processes of Leadership  
**Note:** May be taken once for credit in each of the areas listed below. |
| ED-D 537A   | 1.5 or 3.0 | Formerly: ED-B 537A  
Educational Change  
An analysis of change theory and the processes associated with change in education, with a view to assisting school leaders to facilitate reforms.  
**Note:** Credit will be granted for only one of ED-D 537A, ED-B 537A. |
| ED-D 537D   | 1.5 or 3.0 | Formerly: ED-B 537D  
Instructional Supervision  
Through an analysis of literature in leadership, communication, change and activation, as well as through an analysis of classroom observation techniques, the development of rational organizational patterns of supervision for educational administrators.  
**Note:** Credit will be granted for only one of ED-D 537, ED-B 537D. |
| ED-D 537G   | 1.5 or 3.0 | Formerly: ED-B 537G  
Leadership in Educational Administration  
Analysis of the roles and functions of the school principal, with emphasis upon educational leadership, understanding the breadth and diversity of the position, legal status, designated administrative and managerial responsibilities, and contemporary challenges.  
**Note:** Credit will be granted for only one of ED-D 537, ED-B 537G. |
| ED-D 538A   | 1.5   | Formerly: ED-B 538  
Community Leadership and Adult Learning  
Focuses on leadership and learning strategies in communities and schools that work towards educational, social, environmental, and cultural change. Topics include: inter-connections between school and community; relations of power and social inequity; just learning societies; concepts of democracy, citizenship and governance; critical pedagogy/theory; feminist theory and leadership; aboriginal perspectives on leadership; cross-cultural and anti-racist dialogues; ethics and values in leadership, social learning, collectivity and collaboration.  
**Note:** Credit will be granted for only one of ED-D 538A, ED-D 538B, ED-D 591 (if taken in the same topic). |
| ED-D 538B   | 1.5   | Cultural Leadership and Social Learning through the Arts  
An exploration of the historical and contemporary contributions of arts-based education activities to cultural leadership, activism, and social justice and change across Canada and world-wide.  
**Note:** Credit will be granted for only one of ED-D 538B, ED-D 591 (if taken in the same topic). |
| ED-D 539A   | 1.5   | Formerly: ED-B 539  
Leadership, Learning and Social Justice  
Concepts of social justice and their relationship to leadership in schools, institutions and organizations and community. Focuses on issues of race/ethnicity, gender, class, sexual orientation and ability as enacted in everyday practice. Conceptions of democracy, privilege, power, and citizenship are central. Discussions extend to ecological and global issues of social justice. |
| ED-D 539B   | 1.5   | Leadership, Education and Diversity  
An exploration of the social, cultural, and political complexity of contemporary education in a pluralistic society. Focuses on issues of racism, homophobia, sexism, ableism and how they affect schools, workplaces, and/or communities and society as a whole.  
**Note:** Credit will be granted for only one of ED-D 539B, ED-D 591 (if taken in the same topic). |
| ED-D 540    | 1.5   | Women, Learning and Leadership  
Explores women’s leadership in diverse contexts such as the women’s movement(s), the voluntary sector, community organizations and government.  
**Note:** Credit will be granted for only one of ED-D 540, ED-D 591 (if taken in the same topic). |
| ED-D 541    | 1.5   | Leadership in Rural Education  
An examination of the historical contexts, unique issues, and recent developments surrounding leadership in rural and remote education, globally, nationally, and provincially, including First Nations. Focus is on issues of equitable educational opportunities, recruitment and retention of educators, multi-grade classes, professional isolation, and demands of community-based lifestyle and the benefits of technology. The dearth of rural education research is explored.  
**Note:** Credit will be granted for only one of ED-D 541, ED-D 591 (if taken in the same topic). |
| ED-D 542    | 3.0   | A Comprehensive Investigation of Servant Leadership  
An inquiry, identification and application of the servant leadership-followership philosophy in all formal educational and community organizations. Servant Leadership-followership is a vehicle for the development of moral literacy in democratic, caring institutions and an investment toward the common good.  
**Note:** Credit will be granted for only one of ED-D 542, ED-D 533C, ED-D 591 (if taken in the same topic). |
| ED-D 560    | 1.5   | Statistical Methods in Education  
An introduction to descriptive and inferential statistics to provide the understanding and competence to read and interpret the statistics reported in relevant research and to be able to conduct analyses on educational research data. |
| ED-D 561A   | 1.5   | Formerly: ED-B 561  
Methods in Educational Research  
An introduction to quantitative and qualitative research designs, the research process, the selection and design of data collection instruments and methods, writing and reporting findings, and systematically evaluating and critiquing the quality of research studies. Useful for students preparing to conduct thesis research as well as students who wish to become better readers and consumers of research.  
**Note:** Credit will be granted for only one of ED-D 561A, ED-D 561. |
| ED-D 561B   | 1.5   | Research Methods in Leadership  
Designed to prepare students in Leadership Studies to undertake independent, scholarly research so that they might fulfill the research requirements for the MEd degree in Leadership Studies. Students will become familiar with different lines of inquiry, appropriate methodologies, proposal preparation and the ethics involved in doing research.  
**Note:** Students must complete their ED-D 598 project within the two-term 3.0 unit allotment.  
**Prerequisite(s):** 7.5 units of coursework.  
**Corequisite(s):** ED-D 561B and ED-D 598.
ED-D 562  Units: 1.5
Advanced Statistical Methods in Education
To advance understanding of and competence in handling multivariate data—both the manipulation of data files for use within a statistical program, and the use of statistical programs for exploratory and inferential analyses such as regression, MANOVA and factor analysis.
Note: Students who have completed equivalent prerequisites may request permission to register in the course.
Prerequisite(s):
- ED-D 560, or
- permission of the department.

ED-D 563  Units: 1.5
Qualitative Research Methods
Introduction to various modes of qualitative inquiry; identification and examination of qualitative research methods in a variety of contexts and settings.
Note: Credit will be granted for only one of ED-D 563, ED-D 519B.

ED-D 564  Units: 1.5
Indigenous Research and Program Evaluation
Indigenous worldviews, approaches to research, methodologies, practices and protocols are examined within the context of Indigenous community engagement. Specific topics include community partnerships, research ownership, research process, program evaluation, methods and outcomes. Ethics, reciprocity, and culturally respectful research will be explored.
Prerequisite(s):
- Admission to a master’s program in Indigenous Communities Counselling; or
- permission of the department.

ED-D 568  Units: 1.5
Formerly: 566A
Inclusive Education in the 21st Century
A consideration of historical perspectives and present trends in Special Education theory and practice. Topics considered include the context of special education, economic and legislative issues, families, classification and other assessment issues, teaching practices, social competency, early intervention, quality of life, and ethical and policy issues.
Note: Credit will be granted for only one of ED-D 568, ED-D 566A.

ED-D 569  Units: 1.5
Formerly: 566B
Developmental Psychopathology and Disorders
Empirical and theoretical approaches to childhood disorders, including issues in their classification, etiology, developmental course, and presentation within the school setting. Emphasis will be placed on thinking about childhood disorders within both a developmental and school context. Assessment profiles and intervention strategies will be discussed.
Note: Credit will be granted for only one of ED-D 569, ED-D 566B.
ED-D 610 - EDCI 515

ED-D 610 Units: 1.5
Contemporary Issues in Higher Education
Critically examines the problems and issues that dominate current thought and discussion in higher education in Canada and internationally. Topics considered will include globalization and internationalization, university governance, teaching and learning, the nature of academic work, corporatization of postsecondary institutions, credentialism, and relations between higher education and the state.
Prerequisite(s): Permission of the department.

ED-D 614 Units: 1.5
University Teaching
An extensive review of research and instructional practices at the post-secondtry level. Topics include models of instruction, teaching strategies, course development principles, and assessment practices.
Prerequisite(s): Admission to a graduate program.

ED-D 615 Units: 1.5 or 3.0
Individual Apprenticeship in University Teaching
Students undertake an individualized apprenticeship experience with a sponsoring faculty member. The broad aim of the apprenticeship is to offer students guided practice in university instruction.
Prerequisite(s): Admission to a graduate program.
Grading: COM, N, F

ED-D 620 Units: 1.5
Educational Psychology: Doctoral Apprenticeship in Research
Individualized opportunity for doctoral students to develop advanced research skills by apprenticing in faculty research or extra to dissertation research. Students are expected to spend approximately 9-10 hours a week participating in research activities. The apprenticeship typically involves a range of activities including organization and training of research assistants, submission of an ethics application, management of research databases, data analysis, and preparation and submission of materials for publication and/or presentation.
Note: Students may repeat this course, but credit will be granted only once.
Prerequisite(s):
• Admission to a doctoral program; or
• Permission of the department.
Grading: INP, COM, N, F

ED-D 660 Units: 1.5
Doctoral Seminar in Contemporary Issues in Educational Psychology
A seminar for doctoral students examining contemporary issues in educational psychology. Attention is also given to guidelines for scholarly and professional practice.

EDCI Curriculum and Instruction Studies
Department of Curriculum and Instruction
Faculty of Education

EDCI 509 Units: 1.5
Formerly: ED-A 558A
Development and Implementation of the Curriculum in Art
Application of relevant theories and models to the design and development of school curricula in art.
Note: Credit will be granted for only one of EDCI 509, ED-A 558A.

EDCI 510 Units: 3.0 Hours: 3-0
Formerly: ED-A 570
Research Issues and Studio Development in Art
Review of contemporary art education research issues; development of a teaching credo and proposal; studio exploration linked to current instructional practice.
Note: Credit will be granted for only one of EDCI 510, ED-A 570.

EDCI 511 Units: 1.5 Hours: 3-0
Formerly: ED-A 571
Research in Drawing and Studio Development
Review of literature on the development of drawing; analysis of theory and current teaching practices; an investigation of ideas and approaches through actual engagement in drawing.
Note: Credit will be granted for only one of EDCI 511, ED-A 571.

EDCI 512A Units: 1.5
Formerly: half of 512
Digital Arts
An extensive exploration of digital studio processes focusing on visual expression, graphics, and fine art. Working in the digital studio, students will learn to generate creative ideas, collect resources, produce artwork, and integrate digital and traditional processes using industry-standard software packages. Emphasis on the production and teaching of digital arts for creative, educational and studio environments. No previous computer experience is required.
Note: Credit will be granted for only one of EDCI 512A, EDCI 512.

EDCI 512B Units: 1.5
Formerly: half of 512
Digital Presentation
An extensive exploration of the tools and processes used in presenting studio media in digital formats. Students will learn how to organize existing studio materials, processes, ideas, and resources into dynamic presentation structures using still/motion visuals, text and audio. A strong focus will be given to the production formats required for final graduate presentations.
Note: Credit will be granted for only one of EDCI 512B, EDCI 512.

EDCI 513 Units: 3.0
Community Art Education
Issues related to community art programs that play a role in sociocultural development and raising awareness about aesthetics.

EDCI 514 Units: 1.5
Educational Discourses
An opportunity for engagement in the research community, advancing the development of student’s own capacity for research, and a critical examination of contemporary literature on functional educational concepts, research issues and implications for curriculum and instruction.

EDCI 515 Units: 1.5
Formerly: ED-B 515
e-Research: Harnessing and Understanding Technology in Research
A blended multi-media/research course that focuses on relevant issues involved in using information and communication technologies (ICT) and the Internet for research purposes. In addition to developing some foundational skills, students will learn about methods, techniques, as well as ethical and practical issues.
Note: Credit will be granted for only one of EDCI 515, ED-B 515.

Note: Credit will be granted for only one of EDCI 517, EDCI 518, EDCI 520, EDCI 521, EDCI 523, EDCI 531, EDCI 532, EDCI 533, EDCI 536, EDCI 548, EDCI 549, EDCI 551, EDCI 552, EDCI 554, EDCI 555, and EDCI 558.
EDCI 565 Units: 1.5
Research and Practice of Learning Design
An in-depth look at the research and practice of learning design and its application to technology-enabled interactive learning environments. Students will critically examine theories and principles of learning design, explore how they can maximize the effectiveness, efficiency and appeal of learning experiences for learners; and teach for understanding.

EDCI 566 Units: 1.5
EDUCoaching for Technology Integration
An exploration of principles and models of educational change through professional development coaching within the context of technology adoption theories. Students will actively coach or be coached during this course.

EDCI 567 Units: 1.5
Interactive and Multimedia Learning Theories
An in-depth analysis of theories and applications of multimedia learning in interactive learning environments. Students will explore the latest research, compare, and critique current practices and emerging technologies such as touch input devices, for creating rich educational experiences.

EDCI 568 Discourse on Social Media for Connected and Personalized Learning
Exploration of current research on communities of learning to situate discussion on connected practices for both personalized and professional learning. Critical discourse will focus on the balance of opportunities afforded by connected learning as well as issues such as cyber bullying, safety, and privacy in online environments.

EDCI 569 Units: 1.5
The Distributed, Blended and Open Classroom
An examination of current research and models of distributed learning and the theories that drive successful learning experiences in a variety of configurations such as online, blended, multi-access, and open learning.

EDCI 570 Formerly: EDCI 540
Research in Curriculum and Instruction in the Elementary Grades
Review of the critical issues; analysis of significant research on curriculum development at the elementary school level.
Note: Credit will be granted for only one of EDCI 570, EDCI 570A, EDCI 570B, EDCI 570C, EDCI 570D, ED-E 540.

EDCI 571 Formerly: EDCI 541
Research in Curriculum and Instruction in the Secondary Grades
Review of the critical issues; analysis of significant research on curriculum development at the secondary level.
Note: Credit will be granted for only one of EDCI 571, EDCI 571A, EDCI 571B, EDCI 571C, EDCI 571D, EDCI 571E, EDCI 571F, ED-E 541.

EDCI 572 Formerly: EDCI 558
Development and Implementation of the Curriculum
Application of relevant theories and models to the design and development of school curricula in a specified area.
Note: Credit will be granted for only one of EDCI 572, EDCI 572A, EDCI 572B, EDCI 572C, EDCI 572D, EDCI 572E, EDCI 572F, ED-E 558.

EDCI 574 Units: 1.5
Environmental Education Perspectives
A multi-disciplinary approach to exploring goals for environmental and outdoor education; cultural differences in perceptions of community-environment relationships; the traditional ecological knowledge and wisdom of First Nations Peoples; current issues and trends; the research related to students’ environmental knowledge, attitudes and values; teaching strategies; and assessment techniques. Selected field trips.
Note: Credit will be granted for only one of EDCI 574, ED-E 574.

EDCI 575 Formerly: EDCI 546
Global Education
Explores critical global issues through the strands of environment, development, peace and human rights. Pedagogical concerns vary with student interests and include values education, teaching controversial issues, and dealing with children’s despair about the future.
Note: Credit will be granted for only one of EDCI 575, ED-E 546.

EDCI 576 Units: 1.5
Ecology, Pedagogy, and Practice
Theoretical examination of discourses that may include: the Deep Ecology Movement, Systems Theory, Eco-justice, and Cognitive Science to identify and discuss key issues in a variety of disciplinary areas as these relate to pedagogy and practice.
Note: Credit will be granted for only one of EDCI 576, EDCI 591.

EDCI 577 Units: 1.5
Science, Technology, Society and the Environment: Implications for Teaching
An exploration of the nature and relationships between science, technology, environment and society towards helping learners find possibilities that ensure a continuing future for humankind. Topics include a critical examination of contemporary issues of science and technology, social responsibility and environmental stewardship, how science is experienced in the schools, and expanding the notions of technology and environment encouraging an interdisciplinary STSE approach in education.

EDCI 578 Units: 1.5
Analysis of Quantitative and Mixed Methods Research
An introduction to the understanding, critical analysis, and evaluation of the theoretical and practical issues related to published quantitative or mixed methods research in the field of education.

EDCI 579 Formerly: EDCI 545
Knowing and Learning in Everyday Contexts
Designed to look into the nature of knowing and learning in school and everyday settings and from a variety of perspectives. These perspectives include traditional information processing, Heideggerian cognitive science and artificial intelligence, anthropology, cognitive anthropology, sociology of scientific knowledge, ethnomethodology, and historical and philosophical approaches to the study of human knowing and learning. Reflects recent developments in the understanding of knowing and learning in real-world (non-laboratory) settings.
Note: Credit will be granted for only one of EDCI 579, ED-E 545.

EDCI 580 Formerly: EDCI 580
Qualitative Research Methods
Provides a survey of a variety of qualitative methods, and opportunities for learners to develop competencies in research practices common to qualitative inquiry.
Note: Credit will be granted for only one of EDCI 580, ED-B 580.

EDCI 581 Research Methodologies in Education
An opportunity for students to become familiar with various approaches to research, especially those relevant to their inquiries with special emphasis on the intellectual, social, and cultural contexts and ethics of research.

EDCI 582 Formerly: EDCI 582
Writing as Research
Writing as a mode of inquiry, with particular emphasis on the practice of writing. Includes all forms of interpretive inquiry, especially narrative, phenomenological, hermeneutic and autobiographical inquiry.
Note: Credit will be granted for only one of EDCI 582, ED-B 582.

EDCI 583 Researching with Aboriginal Peoples: Aboriginalizing Research
Research from a First Nations positioning. Aboriginal methodologies, practices and protocols are discussed to illustrate the importance to Aboriginal Peoples and their communities of having control over every aspect of research projects involving them. Students are encouraged to reflect on their own research projects so that their work is ethical, reciprocal and culturally respectful.

EDCI 584 Units: 1.5
Analysis of Quantitative and Mixed Methods Research
An introduction to the understanding, critical analysis, and evaluation of the theoretical and practical issues related to published quantitative or mixed methods research in the field of education.
EDCI 590  
Units: to be determined  
Formerly: EDCI A, EDCI B and EDCI E 590  

Directed Study - Curriculum and Instruction  
Notes:  
• May be taken more than once for credit in different topics.  
• Prerequisite Formally required.  
Prerequisite(s): Permission of the faculty.

EDCI 591  
Units: 1.5 or 3.0  
Formerly: EDCI A, EDCI B and EDCI E 591  

Selected Topics in Curriculum and Instruction  
A variable content course. Normally restricted to course offerings and not individual study.  
Note: May be taken more than once for credit in different topics.

EDCI 597  
Units: 1.5  
Formerly: EDCI A, EDCI B and EDCI E 597  

Comprehensive Examination  
A written and/or oral comprehensive examination, which must be passed as required for individual Master of Education programs.  
Note: Credit will be granted for only one of EDCI 597, EDCI A 597, EDCI B 597, EDCI E 597.

EDCI 598  
Units: 3.0  
Formerly: EDCI A, EDCI B and EDCI E 598  

Project - Curriculum and Instruction  
Grading: INP, COM, N, F.

EDCI 598A  
Units: 1.5  

Project Proposal and Literature Review  
Encourages discussion of alternate approaches to project topics as well as examine the components of a project proposal, especially the features of an effective literature review. The proposal and literature review for the MEd project must be accepted by the 598A course instructor and the student's program supervisor.  
Note: Students who do not complete the course requirements may register a second time for the course. Incomplete course requirements in the second term will result in withdrawal from the program. There are appeal procedures for extenuating circumstances.  
Prerequisite(s): Admission to a Community-based MEd program.  
Grading: COM, INP, N, F.

EDCI 598B  
Units: 1.5  

Project  
The project proposal approved in 598A is to be completed and will include the approved literature review, an analytic and professional reflection on the contributions of the project. A project may be presented in any appropriate form - prose, performance, multimedia, or exhibition for example - but must include a written submission of moderate length. The successful completion of the project requires the approval of the course instructor and the student's program supervisor.  
Note: Students who have completed equivalent prerequisites may request permission to register in the course. Students who do not complete the course requirements may register a second time for the course. Incomplete course requirements in the second term will result in withdrawal from the program. There are appeal procedures for extenuating circumstances.  
Prerequisite(s): EDCI 598A; or  
• admission to a Community-based MEd program.

EDCI 599  
Units: 7.5  
Formerly: EDCI A, EDCI B and EDCI E 599  

Thesis - Curriculum and Instruction  
Grading: INP, COM, N, F.

EDCI 601  
Units: 1.5  

Interdisciplinary Doctoral Seminar  
The purpose of Doctoral Seminar is to create a community of scholars in which faculty and graduate students share and support each other's current research projects.  
Note: May be taken more than once for credit in different topics to a maximum of 6 units.  
Prerequisite(s): Admission to a doctoral program.

EDCI 602  
Units: 1.5  

Doctoral Seminar in Arts Education  
Philosophical and sociological examinations of contemporary issues in arts education.

EDCI 614  
Units: 1.5  
Formerly: 600  
Discourses in Educational Studies  
An opportunity for engagement in the research community, advancing the development of student's own capacity for research, and a critical examination of contemporary literature on functional educational concepts, research issues and implications for curriculum and instruction.  
Note: Credit will be granted for only one of EDCI 614, EDCI 600.

EDCI 617  
Units: 1.5  
Formerly: 642A 642, half of EDCI B 642  
Advanced Reading Processes: Research and Process  
Examines and analyzes research and models of reading, and the processes of reading and reading development.  
Notes:  
• Credit will be granted for only one of EDCI 642, EDCI 642A, EDCI B 642.  
• Students who have completed equivalent prerequisites may request permission to register in the course.  
Prerequisite(s): EDCI 542 or EDCI B 542.
EDCI 681 - Units: 1.5
Advanced Research Design
Explores research methodologies appropriate to specific research problems, questions, and contexts. An examination of the purposes of research, the role of literature review, educational theories, and design of a research question considering the relationship between question and research method.
Note: Students who have completed a master's level research methods course may request permission to register in the course.
Prerequisite(s): Permission of the faculty.

EDCI 690 - Units: 1.5 or 3.0
Formerly: ED-B 690
Directed Studies - Curriculum and Instruction
Under the direction of program supervisors, topics in the area of research interests of doctoral students will be examined, leading to the development of background material for a PhD dissertation.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.
Prerequisite(s): Set by department depending upon topic.

EDCI 691 - Units: 1.5 or 3.0
Formerly: ED-B 691
Selected Topics in Curriculum and Instruction
Issues pertaining to students' research interests and faculty expertise will be examined.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.
Prerequisite(s): Set by department depending upon topic.

EDCI 693 - Units: 3.0
Candidacy Examination - Curriculum and Instruction
Candidacy Examinations which must be passed as required for individual Doctor of Philosophy Programs within the Faculty of Education. Exams will be reviewed and graded by all members of the individual's Doctoral Committee.
Grading: INP, COM, N, F

EDCI 699 - Units: 30.0
Formerly: ED-B 699
PhD Dissertation - Curriculum and Instruction
Prerequisite(s): EDCI 693.
Grading: INP, COM, N, F

ELEC 503 - Units: 1.5
Engineering Design by Optimization
The steepest descent and Newton methods for unconstrained optimization. Golden section, quadratic, cubic and inexact line searches. Conjugate and Quasi-Newton methods. The Fletcher-Reeves algorithm. Application to the design of circuits, control systems, filters, and mechanical systems using optimization techniques. Introduction to constrained optimization. Students are required to complete one project that applies some of the optimization techniques to be studied in the course to an engineering analysis or design problem.
Note: Credit will be granted for only one of ELEC 503, ELEC 403.

ELEC 504 - Units: 1.5
Random Signals
Review of random variables, moments and characteristic functions; random processes, noise models, stationarity, ergodicity, correlation and power spectrum, spectrum measurements, response of linear systems to random inputs, cross-spectral densities, narrow band noise; introduction to discrete time and space processes. Students are required to complete a project.
Note: Credit will be granted for only one of ELEC 504, ELEC 400.

ELEC 509 - Units: 1.0
Seminar
Exposes Master's students to different areas of research through seminar participation and provide a forum for the presentation of graduate student research. Required for all Master's students every year of their program as an addition to the normal program except by departmental permission. One unit of credit shall be given upon completion.
Grading: INP, COM, N

ELEC 511 - Units: 1.5
Error Control Coding
The channel coding problem; coding approaches and characteristics; linear block codes, bounds on codes; finite fields; cyclic, BCH and Reed-Solomon codes; convolutional codes and the Viterbi algorithm; error control in data storage and transmission systems. Students are required to complete a project.
Note: Credit will be granted for only one of ELEC 405, ELEC 511.

ELEC 512 - Units: 1.5
Digital Communications
Source and channel descriptions. Source digitization, entropy and the rate distortion tradeoff, lossless source codes (Huffman and run length codes), optimal and adaptive quantization. Digital modulation techniques, optimal coherent receivers, performance evaluation, the incoherent case. Special topics - case studies, fiber optics, satellite systems, mobile radio systems. Students are required to complete a project.
Note: Credit will be granted for only one of ELEC 512, ELEC 450.

ELEC 514 - Units: 1.5
Design and Analysis of Computer Networks
Note: Credit will be granted for only one of ELEC 514, CENG 461.

ELEC 515 - Units: 1.5
Information Theory
Information theory and its relationship to probability, statistics, and data compression; entropy, relative entropy and mutual information; Huffman coding, arithmetic coding and Lempel-Ziv coding; channel capacity; group codes; generator and parity check matrices; Hamming codes and bound; bounds on the dimension of a linear code; random coding bounds; code construction.

ELEC 516 - Units: 1.5
Advanced Wireless Communications
Statistical fading channel models, digital communications over fading channels, diversity techniques for fading mitigation, channel adaptive transmission, multibeam modulation/OFDM, spread spectrum techniques/CDMA, MIMO systems and space-time coding.
Note: Credit will be granted for only one of ELEC 516, ELEC 519A (if taken in the same topic).

ELEC 517 - Units: 1.5
Software Defined Radio
Software defined radio architectures. Receiver design, radio frequency, digital signal processing, software. Application to analog and digital communications, cognitive radio, dynamic spectrum access. Implementation of software radio algorithms using GNU Radio, Simulink or other platforms. Students are required to complete a project.
Note: Credit will be granted for only one of ELEC 517, ELEC 417, ELEC 539A (if taken in the same topic).

ELEC 519A - Units: 1.5
Formerly: 619A
Selected Topics in Digital Communications
Notes:
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ELEC 519B - Units: 1.5
Formerly: 619B
Selected Topics in Computer Communications
Notes:
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.
ELEC 519C  
Units: 1.5  
Formerly: 619C  
Selected Topics in Secure Communications  
Notes:  
• May be taken more than once for credit in different topics to a maximum of 3 units.  
• Variable content course.

ELEC 522  
Units: 1.5  
Antennas and Propagation  
Antenna and propagation fundamentals, Friis transmission formula, radar equation, Maxwell’s equations for radiation problems, antenna parameters, simple radiators, array theory, mutual coupling, wire and broadband antennas, aperture radiators, scattering and diffraction, multipath propagation and fading, antenna measurement techniques, surface-wave and ionicospheric propagation, microwave and millimeter wave propagation. Students are required to complete a project.  
Note: Credit will be granted for only one of ELEC 522, ELEC 453.

ELEC 524  
Units: 1.5  
Formerly: 624  
Theory and Design of Waveguide Components  
Modern integrated waveguide technologies, numerical analysis aspects and design strategies, mode-matching techniques; commonly used waveguides, transformers and transformer prototypes; phase shifters; power dividers; directional couplers; waveguide filters; multiplexers; polarizers; orthomode transducers; mode converters; angle diversity systems.  
Note: Credit will be granted for only one of ELEC 524, ELEC 624.

ELEC 525  
Units: 1.5  
Advanced Photonics  
Methods to understand optical devices. Following a basic review of electromagnetics, methods for analyzing photonic devices will be provided. Among other applications, these methods will be applied to the analysis of sensors (surface plasmon resonance), high-reflectivity and anti-reflection coatings, Bragg gratings, and semiconductor lasers.

ELEC 526  
Units: 1.5  
Formerly: 623  
Advanced Optical Systems  
Overview of the basic technologies and system design principles for modern optical communications. Component fundamentals, including optical fiber, lasers, transmitters, photodetectors, receivers, passive components, optical amplifiers. Optical modulatoin, demodulation, wavelength multiplexing techniques. Applications to wide-area and access networks, microwave photonics. System impairments related to noise, fiber dispersion, nonlinearity. Students work in groups to design a national-scale broadband system, combining primary course elements and commercial software.  
Note: Credit will be granted for only one of ELEC 526, ELEC 623.

ELEC 529A  
Units: 1.5  
Formerly: 629  
Selected Topics in Microwaves, Millimeter Waves and Optical Engineering  
Notes:  
• May be taken more than once for credit in different topics to a maximum of 3 units.  
• Variable content course.

ELEC 534  
Units: 1.5  
Applications of Digital Signal Processing Techniques  
Note: Credit will be granted for only one of ELEC 534, ELEC 459.

ELEC 535  
Units: 1.5  
Data Analysis and Pattern Recognition  
Statistical data analysis and random processes, ergodicity and stationarity, Bayesian decisions procedures; feature extraction and selection, parametric and non-parametric pattern classification and clustering techniques. Applications to big data, data science, and computer security problems. Students are required to complete a project.  
Note: Credit will be granted for only one of ELEC 535, ELEC 485.

ELEC 536  
Units: 1.5  
Computer Vision  
Overview of the main concepts and methods in computer vision; geometry and physics of imaging, as related to image formation and image acquisition; low-level methods of image analysis, such as filtering, edge detection, feature detection, and segmentation; methods for extracting and representing three-dimensional scene information; motion analysis and algorithms for video understanding. Students are required to complete a project.  
Note: Credit will be granted for only one of ELEC 536, CENG 421.

ELEC 539A  
Units: 1.5  
Formerly: 639A  
Selected Topics in Digital Signal Processing  
Notes:  
• May be taken more than once for credit in different topics to a maximum of 3 units.  
• Variable content course.

ELEC 539B  
Units: 1.5  
Formerly: 639B  
Selected Topics in Image Processing  
Notes:  
• May be taken more than once for credit in different topics to a maximum of 3 units.  
• Variable content course.

ELEC 539C  
Units: 1.5  
Formerly: 679  
Selected Topics in Underwater Acoustic Systems  
Notes:  
• May be taken more than once for credit in different topics to a maximum of 3 units.  
• Variable content course.

ELEC 543  
Units: 1.5  
Design of Digital and VLSI Systems  
Advanced combinational and sequential logic design. Optimization of finite state machines; timing methodologies and synchronization issues. Hardware description languages (HDL); structural and behavioural descriptions, simulations and testbenches, coding styles, design with HDL and FPGA implementation. Design for test: testing concepts, scan-based design and built-in self-test (BIST). Design for high speed: timing analysis, pipelining and retiming. Design for low power: sources of power dissipation, design transformations. Students will be required to complete a project.  
Note: Credit will be granted for only one of ELEC 543, CENG 441.

ELEC 545  
Units: 1.5  
Nanotechnology  
Nanoscale materials and devices. Techniques and tools of nanofabrication and characterization. Properties of low-dimensional materials. Semiconductor nanostuctures, metallic nanoparticles, carbon nanotubes, organic molecules, quantum dots. Applications including nanoelectronics and molecular devices, biotechnology, nanoscale computation, nanomechanical devices and nanophotonics. Students are required to complete a project.  
Note: Credit will be granted for only one of ELEC 545, ELEC 420.

ELEC 546  
Units: 1.5  
Formerly: 642  
Mapping DSP Algorithms onto Processor Arrays  
Note: Credit will be granted for only one of ELEC 546, ELEC 642.

ELEC 547  
Units: 1.5  
Electronic Devices  
Study of the operation of bipolar and field-effect devices in VLSI design. Study of photonic and opto-electronic devices used in transmission, modulation, demodulation and receivers. Principles, construction and design of lasers and their applications. Study of display devices, thin-film devices, imaging devices, transducers and micromachines and their interfacing. Sensor arrays and related system design. Students are required to complete a project.  
Note: Credit will be granted for only one of ELEC 547, ELEC 412.
ELEC 548 Units: 1.5  
Cyber-System Security  
Introduction to abstract algebra and finite field arithmetic. Hardware attacks and mitigation techniques. Hardware trojans and hardware trojan detection techniques. Trusted design in FPGAs. Security in embedded systems. Design for hardware trust. Security and testing. Crypto-processors and design for security. Students will be required to complete a project.

Note: Credit will be granted for only one of ELEC 548, CENG 448.

ELEC 549A Units: 1.5  
Formerly: 688  
Selected Topics in Electronics  
Notes:
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

ELEC 549B Units: 1.5  
Formerly: 649B  
Selected Topics in VLSI Design  
Notes:
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

ELEC 553 Units: 1.5  
Introduction to Parallel and Cluster Computing  
Overview of massively parallel and cluster computers. Processing models (shared memory versus message passing). Processes and threads. Standard algorithms utilizing parallelism. Matrix and vector operations. N-body problems, collective communications. Parallel application environments MPI and OpenMP. Includes significant exposure to parallel applications including developing and coding of sample parallel codes. Students are required to complete a project.

Note: Credit will be granted for only one of ELEC 553, CENG 453.

ELEC 559A Units: 1.5  
Formerly: 659A  
Selected Topics in Robotics  
Notes:
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

ELEC 559B Units: 1.5  
Formerly: 659B  
Selected Topics in Automatic Control  
Notes:
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

ELEC 564 Units: 1.5  
Neural Networks and Their Implementation  
Biological inspiration, historical background, learning in neural nets (backpropagation, hebbian, etc.), single- and multi-layer networks, associative memories, classification and clustering models, recurrent networks. Neural network technology, implementation software and hardware technologies, algorithm definitions, computational requirements, solution methods, parallel processing hardware. VLSI and optical implementations of neural networks.

ELEC 567 Units: 1.5  
Advanced Network Security  
Presents, from a practical perspective, underlying principles and techniques of network security. Students will be exposed to ethical hacking, and penetration testing. Various protection methods, used in practice to detect and respond to malicious network attacks, will be presented. Students will also learn how to implement successful security policies and defense mechanisms and strategies, with a particular focus on firewalls, intrusion detection and response, virtual private networks, and biometrics technologies.

ELEC 568 Units: 1.5  
System-on-Chip Engineering for Signal Processing  
Design and System-on-Chip (SOC) implementation for signal processing applications. SOC design and testing methodologies, Platform-based design, Intellectual Property (IP) reuse, and built-in self-test. Controlling power consumption in SOC implementations. SOC multi-technology integration of analog and digital electronics, sensors and MEMS. Students are required to complete a project.

Note: Credit will be granted for only one of ELEC 568, ELEC 466.

ELEC 569A Units: 1.5  
Formerly: 669  
Selected Topics in Computer Engineering  
Notes:
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

ELEC 570 Units: 1.5  
Computer Forensics Methodologies  
Digital forensics notions and techniques used in the investigation of cybercrimes. Legal awareness of computer security and forensics, evidentiary process techniques, computer forensics methodologies with an emphasis on computer incident response and Information Technology (IT) systems’ protection. Ethics, rules of evidence, effective communications, search and seizure relative to privacy legislation. Threats, how they can be detected, and controls to reduce the likelihood of their occurrence.

Prerequisite(s): ELEC 567.

ELEC 571 Units: 1.5  
Underwater Acoustic Systems  

ELEC 572 Units: 1.5  
Security, Privacy, and Data Analytics  
Explores the underlying theoretical foundations of information security and privacy issues from an engineering perspective. Applications of information-theoretic concepts, techniques, and methods to the problem of quantifying achieved levels of security and privacy in larger-scale systems in the presence of adversaries. Students are required to complete a project.

Prerequisite(s): ELEC 567.

ELEC 573 Units: 1.5  
Formerly: 603  
Advanced Engineering Design by Optimization  

Notes:
- Credit will be granted for only one of ELEC 573, ELEC 603.
- Students who have completed equivalent prerequisites may request permission to register in the course.

ELEC 574 Units: 1.5  
Practice of Information Security and Privacy  
Aims to present a holistic view of various security engineering topics through practical case studies. Topics include enterprise security architecture, security threat and risk assessment, education and awareness, monitoring, investigation and forensics, application security, media handling and intellectual property, privacy, physical and environmental security, and business continuity planning. Also introduces information security-related certification and relevant professional associations. Students are required to complete a project.

Note: Credit will be granted for only one of ELEC 574, SENG 460.

ELEC 581 Units: 1.5  
Power Electronics  
Characteristics of power semiconductor switching devices, e.g., silicon controlled rectifiers, bipolar and MOS power transistors, insulated gate bipolar transistors, gate-turn-off thyristors. Basic principles of phase controlled converters, dc to dc choppers, dc to ac inverters (square wave and pulse width modulated), switching power supplies, resonant converters. Applications to communication and computer power supplies, electric drives, induction heating, etc.
ELEC 583 - Digital Video Processing
Units: 1.5
Directed Study
Graduate course in the Electrical Engineering program administered by the Faculty of Graduate Studies. A wide range of topics will be available.
Notes:
• May be taken more than once for credit in different topics.
• Prerequisite(s): Permission of the department.
ELEC 584 - Dynamics and Control of Switched Mode Power Supplies
Units: 1.5
Prerequisite(s):
Permission of the department.
• May be taken more than once for credit in different topics.
ELEC 585 - Motor Drive Dynamics
Units: 1.5
Directed Study
Graduate course in the Electrical Engineering program administered by the Faculty of Graduate Studies. A wide range of topics will be available.
Notes:
• May be taken more than once for credit in different topics.
• Prerequisite(s): Permission of the department.
ELEC 586 - Multiresolution Signal and Geometry Processing With C++
Units: 1.5
Directed Study
Graduate course in the Electrical Engineering program administered by the Faculty of Graduate Studies. A wide range of topics will be available.
Notes:
• May be taken more than once for credit in different topics.
• Prerequisite(s): Permission of the department.
ELEC 589A - Selected Topics in Power Electronics
Units: 1.5
Directed Study
Graduate course in the Electrical Engineering program administered by the Faculty of Graduate Studies. A wide range of topics will be available.
Notes:
• May be taken more than once for credit in different topics.
• Prerequisite(s): Permission of the department.
ELEC 590 - Numerical Techniques in Electromagnetics
Units: 1.5
Directed Study
Graduate course in the Electrical Engineering program administered by the Faculty of Graduate Studies. A wide range of topics will be available.
Notes:
• May be taken more than once for credit in different topics.
• Prerequisite(s): Permission of the department.

- Credit will be granted for only one of ENGL 507, ENGL 590 (if taken in the same topic).
- May be taken more than once for credit in different topics.
ENTC
Entrepreneurship Certificate
Peter B. Gustavson School of Business

ENTC 510  Units: 1.5
Entrepreneurship Searching and Screening
Provides students with the tools to identify ideas for new ventures through systematic searching. Screening tools and techniques enable students to distinguish between a good idea and a good opportunity. Topics for the course include opportunity identification, opportunity analysis and proof of concept. Students will utilize criteria to successfully screen opportunities and recognize personal criteria that can be used in evaluating new ventures and innovation strategies.
Prerequisite(s):  •  Admission to Graduate Certificate program in Entrepreneurship, or  •  permission of the school.

ENTC 520  Units: 1.5
Entrepreneurship Planning and Financing
Develops the student's ability to tell the "story" of a new venture idea with just enough facts and details to convey to investors that the business is viable. Topics for the course include strategies for commercialization, entrepreneurial finance and securing and protecting resources. Students will study how to raise money strategically and how to work with various potential investors and asset classes.
Prerequisite(s):  Admission to Graduate Certificate program in Entrepreneurship.
Pre- or Corequisite(s): ENTC 510.

ENTC 530  Units: 1.5
Entrepreneurship Set-up and Launch
Focuses on systems and models that enable the entrepreneur to maximize the business operating environment. Operations analysis tools and methodology are presented to assist in designing, planning, and controlling operations. Topics for the course include securing commitment, entrepreneurial marketing and communications, entrepreneurial systems and exit strategies; gain strategic and tactical skills to launch and operate a new company with a limited budget for the first twelve to eighteen months of a company's life.
Prerequisite(s): Admission to Graduate Certificate program in Entrepreneurship.
Pre- or Corequisite(s): ENTC 520.

ENTC 540  Units: 1.5
Entrepreneurship Growth and Context Expertise
Enables students to grow their own entrepreneurial companies by emphasizing innovation and value capture in a dynamic environment. Topics for the course include managing growth and change and entrepreneurs as global citizens. Students will choose one of the following four special topics of focus for the final third of the course: (1) Technology-based ventures; (2) service-based ventures; (3) Internet-based ventures; or (4) doing business in China.
Prerequisite(s): Admission to Graduate Certificate program in Entrepreneurship.
Pre- or Corequisite(s): ENTC 530.

ENTD
Entrepreneurship Diploma
Peter B. Gustavson School of Business

ENTD 590  Units: 3.0
Entrepreneurship Practicum and Directed Studies Seminar
Provides a practical opportunity to apply all student entrepreneurial knowledge and skills from the four courses that constitute the Graduate Certificate in Entrepreneurship. Students will implement a business plan for a new venture or an existing company. Through journals, reports, discussions and faculty mentoring, students will conduct both personal and situational analysis in the entrepreneurial environment in which they launch and operate their new business or new value creation project.
Prerequisite(s):  •  All of ENTC 510, ENTC 520, ENTC 530, ENTC 540; and  •  admission to Graduate Diploma program in Entrepreneurship.

EOS
Earth and Ocean Sciences
School of Earth and Ocean Sciences
Faculty of Science

EOS 503  Units: 1.5
Global Biogeochemical Cycles
Tracks the fate of organic matter from its formation (primary production) through its transformation and destruction during transport, depositional, and diagenetic remineralization processes. Global carbon, nitrogen, phosphorus, and sulphur cycles are discussed. Emphasis is placed on describing the fluxes of nutrients and other major compounds within soils, and the sedimentary and water columns, and across their interface.

EOS 504  Units: 1.5 or 3.0
Selected Topics in Geochemistry
Topics will be selected from the fields of solid earth, organic, marine, atmospheric and planetary geochemistry and biogeochemistry. Examples include geochemical tracers in oceanography and climate, ocean biogeochemical processes, environmental geochemistry, trace element and isotope geochemistry, hydrosphere-lithosphere interactions and high-temperature geochemistry.
Note: May repeat with a different content (offered as EOS 504A, 504B, 504C, 504D).

EOS 508  Units: 1.5
Marine Geology
A seminar course covering modern processes of marine geology, including depositional processes and diagenesis of marine sediments. Examines a range of depositional environments: fjord and coastal shelf, slope, and oceanic; with consideration of the data obtained from DSDP and ODP drilling.

EOS 510  Units: 1.5
Plate Tectonics: the Geological Record
An examination of the processes of plate tectonics as revealed by the geological record, including Precambrian evolution of cratons; rifts and passive margins; convergent margins and orogens; plate motions through time.

EOS 511  Units: 1.5
Plate Tectonic Processes
An overview of plate tectonic regimes with emphasis on physical processes and geophysical aspects related to the evolution of the Earth's plate system. Organized primarily as seminars and discussions, supplemented by special lectures by faculty and adjuncts.

EOS 513  Units: 1.5
Advanced Igneous and Metamorphic Petrology
A seminar style course focusing on advanced topics in igneous and metamorphic petrology and how the tools of petrology can be used for geodynamic reconstructions.

EOS 516  Units: 1.5
Formerly: EOS 516A
Ocean Acoustics
An introduction to the ocean as an acoustic medium, sound sources in the ocean, sound propagation in deep and shallow water, reflection and transmission processes at ocean boundaries, and ambient noise. Particular focuses can include acoustic signal processing, numerical propagation modeling, source localization, and ocean acoustic inversion.
Note: Credit will be granted for only one of EOS 516, EOS 516A.

EOS 518  Units: 1.5 or 3.0
Selected Topics in Earth, Ocean and Atmospheric Sciences
This course examines selected research topic(s) from the fields of geology, oceanography, and/or atmospheric science. Course content will vary depending on faculty availability and interests.
Note: May repeat with a different content (offered as S18A, S18B, S18C, S18D).

EOS 519  Units: 1.5
Selected Topics in Geophysics
Examples of topics include geodynamics or continuum mechanics with geological applications, time series analysis with geophysical applications, seismic data processing, well log analysis, environmental and engineering geophysics, and geophysics of the continental crust.
Note: May repeat with a different content (offered as S19A, S19B, S19C and S19D).

EOS 523  Units: 1.5
Seismology
Theoretical and practical aspects of seismic wave propagation, earthquake seismology, and processing and interpretation of reflection and refraction data.

EOS 525  Units: 1.5
Research Frontiers in Earth and Ocean Science
This interdisciplinary Earth and Ocean Sciences course examines, in detail, global topics that are current, significant and which require input and integration across diverse disciplines. The specific topics change annually and the subject is team-taught by several SEOS/UVic faculty members.
EOS 526  Units: 1.5  Geophysical Inverse Theory
Inverse theory and its applications in Earth and Ocean Sciences. Topics include non-uniqueness, general linear least-squares, singular-value decomposition, regularization, linearization, global inversion, Bayesian inversion, and Markov-chain Monte Carlo methods. Applications will be drawn from the research literature and include topics such as inversion of seismic, acoustic and geo-electromagnetic data, tomography and matched-field inversion.

EOS 531  Units: 1.5  Physical Oceanography
Physical properties of sea water, equation of state, gravitational stability, large-scale ocean currents, meridional distribution of salinity and temperature, surface heat budgets, water masses, estuary flows.

EOS 538  Units: 1.5  Aqueous Geochemistry and the Environment
Major aspects of the global water cycle, sources, sinks of chemical elements present in aquatic systems, weathering reactions, solution geochemistry of oxic and anoxic environments in natural aquatic systems (rainwaters, ground waters, rivers, lakes, estuaries and oceans). Other topics include the application of natural and anthropogenic tracers to geochemical problems with aquatic systems.
Note: Credit will be granted for only one of EOS 538, EOS 425.

EOS 550  Units: 1.5  The Climate System
Studies of the Earth's climate require an understanding of the intimate links between the hydrosphere, atmosphere, cryosphere and biosphere. Basic theories of the dynamics of ocean and atmosphere. The physics and biogeochemistry of coupled models are examined with emphasis on simple intuition-building mathematical models as well as discussion of large computer models.

EOS 551  Units: 1.5  Introductory Dynamic Meteorology
An introduction to the dynamics and thermodynamics of rotating atmospheres. Topics include: equations of motion, circulation theorems, geostrophy and quasigeostrophy, boundary layer dynamics, waves in the atmosphere, barotropic and baroclinic instabilities, and the general circulation of the atmosphere.

EOS 562  Units: 1.5  Mathematical Tools for Earth, Ocean and Atmospheric Sciences
Selected topics to provide training in mathematical techniques and tools used in ocean and earth systems data analysis and numerical modeling. Examples of topics are time-series analysis, statistical prediction and analysis, and numerical finite-difference, finite-element and spectral modeling techniques.
Note: May repeated with different content (offered as S62A, S62B, S62C, S62D).

EOS 580  Units: 1.0 to 3.0  Directed Studies
Designed to enable students to pursue individual interests.
Note: May be taken more than once for credit in different topics.

EOS 599  Units: to be determined*  MSc Thesis
The thesis or dissertation requirement for advanced degrees applies to all students in the School. Students must enrol in EOS 599 in their first term and remain enrolled until their research requirements have been completed.
* Normally 9 units.
Grading: INP, COM, N, F

EOS 693  Units: 3.0  PhD Candidacy Examination
Students must enrol in EOS 693 in their first term and remain enrolled until their candidacy requirements have been completed, normally within the first two years of a PhD program. A pre-candidacy committee meeting must precede the formal candidacy exam.
Corequisite(s): EOS 699
Grading: INP, COM, N, F

EOS 699  Units: to be determined  PhD Dissertation
The thesis or dissertation requirement for advanced degrees applies to all students in the School. Students must enrol in EOS 699 in their first term and remain enrolled until their dissertation requirements have been completed.
Corequisite(s): EOS 693
Grading: INP, COM, N, F

EPHE  Exercise Science, Physical and Health Education

School of Exercise Science, Physical and Health Education  Faculty of Education

EPHE 500  Units: 0  Research Seminar
An examination of contemporary research, theoretical, and practical issues in Exercise Science Physical and Health Education.
Grading: INP, COM, N, F

EPHE 561  Units: 1.5  Current Issues in Leisure Services
Addresses the problems, challenges and opportunities facing the recreation-leisure service professional. Focus on concepts, theories and historical framework of leisure; nature and scope of the profession.
Note: Credit will be granted for only one of EPHE 561, PE 561.

EPHE 562  Units: 1.5  Administrative Planning Process
Examination of the planning process as it exists within federal, provincial, regional and municipal government recreation departments as well as not-for-profit and private sector leisure delivery organizations. Role of the recreation manager-administrator as leader, team member and facilitator.
Note: Credit will be granted for only one of EPHE 562, PE 562.

EPHE 563  Units: 1.5  Formerly: PE 563  Community Leisure Service Development
Exploration of the function and purpose of leisure service development as a community based function. Focus on the development and use of other social service organizational models.
Note: Credit will be granted for only one of EPHE 563, PE 563.

EPHE 570  Units: 1.5  Formerly: PE 570  Skill Acquisition in Physical Education and Sport
A review of learning theories and principles as they pertain to the acquisition and retention of motor skills; the neural mechanisms involved in the learning and control of motor patterns; information processing in human performance; detailed study of research on memory, attention, retrieval systems, and movement control.
Note: Credit will be granted for only one of EPHE 570, PE 570.

EPHE 572  Units: 1.5  Formerly: PE 572  Physiology in Physical Education and Sport
The study of physiological basis for sport performance and fitness. The assessment of physiological status and the rationale for the prescription of exercise programs.
Note: Credit will be granted for only one of EPHE 572, PE 572.

EPHE 573  Units: 3.0  Formerly: PE 573  Research Methods
An overview of the qualitative and quantitative research approaches specific to the various disciplinary areas in the School of Exercise Science, Physical and Health Education. Underlying assumptions of both qualitative and quantitative research are discussed and the respective research processes are reviewed. Other topics include: the role of the researcher, selecting and developing a research problem; reviewing the literature; developing research hypotheses; issues in measurement; data collection issues, writing research proposals; research ethics; and communicating the results of research.
Note: Credit will be granted for only one of EPHE 573, PE 573.

EPHE 574  Units: 1.5  Formerly: PE 574  Administration of Physical Education, Recreation and Sport
After presenting a theoretical base for administrative and organizational theories, a link will be made to specific situations in the fields of physical education, recreation and sport.
Note: Credit will be granted for only one of EPHE 574, PE 574.
EPHE 575 Units: 1.5  
Formerly: PE 575  
Applied Sport Psychology  
Provides students with a further understanding of concepts and principles underlying the field of sport psychology. Provides a basis for the use of mental training techniques such as imagery, self-talk, feedback, and focusing to improve sport performance and experiences.  
Note: Credit will be granted for only one of EPHE 575, PE 575.

EPHE 576 Units: 1.5  
Formerly: PE 576  
Teaching and Coaching Effectiveness in Physical Education and Sport  
A review of current models of effective teaching and coaching; observation and coaching systems; analysis of teaching and coaching behaviours; a review of current research.  
Note: Credit will be granted for only one of EPHE 576, PE 576.

EPHE 577 Units: 1.5  
Formerly: PE 577A or PE 577  
Research Methods and Techniques in Coaching Studies  
The development of research skills required to interpret the literature related to coaching and sport performance and develop a project proposal as part of the requirements for the degree.  
Notes:  
- Credit will be granted for only one of EPHE 577, PE 577, PE 577A.  
- Taught in summer only.  
Prerequisite(s): Admission to MEd program in Coaching Studies.

EPHE 578 Units: 1.5  
Formerly: PE 578  
Biomechanics  
Note: Not open to students with credit in PE 578.

EPHE 579 Units: 1.5  
Formerly: PE 577B or PE 579  
Current Issues in Coaching Studies  
Identification and selection of issues in coaching and sport for presentation, discussion and resolution. As leaders in sport, students will consider issues from both a content perspective and in the context of beliefs and values.  
Note: Credit will be granted for only one of EPHE 579, PE 577B, PE 579.

EPHE 580 Units: 1.5  
Formerly: PE 580  
Physiological Issues in Physical Activity and Health  
Selected issues and research examining the physiological responses and adaptations to exercise, especially as they relate to performance and/or health.  
Note: Credit will be granted for only one of EPHE 580, PE 580.

EPHE 581 Units: 1.5  
Psychological Issues in Physical Activity and Health  
Examines selected current psychological issues affecting individual and group involvement in the different forms of physical activity and how these interact with performance and health from childhood to the senior years. Research in the field will be examined to assist the understanding of current beliefs and practices.  
Note: Credit will be granted for only one of EPHE 581, PE 581.

EPHE 582 Units: 1.5  
Formerly: PE 582  
Neuroscience in Physical Activity and Health  
A seminar on issues and research in neuroscience related to motor control across the lifespan and in typical and atypical populations.  
Note: Credit will be granted for only one of EPHE 582, PE 582.

EPHE 583 Units: 1.5  
Formerly: PE 583  
Issues in Health Promotion and Wellness  
Issues, research and values in health promotion and wellness related to physical activity. Topics may include community-based research in education, health, recreation and allied social service settings; social determinants of health and physical activity; and theory and practice of programs and policies affecting health, wellness and physical activity.  
Note: Credit will be granted for only one of EPHE 583, PE 583.

EPHE 584 Units: 1.5  
Formerly: PE 584  
Pedagogical Issues in Physical Activity and Health  
Current pedagogical research that influences national and provincial physical activity policies, school-based physical education programs and community-based physical activity programs.  
Note: Credit will be granted for only one of EPHE 584, PE 584.

EPHE 585 Units: 1.5  
Formerly: PE 585  
Qualitative Research Genres Applied to Education, Health and Society  
Examines issues surrounding the development of research representations that inform issues in education, health and society. A core component of the course will be to develop, gather data and report on a community-based inquiry project. Qualitative genres based on different modes of inquiry will be explored and applied in a student developed inquiry project.  
Note: Credit will be granted for only one of EPHE 585, PE 585.

EPHE 586 Units: to be determined  
Formerly: PE 586  
Directed Study  
Notes:  
- May be taken more than once for credit in different topics.  
- Pro Forma required.  
Prerequisite(s): Permission of the school.

EPHE 587 Units: 1.5 or 3.0  
Formerly: PE 591  
Selected Topics in Exercise Science, Physical and Health Education  
A variable content course.  
Notes:  
- May be taken more than once for credit in different topics.  
- Pro Forma required.

EPHE 588 Units: 1.5  
Formerly: PE 598  
Comprehensive Examination - Exercise Science, Physical and Health Education  
Comprehensive examination which must be passed as required for individual Master of Education programs within the Faculty of Education.  
Note: Credit will be granted for only one of EPHE 597, PE 587.  
Grading: INP, COM, N, F

EPHE 589 Units: 3.0 - 4.5  
Formerly: PE 599  
Project - Exercise Science, Physical and Health Education  
Note: Not open to students with credit in PE 598.  
Grading: INP, COM, N, F

EPHE 590 Units: to be determined  
Formerly: PE 599  
Thesis - Exercise Science, Physical and Health Education  
Note: Not open to students with credit in PE 599.  
Grading: INP, COM, N, F

EPHE 673 Units: 3.0  
Doctoral Seminar  
Doctoral students will become engaged in the research community, advance the development of their own capacity for research, and gain a deeper understanding and appreciation of multiple approaches to the study of physical activity. Topics include: current research in Exercise Science, Physical & Health Education, critical issues in research, the need for knowledge translation and dissemination, and the critical examination of students’ emerging research questions.

EPHE 690 Units: 1.5 or 3.0  
Directed Studies  
Research topics will be pursued at the doctoral level under the direction of one or more faculty members.  
Notes:  
- May be taken more than once for credit in different topics to a maximum of 6 units.  
- Pro Forma required.

EPHE 693 Units: 3.0  
Candidacy Exam - Kinesiology  
Grading: INP, COM, N, F

EPHE 699 Units: 18.0  
PhD Dissertation - Kinesiology  
Prerequisite(s): EPHE 693.  
Grading: INP, COM, N, F
## Environmental Studies
### School of Environmental Studies

### Faculty of Social Sciences

</table>
FORB

Forest Biology
Department of Biology
Faculty of Science

FORB 515 Units: 1.5
Myocology
Systematics and life strategies of fungi, tracing evolution of
extant species using molecular approaches, fungal
molecular genetics, evolution of sexual processes in fungi,
unique fungal biochemical processes.
Notes:
• Credit will be granted for only one of FORB 515, BIOL
  415C.
• A combined undergraduate and graduate course.
  Please contact instructor for more information.

FORB 527 Units: 1.5
Advanced Plant Biochemistry and Biochemical
Ecology
See BIOL 458. An additional research paper or presentation
is required.

FORB 538 Units: 1.5
Also: BIOL 538
Nutrient Cycling and Prokaryotes
An introduction to prokaryotes (bacteria and archaea) and
their role in nutrient cycling in forests, lakes and oceans.
Diversity and evolution of populations and communities of
prokaryotes and their role in the major biogeochemical
cycles: carbon, nitrogen, sulfur. Genetic, biochemical,
physiological and ecological aspects of processes such as
nitrogen fixation and methanogenesis; design of
experimental approaches to assess cycling of elements in
forests, lakes and oceans by prokaryotes.
Notes:
• Credit will be granted for only one of FORB 538, BIOL 438,
  BIOL 538.
• A combined undergraduate and graduate course.
  Please contact instructor for more information.

FORB 549 Units: 1.5
Individual Study in Forest Biology
Notes:
• May be taken more than once for credit in different
topics.
• Pro Forma required.

FORB 560 Units: 1.5
Forest Biology Seminar
Student and guest seminars on selected topics in forest
biology and forest biotechnology and regeneration.
Required of all graduate students in forest biology every year
of their degree program (except by departmental
permission) but will not count as part of their minimum
graduate course requirement.
Grading: INP, COM, N, F

FORB 570 Units: 1.5
Advanced Topics in Forest Biology
A series of lectures and seminars examining subjects of
current interest that focus on the adaptations of trees and
their interaction with the forest environment.
Notes:
• May be taken more than once for credit in different
topics.
• Pro Forma required.

FORB 571 Units: 0.5 - 3.0
Forest Biology Workshop
A series of advanced workshops providing intensive
theoretical and practical training in three thematic areas:
plant and microbial molecular biology, forest ecology,
physiology and genetics, and bioinformatics and
biostatistics. Workshops are designed to provide the tools
for experimental design to address biological questions at all
levels from the genome to the whole organism.
Notes:
• May be taken more than once for credit in different
topics.
• Pro Forma required.

FRAN

French
Department of French
Faculty of Humanities

FRAN 500 Units: 1.5
Formerly: FREN 500
Introduction to Bibliography and Research Methods
A review of the use of bibliographical tools, forms of citation
and documentation. Instruction in the preparation of
materials for publication. Weekly presentations by various
faculty members demonstrating the application of varied
research methodologies.
Notes:
• Credit will be granted for only one of FRAN 500, FREN 500.
• Compulsory for all first-year graduate students.

FRAN 502 Units: 1.5
Formerly: FREN 502
Studies in Applied Linguistics
Notes:
• Credit will be granted for only one of FRAN 502, FREN 502
  (if taken in the same topic).
• May be taken more than once for credit in different
topics.
• Variable content course.

FRAN 503 Units: 1.5
Formerly: FREN 503
Studies in French Linguistics
Notes:
• Credit will be granted for only one of FRAN 503, FREN 503
  (if taken in the same topic).
• May be taken more than once for credit in different
topics.
• Variable content course.

FRAN 504 Units: 1.5
Formerly: FREN 504
Studies in Culture and Society
Notes:
• Credit will be granted for only one of FRAN 504, FREN 504
  (if taken in the same topic).
• May be taken more than once for credit in different
topics.
• Variable content course.

FRAN 505 Units: 1.5
Formerly: FREN 505
Studies in Literary Theory and Criticism
Notes:
• Credit will be granted for only one of FRAN 505, FREN 505
  (if taken in the same topic).
• May be taken more than once for credit in different
topics.
• Variable content course.

FRAN 506 Units: 1.5
Studies in French Literature and Culture
Notes:
• May be taken more than once for credit in different
topics.
• Variable content course.

FRAN 515 Units: 1.5
Formerly: FREN 515
Studies in Québec or French-Canadian Literatures
Notes:
• Credit will be granted for only one of FRAN 515, FREN 515
  (if taken in the same topic).
• May be taken more than once for credit in different
topics.
• Variable content course.

FRAN 517 Units: 1.5
Formerly: FREN 517
Studies in Francophone African or Caribbean
Literatures
Notes:
• Credit will be granted for only one of FRAN 517, FREN 517,
  FREN 518 (if taken in the same topic).
• May be taken more than once for credit in different
topics.
• Variable content course.

FRAN 524 Units: 1.5
Formerly: FREN 524
Studies in Transmediation
Notes:
• Credit will be granted for only one of FRAN 524, FREN 524
  (if taken in the same topic).
• May be taken more than once for credit in different
topics.
• Variable content course.

FRAN 525 Units: 1.5
Formerly: FREN 525
Studies in Translation
Notes:
• Credit will be granted for only one of FRAN 525, FREN 525
  (if taken in the same topic).
• May be taken more than once for credit in different
topics.
• Variable content course.

FRAN 580 Units: 1.5
Formerly: FREN 580
Special Topics
An examination of topics in an emerging field or one not
covered in regular offerings.
Notes:
• Credit will be granted for only one of FRAN 580, FREN 580
  (if taken in the same topic).
• May be taken more than once for credit in different
topics.
FRAN 590 Units: 1.5 or 3.0
Directed Studies
A course designed to enable students to pursue individual interests.

Notes:
- Credit will be granted for only one of FRAN 590, FREN 590 (if taken in the same topic).
- May be taken more than once for credit in different topics.
- Pro Forma required.

FRAN 598 Units: 3.0
Formerly: FREN 598
Reading List/Oral
A reading list compiled in consultation with advisers, a short critical paper, and an oral exam.

Note: Credit will be granted for only one of FRAN 598, FREN 598
Grading: INP, COM, N, F

FRAN 599 Units: 6.0
Formerly: FREN 599
Thesis/Oral
Thesis (topic to be selected in consultation with Graduate Committee) as the development of coursework) and oral examination.

Notes:
- Credit will be granted for only one of FRAN 599, FREN 599
- Thesis option is by invitation of the Graduate Committee only.
Grading: INP, COM, N, F

GEOG 500A Units: 1.5
Formerly: part of 500
Geographical Research Approaches
Examines the diverse approaches to geographical research. Students will participate in weekly seminar discussions and develop a context paper that reviews the geographical literature in their research area. Students are also expected to attend the departmental lecture series as part of their course participation.

Notes:
- Credit will be granted for only one of GEOG 500A, GEOG 500.
- Required core course for all students.

GEOG 500B Units: 1.5
Formerly: part of 500
Research Design in Geography
Examines key strategies of research design and professional development in Geography. Students will participate in weekly seminar discussions and develop a master's research proposal or doctoral scoping document that advances their primary research concentration. Students are also expected to attend the departmental lecture series as part of their course participation.

Notes:
- Credit will be granted for only one of GEOG 500B, GEOG 500.
- Required core course for all students.

GEOG 518 Units: 1.5
Advanced Spatial Analysis and Spatial Statistics
An opportunity to gain theoretical and applied experience in spatial statistics and advanced geographical analysis. Topics include: point pattern analysis, areal data analysis and spatial autocorrelation, and geostatistics (i.e., variograms and kriging). Labs and a final project are designed to provide students with hands on experience applying theory to a range of data sets and to a data set selected by the student.

Note: Students who have equivalent GIS experience may request permission to register in the course.
Master's Program students are required to take one of GEOG 518, GEOG 523, GEOG 524.
Prerequisite(s):
- GEOG 328 and GEOG 329; or
- permission of the department.

GEOG 520 Units: 1.5
Introductory GIS for Graduate Research
Provides Geographic Information Systems (GIS) training for graduate students using GIS as a research tool. Topics include: GIS data types and representation, map projections, importing and exporting spatial data, data integration, attribute and spatial queries. Students completing this course will acquire the skills needed to conduct their own research using GIS.

GEOG 523 Units: 1.5
Qualitative Methods in Human Geography
This course will explore a range of theoretical and methodological approaches in qualitative analysis as it applies to human geography. Students expect to gain expertise in understanding epistemological orientations of objectivism, constructionism and interpretivism. Identification of a range of traditional and innovative methodologies that students may consider for research projects such as: ethnography, phenomenology, discourse analysis, etc. Common interview strategies and data collection and analysis methods and approaches will be explored.

Note: Masters students are required to take one of GEOG 518, GEOG 523, GEOG 524 or another 'methods' based course on recommendation of the supervisory committee as approved by the Graduate Adviser.

GEOG 524 Units: 1.5
Advanced Quantitative Methods
Examines the use and interpretation of selected multivariate statistics.

Note: Master's Program students are required to take one of GEOG 518, GEOG 523, GEOG 524.
Prerequisite(s): 1.5 units of 200-level STAT course.

GEOG 536 Units: 1.5
Advanced Seminar in Human Geography
An advanced overview of theoretical approaches and major research paradigms in contemporary human geography.

GEOG 537 Units: 1.5
Advanced Seminar in Physical Geography
Focused research topics in biogeography, climatology, hydrology, geomorphology and soil science. Course content will vary annually, depending on graduate and faculty research interests. Seminars, faculty and guest lecturers and individual research projects will be utilized.

Note: Credit will be granted for only one of GEOG 537, GEOG 525.

GEOG 538 Units: 1.5
Advanced Seminar in Geomatics
Identifies and reviews knowledge and influential thought that have shaped and advanced the science of geomatics and associated technology through time. Students are introduced to the contemporary knowledge in geomatics, areas of application, unresolved questions and the present and future research agenda. Includes presentations by guest lecturers, readings and literature reviews.

GEOG 546 Units: 1.5
Advanced Topics in Human Geography
A special topics seminar in human and social geography. Topics vary by instructor.
Notes:
- May be taken more than once for credit in different topics.
- Not offered on a regular basis.

GEOG 547 Units: 1.5
Advanced Topics in Physical Geography
An examination of contemporary theoretical and/or applied research subjects in physical geography.
Notes:
- May be taken more than once for credit in different topics.
- Not offered on a regular basis.

GEOG 548 Units: 1.5
Advanced Topics in Geomatics
An examination of contemporary theoretical and/or applied research subjects in geomatics.
Notes:
- May be taken more than once for credit in different topics.
- Not offered on a regular basis.

GEOG 549 Units: 1.5
Advanced Topics in Resource Management
A seminar dealing with conceptual and research design issues involved with a project or problem area in resource management of interest to a faculty member.
Notes:
- May be taken more than once for credit in different topics.
- Not offered on a regular basis.

GEOG 550 Units: 1.5
Directed Studies in Geography
Note: MA, MSc and PhD students may only take one GEOG 590 course as part of their minimum program requirements. If they wish to take additional GEOG 590 courses these can be added to their minimum course load. Individual titles will be assigned to each numbered section of the course arranged by supervisory committees.

</table>

**GMST 584 - Holocaust Testimony and Archival Practice**

Working with actual testimony from the USC Shoah Foundation, explores theoretical and practical aspects of indexing and conceptualizing Holocaust narratives and testimony.

**GMST 585 - Holocaust and Memory Studies**

Explores issues of memory from the perspective of both gender and genre. Examination of issues of memory and post-memory, aspects of “truth” and positionality in memoirs, letters, diaries and documentaries, as well as the fascination with the Holocaust and WWII as a site of cultural memory.

**GMST 587 - Practicum in Holocaust Studies**

An individually designed creative project, internship, or archival research paper based on a hands-on approach to Holocaust Studies.

**GMST 589 - I-witness Field School**

Analysis of the ways in which the Holocaust is memorialized in Central Europe. One week of coursework at UVic, followed by three weeks in Central Europe. Promotes intercultural learning through a variety of activities including joint workshops with European students and visits to memorial sites, museums and monuments of the Holocaust.

**GMST 590 - Directed Studies I**

Formerly: GER 590

**Notes:**
- Credit will be granted for only one of GMST 590, GER 590.
- Pro Forma required.

**GMST 591 - Directed Studies II**

Formerly: GER 591

**Notes:**
- Credit will be granted for only one of GMST 591, GER 591.
- Pro Forma required.

**GMST 598 - Research Paper or Project**

A major research paper under the guidance of a supervisor and committee member. Students can also opt to submit a visual arts project, a performance-based production, or a creative writing project.

**GMST 599 - Thesis**

**Notes:**
- Credit will be granted for only one of GMST 599, GER 599.
- Grading: INP, COM, N, F

---

**GRS - Greek and Roman Studies**

**Department of Greek and Roman Studies**

**Faculty of Humanities**

**GRS 500 - Pro-seminar in Research Methods and Practices**

Advanced research methods and issues including on-line research and other resources. Dissemination of research and preparation for publication, including communication skills, presentation of research results either orally or in print, critical analysis, and response to scholarly questions. Best procedures for writing and preparing applications for grants, fellowships and employment. Approaches to professional academic life including practices of the discipline.

Grading: INP, COM, N, F

**GRS 501 - Greek Literature**

Formerly: S41

**GRS 502 - Greek History**

Formerly: S42

**GRS 503 - Latin Literature**

Formerly: S43

**GRS 504 - Roman History**

Formerly: S44

**GRS 505 - Ancient Art and Archaeology**

**GRS 506 - Ancient Philosophy**

**GRS 590 - Directed Individual Study**

**GRS 599 - Classics MA Thesis**

**Notes:**
- May be taken more than once for credit in different topics to a maximum of 4.5 units.
- Pro Forma required.

**GRS 602A - Readings in Ancient History (Greek)**

Grading: INP, COM, N, F

**GRS 602B - Readings in Ancient History (Latin)**

Grading: INP, COM, N, F

**GRS 603 - Reading in Classical Archaeology**

Grading: INP, COM, N, F

**GRS 605 - Archaeological Methods & Theory**

**GRS 611 - Seminar in Classical Literature**

**GRS 612 - Seminar in Ancient History**

**GRS 613 - Seminar in Classical Archaeology**

**GRS 621 - Topical Field in Classical Literature**

An intensive study of a particular field (author, genre, time period) in Greek or Roman literature.

**GRS 622 - Topical Field in Ancient History**

An intensive study of a particular field (time period, historical event, historical figure, historical topic) in Greek or Roman history.

**GRS 623 - Topical Field in Classical Archaeology**

An intensive study of a particular field (time period, archaeological event, archaeological topic) in Greek or Roman archaeology.

**GRS 693 - Candidacy Exam**

Students enroll in 693 after completing their topical fields requirements (GRS 621, 622, or 623).

Grading: INP, COM, N, F

**GRS 699 - PhD Dissertation**

Grading: INP, COM, N, F

**GS - Graduate Studies by Special Arrangement**

**Faculty of Graduate Studies**

**GS 500 - Special Topics**

**Notes:**
- May be taken more than once for credit in different topics.
- Students must seek prior approval from their supervisory committee and graduate adviser for inclusion of this course in their graduate program, although they will be permitted to register in it as “extra” to their program. Proposals for these courses must include approval by the funding academic unit(s) before being submitted to the Dean of Graduate Studies for final approval. Proposal forms and detailed instructions are available through the Faculty of Graduate Studies.
GS 501 Interdisciplinary Topics
Courses may be offered between academic departments through the Faculty of Graduate Studies.
Notes:
• May be taken more than once for credit in different topics.
• At least one of the offering departments must have a regular graduate program.

GS 502 Approved Exchange
University of Victoria students attending courses under approved exchange agreements are required to register in this course to maintain their UVic registration status.
Prerequisite(s): Permission of the faculty.
Grading: INP, COM, N, F

GS 503 Canadian Visiting Research Internship
Research Internship for students in research activities under the supervision of University of Victoria faculty as part of a regular graduate degree program at their home university.
Prerequisite(s): Permission of the faculty.
Grading: INP, COM, N, F

GS 504 International Visiting Research Internship
Research Internship for students in research activities under the supervision of University of Victoria faculty as part of a regular graduate degree program at their home university.
Prerequisite(s): Permission of the faculty.
Grading: INP, COM, N, F

GS 505 Multi-Disciplinary Research Internship
Courses may be offered between academic units through the Faculty of Graduate Studies. This multi-disciplinary course provides supervised opportunities for students to work on applied research projects in collaboration with community organizations. Research questions and project topics posed by the community partners allow students to make a difference by addressing issues of concern in our society. Students will meet weekly as a group with the course instructor to discuss topics in civically-engaged research. Students will also meet individually with a supervisor from the community partner to plan and conduct a research project.
Notes:
• May be taken more than once for credit in different topics.
• Students must seek prior approval from their supervisory committee and graduate advisor for inclusion of this course in their graduate program, although they will be permitted to register in it as "extra" to their program. Proposals for these courses must include approval by the funding academic unit(s) before being submitted to the Dean of Graduate Studies for final approval. Proposal forms and detailed instructions are available through the Faculty of Graduate Studies.

HINF 501 Database Design
Addresses the issues facing a database designer in the development of database applications appropriate for health data of various kinds. The content includes the elements of conceptual, implementation and physical database design to support health information systems.
Note: Credit will be granted for only one of HINF 501, HINF 591 (if taken in the same topic).

HINF 503 Research Methods in Health Informatics
Examines a variety of study designs used in health informatics and outcomes research. These include experimental designs, observational and predictive studies, and qualitative inquiries. For each study design, appropriate analytical approaches and use of related software will be covered.

HINF 511 Clinical Decision Support and Information Systems
Examines clinical information systems (CIS), and clinical decision support (CDS) tools that will help them make informed decisions within their organization and participate in strategic planning activities. Includes: description and evaluation of CIS and CDS, effectiveness of CIS and CDS interventions, policies affecting CIS and CDS deployments, and health information standards pertinent to CDS initiatives.

HINF 516 Telehealth, m-Health and Pervasive Health Technology
Reviews historical context of telehealth, m-health and pervasive health technologies and current use. Explores current applications and innovations in telehealth, m-health and pervasive health technologies with an emphasis on program evaluation.

HINF 520 Public Health Informatics
Provides a discussion of new trends and applications in public health informatics. Topics include: data requirements, public health surveillance systems and regional and national health information reporting systems. Linking public health information through electronic health records will be considered. Design of information systems used by consumers and Internet-based public health information systems will be discussed. Future directions and the roles of health professionals and health informaticians in public health informatics will be presented.

HINF 530 Evidence-Based Health Informatics
Understanding evidence in health informatics is critical to advancing the field. Students will be introduced to varying methods of examining research evidence in health informatics. More specifically, students will learn about differing methods for analyzing, understanding and summarizing evidence such as systematic reviews, meta analyses, meta-narrative reviews, ethnographic reviews, scoping reviews and other methods. Students may wish to explore differing topics within the context of their research interest.
Note: Credit will be granted for only one of HINF 530, HINF 591 (if taken in the same topic).

HINF 531 Healthcare Information Security and Privacy
An advanced review of security, privacy and confidentiality of healthcare information systems. Students will learn about healthcare information regulation, information risk decision making, cybersecurity and privacy management and methods for protecting digital health information. The course will include policy related, technical and legal aspects of healthcare information security and privacy.

**HINF 535 - Health Information Standards**

The study of health information standards being deployed and used in Canada and elsewhere. The standards to be examined include data, messaging and terminologies. The course covers the planning, design, implementation, use, support and evaluation of terminologies in health IT applications. Terminology management covers the development, publishing, distribution and maintenance of terminology content, services and tools as organizational assets. Examples of terminologies to be covered include SNOMED CT, ICD-10-CA/CCI, LOINC, NDC/PDP/ATC/DD, RxNorm and nursing terminologies.

**Prerequisite(s):** HINF 533.

**HINF 536 - Controlled Terminology Standards**

Examines the adoption and management of controlled terminologies in health care organizations. In terminology adoption it covers the planning, design, implementation, use, support and evaluation of terminologies in health IT applications. Terminology management covers the development, publishing, distribution and maintenance of terminology content, services and tools as organizational assets. Examples of terminologies to be covered include SNOMED CT, ICD-10-CA/CCI, LOINC, NDC/PDP/ATC/DD, RxNorm and nursing terminologies.

**Prerequisite(s):** HINF 533.

**HINF 537 - Health Information Exchange Standards**

Explores the appropriate use of controlled terminologies in the adoption of health information exchange (HIE) standards in health care organizations. Covers the entire standards lifecycle in planning, development, implementation, use, maintenance and evaluation of HIE standards, resources and tools. Examples of HIE standards to be covered include HL7, CDA, FHIR, DICOM, templates, IHE integration profiles, clinical information models and openEHR.

**Prerequisite(s):** HINF 533.

**HINF 550 - Health Information Systems Design**

**HINF 551 - Electronic Health Record**

Describes the EHR initiatives underway in Canada and around the world. Assesses the compatibility of selected provincial initiatives with the federal level EHR intentions. Contrasts Canadian EHR experiences with those in the United States and other parts of the world. Identifies the issues and challenges to the wide spread introduction of EHRs across the Canadian health care system.
### HINF 597 - Field Project in Health Informatics
The student is required to carry out an independent field project within his/her field of specialization under the supervision of a faculty member.

#### Grading: INP, COM, N, F

### HINF 602 - Theories in Health Informatics
Advanced course on scientific theories relevant to health informatics. Faculty will assign key readings from health informatics, information systems, computer science and related disciplines. Students will demonstrate the principles of theory and conceptual framework development for use in research; present critical appraisals of conceptual models and theoretical frameworks used in existing research and apply them to health informatics; and may identify an appropriate theory or conceptual model to incorporate into their subsequent dissertation research.

#### Grading: INP, COM, N, F

### HINF 603 - Methods in Health Informatics
Advanced course on methods that are relevant to health informatics. Faculty will assign key readings drawn from health informatics, information systems, computer science and related disciplines. Students are expected to present and critique the papers and to discuss their relevance to the health informatics discipline. Through this course students may select a method for incorporation in their dissertation research.

Social, cultural and political history of modern England. Topics may include government and the state, war and society, crime and punishment, monarchy, and elite and popular cultures. Provides advanced students a survey of some of the main primary sources, important secondary works and historiographical issues.

#### Notes:
- Credit will be granted for only one of HSTR 502B, HIST 502B.

#### Formerly: HIST 502B

### HSTR 503A - Pre-1900 Canadian History
Provides an in-depth look at historical writing about pre-1900 Canada. Explores a variety of historical approaches and covers a number of major topics in the field. Topics may include indigenous histories, First Nations-settler encounters, politics and war, rural and urban experiences, liberalism and the state, and issues of race, religion, gender and class. Focus on historiographical and analytical skills.

#### Notes:
- Credit will be granted for only one of HSTR 503A, HIST 503A.

#### Formerly: HIST 503A

### HSTR 503B - Post-1900 Canadian History
Examines historical writing about 20th century Canada, taking a chronological and thematic approach to recent literature. Topics may include: gender and the family, law and moral regulation, work, the environment, First Nations, politics and the state, nationalism and regionalism, and the experience and commemoration of war. Focus on historiographical and analytical skills.

#### Notes:
- Credit will be granted for only one of HSTR 503B, HIST 503B.

#### Formerly: HIST 503B

### HSTR 504A - Europe, 1500-1800
Advanced study of the transformation of European society and culture during the early modern period. May take a topical or temporal focus.

#### Notes:
- Credit will be granted for only one of HSTR 504A, HIST 504A.

#### Formerly: HIST 504A

### HSTR 504B - Europe since 1800
Advanced study of the transformation of European politics, society and culture in the modern era. May take a topical or temporal focus.

#### Notes:
- Credit will be granted for only one of HSTR 504B, HIST 504B.

#### Formerly: HIST 504B

### HSTR 505 - World History
Examines recent contributions to the field of world history that allow both for focussed study of particular themes as well as the exploration of broader historiographical and theoretical debates. Students are encouraged to pursue their own particular interests in the subject.

#### Notes:
- Credit will be granted for only one of HSTR 505, HIST 514.

#### Formerly: HSTR 514, HIST 514
HSTR 506  Units: 1.5
Formerly: HSTR 506A, 506B, HIST 506A, 506B

Medieval Europe
The major fields, sources and approaches in medieval history and
medievalism.

Note: Credit will be granted for only one of HSTR 506, HIST 506A, 506B, HSTR 506B, HIST 506A, 506B.

HSTR 508A  Units: 1.5
Also: HIST 465A

Formerly: HIST 508A

China in Local and Global History
Examines the local history and global networks of Tibet, Taiwan, and Hong Kong as well as the North China Plain (around Beijing), the Yangzi River Delta (around Shanghai), and the Pearl River Delta (around Canton) in China up to the mid-20th century. Emphasis on both local and global approaches to the six regions and to modern China beyond the limits of its nation-state history.

Note: Credit will be granted for only one of HSTR 508A, HSTR 465 (if taken as A01 in Jan-Apr 2015), HSTR 465A, HIST 439 (if taken as A01 in Sept-Dec 2011), HIST 508A.

HSTR 508B  Units: 1.5
Also: HIST 465A

Formerly: HIST 508B

A Global History of the Chinese Overseas
Examination of the Chinese diaspora in Southeast Asia, North America and other regions. Emphasis on the emigration from China, transformation of Chinatowns and development of global networks and transnational identities of the Chinese overseas. May include exploration of the diasporic experiences of Japanese, Korean, Indian and other Asian migrants in the global arena.

Note: Credit will be granted for only one of HSTR 508A, HSTR 465 (if taken as A01 in Jan-Apr 2015), HSTR 465A, HIST 439 (if taken as A01 in Sept-Dec 2011), HIST 508A.

HSTR 509A  Units: 1.5
Formerly: HIST 509A

Modern Japanese History
A survey of historiographical issues in Japan's history from the end of Tokugawa to the present day. Analyzes the debates regarding peasant struggles in late Tokugawa, the impact of imperial arrivals in the 1850s, the nature of the Meiji restoration, migration and the rise of Japanese imperialism, and the national politics in the interwar years. Concludes with World War II and Japan's occupation and subsequent economic transformations.

Note: Credit will be granted for only one of HSTR 509A, HIST 509A.

HSTR 509B  Units: 1.5
Formerly: HIST 509B

Migration, Race and Empire: Canada and the Transpacific
Brings together the histories of the Pacific and British Columbia using a translocal lens to analyze critically the intersections between race, colonialism and indigeneity from 1840 to the 1950s. Specific attention to Asian Canadian experiences on Vancouver Island and the impact of conflicting empires (British, American and Japanese). Utilizes critical anti-racist and feminist theory, and offers possibilities for innovative public history projects and community-based, action research.

Note: Credit will be granted for only one of HSTR 509B, HIST 509B.

HSTR 511  Units: 1.5
Formerly: HIST 511

Military History
Explores historiographical issues in military history. Themes include: technology and science and war; social and cultural history of war and society; the evolution of military organization and military techniques; intellectual and philosophical writing on war and armed forces; military intelligence; history of air power; and naval and maritime affairs.

Note: Credit will be granted for only one of HSTR 511, HIST 511.

HSTR 512  Units: 1.5
Formerly: HIST 512

Intellectual History
Advanced study of intellectual history. Topics to be explored may include the history of intellectual history, the similarities and differences between intellectual history and other genres of historical analysis, the rise of atheism and unbelief in early modern Europe and Enlightenment in Europe.

Note: Credit will be granted for only one of HSTR 512, HIST 512.

HSTR 513  Units: 1.5
Formerly: HIST 513

History of Gender, Sexuality and the Body
Explores selected topics in gender history, the history of sexuality and the history of the body and addresses current theoretical and methodological debates within these fields. Focus is primarily on American history, although Canadian and British readings may be included. Explores shifting understandings of femininity, masculinity and sexualities, as well as relationships between gender and class, race, ethnicity, religion, sexualities and the body.

Note: Credit will be granted for only one of HSTR 513, HIST 513.

HSTR 515A  Units: 1.5
Formerly: HIST 515A

Public History
Provides an overview of the branch of the discipline that involves communicating the past to non-academic audiences and analyzing applications of history outside of the university. Students meet practitioners of public history, making professional contacts and exploring non-academic applications of their training. Connected with these practical activities are analytical questions: as they contemplate how history can be carried outside of the academy, students also discuss its purpose, importance and meaning.

Note: Credit will be granted for only one of HSTR 515A, HIST 515A, HIST 519 (if taken in the same topic).

HSTR 516  Units: 1.5
Formerly: HIST 516

Digital History
Explores specific computing applications used in the field known as "digital history," and how digital history is changing the way we think about history and the past. Emphasis on student projects, student presentations and discussions of selected readings on the big questions facing the discipline, including "is this really a revolution?"

Note: Credit will be granted for only one of HSTR 516, HIST 516.

HSTR 517  Units: 1.5
Formerly: HIST 517

Cultural History and Theory
Explores the theory and practice of cultural history, focusing on culture as topic and as methodology. Students examine the approaches of cultural historians who either seek out new sources, or read traditional sources against the grain to provide answers to new questions. Themes may include: ritual, symbolism and meaning; objects and representation; colonialism and difference; popular culture, storytelling and language. Time period and geographical focus vary with the research area of the instructor.

Note: Credit will be granted for only one of HSTR 517, HIST 517.

HSTR 518  Units: 1.5
Formerly: HIST 518

Political History
Examines the evolution of the state and the negotiation of power in North America. Topics may include federalism, party and bureaucratic developments, mass media and politics, and political leadership.

Note: Credit will be granted for only one of HSTR 518, HIST 518.

HSTR 519  Units: 1.5
Formerly: HIST 519

Special Topics
Notes:
• Credit will be granted for only one of HSTR 519, HIST 519 (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

HSTR 521A  Units: 1.5
Formerly: HIST 521A, 521B

Medieval Law and Administration
The origins and development of Western European civil, canon and common law. The history of law and jurisprudence, of the relationships of law and society and of the role of law in the growth of governance and order. Direct work on legal texts and records.

Note: Credit will be granted for only one of HSTR 521A, HIST 521, HIST 521.

HSTR 521B  Units: 1.5
Formerly: HIST 521A, 521B

British Legal History
Social, cultural and political history of the law in England. Topics include crime, policing, the administration of justice, and punishments. Intended to give advanced students a general introduction to some of the main primary sources, important secondary works and historiographical issues.

Note: Credit will be granted for only one of HSTR 521B, HIST 521, HIST 521.
HSTR 522  
Units: 1.5  
Formerly: HIST 522  
The Social History of Religion  
Explores selected topics in the social history of religion in the context of Canada, the United States and Britain in the nineteenth and twentieth centuries. Focuses on Christianity, but also touches on other faith traditions. Topics to be explored may include popular religion, religion and mass culture, spirituality, colonialism, secularization, immigration and assimilation, religion and health, religious conflicts and prejudices and issues of class, race, gender, sexuality and family life as they relate to religion.  
Note: Credit will be granted for only one of HSTR 522, HIST 522.

HSTR 523  
Units: 1.5  
Formerly: HIST 523  
History of Science and Technology  
Advanced study of the history of science. Topics to be explored may include the history of the history of science, the Scientific Revolution, the rise of the ‘science of man’ in early modern Europe, science and Enlightenment, science and religion, and science and society in Britain, 1600-1945. May include topics in the history of technology.  
Note: Credit will be granted for only one of HSTR 523, HIST 523.

HSTR 526  
Units: 1.5  
Formerly: HIST 526  
Ethnohistory  
Examines the major issues facing ethnohistorians generally but with an emphasis on ethnohistory with respect to Indigenous peoples.  
Note: Credit will be granted for only one of HSTR 526, HIST 526.

HSTR 528  
Units: 1.5  
Formerly: HIST 528  
Field School in Ethnohistory  
Experiential and community-based. Students move to the host First Nation’s community to work on research the community has prioritized. Four weeks are spent in the community followed by four weeks to complete the research project.  
Note: Credit will be granted for only one of HSTR 528, HIST 528.

HSTR 550  
Units: 1.5  
Formerly: HIST 550  
Non-Thesis MA Historiography/Research Methods  
Note: Credit will be granted for only one of HSTR 550, HIST 550.

HSTR 597  
Units: 4.5  
Public History Stream Research Project  
Grading: INP, COM, N, F

HSTR 590  
Units: 1.5 or 3.0  
Formerly: HIST 590  
Directed Reading Geographical Field  
Notes:  
• Credit will be granted for only one of HSTR 590, HIST 590 (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

HSTR 591  
Units: 1.5 or 3.0  
Formerly: HIST 591  
Directed Reading - Topical Field  
Notes:  
• Credit will be granted for only one of HSTR 591, HIST 591 (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

HSTR 598  
Units: 6.0  
Formerly: HIST 598  
MA Major Research Paper  
Note: Credit will be granted for only one of HSTR 598, HIST 598.  
Grading: INP, COM, N, F

HSTR 599  
Units: 9.0-10.5  
Formerly: HIST 599  
MA Thesis  
Note: Credit will be granted for only one of HSTR 599, HIST 599.  
Grading: INP, COM, N, F

Formerly: HIST 693

PhD Candidacy Examinations

Students enrol in 693 for the duration of their preparations for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed.

Note: Credit will be granted for only one of HSTR 693, HIST 693.

Grading: INP, COM, N, F

HSTR 695  Units: 1.5
Dissertation Proposal

Grading: INP, COM, N, F

HSTR 699  Units: 25.5 - 36.0
Formerly: HIST 699

PhD Thesis

Note: Credit will be granted for only one of HSTR 699, HIST 699.

Prerequisite(s): HSTR 693.

Grading: INP, COM, N, F

IED

Indigenous Education
Faculty of Education

IED 510  Units: 1.5
Leadership and Governance for Language Revitalization

Students will develop their understanding of leadership skills and processes necessary to implement successful language and culture programs. Topics will include: planning, proposal writing, budgeting, administration, project management, as well as the place & effect of language policies at the provincial, national, international levels, as well as tribal/Indigenous governance models.

IED 520  Units: 1.5
Program Design and Curriculum Development in Indigenous Language Revitalization

Leading practices in program design and curriculum development for Indigenous language revitalization will be examined. Processes through which competence in listening, speaking, reading and writing is developed will be explored. Analysis of program design, curriculum development and their implementation to promote language and culture revitalization will be addressed.

IED 530  Units: 1.5
Indigenous Research Methods

Indigenous methodologies, research practices and protocols are examined including specific topics such as research ownership, research process and outcomes. Approaches to research that are culturally respectful, ethical, and reciprocal will be explored.

IED 531  Units: 1.5
Also: LING 531
Researching Community-Based Initiatives in Language Revitalization

An examination of language research in Indigenous communities. This course is project-based and introduces students to a range of issues in community-based language revitalization research. The diversity of languages and of community approaches will be highlighted.

Note: Credit will be granted for only one of IED 531, LING 531.

Grading: INP, COM, N, F

IED 572  Units: 1.5
SKILs: Indigenous Epistemologies

An exploration of the natural laws of the world from an Indigenous perspective. Critical elements of examination will include: utilizing community stories (with permission) to enhance language learning opportunities and curriculum development; reinforcing the value of the knowledge that students bring to the classroom from their home communities; living in a bi-cultural world, and the cultural effects of language and culture loss - creating places for healing.

IED 577  Units: 1.5
Comprehensive Examination

A required element of non-thesis graduate students. Areas of examination and examination format, either written or oral, will be determined by the supervisory committee in consultation with the candidate.

Grading: INP, COM, N, F

IED 578  Units: 3.0
Major Project

Evidence of independent research work will be presented in the form of an extended paper, project, or report as determined with the supervisory committee. Students will design their project in partnership with an Indigenous community or Indigenous organization. The project will enhance the community or organization’s capacity to support language revitalization while providing an opportunity for students to approach the real world challenges of language revitalization in an Indigenous context.

Grading: INP, COM, N, F

IED 599  Units: 4.5
Thesis

Research on a topic chosen in consultation with the student’s supervisory committee.

Grading: INP, COM, N, F

IGOV 530  Units: 1.5
Indigenous Research Methods

A perspective on the methods and approaches used in the study of Indigenous issues, providing the basic tools and methods used for conducting applied research, as well as an exploration of the practical, ethical, and political issues involved in conducting research in Indigenous communities.

Prerequisite(s): Admission to MA program in Indigenous Governance.

IGOV 540  Units: 1.5
Indigenous Resurgence

An introduction to the spiritual and cultural foundations of Indigenous governance systems, and an examination of how traditional values, principles and worldviews shape Indigenous thought and action in resistance to colonialism.

Prerequisite(s): Admission to MA program in Indigenous Governance.

IGOV 550  Units: 1.5
Indigenous Peoples and Self Determination

A focused analysis of current processes to decolonize the relationships between Indigenous peoples and states (as well as other colonial entities), with particular emphasis on questions of land tenure, sovereignty, nationhood, self-determination, and treaty-making in a comparative context.

Prerequisite(s): Admission to MA program in Indigenous Governance.

IGOV 560  Units: 1.5
Indigenous Peoples and Globalization

An examination of how processes of globalization and neo-colonialism impact Indigenous peoples worldwide and strategies Indigenous peoples around the world are using to confront these economic, social, political and cultural pressures in order to regenerate their communities.

Prerequisite(s):
- Admission to MA program in Indigenous Governance; or
- permission of the faculty.

IGOV 570  Units: 1.5
Indigenous Women and Resistance

An exploration of the strategies Indigenous women engage in resistance to colonialism with particular attention paid to women who root their resistance in traditional Indigenous philosophies, governance practices and ways of being.

Prerequisite(s):
- Admission to MA program in Indigenous Governance; or
- permission of the faculty.

IGOV 575  Units: 3.0
Formerly: 580
Mentors

Mentorship

Mentorship provides students with counselling and advice to support personal well-being, professional development and academic performance, and consists of regular writing assignments and small group meetings with their faculty supervisor throughout the academic year.

Note: Credit will be granted for only one of IGOV 575, IGOV 580.

Prerequisite(s): Admission to MA program in Indigenous Governance.

Pre- or Corequisite(s): All of IGOV 520, IGOV 530, IGOV 540, IGOV 550.
IGOV 590  Units: 1.5  
**Directed Readings**  
Individually structured reading or research seminars under the direction of a participating faculty member, allowing students to pursue their interests in topics related to Indigenous governance but not specifically covered in the seminars.  
**Note:** May not be taken more than once for credit.

IGOV 595  Units: 1.5  
**Special Topics in Indigenous Governance**  
Seminars focusing on issues of particular interest and relevance.  
**Note:** May be taken more than once for credit in different topics.  
**Prerequisite(s):**  
- Admission to MA program in Indigenous Governance; or  
- permission of the faculty.

IGOV 598  Units: 4.5 or 6.0  
**Community Governance Project**  
Graduate course in the Indigenous Governance program administered by the Faculty of Graduate Studies. Projects are geared toward providing a practical learning experience and opportunity for students to face the real world challenges of governance in an Indigenous context. They also serve as a crucial function for affiliated communities in providing access to the University’s resources and expertise through the students’ participation in projects to enhance the community’s governance capacity.  
Community governance project interns will work on a designated research or policy development project in an Indigenous organization, under the direction of a project management team that includes community leaders and IGOV faculty. Internship placements must be approved by the Director, and will typically involve 100 hours of work in the community and the completion of a comprehensive report based on the internship experience.  
**Note:** Only students who entered the MA program prior to September 2009 need to register in the 6.0 unit section of IGOV 598 (requires permission of the department). Students who start their MA program on or after September 2009 need to register in the 4.5 unit section of IGOV 598.  
**Prerequisite(s):** All of IGOV 520, IGOV 530, IGOV 540, IGOV 550, IGOV 575.  
**Grading:** INP, COM, N, F

IGOV 599  Units: 6.0  
**Thesis**  
**Grading:** INP, COM, N, F

**IN**

**Indigenous Nationhood**  
**Faculty of Graduate Studies, Faculty of Human and Social Development, Faculty of Law, and Faculty of Social Sciences**

**IN 601**  Units: 1.5  
**Foundations of Indigenous Nationhood**  
An examination of key issues and debates, methods and frameworks in the study of Indigenous Nationhood. Involves a survey of the major literature in the fields of Indigenous politics, governance and law. This is a required foundational course for all IN Graduate Certificate students.

**IN 697**  Units: 1.5  
**Capstone Experience**  
An integration and synthesis of concepts, principles and practices discussed throughout the program. Students must be able to demonstrate their knowledge of the field of Indigenous Nationhood through either a comprehensive examination of Indigenous Nationhood or a committee-approved community internship, or other community-based work/service-integrated learning opportunity approved by the Program committee.  
**Grading:** COM, N, F

**INGH**

**Indigenous Health Studies**  
**School of Public Health and Social Policy**  
**Faculty of Human and Social Development**

**INGH 520**  Units: 1.5  
**Community Engagement and Leadership**  
The concepts of respect, trust and cultural safety and their historical significance in engaging with Indigenous communities are explored. De-colonizing practices are emphasized through the exploration of relational practice and community capacity building as methods for effective engagement of community. Topics include the implications of recognizing the communal ownership of knowledge within Indigenous culture; the value of Indigenous knowledge and mentorship in the emergence of Indigenous health leaders are explored.  
**Note:** A requirement of this course is a condensed five-day on-campus seminar.

**INGH 521**  Units: 1.5  
**Indigenous Public Health and Social Policy**  
Issues and practices associated with the governance of Indigenous Peoples’ health through consideration of past, present and future experiences are explored. Students critically analyze health and social policy and the impact of colonization on the health of Indigenous Peoples. Governance for health is explored through an analysis of jurisdictional issues, existing health agreements and organizational structures. Students focus on the development of post-colonial models of policy and governance.

**INGH 522**  Units: 1.5  
**Indigenous Health Research Methodologies**  
Topics include the value of being in relationship with community as a foundation for research; knowledge of Indigenous life course determinants relevant to the health of Indigenous Peoples; ethical, legal and social issues related to research with Indigenous Peoples.

**INTD**

**Interdisciplinary Program**  
**Faculty of Graduate Studies**

**INTD 580**  Units: 1.5-3.0  
**Directed Studies for INTD Master’s Program**  
**Note:** May be taken more than once for credit in different topics.

**INTD 599**  Units: 4.5-12.0  
**Thesis**  
**Grading:** INP, COM, N, F

**ITAL**

**Italian**  
**Department of Hispanic and Italian Studies**  
**Faculty of Humanities**

**ITAL 503**  Units: 1.5  
**Also:** SPAN 503  
**Core Reading List Course II**  
**Grading:** INP, COM, N, F

**ITAL 505**  Units: 1.5  
**Also:** SPAN 505  
**Medieval Literature**

**ITAL 507**  Units: 1.5  
**Also:** SPAN 507  
**Renaissance and Baroque Literature**

**ITAL 590**  Units: 1.5 or 3.0  
**Also:** SPAN 590  
**Directed Studies**

**ITAL 598**  Units: 3.0  
**Master’s Essay**  
**Grading:** INP, COM, N, F

**ITAL 599**  Units: 6.0  
**MA Thesis/Oral**  
**Grading:** INP, COM, N, F

**LAW**

**Law**  
**Faculty of Law**

**LAW 501**  Units: 1.5  
**Graduate Seminar in Law and Society**  
A critical introduction to theoretical perspectives on Law and Society. Designed to expose students to a range of substantive issues in advanced legal research, as a foundation for the development of each student’s thesis research.  
**Prerequisite(s):** Admission to a graduate program in Law.
LAW 502  
**Graduate Seminar in Applied Legal Methodology**  
A review of methodological approaches to advanced legal research, particularly as applied to the diverse research interests of seminar participants. Intended to support each student’s implementation of their research question through presentation, commentary and refinement.  
Prerequisite(s): Admission to a graduate program in Law.  
Units: **1.5**

**LAW 590**  
**Directed Studies in Law**  
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registering in this course.  
Notes:  
- May be taken more than once for credit in different topics.  
- Pro Forma required.  
Units: **1.5-3.0**

**LAW 598**  
**Major Research Paper in Law**  
Grading: INP, COM, N, F  
Units: **6.0**

**LAW 599**  
**LLM Thesis**  
Grading: INP, COM, N, F  
Units: **9.0**

**LAW 690**  
**Directed Studies in Law**  
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registering in this course.  
Notes:  
- May be taken more than once for credit in different topics.  
- Pro Forma required.  
Units: **1.5-3.0**

**LAW 693**  
**PhD Candidacy Examinations**  
The PhD Candidacy Examination consists of an oral examination. This examination should be taken and passed within two years of entering the PhD program.  
Grading: INP, COM, N, F  
Units: **3.0**

**LAW 699**  
**PhD Dissertation**  
Prerequisite(s): LAW 693.  
Grading: INP, COM, N, F  
Units: **21.0-36.0**

**LING 500**  
**Linguistic Field Methods**  
An introduction to the methods of data analysis, organization, and collection required in the field situation. Language of consultant may vary from year to year. The department has a particular interest in North American Native Languages.  
Units: **1.5**

**LING 503**  
**Introduction to Syntax**  
A graduate level introduction to the major subfields of syntax, reflecting recent developments in syntactic theory.  
Units: **1.5**

**LING 504**  
**Current Issues in Morphology**  
Recent developments in morphological theory.  
Note: May be taken more than once for credit to a maximum of 3 units.  
Units: **1.5**

**LING 505**  
**Introduction to Phonology**  
A graduate level introduction to the major subfields of Phonology, reflecting recent developments in phonological theory.  
Units: **1.5**

**LING 507**  
**Semantics**  
Recent developments in semantic theory.  
Units: **1.5**

**LING 508**  
**Current Issues in Generative Grammar**  
Selected topics reflecting ongoing work in generative theory.  
Note: May be taken more than once for credit.  
Units: **1.5 or 3.0**

**LING 509**  
**Sociolinguistics**  
Selected topics in recent research related to language variation such as bilingualism, language and gender, language attitudes, social dialects. Each registrant will select a particular topic for individual research.  
Note: May be taken more than once for credit in different topics to a maximum of 3 units.  
Units: **1.5**

**LING 510**  
**Current Issues in Phonology**  
An examination of recent developments in phonological theory.  
Note: May be taken more than once for credit.  
Units: **1.5-3.0**

**LING 517**  
**Experimental Phonetics Laboratory**  
Review of recent research in the phonetic and acoustic analysis of speech and in spoken language processing. A focus on experimental procedures designed to allow students to pursue individual topics in speech research.  
Note: May be taken more than once for credit to a maximum of 3 units.  
Units: **1.5**

**LING 520**  
**Pacific Rim Languages**  
An overview of the structure of selected indigenous languages spoken around the Pacific Rim.  
Note: May be taken more than once for credit to a maximum of 3 units.  
Units: **1.5-3.0**

**LING 527**  
**Topics in Historical and Comparative Linguistics**  
Study of principles of historical and comparative linguistics.  
Note: May be taken more than once for credit to a maximum of 3 units.  
Units: **1.5**

**LING 531**  
**Researching Community-Based Initiatives in Language Revitalization**  
An examination of language research in Indigenous communities. This course is project-based and introduces students to a range of issues in community-based language revitalization research. The diversity of languages and of community approaches will be highlighted.  
Note: Credit will be granted for only one of LING 531, IED 531.  
Units: **1.5**

**LING 560**  
**Linguistic Anthropology**  
Selected topics in Linguistic Anthropology.  
Note: Credit will be granted for only one of LING 560, ANTH 560, ANTH 561.  
Units: **1.5**

**LING 561**  
**Topics in Chinese Linguistics**  
Current issues in Chinese language and linguistics.  
Units: **1.5**

**LING 570**  
**Psycholinguistics**  
A seminar offered in collaboration with the department of Psychology. Selected topics of interest in understanding the comprehension and production of natural language are examined. The most recent topics have been word recognition and lexical access, sentence processing, discourse analysis, linguistic inference and the resolution of ambiguity, and the development of cognitive science interests in reasoning and discourse processes as well as the structure of mental representations.  
Units: **1.5**

**LING 572**  
**The Structure of the Lexicon**  
An introduction to the study of representations of lexical forms, specifically as they relate to psycholinguistic dimensions of the mental lexicon. Issues related to the structure of both the first and second language mental lexicons will be examined.  
Units: **1.5**

**LING 573**  
**Second Language Acquisition Theory and Research**  
A survey and critical examination of the research on second language acquisition (SLA). Current issues and research findings related to the teaching and learning of second languages inside second language classrooms are also discussed.  
Units: **1.5**

**LING 574**  
**Seminar in Applied Linguistics**  
A seminar on issues in applied linguistics, including an overview of second language learning and teaching principles, TESL/TEFL methodology, language situation contacts and multilingualism. Each participant selects a topic area of individual interest to report to the seminar.  
Units: **1.5**
LING 575 – Units: 1.5
Research Methods in Applied Linguistics
Designed to assist graduate students in developing skills necessary to design and implement research in the field of second language (SL) acquisition and applied linguistics. Examines various methods for conducting research, types of research designs, and the steps involved in planning and executing SL research projects. Students also develop skills in reading and evaluating published research in second language acquisition and applied linguistics.

LING 576 – Units: 1.5
Form-Focused Instruction and Second Language Development
Through a combination of reading and critical analysis of research studies, this course examines the current theoretical perspectives and research findings on the various roles that form-focused instruction and corrective feedback plays in second language development.

LING 577 – Units: 1.5
The Global Context of Language Revitalization
Investigates language shift, maintenance, reclamation and revitalization. Topics may include global, social, cultural, economic, political, and historical factors involved in language use, and Indigenous and non-Indigenous language contexts around the world.

LING 578 – Units: 1.5
Sociocultural Theory and Second Language Learning
Designed to introduce graduate students to aspects of second language learning from the perspectives of sociocultural theory and cognitive development. Students will become familiar with key concepts and principles of sociocultural theory, such as mediation, activity theory, the genetic method, internalization, the zone of proximal development, private speech, and scaffolding; examine the growing body of research in language learning and teaching from this theoretical perspective; and consider its implications for language pedagogy.

LING 580 – Units: 1.5 or 3.0
Linguistics Seminar
The contents of this course will vary.
Note: May be taken more than once for credit.

LING 586 – Units: 1.5
Sound Structures for Applied Linguistics
An investigation of the relationship between sound structures (as understood through phonetic theory, phonological theory, speech analysis) and applied linguistics (especially pronunciation teaching and second language acquisition).
Note: May be taken more than once for credit to a maximum of 3 units.
Prerequisite(s):
- One of LING 200, LING 300, LING 312, LING 338, LING 380, LING 412, LING 486, LING 505, LING 510, LING 517; or
- permission of the department.

LING 590 – Units: 1.5 or 3.0
Directed Studies
A course designed to enable students to pursue individual interests.
Note: May be taken more than once for credit.

LING 592 – Units: 1.5
Formerly: 591
Labovian Variationist Sociolinguistics
An examination of the foundations of language variation and change in the Labovian paradigm. Emphasis is placed on the study of phonological and grammatical features and their correlations with age, sex, ethnicity and other social variables.
Note: Credit will be granted for only one of LING 591, LING 592.

LING 595 – Units: 1.5
Studies in Language and Gender
A study of the relationship between gender socialization and pragmatics of language use. Each participant selects a topic of interest to research and report on as a term paper and to present as a seminar.

LING 596 – Units: 1.5
Cross-Cultural Communication
An examination of pragmatic linguistic factors affecting communication between cultural groups. Each participant selects a topic of interest to research and report on as a term paper and to present as a seminar.

LING 597 – Units: 0
Comprehensive Examination
Students enrolled in the non-thesis option will be examined orally on at least two previous substantial research papers or their equivalent.
Grading: INP, COM, N, F

LING 598 – Units: 3.0
Major Research Paper
A major research paper (40-45 pages) reporting independent research under the direction of a faculty member. Students meet in a seminar weekly with the course instructor to discuss research topics including research designs, data collection and analyses, reporting and presentation research results, and other research related issues.
Grading: INP, COM, N, F

LING 599 – Units: to be determined
MA Thesis
Grading: INP, COM, N, F

LING 601 – Units: 1.5
Current Directions in Syntactic Theory
Selected topics reflecting current research in syntactic theory.
Notes:
- May be taken more than once for credit in different topics.
- Students who have completed equivalent prerequisites may request permission to register in the course.
Prerequisite(s):
- LING 503 or LING 508; or
- permission of the department.

LING 602 – Units: 1.5-3.0
Current Directions in Phonological Theory
Selected topics reflecting current research in Phonological Theory.
Notes:
- May be taken more than once for credit in different topics.
- Students who have completed equivalent prerequisites may request permission to register in the course.
Prerequisite(s):
- LING 505 or LING 510; or
- permission of the department.

LING 690 – Units: 1.5 or 3.0
Directed Studies
A research topic will be pursued in depth under the direction of the student’s supervisor. Students are expected to write a research paper (or papers) and to present a colloquium based on their work.
Note: May be taken more than once for credit in different topics to a maximum of 3 units.

LING 693 – Units: 3.0
Candidacy Examination
The candidacy requirement must be satisfied within three years of registration in the doctoral program (see Faculty of Graduate Studies regulations). The candidacy examination consists of two substantial, original research papers, one in the area of phonological or syntactic theory, understood broadly, and the other in an area agreed to by the student and the supervisor.
Grading: INP, COM, N, F

LING 699 – Units: to be determined
PhD Dissertation
Note: Normally 18 units.
Prerequisite(s): LING 693
Grading: INP, COM, N, F

MATH

Mathematics
Department of Mathematics and Statistics
Faculty of Science

MATH 510 – Units: 1.5
Abstract Algebra

MATH 511 – Units: 1.5
Topics in Matrix Theory and Linear Algebra

MATH 520 – Units: 1.5
Number Theory

MATH 522 – Units: 1.5
Combinatorics
Prerequisite(s): Permission of the department.

MATH 523 – Units: 1.5
Graph Theory
Prerequisite(s): Permission of the department.

MATH 529 – Units: 1.5
Topics in Discrete Mathematics
Note: May be taken more than once for credit in different topics with permission of the department.
MATH 530 - MBA 501A

Real Analysis
Abstract measure and integration; product measures; measures on locally compact spaces and the Riesz representation theorem; the Stone-Weierstrass theorem.

MATH 531 - Units: 1.5
Functional Analysis

MATH 532 - Units: 1.5
Introduction to Operator Theory

MATH 533 - Units: 1.5
Topics in Operator Theory and Operator Algebras
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 535 - Units: 1.5
Topics in Analysis
Topics may include some of the following: ergodic theory, dynamical systems, potential theory, harmonic analysis.
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 538 - Units: 1.5
Complex Analysis
Topics chosen from: conformal mappings, the Riemann mapping theorem, the maximum principle, infinite products, Picard's theorem, normal families, Hp-spaces, approximation by rational functions, the Riemann zeta function, analytic continuation and Riemann surfaces.
Note: Students who have completed a course equivalent to MATH 438 may request permission to register in the course.
Prerequisite(s):
• One of MATH 330B, MATH 338, MATH 438; or
• permission of the department.

MATH 540 - Units: 1.5
Topology

MATH 549 - Units: 1.5
Also: MATH 449
Scientific Computing
Note: Credit will be granted for only one of MATH 549, MATH 449 (if taken in the same topic).
Prerequisite(s): Permission of the department.

MATH 550 - Units: 1.5
Topics in Applied Mathematics
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 551 - Units: 1.5
Differential and Integral Equations

MATH 555 - Units: 1.5
Topics in Probability
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 563 - Units: 1.5
Algebraic Number Theory

MATH 565 - Units: 1.5
Topics in Mathematical Biology
Possible topics include population modeling, infectious disease dynamics, models of neuronal networks and models of gene regulatory networks.
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 570 - Units: 1.5
Topics in Pure Mathematics

MATH 571 - Units: 1.5
Directed Studies
Directed studies may be available in the areas of faculty interest.
Notes:
• May be taken more than once for credit in different topics with permission of the department.
• Pro Forma required.

MATH 580 - Units: 1.5
Topics in Pure Mathematics
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 581 - Units: 1.5
Directed Studies
Directed studies may be available in the areas of faculty interest.
Notes:
• May be taken more than once for credit in different topics with permission of the department.
• Pro Forma required.

MATH 585 - Units: 0 or 1.5
Seminar
Note: May be taken only once for credit in any degree program.
The seminar leader will inform students of the requirements for credit before the seminar commences.
An INP grade may be assigned.

MATH 586 - Units: 0 or 1.5
Operator Theory Seminar
Note: May be taken only once for credit in any degree program.
The seminar leader will inform students of the requirements for credit before the seminar commences.

MATH 587 - Units: 0 or 1.5
Applied Math Seminar
Note: May be taken only once for credit in any degree program.
The seminar leader will inform students of the requirements for credit before the seminar commences.

MATH 588 - Units: 1.5
Discrete Mathematics Seminar
Note: May be taken more than once for credit with permission of the department.

MATH 591E - Units: 1.5
Topics in Mathematics for Secondary Teachers
Intended for students enrolled in a master's program specializing in Mathematics Education but open to students enrolled in other master's programs in Education. One of the four topics: Geometry, Mathematical Modeling, Data Analysis, History and Philosophy of Mathematics will be taught in a given term. Topics will be rotated each term the course is offered.
Note: May be taken more than once for credit in different topics.
Prerequisite(s): 3 units of MATH courses numbered 300 or higher.

MATH 599 - Units: 6.0
Master's Thesis
Grading: INP, COM, N, F

MATH 693 - Units: 3.0
Candidacy Examination
Grading: INP, COM, N, F

MATH 699 - Units: 21.0-30.0
Dissertation
Corequisite(s): MATH 693.
Grading: INP, COM, N, F

MBA
Master of Business Administration
Peter B. Gustavson School of Business
PhD program in International Management and Organization is found under the BUS course code.

MBA 500 - Units: 1.5-3.0
Essentials of Business and Leadership
An intensive course that constitutes the beginning of the MBA program. Provides students with a foundation on which to begin the study of business at an advanced level. Key areas of skill development include business writing, presenting, teambuilding, case analysis, cross-cultural communication and career development. Provides ethical frameworks for decision making and an exploration of issues relating to international business, sustainability and social responsibility.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 501 - Units: 0
Applied Projects
Client-based business projects that integrate program subject material, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Will focus, when possible, on the Gustavson School of Business value pillars: International, Integrative, Innovative, Sustainable/Socially Responsible. One of these projects takes place in an international setting.
Note: Not open to students registered in or with credit in MBA 501A or MBA 501B.
Attendance and participation are mandatory. Students are required to register in this course for the duration of the MBA Program.
Students in a double-degree program or on international exchange will normally be waived from the international project.
Grading: INP, COM, N, F

MBA 501A - Units: 0
Integrative Management Exercise (IME)
One or more client-based business practice exercises which integrate program subject material, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Takes place on campus and will focus, when possible, on one or both of the International or Socially Responsible and Sustainable value pillars of the Gustavson School of Business.
Note: Registration is restricted to the Daytime MBA Cohort entering in summer session 2016. Attendance and participation are mandatory. Registration in MBA 501A is for the domestic, "on campus" IME.
Grading: INP, COM, N, F
MBA 501B  
**Units:** 0  
**International Integrative Management Exercise (IME)**  
A client-based business practice exercise which integrates program subject material, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Takes place in an international setting.  
*Note:* Registration is restricted to the Daytime MBA Cohort entering in summer session 2016. Attendance and participation are mandatory. Registration in MBA 501B is for the international, "off campus" IME.  
*Grading:* INP, COM, N, F

---

MBA 502  
**Units:** 0  
**Personal and Professional Development**  
A course of sessions/activities delivered throughout the MBA program providing practical knowledge and practice in areas vital for professional success in the business world. Content includes: career development, team-building, leadership development, and cross-cultural boundary spanning.  
*Note:* Students are required to register in this course for the duration of the MBA Program.  
*Grading:* INP, COM, N, F

---

MBA 509  
**Units:** 0.5-2.0  
**Managing in the Service Economy**  
Examines service issues from organization and human resources management, operations management and marketing perspectives to provide students an integrated view of designing and delivering a valuable, memorable customer experience. Topics include: building a service culture and strategy, managing the talent, service blueprinting, developing customer-oriented service standards, service design, creating the "servicescape", understanding consumer emotions and psychology, service failure and recovery, customer co-creation of value and service delivery networks.  
*Note:* The unit value of a course section will be specified according to the program in which it is delivered.

---

MBA 510  
**Units:** 0.5-1.5  
**Marketing Management**  
Controllable and uncontrollable marketing variables that managers face in today's business environment. Topics include factors affecting consumer demand (including issues of sustainability, environmental impact and ethical management) and methods of satisfying it, market structure, product selection, distribution, promotion, pricing and market research. Course structure, exercises, projects and case problems are designed to develop the students' ability to generate effective marketing strategies in the face of uncertainty.  
*Note:* The unit value of a course section will be specified according to the program in which it is delivered.

---

MBA 511  
**Units:** 0.5-1.5  
**Customer Experience Management**  
Intended for those students who are interested in working in service industries and addresses the distinct needs and problems of service organizations in the area of marketing. Topics include: the difference between marketing services versus manufacturing organizations; the marketing mix for service organizations; market research in services; managing demand in services; integrated services marketing communication; services pricing; and the overlap of marketing/operations/human resource systems in service organizations.  
*Note:* Not open for students with credit in the Service Management Specialization courses previously offered under MBA 595. The unit value of a course section will be specified according to the program in which it is delivered.  
*Prerequisite(s):* MBA 510  
*Corequisite(s):* MBA 512 and MBA 513

---

MBA 512  
**Units:** 0.5-1.5  
**Quality Management and Service Operations**  
Focuses on managing and improving service firms across industries, including: financial services, health care, hospitality, retail and professional service firms. Addresses the distinct needs and problems of service organizations in the areas of operations and quality management. A core theme is a quality management approach to providing service excellence. Topics include: service strategy, service design, service quality, process improvement, service capacity management, service innovation and technology, and sustainable and socially responsible practices in services.  
*Note:* Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595. The unit value of a course section will be specified according to the program in which it is delivered.  
*Prerequisite(s):* MBA 510  
*Corequisite(s):* MBA 512 and MBA 513

---

MBA 513  
**Units:** 0.5-1.5  
**Issues in Service Technology and HR Management**  
Addresses the distinct needs and problems of service organizations in the areas of human resource management and IT management. Topics include: e-service and the role of technology, customer relationship management (CRM), managing the organizational culture; impact of cultural differences on customer service; management and motivation of knowledge workers; customer self-service technology, the service profit chain, and sustainable and socially responsible practices in human resource management.  
*Note:* Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595. The unit value of a course section will be specified according to the program in which it is delivered.  
*Corequisite(s):* MBA 512 and MBA 513

---

MBA 514  
**Units:** 0.5-1.5  
**Business and Sustainability**  
An introduction to the business challenges and opportunities arising from the world's growing social and ecological issues, including climate change, poverty and corporate corruption. Students are exposed to how companies across multiple sectors have chosen to respond - or not respond - to the call for sustainable social, ecological and economic value creation. Relevant tools and frameworks are introduced, including stakeholder management/engagement, triple-bottom line, Natural Step, base-of-the-pyramid strategies and social entrepreneurship.  
*Notes:*  
- Credit will be granted for only one of MBA 514, MBA 580, MBA 595 (if taken in the same topic).  
- The unit value of a course section will be specified according to the program in which it is delivered.

---

MBA 515  
**Units:** 0.5-1.5  
**Applied Managerial Economics**  
Applies economic principles to the analysis of corporate problems. Topics include product, risk and business opportunity analysis, production costs and profit maximization, the determination of prices and output under different market structures, investment decisions, and economic forecasting.  
*Note:* The unit value of a course section will be specified according to the program in which it is delivered.

---

MBA 520  
**Units:** 0.5-1.5  
**Financial and Managerial Accounting**  
Focuses on two broad areas to improve understanding of the use of accounting information in management decision making: 1) Financial Reporting including examination of corporate financial reports, International Financial Accounting Standards, triple-bottom line reporting, and governance and 2) Managerial Accounting including the nature, analysis of costs, product costs, and control systems.  
*Note:* The unit value of a course section will be specified according to the program in which it is delivered.

---

MBA 521  
**Units:** 1.5  
Also: COM 410  
**Leadership Strategies**  
An examination of leadership in a variety of environments: corporate, the military, and the public sector. Identifies the characteristics of a leader and instills an interest in and awareness of this vital organizational skill. Includes a review of leadership research from a historical perspective as well as current theory on transformational leadership. Experiential exercises, case studies and role playing techniques are employed to demonstrate leadership skills.  
*Note:* Credit will be granted for only one of MBA 521, COM 410  
*Prerequisite(s):* Permission of the program.
MBA 522 - MBA 555

MBA 522  Units: 1.5
Also: COM 415
Business and the Internet
Business is going global, and traditional markets are rapidly giving way to the electronic marketplace. Combines hands-on project for an existing organization with seminar style classes and invited speakers. Covers competitive advantages of electronic communications technologies; fundamentals of data communications; effective use of the Internet for business; and security, privacy, and intellectual property issues related to online business.
Note: Credit will be granted for only one of MBA 522, COM 415.
Prerequisite(s): Permission of the program.

MBA 524  Units: 1.5
Also: COM 445
Corporate Finance
Serves as a continuation of the introductory finance course to more advanced applications of the techniques, concepts, and tools of corporate finance. Main topics include short- and long-term financial management, cost of capital, capital structure, financial leverage, dividends policy, working capital management, leasing, mergers and acquisitions, and the use of derivatives for risk management.
Note: Credit will be granted for only one of MBA 524, COM 445.
Prerequisite(s): Permission of the program.

MBA 525  Units: 1.5
Also: COM 446
Investments
Covers the fundamental principles that are crucial to understanding the securities traded in international financial markets. The main topics include market structure, information efficiency, asset pricing models, valuation and trading of stocks, bonds, options and futures.
Note: Credit will be granted for only one of MBA 525, COM 446, COM 450 (if taken in the same topic), ECON 435.
Prerequisite(s): Permission of the program.

MBA 529  Units: 0.5-1.5
International Logistics and Supply Chain Management
Examines the issues involved in managing global supply chains and logistic flows. Topics are developed around the risks and opportunities of global sourcing. Topics include some of the following: designing and implementing global supply chains, foreign manufacturing, inventory management, coping with security concerns, outsourcing, service standards, transportation options and performance evaluation.
Notes:
• Credit will be granted for only one of MBA 529, MGB 519.
• The unit value of a course section will be specified according to the program in which it is delivered.

MBA 530  Units: 0.5-1.5
Managerial Finance
Provides a framework, concepts, and tools for analyzing financial decisions. Topics include discounted cash flow techniques, valuation of financial assets, financial statement analysis, capital budgeting decisions, risk and return tradeoffs, diversification and portfolio theory, capital market efficiency, and the cost of capital to the firm. Focuses on management-shareholder agency problems, ethical issues in financial decision-making, and issues related to sustainability and corporate social responsibility (CSR) in project valuation and portfolio investments.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 531  Units: 1.5
Also: COM 425
Taxation for Managers
Reviews the fundamentals of the income tax system for all taxpayers. It then examines tax planning techniques that maximize cash flow and return on investment. While the course emphasizes business decisions, it also includes personal financial planning issues.
Note: Credit will be granted for only one of MBA 531, COM 425.
Prerequisite(s): Permission of the program.

MBA 535  Units: 0.5-1.5
Operations Management
An introduction to the concepts for managing the systems organizations use for producing goods and services. Topics include some of the following: operations strategy, capacity and technology planning, purchasing and materials management, workflow planning, scheduling, and quality management and control.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 540  Units: 0.5-1.5
Applied Data Analysis and Decision Analysis
A decision-oriented course that focuses on the frameworks, concepts, theories and principles needed to organize and use information to make informed business decisions. Cases, exercises, discussion questions and other pedagogical tools are used to help participants build data gathering and analysis skills. Topics include collecting, summarizing, organizing and extracting data, probability theory and risk in decision making; and One-Way Analysis of Variance and Regression Analysis.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 544  Units: 0.5-1.5
Information Technology in the Organization
An introduction to the capabilities and utilization of information technology (IT), information systems (IS) and networks. Different approaches using IT and IS will be covered to provide an understanding of how they can be used effectively in today’s inter-networked enterprise. Cases and other assignments will be used to illustrate the evolving role of IS and networks in today’s interconnected organization both within and external to it.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 546  Units: 0.5-2.0
Innovation and Design
Explores the topic of innovation in products, services and user experience through design methodologies and perspectives. Topics include identifying and framing the right ‘problem space’ through deep understanding of users and context, and techniques for eliciting creative ideas, such as structured brainstorming and rapid prototyping, to explore the ‘solution space’. Students become integrative, creative problem solvers who combine rigorous research with narrative, visual data and other knowledge forms to generate original, practical strategies.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 550  Units: 0.5-1.5
Strategic Analysis and Action
Introduces the integrative nature of management. Explores the overall general management of the organization, and the formulation and implementation of the strategic direction of the firm. Covers major strategic management concepts including analyses of external and internal environments, innovation, corporate social responsibility (CSR), managerial ethics, value co-creation, and leadership, as they relate to business strategy. Intended to develop an appreciation of the role of a general manager from conceptual as well as pragmatic standpoints.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 552  Units: 0.5-2.0
Collaboration in Organizations
Explores ways to lead and cultivate collaboration in both inter- and intra-organizational contexts. Topics may include identifying what effective collaboration looks like, when collaboration does (and doesn’t) make sense, organizational barriers to collaboration, the skills required to encourage others to collaborate effectively, and the characteristics of collaborative leadership.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 553  Units: 0.5-1.5
Managing People and Organizations I
Examines the behaviour of individuals, groups and organizations from an organizational design perspective. Topics include: the analysis of goals, environment structure and growth; teams, organizational culture, power, politics and conflict management; decision making, motivation, trust and leadership.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 555  Units: 0.5-1.5
Managing People and Organizations II
Examines the issues in managing employees in organizations. Topics include recruitment and hiring, retention practices, performance review, compensation design, layoffs and selected employment and human rights legislation.
Note: The unit value of a course section will be specified according to the program in which it is delivered.
MBA 558 - Units: 1.5
Employment Law
Examines the constitutional, legislative and common law rules that govern the employment relationship in both unionized and nonunion workplaces. Examines the entire employment relationship including pre-hire issues, employer/ee rights and obligations, termination of employment and post-termination obligations.

Note: Credit will be granted for only one of MBA 558, COM 403, COM 450 (if taken in the same topic).
Prerequisite(s): Permission of the program.

MBA 560 - Units: 0.5-1.5
Managing Legal Risks
Examines various legal risks (whether arising from the common law or through legislation) that must be identified and effectively managed within contemporary organizations (including for-profit businesses, not-for-profit firms and governmental organizations). Examines the legal risks associated with the manufacture, delivery and marketing of goods and services, the creation and protection of confidential information and other intellectual property, and risks arising from employment and contractor relationships. Also reviews risk management strategies available under the law of tort and contract.

Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 561 - Units: 0.5-1.5
Entrepreneurial Planning and Finance
Part of the integrated MBA Entrepreneurship module, focuses on differences between ideas and opportunities, identifying necessary information to screen and analyze the risks attached to shaping opportunities into viable businesses, understanding financial data and use of quantifiable factors in the entrepreneurial decision process. Students understand essential elements of a business plan, the catalyst for skill development of entrepreneurial new venture ideas.

Note: Not open to students with credit in the Entrepreneurship Specialization courses previously offered under MBA 595. The unit value of a course section will be specified according to the program in which it is delivered.
Corequisite(s): MBA 562 and MBA 563.

MBA 562 - Units: 0.5-1.5
New Venture Marketing
Part of the integrated MBA Entrepreneurship program, develops the thinking skills required to: develop valued products, understand customers and markets, and gain market acceptance with limited resources.

Note: Not open to students with credit in the Entrepreneurship Specialization courses previously offered under MBA 595. The unit value of a course section will be specified according to the program in which it is delivered.
Corequisite(s): MBA 561 and MBA 563.

MBA 563 - Units: 0.5-1.5
Entrepreneurial Strategy
Part of the integrated MBA Entrepreneurship program, develops skills necessary to plan a venture’s strategy, business model and competitive position, to assess a strategy’s viability, and to develop implementation plans to realize that strategy. Models for international and social entrepreneurship and venture growth will also be discussed.

Note: Not open to students with credit in the Entrepreneurship Specialization courses previously offered under MBA 595. The unit value of a course section will be specified according to the program in which it is delivered.
Corequisite(s): MBA 561 and MBA 562.

MBA 564 - Units: 0.5-2.0
Entrepreneurship
Entrepreneurship is about new value creation in new for-profit ventures, social enterprises, existing corporations, government, and other contexts. Takes prospective entrepreneurs through the opportunity (value) identification and realization process with a focus on developing entrepreneurial expertise and an entrepreneurial mindset. Learners will apply key theory, frameworks, concepts, and tools towards their own entrepreneurial pursuit with the aim of getting to the proof-of-concept stage of development with a lean business plan.

Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 565 - Units: 0.5-2.0
International Business Environment I
Overview of international business and management, emphasizing globalization and its implications for individuals, organizations and nations. Explores topics in global and regional economic integration, sources of national competitive advantage, international trade and investment, corporate social responsibility (CSR) in international contexts, strategy and organization in multinational enterprises, emerging markets, and current issues related to the international business environment. Students will develop a world-view of today’s dynamic global marketplace and analytical skills for addressing complex global issues.

Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 566 - Units: 0.5-1.5
International Financial Management
An examination of international financial markets and the financial decision making of multinational firms. Topics include international monetary systems, balance of payments, exchange rate determination, foreign currency derivatives, risk management techniques, and financing the firm in global financial markets.

Note: Credit will be granted for only one of MBA 571, MGB 512.

MBA 567 - Units: 0.5-1.5
Consulting Methods I
Provides an overview of management consulting to help students gain an understanding of management consulting skills and competencies. These consulting skills can be used in the pursuit of a consulting career or integrated as part of general management knowledge. Designed to prepare students for 501 Applied Projects and 596 Integrative Project.

Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 568 - Units: 0.5-2.0
Consulting Methods II
Continuation of topics covered in Consulting Methods I.

Note: The unit value of a course section will be specified according to the program in which it is delivered.
MBA 588 Units: 1.0-7.5
Study Abroad
Students register in this course while participating in a formal academic exchange with a university outside of Canada.
Note: May be taken more than once for credit to a maximum of 7.5 units.

MBA 590 Units: 1.0-3.0
Directed Study
The content, credit value, and method of evaluation must be approved by the Director as well as the instructor offering the area of individual study prior to registration.
Notes: May be taken more than once for credit in different topics.
Pro Forma required.

MBA 595 Units: 0.5-5.0
Special Topics in Business Administration
Course content will reflect the interests of the faculty members and current issues in business and industry. Topics will vary annually. New specialization modules will also be introduced under 595.
Note: May be taken more than once for credit in different topics.

MBA 596 Units: 3.0
Integrative Project
An individual or group consulting project. Participating students work individually or are placed into small teams and, under faculty supervision, maintain a consulting/client relationship with a corporate sponsor. The students examine a problem of current interest to the sponsor and prepare detailed oral and written recommendations.
Grading: INP, COM, N, F

MBA 598 Units: 3.0
Research Project
A substantial analysis of a significant management problem or policy issue, prepared individually in consultation with a faculty advisor.
Note: Students choosing to take MBA 598 Research Project, rather than MBA 596 Integrative Project, will be required to take an appropriate Research Methods course of 1.5 units in lieu of or in addition to MBA 585. Students choosing MBA 598 should consult with their academic supervisor to identify an appropriate Research Methods course.
Grading: INP, COM, N, F

MBME
Master of Business Administration + Master of Engineering
MBA Program and Faculty of Engineering
Sardul S. Gill Graduate School of Business
Specifically for the MBA+MEng Double Degree Program which is jointly offered by the Sardul S. Gill Graduate School of Business and the Faculty of Engineering.
Other courses offered by the MBA Program are found under the following course code: MBA. Other courses offered by the MEng Programs are found under the following course codes: ECE and MECH.

MECH
Mechanical Engineering
Department of Mechanical Engineering
Faculty of Engineering
MECH 501 Units: 1.5
Introduction to Continuum Mechanics

MECH 504 Units: 1.5
Mechanical Vibration
Multi-mass linear systems; flexibility and stiffness matrices, natural frequencies, mode shapes and orthogonal properties, coupled and uncoupled system equations, solutions for damped or undamped response to arbitrary forcing and initial conditions. Linear continuous systems; wave equation problems and lateral beam vibration with classical boundary conditions. Effects of added mass or stiffness on frequencies and modes. Forced and transient response. Transfer matrix methods for lumped parameter systems and continuous systems; application to axial and torsional vibration of rods, shafts and beams with attached mass or stiffness. Non-linear vibration; basic methods for solution. Characteristic non-linear effects. Random vibration; elements of describing random response; Fourier transforms and frequency response functions.

MECH 510 Units: 1.5
Living Cells and their Molecules: Mechanics & Thermodynamics
Note: Credit will be granted for only one of MECH 510, MECH 580 (if taken in the same topic).

MECH 512 Units: 1.5
Introductory Haptics
Note: Credit will be granted for only one of MECH 512, MECH 580 (if taken in the same topic).

MECH 515 Units: 1.5
Biomaterials and Tissue Engineering
Introduction to the types of biomaterials and their associated properties. Experimental characterization techniques including microscopy, detection of chemical compositions, protein adsorption and immunoreactivity. Methods for combining biomaterials with cells to engineer tissues.
Note: Credit will be granted for only one of MECH 515, MECH 580 (if taken in the same topic).
MECH 520 Units: 1.5
Computer-Aided Design and Engineering
Fundamentals of computer graphics; basic elements of geometric modeling of solids and curved surfaces; advanced topics in engineering drawings; use of integrated CAD/CAM systems for modeling, simulation, and manufacturing. Credit will be granted for only one of MECH 520, MECH 521.

MECH 521 Units: 1.5
Computer-Aided Manufacturing (CAM)
Introduction to machining operations features of numerically controlled machine tools and types of CNC programming. Manual part programming with G-codes, canned cycles, subprograms, and simulation program. CNC machine tools and control and machine tool kinematics. CNC machining of curved surfaces, and surface machining strategies. Rapid prototyping or 3D printing. Machining mechanics and dynamics. Credit will be granted for only one of MECH 520, MECH 521.

MECH 522 Units: 1.5
Mechanics and Dynamics of Machining
Cutting Mechanics: orthogonal cutting, oblique cutting, cutting force modeling, mechanistic modeling, specific cutting energy formulation and identification, milling and turning, tool wear, and cutting temperatures. Cutting Dynamics: structural vibrations, damping, dimensional form errors in machining, modal analysis, and chatter vibrations in orthogonal cutting and milling. Credit will be granted for only one of MECH 522, MECH 580 (if taken in the same topic).

MECH 523 Units: 1.5
Modeling and Design of Advanced Hybrid Electric Vehicles
Background of Hybrid Electric Vehicle (HEV) powertrain technologies; vehicle power plants, electric propulsion systems, transmissions, and energy storage system; vehicle performance modeling and simulation using advanced powertrain modeling tools; design and optimization of HEV powertrain system; other key issues in HEV design and developments; HEV related research and case study. Credit will be granted for only one of MECH 523, MECH 580 (if taken in the same topic).

MECH 524 Units: 1.5
Planning and Control of Advanced Manufacturing Systems
Introduction to manufacturing and production systems with the basic taxonomy of manufacturing, types of production processes, components of a production system, and concept of production control. Production process planning covering the experience-based process planning, knowledge-based approach using decision tables and decision trees, process capability analysis, group technology, and Computer-Aided Process Planning. Topics of planning and control of production systems, including forecasting, inventory system, aggregate production planning, material requirements planning, and operation sequencing and scheduling. Case studies on the planning and control of advanced manufacturing systems. Credit will be granted for only one of MECH 524, MECH 580 (if taken in the same topic).

MECH 528 Units: 1.5
Global Optimization and Quantitative Reasoning Techniques
Review of conventional engineering optimization methods, global optimization algorithms, introduction of metamodelling and metamodel-based global optimization techniques, multi-objective and multi-disciplinary optimizations; knowledge representation and reasoning, rule-based systems, fuzzy pattern clustering and recognition, and artificial neural networks; applications of metamodel-based global optimization and quantitative reasoning for computational design and optimal control. Credit will be granted for only one of MECH 528, MECH 620.

MECH 531 Units: 1.5
Fluid Mechanics

MECH 535 Units: 1.5
Computational Fluid Dynamics and Heat Transfer

MECH 536 Units: 1.5
Microfluidics

MECH 537 Units: 1.5
Non-equilibrium Thermodynamics and Kinetic Theory of Gases
Conservation and balance laws, properties and property relations, 2nd law and interpretation of entropy, entropy generation and work loss, classical irreversible thermodynamics, cross effects and Onsager conditions. Kinetic theory of gases: Distribution function, Boltzmann equation, conservation laws, H-Theorem, continuum limit; the laws of Navier-Stokes and Fourier, higher order methods and moment equations, Knudsen layers, rarefaction effects.

MECH 538 Units: 1.5
Advanced Aircraft Design
Unmanned Air Vehicles and related systems. Aircraft multidisciplinary design optimization. Development, manufacturing and operating processes and procedures. Flight test principles, instrumentation, planning, and operation of aerospace vehicle flight testing. Flight test measurements, static-system calibration, rate-of-climb performance, and determination of vehicle flight dynamics. Credit will be granted for only one of MECH 538, MECH 580 (if taken in the same topic).

MECH 540 Units: 1.5
Transport Phenomena
Fundamentals of thermomechanics; kinematics, motion, stress, thermodynamics, fundamental principles of thermomechanics. Constitutive equations; basic principles and axioms, linearization of constitutive equations, constitutive equations of special materials such as Newtonian fluids and binary mixtures. Field equations for binary fluid mixtures. Mass transport; diffusivity and mechanisms of mass transport; examples of concentration distributions in binary fluids and dissolved gases (laminar flow), examples from ternary systems.

MECH 541 Units: 1.5
Advanced Thermodynamics

MECH 542 Units: 1.5
Energy Systems and Exergy Analysis
Macroscopic examination of energy systems, system architecture and evolution. Dynamics of energy systems. Characteristics and impacts of energy storage. Exergy balance and second law efficiency.

MECH 543 Units: 1.5
Cryogenic Engineering

MECH 544 Units: 1.5
Renewable Energy
Overview of major classes of renewable energy: solar photovoltaic, wind, biomass, hydro, solar thermal, tidal and wave. Examination of renewable energy from the perspective of: (1) extent, distribution and accessibility of the resource, (2) technologies for the conversion of the resource (3) current applications, and (4) prospects for future implementation.

MECH 546 Units: 1.5
Introduction to Ocean Engineering
MECH 547  Units: 1.5  
**Wind Systems**

**Note:** Credit will be granted for only one of MECH 547, MECH 580 (if taken in the same topic).

MECH 549  Units: 1.5  
**Fuel Cell Technology**

MECH 550  Units: 1.5  
**Advanced Control Theory**

MECH 551  Units: 1.5  
**Advanced Kinematics of Manipulators**

The material covered includes: point and direction, and line and screw motion description; homogeneous, line and screw coordinate, and quaternion representations; inverse displacement solution by analytic, root finding, hybrid and numerical methods; appropriate frames of reference; screw systems and transforms; local and globally optimum solution of redundant rates; overdetermined and near degeneration solutions; multi-arm kinematics. Application to open, closed parallel and hybrid, simple and general structures is considered.

MECH 554  Units: 1.5  
**Mechatronics**

Introduction to mechatronic systems; modeling of mixed mechatronic systems; microcontroller controller and interfacing theory, selection and implementation of sensors and actuators commonly used in mechatronic systems; control architectures and case studies in mechatronics systems.

**Note:** Credit will be granted for only one of MECH 554, MECH 580 (if taken in the same topic).

MECH 555  Units: 1.5  
**Micro-ElectroMechanical Systems**

MECH 558  Units: 1.5  
**Fundamentals of Hybrid Vehicles**

Background of hybrid electric vehicle (HEV) powertrain technologies; vehicle power plants, electric propulsion systems, transmissions, and energy storage system; vehicle performance modeling and simulation using advanced powertrain modeling tools; design and optimization of HEV powertrain system; other key issues in HEV design and developments; HEV related design project and case study.

**Note:** Credit will be granted for one of MECH 558, MECH 580 (if taken in the same topic).

MECH 559  Units: 1.5  
**Theoretical Kinematics**

Solution of nonlinear problems of kinematics involved in mechanism synthesis and manipulator solutions. Techniques including compatibility equations, 1/2 angle substitutions and eliminates. Applications including 4 and 5 precision point mechanism synthesis, and the inverse displacement solution of general serial layout and the forward displacement solution of parallel manipulators.

MECH 563  Units: 1.5  
**Finite Element Analysis**

Introduction to the basic principles of finite element analysis. Development of discrete equations for problems of 1, 2, and 3D elasticity. Applications to problems of stress analysis, vibrations, heat transfer and fluid flow. Includes a number of projects encouraging students to use large-size finite element analysis programs. Should be of interest to mechanical and electrical engineers, as well as students from the departments of Computer Science and Mathematics.

MECH 564  Units: 1.5  
**Advanced Finite Elements**

A continuation of Introduction to Finite Element models (420/563) that covers more advanced FEM applications to linear static problems in structural mechanics. In particular, axisymmetric solids, 3D solids, plates and shells, special elements and mesh generation. Emphasis will be given to modern formulations of high-performance finite elements, especially for plates and shells, as opposed to the classical displacement formulation covered in IFEM. Begins with an overview of variational formulations useful for FEM.

MECH 567  Units: 1.5  
**Ferrous and Non-Ferrous Metals**

The iron-carbon and iron-cementite phase diagrams; nucleation and growth of microstructural constituents; the martensite phase transformation; time-temperature-transformation (TTT) curves; properties affected by quenching, tempering and annealing; alloy additions; structural, high strength and specialty steels; welding; tool and stainless steels; cast irons; super alloys; metal matrix composites.

MECH 575  Units: 1.5  
**Engineering Ceramics**

Engineering ceramics: structure, properties and applications. Topics to be covered: historical significance of ceramics; definition of ceramics and glasses; structures of ceramics; glasses and glass ceramics; properties and applications of oxide and silicate ceramics; properties and applications of carbide, boride and nitride ceramics; ceramic processing; mechanical properties; toughening mechanisms for brittle ceramics; design concepts; ceramic capacitors; ferroelectrics; piezoelectrics and electro-optic ceramics.

MECH 579  Units: 1.5  
**Introduction to Electron Microscopy**

**Note:** Credit will be granted for only one of MECH 576, MECH 580 (if taken in the same topic).

MECH 580  Units: 1.5  
**Selected Topics in Mechanical Engineering**

**Note:** May be taken more than once for credit in different topics.

MECH 590  Units: 1.5  
**Directed Studies**

A wide range of topics will be available.

**Note:** Pro Forma required.

MECH 594  Units: 1.0  
**Seminar**

Participation in a program of seminars by internal and external speakers on current research topics. MEng students are not required to present.

**Prerequisite(s):** Admission to MEng program in Mechanical Engineering.

**Grading:** INP, COM, N, F

MECH 595  Units: 1.5  
**Seminar**

Participation in a program of seminars by internal and external speakers on current research topics. All MASc students will be required to give a seminar on their thesis research during the second year of the program.

**Prerequisite(s):** Admission to MASc program in Mechanical Engineering.

**Grading:** INP, COM, N, F

MECH 598  Units: 3.0  
**MEng Project Report**

**Grading:** INP, COM, N, F

MECH 599  Units: 9.0  
**MASc Thesis**

**Grading:** INP, COM, N, F

MECH 601  Units: 1.5  
**Engineering Analysis**

Introduction to mathematical methods used in engineering analyses with focus on the application to engineering problems rather than the rigorous proofs of mathematical concepts. Topics include: integral transformations including Laplace and Fourier transforms; complex analysis including analytic functions, theory of residues and conformal mapping; calculus of variations as applied to optimal control, finite element methods and wave equations; linear algebra including least squares problems, eigenproblems and matrix decompositions.

**Note:** Credit will be granted for only one of MECH 601, MECH 580 (if taken in the same topic).
MECH 693  Units: 3.0  
Candidacy Examination
PhD students enrol in 693 for the duration of their preparation for the candidacy examination. This begins at the time the PhD student first enrols in the PhD program and continues until the candidacy examination has been completed.
Pre- or Corequisite(s): MECH 601.
Grading: INP, COM, N, F

MECH 699  Units: 27.0  
PhD Dissertation
Prerequisite(s): MECH 693.
Grading: INP, COM, N, F

MGB
Master of Global Business  
Peter B. Gustavson School of Business

MGB 180  Units: 1.0  
Formerly: 580  
Language Skills I
Provides language instruction for students to significantly advance their skill and knowledge in another language. The essential points of structure and vocabulary will be taught, giving capability to function in everyday settings. Students will learn to share information about themselves in the target language and ask basic questions of those around them.
Notes:
• Credit will be granted for only one of MGB 180, MGB 580.
• May not be used for credit in any other undergraduate or graduate program.
Prerequisite(s): Admission to MGB program.
Grading: FNC.

MGB 181  Units: 1.0  
Formerly: 581  
Language Skills II
Further development of the language skills learned in 180.
Notes:
• Credit will be granted for only one of MGB 181, MGB 581.
• May not be used for credit in any other undergraduate or graduate program.
Pre- or Corequisite(s): MGB 180.
Grading: FNC.

MGB 182  Units: 1.0  
Formerly: 582  
Language Skills III
Further development of the language skills learned in 181.
Notes:
• Credit will be granted for only one of MGB 182, MGB 582.
• May not be used for credit in any other undergraduate or graduate program.
Pre- or Corequisite(s): MGB 181.
Grading: FNC.

MGB 502  Units: 0  
Introduction to Professional Practice
Preparation and training to undertake MGB Internship work terms. Includes preparation of cover letters and résumés, skills assessment and analysis, networking and interview skill development and career planning.
Note: Students are required to register in this course during the first and second terms of their MGB program.
Grading: INP, COM, N, F

MGB 510  Units: 1.0  
The North American Business Context
Examines the socio-economic, political and legal factors that affect business operations in Canada and the United States. Topics include the Canada/US business regulatory environments, economies, governmental and legal systems, labour markets, protection of intellectual property and international trade relationships including the North American Free Trade Agreement.

MGB 512  Units: 1.0  
International Financial Management
An examination of international financial markets and the financial decision making of multinational firms. Topics include international monetary systems, exchange rate determination, foreign currency derivatives, risk management techniques, and investments, financing and operations in global markets.
Note: Credit will be granted for only one of MGB 512, MBA 571.

MGB 516  Units: 1.0  
International Marketing and Global Strategy
An examination of the strategic challenges facing businesses in an international context, with a focus on marketing issues. Topics include the problems associated with controlling and coordinating activities in multiple markets, managing diverse markets, responding to consumer and competitor differences, understanding the impact of different institutional structures, and coping with market consolidation.
Note: Credit will be granted for only one of MGB 516, MBA 572.

MGB 519  Units: 1.0  
International Logistics and Supply Chain Management
Examines the issues involved in managing global supply chains and logistic flows. Topics are developed around the risks and opportunities of global sourcing. They include designing and implementing global supply chains, foreign manufacturing, inventory management, coping with security concerns, outsourcing, service standards, transportation options and performance evaluation.
Note: Credit will be granted for only one of MGB 519, MBA 529.

MGB 520  Units: 1.5  
The Asian Business Context
An overview of business operations in the Asian context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in Asia and that impact Asian firms doing business in regional and global settings.

MGB 525  Units: 1.5  
Developing Business in International Entrepreneurial Environments
Examines the analyses and knowledge needed for successful new global business ventures as well as within an international environment. Emphasis will be given to the various stages in the development of a business plan, from idea development to presentation of the plan.

MGB 530  Units: 1.5  
The European Business Context
An overview of corporate governance structures, legal and economic systems and environmental sustainability issues in the European Union and beyond. Prepares students to apply their knowledge and global perspective to solving business issues and challenges.

MGB 533  Units: 1.0  
Consulting Methods and Practice
Provides an overview of the process of management consulting, introduces students to consulting methods to help them gain knowledge of consulting and to highlight specific consulting and research skills. To practice the application of these methodologies, student teams will examine an issue or problem being faced by their assigned overseas organizations, and provide them with consulting advice. In addition, this course will ultimately prepare students for the MGB 536 International Research and Consulting Project.

MGB 536  Units: 3.0  
International Research and Consulting Project
An individual or group consulting report. Participating students, working individually or in small teams and under faculty supervision, research issues and maintain a consulting/client relationship with a corporate sponsor. The students examine a problem of current interest to the sponsor and prepare detailed written recommendations, make in-person presentations to clients and submit a final report.

MGB 537  Units: 1.5  
Global Internship
Students must complete at least 300 hours of work with an organization that normally (1) has an international component linking two or more regions, or (2) is located in any region of the world, provided that it is not the student’s “home” region or country. Requires students to apply their learning through a reflective component that describes how the coursework and the Internship experience in particular have prepared them for global business related careers.
Note: Students who fail to complete an internship by the end of four academic terms may be required to withdraw.
Prerequisite(s):
• MGB 502, or
• permission of the school.
Grading: INP, COM, N, F
MGB 540
The South American Business Context
An overview of business operations in the South American context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in South America and that impact South American firms doing business in regional and global settings.

MGB 550
The Middle East and North Africa (MENA) Business Context
An overview of business operations in the MENA context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in the MENA region and that impact MENA region firms doing business in regional and global settings.

MGB 560
The Sub-Saharan African Business Context
An overview of business operations in the sub-Saharan context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in the region and that impact sub-Saharan African firms doing business in regional and global settings.

MGB 570
Global Leadership and Cultural Intelligence
An examination of the various dimensions of culture and cross-cultural leadership and management. Topics include how cultural intelligence and global mindset impact teamwork, conflict management, negotiations, motivation and overall leadership in international settings. Compares how people from the three regions of the MGB program modules (e.g., North America, Asia and Europe) are similar and how they differ along these dimensions, including the challenges resulting from these differences and how to resolve them.

MGB 583
Language, Communication and Global Business
Provides a framework – in conjunction with students’ language courses – to explore relationships among language, communication, and culture, a subject highly relevant to global companies. Considers the process of language interaction in global organizations and shows how foreign language learning adds value to businesses and careers. Also examines example global companies that have shaped their language policies (often towards using English as the lingua franca), impacting individual and organizational performance.

Pre- or Corequisite(s): MGB 180.

MICR
Microbiology
Department of Biochemistry and Microbiology
Faculty of Science

MICR 570
Directed Studies in Microbiology
A wide range of microbiological topics will be available for assignment. Topics will be restricted to an analysis of recent advances. The student’s graduate adviser will not normally participate in directed studies taken for more than one unit of credit.

Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

MICR 599
MSc Thesis: Microbiology
Grading: INP, COM, N, F

MICR 699
PhD Dissertation: Microbiology
Corequisite(s): BCMB 693.
Grading: INP, COM, N, F

MRNE
Marine Science
Department of Biology
Faculty of Science

MRNE 500
Directed Studies
Units: 1.0-6.0

MRNE 501
Special Topics
Units: 3.0

MRNE 502
Special Topics
Units: 1.5

MUS
Music
School of Music
Faculty of Fine Arts

MUS 500
Selected Problems in Theory and Analysis
Note: May be taken more than once for credit with permission of the school.

MUS 501
Seminar in Musical Notations
Units: 1.5

MUS 502
Musical Aesthetics and the Theory of Criticism
Units: 1.5

MUS 503
Introduction to Graduate Study and Music Bibliography
Note: All students in musicology must register for this course in their first term of graduate study.

MUS 504
Seminar in Performance Practices
Note: May be taken more than once for credit with permission of the school.

MUS 506A
Advanced Recording Techniques
Advanced study to the theory and practice of recording audio technology, studio techniques and procedures. Study to include advanced studio microphone techniques, introduction to surround sound, high resolution formats including SACD, DVD-A, DSD, electroacoustic measurements and multi-track recording and theory. Practical work includes recording sessions, mixing and producing.

MUS 506B
Sound Recording Seminar
Advanced study of sound recording and music production techniques using the production of a full length CD or DVD as a model. Topics will include techniques in audio post-production and editing with advanced equipment, music production, location recording, and readings of current research and technical papers. Requires the completion of a full length CD or DVD project.

Prerequisite(s):
• MUS 506A; or
• permission of the school.

MUS 507
Computer Music Seminar

MUS 508
Formerly: 506.
Musical Acoustics
The physics of musical sound and the acoustics of musical instruments. Timbre, scales, tuning and temperament. An introduction to psychoacoustical issues.

Note: Credit will be granted for only one of MUS 508, MUS 506.

MUS 510
Computational Music and Audio Analysis
An in-depth examination of the approaches to the analysis of audio signals, computational modeling, and synthesis of musical signals, with a focus on creative applications.

MUS 511
Music Perception and Cognition
The examination of music as a human cognitive domain: the physiological, sensory and organizational processes involved in the perception and cognition of musical sound.

MUS 512
Music Technology Colloquium
Provides a forum for guest scholars and professionals, faculty members and students to present and discuss their research. Candidates for the MMus in Music Technology select their comprehensive examination field topics and develop their project proposals.

MUS 530
Topics in Musicology Before 1750
Note: May be taken more than once for credit in different topics.
MUS 531  
Topics in Musicology After 1750  
Units: 1.5  
Note: May be taken more than once for credit in different topics.

MUS 532  
Comparative Topics in Musicology  
Units: 1.5  
Note: May be taken more than once for credit in different topics.

MUS 533  
Graduate Forum in Musicology  
Develops skills in professional activities in the field of musicology, including delivering an in-house conference paper, serving as a respondent to a peer paper, and editing or publishing an article in Musicological Explorations. Provides a forum for program requirements leading up to the first year review.  
Units: 1.5

MUS 534  
Advanced Research Forum in Musicology  
Core seminar in advanced research skills for second-year degree candidates in Musicology that provides an interactive forum for completion of major program requirements. Students conduct research in diverse areas of inquiry in musicology and gain professional experience through the preparation of a conference presentation. Candidates for the MA complete their Comprehensive Examinations and a formal Thesis Proposal, while PhD candidates complete their formal proposal for the Comprehensive Examinations in the context of the Forum.  
Units: 1.5

MUS 540  
Individual Tuition  
Lessons in instrument or voice.  
Units: 0.5 or 1.0  
Note: May be taken more than once for credit with permission of the school.  
Prerequisite(s): Permission of the school.

MUS 545  
Major Instrument Study  
Individual tuition, integrated performance seminar and master class.  
Units: 4.0  
Note: May be taken more than once for credit with permission of the school.  
Prerequisite(s): Admission to MMus in Performance.

MUS 545Q  
Major Instrument Study  
For students in Master of Music (MMus) in Performance-Emphasis in String Quartet program.  
Units: 4.0  
Note: May be taken more than once for credit with permission of the school.  
MUS 545Q must be taken in each year of the program.

MUS 555  
Individual Tuition in Composition  
Units: 3.0  
Note: May be taken more than once for credit with permission of the school.

MUS 561  
Seminar in Composition  
Seminar in Composition, taken each year.  
Units: 1.5  
Notes: May be taken more than once for credit.  
A combined undergraduate and graduate course (MUS 462A Undergraduate Seminar in Performance of New Music).

MUS 562A  
Seminar in Performance of New Music  
This seminar/workshop provides intensive professional training for performers who work together with composers in the creation, performance, and production of new music. Graduate performers will prepare new works composed specifically for them by the composers registered simultaneously in 562B. Training in contemporary notation and performance practices, extended techniques, instrumentation, analysis, conducting techniques, communication skills, and concert production. The final project will be a festival.  
Units: 1.5  
Note: A combined undergraduate and graduate course (MUS 462B Undergraduate Seminar in Contemporary Composition and Performance).

MUS 562B  
Seminar in Contemporary Composition and Performance  
This seminar/workshop provides intensive professional training for composers who work together with performers in the creation and production of new music. Composers will create new works designed for small mixed ensembles of performers registered simultaneously in 562A, and work with them to prepare the works for performance. Training in contemporary notation and performance practices, analysis, instrumentation, communication skills, and concert production. The final project will be a festival.  
Units: 1.5

MUS 580  
Ensembles  
MMus candidates in Performance will normally register for both this course and 581 in each year of study. MA candidates in Musicology (with Performance) will normally select one of 580 or 581 each year, as determined in consultation with the supervisor.  
Units: 1.0  
Grading: INC, COM, N, F.

MUS 581  
Chamber Music  
MMus candidates in Performance will normally register for both this course and 580 in each year of study. MA candidates in Musicology (with Performance) will normally select one of 580 or 581 each year, as determined in consultation with the supervisor.  
Units: 1.0  
Grading: INC, COM, N, F.

MUS 588  
MMus Practicum  
Recital for performance candidates normally taken in first year.  
Units: 1.0  
Grading: INC, COM, N, F.

MUS 590  
Directed Studies  
Note: May be taken more than once for credit with permission of the school.  
Units: 1.5 or 3.0

MUS 596  
Lecture-Recital  
A lecture-recital of substantial duration, its topic likely related to the student's thesis. For students in the MA program in Musicology with Performance.  
Units: 1.5  
Grading: INC, COM, N, F

MUS 598A  
MMus Practicum  
Degree recital required for performance candidates in final year.  
Units: 1.5  
Grading: INC, COM, N, F

MUS 598B  
MMus Practicum  
Students in the Master of Music (MMus) in Performance-Emphasis in String Quartet Program must complete a total of 3 recitals to fulfill this requirement.  
Units: 3.0  
Grading: INC, COM, N, F

MUS 599  
MA Thesis  
Units: 3.0  
Grading: INC, COM, N, F

MUS 689  
Dissertation Proposal  
For candidates for the PhD in Musicology.  
Units: 1.5  
Grading: INC, COM, N, F

MUS 690  
Directed Studies  
Note: May be taken more than once for credit with permission of the school.  
Units: 1.5 or 3.0

MUS 693  
PhD Candidacy Examinations  
Students enrol in MUS 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrolls in the PhD program and continues until candidacy requirements have been completed.  
Units: 3.0  
Grading: INC, COM, N, F

MUS 699  
PhD Dissertation  
Units: to be determined  
Prerequisite(s): MUS 693  
Grading: INC, COM, N, F
NRSC 500 - NRSC 690

NRSC 500  Units: 3.0  
**Fundamentals of Neuroscience**

Provides graduate students with a foundational basis in neuroscience. Students cover the essentials of neuroscience, and receive comprehensive instruction in cellular, molecular, systems, behavioral and cognitive neuroscience from resident experts.

**Note:** This course is required for all students enrolled in the Neuroscience Graduate Program.

This course runs from September to April.

**Prerequisite(s):** Registration in a graduate program.

---

NRSC 501A  Units: 1.5  Hours: 3-0  
**Advanced Topics in Cellular Neuroscience I**

Seminar on current topics in Cellular Neuroscience.

**Note:** For admitted Neuroscience students, this course is required in the first year of their program. The course runs from September to April.

A grade of INP (in progress) will be given until the second enrolled term is completed.

---

NRSC 501B  Units: 1.5  Hours: 3-0  
**Advanced Topics in Cognitive Neuroscience I**

Seminar on current topics in Cognitive Neuroscience.

**Note:** For admitted Neuroscience students, this course is required in the first year of their program.

The course runs from September to April.

A grade of INP (in progress) will be given until the second enrolled term is completed.

---

NRSC 502A  Units: 1.5  Hours: 3-0  
**Advanced Topics in Cellular Neuroscience II**

Seminar on current topics in Cellular Neuroscience.

**Note:** Registration in NRSC 502A is mandatory (after completion of NRSC 501A) every year the student is enrolled in the graduate program.

The course runs from September to April.

**Prerequisite(s):** NRSC 501A or NRSC 501B.

**Grading:** INP, COM, N, F

---

NRSC 502B  Units: 1.5  Hours: 3-0  
**Advanced Topics in Cognitive Neuroscience II**

Seminar on current topics in Cognitive Neuroscience.

**Note:** Registration in NRSC 502B is mandatory (after completion of NRSC 501B) every year the student is enrolled in the graduate program.

The course runs from September to April.

**Prerequisite(s):** NRSC 501A or NRSC 501B.

**Grading:** INP, COM, N, F

---

NRSC 587  Units: 1.5 - 3.0  
**Advanced Topics in Neuroscience**

Topics of current interest in Neuroscience.

**Notes:**
- May be taken more than once for credit in different topics with permission of the program.
- Pro Forma required.

**Prerequisite(s):** Permission of the program.

---

NRSC 590  Units: 1.5 - 3.0  
**Directed Studies in Neuroscience**

Research projects or directed readings.

**Notes:**
- May be taken more than once for credit in different topics with permission of the program.
- Pro Forma required.

**Prerequisite(s):** Permission of the program.

---

NRSC 595  Units: 1.5  
**MSc Thesis Preparation**

Students will be engaged in preparing a thesis proposal for presentation to their supervisory committee. This course will need to be completed by all MSc students enrolled in the Graduate Program in Neuroscience before having a thesis proposal evaluated by their supervisory committee.

**Grading:** INP, COM, N, F

---

NRSC 599  Units: 9.0-12.0  
**MSc Thesis**

A thesis comprising an original scientific study and/or scientific analysis of a problem germane to contemporary neuroscience.

**Notes:**
- Students who have completed equivalent prerequisites may request permission to register in the course.
- NRSC 595; or
- permission of the program.

**Grading:** INP, COM, N, F

---

NRSC 600  Units: 3.0  
**Fundamentals of Neuroscience**

This is a team-taught course that provides graduate students with a foundational basis in neuroscience. Students cover the essentials of neuroscience, and receive comprehensive instruction in cellular, molecular, systems, behavioral and cognitive neuroscience from resident experts.

**Note:** This course is required for all students enrolled in the Neuroscience Graduate Program.

This course runs from September to April.

---

NRSC 601A  Units: 1.5  
**Advanced Topics in Cellular Neuroscience I**

Seminar on current topics in Cellular Neuroscience.

**Note:** For admitted Neuroscience students, this course is required in the first year of their program.

The course runs from September to April.

A grade of INP (in progress) will be given until the second enrolled term is completed.

---

NRSC 601B  Units: 1.5  
**Advanced Topics in Cognitive Neuroscience I**

Seminar on current topics in Cognitive Neuroscience.

**Note:** For admitted Neuroscience students, this course is required in the first year of their program.

The course runs from September to April.

A grade of INP (in progress) will be given until the second enrolled term is completed.

---

NRSC 602A  Units: 1.5  
**Advanced Topics in Cellular Neuroscience II**

Seminar on current topics in Cellular Neuroscience.

**Note:** Registration in NRSC 602A is mandatory (after completion of NRSC 601A) every year the student is enrolled in the graduate program.

The course runs from September to April.

**Prerequisite(s):** NRSC 601A or NRSC 601B.

**Grading:** INP, COM, N, F

---

NRSC 602B  Units: 1.5  
**Advanced Topics in Cognitive Neuroscience II**

Seminar on current topics in Cognitive Neuroscience.

**Note:** Registration in NRSC 602B is mandatory (after completion of NRSC 601B) every year the student is enrolled in the graduate program.

The course runs from September to April.

**Prerequisite(s):** NRSC 601A or NRSC 601B.

**Grading:** INP, COM, N, F

---

NRSC 687  Units: 1.5 - 3.0  
**Advanced Topics in Neuroscience**

Topics of current interest in Neuroscience.

**Notes:**
- May be taken more than once for credit with permission of the program.
- Pro Forma required.

**Prerequisite(s):** Permission of the program.

---

NRSC 690  Units: 1.5 - 3.0  
**Directed Studies in Neuroscience**

Research projects or directed readings.

**Notes:**
- May be taken more than once for credit with permission of the program.
- Pro Forma required.

**Prerequisite(s):** Permission of the program.
NRSC 693 - NUNP 531

NRSC 693  Units: 3.0
Candidacy Examination
The Candidacy exam will consist of a defence of a written proposal (10 page CIHR format) on the student's proposed dissertation research project and an oral exam based on the background material and research components of the proposal. The exam committee will be composed of a chair (current director of the neurosciences program or their designate) and at least three examiners. Members of the student’s supervisory committee (excluding the supervisor) may serve as examiners but at least one examiner must be from outside of the supervisory committee and at least one of the examiners must be from outside of the candidate’s supervisor’s department. The candidate’s supervisor is permitted to be present during the exam but is not permitted to participate or aid the student in any manner. Both the oral and written components of the exam must be successfully completed to advance in the program and a student may be required by the examining committee to be re-examined on either component if performance in the first instance is not deemed satisfactory. 

Note: Students enrol in NRSC 693 upon registering in the PhD program (or upon switching to the PhD program from the MSc program) and remain enrolled until all candidacy requirements are complete.

Grading: INP, COM, N, F

NRSC 699  Units: 21-39
PhD Dissertation
A dissertation containing an original scientific study which adds new knowledge to the field of neuroscience.

Note: Students who have completed equivalent prerequisites may request permission to register in the course.

Students possessing a MSc will require 21 units to fulfill the program requirements.

Students possessing a BSc will require 30 units to fulfill the program requirements.

Prerequisite(s):

• NRSC 693; or
• permission of the program.

Grading: INP, COM, N, F

NUED

Nursing, Advanced Practice: Nurse Educator Option
School of Nursing
Faculty of Human and Social Development
All nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

Courses offered by the School of Nursing are also found under the following course codes: NUED, NUNP, NURA, NURP, and NURS.

NUED 570  Units: 1.5
Formerly: NURA 530
Engaging with Pedagogy; Teaching and Learning in Nursing Education
Prepares students to explore and critically examine the philosophical, theoretical and ethical perspectives informing pedagogy in nursing education.

Note: Credit will be granted for only one of NUED 570, NURA 530.

Prerequisite(s): NUED 570.

NUED 571  Units: 1.5
Critical Pedagogy in Nursing Education and Evaluation
Students identify and critique ideologies and discourses relevant to teaching, learning and evaluation.

Note: Credit will be granted for only one of NUED 571, NURA 531.

Prerequisite(s): NUED 570.

NUED 572  Units: 1.5
Formerly: NURA 532
Intersectoral Course and Curriculum Design in Nursing Education
Students apply theoretical and critical knowledge in the development of nursing curriculum, courses and learning activities for intersectoral nursing education practice.

Note: Credit will be granted for only one of NUED 572, NURA 532.

Prerequisite(s): NUED 570 and NUED 571.

NUED 573  Units: 1.5
Nurse Educator Practice I
Students will have opportunities to further integrate their evolving knowledge of Advanced Practice Nursing: Nurse Educator option through working with expert teachers in clinical, academic, and/or community settings.

Prerequisite(s): NUED 570.

Corequisite(s): NUED 571.

Grading: INP, COM, N, F.

NUED 574  Units: 1.5
Nurse Educator Practice II
Students integrate their evolving knowledge of Advanced Practice Nursing: Nurse Educator option through teaching practice with expert teachers in clinical, academic, policy and/or community settings.

Prerequisite(s): All of NUED 570, NUED 571, NUED 572, NUED 573

Grading: INP, COM, N, F.

NUHI

Nursing and Health Information Science
School of Nursing
Faculty of Human and Social Development
Specifically for Double-Degree MN option in Nursing and Health Information Science.

All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

Courses offered by the School of Nursing are also found under the following course codes: NUED, NUNP, NURA, NURP, and NURS.

NUHI 599  Units: 6.0
Thesis
Students working independently, with faculty guidance from both Nursing and Health Information Science, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

Grading: INP, COM, N, F

NUNP

Nursing, Advanced Practice: Nurse Practitioner Option
School of Nursing
Faculty of Human and Social Development
All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

Courses offered by the School of Nursing are also found under the following course codes: NUED, NUNP, NURA, NURP, and NURS.

NUNP 531  Units: 1.5
Applied Pathophysiology
Provides students with the advanced knowledge of pathophysiology required to understand, diagnose and treat health and illness in primary health care contexts. Includes an overview of individual and family growth and development as well as the epidemiology of health and disease across the lifespan. Students will learn about the etiology, signs and symptoms, assessment and treatment of common acute/episodic health conditions, diseases or disorders and chronic illnesses prevalent across the lifespan.
NUNP 532 - Units: 1.5
Pharmacological Interventions in Health and Illness
An opportunity for students to gain advanced knowledge of pharmacology, including pharmacokinetics and pharmacodynamics. Students will learn about evidence informed practice in the selection, prescription and monitoring of drugs to treat diseases, disorders or conditions and injuries. By the end of the course they should know how to select drug therapy based on knowledge of pharmacology, drug interactions, client health history and client disease, disorder or condition. Students will be prepared to write prescriptions that meet both provincial and federal standards and legislative requirements, including responsibilities relevant to prescription and management of controlled substances. Further, students will examine the effects of the marketing practices of pharmaceutical companies on prescribing practices and explore the ethics and implications for practice as a family nurse practitioner.

NUNP 537 - Units: 1.5
Family Nurse Practitioner Integration Internship
Students demonstrate synthesis of knowledge, skills and abilities, and integration of learning across the curriculum in preparation for NP registration and employment. Students complete 150 faculty and practice preceptor(s) supervised practicum hours, and lead a community-based proposal addressing health service gaps, continuity of care, and/or health promotion/illness prevention. Required onsite component.

Note: Students may be required to demonstrate knowledge and skills obtained in all of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544, NUNP 545, NUNP 546, NUNP 547, NUNP 548 upon enrolment in NUNP 540 if 12 months or more has lapsed between their completing these courses and enrolment in NUNP 540/541 if 12 months or more has lapsed between their completing these courses and NUNP 540. Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544, NUNP 545, NUNP 546, NUNP 547, NUNP 548.

Grading: INC, COM, N, F

NUNP 540 - Units: 1.5
Advanced Assessment and Diagnostic Reasoning Theory
The theoretical knowledge, judgment, skills, and abilities required by advanced practice nurses, specifically nurse practitioners, to assess individuals across the lifespan, families and communities. Includes comprehensive and holistic health assessments that integrates the psychosocial, emotional, ethnic, cultural, and spiritual dimensions of health, health promotion and disease prevention, and diagnostic reasoning. Integration of an advanced practice nursing perspective will help students critique various approaches to assessment of health and illness.

Notes:
• Credit will be granted for only one of NUNP 540, NUNP 533.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite course they may be required to complete both corequisites again the next time they are offered. Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532 upon enrolment in NUNP 540/541 if 12 months or more has lapsed between their completing these courses and NUNP 540.

Prerequisite(s): NUNP 531 and NUNP 532.
Corequisite(s): NUNP 541.

NUNP 541 - Units: 1.5
Advanced Assessment and Diagnostic Reasoning Practice
An opportunity for 150 hours of practice experience through the application of theoretical knowledge required by advanced practice nurses, specifically nurse practitioners, to assess individuals across the lifespan, families and communities. The focus is on the development of students’ knowledge, judgment and skills related to the application of core nurse practitioner (NP) competencies of health assessment, health promotion and disease prevention and professional roles and responsibilities. There will be a required onsite component in this course.

Notes:
• Credit will be granted for only one of NUNP 541, NUNP 533.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite course they may be required to complete both corequisites again the next time they are offered. Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532 upon enrolment in NUNP 540/541 if 12 months or more has lapsed between their completing these courses and NUNP 540.

Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541.
Corequisite(s): NUNP 544.

NUNP 543 - Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: I (Theory) (Adult I)
Advanced practice nursing with persons who experience episodic illness conditions, chronic diseases, and complex health challenges. Particular attention is paid to theoretical perspectives and skill development related to nurse practitioner core competencies with culturally diverse young to middle-aged adults and families. Selected concepts, theories, and research associated with health promotion and maintenance, and illness prevention are explored within the community context. Students will receive a letter grade upon completion.

Notes:
• Credit will be granted for only one of NUNP 543, NUNP 534, NUNP 550.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered. Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540 and NUNP 541 upon enrolment in NUNP 543/544 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 543/544.

Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541.
Corequisite(s): NUNP 544.

NUNP 544 - Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: I (Practice) (Adult I)
An opportunity for 150 hours of practice experience through which students engage in advanced practice nursing under the guidance of a course instructor and clinical preceptor. Integration of philosophical, theoretical, and methodological perspectives gleaned from 543 as well as from core courses within the program is sought. There will be a required onsite component to this course. Upon completion of the practice component, students will receive a pass/fail grade.

Notes:
• Credit will be granted for only one of NUNP 544, NUNP 534, NUNP 551.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered. Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540 and NUNP 541 upon enrolment in NUNP 543/544 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 543/544.

Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541.
Corequisite(s): NUNP 543.
Grading: INC, COM, N, F
NUNP 545 Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: II (Theory) (Childbearing/rearing Families and Children)
Advanced practice nursing with persons who experience episodic illness conditions, chronic diseases, and complex health challenges. Particular attention is paid to theoretical perspectives and skill development related to nurse practitioner core competencies with culturally diverse childbearing families, infants, children, adolescents, and pregnant women. Health promotion and illness prevention are explored within the community context. After completion of the theory component, students will receive a letter grade.
Notes:
- Credit will be granted for only one of NUNP 543, NUNP 535, NUNP 560.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
- Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543 and NUNP 544 upon enrolment in NUNP 545/546 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 545/546.
Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544.
Corequisite(s): NUNP 546.

NUNP 546 Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: II (Practice) (Childbearing/rearing Families and Children)
An opportunity for 150 hours of practice experience through which students engage in advanced practice nursing under the guidance of a course instructor and clinical preceptor. Integration of philosophical, theoretical, and methodological perspectives gleaned from 545 as well as from core courses within the program is sought. There will be a required onsite component to this course. Upon completion of the practice component, students will receive a pass/fail grade.
Notes:
- Credit will be granted for only one of NUNP 544, NUNP 535, NUNP 561.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
- Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543 and NUNP 544 upon enrolment in NUNP 545/546 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 545/546.
Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544.
Corequisite(s): NUNP 545.
Grading: INC, COM, N, F.

NUNP 547 Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: III (Theory) (Adult II)
Advanced practice nursing with persons who experience episodic illness conditions, chronic diseases, and complex health challenges. Particular attention is paid to theoretical perspectives and skill development related to nurse practitioner core competencies with culturally diverse older adults and families. Selected concepts, theories, and research associated with health promotion and maintenance, illness prevention, chronic disease management, and end of life care are explored within the community context. Upon completion of the theory component, students will receive a letter grade.
Notes:
- Credit will be granted for only one of NUNP 547, NUNP 534, NUNP 550.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
- Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, and NUNP 544 upon enrolment in NUNP 547/548 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 547/548.
Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544.
Corequisite(s): NUNP 548.

NUNP 548 Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: III (Practice) (Adult II)
An opportunity for 150 hours of practice experience through which students engage in advanced practice nursing under the guidance of a course instructor and clinical preceptor. Integration of philosophical, theoretical and methodological perspectives gleaned from 547 as well as from core courses within the program is sought. There will be a required onsite component to this course. At the completion of the practice component, students will receive a pass/fail grade.
Notes:
- Credit will be granted for only one of NUNP 548, NUNP 534, NUNP 551.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
- Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, and NUNP 544 upon enrolment in NUNP 547/548 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 547/548.
Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544.
Corequisite(s): NUNP 548.
Grading: INC, COM, N, F.

NUNP 549 Units: 1.5
Evaluation Synthesis
The culminating educational experience for NP students, and the singular opportunity for faculty members to assess students’ evolution toward the terminal goals of the MN-NP program. Serves as an evaluation instrument in which students demonstrate their synthesis of coursework, knowledge, skills and experiential learning, to reveal a broad mastery of their learning across the curriculum in preparation for successful registration, initial employability and further career advancement.
Note: Students may be required to register in this course over two (2) consecutive terms.
Grading: INC, COM, N, F.

NURA Nursing, Advanced Practice: Nurse Leadership Option
School of Nursing
Faculty of Human and Social Development
All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.
Courses offered by the School of Nursing are also found under the following course codes: NURS, NUEO, NUNP, NUP and NURS.

NURA 516 Units: 1.5
Nursing Leadership I
Exploration of advanced practice nursing leadership roles and competencies with a focus on the patient/client and the nurses’/nursing spheres of influence. Collaboration and consultation competencies as they relate to client-centred care and interprofessional/intersectoral teams will also be explored.
Pre- or Corequisite(s):
- NURS 506 and NURS 507; or
- permission of the department.

NURA 517 Units: 1.5
APL Praxis I
Integration of students’ evolving knowledge of Advanced Practice Nursing through practice with a particular population. Students develop a personalized learning plan that focuses on clinical leadership, consultation, collaboration and research competencies. In collaboration with field guides, students engage in a minimum 104 practice hours and develop a project plan for 518.
Pre- or Corequisite(s): NURA 516 and NURS 508.
Grading: INC, COM, N, F.

NURA 518 Units: 1.5
APL Praxis II
Continuing integration of Advanced Practice Nursing with a particular population. Students develop a personalized learning plan that focuses on systems leadership and research/evaluation competencies. In collaboration with a field guide, students engage in a minimum of 104 practice hours and complete a practice project that contributes to the scholarship of nursing practice.
Pre- or Corequisite(s): NURA 516 and NURS 508.
Grading: INC, COM, N, F.
NURA 519 - NURS 522

NURS 519  Units: 1.5
Nursing Leadership II
Exploration of the influences and effects of contemporary leadership practices related to health systems and organizations. The impact of current organizational structures and discourses on the delivery of health care, development of health policy and enactment of advanced practice nursing will be explored.
Pre- or Corequisite(s):
•  NURA 516, or
•  permission of the program.

NURP

Nursing Policy and Practice
School of Nursing
Faculty of Human and Social Development
All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.
Courses offered by the School of Nursing are also found under the following course codes: NUED, NUHI, NUNP, NURA, and NURS.

NURP 598  Units: 3.0
Formerly: 597
Practice Project
Designed for students not completing the Thesis Option (NURP 599). Students will complete a project that is creative, innovative and contributes to scholarly practice in an area of professional interest. The project is intended to facilitate synthesis of students' graduate experience and contribute to their development as a leader in nursing. Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

Notes:
•  Credit will be granted for only one of NURP 598, NURP 597.
•  The examining committee of a student sitting a non-thesis oral will be comprised of a supervisor, a committee member, a Chair and an External Examiner.

Grading: INP, COM, N, F

NURP 599  Units: 6.0
Thesis
An alternative to the Practice Project (NURP 598). Students working independently, with faculty guidance, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

Grading: INP, COM, N, F

NURS

Nursing
School of Nursing
Faculty of Human and Social Development
All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.
Courses offered by the School of Nursing are also found under the following course codes: NUED, NUHI, NUNP, NURA, and NURP.

NURS 500  Units: 1.5
Scholarly Writing for Advanced Practice Nursing
Review of academic writing fundamentals and processes. Students select topics relevant to their program foci and write a summary/critique of scholarly literature, a limited literature review, and an argument paper. Students learn to participate in peer review and revision to improve their writing.

NURS 503  Units: 1.5
Qualitative Approaches to Research in Nursing
Nursing phenomena are considered through a range of qualitative research approaches. Central to this process is an exploration of interrelationships between and among philosophical tenets and the construction of research questions, selection of methods, and theoretical influences on data interpretation and analysis for a range of qualitative approaches to research.
Prerequisite(s):
•  NURS 508; or
•  permission of the school.

NURS 504  Units: 1.5
Phenomenological and Hermeneutic Approaches to Inquiry
An opportunity to explore assumptions and values underlying selected approaches to interpretive inquiry: hermeneutics and phenomenology. Focuses on the philosophical and methodological underpinnings of interpretive thinking/practice/research through readings/conversation of interpretive texts. The practice of developing interpretive writing/thinking is an important part of this process. Students will participate in a project that provides an experience for the generation and interpretation of text, related to their area of practice/research interest.
Prerequisite(s):
•  NURS 508; or
•  permission of the school.

NURS 508  Units: 1.5
Methodological Knowledge and Advanced Practice Nursing
Explores a variety of approaches to research guided by a philosophical framework that includes ontology, epistemology and ethics. Emphasis will be placed on developing student’s abilities to critically appraise and synthesize research studies with a view to clarity, consistency and coherence.
Note: Credit will be granted for only one of NURS 508, NURA 515.
Prerequisite(s): NURS 506.

NURS 509  Units: 1.5
Evaluation of Health Care
Exploration of concepts, theories and strategies for evaluating nursing care and health programs/services as applied to a range of health care settings.
Prerequisite(s):
•  NURS 508 and NURA 516; or
•  permission of the school.

NURS 510  Units: 1.5
Applied Statistics in Nursing
Students will develop familiarity with advanced statistical methods as they are applied to nursing and health care. These will include multiple linear regression, factor analysis, and multivariate analysis of variance. A brief introduction to structural equation modelling and psychometric methods may be offered.
Prerequisite(s):
•  NURS 425; or
•  permission of the school.

NURS 520  Units: 1.5
Formerly: NURS 506
Nursing Disciplinary Knowledge
Explores philosophical discourses in the study of nursing, and introduces a philosophical framework that includes ontological, epistemological, and ethical knowledge for critique and expansion, including Indigenous perspectives. Emphasis is placed on paradigms of belief that inform and support innovation and creativity for human flourishing in advanced practice nursing.
Notes:
•  Credit will be granted for only one of NURS 520, NURS 506, NURA 511, NURA 512.
•  NURS 520 is foundational to the MN program for all students and must be taken at the beginning of the program.

NURS 521  Units: 1.5
Formerly: NURS 507
Advanced Practice Nursing and Professional Identity
Explores nursing as an academic field of study with emphasis on theories, including Indigenous perspectives that inform and shape the discipline of nursing, professional identity, and advanced practice nursing. Critique, expansion, and limits of theory are examined within a philosophical framework of ontological, epistemological, and ethical congruence.
Note: Credit will be granted for only one of NURS 521, NURS 507, NURA 512, NURA 513.

NURS 522  Units: 1.5
Formerly: NURS 514
Nursing Ethics for Health System Transformation
Explores various theories, including decolonizing practices and Indigenous perspectives that inform ethics for advanced practice nursing, collaboration, decision-making, and change in light of health care system trends, issues and roles for nurses. Critique, expansion, and limits of ethics are examined within a philosophical framework of ontological, epistemological, and ethical congruence.
Note: Credit will be granted for only one of NURS 522, NURS 514, NURA 514.
**NURS 523** Units: **1.5**
Formerly: **NURS 502A**
**Disciplinary Research for Advanced Practice Nursing**
Develop an understanding of research processes comprising critical analysis of existing knowledge, including Indigenous perspectives, creating relevant research questions, discerning appropriate methodologies, and critiquing research within interpretive approaches and statistical literacy. Critique, expansion, and limits of research are examined within a researcher pathway, philosophical framework, and the integral role of research in advanced practice nursing.

**Notes:**
- Credit will be granted for only one of NURS 523, NURS 502A, NURS 507, NURS 508, NURA 512, NURA 513.
- Students who have equivalent undergraduate level statistics and research course successfully completed within the past five years may request permission of the department to register in the course.

**Prerequisite(s):**
- 1.5 units of 300- or 400- level STAT course; or permission of the school.

**NURS 524** Units: **1.5**
Formerly: **NURS 502B**
**Professional Inquiry for Advanced Practice Nursing**
Develop coherent arguments for evaluation and program management, and understand diverse approaches to knowledge synthesis, translation and dissemination, including Indigenous perspectives. Critique, expansion, and limits of evaluation and program management are examined within a philosophical framework of ontological, epistemological, and ethical congruence.

**Notes:**
- Credit will be granted for only one of NURS 524, NURS 502B, NURS 508, NURA 515.
- Students who have equivalent undergraduate level statistics and research course successfully completed within the past five years may request permission of the department to register in the course.

**Prerequisite(s):**
- 1.5 units of 300- or 400- level STAT course; or permission of the school.

**NURS 549** Units: **1.5**
**Health Services Research**
This course introduces nurses to health services research and examines the contributions that nurses make to this field of inquiry and to the health care system. Issues of significance for nurses and the knowledge nurses need to understand and engage in nursing health services research are explored. Key concepts such as population health, health care delivery, health policy, quality of care and related research methods will be examined.

**Prerequisite(s):**
- NURS 508; or permission of the school.

**NURS 568** Units: **1.5**
**Trends and Issues in Advanced Practice Nursing**
Students have the opportunity to explore the notion of advanced practice nursing (APN) and to consider the mandate, competencies, and divergent perspectives and knowledge bases related to APN as they challenge and extend the boundaries of nursing practice and advance the profession. Students will consider issues related to the definitions, competencies, legal, and ethical issues related to APN locally, nationally and internationally.

**Note:** Not open for credit to students with credit in all of NURS 565, NURS 566, NURS 567.

**Grading:** INC, COM, N, F.

**NURS 590** Units: **To be determined**
**Directed Studies**
An opportunity for students to develop individual studies at the graduate level (e.g., directed readings, research project etc.) with the supervision of one or more faculty members. A plan of study including focus, credit value and evaluation method is developed in consultation with a faculty member and must be approved by the graduate advisor prior to registering in this course.

**Notes:**
- May be taken more than once for credit in different topics with permission of the school.
- Pro Forma required.

**NURS 593** Units: **1.5**
**Thesis/Project Seminar**
Prepares students to select either a project or thesis option in their program and to finalize membership on the supervisory committee. Students will explore options for research and begin work on the project or thesis proposal.

**Grading:** INC, COM, N, F.

**NURS 594** Units: **1.5**
**Scholarly Inquiry: Integrating Knowledge and Practice**
Exploration of how scholarly inquiry and knowledge mobilization can promote evidence-informed nursing practice. Students also explore options for and discuss the process of completing a nursing practice, leadership, or education project.

**Note:** Credit will be granted for only one of NURS 594, NURS 593.

**Grading:** INC, COM, N, F.

**NURS 596** Units: **1.5**
**Nursing Scholarship: Integration & Dissemination**
Exploration of creative ways to integrate and disseminate what students have learned from the Master of Nursing program. Students will produce a scholarly paper, present their work, and respond to questions.

**Note:** Credit will be granted for only one of NURS 596, NURS 598.

**Grading:** INC, COM, N, F.

**NURS 598** Units: **3.0**
**Practice Project**
Students will complete a project that is creative, innovative and contributes to scholarly nursing practice in an area of professional interest. The project is intended to facilitate synthesis of students’ graduate experience and contribute to their development as advanced practice nurses. The project is an alternative to the Thesis Option (NURS 599). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

**Notes:**
- Credit will be granted for only one of NURS 598, NURS 596.
- The examining committee of a student sitting a non-thesis oral will be comprised of a supervisor, a committee member and a Chair.

**Grading:** INP, INC, COM, N, F.

**NURS 599** Units: **6.0**
**Thesis**
Students working independently, with faculty guidance, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. The thesis option is an alternative to the Practice Project (NURS 598). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

**Grading:** INP, INC, COM, N, F

**NURS 601** Units: **1.5**
**Philosophy in Nursing**
Explores the range of philosophical schools of thought and traditions that have influenced the development of the discipline of Nursing. Prepares students to participate in and contribute to knowledge development that will shape the evolution of the discipline.

**NURS 602** Units: **1.5**
**Epistemological Discourses in the Study of Nursing**
Explores the current state of theorizing that underpins nursing’s disciplinary and knowledge claims.

**Pre- or Corequisite(s):**
- NURS 601; or
- permission of the department.

**NURS 604A** Units: **1.5**
Formerly: **NURS 604**
**Research Methodology for Nursing and Health Care: Qualitative**
Explores assumptions and claims underlying qualitative methodologies that inform research in professional nursing practice and health care.

**Notes:**
- Credit will be granted for only one of NURS 604, NURS 604A.
- NURS 604A is not a pre- or co-requisite of NURS 604B.

**Prerequisite(s):** NURS 601.
NURS 604B  

Units: 1.5  

Formerly: NURS 604.  

Research Methodology for Nursing and Health Care: Quantitative  

This portion of the course will explore assumptions and biases underlying various quantitative methodologies that inform research in professional nursing practice and health care. We will examine quantitative research designs with particular emphasis on their appropriateness for addressing nursing and health problems. Issues specific to the design of nursing health care studies are explored.  

Notes:  
• Credit will be granted for only one of NURS 604, NURS 604B.  
• NURS 604A is not a pre- or co-requisite of NURS 604B.  

Prerequisite(s): NURS 601.  

NURS 620  

Units: 1.5 or 3.0  

Research Internship  

Research Internships are arranged with a specific faculty member and may be taken over one or several terms. During the Research Internship, a learner will have hands-on experiences with several aspects of research, for example, the conceptualization of a study, study design, applying for funding, obtaining ethical approval, accessing the field, collecting and analyzing data, writing, and knowledge translation.  

Prerequisite(s): Permission of the school.  

Grading: INP, COM, N, F  

NURS 621  

Units: 1.5  

Doctoral Seminar  

Opportunities to engage in dialogue about the contribution of doctoral education to the academic discipline and professional practice of nursing. This course will take place over two terms.  

Grading: INP, COM, N, F  

NURS 622  

Units: 1.5  

Dissertation Seminar  

Opportunities to engage in dialogue about topics that will support their preparation for doctoral candidacy exams and dissertation research. Students actively participate in the planning and process of the course, taking leadership roles and presenting their own scholarly work.  

Grading: INP, COM, N, F  

NURS 630  

Units: 1.5 or 3.0  

Teaching Internship  

Teaching Internships may be arranged with a specific faculty member and may be taken over one or several terms. During the Teaching Internship, a student will engage with several aspects of nursing education, for example, classroom or online teaching, educational research initiatives and/or, writing a paper for publication.  

Note: Pro Forma required.  

Prerequisite(s): Permission of the school.  

Grading: INP, COM, N, F  

NURS 679  

Units: 1.5-4.5  

Doctoral Research Seminar  

Based on an understanding of scholarship as a social and communal activity, these seminars provide students from across cohort’s opportunities to have conversations about research and scholarly activity, as well as topics relevant to becoming stewards of the discipline. Students decide on the topics to be covered and share responsibility for organizing sessions and arranging speakers.  

Note: Students will be required to take 1.5 units of NURS 679 coursework and can, with permission of their program supervisor, enroll in as many as 4.5 units of NURS 679 coursework. Scheduled over two terms to facilitate student engagement among multiple cohorts.  

Grading: INP, COM, N, F  

NURS 680  

Units: 1.5-4.5  

Special Topics in Research Methods  

Based on student demand, courses on the following focused topics will be organized for individuals or groups of students: issues of measurement, evaluation research, grounded theory, ethnography, hermeneutics and phenomenology, discourse analysis, historical analysis, instrument development and testing and participatory action research. This research-focused course is available to small groups of interested students and/or individuals by faculty members and/or visiting faculty.  

Notes:  
• May be taken more than once for credit in different topics with permission of the school to a maximum of 4.5 units.  
• Pro Forma required.  
• Students will be required to take 1.5 units of NURS 680 coursework and can, with permission of their program supervisor, enroll in as many as 4.5 units of NURS 680 coursework.  

NURS 690  

Units: 1.5 or 3.0  

Directed Studies  

Provides opportunities for students to develop individual studies at the doctoral level (e.g., directed readings, research project etc.) with the supervision of one or more faculty members. A plan of study including focus, credit value and evaluation method is developed in consultation with a faculty member and must be approved by the graduate adviser prior to registering in this course. We encourage students interested in a research topic to register for a NURS 680 course rather than a NURS 690.  

Note: Pro Forma required.  

Prerequisite(s): Permission of the school.  

NURS 693  

Units: 3.0  

Candidacy Examination  

Students enrol in NURS 693 to prepare for their candidacy examination. That includes: 1) completing candidacy exam papers or open-book exam and 2) successfully developing and defending a research proposal. Both milestones require an oral examination. The content of the papers or exam is related to course work, the substance and methodology of students’ research interests, and provides a basis for proposal development. Must be completed prior to registration in NURS 699.  

Grading: INP, COM, N, F  

NURS 699  

Units: 30.0  

Dissertation  

All doctoral students are required to prepare a dissertation upon which a public examination and defense is conducted. The dissertation must qualify as a significant and original contribution to disciplinary knowledge.  

Prerequisite(s): NURS 693.  

Grading: INP, COM, N, F  

PAAS 500  

Units: 1.5  

Theories of Pacific Region Societies  

Offers a critical review of contemporary social theory pertinent to the study of Pacific and Asian societies. Drawing on various scholarly approaches from the fields of sociology, anthropology, political science and history, readings will address the institutions, mechanisms, and values involved in social, cultural, and political transformations. Focuses on current theory about the nature and scope of globalization, commodification, or modernization, with particular emphasis on the effect of these on local social and cultural practice.  

PAAS 501  

Units: 1.5  

Cultural, Linguistic and Literary Theories in Asia-Pacific Studies  

Offers a critical review of contemporary cultural and literary theory pertinent to the study of Pacific and Asian societies. Drawing from various scholarly approaches of Marxism, post-structuralism, semiotics, feminist psychoanalysis, and critical art history, readings will address the often implicit meanings and conceptual boundaries encoded in cultural and artistic products. Explores the consequences of modernization and global vs. local realms, with a focus on the disturbances and complexities they generate in the subjective realm, where they often form the basis of creative expressions.  

PAAS 520  

Units: 1.5  

Special Topics in Pacific Studies  

Focuses on an area of faculty specialization. The topic will vary but may include one of the following: migration studies; state and civil society; the politics of culture; global and local relations; and gender and ethnic identity.  

PAAS 521  

Units: 1.5  

Special Topics in Asia-Pacific Literature, Linguistics and Culture  

Focuses on an area of faculty specialization. The topic will vary but may include one of the following: theatre studies; postcolonial literature; linguistics; popular culture; cinema studies; and critical assessments of the works of individual authors and artists.  

PAAS 550  

Units: 1.5  

Research Methodologies  

Required of all graduate students. We will work through the mechanics of designing a thesis, from initial conceptualization through to methodologies and analysis. Students will design a full thesis proposal and participate in a mock defense. 
PAAS 580 Units: 1.5
Advanced Readings in Japanese, Chinese or Indonesian
Critical reading and analysis of advanced works in the original language.

PAAS 590 Units: 1.5
Directed Studies
A directed readings course, to be taken with the thesis supervisor, which will allow students to develop in-depth understanding of their topic/area of specialization.

Note: May be taken more than once for credit in different topics to a maximum of 3 units.

PAAS 599 Units: 6.0-9.0
MA Thesis
Grading: INP, COM, N, F

PADR
Public Administration Dispute Resolution
School of Public Administration
Faculty of Human and Social Development

PADR 501 Units: 1.5
Collaboration and Engagement
The 21st century workplace requires conflict resolution competence and collaborative skills to work effectively in public and non-profit sector environments. Prepares students to anticipate, identify, assess, prevent, mitigate, and manage or resolve conflict. A critical approach to theory and practice is adopted and three distinctive areas of learning are woven together: integral theory and conflict analysis; negotiation; and facilitation.

Prerequisite(s): Admission to MA program in Dispute Resolution or admission to MPA program (on campus).

PADR 502 Units: 1.5
Formerly: PADR 502A
Analysis for the Public and Non-Profit Sectors
Provides an intensive introduction to qualitative and quantitative approaches and methods for research, policy analysis, evaluation and other analytical projects in the public and non-profit sectors. Offers students opportunities to learn and apply methodologies for evidence-informed decisions in organizational and inter-organizational settings.

Note: Credit will be granted for only one of 502, 502A, ADMN 502A, DR 515, CD 505.

Prerequisite(s): Admission to MA program in Dispute Resolution or admission to MPA (on campus) program.

PADR 503 Units: 1.5
Professional Integrity in the Public and Non-Profit Sectors
Builds professional competencies and reflective practice skills for those working in the public and non-profit sectors. Using a case-based approach, topics include: ethical dilemmas and management of disputes, the issues of personal responsibility and accountability; loyalty to employer; political and professional neutrality and obligations to the public interest; conflict of interest; confidentiality and transparency, and privacy protection. Students study standards of conduct established in both sectors and the philosophical theories which underpin them.

Note: Credit will be granted for only one of PADR 503, ADMN 422, ADMN 554, DR 512.
Prerequisite(s): Admission to MA program in Dispute Resolution or admission to MPA program (on Campus).

PADR 504 Units: 1.5
Public Leadership and Management
Introduces theories of leadership and management development and practice. Examines the role of leaders, managers and conflict specialists as agents of positive influence in complex socio-technical systems. Leadership, management and dispute resolution competencies will be introduced and developed in individual, team, organizational, and inter-organizational contexts. Through experiential learning, students will apply concepts to self, others (as team members), leaders and managers.

Note: Credit will be granted for only one of PADR 504, ADMN 507, DR 511.
Prerequisite(s): Admission to MA program in Dispute Resolution or admission to MPA program (on Campus).

PADR 505 Units: 1.5
Policy-making and Policy Communities
Students learn about the public policy-making process and develop skills in the art and craft of policy analysis. Introduces key concepts and theories and then builds skills and knowledge with information-gathering exercises, case studies, and preparation and presentation of decision briefs. Students review policy-making in a broad context, pulling together evidence and different analytical lenses for a variety of organizations and identify and recommend strategies and develop workable implementation and communication plans.

Note: Credit will be granted for only one of PADR 505, ADMN 556.
Prerequisite(s): Admission to MA program in Dispute Resolution or admission to MPA program (on Campus).

PADR 506 Units: 1.5
Resolution or admission to MPA program (on campus).

PADR 589 Units: 0 Hours: 1.5
Formerly: ADMN 589, DR 589
Co-op Seminar: Introduction to Professional Practice
Discusses the nature of co-operative education experiential expectations, how to bring learning into the co-op experience, and the services provided by the School of Public Administration Co-op Office. Guidance on how to succeed in co-op placements is provided: preparing résumés and covering letters, interviewing, networking, job development, managing diversity. Attendance at this non-credit course is required for all MADR and MPA On Campus students.

Notes:
- Credit will be granted for only one of PADR 589, ADMN 589, DR 589.
- Offered in the Fall academic term only.
Grading: INP, COM, N, F.

PHIL
Philosophy
Department of Philosophy
Faculty of Humanities

PHIL 500 Units: 1.5 or 3.0
Topics in Philosophy
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 514 Units: 1.5 or 3.0
Topics in Philosophy of Mind
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 521 Units: 1.5 or 3.0
Topics in Philosophy of Science
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 530 Units: 1.5 or 3.0
Topics in Logic
Note: May be taken more than once for credit in different topics with approval of the department.

PHIL 533 Units: 1.5 or 3.0
Topics in Applied Philosophy
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 534 Units: 1.5 or 3.0
Topics in Ethics
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 535 Units: 1.5 or 3.0
Topics in Social and Political Philosophy
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 541 Units: 1.5 or 3.0
Topics in Aesthetics
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 551 Units: 1.5 or 3.0
Topics in Epistemology
Note: May be taken more than once for credit in different topics with permission of the department.
PHIL 552  Units: 1.5 or 3.0
Formerly: part of PHIL 551
Topics in Metaphysics
Notes:
• Credit will be granted for only one of PHIL 552, PHIL 551 (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

PHIL 561  Units: 1.5 or 3.0
Topics in Philosophy of Language
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 570  Units: 1.5 or 3.0
Formerly: part of PHIL 551
Topics in Logic
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 590  Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 591  Units: 1.5
Research Methods Seminar
Exclusively for graduate students in philosophy. Aims to help students broaden their reading base and deepen their communication and critical skills by engaging with philosophical works and core issues in a variety of fields.

PHIL 592  Units: 1.5
Professional Development Practicum
Students must attend and demonstrate participation in philosophy colloquia, including regular preseminars, throughout the year. Attendance and evidence of participation will be tracked by the Graduate Adviser and Graduate Coordinator.
Grading: COM, N, F.

PHIL 598  Units: 4.5
Major Research Project
Students must complete a Major Research Project under the guidance of a supervisor and committee member. This project will normally take the form of a journal article-type submission. Normally the Major Research Project will be completed during the Summer Session following the first Winter Session. The Major Research Project is subject to Oral Examination by a committee.
Grading: INP, COM, N, F.

PHIL 693  Units: 3.0
Candidacy Examination
Grading: INP, COM, N, F.

PHIL 699  Units: 18.0
PhD Dissertation
Prerequisite(s): PHIL 693.
Grading: INP, COM, N, F.

PHSP 501  Units: 1.5
Public Health Epidemiology
An applied approach grounded in population-based data. Focuses on the distributions and determinants of health, disease, disability and mortality. Topics include: characteristics and dynamics of health and disease in human populations, including epidemiological strategies in examining the natural history of disease and the impact of disease on the population; population health assessment; surveillance and emerging social epidemiological models that attend to complex models of causation.

PHSP 502  Units: 1.5
Public Health Biostatistics
Uses an approach grounded in population-based data. Builds upon PHSP 501, and focuses on understanding health inequities across diverse settings and populations using biostatistics and epidemiological data to understand the life course determinants of health. Includes an overview of design and analysis of health-related data collection methods including survey methods. The basic concepts and methods of epidemiological biostatistical analysis are covered.
Prerequisite(s): PHSP 501.

PHSP 503  Units: 1.5
Public Health Practice I: Population Health and Health Promotion
Contributes to students’ theoretical and practical understanding of population health and its determinants as well as diverse constructions of health as a foundation for health promotion. Considers health promotion principles, models and approaches as well as inequalities in health in the context of social justice and cultural safety. Fosters understanding of health and its determinants, health inequities in Canada and globally, and a more in-depth understanding in at least one area of health promotion.

PHSP 504  Units: 1.5
Supportive Environments and Healthy Public Policy
Social environmental factors that impact the health of the community. Using a social-ecological model, attends to understanding the integral role of policy in the development of supportive environments. With an emphasis on critical analysis of health policy, students explore the development of healthy public policy in the management of public health concerns.

PHSP 505  Units: 1.5
Public Health Practice II: Public Health Interventions
Focuses on the range of evidence-informed public health interventions employed in public health practice. Based on the BC Core Public Health Functions Framework, examines strategies used to improve the health of a population including provision of public health prevention and improvement programs, disease and injury prevention, environmental health and health emergency management; strategies for health protection, health promotion, disease surveillance; public health capacity and infrastructure; the impact of public health services on health inequality.

PHSP 506  Units: 1.5
Public Health Research and Evaluation
Emphasis on evidence-informed practice, and examining community-based research strategies to explicate applied knowledge within the field of public health. Topics include literature synthesis approaches; program evaluation, qualitative research methods; and mixed methods.

PHSP 507  Units: 1.5
Practicum
All graduate diploma students are required to complete a 225 hour practicum. This planned, supervised and evaluated practicum will usually be completed at the end of the student’s program of study. Graduate diploma students who complete the diploma and wish to then complete the Master of Public Health will be required to take PHSP 589.
Prerequisite(s): All of PHSP 501, PHSP 503, PHSP 504.
Corequisite(s): PHSP 508A.
Grading: INP, COM, INC, N, F.

PHSP 508A  Units: 1.5
Formerly: 508
Culminating Report
As a culmination of the practicum experience all Graduate Diploma students are required to complete a report that demonstrates a synthesis and integration of coursework and other learning experiences in preparation for professional public health practice. Graduate diploma students who complete the diploma and wish to then complete the Master of Public Health will be required to take PHSP 508B.
Prerequisite(s): All of PHSP 501, PHSP 503, PHSP 504.
Corequisite(s): PHSP 507.
Grading: INP, COM, INC, N, F.

PHSP 508B  Units: 3.0
Culminating Report
As a culmination of the practicum experience all Master of Public Health students are required to complete a report that demonstrates a synthesis and integration of coursework and other learning experiences in preparation for professional public health practice.
Notes:
• Credit will be granted for only one of PHSP 508B, PHSP 590 (if taken in the same topic).
• Students who register in PHSP 589 for 1.5 units over two terms may enrol in PHSP 506 concurrently.
Prerequisite(s): All of PHSP 501, PHSP 502, PHSP 503, PHSP 504, PHSP 505, PHSP 506.
Corequisite(s): PHSP 589.
Grading: INP, COM, INC, N, F.

PHSP 540  Units: 1.5
Knowledge Development in Public Health Nursing
Examines the history of public health nursing focusing on exemplary leaders engaged in creating change in their community. The emergence of nursing knowledge and understanding public health nursing as a synthesis of public health and nursing science is emphasized. Includes a critical examination of the roles of nurses in public health as well as exploring exemplary nurse-led community based programs, services and policies related to disease prevention, health promotion and primary health care.
PHSP 541 Units: 1.5
Social Justice and Public Health Nursing
Emphasis on social justice as a philosophical base for public health nursing. From a critical perspective, students explore and compare theories of social justice. Drawing on personal and professional experience and using case examples, students explore the embodiment of social justice as ethical nursing practice.
Note: A requirement of this course is a condensed five-day on-campus seminar.

PHSP 542 Units: 1.5
Advanced Public Health Nursing Practice
Focuses on leadership and the conceptualization and application of advanced practice in public health nursing. Students engage in a critical analysis of advanced practice nursing as it relates to public health in Canadian and comparative contexts. Professional issues and advanced practice strategies are explored.

PHSP 550 Units: 1.5
Perspectives in Social Policy and Public Health
Informed by values of social justice, equity and diversity, focuses on a range of theoretical and practical perspectives that critically assess social policy and practice and public health issues in Canada in historical, contemporary and comparative contexts.
Note: A requirement of this course is a condensed five-day on-campus seminar.

PHSP 551 Units: 1.5
Social Values, Ideologies, and Policy Analysis
Addresses how social determinants of health and wellbeing, including existing patterns of cultural, economic and political relations and resources, impact public policies and practices; and, in turn, how healthy public policy can positively affect social environments and determinants in Canadian communities and society.
Graduate course in the Public Health and Social Policy program administered by the Faculty of Graduate Studies.

PHSP 552 Units: 1.5
Healthy Public Policy Strategies
Examines an assortment of public health approaches, including policy techniques and plans relating to health promotion, policy analysis and advocacy, capacity building, forming partnerships and collaborations, and strengthening communities. Also considers the importance of healthy public policies for various groups facing health disparities.

PHSP 589 Units: 1.5 or 3.0
Practicum
All MPH students are required to complete a 450 hour practicum. This planned, supervised and evaluated experience will usually be completed at the end of the student’s program of study.
Note: Students must take a total of 3.0 units of PHSP 589 in their MPH program.
Students who register in PHSP 589 for 1.5 units over two terms may enroll in PHSP 506 concurrently.
Students must pass both 1.5 unit sections of PHSP 589 in order to complete the course.
Prerequisite(s): All of PHSP 501, PHSP 502, PHSP 503, PHSP 504, PHSP 505, PHSP 506.
Corequisite(s): PHSP 508B.
Grading: INC, COM, INC, N, F

PHSP 590 Units: 1.5-4.5
Directed Studies
Comprises individual studies involving directed readings, projects or special studies under the direction of a faculty member. A proposal is developed in consultation with a faculty member and includes a plan for the evaluation of the student’s work. The proposal must be approved by the Director or Program Manager before students are allowed to register.
Note: May be taken more than once for credit in different topics with permission of the program to a maximum of 4.5 units.

PHSP 591 Units: 1.5
Special Topics in Public Health Studies
This is a variable content course focusing on specific interests of students and faculty members in the School of Public Health and Social Policy.
Note: May be taken more than once for credit in different topics with permission of the program.

PHSP 599 Units: 6.0
Thesis
Students, working independently, with faculty guidance, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. The thesis option is an alternative to the Culminating Project (PHSP 598). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.
Grading: INC, COM, N, F

PHYS

PHYS 500A Units: 1.5
Formerly part of 500
Quantum Mechanics
Topics may include angular momentum and symmetry, perturbation theory, scattering theory, density operators, quantum statistical mechanics.
Note: Credit will be granted for only one of PHYS 500, PHYS 500A.

PHYS 501A Units: 1.5
Quantum Theory and Quantum Fields
Further topics in quantum theory, and an introduction to quantum field theory focusing on quantum electrodynamics.
Note: Credit will be granted for only one of PHYS 501A, PHYS 500B, PHYS 600A.

PHYS 501B Units: 1.5
Advanced Quantum Field Theory
Further topics in quantum field theory.
Note: Credit will be granted for only one of PHYS 501B, PHYS 600B.

PHYS 502A Units: 1.5
Classical Electrodynamics
The classical theory of electrodynamics. Topics may include: electrodynamics as a relativistic field theory; static and retarded potentials; waves and their propagation in dispersive media; radiation and scattering.
Note: Credit will be granted for only one of PHYS 502A, PHYS 502.

PHYS 507A Units: 1.5
Solid State Physics I
First course on the quantum and classical physics of condensed matter: Electron energy band structure in crystals; ground state and quasiparticle excitations of metals and semiconductors; phonons, photons and the interactions between them.

PHYS 507B Units: 1.5
Solid State Physics II
Second course on the quantum and classical physics of condensed matter: Symmetries and group theory of states of matter; optical properties of solids; quantum coherence phenomena; magnetism.

PHYS 508 Units: 1.5
Topics in Nanophysics
Covers the physics of phenomena occurring on the nanometer length scale. Topics include nanostuctures and devices, nanomagnetism and spintronics, nanophotonics, and molecular electronics.

PHYS 509 Units: 1.5
Standard Model Phenomenology
An introduction to the Standard Model of particle physics, including its symmetries and field-theoretic structure. Further topics may include a brief introduction to Lie groups and their applications, spontaneous symmetry breaking, Goldstone’s theorem and the Higgs mechanism, aspects of quantum chromodynamics.
Note: Credit will be granted for only one of PHYS 509, PHYS 509B.

PHYS 511A Units: 1.5
Topics in Nuclear and Particle Physics I
A selection of advanced topics in nuclear and/or particle physics.
Note: May be taken more than once for credit.

PHYS 513 Units: 1.5
Topics in Theoretical Physics
A graduate course covering more advanced techniques and/or topical subjects in theoretical physics. Content varies.
Note: May be taken more than once for credit.

PHYS 515 Units: 1.5
Data Analysis Techniques for Physics and Astronomy
An advanced course in data analysis for the physical sciences. Topics may include: Numerical methods, probability theory, Monte Carlo methods, statistical analysis techniques, and signal and image processing.

PHYS 521A Units: 1.5
Techniques in Nuclear and Particle Physics
Topics may include: interaction of particles in matter; particle detection techniques and technologies; principles of particle accelerators; survey of existing facilities.
Note: May be taken more than once for credit in different topics with permission of the department.
PHYS 522  Units: 1.5
Topics in Accelerator Physics
Grading: May be taken more than once for credit.

PHYS 534  Units: 1.5
Radiotherapy Physics I
Principles of dosimetry of ionizing radiation with emphasis on applications to radiotherapy and radiobiology. Provides the basics of linear accelerator design as well as design of X-ray generating apparatus; also provides basics of electron and photon interactions with media, energy deposition in media, and radiation protection and shielding.

PHYS 535  Units: 1.5
Radiotherapy Physics II
A continuation of 534. Covers the physics and applied dosimetry of current external and internal irradiation treatment techniques.

PHYS 539  Units: 1.5
Radiation Dosimetry
The fundamentals of radiation dosimetry, ionization cavity theories and radiation dosimetry protocols. A variety of absolute and relative dosimetry techniques are also covered, with hands-on experience provided through a series of lab exercises on medical linear accelerators. Monte Carlo simulation of radiation transport for dosimetry applications is introduced.

PHYS 540  Units: 1.5
Medical Imaging
Fundamental theory and application of medical imaging, including radiology, computed tomography, magnetic resonance imaging, ultrasound, and nuclear medicine imaging. Basic principles, image formation and reconstruction, imaging instrumentation and hardware, and current trends of each imaging modality will be given.

PHYS 544  Units: 1.5
Topics in Radiation Biophysics
Topics in radiation biophysics, including DNA strand breaks, cell survival curves, fractionation and dose rate effects, oxygen effect, relative biological effectiveness, tumour radiobiology, radiation pathiology, radiobiological modelling, stochastic and deterministic effects, and molecular techniques in radiobiology.

PHYS 545  Units: 0.5
Anatomy and Physiology for the Medical Physicist
WebCT based course covering basics of anatomy and physiology. Aimed at students in medical physics who are interested in clinical and/or academic careers that will require interaction with radiation oncologists and other health care professionals.
Grading: INC, COM, N, F

PHYS 546  Units: 0.5
Clinical Shadowing
Shadowing course designed to give the student some insight into the clinical aspects of the medical physics profession. Under the guidance of a clinical physicist, students progress through a series of clinical areas. Modules illustrate the collaborative nature of the profession and the interaction with other medical professionals.
Grading: INC, COM, N, F

PHYS 560  Units: 0
Colloquium
Weekly physics and astronomy colloquium.
Grading: INC, COM, N, F

PHYS 580  Units: 1.0-3.0
Directed Studies
Notes:
• May be taken more than once for credit.
• Pro Forma required.

PHYS 599  Units: to be determined
MSc Thesis
Note: Normally 6 units.
Grading: INC, COM, N, F

PHYS 693  Units: 3.0
PhD Candidacy Examination
Students enrol in PHYS 693 during their preparation for the candidacy examination. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed. The candidacy examination is to be completed no later than two years after the student first registers in (or transfers to) the PhD program.
Grading: INC, COM, N, F

PHYS 699  Units: to be determined
PhD Dissertation
Note: Normally 30 units.
Corequisites: PHYS 693.
Grading: INC, COM, N, F

POLI 508  Units: 1.5
Comparative Politics
An examination of key issues and debates in the study of comparative politics. Involves a survey of the major literature in this field of political science.

POLI 509  Units: 1.5
Political Theory
An examination of key issues and debates in the study of political theory. Involves a survey of the major literature in this field of political science.

POLI 514  Units: 1.5
Politics of the European Union
An examination of key issues and debates in the study of the politics of the European Union. It will involve a survey of the major literature in the field of European politics.
Note: Credit will be granted for only one of POLI 513, POLI 514, POLI 533 (if taken in the same topic).

POLI 516  Units: 1.5
Canadian Politics
An examination of key issues and debates in the study of Canadian politics. Involves a survey of the major literature in this field of political science.

POLI 533  Units: 1.5
Themes in Contemporary Politics
A seminar dealing with an important theme or themes in contemporary politics. The content will vary from year to year.
Note: May be taken more than once for credit with permission of the department.

POLI 540  Units: 1.5
International Relations
An examination of key issues and debates in the study of international relations. Involves a survey of the major literature in this field of political science.

POLI 580  Units: 3.0
Legislative Internship Report
Grading: INC, COM, N, F

POLI 590  Units: 1.5
Directed Readings
Note: May be taken more than once for credit in different topics to a maximum of 3 units.

POLI 599  Units: 9.0
Thesis
Grading: INC, COM, N, F

POLI 600  Units: 1.5
Professional Development Seminar
A compulsory seminar for PhD students in Political Science that runs from September until April. Students are introduced to the professional aspects of the discipline including: how to write grant applications, how to teach effectively, how to design a syllabus and a CV, how to contribute to the administrative and intellectual community in their department and in political science more broadly.
Grading: COM, N, F

POLI 605  Units: 1.5
Problems of Political Analysis
A further examination of theoretical viewpoints in the study of politics. Intended for doctoral candidates preparing for comprehensive examinations.

**POLI 607 - Comparative Policy and Governance**
Also: ADMN 605

The study of diverging governance practices and policy outcomes in different jurisdictions. Focus is on: policy determinants such as history, culture, institutions, and the economy; policy dynamics and processes such as agenda-setting and decision-making; networks and communities, and policy change; and policy styles and transfer, referring to the state’s ability to design, coordinate, implement, and learn from policy interventions. Students will review seminal studies and undertake a comparative policy project. Intended for doctoral candidates preparing for a comprehensive examination in the field.

**Note:** Credit will be granted for only one of POLI 607, POLI 507, ADMN 605.

**POLI 608 - Comparative Politics**

An examination of key issues and debates in the study of comparative politics. Involves a survey of the major literature in this field of political science. Intended for doctoral candidates preparing for a comprehensive examination in the field.

**POLI 609 - Political Theory**

An examination of key issues and debates in the study of political theory. Involves a survey of the major literature in this field of political science. Intended for doctoral candidates preparing for a comprehensive examination in the field.

**POLI 610 - Theories of Public Management**

Explores different theories and approaches to understanding public administration and reform. Considers variations in three areas: political and constitutional authority, accountability and responsibility, and the roles of elected and non-elected officials; government structures, responsibilities for policy and service delivery, and distributed governance; and patterns and trends in central decision-making, budgeting, control, transparency, and citizen engagement. Students will review seminal comparative studies on administrative practice and reform and undertake a comparative study on a selected topic.

**Note:** Credit will be granted for only one of POLI 610, ADMN 604.

**POLI 614 - Politics of the European Union**

An examination of key issues and debates in the study of the politics of the European Union. It will involve a survey of the major literature in the field of European politics.

**Note:** Credit will be granted for only one of POLI 614, POLI 633 (if taken in the same topic).

**POLI 616 - Canadian Politics**

An examination of key issues and debates in the study of Canadian politics. Involves a survey of the major literature in this field of political science. Intended for doctoral candidates preparing for a comprehensive examination in the field.

**PSYC 500 - Professional Development**

Covers issues important to the academic and career success of graduate students in psychology. Topics include prerequisites to finding a job, preparing a curriculum vitae, the publication and review process, making presentations, obtaining grants, university policies (e.g., criteria and processes for tenure decisions), balancing family and career, and ethical issues in psychology.

**Grading:** INP, COM, N, F

**PSYC 501 - Practicum in Applied Psychology**

Practicum in an applied setting. 1 unit of credit equals approximately 100 hours.

**Note:** May be taken more than once for credit in different topics with permission of the department.

**Grading:** INP, COM, N, F

**PSYC 502 - Research Apprenticeship**

- May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units.
- Pro Forma required.
- The student must consult with the instructor about the area of study prior to registration.

**PSYC 503 - Practicum in Clinical Psychology**

Practicum in a clinical setting. 1 unit of credit is equivalent to approximately 100 hours.

**Prerequisite(s):**
- Admission to a graduate program in Clinical Psychology;
- permission of the department.

**Grading:** INP, COM, N, F

**PSYC 504 - Individual Study**

**Grading:** INP, COM, N, F

- May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
- The student must consult with the instructor about the area of study prior to registration.

**PSYC 505 - Clinical Intervention Practicum**

Practicum in a clinical setting with emphasis on various forms of intervention. 1 unit of credit is equivalent to approximately 100 hours.

**Prerequisite(s):**
- Admission to a graduate program in Clinical Psychology;
- permission of the department.

**Grading:** INP, COM, N, F

**PSYC 506A - Practicum in Psychology**

Formerly: 506

**Psychology Clinic Practice**

Supervised psychological practice in the Psychology Clinic, Department of Psychology.

**Note:** May be taken more than once for credit in different topics.

**Prerequisite(s):**
- Admission to a graduate program in Psychology;
- permission of the department.

**Grading:** INP, COM, N, F

**PSYC 506B - Practicum in Clinical Psychology**

Formerly: 506

**Psychology Clinic Practice: Test Mastery**

Supervised test mastery in the Psychology Clinic, Department of Psychology.

**Note:** Credit will be granted for only one of PSYC 506B, PSYC 506.

**Prerequisite(s):**
- Admission to a graduate program in Clinical Psychology;
- permission of the department.

**Grading:** INP, COM, N, F
PSYC 507 Units: 1.5  
**Personality**

**Notes:**
- May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
- The specific content area will be designated prior to registration.

PSYC 512 Units: 1.5-4.5  
**Research Practicum**

Practicum in a research setting with emphasis on planning, conducting, analyzing, and/or writing up research results under the supervision of faculty.

**Notes:**
- May be taken more than once for credit in different topics.
- The student must consult with the proposed research supervisor about the content and nature of the research activity prior to registration and complete a Pro Forma. The content must differ from but may be related to 599 or 699.

Prerequisite(s): Permission of the department.

Grading: INP, COM, N, F

PSYC 513 Units: 1.5 - 6.0  
**Quantitative Analysis**

Topical seminars on specialized issues related to quantitative analysis.

**Notes:**
- May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
- The specific content area will be designated prior to registration.

PSYC 517 Units: 1.5  
**Research Methods in Psychology**

**Notes:**
- May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
- The specific content area will be designated prior to registration.

PSYC 518 Units: 1.5  
**Psychometric Methods**

Topics typically include: historical background, sample descriptive statistics, norm referencing, e.g., percentiles, Z-scores, T-scores, criterion referencing, sensitivity/specificty, classical true score test theory, item response theory (IRT), reliability, validity, standard errors, test development, standards for clinical tests, and assessment of reliable change.

PSYC 520 Units: 1.5  
**Survey of Social Psychology**

In-depth examination of state-of-the-science theories and research in social psychology. Social thinking and social behaviour are explored through the study of individual processes (e.g., social cognition, motivation), interpersonal processes (e.g., social influence, helping, intimacy), and societal processes (e.g., group dynamics, intergroup relations, cultural and environmental influences). Emphasis is placed on the more recent advancements in social psychology and on the research interests and expertise of the instructor.
PSYC 546A - Units: 1.5
Advanced Neuropsychology: Children and Adolescents
In depth examination of typical neurodevelopment and associated acquired and neurodevelopmental disorders of children and adolescents, including a discussion of cognitive and behavioural profiles and techniques of neuropsychological assessment.
Prerequisite(s):
• All of PSYC 506B, PSYC 540, PSYC 545, PSYC 584; and
• admission to a doctoral program in Clinical Psychology; and
• permission of the department.
Grading: INC, COM, N, F.

PSYC 546B - Units: 1.5
Advanced Neuropsychology: Adults
In depth examination of typical neurodevelopment and associated acquired and neurodegenerative disorders of adults, including a discussion of cognitive and behavioural profiles and the techniques of neuropsychological assessment.
Prerequisite(s): Permission of the department.
Grading: INC, COM, N, F.

PSYC 547 - Units: 1.5
Formerly: 535D
Neuropsychological Intervention in Adults
Introduction to theory and techniques associated with management of neurological disorders. Topics include the relationship between impairment, disability, and handicap, current techniques in cognitive rehabilitation, and interventions with individuals and families.
Prerequisite(s): Permission of the department.
Grading: INC, COM, N, F.

PSYC 548 - Units: 1.5
Formerly: 515D
Special Topics in Neuropsychology
Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 549 - Units: 1.5
Neuropsychological Intervention in Children and Adolescents
Introduction to theory, methods and techniques associated with management of neurological, neuropsychological and learning disorders in children and adolescents. Topics include the relationship among impairment, disability, and functional status, with current empirically-based approaches for remediation and/or compensation of cognitive and academic skill deficits. Interventions will focus on individual children and families within both educational and social contexts.
Note: Enrolment may be limited.
Prerequisite(s):
• Admission to a doctoral program; and
• permission of the department.
Grading: INC, COM, N, F.

PSYC 550 - Units: 1.5
Formerly: 512A
Physiological Psychology: Introduction
Seminar discussing selected topics concerning fundamental neurobiological processes underlying behaviour, including synaptic transmission, motor and sensory activity, motivation, neural plasticity, and theories of neural organization.

PSYC 555A - Units: 1.5
Formerly: part of 531
Environmental Psychology of the Built Environment
Seminar review of theory and research in the environmental psychology of the built environment. The topics may include social design of buildings, human behaviour as it is related to built environments, environmental perception and cognition, and person-environment transactions in residences, neighbourhoods, schools, workplaces, retail stores, and public spaces.
Note: Credit will be granted for only one of PSYC 531, PSYC 533, PSYC 533A.

PSYC 555B - Units: 1.5
Formerly: part of 531
The Psychology of Nature, Sustainability, and Climate Change
Seminar review of theory and research in the environmental psychology of nature and sustainability. The topics may include sustainability-related behaviour, psychological restoration from nature, resource management, sustainability, and the psychological aspects of climate change.
Note: Credit will be granted for only one of PSYC 531, PSYC 533, PSYC 533A.

PSYC 560 - Units: 1.5
Formerly: part of 561
Research Methods in Lifespan Psychology
A critical examination of research designs and analytical approaches for understanding developmental and aging-related change and variation. Includes cross-sectional, longitudinal, sequential, experimental, and qualitative approaches.

PSYC 561 - Units: 1.5
Formerly: 560B
History and Theories in Lifespan Psychology
Seminar review of major classical and contemporary theoretical perspectives and their implications for the study of psychological development across the lifespan. Emphasis will be placed on the role of context in individual development.

PSYC 562 - Units: 1.5
Formerly: 560C
Infancy and Childhood
Seminar review of theory and research examining psychological development from infancy through childhood. Special topics include personality/temperament, attachment, parent-child relations, and socialization process. Emphasis is placed on the role of the context in individual development.

PSYC 563 - Units: 1.5
Formerly: 560D
Adult Development and Aging
Seminar review of theory and research examining psychological processes during adulthood and aging. Specific topics include memory, intelligence, problem solving, personality, social processes, and mental health. Attention is also given to the biological and sociocultural contexts of these developments.

PSYC 564 - Units: 1.5
Formerly: 561A
Advanced Analysis of Change and Variation
The emphasis is the general linear mixed model for repeated measurements and other nested data structures. Both multilevel and structural equation models will be examined and applied to longitudinal data. Special topics include time invariant and time-varying covariates, evaluation of alternative time structures, change in factor-level outcomes and analysis of intensive repeated measures designs.
Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.

PSYC 565 - Units: 1.5
Formerly: 561B
Cognitive Development in Adulthood and Aging
Seminar review of theory and research examining gains and losses in various cognitive skills from young adulthood to old age. Traditional experimental, psychometric, and cognitive science approaches are considered. Specific topics include age-related changes in memory, intelligence, problem solving, reading skills, as well as practical and social cognition.

PSYC 567 - Units: 1.5
Dysfunctional Development in Adulthood and Aging
Seminar review of theory and research examining dysfunctional and pathological processes in later life. Specific topics include dementia, depression, personality disorders, alcoholism and other addictions and suicide. Attention will be given to issues of etiology, diagnosis, treatment, and impact on caregivers.

PSYC 568 - Units: 1.5
Adolescence
Seminar review of theory and research examining psychological processes during adolescence. Specific topics include pubertal maturation, parent-adolescent relations, gender roles, sexuality, and problem behaviour. Attention will be given to the role of the context (e.g., family, school) in adolescent development.

PSYC 569 - Units: 1.5
Formerly: 562
Special Topics in Lifespan Development
Topical seminars on specialized issues related to lifespan development and aging.
Note: May be taken more than once for credit in different topics to a maximum of 6 units.
PSYC 570 - PSYC 586A

PSYC 570  Units: 1.5 or 3.0
Also: LING 570
Psycholinguistics
A seminar offered in collaboration with the department of Linguistics. Selected topics of interest in understanding the comprehension and production of natural language are examined. The most recent topics have been sentence processing, discourse analysis, linguistic inference and the resolution of ambiguity, and the development of cognitive science interests in reasoning and discourse processes as well as the structure of mental representations.

PSYC 574A  Units: 1.5
Cognitive Methods: Electroencephalography and Event-related Brain Potentials
An intensive, hands-on introduction to the basics of collecting and analyzing event-related brain potential (ERP) data.
Notes:
• Credit will be granted for only one of PSYC 574A, PSYC 574 (if taken in the same topic), PSYC 576 (if taken in the same topic).
Prerequisite(s): Permission of the department.

PSYC 574B  Units: 1.5
Cognitive Methods: Functional Magnetic Resonance Imaging
Introduction to theory and methods of functional magnetic resonance imaging (fMRI) for the study of mind and brain using lectures, discussions and hands-on lab exercises. Includes underlying physics and physiology, experimental design, data collection and preprocessing, statistical analysis, and various advanced methods.
Note: Credit will be granted for only one of PSYC 574B, PSYC 579 (if taken in the same topic).

PSYC 574C  Units: 1.5
Cognitive Methods: Computational Modelling
Exploration of methods of computational modelling of cognitive processes. Methods covered may include mathematical models, symbolic models, and neural network models. Theoretical foundations, procedures for fitting models, and applications to cognitive psychology and cognitive neuroscience will be considered.
Note: Credit will be granted for only one of PSYC 574A, PSYC 576B (if taken in the same topic).

PSYC 576A  Units: 1.5
Cognitive Processes: Human Memory
Exploration of current theories and research on selected aspects of human memory. One or more major topics within the domain of human memory will be studied in depth.
Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 576D  Units: 1.5
Cognitive Processes: Cognitive Control
Exploration of selected theories and research in cognitive psychology and/or the cognitive neuroscience of cognitive control. One or more major topics within the domain of cognitive control (e.g. working memory, attention, error detection, conflict monitoring, response inhibition, and/or decision making) will be studied in depth.
Note: May be taken more than once for credit in different topics with permission of department to a maximum of 6 units.

PSYC 576E  Units: 1.5
Cognitive Processes: Visual Perception
Exploration of current theories and research on selected aspects of visual perception. One or more major topics (e.g., object recognition, Gestalt perception, neuropsychology of visual perception) will be studied in depth.
Notes:
• Credit will be granted for only one of PSYC 576E, PSYC 571 (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of department to a maximum of 6 units.

PSYC 577  Units: 1.5
Cognitive Seminar
Weekly seminar throughout the Winter session, involving faculty and graduate students in the Cognitive Psychology Program. Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing cognitive psychological research.
Note: May be taken more than once for credit to a maximum of 9 units.
Prerequisite(s): Admission to a graduate program in Cognitive Psychology; or permission of the department.
Grading: INC, COM, N, F

PSYC 578  Units: 1.5
Research Methods in Clinical Psychology
Psychological research design issues with clinical populations. Topics include randomized controlled trials, efficacy versus effectiveness research, statistical versus clinical significance, cross-sectional and longitudinal research designs with clinical populations, qualitative methods and content analysis, single case experiments and case study methods, cognitive and physiological measures, observational methods, meta-analysis, program evaluation, and clinical research ethics. Issues of gender, age, and cultural diversity in clinical research are discussed throughout the course.

PSYC 581  Units: 1.5
Formerly: half of 580
Psychopathology: Childhood and Adolescence
Discussion of multiple models used to understand psychopathology; presentation of various mental disorders from multiple theoretical perspectives; discussion of diagnostic issues emphasizing the impact of gender and culture in the expression of abnormal behaviour. Emphasis is on disorders that emerge during adulthood. Topics are considered from a scientist-practitioner perspective. Includes discussion of relevant professional issues in clinical psychology.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.
Grading: INC, COM, N, F

PSYC 582  Units: 1.5
Formerly: half of 580
Psychopathology: Adulthood
Draws on models for understanding psychopathology developed in PSYC 581. Discussion of conceptual models used to understand psychopathology; presentation of various mental disorders from multiple theoretical perspectives; discussion of diagnostic issues emphasizing the impact of gender and culture in the expression of abnormal behaviour. Emphasis is on disorders that emerge during adulthood. Topics are considered from a scientist-practitioner perspective. Includes discussion of relevant professional issues in clinical psychology.
Prerequisite(s):
• PSYC 581; and
• admission to a graduate program in Clinical Psychology.

PSYC 583  Units: 1.5
Formerly: 535C
Professional and Ethical Issues in Clinical Psychology
Discussion of ethical standards for providers of psychological services and of registration requirements as required by BCPA, CPA and APA. Presentations by practising psychologists related to professional and interprofessional problems encountered in practice.
Note: Enrolment may be limited.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology; and
• permission of the department.

PSYC 584  Units: 1.5
Formerly: 524A
Clinical Assessment: Cognitive Functioning
Introduction to theory and practice in the assessment of cognitive functioning and academic achievement, including test administration, scoring, interpretation, and report writing. Test administration proficiency and individual case study interpretation are required during formal laboratory experiences.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.
Grading: INC, COM, N, F

PSYC 585  Units: 1.5
Formerly: 524B
Clinical Assessment: Psychosocial Functioning
Introduction to theory and practice in the psychological assessment of social, emotional and personality functioning.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.
Grading: INC, COM, N, F

PSYC 586A  Units: 1.5
Formerly: half of 586; 624B
Advanced Clinical Assessment
Advanced theory and professional issues in the psychological assessment of social, emotional and personality functioning.
Note: Enrolment may be limited.
Prerequisite(s):
• PSYC 585; and
• admission to a graduate program in Clinical Psychology; and
• permission of the department.
Grading: INC, COM, N, F
PSYC 586B Units: 1.5  
Formerly: half of 586; 624B  
Practice in Advanced Clinical Assessment  
Supervised practice in the psychological assessment of social, emotional and personality functioning.  
Note: Enrolment may be limited.  
Prerequisite(s):  
• PSYC 585; and  
• admission to a graduate program in Clinical Psychology; and  
• permission of the department.  
Pre-or Corequisite(s): PSYC 586A.  
Grading: INC, COM, N, F.  

PSYC 593 Units: 1.5  
Family Interventions  
Introduction to various theoretical approaches to family interventions. Specific techniques are explored through readings, discussions, assignments, and role-plays.  
Note: Enrolment may be limited.  
Prerequisite(s):  
• PSYC 585; and  
• admission to a doctoral program in Clinical Psychology; and  
• permission of the department.  

PSYC 595 Units: 1.5  
Cognitive Behavioural Therapy  
An advanced psychotherapy course that provides students with an understanding of the theory and clinical skills associated with Cognitive-Behavioural Therapy. Theory and specific techniques are explored through readings, class discussion, class assignments and role-plays.  
Note: Credit will be granted for only one of PSYC 595, PSYC 594 (if taken in the same topic).  
Prerequisite(s):  
• PSYC 585; and  
• admission to a doctoral program in Clinical Psychology.  
Grading: INC, COM, N, F.  

PSYC 596 Units: 1.5  
Interpersonal Therapies  
An advanced psychotherapy course that provides students with an understanding of the theoretical underpinnings of the major interpersonal therapies and the role of interpersonal process in therapy in general. Specific theories and techniques are explored through readings, class discussion and class assignments.  
Note: Credit will be granted for only one of PSYC 596, PSYC 594 (if taken in the same topic).  
Prerequisite(s):  
• PSYC 585; and  
• admission to a doctoral program in Clinical Psychology.  
Grading: INC, COM, N, F.  

PSYC 597 Units: 1.5  
Clinical Psychology Colloquium  
Weekly colloquium through the Winter session, involving faculty and graduate students in the Clinical Psychology Program. Colloquium participants take turns hosting the meeting, typically presenting on current clinical practice issues, cases, or research.  
Note: May be taken more than once for credit to a maximum of 7.5 units.  
Prerequisite(s): Admission to a graduate program in Clinical Psychology.  
Grading: INC, COM, N, F.  

PSYC 598 Units: 1.5  
Formerly: half of 516  
Child and Adolescent Therapy  
Introduction to different theoretical approaches to child psychotherapy and a discussion of techniques, supervised experience will be offered in subsequent sections.  
Notes:  
• May be taken more than once for credit in different topics to a maximum of 4.5 units.  
• Enrolment may be limited.  
Prerequisite(s):  
• Admission to a graduate program in Clinical Psychology; and  
• permission of the department.  
Grading: INC, COM, N, F.  

PSYC 594 Units: 1.5  
Special Topics in Clinical Intervention  
Introduction to any one or more specialized therapeutic techniques for working with individuals in clinical settings.  
Note: May be taken more than once for credit in different topics to a maximum of 6 units.  
Prerequisite(s): Admission to a graduate program in Clinical Psychology.  
Grading: INC, COM, N, F.  

PSYC 589 Units: 1.5  
Formerly: 516  
Introduction to Evidence-Based Adult Psychotherapies  
Overview of theory, research, and practice in adult psychotherapy. Introduction to the major schools of psychotherapy and to the common factors present across forms of psychotherapy. Beginning therapy skills will be developed through role plays and experiential exercises. Supervised experience is offered in 590.  
Prerequisite(s): Admission to a graduate program in Clinical Psychology.  

PSYC 590 Units: 1.5  
Practical Issues and Challenges in Adult Psychotherapy  
An advanced psychotherapy course that builds upon the introductory therapy skills developed in 589. Includes didactic seminar and group case consultation.  
Note: Enrolment may be limited.  
Prerequisite(s):  
• PSYC 589; and  
• permission of the department.  
Corequisite(s): PSYC 506A.  
Grading: INC, COM, N, F.  

PSYC 591 Units: 1.5  
Formerly: 628  
Special Topics in Clinical Psychology  
Note: May be taken more than once for credit in different topics to a maximum of 6 units.  
Prerequisite(s): Admission to a graduate program in Clinical Psychology.  

PSYC 592 Units: 1.5  
Clinical Internship  
Full-year internship with 1600 to 2000 hours of supervised practical experience in settings approved by the committee on clinical training.  
Note: Students who have completed a clinical course sequence may request permission to register in the course.  
Prerequisite(s): Permission of the department.  
Grading: INC, COM, N, F.
PSYC 612 
**Units:** 1.5-4.5

**Advanced Research Practicum**

Advanced practicum in research with an emphasis on coordination of a program of research in association with a faculty supervisor. Typically involves organization and training of research assistants, developing research protocols, management of research databases, statistical analysis, and preparation and submission of materials for publication as specified in a Pro Forma.

**Notes:**
- May be taken more than once for credit in different topics.
- The content must differ from but may be related to 699.

**Prerequisite(s):** Permission of the department.

**Grading:** INP, COM, N, F

---

**SDH**

**Social Dimensions of Health**

**Social Dimensions of Health Program**

Faculty of Social Sciences

These courses are offered in collaboration with the Faculties of Humanities, Education and Human and Social Development.

---

**SDH 500A** 
**Units:** 1.5

**Fundamentals of Health Research I**

An interdisciplinary seminar covering fundamental topics in health research such as: basics in epidemiology, ethics, policy, health and wellness, grant and proposal writing, academic presentations, critical review for publication, knowledge transfer and developing community partnerships. Topics to be covered in the core courses are central to health research scholarship and provide core competencies preparatory to the independent research component of the program.

**Prerequisite(s):**
- SDH 500A; or
- permission of the program.

**Grading:** INP, COM, N, F

**SDH 501A** 
**Units:** 1.5

**Social Dimensions of Health Colloquium I**

The SDH colloquium series exposes students to a wide range of conceptual and substantive issues that reflect the breadth and depth of health research generally. Attendance and participation in the colloquium is mandatory throughout their time in the SDH program. Students receive 3 units of pass/fail credit during their first year. Students will be required to make presentations of their own research in the colloquium.

**Grading:** INP, COM, N, F

**SDH 501B** 
**Units:** 1.5

**Social Dimensions of Health Colloquium II**

A continuation of SDH 501A, a colloquium series that exposes students to a wide range of conceptual and substantive issues, which reflect the breadth and depth of health research generally. Attendance and participation in the colloquium is mandatory throughout their time in the SDH program. Students receive 3 units of pass/fail credit during their first year. Students will be required to make presentations of their own research in the colloquium.

**Prerequisite(s):**
- SDH 501A; or
- permission of the program.

**Grading:** INP, COM, N, F

---

**SDH 600A** 
**Units:** 1.5

**Fundamentals of Health Research II**

An interdisciplinary seminar covering fundamental topics in health research such as: basics in epidemiology, ethics, policy, health and wellness, grant and proposal writing, academic presentations, critical review for publication, knowledge transfer and developing community partnerships. Topics to be covered in the core courses are central to health research scholarship and provide core competencies preparatory to the independent research component of the program.

---

**SDH 600B** 
**Units:** 1.5

**Fundamentals of Health Research II**

A continuation of 600A, an interdisciplinary seminar covering fundamental topics in health research such as: basics in epidemiology, ethics, policy, health and wellness, grant and proposal writing, academic presentations, critical review for publication, knowledge transfer and developing community partnerships. Topics to be covered in the core courses are central to health research scholarship and provide core competencies preparatory to the independent research component of the program.

**Prerequisite(s):**
- SDH 600A; or
- permission of the program.
SLST

Slavic Studies
Department of Germanic and Slavic Studies
Faculty of Humanities

SLST 501  Units: 1.5
Also: GMST 501
Introduction to the Disciplines of Germanic and Slavic Studies
An introduction to the research specialties that make up Germanic and Slavic Studies: literary and cultural studies, film studies, cultural history and second language acquisition. May include sessions on how to write a research grant proposal, do sophisticated library research, prepare a bibliography and write a thesis proposal.
Note: Credit will be granted for only one of SLST 501, GER 501, GMST 501.

SLST 502  Units: 1.5
Also: GMST 502
Theory and Practice
Introduces students to the theories and methodologies that animate the disciplines of Germanic and Slavic studies and may include topics such as professional skills, pedagogy and thesis writing.
Note: Credit will be granted for only one of SLST 502, GMST 502.

SLST 503  Units: 1.5
Also: GMST 503
Teaching in the Disciplines of Germanic and Slavic Studies
A practice-based introduction to course design, teaching strategies, methodologies and assessment tools in the teaching areas of Germanic and Slavic Studies.
Note: Credit will be granted for only one of SLST 503, GMST 503.

SLST 505  Units: 1.5
Advanced Russian Language Study
Research topics may include Russian morphology, phonetics, lexicology, and language acquisition.

SLST 509  Units: 1.5
Also: GMST 509
Special Topics Field School
Exploration of cultural studies topics in European, German-speaking or Slavic countries. Promotes intercultural and experiential learning through joint workshops with European students and field research working at relevant cultural sites and with relevant artefacts. Topics vary.
Note: May be taken more than once for credit in a different topic.

SLST 511  Units: 1.5
Studies in Film
A critical analysis and study of films of the 20th and 21st century by Slavic and East European filmmakers.

SLST 521  Units: 1.5
Studies in Russian Literature and Culture
Examination of literary works and cultural processes in Russian and/or Soviet society.

SLST 522  Units: 1.5
Studies in Ukrainian Literature and Culture
Examination of literary works and cultural processes in Ukraine.

SLST 531  Units: 1.5
Studies in Slavic Cultural History
A cultural studies approach to texts, films, performances, media and material objects and spaces in Slavic and East European nations.

SLST 560  Units: 1.5
Slavic-Canadian Studies
Examination of the culture of Slavic and East European diasporas in Canada, as well as their impact on the creative processes in their home countries.

SLST 570  Units: 1.5
Also: GMST 570
Studies in New Media in Second Language Acquisition
Critical examination of the current research on teaching a foreign language. Focus on learning and teaching outside of the language environment, foreign language learning theories, teaching methodologies and practices.
Note: Credit will be granted for only one of SLST 570, GMST 570.

SLST 581  Units: 1.5
Twentieth-Century Genocides in Eastern Europe
Examines the common and unique features of genocides, ethnic cleansings, and forced population transfers in twentieth-century Eastern Europe including the Ukrainian Famine, the Holocaust, and the Bosnian War.

SLST 590  Units: 1.5
Directed Studies in Slavic Studies I
Notes:
• May be taken more than once for credit to a maximum of 4.5 units.
• Pro Forma required.

SLST 591  Units: 1.5
Directed Studies in Slavic Studies II
Notes:
• May be taken more than once for credit in different topics to a maximum of 4.5 units.
• Pro Forma required.

SLST 599  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F

SOCI

Sociology
Department of Sociology
Faculty of Social Sciences

SOCI 503  Units: 1.5
Classical Social Theory
In-depth examination of the foundational schools of sociology, covering 19th- and early 20th-century theorists. Provides expert understanding of the historical and theoretical concerns that gave birth to sociology through conceptual engagement with the literature.

SOCI 504  Units: 1.5
Formerly: SOCI 500
Contemporary Social Theory
Examines major perspectives and debates in contemporary social theory. Covers both key 20th-century theorists and more current developments. Emphasis on developing students' abilities to use theoretical concepts in relation to their own research interests.
Note: Credit will be granted for only one of SOCI 504, SOCI 500.

SOCI 507  Units: 1.5
Intermediate Social Statistics
Statistical methods appropriate for quantitative sociological research, with an emphasis on regression models and their extensions and computer applications for these models.
Notes:
• Credit will be granted for only one of SOCI 507, SOCI 471, SOCI 371B (if taken prior to May 2011).
• A combined undergraduate and graduate course (SOCI 471).
Prerequisite(s):
• SOCI 271, or
• permission of the department.

SOCI 515  Units: 1.5
Qualitative Research
Key issues and methods in the systematic study of the social world through qualitative sociological research. Examination of the relationship between analytical perspective and methodological decisions, methods of gathering data and analysis. Includes issues of language, representation, politics, social organization and participation.
Prerequisite(s):
• SOCI 274, or
• permission of the department.

SOCI 520  Units: 1.5
Formerly: SOCI 610
Issues in Contemporary Sociology
A seminar exploring a topic of contemporary interest in sociology. Content is informed by faculty members' current research and varies from year to year.
Note: Credit will be granted for only one of SOCI 520, SOCI 610 (if taken in the same topic).

SOCI 525  Units: 1.5
Current Issues in the Sociology of Genders and Sexualities
A seminar exploring a range of contemporary issues pertaining to genders, sexualities, and bodies. Content is informed by faculty members' current research and varies from year to year.

SOCI 535  Units: 1.5
Current Issues in Political Sociology
A seminar exploring a range of contemporary issues pertaining to politics, movements, the state, and social and political change. Content is informed by faculty members' current research and varies from year to year.

SOCI 545  Units: 1.5
Current Issues in the Sociology of Health and Aging
A seminar exploring a range of contemporary issues pertaining to the social determinants of health, illness, and aging. Content is informed by faculty members' current research and varies from year to year.
SOCI 590  
**Units:** 1.5  
**Directed Studies**  
**Note:** May be taken more than once for credit to a maximum of 3 units.  
**Prerequisite(s):** Permission of the department.

SOCI 598  
**Units:** 4.5  
**Major Research Paper**  
A piece of independent research work involving substantial analytical engagement with a defined area of sociology guided by one or more research questions.  
**Note:** Normally, students are expected to complete two terms of coursework prior to registration.

SOCI 599  
**Units:** 7.5  
**Thesis**  
**Note:** Students who wish to register for the thesis must request permission to do so no later than 12 months after entering the MA program.  
**Prerequisite(s):** Permission of the department.  
**Grading:** INP, COM, N, F

SOCI 608  
**Units:** 1.5  
**Formerly:** SOCI 508  
**Advanced Statistical Analysis**  
Advanced statistical models with applications to sociological research, which may include such topics as logistic models, count models, multilevel models, structural equation models, and models for longitudinal data. Also includes the use of computer statistical software for the analysis of data.  
**Notes:**  
- Credit will be granted for only one of SOCI 608, SOCI 508, SOCI 472, SOCI 501.  
- Normally offered in alternate years.  
**Prerequisite(s):**  
- SOCI 507; or  
- permission of the department

SOCI 616  
**Units:** 1.5  
**Advanced Strategies in Qualitative Research**  
Explores applied techniques for coding and systematically analyzing qualitative data with the assistance of computer-aided qualitative data analysis software (CAQDAS). Examines different strategies for communicating qualitative research findings to other researchers and the general public.  
**Note:** Normally offered in alternate years.  
**Prerequisite(s):**  
- SOCI 515; or  
- permission of the department

SOCI 690  
**Units:** 1.5  
**Directed Studies**  
**Note:** May be taken more than once for credit to a maximum of 3 units.

SOCI 693  
**Units:** 3.0  
**PhD Candidacy Examinations**  
Students enrol in SOCI 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed. Students are expected to complete all required coursework and comprehensive exams within 25 months after entering the PhD program.  
**Grading:** INP, COM, N, F

SOCI 699  
**Units:** 21.0  
**PhD Dissertation**  
**Prerequisite(s):** SOCI 693.  
**Grading:** INP, COM, N, F

**SOCI Social Work**

**School of Social Work**  
**Faculty of Human and Social Development**

SOCI 505  
**Units:** 1.5  
**Advanced Child Welfare Seminar**  
Explores topics of special interest in the development of child welfare practice from a critical, anti-oppressive and social justice perspective. Students are expected to conduct an analysis on a current child welfare topic they select in conjunction with the instructor.  
**Notes:**  
- Credit will be granted for only one of SOCI 505, SOCI 525.  
- Offered as resources permit.

SOCI 506  
**Units:** 4.5  
**Advanced Practicum**  
A minimum of 450 hours of advanced social work practice and demonstration of the application of critical analysis to practice are required. Faculty of Human and Social Development regulations concerning practica apply to the MSWI practicum.  
**Prerequisite(s):**  
- 6 units of coursework (4.5 units of Advanced Program core courses plus 1.5 units of elective); and  
- admission to MSWI Advanced program.  
**Grading:** INP, COM, N, F

SOCI 506A  
**Units:** 4.5  
**MSWI Practicum**  
A minimum of 450 hours of social work practice and demonstration of the application of critical analysis to practice are required. Faculty of Human and Social Development regulations concerning practica apply to the MSWI practicum.  
**Prerequisite(s):**  
- 6 units of coursework (4.5 units of Advanced Program core courses plus 1.5 units of elective); and  
- admission to MSWI Advanced program.  
**Grading:** INP, COM, N, F

SOCI 510  
**Units:** 1.5  
**Policy Context of Practice**  
Reviews and analyzes a number of explanations of the policy making process. Examines who makes policy in both governmental and voluntary human service organizations and the impact of policy on consumers and practitioners. Analyzes the policy/practice interface and uses substantive policy domains to illustrate how policy both enhances and constrains practice and how practice in turn can influence policy. Students are encouraged to develop their own understandings of the contributions of practice to policy.  
**Note:** Credit will be granted for only one of SOCI 510, SPP 510, SPP 511.  
**Prerequisite(s):** Admission to MSWI Advanced program.

SOCI 511  
**Units:** 1.5  
**Contemporary Debates and Ethical Dilemmas in Social Work**  
Examines and critiques current debates, ideas and discourses relating to social work knowledge and practice, with a specific focus on ethics. Emphasis is placed on postmodern feminist, anti-racist and Indigenous perspectives as they challenge prevailing assumptions about individualism, meritocracy, professionalism and philanthropy. Specifically looks at the contributions of these perspectives to a critical theorizing of professional practice and ethics.  
**Note:** Credit will be granted for only one of SOCI 511, SOCI 501, SOCI 518.

SOCI 512  
**Units:** 1.5  
**Knowledge and Inquiry: Re-Theorizing Social Work**  
Takes as its starting point the idea that responsible and effective professional and scholarly practice begins with a critical examination of how relations of power shape knowledge production. Over the term, assumptions underlying the creation of knowledge and different approaches to knowing authoritatively will be investigated. Questions of ‘how we come to know’ and ‘how we go about asking’ are explored through poststructural, postcolonial and critical race lenses.  
**Note:** Credit will be granted for only one of SOCI 512, SPP 502, HSD 502.  
**Prerequisite(s):** Admission to MSWI Advanced program.

SOCI 515  
**Units:** 1.5  
**Transnational Social Work**  
Transnational feminist theorists argue that transnationalism involves contemporary notions of nationality, gender, race and class to earlier histories of colonization and present day imperialism. Students examine the practices of the securitized, neo-liberal Canadian welfare state towards transnational communities by: (a) understanding transnational feminist theories, (b) analyzing nation-making and global inequality, (c) reviewing practices of transnational feminist social justice activism, and (d) critiquing international social work in view of all of the above.

SOCI 516  
**Units:** 1.5  
Also: SPP 516  
**Research Methodologies**  
Critically reviews a wide range of research methodologies commonly practised in the human services. Considers the kinds of opportunities and challenges presented by each methodology. Emphasizes the link between the development of a research question and the selection of methodological approaches.  
**Note:** Credit will be granted for only one of SOCI 516, SPP 516, HSD 516.  
**Prerequisite(s):** Admission to MSWI Advanced program.
SOCW 517 - SOCW 546

SOCW 517 - Research Seminar
Units: 1.5
Focuses on specific methodological, analytical and/or theoretical aspects of research for the thesis. Is intended to support graduate students in the thesis research and writing that they undertake following the completion of their coursework. Content varies from year to year, depending on students’ interests and needs.

Note: Students who are completing a thesis may require permission to register in the course.
Registration in SOCW 517 is normally continued until the student’s thesis proposal has been approved by the supervisory committee.
Prerequisite(s):
- SOCW 516; and
- permission of the program.
Grading: INP, COM, N, F

SOCW 521 - Indigenous Perspectives on Knowledge and Research
Units: 1.5
Explores the dimensions of Indigenous ways of knowing that influence research activities in Indigenous communities. Students will explore how, and from where, their own knowing emerges as well as critically examine how knowledge is constructed within larger society. Focuses on how power, culture, ethics, protocols, language, place and spirit shape knowledge.

SOCW 523 - Self-Conscious Traditionalism in Indigenous Social Work Practice Seminar
Units: 1.5
Critical exploration of alternative models of Indigenous social work practice drawn from the literature and from their own practice. Concepts and skills of Indigenous leadership are also explored.

SOCW 526 - Seminar in Community Health Policy and Practice in Indigenous Communities
Units: 1.5
Examination of such critical issues in community health as sexual abuse, substance misuse and family violence along with the collective steps that Indigenous (and other) communities have taken to restore health. The critical issues to be examined are determined collectively by students and faculty.

SOCW 531 - Critical Exploration of Leadership Roles for Social Workers in Health Care
Units: 1.5
Inquiry based opportunity for students to critically examine their leadership styles and develop a foundational knowledge and skill base for effective involvement in organizational change, staff management, coaching and supervision, coordination of inter-professional teams and development of policies to address the social determinants of health.

Note: Offered as resources permit.

SOCW 532 - Introduction to Social Work in the Health Care Sector
Units: 1.5
Examines the knowledge and skills required for social workers to be effective advocates while carrying out a range of responsibilities in the health sector within the context of a practice framework that focuses on the social determinants of health. The challenges and opportunities provided by the cultural and organizational contexts of practice in health care will be an important focus of the course for examining the inter-professional nature of practice. Particular aspects of practice such as appropriate documentation, informed consent and community development will be included.

Note: Offered as resources permit.

SOCW 533 - Working with Trauma
Units: 1.5
Current theories and practices regarding the neurobiological, psychophysical and socio-cultural components of trauma. Four dimensions of experience will be explored: shock, developmental, accumulated stress, and socially and culturally-produced traumatic stress. Emphasis will be placed on concrete skills and strategies that have applicability to a wide variety of contexts. As well, students will learn to reduce the prevalence of secondary traumatization on themselves, colleagues, agencies and communities.

Note: Credit will be granted for only one of SOCW 533, SOCW 537, SOCW 538 (if taken in the same topic).

SOCW 534 - Environmental Justice and Social Work
Units: 1.5
Environmentalism has gained prominence in social work scholarship and earlier practice models that ignored the physical environment are now critiqued. Students enter with political allegiance to green issues; educators find compatibility between professional practice and views on spirituality, environmental justice, and social service provision. Fears over environmental destruction and a general sense of disconnection from nature are finding traction. Students will explore these themes through the lenses of race, space, and environmental justice.

SOCW 535 - Foundation Practicum
Units: 4.5
A minimum of 450 hours of social work practice and demonstration of the application of critical analysis to practice are required. Faculty in Human and Social Development regulations concerning practice apply to the MSW practicum.
Prerequisite(s):
- SOCW 541; and
- 1 units of SOCW (Foundation program core) courses.
Pre- or Corequisite(s): SOCW 546
Grading: INP, COM, N, F

SOCW 536 - Critical Social Work Practice
Units: 1.5
Introduces strategies for socially just social work through the exploration of Indigenous, feminist, anti-racist, anti-colonialist and post-structural approaches to practice. The development of critical consciousness (historical, socio-cultural and political influences on professional and personal identities and experiences) is emphasized, and shifting sources and forms of professional power and authority are examined. Specific skills will include interpersonal communication, problem solving, and working in alliance and solidarity in the context of increased inequality and diminished resources.

SOCW 541 - Theorizing Social Difference
Units: 1.5
How do we come to know who we are and how is this knowledge raced, embodied, engendered and embedded in a material context? These questions underpin social work knowledge and practice. Developing an analysis of social difference is a crucial skill for social workers. In this course students will be introduced to the concepts of marginalization and dominance as they play out in (primarily) North American contexts. The course will look at social work theories and knowledge as a departure point from which to explore interdisciplinary theorizations of concepts core to the profession.

SOCW 543 - Social Work, the State and Citizenship
Units: 1.5
Taking the perspective of ‘citizenship as social’, explores the lived realities and experiences of citizenship as it is configured on the basis of geography, class, race, gender, and other identity locations. Using citizenship theories explores the nature of social inclusion and exclusion that mark citizens’ lives in the Canadian Welfare state, examines the emancipatory potential of citizenship-based social work that is grounded in a vision of social justice.

SOCW 544 - Networks and Communities
Units: 1.5
Social work practice within communities and social networks. Definitions of community are explored as experienced and conceptualized from various locations. Critical historical and theoretical analysis and ethical dilemmas posed by various approaches to community work are examined. Students have the opportunity to develop theoretical and practical understandings of anti-oppressive, antiracist and anti-colonial practice as experiences within their own communities.

SOCW 545 - Collaborative Conversations
Units: 1.5
Focuses on developing social work practice skills with individuals and communities in ways that are both difference-centred and collaborative in nature. Students will critically analyze and develop their own, individual and community development, practice skills in relation to working in various community contexts, within a social justice framework. Students will examine ways to further difference-centred practice to become more effective, participatory and collaborative with clients, social services and civil society.
**UVIC CALENDAR 2017-18**

**SOCW 547**  
Units: 1.5  
**Historicizing Social Work: Friendly Visits to Social Justice**  
Critical examination of the constitution of social work practice and theories at different historical and contextual moments and its varying roles in regulating the boundaries between national subjects and ‘others’. Students engage in critical/reflective study of social work responses to so-called ‘problem populations’ in the context of changing political, social, economic, and moral climates and the making of citizenship and nation.

**SOCW 549**  
Units: 1.5  
**Research Foundations**  
This course reviews foundational concepts and strategies of social work research with a focus on the comprehension, critique and utilization of research in social work practice settings. Students critically reflect on examples of research and examine how power shapes knowledge. Research approaches for conducting ethical, emancipatory and socially just research are examined.

**SOCW 550**  
Units: 1.5  
**Social Justice, Social Work and the Law**  
Explores and critiques theories and critical perspectives on the law, the legal system and the legal processes that have an impact on professional social work practice. Students will critically examine the interplay between marginalization, structural inequalities, social work, social justice and the Canadian legal system.

**SOCW 551**  
Units: 1.5  
**Indigenous Communities: Practice and Policy**  
Critically examines the historical processes of colonization in Canada and the resulting barriers embedded in past and current policy and practices that impact Indigenous peoples. Students will deconstruct colonization, race, class and capitalism as embedded in social welfare. Students will have an opportunity to examine their own location, ideas, values and beliefs about working with Indigenous peoples and to develop a practice framework, based on social justice, for working with Indigenous communities.

**SOCW 571**  
Units: 1.5  
**MSW Capstone**  
A culminating educational experience to consolidate learning and demonstrate preparation for advanced social work practice. Students will integrate, articulate, and evaluate learning from the courses and practica in the MSW program within the context of their other professional activities and prior academic experiences.

**Prerequisite(s):** Completion of all required coursework in the MSW program (excluding SOCW 506 or SOCW 506A).

**Pre- or Corequisite(s):** SOCW 506 or SOCW 506A.

**Grading:** INP, COM, N, F

**SOCW 580**  
Units: 1.5 or 3.0  
**Special Topics in Social Work and Social Welfare**  
A variable content course that deals with special issues in social welfare and approaches to social work practice.

**Notes:**  
- May be taken more than once for credit in different topics.
- Offered as resources permit.

**SPAN**  
**Spanish Department of Hispanic and Italian Studies**  
**Faculty of Humanities**

**SPAN 500**  
Units: 1.5  
**Introduction to Bibliography and Methods of Research**

**SPAN 502**  
Units: 1.5  
**Core Reading List Course I**

**SPAN 503**  
Units: 1.5  
**Core Reading List Course II**

**SPAN 505**  
Also: ITAL 505  
**Medieval Literature**

**Notes:**  
- May be taken more than once for credit in different topics with permission of the department.

**SPAN 507**  
Also: ITAL 507  
**Renaissance and Baroque Literature**

**Notes:**  
- May be taken more than once for credit in different topics with permission of the department.

**SPAN 551**  
Units: 1.5  
**Peninsular Literature from the 20th Century to the Present**

**Notes:**  
- May be taken more than once for credit in different topics with permission of the department.

**SPAN 512**  
Units: 1.5  
Formerly: 509 and 517  
**Spanish and Latin American Literature of the 19th Century**

**Notes:**  
- Credit will be granted for only one of SPAN 512, SPAN 509, SPAN 517.
- May be taken more than once for credit in different topics with permission of the department.

**SPAN 515**  
Units: 1.5  
**Colonial Latin American Literature**

**Notes:**  
- May be taken more than once for credit in different topics with permission of the department.

**SPAN 519**  
Units: 1.5  
**Latin American Literature from the 20th Century to the Present**

**Notes:**  
- May be taken more than once for credit in different topics with permission of the department.

**SPAN 590**  
Also: ITAL 590  
**Directed Studies**

**SPAN 598**  
**Master’s Essay**

**Grading:** INP, COM, N, F

**SPAN 599**  
**MA Thesis/Oral**

**Grading:** INP, COM, N, F

**SPP**  
**Studies in Policy and Practice**  
**Faculty of Human and Social Development**

**SPP 580**  
Units: 1.5 or 3.0  
**Special Topics in Studies in Policy and Practice**

A variable content course which will focus on the policy, practice and/or research interests of faculty and students in the SPP Program.

**Note:** May be taken more than once for credit in different topics.
Directed Studies
Individual studies under the direct supervision of one or more faculty members. The content, credit value, and method of evaluation must be approved by the instructor and the graduate adviser prior to registering in this course.

Notes:
- May be taken more than once for credit in different topics.
- Pro Forma required.

Extended Essay
An in-depth examination of a topic related to policy and/or practice.

Grading: INP, COM, N, F

SPP 598 Units: 3.0

SPP 599 Units: 6.0

Thesis
Specialized research on a topic area chosen in consultation with the student's supervisory committee.

Grading: INP, COM, N, F

STAT

Statistics

Department of Mathematics and Statistics

Faculty of Science

STAT 552 Units: 1.5

Applied Stochastic Models

STAT 553 Units: 1.5

Multivariate Analysis

Multivariate normal distribution; tests on covariance matrices; multivariate analysis of variance; discriminant analysis; classification analysis; cluster analysis; principal component analysis; factor analysis; multivariate regression analysis; canonical correlation; graphical procedures.

STAT 554 Units: 1.5

Time Series Analysis

Stationary time series; non-stationary time series; transformation; smoothing techniques; autoregressive moving average models; integrated models for non-stationary data; multiplicative seasonal ARIMA models; spectral analysis; linear filters.

STAT 555 Units: 1.5

Topics in Statistics

Topics include Analysis of Wildlife Populations, Bayesian Statistics, Bioinformatics, Biostatistics, Optimal design, Robust Statistics, Sampling Methods, Statistical Computing.

Note: May be taken more than once for credit in different topics with permission of the department.

STAT 558 Units: 1.5

Design and Analysis of Experiments

Basic principles of experimental design; factorial designs; block designs; fractional factorial designs; response surface designs; nested and split-plot designs; optimal designs; techniques of analysis of variance; fixed effects models; random effects models.

STAT 559 Units: 1.5

Survival Analysis

Theory and techniques for censored and truncated data; nonparametric estimation of survival and cumulative hazard functions and associated hypothesis tests; semiparametric proportional hazards regression; survival models; regression diagnostics; inference for parametric regression models.

STAT 562 Units: 1.5

Distribution Free Statistics

Classical distribution free methods: tests based on the binomial distribution, contingency tables, methods based on ranks, statistics of the Kolmogorov-Smirnov type. Computing intensive distribution-free methods: resampling methods and empirical likelihood methods.

Also: BIOL 563

Topics in Applied Statistics

Survival analysis, generalized linear models, multivariate normal models, resampling methods, nonparametric and robust methods, meta-analysis, miscellaneous techniques.

STAT 568 Units: 1.5

Generalized Linear Models

Exponential family of distributions and generalized linear models; maximum likelihood estimation and inference; regression diagnostics; logistic regression; nominal and ordinal logistic regression; Poisson regression and log-linear models; clustered and longitudinal data.

STAT 589 Units: 1.5

Statistics Seminar

Note: May be taken more than once for credit with permission of the department.

STAT 598 Units: 3.0

Master's Project

Grading: INP, COM, N, F

STAT 599 Units: 6.0

Master's Thesis

Grading: INP, COM, N, F

STAT 693 Units: 3.0

Candidacy Examination

Grading: INP, COM, N, F

STAT 699 Units: 21.0-30.0

Dissertation

Corequisite(s): STAT 693.

Grading: INP, COM, N, F

THEA

Theatre

Department of Theatre

Faculty of Fine Arts

THEA 500A Units: 1.5

Formerly: THEA 500

Methods and Materials of Theatre Research

Note: Credit will be granted for only one of THEA 500A, THEA 500.

THEA 500B Units: 1.5

Formerly: THEA 500

Methods and Materials of Theatre Research

Note: Credit will be granted for only one of THEA 500B, THEA 500.

THEA 501 Units: 1.5 or 3.0

Seminar in History and Criticism of Tragedy

THEA 502 Units: 1.5 or 3.0

Seminar in History and Criticism of Comedy

THEA 503 Units: 1.5 or 3.0

Seminar in European Theatre History

THEA 504 Units: 1.5 or 3.0

Seminar in North American Theatre History

THEA 505 Units: 1.5 or 3.0

Seminar in Theatrical Styles

THEA 508 Units: 1.5 or 3.0

Scene Design

THEA 509 Units: 1.5 or 3.0

Lighting Design

THEA 510 Units: 1.5 or 3.0

Costume Design

THEA 511 Units: 1.5 or 3.0

Production

THEA 512 Units: 1.5 or 3.0

Directing

THEA 513 Units: 1.5 or 3.0

Seminar in Theatre Aesthetics

THEA 514 Units: 1.5 or 3.0

Seminar in Design

THEA 515 Units: 1.5 or 3.0

Production Experience

THEA 516 Units: 1.5 or 3.0

Seminar in Theatre History

THEA 520 Units: 1.5 or 3.0

Advanced Problems in Scene Design

THEA 521 Units: 1.5 or 3.0

Advanced Problems in Lighting Design

THEA 522 Units: 1.5 or 3.0

THEA 523 Units: 1.5 or 3.0

Advanced Problems in Directing

THEA 524 Units: 6.0

MFA Practicum

Grading: INP, COM, N, F

THEA 532 Units: 1.5

Workshop Facilitation

Principles of workshop design, and skills of facilitation and enabling in educational and community contexts.

THEA 533 Units: 1.5

Making Theatre

Explores the process of devising and the art of play-making.
THEA 535 Units: 1.5
Research Methods in Applied Theatre
Introduces different methodological approaches to researching and interpreting applied theatre practice, including qualitative and quantitative methods of theatre action research, ethnography and practice as research. Allows first-hand experience of conducting a theatre-based project and/or performance that targets a specific community.

THEA 590 Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit in different topics with permission of the department.

THEA 598 Units: 4.5
MA Essay
Grading: INP, COM, N, F

THEA 599 Units: 6.0
MA Thesis
Grading: INP, COM, N, F

THEA 690 Units: 1.5-6.0
Directed Studies
Note: May be taken more than once for credit with permission of the department.
Prerequisite(s): Permission of the department.

THEA 693 Units: 3.0
Dissertation Proposal/Candidacy Exam
Grading: INP, COM, N, F

THEA 699 Units: 30.0
Dissertation
Prerequisite(s): THEA 693.
Grading: INP, COM, N, F

WRIT Writing
Department of Writing
Faculty of Fine Arts

WRIT 500 Units: 1.5
Graduate Writing Workshop
A workshop in which students will focus on writing and workshopping in one genre: poetry, fiction, creative nonfiction, playwriting or screenwriting.
Note: May be taken more than once for credit in different topics to a maximum of 4.5 units.

WRIT 501 Units: 1.5
Special Topics in Advanced Studies in Writing
A class that focuses on literary models, specific elements of craft, and topics of interest to writers in more than one genre.

WRIT 509 Units: 1.5
Instructional Skill Preparation
A seminar which focuses on pedagogy and teacher training in creative writing.

WRIT 590 Units: 1.5
Directed Studies in Instructional Skills Preparation
A course which focuses on teacher training in creative writing.

WRIT 591 Units: 1.5
Directed Studies in Writing
A course tailored to the needs of a particular student in consultation with the supervisor and in the student’s area of study.

WRIT 598 Units: 9.0
Major Writing Portfolio
The creation of an original creative writing portfolio in one of the following genres: poetry (30-50 pages), creative nonfiction (60-120 pages), fiction (60-120 pages), a stage play (60-100 pages), a film script (60-90 pages) or a production project with script/manuscript in one of the above genres.
Grading: INP, COM, N, F
