Courses of Instruction

This section presents the descriptions of all courses offered at the University of Victoria. Courses are listed in alphabetical order by course abbreviation (BIOL, EDUC). The course abbreviations for all courses offered within each faculty are listed on page 248. A list of the course abbreviations and their corresponding subject areas is presented on page 249.

Please note that not all courses listed are necessarily offered every year; students should consult the department or faculty concerned for an official listing of the courses that will be offered in a given session. Registration and current timetable information is also available on the web at <uvic.ca/course-registration>.

Students must ensure that they are familiar with the program requirements and restrictions noted in the entry for each academic unit.
Courses by Faculty

Division of Medical Sciences
NRSC  Neuroscience

Faculty of Education
ED-D  Educational Psychology and Leadership Studies
Department of Educational Psychology and Leadership Studies
EDCI  Curriculum and Instruction Studies
Department of Curriculum and Instruction
EPHE  Exercise Science, Physical and Health Education
School of Exercise Science, Physical and Health Education
IED  Indigenous Education

Faculty of Engineering
CIVE  Civil Engineering
Department of Civil Engineering
CSC  Computer Science
Department of Computer Science
ELEC  Electrical Engineering
Department of Electrical and Computer Engineering
MECH  Mechanical Engineering
Department of Mechanical Engineering

Faculty of Fine Arts
AHVS  Art History and Visual Studies
Department of Art History and Visual Studies
ART  Visual Arts
Department of Visual Arts
CH  Cultural Heritage Management
Department of Art History and Visual Studies and Division of Continuing Studies
MUS  Music
School of Music
THEA  Theatre
Department of Theatre

## Course Abbreviation and Number
Courses are listed alphabetically by course abbreviation of up to four letters (e.g., ANTH for Anthropology) and course number (e.g., 100). Three numbers are used for course number plus a letter as appropriate. The first digit indicates the year level:
- 0: University-level upgrading or undergraduate co-op work term
- 1 to 4: Undergraduate level
- 5, 6: Graduate level
- 7: Education Professional Year
- 8: Graduate co-op work term

## Cross-listed Courses
The same course may be offered by two different departments. Such courses are listed twice, once under each department course abbreviation. Students may obtain credit for the course from either department, but not both.

## Former Course Abbreviation and Number
If a course was previously offered at UVic under another abbreviation and number, the former abbreviation and number are shown here.

## Prerequisites and Corequisites
Prerequisites are courses or other requirements that must be completed before a student may register in a course. Corequisites are courses or other requirements that must be completed at the same time as a specific course. For more information on how to read prerequisites, see <www.uvic.ca/prereq>.

## Units of Credit
This is the number of units of credit assigned to a course. Some courses are listed with variable units (e.g., 1.5-3.0). Further information on the unit value of the course will usually be found in the course note. Students may also contact the department or faculty offering the course for information on variable unit courses.

## Hours of Instruction
These numbers refer to the hours of instruction per week:
- 1st digit: hours assigned for lectures or seminars
- 2nd digit: hours assigned for laboratory or practical sessions
- 3rd digit: hours assigned to tutorials

## Notes
Notes provide information about any restrictions on the assignment of credit in cases where content overlaps, as well as the maximum allowable credit for courses that may be taken more than once. Notes may also provide additional information about a course.

## Grading
Courses that are not graded using standard letter grades include the alternative classifications for evaluation.

---

### Example: SAMP 101

**Sample Course Name**

</table>

**Also:** CD 100

**Formerly:** SAMP 100A

This sample course description illustrates the notations commonly found in a course description. Not all course descriptions include all the information shown in this sample. For clarification on any information presented in a course description, contact the department or faculty offering the course.

**Note:** Credit will be granted for only one of SAMP 101, SAMP 100A, CD 100.

**Prerequisite(s):** Admission to the program.

**Grading:** INP/COM, N, F.

---

Course descriptions do not include information on when courses will be offered. That information is available at <www.uvic.ca/timetable>.
ADMN 502A - ADMN 550

ADMN 502A Units: 1.5
Surveying, Appraising and Commissioning Information
Introduces students to essential skills and components of the research process, weaknesses and strengths. Key issues in research ethics and design are explored, including: research and data validity, measurement, qualitative methods, sampling, survey research techniques, questionnaire design, research design, measures of central tendency, dispersion, correlation, and computer-based analyses.
Note: Credit will be granted for only one of ADMN 502A, ADMN 555.

ADMN 502B Units: 1.5
Data Analysis and Interpretation
Develops skills in understanding, evaluating and applying techniques of data analysis relevant to policy analysis and management research. Topics include: descriptive and inferential statistics; techniques of estimation in the context of opinion polls and related survey research; statistical testing using data collected from survey research, correlational studies, and experimental and quasi-experimental research designs. The computer lab component will allow students to further develop spreadsheet skills using EXCEL.
Prerequisite(s):
• One of ADMN 502A, PADR 502, or PADR 502A; or
• permission of the school.

ADMN 504 Units: 1.5
Government and Governance
Provides a foundation that helps students build and refine their understanding of Canadian public sector governance. Focus is on key governance institutions and processes, the efforts made to reform them, and theories behind those reform initiatives and changes. Specifically, examines strategic governance challenges and reforms in areas such as service delivery, regulation, policy making, budgeting, citizen engagement, federal-provincial relations, public sector ethics and accountability.

ADMN 507 Units: 1.5
Leadership and Ethics in the Public Sector
Public leadership requires an understanding of others and one’s self in order to mobilize effort in challenging environments. Provides frameworks and practical strategies for understanding personal capacity, team dynamics, and working with others within and across organizational boundaries. Introduces students to competing values and ethics, and equips them with skills and strategies for analyzing, motivating and managing change and the challenges they may face.

ADMN 509 Units: 1.5
Microeconomics for Policy Analysis
Provides a foundation in microeconomic principles, the rationale for public sector interventions in the market, and essential tools for economic policy analysis. Students will be introduced to rational choice theory, resource allocation methods, supply and demand, efficiency and equity, elasticity, income redistribution, externalities, public goods, and imperfect information. Relies on practical problem-based learning. Contemporary themes include behavioral and nudge economics, economic inequality, and the moral economy.
Pre- or Corequisite(s):
• One of ADMN 502A, PADR 502, PADR 502A; and
• ADMN 504; or
• permission of the school.

ADMN 512 Units: 1.5
Public Financial Management and Accountability
Explores the budgeting cycle: budget preparation and execution, internal and external auditing, financial statements, and performance budgeting and reporting. Examines management tools that support resource allocation decisions and accountability. Considers the rationale for alternative goods and services provision arrangements. Reviews evidence-based approaches for efficient resource allocation decisions, benchmarking performance, and incentives to motivate employees and contractors. Explores public sector fiscal challenges.
Pre- or Corequisite(s):
• One of ADMN 502A, PADR 502, PADR 502A; and
• ADMN 509; or
• permission of the school.

ADMN 523 Units: to be determined
Special Topics in Public Sector Management
Provides a unique chance to study selected topics drawn from the current literature in public sector management or related fields and an excellent opportunity to explore the academic theory underpinning current public sector functions.
Note: May be taken more than once for credit in different topics.

ADMN 531 Units: 1.5
Performance and Strategic Human Resource Management
Students explore the critical role of human capital in public organizations and how to align it with strategic objectives. Students learn about human resource management functions - planning, staffing, training and development, performance management, compensation, and labour relations - and theories and approaches to improving organizational performance. Considers some of the contemporary challenges, such as high public expectations, constrained budgets, demographic turnover, and technological change.
Note: Credit will be granted for only one of ADMN 531, ADMN 431.
Prerequisite(s):
• ADMN 507 or PADR 504; or
• permission of the school.

ADMN 537 Units: 1.5
Program Evaluation and Performance Measurement
Examines program evaluation and performance measurement in public and nonprofit organizations. Emphasis is placed on acquiring skills needed to model programs, measure key constructs, select appropriate research designs, and conduct both quantitative and qualitative program evaluations. Issues involved in designing and implementing program performance measurement systems are introduced.
Note: Credit will be granted for only one of ADMN 537, ADMN 437.
Prerequisite(s):
• One of ADMN 502A, PADR 502, or PADR 502A; and
• ADMN 502B; or
• permission of the school.

ADMN 544 Units: 1.5
Economic Evaluation Methods and Applications
A practical introduction to the theory and methods of economic evaluation, including cost-benefit analysis, cost-effectiveness analysis, and cost-utility analysis, with emphasis on public sector applications.
Prerequisite(s):
• For students admitted to MPA program:
  • one of ADMN 502A, PADR 502, PADR 502A, and
  • ADMN 502B and ADMN 509;
• For students not admitted to MPA program:
  • permission of the school.

ADMN 547 Units: 1.5
Intergovernmental Relations in Canada
Examines the impact on public policy of relations between governments resulting from the distribution of powers among federal, provincial, and municipal governments in Canada. Topics will include the interpretive role of the courts, the instruments of fiscal federalism, administrative relationships, and the concepts of “executive federalism” and “intergovernmental governance”. Individual and team projects will explore how policy issues are handled at different stages and in different arenas of the intergovernmental process.
Note: Credit will be granted for only one of ADMN 547, ADMN 462, POL 462.
Recommendation(s): ADMN 504 recommended prior to ADMN 547.

ADMN 548 Units: to be determined
Special Topics in Public Policy
A study of selected special topics in Public Policy drawn from the current literature in Public Administration or related fields.
Note: May be taken more than once for credit in different topics.

ADMN 550 Units: 1.5
Strategic Communication and Engagement
Communicating with and engaging stakeholders about policy priorities, problems, the design of policy and services, and implementation are crucial features of modern public and non-profit sector governance. Reviews theories, research, and practical strategies for identifying, analyzing and involving diverse groups in policy and program development, and developing multi-faceted communications strategies in the digital era. Students will also develop engagement and communications strategies.
Note: Credit will be granted for only one of ADMN 550, ADMN 470 (if taken with same topic).

**ADMN 551 - Administrative Justice System in Canada**
Examines constitutional and administrative law structures and principles that underlie Canada’s administrative justice system. Students develop critical understanding of (1) characteristics of federal and provincial systems, (2) legal principles under which statutory decision-making is done, (3) process and principles applied to development of administrative justice system legislation, (4) breadth and influence of tribunal decisions on activities of Canadians. Examples are drawn from federal and provincial levels; comparisons to US, UK and France as appropriate.

**ADMN 553 - Understanding Cities**
Cities are a basic building block to society, and offer an interesting opportunity to study political, social and economic issues. Examines European and North American/Canadian cities using academic and government resources to analyze and compare their various aspects.

**ADMN 554 - Responsible Public Management**
Designed to give students the opportunity to: understand the value dimensions of public management; reflect upon and enhance their own ethical reasoning skills; critically examine existing behavioural standards and guidelines for public managers; work with colleagues to establish what actions would be morally defensible in real administrative and policy-making situations; and consider what steps can be taken to enhance responsible public management.

**ADMN 556 - Managing Public Policy**
Examines the theory and practice of public policy emphasizing the strategic aspects of problem identification, policy design, decision making, implementation and evaluation. Designed to provide students a thorough understanding of public policy and dynamics of the policy process and to apply this knowledge to important policy issues. Policy development is examined within the context of multi-level and multi-sector governance, and addresses the involvement of key players such as the courts, media, and other prominent stakeholders.

**ADMN 557 - Public Sector Research Methods**
Introduces research approaches and methodologies for policy analysis, evaluation and other analytical projects in the public and non-profit sectors and in preparation for the thesis. Introduces essential components of research for conceiving and conducting a research project: objectives of research, literature review, conceptual framing, research design and approaches, methods for data collection, analysis and presentation. The student identifies a topic and is supported to build a strong research proposal for their master’s thesis.

**ADMN 558 - European Union Urban Region Policies**
Examines the theory and practice of public policy emphasizing the strategic aspects of problem identification, policy design, decision making, implementation and evaluation. Designed to provide students a thorough understanding of public policy and dynamics of the policy process and to apply this knowledge to important policy issues. Policy development is examined within the context of multi-level and multi-sector governance, and addresses the involvement of key players such as the courts, media, and other prominent stakeholders.

**ADMN 559 - Qualitative Evaluation Methods and Applications**
Explores the principles and practices of effective qualitative evaluation methods: planning, design strategies; data collection, analysis and reporting. Coursework includes: selecting appropriate design strategies and sampling methods; collecting data using in-depth, open-ended interviews, fieldwork-based observations, participant observation, and documents; analyzing large volumes of qualitative data to produce clear, credible and relevant findings. The course will also examine strategies for integrating multiple lines of qualitative findings in evaluations.

**ADMN 560 - Directed Studies**
To be determined

**ADMN 561 - Program Evaluation**
Topics may include: simple and multiple regression, endogeneity, limited dependent variables, panel data, and experimental methods.

**ADMN 562 - Topics in Evaluation and Performance Measurement**
Designed to explore contemporary issues and problems in the field of evaluation and performance management. Topics will be selected for each offering of the course; examples of topics to be included are: contribution analysis; gaming of performance measurement; professionalizing evaluation; managing knowledge creation and its uses in complex organizations; understanding and influencing organization cultures to increase and sustain knowledge utilization; audit and evaluation; comparative evaluation; and evaluation in developing countries.

**ADMN 563 - Evaluation Project**
The evaluation project is a substantial evaluation of a policy or program designed and conducted for a public sector or non-profit organization. Each evaluation project will have a client and will be supervised by a faculty member in the School of Public Administration. The completed project report will be assessed by a committee consisting of the academic supervisor, a second reader (both members of the School of Public Administration), and the client for the project.

**ADMN 564 - Master’s Project**
A substantial analysis of a management, policy or program problem which may be done for a client in the non-profit or public sector. The Master’s Project is prepared under the supervision of a faculty member in the School of Public Administration and must be both practical and academically rigorous. Students have the choice of working individually or with a student partner. A written project report is defended in an oral examination.

**Notes:**
- ADMN 502B, or permission of the school.
- ADMN 477.
- ADMN 422, PADR 503.
- ADMN 502A, ADMN 504, ADMN 509, ADMN 512, ADMN 550, or permission of the department.
- ADMN 502A, ADMN 504, ADMN 509, ADMN 512, ADMN 550, or permission of the department.
- ADMN 502A, ADMN 504, ADMN 509, ADMN 512, ADMN 550, or permission of the department.
- ADMN 502A, ADMN 504, ADMN 509, ADMN 512, ADMN 550, or permission of the department.
ADMN 599 - AHVS 545

ADMN 599 Units: 6.0
Master's Thesis
Requires a substantial contribution to the knowledge in the field of Public Administration. An MPA Thesis will demonstrate a student's mastery of a substantive body of scholarly or practice literature as well as using appropriate and academically defensible methodologies to analyze research questions, test hypotheses or contribute new theoretical knowledge. Individual students will work with an academic supervisor in the School of Public Administration.
Grading: INP, COM, N, F.

ADMN 600 Units: 0
Doctoral Seminar
The doctoral seminar supports the advancement of research and writing skills. Students will develop competencies in preparing and publishing research. Students are asked to register in this course each term during their PhD program.
Grading: INP, COM, N, F.

ADMN 602 Units: 1.5
Research Methods in Public Administration
Research employed in public administration, concentrating on collecting and data and Students critically appraise key methodological and methods
Note:

ADMN 604 Units: 1.5
Also: POLI 610
Theories of Public Management
Explores different theories and approaches to understanding public administration and reform. Considers variations in three areas: political and constitutional authority, accountability and responsibility, and the roles of elected and non-elected officials; government structures, responsibilities for policy and service delivery, and distributed governance; and patterns and trends in central decision-making, budgeting, control, transparency, and citizen engagement. Students will review seminal comparative studies on administrative practice and reform and undertake a comparative study on a selected topic.
Note: Credit will be granted for only one of ADMN 604, POLI 610.

ADMN 605 Units: 1.5
Also: POLI 667
Comparative Policy and Governance
Explores the comparative analysis of public policy across jurisdictions and organizations. Examines policy determinants such as history, culture, institutions and the economy, policy dynamics and processes such as agenda-setting and decision-making, networks and communities, policy change and transfer.
Note: Credit will be granted for only one of ADMN 605, POLI 507, POLI 607.

ADMN 607 Units: 1.5
Organizational Behaviour and Analysis
A review of the origins, analytic traditions, and evolution of the study of organizations, focusing on exploring and analyzing the behaviour of public organizations. Topics include goal formation, tasks, technology, formal structure, informal organization, motivation, perception, values, culture, information, decision making, group dynamics, conflict, leadership, empowerment, creativity, learning and innovation. Concepts and theories are complemented by reviewing seminal literature on public, private, and non-profit organizations, and by undertaking field research.

ADMN 620 Units: 1.5
Policy and Institutional Design and Analysis
A review of the interdisciplinary foundations of the analysis and design of public policy, and the institutions and strategies for implementing them. Examines the rationale, comparative advantage, and combinations of government hierarchies, markets, networks, and policy instruments. Considers how to help different disciplinary and professional perspectives and techniques for addressing design and implementation challenges, and how to draw lessons from different policy domains and jurisdictions, through case studies and projects in selected policy domains.

ADMN 621 Units: 1.5
Policy and Program Evaluation and Performance
Compares and assesses different theoretical and methodological approaches that have emerged in the evaluation field. Students read intensively for seminar discussions and preparation of a series of short papers during the semester. Topics include post-positivist, constructivist, critical realist and pragmatic theoretical approaches, qualitative and quantitative methodological approaches to doing evaluations, and challenges and emerging trends in the whole field.

ADMN 645 Units: 1.5
Organizational Change and Development
Examines the philosophy, history, and evolving approaches associated with organizational change and development, with special focus on initiating and managing change in the public sector. Reviews the diverse perspectives on change and the special roles of those who seek to change and develop organizations. Includes topics such as planned and unplanned change, alternative interventions, resistance, leadership, and incremental versus radical change. Students will undertake case studies and assessments of organizational change initiatives.

ADMN 681 Units: 1.5
Quantitative Methods for Public Policy Analysis and Program Evaluation
Describes the logic behind various quantitative methodologies used in conducting retrospective quantitative evaluations in public policy programs and research. Demonstrates the application of these methodologies using real-world policy applications. Topics may include: simple and multiple regression, endogeneity, limited dependent variables, panel data and experimental methods.
Note: Credit will be granted for only one of ADMN 681, ADMN 581.

ADMN 690 Units: 1.0-3.0
Directed Studies
Notes:
• May be taken more than once for credit in different topics with permission of the school.
• Prerequisite: ADMN 693.

ADMN 693 Units: 3.0
PhD Candidacy Examination
Students enrol in ADMN 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed.
Grading: INP, COM, N, F.

ADMN 699 Units: 30.0
Dissertation
Prerequisite(s): ADMN 693.
Grading: INP, COM, N, F.

AHVS
Art History and Visual Studies
Department of Art History and Visual Studies
Faculty of Fine Arts

AHVS 501 Units: 1.5
Formerly: HA 501
Colloquium in Theories and Practices
Notes:
• Credit will be granted for only one of AHVS 501, HA 501.
• A compulsory seminar for all master's students.

AHVS 502 Units: 1.5
Formerly: HA 502
Special Topics in Art History and Visual Studies
Note: Credit will be granted for only one of AHVS 502, HA 502.

AHVS 509 Units: 1.5
Formerly: HA 509
Workshop in Art Historical Writing
Notes:
• Credit will be granted for only one of AHVS 509, HA 509.
• A compulsory workshop.
Prerequisite(s): AHVS 501 or HA 501.

AHVS 520 Units: 1.5
Formerly: HA 520
Seminar in Medieval Art
Note: Credit will be granted for only one of AHVS 520, HA 520.

AHVS 530 Units: 1.5
Formerly: HA 530
Seminar in the Contemporary Art of South and Southeast Asia
An intensive examination of selected themes, histories and case studies in the contemporary arts and art worlds of South and/or Southeast Asia.
Note: Credit will be granted for only one of AHVS 530, HA 530.

AHVS 535 Units: 1.5
Seminar in Late Medieval and Early Renaissance Art, c. 1200-1500
Note: May be taken more than once for credit in different topics.

AHVS 540 Units: 1.5
Formerly: HA 540
Seminar in Renaissance Art
Note: Credit will be granted for only one of AHVS 540, HA 540.

AHVS 545 Units: 1.5
Formerly: HA 545
Seminar in Early Modern Art, c. 1500-1750
Note: Credit will be granted for only one of AHVS 545, HA 545.
AHVS 549  Units: 1.5  
Formerly: HA 549  
Seminar in Orientalism in Art and Architecture  
Note: Credit will be granted for only one of AHVS 549, HA 449, HA 549.  

AHVS 550  Units: 1.5  
Formerly: HA 550  
Seminar in Islamic Art and Civilization  
Note: Credit will be granted for only one of AHVS 550, HA 550.  

AHVS 552  Units: 1.5  
Formerly: HA 552  
Seminar in the Arts of Mughal India  
Note: Credit will be granted for only one of AHVS 552, HA 552.  

AHVS 554  Units: 1.5  
Formerly: HA 554  
Seminar in Canadian Art  
Note: Credit will be granted for only one of AHVS 554, HA 465, HA 554.  

AHVS 555  Units: 1.5  
Formerly: HA 555  
Seminar in Canadian Art  
Note: Credit will be granted for only one of AHVS 555, HA 555.  

AHVS 560  Units: 1.5  
Formerly: HA 560  
Seminar in Modern Art I (1870-1945)  
Note: Credit will be granted for only one of AHVS 560, HA 560.  

AHVS 561  Units: 1.5  
Formerly: HA 561  
Seminar in Modern Art II (1945-1990)  
Note: Credit will be granted for only one of AHVS 561, HA 561.  

AHVS 563  Units: 1.5  
Formerly: HA 563  
Seminar in Political Art  
Note: Credit will be granted for only one of AHVS 563, HA 563.  

AHVS 564  Units: 1.5  
Formerly: HA 564  
Seminar in Contemporary Art  
Note: Credit will be granted for only one of AHVS 564, HA 564.  

AHVS 565  Units: 1.5  
Formerly: HA 565  
Seminar in Contemporary North American Indigenous Arts  
Note: Credit will be granted for only one of AHVS 565, HA 565.  

AHVS 570  Units: 1.5  
Formerly: HA 570  
Seminar in East Asian Art  
Note: Credit will be granted for only one of AHVS 570, HA 570.  

AHVS 571  Units: 1.5  
Seminar in the Arts of China  
Note: Credit will be granted for only one of AHVS 571, HA 571.  

AHVS 578  Units: 1.5  
Formerly: HA 578  
Seminar in Theory & Film Culture  
Note: Credit will be granted for only one of AHVS 578, HA 578.  

AHVS 580  Units: 1.5  
Formerly: HA 580  
Topics in Cultural Resource Management  
Note: Credit will be granted for only one of AHVS 580, HA 580.  
Prerequisite(s): Permission of the department.  

AHVS 582  Units: 1.5  
Formerly: HA 582  
Seminar in Indigenous Arts  
Note: Credit will be granted for only one of AHVS 582, HA 482, HA 582.  

AHVS 584  Units: 1.5  
Formerly: HA 584  
Seminar in Contemporary Arts: Pacific Northwest  
An intensive study of a selected aspect of Pacific Northwest art. Content will vary from year to year.  
Notes:  
• Credit will be granted for only one of AHVS 584, HA 584.  
• May be taken more than once with permission of the department.  

AHVS 590  Units: 1.5  
Formerly: HA 590  
Directed Studies MA Level  
Notes:  
• Credit will be granted for only one of AHVS 590, HA 590 (if taken in the same topic).  
• May be taken more than once for credit in different topics.  
• Pro Forma required.  

AHVS 593  Units: 1.5  
Formerly: HA 593  
Seminar on the Williams Collection  
An intensive study of selected aspect of the Williams Collection. Topics will vary.  
Notes:  
• Credit will be granted for only one of AHVS 593, HA 593.  
• May be taken more than once with permission of the department.  
• Several classes may be taught at area museums and galleries.  

AHVS 598  Units: 4.5  
Formerly: HA 598  
Research Paper  
An extended research paper of approx. 10,000 words, which will be defended in an oral exam.  
Note: Credit will be granted for only one of AHVS 598, HA 598.  
Grading: INP, COM, N, F.  

AHVS 601  Units: 1.5  
Formerly: HA 601  
Colloquium in Theories and Practices  
Notes:  
• Credit will be granted for only one of AHVS 601, HA 601.  
• A compulsory course for all doctoral students, except for students who have credit for AHVS 501.  

AHVS 609  Units: 1.5  
Formerly: HA 609  
Workshop in Art Historical Writing  
Notes:  
• Credit will be granted for only one of AHVS 601, HA 601.  
• A compulsory workshop.  

AHVS 690  Units: 1.5-6.0  
Formerly: HA 690  
Directed Studies PhD Level  
Notes:  
• Credit will be granted for only one of AHVS 690, HA 690 (if taken in the same topic).  
• May be taken more than once for credit in different topics.  
• Pro Forma required.  

AHVS 693  Units: 3.0  
Formerly: HA 693  
Candidacy Exam  
Note: Credit will be granted for only one of AHVS 693, HA 693.  
Grading: INP, COM, N, F.  

AHVS 699  Units: 30.0  
Formerly: HA 699  
PhD Dissertation  
Note: Credit will be granted for only one of AHVS 699, HA 699.  
Prerequisite(s): AHVS 693 or HA 693  
Grading: INP, COM, N, F.  

ANTH  

Anthropology  
Department of Anthropology  
Faculty of Social Sciences  

ANTH 500  Units: 1.5  
Seminar in Anthropological Theory  
Diverse perspectives in anthropological thought, focussing on epistemological issues, integrative practice among anthropology’s subfields, the collaborative dimensions of anthropological research, and implications for ethically engaged community-based research.  
Prerequisite(s): Permission of the program.  

ANTH 510H  Units: 1.5  
Medical Anthropology  
Prerequisite(s): Permission of the program.
ANTH 511 - Units: 1.5
Formerly: ANTH 501
Advanced Research Seminar in Inequality, Culture and Health
In-depth and critical survey of current issues, topics, theory and method in anthropology, with particular emphasis on inequality and health.
Note: Credit will be granted for only one of ANTH 511, ANTH 501.

ANTH 516 - Units: 1.5
Seminar in Anthropological Research Methods
An advanced consideration of the assumptions which lie behind various approaches to conducting research in anthropology.

ANTH 520 - Units: 1.5
Specialized Themes in Anthropology
Depending on the student’s interests and the availability of an instructor, studies may be selected in one or more of: ANTH 520A, ANTH 520B, ANTH 520C
Note: May be taken more than once for credit in different topics with permission of the department.
Prerequisite(s): Permission of the program.

ANTH 520A - Units: 1.5
Themes in Sociocultural Anthropology

ANTH 520B - Units: 1.5
Themes in Archaeology

ANTH 520C - Units: 1.5
Themes in Biological Anthropology

ANTH 530 - Units: 1.5
Ethnology of Selected Areas
Depending on the student’s interests and the availability of an instructor, studies may be selected in a geographic area of the student’s interest.
Note: May be taken more than once for credit in different topics with permission of the department.
Prerequisite(s): Permission of the program.

ANTH 542 - Units: 1.5
Archaeology of a Selected Area
Prerequisite(s): Permission of the program.

ANTH 551 - Units: 1.5
Formerly: ANTH 550
Advanced Research Seminar in Ecology and Evolution
In-depth and critical surveys of current issues, topics, theory and method in topics related to both human and non-human primate ecology and evolution, including both morphological and behavioral adaptations and evolution.
Note: Credit will be granted for only one of ANTH 550, ANTH 551.

ANTH 552 - Units: 1.5
Selected Topics in Biological Anthropology
Depending on the student’s interests and the availability of an instructor, studies may be selected in one or more of: ANTH 552A, ANTH 552D, ANTH 552E.
Prerequisite(s): Permission of the program.

ANTH 552A - Units: 1.5
Applied Topics in Osteological Methods
Prerequisite(s): Permission of the program.

ANTH 552E - Units: 1.5
Advanced Topics in Biological Anthropology
Prerequisite(s): Permission of the program.

ANTH 571 - Units: 1.5
Advanced Research Seminar in Visual Anthropology and Materiality
In-depth and critical survey of current issues, topics, theory and method relating to visual anthropology and materiality in historical and contemporary contexts.

ANTH 585 - Units: 1.5
Advanced Research Seminar in Space, Place, Knowledge And Power
Critical survey of contemporary theory and method in anthropology, with specific emphasis on space, place, knowledge, and power. Course content varies at discretion of instructor.

ANTH 590 - Units: 1.5-3.0
Directed Studies
Note: Pro Forma required.
Prerequisite(s): Permission of the program.

ANTH 597 - Units: 0.0-3.0
Thesis Proposal Development
Offered every term, for MA students who are preparing their thesis proposals. After the proposal is approved, students enrol in S99.
Grading: INP, COM, N, F.

ANTH 598 - Units: 0
Comprehensive Examinations
Note: Enrollment restricted to non-thesis MAs only.
Grading: INP, COM, N, F.

ANTH 599 - Units: 7.5
Thesis
Grading: INP, COM, N, F.

ANTH 600 - Units: 1.5
Professional Development in Anthropology
Addresses the responsibilities of anthropologists in communicating the results of their work to academia and the public. Topics covered include (but are not limited to): research ethics, grants and contracts, teaching, conference paper presentation and publishing. Required for students in the PhD program in Anthropology, and Interdisciplinary PhD students with Anthropology as one of their disciplines.

ANTH 611 - Units: 1.5
Advanced Research Seminar in Inequality, Culture and Health
In-depth and critical survey of current issues, topics, theory and method in anthropology, with particular emphasis on inequality and health.

ANTH 612 - Units: 1.0
Graduate Colloquium
A compulsory colloquium for PhD students in Anthropology that meets weekly from late September until mid-April. Papers are presented by graduate students, faculty, and visiting scholars. PhD students are required to participate during the two years they are meeting the PhD residency requirement. Participation includes attendance, assistance with the organization of the colloquia and at least one paper presentation by the end of the second academic year of the PhD student’s program.
Grading: INP, COM, N, F.

ANTH 651 - Units: 1.5
Advanced Research Seminar in Ecology and Evolution
In-depth and critical survey of current issues, topics, theory and method in topics related to both human and non-human primate ecology and evolution, including both morphological and behavioral adaptations and evolution.

ANTH 671 - Units: 1.5
Advanced Research Seminar in Visual Anthropology and Materiality
In-depth and critical survey of current issues, topics, theory and method relating to visual anthropology and materiality in historical and contemporary contexts.

ANTH 685 - Units: 1.5
Advanced Research Seminar in Space, Place, Knowledge and Power
Critical survey of contemporary theory and method in anthropology, with specific emphasis on space, place, knowledge, and power. Course content varies at discretion of instructor.

ANTH 690 - Units: 1.5
Specialized Directed Study
Intended to prepare students to participate in and contribute to research and knowledge development in one or more of their particular areas of specialization within the discipline.
PhD students must take any one of the following: ANTH 690A, ANTH 690C, ANTH 690D, ANTH 690E, ANTH 690F.

ANTH 690C - Units: 1.5
Specialized Directed Study in Inequality, Culture, Health

ANTH 690D - Units: 1.5
Specialized Directed Study in Evolution and Ecology

ANTH 690E - Units: 1.5
Specialized Studies in Method and Theory

ANTH 690F - Units: 1.5
Specialized Directed Study in Visual Anthropology and Materiality

ANTH 690G - Units: 1.5
Specialized Directed Study in Space, Place, Knowledge and Power

ANTH 693 - Units: 3.0
PhD Candidacy Examinations
Students enroll in ANTH 693 while completing their candidacy requirements. In addition to completing their coursework, PhD students must fulfill the language requirement, pass their comprehensive examinations, and defend their dissertation proposal in order to advance to candidacy.
Grading: INP, COM, N, F.

ANTH 699 - Units: 20
PhD Dissertation
Prerequisite(s): ANTH 693.
Grading: INP, COM, N, F.
ART 500 - BCMB 500

ART

Visual Arts
Department of Visual Arts
Faculty of Fine Arts

ART 500 Units: 9.0
First Year Drawing

ART 501 Units: 9.0
Second Year Drawing

ART 511 Units: 9.0
First Year Painting

ART 512 Units: 9.0
Second Year Painting

ART 521 Units: 9.0
First Year Sculpture

ART 522 Units: 9.0
Second Year Sculpture

ART 541 Units: 9.0
First Year Photography

ART 542 Units: 9.0
Second Year Photography

ART 551 Units: 9.0
First Year Digital Media

ART 552 Units: 9.0
Second Year Digital Media

ART 570 Units: 3.0
Directed Study

ART 580 Units: 6.0
First Year Seminar

ART 581 Units: 6.0
Second Year Seminar

The graduate seminar meets weekly, serving as a forum for active investigation of contemporary art practices as they pertain to student and faculty research areas. The seminar also serves as an occasional forum for visiting artists and critics. Students are expected to make presentations based on their work and research, to participate actively in discussion and to demonstrate their critical and analytical abilities in dealing with the material presented.

ART 598 Units: 0
MFA Degree Exhibition

This final exhibition will be the major source of evaluation for the student’s attainment of the MFA and should be regarded as the equivalent of the scholarly thesis of an academic discipline. The degree exhibition will be evaluated by the student’s committee which will submit its decision to the department for approval. Graduating students will speak to their work and answer questions from the examining committee. The examining committee may ask questions about the cultural, social, and theoretical relations apparent in the student’s work. Students are required to provide documentation of their graduating exhibition which will be on file in the department. This documentation will take the form of slides, photographs, videotapes or other forms appropriate to the student’s production.

Grading: INP, COM, N, F.

ASTR

Astronomy
Department of Physics and Astronomy
Faculty of Science

ASTR 501 Units: 1.5
Stellar Interiors and Evolution

The physics of stars and stellar explosions. Interior structure and evolution including the origin of the elements. Stellar properties as a function of mass and metallicity. Computational simulations of stars and stellar physics processes, such as mixing, and corresponding observables.

ASTR 503 Units: 1.5
The Interstellar Medium

Spectral line formation and notation. Processes in the interstellar medium including collisional excitation/ionization, line transfer effects (e.g., resonance and fluorescence), continuum and recombination processes. The theory of photoionized regions. Dust and metals - formation, measurement and chemistry. The application of these physical processes to current research topics, including the composition of the Milky Way and Local Group galaxies and the interstellar media of high redshift galaxies.

ASTR 504 Units: 1.5
A Theoretical Perspective on Galaxies

The current theoretical framework for understanding the formation and evolution of galaxies and galaxy systems. Topics may include the origin of the initial density perturbations during inflation, the hierarchical clustering paradigm, the physics driving the evolution of cosmic baryons, and the latest tools used by theorists to study structure formation.

ASTR 505 Units: 1.5
An Observational Perspective on Galaxies

The formation and evolution of galaxies from a modern research perspective. Topics may include the observed properties of galaxies, the growth of galaxies from initial conditions, the development of galactic scaling relations, the relationship between galaxies and large-scale structure and the physical evolution of galaxies.

ASTR 506 Units: 1.5
Stellar Populations

The properties of star clusters and their use in improving our understanding of stellar evolutionary theory. The use of star clusters and theoretical stellar models to study the formation of galaxies in the early Universe in addition to the chemical and dynamical evolution of galactic systems.

ASTR 507 Units: 1.5
Stellar Archaeology

The properties of stars and stellar populations in the Milky Way Galaxy. Topics may include stellar chemistry and the analysis of model atmosphere, stellar and cluster kinematics, astronomical instrumentation, and big data surveys.

ASTR 508 Units: 1.5
Cosmology

Modern research problems in cosmology. Topics may include the measurement of cosmological parameters, universal expansion, large-scale structure, big bang nucleosynthesis and the cosmic microwave background.

ASTR 511 Units: 1.5
Advanced Topics in Astronomy

Advanced topics covering research in the fields of extra-galactic and stellar astronomy.

Note: May be taken more than once for credit in different topics.

ASTR 561 Units: 1.5
Student Seminar (MSc)

Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing astronomical research. This is a continuing course that is taken throughout the MSc program, but credit is not granted until completion of the program.

Grading: INP, COM, N, F.

ASTR 580 Units: 1.0-3.0
Directed Studies

Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

ASTR 661 Units: 1.5
Student Seminar (PhD)

Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing astronomical research. This is a continuing course that is taken throughout the initial part of the PhD program, with credit granted on successful completion of the PhD Candidacy Examination PHYS 693.

Grading: INP, COM, N, F.

BCMB

Biochemistry and Microbiology
Department of Biochemistry and Microbiology
Faculty of Science

BCMB 500 Units: 1.0
Critical Thinking in Biochemistry and Microbiology

Allows students to develop their oral presentation and written communication skills and provides students with training in critical analysis of data and peer-reviewed publications.
BCMB 501  
Units: 1.0  
Formerly: BCMB 531  
**Essentials of Scientific Writing**  
Exploration of the techniques and strategies of effective scientific writing for knowledge dissemination, grant submission, and peer-reviewed journals.  
**Note:** Credit will be granted to only one of BCMB 501, BCMB 531.

BCMB 502  
Units: 1.0  
**Journal Club I**  
Journal club designed to introduce students to relevant biochemical and microbiological research literature. Selected papers will encompass the following research themes: (1) molecular pathogenesis, (2) gene expression and signaling; (3) diagnostics, therapeutics and vaccines; (4) protein chemistry, structure and function; and (5) proteomics.

BCMB 580  
Units: 0  
**Research Seminar**  
Requires attendance and participation at all departmental seminars, and the formal presentation of the research that comprises the major portion of the student’s MSc thesis in biochemistry or microbiology, or the major portion of the currently completed and proposed research for students intending to transfer to the PhD program.

BCMB 589  
Units: 0.5-1.5  
**Special Topics in Biochemistry or Microbiology**  
Instruction in a specific or highly specialized aspect of biochemistry or microbiology not otherwise offered in the department’s graduate programs.  
**Note:** May be taken more than once for credit in different topics to a maximum of 1.5 units.

BCMB 602  
Units: 0  
**Journal Club II**  
Journal club designed to introduce students to relevant biochemical and microbiological research literature. Selected papers will encompass the following research themes: (1) molecular pathogenesis; (2) gene expression and signaling; (3) diagnostics, therapeutics and vaccines; (4) protein chemistry, structure and function; and (5) proteomics.  
**Prerequisite(s):** BCMB 502.  
**Grading:** INP, COM, N, F.

BCMB 680  
Units: 0  
**Advanced Research Seminar**  
Requires attendance and participation at all departmental seminars, and the formal presentation of the research that comprises the major portion of the student’s PhD thesis work in biochemistry or microbiology.  
**Prerequisite(s):**  
- One of BCMB 580, BIOL 580, MICR 580; or  
- permission of the department.  
**Grading:** INP, COM, N, F.

BCMB 693  
Units: 3.0  
**PhD Candidacy Examination**  
Students enrol in BCMB 693 upon provisional transfer to the BIOL or MICR PhD program and remain enrolled until all candidacy requirements are complete.  
**Grading:** INP, COM, N, F.

BIOC 530  
Units: 1.5  
**Ion Channels: Structure and Function**  
Electrical signals in neurons are produced by voltage-gated and ligand-gated ion channels. Any disturbance in the function of ion channels can lead to major neurological disorders. This course will allow students to learn the structure and function of some of the major voltage- and ligand-gated ion channels. Mechanisms of ligand binding, gating and ion selectivity will be covered. The structure of the course will be based primarily on critical discussion of research papers.

BIOC 570  
Units: 0.5-3.0  
**Directed Studies in Biochemistry**  
Topics are restricted to an analysis of recent advances. The student’s graduate supervisor will not normally participate in directed studies taken for more than one unit of credit.  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Pro Forma required.

BIOC 599  
Units: to be determined  
**MSc Thesis: Biochemistry**  
**Grading:** INP, COM, N, F.

BIOC 699  
Units: to be determined  
**PhD Dissertation: Biochemistry**  
**Corequisite(s):** BIOC 693.  
**Grading:** INP, COM, N, F.

BIOL 509B  
Units: 1.5  
**Neurobiology: Molecules to Behaviour**  
**Notes:**  
- Credit will be granted for only one of BIOL 509B, BIOL 409A, BIOL 367.  
- A combined undergraduate and graduate course.  
- Please contact instructor for more information.

BIOL 521  
Units: 1.5  
**Advanced Topics in Marine and/or Freshwater Algae**  
Phytoplankton eco-physiology, and connections between phytoplankton physiology and broad oceanographic issues, such as the dynamics of nutrient cycling, carbon export, paleoceanographic proxies, ocean warming and marine ecosystem changes.

BIOL 522  
Units: 1.5  
**Sensory Biology**  
Cellular and molecular mechanisms underlying sensory systems: sensory receptor coding logic, signal transduction, neuronal circuitry, developmental biology, comparative analysis of model organisms, related clinical disorders and therapeutic strategies. Focus placed on recent advances in the primary literature and on promoting skills for developing hypotheses and designing experiments.  
**Notes:**  
- Credit will be granted for only one of BIOL 522, BIOL 404.  
- A combined undergraduate and graduate course.  
- Please contact instructor for more information.

BIOL 535  
Units: 1.5  
**Topics in Evolutionary Biology**  
A lecture and discussion course dealing with the processes of evolution. Topics vary, and may include one or more of the following: microevolutionary and macroevolutionary processes, speciation mechanisms, phylogeny reconstruction, molecular evolution, genetic basis of morphological change. Areas of current controversy will be explored.  
**Note:** Credit will be granted for only one of BIOL 535, BIOL 555.
### BIOL 536 - BUS 601

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>BIOL 536</strong></td>
<td>1.5</td>
<td>Human Molecular Genetics&lt;br&gt;An advanced study of the supramolecular organization, structures and functions of the human genome, and their implications in genetic diseases, including cancer. Topics will include current advances in genomics, animal models of diseases, molecular pathology and gene therapies.&lt;br&gt;<strong>Notes:</strong>&lt;br&gt;- Credit will be granted for only one of BIOL 536, BIOL 436.&lt;br&gt;- A combined undergraduate and graduate course.&lt;br&gt;- Please contact instructor for more information.</td>
</tr>
<tr>
<td><strong>BIOL 538</strong></td>
<td>1.5</td>
<td>Nutrient Cycling and Prokaryotes&lt;br&gt;An introduction to prokaryotes (bacteria and archaea) and their role in nutrient cycling in forests, lakes and oceans. Diversity and evolution of populations and communities of prokaryotes and their role in the major biogeochemical cycles: carbon, nitrogen, sulfur. Genomic, biochemical, physiological and ecological aspects of processes such as nitrogen fixation and methanogenesis; design of experimental approaches to assess cycling of elements in forests, lakes and oceans by prokaryotes.&lt;br&gt;<strong>Notes:</strong>&lt;br&gt;- Credit will be granted for only one of BIOL 538, BIOL 438, FORB 538.&lt;br&gt;- A combined undergraduate and graduate course.&lt;br&gt;- Please contact instructor for more information.</td>
</tr>
<tr>
<td><strong>BIOL 540</strong></td>
<td>1.5</td>
<td>Molecular Epidemiology&lt;br&gt;Basic principles and applications of molecular epidemiology in epidemiological research on infectious and chronic diseases as well as risk factors in human populations. An overview of terminology and definitions, the use of statistics, and ethical consideration.&lt;br&gt;<strong>Notes:</strong>&lt;br&gt;- Credit will be granted for only one of BIOL 540, BIOL 439.&lt;br&gt;- A combined undergraduate and graduate course.&lt;br&gt;- Please contact instructor for more information.</td>
</tr>
<tr>
<td><strong>BIOL 544</strong></td>
<td>1.5</td>
<td>Molecular Evolution&lt;br&gt;Using population genetic and evolutionary principles to understand how and why genes and genomes change, and to reconstruct the evolutionary history of genes, genomes, and organisms.&lt;br&gt;<strong>Notes:</strong>&lt;br&gt;- Credit will be granted for only one of BIOL 544, BIOL 435.&lt;br&gt;- A combined undergraduate and graduate course.&lt;br&gt;- Please contact instructor for more information.</td>
</tr>
<tr>
<td><strong>BIOL 550</strong></td>
<td>1.0-6.0</td>
<td>Directed Studies&lt;br&gt;<strong>Notes:</strong>&lt;br&gt;- May be taken more than once in any of the below areas under the appropriate faculty member.&lt;br&gt;- Pro Forma required.</td>
</tr>
<tr>
<td><strong>BIOL 550A</strong></td>
<td>1.0-6.0</td>
<td>Evolution&lt;br&gt;<strong>Notes:</strong>&lt;br&gt;- May be taken more than once for credit in different topics with permission of the department.&lt;br&gt;- Pro Forma required.</td>

</tr>
</tbody>
</table>
**BUS 603 - Strategy**

Units: 1.5

Examines the current state of knowledge in strategic management. Topics may include the sources of competitive advantage, the role of industry evolution and technology, the organization of top management, and managerial decision-making and cognition. Introduces alternative theoretical perspectives and available empirical evidence related to these topics.

**BUS 604 - Business and Sustainability**

Units: 1.5

Changing societal and ecological dynamics, from global to local levels, are rapidly shaping new landscapes for the management of organizations - affecting their institutional contexts, interactions with an expanding range of stakeholders, strategic priorities and operational realities. Rethinking the role of business in society has added new concepts to organization theory, including corporate social responsibility, ecological sustainability and resilience, triple-bottom line management, natural capital, shared or sustainable value creation and social entrepreneurship.

**BUS 605 - Comparative Human Resource Management**

Units: 1.5

Focuses on human resource management (HRM) practices and outcomes in international organizations, as well as identifies causal factors accounting for differences across nations in HRM structures, practices and outcomes.

**BUS 606 - Micro Organizational Behaviour**

Units: 1.5

Focuses on the behaviour of individuals and groups in organizations. Introduces several key topics in the field and aims for a critical analysis of each topic to develop a framework for understanding the breadth and depth of the research done to date in each topic and to identify the gaps in the literature. Covers the major theories and empirical research, including conceptual and methodological issues.

**BUS 607 - Macro Organizational Theory**

Units: 1.5

Introduces the major schools of thought in organization and management theory. Considers the development of the field, major and foundational works in these schools of thought, and provides a cognitive map with which to evaluate contemporary research and debates. Provides understanding of the strengths and weaknesses of each major perspective.

**BUS 640 - Research Methods Fundamentals**

Units: 1.5

Builds methodological foundation for organizational research and provides an overview of a broad range of research methodologies for organizational research. Topics include an overview of quantitative and qualitative research methods, theory building process, reliability and validity, mediation and moderation, survey research design, and a brief introduction to Structural Equation Modeling and Experimental Design.

**BUS 641 - Mixed-Methods Research Design**

Units: 1.5

Mixed-Methods Research Design provides a conceptual and practical understanding of combining traditional quantitative research methods with ethnographic, qualitative and other non-traditional research methodologies to advance theory in management research. Develops skills in evaluating the appropriateness of the research design to the research question, the adequacy of the methodology and evidence used to support claims made, and the persuasiveness of the arguments.

Prerequisite(s): BUS 640 or permission of the program.

**BUS 650 - Selected Topics in Research Methods and Analysis**

Units: 0.5-4.5

Selected Topics in Research Methods and Analysis course content will reflect faculty members’ research expertise and current Management research methodological approaches. Topics may include advanced statistical techniques and research methodologies. The content, credit value and method of evaluation must be approved by the PhD Program Director.

Note: May be taken more than once for credit in different topics to a maximum of 9 units.

Grading: INP, COM, N, F.

**BUS 655 - Global Management and Society I**

Units: 1.5

Global Management and Society I provides an overview of international business and management with special emphasis on the environmental and societal impact of global organizations over two semesters. Covers a team-taught, integrative survey of selected topics introducing students to a variety of theoretical and disciplinary perspectives laying down a strong foundation for understanding today’s complex global organizational realities.

**BUS 656 - Global Management and Society II**

Units: 1.5

Further develops topics covered in BUS 655. Prerequisite(s): BUS 655 or permission of the program.

**BUS 670 - Academic Career Development**

Units: 3.0

Academic Career Development provides a holistic viewpoint on the life and work of a management professor towards a fulfilling academic career. Focuses on professional development skills and understandings, including research, teaching, presenting, and being a positive contributing member of the academic community.

Grading: INP, COM, N, F.

**BUS 687 - Teacher Training**

Units: 0

Teacher Training under guidance of a senior faculty member, PhD students will participate in training as teachers.

Grading: INP, COM, N, F.

**BUS 688 - International Fellowship Outgoing**

Units: 0

International Fellowship Outgoing students register in this course while participating in an international residency with a university outside of Canada.

Grading: INP, COM, N, F.

**BUS 689 - International Fellowship Incoming**

Units: 1.5-4.5

International Fellowship Incoming students register in this course while participating in an international residency from a university outside of Canada. Note: May be taken more than once for credit in different topics.

Grading: INP, COM, N, F.

**BUS 690 - Directed Studies for Business PhD Program**

Units: 1.5-4.5

Directed Studies for Business PhD Program provides an overview of international business and management with special emphasis on the environmental and societal impact of global organizations over two semesters. Covers a team-taught, integrative survey of selected topics introducing students to a variety of theoretical and disciplinary perspectives laying down a strong foundation for understanding today’s complex global organizational realities.

Note: May be taken more than once for credit in different topics to a maximum of 20 units.

Grading: INP, COM, N, F.

**BUS 694 - Dissertation Proposal Defence**

Units: 0

Dissertation Proposal Defence.

Grading: INP, COM, N, F.

**BUS 695 - Special Topics in Business Administration**

Units: 0.5-4.5

Special Topics in Business Administration provides an overview of international business and management with special emphasis on the environmental and societal impact of global organizations over two semesters. Covers a team-taught, integrative survey of selected topics introducing students to a variety of theoretical and disciplinary perspectives laying down a strong foundation for understanding today’s complex global organizational realities.

Note: May be taken more than once for credit in different topics to a maximum of 20 units.

Grading: INP, COM, N, F.

**BUS 699 - PhD Dissertation**

Units: 15

PhD Dissertation.

Prerequisite(s): BUS 694.

Grading: INP, COM, N, F.

**CD - Community Development**

School of Public Administration
Faculty of Human and Social Development

**CD 501 - Anchoring a Change Agenda: Foundations**

Units: 1.5

Anchoring a Change Agenda: Foundations provides a holistic viewpoint on the life and work of a management professor towards a fulfilling academic career. Focuses on professional development skills and understandings, including research, teaching, presenting, and being a positive contributing member of the academic community.

Prerequisite(s): Admission to MA program in Community Development; or permission of the program.
CD 504  
Practices and Perspectives on Forging Change
The ideologies, assumptions, and practices of diverse models of change that engage citizens, organizational and institutional stakeholders for social benefit explored. Introduces a range of models, their strengths, limits and applications with particular focus on governance, power, influence and socioeconomic innovation. Students analyze and assess the relevance and value to their fields of interest, whether community economic development, co-operatives or nonprofits. Uses a range of readings, case studies and practice experience drawing upon Canadian and international settings.

Note: CD 505  
Community-Based Research: Foundations
Explores the values, goals and assumptions of community-based research and its methodologies. Participatory action research methods and lessons learned from best practices will be introduced. Students will experience a variety of approaches and develop the capacity to evaluate appropriate methods and their application for practice settings. This course will help shape the student's major project.

CD 506  
Enterprise Development for Community Benefit
Analyzes the strategy, models and processes of planning and decision making for developing enterprises that link social and economic benefit to the community. Students will develop a clear understanding of key concepts within financial, information and community technologies, leadership and community capacity building elements that accompany organizational and community enterprise development. Stream-specific readings and practices will complement the core content.

CD 509  
Developing Capacities to Lead and Manage in the Non-Profit Sector
Focuses on developing the capacities of strategic planning, strategy and program management, resource generation, financial and human resource management, performance, information and communication technology, communications management, and ensuring accountability to multiple stakeholders. Students will develop an in-depth understanding of leading edge management frameworks and examine their relevance to leading and managing in the community sector.

CD 510  
Leadership, Management and Governance within Organizations
Develops the competencies required to effectively lead and manage organizations from the ‘inside’, focusing on leadership capacities, human resources (staff, boards and volunteers), governance, internal and external stakeholder relations. Through a blend of theory, practice and experiential simulations, students integrate their learning as well as appreciate the unique dimensions of co-operatives, social enterprises and non-profit organizations.

Note: 
Prerequisite(s): 
- Admission to MA program in Community Development; or 
- permission of the program.

CD 512  
Program and Project Design, Management and Evaluation
Examines the various perspectives and approaches to program and project design, management and evaluation. Highlights the analytical activities and decisions involved in effective design, planning, implementation, reporting, and evaluation focusing on innovative and practical tools and processes that ensure effective outcomes and accountability. Attention will be paid to managing the complexity of multiple and collaborative projects and programs.

CD 518  
Citizen Participation and Democratic Governance
Introduces students to concepts of citizenship, democracy and governance and addresses different histories and forms of democracy. The meanings of citizenship and its relationship to identity, engagement and participation are discussed. Explores different models of governance and reviews governance practices and structures at multiple levels in different jurisdictions. Also investigates the role of accountability in democratic governance, including forms and techniques of accountability.

CD 522  
Understanding and Mainstreaming Gender
Considers a range of conceptual and practical issues faced in the quest for a gender-just society. Topics include: definition and understanding of gender, gender based violence, gender in institutions as well as the creation of gender-sensitive environments. Course material and online discussions encourage critical analysis of diverse contemporary debates and perspectives. Also includes exercises and questions to stimulate critical thinking and reflection upon gender attitudes and perceptions.

CD 524  
Leadership and Organizational Development for Communities
Explores leadership beliefs, values, and attitudes, and analyzes perspectives in shaping leadership in civil society, community development and the social economy. Introduces management, assessment, concepts and tools for developing strategic priorities and planning frameworks for organizations and communities. Includes scenario based exercises set in a variety of practice contexts relevant to students' experience and systems.

Note: Credit will be granted for only one of CD 524, CD 592, CD 593.

Prerequisite(s): 
- Admission to MA program in Community Development; or 
- permission of the program.

CD 525  
Managing Organizations, Systems and Community Transformations
Develops key competencies for personal, group, organizational and community leadership in: teamwork, facilitation, presentation skills, negotiation, conflict resolution, group dynamics and collaboration. Examines systemic factors that encourage and challenge innovation. Analysis of cases that demonstrate successful scaling, practices or particular innovations.

Note: Credit will be granted for only one of CD 525, CD 511, CD 513.

CD 526  
Agenda for Social Change: Moving Forward
Surveys the key leverage points for exercising strategic leadership for addressing key trends at the local and regional level. Exemplary practice and understanding of key policy innovations are drawn from local and international sources. Provides an opportunity for students to engage in generative dialogue to explore learning that strategically advances civil society, social economy and strengthens communities. Understanding local and international key policy innovations are linked with the formulation of recommendations for action for moving forward.

Note: Credit will be granted for only one of CD 526, CD 517, CD 520.

Prerequisite(s): 
- Admission to MA program in Community Development; or 
- permission of the program.

CD 590  
Directed Studies
An international or local exchange, a study tour, self-directed reading, or an innovative personal learning design. Must be applicable to the field of study. Primary consideration will be given to its role and relevance in deepening skills and knowledge to strengthen the capacity of the student to provide leadership in the future.

Note: May be taken more than once for credit in different topics with permission of the faculty.

CD 591  
Selected Topics Course
A study of selected topics drawn from the current literature and practices in the social economy or related fields. 

Note: May be taken more than once for credit in different topics with permission of the faculty.

CD 596  
Group Project
A substantial analysis of a management, policy or program problem in the community development sector, which may be done for a client. The Group Project is prepared under the supervision of a faculty member in the School of Public Administration and must be both practical and academically rigorous. A written project report is defended in an oral examination.

Grading: INP, COM, N, F.
CH 560  
Units: 1.5  
Cultural Heritage Stewardship and Sustainability  
Explores cultural heritage in all its diverse forms, along with the critical roles it plays in defining, reinforcing and contributing to a sustainable world. Discusses the scope and meaning of cultural heritage in contemporary society, and analyzes how diverse approaches to the conservation, access to, and management of cultural heritage are continuing to evolve in response to philosophical changes and social, economic, cultural and environmental needs.

Notes:  
- Credit will be granted for only one of CH 561, AHVS 489L.
- A combined undergraduate and graduate course.

CH 561  
Units: 1.5  
Social Engagement  
Explores the profound social changes that are reshaping the nature and purposes of museums and other cultural heritage organizations in a pluralistic society. Considers the implications for all aspects of their specialized functions with a particular focus on how such organizations serve as dynamic social spaces for community engagement and action.

Notes:  
- Credit will be granted for only one of CH 561, AHVS 488W.
- A combined undergraduate and graduate course.

CH 562  
Units: 1.5  
Curatorial Planning and Practice  
Considers how traditional concepts of curatorship have shifted significantly in the face of more democratic relations with community, more subjective perspectives of knowledge, and increasing emphasis on the museum's social and educative roles. Explores the nature and scope of contemporary curatorial theory and practice and focuses on the ways in which curators engage with cultural heritage resources, develop sustainable collections, and generate and share associated knowledge to meet the needs of diverse communities.

Notes:  
- Credit will be granted for only one of CH 562, AHVS 488K.
- A combined undergraduate and graduate course.

CH 563  
Units: 1.5  
Visitor Experiences  
Explores the evolving concept and implications of an holistic approach to visitor engagement in museums and other cultural heritage institutions, and focuses on museums’ relationships with their publics, their capacity to serve as social spaces, strategies for audience research, the characteristics of visitors, communications, exhibitions, formal and informal learning activities, and evaluation strategies.

Notes:  
- Credit will be granted for only one of CH 563, AHVS 488Y.
- A combined undergraduate and graduate course.

CH 570  
Units: 1.5  
Heritage Conservation In Context  
Addresses the complex range of principles and practices that influence heritage preservation and conservation planning and decision-making. The implications of international and national charters, principles, standards and guidelines, are discussed, along with legal, programmatic and financial incentives and constraints.

Notes:  
- Credit will only be granted for one of CH 570, AHVS 489K, HA 489K.
- A combined undergraduate and graduate course.

CH 571  
Units: 1.5  
Determining Significance of Heritage Resources  
Focuses on the definition of the heritage value or significance of a historic place or resource as a key step in the management of cultural heritage resources. It explores the range of historical aesthetic, social and scientific values that establish the character-defining elements of historic resources, including buildings, structures, historic districts and cultural landscapes. Various methods of inventory and evaluation are discussed along with their roles in guiding subsequent conservation planning and decision-making.

Notes:  
- Credit will only be granted for one of CH 571, AHVS 489C, HA 489C.
- A combined undergraduate and graduate course.

CH 572  
Units: 1.5  
Heritage Conservation Planning  
Focuses on approaches to planning and heritage conservation decision-making, and discusses the components of the heritage conservation planning process, including alignment with local and regional planning priorities, community involvement and consultation, the acquisition and integration of technical and regulatory information and professional expertise, and the integration of planning in the long-term management of heritage resources.

Notes:  
- Credit will only be granted for one of CH 572, AHVS 489L, HA 489L.
- A combined undergraduate and graduate course.

CH 579  
Units: 1.5  
Special Studies in Heritage Conservation  
May be taken in conjunction with a Cultural Resource Management course in the AHVS 489 series with permission of the Program Adviser.

Note: This course may be taken more than once for credit in different topic areas.

Prerequisite(s): Permission of the program.

CH 581  
Units: 1.5  
Practicum in Cultural Heritage  
A placement in a cultural heritage setting, designed to build knowledge and skills in a specialized area of practice.

Grading: INP, COM, F, N.
CHEM 533
Organic Synthesis
Units: 1.5

CHEM 537
Biological and Medicinal Chemistry
Units: 1.5

CHEM 555
Statistical Thermodynamics
Units: 1.5

CHEM 556
Topics in Advanced Physical Chemistry
Notes:
- May be taken more than once for credit in different topics.
- Pro Forma required.

CHEM 560
Research Tools and Special Topics
This course will be offered as multiple 0.5-unit modules that count as graduate lecture courses for the purposes of Chemistry graduate program requirements. Consult the course coordinator for offerings in a particular year.
Notes:
- May be taken more than once for credit in different topics.
- Pro Forma required.

CHEM 590
Directed Studies
Notes:
- May be taken more than once for credit in different topics.
- Pro Forma required.

CHEM 599
MSc Thesis
Grading: INP, COM, N, F.

CHEM 633
Topics in Advanced Organic Chemistry
Notes:
- May be taken more than once for credit in different topics.
- Pro Forma required.

CHEM 647
Materials Science
Units: 1.5

CHEM 670
Property-Directed Synthesis Discussion
Note: May be taken more than once for credit in different topics.

CHEM 676
Polymer Science
Units: 1.5

CHEM 680
Reactivity, Dynamics and Spectroscopy Discussion
Note: May be taken more than once for credit in different topics.

CHEM 693
PhD Candidacy Examination
Students enrol in 693 concurrently with 699 until 693 is passed. If the candidacy examination cannot be completed until the following term, an INP (in progress) grade will be entered.
Grading: INP, COM, N, F.

CHEM 699
PhD Dissertation
Pre- or Corequisite(s): CHEM 693.
Grading: INP, COM, N, F.

CIVE
Civil Engineering
Faculty of Engineering

CIVE 510
Industrial Metabolism
Methods of material and substance flow analysis in the context of technology and environmental change. Topics include: evolution of technology; environmental footprints, impacts and boundaries; industrial / societal use of dominant elements and compounds; critical metals; resource decoupling; transformation of global infrastructure systems.

CIVE 511
Methods in Life Cycle Assessment
A variety of methods and applications of life cycle assessment (LCA) including process-based methods and input-output (IO) techniques. Topics include: consequential and attributional LCA; streamlined LCA; life cycle sustainability assessment; environmentally extended IO analysis; multi-regional and multi-scale IO analysis; applications of environmental LCA in product design and policy.

CIVE 512
Industrial Symbiosis and Recycling
Reducing costs, adding value and improving the environment through the sharing of services, utility, and by-products between industries. The historical development and future prospects of industrial symbiosis at the eco-park, municipal and regional scales. Advances in waste management, recycling technologies and limits to the circular economy.

CIVE 513
Sustainable Cities
Urban metabolism and sustainable infrastructure development. Design of the built environment based on energy and material flows through cities. Sustainable transportation, green buildings, urban climatology, vegetation, water systems and energy supply in urban neighbourhood designs. Measuring urban metabolism to account for greenhouse gas emissions and other environmental impacts of cities.

CIVE 516
Methods in Life Cycle Assessment
Students enrolled in 516 concurrently with 518 until 516 is passed. If the candidacy examination cannot be completed until the following term, an INP (in progress) grade will be entered.
Grading: INP, COM, N, F.

CIVE 541
Hydrologic Modeling
Analytical, numerical, statistical and physical approaches from local to global scales including surface water-groundwater interactions; analysis and prediction; discuss different approximations of hydrologic process equations and limitations and uncertainty associated with different process representations.

CIVE 542
Environmental Modeling
Basic and advanced methods in spatial statistics for point, area and continuous variables. All the levels (from visual to analytical) of possible spatial analysis techniques for each type of variable and applications in environmental modelling are used to illustrate the concepts.

CIVE 543
Groundwater Hydrology

CIVE 544
Urban Water Systems
The planning and management of urban water systems; handling of wastewaters, drainage and flood prevention; urban agriculture and nutrient recycling; and recreational water uses. All elements of urban water infrastructure from water source, pumping, storage, transmission and distribution, to the hydraulics and network design of sewerage and drainage. Maintenance and repair of pipe networks, adaptation to climate change and sustainable approaches such as low impact development, grey-water systems, rainwater harvesting.

CIVE 545
Water Treatment Processes
Theory and application of physical, chemical and biological processes for the treatment of water and wastewater. Topics include sedimentation, coagulation, filtration, and disinfection, activated sludge, biological nutrient removal, and anaerobic processes for waste treatment. Lecture material is supported by laboratory experiments.

CIVE 546
Green Building Design
Definition of green building, design and construction concepts, site selection, materials and origin, water resource, energy use and generation, retrofit and recycling, indoor environment, occupant behaviour, durability, life cycle analysis, net-zero buildings, green building rating systems.

CIVE 547
Advanced Building Science
Scope and definition, heat-air-moisture transport mechanisms, hygrothermal properties, test methods, climate characterization, moisture management, durability index, energy efficient building envelopes, whole building energy performance, application of numerical simulation tools, forensic investigations.
CIVE 552  
**Sustainable Construction**

Sustainability in urban and remote communities, case studies to highlight some of the recent trends in sustainable construction in North America and around the globe. Topics for case studies will include (but not limited to): light-gauge steel technology for mass construction, insulated stay-in-place formwork technology for mass construction, shotcrete, precast and prestressed construction, and rammed earth construction. Will also include an introduction to use of BIM for managing construction projects.

CIVE 553  
**Advanced Mechanics of Materials**

This mechanics of materials course covers advanced topics including beams on elastic foundations, unsymmetrical bending, curved beams, shear flow and torsion in closed and open sections, elastic stability and shells of revolution.

CIVE 556  
**Advanced Concrete Technology**

Microstructure of hydration products and its effect on properties of concrete. Mechanisms and interaction of chemical admixtures and industrial wastes to produce sustainable and durable concrete. Evaluation of fresh and hardened properties of conventional and cement-based composites. Will include a project component focusing on specialized concretes not limited to fiber reinforced concrete, self-consolidating concrete, high strength concrete, light weight concrete, and carbon negative concrete.

**Note:** Credit will only be granted for one of CIVE 456, or CIVE 556.

CIVE 557  
**Behaviour and Design of Steel Structures**

The behaviour and design of trusses, frames, members and connections in steel building and bridge structures. Ultimate strength, stability, and post buckling are emphasized in topical examples including: plate girders, composite steel/ concrete girders, second-order frame behaviour, high-strength bolted and welded framing connections. Special topics including concrete filling, fire protection and plastic analysis of hollow structural section connections are also covered. Canadian design standards and the Limit States Design concepts are used.

* Indicates a 3-hour laboratory taken by students on alternate weeks.

CIVE 560  
**Urban Transportation Planning**

The full suite of skills required in urban transportation planning including travel demand modelling, analysis of transportation land-use interactions, quantification of social and environmental impacts, and project evaluation in the context of broader planning issues and policies. Focus is primarily given to passenger transportation, including walking and cycling, with introduction to freight transport. Theoretical foundations of disaggregate choice models and other techniques in travel demand modeling are introduced.

CIVE 561  
**Urban Transit**

Focuses on the planning and operation of public transit systems, covering the hierarchy of modes from buses and bus-rapid transit through streetcars and light-rail to subways and heavy rail. Topics include: factors affecting transit performance and demand; design of networks and mode interchanges; station design; vehicle operations and scheduling; design of transit priority; use of information technology and other innovations in transit planning; project evaluation.

CIVE 580  
**Selected Topics**

**Note:** May be taken more than once for credit in different topics.

CIVE 590  
**Directed Studies**

A wide range of topics will be available.

**Note:** Pro Forma required.

CIVE 595  
**Sustainability Seminars I**

Definitions, practices and approaches to sustainability in local to global civil engineering problems with a focus on case studies and integration across diverse disciplines in this seminar-based class. The specific topics change annually and the course is taught by several Civil Engineering faculty members.

Grading: INP, COM, N, F.

CIVE 599  
**PhD Dissertation**

Prerequisites: CIVE 693

Grading: INP, COM, N, F.

CIVS 699  
**Directed Studies**

A wide range of topics will be available.

**Note:** Pro Forma required.
CSC 523 - Units: 1.5
Randomized Algorithms
Basic techniques in design and analysis of randomized algorithms: moments and deviations, Markov chains and random walks, martingales, and algebraic techniques. Other topics include: the probabilistic method; random structures and complexity. Applications are selected from: parallel algorithm, routing networks, combinatorial optimization, data structure, approximate solutions to intractable problems, cryptography, pattern matching, and computational geometry.

CSC 524 - Units: 1.5
Computational Complexity
Elements of the theory of computational complexity. Topics covered include: the distinction between tractable and intractable problems; definition of computational models and complexity classes; techniques for comparing the complexity of problems; the classes P and NP; completeness; auxiliary pushdown automata; alternating Turing machines; the polynomial time hierarchy; the classes Polynomial Space and Logarithm Space; probabilistic complexity classes; models of parallel computation; randomized computation.

CSC 525 - Units: 1.5
Computational Biology Algorithms
The design, analysis and implementation of algorithms used in Computational Biology. Typical topics include algorithms for sequence alignment, database searching, gene finding, phylogeny and structure analysis. Topics to be covered are selected from: formal aspects of the software aspects of hardware design such as hardware checking; verification using existing research tools. Case studies of some of the more significant distributed systems.

CSC 526 - Units: 1.5
Computational Geometry
An introduction to algorithms and data structures which are used to solve geometrical problems. Topics include geometric searching, convex polygons and hulls, Voronoi diagrams, plane sweep algorithms, proximity and intersections. Application areas discussed include computer graphics, VLSI design and graph theory.

CSC 528 - Units: 1.5
Combinatorial Algorithms
Focuses on the interfaces between combinatorics and Computer Science. Algorithms and data structures that are used to manipulate, generate, and randomly select combinatorial objects are studied. Such objects include sets, permutations, combinations, trees, graphs. Methods for analyzing combinatorial algorithms such as recurrence relations, asymptotics, and amortized complexity are presented.

CSC 529 - Units: 1.5
Cryptography
Paradigms and principles of modern cryptography. Topics include: review of classical and information-theoretic cryptography; block ciphers; DES, Cryptanalysis of DES, modes of operation, AES, Cryptographic hash functions and message authentication codes; public key cryptography, RSA, ElGamal and other public key systems, signature schemes; introduction to security protocols; secret sharing schemes and zero knowledge techniques.

CSC 535 - Units: 1.5
Compiler Construction
An introduction to important topics in the design and implementation of a compiler for a modern programming language such as Java. Topics include parsing, syntax directed translation, intermediate code representation, static single assignment form, dataflow analysis, simple optimizations, and code generation for a simple architecture.

CSC 540 - Units: 1.5
Numerical Analysis I
Numerical Linear algebra. Topics include: Gaussian elimination and its variants; sparse positive definite linear systems; sensitivity of linear systems; condition and stability; orthogonal matrices and least squares; eigenvalues and eigenvectors; the QR algorithm; the singular value decomposition.

CSC 545 - Units: 1.5
Operations Research I
Linear programming and its applications. Topics discussed include the following: the simplex method, the revised simplex method, computer implementation of linear programming, duality, dual simplex and primal dual algorithms, parametric analysis and postoptimality analysis. Applications are selected from: the transportation problem, the assignment problem, blending problems, inventory problems, activity analysis, game theory and network analysis.

CSC 546 - Units: 1.5
Operations Research II
An introduction to model design using queuing theory and simulation techniques. Topics covered include a brief introduction to queuing theory, basic ideas in simulation, random number generators, sampling, critical event and time slice methods, organization of a simulation study, and basic concepts of simulation programming.

CSC 552 - Units: 1.5
Advanced Switching Theory
A selection of topics in switching theory and their application to the design of digital systems. The emphasis is on techniques suited to computer aided design (CAD). Topics to be covered are selected from: formal aspects of switching theory; spectral logic; combinational and sequential circuit synthesis; algorithmic state machines; and the software aspects of hardware design such as hardware description languages.

CSC 554 - Units: 1.5
Fault Tolerant Computing
Issues of fault tolerant computing are discussed, ranging from the choice of fault tolerant architectures, to expert systems for the design and test of integrated circuits. Topics include: design and test of defect free integrated circuits, fault modelling, built in self test, data compression, error correcting codes, simulation software/hardware, fault tolerant system design, CAD tools for design for testability.

CSC 560 - Units: 1.5
Design and Analysis of Real-Time Systems
Fundamental issues in the design of real-time operating systems and application software. Typical topics include: hard real-time scheduling, interrupt driven systems, process communication and synchronization, language requirements for real-time systems, decomposition of real-time requirements into process model, and case studies. A project involving design, implementation and testing of a real-time executive and real-time application software will also be included. Note: Not open to students registered in or with credit in CSC 468.

CSC 561 - Units: 1.5
Multimedia Systems
Introduction to multimedia systems and applications. Topics include multimedia system design issues, representation, processing and retrieval of temporal and non-temporal media types, compression techniques, JPEG and MPEG encoding, multimedia system architecture, operating systems, networking, quality of service and database system issues, object-oriented multimedia programming, user interface, virtual worlds.

CSC 562 - Units: 1.5
Distributed Computing
Recent developments and advanced research topics in the area of distributed computing. Topics include: distributed operating systems, interprocess communications, remote procedure calls, network transparency, file server, execution location, and failure transparency, fault tolerant distributed systems, process replication, load balancing, task migration and performance issues, interconnection strategies, network configurations, problem decomposition, distributed updating of multiple copies, global object addressing, centralized and decentralized control mechanisms, reliability and the reconnection problem, and finally case studies of some of the more significant distributed systems.

CSC 564 - Units: 1.5
Concurrency
Introduction to the foundations of concurrency theory and the issues of specification and verification of concurrent systems. Topics include models of concurrency such as Petri nets, labelled transition systems, and traces; specification of concurrent systems/programs in formalisms including process algebra, statecharts, Petri nets and temporal logics; verification techniques such as bisimulation and model checking; verification using existing research tools. Case studies will be taken from coordination problems, controller design, communication and security protocols, hardware and user interface design.
CSC 565  Units: 1.5
Massive Data Sets, Scalability and Concurrency
A cross section of topics from computer science disciplines, including databases, operating systems, architecture, programming languages and theory, and considers challenges associated with concurrency from multiple perspectives. Students will be exposed to research involving programming paradigms and software practices for concurrent systems, algorithmic techniques for new paradigms, low level mechanisms for the implementation of practical primitives, applications including data mining and cloud computing, systems support for multicore computation, and pedagogy for concurrency in modern curriculum.

CSC 567  Units: 1.5
Switching, Network Traffic and Quality of Service

CSC 569  Units: 1.5
Wireless and Mobile Networks
The recent developments and advanced research topics in wireless and mobile networks. Topics include: radio propagation models, mobility models, location management, protocols particularly tailored for wireless and mobile networks, and analytical performance evaluation of wireless and mobile networks.

CSC 575  Units: 1.5
Music Retrieval Techniques
A comprehensive advanced overview of the emerging research area of Music Information Retrieval (MIR). Topics include techniques from signal processing, machine learning, information retrieval, human-computer interaction and software engineering that are applied in the design and development of MIR algorithms and systems. Integration of knowledge from different research areas to solve concrete problems.

CSC 578A  Units: 1.5
Formerly: CSC 578
Topics in Software Applications
Notes:
• Credit will be granted for only one of CSC 578A, CSC 578 (if taken in the same topic), CSC 578B (if taken in the same topic), CSC 578C (if taken in the same topic), CSC 578D (if taken in the same topic).
• May be taken more than once for credit in different topics.

CSC 578B  Units: 1.5
Formerly: CSC 578
Topics in Software Applications
Notes:
• Credit will be granted for only one of CSC 578B, CSC 578 (if taken in the same topic), CSC 578A (if taken in the same topic), CSC 578C (if taken in the same topic), CSC 578D (if taken in the same topic).
• May be taken more than once for credit in different topics.

CSC 578C  Units: 1.5
Formerly: CSC 578
Topics in Software Applications
Notes:
• Credit will be granted for only one of CSC 578C, CSC 578 (if taken in the same topic), CSC 578A (if taken in the same topic), CSC 578B (if taken in the same topic), CSC 578D (if taken in the same topic).
• May be taken more than once for credit in different topics.

CSC 578D  Units: 1.5
Formerly: CSC 578
Topics in Software Applications
Notes:
• Credit will be granted for only one of CSC 578D, CSC 578 (if taken in the same topic), CSC 578A (if taken in the same topic), CSC 578B (if taken in the same topic), CSC 578C (if taken in the same topic).
• May be taken more than once for credit in different topics.

CSC 579  Units: 1.5
Overlay and Peer-to-Peer Networking
Focuses on the recent developments and advanced research topics in Layer 3 and above and the control plane of the Internet. Topics include: overlay network architectures, peer-to-peer application models, end-to-end control mechanisms, inter- and intra-domain routing protocols, service provisioning, network measurement, and related best current practices on the Internet.

CSC 581A  Units: 1.5
Formerly: CSC 581
Topics in Artificial Intelligence
Notes:
• Credit will be granted for only one of CSC 581A, CSC 581 (if taken in the same topic), CSC 581B (if taken in the same topic), CSC 581C (if taken in the same topic), CSC 581D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 581B  Units: 1.5
Formerly: CSC 581
Topics in Artificial Intelligence
Notes:
• Credit will be granted for only one of CSC 581B, CSC 581 (if taken in the same topic), CSC 581A (if taken in the same topic), CSC 581C (if taken in the same topic), CSC 581D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 581C  Units: 1.5
Formerly: CSC 581
Topics in Artificial Intelligence
Notes:
• Credit will be granted for only one of CSC 581C, CSC 581 (if taken in the same topic), CSC 581A (if taken in the same topic), CSC 581B (if taken in the same topic), CSC 581D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 581D  Units: 1.5
Formerly: CSC 581
Topics in Artificial Intelligence
Notes:
• Credit will be granted for only one of CSC 581D, CSC 581 (if taken in the same topic), CSC 581A (if taken in the same topic), CSC 581B (if taken in the same topic), CSC 581C (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 582A  Units: 1.5
Formerly: CSC 582
Topics in Theoretical Computer Science
Notes:
• Credit will be granted for only one of CSC 582A, CSC 582 (if taken in the same topic), CSC 582B (if taken in the same topic), CSC 582C (if taken in the same topic), CSC 582D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 582B  Units: 1.5
Formerly: CSC 582
Topics in Theoretical Computer Science
Notes:
• Credit will be granted for only one of CSC 582B, CSC 582 (if taken in the same topic), CSC 582A (if taken in the same topic), CSC 582C (if taken in the same topic), CSC 582D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 582C  Units: 1.5
Formerly: CSC 582
Topics in Theoretical Computer Science
Notes:
• Credit will be granted for only one of CSC 582C, CSC 582 (if taken in the same topic), CSC 582A (if taken in the same topic), CSC 582B (if taken in the same topic), CSC 582D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 582D  Units: 1.5
Formerly: CSC 582
Topics in Theoretical Computer Science
Notes:
• Credit will be granted for only one of CSC 582D, CSC 582 (if taken in the same topic), CSC 582A (if taken in the same topic), CSC 582B (if taken in the same topic), CSC 582C (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

CSC 583A  Units: 1.5
Formerly: CSC 583
Topics in Programming Languages
Notes:
• Credit will be granted for only one of CSC 583A, CSC 583 (if taken in the same topic), CSC 583B (if taken in the same topic), CSC 583C (if taken in the same topic), CSC 583D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.
CSC 583B - 1.5 units
Formerly: CSC 583
Topics in Programming Languages
Notes:
- Credit will be granted for only one of CSC 583B, CSC 583 (if taken in the same topic), CSC 583A (if taken in the same topic), CSC 583C (if taken in the same topic), CSC 583D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 583C - 1.5 units
Formerly: CSC 583
Topics in Programming Languages
Notes:
- Credit will be granted for only one of CSC 583C, CSC 583 (if taken in the same topic), CSC 583A (if taken in the same topic), CSC 583B (if taken in the same topic), CSC 583D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 583D - 1.5 units
Formerly: CSC 583
Topics in Programming Languages
Notes:
- Credit will be granted for only one of CSC 583D, CSC 583 (if taken in the same topic), CSC 583A (if taken in the same topic), CSC 583B (if taken in the same topic), CSC 583C (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 584A - 1.5 units
Formerly: CSC 584
Topics in Numerical Analysis and Operations Research
Notes:
- Credit will be granted for only one of CSC 584A, CSC 584 (if taken in the same topic), CSC 584B (if taken in the same topic), CSC 584C (if taken in the same topic), CSC 584D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 584B - 1.5 units
Formerly: CSC 584
Topics in Numerical Analysis and Operations Research
Notes:
- Credit will be granted for only one of CSC 584B, CSC 584 (if taken in the same topic), CSC 584A (if taken in the same topic), CSC 584C (if taken in the same topic), CSC 584D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 584C - 1.5 units
Formerly: CSC 584
Topics in Numerical Analysis and Operations Research
Notes:
- Credit will be granted for only one of CSC 584C, CSC 584 (if taken in the same topic), CSC 584A (if taken in the same topic), CSC 584B (if taken in the same topic), CSC 584D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 584D - 1.5 units
Formerly: CSC 584
Topics in Numerical Analysis and Operations Research
Notes:
- Credit will be granted for only one of CSC 584D, CSC 584 (if taken in the same topic), CSC 584A (if taken in the same topic), CSC 584B (if taken in the same topic), CSC 584C (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 585A - 1.5 units
Formerly: CSC 585
Topics in Hardware and Computer Architecture
Notes:
- Credit will be granted for only one of CSC 585A, CSC 585 (if taken in the same topic), CSC 585B (if taken in the same topic), CSC 585C (if taken in the same topic), CSC 585D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 585B - 1.5 units
Formerly: CSC 585
Topics in Hardware and Computer Architecture
Notes:
- Credit will be granted for only one of CSC 585B, CSC 585 (if taken in the same topic), CSC 585A (if taken in the same topic), CSC 585C (if taken in the same topic), CSC 585D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 585C - 1.5 units
Formerly: CSC 585
Topics in Hardware and Computer Architecture
Notes:
- Credit will be granted for only one of CSC 585C, CSC 585 (if taken in the same topic), CSC 585A (if taken in the same topic), CSC 585B (if taken in the same topic), CSC 585D (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 585D - 1.5 units
Formerly: CSC 585
Topics in Hardware and Computer Architecture
Notes:
- Credit will be granted for only one of CSC 585D, CSC 585 (if taken in the same topic), CSC 585A (if taken in the same topic), CSC 585B (if taken in the same topic), CSC 585C (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 585E - 1.5 units
Formerly: CSC 586
Topics in Computer Systems and Software
Notes:
- Credit will be granted for only one of CSC 586E, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586F (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.

CSC 585F - 1.5 units
Formerly: CSC 586
Topics in Computer Systems and Software
Notes:
- Credit will be granted for only one of CSC 585F, CSC 586 (if taken in the same topic), CSC 586A (if taken in the same topic), CSC 586B (if taken in the same topic), CSC 586C (if taken in the same topic), CSC 586D (if taken in the same topic), CSC 586E (if taken in the same topic), CSC 586F (if taken in the same topic).
- May be taken more than once for credit in different topics with permission of the department.
CSC 589A  
Units: 1.5  
Formerly: CSC 589  
General Topics in Computer Science  
Notes:  
• Credit will be granted for only one of CSC 589A, CSC 589 (if taken in the same topic), CSC 589B (if taken in the same topic), CSC 589C (if taken in the same topic), CSC 589D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 589B  
Units: 1.5  
Formerly: CSC 589  
General Topics in Computer Science  
Notes:  
• Credit will be granted for only one of CSC 589B, CSC 589 (if taken in the same topic), CSC 589A (if taken in the same topic), CSC 589C (if taken in the same topic), CSC 589D (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 589D  
Units: 1.5  
Formerly: CSC 589  
General Topics in Computer Science  
Notes:  
• Credit will be granted for only one of CSC 589D, CSC 589 (if taken in the same topic), CSC 589A (if taken in the same topic), CSC 589B (if taken in the same topic), CSC 589C (if taken in the same topic).  
• May be taken more than once for credit in different topics with permission of the department.

CSC 591  
Units: 1.5  
Directed Studies  
Individual studies under the direct supervision of a faculty member. The content and evaluation must be approved by the department.  
Note: May be taken more than once for credit in different topics.

CSC 595  
Units: 1.5  
Research Skills  
The main objective is to teach critical skills in order to be a successful researcher. This includes: choosing a research method, preparing for and presenting a research seminar talk, preparing a research proposal, doing literature search, and evaluating constructively research papers, proposals and/or presentations.  
Prerequisite(s): Registration in a graduate program in Computer Science  
Grading: INP, COM, N, F.

CSC 597  
Units: 1.5  
Industrial Master's Project  
Grading: INP, COM, N, F.

CSC 598  
Units: 3.0  
Master's Project  
Grading: INP, COM, N, F.

CSC 599  
Units: 6.0 or 7.5  
Master's Thesis  
Grading: INP, COM, N, F.

CSC 693  
Units: 3.0  
PhD Candidacy  
Grading: INP, COM, N, F.

CSC 699  
Units: 33.0-34.5  
PhD Dissertation  
Prerequisite(s): CSC 693  
Grading: INP, COM, N, F.

CSPT  
Cultural, Social and Political Thought  
Department of Political Science  
Faculty of Social Sciences

CSPT 500  
Units: 1.5  
Topics in Cultural, Social and Political Thought  
An interdisciplinary seminar on topics such as language and social theory, tradition and modernity, democracy and freedom, global order and disorder, structuralism and post-structuralism, feminism and Marxism.  
Notes:  
• May be taken more than once for credit in different topics to a maximum of 6 units.  
• Content will vary from term to term.  
Prerequisite(s):  
• Admission to a graduate program in Social Sciences or Humanities; and  
• permission of the program.

CSPT 501  
Units: 1.5  
Contemporary Cultural Social and Political Thought I  
An exploration of diverse historical and contemporary perspectives in cultural, social and political thought. The emphasis will be on relating currents of thought in various disciplines to one another and exploring 20th and 21st century thinkers whose influence has transcended cultural and disciplinary boundaries.

CSPT 590  
Units: 1.5 or 3  
Directed Readings  
Individual study, under the direction of a participating faculty member, of a topic or topics in cultural, social and political thought.  
Notes:  
• May be taken more than once for credit in different topics.  
• A student in the Program may substitute POLI 690 or SOCI 690 for CSPT 690, with permission of the Director of the program.

CSC 693  
Units: 3.0  
Advanced Topics in Cultural, Social and Political Thought  
An interdisciplinary PhD Seminar on selected topics in Cultural, Social and Political Thought.  
Notes:  
• May be taken more than once for credit in different topics with permission of the faculty to a maximum of 6 units.  
• Content will vary from term to term.  
Prerequisite(s):  
• Admission to a graduate program in Social Sciences or Humanities; and  
• permission of the program.

CSPT 601  
Units: 1.5  
Contemporary Cultural Social and Political Thought II  
A continuation of 501, this seminar is designed for students proceeding to a doctoral candidacy examination in Cultural Social and Political Thought. The focus will be on themes and thinkers important to contemporary cultural social and political thought but as yet unfamiliar to the students participating in the seminar.

CSPT 690  
Units: 1.5  
Directed Readings  
Individual study, under the direction of a participating faculty member, of a topic or topics in cultural, social and political thought.  
Notes:  
• May be taken more than once for credit in different topics.  
• A student in the Program may substitute POLI 690 or SOCI 690 for CSPT 690, with permission of the Director of the program.

CYC 541  
Units: 1.5  
Historical and Contemporary Theories in Child and Youth Care  
An exploration of diverse historical and contemporary perspectives in child and youth care. Students survey and critically debate a range of theoretical frameworks for CYC and identify theoretical perspectives that fit with their emerging practice and research focuses. Significant issues and trends impacting children, youth, families and communities (e.g., settler colonialism, globalization, and salient socio-political issues) are investigated through various theoretical and ideological lenses.

CYC 543  
Units: 1.5  
Qualitative Research Methods in Child and Youth Care  
An overview of approaches to qualitative research that are applicable to child and youth care practice. Students will explore the underlying theoretical assumptions of qualitative research design, compare and apply a range of methodological and conceptual approaches, and practice techniques for generating, analyzing and engaging with various forms of qualitative data.
The primary purpose of this course is to enable students to expand their thinking by critically reflecting on professional and applied ethics from multiple perspectives and traditions. Developing a familiarity with various conceptual resources and ethical decision-making frameworks, discerning the morally relevant features of various ethical dilemmas, appreciating the complexity, plurality and uncertainty of everyday CYC practice, and critically appraising the adequacy of decision-making tools for responding to ethical concerns and challenges are key course objectives.
CYC 641 Units: 3.0
Generating Knowledge in Child and Youth Care
This doctoral seminar invites students to start “thinking with theory” when considering policy, research and practice in the field of Child and Youth Care. Students will be exposed to a range of contemporary social, political and psychological theories. Throughout the course students will be invited to explore how each theory provides different lenses, tools, and approaches, for taking action in the world.

CYC 643 Units: 1.5
Qualitative Research in Child and Youth Care
This course examines the theoretical underpinnings and strategies commonly used in qualitative methods, with an emphasis on understanding the relationship between the research question and the methodological decisions involved in choosing approaches for data gathering and analysis. Methodologies that will be considered include but are not restricted to: grounded theory, critical theory, ethnography, phenomenology, and narrative research and their epistemological and ontological similarities and differences.
Note: Students who have completed 3 units of graduate-level research coursework (covering research designs, qualitative data analysis, statistical data analysis and reporting) may request permission to register in the course.
Prerequisite(s): Permission of the school.

CYC 645 Units: 1.5
Quantitative Research in Child and Youth Care
Students explore and apply quantitative methods for studying issues related to child and youth care such as clinical practice and program evaluation. Statistical techniques include approaches for use with small sample sizes as well as parametric and nonparametric statistical techniques.
Note: Students who have completed 3 units of graduate-level research coursework may request permission to register in the course.
Prerequisite(s): Permission of the school.

CYC 671 Units: 1.5
Social and Cultural Contexts of Child and Youth Care Policy, Practice, Research and Pedagogy
The course places contemporary CYC issues into social, historical and cultural contexts. Each student identifies a key issue in CYC policy, practice, research and/or pedagogy and, first, provides a critical perspective on the issue, before developing a change agenda designed to transform the issue and its implications.
Prerequisite(s): CYC 641.

CYC 682B Units: 1.5
Practice Internship in Child and Youth Care
A practice Internship provides opportunities for the student to be actively involved and supervised in a practice setting. Practice settings may include teaching environments, face to face counselling settings, international contexts, or work in policy development with a specific Ministry. Normally students will work for 10 hours per week for a maximum of 150 hours. In addition, students will meet with the practicum co-ordinator throughout the term.
Note: Learners may not be paid for work on this research project during the time that they are undertaking the practicum course for university credit.
Grading: INP, COM, N, F.

CYC 690 Units: 1.5 or 3.0
Directed Studies in Child and Youth Care
Individual study at the doctoral level under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and School of Child and Youth Care graduate advisor prior to registration in the course.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

CYC 693 Units: 3.0
Candidacy Exams
Students will be expected to complete two candidacy papers (one focused on the substantive area of interest including related theories, and the other on methodology related to their area and topic of interest) and an oral examination before qualifying to undertake PhD research and a dissertation. Within thirty-six months of registration as a provisional doctoral student and at least six months before the final oral examination, a student must pass a candidacy examination.
Grading: INP, COM, N, F.

CYC 699 Units: 1.5 or 3.0
PhD Dissertation
Prerequisite(s): CYC 693.
Grading: INP, COM, N, F.

CYC 693
PhD Dissertation
Prerequisite(s): CYC 693.
Grading: INP, COM, N, F.

Dr
Dispute Resolution
School of Public Administration
Faculty of Human and Social Development
Students enrolled in the MA in Dispute Resolution program should also see courses listed as PADR.

DR 502 Units: 1.5
Conflict, Culture, and Diversity
Cross-cultural conflicts involve navigating among diverse identities, meanings and ever-changing perceptions. Uses experiential education and dialogue to explore processes, capacities, and tools to bridge cultural conflicts that draw on multiple intelligences. Develops fluency with ways of naming, framing, and taming conflict across cultural contexts, and fluency with culture as it animates and offers creative ways through conflict. Participants will apply theory and research to interpersonal, intercommunal, and international conflicts.
Prerequisite(s):
• DR 501 or PADR 501; and
• DR 502; or
• Permission of the department

DR 503 Units: 1.5
Also: LAW 372
Public Policy, Law, and Dispute Resolution
Looks at the nature and scale of conflict in civil society and at the primary strategies that society employs to cope with it. Examines a range of contemporary issues of governance. Focuses on the interaction of legislative, judicial, and administrative institutions around two major themes: how programs and public policy are developed and how conflict is managed.
Note: Credit will be granted for only one of DR 503, LAW 372.

DR 506 Units: 1.5
Mediation Processes and Skills
This course couples mediation processes with practice in communication skills needed for effective third party facilitative intervention. Using the paradigm of Attitude, Process and Skills, students learn and practice mediation as a dispute resolution tool, integrated with prior learning in conflict analysis and diagnosis. Through lectures, clinical exercises, demonstrations, coached role play, reflective listening skills practice, and group discussions, students connect skills with theoretical and philosophical foundations of mediation required to satisfactorily conclude mediated agreements.
Note: Credit will be granted for only one of DR 506, DR 510 (if taken in the same topic).
Prerequisite(s): DR 501 or PADR 501.

DR 507 Units: 1.5
Also: LAW 373
International Human Rights and Dispute Resolution
Explores linkages between international human rights law, conflict analysis and dispute resolution. Participants explore literature from several disciplines including international law, history, philosophy, anthropology, political science and conflict studies. United Nations, regional and national human rights instruments and mechanisms are examined for their efficacy in human rights protection. Concerns of individuals, including women and children, non-state groups and indigenous peoples are addressed. Students develop skills in human rights analysis, advocacy and dialogue.

DR 508 Units: 1.5
Dispute Resolution and Indigenous Peoples
Explores the theory and practice of negotiation and mediation within the context of public issues and disputes involving indigenous peoples. Includes a comparative examination of perspectives on negotiation of dominant society and indigenous peoples in Canadian and other settings. A critical approach is taken to the application of dominant society models of negotiation and mediation to conflict situations involving indigenous people, including the examination of historical factors, dynamics of power, and cross-cultural factors.
Prerequisite(s):
• DR 501 or PADR 501; and
• DR 502; or
• Permission of the department
DR 509 - ECE 515

---

**DR 509**

Units: 1.5
Dispute Resolution System Design and Public Interest Disputes

Introduction to designing, assembling and implementing systems to prevent, manage and/or resolve a series of stream of disputes arising out of a single organization and/or relationships. Examines models of conflict intervention and the design process within organizations. Introduces the theory and practice of negotiating public-interest issues and managing stakeholder conflicts.

---

**DR 510**

Units: 1.5
Special Topics in Dispute Resolution

A study of selected special topics in Dispute Resolution drawn from the current literature and practice.

Note: May be taken more than once for credit in different topics.

Prerequisite(s): Set by department depending upon topic.

---

**DR 511**

Units: 1.5
Conflict Specialists as Leaders

A role of a conflict specialist is to support organizations and/or groups to replace traditional public policy decision-making processes with collaborative governance processes. As change agents, both dispute resolution process and leadership competencies are required. Students will build and bridge these competencies by learning communication skills, design analysis, and implementation strategies for deliberation and engagement, as well as leadership skills to support change.

Recommendation(s): All of DR 502, DR 503, DR 506, DR 509 recommended prior to DR 511.

---

**DR 516**

Units: 1.5
Access to Justice

Examines the fact of diminishing access to justice and its implications for the public, professionals, the justice system and society as a whole. Provides a theoretical framework and practical ideas to help students recognize, understand and respond to access issues. Topics include: the causes, scale and consequences of unmet legal needs; strategies and initiatives to enhance access; and how access issues are forcing the justice system to rethink professional roles, responsibilities and ethics.

Note: Credit will be granted for only one of DR 516, DR 510 (if taken in the same topic), LAW 325 (if taken in the same topic), LAW 343 (if taken in the same topic).

---

**DR 517**

Units: 1.5
Issues in Dispute Resolution: Working in the Community

Through classroom and experiential learning and critical reflection, students will gain dispute resolution work experience while learning of the character, structure and dynamics of community groups and agencies. Topics and skill building will include personal and strategic awareness, critical analysis, engagement, communication, professionalism and leadership. Provides critical understanding of processes of social change, group dynamics, activism, and agency-stakeholder relations. Requires a minimum of 40 hours in an approved community voluntary work placement.

---

**ECE**

**ECE 503**

Units: 1.5
Optimization for Machine Learning

The steepest-descent, Newton, conjugate, and quasi-Newton algorithms for unconstrained optimization. Inexact line-search techniques. Application of optimization methods to classification, logistic regression, and support vector machines for signal processing and machine intelligence involving audio, image, video and other types of data. Introduction to constrained optimization. Students are required to complete a project.

Note: Credit will be granted for only one of ECE 503, ECE 403, ELEC 403, ELEC 503.

**ECE 504**

Units: 1.5
Random Signals

Review of random variables, moments and characteristic functions; random processes, noise models, stationarity, ergodicity, correlation and power spectrum, spectrum measurements, response of linear systems to random inputs, cross-spectral densities, narrow band noise; introduction to discrete time and space processes. Students are required to complete a project.

Note: Credit will be granted for only one of ECE 504, ELEC 400, ELEC 504.

---

**ECE 509**

Units: 1.0
Formerly: ELEC 509
Seminar

Expose Master’s students to different areas of research through seminar participation and provide a forum for the presentation of graduate student research. Required for all Master’s students every year of their program as an addition to the normal program except by departmental permission. One unit of credit shall be given upon completion.

Note: Credit will be granted for only one of ECE 509, ELEC 509.

Grading: INP, COM, N.

---

**ECE 511**

Units: 1.5
Formerly: ELEC 511
Error Control Coding

The channel coding problem; coding approaches and characteristics; linear block codes; bounds on codes; finite fields; cyclic, BCH and Reed-Solomon codes; convolutional codes and the Viterbi algorithm; error control in data storage and transmission systems. Students are required to complete a project.

Note: Credit will be granted for only one of ECE 511, ECE 405, ELEC 405, ELEC 511.

---

**ECE 512**

Units: 1.5
Formerly: ELEC 512
Digital Communications

Source and channel descriptions. Source digitization, entropy and the rate distortion tradeoff, lossless source codes (Huffman and run length codes), optimal and adaptive quantization. Digital modulation techniques, optimal coherent receivers, performance evaluation, the incoherent case. Special topics - case studies, fiber optics, satellite systems, mobile radio systems. Students are required to complete a project.

Note: Credit will be granted for only one of ECE 512, ECE 450, ELEC 512, ELEC 450.

---

**ECE 514**

Units: 1.5
Formerly: ELEC 514
Design and Analysis of Computer Communication Networks

Note: Credit will be granted for only one of ECE 514, ECE 463, CENG 461, ELEC 514.

---

**ECE 515**

Units: 1.5
Formerly: ELEC 515
Information Theory

Information theory and its relationship to probability, statistics, and data compression; entropy, relative entropy and mutual information; Huffman coding, arithmetic coding and Lempel-Ziv coding; channel capacity; group codes; generator and parity check matrices; Hamming codes and bound; bounds on the dimension of a linear code; random coding bounds; code construction.

Note: Credit will be granted for only one of ECE 515, ELEC 515.
### ECE 516 - Units: 1.5
Formerly: ELEC 516
**Advanced Wireless Communications**
Statistical fading channel models, digital communications over fading channels, diversity techniques for fading mitigation, channel adaptive transmission, multicarrier modulation/OFDM, spread spectrum techniques/CDMA, MIMO systems and space-time coding.
**Note:** Credit will be granted for only one of ECE 516, ECE 519A (if taken in the same topic), ELEC 516, ELEC 519A (if taken in the same topic).

### ECE 517 - Units: 1.5
Formerly: ELEC 517
**Software Defined Radio**
Software defined radio architectures. Receiver design: radio frequency, digital signal processing, software. Application to analog and digital communications, cognitive radio, dynamic spectrum access. Implementation of software radio algorithms using GNU Radio, Simulink or other platforms. Students are required to complete a project.
**Note:** Credit will be granted for only one of ECE 517, ECE 417, ELEC 519B (if taken in the same topic), ELEC 517, ELEC 519A (if taken in the same topic).

### ECE 519A - Units: 1.5
Formerly: ELEC 519A, ELEC 619A
**Selected Topics in Digital Communications**
**Notes:**
- Credit will be granted for only one of ECE 519A, ELEC 519A (if taken in the same topic), ELEC 619A (if taken in the same topic).
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

### ECE 519B - Units: 1.5
Formerly: ELEC 519B, ELEC 619B
**Selected Topics in Computer Communications**
**Notes:**
- Credit will be granted for only one of ECE 519B, ELEC 519B (if taken in the same topic), ELEC 619B (if taken in the same topic).
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

### ECE 519C - Units: 1.5
Formerly: ELEC 519C, ELEC 619C
**Selected Topics in Secure Communications**
**Notes:**
- Credit will be granted for only one of ECE 519C, ELEC 519C (if taken in the same topic), ELEC 619C (if taken in the same topic).
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

### ECE 522 - Units: 1.5
Formerly: ELEC 522
**Antennas and Propagation**
Antenna and propagation fundamentals, Friis transmission formula, radar equation, Maxwell’s equations for radiation problems, antenna parameters, simple radiators, array theory, mutual coupling, wire and broad-band antennas, aperture radiators, scattering and diffraction, multipath propagation and fading, antenna measurement techniques, surface-wave and ionospheric propagation, microwave and millimeter wave propagation. Students are required to complete a project.
**Note:** Credit will be granted for only one of ECE 522, ECE 453, ELEC 453, ELEC 522.

### ECE 524 - Units: 1.5
Formerly: ELEC 524, ELEC 624
**Theory and Design of Waveguide Components**
Modern integrated waveguide technologies, numerical analysis aspects and design strategies; mode-matching techniques; commonly used waveguides, transformers and transformer prototypes; phase shifters, power dividers; directional couplers; waveguide filters, multiplexers; polarizers, orthomode transducers, mode converters, angle diversity systems.
**Note:** Credit will be granted for only one of ECE 524, ELEC 524, ELEC 624.

### ECE 525 - Units: 1.5
Formerly: ELEC 525
**Advanced Photonics**
Methods to understand optical devices. Following a basic review of electromagnetics, methods for analyzing photonic devices will be provided. Among other applications, these methods will be applied to the analysis of sensors (surface plasmon resonance), high-reflectivity and anti-reflection coatings, Bragg gratings, and semiconductor lasers.
**Note:** Credit will be granted for only one of ECE 525, ELEC 525.

### ECE 526 - Units: 1.5
Formerly: ELEC 526, ELEC 623
**Advanced Optical Systems**
Overview of the basic technologies and system design principles for modern optical communications. Component fundamentals, including optical fiber, lasers, transmitters, photodetectors, receivers, passive components, optical amplifiers. Optical modulation, demodulation, wavelength multiplexing techniques. Applications to wide-area and access networks, microwave photonics. System impairments related to noise, fiber dispersion, nonlinearity. Students work in groups to design a national-scale broadband system, combining primary course elements and commercial software.
**Note:** Credit will be granted for only one of ECE 526, ELEC 526, ELEC 623.

### ECE 529A - Units: 1.5
Formerly: ELEC 529A, ELEC 629
**Selected Topics in Micro Millimeter Waves and Optical Engineering**
**Notes:**
- Credit will be granted for only one of ECE 529A, ELEC 529A (if taken in the same topic), ELEC 629 (if taken in the same topic).
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

### ECE 534 - Units: 1.5
Formerly: ELEC 534
**Applications of Digital Signal Processing Techniques**
**Note:** Credit will be granted for only one of ECE 534, ECE 459, ELEC 459, ELEC 534.

### ECE 535 - Units: 1.5
**Data Analysis and Pattern Recognition**
Statistical data analysis and random processes, ergodicity and stationarity, Bayesian decisions procedures, feature extraction and selection, parametric and non-parametric pattern classification and clustering techniques. Applications to big data, data science, and computer security problems. Students are required to complete a project.
**Note:** Credit will be granted for only one of ECE 535, ECE 485, ELEC 485, ELEC 535.

### ECE 536 - Units: 1.5
**Computer Vision**
Overview of the main concepts and methods in computer vision, geometry and physics of imaging, as related to image formation and image acquisition, low-level methods of image analysis, such as filtering, edge detection, feature detection, and segmentation; methods for extracting and representing three-dimensional scene information; motion analysis and algorithms for video understanding. Students are required to complete a project.
**Note:** Credit will be granted for only one of ECE 536, ECE 471, CENG 421, ELEC 536.

### ECE 537 - Units: 1.5
**Applied Data Analysis**
Theory and application of modern data analysis and machine learning methodologies to larger scale real-world data analytics problems. Impacts of outliers, normalization processes, feature selection and extraction, data set biases, and noise on analysis quality. Implications of stationarity, ergodicity, and adversaries on data analysis processes. Students are required to complete a project.
**Prerequisite(s):**
- One of ECE 485, ECE 535, ELEC 485, ELEC 535; or
- permission of the department.

### ECE 539A - Units: 1.5
Formerly: ELEC 539A, ELEC 639A
**Selected Topics in Digital Signal Processing**
**Notes:**
- Credit will be granted for only one of ECE 539A, ELEC 539A (if taken in the same topic), ELEC 639A (if taken in the same topic).
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.
ECE 539B  Units: 1.5
Formerly: ELEC 539B, ELEC 639B
Selected Topics in Image Processing
Notes:
• Credit will be granted for only one of ECE 539B, ELEC 539B (if taken in the same topic), ELEC 639B (if taken in the same topic).
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 539C  Units: 1.5
Formerly: ELEC 679, ELEC 539C
Selected Topics in Underwater Acoustic Systems
Notes:
• Credit will be granted for only one of ECE 539C, ELEC 539C (if taken in the same topic), ELEC 679.
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 543  Units: 1.5
Formerly: ELEC 543
Design of Digital and VLSI Systems
Advanced combinational and sequential logic design. Optimization of finite state machines; timing methodologies and synchronization issues. Hardware description languages (HDL): structural and behavioural descriptions, simulations and testbenches, coding styles, design with HDL and FPGA implementation. Design for test: testing concepts, scan-design and built-in self-test (BIST). Design for high speed: timing analysis, pipelining and retiming. Design for low power: sources of power dissipation, design transformations. Students will be required to complete a project.
Note: Credit will be granted for only one of ECE 543, ECE 441, CENG 441, ELEC 543.

ECE 545  Units: 1.5
Formerly: ELEC 545
Nanotechnology
Nanoscale materials and devices. Techniques and tools of nanostructure fabrication and characterization. Properties of low-dimensional materials. Semiconductor nanostructures, metallic nanoparticles, carbon nanotubes, organic molecules, quantum dots. Applications including nanoelectronics and molecular devices, biotechnology, nanoscale computation, nanomechanical devices and nanophotonics. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 545, ECE 420, ELEC 420, ELEC 545.

ECE 546  Units: 1.5
Formerly: ELEC 546, ELEC 642
Mapping DSP Algorithms onto Processor Arrays
Note: Credit will be granted for only one of ECE 546, ELEC 546, ELEC 642.

ECE 547  Units: 1.5
Formerly: ELEC 547
Electronic Devices
Study of the operation of bipolar and field-effect devices in VLSI design. Study of photonic and opto-electronic devices used in transmission, modulation, demodulation and receivers. Principles, construction and design of lasers and their applications. Study of display devices, thin-film devices, imaging devices, transducers and micromachines and their interfacing. Sensor arrays and related system design. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 547, ECE 412, ELEC 412, ELEC 547.

ECE 548  Units: 1.5
Formerly: ELEC 548
Cyber-System Security
Introduction to abstract algebra and finite field arithmetic. Hardware attacks and mitigation techniques. Hardware trojans and hardware trojan detection techniques. Trusted design in FPGAs. Security in embedded systems. Design for hardware trust. Security and testing. Crypto-processors and design for security. Students will be required to complete a project.
Note: Credit will be granted for only one of ECE 548, ECE 448, CENG 448, ELEC 548.

ECE 549A  Units: 1.5
Formerly: ELEC 549A, ELEC 688
Selected Topics in Electronics
Notes:
• Credit will be granted for only one of ECE 549A, ELEC 549A (if taken in the same topic), ELEC 688 (if taken in the same topic).
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 549B  Units: 1.5
Formerly: ELEC 549B, ELEC 649B
Selected Topics in VLSI Design
Notes:
• Credit will be granted for only one of ECE 549B, ELEC 549B (if taken in the same topic), ELEC 649B (if taken in the same topic).
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 553  Units: 1.5
Formerly: ELEC 553
Introduction to Parallel and Cluster Computing
Overview of massively parallel and cluster computers. Processing models (shared memory versus message passing). Processes and threads. Standard algorithms utilizing parallelism. Matrix and vector operations. N-body problems, collective communications. Parallel application environments MPI and OpenMP. Includes significant exposure to parallel applications including developing and coding of sample parallel codes. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 553, ECE 457, CENG 453, ELEC 553.

ECE 559A  Units: 1.5
Formerly: ELEC 559A, ELEC 659A
Selected Topics in Robotics
Notes:
• Credit will be granted for only one of ECE 559A, ELEC 559A (if taken in the same topic), ELEC 659A (if taken in the same topic).
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 559B  Units: 1.5
Formerly: ELEC 559B, ELEC 659B
Selected Topics in Automatic Control
Notes:
• Credit will be granted for only one of ECE 559B, ELEC 559B (if taken in the same topic), ELEC 659B (if taken in the same topic).
• May be taken more than once for credit in different topics to a maximum of 3 units.
• Variable content course.

ECE 564  Units: 1.5
Formerly: ELEC 564
Neural Networks and Their Implementation
Biological inspiration, historical background, learning in neural nets (backpropagation, hebbian, etc.), single- and multi-layer networks, associative memories, classification and clustering models, recurrent networks. Neural network technology, implementation software and hardware technologies, algorithm definitions, computational requirements, solution methods, parallel processing hardware. VLSI and optical implementations of neural networks.
Note: Credit will be granted for only one of ECE 564, ELEC 564.

ECE 567  Units: 1.5
Formerly: ELEC 567
Advanced Network Security
Presents, from a practical perspective, underlying principles and techniques of network security. Students will be exposed to ethical hacking, and penetration testing. Various protection methods, used in practice to detect and respond to malicious network attacks, will be presented. Students will also learn how to implement successful security policies and defense mechanisms and strategies, with a particular focus on firewalls, intrusion detection and response, virtual private networks, and biometrics technologies.
Note: Credit will be granted for only one of ECE 567, ELEC 567.

ECE 568  Units: 1.5  Hours: 3-1.5-0
Formerly: ELEC 568
System-on-Chip Engineering for Signal Processing
Design and System-on-Chip (SOC) implementation for signal processing applications. SOC design and testing methodologies, Platform-based design, Intellectual Property (IP) reuse, and built-in self-test. Controlling power consumption in SOC implementations. SOC multi-technology integration of analog and digital electronics, sensors and MEMS. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 568, ECE 466, ELEC 466, ELEC 568.
ECE 569A  Units: 1.5
Formerly: ELEC 569A, ELEC 669
Selected Topics in Computer Engineering
Notes:
- Credit will be granted for only one of ECE 569A, ELEC 569A (if taken in the same topic), ELEC 669 (if taken in the same topic).
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.

ECE 570  Units: 1.5
Formerly: ELEC 570
Computer Forensics Methodologies
Digital forensics notions and techniques used in the investigation of cybercrimes. Legal awareness of computer security and forensics, evidentiary process techniques, computer forensics methodologies with an emphasis on computer incident response and Information Technology (IT) systems’ protection. Ethics, rules of evidence, effective communications, search and seizure relative to privacy legislation. Threats, how they can be detected, and controls to reduce the likelihood of their occurrence.
Note: Credit will be granted for only one of ECE 570, ELEC 570.
Prerequisite(s): ECE 567 or ELEC 567.

ECE 571  Units: 1.5
Formerly: ELEC 571
Underwater Acoustic Systems
Note: Credit will be granted for only one of ECE 571, ELEC 571.

ECE 572  Units: 1.5
Formerly: ELEC 572
Security, Privacy, and Data Analytics
Explores the underlying theoretical foundations of information security and privacy issues from an engineering perspective. Applications of information-theoretic concepts, techniques, and methods to the problem of quantifying achieved levels of security and privacy in larger-scale systems in the presence of adversaries. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 572, ELEC 572.
Prerequisite(s): ECE 567 or ELEC 567.

ECE 573  Units: 1.5
Formerly: ELEC 573, ELEC 603
Advanced Engineering Design by Optimization
Note: Credit will be granted for only one of ECE 573, ELEC 573, ELEC 603.

ECE 574  Units: 1.5
Formerly: ELEC 574
Practice of Information Security and Privacy
Aims to present a holistic view of various security engineering topics through practical case studies. Topics include enterprise security architecture, security threat and risk assessment, education and awareness, monitoring, investigation and forensics, application security, media handling and intellectual property, privacy, physical and environmental security, and business continuity planning. Also introduces information security-related certification and relevant professional associations. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 574, ELEC 574, SENG 460.

ECE 575  Units: 1.5
Formerly: ELEC 575
Power Electronics
Characteristics of power semiconductor switching devices, e.g., silicon controlled rectifiers, bipolar and MOS power transistors, insulated gate bipolar transistors, gate-turn-off thyristors. Basic principles of phase controlled converters, dc to dc choppers, dc to ac inverters (square wave and pulse width modulated), switching power supplies, resonant converters. Applications to communication and computer power supplies, electric drives, induction heating, etc.
Note: Credit will be granted for only one of ECE 581, ELEC 581.

ECE 576  Units: 1.5
Formerly: ELEC 576
Digital Video Processing
Note: Credit will be granted for only one of ECE 583, ECE 483, ELEC 483, ELEC 583.

ECE 577  Units: 1.5
Formerly: ELEC 577
Power Systems Analysis
Dynamics and Control of Switched Mode Power Supplies
Introduction to switch mode power supplies. Detailed analysis of non-isolated converters (Buck, Boost, Buck-boost, Cuk, etc) and isolated converters (Flyback, Forward, Push-pull, Half bridge, Full bridge, Current Source converters, etc). State space averaging technique to model converters. Design of multi-loop controllers (inner current loop and outer voltage loop). Introduction to PWM switch model as an alternative to state space averaging technique. Students will need to complete a project.
Note: Credit will be granted for only one of ECE 584, ECE 461, ELEC 461, ELEC 584, ELEC 689 (if taken in the same topic).

ECE 578  Units: 1.5
Formerly: ELEC 578
Motor Drive Dynamics
Note: Credit will be granted for only one of ECE 585, ECE 462, ELEC 462, ELEC 585, ELEC 689 (if taken in the same topic).

ECE 579  Units: 1.5
Formerly: ELEC 579
Multi-resolution Signal and Geometry Processing With C++
Multirate signal processing, upsampling, downsampling, sampling rate conversion, polyphase techniques, multirate filter banks, multiresolution signal representations, wavelets, digital geometry processing, polygon meshes, subdivision surfaces/wavelets, efficient multiresolution signal processing. Applications in data compression, computer graphics/animation, geometric modeling, communications, and signal processing. C++ programming language, libraries such as OpenGL and CGAL. Students are required to complete a project.
Note: Credit will be granted for only one of ECE 586, ECE 486, ELEC 486, ELEC 586.

ECE 580  Units: 1.5
Formerly: ELEC 580
Selected Topics in Power Electronics
Notes:
- Credit will be granted for only one of ECE 580, ELEC 580.
- May be taken more than once for credit in different topics to a maximum of 3 units.
- Variable content course.
Prerequisite(s): Permission of the department.
ECE 590  Units: 1.5
Formerly: ELEC 590
Directed Study
Graduate course in the Electrical and Computer Engineering program administered by the Faculty of Graduate Studies. A wide range of topics will be available.
Notes:
• Credit will be granted for only one of ECE 590, ELEC 590 (if taken in the same topic).
• Pro Forma required.

ECE 591  Units: 1
Formerly: ELEC 591
Professional Foundation
Notes:
• Credit will be granted for only one of ECE 591, ELEC 591.
• This course will be offered by the Engineering and Computer Science Co-op and Career Services.
Prerequisite(s): Admission to MENG program in Telecommunications and Information Security.

ECE 592A  Units: 1
Formerly: ELEC 592A, part of ELEC 592
Professional Career Development I
Note: Credit will be granted for only one of ECE 592A, ELEC 592, ELEC 592A.
Prerequisite(s): Admission to MENG program in Telecommunications and Information Security.

ECE 592B  Units: 1
Formerly: ELEC 592B, part of ELEC 592
Professional Career Development II
Note: Credit will be granted for only one of ECE 592B, ELEC 592, ELEC 592B.
Prerequisite(s): Admission to MENG program in Telecommunications and Information Security.

ECE 596A  Units: 1.5
Selected Topics in Electrical and Computer Engineering
Presents material in an emerging field or one not covered in regular offerings. Some topics may require laboratory work as well as lectures. Entrance is restricted to students who meet the prerequisites specified for the topic to be offered.
Notes:
• Credit will be granted for only one of ECE 596A, ECE 596B (if taken in the same topic), ECE 596C (if taken in the same topic), ECE 596D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the Department.

ECE 596B  Units: 1.5
Selected Topics in Electrical and Computer Engineering
Presents material in an emerging field or one not covered in regular offerings. Some topics may require laboratory work as well as lectures. Entrance is restricted to students who meet the prerequisites specified for the topic to be offered.
Notes:
• Credit will be granted for only one of ECE 596B, ECE 596A (if taken in the same topic), ECE 596C (if taken in the same topic), ECE 596D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the Department.

ECE 596C  Units: 1.5
Selected Topics in Electrical and Computer Engineering
Presents material in an emerging field or one not covered in regular offerings. Some topics may require laboratory work as well as lectures. Entrance is restricted to students who meet the prerequisites specified for the topic to be offered.
Notes:
• Credit will be granted for only one of ECE 596C, ECE 596A (if taken in the same topic), ECE 596B (if taken in the same topic), ECE 596D (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the Department.

ECE 596D  Units: 1.5
Selected Topics in Electrical and Computer Engineering
Presents material in an emerging field or one not covered in regular offerings. Some topics may require laboratory work as well as lectures. Entrance is restricted to students who meet the prerequisites specified for the topic to be offered.
Notes:
• Credit will be granted for only one of ECE 596D, ECE 596A (if taken in the same topic), ECE 596B (if taken in the same topic), ECE 596C (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the Department.

ECE 597  Units: 1.5
Capstone Project
Prerequisite(s): Admission to MENG program in Telecommunications and Information Security.
Grading: INP, COM, N, F

ECE 598  Units: 5.0
Formerly: ELEC 598
MEng Project
Note: Credit will be granted for only one of ECE 598, ELEC 598
Grading: INP, COM, N, F

ECE 599  Units: 12.0
Formerly: ELEC 599
MAEng Thesis
Note: Credit will be granted for only one of ECE 599, ELEC 599.
Grading: INP, COM, N, F

ECE 609  Units: 1.0
Formerly: ELEC 609
Seminar
Expose PhD students to different areas of research through seminar participation and provide a forum for the presentation of graduate student research. Required for all Doctoral students every year of their program as an addition to the normal program except by departmental permission. One unit of credit shall be given upon completion.
Note: Credit will be granted for only one of ECE 609, ELEC 609.
Grading: INP, COM, N, F

ECE 621  Units: 1.5
Formerly: ELEC 621
Numerical Techniques in Electromagnetics
Notes:
• Credit will be granted for only one of ECE 621, ELEC 621.
• Students who have completed equivalent prerequisites may request permission to register in the course.
Prerequisite(s):
• One of ECE 522, ECE 524, ECE 525, ELEC 521, ELEC 522, ELEC 524, ELEC 525; or
• permission of the department.

ECE 693  Units: 3.0
Formerly: ELEC 693
PhD Candidacy Examination
The PhD Candidacy Examination consists of an oral examination. This examination should be taken and passed not later than three years from initial PhD registration. Required of all PhD students every term of their program until the oral examination is passed.
Note: Credit will be granted for only one of ECE 693, ELEC 693.

Corequisite(s): ECE 699.
Grading: INP, COM, N, F.
ECON 500  
Microeconomic Analysis  
An introduction to microeconomic analysis. Long-run growth, business cycles, trade, and fiscal policy are analyzed using dynamic general equilibrium models. Classical and Keynesian models are used to examine inflation, unemployment, the open economy, and monetary policy. Limitations and extensions of the models are discussed and developed.

ECON 506  
Monetary Theory and Policy  
The examination of selected contributions to contemporary monetary theory and policy, and their relationship to macroeconomics.

ECON 510  
Industrial Organization and Public Policy  
Provides a framework in which to examine policy issues with respect to industrial competition and regulation. Begins with the firm and its relation to the market, and then examines issues relating to market structure and regulation. Topics may include: durable goods monopoly; price discrimination; product differentiation; product quality; advertising; predatory pricing; mergers; and the natural monopoly.

ECON 515  
Labour Economics  
Introduction to contemporary empirical and applied theoretical research into labour markets. Topics may include: labour supply; labour demand; human capital; discrimination; labour market dynamics; unemployment; and behaviour of the household.

ECON 516  
Cost-Benefit Analysis  
Methods of cost-benefit analysis with applications to public policy. Develops a normative foundation for policy analysis, addressing issues of efficiency and wealth redistribution together with the techniques of cost-benefit analysis. Focuses on contemporary Canadian policy issues.

ECON 520  
Economic Development  
The processes and problems of development in the economies of the Developing World. Topics may include: theories of economic development; poverty and inequality; gender and development; nutrition and food policies; agricultural and rural development; employment and migration.

ECON 524  
Health Economics  
An overview of selected issues in contemporary health economics. Topics may include: microeconomic models of physician and patient behavior, econometric methods relevant to the analysis of health data, health insurance, social determinants of health, and the economics of health-affecting behaviors such as smoking and alcohol use.

ECON 525  
Public Finance and Fiscal Policy  
Seminar in selected topics in fiscal policy and public finance including the incidence and effects of taxation, government expenditure programs and public debt operations.

ECON 529  
Economics of Finance  
The basic theory of finance under uncertainty. Topics include expected utility maximization, state preference theory, analysis of capital asset pricing, and option pricing.

ECON 530  
Economics of Natural Resources  
Seminar in the economics of natural resources including a survey of relevant theoretical literature and selected topics covering problems of resource industries.

ECON 531  
Environmental Economics  
An introduction to environmental economics and policy. Develops a normative foundation for policy analysis, addressing issues of efficiency, intergenerational equity and sustainability. A range of policy regimes are covered, including command-and-control regulation, market-based instruments, and legal liability, with applications to a variety of domestic and international environmental issues.

ECON 545  
Econometric Analysis  
The basics of estimation and hypothesis testing in the classical linear regression model, with empirical exercises using economic data. Topics typically include: testing and imposing linear restrictions; dummy variables; specification error; multicollinearity; measurement error; serial correlation; heteroskedasticity; and simultaneity.

ECON 546  
Themes in Econometrics  
A systematic presentation of the principal themes in econometric inference, such as Maximum Likelihood, Instrumental Variables, Method of Moments, Bayesian Inference, Likelihood Ratio, Wald, and Lagrange Multiplier tests. A discussion of Nonparametric and Semiparametric inference, asymptotic distribution theory and Monte Carlo simulation methods. Application of these methods in empirical projects.
ECON 556 - ED-D 518

ECON 556  Units: 1.5
Experimental Economics
An introduction to the theory and practice of experimental economics using laboratory and field experiments. Topics include: state of the art methods in experimental economics including experimental design, subject sampling, laboratory techniques, and the use of financial incentives. The objectives will be pursued through the development of experiments and a review of the method’s application to a number of topics of interest to economists.

ECON 565  Units: 1.5
The Econometrics of Cross-Section Data
An overview of the models, estimation techniques and tests used when analyzing cross-section data. The methods studied are particularly applicable to labour and health economics and industrial organization. Theory and empirical applications are covered. Topics may include binary and multinomial logit and probit models, limited dependent variable models, count data, and duration analysis.

ECON 575  Units: 1.5
Advanced Topics in Econometrics
Advanced topics in econometric theory and practice. Topics may include: recent developments in time-series analysis; estimation and testing with panel data; the use of nonparametric and semiparametric techniques; limited and qualitative dependent variables models; modelling financial data; switching-regimes models; specification analysis and model selection; and applications of Bayesian inference.

ECON 595  Units: 1.5
Directed Studies in Economics
Individual titles will be assigned to each lettered section A-Z. Note: Pro Forma required.

ECON 598  Units: 3.0
Extended Essay
Grading: INP, COM, N, F.

ECON 599  Units: 4.5
Thesis
Grading: INP, COM, N, F.

ECON 693  Units: 3.0
PhD Candidacy Examinations
Students enrol in ECON 693 for the duration of their preparation for candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed. Grading: INP, COM, N, F.

ECON 694  Units: 1.5
Scholarship Skills Seminar
Focus on developing essential skills such as writing, presenting, developing research proposals, critically reading research, writing a literature review, refereeing papers, writing grant proposals, avoiding plagiarism, and submitting articles for publication. Note: Students admitted to MA and other PhD programs may request permission to register in the course. Prerequisite(s):
  • Admission to a doctoral program in Economics (second-year); or
  • permission of the department.

ECON 699  Units: 21.0-33.0
Dissertation
Prerequisite(s): ECON 693.
Grading: INP, COM, N, F.

ED-D 500  Units: 1.5
Learning Principles
A survey of the literature on commonly stated principles of instrumental and classical conditioning, generalization, transfer and retention.

ED-D 501  Units: 1.5
Theory of Measurement
A study of the main psychometric theories, concepts and procedures associated with the development and analysis of educational and psychological measurement, and the application of these to the development and use of tests in educational and research situations.

ED-D 503  Units: 1.5
Program Development and Evaluation
An examination of the issues, practices, and methods of program evaluation at the institutional, organizational, and classroom levels. Prerequisite(s):
  • Admission to MA program in Counselling Psychology; or
  • permission of the department.

ED-D 505  Units: 1.5
Advanced Concepts in Human Development
A seminar on the science of human development from early childhood through emerging adulthood.

ED-D 506A  Units: 1.5
Cognitive Development
A survey of what is currently known about cognitive development in the first two decades of life. Topics may include biological bases of cognition, perception, memory, conceptual thought, social cognition, language, reading, mathematics, scientific thinking and intelligence.

ED-D 506B  Units: 1.5
Social and Emotional Development
A seminar with an in-depth focus on social-emotional development and learning. Topics covered may include neurobiological bases, temperament, attachment, theory of mind, self and emotion regulation, family, peer, school, and cultural influences.

ED-D 506C  Units: 1.5
Adolescent Development
A seminar with an in-depth focus on adolescence. Pubertal, neurobiological, familial, social, educational, cultural, and historical influences are explored.

ED-D 508  Units: 1.5
Theories of Learning in Educational Psychology
An examination of psychological interpretations of learning from modern behaviourist and cognitive approaches to contemporary conceptions of learning.

ED-D 509  Units: 1.5
Psychology of Learning and Instruction
An in-depth analysis of selected issues and contemporary research in the application of psychology to instruction including problem solving, learning processes and strategies and instructional interventions.

ED-D 514  Units: 1.5
Assessment in Counselling
The use of testing, diagnosis, and other aspects of assessment within a counselling perspective for adults, adolescents and children. Topics addressed include: basic concepts in assessment, the relationship between counselling and assessment, ethical issues, diversity, reliability and validity, test selection and administration, test evaluation, a variety of assessments and assessment reports. Notes:
  • Credit will be granted for only one of ED-D 514, ED-D 591 (if taken in the same topic).
  • Students who have Counselling or related background may request permission to register in the course. Prerequisite(s):
    • Admission to MA program in Counselling Psychology; or
    • permission of the department.

ED-D 515  Units: 1.5
Advanced Assessment in Special Education
An intensive course specializing in Level B assessment techniques and intervention-based academic assessment methods, including curriculum-based measurement, to support the educational programming of students with special needs. Prerequisite(s):
  • Admission to MA or MEd in Educational Psychology Masters program in Special Education; or
  • permission of the department.

ED-D 516  Units: 1.5
Advanced Intervention in Special Education
An intensive course specializing in academic interventions for students with special needs. Intervention design, implementation, and monitoring will be involved within the context of special education service delivery. Prerequisite(s):
  • ED-D 515; or
  • permission of the department.

ED-D 518  Units: 1.5
Advanced Seminar in Theories of Counselling Psychology
Contemporary theories and approaches to counselling and psychotherapy for individuals, couples, and families across the lifespan. Prerequisite(s):
  • Admission to MA program in Counselling Psychology; or
  • permission of the department.
ED-D 519A  Units: 1.5
Child and Adolescent Development and Counselling
A study of issues and counselling interventions with children and adolescents. Topics include developmental context; identity, assessment; counsellor roles; consultation with teachers, other professionals and parents or guardians; family issues; career/educational planning; and individual and group interventions.
Note: Credit will be granted for only one of ED-D 519A, ED-D 591 (if taken in the same topic).
Prerequisite(s):
• Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 519C  Units: 1.5
Ethics and Legal Issues in Counselling
An examination of professional, ethical, and legal issues related to practice and research in counselling. Personal beliefs, values, and biases will be examined, as well as the professional codes and literature of the discipline.
Note: Credit will be granted for only one of ED-D 519C, ED-D 591 (if taken in the same topic).
Prerequisite(s):
• Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 519D  Units: 1.5
Creative Arts Therapy
The study and practice of creative and artistic approaches to counselling. Specific focus may include counselling using art, movement, writing, play, drama and bibliotherapy.
Note: Credit will be granted for only one of ED-D 519D, ED-D 591 (if taken in the same topic).
Prerequisite(s):
• Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 519H  Units: 1.5
Career Development and Counselling Across the Lifespan
Lifespan and career development as a dynamic and holistic enterprise. Theories and techniques of career development, assessment, and consultation are explored. The practice of career counselling for diverse populations including work-related issues.
Note: Credit will be granted for only one of ED-D 519H, ED-D 591 (if taken in the same topic).
Prerequisite(s):
• Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 519L  Units: 1.5
Group Counselling
The conceptualization and practice of group counselling and therapy. Leadership skills will be examined. Particular attention will be given to leadership skills and exploring the foundation and application of experiential learning in groups.
Note: Credit will be granted for only one of ED-D 519L, ED-D 591 (if taken in the same topic).
Prerequisite(s):
• Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 519N  Units: 1.5
Diversity, Culture, and Counselling
Theory and practice of counselling diverse clientele. Specific emphasis on awareness, knowledge and strategies for developing cultural competencies.
Note: Credit will be granted for only one of ED-D 519N, ED-D 591 (if taken in the same topic).
Prerequisite(s):
• Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 519P  Units: 1.5
Trauma Counselling
Theoretical and practical understanding of issues related to treatment of psychological trauma. Topics typically include definitions, safety/stabilization, symptoms, disorders, assessment/diagnosis and outcomes.
Note: Credit will be granted for only one of ED-D 519P, ED-D 591 (if taken in the same topic).
Prerequisite(s):
• Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 519R  Units: 1.5
Indigenous Development and Counselling across Generations
Indigenous concepts and theories of development and growth across the lifespan. Exploration of intergenerational models of development and identity. Topics include child, adolescent and adult growth and change in family, community, and work contexts.
Note: Credit will be granted for only one of ED-D 519R, ED-D 591 (if taken in the same topic).
Prerequisite(s):
• Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 519S  Units: 1.5
Addictions Counselling
A study of addictive behaviour and the change process to treatment of addictive behaviour. Specific focus includes topics related to boundaries and power. Sequenced skill training, role play and to self-reflect on role as counsellor and issues related to the therapeutic relationship. Extensive opportunity to practice in a field setting.
Note: Students may repeat this course until practicum requirements are met but credit will be granted only once.
Prerequisite(s): Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 520  Units: 1.5
Educational Research Apprenticeship
An individualized opportunity for students to develop their research skills by assisting with faculty research or engaging in their own research. Students are expected to spend a minimum of 9 hours a week participating in research activities. Includes a range of potential activities, including but not limited to: data collection, coding, and entering, management of computerized databases; completion of ethics applications; analysis of data; literature search and review; and preparation of materials for publication.
Note: Students may repeat this course until practicum requirements are met but credit will be granted only once.
Prerequisite(s):
• Admission to an EPLS Masters program; or
• permission of the department.
Grading: INP, COM, N, F.

ED-D 521  Units: 1.5
Skills and Practice for Counselling
Provides basic counselling interventions with an emphasis on the therapeutic relationship. Extensive opportunity to role play and to self-reflect on role as counsellor and issues related to boundaries and power. Sequenced skill training, with extensive counselling simulation and supervision of practice in a field setting. Includes direct client contact under the supervision of a qualified professional with diverse client populations.
Note: Students may repeat this course until practicum requirements are met but credit will be granted only once.
Prerequisite(s): Admission to MA program in Counselling Psychology; or
• permission of the department.

ED-D 522  Units: 3.0
Internship in Counselling
Provides intensive practice in advanced counselling techniques and approaches under the supervision of a professional counsellor in community settings. Lectures focus on case presentations, models of consultation, supervisor-supervisee relationship, roles and responsibilities of health professionals, counsellor identity, professional organizations, record keeping. Two term course.
Notes:
• Students may repeat this course until practicum requirements are met but credit will be granted only once.
• Enrolment is limited due to availability of placements.
Prerequisite(s):
• ED-D 522, and
• admission to MA program in Counselling Psychology.
Grading: INP, COM, N, F.

**Facilitation of Counselling Practicum**
Preparation for future work as trainer, facilitator, or instructor through practice in facilitating 414 or 417 under the supervision of course instructor. Integration of theory and practice of helping, development of skills through modelling, observing, and coaching, enhancement of relationship and group processes.

**ED-D 525**
Indigenous Healing and Spirituality
Indigenous values, worldviews, and spirituality as the foundation for helping and healing. Topics include traditional knowledge, holistic healing, role of elders, and Indigenous spiritual practices.

**ED-D 531**
Concepts and Theory of Organization
Critical examination of the classical, modern, and emerging literature of administrative studies in the organizational context, with emphasis on philosophy of leadership, decision making processes, power and authority, leadership studies, and contemporary issues and perspectives.

**ED-D 532**
Educational Program Leadership
Models for program design and review range from external, objective-based processes to participatory action research. Examines issues of implementation, collaboration, accountability, inclusiveness and responsiveness to community. Offers practical experiences in a range of evaluative methods.

**ED-D 533**
Politics and Policy-Making in Organizations
An examination of politics in educational and related organizations: concepts of influence, authority, power, and control; frameworks for analyzing and understanding politics and policy; actors and agendas; interest and pressure groups; conflict and conflict resolution; the interface of leadership and politics; implications for governance and administrative practice.

**ED-D 533B**
Decision-Making and the Law
Develops awareness of the legal considerations and principles which apply to decision-making in school and other workplaces. Contains introductions to the interface between law, legislation and policy; statutes and the delegation of powers to decide, and the common law principles which govern decision-making by those with statutory authority. An array of case studies is used.

**ED-D 533C**
Servant Leadership
An inquiry into the philosophy of servant-leadership as a vehicle for the development of moral literacy in democratic, caring, serving institutions with an investment in the common good.

**ED-D 533D**
Critical Discourses in Leadership
An examination of general leadership concepts, and practices as they apply to educational institutions, other workplaces, organizations and the community.

**ED-D 534**
Leadership for School Improvement
Surveys contemporary thinking about professional learning communities and learning teams, emphasizing how leaders can build and support collaborative and inclusive learning environments in order to effect positive school change.

**ED-D 535**
Global Comparative Perspectives on Leadership and Education
Explorations of diverse leadership and education theories and practices in school, institutions, workplaces, and/or community across Canada and around the world.

**ED-D 536**
Philosophy of Leadership
An examination of the relevant interaction of philosophy and leadership, with a view to clarifying philosophical concepts and theories and their application to the analysis, by individuals in leadership positions, of their own and others' actions.

**ED-D 537A**
Educational Change
An analysis of change theory and the processes associated with change in education, with a view to assisting school leaders to facilitate reforms.

**ED-D 537B**
Instructional Supervision
Through an analysis of literature in leadership, communication, change and activation, as well as through an analysis of classroom observation techniques, the development of rational organizational patterns of supervision for educational administrators.

**ED-D 537C**
Servant Leadership
An inquiry into the philosophy of servant-leadership as a vehicle for the development of moral literacy in democratic, caring, serving institutions with an investment in the common good.

**ED-D 538A**
Critical Theories and Practices of Adult Education and Learning
Explores theories and practices of adult education within the contexts of social, cultural, political, gender, and ecological justice and change.

**ED-D 538B**
Cultural Leadership and Social Learning through the Arts
An exploration of the historical and contemporary contributions of arts-based education activities to cultural leadership, activism, and social justice and change across Canada and world-wide.

**ED-D 538D**
Community and Cultural Leadership
Focuses on theories and practices of community and cultural leadership, activism in organizations and institutions in Canada and internationally.

**ED-D 539A**
Leadership, Learning and Social Justice
Concepts of social justice and their relationship to leadership in schools, institutions and organizations and community. Focuses on issues of race/ethnicity, gender, class, sexual orientation and ability as enacted in everyday practice. Conceptions of democracy, privilege, power, and citizenship are central. Discussions extend to ecological and global issues of social justice.

**ED-D 539B**
Leadership, Education and Diversity
An exploration of the social, cultural, and political complexity of contemporary education in a pluralistic society. Focuses on issues of racism, homophobia, sexism, ableism and how they affect schools, workplaces, and/or communities and society as a whole.

**ED-D 539C**
Servant Leadership
An inquiry into the philosophy of servant-leadership as a vehicle for the development of moral literacy in democratic, caring, serving institutions with an investment in the common good.
ED-D 540  Units: 1.5
Gender, Leadership and Learning
Explores leadership through the lenses of feminism, inter-sectionalities, trans and masculinities discourses in diverse contexts such as trans, LGBTQ and women’s movements(s), the voluntary sector, community organizations and government.
Note: Credit will be granted for only one of ED-D 540, ED-D 591 (if taken in the same topic).

ED-D 541  Units: 1.5
Leadership in Rural Education
An examination of the historical contexts, unique issues, and recent developments surrounding leadership in rural and remote education, globally, nationally, and provincially, including First Nations. Focus is on issues of equitable educational opportunities, recruitment and retention of educators, multi-grade classes, professional isolation, and demands of community-based lifestyle and the benefits of technology. The dearth of rural education research is explored.
Note: Credit will be granted for only one of ED-D 541, ED-D 591 (if taken in the same topic).

ED-D 542  Units: 3.0
A Comprehensive Investigation of Servant Leadership
An inquiry, identification and application of the servant leadership-followership philosophy in all formal educational and community organizations. Servant Leadership-followership is a vehicle for the development of moral literacy in democratic, caring institutions and an understanding of the impact of leadership-followership on diverse organizations. Students will be able to conduct analyses on educational research data.

ED-D 543  Units: 1.5
Research Methods in Leadership
Designed to prepare students in Leadership Studies to undertake independent, scholarly research so that they might fulfill the research requirements for the MEd degree in Leadership Studies. Students will become familiar with different lines of inquiry, appropriate methodologies, proposal preparation and the ethics involved in doing research. Other graduate level research methods courses may be substituted with permission from the Graduate Adviser.
Prerequisite(s):
• Admission to MA or MEd in Educational Psychology Masters program in Leadership Studies; or
• permission of the department.

ED-D 544  Units: 1.5
Advanced Statistical Methods in Education
To advance understanding of and competence in handling multivariate data - both the manipulation of data files for use within a statistical program, and the use of statistical programs for exploratory and inferential analyses such as regression, MANOVA and factor analysis.
Note: Students who have completed equivalent prerequisites may request permission to register in the course.
Prerequisite(s):
• ED-D 560; or
• permission of the department.

ED-D 545  Units: 1.5
Qualitative Research Methods
Introduction to various modes of qualitative inquiry, identification and examination of qualitative research methods in a variety of contexts and settings.
Note: Credit will be granted for only one of ED-D 563, ED-D 519B.

ED-D 546  Units: 1.5
Indigenous Research and Program Evaluation
Indigenous worldviews, approaches to research, methodologies, practices and protocols are examined within the context of Indigenous community engagement. Specific topics include community partnerships, research ownership, research process, program evaluation, methods and outcomes. Ethics, reciprocity, and culturally respectful research will be explored.
Prerequisite(s):
• Admission to a master's program in Indigenous Communities Counselling; or
• permission of the department.

ED-D 547  Units: 1.5
Inclusive Education in the 21st Century
A consideration of historical perspectives and present trends in Special Education theory and practice. Topics considered include the context of special education, economic and legislative issues, families, classification and other assessment issues, teaching practices, social competency, early intervention, quality of life, and ethical and policy issues.
Note: Credit will be granted for only one of ED-D 568, ED-D 566A.

ED-D 548  Units: 1.5
Developmental Psychopathology and Disorders
Empirical and theoretical approaches to childhood disorders, including issues in their classification, etiology, developmental course, and presentation within the school setting. Emphasis will be placed on thinking about childhood disorders within both a developmental and school context. Assessment profiles and intervention strategies will be discussed.
Note: Credit will be granted for only one of ED-D 569, ED-D 568B.

ED-D 549  Units: 1.5
Self-Regulated Learning
An examination of contemporary theory and research about self-regulated learning and learning strategies, computer-based instructional tools and environments for promoting self-regulated learning, and regulation of learning in collaborative contexts.
Notes:
• Credit will be granted for only one of ED-D 570, ED-D 591 (if taken in the same topic).
• Students who complete this course may be eligible to apply for a lab instructor position for ED-D 101 (Learning Strategies for University Success).

ED-D 550  Units: 1.5
Advanced Assistive Technology in the Inclusive Classroom
Focuses on the research and application of a range of assistive technologies, assessment frameworks, instructional approaches and strategies, and resources to support active student engagement and participation in inclusive classrooms.
Note: Credit will be granted for only one of ED-D 571, ED-D 591 (if taken in the same topic).

ED-D 551  Units: 1.5-3.0
Directed Studies in Educational Psychology and Leadership Studies
May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units; however, no more than 3 units of credit from the same instructor will be accepted except under exceptional circumstances.

ED-D 552  Units: 1.5
Selected Topics Measurement, Evaluation and Instructional Sciences
May be taken more than once for credit in different topics.

ED-D 553  Units: 1.5
Selected Topics Learning, Development and Computer Applications
May be taken more than once for credit in different topics.

ED-D 554  Units: 1.5
Selected Topics in Counselling
Note: May be taken more than once for credit in different topics.
ED-D 591E  Units: 1.5
Selected Topics in Leadership Studies
Note: May be taken more than once for credit in different topics.

ED-D 597  Units: 1.5
Comprehensive Examination - Educational Psychology and Leadership Studies
A required element of all MEd programs. Typically held within one month of completion of all coursework. Examination format may be either written or oral, as decided upon by the program supervisor in consultation with the candidate. Areas of examination and examiners are established by each program area (counselling, educational psychology, special education, leadership studies).
Grading: INP, COM, N, F.

ED-D 598  Units: 3.0
Project - Educational Psychology and Leadership Studies
Evidence of independent research work in the form of a project, extended paper(s), work report, etc., as determined within the department. Planned and carried out with a project supervisor.
Grading: INP, COM, N, F.

ED-D 599  Units: 6.0
Thesis - Educational Psychology and Leadership Studies
Grading: INP, COM, N, F.

ED-D 600  Units: 1.5
Learning and Teaching in Higher Education
Exploration of instruction and contemporary practices in higher education. Topics include the use of effective teaching strategies, developing course curriculum, and exploring various instructional models and media. Content is guided by recent research in the psychology of learning and instruction.
Notes:
• Students who are not in the LATHE Program and wish to take a course in this area may consider ED-D 614.
• With permission of the department, students who have taken EDCI 512A or EDCI 512B may obtain credit for ED-D 600.
Prerequisite(s): Admission to Graduate Certificate in Learning and Teaching in Higher Education (LATHE).

ED-D 605  Units: 3.0
Educational Psychology: Apprenticeship in Teaching in Higher Education
Explores research and rhetoric associated with numerous models of instruction found frequently in post-secondary contexts such as lecture, recitation, small-group discussion, and online learning. As each instructional model is examined, students will practice supporting instructional skills and strategies.
Prerequisite(s): Admission to Graduate Certificate in Learning and Teaching in Higher Education (LATHE).
Pre-or Corequisite(s): ED-D 600 or EDCI 560.
Grading: COM, N, F.

ED-D 610  Units: 1.5
Contemporary Issues in Higher Education
Critically examines the problems and issues that dominate current thought and discussion in higher education in Canada and internationally. Topics considered will include globalization and internationalization, university governance, teaching and learning, the nature of academic work, corporatization of post-secondary institutions, credentialism, and relations between higher education and the state.
Prerequisite(s): Permission of the department.

ED-D 614  Units: 1.5
University Teaching
An extensive review of research and instructional practices at the post-secondary level. Topics include models of instruction, teaching strategies, course development principles, and assessment practices.
Prerequisite(s): Admission to a graduate program.

ED-D 615  Units: 1.5 or 3.0
Individual Apprenticeship in University Teaching
Students undertake an individualized apprenticeship experience with a sponsoring faculty member. The breadth of the apprenticeship is to offer students guided practice in university instruction.
Note: May be taken more than once for credit in different topics with approval of the student's supervisory committee.
Grading: INP, COM, N, F.

ED-D 620  Units: 1.5
Educational Psychology: Doctoral Apprenticeship in Research
Individualized opportunity for doctoral students to develop advanced research skills by apprenticing in faculty research or extra-to dissertation research. Students are expected to spend approximately 9-10 hours a week participating in research activities. The apprenticeship typically involves a range of activities including organization and training of research assistants, submission of an ethics application, management of research databases, data analysis, and preparation and submission of materials for publication and/or presentation.
Note: Students may repeat this course, but credit will be granted only once.
Prerequisite(s):
• Admission to a doctoral program; or
• permission of the department.
Grading: INP, COM, N, F.

ED-D 660  Units: 1.5
Doctoral Seminar in Contemporary Issues in Educational Psychology
A seminar for doctoral students examining contemporary issues in educational psychology. Attention is also given to guidelines for scholarly and professional practice.

ED-D 669  Units: 1.5-3.0
Advanced Directed Studies in Educational Psychology
Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 4.5 units; however, no more than 3 units from the same instructor will be accepted except under exceptional circumstances.

ED-D 691  Units: 1.5 or 3.0
Advanced Special Topics in Educational Psychology
The content of these courses varies depending upon student interests and faculty areas of expertise. Courses often focus on timely issues and topics in the field.
Note: May be taken more than once for credit in different topics.

ED-D 693  Units: 3.0
Doctoral Candidacy Exam in Educational Psychology
PhD students write candidacy examinations in research methodology and in their area of focus within educational psychology. The format will consist of two written papers followed by an oral examination. In the oral examination, the candidate will be examined in both research methodology and his/her area of focus. Normally, within thirty six months of registration as a provisional doctoral student and at least six months before the final oral examination, a student must pass the candidacy examination.
Grading: INP, COM, N, F.

ED-D 699  Units: 30.0
PhD Dissertation
Grading: INP, COM, N, F.

EDCI
Curriculum and Instruction Studies
Department of Curriculum and Instruction
Faculty of Education

EDCI 510  Units: 1.5
Research Issues and Studio Development in Art
Review of contemporary art education research issues; development of a teaching creed and proposal; studio exploration linked to current instructional practice.
Note: Credit will be granted for only one of EDCI 510, ED-A 570.

EDCI 511  Units: 1.5
Research in Drawing and Studio Development
Review of literature on the development of a drawing; analysis of theory and current teaching practices; an investigation of ideas and approaches through actual engagement in drawing.
Note: Credit will be granted for only one of EDCI 511, ED-A 571.

EDCI 512A  Units: 1.5
Formerly: half of EDCI 512
Digital Arts
An extensive exploration of digital studio practices focusing on visual expression, graphics, and fine art. Working in the digital studio, students will learn to generate creative ideas, collect resources, produce artwork, and integrate digital and traditional processes using industry-standard software packages. Emphasis on the production and teaching of digital arts for creative, educational and studio environments. No previous computer experience is required.
Note: Credit will be granted for only one of EDCI 512A, EDCI 512.
EDCI 512B  
Units: 1.5  
Formerly: half of EDCI 512  
Digital Presentation  
An extensive exploration of the tools and processes used in presenting studio media in digital formats. Students will learn how to organize existing studio materials, processes, ideas, and resources into dynamic presentation structures using still/motion visuals, text and audio. A strong focus will be given to the production formats required for final graduate presentations.  
Note: Credit will be granted for only one of EDCI 512B, EDCI 512.

EDCI 513  
Units: 3.0  
Community Art Education  
Issues related to community art programs that play a role in sociocultural development and raising awareness about aesthetics.

EDCI 514  
Units: 1.5  
Educational Discourses  
An opportunity for engagement in the research community, advancing the development of student's own capacity for research, and a critical examination of contemporary literature on functional educational concepts, research issues and implications for curriculum and instruction.

EDCI 515  
Units: 1.5  
e-Research: Harnessing and Understanding Technology in Research  
A blended multi-media/research course that focuses on relevant issues involved in using information and communication technologies (ICT) and the Internet for research purposes. In addition to developing some foundational skills, students will learn about methods, techniques, as well as ethical and practical issues.  
Note: Credit will be granted for only one of EDCI 515, ED-B 515.

EDCI 517  
Units: 1.5  
Formerly: EDCI 542A  
Reading Processes in the School Curriculum: Research and Processes  
Examines and analyzes research and models of reading, and the processes of reading and reading development.  
Note: Credit will be granted for only one of EDCI 517, EDCI 542A, EDCI 542, ED-B 542.

EDCI 518  
Units: 1.5  
Formerly: EDCI 540A  
Research in Language and Literacy: Curriculum Development  
A critical analysis of theories and research related to curriculum development and implementation in language and literacy.  
Note: Credit will be granted for only one of EDCI 518, EDCI 540, EDCI 540A, ED-B 540.

EDCI 520  
Units: 1.5 or 3.0  
Seminar in Contemporary Educational Issues in Philosophical Perspective  
A survey of issues selected from leading contemporary thinkers and how they relate to the basic values, purposes and problems of education.  
Note: Credit will be granted for only one of EDCI 520, ED-B 520.

EDCI 521  
Units: 1.5  
Contemporary Educational Issues in Historical Perspective  
Historical examination of significant educational writings, the social context in which they were written, and their influence on contemporary educational issues. Special emphasis is placed on writings that illuminate themes of educational change and that illustrate the relationship between the character of a society and the nature of its educational institutions.  
Note: Credit will be granted for only one of EDCI 521, EDCI 521A, EDCI 521B, ED-B 521A, ED-B 521B.

EDCI 523  
Units: 1.5  
Diverse Voices and Visions in Education  
An examination of diverse educational and cultural perspectives in education and ways of knowing not usually encompassed in other courses. Students will explore how these diverse perspectives shape, challenge, and enrich established educational methodologies.

EDCI 531  
Units: 1.5  
Introduction to Curriculum as Discourse  
An overview of the field of curriculum studies from the early 20th century forward. Invites students to reflect on implications of curriculum as discourse within their own educational concepts and practices and to imagine new possibilities.  
Note: Credit will be granted for only one of EDCI 531, EDCI 531A, EDCI 531B, ED-B 555A, ED-B 555B.

EDCI 532  
Units: 1.5  
Emerging Trends and Topics in Curriculum Studies  
An examination of recent publications, presentations and conference proceedings to identify and discuss emerging trends and topics in the field of curriculum studies.

EDCI 533  
Units: 1.5  
Theory and Practice in Curriculum Design and Change  
Description of traditional and alternative approaches to curriculum planning and implementation in terms of origins, underlying assumptions, utility in various settings and effects. Invites students to identify and characterize their own approaches to curriculum planning and implementation.  
Note: Credit will be granted for only one of EDCI 533, ED-B 556, ED-B 557.

EDCI 536  
Units: 1.5  
Language Processes in the School Curriculum: Oracy  
An examination of processes through which competence in listening and speaking is developed. Includes analysis of research, methods and materials relevant to oracy.  
Note: Credit will be granted for only one of EDCI 536, EDCI 543, EDCI 543A, ED-B 543.

EDCI 546  
Units: 1.5  
Literacies Research  
A critical review of research methodologies used in the general area of language arts. Consideration of the appropriateness of specific methodologies to research in classroom problems.  
Note: Credit will be granted for only one of EDCI 546, ED-B 546.

EDCI 548  
Units: 1.5  
Development and Implementation of the Curriculum  
Application of relevant theories and models to the design and development of school curricula in a specific area.  
Note: Credit will be granted for only one of EDCI 548, EDCI 548A, EDCI 548B, EDCI 548C, ED-B 558.

EDCI 549  
Units: 1.5  
Gender and Pedagogy  
Draws upon historical and contemporary perspectives to provide lenses for analyzing various research issues and concerns in relation to educational policy and classroom practice. Inclusion and transformation are critical elements of the concepts developed in this course. Issues of gender influencing educational policy and practices will be examined, including areas such as curriculum development, teaching strategies, selection of curricular materials, professional interactions, and selection of teaching specialty areas.  
Note: Credit will be granted for only one of EDCI 549, EDCI 591 (if taken in the same topic).

EDCI 550  
Units: 1.5  
Seminar: Research in Early Childhood Education  
Analysis, interpretation, and evaluation of selected research in early childhood education through study of its conceptual and methodological bases.  
Note: Credit will be granted for only one of EDCI 550, ED-B 550.  
Prerequisite(s):  
• 1.5 units of EDCI course numbered 500 or higher, or  
• permission of the department.

EDCI 551  
Units: 1.5  
The Young Child in Today's Society  
An exploration of topics related to young children (birth through age 9) and their education in the context of Canadian society. Addresses several major questions, including: Who are today's young children? What are the issues and challenges facing Canadian children and families? How can early childhood programs address these challenges?  
Note: Credit will be granted for only one of EDCI 551, ED-B 551.

EDCI 552  
Units: 1.5  
Contemporary Trends in Early Childhood Education  
An examination of perspectives that influence early childhood education in national and international contexts. Topics include: the inclusion of children's knowledge in early childhood settings; the potential role of families in early years' programming; the creation of programs that support children's holistic development; the impact of cultural values on young learners; and the commonalities and differences of global, early learning settings.  
Note: Credit will be granted for only one of EDCI 552, ED-B 552.

EDCI 554  
Units: 1.5  
Comparative Early Childhood Education: Curriculum, Context and Culture  
Analysis and evaluation of approaches to curriculum, administration, and assessment in programs for preschool, kindergarten, and primary-aged children in cross-cultural contexts.  
Note: Credit will be granted for only one of EDCI 554, ED-B 549.
EDCI 556  Units: 1.5  
Language Processes in the School Curriculum: Writing and Representing
An examination of processes through which skills and competence in composition are developed. Includes analysis and evaluation of research, methods and materials relevant to instruction in composition.
Note: Credit will be granted for only one of EDCI 556, EDCI 543, EDCI 543B, ED-B 543.

EDCI 558  Units: 1.5  
Differentional Instruction: Needs of Diverse Learners
Examines research and practice of differentiated instruction across the curriculum, with an emphasis on literacy at all levels. Investigates the philosophy and theory behind differentiated instruction and exemplary practices. Focuses on flexibility in how curriculum content, processes and representations of knowledge are designed within a differentiated model. Discussion of differentiated instructional models in relation to current trends in Canadian curriculum.
Note: Credit will be granted for only one of EDCI 558, EDCI 591 (if taken in the same topic).

EDCI 565  Units: 1.5  
Research and Practice of Learning Design
An in-depth look at the research and practice of learning design and its application to technology-enabled interactive learning environments. Students will critically examine theories and principles of learning design; explore how they can maximize the effectiveness, efficiency and appeal of learning experiences for learners; and teach for understanding.

EDCI 566  Units: 1.5  
EDUCoaching for Technology Integration
An exploration of principles and models of educational change through professional development coaching within the context of technology adoption theories. Students will actively coach or be coached during this course.

EDCI 567  Units: 1.5  
Interactive and Multimedia Learning Theories
An in-depth analysis of theories and applications of multimedia learning in interactive learning environments. Students will explore the latest research; compare, and critique current practices and emerging technologies such as touch input devices, for creating rich educational experiences.

EDCI 568  Units: 1.5  
Discourse on Social Media for Connected and Personalized Learning
Exploration of current research on communities of learning to situate discussion on connected practices for both personalized and professional learning. Critical discourse will focus on the balance of opportunities afforded by connected learning as well as issues such as cyber bullying, safety, and privacy in online environments.

EDCI 569  Units: 1.5  
The Distributed, Blended and Open Classroom
An examination of current research and models of distributed learning and the theories that drive successful learning experiences in a variety of configurations such as online, blended, multi-access, and open learning.

EDCI 570  Units: 1.5  
Research in Curriculum and Instruction in the Elementary Grades
Review of the critical issues, analysis of significant research on curriculum development at the elementary school level.
Note: Credit will be granted for only one of EDCI 570, EDCI 570A, EDCI 570B, EDCI 570C, EDCI 570D, EDCI 570E, EDCI 570F, ED-E 540.

EDCI 571  Units: 1.5  
Research in Curriculum and Instruction in the Secondary Grades
Review of the critical issues, analysis of significant research on curriculum development at the secondary level.
Note: Credit will be granted for only one of EDCI 571, EDCI 571A, EDCI 571B, EDCI 571C, EDCI 571D, EDCI 571E, EDCI 571F, ED-E 541.

EDCI 572  Units: 1.5  
Development and Implementation of the Curriculum
Application of relevant theories and models to the design and development of school curricula in a specified area.
Note: Credit will be granted for only one of EDCI 572, EDCI 572A, EDCI 572B, EDCI 572A, EDCI 572C, EDCI 572D, EDCI 572E, EDCI 572F, ED-E 558.

EDCI 574  Units: 1.5  
Environmental Education Perspectives
A multi-disciplinary approach to exploring goals for environmental and outdoor education; cultural differences in perceptions of community-environment relationships; the traditional ecological knowledge and wisdom of First Nations Peoples; current issues and trends; the research related to students’ environmental knowledge, attitudes and values; teaching strategies; and assessment techniques. Selected field trips.
Note: Credit will be granted for only one of EDCI 574, ED-E 574.

EDCI 575  Units: 1.5  
Global Education
Explores critical global issues through the strands of environment, development, peace and human rights. Pedagogical concerns vary with student interests and include values education, teaching controversial issues, and dealing with children’s despair about the future.
Note: Credit will be granted for only one of EDCI 575, ED-E 546.

EDCI 576  Units: 1.5  
Ecology, Pedagogy, and Practice
Theoretical examination of discourses that may include: the Deep Ecology Movement, Systems Theory, Eco-justice, and Cognitive Science to identify and discuss key issues in a variety of disciplinary areas as these relate to pedagogy and practice.
Note: Credit will be granted for only one of EDCI 576, EDCI 591.

EDCI 580  Units: 1.5  
Qualitative Research Methods
Provides a survey of a variety of qualitative methods, and opportunities for learners to develop competencies in research practices common to qualitative inquiry.
Note: Credit will be granted for only one of EDCI 580, ED-B 580.

EDCI 581  Units: 1.5  
Research Methodologies in Education
An opportunity for students to become familiar with various approaches to research, especially those relevant to their inquiries with special emphasis on the intellectual, social, and cultural contexts and ethics of research.

EDCI 582  Units: 1.5  
Writing as Research
Writing as a mode of inquiry, with particular emphasis on the practice of writing. Includes all forms of interpretive inquiry, especially narrative, phenomenological, hermeneutic and autobiographical inquiry.
Note: Credit will be granted for only one of EDCI 582, ED-B 582.

EDCI 584  Units: 1.5  
Analysis of Quantitative and Mixed Methods Research
An introduction to the understanding, critical analysis, and evaluation of the theoretical and practical issues related to published quantitative or mixed methods research in the field of education.

EDCI 590  Units: 1.5  
Directed Study - Curriculum and Instruction
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.
Prerequisite(s): Permission of the faculty.

EDCI 591  Units: 1.5 or 3.0  
Selected Topics in Curriculum and Instruction
A variable content course. Normally restricted to course offerings and not individual study.
Note: May be taken more than once for credit in different topics.

EDCI 597  Units: 1.5  
Comprehensive Examination
A written and/or oral comprehensive examination, which must be passed as required for individual Master of Education programs.
Note: Credit will be granted for only one of EDCI 597, ED-A 597, ED-B 597, ED-E 597.
Grading: INP, COM, N, F.

EDCI 598  Units: 3.0  
Project - Curriculum and Instruction
Grading: INP, COM, N, F.

EDCI 598A  Units: 1.5  
Project Proposal and Literature Review
Encourages discussion of alternate approaches to project topics as well as examine the components of a project proposal, especially the features of an effective literature review. The proposal and literature review for the MEd project must be accepted by the 598A course instructor and the student’s program supervisor.
Note: Students who do not complete the course requirements may register a second time for the course. Incomplete course requirements in the second term will result in withdrawal from the program. There are appeal procedures for extenuating circumstances.
Prerequisite(s): Admission to a Community-based MEd program.
Grading: COM, INP, N, F.
EDCI 599B Units: 1.5
Project
The project proposal approved in 598A is to be completed and will include the approved literature review, an analytic and professional reflection on the contributions of the project. A project may be presented in any appropriate form - prose, performance, multimedia, or exhibition for example - but must include a written submission of moderate length. The successful completion of the project requires the approval of the course instructor and the student’s program supervisor.

Notes:
- Students who have completed equivalent prerequisites may request permission to register in the course.
- Students who do not complete the course requirements may register a second time for the course. Incomplete course requirements in the second term will result in withdrawal from the program. There are appeal procedures for extenuating circumstances.

Prerequisite(s):
- EDCI 598A; or
- admission to a Community-based MEd program.

Grading: COM, INP, N, F.

EDCI 601 Units: 1.5
Interdisciplinary Doctoral Seminar
The purpose of Doctoral Seminar is to create a community of scholars in which faculty and graduate students share and support each other’s current research projects.

Note: May be taken more than once for credit in different topics to a maximum of 6 units.

Prerequisite(s): Admission to a doctoral program.

EDCI 614 Units: 1.5
Directed Studies - Curriculum and Instruction
An opportunity for engagement in the research community, advancing the development of student’s own capacity for research, and a critical examination of contemporary literature on functional educational concepts, research issues and implications for curriculum and instruction.

Note: Credit will be granted for only one of EDCI 614, EDCI 600.

EDCI 632 Units: 1.5
Emerging Trends in Curriculum Studies
An examination and theoretical critique of emerging trends and topics in the field of curriculum studies as they appear in recent publications, presentations, and conference proceedings.

Note: Credit will be granted for only one of EDCI 632, EDCI 532.

EDCI 633 Units: 1.5
Discourses in Curriculum Design and Change
Identification, analysis and critique of current discourses of curriculum development, implementation, and change found in educational practice and in theoretical literature.

Note: Credit will be granted for only one of EDCI 633, EDCI 533.

EDCI 673 Units: 1.5
ICT in Environmental, Mathematics, Science Instruction
Explores the changes information and communication technologies (ICT) have made on learning and instruction in environmental, mathematics and science education. Theoretical, classroom instruction, and research implications will be considered.

EDCI 681 Units: 1.5
Advanced Research Design
Explores research methodologies appropriate to specific research problems, questions, and contexts. An examination of the purposes of research, the role of literature review, educational theories, and design of a research question considering the relationship between question and research method.

Note: Students who have completed a master’s level research methods course may request permission to register in the course.

Prerequisite(s): Permission of the faculty.

EDCI 690 Units: 1.5 or 3.0
Directed Studies - Curriculum and Instruction
Under the direction of program supervisors, topics in the area of research interests of doctoral students will be examined, leading to the development of background material for a PhD dissertation.

Notes:
- May be taken more than once for credit in different topics.
- Pro Forma required.

Prerequisite(s): Set by department depending upon topic.

EDCI 691 Units: 1.5 or 3.0
Selected Topics in Curriculum and Instruction
Issues pertaining to students’ research interests and faculty expertise will be examined.

Notes:
- May be taken more than once for credit in different topics.
- Pro Forma required.

Prerequisite(s): Set by department depending upon topic.

EDCI 693 Units: 3.0
Candidacy Examination - Curriculum and Instruction
Candidacy Examinations which must be passed as required for individual Doctor of Philosophy Programs within the Faculty of Education. Exams will be reviewed and graded by all members of the individual’s Doctoral Committee.

Grading: INP, COM, N, F.

ENGL 582 Units: 1.5
Core Seminar in Literatures of the West Coast
An introduction to interdisciplinary study in the literatures of the West Coast. Primary areas of investigation include: Borders and Regions; Historiographies; Pacific Diasporas, Migrations, and Nations; Identity and Place. Compulsory for students in the Literatures of the West Coast Concentration.

ENGL 583 Units: 1.5
Studies in the Literature of the West Coast

ENGL 585 Units: 1.5
Studies in Canadian Literature: Area Course

ENGL 586 Units: 1.5
Studies in Canadian Literature: Special Topic

ENGL 590 Units: 1.5
Directed Reading

ENGL 598 Units: 3.0-4.5
Master's Essay or Project
Students are required to complete a Master's Essay or Project and a final oral examination based on that essay or project. It should not exceed 10,000 words (or the equivalent in digital, editorial, or bibliographical components), plus notes and bibliography. This essay or project will normally be a revised and extended version of a paper or project prepared for one of the student's courses.

ENGL 599 Units: 7.5
MA Traditional or Alternative Thesis
Grading: INP, COM, N, F.

ENGL 693 Units: -33.0
PhD Dissertation
Prerequisites(s): ENGL 693.
Grading: INP, COM, N, F.

EOS 508 Units: 1.5
Marine Geology
A seminar course covering modern processes of marine geology, including depositional processes and diagenesis of marine sediments. Examines a range of depositional environments: fjord and coastal, shelf, slope, and oceanic; with consideration of the data obtained from DSDP and ODP drilling.

EOS 510 Units: 1.5
Plate Tectonics: the Geological Record
An examination of the processes of plate tectonics as revealed by the geological record, including Precambrian evolution of cratons; rifts and passive margins; convergent margins and orogens; plate motions through time.

EOS 513 Units: 1.5
Advanced Igneous and Metamorphic Petrology
A seminar style course focusing on advanced topics in igneous and metamorphic petrology and how the tools of petrology can be used for geodynamic reconstructions.

EOS 516 Units: 1.5
Formerly: EOS 516A
Ocean Acoustics
An introduction to the ocean as an acoustic medium, sound sources in the ocean, sound propagation in deep and shallow water, reflection and transmission processes at ocean boundaries, and ambient noise. Particular focuses can include acoustic signal processing, numerical propagation modelling, source localization, and ocean acoustic inversion.

EOS 518 Units: 1.5 or 3.0
Selected Topics in Earth, Ocean and Atmospheric Sciences
Examines selected research topic(s) from the fields of geology, oceanography, and/or atmospheric science.

EOS 519 Units: 1.5
Selected Topics in Geophysics
Examples of topics include geodynamics or continuum mechanics with geological applications, time series analysis with geophysical applications, seismic data processing, well log analysis, environmental and engineering geophysics, and geophysics of the continental crust.

EOS 523 Units: 1.5
Seismology
Theoretical and practical aspects of seismic wave propagation, earthquake seismology, and processing and interpretation of reflection and refraction data.
EOS 525  Units: 1.5  
**Research Frontiers in Earth and Ocean Science**  
This interdisciplinary Earth and Ocean Sciences course examines, in detail, global topics that are current, significant and which require input and integration across diverse disciplines. The specific topics change annually and the subject is team-taught by several EOS/UVic faculty members.

EOS 526  Units: 1.5  
**Geophysical Inverse Theory**  
Inverse theory and its applications in Earth and Ocean Sciences. Topics include non-uniqueness, general linear least-squares, singular-value decomposition, regularization, linearization, global inversion, Bayesian inversion, and Markov-chain Monte Carlo methods. Applications will be drawn from the research literature and include topics such as inversion of seismic, acoustic and geo-electromagnetic data, tomography and matched-field inversion.

EOS 531  Units: 1.5  
**Physical Oceanography**  
Physical properties of sea water, equation of state, gravitational stability, large-scale ocean currents, meridional distribution of salinity and temperature, surface heat budgets, water masses, estuary flows.

EOS 538  Units: 1.5  
**Aqueous Geochemistry and the Environment**  
Major aspects of the global water cycle, sources, sinks of chemical elements present in aquatic systems, weathering reactions, solution geochemistry of oxic and anoxic environments in natural aquatic systems (rainwaters, ground waters, rivers, lakes, estuaries and oceans). Other topics include the application of natural and anthropogenic tracers to geochemical problems with aquatic systems.  
*Note:* Credit will be granted for only one of EOS 538, EOS 425.

EOS 550  Units: 1.5  
**The Climate System**  
Studies of the Earth’s climate require an understanding of the intimate links between the hydrosphere, atmosphere, cryosphere and biosphere. Basic theories of the dynamics of ocean and atmosphere. The physics and biogeochemistry of coupled models are examined with emphasis on simple intuition-building mathematical models as well as discussion of large computer models.

EOS 551  Units: 1.5  
**Introductory Dynamic Meteorology**  
An introduction to the dynamics and thermodynamics of rotating atmospheres. Topics include: equations of motion, circulation theorems, geostrophy and quasigeostrophy, boundary layer dynamics, waves in the atmosphere, barotropic and baroclinic instabilities, and the general circulation of the atmosphere.

EOS 562  Units: 1.5  
**Mathematical Tools for Earth, Ocean and Atmospheric Sciences**  
Selected topics to provide training in mathematical techniques and tools used in ocean and earth systems data analysis and numerical modeling. Examples of topics are time-series analysis, statistical prediction and analysis, and numerical finite-difference, finite-element and spectral modeling techniques.  
*Notes:*  
- May be taken more than once for credit in different topics.  
- May repeated with different content (offered as 562A, 562B, 562C, 562D).

EOS 580  Units: 1.0-3.0  
**Directed Studies**  
Designed to enable students to pursue individual interests.  
*Note:* May be taken more than once for credit in different topics.

EOS 599  Units: to be determined*  
**MSc Thesis**  
The thesis or dissertation requirement for advanced degrees applies to all students in the School. Students must enrol in 599 in their first term and remain enrolled until their thesis requirements have been completed.  
* Normally 9 units.  
Grading: INP, COM, N, F.

EOS 693  Units: 3.0  
**PhD Candidacy Examination**  
Students must enrol in EOS 693 in their first term and remain enrolled until their candidacy requirements have been completed, normally within the first two years of a PhD program. A pre-candidacy committee meeting must precede the formal candidacy exam.  
Corequisite(s): EOS 699.  
Grading: INP, COM, N, F.

EOS 699  Units: to be determined*  
**PhD Dissertation**  
The thesis or dissertation requirement for advanced degrees applies to all students in the School. Students must enrol in 699 in their first term and remain enrolled until their dissertation requirements have been completed.  
Corequisite(s): EOS 693.  
Grading: INP, COM, N, F.

EPHE 570  Units: 1.5  
**Skill Acquisition in Physical Education and Sport**  
A review of learning theories and principles as they pertain to the acquisition and retention of motor skills; the neural mechanisms involved in the learning and control of motor patterns; information processing in human performance; detailed study of research on memory, attention, retrieval systems, and movement control.  
*Note:* Credit will be granted for only one of EPHE 570, PE 570.

EPHE 572  Units: 1.5  
**Physiology in Physical Education and Sport**  
The study of physiological basis for sport performance and fitness. The assessment of physiological status and the rationale for the prescription of exercise programs.  
*Note:* Credit will be granted for only one of EPHE 572, PE 572.

EPHE 573  Units: 3.0  
**Research Methods**  
An overview of the qualitative and quantitative research approaches specific to the various disciplinary areas in the School of Exercise Science, Physical and Health Education. Underlying assumptions of both qualitative and quantitative research are discussed and the respective research processes are reviewed. Other topics include: the role of the researcher, selecting and developing a research problem; reviewing the literature; developing research hypotheses; issues in measurement; data collection issues; writing research proposals; research ethics; and communicating the results of research.  
*Note:* Credit will be granted for only one of EPHE 573, PE 573.
EPHE 574  Units: 1.5
Administration of Physical Education, Recreation and Sport
After presenting a theoretical base for administrative and organizational theories, a link will be made to specific situations in the fields of physical education, recreation and sport.
Note: Credit will be granted for only one of EPHE 574, PE 577.

EPHE 575  Units: 1.5
Applied Sport Psychology
Provides students with a further understanding of concepts and principles underlying the field of sport psychology. Provides a basis for the use of mental training techniques such as imagery, self-talk, feedback, and focusing to improve sport performance and experiences.
Note: Credit will be granted for only one of EPHE 575, PE 576.

EPHE 576  Units: 1.5
Teaching and Coaching Effectiveness in Physical Education and Sport
A review of current models of effective teaching and coaching; observation and coaching systems; analysis of teaching and coaching behaviours; a review of current research.
Note: Credit will be granted for only one of EPHE 576, PE 576.

EPHE 577  Units: 1.5
Research Methods and Techniques in Coaching Studies
The development of research skills required to interpret the literature related to coaching and sport performance and develop a project proposal as part of the requirements for the degree.
Notes:
• Credit will be granted for only one of EPHE 577, PE 577, PE 577A.
• Taught in summer only.
Prerequisite(s): Admission to MEd program in Coaching Studies.

EPHE 578  Units: 1.5
Biomechanics
Note: Not open to students with credit in PE 578.

EPHE 579  Units: 1.5
Current Issues in Coaching Studies
Identification and selection of issues in coaching and sport for presentation, discussion and resolution. As leaders in sport, students will consider issues from both a content perspective and in the context of beliefs and values.
Note: Credit will be granted for only one of EPHE 579, PE 577B, PE 579.

EPHE 580  Units: 1.5
Physiological Issues in Physical Activity and Health
Selected issues and research examining the physiological responses and adaptations to exercise, especially as they relate to performance and/or health.
Note: Credit will be granted for only one of EPHE 580, PE 580.

EPHE 581  Units: 1.5
Psychological Issues in Physical Activity and Health
Examines selected current psychological issues affecting individual and group involvement in the different forms of physical activity and how these interact with performance and health from childhood to the senior years. Research in the field will be examined to assist the understanding of current beliefs and practices.
Note: Credit will be granted for only one of EPHE 581, PE 581.

EPHE 582  Units: 1.5
Neuroscience in Physical Activity and Health
A seminar on issues and research in neuroscience related to motor control across the lifespan and in atypical populations.
Note: Credit will be granted for only one of EPHE 582, PE 582.

EPHE 583  Units: 1.5
Issues in Health Promotion and Wellness
Issues, research and values in health promotion and wellness related to physical activity. Topics may include community-based research in education, health, recreation and allied social service settings; social determinants of health and physical activity; and theory and practice of programs and policies affecting health, wellness and physical activity.
Note: Credit will be granted for only one of EPHE 583, PE 583.

EPHE 584  Units: 1.5
Pedagogical Issues in Physical Activity and Health
Current pedagogical research that influences national and provincial physical activity policies, school-based physical education programs and community-based physical activity programs.
Note: Credit will be granted for only one of EPHE 584, PE 584.

EPHE 585  Units: 1.5
Qualitative Research Genres Applied to Education, Health and Society
Examines issues surrounding the development of research representations that inform issues in education, health and society. A core component of the course will be to develop, gather data and report on a community based inquiry project. Qualitative genres based on different modes of inquiry will be explored and applied in a student developed inquiry project.
Note: Credit will be granted for only one of EPHE 585, PE 585.

EPHE 590  Units: 1.5 or 3.0
Directed Study
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.
Prerequisite(s): Permission of the school.

EPHE 591  Units: 1.5 or 3.0
Selected Topics in Exercise Science, Physical and Health Education
A variable content course.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

EPHE 597  Units: 1.5
Comprehensive Examination - Exercise Science, Physical and Health Education
Comprehensive examination which must be passed as required for individual Master of Education programs within the Faculty of Education.
Note: Credit will be granted for only one of EPHE 597, PE 597.
Grading: INP, COM, N, F.

EPHE 598  Units: 3.0-4.5
Project - Exercise Science, Physical and Health Education
Note: Not open to students with credit in PE 598.
Grading: INP, COM, N, F.

EPHE 599  Units: 3.0
Thesis - Exercise Science, Physical and Health Education
Note: Not open to students with credit in PE 599.
Grading: INP, COM, N, F.

EPHE 673  Units: 3.0
Doctoral Seminar
Doctoral students will become engaged in the research community, advance the development of their own capacity for research, and gain a deeper understanding and appreciation of multiple approaches to the study of physical activity. Topics include: current research in Exercise Science, Physical & Health Education, critical issues in research, the need for knowledge translation and dissemination, and the critical examination of students’ emerging research questions.

EPHE 690  Units: 1.5 or 3.0
Directed Studies
Research topics will be pursued at the doctoral level under the direction of one or more faculty members.
Notes:
• May be taken more than once for credit in different topics to a maximum of 6 units.
• Pro Forma required.

EPHE 693  Units: 3.0
Candidacy Exam - Kinesiology
Grading: INP, COM, N, F.

EPHE 699  Units: 18.0
PhD Dissertation - Kinesiology
Prerequisite(s): EPHE 693.
Grading: INP, COM, N, F.
**ES 500 - ES 699**

**Environmental Studies**

**School of Environmental Studies**

**Faculty of Social Sciences**

**ES 500**  
**Units:** 1.5  
**Perspectives on Environmental Theories, Methods and Skills I**

An examination of contemporary theories, methods and skills that support environmental studies research. Weekly seminars will be preceded by a 3-day field camp in late August/early September (additional cost for field camp).  
**Note:** Required core course.  
**Prerequisite(s):** Admission to a graduate program in Environmental Studies.

**ES 501**  
**Units:** 1.5  
**Perspectives on Environmental Theories, Methods and Skills II**

Builds on the foundation laid in ES 500, and continues to explore theories, methods and skills appropriate to each student's research program. A retreat is typically scheduled in mid-March (additional cost for field retreat).  
**Note:** Required core course.  
**Prerequisite(s):** Admission to a graduate program in Environmental Studies.

**ES 503**  
**Units:** 3.0  
**MA/MSc Research Colloquium**

The Graduate Colloquium meets weekly from September to April. Papers are presented by graduate students, faculty, and visiting scholars. The colloquium exposes students to a wide range of conceptual and substantive issues that reflect the breadth and depth of environmental research. Attendance and participation in the colloquium is strongly encouraged throughout the degree program. Students receive 3 units of pass/fail credit during their first year.  
**Note:** Required core course.  
**Grading:** INP, COM, N, F.

**ES 570**  
**Units:** 1.5  
**Field Study**

Supervised research or organized projects related to environmental problems, supplemented by directed individual study. A formal report is required.

**ES 580**  
**Units:** 1.5  
**Seminar in Political Ecology**

Flexible topics course offered in a seminar format.  
**Note:** May be taken more than once for credit in different topics to a maximum of 3 units.

**ES 581**  
**Units:** 1.5  
**Seminar in Ethnecology**

Flexible topics course offered in a seminar format.  
**Note:** May be taken more than once for credit in different topics to a maximum of 3 units.

**ES 582**  
**Units:** 1.5  
**Seminar in Ecological Restoration**

Flexible topics course offered in a seminar format.  
**Note:** May be taken more than once for credit in different topics to a maximum of 3 units.

**ES 590**  
**Units:** 1.5  
**Directed Studies**

Individual studies under the direct supervision of a faculty member. The content and evaluation must be approved by the School.

**ES 593**  
**Units:** 1.5  
**Thesis Proposal Preparation**

Students will work individually with their supervisor (or co-supervisors) and supervisory committee to develop a thesis proposal. An oral defense of the proposal shall take place no later than September 30th of the student's second year of full-time study or third year of part-time study. An annual research showcase will provide an opportunity for students to present their work in a formal setting. Credit shall be granted upon acceptance of the proposal with revisions (as necessary).  
**Note:** Required core course.  
**Grading:** INP, COM, N, F.

**ES 599**  
**Units:** 7.5  
**MA, MSc Thesis**

**Grading:** INP, COM, N, F.

**ES 600**  
**Units:** 1.5  
**Advanced Perspectives on Environmental Theories, Methods and Skills I**

An advanced examination of contemporary theory and research methods at the forefront of environmental studies research. Emphasis will be given to the intersection of scientific, humanitarian, and traditional knowledge. A 3-day field camp will precede weekly seminars in late August/early September (additional cost for field camp).

**Notes:**  
- Required core course.  
- Students with credit in ES 500 may be required to substitute ES 600 with another appropriate graduate course at the discretion of the student’s PhD committee and graduate advisor.

**ES 601**  
**Units:** 1.5  
**Advanced Perspectives on Environmental Theories, Methods and Skills II**

Takes a deep approach to different research methods, including qualitative and quantitative approaches, their strengths and weaknesses, rationales for their application, and how they can be combined in interdisciplinary research at the highest levels. PhD students will develop effective written, oral and graphical communication skills and an understanding of the range of ways for gaining reliable knowledge.

**Notes:**  
- Required core course.  
- Students with credit in ES 501 may be required to substitute ES 601 with another appropriate graduate course at the discretion of the student’s PhD committee and graduate advisor.

**ES 603**  
**Units:** 3.0  
**PhD Research Colloquium**

The Graduate Colloquium meets weekly from September to April. Papers are presented by graduate students, faculty, and visiting scholars. The colloquium exposes students to a wide range of conceptual and substantive issues that reflect the breadth and depth of environmental research. Attendance and participation in the colloquium is strongly encouraged throughout the degree program. Students receive 3 units of pass/fail credit during their first year. Students will be required to make presentations of their own research.  
**Note:** Required core course.  
**Grading:** INP, COM, N, F.

**ES 670**  
**Units:** 1.5  
**Field Study**

Supervised field research or organized projects related to environmental problems, supplemented by directed individual study. A formal report is required.

**ES 680**  
**Units:** 1.5  
**Seminar in Political Ecology**

**Note:** May be taken more than once for credit in different topics to a maximum of 3 units.

**ES 681**  
**Units:** 1.5  
**Seminar in Ethnecology**

**Note:** May be taken more than once for credit in different topics to a maximum of 3 units.

**ES 682**  
**Units:** 1.5  
**Seminar in Ecological Restoration**

**Note:** May be taken more than once for credit in different topics to a maximum of 3 units.

**ES 690**  
**Units:** 1.5  
**Directed Studies**

Individual studies under the direct supervision of a faculty member. The content and methods of assessment must be approved by the School.

**ES 693**  
**Units:** 3.0  
**PhD Candidacy Examination**

PhD students will prepare a comprehensive reading list, a dissertation proposal, and two major papers (on topics relevant to the PhD research field), and will sit for an oral examination related to the reading list.  
**Grading:** INP, COM, N, F.

**ES 699**  
**Units:** 21.0-30.0  
**PhD Dissertation**

**Grading:** INP, COM, N, F.
### FORB

**Forest Biology**  
**Department of Biology**  
**Faculty of Science**

**FORB 515**  
**Units:** 1.5  
**Mycology**  
**Notes:**  
- Credit will be granted for only one of FORB 515, BIOL 415C.  
- A combined undergraduate and graduate course.  
- Please contact instructor for more information.

**FORB 527**  
**Units:** 1.5  
**Advanced Plant Biochemistry and Biochemical Ecology**  
See BIOL 458. An additional research paper or presentation is required.

**FORB 538**  
**Units:** 1.5  
**Also: BIOL 538**  
**Nutrient Cycling and Prokaryotes**  
An introduction to prokaryotes (bacteria and archaea) and their role in nutrient cycling in forests, lakes and oceans. Diversity and evolution of populations and communities of prokaryotes and their role in the major biogeochemical cycles: carbon, nitrogen, sulfur. Genetic, biochemical, physiological and ecological aspects of processes such as nitrogen fixation and methanogenesis; design of experimental approaches to assess cycling of elements in forests, lakes and oceans by prokaryotes.  
**Notes:**  
- Credit will be granted for only one of FORB 538, BIOL 438, BIOL 538.  
- A combined undergraduate and graduate course.  
- Please contact instructor for more information.

**FORB 549**  
**Units:** 1.5  
**Individual Study in Forest Biology**  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Pro Forma required.

**FORB 560**  
**Units:** 1.5  
**Forest Biology Seminar**  
Student and guest seminars on selected topics in forest biology and forest biotechnology and regeneration. Required of all graduate students in forest biology every year of their degree program (except by departmental permission) but will not count as part of their minimum graduate course requirement.  
**Grading:** INP, COM, N, F.

**FORB 570**  
**Units:** 1.5  
**Advanced Topics in Forest Biology**  
A series of lectures and seminars examining subjects of current interest that focus on the adaptations of trees and their interaction with the forest environment.  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Pro Forma required.

### FRAN

**French**  
**Department of French**  
**Faculty of Humanities**

**FRAN 500A**  
**Units:** 1.5  
Formerly: FRAN 500, FREN 500  
**Introduction to Research Methods**  
A review of the use of bibliographical tools, forms of citation and documentation. Presentation on research methods and approaches. Training in advanced library research and structuring a research project.  
**Note:** Credit will be granted for only one of FRAN 500A, FRAN 500, FREN 500.

**FRAN 500B**  
**Units:** 1.5  
**Application of Research Methods**  
Development of professional skills, including academic writing, effective presentation, digital literacy, time management and organisation of scholarly events or workshops.  
**Grading:** INP, COM, N, F.

**FRAN 502**  
**Units:** 1.5  
Formerly: FREN 502  
**Applied Linguistics in French**  
**Notes:**  
- Credit will be granted for only one of FRAN 502, FREN 502 (if taken in the same topic).  
- May be taken more than once for credit in different topics.  
- Variable content course.

**FRAN 503**  
**Units:** 1.5  
Formerly: FREN 503  
**Studies in French Linguistics**  
**Notes:**  
- Credit will be granted for only one of FRAN 503, FREN 503 (if taken in the same topic).  
- May be taken more than once for credit in different topics.  
- Variable content course.

**FRAN 504**  
**Units:** 1.5  
Formerly: FREN 504  
**Studies in Culture and Society**  
**Notes:**  
- Credit will be granted for only one of FRAN 504, FREN 504 (if taken in the same topic).  
- May be taken more than once for credit in different topics.  
- Variable content course.

**FRAN 505**  
**Units:** 1.5  
Formerly: FREN 505  
**Studies in Literary Theory and Criticism**  
**Notes:**  
- Credit will be granted for only one of FRAN 505, FREN 505 (if taken in the same topic).  
- May be taken more than once for credit in different topics.  
- Variable content course.

**FRAN 506**  
**Units:** 1.5  
**Studies in French Literature and Culture**  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Variable content course.

**FRAN 515**  
**Units:** 1.5  
Formerly: FREN 515  
**Studies in Québec or French-Canadian Literatures**  
**Notes:**  
- Credit will be granted for only one of FRAN 515, FREN 515 (if taken in the same topic).  
- May be taken more than once for credit in different topics.  
- Variable content course.

**FRAN 517**  
**Units:** 1.5  
Formerly: FREN 517  
**Studies in Francophone African or Caribbean Literatures**  
**Notes:**  
- Credit will be granted for only one of FRAN 517, FREN 517, FREN 518 (if taken in the same topic).  
- May be taken more than once for credit in different topics.  
- Variable content course.

**FRAN 524**  
**Units:** 1.5  
Formerly: FREN 524  
**Studies in Transmediation**  
**Notes:**  
- Credit will be granted for only one of FRAN 524, FREN 524 (if taken in the same topic).  
- May be taken more than once for credit in different topics.  
- Variable content course.

**FRAN 525**  
**Units:** 1.5  
Formerly: FREN 525  
**Studies in Translation**  
**Notes:**  
- Credit will be granted for only one of FRAN 525, FREN 525 (if taken in the same topic).  
- May be taken more than once for credit in different topics.  
- Variable content course.

**FRAN 580**  
**Units:** 1.5  
Formerly: FREN 580  
**Special Topics**  
An examination of topics in an emerging field or one not covered in regular offerings.  
**Notes:**  
- Credit will be granted for only one of FRAN 580, FREN 580 (if taken in the same topic).  
- May be taken more than once for credit in different topics.
GEOG 500A Units: 1.5
Formerly: part of GEOG 500
Geographical Research Approaches
Examines the diverse approaches to geographical research. Students will participate in weekly seminar discussions and develop a context paper that reviews the geographical literature in their research area. Students are also expected to attend the departmental lecture series as part of their course participation.
Notes:
• Credit will be granted for only one of GEOG 500A, GEOG 500.
• Required core course for all students.

GEOG 500B Units: 1.5
Formerly: part of GEOG 500
Research Design in Geography
Examines key strategies of research design and professional development in Geography. Students will participate in weekly seminar discussions and develop a master’s research proposal or doctoral scoping document that advances their primary research concentration. Students are also expected to attend the departmental lecture series as part of their course participation.
Notes:
• Credit will be granted for only one of GEOG 500B, GEOG 500.
• Required core course for all students.

GEOG 518 Units: 1.5
Advanced Spatial Analysis and Spatial Statistics
An opportunity to gain theoretical and applied experience in spatial statistics and advanced geographical analysis. Topics include: point pattern analysis, areal data analysis and spatial autocorrelation, and geostatistics (i.e., variograms and kriging). Labs and a final project are designed to provide students with hands on experience applying theory to a range of data sets and to a data set selected by the student.
Notes:
• Students who have equivalent GIS experience may request permission to register in the course.
• Master's Program students are required to take one of GEOG 518, GEOG 523, GEOG 524.
Prerequisite(s):
• GEOG 328 and GEOG 329; or
• permission of the department.

GEOG 520 Units: 1.5
Introductory GIS for Graduate Research
Provides Geographic Information Systems (GIS) training for graduate students using GIS as a research tool. Topics include: GIS data types and representation, map projections, importing and exporting spatial data, data integration, attribute and spatial queries. Students completing this course will acquire the skills needed to conduct their own research using GIS.

GEOG 523 Units: 1.5
Qualitative Methods in Human Geography
This course will explore a range of theoretical and methodological approaches in qualitative analysis as it applies to human geography. Students expect to gain expertise in understanding epistemological orientations of objectivism, constructivism and interpretivism. Identification of a range of traditional and innovative methodologies that students may consider for research projects such as: ethnography, phenomenology, discourse analysis, etc. Common interview strategies and data collection and analysis methods and approaches will be explored.
Note: Masters students are required to take one of GEOG 518, GEOG 523, GEOG 524 or another 'methods' based course on recommendation of the supervisory committee as approved by the Graduate Adviser.

GEOG 524 Units: 1.5
Advanced Quantitative Methods
Examines the use and interpretation of selected multivariate statistics.
Note: Master's Program students are required to take one of GEOG 518, GEOG 523, GEOG 524.
Prerequisite(s): 1.5 units of 200-level STAT course.

GEOG 536 Units: 1.5
Advanced Seminar in Human Geography
An advanced overview of theoretical approaches and major research paradigms in contemporary human geography.

GEOG 537 Units: 1.5
Advanced Seminar in Physical Geography
Selected research topics in biogeography, climatology, hydrology, geomorphology and soil science. Course content will vary annually, depending on graduate and faculty research interests. Seminars, faculty and guest lecturers and individual research projects will be utilized.
Note: Credit will be granted for only one of GEOG 537, GEOG 525.
**GEOG 591**  
**Units:** 1.5  
**Advanced Topics in Geography**
Various advanced special topics courses spanning the discipline of Geography.
*Note:* Master’s and Doctoral students may take only one GEOG 591 toward their minimum course requirements but may take additional courses in different topics beyond their minimum load on the advice of their supervisory committee.

**GEOG 599**  
**Units:** to be determined  
**MA, MSc Thesis**
Grading: INP, COM, N, F.

**GEOG 693**  
**Units:** 3.0  
**Candidacy Examination**
By eighteen months of registration as a provisional doctoral student, a student must register for and eventually pass a candidacy examination. The candidacy exam format includes two take home essays (max. 30 pages each) and an oral exam (max. 2 hours). Essay 1 will focus on the development of thought in the candidate’s area of Geography (e.g., Physical, Human, Geomatics, or Resources) with an emphasis on linkages to the broader discipline. Essay 2 will focus on the candidate’s research area. An oral examination will follow within 2 to 3 weeks after the completion of Essay 2. Grading: INP, COM, N, F.

**GEOG 699**  
**Units:** to be determined  
**PhD Dissertation**
Prerequisite(s): GEOG 693.
Grading: INP, COM, N, F.

**GMST**
**Germanic Studies**
**Department of Germanic and Slavic Studies**
**Faculty of Humanities**

**GMST 501**  
**Units:** 1.5
Also: SLST 501  
Formerly: GER 501  
**Introduction to the Disciplines of Germanic and Slavic Studies**
An introduction to the research specialties that make up Germanic and Slavic Studies: literary and cultural studies, film studies, cultural history and second language acquisition. May include sessions on how to write a research grant proposal, do sophisticated library research, prepare a bibliography and write a thesis proposal.
*Note:* Credit will be granted for only one of GMST 501, GER 501, SLST 501.

**GMST 502**  
**Units:** 1.5  
**Hours:** 3-0-0
Also: SLST 502  
**Theory and Practice**
Introduces students to the theories and methodologies that animate the disciplines of Germanic and Slavic studies and may include topics such as professional skills, pedagogy and thesis writing.
*Note:* Credit will be granted for only one of GMST 502, SLST 502.

**GMST 503**  
**Units:** 1.5
Also: SLST 503  
**Teaching in the Disciplines of Germanic and Slavic Studies**
A practice-based introduction to course design, teaching strategies, methodologies and assessment tools in the teaching areas of Germanic and Slavic Studies.
*Note:* Credit will be granted for only one of GMST 503, SLST 503.

**GMST 505**  
**Units:** 1.5  
**Advanced German Language Study**
Research topics may include German morphology, phonetics, lexicology and language acquisition.
Also: SLST 509

**GMST 509**  
**Units:** 1.5  
**Special Topics Field School**
Exploration of cultural studies topics in European, German-speaking or Slavic countries. Promotes intercultural and experiential learning through joint workshops with European students and field research working at relevant cultural sites and with relevant artefacts. Topics vary.
*Note:* May be taken more than once for credit in different topics.

**GMST 511**  
**Units:** 1.5  
**Studies in Film**
A critical analysis and study of films of the 20th and 21st century by German-speaking filmmakers.

**GMST 520**  
**Units:** 1.5  
**Formerly: GER 520**
**17th-Century Cultural Studies**

**GMST 521**  
**Units:** 1.5  
**Studies in Germanic Literatures and Cultures**
Examination of literary works and cultural processes in Austria, Germany and/or Switzerland.

**GMST 530**  
**Units:** 1.5  
**Formerly: GER 530**
**18th-Century Cultural Studies**
*Note:* Credit will be granted for only one of GMST 530, GER 530.

**GMST 531**  
**Units:** 1.5  
**Studies in Germanic Cultural History**
A cultural studies approach to texts, films, performances, media and material objects and spaces in German-speaking societies.

**GMST 540**  
**Units:** 1.5  
**Formerly: GER 540**
**19th-Century Cultural Studies**
*Note:* Credit will be granted for only one of GMST 540, GER 540.

**GMST 550**  
**Units:** 1.5  
**Formerly: GER 550**
**20th-Century Cultural Studies I**
*Note:* Credit will be granted for only one of GMST 550, GER 550.

**GMST 551**  
**Units:** 1.5  
*Formerly: GER 551**
**20th-Century Cultural Studies II**
*Note:* Credit will be granted for only one of GMST 551, GER 551.

**GMST 561**  
**Units:** 1.5  
**Transnational Cultural Studies**
Examines contemporary texts and visual productions by migrant and immigrant authors, filmmakers and performance artists in Germany, Austria and Switzerland. Topics may include minority literature and film, hybridity, diasporic and borderland writing.
*Note:* Credit will be granted for only one of GMST 561, GMST 550 (if taken in Sep-Dec 2013), GMST 560, ENGL 503 (if taken as section A05 in Jan-Apr 2010 or Sep-Dec 2013), GER 550 (if taken in Jan-Apr 2010).

**GMST 565**  
**Units:** 1.5  
**Adorno, Benjamin and Frankfurt School Critical Theory**
Explores Frankfurt School Critical Theory through the cultural context of Weimar modernism through the fascist period to Germany in the 1960s. Juxtaposes the theory with relevant examples from media, film, literature, avant-garde and popular music.
*Note:* Credit will be granted for only one of GMST 565, GMST 465.

**GMST 570**  
**Units:** 1.5  
Also: SLST 570  
**Studies in New Media in Second Language Acquisition**
Critical examination of the current research on teaching a foreign language. Focus on learning and teaching outside of the language environment, foreign language learning theories, teaching methodologies and practices.
*Note:* Credit will be granted for only one of GMST 570, SLST 570.

**GMST 580**  
**Units:** 1.5  
Also: HSTR 450  
**The Holocaust**
Examines the origins, progress, central characters and legacies of the Nazi genocide. Focuses on Jewish experiences of Nazi terror and investigates how Nazi racial policy targeted other social and ethnic groups. Considers the post-1945 representation of the Holocaust in film, museum exhibits and memorials.
*Note:* Credit will be granted for only one of GMST 580, HSTR 450, HIST 387, HIST 389 (if taken in the same topic).

**GMST 583**  
**Units:** 1.5  
**Teaching About the Holocaust**
Introduces teaching approaches, methodologies and scholarly discourses in Holocaust Education. Analyzes a broad range of primary and secondary sources (oral testimonies, literature, film, mixed media art, photography and graphic novels), and discusses how they can be used in various educational settings both in Europe and North America.

---

**SLST 501**  
**Units:** 1.5  
**20th-Century Cultural Studies I**
Formerly: GER 550

**SLST 502**  
**Units:** 1.5  
**Theory and Practice**
Introduces students to the theories and methodologies that animate the disciplines of Germanic and Slavic studies and may include topics such as professional skills, pedagogy and thesis writing.
*Note:* Credit will be granted for only one of GMST 502, SLST 502.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Units</th>
<th>Hours</th>
<th>Description</th>
</tr>
</thead>
</table>
| GMST 584    | 1.5   | 3-0-0  | Holocaust Testimony and Archival Practice  
Working with actual testimony from the USC Shoah Foundation, explores theoretical and practical aspects of indexing and conceptualizing Holocaust narratives and testimony.  
**Note:** Credit will be granted for only one of GMST 584, GMST 484. |
| GMST 585    | 1.5   |        | Holocaust and Memory Studies  
Explores issues of memory from the perspective of both gender and genre. Examination of issues of memory and post-memory, aspects of "truth" and positonality in memoirs, letters, diaries and documentaries, as well as the fascination with the Holocaust and WWII as a site of cultural memory.  
**Note:** Credit will be granted for only one of GMST 585, ENGL 503 (if taken as section A04 in Sep-Dec 2010), GER 550 (if taken as section A01 in Sep-Dec 2010 or Sep-Dec 2012). |
| GMST 587    | 1.5   |        | Practicum in Holocaust Studies  
An individually designed creative project, internship, or archival research paper based on a hands-on approach to Holocaust Studies.  
**Grading:** INP, COM, N, F. |
| GMST 589    | 1.5   |        | I-witness Field School  
Analysis of the ways in which the Holocaust is memorialized in Central Europe. One week of coursework at Uvic, followed by three weeks in Central Europe. Promotes intercultural learning through a variety of activities including joint workshops with European students and visits to memorial sites, museums and monuments of the Holocaust. |
| GRS 500     | 1.5   |        | Pro-seminar in Research Methods and Practices  
Advanced research methods and issues including on-line research and other resources. Dissemination of research and preparation for publication, including communication skills, presentation of research results either orally or in print, critical analysis, and response to scholarly questions. Best procedures for writing and preparing applications for grants, fellowships and employment. Approaches to professional academic life including practices of the discipline.  
**Grading:** INP, COM, N, F. |
| GRS 501     | 3.0   |        | Greek Literature  
\**Notes:** May be taken more than once for credit in different topics to a maximum of 4.5 units.  
**Pro Forma required.** |
| GRS 502     | 3.0   |        | Greek History |
| GRS 503     | 3.0   |        | Latin Literature  
\**Notes:** May be taken more than once for credit in different topics to a maximum of 4.5 units.  
**Pro Forma required.** |
| GRS 504     | 3.0   |        | Roman History  
\**Notes:** May be taken more than once for credit in different topics to a maximum of 4.5 units.  
**Pro Forma required.** |
| GRS 505     | 3.0   |        | Ancient Art and Archaeology  
\**Notes:** May be taken more than once for credit in different topics to a maximum of 4.5 units.  
**Pro Forma required.** |
| GRS 506     | 3.0   |        | Ancient Philosophy  
\**Notes:** May be taken more than once for credit in different topics to a maximum of 4.5 units.  
**Pro Forma required.** |
| GRS 507     | 1.5-3.0 | 3-0-0  | Directed Individual Study  
**Notes:**  
- May be taken more than once for credit in different topics to a maximum of 4.5 units.  
- **Pro Forma required.** |
| GRS 509     | 6.0-9.0 |        | MA Thesis  
**Note:** Before beginning the thesis the candidate must arrange with the supervisory committee and the Graduate Adviser the number of units to be assigned.  
**Grading:** INP, COM, N, F. |
| GRS 601A    | 1.5   |        | Readings in Classical Literature (Greek)  
**Grading:** INP, COM, N, F. |
| GRS 601B    | 1.5   |        | Readings in Classical Literature (Latin)  
**Grading:** INP, COM, N, F. |
| GRS 602A    | 1.5   |        | Readings in Ancient History (Greek)  
**Grading:** INP, COM, N, F. |
| GRS 602B    | 1.5   |        | Readings in Ancient History (Latin)  
**Grading:** INP, COM, N, F. |
| GRS 603     | 1.5   |        | Reading in Classical Archaeology  
**Grading:** INP, COM, N, F. |
| GRS 605     | 1.5   |        | Archaeological Methods & Theory  
**Grading:** INP, COM, N, F. |
| GRS 611     | 3.0   |        | Seminar in Classical Literature  
**Grading:** INP, COM, N, F. |
| GRS 612     | 3.0   |        | Seminar in Ancient History  
**Grading:** INP, COM, N, F. |
| GRS 613     | 3.0   |        | Seminar in Classical Archaeology  
**Grading:** INP, COM, N, F. |
| GRS 621     | 3.0   |        | Topical Field in Classical Literature  
An intensive study of a particular field (author, genre, time period) in Greek or Roman literature.  
**Grading:** INP, COM, N, F. |
| GRS 622     | 3.0   |        | Topical Field in Ancient History  
An intensive study of a particular field (time period, historical event, historical figure, historical topic) in Greek or Roman history.  
**Grading:** INP, COM, N, F. |
| GRS 623     | 3.0   |        | Topical Field in Classical Archaeology  
An intensive study of a particular field (time period, archaeological event, archaeological topic) in Greek or Roman archaeology.  
**Grading:** INP, COM, N, F. |
| GRS 699     | 18.0  |        | PhD Dissertation  
**Grading:** INP, COM, N, F. |
| GS 500      | 1.5 or 3.0 | 4.5    | Graduate Studies by Special Arrangement  
Faculty of Graduate Studies  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Students must seek prior approval from their supervisory committee and graduate adviser for inclusion of this course in their graduate program, although they will be permitted to register in it as “extra” to their program.  
- Proposals for these courses must include approval by the funding academic unit(s) before being submitted to the Dean of Graduate Studies for final approval. Proposal forms and detailed instructions are available through the Faculty of Graduate Studies. |

**Faculty of Humanities**

GMST 584 - GS 500

**Readings in Ancient History (Latin)**

**Readings in Ancient History (Greek)**

**Readings in Classical Literature (Latin)**

**Readings in Classical Literature (Greek)**

**Pro-seminar in Research Methods and Practices**

**Directed Individual Study**

**MA Thesis**

**Graduate Studies by Special Arrangement**

**PhD Dissertation**

**Special Topics**

**Notes:**  
- May be taken more than once for credit in different topics.  
- Students must seek prior approval from their supervisory committee and graduate adviser for inclusion of this course in their graduate program, although they will be permitted to register in it as “extra” to their program.  
- Proposals for these courses must include approval by the funding academic unit(s) before being submitted to the Dean of Graduate Studies for final approval. Proposal forms and detailed instructions are available through the Faculty of Graduate Studies.
GS 501 - HINF 531

GS 501  Interdisciplinary Topics
Units: 1.5 or 3.0
Courses may be offered between academic departments through the Faculty of Graduate Studies.

Notes:
• May be taken more than once for credit in different topics.
• At least one of the offering departments must have a regular graduate program.
• Students must seek prior approval from their supervisory committee and graduate adviser for inclusion of this course in their graduate program, although they will be permitted to register in it as "extra" to their program.

Proposals for these courses must include approval by the funding academic unit(s) before being submitted to the Dean of Graduate Studies for final approval. Proposal forms and detailed instructions are available through the Faculty of Graduate Studies.

GS 502  Approved Exchange
Units: 1.5-3.0
University of Victoria students attending courses under approved exchange agreements are required to register in this course to maintain their UVic registration status.

Prerequisite(s): Permission of the faculty.
Grading: INP, COM, N, F.

GS 503  Canadian Visiting Research
Units: 3.0
For students in research activities under the supervision of University of Victoria faculty as part of a regular graduate degree program at their home university.

Prerequisite(s): Permission of the faculty.
Grading: INP, COM, N, F.

GS 504  International Visiting Research
Units: 3.0
For students in research activities under the supervision of University of Victoria faculty as part of a regular graduate degree program at their home university.

Prerequisite(s): Permission of the faculty.
Grading: INP, COM, N, F.

HINF 501 - HINF 531

HINF
Health Information Science
School of Health Information Science
Faculty of Human and Social Development

HINF 501  Database Design
Units: 1.5
Addresses the issues facing a database designer in the development of database applications appropriate for health data of various kinds. The content includes the elements of conceptual, implementation and physical database design to support health information systems.

Note: Credit will be granted for only one of HINF 501, HINF 591 (if taken in the same topic).

HINF 503  Research Methods in Health Informatics
Units: 1.5
Examines a variety of study designs used in health informatics and outcomes research. These include experimental designs, observational and predictive studies, and qualitative inquiries. For each study design, appropriate analytical approaches and reporting guidelines will be covered.

HINF 511  Clinical Decision Support and Information Systems
Units: 1.5
Examines clinical information systems (CIS), and clinical decision support (CDS) tools that will help them make informed decisions within their organization and participate in strategic planning activities. Includes: description and evaluation of CIS and CDS, effectiveness of CIS and CDS interventions, policies affecting CIS and CDS deployments, and health information standards pertinent to CDS initiatives.

HINF 516  Telehealth, m-Health and Pervasive Health Technology
Units: 1.5
Reviews historical context of telehealth, m-health and pervasive health technologies and current use. Explores current applications and innovations in telehealth, m-health and pervasive health technologies with an emphasis on program evaluation.

HINF 520  Public Health Informatics
Units: 1.5
Provides a discussion of new trends and applications in public health informatics. Topics include: data requirements, public health surveillance systems and regional and national health information reporting systems. Linking public health information through electronic health records will be considered. Design of information systems used by consumers and Internet-based public health information systems will be discussed. Future directions and the roles of health professionals and health informaticians in public health informatics will be presented.

HINF 530  Evidence-Based Health Informatics
Units: 1.5
Understanding evidence in health informatics is critical to advancing the field. Students will be introduced to varying methods of examining research evidence in health informatics. More specifically, students will learn about differing methods for analyzing, understanding and summarizing evidence such as systematic reviews, meta analyses, meta-narrative reviews, ethnographic reviews, scoping reviews and other methods. Students may wish to explore differing topics within the context of their research interests.

Note: Credit will be granted for only one of HINF 530, HINF 591 (if taken in the same topic).

HINF 531  Healthcare Information Security and Privacy
Units: 1.5
An advanced review of security, privacy and confidentiality of healthcare information systems. Students will learn about healthcare information regulation, information risk decision making, cybersecurity and privacy management and methods for protecting digital health information. The course will include policy related, technical and legal aspects of healthcare information security and privacy.
HINF 535 Units: 1.5
Health Information Standards
The study of health information standards deployed and used in Canada and elsewhere. The standards to be examined are controlled terminology and data exchange standards that include SNOMED CT, ICD-10-CA/CCI, LOINC, nursing terminologies, HL7V2.x, HL7V3/CDA, FHIR and IHE. The topics to be addressed include the nature of standards, their historical evolution and lifecycles for standards from initial development, distribution to maintenance.
Note: Credit will be granted for only one of HINF 535, HINF 591 (if taken in the same topic).

HINF 536 Units: 1.5
Controlled Terminology Standards
Examines the adoption and management of controlled terminology in health care organizations. In terminology adoption it covers the planning, design, implementation, use, support and evaluation of terminologies in health IT applications. Terminology management covers the development, publishing, distribution and maintenance of terminology content, services and tools as organizational assets. Examples of terminologies to be covered include SNOMED CT, ICD-10-CA/CCI, LOINC, NDC/PDP/ATCC/RxNorm and nursing terminologies.
Prerequisite(s): HINF 535.

HINF 537 Units: 1.5
Health Information Exchange Standards
Explores the appropriate use of controlled terminologies in the adoption of health information exchange (HIE) standards in health care organizations. Covers the entire standards lifecycles in planning, development, implementation, use, maintenance and evaluation of HIE standards, resources and tools. Examples of HIE standards to be covered include HL7, CDA, FHIR, DICOM, templates, IHE integration profiles, clinical information models and openEHR.
Prerequisite(s): HINF 535.

HINF 552 Units: 1.5
Evaluation of e-Health
Practical insights and understanding of an evaluation process for e-health initiatives. Includes assessing the effectiveness of e-health programs, evaluation design, data collection and analysis, as well as recommendations to assist decision-makers.

HINF 550 Units: 1.5
Health Information Systems Design

HINF 551 Units: 1.5
Electronic Health Record
Describes the EHR initiatives underway in Canada and around the world. Assesses the compatibility of selected provincial initiatives with the federal level EHR intentions. Contrasts Canadian EHR experiences with those in the United States and other parts of the world. Identifies the issues and challenges to the wide spread introduction of EHRs across the Canadian health care system.

HINF 560 Units: 1.5
Patient Safety and Quality in Health Informatics
Presents how health information technologies, methods, approaches and techniques can improve the quality and safety of citizen care from hospital through to the home and community. Covers how health technologies and the processes used to design, develop, implement and maintain them ensure ongoing systems safety. Challenges and issues in developing healthcare information systems that reduce errors and do not inadvertently introduce new errors will be discussed.
Note: Credit will be granted for only one of HINF 560, HINF 591 (if taken in the same topic).

HINF 561 Units: 1.5
Project Management in Health Informatics
An introduction to the essentials of project management and the project life cycle. Students will also cover information technology management and change management knowledge areas as related to healthcare information technology project management. Course topics include project lifecycle management, and all project processes including: project charter, network diagramming, scope management, cost management, risk management, issue management, change management, scheduling and schedule management.

HINF 562 Units: 1.5
Procurement in Health Informatics
An introduction to the procurement process in health informatics. Covers key decision making aspects in the analysis and selection of health information systems. An important goal is to have students appreciate the dynamics and compromises which take place when a health care authority/facility selects information technology to primarily support its work practices.

HINF 565 Units: 1.5
Modelling and Simulation in Healthcare
Examines a range of systems modeling and simulation tools and methodologies for dealing with complex health care systems. Uses systems thinking as a means of tackling health care domain problems where it involves interaction of many professionals across large complex organization structure. Includes qualitative and quantitative model building.
Note: Credit will be granted for only one of HINF 565, HINF 591 (if taken in the same topic).

HINF 564 Units: 1.5
Human Factors in Healthcare
Introduces a framework for considering human factors in health informatics. Includes study of human-computer interaction in the design of a range of health informatics applications, user analysis, workflow modelling, consideration of methods of evaluating system usability and socio-technical aspects of successful healthcare system design. In addition, approaches to the design of systems that are safe and that reduce human error in healthcare will be emphasized.

HINF 570 Units: 1.5
Epidemiology and Public Health Informatics
Examines the principles and methods of epidemiology. Focuses on the design, implementation and execution of epidemiological analyses using health information applications applied to health services planning, policy formulation, disease outbreak management and population health assessment. Covers integration of multiple data sources for aggregate analysis. Includes an introduction to public health informatics.

HINF 571 Units: 1.5
Health Systems Data Analytics
Examines the major health system databases and how they can be analyzed to create an understanding of health issues and problems that can be used for strategic planning, ongoing program management, evaluation and visualization. By working with real data and real problems, students will learn basic tools and methods of health system data science and analytics.

HINF 572 Units: 1.5
Health Informatics: An Overview
An overview of current developments, issues and challenges in the emerging field of health informatics. Historical development of the field will be covered. Addresses basic foundations of health informatics, including the field’s theoretical and methodological underpinnings. Considers a range of emerging applications in health informatics as well as approaches to understanding and evaluating these innovations.

HINF 573 Units: 1.5
Applied Biostatistics
A computer laboratory course primarily designed to provide practical experience in running SPSS software, interpreting output and presenting findings in Figures and Tables, suitable for publications or dissertations. Topics include: understanding statistics, data management and cleaning, recode and compute statements, scale development (Cronbach's alpha), t-tests, chi-square analyses, correlation and logistic regression. The skills learned are those commonly used in quantitative research for health and social sciences.

HINF 574 Units: 1.5
Health Informatics Graduate Seminar
Key themes, issues and trends in Health Informatics. Consists of presentations by faculty and students on different Health Informatics subject areas.

HINF 590 Units: 1.5
Directed Studies in Health Informatics
An opportunity to pursue directed readings or a project under the supervision of a faculty member. Students may take this course up to a maximum of two times throughout the program.
Note: A student's supervisor can instruct only one directed studies course.

HINF 591 Units: 1.5
Topics in Health Informatics
Advanced topics in various areas of health informatics. Topics vary depending on faculty interests and availability. Students may take this course more than once.
HINF 595 - HSTR 503B

HINF 595  Units: 1.5 or 3.0
Informatics Research Practicum
Provides hands-on, mentored experiences with several aspects of faculty-based research, for example, the conceptualization of a study, study design, applying for funding, obtaining ethical approval, accessing the study sites, collecting and analyzing data, writing and knowledge translation.
Notes:
• Arranged with a specific faculty member.
• May be taken as a one- or two-term course for a maximum of 3.0 units.
Grading: INP, COM, N, F.

HINF 597  Units: 1.5
Field Project in Health Informatics
The student is required to carry out an independent field project within his/her field of specialization under the supervision of a faculty member.
Prerequisite(s): Admission to the Graduate Certificate in Health Terminology Standards.

HINF 598  Units: 3.0
Research Project
The student is required to conduct a major research project in health informatics under the supervision of a faculty member.
Grading: INP, COM, N, F.

HINF 599  Units: 6.0
Health Informatics Thesis
The thesis provides the student with the opportunity of conducting original research and interpretation of those results in Health Informatics.
Grading: INP, COM, N, F.

HINF 602  Units: 1.5
Theories in Health Informatics
Advanced course on scientific theories relevant to health informatics. Faculty will assign key readings from health informatics, information systems, computer science and related disciplines. Students will demonstrate the principles of theory and conceptual framework development for use in research; present critical appraisals of conceptual models and theoretical frameworks used in existing research and apply them to health informatics; and may identify an appropriate theory or conceptual model to incorporate into their subsequent dissertation research.

HINF 603  Units: 1.5
Methods in Health Informatics
Advanced course on methods that are relevant to health informatics. Faculty will assign key readings drawn from health informatics, information systems, computer science and related disciplines. Students are expected to present and critique the papers and to discuss their relevance to the health informatics discipline. Through this course students may select a method for incorporation in their dissertation research.

HINF 680  Units: 1.5
Health Informatics PhD Seminar
Key themes, issues, and trends in Health Informatics. Consists of presentations by faculty and students on different Health Informatics subject areas.

HINF 693  Units: 3.0
Candidacy Exam
Students enroll in 693 for the duration of their preparations for their candidacy examinations. This begins at the time a student first enrolls in the PhD program and continues until candidacy requirements have been completed, normally at the end of first year of program.
Grading: INP, COM, N, F.

HINF 699  Units: 30.0
Dissertation
Prerequisite(s): HINF 693.
Grading: INP, COM, N, F.

HSTR 501  Units: 1.5
American History
New and classic readings in the history of Colonial America and the United States. Themes include indigenous societies, conquest, gender, religion, race, slavery, sexuality, politics and economy.
Note: Credit will be granted for only one of HSTR 501, HSTR 501A, HSTR 501B, HIST 501A, HIST 501B.

HSTR 502A  Units: 1.5
Formerly: HIST 502A
Early Modern British History
Social, cultural and political history of early modern England, with an emphasis on the 17th century. Topics include crime and print culture, the British Civil Wars, the execution of Charles I, radical religion and the Interregnum, patriarchy and authority, class conflict and social hierarchy, parents and children, marriage and gender. Provides advanced students a survey of some of the main primary sources, important secondary works and historiographical issues.
Note: Credit will be granted for only one of HSTR 502A, HIST 502A.

HSTR 502B  Units: 1.5
Formerly: HIST 502B
Modern British History
Social, cultural and political history of modern England. Topics may include government and the state, war and society, crime and punishment, monarchy, and elite and popular cultures. Provides advanced students a survey of some of the main primary sources, important secondary works and historiographical issues.
Note: Credit will be granted for only one of HSTR 502B, HIST 502B.

HSTR 503A  Units: 1.5
Formerly: HIST 503A
Pre-1900 Canadian History
Provides an in-depth look at historical writing about pre-1900 Canada. Explores a variety of historical approaches and covers a number of major topics in the field. Topics may include indigenous histories, First Nations-settler encounters, politics and war, rural and urban experiences, liberalism and the state, and issues of race, religion, gender and class. Focus on historiographical and analytical skills.
Note: Credit will be granted for only one of HSTR 503A, HIST 503A.

HSTR 503B  Units: 1.5
Formerly: HIST 503B
Post-1900 Canadian History
Examines historical writing about 20th century Canada, taking a chronological and thematic approach to recent literature. Topics may include: gender and the family, law and moral regulation, work, the environment, First Nations, politics and the state, nationalism and regionalism, and the experience and commemoration of war. Focus on historiographical and analytical skills.
Note: Credit will be granted for only one of HSTR 5503B, HIST 503B.
HSTR 504A  Units: 1.5  
Formerly: HIST 504A  
Europe, 1500-1800  
Advanced study of the transformation of European society and culture during the early modern period. May take a topical or temporal focus.  
Note: Credit will be granted for only one of HSTR 504A, HIST 504A.  

HSTR 504B  Units: 1.5  
Formerly: HIST 504B  
Europe since 1800  
Advanced study of the transformation of European politics, society and culture in the modern era. May take a topical or temporal focus.  
Note: Credit will be granted for only one of HSTR 504B, HIST 504B.  

HSTR 505  Units: 1.5  
Formerly: HSTR 514, HIST 514  
World History  
Examines recent contributions to the field of world history that allow both for focussed study of particular themes as well as the exploration of broader historiographical and theoretical debates. Students are encouraged to pursue their own particular interests in the subject.  
Note: Credit will be granted for only one of HSTR 505, HSTR 514, HIST 514.  

HSTR 506  Units: 1.5  
Formerly: HSTR 506A, HSTR 506B, HIST 506A, HIST 506B  
Medieval Europe  
The major fields, sources and approaches in medieval history and medievalism.  
Note: Credit will be granted for only one of HSTR 506, HSTR 506A, HSTR 506B, HIST 506A, HIST 506B.  

HSTR 507  Units: 1.5  
Latin America 1492-1900  
Studies the historiographical debates concerning possession and representation in Latin America from contact to the early national period. Topics include resistance and accommodation to colonialism, Creole patriotism, and the creation of rhetorics of pluri-ethnic nationalism.  

HSTR 508A  Units: 1.5  
Also: HSTR 465A  
Formerly: HIST 508A  
China in Local and Global History  
Examines the local history and global networks of Tibet, Taiwan, and Hong Kong as well as the North China Plain (around Beijing), the Yangzi River Delta (around Shanghai), and the Pearl River Delta (around Canton) in China up to the mid-20th century. Emphasis on both local and global approaches to the six regions and to modern China beyond the limits of its nation-state history.  
Note: Credit will be granted for only one of HSTR 508A, HSTR 465 (if taken as A01 in Jan-Apr 2015), HSTR 465A, HIST 439 (if taken as A01 in Sept-Dec 2011), HIST 508A.  

HSTR 508B  Units: 1.5  
Also: HSTR 481  
Formerly: HIST 508B  
A Global History of the Chinese Overseas  
Examination of the Chinese diaspora in Southeast Asia, North America and other regions. Emphasis on the emigration from China, transformation of Chinatowns and development of global networks and transnational identities of the Chinese overseas. May include exploration of the diasporic experiences of Japanese, Korean, Indian and other Asian migrants in the global arena.  
Note: Credit will be granted for only one of HSTR 508B, HIST 508B, HIST 481, HIST 451.  

HSTR 509A  Units: 1.5  
Formerly: HIST 509A  
Modern Japanese History  
A survey of historiographical issues in Japan’s history from the end of Tokugawa to the present day. Analyzes the debates regarding peasant struggles in late Tokugawa, the impact of imperial arrivals in the 1850s, the nature of the Meiji restoration, migration and the rise of Japanese imperialism, and the national polity in the interwar years. Concludes with World War II and Japan’s occupation and subsequent economic transformations.  
Note: Credit will be granted for only one of HSTR 509A, HIST 509A.  

HSTR 509B  Units: 1.5  
Formerly: HIST 509B  
Migration, Race and Empire: Canada and the Transpacific  
Brings together the histories of the Pacific and British Columbia using a translocal lens to analyze critically the intersections between race, colonialism and indigenerity from 1840 to the 1950s. Specific attention to Asian Canadian experiences on Vancouver Island and the impact of conflicting empires (British, American and Japanese). Utilizes critical anti-racist and feminist theory, and offers possibilities for innovative public history projects and community-based, action research.  
Note: Credit will be granted for only one of HSTR 509B, HIST 509B.  

HSTR 511  Units: 1.5  
Formerly: HIST 511  
Military History  
Explores historiographical issues in military history. Themes include: technology and science and war; social and cultural history of war and society; the evolution of military organization and military techniques; intellectual and philosophical writing on war and armed forces; military intelligence; history of air power; and naval and maritime affairs.  
Note: Credit will be granted for only one of HSTR 511, HIST 511.  

HSTR 512  Units: 1.5  
Formerly: HIST 512  
Intellectual History  
Advanced study of intellectual history. Topics to be explored may include the history of intellectual history, the similarities and differences between intellectual history and other genres of historical analysis, the rise of atheism and unbelief in early modern Europe and Enlightenment in Europe.  
Note: Credit will be granted for only one of HSTR 512, HIST 512.  

HSTR 513  Units: 1.5  
Formerly: HIST 513  
History of Gender, Sexuality and the Body  
Explores selected topics in gender history, the history of sexuality and the history of the body and addresses current theoretical and methodological debates within these fields. Focus is primarily on American history, although Canadian and British readings may be included. Explores shifting understandings of femininity, masculinity and sexualities, as well as relationships between gender and class, race, ethnicity, religion, sexualities and the body.  
Note: Credit will be granted for only one of HSTR 513, HIST 513.  

HSTR 515A  Units: 1.5  
Formerly: HIST 515A  
Public History  
Provides an overview of the branch of the discipline that involves communicating the past to non-academic audiences and analyzing applications of history outside of the university. Students meet practitioners of public history, making professional contacts and exploring non-academic applications of their training. Connected with these practical activities are analytical questions: as they contemplate how history can be carried outside of the academy, students also discuss its purpose, importance and meaning.  
Note: Credit will be granted for only one of HSTR 515A, HIST 515A, HIST 519 (if taken in the same topic).  

HSTR 516  Units: 1.5  
Formerly: HIST 516  
Digital History  
Explores specific computing applications used in the field known as “digital history,” and how digital history is changing the way we think about History and the past. Emphasis on student projects, student presentations and discussions of selected readings on the big questions facing the discipline, including “Is this really a revolution?”  
Note: Credit will be granted for only one of HSTR 516, HIST 516.  

HSTR 517  Units: 1.5  
Formerly: HIST 517  
Cultural History and Theory  
Explores the theory and practice of cultural history, focusing on culture as topic and as methodology. Students examine the approaches of cultural historians who either seek out new sources, or read traditional sources against the grain to provide answers to new questions. Themes may include: ritual, symbolism and meaning; objects and representation; colonialism and difference; popular culture, storytelling and language. Time period and geographical focus vary with the research area of the instructor.  
Note: Credit will be granted for only one of HSTR 517, HIST 517.  

HSTR 518  Units: 1.5  
Formerly: HIST 518  
Political History  
Explores the evolution of the state and the negotiation of power in North America. Topics may include federalism, party and bureaucratic developments, mass media and politics, and political leadership.  
Note: Credit will be granted for only one of HSTR 518, HIST 518.

### Huma - Humanities

#### Faculty of Humanities

- **HUMA**
- **Indigenous Education**

#### Community Approaches

- Leading practices in program design and curriculum development for Indigenous language revitalization will be examined. Processes through which competence in listening, speaking, reading and writing is developed will be explored. Analysis of program design, curriculum development and their implementation to promote language and culture revitalization will be addressed.

#### Indigenous Research Methods

Indigenous methodologies, research practices and protocols are examined including specific topics such as research ownership, research process and outcomes. Approaches to research that are culturally respectful, ethical, and reciprocal will be explored.

---

### Notes

- May be taken more than once for credit in different topics with permission of the department.
- Credit will be granted for only one of IED 693, HIST 693.
- Credit will be granted for only one of IED 693, HIST 694.

Indigenous Governance
Faculty of Human and Social Development

IGOV 520 Units: 1.5
Indigenous Governance
A critical reading of important works in the field, an intellectual framework for understanding key questions and contemporary conflicts within Indigenous societies, and a critical perspective of the relationship between Indigenous peoples and the state.
Prerequisite(s): Admission to MA program in Indigenous Governance.

IGOV 530 Units: 1.5
Indigenous Research Methods
A perspective on the methods and approaches used in the study of Indigenous issues, providing the basic tools and methods used for conducting applied research, as well as an exploration of the practical, ethical, and political issues involved in conducting research in Indigenous communities.
Prerequisite(s): Admission to MA program in Indigenous Governance.

IGOV 540 Units: 1.5
Indigenous Resurgence
An introduction to the spiritual and cultural foundations of Indigenous governance systems, and an examination of how traditional values, principles and worldviews shape Indigenous thought and action in resistance to colonialism.
Prerequisite(s): Admission to MA program in Indigenous Governance.

IGOV 550 Units: 1.5
Indigenous Peoples and Self Determination
A focused analysis of current processes to decolonize the relationships between Indigenous peoples and states (as well as other colonial entities), with particular emphasis on questions of land tenure, sovereignty, nationhood, self-determination, and treaty-making in a comparative context.
Prerequisite(s): Admission to MA program in Indigenous Governance.

IGOV 560 Units: 1.5
Indigenous Peoples and Globalization
An examination of how processes of globalization and neo-colonialism impact Indigenous peoples worldwide and strategies Indigenous peoples around the world are using to confront these economic, social, political and cultural pressures in order to regenerate their communities.
Prerequisite(s):
• Admission to MA program in Indigenous Governance; or
• permission of the faculty.

IGOV 570 Units: 1.5
Indigenous Women and Resistance
An exploration of the strategies Indigenous women engage in resistance to colonialism with particular attention paid to women who root their resistance in traditional Indigenous philosophies, governance practices and ways of being.
Prerequisite(s):
• Admission to MA program in Indigenous Governance; or
• permission of the faculty.

IGOV 575 Units: 3.0
Formerly IGOV 580
Mentorship
Mentorships provide students with counselling and advice to support personal well-being, professional development and academic performance, and consists of regular writing assignments and small group meetings with their faculty supervisor throughout the academic year.
Note: Credit will be granted for only one of IGOV 575, IGOV 580.
Prerequisite(s): Admission to MA program in Indigenous Governance.
Pre- or Corequisite(s): All of IGOV 520, IGOV 530, IGOV 540, IGOV 550

IGOV 590 Units: 1.5
Directed Readings
Individually structured reading or research seminars under the direction of a participating faculty member, allowing students to pursue their interests in topics related to Indigenous governance but not specifically covered in the seminars.
Note: May not be taken more than once for credit.

IGOV 595 Units: 1.5
Special Topics in Indigenous Governance
Seminars focusing on issues of particular interest and relevance.
Note: May be taken more than once for credit in different topics.
Prerequisite(s):
• Admission to MA program in Indigenous Governance; or
• permission of the faculty.

IGOV 599 Units: 4.5 or 6.0
Thesis
Research on a topic chosen in consultation with the student’s supervisory committee.
Grading: INP, COM, N, F.

Community Governance Project
Graduate course in the Indigenous Governance program administered by the Faculty of Graduate Studies. Projects are geared toward providing a practical learning experience and opportunity for students to face the real world challenges of governance in an Indigenous context. They also serve as a crucial function for affiliated communities in providing access to the University’s resources and expertise through the students’ participation in projects to enhance the community’s governance capacity.
Community governance project interns will work on a designated research or policy development project in an Indigenous organization, under the direction of a project management team that includes community leaders and IGOV faculty. Internship placements must be approved by the Director, and will typically involve 100 hours of work in the community and the completion of a comprehensive report based on the internship experience.
Note: Only students who entered the MA program prior to September 2009 need to register in the 6.0 unit section of IGOV 598 (requires permission of the department). Students who start their MA program on or after September 2009 need to register in the 4.5 unit section of IGOV 598.
Prerequisite(s): All of IGOV 520, IGOV 530, IGOV 540, IGOV 550, IGOV 575.
Grading: INP, COM, N, F.

INP, COM, N, F.
INGH

Indigenous Health Studies
School of Public Health and Social Policy
Faculty of Human and Social Development

INGH 520  Units: 1.5
Community Engagement and Leadership
The concepts of respect, trust and cultural safety and their historical significance in engaging with Indigenous communities are explored. De-colonizing practices are emphasized through the exploration of relational practice and community capacity building as methods for effective engagement of community. Topics include the implications of recognizing the communal ownership of knowledge within Indigenous culture; the value of Indigenous knowledge and mentorship in the emergence of Indigenous health leaders are explored.
Note: A requirement of this course is a condensed five-day on-campus seminar.

INGH 521  Units: 1.5
Indigenous Public Health and Social Policy
Issues and practices associated with the governance of Indigenous Peoples’ health through consideration of past, present and future experiences are explored. Students critically analyze health and social policy and the impact of colonization on the health of Indigenous Peoples. Governance for health is explored through an analysis of jurisdictional issues, existing health agreements and organizational structures. Students focus on the development of post-colonial models of policy and governance.

INGH 522  Units: 1.5
Indigenous Health Research Methodologies
Topics include the value of being in relationship with community as a foundation for research; knowledge of indigenous life course determinants relevant to the health of Indigenous Peoples; ethical, legal and social issues related to research with Indigenous Peoples.

INTD

Interdisciplinary Program
Faculty of Graduate Studies

INTD 580  Units: 1.5-3.0
Directed Studies for INTD Master’s Program
Note: May be taken more than once for credit in different topics.

INTD 599  Units: 4.5-12.0
Thesis
Grading: INP, COM, N, F.

INTD 680  Units: 1.5-3.0
Directed Studies for INTD Doctoral Program
Note: May be taken more than once for credit in different topics.

INTD 693  Units: 3.0
PhD Candidacy Examination
Corequisite(s): INTD 699.
Grading: INP, COM, N, F.

INTD 699  Units: 15.0-30.0
Dissertation
Pre- or Corequisite(s): INTD 693.
Grading: INP, COM, N, F.

ITAL

Italian
Department of Hispanic and Italian Studies
Faculty of Humanities

ITAL 503  Units: 1.5
Core Reading List Course I
Also: SPAN 503
Grading: INP, COM, N, F.

ITAL 505  Units: 1.5
Medieval Literature
Also: SPAN 505
Grading: INP, COM, N, F.

ITAL 590  Units: 1.5 or 3.0
Directed Studies
Also: SPAN 590
Grading: INP, COM, N, F.

ITAL 598  Units: 3.0
Master’s Essay
Grading: INP, COM, N, F.

ITAL 599  Units: 6.0
MA Thesis/Oral
Grading: INP, COM, N, F.

LAW

Law
Faculty of Law

LAW 501  Units: 1.5
Graduate Seminar in Law and Society
A critical introduction to theoretical perspectives on Law and Society. Designed to expose students to a range of substantive issues in advanced legal research, as a foundation for the development of each student’s thesis research.
Prerequisite(s): Admission to a graduate program in Law.

LAW 502  Units: 1.5
Graduate Seminar in Applied Legal Methodology
A review of methodological approaches to advanced legal research, particularly as applied to the diverse research interests of seminar participants. Intended to support each student’s participation in their research question through presentation, commentary and refinement.
Prerequisite(s): Admission to a graduate program in Law.

LAW 590  Units: 1.5-3.0
Directed Studies in Law
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registering in this course.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

LAW 598  Units: 6.0
Major Research Paper in Law
Grading: INP, COM, N, F.

LAW 599  Units: 9.0
LLM Thesis
Grading: INP, COM, N, F.

LAW 690  Units: 1.5-3.0
Directed Studies in Law
Individual studies under the direct supervision of one or more faculty members. The content, credit value and method of evaluation must be approved by the instructor and the Graduate Adviser prior to registering in this course.
Notes:
• May be taken more than once for credit in different topics.
• Pro Forma required.

LAW 693  Units: 3.0
PhD Candidacy Examinations
The PhD Candidacy Examination consists of an oral examination. This examination should be taken and passed within two years of entering the PhD program.
Grading: INP, COM, N, F.

LAW 699  Units: 21.0-36.0
PhD Dissertation
Prerequisite(s): LAW 693.
Grading: INP, COM, N, F.

LING

Linguistics
Department of Linguistics
Faculty of Humanities

LING 500  Units: 1.5
Linguistic Field Methods
An introduction to the methods of data analysis, organization, and collection required in the field situation. Language of consultant varies from year to year. The department has a particular interest in North American Native Languages.
Note: May be taken more than once for credit in different topics with permission of the department.

LING 501  Units: 1.5
Linguistics for Language Revitalization
An introduction to Linguistic concepts and terminology, providing a foundation for engaging with Indigenous language documentation and revitalization, linguistic aspects of learning and teaching, and archival research. Topics include: the nature of sound systems and how they relate to writing systems; word structures and dictionaries; sentence structures and understanding texts.
LING 503 - LING 596

LING 503  Units: 1.5
Introduction to Syntax
A graduate level introduction to the major subfields of syntax, reflecting recent developments in syntactic theory.

LING 504  Units: 1.5
Current Issues in Morphology
Recent developments in morphological theory.
Note: May be taken more than once for credit to a maximum of 3 units.

LING 505  Units: 1.5
Introduction to Phonology
A graduate level introduction to the major subfields of Phonology, reflecting recent developments in phonological theory.

LING 508  Units: 1.5 or 3.0
Current Issues in Generative Grammar
Selected topics reflecting ongoing work in generative theory.
Note: May be taken more than once for credit.

LING 509  Units: 1.5
Sociolinguistics
Selected topics in recent research related to language variation such as bilingualism, language and gender, language attitudes, social dialects. Each registrant will select a particular topic for individual research.
Note: May be taken more than once for credit in different topics to a maximum of 3 units.

LING 510  Units: 1.5-3.0
Current Issues in Phonology
An examination of recent developments in phonological theory.
Note: May be taken more than once for credit.

LING 517  Units: 1.5
Experimental Phonetics Laboratory
Review of recent research in the phonetic and acoustic analysis of speech and in spoken language processing. A focus on experimental procedures designed to allow students to pursue individual topics in speech research.
Note: May be taken more than once for credit to a maximum of 3 units.

LING 520  Units: 1.5-3.0
Pacific Rim Languages
An overview of the structure of selected Indigenous languages spoken around the Pacific Rim.
Note: May be taken more than once for credit to a maximum of 3 units.

LING 527  Units: 1.5
Topics in Historical and Comparative Linguistics
Study of principles of historical and comparative linguistics.
Note: May be taken more than once for credit to a maximum of 3 units.

LING 531  Units: 1.5
Also: IED 531
Researching Community-Based Initiatives in Language Revitalization
An examination of language research in Indigenous communities. This course is project-based and introduces students to a range of issues in community-based language revitalization research. The diversity of languages and of community approaches will be highlighted.
Note: Credit will be granted for only one of LING 531, IED 531.

LING 570  Units: 1.5-3.0
Also: PSYC 570
Psycholinguistics
A seminar offered in collaboration with the department of Psychology. Selected topics of interest in understanding the comprehension and production of natural language are examined. The most recent topics have been word recognition and lexical access, sentence processing, discourse analysis, linguistic inference and the resolution of ambiguity, and the development of cognitive science interests in reasoning and discourse processes as well as the structure of mental representations.

LING 572  Units: 1.5
The Structure of the Lexicon
An introduction to the study of representations of lexical forms, specifically as they relate to psycholinguistic dimensions of the mental lexicon. Issues related to the structure of both the first and second language mental lexicons will be examined.

LING 573  Units: 1.5
Second Language Acquisition Theory and Research
A survey and critical examination of the research on second language acquisition (SLA). Current issues and research findings related to the teaching and learning of second languages inside second language classrooms are also discussed.

LING 574  Units: 1.5
Seminar in Applied Linguistics
A seminar on issues in applied linguistics, including an overview of second language learning and teaching principles, TESL/TEFL methodology, language situation contacts and multilingualism. Each participant selects a topic area of individual interest to report to the seminar.

LING 575  Units: 1.5
Research Methods in Applied Linguistics
Designed to assist graduate students in developing skills necessary to design and implement research in the field of second language (SL) acquisition and applied linguistics. Examines various methods for conducting research, types of research designs, and the steps involved in planning and executing SL research projects. Students also develop skills in reading and evaluating published research in second language acquisition and applied linguistics.

LING 576  Units: 1.5
Form-Focused Instruction and Second Language Development
Through a combination of reading and critical analysis of research studies, examines the current theoretical perspectives and research findings on the various roles that form-focused instruction and corrective feedback play in second language development.

LING 577  Units: 1.5  Hours: 3-0-0
The Global Context of Language Revitalization
Investigates language shift, maintenance, reclamation and revitalization. Topics may include global, social, cultural, economic, political, and historical factors involved in language use, and Indigenous and non-Indigenous language contexts around the world.

LING 578  Units: 1.5
Sociocultural Theory and Second Language Learning
Designed to introduce graduate students to aspects of second language learning from the perspectives of sociocultural theory and cognitive development. Students will become familiar with key concepts and principles of sociocultural theory, such as mediation, activity theory, the genetic method, internalization, the zone of proximal development, private speech, and scaffolding; examine the growing body of research in language learning and teaching from this theoretical perspective; and consider its implications for language pedagogy.

LING 580  Units: 1.5 or 3.0
Linguistics Seminar
The contents of this course will vary.
Note: May be taken more than once for credit.

LING 586  Units: 1.5
Sound Structures for Applied Linguistics
An investigation of the relationship between sound structures (as understood through phonetic theory, phonological theory, speech analysis) and applied linguistics (especially pronunciation teaching and second language acquisition).
Prerequisite(s):
- One of LING 200, LING 300, LING 312, LING 338, LING 380, LING 412, LING 486, LING 505, LING 510, LING 517; or
- permission of the department.

LING 590  Units: 1.5 or 3.0
Directed Studies
A course designed to enable students to pursue individual interests.
Note: May be taken more than once for credit.

LING 592  Units: 1.5  Hours: 3-0-0
Formerly: LING 591
Labovian Variationist Sociolinguistics
An examination of the foundations of language variation and change in the Labovian paradigm. Emphasis is placed on the study of phonological and grammatical features and their correlations with age, sex, ethnicity and other social variables.
Note: Credit will be granted for only one of LING 592, LING 591.

LING 595  Units: 1.5
Studies in Language and Gender
A study of the relationship between gender socialization and pragmatics of language use. Each participant selects a topic of interest to research and report on as a term paper and to present as a seminar.

LING 596  Units: 1.5
Cross-Cultural Communication
An examination of pragmatic linguistic factors affecting communication between cultural groups. Each participant selects a topic of interest to research and report on as a term paper and to present as a seminar.
LING 598 - Units: 3.0
Major Research Paper
A major research paper (40-45 pages) reporting independent research under the direction of a faculty member. Students meet in a seminar weekly with the course instructor to discuss research topics including research designs, data collection and analyses, reporting and presentation research results, and other research related issues.
Grading: INP, COM, N, F.

LING 599 - Units: to be determined
MA Thesis
Grading: INP, COM, N, F.

LING 601 - Units: 1.5
Current Directions in Syntactic Theory
Selected topics reflecting current research in syntactic theory.
Notes:
• May be taken more than once for credit in different topics.
• Students who have completed equivalent prerequisites may request permission to register in the course.
Prerequisite(s):
• LING 503 or LING 508; or
• permission of the department.

LING 602 - Units: 1.5-3.0
Current Directions in Phonological Theory
Selected topics reflecting current research in phonological theory.
Notes:
• May be taken more than once for credit in different topics.
• Students who have completed equivalent prerequisites may request permission to register in the course.
Prerequisite(s):
• LING 505 or LING 510; or
• permission of the department.

LING 690 - Units: 1.5 or 3.0
Directed Studies
A research topic will be pursued in depth under the direction of the student’s supervisor. Students are expected to write a research paper (or papers) and to present a colloquium based on their work.
Note: May be taken more than once for credit in different topics to a maximum of 3 units.

LING 693 - Units: 3.0
Candidacy Examination
The candidacy requirement must be satisfied within three years of registration in the doctoral program (see Faculty of Graduate Studies regulations). The candidacy examination consists of two substantial, original research papers, one in the area of phonological or syntactic theory, understood broadly, and the other in an area agreed to by the student and the supervisor.
Grading: INP, COM, N, F.

LING 699 - Units: to be determined
PhD Dissertation
Note: Normally 18 units.
Prerequisite(s): LING 693.
Grading: INP, COM, N, F.

MATH
Mathematics
Department of Mathematics and Statistics
Faculty of Science

MATH 510 - Units: 1.5
Abstract Algebra

MATH 520 - Units: 1.5
Number Theory

MATH 522 - Units: 1.5
Combinatorics
Prerequisite(s): Permission of the department.

MATH 523 - Units: 1.5
Graph Theory
Prerequisite(s): Permission of the department.

MATH 529 - Units: 1.5
Topics in Discrete Mathematics
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 530 - Units: 1.5
Real Analysis
Abstract measure and integration; product measures; measures on locally compact spaces and the Riesz representation theorem; the Stone-Weierstrass theorem.

MATH 531 - Units: 1.5
Functional Analysis

MATH 532 - Units: 1.5
Introduction to Operator Theory

MATH 533 - Units: 1.5
Topics in Operator Theory and Operator Algebras
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 535 - Units: 1.5
Topics in Analysis
Topics may include some of the following: ergodic theory, dynamical systems, potential theory, harmonic analysis.
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 538 - Units: 1.5
Complex Analysis
Topics chosen from: conformal mappings, the Riemann mapping theorem, the maximum principle, infinite products, Picard’s theorem, normal families, Hp-spaces, approximation by rational functions, the Riemann zeta function, analytic continuation and Riemann surfaces.
Note: Students who have completed a course equivalent to MATH 438 may request permission to register in the course.
Prerequisite(s):
• One of MATH 330B, MATH 338, MATH 438, or
• permission of the department.

MATH 540 - Units: 1.5
Topology

MATH 549 - Units: 1.5
Also: MATH 449

MATH 550 - Units: 1.5
Topics in Applied Mathematics
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 551 - Units: 1.5
Differential and Integral Equations

MATH 555 - Units: 1.5
Topics in Probability
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 563 - Units: 1.5
Algebraic Number Theory

MATH 575 - Units: 1.5
Topics in Mathematical Biology
Possible topics include population modelling, infectious disease dynamics, models of neuronal networks and models of gene regulatory networks.
Note: May be taken more than once for credit in different topics with permission of the department.

MATH 580 - Units: 1.5
Topics in Pure Mathematics

MATH 581 - Units: 1.5
Directed Studies
Directed studies may be available in the areas of faculty interest.
Notes:
• May be taken more than once for credit in different topics with permission of the department.
• Pro Forma required.

MATH 585 - Units: 0 or 1.5
Seminar
Notes:
• May be taken only once for credit in any degree program.
• The seminar leader will inform students of the requirements for credit before the seminar commences. An INP grade may be assigned.

MATH 586 - Units: 0 or 1.5
Operator Theory Seminar
Notes:
• May be taken only once for credit in any degree program.
• The seminar leader will inform students of the requirements for credit before the seminar commences. An INP, standard grade.
MBA 501   Units: 0
Applied Projects
Client-based business projects that integrate program subject material, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Will focus, when possible, on the Gustavson School of Business value pillars: International, Integrative, Innovative, Sustainable/Socially Responsible. One of these projects takes place in an international setting.

Notes:
- Not open to students registered in or with credit in MBA 501A or MBA 501B.
- Attendance and participation are mandatory. Students are required to register in this course for the duration of the MBA Program.
- Students in a double-degree program or an international exchange will normally be waived from the international project.

Grading: INP, COM, N, F.

MBA 501A   Units: 0
Integrative Management Exercise (IME)
One or more client-based business practice exercises which integrate program subject material, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Takes place on campus and will focus, when possible, on one or both of the International or Socially Responsible and Sustainable value pillars of the Gustavson School of Business.

Note: Registration is restricted to the Daytime MBA Cohort entering in summer session 2016. Attendance and participation are mandatory. Registration in MBA 501A is for the domestic, "on campus" IME.

Grading: INP, COM, N, F.

MBA 501B   Units: 0
International Integrative Management Exercise (IME)
A client-based business practice exercise which integrates program subject material, usually in the context of examining a particular industry or organization. Requires reports and/or presentations. Takes place in an international setting.

Note: Registration is restricted to the Daytime MBA Cohort entering in summer session 2016. Attendance and participation are mandatory. Registration in MBA 501B is for the international, "off campus" IME.

Grading: INP, COM, N, F.

MBA 502   Units: 0
Personal and Professional Development
A course of sessions/activities delivered throughout the MBA program providing practical knowledge and practice in areas vital for professional success in the business world. Content includes: career development, team-building, leadership development, and cross-cultural boundary spanning.

Note: Students are required to register in this course for the duration of the MBA Program.

Grading: INP, COM, N, F.

MBA 509   Units: 0.5-2.0
Managing in the Service Economy
Examines service issues from organizations and human resources management, operations management and marketing perspectives to provide students an integrated view of designing and delivering a valuable, memorable customer experience. Topics include: building a service culture and strategy, managing the talent, service blueprinting, developing customer-oriented service standards, service design, creating the "servicescape", understanding consumer emotions and psychology, service failure and recovery, customer co-creation of value and service delivery networks.

Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 510   Units: 0.5-1.5
Marketing Management
Controllable and uncontrolled marketing variables that managers face in today’s business environment. Topics include factors affecting consumer demand (including issues of sustainability, environmental impact and ethical management) and methods of satisfying it, market structure, product selection, distribution, promotion, pricing and market research. Course structure, exercises, projects and case problems are designed to develop the students’ ability to generate effective marketing strategies in the face of uncertainty.

Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 511   Units: 0.5-1.5
Customer Experience Management
Intended for those students who are interested in working in service industries and addresses the distinct needs and problems of service organizations in the area of marketing. Topics include: the difference between marketing services versus manufacturing organizations; the marketing mix for service organizations; market research in services; managing demand in services; integrated services marketing communication; services pricing; and the overlap of marketing/operations/human resource systems in service organizations.

Note: Not open for students with credit in the Service Management Specialization courses previously offered under MBA 595. The unit value of a course section will be specified according to the program in which it is delivered.

Prerequisite(s): MBA 510
Corequisite(s): MBA 512 and MBA 513.

<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MBA 512</td>
<td>0.5-1.5</td>
<td>Quality Management and Service Operations</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Focuses on managing and improving service firms across industries, including financial services, health care, hospitality, retail and professional service firms. Addresses the distinct needs and problems of service organizations in the areas of operations and quality management. A core theme is a quality management approach to providing service excellence. Topics include: service strategy, service design, service quality, process improvement, service capacity management, service innovation and technology, and sustainable and socially responsible practices in services.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Notes:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- The unit value of a course section will be specified according to the program in which it is delivered.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Prerequisite(s): MBA 510</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Corequisite(s): MBA 511 and MBA 513</td>
</tr>
<tr>
<td>MBA 513</td>
<td>0.5-1.5</td>
<td>Issues in Service Technology and HR Management</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Addresses the distinct needs and problems of service organizations in the areas of human resource management and IT management. Topics include: e-service and the role of technology; customer relationship management (CRM); managing the organizational culture; impact of cultural differences on customer service; management and motivation of knowledge workers; customer self-service technology; the service profit chain; and sustainable and socially responsible practices in human resource management.</td>
</tr>
<tr>

<td>Corequisite(s): MBA 511 and MBA 512</td>
</tr>
<tr>
<td>MBA 514</td>
<td>0.5-1.5</td>
<td>Business and Sustainability</td>
</tr>
<tr>
<td></td>
<td></td>
<td>An introduction to the business challenges and opportunities arising from the world’s growing social and ecological issues, including climate change, poverty and corporate corruption. Students are exposed to how companies across multiple sectors have chosen to respond - or not respond - to the call for sustainable social, ecological and economic value creation. Relevant tools and frameworks are introduced, including stakeholder management/engagement, triple-bottom line, Natural Step, base-of-the-pyramid strategies and social entrepreneurship.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Notes:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Credit will be granted for only one of MBA 514, MBA 580, MBA 595 (if taken in the same topic).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- The unit value of a course section will be specified according to the program in which it is delivered.</td>
</tr>
<tr>
<td>MBA 515</td>
<td>0.5-1.5</td>
<td>Applied Managerial Economics</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Applies economic principles to the analysis of corporate problems. Topics include product, risk and business opportunity analysis, production costs and profit maximization, the determination of prices and output under different market structures, investment decisions, and economic forecasting.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Note: The unit value of a course section will be specified according to the program in which it is delivered.</td>
</tr>
<tr>
<td>MBA 520</td>
<td>0.5-1.5</td>
<td>Financial and Managerial Accounting</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Focuses on two broad areas to improve understanding of the use of accounting information in management decision making: 1) Financial Reporting including examination of corporate financial reports, International Financial Accounting Standards, triple-bottom line reporting, and governance and 2) Managerial Accounting including the nature, analysis of costs, product costs, and control systems.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Note: The unit value of a course section will be specified according to the program in which it is delivered.</td>
</tr>
<tr>
<td>MBA 521</td>
<td>1.5</td>
<td>Leadership Strategies</td>
</tr>
<tr>
<td></td>
<td></td>
<td>An examination of leadership in a variety of environments: corporate, the military, and the public sector. Identifies the characteristics of a leader and instills an interest in and awareness of this vital organizational skill. Includes a review of leadership research from a historical perspective as well as current theory on transformational leadership. Experiential exercises, case studies and role playing techniques are employed to demonstrate leadership skills.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Note: Credit will be granted for only one of MBA 521, COM 410.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Prerequisite(s): Permission of the program.</td>
</tr>
<tr>
<td>MBA 524</td>
<td>1.5</td>
<td>Corporate Finance</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Serves as a continuation of the introductory finance course to more advanced applications of the techniques, concepts, and tools of corporate finance. Main topics include short- and long-term financial management, cost of capital, capital structure, financial leverage, dividends policy, working capital management, leasing, mergers and acquisitions, and the use of derivatives for risk management.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Note: Credit will be granted for only one of MBA 524, COM 445.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Prerequisite(s): Permission of the program.</td>
</tr>
<tr>
<td>MBA 525</td>
<td>1.5</td>
<td>Investments</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Covers the fundamental principles that are crucial to understanding the securities traded in international financial markets. The main topics include market structure, information efficiency, asset pricing models, valuation and trading of stocks, bonds, options and futures.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Note: Credit will be granted for only one of MBA 525, COM 446, COM 450 (if taken in the same topic), ECON 435.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Prerequisite(s): Permission of the program.</td>
</tr>
<tr>
<td>MBA 529</td>
<td>0.5-1.5</td>
<td>International Logistics and Supply Chain Management</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Examines the issues involved in managing global supply chains and logistic flows. Topics are developed around the risks and opportunities of global sourcing. Topics include some of the following: designing and implementing global supply chains, foreign manufacturing, inventory management, coping with security concerns, outsourcing, service standards, transportation options and performance evaluation.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Notes:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Credit will be granted for only one of MBA 529, MGB 519.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- The unit value of a course section will be specified according to the program in which it is delivered.</td>
</tr>
<tr>
<td>MBA 530</td>
<td>0.5-1.5</td>
<td>Managerial Finance</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Provides a framework, concepts, and tools for analyzing financial decisions. Topics include discounted cash flow techniques, valuation of financial assets, financial statement analysis, capital budgeting decisions, risk and return tradeoffs, diversification and portfolio theory, capital market efficiency, and the cost of capital to the firm. Focuses on management-shareholder agency problems, ethical issues in financial decision-making, and issues related to sustainability and corporate social responsibility (CSR) in project valuation and portfolio investments.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Note: The unit value of a course section will be specified according to the program in which it is delivered.</td>
</tr>
<tr>
<td>MBA 531</td>
<td>1.5</td>
<td>Taxation for Managers</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Reviews the fundamentals of the income tax system for all taxpayers. It then examines tax planning techniques that maximize cash flow and return on investment. While the course emphasizes business decisions, it also includes personal financial planning issues.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Note: Credit will be granted for only one of MBA 531, COM 425.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Prerequisite(s): Permission of the program.</td>
</tr>
<tr>
<td>MBA 535</td>
<td>0.5-1.5</td>
<td>Operations Management</td>
</tr>
<tr>
<td></td>
<td></td>
<td>An introduction to the concepts for managing the systems organizations use for producing goods and services. Topics include some of the following: operations strategy, capacity and technology planning, purchasing and materials management, workflow planning, scheduling, and quality management and control.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Note: The unit value of a course section will be specified according to the program in which it is delivered.</td>
</tr>
<tr>
<td>MBA 540</td>
<td>0.5-1.5</td>
<td>Applied Data Analysis and Decision Analysis</td>
</tr>
<tr>
<td></td>
<td></td>
<td>A decision-oriented course that focuses on the frameworks, concepts, theories and principles needed to organize and use information to make informed business decisions. Cases, exercises, discussion questions and other pedagogical tools are used to help participants build data gathering and analysis skills. Topics include collecting, summarizing, organizing and extracting data; probability theory and risk in decision making; and One-Way Analysis of Variance and Regression Analysis.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Note: The unit value of a course section will be specified according to the program in which it is delivered.</td>
</tr>
</tbody>
</table>
MBA 544 Units: 0.5-1.5
Information Technology in the Organization
An introduction to the capabilities and utilization of information technology (IT), information systems (IS) and networks. Different approaches using IT and IS will be covered to provide an understanding of how they can be used effectively in today’s inter-networked enterprise. Cases and other assignments will be used to illustrate the evolving role of IS and networks in today’s interconnected organization both within and external to it.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 546 Units: 0.5-2.0
Innovation and Design Studio
Explores innovation via a studio approach in which students learn through practice and reflection. Topics include framing the ‘problem space’ through deep understanding of users and context, and techniques for elicting creative ideas, such as structured brainstorming and rapid prototyping, to explore the ‘solution space’. Students become integrative, creative problem solvers who combine rigorous research with narrative, visual data and other knowledge forms to generate original, practical strategies.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 550 Units: 0.5-1.5
Strategic Analysis and Action
Introduces the integrative nature of management. Explores the overall general management of the organization, and the formulation and implementation of the strategic direction of the firm. Covers major strategic management concepts including analyses of external and internal environments, innovation, corporate social responsibility (CSR), managerial ethics, value co-creation, and leadership, as they relate to business strategy. Intended to develop an appreciation of the role of a general manager from conceptual as well as pragmatic standpoints.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 552 Units: 0.5-2.0
Collaboration in Organizations
Explores ways to lead and cultivate collaboration in both inter- and intra-organizational contexts. Topics may include identifying what effective collaboration looks like, when collaboration does (and doesn’t) make sense, organizational barriers to collaboration, the skills required to encourage others to collaborate effectively, and the characteristics of collaborative leadership.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 553 Units: 0.5-1.5
Managing People and Organizations I
Examines the behaviour of individuals, groups and organizations from an organizational design perspective. Topics include: the analysis of goals, environment structure and growth; teams, organizational culture, power, politics and conflict management; decision making, motivation, trust and leadership.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 554 Units: 0.5-1.5
Managing People and Organizations II
Examines the issues in managing employees in organizations. Topics include recruitment and hiring, retention practices, performance review, compensation design, layoffs and selected employment and human rights legislation.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 560 Units: 0.5-1.5
Managing Legal Risks
Examines various legal risks (whether arising from the common law or through legislation) that must be identified and effectively managed within contemporary organizations (including for-profit businesses, not-for-profit firms and governmental organizations). Examines the legal risks associated with the manufacture, delivery and marketing of goods and services, the creation and protection of confidential information and other intellectual property, and risks arising from employment and contractor relationships. Also reviews risk management strategies available under the law of tort and contract.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 561 Units: 0.5-1.5
Entrepreneurial Planning and Finance
Part of the integrated MBA Entrepreneurship module, focuses on differences between ideas and opportunities, identifying necessary information to screen and analyze the risks attached to shaping opportunities into viable businesses; understanding financial data and use of quantifiable factors in the entrepreneurial decision process. Students understand essential elements of a business plan, the catalyst for skill development of entrepreneurial new venture ideas.
Notes:
• Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595
• The unit value of a course section will be specified according to the program in which it is delivered.
Corequisite(s): MBA 562 and MBA 563.

MBA 562 Units: 0.5-1.5
New Venture Marketing
Part of the integrated MBA Entrepreneurship program, develops the thinking skills required to: develop valued products, understand customers and markets, and gain market acceptance with limited resources.
Notes:
• Not open to students with credit in the Service Management Specialization courses previously offered under MBA 595
• The unit value of a course section will be specified according to the program in which it is delivered.
Corequisite(s): MBA 561 and MBA 563.

MBA 564 Units: 0.5-2.0
Entrepreneurship
Entrepreneurship is about new value creation in new for-profit ventures, social enterprises, existing corporations, government, and other contexts. Takes prospective entrepreneurs through the opportunity (value) identification and realization process with a focus on developing entrepreneurial expertise and an entrepreneurial mindset. Learners will apply key theory, frameworks, concepts, and tools towards their own entrepreneurial pursuit with the aim of getting to the proof-of-concept stage of development with a lean business plan.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 570 Units: 0.5-2.0
International Business Environment I
Overview of international business and management, emphasizing globalization and its implications for individuals, organizations and nations. Explores topics in global and regional economic integration, sources of national competitive advantage, international trade and investment, corporate social responsibility (CSR) in international contexts, strategy and organization in multinational enterprises, emerging markets, and current issues related to the international business environment. Students will develop a world-view of today’s dynamic global marketplace and analytical skills for addressing complex global issues.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 576 Units: 0.5-2.0
International Business Environment II
This course is a continuation of topics covered in IB Environment I. Students will be introduced to new and expanded topics from an international perspective. They will develop a deeper understanding of the complexity and implications of strategic management decisions within multinational enterprises.
Note: The unit value of a course section will be specified according to the program in which it is delivered.

MBA 578 Units: 0.5-1.5
Consulting Methods I
Provides an overview of management consulting to help students gain an understanding of management consulting skills and competencies. These consulting skills can be used in the pursuit of a consulting career or integrated as part of general management knowledge. Designed to prepare students for 501 Applied Projects and 596 Integrative Project.
Note: The unit value of a course section will be specified according to the program in which it is delivered.
### MBA 586 - Consultation Methods II
- **Units:** 0.5-2.0
- **Continuation of topics covered in Consultation Methods I.**
- **Note:** The unit value of a course section will be specified according to the program in which it is delivered.

### MBA 588 - Study Abroad
- **Units:** 1.0-7.5
- **Study Abroad**
- Students register in this course while participating in a formal academic exchange with a university outside of Canada.
- **Note:** May be taken more than once for credit to a maximum of 7.5 units.

### MBA 590 - Directed Study
- **Units:** 0.5-3.0
- **Directed Study**
- Notes:
  - May be taken more than once for credit in different topics.
  - Pro Forma required.

### MBA 595 - Special Topics in Business Administration
- **Units:** 0.5-5.0
- **Special Topics in Business Administration**
- Course content will reflect the interests of the faculty members and current issues in business and industry. Topics will vary annually.
- New specialization modules will also be introduced under 595.
- **Note:** May be taken more than once for credit in different topics.

### MBA 596 - Integrative Project
- **Units:** 3.0
- **Integrative Project**
- An individual or group consulting project. Participating students work individually or are placed into small teams and, under faculty supervision, maintain a consulting/client relationship with a corporate sponsor. The students examine a problem of current interest to the sponsor and prepare detailed oral and written recommendations.
- **Grading:** INP, standard grade.

### MBA 598 - Research Project
- **Units:** 3.0
- **Research Project**
- A substantial analysis of a significant management problem or policy issue, prepared individually in consultation with a faculty advisor.
- **Note:** Students choosing to take MBA 598 Research Project, rather than MBA 596 Integrative Project, will be required to take an appropriate Research Methods course. 1.5 units in lieu of or in addition to MBA 585. Students choosing MBA 598 should consult with their academic supervisor to identify an appropriate Research Methods course.
- **Grading:** INP, standard grade.

### MBME - Master of Business Administration + Master of Engineering
**MBA Program and Faculty of Engineering**
Sardul S. Gill Graduate School of Business
Specifically for the MBA+MECH Double Degree Program which is jointly offered by the Sardul S. Gill Graduate School of Business and the Faculty of Engineering.
- Other courses offered by the MBA Program are found under the following course code: MBA. Other courses offered by the MECH Programs are found under the following course code: ECE and MECH.

#### MBME 598 - Major Project
- **Units:** 3.0
- **Major Project**
- A substantial analysis of a specific issue related to both management and engineering contexts, prepared individually under the supervision of faculty advisers from both the Gustavson School of Business and the Faculty of Engineering.
- **Note:** Students, in consultation with their academic advisor, should determine if they have an adequate background in research methodology prior to enrolling in MBME 598. This may require the student to take a research methods course. Students should consult with their academic advisor to identify an appropriate course.
- **Grading:** INP, COM, N, F.

### MBMS - Master of Business Administration + Master of Science (CSC)
**MBA Program and Faculty of Engineering**
Sardul S. Gill Graduate School of Business
Specifically for the MBA+MSC in Computer Science Double Degree Program which is jointly offered by the Sardul S. Gill Graduate School of Business and the Faculty of Engineering.
- Other courses offered by the MBA Program are found under the following course code: MBA. Other courses for the MSC in Computer Science component of the program are found under the following course code: CSC.

#### MBMS 598 - Major Project
- **Units:** 3.0
- **Major Project**
- A substantial analysis of a specific issue related to both management and computer science, prepared individually under the supervision of faculty advisers from both the Gustavson School of Business and the Department of Computer Science.
- **Note:** Students, in consultation with their academic advisor, should determine if they have an adequate background in research methodology prior to enrolling in MBMS 598. This may require the student to take a research methods course. Students should consult with their academic advisor to identify an appropriate course.
- **Grading:** INP, COM, N, F.
MECH 521  
**Units:** 1.5  
**Computer-Aided Manufacturing (CAM)**  
Introduction to machining operations features of numerically controlled machine tools and types of CNC programming. Manual part programming with G-codes, canned cycles, subprograms, and simulation program. CNC machine tools and control and machine tool kinematics. CNC machining of curved surfaces, and surface machining strategies. Rapid prototyping or 3D printing. Machining mechanics and dynamics.  
**Note:** There is a 3-hour laboratory requirement on alternate weeks.

MECH 523  
**Units:** 1.5  
**Modeling and Design of Advanced Hybrid Electric Vehicles**  
Background of Hybrid Electric Vehicle (HEV) powertrain technologies; vehicle power plants, electric propulsion systems, transmissions, and energy storage system; vehicle performance modeling and simulation using advanced powertrain modeling tools; design and optimization of HEV powertrain system; other key issues in HEV design and developments; HEV related research and case study.  
**Note:** Credit will be granted for only one of MECH 523, MECH 580 (if taken in the same topic).

MECH 528  
**Units:** 1.5  
**Global Optimization and Quantitative Reasoning Techniques**  
Review of conventional engineering optimization methods, global optimization algorithms, introduction of metamodelling and metamodel-based global optimization techniques, multi-objective and multi-disciplinary optimizations; knowledge representation and reasoning, rule-based systems, fuzzy pattern clustering and recognition, and artificial neural networks; applications of metamodel-based global optimization and quantitative reasoning for computational design and optimal control.  
**Note:** Credit will be granted for only one of MECH 528, MECH 620.

MECH 531  
**Units:** 1.5  
**Fluid Mechanics**  

MECH 535  
**Units:** 1.5  
**Computational Fluid Dynamics and Heat Transfer**  

MECH 536  
**Units:** 1.5  
**Microfluidics**  

MECH 537  
**Units:** 1.5  
**Non-equilibrium Thermodynamics and Kinetic Theory of Gases**  
Conservation and balance laws, properties and property relations, 2nd law and interpretation of entropy, entropy generation and work loss, classical irreversible thermodynamics, cross effects and Onsager conditions. Kinetic theory of gases: Distribution function, Boltzmann equation, conservation laws, H-Theorem, continuum limit; the laws of Navier-Stokes and Fourier, higher order methods and moment equations, Knudsen layers, rarefaction effects.

MECH 538  
**Units:** 1.5  
**Advanced Aircraft Design**  
**Note:** Credit will be granted for only one of MECH 538, MECH 580 (if taken in the same topic).

MECH 540  
**Units:** 1.5  
**Transport Phenomena**  
Fundamentals of thermomechanics; kinematics, motion, stress, thermodynamics, fundamental principles of thermomechanics. Constitutive equations; basic principles and axioms, linearization of constitutive equations, constitutive equations of special materials such as Newtonian fluids and binary mixtures. Field equations for binary fluid mixtures. Mass transport; diffusivity and mechanisms of mass transport, examples of concentration distributions in binary solids and fluids (laminar flow), examples from ternary systems.

MECH 541  
**Units:** 1.5  
**Advanced Thermodynamics**  

MECH 542  
**Units:** 1.5  
**Energy Systems and Energy Analysis**  
Macroscopic examination of energy systems, system architecture and evolution. Dynamics of energy systems. Characteristics and impacts of energy storage. Exergy balance and second law efficiency.

MECH 543  
**Units:** 1.5  
**Cryogenic Engineering**  

MECH 546  
**Units:** 1.5  
**Introduction to Ocean Engineering**  
**Note:** Credit will be granted for only one of MECH 546, MECH 580 (if taken in the same topic).

MECH 547  
**Units:** 1.5  
**Wind Power Systems**  
**Note:** Credit will be granted for only one of MECH 547, MECH 580 (if taken in the same topic).

MECH 549  
**Units:** 1.5  
**Fuel Cell Technology**  

MECH 550  
**Units:** 1.5  
**Advanced Control Theory**  

MECH 554  
**Units:** 1.5  
**Mechatronics**  
Introduction to mechatronic systems; modelling of mixed mechatronic systems; microcontroller programming and interfacing; theory, selection and implementation of sensors and actuators commonly used in mechatronic systems; control architectures and case studies in mechatronics systems.  
**Note:** Credit will be granted for only one of MECH 554, MECH 580 (if taken in the same topic).
MECH 555 Units: 1.5
Micro-ElectroMechanical Systems

MECH 558 Units: 1.5
Fundamentals of Hybrid Vehicles
Background of hybrid electric vehicle (HEV) powertrain technologies; vehicle power plants, electric propulsion systems, transmissions, and energy storage system; vehicle performance modeling and simulation using advanced powertrain modeling tools; design and optimization of HEV powertrain system; other key issues in HEV design and developments; HEV related design project and case study.
Note: Credit will be granted for one of MECH 558, MECH 580 (if taken in the same topic).

MECH 563 Units: 1.5
Finite Element Analysis
Introduction to the basic principles of finite element analysis. Development of discrete equations for problems of 1, 2, and 3D elasticity. Application to problems of stress analysis, vibrations, heat transfer and fluid flow. Includes a number of projects encouraging students to use large-size finite element analysis programs. Should be of interest to mechanical and electrical engineers, as well as students from the departments of Computer Science and Mathematics.

MECH 573 Units: 1.5
Ferrous and Non-Ferrous Metals
The iron-carbon and iron-cementite phase diagrams; nucleation and growth of microstructural constituents; the martensite phase transformation; time-temperature-transformation (TTT) curves; properties affected by quenching, tempering and annealing; alloy additions; structural, high strength and specialty steels; welding; tool and stainless steels; cast irons; super alloys; metal matrix composites.

MECH 576 Units: 1.5
Introduction to Electron Microscopy
Note: Credit will be granted for only one of MECH 576, MECH 580 (if taken in the same topic).

MECH 580 Units: 1.5
Selected Topics in Mechanical Engineering
Note: May be taken more than once for credit in different topics.

MECH 590 Units: 1.5
Directed Studies
A wide range of topics will be available.
Note: Pro Forma required.

MECH 594 Units: 1.0
Seminar
Participation in a program of seminars by internal and external speakers on current research topics. MEng students are not required to present.
Prerequisite(s): Admission to MEng program in Mechanical Engineering.
Grading: INP, COM, N, F.

MECH 595 Units: 1.5
Seminar
Participation in a program of seminars by internal and external speakers on current research topics. All MASc students will be required to give a seminar on their thesis research during the second year of the program.
Prerequisite(s): Admission to MASc program in Mechanical Engineering.
Grading: INP, COM, N, F.

MECH 598 Units: 3.0
MEng Project Report
Grading: INP, COM, N, F.

MECH 599 Units: 9.0
MASc Thesis
Grading: INP, COM, N, F.

MECH 601 Units: 1.5
Engineering Analysis
Introduction to mathematical methods used in engineering analyses with focus on the application to engineering problems rather than the rigorous proofs of mathematical concepts. Topics can include: integral transformations including Laplace and Fourier transforms; complex analysis including analytic functions, theory of residues and conformal mapping; calculus of variations as applied to optimal control, finite element methods and wave equations; linear algebra including least squares problems, eigenproblems and matrix decompositions.
Note: Credit will be granted for only one of MECH 601, MECH 580 (if taken in the same topic).

MECH 693 Units: 3.0
Candidacy Examination
PhD students enrol in 693 for the duration of their preparation for the candidacy examination. This begins at the time the PhD student first enrols in the PhD program and continues until the candidacy examination has been completed.
Pre- or Corequisite(s): MECH 501 or MECH 601.
Grading: INP, COM, N, F.

MECH 695 Units: 1.5
Seminar
Participation in a program of seminars by internal and external speakers on current research topics. Normally, all PhD students are required to give two seminars on their thesis research within 16 months and 34 months of registration.
Prerequisite(s): Admission to a doctoral program in Mechanical Engineering.
Grading: INP, COM, N, F.

MECH 699 Units: 27.0
PhD Dissertation
Prerequisite(s): MECH 693.
Grading: INP, COM, N, F.
MGB 512 Units: 1.0
International Financial Management
An examination of international financial markets and the financial decision making of multinational firms. Topics include international monetary systems, exchange rate determination, foreign currency derivatives, risk management techniques, and investments, financing and operations in global markets.

Note: Credit will be granted for only one of MGB 512, MBA 571.

MGB 516 Units: 1.0
International Marketing and Global Strategy
An examination of the strategic challenges facing businesses in an international context, with a focus on marketing issues. Topics include the problems associated with controlling and coordinating activities in multiple markets, managing diverse markets, responding to consumer and competitor differences, understanding the impact of different institutional structures, and coping with market consolidation.

Note: Credit will be granted for only one of MGB 516, MBA 572.

MGB 519 Units: 1.0
International Logistics and Supply Chain Management
Examines the issues involved in managing global supply chains and logistic flows. Topics are developed around the risks and opportunities of global sourcing. They include designing and implementing global supply chains, foreign manufacturing, inventory management, coping with security concerns, outsourcing, service standards, transportation options and performance evaluation.

Note: Credit will be granted for only one of MGB 519, MBA 529.

MGB 520 Units: 1.5
The Asian Business Context
An overview of business operations in the Asian context in various industry sectors. Also examines socio-economic, cultural and legal factors that impact doing business in Asia and that impact Asian firms doing business in regional and global settings.

MGB 525 Units: 1.5
Developing Business in International Entrepreneurial Environments
Examines the analyses and knowledge needed for successful new global business ventures as well as within an international environment. Emphasis will be given to the various stages in the development of a business plan, from idea development to presentation of the plan.

MGB 530 Units: 1.5
The European Business Context
An overview of corporate governance structures, legal and economic systems and environmental sustainability issues in the European Union and beyond. Prepares students to apply their knowledge and global perspective to solving business issues and challenges.

MGB 535 Units: 1.0
Consulting Methods and Practice
Provides an overview of the process of management consulting, introduces students to consulting methods to help them gain knowledge of consulting and to highlight specific consulting and research skills. To practice the application of these methodologies, student teams will examine an issue or problem being faced by their assigned overseas organizations, and provide them with consulting advice. In addition, this course will ultimately prepare students for the MGB 536 International Research and Consulting Project.

MGB 536 Units: 3.0
International Research and Consulting Project
An individual or group consulting report. Participating students, working individually or in small teams and under faculty supervision, research issues and maintain a consulting/ client relationship with a corporate sponsor. The students examine a problem of current interest to the sponsor and prepare detailed written recommendations, make in-person presentations to clients and submit a final report.

MGB 537 Units: 1.5
Global Internship
Students must complete at least 300 hours of work with an organization that normally (1) has an international component linking two or more regions, or (2) is located in any region of the world, provided that it is not the student’s “home” region or country. Requires students to apply their learning through a reflective component that describes how the coursework and the internship experience in particular have prepared them for global business-related careers.

MGB 538 Units: 1.5
Global Internship
Students who fail to complete an internship by the end of four academic terms may be required to withdraw.

MGB 539 Units: 0.5-3.0
Special Topics in Global Business

Pre- or Corequisite(s): MGB 180.

MGB 570 Units: 2.0
Global Leadership and Cultural Intelligence
An examination of the various dimensions of culture and cross-cultural leadership and management. Topics include how cultural intelligence and global mindset impact teamwork, conflict management, negotiations, motivation and overall leadership in international settings. Compares how people from the three regions of the MGB program modules (e.g., North America, Asia and Europe) are similar and how they differ along these dimensions, including the challenges resulting from these differences and how to resolve them.

MGB 583 Units: 1.0
Language, Communication and Global Business
Provides a framework - in conjunction with students’ language courses - to explore relationships among language, communication, and culture, a subject highly relevant to global companies. Considers the process of language interaction in global organizations and shows how foreign language learning adds value to businesses and careers. Also examines example global companies that have shaped their language policies (often towards using English as the lingua franca), impacting individual and organizational performance.

MICR Microbiology
Department of Biochemistry and Microbiology
Faculty of Science

MICR 570 Units: 0.5-3.0
Directed Studies in Microbiology
Topics are restricted to an analysis of recent advances. The student's graduate supervisor will not normally participate in directed studies taken for more than one unit of credit.

Notes:
- May be taken more than once for credit in different topics.
- Pro Forma required.

MICR 599 Units: to be determined
MSc Thesis: Microbiology
Grading: INP, COM, N, F.

MICR 699 Units: to be determined
PhD Dissertation: Microbiology
Corequisite(s): BCM 693.
Grading: INP, COM, N, F.

### MUS 540

**Individual Tuition**  
Lessons in instrument or voice.  
Note: May be taken more than once for credit with permission of the school.

### MUS 545

**Major Instrument Study**  
Individual tuition, integrated performance seminar and master class.  
Note: May be taken more than once for credit with permission of the school.

### MUS 545Q

**Major Instrument Study**  
For students in Master of Music (MMus) in Performance-Emphasis in String Quartet program.  
Note: May be taken more than once for credit with permission of the school.

### MUS 551

**Graduate Forum in Musicology**  
Develops skills in professional activities in the field of musicology, including delivering an in-house conference paper, serving as a respondent to a peer paper, and editing or publishing an article in Musicological Explorations. Provides a forum for Major program requirements leading up to the first year review.  
Note: May be taken more than once for credit in different topics.  
Grading: INC, COM, N, F.
MUS 580A - NRSC 501A

MUS 580A  Units: 2.0
Formerly: part of MUS 580
University Orchestra
Rehearses and performs orchestral repertoire from the Baroque to the present.
Notes:
• Credit will be granted for only one of MUS 580A, MUS 580.
• May be taken more than once for credit.
• Open to all students by audition.

MUS 580B  Units: 2.0
Formerly: part of MUS 580
University Wind Symphony
Rehearses and performs advanced repertoire for winds, brass and percussion.
Notes:
• Credit will be granted for only one of MUS 580B, MUS 580.
• May be taken more than once for credit.
• Open to all students by audition.

MUS 580C  Units: 2.0
Formerly: part of MUS 580
Don Wright Symphonic Winds
Rehearses and performs intermediate level repertoire for winds, brass and percussion.
Notes:
• Credit will be granted for only one of MUS 580C, MUS 580.
• May be taken more than once for credit.
• Open to all students.

MUS 580D  Units: 2.0
Formerly: part of MUS 580
Jazz Ensemble
Rehearses and performs a wide range of works, both old and new, for jazz ensemble.
Notes:
• Credit will be granted for only one of MUS 580D, MUS 580.
• May be taken more than once for credit.
• Open to all students by audition.

MUS 580E  Units: 2.0
Formerly: part of MUS 580
University Chorus
A large SATB choral ensemble that rehearses and performs a varied repertoire for mixed choir, and choral and orchestral works.
Notes:
• Credit will be granted for only one of MUS 580E, MUS 580.
• May be taken more than once for credit.
• Open to all students.

MUS 580F  Units: 2.0
Formerly: part of MUS 580
Chamber Singers
A select SATB choral ensemble performing both standard and lesser-known choral repertoire from a wide spectrum of composers and styles.
Notes:
• Credit will be granted for only one of MUS 580F, MUS 580.
• May be taken more than once for credit.
• Open to all students by audition.
• Previous choral experience and strong music skills are required.

MUS 580G  Units: 2.0
Formerly: part of MUS 580
University Women's Choir
A choral ensemble that rehearses and performs varied repertoire for women's voices.
Notes:
• Credit will be granted for only one of MUS 580G, MUS 580.
• May be taken more than once for credit.
• Open to all students by audition.

MUS 580H  Units: 2.0
Pacific Opera Victoria Chorus
Rehearses and performs operatic repertoire as part of the Pacific Opera Victoria professional season.
Notes:
• Credit will be granted for only one of MUS 580H, MUS 580.
• May be taken more than once for credit.
• Open to all students by audition.

MUS 581  Units: 1.0
Chamber Music
MMus candidates in Performance will normally register for both this course and 580 in each year of study. MA candidates in Musicology (with Performance) will normally select one of 580 or 581 each year, as determined in consultation with the supervisor.

MUS 588  Units: 1.0
MMus Practicum
Recital for performance candidates normally taken in first year.
Grading: INC, COM, N, F.

MUS 590  Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit with permission of the school.
Grading: INC, COM, N, F.

MUS 596  Units: 1.5
Lecture-Recital
A lecture-recital of substantial duration, its topic likely related to the student's thesis. For students in the MA program in Musicology with Performance.
Grading: INC, COM, N, F.

MUS 598A  Units: 1.5
MMus Practicum
Degree recital required for performance candidates in final year.
Grading: INP, COM, N, F.

MUS 598B  Units: 3.0
MMus Graduating Compositions
Project required for Music Technology candidates in final year.
Grading: INP, INC, COM, F.

MUS 598C  Units: 4.5
MMus Project
Grading: INC, COM, N, F.

MUS 598D  Units: 1.5
MMus Practicum
Students in the Master of Music (MMus) in Performance-Emphasis in String Quartet Program must complete a total of 3 recitals to fulfill this requirement.
Grading: INP, COM, N, F.

MUS 599  Units: 3.0
MA Thesis
Grading: INP, COM, N, F.

MUS 689  Units: 1.5
Dissertation Proposal
For candidates for the PhD in Musicology.
Grading: INP, COM, N, F.

MUS 690  Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit with permission of the school.
Grading: INC, COM, N, F.

MUS 693  Units: 3.0
PhD Candidacy Examinations
Students enrol in MUS 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed.
Grading: INC, COM, N, F.

NRSC
Neuroscience
Division of Medical Sciences

NRSC 500A  Units: 1.5
Formerly: part of NRSC 500
Fundamentals of Cellular Neuroscience
Provides a foundational basis in neuroscience. Comprehensive instruction in cellular molecular and systems neuroscience.
Note: Credit will be granted for only one of NRSC 500A, NRSC 500.
Prerequisite(s):
• Admission to the Neuroscience program; or
• permission of the Division.

NRSC 500B  Units: 1.5
Formerly: part of NRSC 500
Fundamentals of Cognitive Neuroscience
Provides a foundational basis in neuroscience. Comprehensive instruction in behavioral and cognitive neuroscience.
Note: Credit will be granted for only one of NRSC 500B, NRSC 500.
Prerequisite(s):
• Admission to the Neuroscience program; or
• permission of the Division.

NRSC 501A  Units: 1.5  Hours: 3-0-0
Advanced Topics in Cellular Neuroscience I
Seminar on current topics in Cellular Neuroscience.
Notes:
• For admitted Neuroscience students, this course is required in the first year of their program.
• The course runs from September to April.
• A grade of INP (in progress) will be given until the second enrolled term is completed.
NRSC 501A - NUED 570

**Course Listings**

**NRSC 501B - Advanced Topics in Cognitive Neuroscience I**
- **Units:** 1.5
- **Hours:** 3-0-0
- Seminar on current topics in Cognitive Neuroscience.

**Notes:**
- For admitted Neuroscience students, this course is required in the first year of their program.
- The course runs from September to April.
- A grade of INP (in progress) will be given until the second enrolled term is completed.

**NRSC 502A - Advanced Topics in Cellular Neuroscience II**
- **Units:** 1.5
- **Hours:** 3-0-0
- Seminar on current topics in Cellular Neuroscience.

**Notes:**
- Registration in NRSC 502A is mandatory (after completion of NRSC 501A) every year the student is enrolled in the graduate program.
- The course runs from September to April.

**Pre requisite(s):** NRSC 501A or NRSC 501B.

**Grading:** INP, COM, N, F.

**NRSC 502B - Advanced Topics in Cognitive Neuroscience II**
- **Units:** 1.5
- **Hours:** 3-0-0
- Seminar on current topics in Cognitive Neuroscience.

**Notes:**
- Registration in NRSC 502B is mandatory (after completion of NRSC 501B) every year the student is enrolled in the graduate program.
- The course runs from September to April.

**Pre requisite(s):** NRSC 501A or NRSC 501B.

**Grading:** INP, COM, N, F.

**NRSC 587 - Advanced Topics in Neuroscience**
- **Units:** 1.5-3.0
- Topics of current interest in Neuroscience.

**Notes:**
- May be taken more than once for credit in different topics with permission of the program.
- Pro Forma required.

**Pre requisite(s):** Permission of the program.

**NRSC 590 - Directed Studies in Neuroscience**
- **Units:** 1.5-3.0
- Research projects or directed readings.

**Notes:**
- May be taken more than once for credit in different topics with permission of the program.
- Pro Forma required.

**Pre requisite(s):** Permission of the program.

**NRSC 599 - MSc Thesis**
- **Units:** 9.0-12.0
- A thesis comprising an original scientific study and/or scientific analysis of a problem germane to contemporary neuroscience.

**Note:** Students who have completed equivalent prerequisites may request permission to register in the course.

**Pre requisite(s):**
- NRSC 595, or
- permission of the program.

**Grading:** INP, COM, N, F.

**NRSC 600A - Fundamentals of Cellular Neuroscience**
- **Formerly:** part of NRSC 600
- Provides a foundational basis in neuroscience and comprehensive instruction in cellular, molecular, and systems neuroscience.

**Notes:**
- Credit will be granted for only one of NRSC 600A, NRSC 600B.

**NRSC 600B - Fundamentals of Cognitive Neuroscience**
- **Formerly:** NRSC 600
- Provides a foundational basis in neuroscience and comprehensive instruction in behavioral and cognitive neuroscience.

**Notes:**
- Credit will be granted for only one of NRSC 600B, NRSC 600A.

**NRSC 601A - Advanced Topics in Cellular Neuroscience I**
- **Units:** 1.5
- Seminar on current topics in Cellular Neuroscience.

**Notes:**
- For admitted Neuroscience students, this course is required in the first year of their program.
- The course runs from September to April.
- A grade of INP (in progress) will be given until the second enrolled term is completed.

**NRSC 601B - Advanced Topics in Cognitive Neuroscience I**
- **Units:** 1.5
- Seminar on current topics in Cognitive Neuroscience.

**Notes:**
- For admitted Neuroscience students, this course is required in the first year of their program.
- The course runs from September to April.
- A grade of INP (in progress) will be given until the second enrolled term is completed.

**NRSC 602A - Advanced Topics in Cellular Neuroscience II**
- **Units:** 1.5
- Seminar on current topics in Cellular Neuroscience.

**Notes:**
- Registration in NRSC 602A is mandatory (after completion of NRSC 601A) every year the student is enrolled in the graduate program.
- The course runs from September to April.

**Pre requisite(s):** NRSC 601A or NRSC 601B.

**Grading:** INP, COM, N, F.

**NRSC 602B - Advanced Topics in Cognitive Neuroscience II**
- **Units:** 1.5
- Seminar on current topics in Cognitive Neuroscience.

**Notes:**
- Registration in NRSC 602B is mandatory (after completion of NRSC 601B) every year the student is enrolled in the graduate program.
- The course runs from September to April.

**Pre requisite(s):** NRSC 601A or NRSC 601B.

**Grading:** INP, COM, N, F.

**NRSC 687 - Advanced Topics in Neuroscience**
- **Units:** 1.5-3.0
- Topics of current interest in Neuroscience.

**Notes:**
- May be taken more than once for credit with permission of the program.
- Pro Forma required.

**Pre requisite(s):** Permission of the program.

**NRSC 690 - PhD Dissertation**
- **Units:** 1.5-3.0
- Research projects or directed readings.

**Notes:**
- May be taken more than once for credit with permission of the program.

**Pre requisite(s):** Permission of the program.

**NRSC 693 - Candidacy Examination**
- **Units:** 3.0
- The Candidacy exam will consist of a defense of a written proposal on the student’s proposed dissertation research project and an oral exam based on the background material and research components of the proposal. The exam committee will be composed of a chair and at least three examiners.

**Note:** Students enrol in NRSC 693 upon admission to the PhD program and remain enrolled until all candidacy requirements are complete.

**Grading:** INP, COM, N, F.

**NRSC 699 - Directed Studies in Neuroscience**
- **Units:** 21-39
- A dissertation containing an original scientific study which adds new knowledge to the field of neuroscience.

**Notes:**
- Students who have completed equivalent prerequisites may request permission to register in the course.
- Students possessing a MSc will require 21 units to fulfill the program requirements.
- Students possessing a BSc will require 30 units to fulfill the program requirements.

**Pre requisite(s):**
- NRSC 693; or
- permission of the program.

**Grading:** INP, COM, N, F.

**NUED**

**Nursing, Advanced Practice: Nurse Educator Option**

**School of Nursing**

**Faculty of Human and Social Development**

All nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

Courses offered by the School of Nursing are also found under the following course codes: NUHI, NUNP, NURA, NURP, and NURS.

**NUED 570 - Engaging with Pedagogy: Teaching and Learning in Nursing Education**
- **Units:** 1.5
- Prepares students to explore and critically examine the philosophical, theoretical and ethical perspectives informing pedagogy in nursing education.

**Note:** Credit will be granted for only one of NUED 570, NURA 530.
### NUED 571 - NUHI 599

**Critical Pedagogy in Nursing Education and Evaluation**

Students identify and critique ideologies and discourses relevant to teaching, learning, and evaluation.

**Note:** Credit will be granted for only one of NUED 571 or NUHI 598.

**Prerequisite(s):** NUED 570.

**Units:** 1.5

### NUED 572 - NUHI 599

**Intersectoral Course and Curriculum Design in Nursing Education**

Students apply theoretical and critical knowledge in the development of nursing curriculum, courses and learning activities for intersectoral nursing education practice.

**Note:** Credit will be granted for only one of NUED 572 or NUHI 598.

**Prerequisite(s):** NUED 570.

**Units:** 1.5

### NUED 573 - NUHI 599

**Nurse Educator Practice I**

Students will have opportunities to further integrate their evolving knowledge of Advanced Practice Nursing. Nurse Educator option through working with expert teachers in clinical, academic, and/or community settings.

**Pre- or Corequisite(s):** NUED 570.

**Grading:** INC, COM, N, F.

**Units:** 1.5

### NUED 574 - NUHI 599

**Students**

Integrate knowledge of Advanced Practice Nursing as a Nurse Educator through teaching practice and in clinical, academic and/or community settings.

**Prerequisite(s):**
- NUED 570 and NUED 573 or, per Faculty of Graduate Studies regulations.
- Permission of the department.

**Grading:** INC, COM, N, F.

**Units:** 1.5

### NUED 577 - NUHI 599

**Nursing, Advanced Practice:**

**Nurse Practitioner Option**

**School of Nursing**

**Faculty of Human and Social Development**

All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

Courses offered by the School of Nursing are also found under the following course codes: NUHI, NUED, NURA, NURS.

**Units:** 6.0

### NUED 578 - NUHI 599

**Thesis**

Students working independently, with faculty guidance from both Nursing and Health Information Science, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

**Grading:** INP, COM, N, F.

**Units:** 1.5

### NUED 591 - NUHI 599

**NUED 599 - NUHI 599**

**Advanced Assessment and Diagnostic Reasoning Theory**

The theoretical knowledge, judgment, skills, and abilities required by advanced practice nurses, to assess individuals across the lifespan, families and communities. Includes comprehensive and holistic health assessments that integrate the psychosocial, emotional, ethnic, cultural, and spiritual dimensions of health, health promotion and disease prevention, and diagnostic reasoning. Integration of an advanced practice nursing perspective will help students critique various approaches to assessment of health and illness.

**Notes:**
- Credit will be granted for only one of NUNP 540, NUNP 541, NUNP 542, NUNP 543, NUNP 544, NUNP 545, NUNP 546, NUNP 547, NUNP 548, NUNP 549, NUNP 540, NUNP 541, NUNP 542, NUNP 543, NUNP 544, NUNP 545, NUNP 546, NUNP 547, NUNP 548.

**Grading:** INP, COM, N, F.

**Units:** 1.5

### NUED 592 - NUHI 599

**Pharmacological Interventions in Health and Illness**

Students gain advanced knowledge of pharmacology, including pharmacokinetics and pharmacodynamics, as well as evidence informed practice in the selection, prescription and monitoring of drugs to treat diseases, conditions and injuries. Students learn to select drug therapy based on knowledge of pharmacology, drug interactions, client health history and disease, disorder or condition. Students prepare to write prescriptions that meet provincial and federal standards and legislative requirements, including responsibilities relevant to prescription and management of controlled substances.

**Units:** 1.5

### NUED 593 - NUHI 599

**Family Nurse Practitioner Integration Internship**

Designed to assist students in consolidating and applying the knowledge, skills and abilities from the NP program to their practice as family nurse practitioners. Students complete 200 practice hours under the supervision of a faculty instructor and practice mentor(s). Students will assume a leadership role in addressing gaps in health services, promoting continuity of care and fostering health prevention and promotion. There is a required onsite component.

**Note:** Students will be required to demonstrate knowledge and skills obtained in all of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 542, NUNP 543, NUNP 544, NUNP 545, NUNP 546, NUNP 547, NUNP 548 upon enrolment in NUNP 537 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 537.

**Prerequisite(s):** All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 542, NUNP 543, NUNP 544, NUNP 545, NUNP 546, NUNP 547, NUNP 548.

**Grading:** INP, COM, N, F.

**Units:** 1.5

### NUED 594 - NUHI 599

**NURS 531 - NUNP 537**

**Applied Pathophysiology**

Provides students with the advanced knowledge of pathophysiology required to understand, diagnose and treat health and illness in primary health care contexts. Includes an overview of individual and family growth and development as well as the epidemiology of health and disease across the lifespan. Students will learn about the etiology, signs and symptoms, assessment and treatment of common acute/episodic health conditions, diseases or disorders and chronic illnesses prevalent across the lifespan.

**Units:** 1.5

**NURS 532 - NUNP 537**

**Pharmacological Interventions in Health and Illness**

Students gain advanced knowledge of pharmacology, including pharmacokinetics and pharmacodynamics, as well as evidence informed practice in the selection, prescription and monitoring of drugs to treat diseases, conditions and injuries. Students learn to select drug therapy based on knowledge of pharmacology, drug interactions, client health history and disease, disorder or condition. Students prepare to write prescriptions that meet provincial and federal standards and legislative requirements, including responsibilities relevant to prescription and management of controlled substances.

**Units:** 1.5

**NURS 533 - NUNP 537**

**Family Nurse Practitioner Integration Internship**

Designed to assist students in consolidating and applying the knowledge, skills and abilities from the NP program to their practice as family nurse practitioners. Students complete 200 practice hours under the supervision of a faculty instructor and practice mentor(s). Students will assume a leadership role in addressing gaps in health services, promoting continuity of care and fostering health prevention and promotion. There is a required onsite component.

**Note:** Students will be required to demonstrate knowledge and skills obtained in all of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 542, NUNP 543, NUNP 544, NUNP 545, NUNP 546, NUNP 547, NUNP 548 upon enrolment in NUNP 537 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 537.

**Prerequisite(s):** All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 542, NUNP 543, NUNP 544, NUNP 545, NUNP 546, NUNP 547, NUNP 548.

**Grading:** INP, COM, N, F.

**Units:** 1.5

### NUED 595 - NUHI 599

**NURS 531 - NUNP 540**

**Advanced Assessment and Diagnostic Reasoning Theory**

The theoretical knowledge, judgment, skills, and abilities required by advanced practice nurses, to assess individuals across the lifespan, families and communities. Includes comprehensive and holistic health assessments that integrate the psychosocial, emotional, ethnic, cultural, and spiritual dimensions of health, health promotion and disease prevention, and diagnostic reasoning. Integration of an advanced practice nursing perspective will help students critique various approaches to assessment of health and illness.

**Notes:**
- Credit will be granted for only one of NUNP 540, NUNP 541.
- A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite course they may be required to complete both corequisites again the next time they are offered.
- Students will be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540 upon enrolment in NUNP 540 and NUNP 541 if 12 months or more has lapsed between their completing these courses and enrolling in NUNP 540 and NUNP 541.

**Prerequisite(s):** NUNP 531 and NUNP 532.

**Corequisite(s):** NUNP 541.

**Units:** 1.5
NUNP 541  Units: 1.5
Advanced Assessment and Diagnostic Reasoning Practice
An opportunity for 150 hours of practice experience through the application of theoretical knowledge required by advanced practice nurses, to assess individuals across the lifespan, families and communities. The focus is on the development of students’ knowledge, skills and abilities related to the application of core nurse practitioner (NP) competencies of client care, quality improvement and research, leadership, and education. There will be two required onsite components in this course.
Notes:
• Credit will be granted for only one of NUNP 541, NUNP 533.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite course they may be required to complete both corequisites again the next time they are offered.
• Students will be required to demonstrate knowledge and skills obtained in NUNP 531 and NUNP 532 upon enrolment in NUNP 540 and NUNP 541 if 12 months or more has lapsed between their completing these courses and enrolling in NUNP 540 and NUNP 541.
Prerequisite(s): NUNP 531 and NUNP 532.
Corequisite(s): NUNP 540.
Grading: INC, COM, N, F.

NUNP 543  Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: I (Theory) (Adult I)
Advanced practice nursing with persons who experience episodic illness conditions, chronic diseases, and complex health challenges. Particular attention is paid to theoretical perspectives and skill development related to nurse practitioner core competencies with culturally diverse young to middle-aged adults and families. Selected concepts, theories, and research associated with health promotion and maintenance, and illness prevention are explored within the community context. Students will receive a letter grade upon completion.
Notes:
• Credit will be granted for only one of NUNP 543, NUNP 534, NUNP 550.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite course they may be required to complete both corequisites again the next time they are offered.
• Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540 and NUNP 541 upon enrolment in NUNP 543/544 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 543/544.
Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541.
Corequisite(s): NUNP 543.
Grading: INC, COM, N, F.

NUNP 544  Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing: I (Practice) (Adult I)
An opportunity for 150 hours of practice experience through which students engage in advanced practice nursing under the guidance of a course instructor and clinical preceptor. Integration of philosophical, theoretical, and methodological perspectives gleaned from 543 as well as from core courses within the program is sought. There will be a required onsite component to this course. Upon completion of the practice component, students will receive a pass/fail grade.
Notes:
• Credit will be granted for only one of NUNP 544, NUNP 534, NUNP 551.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
• Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540 and NUNP 541 upon enrolment in NUNP 543/544 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 543/544.
Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541.
Corequisite(s): NUNP 543.

NUNP 545  Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing Theory II
Advanced practice nursing with persons who experience episodic illness conditions, chronic diseases, and complex health challenges. Particular attention is paid to theoretical perspectives and skill development related to nurse practitioner core competencies with culturally diverse childbearing families, infants, children, adolescents, and pregnant women. Health promotion and illness prevention are explored within the community context. After completion of the theory component, students will receive a letter grade.
Notes:
• Credit will be granted for only one of NUNP 545, NUNP 535, NUNP 560.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
• Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543 and NUNP 544 upon enrolment in NUNP 545 and NUNP 546 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 545 and NUNP 546.
Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543.
Corequisite(s): NUNP 545.
Grading: INC, COM, N, F.

NUNP 546  Units: 1.5
Integrated Primary Health Care and Advanced Practice Nursing Theory III
Advanced practice nursing with persons experiencing episodic illness conditions, chronic diseases, and complex health challenges. Particular attention is paid to theoretical perspectives and skill development related to nurse practitioner core competencies with culturally diverse older adults and families. Selected concepts, theories, and research associated with health promotion and maintenance, illness prevention, chronic disease management, and end of life care are explored within the community context. Upon completion students receive a letter grade.
Notes:
• Credit will be granted for only one of NUNP 547, NUNP 534, NUNP 550.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
• Students will be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544, NUNP 545, and NUNP 546 upon enrolment in NUNP 547 and NUNP 548 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 547 and NUNP 548.
Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544, NUNP 545, NUNP 546.
Corequisite(s): NUNP 548.
NUNP 548 Units: 1.5
Integrated Primary Health Care and Adv Pract Nurs Practica III

An opportunity for 150 hours of practice experience through which students engage in advanced practice nursing under the guidance of a course instructor and clinical preceptor. Integration of philosophical, theoretical and methodological perspectives gleaned from 547 as well as from core courses within the program is sought. There will be a required onsite component to this course. At the completion of the practice component, students will receive a pass/fail grade.

Notes:
• Credit will be granted for only one of NUNP 548, NUNP 534, NUNP 551.
• A student must pass both theory and practice corequisites to advance to the next set of corequisite theory and practice courses. If a student fails one corequisite they may be required to complete both corequisites again the next time they are offered.
• Students may be required to demonstrate knowledge and skills obtained in NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, and NUNP 544, NUNP 545, and NUNP 546 upon enrollment in NUNP 547 and NUNP 548 if 12 months or more have lapsed between completing prerequisite courses and enrolling in NUNP 547 and NUNP 548.

Prerequisite(s): All of NUNP 531, NUNP 532, NUNP 540, NUNP 541, NUNP 543, NUNP 544, NUNP 545, NUNP 546.
Corequisite(s): NUNP 547.
Grading: INC, COM, N, F.

NUNP 593 Units: 1.5
Capstone Synthesis

The culminating educational experience for NP students, and the singular opportunity for faculty members to assess students’ evolution toward the terminal goals of the MN-NP program. Serves as an evaluation instrument in which students demonstrate their synthesis of coursework, knowledge, skills and experiential learning, to reveal a broad mastery of their learning across the curriculum in preparation for successful registration, initial employability and further career advancement.

Grading: INC, COM, N, F.

NURA Nursing, Advanced Practice: Nurse Leadership Option
School of Nursing
Faculty of Human and Social Development

All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

Courses offered by the School of Nursing are also found under the following course codes: NUED, NUHI, NUNP, NURA, and NURP.

NURA 516 Units: 1.5
Advancing Nursing Practice
Exploration of advanced practice nursing leadership roles and competencies with a focus on the patient/client and the nurses/nursing spheres of influence. Collaboration and consultation competencies as they relate to client-centred care and interprofessional/intersectoral teams and working with organizations will also be explored.

Pre- or Corequisite(s):
• NURS 520; or
• permission of the department.

NURA 517 Units: 1.5
Leading in Practice

Integration of students’ evolving knowledge of Advanced Practice Nursing through practice with a particular population. In collaboration with faculty and a field guide, students develop a personalized learning plan that focuses on clinical leadership, consultation, collaboration and research competencies. Students also participate in an online community with their peers for a total of 104 practice hours.

Pre- or Corequisite(s):
• NORA 516; or
• permission of the department.

NURA 518 Units: 1.5
Scholarly Writing for Advanced Practice Nursing

Provides an applied approach to the concepts, conceptual frameworks, procedures and techniques of evidence-based health policy and politics. Through learning activities and in collaboration with a field guide, students engage in a minimum of 104 practice hours to

Pre- or Corequisite(s):
• NURA 516; or
• permission of the department.

Grading: INC, COM, N, F.

NURA 519 Units: 1.5
Leadership for Health Systems

Exploration of the influences and effects of contemporary leadership practices related to health systems and organizations. The impact of current organizational structures and discourses on the delivery of health care, development of health policy and enactment of advanced practice nursing will be explored.

Pre- or Corequisite(s):
• NURA 516; or
• permission of the department.

NURS Nursing
School of Nursing
Faculty of Human and Social Development

All Nursing courses are open to Nursing students only unless otherwise noted in the course description. When a course is oversubscribed, preference will be given to Nursing students who are closest to graduation. Contact the School of Nursing or refer to current timetable for course offerings.

Courses offered by the School of Nursing are also found under the following course codes: NUED, NUHI, NUNP, NURA, and NURP.

NURS 500 Units: 1.5
Scholarly Writing for Advanced Practice Nursing

Review of academic writing fundamentals and processes. Students select topics relevant to their program focus and write a summation/critique of scholarly literature, a limited literature review, and an argument paper. Students learn to participate in peer review and revision to improve their writing.

NURS 503 Units: 1.5
Qualitative Approaches to Research in Nursing

Nursing phenomena are considered through a range of qualitative research approaches. Central to this process is an exploration of interrelationships between and among philosophical tenets and the construction of research questions, selection of methods, and theoretical influences on data interpretation and analysis for a range of qualitative approaches to research.

Pre requisite(s):
• NURS 508; or
• permission of the school.

NURS 509 Units: 1.5
Evaluation of Health Care

Exploration of concepts, theories and strategies for evaluating nursing care and health programs/services as applied to a range of health care settings.

Pre requisite(s):
• NURS 508 and NURS 516; or
• permission of the school.

NURS 510 Units: 1.5
Applied Statistics in Nursing

Students will develop familiarity with advanced statistical methods as they are applied to nursing and health care. These will include multiple linear regression, factor analysis, and multivariate analysis of variance. A brief introduction to structural equation modelling and psychometric methods may be offered.

Pre requisite(s):
• NURS 425; or
• permission of the school.

NURS 520 Units: 1.5
Philosophy for Advanced Practice Nursing

Explores philosophical discourses in the study of nursing, and introduces a philosophical framework that includes ontological, epistemological, and ethical knowledge for critique and expansion, including Indigenous perspectives. Emphasis is placed on paradigms of belief that inform and support innovation and creativity for human flourishing in advanced practice nursing.

Note: Credit will be granted for only one of NURS 520, NURS 506, NURA 511, NURA 512.
**NURS 521 - Units: 1.5**

**Formerly: NURS 507**

**Advanced Practice Nursing and Professional Identity**

Explores nursing as an academic field of study with emphasis on theories, including Indigenous perspectives that inform and shape the discipline of nursing, professional identity, and advanced practice nursing. Critique, expansion, and limits of theory are examined within a philosophical framework of ontological, epistemological, and ethical congruence.

*Note:* Credit will be granted for only one of NURS 521, NURS 507, NURA 512, NURA 513.

*Prerequisite(s):* NURS 520.

---

**NURS 522 - Units: 1.5**

**Formerly: NURS 514**

**Nursing Ethics for Health System Transformation**

Explores various theories, including decolonizing practices and Indigenous perspectives that inform ethics for advanced practice nursing, collaboration, decision-making, and change in light of health care system trends, issues and roles for nurses. Critique, expansion, and limits of ethics are examined within a philosophical framework of ontological, epistemological, and ethical congruence.

*Note:* Credit will be granted for only one of NURS 522, NURS 514, NURA 514.

*Prerequisite(s):* NURS 520.

---

**NURS 524 - Units: 1.5**

**Formerly: NURS 502B**

**Evidence for Advanced Practice Nursing**

Critique, expansion and limits of research are examined within a researcher pathway and philosophical framework. Understand and develop competencies of knowledge synthesis and statistical literacy as a basis for using evidence in advanced practice nursing and health policy. Distinguish among quality improvement, program evaluation and research.

*Notes:*
- Credit will be granted for only one of NURS 524, NURS 502B, NURS 508, NURA 515.
- Students who have equivalent undergraduate level statistics and research course successfully completed within the past five years may request permission of the school to register in the course.

---

**NURS 525 - Units: 1.5**

**Formerly: NURS 502A**

**Disciplinary Research for Advanced Practice Nursing**

Develop an understanding of research processes comprising critical analysis of existing knowledge, including Indigenous perspectives, creating relevant research questions, discerning appropriate methodologies, and critiquing research within interpretive approaches and statistical literacy. Critique, expansion, and limits of research are examined within a researcher pathway, philosophical framework, and the integral role of research in advanced practice nursing.

*Notes:*
- Credit will be granted for only one of NURS 525, NURS 502A, NURS 507, NURS 508, NURA 512, NURA 513.
- Students who have equivalent undergraduate level statistics and research course successfully completed within the past five years may request permission of the school to register in the course.

---

**NURS 549 - Units: 1.5**

**Health Services Research**

This course introduces nurses to health services research and examines the contributions that nurses make to this field of inquiry and to the health care system. Issues of significance for nurses and the knowledge nurses need to understand and engage in nursing health services research are explored. Key concepts such as population health, health care delivery, health policy, quality of care and related research methods will be examined.

*Prerequisite(s):* permission of the department.

---

**NURS 568 - Units: 1.5**

**Trends and Issues in Advanced Practice Nursing**

Students have the opportunity to explore the notion of advanced practice nursing (APN) and to consider the mandate, competencies, and divergent perspectives and knowledge bases related to APN as they challenge and extend the boundaries of nursing practice and advance the profession. Students will consider issues related to the definitions, competencies, legal, and ethical issues related to APN locally, nationally and internationally.

*Note:* Not open for credit to students with credit in all of NURS 565, NURS 566, NURS 567.

*Grading:* INC, COM, N, F.

---

**NURS 590 - Units: To be determined**

**Directed Studies**

An opportunity for students to develop individual studies at the graduate level (e.g., directed readings, research project etc.) with the supervision of one or more faculty members. A plan of study including focus, credit value and evaluation method is developed in consultation with a faculty member and must be approved by the graduate adviser prior to registering in this course.

*Notes:*
- May be taken more than once for credit in different topics with permission of the school.
- Pro Forma required.

---

**NURS 596 - Units: 1.5**

**Nursing Scholarship Integration Dissemination**

Exploration of creative ways to integrate and disseminate what students have learned from the Master of Nursing program. Students produce a scholarly paper, present their work, and respond to questions.

*Note:* Credit will be granted for only one of NURS 596, NURS 598.

*Grading:* INC, COM, N, F.

---

**NURS 598 - Units: 3.0**

**Practice Project**

Students will complete a project that is creative, innovative and contributes to scholarly nursing practice in an area of professional interest. The project is intended to facilitate synthesis of students’ graduate experience and contribute to their development as advanced practice nurses. The project is an alternative to the Thesis Option (NURS 599).

Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

*Notes:*
- Credit will be granted for only one of NURS 598, NURS 596.
- The examining committee of a student sitting a non-thesis oral will be comprised of a supervisor, a committee member and a Chair.

*Grading:* INP, INC, COM, N, F.

---

**NURS 599 - Units: 6.0**

**Thesis**

Students working independently, with faculty guidance, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student’s supervisory committee. The thesis option is an alternative to the Practice Project (NURS 598). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.

*Grading:* INP, COM, N, F.

---

**NURS 601 - Units: 1.5**

**Philosophy in Nursing**

Explores the range of philosophical schools of thought and traditions that have influenced the development of nursing knowledge in the Western world. Students examine contemporary philosophical perspectives to prepare students to participate in and contribute to knowledge development that will shape the evolution of the discipline.

---

**NURS 602 - Units: 1.5**

**Epistemological Discourses in the Study of Nursing**

Explores the current state of theorizing that underpins nursing’s disciplinary and knowledge claims.

*Pre- or Corequisite(s):*
- NURS 601;
- permission of the department.

---

**NURS 604A - Units: 1.5**

**Formerly: NURS 604**

**Research Methodology for Nursing and Health Care: Qualitative**

Explores assumptions and claims underlying qualitative methodologies that inform research in professional nursing practice and health care.

*Notes:*
- Credit will be granted for only one of NURS 604, NURS 604A.
- NURS 604A is not a pre- or co-requisite of NURS 604B.

*Prerequisite(s):* NURS 601.

---

**NURS 604B - Units: 1.5**

**Formerly: NURS 604**

**Research Methodology for Nursing and Health Care: Quantitative**

This portion of the course will explore assumptions and biases underlying various quantitative methodologies that inform research in professional nursing practice and health care. We will examine quantitative research designs with particular emphasis on their appropriateness for addressing nursing and health problems. Issues specific to the design of nursing health care studies are explored.

*Notes:*
- Credit will be granted for only one of NURS 604, NURS 604B.
- NURS 604B is not a pre- or co-requisite of NURS 604A.

*Prerequisite(s):* NURS 601.
NURS 620 - Units: 1.5 or 3.0
Research Internship
Research Internships are arranged with a specific faculty member and may be taken over one or several terms. During the Research Internship, the student will engage in various activities related to the discipline, including research, teaching and other professional responsibilities. The student will work under the supervision of a faculty member and will be evaluated based on their performance and contributions to the project.

Note: Permission of the school required. Grading: INP, COM, N, F.

NURS 621 - Units: 1.5
Doctoral Seminar
The seminar is designed to provide students with opportunities to reflect on their research and scholarship experiences and discuss ideas with their peers. Students will present their research in a seminar setting, receive feedback from peers and faculty, and engage in discussions about research methodology and critical thinking.

Note: This seminar course takes place over two terms. Grading: INP, COM, N, F.

NURS 622 - Units: 1.5
Dissertation Seminar
This seminar provides students with opportunities to engage in dialogue about their dissertation research, including reviewing and discussing their ongoing research and seeking feedback from their peers and faculty. Students will present their research in a seminar setting, receive feedback from peers and faculty, and engage in discussions about research methodology and critical thinking.

Note: Permission of the school required. Grading: INP, COM, N, F.

NURS 630 - Units: 1.5 or 3.0
Teaching Internship
Teaching Internships are arranged with a specific faculty member and may be taken over one or several terms. During the Teaching Internship, the student will engage in various activities related to teaching, including developing lesson plans, preparing content and assessing students' progress. The student will work under the supervision of a faculty member and will be evaluated based on their performance and contributions to the project.

Note: Permission of the school required. Grading: INP, COM, N, F.

NURS 679 - Units: 1.5-4.5
Research and Scholarship Seminar
Based on an understanding of scholarship as a social and communal activity, the course provides students with opportunities to have conversations about research, scholarly activity, and topics relevant to becoming stewards of the discipline. Students and faculty will engage in various activities related to research, including developing research questions, selecting appropriate methodologies and presenting their research to an audience.

Note: May be taken more than once for credit with permission of the program to a maximum of 4.5 units. Grading: INP, COM, N, F.

NURS 680 - Units: 1.5-4.5
Special Topics in Research Methods
Based on student demand, courses on the following focused topics will be offered: qualitative research methods, critical thinking skills, and research ethics. Students are expected to engage in various activities related to research, including developing research questions, selecting appropriate methodologies and presenting their research to an audience.

Note: May be taken more than once for credit with permission of the school to a maximum of 4.5 units. Grading: INP, COM, N, F.

NURS 690 - Units: 1.5 or 3.0
Directed Studies
Provides opportunities for students to develop individual studies at the doctoral level (e.g., directed readings, research project etc.) with the supervision of one or more faculty members. A plan of study including focus, credit value and evaluation method is developed in consultation with a faculty member and must be approved by the graduate advisor prior to registering in this course. We encourage students interested in a research topic to register for a NURS 680 course and can, with permission of their program supervisor, enroll in as many as 4.5 units of NURS 680 coursework.

Note: May be taken more than once for credit in different topics. Grading: INP, COM, N, F.

NURS 693 - Units: 3.0
Candidacy Examination
Students enrol in NURS 693 to prepare for their candidacy examinations. This course includes: 1) preparing a full thesis proposal, 2) successfully defending a research proposal, and 3) successfully passing an oral examination. Students will be expected to demonstrate a high level of knowledge and understanding of their research topic.

Note: Permission of the school required. Grading: INP, COM, N, F.

NURS 699 - Units: 30.0
Dissertation
All doctoral students are required to prepare a dissertation upon which a public examination and defense is conducted. The dissertation must qualify as a significant and original contribution to disciplinary knowledge.

Note: May be taken more than once for credit with permission of the school to a maximum of 4.5 units. Grading: INP, COM, N, F.

PAAS 500 - Units: 1.5
Theories of Pacific Region Societies
Offers a critical review of contemporary social theory pertinent to the study of Pacific and Asian societies. Drawing on various scholarly approaches from the fields of sociology, anthropology, political science and history, readings will address the institutions, mechanisms and values involved in social, cultural and political transformations. Focuses on current theory about the nature and scope of globalization, commodification, or modernization, with particular emphasis on the effect of these on local social and cultural practice.

PAAS 501 - Units: 1.5
Cultural, Linguistic and Literary Theories in Asia-Pacific Studies
Offers a critical review of contemporary cultural and literary theory pertinent to the study of Pacific and Asian societies. Drawing on various scholarly approaches from Marxism, post-structuralism, semiotics, feminist psychoanalysis, and critical art history, readings will address the often implicit meanings and conceptual boundaries encoded in cultural and artistic products. Explores the consequences of modernization and global vs. local realms, with a focus on the disturbances and complexities they generate in the subjective realm, where they often form the basis of creative expressions.

PAAS 520 - Units: 1.5
Special Topics in Pacific Studies
Focuses on an area of faculty specialization. The topic will vary but may include one of the following: migration studies; state and civil society; the politics of culture; global and local relations; and gender and ethnic identity.

PAAS 521 - Units: 1.5
Special Topics in Asia-Pacific Literature, Linguistics and Culture
Focuses on an area of faculty specialization. The topic will vary but may include one of the following: theatre studies; postcolonial literature; linguistics; popular culture; cinema studies; and critical assessments of the works of individual authors and artists.

PAAS 550 - Units: 1.5
Research Methodologies
Required of all graduate students. We will work through the mechanisms of designing a thesis, from initial conceptualization through to methodologies and analysis. Students will design a full thesis proposal and participate in a mock defense.

PAAS 580 - Units: 1.5
Advanced Readings in Japanese, Chinese or Indonesian
Critical reading and analysis of advanced works in the original language.
PAAS 590 Units: 1.5
Directed Studies
A directed readings course, to be taken with the thesis supervisor, which will allow students to develop in-depth understanding of their topic/area of specialization.
Note: May be taken more than once for credit in different topics to a maximum of 3 units.

PAAS 599 Units: 6.0-9.0
MA Thesis
Grading: IP, COM, N, F.

PADR
Public Administration Dispute Resolution
School of Public Administration
Faculty of Human and Social Development

PADR 501 Units: 1.5
Collaboration and Engagement
The 21st century workplace requires conflict resolution competence and collaborative skills to work effectively in public and non-profit sector environments. Prepares students to anticipate, identify, assess, prevent, mitigate, and manage or resolve conflict. A critical approach to theory and practice is adopted and three distinctive areas of learning are woven together: integral theory and conflict analysis; negotiation; and facilitation.
Prerequisite(s): Admission to MA program in Dispute Resolution or admission to MPA program (on campus).

PADR 502 Units: 1.5
Analysis for the Public and Non-Profit Sectors
Formerly: PADR 502A
Provides an intensive introduction to qualitative and quantitative approaches and methods for research, policy analysis, evaluation and other analytical projects in the public and non-profit sectors. Offers students opportunities to learn and apply methodologies for evidence-informed decisions in organizational and inter-organizational settings.
Note: Credit will be granted for only one of PADR 502, PADR 502A, ADMN 502A, DR 515, CD 505.
Prerequisite(s): Admission to MA program in Dispute Resolution or admission to MPA program (on campus).

PADR 503 Units: 1.5
Professional Integrity in the Public and Non-Profit Sectors
Builds professional competencies and reflective practice skills for those working in the public and non-profit sectors. Using a case-based approach, topics include: ethical dilemmas and management of disputes, the issues of personal responsibility and accountability; loyalty to employer; political and professional neutrality and obligations to the public interest; conflict of interest; confidentiality and transparency; and privacy protection. Students study standards of conduct established in both sectors and the philosophical theories which underpin them.
Note: Credit will be granted for only one of PADR 503, ADMN 422, ADMN 554, DR 512.
Prerequisite(s): Admission to MA program in Dispute Resolution or admission to MPA program (on Campus).

PADR 504 Units: 1.5
Leadership, Management, Ethics
Introduces theories of leadership, management development and practice, and ethics. Examines the role of leaders, managers and conflict specialists as agents of positive influence in complex socio-technical systems. Leadership, management and dispute resolution competencies are introduced and developed in individual, team, organizational, and inter-organizational contexts. Studies ethical matters: confidentiality, loyalty, political and professional neutrality, conflict of interest, privacy protection, transparency. Students apply concepts to self, others (as team members), leaders and managers.
Note: Credit will be granted for only one of PADR 503, PADR 504, ADMN 507, DR 511.
Prerequisite(s): Admission to MA Thesis Option (on Campus) program.

PADR 505 Units: 1.5
Policy-making and Policy Communities
Students learn about the public policy-making process and develop skills in the art and craft of policy analysis. Introduces key concepts and theories and then builds skills and knowledge with information-gathering exercises, case studies, and preparation and presentation of decision briefs. Students review policy-making in a broad context, pulling together evidence and different analytical lenses for a variety of organizations and identify and recommend strategies and develop workable implementation and communication plans.
Note: Credit will be granted for only one of PADR 505, ADMN 556.
Prerequisite(s): Admission to MA program in Dispute Resolution or admission to MPA program (on Campus).

PADR 589 Units: 0 Hours: 1.5-0-0
Formerly: ADMN 589, DR 589
Co-op Seminar: Introduction to Professional Practice
Discusses the nature of co-operative education experiential expectations, how to bring learning into the co-op experience, and the services provided by the School of Public Administration Co-op Office. Guidance on how to succeed in co-op placements is provided: preparing résumés and covering letters, interviewing, networking, job development, managing diversity. Attendance at this non-credit course is required for all MADR and MPA On Campus students.
Notes:
• Credit will be granted for only one of PADR 589, ADMN 589, DR 589.
• Offered in the Fall academic term only.
Grading: INC, COM, N, F.

PHIL
Philosophy
Department of Philosophy
Faculty of Humanities

PHIL 500 Units: 1.5 or 3.0
Topics in Philosophy
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 514 Units: 1.5 or 3.0
Topics in Philosophy of Mind
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 521 Units: 1.5 or 3.0
Topics in Philosophy of Science
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 530 Units: 1.5 or 3.0
Topics in Logic
Note: May be taken more than once for credit in different topics with approval of the department.

PHIL 533 Units: 1.5 or 3.0
Topics in Applied Philosophy
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 534 Units: 1.5 or 3.0
Topics in Ethics
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 535 Units: 1.5 or 3.0
Topics in Social and Political Philosophy
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 541 Units: 1.5 or 3.0
Topics in Aesthetics
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 551 Units: 1.5 or 3.0
Topics in Epistemology
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 552 Units: 1.5 or 3.0
Formerly part of PHIL 551
Topics in Metaphysics
Notes:
• Credit will be granted for only one of PHIL 552, PHIL 551 (if taken in the same topic).
• May be taken more than once for credit in different topics with permission of the department.

PHIL 561 Units: 1.5 or 3.0
Topics in Philosophy of Language
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 570 Units: 1.5 or 3.0
Formerly part of PHIL 551
Topics in Logic
Note: May be taken more than once for credit in different topics with permission of the department.

PHIL 590 Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit in different topics with permission of the department.
PHIL 591 - PHSP 542

PHIL 591 Units: 1.5
Research Methods Seminar
Exclusively for graduate students in philosophy. Aims to help students broaden their reading base and deepen their communication and critical skills by engaging with philosophical works and core issues in a variety of fields.

PHIL 592 Units: 1.5
Professional Development Practicum
Students must attend and demonstrate participation in philosophy colloquia, including regular pre-seminars, throughout the year. Attendance and evidence of participation will be tracked by the Graduate Adviser and Graduate Coordinator.
Grading: COM, N, F.

PHIL 598 Units: 4.5
Major Research Project
Students must complete a Major Research Project under the guidance of a supervisor and committee member. This project will normally take the form of a journal article-type submission. Normally the Major Research Project will be completed during the Summer Session following the first Winter Session. The Major Research Project is subject to Oral Examination by a committee.
Grading: INP, COM, N, F.

PHIL 693 Units: 3.0
Candidacy Examination
Grading: INP, COM, N, F.

PHIL 699 Units: 18.0
PhD Dissertation
Prerequisite(s): PHIL 693.
Grading: INP, COM, N, F.

PHSP
Public Health and Social Policy
School of Public Health and Social Policy
Faculty of Human and Social Development

PHSP 501 Units: 1.5
Public Health Epidemiology
An applied approach grounded in population-based data. Focuses on the distributions and determinants of health, disease, disability and mortality. Topics include: characteristics and dynamics of health and disease in human populations, including epidemiological strategies in examining the natural history of disease and the impact of disease on the population, population health assessment, surveillance and emerging social epidemiological models that attend to complex models of causation.

PHSP 502 Units: 1.5
Public Health Biostatistics
Uses an approach grounded in population-based data. Builds upon PHSP 501, and focuses on understanding health inequities across diverse settings and populations using biostatistics and epidemiological data to understand the life course determinants of health. Includes an overview of design and analysis of health-related data collection methods including survey methods. The basic concepts and methods of epidemiological biostatistical analysis are covered.
Prerequisite(s): PHSP 501.

PHSP 503 Units: 1.5
Public Health Practice I: Population Health and Health Promotion
Contributes to students’ theoretical and practical understanding of population health and its determinants as well as diverse constructions of health as a foundation for health promotion. Considers health promotion principles, models and approaches as well as inequalities in health in the context of social justice and cultural safety. Fosters understanding of health and its determinants, health inequities in Canada and globally, and a more in-depth understanding of at least one area of health promotion.

PHSP 504 Units: 1.5
Supportive Environments and Healthy Public Policy
Social environmental factors that impact the health of the community. Using a social-ecological model, attends to understanding the integral role of policy in the development of supportive environments. With an emphasis on critical analysis of health policy, students explore the development of healthy public policy in the management of public health concerns.

PHSP 505 Units: 1.5
Public Health Practice II: Public Health Interventions
Focuses on the range of evidence-informed public health interventions employed in public health practice. Based on the BC Core Public Health Functions Framework, examines strategies used to improve the health of a population including provision of public health prevention and improvement programs, disease and injury prevention, environmental health and health emergency management; strategies for health protection, health promotion, disease surveillance; public health capacity and infrastructure; the impact of public health services on health inequity.

PHSP 506 Units: 1.5
Public Health Research and Evaluation
Emphasis on evidence-informed practice, and examining community-based research strategies to explicate applied knowledge within the field of public health. Topics include literature synthesis approaches; program evaluation; qualitative research methods; and mixed methods.

PHSP 507 Units: 1.5
Practicum
All graduate diploma students are required to complete a 225 hour practicum. This planned, supervised and evaluated practicum will usually be completed at the end of the student’s program of study. Graduate diploma students who complete the diploma and wish to then complete the Master of Public Health will be required to take PHSP 508B.
Prerequisite(s): All of PHSP 501, PHSP 503, PHSP 505.
Corequisite(s): PHSP 507.
Grading: INP, COM, INC, N, F.

PHSP 508A Units: 1.5
Culminating Report
Formerly: PHSP 508
As a culmination of the practicum experience all Graduate Diploma students are required to complete a report that demonstrates a synthesis and integration of coursework and other learning experiences in preparation for professional public health practice. Graduate diploma students who complete the diploma and wish to then complete the Master of Public Health will be required to take PHSP 508B.
Prerequisite(s): All of PHSP 501, PHSP 503, PHSP 505.
Corequisite(s): PHSP 507.
Grading: INP, COM, INC, N, F.

PHSP 508B Units: 3.0
Culminating Report
As a culmination of the practicum experience all Master of Public Health students are required to complete a report that demonstrates a synthesis and integration of coursework and other learning experiences in preparation for professional public health practice.
Notes:
• Credit will be granted for only one of PHSP 508B, PHSP 590 (if taken in the same topic).
• Students who register in PHSP 589 for 1.5 units over two terms may enrol in PHSP 506 concurrently.
Prerequisite(s): All of PHSP 501, PHSP 502, PHSP 503, PHSP 504, PHSP 505, PHSP 506.
Corequisite(s): PHSP 589.
Grading: INP, COM, INC, N, F.

PHSP 540 Units: 1.5
Knowledge Development in Public Health Nursing
Examines the history of public health nursing focusing on exemplary leaders engaged in creating change in their community. The emergence of nursing knowledge and understanding public health nursing as a synthesis of public health and nursing science is emphasized. Includes a critical examination of the roles of nurses in public health as well as exploring exemplary nurse led community based programs, services and policies related to disease prevention, health promotion and primary health care.

PHSP 541 Units: 1.5
Social Justice and Public Health Nursing
Emphasis on social justice as a philosophical base for public health nursing. From a critical perspective, students explore and compare theories of social justice. Drawing on personal and professional experience and using case examples, students explore the embodiment of social justice as ethical nursing practice.
Note: A requirement of this course is a condensed five-day on-campus seminar.

PHSP 542 Units: 1.5
Advanced Public Health Nursing Practice
Focuses on leadership and the conceptualization and application of advanced practice in public health nursing. Students engage in a critical analysis of advanced practice nursing as it relates to public health in Canadian and comparative contexts. Professional issues and advanced practice strategies are explored.
PHSP 543  Units: 1.5
Social Justice in Public Health
Explores social justice approaches to population health within inter-professional public health practice. Drawing on professional and personal experiences, students examine current public health priorities with a focus on health equity and health disparity.

PHSP 550  Units: 1.5
Perspectives in Social Policy and Public Health
Informed by values of social justice, equity and diversity, focuses on a range of theoretical and practical perspectives that critically assess social policy and practice and public health issues in Canada in historical, contemporary and comparative contexts.
Note: A requirement of this course is a condensed five-day on-campus seminar.

PHSP 551  Units: 1.5
Social Values, Ideologies, and Policy Analysis
Addresses how social determinants of health and well-being, including existing patterns of cultural, economic and political relations and resources, impact public policies and practices; and, in turn, how healthy public policy can positively affect social environments and determinants in Canadian communities and society.
Graduate course in the Public Health and Social Policy program administered by the Faculty of Graduate Studies.

PHSP 552  Units: 1.5
Healthy Public Policy Strategies
Examines an assortment of public health approaches, including policy techniques and plans relating to health promotion, policy analysis and advocacy, capacity building, forming partnerships and collaborations, and strengthening communities. Also considers the importance of healthy public policies for various groups facing health disparities.

PHSP 589  Units: 1.5 or 3.0
Practicum
All MPH students are required to complete a 450 hour practicum. This planned, supervised and evaluated practicum. This planned, supervised and evaluated

Prerequisite(s): All of PHSP 501, PHSP 502, PHSP 503, PHSP 504, PHSP 505, PHSP 506.
Corequisite(s): PHSP 508B.
Grading: INP, COM, INC, N, F.

PHSP 590  Units: 1.5-4.5
Directed Studies
Comprises individual studies involving directed readings, projects or special studies under the direction of a faculty member. A proposal is developed in consultation with a faculty member and includes a plan for the evaluation of the student's work. The proposal must be approved by the Director or Program Manager before students are allowed to register.
Note: May be taken more than once for credit in different topics with permission of the program to a maximum of 4.5 units.

PHSP 591  Units: 1.5
Special Topics in Public Health Studies
Focuses on specific interests of students and faculty members in the School of Public Health and Social Policy.
Notes:
• May be taken more than once for credit in different topics with permission of the program.

PHSP 599  Units: 6.0
Thesis
Students, working independently, with faculty guidance, complete a thesis to meet specific professional and academic goals. The thesis will entail research in a topic area chosen in consultation with the student's supervisory committee. The thesis option is an alternative to the Culminating Project (PHSP 598). Evaluation of this course will be carried out as per Faculty of Graduate Studies regulations.
Grading: INP, COM, N, F.

PHYS 500A  Units: 1.5
Formerly part of PHYS 500
Quantum Mechanics
Topics may include angular momentum and symmetries, perturbation theory, scattering theory, density operators, quantum statistical mechanics.
Note: Credit will be granted for only one of PHYS 500A, PHYS 500A.

PHYS 501A  Units: 1.5
Quantum Theory and Quantum Fields
Further topics in quantum theory, and an introduction to quantum field theory focusing on quantum electrodynamics.
Note: Credit will be granted for only one of PHYS 501A, PHYS 500B, PHYS 600A.

PHYS 501B  Units: 1.5
Advanced Quantum Field Theory
Further topics in quantum field theory.
Note: Credit will be granted for only one of PHYS 501B, PHYS 600B.

PHYS 502A  Units: 1.5
Classical Electrodynamics
The classical theory of electrodynamics. Topics may include: electrodynamics as a relativistic field theory; static and retarded potentials; waves and their propagation in dispersive media; radiation and scattering.
Note: Credit will be granted for only one of PHYS 502A, PHYS 502.

PHYS 507A  Units: 1.5
Solid State Physics I
First course on the quantum and classical physics of condensed matter: Electron energy band structure in crystals, ground state and quasiparticle excitations of metals and semiconductors; phonons, photons and the interactions between them.

PHYS 509  Units: 1.5
Standard Model Phenomenology
An introduction to the Standard Model of particle physics, including its symmetries and field-theoretic structure. Further topics may include a brief introduction to Lie groups and their applications, spontaneous symmetry breaking, Goldstone's theorem and the Higgs mechanism, aspects of quantum chromodynamics.
Note: Credit will be granted for only one of PHYS 509, PHYS 506B.

PHYS 511A  Units: 1.5
Topics in Nuclear and Particle Physics I
A selection of advanced topics in nuclear and/or particle physics.
Note: May be taken more than once for credit.

PHYS 513  Units: 1.5
Topics in Theoretical Physics
A graduate course covering more advanced techniques and/or topical subjects in theoretical physics. Content varies.
Note: May be taken more than once for credit.

PHYS 515  Units: 1.5
Data Analysis Techniques for Physics and Astronomy
An advanced course in data analysis for the physical sciences. Topics may include: numerical methods, probability theory, Monte Carlo methods, statistical analysis techniques, and signal and image processing.

PHYS 521A  Units: 1.5
Techniques in Nuclear and Particle Physics
Topics may include: interaction of particles in matter; particle detection techniques and technologies; principles of particle accelerators; survey of existing facilities.
Note: May be taken more than once for credit in different topics with permission of the department.

PHYS 522  Units: 1.5
Topics in Accelerator Physics
Note: May be taken more than once for credit.
PHYS 534  Radiotherapy Physics I  Units: 1.5  Principles of dosimetry of ionizing radiation with emphasis on applications to radiotherapy and radiobiology. Provides the basics of linear accelerator design as well as design of X-ray generating apparatus; also provides basics of electron and photon interactions with media, energy deposition in media, and radiation protection and shielding.

PHYS 535  Radiotherapy Physics II  Units: 1.5  A continuation of 534. Covers the physics and applied dosimetry of current external and internal irradiation treatment techniques.

PHYS 539  Radiation Dosimetry  Units: 1.5  The fundamentals of radiation dosimetry, ionization cavity theories and radiation dosimetry protocols. A variety of absolute and relative dosimetry techniques are also covered, with hands-on experience provided through a series of lab exercises on medical linear accelerators. Monte Carlo simulation of radiation transport for dosimetry applications is introduced.

PHYS 540  Medical Imaging  Units: 1.5  Fundamental theory and application of medical imaging, including radiology, computed tomography, magnetic resonance imaging, ultrasound, and nuclear medicine imaging. Basic principles, image formation and reconstruction, imaging instrumentation and hardware, and current trends of each imaging modality will be given.

PHYS 544  Topics in Radiation Biophysics  Units: 1.5  Topics in radiation biophysics, including DNA strand breaks, cell survival curves, fractionation and dose rate effects, oxygen effect, relative biological effectiveness, tumour radiation biology, radiation pathology, radiobiological modelling, stochastic and deterministic effects, and molecular techniques in radiobiology.

PHYS 545  Anatomy and Physiology for the Medical Physicist  Units: 0.5  WebCT based course covering basics of anatomy and physiology. Aimed at students in medical physics who are interested in clinical and/or academic careers that will require interaction with radiation oncologists and other health care professionals.

PHYS 546  Clinical Shadowing  Units: 0.5  Shadowing course designed to give the student some insight into the clinical aspects of the medical physics profession. Under the guidance of a clinical physicist, students progress through a series of clinical areas. Modules illustrate the collaborative nature of the profession and the interaction with other medical professionals.

PHYS 550  Topics in Condensed Matter Physics  Units: 1.5  A selection of advanced topics in modern condensed matter physics.

PHYS 560  Colloquium  Units: 0  Weekly physics and astronomy colloquium.

PHYS 561  Research Skills and Professional Development  Units: 0.0  Introduction to professional methods and best practices in research.

POLI 507  Comparative Policy and Governance  Units: 1.5  The study of diverging governance practices and policy outcomes in different jurisdictions. Focuses on: policy determinants such as history, culture, institutions, and the economy, policy dynamics and processes such as agenda-setting and decision-making, networks and communities, and policy change; and policy styles and transfer, referring to the state’s ability to design, coordinate, implement and, learn from policy interventions. Students will review seminal studies and undertake a comparative policy project.

POLI 508  Comparative Politics  Units: 1.5  An examination of key issues and debates in the study of comparative politics. Involves a survey of the major literature in this field of political science.

POLI 509  Political Theory  Units: 1.5  An examination of key issues and debates in the study of political theory. Involves a survey of the major literature in this field of political science.

POLI 514  Politics of the European Union  Units: 1.5  An examination of key issues and debates in the study of the politics of the European Union. It will involve a survey of the major literature in the field of European politics.

POLI 516  Canadian Politics  Units: 1.5  An examination of key issues and debates in the study of Canadian politics. Involves a survey of the major literature in this field of political science.

POLI 520  Thesis  Units: 9.0  Thesis

POLI 533  Themes in Contemporary Politics  Units: 1.5  A seminar dealing with an important theme or themes in contemporary politics. The content will vary from year to year.

POLI 540  International Relations  Units: 1.5  An examination of key issues and debates in the study of international relations. Involves a survey of the major literature in this field of political science.
POLI 600 - Professional Development Seminar
A compulsory seminar for PhD students in Political Science that runs from September until April. Students are introduced to the professional aspects of the discipline including: how to write grant applications, how to teach effectively, how to design a syllabus and a CV, how to contribute to the administrative and intellectual community in their department and in political science more broadly.
Grading: INP, COM, N, F.

POLI 605 - Problems of Political Analysis
A further examination of theoretical viewpoints in the study of politics. Intended for doctoral candidates preparing for comprehensive examinations.

POLI 607 - Comparative Policy and Governance
An examination of key issues and debates in the study of comparative politics. It involves a survey of the major literature in this field of political science. Intended for doctoral candidates preparing for a comprehensive examination in the field.

POLI 608 - Comparative Politics
An examination of key issues and debates in the study of comparative politics. It involves a survey of the major literature in this field of political science. Intended for doctoral candidates preparing for a comprehensive examination in the field.

POLI 609 - Political Theory
An examination of key issues and debates in the study of political theory. It involves a survey of the major literature in this field of political science. Intended for doctoral candidates preparing for a comprehensive examination in the field.

POLI 610 - Theories of Public Management
Explores different theories and approaches to understanding public administration and reform. Considers variations in three areas: political and constitutional authority, accountability and responsibility, and the roles of elected and non-elected officials; government structures, responsibilities for policy and service delivery, and distributed governance; and patterns and trends in central decision-making, budgeting, control, transparency, and citizen engagement. Students will review seminal comparative studies on administrative practice and reform and undertake a comparative study on a selected topic.
Note: Credit will be granted for only one of POLI 610, ADMN 604.

POLI 614 - Politics of the European Union
An examination of key issues and debates in the study of the politics of the European Union. It involves a survey of the major literature in the field of European politics.
Note: Credit will be granted for only one of POLI 614, POLI 633 (if taken in the same topic).

PSYC 502 - Research Apprenticeship
May be taken more than once for credit in different topics with permission of the department.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology;
• Permission of the department.
Grading: INP, COM, N, F.

PSYC 504 - Individual Study
May be taken more than once for credit in different topics with permission of the department.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology;
• Permission of the department.
Grading: INP, COM, N, F.

PSYC 506A - Psychology Clinic Practice
Supervised psychological practice in the Psychology Clinic, Department of Psychology.
Note: May be taken more than once for credit in different topics.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology;
• Permission of the department.
Grading: INP, COM, N, F.

PSYC 506B - Psychology Clinic Practice Test Mastery
Supervised test mastery in the Psychology Clinic, Department of Psychology.
Note: Credit will be granted for only one of PSYC 506B, PSYC 506.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology;
• Permission of the department.
Pre- or Corequisite(s): PSYC 545.
Grading: INP, COM, N, F.
PSYC 507 - Personality

Units: 1.5

Notes:
- May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
- The specific content area will be designated prior to registration.

PSYC 512 - Research Practicum

Units: 1.5-4.5

Practice in a research setting with emphasis on planning, conducting, analyzing, and/or writing up research results under the supervision of faculty.

Notes:
- May be taken more than once for credit in different topics.
- The student must consult with the proposed research supervisor about the content and nature of the research activity prior to registration and complete a Pro Forma. The content must differ from but may be related to PSYC 507 or 699.

Prerequisite(s): Permission of the department.

Grading: INP, COM, N, F.

PSYC 513 - Quantitative Analysis

Units: 1.5-6.0

Topical seminars on specialized issues related to quantitative analysis.

Notes:
- May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
- The specific content area will be designated prior to registration.

PSYC 517 - Research Methods in Psychology

Units: 1.5

Notes:
- May be taken more than once for credit in different topics with permission of the department to a maximum of 6 units.
- The specific content area will be designated prior to registration.

PSYC 521 - Human Motivation

Units: 1.5

Review of theory and research examining human motivation. Special topics include goals, intrinsic and extrinsic motivation, social and achievement motivation, self-efficacy, self-regulation, unconscious motivation, and growth motivation. Emphasis is placed on the social and cognitive perspective on motivation.

PSYC 526 - Special Topics in Personality and Social Psychology

Units: 1.5

Topical seminars on specialized issues related to personality and social psychology.

Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 527 - Research Methods in Social Psychology

Units: 1.5

In-depth examination of state-of-the-science research methods in social psychology. The topics may include experimental and quasi-experimental research designs, surveys, cross-cultural and longitudinal methods, event-sampling methods, psychophysiological methods, implicit measure and priming techniques, content and narrative analysis, computer simulation, data analytical strategies, ethics. Emphasis is placed on the more recent advancements in research methods in social psychology and on the research interests and expertise of the instructor.

PSYC 530 - The Social Self

Units: 1.5

Seminar review of theory and research examining current social psychological research and theory on the self. Special topics include self-concept, self-esteem, motivation and the self, and the self in close relationships. Emphasis is placed on the more recent advancement in social and personality psychology of the self.

PSYC 532 - General Linear Model - Univariate

Units: 1.5

Presents a model-comparison approach to the analysis of a single dependent variable. Topics include simple and multiple regression involving continuous independent variables, categorical independent variables (ANOVA designs), and mixtures of the two (covariance analysis). Also covered will be logistic regression, data screening and outlier detection, testing of model assumptions, data transformation, and repeated measures models.

PSYC 533 - General Linear Model - Multivariate

Units: 1.5

Topics generally include multivariate multiple regression, principle component and factor analysis, canonical correlation analysis, multivariate analysis of variance, discriminant function analysis and logistic regression.

Prerequisite(s): PSYC 532.

PSYC 534 - Univariate Design and Analysis

Units: 1.5

An examination of various factorial designs for univariate data from an advanced perspective. For a number of frequently used designs (e.g., completely randomized, randomized block, and repeated measures), planned comparisons, tests of the models’ assumptions, expected mean squares, and interpreting interactions (e.g., simple main effects) will be covered. Students will be required to learn and use statistical software packages, such as SPSS and SAS. Time and interest permitting, a brief introduction to other modelling procedures for response time and accuracy data will be offered.

PSYC 537 - Multilevel Modeling

Units: 1.5

Provides an introduction to concepts and practical application of multilevel models for nested data structures, including experimental and longitudinal data.

Prerequisite(s): PSYC 532.

PSYC 540 - History and Theory in Neuropsychology

Units: 1.5

Survey of major topics and issues in clinical and experimental neuropsychology, including a historical introduction and recent material. Topics may include aphasia, agnosia, agraphia, apraxia, other clinical syndromes, and hemispheric specialization.

Note: Students who have completed an equivalent undergraduate human neuropsychology course may request permission to register in the course.

Prerequisite(s):
- PSYC 315; or
- permission of the program.

PSYC 541 - Research Design and Methods in Neuropsychology

Units: 1.5

Seminar on research methods and designs in studying brain/behaviour relationships, the strengths and limitations of various methods, and the populations and research questions for which they are used.

PSYC 543 - Behavioural Neuroanatomy

Units: 1.5

Introduction to human neuroanatomy, neurophysiology and neurochemistry, with an emphasis on relationships between structure, function and behaviour.

Prerequisite(s): Permission of the department.

PSYC 545 - Neuropsychological Assessment

Units: 1.5

In-depth examination of general approaches and models for neuropsychological assessment. This includes evaluation of multiple areas of cognitive functioning, including attention, memory, executive functions, language, perceptual skills and motor abilities. Test interpretation, case analysis, and report writing skills will also be emphasized.

Prerequisite(s):
- PSYC 384; and
- admission to a graduate program in Clinical Psychology.
PSYC 546A - Units: 1.5
Advanced Neuropsychology: Children and Adolescents
In depth examination of typical neurodevelopment and associated acquired and neurodevelopmental disorders of children and adolescents, including a discussion of cognitive and behavioural profiles and techniques of neuropsychological assessment.
Prerequisite(s):
• All of PSYC 506B, PSYC 540, PSYC 545, PSYC 584; and
• admission to a doctrinal program in Clinical Psychology; and
• permission of the department.
Grading: INC, COM, N, F.

PSYC 546B - Units: 1.5
Advanced Neuropsychology: Adults
In depth examination of typical neurodevelopment and associated acquired and neurodevelopmental disorders of adults, including a discussion of cognitive and behavioural profiles and the techniques of neuropsychological assessment.
Prerequisite(s): Permission of the department.
Grading: INC, COM, N, F.

PSYC 547 - Units: 1.5
Neuropsychological Intervention in Adults
Introduction to theory and techniques associated with management of neurological disorders. Topics include the relationship between impairment, disability, and handicap, current techniques in cognitive rehabilitation, and interventions with individuals and families.
Prerequisite(s): Permission of the department.
Grading: INC, COM, N, F.

PSYC 548 - Units: 1.5
Special Topics in Neuropsychology
Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 549 - Units: 1.5
Neuropsychological Intervention in Children and Adolescents
Introduction to theory, methods and techniques associated with management of neurological, neuropsychological and learning disorders in children and adolescents. Topics include the relationship among impairment, disability, and functional status, with current empirically-based approaches for remediation and/or compensation of cognitive and academic skill defects. Interventions will focus on individual children and families within both educational and social contexts.
Note: Enrolment may be limited.
Prerequisite(s):
• Admission to a doctoral program; and
• permission of the department.
Grading: INC, COM, N, F.

PSYC 555A - Units: 1.5
Formerly: part of PSYC 531
Environmental Psychology of the Built Environment
Seminar review of theory and research in the environmental psychology of the built environment. The topics may include social design of buildings, human behaviour as it relates to built environments, environmental perception and cognition, and person-environment transactions in residences, neighbourhoods, schools, workplaces, retail stores, and public spaces.
Note: Credit will be granted for only one of PSYC 531, PSYC 555A.

PSYC 555B - Units: 1.5
Formerly: part of PSYC 531
The Psychology of Nature, Sustainability, and Climate Change
Seminar review of theory and research in the environmental psychology of nature. The topics may include sustainability-related behaviour, psychological restoration from nature, resource management, sustainability, and the psychological aspects of climate change.
Note: Credit will be granted for only one of PSYC 531, PSYC 555B.

PSYC 556 - Units: 1.5
Formerly: part of PSYC 561
Research Methods in Lifespan Psychology
A critical examination of research designs and analytical approaches for understanding developmental and aging-related change and variation. Includes cross-sectional, longitudinal, sequential, experimental, and qualitative approaches.

PSYC 561 - Units: 1.5
History and Theories in Lifespan Psychology
Seminar review of major classical and contemporary theoretical perspectives and their implications for the study of psychological development across the lifespan. Emphasis on differences among theoretical perspectives with respect to central developmental issues such as concepts of change, sources of development, and the universality of developmental laws and findings.

PSYC 562 - Units: 1.5
Infancy and Childhood
Seminar review of theory and research examining psychological development from infancy through childhood. Special topics include personality/temperament, attachment, parent-child relations, and socialization process. Emphasis is placed on the role of the context in individual development.

PSYC 563 - Units: 1.5
Adult Development and Aging
Seminar review of theory and research examining psychological processes during adulthood and aging. Specific topics include memory, intelligence, problem solving, personality, social processes, and mental health. Attention is also given to the biological and sociocultural contexts of these developments.

PSYC 564 - Units: 1.5
Advanced Analysis of Change and Variation
The emphasis is the general linear mixed model for repeated measurements and other nested data structures. Both multilevel and structural equation models will be examined and applied to longitudinal data. Special topics include time invariant and time-varying covariates, evaluation of alternative time structures, change in factor-level outcomes and analysis of intensive repeated measures designs.
Note: May be taken more than once for credit in different topics with permission of the department to a maximum of 3 units.
Prerequisite(s):
• PSYC 532 and PSYC 533; or
• permission of the department.

PSYC 565 - Units: 1.5
Cognitive Development in Adulthood and Aging
Seminar review of theory and research examining gains and losses in various cognitive skills from young adulthood to old age. Traditional experimental, psychometric, and cognitive science approaches are considered. Specific topics include age-related change in memory, intelligence, problem solving, reading skills, as well as practical and social cognition.

PSYC 567 - Units: 1.5
Dysfunctional Development in Adulthood and Aging
Seminar review of theory and research examining dysfunctional and pathological processes in later life. Specific topics include dementia, depression, personality disorders, alcoholism and other addictions and suicide. Attention will be given to issues of etiology, diagnosis, treatment, and impact on caregivers.

PSYC 568 - Units: 1.5
Adolescence
Seminar review of theory and research examining psychological processes during adolescence. Specific topics include pubertal maturation, parent-adolescent relations, gender roles, sexuality, and problem behaviour. Attention will be given to the role of the context (e.g., family, school) in adolescent development.

PSYC 569 - Units: 1.5
Formerly: PSYC 562
Special Topics in Lifespan Development
Topical seminars on specialized issues related to lifespan development and aging.
Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 570 - Units: 1.5 or 3.0
Also: LING 370
Psycholinguistics
A seminar offered in collaboration with the department of Linguistics. Selected topics of interest in understanding the comprehension and production of natural language are examined. The most recent topics have been sentence processing, discourse analysis, linguistic inference and the resolution of ambiguity, and the development of cognitive science interests in reasoning and discourse processes as well as the structure of mental representations.
PSYC 574A - Units: 1.5
Cognitive Methods: Electroencephalography and Event-related Brain Potentials
An intensive, hands-on introduction to the basics of collecting and analyzing event-related brain potential (ERP) data.
Notes:
• Credit will be granted for only one of PSYC 574A, PSYC 574B (if taken in the same topic), PSYC 576C (if taken in the same topic).
• Enrolment is limited to 5 students.
Prerequisite(s): Permission of the department.

PSYC 574B - Units: 1.5
Cognitive Methods: Functional Magnetic Resonance Imaging
Introduction to theory and methods of functional magnetic resonance imaging (fMRI) for the study of mind and brain using lectures, discussions and hands-on lab exercises. Includes underlying physics and physiology, experimental design, data collection and preprocessing, statistical analysis, and various advanced methods.
Note: Credit will be granted for only one of PSYC 574A, PSYC 574B, PSYC 579 (if taken in the same topic).

PSYC 574C - Units: 1.5
Cognitive Methods: Computational Modelling
Exploration of methods of computational modelling of cognitive processes. Methods covered may include mathematical models, symbolic models, and neural network models. Theoretical foundations, procedures for fitting models, and applications to cognitive psychology and cognitive neuroscience will be considered.
Note: Credit will be granted for only one of PSYC 574C, PSYC 576C (if taken in the same topic).

PSYC 576A - Units: 1.5
Cognitive Processes: Human Memory
Exploration of current theories and research on selected aspects of human memory. One or more major topics within the domain of human memory will be studied in depth.
Note: May be taken more than once for credit in different topics to a maximum of 6 units.

PSYC 576D - Units: 1.5
Cognitive Processes: Cognitive Control
Exploration of selected theories and research in cognitive psychology and/or the cognitive neuroscience of cognitive control. One or more major topics within the domain of cognitive control (e.g. working memory, attention, error detection, conflict monitoring, response inhibition, and/or decision making) will be studied in depth.
Note: May be taken more than once for credit in different topics with permission of department to a maximum of 6 units.

PSYC 576E - Units: 1.5
Cognitive Processes: Visual Perception
Exploration of current theories and research on selected aspects of visual perception. One or more major topics (e.g., object recognition, Gestalt perception, neuropsychology of visual perception) will be studied in depth.
Notes:
• Credit will be granted for only one of PSYC 576E, PSYC 571 if taken in the same topic).
• May be taken more than once for credit in different topics with permission of department to a maximum of 6 units.

PSYC 577 - Units: 1.5
Cognitive Seminar
Weekly seminar throughout the Winter session, involving faculty and graduate students in the Cognitive Psychology Program. Seminar participants take turns hosting the meeting, typically by presenting a paper on recent or ongoing cognitive psychological research.
Note: May be taken more than once for credit to a maximum of 9 units.
Prerequisite(s):
• Admission to a graduate program in Cognitive Psychology, or
• permission of the department.
Grading: INC, COM, N, F.

PSYC 578 - Units: 1.5
Research Methods in Clinical Psychology
Psychological research design issues with clinical populations. Topics include randomized controlled trials, efficacy versus effectiveness research, statistical versus clinical significance, cross-sectional and longitudinal research designs with clinical populations, qualitative methods and content analysis, single case experiments and case study methods, cognitive and physiological measures, observational methods, meta-analysis, program evaluation, and clinical research ethics. Issues of gender, age, and cultural diversity in clinical research are discussed throughout the course.

PSYC 581 - Units: 1.5
Psychopathology: Childhood and Adolescence
Discussion of conceptual models used to understand psychopathology; presentation of various mental disorders from multiple theoretical perspectives; discussion of diagnostic issues emphasizing the impact of gender and culture in the expression of “abnormal” behavior. Emphasis on disorders that emerge during childhood and adolescence. Topics are considered from a scientist-practitioner perspective. Includes discussion of relevant professional issues in clinical psychology.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.

PSYC 582 - Units: 1.5
Psychopathology: Adulthood
Draws on models for understanding psychopathology developed in PSYC 581. Discussion of conceptual models used to understand psychopathology, presentation of various mental disorders from multiple theoretical perspectives; discussion of diagnostic issues emphasizing the impact of gender and culture in the expression of “abnormal” behavior. Emphasis is on disorders that emerge during adulthood. Topics are considered from a scientist-practitioner perspective. Includes discussion of relevant professional issues in clinical psychology.
Prerequisite(s):
• PSYC 581; and
• admission to a graduate program in Clinical Psychology.

PSYC 583 - Units: 1.5
Professional and Ethical Issues in Clinical Psychology
Discussion of ethical standards for providers of psychological services and of registration requirements as required by BCPA, CPA and APA. Presentations by practising psychologists related to professional and interprofessional problems encountered in practice.
Note: Enrolment may be limited.
Prerequisite(s):
• Admission to a graduate program in Clinical Psychology, and
• permission of the department.

PSYC 584 - Units: 1.5
Clinical Assessment: Cognitive Functioning
Introduction to theory and practice in the assessment of cognitive functioning and academic achievement, including test administration, scoring, interpretation, and report writing. Test administration proficiency and individual case study interpretation are required during formal laboratory experiences.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.
Grading: INC, COM, N, F.

PSYC 585 - Units: 1.5
Clinical Assessment: Psychosocial Functioning
Introduction to theory and practice in the psychological assessment of social, emotional and personality functioning.
Prerequisite(s): Admission to a graduate program in Clinical Psychology.
Grading: INC, COM, N, F.

PSYC 586A - Units: 1.5
Advanced Clinical Assessment
Advanced theory and professional issues in the psychological assessment of social, emotional and personality functioning.
Note: Enrolment may be limited.
Prerequisite(s):
• PSYC 585; and
• admission to a graduate program in Clinical Psychology, and
• permission of the department.
Grading: INC, COM, N, F.

PSYC 586B - Units: 1.5
Practice in Advanced Clinical Assessment
Supervised practicum in the psychological assessment of social, emotional and personality functioning.
Note: Enrolment may be limited.
Prerequisite(s):
• PSYC 585; and
• admission to a graduate program in Clinical Psychology, and
• permission of the department.
Pre- or Corequisite(s): PSYC 586A.
Grading: INC, COM, N, F.
## PSYC 588  
**Units:** 1.5  
**Child and Adolescent Therapy**  
Introduction to different theoretical approaches to child psychotherapy and a discussion of techniques; supervised experience will be offered in subsequent sections.  
**Notes:**  
- May be taken more than once for credit in different topics to a maximum of 4.5 units.  
- Enrolment may be limited.  
**Prerequisite(s):**  
- Admission to a graduate program in Clinical Psychology;  
- PSYC 589; and  
- permission of the department.  
**Grading:** INP, COM, N, F.  

## PSYC 589  
**Units:** 1.5  
**Introduction to Evidence-Based Adult Psychotherapies**  
Overview of theory, research, and practice in adult psychotherapy. Introduction to the major schools of psychotherapy and to the common factors present across forms of psychotherapy. Beginning therapy skills will be developed through role plays and experiential exercises. Supervised experience is offered in 590.  
**Prerequisite(s):** Admission to a doctoral program in Clinical Psychology.  

## PSYC 590  
**Units:** 1.5  
**Practical Issues and Challenges in Adult Psychotherapy**  
An advanced psychotherapy course that builds upon the introductory therapy skills developed in 589. Includes didactic seminar and group case consultation.  
**Note:** Enrolment may be limited.  
**Prerequisite(s):**  
- PSYC 589; and  
- admission to a doctoral program in Clinical Psychology; and  
- permission of the department.  
**Grading:** INP, COM, N, F.  

## PSYC 591  
**Units:** 1.5  
**Special Topics in Clinical Psychology**  
Introduction to any one or more specialized therapeutic techniques for working with individuals in clinical settings.  
**Note:** May be taken more than once for credit in different topics to a maximum of 6 units.  
**Prerequisite(s):** Admission to a graduate program in Clinical Psychology.  
**Grading:** INP, COM, N, F.  

## PSYC 592  
**Units:** 1.5  
**Clinical Psychology Colloquium**  
Weekly colloquium through the Winter session, involving faculty and graduate students in the Clinical Psychology Program. Colloquium participants take turns hosting the meeting, typically presenting on current clinical practice issues, cases, or research.  
**Note:** May be taken more than once for credit to a maximum of 7.5 units.  
**Prerequisite(s):** Admission to a graduate program in Clinical Psychology.  
**Grading:** INP, COM, N, F.  

## PSYC 593  
**Units:** 1.5  
**Family Interventions**  
Introduction to various theoretical approaches to family interventions. Specific techniques are explored through readings, discussions, assignments, and role plays.  
**Note:** Enrolment may be limited.  
**Prerequisite(s):**  
- PSYC 589; and  
- admission to a doctoral program in Clinical Psychology; and  
- permission of the department.  
**Grading:** INP, COM, N, F.  

## PSYC 594  
**Units:** 1.5  
**Special Topics in Clinical Intervention**  
Introduction to any one or more specialized therapeutic techniques for working with individuals in clinical settings.  
**Note:** May be taken more than once for credit in different topics to a maximum of 6 units.  
**Prerequisite(s):** Admission to a graduate program in Clinical Psychology.  
**Grading:** INP, COM, N, F.  

## PSYC 595  
**Units:** 1.5  
**Cognitive Behavioural Therapy**  
An advanced psychotherapy course that provides students with an understanding of the theory and clinical skills associated with Cognitive-Behavioural Therapy. Theory and specific techniques are explored through readings, class discussion, class assignments and role-plays.  
**Note:** Credit will be granted for only one of PSYC 595, PSYC 594 (if taken in the same topic).  
**Prerequisite(s):**  
- PSYC 589; and  
- admission to a doctoral program in Clinical Psychology.  
**Grading:** INP, COM, N, F.  

## PSYC 596  
**Units:** 1.5  
**Interpersonal Therapies**  
An advanced psychotherapy course that provides students with an understanding of the theoretical underpinnings of the major interpersonal therapies and the role of interpersonal process in therapy in general. Specific theories and techniques are explored through readings, class discussion and class assignments.  
**Note:** Credit will be granted for only one of PSYC 596, PSYC 594 (if taken in the same topic).  
**Prerequisite(s):**  
- PSYC 589; and  
- admission to a doctoral program in Clinical Psychology.  
**Grading:** INP, COM, N, F.  

## PSYC 597  
**Units:** 1.5  
**Clinical Psychology Colloquium**  
Weekly colloquium through the Winter session, involving faculty and graduate students in the Clinical Psychology Program. Colloquium participants take turns hosting the meeting, typically presenting on current clinical practice issues, cases, or research.  
**Note:** May be taken more than once for credit to a maximum of 7.5 units.  
**Prerequisite(s):** Admission to a graduate program in Clinical Psychology.  
**Grading:** INP, COM, N, F.  

## PSYC 599  
**Units:** 6.0  
**Thesis**  
**Grading:** INP, COM, N, F.  

## PSYC 602  
**Units:** 1.0-6.0  
**Independent Research**  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Pro Forma required.  
- The student must consult with the instructor about the area of study prior to registration.  
- A maximum of 6 units of 602 may be taken in any one Winter Session at the discretion of the student’s Supervisory Committee.  
**Prerequisite(s):** Permission of the department.  

## PSYC 603  
**Units:** 4.0  
**Advanced Clinical Practicum**  
Practicum in an approved clinical setting. 1 unit of credit is equivalent to approximately 100 hours.  
**Prerequisite(s):**  
- Admission to a graduate program in Clinical Psychology; and  
- permission of the department.  
**Grading:** INP, COM, N, F.  

## PSYC 604  
**Units:** 1.5-6.0  
**Individual Study**  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Pro Forma required.  
- The student must consult with the instructor about the area of study prior to registration.  
- A maximum of 6 units of 604 may be taken in any one Winter Session at the discretion of the student’s Supervisory Committee.  
**Prerequisite(s):** Permission of the department.  

## PSYC 605  
**Units:** 1.5 or 3.0  
**Practicum in the Teaching of Psychology**  
Teaching practicum with individual instructors of the department in areas of potential teaching interest for the student.  
**Note:** Pro Forma required.  
**Grading:** INC, COM, N, F.  

## PSYC 606  
**Units:** 15.0  
**Clinical Internship**  
Full-year internship with 1600 to 2000 hours of supervised practical experience in settings approved by the committee on clinical training.  
**Note:** Students who have completed a clinical course sequence may request permission to register in the course.  
**Prerequisite(s):** Permission of the department.  
**Grading:** INP, COM, N, F.
PSY 612 Units: 1.5-4.5
Advanced Research Practicum
Advanced practicum in research with an emphasis on coordination of a program of research in association with a faculty supervisor. Typically involves organization and training of research assistants, developing research protocols, management of research databases, statistical analysis, and preparation and submission of materials for publication as specified in a Pro Forma.
Notes:
• May be taken more than once for credit in different topics.
• The content must differ from but may be related to 699.
Prerequisite(s): Permission of the department.
Grading: INP, COM, N, F.

PSY 693 Units: 3.0
PhD Candidacy Examinations
Students enrol in PSY 693 while they prepare for and complete their doctoral candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until all candidacy examination requirements have been successfully completed. Students have 36 months from the time of first registration in the doctoral program to complete the exams. Students registered in 699 must also be registered in 693 concurrently until 693 is complete.
Grading: INP, COM, N, F.

PSY 699 Units: 15.0-30.0
PhD Dissertation
Pre- or Corequisite(s): PSYC 693.
Grading: INP, COM, N, F.

SDH Social Dimensions of Health
Social Dimensions of Health Program
Faculty of Social Sciences
These courses are offered in collaboration with the Faculties of Humanities, Education and Human and Social Development.

SDH 500A Units: 1.5
Interdisciplinary Perspectives on Health Research
Provides an overview of various health research paradigms. Covers fundamental theories, models, frameworks and topics that form the basis of interdisciplinary health research including: epidemiology, ethics, policy, health and wellness, chronic disease and the relationship between culture and health including Indigenous peoples. Coursework may include group discussion, academic writing, presentations, and a critical review of the literature. Topics are central to interdisciplinary health research and provide core competencies for developing independent research.

SDH 500B Units: 1.5
Interdisciplinary Methods Applied to Health Research
Provides an overview of qualitative, quantitative and mixed research methods employed in interdisciplinary research studies. Introduces students to research methods such as epidemiology, grounded theory, ethnography, case studies, surveys, experimental studies, secondary analyses of existing datasets and Indigenous methodologies. Course work may include proposal writing, presentations, and developing community partnerships. Methods are core to conducting health research and preparing independent research.
Prerequisite(s):
• SDH 500A; or
• permission of the program.

SDH 501A Units: 1.5
Social Dimensions of Health Perspectives Colloquium I
Exposes students to a range of health research paradigms, theories and frameworks in the context of health research studies and research programs. Introduces students to dimensions of research such as stakeholder engagement, community engagement and ethical consultation in studying urban, rural, minority, immigrant, and Indigenous groups. Students reflect on and present about their research interests.
Grading: INP, COM, N, F.

SDH 501B Units: 1.5
Social Dimensions of Health Methods Colloquium II
Exposes students to a range of research methods in the context of health research studies and research programs. Introduces students to research and knowledge mobilization methods and methodological issues where research is conducted in rural, urban, global and indigenous settings. Students present on their own research interests.
Prerequisite(s):
• SDH 501A; or
• permission of the program.
Grading: INP, COM, N, F.

SDH 500B Units: 1.5
Interdisciplinary Methods Applied to Health Research
Provides an overview of qualitative, quantitative and mixed research methods employed in various health research studies. Introduces students to research methods such as epidemiology, grounded theory, ethnography, case studies, surveys, experimental studies, secondary analysis of existing datasets and Indigenous methodologies. Course work may include proposal writing, presentations and developing community partnerships. Methods are core to conducting health research and preparing independent research.
Prerequisite(s):
• SDH 600A; or
• permission of the program.

SDH 601A Units: 1.5
Social Dimensions of Health Perspectives Colloquium II
Exposes students to a range of health research paradigms, theories and frameworks in the context of health research studies and research programs. Introduces students to research and knowledge mobilization methods and methodological issues where research is conducted in rural, urban, global and indigenous settings. Students present on their own research interests.
Prerequisite(s):
• SDH 601A; or
• permission of the program.
Grading: INP, COM, N, F.

SDH 600B Units: 1.5
Interdisciplinary Methods Applied to Health Research
Provides an overview of qualitative, quantitative and mixed research methods employed in various health research studies. Introduces students to research methods such as epidemiology, grounded theory, ethnography, case studies, surveys, experimental studies, secondary analysis of existing datasets and Indigenous methodologies. Course work may include proposal writing, presentations and developing community partnerships. Methods are core to conducting health research and preparing independent research.
Prerequisite(s):
• SDH 600A; or
• permission of the program.

SDH 601B Units: 1.5
Social Dimensions of Health Methods Colloquium II
Exposes students to a range of research methods in the context of health research studies and research programs. Introduces students to research and knowledge mobilization methods and methodological issues where research is conducted in rural, urban, global and indigenous settings. Students present on their own research interests.
Prerequisite(s):
• SDH 601A; or
• permission of the program.
Grading: INP, COM, N, F.

SDH 600B Units: 1.5
Interdisciplinary Methods Applied to Health Research
Provides an overview of qualitative, quantitative and mixed research methods employed in various health research studies. Introduces students to research methods such as epidemiology, grounded theory, ethnography, case studies, surveys, experimental studies, secondary analysis of existing datasets and Indigenous methodologies. Course work may include proposal writing, presentations and developing community partnerships. Methods are core to conducting health research and preparing independent research.
Prerequisite(s):
• SDH 600A; or
• permission of the program.

SDH 601B Units: 1.5
Social Dimensions of Health Methods Colloquium II
Exposes students to a range of research methods in the context of health research studies and research programs. Introduces students to research and knowledge mobilization methods and methodological issues where research is conducted in rural, urban, global and indigenous settings. Students present on their own research interests.
Prerequisite(s):
• SDH 601A; or
• permission of the program.
Grading: INP, COM, N, F.

SDH 600B Units: 1.5
Interdisciplinary Methods Applied to Health Research
Provides an overview of qualitative, quantitative and mixed research methods employed in various health research studies. Introduces students to research methods such as epidemiology, grounded theory, ethnography, case studies, surveys, experimental studies, secondary analysis of existing datasets and Indigenous methodologies. Course work may include proposal writing, presentations and developing community partnerships. Methods are core to conducting health research and preparing independent research.
Prerequisite(s):
• SDH 600A; or
• permission of the program.
Slavic Studies
Department of Germanic and Slavic Studies
Faculty of Humanities

SLST 501 Units: 1.5
Also: GMST 501
Introduction to the Disciplines of Germanic and Slavic Studies
An introduction to the research specialties that make up Germanic and Slavic Studies: literary and cultural studies, film studies, cultural history and second language acquisition. May include sessions on how to write a research grant proposal, do sophisticated library research, prepare a bibliography and write a thesis proposal.
Note: Credit will be granted for only one of SLST 501, GER 501, GMST 501.

SLST 502 Units: 1.5
Also: GMST 502
Theory and Practice
Introduces students to the theories and methodologies that animate the disciplines of Germanic and Slavic studies and may include topics such as professional skills, pedagogy and thesis writing.
Note: Credit will be granted for only one of SLST 502, GMST 502.

SLST 503 Units: 1.5
Also: GMST 503
Teaching in the Disciplines of Germanic and Slavic Studies
A practice-based introduction to course design, teaching strategies, methodologies and assessment tools in the teaching areas of Germanic and Slavic Studies.
Note: Credit will be granted for only one of SLST 503, GMST 503.

SLST 505 Units: 1.5
Advanced Russian Language Study
Research topics may include Russian morphology, phonetics, lexicology, and language acquisition.

SLST 509 Units: 1.5
Special Topics Field School
Exploration of cultural studies topics in European, German-speaking or Slavic countries. Promotes intercultural and experiential learning through joint workshops with European students and field research working at relevant cultural sites and with relevant artefacts. Topics vary.
Note: May be taken more than once for credit in a different topic.

SLST 511 Units: 1.5
Studies in Film
A critical analysis and study of films of the 20th and 21st century by Slavic and East European filmmakers.

SLST 521 Units: 1.5
Studies in Russian Literature and Culture
Examination of literary works and cultural processes in Russian and/or Soviet society.

SLST 522 Units: 1.5
Studies in Ukrainian Literature and Culture
Examination of literary works and cultural processes in Ukraine.

SLST 531 Units: 1.5
Studies in Slavic Cultural History
A cultural studies approach to texts, films, performances, media and material objects and spaces in Slavic and East European nations.

SLST 560 Units: 1.5
Slavic-Canadian Studies
Examination of the culture of Slavic and East European diasporas in Canada, as well as their impact on the creative processes in their home countries.

SLST 565 Units: 1.5
Seminar on Bakhtin
An interdisciplinary approach focusing on the major works and central concepts of the Russian philosopher and literary theorist Mikhail Bakhtin, as well as the application of these theories in diverse disciplines of study.

SLST 570 Units: 1.5
Studies in New Media in Second Language Acquisition
Critical examination of the current research on teaching a foreign language. Focus on learning and teaching outside of the language environment, foreign language learning theories, teaching methodologies and practices.
Note: Credit will be granted for only one of SLST 570, GMST 570.

SLST 581 Units: 1.5
Twentieth-Century Genocides in Eastern Europe
Examines the common and unique features of genocides, ethnic cleansings, and forced population transfers in twentieth-century Eastern Europe including the Ukrainian Famine, the Holocaust, and the Bosnian War.

SLST 590 Units: 1.5
Directed Studies in Slavic Studies I
Notes:
• May be taken more than once for credit to a maximum of 4.5 units.
• Pro Forma required.

SLST 591 Units: 1.5 Hours: 3-0-0
Directed Studies in Slavic Studies II
Notes:
• May be taken more than once for credit in different topics to a maximum of 4.5 units.
• Pro Forma required.

SLST 599 Units: 6.0-9.0
Thesis
Grading: INP, COM, N, F.

Sociology
Department of Sociology
Faculty of Social Sciences

SOCI 503 Units: 1.5
Current Issues in Social Theory
Examines major perspectives, themes, and debates in contemporary social theory. Emphasis on developing students’ abilities to use theoretical concepts in relation to their own research interests.
Note: Credit will be granted for only one of SOCI 504, SOCI 500.

SOCI 507 Units: 1.5
Intermediate Social Statistics
Statistical methods appropriate for quantitative sociological research, with an emphasis on regression models and their extensions and computer applications for these models.
Notes:
• Credit will be granted for only one of SOCI 507, SOCI 471, SOCI 371B (if taken prior to May 2011).
• A combined undergraduate and graduate course (SOCI 471).
Prerequisite(s):
• SOCI 271, or
• permission of the department.

SOCI 515 Units: 1.5
Qualitative Research
Key issues and methods in the systematic study of the social world through qualitative sociological research. Examination of the relationship between analytical perspective and methodological decisions, methods of gathering data and analysis. Includes issues of language, representation, politics, social organization and participation.
Prerequisite(s):
• SOCI 374, or
• permission of the department.

SOCI 520 Units: 1.5
Issues in Contemporary Sociology
A seminar exploring a topic of contemporary interest in sociology. Content is informed by faculty members’ current research and varies from year to year.
Note: Credit will be granted for only one of SOCI 520, SOCI 610 (if taken in the same topic).

SOCI 525 Units: 1.5
Current Issues in the Sociology of Genders and Sexualities
A seminar exploring a range of contemporary issues pertaining to genders, sexualities, and bodies. Content is informed by faculty members’ current research and varies from year to year.
SOCI 535 Units: 1.5
Current Issues in Political Sociology
A seminar exploring a range of contemporary issues pertaining to politics, movements, the state, and social and political change. Content is informed by faculty members’ current research and varies from year to year.

SOCI 545 Units: 1.5
Current Issues in the Sociology of Health and Aging
A seminar exploring a range of contemporary issues pertaining to the social determinants of health, illness, and aging. Content is informed by faculty members’ current research and varies from year to year.

SOCI 590 Units: 1.5
Directed Studies
Note: May be taken more than once for credit to a maximum of 3 units.
Prerequisite(s): Permission of the department.

SOCI 598 Units: 4.5
Major Research Paper
A piece of independent research work involving substantial analytical engagement with a defined area of sociology guided by one or more research questions.
Note: Normally, students are expected to complete two terms of coursework prior to registration.
Grading: INP, COM, N, F.

SOCI 599 Units: 7.5
Thesis
Note: Students who wish to register for the thesis must request permission to do so no later than 12 months after entering the MA program.
Prerequisite(s): Permission of the department.
Grading: INP, COM, N, F.

SOCI 608 Units: 1.5
Formerly: SOCI 508
Advanced Statistical Analysis
Advanced statistical models with applications to sociological research, which may include such topics as logistic models, count models, multilevel models, structural equation models, and models for longitudinal data. Also includes the use of computer statistical software for the analysis of data.
Notes:
• Credit will be granted for only one of SOCI 608, SOCI 508, SOCI 472, SOCI 501.
• Normally offered in alternate years.
Prerequisite(s):
• SOCI 507; or
• permission of the department.

SOCI 616 Units: 1.5
Advanced Strategies in Qualitative Research
Explores applied techniques for coding and systematically analyzing qualitative data with the assistance of computer-aided qualitative data analysis software (CAQDAS). Examines different strategies for communicating qualitative research findings to other researchers and the general public.
Note: Normally offered in alternate years.
Prerequisite(s):
• SOCI 515; or
• permission of the department.

SOCI 690 Units: 1.5
Directed Studies
Note: May be taken more than once for credit to a maximum of 3 units.

SOCI 693 Units: 3.0
PhD Candidacy Examinations
Students enrol in SOCI 693 for the duration of their preparation for their candidacy examinations. This begins at the time a student first enrols in the PhD program and continues until candidacy requirements have been completed. Students are expected to complete all required coursework and comprehensive exams within 25 months after entering the PhD program.
Grading: INP, COM, N, F.

SOCI 699 Units: 21.0
PhD Dissertation
Prerequisite(s): SOCI 693.
Grading: INP, COM, N, F.

SOCW Social Work
School of Social Work
Faculty of Human and Social Development

SOCW 505 Units: 1.5
Advanced Child Welfare Seminar
Explores topics of special interest in the development of child welfare practice from a critical, anti-oppressive and social justice perspective. Students are expected to conduct an analysis on a current child welfare topic they select in conjunction with the instructor.
Grading: INP, COM, N, F.

SOCW 506 Units: 4.5
Advanced Practicum
A minimum of 450 hours of advanced social work practice and demonstration of the application of critical analysis to practice are required. Faculty of Human and Social Development regulations concerning practica apply to the MSW practicum.
Prerequisite(s):
• 6 units of course and
• admission to MSW Advanced program.
Grading: INP, COM, N, F.

SOCW 506A Units: 4.5
MSWI Practicum
A minimum of 450 hours of social work practice and demonstration of the application of critical analysis to practice are required. Faculty of Human and Social Development regulations concerning practica apply to the MSWI practicum.
Prerequisite(s):
• 6 units of course and
• admission to MSWI.
Grading: INP, COM, N, F.

SOCW 510 Units: 1.5
Also: SPP 510
Policy Context of Practice
Reviews and analyzes a number of explanations of the policy making process. Examines who makes policy in both governmental and voluntary human service organizations and the impact of policy on consumers and practitioners. Analyzes the policy/practice interface and uses substantive policy domains to illustrate how policy both enhances and constrains practice and how practice in turn can influence policy. Students are encouraged to develop their own understandings of the contributions of practice to policy.
Note: Credit will be granted for only one of SOCW 510, SPP 510, HSD 510.
Prerequisite(s): Admission to MSW Advanced program.

SOCW 511 Units: 1.5
Contemporary Debates and Ethical Dilemmas in Social Work
Examines and critiques current debates, ideas and discourses relating to social work knowledge and practice, with a specific focus on ethics. Emphasis is placed on postmodern, feminist, anti-racist and Indigenous perspectives as they challenge prevailing assumptions about individualism, meritocracy, professionalism and philanthropy. Specifically looks at the contributions of these perspectives to a critical theorizing of professional practice and ethics.
Note: Credit will be granted for only one of SOCW 511, SOCW 501, SOCW 518.

SOCW 512 Units: 1.5
Knowledge and Inquiry: Re-Theorizing Social Work
Takes as its starting point the idea that responsible and effective professional and scholarly practice begins with a critical examination of how relations of power shape knowledge production. Over the term, arguments underlying the creation of knowledge and different approaches to knowing authoritative will be investigated. Questions of ‘how we come to know’ and ‘how we go about asking’ are explored through poststructural, postcolonial and critical race lenses.
Note: Credit will be granted for only one of SOCW 512, SPP 502, HSD 502.
Prerequisite(s): Admission to MSW Advanced program.

SOCW 515 Units: 1.5
Transnational Social Work
Transnational feminist theorists argue that transnationalism links contemporary notions of nationality, gender, race and class to earlier histories of colonization and present day imperialism. Students examine the practices of the securitized, neo-liberal Canadian welfare state towards transnational communities by: (a) understanding transnational feminist theories, (b) analyzing nation-making and global inequality, (c) reviewing practices of transnational feminist social justice activism, and (d) critiquing international social work in view of all of the above.
SOCW 516 Units: 1.5
Also: SPP 516
Research Methodologies
Critically reviews a wide range of research methodologies commonly practiced in the human services. Considers the kinds of opportunities and challenges presented by each methodology. Emphasizes the link between the development of a research question and the selection of methodological approaches.
Note: Credit will be granted for only one of SOCW 516, SPP 516, HSD 516.
Prerequisite(s): Admission to MSW Advanced program.

SOCW 517 Units: 1.5
Research Seminar
Focuses on specific methodological, analytical and/or theoretical aspects of research for the thesis. Is intended to support graduate students in the thesis research and writing that they undertake following the completion of their coursework. Content varies from year to year, depending on students’ interests and needs.
Notes:
• Students who are completing a thesis may request permission to register in the course.
• Registration in SOCW 517 is normally continued until the student’s thesis proposal has been approved by the supervisory committee.
Prerequisite(s):
• SOCW 516; and
• permission of the program.
Grading: INP, COM, N, F.

SOCW 521 Units: 1.5
Indigenous Perspectives on Knowledge and Research
Explores the dimensions of Indigenous ways of knowing that influence researching activities in Indigenous communities. Students will explore how, and from where, their own knowing emerges as well as critically examine how knowledge is constructed within larger society. Focuses on how power, culture, ethics, protocols, language, place and spirit shape knowledge.

SOCW 523 Units: 1.5
Self-Conscious Traditionalism in Indigenous Social Work Practice Seminar
Critical exploration of alternative models of Indigenous social work practice drawn from the literature and from their own practice. Concepts and skills of Indigenous leadership are also explored.

SOCW 526 Units: 1.5
Seminar in Health Policy and Practice in Indigenous Communities
Examination of critical issues in community health such as sexual abuse, substance misuse and family violence along with the collective steps that Indigenous (and other) communities have taken to restore health. The critical issues to be examined are determined collectively by students and faculty.

SOCW 531 Units: 1.5
Critical Exploration of Leadership Roles for Social Workers in Health Care
Inquiry based opportunity for students to critically examine their leadership styles and develop a foundational knowledge and skill base for effective involvement in organizational change, staff management, coaching and supervision, coordination of inter-professional teams and development of policies to address the social determinants of health.
Note: Offered as resources permit.

SOCW 532 Units: 1.5
Introduction to Social Work in the Health Care Sector
Examines the knowledge and skills required for social workers to be effective advocates while carrying out a range of responsibilities in the health sector within the context of a practice framework that focuses on the social determinants of health. The challenges and opportunities provided by the cultural and organizational contexts of practice in health care will be an important focus of the course for examining the inter-professional nature of practice. Particular aspects of practice such as appropriate documentation, informed consent and community development will be included.
Note: Offered as resources permit.

SOCW 533 Units: 1.5
Working with Trauma
Current theories and practices regarding the neurobiological, psychophysical and socio-cultural components of trauma. Four dimensions of experience will be explored: shock, developmental, accumulated stress, and socially and culturally-produced traumatic stress. Emphasis will be placed on concrete skills and strategies that have applicability to a wide variety of contexts. As well, students will learn to reduce the prevalence of secondary traumatization on themselves, colleagues, agencies and communities.
Note: Credit will be granted for only one of SOCW 533, SOCW 433, SOCW 580 (if taken in the same topic).

SOCW 534 Units: 1.5
Environmental Justice and Social Work
Environmentalism has gained prominence in social work scholarship and earlier practice models that ignored the physical environment are now critiqued. Students enter with political allegiance to green issues; educators find compatibility between professional practice and views on spirituality, environmental justice, and social service provision. Fears over environmental destruction and a general sense of disconnect from nature are finding traction. Students will explore these themes through the lenses of race, space, and environmental justice.

SOCW 540 Units: 4.5
Foundation Practicum
A minimum of 450 hours of social work practice and demonstration of the application of critical analysis to practice are required. Faculty of Human and Social Development regulations concerning practice apply to the MSW practicum.
Prerequisite(s):
• SOCW 541; and
• 3 units of SOCW (Foundation program core) courses.
Pre- or Corequisite(s): SOCW 546.
Grading: INP, COM, N, F.

SOCW 543 Units: 1.5
Theorizing Social Difference
How do we come to know who we are and how is this knowledge raced, embodied, engendered and embedded in a material context? These questions underpin social work knowledge and practice. Developing an analysis of social difference is a crucial skill for social workers. In this course students will be introduced to the concepts of marginalization and dominance as they play out in (primarily) North American contexts. The course will look at social work theories and knowledge as a departure point from which to explore interdisciplinary theorizations of concepts core to the profession.

SOCW 550 Units: 1.5
Social Justice, Social Work and the Law
And critical perspectives of law the legal system and the legal processes that have an impact on professional social work practice. Critically examine the interplay between marginalization, structural inequalities, social work, social justice and Canadian .

SOCW 551 Units: 1.5
Critically examines historical processes of colonization in Canada and resulting barriers embedded in policy and practices Indigenous peoples.
**SOCW 571**  
Units: **1.5**  
**MSW Capstone**  
A culminating educational experience to consolidate learning and demonstrate preparation for advanced social work practice. Students will integrate, articulate, and evaluate learning from the courses and practica in the MSW program within the context of their other professional activities and prior academic experiences.  
**Prerequisite(s):** Completion of all required coursework in the MSW program (excluding SOCW 506 or SOCW 506A).  
**Pre- or Corequisite(s):** SOCW 506 or SOCW 506A.  
**Grading:** INP, COM, N, F.

**SOCW 580**  
Units: **1.5 or 3.0**  
**Special Topics in Social Work and Social Welfare**  
A variable content course that deals with special issues in social welfare and approaches to social work practice.  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Offered as resources permit.

**SOCW 590**  
Units: **1.5 or 3.0**  
**Directed Studies**  
Individual studies under the direct supervision of a faculty member. The content, credit value, and method of evaluation must be approved by the instructor and the Graduate Advisor prior to registration.  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Pro Forma required.

**SOCW 596**  
Units: **3.0**  
**Team Graduating Research Project/Report**  
Exploration of creative ways to integrate and disseminate what students have learned from the Master of Nursing program. Students will produce a scholarly paper, present their work, and respond to questions.  
**Prerequisite(s):** 6 units of coursework in the MSW Advanced program (including SOCW 516).  
**Grading:** INP, COM, N, F.

**SOCW 598**  
Units: **3.0**  
**Individual Graduating Research Project/Report**  
Students working under social work faculty supervision complete a research project. This can include undertaking a research project for a social agency.  
**Prerequisite(s):** 6 units of coursework in the MSW Advanced program (including SOCW 516).  
**Grading:** INP, COM, N, F.

**SOCW 599**  
Units: **6.0**  
Formerly: HSD 599  
**Thesis**  
Specialized research on a topic area chosen in consultation with the student’s supervisory committee.  
**Note:** After 16 months of coursework, the student is required to have an approved proposal on file to maintain registration in SOCW 599.  
**Prerequisite(s):**  
- Completion of all required coursework in the MSW Advanced program (Thesis option); or  
- permission of the school.  
**Grading:** INP, COM, N, F.

**SPAN**  
**Spanish**  
**Department of Hispanic and Italian Studies**  
**Faculty of Humanities**

**SPAN 500**  
Units: **1.5**  
**Introduction to Bibliography and Methods of Research**

**SPAN 502**  
Units: **1.5**  
**Core Reading List Course I**  
**Grading:** INP, COM, N, F.

**SPAN 503**  
Units: **1.5**  
**Core Reading List Course II**  
**Also:** ITAL 505

**SPAN 505**  
Units: **1.5**  
**Medieval Literature**  
**Also:** ITAL 505

**SPAN 507**  
Units: **1.5**  
**Renaissance and Baroque Literature**  
**Note:** May be taken more than once for credit in different topics with permission of the department.

**SPAN 511**  
Units: **1.5**  
**Peninsular Literature from the 20th Century to the Present**  
**Note:** May be taken more than once for credit in different topics with permission of the department.

**SPAN 512**  
Units: **1.5**  
Formerly: SPAN 509, SPAN 517  
**Spanish and Latin American Literature of the 19th Century**  
**Notes:**  
- Credit will be granted for only one of SPAN 512, SPAN 509, SPAN 517  
- May be taken more than once for credit in different topics with permission of the department.

**SPAN 515**  
Units: **1.5**  
**Colonial Latin American Literature**  
**Note:** May be taken more than once for credit in different topics with permission of the department.

**SPAN 519**  
Units: **1.5**  
**Latin American Literature from the 20th Century to the Present**  
**Note:** May be taken more than once for credit in different topics with permission of the department.

**SPAN 590**  
Units: **1.5 or 3.0**  
**Directed Studies**

**SPAN 598**  
Units: **3.0**  
**Master’s Essay**  
**Grading:** INP, COM, N, F.

**SPAN 599**  
Units: **6.0**  
**MA Thesis/Oral**  
**Grading:** INP, COM, N, F.

**SPP**  
**Studies in Policy and Practice**  
**Faculty of Human and Social Development**

**SPP 580**  
Units: **1.5 or 3.0**  
**Special Topics in Studies in Policy and Practice**  
A variable content course which will focus on the policy, practice and/or research interests of faculty and students in the SPP Program.  
**Note:** May be taken more than once for credit in different topics.

**SPP 590**  
Units: **1.5 or 3.0**  
**Directed Studies**  
Individual studies under the direct supervision of one or more faculty members. The content, credit value, and method of evaluation must be approved by the instructor and the graduate advisor prior to registering in this course.  
**Notes:**  
- May be taken more than once for credit in different topics.  
- Pro Forma required.

**SPP 598**  
Units: **3.0**  
**Extended Essay**  
An in-depth examination of a topic related to policy and/or practice.  
**Grading:** INP, COM, N, F.

**SPP 599**  
Units: **6.0**  
**Thesis**  
Specialized research on a topic area chosen in consultation with the student’s supervisory committee.  
**Grading:** INP, COM, N, F.

**STAT**  
**Statistics**  
**Department of Mathematics and Statistics**  
**Faculty of Science**

**STAT 552**  
Units: **1.5**  
**Applied Stochastic Models**

**STAT 553**  
Units: **1.5**  
**Multivariate Analysis**  
Multivariate normal distribution; tests on covariance matrices; multivariate analysis of variance; discriminant analysis; classification analysis; cluster analysis; principal component analysis; factor analysis; multivariate regression analysis; canonical correlation; graphical procedures.

**STAT 554**  
Units: **1.5**  
**Time Series Analysis**  
Stationary time series; non-stationary time series; transformation; smoothing techniques; autoregressive moving average models; integrated models for non-stationary data; multiplicative seasonal ARIMA models; spectral analysis; linear filters.

**STAT 556**  
Units: **1.5**  
**Topics in Statistics**  
Topics include Analysis of Wildlife Populations, Bayesian Statistics, Bioinformatics, Biostatistics, Optimal design, Robust Statistics, Sampling Methods, Statistical Computing.  
**Note:** May be taken more than once for credit in different topics with permission of the department.
STAT 558  
Units: 1.5  
**Design and Analysis of Experiments**  
Basic principles of experimental design; factorial designs; block designs; fractional factorial designs; response surface designs; nested and split-plot designs; optimal designs; techniques of analysis of variance; fixed effects models; random effects models.

STAT 559  
Units: 1.5  
**Survival Analysis**  
Theory and techniques for censored and truncated data; nonparametric estimation of survival and cumulative hazard functions and associated hypothesis tests; semiparametric proportional hazards regression; survival models; regression diagnostics; inference for parametric regression models.

STAT 560  
Units: 1.5  
**Bayesian Statistics**  
Bayesian modelling; prior distributions; Jeffreys prior, posterior distributions, single and multi-parameter models; Bayesian point and interval estimation; Bayes factors and point null hypothesis testing; Bayesian computation; decision theory. Other topics may include: hierarchical modeling, Bayesian model selection.

Notes:  
- Credit will be granted for only one of STAT 460, STAT 454 (if taken in the same topic), STAT 560, STAT 556 (if taken in the same topic).
- May be offered as a joint undergraduate and graduate class.

STAT 562  
Units: 1.5  
**Distribution Free Statistics**  
Classical distribution free methods: tests based on the binomial distribution, contingency tables, methods based on ranks, statistics of the Kolmogorov-Smirnov type. Computing intensive distribution-free methods: re-sampling methods and empirical likelihood methods.

STAT 563  
Units: 1.5  
**Topics in Applied Statistics**  
Survival analysis, generalized linear models, multivariate normal models, resampling methods, nonparametric and robust methods, meta-analysis, miscellaneous techniques.

STAT 564  
Units: 1.5  
**Hours: 3-0-0**  
Also: STAT 464  
**Statistical Computing**  
Computer representation of numbers, univariate optimization, multivariate optimization, combinatorial optimization, genetic algorithms, EM algorithm, random number generation, numerical integration, simulation and Monte Carlo integration, Gibbs sampling, Metropolis-Hastings algorithm, bootstrapping. Other topics may include: permutation tests, smoothing, reversible jump MCMC, importance sampling, hybrid Gibbs sampling.

Notes:  
- Credit will be granted for only one of STAT 464, STAT 454 (if taken in the same topic), STAT 564, STAT 556 (if taken in the same topic).
- May be offered as a joint undergraduate and graduate class.

STAT 565  
Units: 1.5  
**Hours: 3-0-0**  
**Statistical Methods for Genomic Data**  
Introduction to genomic data and statistical methodology for its analysis; examples of data may include single-nucleotide polymorphisms or gene expression levels, generated from microarrays or next-generation sequencing. Statistical techniques may include data preprocessing, filtering, normalization, exploratory methods, visualization, dimension reduction, differential expression, generalized linear models, corrections for multiple comparisons, clustering, gene ontology analyses, genome-wide association studies.

Notes:  
- Credit will be granted for only one of STAT 565, STAT 556 (if taken in the same topic).
- May be offered as a joint undergraduate and graduate class.

STAT 566  
Units: 1.5  
**Robust Statistics**  
Influence function and breakdown point; efficiency and robustness; robust location and scale estimation; robust regression; robust covariance matrix estimation; robust k-means clustering; robust principal component analysis; outlier detection.

Notes:  
- Credit will be granted for only one of STAT 566, STAT 556 (if taken in the same topic).
- May be offered as a joint undergraduate and graduate class.

STAT 568  
Units: 1.5  
**Generalized Linear Models**  
Exponential family of distributions and generalized linear models; maximum likelihood estimation and inference; regression diagnostics; logistic regression; nominal and ordinal logistic regression; Poisson regression and log-linear models; clustered and longitudinal data.

STAT 589  
Units: 1.5  
**Statistics Seminar**  
Note: May be taken more than once for credit with permission of the department.

STAT 598  
Units: 3.0  
**Master's Project**  
Grading: INP, COM, N, F.

STAT 599  
Units: 6.0  
**Master's Thesis**  
Grading: INP, COM, N, F.

STAT 693  
Units: 3.0  
**Candidacy Examination**  
Grading: INP, COM, N, F.

STAT 699  
Units: 21.0-30.0  
**Dissertation**  
Corequisite(s): STAT 693.

Grading: INP, COM, N, F.

THEA 500A  
Units: 1.5  
**Formerly: THEA 500**  
**Methods and Materials of Theatre Research**  
Note: Credit will be granted for only one of THEA 500A, THEA 500.

THEA 500B  
Units: 1.5  
**Formerly: THEA 500**  
**Methods and Materials of Theatre Research**  
Note: Credit will be granted for only one of THEA 500B, THEA 500.
THEA 501 - WRIT 598

THEA 501 Units: 1.5 or 3.0
Seminar in History and Criticism of Tragedy

THEA 502 Units: 1.5 or 3.0
Seminar in History and Criticism of Comedy

THEA 503 Units: 1.5 or 3.0
Seminar in European Theatre History

THEA 504 Units: 1.5 or 3.0
Seminar in North American Theatre History

THEA 505 Units: 1.5 or 3.0
Seminar in Theatrical Styles

THEA 508 Units: 1.5 or 3.0
Scene Design

THEA 509 Units: 1.5 or 3.0
Lighting Design

THEA 510 Units: 1.5 or 3.0
Costume Design

THEA 511 Units: 1.5 or 3.0
Production

THEA 512 Units: 1.5 or 3.0
Directing

THEA 513 Units: 1.5 or 3.0
Seminar in Theatre Aesthetics

THEA 514 Units: 1.5 or 3.0
Seminar in Design

THEA 515 Units: 1.5 or 3.0
Seminar in Theatre History

THEA 516 Units: 1.5 or 3.0
Advanced Problems in Scene Design

THEA 517 Units: 1.5 or 3.0
Advanced Problems in Lighting Design

THEA 518 Units: 1.5 or 3.0
Advanced Problems in Costume Design

THEA 519 Units: 1.5 or 3.0
Advanced Problems in Directing

THEA 520 Units: 6.0
MFA Practicum

THEA 532 Units: 1.5
Workshop Facilitation
Principles of workshop design, and skills of facilitation and enabling in educational and community contexts.

THEA 533 Units: 1.5
Making Theatre
Explores the process of devising and the art of play-making.

THEA 535 Units: 1.5
Research Methods in Applied Theatre
Introduces different methodological approaches to researching and interpreting applied theatre practice, including qualitative and quantitative methods of theatre action research, ethnography and practice as research. Allows first-hand experience of conducting a theatre-based project and/or performance that targets a specific community.

THEA 590 Units: 1.5 or 3.0
Directed Studies
Note: May be taken more than once for credit in different topics with permission of the department.

THEA 598 Units: 4.5
MA Essay
Grading: INP, COM, N, F.

THEA 599 Units: 6.0
MA Thesis
Grading: INP, COM, N, F.

THEA 690 Units: 1.5-6.0
Directed Studies
Note: May be taken more than once for credit with permission of the department.
Prerequisite(s): Permission of the department.

THEA 693 Units: 3.0
Dissertation Proposal/Candidacy Exam
Grading: INP, COM, N, F.

THEA 699 Units: 30.0
Dissertation
Prerequisite(s): THEA 693.
Grading: INP, COM, N, F.

WRIT
Writing
Department of Writing
Faculty of Fine Arts

WRIT 500 Units: 1.5
Graduate Writing Workshop
A workshop in which students will focus on writing and workshops in one genre: poetry, fiction, creative nonfiction, playwriting or screenwriting.
Note: May be taken more than once for credit in different topics to a maximum of 4.5 units.

WRIT 501 Units: 1.5
Special Topics in Advanced Studies in Writing
A class that focuses on literary models, specific elements of craft, and topics of interest to writers in more than one genre.

WRIT 509 Units: 1.5
Instructional Skill Preparation
A seminar which focuses on pedagogy and teacher training in creative writing.

WRIT 590 Units: 1.5
Directed Studies in Instructional Skills Preparation
A course which focuses on teacher training in creative writing.

WRIT 591 Units: 1.5
Directed Studies in Writing
A course tailored to the needs of a particular student in consultation with the supervisor and in the student's area of studies.

WRIT 598 Units: 9.0
Major Writing Portfolio
The creation of an original creative writing portfolio in one of the following genres: poetry (30-50 pages), creative nonfiction (60-120 pages), fiction (60-120 pages), a stage play (60-100 pages), a film script (60-90 pages) or a production project with script/manuscript in one of the above genres.
Grading: INP, COM, N, F.
