Course abbreviation and number
Courses are listed alphabetically by course abbreviation of up to four letters (e.g., ANTH for Anthropology) and course number (e.g., 100). Three numbers are used for course number plus a letter as appropriate. The first digit indicates the year level:
- 0: university-level upgrading or undergraduate co-op work term
- 1 to 4: undergraduate level
- 5, 6: graduate level
- 7: Education Professional Year
- 8: graduate co-op work term

Cross-listed courses
The same course may be offered by two different departments. Such courses are listed twice, once under each department course abbreviation. Students may obtain credit for the course from either department, but not both.

Former course abbreviation and number
If a course was previously offered at UVic under another abbreviation and number, the former abbreviation and number are shown here.

Prerequisites and corequisites
Prerequisites are courses or other requirements that must be completed before a student may register in a course. Corequisites are courses or other requirements that must be completed at the same time as a specific course. For more information on how to read prerequisites, see <www.uvic.ca/prereq>.

Units of credit
This is the number of units of credit assigned to a course. Some courses are listed with variable units (e.g., 1.5-3.0). Further information on the unit value of the course will usually be found in the course note. Students may also contact the department or faculty offering the course for information on variable unit courses.

Hours of instruction
These numbers refer to the hours of instruction per week:
- 1st digit: hours assigned for lectures or seminars
- 2nd digit: hours assigned for laboratory or practical sessions
- 3rd digit: hours assigned to tutorials

Notes
Notes provide information about any restrictions on the assignment of credit in cases where content overlaps, as well as the maximum allowable credit for courses that may be taken more than once. Notes may also provide additional information about a course.

Grading
Courses that are not graded using standard letter grades include the alternative classifications for evaluation.

Course descriptions do not include information on when courses will be offered. That information is available at <www.uvic.ca/timetable>.
