Courses of Instruction

This section presents the descriptions of all courses offered at the University of Victoria. Courses are listed in alphabetical order by course abbreviation (BIOL, EDUC). The course abbreviations for all courses offered within each faculty are listed on page 248. A list of the course abbreviations and their corresponding subject areas is presented on page 249.

Please note that not all courses listed are necessarily offered every year; students should consult the department or faculty concerned for an official listing of the courses that will be offered in a given session. Registration and current timetable information is also available on the web at <uvic.ca/course-registration>.

Students must ensure that they are familiar with the program requirements and restrictions noted in the entry for each academic unit.
## Courses by Faculty

### Division of Medical Sciences
- **NRSC** Neuroscience

### Faculty of Education
- **ED-D** Educational Psychology and Leadership Studies  
  Department of Educational Psychology and Leadership Studies
- **EDCI** Curriculum and Instruction Studies  
  Department of Curriculum and Instruction
- **EPHE** Exercise Science, Physical and Health Education  
  School of Exercise Science, Physical and Health Education
- **IED** Indigenous Education

### Faculty of Engineering
- **CIVE** Civil Engineering  
  Department of Civil Engineering
- **CSC** Computer Science  
  Department of Computer Science
- **ELEC** Electrical Engineering  
  Department of Electrical and Computer Engineering
- **MECH** Mechanical Engineering  
  Department of Mechanical Engineering

### Faculty of Fine Arts
- **AHVS** Art History and Visual Studies  
  Department of Art History and Visual Studies
- **ART** Visual Arts  
  Department of Visual Arts
- **CH** Cultural Heritage Management  
  Department of Art History and Visual Studies and Division of Continuing Studies
- **MUS** Music  
  School of Music
- **THEA** Theatre  
  Department of Theatre
- **WRIT** Writing  
  Department of Writing

### Faculty of Graduate Studies
- **GS** Graduate Studies by Special Arrangement
- **IN** Indigenous Nationhood
- **INTD** Interdisciplinary Program

### Faculty of Human and Social Development
- **ADMN** Public Administration  
  School of Public Administration
- **CD** Community Development  
  School of Public Administration
- **CYC** Child and Youth Care  
  School of Child and Youth Care
- **DR** Dispute Resolution  
  School of Public Administration
- **HINF** Health Information Science  
  School of Health Information Science
- **HSD** Human and Social Development Interdisciplinary Courses
- **IGOV** Indigenous Governance
- **IN** Indigenous Nationhood
- **INGH** Indigenous Health Studies  
  School of Public Health and Social Policy
- **NUED** Nursing, Advanced Practice: Nurse Educator Option  
  School of Nursing
- **NUHI** Nursing and Health Information Science  
  School of Nursing
- **NUP** Nursing, Advanced Practice: Nurse Practitioner Option  
  School of Nursing
- **NURA** Nursing, Advanced Practice: Nurse Leadership Option  
  School of Nursing
- **NURP** Nursing Policy and Practice  
  School of Nursing
- **NURS** Nursing  
  School of Nursing
- **PADR** Public Administration Dispute Resolution  
  School of Public Administration
- **PHSP** Public Health and Social Policy  
  School of Public Health and Social Policy
- **SOCW** Social Work  
  School of Social Work

### Faculty of Humanities
- **DHUM** Digital Humanities
- **ENGL** English  
  Department of English
- **FRAN** French  
  Department of French
- **GMST** Germanic Studies  
  Department of Germanic and Slavic Studies
- **GRS** Greek and Roman Studies  
  Department of Greek and Roman Studies
- **HSTR** History  
  Department of History
- **ITAL** Italian  
  Department of Hispanic and Italian Studies
- **LING** Linguistics  
  Department of Linguistics
- **PAAS** Pacific and Asian Studies  
  Department of Pacific and Asian Studies
- **PHIL** Philosophy  
  Department of Philosophy
- **SLST** Slavic Studies  
  Department of Germanic and Slavic Studies
- **SPAN** Spanish  
  Department of Hispanic and Italian Studies

### Faculty of Law
- **IN** Indigenous Nationhood
- **LAW** Law

### Faculty of Science
- **ASTR** Astronomy  
  Department of Physics and Astronomy
BCMB  Biochemistry and Microbiology  
Department of Biochemistry and Microbiology  
BIOC  Biochemistry  
Department of Biochemistry and Microbiology  
BIOL  Biology  
Department of Biology  
CHEM  Chemistry  
Department of Chemistry  
EOS  Earth and Ocean Sciences  
School of Earth and Ocean Sciences  
FORB  Forest Biology  
Department of Biology  
MATH  Mathematics  
Department of Mathematics and Statistics  
MICR  Microbiology  
Department of Biochemistry and Microbiology  
MRNE  Marine Science  
Department of Biology  
PHYS  Physics  
Department of Physics and Astronomy  
STAT  Statistics  
Department of Mathematics and Statistics  

Faculty of Social Sciences

ANTH  Anthropology  
Department of Anthropology  
CSPT  Cultural, Social and Political Thought  
Department of Political Science  
ECON  Economics  
Department of Economics  
ES  Environmental Studies  
School of Environmental Studies  
GEOG  Geography  
Department of Geography  
IN  Indigenous Nationhood  
Department of Political Science  
POLI  Political Science  
Department of Political Science  
PSYC  Psychology  
Department of Psychology  
SDH  Social Dimensions of Health  
Social Dimensions of Health Program  
SOCI  Sociology  
Department of Sociology

## How to use the Course Listings

### Course abbreviation and number
Courses are listed alphabetically by course abbreviation of up to four letters (e.g., ANTH for Anthropology) and course number (e.g., 100). Three numbers are used for course number plus a letter as appropriate. The first digit indicates the year level:
- 0: university-level upgrading or undergraduate co-op work term
- 1 to 4: undergraduate level
- 5, 6: graduate level
- 7: Education Professional Year
- 8: Graduate co-op work term

### Cross-listed courses
The same course may be offered by two different departments. Such courses are listed twice, once under each department course abbreviation. Students may obtain credit for the course from either department, but not both.

### Former course abbreviation and number
If a course was previously offered at UVic under another abbreviation and number, the former abbreviation and number are shown here.

### Prerequisites and corequisites
Prerequisites are courses or other requirements that must be completed before a student may register in a course. Corequisites are courses or other requirements that must be completed at the same time as a specific course. For more information on how to read prerequisites, see <www.uvic.ca/prereq>.

### Units of credit
This is the number of units of credit assigned to a course. Some courses are listed with variable units (e.g., 1.5-3.0). Further information on the unit value of the course will usually be found in the course note. Students may also contact the department or faculty offering the course for information on variable unit courses.

### Hours of instruction
These numbers refer to the hours of instruction per week:
- 1st digit: hours assigned for lectures or seminars
- 2nd digit: hours assigned for laboratory or practical sessions
- 3rd digit: hours assigned to tutorials

### Notes
Notes provide information about any restrictions on the assignment of credit in cases where content overlaps, as well as the maximum allowable credit for courses that may be taken more than once. Notes may also provide additional information about a course.

### Grading
Courses that are not graded using standard letter grades include the alternative classifications for evaluation.

**Sample Course Description**

**SAMP 101**

<table>
<thead>
<tr>
<th>Units</th>
<th>Hours:</th>
<th>3-0-1</th>
</tr>
</thead>
</table>

Also:

**CD 100**

Formerly: **SAMP 100A**

This sample course description illustrates the notations commonly found in a course description. Not all course descriptions include all the information shown in this sample. For clarification on any information presented in a course description, contact the department or faculty offering the course.

**Note:** Credit will be granted for only one of SAMP 101, SAMP 100A, CD 100.

**Prerequisite(s):** Admission to the program.

**Grading:** INP/COM, N, F.

---

Course descriptions do not include information on when courses will be offered. That information is available at <www.uvic.ca/timetable>.
Public Administration
School of Public Administration
Faculty of Human and Social Development

Students enrolled in the MPA On Campusb program should also see courses listed as PADR.

ADMN 502A  Units: 1.5
Surveying, Appraising and Commissioning Information

Introduces students to essential skills and components of the research process, weaknesses and strengths. Key issues in research ethics and design are explored, including research design, data analysis, qualitative methods, sampling, survey research techniques, questionnaire design, research design, measures of central tendency, dispersion, correlation, and computer-based analyses.

Note: Credit will be granted for only one of ADMN 502A, ADMN 557.

ADMN 504  Units: 1.5
Government and Governance

Provides a foundation that helps students build and refine their understanding of the Canadian public sector governance. Focus is on key governance institutions and processes, the efforts made to reform them, and theories behind those reform initiatives and changes. Specifically, examines strategic governance challenges and reforms in areas such as service delivery, regulation, policy making, budgeting, citizen engagement, federal-provincial relations, public sector ethics, and accountability.

ADMN 507  Units: 1.5
Leadership Ethics in the Public Sector

Public leadership requires an understanding of others and one’s self in order to mobilize effort in challenging environments. Provides frameworks and practical strategies for understanding personal capacity, team dynamics, and working with others within and across organizational boundaries. Introduces students to competing values and ethics, and equips them with skills and strategies for analyzing, motivating and managing change and the challenges they may face.

ADMN 509  Units: 1.5
Microeconomics for Policy Analysis

Provides a foundation in microeconomic principles, the rationale for public sector interventions in the market, and essential tools for economic policy analysis. Students will be introduced to rational choice theory, resource allocation, supply and demand, efficiency and equity, elasticity, income redistribution, externalities, public goods, and imperfect information. Relies on practical problem-based learning. Contemporary themes include behavioral and nudge economics, economic inequality, and the moral economy.

Pre- or Corequisite(s):
• One of ADMN 502A, PADR 502, PADR 502A; and
• ADMN 504; or
• permission of the school.

ADMN 512  Units: 1.5
Public Financial Management and Accountability

Explores the budgeting cycle: budget preparation and execution, internal and external auditing, financial statements, and performance budgeting and reporting. Examines management tools that support resource allocation decisions and accountability. Considers the rationale for alternative goods and services provision arrangements. Reviews evidence-based approaches for efficient resource allocation decisions, benchmarking performance, and incentives to motivate employees and contractors. Explores public sector fiscal challenges.

Pre- or Corequisite(s):
• One of ADMN 502A, PADR 502, PADR 502A; and
• ADMN 509; or
• permission of the school.

ADMN 523  Units: to be determined
Special Topics in Public Sector Management

Provides a unique chance to study selected topics drawn from the current literature in public sector management or related fields. Introduces an excellent opportunity to explore the academic theory underpinning current public sector functions.

Note: May be taken more than once for credit in different topics.

ADMN 531  Units: 1.5
Performance and Strategic Human Resource Management

Students explore the critical role of human capital in public organizations and how to align it with strategic objectives. Students learn about human resource management functions - planning, staffing, training and development, performance management, compensation, and labour relations - and theories and approaches to improving organizational performance. Considers some of the contemporary challenges, such as high public expectations, constrained budgets, demographic turnover, and technological change.

Note: Credit will be granted for only one of ADMN 531, ADMN 537.

Prerequisite(s):
• ADMN 507 or PADR 504; or
• permission of the school.

ADMN 537  Units: 1.5
Program Evaluation and Performance Measurement

Examines program evaluation and performance measurement in public and nonprofit organizations. Emphasis is placed on acquiring skills needed to model programs, measure key constructs, select appropriate research designs, and conduct both quantitative and qualitative program evaluations. Issues involved in designing and implementing program performance measurement systems are introduced.

Note: Credit will be granted for only one of ADMN 537, ADMN 437.

Prerequisite(s):
• One of ADMN 502A, PADR 502, or PADR 502A; and
• ADMN 502B; or
• permission of the school.

ADMN 544  Units: 1.5
Economic Evaluation Methods and Applications

A practical introduction to the theory and methods of economic evaluation, including cost-benefit analysis, cost-effectiveness analysis, and cost-utility analysis, with emphasis on public sector applications.

Prerequisite(s):
• For students admitted to MPA program:
  • one of ADMN 502A, PADR 502, PADR 502A, and
  • ADMN 502B and ADMN 509;
• For students not admitted to MPA program:
  • permission of the school.

ADMN 547  Units: 1.5
Intergovernmental Relations in Canada

Examines the impact on public policy of relations between governments resulting from the distribution of powers among federal, provincial, and municipal governments in Canada. Topics will include the interpretive role of the courts, the instruments of fiscal federalism, administrative relationships, and the concepts of “executive federalism” and “intergovernmental governance”. Individual and team projects will explore how policy issues are handled at different stages and in different arenas of the intergovernmental process.

Note: Credit will be granted for only one of ADMN 547, ADMN 462, POLI 462.

Recommendation(s): ADMN 504 recommended prior to ADMN 547.

ADMN 548  Units: to be determined
Special Topics in Public Policy

A study of selected special topics in Public Policy drawn from the current literature in Public Administration or related fields.

Note: May be taken more than once for credit in different topics.

ADMN 550  Units: 1.5
Strategic Communication and Engagement

Communicating with and engaging stakeholders about policy priorities, problems, the design of policy and services, and implementation are crucial features of modern public and non-profit sector governance. Reviews theories, research, and practical strategies for identifying, analyzing and involving diverse groups in policy and program development, and developing multi-faceted communications strategies in the digital era. Students will also develop engagement and communications strategies.

Note: Credit will be granted for only one of ADMN 550, ADMN 470 (if taken with same topic).
ADMN 551 | Units: 1.5
Administrative Justice System in Canada
Examines constitutional and administrative law structures and principles that underlie Canada’s administrative justice system. Students develop critical understanding of (1) characteristics of federal and provincial systems, (2) legal principles under which statutory decision-making is done, (3) process and principles applied to development of administrative justice system legislation, (4) breadth and influence of tribunal decisions on activities of Canadians. Examples are drawn from federal and provincial levels; comparisons to US, UK and France as appropriate.
Note: Credit will be granted for only one of ADMN 551, ADMN 551A, ADMN 551B.

ADMN 553 | Units: 1.5
Understanding Cities
Cities are a basic building block to society, and offer an interesting opportunity to study political, social and economic issues. Examines European and North American/Canadian cities using academic and government resources to analyze and compare their various aspects.

ADMN 554 | Units: 1.5
Responsible Public Management
Designed to give students the opportunity to: understand the value dimensions of public management; reflect upon and enhance their own ethical reasoning skills; critically examine existing behavioural standards and guidelines for public managers; work with colleagues to establish what actions would be morally defensible in real administrative and policy making situations; and consider what steps can be taken to enhance responsible public management.
Note: Credit will be granted for only one of ADMN 554, ADMN 422, PADR 503.

ADMN 556 | Units: 1.5
Managing Public Policy
Examines the theory and practice of public policy emphasizing the strategic aspects of problem identification, policy design, decision making, implementation and evaluation. Designed to provide students a thorough understanding of public policy and dynamics of the policy process and to apply this knowledge to important policy issues. Policy development is examined within the context of multi-level and multi-sector governance, and addresses the involvement of key players such as the courts, media, and other prominent stakeholders.
Note: Credit will be granted for only one of ADMN 556, PADR 503.
Prerequisite(s):
• All of ADMN 502A, ADMN 504, ADMN 509, ADMN 512, ADMN 550; or
• permission of the department.

ADMN 557 | Units: 1.5
Public Sector Research Methods
Introduces research approaches and methodologies for policy analysis, evaluation and other analytical projects in the public and non-profit sectors and in preparation for the thesis. Introduces essential components of research for conceiving and conducting a research project: objectives of research, literature review, conceptual framing, research design and approaches, methods for data collection, analysis and presentation. The student identifies a topic and is supported to build a strong research proposal for their master’s thesis.
Note: Credit will be granted for only one of ADMN 557, ADMN 502A.

ADMN 558 | Units: 1.5
European Union Urban Region Policies
Compares issues associated with the politics, policy analysis, and policy environment of cities and urban regions in the European Union (EU), including integration issues and Canada. Considers ways in which the EU intervenes to improve the policy capacity of urban/regional governments, looking at broad issues of economic development and growth, equity and redistribution in comparative perspective. Focuses on the responsibilities, functions, resources, bureaucracy, and multilevel governance issues linking the federal/state/local governments.
Note: Credit will be granted for only one of ADMN 578, ADMN 478, ADMN 548 (if taken in the same topic).

ADMN 559 | Units: 1.5
Master’s Project
A substantial analysis of a management, policy or program problem which may be done for a client in the non-profit or public sector. The Master’s Project is prepared under the supervision of a faculty member in the School of Public Administration and must be both practical and academically rigorous. Students have the choice of working individually or with a student partner. A written project report is defended in an oral examination.
Grading: INP, COM, N.F.

ADMN 561 | Units: 1.5
Quantitative Methods for Public Policy Analysis and Program Evaluation
Building on the knowledge acquired in 502B, describes the logic behind various quantitative methodologies used in conducting retrospective quantitative evaluations in public policy programs and research. Demonstrates the application of these methodologies using real world policy applications. Topics may include: simple and multiple regression, endogeneity, limited dependent variables, panel data, and experimental methods.
Note: Credit will be granted for only one of ADMN 581, ADMN 681.
Prerequisite(s):
• ADMN 502B; or
• permission of the school.

ADMN 577 | Units: 1.5
Strategic Planning and Implementation
Examines strategic planning and other types of planning in public and nonprofit sectors. Illustrates ten steps involved in the cycle of strategic planning. Explores strategic planning initiatives and teaches students to construct mandates, mission and vision statements, goals, objectives, strategies, measures, and targets. Develops skills to conduct a situation analysis that includes an environmental scan, SWOT/SWOC analysis, and stakeholder analyses. Discusses the relationship between budget and plan. Develops competencies in implementing and evaluating strategic plans.
Note: Credit will be granted for only one of ADMN 577, ADMN 477.

ADMN 578 | Units: 1.5
European Union Urban Region Policies
Compares issues associated with the politics, policy analysis, and policy environment of cities and urban regions in the European Union (EU), including integration issues and Canada. Considers ways in which the EU intervenes to improve the policy capacity of urban/regional governments, looking at broad issues of economic development and growth, equity and redistribution in comparative perspective. Focuses on the responsibilities, functions, resources, bureaucracy, and multilevel governance issues linking the federal/state/local governments.
Note: Credit will be granted for only one of ADMN 578, ADMN 478, ADMN 548 (if taken in the same topic).

ADMN 579 | Units: 1.5
Qualitative Evaluation Methods and Applications
Explores the principles and practices of effective qualitative evaluation methods: planning, design strategies, data collection, analysis and reporting. Coursework includes: selecting appropriate design strategies and sampling methods; collecting data using in-depth, open-ended interviews, fieldwork-based observations, participant observation, and documents; analyzing large volumes of qualitative data to produce clear, credible and relevant findings. The course will also examine strategies for integrating multiple lines of qualitative findings in evaluations.

ADMN 580 | Units: 1.5
Evaluation Project
The evaluation project is a substantial evaluation of a policy or program designed and conducted for a public sector or non-profit organization. Each evaluation project will have a client and will be supervised by a faculty member in the School of Public Administration. The completed project report will be assessed by a committee consisting of the academic supervisor, a second reader (both members of the School of Public Administration), and the client for the project.
Grading: INP, COM, N.F.

ADMN 581 | Units: 1.5
Topics in Evaluation and Performance Measurement
Designed to explore contemporary issues and problems in the field of evaluation and performance management. Topics will be selected for each offering of the course; examples of topics to be included are: contribution analysis; gaming of performance measurement; professionalizing evaluation; managing knowledge creation and its uses in complex organizations; understanding and influencing organization cultures to increase and sustain knowledge utilization; audit and evaluation; comparative evaluation; and evaluation in developing countries.

ADMN 582 | Units: to be determined
Directed Studies
Notes:
• May be taken more than once for credit in different topics with permission of the school.
• Pro Forma required.

ADMN 583 | Units: 4.5
Grading: INP, COM, N.F.

ADMN 584 | Units: to be determined
Evaluation Project
The evaluation project is a substantial evaluation of a policy or program designed and conducted for a public sector or non-profit organization. Each evaluation project will have a client and will be supervised by a faculty member in the School of Public Administration. The completed project report will be assessed by a committee consisting of the academic supervisor, a second reader (both members of the School of Public Administration), and the client for the project.
Grading: INP, COM, N.F.

ADMN 585 | Units: 4.5
Notes:
ADMN 599 - Units: 6.0
Master's Thesis
Requires a substantial contribution to the knowledge in the field of Public Administration. An MPA Thesis will demonstrate a student's mastery of a substantive body of scholarly or practice literature as well as using appropriate and academically defensible methodologies to analyze research questions, test hypotheses or contribute new theoretical knowledge. Individual students will work with an academic supervisor in the School of Public Administration.
Grading: INP, COM, N, F.

ADMN 600 - Units: 0
Doctoral Seminar
The doctoral seminar supports the advancement of research and writing skills. Students will develop competencies in preparing and publishing research. Students are asked to register in this course each term during their PhD program.
Grading: INP, COM, N, F.

ADMN 602 - Units: 1.5
Research Design and Methods in Public Administration
Examines research approaches and methodologies employed in public administration, concentrating on designing research projects: objectives of research, literature review, conceptual framing, research design, collecting and analyzing data and presenting findings. Students critically appraise key methodological and methods issues, identify a topic and develop a dissertation proposal.
Note: Credit will be granted for only one of ADMN 602, ADMN 502A, ADMN 557.

ADMN 604 - Units: 1.5
Also: POLI 610
Theories of Public Management
Explores different theories and approaches to understanding public administration and reform. Considers variations in three areas: political and constitutional authority, accountability and responsibility, and the roles of elected and non-elected officials; government structures, responsibilities for policy and service delivery, and distributed governance; and patterns and trends in central decision-making, budgeting, control, transparency, and citizen engagement. Students will review seminal comparative studies on administrative practice and reform and undertake a comparative study on a selected topic.
Note: Credit will be granted for only one of ADMN 604, POLI 610.

ADMN 605 - Units: 1.5
Also: POLI 607
Comparative Policy and Governance
Reviews the challenges and trends confronting governments and society, diverging governance practices and outcomes across jurisdictions and policy domains. Reviews foundational concepts and theories of policy-making. Examines policy determinants such as history, culture, institutions and the economy; policy dynamics and processes such as agenda-setting and decision-making, networks and communities, policy change and transfer. Students conduct research on selected issues.
Note: Credit will be granted for only one of ADMN 605, POLI 507, POLI 607.

ADMN 607 - Units: 1.5
Organizational Behaviour and Analysis
A review of the origins, analytic traditions, and evolution of the study of organizations, focusing on exploring and analyzing the behaviour of public organizations. Topics include goal formation, tasks, technology, formal structure, informal organization, motivation, perception, values, culture, information, decision making, group dynamics, conflict, leadership, empowerment, creativity, learning and innovation. Concepts and theories are complemented by reviewing seminal literature on private, public, and non-profit organizations, and by undertaking field research.

ADMN 608 - Units: 1.5
Innovation, Implementation and Evaluation in Public Administration
Introduces and critically assesses approaches to designing, implementing and evaluating policies and programs in complex organizations. Topics include: designing public policies, ex-ante policy and program analysis; innovation and change management; approaches for citizen and stakeholders' engagement; communication in public sector settings; evaluation criteria and approaches for assessing interventions. Students conduct research on selected issues.

ADMN 610 - Units: 0.0
Also: POLI 501
Comparative Policy and Governance
Reviews the challenges and trends confronting governments and society, diverging governance practices and outcomes across jurisdictions and policy domains. Reviews foundational concepts and theories of policy-making. Examines policy determinants such as history, culture, institutions and the economy; policy dynamics and processes such as agenda-setting and decision-making, networks and communities, policy change and transfer. Students conduct research on selected issues.
Note: Credit will be granted for only one of ADMN 605, POLI 507, POLI 607.

ADMN 609 - Units: 1.5
Policy and Institutional Design and Analysis
A review of the interdisciplinary foundations of the analysis and design of public policy, and the institutions and strategies for implementing them. Examines the rationale, comparative advantage, and combinations of government hierarchies, markets, networks, and policy instruments. Considers how to meld different disciplinary and professional perspectives and techniques for addressing design and implementation challenges, and how to draw lessons from different policy domains and jurisdictions, through case studies and projects in selected policy domains.

ADMN 620 - Units: 1.5
Policy and Program Evaluation and Performance
Compares and assesses different theoretical and methodological approaches that have emerged in the evaluation field. Students read intensively for seminar discussions and preparation of a series of short papers during the semester. Topics include post-positivist, constructivist, critical realist and pragmatic theoretical approaches, qualitative and quantitative methodological approaches to doing evaluations, and challenges and emerging trends in the whole field.

ADMN 621 - Units: 1.5
Organizational Change and Development
Examines the philosophy, history, and evolving approaches associated with organizational change and development, with special focus on initiating and managing change in the public sector. Reviews the diverse perspectives on change and the special roles of those who seek to change and develop organizations. Includes topics such as planned and unplanned change, alternative interventions, resistance, leadership, and incremental versus radical change. Students will undertake case studies and assessments of organizational change initiatives.

ADMN 681 - Units: 1.5
Quantitative Methods for Public Policy Analysis and Program Evaluation
Describes the logic behind various quantitative methodologies used in conducting retrospective quantitative evaluations in public policy programs and research. Demonstrates the application of these methodologies using real-world policy applications. Topics may include: simple and multiple regression, endogeneity, limited dependent variables, panel data and experimental methods.
Note: Credit will be granted for only one of ADMN 681, ADMN 581.

ADMN 690 - Units: 1.0-3.0
Directed Studies
Notes:
• May be taken more than once for credit in different topics with permission of the school.
• Pro Forma required.

ADMN 693 - Units: 3.0
PhD Candidacy Examination
Students enrol in ADMN 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed.
Grading: INP, COM, N, F.

ADMN 699 - Units: 30.0
Dissertation
Prerequisite(s): ADMN 693.
Grading: INP, COM, N, F.

AHVS
Art History and Visual Studies
Department of Art History and Visual Studies
Faculty of Fine Arts

AHVS 501 - Units: 1.5
Formerly: HA 501
Colloquium in Theories and Practices
Notes:
• Credit will be granted for only one of AHVS 501, HA 501.
• A compulsory seminar for all master’s students.

AHVS 502 - Units: 1.5
Formerly: HA 502
Special Topics in Art History and Visual Studies
Note: Credit will be granted for only one of AHVS 502, HA 502.

AHVS 509 - Units: 1.5
Formerly: HA 509
Workshop in Art Historical Writing
Notes:
• Credit will be granted for only one of AHVS 509, HA 509.
• A compulsory workshop
Prerequisite(s): AHVS 501 or HA 501.
AHVS 520  Units: 1.5
Formerly: HA 520
Seminar in Medieval Art
Note: Credit will be granted for only one of AHVS 520, HA 520.

AHVS 530  Units: 1.5
Formerly: HA 530
Seminar in the Contemporary Art of South and Southeast Asia
An intensive examination of selected themes, histories and case studies in the contemporary arts and art worlds of South and/or Southeast Asia.
Note: Credit will be granted for only one of AHVS 530, HA 530.

AHVS 535  Units: 1.5
Seminar in Late Medieval and Early Renaissance Art, c. 1200-1500
Note: May be taken more than once for credit in different topics.

AHVS 540  Units: 1.5
Formerly: HA 540
Seminar in Renaissance Art
Note: Credit will be granted for only one of AHVS 540, HA 540.

AHVS 545  Units: 1.5
Formerly: HA 545
Seminar in Early Modern Art, c. 1500-1750
Note: Credit will be granted for only one of AHVS 545, HA 545.

AHVS 549  Units: 1.5
Formerly: HA 549
Seminar in Orientalism in Art and Architecture
Note: Credit will be granted for only one of AHVS 549, HA 449, HA 549.

AHVS 550  Units: 1.5
Formerly: HA 550
Seminar in Islamic Art and Civilization
Note: Credit will be granted for only one of AHVS 550, HA 550.

AHVS 552  Units: 1.5
Formerly: HA 552
Seminar in the Arts of Mughal India
Note: Credit will be granted for only one of AHVS 552, HA 552.

AHVS 554  Units: 1.5
Formerly: HA 554
Seminar in 19th- and 20th- Century Architecture
Note: Credit will be granted for only one of AHVS 554, HA 465, HA 554.

AHVS 555  Units: 1.5
Formerly: HA 555
Seminar in Canadian Art
Note: Credit will be granted for only one of AHVS 555, HA 555.

AHVS 560  Units: 1.5
Formerly: HA 560
Seminar in Modern Art I (1870-1945)
Note: Credit will be granted for only one of AHVS 560, HA 560.

AHVS 561  Units: 1.5
Formerly: HA 561
Seminar in Modern Art II (1945-1990)
Note: Credit will be granted for only one of AHVS 561, HA 561.

AHVS 563  Units: 1.5
Formerly: HA 563
Seminar in Political Art
Note: Credit will be granted for only one of AHVS 563, HA 563.

AHVS 564  Units: 1.5
Formerly: HA 564
Seminar in Contemporary Art
Note: Credit will be granted for only one of AHVS 564, HA 564.

AHVS 565  Units: 1.5
Formerly: HA 565
Seminar in Contemporary North American Indigenous Arts
Note: Credit will be granted for only one of AHVS 565, HA 565.

AHVS 570  Units: 1.5
Formerly: HA 570
Seminar in East Asian Art
Note: Credit will be granted for only one of AHVS 570, HA 570.

AHVS 571  Units: 1.5
Seminar in the Arts of China
Note: Credit will be granted for only one of AHVS 571, HA 571.

AHVS 578  Units: 1.5
Formerly: HA 578
Seminar in Theory & Film Culture
Note: Credit will be granted for only one of AHVS 578, HA 578.

AHVS 580  Units: 1.5
Formerly: HA 580
Topics in Cultural Resource Management
Note: Credit will be granted for only one of AHVS 580, HA 580.
Prerequisite(s): Permission of the department.

AHVS 582  Units: 1.5
Formerly: HA 582
Seminar in Indigenous Arts
Note: Credit will be granted for only one of AHVS 582, HA 482, HA 582.

AHVS 584  Units: 1.5
Formerly: HA 584
Seminar in the Contemporary Arts of the Pacific Northwest
An intensive study of a selected aspect of Pacific Northwest art. Content will vary from year to year.
Notes:
• Credit will be granted for only one of AHVS 584, HA 584.
• May be taken more than once with permission of the department.

AHVS 590  Units: 1.5
Formerly: HA 590
Directed Studies MA Level
Notes:
• Credit will be granted for only one of AHVS 590, HA 590 (if taken in the same topic).
• May be taken more than once for credit in different topics.
• Pro Forma required.

AHVS 593  Units: 1.5
Formerly: HA 593
Seminar on the Williams Collection
An intensive study of selected aspect of the Williams Collection. Topics will vary.
Notes:
• Credit will be granted for only one of AHVS 593, HA 593.
• May be taken more than once with permission of the department.
• Several classes may be taught at area museums and galleries.

AHVS 598  Units: 4.5
Formerly: HA 598
Research Paper
An extended research paper of approx. 10,000 words, which will be defended in an oral exam.
Note: Credit will be granted for only one of AHVS 598, HA 598
Grading: INP, COM, N, F.

AHVS 601  Units: 1.5
Formerly: HA 601
Colloquium in Theories and Practices
Notes:
• Credit will be granted for only one of AHVS 601, HA 601.
• A compulsory course for all doctoral students, except for students who have credit for AHVS 501.

AHVS 609  Units: 1.5
Formerly: HA 609
Workshop in Art Historical Writing
Notes:
• Credit will be granted for only one of AHVS 601, HA 601.
• A compulsory workshop.

AHVS 690  Units: 1.5-6.0
Formerly: HA 690
Directed Studies PhD Level
Notes:
• Credit will be granted for only one of AHVS 690, HA 690 (if taken in the same topic).
• May be taken more than once for credit in different topics.
• Pro Forma required.

AHVS 693  Units: 3.0
Formerly: HA 693
Candidacy Exam
Note: Credit will be granted for only one of AHVS 693, HA 693.
Grading: INP, COM, N, F.

</table>
ANTH 690 | Units: 1.5
Specialized Directed Study
Intended to prepare students to participate in and contribute to research and knowledge development in one or more of their particular areas of specialization within the discipline.
PhD students must take any one of the following: ANTH 690A, ANTH 690C, ANTH 690D, ANTH 690E, ANTH 690F.

ANTH 690C | Units: 1.5
Specialized Directed Study in Inequality, Culture, Health

ANTH 690D | Units: 1.5
Specialized Directed Study in Evolution and Ecology

ANTH 690E | Units: 1.5
Specialized Studies in Method and Theory

ANTH 690F | Units: 1.5
Specialized Directed Study in Visual Anthropology and Materiality

ANTH 693 | Units: 3.0
PhD Candidacy Examinations
Students enroll in ANTH 693 while completing their candidacy requirements. In addition to completing their coursework, PhD students must fulfill the language requirement, pass their comprehensive examinations, and defend their dissertation proposal in order to advance to candidacy.
Grading: INP, COM, N, F.

ANTH 699 | Units: 20
PhD Dissertation
Prerequisite(s): ANTH 693.
Grading: INP, COM, N, F.

ART 500 | Units: 9.0
First Year Drawing

ART 501 | Units: 9.0
Second Year Drawing

ART 511 | Units: 9.0
First Year Painting

ART 512 | Units: 9.0
Second Year Painting

ART 521 | Units: 9.0
First Year Sculpture

ART 552 | Units: 9.0
Second Year Sculpture

ART 541 | Units: 9.0
First Year Photography

ART 542 | Units: 9.0
Second Year Photography

ART 551 | Units: 9.0
First Year Digital Media

ART 552 | Units: 9.0
Second Year Digital Media

ART 570 | Units: 3.0
Directed Study
An independent study course normally taken during the term between the student’s first and second year.

ART 580 | Units: 6.0
First Year Seminar

ART 581 | Units: 6.0
Second Year Seminar
The graduate seminar meets weekly, serving as a forum for active investigation of contemporary art practices as they pertain to student and faculty research areas. The seminar also serves as an occasional forum for visiting artists and critics. Students are expected to make presentations based on their work and research, to participate actively in discussion and to demonstrate their critical and analytical abilities in dealing with the material presented.

ASTR 504 | Units: 1.5
A Theoretical Perspective on Galaxies
The current theoretical framework for understanding the formation and evolution of galaxies and galaxy systems. Topics may include the origin of the initial density perturbations during inflation, the hierarchical clustering paradigm, the physics driving the evolution of cosmic baryons, and the latest tools used by theorists to study structure formation.

ASTR 505 | Units: 1.5
An Observational Perspective on Galaxies
The formation and evolution of galaxies from a modern research perspective. Topics may include the observed properties of galaxies, the growth of galaxies from initial conditions, the development of galactic scaling relations, the relationship between galaxies and large-scale structure and the physical evolution of galaxies.
ASTR 506  Units: 1.5
Stellar Populations
The properties of star clusters and their use in improving our understanding of stellar evolutionary theory. The use of star clusters and theoretical stellar models to study the formation of galaxies in the early Universe in addition to the chemical and dynamical evolution of galactic systems.

ASTR 507  Units: 1.5
Stellar Archaeology
The properties of stars and stellar populations in the Milky Way Galaxy. Topics may include stellar chemistry and the analysis of model atmosphere, stellar and cluster kinematics, astronomical instrumentation, and big data surveys.

ASTR 508  Units: 1.5
Cosmology
Modern research problems in cosmology. Topics may include the measurement of cosmological parameters, universal expansion, large-scale structure, big bang nucleosynthesis and the cosmic microwave background.

ASTR 511  Units: 1.5
Advanced Topics in Astronomy
Advanced topics covering research in the fields of extra-galactic and stellar astronomy.
Note: May be taken more than once for credit in different topics.

ASTR 561  Units: 1.5
Student Seminar (MSc)
Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing astronomical research. This is a continuing course that is taken throughout the MSc program, but credit is not granted until completion of the program.
Grading: INP, COM, N, F.

ASTR 580  Units: 1.0-3.0
Directed Studies
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

ASTR 661  Units: 1.5
Student Seminar (PhD)
Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing astronomical research. This is a continuing course that is taken throughout the initial part of the PhD program, with credit granted on successful completion of the PhD Candidacy Examination PHYS 693.
Grading: INP, COM, N, F.

BCMB 501  Units: 1.0
Formerly: BCMB 531 Essentials of Scientific Writing
Exploration of the techniques and strategies of effective scientific writing for knowledge dissemination, grant submission, and peer-reviewed journals.
Note: Credit will be granted to only one of BCMB 501, BCMB 531.

BCMB 502  Units: 1.0
Journal Club II
Journal club designed to introduce students to relevant biochemical and microbiological research literature. Selected papers will encompass the following research themes: (1) molecular pathogenesis; (2) gene expression and signaling; (3) diagnostics, therapeutics and vaccines; (4) protein chemistry, structure and function; and (5) proteomics.

BCMB 580  Units: 0
Research Seminar
Requires attendance and participation at all departmental seminars, and the formal presentation of the research that comprises the major portion of the student’s MSc thesis in biochemistry or microbiology, or the major portion of the currently completed and proposed research for students intending to transfer to the PhD program.
Grading: INP, COM, N, F.

BCMB 589  Units: 0.5-1.5
Special Topics in Biochemistry or Microbiology
Instruction in a specific or highly specialized aspect of biochemistry or microbiology not otherwise offered in the department’s graduate programs.
Note: May be taken more than once for credit in different topics to a maximum of 1.5 units.

BCMB 602  Units: 0
Journal Club II
Journal club designed to introduce students to relevant biochemical and microbiological research literature. Selected papers will encompass the following research themes: (1) molecular pathogenesis; (2) gene expression and signaling; (3) diagnostics, therapeutics and vaccines; (4) protein chemistry, structure and function; and (5) proteomics.
Prerequisite(s): BCMB 502.
Grading: INP, COM, N, F.

BCMB 680  Units: 0
Advanced Research Seminar
Requires attendance and participation at all departmental seminars, and the formal presentation of the research that comprises the major portion of the student’s PhD thesis work in biochemistry or microbiology.
Prerequisite(s):
• One of BCMB 580, BCIO 580, MICR 580, or
• permission of the department.
Grading: INP, COM, N, F.

BCMB 693  Units: 3.0
PhD Candidacy Examination
Students enrol in BCMB 693 upon provisional transfer to the BIOC or MICR PhD program and remain enrolled until all candidacy requirements are complete.
Grading: INP, COM, N, F.
Biol 513 - units: 1.5
Developmental Biology
Cellular and molecular mechanisms underlying animal development: fertilization, gastrulation, body axis formation and patterning, formation of the eye, nervous system, neural crest, limb, germ cells and gonads. Emphasis on human developmental disorders, experimental design and hypothesis testing.
Notes:
- Credit will be granted for only one of BIOL 513, BIOL 309.
- A combined undergraduate and graduate course.
- Please contact instructor for more information.

Biol 516 - units: 1.5
Neuroethology
Examination of the neural basis of behaviour. Insights into the neuronal organization of behaviour through examination of neural solutions that have evolved in animals to solve problems encountered in their particular environments. Examples in individual species will be used to illustrate how neuronal systems integrate information to shape behaviour in a real-world context. Critical evaluation of research papers and seminar presentations based on the primary literature will be emphasized.
Notes:
- Credit will be granted for only one of BIOL 516, BIOL 448.
- A combined undergraduate and graduate course.
- Please contact instructor for more information.

Biol 521 - units: 1.5
Advanced Topics in Marine and/or Freshwater Algae
Phytoplankton eco-physiology, and connections between phytoplankton physiology and broad oceanographic issues, such as the dynamics of nutrient cycling, carbon export, paleoceanographic proxies, ocean warming and marine ecosystem changes.

Biol 522 - units: 1.5
Sensory Biology
Cellular and molecular mechanisms underlying sensory systems: sensory receptor coding logic, signal transduction, neuronal circuitry, developmental biology, comparative analysis of model organisms, related clinical disorders and therapeutic strategies. Focus placed on recent advances in the primary literature and on promoting skills for developing hypotheses and designing experiments.
Notes:
- Credit will be granted for only one of BIOL 522, BIOL 404.
- A combined undergraduate and graduate course.
- Please contact instructor for more information.

Biol 535 - units: 1.5
Topics in Evolutionary Biology
A lecture and discussion course dealing with the processes of evolution. Topics vary, and may include one or more of the following: microevolutionary and macroevolutionary processes, speciation mechanisms, phylogeny reconstruction, molecular evolution, genetic basis of morphological change. Areas of current controversy will be explored.
Note: Credit will be granted for only one of BIOL 535, BIOL 555.

Biol 536 - units: 1.5
Human Molecular Genetics
An advanced study of the supramolecular organization, structures and functions of the human genome, and their implications in genetic diseases, including cancer. Topics will include current advances in genomics, animal models of diseases, molecular pathology and gene therapies.
Notes:
- Credit will be granted for only one of BIOL 536, BIOL 436.
- A combined undergraduate and graduate course.
- Please contact instructor for more information.

Biol 538 - units: 1.5
Also: FORB 538
Nutrient Cycling and Prokaryotes
An introduction to prokaryotes (bacteria and archaea) and their role in nutrient cycling in forests, lakes and oceans. Diversity and evolution of populations and communities of prokaryotes and their role in the major biogeochemical cycles: carbon, nitrogen, sulfur. Genetic, biochemical, physiological and ecological aspects of processes such as nitrogen fixation and methanogenesis; design of experimental approaches to assess cycling of elements in forests, lakes and oceans by prokaryotes.
Notes:
- Credit will be granted for only one of BIOL 538, BIOL 438, FORB 538.
- A combined undergraduate and graduate course.
- Please contact instructor for more information.

Biol 540 - units: 1.5
Molecular Epidemiology
Basic principles and applications of molecular epidemiology in epidemiological research on infectious and chronic diseases as well as risk factors in human populations. An overview of terminology and definitions, the use of statistics, and ethical consideration.
Notes:
- Credit will be granted for only one of BIOL 540, BIOL 439.
- A combined undergraduate and graduate course.
- Please contact instructor for more information.

Biol 544 - units: 1.5
Molecular Evolution
Using population genetic and evolutionary principles to understand how and why genes and genomes change, and to reconstruct the evolutionary history of genes, genomes, and organisms.
Notes:
- Credit will be granted for only one of BIOL 544, BIOL 435.
- A combined undergraduate and graduate course.
- Please contact instructor for more information.

Biol 550 - units: 1.0-6.0
Directed Studies
Notes:
- May be taken more than once in any of the below areas under the appropriate faculty member.
- Pro Forma required.

Biol 550A - units: 1.0-6.0
Evolution
Notes:
- May be taken more than once for credit in different topics with permission of the department.
- Pro Forma required.

Biol 550B - units: 1.0-6.0
Ecology
Notes:
- May be taken more than once for credit in different topics with permission of the department.
- Pro Forma required.

Biol 550C - units: 1.0-6.0
Physiology
Notes:
- May be taken more than once for credit in different topics with permission of the department.
- Pro Forma required.

Biol 550D - units: 1.0-6.0
Cell Biology
Notes:
- May be taken more than once for credit in different topics with permission of the department.
- Pro Forma required.

Biol 550E - units: 1.0-6.0
Molecular Biology
Notes:
- May be taken more than once for credit in different topics with permission of the department.
- Pro Forma required.

Biol 557 - units: 1.5
Paleoecology and Environmental Change
Fundamental principles of paleoecology with emphasis on species, community and ecosystem responses to environmental change over the past 2 million years. Topics include: using fossil remains to infer ecological dynamics and climate change since the last glaciation; ice age megafaunal extinctions; role of paleoecology in conservation.
Notes:
- Credit will be granted for only one of BIOL 557, BIOL 457, BIOL 550B (if taken in the same topic).
- A combined undergraduate and graduate course.

Biol 560 - units: 1.0
Annual Biology Graduate Symposium
Required of all graduate students every year of their degree program except by permission of the department. Shall be treated, in its grading, as the thesis or the dissertation and shall be given one unit of credit upon completion.
Grading: INP, COM, N, F.

Biol 561 - units: 1.5
Hours: 3-0-1
Fisheries Ecology and Management
An examination of the basic principles of fisheries ecology and population dynamics and how they are used as the basis for stock assessment and fisheries management. Topics include: current issues in BC, Canadian and global fisheries, growth, mortality, reproduction and recruitment; stock-recruitment and age-structured fisheries models; fisheries management tactics and strategies.
Prerequisite(s): Permission of the department.

Biol 563 - units: 1.5
Also: STAT 563
Topics in Applied Statistics
Survival analysis, generalized linear models, multivariate normal models, resampling methods, nonparametric and robust methods, meta-analysis, miscellaneous techniques.
Note: Joint with STAT 563.
BUS 690 Units: 1.5-4.5
Directed Studies for Business PhD Program
The content, credit value and method of evaluation must be approved by the PhD Program Director as well as the instructor offering the area of individual study prior to registration.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

BUS 693 Units: 3.0
Doctoral Candidacy Exam
PhD students write a Candidacy Exam made up of three components including two written content exams on core subject material and a critical review of an empirical research manuscript. These written responses will be combined with an oral examination to assess whether the student has reached a sufficient level of expertise to allow him or her to proceed to the next stage of the program.
Grading: IMP, COM, N, F.

BUS 694 Units: 0
Dissertation Proposal Defence
Grading: IMP, COM, N, F.

BUS 695 Units: 0.5-4.5
Special Topics in Business Administration
The content, credit value and method of evaluation must be approved by the PhD Program Director.
Note: May be taken more than once for credit in different topics to a maximum of 20 units.
Grading: IMP, COM, N, F.

BUS 699 Units: 15
PhD Dissertation
Prerequisite(s): BUS 693.
Grading: IMP, COM, N, F.

CD 501 Units: 1.5
Anchoring a Change Agenda: Foundations
Grounds students in a solid understanding of the multiple historical, theoretical and conceptual frameworks of the role of civil society and the social economy in advancing progressive economic, political and social change, including the economics of social justice. The powerful intersection of theory and practice will be examined and critically assessed in the context of the capacity of co-operatives, non-profits and community development organizations to respond to key contemporary societal issues, global trends, and to consider implications for the future.
Prerequisite(s):
• Admission to MA program in Community Development, or
• permission of the program.

CD 504 Units: 1.5
Practices and Perspectives on Forging Change
The ideologies, assumptions, and practices of diverse models of change that engage citizens, organizational and institutional stakeholders for social benefit are explored. Introduces a range of models, their strengths, limits and applications with particular focus on governance, power, influence and socioeconomic innovation. Students analyze and assess the relevance and value to their fields of interest, whether community economic development, co-operatives or nonprofits. Uses a range of readings, case studies and practice experience drawing upon Canadian and international settings.
Note: Credit will be granted for only one of CD 504, CD 530.

CD 505 Units: 1.5
Community-Based Research: Foundations
Explores the values, goals and assumptions of community-based research and its methodologies. Participatory action research methods and lessons learned from best practices will be introduced. Students will experience a variety of approaches and develop the capacity to evaluate appropriate methods and their application for practice settings. This course will help shape the student’s major project.

CD 506 Units: 1.5
Enterprise Development for Community Benefit
Analyzes the strategy, models and processes of planning and decision making for developing enterprises that link social and economic benefit to the community. Students will develop a clear understanding of key concepts within financial, information and community technologies, leadership and community capacity building elements that accompany organizational and community enterprise development. Stream-specific readings and practices will complement the core content.

CD 509 Units: 1.5
Developing Capabilities to Lead and Manage in the Non-Profit Sector
Focuses on developing the capabilities of strategic planning, program and program management, resource generation, financial and human resource management, performance, information and communication technology, communications management, and ensuring accountability to multiple stakeholders. Students will develop an in-depth understanding of leading edge management frameworks and examine their relevance to leading and managing in the community sector.

CD 510 Units: 1.5
Leadership, Management and Governance within Organizations
Develops the competencies required to effectively lead and manage organizations from the ‘inside’, focusing on leadership capacities, human resources (staff, boards and volunteers), governance, internal and external stakeholder relations. Through a blend of theory, practice and experiential simulations, students integrate their learning as well as appreciate the unique dimensions of co-operatives, social enterprises and non-profit organizations.
Note: Credit will be granted for only one of CD 510, CD 531.
Prerequisite(s):
• Admission to MA program in Community Development, or
• permission of the program.

CD 512 Units: 1.5
Program and Project Design, Management and Evaluation
Examines the various perspectives and approaches to program and project design, management and evaluation. Highlights the analytical activities and decisions involved in effective design, planning, implementation, reporting, and evaluation focusing on innovative and practical tools and processes that ensure effective outcomes and accountability. Attention will be paid to managing the complexity of multiple and collaborative projects and programs.

CD 518 Units: 1.5
Citizen Participation and Democratic Governance
Introduces students to concepts of citizenship, democracy and governance and addresses different histories and forms of democracy. The meanings of citizenship and its relationship to identity, engagement and participation are discussed. Explores different models of governance and reviews governance practices and structures at multiple levels in different jurisdictions. Also investigates the role of accountability in democratic governance, including forms and techniques of accountability.

CD 522 Units: 1.5
Understanding and Mainstreaming Gender
Considers a range of conceptual and practical issues faced in the quest for a gender-just society. Topics include: definition and understanding of gender, gender based violence, gender in institutions as well as the creation of gender-sensitive environments. Course material and online discussions encourage critical analysis of diverse contemporary debates and perspectives. Also includes exercises and questions to stimulate critical thinking and reflection upon gender attitudes and perceptions.

CD 524 Units: 1.5
Leadership and Organizational Development for Communities
Explores leadership beliefs, values, and attitudes, and analyzes perspectives in shaping leadership in civil society, community development and the social economy. Introduces management, assessment, concepts and tools for developing strategic priorities and planning frameworks for organizations and communities. Includes scenario based exercises set in a variety of practice contexts relevant to students’ experience and systems.
Note: Credit will be granted for only one of CD 524, CD 520, CD 503, CD 530.
Prerequisite(s):
• Admission to MA program in Community Development, or
• permission of the program.
CD 525  Units: 1.5  Managing Organizations, Systems and Community Transformations
Develops key competencies for personal, group, organizational and community leadership in teamwork, facilitation, presentation skills, negotiation, conflict resolution, group dynamics and collaboration. Examines systemic factors that encourage and challenge innovation. Analysis of cases that demonstrate successful scaling, practices or particular innovations.  
Note: Credit will be granted for only one of CD 525, CD 511, CD 513, CD 531.  
Prerequisite(s):  
•  Admission to MA program in Community Development; or  
•  permission of the program.

CD 526  Units: 1.5  Agenda for Social Change: Moving Forward
Surveys the key leverage points for exercising strategic leadership for addressing key trends at the local and regional level. Exemplary practice and understanding of key policy innovations are drawn from local and international sources. Provides an opportunity for students to engage in generative dialogue to explore learning that strategically advances civil society, social economy and strengthens communities. Understanding local and international key policy innovations are linked with the formulation of recommendations for action for moving forward.  
Note: Credit will be granted for only one of CD 526, CD 517, CD 530.  
Prerequisite(s):  
•  Admission to MA program in Community Development; or  
•  permission of the program.

CD 530  Units: 1.5  Systems Thinking for Social Change
Explains systems thinking, its importance, and its relevance to students’ work environments. Introduces models, their strengths, limitations and applications with a focus on governance, power, economic influence and social innovation. Students analyze and assess the relevance and value of systems thinking to their fields of interest, whether non-profits, community economic development or co-operatives.  
Note: Credit will be granted for only one of CD 530, CD 504, CD 524.

CD 531  Units: 1.5  Leadership and Transformation
Presents three distinct but interrelated topics: introduces students to the concepts of leadership, governance and transformation, analyzes and synthesizes theories about leadership and change; and introduces interaction between governments and society. Students identify how a shift in behaviour or practice within a complex organization can produce significant changes in their organization and the communities they serve.  
Note: Credit will be granted for only one of CD 531, CD 510, CD 525.

CD 590  Units: 1.5  Directed Studies
An international or local exchange, a study tour, self-directed reading, or an innovative personal learning design. Must be applicable to the field of study. Primary consideration will be given to its role and relevance in deepening skills and knowledge to strengthen the capacity of the student to provide leadership in the future.  
Note: May be taken more than once for credit in different topics with permission of the faculty.

CD 591  Units: 1.5  Selected Topics Course
A study of selected topics drawn from the current literature and practices in the social economy or related fields.  
Note: May be taken more than once for credit in different topics with permission of the faculty.

CD 596  Units: 4.5  Group Project
A substantial analysis of a management, policy or program problem in the community development sector, which may be done for a client. The Group Project is prepared under the supervision of a faculty member in the School of Public Administration and must be both practical and academically rigorous. A written project report is defended in an oral examination.  
Grading: INP, COM, N, F.

CD 598  Units: 4.5  Master's Project
A substantial analysis of a management, policy or program problem in the community development sector, which may be done for a client. The Master's Project is prepared under the supervision of a faculty member in the School of Public Administration and must be both practical and academically rigorous. A written project report is defended in an oral examination.  
Grading: INP, COM, N, F.

CH 560  Units: 1.5  Cultural Heritage Stewardship and Sustainability
Explores cultural heritage in all its diverse forms, along with the critical roles it plays in defining, reinforcing and contributing to a sustainable world. Discusses the scope and meaning of cultural heritage in contemporary society, and analyzes how diverse approaches to the conservation, access to and management of cultural heritage are continuing to evolve in response to philosophical changes and social, economic, cultural and environmental needs.

CH 561  Units: 1.5  Social Engagement
Explores the profound social changes that are reshaping the nature and purposes of museums and other cultural heritage organizations in a pluralistic society. Considers the implications for all aspects of their specialized functions with a particular focus on how such organizations serve as dynamic social spaces for community engagement and action.  
Notes:  
•  Credit will be granted for only one of CH 561, AHVS 488W.  
•  A combined undergraduate and graduate course.

CH 562  Units: 1.5  Curatorial Planning and Practice
Considers how traditional concepts of curatorship have shifted significantly in the face of more democratic relations with community, more subjective perspectives of knowledge, and increasing emphasis on the museum’s social and educational roles. Explores the nature and scope of contemporary critical curatorial theory and practice and focuses on the ways in which curators engage with cultural heritage resources, develop sustainable collections, and generate and share associated knowledge to meet the needs of diverse communities.  
Notes:  
•  Credit will be granted for only one of CH 562, AHVS 488X.  
•  A combined undergraduate and graduate course.

CH 563  Units: 1.5  Visitor Experiences
Explores the evolving concept and implications of an holistic approach to visitor engagement in museums and other cultural heritage institutions, and focuses on museums’ relationships with their publics, their capacity to serve as social spaces, strategies for audience research, the characteristics of visitors, communications, exhibitions, formal and informal learning activities, and evaluation strategies.  
Notes:  
•  Credit will be granted for only one of CH 563, AHVS 488Y.  
•  A combined undergraduate and graduate course.

CH 570  Units: 1.5  Heritage Conservation In Context
Addresses the complex range of principles and practices that influence heritage preservation and conservation planning and decision-making. The implications of international and national charters, principles, standards and guidelines, are discussed, along with legal, programmatic and financial incentives and constraints.  
Notes:  
•  Credit will only be granted for one of CH 570, AHVS 489K, HA 489K.  
•  A combined undergraduate and graduate course.
### CH 571 - Determining Significance of Heritage Resources

**Units:** 1.5  
**Description:** Focuses on the definition of the heritage value or significance of a historic place or resource as a key step in the management of cultural heritage resources. It explores the range of historical aesthetic, social and scientific values that establish the character-defining elements of historic resources, including buildings, structures, historic districts and cultural landscapes. Various methods of inventory and evaluation are discussed along with their roles in guiding subsequent conservation planning and decision-making.  
**Notes:**  
- Credit will only be granted for one of CH 571, AHVS 489C, HA 489C.  
- A combined undergraduate and graduate course.

### CH 572 - Heritage Conservation Planning

**Units:** 1.5  
**Description:** Focuses on approaches to planning and heritage conservation decision-making, and discusses the components of the heritage conservation planning process, including alignment with local and regional planning priorities, community involvement and consultation, the acquisition and integration of technical and regulatory information and professional expertise, and the integration of planning in the long-term management of heritage resources.  
**Notes:**  
- Credit will only be granted for one of CH 572, AHVS 489L, HA 489L.  
- A combined undergraduate and graduate course.

### CH 588 - Special Studies in Museum Studies

**Units:** 1.5  
**Description:** May be taken in conjunction with a Cultural Resource Management course in the AHVS 488 series with permission of the Program Adviser.  
**Note:** This course may be taken more than once for credit in different topic areas.  
**Prerequisite(s):** Permission of the program.

### CH 589 - Special Studies in Heritage Conservation

**Units:** 1.5  
**Description:** May be taken in conjunction with a Cultural Resource Management course in the AHVS 489 series with permission of the Program Adviser.  
**Note:** This course may be taken more than once for credit in different topic areas.  
**Prerequisite(s):** Permission of the program.

### CH 591 - Practicum in Cultural Heritage

**Units:** 1.5  
**Description:** A placement in a cultural heritage setting, designed to build knowledge and skills in a specialized area of practice.  
**Grading:** INP, COM, F, N.

---

### CHEM Department of Chemistry Faculty of Science

#### CHEM 505 - Research Methods and Professional Development in Chemistry

**Units:** 0.5  
**Hours:** 1-0-0  
**Description:** Introduction to professional development and best practices in research. Topics may include writing, ethics, the publication and review process, intellectual property, time and data management, record keeping, the chemical literature.  
**Grading:** INP, COM, N, F.

#### CHEM 509 - Seminar

**Units:** 1.0  
**Description:** Requires regular attendance at departmental seminars throughout the student's program, annual participation in the Graduate Student Research Days and presentation of a research seminar in term 4 or 5 of MSc students' programs, or in term 10 or 11 of PhD students' programs.  
**Grading:** INP, COM, N, F.

#### CHEM 511 - Advanced Instrumental Analysis

**Units:** 1.5  
**Description:** A discussion of electronic data acquisition and manipulation as used in modern chemical instrumentation.  
**Notes:**  
- Credit will be granted for only one of CHEM 511, CHEM 411.  
- A combined undergraduate and graduate course.

#### CHEM 521 - Advanced Inorganic Chemistry

**Units:** 1.5  
**Description:** Advanced topics in inorganic chemistry from across the periodic table, building on principles established in 222, 324 and 353. Topics may include: main group organometallics, novel structures and reactivity, catalysis, inorganic polymers, zeolites, fullerenes, metal-metal and metal-ligand multiple bonding, bioinorganic chemistry, metal clusters, or chemistry of the lanthanides and actinides.  
**Note:** Credit will be granted for only one of CHEM 521, CHEM 524, CHEM 526 (if taken in the same topic).

#### CHEM 523 - Organometallic Chemistry

**Units:** 1.5  
**Description:** Topics in advanced inorganic chemistry.

#### CHEM 526 - Topics in Advanced Inorganic Chemistry

**Notes:**  
- May be taken more than once for credit in different topics.  
- Pro Forma required.

#### CHEM 533 - Organic Synthesis

**Units:** 1.5

#### CHEM 537 - Biological and Medicinal Chemistry

**Units:** 1.5  
**Description:** An introduction to medicinally important biological systems and the small molecules that perturb them. Topics will include: chemical aspects of proteomics, biological target identification, mechanisms of action for important drugs, lead identification and development, and enzyme inhibitor design.

#### CHEM 547 - Advanced Molecular Spectroscopy

**Units:** 1.5  
**Description:** Application of quantum chemistry to molecular spectroscopy. Spectroscopic methods and their applications.  
**Notes:**  
- Credit will be given for only one of CHEM 547, CHEM 447.  
- A combined undergraduate and graduate course.

#### CHEM 551 - Nuclear Magnetic Resonance and its Applications

**Units:** 1.5  
**Description:** The use of NMR in synthetic and mechanistic chemistry.  
**Notes:**  
- Credit will be given for only one of CHEM 551, CHEM 451.  
- A combined undergraduate and graduate course.

#### CHEM 552 - Reaction Mechanisms and Dynamics

**Units:** 1.5  
**Description:** Predicting the kinetic behaviour of different types of mechanisms with examples from inorganic and organic chemistry.  
**Notes:**  
- Credit will be given for only one of CHEM 552, CHEM 352, CHEM 452.  
- A combined undergraduate and graduate course.

#### CHEM 553 - Structure, Reactivity and Bonding

**Units:** 1.5  
**Description:** Descriptions of chemical bonding and reactivity using qualitative molecular orbital theory.  
**Notes:**  
- Credit will be given for only one of CHEM 553, CHEM 453.  
- A combined undergraduate and graduate course.

#### CHEM 555 - Statistical Thermodynamics

**Units:** 1.5

#### CHEM 556 - Topics in Advanced Physical Chemistry

**Notes:**  
- May be taken more than once for credit in different topics.  
- Pro Forma required.

#### CHEM 560 - Research Tools and Special Topics

**Units:** 0.5  
**Description:** This course will be offered as multiple 0.5-unit modules that count as graduate lecture courses for the purposes of Chemistry graduate program requirements. Consult the course coordinator for offerings in a particular year.  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Pro Forma required.
CHEM 577  Units: 1.5
Also: CHEM 477
Computational Chemistry
The benefits and limitations of applying different computational models to chemical phenomena, accounting for the relevant length and time scales and including the appropriate molecular behaviours.
Notes:
• Credit will be granted for only one of CHEM 577, CHEM 477.
• A combined undergraduate and graduate course.

CHEM 578  Units: 1.5
Also: CHEM 478
Industrial Chemistry
A comparative discussion of a number of chemical industries and the details of the processes.
Notes:
• Credit will be granted for only one of CHEM 578, CHEM 478.
• A combined undergraduate and graduate course.

CHEM 590  Units: 0.5-3.0
Directed Studies
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

CHEM 599  Units: 1.5
MSc Thesis
Grading: INP, COM, N, F.

CHEM 633  Units: 1.5
Topics in Advanced Organic Chemistry
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

CHEM 645  Units: 1.5
Also: CHEM 475
Electrochemistry and its Applications
Introduction to equilibrium and kinetics of electrochemical processes including their applications in energy and analytical chemistry.
Notes:
• Credit will be granted for only one of CHEM 645, CHEM 475.
• A combined undergraduate and graduate course.

CHEM 647  Units: 1.5
Materials Science

CHEM 670  Units: 1.5
Property-Directed Synthesis Discussion
Note: May be taken more than once for credit in different topics.

CHEM 676  Units: 1.5
Polymer Science

CHEM 680  Units: 1.5
Reactivity, Dynamics and Spectroscopy Discussion
Note: May be taken more than once for credit in different topics.

CHEM 693  Units: 3.0
PhD Candidacy Examination
Students enrol in 693 concurrently with 699 until 693 is passed. If the candidacy examination cannot be completed until the following term, an INP (in progress) grade will be entered.
Grading: INP, COM, N, F.

CHEM 699  Units: 37.5-39.0
PhD Dissertation
Pre- or Corequisite(s): CHEM 693.
Grading: INP, COM, N, F.

CIV 100  Units: 1.5
Industrial Metabolism
Methods of material and substance flow analysis in the context of technology and environmental change. Topics include: evolution of technology; environmental footprints, impacts and boundaries; industrial / societal use of dominant elements and compounds; critical metals; resource decoupling; transformation of global infrastructure systems.

CIV 101  Units: 1.5
Methods in Life Cycle Assessment
A variety of methods and applications of life cycle assessment (LCA) including process-based methods and input-output (IO) techniques. Topics include: consequential and attributional LCA; streamlined LCA; life cycle sustainability assessment; environmentally extended IO analysis; multi-regional and multi-scale IO analysis; applications of environmental LCA in product design and policy.

CIV 102  Units: 1.5
Industrial Symbiosis and Recycling
Reducing costs, adding value and improving the environment through the sharing of services, utility, and by-products between industries. The historical development and future prospects of industrial symbiosis at the eco-park, municipal and regional scales. Advances in waste management, recycling technologies and limits to the circular economy.

CIV 103  Units: 1.5
Sustainable Cities
Urban metabolism and sustainable infrastructure development. Design of the built environment based on energy and material flows through cities. Sustainable transportation, green buildings, urban climatology, vegetation, water systems and energy supply in urban neighbourhood designs. Measuring urban metabolism to account for greenhouse gas emissions and other environmental impacts of cities.

CIV 104  Units: 1.5
Uncertainty in Water Resources
Basic and advanced methods in uncertainty analysis in water resources modelling. Bayesian statistics, fuzzy sets and fuzzy numbers are used with applications to water resources. Typical methods used in physically-based modelling including GLUE.

CIV 105  Units: 1.5
Hydrologic Modeling
Analytical, numerical, statistical and physical approaches from local to global scales including surface water-groundwater interactions; analysis and prediction; discuss different approximations of hydrologic process equations and limitations and uncertainty associated with different process representations.

CIV 106  Units: 1.5
Environmental Modeling
Basic and advanced methods in spatial statistics for point, area and continuous variables. All the levels (from visual to analytical) of possible spatial analysis techniques for each type of variable and applications in environmental modelling are used to illustrate the concepts.

CIV 107  Units: 1.5
Groundwater Hydrology

CIV 108  Units: 1.5
Urban Water Systems
The planning and management of urban water systems; handling of wastewaters; drainage and flood prevention; urban agriculture and nutrient recycling; and recreational water uses. All elements of urban water infrastructure from water source, pumping, storage, transmission and distribution, to the hydraulics and network design of sewerage and drainage. Maintenance and repair of pipe networks, adaptation to climate change and sustainable approaches such as low impact development, grey-water systems, rainwater harvesting.

CIV 109  Units: 1.5
Water Treatment Processes
Theory and application of physical, chemical and biological processes for the treatment of water and wastewater. Topics include sedimentation, coagulation, filtration, and disinfection, activated sludge, biological nutrient removal, and anaerobic processes for waste treatment. Lecture material is supported by laboratory experiments.

CIV 110  Units: 1.5
Green Building Design
Definition of green building, design and construction concepts, site selection, materials and origin, water resource, energy use and generation, retrofit and recycling, indoor environment, occupant behaviour, durability, life cycle analysis, net-zero buildings, green building rating systems.

CIV 111  Units: 1.5
Advanced Building Science
Scope and definition, heat-air-moisture transport mechanisms, hygrothermal properties, test methods, climate characterization, moisture management, durability index, energy efficient building envelopes, whole building energy performance, application of numerical simulation tools, forensic investigations.
CIVE 552  Units: 1.5
Sustainable Construction
Sustainability in urban and remote communities, case studies to highlight some of the recent trends in sustainable construction in North America and around the globe. Topics for case studies will include (but not limited to): light-gauge steel technology for mass construction, insulated stay-in-place formwork technology for mass construction, shotcrete, precast and prestressed construction, and rammed earth construction. Will also include an introduction to use of BIM for managing construction projects.

CIVE 553  Units: 1.5
Advanced Mechanics of Materials
This mechanics of materials course covers advanced topics including beams on elastic foundations, unsymmetrical bending, curved beams, shear flow and torsion in closed and open sections, elastic stability and shells of revolution.

CIVE 556  Units: 1.5
Advanced Concrete Technology
Microstructure of hydration products and its effect on properties of concrete. Mechanisms and interaction of chemical admixtures and industrial wastes to produce sustainable and durable concrete. Evaluation of fresh and hardened properties of conventional and cement-based composites. Will include a project component focusing on specialized concretes not limited to fiber reinforced concrete, self-consolidating concrete, high strength concrete, light weight concrete, and carbon negative concrete.
Note: Credit will only be granted for one of CIVE 456, or CIVE 556.

CIVE 557  Units: 1.5  Hours: 3.1.5*-0
Behaviour and Design of Steel Structures
The behaviour and design of trusses, frames, members and connections in steel building and bridge structures. Ultimate strength, stability, and postbuckling are emphasized in topical examples including: plate girders, composite steel/ concrete girders, second-order frame behaviour, high-strength bolted and welded framing connections. Special topics including concrete filling, fire protection and plastic analysis of hollow structural section connections are also covered. Canadian design standards and the Limit States Design concepts are used.
* Indicates a 3-hour laboratory taken by students on alternate weeks.

CIVE 560  Units: 1.5
Urban Transportation Planning
The full suite of skills required in urban transportation planning including travel demand modelling, analysis of transportation land-use interactions, quantification of social and environmental impacts, and project evaluation in the context of broader planning issues and policies. Focus is primarily given to passenger transportation, including walking and cycling, with introduction to freight transport. Theoretical foundations of disaggregate choice models and other techniques in travel demand modeling are introduced.

CIVE 561  Units: 1.5
Urban Transit
Focuses on the planning and operation of public transit systems, covering the hierarchy of modes from buses and bus-rapid transit through streetcars and light-rail to subways and heavy rail. Topics include: factors affecting transit performance and demand; design of networks and mode interchanges; station design; vehicle operations and scheduling; design of transit priority; use of information technology and other innovations in transit planning; project evaluation.

CIVE 580  Units: 1.5
Selected Topics
Note: May be taken more than once for credit in different topics.

CIVE 590  Units: 1.5
Directed Studies
A wide range of topics will be available.
Note: Pro Forma required.

Sustainability Seminars I
Definitions, practices and approaches to sustainability in local to global civil engineering problems with a focus on case studies and integration across diverse disciplines in this seminar-based class. The specific topics change annually and the course is team-taught by several Civil Engineering faculty members.

CIVE 595  Units: 1.5
Sustainability Seminars II
Definitions, practices and approaches to sustainability in local to global civil engineering problems with a focus on case studies and integration across diverse disciplines in this seminar-based class. The specific topics change annually and the course is team-taught by several civil engineering faculty members.

CIVE 599  Units: 9.0
MASc Thesis
Grading: INP, COM, N, F.

CIVE 601  Units: 1.5
Research Methods
The laboratory, numerical and analytical methodologies of the various Civil Engineering research groups.

CIVE 603  Units: 1.5
PhD Dissertation
Prerequisite(s): CIVE 693
Grading: INP, COM, N, F.

CSC 501  Units: 1.5
Algorithms and Data Models
A comprehensive advanced overview of the main data structures and algorithms for data processing. Topics include the running time of programs, the list data model, the tree data model, the hash-map data model, the graph data model, the relational data model, the processes of data transformation, cleaning, and visualization.

CSC 502  Units: 1.5
Systems for Massive Datasets
Important and recent developments in database technology and systems for big data are covered in detail. Topics include storage technology, algorithms for secondary storage, relational operators implementation, multidimensional data and indexes, data structures for Information Retrieval, distributed data analytics, social network analytics, mining massive datasets.
Note: Credit will be granted for only one of CSC 502, CSC 571.

CSC 503  Units: 1.5
Data Mining
A comprehensive coverage of main Data Mining areas and algorithms. Topics include supervised learning, unsupervised learning, semi-supervised and weakly supervised learning, recommender systems, dimensionality reduction, association analysis. Data-mining software tools will be reviewed and compared.
Note: Credit will be granted for only one of CSC 503, CSC 578D (if taken in the same topic).

CSC 505  Units: 1.5
Computer Graphics
Provides students with a solid background in interactive, generative graphics techniques and hands-on experience programming a modern high resolution, raster display workstation. Covers the hardware and software structures of modern workstations, raster algorithms and data structures (Bresenham’s line and circle algorithms, polygon clipping, region filling, colour), transformations (two- and three-dimensional translation, scaling, and rotation as matrix operations), viewing and representation of three-dimensional shapes, approximation of curves and shapes, hidden line and hidden surface elimination algorithms.

CSC 510  Units: 1.5
Advanced Human-Computer Interaction
Topics of design methodologies, evaluation methodologies (both lab and field studies), human information processing, human movement, cognition, and perception are studied. Introduces students to research methods in HCI, and includes research topics such as: groupware and computer-supported co-operative work; customizable and adaptive systems; small screen, large screen, and tabletop displays; hypertext and multimedia; and virtual and augmented reality.
CSC 511 Units: 1.5
Information Visualization
An introduction to visualization, or the use of interactive visual representations of data to support human cognition. Principles of visualization design are presented from a human perceptual and cognitive standpoint. Topics include: design, interaction, perception and cognition, evaluation and applications.

CSC 520 Units: 1.5
Analysis of Algorithms
General techniques for designing and analyzing algorithms; an in-depth examination of several problems and algorithms with respect to their time and space requirements; advanced data structures; sorting and searching; graph algorithms; geometric algorithms; backtracking; NP complete problems; approximation algorithms.

CSC 526 Units: 1.5
Computational Geometry
An introduction to algorithms and data structures which are used to solve geometrical problems. Topics include geometric searching, convex polygons and hulls, Voronoi diagrams, plane sweep algorithms, proximity and intersections. Application areas discussed include computer graphics, VLSI design and graph theory.

CSC 528 Units: 1.5
Combinatorial Algorithms
Focuses on the interfaces between combinatorics and Computer Science. Algorithms and data structures that are used to manipulate, generate, and randomly select combinatorial objects are studied. Such objects include sets, permutations, combinations, trees, graphs. Methods for analyzing combinatorial algorithms such as recurrence relations, asymptotics, and amortized complexity are presented.

CSC 529 Units: 1.5
Cryptography
Paradigms and principles of modern cryptography. Topics include: review of classical and information-theoretic cryptography; block ciphers; DES, Cryptanalysis of DES, modes of operation, AES; Cryptographic hash functions and message authentication codes; public key cryptography, RSA, ElGamal and other public key systems, signature schemes, introduction to security protocols; secret sharing schemes and zero knowledge techniques.

CSC 530 Units: 1.5
Numerical Analysis I
Numerical linear algebra. Topics include: Gaussian elimination and its variants; sparse positive definite linear systems; sensitivity of linear systems; condition and stability; orthogonal matrices and least squares; eigenvalues and eigenvectors; the QR algorithm; the singular value decomposition.

CSC 554 Units: 1.5
Fault Tolerant Computing
Issues of fault tolerant computing are discussed, ranging from the choice of fault tolerant architectures, to expert systems for the design and test of integrated circuits. Topics include: design and test of defect free integrated circuits, fault modelling, built in self test, data compression, error correcting codes, simulation software/hardware, fault tolerant system design, CAD tools for design for testability. No topic will be covered.

CSC 560 Units: 1.5
Design and Analysis of Real-Time Systems
Fundamental issues in the design of real-time operating systems and application software. Typical topics include: hard real-time scheduling, interrupt driven systems, process communication and synchronization, language requirements for real-time systems, decomposition of real-time requirements into process model, and case studies. A project involving design, implementation and testing of a real-time executive and real-time application software will also be included.

Note: Not open to students registered in or with credit in CSC 460.
### CSC 562 - Distributed Computing
**Units:** 1.5

Recent developments and advanced research topics in the area of distributed computing. Topics include: distributed operating systems, interprocess communications, remote procedure calls, network transparency, file server, execution location, and failure transparency, fault tolerant distributed systems, process replication, load balancing, task migration and performance issues, interconnection strategies, network configurations, problem decomposition, distributed updating of multiple copies, global object addressing, centralized and decentralized control mechanisms, reliability and the reconnection problem, and finally case studies of some of the more significant distributed systems.

### CSC 564 - Concurrency
**Units:** 1.5

Introduction to the foundations of concurrency theory and the issues of specification and verification of concurrent systems. Topics include models of concurrency such as Petri nets, labelled transition systems, and traces; specification of concurrent systems/programs in formalisms including process algebras, statecharts, Petri nets and temporal logics; verification techniques such as bisimulation and model checking; verification using existing research tools. Case studies will be taken from coordination problems, controller design, communication and security protocols, hardware and user interface design.

### CSC 565 - Massive Data Sets, Scalability and Concurrency
**Units:** 1.5

A cross section of topics from computer science disciplines, including databases, operating systems, architecture, programming languages and theory, and consider challenges associated with concurrency from multiple perspectives. Students will be exposed to research involving programming paradigms and software practices for concurrent systems, algorithmic techniques for new paradigms, low level mechanisms for the implementation of practical primitives, applications including data mining and cloud computing, systems support for multicore computation, and pedagogy for concurrency in modern curriculum.

### CSC 567 - Switching, Network Traffic and Quality of Service
**Units:** 1.5

### CSC 569 - Wireless and Mobile Networks
**Units:** 1.5

The recent developments and advanced research topics in wireless and mobile networks. Topics include: radio propagation models, mobility models, location management, protocols particularly tailored for wireless and mobile networks, and analytical performance evaluation of wireless and mobile networks.

### CSC 575 - Music Retrieval Techniques
**Units:** 1.5

A comprehensive advanced overview of the emerging research area of Music Information Retrieval (MIR). Topics include techniques from signal processing, machine learning, information retrieval, human-computer interaction and software engineering that are applied in the design and development of MIR algorithms and systems. Integration of knowledge from different research areas to solve concrete problems.

### CSC 578A - Topics in Software Applications
**Units:** 1.5

Formerly: CSC 578

**Notes:**
- Credit will be granted for only one of CSC 578A, CSC 578 (if taken in the same topic), CSC 578B (if taken in the same topic), CSC 578C (if taken in the same topic), CSC 578D (if taken in the same topic).
- May be taken more than once for credit in different topics.

### CSC 578B - Topics in Software Applications
**Units:** 1.5

Formerly: CSC 578

**Notes:**
- Credit will be granted for only one of CSC 578B, CSC 578 (if taken in the same topic), CSC 578A (if taken in the same topic), CSC 578C (if taken in the same topic), CSC 578D (if taken in the same topic).
- May be taken more than once for credit in different topics.

### CSC 578C - Topics in Software Applications
**Units:** 1.5

Formerly: CSC 578

**Notes:**
- Credit will be granted for only one of CSC 578C, CSC 578 (if taken in the same topic), CSC 578A (if taken in the same topic), CSC 578B (if taken in the same topic), CSC 578D (if taken in the same topic).
- May be taken more than once for credit in different topics.

### CSC 578D - Topics in Software Applications
**Units:** 1.5

Formerly: CSC 578

**Notes:**
- Credit will be granted for only one of CSC 578D, CSC 578 (if taken in the same topic), CSC 578A (if taken in the same topic), CSC 578B (if taken in the same topic), CSC 578C (if taken in the same topic).
- May be taken more than once for credit in different topics.

### CSC 579 - Overlay and Peer-to-Peer Networking
**Units:** 1.5

Focuses on the recent developments and advanced research topics in Layer 3 and above and the control plane of the Internet. Topics include: overlay network architectures, peer-to-peer application models, end-to-end control mechanisms, inter- and intra-domain routing protocols, service provisioning, network measurement, and related best current practices on the Internet.

### CSC 581A - Topics in Artificial Intelligence
**Units:** 1.5

Formerly: CSC 581

**Notes:**
- Credit will be granted for only one of CSC 581A, CSC 581 (if taken in the same topic), CSC 581B (if taken in the same topic), CSC 581C (if taken in the same topic), CSC 581D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

### CSC 581B - Topics in Artificial Intelligence
**Units:** 1.5

Formerly: CSC 581

**Notes:**
- Credit will be granted for only one of CSC 581B, CSC 581 (if taken in the same topic), CSC 581A (if taken in the same topic), CSC 581C (if taken in the same topic), CSC 581D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

### CSC 581C - Topics in Artificial Intelligence
**Units:** 1.5

Formerly: CSC 581

**Notes:**
- Credit will be granted for only one of CSC 581C, CSC 581 (if taken in the same topic), CSC 581A (if taken in the same topic), CSC 581B (if taken in the same topic), CSC 581D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

### CSC 581D - Topics in Artificial Intelligence
**Units:** 1.5

Formerly: CSC 581

**Notes:**
- Credit will be granted for only one of CSC 581D, CSC 581 (if taken in the same topic), CSC 581A (if taken in the same topic), CSC 581B (if taken in the same topic), CSC 581C (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

### CSC 582A - Topics in Theoretical Computer Science
**Units:** 1.5

Formerly: CSC 582

**Notes:**
- Credit will be granted for only one of CSC 582A, CSC 582 (if taken in the same topic), CSC 582B (if taken in the same topic), CSC 582C (if taken in the same topic), CSC 582D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

### CSC 582B - Topics in Theoretical Computer Science
**Units:** 1.5

Formerly: CSC 582

**Notes:**
- Credit will be granted for only one of CSC 582B, CSC 582 (if taken in the same topic), CSC 582A (if taken in the same topic), CSC 582C (if taken in the same topic), CSC 582D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.
CSC 582C  
Units: 1.5  
Formerly: CSC 582  
Topics in Theoretical Computer Science  
Notes:  
• Credit will be granted for only one of CSC 582C, CSC 582 (if taken in the same topic), CSC 582A (if taken in the same topic), CSC 582B (if taken in the same topic), CSC 582D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 582D  
Units: 1.5  
Formerly: CSC 582  
Topics in Theoretical Computer Science  
Notes:  
• Credit will be granted for only one of CSC 582D, CSC 582 (if taken in the same topic), CSC 582A (if taken in the same topic), CSC 582B (if taken in the same topic), CSC 582C (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 583A  
Units: 1.5  
Formerly: CSC 583  
Topics in Programming Languages  
Notes:  
• Credit will be granted for only one of CSC 583A, CSC 583 (if taken in the same topic), CSC 583B (if taken in the same topic), CSC 583C (if taken in the same topic), CSC 583D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 583B  
Units: 1.5  
Formerly: CSC 583  
Topics in Programming Languages  
Notes:  
• Credit will be granted for only one of CSC 583B, CSC 583 (if taken in the same topic), CSC 583A (if taken in the same topic), CSC 583C (if taken in the same topic), CSC 583D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 583C  
Units: 1.5  
Formerly: CSC 583  
Topics in Programming Languages  
Notes:  
• Credit will be granted for only one of CSC 583C, CSC 583 (if taken in the same topic), CSC 583B (if taken in the same topic), CSC 583A (if taken in the same topic), CSC 583D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 583D  
Units: 1.5  
Formerly: CSC 583  
Topics in Programming Languages  
Notes:  
• Credit will be granted for only one of CSC 583D, CSC 583 (if taken in the same topic), CSC 583A (if taken in the same topic), CSC 583B (if taken in the same topic), CSC 583C (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 584A  
Units: 1.5  
Formerly: CSC 584  
Topics in Numerical Analysis and Operations Research  
Notes:  
• Credit will be granted for only one of CSC 584A, CSC 584 (if taken in the same topic), CSC 584B (if taken in the same topic), CSC 584C (if taken in the same topic), CSC 584D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 584B  
Units: 1.5  
Formerly: CSC 584  
Topics in Numerical Analysis and Operations Research  
Notes:  
• Credit will be granted for only one of CSC 584B, CSC 584 (if taken in the same topic), CSC 584A (if taken in the same topic), CSC 584C (if taken in the same topic), CSC 584D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 584C  
Units: 1.5  
Formerly: CSC 584  
Topics in Numerical Analysis and Operations Research  
Notes:  
• Credit will be granted for only one of CSC 584C, CSC 584 (if taken in the same topic), CSC 584A (if taken in the same topic), CSC 584B (if taken in the same topic), CSC 584D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 584D  
Units: 1.5  
Formerly: CSC 584  
Topics in Numerical Analysis and Operations Research  
Notes:  
• Credit will be granted for only one of CSC 584D, CSC 584 (if taken in the same topic), CSC 584A (if taken in the same topic), CSC 584B (if taken in the same topic), CSC 584C (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 585A  
Units: 1.5  
Formerly: CSC 585  
Topics in Hardware and Computer Architecture  
Notes:  
• Credit will be granted for only one of CSC 585A, CSC 585 (if taken in the same topic), CSC 585B (if taken in the same topic), CSC 585C (if taken in the same topic), CSC 585D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 585B  
Units: 1.5  
Formerly: CSC 585  
Topics in Hardware and Computer Architecture  
Notes:  
• Credit will be granted for only one of CSC 585B, CSC 585 (if taken in the same topic), CSC 585A (if taken in the same topic), CSC 585C (if taken in the same topic), CSC 585D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 585C  
Units: 1.5  
Formerly: CSC 585  
Topics in Hardware and Computer Architecture  
Notes:  
• Credit will be granted for only one of CSC 585C, CSC 585 (if taken in the same topic), CSC 585A (if taken in the same topic), CSC 585B (if taken in the same topic), CSC 585D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 585D  
Units: 1.5  
Formerly: CSC 585  
Topics in Hardware and Computer Architecture  
Notes:  
• Credit will be granted for only one of CSC 585D, CSC 585 (if taken in the same topic), CSC 585A (if taken in the same topic), CSC 585B (if taken in the same topic), CSC 585C (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 586A  
Units: 1.5  
Formerly: CSC 586  
Topics in Computer Systems and Software  
Notes:  
• Credit will be granted for only one of CSC 586A, CSC 586 (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586E (if taken in the same topic), CSC 586F (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 586B  
Units: 1.5  
Formerly: CSC 586  
Topics in Computer Systems and Software  
Notes:  
• Credit will be granted for only one of CSC 586B, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586E (if taken in the same topic), CSC 586F (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 586C  
Units: 1.5  
Formerly: CSC 586  
Topics in Computer Systems and Software  
Notes:  
• Credit will be granted for only one of CSC 586C, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586E (if taken in the same topic), CSC 586F (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.
CSC 586D Units: 1.5
Formerly: CSC 586
Topics in Computer Systems and Software
Notes:
• Credit will be granted for only one of CSC 586D, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586E (if taken in the same topic), CSC 586F (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 586E Units: 1.5
Formerly: CSC 586
Topics in Computer Systems and Software
Notes:
• Credit will be granted for only one of CSC 586E, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586F (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 586F Units: 1.5
Formerly: CSC 586
Topics in Computer Systems and Software
Notes:
• Credit will be granted for only one of CSC 586F, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586E (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 588A Units: 1.5
Selected Topics in Data Science
Notes:
• Credit will be granted for only one of CSC 588A, CSC 588 (if taken in the same topic), CSC 588B (if taken in the same topic), CSC 588C (if taken in the same topic), CSC 588D (if taken in the same topic), CSC 588E (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 588B Units: 1.5
Selected Topics in Data Science
Notes:
• Credit will be granted for only one of CSC 588B, CSC 588 (if taken in the same topic), CSC 588A (if taken in the same topic), CSC 588C (if taken in the same topic), CSC 588D (if taken in the same topic), CSC 588F (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 588C Units: 1.5
Selected Topics in Data Science
Notes:
• Credit will be granted for only one of CSC 588C, CSC 588A (if taken in the same topic), CSC 588B (if taken in the same topic), CSC 588D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 588D
Selected Topics in Data Science
Notes:
• Credit will be granted for only one of CSC 588D, CSC 588A (if taken in the same topic), CSC 588B (if taken in the same topic), CSC 588C (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 589A Units: 1.5
Formerly: CSC 589
General Topics in Computer Science
Notes:
• Credit will be granted for only one of CSC 589A, CSC 589 (if taken in the same topic), CSC 589B (if taken in the same topic), CSC 589C (if taken in the same topic), CSC 589D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 589B Units: 1.5
Formerly: CSC 589
General Topics in Computer Science
Notes:
• Credit will be granted for only one of CSC 589B, CSC 589 (if taken in the same topic), CSC 589A (if taken in the same topic), CSC 589C (if taken in the same topic), CSC 589D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 589C Units: 1.5
Formerly: CSC 589
General Topics in Computer Science
Notes:
• Credit will be granted for only one of CSC 589C, CSC 589 (if taken in the same topic), CSC 589A (if taken in the same topic), CSC 589B (if taken in the same topic), CSC 589D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 590 Units: 1.5
Directed Studies
Individual studies under the direct supervision of a faculty member. The content and evaluation must be approved by the department.
Note: May be taken more than once for credit in different topics.

CSC 595 Units: 1.5
Research Skills
The main objective is to teach critical skills in order to be a successful researcher. This includes: choosing a research method, preparing for and presenting a research seminar talk, preparing a research proposal, doing literature search, and evaluating constructively research papers, proposals and/or presentations.
Prerequisite(s): Registration in a graduate program in Computer Science.
Grading: INP, COM, N, F.

CSC 597 Units: 1.5
Industrial Master's Project
Grading: INP, COM, N, F.

CSC 598 Units: 3.0
Master's Project
Grading: INP, COM, N, F.

CSC 599 Units: 6.0 or 7.5
Master's Thesis
Grading: INP, COM, N, F.

CSPT 693 Units: 3.0
PhD Candidacy
Grading: INP, COM, N, F.

CSPT 699 Units: 33.0-34.5
PhD Dissertation
Prerequisite(s): CSPT 693.
Grading: INP, COM, N, F.

CSPT Cultural, Social and Political Thought
Department of Political Science
Faculty of Social Sciences

CSPT 500 Units: 1.5
Topics in Cultural, Social and Political Thought
An interdisciplinary seminar on topics such as language and social theory, tradition and modernity, democracy and freedom, global order and disorder, structuralism and post-structuralism, feminism and Marxism.
Notes:
• May be taken more than once for credit in different topics to a maximum of 6 units.
• Content will vary from term to term.
Prerequisite(s):
• Admission to a graduate program in Social Sciences or Humanities, and
• permission of the program.

CSPT 501 Units: 1.5
Contemporary Cultural Social and Political Thought I
An exploration of contemporary themes and issues in cultural, social and political thought. The emphasis will be on relating currents of thought in various disciplines to one another and exploring 20th and 21st century thinkers whose influence has transcended cultural and disciplinary boundaries.
CSPT 590  Directed Readings  Units: 1.5 or 3
Individual study, under the direction of a participating faculty member, of a topic or topics in cultural, social and political thought.

Notes:
- May be taken more than once for credit in different topics.
- A student in the Program may substitute POLI 590 or SOCI 590 for CSPT 590, with permission of the Director of the program.

CSPT 600  Advanced Topics in Cultural, Social and Political Thought  Units: 1.5
An interdisciplinary PhD Seminar on selected topics in Cultural, Social and Political Thought.

Notes:
- May be taken more than once for credit in different topics with permission of the faculty to a maximum of 6 units.
- Content will vary from term to term.

Prerequisite(s):
- Admission to a graduate program in Social Sciences or Humanities; and
- permission of the program.

CSPT 601  Contemporary Cultural Social and Political Thought II  Units: 1.5
A continuation of 501, this seminar is designed for students proceeding to a doctoral candidacy examination in Cultural Social and Political Thought. The focus will be on themes and thinkers important to contemporary cultural social and political thought but as yet unfamiliar to the students participating in the seminar.

CSPT 690  Directed Readings  Units: 1.5
Individual study, under the direction of a participating faculty member, of a topic or topics in cultural, social and political thought.

Notes:
- May be taken more than once for credit in different topics.
- A student in the Program may substitute POLI 690 or SOCI 690 for CSPT 690, with permission of the Director of the program.

CYC 543  Qualitative Research Methods in Child and Youth Care  Units: 1.5
An overview of approaches to qualitative research that are applicable to child and youth care practice. Students will explore the underlying theoretical assumptions of qualitative research design, compare and apply a range of methodological and conceptual approaches, and practice techniques for generating, analyzing and engaging with various forms of qualitative data.

CYC 545  Quantitative Research Methods in Child and Youth Care  Units: 1.5
Students will be expected to learn and be able to apply the techniques of quantitative research methodology to the field of child and youth care. Topics will include: research design and problem formulation, sampling, measurement and scaling, research ethics, and data analysis.

CYC 546  Human Change Processes: From Theory to Practice  Units: 1.5
A practice-based course that requires students to work with individuals and families in simulated role play scenarios. It begins with the micro contexts of families and moves outward to understand how change occurs in communities and organizations. Human change theory and processes form the foundation of the course in order to explore traditional and contemporary theories of change that highlight gendered and cultural differences and similarities.

CYC 547  Professional Leadership in Child and Youth Care  Units: 1.5
Aspects of professional leadership, including ethical practice, teams and teamwork, change management and managing transitions, diversity and cultural competence, transformational learning, learning organizations and environments, strategic thinking and participative management will be explored with special emphasis on the multidisciplinary evolution and transformation of child and youth care settings and programs.

CYC 549  Program Design and Development in Child and Youth Care  Units: 1.5
Learners will engage in exploring a range of issues relevant for program planners and implementers in contemporary human services. Issues such as managing complexity, evidence-based practices, outcome measures, budget restraints, leadership of change and creating organizational cultures will be explored.

CYC 552  Ethics in Practice  Units: 1.5
The primary purpose of this course is to enable students to expand their thinking by critically reflecting on professional and applied ethics from multiple perspectives and traditions. Developing a familiarity with various conceptual resources and ethical decision-making frameworks, discerning the morally relevant features of various ethical dilemmas, appreciating the complexity, plurality and uncertainty of everyday CYC practice, and critically appraising the adequacy of decision-making tools for responding to ethical concerns and challenges are key course objectives.

CYC 553  Practicum in Child and Youth Care  Units: 1.5 or 3
The supervised field placement is designed to provide CYC students with an opportunity to apply their skills working with children, youth, families and communities in a supervised setting. Placements which involve individual, family and/or group counseling, can only be undertaken with qualified (i.e. Master’s level) supervisors, and require a minimum commitment of 300 hours (3.0 units).

Notes:
- Those students who have not completed a practicum as part of their undergraduate degree will also be required to enroll in the 3.0 unit course. Regular contact with the course instructor and consultations between the student, placement supervisor and instructor will be required.
- Students registered in the 1.5 unit course will be required to complete a minimum of 165 hours. Students registered in the 3.0 course will be required to complete a minimum of 300 hours.

Prerequisite(s):
- 10.5 units of 500-level CYC courses; or
- permission of the school.

Grading:
- INP, COM, N, F.

CYC 554  Diversity in Practice  Units: 1.5
Explores the complexity of diversities that shape the contexts of professional practice with children, youth and their families who come from different communities, represent a wide range of social networks, familial structures and belief systems. The attitudes and skills necessary to equip professionals to be attentive to the socially and culturally diverse populations that they face will be the focus of this course.

CYC 558  Applied Research Seminar  Units: 1.5
Engages students in the process of proposal writing in preparation for either their master’s research thesis or applied research project. Students focus on developing their own topic area in conjunction with their supervisor and supervisory committee, through writing that includes a consideration of the Human Research Ethics application, specialized information literacy training, and other issues of writing and research. Students are expected to produce a draft of their research or project proposal.

Note: CYC 553 Practicum in CYC can be taken concurrently.

Prerequisite(s): All of program core courses.

CYC 561  Special Topics in Child and Youth Care Theory  Units: 1.5 or 3
Explores specialized areas of theoretical interest in the field of Child and Youth Care.

Notes:
- May be taken more than once for credit in different topics.
- Topics will vary.

CYC 562  Special Topics in Child and Youth Care Intervention  Units: 1.5 or 3
Students will study models of intervention in child and youth care which are specific to their area of specialization.

Notes:
- May be taken more than once for credit in different topics.
- Topics will vary.
CYC 563  
Units: 1.5  
Specialized Practicum in Child and Youth Care  
In consultation with a faculty adviser, students will select a special setting for advanced work and training. In some settings, this may take the form of a clinical internship. Students will work under supervision and will consult regularly with both the practicum supervisor and faculty course instructor. Students may be required to complete a specialized theory or intervention course in their area of focus prior to undertaking the specialized practicum. Students are required to complete a minimum of 165 hours.  
Prerequisite(s): CYC 553.  
Grading: INP, COM, N, F.

CYC 565  
Units: 1.5  
Child and Adolescent Development in Context  
This course provides a contextualized perspective of child and adolescent development highlighting the importance of culture, historical, social, economic and political contexts to human development. Texts addressing alternative understandings of human development will constitute a significant part of the course.

CYC 590  
Units: 1.5 or 3  
Directed Studies in Child and Youth Care  
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and School of Child and Youth Care graduate adviser prior to registering in the course.  
Note: May be taken more than once for credit in different topics.

CYC 598  
Units: 4.5  
Applied Research Project  
The student will undertake an applied research project which could, for example, include: (1) program development, (2) program needs assessment, (3) development of an assessment tool/protocol for clients, (4) evaluation of an existing program, (5) cost/benefit analysis of program models, or (6) secondary analysis of existing agency data. The research project should be developed in consultation with the student’s supervisory committee.  
Note: Students who have completed CYC 590 may request permission to register in the course.  
Prerequisite(s):  
• CYC 558, or  
• permission of the school  
Grading: INP, COM, N, F.

CYC 599  
Units: 4.5  
Thesis  
Specialized research on a topic chosen in consultation with the student’s supervisory committee. The thesis should be an original piece of research that would be suitable for publication in a professional journal or presentation at a professional meeting.  
Note: Students who have completed CYC 590 may request permission to register in the course.  
Prerequisite(s):  
• CYC 558, or  
• permission of the school  
Grading: INP, COM, N, F.
COURSE LISTINGS DR

DHUM 502 - DR 511

DHUM 502  Units: 1.5  Hours: 3-0-0  Core Concepts and Skills  
Focuses on fundamental concepts and skills in the Digital Humanities, with curriculum offered by the Digital Humanities Summer Institute (see www.dhsi.org) or equivalent topical seminars listed annually by the Faculty of Humanities. Typical offerings include DHSI’s Textual Encoding Fundamentals, Digitisation Fundamentals, Fundamentals of Programming/Coding for Human(s)ists.

Note: Credit will be granted for only one of DHUM 502, ENGL 509 (if taken in the same topic).

DHUM 503  Units: 1.5  Hours: 3-0-0  Remediation and Curation  
Focuses on intellectual traditions, emergent concerns, and applications related to digital remediation and curation, with curriculum offered by the Digital Humanities Summer Institute (see www.dhsi.org) or equivalent topical seminars listed annually by the Faculty of Humanities. Examples include XSLT, Databases, Drupal, Digital Editions, Pre-Digital Book.

Note: Credit will be granted for only one of DHUM 503, ENGL 509 (if taken in the same topic).

DHUM 504  Units: 1.5  Hours: 3-0-0  Creation, Communication and Dissemination  
Focuses on intellectual traditions, emergent concerns, and applications related to creation, communication, and dissemination, with curriculum offered by the Digital Humanities Summer Institute (see www.dhsi.org) or equivalent topical seminars listed annually by the Faculty of Humanities. Examples include Multimedia, Social Media, Mobile Computing, Physical Computing.

Note: Credit will be granted for only one of DHUM 504, ENGL 509 (if taken in the same topic).

DHUM 505  Units: 1.5  Hours: 3-0-0  Analysis, Teaching, and Administration  
Focuses on intellectual traditions, emergent concerns, and applications pertinent to analysis, teaching, and administration, with curriculum offered by the Digital Humanities Summer Institute (see www.dhsi.org) or equivalent topical seminars listed annually by the Faculty of Humanities. Examples include GIS, Text Analysis, Augmented Reality, Computer Gaming, SEASR, Digital Pedagogy, Large Project Planning and Administration.

Note: Credit will be granted for only one of DHUM 505, ENGL 509 (if taken in the same topic).

DHUM 509 - DR 510  
Directed Reading  

DR 502  Units: 1.5  
Dispute Resolution  
School of Public Administration  
Faculty of Human and Social Development  
Students enrolled in the MA in Dispute Resolution program should also see courses listed as PADR.

DR 503  Units: 1.5  
Conflict, Culture, and Diversity  
Cross-cultural conflicts involve navigating among diverse identities, meanings and ever-changing perceptions. Uses experiential education and dialogue to explore processes, capacities, and tools to bridge cultural conflicts that draw on multiple intelligences. Develops fluency with ways of naming, framing, and taming conflict across cultural contexts; and fluency with culture as it animates and offers creative ways through conflict. Participants will apply theory and research to interpersonal, intercommunal, and international conflicts.

Also: LAW 372

Public Policy, Law, and Dispute Resolution  

Sets the stage for the study of Dispute Resolution. This course will examine the role of public policy in dispute resolution, focusing on the development of legal frameworks and the implementation of policies related to dispute resolution. Students will gain an understanding of the intersection between law, policy, and dispute resolution processes.

DR 506  Units: 1.5  
Mediation Processes and Skills  
This course couples mediation processes with practice in communication skills needed for effective third party facilitative intervention. Using the paradigm of Attitude, Process and Skills, students learn and practice mediation as a dispute resolution tool, integrated with prior learning in conflict analysis and diagnosis. Through lectures, clinical exercises, demonstrations, coached role play, reflective listening skills practice, and group discussions, students connect skills with theoretical and philosophical foundations of mediation required to satisfactorily conclude mediated agreements.

Note: Credit will be granted for only one of DR 506, DR 510 (if taken in the same topic).

Prerequisite(s): DR 501 or PADR 501.

DR 507  Units: 1.5  
International Human Rights and Dispute Resolution  
Explores linkages between international human rights law, conflict analysis and dispute resolution. Participants explore literature from several disciplines including international law, history, philosophy, anthropology, political science and conflict studies. United Nations, regional and national human rights instruments and mechanisms are examined for their efficacy in human rights protection. Concerns of individuals, including women and children, non-state groups and indigenous peoples are addressed. Students develop skills in human rights analysis, advocacy and dialogue.

DR 508  Units: 1.5  
Dispute Resolution and Indigenous Peoples  
Explores the theory and practice of negotiation and mediation within the context of public issues and disputes involving indigenous peoples. Includes a comparative examination of perspectives on negotiation of dominant society and indigenous peoples in Canadian and other settings. A critical approach is taken to the application of dominant society models of negotiation and mediation to conflict situations involving indigenous people, including the examination of historical factors, dynamics of power, and cross-cultural factors.

Prerequisite(s):
• DR 501 or PADR 501; and
• DR 502; or
• Permission of the department

DR 509  Units: 1.5  
Dispute Resolution System Design and Public Interest Disputes  
Introduction to designing, assembling and implementing systems to prevent, manage and/ or resolve a series or stream of disputes arising out of a single organization and/ or relationships. Examines models of conflict intervention and the design process within organizations: Introduces the theory and practice of negotiating public-interest issues and managing stakeholder conflicts.

DR 510  Units: 1.5  
Special Topics in Dispute Resolution  
A study of selected special topics in Dispute Resolution drawn from the current literature and practice.

Note: May be taken more than once for credit in different topics.

Prerequisite(s): Set by department depending upon topic.

DR 511  Units: 1.5  
Conflict Specialists as Leaders  
A role of a conflict specialist is to support organizations and/ or groups to replace traditional public policy decision-making processes with collaborative governance processes. As change agents, both dispute resolution process and leadership competencies are required. Students will build and bridge these competencies by learning communication skills, design analysis, and implementation strategies for deliberation and engagement, as well as leadership skills to support change.

Recommendation(s): All of DR 502, DR 503, DR 506, DR 509 recommended prior to DR 511.

**ECE 503**

Formerly ELEC 503

**Optimization for Machine Learning**

The steepest-descent, Newton, conjugate, and quasi-Newton algorithms for unconstrained optimization. Inexact line-search methods. Application of optimization methods to classification, logistic regression, and support vector machines for signal processing and machine intelligence involving audio, image, video and other types of data. Introduction to constrained optimization. Students are required to complete a project.

**Note:** Credit will be granted for only one of ECE 503, ECE 403, ELEC 403, ELEC 503.

**ECE 504**

Formerly ELEC 504

**Random Signals**

Review of random variables, moments and characteristic functions; random processes, noise models, stationarity, ergodicity, correlation and power spectrum, spectrum measurements; response of linear systems to random inputs, cross-spectral densities, narrow band noise; introduction to discrete time and space processes. Students are required to complete a project.

**Note:** Credit will be granted for only one of ECE 504, ELEC 400, ELEC 504.

**ECE 509**

Formerly ELEC 509

**Seminar**

Expose Master's students to different areas of research through seminar participation and provide a forum for the presentation of graduate student research. Required for all Master's students every year of their program as an addition to the normal program except by departmental permission. One unit of credit shall be given upon completion.

**Note:** Credit will be granted for only one of ECE 509, ELEC 509.

**Grading:** INP, COM, N, F.

**ECE 511**

Formerly ELEC 511

**Error Control Coding**

The channel coding problem; coding approaches and characteristics; linear block codes, bounds on codes, finite fields; cyclic, BCH and Reed-Solomon codes; convolutional codes and the Viterbi algorithm; error control in data storage and transmission systems. Students are required to complete a project.

**Note:** Credit will be granted for only one of ECE 511, ECE 405, ELEC 405, ELEC 511.

**ECE 512**

Formerly ELEC 512

**Digital Communications**

Source and channel descriptions. Source digitization, entropy and the rate distortion tradeoff, lossless source codes (Huffman and run length codes), optimal and adaptive quantization. Digital modulation techniques, digital coherent receivers, performance evaluation, the incoherent case. Special topics - case studies, fiber optics, satellite systems, mobile radio systems. Students are required to complete a project.

**Note:** Credit will be granted for only one of ECE 512, ECE 450, ELEC 512, ELEC 450.

**ECE 514**

Formerly ELEC 514

**Design and Analysis of Computer Communication Networks**

**Note:** Credit will be granted for only one of ECE 514, ECE 463, CENG 461, ELEC 514.

**ECE 515**

Formerly ELEC 515

**Information Theory**

Information theory and its relationship to probability, statistics, and data compression; entropy, relative entropy and mutual information; Huffman coding, arithmetic coding and Lempel-Ziv coding; channel capacity, group codes; generator and parity check matrices; Hamming codes and bound; bounds on the dimension of a linear code; random coding bounds; code construction.

**Note:** Credit will be granted for only one of ECE 515, ELEC 515.

**ECE 516**

Formerly ELEC 516

**Advanced Wireless Communications**

Statistical fading channel models, digital communications over fading channels, diversity techniques for fading mitigation, channel adaptive transmission, multicarrier modulation/OFDM, spread spectrum techniques/CDMA, MIMO systems and space-time coding.

**Note:** Credit will be granted for only one of ECE 516, ECE 519A (if taken in the same topic), ELEC 516, ELEC 519A (if taken in the same topic).

**ECE 517**

Formerly ELEC 517

**Software Defined Radio**

Software defined radio architectures. Receiver design: radio frequency, digital signal processing, software. Application to analog and digital communications, cognitive radio, dynamic spectrum access. Implementation of software radio algorithms using GNU Radio, Simulink or other platforms. Students are required to complete a project.

**Note:** Credit will be granted for only one of ECE 517, ECE 417, ECE 539A (if taken in the same topic), ELEC 417, ELEC 517, ELEC 539A (if taken in the same topic).

**Note:** Credit will be granted for only one of ECE 516, ECE 450, ELEC 516, ELEC 450.
ECE 519A  Units: 1.5  
Formerly: ELEC 519A, ELEC 619A  
Selected Topics in Digital Communications  
Notes:  
• Credit will be granted for only one of ECE 519A, ELEC 519A (if taken in the same topic), ELEC 619A (if taken in the same topic).  
• May be taken more than once for credit in different topics to a maximum of 3 units.  
• Variable content course.

ECE 519B  Units: 1.5  
Formerly: ELEC 519B, ELEC 619B  
Selected Topics in Computer Communications  
Notes:  
• Credit will be granted for only one of ECE 519B, ELEC 519B (if taken in the same topic), ELEC 619B (if taken in the same topic).  
• May be taken more than once for credit in different topics to a maximum of 3 units.  
• Variable content course.

ECE 519C  Units: 1.5  
Formerly: ELEC 519C, ELEC 619C  
Selected Topics in Secure Communications  
Notes:  
• Credit will be granted for only one of ECE 519C, ELEC 519C (if taken in the same topic), ELEC 619C (if taken in the same topic).  
• May be taken more than once for credit in different topics to a maximum of 3 units.  
• Variable content course.

ECE 522  Units: 1.5  
Formerly: ELEC 522  
Antennas and Propagation  
Antenna and propagation fundamentals, Friis transmission formula, radar equation, Maxwell’s equations for radiation problems, antenna parameters, simple radiators, array theory, mutual coupling, wire and broad band antennas, aperture radiators, scattering and diffraction, multipath propagation and fading, antenna measurement techniques, surface-wave and ionicpheric propagation, microwave and millimeter wave propagation. Students are required to complete a project.  
Note: Credit will be granted for only one of ECE 522, ECE 453, ELEC 453, ELEC 522.

ECE 524  Units: 1.5  
Formerly: ELEC 524, ELEC 624  
Theory and Design of Waveguide Components  
Modern integrated waveguide technologies, numerical analysis aspects and design strategies, mode-matching techniques, commonly used waveguides; transformers and transformer prototypes; phase shifters; power dividers; directional couplers; waveguide filters; multiplexers; polarizers; orthomode transducers; mode converters; angle diversity systems.  
Note: Credit will be granted for only one of ECE 524, ELEC 524, ELEC 624.

ECE 525  Units: 1.5  
Formerly: ELEC 525  
Advanced Photonics  
Methods to understand optical devices. Following a basic review of electromagnetics, methods for analyzing photonic devices will be provided. Among other applications, these methods will be applied to the analysis of sensors (surface plasmon resonance), high-reflectivity and anti-reflection coatings, Bragg gratings, and semiconductor lasers.  
Note: Credit will be granted for only one of ECE 525, ELEC 525.

ECE 526  Units: 1.5  
Formerly: ELEC 526, ELEC 623  
Advanced Optical Systems  
Overview of the basic technologies and system design principles for modern optical communications. Component fundamentals, including optical fiber, lasers, transmitters, photodetectors, receivers, passive components, optical amplifiers. Optical modulation, demodulation, wavelength multiplexing techniques. Applications to wide-area and access networks, microwave photonics. System impairments related to noise, fiber dispersion, nonlinearity. Students work in groups to design a national-scale broadband system, combining primary course elements and commercial software.  
Note: Credit will be granted for only one of ECE 526, ELEC 526, ELEC 623.

ECE 529A  Units: 1.5  
Formerly: ELEC 529A, ELEC 629  
Selected Topics in Micro Millimeter Waves and Optical Engineering  
Notes:  
• Credit will be granted for only one of ECE 529A, ELEC 529A (if taken in the same topic), ELEC 629 (if taken in the same topic).  
• May be taken more than once for credit in different topics to a maximum of 3 units.  
• Variable content course.

ECE 531  Units: 1.5  
Formerly: ELEC 531  
Digital Filters I  
Note: Credit will be granted for only one of ECE 531, ECE 407, ECE 458, ECE 407, ELEC 458, ELEC 531.

ECE 534  Units: 1.5  
Formerly: ELEC 534  
Applications of Digital Signal Processing Techniques  
Note: Credit will be granted for only one of ECE 534, ECE 459, ELEC 459, ELEC 534.

ECE 535  Units: 1.5  
Formerly: ELEC 535  
Data Analysis and Pattern Recognition  
Statistical data analysis and random processes, ergodicity and stationarity, Bayesian decisions procedures, feature extraction and selection, parametric and non-parametric pattern classification and clustering techniques. Applications to big data, data science, and computer security problems. Students are required to complete a project.  
Note: Credit will be granted for only one of ECE 535, ECE 458, ELEC 458, ELEC 535.

ECE 536  Units: 1.5  
Formerly: ELEC 536  
Computer Vision  
Overview of the main concepts and methods in computer vision; geometry and physics of imaging, as related to image formation and image acquisition; low-level methods of image analysis, such as filtering, edge detection, feature detection, and segmentation; methods for extracting and representing three-dimensional scene information; motion analysis and algorithms for video understanding. Students are required to complete a project.  
Note: Credit will be granted for only one of ECE 536, ECE 471, CENG 421, ELEC 536.

ECE 537  Units: 1.5  
Formerly: ELEC 537  
Applied Data Analysis  
Theory and application of modern data analysis and machine learning methodologies to larger scale real-world data analytics problems. Impacts of outliers, normalization processes, feature selection and extraction, data set biases, and noise on analysis quality. Implications of stationarity, ergodicity, and adversaries on data analysis processes. Students are required to complete a project.  
Prerequisite(s):  
• One of ECE 485, ECE 535, ELEC 485, ELEC 535; or  
• permission of the department.

ECE 539A  Units: 1.5  
Formerly: ELEC 539A, ELEC 639A  
Selected Topics in Digital Signal Processing  
Notes:  
• Credit will be granted for only one of ECE 539A, ELEC 539A (if taken in the same topic), ELEC 639A (if taken in the same topic).  
• May be taken more than once for credit in different topics to a maximum of 3 units.  
• Variable content course.
ECE 539B  Units: 1.5
Formerly: ELEC 539B, ELEC 639B
Selected Topics in Image Processing
Notes:
• Credit will be granted for only one of ECE 539B, ELEC 539B (if taken in the same topic), ELEC 639B (if taken in the same topic).
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 539C  Units: 1.5
Formerly: ELEC 679, ELEC 539C
Selected Topics in Underwater Acoustic Systems
Notes:
• Credit will be granted for only one of ECE 539C, ELEC 539C (if taken in the same topic), ELEC 679.
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 543  Units: 1.5
Formerly: ELEC 543
Design of Digital and VLSI Systems
Advanced combinational and sequential logic design. Optimization of finite state machines; timing methodologies and synchronization issues. Hardware description languages (HDL): structural and behavioural descriptions, simulations and testbenches, coding styles, design with HDL and FPGA implementation. Design for test: testing concepts, scan-based design and built-in self-test (BIST). Design for high speed: timing analysis, pipelining and retiming. Design for low power: sources of power dissipation, design transformations. Students will be required to complete a project.
Note: Credit will be granted for only one of ECE 543, ECE 441, CENG 441, ELEC 543.

ECE 545  Units: 1.5
Formerly: ELEC 545
Nanotechnology
Nanoscale materials and devices. Techniques and tools of nanostructure fabrication and characterization. Properties of low-dimensional materials. Semiconductor nanostructures, metallic nanoparticles, carbon nanotubes, organic molecules, quantum dots. Applications including nanoelectronics and molecular devices, biotechnology, nanoscale computation, nanomechanical devices and nanophotonics. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 545, ECE 420, ELEC 420, ELEC 545.

ECE 546  Units: 1.5
Formerly: ELEC 546, ELEC 642
Mapping DSP Algorithms onto Processor Arrays
Note: Credit will be granted for only one of ECE 546, ELEC 546, ELEC 642.

ECE 547  Units: 1.5
Formerly: ELEC 547
Electronic Devices
Study of the operation of bipolar and field-effect devices in VLSI design. Study of photonic and opto-electronic devices used in transmission, modulation, demodulation and receivers. Principles, construction and design of lasers and their applications. Study of display devices, thin-film devices, imaging devices, transducers and micromachines and their interfacing. Sensor arrays and related system design. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 547, ECE 412, ELEC 412, ELEC 547.

ECE 548  Units: 1.5
Formerly: ELEC 548
Cyber-System Security
Introduction to abstract algebra and finite field arithmetic. Hardware attacks and mitigation techniques. Hardware trojans and hardware Trojan detection techniques. Trusted design in FPGAs. Security in embedded systems. Design for hardware trust. Security and testing. Crypto-processors and design for security. Students will be required to complete a project.
Note: Credit will be granted for only one of ECE 548, ECE 448, CENG 448, ELEC 548.

ECE 549A  Units: 1.5
Formerly: ELEC 549A, ELEC 688
Selected Topics in Electronics
Notes:
• Credit will be granted for only one of ECE 549A, ELEC 549A (if taken in the same topic), ELEC 688 (if taken in the same topic).
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 549B  Units: 1.5
Formerly: ELEC 549B, ELEC 649B
Selected Topics in VLSI Design
Notes:
• Credit will be granted for only one of ECE 549B, ELEC 549B, ELEC 649B (if taken in the same topic).
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 551  Units: 1.5
Formerly: ELEC 551
Digital Filters II
Notes:
• Credit will be granted for only one of ECE 551, ELEC 551, ELEC 631.
• Students who have completed equivalent prerequisites may request permission to register in the course.
Prerequisite(s):
• One of ECE 407, ECE 531, ELEC 407, ELEC 531; or
• permission of the department.

ECE 553  Units: 1.5
Formerly: ELEC 553
Introduction to Parallel and Cluster Computing
Overview of massively parallel and cluster computers. Processing models (shared memory versus message passing). Processes and threads. Standard algorithms utilizing parallelism. Matrix and vector operations. N-body problems, collective communications. Parallel application environments MPI and OpenMP. Includes significant exposure to parallel applications including developing and coding of sample parallel codes. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 553, ECE 457, CENG 453, ELEC 553.

ECE 559A  Units: 1.5
Formerly: ELEC 559A, ELEC 659A
Selected Topics in Robotics
Notes:
• Credit will be granted for only one of ECE 559A, ELEC 559A (if taken in the same topic), ELEC 659A (if taken in the same topic).
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 559B  Units: 1.5
Formerly: ELEC 559B, ELEC 659B
Selected Topics in Automatic Control
Notes:
• Credit will be granted for only one of ECE 559B, ELEC 559B (if taken in the same topic), ELEC 659B (if taken in the same topic).
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.
ECE 564  Units: 1.5
Formerly: ELEC 564
Neural Networks and Their Implementation
Biological inspiration, historical background, learning in neural nets (backpropagation, hebian, etc.), single- and multi-layer networks, associative memories, classification and clustering models, recurrent networks. Neural network technology, implementation software and hardware technologies, algorithm definitions, computational requirements, solution methods, parallel processing hardware. VLSI and optical implementations of neural networks.
Note: Credit will be granted for only one of ECE 564, ELEC 564.

ECE 567  Units: 1.5
Formerly: ELEC 567
Advanced Network Security
Presents, from a practical perspective, underlying principles and techniques of network security. Students will be exposed to ethical hacking, and penetration testing. Various protection methods, used in practice to detect and respond to malicious network attacks, will be presented. Students will also learn how to implement successful security policies and defense mechanisms and strategies, with a particular focus on firewalls, intrusion detection and response, virtual private networks, and biometrics technologies.
Note: Credit will be granted for only one of ECE 567, ELEC 567.

ECE 568  Units: 1.5  Hours: 3-1.5-0
Formerly: ELEC 568
System-on-Chip Engineering for Signal Processing
Design and System-on-Chip (SOC) implementation for signal processing applications. SOC design and testing methodologies, Platform-based design, Intellectual Property (IP) reuse, and built-in self-test. Controlling power consumption in SOC implementations. SOC multi-technology integration of analog and digital electronics, sensors and MEMS. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 568, ELEC 466, ELEC 466, ELEC 568.

ECE 569A  Units: 1.5
Formerly: ELEC 569A, ELEC 669
Selected Topics in Computer Engineering
Notes:
- Credit will be granted for only one of ECE 569A, ELEC 569A (if taken in the same topic), ELEC 669 (if taken in the same topic).
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

ECE 570  Units: 1.5
Formerly: ELEC 570
Computer Forensics Methodologies
Digital forensics notions and techniques used in the investigation of cybercrimes. Legal awareness of computer security and forensics, evidentiary process techniques, computer forensics methodologies with an emphasis on computer incident response and Information Technology (IT) systems’ protection. Ethics, rules of evidence, effective communications, search and seizure relative to privacy legislation. Threats, how they can be detected, and controls to reduce the likelihood of their occurrence.
Note: Credit will be granted for only one of ECE 570, ELEC 570.
Prerequisite(s): ECE 567 or ELEC 567.

ECE 571  Units: 1.5
Formerly: ELEC 571
Underwater Acoustic Systems
Note: Credit will be granted for only one of ECE 571, ELEC 571.

ECE 572  Units: 1.5
Formerly: ELEC 572
Security, Privacy, and Data Analytics
Explores the underlying theoretical foundations of information security and privacy issues from an engineering perspective. Applications of information-theoretic concepts, techniques, and methods to the problem of quantifying achieved levels of security and privacy in larger-scale systems in the presence of adversaries. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 572, ELEC 572.
Prerequisite(s): ECE 567 or ELEC 567.

ECE 573  Units: 1.5
Formerly: ELEC 573, ELEC 603
Advanced Engineering Design by Optimization
Note: Credit will be granted for only one of ECE 573, ELEC 573, ELEC 603.

ECE 574  Units: 1.5
Formerly: ELEC 574
Practice of Information Security and Privacy
Aims to present a holistic view of various security engineering topics through practical case studies. Topics include enterprise security architecture, security threat and risk assessment, education and awareness, monitoring, investigation and forensics, application security, media handling and intellectual property, privacy, physical and environmental security, and business continuity planning. Also introduces information security-related certification and relevant professional associations. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 574, ELEC 574, SENG 460.

ECE 579A  Units: 1.5
Selected Topics in Data Science
Notes:
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

ECE 581  Units: 1.5
Formerly: ELEC 581
Power Electronics
Characteristics of power semiconductor switching devices, e.g., silicon controlled rectifiers, bipolar and MOS power transistors, insulated gate bipolar transistors, gate-turn-off thyristors. Basic principles of phase controlled converters, dc to dc choppers, dc to ac inverters (square wave and pulse width modulated), switching power supplies, resonant converters. Applications to communication and computer power supplies, electric drives, induction heating, etc.
Note: Credit will be granted for only one of ECE 581, ELEC 581.

ECE 583  Units: 1.5
Formerly: ELEC 583
Digital Video Processing
Note: Credit will be granted for only one of ECE 583, ECE 483, ELEC 483, ELEC 583.

ECE 584  Units: 1.5
Formerly: ELEC 584
Dynamics and Control of Switched Mode Power Supplies
Introduction to switch mode power supplies. Detailed analysis of non-isolated converters (Buck, Boost, Buck-Boost, Cuk, etc) and isolated converters (Flyback, Forward, Push-pull, Half bridge, Full bridge, Current Source converters, etc). State space averaging technique to model converters. Design of multi-loop controllers (inner current loop and outer voltage loop). Introduction to PWM switch model as an alternative to state space averaging technique. Students will need to complete a project.
Note: Credit will be granted for only one of ECE 584, ECE 461, ELEC 461, ELEC 584, ELEC 689 (if taken in the same topic).
### ECE 585 - Units: 1.5
Formerly: ELEC 585  
**Motor Drive Dynamics**  
**Note:** Credit will be granted for only one of ECE 585, ECE 462, ELEC 462, ELEC 585, ELEC 689 (if taken in the same topic).

### ECE 586 - Units: 1.5
Formerly: ELEC 586  
**Multiresolution Signal and Geometry Processing With C++**  
Multirate signal processing, upsampling, downsampling, sampling rate conversion, polyphase techniques, multirate filter banks, multiresolution signal representations, wavelets, digital geometry processing, polygon meshes, subdivision surfaces/wavelets, efficient multiresolution signal processing. Applications in data compression, computer graphics/animation, geometric modeling, communications, and signal processing. C++ programming language, libraries such as OpenGL and CGAL. Students are required to complete a project.  
**Note:** Credit will be granted for only one of ECE 586, ECE 486, ELEC 486, ELEC 586.

### ECE 589A - Units: 1.5
Formerly: ELEC 589A, ELEC 689  
**Selected Topics in Power Electronics**  
**Notes:**  
- Credit will be granted for only one of ECE 589A, ELEC 589A (if taken in the same topic), ELEC 689 (if taken in the same topic).  
- May be taken more than once for credit in different topics to a maximum of 3 units.  
- Variable content course.  
**Prerequisite(s):** Permission of the department.

### ECE 590 - Units: 1.5
Formerly: ELEC 590  
**Directed Study**  
Graduate course in the Electrical and Computer Engineering program administered by the Faculty of Graduate Studies. A wide range of topics will be available.  
**Notes:**  
- Credit will be granted for only one of ECE 590, ELEC 590 (if taken in the same topic).  
- Pro Forma required.

### ECE 591 - Units: 1  
Formerly: ELEC 591  
**Professional Foundation**  
**Notes:**  
- Credit will be granted for only one of ECE 591, ELEC 591.  
- This course will be offered by the Engineering and Computer Science Co-op and Career Services.  
**Prerequisite(s):** Admission to MENG program in Telecommunications and Information Security.

### ECE 592A - Units: 1  
Formerly: ELEC 592A, part of ELEC 592  
**Professional Career Development I**  
**Note:** Credit will be granted for only one of ECE 592A, ELEC 592, ELEC 592A.  
**Prerequisite(s):** Admission to MENG program in Telecommunications and Information Security.

### ECE 592B - Units: 1  
Formerly: ELEC 592B, part of ELEC 592  
**Professional Career Development II**  
**Note:** Credit will be granted for only one of ECE 592B, ELEC 592, ELEC 592B.  
**Prerequisite(s):** Admission to MENG program in Telecommunications and Information Security.

### ECE 592A - Units: 1.5  
**Selected Topics in Electrical and Computer Engineering**  
Presents material in an emerging field or one not covered in regular offerings. Some topics may require laboratory work as well as lectures. Entrance is restricted to students who meet the prerequisites specified for the topic to be offered.  
**Notes:**  
- Credit will be granted for only one of ECE 592A, ECE 592A (if taken in the same topic), ELEC 592A (if taken in the same topic), ECE 592B (if taken in the same topic), ECE 592B (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the Department.  
- Variable content course.

### ECE 592B - Units: 1.5  
**Selected Topics in Electrical and Computer Engineering**  
Presents material in an emerging field or one not covered in regular offerings. Some topics may require laboratory work as well as lectures. Entrance is restricted to students who meet the prerequisites specified for the topic to be offered.  
**Notes:**  
- Credit will be granted for only one of ECE 592B, ECE 592B (if taken in the same topic), ELEC 592B (if taken in the same topic), ECE 592B (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the Department.  
- Variable content course.

### ECE 596B - Units: 1.5  
**Selected Topics in Electrical and Computer Engineering**  
Presents material in an emerging field or one not covered in regular offerings. Some topics may require laboratory work as well as lectures. Entrance is restricted to students who meet the prerequisites specified for the topic to be offered.  
**Notes:**  
- Credit will be granted for only one of ECE 596B, ECE 596A (if taken in the same topic), ECE 596C (if taken in the same topic), ECE 596D (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the Department.  
- Variable content course.

### ECE 596C - Units: 1.5  
**Selected Topics in Electrical and Computer Engineering**  
Presents material in an emerging field or one not covered in regular offerings. Some topics may require laboratory work as well as lectures. Entrance is restricted to students who meet the prerequisites specified for the topic to be offered.  
**Notes:**  
- Credit will be granted for only one of ECE 596C, ECE 596A (if taken in the same topic), ECE 596B (if taken in the same topic), ECE 596C (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the Department.  
- Variable content course.

### ECE 597 - Units: 1.5  
**Capstone Project**  
**Prerequisite(s):** Admission to MENG program in Telecommunications and Information Security.  
**Grading:** INP, COM, N, F.

### ECE 598 - Units: 5.0  
Formerly: ELEC 598  
**MEng Project**  
**Note:** Credit will be granted for only one of ECE 598, ELEC 598.  
**Grading:** INP, COM, N, F.

### ECE 599 - Units: 12.0  
Formerly: ELEC 599  
**MASc Thesis**  
**Note:** Credit will be granted for only one of ECE 599, ELEC 599.  
**Grading:** INP, COM, N, F.
ECE 609  
Units: 1.0  
Formerly: ELEC 609
Seminar
Exposé PhD students to different areas of research through seminar participation and provide a forum for the presentation of graduate student research. Required for all Doctoral students every year of their program as an addition to the normal program except by departmental permission. One unit of credit shall be given upon completion.
Note: Credit will be granted for only one of ECE 609, ELEC 609.
Grading: INP, COM, N, F.

ECE 621  
Units: 1.5  
Formerly: ELEC 621
Numerical Techniques in Electromagnetics
Notes:
• Credit will be granted for only one of ECE 621, ELEC 621.
• Students who have completed equivalent prerequisites may request permission to register in the course.
Prerequisite(s):
• One of ECE 522, ECE 524, ECE 525, ELEC 521, ELEC 522, ELEC 524, ELEC 525; or
• permission of the department.

ECE 699  
Units: 3.0  
Formerly: ELEC 699
PhD Candidacy Examination
The PhD Candidacy Examination consists of an oral examination. This examination should be taken and passed not later than three years from initial PhD registration. Required of all PhD students every term of their program until the oral examination is passed.
Note: Credit will be granted for only one of ECE 699, ELEC 699.
Corequisite(s): ECE 699
Grading: INP, COM, N, F.

ECON 500  
Units: 1.5  
Microeconomic Analysis
An introduction to consumer demand, production and market organization. Topics covered will generally include: consumer demand; duality; choice under uncertainty; intertemporal choice; measuring welfare change; the competitive firm, the two sector model; properties of competitive equilibrium; market structure; and externalities.

ECON 501  
Units: 1.5  
Macroeconomic Analysis
An introduction to macroeconomic analysis. Long-run growth, business cycles, trade, and fiscal policy are analyzed using dynamic general equilibrium models. Classical and Keynesian models are used to examine inflation, unemployment, the open economy, and monetary policy. Limitations and extensions of the models are discussed and developed.

ECON 506  
Units: 1.5  
Monetary Theory and Policy
The examination of selected contributions to contemporary monetary theory and policy, and their relationship to macroeconomics.

ECON 510  
Units: 1.5  
Industrial Organization and Public Policy
Provides a framework in which to examine policy issues with respect to industrial competition and regulation. Begins with the firm and its relation to the market, and then examines issues relating to market structure and regulation. Topics may include: durable goods monopoly; price discrimination; product differentiation; product quality; advertising; predatory pricing; mergers; and the natural monopoly.

ECON 515  
Units: 1.5  
Labour Economics
Introduction to contemporary empirical and applied theoretical research into labour markets. Topics may include: labour supply; labour demand; human capital; discrimination; labour market dynamics; unemployment; and behaviour of the household.

ECON 516  
Units: 1.5  
Cost-Benefit Analysis
Methods of cost-benefit analysis with applications to public policy. Develops a normative foundation for policy analysis, addressing issues of efficiency and wealth redistribution together with the techniques of cost-benefit analysis. Focuses on contemporary Canadian policy issues.

ECON 520  
Units: 1.5  
Economic Development
The processes and problems of development in the economies of the Developing World. Topics may include: theories of economic development; poverty and inequality; gender and development; nutrition and food policies; agricultural and rural development; employment and migration.

ECON 524  
Units: 1.5  
Health Economics
An overview of selected issues in contemporary health economics. Topics may include: microeconomic models of physician and patient behavior, econometric methods relevant to the analysis of health data, health insurance, social determinants of health, and the economics of health-affecting behaviors such as smoking and alcohol use.

ECON 525  
Units: 1.5  
Public Finance and Fiscal Policy
Seminar in selected topics in fiscal policy and public finance including the incidence and effects of taxation, government expenditure programs and public debt operations.

ECON 529  
Units: 1.5  
Economics of Finance
The basic theory of finance under uncertainty. Topics include expected utility maximization, state preference theory, analysis of capital asset pricing, and option pricing.

ECON 530  
Units: 1.5  
Economics of Natural Resources
Seminar in the economics of natural resources including a survey of relevant theoretical literature and selected topics covering problems of resource industries.

ECON 531  
Units: 1.5  
Environmental Economics
An introduction to environmental economics and policy. Develops a normative foundation for policy analysis, addressing issues of efficiency, intergenerational equity and sustainability. A range of policy regimes are covered, including command-and-control regulation, market-based instruments, and legal liability, with applications to a variety of domestic and international environmental issues.

ECON 545  
Units: 1.5  
Econometric Analysis
The basics of estimation and hypothesis testing in the classical linear regression model, with empirical exercises using economic data. Topics typically include: testing and imposing linear restrictions; dummy variables; specification error; multicollinearity; measurement error; serial correlation; heteroskedasticity; and simultaneity.

ECON 546  
Units: 1.5  
Themes in Econometrics
A systematic presentation of the principal themes in econometric inference, such as Maximum Likelihood, Instrumental Variables, Method of Moments, Bayesian Inference, Likelihood Ratio, Wald, and Lagrange Multiplier tests. A discussion of Nonparametric and Semiparametric inference, asymptotic distribution theory and Monte Carlo simulation methods. Application of these methods in empirical projects.

ECON 547  
Units: 1.5  
Time-Series Econometrics
Time-series theory and its application. Topics may include: ARIMA modelling; detecting non-stationarity; structural breaks; multiple unit roots; seasonality; cointegration tests VAR and VECM models.
ECON 548 Units: 1.5
Applied Econometric Modelling
Explores a range of practical estimation and testing issues in the context of different types of econometric models. Topics may include: panel models; nonparametrics and semiparametrics; latent variable models; simultaneous equations models; resampling methods, and the methodology-practice gap.

ECON 549 Units: 1.5
Computational Methods in Economics and Econometrics
An introduction to numerical methods and their application in economics and econometrics. Topics will typically include: iterative fixed point methods, methods for solving problems of nonlinear equations, methods for solving initial value problems and boundary value problems, Monte Carlo methods, resampling techniques, and Gibbs sampling.

ECON 550 Units: 1.5
Game Theory in Economics
Provides a game theoretic perspective on interactions between economic agents, covering a variety of game-theoretic modelling techniques and their applications. Topics will generally include: normal and extensive form games; Nash equilibrium and refinements; repeated and sequential games; learning and evolution in games; the Nash bargaining solution; and co-operative games.

Note: Credit will be granted for only one of ECON 550, ECON 540A.

ECON 551 Units: 1.5
Information and Incentives
Introduction to the incentive problems that arise from asymmetric information in a game-theoretic framework. Assumes a knowledge of basic game theory. Topics covered include moral hazard, adverse selection and mechanism design, illustrated in the context of applications drawn from a variety of areas, including industrial organization, public economics, and labour.

Note: Credit will be granted for only one of ECON 551, ECON 540C.

ECON 552 Units: 1.5
Macroeconomic Issues
An exploration of contemporary macroeconomic issues using advanced modelling techniques. Topics may include: search and matching theory; unemployment; endogenous innovation; worker displacement due to technological change; the macroeconomic implications of imperfect competition; international macroeconomics; multiple equilibria; coordination; stability; inflation; and finance issues.

ED-D 500 Units: 1.5
Learning Principles
A survey of the literature on commonly stated principles of instrumental and classical conditioning, generalization, transfer and retention.

ED-D 501 Units: 1.5
Theory of Measurement
A study of the main psychometric theories, concepts and procedures associated with the development and analysis of educational and psychological measurement, and the application of these to the development and use of tests in educational and research situations.

ED-D 503 Units: 1.5
Program Development and Evaluation
An examination of the issues, practices, and methods of program evaluation at the institutional, organizational, and classroom levels.

Prerequisite(s):
- Admission to MA program in Counselling Psychology; or
- Permission of the department.

ED-D 505 Units: 1.5
Advanced Concepts in Human Development
A seminar on the science of human development from early childhood through emerging adulthood.

ED-D 506A Units: 1.5
Cognitive Development
A survey of what is currently known about cognitive development in the first two decades of life. Topics may include biological bases of cognition, perception, memory, conceptual thought, social cognition, language, reading, mathematics, scientific thinking and intelligence.

ED-D 506B Units: 1.5
Social and Emotional Development
A seminar with an in-depth focus on social-emotional development and learning. Topics covered may include neurobiological bases, temperament, attachment, theory of mind, self and emotion regulation, family, peer, school, and cultural influences.

ED-D 506C Units: 1.5
Adolescent Development
A seminar with an in-depth focus on adolescence. Pubertal, neurobiological, familial, social, educational, cultural, and historical influences are explored.

ED-D 508 Units: 1.5
Theories of Learning in Educational Psychology
An examination of psychological interpretations of learning from modern behaviourist and cognitive approaches to contemporary conceptions of learning.
ED-D 509  Units: 1.5  
Psychology of Learning and Instruction  
An in-depth analysis of selected issues and contemporary research in the application of psychology to instruction including problem solving, learning processes and strategies and instructional interventions.

ED-D 514  Units: 1.5  
Assessment in Counselling  
The use of testing, diagnosis, and other aspects of assessment within a counselling perspective for adults, adolescents and children. Topics addressed include: basic concepts in assessment, the relationship between counselling and assessment, ethical issues, diversity, reliability and validity, test selection and administration, test evaluation, a variety of assessments and assessment reports.  
Notes:  
• Credit will be granted for only one of ED-D 514, ED-D 591 (if taken in the same topic).  
• Students who have Counselling or related background may request permission to register in the course.  
Prerequisite(s):  
• Admission to MA program in Counselling Psychology; or  
• permission of the department.

ED-D 515  Units: 1.5  
Advanced Assessment in Special Education  
An intensive course specializing in Level B assessment techniques and intervention-based academic assessment methods, including curriculum-based measurement, to support the educational programming of students with special needs.  
Prerequisite(s):  
• Admission to MA or MEd in Educational Psychology Masters program in Special Education; or  
• permission of the department.

ED-D 516  Units: 1.5  
Advanced Intervention in Special Education  
An intensive course specializing in academic interventions for students with special needs. Intervention design, implementation, and monitoring will be involved within the context of special education service delivery.  
Prerequisite(s):  
• ED-D 515; or  
• permission of the department.

ED-D 518  Units: 1.5  
Advanced Seminar in Theories of Counselling Psychology  
Contemporary theories and approaches to counselling and psychotherapy for individuals, couples, and families across the lifespan.  
Prerequisite(s):  
• Admission to MA program in Counselling Psychology; or  
• permission of the department.

ED-D 519A  Units: 1.5  
Child and Adolescent Development and Counselling  
A study of issues and counselling interventions with children and adolescents. Topics include developmental context; identity; assessment; counsellor roles; consultation with teachers, other professionals and parents or guardians; family issues; career/educational planning; and individual and group interventions.  
Note: Credit will be granted for only one of ED-D 519A, ED-D 591 (if taken in the same topic).  
Prerequisite(s):  
• Admission to MA program in Counselling Psychology; or  
• permission of the department.

ED-D 519C  Units: 1.5  
Ethics and Legal Issues in Counselling  
An examination of professional, ethical, and legal issues related to practice and research in counselling. Personal beliefs, values, and biases will be examined, as well as the professional codes and literature of the discipline.  
Note: Credit will be granted for only one of ED-D 519C, ED-D 591 (if taken in the same topic).  
Prerequisite(s):  
• Admission to MA program in Counselling Psychology; or  
• permission of the department.

ED-D 519D  Units: 1.5  
Creative Arts Therapy  
The study and practice of creative and artistic approaches to counselling. Specific focus may include counselling using art, movement, writing, play, drama and bibliotherapy.  
Note: Credit will be granted for only one of ED-D 519D, ED-D 591 (if taken in the same topic).  
Prerequisite(s):  
• Admission to MA program in Counselling Psychology; or  
• permission of the department.

ED-D 519H  Units: 1.5  
Career Development and Counselling Across the Lifespan  
Lifespan and career development as a dynamic and holistic enterprise. Theories and techniques of career development, assessment, and consultation are explored. The practice of career counselling for diverse populations including work-related issues.  
Note: Credit will be granted for only one of ED-D 519H, ED-D 591 (if taken in the same topic).  
Prerequisite(s):  
• Admission to MA program in Counselling Psychology; or  
• permission of the department.

ED-D 519P  Units: 1.5  
Indigenous Development and Counselling Across Generations  
Indigenous concepts and theories of development and growth across the lifespan. Exploration of intergenerational models of development and identity. Topics include child, adolescent, and adult development and change in family, community, and work contexts.  
Note: Credit will be granted for only one of ED-D 519P, ED-D 591 (if taken in the same topic).  
Prerequisite(s):  
• Admission to MA program in Counselling Psychology; or  
• permission of the department.

ED-D 519S  Units: 1.5  
Addictions Counselling  
A study of addictive behaviour and the change process to understand how addictions develop and how addicted people recover. Topics include concepts and theories of addiction, brain physiology, specific substance and process addictions, controversies, challenges, interventions and treatments for addiction in counselling contexts.  
Note: Credit will be granted for only one of ED-D 519S, ED-D 591 (if taken in the same topic).  
Prerequisite(s):  
• Admission to MA program in Counselling Psychology; or  
• permission of the department.
ED-D 520  Units: 1.5
Educational Research Apprenticeship
An individualized opportunity for students to develop their research skills by assisting with faculty research or engaging in their own research. Students are expected to spend a minimum of 9 hours a week participating in research activities. Includes a range of potential activities, including but not limited to: data collection, coding, and entering; management of computerized databases; completion of ethics applications; analysis of data; literature search and review; and preparation of materials for publication.

Note: Students may repeat this course, but credit will be granted only once.
Prerequisite(s):
• Admission to an EPLS Masters program; or
• permission of the department.
Grading: INP, COM, N, F.

ED-D 521  Units: 1.5
Developmental Issues in Family Counselling
Theoretical approaches, developmental issues and intervention strategies related to family counselling with diverse clientele. Through discussion, experiential activities, and role playing, students will become familiar with current concepts and techniques.

Prerequisite(s):
• ED-D 522 or permission of the department; and
• admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 522  Units: 3.0
Skills and Practice for Counselling
Provides basic counselling interventions with an emphasis on the therapeutic relationship. Extensive opportunity to role play and to self-reflect on role as counsellor and issues related to boundaries and power. Sequenced skill training, with extensive counselling simulation and supervision of practice in a field setting. Includes direct client contact under the supervision of a qualified professional with diverse client populations.

Note: Students may repeat this course until practicum hourly requirements are met but credit will be granted only once.
Prerequisite(s): Admission to MA program in Counselling Psychology.
Corequisite(s): Either ED-D 518 and ED-D 519N, or ED-D 519C and ED-D 519L.
Grading: INP, COM, N, F.

ED-D 523  Units: 3.0
Internship in Counselling
Provides intensive practice in advanced counselling techniques and approaches under the supervision of a professional counsellor in community settings. Lectures focus on case presentations, models of consultation, supervisor-supervisee relationship, roles and responsibilities of health professionals, counsellor identity, professional organizations, record keeping. Two term course.

Notes:
• Students may repeat this course until practicum hourly requirements are met but credit will be granted only once.
• Enrolment is limited due to availability of placements.
Prerequisite(s):
• ED-D 522; and
• admission to MA program in Counselling Psychology.
Grading: INP, COM, N, F.

ED-D 524  Units: 1.5
Facilitation of Counselling Practicum
Preparation for future work as trainer, facilitator, or instructor through practice in facilitating 414 or 417 under the supervision of course instructor. Integration of theory and practice of helping, development of skills through modelling, observing, and coaching, enhancement of relationship and group processes.

Notes:
• May be taken more than once to include facilitation practicum with both a ED-D 414 and ED-D 417 instructor normally to a maximum of 3 units.
• Cannot be used to fulfill elective requirements for program.
Prerequisite(s): Admission to MA program in Counselling Psychology.
Grading: COM, N, F.

ED-D 525  Units: 1.5
Indigenous Healing and Spirituality
Indigenous values, worldviews, and spirituality as the foundation for helping and healing. Topics include traditional knowledge, holistic healing, role of elders, and Indigenous spiritual practices.

Prerequisite(s):
• Admission to a master’s program in Indigenous Communities Counselling; or
• permission of the department.
Grading: COM, N, F.

ED-D 531  Units: 1.5 or 3.0
Concepts and Theory of Organization
Critical examination of the classical, modern, and emerging literature of administrative studies in the organizational context, with emphasis on philosophy of leadership, decision making processes, power and authority, leadership studies, and contemporary issues and perspectives.

Note: Credit will be granted for only one of ED-D 531, ED-B 531.

ED-D 532A  Units: 1.5
Educational Program Leadership
Models for program design and review range from external, objective-based processes to participatory action research. Examines issues of implementation, collaboration, accountability, inclusiveness and responsiveness to community. Offers practical experiences in a range of evaluative methods.

Note: Credit will be granted for only one of ED-D 532A, ED-D 532, ED-B 532.

ED-D 532B  Units: 1.5
Politics and Policy-Making in Organizations
An examination of the relevant interaction of philosophy and leadership, with a view to clarifying philosophical concepts and theories and their application to the analysis, by individuals in leadership positions, of their own and others’ actions.

Note: Credit will be granted for only one of ED-D 532B, ED-D 532, ED-B 532.

ED-D 532C  Units: 1.5
Servant Leadership
An inquiry into the philosophy of servant-leadership as a vehicle for the development of moral literacy in democratic, caring, serving institutions with an investment in the common good.

Note: Credit will be granted for only one of ED-D 532C, ED-D 591 (if taken in the same topic).

ED-D 533A  Units: 1.5
Decision-Making and the Law
Develops awareness of the legal considerations and principles which apply to decision-making in school and other workplaces. Contains introductions to the interface between law, legislation and policy; statutes and the delegation of powers to decide, and the common law principles which govern decision-making by those with statutory authority. An array of case studies is used.

Note: Credit will be granted for only one of ED-D 533B, ED-B 533B.

ED-D 533B  Units: 1.5
Decision-Making and the Law
Develops awareness of the legal considerations and principles which apply to decision-making in school and other workplaces. Contains introductions to the interface between law, legislation and policy; statutes and the delegation of powers to decide, and the common law principles which govern decision-making by those with statutory authority. An array of case studies is used.

Note: Credit will be granted for only one of ED-D 533B, ED-B 533B.

ED-D 533C  Units: 1.5
Servant Leadership
An inquiry into the philosophy of servant-leadership as a vehicle for the development of moral literacy in democratic, caring, serving institutions with an investment in the common good.

Note: Credit will be granted for only one of ED-D 533C, ED-D 591 (if taken in the same topic).

ED-D 533D  Units: 1.5
Critical Discourses in Leadership
An examination of general leadership concepts, and practices as they apply to educational institutions, other workplaces, organizations and the community.

Note: Credit will be granted for only one of ED-D 533D, ED-B 533D, ED-B 537C.

ED-D 534  Units: 1.5 or 3.0
Leadership for School Improvement
Surveys contemporary thinking about professional learning communities and learning teams, emphasizing how leaders can build and support collaborative and inclusive learning environments in order to effect positive school change.

Note: Credit will be granted for only one of ED-D 534, ED-B 534.

ED-D 535  Units: 1.5
Global Comparative Perspectives on Leadership and Education
Explorations of diverse leadership and education theories and practices in school, institutions, workplaces, and/or community across Canada and around the world.

Note: Credit will be granted for only one of ED-D 535, ED-D 535A, ED-D 535B.

ED-D 536  Units: 1.5 or 3.0
Philosophy of Leadership
An examination of the relevant interaction of philosophy and leadership, with a view to clarifying philosophical concepts and theories and their application to the analysis, by individuals in leadership positions, of their own and others’ actions.

Note: Credit will be granted for only one of ED-D 536, ED-B 536.

ED-D 537A  Units: 1.5 or 3.0
Educational Change
An analysis of change theory and the processes associated with change in education, with a view to assisting school leaders to facilitate reforms.

Note: Credit will be granted for only one of ED-D 537A, ED-B 537A.
ED-D 537D Units: 1.5 or 3.0
Instructional Supervision
Through an analysis of literature in leadership, communication, change and activation, as well as through an analysis of classroom observation techniques, the development of rational organizational patterns of supervision for educational administrators.
Note: Credit will be granted for only one of ED-D 537, ED-D 537D.

ED-D 537G Units: 1.5 or 3.0
Leadership in Educational Administration
Analysis of the roles and functions of the school principal, with emphasis upon educational leadership, understanding the breadth and diversity of the position, legal status, designated administrative and managerial responsibilities, and contemporary challenges.
Note: Credit will be granted for only one of ED-D 537, ED-D 537G.

ED-D 538A Units: 1.5
Critical Theories and Practices of Adult Education and Learning
Explores theories and practices of adult education within the contexts of social, cultural, political, gender, and ecological justice and change.
Note: Credit will be granted for only one of ED-D 538A, ED-D 538, ED-D 591 (if taken in the same topic).

ED-D 538B Units: 1.5
Cultural Leadership and Social Learning through the Arts
An exploration of the historical and contemporary contributions of arts-based education activities to cultural leadership, activism, and social justice and change across Canada and world-wide.
Note: Credit will be granted for only one of ED-D 538B, ED-D 538, ED-D 591 (if taken in the same topic).

ED-D 538D Units: 1.5
Community and Cultural Leadership
Focuses on theories and practices of community and cultural leadership, activism in organizations and institutions in Canada and internationally.
Note: Credit will be granted for only one of ED-D 538D, ED-D 538, ED-D 591 (if taken in the same topic).

ED-D 539A Units: 1.5
Leadership, Learning and Social Justice
Concepts of social justice and their relationship to leadership in schools, institutions and organizations and community. Focuses on issues of race/ethnicity, gender, class, sexual orientation and ability as enacted in everyday practice. Conceptions of democracy, privilege, power, and citizenship are central. Discussions extend to ecological and global issues of social justice.

ED-D 539B Units: 1.5
Leadership, Education and Diversity
An exploration of the social, cultural, and political complexity of contemporary education in a pluralistic society. Focuses on issues of racism, homophobia, sexism, ableism and how they affect schools, workplaces, and/or communities and society as a whole.
Note: Credit will be granted for only one of ED-D 539B, ED-D 591 (if taken in the same topic).

ED-D 540 Units: 1.5
Gender, Leadership and Learning
Explores leadership through the lenses of feminism, inter-sectionalism, trans and masculinities discourses in diverse contexts such as trans, LGBTQ and women’s movement(s), the voluntary sector, community organizations and government.
Note: Credit will be granted for only one of ED-D 540, ED-D 591 (if taken in the same topic).

ED-D 541 Units: 1.5
Leadership in Rural Education
An examination of the historical contexts, unique issues, and recent developments surrounding leadership in rural and remote education, globally, nationally, and provincially, including First Nations. Focus is on issues of equitable educational opportunities, recruitment and retention of educators, multi-grade classes, professional isolation, and demands of community-based lifestyle and the benefits of technology. The dearth of rural education research is explored.
Note: Credit will be granted for only one of ED-D 541, ED-D 591 (if taken in the same topic).

ED-D 542 Units: 3.0
A Comprehensive Investigation of Servant Leadership
An inquiry, identification and application of the servant leadership-followership philosophy in all formal educational and community organizations. Servant Leadership-followership is a vehicle for the development of moral literacy in democratic, caring institutions and an investment toward the common good.
Note: Credit will be granted for only one of ED-D 542, ED-D 533C, ED-D 591 (if taken in the same topic).

ED-D 543A Units: 1.5
Statistical Methods in Education
An introduction to descriptive and inferential statistics to provide the understanding and competence to read and interpret the statistics reported in relevant research and to be able to conduct analyses on educational research data.

ED-D 543B Units: 1.5
Methods in Educational Research
An introduction to quantitative and qualitative research designs, the research process, the selection and design of data collection instruments and methods, writing and reporting findings, and systematically evaluating and critiquing the quality of research studies. Useful for students preparing to conduct thesis research as well as students who wish to become better readers and consumers of research.
Note: Credit will be granted for only one of ED-D 561A, ED-D 561.

ED-D 546B Units: 1.5
Research Methods in Leadership
Designed to prepare students in Leadership Studies to undertake independent, scholarly research so that they might fulfill the research requirements for the MEd degree in Leadership Studies. Students will become familiar with different lines of inquiry, appropriate methodologies, proposal preparation and the ethics involved in doing research.
Other graduate level research methods courses may be substituted with permission from the Graduate Adviser.
Prerequisite(s):
• Admission to MA or MEd in Educational Psychology Masters program in Leadership Studies; or
• permission of the department.

ED-D 562 Units: 1.5
Advanced Statistical Methods in Education
To advance understanding of and competence in handling multivariate data - both the manipulation of data files for use within a statistical program, and the use of statistical programs for exploratory and inferential analyses such as regression, MANOVA and factor analysis.
Note: Students who have completed equivalent prerequisites may request permission to register in the course.
Prerequisite(s):
• ED-D 560; or
• permission of the department.

ED-D 563 Units: 1.5
Qualitative Research Methods
Introduction to various modes of qualitative inquiry; identification and examination of qualitative research methods in a variety of contexts and settings.
Note: Credit will be granted for only one of ED-D 563, ED-D 519B.

ED-D 564 Units: 1.5
Indigenous Research and Program Evaluation
Indigenous worldviews, approaches to research, methodologies, practices and protocols are examined within the context of Indigenous community engagement. Specific topics include community partnerships, research ownership, research process, program evaluation, methods and outcomes. Ethics, reciprocity, and culturally respectful research will be explored.
Prerequisite(s):
• Admission to a master’s program in Indigenous Communities Counselling; or
• permission of the department.

ED-D 565 Units: 1.5
Inclusive Education in the 21st Century
A consideration of historical perspectives and present trends in Special Education theory and practice. Topics considered include the context of special education, economic and legislative issues, families, classification and other assessment issues, teaching practices, social competency, early intervention, quality of life, and ethical and policy issues.
Note: Credit will be granted for only one of ED-D 568, ED-D 566A.
ED-D 569   Units: 1.5
Developmental Psychopathology and Disorders
Empirical and theoretical approaches to childhood disorders, including issues in their classification, etiology, developmental course, and presentation within the school setting. Emphasis will be placed on thinking about childhood disorders within both a developmental and school context. Assessment profiles and intervention strategies will be discussed.

Note: Credit will be granted for only one of ED-D 569, ED-D 566B.

ED-D 570   Units: 1.5
Self-Regulated Learning
An examination of contemporary theory and research about self-regulated learning and learning strategies, computer-based instructional tools and environments for promoting self-regulated learning, and regulation of learning in collaborative contexts.

Notes:
• Credit will be granted for only one of ED-D 570, ED-D 591 (if taken in the same topic).

• Students who complete this course may be eligible to apply for a lab instructor position for ED-D 101 (Learning Strategies for University Success).

ED-D 571   Units: 1.5
Advanced Assistive Technology in the Inclusive Classroom
Focuses on the research and application of a range of assistive technologies, assessment frameworks, instructional approaches and strategies, and resources to support active student engagement and participation in inclusive classrooms.

Note: Credit will be granted for only one of ED-D 571, ED-D 591 (if taken in the same topic).  

ED-D 590   Units: 1.5-3.0
Directed Studies in Educational Psychology and Leadership Studies
May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units; however, no more than 3 units of credit from the same instructor will be accepted except under exceptional circumstances.

ED-D 591A   Units: 1.5
Selected Topics Learning, Development and Instructional Sciences
May be taken more than once for credit in different topics.

ED-D 591B   Units: 1.5
Selected Topics Measurement, Evaluation and Computer Applications
May be taken more than once for credit in different topics.

ED-D 591C   Units: 1.5
Selected Topics in Special Education
May be taken more than once for credit in different topics.

ED-D 591D   Units: 1.5
Selected Topics in Counselling
May be taken more than once for credit in different topics.

ED-D 591E   Units: 1.5
Selected Topics in Leadership Studies
May be taken more than once for credit in different topics.

ED-D 597   Units: 1.5
Comprehensive Examination - Educational Psychology and Leadership Studies
A required element of all MEd programs. Typically held within one month of completion of all coursework. Examination format may be either written or oral, as decided upon by the program supervisor in consultation with the candidate. Areas of examination and examiners are established by each program area (counselling, educational psychology, special education, leadership studies).

Grading: INP, COM, N, F.

ED-D 598   Units: 3.0
Project - Educational Psychology and Leadership Studies
Evidence of independent research work in the form of a project, extended paper(s), work report, etc., as determined within the department. Planned and carried out with a project supervisor.

Grading: INP, COM, N, F.

ED-D 599   Units: 6.0
Thesis - Educational Psychology and Leadership Studies

Grading: INP, COM, N, F.

ED-D 600   Units: 1.5
Learning and Teaching in Higher Education
Explores instructional research and contemporary practices in higher education. Topics include using effective teaching strategies, developing course curriculum, and exploring various instructional models and media. Content is guided by recent research in the psychology of learning and instruction.

Notes:
• Students who are not in the LATHE Program and wish to take a course in this area may consider ED-D 614.

• With permission of the department, students who have taken ENGL 502 or WRIT 509 may obtain credit for ED-D 600.

Prerequisite(s): Admission to Graduate Certificate in Learning and Teaching in Higher Education (LATHE).

ED-D 605   Units: 3.0
Educational Psychology: Apprenticeship in Teaching in Higher Education
Explores research and rhetoric associated with numerous models of instruction found frequently in post-secondary contexts such as lecture, recitation, small-group discussion and on-line learning. As each instructional model is examined, students will practice supporting instructional skills and strategies.

Prerequisite(s): Admission to Graduate Certificate in Learning and Teaching in Higher Education (LATHE)

Pre- or Corequisite(s): ED-D 600 or EDCI 560.

Grading: COM, N, F.

ED-D 610   Units: 1.5
Contemporary Issues in Higher Education
Critically examines the problems and issues that dominate current thought and discussion in higher education in Canada and internationally. Topics considered will include globalization and internationalization, university governance, teaching and learning, the nature of academic work, corporatization of postsecondary institutions, credentialism, and relations between higher education and the state.

Prerequisite(s): Permission of the department.

ED-D 614   Units: 1.5
University Teaching
An extensive review of research and instructional practices at the post-secondary level. Topics include models of instruction, teaching strategies, course development principles, and assessment practices.

Prerequisite(s): Admission to a graduate program.

ED-D 615   Units: 1.5 or 3.0
Individual Apprenticeship in University Teaching
Students undertake an individualized apprenticeship experience with a sponsoring faculty member. The broad aim of the apprenticeship is to offer students guided practice in university instruction.

Note: May be taken more than once for credit in different topics with approval of the student’s supervisory committee.

Prerequisite(s): Admission to a graduate program.

Grading: COM, N, F.

ED-D 620   Units: 1.5
Educational Psychology: Doctoral Apprenticeship in Research
Individualized opportunity for doctoral students to develop advanced research skills by apprenticing in faculty research or extra-to dissertation research. Students are expected to spend approximately 9-10 hours a week participating in research activities. The apprenticeship typically involves a range of activities including organization and training of research assistants, submission of an ethics application, management of research databases, data analysis, and preparation and submission of materials for publication and/or presentation.

Note: May be taken more than once for credit in different topics with approval of the student’s supervisory committee.

Prerequisite(s): Admission to a doctoral program; or

• permission of the department.

Grading: INP, COM, N, F.

ED-D 660   Units: 1.5
Doctoral Seminar in Contemporary Issues in Educational Psychology
A seminar for doctoral students examining contemporary issues in educational psychology. Attention is also given to guidelines for scholarly and professional practice.

ED-D 660   Units: 1.5
Advanced Directed Studies in Educational Psychology
May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units; however, no more than 3 units from the same instructor will be accepted except under exceptional circumstances.
ED-D 691 Units: 1.5 or 3.0
Advanced Special Topics in Educational Psychology
The content of these courses varies depending upon student interests and faculty areas of expertise. Courses often focus on timely issues and topics in the field.
Note: May be taken more than once for credit in different topics.

ED-D 693 Units: 3.0
Doctoral Candidacy Exam in Educational Psychology
PhD students write candidacy examinations in research methodology and in their area of focus within educational psychology. The format will consist of two written papers followed by an oral examination. In the oral examination, the candidate will be examined in both research methodology and his/her area of focus.
Normally, within thirty months of registration as a provisional doctoral student and at least six months before the final oral examination, a student must pass the candidacy examination.
Grading: INP, COM, N, F.

ED-D 699 PhD Dissertation
Prerequisite(s): ED-D 693.
Grading: INP, COM, N, F.

EDCI Curriculum and Instruction Studies
Department of Curriculum and Instruction
Faculty of Education

EDCI 510 Units: 1.5
Research Issues and Studio Development in Art
Review of contemporary art education research issues; development of a teaching creed and proposal; studio exploitation linked to current instructional practice.
Note: Credit will be granted for only one of EDCI 510, ED-A 570.

EDCI 511 Units: 1.5 Hours: 3-0-0
Research in Drawing and Studio Development
Review of literature on the development of drawing; analysis of theory and current teaching practices; an investigation of ideas and approaches through actual engagement in drawing.
Note: Credit will be granted for only one of EDCI 511, ED-A 571.

EDCI 512A Units: 1.5
Formerly: half of EDCI 512
Digital Arts
An extensive exploration of digital studio processes focusing on visual expression, graphics, and fine art. Working in the digital studio, students will learn to generate creative ideas, collect resources, produce artwork, and integrate digital and traditional processes using industry-standard software packages. Emphasis on the production and teaching of digital arts for creative, educational, and studio environments. No previous computer experience is required.
Note: Credit will be granted for only one of EDCI 512A, EDCI 512.

EDCI 512B Units: 1.5
Formerly: half of EDCI 512
Digital Presentation
An extensive exploration of the tools and processes used in presenting studio media in digital formats. Students will learn how to organize existing studio materials, processes, ideas, and resources into dynamic presentation structures using still/motion visuals, text and audio. A strong focus will be given to the production formats required for final graduate presentations.
Note: Credit will be granted for only one of EDCI 512B, EDCI 512.

EDCI 513 Units: 3.0
Community Art Education
Issues related to community art programs that play a role in sociocultural development and raising awareness about aesthetics.

EDCI 514 Units: 1.5
Educational Discourses
An opportunity for engagement in the research community, advancing the development of student's own capacity for research, and a critical examination of contemporary literature on functional educational concepts, research issues and implications for curriculum and instruction.

EDCI 515 Units: 1.5
e-Research: Harnessing and Understanding Technology in Research
A blended multi-media/research course that focuses on relevant issues involved in using information and communication technologies (ICT) and the Internet for research purposes. In addition to developing some foundational skills, students will learn about methods, techniques, as well as ethical and practical issues.
Note: Credit will be granted for only one of EDCI 515, ED-B 515.

EDCI 517 Units: 1.5
Formerly: EDCI 542A
Reading Processes in the School Curriculum: Research and Processes
Examines and analyzes research and models of reading, and the processes of reading and reading development.
Note: Credit will be granted for only one of EDCI 517, EDCI 542A, EDCI 542, ED-B 542.

EDCI 518 Units: 1.5
Formerly: EDCI 540A
Research in Language and Literacy: Curriculum Development
A critical analysis of theories and research related to curriculum development and implementation in language and literacy.
Note: Credit will be granted for only one of EDCI 518, EDCI 540, EDCI 540A, ED-B 540.

EDCI 520 Units: 1.5 or 3.0
Seminar in Contemporary Educational Issues in Philosophical Perspective
A survey of issues selected from leading contemporary thinkers and how they relate to the basic values, purposes and problems of education.
Note: Credit will be granted for only one of EDCI 520, ED-B 520.

EDCI 521 Units: 1.5
Contemporary Educational Issues in Historical Perspective
Historical examination of significant educational writings, the social context in which they were written, and their influence on contemporary educational issues. Special emphasis is placed on writings that illuminate themes of educational change and that illustrate the relationship between the character of a society and the nature of its educational institutions.
Note: Credit will be granted for only one of EDCI 521, EDCI 521A, EDCI 521B, ED-B 521A, ED-B 521B.

EDCI 523 Units: 1.5
Diverse Voices and Visions in Education
An examination of diverse educational and cultural perspectives in education and ways of knowing not usually encompassed in other courses. Students will explore how these diverse perspectives shape, challenge, and enrich established educational methodologies.

EDCI 531 Units: 1.5
Introduction to Curriculum as Discourse
An overview of the field of curriculum studies from the early 20th century forward. Invites students to reflect on implications of curriculum as discourse within their own educational concepts and practices and to imagine new possibilities.
Note: Credit will be granted for only one of EDCI 531, EDCI 531A, EDCI 531B, ED-B 555A, ED-B 555B.

EDCI 532 Units: 1.5
Emerging Trends and Topics in Curriculum Studies
An examination of recent publications, presentations and conference proceedings to identify and discuss emerging trends and topics in the field of curriculum studies.

EDCI 533 Units: 1.5
Theory and Practice in Curriculum Design and Change
Description of traditional and alternative approaches to curriculum planning and implementation in terms of origins, underlying assumptions, utility in various settings and effects. Invites students to identify and characterize their own approaches to curriculum planning and implementation.
Note: Credit will be granted for only one of EDCI 533, ED-B 556, ED-B 557.

EDCI 536 Units: 1.5
Language Processes in the School Curriculum: Oracy
An examination of processes through which competence in listening and speaking is developed. Includes analysis of research, methods and materials relevant to oracy.
Note: Credit will be granted for only one of EDCI 536, EDCI 543, EDCI 543A, ED-B 543.

EDCI 546 Units: 1.5
Literacies Research
A critical review of research methodologies used in the general area of language arts. Consideration of the appropriateness of specific methodologies to research in classroom problems.
Note: Credit will be granted for only one of EDCI 546, ED-B 546.
EDCI 581  Units: 1.5
Research Methodologies in Education
An opportunity for students to become familiar with various approaches to research, especially those relevant to their inquiries with special emphasis on the intellectual, social, and cultural contexts and ethics of research.
EDCI 582  Units: 1.5
Writing as Research
Writing as a mode of inquiry, with particular emphasis on the practice of writing. Includes all forms of interpretive inquiry, especially narrative, phenomenological, hermeneutic and autobiographical inquiry.
Note: Credit will be granted for only one of EDCI 582, ED-B 582.
EDCI 584  Units: 1.5
Analysis of Quantitative and Mixed Methods Research
An introduction to the understanding, critical analysis, and evaluation of the theoretical and practical issues related to published quantitative or mixed methods research in the field of education.
EDCI 590  Units: 1.5
Directed Study - Curriculum and Instruction
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.
Prerequisite(s): Permission of the faculty.
EDCI 591  Units: 1.5 or 3.0
Selected Topics in Curriculum and Instruction
A variable content course. Normally restricted to course offerings and not individual study.
Note: May be taken more than once for credit in different topics.
EDCI 597  Units: 1.5
Comprehensive Examination
A written and/or oral comprehensive examination, which must be passed as required for individual Master of Education programs.
Note: Credit will be granted for only one of EDCI 597, ED-A 597, ED-B 597, ED-E 597.
Grading: INP, COM, N, F.
EDCI 598  Units: 3.0
Project - Curriculum and Instruction
Grading: INP, COM, N, F.
EDCI 598A  Units: 1.5
Project Proposal and Literature Review
Encourages discussion of alternate approaches to project topics as well as examine the components of a project proposal, especially the features of an effective literature review. The proposal and literature review for the MEd project must be accepted by the 598A course instructor and the student’s program supervisor.
Note: Students who do not complete the course requirements may register a second time for the course. Incomplete course requirements in the second term will result in withdrawal from the program. There are appeal procedures for extenuating circumstances.
Prerequisite(s): Admission to a Community-based MEd program.
Grading: COM, INP, N, F.
EDCI 598B  Units: 1.5
Project
The project proposal approved in 598A is to be completed and will include the approved literature review, an analytic and professional reflection on the contributions of the project. A project may be presented in any appropriate form - prose, performance, multimedia, or exhibit for example - but must include a written submission of moderate length. The successful completion of the project requires the approval of the course instructor and the student’s program supervisor.
Notes:
• Students who have completed equivalent prerequisites may request permission to register in the course.
• Students who do not complete the course requirements may register a second time for the course. Incomplete course requirements in the second term will result in withdrawal from the program. There are appeal procedures for extenuating circumstances.
Prerequisite(s):
• EDCI 598A; or
• admission to a Community-based MEd program.
Grading: COM, INP, N, F.
EDCI 599  Units: 7.5
Thesis - Curriculum and Instruction
Grading: INP, COM, N, F.
EDCI 601  Units: 1.5
Interdisciplinary Doctoral Seminar
The purpose of Doctoral Seminar is to create a community of scholars in which faculty and graduate students share and support each other’s current research projects.
Note: May be taken more than once for credit in different topics to a maximum of 6 units.
Prerequisite(s): Admission to a doctoral program.
EDCI 614  Units: 1.5
Formerly: EDCI 600
Discourses in Educational Studies
An opportunity for engagement in the research community, advancing the development of student’s own capacity for research, and a critical examination of contemporary literature on functional educational concepts, research issues and implications for curriculum and instruction.
Note: Credit will be granted for only one of EDCI 614, EDCI 600.
EDCI 632  Units: 1.5
Emerging Trends in Curriculum Studies
An examination and theoretical critique of emerging trends and topics in the field of curriculum studies as they appear in recent publications, presentations, and conference proceedings.
Note: Credit will be granted for only one of EDCI 632, EDCI 532.
EDCI 633  Units: 1.5
Discourses in Curriculum Design and Change
Identification, analysis and critique of current discourses of curriculum development, implementation, and change found in educational practice and in theoretical literature.
Note: Credit will be granted for only one of EDCI 633, EDCI 533.
EDCI 673  Units: 1.5
ICT in Environmental, Mathematics, Science Instruction
Explores the changes in information and communication technologies (ICT) have made on learning and instruction in environmental, mathematics and science education. Theoretical, classroom instruction, and research implications will be considered.
EDCI 681  Units: 1.5
Advanced Research Design
Explores research methodologies appropriate to specific research problems, questions, and contexts. An examination of the purposes of research, the role of literature review, educational theories, and design of a research question considering the relationship between question and research method.
Note: Students who have completed a master’s level research methods course may request permission to register in the course.
Prerequisite(s): Permission of the faculty.
EDCI 690  Units: 1.5 or 3.0
Directed Studies - Curriculum and Instruction
Under the direction of program supervisors, topics in the area of research interests of doctoral students will be examined, leading to the development of background material for a PhD dissertation.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.
Prerequisite(s): Set by department depending upon topic.
EDCI 691  Units: 1.5 or 3.0
Selected Topics in Curriculum and Instruction
Issues pertaining to students’ research interests and faculty expertise will be examined.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.
Prerequisite(s): Set by department depending upon topic.
EDCI 693  Units: 3.0
Candidacy Examination - Curriculum and Instruction
Candidacy Examinations which must be passed as required for individual Doctor of Philosophy Programs within the Faculty of Education. Exams will be reviewed and graded by all members of the individual’s Doctoral Committee.
Grading: INP, COM, N, F.
EDCI 699  Units: 30.0
PhD Dissertation - Curriculum and Instruction
Prerequisite(s): EDCI 693.
Grading: INP, COM, N, F.
ENGL 500 - EOS 503

**ENGL**

**English**

Department of English
Faculty of Humanities

**ENGL 500** Units: 1.5
Textual Studies and Methods of Research
Advanced training in research skills, textual studies, disciplinary issues, and professional life. Covers bibliography (analytical, descriptive, and enumerative), methods of research, appropriate forms of citation and documentation, and the dissemination of research.

**Note:** Compulsory for all graduate students, except those who can show equivalent previous credit.

**ENGL 502** Units: 1.5
Teaching Literature and Composition
A preparation for teaching English literature and composition at universities and colleges. Includes: 1) a seminar and 2) a practicum in which students acquire practical experience in classrooms both at the University of Victoria and Camosun College. Covers a range of theoretical issues relating to teaching and learning as cultural activities such as: class, race and gender in the classroom; the politics, power dynamics and ethics of pedagogy; the influence of theory on pedagogical practice.

**Note:** Evaluated on a pass/fail basis. Seminar and practicum time are given equal weight; however, their proportion may vary from week to week and from term to term.

**Grading:** INP, COM, N, F.

**ENGL 503** Units: 1.5
Special Studies I

**ENGL 505** Units: 1.5
Studies in Literary Theory: Area Course

**ENGL 506** Units: 1.5
Studies in Literary Theory: Special Topic

**ENGL 507** Units: 1.5
Digital Literary Studies: History and Principles
Surveys and explores intellectual traditions and emergent concerns associated with computing in literary studies. Topics may include material relating to literary digital representation, analysis, communication, and creation, and involve theoretical considerations and pragmatic approaches.

**Note:** Credit will be granted for only one of ENGL 507, ENGL 590 (if taken in the same topic).

**ENGL 508** Units: 1.5
Digital Literary Studies: Special Topic

**ENGL 510** Units: 1.5
Studies in Old English Literature: Special Topic

**ENGL 515** Units: 1.5
Studies in Middle English Literature: Area Course

**ENGL 516** Units: 1.5
Studies in Middle English Literature: Special Topic

**ENGL 520** Units: 1.5
Studies in Renaissance Literature: Area Course

**ENGL 521** Units: 1.5
Studies in Renaissance Literature: Special Topic

**ENGL 530** Units: 1.5
Studies in the Literature of the 17th Century: Area Course

**ENGL 531** Units: 1.5
Studies in the Literature of the 17th Century: Special Topic

**ENGL 540** Units: 1.5
Studies in the Literature of the 18th Century: Area Course

**ENGL 541** Units: 1.5
Studies in the Literature of the 18th Century: Special Topic

**ENGL 550** Units: 1.5
Studies in the Literature of the 19th Century: Area Course

**ENGL 551** Units: 1.5
Studies in the Literature of the 19th Century: Special Topic

**ENGL 560** Units: 1.5
Studies in 20th-Century British and Irish Literature: Area Course

**ENGL 561** Units: 1.5
Studies in 20th-Century British and Irish Literature: Special Topic

**ENGL 570** Units: 1.5
Studies in American Literature Pre-1914: Area Course

**ENGL 571** Units: 1.5
Studies in American Literature 1914 to the Present: Area Course

**ENGL 572** Units: 1.5
Studies in American Literature: Special Topic

**ENGL 580** Units: 1.5
Studies in Commonwealth and Postcolonial Literatures: Area Course

**ENGL 581** Units: 1.5
Studies in Commonwealth and Postcolonial Literatures: Special Topic

**ENGL 582** Units: 1.5
Core Seminar in Literatures of the West Coast
An introduction to interdisciplinary study in the literatures of the West Coast. Primary areas of investigation include: Borders and Regions; Historiographies; Pacific Diasporas, Migrations, and Nations; Identity and Place. Compulsory for students in the Literatures of the West Coast Concentration.

**ENGL 583** Units: 1.5
Studies in the Literature of the West Coast

**ENGL 585** Units: 1.5
Studies in Canadian Literature: Area Course

**ENGL 586** Units: 1.5
Studies in Canadian Literature: Special Topic

**ENGL 590** Units: 1.5
Directed Reading

**ENGL 598** Units: 3.0-4.5
Master's Essay or Project
Students are required to complete a Master's Essay or Project and a final oral examination based on that essay or project. It should not exceed 10,000 words (or the equivalent in digital, editorial, or bibliographical components), plus notes and bibliography. This essay or project will normally be revised and extended version of a paper or project prepared for one of the student's courses.

**Note:** Students entering the program effective September 2009, and students doing a concentration in Literatures of the West Coast, will complete a Master's Essay or Project (not to exceed 10,000 words) worth 4.5 units. All other students who entered the program prior to September 2009 will complete a Master's Essay (not to exceed 6,500 words) worth 3 units.

**Grading:** INP, COM, N, F.

**ENGL 599** Units: 7.5
MA Traditional or Alternative Thesis

**Grading:** INP, COM, N, F.

**ENGL 693** Units: 3.0
Formerly: ENGL 698
Candidacy Examination

**Notes:**
- Credit will be granted for only one of ENGL 693, ENGL 698.

**Grading:** INP, COM, N, F.

**ENGL 699** Units: 21.0-33.0
PhD Dissertation

**Prerequisite(s):** ENGL 693.

**Grading:** INP, COM, N, F.

**EOS**

Earth and Ocean Sciences
School of Earth and Ocean Sciences
Faculty of Science

**EOS 503** Units: 1.5
Global Biogeochemical Cycles
Tracks the fate of organic matter from its formation (primary production) through its transformation and destruction during transport, depositional, and diagenetic remineralization processes. Global carbon, nitrogen, phosphorus, and sulphur cycles are discussed. Emphasis is placed on describing the fluxes of nutrients and other major compounds within soils, and the sedimentary and water columns, and across their interface.
**EOS 504**  
**Selected Topics in Geochemistry**  
Topics are selected from the fields of solid earth, organic, marine, atmospheric and planetary geochemistry and biogeochemistry. Examples include geochemical tracers in oceanography and climate, ocean biogeochemical processes, environmental geochemistry, trace element and isotopic geochemistry, hydrosphere-lithosphere interactions and high-temperature geochemistry.  
*Note*: May be taken more than once for credit in different topics.

**EOS 508**  
**Marine Geology**  
A seminar course covering modern processes of marine geology, including depositional processes and diagenesis of marine sediments. Examines a range of depositional environments: fjord and coastal shelf, slope, and oceanic, with consideration of the data obtained from DSOP and ODP drilling.

**EOS 510**  
**Plate Tectonics: the Geological Record**  
An examination of the processes of plate tectonics as revealed by the geological record, including Precambrian evolution of cratons; rifts and passive margins; convergent margins and orogens; plate motions through time.

**EOS 513**  
**Advanced Igneous and Metamorphic Petrology**  
A seminar style course focusing on advanced topics in igneous and metamorphic petrology and how the tools of petrology can be used for geodynamic reconstructions.

**EOS 516**  
**Ocean Acoustics**  
An introduction to the ocean as an acoustic medium, sound sources in the ocean, sound propagation in deep and shallow water, reflection and transmission processes at ocean boundaries, and ambient noise. Particular focuses can include acoustic signal processing, numerical propagation modelling, source localization, and ocean acoustic inversion.  
*Note*: Credit will be granted for only one of EOS 516, EOS 516A.

**EOS 518**  
**Selected Topics in Earth, Ocean and Atmospheric Sciences**  
Examines selected research topic(s) from the fields of geology, oceanography, and/or atmospheric science.  
*Note*: May be taken more than once for credit in different topics.

**EOS 523**  
**Seismology**  
Theoretical and practical aspects of seismic wave propagation, earthquake seismology, and processing and interpretation of reflection and refraction data.

**EOS 525**  
**Research Frontiers in Earth and Ocean Science**  
This interdisciplinary Earth and Ocean Sciences course examines, in detail, global topics that are current, significant and which require input and integration across diverse disciplines. The specific topics change annually and the subject is team-taught by several SEOS/UVic faculty members.

**EOS 526**  
**Geophysical Inverse Theory**  
Inverse theory and its applications in Earth and Ocean Sciences. Topics include non-uniqueness, general linear least-squares, singular-value decomposition, regularization, linearization, global inversion, Bayesian inversion, and Markov-chain Monte Carlo methods. Applications will be drawn from the research literature and include topics such as inversion of seismic, acoustic and geo-electromagnetic data, tomography and matched-field inversion.

**EOS 531**  
**Physical Oceanography**  
Physical properties of sea water, equation of state, gravitational stability, large-scale ocean currents, meridional distribution of salinity and temperature, surface heat budgets, water masses, estuary flows.

**EOS 538**  
**Aqueous Geochemistry and the Environment**  
Major aspects of the global water cycle, sources, sinks of chemical elements present in aquatic systems, weathering reactions, solution geochemistry of oxic and anoxic environments in natural aquatic systems (rainwaters, ground waters, rivers, lakes, estuaries and oceans). Other topics include the application of natural and anthropogenic tracers to geochemical problems with aquatic systems.  
*Note*: Credit will be granted for only one of EOS 538, EOS 423.

**EOS 550**  
**The Climate System**  
Studies of the Earth's climate require an understanding of the intimate links between the hydrosphere, atmosphere, cryosphere and biosphere. Basic theories of the dynamics of ocean and atmosphere. The physics and biogeochemistry of coupled models are examined with emphasis on simple intuition-building mathematical models as well as discussion of large computer models.

**EOS 562**  
**Mathematical Tools for Earth, Ocean and Atmospheric Sciences**  
Selected topics to provide training in mathematical techniques and tools used in ocean and earth systems data analysis and numerical modeling. Examples of topics are time-series analysis, statistical prediction and analysis, and numerical finite-difference, finite-element and spectral modeling techniques.  
*Notes*:  
• May be taken more than once for credit in different topics.  
• May repeated with different content (offered as 562A, 562B, 562C, 562D).

**EOS 580**  
**Directed Studies**  
Designed to enable students to pursue individual interests.  
*Note*: May be taken more than once for credit in different topics.

**EOS 599**  
**MSc Thesis**  
The thesis or dissertation requirement for advanced degrees applies to all students in the School. Students must enrol in 599 in their first term and remain enrolled until their thesis requirements have been completed.  
* Normally 9 units.  
**Grading**: INP, COM, N, F.

**EOS 693**  
**PhD Candidacy Examination**  
Students must enrol in EOS 693 in their first term and remain enrolled until their candidacy requirements have been completed, normally within the first two years of a PhD program. A pre-candidacy committee meeting must precede the formal candidacy exam.  
**Corequisite(s)**: EOS 699.  
**Grading**: INP, COM, N, F.

**EOS 699**  
**PhD Dissertation**  
The thesis or dissertation requirement for advanced degrees applies to all students in the School. Students must enrol in 699 in their first term and remain enrolled until their dissertation requirements have been completed.  
**Corequisite(s)**: EOS 693.  
**Grading**: INP, COM, N, F.

**EPHE**  
**Exercise Science, Physical and Health Education**  
**School of Exercise Science, Physical and Health Education**  
**Faculty of Education**  
**EPHE 500**  
**Research Seminar**  
An examination of contemporary research, theoretical, and practical issues in Exercise Science Physical and Health Education.  
**Grading**: INP, COM, N, F.
EPHE 561 - Units: 1.5
Current Issues in Leisure Services
Addresses the problems, challenges and opportunities facing the recreation-leisure service professional. Focus on concepts, theories and historical framework of leisure; nature and scope of the profession.
Note: Credit will be granted for only one of EPHE 561, PE 561.

EPHE 562 - Units: 1.5
Administrative Planning Process
Examination of the planning process as it exists within federal, provincial, regional and municipal government recreation departments as well as not-for-profit and private sector leisure delivery organizations. Role of the recreation manager-administrator as leader, team member and facilitator.
Note: Credit will be granted for only one of EPHE 562, PE 562.

EPHE 563 - Units: 1.5
Community Leisure Service Development
Exploration of the nature and function of leisure service development as a community-based function. Focus on the development and use of other social service organizational models.
Note: Credit will be granted for only one of EPHE 563, PE 563.

EPHE 570 - Units: 1.5
Skill Acquisition in Physical Education and Sport
A review of learning theories and principles as they pertain to the acquisition and retention of motor skills; the neural mechanisms involved in the learning and control of motor patterns; information processing in human performance; detailed study of research on memory, attention, retrieval systems, and movement control.
Note: Credit will be granted for only one of EPHE 570, PE 570.

EPHE 572 - Units: 1.5
Physiology in Physical Education and Sport
The study of physiological basis for sport performance and fitness. The assessment of physiological status and the rationale for the prescription of exercise programs.
Note: Credit will be granted for only one of EPHE 572, PE 572.

EPHE 573 - Units: 3.0
Research Methods
An overview of the qualitative and quantitative research approaches specific to the various disciplinary areas in the School of Exercise Science, Physical and Health Education. Underlying assumptions of both qualitative and quantitative research are discussed and the respective research processes are reviewed. Other topics include: the role of the researcher, selecting and developing a research problem; reviewing the literature; developing research hypotheses; issues in measurement, data collection issues, writing research proposals; research ethics; and communicating the results of research.
Note: Credit will be granted for only one of EPHE 573, PE 573.

EPHE 574 - Units: 1.5
Administration of Physical Education, Recreation and Sport
After presenting a theoretical base for administrative and organizational theories, a link will be made to specific situations in the fields of physical education, recreation and sport.
Note: Credit will be granted for only one of EPHE 574, PE 574.

EPHE 575 - Units: 1.5
Applied Sport Psychology
Provides students with a further understanding of concepts and principles underlying the field of sport psychology. Provides a basis for the use of mental training techniques such as imagery, self-talk, feedback, and focusing to improve sport performance and experiences.
Note: Credit will be granted for only one of EPHE 575, PE 575.

EPHE 576 - Units: 1.5
Teaching and Coaching Effectiveness in Physical Education and Sport
A review of current models of effective teaching and coaching, observation and coaching systems; analysis of teaching and coaching behaviours; a review of current research.
Note: Credit will be granted for only one of EPHE 576, PE 576.

EPHE 577 - Units: 1.5
Research Methods and Techniques in Coaching Studies
The development of research skills required to interpret the literature related to coaching and sport performance and develop a project proposal as part of the requirements for the degree.

Notes:
• Credit will be granted for only one of EPHE 577, PE 577, PE 577A
• Taught in summer only.
Prerequisite(s): Admission to MEd program in Coaching Studies.

EPHE 578 - Units: 1.5
Biomechanics
Note: Not open to students with credit in PE 578.

EPHE 579 - Units: 1.5
Current Issues in Coaching Studies
Identification and selection of issues in coaching and sport for presentation, discussion and resolution. As leaders in sport, students will consider issues from both a content perspective and in the context of beliefs and values.
Note: Credit will be granted for only one of EPHE 579, PE 577B, PE 579.

EPHE 580 - Units: 1.5
Physiological Issues in Physical Activity and Health
Selected issues and research examining the physiological responses and adaptations to exercise, especially as they relate to performance and/or health.
Note: Credit will be granted for only one of EPHE 580, PE 580.

EPHE 581 - Units: 1.5
Psychological Issues in Physical Activity and Health
Examines selected current psychological issues affecting individual and group involvement in the different forms of physical activity and how these interact with performance and health from childhood to the senior years. Research in the field will be examined to assist the understanding of current beliefs and practices.
Note: Credit will be granted for only one of EPHE 581, PE 581.

EPHE 582 - Units: 1.5
Neuroscience in Physical Activity and Health
A seminar on issues and research in neuroscience related to motor control across the lifespan and in typical and atypical populations.
Note: Credit will be granted for only one of EPHE 582, PE 582.

EPHE 583 - Units: 1.5
Issues in Health Promotion and Wellness
Issues, research and values in health promotion and wellness related to physical activity. Topics may include community-based education in health, recreation and allied social service settings; social determinants of health and physical activity; and theory and practice of programs and policies affecting health, wellness and physical activity.
Note: Credit will be granted for only one of EPHE 583, PE 583.

EPHE 584 - Units: 1.5
Pedagogical Issues in Physical Activity and Health
Current pedagogical research that influences national and provincial physical activity policies, school-based physical education programs and community-based physical activity programs.
Note: Credit will be granted for only one of EPHE 584, PE 584.

EPHE 585 - Units: 1.5
Qualitative Research Genres Applied to Education, Health and Society
Examines issues surrounding the development of research representations that inform issues in education, health and society. A core component of the course will be to develop, gather data and report on a community based inquiry project. Qualitative genres based on different modes of inquiry will be explored and applied in a student developed inquiry project.
Note: Credit will be granted for only one of EPHE 585, PE 585.

EPHE 590 - Units: 1.5 or 3.0
Directed Study
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.
Prerequisite(s): Permission of the school.
EPHE 591  Units: 1.5 or 3.0
Selected Topics in Exercise Science, Physical and Health Education
A variable content course.

Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

EPHE 597  Units: 1.5
Comprehensive Examination - Exercise Science, Physical and Health Education
Comprehensive examination which must be passed as required for individual Master of Education programs within the Faculty of Education.

Note: Credit will be granted for only one of EPHE 597, PE 597.
Grading: INP, COM, N, F.

EPHE 598  Units: 3.0-4.5
Project - Exercise Science, Physical and Health Education

Note: Not open to students with credit in PE 598.
Grading: INP, COM, N, F.

EPHE 599  Units: 7.5-9.0
Thesis - Exercise Science, Physical and Health Education

Note: Not open to students with credit in PE 599.
Grading: INP, COM, N, F.

EPHE 673  Units: 3.0
Doctoral Seminar
Doctoral students will become engaged in the research community, advance the development of their own capacity for research, and gain a deeper understanding and appreciation of multiple approaches to the study of physical activity. Topics include: current research in Exercise Science, Physical & Health Education, critical issues in research, the need for knowledge translation and dissemination, and the critical examination of students' emerging research questions.

EPHE 690  Units: 1.5 or 3.0
Directed Studies
Research topics will be pursued at the doctoral level under the direction of one or more faculty members.

Notes:
• May be taken more than once for credit in different topics to a maximum of 6 units.
• Pro Forma required.

EPHE 693  Units: 3.0
Candidacy Exam - Kinesiology

Grading: INP, COM, N, F.

EPHE 699  Units: 18.0
PhD Dissertation - Kinesiology

Prerequisite(s): EPHE 693.
Grading: INP, COM, N, F.

Environmental Studies
School of Environmental Studies
Faculty of Social Sciences

ES 500  Units: 1.5
Perspectives on Environmental Theories, Methods and Skills I
An examination of contemporary theories, methods and skills that support environmental studies research. Weekly seminars will be preceded by a 3-day field camp in late August/early September (additional cost for field camp).

Note: Required core course.
Prerequisite(s): Admission to a graduate program in Environmental Studies.

ES 501  Units: 1.5
Perspectives on Environmental Theories, Methods and Skills II
Builds on the foundation laid in ES 500, and continues to explore theories, methods and skills appropriate to each student's research program. A retreat is typically scheduled in mid-March (additional cost for field retreat).

Note: Required core course.
Prerequisite(s): Admission to a graduate program in Environmental Studies.

ES 503  Units: 3.0
MA/MSc Research Colloquium
The Graduate Colloquium meets weekly from September to April. Papers are presented by graduate students, faculty, and visiting scholars. The colloquium exposes students to a wide range of conceptual and substantive issues that reflect the breadth and depth of environmental research. Attendance and participation in the colloquium is strongly encouraged throughout the degree program. Students receive 3 units of pass/fail credit during their first year.

Note: Required core course.
Grading: INP, COM, N, F.

ES 570  Units: 1.5
Field Study
Supervised research or organized projects related to environmental problems, supplemented by directed individual study. A formal report is required.

ES 580  Units: 1.5
Seminar in Political Ecology
Flexible topics course offered in a seminar format.

Note: May be taken more than once for credit in different topics to a maximum of 3 units.

ES 581  Units: 1.5
Seminar in Ethnoecology
Flexible topics course offered in a seminar format.

Note: May be taken more than once for credit in different topics to a maximum of 3 units.

ES 582  Units: 1.5
Seminar in Ecological Restoration
Flexible topics course offered in a seminar format.

Note: May be taken more than once for credit in different topics to a maximum of 3 units.

ES 590  Units: 1.5
Directed Studies
Individual studies under the direct supervision of a faculty member. The content and evaluation must be approved by the School.

ES 593  Units: 1.5
Thesis Proposal Preparation
Students will work individually with their supervisor (or co-supervisors) and supervisory committee to develop a thesis proposal. An oral defense of the proposal shall take place no later than September 30th of the student's second year of full-time study or third year of part-time study. An annual research showcase will provide an opportunity for students to present their work in a formal setting. Credit shall be granted upon acceptance of the proposal with revisions (as necessary).

Note: Required core course.
Grading: INP, COM, N, F.

ES 599  Units: 7.5
MA, MSc Thesis
Grading: INP, COM, N, F.

ES 600  Units: 1.5
Advanced Perspectives on Environmental Theories, Methods and Skills I
An advanced examination of contemporary theory and research methods at the forefront of environmental studies research. Emphasis will be given to the intersection of scientific, humanistic, and traditional knowledge. A 3-day field camp will precede weekly seminars in late August/early September (additional cost for field camp).

Notes:
• Required core course.
• Students with credit in ES 500 may be required to substitute ES 600 with another appropriate graduate course at the discretion of the student's PhD committee and graduate adviser.

ES 601  Units: 1.5
Advanced Perspectives on Environmental Theories, Methods and Skills II
Takes a deep approach to different research methods, including qualitative and quantitative approaches, their strengths and weaknesses, rationales for their application, and how they can be combined in interdisciplinary research at the highest levels. PhD students will develop effective written, oral and graphical communication skills and an understanding of the range of ways for gaining reliable knowledge.

Notes:
• Required core course.
• Students with credit in ES 501 may be required to substitute ES 601 with another appropriate graduate course at the discretion of the student's PhD committee and graduate adviser.
### PhD Research Colloquium

The Graduate Colloquium meets weekly from September to April. Papers are presented by graduate students, faculty, and visiting scholars. The colloquium exposes students to a wide range of conceptual and substantive issues that reflect the breadth and depth of environmental research. Attendance and participation in the colloquium is strongly encouraged throughout the degree program. Students receive 3 units of pass/fail credit during their first year. Students will be required to make presentations of their own research.

**Notes:** Required core course.

**Grading:** INP, COM, N, F.

### Forest Biology

#### Department of Biology

#### Faculty of Science

### FORB

#### FORB 515

**Units:** 1.5

**Myology**

**Notes:**
- Credit will be granted for only one of FORB 515, BIOL 415C.
- A combined undergraduate and graduate course.
- Please contact instructor for more information.

### FRAN

#### French

##### Department of French

##### Faculty of Humanities

### FRAN 500A

**Units:** 1.5

Formerly: FRAN 500, FREN 500

**Introduction to Research Methods**

A review of the use of bibliographical tools, forms of citation and documentation. Presentation on research methods and approaches. Training in advanced library research and structuring a research project.

**Notes:**
- Credit will be granted for only one of FRAN 500A, FRAN 500, FREN 500.

### FRAN 500B

**Units:** 1.5

**Application of Research Methods**

Development of professional skills, including academic writing, effective presentation, digital literacy, time management and organisation of scholarly events or workshops.

**Grading:** INP, COM, N, F.

### FRAN 502

**Units:** 1.5

Formerly: FREN 502

**Applied Linguistics in French**

**Notes:**
- Credit will be granted for only one of FRAN 502, FREN 502 (if taken in the same topic).
- May be taken more than once for credit in different topics.
- Variable content course.

### FRAN 503

**Units:** 1.5

Formerly: FREN 503

**Studies in French Linguistics**

**Notes:**
- Credit will be granted for only one of FRAN 503, FREN 503 (if taken in the same topic).
- May be taken more than once for credit in different topics.
- Variable content course.

### FRAN 504

**Units:** 1.5

Formerly: FREN 504

**Studies in Culture and Society**

**Notes:**
- Credit will be granted for only one of FRAN 504, FREN 504 (if taken in the same topic).
- May be taken more than once for credit in different topics.
- Variable content course.

FRAN 505 - GEOG 537

**FRAN 505**

Units: 1.5
Formerly: FREN 505

**Studies in Literary Theory and Criticism**

*Notes:*
- Credit will be granted for only one of FRAN 505, FREN 505 (if taken in the same topic).
- May be taken more than once for credit in different topics.
- Variable content course.

**FRAN 506**

Units: 1.5

**Studies in French Literature and Culture**

*Notes:*
- May be taken more than once for credit in different topics.
- Variable content course.

**FRAN 515**

Units: 1.5
Formerly: FREN 515

**Studies in Québec or French-Canadian Literatures**

*Notes:*
- Credit will be granted for only one of FRAN 515, FREN 515 (if taken in the same topic).
- May be taken more than once for credit in different topics.
- Variable content course.

**FRAN 517**

Units: 1.5
Formerly: FREN 517

**Studies in Francophone African or Caribbean Literatures**

*Notes:*
- Credit will be granted for only one of FRAN 517, FRAN 518, FREN 517, FREN 518 (if taken in the same topic).
- May be taken more than once for credit in different topics.
- Variable content course.

**FRAN 524**

Units: 1.5
Formerly: FREN 524

**Studies in Transmediation**

*Notes:*
- Credit will be granted for only one of FRAN 524, FREN 524 (if taken in the same topic).
- May be taken more than once for credit in different topics.
- Variable content course.

**FRAN 525**

Units: 1.5
Formerly: FREN 525

**Studies in Translation**

*Notes:*
- Credit will be granted for only one of FRAN 525, FREN 525 (if taken in the same topic).
- May be taken more than once for credit in different topics.
- Variable content course.

**FRAN 580**

Units: 1.5
Formerly: FREN 580

**Special Topics**

An examination of topics in an emerging field or one not covered in regular offerings.

*Notes:*
- Credit will be granted for only one of FRAN 580, FREN 580 (if taken in the same topic).
- May be taken more than once for credit in different topics.

**FRAN 590**

Units: 1.5 or 3.0
Formerly: FREN 590

**Directed Studies**

A course designed to enable students to pursue individual interests.

*Notes:*
- Credit will be granted for only one of FRAN 590, FREN 590 (if taken in the same topic).
- May be taken more than once for credit in different topics.
- Pro Forma required.

**FRAN 598**

Units: 4.5
Formerly: FREN 598

**Reading List/Oral**

A reading list compiled in consultation with advisers, a short critical paper, and an oral exam.

*Note:*
Credit will be granted for only one of FRAN 598, FREN 598.

*Grading:*
INP, COM, N, F.

**FRAN 599**

Units: 7.5
Formerly: FREN 599

**Thesis/Oral**

Thesis (topic to be selected in consultation with Graduate Committee as the development of coursework) and oral examination.

*Notes:*
- Credit will be granted for only one of FRAN 599, FREN 599.
- Thesis option is by invitation of the Graduate Committee only.

*Grading:*
INP, COM, N, F.

**GEOG**

**Geography**

**Department of Geography**

**Faculty of Social Sciences**

**GEOG 500A**

Units: 1.5
Formerly: part of GEOG 500

**Geographical Research Approaches**

Examines the diverse approaches to geographical research. Students will participate in weekly seminar discussions and develop a context paper that reviews the geographical literature in their research area. Students are also expected to attend the departmental lecture series as part of their course participation.

*Notes:*
- Credit will be granted for only one of GEOG 500A, GEOG 500.
- Required core course for all students.

**GEOG 500B**

Units: 1.5
Formerly: part of GEOG 500

**Research Design in Geography**

Examines key strategies of research design and professional development in Geography. Students will participate in weekly seminar discussions and develop a master’s research proposal or doctoral scoping document that advances their primary research concentration. Students are also expected to attend the departmental lecture series as part of their course participation.

*Notes:*
- Credit will be granted for only one of GEOG 500B, GEOG 500.
- Required core course for all students.

**GEOG 518**

Units: 1.5

**Advanced Spatial Analysis and Spatial Statistics**

An opportunity to gain theoretical and applied experience in spatial statistics and advanced geographical analysis. Topics include: point pattern analysis, areal data analysis and spatial autocorrelation, and geostatistics (i.e., variograms and kriging). Labs and a final project are designed to provide students with hands on experience applying theory to a range of data sets and to a data set selected by the student.

*Notes:*
- Students who have equivalent GIS experience may request permission to register in the course.
- Master's Program students are required to take one of GEOG 518, GEOG 523, GEOG 524.

*Prerequisite(s):*
- GEOG 328 and GEOG 329; or
- permission of the department.

**GEOG 520**

Units: 1.5

**Introductory GIS for Graduate Research**

Provides Geographic Information Systems (GIS) training for graduate students using GIS as a research tool. Topics include: GIS data types and representation, map projections, importing and exporting spatial data, data integration, attribute and spatial queries. Students completing this course will acquire the skills needed to conduct their own research using GIS.

**GEOG 523**

Units: 1.5

**Qualitative Methods in Human Geography**

This course will explore a range of theoretical and methodological approaches in qualitative analysis as it applies to human geography. Students expect to gain expertise in understanding epistemological orientations of objectivism, constructionism and interpretivism. Identification of a range of traditional and innovative methodologies that students may consider for research projects such as: ethnography, phenomenology, discourse analysis, etc. Common interview strategies and data collection and analysis methods and approaches will be explored.

*Note:*
Masters students are required to take one of GEOG 518, GEOG 523, GEOG 524 or another ‘methods’ based course on recommendation of the supervisory committee as approved by the Graduate Adviser.

**GEOG 524**

Units: 1.5

**Advanced Quantitative Methods**

Examines the use and interpretation of selected multivariate statistics.

*Note:*
Master’s Program students are required to take one of GEOG 518, GEOG 523, GEOG 524.

*Prerequisite(s):* 1.5 units of 200-level STAT course.

**GEOG 536**

Units: 1.5

**Advanced Seminar in Human Geography**

An advanced overview of theoretical approaches and major research paradigms in contemporary human geography.

**GEOG 537**

Units: 1.5

**Advanced Seminar in Physical Geography**

Selected research topics in biogeography, climatology, hydrology, geomorphology and soil science. Course content will vary annually, depending on graduate and faculty research interests. Seminars, faculty and guest lecturers and individual research projects will be utilized.

*Note:*
Credit will be granted for only one of GEOG 537, GEOG 525.
GEOG 538  Units: 1.5  
Advanced Seminar in Geomatics  
Identifies and reviews knowledge and influential thought that have shaped and advanced the science of geomatics and associated technology through time. Students are introduced to the contemporary knowledge in geomatics, areas of application, unresolved questions and the present and future research agenda. Includes presentations by guest lecturers, readings and literature reviews.

GEOG 539  Units: 1.5  
Advanced Seminar in Resource Management  
A seminar dealing with resources management areas currently (or recently) being researched by members of the department. Topics will include: problem formulation, conceptual/literature background, fieldwork/data issues, analytical approaches and results/interpretation.  
Note: Credit will be granted for only one of GEOG 539, GEOG 552.

GEOG 546  Units: 1.5  
Advanced Topics in Human Geography  
A special topics seminar in human and social geography. Topics vary by instructor.  
Notes:  
• May be taken more than once for credit in different topics.  
• Not offered on a regular basis.

GEOG 547  Units: 1.5  
Advanced Topics in Physical Geography  
An examination of contemporary theoretical and/or applied research subjects in physical geography.  
Notes:  
• May be taken more than once for credit in different topics.  
• Not offered on a regular basis.

GEOG 548  Units: 1.5  
Advanced Topics in Geomatics  
An examination of contemporary theoretical and/or applied research subjects in geomatics.  
Notes:  
• May be taken more than once for credit in different topics.  
• Not offered on a regular basis.

GEOG 549  Units: 1.5  
Advanced Topics in Resource Management  
A seminar dealing with conceptual and research design issues involved with a project or problem area in resource management of interest to a faculty member.  
Notes:  
• May be taken more than once for credit in different topics.  
• Not offered on a regular basis.

GEOG 590  Units: 1.5  
Directed Studies in Geography  
Note: MA, MSc and PhD students may only take one GEOG 590 course as part of their minimum program requirements. If they wish to take additional GEOG 590 courses these can be added to their minimum course load. Individual titles will be assigned to each numbered section of the course arranged by supervisory committees.

GEOG 591  Units: 1.5  
Advanced Topics in Geography  
Various advanced special topics courses spanning the discipline of Geography.  
Note: Master’s and Doctoral students may take only one GEOG 591 towards their minimum course requirements but may take additional courses in different topics beyond their minimum load on the advice of their supervisory committee.

GEOG 599  Units: to be determined  
MA, MSc Thesis  
Grading: INP, COM, N, F.

GEOG 693  Units: 3.0  
Candidacy Examination  
By eighteen months of registration as a provisional doctoral student, a student must register for and eventually pass a candidacy examination. The candidacy exam format includes two take home essays (max. 30 pages each) and an oral exam (max. 2 hours). Essay 1 will focus on the development of thought in the candidate’s area of Geography (e.g., Physical, Human, Geomatics, or Resources) with an emphasis on linkages to the broader discipline. Essay 2 will focus on the candidate’s research area. An oral examination will follow within 2 to 3 weeks after the completion of Essay 2.  
Grading: INP, COM, N, F.

GEOG 699  Units: to be determined  
PhD Dissertation  
Prerequisite(s): GEOG 693.  
Grading: INP, COM, N, F.

GMST 503  Units: 1.5  
Teaching in the Disciplines of Germanic and Slavic Studies  
A practice-based introduction to course design, teaching strategies, methodologies and assessment tools in the teaching areas of Germanic and Slavic Studies.  
Note: Credit will be granted for only one of GMST 503, SLST 503.

GMST 505  Units: 1.5  
Advanced German Language Study  
Research topics may include German morphology, phonetics, lexicology and language acquisition.

GMST 509  Units: 1.5  
Also: SLST 509  
Special Topics Field School  
Exploration of cultural studies topics in European, German-speaking or Slavic countries. Promotes intercultural and experiential learning through joint workshops with European students and field research working at relevant cultural sites and with relevant artefacts. Topics vary.  
Note: May be taken more than once for credit in different topics.

GMST 511  Units: 1.5  
Studies in Film  
A critical analysis and study of films of the 20th and 21st century by German-speaking filmmakers.

GMST 520  Units: 1.5  
Formerly GER 520  
17th-Century Cultural Studies  
Note: Credit will be granted for only one of GMST 520, GER 520.

GMST 521  Units: 1.5  
Studies in Germanic Literatures and Cultures  
Examination of literary works and cultural processes in Austria, Germany and/or Switzerland.

GMST 530  Units: 1.5  
Formerly GER 530  
18th-Century Cultural Studies  
Note: Credit will be granted for only one of GMST 530, GER 530.

GMST 531  Units: 1.5  
Studies in Germanic Cultural History  
A cultural studies approach to texts, films, performances, media and material objects and spaces in German-speaking societies.

GMST 540  Units: 1.5  
Formerly GER 540  
19th-Century Cultural Studies  
Note: Credit will be granted for only one of GMST 540, GER 540.

GMST 550  Units: 1.5  
Formerly GER 550  
20th-Century Cultural Studies I  
Note: Credit will be granted for only one of GMST 550, GER 550.
GMST 551 Units: 1.5
Formerly: GER 551
20th-Century Cultural Studies II
Note: Credit will be granted for only one of GMST 551, GER 551.

GMST 561 Units: 1.5
Transnational Cultural Studies
Examines contemporary texts and visual productions by migrant and immigrant authors, filmmakers and performance artists in Germany, Austria and Switzerland. Topics may include minority literature and film, hybridity, diasporic and borderland writing.
Note: Credit will be granted for only one of GMST 561, GMST 550 (if taken in Sep-Dec 2013), GMST 560, ENGL 503 (if taken as section A05 in Jan-Apr 2010 or Sep-Dec 2013), GER 550 (if taken in Jan-Apr 2010).

GMST 565 Units: 1.5
Adorno, Benjamin and Frankfurt School Critical Theory
Explores Frankfurt School Critical Theory through the cultural context of Weimar modernism through the fascist period to Germany in the 1960s. Juxtaposes the theory with relevant examples from media, film, literature, avant-garde and popular music.
Note: Credit will be granted for only one of GMST 565, GMST 465.

GMST 570 Units: 1.5
Also: SLST 570
Studies in New Media in Second Language Acquisition
Critical examination of the current research on teaching a foreign language. Focus on learning and teaching outside of the language environment, foreign language learning theories, teaching methodologies and practices.
Note: Credit will be granted for only one of GMST 570, SLST 570.

GMST 580 Units: 1.5
Also: HSTR 450
The Holocaust
Examines the origins, progression, central characters and legacies of the Nazi genocide. Focuses on Jewish experiences of Nazi terror and investigates how Nazi racial policy targeted other social and ethnic groups. Considers the post-1945 representation of the Holocaust in film, museum exhibits and memorials.
Note: Credit will be granted for only one of GMST 580, HSTR 450, HIST 387, HIST 389 (if taken in the same topic).

GMST 581 Units: 1.5 Hours: 3-0-0
Holocaust Studies in Cross-Cultural Contexts
Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units.

GMST 582 Units: 1.5 Hours: 3-0-0
Special Topics in Holocaust Studies
Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units.

GMST 583 Units: 1.5
Teaching About the Holocaust
Introduces teaching approaches, methodologies and scholarly discourses in Holocaust Education. Analyzes a broad range of primary and secondary sources (oral testimonies, literature, film, mixed media art, photography and graphic novels), and discusses how they can be used in various educational settings both in Europe and North America.

GMST 584 Units: 1.5 Hours: 3-0-0
Also: GMST 484
Holocaust Testimony and Archival Practice
Working with actual testimony from the USC Shoah Foundation, explores theoretical and practical aspects of indexing and conceptualizing Holocaust narratives and testimony.
Note: Credit will be granted for only one of GMST 584, GMST 484.

GMST 585 Units: 1.5
Holocaust and Memory Studies
Explores issues of memory from the perspective of both gender and genre. Examination of issues of memory and post-memory, aspects of “truth” and positonality in memoirs, letters, diaries and documentaries, as well as the fascination with the Holocaust and WWII as a site of cultural memory.
Note: Credit will be granted for only one of GMST 585, ENGL 503 (if taken as section A04 in Sep-Dec 2010), GER 550 (if taken as section A01 in Sep-Dec 2010 or Sep-Dec 2012).

GMST 587 Units: 1.5
Practicum in Holocaust Studies
An individually designed creative project, internship, or archival research paper based on a hands-on approach to Holocaust Studies.
Grading: INP, COM, N, F.

GMST 589 Units: 1.5
I-witness Field School
Analysis of the ways in which the Holocaust is memorialized in Central Europe. One week of coursework at Uvic, followed by three weeks in Central Europe. Promotes intercultural learning through a variety of activities including joint workshops with European students and visits to memorial sites, museums and monuments of the Holocaust.

GMST 590 Units: 1.5
Formerly: GER 590
Directed Studies I
Notes:
• Credit will be granted for only one of GMST 590, GER 590.
• Pro Forma required.

GMST 591 Units: 1.5 or 3.0
Formerly: GER 591
Directed Studies II
Notes:
• Credit will be granted for only one of GMST 591, GER 591.
• Pro Forma required.

GMST 598 Units: 4.5
Research Paper or Project
A major research paper under the guidance of a supervisor and committee member. Students can also opt to submit a visual arts project, a performance-based production, or a creative writing project.
Grading: INP, COM, N, F.

GMST 599 Units: 6.0-9.0
Thesis
Note: Credit will be granted for only one of GMST 599, GER 599
Grading: INP, COM, N, F.

GRS

Greek and Roman Studies
Department of Greek and Roman Studies
Faculty of Humanities

GRS 500 Units: 1.5
Pro-seminar in Research Methods and Practices
Advanced research methods and issues including on-line research and other resources. Dissemination of research and preparation for publication, including communication skills, presentation of research results either orally or in print, critical analysis, and response to scholarly questions. Best procedures for writing and preparing applications for grants, fellowships and employment. Approaches to professional academic life including practices of the discipline.
Grading: INP, COM, N, F.

GRS 501 Units: 3.0
Greek Literature

GRS 502 Units: 3.0
Greek History

GRS 503 Units: 3.0
Latin Literature

GRS 504 Units: 3.0
Roman History

GRS 505 Units: 3.0
Ancient Art and Archaeology

GRS 506 Units: 3.0
Ancient Philosophy

GRS 590 Units: 1.5-3.0
Directed Individual Study
Notes:
• May be taken more than once for credit in different topics to a maximum of 4.5 units.
• Pro Forma required.

GRS 599 Units: 6.0-9.0
MA Thesis
Note: Before beginning the thesis the candidate must arrange with the supervisory committee and the Graduate Adviser the number of units to be assigned.
Grading: INP, COM, N, F.
GS 601A - HINF 503

**GS 601A**
Units: 1.5
Readings in Classical Literature (Greek)
Grading: INP, COM, N, F.

**GS 601B**
Units: 1.5
Readings in Classical Literature (Latin)
Grading: INP, COM, N, F.

**GS 602A**
Units: 1.5
Readings in Ancient History (Greek)
Grading: INP, COM, N, F.

**GS 602B**
Units: 1.5
Readings in Ancient History (Latin)
Grading: INP, COM, N, F.

**GS 603**
Units: 1.5
Reading in Classical Archaeology
Grading: INP, COM, N, F.

**GS 605**
Units: 1.5
Archaeological Methods & Theory

**GS 611**
Units: 3.0
Seminar in Classical Literature

**GS 612**
Units: 3.0
Seminar in Ancient History

**GS 613**
Units: 3.0
Seminar in Classical Archaeology

**GS 621**
Units: 3.0
Topical Field in Classical Literature
An intensive study of a particular field (author, genre, time period) in Greek or Roman literature.

**GS 622**
Units: 3.0
Topical Field in Ancient History
An intensive study of a particular field (time period, historical event, historical figure, historical topic) in Greek or Roman history.

**GS 623**
Units: 3.0
Topical Field in Classical Archaeology
An intensive study of a particular field (time period, archaeological event, archaeological topic) in Greek or Roman archaeology.

**GS 693**
Units: 3.0
Candidacy Exam
Students enroll in 693 after completing their topical fields requirements (GS 621, 622, or 623).
Grading: INP, COM, N, F.

**GS 699**
PhD Dissertation
Units: 18.0
Grading: INP, COM, N, F.

**HINF**

**HINF 501**
Units: 1.5
Database Design
Addresses the issues facing a database designer in the development of database applications appropriate for health data of various kinds. The content includes the elements of conceptual, implementation and physical database design to support health information systems.
Note: Credit will be granted for only one of HINF 501, HINF 591 (if taken in the same topic).

**HINF 503**
Units: 1.5
Research Methods in Health Informatics
Examines a variety of study designs used in health informatics and outcomes research. These include experimental designs, observational and predictive studies, and qualitative inquiries. For each study design, appropriate analytical approaches and reporting guidelines will be covered.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Units</th>
<th>Course Title</th>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>HINF 511</td>
<td>1.5</td>
<td>Clinical Decision Support and Information Systems</td>
<td>Examines clinical information systems (CIS), and clinical decision support (CDS) tools that will help them make informed decisions within their organization and participate in strategic planning activities. Includes: description and evaluation of CIS and CDS, effectiveness of CIS and CDS interventions, policies affecting CIS and CDS deployments, and health information standards pertinent to CIS standards.</td>
</tr>
<tr>
<td>HINF 516</td>
<td>1.5</td>
<td>Telehealth, m-Health and Pervasive Health Technology</td>
<td>Reviews historical context of telehealth, m-health and pervasive health technologies and current use. Explores current applications and innovations in telehealth, m-health and pervasive health technologies with an emphasis on program evaluation.</td>
</tr>
<tr>
<td>HINF 520</td>
<td>1.5</td>
<td>Public Health Informatics</td>
<td>Provides a discussion of new trends and applications in public health informatics. Topics include: data requirements, public health surveillance systems and regional and national health information reporting systems. Linking public health information through electronic health records will be considered. Design of information systems used by consumers and Internet-based public health information systems will be discussed. Future directions and the roles of health professionals and health informaticians in public health informatics will be presented.</td>
</tr>
<tr>
<td>HINF 530</td>
<td>1.5</td>
<td>Evidence-Based Health Informatics</td>
<td>Understanding evidence in health informatics is critical to advancing the field. Students will be introduced to varying methods of examining research evidence in health informatics. More specifically, students will learn about differing methods for analyzing, understanding and summarizing evidence such as systematic reviews, meta analyses, meta-narrative reviews, ethnographic reviews, scoping reviews and other methods. Students may wish to explore differing topics within the context of their research interests.</td>
</tr>
<tr>
<td>HINF 531</td>
<td>1.5</td>
<td>Healthcare Information Security and Privacy</td>
<td>An advanced review of security, privacy and confidentiality of healthcare information systems. Students will learn about healthcare information regulation, information risk decision making, cybersecurity and privacy management and methods for protecting digital health information. The course will include policy related, technical and legal aspects of healthcare information security and privacy.</td>
</tr>
<tr>
<td>HINF 535</td>
<td>1.5</td>
<td>Health Information Standards</td>
<td>The study of health information standards deployed and used in Canada and elsewhere. The standards to be examined are controlled terminology and data exchange standards that include SNOMED CT, ICD-10-CA/CCI, LOINC, nursing terminologies, HL7V2.x, HL7V3/CDR, FHIR and IHE. The topics to be addressed include the nature of standards, their historical evolution and lifecycles for standards from initial development, distribution to maintenance.</td>
</tr>
<tr>
<td>HINF 536</td>
<td>1.5</td>
<td>Controlled Terminology Standards</td>
<td>Examines the adoption and management of controlled terminologies in health care organizations. In terminology adoption it covers the planning, design, implementation, use, support and evaluation of terminologies in health IT applications. Terminology management covers the development, publishing, distribution and maintenance of terminology content, services and tools as organizational assets. Examples of terminologies to be covered include SNOMED CT, ICO-10-CA/CCI, LOINC, NDC/PDP/ATC/CI RxNorm and nursing terminologies. Prerequisite(s): HINF 535.</td>
</tr>
<tr>
<td>HINF 537</td>
<td>1.5</td>
<td>Health Information Exchange Standards</td>
<td>Examines the appropriate use of controlled terminologies in the adoption of health information exchange (HIE) standards in health care organizations. Covers the entire standards lifecycle in planning, development, implementation, use, maintenance and evaluation of HIE standards, resources and tools. Examples of HIE standards to be covered include HL7, CDA, FHIR, DICOM, templates, IHE integration profiles, clinical information models and openEHR. Prerequisite(s): HINF 535.</td>
</tr>
<tr>
<td>HINF 550</td>
<td>1.5</td>
<td>Electronic Health Record</td>
<td>Describes the EHR initiatives underway in Canada and around the world. Assesses the compatibility of selected provincial initiatives with the federal level EHR intentions. Examines Canadian EHR experiences with those in the United States and other parts of the world. Identifies the issues and challenges to the wide spread introduction of EHRs across the Canadian health care system.</td>
</tr>
<tr>
<td>HINF 551</td>
<td>1.5</td>
<td>Evaluation of e-Health</td>
<td>Practical insights and understanding of an evaluation process for e-health initiatives. Includes assessing the effectiveness of e-health programs, evaluation design, data collection and analysis, as well as recommendations to assist decision-makers.</td>
</tr>
<tr>
<td>HINF 552</td>
<td>1.5</td>
<td>Patient Safety and Quality in Health Informatics</td>
<td>Presents how health information technologies, methods, approaches and techniques can improve the quality and safety of citizen care from hospital through to the home and community. Covers how health technologies and the processes used to design, develop, implement and maintain them ensure ongoing systems safety. Challenges and issues in developing healthcare information systems that reduce errors and do not inadvertently introduce new errors will be discussed.</td>
</tr>
<tr>
<td>HINF 560</td>
<td>1.5</td>
<td>Project Management in Health Informatics</td>
<td>An introduction to the essentials of project management and the project life cycle. Students will also cover information technology management and change management knowledge areas as related to healthcare information technology project management. Course topics include project lifecycle management, and all project processes including: project charter, network diagramming, schedule management, cost management, risk management, issue management, change management, scheduling and schedule management.</td>
</tr>
<tr>
<td>HINF 561</td>
<td>1.5</td>
<td>Procurement in Health Informatics</td>
<td>An introduction to the procurement process in health informatics. Covers key decision making aspects in the analysis and selection of health information systems. An important goal is to have students appreciate the dynamics and compromises which take place when a healthcare authority/facility selects information technology to primarily support its work practices.</td>
</tr>
<tr>
<td>HINF 562</td>
<td>1.5</td>
<td>Epidemiology and Public Health Informatics</td>
<td>Examines the principles and methods of epidemiology. Focuses on the design, implementation and execution of epidemiological analyses using health information applications applied to health services planning, policy formulation, disease outbreak management and population health assessment. Covers integration of multiple data sources for aggregate analysis. Includes an introduction to public health informatics.</td>
</tr>
<tr>
<td>HINF 563</td>
<td>1.5</td>
<td>Health Systems Data Analytics</td>
<td>Examines the major health system databases and how they can be analyzed to create an understanding of health issues and problems that can be used for strategic planning, ongoing program management, evaluation and visualization. By working with real data and real problems, students will learn basic tools and methods of health system data science and analytics.</td>
</tr>
<tr>
<td>HINF 564</td>
<td>1.5</td>
<td>Health Informatics: An Overview</td>
<td>An overview of current developments, issues and challenges in the emerging field of health informatics. Historical development of the field will be covered. Addresses basic foundations of health informatics, including the field's theoretical and methodological underpinnings. Considers a range of emerging applications in health informatics as well as approaches to understanding and evaluating these innovations.</td>
</tr>
</tbody>
</table>
HINF 573 - Units: 1.5
Applied Biostatistics
A computer laboratory course primarily designed to provide practical experience in running SPSS software, interpreting output and presenting findings in Figures and Tables, suitable for publications or dissertations. Topics include: understanding statistics, data management and cleaning, recode and compute statements, scale development (Cronbach’s alpha), t-tests, chi-square analyses, correlation and logistic regression. The skills learned are those commonly used in quantitative research for health and social sciences.

HINF 574 - Units: 1.5
Modelling and Simulation in Healthcare
Examines a range of systems modeling tools and methodologies for dealing with complex health care systems. Uses systems thinking as a means of tackling health care domain problems where it involves interaction of many professionals across large complex organization structure. Includes qualitative and quantitative model building.

Note: Credit will be granted for only one of HINF 574, HINF 591 (if taken in the same topic).

HINF 575 - Units: 1.5
Human Factors in Healthcare
Introduces a framework for considering human factors in health informatics. Includes study of human-computer interaction in the design of a range of health informatics applications, user analysis, workflow modeling, consideration of methods of evaluating system usability and socio-technical aspects of successful healthcare system design. In addition, approaches to the design of systems that are safe and that reduce human error in healthcare will be emphasized.

HINF 580 - Units: 1.5
Health Informatics Graduate Seminar
Key themes, issues and trends in Health Informatics. Consists of presentations by faculty and students on different Health Informatics subject areas.

HINF 590 - Units: 1.5
Directed Studies in Health Informatics
An opportunity to pursue directed readings or a project under the supervision of a faculty member. Students may take this course up to a maximum of two times throughout the program.

Note: A student’s supervisor can instruct only one directed studies course.

HINF 591 - Units: 1.5
Topics in Health Informatics
Advanced topics in various areas of health informatics. Topics vary depending on faculty interests and availability. Students may take this course more than once.

HINF 595 - Units: 1.5 or 3.0
Informatics Research Practicum
Provides hands-on, mentored experiences with several aspects of faculty-based research, for example, the conceptualization of a study, study design, applying for funding, obtaining ethical approval, accessing the study sites, collecting and analyzing data, writing and knowledge translation.

Notes:
• Arranged with a specific faculty member.
• May be taken as a one- or two-term course for a maximum of 3.0 units.

Grading: HINF, COM, N, F.

HINF 597 - Units: 1.5
Field Project in Health Informatics
The student is required to carry out an independent field project within his/her field of specialization under the supervision of a faculty member.

Prerequisite(s): Admission to the Graduate Certificate in Health Terminology Standards.

HINF 598 - Units: 3.0
Research Project
The student is required to conduct a major research project in health informatics under the supervision of a faculty member.

Grading: HINF, COM, N, F.

HINF 599 - Units: 6.0
Health Informatics Thesis
The thesis provides the student with the opportunity of conducting original research and interpretation of those results in Health Informatics.

Grading: HINF, COM, N, F.

HINF 602 - Units: 1.5
Theories in Health Informatics
Advanced course on scientific theories relevant to health informatics. Faculty will assign key readings from health informatics, information systems, computer science and related disciplines. Students will: demonstrate the principles of theory and conceptual framework development for use in research; present critical appraisals of conceptual models and theoretical frameworks used in existing research and apply them to health informatics; and may identify an appropriate theory or conceptual model to incorporate into their subsequent dissertation research.

HINF 603 - Units: 1.5
Methods in Health Informatics
Advanced course on methodologies that are relevant to health informatics. Faculty will assign key readings drawn from health informatics, information systems, computer science and related disciplines. Students are expected to present and critique the papers and to discuss their relevance to the health informatics discipline. Through this course students may select a method for incorporation in their dissertation research.

HINF 680 - Units: 1.5
Health Informatics PhD Seminar
Key themes, issues, and trends in Health Informatics. Consists of presentations by faculty and students on different Health Informatics subject areas.

HINF 693 - Units: 3.0
Candidacy Exam
Students enroll in 693 for the duration of their preparations for their candidacy examinations. This begins at the time a student first enrolls in the PhD program and continues until candidacy requirements have been completed, normally at the end of first year of program.

Grading: INP, COM, N, F.

HINF 699 - Units: 30.0
Dissertation
Prerequisite(s): HINF 693.
Grading: INP, COM, N, F.

HSD - Human and Social Development

Interdisciplinary Courses

HSD 580 - Units: 1.5 or 3.0
Special Topics in Human and Social Development
A variable content course focusing on the policy, practice and/or research interests of faculty and students in the Faculty of Human and Social Development.

Notes:
• May be taken more than once for credit in different topics.
• May be offered as a joint undergraduate and graduate class.

HSD 590 - Units: 1.5-3.0
Directed Studies
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registering in this course.

Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

HSTR - History

Department of History

HSTR 500 - Units: 1.5
Formerly: HIST 500
Histotography
Surveys the diverse answers given to the question, “What is history?” Exploration of the nature of historical knowledge through examination of major changes in theory, method and practice within the discipline. Students articulate their understanding of what being an historian entails. Specific topics covered may vary with the instructor.

Note: Credit will be granted for only one of HSTR 500, HIST 500.
HSTR 501  Units: 1.5  
American History  
New and classic readings in the history of Colonial America and the United States. Themes include indigenous societies, conquest, gender, religion, race, slavery, sexuality, politics and economy.  
Note: Credit will be granted for only one of HSTR 501, HSTR 501A, HSTR 501B, HIST 501A, HIST 501B.

HSTR 502A  Units: 1.5  
Formerly: HIST 502A  
Early Modern British History  
Social, cultural and political history of early modern England, with an emphasis on the 17th century. Topics include crime and print culture, the British Civil Wars, the execution of Charles I, radical religion and the Interregnum, patriarchy and authority, class conflict and social hierarchy, parents and children, marriage and gender. Provides advanced students a survey of some of the main primary sources, important secondary works and historiographical issues.  
Note: Credit will be granted for only one of HSTR 502A, HIST 502A.

HSTR 502B  Units: 1.5  
Formerly: HIST 502B  
Modern British History  
Social, cultural and political history of modern England. Topics may include government and the state, war and society, crime and punishment, monarchy, and elite and popular cultures. Provides advanced students a survey of some of the main primary sources, important secondary works and historiographical issues.  
Note: Credit will be granted for only one of HSTR 502B, HIST 502B.

HSTR 503A  Units: 1.5  
Formerly: HIST 503A  
Pre-1900 Canadian History  
Provides an in-depth look at historical writing about pre-1900 Canada. Explores a variety of historical approaches and covers a number of major topics in the field. Topics may include indigenous histories, First Nations-settler encounters, politics and war, rural and urban experiences, liberalism and the state, and issues of race, religion, gender and class. Focus on historiographical and analytical skills.  
Note: Credit will be granted for only one of HSTR 503A, HIST 503A.

HSTR 503B  Units: 1.5  
Formerly: HIST 503B  
Post-1900 Canadian History  
Examines historical writing about 20th century Canada, taking a chronological and thematic approach to recent literature. Topics may include: gender and the family, law and moral regulation, work, the environment, First Nations, politics and the state, nationalisms and regionalisms, and the experience and commemoration of war. Focus on historiographical and analytical skills.  
Note: Credit will be granted for only one of HSTR 503B, HIST 503B.

HSTR 504A  Units: 1.5  
Formerly: HIST 504A  
Europe, 1500-1800  
Advanced study of the transformation of European society and culture during the early modern period. May take a topical or temporal focus.  
Note: Credit will be granted for only one of HSTR 504A, HIST 504A.

HSTR 504B  Units: 1.5  
Formerly: HIST 504B  
Europe since 1800  
Advanced study of the transformation of European politics, society and culture in the modern era. May take a topical or temporal focus.  
Note: Credit will be granted for only one of HSTR 504B, HIST 504B.

HSTR 505  Units: 1.5  
Formerly: HIST 514, HIST 514  
World History  
Examines recent contributions to the field of world history that allow both for focussed study of particular themes as well as the exploration of broader historiographical and theoretical debates. Students are encouraged to pursue their own particular interests in the subject.  
Note: Credit will be granted for only one of HSTR 505, HSTR 514, HIST 514.

HSTR 506  Units: 1.5  
Formerly: HIST 506A, HIST 506B, HIST 506A, HIST 506B  
Medieval Europe  
The major fields, sources and approaches in medieval history and medievalism.  
Note: Credit will be granted for only one of HSTR 506, HIST 506A, HIST 506B, HIST 506A, HIST 506B.

HSTR 507  Units: 1.5  
Latin America 1492-1900  
Studies the historiographical debates concerning possession and representation in Latin America from contact to the early national period. Topics include resistance and accommodation to colonialism, Creole patriotism, and the creation of rhetorics of pluri-ethnic nationalism.  
Note: Credit will be granted for only one of HSTR 507, HSTR 507.

HSTR 508A  Units: 1.5  
Also: HIST 508A  
China in Local and Global History  
Examines the local history and global networks of Tibet, Taiwan, and Hong Kong as well as the North China Plain (around Beijing), the Yangzi River Delta (around Shanghai), and the Pearl River Delta (around Canton) in China up to the mid-20th century. Emphasis on both local and global approaches to the six regions and to modern China beyond the limits of its nation-state history.  
Note: Credit will be granted for only one of HSTR 508A, HIST 508A, HIST 508A, (if taken as A01 in Jan-Apr 2015), HIST 435A, HIST 439 (if taken as A01 in Sept-Dec 2011), HIST 508A.

HSTR 508B  Units: 1.5  
Also: HIST 508B  
A Global History of the Chinese Overseas  
Examines the diasporic experiences of Chinese migrants in Indonesia, the Philippines, the United States and other regions. Emphasis on the transnational identities of the Chinese overseas. May include exploration of the diasporic experiences of African, Indian and other Asian migrants in the global arena.  
Note: Credit will be granted for only one of HSTR 508B, HIST 508B, HIST 481, HIST 451.

HSTR 509A  Units: 1.5  
Formerly: HIST 509A  
Modern Japanese History  
A survey of historiographical issues in Japanese history from the end of Tokugawa to the present day. Examines the debates regarding peasant struggles in late Tokugawa, the impact of imperial arrivals in the 1850s, the nature of the Meiji restoration, migration and the rise of Japanese imperialism, and the national polity in the interwar years. Concludes with World War II and Japan’s occupation and subsequent economic transformations.  
Note: Credit will be granted for only one of HSTR 509A, HIST 509A.

HSTR 509B  Units: 1.5  
Formerly: HIST 509B  
Migration, Race and Empire: Canada and the Transpacific  
Brings together the histories of the Pacific and British Columbia using a translocal lens to analyze critically the intersections between race, colonialism and indigeneity from 1840 to the 1950s. Specific attention to Asian Canadian experiences on Vancouver Island and the impact of conflicting empires (British, American and Japanese). Utilizes critical anti-racist and feminist theory, and offers possibilities for innovative public history projects and community-based, action research.  
Note: Credit will be granted for only one of HSTR 509B, HIST 509B.

HSTR 511  Units: 1.5  
Formerly: HIST 511  
Military History  
Examines historiographical issues in military history. Themes include: technology and science and war; social and cultural history of war and society; the evolution of military organization and military techniques; intellectual and philosophical writing on war and armed forces; military intelligence; history of air power, and naval and maritime affairs.  
Note: Credit will be granted for only one of HSTR 511, HIST 511.

HSTR 512  Units: 1.5  
Formerly: HIST 512  
Intelectual History  
Advanced study of intellectual history. Topics to be explored may include the history of intellectual history, the similarities and differences between intellectual history and other genres of historical analysis, the role of atheism and disbelief in early modern Europe and Enlightenment in Europe.  
Note: Credit will be granted for only one of HSTR 512, HIST 512.
**HSTR 513 - HSTR 599**

**HSTR 513**  
Units: 1.5  
Formerly: HIST 513  
**History of Gender, Sexuality and the Body**  
Explores selected topics in gender history, the history of sexuality and the history of the body and addresses current theoretical and methodological debates within these fields. Focus is primarily on American history, although Canadian and British readings may be included. Explores shifting understandings of femininity, masculinity and sexualities, as well as relationships between gender and class, race, ethnicity, religion, sexualities and the body.  
**Note:** Credit will be granted for only one of HSTR 513, HIST 513.

**HSTR 515A**  
Units: 1.5  
Formerly: HIST 515A  
**Public History**  
Provides an overview of the branch of the discipline that involves communicating the past to non-academic audiences and analyzing applications of history outside of the university. Students meet practitioners of public history, making professional contacts and exploring non-academic applications of their training. Connected with these practical activities are analytical questions as they contemplate how history can be carried outside the academy, students also discuss its purpose, importance and meaning.  
**Note:** Credit will be granted for only one of HSTR 515A, HIST 515A, HIST 519 (if taken in the same topic).

**HSTR 516**  
Units: 1.5  
Formerly: HIST 516  
**Digital History**  
Explores specific computing applications used in the field known as "digital history," and how digital history is changing the way we think about History and the past. Emphasis on student projects, student presentations and discussions of selected readings on the big questions facing the discipline, including "Is this really a revolution?"  
**Note:** Credit will be granted for only one of HSTR 516, HIST 516.

**HSTR 517**  
Units: 1.5  
Formerly: HIST 517  
**Cultural History and Theory**  
Explores the theory and practice of cultural history, focusing on culture as topic and as methodology. Students examine the approaches of cultural historians who either seek out new sources, or read traditional sources against the grain to provide answers to new questions. Themes may include: ritual, symbolism and meaning; objects and representation; colonialism and difference; popular culture, storytelling and language. Time period and geographical focus vary with the research area of the instructor.  
**Note:** Credit will be granted for only one of HSTR 517, HIST 517.

**HSTR 518**  
Units: 1.5  
Formerly: HIST 518  
**Political History**  
Examines the evolution of the state and the negotiation of power in North America. Topics may include federalism, party and bureaucratic developments, mass media and politics, and political leadership.  
**Note:** Credit will be granted for only one of HSTR 518, HIST 518.

**HSTR 519**  
Units: 1.5  
Formerly: HIST 519  
**Special Topics**  
**Notes:**  
- Credit will be granted for only one of HSTR 519, HIST 519 (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**HSTR 521A**  
Units: 1.5  
Formerly: HSTR 521, HIST 521  
**Medieval Law and Administration**  
The origins and development of Western European civil, canon and common law. The history of law and jurisprudence, of the relationships of law and society and of the role of law in the growth of governance and order. Direct work on legal texts and records.  
**Note:** Credit will be granted for only one of HSTR 521A, HSTR 521, HIST 521.

**HSTR 521B**  
Units: 1.5  
Formerly: HSTR 521, HIST 521  
**British Legal History**  
Social, cultural and political history of the law in England. Topics include crime, policing, the administration of justice, and punishments. Intended to give advanced students a general introduction to some of the main primary sources, important secondary works and historiographical issues.  
**Note:** Credit will be granted for only one of HSTR 521B, HSTR 521, HIST 521.

**HSTR 522**  
Units: 1.5  
Formerly: HIST 522  
**The Social History of Religion**  
Explores selected topics in the social history of religion in the context of Canada, the United States and Britain in the nineteenth and twentieth centuries. Focuses on Christianity, but also touches on other faith traditions. Topics to be explored may include popular religion, religion and mass culture, spirituality, colonialism, secularization, immigration and assimilation, religion and health, religious conflicts and prejudices and issues of class, race, gender, sexuality and family life as they relate to religion.  
**Note:** Credit will be granted for only one of HSTR 522, HIST 522.

**HSTR 523**  
Units: 1.5  
Formerly: HIST 523  
**History of Science and Technology**  
Advanced study of the history of science. Topics to be explored may include history of the history of science, the Scientific Revolution, the rise of the ‘science of man’ in early modern Europe, science and Enlightenment, science and religion, and science and society in Britain, 1600-1945. May include topics in the history of technology.  
**Note:** Credit will be granted for only one of HSTR 523, HIST 523.

**HSTR 526**  
Units: 1.5  
Formerly: HIST 526  
**Ethnohistory**  
Examines the major issues facing ethnohistorians generally but with an emphasis on ethnohistory with respect to Indigenous peoples.  
**Note:** Credit will be granted for only one of HSTR 526, HIST 526.

**HSTR 528**  
Units: 1.5  
Formerly: HIST 528  
**Field School in Ethnohistory**  
Experiential and community-based. Students move to the host First Nation’s community to work on research the community has prioritized. Four weeks are spent in the community followed by four weeks to complete the research project.  
**Note:** Credit will be granted for only one of HSTR 528, HIST 528.

**HSTR 550**  
Units: 1.5  
Formerly: HIST 550  
**Research Methods for Masters Project**  
**Note:** Credit will be granted for only one of HSTR 550, HIST 550.  
**Prerequisite(s):** Permission of the department.

**HSTR 590**  
Units: 1.5 or 3.0  
Formerly: HIST 590  
**Directed Reading Geographical Field**  
**Notes:**  
- Credit will be granted for only one of HSTR 590, HIST 590 (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**HSTR 591**  
Units: 1.5 or 3.0  
Formerly: HIST 591  
**Directed Reading - Topical Field**  
**Notes:**  
- Credit will be granted for only one of HSTR 591, HIST 591 (if taken in the same topic).  
- May be taken more than once for credit in different topics with permission of the department.

**HSTR 597**  
Units: 6.0  
Formerly: HIST 597  
**Public History Stream Research Project**  
**Grading:** INP, COM, N, F.

**HSTR 598**  
Units: 6.0  
Formerly: HIST 598  
**MA Major Research Paper**  
**Note:** Credit will be granted for only one of HSTR 598, HIST 598.  
**Grading:** INP, COM, N, F.

**HSTR 599**  
Units: 9.0-10.5  
Formerly: HIST 599  
**MA Thesis**  
**Note:** Credit will be granted for only one of HSTR 599, HIST 599.  
**Grading:** INP, COM, N, F.

Dissertation Proposal
Grading: INP, COM, N, F.

HSTR 699 Formerly: HIST 699
PhD Thesis
Note: Credit will be granted for only one of HSTR 693, HIST 699.
Prerequisite(s): HSTR 693.
Grading: INP, COM, N, F.

HUMA

Humans Faculty of Humanities

HUMA 500 Units: 1.5
Professional Academic Writing
A writing intensive course for students in a MA or PhD thesis program in the Faculty of Humanities. Investigate best practices for developing academic writing skills: practice invention, drafting, and revision of multiple modes of academic writing; experiment with strategies for understanding the written academic discourse of academic fields; prepare original, scholarly material and be guided through the process of publishing it.
Prerequisite(s): Must be registered in a graduate program in the Humanities.

IED

Indigenous Education

Faculty of Education

IED 510 Units: 1.5
Leadership and Governance for Language Revitalization
Students will develop their understanding of leadership skills and processes necessary to implement successful language and culture programs. Topics will include: planning, proposal writing, budgeting, administration, project management, as well as the place & effect of language policies at the provincial, national, international levels, as well as tribal/Indigenous governance models.

IED 520 Units: 1.5
Program Design and Curriculum Development in Indigenous Language Revitalization
Leading practices in program design and curriculum development for Indigenous language revitalization will be examined. Processes through which competence in listening, speaking, reading and writing is developed will be explored. Analysis of program design, curriculum development and their implementation to promote language and culture revitalization will be addressed.

IED 530 Units: 1.5
Indigenous Research Methods
Indigenous methodologies, research practices and protocols are examined including specific topics such as research ownership, research process and outcomes. Approaches to research that are culturally respectful, ethical, and reciprocal will be explored.

IED 531 Units: 1.5
Also: LING 531
Researching Community-Based Initiatives in Language Revitalization
An examination of language research in Indigenous communities. This course is project-based and introduces students to a range of issues in community-based language revitalization research. The diversity of languages and of community approaches will be highlighted.
Note: Credit will be granted for only one of IED 531, LING 531.

IED 572 Units: 1.5
SKÁLs: Indigenous Epistemologies
An exploration of the natural laws of the world from an Indigenous perspective. Critical elements of examination will include: utilizing community stories (with permission) to enhance language learning opportunities and curriculum development; reinforcing the value of the knowledge that students bring to the classroom from their home communities, living in a bi-cultural world, and the cultural effects of language and culture loss - creating places for healing.

IED 594 Units: 1.5
Proposal and Literature Review
Various approaches to project topics will be discussed as well as examination of the components of a project proposal, including the features of an effective literature review. A proposal and literature review for the project or thesis must be accepted by the course instructor and the student’s program supervisor in order to receive credit in this course.
Grading: INP, COM, N, F.

IED 597 Units: 1.5
Comprehensive Examination
A required element of non-thesis graduate students. Areas of examination and examination format, either written or oral, will be determined by the supervisory committee in consultation with the candidate.
Grading: INP, COM, N, F.
**IGOV 520 Units: 1.5**

**Indigenous Governance**

A critical reading of important works in the field, an intellectual framework for understanding key questions and contemporary conflicts within Indigenous societies, and a critical perspective of the relationship between Indigenous peoples and the state.

Prerequisite(s): Admission to MA program in Indigenous Governance.

**IGOV 530 Units: 1.5**

**Indigenous Research Methods**

A perspective on the methods and approaches used in the study of Indigenous issues, providing the basic tools and methods used for conducting applied research, as well as an exploration of the practical, ethical, and political issues involved in conducting research in Indigenous communities.

Prerequisite(s): Admission to MA program in Indigenous Governance.

**IGOV 540 Units: 1.5**

**Indigenous Resurgence**

An introduction to the spiritual and cultural foundations of Indigenous governance systems, and an examination of how traditional values, principles and worldviews shape Indigenous thought and action in resistance to colonialism.

Prerequisite(s): Admission to MA program in Indigenous Governance.

**IGOV 550 Units: 1.5**

**Indigenous Peoples and Self Determination**

A focused analysis of current processes to decolonize the relationships between Indigenous peoples and states (as well as other colonial entities), with particular emphasis on questions of land tenure, sovereignty, nationhood, self-determination, and treaty-making in a comparative context.

Prerequisite(s): Admission to MA program in Indigenous Governance.

**IGOV 560 Units: 1.5**

**Indigenous Peoples and Globalization**

An examination of how processes of globalization and neo-colonialism impact Indigenous peoples worldwide and strategies Indigenous peoples around the world are using to confront these economic, social, political and cultural pressures in order to regenerate their communities.

Prerequisite(s): Admission to MA program in Indigenous Governance, or permission of the faculty.

**IGOV 570 Units: 1.5**

**Indigenous Women and Resistance**

An exploration of the strategies Indigenous women engage in resistance to colonialism with particular attention paid to women who root their resistance in traditional Indigenous philosophies, governance practices and ways of being.

Prerequisite(s): Admission to MA program in Indigenous Governance, or permission of the faculty.

**IGOV 575 Units: 3.0**

**Mentorship**

Mentorships provide students with counselling and advice to support personal well-being, professional development and academic performance, and consists of regular writing assignments and small group meetings with their faculty supervisor throughout the academic year.

Note: Credit will be granted for only one of IGOV 575, IGOV 580.

Prerequisite(s): Admission to MA program in Indigenous Governance.

Pre- or Corequisite(s): All of IGOV 520, IGOV 530, IGOV 540, IGOV 550.

**IGOV 590 Units: 1.5**

**Directed Readings**

Individually structured reading or research seminars under the direction of a participating faculty member, allowing students to pursue their interests in topics related to Indigenous governance but not specifically covered in the seminars.

Note: May not be taken more than once for credit.

**IGOV 595 Units: 1.5**

**Special Topics in Indigenous Governance**

Seminars focusing on issues of particular interest and relevance.

Note: May be taken more than once for credit in different topics.

Prerequisite(s):
- Admission to MA program in Indigenous Governance; or
- permission of the faculty.

**IGOV 598 Units: 4.5 or 6.0**

**Community Governance Project**

Graduate course in the Indigenous Governance program administered by the Faculty of Graduate Studies. Projects are geared toward providing a practical learning experience and opportunity for students to face the real world challenges of governance in an Indigenous context. They also serve as a crucial function for affiliated communities in providing access to the University’s resources and expertise through the students’ participation in projects to enhance the community’s governance capacity.

Community governance project interns work on a designated research or policy development project in an Indigenous organization, under the direction of a project management team that includes community leaders and IGOV faculty. Internship placements must be approved by the Director, and will typically involve 100 hours of work in the community and the completion of a comprehensive report based on the internship experience.

**Note:** Only students who entered the MA program prior to September 2009 need to register in the 4.5 unit section of IGOV 598 (requires permission of the department). Students who start their MA program on or after September 2009 need to register in the 6.0 unit section of IGOV 598.

Prerequisite(s): All of IGOV 520, IGOV 530, IGOV 540, IGOV 550, IGOV 575.

Grading: INP, COM, N, F.

**IGOV 599 Units: 6.0**

**Thesis**

Grading: INP, COM, N, F.
IN 697 Units: 1.5-6.0
Capstone Experience
An integration and synthesis of concepts, principles and practices discussed throughout the program. Students must be able to demonstrate their knowledge of the field of Indigenous Nationhood through either a comprehensive examination of Indigenous Nationhood or a committee-approved community internship, or other community-based work or service-integrated learning opportunity approved by the Program committee.
Note: Students taking the Indigenous Nationhood certificate concurrently with another program should check whether credit for this course can be used toward their program.
Grading: INP, COM, N, F.

INH
Indigenous Health Studies
School of Public Health and Social Policy
Faculty of Human and Social Development

INH 520 Units: 1.5
Community Engagement and Leadership
The concepts of respect, trust and cultural safety and their historical significance in engaging with Indigenous communities are explored. De-colonizing practices are emphasized through exploration of relational practice and community capacity building as methods for effective engagement of community. Topics include the implications of recognizing the communal ownership of knowledge within Indigenous culture; the value of Indigenous knowledge and mentorship in the emergence of Indigenous health leaders are explored.
Note: A requirement of this course is a condensed five-day on-campus seminar.

INH 521 Units: 1.5
Indigenous Public Health and Social Policy
Issues and practices associated with the governance of Indigenous Peoples’ health through consideration of past, present and future experiences are explored. Students critically analyze health and social policy and the impact of colonization on the health of Indigenous Peoples. Governance for health is explored through an analysis of jurisdictional issues, existing health agreements and organizational structures. Students focus on the development of post-colonial models of policy and governance.

INH 522 Units: 1.5
Indigenous Health Research Methodologies
Topics include the value of being in relationship with community as a foundation for research; knowledge of indigenous life course determinants relevant to the health of Indigenous Peoples; ethical, legal and social issues related to research with Indigenous Peoples.

INTD
Interdisciplinary Program
Faculty of Graduate Studies

INTD 580 Units: 1.5-3.0
Directed Studies for INTD Master’s Program
Note: May be taken more than once for credit in different topics.

INTD 599 Units: 4.5-12.0
Thesis
Grading: INP, COM, N, F.

INTD 680 Units: 1.5-3.0
Directed Studies for INTD Doctoral Program
Note: May be taken more than once for credit in different topics.

INTD 693 Units: 3.0
PhD Candidacy Examination
Corequisite(s): INTD 699.
Grading: INP, COM, N, F.

INTD 699 Units: 15.0-30.0
Dissertation
Pre- or Corequisite(s): INTD 693.
Grading: INP, COM, N, F.

LAW
Law
Faculty of Law

LAW 501 Units: 1.5
Graduate Seminar in Law and Society
A critical introduction to theoretical perspectives on Law and Society. Designed to expose students to a range of substantive issues in advanced legal research, as a foundation for the development of each student’s thesis research.
Prerequisite(s): Admission to a graduate program in Law.

LAW 502 Units: 1.5
Graduate Seminar in Applied Legal Methodology
A review of methodological approaches to advanced legal research, particularly as applied to the diverse research interests of seminar participants. Intended to support each student’s implementation of their research question through presentation, commentary and refinement.
Prerequisite(s): Admission to a graduate program in Law.

LAW 590 Units: 1.5-3.0
Directed Studies in Law
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registering in this course.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

LAW 598 Units: 6.0
Major Research Paper in Law
Grading: INP, COM, N, F.

LAW 599 Units: 9.0
LLM Thesis
Grading: INP, COM, N, F.

LAW 690 Units: 1.5-3.0
Directed Studies in Law
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registering in this course.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

LAW 693 Units: 3.0
PhD Candidacy Examinations
The PhD Candidacy Examination consists of an oral examination. This examination should be taken and passed within two years of entering the PhD program.
Grading: INP, COM, N, F.

LAW 699 Units: 21.0-36.0
PhD Dissertation
Prerequisite(s): LAW 693.
Grading: INP, COM, N, F.

LING
Linguistics
Department of Linguistics
Faculty of Humanities

LING 500 Units: 1.5
Linguistic Field Methods
An introduction to the methods of data analysis, organization, and collection required in the field situation. Language of consultant varies from year to year. The department has a particular interest in North American Native Languages.
Note: May be taken more than once for credit in different topics with permission of the department.
LING 501  Units: 1.5  
Linguistics for Language Revitalization  
An introduction to linguistic concepts and terminology, providing a foundation for engaging with Indigenous language documentation and revitalization, linguistic aspects of learning and teaching, and archival research. Topics include: the nature of sound systems and how they relate to writing systems; word structures and dictionaries; sentence structures and understanding texts.

LING 503  Units: 1.5  
Introduction to Syntax  
A graduate level introduction to the major subfields of syntax, reflecting recent developments in syntactic theory.

LING 504  Units: 1.5  
Current Issues in Morphology  
Recent developments in morphological theory.  
Note: May be taken more than once for credit to a maximum of 3 units.

LING 505  Units: 1.5  
Introduction to Phonology  
A graduate level introduction to the major subfields of Phonology, reflecting recent developments in phonological theory.

LING 508  Units: 1.5 or 3.0  
Current Issues in Generative Grammar  
Selected topics reflecting ongoing work in generative theory.  
Note: May be taken more than once for credit.

LING 509  Units: 1.5  
Sociolinguistics  
Selected topics in recent research related to language variation such as bilingualism, language and gender, language attitudes, social dialects. Each registrant will select a particular topic for individual research.  
Note: May be taken more than once for credit in different topics to a maximum of 3 units.

LING 510  Units: 1.5-3.0  
Current Issues in Phonology  
An examination of recent developments in phonological theory.  
Note: May be taken more than once for credit.

LING 517  Units: 1.5  
Experimental Phonetics Laboratory  
Review of recent research in the phonetic and acoustic analysis of speech and in spoken language processing. A focus on experimental procedures designed to allow students to pursue individual topics in speech research.  
Note: May be taken more than once for credit to a maximum of 3 units.

LING 520  Units: 1.5-3.0  
Pacific Rim Languages  
An overview of the structure of selected Indigenous languages spoken around the Pacific Rim.  
Note: May be taken more than once for credit to a maximum of 3 units.

LING 527  Units: 1.5  
Topics in Historical and Comparative Linguistics  
Study of principles of historical and comparative linguistics.  
Note: May be taken more than once for credit to a maximum of 3 units.

LING 531  Units: 1.5  
Also: IED 531  
Researching Community-Based Initiatives in Language Revitalization  
An examination of language research in Indigenous communities. This course is project-based and introduces students to a range of issues in community-based language revitalization research. The diversity of languages and of community approaches will be highlighted.  
Note: Credit will be granted for only one of LING 531, IED 531.

LING 570  Units: 1.5-3.0  
Also: PSYC 570  
Psycholinguistics  
A seminar offered in collaboration with the department of Psychology. Selected topics of interest in understanding the comprehension and production of natural language are examined. The most recent topics have been word recognition and lexical access, sentence processing, discourse analysis, linguistic inference and the resolution of ambiguity, and the development of cognitive science interests in reasoning and discourse processes as well as the structure of mental representations.

LING 572  Units: 1.5  
The Structure of the Lexicon  
An introduction to the study of representations of lexical forms, specifically as they relate to psycholinguistic dimensions of the mental lexicon. Issues related to the structure of both the first and second language mental lexicons will be examined.

LING 573  Units: 1.5  
Second Language Acquisition Theory and Research  
A survey and critical examination of the research on second language acquisition (SLA). Current issues and research findings related to the teaching and learning of second languages inside second language classrooms are also discussed.

LING 574  Units: 1.5  
Seminar in Applied Linguistics  
A seminar on issues in applied linguistics, including an overview of second language learning and teaching principles, TESL/TEFL methodology, language situation contacts and multilingualism. Each participant selects a topic area of individual interest to report to the seminar.

LING 575  Units: 1.5  
Research Methods in Applied Linguistics  
Designed to assist graduate students in developing skills necessary to design and implement research in the field of second language (SL) acquisition and applied linguistics. Examines various methods for conducting research, types of research designs, and the steps involved in planning and executing SL research projects. Students also develop skills in reading and evaluating published research in second language acquisition and applied linguistics.

LING 576  Units: 1.5  
Form-Focused Instruction and Second Language Development  
Through a combination of reading and critical analysis of research studies, examines the current theoretical perspectives and research findings on the various roles that form-focused instruction and corrective feedback play in second language development.

LING 577  Units: 1.5  
Hours: 3-0-0  
The Global Context of Language Revitalization  
Investigates language shift, maintenance, reclamation and revitalization. Topics may include global, social, cultural, economic, political, and historical factors involved in language use, and Indigenous and non-Indigenous language contexts around the world.

LING 578  Units: 1.5  
Sociocultural Theory and Second Language Learning  
Designed to introduce graduate students to aspects of second language learning from the perspectives of sociocultural theory and cognitive development. Students will become familiar with key concepts and principles of sociocultural theory, such as mediation, activity theory, the genetic method, internalization, the zone of proximal development, private speech, and scaffolding; examine the growing body of research in language learning and teaching from this theoretical perspective; and consider its implications for language pedagogy.

LING 580  Units: 1.5 or 3.0  
Linguistics Seminar  
The contents of this course will vary.  
Note: May be taken more than once for credit.

LING 586  Units: 1.5  
Sound Structures for Applied Linguistics  
An investigation of the relationship between sound structures (as understood through phonetic theory, phonological theory, speech analysis) and applied linguistics (especially pronunciation teaching and second language acquisition).  
Prerequisite(s):  
•  One of LING 500, LING 300, LING 312, LING 338, LING 380, LING 412, LING 486, LING 505, LING 510, LING 517; or  
•  permission of the department.

LING 590  Units: 1.5 or 3.0  
Directed Studies  
A course designed to enable students to pursue individual interests.  
Note: May be taken more than once for credit.

LING 592  Units: 1.5  
Hours: 3-0-0  
Formerly: LING 591  
Labovian Variationist Sociolinguistics  
An examination of the foundations of language variation and change in the Labovian paradigm. Emphasis is placed on the study of phonological and grammatical features and their correlations with age, sex, ethnicity and other social variables.  
Note: Credit will be granted for only one of LING 592, LING 591.

LING 595  Units: 1.5  
Studies in Language and Gender  
A study of the relationship between gender socialization and pragmatics of language use. Each participant selects a topic of interest to research and report on as a term paper and to present as a seminar.

LING 596  Units: 1.5  
Cross-Cultural Communication  
An examination of pragmatic linguistic factors affecting communication between cultural groups. Each participant selects a topic of interest to research and report on as a term paper and to present as a seminar.
### LING 599 - MA Thesis

**Units:** to be determined

**Grading:** INP, COM, N, F.

### LING 601 - Current Directions in Syntactic Theory

**Units:** 1.5

**Current Directions in Phonological Theory**

Selected topics reflecting current research in phonological theory.

**Notes:**
- May be taken more than once for credit in different topics.
- Students who have completed equivalent prerequisites may request permission to register in the course.

**Prerequisite(s):**
- LING 503 or LING 508; or
- permission of the department.

### LING 602 - Directed Studies

**Units:** 1.5-3.0

A research topic will be pursued in depth under the direction of a faculty member. Students meet in a seminar weekly with the course instructor to discuss research topics including research designs, data collection and analyses, reporting and presentation research results, and other research related issues.

**Grading:** INP, COM, N, F.

### LING 693 - Candidacy Examination

The candidacy requirement must be satisfied within three years of registration in the doctoral program (see Faculty of Graduate Studies regulations). The candidacy examination consists of two substantial, original research papers, one in the area of phonological or syntactic theory, understood broadly, and the other in an area agreed to by the student and the supervisor.

**Grading:** INP, COM, N, F.

### LING 699 - PhD Dissertation

**Note:** Normally 18 units.

**Prerequisite(s):** LING 693.

**Grading:** INP, COM, N, F.

**Units:** 1.5

**Notes:**
- May be taken more than once for credit in different topics with permission of the department.

### MATH 581 - Directed Studies

**Units:** 1.5

**Notes:**
- Directed studies may be available in the areas of faculty interest.
- May be taken more than once for credit in different topics with permission of the department.

### MATH 585 - Seminar

**Units:** 0 or 1.5

**Notes:**
- Pro Forma required.

- May be taken only once for credit in any degree program.
- The seminar leader will inform students of the requirements for credit before the seminar commences. An INP grade may be assigned.

### MATH 586 - Operator Theory Seminar

**Units:** 0 or 1.5

**Notes:**
- May be taken only once for credit in any degree program.
- The seminar leader will inform students of the requirements for credit before the seminar commences.

**Grading:** INP, standard grade.
MATH 587 Units: 0 or 1.5
Applied Math Seminar
Notes:
• May be taken only once for credit in any degree program.
• The seminar leader will inform students of the requirements for credit before the seminar commences.
Grading: INP, standard grade.

MATH 588 Units: 1.5
Discrete Mathematics Seminar
Note: May be taken more than once for credit with permission of the department.

MATH 591E Units: 1.5
Topics in Mathematics for Secondary Teachers
Intended for students enrolled in a master's program specializing in Mathematics Education but open to students enrolled in other master's programs in Education. One of the four topics: Geometry, Mathematical Modelling, Data Analysis, History and Philosophy of Mathematics will be taught in a given term. Topics will be rotated each term the course is offered.
Note: May be taken more than once for credit in different topics.
Prerequisite(s): 3 units of MATH courses numbered 300 or higher.

MATH 599 Units: 6.0
Master's Thesis
Grading: INP, COM, N, F.

MATH 693 Units: 3.0
Candidacy Examination
Grading: INP, COM, N, F.

MATH 699 Units: 21.0-30.0
Dissertation
Corequisite(s): MATH 693.
Grading: INP, COM, N, F.

MBA
Master of Business Administration
Peter B. Gustavson School of Business
PhD program in International Management and Organization is found under the BUS course code.

MBA 500 Units: 1.5-3.0
Essentials of Business and Leadership
An intensive course that constitutes the beginning of the MBA program. Provides students with a foundation on which to begin the study of business at an advanced level. Key areas of skill development include business writing, presenting, teambuilding, case analysis, cross-cultural communication and career development. Provides ethical frameworks for decision making and an exploration of issues relating to international business, sustainability and social responsibility.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 501 Units: 0
Applied Projects
Client-based business projects that integrate program subject material, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Will focus, when possible, on the Gustavson School of Business value pillars: International, Integrative, Innovative, Sustainable/Socially Responsible. One of these projects takes place in an international setting.
Notes:
• Not open to students registered in or with credit in MBA 501A or MBA 501B.
• Attendance and participation are mandatory. Students are required to register in this course for the duration of the MBA Program.
• Students in a double-degree program or on international exchange will normally be waived from the international project.
Grading: INP, COM, N, F.

MBA 501A Units: 0
Integrative Management Exercise (IME)
One or more client-based business practice exercises which integrate program subject material, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Takes place on or off-campus. Will focus, when possible, on one or both of the International or Socially Responsible and Sustainable value pillars of the Gustavson School of Business.
Note: Registration is restricted to the Daytime MBA Cohort entering in summer session 2016. Attendance and participation are mandatory. Registration in MBA 501A is for the domestic, "on campus" IME.
Grading: INP, COM, N, F.

MBA 501B Units: 0
International Integrative Management Exercise (IME)
A client-based business practice exercise which integrates program subject material, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Takes place in an international setting.
Note: Registration is restricted to the Daytime MBA Cohort entering in summer session 2016. Attendance and participation are mandatory. Registration in MBA 501B is for the international, "off campus" IME.
Grading: INP, COM, N, F.

MBA 502 Units: 0
Personal and Professional Development
A course of sessions/activities delivered throughout the MBA program providing practical knowledge and practice in areas vital for professional success in the business world. Content includes: career development, team-building, leadership development, and cross-cultural boundary spanning.
Note: Students are required to register in this course for the duration of the MBA Program.
Grading: INP, COM, N, F.

MBA 509 Units: 0.5-2.0
Managing in the Service Economy
Examines service issues from organization and human resources management, operations management and marketing perspectives to provide students an integrated view of designing and delivering a valuable, memorable customer experience. Topics include: building a service culture and strategy, managing the talent, service blueprinting, developing customer-oriented service standards, service design, creating the "servicescape", understanding consumer emotions and psychology, service failure and recovery, customer co-creation of value and service delivery networks.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 510 Units: 0.5-1.5
Marketing Management
Controllable and uncontrollable marketing variables that managers face in today's business environment. Topics include factors affecting consumer demand (including issues of sustainability, environmental impact and ethical management) and methods of satisfying it, market structure, product selection, distribution, promotion, pricing and market research. Course structure, exercises, projects and case problems are designed to develop the students' ability to generate effective marketing strategies in the face of uncertainty.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 511 Units: 0.5-1.5
Customer Experience Management
Intended for those students who are interested in working in service industries and addresses the distinct needs and problems of service organizations in the area of marketing. Topics include: the difference between marketing services versus manufacturing organizations; the marketing mix for service organizations; market research in services; managing demand in services; integrated services marketing communication; services pricing; and the overlap of marketing/operations/human resource systems in service organizations.
Note: Not open for students with credit in the Service Management Specialization courses previously offered under MBA 595. The unit value of a course section will be specified according to the program in which it is delivered.
Prerequisite(s): MBA 510
Corequisite(s): MBA 512 and MBA 513.

**MBA 512**

**Quality Management and Service Operations**
Focuses on managing and improving service firms across industries, including financial services, health care, hospitality, retail and professional service firms. Addresses the distinct needs and problems of service organizations in the areas of operations and quality management. A core theme is a quality management approach to providing service excellence. Topics include: service strategy, service design, service quality, process improvement, service capacity management, service innovation and technology, and sustainable and socially responsible practices in services.

**Notes:**
- Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595.
- The unit value of a course section will be specified according to the program in which it is delivered.

**Prerequisite(s):** MBA 510

**Corequisite(s):** MBA 511 and MBA 513

**MBA 513**

**Issues in Service Technology and HR Management**
Addresses the distinct needs and problems of service organizations in the areas of human resource management and IT management. Topics include: e-service and the role of technology; customer relationship management (CRM); managing the organizational culture; impact of cultural differences on customer service; management and motivation of knowledge workers; customer self-service technology; the service profit chain; and sustainable and socially responsible practices in human resource management.

**Notes:**
- Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595.
- The unit value of a course section will be specified according to the program in which it is delivered.

**Prerequisite(s):** MBA 511 and MBA 512

**MBA 514**

**Business and Sustainability**
An introduction to the business challenges and opportunities arising from the world’s growing social and ecological issues, including climate change, poverty and corporate corruption. Students are exposed to how companies across multiple sectors have chosen to respond - or not respond - to the call for sustainable social, ecological and economic value creation. Relevant tools and frameworks are introduced, including stakeholder management/engagement, triple-bottom line, Natural Step, base-of-the-pyramid strategies and social entrepreneurship.

**Notes:**
- Credit will be granted for only one of MBA 514, MBA 580, MBA 595 (if taken in the same topic).
- The unit value of a course section will be specified according to the program in which it is delivered.

**MBA 515**

**Applied Managerial Economics**
Applies economic principles to the analysis of corporate problems. Topics include product, risk and business opportunity analysis, production costs and profit maximization, the determination of prices and output under different market structures, investment decisions, and economic forecasting.

**Note:** The unit value of a course section will be specified according to the program in which it is delivered.

**MBA 520**

**Financial and Managerial Accounting**
Focuses on two broad areas to improve understanding of the use of accounting information in management decision making: 1) Financial Reporting including examination of corporate financial reports, International Financial Accounting Standards, triple-bottom line reporting, and governance and 2) Managerial Accounting including the nature, analysis of costs, product costs, and control systems.

**Note:** The unit value of a course section will be specified according to the program in which it is delivered.

**MBA 521**

**Leadership Strategies**
An examination of leadership in a variety of environments: corporate, the military, and the public sector. Identifies the characteristics of a leader and instills an interest in and awareness of this vital organizational skill. Includes a review of leadership research from a historical perspective as well as current theory on transformational leadership. Experiential exercises, case studies and role playing techniques are employed to demonstrate leadership skills.

**Note:** Credit will be granted for only one of MBA 521, COM 410.

**Prerequisite(s):** Permission of the program.

**MBA 524**

**Corporate Finance**
Serves as a continuation of the introductory finance course to more advanced applications of the techniques, concepts, and tools of corporate finance. Main topics include short- and long-term financial management, cost of capital, capital structure, financial leverage, dividends policy, working capital management, leasing, mergers and acquisitions, and the use of derivatives for risk management.

**Note:** Credit will be granted for only one of MBA 524, COM 445.

**Prerequisite(s):** Permission of the program.

**MBA 525**

**Investments**
 Covers the fundamental principles that are crucial to understanding the securities traded in international financial markets. The main topics include market structure, information efficiency, asset pricing models, valuation and trading of stocks, bonds, options and futures.

**Note:** Credit will be granted for only one of MBA 525, COM 446, COM 450 (if taken in the same topic), ECON 435.

**Prerequisite(s):** Permission of the program.

**MBA 529**

**International Logistics and Supply Chain Management**
Examines the issues involved in managing global supply chains and logistic flows. Topics are developed around the risks and opportunities of global sourcing. Topics include some of the following: designing and implementing global supply chains, foreign manufacturing, inventory management, coping with security concerns, outsourcing, service standards, transportation options and performance evaluation.

**Notes:**
- Credit will be granted for only one of MBA 529, MGB 519.
- The unit value of a course section will be specified according to the program in which it is delivered.

**MBA 530**

**Managerial Finance**
Provides a framework, concepts, and tools for analyzing financial decisions. Topics include discounted cash flow techniques, valuation of financial assets, financial statement analysis, capital budgeting decisions, risk and return tradeoffs, diversification and portfolio theory, capital market efficiency, and the cost of capital to the firm. Focuses on management-shareholder agency problems, ethical issues in financial decision-making, and issues related to sustainability and corporate social responsibility (CSR) in project valuation and portfolio investments.

**Note:** The unit value of a course section will be specified according to the program in which it is delivered.

**MBA 531**

**Taxation for Managers**
Reviews the fundamentals of the income tax system for all taxpayers. It then examines tax planning techniques that maximize cash flow and return on investment. While the course emphasizes business decisions, it also includes personal financial planning issues.

**Note:** Credit will be granted for only one of MBA 531, COM 425.

**Prerequisite(s):** Permission of the program.

**MBA 535**

**Operations Management**
An introduction to the concepts for managing the systems organizations use for producing goods and services. Topics include some of the following: operations strategy, capacity and technology planning, purchasing and materials management, workflow planning, scheduling, and quality management and control.

**Note:** The unit value of a course section will be specified according to the program in which it is delivered.

**MBA 540**

**Applied Data Analysis and Decision Analysis**
A decision-oriented course that focuses on the frameworks, concepts, theories and principles needed to organize and extract data; probability theory and risk in decision making; and One-Way Analysis of Variance and Regression Analysis.

**Note:** The unit value of a course section will be specified according to the program in which it is delivered.
MBA 544 Units: 0.5-1.5
Information Technology in the Organization
An introduction to the capabilities and utilization of information technology (IT), information systems (IS) and networks. Different approaches using IT and IS will be covered to provide an understanding of how they can be used effectively in today’s interconnected enterprise. Cases and other assignments will be used to illustrate the evolving role of IS and networks in today’s interconnected organization both within and external to it.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 546 Units: 0.5-2.0
Innovation and Design Studio
Explores innovation via a studio approach in which students learn through practice and reflection. Topics include framing the ‘problem space’ through deep understanding of users and context, and techniques for eliciting creative ideas, such as structured brainstorming and rapid prototyping, to explore the ‘solution space’. Students become integrative, creative problem solvers who combine rigorous research with narrative, visual data and other knowledge forms to generate original, practical strategies.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 550 Units: 0.5-1.5
Strategic Analysis and Action
Introduces the integrative nature of management. Explores the overall general management of the organization, and the formulation and implementation of the strategic direction of the firm. Covers major strategic management concepts including analyses of external and internal environments, innovation, corporate social responsibility (CSR), managerial ethics, value co-creation, and leadership, as they relate to business strategy. Intended to develop an appreciation of the role of a general manager from conceptual as well as practical standpoints.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 552 Units: 0.5-2.0
Collaboration in Organizations
Explores ways to lead and cultivate collaboration in both inter- and intra-organizational contexts. Topics may include identifying what effective collaboration looks like, when collaboration does (and doesn’t) make sense, organizational barriers to collaboration, the skills required to encourage others to collaborate effectively, and the characteristics of collaborative leadership.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 553 Units: 0.5-1.5
Managing People and Organizations I
Examines the behaviour of individuals, groups and organizations from an organizational design perspective. Topics include the analysis of goals, environment structure and growth; teams, organizational culture, power, politics and conflict management; decision making, motivation, trust and leadership.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 555 Units: 0.5-1.5
Managing People and Organizations II
Examines the issues in managing employees in organizations. Topics include recruitment and hiring, retention practices, performance review, compensation design, layoffs and selected employment and human rights legislation.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 560 Units: 0.5-1.5
Managing Legal Risks
Examines various legal risks (whether arising from the common law or through legislation) that must be identified and effectively managed within contemporary organizations (including for-profit businesses, not-for-profit firms and governmental organizations). Examines the legal risks associated with the manufacture, delivery and marketing of goods and services, the creation and protection of confidential information and other intellectual property, and risks arising from employment and contractor relationships. Also reviews risk management strategies available under the law of tort and contract.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 561 Units: 0.5-1.5
Entrepreneurial Planning and Finance
Part of the integrated MBA Entrepreneurship module, focuses on differences between ideas and opportunities, identifying necessary information to screen and analyze the risks attached to shaping opportunities into viable businesses; understanding financial data and use of quantifiable factors in the entrepreneurial decision process. Students understand essential elements of a business plan, the catalyst for skill development of entrepreneurial new ventures. Notes:
- Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595.
- The unit value of a course section will be specified according to the program in which it is delivered.

MBA 562 Units: 0.5-1.5
New Venture Marketing
Part of the integrated MBA Entrepreneurship program, develops the thinking skills required to develop valued products, understand customers and markets, and gain market acceptance with limited resources.
Notes:
- Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595.
- The unit value of a course section will be specified according to the program in which it is delivered.

MBA 566 Units: 0.5-1.5
Entrepreneurial Strategy
Part of the integrated MBA Entrepreneurship program, develops skills necessary to plan a venture’s strategy, business model and competitive position, to assess a strategy’s viability, and to develop implementation plans to realize that strategy. Models for international and social entrepreneurship and venture growth will also be discussed.
Notes:
- Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595.
- The unit value of a course section will be specified according to the program in which it is delivered.

MBA 564 Units: 0.5-2.0
Entrepreneurship
Entrepreneurship is about new value creation in new for-profit ventures, social enterprises, existing corporations, government, and other contexts. Takes prospective entrepreneurs through the opportunity (value) identification and realization process with a focus on developing entrepreneurial expertise and an entrepreneurial mindset. Learners will apply key theory, frameworks, concepts, and tools towards their own entrepreneurial pursuit with the aim of getting to the proof-of-concept stage of development with a lean business plan.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 570 Units: 0.5-2.0
International Business Environment I
Overview of international business and management, emphasizing globalization and its implications for individuals, organizations and nations. Explores topics in global and regional economic integration, sources of national competitive advantage, international trade and investment, corporate social responsibility (CSR) in international contexts, strategy and organization in multinational enterprises, emerging markets, and current issues related to the international business environment. Students will develop a world-view of today’s dynamic global marketplace and analytical skills for addressing complex global issues.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 576 Units: 0.5-2.0
International Business Environment II
This course is a continuation of topics covered in IB Environment I.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 585 Units: 0.5-1.5
Consulting Methods I
Provides an overview of management consulting to help students gain an understanding of management consulting skills and competencies. These consulting skills can be used in the pursuit of a consulting career or integrated as part of general management knowledge. Designed to prepare students for 501 Applied Projects and 596 Integrative Project.
Note: The unit value of a course section will be specified according to the program in which it is delivered.
MBA 586  
**Consulting Methods II**  
Continuation of topics covered in Consulting Methods I.  
*Note:* The unit value of a course section will be specified according to the program in which it is delivered.

MBA 588  
**Study Abroad**  
Students register in this course while participating in a formal academic exchange with a university outside of Canada.  
*Note:* May be taken more than once for credit to a maximum of 7.5 units.

MBA 590  
**Directed Study**  
Notes:  
- May be taken more than once for credit in different topics.  
- Pro Forma required.

MBA 595  
**Special Topics in Business Administration**  
Course content will reflect the interests of the faculty members and current issues in business and industry. Topics will vary annually. New specialization modules will also be introduced under 595.  
*Note:* May be taken more than once for credit in different topics.

MBA 596  
**Integrative Project**  
An individual or group consulting project. Participating students work individually or are placed into small teams; under faculty supervision, maintain a consulting/client relationship with a corporate sponsor. The students examine a problem of current interest to the sponsor and prepare detailed oral and written recommendations.  
*Grading:* INP, standard grade.

MBA 598  
**Research Project**  
A substantial analysis of a significant management problem or policy issue, prepared individually in consultation with a faculty advisor.  
*Note:* Students choosing to take MBA 598 Research Project, rather than MBA 596 Integrative Project, will be required to take an appropriate Research Methods course of 1.5 units in lieu of or in addition to MBA 585. Students choosing MBA 598 should consult with their academic supervisor to identify an appropriate Research Methods course.  
*Grading:* INP, standard grade.

MBME  
**Master of Business Administration + Master of Engineering**  
**MBA Program and Faculty of Engineering**  
**Sardul S. Gill Graduate School of Business**  
Specifically for the MBA+MEng Double Degree Program which is jointly offered by the Sardul S. Gill Graduate School of Business and the Faculty of Engineering.  
*Note:* Students, in consultation with their academic advisor, should determine if they have an adequate background in research methodology prior to enrolling in MBME 598. This may require the student to take a research methods course. Students should consult with their academic advisor to identify an appropriate course.  
*Grading:* INP, COM, N, F.

MBMS  
**Master of Business Administration + Master of Science (CSC)**  
**MBA Program and Faculty of Engineering**  
**Sardul S. Gill Graduate School of Business**  
Specifically for the MBA+MSC in Computer Science Double Degree Program which is jointly offered by the Sardul S. Gill Graduate School of Business and the Faculty of Engineering.  
*Note:* Credit will be granted for only one of MECH 510, MECH 580 (if taken in the same topic).

MECH  
**Mechanical Engineering**  
**Department of Mechanical Engineering**  
**Faculty of Engineering**  
**MECH 501**  
**Introduction to Continuum Mechanics**  
*Note:* There is a 3-hour laboratory requirement on alternate weeks.
MECH 521 - MECH 554

MECH 521  Units: 1.5  
Computer-Aided Manufacturing (CAM)  
Introduction to machining operations features of numerically controlled machine tools and types of CNC programming. Manual part programming with G-codes, canned cycles, subprograms, and simulation program. CNC machine tools and control and machine tool kinematics. CNC machining of curved surfaces, and surface machining strategies. Rapid prototyping or 3D printing. Machining mechanics and dynamics.  
Note: There is a 3-hour laboratory requirement on alternate weeks.

MECH 523  Units: 1.5  
Modeling and Design of Advanced Hybrid Electric Vehicles  
Background of Hybrid Electric Vehicle (HEV) powertrain technologies; vehicle power plants, electric propulsion systems, transmissions, and energy storage system; vehicle performance modeling and simulation using advanced powertrain modeling tools; design and optimization of HEV powertrain system; other key issues in HEV design and developments; HEV related research and case study.  
Note: Credit will be granted for only one of MECH 523, MECH 580 (if taken in the same topic).

MECH 528  Units: 1.5  
Global Optimization and Quantitative Reasoning Techniques  
Review of conventional engineering optimization methods, global optimization algorithms, introduction of metamodeling and metamodel-based global optimization techniques, multi-objective and multi-disciplinary optimizations; knowledge representation and reasoning, rule-based systems, fuzzy pattern clustering and recognition, and artificial neural networks; applications of metamodel-based global optimization and quantitative reasoning for computational design and optimal control.  
Note: Credit will be granted for only one of MECH 528, MECH 620.

MECH 531  Units: 1.5  
Fluid Mechanics  

MECH 535  Units: 1.5  
Computational Fluid Dynamics and Heat Transfer  

MECH 536  Units: 1.5  
Microfluidics  

MECH 537  Units: 1.5  
Non-equilibrium Thermodynamics and Kinetic Theory of Gases  
Conservation and balance laws, properties and property relations, 2nd law and interpretation of entropy, entropy generation and work loss, classical irreversible thermodynamics, cross effects and Onsager conditions. Kinetic theory of gases: Distribution function, Boltzmann equation, conservation laws, H-Theorem, continuum limit; the laws of Navier-Stokes and Fourier, higher order methods and moment equations, Knudsen layers, rarefaction effects.

MECH 538  Units: 1.5  
Advanced Aircraft Design  
Note: Credit will be granted for only one of MECH 538, MECH 580 (if taken in the same topic).

MECH 540  Units: 1.5  
Transport Phenomena  
Fundamentals of thermomechanics; kinematics, motion, stress, thermodynamics, fundamental principles of thermodynamics. Constitutive equations; basic principles and axioms, linearization of constitutive equations, constitutive equations of special materials such as Newtonian fluids and binary mixtures. Field equations for binary fluid mixtures. Mass transport; diffusivity and mechanisms of mass transport, examples of concentration distributions in binary solids and fluids (laminar flow), examples from ternary systems.

MECH 541  Units: 1.5  
Advanced Thermodynamics  

MECH 542  Units: 1.5  
Energy Systems and Energy Analysis  
Macroscopic examination of energy systems, system architecture and evolution. Dynamics of energy systems. Characteristics and impacts of energy storage. Exergy balance and second law efficiency.

MECH 543  Units: 1.5  
Cryogenic Engineering  

MECH 546  Units: 1.5  
Introduction to Ocean Engineering  

MECH 547  Units: 1.5  
Wind Power Systems  
Note: Credit will be granted for only one of MECH 547, MECH 580 (if taken in the same topic).

MECH 549  Units: 1.5  
Fuel Cell Technology  

MECH 550  Units: 1.5  
Advanced Control Theory  

MECH 554  Units: 1.5  
Mechatronics  
Introduction to mechatronic systems; modelling of mixed mechatronic systems; microcontroller programming and interfacing; theory, selection and implementation of sensors and actuators commonly used in mechatronic systems; control architectures and case studies in mechatronics systems.  
Note: Credit will be granted for one of MECH 554, MECH 580 (if taken in the same topic).
### MECH 555 - Micro-ElectroMechanical Systems

**Units:** 1.5

**Description:**

### MECH 558 - Fundamentals of Hybrid Vehicles

**Units:** 1.5

**Description:**
Background of hybrid electric vehicle (HEV) powertrain technologies; vehicle power plants, electric propulsion systems, transmissions, and energy storage system; vehicle performance modeling and simulation using advanced powertrain modeling tools; design and optimization of HEV powertrain system; other key issues in HEV design and development; HEV related design project and case study.

**Note:** Credit will be granted for one of MECH 558, MECH 580 (if taken in the same topic).

### MECH 563 - Finite Element Analysis

**Units:** 1.5

**Description:**
Introduction to the basic principles of finite element analysis. Development of discrete equations for problems of 1, 2, and 3D elasticity. Applications to problems of stress analysis, vibrations, heat transfer and fluid flow. Includes a number of projects encouraging students to use large-size finite element analysis programs. Should be of interest to mechanical and electrical engineers, as well as students from the departments of Computer Science and Mathematics.

### MECH 573 - Ferrous and Non-Ferrous Metals

**Units:** 1.5

**Description:**
The iron-carbon and iron-cementite phase diagrams; nucleation and growth of microstructural constituents; the martensite phase transformation; time-temperature-transformation (TTT) curves; properties affected by quenching, tempering and annealing; alloy additions; structural, high strength and specialty steels; welding; tool and stainless steels; cast irons; super alloys; metal matrix composites.

### MECH 576 - Introduction to Electron Microscopy

**Units:** 1.5

**Description:**

**Note:** Credit will be granted for only one of MECH 576, MECH 580 (if taken in the same topic).

### MECH 580 - Selected Topics in Mechanical Engineering

**Units:** 1.5

**Note:**
May be taken more than once for credit in different topics.

### MECH 590 - Directed Studies

**Units:** 1.5

**Description:**
A wide range of topics will be available.

**Note:** Pro Forma required.

### MECH 594 - Seminar

**Units:** 1.0

**Description:**
Participation in a program of seminars by internal and external speakers on current research topics. MEng students are not required to present.

**Prerequisite(s):** Admission to MEng program in Mechanical Engineering.

**Grading:** INP, COM, N, F.

### MECH 595 - Seminar

**Units:** 1.5

**Description:**
Participation in a program of seminars by internal and external speakers on current research topics. All MASc students will be required to give a seminar on their thesis research during the second year of the program.

**Prerequisite(s):** Admission to MASc program in Mechanical Engineering.

**Grading:** INP, COM, N, F.

### MECH 598 - MEng Project Report

**Units:** 3.0

**Grading:** INP, COM, N, F.

### MECH 599 - MASC Thesis

**Units:** 9.0

**Grading:** INP, COM, N, F.

### MECH 601 - Engineering Analysis

**Units:** 1.5

**Description:**
Introduction to mathematical methods used in engineering analyses with focus on the application to engineering problems rather than the rigorous proofs of mathematical concepts. Topics can include: integral transformations including Laplace and Fourier transforms; complex analysis including analytic functions; theory of residues and conformal mapping; calculus of variations applied to optimal control; finite element methods and wave equations; linear algebra including least squares problems, eigenproblems and matrix decompositions.

**Note:** Credit will be granted for only one of MECH 601, MECH 580 (if taken in the same topic).

### MECH 693 - Candidacy Examination

**Units:** 3.0

**Description:**
PhD students enrol in 693 for the duration of their candidacy period. This begins at the time the PhD student first enrolls in the PhD program and continues until the candidacy examination has been completed.

**Pre- or Corequisite(s):** MECH 501 or MECH 601.

**Grading:** INP, COM, N, F.

### MECH 695 - Seminar

**Units:** 1.5

**Description:**
Participation in a program of seminars by internal and external speakers on current research topics. Normally, all PhD students are required to give two seminars on their thesis research within 16 months and 34 months of registration.

**Prerequisite(s):** Admission to a doctoral program in Mechanical Engineering.

**Grading:** INP, COM, N, F.

### MECH 699 - PhD Dissertation

**Units:** 27.0

**Grading:** INP, COM, N, F.

---

### MGB 180 - Master of Global Business

**Units:** 1.0

**Formerly:** MGB 181

**Language Skills I**
Provides language instruction for students to significantly advance their skill and knowledge in another language. The essential points of structure and vocabulary will be taught, giving capability to function in everyday settings. Students will learn to share information about themselves in the target language and ask basic questions of those around them.

**Notes:**
- Credit will be granted for only one of MGB 180, MGB 580.
- May not be used for credit in any other undergraduate or graduate program.

**Pre- or Corequisite(s):** Admission to MGB program.

**Grading:** FNC.

### MGB 181 - Language Skills I

**Units:** 1.0

**Formerly:** MGB 581

**Language Skills II**
Further development of the language skills learned in 180.

**Notes:**
- Credit will be granted for only one of MGB 181, MGB 581.
- May not be used for credit in any other undergraduate or graduate program.

**Pre- or Corequisite(s):** MGB 180.

**Grading:** FNC.

### MGB 182 - Language Skills II

**Units:** 1.0

**Formerly:** MGB 582

**Language Skills III**
Further development of the language skills learned in 181.

**Notes:**
- Credit will be granted for only one of MGB 182, MGB 582.
- May not be used for credit in any other undergraduate or graduate program.

**Pre- or Corequisite(s):** MGB 181.

**Grading:** FNC.

### MGB 502 - Introduction to Professional Practice

**Units:** 0

**Description:**
Preparation and training to undertake MGB Internship work terms. Includes preparation of cover letters and resumes, skills assessment and analysis, networking and interview skill development and career planning.

**Note:** Students are required to register in this course during the first and second terms of their MGB program.

**Grading:** INP, COM, N, F.

### MGB 510 - The North American Business Context

**Units:** 1.0

**Description:**
Examines the socio-economic factors that affect business operation in Canada and the United States. Topics include the Canada/US business regulatory environments, economies, governmental and legal systems, labour markets, protection of intellectual property and international trade relationships including the North American Free Trade Agreement.

</table>
MGB 512  
International Financial Management
An examination of international financial markets and the financial decision making of multinational firms. Topics include international monetary systems, exchange rate determination, foreign currency derivatives, risk management techniques, and investments, financing and operations in global markets.
Note: Credit will be granted for only one of MGB 512, MBA 571.

MGB 519  
International Logistics and Supply Chain Management
Examines the issues involved in managing global supply chains and logistic flows. Topics are developed around the risks and opportunities of global sourcing. They include designing and implementing global supply chains, foreign manufacturing, inventory management, coping with security concerns, outsourcing, service standards, transportation options and performance evaluation.
Note: Credit will be granted for only one of MGB 519, MBA 529.

MGB 520  
The Asian Business Context
An overview of business operations in the Asian context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in Asia and that impact Asian firms doing business in regional and global settings.

MGB 525  
Developing Business in International Entrepreneurial Environments
Examines the analyses and knowledge needed for successful new global business ventures as well as within an international environment. Emphasis will be given to the various stages in the development of a business plan, from idea development to presentation of the plan.

MGB 530  
The European Business Context
An overview of corporate governance structures, legal and economic systems and environmental sustainability issues in the European Union and beyond. Prepares students to apply their knowledge and global perspective to solving business issues and challenges.

MGB 535  
Consulting Methods and Practice
Provides an overview of the process of management consulting, introduces students to consulting methods to help them gain knowledge of consulting and to highlight specific consulting and research skills. To practice the application of these methodologies, student teams will examine an issue or problem being faced by their assigned overseas organizations, and provide them with consulting advice. In addition, this course will ultimately prepare students for the MGB 536 International Research and Consulting Project.

MGB 536  
International Research and Consulting Project
An individual or group consulting report. Participating students, working individually or in small teams and under faculty supervision, research issues and maintain a consulting/ client relationship with a corporate sponsor. The students examine a problem of current interest to the sponsor and prepare detailed written recommendations, make in-person presentations to clients and submit a final report.

MGB 537  
Global Internship
Students must complete at least 300 hours of work with an organization that normally (1) has an international component linking two or more regions, or (2) is located in any region of the world, provided that it is not the student’s “home” region or country. Requires students to apply their learning through a reflective component that describes how the coursework and the internship experience in particular have prepared them for global business related careers.
Note: Students who fail to complete an internship by the end of four academic terms may be required to withdraw.
Prerequisite(s):
• MGB 502, or
• permission of the school.
Grading: INP, COM, N, F.

MGB 538  
Language, Communication and Global Business
Provides a framework - in conjunction with students' language courses - to explore relationships among language, communication, and culture, a subject highly relevant to global companies. Considers the process of language interaction in global organizations and shows how foreign language learning adds value to businesses and careers. Also examines example global companies that have shaped their language policies (often towards using English as the lingua franca), impacting individual and organizational performance.
Pre- or Corequisite(s): MGB 180.

MGB 540  
The South American Business Context
An overview of business operations in the South American context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in South America and that impact South American firms doing business in regional and global settings.

MGB 545  
The Middle East and North Africa (MENA) Business Context
An overview of business operations in the MENA context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in the MENA region and that impact MENA region firms doing business in regional and global settings.

MGB 550  
The Sub-Saharan African Business Context
An overview of business operations in the sub-Saharan context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in the region and that impact sub-Saharan African firms doing business in regional and global settings.

MGB 570  
Global Leadership and Cultural Intelligence
An examination of the various dimensions of culture and cross-cultural leadership and management. Topics include how cultural intelligence and global mindset impact teamwork, conflict management, negotiations, motivation and overall leadership in international settings. Compares how people from the three regions of the MGB program modules (e.g., North America, Asia and Europe) are similar and how they differ along these dimensions, including the challenges resulting from these differences and how to resolve them.

MGB 583  
Special Topics in Global Business
Note: May be taken more than once for credit in different topics with Permission of the Academic Program Director to a maximum of 6.0 units.
Prerequisite(s): Permission from the Academic Program Director.

MICR 570  
PhD Dissertation: Microbiology
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.
MICR 599  
MSc Thesis: Microbiology
Grading: INP, COM, N, F.
MICR 699  
Units: to be determined
PhD Dissertation: Microbiology
Corequisite(s): BCMB 693.
Grading: INP, COM, N, F.
MRNE
Marine Science
Department of Biology
Faculty of Science

MRNE 500 Units: 1.0–6.0
Directed Studies
Note: Pro Forma required.

MRNE 501 Units: 1.5 or 3.0
Special Topics

MUS
Music
School of Music
Faculty of Fine Arts

MUS 500 Units: 1.5
Selected Problems in Theory and Analysis
Note: May be taken more than once for credit with permission of the school.

MUS 501 Units: 1.5
Seminar in Musical Notations

MUS 502 Units: 1.5
Musical Aesthetics and the Theory of Criticism

MUS 503 Units: 1.5
Introduction to Graduate Study and Music Bibliography
Note: All students in musicology must register for this course in their first term of graduate study.

MUS 504 Units: 1.5
Seminar in Performance Practices
Note: May be taken more than once for credit with permission of the school.

MUS 506A Units: 1.5
Advanced Recording Techniques
Advanced study to the theory and practice of recording audio technology, studio techniques and procedures. Study to include: advanced stereo microphone techniques, introduction to sound recording, high resolution formats including SACD, DVD-A, DSD, electroacoustic measurements and multi-track recording and theory. Practical work includes recording sessions, mixing and producing.

MUS 506B Units: 1.5
Sound Recording Seminar
Advanced study of sound recording and music production techniques with the production of a full length CD or DVD as a model. Topics will include techniques in audio production and layout with advanced equipment, music production, location recording, and readings of current research and technical papers. Requires the completion of a full length CD or DVD project.
Prerequisite(s):
• MUS 506A; or
• permission of the school.

MUS 507 Units: 3.0
Computer Music Seminar

MUS 508 Units: 1.5
Musical Acoustics
The physics of musical sound and the acoustics of musical instruments. Timbre, scales, tuning and temperament. An introduction to psychoacoustical issues.
Note: Credit will be granted for only one of MUS 508, MUS 509.

MUS 510 Units: 1.5
Computational Music and Audio Analysis
An in-depth examination of the approaches to the analysis of audio signals, computational modeling, and synthesis of musical signals, with a focus on creative applications.

MUS 511 Units: 1.5
Music Perception and Cognition
The examination of music as a human cognitive domain: the physiological, sensory and organizational processes involved in the perception and cognition of musical sound.

MUS 512 Units: 1.5
Music Technology Colloquium
Provides a forum for guest scholars and professionals, faculty members and students to present and discuss their research. Candidates for the MMus in Music Technology select their comprehensive examination field topics and develop their project proposals.

MUS 513 Units: 1.5
Music in Historical Context

MUS 514 Units: 1.5
Comparative Topics in Musicology

MUS 515 Units: 1.5
Graduate Forum in Musicology
Develops skills in professional activities in the field of musicology, including delivering an in-house conference paper, serving as a respondent to a peer paper, and editing or publishing a conference exploration. Provides a forum for major program requirements leading up to the first year review.

MUS 516 Units: 1.5
Analytical Topics in Musicology

MUS 517 Units: 1.5
Advanced Research Forum in Musicology
Core seminar in advanced research skills for second-year degree candidates in musicology that provides an in-depth examination of the approaches to the analysis of audio signals, computational modeling, and synthesis of musical signals, with a focus on creative applications.
Prerequisite(s):
• MUS 533.
Grading: INC, COM, N, F.

MUS 520 Units: 1.5
Performance Topics

MUS 521 Units: 1.5
Performance Practice Seminar

MUS 522 Units: 1.5
Performance Analysis Seminar

MUS 523 Units: 1.5
Performance Practice of New Music

MUS 524 Units: 1.5
Performance Analysis of Modern and Contemporary Music

MUS 525 Units: 1.5
Performance Practice of Organ Performance

MUS 526 Units: 1.5
Performance Analysis of Historical Performance Practice

MUS 527 Units: 1.5
Performance Practice of Vocal Performance

MUS 528 Units: 1.5
Performance Analysis of Vocal Performance

MUS 529 Units: 1.5
Performance Practice of Classical Guitar Performance

MUS 530 Units: 1.5
Topics in Musicology Before 1750
Note: May be taken more than once for credit in different topics.

MUS 531 Units: 1.5
Topics in Musicology After 1750
Note: May be taken more than once for credit in different topics.

MUS 532 Units: 1.5
Comparative Topics in Musicology
Note: May be taken more than once for credit in different topics.

MUS 533 Units: 1.5
Graduate Forum in Musicology

MUS 534 Units: 1.5
Advanced Research Forum in Musicology
Core seminar in advanced research skills for second-year degree candidates in musicology that provides an interactive forum for completion of major program requirements. Students conduct research in diverse areas of inquiry in musicology and gain professional experience through the preparation of a conference presentation. Candidates for the MA complete their Comprehensive Examinations and a formal Thesis Proposal, while PhD candidates complete their formal proposal for the Comprehensive Examinations in the context of the Forum.
Prerequisite(s): MUS 533.
Grading: INC, COM, N, F.

MUS 540 Units: 0.5 or 1.0
Individual Tuition
Lessons in instrument or voice.
Note: May be taken more than once for credit with permission of the school.

MUS 541 Units: 1.5
Individual Tuition
Lessons in instrument or voice.
Note: May be taken more than once for credit with permission of the school.

MUS 542 Units: 3.0
Individual Tuition
Lessons in instrument or voice.
Note: May be taken more than once for credit with permission of the school.

MUS 544 Units: 0.5 or 1.0
Individual Tuition
Lessons in instrument or voice.
Note: May be taken more than once for credit with permission of the school.

MUS 545 Units: 4.0
Major Instrument Study
Individual tuition, integrated performance seminar and master class.
Note: May be taken more than once for credit with permission of the school.
Prerequisite(s): Admission to MMus in Performance.

MUS 545Q Units: 4.0
Major Instrument Study
For students in Master of Music (MMus) in Performance-Emphasis in String Quartet program.
Notes:
• May be taken more than once for credit with permission of the school.
• MUS 545Q must be taken in each year of the program.

MUS 555 Units: 3.0
Individual Tuition in Composition
Note: May be taken more than once for credit with permission of the school.

MUS 558 Units: 0.5
Individual Tuition in Composition
Note: May be taken more than once for credit with permission of the school.

MUS 561 Units: 1.5
Seminar in Composition
Seminar in Composition, taken each year.
Notes:
• May be taken more than once for credit.
• A combined undergraduate and graduate course (MUS 462A Undergraduate Seminar in Performance of New Music).

MUS 562A Units: 1.5
Seminar in Performance of New Music
This seminar/workshop provides intensive professional training for performers who work together with composers in the creation, performance, and production of new music. Graduate performers will prepare new works composed specifically for them by the composers registered simultaneously in 562B. Training in contemporary notation and performance practices, extended techniques, instrumentation, analysis, conducting techniques, communication skills, and concert production. The final project will be a festival.

MUS 562B Units: 1.5
Seminar in Contemporary Composition and Performance
This seminar/workshop provides intensive professional training for composers who work together with performers in the creation and production of new music. Composers will create new works designed for small mixed ensembles of performers registered simultaneously in 562A, and work with them to prepare the works for performance. Training in contemporary notation and performance practices, analysis, instrumentation, communication skills, and concert production. The final project will be a festival.
MUS 580A - NRSC 501A

MUS 580A  Units: 2.0
Formerly: part of MUS 580
University Orchestra
Rehearses and performs orchestral repertoire from the Baroque to the present.
Notes:
•  Credit will be granted for only one of MUS 580A, MUS 580.
•  May be taken more than once for credit.
•  Open to all students by audition.

MUS 580B  Units: 2.0
Formerly: part of MUS 580
University Wind Symphony
Rehearses and performs advanced repertoire for woodwinds, brass and percussion.
Notes:
•  Credit will be granted for only one of MUS 580B, MUS 580.
•  May be taken more than once for credit.
•  Open to all students by audition.

MUS 580C  Units: 2.0
Don Wright Symphonic Winds
Rehearses and performs intermediate level repertoire for woodwinds, brass and percussion.
Notes:
•  Credit will be granted for only one of MUS 580C, MUS 580.
•  May be taken more than once for credit.
•  Open to all students.

MUS 580D  Units: 2.0
Formerly: part of MUS 580
Jazz Ensemble
Rehearses and performs a wide range of works, both old and new, for jazz ensemble.
Notes:
•  Credit will be granted for only one of MUS 580D, MUS 580.
•  May be taken more than once for credit.
•  Open to all students.

MUS 580E  Units: 2.0
Formerly: part of MUS 580
University Chorus
A large SATB choral ensemble that rehearses and performs varied repertoire for mixed choir, and choral and orchestral works.
Notes:
•  Credit will be granted for only one of MUS 580E, MUS 580.
•  May be taken more than once for credit.
•  Open to all students.

MUS 580F  Units: 2.0
Formerly: part of MUS 580
Chamber Singers
A select SATB choral ensemble performing both standard and lesser-known choral repertoire from a wide spectrum of composers and styles.
Notes:
•  Credit will be granted for only one of MUS 580F, MUS 580.
•  May be taken more than once for credit.
•  Open to all students by audition.
•  Previous choral experience and strong music skills are required.

MUS 580G  Units: 2.0
Formerly: part of MUS 580
University Women's Choir
A choral ensemble that rehearses and performs varied repertoire for women's voices.
Notes:
•  Credit will be granted for only one of MUS 580G, MUS 580.
•  May be taken more than once for credit.
•  Open to all students by audition.

MUS 580H  Units: 2.0
Pacific Opera Victoria Chorus
Rehearses and performs operatic repertoire as part of the Pacific Opera Victoria professional season.
Notes:
•  Credit will be granted for only one of MUS 580H, MUS 580.
•  May be taken more than once for credit.
•  Open to all students by audition.

MUS 581  Units: 1.0
Chamber Music
MMus candidates in Performance will normally register for both this course and 580 in each year of study. MA candidates in Musicology (with Performance) will normally select one of 580 or 581 each year, as determined in consultation with the supervisor.

MUS 588  Units: 1.0
MMus Practicum
Recital for performance candidates normally taken in first year.
Grading: INP, COM, N, F.

MUS 590  Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit with permission of the school.
Grading: INP, COM, N, F.

MUS 596  Units: 1.5
Lecture-Recital
A lecture-recital of substantial duration, its topic likely related to the student’s thesis. For students in the MA program in Musicology with Performance.
Grading: INP, COM, N, F.

MUS 598A  Units: 1.5
MMus Practicum
Degree recital required for performance candidates in final year.
Grading: INP, COM, N, F.

MUS 598B  Units: 3.0
MMus Graduating Compositions
Grading: INP, INC, COM, F.

MUS 598C  Units: 4.5
MMus Project
Project required for Music Technology candidates in final year.
Grading: INP, COM, N, F.

MUS 598Q  Units: 1.5
MMus Practicum
Students in the Master of Music (MMus) in Performance-Emphasis in String Quartet Program must complete a total of 3 recitals to fulfill this requirement.
Grading: INP, COM, N, F.

MUS 599  Units: 3.0
MA Thesis
Grading: INP, COM, N, F.

MUS 689  Units: 1.5
Dissertation Proposal
For candidates for the PhD in Musicology.
Grading: INP, COM, N, F.

MUS 690  Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit with permission of the school.
Grading: INP, COM, N, F.

MUS 693  Units: 3.0
PhD Candidacy Examinations
Students enrol in MUS 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrolls in the PhD program and continues until candidacy requirements have been completed.
Grading: INP, COM, N, F.

MUS 699  Units: 30
PhD Dissertation
Prerequisite(s): MUS 693
Grading: INP, COM, N, F.

NRSC 500A  Units: 1.5
Formerly: part of NRSC 500
Fundamentals of Cellular Neuroscience
Provides a foundational basis in neuroscience. Comprehensive instruction in cellular molecular and systems neuroscience.
Note: Credit will be granted for only one of NRSC 500A, NRSC 500.
Prerequisite(s):
•  Admission to the Neuroscience program; or
•  permission of the Division.

NRSC 500B  Units: 1.5
Formerly: part of NRSC 500
Fundamentals of Cognitive Neuroscience
Provides a foundational basis in neuroscience. Comprehensive instruction in behavioral and cognitive neuroscience.
Note: Credit will be granted for only one of NRSC 500B, NRSC 500.
Prerequisite(s):
•  Admission to the Neuroscience program; or
•  permission of the Division.

NRSC 501A  Units: 1.5 Hours: 3-0-0
Advanced Topics in Cellular Neuroscience I
Seminar on current topics in Cellular Neuroscience.
Note:
•  For admitted Neuroscience students, this course is required in the first year of their program.
•  The course runs from September to April.
•  A grade of INP (in progress) will be given until the second enrolled term is completed.
NRSC 501B - Units: 1.5 - Hours: 3-0-0

Advanced Topics in Cognitive Neuroscience I
Seminar on current topics in Cognitive Neuroscience.

Notes:
• For admitted Neuroscience students, this course is required in the first year of their program.
• The course runs from September to April.
• A grade of INP (in progress) will be given until the second enrolled term is completed.

NRSC 502A - Units: 1.5 - Hours: 3-0-0

Advanced Topics in Cellular Neuroscience II
Seminar on current topics in Cellular Neuroscience.

Notes:
• Registration in NRSC 502A is mandatory (after completion of NRSC 501A) every year the student is enrolled in the graduate program.
• The course runs from September to April.
Prerequisite(s): NRSC 501A or NRSC 501B.
Grading: INP, COM, N, F.

NRSC 502B - Units: 1.5 - Hours: 3-0-0

Advanced Topics in Cognitive Neuroscience II
Seminar on current topics in Cognitive Neuroscience.

Notes:
• Registration in NRSC 502B is mandatory (after completion of NRSC 501B) every year the student is enrolled in the graduate program.
• The course runs from September to April.
Prerequisite(s): NRSC 501A or NRSC 501B.
Grading: INP, COM, N, F.

NRSC 587 - Units: 1.5-3.0

Advanced Topics in Neuroscience
Topics of current interest in Neuroscience.

Notes:
• May be taken more than once for credit in different topics with permission of the program.
• Pro Forma required.
Prerequisite(s): Permission of the program.

NRSC 590 - Units: 1.5-3.0

Directed Studies in Neuroscience
Research projects or directed readings.

Notes:
• May be taken more than once for credit in different topics with permission of the program.
• Pro Forma required.
Prerequisite(s): Permission of the program.

NRSC 599 - Units: 9.0-12.0

MSc Thesis
A thesis comprising an original scientific study and/or scientific analysis of a problem germane to contemporary neuroscience.

Notes:
Students who have completed equivalent prerequisites may request permission to register in the course.

Prerequisite(s):
• NRSC 595, or
• permission of the program.
Grading: INP, COM, N, F.

NRSC 600A - Units: 1.5

Formerly part of NRSC 600
Fundamentals of Cellular Neuroscience
Provides a foundational basis in neuroscience and comprehensive instruction in cellular, molecular, and systems neuroscience.

Notes:
• Credit will be granted for only one of NRSC 600A, NRSC 600B. 

NRSC 600B - Units: 1.5

Formerly NRSC 600
Fundamentals of Cognitive Neuroscience
Provides a foundational basis in neuroscience and comprehensive instruction in behavioral and cognitive neuroscience.

Notes:
• Credit will be granted for only one of NRSC 600B, NRSC 600A.

NRSC 601A - Units: 1.5

Advanced Topics in Cellular Neuroscience I
Seminar on current topics in Cellular Neuroscience.

Notes:
• For admitted Neuroscience students, this course is required in the first year of their program.
• The course runs from September to April.
• A grade of INP (in progress) will be given until the second enrolled term is completed.

NRSC 601B - Units: 1.5

Advanced Topics in Cognitive Neuroscience I
Seminar on current topics in Cognitive Neuroscience.

Notes:
• For admitted Neuroscience students, this course is required in the first year of their program.
• The course runs from September to April.
• A grade of INP (in progress) will be given until the second enrolled term is completed.

NRSC 602A - Units: 1.5

Advanced Topics in Cellular Neuroscience II
Seminar on current topics in Cellular Neuroscience.

Notes:
• Registration in NRSC 602A is mandatory (after completion of NRSC 601A) every year the student is enrolled in the graduate program.
• The course runs from September to April.
Prerequisite(s): NRSC 601A or NRSC 601B.
Grading: INP, COM, N, F.

NRSC 602B - Units: 1.5

Advanced Topics in Cognitive Neuroscience II
Seminar on current topics in Cognitive Neuroscience.

Notes:
• Registration in NRSC 602B is mandatory (after completion of NRSC 601B) every year the student is enrolled in the graduate program.
• The course runs from September to April.
Prerequisite(s): NRSC 601A or NRSC 601B.
Grading: INP, COM, N, F.

NRSC 687 - Units: 1.5-3.0

Advanced Topics in Neuroscience
Topics of current interest in Neuroscience.

Notes:
• May be taken more than once for credit with permission of the program.
• Pro Forma required.
Prerequisite(s): Permission of the program.

NRSC 690 - Units: 1.5-3.0

Directed Studies in Neuroscience
Research projects or directed readings.

Notes:
• May be taken more than once for credit with permission of the program.
• Pro Forma required.
Prerequisite(s): Permission of the program.

NRSC 693 - Units: 3.0

Candidacy Examination
The Candidacy exam will consist of a defense of a written proposal on the student’s proposed dissertation research project and an oral exam based on the background material and research components of the proposal. The exam committee will be composed of a chair and at least three examiners.

Note: Students enrol in NRSC 693 upon admission to the PhD program and remain enrolled until all candidacy requirements are complete.

Grading: INP, COM, N, F.

NRSC 699 - Units: 21-39

PhD Dissertation
A dissertation containing an original scientific study which adds new knowledge to the field of neuroscience.

Notes:
• Students who have completed equivalent prerequisites may request permission to register in the course.
• Students possessing a MSc will require 21 units to fulfill the program requirements.
• Students possessing a BSc will require 30 units to fulfill the program requirements.

Prerequisite(s):
• NRSC 693, or
• permission of the program.
Grading: INP, COM, N, F.

NUED

Nursing, Advanced Practice: Nurse Educator Option

School of Nursing
Faculty of Human and Social Development

All nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

Courses offered by the School of Nursing are also found under the following course codes: NUHI, NUNP, NURA, NURP, and NURS.

NUED 570 - Units: 1.5

Engaging with Pedagogy: Teaching and Learning in Nursing Education
Prepares students to explore and critically examine the philosophical, theoretical and ethical perspectives informing pedagogy in nursing education.

Note: Credit will be granted for only one of NUED 570, NURA 530.
NUED 571 Units: 1.5
Critical Pedagogy in Nursing Education and Evaluation
Students identify and critique ideologies and discourses relevant to teaching, learning, and evaluation.

Note: Credit will be granted for only one of NUED 571, NURA 531.

Prerequisite(s): NUED 570.

NUED 572 Units: 1.5
Intersectoral Course and Curriculum Design in Nursing Education
Students apply theoretical and critical knowledge in the development of nursing curriculum, courses and learning activities for intersectoral nursing education practice.

Note: Credit will be granted for only one of NUED 572, NURA 532.

Prerequisite(s): NUED 570.

NUED 573 Units: 1.5
Nurse Educator Practice I
Students will have opportunities to further integrate their evolving knowledge of Advanced Practice Nursing, Nurse Educator option through working with expert teachers in clinical, academic, and/or community settings.

Pre- or Corequisite(s): NUED 570.

Grading: INC, COM, N, F.

NUED 574 Units: 1.5
Nursing Education Practice and Curriculum Design
Students further integrate knowledge of Advanced Practice Nursing as a Nurse Educator through teaching practice and curriculum design in clinical, academic and/or community practice settings. In collaboration with a field guide, students engage in a minimum of 104 practice hours.

Prerequisite(s):
• NUED 570 and NUED 573 or,
• permission of the department.

Grading: INC, COM, N, F.

NUED 577 Units: 1.5
Nursing and Health Information Science
School of Nursing
Faculty of Human and Social Development
Specifically for Double-Degree MN option in Nursing and Health Information Science.

All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings. Courses offered by the School of Nursing are also found under the following course codes: NUED, NUNP, NURA, NURP, and NURS.

NUED 578 Units: 3.0
Research Project
Student are required to conduct a major research project encompassing both the health informatics and nursing disciplines under the co-supervision of a faculty member from each School. The project is intended to facilitate synthesis of students’ graduate experience and contribute to their development as leaders in health informatics and nursing.

NUED 579 Units: 6.0
Thesis
Student working independently, with faculty guidance from both Nursing and Health Information Science, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. For the completion of the course, it will be required to be submitted to the Faculty of Graduate Studies.

NUED 580 Units: 1.5
Pharmacological Interventions in Health and Illness
Students gain advanced knowledge of pharmacology, including pharmacokinetics and pharmacodynamics, as well as evidence informed practice in the selection, prescription and monitoring of drugs to treat diseases, conditions and injuries. Students learn to select drug therapy based on knowledge of pharmacology, drug interactions, client health history and disease, disorder or condition. Students prepare to write prescriptions that meet provincial and federal standards and legislative requirements, including responsibilities relevant to prescription and management of controlled substances.

NUNP Units: 1.5
Pharmacological Interventions in Health and Illness
Students gain advanced knowledge of pharmacology, including pharmacokinetics and pharmacodynamics, as well as evidence informed practice in the selection, prescription and monitoring of drugs to treat diseases, conditions and injuries. Students learn to select drug therapy based on knowledge of pharmacology, drug interactions, client health history and disease, disorder or condition. Students prepare to write prescriptions that meet provincial and federal standards and legislative requirements, including responsibilities relevant to prescription and management of controlled substances.

NUNP 531 Units: 1.5
Advanced Assessment and Diagnostic Reasoning
Theory
The theoretical knowledge, judgment, skills, and abilities required by advanced practice nurses, to assess individuals across the lifespan, families and communities. Includes comprehensive and holistic health assessments that integrate the psychosocial, emotional, ethnic, cultural, and spiritual dimensions of health, health promotion and disease prevention, and diagnostic reasoning. Integration of an advanced practice nursing perspective will help students critique various approaches to assessment of health and illness.

Notes:
• Credit will be granted for only one of NUNP 540, NUNP 533.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite course they may be required to complete both corequisites again the next time they are offered.

Prerequisite(s): NUNP 531 and NUNP 532.
Corequisite(s): NUNP 541.
COURSE LISTINGS NUNP

NUNP 541 Units: 1.5
Advanced Assessment and Diagnostic Reasoning Practice
An opportunity for 150 hours of practice experience through the application of theoretical knowledge required by advanced practice nurses, to assess individuals across the lifespan, families and communities. The focus is on the development of students’ knowledge, skills and abilities related to the application of core nurse practitioner (NP) competencies of client care, quality improvement and research, leadership, and education. There will be two required onsite components in this course.

Notes:
• Credit will be granted for only one of NUNP 541, NUNP 533.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite course they may be required to complete both corequisites again the next time they are offered.
• Students will be required to demonstrate knowledge and skills obtained in NUNP 531 and NUNP 532 upon enrolment in NUNP 540 and NUNP 541 if 12 months or more has lapsed between their completing these courses and enrolling in NUNP 540 and NUNP 541.

Prerequisite(s): NUNP 531 and NUNP 532.
Corequisite(s): NUNP 540.
Grading: INC, COM, N, F.

NUNP 543 Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: I (Theory) (Adult I)
Advanced practice nursing with persons who experience episodic illness conditions, chronic diseases, and complex health challenges. Particular attention is paid to theoretical perspectives and skill development related to nurse practitioner core competencies with culturally diverse young to middle-aged adults and families. Selected concepts, theories, and research associated with health promotion and maintenance, and illness prevention are explored within the community context. Students will receive a letter grade upon completion.

Notes:
• Credit will be granted for only one of NUNP 543, NUNP 534, NUNP 535.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
• Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540 and NUNP 541 upon enrolment in NUNP 543/544 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 543/544.

Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541.
Corequisite(s): NUNP 543.
Grading: INC, COM, N, F.

NUNP 544 Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: I (Practice) (Adult I)
An opportunity for 150 hours of practice experience through which students engage in advanced practice nursing under the guidance of a course instructor and clinical preceptor. Integration of philosophical, theoretical, and methodological perspectives gleaned from 543 as well as from core courses within the program is sought. There will be a required onsite component to this course. Upon completion of the practice component, students will receive a pass/fail grade.

Notes:
• Credit will be granted for only one of NUNP 544, NUNP 534, NUNP 551.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
• Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540 and NUNP 541 upon enrolment in NUNP 543/544 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 543/544.

Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541.
Corequisite(s): NUNP 546.

NUNP 546 Units: 1.5
Integrated Primary Health Care and Adv Practice Nurs Practica II
An opportunity for 150 hours of practice experience through which students engage in advanced practice nursing under the guidance of a course instructor and clinical preceptor. Integration of philosophical, theoretical, and methodological perspectives gleaned from 545 as well as from core courses within the program is sought. There will be a required onsite component to this course. Upon completion of the practice component, students will receive a pass/fail grade.

Notes:
• Credit will be granted for only one of NUNP 544, NUNP 535, NUNP 561.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
• Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543 and NUNP 544 upon enrolment in NUNP 545 and NUNP 546 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 545 and NUNP 546.

Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544.
Corequisite(s): NUNP 545.
Grading: INC, COM, N, F.

NUNP 547 Units: 1.5
Integrated Primary Health Care and Adv Practice Nurs Theory III
Advanced practice nursing with persons experiencing episodic illness conditions, chronic diseases, and complex health challenges. Particular attention is paid to theoretical perspectives and skill development related to nurse practitioner core competencies with culturally diverse older adults and families. Selected concepts, theories, and research associated with health promotion and maintenance, illness prevention, chronic disease management, and end of life care are explored within the community context. Upon completion students receive a letter grade.

Notes:
• Credit will be granted for only one of NUNP 547, NUNP 534, NUNP 550.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
• Students will be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543 and NUNP 544 up to NUNP 545 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 545 and NUNP 546.

Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544.
Corequisite(s): NUNP 545.
### NUNP 548 - NURS 520

#### NUNP 548 Units: 1.5
**Integrated Primary Health Care and Adv Pract Nurs Practica III**

An opportunity for 150 hours of practice experience through which students engage in advanced practice nursing under the guidance of a course instructor and clinical preceptor. Integration of philosophical, theoretical and methodological perspectives gleaned from 547 as well as from core courses within the program is sought. There will be a required onsite component to this course. At the completion of the practice component, students will receive a pass/fail grade.

**Notes:**
- Credit will be granted for only one of NUNP 548, NUNP 534, NUNP 551.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
- Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, and NUNP 544, NUNP 545, and NUNP 546 upon enrollment in NUNP 547 and NUNP 548 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 547 and NUNP 548.

**Prerequisite(s):** All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544, NUNP 545, NUNP 546.

**Corequisite(s):** NUNP 547.

**Grading:** INC, COM, N, F.

#### NUNP 593 Units: 1.5
**Capstone Synthesis**
The culminating educational experience for NP students, and the singular opportunity for faculty members to assess students’ evolution toward the terminal goals of the MN-NP program. Serves as an evaluation instrument in which students’ development of health policy and enactment of advanced practice nursing will be explored.

**Pre- or Corequisite(s):**
- NURA 516 or;
- permission of the department.

**Grading:** INC, COM, N, F.

### NURA

#### NURA Nursing, Advanced Practice: Nurse Leadership Option School of Nursing Faculty of Human and Social Development

All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

Courses offered by the School of Nursing are also found under the following course codes: NUED, NUHI, NUNP, NURA, and NURP.

#### NURA 516 Units: 1.5
**Advancing Nursing Practice**
Exploration of advanced practice nursing leadership roles and competencies with a focus on the patient/client and the nurses/nursing spheres of influence. Collaboration and consultation competencies as they relate to client-centred care and interprofessional/intersectoral teams and working with organizations will also be explored.

**Pre- or Corequisite(s):**
- NURS 520; or
- permission of the department.

#### NURA 517 Units: 1.5
**Leading in Practice Settings**
Integration of students’ evolving knowledge of Advanced Practice Nursing through practice with a particular population. In collaboration with faculty and a field guide, students develop a personalized learning plan that focuses on clinical leadership, consultation, collaboration and research competencies. Students also participate in an online community with their peers for a total of 104 practice hours.

**Pre- or Corequisite(s):**
- NURS 520; or
- permission of the department.

**Grading:** INC, COM, N, F.

#### NURA 518 Units: 1.5
**Health Policy and Praxis**
Provides an applied approach to the concepts, conceptual frameworks, procedures and techniques of evidence-based health policy and politics. Through learning activities and in collaboration with a field guide, students engage in a minimum of 104 practice hours to enhance understanding of policy-making processes and how evidence can integrate with policy in the health sector and advanced practice nursing.

**Pre- or Corequisite(s):**
- NURA 516 or;
- permission of the department.

**Grading:** INC, COM, N, F.

#### NURA 519 Units: 1.5
**Leadership for Health Systems**
Exploration of the influences and effects of contemporary leadership practices related to health systems and organizations. The impact of current organizational structures and discourses on the delivery of health care, development of health policy and enactment of advanced practice nursing will be explored.

**Pre- or Corequisite(s):**
- NURA 516 or;
- permission of the department.

### NURS

#### NURS Nursing School of Nursing Faculty of Human and Social Development

All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

Courses offered by the School of Nursing are also found under the following course codes: NUED, NUHI, NUNP, NURA, and NURP.

#### NURS 500 Units: 1.5
**Scholarly Writing for Advanced Practice Nursing**
Review of academic writing fundamentals and processes. Students select topics relevant to their program focus and write a summary/critique of scholarly literature, a limited literature review, and an argument paper. Students learn to participate in peer review and revision to improve their writing.

#### NURS 503 Units: 1.5
**Qualitative Approaches to Research in Nursing**
Nursing phenomena are considered through a range of qualitative research approaches. Central to this process is an exploration of interrelationships between and among philosophical tenets and the construction of research questions, selection of methods, and theoretical influences on data interpretation and analysis for a range of qualitative approaches to research.

**Pre- or Corequisite(s):**
- NURS 508; or
- permission of the school.

#### NURS 509 Units: 1.5
**Evaluation of Health Care**
Exploration of concepts, theories and strategies for evaluating nursing care and health programs/services as applied to a range of health care settings.

**Pre- or Corequisite(s):**
- NURS 508 and NURA 516; or
- permission of the school.

#### NURS 510 Units: 1.5
**Applied Statistics in Nursing**
Students will develop familiarity with advanced statistical methods as they are applied to nursing and health care. These will include multiple linear regression, factor analysis, and multivariate analysis of variance. A brief introduction to structural equation modelling and psychometric methods may be offered.

**Pre- or Corequisite(s):**
- NURS 425; or
- permission of the school.

#### NURS 520 Units: 1.5
**Philosophy for Advanced Practice Nursing**
Explores philosophical discourses in the study of nursing, and introduces a philosophical framework that includes ontological, epistemological, and ethical knowledge for critique and expansion, including Indigenous perspectives. Emphasis is placed on paradigms of belief that inform and support innovation and creativity for human flourishing in advanced practice nursing.

**Note:** Credit will be granted for only one of NURS 520, NURS 506, NURA 511, NURA 512.
NURS 521  Units: 1.5  
Formerly: NURS 507  
Advanced Practice Nursing and Professional Identity  
Explores nursing as an academic field of study with emphasis on theories, including Indigenous perspectives that inform and shape the discipline of nursing, professional identity, and advanced practice nursing. Critique, expansion, and limits of theory are examined within a philosophical framework of ontological, epistemological, and ethical congruence.  
Note: Credit will be granted for only one of NURS 521, NURS 507, NURA 512, NURA 513.  
Prerequisite(s): NURS 520.  
NURS 522  Units: 1.5  
Formerly: NURS 514  
Nursing Ethics for Health System Transformation  
Explores various theories, including decolonizing practices and Indigenous perspectives that inform ethics for advanced practice nursing, collaboration, decision-making, and change in light of health care system trends, issues and roles for nurses. Critique, expansion, and limits of ethics are examined within a philosophical framework of ontological, epistemological, and ethical congruence.  
Note: Credit will be granted for only one of NURS 522, NURS 514, NURA 514.  
Prerequisite(s): NURS 520.  
NURS 524  Units: 1.5  
Formerly: NURS 502B  
Evidence for Advanced Practice Nursing  
Critique, expansion and limits of research are examined within a researcher pathway and philosophical framework. Understand and develop competencies of knowledge synthesis and statistical literacy as a basis for using evidence in advanced practice nursing and health policy. Distinguish among quality improvement, program evaluation and research.  
Notes:  
• Credit will be granted for only one of NURS 524, NURS 502B, NURS 508, NURA 515.  
• Students who have equivalent undergraduate level statistics and research course successfully completed within the past five years may request permission of the school to register in the course.  
NURS 525  Units: 1.5  
Formerly: NURS 502A  
Disciplinary Research for Advanced Practice Nursing  
Develop an understanding of research processes comprising critical analysis of existing knowledge, including Indigenous perspectives, creating relevant research questions, discerning appropriate methodologies, and critiquing research within interpretive approaches and statistical literacy. Critique, expansion, and limits of research are examined within a researcher pathway, philosophical framework, and the integral role of research in advanced practice nursing.  
Notes:  
• Credit will be granted for only one of NURS 525, NURS 502A, NURS 507, NURS 508, NURA 512, NURA 513.  
• Students who have equivalent undergraduate level statistics and research course successfully completed within the past five years may request permission of the school to register in the course.  
NURS 549  Units: 1.5  
Health Services Research  
This course introduces nurses to health services research and examines the contributions that nurses make to this field of inquiry and to the health care system. Issues of significance for nurses and the knowledge nurses need to understand and engage in nursing health services research are explored. Key concepts such as population health, health care delivery, health policy, quality of care and related research methods will be examined.  
Prerequisite(s): permission of the department.  
NURS 568  Units: 1.5  
Trends and Issues in Advanced Practice Nursing  
Students have the opportunity to explore the notion of advanced practice nursing (APN) and to consider the mandate, competencies, and divergent perspectives and knowledge bases related to APN as they challenge and extend the boundaries of nursing practice and advance the profession. Students will consider issues related to the definitions, competencies, legal, and ethical issues related to APN locally, nationally and internationally.  
Note: Not open for credit to students with credit in all of NURS 565, NURS 566, NURS 567.  
Grading: INC, COM, N, F.  
NURS 590  Units: To be determined  
Directed Studies  
An opportunity for students to develop individual studies at the graduate level (e.g., directed readings, research project etc.) with the supervision of one or more faculty members. A plan of study including focus, credit value and evaluation method is developed in consultation with a faculty member and must be approved by the graduate adviser prior to registering in this course.  
Notes:  
• May be taken more than once for credit in different topics with permission of the school.  
• Pro Forma required.  
NURS 596  Units: 1.5  
Nursing Scholarship Integration and Dissemination  
Exploration of creative ways to integrate and disseminate what students have learned from the Master of Nursing program. Students produce a scholarly paper, present their work, and respond to questions.  
Note: Credit will be granted for only one of NURS 596, NURS 598.  
Grading: INP, INC, COM, N, F.  
NURS 598  Units: 3.0  
Practice Project  
Students will complete a project that is creative, innovative, and contributes to scholarly nursing practice in an area of professional interest. The project is intended to facilitate synthesis of students’ graduate experience and contribute to their development as advanced practice nurses. The project is an alternative to the Thesis Option (NURS 599). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.  
Notes:  
• Credit will be granted for only one of NURS 598, NURS 596.  
• The examining committee of a student sitting a non-thesis oral will be comprised of a supervisor, a committee member and a Chair.  
Grading: INP, INC, COM, N, F.  
NURS 599  Units: 6.0  
Thesis  
Students working independently, with faculty guidance, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. The thesis option is an alternative to the Practice Project (NURS 598). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.  
Grading: INP, COM, N, F.  
NURS 601  Units: 1.5  
Philosophy in Nursing  
Explores the range of philosophical schools of thought and traditions that have influenced the development of nursing knowledge in the Western world. Students examine contemporary philosophical perspectives to prepare students to participate in and contribute to knowledge development that will shape the evolution of the discipline.  
NURS 602  Units: 1.5  
Epistemological Discourses in the Study of Nursing  
Explores the current state of theorizing that underpins nursing’s disciplinary and knowledge claims.  
Pre- or Corequisite(s):  
• NURS 601; or  
• permission of the department.  
NURS 604A  Units: 1.5  
Research Methodology for Nursing and Health Care: Qualitative  
Explores assumptions and claims underlying qualitative methodologies that inform research in professional nursing practice and health care.  
Notes:  
• Credit will be granted for only one of NURS 604, NURS 604A.  
• NURS 604A is not a pre- or co-requisite of NURS 604B.  
Prerequisite(s): NURS 601.  
NURS 604B  Units: 1.5  
Research Methodology for Nursing and Health Care: Quantitative  
This portion of the course will explore assumptions and biases underlying various quantitative methodologies that inform research in professional nursing practice and health care. We will examine quantitative research designs with particular emphasis on their appropriateness for addressing nursing and health problems. Issues specific to the design of nursing health care studies are explored.  
Notes:  
• Credit will be granted for only one of NURS 604, NURS 604B.  
• NURS 604A is not a pre- or co-requisite of NURS 604B.  
Prerequisite(s): NURS 601.
NURS 620 - PAAS 580

NURS 620  Units: 1.5 or 3.0
Research Internship
Research Internships are arranged with a specific faculty member and may be taken over one or several terms. During the Research Internship, a learner will have hands-on experiences with several aspects of research, e.g. the conceptualization of a study, study design, applying for funding, obtaining ethical approval, accessing the field, collecting and analyzing data, writing, and knowledge translation.
Prerequisite(s): Permission of the school.
Grading: INP, COM, N, F.

NURS 621  Units: 1.5
Doctoral Seminar
Provides students with opportunities to engage in dialogue about the contribution of doctoral education to the academic discipline and the professional practice of nursing. Students examine issues relevant to the nursing discipline and meet with established doctorally prepared scholars as they consider possibilities for research and scholarship within their own doctoral studies.
Note: This seminar course takes place over two terms.
Grading: INP, COM, N, F.

NURS 622  Units: 1.5
Dissertation Seminar
Offers opportunities for students to engage in dialogue about topics that will support their preparation for doctoral candidacy exams and dissertation research. Students actively participate in the planning and process of the course, taking leadership roles and presenting their own scholarly work.
Grading: INP, COM, N, F.

NURS 630  Units: 1.5 or 3.0
Teaching Internship
Teaching Internships may be arranged with a specific faculty member and may be taken over one or several terms. During the Teaching Internship, a student will engage with several aspects of nursing education, e.g. classroom or on-line teaching, educational research initiatives and/or writing a paper for publication.
Note: Pro Forma required.
Prerequisite(s): Permission of the school.
Grading: INP, COM, N, F.

NURS 679  Units: 1.5-4.5
Research and Scholarship Seminar
Based on an understanding of Scholarship as a social and communal activity, the course provides students with opportunities to have conversations about research, scholarly activity, and topics relevant to becoming stewards of the discipline. Students and faculty decide on topics, and share responsibility for organizing sessions and speakers.
Note: May be taken more than once for credit with permission of the program to a maximum of 4.5 units.
Grading: INP, COM, N, F.

NURS 680  Units: 1.5-4.5
Special Topics in Research Methods
Based on student demand, courses on the following focused topics will be organized for individuals or groups of students: issues of measurement, evaluation research, grounded theory, ethnography, hermeneutics and phenomenology, discourse analysis, historical analysis, instrument development and testing and participatory action research. This research-focused course is available to small groups of interested students and/or individuals by faculty members and/or visiting faculty.
Notes:
- May be taken more than once for credit in different topics with permission of the school to a maximum of 4.5 units.
- Pro Forma required.
- Students will be required to take 1.5 units of NURS 680 coursework and can, with permission of their program supervisor, enrol in as many as 4.5 units of NURS 680 coursework.

NURS 690  Units: 1.5 or 3.0
Directed Studies
Provides opportunities for students to develop individual studies at the doctoral level (e.g., directed readings, research project etc.) with the supervision of one or more faculty members. A plan of study including focus, credit value and evaluation method is developed in consultation with a faculty member and must be approved by the graduate adviser prior to registering in this course. We encourage students interested in a research topic to register for a NURS 680 course rather than a NURS 690.
Note: Pro Forma required.
Prerequisite(s): Permission of the school.

NURS 693  Units: 3.0
Candidacy Examination
Students enrol in NURS 693 to prepare for their candidacy examination that includes: 1) completing candidacy exam papers or open-book exam and 2) successfully developing and defending a research proposal. Both milestones require an oral examination. The content of the papers or exam is related to coursework, the substance and methodology of students’ research interests, and provides a basis for proposal development. Must be completed prior to registration in NURS 699.
Grading: INP, COM, N, F.

NURS 699  Units: 30.0
Dissertation
All doctoral students are required to prepare a dissertation upon which a public examination and defense is conducted. The dissertation must qualify as a significant and original contribution to disciplinary knowledge.
Prerequisite(s): NURS 693.
Grading: INP, COM, N, F.

PAAS 500  Units: 1.5
Theories of Pacific Region Societies
Offers a critical review of contemporary social theory pertinent to the study of Pacific and Asian societies. Drawing on various scholarly approaches from the fields of sociology, anthropology, political science and history, readings will address the institutions, mechanisms and values involved in social, cultural and political transformations. Focuses on current theory about the nature and scope of globalization, commodification, or modernization, with particular emphasis on the effect of these on local social and cultural practice.

PAAS 501  Units: 1.5
Cultural, Linguistic and Literary Theories in Asia-Pacific Studies
Offers a critical review of contemporary cultural and literary theory pertinent to the study of Pacific and Asian societies. Drawing from various scholarly approaches of Marxism, post-structuralism, semiotics, feminist psychoanalysis, and critical art history, readings will address the often implicit meanings and conceptual boundaries encoded in cultural and artistic products. Explores the consequences of modernization and global vs. local realms, with a focus on the disturbances and complexities they generate in the subjective realm, where they often form the basis of creative expressions.

PAAS 520  Units: 1.5
Special Topics in Pacific Studies
Focuses on an area of faculty specialization. The topic will vary but may include one of the following: migration studies; state and civil society; the politics of culture; global and local relations; and gender and ethnic identity.

PAAS 521  Units: 1.5
Special Topics in Asia-Pacific Literature, Linguistics and Culture
Focuses on an area of faculty specialization. The topic will vary but may include one of the following: theatre studies; postcolonial literature; linguistics; popular culture; cinema studies; and critical assessments of the works of individual authors and artists.

PAAS 550  Units: 1.5
Research Methodologies
Required of all graduate students. We will work through the mechanics of designing a thesis, from initial conceptualization through to methodologies and analysis. Students will design a full thesis proposal and participate in a mock defense.

PAAS 580  Units: 1.5
Advanced Readings in Japanese, Chinese or Indonesian
Critical reading and analysis of advanced works in the original language.

</table>
PHIL 591 - PHSP 542

PHIL 591 Units: 1.5
Research Methods Seminar
Exclusively for graduate students in philosophy. Aims to help students broaden their reading base and deepen their communication and critical skills by engaging with philosophical works and core issues in a variety of fields.

PHIL 592 Units: 1.5
Professional Development Practicum
Students must attend and demonstrate participation in philosophy colloquia, including regular presemesters, throughout the year. Attendance and evidence of participation will be tracked by the Graduate Adviser and Graduate Coordinator.
Grading: INP, COM, N, F.

PHIL 598 Units: 4.5
Major Research Project
Students must complete a Major Research Project under the guidance of a supervisor and committee member. This project will normally take the form of a journal article-type submission. Normally the Major Research Project will be completed during the Summer Session following the first Winter Session. The Major Research Project is subject to Oral Examination by a committee.
Grading: INP, COM, N, F.

PHIL 693 Units: 3.0
Candidacy Examination
Grading: INP, COM, N, F.

PHIL 699 Units: 18.0
PhD Dissertation
Prerequisite(s): PHIL 693.
Grading: INP, COM, N, F.

PHSP

Public Health and Social Policy
School of Public Health and Social Policy
Faculty of Human and Social Development

PHSP 501 Units: 1.5
Public Health Epidemiology
An applied approach grounded in population-based data. Focuses on the distributions and determinants of health, disease, disability and mortality. Topics include: characteristics and dynamics of health and disease in human populations, including epidemiological strategies in examining the natural history of disease and the impact of disease on the population; population health assessment, surveillance and emerging social epidemiological models that attend to complex models of causation.

PHSP 502 Units: 1.5
Public Health Biostatistics
Uses an approach grounded in population-based data. Builds upon PHSP 501, and focuses on understanding health inequities across diverse settings and populations using biostatistics and epidemiological data to understand the life course determinants of health. Includes an overview of design and analysis of health-related data collection methods including survey methods. The basic concepts and methods of epidemiological biostatistical analysis are covered.
Prerequisite(s): PHSP 501.

PHSP 503 Units: 1.5
Public Health Practice I: Population Health and Health Promotion
Contributes to students’ theoretical and practical understanding of population health and its determinants as well as diverse constructions of health as a foundation for health promotion. Considers health promotion principles, models and approaches as well as inequalities in health in the context of social justice and cultural safety. Fosters understanding of health and its determinants, health inequalities in Canada and globally, and a more in-depth understanding of at least one area of health promotion.

PHSP 504 Units: 1.5
Supportive Environments and Healthy Public Policy
Social environmental factors that impact the health of the community. Using a social-ecological model, attends to understanding the integral role of policy in the development of supportive environments. With an emphasis on critical analysis of health policy, students explore the development of healthy public policy in the management of public health concerns.

PHSP 505 Units: 1.5
Public Health Practice II: Public Health Interventions
Focuses on the range of evidence-informed public health interventions employed in public health practice. Based on the BC Core Public Health Functions Framework, examines strategies used to improve the health of a population including provision of public health prevention and improvement programs, disease and injury prevention, environmental health and health emergency management; strategies for health protection, health promotion, disease surveillance; public health capacity and infrastructure; the impact of public health services on health inequity.

PHSP 506 Units: 1.5
Public Health Research and Evaluation
Emphasis on evidence-informed practice, and examining community-based research strategies to explicate applied knowledge within the field of public health. Topics include literature synthesis approaches; program evaluation; qualitative research methods; and mixed methods.

PHSP 507 Units: 1.5
Practicum
All graduate diploma students are required to complete a 225 hour practicum. This planned, supervised and evaluated practicum will usually be completed at the end of the student’s program of study. Graduate diploma students who complete the diploma and wish to then complete the Master of Public Health will be required to take PHSP 589.
Prerequisite(s): All of PHSP 501, PHSP 503, PHSP 505.
Corequisite(s): PHSP 508A.
Grading: INP, COM, INC, N, F.

PHSP 508A Units: 1.5
Formerly: PHSP 508
Culminating Report
As a culmination of the practicum experience all Graduate Diploma students are required to complete a report that demonstrates a synthesis and integration of coursework and other learning experiences in preparation for professional public health practice. Graduate diploma students who complete the diploma and wish to then complete the Master of Public Health will be required to take PHSP 588B.
Prerequisite(s): All of PHSP 501, PHSP 503, PHSP 505.
Corequisite(s): PHSP 507.
Grading: INP, COM, INC, N, F.

PHSP 508B Units: 3.0
Culminating Report
As a culmination of the practicum experience all Master of Public Health students are required to complete a report that demonstrates a synthesis and integration of coursework and other learning experiences in preparation for professional public health practice.

Notes:
• Credit will be granted for only one of PHSP 588B, PHSP 590 (if taken in the same topic).
• Students who register in PHSP 589 for 1.5 units over two terms may enrol in PHSP 506 concurrently.

PHSP 540 Units: 1.5
Knowledge Development in Public Health Nursing
Examines the history of public health nursing focusing on exemplary leaders engaged in creating change in their community. The emergence of nursing knowledge and understanding public health nursing as a synthesis of public health and nursing science is emphasized. Includes a critical examination of the roles of nurses in public health as well as exploring exemplary nurse led community based programs, services and policies related to disease prevention, health promotion and primary health care.

PHSP 541 Units: 1.5
Social Justice and Public Health Nursing
Emphasis on social justice as a philosophical base for public health nursing. From a critical perspective, students explore and compare theories of social justice. Drawing on personal and professional experience and using case examples, students explore the embodiment of social justice as ethical nursing practice.
Note: A requirement of this course is a condensed five-day on-campus seminar.

PHSP 542 Units: 1.5
Advanced Public Health Nursing Practice
Focuses on leadership and the conceptualization and application of advanced practice in public health nursing. Students engage in a critical analysis of advanced practice nursing as it relates to public health in Canadian and comparative contexts. Professional issues and advanced practice strategies are explored.
PHSP 543  Units: 1.5
Social Justice in Public Health
Explores social justice approaches to population health within inter-professional public health practice. Drawing on professional and personal experiences, students examine current public health priorities with a focus on health equity and health disparity.

PHSP 550  Units: 1.5
Perspectives in Social Policy and Public Health
Informed by values of social justice, equity and diversity, focuses on a range of theoretical and practical perspectives that critically assess social policy and practice and public health issues in Canada in historical, contemporary and comparative contexts.
Note: A requirement of this course is a condensed five-day on-campus seminar.

PHSP 551  Units: 1.5
Social Values, Ideologies, and Policy Analysis
Addresses how social determinants of health and well-being, including existing patterns of cultural, economic and political relations and resources, impact public policies and practices, and, in turn, how healthy public policy can positively affect social environments and determinants in Canadian communities and society. Graduate course in the Public Health and Social Policy program administered by the Faculty of Graduate Studies.

PHSP 552  Units: 1.5
Healthy Public Policy Strategies
Examines an assortment of public health approaches, including policy techniques and plans relating to health promotion, policy analysis and advocacy, capacity building, forming partnerships and collaborations, and strengthening communities. Also considers the importance of healthy public policies for various groups facing health disparities.

PHSP 589  Units: 1.5 or 3.0
Practicum
All MPH students are required to complete a 450 hour practicum. This planned, supervised and evaluated experience will usually be completed at the end of the student’s program of study.
Notes:
• Students must take a total of 3.0 units of PHSP 589 in their MPH program.
• May be taken part-time over two consecutive terms (1.5 units per term) or fulltime (3.0 units) in one term.
• The part-time practicum is only available in the Sep-Dec and Jan-Apr terms. The full time 3.0 unit practicum is only available in the Jan-Apr term.
• Students who register in PHSP 589 for 1.5 units over two terms may enrol in PHSP 580 concurrently.
• Students must pass both 1.5 unit sections of PHSP 589 in order to complete the course.
Prerequisite(s): All of PHSP 501, PHSP 502, PHSP 503, PHSP 504, PHSP 505, PHSP 506.
Corequisite(s): PHSP 508B.
Grading: INP, COM, INC, N, F.

PHSP 590  Units: 1.5-4.5
Directed Studies
Comprises individual studies involving directed readings, projects or special studies under the direction of a faculty member. A proposal is developed in consultation with a faculty member and includes a plan for the evaluation of the student’s work. The proposal must be approved by the Director or Program Manager before students are allowed to register.
Note: May be taken more than once for credit in different topics with permission of the program to a maximum of 4.5 units.

PHSP 591  Units: 1.5
Special Topics in Public Health Studies
Focuses on specific interests of students and faculty members in the School of Public Health and Social Policy.
Notes:
• Not open for credit to students with credit in any of HLTH 406, INGH 452, INGH 453, INTS 460, INTS 462 if in the same topic.
• May be taken more than once for credit in different topics with permission of the program.
• May be offered as a joint undergraduate and graduate class.

PHSP 599  Units: 6.0
Thesis
Students, working independently, with faculty guidance, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. The thesis option is an alternative to the Culminating Project (PHSP 598). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.
Grading: INP, COM, N, F.

PHYS 500A  Units: 1.5
Quantum Mechanics
Formerly part of PHYS 500
Topics may include angular momentum and symmetries, perturbation theory, scattering theory, density operators, quantum statistical mechanics.
Note: Credit will be granted for only one of PHYS 500, PHYS 500A.

PHYS 501A  Units: 1.5
Quantum Theory and Quantum Fields
Further topics in quantum theory, and an introduction to quantum field theory focussing on quantum electrodynamics.
Note: Credit will be granted for only one of PHYS 501A, PHYS 500B, PHYS 600A.
PHYS 534  Units: 1.5  
Radiotherapy Physics I  
Principles of dosimetry of ionizing radiation with emphasis on applications to radiotherapy and radiobiology. Provides the basics of linear accelerator design as well as design of X-ray generating apparatus; also provides basics of electron and photon interactions with media, energy deposition in media, and radiation protection and shielding.

PHYS 535  Units: 1.5  
Radiotherapy Physics II  
A continuation of 534. Covers the physics and applied dosimetry of current external and internal irradiation treatment techniques.

PHYS 539  Units: 1.5  
Radiation Dosimetry  
The fundamentals of radiation dosimetry, ionization cavity theories and radiation dosimetry protocols. A variety of absolute and relative dosimetry techniques are also covered, with hands-on experience provided through a series of lab exercises on medical linear accelerators. Monte Carlo simulation of radiation transport and dosimetry applications is introduced.

PHYS 540  Units: 1.5  
Medical Imaging  
Fundamental theory and application of medical imaging, including radiology, computed tomography, magnetic resonance imaging, ultrasound, and nuclear medicine imaging. Basic principles, image formation and reconstruction, imaging instrumentation and hardware, and current trends of each imaging modality will be given.

PHYS 544  Units: 1.5  
Topics in Radiation Biophysics  
Topics in radiation biophysics, including DNA strand breaks, cell survival curves, fractionation and dose rate effects, oxygen effect, relative biological effectiveness, tumour radiobiology, radiation pathobiology, radiobiological modelling, stochastic and deterministic effects, and molecular techniques in radiobiology.

PHYS 545  Units: 0.5  
Anatomy and Physiology for the Medical Physicist  
WebCT based course covering basics of anatomy and physiology. Aimed at students in medical physics who are interested in clinical and/or academic careers that will require interaction with radiation oncologists and other health care professionals.

PHYS 546  Units: 0.5  
Clinical Shadowing  
Shadowing course designed to give the student some insight into the clinical aspects of the medical physics profession. Under the guidance of a clinical physicist, students progress through a series of clinical areas. Modules illustrate the collaborative nature of the profession and the interaction with other medical professionals.

PHYS 550  Units: 1.5  
Topics in Condensed Matter Physics  
A selection of advanced topics in modern condensed matter physics.

PHYS 555  Units: 1.5  
Advanced Computing and Machine Learning for Physics and Astronomy  
An introduction to the concepts and essential tools of advanced computing and machine learning, via hands-on application to diverse areas of physics and astronomy. Topics may include: advanced distributed, concurrent and parallel computing; big data tools and the use of structured and unstructured data; neural networks and machine learning, including supervised and unsupervised systems; data exploration and visualization.

PHYS 560  Units: 0  
Colloquium  
Weekly physics and astronomy colloquium.
Grading: INP, COM, N, F.

PHYS 561  Units: 0.0  
Research Skills and Professional Development  
Introduction to professional methods and best practices in research.
Grading: INP, COM, N, F.

PHYS 580  Units: 1.0-3.0  
Directed Studies  
Notes:  
• May be taken more than once for credit.  
• Pro Forma required.

PHYS 599  Units: 7.5  
MSc Thesis  
Grading: INP, COM, N, F.

PHYS 662  Units: 0.0  
Research Seminar  
Presentation of the research that comprises the major portion of the student’s PhD thesis work in physics and astronomy in a departmental seminar, plus attendance at seminars given by other students. Students enroll in PHYS 662 during their preparation for the research seminar. This begins in the term immediately following completion of PHYS 693 and continues until the research seminar has been completed.

PHYS 693  Units: 3.0  
PhD Candidacy Examination  
Students enrol in PHYS 693 during their preparation for the candidacy examination. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed. The candidacy examination is to be completed no later than two years after the student first registers in (or transfers to) the PhD program.
Grading: INP, COM, N, F.

PHYS 699  Units: 33.0  
PhD Dissertation  
Corequisite(s): PHYS 693.
Grading: INP, COM, N, F.

POLI 505  Units: 1.5  
Problems of Political Analysis  
An examination of theoretical viewpoints in the study of politics.

POLI 507  Units: 1.5  
Comparative Policy and Governance  
The study of diverging governance practices and policy outcomes in different jurisdictions. Focuses on: policy determinants such as history, culture, institutions, and the economy; policy dynamics and processes such as agenda-setting and decision-making, networks and communities, and policy change; and policy styles and transfer, referring to the state’s ability to design, coordinate, implement and, learn from policy interventions. Students will review seminal studies and undertake a comparative policy project.

POLI 508  Units: 1.5  
Comparative Politics  
An examination of key issues and debates in the study of comparative politics. Involves a survey of the major literature in this field of political science.

POLI 509  Units: 1.5  
Political Theory  
An examination of key issues and debates in the study of political theory. Involves a survey of the major literature in this field of political science.

POLI 514  Units: 1.5  
Politics of the European Union  
An examination of key issues and debates in the study of the politics of the European Union. It will involve a survey of the major literature in the field of European politics.
Note: Credit will be granted for only one of POLI 514, POLI 533 (if taken in the same topic).

POLI 516  Units: 1.5  
Canadian Politics  
An examination of key issues and debates in the study of Canadian politics. Involves a survey of the major literature in this field of political science.

POLI 525  Units: 1.5  
Politics of Global Challenges  
Broad overview of changing patterns of politics and governance associated with globalization and the growth of global challenges, examined through study of concrete challenges in relation to each of the program’s four themes: Migration and Contested Borders; Political Economy and Development; (In)Security and Surveillance; Democracy and Human Rights.

POLI 533  Units: 1.5  
Themes in Contemporary Politics  
A seminar dealing with an important theme or themes in contemporary politics. The content will vary from year to year.
Note: May be taken more than once for credit with permission of the department.
POLI 540 - PSYC 504

POLI 540  Units: 1.5
International Relations
An examination of key issues and debates in the study of international relations. Involves a survey of the major literature in this field of political science.

POLI 580  Units: 3.0
Legislative Internship Report
Grading: INP, COM, N, F.

POLI 590  Units: 1.5
Directed Readings
Note: May be taken more than once for credit in different topics to a maximum of 3 units.

POLI 598  Units: 6.0
Major Research Paper
Based on an independent research project, normally 40-50 pages in length, under the guidance of the student’s supervisory committee. Normally completed during the first summer session.

POLI 599  Units: 9.0
Thesis
Grading: INP, COM, N, F.

POLI 600  Units: 1.5
Professional Development Seminar
A compulsory seminar for PhD students in Political Science that runs from September until April. Students are introduced to the professional aspects of the discipline including: how to write grant applications, how to teach effectively, how to design a syllabus and a CV, how to contribute to the administrative and intellectual community in their department and in political science more broadly.
Grading: COM, N, F.

POLI 605  Units: 1.5
Problems of Political Analysis
A further examination of theoretical viewpoints in the study of politics. Intended for doctoral candidates preparing for comprehensive examinations.

POLI 607  Units: 1.5
Also: ADMN 605
Comparative Policy and Governance
Reviews the challenges and trends confronting governments and society, diverging governance practices and outcomes across jurisdictions and policy domains. Reviews foundational concepts and theories of policy-making. Examines policy determinants such as history, culture, institutions, and the economy; policy dynamics and processes such as agenda-setting and decision-making, networks and communities, policy change and transfer. Students conduct research on selected issues.
Note: Credit will be granted for only one of POLI 607, POLI 507, ADMN 605.

POLI 608  Units: 1.5
Comparative Politics
An examination of key issues and debates in the study of comparative politics. Involves a survey of the major literature in this field of political science. Intended for doctoral candidates preparing for a comprehensive examination in the field.

POLI 609  Units: 1.5
Political Theory
An examination of key issues and debates in the study of political theory. Involves a survey of the major literature in this field of political science. Intended for doctoral candidates preparing for a comprehensive examination in the field.

POLI 610  Units: 1.5
Also: ADMN 604
Theories of Public Management
Explores different theories and approaches to understanding public administration and reform. Considers variations in three areas: political and constitutional authority, accountability and responsibility, and the roles of elected and non-elected officials; government structures, responsibilities for policy and service delivery, and distributed governance, and patterns and trends in central decision-making, budgeting, control, transparency, and citizen engagement. Students will review seminal comparative studies on administrative practice and reform and undertake a comparative study on a selected topic.
Note: Credit will be granted for only one of POLI 610, ADMN 604.

POLI 614  Units: 1.5
Politics of the European Union
An examination of key issues and debates in the study of the politics of the European Union. Involves a survey of the major literature in the field of European politics.
Note: Credit will be granted for only one of POLI 614, POLI 633 (if taken in the same topic).

POLI 616  Units: 1.5
Canadian Politics
An examination of key issues and debates in the study of Canadian politics. Involves a survey of the major literature in this field of political science. Intended for doctoral candidates preparing for a comprehensive examination in the field.

POLI 633  Units: 1.5
Themes in Contemporary Politics
A seminar dealing with an important theme or themes in contemporary politics. The content will vary from year to year.
Note: May be taken more than once for credit in different topics with permission of the department.

POLI 640  Units: 1.5
International Relations
An examination of key issues and debates in the study of international relations. Involves a survey of the major literature in this field of political science. It is intended for doctoral candidates preparing for a comprehensive examination in the field.

POLI 690  Units: 1.5
Directed Readings
Note: May be taken more than once for credit in different topics to a maximum of 3 units.

POLI 693  Units: 3.0
PhD Candidacy Examinations
Students enrol in POLI 693 for the duration of their preparation or their two candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed.
Grading: INP, COM, N, F.

POLI 699  Units: 30.0
Dissertation
Grading: INP, COM, N, F.

PSYC

Psychology
Department of Psychology
Faculty of Social Sciences

PSYC 500  Units: 1.5
Professional Development
Covers issues important to the academic and career success of graduate students in psychology. Topics include prerequisites to finding a job, preparing a curriculum vitae, the publication and review process, making presentations, obtaining grants, university policies (e.g., criteria and processes for tenure decisions), balancing family and career, and ethical issues in psychology.
Grading: INC, COM, N, F.

PSYC 501  Units: 1.0-6.0
Practicum in Applied Psychology
Practicum in an applied setting. 1 unit of credit equals approximately 100 hours.
Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
Grading: INP, COM, N, F.

PSYC 502  Units: 1.5-4.5
Research Apprenticeship
Notes:
• May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units.
• Pro Forma required.
• The student must consult with the instructor about the area of study prior to registration.

PSYC 503  Units: 4.0
Practicum in Clinical Psychology
Practicum in a clinical setting. 1 unit of credit is equivalent to approximately 100 hours.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology, and
• permission of the department.
Grading: INP, COM, N, F.

PSYC 504  Units: 1.5-6.0
Individual Study
Notes:
• May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
• Pro Forma required.
Prerequisite(s): Permission of the department.
PSYC 505 - Units: 4.0
Clinical Intervention Practicum
Practicum in a clinical setting with emphasis on various forms of intervention. 1 unit of credit is equivalent to approximately 100 hours.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology; and
• permission of the department.
Grading: INP, COM, N, F.

PSYC 506A - Units: 1.5
Psychology Clinic Practice
Supervised psychological practice in the Psychology Clinic, Department of Psychology.
Note: May be taken more than once for credit in different topics.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology; and
• permission of the department.
Grading: INP, COM, N, F.

PSYC 506B - Units: 1.5
Psychology Clinic Practice Test Mastery
Supervised test mastery in the Psychology Clinic, Department of Psychology.
Note: Credit will be granted for only one of PSYC 506A, PSYC 506B.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology; and
• permission of the department.
Pre- or Corequisite(s): PSYC 545.
Grading: INP, COM, N, F.

PSYC 507 - Units: 1.5
Personality
Notes:
• May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
• The specific content area will be designated prior to registration.

PSYC 512 - Units: 1.5-4.5
Research Practicum
Practicum in a research setting with emphasis on planning, conducting, analyzing, and/or writing up research results under the supervision of faculty.
Notes:
• May be taken more than once for credit in different topics.
• The student must consult with the proposed research supervisor about the content and nature of the research activity prior to registration and complete a Pro Forma. The content must differ from but may be related to 599 or 699.
Prerequisite(s): Permission of the department.
Grading: INP, COM, N, F.

PSYC 513 - Units: 1.5-6.0
Quantitative Analysis
Topical seminars on specialized issues related to quantitative analysis.
Notes:
• May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
• The specific content area will be designated prior to registration.

PSYC 517 - Units: 1.5
Research Methods in Psychology
Notes:
• May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
• The specific content area will be designated prior to registration.

PSYC 518 - Units: 1.5
Psychometric Methods
Topics typically include: historical background, sample descriptive statistics, norm referencing, (e.g., percentiles, Z-scores, T-scores), criterion referencing, sensitivity/ specificity, classical true score test theory, item response theory (IRT), reliability, validity, standard errors, test development, standards for clinical tests, and assessment of reliable change.

PSYC 520 - Units: 1.5
Survey of Social Psychology
In-depth examination of state-of-the-science theories and research in social psychology. Social thinking and social behaviour are explored through the study of individual processes (e.g., social cognition, motivation), interpersonal processes (e.g., social influence, helping, intimacy), and societal processes (e.g., group dynamics, intergroup relations, cultural and environmental influences). Emphasis is placed on the more recent advancements in social psychology and on the research interests and expertise of the instructor.

PSYC 521 - Units: 1.5
Human Motivation
Seminar review of theory and research examining human motivation. Special topics include goals, intrinsic and extrinsic motivation, social and achievement motivation, self-efficacy, self-regulation, unconscious motivation, and growth motivation. Emphasis is placed on the social and cognitive perspective on motivation.

PSYC 526 - Units: 1.5
Special Topics in Personality and Social Psychology
Topical seminars on specialized issues related to personality and social psychology.
Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 527 - Units: 1.5
Research Methods in Social Psychology
In-depth examination of state-of-the-science research methods in social psychology. The topics may include experimental and quasi-experimental research designs, survey research, cross-cultural and longitudinal methods, event-sampling methods, psychophysiological methods, implicit measure and priming techniques, content and narrative analysis, computer simulation, data analytical strategies, ethics. Emphasis is placed on the more recent advancements in research methods in social psychology and on the research interests and expertise of the instructor.

PSYC 530 - Units: 1.5
The Social Self
Seminar review of theory and research examining current social psychological research and theory on the self. Special topics include self-concept, self-esteem, motivation and the self, and the self in close relationships. Emphasis is placed on the more recent advancement in social and personality psychology of the self.

PSYC 532 - Units: 1.5
General Linear Model - Univariate
Presents a model-comparison approach to the analysis of a single dependent variable. Topics include simple and multiple regression involving continuous independent variables, categorical independent variables (ANOVA designs), and mixtures of the two (covariance analysis). Also covered will be logistic regression, data screening and outlier detection, testing of model assumptions, data transformation, and repeated measures models.

PSYC 533 - Units: 1.5
General Linear Model - Multivariate
Topics generally include multivariate multiple regression, principle component and factor analysis, canonical correlation analysis, multivariate analysis of variance, discriminant function analysis and logistic regression.
Prerequisite(s): PSYC 532.

PSYC 534 - Units: 1.5
Univariate Design and Analysis
An examination of various factorial designs for univariate data from an advanced perspective. For a number of frequently used designs (e.g., completely randomized, randomized block, and repeated measures), planned comparisons, tests of the models' assumptions, expected mean squares, and interpreting interactions (e.g., simple main effects) will be covered. Students will be required to learn and use statistical software packages, such as SPSS and SAS. Time and interest permitting, a brief introduction to other modelling procedures for response time and accuracy data will be offered.

PSYC 537 - Units: 1.5
Multilevel Modeling
Provides an introduction to concepts and practical application of multilevel models for nested data structures, including experimental and longitudinal data.
Prerequisite(s): PSYC 532.
PSYC 540  Units: 1.5  
History and Theory in Neuropsychology  
Survey of major topics and issues in clinical and experimental neuropsychology, including a historical introduction and recent material. Topics may include aphasia, agnosia, apraxia, agnphoria, other clinical syndromes, and hemispheric specialization.  
Note: Students who have completed an equivalent undergraduate human neuropsychology course may request permission to register in the course.  
Prerequisite(s):  
- PSYC 315; or  
- permission of the program.

PSYC 541  Units: 1.5  
Research Design and Methods in Neuropsychology  
Seminar on research methods and designs in studying brain/behavioural relationships, the strengths and limitations of various methods, and the populations and research questions for which they are used.  

PSYC 543  Units: 1.5  
Behavioural Neuroanatomy  
Introduction to human neuroanatomy, neurophysiology and neurochemistry, with an emphasis on relationships between structure, function and behaviour.  
Prerequisite(s): Permission of the department.

PSYC 545  Units: 1.5  
Neuropsychological Assessment  
In depth examination of general approaches and models for neuropsychological assessment. This includes evaluation of multiple areas of cognitive functioning, including attention, memory, executive functions, language, perceptual skills and motor abilities. Test interpretation, case analysis, and report writing skills will also be emphasized.  
Prerequisite(s):  
- PSYC 584; and  
- admission to a graduate program in Clinical Psychology.

PSYC 546A  Units: 1.5  
Advanced Neuropsychology: Children and Adolescents  
In depth examination of typical neurodevelopment and associated acquired and neurodevelopmental disorders of children and adolescents, including a discussion of cognitive and behavioural profiles and techniques of neuropsychological assessment.  
Prerequisite(s):  
- All of PSYC 506B, PSYC 540, PSYC 545, PSYC 584; and  
- admission to a doctoral program in Clinical Psychology; and  
- permission of the department.  
Grading: INC, COM, N, F.

PSYC 546B  Units: 1.5  
Advanced Neuropsychology: Adults  
In depth examination of typical neurodevelopment and associated acquired and neurodegenerative disorders of adults, including a discussion of cognitive and behavioural profiles and the techniques of neuropsychological assessment.  
Prerequisite(s):  
- All of PSYC 506B, PSYC 540, PSYC 545, PSYC 584; and  
- admission to a doctoral program in Clinical Psychology; and  
- permission of the department.  
Grading: INC, COM, N, F.

PSYC 547  Units: 1.5  
Neuropsychological Intervention in Adults  
Introduction to theory and techniques associated with management of neurological disorders. Topics include the relationship between impairment, disability, and handicap, current techniques in cognitive rehabilitation, and interventions with individuals and families.  
Prerequisite(s): Permission of the department.  
Grading: INC, COM, N, F.

PSYC 548  Units: 1.5  
Special Topics in Neuropsychology  
Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 549  Units: 1.5  
Neuropsychological Intervention in Children and Adolescents  
Introduction to theory, methods and techniques associated with management of neurological, neuropsychological and learning disorders in children and adolescents. Topics include the relationship among impairment, disability, and functional status, with current empirically-based approaches for remediation and/or compensation of cognitive and academic skill defects. Interventions will focus on individual children and families within both educational and social contexts.  
Note: Enrolment may be limited.  
Prerequisite(s):  
- Admission to a doctoral program; and  
- permission of the department.  
Grading: INC, COM, N, F.

PSYC 550A  Units: 1.5  
Environmental Psychology of the Built Environment  
Seminar review of theory and research in the environmental psychology of the built environment. The topics may include social design of buildings, human behaviour as it is related to built environments, environmental perception and cognition, and person-environment transactions in residences, neighbourhoods, schools, workplaces, retail stores, and public spaces.  
Note: Credit will be granted for one of PSYC 531, PSYC 550A.

PSYC 550B  Units: 1.5  
The Psychology of Nature, Sustainability, and Climate Change  
Seminar review of theory and research in the environmental psychology of natural world. The topics may include sustainability-related behaviour, psychological restoration from nature, resource management, sustainability, and the psychological aspects of climate change.  
Note: Credit will be granted for only one of PSYC 531, PSYC 550B.

PSYC 551  Units: 1.5  
History and Theories in Lifespan Psychology  
Seminar review of major classical and contemporary theoretical perspectives and their implications for the study of psychological development across the lifespan. Emphasis on differences among theoretical perspectives with respect to central developmental issues such as concepts of change, sources of development, and the universality of developmental laws and findings.

PSYC 552  Units: 1.5  
Infancy and Childhood  
Seminar review of theory and research examining psychological development from infancy through childhood. Special topics include personality/temperament, attachment, parent-child relations, and socialization process. Emphasis is placed on the role of the context in individual development.

PSYC 553  Units: 1.5  
Adult Development and Aging  
Seminar review of theory and research examining psychological processes during adulthood and aging. Specific topics include memory, intelligence, problem solving, personality, social processes, and mental health. Attention is also given to the biological and sociocultural contexts of these developments.

PSYC 554  Units: 1.5  
Advanced Analysis of Change and Variation  
The emphasis is the general linear mixed model for repeated measurements and other nested data structures. Both multilevel and structural equation models will be examined and applied to longitudinal data. Special topics include time invariant and time-varying covariates, evaluation of alternative time structures, change in factor-level outcomes and analysis of intensive repeated measures designs.  
Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.  
Prerequisite(s):  
- PSYC 532 and PSYC 533; or  
- permission of the department.

PSYC 555A  Units: 1.5  
Formerly part of PSYC 531  
Formerly PSYC 555A.

PSYC 555B  Units: 1.5  
Formerly part of PSYC 531  
The Psychology of Nature, Sustainability, and Climate Change  
Seminar review of theory and research in the environmental psychology of natural world. The topics may include sustainability-related behaviour, psychological restoration from nature, resource management, sustainability, and the psychological aspects of climate change.  
Note: Credit will be granted for only one of PSYC 531, PSYC 555B.

PSYC 556  Units: 1.5  
Cognitive Development in Adulthood and Aging  
Seminar review of theory and research examining gains and losses in various cognitive skills from young adulthood to old age. Traditional experimental, psychometric, and cognitive science approaches are considered. Specific topics include age-related change in memory, intelligence, problem solving, reading skills, as well as practical and social cognition.

PSYC 557  Units: 1.5  
Dysfunctional Development in Adulthood and Aging  
Seminar review of theory and research examining dysfunctional and pathological processes in later life. Specific topics include dementia, depression, personality disorders, alcoholism and other addictions and suicide. Attention will be given to issues of etiology, diagnosis, treatment, and impact on caregivers.
PSYC 568 - PSYC 585

PSYC 568 Units: 1.5
Adolescence
Seminar review of theory and research examining psychological processes during adolescence. Specific topics include pubertal maturation, parent-adolescent relations, gender roles, sexuality, and problem behaviour. Attention will be given to the role of the context (e.g., family, school) in adolescent development.

PSYC 569 Units: 1.5
Formerly: PSYC 562
Special Topics in Lifespan Development
Topical seminars on specialized issues related to lifespan development and aging.
Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 570 Units: 1.5 or 3.0
Also: LING 570
Psycholinguistics
A seminar offered in collaboration with the department of Linguistics. Selected topics of interest in understanding the comprehension and production of natural language are examined. The most recent topics have been sentence processing, discourse analysis, linguistic inference and the resolution of ambiguity, and the development of cognitive science interests in reasoning and discourse processes as well as the structure of mental representations.

PSYC 574A Units: 1.5
Cognitive Methods: Electroencephalography and Event-related Brain Potentials
An intensive, hands-on introduction to the basics of collecting and analyzing event-related brain potential (ERP) data.
Notes:
• Credit will be granted for only one of PSYC 574A, PSYC 574 (if taken in the same topic), PSYC 576C (if taken in the same topic).
• Enrolment is limited to 5 students.
Prerequisite(s): Permission of the department.

PSYC 574B Units: 1.5
Cognitive Methods: Functional Magnetic Resonance Imaging
Introduction to theory and methods of functional magnetic resonance imaging (fMRI) for the study of mind and brain using lectures, discussions and hands-on lab exercises. Includes underlying physics and physiology, experimental design, data collection and preprocessing, statistical analysis, and various advanced methods.
Note: Credit will be granted for only one of PSYC 574A, PSYC 574 (if taken in the same topic).

PSYC 574C Units: 1.5
Cognitive Methods: Computational Modelling
Exploration of methods of computational modelling of cognitive processes. Methods covered may include mathematical models, symbolic models, and neural network models. Theoretical foundations, procedures for fitting models, and applications to cognitive psychology and cognitive neuroscience will be considered.
Note: Credit will be granted for only one of PSYC 574C, PSYC 576B (if taken in the same topic).

PSYC 575A Units: 1.5
Cognitive Processes: Human Memory
Exploration of current theories and research on selected aspects of human memory. One or more major topics within the domain of human memory will be studied in depth.
Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 575B Units: 1.5
Cognitive Processes: Cognitive Control
Exploration of selected theories and research in cognitive psychology and/or the cognitive neuroscience of cognitive control. One or more major topics within the domain of cognitive control (e.g. working memory, attention, error detection, conflict monitoring, response inhibition, and/or decision making) will be studied in depth.
Note: May be taken more than once for credit in different topics with permission of department to a maximum of 6 units.

PSYC 575C Units: 1.5
Cognitive Processes: Visual Perception
Exploration of current theories and research on selected aspects of visual perception. One or more major topics (e.g., object recognition, Gestalt perception, neuropsychology of visual perception) will be studied in depth.
Notes:
• Credit will be granted for only one of PSYC 575E, PSYC 575 (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of department to a maximum of 6 units.

PSYC 576A Units: 1.5
Research Methods in Clinical Psychology
Psychological research design issues with clinical populations. Topics include randomized controlled trials, efficacy versus effectiveness research, statistical versus clinical significance, cross-sectional and longitudinal research designs with clinical populations, qualitative methods and content analysis, single case experiments and case study methods, cognitive and physiological measures, observational methods, meta-analysis, program evaluation, and clinical research ethics. Issues of gender, age, and cultural diversity in clinical research are discussed throughout the course.

PSYC 576B Units: 1.5
Psychotherapy: Childhood and Adolescence
Discussion of conceptual models used to understand psychopathology; presentation of various mental disorders from multiple theoretical perspectives; discussion of diagnostic issues emphasizing the impact of gender and culture in the expression of “abnormal” behaviour. Emphasis on disorders that emerge during childhood and adolescence. Topics are considered from a scientist-practitioner perspective. Includes discussion of relevant professional issues in clinical psychology.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.

PSYC 576C Units: 1.5
Psychotherapy: Adulthood
Draws on models for understanding psychopathology developed in PSYC 581. Discussion of conceptual models used to understand psychopathology; presentation of various mental disorders from multiple theoretical perspectives; discussion of diagnostic issues emphasizing the impact of gender and culture in the expression of “abnormal” behaviour. Emphasis is on disorders that emerge during adulthood. Topics are considered from a scientist-practitioner perspective. Includes discussion of relevant professional issues in clinical psychology.
Prerequisite(s):
• PSYC 581; and
• admission to a graduate program in Clinical Psychology.

PSYC 577 Units: 1.5
Professional and Ethical Issues in Clinical Psychology
Discussion of ethical standards for providers of psychological services and of registration requirements as required by BCPA, CPA and APA. Presentations by practising psychologists related to professional and interprofessional problems encountered in practice.
Note: Enrolment may be limited.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology; and
• permission of the department.

PSYC 578 Units: 1.5
Clinical Assessment: Cognitive Functioning
Introduction to theory and practice in the assessment of cognitive functioning and academic achievement, including test administration, scoring, interpretation, and report writing. Test administration proficiency and individual case study interpretation are required during formal laboratory experiences.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.
Grading: INC, COM, N. F.

PSYC 579 Units: 1.5
Clinical Assessment: Psychosocial Functioning
Introduction to theory and practice in the psychological assessment of social, emotional and personality functioning.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.
Grading: INC, COM, N. F.
PSYC 586A  Units: 1.5
Advanced Clinical Assessment
Advanced theory and professional issues in the psychological assessment of social, emotional and personality functioning.
Note: Enrolment may be limited.
Prerequisite(s):
•  PSYC 585; and
•  admission to a graduate program in Clinical Psychology; and
•  permission of the department.
Grading: INC, COM, N, F.

PSYC 586B  Units: 1.5
Practice in Advanced Clinical Assessment
Supervised practice in the psychological assessment of social, emotional and personality functioning.
Note: Enrolment may be limited.
Prerequisite(s):
•  PSYC 585; and
•  admission to a graduate program in Clinical Psychology; and
•  permission of the department.
Pre- or Corequisite(s): PSYC 586A.
Grading: INC, COM, N, F.

PSYC 586A - PSYC 605 329

PSYC 588  Units: 1.5
Child and Adolescent Therapy
Introduction to different theoretical approaches to child psychotherapy and a discussion of techniques; supervised experience will be offered in subsequent sections.
Notes:
•  May be taken more than once for credit in different topics to a maximum of 4.5 units.
•  Enrolment may be limited.
Prerequisite(s):
•  Admission to a graduate program in Clinical Psychology; and
•  permission of the department.
Grading: INC, COM, N, F.

PSYC 589  Units: 1.5
Introduction to Evidence-Based Adult Psychotherapies
Overview of theory, research, and practice in adult psychotherapy. Introduction to the major schools of psychotherapy and to the common factors present across forms of psychotherapy. Beginning therapy skills will be developed through role plays and experiential exercises. Supervised experience is offered in 590.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.

PSYC 590  Units: 1.5
Practical Issues and Challenges in Adult Psychotherapy
An advanced psychotherapy course that builds upon the introductory therapy skills developed in 589. Includes didactic seminar and group case consultation.
Note: Enrolment may be limited.
Prerequisite(s):
•  PSYC 589; and
•  admission to a doctoral program in Clinical Psychology; and
•  permission of the department.
Grading: INC, COM, N, F.

PSYC 591  Units: 1.5
Special Topics in Clinical Psychology
Note: May be taken more than once for credit in different topics to a maximum of 6 units.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.

PSYC 593  Units: 1.5
Family Interventions
Introduction to various theoretical approaches to family interventions. Specific techniques are explored through readings, discussions, assignments, and role plays.
Note: Enrolment may be limited.
Prerequisite(s):
•  PSYC 589; and
•  admission to a doctoral program in Clinical Psychology; and
•  permission of the department.
Grading: INC, COM, N, F.

PSYC 594  Units: 1.5
Special Topics in Clinical Intervention
Introduction to any one or more specialized therapeutic techniques for working with individuals in clinical settings.
Note: May be taken more than once for credit in different topics to a maximum of 6 units.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.
Grading: INC, COM, N, F.

PSYC 595  Units: 1.5
Cognitive Behavioural Therapy
An advanced psychotherapy course that provides students with an understanding of the theory and clinical skills associated with Cognitive-Behavioural Therapy. Theory and specific techniques are explored through readings, class discussion, class assignments and role-plays.
Note: Credit will be granted for only one of PSYC 595, PSYC 594 (if taken in the same topic).
Prerequisite(s):
•  PSYC 589; and
•  admission to a doctoral program in Clinical Psychology.
Grading: INC, COM, N, F.

PSYC 596  Units: 1.5
Interpersonal Therapies
An advanced psychotherapy course that provides students with an understanding of the theoretical underpinnings of the major interpersonal therapies and the role of interpersonal process in therapy in general. Specific theories and techniques are explored through readings, class discussion and class assignments.
Note: Credit will be granted for only one of PSYC 596, PSYC 594 (if taken in the same topic).
Prerequisite(s):
•  PSYC 589; and
•  admission to a doctoral program in Clinical Psychology.
Grading: INC, COM, N, F.

PSYC 597  Units: 1.5
Clinical Psychology Colloquium
Weekly colloquium through the Winter session, involving faculty and graduate students in the Clinical Psychology Program. Colloquium participants take turns hosting the meeting, typically presenting on current clinical practice issues, cases, or research.
Note: May be taken more than once for credit to a maximum of 7.5 units.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.
Grading: INC, COM, N, F.

PSYC 599  Units: 6.0
Thesis
Grading: INC, COM, N, F.

PSYC 602  Units: 1.0-6.0
Independent Research
Notes:
•  May be taken more than once for credit in different topics.
•  Pro Forma required.
•  The student must consult with the instructor about the area of study prior to registration.
•  A maximum of 6 units of 602 may be taken in any one Winter Session at the discretion of the student’s Supervisory Committee.
Prerequisite(s): Permission of the department.

PSYC 603  Units: 4.0
Advanced Clinical Practicum
Practicum in an approved clinical setting. 1 unit of credit is equivalent to approximately 100 hours.
Prerequisite(s):
•  Admission to a graduate program in Clinical Psychology; and
•  permission of the department.
Grading: INC, COM, N, F.

PSYC 604  Units: 1.5-6.0
Individual Study
Notes:
•  May be taken more than once for credit in different topics.
•  Pro Forma required.
•  The student must consult with the instructor about the area of study prior to registration.
•  A maximum of 6 units of 604 may be taken in any one Winter Session at the discretion of the student’s Supervisory Committee.
Prerequisite(s): Permission of the department.

PSYC 605  Units: 1.5 or 3.0
Practicum in the Teaching of Psychology
Teaching practicum with individual instructors of the department in areas of potential teaching interest for the student.
Note: Pro Forma required.
Grading: INC, COM, N, F.
PSYC 606 - SDH 699

PSYC 606

Clinical Internship

Units: 15.0

Clinical Internship

Full-year internship with 1600 to 2000 hours of supervised practical experience in settings approved by the committee on clinical training.

Note: Students who have completed a clinical course sequence may request permission to register in the course.

Prerequisite(s): Permission of the department.

Grading: INP, COM, N, F.

PSYC 612

Units: 1.5-4.5

Advanced Research Practicum

Advanced practicum in research with an emphasis on coordination of a program of research in association with a faculty supervisor. Typically involves organization and training of research assistants, developing research protocols, management of research databases, statistical analysis, and preparation and submission of materials for publication as specified in a Pro Forma.

Notes:

• May be taken more than once for credit in different topics.
• The content must differ from but may be related to 699.

Prerequisite(s): Permission of the department.

Grading: INP, COM, N, F.

PSYC 693

Units: 3.0

PhD Candidacy Examinations

Students enrol in PSYC 693 while they prepare for and complete their doctoral candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until all candidacy examination requirements have been successfully completed. Students have 36 months from the time of first registration in the doctoral program to complete the exams. Students registered in 699 must also be registered in 693 concurrently until 693 is complete.

Grading: INP, COM, N, F.

PSYC 699

Units: 15.0-30.0

PhD Dissertation

Pre- or Corequisite(s): PSYC 693.

Grading: INP, COM, N, F.

SDH

Social Dimensions of Health

Social Dimensions of Health Program Faculty of Social Sciences

These courses are offered in collaboration with the Faculties of Humanities, Education and Human and Social Development.

SDH 500A

Units: 1.5

Interdisciplinary Perspectives on Health Research

Provides an overview of various health research paradigms. Covers fundamental theories, models, and topics that form the basis of interdisciplinary health research including: epidemiology, ethics, policy, health and wellness, chronic disease and the relationship between culture and health including Indigenous peoples. Coursework may include group discussion, academic writing, presentations and a critical review of the literature. Topics are central to interdisciplinary health research and provide core competencies for developing independent research.

SDH 500B

Units: 1.5

Interdisciplinary Methods Applied to Health Research

Provides an overview of qualitative, quantitative and mixed research methods employed in interdisciplinary research studies. Introduces students to research methods such as epidemiology, grounded theory, ethnography, case studies, surveys, experimental studies, secondary analyses of existing datasets and Indigenous methodologies. Course work may include proposal writing, presentations, and developing community partnerships. Methods are central to conducting health research and preparing independent research.

Prerequisite(s):

• SDH 500A; or
• permission of the program.

SDH 501A

Units: 1.5

Social Dimensions of Health Perspectives Colloquium I

Exposes students to a range of health research paradigms, theories and frameworks in the context of health research studies and research programs. Introduces students to dimensions of research such as stakeholder engagement, community engagement and ethical consultation in studying urban, rural, minority, immigrant, and Indigenous groups. Students reflect on and present about their research interests.

Grading: INP, COM, N, F.

SDH 501B

Units: 1.5

Social Dimensions of Health Methods Colloquium II

Exposes students to a range of research methods in the context of health research studies and research programs. Introduces students to research and knowledge mobilization methods and methodological issues where research is conducted in rural, urban, global and Indigenous settings. Students present on their own research interests.

Prerequisite(s):

• SDH 501A; or
• permission of the program.

Grading: INP, COM, N, F.

SDH 590

Directed Studies in the Social Dimensions of Health

Directed Studies or project under the supervision of a faculty member.

Notes:

• May be taken more than once for credit in different topics to a maximum of 3.0 units.
• Pro Forma required.

Grading: INP, COM, N, F.

SDH 599

Units: 6.0

Thesis

Grading: INP, COM, N, F.

SDH 600A

Units: 1.5

Interdisciplinary Perspectives on Health Research

Provides an overview of various health research paradigms. Covers fundamental theories, models, and topics that form the basis of interdisciplinary health research including: epidemiology, ethics, policy, health and wellness, chronic disease and the relationship between culture and health including Indigenous peoples. Coursework may include group discussion, academic writing, presentations, and a critical review of the literature. Topics are central to interdisciplinary health research and provide core competencies for developing independent research.

SDH 600B

Units: 1.5

Interdisciplinary Methods Applied to Health Research

Provides an overview of qualitative, quantitative and mixed research methods employed in various health research studies. Introduces students to research methods such as epidemiology, grounded theory, ethnography, case studies, surveys, experimental studies, secondary analysis of existing datasets and Indigenous methodologies. Course work may include proposal writing, presentations and developing community partnerships. Methods are central to conducting health research and preparing independent research.

Prerequisite(s):

• SDH 600A; or
• permission of the program.

SDH 601A

Units: 1.5

Social Dimensions of Health Perspectives Colloquium I

Exposes students to a range of health research paradigms, theories and frameworks in the context of health research studies and research programs. Introduces students to dimensions of research such as stakeholder engagement, community engagement and ethical consultation in studying urban, rural, minority, immigrant, and Indigenous groups. Students reflect on and present about their research interests.

Grading: INP, COM, N, F.

SDH 601B

Units: 1.5

Social Dimensions of Health Methods Colloquium II

Exposes students to a range of research methods in the context of health research studies and research programs. Introduces students to research and knowledge mobilization methods and methodological issues where research is conducted in rural, urban, global and Indigenous settings. Students present on their own research interests.

Prerequisite(s):

• SDH 601A; or
• permission of the program.

Grading: INP, COM, N, F.

SDH 690

Units: 1.5

Directed Studies in the Social Dimensions of Health

Directed Studies or project under the supervision of a faculty member.

Notes:

• May be taken more than once for credit in different topics to a maximum of 3.0 units.
• Pro Forma required.

SDH 693

Units: 3.0

Candidacy Exam

Three questions related to their particular research area will be crafted by the student in consultation with their supervisory committee. The questions will be answered in a written format, drawing upon pertinent literature and will be evaluated on a pass/fail basis.

Grading: INP, COM, N, F.

SDH 699

Units: 15.0

Dissertation

Prerequisite(s): SDH 693.

Grading: INP, COM, N, F.
SLST

Slavic Studies
Department of Germanic and Slavic Studies
Faculty of Humanities

SLST 501  Units: 1.5
Also:  GMTST 501
Introduction to the Disciplines of Germanic and Slavic Studies
An introduction to the research specialties that make up Germanic and Slavic Studies: literary and cultural studies, film studies, cultural history and second language acquisition. May include sessions on how to write a research grant proposal, do sophisticated library research, prepare a bibliography and write a thesis proposal.
Note: Credit will be granted for only one of SLST 501, GER 501, GMTST 501.

SLST 502  Units: 1.5
Also:  GMTST 502
Theory and Practice
Introduces students to the theories and methodologies that animate the disciplines of Germanic and Slavic studies and may include topics such as professional skills, pedagogy and thesis writing.
Note: Credit will be granted for only one of SLST 502, GMTST 502.

SLST 503  Units: 1.5
Also:  GMTST 503
Teaching in the Disciplines of Germanic and Slavic Studies
A practice-based introduction to course design, teaching strategies, methodologies and assessment tools in the teaching areas of Germanic and Slavic Studies.
Note: Credit will be granted for only one of SLST 503, GMTST 503.

SLST 505  Units: 1.5
Advanced Russian Language Study
Research topics may include Russian morphology, phonetics, lexicology, and language acquisition.

SLST 509  Units: 1.5
Also:  GMTST 509
Special Topics Field School
Exploration of cultural studies topics in Eastern, German-speaking, or Slavic countries. Promotes intercultural and experiential learning through joint workshops with European students and field research working at relevant cultural sites and with relevant artefacts. Topics vary.
Note: May be taken more than once for credit in a different topic.

SLST 511  Units: 1.5
Studies in Film
A critical analysis and study of films of the 20th and 21st century by Slavic and East European filmmakers.

SLST 521  Units: 1.5
Studies in Russian Literature and Culture
Examination of literary works and cultural processes in Russian and/or Soviet society.

SLST 522  Units: 1.5
Studies in Ukrainian Literature and Culture
Examination of literary works and cultural processes in Ukraine.

SLST 531  Units: 1.5
Studies in Slavic Cultural History
A cultural studies approach to texts, films, performances, media and material objects and spaces in Slavic and East European nations.

SLST 560  Units: 1.5
Slavic-Canadian Studies
Examination of the culture of Slavic and East European diasporas in Canada, as well as their impact on the creative processes in their home countries.

SLST 565  Units: 1.5
Seminar on Bakhtin
An interdisciplinary approach focusing on the major works and central concepts of the Russian philosopher and literary theorist Mikhail Bakhtin, as well as the application of these theories in diverse disciplines of study.

SLST 570  Units: 1.5
Also:  GMTST 570
Studies in New Media in Second Language Acquisition
Critical examination of the current research on teaching a foreign language. Focus on learning and teaching outside of the language environment, foreign language learning theories, teaching methodologies and practices.
Note: Credit will be granted for only one of SLST 570, GMTST 570.

SLST 581  Units: 1.5
Twentieth-Century Genocides in Eastern Europe
Examines the common and unique features of genocides, ethnic cleansings, and forced population transfers in twentieth-century Eastern Europe including the Ukrainian Famine, the Holocaust, and the Bosnian War.

SLST 590  Units: 1.5
Directed Studies in Slavic Studies I
Notes:
• May be taken more than once for credit to a maximum of 4.5 units.
• Pro Forma required.

SLST 591  Units: 1.5  Hours: 3-0-0
Directed Studies in Slavic Studies II
Notes:
• May be taken more than once for credit in different topics to a maximum of 4.5 units.
• Pro Forma required.

SLST 599  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599A  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599B  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599C  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599D  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599E  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599F  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599G  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599H  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599I  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599J  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599K  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599L  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599M  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599N  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599O  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599P  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599Q  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599R  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599S  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599T  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599U  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599V  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599W  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599X  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599Y  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

SLST 599Z  Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.
SOCI 535 - SOCW 515

SOCI 535  Units: 1.5
Current Issues in Political Sociology
A seminar exploring a range of contemporary issues pertaining to politics, movements, the state, and social and political change. Content is informed by faculty members’ current research and varies from year to year.

SOCI 545  Units: 1.5
Current Issues in the Sociology of Health and Aging
A seminar exploring a range of contemporary issues pertaining to the social determinants of health, illness, and aging. Content is informed by faculty members’ current research and varies from year to year.

SOCI 590  Units: 1.5
Directed Studies
Note: May be taken more than once for credit to a maximum of 3 units.
Prerequisite(s): Permission of the department.

SOCI 598  Units: 4.5
Major Research Paper
A piece of independent research work involving substantial analytical engagement with a defined area of sociology guided by one or more research questions.
Note: Normally, students are expected to complete two terms of coursework prior to registration.
Grading: INP, COM, N, F.

SOCI 599  Units: 7.5
Thesis
Note: Students who wish to register for the thesis must request permission to do so no later than 12 months after entering the MA program.
Prerequisite(s): Permission of the department.
Grading: INP, COM, N, F.

SOCI 608  Units: 1.5
Formerly: SOCI 508
Advanced Statistical Analysis
Advanced statistical models with applications to sociological research, which may include such topics as logistic models, count models, multilevel models, structural equation models, and models for longitudinal data. Also includes the use of computer statistical software for the analysis of data.
Notes: • Credit will be granted for only one of SOCI 608, SOCI 508, SOCI 472, SOCI 501.
        • Normally offered in alternate years.
Prerequisite(s): • SOCI 507; or
        • permission of the department.

SOCI 616  Units: 1.5
Advanced Strategies in Qualitative Research
Explores applied techniques for coding and systematically analyzing qualitative data with the assistance of computer-aided qualitative data analysis software (CAQDAS). Examines different strategies for communicating qualitative research findings to other researchers and the general public.
Note: Normally offered in alternate years.
Prerequisite(s): • SOCI 515; or
        • permission of the department.

SOCI 690  Units: 1.5
Directed Studies
Note: May be taken more than once for credit to a maximum of 3 units.

SOCI 693  Units: 3.0
PhD Candidacy Examinations
Students enrol in SOCI 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues, until candidacy requirements have been completed. Students are expected to complete all required coursework and comprehensive exams within 25 months after entering the PhD program.
Grading: INP, COM, N, F.

SOCI 699  Units: 21.0
PhD Dissertation
Prerequisite(s): SOCI 693.
Grading: INP, COM, N, F.

SOCW
Social Work
School of Social Work
Faculty of Human and Social Development

SOCW 505  Units: 1.5
Advanced Child Welfare Seminar
Explores topics of special interest in the development of child welfare practice from a critical, anti-oppressive and social justice perspective. Students are expected to conduct an analysis on a current child welfare topic they select in conjunction with the instructor.
Notes: • Credit will be granted for only one of SOCW 505, SOCW 525.
        • Offered as resources permit.

SOCW 506  Units: 4.5
Advanced Practicum
A minimum of 450 hours of advanced social work practice and demonstration of the application of critical analysis to practice are required. Faculty of Human and Social Development regulations concerning practica apply to the MSW practicum.
Prerequisite(s): • 6 units of core course requirements; and
        • admission to MSW Advanced program.
Grading: INP, COM, N, F.

SOCW 506A  Units: 4.5
MSWI Practicum
A minimum of 450 hours of social work practice and demonstration of the application of critical analysis to practice are required. Faculty of Human and Social Development regulations concerning practica apply to the MSWI practicum.
Prerequisite(s): • 6 units of core course requirements; and
        • admission to MSW Indigenous Specialization.
Grading: INP, COM, N, F.

SOCW 510  Units: 1.5
Also: SPP 510
Policy Context of Practice
Reviews and analyzes a number of explanations of the policy making process. Examines who makes policy in both governmental and voluntary human service organizations and the impact of policy on consumers and practitioners. Analyzes the policy/practice interface and uses substantive policy domains to illustrate how policy both enhances and constrains practice and how practice in turn can influence policy. Students are encouraged to develop their own understandings of the contributions of practice to policy.
Note: Credit will be granted for only one of SOCW 510, SPP 510, HSD 510.
Prerequisite(s): Admission to MSW Advanced program.

SOCW 511  Units: 1.5
Contemporary Debates and Ethical Dilemmas in Social Work
Examines and critiques current debates, ideas and discourses relating to social work knowledge and practice, with a specific focus on ethics. Emphasis is placed on postmodern, feminist, anti-racist and Indigenous perspectives as they challenge prevailing assumptions about individualism, meritocracy, professionalism and philanthropy. Specifically looks at the contributions of these perspectives to a critical theorizing of professional practice and ethics.
Note: Credit will be granted for only one of SOCW 511, SOCW 501, SOCW 518.

SOCW 512  Units: 1.5
Knowledge and Inquiry: Re-Theorizing Social Work
Takes as its starting point the idea that responsible and effective professional and scholarly practice begins with a critical examination of how relations of power shape knowledge production. Over the term, assumptions underlying the creation of knowledge and different approaches to knowing authoritatively will be investigated. Questions of ‘how do we know?’ and ‘how do we go about asking’ are explored through poststructural, postcolonial and critical race lenses.
Note: Credit will be granted for only one of SOCW 512, SPP 502, HSD 502.
Prerequisite(s): Admission to MSW Advanced program.

SOCW 515  Units: 1.5
Transnational Social Work
Transnational feminist theorists argue that transnationalism links contemporary notions of nationality, gender, race and class to earlier histories of colonization and present day imperialism. Students examine the practices of the securitized, neo-liberal Canadian welfare state towards transnational communities by: (a) understanding transnational feminist theories, (b) analyzing nation-making and global inequality, (c) reviewing practices of transnational feminist social justice activism, and (d) critiquing international social work in view of all of the above.
SOCW 516 Units: 1.5
Also: SPP 516
Research Methodologies
Critically reviews a wide range of research methodologies commonly practised in the human services. Considers the kinds of opportunities and challenges presented by each methodology. Emphasizes the link between the development of a research question and the selection of methodological approaches.
Note: Credit will be granted for only one of SOCW 516, SPP 516, HSD 516.
Prerequisite(s): Admission to MSW Advanced program.

SOCW 517 Units: 1.5
Research Seminar
Focuses on specific methodological, analytical and/or theoretical aspects of research for the thesis. Is intended to support graduate students in the thesis research and writing that they undertake following the completion of their coursework. Content varies from year to year, depending on students' interests and needs.
Notes:
- Students who are completing a thesis may request permission to register in the course.
- Registration in SOCW 517 is normally continued until the student's thesis proposal has been approved by the supervisory committee.
Prerequisite(s):
- SOCW 516; and
- permission of the program.
Grading: INF, COM, N, F.

SOCW 519 Units: 1.5
Indigenous Resistance, Resurgence And Revitalization For Helpers
Introduces contemporary examples of Indigenous resistance, resurgence and revitalization from local, national and international contexts. Critically examines the implications for social work practice with an emphasis on Indigenous and de-colonial thought and collectivist and implications for social work practice with an emphasis on Indigenous and de-colonial thought and collectivist.
Prerequisite(s):
- SOCW 516; and
- permission of the program.

SOCW 521 Units: 1.5
Indigenous Perspectives on Knowledge and Research
Explores the dimensions of Indigenous ways of knowing that influence researching activities in Indigenous communities. Students will explore how, and from where, their own knowing emerges as well as critically examine how knowledge is constructed within larger society. Focuses on how power, culture, ethics, protocols, language, place and spirit shape knowledge.

SOCW 526 Units: 1.5
Seminar in Health Policy and Practice in Indigenous Communities
Examination of critical issues in community health such as sexual abuse, substance misuse and family violence along with the collective steps that Indigenous (and other) communities have taken to restore health. The critical issues to be examined are determined collectively by students and faculty.

SOCW 531 Units: 1.5
Critical Exploration of Leadership Roles for Social Workers in Health Care
Inquiry based opportunity for students to critically examine their leadership styles and develop a foundational knowledge and skill base for effective involvement in organizational change, staff management, coaching and supervision, coordination of inter-professional teams and development of policies to address the social determinants of health.
Note: Offered as resources permit.

SOCW 532 Units: 1.5
Introduction to Social Work in the Health Care Sector
Examines the knowledge and skills required for social workers to be effective advocates while carrying out a range of responsibilities in the health sector within the context of a practice framework that focuses on the social determinants of health. The challenges and opportunities provided by the cultural and organizational contexts of practice in health care will be an important focus of the course for examining the inter-professional nature of practice. Particular aspects of practice such as appropriate documentation, informed consent and community development will be included.
Note: Offered as resources permit.

SOCW 533 Units: 1.5
Working with Trauma
Current theories and practices regarding the neurobiological, psychophysical and socio-cultural components of trauma. Four dimensions of experience will be explored: shock, developmental, accumulated stress, and socially and culturally-produced traumatic stress. Emphasis will be placed on concrete skills and strategies that have applicability to a wide variety of contexts. As well, students will learn to reduce the prevalence of secondary traumatization on themselves, colleagues, agencies and communities.

SOCW 537 Units: 1.5
Environmental Justice and Social Work
Environmentalism has gained prominence in social work scholarship and earlier practice models that ignored the physical environment are now critiqued. Students enter with political allegiance to green issues; educators find compatibility between professional practice and views on spirituality, environmental justice, and social service provision. Fears over environmental destruction and a general sense of disconnection from nature are finding traction. Students will explore these themes through the lenses of race, space, and environmental justice.

SOCW 540 Units: 4.5
Foundation Practicum
A minimum of 450 hours of social work practice and demonstration of the application of critical analysis to practice are required. Faculty of Human and Social Development regulations concerning practice apply to the MSW practicum.
Prerequisite(s):
- SOCW 541; and
- 3 units of SOCW (Foundation program core) courses.
Pre- or Corequisite(s): SOCW 546.
Grading: INF, COM, N, F.

SOCW 542 Units: 1.5
Anti-Racist Practice
Introduces students to anti-racist, de-colonial and insurgent social work knowledge and practice. Grounded in and informed by community activism and social movements with particular attention to the knowledge of Indigenous and racialized peoples whose contributions are often erased in the history, teaching and practice of social work. Students gain foundational understanding of various collective and individual strategies, approaches and skills, to facilitate the integration of critical theory and activist epistemologies into applied practice.
Note: Credit will be granted for only one of SOCW 542, SOCW 541, SOCW 546.

SOCW 543 Units: 1.5
Theorizing Social Difference
How do we come to know who we are and how is this knowledge raced, embodied, engendered and embedded in a material context? These questions underpin social work knowledge and practice. Developing an analysis of social difference is a crucial skill for social workers. In this course students will be introduced to the concepts of marginalization and dominance as they play out in (primarily) North American contexts. The course will look at social work theories and knowledge as a departure point from which to explore interdisciplinary theorizations of concepts core to the profession.

SOCW 544 Units: 1.5
Social Work, the State and Citizenship
Taking the perspective of ‘citizenship as social’, explores the lived realities and experiences of citizenship as it is configured on the basis of geography, class, race, Indigeneity, gender, sexual orientation and other identity locations. Using citizenship theories, explores the nature of social inclusion and exclusion that mark citizens’ lives in the Canadian Welfare state and examines the de-colonizing potential of citizenship-based social work that is grounded in a vision of social justice.

SOCW 545 Units: 1.5
Networks and Communities
Social work practice within communities and social networks. Definitions of community are explored as experienced and conceptualized from various locations. Critical historical and theoretical analysis and ethical dilemmas posed by various approaches to community work are examined. Students have the opportunity to develop theoretical and practical understandings of anti-oppressive, antiracist and anti-colonial community practice as experiences within their own communities.
SOCW 547 Units: 1.5
Historicizing Social Work
Critical examination of the production of social work practice and theories at different historical moments and the profession’s role in regulation of the boundaries between proper citizen-subject and deviant Others, all while participating in the colonial project of making nation. Students engage in critical reflective study of social work responses to so-called ‘problem populations’ in the context of changing political, social, economic and moral climates.

SOCW 549 Units: 1.5
Research Foundations
Reviews foundational concepts and strategies of social work research with a focus on the comprehension, critique and utilization of research in social work practice and policy settings. Students critically reflect on examples of research and examine how power shapes knowledge. Empiricist methodologies, including Indigenous research approaches, are explored.

SOCW 550 Units: 1.5
Social Justice, Social Work and the Law
Examines theoretical, legal and critical perspectives of Indigenous law and Canadian law including the legal system and the legal processes that have an impact on professional social work practice. Critically examines the interplay between marginalization, structural inequalities, social work, social justice, Indigenous legal orders and Canadian law. Focuses on developing skills in critical reflection, intersectional analysis and socially just social work practice.

SOCW 551 Units: 1.5
Indigenous Social Work Foundations
Critically examines historical and contemporary processes of colonization in Canada and resulting barriers embedded in policy and practices affecting Indigenous peoples. Focuses on matters of racism, anti-racism, epistemology, relationality and identity. Students explore their self-location, ideas, values and beliefs about working with Indigenous peoples and the implications for their social work practice.

SOCW 554 Units: 1.5
Indigenous Policy And Practice
Builds on critical theories and perspectives introduced in SOCW 551 to explore the impact of Canadian policies and practices of Indigenous peoples. Introduces anticolonial policy analysis and explores responses and initiatives of Indigenous peoples through their own policy and practice work. Students explore the role of policy in their praxis and the implications for decolonizing social work.

Prerequisite(s): SOCW 551.

SOCW 571 Units: 1.5
MSW Capstone
A culminating educational experience to consolidate learning and demonstrate preparation for advanced social work practice. Students will integrate, articulate, and evaluate learning from the courses and practice in the MSW program within the context of their other professional activities and prior academic experiences.

Prerequisite(s): Completion of all required coursework in the MSW program (excluding SOCW 506 or SOCW 506A).

SOCW 580 Units: 1.5 or 3.0
Special Topics in Social Work and Social Welfare
A variable content course that deals with special issues in social welfare and approaches to social work practice.

Notes:
• May be taken more than once for credit in different topics.
• Offered as resources permit.

SOCW 590 Units: 1.5 or 3.0
Directed Studies
Individual studies under the direct supervision of a social work faculty member. The content, credit value, and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registration.

Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

SOCW 596 Units: 3.0
Team Graduating Research Project/Report
Exploration of creative ways to integrate and disseminate what students have learned from the Master of Nursing program. Students will produce a scholarly paper, present their work, and respond to questions.

Prerequisite(s): 6 units of coursework in the MSW Advanced program (including SOCW 516).

Grading: INP, COM, N, F.

SOCW 598 Units: 3.0
Individual Graduating Research Project/Report
Students working under social work faculty supervision complete a research project. This can include undertaking a research project for a social agency.

Prerequisite(s): 6 units of coursework in the MSW Advanced program (including SOCW 516).

GrADING: INP, COM, N, F.

SOCW 599 Units: 6.0
Thesis
Specialized research on a topic area chosen in consultation with the student’s supervisory committee.

Note: After 16 months of coursework, the student is required to have an approved proposal on file to maintain registration in SOCW 599.

Prerequisite(s):
• Completion of all required coursework in the MSW Advanced program (Thesis option); or
• permission of the school.

Grading: INP, COM, N, F.

SPAN 503 Units: 1.5
Also: ITAL 503
Core Reading List Course II
Grading: INP, COM, N, F.

SPAN 505 Units: 1.5
Also: ITAL 505
Medieval Literature
Note: May be taken more than once for credit in different topics with permission of the department.

SPAN 507 Units: 1.5
Renaissance and Baroque Literature
Note: May be taken more than once for credit in different topics with permission of the department.

SPAN 511 Units: 1.5
Peninsular Literature from the 20th Century to the Present
Note: May be taken more than once for credit in different topics with permission of the department.

SPAN 512 Units: 1.5
Formerly: SPAN 509, SPAN 517
Spanish and Latin American Literature of the 19th Century

Notes:
• Credit will be granted for only one of SPAN 512, SPAN 509, SPAN 517.
• May be taken more than once for credit in different topics with permission of the department.

SPAN 515 Units: 1.5
Colonial Latin American Literature
Note: May be taken more than once for credit in different topics with permission of the department.

SPAN 519 Units: 1.5
Latin American Literature from the 20th Century to the Present
Note: May be taken more than once for credit in different topics with permission of the department.

SPAN 590 Units: 1.5 or 3.0
Also: ITAL 590
Directed Studies

SPAN 598 Units: 3.0
Master’s Essay

Grading: INP, COM, N, F.

SPAN 599 Units: 6.0
MA Thesis/Oral

Grading: INP, COM, N, F.

SPP 580 Units: 1.5 or 3.0
Special Topics in Studies in Policy and Practice
A variable content course which will focus on the policy, practice and/or research interests of faculty and students in the SPP Program.

Note: May be taken more than once for credit in different topics.
SPP 590 Units: 1.5 or 3.0
Directed Studies
Individual studies under the direct supervision of one or more faculty members. The content, credit value, and method of evaluation must be approved by the instructor and the graduate advisor prior to registering in this course.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

SPP 598 Units: 3.0
Extended Essay
An in-depth examination of a topic related to policy and/or practice.
Grading: INP, COM, N, F.

SPP 599 Units: 6.0
Thesis
Specialized research on a topic area chosen in consultation with the student’s supervisory committee.
Grading: INP, COM, N, F.

STAT
Statistics Department of Mathematics and Statistics
Faculty of Science

STAT 552 Units: 1.5
Applied Stochastic Models

STAT 553 Units: 1.5
Multivariate Analysis
Multivariate normal distribution; tests on covariance matrices; multivariate analysis of variance; discriminant analysis; classification analysis; cluster analysis; principal component analysis; factor analysis; multivariate regression analysis; canonical correlation; graphical procedures.

STAT 554 Units: 1.5
Time Series Analysis
Stationary time series; non-stationary time series; transformation; smoothing techniques; autoregressive moving average models; integrated models for non-stationary data; multiplicative seasonal ARIMA models; spectral analysis; linear filters.

STAT 556 Units: 1.5
Topics in Statistics
Topics include Analysis of Wildlife Populations, Bayesian Statistics, Bioinformatics, Biostatistics, Optimal design, Robust Statistics, Sampling Methods, Statistical Computing.
Note: May be taken more than once for credit in different topics with permission of the department.

STAT 558 Units: 1.5
Design and Analysis of Experiments
Basic principles of experimental design; factorial designs; block designs; fractional factorial designs; response surface designs; nested and split-plot designs; optimal designs; techniques of analysis of variance; fixed effects models; random effects models.

STAT 559 Units: 1.5
Survival Analysis
Theory and techniques for censored and truncated data; nonparametric estimation of survival and cumulative hazard functions and associated hypothesis tests; semiparametric proportional hazards regression; survival models; regression diagnostics; inference for parametric regression models.

STAT 560 Units: 1.5 Hours: 3-0
Also: STAT 460
Bayesian Statistics
Bayesian modelling, prior distributions; Jeffreys’ prior, posterior distributions, single and multi-parameter models; Bayesian point and interval estimation; Bayes factors and point null hypothesis testing; Bayesian computation; decision theory. Other topics may include: hierarchical modeling, Bayesian model selection.
Notes:
• Credit will be granted for only one of STAT 460, STAT 454 (if taken in the same topic), STAT 560, STAT 556 (if taken in the same topic).
• May be offered as a joint undergraduate and graduate class.

STAT 562 Units: 1.5
Distribution Free Statistics
Classical distribution free methods: tests based on the binomial distribution, contingency tables, methods based on ranks, statistics of the Kolmogorov-Smirnov type. Computing intensive distribution-free methods: re-sampling methods and empirical likelihood methods.

STAT 563 Units: 1.5
Also: BIOL 563
Topics in Applied Statistics
Survival analysis, generalized linear models, multivariate normal models, resampling methods, nonparametric and robust methods, meta-analysis, miscellaneous techniques.

STAT 564 Units: 1.5 Hours: 3-0-0
Also: STAT 464
Statistical Computing
Computer representation of numbers, univariate optimization, multivariate optimization, combinatorial optimization, genetic algorithms, EM algorithm, random number generation, numerical integration, simulation and Monte Carlo integration, Gibbs sampling, Metropolis-Hastings algorithm, bootstrapping. Other topics may include: permutation tests, smoothing, reversible jump MCMC, importance sampling, hybrid Gibbs sampling.
Notes:
• Credit will be granted for only one of STAT 464, STAT 454 (if taken in the same topic), STAT 564, STAT 556 (if taken in the same topic).
• May be offered as a joint undergraduate and graduate class.

STAT 565 Units: 1.5 Hours: 3-0-0
Statistical Methods for Genomic Data
Introduction to genomic data and statistical methodology for its analysis; examples of data may include single-nucleotide polymorphisms or gene expression levels, generated from microarrays or next-generation sequencing. Statistical techniques may include data preprocessing, filtering, normalization, exploratory methods, visualization, dimension reduction, differential expression, generalized linear models, corrections for multiple comparisons, clustering, gene ontology analyses, genome-wide association studies.
Notes:
• Credit will be granted for only one of STAT 565, STAT 556 (if taken in the same topic).
• May be offered as a joint undergraduate and graduate class.

STAT 568 Units: 1.5
Generalized Linear Models
Exponential family of distributions and generalized linear models; maximum likelihood estimation and inference; regression diagnostics; logistic regression; nominal and ordinal logistic regression; Poisson regression and log-linear models; clustered and longitudinal data.

STAT 569 Units: 1.5
Dissertation
Grading:

STAT 589 Units: 1.5
Statistics Seminar
Note: May be taken more than once for credit with permission of the department.

STAT 598 Units: 3.0
Master’s Project
Grading: INP, COM, N, F.

STAT 599 Units: 6.0
Master’s Thesis
Grading: INP, COM, N, F.

STAT 693 Units: 3.0
Candidacy Examination
Grading: INP, COM, N, F.

STAT 699 Units: 21.0-30.0
Dissertation
Corequisite(s): STAT 693.
Grading: INP, COM, N, F.
THEA

Theatre

Department of Theatre

Faculty of Fine Arts

THEA 500A  Units: 1.5
Formerly: THEA 500
Methods and Materials of Theatre Research
Note: Credit will be granted for only one of THEA 500A, THEA 500.

THEA 500B  Units: 1.5
Formerly: THEA 500
Methods and Materials of Theatre Research
Note: Credit will be granted for only one of THEA 500B, THEA 500.

THEA 501  Units: 1.5 or 3.0
Seminar in History and Criticism of Tragedy

THEA 502  Units: 1.5 or 3.0
Seminar in History and Criticism of Comedy

THEA 503  Units: 1.5 or 3.0
Seminar in European Theatre History

THEA 504  Units: 1.5 or 3.0
Seminar in North American Theatre History

THEA 505  Units: 1.5 or 3.0
Seminar in Theatrical Styles

THEA 506  Units: 1.5 or 3.0
Scene Design

THEA 509  Units: 1.5 or 3.0
Lighting Design

THEA 510  Units: 1.5 or 3.0
Costume Design

THEA 511  Units: 1.5 or 3.0
Production

THEA 512  Units: 1.5 or 3.0
Directing

THEA 513  Units: 1.5 or 3.0
Seminar in Theatre Aesthetics

THEA 514  Units: 1.5 or 3.0
Seminar in Design

THEA 515  Units: 1.5 or 3.0
Production Experience

THEA 516  Units: 1.5 or 3.0
Seminar in Theatre History

THEA 520  Units: 1.5 or 3.0
Advanced Problems in Scene Design

THEA 521  Units: 1.5 or 3.0
Advanced Problems in Lighting Design

THEA 522  Units: 1.5 or 3.0
Advanced Problems in Costume Design

THEA 523  Units: 1.5 or 3.0
Advanced Problems in Directing

THEA 524  Units: 6.0
MFA Practicum
Grading: INP, COM, N, F.

THEA 532  Units: 1.5
Workshop Facilitation
Principles of workshop design, and skills of facilitation and enabling in educational and community contexts.

THEA 533  Units: 1.5
Making Theatre
Explores the process of devising and the art of play-making.

THEA 535  Units: 1.5
Research Methods in Applied Theatre
Introduces different methodological approaches to researching and interpreting applied theatre practice, including qualitative and quantitative methods of theatre action research, ethnography and practice as research. Allows first-hand experience of conducting a theatre-based project and/or performance that targets a specific community.

THEA 590  Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit in different topics with permission of the department.

THEA 598  Units: 4.5
MA Essay
Grading: INP, COM, N, F.

THEA 599  Units: 6.0
MA Thesis
Grading: INP, COM, N, F.

WRIT

Writing

Department of Writing

Faculty of Fine Arts

WRIT 500  Units: 1.5
Graduate Writing Workshop
A workshop in which students will focus on writing and workshopping in one genre: poetry, fiction, creative nonfiction, playwriting or screenwriting.
Note: May be taken more than once for credit in different topics to a maximum of 4.5 units.

WRIT 501  Units: 1.5
Special Topics in Advanced Studies in Writing
A class that focuses on literary models, specific elements of craft, and topics of interest to writers in more than one genre.

WRIT 509  Units: 1.5
Instructional Skill Preparation
A seminar which focuses on pedagogy and teacher training in creative writing.

WRIT 590  Units: 1.5
Directed Studies in Instructional Skills Preparation
A course which focuses on teacher training in creative writing.
WRIT 591 Units: 1.5
Directed Studies in Writing
A course tailored to the needs of a particular student in consultation with the supervisor and in the student’s area of studies.

WRIT 598 Units: 9.0
Major Writing Portfolio
The creation of an original creative writing portfolio in one of the following genres: poetry (30-50 pages), creative nonfiction (60-120 pages), fiction (60-120 pages), a stage play (60-100 pages), a film script (60-90 pages) or a production project with script/manuscript in one of the above genres.
Grading: INP, COM, N, F.
